On this day...In 1997, 21-year-old Tiger Woods wins the prestigious Masters Tournament by a record 12 strokes in Augusta, Georgia. It was Woods' first victory in one of golf's four major championships—the U.S. Open, the British Open, the PGA Championship, and the Masters—and the greatest performance by a professional golfer in more than a century.

Quote: "When you do the common things in life in an uncommon way, you will command the attention of the world." - **George Washington Carver**

Fact: [Apollo 13](#) was the seventh manned mission in the American Apollo space program and the third intended to land on the Moon. The craft was launched on April 11, 1970, from the Kennedy Space Center, but the lunar landing was aborted after an oxygen tank exploded two days later, crippling the Service Module (SM) upon which the Command Module (CM) depended. Despite great hardship caused by limited power, loss of cabin heat, shortage of potable water, and the critical need to jury-rig the carbon dioxide removal system, the crew returned safely to Earth on April 17.
