

2021

EMU COVID-19 Dashboard, June 10, 2021

Eastern Michigan University

EMU COVID-19 Dashboard

Total EMU Population*: 18507

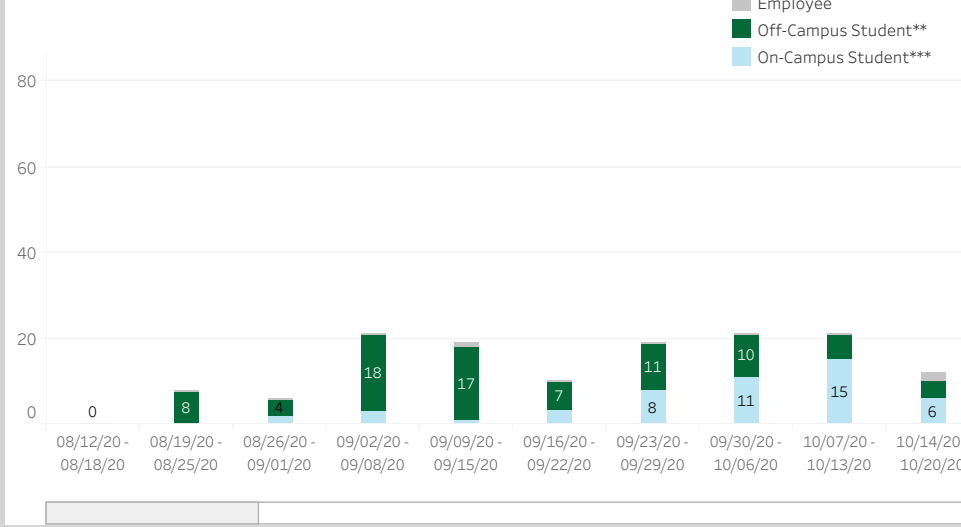

This Dashboard conveys important information about cases of COVID-19 and COVID-19 testing completed at the direction of the University. This Dashboard is updated several times per week. These efforts are part of our comprehensive phased [Safe Return-to-Campus Plan](#) for the 2020-2021 academic year. We may continue to add new metrics to this Dashboard as we move toward an expanded scope of campus operations.

COVID-19 Testing

Tests administered by EMU** - cumulative <div style="background-color: #ADD8E6; padding: 10px; text-align: center; font-size: 24px; font-weight: bold;">36,753</div> <small>since 08/12/20</small>	Positive tests - cumulative <div style="background-color: #ADD8E6; padding: 10px; text-align: center; font-size: 24px; font-weight: bold;">421</div> <small>since 08/12/20</small>	% Positive - cumulative <div style="background-color: #ADD8E6; padding: 10px; text-align: center; font-size: 24px; font-weight: bold;">1.15%</div> <small>since 08/12/20</small>
Tests administered by EMU - last seven days <div style="background-color: #ADD8E6; padding: 10px; text-align: center; font-size: 24px; font-weight: bold;">46</div> <small>from 06/02/21 to 06/08/21</small>	Positive tests - last seven days <div style="background-color: #ADD8E6; padding: 10px; text-align: center; font-size: 24px; font-weight: bold;">0</div> <small>from 06/02/21 to 06/08/21</small>	% Positive - last seven days <div style="background-color: #ADD8E6; padding: 10px; text-align: center; font-size: 24px; font-weight: bold;">0.00%</div> <small>from 06/02/21 to 06/08/21</small>

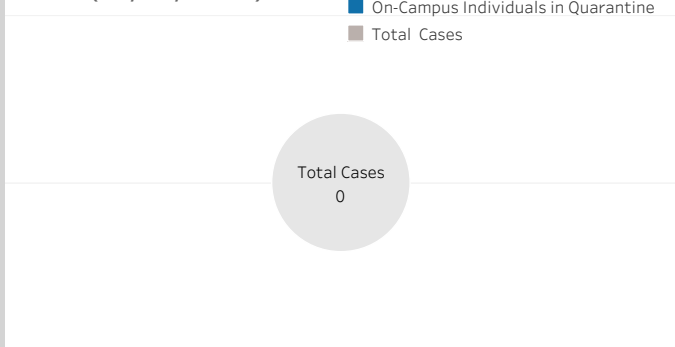

* "Total EMU Population" is defined as the following as of 9/10/20: all regular employees + all registered students.
 ** "Tests administered by EMU" is defined as COVID-19 tests that were administered by, or at the direction of, the University.

Positive Cases*

* "Positive Cases" is defined as individuals who report testing positive for COVID-19 through testing administered by the University, self-reporting, or other validated sources.
 ** "Off-campus" student is defined as a student who had no contact with campus during the applicable time period prior to the time they tested positive for COVID-19. This includes students who were tested before arriving on campus.
 *** "On-campus" student is defined as a student who was living on campus OR had visited campus during the applicable time period prior to the time they tested positive for COVID-19.
 **** Positive case data are updated twice weekly. These are partial week data representing only four days.

On-campus Isolation* & Quarantine** Cases as of (06/10/2021)

* "Isolation" separates people with a confirmed case of COVID-19 from the population so that they can recover and reduce the risk of passing on the virus to others. Individuals who test positive for COVID-19 will be subject to isolation and will receive instructions from their health care provider, the County Health Department, and/or University offices (e.g., Housing) as applicable. Asymptomatic Individuals must self-isolate until ten (10) days have passed since the initial positive test. Persons with symptoms must self-isolate until ten (10) days after symptoms first appeared and 24 hours with no fever and improvement in other COVID-19 symptoms.
 ** "Quarantine" keeps someone who has been exposed to COVID-19 away from other people. Quarantine applies to anyone who has been in "close contact" in the last fourteen (14) days with someone who is symptomatic or diagnosed with COVID-19. The person who has had close contact must stay home and self-quarantine for 14 days after their last exposure to that person.
