Eastern Michigan University Mission

Eastern Michigan University is committed to distinguishing itself as a comprehensive educational institution that prepares people and organizations to adapt readily to a changing world. Central to this mission are:

- providing an exceptional learning environment;
- applying new technologies to teaching, learning, and research;
- expanding knowledge and providing leadership through research, contract learning, and public service; and
- continually interpreting and responding to a changing regional, national, and global society.

Values

Eastern Michigan University’s mission and philosophy are built upon shared values that define and nourish the intellectual, ethical, and aesthetic environment. These values are:

Excellence

The University’s principal responsibility is to provide academic programs in a learning environment that promotes academic and personal excellence. The University, in all of its activities, encourages the achievement of excellence by all members of its various constituencies.

Respect

The University recognizes that wisdom, sound judgment, tolerance, and respect for other persons, cultures, and ideas are hallmarks of an educated person. The University seeks to demonstrate, through all its programs and activities, appreciation of human diversity and to maintain an atmosphere of tolerance and mutual respect that will nourish human liberty and democratic citizenship.

Scholarship

The University promotes and encourages continual research and creative activity by all its constituencies. Through such activity, participants remain intellectually alive, expand their fields of knowledge, enrich learning experiences, and bring academic recognition to the community. The intellectual and personal growth of individuals is a central purpose. Knowledge and learning are both the University’s products and its processes.

Opportunity

The University is committed to providing opportunities for learners of varying interests, abilities, backgrounds, and expectations. It seeks to attract, serve, and accommodate a highly qualified and pluralistic student body, drawn from a variety of ethnic, social, and economic backgrounds and to make a special effort to provide access to the campus’ educational opportunities for non-traditional students and underrepresented populations.

Community

The University strives to create and nurture a community that fosters mutual trust and respect for the open and amicable expression of differences.

Service

The University endeavors to provide service for the public good. It encourages all constituents to be concerned about the welfare of humanity and to engage in public service. The University is committed to developing and strengthening collaborative initiatives with the industrial, business, civic, and educational world.

Freedom

The University respects and protects personal and academic freedom. It seeks to provide an environment that facilitates involvement in intellectual and cultural activities and encourages formal and informal interaction between and among students, faculty, staff, administration, and community.

Integrity

Intellectual, academic, financial, and operational integrity are critical to the University’s survival and effectiveness.

Leadership

The University strives to provide leadership in addressing the educational and social issues confronting the people and organizations in our society. It promotes leadership and development activities that enhance educational and industrial opportunities for meeting this change.

Empowerment

The University community is empowered to do what is right and necessary to achieve the University’s mission.

Philosophy

The University is dedicated to improving the quality of life within the global community it serves through teaching, contract learning, research, and service. As an integral part of the state-supported public education system, the University is responsible for providing leadership in developing creative, innovative, and collaborative approaches to meet learning and research demands created as a result of a dramatically changing world. The University recognizes that an educated populace is the essential ingredient for the successful improvement of humankind. It is dedicated to:

- providing opportunities for professional, intellectual, and personal growth;
- preparing individuals for careers and professions;
- encouraging all University members to be concerned about the welfare of the campus, local, and world communities;
- assisting organizations to function effectively in a global economic environment; and
- instilling in all persons a commitment as leaders, to engage in public service.

The University seeks to provide an intellectual, social, and cultural environment that attracts, serves, and empowers a pluralistic community.

Guiding Principles

Guiding principles form the framework against which the University tests its effectiveness.

In all programs, activities, and services, the University seeks to be:

Approachable

Psychological barriers that impede participation are eliminated. People and organizations are valued as the University’s resources, products, and customers.

Accessible

Programs and activities of the University are open to all qualified persons without regard to race, religion, marital status, sex, sexual orientation, age, national or ethnic origin, political belief, or physical handicap. The University seeks to demonstrate, through all its programs and activities, its appreciation of human diversity and to maintain an atmosphere of tolerance and mutual respect that will nourish human liberty and democratic citizenship.

Affordable

The University is committed to ensuring that those individuals who are qualified and who desire to participate are not discouraged from doing so because of financial resources, time restraints, or physical distance. The University seeks to provide financial aid for all constituencies, to be sensitive to changing demands in the educational marketplace, and to deliver educational services in non-traditional ways and settings.

Applicable

Programs are designed to broaden perspectives, enrich awareness, deepen understanding, establish disciplined habits of thought, respond to changes in the workplace and society, and help develop individuals who are informed, responsible citizens.

Attainable

Recognizing that various constituencies have different needs, programs, activities, and services must be flexible so that all people have the opportunity to participate and to achieve their goals or purpose.

Collaborative

To utilize financial and human resources effectively, all programs, activities, and services should seek to develop linkages with internal and external constituencies. The University must continue to develop new partnerships with business, industry, education, and government, to define mutual goals and benefits, and to meet its responsibilities to the global community.

Quality

Quality is the first priority in all programs, activities, and services.
University Profile and History

Eastern Michigan University is a multipurpose university whose roots date back to 1849, when the Michigan Legislature designated it as Michigan’s first institution to educate teachers to serve the public schools. At that time the Detroit school system was only 10 years old and the transition from one-room school houses had just begun.

Graduate education was inaugurated in 1938, when the programs were conducted in cooperation with the University of Michigan. In 1953 Eastern gained approval to offer its own graduate programs.

During its first 100 years, Michigan State Normal School, as it was originally called, certified thousands of teachers and developed the broad-based academic curricula that prepared it for its evolution to university status in 1959. Within the new university, three colleges emerged: the College of Education, the College of Arts and Sciences, and the Graduate School. The University has expanded three times more; in 1964 with the College of Business; in 1975 with the College of Health and Human Services; and in 1980 with the College of Technology.

New colleges created a need for additional acreage. The University campus spread from its original 275 acres on the south side of the Huron River to encompass an additional 182 acres west of the campus where student residences, athletic facilities, and the Convocation Center are located. Among the newest buildings are the Convocation Center (1998); the Porter College of Education building (1999); the Marshall College of Health and Human Services building (2000); the Terrestrial and Aquatic Ecology building (1998); and the Bruce T. Halle Library (1998).

Today’s student body reflects the national trend of mature adults returning to college to continue their education and prepare for new careers in a changing society. Women compose approximately 60 percent of the student body. Most students are from the state of Michigan, but 40 states and 103 countries are also represented. In fall 2000, 23,478 undergraduate and graduate students were enrolled at Eastern Michigan University.

EMU’s perspective has also grown, not only in on-campus program development, but also in online courses offered through the Office of Extended Programs.

Eastern Michigan University is known worldwide for its educational contributions. Its 30,000 graduates are scattered among many countries as well as coast-to-coast in the United States, both strengthening and supporting the foundation that is the multipurpose University in Ypsilanti, Michigan.

Accreditations of Colleges and Departments

The University is fully accredited by the North Central Association of Colleges and Schools. In 1991 the University received an unqualified accreditation for a period of 10 years with re-accreditation review scheduled for March 19-21, 2001.

Eastern Michigan University also retains membership in these organizations: American Association of Colleges for Teacher Education; American Music Therapy Association; Association of Baccalaureate Social Work Program Directors; Council on Hotel, Restaurant, and Institutional Education; International Facility Management Association; Michigan Coalition of Schools/Departments offering the MSW; Michigan Historic Preservation Network; National Association of Deans and Directors of Schools of Social Work; National Council for Preservation Education; National Trust for Historic Preservation; and The Pioneer America Society.

COLLEGES AND DEPARTMENTS

College of Arts and Sciences
Department of African American Studies
Department of Art
Department of Biology
Department of Chemistry (accredited by the American Chemical Society)
Department of Communication and Theatre Arts
Department of Computer Science
Department of Economics
Department of English Language and Literature
Department of Foreign Languages and Linguistics
Department of Geology and Geology
Department of Geography and Geology (Urban and Regional Planning accredited by the Association of Collegiate Schools of Planning, and by the Planning Accreditation Board)

Department of Mathematics
Department of Music (accredited by the National Association of Schools of Music)
Department of Physics and Astronomy
Department of Political Science (public administration accredited by the National Association of Schools of Public Affairs and Administration)
Department of Psychology
Department of Sociology, Anthropology and Criminology
Women’s Studies Program

College of Business (accredited by the AACSB: The International Association for Management Education)
Department of Accounting
Department of Finance and Computer Information Systems
Department of Management
Department of Marketing

College of Education (accredited by the National Council for Accreditation of Teacher Education for the preparation of elementary and secondary teachers and school service personnel; all teacher education programs accredited by the American Association of Colleges for Teacher Education)
Department of Health, Physical Education, Recreation and Dance (athletic training accredited by the Commission on Accreditation of Allied Health Education Programs, and the Joint Review Committee on Education Planning and Athletic Training; parks and recreation accredited by the National Recreation and Park Association)

Department of Leadership and Counseling (community counseling and school counseling programs are accredited by the Council for Accreditation of Counseling and Related Educational Programs)

Department of Special Education (speech-language pathology program accredited by the American Speech Language and Hearing Association; hearing impaired program accredited by the Council on Education for the Hearing Impaired)

Department of Teacher Education

College of Health and Human Services

Department of Associated Health Professions (clinical laboratory sciences program accredited by the National Accreditation Agency for Clinical Laboratory Sciences, and by the Association of Schools of Allied Health Professions; occupational therapy accredited by the American Occupational Therapy Association’s Accreditation Council for Occupational Therapy Education [ACOTE])

Department of Human, Environmental and Consumer Resources (dietetics accredited by the American Dietetic Association; interior design accredited by the Foundation for Interior Design Education and Research [FIDER])

Department of Nursing (accredited by the National League for Nursing, the Commission on Collegiate Nursing Education, and the American Association of Colleges of Nursing)

Department of Social Work (accredited by the Council on Social Work Education)

College of Technology

Department of Business and Technology Education (office technology/administrative management and office technology/legal assistant accredited by the American Bar Association; office technology/network and information technology administration, marketing education, industrial-vocational education, and technology education -- soils approved by the National Council for Accreditation of Teacher Education/International Technology Educational Association/Council on Technology Teacher Education)

Department of Industrial Technology (accredited by the Accreditation Board for Engineering and Technology, and by the National Association of Industrial Technology; construction management accredited by American Council for Construction Education; computer-aided design accredited by
the National Association of Industrial Technology; manufacturing including concentrations in computer-aided manufacturing, manufacturing technology, or plastics accredited by the National Association of Industrial Technology and Manufacturing)
Department of Interdisciplinary Technology (aviation management technology, communication technology, facility management, industrial distribution, and polymers and coating technology accredited by the National Association of Industrial Technology)

Military Science

University Governance and Individuals’ Rights

Eastern Michigan University is an autonomous university governed by an eight-member board of regents appointed by the governor of Michigan and subject to the approval of the Michigan Senate. Financial support for the University comes from student tuition and fees, and support provided by the citizens of Michigan.

Current members of the board of regents are Philip A. Incarnato, Benton Harbor, chair; Rosalind E. Griffin, Farmington Hills, vice chair; Jan A. Brandon, Ann Arbor; Joseph E. Antonini, Troy; Robert A. DeMattia, Plymouth; and Michael G. Morris, Northville; William J. Stephens, West Bloomfield.

Policies on Non-Discrimination

Eastern Michigan University shall not discriminate against any person because of race, color, creed, religion, national origin, gender, age, disability or sexual orientation. Further, the University shall work for the elimination of improper discrimination in the areas listed above (1) organizations recognized by the University, and (2) from non-University sources where students and employees of the University are involved.

Equal Opportunity and Affirmative Action Policies

Eastern Michigan University admits students of either sex, and any race, color, or national or ethnic origin to all the rights, privileges, programs, and activities accorded to students at this University. The University does not discriminate against students on the basis of sex, race, color, or national or ethnic origin in the administration of its educational policies, admissions policies, scholarships and loan programs, and athletic and other University-administered programs. Further, it is the policy and practice of Eastern Michigan University to take affirmative action in all personnel matters.

Gender Equality

It is the policy of Eastern Michigan University to comply with Title IX of the Education Amendments of 1972 and its regulations, which prohibit discrimination on the basis of sex. Anyone who believes that in some respect Eastern Michigan University is not in compliance with Title IX and its regulations should contact the executive director of Human Resources.

Non-Discrimination of the Disabled and/or Challenged

In its programs, activities, and employment, Eastern Michigan University does not discriminate on the basis of physical or other disabilities. Anyone who believes that in some respect Eastern Michigan University is not in compliance with the Rehabilitation Act and its regulations should contact the executive director of Human Resources. Prospective students with disabilities who are otherwise qualified for admission are invited to apply. Students encountering difficulty with access to full participation in University activities should contact the dean of students.

Statement on Campus Violence

In accordance with the education mission of Eastern Michigan University, the University adopts this policy statement to promote a safe campus environment. The statement reflects the nonviolent spirit of the relationship between students, staff, administrators, faculty, contractors, and visitors at Eastern Michigan University.

The safety and security of our students, staff, administrators, faculty, contractors and visitors is extremely important to Eastern Michigan University. Threats, acts of aggression, and threatening or violent behavior are not tolerated by or toward students, staff administrators, faculty, contractors or visitors. All reports of incidents will be taken seriously and will be dealt with appropriately.

Threats can be direct and immediate or indirect and implied; threats can occur verbally, nonverbally, or in writing. Acts of aggression include, but are not limited to, abusive behavior, stalking, and tampering with property and are intended to intimidate, create fear, imply harm, or destroy property. Threatening or violent behavior is behaving in such a way that poses an immediate threat to self or others by acts of physical harm.

All students, staff, administrators, faculty, contractors and visitors are strongly encouraged to report threats, acts of aggression, and threatening or violent behavior, to the Campus Police (911 for all emergencies, 487-1222 for all others), Human Resources (487-0083), and to your Department Head or Supervisor, to help ensure the safety of our campus community.

Family Educational Rights and Privacy Act

In compliance with the Family Education Rights and Privacy Act (FERPA), Eastern Michigan University assures that any person who is or has been in attendance as a student at EMU has access to his/her educational records. Further, such individual's rights to privacy are assured by limiting the transferability of records without the student's consent.

The following are matters of public record and may be included in directory publications or disclosed upon request without consent: the student's name, address, telephone listing, date and place of birth, major field of study, participation in recognized activities and sports, and weight and height (if a member of an athletic team), dates of attendance, degree and awards received and most recent educational agency or institution. Registration documents of student organizations that contain the names and addresses of the officers and the statement of purpose of the organization also are considered public information. These documents are available in the Office of Campus Life Programs.

EMU reserves the right to make directory information public unless a student files a written request to withhold information with the Office of Public Information within 14 days after the semester begins. Once such a request is filed, the information will remain private until the student requests the Office of Public Information to release it.

Individuals who believe the University is not in compliance with FERPA and its regulations should contact the executive director of Human Resources.

Notification of Student Rights under FERPA

The Family Educational Rights and Privacy Act (FERPA) affords students certain rights with respect to their education records. They are:

1. The right to inspect and review the student's education records within 45 days of the day EMU receives a request for access.

   Student should submit written requests to the EMU Office of Records and Registration, identifying the record(s) they wish to inspect. A University official will make arrangements for access and notify the student of the time and place where the records may be inspected. If the records are not maintained by the University official to whom the request was submitted, that official shall advise the student of the correct official to whom the request should be addressed.

2. The right to request the amendment of the student's education records that the student believes are inaccurate or misleading.

   Students may ask the University to amend records that they believe are inaccurate or misleading. They should write the University official responsible for the record, clearly identify the part of the record they want changed, and specify what is inaccurate or misleading.

   If the University decides not to amend the record as requested by the student, the University will notify the student of the decision and advise the student of his or her right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the student when notified of the right to a hearing.

3. The right to consent to disclosures of personally identifiable information contained in the student's education record, except to the extent that FERPA authorizes disclosure without consent.

   One exception which permits disclosure without consent is disclosure to school officials with legitimate educational interests. A school official is a pers...
son employed by EMU in an administrative, supervisory, academic or research, or support position (including law enforcement personnel and health staff); a person or company with whom EMU has contracted (such as an attorney, auditor, or collection agent); a person serving on the Board of Regents; or a student serving on an official committee, such as a disciplinary or grievance committee, or assisting another school official in performing his or her tasks.

A school official has a legitimate educational interest if the official needs to review an education record in order to fulfill his or her professional responsibility.

Upon request, the University discloses education records without consent to officials of another school in which a student seeks or intends to enroll.

The University may also disclose, without the student’s permission, to parents and legal guardians when the student is under 21, any violation of existing alcohol or drug laws or University policy.

EMU has designated the following items as directory information and these items may be included in publications or disclosed upon request without consent: the student’s name; address; telephone listing; electronic-mail address; date and place of birth; major fields of study; class schedule; class roster; participation in recognized activities and sports; weight and height of members of athletic teams; dates of attendance; degrees and awards received (including, but not limited to, Dean’s List); and the most recent previous educational agency or institution attended by the student.

EMU reserves the right to make directory information public unless a student’s written objection (specifying the category of information not to be made public without prior consent) is filed at the Office of Records and Registration within 14 days after each term begins.

Students who do not want to be included in the annual EMU Student Telephone Directory should complete a Directory Exclusion Card. Cards can be picked up from University Publications, Housing and Dining Services, Records and Registration, and the Library Copy Center. They must be turned in by September 15 to the Library Copy Center or to University Publications. Completing the exclusion card will remove the student’s name, address, and phone number from the current and subsequent telephone directories.

4. The right to file a complaint with the U.S. Department of Education concerning alleged failures by EMU to comply with requirements of FERPA. The name and address of the office that administers FERPA is:

Family Policy Compliance Office
U.S. Department of Education
600 Independence Avenue, SW
Washington, D.C. 20202-4605
Undergraduate policies and information

Admission

The sections on Tuition and Fees, Financial Aid, Academic Procedures and Graduation Requirements that follow represent the official policies of Eastern Michigan University as adopted by its Board of Regents.

Eastern Michigan University is open to students who have the potential to succeed academically as determined by a review of official high school records and/or college records. Admission to the University is based on a combination of factors including, but not limited to, the review of high school or college grade point average, high school or college curriculum and scores on standardized tests.

Acceptance into the University is dependent upon meeting the admission criteria described below. Eastern Michigan University admits students at the freshman and transfer level to the University. Separate admission is required for the College of Business and the College of Education, as well as for the Nursing and Occupational Therapy programs. Some academic programs are designed to include courses from more than one college.

The Admissions Office, 401 Pierce Hall, provides information to meet the various needs of prospective students. The Academic Advising Center, 301 Pierce Hall, assists students in selecting courses applicable to their planned programs or appropriate to their academic needs after the students have been admitted to the University.

Application for admission to the University requires completion of an admission application, submission of an official high school transcript and/or official college transcript and a $25 non-refundable application fee. Required supporting documentation may vary depending on the category of admission.

Freshman applicants

Freshman applicants entering college for the first time must submit official high school transcripts with grades posted through the 6th semester of high school, official college transcripts if dual enrolled in high school and college, standardized test results from either the ACT or SAT and the $25 non-refundable application fee. Evidence of graduation is required upon admission (if still in high school). Evidence of graduation or the General Educational Development (GED) certificate is required if the applicant is no longer attending high school. Applicants over 21 years of age should refer to the non-traditional category.

Some students may be offered admission to the PASS (Promote Academic Survival and Success) program. Special requirements for this program may be discussed with an admission officer or an academic advisor. Students not qualifying for regular admissions may be considered for the Summer Incentive Program (SIP). Admission to both programs is by University selection only and may include more documentation.

Transfer applicants

Students who have enrolled in classes at a college or university other than Eastern Michigan University must provide an official transcript of credit hours attempted and earned from each institution attended. Transfer applicants may also be required to submit an official high school transcript (GED certificate). Applicants under the age of 21 who have earned fewer than 12 credit hours of transferrable credit (18 quarter hours) are also required to submit results of the ACT or SAT. Information about the MACRAO Agreement can be found in the Graduation Requirements section of this catalog.

Non-traditional students

Applicants who are 21 years of age or older and have a high school diploma or GED but have not attempted college work previously may be considered for admission without further requirements. Evidence of the high school diploma or GED is required. Non-traditional students may be required to take testselects for advising and course placement purposes.

Veterans

Veterans who have served in the U.S. Armed Forces for more than 181 consecutive days will be admitted upon receipt of the high school transcript or its equivalent and a DD214 document verifying military duty. Veterans released from active service for reasons of disability will be considered as having met the 181 consecutive day requirement. If the veteran has attempted college work since release from active duty or while on active duty, the application will be reviewed as that of a transfer student.

Re-enrollment

Former EMU students desiring to re-enroll at EMU after an absence of two years should make application in the Academic Records Office, 302 Pierce Hall, at least one month prior to the first day of classes. The applicant should complete the application and return it to the same office.

Students who have a past due obligation to the University must clear their obligation through the Student Accounting Office, Pierce Hall, before they will be allowed to register.

Students who have attended any institution of higher education since being enrolled at Eastern Michigan University must have an official transcript sent from that institution to the Office of Records and Registration.

If an absence from Eastern Michigan University was by request of the University due to academic dismissal, the student must initiate any application for re-admission with the Academic Advising Center, 301 Pierce Hall.

Guest Students

Guest students are admitted (provided space is available) when regularly matriculated and in good standing at another regionally accredited college or university. The student assumes full responsibility for determining whether or not the courses selected at this university will apply to his/her program of study. While at EMU, the student is subject to Eastern Michigan University’s academic policies and student code of conduct. Application for admission as a guest student may be obtained either at the student’s home institution or EMU’s Office of Admissions. Guest applicants who possess a bachelor’s degree must apply as a graduate student through the Office of Admissions.

Dual Enrollment

Dual enrollment may be approved for a student whose primary enrollment is in a high school provided space in the classroom is available. Applicants must submit a high school transcript, obtain high school and parental approval, and meet current academic eligibility requirements for that program.

International Student Applicants

International student applicants are welcomed by the University, which is authorized under federal law to enroll non-immigrant alien students. They may apply for admission to any semester and will need the following documentation in support of the application:

1. Complete an application for admission.
2. Provide official documents of transcripts of academic credit or true attested copies of official documents. (If the documents are not in English, they must be accompanied by an official English translation.)
3. Provide evidence of proficiency in the English language (e.g., TOEFL or MELAB). In some cases, foreign students will be required, as a condition of admission, to take one or more courses in spoken or written English as a second language.
4. Present a statement of financial responsibility covering the total cost of attending the University.

Undergraduate foreign student’s English proficiency requirements are listed under the Department of Foreign Languages and Bilingual Studies.

For answers to your questions about admission to Eastern Michigan University, call 734.487.3060 or 800.GO-TO-EMU (800.468.6368).

Post-Baccalaureate Academic Options

Please refer to the EMU Graduate Catalog if you are pursuing a master’s degree or would like to take undergraduate-level courses for self-improvement.

Second Bachelor’s Degree

Students who obtained their bachelor’s degree from an institution other than Eastern Michigan University should apply as a second bachelor’s candidate through the Office of Admissions, 401 Pierce Hall. The office requires an application, a $30 non-refundable application fee, and official transcripts from each college, university, or other post-secondary school attended.

Students who have obtained a bachelor’s degree from EMU but who now wish to obtain another major, minor, or a different bachelor’s degree...
(i.e., a student with an EMU bachelor of science degree who wishes to pursue a bachelor of arts degree), should re-enroll as a second bachelor's candidate through the Office of Records and Registration, 302 Pierce Hall.

After the admission or re-enrollment process is complete, the prospective candidate should make an appointment with the coordinator of second bachelor's degree programs in the Academic Advising Center, 301 Pierce Hall (734.487.2171) for evaluation of transcripts and development of a program of study. The program is approved by the appropriate academic department and is the basis for degree completion.

Teacher Certification

Students who possess a bachelor's degree and are seeking teacher certification should contact the Teacher Certification Office in the College of Education (734.487.2075) for an advising appointment. Candidates whose undergraduate GPA was less than 2.5 should apply as a second bachelor's candidate (see Second Bachelor's Degree, above). Candidates whose undergraduate GPA was 2.5 or better should apply using the graduate application.

Alternative Credit Options

Eastern Michigan University offers students the opportunity to earn up to 30 hours of academic credit by examination and/or by portfolio. In some instances, students may enroll immediately in advanced courses through various credit-by-examination programs. Especially high test scores may warrant additional academic credit and/or higher placement.

These programs include:

1. Advanced Placement (AP)
2. International Baccalaureate (IB)
3. College Level Examination Program (CLEP)
4. Credit by examination (available through academic departments when CLEP is not available)
5. Validation (may be required to transfer two-year college credit for 300- and 400-level EMU courses)
6. Portfolio-assisted Prior Learning Assessment (PLA)—available through participating academic departments

The table that follows illustrates academic credit available by department for AP, IB, and CLEP test scores, with the following limitations:

1. Credit may not be duplicated for separate tests and/or completed courses covering the same subject matter. Credit may be denied if the student has already successfully completed a higher-level course in the same subject or enrolled in a similar course.
2. Credit by examination may be awarded up to a maximum of 30 credit hours.
3. The International Baccalaureate Diploma does not equate automatically with sophomore standing, nor does it automatically waive general education requirements.

For more information, contact the Academic Advising Center.

Students who submit their AP or IB scores to Eastern Michigan University are assured of at least three hours of academic credit for a score of 3 or higher on an AP exam and 4 or higher on the higher-level IB exam.

Credit by examination and validation is available through academic departments when CLEP examinations are not appropriate in assessing the student's previous education and/or life experiences.

Credit by examination regulations are:

1. The applicant must be admitted to Eastern Michigan University.
2. Prerequisites must be met before credit by examination may be considered for any course.
3. Credit normally will not be awarded for any course below the level of a course for which the student already has credit or that the student is taking or has taken.
4. Courses such as Workshops, Special Topics, Seminars, and Directed or Independent Studies are excluded from credit by examination.
5. Academic departments may exclude certain other courses from credit by examination.

A student who fails to pass an examination will not be permitted to take another examination in the same course until four months have elapsed, and until the student has presented evidence of sufficient further study to justify reexamination.

Validation regulations are implemented after all college-parallel credit earned at accredited two-year colleges has been recorded on the student's official EMU record and the transfer has been completed. If further validation of two-year college credit is required for 300- and 400-level EMU courses, two ways to achieve this are:

1. Satisfactory completion of the next more advanced course in the series designated by the department head.
2. Passing a comprehensive examination in the course for which EMU validation is requested.

Procedures for credit by examination and validation are:

1. Pick up the application for credit by examination/validation to the Academic Records Office. Eligibility to sit for credit by examination/validation will be determined by the Office of Records and Registration, 303 Pierce.
2. Take the application provided by the Office of Records and Registration to the head of the department in which the course is offered. The department head will evaluate the request and make one of the following decisions:
   a. Grant permission for credit by examination/validation.
   b. Deny permission for credit by examination/validation.
   c. Hold request for further investigation.
3. Once permission is granted and the time and place of exam are agreed upon, the student will validate the permission form by paying the fee to the EMU Cashier's Office.
4. The student will present the validated permission form to the instructor prior to taking any exam or activity for credit by examination/validation.
5. After the instructor evaluates student performance and indicates an opinion or permission form, a copy of the written examination or explanation of the activity as well as the instructor's total evaluation will be placed on file in the office of the department head. The department head will sign the permission form indicating receipt of instructor's evaluation.
6. The department head will forward the permission form to the Office of Records and Registration for posting to the student's record.

The fee for each Undergraduate exam is $10.00.

Prior Learning Assessment

Portfolio-assisted Prior Learning Assessment (PLA) is available through participating academic departments when CLEP credit by examination, and validation are not appropriate in assessing the student's previous learning.

Call the Office of Prior Learning Assessment at 734.487.9801 or 800.777.3521 for additional information.

Academic standards for portfolio-assisted Prior Learning Assessment are:

- Credit is given only for learning and not for experience.
- College credit is awarded only for college-level learning.
- Credit is awarded only for learning that has a balance, appropriate to the subject, between theory and practical application.
- The determination of competence levels and credit awards is made by academic experts in the appropriate subject matter.
- Credit is appropriate to the academic context in which it is accepted.

Procedures for portfolio-assisted Prior Learning Assessment are:

1. The applicant contacts the PLA Office for information about the PLA process and for a registration form for the required course, AADV 279.
2. The applicant must be admitted to Eastern Michigan University.
3. The student completes AADV 279 before requesting credit through the process of portfolio-assisted prior learning assessment.
4. The student compiles portfolios to present for assessment within one year of completion of AADV 279.

---

*NOTE: additional three credit hours may be awarded to art majors and minors through departmental evaluation of art portraits.*
5. The student presents the master portfolio and departmental portfolios to
the Office of Prior Learning Assessment for review; upon successful review,
the PLA office issues appropriate forms.
6. The student pays the required assessment fee to Eastern Michigan University.
7. The Office of Prior Learning Assessment distributes portfolios to department heads for assignment to faculty assessors.
8. Faculty assessors evaluate the portfolios; faculty assessors may request additional demonstrations of competence.
9. Faculty assessors return portfolios and assessments to the Office of Prior Learning Assessment.
10. The Office of Prior Learning Assessment notifies the student of credit award or denial and also notifies the Academic Records Office of awarded credit for posting to the student's record.

CLEP examinations as listed on the following chart are administered through the Academic Advising Center, 301 Pierce Hall.

University Honors Program
William Miller
Director
Wise Hall
734.487.0341
E-mail: phi_miller@online.emich.edu

Entering first-year, transfer, and currently enrolled students with excellent academic records may apply for admission to the University Honors Program. Admission is based on such factors as grade point average, standardized test scores, letters of recommendation, and a personal essay. Honors certification may be pursued either on the general education level, in departments or professional programs, or both. Graduation with honors requires a cumulative GPA of at least 3.3, the completion of either 18 hours of honors credit in general education or 12 hours of departmental honors credit, including the senior thesis or project; and community service. Students who complete the program are appropriately recognized by special designations on their transcripts, certificates of achievement, the honors medallion, and letters of recommendation from the honors director explaining their accomplishments. Other benefits include housing in the Wise Hall Community of Scholars, early registration, extended library loans, and academic and career advising support.

For further information, contact the University Honors Program Office, 305 Jones Hall, Community of Scholars, 734.487.0341, e-mail: honors@online.emich.edu.

Tuition and Fees
All University fees and assessments are subject to change without notice and at any time by action of the Board of Regents.

Registration
Official registration day is the day students complete the initial registration for the semester or session. Students must be registered before the semester is half over.

The registration fee is $46 for each semester. This service fee is assessed at the time the student registers.

An additional late registration fee of $50 is charged to students who do not complete registration prior to the official first day of classes each semester.

Financial obligations must be met by students by the posted due dates in order for students to be eligible for the next registration period (or graduation). Transcripts, diplomas, or other statements of record will be withheld and students will be ineligible for further registration until obligations have been fulfilled.

Cancellation of registration by a student who decides not to return to EMU after registering in advance for classes must be initiated by the student on a signed cancellation-of-registration form either in person or by letter to the Office of Records and Registration, 303 Pierce Hall. If students have applied for University housing, they also must cancel the contract in the Housing Office.

Failure to withdraw may leave students with responsibilities for payment of tuition, fees and housing charges that will not be paid by financial aid.

Tuition
Tuition is assessed for all credit hours for which the student is registered. Regardless of student class level, undergraduate tuition is assessed for all courses through the 400 level; graduate tuition is assessed for all courses 500 level or above.

Off-campus tuition rates are the same as on-campus tuition rates.

Tuition for auditing classes is the same as for-credit classes.

2001-2002 Michigan and Ohio Resident Rates, per credit hour:
Undergraduate courses lower level (000-200): $102.00
Undergraduate courses upper level (300-400): $109.25
Graduate courses lower level (500-600): $160.00
Doctoral assessment upper level (700 and above): $196.00

2001-2002 Non-Resident Rates, per credit hour:
Undergraduate courses lower level (000-200): $272.00
Undergraduate courses upper level (300-400): $310.00
Graduate courses lower level (500-600): $360.00
Doctoral assessment upper level (700 and above): $410.00

Residence Classification for Tuition Purposes Policy
I. Regulations for determining residence classification
A person enrolling at Eastern Michigan University shall be classified as a resident or a non-resident for tuition purposes. A student's residence status shall be determined at the time of his/her initial admission to the University. In order to determine the domicile of a student, the following regulations will be utilized:

A. Establishment of Residence
No student shall be eligible for classification as a resident for tuition purposes unless the student has demonstrated that he/she has established domicile in Michigan.

B. Minors and Dependents over 18
The domicile of a student who is not yet 18 years of age follows that of his/her parents or legal guardian. If that student's parents or legal guardian would qualify in accordance with the University's regulations for determining residence classification, that student shall be considered a Michigan resident for tuition purposes.

Students 18 years of age or older who are claimed as dependents for federal income tax purposes by their parents or guardians at the time of registration and for the tax year preceding the year in which they register will be classified for tuition purposes as though they were minors.

C. Nondependent Students
An independent student 18 years of age or older is considered eligible for residence classification if the student has demonstrated that he/she has established domicile in Michigan.

D. Spouse
The domicile of a student who otherwise would be classified as a nonresident for tuition purposes will follow that of the student's spouse, if the spouse is eligible for classification as a Michigan resident for tuition purposes: (Applicable only to U.S. citizens or to aliens admitted to the United States in accordance with Subsection E.)

E. Aliens
An alien (non-citizen) student shall be eligible for classification as a Michigan resident for tuition purposes if he/she is domiciled in the United States and also qualifies in accordance with the University's Regulations for Determining Residence Classification.

In order to demonstrate that he/she is domiciled in the United States, the student must be a permanent resident, or an alien with one of the following visa classifications, or an alien with other documentation from the Immigration and Naturalization Services that reflects such status.

Visa classifications: E-1—treaty trader, spouse, and children; E-2—treaty investor, spouse, and children; G-4—international organization of-
ficer or employee and members of immediate family; H-1—temporary worker of distinguished merit and ability; H-2—temporary worker performing services unavailable in the U.S.; H-3-trainee; H-4—spouse or child of H-1, H-2, or H-3; J-1—exchange visitor (limited to persons engaged as trainee, teacher, professor, or research scholar); J-2—spouse or child of J-1 as limited above; L-1—intramural transfer; L-2—spouse or child of L-1.

F. Migrants

Migrant status is one factor considered when determining if a student is domiciled in Michigan for tuition purposes. Michigan migrants are defined as individuals who have made their livelihood in seasonal work in the state of Michigan, and have traveled interstate for this purpose. Migrant students shall be considered Michigan residents for tuition purposes if they or their parents or legal guardian were employed in Michigan for at least two months during each of three of the preceding five years. Verification of employment as migrant workers should be secured from the Michigan Agricultural Labor and Rural Manpower Services Office. Other appropriate evidence also may be used by migrant workers to establish their status.

G. Spouse or Dependent of a U.S. Military Service Person

The spouse or dependent of a person currently serving in a branch of the U.S. military service (excluding reserve programs) or of a person who died while serving in a branch of the U.S. military service shall be eligible for classification as a Michigan resident for tuition purposes if that military service person qualified in accordance with the University's regulations for determining residence classification immediately before entering the military service as a Michigan resident.

H. U.S. Military Service Veteran

A veteran of a branch of the U.S. military service (excluding reserve programs) shall be eligible for classification as a Michigan resident for tuition purposes if that person qualifies in accordance with the University's regulations for determining residence classification immediately before entering the military service as a Michigan resident.

III. Guidelines and Criteria For Determining Residence Classification

Since a student normally comes to Eastern Michigan University for the primary or sole purpose of attending the University rather than to establish domicile in Michigan, one who enrolls in the University as a nonresident shall continue to be so classified throughout his/her attendance as a student, unless and until he/she demonstrates that his/her previous domicile has been abandoned and a Michigan domicile is established.

The following guidelines and criteria shall be applied when reviewing a student's classification. It is recognized that no one of the following criteria shall, standing alone, necessarily be controlling. All factors indicating an intent to make Michigan the student's domicile will be considered by the University in classifying a student.

A. The following facts and circumstances, although not necessarily conclusive, have probative value in support of a claim for residence classification:

1. Domicile in Michigan of family, guardian, or other relatives or persons legally responsible for the student.
2. Former domicile in Michigan and maintenance of significant connections therein while absent.
3. Self-supporting reliance upon Michigan sources for financial support.
4. Continuous residence in Michigan during periods when not enrolled as a student.
5. Long-term military commitments in Michigan.
6. Acceptance of an offer of permanent employment in Michigan (in a position not normally filled by a student).
7. Ownership of real estate in Michigan.

B. Please Note: The following circumstances, standing alone, shall not constitute sufficient evidence of domicile to effect classification of a student as a resident under these regulations:

1. Voting or registration for voting.
2. Employment in any position normally filled by a student.
3. The lease of living quarters.
4. A statement of intention to acquire a domicile in Michigan.
5. Automobile registration, driver's license.
6. Other public record, e.g., birth records.

III. Reclassification of Residence Status

A student's residence status may be reviewed at each subsequent registration. If a student's circumstances should change to the extent that he/she would no longer be considered a Michigan resident for tuition purposes, as herein described, that student shall be reclassified as a nonresident for tuition purposes 12 months thereafter.

It shall be the responsibility of all students, prior to registering, to raise questions in the Student Accounting Office regarding their right to be registered as a resident for tuition purposes.

The administration is authorized to establish procedures and delegate authority for determining the residence status of students for tuition purposes.

A tuition reciprocity agreement with Ohio, entered into by the Michigan State Board of Education and the Ohio Board of Regents in 1980, allows an Ohio resident to attend Eastern Michigan University at Michigan resident tuition rates. Michigan residents can attend the University of Toledo at Ohio resident tuition rates but only if they reside in Monroe County.

NOTE: The Residence Classification for Tuition Purposes Policy is currently under review and is subject to change by action of the Eastern Michigan University Board of Regents without prior notice and at any time.

Tuition and Fee Payment

Tuition and fee payment for fall and winter semesters may be made in two installments. There is no installment payment plan for spring and summer sessions. The exact due date is printed on the invoice from Student Accounting and is published in the class schedule book for each semester. To ensure a correct billing address, it is the responsibility of the student to inform the University of any address changes by completing a change of address form in the Registration Office.

Only special billing addresses are processed by the Student Accounting Office.

Eastern Michigan University accepts VISA and MasterCard credit cards for payment of tuition, fees, and room and board.

Additional Tuition Payment Plan

EMU offers a 10-month payment plan through an outside agency for fall/winter semesters only. There is a nominal charge for using the plan, which can be used to cover tuition, required fees, and room and board costs.

The optional installment payment plan is offered in the fall and winter semesters only and is applicable to tuition and room and board. A minimum of 50 percent must be paid initially and the remainder by the eighth week of the semester. An installment service fee of $20 is assessed with the first installment billing and a late payment fee of $20 per month is assessed on past-due balances.

If a student's account is past due for a current semester, enrollment, University housing and other University services (such as release of grades or certified transcript) are subject to suspension until the account is brought into current status. Payment of assessments for a current semester does not relieve the student of the obligation for payment of any balance from a prior semester.

Any exceptions shall be by authority of the vice president for business and finance.

Workshop sessions offered for two and three weeks during the spring and summer sessions are assessed the same registration and tuition fees as regular class sessions. However, a student enrolled in other course work during a session will not be assessed an additional registration fee for enrolling in a workshop during the same session.

An adjustment of 100 percent of the tuition assessment will be made to students who withdraw from a workshop prior to the close of business (5 p.m.) on the first day of the workshop. No other adjustment or refund will be granted.

Fee Adjustments
Beginning with the start of classes, a program adjustment fee of $10 per drop transaction will be assessed for each student-initiated program adjustment.

For final adjustment deadlines and coordinate fee schedules, see the Class Schedule Books.

No program adjustment fees will be assessed for changes required as a result of University actions.

Credit adjustment for withdrawal
A credit adjustment of 100 percent of tuition and fees for the fall and winter semesters, less an administrative fee, will be made to those students who cancel their registration or withdraw from the University through the eighth class day. For the spring and summer sessions, a 100 percent credit adjustment less an administrative fee, will be made during the first four days of classes. Actual dates are printed in the class schedule book for each semester and session.

A credit adjustment of 50 percent of tuition and fees for the fall and winter semesters less an administrative fee will be made to those students who withdraw from the University from the ninth through the nineteenth class day. For the spring and summer sessions, a 50 percent credit adjustment less an administrative fee will be made from the fifth through tenth class day of the session. Actual dates are printed in the Class Schedule for each semester and session.

A credit adjustment of 25 percent tuition and fees for the fall and winter semesters less an administrative fee will be made to those students who withdraw from the University from the twenty-first through the thirty-eighth class day. For the spring and summer sessions, a 25 percent credit adjustment, less an administrative fee, will be made from the eleventh through nineteenth class day of the session. Actual dates are printed in the class schedule for each semester and session.

No credit adjustment will be made after the above stipulated dates.

Decrease in academic load
For the fall and winter semesters 100 percent tuition credit less a $10 program adjustment fee will be processed for those students who decrease their academic load prior to the ninth day of classes. For the spring and summer sessions, a 100 percent credit adjustment less a $10 program adjustment fee will be made during the first four days of classes. Actual dates are printed in the class schedule for each semester and session.

No credit adjustments will be made after the above stipulated dates.

If a student or parent feels that individual circumstances warrant exceptions from the credit adjustment or University withdrawal adjustment policy:
1. Obtain a Tuition and Fee Appeal Application from the Student Accounting Office in 203 Pierce Hall (Ypsilanti, MI 48197). Complete and return the application along with an explanation of the extraordinary circumstances involved and supporting documentation of those circumstances. An approval or denial will be issued in writing by return mail. If the application is denied:
   a. Appeal in writing to the Director of Student Business Services at the address above. Be sure to include any additional pertinent information with your written appeal.
   b. If, after following the procedures in steps 1 and 2, an acceptable solution is not achieved, a final written appeal may be made to the Controller (911 Welch Hall, Ypsilanti, MI 48197).

Tuition and fee appeal applications must be submitted as early in the semester as possible. Applications received later than 15 calendar days after the close of the semester may be denied.

The General Fee
EMU has the responsibility to maintain services and facilities on campus for the comfort and convenience of students, and to maintain academic accreditation. Examples are: improvements to academic facilities, Snow Health Center, learning technology labs, athletic facilities, performing arts facilities, and Student Government. These are funded through a general fee per credit hour and assessed to all students. Not every supported service or facility is used by every student, but the overall good of the student body is served.

Service Fees
Room and board fees are published by the Housing Office and are set by action of the Board of Regents.

A per-credit-hour health care fee is charged. Payment entitles the student to health care at reduced rates.

Students' spouses, faculty and staff and their spouses may avail themselves of health center services, but at somewhat higher rates. If they desire, these persons may pay the participation fee at Snow Health Center and become eligible for reduced rates. The complete schedule of health service fees is available at Snow Health Center.

A Student Government fee shall be assessed each student enrolling for one or more on-campus undergraduate courses. This fee shall be collected by the University as a separate charge when tuition is paid. The fee provides operating funds for the Student Senate and student organizations.

A per-semester Student Activity Fee is assessed to all students not living in University housing. All students paying this fee are eligible for free admission to home basketball and football games. This fee is used to renovate and enhance campus facilities and the campus environment.

A graduation fee is charged to each student who makes application for graduation. It covers the cost of mailing of diplomas and other specific graduation items. The fee is assessed once for each degree and is non-refundable.

A transcript fee charge of $5 is made for each transcript ordered by students.

Parking your motor vehicle in University parking lots requires the proper parking permit. To purchase your parking permit, you must first register your motor vehicle with the Public Safety Department, located on the ground floor of the parking structure. The application will contain information to indicate whether the permit will be mailed to you or whether you must pick it up in person.

2001-02 motor vehicle rates are as follows:

**Commuter Permits:**
- FA and WI .................................................. 100.00
- SP and SU .................................................. 50.00

**Resident Permits:**
- Apartment housing FA and WI.......................... 50.00
- Apartment SP and SU .................................... 25.00
- Res. Hall FA and WI ...................................... 100.00
- Res. Hall SP and SU ....................................... 50.00
- Brown-Munson FA and WI ................................. 100.00
- Brown-Munson SP and SU ................................. 50.00
- Graduate Assistant FA and WI ........................... 40.00
- Graduate Assistant SP and SU ........................... 20.00

All students meeting the requirements of the law are eligible to operate and maintain motor vehicles on campus. Motor vehicles are required to be operated within the provisions of the Traffic, Parking, and Pedestrian Ordinances of the University.

Further details are available in the Parking and Traffic Regulations brochure available from campus police. Permit cost subject to change.

**Special Fees**
Music fees are charged for private lessons according to the following schedule (1995-96 fee schedule):

Music majors: $60 per semester (maximum) for all instruction.

Other University students: $60 per semester for one-hour lesson, $30 per semester for half-hour lesson.

Students from public schools, the community and EMU staff and families: Lessons are available through the EMU Community Music School. Fees vary depending on the length of the lesson, and the instructor. Call the Department of Music for details.

Lessons are arranged through the Department of Music.

The applied music fee is assessed to each student’s account at the close of the program adjustment period. This fee is not refundable after the first lesson.

Nursing fees of $1.5 per credit hour for clinical laboratory courses are charged in addition to per credit hour fees. These courses are listed below:

- NURS 209 The Art and Science of Nursing I Laboratory (3) ....... $45
- NURS 251 The Art and Science of Nursing II Laboratory (3) ....... $45
- NURS 305 Nursing Care of Childbearing Families Laboratory (3)$45
- NURS 307 Nursing Care of Childbearing Families Laboratory (3)$45
Student Expenses

Estimated Academic Year Costs
(Residence Hall and Commuter Students)
The following budget represents typical expenses for a freshman student, Michigan or Ohio resident, taking a total of 31 undergraduate credit hours during fall and winter semester, living in a University residence hall or off-campus apartment, and attending the full academic year (fall and winter semesters).

- Tuition and fees: $3,239
- Books and academic supplies: $600
- Residence hall room and board: $803
- General student fee (total hours times $20): $820
- Estimated additional costs of personal, transportation, and miscellaneous expenses: $1,200

Personal expenses include: clothing allowance, medical/dental expenses, recreation, personal hygiene articles. Out-of-state students should allow for additional tuition and transportation costs.

Students can anticipate the following total costs: tuition and fees, books, room and board, personal and miscellaneous expenses, and transportation for an eight-month academic year:

- On-campus student: $10,690
- Commuter student: $7,300
- Off-campus student: $10,690

The above budgets are based on financial aid average costs for 2000-2001.

Financial Assistance

During 2000-2001 Eastern Michigan University will pay more than $70 million dollars in the form of scholarships, grants, part-time employment and loans to over 13,000 students.

The federal government, state of Michigan, Eastern Michigan University and private sources provide program funding. While most awards are based on financial need, scholarships often have academic achievement requirements or other eligibility criteria.

Federal and state aid is awarded to help pay college costs based on the assumption that parents and students will contribute as much as they are financially able. To the extent that the family does not have sufficient resources to meet the costs of higher education, students may qualify for need-based financial aid.

Academic Scholarships

- New freshmen and transfer students who are admitted by February 15 for the following fall are considered for scholarships through the EMU Admissions office. By completing the Free Application for Federal Student Aid (FAFSA), eligible students will be considered for all federal and state aid programs. To receive aid, students must:
  - Be enrolled in an eligible program;
  - Be a U.S. citizen or an eligible noncitizen;
  - Demonstrate need;
  - Make Satisfactory Academic Progress toward a degree;
  - Not be in default on a federal student loan; and
  - Not owe a refund on any Federal Title IV, state or university aid program.

Regents Scholarship—Four year award that pays $2,600 per year. High school seniors must have a 3.50 GPA with a 25 ACT or 1150 SAT. Minimum 3.50 for renewal. Recipients must live in university residence halls their first two years. Must be admitted by February 15 for the next fall semester.

Recognition of Excellence Scholarship—Four year award that pays 12 credit hours per year (six per semester) plus mandatory fees. High school seniors must have a 3.00 GPA with 21 ACT or 1000 SAT. Minimum 3.00 for renewal. Recipients must live in university residence halls their first two years. Must be admitted by February 15 for the next fall semester.

National Scholar Program—Four year award that pays 30 credit hours per year (fifteen per semester) of out-of-state tuition differential. High school seniors must have a 3.00 GPA with a 21 ACT or 1000 SAT. Minimum 3.00 for renewal. Recipients must live in university residence halls their first two years. Must be admitted by February 15 for the next fall semester.

Valedictorian and Salutatorian Scholarship—one year award of $2,000. This scholarship will be awarded to new freshmen who graduate as the Valedictorian or Salutatorian from their high school, and who are admitted by February 15 for the next fall semester. Notification deadline is June 30.

Eagle Leadership Award—one year award of $500. High school seniors must have a GPA between 3.0 and 3.49 and must show volunteer involvement in their school or community for consideration. Students must be admitted by February 15 for the next fall semester.

Community College Scholarship—one year award of $1,000. Applications available at Community College Financial Aid Office in February. Students must have completed at least 30 credit hours with a minimum cumulative 3.50 college GPA and must be admitted by May 1 for the next fall semester.

Departmental Scholarship—Award amounts vary and are made by departments. Selections can be based on academic as well as representative talent within that department or major. Students must be admitted by February 15 for the next fall semester.

Music Service Awards—Award amounts vary. Awards are made to students who perform in EMU’s music programs or provide outstanding service to the Music Department. Deadline is June 1 for the next fall semester.

Communication/Theatre Arts Service Awards—Awards are made to students who perform in forensics, theatre arts programs or make outstanding contributions to the Communication Theatre Arts Department. Deadline is June 1 for the next fall semester.

Army and Air Force ROTC Scholarships are also available. Contact the ROTC office at 734.487.1020 for more information.

Many academic scholarships are provided by external sources, including community agencies, service organizations, charitable organizations, civic groups and foundations. Students should investigate these potential resources by checking with public and university libraries for scholarship resource books and by contacting the agencies directly.

General Eligibility Requirements for Financial Aid

- By completing the Free Application for Federal Student Aid (FAFSA), eligible students will be considered for all federal and state aid programs. To receive aid, students must:
  - Be enrolled in an eligible program;
  - Be a U.S. citizen or an eligible noncitizen;
  - Demonstrate need;
  - Make Satisfactory Academic Progress toward a degree;
  - Not be in default on a federal student loan; and
  - Not owe a refund on any Federal Title IV, state or university aid program.

Determination of Need-based Financial Aid Awards

The award process for the upcoming academic year begins in April. Aid is awarded to students once they have been officially admitted to the University and EMU receives the institutional record of the Student Aid Report from the federal government. Once the Office of Financial Aid has determined the aid package, a Financial Aid Award Statement will be sent to the student applicant. The award statement contains information regarding the type and amount of aid, disbursement information and other instructions necessary to complete the aid process.
Financial aid awards are processed and funds disbursed in compliance with established federal, state and institutional policies.

Federal and State Financial Aid

To be considered for federal and state aid programs, students complete the Free Application for Federal Student Aid (FAFSA) available through high schools and college financial aid offices beginning each November. The FAFSA must be filed every year to determine eligibility for the upcoming academic year.

Priority funding will be offered to students who receive their Student Aid Report from the FAFSA processor dated March 15 or earlier. To meet this deadline, applications should be filed during the month of January.

The application collects information about family income and assets, family size, and the number of family members attending college at least half time. Based on an analysis of this data, the federal government determines the Expected Family Contribution that is identified on the Student Aid Report. The Expected Family Contribution is subtracted from the University’s cost of education to determine whether there is a difference between the family’s ability to pay and the college budget. Most federal and state programs are awarded based on a student’s need.

The cost of education consists of an estimate of direct and indirect expenses. The direct costs are tuition, fees, and room and board. The indirect costs are books and supplies, transportation, and miscellaneous personal expenses. The cost of education at EMU is determined annually.

The cost of education for undergraduate students for fall and winter 2001-2002 semesters is:

On-campus: $10,200
Off-campus: $10,200
Commuter: $7,500

Federal Financial Aid Programs

The maximum amounts of aid described below are subject to change by federal and state regulations or university policy.

Federal Pell Grant—Annual awards of up to $3,125 are available to undergraduate students who are enrolled and have demonstrated financial need.

Federal Supplemental Educational Opportunity Grant—Awards range from $100 to $2,000 per year. Priority is given to students who receive a Federal Pell Grant.

Federal Perkins Loan—Annual awards are available to undergraduate and graduate students who are enrolled at least half-time and have demonstrated financial need. Undergraduates may borrow up to $4,000 per year ($20,000 maximum) and graduate students may borrow $6,000 per year ($40,000 maximum including loans borrowed as an undergraduate). Priority is given to students who receive a Federal Pell Grant.

Federal Subsidized and Unsubsidized Loan Program—Loans are provided through banks, savings and loan institutions, and credit unions. Following is the maximum annual amount a student may borrow, based on academic level:

Freshman: $2,625
Sophomore: $3,500
Junior/Senior: $5,500

Teacher Certification

Students admitted to the teacher certification program will be automatically packaged with a Stafford loan limit of $5,500 for a two-semester loan period for dependent students.

Federal PLUS Loan Program

The Federal Parent Loan for Undergraduate Students (PLUS) is a loan from private lenders to parents of dependent students. Parents may borrow up to the cost of education less any other financial aid (including the Unsubsidized Stafford Loan amount). The PLUS loan is available to parents after a credit check to determine ability to repay. Interest rates are determined by the bond equivalent rate of the 52-week Treasury Bill plus 3.1 percent, not to exceed 10 percent. A four percent origination fee is paid directly to the federal government from the loan proceeds. Repayment begins within 60 days after loan disbursement. Repayment may take up to 10 years. Minimum monthly payment is $50.

Obtain an application from your chosen lender, and submit the completed PLUS application to the Office of Financial Aid. Loan checks are made payable to the parent and Eastern Michigan University and are sent to EMU in two disbursements.

Michigan Financial Aid Programs

Michigan Competitive Scholarships—This state-funded scholarship program is based on a combination of ACT test scores and financial need, as determined by completing the FAFSA. Students initially apply by taking the ACT no later than October of their senior high school year. The second step of the application process is to submit the FAFSA. The State has a processed deadline of February 21 for freshmen, and March 21 for continuing students. Students may annually renew the scholarship by maintaining a 2.0 GPA and demonstrating continued financial need.

Michigan Adult Part-Time Grant—Need-based gift aid available to undergraduates who are enrolled on a part-time basis. Students must meet independent criteria as indicated on the FAFSA. Grants of up to $600 are available for a maximum of two years.

Michigan Educational Opportunity Grant—Need-based gift aid to undergraduates enrolled at least half time. Students who meet the basic requirements for the Michigan programs are eligible. Grants of up to $1000 per year are available.

Michigan Work-Study Program—Need-based program that provides work opportunities for undergraduates. Both nonprofit and profit-based employers may sign agreements with Michigan colleges to participate in this program. Students who meet the basic requirements for the Michigan programs are eligible. Awards range from $900 to $3,000 per year.

Payment of Financial Aid

A financial aid file must be complete and verified. If required, before aid is paid to a student’s account. The following aid is paid directly to a student’s account:

• Federal Pell and Supplemental Educational Opportunity Grants
• State of Michigan grants and scholarships
• University grants and scholarships
• Outside scholarships
• Federal Subsidized and Unsubsidized Stafford Loans with electronic funds transfer
• Federal Perkins Loans

Proceeds from paper checks from lenders participating in the Federal Subsidized and Unsubsidized Stafford Loan Program will be applied to a student’s account once the check is endorsed by the student.

Federal and state college work-study checks are issued to students for hours worked on a bi-weekly basis.

Students will be issued a refund check for aid applied to their account that exceeds the charges on that account. Financial aid will not pay for library fines, late installment fees, hang tags or telephone charges.

Verfication of Financial Aid Application Information

Applicants selected for verification must provide documentation to prove the accuracy of certain items reported on the FAFSA before aid is disbursed. Major items verified include:

• Copies of federal income tax returns with schedules
• W-2 forms
• Verification worksheet
• Most recent year-end statements for:
  • Child support
  • Social security benefits
  • Other forms of income/benefits not included on a W-2
  • Benefits received from other federal and state agencies
  • Documentation of Orphan or Ward of the Court status

The deadline by which verification documentation must be submitted is published annually by the Office of Financial Aid and is not later than the student’s last date of enrollment for the fiscal year. Failure to submit required documents by the due date may result in the cancellation of financial aid offers.

Financial Aid Transcripts
Students who transfer to EMU as a new transfer student with a first semester enrollment of winter, spring or summer must arrange for a Financial Aid Transcript to be sent to EMU from all previous colleges or universities attended.

Satisfactory Academic Progress
Federal regulations require that students must progress satisfactorily toward graduation. Satisfactory Academic Progress (SAP) is evaluated using three factors: grade point average, percentage of attempted courses completed, and maximum credits of eligibility in which to complete a degree. Students who fail to maintain satisfactory academic progress may lose eligibility to receive funds from federal Title IV, state, or university need-based aid programs.

Students must maintain the following requirements:
- Undergraduate—overall GPA of 2.0 or better,
- Graduate—overall GPA of 3.0 or better,
- Completion of 75 percent of all attempted credit hours,
- Completion of programs of study within the maximum of 150 percent of the total program hours, including transfer credits.

Students who do not meet the SAP requirements will be put on probation. Failure to improve SAP while on probation will result in cancellation of future financial aid eligibility.

Students who have extenuating circumstances that resulted in failure to maintain SAP may appeal the cancellation. Students must submit a letter of appeal addressed to the Financial Aid Review Committee and attach third party documentation, as appropriate.

Repayment Policy
Some students who withdraw from all classes before the end of the semester and who have received federal or state aid may be required to repay aid paid toward room and board, and personal costs.

Financial aid is used for expenses incurred while attending school. Any portion allocated to the weeks the student did not attend classes must be repaid.

Students are notified when funds are returned to their lender and/or when they are required to repay aid. Consult the Office of Financial Aid before dropping a class or withdrawing from all classes to determine whether aid and/or scholarships must be repaid, reduced or cancelled.

Students may also apply for the following loans without a FAFSA:

University Short Term Loans (USTL)—Available to part-time and full-time students who:
- (1) are currently enrolled at the University,
- (2) have earned previous credit at Eastern,
- (3) qualify academically (minimum 2.0 “C” undergraduate, 3.0 “B” graduate),
- (4) have no past due obligations, and
- (5) have repaid previous loans satisfactorily.

Students may borrow up to $250 without a co-signer or up to $500 with a co-signer. Applications may be obtained at the Student Loan Account Office, Pierce Hall. Loans are processed within 24 hours.

The Small Loan Fund—Provides 30-day, short-term, interest-free loans to $15 maximum to help students meet an emergency. Loans are available at the Cashier’s Office, Pierce Hall.

Adult Tuition Loans—Tuition-only loans for up to $500. Applicants must be 21 years of age or older; have an annual income of $15,000 or more; and meet the same five requirements for the USTL Program.

Tax Information
Grants and scholarships received in excess of qualified tuition, fees, books, supplies and equipment may be taxable income. Students who do not earn enough money to file an income tax return may need to determine if their financial aid makes a difference in their tax filing status. EMU will issue 1098T and 1098E forms to assist in determining taxable income and eligibility to claim the Hope or Lifetime Learning Tax Credits for Student Loan Interest deduction. Contact the IRS with any questions regarding tax issues.

Academic Procedures

Academic Advising Center
Patricia L. Williams
Director
301 Pierce Hall
734.487.2171

The Academic Advising Center provides help and guidance to students and faculty through a variety of activities. It has four major areas of responsibility: academic advising, retention support, academic actions, and academic services. Each of these is concerned with the student’s total welfare.

The AAC is the central coordinating service for academic advising activities for all new and currently enrolled students and faculty. It is the first formal academic contact on campus for most new students. Advisers in the center assist students as they evaluate academic goals and objectives, design programs and select major/minor choices. The AAC coordinates advising training for new faculty and provides a resource to faculty advisers to answer general advising questions. The center also coordinates and administers the second bachelor degree program, the individual studies program and the three-year accelerated baccalaureate program.

Retention support includes the following: administration of the PASS (Promote Academic Survival and Success) program; administration of the academic mentor program; assistance to students in the Summer Incentive program; and assistance to students on academic probation.

Academic Actions involves the central administration and enforcement of the academic probation, dismissal, and readmission policies established by the Academic Standards committee and the University.

The AAC provides the following academic services: (1) CLEP (College Level Examination Program) testing; (2) Pass/Fail grade options; (3) late and retroactive withdrawal requests; (4) general education requirement waivers for English and mathematics, and high school science verification; and (5) application of transfer credit to the general education requirements.

The academic year is divided into fall and winter semesters of 15 weeks each, a spring session of either six or seven and one-half weeks, and a summer session of either six or seven and one-half weeks, dependent on course selection. The new student may be admitted to the University for any semester or session. The University calendar is printed at the front of this book.

Evening courses and continuing education courses permit scheduling options within each semester or session. Two-week workshops and weekend seminars provide additional course credit opportunities.

Academic Course Load
Academic course load is the number of hours that a student carries in a semester or session. In the fall and winter semesters, the recommended full-time course load is 15 to 18 hours (15 with student teaching). In the seven and one-half week spring and summer sessions, it is six to eight hours, and in the six-week spring and summer sessions, it is five to six hours. Fall and winter students must register for a minimum of 12 credit hours to qualify as "full-time" for University purposes, including financial aid. For the spring and summer semesters, the minimum full-time load is six credit hours for financial aid or other purposes.

Occasionally an increased academic load is found to be necessary or desirable. Before registering for more than the recommended hours, the student is asked to consult an adviser. The following two restrictions are placed on increased academic load:

1. Students on academic probation may not take more than the recommended full-time academic load without special permission from the Academic Advising Center, 301 Pierce.

2. Students on academic probation may not take more than the recommended full-time academic load without special permission from the Academic Advising Center.

Qualified continuing students taking over 18 credit hours should consult carefully with an academic adviser before taking an overload. The touch-tone system will prevent registration for more than 24 credit hours (12 in spring or summer). Request assistance at the Records and Registration service counter to add classes in excess of 24 credits.
Regular class attendance and active participation in classes are important elements in the learning process. Students are at the University primarily for the sake of their intellectual growth and development. Attendance and participation provide appropriate opportunities for the evaluation of the student's progress.

Each student is personally responsible for the satisfactory completion of the course work prescribed by his/her instructors. This means specifically that he/she is expected to attend classes regularly, and that he/she is responsible for the work assigned in class, the material covered in class, and for participation in class activities (including discussion and listening) designed by the instructor as part of the learning experience. However, mere physical attendance should not be the only criterion for evaluation of the student's performance.

No person is allowed to attend class unless officially registered on a credit or audit basis with appropriate fees paid or is, as full-time staff, faculty or faculty spouse, auditing under the student benefits program. No credit will be given for work in courses not officially enrolled in or approved.

Auditing Courses

Courses may be audited subject to the approval of the head of the department offering the course. Audit applications may be obtained at and returned to the Office of Records and Registration, 303 Pierce Hall. No credit hours or grade points are awarded for a class audit. However, registration and payment of all fees is required for the class. Tuition and fees for auditing are the same as for the course in which credit is elected. Check the University calendar for deadlines to declare or remove audits.

Under provisions of the University staff benefits program, full-time staff, faculty, and faculty spouses may audit classes by completing an approval process initiated at the Benefit Programs Office, Bowen. These students do not register for the class and there is no transcript of their attendance.

Credit Hours/Class Levels/Course Numbers

Credits are determined by the units of work completed. One semester hour is the credit granted in a course that meets 50 minutes per week for 15 weeks. Credits earned on the term or quarter-hours basis at other institutions are converted to EMU credit hours by multiplying by two-thirds.

Class levels are determined by the academic hours completed as follows:

<table>
<thead>
<tr>
<th>Class</th>
<th>Semester Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>Freshman</td>
<td>0-24</td>
</tr>
<tr>
<td>Sophomore</td>
<td>25-55</td>
</tr>
<tr>
<td>Junior</td>
<td>56-84</td>
</tr>
<tr>
<td>Senior</td>
<td>85 or over</td>
</tr>
</tbody>
</table>

Administrative class levels that are not affected by academic hours completed:

<table>
<thead>
<tr>
<th>Class</th>
<th>GS</th>
<th>IM</th>
<th>NM</th>
<th>SB</th>
</tr>
</thead>
<tbody>
<tr>
<td>Guest</td>
<td></td>
<td></td>
<td></td>
<td>G</td>
</tr>
<tr>
<td>Self-Improvement</td>
<td>S</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>Non-Matriculated</td>
<td>NM</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>Second Bachelor's</td>
<td>SB</td>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

Course numbers indicate the academic level of the course as follows:

<table>
<thead>
<tr>
<th>Course Number</th>
<th>Level of Difficulty*</th>
</tr>
</thead>
<tbody>
<tr>
<td>100-199</td>
<td>Introductory</td>
</tr>
<tr>
<td>200-299</td>
<td>Intermediate</td>
</tr>
<tr>
<td>300-499</td>
<td>Advanced</td>
</tr>
</tbody>
</table>

*Introductory courses are appropriate for students who have had no course work at the University level in the discipline in question. Intermediate courses presuppose that the students enrolled are familiar with and able to work with the content or methods, or both, of the discipline as presented in the introductory course. Advanced courses presume that students enrolled are familiar with and able to work with content, concepts, and methodology of the discipline at a level appropriate to that of undergraduate majors in the discipline.

