ORDA Weekly Update

Updated March 27, 2017

National Science Foundation Proposal and Award Policy Newsletter

The NSF Policy Office has a new Newsletter full of useful information, check it out!

https://www.nsf.gov/pubs/2017/nsf17064/nsf17064.pdf?WT.mc_id=USNSF_94

Workshops

Science of Motivation Applied to Writing

Writing is an integral part of academic life, but it is common to procrastinate, resulting in looming deadlines and guilt over incomplete projects. Learn how to apply the science of motivation to your writing, increase productivity and reduce stress!

Monday, March 27 (12:30–1:30); 302 Halle Library

Rescheduled! Multiple Regression using SPSS

Multiple regression, a very popular statistical method, allows us predict the value of a variable based on the value of two or more other variables. This workshop will give a hands-on introduction on how to carry out multiple regression using SPSS, including interpreting the output.

Wednesday, March 29 (12:30–1:30pm); G07C Halle Library

Applying to Institute of Education Sciences Brownbag

The IES is the nation's leading source for rigorous, independent education research. Join ORDA Pre-Award Officer Donelle Goerlitz and Robert Carpenter, Professor, Teacher Education and Director of the Educational Studies Doctoral Program for an informative session on how to successfully apply for IES funding.

Wednesday, April 5 (12:30–1:30pm); 310 Porter

Applying to the National Science Foundation CAREER Program Brownbag.

The NSF Faculty Early Career Development Program supports faculty who have the potential to serve as academic role models in research and education. Join ORDA Pre-Award Officer Susan Campbell for an informative session with tips on applying to this program.

Monday, April 10 (12:30–1:30pm); 200 Boone Hall

Writing Grant Proposals from the Reviewers' Perspectives

Christine Kahan Black, MLS. You won't want to miss this workshop if you are planning any grant writing this summer. The information-packed presentation will include lots of real-life examples and comments from reviewers. Christine Black was a research developer and administrator for over 30 years at the University of Michigan. For the past two decades her research development activities included training (in proposal writing, compliance, budgeting, administration, and finding funding opportunities), developing web-based resources for research development and implementation, editing, and providing mentoring. Most recently, she created a very successful program for young medical school faculty called the Mentored Research Academy: R01 Boot Camp.

Wednesday, April 12 (12:30–2:00pm); Honors College Reception Hall

RSVP to jglass5@emich.edu

Deadlines

Health and Human Services, Administration for Community Living

The Administration for Community Living (ACL), within the Department of Health and Human Services (HHS) is the federal agency responsible for increasing access to community supports, while focusing attention and resources on the unique needs of older Americans and people with disabilities, across the lifespan. Each year, Congress appropriates funds for use by ACL and other federal agencies in carrying out their mission. Grants and cooperative agreements are the vehicles by which ACL transfers its appropriated funding resources to grantees. Visit the website to view open funding opportunities.

https://acl.gov/Funding_Opportunities/Announcements/Index.aspx

Next Deadlines: May 9–16, 2017 (depending on funding opportunity)

National Science Foundation, Small Business Innovation Research Program (SBIR), Phase I

The National Science Foundation's Small Business Innovation Research (SBIR) program provides small business with equity-free funding to conduct research and development (R&D) work and de-risk technology for commercial success. The NSF SBIR program accepts innovative proposals that show promise of commercial and societal impact in almost all areas of technology. SBIR Phase I proposals are expected to undertake R&D with the aim of establishing technical feasibility or proof of concept. Successful applicants will receive a grant of up to \$225,000 over a period of 6 to 12 months (the period to be decided by the company).

Successful SBIR proposers will receive funding about 6 months after the solicitation deadline. Companies that receive a Phase I award are eligible to apply for a Phase II award (award amount up to \$750,000; duration 2 years). SBIR Program Directors host webinars in the weeks leading to the proposal deadline.

Next Deadline: June 14, 2017

National Science Foundation, Small Business Technology Transfer Program (SBIR), Phase I

The National Science Foundation's Small Business Technology Transfer (STTR) program provides small businesses with equity-free funding to conduct research and development (R&D) work and de-risk technology for commercial success. The NSF STTR program accepts innovative proposals that show promise of commercial and societal impact in almost all areas of technology. STTR Phase I proposals are expected to undertake R&D with the aim of establishing technical feasibility or proof of concept. Successful applicants will receive a grant of up to \$225,000 over a period of 6 to 12 months (the period to be decided by the company). Successful STTR proposers will receive funding about 6 months after the solicitation deadline. Companies that receive a Phase I award are eligible to apply for a Phase II award (award amount up to \$750,000; duration 2 years). STTR Program Directors host webinars in the weeks leading to the proposal deadline.

Next Deadline: June 14, 2017

National Institutes of Health, Advancing the Science of Geriatric Palliative Care (R01, R21)

Notice seeking applications focused on palliative care in geriatric populations. This FOA covers studies in a variety of settings including hospitals (and specific sites within hospitals including specialty medical or surgical wards, intensive care units, and emergency departments), post-acute care settings, outpatient clinics and doctors' offices, patients' homes and other residential settings, assisted living facilities, nursing homes, hospices, and other healthcare or community settings.

<https://grants.nih.gov/grants/guide/pa-files/PA-17-225.html>

Next Deadline: June 5, 2017

National Institutes of Health, Academic Research Enhancement Award (R15)

The goals of the AREA program are to support meritorious research, expose students to research, strengthen the research environment of the institution. Project period is limited to 3 years, and grants are renewable.

<https://grants.nih.gov/grants/funding/area/area.htm>

Next Deadline: June 25, 2017

National Science Foundation, Faculty Early Career Development Program (CAREER)

The CAREER Program is a Foundation-wide activity that offers the National Science Foundation's most prestigious awards in support of early-career faculty who have the potential to serve as academic role models in research and education and to lead advances in the mission of their department or organization. Activities pursued by early-career faculty should build a firm foundation for a lifetime of leadership in integrating education and research. NSF encourages submission of

CAREER proposals from early-career faculty at all CAREER-eligible organizations and especially encourages women, members of underrepresented minority groups, and persons with disabilities to apply.

<https://www.nsf.gov/pubs/2017/nsf17537/nsf17537.htm>

Next Deadline: July 19, 20, or 21, 2017 (depending on Directorate)
