National Science Foundation, Innovations in Graduate Education

The Innovations in Graduate Education (IGE) program is designed to encourage the development and implementation of bold, new, and potentially transformative approaches to STEM graduate education training. The program seeks proposals that explore ways for graduate students in research-based master's and doctoral degree programs to develop the skills, knowledge, and competencies needed to pursue a range of STEM careers. IGE focuses

on projects aimed at piloting, testing, and validating innovative and potentially transformative approaches to graduate education. IGE projects are intended to generate the knowledge required for their customization, implementation, and broader adoption. The program supports testing of novel models or activities with high potential to enrich and extend the knowledge base on effective graduate education approaches. The program addresses both workforce development, emphasizing broad participation, and institutional capacity building needs in graduate education. Strategic collaborations with the private sector, non-governmental organizations (NGOs), government agencies, national laboratories, field stations, teaching and learning centers, informal science centers, and academic partners are encouraged.

Internal Competition Deadline: July 25, 2018

Program Deadline: September 27, 2018

Internal Awards

James H. Brickley Award

The purpose of the **James H. Brickley Award** is to facilitate faculty professional development and innovation through a broad range of activities, including but not limited to, things such as:

- Reassigned time from teaching for scholarly, creative and innovative endeavor
- Conference presentations
- Travel
- Hiring of research assistants
- Purchase of special equipment or supplies for teaching, scholarly, research, creative, or innovative activities
- Development of a grant proposal for external funding
- Similar or related academic activities

Special emphasis is given to innovation, such as the application of newer techniques and technologies for creating mental health programs for immigrants, providing special workshops for parents with autistic children, or working with students, parents, teachers, and community leaders in addressing drug addiction.

Next Deadline: October 2, 2018

Deadlines

National Endowment for the Humanities, Public Humanities Projects

Notice seeking applications to support projects that bring the ideas and insights of the humanities to life for general audiences through in-person programming. Projects must engage humanities scholarship to analyze significant themes in disciplines such as history, literature,

ethics, and art history.

https://www.neh.gov/grants/public/public-humanities-projects

Next Deadline: August 29, 2018

National Endowment for the Humanities, Media Projects

Notice seeking applications supporting the development or production of documentary film, television, radio, and podcast projects that engage general audiences with humanities ideas in creative and appealing ways. Development grants ($40,000 to $75,000) enable media producers to collaborate with scholars to develop humanities content and to prepare programs for production. Awards should result in a script (for documentary film and television programs) or detailed treatment(s) (for radio programs and podcasts). Production grants (up to $650,000) support the production and distribution of documentary films, television programs, radio programs, and podcasts.

Next Deadline: August 29, 2018

Office of Naval Research Young Investigator Program

Notice seeking applications to support efforts to tenure-track or tenure-track-equivalent academic appointment, who have received their PhD or equivalent degree on or after 1/1/11, and who show exceptional promise for doing creative research. Funds support researchers working in Navy-relevant fields.

https://www.grants.gov/web/grants/view-opportunity.html?oppId=306796

Next Deadline: August 31, 2018

American Psychological Foundation, Fellowships, Research and Program Grants

Provides financial support for innovative research and programs in psychology. APF's current grantmaking priorities include: strengthening the connection between mental and physical health; understanding and preventing violence; reducing stigma and prejudice to promote unity and harmony; exploring long-term psychological needs of individuals and communities in the aftermath of disaster.

Next Deadline: Varies by program, please visit link above

National Science Foundation, Computing and Communications Foundations, Core Programs

CISE's Division of Computing and Communication Foundations (CCF) supports research and education projects that develop new knowledge in four core programs:

- The Algorithmic Foundations (AF) program;
- The Communications and Information Foundations (CIF) program;
- The Foundations of Emerging Technologies (FET) program; and
- The Software and Hardware Foundations (SHF) program.

Proposers are invited to submit proposals in two project classes, which are defined as follows:

Small Projects - up to $500,000 total budget with durations up to three years; and

Medium Projects - $500,001 to $1,200,000 total budget with durations up to four years.

WT.mc_id=USNSF_25&WT.mc_ev=click

Next Deadline: October 2, 2018 (medium projects) or November 15, 2018 (small projects)

National Science Foundation, Computer and Network Systems, Core Programs

Notice seeking proposals to support research and education projects that take a system-oriented approach to the development of novel computing and networking technologies, or to the enhancement of existing systems in any of several dimensions, or that explore new ways to make use of existing technologies. Proposers are invited to submit proposals in three project classes, which are defined as follows: Small Projects - up to $500,000 total budget with durations up to three years; Medium Projects - $500,001 to $1,200,000 total budget with durations up to four years; and Large Projects - $1,200,001 to $3,000,000 total budget with durations up to five years.

https://www.nsf.gov/pubs/2018/nsf18569/nsf18569.htm

Next Deadline: October 2, 2018 (medium and large projects) or November 15, 2018 (small projects)

National Science Foundation, Information and Intelligent Systems, Core Programs

Notice seeking proposals to support research and education projects that develop new knowledge in three core programs: The Cyber-Human Systems (CHS) program; The Information Integration and Informatics (III) program; and The Robust Intelligence (RI) program. Proposers are invited to submit proposals in three project classes, which are defined as follows: Small Projects - up to $500,000 total budget with durations up to three years; Medium Projects - $500,001 to $1,200,000 total budget with durations up to four years; and Large Projects - $1,200,001 to $3,000,000 total budget with durations up to five years.

https://www.nsf.gov/pubs/2018/nsf18570/nsf18570.htm

Next Deadline: October 2, 2018 (medium and large projects) or November 15, 2018 (small projects)

Agency for Healthcare Research and Quality

Small research (R03) grants provide flexibility for initiating studies which are generally for preliminary or short-term projects. These grants are non-renewable. Some examples of the types of projects that R03 research supports include:

- Pilot or feasibility studies
- Secondary analysis of existing data
- Small, self-contained research projects
- Development of research methodology
- Development of new research technology

Next Deadline: October 16, 2018

Centers for Disease Control and Prevention, Exploratory/Developmental Grant Program

Supports research (R21) to develop an understanding of the risks and conditions associated with occupational diseases and injuries, to explore methods for reducing risks and for preventing or minimizing exposure to hazardous conditions in the workplace, and to translate significant scientific findings into prevention practices and products that will effectively reduce work-related illnesses and injuries. Interested in applications to reduce injury and illness in construction, transportation, agriculture, mining, and health care.