Courses numbered 500 to 599 are intended primarily for graduate students but are open in some cases to seniors. To be eligible, an undergraduate student must have successfully completed 76 hours or more of undergraduate credit, have a cumulative grade point average of 2.50 or better, and receive approval from the instructor and the Graduate School. Request forms are available at the Office of Records and Registration, 303 Pierce Hall. The maximum number of graduate hours that an advanced undergraduate can take is 15. Courses numbered in the 600s and 700s are exclusively for graduate students.

Prerequisites

Prerequisites designated in the catalog description of courses and in the semester Class Schedule Bulletins state requirements that must be completed with credit or are necessary to the understanding of the course selected. Any student not meeting prerequisite requirements or other restrictions, unless waived by his/her instructor's permission, may be prevented from registering for or required to drop the course. Courses at the 200, 300, and 400 levels that carry no prerequisites are taught at the academic levels described above.

Final Examinations

Final examinations are given by instructors to help evaluate a student's achievement in a course. Whether or not that evaluation shall include the final examination shall be determined by the instructor in line with departmental and University policy. If a final examination is not given, the scheduled examination period shall be used for other class activity.

If a final examination is given, students shall take the examination with their own class and at the hour indicated on the examination schedule. Failure to take the examination at the scheduled time will result in a grade of "E" in the course, except when the requisite conditions for granting an "I" are present.

If the student finds that he/she has three examinations scheduled on one day, he/she may request the instructor of the class having the first examination of the day to arrange to take the examination at another time. If he/she finds that he/she has four examinations scheduled for one day, he/she may request the instructors of the first two examinations to make arrangements so that no more than two are scheduled in one day. He/she may appeal to the head of the department in which the course is offered if a satisfactory solution is not reached.

Students who for religious reasons find that they are not able to follow the examination schedule should make special arrangements with their instructors. If arrangements are not satisfactory, the student may appeal to the head of the department in which the course is offered.

Any deviation from the student's examination schedule, other than to limit the exams to two in one day or to observe religious mandates, must be approved in advance by both the instructor and the department head, and will be granted only in cases of extreme emergency.

Failure to take an examination at the scheduled time without prior arrangement will result in a grade of "E" in the course.

Grades

The grades used by the University with their corresponding values in points are as follows:

<table>
<thead>
<tr>
<th>Grade</th>
<th>Significance</th>
<th>Grade points per credit hour</th>
</tr>
</thead>
<tbody>
<tr>
<td>A</td>
<td>Exceptionally high</td>
<td>4.0</td>
</tr>
<tr>
<td>A-</td>
<td>Excellent</td>
<td>3.7</td>
</tr>
<tr>
<td>B+</td>
<td>Distinctly above the average</td>
<td>3.3</td>
</tr>
<tr>

<tr>
<td>UN</td>
<td>Failing grade in student teaching elections</td>
<td>0.0</td>
</tr>
</tbody>
</table>
The pass/fail option is available to students who wish to experiment in an unfamiliar field without jeopardizing their grade point averages or for other reasons. Limitations to the option are:

1. It may be exercised only by juniors and seniors who are in good academic standing (at least 2.0 at EMU).
2. It may be applied only to free electives, that is, to courses which are outside the student's major, minor, curriculum or general education requirements.
3. A maximum of six such courses may be applied toward graduation.
4. Students shall indicate their intention to take a course by filing an application with the Academic Advising Center, 301 Pierce, prior to the end of the program adjustment period. Approval or denial is available in two working days.
5. Students who elect a course on a pass/fail may cancel the option and accept a letter grade up to the last day of class before the official University scheduled final examinations.
6. The instructor will not be notified of the student's election of this option. The regular letter grade reported by the instructor will be converted on grade reports and transcripts as follows:
   a. Grades of "A," "B," "C," or "D," including "D+" will be converted to "S," and shall count as credit toward graduation.
   b. The grade of "E" will be converted to "U," and shall not count toward graduation.
7. A course taken under this option shall not be used in any way in the computation of the student's grade point average. Thus, a pass/fail election shall not be approved for a course in which the student previously received a letter grade.

Students should be aware that, for some scholarships offered by the University, pass/fail courses are not considered part of the minimum required load for scholarship.

Students also should be fully aware of the possible implications of this option for acceptance into graduate schools and competition for financial aid there. It has been ascertained that most graduate schools will accept students who have elected to take some courses on a pass/fail basis, but that if courses taken on this basis are sufficient in number on the transcript, the Graduate School Examinations may be utilized to determine the student's acceptability. Graduate schools, in general, do tend to favor those applicants who have good letter grades on their transcripts.

Incomplete

An "I" (incomplete) grade is awarded only when a student has completed the majority of the work of a course and the student's work has been of acceptable quality ("C" or better) but the required amount of work has not been completed because of illness, necessary absence, or other satisfactory reasons. It is never applied to poor work or to non-attendance of class by the student. It means that the student has informed the instructor of the reason for the requested incomplete, and the instructor has agreed to the request.

An "I" grade must be removed within one calendar year from the end of the semester or session in which that grade was given. The time for removal of an "I" may be extended upon written recommendation of the instructor and approval of the dean of the college. Such extension will be granted only under unusual circumstances.

The initiative for conversion of an "I" to a letter grade rests with the student. If not converted to a grade by the end of the one-year period, the "I" will remain as a permanent part of the student's academic record.

Grade Changes

Grade changes attempted by students must be initiated no later than the end of the eighth week of the next regular semester (fall or winter) following the semester or session in which the grade was given. A grade grievance must be initiated within five working days after the start of the next regular semester (see Grade Grievance Procedure in Student Reference Section). For instructor-requested changes, this means that the appropriate form has been submitted to the department head. For student appeals, it means that the instructor has refused to make a change and the issue has been formally turned over to the departmental grievance board.

An extension beyond this limitation may be permitted only by the dean of the college in which the course was taken. Such extensions will be granted only on verifiable evidence of emergency circumstances, such as serious illness or military obligation, which prevented the petitioner from acting during the prescribed period.

Repeats

Repeating courses for which the student is currently eligible can be elected, regardless of the grade received. The following conditions apply:

1. No course may be taken more than three times, except by permission of the head of the department in which the course is offered.
2. No student may repeat more than 10 different courses in the process of completing a baccalaureate degree, except by permission of the Academic Standards Committee. Contact is made through the Academic Advising Center.
3. All grades earned by a student will be retained on the student's permanent record and repeats will be indicated.
4. Only the grade received the last time the course is taken will be used in computing graduation credits and in determining the cumulative grade point average.
5. A course failed at Eastern Michigan University may not be repeated at another accredited college or university to satisfy Eastern Michigan University requirements without prior written approval of the director of Records and Registration.

Grade Reports

Grade reports are mailed by the University to the permanent address of the student normally within one week of the end of each semester/session. Undergraduate students' academic records are kept on permanent file in the Office of Records and Registration, 303 Pierce Hall. Unless there are past due financial obligations, students may get an official transcript of their complete records by requesting them in writing from the Cashier's Office and upon payment of the transcript fee specified.

GPA or Grade Point Average

The scholarship index or grade point average is the total number of Eastern Michigan University grade points acquired, divided by the total number of Eastern Michigan University credit hours taken that carry grade points. When a course is repeated, only the last grade is used in the computation of the grade point average.

Transfer credit from another accredited institution is allowed for all transferable courses in which a grade of "C" or better is received, but is not included in the computation of the grade point average. Non-index courses are not included in the computation of the grade point average.

Calculation of GPA for returning former students, who have not attempted any college or university work for at least two calendar years, does not include courses in which a grade of less than "D-" was assigned. "E" grades will be changed to 2.0 to reflect academic forgiveness.

Academic distinction is awarded at graduation to students whose cumulative grade point average merits special recognition. A 3.90-4.00 grade point average is accorded summa cum laude; a 3.70-3.89, magna cum laude; and 3.50-3.69, cum laude on the diploma and permanent transcript record.
Credit/No Credit
A credit/no credit grading option is used by departments in courses for which the standard letter grades are not appropriate. These courses are designated as "CR/NC" in the class schedule book. All students taking such courses will receive either "CR" or "NC" in place of a letter grade. Neither "CR" nor "NC" grades will have any effect on the student’s grade point average. Courses for which the "CR" is received will count toward graduation requirements.

Academic Retention and Dismissal
A student's academic status will change from "GOOD" to either "PROB" or "DISM" when the cumulative grade point average at EMU is less than 2.0 ("C" Average) at the completion of any term of enrollment. The resulting academic status is determined by the relationship between the cumulative grade point credits and cumulative grade point average. The status will be changed to "PROB" for academic probation or "DISM" for dismissal.

Academic probation means that the student’s grade point average has fallen below 2.0, but the student is eligible to continue course work. A student not subject to dismissal will remain on probation until he/she raises the cumulative grade point average to 2.0 or higher. To avoid the risk of academic dismissal, a student must earn at least a term grade point average of 2.0 or higher while on probation.

Certain conditions are attached to an academic status of probation.
Students on probation may:
- Enroll in more than the established maximum load for regular full-time status in any term of enrollment. For fall and winter, this would be 16 credits; in spring and summer, 8 credits.
- Enroll in education courses or courses that require admission to the College of Education.
- Receive credit for graduate-level courses (500 level).
- Take courses on Pass/Fail.

Students whose grade point average and grade point credits place them in the dismissal range will be academically dismissed, unless the term grade point average is 2.0 or higher. Even students who have not been on probation previously may risk dismissal; there is no automatic grace period, even for those new to EMU. Any dismissal action is subject to an appeal through the Academic Advising Center. Instructions and deadlines for such appeals are included with a written notice of dismissal, which is sent to each affected student after the conclusion of the term of enrollment. Students who appeal may be reinstated, which means that the most recent dismissal action is rescinded and the student is eligible to continue in course work; if the student's grade point average is still less than 2.0 at the time of reinstatement, probation policies will apply. The student must earn a term grade point average of 2.0 to avoid the risk of dismissal again.

A dismissed student will be considered for readmission to EMU after two successive enrollment periods (one of which must be fall or winter) have elapsed. Procedures for readmission involve submitting a written statement explaining readiness to return, accompanied by at least two letters of support and other relevant documentation. Any course work taken elsewhere subsequent to dismissal must be 2.0 or better, and EMU residency policies for transfer credits will apply. Specific details and procedures are provided by the Academic Advising Center and may be obtained by contacting that office at 734.487.2171. Materials concerning readmission must be submitted to the Assistant Director for Academic Actions, in writing. Deadlines for fall and winter are July 1 and November 15, respectively. Students who have been dismissed more than once previously (reinstatements excluded) normally will not be considered for readmission.

Drops/Withdrawals
Drops/withdrawals from individual classes
Drops/withdrawals from class are permitted according to the following schedule (fall and winter):

*First eight days: All student-initiated drops during this period may be processed through the touch-tone registration system. Such drops are not recorded on the student's permanent record.

* Ninth day through tenth week: All student-initiated withdrawals are accepted automatically and recorded as a "W." A withdrawal may be processed through the touch-tone registration system or by submitting a withdrawal form to the Office of Records and Registration, 303 Pierce Hall.

* After tenth week—until beginning of final exam period: The student must initiate the withdrawal request at the Academic Advising Center. The decision made on the request will be communicated in writing both to the student and the instructor in question. Students should not stop attending class until they have received official notification that their withdrawal has been approved. If a student stops attending class without officially withdrawing from the class and does not take the final examination, University policy requires that the instructor assign a grade of "F" for the course.

Late Withdrawal
A "W" may be granted to students under either of the following conditions:
1. The student's work in the course at the time of the withdrawal request is "A" through "C-." 2. Unexpected, emergency circumstances have arisen after the tenth week of the semester and prevent the student from completing the course work. These circumstances must be specific and verifiable.

The decision to award the "W" will be made by the Academic Advising Center assistant director, or designee, based upon evidence submitted and in consultation with the student. If the application is denied and the student fails to complete the course work successfully, a grade of "F" will be recorded by the instructor.

When withdrawal from a class, or from all classes, brings students' academic loads below the minimum number of hours necessary to qualify as full-time students for University housing, scholarship aid, student loans, or any other benefits they enjoy for which academic enrollment was a prerequisite, the University may, at its option, take any or all of the following steps:
1. Deny permission to withdraw.
2. Cancel the benefits as of that date.
3. Declare the student ineligible for present and/or future benefits of a similar nature.
4. Deny permission to re-enroll in subsequent semesters.

Withdrawals from the University
The following University procedure is subject to change in accordance with regulatory changes initiated by the United States Department of Education.

For First-Time Attendees of EMU
A credit adjustment of 100 percent of tuition and fees for all fall and winter semesters, less an administrative fee, will be made to those students who completely cancel their registration or withdraw from the University through the eighth business day of the semester. For the spring and summer semesters, a 100 percent credit adjustment, less an administrative fee, will be made through the first four business days of the semester. Actual dates are printed in the class schedule book for each semester.

A credit adjustment for withdrawals after the eighth day of fall and winter semesters, or the fourth day of spring and summer semesters, will be made according to the following schedule:

Withdrawal by the Following Day of the Semester
Credit Adjustment Fall/Winter Spring/Summer
80% 15th 8th
70% 23rd 12th
60% 30th 15th
50% 38th 19th
40% 45th 23rd
0% Last Day Before Finals Last Day Before Finals

Actual dates are printed in the class schedule book for each semester and session. No credit adjustments will be made after the above stipulated dates.
For Non-First-Time Attendees of EMU
A credit adjustment of 100 percent of tuition and fees for the fall and winter
semesters, less an administrative fee, will be made to those students who com­
tpletely cancel their registration or withdraw from the University through the
eighth business day of the semester. For the spring and summer semesters, a 100
percent credit adjustment, less an administrative fee, will be made through the
first four business days of the semester. Actual dates are printed in the Class
Schedule Book for each semester.
A credit adjustment for total withdrawals after the eighth day of fall and
winter semesters, or the fourth day of spring and summer semesters, will be
made according to the following schedule:

<table>
<thead>
<tr>
<th>Withdrawal by the Following Day of the Semester</th>
<th>Credit Adjustment</th>
</tr>
</thead>
<tbody>
<tr>
<td>Fall/Winter</td>
<td></td>
</tr>
<tr>
<td>50%</td>
<td>19th</td>
</tr>
<tr>
<td>25%</td>
<td>38th</td>
</tr>
<tr>
<td>0%</td>
<td>Last Day Before Finals</td>
</tr>
</tbody>
</table>

Actual dates are printed in the class schedule book for each semester and
session. No credit adjustments will be made after the above stipulated dates.

Retroactive Withdrawals
Retroactive withdrawal from the University may be requested by a student when
unexpected circumstances arise after the completion of classes for a term. Nor­
mally, the request will be considered only for the preceding term.
The retroactive withdrawal policy is dependent on one or both of the fol­
lowing reasons:
1. Administrative. Through an administrative problem or error, the student
received an "F" grade.
2. Mental or physical stress. Subsequent to awarding the term grades, the
student claims that severe physical or psychological stress was present
during the semester. Documentation must be presented by or on behalf of
the student, and a consultation may be required. In this case, the decision
will affect all the classes the student was registered for during the term in
question. In cases of severe mental or physical stress, it is usually assumed
that students are so incapacitated they were not able to carry on with Uni­
versity responsibilities.
In either situation, the student must initiate the request at the Academic
Advising Center, 301 Pierce Hall. Upon review of the documented evidence and
possible further consultation, the director or designee will recommend action to
the office of the vice president for academic affairs.
The approval of a retroactive withdrawal does not constitute approval of a
tuition refund. Grades of "W" will be posted on the official academic record.

Student Conduct/Grievances
Grade grievance procedures also may be obtained from the academic depart­
ment involved. Student employment grievance procedures may be obtained from
the Career Services Center, third floor, King Hall.

Graduation Requirements
To graduate from Eastern Michigan University, students must earn a bachelor of
science degree, a bachelor of arts degree, or one of the bachelor's degrees perti­
nent to their field of study. To accomplish this, students must fulfill general
education requirements, a major of 30 to 36 hours and a minor of 20 to 24 hours
or a self-contained program of 50 to 60 hours, 2 hours of physical education
and health, and electives to equal the minimum total of 124.
The catalog requirements in effect at the time of the student's initial regis­
tration at a college or university or the requirements of a subsequent catalog,
including those in effect at the time of the student's graduation, may be used to
complete graduation requirements. In the event the student does not complete
degree requirements within seven years of the date of his/her original registra­
tion, the student may be required to have his/her credits re-evaluated by the
Office of Records and Registration in keeping with more recent catalog require­
ments. (See special time requirements in the description of the nursing
program.)

Degrees
Basic undergraduate degrees conferred by the Board of Regents on recommenda­
tion of the president and faculty are the Bachelor of Science (BS) and the
Bachelor of Arts (BA) degrees, described fully in the introduction to the Col­
lege of Arts and Sciences.
Bachelor's degrees are also awarded in fine arts (BFA) and art education
(BAE)—see Department of Art, College of Arts and Sciences; business admin­
istration (BBA)—see College of Business; bachelor of business administration
and bachelor of arts in language and world business (BBA/BA)—see College of
Business or Department of Foreign Languages, College of Arts and Sciences;
business education (BEE)—see Department of Business and Technology Edu­
cation, College of Technology; music education (BME), music-performance
(BMU), and music therapy (BMT)—see Department of Music, College of Arts
and Sciences; nursing (BSN)—see Department of Nursing, College of Health
and Human Services.

Many students also select pre-professional fields of study such as medicine,
dentistry, and forestry (listed in departments) or seek certification and/or
licensing in teaching, medical technology, and similar fields (listed at the end of
this section).
Graduate degrees offered by this University are: Master of Arts, Master of
Science, Master of Fine Arts, Master of Business Administration, Master of
Science in accounting, Master of Public Administration, Master of Business
Education, Master of Science in computer-based information systems, Master of
Individualized Studies, Master of Social Work, Master of Nursing, Master of
Science in organizational behavior and development, and Master of Liberal
Studies. In addition, there is a Specialist in Arts degree and a doctorate in educa­
tional leadership. All are listed in the graduate catalog.

Bachelor's degree programs require all students to take courses in various
subject areas as specified both in the general education requirements and in
departmental majors and minors.

General Education Program

History
In February 1985, the provost commissioned a Basic Studies Review Commit­
tee and charged the members "with conducting a comprehensive reexamination
of our present basic studies requirements and with determining what changes
should be made to provide the most effective liberal/general education for today's
students." The Basic Studies Review Committee met through April 1986 and
recommended a series of revisions in the existing program. The
recommended revisions were subjected to a thorough process of review by de­
partmental, college, and University bodies and were finally approved by the
Board of Regents on September 23, 1987.
The revised structure included the establishment of a standing Basic Stud­
ies Committee, whose task was to make recommendations about implementa­
tion of the new basic studies program. The Basic Studies Committee was con­
misioned in January 1988 and has met regularly since that time. The Basic
Studies Committee considered extensive input from the University community.
Upon recommendation of the Basic Studies Committee, the provost approved
the following program.

Implementation Schedule
Effective fall semester 1990, the new basic studies program applies to all enter­
ing first-time freshmen students at EMU who begin their college work in fall
1990 or thereafter. It also applies to transfer students who begin their college
work at another institution in fall 1990 or thereafter. Transfer students must
consult the Academic Advising Center to determine the degree to which their
transfer credits may be applied toward the EMU basic studies requirements.

After December 2000, students will no longer be able to graduate under
pre-fall 1990 basic studies requirements. Students who have been making con­
sistent progress toward their degree may request a one-year exemption upon
the recommendation of their adviser and approval of the director of records and
registration.

Rationale
The general education program is designed to provide you with a core of knowl­
dge about people, things, and processes. The program also seeks to teach you
how to evaluate the work of others; to add to your store of ideas and ideals; and
to communicate your discoveries and insights. The general education courses
are intended as more than introductions to fields of study; they should also de­
velop your capacity for independent thought. The general education program
attempts to ensure that you will not be content with the world as it is but will seek to improve and perfect it.

Requirements: 16 courses
All students are required to complete courses in four areas:

I. Symbolics and Communication: 5 courses
II. Science and Technology: 3 courses
III. Social Science: 4 courses
IV. Arts and Humanities: 4 courses

Special Note 1: At least one of the 16 courses must be an approved course in cross-cultural or international studies. Such courses appear in the following course lists preceded by an asterisk (*).

Special Note 2: A set of interdisciplinary courses may be elected by honors students and, as space is available, by students with a cumulative grade point average of at least 3.0 to satisfy the requirements in fine arts, history, literature, music, philosophy, and theatre arts. For further information, consult the Honors Courses in General Education on page 30.

Special Note 3: A number of majors and minors specify precisely which courses must be taken to satisfy the following general education requirements. Students in the elementary education and nursing programs have a special grouping of courses to satisfy some of these requirements. It is extremely important that you confer with the Academic Advising Center and/or your departmental advisor prior to making your general education choices.

AREA I: SYMBOLICS AND COMMUNICATION
Requirements: 5 courses
1. A course in written composition.
2. A course in speech communication.
3. A course in one of the following areas:
   (a) an upper-level course in written composition.
   (b) an upper-level course in speech communication.
   (c) a course in foreign language composition.
4. A course in mathematical reasoning.
5. A course in computer literacy.

A: Rationale:
Human beings need to know how to use symbols to communicate effectively. Writing requires a command of verbal symbols; speech uses both verbal and nonverbal symbols. Using written and spoken symbols, we construct, interpret, and influence human experiences and behavior. Mathematical symbols are used to communicate the extent, dimension, and structure of things and allow us to reason efficiently. The traditional competencies in speech and writing, and mathematics will be enhanced by your use of computer technology.

B: Meeting the Requirements in Area I (Symbolics and Communication)
Courses marked with an asterisk (*) also satisfy the cross-cultural/international studies requirement.

1. A course in written composition.

    Note: For those students who do not submit test scores, placement will be determined by the Academic Advising Center.

    ENGL 120 Basic English Composition

    You must enroll in this course in your first semester if you score below 19 on the English section of the ACT or below 430 on the Verbal section of the SAT.

    When you have completed ENGL 120, you must then complete ENGL 121.

    ENGL 121 English Composition

    You must complete ENGL 121 in order to satisfy this requirement. You are eligible for a waiver from this requirement if you score 29 or above on the English section of the ACT or 640 or above on the Verbal section of the SAT.

International students may substitute ESLN 412 with permission of the Foreign Language and Bilingual Studies Department.

2. A course in speech communication
Complete one of the following courses:

    CTAS 121 Fundamentals of Speech (2)
    CTAS 124 Fundamentals of Speech (3)

    Note: Students with strong previous preparation in speech may seek approval for a waiver of this requirement from the Department of Communication and Theatre Arts.

3. A course from one of the following options (3a, 3b, or 3c):

    3a. An upper-level course in written composition

    Complete one of the following courses:

    ANTH 200 Writing for Anthropology (3)
    ENGL 225 Intermediate English Composition (3)
    ENGL 227 Writing about Literature (3)
    ENGL 322 Writing in the Professional World (3)
    ENGL 324 Principles of Technical Communication (3)
    ENGL 326 Research Writing (3)

    3b. An upper-level course in speech communication

    Complete one of the following courses:

    CTAC 224 Public Speaking (3)
    CTAC 225 Listening Behavior (3)
    CTAC 226 Nonverbal Communication (3)
    CTAC 227 Interpersonal Communication (3)
    CTAC 374 Intercultural Communication (3)
    CTAC 375 Intercultural Communication (3)

    3c. A course in foreign language composition

    Complete one of the following courses (initial placement in language courses depends upon previous student and/or placement examinations):

    FRNH 121/FRNH 122 Beginning French (5)
    FRNH 233/FRNH 234 Intermediate French Conversation, Composition, and Grammar (3)
    GERN 121/GERN 122 Beginning German (5)
    GERN 233/GERN 234 Intermediate German Conversation, Composition, and Grammar (3)
    GREEK 121/GREEK 122 Beginning Ancient Greek I/II (5)
    JPNE 121/JPNE 122 Beginning Japanese (5)
    JPNE 211/JPNE 212 Intermediate Japanese (3)
    LATN 121/LATN 122 Beginning Latin I/II (5)
    SPNH 121/SPNH 122 Beginning Spanish (5)
    SPNH 201/SPNH 202 Intermediate Spanish (5)

4. A course in mathematical reasoning

    Complete one of the following courses:

    MATH 109 Mathematics for Elementary Teachers II (elementary education students only) (3)
    MATH 110 Mathematical Reasoning (3)
    MATH 118 Mathematical Analysis for Social Sciences I (3)
    MATH 119 Mathematical Analysis for Social Sciences II (3)
    MATH 120 Calculus I (4)
    MATH 121 Calculus II (4)
    MATH 122 Elementary Linear Algebra (3)
    MATH 170 Elementary Statistics (3)
    MATH 341 College Geometry (3)
    SOCI 250 Social Statistics I (3)

    Note: You are eligible for a waiver of this requirement if you score 23 or above on the Math section of the ACT or 580 or above on the Math section of the SAT. A waiver form must be obtained from the Academic Advising Center. Curriculum or major requirements must still be satisfied.
5. A course in computer literacy

Complete one of the following courses:

BEDU 201 Microcomputers for Business Applications (3)
CADM 105 Computer Applications for Industry (3)
COSC 136 Computers for the Non-specialist (3)
COSC 137 Introduction to FORTRAN Programming (3)
COSC 138 Computer Science I (3)
COSC 237 Computer Programming and Numeric Methods (3)
IJHS 226 Computers for Health and Human Services (3)
INDT 201 Microcomputer Applications in Technology (3)
IS 215 End-User Computing (3)

AREA II: SCIENCE AND TECHNOLOGY
Requirements: 3 courses (including one course with a lab component)

1. A course in physical science.
   a. You must complete a course in chemistry or physics unless you have submitted appropriate evidence to the Academic Advising Center that you completed a one-unit course in high school with a grade of "C" or above.
   b. If you have submitted proof of having completed a one-unit high school course in chemistry or physics, you may satisfy this requirement by choosing among chemistry, earth science/geology, or physics/astronomy.

2. A course in life science (biology or psychology).

3. A course in science or technology, chosen from a department other than the ones in which you have completed your physics and life science requirements.

NOTE: Earth science and geology are in the same department. The same is true of physics and astronomy.

A: Rationale
The sciences study the physical character of the universe and the nature of its living organisms, including the human species. Learning to use the scientific method will expand your knowledge and understanding of the universe.

Observation of the natural world leads to theories, from which hypotheses are generated. These hypotheses are then checked against the empirical data collected by systematic observation and experimentation. Science enables you to understand the world better and, where appropriate, to modify your thinking about nature.

The study of technology enables you to understand how scientific knowledge is employed to solve practical problems. Knowledge of scientific and technological methods will help you to be an active problem-solver rather than a mere spectator.

B: Meeting the Requirements in Area II (Science and Technology)

At least one of the three courses in Area II must have a laboratory component.

1. A course in physical science

1a. Physical science courses open to all students who meet course requirements

Complete one of the following courses:

CHEM 115 Chemistry and Society (no laboratory) (3)
CHEM 115-CHEM 116 Chemistry and Society with lab (4)
CHEM 117-CHEM 118 Fundamentals of Chemistry with lab (4)
CHEM 120 Fundamentals of Organic and Biochemistry (4)
CHEM 121-CHEM 122 General Chemistry 1 with lab (4)
PHY 100 Science for Elementary Teachers (elementary education students only) (3)
PHY 101 Physical Science in the Arts (4)
PHY 110 Physical Science (4)
PHY 221 Mechanics, Sound, and Heat (4)
PHY 223 Mechanics, Sound, and Heat (5)

1b. Additional options open to students who have submitted appropriate evidence of having completed a one unit high school chemistry or physics course with a grade of "C" or above

Complete one of the courses listed in 1a, or one of the following courses:

ASTR 203 Exploration of the Universe (no laboratory) (3)
ASTR 205 Exploration of the Universe-ASTR 204 Astronomical Investigations (4)
ASTR 204 Astronomical Investigations-ASTR 205 Principles of Astronomy (5)
ASTR 205 Principles of Astronomy (no laboratory) (4)
GESC 108 Earth Science (4)
GEOG 102 The Fossil Record (no laboratory) (3)
GEOG 160 Physical Geology (4)

2. A course in life science

Complete one of the following courses.

BIOL 105 Introductory Biology for Non-majors (4)
BIOL 110 Introductory Biology (5)
BOTN 221 General Botany (4)
ESCI 303 Science for the Elementary Teacher (elementary education students only) (3)
PSY 101 General Psychology (no laboratory) (3)
PSY 102 General Psychology (4)
ZOOI 222 General Zoology (4)

3. A course in science or technology (3a or 3b):

3a. You may choose any one of the courses listed under physical or life science, so long as you have chosen your three courses from this area from three different departments.

3b. You may also choose your third course from the following list:

CHEM 101 Science for Elementary Teachers (elementary education students only) (3)
INDT 150 Understanding Technology (no laboratory) (3)
MFG 140 Science, Technology, and People (no laboratory) (3)

AREA III: SOCIAL SCIENCE
Requirements: 4 courses

1. A course in U.S. government

2. A course in history

3. A course in anthropology, economics, geography, or sociology, whose content includes the structure and methodology of the discipline.

4. One of the following:
   a. A second course in a two-course history sequence.
   b. A second course in a two-course sequence in anthropology, economics, geography, or sociology, whose content includes the structure and methodology of the discipline.
   c. An approved course in cross-cultural or international studies.

A: Rationale
As an informed person you should understand the structure and dynamics of groups of human beings and be able to study group behavior. An analysis of American government and comparisons with other governments will help you understand how to influence your government in positive ways.

Your study of the development of human institutions and practices through time will increase your understanding of how earlier societies met challenges and adjusted to changing circumstances. You will learn how those successes and failures led to the problems and opportunities which face us now.

Learning how a given social science gathers and interprets its data will help you understand that good public decisions depend on adequate information about issues.
A knowledge of the history, social settings, values, and perceptions of other subcultures, cultures and nations will broaden your appreciation of different ways of organizing social life and looking at the world.

B: Meeting the Requirements in Area III (Social Science)

Courses marked with an asterisk (*) satisfy the cross-cultural/international studies requirement.

1. A course in U.S. government
   Complete one of the following courses:
   - FLSC 112 American Government (3)
   - FLSC 113 American Government Honors (3)

2. A course in history
   Complete one of the following courses:
   - HIST 101 Western Civilization to 1648 (3)
   - HIST 102 Western Civilization, 1648 to World War I (3)
   - HIST 103 20th-Century Civilization (3)
   - HIST 104 Quest for Power: Famous Figures in History (honors only) (3)
   - HIST 106 Asian and African Civilizations (3)
   - HIST 109 World History to 1500 (3)
   - HIST 110 World History since 1500 (3)
   - HIST 123 The United States to 1877 (3)
   - HIST 124 The United States, 1877 to the Present (3)
   - HIST 151 Reason and Revolution (honors only) (3)

Note: Some students may be eligible to fulfill the requirements in history by pursuing options described in the Honors Courses in General Education.

3. A course in anthropology, economics, geography, or sociology
   Complete one of the following courses:
   - ANTH 105 Introduction to Cultural Anthropology (3)
   - ECON 101 Principles of Economics I (3)
   - GEOG 101 Introduction to Geography (3)
   - GEOG 110 World Regions (3)
   - SOCL 101 Introductory Sociology (3)

4. Complete a course from one of the following options (4a, 4b, or 4c):

   4a. A second course in a two-course history sequence
      Complete one of the following courses:
      - HIST 102 Western Civilization, 1648 to World War I (follows HIST 101) (3)
      - HIST 103 20th-Century Civilization (follows HIST 102) (3)
      - HIST 110 World History since 1500 (follows HIST 109) (3)
      - HIST 123 The United States to 1877 (follows HIST 122) (3)

   4b. A second course in a two-course sequence in anthropology, economics, geography, or sociology
      Complete one of the following courses:
      - ANTH 101 Introduction to Prehistoric Anthropology (follows ANTH 100) (3)
      - ECON 201 Principles of Economics II (follows ECON 200) (3)
      - GEOG 111 Regions and Resources (follows GEOG 110) (3)
      - SOCL 201 Social Problems (follows SOCL 100) (3)

   4c. A course in cross-cultural or international studies
      Complete one of the following courses:
      - AAS 101 Introduction to African American Studies (3)
      - ANTH 214 Racial and Cultural Minorities (3)
      - ANTH 223 Peoples and Cultures of Mexico (3)
      - ANTH 226 Peoples and Cultures of Africa (3)
      - ANTH 237 Indians of North America (3)
      - ANTH 245 Culture of Japan (3)
      - ANTH 335 Anthropology of Women (3)
      - CASI 206 Culture and the Holocaust (3)
      - ECON 321 Minority Workers in the Labor Market (3)
      - ECON 328/WMST 328 Economics of Women (3)

   4. A course in literature
      Complete one of the following courses:
      - LITR 100 The Reading of Literature (3)
      - LITR 101 The Reading of Literature: Fiction (3)
      - LITR 102 The Reading of Literature: Poetry (3)
      - LITR 103 The Reading of Literature: Drama (3)
      - LITR 104/LAS 106 Rome and America (honors only—concurrent courses satisfy two literature requirements) (6)
      - LITR 150 A History of the United States (12)
      - LITR 181 The Legacies of Greece (honors only) (3)
      - CLAS 104 A History of Greece (honors only) (3)
      - CLAS 181 The Legacy of Greece (honors only) (3)

   5. A course in modern languages
      Complete one of the following courses:
      - SPN H 221 Intermediate Spanish (Reading) (3)
      - SPN H 222 Intermediate Spanish (2) (3)
      - SPN H 324/WMST 324 Spanish Literature (3)

   6. A course in modern languages
      Complete one of the following courses:
      - SPN H 221 Intermediate Spanish (Reading) (3)
      - SPN H 222 Intermediate Spanish (2) (3)
      - SPN H 324/WMST 324 Spanish Literature (3)

   7. A course in American history
      Complete one of the following courses:
      - HIST 102 Western Civilization, 1648 to World War I (3)
      - HIST 103 20th-Century Civilization (3)
      - HIST 104 Quest for Power: Famous Figures in History (honors only) (3)
      - HIST 106 Asian and African Civilizations (3)
      - HIST 109 World History to 1500 (3)
      - HIST 110 World History since 1500 (3)
      - HIST 123 The United States to 1877 (3)
      - HIST 124 The United States, 1877 to the Present (3)
      - HIST 151 Reason and Revolution (honors only) (3)

   8. A course in American history
      Complete one of the following courses:
      - HIST 102 Western Civilization, 1648 to World War I (3)
      - HIST 103 20th-Century Civilization (3)
      - HIST 104 Quest for Power: Famous Figures in History (honors only) (3)
      - HIST 106 Asian and African Civilizations (3)
      - HIST 109 World History to 1500 (3)
      - HIST 110 World History since 1500 (3)
      - HIST 123 The United States to 1877 (3)
      - HIST 124 The United States, 1877 to the Present (3)
      - HIST 151 Reason and Revolution (honors only) (3)

   9. A course in American history
      Complete one of the following courses:
      - HIST 102 Western Civilization, 1648 to World War I (3)
      - HIST 103 20th-Century Civilization (3)
      - HIST 104 Quest for Power: Famous Figures in History (honors only) (3)
      - HIST 106 Asian and African Civilizations (3)
      - HIST 109 World History to 1500 (3)
      - HIST 110 World History since 1500 (3)
      - HIST 123 The United States to 1877 (3)
      - HIST 124 The United States, 1877 to the Present (3)
      - HIST 151 Reason and Revolution (honors only) (3)
2. Complete a course from one of the following options (2a, 2b, 2c, or 2d):

2a. A second course in literature
Complete one of the following courses not previously chosen under 1a:
- LITR 100 The Reading of Literature (3)
- LITR 101 The Reading of Literature: Fiction (3)
- LITR 102 The Reading of Literature: Poetry (3)
- LITR 103 The Reading of Literature: Drama (3)
- LITR 106 CLAS 106 Rome and America (honors only—concurrent courses satisfy two literature requirements) (6)
- LITR 150 Humanity and Technology (honors only) (3)
- LITR 181 The Legacy of Greece (honors only) (3)
- CLAS 104 Quest for Power: Famous Figures in History (honors only) (3)
- CLAS 181 The Legacy of Greece (honors only) (3)

2b. A course in intermediate or advanced foreign language literature
Take any course not already completed from the list under 1b above.

2c. A course in oral interpretation
Complete CTAO 210 Interpretative Reading (3)

2d. A course in cross-cultural or international studies
Complete one of the following courses:
- *FLAN 215 The Cultures of Mexican-Americans and Cubans in the United States (3)
- *LITR 204 Native American Literature (3)
- *LITR 260 African American Literature (3)

3. Complete a course from one of the following options (3a or 3b):

3a. A course in philosophy
Complete one of the following courses:
- PHIL 100 Introduction to Philosophy (3)
- PHIL 110 Philosophies of Life (3)
- PHIL 120 Introduction to Critical Reasoning (3)
- PHIL 130 Introduction to Logic (3)
- PHIL 212 Philosophy of Art (3)
- PHIL 215 Philosophy of Religion (3)
- PHIL 220 Ethics (3)
- PHIL 221 Business Ethics (3)
- PHIL 225 Political Philosophy (3)
- *PHIL 226/WMST 225 Philosophy of Women (3)

3b. A course in the study of religion
Complete one of the following courses:
- HIST 100 The Comparative Study of Religion (3)
- PSY 225 Psychology of Religion (3)

4. Complete a course from one of the following options (4a, 4b, 4c, or 4d):

4a. A course in art
Complete one of the following courses:
- FA 100 Art Appreciation (3)
- FA 101 Introduction to Art (3)
- FA 107 Art History Survey I (3)
- FA 108 Art History Survey II (3)
- FA 122 Two-Dimensional Design (3)
- FA 123 Drawing I (3)
- FA 165 Graphic Design for Non-majors (3)
- FA 166 Ceramics for Non-majors (3)
- FA 167 Jewelry for Non-majors (3)
- FA 151 Reason and Revolution (honors only) (3)

4b. A course in dance
Complete DAN 106 Introduction to the Performing Arts (3)

4c. A course in music
Complete one of the following courses:
- MUSC 100 Introduction to Music Theory (3)
- MUSC 106 Introduction to the Performing Arts (3)
- MUSC 107 Music Appreciation (2)

4d. A course in theatre arts
Complete one of the following courses:
- CASI 240 Reel Women/Real Women (3)
- CTA 106 Introduction to the Performing Arts (3)
- CTA 150 Introduction to Theatre (3)
- *CTA 151 African American Theatre: An Introduction (3)
- CTA 158 Fundamentals of Acting (3)
- CTA 222 Drama and Play in Human Experience (3)
- CTA 143 Introduction to Film Appreciation (3)

CROSS-CULTURAL OR INTERNATIONAL STUDIES

Requirement: 1 course selected from Areas I-IV

At least one approved course in cross-cultural or international studies must be completed in the process of meeting the requirements of the foregoing Areas I-IV. Approved courses are designated with an asterisk (*).

A: Rationale
An understanding of significant U.S. minority groups, related foreign cultures, and women is important to gain an appreciation of the cultural diversity in this country. Relating each group or culture to the larger cultural and political context within this country enhances understanding of contemporary events and conditions.

B: Meeting the Requirements
This requirement may be fulfilled while also meeting the requirements in Areas I-IV. Select an approved course from Areas I-IV. Approved courses are designated with an asterisk (*).

*Courses marked with an asterisk (*) satisfy the cross-cultural/international studies requirement.

Honors Humanities Courses
Honors courses in general education may be elected to satisfy the requirements in fine arts, history, literature and philosophy.

These courses, whose subject matter often crosses disciplinary boundaries, may be taught by instructors from more than one discipline. Members of the University Honors Program are welcome to enroll. Other students with a grade point average of at least 3.0 may enroll by permission of the honors director.

Available honors humanities courses (see departmental listings for course description) and the areas satisfied are:
- CLAS 104 HIST 104 Quest for Power: Famous Figures in History (3)
- Area: LITR or HIST
- CLAS 106/LITR 106 Rome and America (6)
- Area: LITR (will satisfy both Area IV, 1 and 2)
- CLAS 181/LITR 181 The Legacy of Greece (3)
- Area: LITR
- FA 151/HIST 151 Reason and Revolution (3)
- Area: FA or HIST
- LITR 150 Humanity and Technology (3)
- Area: LITR
- 179/279/379/479 Special Topics (3)
- Area: Varies

Future Changes in the General Education Program
Additional courses may be approved and refinements made periodically in the general education program.

General education transfer credit will be determined by Eastern Michigan University in cooperation with the college or university from which the student wishes to transfer credit. In most cases, equivalency lists exist.
The MACRAO Agreement

Eastern Michigan University is a signatory of the MACRAO (Michigan Association of Collegiate Registrars and Officers) agreement. The purpose of this agreement is to ensure that students who complete a specified distribution of general education courses at a community college will have satisfied general education requirements at signatory four-year colleges. Eastern Michigan University accepts the MACRAO agreement with the following provision:

Students who have been certified by a signatory community college as having satisfied the general education requirements of the MACRAO Agreement will be required to fulfill only the four additional courses now a part of Eastern Michigan University's general education requirements: an advanced writing or speaking course or a foreign language composition course; a mathematical reasoning course (unless waived by ACT scores); a computer literacy course; and a cross-cultural/international studies course, all from the approved list. This agreement applies only to general education and does not exempt the community college students from meeting all curriculum and graduation requirements.

Majors/Minors

Each student must complete a major subject of at least 30 credit hours and a minor subject of not less than 20 credit hours with the following exceptions:
1. A student on the elementary teaching curriculum may present three minors of not less than 20 credit hours—each of which are subject fields taught in the elementary grades.
2. A student who completes a self-contained program of 50-60 hours will automatically satisfy major/minor requirements.

Hours of credit counted on a minor may not be applied to a major or another minor or vice versa. General education courses may be applied toward a major or a minor where appropriate.

Professional education courses do not count toward majors and minors except in cases in which such courses are specifically required or indicated as permissible as part of a major or minor.

All students, including transfer students, must complete at Eastern Michigan University the following minimum requirements in advanced courses numbered 300 or above in their majors and minors, unless specifically exempted by the department concerned:
1. At least nine hours in majors.
2. At least six hours in minors.
3. At least 15 hours in curricula that encompass both major and minor requirements.

Degree Requirements

Residency: Candidates for the bachelor's degree must earn at least 30 semester hours at Eastern Michigan University. These 30 hours may be taken on or off campus.

Of the last 30 semester hours, prior to the granting of a bachelor's degree, at least 10 hours must be taken in courses offered by Eastern Michigan University. These 10 hours may be taken either on or off campus.

Students with credit from a junior or community college must earn a minimum of 60 semester hours exclusive of junior or community college credit. This rule is waived if a program-to-program articulation agreement is involved and the agreement is approved by the appropriate Eastern Michigan University departmental faculty, department head, and college dean and a Provost's office representative.

Subject Limitation: No more than 60 hours in any one academic department may be applied toward the minimum of 124 hours required for a bachelor's degree.

Distance Education/Independent Learning Credit: No more than 15 credit hours of correspondence course credit may be applied toward a bachelor's degree, or used meet any of the residence requirements. There is no restriction on other types of distance learning or independent learning course formats, which may be applied toward a bachelor's degree, residency and grade point average.

Minimum GPA: Students will not be graduated if their grade point average in their degree program (major and minor) is less than 2.0. Credit earned at EMU must average at least 2.6.

Physical Education and Health: All students must earn at least two credits of physical education and health as follows:

Students who started any college fall 1996 or later must select from the following options:
1. PEGN 210 Lifetime Wellness and Fitness
2. Any two courses in military science (2 semesters)
3. PEGN 140 Marching Band (2 semesters)
4. PEGN activity course requirements of the Music Therapy program (2 courses)

Students who started any college prior to fall 1996 may select from 1 through 4 above OR two credit hours from any PEGN activity courses.

This requirement may be modified or waived if, for reason of physical disability, the student is unable to participate in physical education activity courses. Physical disability shall be determined by the health service and, in conference with the department chair of Health, Physical Education, Recreation and Dance, a decision will be made as to appropriate modification or waiver of the requirement to ensure maximum benefit to the student.

Any student may apply up to eight credit hours of credit earned in physical education activity courses to the minimum 124 credit hours required for graduation.

Students majoring in physical education, recreation or dance may apply to the minimum 124 credit hours the minimum number of hours in activity courses required for their respective majors.

All grades received in physical education activity courses, including those which exceed the credit hour limits prescribed above, are used in computing the student's grade point average.

Military Service/Service: Students who have been in military service will be granted credit in Military Science as follows:
1. Those who have served for one year in the Army, Navy, Air Force, Marine Corps, Coast Guard (including attendance at service academies) will be given credit for the first two years of Military Science, those who have served for six months in service will be given credit for the first year of Military Science.
2. Students who have completed two years Junior ROTC will be given credit for the first year of Military Science with departmental approval; those who have completed three years will be given credit for the first two years of Military Science with departmental approval.

Veterans who are awarded credit for Military Science under 1. above are, nevertheless, eligible to enter the advanced course voluntarily if qualified and should consult the Department of Military Science on special opportunities that are available (see Department of Military Science Advanced Program).

Military Science courses are credited in the 124 minimum credit-hour requirement for the bachelor's degree.

Degree Candidates

Candidates for a degree and/or certificate must make formal application for graduation during the first two weeks of the final semester or session. (The application should be made after final registration is complete but not later than the last day of program adjustment for the semester or session in which the student expects to graduate.)

Application forms, obtained in the Office of Records and Registration, 303 Pierce Hall, must be submitted with the $30 graduation fee to the Cashier's Office, 201 Pierce Hall, or charged to the student's account.

Failure to meet the application deadline will result in the candidate's graduation being delayed until the following graduation period. Failure to satisfy degree requirements, including the removal of incompletes in required courses or providing official transcripts for course work taken at other colleges or universities, will necessitate that the student file a new application for graduation in the Academic Records Office for the subsequent graduation period.

Financial obligations must be met before students may receive their diplomas.

Certification

Six-year Provisional Teaching Certificates are conferred by the Michigan State Board of Education upon recommendation of Eastern Michigan University. The
University recommends for provisional certification only those students who have satisfied the curricular requirements in one of the teacher education degree programs, and have completed and passed the appropriate state competency tests. Certificates always expire on June 30 of the calendar year. The two certificates recommended by Eastern Michigan University are:

State Elementary Provisional Certificate,* which certifies the holder to teach all subjects in elementary grades (kindergarten-5) and appropriate majors and/or minors in grades 6-8 middle school, and 6-8 self-contained.

State Secondary Provisional Certificate all subjects,* which certifies the holder to teach majors and minors in grades 7-12.

Certificates are issued by the Michigan State Department of Education. Issue date and expiration date are printed on the face of the certificate.

* A holder of this certificate has completed EMU’s curricular requirements in art, speech pathology, industrial arts, music, Japanese, or physical education is normally eligible to teach in the specialty in grades K-12.

Vocational certificates qualify the holder to teach in the programs named below in schools offering programs that are reimbursed by federal and state funds allocated for that purpose. The vocational certificates issued are:

- State Secondary Provisional Certificate with vocational endorsement in Office and/or Distributive Education.
- State Secondary Provisional Certificate with vocational endorsement in Trade and Industrial Education.

Information on continuing certification may be obtained from the coordinator of continuing certification, 206 Porter.

Professional certificate

As of July 1, 1992, the Continuing Certificate was discontinued. It was replaced by the Professional Certificate.

The Professional Certificate is issued for a period of only five years, and must be renewed every five years. Renewal of the Professional Certificate requires an additional six hours of credit.

Other professional certificates and procedures are as follows:

Registration in Dietetics: The American Dietetic Association issues a certificate of membership in dietetics upon successful completion of the coordinated dietetics curriculum. Successful completion of the national examination administered by the American Dietetic Association results in professional registration status with the American Dietetic Association.

Certification as a Medical Technologist: There are four certifying agencies for medical technologists: (1) American Society of Clinical Pathologists, (2) National Certifying Agency for Clinical Laboratory Personnel, (3) International Society of Clinical Laboratory Technologists, and (4) American Medical Technologists. Because there can be differences in hiring practice and salary differentials based on agency certification, it is recommended that students carefully consider agency certification before the examination is taken. The clinical laboratory sciences office has information on each of the agencies mentioned.

Certification in Occupational Therapy: The National Board for Certification in Occupational Therapy, Inc. (NBCOT) requires successful completion of all academic requirements and fieldwork experiences for candidates to be eligible for the national certification examination. A Registered Occupational Therapist (OTR) is one who has passed the certification examination and has applied to the NBCOT for certification.

Registration in Music Therapy: The National Association for Music Therapy, Inc. (NAMT) grants the Registered Music Therapist (RMT) status. Upon successful completion of the approved curriculum in music therapy and a continuous six-month, 1,040-hour clinical training (internship) period at an NRMT-approved clinical training center, the student is eligible to apply for registration as a music therapist.

Certification in Speech Pathology: The American Speech-Language-Hearing Association issues Certificates of Clinical Competence to individuals who present satisfactory evidence of their ability to provide independent clinical services to persons who have disorders of communication (speech, language, and/or hearing). An individual who meets these requirements may be awarded a Certificate in Speech Pathology or in Audiology, depending upon the emphasis of his or her preparation. Note: The program at Eastern Michigan University prepares individuals to meet the requirements in speech pathology only. Specific requirements may be obtained from the advisers in speech pathology.

Certification for Teachers of the Hearing Impaired: The Council on Education of the Deaf issues certificates to individuals who satisfactorily complete training programs at approved teacher preparation centers. Eastern Michigan University has been an approved center for training teachers of the hearing impaired since 1967.

International Diplomas in Business French, German, and Spanish: The Chamber of Commerce and Industry of Paris awards a “Certificat pratique de français économique et commercial” and a “Diplôme supérieur de français des affaires” upon successful completion of examinations held at Eastern Michigan University. Candidates should be enrolled in the language and international trade curriculum or in the business French major.

The Carl Duisberg Society, in cooperation with the Goethe House, awards a “Zertifikat Handelsdeutsch” upon successful completion of examinations held at Eastern Michigan University. Candidates should be enrolled in the language and international trade curriculum or in the business German major.

Examinations leading to the “Diploma de español comercial” and the “Certificado de español comercial básico” granted by the Chamber of Commerce and Industry of Madrid in cooperation with the Official School of Languages of Madrid are administered at Eastern Michigan University. Candidates should be enrolled in the language and international trade curriculum or the business Spanish major.

Licensure in Nursing: Graduates of the nursing program receive a Bachelor of Science in Nursing degree and are eligible to qualify as registered nurses through the Michigan Board of Nursing licensure examination. This examination is given at times and places specified by the State Board of Nursing, usually twice a year. Candidates should file application immediately after the official completion date of degree requirements. Upon receipt of the application and all credentials, a temporary permit to practice will be issued at the time of application.

Graduation Audit

Students who have completed 95 credit hours or more should request a graduation audit by completing the required form at the Office of Records and Registration, 303 Pierce Hall or completing the form printed in the class schedule book each semester.

The form requires the student to record their expected date of graduation, legal name, address, social security number, and major(s) and minor(s) elected. In addition, a check list is provided for degree expected and teacher certification expected. Accurate information is essential.

Forms are filed in the Office of Records and Registration and processed according to expected graduation date. A graduation auditor checks the credit hours taken and records the credit hours still needed. One copy of this audit is mailed to the student, another is sent to the student’s major department, and the third copy is filed. Students should receive their audits a semester before they apply for graduation. A graduation audit does not take the place of regular, thorough advising.

Students may return the forms by mail or in person to Room 303 Pierce Hall. Time is required by the office staff for processing, and immediate responses to requests for information cannot be made at the time of the request.

Academic Assessment

The North Central Association of Colleges and Schools (NCA) is EMU’s regional accrediting body. They have mandated that every college and university in the NCA region have a plan for assessing both general education and each academic major in place for all students enrolling in the fall 1995 semester and later. EMU endorses this mandate and believes that the University will benefit by identifying the key skills and concepts that academic programs are developing and how well these skills and concepts are being developed in our students.

Because it is important to assess a representative sample of students, Eastern Michigan University considers involvement in this assessment mandatory for students asked to participate.
In some cases all students will be asked to participate, in other cases where it is impractical to assess all students, a representative sample will be selected. In either case, the above stated requirement will apply.

General education will be assessed through use of the Educational Testing Service’s “Tasks in Critical Thinking.” Between 200 and 250 students will take this test each year and students who participate in academic assessment activities will be helping Eastern Michigan University continually refine and improve its excellent academic programs and further enhance the reputation of all degrees awarded.

**Basic Degree Curricula**

**Bachelor of Arts and Bachelor of Science**

*In symbols and communication, science and technology, social science, and arts and humanities listed below, the usual number of credit hours to be completed is given, but it is the courses that must be completed, not a minimum or maximum number of credit hours in each. (A course must be awarded a minimum of two credit hours of credit.)*

**Area** | **Sem hours**
--- | ---
**Symbols and communication** | 8-18
- One course in written composition (or waiver).
- One course in speech communication.
- One course in any of the following:
  a. an upper-level course in written composition.
  b. an upper-level course in speech communication.
  c. a course in foreign language composition.
  d. a course in mathematical reasoning (or waiver).
  e. a course in computer literacy.
**Science and technology** | 9-14
- One course in physical science.
  a. You must complete a course in chemistry or physics unless you submit appropriate evidence that you completed one unit course in high school with a grade of “C” or above.
  b. If you have submitted proof of having completed a one unit high school course in chemistry or physics, you may satisfy this requirement by choosing among chemistry, earth science/geology, or physics/astronomy.
- One course in life science (biology or psychology).
- One course in science or technology, chosen from a department other than those in which you have completed your physical and life science requirements.
**Social science** | 12
- One course in United States government.
- One course in history.
- One course in anthropology, economics, geography, or sociology whose content includes the structure and methodology of the discipline.
  a. A second course in a two-course history sequence.
  b. A second course in a two-course sequence in anthropology, economics, geography, or sociology whose content includes the structure and methodology of the discipline.
  c. An approved course in cross-cultural or international studies.
**Arts and humanities** | 11-12
- A course in literature.
- An intermediate or advanced foreign language literature course.
- One of the following:
  a. A second course in literature.
  b. An intermediate or advanced foreign language literature course.
  c. A course in oral communication.
  d. A course in cross-cultural or international studies.
  e. A course in philosophy or religion.
  f. A course in art, dance, music or theatre arts.
**Cross-cultural or international studies** | 3
- One course selected from general education areas I-IV.

(The B.A. degree requires completion of one year college credit in a foreign language.)

**Major (minimum)** | 30
**Minor (minimum)** | 20
**Physical Education/Graduation Requirement** | 2
**Electives** | 16-32
**Total** | 124

**Individualized Studies Program**

**Charles Fulford**
Assistant Director
Academic Advising Center
301 Pierce Hall
734.487.2170/734.487.2171

An individualized studies program (ISP) may be designed to replace the major and minor of students whose educational, vocational, or professional goals cannot be met by majors and minors currently available to EMU students. The four basic criteria for completing this program are: (1) three distinct discipline areas; (2) a concentration of 60-63 credits; (3) at least 15 hours at EMU in 300-400 level courses and (4) support from representative departments.

All students who apply for this program are still responsible for other graduation requirements, such as general education, physical education, and residency policies. Interested students should contact Charles Fulford, assistant director, Academic Advising Center, 301 Pierce Hall, to discuss their goals.

**Division of Academic Affairs Courses**

**AADV 177/179 Academics, Affiliation, and Achievement**

**Restricted to first-time entering freshmen only. This course provides students the information and skills that help make the transition to college more successful. Students learn how to effectively manage the university system, what study techniques can enhance their grades, and how to live and learn in a multicultural environment. In addition, the classes are small and allow students to develop individual relationships with the faculty teaching team members and other students in the class. This class prepares students for success at EMU and beyond.**

**AADV 279 Special Topics: Prior Learning and Portfolio Development**

Course goals are to assist students in clarifying educational, career, and personal goals by developing a portfolio that documents experience and identifies learning for evaluation by appropriate departmental faculty for possible award of degree credit.

**Prereq:** Department permission.

**Learning Resources and Technologies**

[www.emich.edu/halle](http://www.emich.edu/halle)

**Morrill D. Boone, Dean**

**Learning Resources and Technologies**

**Sandra G. Yee, Department Head**

**Learning Resources (Library)**

**Richard G. Bush, Interim Associate Dean**

**Learning Technologies (Academic Computing)**

**Bruce T. Halle Library**

955 West Circle Drive

734.487.0020

The newly constructed Bruce T. Halle Library supports two major responsibilities: Learning Resources (including Library collections and services) and Learning Technologies (including the Computing Commons, the Multimedia Commons, and the Faculty Commons). The Halle Library supports the academic mission of the University through its state-of-the-art services, collections, technologies, facilities and equipment.
The Library is essential to the instructional programs of the University. It houses more than 700,000 volumes (more than 350,000 of which are stored in the Automated Retrieval Collection), more than 110,000 bound periodicals, 250,000 government documents, more than 52,000 maps, 965,000 microforms and more than 7,000 videocassettes and music CDs, and subscribes to more than 4,400 journals.

Special collections include the map library, government information collection, children's literature, and University archives. Features of the new Halle Library include a centralized reference collection; enhanced electronic services; a 100-seat auditorium; a totally automated Voyager online public access catalog for students for lifelong learning after their formal education is completed. Additional features include collaborative study rooms, the Newspaper Room, the Carillon Room, a Reception Desk to circulate materials, distance learning and electronic learning laboratories, teleconferencing facilities, the Paradox Café, photocopying services, reserved reading materials assigned for use in course work and located at the Reception Desk, and a Computer Store offering discounted computers and software to EMU staff and students. Located in the atrium, the Information Desk is staffed by librarians who are prepared to assist clients in using the collections and locating sources.

Librarians offer a comprehensive range of orientation and instructional services and are available to consult with clients concerning their information needs, and to assist in developing search strategies and accessing resources. Subject-specialist librarians can also assist teaching faculty by working with them to design tours and instructional sessions for their classes. This progressively designed instruction in locating and using information resources prepares students for lifelong learning after their formal education is completed. Appointments can also be scheduled with individual librarians through the Information Services Office.

The national LEX Library Instruction Clearinghouse was established almost 30 years ago at Eastern Michigan University and currently provides services—collecting and sharing data and materials—to more than 2,000 academic libraries in the United States.

The Multimedia Commons provides multimedia computer workstations, reserved software required for classes, and software for preparing presentations and other multimedia projects. Multimedia Services provides media, mixed-media and multimedia distribution, as well as video-conferencing services including video and film circulation, media equipment distribution, satellite broadcast reception teleconferencing, and preview facilities. Production and self-production services are also available, including flash scanning, slide scanning, laminating, dry mounting, transparency production, copy stand, audio dubbing, digital video and audio editing, CD-ROM burning, large-format printing and color printing. Video Services includes television programming and video dubbing and editing, and off-the-air recording.

The Welcome Center at the Halle Library is a new unit that is designed to be an inviting and friendly first stop introduction to the leading edge Bruce T. Halle Library. Students who have not used a college-level library or computing services are especially invited to drop by to make appointments for personalized tours, small-group, and one-on-one instruction on a variety of topics including e-mail, word processing, using the online catalog, among others. Tours for the public and community are coordinated by the Welcome Center staff. A large message board and a rack of handouts and literature are available to display campus and library news and publications.

Client Services provides room scheduling, cash transactions, and directions to Halle Library locations and services. The Welcome Center, staffed by student peers, provides information and assistance to students and first-time users of the Voyager online catalog, and computing workshops; helps students sign up for electronic mail and Internet accounts; and coordinates tour schedules.

The Computing Commons offers Windows and Macintosh workstations with Internet access, electronic mail, word processing and spreadsheet software. The Faculty Commons includes PC and Macintosh workstations, printers, scanners and a variety of productivity software for faculty use. A faculty lounge offers the latest computing trade publications and notices of teaching, technology and learning workshops, and seminars. Workshops and training on Internet applications, for productivity software and for online and distance course development, are also offered in conjunction with the Center for Instructional Computing, Learning Technologies and Library faculty.

Learning Technologies coordinates instructional and research programs of the University through a myriad of core and extended electronic-based services in the areas of communications, storage, facilities, and applications. Learning Technologies provides server and storage space for web pages, electronic mail, file storage, and applications on Compaq VMS, UNIX, Linux, Windows NT/2000, and Macintosh operating systems. Communication services include dial-in access to the Internet, list servers, WebCaucus (an online electronic conferencing program), WebCT (an online classroom supplement), and electronic mail. Additionally, Learning Technologies supports and manages the open access computing labs at the College of Business Owen Building (PC lab), McKenny Union (Mac lab), and the Halle Computing Commons (mixed PC and Mac lab). Clients are provided assistance with online course development, statistical software, computer conferencing, Internet access, multimedia applications, electronic mail, and a host of other applications.

Other Services to Students

The Holman Learning Center
www.tlc.emich.edu
Lynette Findley
Director
Marcia Lichte
Assistant Director
Judy Mack
Learning Center Specialist
Bruce T. Halle Library, Room G-04
734.487.2133
TTY: 734.487.2482
E-mail: learning.center@emich.edu

The Holman Learning Center (TLC) provides students with a campus-wide network of learning assistance programs designed to develop independent learning skills necessary for academic success.

Tutor Programs

TLC provides the following tutoring assistance programs: (1) Individual Tutors are available to undergraduate students who wish to work one-on-one with a tutor to improve their understanding of a particular course. Individual tutoring is non-remedial and free. (2) Supplemental Instruction (SI) assists students who are enrolled in a first-year large lecture course to develop effective study strategies. A SI tutor will lead small discussions on note-taking, study strategies and test-taking and relate the skills to the specific large lecture course. (3) Academic Enhancement Program (AEP) places tutors at evening study tables to help students on an as-needed basis. AEP tables are open Monday-Thursday from 8-11 P.M. for both fall and winter semesters.

Student Academic Success

TLC focuses on the academic success of each student during their career at Eastern Michigan University. The office continues to create new and innovative programs for students. These programs focus on new students to the University and students referred to the office by other departments or faculty. These programs include the following: (1) First Year Academic Support Program links students, faculty, and parents to facilitate the student’s transition into higher education and to maximize academic success. (2) Skill Building Workshops expose students to information on test-taking strategies, time management, how to efficiently take notes in class and preparing for final exams. Workshops are presented in freshmen residence halls, McKenny Union and Halle Library. (3) Peer support counseling sessions offer students an opportunity to talk to a graduate student to get help navigating the University environment and charting a positive, goal-oriented plan for academic success.
Pre-College Programs

Pre-college programs also provide an avenue for promoting academic achievement and success. TLC coordinates the following pre-college programs: (1) The Martin Luther King, Jr./Cesar Chavez/Rosa Parks (KCP) College Days program brings eighth through twelfth grade students to campus and exposes them to college life. The program builds self-esteem, motivation, and introduces participants to a variety of career options. (2) The Wade McCree Scholarship program awards 30 general fund scholarships each fall to underrepresented students entering the ninth grade. (3) The Summer Incentive Program (SIP) offers high school seniors showing high academic potential for academic success an opportunity to take two college courses, live on campus, and work in the campus office during the summer. Participants who successfully complete the summer program are admitted to EMU in the fall.

Retention Tracking

Retention research provides the University with the information required for strategic planning and creation of new and effective university-wide programs aimed at retention and student success. The programs and student populations TLC currently tracks are all First Time In Any College (FTIAC), Freshman Interest Groups (FIGs), and the Promote Academic Survival and Success (PASS) populations. Programming for these student populations is a collaborative effort involving both Student Affairs and Academic Affairs.

Career Services Center

www.career.admissions.emich.edu

J. Michael Erwin
Director
318 King Hall
734.487.0494

Adjunct Offices
Career Horizons
First Year Center, 135 Putnam Hall
734.487.0267

College of Business
210 Owen Building
734.487.4099

College of Technology
109-D Sill Hall
734.487.3789

The Career Services Center (CSC) provides a centralized service to help students plan their careers, develop job search skills, obtain employment during their academic career, and secure a job upon graduation. Services are available to enrolled students and, to a more limited extent, EMU alumni.

In the area of career planning, CSC provides diagnostic testing, computerized career guidance services and personal career counseling. In addition, the CSC Resource Center contains an extensive collection of reference materials on career opportunities, self-assessment, job vacancy announcements, employer literature, and hundreds of other career-related items.

CSC offers an innovative career planning program called Career Choice. CSC, in conjunction with a number of other EMU departments, focuses on helping students select majors and occupational fields early in their academic careers. Assistance is provided through self-assessment, information about occupations, and opportunities to secure employment and volunteer experience in career-related fields.

Through its nationally recognized Professional Experience Programs (PEP), CSC assists students in obtaining career-related work experiences such as internships and Cooperative Education placements. These experiences help students gain exposure in their chosen career fields and gain the work experience that most employers now expect from college graduates. Academic credit can be earned for many of the PEP jobs. Students should begin participation in PEP as early as freshman year.

Additional work opportunities are offered through CSC’s Student Employment Office. This office is the central clearinghouse for all on-campus job openings for students and for job openings near campus and in other nearby cities. CSC also maintains an extensive listing of summer employment jobs available with camps, parks, resorts, businesses and government agencies throughout the country. As with other student employment, these jobs give students practical work experience and a chance to earn money toward college expenses.

