MOVIE - "IMAGES FROM DETROIT'S CASS CORRIDOR": Directed by Shaun Bangert and Kathryn Brackett Luchs, the movie "Images from Detroit's Cass Corridor," will be shown on Wednesday, March 27, at 5:30 p.m., in the Halle Library Auditorium. Quote: "I believe that architecture is a pragmatic art. To become art it must be built on a foundation of necessity." - I.M Pei

Fact: When François Mitterrand was elected President of France in 1981, he laid out an ambitious plan for a variety of construction projects. One of these was the renovation of the Louvre Museum. In 1984, Mitterrand commissioned architect I. M. Pei, to design the structure, which was constructed entirely with glass segments, and reaches a height of 20.6 metres (about 70 feet); its square base has sides of 35 metres (115 ft). It consists of 603 rhombus-shaped and 70 triangular glass segments. The Louvre reopened with I.M. Pei's new courtyard pyramid in 1989.
