**UNITED WAY CAMPAIGN IN NEED OF DONATIONS:** The United Way workplace campaign has been called one of the greatest social inventions in American history. Working together with employers and more than 1,000 volunteers each year, United Way of Washtenaw County invites people to advance the common good and create opportunities for a better life for all.

While donations are accepted throughout the year, our intensive community campaign runs from Labor Day through the end of December. During this time we focus our efforts to tell the story of United Way's impact on the community and how each donation is invested to create lasting change in Washtenaw County.

Our campaign is local, effective, and efficient. Through the efforts of area employers and our campaign volunteers we are able to proactively create change for our community. EMU is currently at \$68K or their \$100K goal. Please take a few moments to share with those in need in our county.

There are 3 ways you can make a donation:

Fact: Elizabeth Glaser (Nov. 11, 1947 – Dec. 3, 1994), was an AIDS activist and child advocate who had contracted HIV very early in the modern AIDS epidemic after receiving an HIV-contaminated blood transfusion in 1981 while giving birth. Like other HIV-infected mothers, Glaser unknowingly passed the virus to her infant daughter, Ariel, through breastfeeding and her son, Jake, born in 1984, contracted HIV from Glaser in utero.

The virus went undetected in all three infected family members until they underwent HIV testing in 1985, after the Glasers' daughter began suffering from a series of unexplained illnesses. Ariel had developed advanced AIDS at a time when the medical community knew very little about the disease and there were no available treatment options. Early in 1987, the U.S. Food and Drug Administration approved AZT but the approval only extended to adults. Glaser fought to have her daughter treated with AZT, but Ariel eventually succumbed to the disease in 1988.

Mourning the loss of her daughter and determined to save her surviving child, Jake, along with other HIV-positive children, Glaser co-founded the Elizabeth Glaser Pediatric AIDS Foundation in 1988. Glaser's work raised public awareness about HIV infection in children and spurred funding for the development of pediatric AIDS drugs as well as research into mother-to-child transmission (MTCT) of HIV. Before her death in 1994, Glaser entered the national spotlight as a speaker at the 1992 Democratic National Convention. She criticized the federal government's under-funding of AIDS research and its lack of initiative in tackling the AIDS crisis.