CSC placement services assist interns, graduate students, and alumni in seeking employment after graduation and obtaining professional advancement throughout their careers. Available services include:
- Resume, interviewing and job search strategy workshops
- “Career Search” manual available to all seniors
- “Job-Line” phone-in service that lists available job openings
- On-campus interview program
- Candidate referral programs, including two national services
- “Perfect Resume” software packages
- A number of annual job fairs that attract hundreds of employers
- Free drop-off resume critiquing service

Finally, each year CSC posts more than 30,000 job listings and has more than 250 employers who participate in the on-campus interview program.

Dean of Students

Gregory A. Peoples
Dean
211 King Hall
734.487.3118

The Office of the Dean of Students serves undergraduate and graduate students through the combined offices of Access Services; Center for Multicultural Affairs; Foreign Student Affairs; Greek Affairs; Lesbian, Gay, Bisexual and Transgender Resource Center; Student Government; Veterans Services; and the Women’s Center.

These areas focus on enhancing the quality of life for all students attending EMU by eliminating barriers that prohibit learning and by offering educational and developmental services, promoting cultural diversity, and advocating on behalf of students.

The Conduct Code and Judicial Structure is adjudicated through the Dean of Students Office.

Access Services Office

Robert E. Teehan
Coordinator
203 King Hall
734.487.2470

The Access Services Office (ASO) utilizes campus and community resources to support students in accomplishing their educational goals. The ASO works closely with faculty and University departments, and with federal and state agencies, such as Michigan Vocational Rehabilitation and the Michigan Commission for the Blind.

Students may request aid in finding note-takers, relocating classrooms, getting assistance with wheelchairs, receiving special housing accommodations, and learning procedures for applying for interpreters. Since it is the intent of the office to respond to students’ unique needs, they are urged to contact the office personally for information or assistance.

Center for Multicultural Affairs

Shelly Wilson
Coordinator
220 King
734.487.2377

The mission of the Center for Multicultural Affairs (CMA) is to provide programs and services that reflect the heritage of African American, Latino and Native American students and to promote their academic, social, personal and professional development. Our aim is to enrich the EMU community by helping faculty, staff and students live, learn and teach effectively in a diverse university setting.

The Center for Multicultural Affairs works to ensure a secure and supportive learning environment for all students by coordinating with other University
offices and programs to ensure that all activities are inclusive and responsive to student needs.

Services provided include:
- assistance and support for programs and organizations that promote the interests of African American, Latino and Native American students.
- the Multicultural Lounge, a popular location for studying, meetings, programs and activities.
- information on campus and community programs and activities that reflect African American, Latino and Native American heritage and issues.
- support and sponsorship for activities throughout the year, including workshops, films, conferences, exhibits, lectures and trips.
- campus programs and information for Hispanic Heritage Month, Native American History Month and Black History Month.
- educational resources such as videos, books and periodicals.
- workshops, presentations and other programs on a variety of topics.

Office of Foreign Student Affairs
Paul Dean Webb
Director
111 King Hall
734.487.3116

The Office of Foreign Student Affairs extends a welcome to all foreign students pursuing educational goals at Eastern Michigan University. Concerned, responsible and professional staff is available to assist students in any matter, including orientation, advice on immigration issues, academic, financial, employment and personal concerns. The staff also provides the preparation of documents needed to maintain favorable status in this country.

This office serves as a consultant to faculty and staff on foreign student affairs and acts as a catalyst for the development of various international connections in the University and/or community to promote international education and understanding and initiates enhancement programs such as cross-cultural activities on and off-campus.

Foreign students are encouraged to make regular contact with the office.

Greek Affairs
Jeremiah Shin
Adviser
210 King Hall
734.487.6841

The Greek Affairs Office assists fraternities and sororities to function effectively and to contribute to the EMU community. The office serves as a resource for active and future members, providing information about Greek life at EMU.

The Greek Affairs Office provides information and support for men and women who choose to become involved in the Greek system. The office also promotes leadership development and responsible university and community involvement through programming, activities and campus partnerships.

Lesbian, Gay, Bisexual, and Transgender Resource Center
Kathleen Russell
Coordinator
209 King Hall
734.487.4149

The LGTBRC advocates for and addresses the needs of students, faculty and staff regarding issues related to sexual orientation and identity. It serves as a link to the community by providing referral services as well as educational and social programming.

Services include campus programs and activities, student advocacy, and individual consultation and campus/community referrals.

Student Government
Governed by the President
(Elected each spring)
011 McKenney Union
734.487.1470

Student Government at EMU is committed to improving the quality of student life on campus. The student body each spring elects a president, vice president and 21 senators who, along with representatives appointed from various organizations, compose the Student Senate. The executive officers and members provide input to the administration of the University to help solve problems and improve programs and services. Student Government also sponsors campus-wide events. The student services office, known as REACT, provides assistance to students with legal, rental or University-related problems.

Not only do student representatives get valuable experience in the process of government, but they also represent the University on local, state and national levels. Any EMU student may run for a Student Government position. Interested students are also welcome to serve on Student Government committees and University advisory groups.

Veteran Services Office
Robert E. Techan
Coordinator
205 King Hall
734.487.3119

The Veteran Services Office (VSO) coordinates all campus services for veterans who are pursuing their education at EMU. It is the resource center for veterans' benefits; veterans must report successful academic progress, class drops and adds, and/or relevant changes in personal status to the VSO in order to maintain benefits.

The office assists veterans in housing, financial aid, and works closely with disabled veterans to provide full educational benefits. Veterans should direct all questions to a representative of this office.

Women's Center
208 King Hall
734.487.4282

The Women's Center encourages and supports the personal growth, academic enrichment and professional development of all women at EMU.

In an effort to assist women in reaching their full potential, the Center is committed to:
- recognizing and celebrating the diverse representation of women;
- providing information and educational programming in response to student concerns; and
- continuing to offer advocacy and referral services.
2001-2003
EASTERN MICHIGAN UNIVERSITY

Extended Programs

Programs
Centers for Corporate Training
Community College Relations
Continuing Education
Institute for Diversity and Business Services
Institute for the Study of Children, Families and Communities
National Institute for Consumer Education
World College

Mission Statement:
Extended Programs is dedicated to meeting the learning wants and needs of people, their communities, organizations, agencies and businesses in the global setting. Extended Programs provides leadership in dissolving traditional campus boundaries through collaborative programs that complement and extend the education, service, and applied research activities of Eastern Michigan University.
Extended Programs is dedicated to meeting the learning wants and needs of people, their communities, organizations, agencies, and businesses in the global setting. Extended Programs provides leadership in dissolving traditional campus boundaries through collaborative programs that complement and extend the education, service, and applied research activities of Eastern Michigan University.

The most important asset of any institution, corporation or business is the people that make things happen. With advanced education and training, they become better positioned to meet the individual and collective challenges that lie ahead.

Eastern Michigan University Extended Programs is committed to helping meet these challenges. We offer flexible and innovative applied academic experiences in the state of Michigan, nationally and internationally.

Through Eastern's Extended Programs unit, it is now possible for individual adults, students, businesses, government and social welfare agencies to access the tremendous resources of one of Michigan's leading universities. Using alternative formats and teaching technologies, we deliver applied research, training and consultation services. Ongoing research initiatives and collaborations ensure that our programs respond to changing needs in changing environment.

Continuing Education

www.emich.edu/ce

101 Boone Hall
734.487.0407 or 800.777.3521
TTY: 734.487.0409
E-mail: continuing.education@emich.edu

Continuing Education offers flexible, innovative and exciting credit courses and program options. Courses offered through Continuing Education are available at times, locations, and in formats that are convenient for students balancing a full or part-time job, co-curricular activities, and/or family responsibilities with their college education. Credit earned in Continuing Education courses and programs is regular university academic credit.

Each semester, Continuing Education publishes a course bulletin listing the courses available that semester. These bulletins are available at the Continuing Education Office, and in display racks in various locations around the EMU campus. In addition, all C.E. course offerings are listed in the University's online class schedule at http://insight.emich.edu/Students/RecNReg/csbweb/index. Since some courses are scheduled after the C.E. course bulletin and the University class schedule are published, refer to the University's online class schedule for updates.

As with all EMU courses, your academic adviser is the person best equipped to guide you and answer specific questions about which courses will meet the requirements of your program of study.

Continuing Education’s Weekend University Program offers a wide range of undergraduate and graduate courses. All Weekend University courses are held either on EMU's main campus or at the EMU Corporate Education Center. Among the many Weekend University offerings is a Weekend M.B.A. program designed to meet the needs of students already in the workplace. For information about the Weekend University, call 734.487.0407 (TTY: 734.487.0409).

Distance Education

734.487.1081
E-mail:distance.education@emich.edu

EMU-Online
When you're ready to learn, EMU is ready to teach. Online courses make it easy for you to learn: around your schedule, in a location convenient for you. A wide
range of courses are available online as an alternative to attending class on campus. They have been developed by EMU faculty and meet the same high standards as on-campus offerings. The course offerings and registration information are available at www.emuonline.edu.

Independent Learning
Satisfy general education requirements and earn college credits through self-paced instructional courses via EMU's Independent Learning Program. You may register at any time, and you have up to six months to complete coursework. You will receive instructional tapes, study guides, and book lists to begin your lessons. Professors are available for consultation and to grade assignments that you send through regular mail, e-mail, or fax. There are proctored examinations for each course.

Prior Learning Assessment
734.487.9801

Receive up to 30 hours for learning you have gained outside the classroom—including seminars, training completed on the job, and knowledge acquired independently in a particular field. Through Prior Learning Assessment, you will identify and analyze learning, document your experience, match the learning to EMU courses, and compile a written portfolio to submit for evaluation. Credits earned through portfolio-assisted prior learning may be applied toward any degree for which they are appropriate. Students seeking credit for prior learning must complete the Independent Learning course AADV 279 Prior Learning and Portfolio Development.

Accelerated-Format Courses
EMU-Winter Break
Northern Michigan
800.777.3521
winterbreak@emich.edu

Earn credit during EMU’s Winter Break by taking an accelerated-format course offered in Northern Michigan.

EMU-Traverse City
887.EMU.TCTY
traverse.city@emich.edu

Earn credit during the spring and summer by taking an accelerated-format course offered on the campus of Northwestern Michigan College in Traverse City.

Non-Credit Workshops
734.487.9158
Certificate in Professional Human Resource Management
phrm.prep@emich.edu

Human resource professionals looking to enhance their skills and advance their career will benefit from the Certificate in Professional Human Resource Management, a non-credit course which provides preparation for the Professional Human Resources (PHR) and Senior Professional in Human Resources (SPHR) national examinations; and the Strategic Human Resource Management Series, two advanced human resources recertification courses.

Payroll Professionals Learning Series
734.487.9158
Payroll professionals looking to enhance their skills and advance their careers will benefit from the Payroll Professionals Learning Series, a series of non-credit courses that provides preparation for the Certified Payroll Professional (CPP) Certification Examination. The courses were developed and approved by the American Payroll Association.

Non-Credit Online Workshops
734.487.0407
distance.education@emich.edu

Continuing Education offers a variety of non-credit, Internet-based computer, Internet/World Wide Web, and test preparation workshops, offered in conjunction with Education to Go, a provider of non-credit, Internet-based workshops to colleges and universities throughout North America. Each workshop lasts six weeks, and all phases of each workshop are handled entirely via the World Wide Web. The workshops have no relationship to EMU's regular course offering, and are in no way meant to substitute for a regular EMU credit course. For more information, visit www.ed2go.com/emu-noncredit.

For more information about EMU Continuing Education in general, or about any of the specific programs, either call the appropriate numbers listed with each special program or call the main office at 800.777.3521 or 734.487.0407 (TTY: 734.487.0409).

Regional Learning Centers
In order to make it more convenient for individuals living in southeastern Michigan to take courses through Eastern Michigan University, Continuing Education offers a wide range of courses as a number of off-campus locations. These courses are coordinated through EMU Continuing Education and are listed in the Continuing Education Course Bulletin. For more information, call the Regional Center directly or our main campus office at 800.777.3521 or 734.487.0407 (TTY: 734.487.0409).

Adventures in Education
Leigh Anne Denja
Coordinator
611 W. Cross
734.487.0407 or 800.215.3350

Adventures in Education programs are all built around the concept of intensive, shortened courses offered in settings appropriate or relevant to the course context. Most Adventures in Education programs are held in the summer months or during other traditional breaks in the academic year. The students who take advantage of these programs include adult learners, traditional-age undergraduates, teachers, and other seasoned professionals from many fields. The diversity of participants is a strength of the adventures programs. A pre- or post-assignment is required for each course.

The learning opportunities available through the Adventures in Education (AIE) program are built around the concept of high quality academic experiences offered in a condensed format during spring and summer semesters.

Our goal is to:
• Provide students with a wide range of course selections that will enhance the students’ education, as well as provide opportunities for personal enrichment;
• Encourage continued and experiential learning;
• Enjoy the time and camaraderie of fellow students in a relaxed atmosphere.

We hope that you will take the opportunity to join us for a wonderful learning experience you won’t soon forget.

Traverse City Summer
All Traverse City–held summer courses are at Northwestern Michigan College (NMC) in Traverse City. NMC is four hours north of EMU’s campus.

Traverse City summer courses range from one to four credit hours.
• four-credit courses generally meet Friday evening and during the day Saturday through the following Saturday.
• three-credit courses generally meet Friday evening and during the day Saturday through the following Friday.
• two-credit courses generally meet during the day Monday through Friday.
• one-credit courses generally meet three or four consecutive days.

Students are responsible for their own transportation. If you desire to be placed on a ride-share list to be distributed to other students, check the appropriate box on the registration form. Call 734.487.9044 or 800.215.3350 for ride-share information.

Students are responsible for their own housing. You can arrange for:
• A room in the dormitories of NMC with or without a meal plan.
• A room in any hotel, cottage, bed and breakfast, or motel.
• A campground site.
Call 734.487.9044 or 800.215.3350 for a list of housing options.

Course Tuition and Fees
Student's pay the same tuition and fees as for a regular on-campus course plus a program fee per class. EMU student business services will send a bill two or three weeks prior to all due dates. Non-refundable program fee: $50 per course. Registration fee: $40 per semester, General fee: $16 per credit hour.

All tuition and fees are subject to change by action of the Eastern Michigan University Board of Regents without prior notice and at any time. Such changes may be retroactive to the date of original registration. Please refer to the EMU Class Schedule Student Guide for additional information.

Academic Programs Abroad
George Klein
Director
103 Boone Hall
734.487.2424 or 800.777.3541
E-mail: programs.abroad@emich.emu

In today's interconnected world, a global perspective is increasingly important and valuable. The Office of Academic Programs Abroad provides opportunities for EMU students to diversify and enrich their university education through several kinds of study abroad programs.

Semester-Long Programs
a) The European Cultural History Tour, offered fall semester, is a unique travel-study program that includes more than 40 cities in 18 countries throughout Europe, Russia, and the Mediterranean. Students and EMU professors visit major historic and cultural sites while pursuing in-depth academic studies in an interdisciplinary context. Up to 15 hours of credit are available in history, art, literature, and political science. Since its beginning in 1974, ECHT has grown to become the largest university-sponsored program of its kind in the country, drawing students from EMU as well as other colleges and universities throughout the United States and Canada. ECHT is also offered in summer.

b) Asian Cultural History Tour is a semester-long tour offered in the fall semester. This tour offers the unprecedented opportunity to visit 10 countries in South and East Asia, including China and India, while earning up to 15 hours of credit.

c) Exchange with the University of Groningen, The Netherlands, available fall and winter semesters. A limited number of EMU students spend a semester in residence at the University of Groningen studying Dutch language, history, art, literature, society and politics. All courses except Dutch language are taught in English. Tuition and housing costs are the same as a semester in residence at EMU.

d) The Japan Center for Michigan Universities (JCMU), located next to Lake Biwa in Hikone, Japan, is a product of the sister-state relationship between the State of Michigan and Shiga Prefecture. The program is open to all majors, and no prior knowledge of Japanese is required. Fall semester, winter semester, and academic year programs are available; an intensive Japanese program is also offered in the summer.

e) Business majors at EMU may participate in the Regional Academic Mobility Program (RAMP) during fall and winter semesters. This exchange program enables junior- and senior-level students to enroll in courses at a college of business in Canada or Mexico. Courses are taught in the language of the host institution: Spanish at Mexican Universities; English or French at Canadian Universities. Proficiency in the relevant language is required.

Summer Intensive Language Programs
Intensive French, Spanish, and German language programs are available in France, Mexico, and Austria respectively, in settings of cultural immersion with additional instruction and supervision by EMU faculty. These programs are offered in cooperation with the Department of Foreign Languages and Bilingual Studies.

Other Summer Programs
A version of the European Cultural History Tour is available in summer, along with a variety of travel and residence programs that carry credit in such fields as art, business, economics, education, history, political science, and social work. These study abroad programs have taken students to countries in Europe, Asia and Latin America.

Access to Programs Sponsored by Other Universities
The Office of Academic Programs Abroad has a library of information on hundreds of study abroad programs sponsored by universities all over the world and offers comprehensive advising and assistance to interested EMU students. EMU students who qualify for financial aid may apply that aid to all EMU-sponsored programs and to many programs sponsored by other universities (some restrictions apply).

World College
George Klein
Interim Director
103 Boone Hall
734.487.2414

The World College coordinates and facilitates the development of internationally-focused programs via collaboration with the entire University community. Among the major goals of the World College are:

- To facilitate the incorporation of global perspectives in University curricula
- To assist in developing and maintaining a liaison with foreign academic institutions, governments and business organizations
- To serve as a clearinghouse of information and referrals regarding internationally-focused programs, events, and activities
- To assist faculty and staff in internationalizing their own expertise and in applying their expertise to new international endeavors
- To increase international educational experiences for students and faculty, on campus and abroad
- To develop international programs through federal and state funding
- To develop contract-based, non-credit, internationally focused experiences and courses for the public and private sectors

The World College is not a traditional academic college. Rather, it serves as a facilitating and coordinating center for international education, seeking to promote the broadening of awareness and understanding in all colleges, departments and programs at EMU of the world outside the borders of our country. World College programs are developed in conjunction with faculty and administrators in the other academic colleges.

Centers for Corporate Training
www.emich.edu/ect
Walter Di Montova
Director
2000 Huron River Drive, Suite 101
734.487.2259
E-mail: corporate.training@emich.edu

The Centers for Corporate Training are nationally known for designing and providing a wide range of training, technical assistance and consulting for hundreds of companies each year. Our clients include the Big Three automotive manufacturers and their suppliers, plastics and electronics producers, healthcare providers and government agencies.

Each of the Centers works, in its own way, to help individuals and organizations reach and maintain excellence. We are dedicated to helping companies not only survive but prosper during rapid organization, technological and economic change.

By developing customized programs, innovative training and effective, practical consulting, the Centers support organizations as they improve the quality of their products, the productivity of their processes, the computer and creativity skills of their employees, and the safety of their workplaces. Our partners are
workers, supervisors, managers and executives who will create and succeed in the global marketplace.

The Centers for Corporate Training provide innovative education and training for more than 15,000 people annually. Since 1990, the Centers have conducted programs in more than a dozen countries in North America, Asia, Europe and South America.

The Centers for Corporate Training include:
- Center for Quality
- Center for Organizational Risk Reduction
- OSHA Training Institute
- Center for Management and Leadership
- Center for Emerging Software Technology
- Center for Creativity and Innovation

Community College Relations
www.emich.edu/ccc

Sherry Sayles
Director
210 Boone Hall
734.487.6577
E-mail: ccr.relations@emich.edu

To enhance the educational transition process, Community College Relations coordinates program-to-program articulation agreements to facilitate a seamless transfer process for community college students. Specialized activities also enhance the collaborative relationships between EMU and community college faculty, staff and students.

Other activities initiated by Community College Relations include:
- Upward Bound programs to encourage interest in higher education among at-risk high school students
- Presidential team visits to community colleges to facilitate collaborations
- Academic program information sessions for students and counselors to instill higher education as part of lifelong learning
- Faculty development workshops to develop various need-specific programs, such as aiding faculty interactions with diverse students or those with developmental needs and developing strategies for faculty portfolios for tenure or promotional opportunities.

Institute for Diversity and Business Services
www.emich.edu/ibs

Raouf Hanna
Director
703 Pray Harrold
734.487.0899
E-mail: raouf.hanna@emich.edu

The business-related needs of southeastern Michigan's diverse cultural communities are served by the Institute for Diversity and Business Services.

Focusing on businesses owned by women and businesses owned by or serving members of American communities, such as African American, Asian, Hispanic, Native American, Middle Eastern Arabic and Chaldean peoples, the Institute for Diversity and Business Services makes available a wide range of services, including:
- Education
- Training
- Consultation
- Technical assistance
- Applied research projects
- Internship programs

The Institute's Business and Economic Development Program matches the needs of diverse and minority businesses and women-owned businesses in southeast Michigan with service providers and resources to meet these needs from among University faculty and staff, the minority businesses community, other universities, and area corporations. Various cultural awareness activities and other linguistic diversity services are offered through the Institute's Linguistic Diversity Services program.

Institute for the Study of Children, Families and Communities

The Institute for the Study of Children, Families and Communities explores contemporary issues and enriches family and community life through the application of scholarly research and expertise, innovative projects, and leadership in collaborative problem-solving efforts.

The Institute provides multidisciplinary services through research and demonstration projects, consultation and technical assistance, and training. Institute outreach efforts are coordinated through:

The Applied Research Center provides the full range of research services including needs assessments, program monitoring and evaluation, data collection and analysis, and policy impact analysis. It includes a state-of-the-art Computer-Assisted Telephone Interviewing (CATI) facility.

The National Foster Care Resource Center identifies, develops, and disseminates research findings and provides training to improve foster care and other child welfare services, with emphasis on family continuity and timely permanency planning.

The Office of Academic Service-Learning supports programs designed to improve University and community resources that promote the academic and civic growth of University and community members.

The Child, Family and Community Publications unit publishes and disseminates material developed through Institute projects and programs.

National Institute for Consumer Education

EMU's National Institute for Consumer Education operates with individuals and organizations who require the resources of a professional development center and clearinghouse in consumer, economic and personal finance education.

The Institute develops and provides training materials, including teaching guides, newsletters and resource lists, and conducts educational courses, workshops, seminars and conferences. Technical assistance is provided and collaborative, applied research projects are conducted as catalysts for public-policy support of consumer, economic and personal finance education.

The National Institute for Consumer Education also makes available a clearinghouse of videos, teaching guides, software, pamphlets and books.
Mission Statement:

The College of Arts and Sciences at Eastern Michigan University has as its mission intellectual growth and the pursuit of excellence in the study and enhancement of the arts and humanities, mathematics, and the social and natural sciences. The College is composed of students, faculty, and staff committed to teaching and learning, to research and scholarship, to creative endeavors, and to public service.

Through these pursuits, the College seeks to enrich the lives of all its members and prepare them for service in the local, national and global communities. The College seeks to encourage dynamic engagement with the arts and humanities and the pursuit of an ever-deeper understanding of the sciences and of physical and social life in all its forms and manifestations.

The College seeks to develop in all its members the ability and desire to think critically, to act independently and to communicate effectively. The College seeks to foster an appreciation for diverse multicultural, ethnic and gender-related perspectives.
The College of Arts and Sciences at Eastern Michigan University was established during the 1959-1960 school year, unifying various disciplines that had existed on campus for 150 years. The focus of the college at that time was to educate students in the liberal arts. This goal continues to be one of Eastern Michigan University's, and the College of Arts and Sciences' official purposes.

The college is the largest at Eastern Michigan University, hosting 17 departments and one program, and providing a variety of graduate degrees and specializations useful in many professions. Since its inception, the College of Arts and Sciences has grown to represent the diversity of the world around us. In 1959, the college offered two graduate programs; today there is graduate coursework in every department and program of the college. Even before the college was officially organized in 1959, various departments celebrated its openness to multiculturalism. From 1888-1913 the faculty of the department of history consisted entirely of women. Today, more than half of the university's faculty members are employed by the college, 30 percent of whom are women. This diversity of faculty has translated into an attraction of students from every reach of the globe. The majority of international students at the University are enrolled in degree programs in the college.

Programs within the college offer the preparation students need to face today's career market. Those in the arts and humanities enable students to understand and interpret the past, to appreciate the finest achievements of art and music, and to develop essential language and communication skills for a highly technological, ever-shrinking world. Programs in the natural, social and behavioral sciences promote scientific literacy and provide a solid foundation by teaching key terms and concepts, modes of thought and reasoning, and techniques of research and problem-solving.

The college has recently invested considerably to add multimedia capabilities to several classrooms and computer laboratories. Students can, within the college as well as throughout the University, experience and become proficient in using the most current technology available. In addition, a number of courses are available off-campus, through traditional classroom instruction or other delivery methods (such as the Internet and interactive video). These changes in investment in the future that enable students to more easily access information through a variety of media.

Many programs are tailored to the changing needs of students in today's world. Evening and weekend classes, and access to faculty and research resources off-campus reflect the college's commitment to students' needs.

The college fosters a learning community of scholars who are dedicated to the discovery and transmission of knowledge through teaching and learning, scholarship and creative endeavors, research, and public service. Several faculty members in the college have earned Distinguished Faculty Awards in the areas of instructional excellence, scholarly achievement, research, and public service. Some faculty members have also been engaged as consultants to school systems, as well as to private and public agencies. It is the goal of the arts and sciences faculty to foster this same enthusiasm for scholarship in each student.

More fundamentally, the college seeks to develop in all its members the ability and desire to think critically, to act independently, and to communicate effectively.

Baccalaureates

Most students in the college pursue one of the two basic undergraduate degrees, bachelor of science (B.S.) or bachelor of arts (B.A.). Both degrees require completion of university general education requirements, a major and a minor, the two-hour physical education and health graduation requirement, and a minimum total of 124 hours. The bachelor of arts degree includes in that total one year of college credit in a foreign language. The bachelor of science degree provides greatest flexibility in selection of the major and minor and in the use of electives.

Additionally, the following specialized degrees are offered: bachelor of fine arts (B.F.A.), bachelor of art education (B.A.Ed.), bachelor of music education (B.M.E.), bachelor of music-performance (B.Mu.), and bachelor of music therapy (B.M.T.). These specialized degrees are described more fully within the individual departments.

Several professional certificate and preprofessional programs are also available within the college. These programs, described more fully within individual department listings, include: registered music therapy (RMT); international diplomas in business French and German; certified actuarial science (CAS); preclinical hygiene; predentistry; prelaw; premedicine and prepharmacology; premedical; prenursing; prepharmacy; and preprofessional careers. Two other preprofessional programs are shared with the College of Technology: prearchitecture and preengineering.

College of Arts and Sciences Courses

CASI 150 Life's a Risk 3 hours
This interdisciplinary course is an introduction to risk assessment in modern society. Students will gain a breadth of knowledge in many science disciplines while studying the relative risks associated with everyday living and ways to minimize exposure to those risks. No prerequisites are required for this course.

CASI 177/178/179 Special Topics 1/2/3 hrs
Study and exploration of topics not covered in other departmental offerings. Students may elect more than once; provided different topics are studied. Prereq: Department permission.

CASI 226 Culture and the Holocaust 3 hrs
Culture and the Holocaust is an interdisciplinary examination of the Holocaust, the systematic murder of more than six million Jews, Slavs, Gypsies, homosexuals, and others judged politically and racially undesirable by the Nazi regime of Adolf Hitler.

CASI 240 Real Women/Real Men 3 hrs
This course examines issues concerning women and film from the interdisciplinary perspectives of communications, women's studies and philosophy. Different techniques for critical analysis will be used to study how film represents gender, race, class and culture.

CASI 277/278/279 Special Topics 1/2/3/4 hrs
Study and exploration of topics not covered in other departmental offerings. Students may elect more than once; provided different topics are studied. Prereq: Department permission.

CASI 377/378/379 Special Topics 1/2/3 hrs
Study and exploration of topics not covered in other departmental offerings. Students may elect more than once; provided different topics are studied. Prereq: Department permission.

CASI 477/478/479 Special Topics 1/2/3 hrs
Study and exploration of topics not covered in other departmental offerings. Students may elect more than once; provided different topics are studied. Prereq: Department permission.

Degrees Offered
Bachelor of Arts
Bachelor of Science

Program of Study
Major
African American Studies
Minor
African American Studies

Curriculum

The Department of African American Studies offers an undergraduate major and a minor. The undergraduate program examines the Black experience in the Americas, the Caribbean, and Africa from historical and contemporary perspectives. Students study the African American experience in particular as an entity in its own right but as a microcosm of dynamics operating in the domestic and global settings. The program addresses the multidimensionality of the Black experience, including its historical, political, policy, legal, economic, sociological, psychological, religious, and artistic dimensions.

Objectives

Objectives of the department are:

1. To cultivate and disseminate knowledge about the African American experience in particular and the global Black experience in general,
2. To provide students with the knowledge, skills, and techniques necessary for effective functioning in a multicultural, technologically-advanced society, and
3. To enhance the students' understanding of the role of multiple factors, such as race, gender, and class, in shaping the sociopolitical and economic order.

- SOC 306 The Urban Community

Total: 21 hours

**NOTE:**

These courses satisfy both general education requirements and requirements of the minor. In order to avoid taking excess hours, students are advised to take these courses, or approved substitutes from another institution, as part of the general education requirements.

---

**African American Studies Courses**

**AAS 101 Introduction to African American Studies**

An introductory examination of the African American experience. Acquaints students with the trends, issues, and forces that have shaped that experience; considers the concepts of cultural adaptation, institutional development, and group self-definition; and surveys the contemporary status and condition of African Americans.

**AAS 177/178/179 Special Topics**

1/2/3 hrs

Each time offered, this course will explore a topic on an experimental basis, based on student interests and needs. This course can be used in completing requirements for the major or minor in African American Studies.

**AAS 201 Foundations of Knowledge in African American Studies**

3 hrs

Examines the empirical and theoretical foundations of African American studies, the evolution of the field, and the role of key scholars in its development.

**AAS 221 African American Social Movements**

3 hrs

Explores the collective efforts undertaken by African Americans to elevate their group status in American society. Analyzes the struggle for human freedom through an examination of resistance to chattel slavery, the quest for civil rights, and the response to structured inequality.

**AAS 231 Urbanization and the African American Community**

3 hrs

**AAS 232 Politics in the African American Experience**

3 hrs

This course is designed to provide the student with a knowledge of Black political behavior in the United States in its evolution from protest to contemporary institutional politics.

**AAS 233 Public Policy and African Americans**

3 hrs

This course examines the implications of major and evolving national public policies and policy alternatives for economically vulnerable and/or historically disadvantaged segments of the population, particularly African Americans. Such policies include those related to social welfare, education, campus climate, employment, mass communication, housing, affirmative action, and drug and crime control.

**AAS 277/278/279 Special Topics**

1/2/3 hrs

Each time offered, this course will explore a topic on an experimental basis, based on student interests and needs. This course can be used in completing requirements for the major or minor in African American Studies.

**AAS 297/298/299 Independent Study**

1/2/3 hrs

Independent study of a select topic under staff supervision. Possible approaches include library research, field research, and participant-observer experiences. Prereq: Department permission.

**AAS 311 The African Diaspora**

3 hrs

Examines the African diaspora—the dispersion of persons of African descent throughout the world. It studies the process of dispersion, examines diasporic communities, and considers the impact of the African presence on world development.

**AAS 312 African Civilization**

3 hrs

This course is designed to provide the student with an interdisciplinary knowledge of centers of African civilization from antiquity to the 1960s. Those centers include ancient Egypt, Songhai, Kilwa, and Monomotapa.

**AAS 313 Contemporary Africa: Prospects**

3 hrs

This course serves as a survey of Africa's contemporary political economy. In examining postcolonial developments, the course focuses on regional and national strategies for social transformation.

**AAS 351 The Social Context of African American Health**

3 hrs

Examines the health status of African Americans. Explores the interplay between environment, biology and culture; folk and popular health practices; and the organization and delivery of health care.

**AAS 361 The African American Family**

3 hrs

Examines the historical and contemporary forces shaping the African American family. Analyzes urbanization, economic transformations, and institutionalized racism. Studies the role of the family in human survival and progress.

**AAS 377/378/379 Special Topics**

1/2/3 hrs

Each time offered, this course will explore a topic on an experimental basis, based on student interests and needs. This course can be used in completing requirements for the major or minor in African American Studies. Prereq: Department permission.

**AAS 401 African American Studies Research Seminar**

3 hrs

Provides intensive exposure to research methods in African American studies, and offers an opportunity for primary research in the field.

**AAS 441 Law in the African American Experience**

3 hrs

Examines the African American legal experience from the Atlantic slave trade to the present. Reviews the formation of the Constitution, the law of slavery, Reconstruction-era developments, Jim Crow segregation, and recent legal trends.

Departmental Administration

Thomas Venner
Department Head
114 Ford Hall
734.487.1268
E-mail: tvennon@online.emich.edu

The Department of Art administers programs leading to the bachelor of fine arts degree, curricula for teachers of art, an art major and minor, and a major and minor in art history. The department also participates in the arts group major and minor for elementary and special education teachers.

Advanced placement is available to students having up to six hours of advanced placement credit as elective art credits. Students contemplating the application of advanced placement credits toward an art degree should contact the department for complete information.

Degrees Offered

Bachelor of Arts
Bachelor of Art Education
Bachelor of Fine Arts
Bachelor of Science

Program of Study

Majors

Art
Art (B.F.A)
Art plus teacher certification—K-12 (B.F.A)
Art Education (B.A.E)
Art History (B.A)

Minors

Art
Art History

Graduate programs under the auspices of the Department of Art lead to the master's degree in art education and studio art. The M.A. (studio or art education) and M.F.A. degrees are described in the graduate catalog.

Curriculum

The art curriculum, leading to a bachelor of fine arts degree, is designed for students who plan to enter occupations in which a substantial background in art is required. Students completing the 54 to 60 hours within this curriculum will have satisfied all major and minor requirements for graduation.

Bachelor of Fine Arts

Successful completion of this course of studies, in the context of other program requirements, qualifies the student for recommendation for certification for the Michigan Department of Education Elementary-Secondary Provisional Certificate endorsed in art, certification code “LX.” The certification test covering this field is #41, “Art Education.”

General studies ........................................................................ 48 hours
- General education requirements ........................................... 46 hours
- Other requirements .......................................................... 0 hours
- Physical education/graduation requirement ......................... 2 hours

Fine arts major (plus teacher certification) .................................. 54 hours

Required courses .................................................................. 27 hours
#FA 107 Art History Survey I (satisfies general education requirement IV.4) ........................................ 3
#FA 108 Art History Survey II (satisfies general education requirement IV.4) ........................................ 3
#FA 122 Two-Dimensional Design (satisfies general education requirement IV.4) ........................................ 3
#FA 123 Drawing I (satisfies general education requirement IV.4) ................................................................. 3
FA 124 Drawing II ................................................................. 3
FA 210 Life Drawing .............................................................. 3
FA 215 History of 19th Century Art ........................................ 3
FA 216 History of 20th Century Art ......................................... 3
FA 231 Three-Dimensional Design ........................................ 3

Area of concentration ............................................................ 27 hours
Six courses from the following: ............................................. 18
- FA 201 Introduction to Graphic Design I (3)
- FA 235 Textiles (3)
- FA 301 Beginning Photographic Imagery (3)
- FA 305 Printmaking (3)
- FA 307 Ceramics (3)
- FA 310 Sculpture (3)
- FA 313 Painting (3)
- FA 316 Watercolor I (3)
- FA 320 Jewelry (3)
- FA 330 Computer Imaging (3)
- FA 422 Drawing III (3)

Sequence of advanced courses: ............................................ 9
Select a sequence of three advanced courses (e.g., FA 355 Textiles, FA 356 Textiles, FA 455 Textiles) from one of the following concentrations:
ceramics
drawing
graphic design
jewelry

Professional studies ................................................................... 37 hours
Courses that may be taken before formal admission to the teacher education program .................................................. 9 hours
- 100 clock hours of approved pre-student teaching field experiences (0)
- SPGN 251 Education of Exceptional Children (3)
- EDPS 315 Human Development and Learning (4)
- FA 317 Teaching of Art (2)

Courses that require formal admission to the teacher education program ............................................................ 28 hours
- CURR 206 Curriculum and Methods: Elementary (3)
- RDNG 111 Reading in the Elementary School (3)
- SPED 195 Special Education: Elementary (3)
- SPED 206 Special Education: Secondary (3)
- SPED 296 Special Education: Secondary (3)
- EDPS 319 Instructional Applications of Media and Technology (2)
- EDPS 340 Introduction to Assessment and Evaluation (3)
- FA 416 Art Methods and Materials (2)
- EDUC 496 Student Teaching (6)
- EDUC 497 Student Teaching (6)

Total .......................................................................................... 138 hours

NOTE:
- These courses satisfy both general education requirements and requirements of the major. In order to avoid taking excess hours, students are advised to take these courses, or approved substitutes from another institution, as part of the general education requirements.

  E-mail: julia.myers@emich.edu

This 30-hour major prepares students for graduate study, for gallery or museum work, or, with the addition of science and studio courses, for a career in conservation.

Students taking the art history major should note that one year of college credit in a foreign language is required for the B.A. degree. Students preparing for graduate study are strongly advised to pursue courses in French and German. Most graduate programs in art history require reading proficiency in at least two foreign languages.

**General studies** .......................................................... 47 hours

FA 428 Seminar in 20th Century Art ............................................................... 3
Elective courses ......................................................................................... 12 hours
Pre-Renaissance Art .................................................................................. 3
One course from the following: .................................................................. 3
   FA 340 History of Classical Art (3)
   FA 426 Medieval Art History (3)
Renaissance/Baroque Art .......................................................................... 3
One course from the following: .................................................................. 3
   FA 341 History of Renaissance Art (3)
   FA 427 Baroque Art (3)
Nonwestern or Women’s Art ...................................................................... 3
One course from the following: .................................................................. 3
   FA 421 History of Oriental Art (3)
   FA 422 Chinese and Japanese Art History (3)
   FA 425 Arts of Africa (3)
   FA 430 Meso-American Art (3)
   FA 456 Women in Art (3)
Art History elective .................................................................................. 3 hours
One course from the following: .................................................................. 3
   **FA 151 Reason and Revolution (3)
   FA 335 American Painting and Sculpture Prior to World War II (3)
   FA 429 History of American Architecture (3)
   FA 440 Art Since 1945 (3)
   FA 497/498/499 Independent Study (1/2/3)
Any upper-level art history course not taken to fulfill another requirement*

Minor ....................................................................................................... 20 hours
Elective courses ....................................................................................... 27 hours
Total ....................................................................................................... 124 hours

NOTE:
* Teacher certification in art is not obtainable using this major.
** Students may contract with art history faculty to include lower-numbered art courses for elective credit, with additional work.
These courses satisfy both general education requirements and requirements of the major. In order to avoid taking more than six hours, students are advised to take these courses, or approved substitutes from another institution, as part of the general education requirements.

Art Minor
ISIS minor code: AR01

Required courses ...................................................................................... 9 hours
#FA 122 Two-Dimensional Design (satisfies general education requirement IV.4) ........................................ 3
#FA 123 Drawing I (satisfies general education requirement IV.4) ................................................................. 3
One art history course ............................................................................. 3
   (FA 108 Art History Survey II suggested)
* Elective courses .................................................................................. 12 hours
12 hours in studio art or art history, of which at least six hours must be at the 300 level or above.
Total .................................................................................................... 21 hours

NOTE:
* #FA 100 Art Appreciation (satisfies general education requirement IV.4), #FA 101 Introduction to Art (satisfies general education requirement IV.4), #FA 165 Graphic Design for Non-majors (satisfies general education requirement IV.4), #FA 166 Ceramics for Non-majors (satisfies general education requirement IV.4), #FA 167 Jewelry for Non-majors (satisfies general education requirement IV.4) may be used as electives.
These courses satisfy both general education requirements and requirements of the major. In order to avoid taking more than six hours, students are advised to take these courses, or approved substitutes from another institution, as part of the general education requirements.

Art History Minor
ISIS minor code: AR02

Students with an art major who elect the art history minor must replace FA 107 Art History Survey I, #FA 108 Art History Survey II (satisfies general education requirement IV.4), FA 215 History of 19th Century Art, FA 216 History of 20th Century Art on the major with studio courses.

Required courses ...................................................................................... 15 hours
#FA 107 Art History Survey I (satisfies general education requirement IV.4) ................................................. 3
#FA 108 Art History Survey II (satisfies general education requirement IV.4) ............................................... 3
FA 215 History of 19th Century Art ......................................................... 3
FA 216 History of 20th Century Art ......................................................... 3
FA 428 Seminar in 20th Century Art ....................................................... 3
Restrictive elective courses .................................................................... 6 hours
Six hours from art history courses selected in consultation with art history minor advising coordinator.
Total ...................................................................................................... 21 hours

NOTE:
These courses satisfy both general education requirements and requirements of the major. In order to avoid taking more than six hours, students are advised to take these courses, or approved substitutes from another institution, as part of the general education requirements.

Art Minor
Elementary, Secondary, Special Education-Elementary, and Special Education-Secondary Teacher Certification
ISIS minor code: AR33

Successful completion of this minor, in the context of other program requirements, qualifies the student for recommendation for endorsement in art, certification code “LX.” The certification test covering this field is #41, “Art Education.”

Required courses ...................................................................................... 16 hours
#FA 122 Two-Dimensional Design (satisfies general education requirement IV.4) ......................................... 3
#FA 123 Drawing I (satisfies general education requirement IV.4) ................................................................. 3
FA 231 Three-Dimensional Design .......................................................... 3
* One art history course .......................................................................... 3
   (FA 108 suggested)
Teaching methods course(s) ................................................................ 4
Select from either option I or option II.
Option I: Elementary Certification
   **FA 300 Art Integration for the Elementary Teacher (4)
Option II: Secondary Certification
   FA 317 Teaching of Art (2)
   *FA 416 Art Methods and Materials (2)
Restrictive elective courses .................................................................... 9 hours
Nine hours of elective courses in studio art or art history, six hours of which must be in courses numbered 300 or higher; from the following:
#FA 107 Art History Survey I (satisfies general education requirement IV.4) (3)
FA 124 Drawing II (3)
FA 201 Introduction to Graphic Design I (3)
FA 235 Textiles (3)
FA 304 Beginning Photographic Imagery (3)
FA 305 Printmaking (3)
FA 307 Ceramics (3)
FA 310 Sculpture (3)
FA 313 Painting (3)
FA 314 Watercolor I (3)
FA 320 Jewelry (3)

Total 25 hours

NOTE:
* Prereq: Admission to the teacher education program.
** Prereq: Admission to the teacher education program. Satisfies a requirement in professional studies for the elementary program.

The courses satisfy both general education requirements and requirements of the major. In order to avoid taking excess hours, students are advised to take these courses, or approved substitutes from another institution, as part of the general education requirements.

Art Courses

FA 100 Art Appreciation 3 hrs
The aim is to acquaint students with art philosophies, their elements, principles, and values. Non-art majors or minors only.

FA 101 Introduction to Art 3 hrs
Studio and lecture course designed to develop seeing and understanding of the formal and cultural aspects of the visual arts. Guided attendance at selected exhibitions or an optional basis may be provided. Non-art majors only.

FA 107 Art History Survey I 3 hrs
A survey of the development of the visual arts from cave art to the early Renaissance.

FA 108 Art History Survey II 3 hrs
A continuation of Art History Survey 1 from the Renaissance through modern times.

FA 122 Two-Dimensional Design 3 hrs
A foundation course dealing with an analytical approach to the study of the elements of design: color, line, shape, value, pattern, texture and form.

FA 123 Drawing I 3 hrs
A beginning drawing course for students who plan to specialize in art. A variety of media and approaches help the student to achieve the control necessary in drawing. Individual problems are assigned and group criticism is frequent.

FA 142 Drawing II 3 hrs
Emphasis is on study of composition as an extension of the principles explored in Drawing I. Imaginative organization is stressed. Extensive experimentation with various media. Subjects such as the human figure are introduced as drawing problems.

FA 151 Reason and Revolution 3 hrs
An examination of the transition in political history, philosophy, art, literature, and music from Puritan England and Louis XIV’s France to Napoleon. Team taught by members of the Art and History departments. Course satisfies one art or one history requirement. See Honors Humanities Courses.

FA 165 Graphic Design for Non-majors 3 hrs
Introduction to typography and illustration. Problems will explore fundamental design and basic production considerations and the development of a professional design thought process.

FA 166 Ceramics for Non-majors 3 hrs
A hands-on approach to provide students with the opportunity to develop skills and aesthetic understanding in forming, glazing and kiln stacking. The empha-
sis in this beginning course is on handbuilding forms; however, the use of the potter’s wheel will be introduced the latter part of the semester.

FA 187 Jewelry for Non-majors 3 hrs
A hands-on approach to provide students with the opportunity to develop artistic and technical skills with metal and other jewelry materials.

FA 177/178/179 Special Topics 1/2/3 hrs
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

FA 201 Introduction to Graphic Design I 3 hrs
Projects examine two-dimensional typographic space; language sequence and information hierarchy; type families and their structure; typographic aesthetic; typographic history. Introduces appropriate tools.

FA 205 Introduction to Graphic Design II 3 hrs
Projects examine type methodology; complex typographic systems; rhetorical devices; word-image structures; typographic history and theory. Introduces appropriate tools.

FA 210 Life Drawing 3 hrs
Study of the human form through drawing. Primarily, nude models are used for subject matter. Various media are explored in search of the figurative element.

FA 215 History of 19th Century Art 3 hrs
A survey of European art in the late 19th century as the beginning of the modern period, and concludes with Post-Impressionism at the end of the 19th century.

FA 216 History of 20th Century Art 3 hrs
A survey of the visual arts of the 20th century, from Post-Impressionism through the latest contemporary developments.

FA 231 Three-Dimensional Design 3 hrs
Basic study of three-dimensional structures and systems.

FA 232 Representational Drawing 3 hrs
A course in analytical drawing emphasizing the use of volume, light, and structure in the construction of a variety of representationally illusionistic objects and environments.

FA 235 Textiles 3 hrs
An introductory textiles class dealing with concepts of design as they relate to fiber structures and fabric processes.

FA 277/278/279 Special Topics 1/2/3 hrs
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

FA 300 Art Integration for the Elementary Teacher 4 hrs
Understanding, appreciation, and awareness of art in its varied contemporary and multicultural contexts. Emphasis on three main areas: a) appreciation and understanding of the subject; b) art concepts and processes, aesthetic education, and their relationship to general education; and c) integration of art into the general classroom procedures to enhance learning. Non-art majors only.

FA 302 Intermediate Graphic Design I 3 hrs
Deals intensively with conceptual and technical issues; explores topics relevant to audience demographic; presents theories, philosophies, aesthetics and tech-
tiques related to mass-audience communication. Introduces appropriate methodologies.
Prereq: FA 205.

FA 302 Intermediate Graphic Design II 3 hrs
Course analyzes symbol codes as learned and interpreted messages. Projects explore audience, context; sequence; and theories, philosophies, aesthetics, techniques and cultural references in symbol language message building. Introduces appropriate methodologies.
Prereq: FA 205.

FA 304 Beginning Photographic Imagery 3 hrs
Introduction to photography as an art form. Basic camera and darkroom techniques demonstrated, with emphasis on exhibition printing. Student must furnish own camera equipment.
Prereq: FA 122 and FA 123.

FA 305 Printmaking 3 hrs
Acquaintance with graphic techniques; woodcut and silkscreen.
Prereq: FA 210. Art majors only.

FA 306 Printmaking 3 hrs
Advanced graphic techniques with emphasis on development of individual style through experimentation with etching and processes.
Prereq: FA 305. Art majors only.

FA 307 Ceramics 3 hrs
Basic ceramics, including wheel throwing and handbuilding techniques, compounding earthenware and stoneware clay bodies, formulating glazes, firing electric and gas kilns.
Prereq: FA 211 or department permission.

FA 308 Ceramics 3 hrs
Advanced ceramic techniques, emphasis on personal expression, compounding of individual clay bodies and glazes, loading and firing of kilns.
Prereq: FA 307. Art majors only.

FA 310 Sculpture 3 hrs
Exploratory experiences in volume and space; the use of clay, stone, wood, metal, etc.
Prereq: FA 211. Art majors only.

FA 311 Sculpture 3 hrs
Continuing experiences in volume and space; further development of skills with sculpture materials and concepts.
Prereq: FA 310. Art majors only.

FA 313 Painting 3 hrs
Painting problems; development of technique and concepts through experimentation with painting media.
Prereq: FA 122 and FA 124. Art majors only.

FA 314 Watercolor I 3 hrs
Intensive exploration of watercolor techniques with emphasis on developing individuality and self-expression related to the medium.
Prereq: FA 122 and FA 124. Art majors only.

FA 316 Life Drawing 3 hrs
Advanced study problems; the human form as composition and design: varied media.
Prereq: FA 210. Art majors only.

FA 317 Teaching of Art 2 hrs
Focuses on discipline-based art education and will include library research, readings, writings, and discussions of current events aided by presentations of guest speakers. Final requirement: the development of a written personal philosophy pertaining to the teaching of art and the formulation of a general curriculum. Not open to students on academic probation.
Prereq. Junior standing.

FA 320 Jewelry 3 hrs
Design and creation of jewelry by fabricating, casting, lapidary, stone setting, and combination of metal and wood. Emphasis on the aesthetic aspect of decorative art objects.
Prereq: FA 231 or department permission. Art majors only.

FA 321 Jewelry 3 hrs
Processes and techniques applied toward a professional development in jewelry design. Advanced processes, casting, and setting of precious stones.
Prereq: FA 320 or equivalent.

FA 323 Intermediate Photographic Imagery 3 hrs
Advanced black and white techniques and alternative processes are demonstrated. Development of personal vision is realized through individual projects and discussion.
Prereq: FA 304. Art major or department permission.

FA 324 Design and Development of Public Works of Art 3 hrs
An experimental studio course in which students and instructors design, plan, and execute urban environmental murals, sculpture, parks and malls.
Prereq: Department permission.

FA 330 Computer Imaging 3 hrs
A studio course in the use of the computer as a will for the creation of works of art. Students will learn basic computer skill with a range of imaging software. Emphasis is placed on the applications of these skills to the production of digital art works. Not open to freshmen or graduate students.
Prereq: FA 122, FA 124, and department permission.

FA 335 American Painting and Sculpture Prior to World War II 3 hrs
A survey of American art, including European influences and the evolution of native American characteristics.
Prereq: FA 107 and FA 108, or department permission.

FA 340 History of Classical Art 3 hrs
A study of the art and architecture of the classical civilization of Greece and Rome.
Prereq: FA 107 or department permission.

FA 341 History of Renaissance Art 3 hrs
A history of art from the Proto-Renaissance (about 1250 A.D.) through the period of mannerism (1600).
Prereq: FA 107 or FA 108.

FA 346 Image Making I 3 hrs
Image making as it applies to the materials and processes of communicating specific visual concepts. Introduces a wide variety of materials and imaging methods.
Prereq: FA 205.

FA 348 Intermediate Graphic Design Workshop 3 hrs
Practicum dealing with various aspects of visual communication.
Prereq: FA 302 and FA 303.

FA 355 Textiles 3 hrs
An intermediate textiles class dealing with concepts and design as they relate to fiber structures, created either on or off the loom.
Prereq: FA 235. Art majors only.

FA 356 Textiles 3 hrs
An intermediate textiles class dealing with concepts and design as they relate to basic fabric processes of surface decoration and manipulation.
Prereq: FA 235. Art majors only.

FA 377/378/379 Special Topics 1/2/3 hrs
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.
Prereq: Department permission.
FA 307 Cooperative Education in Art
3 hrs
Employment in a graphic design firm, studio, or agency with an opportunity for practical design experience. Placement approval required by graphic design area. Prereq: Department permission.

FA 405 Printmaking
3 hrs
An advanced laboratory course designed for art majors specializing in graphics. Individual assignments in creative use of the more fundamental techniques learned in previous courses. Prereq: FA 306. Art majors only.

FA 406 Printmaking
3 hrs
An advanced laboratory course for art majors taking their sequence in graphics. Projects could include lithography, etching, and aquatint processes, plus individual assignments. Prereq: FA 405. Art majors only.

FA 407 Ceramics
3 hrs
Intensive work for art majors specializing in ceramics with an emphasis on larger-scaled, increasingly complex techniques and forms. Historical and contemporary works examined. Prereq: FA 308. Art majors only.

FA 408 Ceramics
3 hrs
Summation of the undergraduate ceramics program; emphasis on individual style, production techniques, studio management and exhibition programs. Prereq: FA 407. Art majors only.

FA 409 Advanced Photographic Imagery
3 hrs
The contextual development of personal vision is emphasized through discussion of the student's work in relationship to established photographers' work. Prereq: FA 304 and FA 332.

FA 410 Metal Casting/Techniques
3 hrs
An advanced sculpture course covering all aspects of the lost wax casting process. Includes information on other metal casting processes and on construction and operation of an inexpensive sculpture foundry. Prereq: FA 310 or department permission.

FA 411 Sculpture
3 hrs
Advanced sculpture problems, including steel and open form construction; intensive study of contemporary methods and techniques of sculpture. Prereq: FA 311 or department permission. Art majors only.

FA 412 Sculpture
3 hrs
Advanced sculpture problems; development of individual style in three-dimensional form. Prereq: FA 411. Art majors only.

FA 413 Painting
3 hrs
Further development of painting skills and aesthetic understanding of the two-dimensional surface complex. Emphasis on development of individual style. Prereq: FA 313. Art majors only.

FA 414 Watercolor II
3 hrs
Further development of watercolor skills and aesthetic understanding of the two-dimensional surface complex. Emphasis on development of individual style. Prereq: FA 314. Art majors only.

FA 416 Art Methods and Materials
2 hrs
Designed to prepare students for their role in the classroom from the inception of an idea to the development of a unit of study. Planning, revising, and presenting specific units which incorporate the four disciplines. Not open to students on academic probation. Prereq: FA 317 and junior standing.

FA 419 Life Drawing
3 hrs
The study of the human form as part of the development of a personal style in art. Prereq: FA 316. Art majors only.

FA 421 History of Oriental Art
3 hrs
A survey of the art of the Far East, with significant examples from India, China and Japan; investigation of the influences forming their styles. Prereq: FA 107 or FA 108 or FA 421 or department permission.

FA 423 Watercolor III
3 hrs
Further development of individual style in watercolor. Prereq: FA 424. Art majors only.

FA 424 Watercolor IV
3 hrs
Further development of individual style in watercolor. Prereq: FA 425. Art majors only.

FA 425 Arts of Africa
3 hrs
Examines the visual arts of sub-Saharan Africa. Analyzes and investigates the content, materials, techniques, and aesthetics of traditional African art within its cultural context. Includes the integration of function and ritual, as evidenced in the tribal objects and artifacts. Prereq: Junior or senior status, or department permission.

FA 426 Medieval Art History
3 hrs
The development of medieval art from the Early Christian through Gothic periods. Prereq: FA 107 or FA 108 or department permission.

FA 427 Baroque Art
3 hrs
Principal developments in Italian and northern art of the 17th century. Emphasis on major themes and aesthetic problems. Prereq: FA 107 or FA 108 or department permission.

FA 428 Seminar in 20th Century Art
3 hrs
Readings, reports, and group discussions on 20th century art. Topics may vary. Prereq: FA 4216 or art major.

FA 429 History of American Architecture
3 hrs
Exploration of styles and techniques in American architecture from the colonial period to the present, with special emphasis on the sources in foreign traditions. Major figures, including Thomas Jefferson, Louis Sullivan, Frank Lloyd Wright, Eero Saarinen, and major stylistic trends, such as Greek Revival and the International Style, will be traced back through their origins and development. Prereq: FA 107 or FA 108 or department permission.

FA 430 Meso-American Art
3 hrs
A survey of the art of Meso-America, the civilization that existed in Mexico and Central America from about 1500 B.C.E. until the coming of Cortes in 1519. The major emphasis of the course will be on urban planning architecture and monumental sculpture. Significant attention will also be devoted to painting, ceramics, small-scale sculpture, textiles and jewelry. Prereq: FA 107 or FA 108 or department permission.

FA 432 Drawing III
3 hrs
Drawing as expressive composition. Integration of the techniques of previous courses. Development of individual directions. Includes a variety of media and the study of master drawings. Prereq: FA 210. Art majors only.

**Biology**

www.emich.edu/public/biology/bioweb.htm

**Departmental Administration**

Robert K. Neely  
Department Head  
316 Mark Jefferson  
734.487.4242  
E-mail: bob.neely@emich.edu

**Degrees Offered**

Bachelor of Arts  
Bachelor of Science

**Program of Study**

**Major**

- Biology  
- Teaching Major in Biology

**Minors**

- Biology
- Biology for secondary, K-12, and special education-secondary
- Botany
- Zoology
- Conservation and resource use

**Preprofessional programs:**

- Prechiropractic  
- Premedicine (allopathic and osteopathic)  
- Preoptometry  
- Prepodiatry  
- Preveterinary

**Curriculum**

The Department of Biology offers a major in biology as well as providing programs in premedicine (allopathic and osteopathic), preoptometry and prepodiatry. In addition, there is an adviser for veterinary medicine.

Modern laboratories for course work and research under personal supervision of faculty are located in the Mark Jefferson building and the Terrestrial and Aquatic Ecology Research Facility. The adjacent Loezell Field Laboratory, nearby Huron River and Ford Lake are available for field course work and research.

Field-oriented courses are taught at EMU's Kresge Environmental Education Center in Lapeer County and at the Conservation Training School at Higgins Lake under joint auspices of EMU, Central Michigan University, Western Michigan University, the University of Michigan and the Michigan Department of Conservation.

Registration for any courses offered by any of the participating universities at Higgins Lake is handled by EMU's Office of Continuing Education. Courses are normally a week long during the summer and carry one or two hours of credit. Only one course can be elected at a time. Students must apply in advance; enrollment is limited and acceptance is in order of application. Students desiring to receive credit from EMU and who indicate this on their application will be enrolled on EMU forms, eliminating the need for transcripts. Room
and board are available. Information can be obtained from the Office of Continuing Education.

Course work in tropical ecology is offered by the department when justified by demand and when arrangements can be made in a tropical area for laboratory facilities and living quarters for staff and students.

The department supports a student chapter of Beta Beta Beta, the national biological honorary society. All biology majors and minors are encouraged to participate in its activities.

Departmental advising procedures are posted opposite the biology office (316 Mark Jefferson), or this office may be contacted for additional information.

**Special Advising Requirements**

Prospective biology majors/minors should declare their majors/minors through the Academic Advising Center (Pierce Hall) as soon as possible after their admission to the University.

To graduate with a major in biology, the student must meet with a biology faculty advisor. This meeting must take place as early as possible but no later than the end of the sophomore year. All transfer students must contact a biology faculty advisor during their first semester at EMU.

Biology majors who elect a botany or zoology minor must file an approved program of required/ elective courses for the minor with their faculty advisor and undergraduate coordinator. Program changes will require prior written approval of the faculty advisor and undergraduate coordinator. Minors in either botany or zoology are not approved teaching minors for secondary teacher certification.

Conservation and resource use minor electives must be approved by the advising coordinator. Substitutes on the approved program will count toward its completion only if approved by the coordinator.

Graduate study leads to a master of science degree in biology with students choosing a concentration in general biology, ecology and organismal biology, physiology, molecular and cellular biology, or community college biology teaching. These programs are described in the graduate catalog.

**Biology Major**

**ISIS major code: BL01**

**Advising**

Please contact the following person for advising and additional information:

- Catherine E. Bach
  - Coordinator of Advising
  - 316 Mark Jefferson
  - 734.487.0212
  - E-mail: catherine.bach@emich.edu

Majors should start with BIOL 110 Introductory Biology I followed by BIOL 120 Introductory Biology II in their freshman year. Majors without a strong high school biology preparation should take BIOL 105 Introductory Biology I for Non-majors before electing BIOL 110. (BIOL 105 will not count toward the biology major or minor, although credit earned in this course will count toward the minimum of 124 hours required for graduation.)

**Chemistry Requirement:** The minimum requirements in chemistry for all biology majors are CHEM 121-CHEM 122-CHEM 237-CHEM 238 General Chemistry I-II with labs, and either of the following sequences: CHEM 270-CHEM 271 Organic Chemistry with lab and CHEM 451 Biochemistry I, or CHEM 371-CHEM 372-CHEM 373 Organic Chemistry I-II with laboratory. Students who plan to pursue graduate work in biology or are in a preprofessional program should select CHEM 371-CHEM 372-CHEM 373 Organic Chemistry I-II with lab. It is highly recommended that CHEM 451-CHEM 452-CHEM 453 Biochemistry I-II with lab also be selected by students who plan to pursue graduate work in biology.

**Physics Requirement:** The minimum requirements in physics for all biology majors are PHY 224 Mechanics, Sound, and Heat and PHY 222 Electricity and Light.

**Mathematics Requirement:** The minimum requirement in mathematics for all biology majors is MATH 120 Calculus I or MATH 170 Elementary Statistics. It is strongly recommended that students who plan to pursue graduate work in biology take MATH 120 Calculus I and MATH 121 Calculus II, as well as MATH 170 Elementary Statistics.

The following courses may NOT be counted toward a biology major or minor: BIOL 105 Introductory Biology for Non-majors, ESCI 302 Elementary Science, ESCI 303 Science for the Elementary Teacher, BIOL 205 Field Biology, and BIOL 403 Methods and Materials for Teaching Biology.

Courses designated as botanical taxonomic field courses:

- BOTN 354 Trees and Shrubs
- BOTN 450 Taxonomy and Ecology of Aquatic Vascular Plants
- BOTN 451 Freshwater Algae
- BOTN 453 Taxonomy and Ecology of Diatoms
- BOTN 455 Systematic Botany

Courses designated as zoological taxonomic field courses:

- ZOOL 360 Natural History of Invertebrates
- ZOOL 370 Natural History of Vertebrates
- ZOOL 421 Entomology
- ZOOL 422 Ichthyology
- ZOOL 425 Ornithology
- ZOOL 474 Herpetology
- ZOOL 480 Protozoology
- ZOOL 482 Aquatic Entomology
- ZOOL 485 Mammalogy

Students entering preprofessional programs in chiropractic medicine, dentistry, allopathic medicine, osteopathic medicine, podiatry, veterinary medicine, or optometry, and students specializing in field biology, plant and animal taxonomy, cell biology, preforestry, or laboratory and museum research may select the general biology concentration as preparation for continuing in a professional or graduate school program.

Students who are uncertain about a concentration may prefer the flexibility of the general biology concentration, which allows a broad spectrum of biology courses to explore without precluding later specialization.

Note: An experience at a biological station is recommended.

**General Studies**

**General education requirements** .................................................. 23 hours
**Other requirements** ................................................................. 27 hours

**Chemistry requirements** ......................................................... 16 hours
- CHEM 121 General Chemistry I (satisfies general education requirement II.I or II.II) (3)
- CHEM 122 General Chemistry II with lab (satisfies general education requirement II.I or II.II) (1)
- CHEM 123 General Chemistry II (satisfies general education requirement II.I or II.II) (3)
- CHEM 124 General Chemistry II Laboratory (satisfies general education requirement II.I or II.II) (1)

Select from either option I or option II:

**Option I:**
- CHEM 270 Survey of Organic Chemistry (4)
- CHEM 271 Organic Chemistry Laboratory (1)
- CHEM 451 Biochemistry I (3)

**Option II:**
- CHEM 371 Organic Chemistry I (3)
- CHEM 372 Organic Chemistry II (3)
- CHEM 373 Organic Chemistry Laboratory (2)

**Physics requirements** .............................................................. 8 hours
- PHY 221 Mechanics, Sound, and Heat (satisfies general education requirement II.I or II.II) (4)

**Mathematics requirement** ......................................................... 3-4 hours

One course from the following:
#MATHE 120 Calculus I (satisfies general education requirement 1.4) (4)
#MATHE 170 Elementary Statistics (satisfies general education requirement 1.4) (3)

In addition, it is strongly recommended that students intending to pursue graduate work take the following 2-3 hours
CHEM 452 Biochemistry I (3)
CHEM 453 Biochemistry Laboratory (2)

Physical education/graduation requirement 2 hours

Biology major 36 hours

Required foundation courses 13 hours
#BIOL 110 Introductory Biology I (satisfies general education requirement II.2 or II.3) 5
BIOL 120 Introductory Biology II 5
BIOL 301 Genetics 3

Core courses 6 hours
Two courses from the following: 6
BIOL 305 Cell and Molecular Biology (3)
BIOL 310 Ecology (3)
BIOL 315 Evolution (3)

Core labs 2 hours
One course from the following: 2
BIOL 306 Cell-Molecular Biology and Genetics Lab (2)
BIOL 311 Laboratory in Ecology (2)

Elective courses 15 hours
15 hours at the 300 or 400 level in biology, botany, micro biology and zoology selected in consultation with a biology advisor. At least one course must be at the 400 level. All courses must have a minimum prerequisite of BIOL 110 and BIOL 120. BIOL 403 Methods and Materials for Teaching Biology may NOT be counted toward a biology major.

Minor 20 hours
Elective courses 20 hours
Total 124 hours

NOTE:
These courses satisfy both general education requirements and requirements of the major. In order to avoid taking excess hours, students are advised to take these courses, or approved substitutes from another institution, as part of the general education requirements.

