Deadlines

National Science Foundation, Leading Engineering for America’s Prosperity, Health, and Infrastructure

The LEAP HI program challenges the engineering research community to take a leadership role in addressing demanding, urgent, and consequential challenges for advancing America’s prosperity, health and infrastructure. LEAP HI proposals confront engineering problems that are too complex to yield to the efforts of a single investigator --- problems that require sustained and coordinated effort from interdisciplinary research teams, with goals that are not achievable through a series of smaller, short-term projects. LEAP HI projects perform fundamental research that may lead to disruptive technologies and methods, lay the foundation for new and strengthened industries, enable notable improvements in quality of life, or reimagine and revitalize the built environment.

Next Deadline: Letters of Intent due December 15, 2017 ; Full Proposal due February 20, 2018

Centers for Disease Control and Prevention, Domestic Violence Prevention Enhancement and Leadership through Alliances Impact

Notice seeking applications to help reduce intimate partner violence (IPV) risk factors and increase IPV protective factors by: 1) increasing strategic data-driven planning and executing community and societal level prevention activities; 2) furthering the development of evidence-based community and societal-level programs and policy efforts

to prevent IPV; and 3) supporting the integration of prevention goals and action steps throughout the state and local level capacity building activities.