Biology Major
Secondary Teacher Certification
ISIS major code: BL31

Advising
Please contact the following person for advising and additional program information:
Peggy Liggit
734.487.0118
E-mail: peggy.liggit@enich.edu

Successful completion of this course of studies, in the context of other program requirements, qualifies the student for recommendation for certification for the Michigan Department of Education Secondary Provisional Certificate endorsed in biology, certification code "DA," and, depending on the minor selected, an additional endorsement. This program of studies meets all requirements of the National Science Teachers Association. The certification test covering this field is #121, "Biology."

General studies 63 hours

General education requirements 24 hours
Other requirements 27 hours
#CHEM 121-CHEM 122 General Chemistry I with lab satisfies general education requirement II.1 or II.3 (4)

One course from the following: 3-4

#MATHE 120 Calculus I satisfies general education requirement 1.4 (4)
#MATHE 170 Elementary Statistics satisfies general education requirement 1.4 (3)
#PH 221 Mechanics, Sound, and Heat satisfies general education requirement II.3 (3)
PH 222 Electricity and Light (4)
CHEM 125 General Chemistry II (3)
CHEM 124 General Chemistry II Laboratory (1)

Select from either option I or option II 8 hours

Option I:
CHEM 270 Survey of Organic Chemistry (4)
CHEM 271 Organic Chemistry Laboratory (1)
CHEM 451 Biochemistry I (3)

Option II:
CHEM 371 Organic Chemistry I (3)
CHEM 372 Organic Chemistry II (3)
CHEM 373 Organic Chemistry Laboratory (2)

It is strongly recommended to take the following 2-3 hours
CHEM 452 Biochemistry II (3)
CHEM 453 Biochemistry Laboratory (2)

Physical education/graduation requirements 2 hours

Teaching biology major 30 hours

Required courses 24 hours
#BIOL 110 Introductory Biology I (satisfies general education requirement II.2 or II.3) 5
BIOL 120 Introductory Biology II 5
CHEM 101 Chemistry I 3
BIOL 320 Introduction to Cell Physiology 4
BIOL 420 General Ecology 4

One course from the following: 3
ZOOI 300 Natural History of Invertebrates (3)
ZOOI 310 Natural History of Vertebrates (3)
BOTN 354 Trees and Shrubs (3)
ZOOI 421 Entomology (3)
ZOOI 422 Ichthyology (3)
ZOOI 425 Ornithology (3)
BOTN 450 Systematic Entomology (3)
BOTN 451 Freshwater Algae (3)
BOTN 453 Taxonomy and Ecology of Diatoms (3)
BOTN 455 Systematic Botany (3)
ZOOI 474 Herpetology (3)
ZOOI 480 Protozoology (3)
ZOOI 482 Aquatic Entomology (3)
ZOOI 485 Mammalogy (3)

Area courses 6 hours

*Six hours from the following areas:
biochemistry
botany
microbiology
zoology

*except BIOL 105, BIOL 205, BIOL 207, ZOOI 326, ESCI 302, ESCI 303 and BIOL 403

Note: Hours must be distributed to include at least seven hours in botany (may include microbiology) and seven hours in zoology.

Professional studies 39 hours

Pre-admission phase: The Learner and the Community 8
*EDPS 322 Human Development and Learning (4)
*FETE 201 Field Experience I (1)
SPGN 251 Education of Exceptional Children (3)

The following courses require formal admission to the teacher education program:

Phase I: Curriculum, Assessment and the Social Context 10
If general education requirements.

I. minors (satisfies general education requirement 11.2 or 11.3) before taking SCIOL; 21 hours

- BIOL 105 Introductory Biology II (satisfies general education requirement II.2 or II.3) before taking BIOL 110.
- BIOL 105 will not count toward the biology minor; credit earned in this course will count toward the 124 hours required for graduation. Chemistry courses should also be started at the same time as the biology courses in order to fulfill the requirements for the 300- and 400-level biology courses.

Students minoring in biology are strongly advised to take CHEM 119 Fundamentals of Chemistry and CHEM 122 General Chemistry I-II with labs (satisfies general education requirement II.1 or II.3).

**Required courses**

- BIOL 110 Introductory Biology I (satisfies general education requirement II.2 or II.3) ........ 13 hours
- BIOL 120 Introductory Biology II ........ 5
- BIOL 301 Genetics .................. 3
- BIOL 305 Cell and Molecular Biology (3)
- BIOL 310 Ecology (3)
- BIOL 315 Evolution (3)

**Restriction elective course**

One course from the following:

- Botany Minor

ISIS minor code: BL01

Minors should start with BIOL 110 Introductory Biology I (satisfies general education requirement II.2 or II.3) followed by BIOL 120 Introductory Biology II in their freshman or sophomore year. Minors without a strong high school biology preparation should take BIOL 105 Non-majors (satisfies general education requirement II.2 or II.3) before taking BIOL 110. (Although BIOL 105 will not count toward the biology minor, credit earned in this course will count toward the 124 hours required for graduation.) Chemistry courses should also be started at the same time as the biology courses in order to fulfill the requirements for the 300- and 400-level biology courses.

Students minoring in biology are strongly advised to take CHEM 119 Fundamentals of Chemistry or CHEM 122 General Chemistry I-II with labs (satisfies general education requirement II.1 or II.3).

**Elective courses**

Six hours at the 300 or 400 level in biology, botany, micro biology and zoology selected in consultation with a biology adviser. All elective courses must have a minimum prerequisite of BIOL 110 and BIOL 120. BIOL 403 Methods and Materials for Teaching Biology may NOT be counted toward a biology minor. Students are strongly advised to select one of the restricted electives to fulfill this requirement.

**Total** .................................................. 22 hours

**Note:**

- No more than two hours of electives toward the minor may be taken in any combination of BIOL/BOTN/ZOOI/497/498/499 Independent Study courses. BIOL/BOTN/MICR/ZOOI/387 and BIOL/387 Cooperative Education courses will not count on this minor.
- These courses satisfy both general education requirements and requirements of the major. In order to avoid taking excess hours, students are advised to take these courses, or approved substitutes from another institution, as part of the general education requirements.

**Botany Minor**

ISIS minor code: BL02

Open only to students majoring in biology. Students electing this minor must file an approved program of required elective courses with a faculty adviser and with the Department of Biology undergraduate coordinator. Any program changes require prior written approval of the faculty adviser and the Department of Biology undergraduate coordinator.

This minor is not to be considered as a teaching minor for prospective elementary or secondary teachers. Prospective teachers who wish to elect this minor must complete a second minor outside of the Department of Biology to satisfy the current requirements for teacher certification.

**Total** .................................................. 20 hours

**Conservation and Resource Use Minor**

ISIS minor code: BL04

This program is administered jointly by the heads of the Department of Biology; the Department of Economics; the Department of Geography and Geology; and the Department of Sociology, Anthropology, and Criminology.

Students electing this minor must confer with the advising coordinator for conservation and resource use to obtain an approved schedule of electives. Substitutions on the approved program will count only if approved by the adviser.

Students are strongly urged to take PLSC 202 State and Local Government.

**Required courses**

- BIOL 110 Introductory Biology I (satisfies general education requirement II.2 or II.3) ........ 4
- BIOL 110 Introductory Biology II ........ 5
- BIOL 301 Genetics .................. 3
- BIOL 305 Cell and Molecular Biology (3)
- BIOL 310 Ecology (3)
- BIOL 315 Evolution (3)

**Elective courses**

11 hours from the following selected in consultation with the advising coordinator.

- BIOL 215 Economic Botany
- BIOL 221 General Zoology (satisfies general education requirement II.2 or II.3)
- BIOL 222 General Zoology (satisfies general education requirement II.2 or II.3)
- BIOL 410 Limnology
- BIOL 412 Biogeography
- BIOL 436 Terrestrial Ecosystems, and any taxonomic field course.
- CHEM 115 Chemistry and Society (satisfies general education requirement II.1 or II.3)
- CHEM 415 Environmental Chemistry
- ECON 201 Principles of Economics I (satisfies general education requirement III.3)
- ECON 202 Principles of Economics II (satisfies general education requirement III.4)
- ECON 336 Economics of Environment and Natural Resources
- ECON 337 Energy Economics and Policies
- GESC 114 National Parks and Monuments
- GESC 208 Natural Environmental Hazards
- GESC 215 Introduction to Urban and Regional Planning
- GEOG 235 Economic Geography
- GEOG 229 Rocks of Michigan
- GEOG 305 Aerial Photograph Interpretation
- GEOG 310 Energy Awareness
Zoology Minor
ISIS minor code: BL03

Open only to students majoring in biology. Students electing this minor must file an approved program of required elective courses with a faculty advisor and with the Department of Biology undergraduate coordinator. Any program changes require prior written approval of the faculty advisor and the Department of Biology undergraduate coordinator.

This minor is not to be considered as a teaching minor for prospective elementary or secondary teachers. Prospective teachers who wish to elect this minor must complete a second minor outside of the Biology Department to satisfy the current requirements for teacher certification.

Total: 20 hours

Biology Minor
Secondary, K-12, and Special Education-Secondary Teacher Certification

ISIS minor code: BL35

Successful completion of this minor, in the context of other program requirements, qualifies the student for recommendation for endorsement in biology, certification code "DA." The certification test covering this field is #17, "Biology." 

- #Biol 110 Introductory Biology I (satisfies general education requirement II.2 or II.3) .. 5
- BIOL 120 Introductory Biology II .. 5
- BIOL 201 Genetics .. 3

Seven hours from biology, botany, microbiology or zoology except
- BIOL 105, ESCI 302, ESCI 303, BIOL 205, BIOL 403, Either BIOL 204 or BIOL 239 may be used, but not both. No more than two hours may be taken in any combination of BIOL/BOTN/MICR/Zool.

Total: 24 hours

NOTE:
* Students required to take GESC 108 Earth Science on a major or minor in the Geography and Geology Department will take an additional four hours of electives on this minor from the approved list.

** The prerequisite for BIOL 207 Elements of Ecology is #BIOL 105 Introductory Biology for Non-majors (satisfies general education requirement II.2 or II.3). Students planning to take this minor should elect BIOL 105 for general education credit in the freshman year. Biology majors minoring in conservation will take BIOL 420 General Ecology on the major and substitute additional approved electives on the minor.

*** Students who prefer to elect ECON 201-ECON 202 Principles of Economics I-II to satisfy general education requirements may substitute ECON 201 for ECON 290: The American Economy and count ECON 202 as an elective on the minor. Students who are required to take ECON 201-ECON 202 for other purposes on their curricula, as in business administration, may not count this on this minor and must substitute an additional elective for ECON 200.

These courses satisfy both general education requirements and requirements of the minor. In order to avoid taking excess hours, students may substitute additional elective hours. Students with no previous biology in high school must start with BIOL 105, which does not count toward the minor.

Total: 24 hours

#These courses satisfy both general education requirements and requirements of the minor. In order to avoid taking excess hours, students are advised to take these courses, or approved substitutes from another institution, as part of the general education requirements.

Premedical (Allopathic and Osteopathic), Preoptometry, Prepodiatry, Preveterinary, and Prechiropractic

Premedical ISIS major code: BL04
Preoptometry and prepodiatry ISIS major code: BL05

Program Advising

Please contact the following person for advising and additional program information.

Michael G. Angell
316 Mark Jefferson
734.487.1064
E-mail: michael.angell@emich.edu

Students can complete course requirements at EMU for admission to optometry, podiatry, veterinary and chiropractic programs. For information on these programs, see the advising coordinator for premedical programs. The requirements are similar to those for allopathic and osteopathic medical schools as described below.

While medical schools do not prescribe a premedical curriculum, they expect a thorough understanding of modern concepts in biology, chemistry, and physics, and all value mathematical competence, with some specifying a course sequence in mathematics. Most premedical students, therefore, elect a major in one of these areas, although this is not mandatory. Students should earn the bachelor's degree prior to admission to medical school.

An important admission requirement for most medical schools, the Medical College Admission Test (MCAT), is given in April and August in various centers throughout the nation. This test should be taken after prerequisites in biology, chemistry, and physics are completed, typically during the junior year.

Each allopathic and osteopathic medical school establishes its own admission requirements. The course requirements are similar but differ enough so that students should consult the catalogs of the schools in which they are interested. The latest edition of Medical School Admission Requirements, available at the reference desk of the EMU library and in the premedicinc adviser's office, should be consulted. The introductory chapters of this book should be read by every prospective medical student.

If students electing the premedicine sequence are not achieving at least a 2.75 grade point average (overall and in their major), their chances of acceptance by a medical school are minimal, and they should plan their programs so that other professional or vocational goals are possible.

Students planning to apply for admission to a medical school should plan their schedule to include the following general requirements:

- ENGL 121 English Composition ..................................................... 3
- Elective in English language or literature ..................................... 3
- BIOL 110 Introductory Biology I .................................................. 5
- BIOL 120 Introductory Biology II .................................................. 5
- BIOL 301 Genetics .......................................................................... 3
- BIOL 320 Introduction to Cell Physiology ........................................ 4
- CHEM 121-CHEM 122 General Chemistry I with lab ................... 4
- CHEM 177-CHEM 178 Organic Chemistry ...................................... 5

Other courses must be selected and approved by the premedical advising coordinator.

Note: Math courses must be completed with a grade of C or better. 

#CHEM 116 or CHEM 117 is recommended.

GEOL 320 Geology
GESC 320 Geology
GESC 324 Weather
GESC 327 Soil Science
GESC 332 Urban Geography
GESC 351 Geography of Population
GESC 424 Climatology
GEOG 448 Hydrogeology
GESC 495/496 493 Environmental Assessment and Planning
SOCIL 306 Social Community
Collage of Arts & Sciences

Biology Courses

BIOL 105 Introductory Biology for Non-majors 4 hrs
A study of the basic concepts of modern biology common to all organisms with an emphasis on human systems and issues. Designed for students who are not majoring or minoring in biology. The course consists of two one-hour lectures, one one-hour reception and three hours of self-paced laboratory each week. Not open to students with credit in BIOL 110 and/or BIOL 120. Does not count toward the major or minor.

BIOL 110 Introductory Biology I 5 hrs
The basic concepts of biology upon which students can begin to develop a conceptual framework of the discipline will be developed in this course and reinforced in upper-level courses. Cell structure and function, molecular biology, Mendelian and population genetics, evolutionary theory, and ecology will be covered in this first semester of a two-semester sequence. Inquiry-oriented laboratory exercises and inquiry-oriented methods will be emphasized in lecture and discussion sections. BIOL 110 is required for students taking a major or minor in biology. Course meets for three hours of lecture, one hour of discussion and three hours of laboratory each week.

BIOL 120 Introductory Biology II 5 hrs
The basic concepts of biology upon which students can begin to develop a conceptual framework of the discipline will be developed in this course and reinforced in upper-level courses. Evolutionary theory; ecology; plant physiology, development and diversity; animal physiology, development, diversity, and behavior, will be covered in this second semester of a two-semester sequence. A continued emphasis on inquiry-oriented laboratory exercises and inquiry-oriented methods will be applied to lecture and discussion sections. BIOL 120 is required for students taking a major or minor in biology. Course meets for three hours of lecture, one hour of discussion and three hours of laboratory each week.

Prereq: BIOL 110.

BIOL 177/178/179 Special Topics 1/2/3 hrs
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.
Prereq: Department permission.

BIOL 204 The Biology of Cancer 2 hrs
Introduces the types, characteristics, putative causes and current treatments of cancer.
Prereq: BIOL 105 or BIOL 120.

BIOL 205 Field Biology 4 hrs
A lecture, laboratory and field course in the behavior, ecology, and broad classification of plants and animals, giving training in recognition of common plants and animals of Michigan. Gives background material to the non-specialist interested in outdoor life, and to the elementary school teacher. Not open to students having credit in BIOL 110 and/or BIOL 120 except by department permission. Does not count toward the biology major or biology minor.

BIOL 207 Elements of Ecology 2 hrs
The interactions of plants and animals with their physical and biological environment. Consideration is given to the way in which principles of ecology are applied in conservation practices. Lectures and readings are supplemented by field trips to locations of ecological interest in the area. Does not count toward the major.

Prereq: BIOL 105.

BIOL 224 Principles of Conservation 4 hrs
Introduces the basic resources of water, soil, vegetation, animal life, land as space, land in its unaltered condition, minerals and human powers, and develops the principles by which they may be wisely utilized and conserved with major emphasis on the renewable resources.

BIOL 232 Nature Interpretation 3 hrs
Combines intensive field and museum work in natural history with practical training and experience in interpreting natural objects and settings to individuals and groups.

BIOL 239 Biology of Aging 2 hrs
The study of the aging process at the molecular, cellular, tissue and systems level of organization. Theories of aging will be considered.
Prereq: BIOL 105.

BIOL 277/278/279 Special Topics 1/2/3 hrs
An examination of topics in biology not covered in other departmental offerings. Students may elect this course more than once, provided different topics are studied.
Prereq: Department permission.

BIOL 301 Genetics 3 hrs
A lecture course emphasizing the basic principles of inheritance with their application to plants and animals.
Prereq: BIOL 120.

BIOL 302 Genetics Laboratory 2 hrs
A laboratory course designed to accompany or follow BIOL 301. Provides opportunity to work with organisms proved to be most beneficial in extending our understanding of genetic principles. Practice in gathering and analyzing data from living populations.
Prereq: BIOL 301 if concurrent registration student must register for BIOL 301 first.

<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Credits</th>
<th>Description</th>
<th>Prerequisites</th>
</tr>
</thead>
<tbody>
<tr>
<td>BIOL 305</td>
<td>Cell and Molecular Biology</td>
<td>3 hrs</td>
<td>A lecture course that examines the basic unit of structure and function in life, the cell. The course uses concepts of molecular biology to survey aspects of cellular function, such as metabolism, intercellular communication, and cell division.</td>
<td>Prereq: BIOL 301, CHEM 121/122, and CHEM 123/124. Sophomore standing.</td>
</tr>
<tr>
<td>BIOL 306</td>
<td>Cell and Molecular Biology and Genetics Laboratory</td>
<td>2 hrs</td>
<td>This laboratory course provides students with an opportunity to use molecular and cellular techniques to probe aspects of gene inheritance and expression. Students will develop critical reasoning and laboratory skills in preparation for advanced laboratory studies, independent research projects at the sub-organismal level, as well as for cooperative learning internships.</td>
<td>Prereq: BIOL 301. Coreq: BIOL 303. Not open to freshmen.</td>
</tr>
<tr>
<td>BIOL 310</td>
<td>Ecology</td>
<td>3 hrs</td>
<td>A lecture course introducing the concepts involved in the study of terrestrial and aquatic communities, their physical environment, and their integration into ecosystems. Emphasis will be on properties at the ecosystems, community, and population levels.</td>
<td>Prereq: BIOL 120; or BOTN 221 and ZOOL 222.</td>
</tr>
<tr>
<td>BIOL 311</td>
<td>Laboratory in Ecology</td>
<td>2 hrs</td>
<td>A lecture course introducing the concepts involved in the study of terrestrial and aquatic communities, their physical environment, and their integration into ecosystems. Emphasis will be on properties at the ecosystems, community, and population levels.</td>
<td>Prereq: BIOL 120; or BOTN 221 and ZOOL 222.</td>
</tr>
<tr>
<td>BIOL 315</td>
<td>Evolution</td>
<td>3 hrs</td>
<td>This lecture and discussion class examines basic concepts of evolutionary biology emphasizing evolutionary theory, evolutionary processes and contemporary topics in evolutionary biology. An integrative approach at the cens and molecular, organismal, population, and higher taxonomic levels will be incorporated to understand the role of evolution as the organizing principle of all levels of biology and life. BIOL 315 is one of the three core courses. Students are required to take two of three core courses.</td>
<td>Prereq/Coreq: BIOL 301.</td>
</tr>
<tr>
<td>BIOL 320</td>
<td>Introduction to Cell Physiology</td>
<td>4 hrs</td>
<td>A lecture and laboratory course in introductory physiology devoted to the study of physiological mechanisms common to all living organisms. Basic processes at the cellular level emphasized, rather than the applications of such processes to a particular organism. Organic chemistry with laboratory is highly recommended.</td>
<td>Prereq: BIOL 120 and CHEM 123 and CHEM 124.</td>
</tr>
<tr>
<td>BIOL 366</td>
<td>Marine Resource Conservation</td>
<td>5 hrs</td>
<td>This lecture and laboratory course analyzes the relationship between marine ecology and resource management in an interdisciplinary examination of coastal conservation issues of the Caribbean. The course meets daily (spring/summer), for one hour of lecture, one hour of discussion and three hours of field laboratory at a Caribbean field station. Not open to students that have already taken BIOL 369.</td>
<td>Prereq: BIOL 120.</td>
</tr>
<tr>
<td>BIOL 369</td>
<td>Principles of Tropical Marine Ecology</td>
<td>5 hrs</td>
<td>A lecture course and field laboratory on the ecology of tropical marine ecosystems. Biological oceanography and systems ecology form the basis for examinations of community structure, productivity and disturbance. Course meets for three hours of lecture and six hours of field work each week at a Caribbean field station.</td>
<td>Prereq: BIOL 120.</td>
</tr>
<tr>
<td>BIOL 377/378/379 Special Topics</td>
<td>1/2/3 hrs</td>
<td>An exploration and study of topics not covered in other departmental offerings. Students may elect more than one, provided different topics are studied.</td>
<td>Prereq: Department permission.</td>
<td></td>
</tr>
<tr>
<td>BIOL 387</td>
<td>Cooperative Education in Biology</td>
<td>3 hrs</td>
<td>Four or six months of full-time employment at an industrial firm or laboratory, specially chosen for imparting a practical educational experience in biology of technology. The program consists of two work experiences (BIOL 387 and BIOL 487) alternating with full-time attendance at the University. Admintittance to program by application only. Graded on a credit/no credit basis.</td>
<td>Prereq: Junior standing.</td>
</tr>
<tr>
<td>BIOL 403</td>
<td>Methods and Materials for Teaching Biology</td>
<td>3 hrs</td>
<td>A lecture-laboratory course providing knowledge, training and practice in the presentation of biological principles, analysis of texts, selection of course content, effective classroom methods, and preparation of classroom materials used in the teaching of biology. Does not count toward major or minor.</td>
<td>Prereq: BIOL 120 and Curr 305 and EDPS 340.</td>
</tr>
<tr>
<td>BIOL 410</td>
<td>Limnology</td>
<td>3 hrs</td>
<td>A lecture, laboratory and field course dealing with physicochemical and biological interrelationships in standing waters.</td>
<td>Prereq: BIOL 420; BIOL 310 and BIOL 311.</td>
</tr>
<tr>
<td>BIOL 412</td>
<td>Biogeography</td>
<td>3 hrs</td>
<td>A lecture course involving the descriptive and historical aspects of plant and animal distribution and the basic principles governing their natural distribution in both space and time.</td>
<td>Prereq: BIOL 120 and GESC 108 or GESC 202 or GEOL 160 or GEOL 161.</td>
</tr>
<tr>
<td>BIOL 413</td>
<td>Animal and Plant Preservation Techniques</td>
<td>1 hr</td>
<td>A laboratory, lecture and demonstration mini-techniques course in the preservation of biological specimens: minute, whole animal slide mounts, large animal and plant techniques, such as freeze-drying, pressing, skeleton making, study-skins and plastic embedding.</td>
<td>Prereq: Two biology courses at the 100, 200 or 300 level.</td>
</tr>
<tr>
<td>BIOL 415</td>
<td>Basic Histological Techniques</td>
<td>1 hr</td>
<td>A laboratory, lecture and demonstration mini-techniques course giving basic theory and practice in mammalian tissue slide preparation including dissection, fixation, dehydration, embedding, sectioning, affixing, and staining.</td>
<td>Prereq: Two biology courses at the 100, 200 or 300 level.</td>
</tr>
<tr>
<td>BIOL 420</td>
<td>General Ecology</td>
<td>4 hrs</td>
<td>A lecture, laboratory and field course introducing the concepts involved in the study of terrestrial and aquatic communities, their physical environment, and their integration into ecosystems. Emphasis on properties at the ecosystem, community and population levels.</td>
<td>Prereq: BIOL 120.</td>
</tr>
<tr>
<td>BIOL 435</td>
<td>Wetland Ecosystems</td>
<td>3 hrs</td>
<td>Advanced field ecology course in the theory and methods of study of wetland ecosystems.</td>
<td>Prereq: BIOL 420; or BIOL 310 and BIOL 311.</td>
</tr>
<tr>
<td>BIOL 436</td>
<td>Terrestrial Ecosystems</td>
<td>3 hrs</td>
<td>Advanced field ecology course in the theory and methods of study of structure and dynamics of terrestrial ecosystems.</td>
<td>Prereq: BIOL 420; or BIOL 310 and BIOL 311.</td>
</tr>
<tr>
<td>BIOL 461</td>
<td>Oncology</td>
<td>3 hrs</td>
<td>A lecture course on physico-chemico-biological agents and factors of non-human and human cancer etiology, pathogenesis of neoplastic transformation in vitro, biochemistry and immunobiology of cancer, host-tumor relationship, and “model systems” in control.</td>
<td>Prereq: MCIR 329.</td>
</tr>
<tr>
<td>BIOL 477/478/479 Special Topics</td>
<td>1/2/3 hrs</td>
<td>An examination of advanced topics in biology not covered in other departmental offerings.</td>
<td>Prereq: Department permission.</td>
<td></td>
</tr>
</tbody>
</table>
Biol 487 Cooperative Education in Biology 3 hrs
Four or six months of full-time employment at an industrial firm or laboratory specially chosen for imparting a practical educational experience in biology or technology. The program consists of two work experiences (Biol 387 and Biol 487) alternating with full-time attendance at the University. Admission to program by application only. Graded on a credit/no credit basis.
Prereq: Biol 387.

Biol 497/498/499 Special Problems in Biology 1/2/3 hrs
Individual work in some area of biology under direction of a staff member. Preliminary draft of proposed study must be approved by the department prior to enrollment. May be elected more than once, after resubmission and approval.
Prereq: Department permission.

Botany Courses

Biol 177/178/179 Special Topics 1/2/3 hrs
An examination of topics in botany not covered in other department offerings. Students may elect this course more than once, provided different topics are studied.
Prereq: Department permission.

Biol 209 Ornamental Plants 2 hrs
A general cultural course to acquaint students with ornamental shrubs and trees, common weeds and house plants. Stress on identification and methods of propagation. Much time is spent in the greenhouse and on short field trips.

Biol 215 Economic Botany 3 hrs
A study of plants useful to man, especially those that yield food, fibers, wood, rubber, drugs and other products of value, as a lecture-demonstration course supplemented by reading. Open to all students without prerequisite, though previous training in biology, botany or agriculture is desirable.

Biol 277/278/279 Special Topics 1/2/3 hrs
An examination of topics in botany not covered in other department offerings. Students may elect this course more than once, provided different topics are studied.
Prereq: Department permission.

Biol 234 General Field Botany 1 hr
This course stresses field identification and ecological relationships of the higher plants. There is much opportunity for practice in the use of taxonomic keys.

Biol 404 Mycology 3 hrs
A lecture-laboratory course on the study of molds, rusts, mildews, edible and poisonous mushrooms, and other fungi. Their life history, economic importance, method of identification, and preservation are considered.
Prereq: Biol 120.

Biol 412 Plant Anatomy 3 hrs
A basic lecture-laboratory course in plant histology emphasizing recognition of primary and secondary tissues as variously combined in root, stem, leaf and flower of a wide variety of representative seed plants.
Prereq: Biol 120.

Biol 442 Plant Physiology 3 hrs
A detailed study of major plant functions with emphasis on growth and development presented by lecture, demonstration, and experimentation in laboratory and greenhouse.
Prereq: Biol 320; or Biol 305 and Biol 306, and Chem 270 or Chem 372.

Biol 446 Medical Mycology 4 hrs
The medical and public health importance of diseases caused by fungi. Diagnostic methods and significant characteristics of the causative agents of mycoses are studied in this lecture-laboratory course. Fungi included are the contaminants, dermatophytes and yeasts.
Prereq: Micr 328 or Micr 329 or Biol 404.

Biol 450 Taxonomy and Ecology of Aquatic Vascular Plants 3 hrs
Field and laboratory work in identification of herbaceous and shrubby vascular plants growing in aquatic habitats and in both vegetative and reproductive phases. Counts as a taxonomic field course.
Prereq: Biol 120.

Biol 451 Freshwater Algae 3 hrs
A survey of the freshwater algal divisions; their morphology, taxonomy and economic importance. Lectures emphasize an evolutionary approach. Laboratory work stresses the identification of representative algal taxa. Class field collections are made. Counts as a taxonomic field course.
Prereq: Biol 120.

Biol 453 Taxonomy and Ecology of Diatoms 3 hrs
A taxonomic field course on the collection, preservation and identification of freshwater diatoms. A survey of the diatom genera and the common or ecologically important species. Emphasis is placed on developing a familiarity with the more significant world literature. Collection required. Counts as a taxonomic field course.
Prereq: Biol 451 or department permission.

Biol 455 Systematic Botany 3 hrs
Covers the essentials of the collection, identification and classification of flowering plants. The student will become familiar with the major plant groups, both from lecture and herbarium study and from field experience in varied habitats. Counts as a taxonomic field course.
Prereq: Biol 120.

Biol 477/478/479 Special Topics 1/2/3 hrs
An examination of topics in botany not covered in other department offerings. Students may elect this course more than once, provided different topics are studied.
Prereq: Department permission.

Biol 487 Cooperative Education in Botany 3 hrs
Four or six months of full-time employment at an industrial firm or laboratory specially chosen for imparting a practical educational experience in botany or technology. The program consists of two work experiences (Biol 387 and Biol 487) alternating with full-time attendance at the University. Admission to program by application only. Graded on a credit/no credit basis.
Prereq: Junior standing.
**Elementary Science Courses**

ESCI courses cannot be used to satisfy requirements of the biology major or the biology minor.

**BIOL 205 Field Biology**
- **4 hrs**
  - A lecture, laboratory, and field course in the behavior, ecology, and broad classification of plants and animals, giving training in recognition of common plants and animals of Michigan. Gives background material to the non-specialist interested in outdoor life, and to the elementary school teacher. Not open to students having credit in BIOL 110 and/or BIOL 120 except by department permission. Does not count toward the biology major or biology minor.

**ESCI 177/178/179 Special Topics**
- **1/2/3 hrs**
  - An examination of topics in elementary science not covered in other departmental offerings. Students may elect this course more than once, provided different topics are studied. 
  - **Prereq:** Department permission.

**ESCI 302 Elementary School Science**
- **3 hrs**
  - Intended for those planning to teach in the elementary grades. Prepares the student to organize the problems, collect the materials, and direct the activities of the elementary science class. Methods of presenting simple experiments to children and conducting field trips will be demonstrated. Two-hour lectures and one-two-hour laboratory. Not open to students who have taken ESCI 303.

**ESCI 303 Science for the Elementary Teacher**
- **3 hrs**
  - Important biological concepts, especially relating to the interrelationships of organisms within their environment; the investigative or "discovery" approach; current methodology involved in the new approaches to teaching science. One hour of lecture and four hours weekly involving recitation, laboratory, or fieldwork. Concluding course in the elementary science sequence. 
  - **Prereq:** CURR 304 and EDPS 340 and department permission.

**ESCI 377/378/379 Special Topics**
- **1/2/3 hrs**
  - An examination of topics in elementary science not covered in other departmental offerings. Students may elect this course more than once, provided different topics are studied. 
  - **Prereq:** Department permission.

**Microbiology Courses**

**MICR 277/278/279 Special Topics**
- **1/2/3 hrs**
  - An examination of topics in microbiology not covered in other departmental offerings. Students may elect this course more than once, provided different topics are studied. 
  - **Prereq:** Department permission.

**MICR 328 Introductory Microbiology**
- **3 hrs**
  - Introduction to the biology of bacteria and other microbes; transmission of infectious diseases; and principles of control, of, and immunity to infectious diseases. A lecture/lab course. Does not apply on the curriculum in clinical laboratory sciences or microbiology concentration in biology major, but will count as an elective on general biology concentration or biology minor. 
  - **Prereq:** BIOL 105 and CHEM 120 or ZOOL 202 or BIOL 120.

**MICR 329 General Microbiology**
- **5 hrs**
  - A laboratory and lecture course on the nature and biology of bacteria and other microbes, their physiological relationships in natural and controlled environments, and the interactions of pathogenic microorganisms with their hosts. Laboratory includes an introduction to the techniques of isolating, cultivating, and identifying bacteria and other microbes, and their physiological, serological and pathological properties. Not open to those who take MICR 328. CHEM 451 is highly recommended. 
  - **Prereq:** BIOL 301 and CHEM 270 or CHEM 372.

**MICR 333 Principles of Immunology**
- **3 hrs**
  - A lecture course presenting the theory and basic principles of immunology and serology including antigen-antibody reactions; immunoglobulins; cellular immunity; hypersensitivity. 
  - **Prereq:** MICR 329 or BIOL 320, or BIOL 305 and BIOL 306.

**MICR 335 Immunology and Serology Laboratory**
- **2 hrs**
  - A laboratory course designed to accompany or follow MICR 333. Theory and practice in serological techniques with emphasis on antigen-antibody reactions such as precipitation, agglutination, viral neutralization and complement fixation. Not open to those with credit in CLSC 335. 
  - **Prereq:** MICR 333 (if taken concurrently, students must register for MICR 333 first).

**MICR 340 Basic Virology**
- **3 hrs**
  - A basic lecture and laboratory course on physico-chemical-biological nature of bacteriophages and viruses causing diseases in animals and plants, including their transmission, infection, replication (both transcription/translation of either DNA or RNA), cultivation in vitro, titration, host-virus interaction and control. 
  - **Prereq:** MICR 329.

**MICR 377/378/379 Special Topics**
- **1/2/3 hrs**
  - An examination of topics in microbiology not covered in other departmental offerings. Students may elect this course more than once, provided different topics are studied. 
  - **Prereq:** Department permission.

**MICR 387 Cooperative Education in Microbiology**
- **3 hrs**
  - Four or six months of full-time employment at an industrial firm or laboratory specially chosen for imparting a practical educational experience in microbiology or technology. The program consists of two work experiences (MICR 387 and MICR 487) alternating with full-time attendance at the University. Graded on a credit/no credit basis. 
  - **Prereq:** MICR 329 and junior standing. Admittance to program by application only.

**MICR 442 Microbial Ecology**
- **3 hrs**
  - Interactions among microbes (fungi, bacteria, plagues), other living organisms, and the environment, with emphasis on parasitism, mutualism, competition, and biogeochemical recycling of matter. Includes both laboratory and field exercises. 
  - **Prereq:** MICR 329.
MICR 444 Microbial Physiology 3 hrs
A lecture and laboratory course of physiological studies on bacteria and fungi. Emphasis will be placed on nutrition, metabolism, fermentation, physiology of parasitism, and biosynthesis of polymers by microbes. CHEM 451 and CHEM 453 are highly recommended.
Prereq: MICR 329.

MICR 445 Food Microbiology 3 hrs
A lecture and laboratory course on the qualitative and quantitative nature of microbiology in relation to foods and food systems, behavior and detection of bacteria, toxin production, destruction of microbes by heat and other means, and food sanitation.
Prereq: MICR 328 or MICR 329.

MICR 452 Advanced Microbiology 4 hrs
A lecture and laboratory course to provide an in-depth study of the morphological, biochemical and genetic relationships of bacteria. Emphasis will be on physiological transformations carried out by autotrophic and heterotrophic organisms in their environment, regulation of growth, and advanced isolation and characterization techniques.
Prereq: MICR 444 and CHEM 451.

MICR 477/478/479 Special Topics 1/2/3 hrs
An examination of topics in microbiology not covered in other departmental offerings. Students may elect this course more than once, provided different topics are studied.
Prereq: Department permission.

MICR 487 Cooperative Education in Microbiology 3 hrs
Four or six months of full-time employment at an industrial firm or laboratory specially chosen for imparting a practical educational experience in microbiology or technology. The program consists of two work experiences (MICR 387 and MICR 487) alternating with full-time attendance at the University. Graded on a credit/no credit basis.
Prereq: MICR 387.

MICR 497/498/499 Special Problems 1/2/3 hrs
Individual work in an area of microbiology under direction of a staff member. Preliminary draft of proposed study must be approved by the department prior to enrollment. May be elected more than once, after resubmission and approval.
Prereq: Department permission.

Zoology Courses

ZOOL 177/178/179 Special Topics 1/2/3 hrs
An examination of zoology topics not covered in other departmental offerings. Students may elect this course more than once, provided different topics are studied.
Prereq: Department permission.

ZOOL 201 Human Anatomy and Physiology I 3 hrs
An intensive lecture and laboratory course investigating human anatomy and physiology with emphasis on both normal and pathological conditions, in a two-semester sequence. First semester will cover the basic structure and functions of the muscular, skeletal and nervous systems. Credit toward nursing and biology programs counts only if ZOOL 201 and ZOOL 202 are taken consecutively.
Prereq: CHEM 120 (if taken concurrently, students must register for CHEM 120 first).

ZOOL 202 Human Anatomy and Physiology II 3 hrs
An intensive lecture and laboratory course investigating human anatomy and physiology with emphasis on both normal and pathological conditions, in a two-semester sequence. The second semester will cover circulation, metabolism, the endocrine, digestive, excretory and reproductive systems, and the integration of the systems of the body.
Prereq: ZOOL 201.

ZOOL 222 General Zoology 4 hrs
A general survey of the groups of invertebrate and vertebrate animals according to the evolutionary sequence. Emphasis is placed upon the classification and structures, also on such aspects as physiology, life histories, habits, distribution and economic relations. Two one-hour lectures, one one-hour recitation, and four hours of audio-tutorial laboratory.
Prereq: BIOL 105 or high school biology.

ZOOL 223 Field Bird Study 1 hr
Identification of birds and their songs and nesting habits, studied in laboratory and field.

ZOOL 277/278/279 Special Topics 1/2/3 hrs
An examination of zoology topics not covered in other departmental offerings. Students may elect this course more than once, provided different topics are studied.
Prereq: Department permission.

ZOOL 300 Natural History of Invertebrates 3 hrs
A field course in the recognition, collection, identification and preservation of common invertebrates of Michigan, exclusive of the insects, with emphasis on their natural history, ecology and economic importance. Counts as a taxonomic field course.
Prereq: BIOL 120.

ZOOL 310 Natural History of Vertebrates 3 hrs
A survey of vertebrates, emphasizing their adaptations and their natural history. Laboratory work will stress the taxonomic classification, identification and distribution of local and other forms. Fieldwork will emphasize accurate observation and permanent recording of original data on local species. Counts as a taxonomic field course.
Prereq: BIOL 120.

ZOOL 317 Human Gross Anatomy 5 hrs
A lecture, demonstration and laboratory course on gross anatomy of the human body with emphasis on the extremities.
Prereq: BIOL 105 and department permission.

ZOOL 318 Laboratory in Human Anatomy 2 hrs
Laboratory with preparation and dissection of human cadaver by students. Designed to accompany lecture material in SPMD 200.
Coreq: SPMD 200.

ZOOL 323 Animal Embryology 3 hrs
Fundamental facts and principles of the reproduction and development of animals with laboratory studies of the frog, chicken, pig and other forms.
Prereq: BIOL 120.

ZOOL 326 Human Physiology 2 hrs
A study of the functioning of the human body. Lecture, laboratory and demonstration.
Prereq: BIOL 105 or BIOL 120.

ZOOL 366 Economic Zoology 2 hrs
A survey of the species and breeds of animals that are used as beasts of burden, and supply food, clothing, sport and recreation or serve as pets. A lecture course.
Prereq: One course in college zoology at the 100, 200 or 300 levels.

ZOOL 377/378/379 Special Topics 1/2/3 hrs
An examination of zoology topics not covered in other departmental offerings. Students may elect this course more than once, provided different topics are studied.
Prereq: Department permission.

ZOOL 387 Cooperative Education in Zoology 3 hrs
Four or six months of full-time employment at an industrial firm or laboratory specially chosen for imparting a practical educational experience in zoology or technology. The program consists of two work experiences (ZOOL 387 and
ZOOL 404 Mammalian Histology 3 hrs
A lecture/laboratory course dealing with the structure and properties of mammalian organs and their component tissues.
Prereq: BIOL 120.

ZOOL 417 Neuroanatomy 3 hrs
A lecture/laboratory course concerned with the study of the human nervous system, lesions and resulting disabilities.
Prereq: BIOL 120.

ZOOL 421 Entomology 3 hrs
A survey of the world of insects, their structure, function, behavior and ecology. The identification and classification of local insects will be stressed. A student field project will be required. Counts as a taxonomic field course.
Prereq: BIOL 120.

ZOOL 422 Ichthyology 3 hrs
A study of the biology, classification, distribution and evolution of fishes. Attention is given to the morphology, physiology, behavior, natural history and ecology of fishes through work in lecture, laboratory and in the field. Specific experience in the identification of the freshwater fishes of the Great Lakes region is provided in addition to a general survey of some marine fish families. Counts as a taxonomic field course.
Prereq: BIOL 120.

ZOOL 425 Ornithology 3 hrs
A course in bird biology for the secondary teacher and students with advanced interest in biology. Field identification and census methods will be used to introduce the study of bird populations, behavior and ecology. A survey of major North American bird families will be made in the laboratory. A student field project will be required. Counts as a taxonomic field course.
Prereq: BIOL 120.

ZOOL 427 Vertebrate Physiology 3 hrs
A detailed study of physiological phenomena of the vertebrate body at the cellular and organ level with laboratory experiments to illustrate. Organ-to-organ interaction is emphasized. One year of college physics is highly recommended.
Prereq: BIOL 320; or BIOL 305 and BIOL 306; and CHEM 270 or CHEM 372.

ZOOL 430 Invertebrate Zoology 4 hrs
Phylogenetic and anatomical study of one or more representative types from each phylum of invertebrates, with special emphasis on taxonomy, classical literature and current research. Three lectures and two two-hour labs weekly.
Prereq: BIOL 120.

ZOOL 431 Comparative Anatomy of Vertebrates 4 hrs
The anatomy of the vertebrate organ systems is studied on a comparative basis, which emphasizes the evolutionary development of the groups. Laboratory work includes detailed dissection of a shark and cat. Three one-hour lectures and two two-hour laboratory periods per week.
Prereq: BIOL 120.

ZOOL 437 Vertebrate Physiology 3 hrs
A lecture/laboratory course to study the functional processes of both terrestrial and aquatic insects and other major invertebrate groups. Builds upon a general understanding of physiology to compare the ways different invertebrates have evolved solutions to common physiological problems. In the laboratory, standard physiological research techniques will be used to demonstrate the lecture concepts. Some of these techniques will be applied in a student-designed research exercise and report. ZOOL 430 is highly recommended.
Prereq: BIOL 320; or BIOL 305 and BIOL 306; and CHEM 270 or CHEM 372.

ZOOL 439 Physiological Ecology 3 hrs
A lecture, laboratory and discussion course covering thermoregulation, metabolic rate, torpor, water flux, and specific adaptations for life in the cold, desert, high altitude and great depths. Laboratory work emphasizes computerized data acquisition.
Prereq: BIOL 320 or BIOL 305.

ZOOL 442 Parasitology 3 hrs
A survey of animal parasites that affect other animals including the human. Lecture and laboratory.
Prereq: BIOL 120.

ZOOL 447 Herpetology 3 hrs
The biology of amphibians and reptiles: taxonomy, origins and evolution, anatomy, adaptations, behavior, ecology, zoogeography. Local hibernating and spring-breeding populations will be studied in the field, including at night and during inclement weather and on two Saturday field trips. Laboratory work will cover dissection of a representative amphibian and reptile, and study of living and preserved specimens of extant orders and families and North American species. Counts as a taxonomic field course.
Prereq: BIOL 420; or BIOL 310 and BIOL 311.

ZOOL 447/478/479 Special Topics 1/2/3 hrs
An examination of zoology topics not covered in other departmental offerings. Students may elect this course more than once, provided different topics are studied.
Prereq: Department permission.

ZOOL 480 Protozoology 3 hrs
Survey of the protozoa with emphasis on their life cycles, morphology and ecology. Both free living and parasitic forms will be discussed. Techniques of collecting, culturing and preserving protozoans and their identification will be emphasized in the laboratory. Counts as a taxonomic field course.
Prereq: BIOL 120.

ZOOL 485 Mammalogy 3 hrs
Some aspects of the biology of mammals: origins and evolution, anatomy, classification, adaptations and zoogeography. Natural history and aspects of their ecology are studied in the field. A collection of study specimens of different species is required of each student. Counts as a taxonomic field course.
Prereq: BIOL 420; or BIOL 310 and BIOL 311; or ZOOL 310 or ZOOL 431.

ZOOL 487 Cooperative Education in Zoology 3 hrs
Four or six months of full-time employment at an industrial firm or laboratory specially chosen for imparting a practical educational experience in zoology or technology. The program consists of two work experiences (ZOOL 387 and ZOOL 487) alternating with full-time attendance at the University. Admission to program by application only. Grades on a credit/no credit basis.
Prereq: ZOOL 387.

ZOOL 497/498/499 Special Problems in Zoology 1/2/3 hrs
Individual work in some area of zoology under direction of a staff member. Preliminary draft of proposed study must be approved by the department prior to enrollment. May be elected more than once, after resubmission and approval.
Prereq: Department permission.

Degrees Offered
Bachelor of Arts
Bachelor of Science

Programs of Study

Majors
Chemistry for secondary education
General chemistry

Curricula
Professional chemistry
Professional biochemistry
General biochemistry
Biochemistry/toxicology

Minors
Chemistry
Chemistry for secondary, K-12, and special education-secondary
Biochemistry

Preprofessional Programs
Predentistry
Premedicine
Prepharmacy

Curriculum

The Department of Chemistry offers both professional and general level programs in chemistry and biochemistry, and a biochemistry/toxicology program. The department also administers preprofessional programs in dentistry, veterinary science and pharmacy. Although the premedicine program is not administered by the department, the biochemistry and chemistry curricula provide excellent preparation for a career in medicine.

Housed in the spacious Mark Jefferson Science Complex, the department has laboratories available for all areas of study. Major items of equipment include: research-quality UV, visible and Fourier-transform IR spectrophotometers; gas and high-performance liquid chromatographs; X-ray diffraction and fluorescence apparatus; preparative ultracentrifuges; flowmeters; a DTA-DSC-TGA thermal analysis system; a gas chromatograph-mass spectrometer; and a titration microcalorimeter. The department also has a Bruker 250 MHz superconducting nuclear magnetic resonance (NMR) spectrometer. In addition, a computer laboratory and specialized facilities and equipment for radiochemistry and cell culture are available.

The Department of Chemistry offers Honors Chemistry and Society, Honors General Chemistry I & II, Honors Quantitative Analysis, and Honors Organic Chemistry Laboratory. Eligibility for these courses is based on admission to the University's Honors Program, or the student's interest and performance in previous chemistry courses. Prospective candidates are selected by instructors and the Chemistry Honors Committee; or students may apply to the Honors Committee for permission to enroll in an honors course.

The department also offers graduate study leading to the master's degree in chemistry. The M.S. degree program is described in the graduate catalog.

Accreditation: The professional chemistry curriculum (with an appropriate selection of electives) is certified by the American Chemical Society.

Advising: For students desiring to pursue a program in chemistry available through either the undergraduate advising coordinator, an advisor identified on the adviser list in the Department of Chemistry office, or an area advising coordinator. A handbook for undergraduate chemistry students is available in the department office.

Professional Chemistry Curriculum
ISIS major code: C102

Advising
Please contact the following person for advising and additional program information.

Elva Mae Nicholson
225 Mark Jefferson
734.487.2052
E-mail: elva.mae.nicholson@emich.edu

This curriculum provides the necessary background for those planning to become professional chemists. With appropriate electives, it meets the requirements established by the American Chemical Society. Students successfully completing the curriculum are prepared to enter technical positions in industrial and governmental research, or to undertake graduate study in chemistry. The program includes a group minor composed of the required courses in mathematics and physics. No other minor is needed to meet graduation requirements.

For students planning graduate study in chemistry (especially organic chemistry), 10 hours of an equivalent reading knowledge of a foreign language, preferably German, are recommended.

General studies ........................................................................ 39 hours

E-mail: elvamae.nicholson@emich.edu

The general chemistry major is for those who seek a general cultural education with emphasis on chemistry, who are preparing for careers in health fields such as medicine or dentistry, or who are interested in a career combining chemistry with fields such as business, patent law, technical writing or industrial health and safety. Students planning to pursue a career as a professional chemist or who are interested in graduate training in chemistry should elect the professional chemistry curriculum.

The biochemistry/toxicology curriculum is designed to prepare students for employment in laboratories doing toxicology, testing in such fields as pharmaceutical chemistry, environmental studies, occupational health and safety, and forensic toxicology. This curriculum also provides preparation for students anticipating graduate study and a research career in toxicology and pharmaceutical-related fields. Included in the required courses is a group minor of biology, mathematics, and physics. No other minor is needed to meet graduation requirements.

*Required courses and electives in science and mathematics are listed below. Additional general education and elective courses totaling 124 hours are required to complete a degree.*

**General Studies** .............................................................. 39 hours
General education requirements .................................................. 37 hours
Physical education/graduation requirement ................................. 2 hours

**Biochemistry/toxicology Curriculum** .................................... 73 hours

Requirements ............................................................................. 73

- (The CHEM 371-CHEM 373 Organic Chemistry sequence may be substituted for CHEM 270-CHEM 271 survey of Organic Chemistry if a stronger background is desired.)

Elective courses .................................................................................................................. 3 hours

Three hours from courses numbered above 200 in chemistry.

Total .................................................................................................................................... 20 hours

NOTE:

#These courses satisfy both general education requirements and requirements of the minor. In order to avoid taking excess hours, students are advised to take these courses, or approved substitutes from another institution, as part of the general education requirements.

Chemistry Minor
Secondary, K-12, and Special Education-Secondary Teacher Certification
ISIS minor code: CH32

Successful completion of this minor, in the context of other program requirements, qualifies the student for recommendation for endorsement in chemistry, certification code "DC." The certification test covering this field is #18, "Chemistry.

Requirements ...................................................................................................................... 24 hours
- CHEM 121-CHEM 122 General Chemistry I with lab (satisfies general education requirement II.1 or II.3) ................................................................. 4
- CHEM 123 General Chemistry II ...................................................................................... 3
- CHEM 124 General Chemistry II Laboratory .................................................................. 1
- CHEM 270 Survey of Organic Chemistry ..................................................................... 4
- CHEM 271 Organic Chemistry Laboratory .................................................................... 1
- CHEM 281 Quantitative Analysis .................................................................................. 4
- (The CHEM 371-CHEM 373 Organic Chemistry sequence may be substituted for CHEM 270-CHEM 271 survey of Organic Chemistry if a stronger background is desired.)

Seven hours in chemistry from courses numbered above 200 .............................. 7

Total .................................................................................................................................... 24 hours

NOTE:

#These courses satisfy both general education requirements and requirements of the minor. In order to avoid taking excess hours, students are advised to take these courses, or approved substitutes from another institution, as part of the general education requirements.

Pre-Professional Programs

Pre-Dentistry
ISIS major code: CH07

Program Advising
Please contact the following person for advising and additional program information.

Timothy Brewer
225 Mark Jefferson
734.487.9613
E-mail: timothy.brewer@emich.edu

Most students select either a chemistry major and biology minor or a biology major and chemistry minor as preparation for admission to dental school. The exact requirements for a particular dental school can be found in the publication Admission Requirements of US and Canadian Dental Schools, available in the office of the pre-dentistry advisor.

The majority of pre-dental students complete four years of undergraduate work, earning a B.S. degree. Since admission to dental school is very competitive, it is recommended that alternative career plans be a part of every pre-dental student's program.

Students seeking admission to dental school take the Dental Aptitude Test, usually late in the junior year or early in the senior year. Application is generally made between August and December for the class beginning the following fall. Virtually all dental schools require the use of a central agency, the American Association of Dental Schools Application Service, when applying for admission.

Science courses required for admission into most dental schools are listed below. Careful scheduling will allow the student to complete these courses in three years.

Recommended courses
- CHEM 121-124 General Chemistry I-II with labs
- CHEM 371-373 Organic Chemistry I-II with lab
- PHY 221 Mechanics, Sound, and Heat
- PHY 222 Electricity and Light
- ZOOL 222 General Zoology
- and one other biology course
Dental Hygiene and Dental Assisting

Program Advising
Please contact the following person for advising and additional information.
Timothy Brewer
225 Mark Jefferson
734.487.9613
E-mail: timothy.brewer@emich.edu

Eastern Michigan University offers no degrees or certificates in these areas. Two-year certificates and four-year degree programs are available at the University of Michigan, Ferris State University, and the University of Detroit-Mercy. Two-year programs also are available at numerous community colleges.

Students interested in these programs should plan on transferring after completing their freshman year at EMU. Liberal arts preparation in English composition, speech, chemistry (CHEM 117-118 Fundamentals of Chemistry with lab), psychology, sociology and political science, plus electives in social science, natural science and humanities, generally will be transferable. More specific descriptions of requirements should be obtained by writing to the schools in question since requirements vary from school to school.

Pre-Mortuary Science
ISIS major code: CH08

Program Advising
Please contact the following person for advising and additional information.
Heather Holmes
225 Mark Jefferson
734.487.0106
E-mail: heather.holmes@emich.edu

The pre-mortuary science program requires two academic years. Before entering the professional mortuary school, the student must complete at least 60 hours of college work that includes the following science and mathematics courses:
CHEM 121-124 General Chemistry I and II with labs
BIOL 105 Introductory Biology for Non-majors
MATH 104 Intermediate Algebra or other mathematics elective
PSY 101 General Psychology

The Board of Examiners in Mortuary Science recommends use of some elective hours for courses in the following areas (suggested appropriate courses in parentheses):
Behavioral sciences (PSY 225 Psychology of Religion, PSY 323 Psychology of Human Aging; SOCL 105 Introductory Sociology, SOCL 311 Social Gerontology)
Business (LAW 293 Legal Environment of Business; ACC 240 Principles of Accounting I; ECON 200 The American Economy, #ECON 201 Principles of Economics I [satisfies general education requirement III.3]; MKTG 360 Principles of Marketing, MKTG 363 Retailing)
Counseling (CSAP 450 An Introduction: Counseling Concepts and Skills, with permission)
First aid (HLED 210 Standard American Red Cross First Aid)
Public speaking (#CTAS 121/CTAS 124 Fundamentals of Speech [satisfies general education requirement I.3], #CTAC 225 Listening Behavior [satisfies general education requirement I.3], #CTAC 226 Nonverbal Communication [satisfies general education requirement I.3], #CTAC 227 Interpersonal Communication [satisfies general education requirement I.3])

Pre-Pharmacy
ISIS major code: CH09

Program Advising
Please contact the following person for advising and additional information.
Steven J. Pernecky
225 Mark Jefferson
734.487.0106
E-mail: steve.pernecky@emich.edu

Two years of college work (60 transferable hours, including the courses listed below) are required for admission to a professional school of pharmacy. Some schools have additional required or recommended courses.

Programs in pharmacy require two to four additional years of study after acceptance into the program. Clinical experience is required for some, especially doctoral programs.

Recommended courses:
CHEM 121-124 General Chemistry I-II with labs
CHEM 371-372 Organic Chemistry I-II with lab
One semester of biology with lab (some schools require additional courses)
#MATH 20 Calculus I (satisfies general education requirement I.4)
#ENG 121 English Composition (satisfies general education requirement I.1) plus two social science courses and two humanities courses (two foreign language courses may be substituted for the humanities courses).

Chemistry Courses

CHEM 101 Science for Elementary Teachers
3 hrs
Designed for students who plan to teach in elementary school. Lectures deal with some basic principles of chemistry while the laboratory work emphasizes the discovery approach as it may be used in an elementary classroom. Simple equipment and easily obtained chemicals are used in the experiments. Does not count toward major or minor. Lecture: two hours per week. Laboratory: two hours per week.

CHEM 115 Chemistry and Society
3 hrs
Examines the relevance of chemistry to the problem of how humans relate to the environment. It is designed for humanities and other non-science majors. No previous mathematics or chemistry is required. CHEM 115 may be taken concurrently to satisfy the laboratory science requirement for General studies. Does not count toward major or minor. Lecture: three hours per week.

CHEM 116 Chemistry and Society Laboratory
1 hr
Laboratory experiments based on environmental problems such as water and air pollution. Drugs and pesticides. The laboratory may be taken concurrently with CHEM 115 to satisfy the Area II physical science requirement. Does not count toward major or minor. Laboratory: two hours per week.
Prereq or Coreq: CHEM 115.

CHEM 117 Fundamentals of Chemistry-Lecture
3 hrs
A rapidly moving introductory study of basic principles in general chemistry. Includes elements, compounds, periodic properties, atomic structure, gas laws and stoichiometry. Does not count toward major or minor. Can be used with CHEM 118 to satisfy the chemistry prerequisite for CHEM 121. Will satisfy Area II physical science requirement when taken concurrently with CHEM 118. Lecture: three hours per week.
Prereq: MATH 104 or MATH 105 or MATH 107 or MATH 112 or MATH 118 or MATH 119 or MATH 129 or Level 4 math placement. Coreq: CHEM 118.

CHEM 118 Fundamentals of Chemistry Laboratory
1 hr
Designed to accompany CHEM 117 lecture. Will provide an introduction to scientific discovery through experimentation and observation. Experiments are
drawn from topics presented in the chemistry lectures in CHEM 117. Does not count toward major or minor. Lecture: two hours per week.
PreReq: CHEM 117.

CHEM 120 Fundamentals of Organic and Biochemistry 4 hrs
A survey of organic chemistry and biochemistry; completes the study of chemistry begun in CHEM 117-CHEM 118 and is a terminal course. Does not count toward major or minor. Lecture: three hours per week; Laboratory: two hours per week.
PreReq: High school chemistry.

CHEM 121 General Chemistry I 3 hrs
The first semester of a two-semester sequence covering the principles of chemistry for science majors and others with an interest and background in science. Lecture: three hours per week.
PreReq: MATH 104, MATH 105, MATH 107, MATH 112, MATH 118, MATH 119, MATH 120, or Level 4 placement. High school chemistry; Coreq: CHEM 122.

CHEM 122 General Chemistry I Laboratory 1 hr
The laboratory class to accompany CHEM 121. Students learn basic techniques employed in a chemistry laboratory, including use of analytical balances, quantitative glassware, spectrophotometry, and computers for data acquisition and analysis. Laboratory: three hours per week.
Coreq: CHEM 121.

CHEM 123 General Chemistry II 3 hrs
A continuation of the two-semester sequence covering the general principles of chemistry for science majors and others with an interest and background in science. Lecture: three hours per week. Restriction: "C-" or better in CHEM 121.
PreReq: CHEM 121 and CHEM 122; and MATH 105 or MATH 112 or MATH 119 or MATH 120 or Level 5 math placement. Coreq: CHEM 124.

CHEM 124 General Chemistry II Laboratory 1 hr
The techniques learned in CHEM 122 are reemphasized and supplemented. Laboratory: three hours per week. Restriction: "C-" or better in CHEM 122.
Coreq: CHEM 123.

CHEM 125 Honors General Chemistry II (Lecture) 3 hrs
A continuation of CHEM 121 General Chemistry for students of superior ability. The sequence of CHEM 121, CHEM 122, CHEM 125 and CHEM 126 can constitute the customary year of general chemistry. Lecture: three hours per week.
PreReq: CHEM 121 and CHEM 122; and MATH 105 or MATH 112 or MATH 119 or MATH 120 or Level 5 math placement; and consent of Honors Committee. Coreq: CHEM 126.

CHEM 126 Honors General Chemistry II (lab) 1 hr
The laboratory to accompany CHEM 125. The techniques learned in CHEM 122 are reemphasized and supplemented. Preparation of a laboratory notebook is required. The sequence of CHEM 121, CHEM 122, CHEM 125 and CHEM 126 can constitute the customary year of general chemistry. Laboratory: three hours per week.
Coreq: CHEM 125.

CHEM 177/178/179 Special Topics 1/2/3 hrs
Covers specific chemistry topics not discussed in any regular, introductory chemistry course.
PreReq: Department permission.

CHEM 232 Inorganic Chemistry 2 hrs
Descriptive inorganic chemistry; properties and reactions of the elements and their compounds are correlated with the periodic table, atomic structures, and basic chemical principles. Lecture: two hours per week.
PreReq: CHEM 123-CHEM 124, or CHEM 125-CHEM 126.

CHEM 241 Materials Science 3 hrs
Considers the relation of composition and structure to properties of materials: metals, plastics, ceramics, glasses, and composites. Lecture: three hours per week.
PreReq: CHEM 123-CHEM 124, or CHEM 125-CHEM 126; PHY 221/PHY 223.

CHEM 242 Materials Science Laboratory 1 hr
Measurement of mechanical properties and investigation of crystal structures, microstructures, imperfections and transformations (solidification, recrystallization, solid phase changes and corrosion) of materials. Laboratory: three hours per week.
Coreq: CHEM 241.

CHEM 270 Survey of Organic Chemistry 4 hrs
A comprehensive one-semester survey course in organic chemistry. Includes aliphatic and aromatic compounds plus functional group chemistry. Chemistry majors and other students requiring a full-year sequence of organic chemistry should enroll in CHEM 371 and CHEM 372. Lecture: four hours per week.
PreReq: CHEM 121-CHEM 122.

CHEM 271 Organic Chemistry Laboratory 1 hr
Instruction in the basic manipulative techniques of experimental organic chemistry and experience with organic chemicals. Laboratory: three hours per week.
PreReq or coreq: CHEM 270.

CHEM 277/278/279 Special Topics 1/2/3 hrs
Covers specific chemistry topics not discussed in any regular chemistry course at this level.
PreReq: One 100-level chemistry course and department permission.

CHEM 281 Quantitative Analysis 4 hrs
A lecture and laboratory course treating instrumental, gravimetric, and volumetric analysis, and equilibrium. Lecture: two hours per week. Laboratory: six hours per week.
PreReq: CHEM 123-CHEM 124, or CHEM 125-CHEM 126.

CHEM 282 Honors Quantitative Analysis 4 hrs
A lecture and laboratory course treating instrumental, trace, separation and characterization techniques. Lecture: two hours per week. Laboratory: six hours per week.
PreReq: CHEM 123 or CHEM 125; and CHEM 124 or CHEM 126; and consent of Honors Committee.

CHEM 287/288/289 Cooperative Education in Chemistry 1/2/3 hrs
Full- or part-time employment at an industrial, federal or state agency chemistry laboratory providing an applied experience in chemistry. Amount of credit granted determined by the nature of job responsibilities and/or duration of placement. Graded on a credit/no-credit basis. No credit granted toward chemistry degree programs, except with departmental permission.
PreReq: CHEM 121-CHEM 124, or CHEM 125-CHEM 126. Admission by application only. Sophomore standing.

CHEM 297 Undergraduate Research in Chemistry 1 hr
An independent, original endeavor involving laboratory and/or library study under the guidance of a chemistry faculty member. A formal written report is required at the end of the semester.
PreReq: Department permission.

CHEM 340 Introduction to Industrial Chemistry 3 hrs
Discussion of the important aspects of the manufacture and chemistry of the major organic and inorganic chemicals and their use through commercially available products such as polymers. Includes environmental and economic aspects of industry. Lecture: three hours per week.
PreReq: CHEM 123 or CHEM 125; and CHEM 124 or CHEM 126; and CHEM 270 or CHEM 372.

CHEM 351 Foundations of Biochemistry 4 hrs
Deals with biological structures and the interactions that confer activity upon biological molecules. Metabolism and synthesis of biological molecules, and
the controls that integrate the various processes at the molecular and cellular level are presented. Bioenergetics, including equilibria, catalysis, and the production utilization of biological forms of energy, are discussed. Not open to freshman and graduate students.

Prereq: CHEM 270 or CHEM 372

CHEM 361 Fundamentals of Physical Chemistry Calculus-based introduction to quantum mechanics, thermodynamics and kinetics. Serves as survey course for general curricula and major, and as the first course of the physical chemistry sequence in the professional curricula (CHEM 361, CHEM 365, CHEM 465). Lecture: three hours per week.

Prereq: CHEM 123-CHEM 124 or CHEM 125-CHEM 126, MATH 120, PHY 223. Coreq: CHEM 362 and CHEM 361 recommended.

CHEM 365 Physical Chemistry Laboratory Determination of the physical properties of substances, rate studies, and measurement of the thermochemical properties. Emphasis on scientific report writing and oral presentation of work. Laboratory: six hours per week. Restrictions: "C-" or better in CHEM 361.

Prereq: CHEM 281 or CHEM 282 and CHEM 361, and PHY 224.

CHEM 371 Organic Chemistry I The first semester of a two-semester sequence covering the general principles of organic chemistry for students specializing in science and those preparing for dentistry or medicine. Lecture: three hours per week. Not open to those with credit in CHEM 270.

Prereq: CHEM 123-CHEM 124, or CHEM 125-CHEM 270.

CHEM 372 Organic Chemistry II A continuation of CHEM 371. CHEM 371 and CHEM 372 constitute the customary year of foundation lecture work in organic chemistry. Lecture: three hours per week. Restriction: "C-" or better in CHEM 371.

Prereq: CHEM 371.

CHEM 373 Organic Chemistry Laboratory Covers the basic techniques involved in organic chemistry. Laboratory: six hours per week.

Prereq or coreq: CHEM 372.

CHEM 376 Honors Organic Chemistry Laboratory Covers the basic techniques involved in organic chemistry for students of superior ability. The sequence of CHEM 371, CHEM 372, and CHEM 376 can constitute the customary year of organic chemistry. Laboratory: six hours per week.

Prereq or coreq: CHEM 372 and consent of Honors Committee.

CHEM 377/378/379 Special Topics Covers specific chemical topics not discussed in any regular chemistry course at this level.

Prereq: Department permission.

CHEM 381 Instrumentation for Chemical Technology A lecture and laboratory course that surveys various types of analytical instrumentation and their uses in chemical industry. Lecture: one hour per week. Laboratory: three hours per week.

Prereq: CHEM 281, CHEM 270 or CHEM 372, and CHEM 271 or CHEM 373, or equivalent.

CHEM 387/388/389 Cooperative Education in Chemistry Full- or part-time employment at an industrial, federal or state agency chemistry laboratory providing an applied experience in chemistry. Amount of credit granted determined by the nature of job responsibilities and/or duration of placement. Graded on a credit/no-credit basis. For junior-level students: No credit granted toward chemistry degree programs, except with department permission.

Prereq: Junior standing.

CHEM 397 Undergraduate Research in Chemistry An independent, original endeavor involving laboratory and/or library study, under the guidance of a chemistry faculty member. A formal written report is required at the end of the semester.

Prereq: Department permission.

CHEM 411 Toxicology I An introduction to the principles and methods of toxicology. Special cases of toxic response including carcinogenesis, teratogenesis and mutagenesis, and the effects of radiation are discussed. Lecture: two hours per week.

Prereq: CHEM 270 or CHEM 372.

CHEM 412 Toxicology II Discussion of the metabolism of toxicants and their effect on specific organ systems; specific classes of toxicants and legal aspects of toxicology. Lecture: two hours per week.

Prereq: CHEM 411. Biochemistry recommended.

CHEM 413 Toxicology Laboratory A lecture and laboratory covering the techniques employed in a toxicology laboratory including methods of calculation, interpretation and presentation of experimental data. The theory and practical aspects of toxicological procedures will be discussed. Lecture: one hour per week. Laboratory: three hours per week.

Prereq: CHEM 411. CHEM 281 recommended.

CHEM 414 Regulatory Toxicology This lecture course reviews the major environmental laws, building a framework for understanding their intent and application. Lecture: two hours per week.

Prereq: CHEM 270 or CHEM 372.

CHEM 415 Environmental Chemistry A survey of environmental and energy-related problems and the ways in which chemistry may be applied to them. Important topics include air and water pollution, energy and other resources, solid wastes and recycling, and toxic chemicals. Lecture: three hours per week. A course in organic chemistry and/or quantitative analysis is recommended.

Prereq: CHEM 123 or CHEM 125, and CHEM 124 or CHEM 126.

CHEM 432 Advanced Inorganic Chemistry An advanced-level treatment of the newer inorganic chemical developments, with emphasis on theoretical advances in the interpretation of bonding and reactivity of inorganic compounds. Lecture: three hours per week.

Prereq: CHEM 465 or department permission. CHEM 432 also is recommended.

CHEM 433 Inorganic-Organic Synthesis Laboratory Covers advanced preparative and analytical techniques of inorganic and organic chemistry including extensive use of IR, NMR, UV-visible and other instruments. Laboratory: six hours per week.

Prereq: CHEM 281 or CHEM 282, and CHEM 373 or CHEM 376.

CHEM 451 Biochemistry I Chemistry of biologically significant compounds such as proteins, nucleic acids, carbohydrates and lipids. Enzymes are introduced, bioenergetics is discussed and the most central topics of metabolism are outlined. This course is intended as a one-semester survey of biochemistry for health science students and as the first semester of one-year course for chemistry, biology and toxicology students. Lecture: three hours per week.

Prereq: CHEM 123 or CHEM 124 and CHEM 125 or CHEM 126, and CHEM 270 or CHEM 372, or equivalent.

CHEM 452 Biochemistry II Continues the survey of biochemistry begun in CHEM 451. Membranes and transport, enzyme kinetics, further topics in metabolism, replication, transcription, translation and regulation of cell processes are discussed. Lecture: three hours per week. Restrictions: "C-" or better in CHEM 451.

Prereq: CHEM 451.
CHEM 453 Biochemistry Laboratory  
2 hrs  
Emphasis on the special analytical techniques employed by biochemists, such as chromatography, electrophoresis, fluorimetry, spectrophotometry, and on laboratory report writing. Laboratory: four hours per week.  
Prereq: CHEM 271 or CHEM 373, or equivalent and CHEM 281 strongly recommended. Coreq: CHEM 451 or CHEM 452.

CHEM 465 Quantum and Statistical Mechanics  
3 hrs  
The study of quantum mechanics and its application to atomic structure, molecular bonding and spectroscopy. An introduction to statistical mechanics and modern theories of the rate constant. Lecture: three hours per week.  
Prereq: CHEM 261 and MATH 223 and PHY 224.

CHEM 475 Introduction to Polymer Chemistry  
3 hrs  
An emphasis on the organic chemistry involved in the preparation of synthetic high polymers. Topics include: chain-growth vinyl polymers, step-growth polymerization, copolymerization, cationic and anionic polymerization, and complex coordination catalysts. Lecture: three hours per week.  
Prereq: CHEM 279 or CHEM 372.

CHEM 477/478/479 Special Topics  
1/2/3 hrs  
Covers specific chemistry topics not discussed in any regular chemistry courses at this level.  
Prereq: Department permission.

CHEM 481 Instrumental Analysis  
4 hrs  
Theory and practice of chemical analysis and measurements and data processing by instrumental methods. Lecture: two hours per week. Laboratory: six hours per week.  
Prereq: CHEM 281 or CHEM 282; and CHEM 365; and CHEM 465.

CHEM 485 Introduction to Radiotracer Techniques  
2 hrs  
Measurement of radiation and principles of radiation safety; experiments with emphasis on beta and gamma-ray counting and handling radioactivity. Lecture: one hour per week. Laboratory: three hours per week.  
Prereq: CHEM 125-CHEM 124, or CHEM 125-CHEM 126, and either CHEM 281 or one science laboratory course above the 200 level, or department permission.

CHEM 487/488/489 Cooperative Education in Chemistry  
1/2/3 hrs  
Full- or part-time employment at an industrial, federal or state agency chemistry laboratory providing an applied experience in chemistry. Amount of credit granted determined by the nature of job responsibilities and/or duration of placement. Graded on a credit/no credit basis. For senior-level students.

CHEM 497/498/499 Undergraduate Research in Chemistry  
1/2/3 hrs  
Independent, original endeavors involving extensive library and/or laboratory study, under the guidance of a chemisty faculty member. A formal written report is required at the end of the semester.  
Prereq: Department permission.

Communication and Theatre Arts

E-mail: dennis.beagen@emich.edu

Degrees Offered  
Bachelor of Arts  
Bachelor of Science

Programs of Study  
Majors and Curricula  
Arts management curriculum

Communication
Comprehensive major in communication and theatre arts (Areas of concentration: communication, interpretation/performance studies, speech improvement, telecommunications and film, and theatre arts and educational drama)

Interdisciplinary major in children's literature and drama/theatre for the young (administered by the English Department)

Interdisciplinary major in public relations

Speech for secondary education

Telecommunications and film

Theatre arts

Minors

Communication

Comprehensive minor in communication and theatre arts

Comprehensive minor in communication and theatre arts for secondary, K-12, and special education-secondary

Dramatheatre for the young

Dramatheatre for the young elementary

MUSICAL theatre

Telecommunications and film

Theatre arts

Joint program with the Interdisciplinary Technology Department

Communication technology curriculum

Curriculum

The Department of Communication and Theatre Arts provides students with communication and performance skills fundamental to careers in broadcasting, theatre, teaching, public relations, sales, and related professions as law and the ministry. Communication theory and practice are explored in various courses offerings in interpersonal, small group, organizational and public communication. Production and performance theories and techniques emphasized in telecommunications and film studies are enhanced by practical experiences at two radio stations (WEMU-FM and WQDR), in closed-circuit TV studios, and through internships and co-ops in the professional field. The arts management and communication technology curricula require business studies in addition to aesthetic and pragmatic communication skills. All the department's programs, including forensics, interpretation/performance studies, theatre arts, and dramatic productions for the young, provide students with opportunities for developing such personal qualities as creativity, leadership, self-expression and social responsibility.

Advising is initiated by students with a personal adviser who shares the student's interests and objectives. Coordinators should be consulted by each prospective major or minor student.

Advising Coordinators:

Arts management curriculum: Kenneth Stevens

Communication major and minor: Gary Evans, Chris Foreman, Dennis Grady, Sally McCracken, Kathleen Stacey

Comprehensive major and minor for elementary and secondary education: Judy Sturgis-Hill, Ray Quetl, Michael Tew, Patricia Zimmer

Communication technology curriculum: Henry A. Aldridge

Comprehensive major and minor in communication and theatre arts: Lee Stille, Michael Tew, Patricia Zimmer

Drama/theatre for the young minor: Jessica Alexander, karen Smith-Meyer, Patricia Zimmer

Interdisciplinary major in children's literature and drama/theatre for the young: Karen Smith-Meyer, Jessica Alexander

Interdisciplinary major in public relations: Mary Ann Watson

Interpretation/performance studies: Annette Martin, Anita Rich

Musical theatre minor: Kenneth Stevens, Pirooz Aghsaa

Telecommunications and film major and minor: Henry Aldridge, John Cooper, Geoffrey Hummel

Theatre arts major and minor: Wallace Bridges, Kerry Graves, Katherine
Graduate study leads to a master of arts in communication; a master of arts emphasizing interpretation/performance studies; a master of arts in drama/theatre for the young, or a master of fine arts in drama/theatre for the young; and a master of arts in theatre arts. For descriptions of graduate courses and programs in the Department of Communication and Theatre Arts, consult the graduate catalog.

Arts Management Major

ISIS major code: CT01

The arts management curriculum provides career training and practical experience for those with a passion for the arts and whose talents are in the field of administration and/or marketing. The arts manager not only must develop a variety of management skills but also must maintain a high degree of sensitivity to aesthetics.

Students are provided a broad background in all of the arts with an opportunity to study a specific art in more depth. Additionally, each student gains vital practical experience working in the arts during internships on the University campus and in an approved off-campus professional theatre or arts institution.

Training in the arts is combined with the development of skills in accounting, advertising, personnel management, labor relations, and various other areas of business through a program of study that includes management and marketing. Graduates are equipped to enter the arts management field or to pursue further study in arts administration.

Because the arts management field is relatively new and rapidly changing, it is advantageous for the student to maintain regular contact with an adviser during their entire program to avoid unnecessary difficulties before and after completion of the program. Arts institutions vary in their personnel needs.

EMU's arts management curriculum is divided into four sections: general education requirements, arts management major, a management or marketing minor (see College of Business) and two internships.

General studies .......................................................... 47 hours

| General education requirements | 45 hours |
| Physical education/graduation requirement | 2 hours |

Arts management major .................................................. 39 hours

| Requirements | 23 hours |
| Arts fundamentals | 15 hours |

#CTAR 150 Introduction to Theatre (satisfies general education requirement IV.4) (3)

CTAR 155 Producing Theatre (3)

#FA 107 Art History Survey I (satisfies general education requirement IV.4) (3)

#FA 108 Art History Survey II (satisfies general education requirement IV.4) (3)

#MUSC 107 Music Appreciation (satisfies general education requirement IV.4) (2)

PEGN 161 Modern Dance (1)

Media and arts management .............................................. 8 hours

CTAT 334 Radio-Television News (3)

CTAR 452 Arts Management (2)

JRN 215 Journalism (3)

Restricted elective courses .............................................. 8 hours

One course from each of the following areas: academic dance, art, music, theatre.

Recommended elective courses ......................................... 8 hours

CTAR 453 Marketing the Arts

CTAR 454 Law, Public Policy, and the Arts

A course in technical theatre

Internships

Two are required for this major: a one-semester, on-campus internship and a one-semester practicum with an approved off-campus arts institution. Application procedures and minimum requirements for credit should be obtained from the advising coordinator not later than the first semester of the junior year.

On-campus internships are approved part-time work as a member of the management staff of such EMU arts institutions as the Ford Gallery or EMU Dancers.

Practica are available to the junior/senior-level student who has a minimum GPA of 2.5 in the arts management curriculum.

Minor................................................................. 20 hours

Select from either management or marketing in consultation with the arts management advising coordinator.

Elective courses ........................................................ 16 hours

Total ............................................................... 124 hours

Note: These courses satisfy both general education requirements and requirements of the major. In order to avoid taking excess hours, students are advised to take these courses, or approved substitutes from another institution, as part of the general education requirements.

Communication Major

ISIS major code: CT02

General studies .......................................................... 41 hours

| General education requirements | 39 hours |
| Physical education/graduation requirement | 2 hours |

Communication major .................................................. 35 hours

| Requirements | 23 hours |
| One course from the following | 2 courses |

#CTAS 121 Fundamentals of Speech (satisfies general education requirement I.2) (3)

#CTAS 124 Fundamentals of Speech (satisfies general education requirement I.2) (3)

One course from the following | 3 |

#CTAC 224 Public Speaking (satisfies general education requirement I.3) (3)

#CTAC 350 Persuasion (satisfies general education requirement I.3) (3)

#CTAC 227 Interpersonal Communication (satisfies general education requirement I.3) (3)

CTAC 354 Organizational Communication (3)

CTAC 359 Small Group Communication (3)

One course from the following | 3 |

#CTAC 374 Intercultural Communication (satisfies general education requirement I.3 and the cross-cultural/international studies requirement) (3)

#CTAC 375 Intercultural/Interracial Communication (satisfies general education requirement I.3 and the cross-cultural/international studies requirement) (3)

Two courses from the following | 6 |

CTAC 440 Survey of Public Address (3)

CTAC 460 Theories of Speech Criticism (3)

CTAC 475 Research in Speech Communication (3)

CTAC 485 Theories of Speech Communication Behavior (3)

Restricted elective courses ............................................. 12 hours

12 hours from the list of restricted elective courses below that were not selected as the basic requirements

#CTAC 224 Public Speaking (satisfies general education requirement I.3) (3)

#CTAC 225 Listening Behavior (satisfies general education requirement I.3) (3)

#CTAC 226 Nonverbal Communication (satisfies general education requirement I.3) (3)

CTAC 350 Persuasion (3)

CTAC 352 Communication in Negotiation (3)

CTAC 356 Argumentation and Debate (3)
CTAC 357 Interviewing at Communication (3)
CTAC 360 Gender Communication (3)
CTAC 372 Assertive Communication (3)
CTAC 373 Family Communication (3)

### Comprehensive Major in Communication and Theatre Arts

**ISIS major code:** CT83

The comprehensive major allows each student to develop a variety of communication skills with one or two areas of concentration (12 to 18 hours each). Within the 36 hours, at least six hours must be in 300- and 400-level courses. Majors should plan their course selections carefully with the departmental advising coordinator and present a copy of this plan to Academic Records and Certification when requesting senior checkout.

#### General studies

- **General education requirements:** 37 hours
- **Physical education/graduation requirement:** 2 hours
- **Comprehensive major requirements:** 36 hours

#### Elective courses

- **One course from the following:** 2-3 hours
  - #CTAS 121 Fundamentals of Speech (satisfies general education requirement I.2) (2)
  - #CTAS 124 Fundamentals of Speech (satisfies general education requirement I.2) (3)
- **Restricted elective courses:** 15 hours
  - At least three credits in five of the six following concentrations (communication, interpretation/performance studies, speech improvement, telecommunication and film, theatre arts, and educational drama): Communication

#### Comprehensive major in communication and theatre arts

- **Total:** 124 hours

#### Theatre arts and educational drama

- **Total:** 9-15 hours

**Concentration**

At least one concentration (above) selected in consultation with advising coordinator (hours here are in addition to the restricted elective courses above)

- **Elective courses:** 3-10 hours

### Restricted requirement

- **Total:** 124 hours

#### Minor

- **Total:** 20 hours

### Elective courses

- **Total:** 29 hours

### Total

- **Total:** 124 hours

#### NOTE:

These courses satisfy both general education requirements and requirements of the major. In order to avoid taking excess hours, students are advised to take these courses or approved substitutes from another institution as part of the general education requirements.
these courses, or approved substitutes from another institution, as part of the general education requirements.

Telecommunications and Film Major
ISIS major code: CT04

General studies .......................................................... 47 hours
General education requirements ...................................... 45 hours
Physical education/graduation requirement ......................... 2 hours
Telecommunications and film major ................................. 30 hours

Requirements ............................................................ 11 hours
CTAT 130 Introduction to Telecommunications and Film ....... 3
CTAT 131 Introduction to Audio Production and Direction ....... 2
CTAT 132 Introduction to Video Production and Direction ...... 2
One course from the following: ........................................ 5
#CTAT 145 Introduction to Film Appreciation (satisfies
general education requirement IV.4) (3)
CTAT 236 History and Criticism of Radio and Television (3)
One course from the following: ........................................ 1
CTAA 165 Television Laboratory (1)
CTAA 169 Radio Station WQBR (1)

Restricted elective courses ............................................. 16 hours
Production courses ..................................................... 6 hours
Six hours from the following, at least three must be at the
300 or 400 level ... .................................................. 6
CTAT 231 Audio Recording Techniques
CTAT 241 Radio-Television-Film Announcing
CTAT 331 Fundamentals of Radio Production and Direction
CTAT 332 Fundamentals of Television Production and Direction
CTAT 333 Fundamentals of Film Production and Direction
CTAT 341 Radio-Television-Film Dramatic Performance
CTAT 431 Advanced Radio Production and Direction
CTAT 432 Advanced Television Production and Direction
CTAT 433 Advanced Film Production and Direction

Writing courses .......................................................... 3 hours
One course from the following: ........................................ 3
CTAT 334 Radio-Television News
CTAT 344 Continuity Writing for Radio-Television-Film
CTAT 360 Dramatic Composition

Theory courses .......................................................... 6 hours
Six hours from the following, at least three must be at the
400 level ... .......................................................... 6
#CTAT 145 Introduction to Film Appreciation (satisfies
general education requirement IV.4)
CTAT 236 History and Criticism of Radio and Television
CTAT 335 Studies in Film
CTAT 336 Studies in Telecommunications
CTAT 445 Film Theory and Criticism
CTAT 446 Contemporary Problems in Telecommunications
CTAT 447 Radio-Television Station Management
CTAT 479 Special Topics (must be approved by adviser)

Internship or cooperative education ............................ 1-3 hours
CTAT 487/488/489 Internship in Radio-TV-Film
CTAT 387/388/389 Cooperative Education in Radio-TV-Film

Elective courses ........................................................ 3 hours
Three hours from telecommunication and film and the remaining
hours from communication and theatre arts excluding CTAS 121 or
CTAS 124 Fundamentals of Speech or Journalism courses.

Minor ................................................................. 20 hours
Elective courses ....................................................... 27 hours
Total ................................................................. 124 hours

NOTE:
#This course satisfies both general education requirements and requirements of
the major. In order to avoid taking excess hours, students are advised to take
this course, or an approved substitute from another institution, as part of the
general education requirements.

Theatre Arts Major
ISIS major code: CT05

General studies .......................................................... 47 hours
General education requirements ...................................... 45 hours
Physical education/graduation requirement ......................... 2 hours
Theatre arts major ................................................... 36 hours

Requirements ............................................................ 31 hours
#CTAR 150 Introduction to Theatre (satisfies general education
requirement IV.4) ...................................................... 3
(may be bypassed by examination or interview for no credit)
CTAR 152 Technical Theatre: Scenery and Lighting ......... 2
CTAR 153 Technical Theatre: Costume and Makeup ......... 2
CTAR 155 Producing Theatre .......................................... 3
#CTAR 158 Fundamentals of Acting (satisfies general education
requirement IV.4) ...................................................... 3
CTAR 155 Play Direction ................................................ 3
CTAR 450 History of the Theatre from 1642 ................. 3
CTAR 451 History of the Theatre: 1642 to the Present ....... 3
CTAR 167 and either CTIA 267/CTIA 300/CTIA 467 Theatre
Practice .............................................................. 2
CTAR 458 Problems in Modern Theatre ......................... 3
CTAR 459 Problems in Pre-Modern Theatre ................. 2
CTAR 496 Senior Seminar ........................................... 2

Restricted elective courses ............................................. 5 hours
Choose from any Theatre course except CTAR 106
Other courses that qualify as electives are:

Drum/Theatre for the Young (CTAR 322 Theatre for the
Young or CTAR 323 Improvising and Role-Play)
Oral Interpretation (CTAO 314 Interpretation of Drama or
CTAO 410 Oral Interpretation of Shakespeare)
Telecommunications and Film (CTAT 332 Fundamentals of
Television Production and Direction or CTAT 341
Radio-Television-Film Dramatic Performance)

Minor ................................................................. 20 hours
Elective courses ....................................................... 27 hours
Total ................................................................. 124 hours

NOTE:
#These courses satisfy both general education requirements and requirements of
the major. In order to avoid taking excess hours, students are advised to take
these courses, or an approved substitute from another institution, as part of the
general education requirements.

Interdisciplinary Major in Public Relations
ISIS major code: EN07

Admission to the program will require a 2.8 GPA, which must be maintained in
the major as well as in the minor selected. Admission is granted by the Depart-
ment of English Language and Literature. Courses from both the Department of
English Language and Literature and the Department of Communication and
Theatre Arts are offered as requirements and restricted elective courses.

General studies .......................................................... 44 hours
General education requirements ...................................... 42 hours
Physical education/graduation requirement ......................... 2 hours
Interdisciplinary major ................................................ 41-42 hours

Required fundamental courses .................................... 17-18
JRNL 215 Journalism .................................................. 3
JRNL 312 Introduction to Public Relations ....................... 3
Thomson's General Education requirements are satisfied both general education requirements and requirements of the major. In order to avoid taking excess hours, students are advised to take these courses, or approved substitutes from another institution, as part of the general education requirements.

Comprehensive Major in Communication and Theatre Arts

Secondary Teacher Certification
ISIS major code: CT33

Successful completion of this course of study, in the context of other program requirements, qualifies the student for recommendation for certification for the Michigan Department of Education. Secondary Provisional Certificate endorsed in speech, certification code “BD,” and, depending on the minor selected, an additional endorsement. The certification test covering this field is #04, “Speech.”

General studies

- Physical education/graduation requirement: 2 hours
- Communication and theatre arts teaching major: 36 hours

Restricted elective courses: 12 hours

At least three hours in four of the five following concentrations.

I. Communication
- #CTAC 224 Public Speaking (satisfies general education requirement I.3) (3)
- #CTAC 227 Interpersonal Communication (satisfies general education requirement I.3) (3)
- #CTAT 350 Persuasion (3)
- #CTAC 356 Argumentation and Debate (3)
- #CTAC 359 Small Group Communication (3)

II. Interpretation/performance studies: 3 hours
- #CTAO 210 Interpretive Reading (satisfies general education requirement IV.2) (3)

III. Voice Development: 3 hours
- #CTAO 102 Voice Development (1)
- #CTAO 202 Voice Development (1)
- #CTAO 302 Voice Development (1)
- #CTAO 402 Voice Development (1)
- #CTAO 205 Voice and Articulation (3)
- #CTAO 404 Dynamic Speaking Skills (3)

IV. Telecommunications and Film: 3 hours
- #CTAT 130 Introduction to Telecommunications and Film (3)
- #CTAT 131 Introduction to Audio Production and Direction (3)
- #CTAT 132 Introduction to Video Production and Direction (3)
- #CTAT 141 Introduction to Radio-TV-Film Production (3)
- #CTAT 145 Introduction to Film Appreciation (satisfies general education requirement IV.4) (3)
- #CTAT 236 History and Criticism of Radio and Television (3)
- #CTAT 241 Radio-Television-Film Announcing (3)
- #CTAT 445 Film Theory and Criticism (3)
- #CTAT 446 Contemporary Problems in Telecommunications (3)

V. Theatre Arts and Educational Drama: 3 hours
- #CTAR 150 Introduction to Theatre (satisfies general education requirement IV.4) (3)
- #CTAR 151 American Theatre: An Introduction (satisfies general education requirement IV.4 and the cross-cultural/international studies requirement) (3)
- #CTAR 152 Technical Theatre: Scene and Lighting (3)
- #CTAR 153 Technical Theatre: Costume and Makeup (3)
- #CTAR 155 Producing Theatre (3)
- #CTAR 156 Fundamentals of Acting (satisfies general education requirement IV.4) (3)
#CTAR 222 Drama and Play in Human Experience (satisfies general education requirement IV.4) (3)

CTAR 251 African American Theatre: Creative Problems (3)

CTAR 254 Stage Makeup (3)

CTAR 322 Theatre for the Young (3)

CTAR 323 Improvising and Role-Play (3)

CTAR 327 Plays for the Young (3)

CTAR 429 History and Theory of Development

Drama/Theatre (3)

CTAR 450 History of the Theatre to 1642 (3)

CTAR 451 History of the Theatre: 1642 to the Present (3)

**Concentration**

Select either a concentration in communications or theatre arts after consultation with an adviser.

**Department elective courses**

Select any courses in areas outside the concentration. The number of courses chosen must bring the total hours for the major to no less than 30 hours (including courses that satisfy general education). Required courses .................................................................................................................. 39 hours

**Professional studies** .................................................................................................................. 39 hours

**Pre-admission phase: The Learner and the Community** 8 hours

EDPS 322 Human Development and Learning (4)

FITE 291 Field Experience I (1)

SPGN 251 Education of Exceptional Children (3)

Courses that require formal admission to the teacher education program .................................................. 31 hours

**Phase I: Curriculum, Assessment and the Social Context** 10 hours

SOFD 328 Schools in a Multicultural Society (3)

CURR 305 Curriculum and Methods: Secondary (3)

FITE 302 Field Experience II: Secondary (1)

EDPS 340 Introduction to Assessment and Evaluation (3)

**Phase II: Content Methods, Literacy and Technology** 9 hours

RDNG 311 Teaching Reading in the Secondary School (3)

FITE 402 Field Experience III: Secondary (1)

EDMT 330 Instructional Applications of Media and Technology (2)

CTAC 397 The Teaching of Speech (3)

**Phase III: Capstone Experience** 12 hours

EDUC 492 Student Teaching (12)

Minor .............................................................................................................................................. 20 hours

Elective courses ............................................................................................................................... 0 hours

**Total** ........................................................................................................................................... 134 hours

**NOTE:**

#These courses satisfy both general education requirements and requirements of the major. In order to avoid taking excess hours, students are advised to take these courses, or approved substitutes from another institution, as part of the general education requirements.

##Communication Minor

**ISIS minor code: CT02**

**Required courses** ...................................................................................................................... 20-21 hours

One course from the following ........................................................................................................ 2-3

#CTAS 121 Fundamentals of Speech (satisfies general education requirement I.2) (2)

#CTAS 124 Fundamentals of Speech (satisfies general education requirement I.2) (3)

One course from the following ........................................................................................................ 3

#CTAS 224 Public Speaking (satisfies general education requirement I.2) (3)

CTAC 350 Persuasion (3)

#CTAC 227 Interpersonal Communication (satisfies general education requirement I.3)

CTAC 354 Organizational Communication (3)

CTAC 359 Small Group Communication (3)

One course from the following ........................................................................................................ 3

#CTAC 374 Intercultural Communication (satisfies general education requirement I.3 and the cross-cultural/international studies requirement) (3)

#CTAC 375 Intercultural Communication (satisfies general education requirement I.3 and the cross-cultural/international studies requirement) (3)

One course from the following ........................................................................................................ 3

CTAC 440 Survey of Public Address (3)

CTAC 469 Theories of Speech Criticism (3)

CTAC 475 Research in Speech Communication (3)

CTAC 485 Theories of Speech Communication Behavior (3)

Total .................................................................................................................................................. 20-21 hours

**NOTE:**

#These courses satisfy both general education requirements and requirements of the major. In order to avoid taking excess hours, students are advised to take these courses, or approved substitutes from another institution, as part of the general education requirements.

##Comprehensive Minor in Communication and Theatre Arts

**ISIS minor code: CT04**

**Required courses** ...................................................................................................................... 2-3 hours

One course from the following ........................................................................................................ 2-3

#CTAS 121 Fundamentals of Speech (satisfies general education requirement I.2) (2)

#CTAS 124 Fundamentals of Speech (satisfies general education requirement I.2) (3)

**Restricted elective courses** ......................................................................................................... 12 hours

At least three hours in four of the six areas of concentration (communication, interpretation/performance studies, speech improvement, telecommunications and film, and theatre arts and education drama). See courses previously listed in comprehensive major in communication and theatre arts.

**Concentration courses** ............................................................................................................... 6-9 hours

Six to nine hours in one area of concentration.

**Department elective courses** ...................................................................................................... 6-4 hours

Select any courses in areas outside the concentration.

**Total** ............................................................................................................................................ 20-8 hours

**NOTE:**

#These courses satisfy both general education requirements and requirements of the minor. In order to avoid taking excess hours, students are advised to take these courses, or approved substitutes from another institution, as part of the general education requirements.

##Drama/Theatre for the Young Minor

**ISIS minor code: CT03**

The undergraduate minor in drama/theatre for the young is designed to serve students wishing to prepare for a variety of careers—some already existing, others emerging—involving work with and for the young through drama and communication. The minor is useful in conjunction with many other minors and majors including elementary and secondary education, special education, language and literature, history and social studies, art, music, dance, social work, sociology, psychology, recreation, business management, counseling and student affairs practice, library science, home economics, communication and theatre arts, family and child service, and gerontology.

It provides a strong base and, at the same time, flexibility is ensured through freedom in choosing from a wide range of electives.

**Required courses** ...................................................................................................................... 14-15 hours

One course from the following ........................................................................................................ 2-3
Elective courses .......................................................... 5-6 hours

Five to six hours from the following:
- CTAR 326 Developmental Drama/Theatre with the Handicapped
- CTAR 327 Plays for the Young
- CTAR 429 History and Theory of Developmental Drama/Theatre
- CTAR 504 Oral Interpretation of Literature and Language with the Young
- CTAR 522 TIE: Theatre-in-Education
- CTAR 523 Puppetry: Catalyst in Human Development
- CTAR 524 Developmental Drama/Theatre with Handicapped Persons
- CTAR 525 Developmental Drama/Theatre in Recreational Setting
- CTAR 528 Developmental Drama/Theatre in Religion
- CTAR 565 Studies in Drama/Theatre for the Young

Total ............................................................................. 20 hours

NOTE:
*AD 500-level courses are available for undergraduate credit to qualified seniors.
These courses satisfy both general education requirements and requirements of the minor. In order to avoid taking excess hours, students are advised to take these courses, or approved substitutes from another institution, as part of the general education requirements.

Musical Theatre Minor

ISIS minor code: CT07

Required courses .................................................................. 6 hours

Six hours from the following:
- CTAR 121 Fundamentals of Speech (satisfies general education requirement IV.4) .... 3
- CTAR 124 Fundamentals of Speech (satisfies general education requirement IV.4) .... 3
- CTAR 222 Drama and Play in Human Experience (satisfies general education requirement IV.4) .... 3
- CTAR 322 Theatre for the Young .................................................................................. 3
- CTAR 323 Improvising and Role-Play ........................................................................... 3
- CTAR 324 Oral Interpretation of Literature for the Young ........................................... 3

Elective courses ........................................................................ 5-6 hours

Five to six hours from the following:
- CTAR 326 Developmental Drama/Theatre with the Handicapped
- CTAR 327 Plays for the Young
- CTAR 429 History and Theory of Developmental Drama/Theatre
- CTAR 504 Oral Interpretation of Literature and Language with the Young
- CTAR 522 TIE: Theatre-in-Education
- CTAR 523 Puppetry: Catalyst in Human Development
- CTAR 524 Developmental Drama/Theatre with Handicapped Persons
- CTAR 525 Developmental Drama/Theatre in Recreational Setting
- CTAR 528 Developmental Drama/Theatre in Religion
- CTAR 565 Studies in Drama/Theatre for the Young

Total ............................................................................. 20 hours

NOTE:
*AD 500-level courses are available for undergraduate credit to qualified seniors.
These courses satisfy both general education requirements and requirements of the minor. In order to avoid taking excess hours, students are advised to take these courses, or approved substitutes from another institution, as part of the general education requirements.

Telecommunications and Film Minor

ISIS minor code: CT08

Required courses ...................................................................... 7 hours

Six hours from the following:
- MUSC 101 Music Theory I (3)
- MUSC 104 Elements of Music (2)
- MUSC 305 Keyboard Skills (2)
- MUSC 326 Conducting (2)

Elective courses ........................................................................ 4 hours

Three hours from telecommunications and film and the remaining hours from communication and theatre arts (except CTAR 121 or CTAR 124 Fundamentals of Speech) or journalism.

Total ............................................................................. 24 hours

Theatre Arts Minor

ISIS minor code: CT06

Required courses ...................................................................... 18 hours

Six hours from the following:
- CTAR 150 Introduction to Theatre (satisfies general education requirement IV.4) .... 3
- CTAR 151 Production Theatre .................................................................................... 3
- CTAR 152 Technical Theatre: Scenery and Lighting .................................................. 2
- CTAR 155 Producing Theatre ..................................................................................... 3
- CTAR 158 Fundamentals of Acting (satisfies general education requirement IV.4) .... 3
- CTAR 355 Play Direction ............................................................................................ 3

One course from the following:
- CTAT 450 History of the Theatre to 1642 (3)
- CTAR 451 History of the Theatre: 1642 to the Present (3)
- CTAA 167 Theatre Practice (1)

Elective courses ........................................................................ 5-6 hours

Select courses beyond the 100 level in theatre arts or in other departmental areas specified under the major.

Total ............................................................................. 24 hours

NOTE:
*These courses satisfy both general education requirements and requirements of the minor. In order to avoid taking excess hours, students are advised to take these courses, or approved substitutes from another institution, as part of the general education requirements.

Comprehensive Minor in Communication and Theatre Arts

Secondary, K-12, and Special Education-Secondary Teacher Certification

ISIS minor code: CT34
Successful completion of this minor, in the context of other program requirements, qualifies the student for recommendation for endorsement in speech, certification code “BD.” The certification test covering this field is #04, “Speech.”

Requirements

One course from the following 2-3

- CTAS 121 Fundamentals of Speech (satisfies general education requirement L2) (2)
- CTAS 124 Fundamentals of Speech (satisfies general education requirement L2) (3)

At least three credits in four of the six areas of concentration (communication, interpretation/performance studies, speech improvement, telecommunications and film, and theatre arts and educational drama).

6-9 hours additional hours from speech communication or theatre arts
0-4 hours in department courses outside of speech communication or theatre arts

Total 20 hours

NOTE:

- These courses satisfy both general education requirements and requirements of the minor. In order to avoid taking excess hours, students are advised to take these courses, or approved substitutes from another institution, as part of the general education requirements.

Drama/Theatre for the Young Minor

Elementary and Special Education-Elementary Teacher Certification

ISIS minor code: CT33

Successful completion of this minor, in the context of other program requirements, qualifies the student for recommendation for endorsement in speech, certification code “BD.” The certification test covering this field is #04, “Speech.”

Requirements

One course from the following 2-3

- CTAS 121 Fundamentals of Speech (satisfies general education requirement L2) (2)
- CTAS 124 Fundamentals of Speech (satisfies general education requirement L2) (3)
- CTAR 222 Drama and Play in Human Experience (satisfies general education requirement IV.A) (3)
- CTAR 322 Theatre for the Young (3)
- CTAR 323 Improvising and Role-Play (3)
- CTAR 324 Oral Interpretation of Literature for the Young (3)

If CTAS 121 is in the program, choose six hours; if CTAS 124 is in the program, choose five hours; from the following:

CTAR 326 Developmental Drama/Theatre with the Handicapped (2)
CTAR 327 Plays for the Young (3)
CTAR 429 History and Theory of Developmental Drama/Theatre (3)
CTAR 504, CTAR 522, CTAR 523, CTAR 524, CTAR 525, CTAR 526, CTAR 565 (graduate courses open to qualified seniors)
CTAA 168/268/368/468 Interpretation (1 each)
CTAR 377/378/379 Special Topics (1/2/3)
CTAR 477/478/479 Special Topics: Touring to Young Audiences (1/2/3)
CTAR 497/498/499 Independent Study (1/2/3)
**LITR 207 Introduction to Children’s Literature (3)
Any course in dramatic literature
Any communication course
Any theatre arts course

**Elementary education professional requirement

Total 20 hours

NOTE:

- These courses satisfy both general education requirements and requirements of the minor. In order to avoid taking excess hours, students are advised to take these courses, or approved substitutes from another institution, as part of the general education requirements.

Activity Courses

CTAA 165 Television Laboratory 1 hr

Students who participate in co-instructional activities may, with the approval of the professor in charge and the department head, receive one hour of credit in a single activity during one semester. Students may earn up to four hours credit in one activity or in several. Admission to the activity does not ensure credit.

Pre-requisite: CTAR 310, CTAR 311, and CTAR 312, or department permission.

CTAA 166 Forensics 1 hr

Students who participate in co-instructional activities may, with the approval of the professor in charge and the department head, receive one hour of credit in a single activity during one semester. Students may earn up to four hours credit in one activity or in several. Admission to the activity does not ensure credit.

Pre-requisite: Department permission.

CTAA 167 Theatre Practice 1 hr

Students participating in specific positions with major responsibility in productions of the EMU Theatre, the department’s instructional activity program in theatre arts, by prior permission of the department, may receive one hour of credit during a single semester. The specified positions and prerequisites are: Heading a major technical crew for a faculty-directed production.

CTAA 168 Interpretation 1 hr

Students who participate in co-instructional activities may, with the approval of the professor in charge and the department head, receive one hour of credit in a single activity during one semester. Students may earn up to four hours credit in such activities and the credit may be earned in one activity or in several activities. Admission to the activity does not ensure credit. (Available with a focus on oral interpretation of literature for the young.)

Pre-requisite: CTAR 210 or department permission.

CTAA 169 Radio Station WQBR 1 hr

Students who participate in co-instructional programs may, with the approval of the professor in charge and the department head, receive one hour of credit in a single activity during one semester. Students may earn up to four hours credit in such activities, and the credits may be earned in one activity or in several activities. Admission to the activity does not ensure credit.

Pre-requisite: CTAR 130, CTAR 131, and CTAR 132, or department permission.

CTAA 177/178/179 Special Topics 1/2/3 hrs

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Pre-requisite: Department permission.

CTAA 265 Television Laboratory 1 hr

Students who participate in co-instructional activities may, with the approval of the professor in charge and the department head, receive one hour of credit in a single activity during one semester. Students may earn up to four hours credit in one activity or in several. Admission to the activity does not ensure credit.

Pre-requisite: CTAR 130, CTAR 131, and CTAR 132, or department permission.

CTAA 266 Forensics 1 hr

Students who participate in co-instructional activities may, with the approval of the professor in charge and the department head, receive one hour of credit in a single activity during one semester. Students may earn up to four hours credit in one activity or in several. Admission to the activity does not ensure credit.

Pre-requisite: Department permission.

CTAA 267 Theatre Practice 1 hr

Students participating in specific positions with major responsibility in productions of the EMU Theatre, the department’s instructional activity program in...
Students may elect more than once, provided different topics are studied.

CTAA 477/478/479 Special Topics
1 hr
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.
PreReq: CTAT 130, CTAT 131 and CTAT 132, or department permission.

CTAA 467 Theatre Practice
1 hr
Students participating in specific positions with major responsibility in productions of the EMU Theatre, the department's instructional activity program in theatre arts, by prior permission of the department, may receive one hour of credit during a single semester. The specified positions and prerequisites are: Additional experience in the responsibilities listed for 467.
PreReq: Department permission.

CTAA 469 Television Laboratory
1 hr
Students who participate in co-instructional activities may, with the approval of the professor in charge and the department head, receive one hour of credit in a single activity during one semester. Students may earn up to four hours credit in such activities, and the credit may be earned in one activity or in several activities. Admission to the activity does not ensure credit. (Available with a focus on oral interpretation of literature for the young.)
PreReq: CTAT 130 or department permission.

CTAA 470 Radio Station WQBR
1 hr
Students who participate in co-instructional programs may, with the approval of the professor in charge and the department head, receive one hour of credit in a single activity during one semester. Students may earn up to four hours credit in such activities, and the credit may be earned in one activity or in several activities. Admission to the activity does not ensure credit. (Available with a focus on oral interpretation of literature for the young.)
PreReq: Department permission.

CTAC 277/278/279 Special Topics
1/2/3 hrs
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.
PreReq: Department permission.

CTAC 214 Public Speaking
3 hrs
The characteristics of various types of speeches and speech situations and practice in the preparation and delivery of speeches for various occasions.
PreReq: CTAS 121 or CTAS 124.

CTAC 225 Listening Behavior
3 hrs
The study of the behavior, processes and theory of human listening; practice in improving listening skills.
PreReq: CTAS 121 or CTAS 124.

CTAC 226 Nonverbal Communication
3 hrs
An examination of nonverbal and situational behaviors, relationships, objects and events surrounding speech communication acts.
PreReq: CTAS 121 or CTAS 124.

CTAC 227 Interpersonal Communication
3 hrs
Study and practice of the basic elements of interpersonal communication with emphasis on perception, meanings, attention, listening, feedback and communication barriers. Particular attention is given to improving interpersonal commun-
CTAC 277/278/279 Special Topics 1/2/3 hrs
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

CTAC 307 The Teaching of Speech 3 hrs
Emphasizes the analysis and construction of courses of study, evaluation of textbooks and teaching materials, methods of directing co-curricular speech activities, and demonstrations of teaching methods. Required of students majoring in communication and theatre arts in the junior or senior high school teaching curriculum. Does not count toward the major or minor. Not open to students on academic probation.

CTAC 308 Tactual Communication and Theatre Arts 3 hrs
Prereq.: CTAS 111 or CTAS 114.

CTAC 351 The Principles of Logics 3 hrs
An examination of methods currently employed in speech communication, as well as a review of the many types of application now being made. Course includes an analysis of speech communication behavior.

CTAC 352 Organizational Communication 3 hrs
An investigation of information patterns and persuasion in the formal organization.

Prereq.: CTAS 121 or CTAS 124.

CTAC 353 Argumentation and Debate 3 hrs
Emphasizes the principles of logical reasoning and oral presentation of reasoned discourse in group situations. Exercise is debate and in general argumentative speaking.

Prereq.: CTAS 121 or CTAS 124.

CTAC 356 Interviewing as Communication 3 hrs
The principles and practices of the interview as they relate to communication elements, the interview process, structure, functions and techniques explored from both the perspective of the interviewer and the interviewee. 

Prereq.: CTAS 121 or CTAS 124, or department permission.

CTAC 357 Small Group Communication 3 hrs
Emphasizes the principles and practice of discussion as employed in committees, panels, symposiums and forums. Students will plan and participate in discussions of contemporary problems.

Prereq.: CTAS 121 or CTAS 124.

CTAC 360 Gender Communication 3 hrs
Exploration of the multifaceted ways communication, culture, and gender are interconnected and the influences of each. Critical analysis of gender communications “differences” as they are influenced by culture and our everyday communication.

Prereq.: CTAS 121 or CTAS 124.

CTAC 372 Assertive Communication 3 hrs
Individualized approach to study and training in effective assertive communication for social, conversational and career-oriented situations.

Prereq.: CTAS 121 or CTAS 124, or department permission.

CTAC 373 Family Communication 3 hrs
Descriptive and theoretical study of communication in families with emphasis on the influence of family communication on individuals.

Prereq.: CTAS 121 or CTAS 124 and CTAC 227.

CTAC 374 Intercultural Communication 3 hrs
Analysis of processes and problems of communication as affected by national cultures; effects of differences in verbal and nonverbal communication, values, meaning, perception and thought.

Prereq.: CTAS 121 or CTAS 124, or department permission.

CTAC 375 Intercultural/Interethnic Communication 3 hrs
The analysis of how ethnocentric attitudes toward perceived racial/ethnic minority group speakers/listeners influence interpersonal communication transactions.

Prereq.: CTAS 121 or CTAS 124.

CTAC 377/378/379 Special Topics 1/2/3 hrs
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

CTAC 387/388/389 Cooperative Education in Communication 1/2/3 hrs
One semester of supervised work in concentration area. An evaluation is required at the end of the employment period.

Prereq.: Nine credit hours in concentration, approval by cooperative education office, and department permission.

CTAC 400 Survey of Public Address 3 hrs
An historical and critical study of the more important speakers and their speeches from classical Greek and Roman times to the present with reference to social and political movements in the world's history.

Prereq.: CTAS 121 or CTAS 124 or junior/senior standing.

CTAC 450 Theories of Speech Criticism 3 hrs
A study of the theoretical and critical works from various eras of Western culture.

Prereq.: CTAS 121 or CTAS 124 or junior/senior standing.

CTAC 475 Research in Speech Communication 3 hrs
An examination of methods currently employed in speech communication, as well as a review of the many types of application now being made. Course includes an analysis of speech communication behavior.

Prereq.: CTAS 121 or CTAS 124 or junior/senior standing.

CTAC 477/478/479 Special Topics 1/2/3 hrs
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

CTAC 487 Theories of Speech Communication Behavior 3 hrs
Study of theories that have made significant contributions to understanding of speech communication behavior.

Prereq.: CTAS 121 or CTAS 124 or junior/senior standing.

CTAC 487/488/489 Internship in Communication 1/2/3 hrs
One semester of practical, on-the-job work experience and training (four hours per week minimum) at select on-campus or off-campus facilities.

Prereq.: 20 credit hours of concentration courses and department permission.

CTAC 497/498/499 Independent Study 1/2/3 hrs
Advanced study on an individual basis in areas in which the department does not offer a formal course. Normally restricted to proficient students in the senior year under the general conditions prescribed for honors courses.

Prereq.: Department permission.

Interpretation/Performance Studies Courses

CTAO 102 Voice Development 1 hr
A laboratory for developing strength and control of the speaking voice through physical and vocal exercises and choral speaking. Two regularly scheduled hours each week and additional sessions as arranged.
CTAO 177/178/179 Special Topics
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied. 1/2/3 hrs
Prereq: Department permission.

CTAO 202 Voice Development
Advanced laboratory exercises and specialized projects: Pronouncing foreign terms for professional speaking. 1 hr
Prereq: Department permission.

CTAO 205 Voice and Articulation
An introductory course for improving personal speaking habits. Emphasis is placed on regular practice to develop relaxed tone support, efficient articulation and vocal variety. Recording and listening laboratory hours arranged. 3 hrs
Prereq: Department permission.

CTAO 210 Interpretative Reading
The fundamentals of oral interpretation; developing poise and ease before an audience, a clear, forceful and flexible voice, and discrimination in interpreting thought to others. Selections will be prepared and presented in class. 3 hrs
Prereq: CTAO 111 or CTAS 124.

CTAO 277/278/279 Special Topics
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied. 1/2/3 hrs
Prereq: Department permission.

CTAO 302 Voice Development
Advanced laboratory exercises and specialized projects: Energetic vocal skills for theatre/interpretation. 1 hr
Prereq: Department permission.

CTAO 311 Interpretation of Prose
The application of the fundamentals of oral interpretation to the reading of prose with emphasis on the short story and excerpts from longer works of fiction. Special attention given to problems involved in the interpretation of prose. 3 hrs
Prereq: Department permission.

CTAO 314 Interpretation of Drama
Specific problems involved in interpreting dramatic literature. Emphasis placed on selection of materials, cutting and arrangement of material, style, character and character placement. Students will work individually and collectively in interpreting scenes from plays. 3 hrs
Prereq: Department permission.

CTAO 377/378/379 Special Topics
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied. 1/2/3 hrs
Prereq: Department permission.

CTAO 397/398/399 Cooperative Education in Oral Interpretation
One semester of supervised work in concentration area. An evaluation is required at the end of the employment period. 1/2/3 hrs
Prereq: Nine credit hours in concentration, approval by Cooperative Education Office, and department permission.

CTAO 402 Voice Development
Advanced laboratory exercises and specialized projects: Skills, theory and individualized projects. 1 hr
Prereq: Department permission.

CTAO 404 Dynamic Speaking Skills
Projects emphasizing intensive application of voice and articulation theory and professional diction standards for actors, broadcasters, educators, forensic speakers, interpreters and other professional communicators. Laboratory hours arranged. 3 hrs
Prereq: Three courses in the department including either CTAO 102 or CTAO 205, or take CTAO 402 concurrently.

CTAO 405 Voice and Dialects
Advanced projects in preparing oral presentations and characterizations in regional and foreign dialects. 3 hrs
Prereq: CTAO 205 or department permission.

CTAO 410 Oral Interpretation of Shakespeare
Specific problems involved in the oral interpretation of Shakespeare. Emphasis placed on language style and characterization problems. Students work individually and collectively in orally interpreting selections from Shakespeare's works. 3 hrs
Prereq: Two courses in literature, one of which should be Litr 210, or department permission.

CTAO 411 Advanced Problems in Interpretation
The presentation of programs of some length and difficulty in prose, poetry and drama. Emphasis on programming, styles of interpretation, choral reading and experimental work. A public program will be presented by the class. 3 hrs
Prereq: Six hours of oral interpretation or department permission.

CTAO 412 Oral Interpretation of Poetry
The application of the principles of oral interpretation to the reading of poetry, with emphasis on modern and contemporary poetry. 3 hrs
Prereq: CTAO 210.

CTAO 477/478/479 Special Topics
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied. 1/2/3 hrs
Prereq: Department permission.

CTAR 106 Introduction to the Performing Arts
A survey of the arts of dance, theatre and music, developing an understanding and appreciation of representative works in the three fields. The place of these arts in contemporary society and their contribution to a richer life receive special emphasis. Attendance required at specific on-campus performances. Not open to those with credit in MUSC 100/106/108. 3 hrs

CTAR 150 Introduction to Theatre
A lecture-demonstration course with the purpose of fostering appreciation of theatre through an understanding of its production components, its forms and styles, and its historical development. Attendance required at select EMU theatre productions. Required of theatre arts majors and minors. 3 hrs

CTAR 151 African American Theatre: An Introduction
An introductory survey of the roots, purposes and contemporary manifestations of theatre and drama reflecting the African American experience. Emphasis will be placed on the reading, analysis and discussion of representative African American plays. 3 hrs

CTAR 152 Technical Theatre: Scenery and Lighting
The comprehensive study and application of design fundamentals and basic technology for theatrical scenery and lighting. 2 hrs

CTAR 153 Technical Theatre: Costume and Makeup
The comprehensive study and application of design fundamentals and basic technology for theatrical costuming and makeup. 2 hrs

CTAR 155 Producing Theatre
A comprehensive introduction to theatrical production organization: business management, direction and technical production. Laboratory hours by appointment. 3 hrs
Prereq: CTAR 150 strongly recommended for majors and minors.
CTAR 157 Beginning Acting
This course is designed for non-theatre majors desiring basic knowledge and practice of acting skills as related to the stage. Non-majors will gain experience in self-awareness, relationships, character analysis, improvisation, scene study and acting exercises. Attention will be given to overcoming stage fright. For non-theatre majors only.

CTAR 158 Fundamentals of Acting
3 hrs
A study of the fundamental theories and techniques of acting. Major emphasis on theatre acting, but consideration given to radio and television acting. Laboratory hours by arrangement.

CTAR 177/178/179 Special Topics
1/2/3 hrs
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

CTAR 222 Drama and Play in Human Experience
3 hrs
A study of dramatic experience as intrinsic in human development. An introduction to spontaneous dramatic games and exercises as a way of sharpening imagination, deepening interpersonal relations, and strengthening individual identity. Integration of such experience in learning and growth is emphasized.

CTAR 251 African American Theatre: Creative Problems
3 hrs
A practical consideration of those creative aspects of the theatre production particular to African American theatre. Emphasis will be placed on the presentation of scenes from African American theatre.

CTAR 252 Stagecraft
3 hrs
A study and application of the technical elements of play production with emphasis on stage mechanics, construction and scene painting. Laboratory hours will be arranged in order to ensure adequate practical experience in the scenic arts and crafts.

Prereq: CTAR 152; CTAR 155 strongly recommended for department majors and minors.

CTAR 254 Stage Makeup
1 hr
The theory and techniques of theatrical makeup. Laboratory hours to be arranged.

CTAR 258 Mime/Pantomime and Mask
3 hrs

CTAR 277/278/279 Special Topics
1/2/3 hrs
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

CTAR 322 Theatre for the Young
3 hrs
An introductory study of the development, philosophy and techniques of theatre for the young.

CTAR 323 Improvising and Role-Play
3 hrs
Exploration of spontaneous dramatic play through intensive exercise and dramatic games meant to generate greater individual freedom and self-discipline, as well as to expand resources and techniques for teaching and directing.

CTAR 324 Oral Interpretation of Literature for the Young
3 hrs
Selection and evaluation of literature for oral interpretation with and for young people. Focus is on the use of narrative prose and folktales.

CTAR 326 Developmental Drama/Theatre with the Handicapped
2 hrs
Study of principles, theories and practices of developmental drama/theatre as related to handicapped persons. Application to educational, recreational and institutional settings stressed.

CTAR 327 Plays for the Young
3 hrs
A study of dramatic literature for the young from developmental and artistic viewpoints in the total educational experience of children and adolescents.

CTAR 351 Scene Design
3 hrs
The history of design in terms of stage scenery; an investigation of current trends, techniques and media of scene design and the practical execution of models and sketches by the student.

Prereq: CTAR 152, CTAR 252, CTAR 155, or department permission.

CTAR 355 Play Direction
3 hrs
An intensive study of the process of directing plays. Whenever possible, students in the course will direct a one-act play for public presentation. Laboratory hours by arrangement.

Prereq: CTAR 153, CTAR 167 or department permission.

CTAR 358 Characterization
3 hrs
The creation of character and characterization by the actor. Analysis, development and performance of roles studied in depth.

Prereq: CTAR 157 or CTAR 158.

CTAR 360 Dramatic Composition
3 hrs
An examination of the elements of dramatic structure through the analysis and composition of works of varying scope. Emphasis on adult plays for the stage; the special problems of drama for children and the various broadcast media also considered.

Prereq: Department permission.

CTAR 361 Dramatic Writing
2 hrs
Intensive concentration on the writing of a significant example of adult or children’s drama for the stage or the broadcast media.

Prereq: Department permission.

CTAR 362 Stage Lighting
2 hrs
Stage lighting; historical development, basic electrical theory, switchboards and lighting instruments, color theory, principles and practices in stage lighting. Laboratory hours to be arranged.

Prereq: CTAR 152, CTAR 252, CTAR 153, or department permission.

CTAR 363 Stage Costume: History and Theory
3 hrs
A survey of the principles and practices of stage costuming from antiquity to the present.

Prereq: Department permission.

CTAR 364 Stage Costume: Design and Construction
3 hrs
The fundamentals of designing theatrical costumes and a study of specific construction problems found in the making of period costumes.

Prereq: Department permission.

CTAR 377/378/379 Special Topics
1/2/3 hrs
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

CTAR 387/388/389 Cooperative Education in Arts Management
1/2/3 hrs
One semester of supervised work in concentration area. An evaluation is required at the end of the employment period.

Prereq: Nine credit hours in concentration, approval by Cooperative Education Office, and department permission.

CTAR 429 History and Theory of Developmental Drama/Theatre
3 hrs
An introductory study of the history and theory of developmental drama/theatre. The current thinking of major practitioners in the field of developmental drama/theatre; current research that involves the development of new knowledge or the validation of existing knowledge relating to history and theory of developmental drama/theatre.

Prereq: Junior standing or department permission.
CTAR 451 History of the Theatre: 1642 to the Present 3 hrs
History of the physical theatre and the written drama in the Western World from the Commonwealth period in England to the present.
Prereq: Junior standing or department permission.

CTAR 452 Arts Management 3 hrs
A study of managerial practices of arts organizations and agencies. Emphasis on facility planning, personnel, income sources, promotion, budget development and management.

CTAR 453 Marketing the Arts 3 hrs
Relates traditional marketing practices to arts administration and provides experience in applying marketing skills to the arts. The study of marketing in the arts and information relating to past market analysis, research and preparation of a specific market plan for an arts organization; presentation of market plan.

CTAR 454 Law, Public Policy, and the Arts 3 hrs
Examination of the impact of public policy and law on arts organizations and the individual artist. Particular attention is paid to tax policy, copyright, arts advocacy and contract law.
Prereq: 12 hours in arts management or department permission.

CTAR 457 Audition 2 hrs
Intensive study in the preparation of audition material for a wide range of stylistic demands that exist within the professional theatre.
Prereq: CTAR 157 or CTAR 158 or CTAR 350 or CTAR 461 or CTAR 464.

CTAR 458 Problems in Modern Theatre 3 hrs
The collaborative study and presentation of post-1850 theatrical styles and genres for actor, director and designer. Students work in production teams to develop and present multiple solutions.
Prereq: CTAR 355 and 12 hours in theatre or department permission.

CTAR 459 Problems in Premodern Theatre 3 hrs
The collaborative study and presentation of pre-1850 theatrical styles and genres for actor, director and designer. Students work in production teams to develop and present multiple solutions.
Prereq: CTAR 355 and 12 hours in theatre or department permission.

CTAR 461 Musical Theatre Acting 2 hrs
Analysis and application of the performance skills needed by the actor/singer in musical theatre.
Prereq: Nine hours in theatre arts or department permission.

CTAR 462 Directors on Directing 2 hrs
Study of select, noted stage directors past and present.
Prereq: CTAR 355 and nine hours in theatre arts or department permission.

CTAR 463 The American Musical Stage 3 hrs
Character, production, style in the American musical including concept musicals, operetta, golden age, rock, and musical revues. Historical survey and production workshop format.
Prereq: Junior standing or above.

CTAR 464 Style for the Actor 3 hrs
This course will address the challenge of matching the actor's personal methods with a wide range of stylistic demands that exist in the theatrical repertoire. The student will discover that acting means translating the text into a series of actions and that physical actions take on a particular shape or style in accordance with the given circumstances of the text.
Prereq: CTAR 158 or CTAR 157. Open to senior, junior, and graduate students with permission.

CTAR 477/478/479 Special Topics 1/2/3 hrs
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

CTAR 487/488/489 Internship in Arts Management 1/2/3 hrs
One semester of practical, on-the-job work experience and training (four hours per week minimum) at select on-campus or off-campus facilities.
Prereq: 20 credit hours of concentration courses and department permission.

CTAR 496 Senior Seminar 2 hrs
A capstone course for theatre majors. A comprehensive and unified study of all areas of theatre. Combining knowledge and skills with preparation for professional careers and/or graduate study.
Prereq: Open only to department seniors or by department permission.

CTAR 497/498/499 Independent Study 1/2/3 hrs
Advanced study on individual basis in areas in which the department does not offer a formal course. Normally restricted to proficient students in the senior year under the general conditions prescribed for honors courses.
Prereq: Department permission.

Fundamentals of Speech Courses

CTAS 121 Fundamentals of Speech 2 hrs
Theory and practice in the principles of effective speech composition and presentation. Not open to students with credit in CTAS 124.

CTAS 124 Fundamentals of Speech 3 hrs
More intensive theory and practice in the principles of effective speech composition. Not open to students with credit in CTAS 121.

CTAS 379 Special Topics 3 hrs
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.
Prereq: Department permission.

Telecommunications and Film Courses

CTAT 110 Introduction to Telecommunications and Film 3 hrs
An introduction to mass media and telecommunication systems in the United States. Emphasis on development of telecommunications industry including radio-television-film, programming, new technology, regulation and financial support.

CTAT 131 Introduction to Audio Production and Direction 2 hrs
For majors and minors only. Class meets for three hours per week, one hour lecture and two hours laboratory. The students will work with the audio facilities in Quirk Building including audio facilities in WQBR, Quirk TV Studio, and the audio production booths. The course will be required of all telecommunications majors and minors. As an introductory course in audio production, CTAT 131 is essential to all other advanced production courses, including video and film. As such, CTAT 131 must be taken before CTAT 132 or other courses in the production curriculum. Laboratory fee.

CTAT 132 Introduction to Video Production and Direction 2 hrs
For majors and minors only. Class meets three times per week. One hour will be devoted normally to lecture and discussion. The second remaining hour will be spent in the television studio working with production equipment under supervised conditions. This course is required for all majors and minors in Telecommunications and Film. CTAT 132 is designed as an introductory course in video production. Laboratory fee.
Prereq: CTAT 131.

CTAT 141 Introduction to Radio-TV-Film Production 3 hrs
For non-majors and non-minors. A study and application of the technical elements of radio, television and film with emphasis on the operation of studio and remote equipment. Laboratory hours will be arranged in order to ensure adequate practical experiences in the operation of studio production facilities. Laboratory fee.
CTAT 145 Introduction to Film Appreciation 3 hrs
An introduction to understanding the moving image as a medium of artistic expression and persuasion. The course will consider the principal components of film/video language including photography, writing, performances, editing, mise-en-scène, and major classification systems such as genres and auteurism. It will include an historical overview of the development of film/video industries, major theoretical approaches, and an analysis of the moving image's effects on audiences. Laboratory fee.

CTAT 177/178/179 Special Topics 1/2/3 hrs
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

CTAT 231 Audio Recording Techniques 3 hrs
An introduction to the practical problems of recording music ensembles from soloists to symphony orchestras. A professional audio engineer will supervise on-site recording sessions and all postproduction work. Two regular lecture hours and two hours of laboratory per week. Fieldwork projects arranged. Laboratory fee.
Prereq: CTAT 130, CTAT 131 and CTAT 132; or department permission.

CTAT 236 History and Criticism of Radio and Television 3 hrs
An historical survey of network radio and television entertainment and public affairs programming with an emphasis on how the networks' offerings were received by a select number of social and cultural critics of the two media.
Prereq: CTAT 130.

CTAT 241 Radio-Television-Film Announcing 3 hrs
A study of the various types of radio, television and film nondramatic speaking such as music, commercials, interviews and documentaries. Practice and evaluation of announcing types and styles.
Prereq: Department permission.

CTAT 245 A Survey of American Cinema, 1894-Present 3 hrs
This course is a chronological survey of the development of American cinema with an emphasis on the roles played by technological innovations, corporate development, and government intervention on the emergence of a dominant mode of film production practice. Key films by important directors from the entire period will be screened and discussed.
Prereq: CTAT 145 or department permission.

CTAT 277/278/279 Special Topics 1/2/3 hrs
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

CTAT 331 Fundamentals of Radio Production and Direction 3 hrs
The fundamentals of preparation, production, direction and evaluation of nondramatic radio programs.
Prereq: CTAT 130 and CTAT 131 and CTAT 132; or department permission.

CTAT 332 Fundamentals of Television Production and Direction 3 hrs
The fundamentals of preparation, production, direction and evaluation of nondramatic television programs. Emphasis is placed on basic techniques of studio and remote productions. Laboratory fee.
Prereq: CTAT 130 and CTAT 131 and CTAT 132; or department permission.

CTAT 333 Fundamentals of Film Production and Direction 3 hrs
An introduction to the principles of film production. Course offers theory and practice of film continuity, master sequencing, narrative and nonnarrative editing. Two 16mm film projects will be required. Laboratory fees.
Prereq: CTAT 130 and CTAT 131 and CTAT 132; or department permission.

CTAT 334 Radio-Television News 3 hrs
A study of the principles, techniques, and forms of broadcast journalism. Emphasis is placed on broadcast news writing, editing, and delivery.
Prereq: JRN 215 for Journalism majors/minors.

CTAT 335 Studies in Film 3 hrs
Students will examine non-Hollywood films including European, Asian, and Third World theatrical films or documentary, animated and experimental films. The topics will alternate over terms to allow for an in-depth approach.
Prereq: CTAT 145.

CTAT 336 Studies in Telecommunications 3 hrs
A comparative study of broadcasting services in European, Soviet and Third World nations, also international shortwave, satellite interconnections, CATV, limited application video systems and new technologies. The topics will alternate over terms to allow for an in-depth approach.
Prereq: CTAT 130 or department permission.

CTAT 341 Radio-Television-Film Dramatic Performance 3 hrs
A study of types and styles of dramatic speaking for radio, television and film. Practice in the basic techniques of acting for the three media. CTAO 210 or CTAR 158 recommended.
Prereq: CTAT 241 or CTAT 158 or department permission.

CTAT 344 Continuity Writing for Radio-Television-Film 3 hrs
A study of the forms of nondramatic writing for radio, television and film, including commercials, public service announcements, music continuity and narrations.
Prereq: Department permission.

CTAT 345 American Film Genres 3 hrs
This course examines key American film genres, both past and present, to identify their unique narrative and stylistic properties and to show their important economic, social, psychological and symbolic functions. Genres to be considered include westerns, musicals, horror films, science fiction films, the "woman's" film, detective films, African American films and sequels.
Prereq: CTAT 145 or department permission.

CTAT 377/378/379 Special Topics 1/2/3 hrs
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

CTAT 387/388/389 Cooperative Education in Radio-TV Film 1/2/3 hrs
One semester of supervised work in concentration area. An evaluation is required at the end of the employment period.
Prereq: Nine hours in concentration, approval by Cooperative Education Office, and department permission.

CTAT 431 Advanced Radio Production and Direction 3 hrs
A continuation of CTAT 331. Advanced theory and practical experience in production of longer, more complex dramatic and nondramatic material for radio.
Prereq: CTAT 130 and CTAT 131 and CTAT 132; or department permission.

CTAT 432 Advanced Television Production and Direction 3 hrs
A continuation of CTAT 332. Principles, practices and techniques of directing and producing dramatic material for television. Major television formats discussed and analyzed. Practical experience in depth provided for each student. Laboratory fee.
Prereq: CTAT 332 or department permission.

CTAT 433 Advanced Film Production and Direction 3 hrs
Students make complete 16mm color films or videotapes participating in all stages of production from scripting, filming and editing, to developing an original soundtrack and a final edited version. Laboratory fee.
Prereq: CTAT 333 and department permission.

CTAT 445 Film Theory and Criticism 3 hrs
An intensive study of the key theories of film structure, historical development and sociological function. Emphasis upon theories of editing, auteur criticism, genres and textual analysis.
Prereq: CTAT 145.
CTAT 446 Contemporary Problems in Telecommunications 3 hrs
A study of contemporary issues and problems affecting the telecommunications industry, including sociological and psychological influences, programming, new technology, regulation and research.
Prereq: CTAT 130.

CTAT 447 Radio-Television Station Management 3 hrs
Study of station management in the areas of advertising, programming, personnel, applied research and public relations.
Prereq: CTAT 130.

CTAT 477/478/479 Special Topics 1/2/3 hrs
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

CTAT 487/488/489 Internship in Radio-Television-Film 1/2/3 hrs
One semester of practical, on-the-job work experience and training (ten hours per week, minimum) at selected on-campus or off-campus facilities.
Prereq: 20 hours of concentration courses and department permission.

CTAT 497/498/499 Independent Study 1/2/3 hrs
Advanced study on individual basis in areas in which the department does not offer a formal course. Normally restricted to proficient students in the senior year under the general conditions prescribed for honors courses.
Prereq: Department permission.

Curriculum
The Department of Computer Science offers professional foundations-based programs designed to facilitate both the initial placement and continuing growth in this rapidly changing and expanding field. Programs include a computer science major and minor, and a computer science education major and minor leading to secondary or K-12 teacher certification. Seven computer laboratories, housing more than 200 microcomputers, provide hardware and software support for a broad range of class assignments and advanced projects.

Students completing the major are uniquely equipped to pursue advanced graduate degrees or career employment in traditional computer science fields such as computer systems programming and analysis, software development, and application programming. Strong industrial ties and an active cooperative education program provide both practical learning design and administration. Part-time on-campus employment opportunities also encourage hands-on learning.

The computer science minor provides students in mathematics, the physical and social sciences, and other fields with practical tools for applying current computer technology to their major areas. Independent projects and special topics classes provide professional-level training and experience for students interested in the latest technological advances.

Fully accredited by the Michigan Department of Education, the computer science education major and minor both meet rigorous standards of the International Society for Technology in Education (ISTE). Academic excellence of these programs is attested by outstanding student performance on statewide content examinations and by postgraduate employment rate.

Graduate programs under the auspices of the Department of Computer Science are the master of science in computer science, the graduate secondary teacher certification endorsement program and the graduate certificate in artificial intelligence. The department also cooperates with the Department of Math-

eiotics in offering a master of arts in mathematics with a concentration in computer science. See the graduate catalog for program descriptions.

Degrees Offered
Bachelor of Arts
Bachelor of Science

Programs of Study
Majors
Computer science
Computer science for secondary teacher certification

Minors
Computer science
Computer science for secondary, K-12, and special education-secondary teacher certification

Advising
Please see the following person for advising and additional information:
Mildred Lintner
Advising Coordinator
511-B Pray-Harrold
734.487.1063
E-mail: ug.compsci@emich.edu

Graduate courses and a program leading to an endorsement in computer science for secondary school teachers certified in other fields are described in the graduate catalog.

Computer Science Major
ISIS major code: CS01

General studies .......................................................... 61-64 hours
General education requirements .................................... 42-43 hours
Other requirements ...................................................... 17-19 hours
#MATH 120 Calculus I (satisfies general education requirement)
#MATH 121 Calculus II (satisfies general education requirement)
#MATH 122 Elementary Linear Algebra (satisfies general education requirement)
One course from the following:
MATH 360 Statistical Methods (3)
MATH 370 Probability and Statistics I (4)
One course from the following:
MATH 223 Multivariable Calculus (4)
MATH 319 Mathematical Modeling (3)
MATH 325 Differential Equations (3)
MATH 411 Abstract Algebra (3)
MATH 418 Model with Linear Algebra (3)
MATH 425 Mathematics for Scientists (3)
MATH 416 Introduction to Numerical Analysis (3)
MATH 471 Probability and Statistics II (3)

Physical education requirement .................................. 2 hours

Computer science major ................................................ 36 hours

Required courses ......................................................... 24
#COSC 138 Computer Science I (satisfies general education requirement)
#COSC 238 Computer Science II .................................... 3
COSC 239 Assembly and Machine Language Programming 3
COSC 330 Discrete Mathematical Structures .................. 3
COSC 334 Data Structures ........................................... 3
COSC 337 Programming Languages ............................... 3
COSC 338 Computer Organization .................................. 3
COSC 365 Foundations of Automata and Languages ......... 3

Restricted elective courses .............................................. 12
Four courses from the following two groups with at least two courses from Group A:
### General Education Requirements

**Group A**
- COSC 430 Compiler Construction (3)
- COSC 431 Systems Programming (3)
- COSC 433 Computer Operating Systems (3)
- COSC 441 Computing Network Principles (3)

**Group B**
- COSC 425 Heuristic Programming (3)
- COSC 432 Switching Theory (3)
- COSC 435 Introduction to Microprocessors (3)
- COSC 437 Microcomputer Graphics (3)
- COSC 442 Database Principles (3)
- COSC 443 Software Engineering Principles (3)

**NOTE:**
- These courses satisfy both general education requirements and requirements of the major. In order to avoid taking excess hours, students are advised to take these courses, or approved substitutes from another institution, as part of the general education requirements.

### Computer Science Education Major

#### Secondary Teacher Certification

**ISIS major code:** CS31

Successful completion of this program, in conjunction with other teacher education requirements, qualifies the student for recommendation for the Michigan Department of Education Secondary Provisional Certificate endorsed in computer science, certification code "NR," and, an additional endorsement depending on the minor selected. The certification test covering this field is #50, "Computer Science.

Students must be accepted into the College of Education before enrolling in COSC 336 Programming Languages for Educators, COSC 430 Applications in Computer Science and COSC 436 Methods of Teaching Computer Science in the Secondary Schools.

### Computer Science Minor

**ISIS minor code:** CS02

Students on the non-teaching minor interested in computer science applications in business may substitute courses from the College of Business with permission of the advising coordinator in computer science.

**NOTE:**
- These courses are corequisites.
- These courses satisfy both general education requirements and requirements of the major. In order to avoid taking excess hours, students are advised to take these courses, or approved substitutes from another institution, as part of the general education requirements.
NOTE:
#This course satisfies both general education requirements and requirements of the major. In order to avoid taking excess hours, students are advised to take this course, or an approved substitute from another institution, as part of the general education requirements.

**Computer Science Education Minor**

Secondary, K-12, and Special Education-Secondary Teacher Certification

**ISIS minor code:** CS31

Successful completion of this program, in conjunction with other teacher education requirements, qualifies the student for recommendation for the Michigan Department of Education Secondary Provisional Certification endorsement in computer science, certification code “NR,” and an additional endorsement dependent on the major or minor selected. The State of Michigan certification test covering this field is #50, “Computer Science.”

Students must be accepted into the College of Education before enrolling in COSC 336 Programming Languages for Educators, COSC 340 Applications in Computer Science and COSC 346 Methods of Teaching Computer Science in the Secondary Schools.

**Total**

24 hours

**NOTE:**
#These courses satisfy both general education requirements and requirements of the minor. In order to avoid taking excess hours, students are advised to take these courses, or approved substitutes from another institution, as part of the general education requirements.

**Computer Science Courses**

**COSC 136 Computers for the Non-specialist**

A survey of computer concepts. Emphasis is on visual communications, information management and communication technologies. Students will also use a wide variety of practical computer applications. Fulfills general education computer literacy requirement. Does not count toward the computer science major. Required of all computer science education majors and minors.

**COSC 137 Introduction to FORTRAN Programming**

An introductory course for persons wishing to learn programming and applications of computers. Using the FORTRAN language, students develop and run programs to solve a variety of problems. Credit will not be given for more than one of COSC 137 and COSC 237. Does not count toward computer science major or minor.

**COSC 138 Computer Science I**

An introduction to computers, programming, algorithm development and a high-level language such as C++. In particular, strategies for problem solving, problem analysis, algorithm representation and algorithm verification are balanced with actual program development using good design and documentation techniques. The first course in the computer science major and minor, but open to all students.

**Prereq:** High school algebra II or MATH 103.

**COSC 177/178/179 Special Topics**

1/2/3 hrs

An exploration and study of topics not covered in other departmental offerings. Students may elect more than one, provided different topics are studied.

**Prereq:** Department permission.

**COSC 237 Computer Programming and Numeric Methods**

3 hrs

An introductory programming course focusing on numerical algorithms fundamental to scientific computer work. Discussion of polynomial interpolation, numerical integration, solutions of systems of equations, and error analysis. Using the FORTRAN language, students develop and run programs to solve a variety of problems. Credit will not be given for more than one of COSC 137 and COSC 237. Does not count toward computer science major or minor.

**Prereq or coreq:** MATH 121.

**COSC 238 Computer Science II**

3 hrs

The second course in an introductory sequence for the computer science major, minor and others. Continues software engineering methodology through specification, design, coding, and program correctness. Nested procedures and functions, scope and recursion. Introduction to data structures such as stacks, queues, linear lists, trees, sets, and files. Analysis of sorting and searching algorithms.

**Prereq:** COSC 138.

**COSC 239 Assembly and Machine Language Programming**

3 hrs

Computer structure, machine language, instruction execution, and digital representation of data. Computer systems organization and programs. Symbolic coding and assembly systems, macro definition and generation, program segmentation and linkage.

**Prereq:** COSC 137, COSC 138, COSC 237, or IS 219.

**COSC 250 Programming for CAD/CAM**

3 hrs

An introduction to programming in the C language intended for CAD/CAM majors in the College of Technology. Meets for two hours per week of lecture/demonstration, integrated with two hours of supervised laboratory work, using an integrated programming environment running on MS-DOS. Additional unsupervised lab time will also be available. Covers the basics of C statements, data types, operators, functions, arrays and character strings. Structures and files will be introduced.

**Prereq:** COSC 137, COSC 138, COSC 237 or IS 219, and permission of the Industrial Technology Department.

**COSC 277/278/279 Special Topics**

1/2/3 hrs

A 200-level course in a specific area of computer science, to be determined by the field of specialization of the instructor and the interest of the students.

**Prereq:** Instructor permission.

**COSC 330 Discrete Mathematical Structures**

3 hrs

Set algebra and algebraic structures. Elements of the theory of directed and undirected graphs. Boolean algebra and propositional logic. Applications to various areas of computer science.

**Prereq:** COSC 238, COSC 239, and MATH 122 or equivalent. COSC 239 may be taken concurrently.

**COSC 334 Data Structures**

3 hrs

Linear lists, strings, arrays, and orthogonal lists. Representation of trees and graphs. Storage systems, structures, storage allocation and collection. Symbol tables, searching and sorting techniques. Formal specification of data structures and data management systems.

**Prereq:** COSC 238 and COSC 239.

**COSC 336 Programming Languages for Educators**

3 hrs

Formal definition of programming languages; structure of simple statements; global properties of algorithmic languages; structure of list processing, string manipulation, data description and simulation languages; run-time representation of program and data structures. Special emphasis will be placed on educa-
tion-oriented languages. Credit will not be given for both COSC 336 and COSC 337.

COSC 337 Programming Languages
3 hrs
Formal definition of programming languages; structure of simple statements; global properties of algorithmic languages; structure of list processing, string manipulation, data description, and simulation languages; run-time representation of program and data structures. Credit will not be given for both COSC 336 and COSC 337.

COSC 338 Computer Organization
3 hrs
Basic digital circuits, data representation and transfer, digital arithmetic. Digital storage and accessing, control functions, input-output facilities, computer organization, reliability, simulation techniques. Multiprogramming, multiprocessing, and reentrant systems.

COSC 340 Applications in Computer Science
3 hrs
Information systems, simulation, graphics, audio communication, artificial intelligence, instruction and training, and communications. The student will write or use previously written programs in each of the above areas using microcomputers. These programs will use many languages and programs including LOGO, PASCAL, BASIC, electronic spreadsheets, and database programs.

COSC 346 Methods of Teaching Computer Science in the Secondary Schools
3 hrs
Computer science programs in the high school, information and materials needed to prepare students for the teaching of computer science in these schools. Organization and content, methods of teaching and learning, security and maintenance of equipment, professional journals and magazines available for future growth, copying software and the legality of software duplication, dealing with diversity of abilities, problem-solving skills, and strategies for debugging programs. This methods class does not count toward the major or minor.

COSC 355 Symbolic Computing
3 hrs
Symbolic computations and graphical representations in a computer algebra system such as Mathematica; design of interactive notebooks, extensive use of electronic communications, applications from various areas of computer science, mathematics and the natural sciences; oral presentation of a project in an electronic classroom is required; lectures (two hours) and supervised lab (two hours).

COSC 365 Foundations of Automata and Languages
3 hrs
A rigorous treatment of finite-state automata and the languages accepted by them: deterministic and nondeterministic automata, pushdown automata, regular and context-free languages, Turing machines. Applications to lexical analysis and parsing. Students will design automata and implement language processors.

COSC 377/378/379 Special Topics
1/2/3 hrs
Covers topics not considered in other courses when the immediate needs of the field, interests of the students, and expertise of the faculty coincide.

COSC 388 Cooperative Education in Computer Science
3 hrs
Four to six months of full-time employment at an industrial firm specially chosen to provide practical experience in computer science. The program consists of two work experiences (COSC 388 and COSC 488) alternating with full-time attendance at the University. Use on computer science major subject to department permission. Graded on a credit/no credit basis.

COSC 425 Heuristic Programming
3 hrs
Programming techniques for problems with large-state spaces or uncertain knowledge: search, heuristic evaluation, rule-based inference, approximate reasoning and adaptation using neural nets, genetic algorithms and reinforcement learning.

COSC 430 Compiler Construction
3 hrs

COSC 431 Systems Programming
3 hrs
Batch-process systems programs, components and operating characteristics. Implementation techniques for parallel processing and interrupt handling. Overall structure of multiprogramming systems. Addressing techniques, file system design and management. Interprocess communication, design of system modules and interfaces.

COSC 432 Switching Theory
3 hrs
Switching algebra, gate network and sequential circuit analysis and synthesis. Boolean algebra, sequential circuit state and combinational circuit minimization, hazards and races, elementary number systems and codes.

COSC 433 Computer Operating Systems
3 hrs

COSC 435 Introduction to Microprocessors
3 hrs
The fundamentals of small-system software development as it applies to microprocessors and minicomputers. Introduction to microprocessors and peripheral hardware; software and software development; applications. Students will have access to both microcomputers and a minicomputer to gain first-hand knowledge of this field.

COSC 437 Microcomputer Graphics
3 hrs
A course in computer graphics using microcomputers. Display technologies. Raster graphics, displaying graphics primitives such as points, lines, curves, text and scan-conversion algorithms. Displaying graphs, functions, bar and pie charts, and applications. 2-D graphics including windowing, viewporting, window-to-viewport transformations, clipping algorithms, scaling, rotation and translation transformations. Interactive graphics. 3-D graphics, including scaling, rotation and translation transformations; parallel and perspective projections.

COSC 441 Computing Network Principles
3 hrs
The basic concepts of computer communication systems with particular emphasis on communication hardware and microcomputer networks. Students will be involved in the development and writing of software components of communications such as terminal emulators and file transfer packages. Basic communication theory and terminology, communication hardware devices, communication protocols, and microcomputer networks.

COSC 442 Database Principles
3 hrs
A technical review of the theory and principles of database design and organization. The concepts and structures necessary to design and implement a database management system. Network, hierarchical and relational database models. Data
normalization, data description languages, query languages, data integrity and security.

Prereq: COSC 365 and COSC 337.

COSC 443 Software Engineering Principles 3 hrs
The design and analysis of large and complex software systems. Students will study software life cycles, analyze the requirements, and conduct detailed design studies using modern design methodologies. The knowledge gained from data structures, programming languages, computing architectures, and other computer science areas will be integrated and extended to build realistic systems.

Prereq: COSC 337, COSC 338, and COSC 365.

COSC 452 Programming in Ada 3 hrs
A course in the U.S. Department of Defense language Ada for those familiar with structured programming concepts and data structures. Topics covered will be the syntax and semantics of expressions and statements, packages and procedures, typing, abstract data types, exception handling, concurrency, generics, and operator overloading. Procedures and packages will be written and tested using an Ada compiler. Does not count as a restricted elective.

Prereq: COSC 334 or IS 315.

COSC 477/478/479 Special Topics 1/2/3 hrs
Covers topics not considered in other courses when the immediate needs of the field, interests of the students, and expertise of the faculty coincide.

Prereq: Senior standing, major in computer science, and department permission.

COSC 488 Cooperative Education in Computer Science 3 hrs
Four to six months of full-time employment at an industrial firm specially chosen to provide practical experience in computer science. The program consists of two work experiences (COSC 388 and COSC 488) alternating with full-time attendance at the University. Use on computer science major subject to department permission. Graded on a credit/no credit basis.

Prereq: COSC 388 and department permission.

COSC 490 Seminar and Project Design for Educators 3 hrs
Major project design and more formalized, structured programming. Each student will work on two original major programs, one of which will be a group project. The student will report on both projects (written and oral) and give a formal presentation of the individual project to the University community in the form of a public lecture.

Prereq: COSC 334, COSC 338, and senior standing.

COSC 493 Senior Project 1 hr
Intended for computer science majors in their senior year, this course assesses students' knowledge of the field's core subjects, surveys students to get reactions to and suggestions for the department's academic program, and provides guidance students as they carry out a computing project and present it in a public forum as a poster presentation or talk. Offered on a credit/no credit basis.

Prereq: COSC 334, COSC 337, COSC 338, COSC 365, senior standing or department permission.

COSC 497/498/499 Independent Study 1/2/3 hrs
A report or project on an approved subject in the field of computer science under the guidance of the staff of the Department of Computer Science.

Prereq: Major in computer science, junior or senior standing, and department permission.

Departmental Administration

Raouf S. Hanna
Department Head
703-A Pray-Harrlold
734.487.3305
E-mail: raouf.hanna@emich.edu

The Department of Economics offers majors and minors in economics, with diversified areas of specialization, and in labor studies. A major in actuarial science and economics is offered in a joint program with the Department of Mathematics. The department also participates in other University programs such as language and international trade, area studies offered in the Department of History and Philosophy, the minor in conservation and resource use in the Department of Biology, and the Women's Studies Program.

Students have access to the University computer system through the department's own statistical laboratory and terminals, and through facilities available at various locations on campus.

The department presents six annual student awards: the Murg Award for outstanding service to the Department of Economics; the Gookman Award for an outstanding paper on a subject related to economics; two Hanna Awards for outstanding papers in econometrics; the Moore Award for an outstanding essay in law and economics; the Bowen Award for an economics major with a superior academic record who is interested in a government service career; the Labor Studies Award for superior course work, outstanding research effort, public service, and/or commitment to the Labor Studies program and its goals; and the Student Achievement Award for the highest grade point average in economics.

Also, the department sponsors Eta chapter of Omicron Delta Epsilon honor society in economics, established in 1975 to recognize students who demonstrate ability in the study of economics at an institute where sound economic programs are offered, and the Economics Club, for students interested in economics as a major or minor or complementary field to their studies either for further study in economics or for preparation for professional programs such as law and business administration.

Degrees Offered

Bachelor of Arts
Bachelor of Science
Bachelor of Business Administration

Programs of Study

Majors
Actuarial Science (joint program with Department of Mathematics)
Economics
Economics for secondary education
Labor Studies

Minors
Economics
Economics for secondary, K-12, and special education-secondary
Labor Studies

Advising

Undergraduate students seeking advising should see the coordinator of undergraduate advising, for their initial visit. They will be assigned to an adviser by the coordinator.

Donald Pearson
Coordinator of Undergraduate Programs
707-E Pray-Harrlold

E-mail: eco_pearson@online.emich.edu
Bachelor of Business Administration in Economics  
**ISIS major code: EC04**  
The bachelor of business administration in economics degree program is designed to provide professional training in economics applicable to business management for students contemplating administrative or research careers in business or government. This program provides an additional career program option for students by permitting them to major in economics while taking the same foundation courses required of all business students. This is a cooperative program with the College of Business.  
Students enrolling in this program are required to follow the business administration curriculum in addition to fulfilling the 24 hours in economics.  
**Assessment:** As a condition of graduation, all majors are required to maintain and submit a portfolio reflecting their program of study. Contents may include annual progress reports, copies of term papers, opinion statements about the program, and tests. Details are available from the coordinator of advising.  

**General studies**  
- General education requirements: 29 hours  
- Other requirements: 18 hours  

- ENGL 121 English Composition (satisfies general education requirement 1.1) (3)  

One course from the following:  
- MATH 118 Mathematical Analysis for Social Sciences I (satisfies general education requirement 1.4) (3)  
- MATH 122 Elementary Linear Algebra (satisfies general education requirement 1.4) (3)  
- MATH 119 Mathematical Analysis for Social Sciences II (satisfies general education requirement 1.4) (3)  
- MATH 120 Calculus I (satisfies general education requirement 1.4) (4)  
- PLSC 112/PLSC 113 American Government (satisfies general education requirement 2.1) (3)  
- ECON 201 Principles of Economics I (satisfies general education requirement 3.3) (3)  
- ECON 202 Principles of Economics II (satisfies general education requirement 3.4) (3)  
- ECON 202 Principles of Economics II (satisfies general education requirement 3.4) (3)  
- Logic or ethics is strongly recommended for general education requirement IV.3.  

Physical education/graduation requirement: 2 hours  

**Economics major**  
- **Required courses:** 9  
- ECON 301 Intermediate Macroeconomic Analysis: 3  
- ECON 302 Intermediate Microeconomic Analysis: 3  

One course from the following:  
- ECON 310 Economic Statistics: 3  
- ECON 415 Introduction to Econometrics: 3  

**Restricted elective courses:** 15  
Although any 15 credit hours of 300-level or above elective in economics will complete the requirements for the major, students may pursue one of the six recommended career course patterns: business economics, economics of finance, labor economics, governmental economics, comparative economic systems, or theoretical and quantitative economics. Student selecting this economics major are encouraged to include at least one 400-level course offered in the College of Business as an elective.  

**Minor:**  
No minor is required.  

Elective courses: 15 hours  
Total: 124 hours  

**NOTE:**  
- Students also may meet the statistics requirement by taking DS 265 Business Statistics I. If students elect DS 265, they are not eligible to take ECON 310 Economic Statistics; ECON 415 Introduction to Econometrics is recommended in this case.  
- These courses satisfy both general education requirements and requirements of the major. In order to avoid taking excess hours, students are advised to take these courses, or approved substitutes from another institution, as part of the general education requirements.  

**Actuarial Science and Economics Major**  
**ISIS major code: MA02**  
Actuarial science and economics is a joint program of the Departments of Mathematics and Economics. In addition to following a prescribed series of courses, students are expected to pass the first two actuarial examinations. The examinations are sponsored by leading actuarial societies and administered in numerous U.S. locations. MATH 372 and MATH 472 are designed to prepare students for these examinations.  

**General studies**  
- General education requirements: 38-39 hours  
- Other requirements: 0 hours  
- Physical education/graduation requirement: 2 hours  

**Major in actuarial science and economics:** 60 hours  

**Required courses:** 53  
- ECON 201 Principles of Economics I (satisfies general education requirement 3.3): 3  
- ECON 202 Principles of Economics II (satisfies general education requirement 3.4): 3  

One course from the following:  
- COSC 137 Introduction to FORTRAN Programming (satisfies general education requirement 5.3): 3  
- COSC 138 Computer Science I (satisfies general education requirement 5.3): 3  
- COSC 237 Computer Programming and Numeric Methods (satisfies general education requirement 5.3): 3  

**Mathematics**  
- MATH 120 Calculus I (satisfies general education requirement 1.4): 4  
- MATH 121 Calculus II (satisfies general education requirement 1.4): 4  
- MATH 122 Elementary Linear Algebra (satisfies general education requirement 1.4): 4  
- MATH 223 Multivariable Calculus: 4  
- MATH 370 Probability and Statistics I: 4  
- MATH 372 Problems in Actuarial Studies I: 2  
- MATH 436 Introduction to Numerical Analysis: 3  
- MATH 471 Probability and Statistics II: 3  
- MATH 472 Problems in Actuarial Studies II: 2  

**Economics**  
- ECON 301 Intermediate Macroeconomic Analysis: 3  
- ECON 302 Intermediate Microeconomic Analysis: 3  
- ECON 320 Labor Economics: 3  
- ECON 340 Money and Banking: 3  
- ECON 415 Introduction to Econometrics: 3  

**Restricted elective courses:** 7
Seven hours from courses at the 300 level and above in mathematics, computer science, or economics

Minor ........................................................................................................ 0 hours
No minor is required.

Elective courses ....................................................................................... 25-26 hours

Total .......................................................................................................... 124 hours

NOTE:
These courses satisfy both general education requirements and requirements of the major. In order to avoid taking excess hours, students are advised to take these courses, or approved substitutes from another institution, as part of the general education requirements.

### Economics Major

**ISIS major code: EC01**

The major in economics requires 30 hours, of which 15 hours are elected from economics courses without restriction, or as a concentration of courses in one of the following areas: business economics, economics of finance, labor economics, governmental economics, comparative economic systems, or theoretical and quantitative economics.

<table>
<thead>
<tr>
<th>General studies</th>
<th>45-46 hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>General education requirements</td>
<td>42-43 hours</td>
</tr>
<tr>
<td>Other requirements</td>
<td>0 hours</td>
</tr>
<tr>
<td>Physical education/graduation requirement</td>
<td>2 hours</td>
</tr>
</tbody>
</table>

**Economics major** .................................................................................. 30 hours

#### Required courses

- **#ECON 201 Principles of Economics I** (satisfies general education requirement III.3) (3)
- **#ECON 202 Principles of Economics II** (satisfies general education requirement III.4) (3)
- **ECON 301 Intermediate Macroeconomic Analysis** (3)
- **ECON 302 Intermediate Macroeconomic Analysis** (3)
- **ECON 310 Economic Statistics or ECON 415 Introduction to Econometrics** (3)

**Elective courses** .................................................................................... 15

Although any 15 hours of electives in economics will complete the requirements for the major, choosing one of the six recommended course patterns provides concentration in a specific career area. Inquire at the Department of Economics regarding suggested concentrations, suggested courses within concentrations, and appropriate economics faculty advisers.

**NOTE:**
These courses satisfy both general education requirements and requirements of the major. In order to avoid taking excess hours, students are advised to take these courses, or approved substitutes from another institution, as part of the general education requirements.

### Labor Studies Major

**ISIS major code: EC02**

This program is administered through the Department of Economics and leads to a bachelor's degree in labor studies. A minor is also available. Students should select courses in consultation with the director of labor studies and/or the specified advising coordinators.

<table>
<thead>
<tr>
<th>General studies</th>
<th>50-51 hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>General education requirements</td>
<td>39-40 hours</td>
</tr>
<tr>
<td>Other requirements</td>

</table>

#### Required courses
- **#ECON 201 Principles of Economics I** (satisfies general education requirement III.3) (3)

**Elective courses** .................................................................................... 21 hours

| Total | 124 hours |

**NOTE:**
These courses satisfy both general education requirements and requirements of the major. In order to avoid taking excess hours, students are advised to take these courses, or approved substitutes from another institution, as part of the general education requirements.

### Economics Education Major

#### Secondary Teacher Certification

**ISIS major code: EC31**

Successful completion of this course of studies, in the context of other program requirements, qualifies the student for recommendation for certification with the Michigan Department of Education Secondary Provisional Certificate endorsed in economics, certification code "CA" and, depending on the minor selected, endorsement in geography ("CB"), history ("CC"), political science ("CD"), psychology ("CE"), sociology ("CF"), or social studies ("CX"). The certification test covering this field is #07, "Economics."

**General studies** .................................................................................... 50-51 hours

- **General education requirements** ....................................................................... 36-37 hours
- **Other requirements** .................................................................................. 12 hours

#### One course from the following:
- **#MATH 119 Mathematical Analysis for Social Sciences II** (satisfies general education requirement I.4) (3)
- **#MATH 120 Calculus I** (satisfies general education requirement I.4) (3)
### Labor Studies Minor

ISIS minor code: ECO2

#### Restricted elective courses
- ECON 310 Economic Statistics
- ECON 320 Labor Economics
- ECON 321 Minority Workers in the Labor Market (satisfies general education requirement III.3 and the cross-cultural/international studies requirement)
- ECON 322 American Labor Unions
- ECON 323 Labor and Government
- ECON 324 Unionism in the Public Sector
- ECON 325 Collective Bargaining
- ECON 328/WMST 328 Economics of Women (satisfies general education requirement III.4 and the cross-cultural/international studies requirement)
- ECON 420 Comparative Labor Unionism
- ACC 240 Principles of Accounting I
- CTAC 352 Communication in Negotiation
- HIST 463 United States Labor History
- LAW 403 Employment Law
- MGMT 384 Human Resource Management
- POLS 335 Labor in American Politics
- PSY 351 Industrial Psychology
- SOCL 307 Industrial Sociology

**Total**: 20 hours

**NOTE:**
- These courses satisfy both general education requirements and requirements of the minor. In order to avoid taking excess hours, students are advised to take these courses, or approved substitutes from another institution, as part of the general education requirements.

### Economics Minor

Secondary, K-12, and Special Education-Secondary Teacher Certification

ISIS minor code: EC31

Successful completion of this minor, in the context of other program requirements, qualifies the student for recommendation for endorsement in economics. The certification test covering this field is #07, “Economics.”

#### Required courses
- ECON 201 Principles of Economics I (satisfies general education requirement III.3) 3 hours
- ECON 202 Principles of Economics II (satisfies general education requirement III.4) 3 hours

**Total**: 6 hours

#### Restricted elective courses
- 14 hours from any economics courses. ECON 301 and ECON 302 are highly recommended.

**Total**: 14 hours

**NOTE:**
- These courses satisfy both general education requirements and requirements of the minor. In order to avoid taking excess hours, students are advised to take these courses, or approved substitutes from another institution, as part of the general education requirements.
## Economics Courses

**ECON 100 Introduction to Economic Problems and Policies**  3 hrs  
A nontechnical introduction to basic problems facing the U.S. economy and different opinions over economic policy choices. Analysis of the controversial role of government in a private market economy. Not recommended for business students.  
Prereq: Department permission.  

**ECON 177/178/179 Special Topics**  1/2/3 hrs  
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.  
Prereq: Department permission.  

**ECON 200 The American Economy**  3 hrs  
Survey of the principles of economics; the basic knowledge of the functioning of the present-day American economy. Not open to students with ECON 201/ECON 202.  

**ECON 201 Principles of Economics I**  3 hrs  
The first half of basic principles of economics. Emphasizes macroeconomic concepts of national income, fiscal and monetary policy, and problems of unemployment, inflation, and economic growth.  
Prereq: MATH 108, or MATH 108B, or level 3 math placement.  

**ECON 202 Principles of Economics II**  3 hrs  
Second half of an introduction to basic principles of economics. Emphasizes microeconomic concepts of demand, supply, and problems relating to prices and resource allocation.  
Prereq: ECON 201.  

**ECON 277/278/279 Special Topics**  1/2/3 hrs  
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.  
Prereq: One 100-, 200-, or 300-level course in economics.  

**ECON 300 Contemporary Economics**  3 hrs  
Analysis of contemporary economic problems. Topics may change each semester as the interests and/or problems change. Students may elect this course several times, provided different topics are studied but it may be taken only twice for credit toward a major or minor in economics.  
Prereq: One 100-, 200-, or 300-level course in economics.  

**ECON 301 Intermediate Macroeconomic Analysis**  3 hrs  
Examines macroeconomic theories of the determination of national income, employment, the price level, interest rates and economic growth; and linkages between the domestic and international economies. Topics include unemployment, inflation, monetary and fiscal policy, and the policy positions of various schools of thought. Standard analytical tools, such as IS-LM and aggregate demand and supply are examined.  
Prereq: ECON 201 and ECON 202, MATH 105, MATH 118, MATH 119 or MATH 120.  

**ECON 302 Intermediate Microeconomic Analysis**  3 hrs  
Analyzes contemporary theories of consumer and firm behavior, prices, and resource allocation. Examines firm behavior for several market structures, and evaluates the efficiency and equity implications of market outcomes.  
Prereq: ECON 201 and ECON 202, MATH 105, MATH 118, MATH 119 or MATH 120.  

**ECON 310 Economic Statistics**  3 hrs  
Introduction to the statistical measurement and analysis of data with applications to economics. Elements of descriptive statistics, probability, random samples, point and interval estimation, hypothesis testing, and regression analysis are examined.  
Prereq: MATH 105, MATH 118, MATH 119 or MATH 120.  

**ECON 318 Labor Economics**  3 hrs  
Analysis of the theory of wage determination, with attention to labor supply and labor demand, human resource development, trade unions, and labor market institutions.  
Prereq: ECON 201 and ECON 202 or equivalent.  

**ECON 321 Minority Workers in the Labor Market**  3 hrs  
Special problems and unique employment situations of minority workers (racial and ethnic minorities, women, handicapped) involving historical and market influences, and employer, union, and government policies. Recent and proposed legislation affecting the labor force status of minorities.  
Prereq: One 100-, 200-, or 300-level course in economics.  

**ECON 322 American Labor Unions**  3 hrs  
The nature, characteristics, and principles of American labor unionism; the government and structure of unions and their role in the economy.  
Prereq: One 100-, 200-, or 300-level course in economics.  

**ECON 323 Labor and Government**  3 hrs  
The economic aspects of labor legislation and governmental administrative rulings affecting unions and union-employer relations.  
Prereq: One 100-, 200-, or 300-level course in economics.  

**ECON 324 Unionism in the Public Sector**  3 hrs  
The origins, goals and methods of union organization of public sector employees. Emphasis on teachers and other public employees at state and local levels.  
Prereq: One 100-, 200-, or 300-level course in economics.  

**ECON 325 Collective Bargaining**  3 hrs  
Major problems in present-day collective bargaining including the negotiation of collective agreements, practical aspects and economic implications.  
Prereq: One 100-, 200-, or 300-level course in economics.  

**ECON 327 Economics of Poverty, Inequality and Discrimination**  3 hrs  
An economic analysis of poverty and income inequality in the U.S., including the effects of discrimination. Examining U.S. income maintenance programs, including social security. Includes international comparisons.  
Prereq: ECON 100, ECON 200, ECON 201 or ECON 202.  

**ECON 328 Economics of Women**  3 hrs  
The changing economic role of women in the labor force. Analysis of policies affecting earnings, employment, and work and family issues in traditional and nontraditional occupations. Includes some international comparisons.  
Prereq: One 100-, 200-, or 300-level course in economics.  

**ECON 329 Economics of Crime**  3 hrs  
The use of economic concepts and tools to analyze economic causes of crime and economic policies relevant to crime.  
Prereq: ECON 202 or equivalent.  

**ECON 332 Urban Economics**  3 hrs  
The level, distribution, stability and growth of urban income and employment. Analysis of contemporary urban problems, such as inner-city poverty, housing, land use, transportation and local public services with special reference to economic efficiency and programs.  
Prereq: ECON 201 and ECON 202 or equivalent.  

**ECON 336 Economics of Environment and Natural Resources**  3 hrs  
The application of economic concepts and analysis to problems of environment and management of natural resources.  
Prereq: ECON 202 or equivalent.  

**ECON 337 Energy Economics and Policies**  3 hrs  
Introduction to the economics of energy in the U.S. and world economies, including a critical analysis of the policies of the governments involved.  
Prereq: ECON 202 or equivalent.
ECON 338 Land Economics 3 hrs
The use of land in modern society, including a critical economic evaluation of alternative and optimal uses of land.
Prereq: ECON 201 and ECON 202 or equivalent.

ECON 340 Money and Banking 3 hrs
The nature and role of money and credit; the banking system and other financial institutions, and the relation of monetary policy to the level of economic activity.
Prereq: ECON 201 and ECON 202 or equivalent.

ECON 350 Government Finance 3 hrs
An examination of theory, institutions and problems of financing the public sector; the effects of expenditures, taxes and other revenue sources, borrowing, debt management, and grants-in-aid at all levels of government upon the distribution of national income and upon the allocation of resources.
Prereq: ECON 201 and ECON 202 or equivalent.

ECON 361 Corporation Finance 3 hrs
The structure, financial organization, income and policy decisions of corporations.
Prereq: One 100-, 200-, or 300-level course in economics.

ECON 370 Comparative Economic Systems 3 hrs
Alternative approaches to organizing economic activity, emphasizing advantages and disadvantages as compared to the U.S. economic system. Illustrations are taken from noncapitalist economies such as Cuba and China.
Prereq: One 100-, 200-, or 300-level course in economics.

ECON 375 Economic History of the United States 3 hrs
The economic development of the United States.
Prereq: One 100-, 200-, or 300-level course in economics.

ECON 377/378/379 Special Topics 1/2/3 hrs
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.
Prereq: ECON 201 and ECON 202.

ECON 385 Economic Development 3 hrs
The causes, the consequences and possible solutions of economic problems facing the developing countries of Latin America, Africa and Asia. Emphasis on mass poverty, food shortages, overpopulation, unemployment and unequal income distribution.
Prereq: One 100-, 200-, or 300-level course in economics.

ECON 386 Technology and Economic Growth 3 hrs
The nature of technology and its importance for contemporary economic growth. Includes technological change and its effects on society and the individual.
Prereq: One 100-, 200-, or 300-level course in economics.

ECON 387 Cooperative Education in Economics 3 hrs
Provides practical experience in the student's major field for four to six months of full-time employment at an individual employer. The program consists of one or two work experiences (ECON 387 and ECON 487) alternating with full-time attendance at the University. A written report is required at the end of each employment period. Admittance to program by application only. Graded on a credit/no credit basis. Credits count a maximum of three hours toward degree requirements in the labor studies program and none in the economics major or minor.
Prereq: ECON 201, ECON 202, and department permission.

ECON 401 Computer Applications in Macroeconomics 3 hrs
Test of various hypotheses of consumption function, investment function, demand for money function, supply of money process, aggregate production function, and labor supply and demand functions. Problems of aggregation and structural vs. reduced-form estimations.
Prereq: ECON 301 and ECON 310, or equivalent.

ECON 402 Computer Applications in Microeconomics 3 hrs
Applied linear and nonlinear models of the consumer and the firm. Estimates demand functions (for example housing demand and energy demand), cost functions and production functions.
Prereq: ECON 302 and ECON 310, or equivalent.

ECON 405 Economic Analysis for Business 3 hrs
Analytical tools and methods of economic theory used in business management, focusing on production, cost, pricing and investment. Application includes demand estimation and economic forecasting.
Prereq: ECON 201 and ECON 202.

ECON 406 History of Economic Thought 3 hrs
A review of the development of economic thought from the age of mercantilism to present times, with the particular emphasis on landmark contributions of writers such as Adam Smith, Karl Marx, Alfred Marshall, J. M. Keynes, and significant 20th-century economists.
Prereq: ECON 201 and ECON 202.

ECON 407 Economic Analysis and Law 3 hrs
The application of economic analysis to the law, including property law, contract law, family law, torts, criminal law, constitutional law, antitrust and environmental law.
Prereq: ECON 201 and ECON 202.

ECON 415 Introduction to Econometrics 3 hrs
Introduction to the mathematical formulation of economic theories. The use of statistical procedures to measure the theoretical relationships and to verify or reject the theories. Quantitative predictions, measurements and statistical test of the predictions.
Prereq: ECON 310 or MATH 370 or DS 265.

ECON 420 Comparative Labor Unionism 3 hrs
Comparative survey of labor union movements in various economies. Differences in theories behind the movement to organize the working class, and differences in union movement evolution, giving ideological and functional perspective.
Prereq: ECON 201 and ECON 202.

ECON 436 Health Economics 3 hrs
The production, distribution, supply and utilization of health care resources, especially in the United States. Relevant tools of economic analysis and empirical studies, allocation of resources to the health care sector.
Prereq: ECON 201 and ECON 202, or equivalent.

ECON 440 Money, Credit, and Monetary Policy 3 hrs
An analytical study of the theories of money demand and money supply. Also studied are commercial banking and the operations and conduct of Federal Reserve monetary policy under alternative policy procedures and economic disturbances. The subject is viewed from both domestic and international perspectives.
Prereq: ECON 301 or ECON 440.

ECON 445 Economic Fluctuations and Forecasting 3 hrs
Study of the history, nature and causes of economic fluctuations. Also included are alternate approaches to economic forecasting used by business and government including econometric forecasting; and the role of monetary and fiscal policies, supply shocks, international factors and structural change in generating economic fluctuations.
Prereq: ECON 201 and ECON 202.

ECON 455 Cost-Benefit Analysis 3 hrs
Cost-benefit analysis techniques and their application to evaluating economic efficiency of government expenditure programs. Determination and distribution of benefits and costs in specific public projects.
Prereq: ECON 201 and ECON 202.
complexities of style and structure variations in The program's offered by the Department of English Language are designed to enhance a student's understanding and skill in literature, English language, and composition, and written communication. These programs also prepare students for a broad range of careers, especially those that are media-related and require the ability to read carefully, write clearly, and understand the complexities of style and structure variations in the language.

Degrees Offered
Bachelor of Arts
Bachelor of Science

Programs of Study
Majors
English language
English linguistics
Journalism
Literature
Written communication with concentration in imaginative writing
Written communication with concentration in professional writing

Written communication with concentration in technical communication

Interdisciplinary and Group Majors
Children's literature and drama/theater for the young
Language, literature and writing
Language, literature and writing for secondary education
Public relations

Minors
Children's literature
English language
Language, literature and writing
Language, literature and writing for secondary, K-12, and special education-secondary
English linguistics
Journalism
Literature
Writing

Advising is available from faculty advisers whose names and office hours are posted in the English Department office.

Special requirements for students seeking admission to the written communication major include evidence that their GPA is at least 2.5 at the end of the sophomore year.

Students who score above 550 on the verbal part of the SAT or 25 on the English section of the ACT and whose high school GPA was 2.5 or above may choose to enroll in a basic language course in a foreign language (FRNH/GERN/SPPH 121, 122, 221, or 222) instead of ENGL 121 English Composition.

Graduate study leads to the master's degree in English. The M.A. degree is described in the graduate catalog.

Language, Literature and Writing Major

General studies .................................................. 43 hours
General education requirements .................................. 41 hours
Physical education/graduation requirement ....................... 2 hours
Language, literature and writing major .......................... 36 hours
Required courses .................................................. 6 hours
LING 201 An Introduction to Linguistics ........................ 3
LING 227 Writing about Literature (satisfies general education requirement I.3) .......................... 3

An introductory course on the composing process, with emphasis on writing short expository essays that follow the conventions for paragraphing, syntax, diction and punctuation in standard American English. Required of students whose SAT verbal scores are below 430 or whose ACT English scores are below 19, as space permits. These students must take ENGL 120 during their first semester at EMU as a prerequisite for ENGL 121. ENGL 120 does not apply toward the general education requirements.

**ENGL 121 English Composition** 3 hrs

The fundamental skills of reading, reasoning and writing with emphasis upon the reading and analysis of prose selections and upon basic writing matters, such as thesis, organization, support and development, paragraphing, sentence structure, word choice, punctuation and documentation. Frequent papers and conferences.

**ENGL 177/178/179 Special Topics** 1/2/3 hrs

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied. Prereq: Department permission.

**ENGL 225 Intermediate English Composition** 3 hrs

A course that explores the principles and strategies of effective writing with emphasis on argument and persuasion. Prereq: ENGL 121 and sophomore or graduate standing.

**ENGL 227 Writing about Literature** 3 hrs

An intermediate writing course that introduces students to a variety of critical approaches to literature and that teaches reading and writing as interrelated activities. Prereq: ENGL 121 and two courses in literature or graduate standing. Major or minor in the English Department or department permission.

**ENGL 277/278/279 Special Topics** 1/2/3 hrs

An examination of topics in English not covered in other departmental offerings. Students may elect this course more than once, provided different topics are studied. Prereq: ENGL 121.
ENGL 323 Writing in the Professional World 3 hrs
Prepares juniors and seniors majoring in education, the humanities and the social sciences to write in their profession. 
Prereq: ENGL 212 and junior or graduate standing. Not open to students with credit in ENGL 324.

ENGL 324 Principles of Technical Communication 3 hrs
A course for juniors and seniors who wish to study the style and focus of communication that is particularly appropriate to the fields of science and technology. 
Prereq: ENGL 212 and junior or graduate standing. Not open to students with credit in ENGL 323.

ENGL 326 Research Writing 3 hrs
A course designed to explore the strategies, format and styles of writing appropriate for academic research with emphasis on the student's own field of study. 
Prereq: ENGL 212 and junior or graduate standing.

ENGL 328 Writing: Style and Language 3 hrs
An advanced writing course focusing on the interrelationships among purpose, audience, style, the social and political nature of language, and electronic writing. 
Prereq: JRN 215, or ENGL 225, or ENGL 323, or ENGL 324, or ENGL 326.

ENGL 335 Imaginative Writing 3 hrs
The study and practice of the techniques of imaginative writing, including poetry and prose fiction. The elements of narration, inclusion description, character development, plot structure and dialogue will be emphasized. Course may be repeated for additional credit if topic is different. 
Prereq: One 200- or 300- or 400-level LITR course.

ENGL 377/378/379 Special Topics 1/2/3 hrs
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied. 
Prereq: Department permission.

ENGL 387 Cooperative Education in English 3 hrs
Employment for pay in a business or industry chosen to provide practical experience in the use of English skills. Work experiences generally are alternated with full-time attendance at the University. 
Prereq: Junior standing. Admission by application only.

ENGL 408 Writing for Writing Teachers 3 hrs
A writing course for students preparing to teach English in secondary schools. Students develop their skills as writers and learn how to teach writing. Special focus on recent composition research, theory, and practices, and on strategies, materials and evaluation techniques. 
Prereq: Any two ENGL courses at the 200, 300 or 400 level. Admission to the College of Education.

ENGL 409 Teaching English in the Secondary Schools 3 hrs
For secondary English education majors with focus on appropriate methods and materials for teaching language arts in grades 7-12. Special attention will be given to lesson planning, evaluation techniques and classroom management. Does not count toward academic majors or minors. Taken the term before student teaching. 
Prereq: CURR 305. Taken the term before student teaching. Not open to students on academic probation. Must have at least a 2.75 GPA in major.

ENGL 417 Writing about Controversies 3 hrs
The reading, analysis, and writing of argumentative essays on different types of controversies, with emphasis on how to use various types of arguments and appeals for different readers and on the different forms of written arguments. 
Prereq: Any two ENGL courses at the 200- or 300-level.

ENGL 422 Writer's Workshop: Fiction or Poetry 3 hrs
A seminar workshop for the student who wants more experience in imaginative writing. The class schedule will specify fiction or poetry for each particular workshop. This course may be repeated for additional credit if topic is different. 
Prereq: ENGL 335 and two 200- or 300- or 400-level LITR courses.

ENGL 424 Technical Writing 3 hrs
An advanced workshop that prepares students to communicate, particularly to write, on the job. 
Prereq: ENGL 324.

ENGL 427 Technical Editing 3 hrs
Editing of technical material for publication. Principles of style, format, graphic layout and publication management. 
Prereq: ENGL 324.

ENGL 428 Writing Computer Documentation 3 hrs
An advanced writing course that introduces students to the principles of designing, preparing and testing documents common in the computer industry, particularly software documentation for users. 
Prereq: COSC 136 and ENGL 324, or department permission.

ENGL 450 Children's Literature: Criticism and Response 3 hrs
Practical criticism of children's literature, prose and poetry, designed to help students develop critical judgment and a clear prose style. Applies toward the minor in children's literature and the interdisciplinary major in children's literature and drama/theatre for the young. 
Prereq: LITR 207.

ENGL 451 Writing about Controversy in Literature for the Young 3 hrs
This course will deal with strategies for the collection, organization and presentation of materials dealing with controversial issues in literature for young adults. 
Prereq: ENGL 121 and LITR 207, or department permission.

ENGL 477/478/479 Special Topics 1/2/3 hrs
An examination of topics in English not covered in other departmental offerings. Students may elect this course more than once, provided different topics are studied. 
Prereq: ENGL 212 and one writing course at the 200 level or above, or department permission.

ENGL 484 Seminar in Written Communications 3 hrs
A seminar requiring students to assess their progress in the major and to consider how their beliefs and practices concerning written communications relate to larger social and rhetorical considerations. Portfolio. 
Prereq: ENGL 328 and ENGL 424.

ENGL 487 Cooperative Education in English 3 hrs
Employment for pay in a business or industry chosen to provide practical experience in the use of English skills. Work experiences generally are alternated with full-time attendance at the University. 
Prereq: Senior standing. Admission by application only.

ENGL 488/489/490 Internship in Technical Writing 1/2/3 hrs
Optional, practical on-the-job work experience for recommended students electing an opportunity provided by the department or finding an appropriate outside opportunity subsequently approved by the intern supervisor; paid or nonpaid. One hour credit for 10-15 hours per week; two hours for 16-25 hours; three hours for 26 and above. 
Prereq: Junior or senior standing and recommendation of technical writing professor. ENGL 324; cumulative 3.0 GPA.

ENGL 497/498/499 Independent Study 1/2/3 hrs
An intensive study of a topic not offered in the regular curriculum, the particular topic to be defined (and credit hours set) by the teacher and student, subject to approval by the curriculum committee. Restricted to students taking majors or minors in the English Language and Literature Department. 
Prereq: Nine hours in the appropriate major or minor.
Journalism and Public Relations Courses

**JRN 177/178/179 Special Topics**
1/2/3 hrs
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.
Prereq: Department permission.

**JRN 213 Introduction to the Print Media**
3 hrs
An exploration into the multiple effects of print media on American popular culture and vice versa. Understanding the business of news, features, editorials, comics and other media formats. Tracking the development of contemporary media research. Learning to become critical consumers of print media. Student media research.

**JRN 215 Journalism**
3 hrs
An introduction to newspaper reporting. Learning to gather information and to write in an approved journalistic style. Courses offer practical instruction and working exercises in interviewing, news story development, lead writing and editing skills. Substantial use of computer lab.
Prereq: Sophomore standing.

**JRN 277/278/279 Special Topics**
1/2/3 hrs
An examination of topics in journalism not covered in other departmental offerings. Students may elect this course more than once, provided different topics are studied.
Prereq: Sophomore standing.

**JRN 305 Editorial, Column, and Review Writing**
3 hrs
Writing of interpretive articles, editorials, reviews and columns. Aimed at developing the student's critical faculties; it includes the study of public opinion and the efforts to change it, the rhetorical principles of argumentation and persuasion, and the aesthetic principles guiding criticism in the arts.
Prereq: JRN 215.

**JRN 306 Feature Writing**
3 hrs
Writing of feature and interpretive articles and editorials designed for newspapers or magazines. Emphasis on research, interviewing and logical presentation of informative material. Writing assignments and analysis of writing in the mass media.
Prereq: JRN 215.

**JRN 307 Copy Editing**
3 hrs
Practical application of professional techniques for editing copy for newspapers, magazines and books, including basic headline writing, use of pictures, and understanding the laws of libel and copyright and the rights of privacy.
Prereq: JRN 215 and JRN 306.

**JRN 311 Editing Procedures**
3 hrs
Presentation of the written word on the printed page relative to the use of photographs and other illustrations; copy fitting, printers' markings, visual concepts, typographical selection, page makeup, working with graphic artist and printer.
Prereq: JRN 215.

**JRN 312 Introduction to Public Relations**
3 hrs
Definition, historic aspects, evolution and ethics of public relations; the practical use of public relations by corporations, not-for-profit organizations, businesses, institutions and government; correlation of written, oral and visual skills.
Prereq: JRN 215; and CTAS 121 or CTAS 124.

**JRN 313 History of American Journalism**
3 hrs
A survey of the historical evolution of journalism in the United States, its involvement in the social, economic and political development of the national life and its influence on the decision-making process through its effect on public officials.
Prereq: Sophomore standing.

**JRN 314 Writing for Public Relations**
3 hrs
Practical experience in writing press releases, broadcast announcements, speeches and scripts to present a project or product; preparing brochures, newsletters, annual reports, memos and proposals; implementing public relations campaigns.
Prereq: JRN 312.

**JRN 377/378/379 Special Topics**
1/2/3 hrs
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.
Prereq: Department permission.

**JRN 387 Cooperative Education in Journalism/Public Relations**
3 hrs
Employment for pay in the print media, public relations or publishing fields to provide practical experience for skills learned in the classroom. Work experiences generally are alternated with full-time attendance at the University.
Prereq: Junior or senior standing; admittance by application to the Cooperative Education Office and recommendation approved by a journalism professor.

**JRN 408 Case Studies in Public Relations**
3 hrs
Solving problems and managing controversy in the day-to-day pursuit of public relations; legal considerations; crisis communication; professionalism and public responsibility in public relations.
Prereq: JRN 312 and JRN 314.

**JRN 423 Magazine Article Writing**
3 hrs
A writing course to develop skills in investigating and writing nonfiction articles longer and more complex than feature or background articles in daily newspapers. Emphasis on individual completion of articles of professional quality.
Prereq: ENGL 328 or JRN 306.

**JRN 453 Advanced Reporting**
3 hrs
Writing of news stories dealing with such topics as courts, politics, government, finance, labor, education, etc. Emphasis on study and research to provide articles of depth.
Prereq: JRN 215.

**JRN 454 Contemporary Problems in Journalism**
3 hrs
Emphasis on student investigation, reporting and writing on select problems such as free press vs. fair trial, media accessibility, and the people's right to know.
Prereq: Junior standing.

**JRN 455 Journalism and the Law**
3 hrs
A senior professional course exploring issues of libel, privacy, free press-fair trial and the First Amendment.
Prereq: JRN 454.

**JRN 477/478/479 Special Topics**
1/2/3 hrs
An examination of topics in journalism not covered in other departmental offerings. Students may elect this course more than once, provided different topics are studied.
Prereq: Junior standing and department permission.

**JRN 487 Cooperative Education in Journalism/Public Relations**
3 hrs
Employment for pay in the print media, public relations or publishing fields to provide practical experience for skills learned in the classroom. Work experiences generally are alternated with full-time attendance in the classroom.
Prereq: Junior or senior standing; admittance by application to the Cooperative Education Office and recommendation approved by a journalism professor.

**JRN 488/489/490 Internship in Journalism/Public Relations**
1/2/3 hrs
Optional, practical on-the-job work experience for recommended students electing an opportunity provided by the department or finding an appropriate outside opportunity subsequently approved by the intern supervisor; paid or nonpaid. One hour credit for 10 hours work per week; two hours for 11-17 hours; three hours for 18 and above.
Prereq: Junior or senior standing and recommendation of journalism professor.
**English Language and Linguistics Courses**

**LING 177/178/179 Special Topics**  
1/2/3 hrs  
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**LING 201 An Introduction to Linguistics**  
3 hrs  
An introduction to phonology, morphology, syntax, the lexicon, semantics, sociolinguistics, psycholinguistics and other concerns.  
Prereq: Sophomore standing.

**LING 205 English Words**  
3 hrs  
Principles of sound, form and meaning relationships facilitate the student's mastery of word structure, spelling, use and comprehension in a language science approach to the analysis of native English words and the foreign vocabulary that is frequently used in English speech and writing. Addresses linguistic, social, historical and other factors in the development of English, fostering greater linguistic sophistication and appreciation for the richness of the English language.

**LING 277/278/279 Special Topics**  
1/2/3 hrs  
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**LING 310 African American Language**  
3 hrs  
A survey of the history of African American language from African origins to the present day. Details of the structure (i.e., sounds, words, sentence and discourse patterns) of African American English and its functions in American culture, from everyday language use to its employment in literature and other verbal arts. Special attention is paid to issues resulting from contact between different language varieties and the pervasiveness of linguistic diversity in the U.S. and around the world.  
Prereq: LING 201, or LINGE 223, or AAS 101.

**LING 322 Languages of the World**  
3 hrs  
A survey of the variety of language and language groups of the world. Topics covered include origins of human language, language relationships, the ways language changes and why, unusual writing systems, and linguistic exoticism.

**LING 340 Language and Culture**  
3 hrs  
An introduction to a linguistic view of language and the ways it is influenced by the cultural and social context. Topics covered may include but are not limited to: Argots, Jargon, Metaphor, Names, Kinship Systems, Cross-Cultural Communication, Ethnography of Communication, Dialectology and Sociolinguistics, Language and Ethnicity, and Language and Gender.  
Prereq: ANTH 125 or LING 201 or LINGE 223.

**LING 377/378/379 Special Topics**  
1/2/3 hrs  
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**LING 401 Introduction to Linguistic Science**  
3 hrs  
An introduction to linguistic theory and analytical procedures. Students will apply theoretical principles to problems of phonological and syntactic analysis.  
Prereq: LING 201 or LINGE 223.

**LING 402 Modern English Grammar**  
3 hrs  
An introduction to the grammar of modern English: problems in the description and analysis of English grammar.  
Prereq: Junior standing.

**LING 415 Women and Language**  
3 hrs  
This course analyzes the way that gender is reflected in language structure and linguistic behavior, in both English and other languages. It will consider such topics as gender-related vocabulary and morphology, gender differences in discourse styles, and the question of whether gender-related language differences have neurological correlates or are exclusively social in origin.  
Prereq: A 100-, 300- or 400-level LING course.

**LING 420 Introduction to Phonetics and Phonology**  
3 hrs  
An introduction to articulatory and acoustic phonetics and to the basic principles and methodology of phonological analysis.  
Prereq: LING 401.

**LING 421 The History of the English Language**  
3 hrs  
A study of the development of the language from its earliest stages to the present with attention to social influences as well as matters of sound, word formation and sentence structure.  
Prereq: LING 201 or LING 401.

**LING 425 Introduction to Syntax**  
3 hrs  
The development of a base in syntactic theory, learning both the mechanisms of a transformational grammar and the argumentation used in syntactic analysis.  
Prereq: LING 401.

**LING 426 Topics in Linguistics**  
3 hrs  
Advanced study in specific areas of linguistics for which the department does not regularly offer a course. The area to be studied will vary and will be determined by the field of specialization of the staff members and by student interest. This course may be taken more than once, providing the topics are different.  
Prereq: A 100-, 300- or 400-level LING course.

**LING 434 The Linguistic Analysis of Literature**  
3 hrs  
Examination of the linguistic knowledge which allows readers to recognize certain literary effects. Consideration of point of view shift, foregrounding, narrative time movement, presupposition, and other aspects of literary interpretation.  
Prereq: A 100-, 300- or 400-level LING course.

**LING 477/478/479 Special Topics**  
1/2/3 hrs  
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.  
Prereq: Department permission.

**LING 497/498/499 Independent Study**  
1/2/3 hrs  
Study of topics not offered in the regular curriculum, the particular topic to be defined (and credit hours set) by the instructor and student, subject to approval by the curriculum committee. Restricted to students taking majors or minors in the English Language and Literature Department.  
Prereq: Nine hours in the appropriate major or minor.

**Literature Courses**

**LITR 100 The Reading of Literature**  
3 hrs  
An introduction to the techniques of critical reading with equal emphasis on prose fiction, poetry and drama. Development of a fundamental understanding and enjoyment of reading.

**LITR 101 The Reading of Literature: Fiction**  
3 hrs  
Reading and critical analysis of prose fiction intended to deepen the student's understanding and enjoyment of prose fiction.

**LITR 102 The Reading of Literature: Poetry**  
3 hrs  
Reading and critical analysis of poetry intended to deepen the student's understanding and enjoyment of poetry.

**LITR 103 The Reading of Literature: Drama**  
3 hrs  
Reading and critical analysis of drama intended to deepen the student's understanding and enjoyment of drama.
LITR 106/CLAS 106 Rome and America 6 hrs
A comparison of the people and culture of ancient Rome and modern America, considering individual hopes and ideals, religious beliefs, and ideas about death, government, morality, love and sex. Team taught by a member of the English Department and a classicsist. These courses must be taken concurrently and satisfy two literature requirements. Note: See Honors Humanities Courses.

LITR 150 Humanity and Technology 3 hrs
A brief study of distinctive and influential perceptions of the impact of technology on human values just after the Industrial Revolution, with critical emphasis on problems concerning the use of special, refined technologies. Primary readings from Thoreau, Mark Twain, Henry Adams, Aldous Huxley, Lewis Mumford and Garrett Hardin. This course satisfies one literature requirement. Note: See Honors Humanities Courses.

LITR 177/178/179 Special Topics 1 1/2-3 hrs
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.
Prereq: Department permission.

LITR 181 The Legacy of Greece 3 hrs
An introduction to Greek epic, drama, poetry, history and philosophy, illustrating the influence of the Greek tradition on western civilization. The literature is read in English translation. Representative examples of Greek architecture and sculpture also are examined. Team taught by a classicsist and/or a member of the English Department. This course satisfies one literature requirement. Note: See Honors Humanities Courses.

LITR 204 Native American Literature 3 hrs
Study of the written and oral literature of the Native Americans, with emphasis upon the authored poetry, fiction, autobiography and essay of the twentieth century.
Prereq: One 100- or 200-level LITR course.

LITR 207 Introduction to Children's Literature 3 hrs
A concentrated reading course designed to impart the knowledge necessary for an appreciation and understanding of children's literature and its use in the schools. In addition to reading the classics and the critically acclaimed works of both fiction and nonfiction by modem writers, students will study poetry, folklore and mythology and examine the relationship between illustration and text. Does not count toward a major or minor in curricula for teachers in junior and senior high school.
Prereq: Sophomore standing.

LITR 219 Introduction to Shakespeare 3 hrs
An introduction to at least five of Shakespeare's plays with emphasis upon the tragedies.
Prereq: One 100- or 200-level LITR course.

LITR 251 The Bible as Literature 3 hrs
Introduction to the literary study of the Bible. The Old Testament is represented chiefly by specimens of narrative and prophetic writings; the New Testament by selected incidents, parables and sayings from the life of Jesus as portrayed in the synoptic gospels. Discussion of Biblical influences upon English and American literature.
Prereq: One 100- or 200-level LITR course.

LITR 300 Narrative in Literature and Film 3 hrs
A study of the aesthetic parallels in narrative technique between certain prose forms (novel, novella, romance, satire) and film as a means of enhancing verbal and visual literacy.
Prereq: Two 100- or 200- or 300-level LITR courses.

LITR 309 The Development of American Literature 3 hrs
A survey of American literature from colonial times to 1890, including such writers as Bradsrsteet, Franklin, Hawthorne, Melville, Thoreau, Emerson, Whitman, Dickinson, Twain and James.
Prereq: Two 100- or 200- or 300-level LITR courses.

LITR 310 Modern American Literature 3 hrs
A study of American literature from 1890 to the present, including such writers as Amev, Carver, Eliot, O'Neill, Fitzgerald, Faulkner, Hemingway, Bel­low, Baldwin, O'Connor and Updike.
Prereq: Two 100- or 200- or 300-level LITR courses.

LITR 312 English Literature in the Middle Ages 3 hrs
A survey of Old and Middle English literature from Beowulf to Malory, tracing the themes, genres and literary techniques of early English literature.
Prereq: Two 100- or 200- or 300-level LITR courses.

LITR 314 English Renaissance Prose and Poetry 1500-1660 3 hrs
Major authors from the age of Shakespeare to the close of the Renaissance, including the humanists, lyric poets, Spencer, Bacon, Donne and the metaphysicals, and Milton.
Prereq: Two 100- or 200- or 300-level LITR courses.

LITR 315 Literature of the Neo-Classical Period 1660-1798 3 hrs
A study of English literature from the Restoration of Charles II through the second half of the 18th century: Dryden, Swift, Pope, Johnson, Goldsmith, Gray, Collins and others.
Prereq: Two 100- or 200- or 300-level LITR courses.

LITR 316 Romantic Rebellion in Britain 1798-1832 3 hrs
A study of the shift in literary emphasis in Britain from reason to the emotions, imagination and individualism in the works of Wordsworth, Coleridge, Lamb, DeQuincey, Hazlitt, Byron, Shelley and Keats.
Prereq: Two 100- or 200- or 300-level LITR courses.

LITR 317 Victorian and Edwardian Literature 1832-1914 3 hrs
A study of prose and poetry of such authors as Carlyle, Mill, Tennyson, Browning, Ruskin, Arnold, Hopkins, Swinburne, Hardy, Pater, Wilde, Kipling and others.
Prereq: Two 100- or 200- or 300-level LITR courses.

LITR 351 World Mythology 3 hrs
A study of the mythological traditions that have most significantly informed western civilization. The myths are discussed as literature and as people's attempts to understand themselves, their society and their physical environment.
Prereq: Two 100- or 200- or 300-level LITR courses.

LITR 352 Folk Literature: Ballads and Folk Tales 3 hrs
A reading course in the traditional ballads and folk tales of Europe and North America with emphasis on those that appear in children's literature. Applies toward minor in literature, but may be taken as a free elective.
Prereq: Two 100- or 200- or 300-level LITR courses.

LITR 360 Recent Trends in British and American Literature 3 hrs
A study of innovations in recent British and American poetry, fiction or drama. The particular focus of the course to be taught in a given semester will be announced in the class schedule bulletin.
Prereq: Two 100- or 200- or 300-level LITR courses.

LITR 377/378/379 Special Topics 1 1/2-3 hrs
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.
Prereq: Department permission.
LITR 405 Shakespeare
A study of at least eight of the principal plays.
Prereq: Three 100- or 200- or 300-level LITR courses. 3 hrs

LITR 411 Studies in Epic and Romance
A critical reading of foreign (in translation) and English epics and romances (and their sources). The treatment will be both historical and comparative.
Prereq: Three 100- or 200- or 300-level LITR courses. 3 hrs

LITR 413 The Poetry of Chaucer
An introduction to the major works of Chaucer: a close reading of representative poetry.
Prereq: Three 100- or 200- or 300-level LITR courses. 3 hrs

LITR 420 Studies in the British Novel
This course will explore the emergence and development of the novel as a popular genre in English literature, with special emphasis on the cultural, political, and historical conditions that both reflect and help to construct.
Prereq: Three 100- or 200- or 300-level LITR courses. Sophomore standing or above. 3 hrs

LITR 421 Studies in the American Novel
A study of the American novel from its beginnings in the 19th century to the present, with particular emphasis on its development over time.
Prereq: Three 100- or 200- or 300-level LITR courses. Sophomore standing or above. 3 hrs

LITR 422 Studies in the Novel in Global Perspective
A study of the novel outside England and the United States, with particular emphasis on generic variations that reflect political and social forces within specific contexts.
Prereq: Three 100- or 200- or 300-level LITR courses. Sophomore standing or above. 3 hrs

LITR 430 Studies in Drama
A study of drama as it develops over time and is shaped by changing literary and social practices, including but not limited to the early British drama, restoration comedy, modern drama and English theatre in a global perspective.
Prereq: Three 100- or 200- or 300-level LITR courses. Sophomore standing or above. 3 hrs

LITR 440 Genre Studies
A study of the characteristics of a particular literary genre, independent of chronology, theme or author.
Prereq: Three 100- or 200- or 300-level LITR courses. 3 hrs

LITR 443 Women in Literature
A study of women and their experiences as described in literature.
Prereq: Two 100- or 200- or 300-level LITR courses. 3 hrs

LITR 450 Major Authors
An intensive study of a major literary figure or a group of related authors. The particular author to be taught in a given semester will be announced in the class schedule bulletin.
Prereq: Three 100- or 200- or 300-level LITR courses. 3 hrs

LITR 453 Children's Literature: Picture Books
Intensive study of the picture book, emphasizing its development, major illustrators and their works, interaction of text and illustration to create meaning, its reflection of cultural values, and critical apparatus for interpretation and evaluation.
LITR 454 Children's Literature: Fiction
An intensive study of major works of fiction for children with emphasis placed upon literary criticism, textual analysis, and wide reading. Students will write papers, present oral reports, and be tested regularly. 3 hrs

LITR 470 Studies in Poetry
A study of different poetic genres in English literature as they develop over time and are shaped by changing aesthetic conventions and social practices.
Prereq: Three 100- or 200- or 300-level LITR courses. Sophomore standing or above. 3 hrs

LITR 477/478/479 Special Topics
An examination of topics in literature not covered in other departmental offerings. Students may elect this course more than once, provided different topics are studied.
Prereq: Three 100- or 200- or 300-level LITR courses. 1/2/3 hrs

LITR 480 Studies in Literature and Culture
A seminar course devoted to theorizing and articulating the relationships between literature and culture.
Prereq: Three 100- or 200- or 300-level LITR courses. Sophomore standing or above. 3 hrs

LITR 490 Senior Seminar
This seminar requires students to understand and analyze literature in English from different historical and cultural perspectives, with an emphasis on current trends in literary theory.
Prereq: Senior majors in literature or language, literature and writing. 3 hrs

LITR 497/498/499 Independent Study
Study of topics not offered in the regular curriculum, the particular topic to be defined (and credit hours set) by the teacher and student, subject to approval by the curriculum committee. Restricted to students taking majors or minors in the English Language and Literature Department.
Prereq: Nine hours in the appropriate major or minor. 1/2/3 hrs

The Department of Foreign Languages and Bilingual Studies offers a variety of traditional and innovative majors and minors in French, German, Japanese, Spanish and English as a second language; a minor in classical studies; a group minor in bilingual-bicultural teacher education leading to either elementary or secondary certification; a group minor in teaching English to speakers of other languages; a group major in language and international trade; a joint degree program (B.A./B.B.A.) in language and world business, and a joint major in language, journalism, telecommunications and film.

Students in the language and international trade program with concentrations in business French, German and Spanish are eligible to take examinations administered by Eastern Michigan University leading to certification in their fields.

Degrees Offered
Bachelor of Arts
Bachelor of Science

Programs of Study
Majors
Language and International Trade
Language and world business
French for business
French for secondary education
French language and literature
Department Residency Requirements:

1. "Residency," for the purposes of this section, means registering for, attending, and successfully completing the required courses.

2. Major or minor in language, business language, literature or culture (not Language and International Trade):
   Department residency requirements are that majors in a foreign language must complete at EMU 12 credit hours consisting of the appropriate courses at the 300 or 400 level for the major chosen. Minors in the foreign language must complete either a) 343 and 344, or b) six (6) hours at the 400 level for which the student has the prerequisites.

3. Language and international trade major:
   Students must complete at EMU the following nine credit hours in French, German, Japanese or Spanish: 361, 446 and 447.

Oral proficiency interview requirement:
All students on teaching curricula in Foreign Languages and Bilingual Studies shall be rated in the last semester prior to graduation through an interview conducted by an oral proficiency tester certified by ETS-ACTFL.

Graduate study leads to the master of arts degree in Spanish (bilingual bilingual cultural education); in language and international trade; in foreign language with concentrations in French, German and Spanish; and in TESOL (Teaching English to Speakers of Other Languages). A major emphasis in French, German or Spanish also can be developed through the master’s degree in secondary school teaching or the master’s degree in individualized studies. The M.A. degrees are described in the graduate catalog.

English as a second language

English as a second language (ESLN) courses are taught in the Foreign Languages and Bilingual Studies Department. These courses carry academic credit; up to 20 hours of ESLN credits may be used as elective credits required for graduation.

Three levels of ESLN instruction are offered: intermediate, advanced and academic support, in both fall and winter terms. Only advanced and academic support levels are offered in the combined spring-summer term.

Admission status is based on the first English proficiency score that students send to the University. If a later test results in a higher score, it also should be sent to the Office. All scores must arrive two weeks before the first day of the term.

Students admitted with an official (not institutional) score of 72 or above on the Michigan English Language Assessment Battery (MELAB) or of 500/173 (paper/computer) or above on the Test of English as a Foreign Language (TOEFL) will not be required to take any ESLN courses. Students admitted with scores of less than 72 or 500/173 (paper/computer) are required to take the departmental placement test before registering. Depending upon test results, students will be placed in either part-time or full-time English (two, three, four or five courses of ESLN) during their first semester. Part-time English students will be allowed to register for other University classes. Students placing in full-time English may not take any other University courses until a later semester. Some students may require two consecutive semesters of full-time English before they can register in other courses.

Once placed in ESLN courses, students must complete each course with a grade of "C" or better in order to move on to the next-highest level the following semester. Students must immediately repeat all ESLN courses in which they receive a "C" or below. Students starting below the 400 level must continue to enroll in ESLN courses until two 400-level courses are taken. When students have successfully completed ESLN 412 and ESLN 414 or ESLN 416, their admission status is changed from conditional to regular. See page 11 under Admission Policies for information regarding conditional admission status.

As of fall 1990, ESLN 412 Academic ESL Writing (for international students) is considered the equivalent of ENGL 121 English Composition. ESLN 412 will therefore fulfill the general education requirement for English.

Failure to enroll in the required ESLN courses during the first semester, and any required subsequent semesters, will result in the cancellation of University enrollment and a possible loss of tuition for that semester.

Regular University academic probation and dismissal policies apply to students enrolled in ESLN.

Advising Coordinators:
Bilingual-bicultural teacher education (Spanish): Alfonso Illingworth-Rico
English as a second language: Thomas J. Cullen
French: Genevieve Pellen
German: Margrit Zinggeler
Japanese language and culture teaching: Hitomi Oketani
TESOL: Elisabeth Morgan
Language and international trade: Ronald C. Cere
Spanish: Alfonso Illingworth-Rico
Language and world business: Ronald C. Cere

Language and World Business
(Joint B.B.A./B.A. Degree)

ISIS major code: BU02

The joint bachelor of business administration/bachelor of arts degree in language and world business is a double degree for undergraduates planning to enter a career in world business or international government and public administration. The major objective of the program is to prepare students for international careers with business and language skills, along with the knowledge needed to function effectively in the increasingly competitive world economy. The LWB joint degree provides students with both practical, on-site work experience as well as a thorough academic background in international affairs and world enterprise.

Group Major in Language and International Trade
ISIS major code: FL08

The major in language and international trade is designed to integrate the study of modern foreign languages and cultures with preparation in the field of international business. The major objective of the program is to provide students with the skills, knowledge and understanding needed to function in a foreign environment and in professional dealings with business people and clients who speak foreign languages. Students completing this group major will have met the major and minor requirements for graduation. No outside minor is needed.

General studies ................................................................. 49 hours
General education requirements ......................... 47 hours
Physical education/graduation requirement ........ 2 hours

Group major in language and international trade .................................. 60 hours

Required courses ..................................................................... 57

Business and economics courses ........................................... 30
Business minor ......................................................................... 21-24

Students must complete requirements for a minor in an operational area of business of their choosing. These areas include: economics, marketing, management, accounting, finance, business computer systems, general business and office administration, among others. Special combinations of business courses equivalent to a minor are possible in consultation with an advisor.

MKT 460 International Marketing ........................................ 3
One course from the following: ............................................. 3
ECON 370 Comparative Economic Systems (3)
ECON 480 International Economics (3)

Language and area studies courses .................................. 27

Language courses .................................................................... 18

Students must choose one language in which to specialize—we currently offer French, German, Japanese and Spanish—and must complete 18 hours in that chosen language. This 18-hour minimum must include:
FRNH/GERN/SPNH 343 French/German/Japanese
FRNH/GERN/SPNH 345 Composition
FRNH/GERN/SPNH 361 French/German/Japanese
FRHN/GERN/SPNH 444/447 Business French/German/Japanese

One additional language course at the 300 or 400 level and one additional language course at the 400 level (6)

Students with prior language study or knowledge will be placed at an appropriate level in consultation with an advising coordinator.

Geography/history courses .................................................. 6
One course from the following: ............................................. 3
GEOG 316/HIST 316 History and Geography of Modern Europe (6) or equivalent
GEOG 317/HIST 317 History and Geography of Spanish America (6) or equivalent
GEOG 326/HIST 326 History and Geography of Modern Asia (6) or equivalent

Equivalents to be determined by departmental business language advisor.

Political science courses .................................................. 3
One course from the following: ............................................. 3
PLSC 211 Introduction to Comparative Government (3)
PLSC 212 Introduction to International Politics (3)
PLSC 341 International Law (3)
PLSC 342 International Organizations (3)
PLSC 354 Government and Politics of Canada (3)
PLSC 367 Contemporary Political Systems of Latin America (3)
PLSC 412 Comparative Legal Systems (3)

Field experience ................................................................. 3
One course from the following: ............................................. 3
FRNH 489 Internship in Language and International Trade (3)
FRNH 387/FRNH 487 Cooperative Education in Foreign Language (3)

Elective courses ................................................................. 15 hours
Total ............................................................................... 124 hours

NOTE:
These courses satisfy both general education requirements and requirements of the major. In order to avoid taking excess hours, students are advised to take these courses, or approved substitutes from another institution, as part of the general education requirement.

Group Major in Language, Journalism, Telecommunications, and Film
ISIS major code: FL09

General studies ................................................................. 46 hours
General education requirements ......................... 44 hours
Physical education/graduation requirement ........ 2 hours

Group major in language, journalism, telecommunications, and film .......................................................... 60 hours

Language component .................................................. 20

Choose one of the languages (French, German or Spanish) and complete the following:

Required courses .................................................. 12
FRNH/GERN/SPNH 343 Composition (3)
FRNH/GERN/SPNH 344 Conversation (3)
FRNH/GERN/SPNH 443 Advanced Grammar and Composition (3)
FRNH/GERN/SPNH 444 Advanced Conversation (3)

Students with advanced language proficiency will select appropriate courses in consultation with the advising coordinator.

Restricted elective courses .............................................. 8

Eight credits in the language studied at any level.

Journalism component .................................................. 18-21

Required courses .................................................. 12
JRNL 215 Journalism .................................................. 3
JRNL 306 Feature Writing ............................................. 3
JRNL 307 Copy Editing ................................................. 3
JRNL 453 Advanced Reporting ...................................... 3

Restricted elective courses .............................................. 6-9

Six to nine credits from the following:
JRNL 311 Editing Procedures (3)
JRNL 313 History of American Journalism (3)
JRNL 314 Writing for Public Relations (3)
French Major
ISIS major code: FL01

It is recommended that students specializing in French, or planning to continue with graduate work, carry their undergraduate study beyond the minimum requirements listed below. Many graduate schools require additional course work in literature.

General studies .............................................................. 42 hours
  General education requirements .................................. 40 hours
  Physical education/graduation requirement ................. 2 hours
French major .............................................................. 30 hours
Required courses .......................................................... 18 hours
#FRNH 341 Survey of French Literature (satisfies general education requirement IV.1 or IV.2) ....... 3
#FRNH 342 Survey of French Literature (satisfies general education requirement IV.1 or IV.2) ....... 3
FRNH 343 French Composition ........................................ 3
FRNH 344 French Conversation ....................................... 3
FRNH 443 Advanced French Grammar and Composition .... 3
FRNH 444 Advanced French Conversation ...................... 3
Restricted elective courses .............................................. 12 hours
  Six credits at the 400 level; choose an additional six credits in French at any level.

Elective courses .............................................................. 18 hours
Total ................................................................................ 124 hours

NOTE:
#These courses satisfy both general education requirements and requirements of the major. In order to avoid taking excess hours, students are advised to take these courses, or approved substitutes from another institution, as part of the general education requirements.

German for Business Major
ISIS major code: FL64

Students in business German will be eligible to take examinations recognized by the German-American Chamber of Commerce, the Carl Duisberg Society and the Goethe Institute. All examinations are administered by Eastern Michigan University.

General studies .............................................................. 43 hours
  General education requirements ................................. 41 hours
  Physical education/graduation requirement ................ 2 hours
German for business major ............................................. 30 hours
Required courses .............................................................. 24 hours
#GERN 341 Survey of German Literature (satisfies general education requirement IV.1 or IV.2) ....... 3
#GERN 342 Survey of German Literature (satisfies general education requirement IV.1 or IV.2) ....... 3
GERN 361 German for International Trade ...................... 3
GERN 443 German Syntax and Advanced Composition .... 3
GERN 446 Business German I ........................................... 3
GERN 447 Business German II ......................................... 3

Minor ................................................................................ 20 hours
Elective courses .............................................................. 20 hours
Total ................................................................................ 124 hours

NOTE:
#These courses satisfy both general education requirements and requirements of the major. In order to avoid taking excess hours, students are advised to take these courses, or approved substitutes from another institution, as part of the general education requirements.
Additional German courses at the 400 level ........................................ 6
Restricted elective courses .............................................................. 6
Six credits in German at any level.

Minor .......................................................................................... 20 hours
Elective courses ............................................................................. 31 hours
Total .............................................................................................. 124 hours

NOTE:
#These courses satisfy both general education requirements and requirements of the major. In order to avoid taking excess hours, students are advised to take these courses, or approved substitutes from another institution, as part of the general education requirements.

German Language and Literature Major
ISIS major code: FL03

General studies ............................................................................. 43 hours
  General education requirements .................................................. 41 hours
  Physical education/graduation requirement ............................... 2 hours
  German language and literature major ......................................... 30 hours
  Required courses ........................................................................ 12
    #GERN 341 Survey of German Literature (satisfies general education requirement IV.1 or IV.2) ................................................................. 3
    #GERN 342 Survey of German Literature (satisfies general education requirement IV.1 or IV.2) ................................................................. 3
    #GERN 343 German Composition ............................................... 3
    GERN 344 German Conversation ............................................... 3
    GERN 443 German Syntax and Advanced Composition ............... 3
    GERN 444 Advanced German Conversation ............................. 3
  Restricted elective courses ............................................................ 12
    Six hours in German at the 400 level, choose six hours in German at any level.

Minor .......................................................................................... 20 hours
Elective courses ............................................................................. 31 hours
Total .............................................................................................. 124 hours

NOTE:
#These courses satisfy both general education requirements and requirements of the major. In order to avoid taking excess hours, students are advised to take these courses, or approved substitutes from another institution, as part of the general education requirements.

Spanish Major
ISIS major code: FL05

The courses listed below meet the minimum requirements only; it is recommended that students specializing in Spanish, or planning to continue with graduate work, carry their undergraduate study beyond the minimum. Many graduate schools require additional course work in literature.

General studies ............................................................................. 49 hours
  General education requirements .................................................. 47 hours
  Physical education/graduation requirement ............................... 2 hours
  Spanish major .............................................................................. 30 hours
  Required courses ........................................................................ 12
    SPNH 343 Spanish Grammar and Composition .......................... 3
    SPNH 344 Spanish Conversation and Composition ..................... 3
    SPNH 443 Advanced Spanish Grammar and Composition ............ 3
    SPNH 444 Advanced Spanish Conversation and Composition .... 3
  Restricted elective courses ............................................................ 18
    12 hours in Spanish at the 300 level or above; choose six hours at any level in consultation with the advising coordinator.

Minor .......................................................................................... 20 hours
Elective courses ............................................................................. 25 hours
Total .............................................................................................. 124 hours

NOTE:
#These courses satisfy both general education requirements and requirements of the major. In order to avoid taking excess hours, students are advised to take these courses, or approved substitutes from another institution, as part of the general education requirements.

French Major
Secondary Teacher Certification
ISIS major code: FL31

Successful completion of this course of studies, in the context of other program requirements, qualifies the student for recommendation for certification for the Michigan Department of Education Secondary Provisional Certificate endorsed in French, certification code "FA," and, depending on the minor selected, an additional endorsement. The certification test covering this field is #23, "French."
German Language and Literature Major
Secondary Teacher Certification

ISIS major code: FL33

Successful completion of this major, in the context of other program requirements, qualifies the student for recommendation for endorsement in German, certification code “FB.” The certification test covering this field is #24, “German.”

General studies ................................................. 49 hours
  General education requirements ................................ 47 hours
  Physical education/graduation requirement ................. 2 hours
Teaching major .................................................. 30 hours

HIST 302 Near Eastern and Western Religions (3)
HIST 327 Europe in Early Middle Ages 400-1050 (3)
HIST 330 Europe in the Renaissance and Reformation (3)
LITR 351 World Mythology (3)
HIST 511 Studies in Ancient History (2)

Total ..................................................................................... 23-25 hours

NOTE:
*Certain independent study and special topics courses may be counted as restricted elective courses with the approval of the advising coordinator.
#These courses satisfy both general education requirements and requirements of the minor. In order to avoid taking excess hours, students are advised to take these courses, or approved substitutes from another institution, as part of the general education requirements.

Group Minor in Teaching English as a Second Language

ISIS minor code: FL15

Required courses ................................................................. 15
LING 223 Introduction to Language ..................................... 3
CTAC 374 Intercultural Communication (satisfies general education requirement 1.3 and the cross-cultural/international studies requirement) 3
TSLN 410 TESOL Methods .................................................. 3
TSLN 420 Materials and Tests for TESOL ............................. 3
LING 425 Second Language Acquisition .............................. 3
TSLN 420 and LING 425 are offered in alternating winter semesters.

Restricted elective courses .............................................................................. 9

At least one course from each group:

**Undergraduate linguistics majors in the English department may not count Group 1 courses toward this minor. They must take two courses from either Group 2 or 3, and one course from the remaining group.**

**Group 1**
- LING 401 Introduction to Linguistic Science (3)
- LING 402 Modern English Grammar (3)

**Group 2**
- CTAC 225 Listening Behavior (satisfies general education requirement I.3) (3)
- CTAC 225 Nonverbal Communication (satisfies general education requirement I.3) (3)
- PSY 304 Learning (3)
- CTAR 323 Improvising and Role-Play (3)
- ENGL 328 Writing: Style and Language (3)
- SPSI 337 Language Acquisition (3)
- CTAC 359 Small Group Communication (3)

**Group 3**
- SOCL 214/ANTH 214 Racial and Cultural Minorities (satisfies general education requirement III.A and the cross-cultural/international studies requirement) (3)
- SOCL 310 Contemporary American Class Structure (Only international students may use this course) (3)
- ANTH 340/LING 340 (Pre-or coreq: One year of university-level foreign language study) Language and Culture (3)

Total .................................................................................................................. 24 hours

**NOTE:**

These courses satisfy both general education requirements and requirements of the minor. In order to avoid taking excess hours, students are advised to take these courses, or approved substitutes from another institution, as part of the general education requirements.

### English as a Foreign Language for Nonnative Speakers of English Minor

**ISIS minor code: FL02**

This minor is limited to international students who are nonnative speakers of English and conditionally admitted to the University on the basis of English language proficiency. It is administered jointly by the Department of Foreign Languages and Bilingual Studies and the Department of English Language and Literature.

Students who have placed at the 300 level on the departmental placement test will complete all of the following courses. Students who have placed at the 400 level will begin this minor by taking ESLN 412 Academic ESL Writing and ESLN 414 Academic ESL Reading and/or ESLN 416 Academic ESL Speaking and Listening. These students must choose six credit hours from the restricted elective courses or other courses with the permission of the adviser.

Eight hours in Spanish at any level in consultation with the advising coordinator ........................................... 8

Total ..................................................... 24 hours

French Courses

FRNH 121 Beginning French ................................................................. 5 hrs
Introductory course including practice in listening, speaking, reading and writing in French. Sessions in the language laboratory are part of regular assignments. Satisfies general education foreign language composition requirement, Area I.

FRNH 122 Beginning French ................................................................. 5 hrs
Introductory course including practice in listening, speaking, reading and writing in French. Sessions in the language laboratory are part of regular assignments. Satisfies general education foreign language composition requirement, Area I.
Prereq: FRNH 121 or equivalent. Placement exam required.

FRNH 177/178/179 Special Topics ......................................................... 1/2/3 hrs
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.
Prereq: Department permission.

FRNH 221 Intermediate French (Reading) ............................................. 3 hrs
Rapid reading of large quantities of French. Materials include readings in literature and civilization. Students who plan to continue in French should take this course concurrently with FRNH 222. Satisfies general education intermediate or advanced foreign language literature requirement, Area IV.
Prereq: FRNH 122 or equivalent. Placement exam required.

FRNH 222 Intermediate French (Reading) ............................................. 3 hrs
Rapid reading of large quantities of French. Materials include readings in literature and civilization. Students who plan to continue in French should take this course concurrently with FRNH 221. Satisfies general education intermediate or advanced foreign language literature requirement, Area IV.
Prereq: FRNH 221 or equivalent. Placement exam required.

FRNH 233 Intermediate French Conversation, Compositions, and Grammar ..................................................... 3 hrs
A review of grammar, practice in writing and speaking. Sessions in the language laboratory are available. Students who plan to continue in French should take this course concurrently with FRNH 234. Satisfies general education intermediate or advanced foreign language literature requirement, Area IV.
Prereq: FRNH 221 or equivalent. Placement exam required.

FRNH 234 Intermediate French Conversation, Compositions, and Grammar ..................................................... 3 hrs
A review of grammar, practice in writing and speaking. Sessions in the language laboratory are available. Students who plan to continue in French should take this course concurrently with FRNH 222. Does not satisfy general education literature requirement. Satisfies general education foreign language composition requirement, Area I.
Prereq: FRNH 233 or equivalent. Placement exam required.

FRNH 277/278/279 Special Topics ......................................................... 1/2/3 hrs
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.
Prereq: Department permission.

FRNH 341 Survey of French Literature ................................................ 3 hrs
This survey course covers major authors and literary movements from the beginning of French literature up to the 19th century. In French. Satisfies general education intermediate or advanced foreign language literature requirement, Area IV.
Prereq: FRNH 222 and FRNH 234 or department permission.

FRNH 342 Survey of French Literature ................................................ 3 hrs
This survey course covers major authors and literary movements of the 19th and 20th centuries. In French. Satisfies general education intermediate or advanced foreign language literature requirement, Area IV.
Prereq: FRNH 222 or department permission.

FRNH 343 French Composition ............................................................ 3 hrs
Review and drill of intermediate and advanced linguistic patterns in French. Written compositions.
Prereq: FRNH 234 or department permission.

FRNH 344 French Conversation ........................................................... 3 hrs
Additional classwork in conversation: improving pronunciation and acquiring a larger, active vocabulary for daily life.
Prereq: FRNH 234 or department permission.

FRNH 361 French for International Trade ............................................. 3 hrs
This course is intended for students who already have a solid intermediate-level command of French and who wish to acquire minimum professional competence in the French language as it is used in the world of international business. It includes practice in various forms of business communication, both oral and written.
Prereq: FRNH 343 or department permission.
FRNH 377/378/379 Special Topics 1/2/3 hrs
These courses deal with subject matter not provided in other department offerings. Students may elect such a course several times, provided different topics are studied.
Prereq: Department permission.

FRNH 388 Internship 1 hr
Provides an opportunity for the student to extend theoretical classroom learning through working experience in an appropriate setting. Field experience will be supplemented by regular meetings with the faculty supervisors. Credit/no credit.
Prereq: Department permission.

FRNH 443 Advanced French Grammar and Composition 3 hrs
Prereq: FRNH 343.

FRNH 444 Advanced French Conversation 3 hrs
This course aims to develop advanced fluency. Group discussions are based on the reading of periodical literature. May be repeated for credit.
Prereq: FRNH 343 and FRNH 344, or department permission.

FRNH 445 French Phonetics 3 hrs
Study of the sound system of the French language including both theory and practice. Major focus on the International Phonetic Alphabet as it applies to French. Lecture and practical exercises in class. In French.
Prereq: FRNH 344.

FRNH 446 Business French I 3 hrs
Study of principles and practices of business communication in French with emphasis on business correspondence and translation. Introduction to the French economy including business law, industry, business and services. In French.
Prereq: FRNH 361 or department permission.

FRNH 447 Business French II 3 hrs
Further study of business practices, business law and the French economy. Emphasis on business correspondence and translation and on French ties with the European economic community, the U.S., the East, developing countries and francophone countries. Prepares student for language proficiency examinations (CCIP diplomas).
Prereq: FRNH 446 or department permission.

FRNH 451/452 Readings in French 1/2 hrs
Special projects in directed readings for majors and minors who have completed the available offerings in French or who, because of most unusual circumstances, are granted department approval to substitute one or both of these for the regular courses.
Prereq: FRNH 341, FRNH 342 or department permission.

FRNH 466 French Speaking Cultures of the World 3 hrs
Survey of the more than two dozen different cultures of the world that make up "la Francophonie." Language and cultural variations that one must know in order to understand and to communicate successfully with people in those cultures. In French.
Prereq: FRNH 343 and FRNH 344.

FRNH 467 French Culture and Civilization 3 hrs
A study of French history and civilization. All major pre-World War I historical periods and cultural movements will be covered. In French.
Prereq: FRNH 341 or department permission.

FRNH 476 20th-Century French Civilization 3 hrs
A study of the main events of the 20th century. The major historical and social movements will be covered. In French.
Prereq: FRNH 343. Open to juniors and seniors.

FRNH 477/478/479 Special Topics 1/2/3 hrs
Three courses deal with subject matter not provided in other department offerings. Students may elect such a course several times, provided different topics are studied.
Prereq: Department permission.

FRNH 488/489 Internship 2/3 hrs
Provides an opportunity for the student to extend theoretical classroom learning through working experience in an appropriate setting. Field experience will be supplemented by regular meetings with the faculty supervisors. In French.
Prereq: Department permission.

FRNH 490 Intensive French Abroad 3 hrs
An intensive spring/summer course offered in a French-speaking environment. Instruction at many different levels. May be counted for equivalent hours on 100 or 200 levels. May be repeated for credit.

FRNH 497/498/499 Independent Study 1/2/3 hrs
Advanced study on an individual research basis in areas not covered in formal course work.
Prereq: Department permission.

German Courses

GERN 121 Beginning German 5 hrs
Instruction includes pronunciation, aural-oral pattern practice, the fundamentals of grammar, written exercises, reading. Mandatory listening exercises satisfy general education foreign language composition requirement, Area I.

GERN 122 Beginning German 5 hrs
The goals of the two-course Beginning German sequence are the development of oral and written communication through the use of verbal and nonverbal symbols. The emphasis is on communicative competence (both spoken and written) through the mastery of vocabulary and grammar appropriate to given communicative situations. Besides gaining communicative skills in German, the student can expect to gain some familiarity with modern German culture. Satisfies general education foreign language composition requirement, Area I.
Prereq: GERN 121 or equivalent. Placement examination required.

GERN 177/178/179 Special Topics 1/2/3 hrs
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.
Prereq: Department permission.

GERN 221 Intermediate German Reading 3 hrs
This course consists of readings in German literature and civilization. Students who plan to continue in German should take GERN 233 concurrently with GERN 221, and GERN 234 concurrently with GERN 222. Satisfies Area IV of general education requirements.
Prereq: GERN 222 or equivalent. Placement examination required.

GERN 222 Intermediate German Reading 3 hrs
This course consists of readings in German literature and civilization. Students who plan to continue in German should take GERN 233 concurrently with GERN 221, and GERN 234 concurrently with GERN 222. Satisfies Area IV of general education requirements.
Prereq: GERN 222 or equivalent. Placement examination required.

GERN 233 Intermediate German Conversation, Composition, and Grammar 3 hrs
This course requires the student to practice spoken and authentically correct language in the social cultural situations that occur in German-speaking Europe.
Prereq: GERN 122 or equivalent.

GERN 234 Intermediate German Conversation, Composition, and Grammar 3 hrs
This course requires the student to practice spoken and authentically correct language in the social cultural situations that occur in German-speaking Europe.
Prereq: GERN 233 or equivalent.
GERN 277/278/279 Special Topics 1/2/3 hrs
These courses deal with subject matter not provided in other department offerings. Students may elect such a course several times, provided different topics are studied.
Prereq: Department permission.

GERN 341 Survey of German Literature 3 hrs
This is an introduction to literary criticism as applied to German literature. Extensive readings of materials in German literature and culture. It covers an introduction to literature analysis and major writers and trends in modern German poetry and short stories. Prerequisite for all later courses in literature.
Students must have sufficient comprehension to follow lectures in German.
Prereq: GERN 222 or department permission.

GERN 342 Survey of German Literature 3 hrs
This is the second part of the introductory survey course in German Literature. It continues the introduction to literary criticism begun in GERN 341, and encourages students to apply principles of analysis to a chronological selection of literary works from the beginning of German literature to 1940. It is a prerequisite for all later courses in literature. Students must have sufficient comprehension to follow lectures in German.
Prereq: GERN 222 and GERN 341, or department permission.

GERN 343 German Composition 3 hrs
Writing for a variety of purposes and a systematic grammar review. Frequent written assignments in German.
Prereq: GERN 234 or department permission.

GERN 344 German Conversation 3 hrs
Builds on the foundation in speaking skills acquired in GERN 233 and GERN 234. Emphasizes vocabulary and idiom building and improvement in basic sentence structure. Readings, slides, tapes, films and other aids stimulate discussion. Meets three times per week.
Prereq: GERN 234 or department permission.

GERN 346 German for International Trade 3 hrs
Develops working knowledge of commercial material including economics and business in multinational setting. Cross-cultural references provide opportunity for comparative and contrastive analysis of American and German cultural patterns in a business setting.
Prereq: GERN 343 or department permission.

GERN 377/378/379 Special Topics 1/2/3 hrs
These courses deal with subject matter not provided in other department offerings. Students may elect such a course several times, provided different topics are studied.
Prereq: Department permission.

GERN 388 Internship 1 hr
An opportunity for the student to extend theoretical classroom learning through working experience in an appropriate setting. Field experience will be supplemented by regular meetings with the faculty supervisors. Credit/no credit.
Prereq: Department permission.

GERN 425 German Literature from the Middle Ages to the Baroque 3 hrs
Readings from the period are discussed in class meetings and taken as topics for student essays and reports. The literature is considered in the broad context of culture. In German.
Prereq: GERN 342 or department permission.

GERN 426 German Literature from 1750-1850 3 hrs
The literature of Germany from the preclassical period through Romanticism is discussed in class meetings and treated in student essays and reports. Perspectives of the other arts and of political and social developments enable the student to appreciate the literature in the context of European civilization. In German.
Prereq: GERN 342 or department permission.

GERN 427 German Literature from 1850-1945 3 hrs
Selections from the literature of Poetic Realism, Biedermeyer, Naturalism, Neo-Romanticism and Expressionism viewed against the background of political and cultural history. Classroom discussion and student reports.
Prereq: GERN 342 or department permission.

GERN 428 German Literature from 1945 to the Present 3 hrs
Those works that have shaped and are shaping current German literary and cultural life. Classroom discussion, papers and reports. In German.
Prereq: GERN 342 or department permission.

GERN 443 German Syntax and Advanced Composition 3 hrs
Builds on the foundation in written expression acquired in GERN 343. Intensive vocabulary and idiomatic writing; treatment of the more complex structural features of German, and stylistics. Frequent assignments increase the student's ability to write for a variety of purposes.
Prereq: GERN 343 and GERN 344, or department permission.

GERN 444 Advanced German Conversation 3 hrs
Development of advanced conversational fluency. A variety of media are employed to increase the student's facility in oral comprehension, and to stimulate conversational exchange among the class members.
Prereq: GERN 343 and GERN 344, or department permission.

GERN 446 Business German I 3 hrs
The idiomatic and terminology of the German economy and economic geography. Emphasis on business communication in German.
Prereq: Three years of college German or the equivalent, or department permission.

GERN 447 Business German II 3 hrs
The idiomatic and terminology of the German economy and management. Emphasis on business communication and correspondence in German.
Prereq: GERN 446 or department permission.

GERN 451/452 Readings in German 1/2 hrs
Special projects in directed reading for majors and minors who have completed the available offerings in German or who, because of most unusual circumstances, are granted department approval to substitute this for the regular courses.
Prereq: Department permission.

GERN 466 German for International Affairs 3 hrs
The study and functional use of German terminology for international affairs with emphasis on improving cross-cultural communication skills. The principles of German government (with references to Austria and Switzerland) and the implications for Germany's international relations and trade with the United States. In German.
Prereq: GERN 343 and GERN 344.

GERN 477/478/479 Special Topics 1/2/3 hrs
These courses deal with subject matter not provided in other department offerings. Students may elect such a course several times, provided different topics are studied.
Prereq: Department permission.

GERN 488/489 Internship 2/3 hrs
An opportunity for the student to extend theoretical classroom learning through working experience in an appropriate setting. Field experience will be supplemented by regular meetings with the faculty supervisors. Offered on a credit/no credit basis.
Prereq: Department permission.

GERN 490 Intensive German in Europe 3 hrs
An intensive summer course offered in Europe. Instruction at many different levels available. May be counted for equivalent hours on 100 to 400 levels. May be repeated for credit.
Japanese Courses

JPNE 121 Beginning Japanese 5 hrs
Practice in elementary conversation with special attention to reading and writing the two Japanese syllabaries and basic ideographs. Laboratory attendance required. Satisfies general education foreign language composition requirement, Area I.
Prereq: JPNE 122 or equivalent.

JPNE 122 Beginning Japanese 5 hrs
Instruction includes practice in elementary conversation with special attention to reading and writing the two Japanese syllabaries and basic ideographs. Laboratory attendance required. Satisfies general education foreign language composition requirement, Area I.
Prereq: JPNE 121 or equivalent.

JPNE 211 Intermediate Japanese 5 hrs
Practice in intermediate Japanese conversation, with heavy emphasis on reading and writing common ideographs in non-technical text. Laboratory attendance required. Satisfies general education foreign language composition requirement, Area I.
Prereq: JPNE 122 or equivalent.

JPNE 212 Intermediate Japanese 5 hrs
Instruction includes practice in intermediate Japanese conversation, with heavy emphasis on reading and writing common ideographs in non-technical text. Laboratory attendance required. Satisfies general education foreign language composition requirement, Area I.
Prereq: JPNE 211 or equivalent.

JPNE 344 Japanese Conversation 3 hrs
Emphasizes acquisition of an active vocabulary for daily life and greater oral facility. Intensive study of casual or familiar levels of speech as well as polite forms and honorifics. About 80 percent in Japanese.
Prereq: JPNE 212 or department permission.

JPNE 345 Japanese Composition 3 hrs
Writing for a variety of purposes and a review of kanji (ideographs) and grammar constitute the core of the course. Frequent written assignments.
Prereq: JPNE 344 or department permission.

JPNE 361 Japanese for International Trade 3 hrs
Prereq: JPNE 345 or department permission.

JPNE 377/378/379 Special Topics 1/2/3 hrs
An exploration of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.
Prereq: Department permission.

JPNE 444 Advanced Japanese Conversation 3 hrs
The course aims to develop advanced conversational fluency. Students are expected to participate actively in group discussion. Instruction includes extensive vocabulary building for discussing a variety of subjects. In Japanese.
Prereq: JPNE 345 or department permission.

JPNE 446 Business Japanese I 3 hrs
The course aims to increase proficiency in business communication in Japanese and to develop knowledge of Japanese economy, industry and foreign trade. Extensive work on the vocabulary and idiom of Japanese economy and business. In Japanese.
Prereq: JPNE 361 and JPNE 444, or department permission.

JPNE 447 Business Japanese II 3 hrs
The course provides an overview of the system of organization, managerial style, and personal relations of Japanese companies. Study of business communication focuses on business correspondence and translation. In Japanese.
Prereq: JPNE 446 or department permission.

JPNE 477/478/479 Special Topics 1/2/3 hrs
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.
Prereq: Department permission.

JPNE 494 Seminar in Japanese Studies 3 hrs
Required of students majoring in teaching Japanese language and culture. Extensive study and discussion of issues related to Japanese society and to political and economic systems. Students are required to apply Japanese language skills in research, presentations and papers. About 50 percent in Japanese.
Prereq: JPNE 361 or department permission.

Spanish Courses

SPNH 121 Beginning Spanish 5 hrs
Basic principles of grammar. Practice in elementary conversation, pronunciation, composition and reading. One-half hour per day in the laboratory required. Satisfies the general education foreign language composition requirement, Area I.
Prereq: SPNH 121 or equivalent. Placement exam required.

SPNH 122 Beginning Spanish 5 hrs
Basic principles of grammar. Practice in elementary conversation, pronunciation, composition and reading. One-half hour per day in the laboratory required. Satisfies the general education foreign language composition requirement, Area I.
Prereq: SPNH 121 or equivalent. Placement exam required.

SPNH 201 Intermediate Spanish 3 hrs
A review of Spanish grammar, frequent simple written compositions, and extensive oral work. Meets three times per week and students will spend two half-hour periods per week in the laboratory. In Spanish. Satisfies the general education foreign language composition requirement, Area I. Does not satisfy the general education literature requirement.
Prereq: SPNH 122 or equivalent. Placement exam required.

SPNH 202 Intermediate Spanish 3 hrs
A review of Spanish grammar, frequent simple written compositions, and extensive oral work. Meets three times per week and students will spend two half-hour periods per week in the laboratory. In Spanish. Satisfies the general education foreign language composition requirement, Area I. Does not satisfy the general education literature requirement.
Prereq: SPNH 201 or equivalent.
SPNH 221 Intermediate Spanish Reading 3 hrs
An introduction to literary criticism as applied to Hispanic literature. Extensive reading of materials in Hispanic literature and culture. In Spanish. Satisfies Area IV of the general education requirements.
PreReq: SPNH 202 or department permission.

SPNH 222 Intermediate Spanish Reading 3 hrs
An introduction to literary criticism as applied to Hispanic literature. Extensive reading of materials in Hispanic literature and culture. In Spanish. Satisfies Area IV of the general education requirements.
PreReq: SPNH 202 or department permission.

SPNH 277/278/279 Special Topics 1/2/3 hrs
These courses deal with subject matter not provided in other department offerings. Students may elect such a course several times, provided different topics are studied.
PreReq: Department permission.

SPNH 301 The Cultures of Spain 3 hrs
A panoramic view of the peoples of Spain, their cultures, environment and way of life. In Spanish.
PreReq: SPNH 202 and SPNH 222, or department permission.

SPNH 302 The Cultures of Spanish America 3 hrs
A panoramic view of the cultures, the peoples and the environment of Spanish America. In Spanish.
PreReq: SPNH 202 and SPNH 222, or department permission.

SPNH 341 Survey of Spanish Literature 3 hrs
This survey course covers the major authors and literary movements from the beginning of peninsular Spanish literature to the end of the 17th century. In Spanish. Satisfies the general education literature requirement, Area IV.
PreReq: SPNH 222 or department permission.

SPNH 342 Survey of Spanish Literature 3 hrs
This survey course covers the major authors and literary movements in peninsular Spanish literature from 1700 to the present. In Spanish. Satisfies the general education literature requirement, Area IV.
PreReq: SPNH 222 or department permission.

SPNH 343 Spanish Grammar and Composition 3 hrs
A systematic review of Spanish grammar and practice in composition. Frequent written assignments.
PreReq: SPNH 202 and SPNH 222, or department permission.

SPNH 344 Spanish Conversation and Composition 3 hrs
Improved pronunciation, the acquisition of an active vocabulary for daily life, frequent written compositions, and the development of greater oral facility. Meets three times per week and students spend three half-hour periods in the laboratory each week.
PreReq: SPNH 202 and SPNH 222, or department permission.

SPNH 351 Survey of Spanish-American Literature 3 hrs
This course deals with the major writers of Spanish America from the colonial period through modernism. In Spanish.
PreReq: SPNH 222 or department permission.

SPNH 352 Survey of Spanish-American Literature 3 hrs
This course deals with the major writers of Spanish America from postmodernism to the present. In Spanish.
PreReq: SPNH 222 or department permission.

SPNH 361 Spanish for International Trade 3 hrs
This course is intended for students who already have a solid intermediate-level command of Spanish and who wish to acquire minimum professional competence in the Spanish language as it is used in the world of international business. It includes practice in various forms of business communication, both written and oral.
PreReq: SPNH 343 or department permission.

SPNH 377/378/379 Special Topics 1/2/3 hrs
These courses deal with subject matter not provided in other department offerings. Students may elect such a course several times, provided different topics are studied.
PreReq: Department permission.

SPNH 388 Internship 1 hr
Provides an opportunity for the student to extend theoretical classroom learning through working experience in an appropriate setting. Field experience will be supplemented by regular meetings with the faculty supervisors. Credit/no credit.
PreReq: Department permission.

SPNH 443 Advanced Spanish Grammar and Composition 3 hrs
A review of select points of Spanish grammar and extensive practice in writing Spanish.
PreReq: SPNH 343 and SPNH 344, or department permission.

SPNH 444 Advanced Spanish Conversation and Composition 3 hrs
Improved pronunciation, greater oral facility, and frequent written compositions. Meets three times per week and students spend three half-hour periods in the laboratory each week. May be repeated for supplementary credit.
PreReq: SPNH 343 and SPNH 344, or department permission.

SPNH 445 Spanish-American Prose 3 hrs
A study of selected topics in Spanish-American literature. May be repeated for credit if the material of the course is in another area. In Spanish.
PreReq: SPNH 352 or department permission.

SPNH 446/447 Business Spanish 3/3 hrs
Required of students majoring in business Spanish. Practice with Spanish commercial correspondence, translation of Spanish business documents, and reading of foreign periodical publications on economics and international trade. An overview of international economic organizations and trade agreements related to Spanish-speaking countries and a review of existing bibliography on commercial Spanish.
PreReq: SPNH 352 or department permission.

SPNH 448 Modern Drama 3 hrs
The development of modern Spanish drama and its various types. Works of the principal dramatists of the 19th and 20th centuries. In Spanish.
PreReq: SPNH 342 or department permission.

SPNH 449 Romanticism 3 hrs
A study of the major works of Hispanic Romanticism. In Spanish.
PreReq: SPNH 342 or department permission.

SPNH 450 Spanish-American Theatre 3 hrs
A study of the theatre in Spanish America from its beginning to the present. In Spanish.
PreReq: SPNH 352 or department permission.

SPNH 454 Modernism in Spanish America 3 hrs
A survey of the literary movement known as "modernismo" in the literature of Spanish America. In Spanish.
PreReq: SPNH 352 or department permission.

SPNH 455 The Generation of 1898 3 hrs
A study of the works of the main authors of the generation of 1898, from Unamuno to Ortega y Gasset. In Spanish.
PreReq: SPNH 342 or department permission.

SPNH 456 Scientific and Technical Spanish I 3 hrs
Study of the fundamental Spanish terminology required for scientific and technical contexts, including basic vocabulary for mathematics, geometry and physics. In-depth study of at least one scientific or technical field (e.g., automobile industry, automated processes). Students will explore the vocabulary and resources in their chosen fields.
PreReq: SPNH 343 or department permission.
SPNH 463 Don Quixote  
3 hrs  
The universal qualities of both the book and its author, as well as their relation to Spanish life and literature of the period. In Spanish.  
Prereq: SPNH 341 or department permission.

SPNH 464 Drama of the Golden Age  
3 hrs  
The drama of the 16th and 17th centuries. Works of the major authors will be read and discussed. In Spanish.  
Prereq: SPNH 341 or department permission.

SPNH 465 Modern Novel  
3 hrs  
Study of the development of the modern novel in Spain during the 19th and 20th centuries. Representative novels will be read and discussed in Spanish.  
Prereq: SPNH 342 or department permission.

SPNH 471 Culture and Literature of the Hispanic Groups in the United States  
3 hrs  
A study of the cultures of the major Hispanic groups in the U.S. The study of representative literary works is intended to lead to an increased appreciation of the cultural roots and current life styles of these groups. In Spanish. A minimum of 24 hours of field experience required.

SPNH 477/478/479 Special Topics  
1/2/3 hrs  
These courses deal with subject matter not provided in other department offerings. Students may elect such a course several times, provided different topics are studied.  
Prereq: Department permission.

SPNH 482 Language of the Hispanic Groups in the United States  
3 hrs  
A survey of present-day social and regional variations in the Spanish spoken in the U.S. and the historical background of these variations. In Spanish. A minimum of 24 hours of field experience required.

SPNH 488/489 Internship  
2/3 hrs  
Provides an opportunity for the student to extend theoretical classroom learning through working experience in an appropriate setting. Field experience will be supplemented by regular meetings with the faculty supervisors. Credit/no credit.  
Prereq: Department permission.

SPNH 490 Intensive Spanish  
6 hrs  
An intensive summer course offered in Mexico. Instruction on a small-group (four to five students) basis, with many different instructional levels available. Students advance according to individual progress. Students live with Mexican families. May be counted for equivalent hours in Spanish on 100 to 400 level. May be repeated for credit.

SPNH 497/498/499 Independent Study  
1/2/3 hrs  
Advanced study on an individual research basis in areas not covered in formal course work.  
Prereq: Department permission.

General Language and Bilingual-Bicultural Education Courses

FLAN 177/178/179 Special Topics  
1/2/3 hrs  
An exploration and study of topics not covered in other department offerings. Students may elect more than once, provided different topics are studied.  
Prereq: Department permission.

FLAN 215 The Cultures of Mexican-Americans and Cubans in the United States  
3 hrs  
A study of contemporary life of two of the principal Latino groups in the United States. Since their language and literature reflect a unique sociocultural situation, they will be used as a point of departure. Topics will include traditional family structure, economic, political, educational, ethnic and religious backgrounds, artistic contributions, and prospects for the future.

FLAN 277/278/279 Special Topics  
1/2/3 hrs  
These courses deal with subject matter not provided in other department offerings. Students may elect such a course several times, provided different topics are studied.  
Prereq: Department permission.

FLAN 377/378/379 Special Topics  
1/2/3 hrs  
These courses deal with subject matter not provided in other department offerings. Students may elect such a course several times, provided different topics are studied.  
Prereq: Department permission.

FLAN 387 Cooperative Education in Foreign Language  
3 hrs  
Four to six months of full-time employment in a position designed to give practical experience in a field related to the student's foreign language major. The program ordinarily consists of two work experiences (FLAN 387 and FLAN 487) alternating with full-time attendance at the University. Credit/no credit.  
Prereq: Junior standing; admission to the program by application only.

FLAN 388 Internship  
1 hr  
An opportunity for the student to extend theoretical classroom learning through working experience in an appropriate setting. Field experience will be supplemented by regular meetings with the faculty supervisors. Credit/no credit.  
Prereq: Department permission.

FLAN 411 Theory and Methods of Modern Language Teaching  
3 hrs  
The history, theory and techniques of modern language teaching. Not counted in the language area of the degree requirements, nor toward a major in any modern language. Should be taken during the fall semester prior to student teaching. Not open to students on academic probation.

FLAN 421 History and Theory of Bilingual Education  
3 hrs  
Sociolinguistic and psycholinguistic aspects of bilingualism, language acquisition and cognitive development in the bilingual child, different instructional models for bilingual education programs, and school and community relations. A minimum of 24 hours of field experience required. Not open to students on academic probation.

FLAN 422 Teaching Hispanic Culture and Language  
3 hrs  
The techniques and materials for teaching the language and culture of Hispanic groups within the bilingual classroom. Techniques and materials for teaching other subject-matter areas in Spanish. A minimum of 24 hours of field experience in a bilingual classroom required. Not open to students on academic probation.

FLAN 477/478/479 Special Topics  
1/2/3 hrs  
These courses deal with subject matter not provided in other department offerings. Students may elect such a course several times, provided different topics are studied.  
Prereq: Department permission.

FLAN 487 Cooperative Education in Foreign Language  
3 hrs  
Four to six months of full-time employment in a position designed to give practical experience in a field related to the student's foreign language major. The program ordinarily consists of two work experiences (FLAN 387 and FLAN 487) alternating with full-time attendance at the University. Credit/no credit.  
Prereq: FLAN 387; admission to the program by application only.

FLAN 488/489 Internship in Language and International Trade  
2/3 hrs  
An opportunity for the student to extend theoretical classroom learning through working experience in an appropriate setting. Field experience will be supplemented by regular meetings with the faculty supervisors. Credit/no credit.  
Prereq: Department permission.
FLAN 490 Internship in Language and International Trade 3 hrs
An opportunity for the student to extend theoretical classroom learning through working experience in an appropriate setting. Field experience will be supplemented by regular meetings with the faculty supervisors. Credit/no credit.
Prereq: Department permission.

FLAN 497/498/499 Independent Study 1/2/3 hrs
Advanced study on an individual basis in areas not covered in formal course work.
Prereq: Department permission.

Classical Languages Courses

GREEK 121 Beginning Ancient Greek I 5 hrs
For students with a strong interest in archaic and classical Greek culture. Acquaints students with sufficient ancient Greek grammar, vocabulary and syntax to facilitate the reading of the masterpieces of Greek literature. Satisfies the general education foreign language composition requirement, Area I.

GREEK 122 Beginning Ancient Greek II 5 hrs
For students with a strong interest in archaic and classical Greek culture. Acquaints students with sufficient ancient Greek grammar, vocabulary and syntax to facilitate the reading of the masterpieces of Greek literature. Satisfies the general education foreign language composition requirement, Area I.
Prereq: GREK 121.

GREEK 177/178/179 Special Topics 1/2/3 hrs
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.
Prereq: Department permission.

GREEK 277/278/279 Special Topics 1/2/3 hrs
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.
Prereq: Department permission.

GREEK 377/378/379 Special Topics 1/2/3 hrs
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.
Prereq: Department permission.

GREEK 477/478/479 Special Topics 1/2/3 hrs
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.
Prereq: Department permission.

LATN 121 Beginning Latin I 5 hrs
A course to bring students to the level of facility necessary to read ancient authors with enjoyment and understanding. Satisfies the general education foreign language composition requirement, Area I.

LATN 122 Beginning Latin II 5 hrs
A course to bring students to the level of facility necessary to read ancient authors with enjoyment and understanding. Satisfies the general education foreign language composition requirement, Area I.
Prereq: LATN 121.

LATN 177/178/179 Special Topics 1/2/3 hrs
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.
Prereq: Department permission.

LATN 277/278/279 Special Topics 1/2/3 hrs
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.
Prereq: Department permission.

LATN 377/378/379 Special Topics 1/2/3 hrs
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.
Prereq: Department permission.

LATN 477/478/479 Special Topics 1/2/3 hrs
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.
Prereq: Department permission.

Courses in English for International Students

ESLN 112 Beginning ESL Writing 3 hrs
This course focuses on basic grammatical patterns while introducing paragraph organization and form.
Prereq: Department permission or placement.

ESLN 177/178/179 Special Topics 1/2/3 hrs
Continued development of techniques to build vocabulary and reading skills. Materials emphasize informational reading.
Prereq: Department permission or placement.

ESLN 212 Intermediate ESL Speaking and Listening 3 hrs
Continued development of conversational skills, both speaking and listening. Delivery of short speeches and the development of listening for details.
Prereq: Department permission or placement.

ESLN 310 Advanced ESL Grammar 3 hrs
The formation and manipulation of clauses in complex sentences and the sequence of verb tenses across clauses. A review of verb tenses and problematic grammar points.
Prereq: ESLN 210, department permission or placement.

ESLN 312 Advanced ESL Writing 3 hrs
Development of knowledge of organization patterns used in writing both paragraphs and compositions. The principal parts of a composition; writing devices used to achieve coherence.
Prereq: ESLN 212, department permission or placement.

ESLN 314 Advanced ESL Reading 3 hrs
Practice in comprehending and analyzing unsimplified texts of greater length and linguistic complexity in a variety of fields.
Prereq: ESLN 214, department permission or placement.

ESLN 316 Advanced ESL Speaking and Listening 3 hrs
Continued development of conversational, speaking and listening skills. Production and comprehension of short discourses on personal and nonpersonal topics.
Prereq: ESLN 216, department permission or placement.
ESLN 318 Advanced ESL Laboratory 1 hr
Individual and/or group lab sessions.

Prereq: Department permission or placement.

ESLN 377/378/379 Special Topics 1/2/3 hrs
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Prereq: Department permission.

ESLN 412 Academic ESL Writing 3 hrs
A review of the components of composition; practice in composition skills and researching, outlining, summarizing, and synthesizing ideas from different sources. Fulfills area 1. of the general education requirements, a course in written composition.

Prereq: ESLN 312, department permission or placement.

ESLN 414 Academic ESL Reading 3 hrs
Reading in specialized fields at professional levels. Practice in outlining, summarizing, and synthesizing ideas from different sources.

Prereq: ESLN 314, department permission or placement.

ESLN 416 Academic ESL Speaking and Listening 3 hrs
Strategies for and practice in comprehending lectures, taking notes and effectively participating in informal and formal classroom speaking activities.

Prereq: ESLN 316, department permission or placement.

ESLN 477/478/479 Special Topics 1/2/3 hrs
These courses deal with subject matter not provided in other departmental offerings. Students may elect each a course several times, provided different topics are studied.

Prereq: Department permission.

Classics Courses

CLAS 104 Quest for Power: Famous Figures in History 3 hrs
An examination of the lives and times of select leaders from the ancient and modern worlds. Examples of figures to be covered are Pericles, Nero, Napoleon I and Adolf Hitler. Major literary monuments of the periods will be examined as well. Team taught by a member of the History Department and a classicist. This course satisfies one literature or one history requirement. Note: See Honors Humanities Courses.

CLAS 106/LITR 106 Rome and America 6 hrs
An investigation into problems and pressures comparing the people and culture of ancient Rome and modern America, considering individual hopes and ideals, religious beliefs, and ideas about death, government, morality, love and sex. Team taught by a member of the English Department and a classicist. These courses must be taken concurrently and satisfy two literature requirements. Note: See Honors Humanities Courses.

CLAS 177/178/179 Special Topics 1/2/3 hrs
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Prereq: Department permission.

CLAS 181 The Legacy of Greece 3 hrs
An introduction to Greek epic, drama, poetry, history and philosophy, illustrating the influence of the Greek tradition on Western civilization. The literature is read in English translation. Representative examples of Greek architecture and sculpture are also examined. Team taught by a classicist and/or a member of the English Department. This course satisfies one literature requirement. Note: See Honors Humanities Courses.

CLAS 277/278/279 Special Topics 1/2/3 hrs
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Prereq: Department permission.

CLAS 301 Mythology 3 hrs
The general field of classical mythology and the psychology underlying it. The poet's and artist's selection and use of the classic myths from early until modern times; an interpretation of mythological allusions in literature.

CLAS 321 Women and Gender in the Ancient World 3 hrs
An investigation of life for women in antiquity, focusing on the sex-gender system of Greek and Roman societies. Literary, inscriptive and other evidence will be studied to disclose the classical roots of western beliefs and attitudes about women.

CLAS 377/378/379 Special Topics 1/2/3 hrs
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Prereq: Department permission.

CLAS 477/478/479 Special Topics 1/2/3 hrs
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Prereq: Department permission.

Language Courses

LNGE 134 Etymology 3 hrs
Greek and Latin words and roots that are current in English forms are studied in order to enlarge the vocabulary and to produce a more discriminating use of words.

LNGE 177/178/179 Special Topics 1/2/3 hrs
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Prereq: Department permission.

LNGE 223 Introduction to Language 3 hrs
The basic principles of linguistic theory as they apply to the Western European languages taught in the department.

LNGE 277/278/279 Special Topics 1/2/3 hrs
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Prereq: Department permission.

LNGE 377/378/379 Special Topics 1/2/3 hrs
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Prereq: Department permission.

LNGE 425 Second Language Acquisition 3 hrs
Examines the nature of learning a second language simultaneously with, or subsequent to, one's first language. Linguistic, cognitive, affective, cultural and social factors influencing the acquisition of another language will be explored. Focus will be on both through each years, with particular attention paid to language used in English-medium elementary and secondary schools.

Prereq: LNGE 223.

LNGE 477/478/479 Special Topics 1/2/3 hrs
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Prereq: Department permission.

TESOL Courses

TSLN 410 TESOL Methods 3 hrs
Various methods and techniques used to teach language components (grammar, vocabulary and pronunciation) and language skills (reading, writing, listening and speaking) are examined with regard to the theories on which they are based.
Practice in developing and implementing balanced and effective language lesson plans is provided.

Prerequisites: ESL proficiency and one year of college-level foreign language and an introduction to language course or department permission.

TSLN 410 Materials and Tests for TESOL 3 hrs

Review of existing materials and tests used with limited English proficient students in public schools. Practice in adapting and developing materials for varying audiences in the public schools. Practice administering ESL tests used in public schools.

Prerequisites: TSLN 410 or concurrent enrollment, or department permission.

TSLN 477/478/479 Special Topics 1/2/3 hrs

An exploration and study of topics not covered in other departmental offerings. Students may enroll more than once, provided different topics are studied.

Prerequisites: Departmental permission.

Geography and Geology

www.emich.edu/public/geo/welcome.html

Departmental Administration

Michael C. Kasenow
Department Chair
112/3 hrs

An exploration and study of topics not covered in other departmental offerings. Students may enroll more than once, provided different topics are studied.

Prerequisites: Departmental permission.

E-mail: michael.kasenow@emich.edu.

The department’s programs are designed to enhance student understanding and skills through courses having both theoretical and applied content. Where appropriate, students are directed to field and laboratory courses, which are important elements in all department programs. Internship and cooperative education opportunities are also encouraged.

The geography program includes a field camp in Colorado. To support and encourage computer literacy in the department’s multiple disciplines, there is a modest Geographic Information Systems and Computer Mapping Laboratory. Among the programs listed below, the Department of Geography and Geology collaborates with other departments on the area studies, language and international trade, public administration, travel and tourism, and urban and regional planning programs. The department also provides teacher preparation courses to serve College of Education students.

Department faculty regularly participate in the University Honors Program. Department students often contribute original work to the Undergraduate Symposium. The Geographical Bulletin, the journal associated with Gamma Theta Upsilon (national professional geography organization), is edited in the department.

Four student groups are associated with Geography and Geology: the GEO Club, Preservation Eastern, the Planning Awareness Club of Eastern (PLACE), and the Travel and Tourism Student Association.

Degrees Offered

Bachelor of Arts
Bachelor of Science

Programs of Study

Majors

Earth science
Earth science for secondary education
Geography
Geography for secondary education
Geology—general concentration
Geology—hydrogeology concentration
Geology—professional concentration
Geography—Travel and tourism concentration
Urban and regional planning

Minors

Cartography and remote sensing
Coastal environments
Earth science
Earth science for secondary, K-12, and special education-secondary
Environmental Analysis
Geography
Geography for secondary, K-12, and special education-secondary
Geology
Geology for secondary, K-12, and special education-secondary
Historic Preservation
Travel and tourism
Urban and regional planning

Advising Coordinators

Coastal environments: C. Nicholas Raphael
Earth science: Michael Bradley, Carl Ojala, M. Serena Poti
Geography: Andrew A. Nazzaro, Christine Mayda
Geology: Kevin Blake, Michael Bradley, Allen Cichanski, Steven LoDuca
Geography with concentration in hydrogeology: Michael Kasenow
Historic Preservation: Ted Liguori, Lauren Sickels-Taves
Urban and regional planning: Norman Tyler
Travel and tourism: Gabriel Cherem, Robert Mancell
Cartography and remote sensing: Eugene Jaworski

Graduate study leads to the master’s degree in either geography or historic preservation planning. A non-degree certification program of study (five courses) in historic preservation also is offered. The M.A. and M.S. degrees and certifications are described in the graduate catalog.

Earth Science Major

ISIS major code: GEOI

The earth science major informs about the planet Earth from the multiple perspectives of the atmosphere, the earth’s surface, the oceans and the interior structure of the planet. This includes study of weather and climate; the natural processes like wind, water and ice that shape the surface; plate tectonics and associated volcanism and earthquakes; and the impact of the planet’s oceans.

Restrictive electives

Five to seven hours from earth science, geology, or astronomy courses not taken above (all must be 200 level or above with at least three hours at the 300 level). The GESC 325/331 course not selected above is eligible for selection. Selected in consultation with the earth science advisor.

Total

25-28

NOTE:

# These courses satisfy both general education requirements and requirements of the major. In order to avoid taking excess hours, students are advised to take
these courses, or approved substitutes from another institution, as part of the general education requirements.

Geography Major
ISIS major code: GE092

The geography major includes the study of physical landscapes, their origins and the processes that alter them; the imprint of human activity on the earth's surface; the complex relationships among places; and the application of technology to human resource identification, conservation and management.

Total 18 hours

Specialization

Three courses from one of the following areas of specialization:

- **Geographic Techniques**
  - GEOG 300: Location and Site Analysis (3)
  - GESC 303: Field Geology (3)
  - GEOG 476: Introduction to Geographic Information Systems (3)
  - GEOL 485: Introduction to Remote Sensing (3)

- **Physical Geography**
  - GEOL 200: Introduction to Hydrology (3)
  - GESC 250: Introduction to Coastal Processes (3)
  - GESC 320: The Oceans (3)
  - GESC 324: Weather (3)
  - GESC 325: Geomorphology (3)
  - GESC 327: Soil Sciences (3)
  - GESC 350: Biogeography (3)
  - GESC 424: Climatology (3)
  - GESC 425: Severe and Unusual Weather (3)
  - GESC 450: Lake and Coastal Management (3)

- **Human Geography**
  - GEOL 212: Geography of Travel and Tourism (3)
  - GESC 215: Introduction to Urban and Regional Planning (3)
  - GEOL 332: Urban Geography (3)
  - GEOL 333: Settlement Geography (3)
  - GEOL 335: Historic Preservation (3)
  - GEOL 361: Geography of Population (3)
  - GEOL 441: Transportation Geography and Planning (3)

- **Regional Geography**
  - GEOL 314: Geography of Russia and Neighboring States (3)
  - GEOL 318: Geography of Asia (3)
  - GEOL 319: Geography of Europe (3)
  - GEOL 320: Geography of the United States and Canada
  - GEOL 321: Geography of Latin America (3)
  - GEOL 322: Geography of Africa (3)

Restricted elective courses

Select two departmental courses outside of the selected area of specialization.

Total 33 hours

NOTE:

* These courses satisfy both general education requirements and requirements of the major. In order to avoid taking extra hours, students are advised to take these courses, or approved substitutes from another institution, as part of the general education requirements.

Geology Major—General Geology Concentration
ISIS major code: GE003

This concentration is for those who seek a general liberal arts education in geology or who are interested in a career combining geology with fields such as business, patent law, technical writing or industrial health and safety. Students planning to pursue a career as a professional geologist or who are interested in graduate training in geology should elect the professional concentration.

- GEOL 160: Physical Geology (satisfies general education requirements 11.1 or 11.3) 4
- GEOL 161: Historical Geology 4
- GEOL 162: Introduction to Geology 4
- GEOL 228: Mineralogy 4
- GEOL 326: Structural Geology 4
- GEOL 329: Igneous and Metamorphic Petrology 4
- GEOL 330: Sedimentology and Stratigraphy 4
- GEOL 331: Palaeontology 4
- GEOL 333: Settlement Geography 4
- GEOL 335: Field Geology 4
- GEOL 355: Field Geology I 2
- GEOL 356: Field Geology II 3
- CHEM 121-CHEM 122: General Chemistry I with lab (satisfies general education requirements II.1 or II.3) 4
- CHEM 123: General Chemistry II 3
- CHEM 124: General Chemistry II Laboratory 1
- MATH 120: Calculus I (satisfies general education requirement I.4) 4
- MATH 121: Calculus II (satisfies general education requirement I.4) 4
- PHY 221-PHY 223: Mechanics, Sound, and Heat (satisfies general education requirement II.3) 4/5
- PHY 222-PHY 224: Electricity and Light 4/5

Elective courses

Three courses from the following:
NOTE:

Geology Major—Hydrogeology Concentration

ISIS major code: GE030

The hydrogeology concentration prepares students for graduate study or employment in the hydrogeology industry. It focuses on those aspects of geology and related sciences that pertain to the occurrence, movement, supply, and quality of water. The program is designed to provide a strong technical base. Students will be educated in skills that are required to gather and process data with particular attention to water-related problems.

**Total**: 40 hours

**NOTE:**

- The hydrogeology field course may be selected from a number of universities with approval from a geology adviser.
- These courses satisfy both general education requirements and requirements of the major. In order to avoid taking excess hours, students are advised to take these courses, or approved substitutes from another institution, as part of the general education requirements.

Geography Major—Travel and Tourism Concentration

ISIS major code: GE05

The travel and tourism major responds to continuing needs for strong liberal arts programs with directed career opportunities. Careful attention is given to course offerings that provide graduates with distinct possibilities for enhancing the travel and tourism profession. Students who successfully complete the curriculum will have: a) increased awareness of the world, particularly in those regions where travel and tourism are commonly associated; b) increased understanding of business, especially from a marketing perspective; and c) increased written and oral skills in English or a foreign language.

The travel and tourism major leading to either a bachelor of arts or bachelor of science degree consists of: 1) an equal number of required credit hours (21 each) in geography and business courses; 2) elective courses chosen from a selection of courses from the Colleges of Arts and Sciences and Business; and 3) a choice from one of two communications skills options: either a general concentration with courses emphasizing writing and speaking skills, or a foreign language and area studies concentration.

# Urban and Regional Planning Major

ISIS major code: GE04

This interdisciplinary major studies the current situation in urban and regional planning, including land use, zoning, problems of urban growth, and local decision-making. The program is designed to prepare students for positions in public planning agencies, private planning firms or other positions where planning skills are needed and relevant. Courses provide necessary skills to develop zoning ordinances, analyze site plans, critique general development plans, administer local planning regulations, as well as prepare and review grant applications, environmental impact statements and policy planning programs.

# Earth Science Major

**Secondary Teacher Certification**

ISIS major code: GE31

Successful completion of this course of studies, in the context of other program requirements, qualifies the student for recommendation for certification for the Michigan Department of Education Secondary Provisional Certificate endorsed in earth science/geology, certification code “DH.” The certification test covering this field is #16, “Geology/Earth Science.” The program includes a structured earth science minor. This program of studies meets all requirements of the Michigan Science Teachers Association. The certification test covering this field is #16, “General Science.” The student following this program is also qualified for recommendation for endorsement in science, certification code “DX.”

**General studies**

- General education requirements: 37 hours
- Physical education/graduation requirement: 2 hours
- Teaching major/minor: 34-37 hours

#GIS 104 Earth Science (satisfies general education requirement)

**Elective courses**

Seven hours of approved elective courses in biology, chemistry, mathematics or physics.

Four to seven hours from earth science, geology, or astronomy courses not taken above (all must be 200- level or above with at least 3 hours at the 300- level). The GEOL 325/331 course not selected above is eligible for selection.

Selected in consultation with the Earth Science advisor.

**Professional studies**

- Pre-admission phase: The Learner and the Community: 8 hours
- EDPS 322 Human Development and Learning (4)
- FETE 201 Field Experience I (1)
- SPGN 251 Education of Exceptional Children (3)

**Courses that require formal admission to the teacher education program**

**Phase I: Curriculum, Assessment and the Social Context**

- CURR 305 Curriculum and Methods: Secondary (3)
- FETE 302 Field Experience II: Secondary (3)
- EDPS 340 Introduction to Assessment and Evaluation (3)

**Phase II: Content Methods, Literacy and Technology**

- RDNG 311 Reading in the Secondary School (3)
- FETE 402 Field Experience III: Secondary (1)
- EDMT 330 Instructional Applications of Media and Technology (2)
- GESC 347 Teaching Earth Science and Physical Geography (3)

**Phase III: Capstone Experience: 12 hours**

EDUC 492 Student Teaching (12)

**Total hours**

134 hours

**NOTE:**

*Italicized courses are corequisites.

**#** These courses satisfy both general education requirements and requirements of the major. In order to avoid taking excess hours, students are advised to take these courses, or approved substitutes from another institution, as part of the general education requirements.

---

# Geography Major

**Secondary Teacher Certification**

ISIS major code: GE32

Successful completion of this course of studies, in the context of other program requirements, qualifies the student for recommendation for certification for the Michigan Department of Education Secondary Provisional Certificate endorsed in geography, certification code “DG,” and, depending on the minor selected, endocement in economics (“CA”), history (“CC”), political science (“CD”), psychology (“CE”), sociology (“CF”), or social studies (“RX”). The certification test covering this field is #08, “Geography.”

**General studies**

- General education requirements: 42 hours
- Other Requirements: 6 hours

#HIST 102 Western Civilization, 1648 to World War I (satisfies general education requirement II.3) (3)

#HIST 103 20th-Century Civilization (satisfies general education requirement III.4) (3)

A course in economics, if not included in the minor (3)

Physical education/graduation requirement .................................. 2 hours

Minor .................................................................................. 20 hours

Select from economics, history, political science, psychology, sociology

Total .................................................................................... 131

**NOTE:**

*Italicized courses are corequisites.*

# These courses satisfy both general education requirements and requirements of the major. In order to avoid taking excess hours, students are advised to take these courses, or approved substitutes from another institution, as part of the general education requirements.

## Cartography and Remote Sensing Minor

**ISIS minor code: GE05**

Cartography (map-making) is an ancient science designed to depict the earth's features and human activities. Today maps are made with several significant functions in mind to understand spatial phenomena, to store information, and to analyze areal relationships.

Remote sensing uses space-age technology to sense, record and transmit information about the biosphere and atmosphere. Satellite imagery is an important element in collecting remote sensing data. Remote sensing information is often used in constructing modern maps, whether by hand or through the use of computer mapping and geographic information systems software.

The goal of the minor is to provide an employment track for undergraduates to entry-level positions as cartographers and remote sensing technicians. The minor provides balanced training between traditional cartographic work and computer maps. Emphasis is on map properties, spatial concepts, mapping techniques, drafting skills, geographic storage and display of data. A strongly recommended aspect of this training is the internship or cooperative education experience at nearby private and public agencies.

**Required courses** ......................................................... 15

- GESC 305 Aerial Photography Interpretation (3)
- GESC 401 Cartography (3)
- GESC 402 Advanced Cartography (3)
- GESC 475 Computer Mapping (3)
- GESC 485 Introduction to Remote Sensing (3)

**Restricted elective courses** ............................................. 5

Five hours from the following:

- GESC 227 Topographic Maps (3)
- GEOL 355 Field Geology (1)
- GESC 387/GESC 487 Cooperative Education in Earth Science (3)
- GESC 488/489/490 Internship (4/5/6)
- MATH 105 College Algebra (3)
- MATH 107 Plane Trigonometry (2)
- #FA 165 Graphic Design for Non-majors (satisfies general education requirement IV.4) (3)
- INDT 121 Graphic Communication (3)
- CNST 206 Surveying (3)
- CADM 231 Computer Graphics Programming (3)

One course from the following: (satisfies general education requirement I.5)

- #IS 215 End-User Computing (3)
- #COSC 137 Introduction to FORTRAN Programming (3)
- IS 417 Systems Analysis and Design (3)

Total .................................................................................... 20 hours

**NOTE:**

# These courses satisfy both general education requirements and requirements of the minor. In order to avoid taking excess hours, students are advised to take these courses, or approved substitutes from another institution, as part of the general education requirements.

## Coastal Environments Minor

**ISIS minor code: GE06**

**Required courses**: ......................................................... 16

One course from the following: ............................................. 4

- #GESC 108 Earth Science (satisfies general education requirement II.1 or II.3) (4)
- #GEOL 160 Physical Geology (satisfies general education requirement II.1 or II.3) (4)

Restricted elective courses .................................................................. 3
One course from the following:
GEOL 161 Historical Geology ............................................................. 3
GEOL 228 Mineralogy .......................................................................... 3
GEOL 325 Geomorphology ................................................................. 3
GEOL 331 Palaeontology ................................................................. 3
GEOL 370 Glacial Geology ................................................................. 3
Total .................................................................................................... 21 hours

NOTE:
# These courses satisfy both general education requirements and requirements of the minor; in order to avoid taking excess hours, students are advised to take these courses, or approved substitutes from another institution, as part of the general education requirements.

Geography Minor
ISIS minor code: GEO2

Required courses .................................................................................. 7
#GESC 108 Earth Science (satisfies general education requirement II.1 or II.3) .......................................................... 4
#GEOG 110 World Regions (satisfies general education requirement III.3) .......................................................... 3
Restricted elective courses .................................................................. 13
13 hours selected in consultation with a geography adviser.
Total .................................................................................................... 20 hours

NOTE:
# These courses satisfy both general education requirements and requirements of the minor; in order to avoid taking excess hours, students are advised to take these courses, or approved substitutes from another institution, as part of the general education requirements.

Geology Minor
ISIS minor code: GEO3

Required courses .................................................................................. 20
#GEOL 161 Historical Geology .............................................................. 4
GEOL 228 Mineralogy .......................................................................... 4
GEOL 331 Structural Geology .............................................................. 4
GEOL 329 Igneous and Metamorphic Petrology ................................ 4
Restricted elective courses .................................................................. 1
One hour selected in consultation with a geology adviser.
Total .................................................................................................... 21 hours

NOTE:
# This course satisfies both general education requirements and requirements of the minor; in order to avoid taking excess hours, students are advised to take this course, or an approved substitute from another institution, as part of the general education requirements.

Historic Preservation Minor
ISIS minor code: GEO7

Required courses .................................................................................. 20
GEOG 115 Observing the Human Landscape ...................................... 2
GEOG 332 Urban Geography .............................................................. 3
GEOG 333 Settlement Geography ..................................................... 3
GHPR 335 Historic Preservation ......................................................... 3
*HIST 123 The United States to 1877 (satisfies general education requirement II.2) .......................................................... 3
*HIST 124 The United States, 1877 to the Present (satisfies general education requirement III.2) .......................................................... 3
FA 429 History of American Architecture .......................................... 3
Restricted elective courses .................................................................. 4-6
Two courses from the following:
#ANTH 135 Introduction to Cultural Anthropology (satisfies general education requirement III.3)
ANTH 150 Introductory Archaeology
ECON 338 Land Economics
GEOG 333 Settlement Geography
GEOG 233 Economic Geography
GEOG 240 Location and Site Analysis
GEOG 313 Geography of Michigan
GEOG 354 Recreation Geography
GEOG 345 Geography of Resorts
GEOG 360 Cultural Geography
GEOG 233 Principles of City and Regional Planning
GESC 402 Cartography
# Toll

NOTE:

- American history majors will substitute elective courses for HIST 123 and HIST 124.

# These courses satisfy both general education requirements and requirements of the minor. In order to avoid taking excess hours, students are advised to take these courses, or approved substitutes from another institution, as part of the general education requirements.

## Travel and Tourism Minor

### ISIS minor code: GE09

**Required courses**

- GEOG 110 World Regions (satisfies general education requirement II.3) 
- GEOG 112 Introduction to Travel and Tourism
- GEOG 133 Foundations of Guest Service
- GEOG 212 Geography of Travel and Tourism
- GEOG 445 Cultural Tourism Resources
- GEOG 446 Heritage Interpretation and Tourism

*One course from the following:*

- GESC 108 Earth Science (4)
- GELU 215 Introduction to Urban and Regional Planning (3)
- GEOG 315 Travel and Tourism: The European Scene (3)
- GEOG 322 Urban Geography (3)
- GHRP 335 Historic Preservation (3)
- GEOG 356 Tourism and Socioeconomic Development (3)
- GEOG 441 Transportation Geography and Planning (3)

**Total**

21-22 hours

NOTE:

# This course satisfies both general education requirements and requirements of the minor. In order to avoid taking excess hours, students are advised to take this course, or an approved substitute from another institution, as part of the general education requirements.

## Urban and Regional Planning Minor

### ISIS minor code: GE04

**Required courses**

- GPLN 215 Introduction to Urban and Regional Planning (3)
- GPLN 216 Readings in Planning Theory (2)
- GPLN 306 Comprehensive Planning and Zoning (3)
- GPLN 435 History of Urban Form and Function (3)

**Restricted elective courses**

Nine hours from the following selected in consultation with the advising coordinator:

- GEOG 300 Location and Site Analysis (3)
- GEOG 332 Urban Geography (3)
- GEOG 441 Transportation Geography and Planning (3)
- GESC 303 Field Geography (3)
- GESC 475 Computer Mapping (3)
- GHRP 335 Historic Preservation (3)
- GPLN 276 Principles of Geographic Information Systems (3)
- GPLN 401 Planning/Preservation Graphics (3)
- GPLN 407 Housing and Residential Development (3)
- GPLN 409 Professional Practice for Planners (2)
- GPLN 410 Site Planning Studio (4)
- GPLN 495 Environmental Assessment and Planning (3)
- GPLN 387/GESC 487 Cooperative Education (3,3)
- GPLN 488/489/490 Internship (4,5,6)
- GPLN 497/498/499 Independent Study (1,2,3)
- PLSC 270 Public Administration (3)
- SOCL 306 The Urban Community (Students, in consultation with the program advisors, may choose other elective courses not listed above.)

**Total**

24-26 hours

## Earth Science Minor

### Secondary, K-12, and Special Education-Secondary Teacher Certification

### ISIS minor code: GE31

Successful completion of this minor, in the context of other program requirements, qualifies the student for recommendation for endorsement in geology/earth science, certification code "CH." The certification test covering this field is #20, "Geology/Earth Science."

- #GESC 108 Earth Science (satisfies general education requirement II.1 or III.3) 
- GEOL 229 Rocks of Michigan (2)
- GESC 309 Plate Tectonics (3)
- GESC 320 The Oceans (3)
- GESC 324 Weather (3)
- #ASTR 203 Exploration of the Universe (satisfies general education requirement II.3)

*One course from the following:*

- GEOL 161 Historical Geology (4) (Prereq: #GEOG 160 satisfies general education requirement II.1 or III.3 or permission)
- GEOL 228 Geology of Michigan (2)
- GEOL 325 Geomorphology (3)
- GEOL 331 Paleontology (4) (Prereq: GEOG 161 or BIOL 105 or permission)
- GEOL 370 Glacial Geology (3) (Prereq: GEOG 161, 330 or permission)

Others, chosen in consultation with advising coordinator

**Total**

21 hours

NOTE:

# These courses satisfy both general education requirements and requirements of the minor. In order to avoid taking excess hours, students are advised to take these courses, or approved substitutes from another institution, as part of the general education requirements.

## Geography Minor

### Secondary, K-12, and Special Education-Secondary Teacher Certification

### ISIS minor code: GE32

Successful completion of this minor, in the context of other program requirements, qualifies the student for recommendation for endorsement in geography, certification code "GN." The certification test covering this field is #08, "Geography."

- #GESC 108 Earth Science (satisfies general education requirement II.1 or III.3) 
- #GEOG 110 World Regions (satisfies general education requirement III.3) 
- #GEOG 111 World Regions (satisfies general education requirement III.3) 
- #GEOG 112 Introduction to Travel and Tourism (3)
13 hours chosen in consultation with the advising coordinator to include five hours from:
- GEOG 313 Geography of Michigan (2)
- GEOG 314 Geography of Russia and Neighboring States (3)
- GEOG 318 Geography of Asia (3)
- GEOG 319 Geography of Europe (3)
- GEOG 320 Geography of the United States and Canada (3)
- GEOG 321 Geography of Latin America (3)
- GEOG 322 Geography of Africa (3)
- GEOG 328 Geography of Canada (2)

Total: 20 hours

NOTE:
#These courses satisfy both general education requirements and requirements of the minor. In order to avoid taking excess hours, students are advised to take these courses, or approved substitutes from another institution, as part of the general education requirements.

Geology Minor
Secondary, K-12, and Special Education-Secondary Teacher Certification

ISIS minor code: GE33
Successful completion of this minor, in the context of other program requirements, qualifies the student for recommendation for endorsement in geology/earth science, certification code “DL.” The certification test covering this field is #20, “Geology/Earth Science.”

#GEOL 160 Physical Geology (satisfies general education requirement II.I or II.3) 4
GEOL 161 Historical Geology 4
GEOL 228 Mineralogy 4
GEOL 326 Structural Geology 4
GEOL 329 Igneous and Metamorphic Petrology 4

Total: 20 hours

NOTE:
#This course satisfies both general education requirements and requirements of the minor. In order to avoid taking excess hours, students are advised to take this course, or an approved substitute from another institution, as part of the general education requirements.

Geography Courses

GEOG 100 Human Geoceneses 3 hrs
This course illustrates the dynamic dependence of global and local human activities upon the known and perceived geoscientific aspects of the earth. Geoscientific knowledge, gained through such disciplines as geography and geology, is constantly evolving. Geoscientific knowledge will effect future human relationships with the earth. This course presents a systematic survey of the sub-disciplines of human geography and their interrelationships with the evolving discipline of geology.

GEOG 107 Introduction to Geography 3 hrs
A survey of the major concepts and subfields in modern geography. Physical, cultural, economic, political and social geography are among the major areas explored.

GEOG 110 World Regions 3 hrs
Geographic evaluation of the human imprint on the world, focusing on how peoples of various societies have approached the problems of living in their natural environments and with each other. A requirement for both the major and minor in geography.

GEOG 111 Regions and Resources 3 hrs
A comparative analysis of the economic resources of major regions of the world. The relationships among countries, corporations and multiple levels of technology are examined.
Prereq: GEOG 110.

GEOG 112 Introduction to Travel and Tourism 3 hrs
An introduction to the travel and tourism industry, including traditional and emerging careers, the ethical, behavioral and logistical aspects of the travel experience; traveler needs and motivations; forensic travel directions; and travel-related organizations.

GEOG 113 Foundations of Guest Service 3 hrs
Analysis of guest-host service concepts and interactions in the travel and tourism industry, emphasizing the requisite attitudes and roles of the professional host. The course will improve student motivation and skills toward providing positive guest experiences.

GEOG 115 Observing the Human Landscape 2 hrs
A geography course for students of any curriculum designed to enlighten travel experiences by developing observational awareness and perceptual appreciation of human landscapes and by enhancing sensitivity to the personality of places.

GEOG 117/178/179 Special Topics 1/2/3 hrs
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied. Prereq: Department permission.

GEOG 212 Geography of Travel and Tourism 3 hrs
A review of the philosophy, historical development and geographical distribution of travel and tourism. The economic, social and environmental impacts of these activities; case studies illustrating their significance from all regions of the world.
Prereq: GEOG 110 or GEOG 112. (May be taken concurrently.)

GEOG 235 Economic Geography 3 hrs
Systematic treatment of economic activities in selected world locations. Areal factors included in the evaluation, production and distribution of goods and services.

GEOG 240 Geographic Perspectives on Third World Development 3 hrs
A course designed to study the geographic nature of critical development issues. Explores both positive and negative consequences of world interdependence and the global economy.
Prereq: GEOG 110.

GEOG 277/278/279 Special Topics 1/2/3 hrs
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied. Prereq: Department permission.

GEOG 300 Location and Site Analysis 3 hrs
Practical and theoretical application of models that explain the location of human activities on earth.
Prereq: GEOG 235 recommended.

GEOG 310 Energy Awareness 3 hrs
A study of production, transportation, and consumption of energy, including analysis of historic, modern and future energy sources and the environmental effects of their development. GEOG 110 or GESC 108 recommended.

GEOG 313 Geography of Michigan 2 hrs
Detailed analysis of the natural setting, population and settlement characteristics, industry, recreation and agriculture in the state.
Prereq: GEOG 110 or GESC 108.
GEOG 314 Geography of Russia and Neighboring States 3 hrs
A systematic and regional study of physical, cultural, and economic factors in Russia and other states of the former Soviet Union. Distribution of natural resources, population and ethnic questions, environmental problems, and political evolution will be emphasized.
Prereq: GEOG 110 or GESC 108.

GEOG 315 Travel and Tourism: The European Scene 3 hrs
Consideration of Europe as the most significant continent for modern tourism. Emphasis is on the natural, cultural, and historical factors that form the foundation of this industry, and on the major economic, social, and environmental impacts that can be attributed to tourism.
Prereq: GEOG 112 and GEOG 212.

GEOG 316 History and Geography of Modern Europe 3 hrs
An interdisciplinary geographical-historical study of modern Europe with the geographical component emphasizing information of an urban, demographic, occupational and environmental nature and the historical component stressing major political, social and cultural developments. Must be taken concurrently with HIST 316.
Prereq: GEOG 110 and one of HIST 101/HIST 102/HIST 103.

GEOG 317 History and Geography of Spanish America 3 hrs
An interdisciplinary presentation of the history and geography of Spanish America with emphasis on political, cultural, and socioeconomic forces from the conquest to the present. Similarities and differences within and among nations are stressed as are the special relationships that exist between the nations and the United States. Must be taken concurrently with HIST 317.
Prereq: GEOG 110 and one of HIST 101/HIST 102/HIST 103.

GEOG 318 Geography of Asia 3 hrs
A regional treatment of natural setting, distribution of the people, important occupations and problems of future development in each of several regions.
Prereq: GEOG 110 or GESC 108.

GEOG 319 Geography of Europe 3 hrs
Systematic treatment of the natural setting, cultural patterns, economic activities and developmental problems of the continent; selected significant regions analyzed in detail.
Prereq: GEOG 110 or GESC 108.

GEOG 320 Geography of the United States and Canada 3 hrs
A regional treatment of natural setting, distribution of the people, important occupations and problems of future development in each of several regions.
Prereq: GEOG 110 or GESC 108.

GEOG 321 Geography of Latin America 3 hrs
A regional treatment of natural setting, distribution of the people, important occupations and problems of future development in each of several regions.
Prereq: GEOG 110.

GEOG 322 Geography of Africa 3 hrs
A human ecological treatment of the African continent, involving resource identification and use as well as the varied nature of evolving human landscapes.
Prereq: GEOG 110 or GESC 108.

GEOG 323 Geography of Australia and Pacific Islands 3 hrs
The natural setting, distribution of the people, important occupations and problems of future development in each of several regions.
Prereq: GEOG 110 or GESC 108.

GEOG 326 History and Geography of Modern Asia 3 hrs
An interdisciplinary geographical-historical study of modern Asia. The geography component emphasizes urban, demographic, occupational, and environmental trends and developments; the history component stresses major political and social developments and international relations. A requirement for majors in the Japanese program in language and international trade. Must be taken concurrently with HIST 326.
Prereq: GEOG 110 and either HIST 103 or HIST 106.

GEOG 332 Urban Geography 3 hrs
A study of geographic principles related to distribution, function, structure and regional setting of urban centers.
Prereq: GEOG 110.

GEOG 333 Settlement Geography 3 hrs
Cultural, functional and ecological factors underlying human settlement patterns.
Prereq: GEOG 110 or GESC 108 or GEOG 115.

GEOG 336 Tourism and Socioeconomic Development 3 hrs
Socioeconomic impacts of tourism; national and international development strategies.
Prereq: GEOG 112 or GEOG 212.

GEOG 340 Medical Geography 3 hrs
An inquiry into ecosystemic relationships between human health and conditions of the environment, both natural and cultural. The application of geographic concepts and techniques to interregional and intercultural health and health care problems.
Prereq: GEOG 110.

GEOG 344 Recreation Geography 3 hrs
A study of the relationship between human recreation activities and the environment. The environment as a recreation resource; recreation travel patterns; types of recreational facilities; impact of leisure activities upon the environment; recreational surveys and planning. Recommended: GESC 114 or GPLN 215 or GEOG 115 or GEOG 360 or BIOL 224.

GEOG 345 Geography of Resorts 2 hrs
Historical and systematic study of resorting and the resort as a functionally specialized settlement type; major resort areas of the world.
Prereq: GEOG 110 and GEOG 212.

GEOG 348 Teaching Social Studies in Elementary Schools 3 hrs
Survey of the social studies and evaluation of methods commonly used in the teaching of social studies in the elementary grades, with special emphasis on inquiry. Types of activities most effective in the presentation of materials and the use of visual aids are featured. A study of maps and globes, controversial issues, social values, environmental education, consumer education, global education and ethnic groups is included. Not open to students on academic probation.
Prereq: One course in geography.

GEOG 350 Cultural Geography 3 hrs
Human landscape patterns; emphasis upon the processes concerned with their origins, locations and persistence.
Prereq: GEOG 110.

GEOG 351 Geography of Population 3 hrs
An analytical study of population characteristics and growth, world patterns of fertility, mortality and migration. Major attention is given to human population problems, including ecology, resource depletion and impacts of urbanization.
Prereq: GEOG 110.

GEOG 377/378/379 Special Topics 1-2-3 hrs
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.
Prereq: Department permission.

GEOG 387 Cooperative Education in Geography 3 hrs
Four to six months of full-time employment at a firm or agency, chosen for imparting a practical educational experience in geography. The program consists of two work experiences GEOG 387/GEOG 487 alternating with full-time
University attendance. A written report is required at the end of each employment period. Graded on a credit/no credit basis.

Prereq: Completion of sophomore year, geography major. Admittance by application only.

GEOG 423 Principles of City and Regional Planning 3 hrs
Theory and practice of planning in the urban and regional contexts, with emphasis on the United States. Planning process at local, state, and regional levels. Required for the geography major. Admittance by application only.

Prereq: GEOG 332.

GEOG 431 Historical Geography of the United States 3 hrs
The sequence of human occupancy of the United States from pre-European times to the present. Temporal and spatial evolution of cultural landscapes. Required for the geography major. Admittance by application only.

Prereq: GEOG 320.

GEOG 433 Political Geography of the United States 3 hrs
A study of the variety and diversity of geographic forms of political behavior, organization and structure in the United States.

Prereq: GEOG 110.

GEOG 488/489/490 Internship 4/5/6 hrs
Supervised internship in some aspect of geography that is of mutual interest to the qualified student and the place the student will work. Designed to integrate academic training with practical application. May be taken only once for credit. Required for the geography major. Admittance by application only.

Prereq: Department permission and placement.

GEOG 497/498/499 Independent Study 1/2/3 hrs
Advanced study on individual basis in areas in which the department does not offer a formal course. Normally restricted to proficient students in the senior year under the general conditions prescribed for honors courses. Required for the geography major.

GEOG 120 The Fossil Record 3 hrs
The origin, development and succession of life on earth. Systematic study of the evolution of life through time. An introduction to the record of life on earth for the nonscience major.

Prereq: Department permission.

GEOG 160 Physical Geology 4 hrs
Geological concepts, processes, materials and surface features of the physical earth; internal features such as heat and volcanism, earthquakes and deformation, and plate tectonics; and external processes that have shaped the landscape. Lecture: three hours per week. Laboratory: one two-hour period per week. Required for the geology major.

Prereq: Department permission.

GEOG 441 Transportation Geography and Planning 3 hrs
Explores the evolution of transportation in American society, with special attention paid to the impact of railroads, the automobile and the airline industry. Topics include an introduction to techniques for modeling transportation system demand.

Prereq: GEOG 235, GEOG 212, or GPLN 215.

GEOG 445 Cultural Tourism Resources 3 hrs
Survey of the relationships between cultural heritage resources and tourism. The tourism potentials of cultural centers and museums, archeological sites, folk crafts and foodways, regional cultural mannerisms, ethnic landscapes, architecturally significant buildings, historic cities and towns, and other types of historic landscapes will be covered.

Prereq: GEOG 212 or GEOG 338.

GEOG 446 Heritage Interpretation and Tourism 3 hrs
Evolution of the private sector tour-guiding and the public sector heritage interpretation concepts. Practice in the application of interpretive techniques to cultural and natural tourism resources. Strategies for the integrative use of interpretive methods, including tours, demonstrations, talks, person-to-person experiences, publications, exhibits, signage and audiovisuals.

Prereq: GEOG 445.

GEOG 477/478/479 Special Topics 1/2/3 hrs
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Prereq: Department permission.

GEOG 487 Cooperative Education in Geography 3 hrs
Four to six months of full-time employment at a firm or agency chosen for imparting a practical educational experience in geography. The program consists of two work experiences (GEOG 387/GEOG 487) alternating with full-time attendance at the University. A written report is required at the end of each employment period. Graded on a credit/no credit basis.

Prereq: GEOG 387. Completion of junior year, geography major. Admittance by application only.

GEOG 497/498/499 Independent Study 1/2/3 hrs
Advanced study on individual basis in areas in which the department does not offer a formal course. Normally restricted to proficient students in the senior year under the general conditions prescribed for honors courses. Required for the geography major.

Prereq: Department permission.

Geology Courses

GEOL 120 The Fossil Record 3 hrs
The origin, development and succession of life on earth. Systematic study of the evolution of life through time. An introduction to the record of life on earth for the non-science major.

Prereq: Department permission.

GEOL 160 Physical Geology 4 hrs
Geological concepts, processes, materials and surface features of the physical earth; internal features such as heat and volcanism, earthquakes and deformation, and plate tectonics; and external processes that have shaped the landscape. Lecture: three hours per week. Laboratory: one two-hour period per week. Required for the geology major.

Prereq: Department permission.

GEOL 227/278/279 Special Topics 1/2/3 hrs
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Prereq: Department permission.

GEOL 317 Rocks of Michigan 2 hrs
The identification and classification of rocks with special emphasis on characteristics used in the field.

Prereq: GEOL 161.

GEOL 228 Mineralogy 4 hrs
A study of the crystallography, crystal chemistry and identification of the most important rock forming and economic minerals of the crust of the earth. Lecture: three hours per week. Laboratory: two hours per week.

Prereq: GEOL 161 and CHEM 121.

GEOL 229 Rocks of Michigan 2 hrs
The identification and classification of rocks with special emphasis on characteristics used in the field.

Prereq: GEOL 161.

GEOL 277/278/279 Special Topics 1/2/3 hrs
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Prereq: Department permission.

GEOL 325 Geomorphology 3 hrs
A detailed study of surface features and the degradational, aggradational and structural processes by which they are formed. Worldwide examples are used extensively.

Prereq: GEOL 161.
GEOL 326 Structural Geology 4 hrs
Introduction to the terminology, geometry, kinematics and mechanics of rock deformation. Laboratory emphasizes geometric techniques of structural analysis. Lecture: three hours per week. Laboratory: two hours per week.
Prereq: GEOL 161 and MATH 107.

GEOL 329 Igneous and Metamorphic Petrology 4 hrs
A study of the texture, chemistry, classification, origin and evolution of igneous and metamorphic rocks. Lecture: three hours per week. Laboratory: two hours per week. Not open to students with credit in GEOL 229. Winter term only.
Prereq: GEOL 161 and GEOL 228.

GEOL 330 Sedimentology and Stratigraphy 4 hrs
The properties, description and classification of sedimentary rocks; processes and environments of sedimentation; principles and techniques of stratigraphy. Field trips and reports required.
Prereq: GEOL 161 and GEOL 228.

GEOL 331 Paleontology 4 hrs
Origin and development of life on earth and the environments in which animal assemblages lived. Study of the principles involved in the interpretation of fossils. Systematic study of the features of the organisms most important in the fossil record. Lecture: three hours per week; laboratory: one-two-hour period per week.
Prereq: GEOL 120 or GEOL 161 or BIOL 120.

GEOL 355 Field Geology I 2 hrs
Theory and practice of precision mapping using tape, alidade, plane table and stadia rod in local area. With GEOL 356, satisfies the field requirement for major in geology. May include field study in a quarry.
Prereq: GEOL 316, GEOL 229, and GEOL 330.

GEOL 356 Field Geology II 3 hrs
Instruction and practice in pace-traverse mapping, measurement of stratigraphic sections and a mapping of areal geology and geologic structure in the Rocky Mountain west. With GEOL 355, satisfies field requirement for geology major.
Prereq: GEOL 326, GEOL 329, and GEOL 330.

GEOL 370 Glacial Geology 3 hrs
A study of the glacial geomorphology and stratigraphy of the Pleistocene drift with emphasis on the character of the drift, sheets, their soils and lithology, and the techniques of study as applied to the Wisconsin Stage in the state of Michigan. Comparisons drawn with the movements and deposits of modern glaciers; Paleoclimatic cycles of Precambrian and Paleozoic glacial ages and theories stressed. Field trips and reports required.
Prereq: GEOL 161.

GEOL 377/378/379 Special Topics 1/2/3 hrs
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.
Prereq: Department permission.

GEOL 387 Cooperative Education in Geology 3 hrs
Four to six months of full-time employment at a firm or agency, chosen for imparting a practical educational experience in geology. The program consists of two work experiences (GEOL 387/GEOL 487) alternating with full-time University attendance. A written report is required at the end of each employment period. Graded on a credit/no credit basis.
Prereq: Department permission.

GEOL 428 Optical Mineralogy 4 hrs
Study of the optical properties of crystalline matter with petrographic microscope used to identify nonopaque and some opaque minerals, using crushed fragments and some thin-sections.
Prereq: GEOL 228.

GEOL 430 Petroleum Geology 3 hrs
A study of the origin, migration and accumulation of petroleum; reservoir analysis, exploration and development techniques. Lecture: two hours per week. Laboratory: two hours per week.
Prereq: GEOL 326 and GEOL 330.

GEOL 439 Economic Geology 3 hrs
A study of the geochemical behavior of metallic elements; the origin, processes, controls and classification of ore deposits. Lecture: two hours per week. Laboratory: two hours per week.
Prereq: GEOL 329.

GEOL 448 Hydrogeology 3 hrs
Subsurface water occurrence, distribution, relationships to surface; water and precipitation; subsurface flow, especially as related to well water production; tests of aquifers; well drilling and installation; ground water exploration and recharge; legal problems.
Prereq: GESC 108 or GEOL 160, and MATH 105.

GEOL 459 Aquifer Analysis 3 hrs
Study of the analysis of aquifer parameters and groundwater flow using analytical, numerical and statistical computer methods.
Prereq: GEOL 448.

GEOL 460 Contaminant Hydrology 3 hrs
Study of hydrochemistry, pollution pathways and transport of contaminants.
Prereq: CHEM 111-CHEM 122 and GEOL 448.

GEOL 470 Quantitative Methods in Geography and Geology 3 hrs
Introduction to current techniques and methods applicable to geographic and geologic problems. A laboratory course emphasizing statistical analyses and computer applications.
Prereq: GESC 108 or GEOL 160, and MATH 104.

GEOL 477/478/479 Special Topics 1/2/3 hrs
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.
Prereq: Department permission.

GEOL 487 Cooperative Education in Geology 3 hrs
Four to six months of full-time employment at a firm or agency, chosen for imparting a practical educational experience in geology. The program consists of two work experiences (GEOL 387/GEOL 487) alternating with full-time University attendance. A written report is required at the end of each employment period. Graded on a credit/no credit basis.
Prereq: Department permission.

GEOL 488/489/490 Internship 4/5/6 hrs
Supervised internship in some aspect of geology that is of mutual interest to the qualified student and the place the student will work. This experience is designed to integrate academic training with practical application. May be taken only once for credit.
Prereq: Department permission and placement.

GEOL 497/498/499 Independent Study 1/2/3 hrs
Advanced study on individual basis in areas in which the department does not offer a formal course. Normally restricted to proficient students in the senior year under the general conditions prescribed for honors courses.
Prereq: Department permission.

Earth Science Courses

GESC 108 Earth Science 4 hrs
Selected topics and concepts from geology, physical geography, meteorology and oceanography provide the foundation for understanding current environmental problems and for perceiving fundamental options as humans increase pressure on the world’s resources and ecosystems. A requirement for both the major and
major in geography. Lecture: three hours per week. Laboratory: one two-hour period per week. Not open to students who have credit in GESC 202.

**GESC 114 National Parks and Monuments** 2 hrs
An analysis of the geology, vegetation and wildlife that led to the designation of certain U.S. lands as national parks, monuments and recreational areas. The environmental impact of people on the ecology of these areas resulting from population pressures of camping, trail use, fire, tourist services and recreational facilities; NPS conservation policies that govern preservation of our heritage. Illustrated lectures and demonstrations.

**GESC 177/178/179 Special Topics** 1/2/3 hrs
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.
Prereq: Department permission.

**GESC 202 Science for Elementary Teachers** 3 hrs
Lectures and laboratory deal with earth science concepts and teaching methodology. Nationally used elementary science curricula acquaint the student with techniques of teaching basic earth science concepts. Emphasis on student-centered, process-oriented approaches widely used in elementary classrooms. Lecture: two hours per week. Laboratory: one two-hour period per week. Not open to students with credit in GESC 108.

**GESC 208 Natural Environmental Hazards** 3 hrs
Analysis of devastating earthquakes, volcanic eruptions, floods, violent storms, freezes and other environmental catastrophes, emphasizing their causes and human adjustments to these events.

**GESC 227 Topographic Maps** 2 hrs
Interpretation of distances, slopes and terrain features as shown on topographic contour maps. Preparation of contour maps from numerical data and of topographic profiles from contour maps; the correlation of landforms and landform patterns with the geologic materials and processes responsible for them.
Prereq: GEOL 160 or GESC 108.

**GESC 250 Introduction to Coastal Processes** 3 hrs
Description and analysis of the physical and biogeographical processes of ocean and lake coasts. Distribution and origins of coastal environments. Natural and human modification of beach, river valley, estuary, marsh, delta and coral reef environments by waves, currents and tides. Classroom demonstrations and field trips.
Prereq: GEOL 160 or GESC 108.

**GESC/GP LN 276 Principles of Geographic Information Systems** 3 hrs
An introduction to Geographic Information Systems principles, including geocoding, coordinate systems, topological data structures, data formats, field and image data, data entry and editing, database management, and spatial analysis.
Prereq: GEOG 110, GESC 108, or GEOL 160.

**GESC 277/278/279 Special Topics** 1/2/3 hrs
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.
Prereq: Department permission.

**GESC 303 Field Geography** 3 hrs
Techniques in the observation and analysis of geographic features in the field. Emphasizes individual and group problem formulation, problem solving of geographic questions by using the scientific method, and combining traditional field exploration with the use of library aids.
Prereq: GEOL 160 or GESC 108.

**GESC 305 Aerial Photograph Interpretation** 3 hrs
Analysis of black and white and color infrared photographs for land use planning, environmental assessment, geology and resource management. Weekly lab exercises. Optional field trip.
Prereq: GEOL 160 or GESC 108, MATH 104.

**GESC 320 The Oceans** 3 hrs
A study of the world's oceans, including coasts, waves, currents, tides, sediments, marine geology, properties of sea water, the energy balance, oceanographic research techniques and marine resources, stressing physical oceanography.
Prereq: GEOL 161.

**GESC 324 Weather** 3 hrs
Introduction to the properties and processes that create weather, including an analysis of conditions aloft, the formation of storms, and methods and problems of weather forecasting.
Prereq: GESC 108.

**GESC 327 Soil Science** 3 hrs
The mineralogical, physical, chemical, and engineering properties of soils as related to soil formation, groundwater movement, soil erosion, plant-soil relationships and land development capability. Field trips and exercises required. Fall semester only.
Prereq: GEOL 161.

**GESC 347 Teaching Earth Science and Physical Geography** 3 hrs
The techniques of teaching laboratory-centered earth science and physical geography courses, emphasizing inquiry teaching and questioning techniques. Practical experience is obtained by teaching actual earth science and physical geography classes. A requirement for teacher certification in earth science, geology and geography. Not open to students on academic probation.
Prereq: GESC 320 and GESC 324.

**GESC 350 Biogeography** 3 hrs
Analysis of the distribution, geologic setting and ecological function of inland freshwater lakes and Great Lakes coasts. Emphasis on sediment, vegetation, wildlife, waterfowl and fisheries resources.
Prereq: GEOL 160 or GESC 108.

**GESC 377/378/379 Special Topics** 1/2/3 hrs
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.
Prereq: Department permission.

**GESC 387 Cooperative Education in Earth Science** 3 hrs
Four to six months of full-time employment at a firm or agency chosen for imparting a practical educational experience in earth science or land use planning. The program consists of two work experiences (GESC 387 and GESC 487) alternating with full-time University attendance. A written report is required at the end of each employment period. Graded on a credit/no credit basis.
Prereq: Department Permission.

**GESC 402 Advanced Cartography** 3 hrs
A continuation of GESC 401. Emphasizes the student's production of thematic maps; the use of press-on materials, tapes and acetate overlays; scribbling, computer mapping; reproduction techniques. One hour lecture, four hours laboratory per week.
Prereq: GESC 401.

**GESC 424 Climatology** 3 hrs
An analysis of the world's climate types, including characteristics, classification, controls and their effects on world soils and natural vegetation.
Prereq: GESC 324.

**GESC 425 Severe and Unusual Weather** 3 hrs
Analysis of cyclones, blizzards, thunderstorms, tornadoes, hurricanes and other catastrophic weather phenomena. Their environmental impact and prediction.
Prereq: GESC 324.
GESC 450 Lake and Coastal Management 3 hrs
An analysis of modern coastal management problems of inland lakes and Great Lakes coasts. Selected topics include beach erosion, dredging, loss of wetlands, wildlife habitat degradation and impact of shoreline development.
Prereq: GESC 250 or GESC 350.

GESC 470 Quantitative Methods in Geography and Geology 3 hrs
Introduction to current techniques and methods applicable to geographic and geologic problems. A laboratory course emphasizing statistical analyses and computer applications.
Prereq: MATH 104, GEOL 150 or GESC 108.

GESC 475 Computer Mapping 3 hrs
A laboratory course introducing interactive operation of microcomputers to produce maps on line printers and plotters. Students learn to develop and apply computer mapping graphics, databases, digitized data and a simple geographic information system. Two hours of instruction and two hours laboratory each week.
Prereq: GEOL 150 or GESC 108.

GESC 476 Introduction to Geographic Information Systems 3 hrs
Introduction to basic Geographic Information Systems (GIS) concepts, geographic referencing and to available software programs. Includes theory on map projections, mapping techniques, data collection and compilation, and data analysis. Microcomputer oriented.
Prereq: GESC 276.

GESC 477/478/479 Special Topics 1/2/3 hrs
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.
Prereq: Department permission.

GESC 485 Introduction to Remote Sensing 3 hrs
Introduction to remote sensing techniques and types of imagery, including multispectral, thermal and radar images. Emphasis on image enhancement and interpretation in regard to land use planning and resource management.
Prereq: GESC 305.

GESC 487 Cooperative Education in Earth Science 3 hrs
Four to six months of full-time employment at a firm or agency chosen for imparting a practical educational experience in earth science or land use planning. The program consists of two work experiences (GESC 387 and GESC 487) alternating with full-time University attendance. A written report is required at the end of each employment period. Graded on a credit/no credit basis.
Prereq: Department permission.

GESC 488/489/490 Internship 4/5/6 hrs
Supervised internship in some aspect of earth science or land use that is of mutual interest to the qualified student and the place the student will work. This experience is designed to integrate academic training with practical application. May be taken only once for credit.
Prereq: Department permission and placement.

GESC 495/GPLN 495 Environmental Assessment and Planning 3 hrs
An examination of the program elements of environmental impact statements. Geobased data sources are explored and analyzed. Impact statements are prepared by the class and existing impact statements are evaluated.
Prereq: GEOL 160 or GESC 108; GPLN 215.

GESC 497/498/499 Independent Study 1/2/3 hrs
Advanced study on an individual basis in areas in which the department does not offer a formal course. Normaly restricted to proficient students in the senior year under the general conditions prescribed for honors courses.
Prereq: Department permission.

GESC 497/498/499 Independent Study 1/2/3 hrs
An examination and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.
Prereq: Department permission.

GESC 477/478/479 Special Topics 1/2/3 hrs
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.
Prereq: Department permission.

GESC 335 Historic Preservation 3 hrs
Introduction to general concepts and goals of historic preservation. The built environment as a cultural heritage resource; objectives of cultural surveys and inventories; methods of preservation, conservation, planning and interpretation.
Prereq: GEOG 115 recommended.

GESC 377/378/379 Special Topics 1/2/3 hrs
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.
Prereq: Department permission.

GESC 387 Cooperative Education in Historic Preservation 3 hrs
Four to six months of full-time employment at a firm or agency, chosen for imparting a practical educational experience in historic preservation, historic administration or heritage interpretation. The program consists of two work experiences (GESC 387/GESC 487) alternating with full-time University attendance. A written report is required at the end of each employment period. Graded on a credit/no credit basis.
Prereq: Completion of sophomore year; historic preservation or selected minor. Admission by application only.

GPLN 401 Planning/Preservation Graphics 3 hrs
A lecture-laboratory course in graphics techniques of mapmaking, topographic analysis, communication of data, and presentation. Media explored will include pen and ink, colored pencil and markers, and digital photography.
Prereq: GPLN 215.

GESC 436 Historic Preservation Field Project 3 hrs
Specially arranged, supervised field experiences and application of theoretical viewpoints to field problems in historic preservation.
Prereq: Department permission.

GESC 477 Historic Preservation Field Project 6 hrs
Specially arranged, supervised field experiences and application of theoretical viewpoints to field problems in historic preservation.
Prereq: Department permission.

GESC 477/478/479 Special Topics 1/2/3 hrs
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.
Prereq: Department permission.

GESC 487 Cooperative Education in Historic Preservation 3 hrs
Four to six months of full-time employment at a firm or agency, chosen for imparting a practical educational experience in historic preservation, historic administration or heritage interpretation. The program consists of two work experiences (GESC 387/GESC 487) alternating with full-time University attendance. A written report is required at the end of each employment period. Graded on a credit/no credit basis.
Prereq: Completion of junior year; historic preservation or related minor.

GESC 488/489/490 Internship 4/5/6 hrs
Supervised internship in some aspect of historic preservation, historic administration or heritage interpretation that is of mutual interest to the qualified student and the place the student will work. This experience is designed to inte-
grate academic training with practical application. May be taken only once for credit.
Prereq: Department permission and placement.

GHP R 497/498/499 Independent Study
1/2/3 hrs
Advanced study on an individual basis in areas in which the department does not offer a formal course. Normally restricted to proficient students in the senior year under the general conditions prescribed for honors courses.
Prereq: Department permission.

Urban and Regional Planning Courses

GPLN 215 Introduction to Urban and Regional Planning
3 hrs
A general introduction to concepts and techniques of urban and regional planning. An overview of land-use planning tools and ordinances, urban and rural planning issues and preparation of general development plans. Discussion of urban and regional planning as a career, in both public agencies and private firms.
Prereq: Not open to freshmen.

GPLN 216 Readings in Planning Theory
2 hrs
A lecture/seminar course in which students read and discuss classic readings in urban planning. This course serves as an introduction to important writers and topics in the field.
Prereq/Correq: GPLN 215, Sophomore or Junior Standing.

GPLNGESC 276 Principles of Geographic Information Systems
3 hrs
An Introduction to geographic Information Systems principles, including geocoding, coordinate systems, topological data structures, data formats, field and image data, data entry and editing, database management, and spatial analysis.
Prereq: GEOG 110, GESC 108, or GEO 160.

GPLN 306 Comprehensive Planning and Zoning
3 hrs
A course studying issues of comprehensive planning, zoning and land-use regulation. Topics include preparation of a General Development Plan, current and recent zoning issues, land use legislation, and the drafting and use of state and local zoning ordinances. A base course for Urban and Regional Planning students as well as a valuable perspective to anyone interested in rural, urban or regional development issues.
Prereq: GPLN 215 and GPLN 216.

GPLN 387/487 Cooperative Education
3 hrs
Four to six months of full-time employment at a firm or agency, chosen for imparting a practical educational experience in urban and regional planning. The program consists of two work experiences alternated with full-time University attendance. A written report is required at the end of each employment period. Offered on a credit/no credit basis.
Prereq: Completion of sophomore year. Urban and Regional Planning Major: Admittance by application only.

GPLN/GHPR 401 Planning/Preservation Graphics
3 hrs
A lecture-laboratory course in graphics techniques of mapmaking, topographic analysis, communication of data, and presentation. Media explored will include pen and ink, colored pencil and markers, and digital photography.
Prereq: GPLN 215.

GPLN 407 Housing and Residential Development
3 hrs
A course for students interested in planning, administrative and sociological aspects of housing, emphasizing the important role of housing in American society. Issues covered include housing programs, neighborhood development activities, construction and rehabilitation of residential units, and planning techniques and regulations for residential areas. Information is presented through lectures and readings; students will also work on a preliminary site layout of a housing development.
Prereq: GPLN 215.

GPLN 409 Professional Practice for Planners
3 hrs
A senior-level course for urban and regional planning majors and minors, intended to be taken concurrently with GPLN 410. A seminar format is used to present a series of topics relating to professional practice in planning. Readings, case studies, simulations and guest speakers are used to expose students to professional activities, including public hearings, dealing with community controversies, and professional-level communication techniques. Topics also deal with issues of professional ethics and certification.

GPLN 410 Site Planning Studio
3 hrs
A studio course in urban planning, giving hands-on experience in developing a site plan. Using an actual site and client, a project will be taken through the various stages of plan development. Activities include program analysis, data collection, development of alternative solutions, and selection and presentation of a final site plan.
Prereq: GPLN 215 and GPLN 306 and senior standing.

GPLN 435 History of Urban Form and Function
3 hrs
Historically important periods of urban planning are analyzed in select cities throughout the world and in the United States. Comparisons are made between city plans from other cultures and our own. GEOG 332 is recommended.
Prereq: GPLN 215 and GPLN 216.

GPLN 488/489/499
4/5/6 hrs
Supervised internship in some aspects of urban and regional planning that is of mutual interest to the qualified student and the place the student will work. Designed to integrate academic training with practical application. May be taken no more than twice for credit.
Prereq: Department permission. Sophomore or Junior standing.

GPLN 495/GESC 495 Environmental Assessment and Planning
3 hrs
An examination of the program elements of environmental impact statements. Geo-based data sources are explored and analyzed. Impact statements are prepared by the class, and existing impact statements are evaluated.
Prereq: GEOI 160 or GES 108; GPLN 215.

GPLN 497/498/499
1/2/3 hrs
Advanced study on an individual basis in areas in which the department does not offer a formal course. Normally restricted to proficient students in the senior year under the general conditions prescribed for honors courses.
Prereq: Department permission. Sophomore or Junior standing.

History and Philosophy

www.emich.edu/public/history/phil.html

Departmental Administration
Gersham A. Nelson
Department Head
701 Pray-Harrold
734.487.1018
E-mail: gersham.nelson@emich.edu

Through study in this department, students can gain knowledge of past events and ideas, develop skills in analysis and evaluation, and prepare for success in a variety of positions in education or with local, state, national, and international governmental and private agencies. Students will also may develop a sound foundation for postgraduate study in the humanities or social studies, or in such applied fields as law, religion and business. Additional educational opportunities are offered regularly through overseas travel-study programs and other off-campus enrichment experiences.

The department also participates in offering honors courses, programs in public law and government, public administration, area studies, language and international trade, African American studies, technology and society, and women's studies.
Degrees Offered
Bachelor of Arts
Bachelor of Science

Programs of Study

Majors
Area studies (Africa, Asia-Far East, Latin America, Middle East and North Africa, Russia and Eastern Europe)
History
History for secondary education
Philosophy
Social science
Social studies for secondary education (major-minor combined)

Minor
Area studies (Africa, Asia-Far East, Latin America, Middle East and North Africa, Soviet Union)
History
History for secondary, K-12, and special education-secondary
Philosophy
Religious studies
Social science group minor (not for teacher education)

Graduate programs under the auspices of the department are the master of arts in history, the M.A. program in social science, the M.A. program in liberal studies with a concentration in social science and American culture, and the graduate certificate in state and local history. See the graduate catalog for program descriptions.

Advising
Advising is available in the Department of History and Philosophy for all areas of study listed above, with the exception of programs in elementary education which are the responsibility of the Department of Teacher Education. For advising in the Department of History and Philosophy, appointments should be made through the department secretary at 734.487.1018.

Advising Coordinators:
History, social science, area studies: Pamela Graves
History, social science, area studies, religion: Margaret Duley
Philosophy: Margaret Crouch

Area Studies Majors
ISIS major code: HS04

The interdisciplinary area studies major helps students understand the background and specific problems of a world cultural or geopolitical area: Africa, Asia-Far East, Latin America, Middle East and North Africa, or Russia and Eastern Europe. Courses drawn from several departments supply information on the area's economy, geography, history, politics, society and general cultural background. The program also provides a foundation for graduate work with an area of specialization or preparation for careers in government service or private business.

Students can also utilize independent study courses available through some departments for one, two or three hours of credit to be applied as elective credit in the major area. Majors are required to minor in one of the following: anthropology, economics, geography, history, political science or sociology; except Latin America majors who may, instead, elect a minor in Spanish culture, Spanish language or Spanish literature.

Area Studies Major—Africa
ISIS major code: HS0408

General studies ......................................................... 43 hours
General education requirements .................................. 41 hours
Physical education/graduation requirement ....................... 2 hours

Major ........................................................................... 30 hours
Required basic courses ................................................ 9
#ECON 201 Principles of Economics I (satisfies general education requirement III.3) ................. 3
#ECON 202 Principles of Economics II (satisfies general education requirement III.4) ............. 3
#GEOG 110 World Regions (satisfies general education requirement III.3) ............................... 3

Required area courses ..................................................... 15
#ANTH 236 Peoples and Cultures of Africa (satisfies general education requirement III.4) and the cross-cultural/international studies requirement) (3)
ECON 385 Economic Development ................................... 3
GEOG 322 Geography of Africa ....................................... 3
HIST 347 Sub-Saharan Africa to 1885 .................................. 3
PLSC 372 Government and Politics of Sub-Saharan Africa ......................... 3

Area elective courses ....................................................... 6
Six hours from the following:
#ANTH 135 Introduction to Cultural Anthropology (satisfies general education requirement III.3) (3)
ANTH 336/OSOC 336 Social and Cultural Change (3)
ECON 370 Comparative Economic Systems (3)
GEOG 240 Geographic Perspectives on Third World Development (3)
GEOG 515 Problems of Sub-Saharan Africa (3)
#HIST 342 North Africa, 1798 to the Present (satisfies general education requirement III.4 and the cross-cultural/international studies requirement) (3)
#HIST 348 20th-Century Africa (satisfies general education requirement III.4 and the cross-cultural/international studies requirement) (3)

Minor ................................................................. 20 hours
Elective courses ......................................................... 21 hours
Total ........................................................................... 124 hours

NOTE:
# These courses satisfy both general education requirements and requirements of the major. In order to avoid taking excess hours, students are advised to take these courses, or approved substitutes from another institution, as part of the general education requirements.

Area Studies Major—Asia-Far East
ISIS major code: HS0408

General studies ......................................................... 43 hours
General education requirements .................................. 41 hours
Physical education/graduation requirement ....................... 2 hours

Major ........................................................................... 30 hours
Required basic courses ................................................ 9
#ECON 201 Principles of Economics I (satisfies general education requirement III.3) ................. 3
#ECON 202 Principles of Economics II (satisfies general education requirement III.4) ............. 3
#GEOG 110 World Regions (satisfies general education requirement III.3) ............................... 3

Required area courses ..................................................... 14
ECON 385 Economic Development ................................... 3
GEOG 318 Geography of Asia ....................................... 3
One course from the following: ........................................ 3
#HIST 441 The Far East to 1800 (3)
#HIST 442 Modern China (3)
HIST 555 Studies in Far Eastern History .......................... 2
PLSC 374 Asian Political Systems ................................... 3
Area Studies Major—Latin America
ISIS major code: HS8402

Students electing the Latin American area studies major are strongly urged to
minor in Spanish language, literature or culture.

General studies .................................................. 43 hours
General education requirements ................................ 41 hours
Physical education/graduation requirement .................. 2 hours
Major ..................................................................... 30 hours
Required basic courses ........................................ 9
#ECON 201 Principles of Economics I (satisfies general education
requirement III.3) ....................................................... 3
#ECON 202 Principles of Economics II (satisfies general education
requirement II.4) ......................................................... 3
#GEOG 110 World Regions (satisfies general education require-
ment III.3) ................................................................. 3

Required area courses ........................................... 15
#ANTH 233 Peoples and Cultures of Mexico (satisfies general
education requirement III.4 and the cross-cultural/interna-
tional studies requirement) ...................................... 3
ECON 345 Economic Development ........................... 3
GEOG 321 Geography of Latin America ..................... 3
One course from the following: .................................. 3
*HIST 355 Latin America: Colonial Period (3)
*HIST 356 Latin America: National Period (satisfies general
education requirement III.4 and the cross-cultural/
international studies requirement) (3)
*HIST 457 History of Mexico (3)
PLSC 367 Contemporary Political Systems of Latin America
Area elective courses ............................................. 6
Six hours from the following: ................................. 6
#ANTH 135 Introduction to Cultural Anthropology (satisfies
general education requirement III.3)
#ANTH 233 Peoples and Cultures of Mexico (satisfies
general education requirement III.4 and the cross-
cultural/international studies requirement)
ANTH 336/SOCL 336 Social and Cultural Change
ECON 370 Comparative Economic Systems
GEOG 240 Geographic Perspectives on Third World
Development

NOTE:
*One of these courses must be taken to fulfill area requirements. The others
may be taken as an area elective.
# These courses satisfy both general education requirements and requirements
of the major. In order to avoid taking excess hours, students are advised to take
these courses, or approved substitutes from another institution, as part of the
general education requirements.

Area Studies Major—Middle East and North Africa
ISIS major code: HS8403

General studies .................................................. 43 hours
General education requirements ................................ 41 hours
Physical education/graduation requirement ............... 2 hours
Major ..................................................................... 30 hours
Required basic courses ........................................ 9

### Major

#### Required Basic Courses

- ECON 201 Principles of Economics I (satisfies general education requirement III.3) - 3
- ECON 202 Principles of Economics II (satisfies general education requirement III.4) - 3
- GEOG 110 World Regions (satisfies general education requirement III.3) - 3

#### Required Area Courses

- GEOG 314 Geography of Russia and Neighboring States - 3
- HIST 344 Russia since 1855 - 3
- HIST 547 19th-Century Ideological Background of the Russian Revolution - 3
- PLSC 361 Russian Politics in Transition - 3

#### Area Elective Courses

Nine hours from the following:
- ECON 370 Comparative Economic Systems (3)
- GEOG 316/HIST 316 History and Geography of Modern Europe (3)
- GEOG 516 Problems in Soviet Geography (3)
- HIST 332 Modern Europe 1815-1919
- HIST 333 Europe since 1919
- HIST 343 Russia to 1855
- HIST 550 20th-Century Russia
- PLSC 462 Russian Foreign Relations

### History Major

**ISIS major code: HS01**

#### General Studies

- General education requirements: 46 hours
- Physical education/graduation requirement: 2 hours

#### Major

- Required Courses

  - One course from the following: 3
    - HIST 101 Western Civilization to 1648 (satisfies general education requirement III.2) (3)
    - HIST 102 Western Civilization, 1648 to World War I (satisfies general education requirement III.2 or, if HIST 101 is taken, III.4) (3)
    - HIST 103 20th-Century Civilization (satisfies general education requirement III.2 or, if HIST 102 is taken, III.4) (3)
    - HIST 123 The United States to 1877 (satisfies general education requirement III.2) (3)
    - HIST 300 Researching and Writing History (prerequisite for all Writing Intensive courses and Senior Seminars) (3)

  - Unrestricted Elective Courses

    - No more than four 100-level courses may be counted toward the major. HIST 100 The Comparative Study of Religion and HIST 401 The Teaching of Social Studies may not be counted toward the major.

- Minor

- Total: 124 hours

### Philosophy Major

**ISIS major code: HS02**

#### General Studies

- General education requirements: 46 hours
- Physical education/graduation requirement: 2 hours

#### Major

- Required Courses

  - One course from the following: 3
    - PHIL 130 Introduction to Logic (satisfies general education requirement IV.3) (3)
    - PHIL 281 Symbolic Logic (3)
    - PHIL 230 History of Philosophy: Ancient (3)
    - PHIL 231 History of Philosophy: Modern (3)
    - PHIL 232 History of Philosophy: 19th Century (3)

- Total: 124 hours

**NOTE:**

- These courses satisfy both general education requirements and requirements of the major. In order to avoid taking excess hours, students are advised to take these courses, or approved substitutes from another institution, as part of the general education requirements.

---

**Area Studies Major—Russia and Eastern Europe**

**ISIS major code: HS04**

#### General Studies

- General education requirements: 43 hours
- Physical education/graduation requirement: 2 hours

#### Major

- Required Basic Courses

  - ECON 201 Principles of Economics I (satisfies general education requirement III.3) - 3
  - ECON 202 Principles of Economics II (satisfies general education requirement III.4) - 3
  - GEOG 110 World Regions (satisfies general education requirement III.3) - 3

- Required Area Courses

  - GEOG 314 Geography of Russia and Neighboring States - 3
  - HIST 344 Russia since 1855 - 3
  - HIST 547 19th-Century Ideological Background of the Russian Revolution - 3
  - PLSC 361 Russian Politics in Transition - 3

- Area Elective Courses

  - Nine hours from the following:
    - ECON 370 Comparative Economic Systems (3)
    - GEOG 316/HIST 316 History and Geography of Modern Europe (3)
    - GEOG 516 Problems in Soviet Geography (3)
    - HIST 332 Modern Europe 1815-1919
    - HIST 333 Europe since 1919
    - HIST 343 Russia to 1855
    - HIST 550 20th-Century Russia
    - PLSC 462 Russian Foreign Relations

#### Minor

- Elective Courses: 20 hours

- Total: 124 hours

**NOTE:**

- These courses satisfy both general education requirements and requirements of the major. In order to avoid taking excess hours, students are advised to take these courses, or approved substitutes from another institution, as part of the general education requirements.
Elective courses ........................................ 21
Four courses at the 300 or 400 level: ............... 12
Nine credits from other philosophy courses: ....... 9

Minor ....................................................... 20 hours
Elective courses ........................................ 25 hours
Total ...................................................... 124 hours

NOTE:
*Only one in the following pair of courses may be counted toward the major: #PHIL 100 Introduction to Philosophy (satisfies general education requirement IV.3) or #PHIL 110 Philosophies of Life (satisfies general education requirement IV.3)

#These courses satisfy both general education requirements and requirements of the major. In order to avoid taking excess hours, students are advised to take these courses, or approved substitutes from another institution, as part of the general education requirements.

History Major
Secondary Teacher Certification
ISIS major code: HS31

Successful completion of this course of studies, in the context of other program requirements, qualifies the student for recommendation for certification for the Michigan Department of Education Secondary Provisional Certificate endorsed in history. Certification code “CC” and, depending on the minor selected, endorsement in economics (“CA”), geography (“CB”), political science (“CD”), psychology (“CE”), sociology (“CF”), or social studies (“RX”). This program of studies meets all requirements of the National Council for the Social Studies. The certification test covering this field is #09, “History.”

General studies ........................................... 43 hours
General education requirements ................... 38 hours
Other requirements ...................................... 5 hours
One course from the following
#GEOG 107 Introduction to Geography (satisfies general education requirement III.3)
#GEOG 110 World Regions (satisfies general education requirement III.3) (3)
Physical education/graduation requirement ....... 2 hours

Teaching major ........................................... 30 hours
#HIST 102 Western Civilization, 1648 to World War I (satisfies general education requirement II.2 or if #HIST 101 is taken, III.4) (3)
#HIST 103 20th-Century Civilization (satisfies general education requirement II.2 or if #HIST 102 is taken, III.4) (3)
One course from the following: ....................... 3 hours
#HIST 123 The United States to 1877 (satisfies general education requirement III.2)(3)
#HIST 124 The United States, 1877 to the Present (satisfies general education requirement III.2, or if #HIST 123 is taken, III.4) (3)
HIST 300 Researching and Writing History (Writing Intensive) .... 3
Six hours of history courses 300 level or above in two of the following areas and three hours in the remaining area: .............................. 6
A. United States and Canada
B. Europe
C. Latin America, Africa, Asia, History of Religions (HIST 301, HIST 302)
One further course in history, not including HIST 100 or HIST 481. Major should include at least eight hours of U.S. history, including HIST 123 or HIST 124 or both.

Professional studies .................................... 39 hours
Pre-admission phase: The Learner and the Community ........ 8
EDPS 327 Human Development and Learning (4)
FETE 201 Field Experience I (1)
SPGN 251 Education of Exceptional Children (3)

Courses that require formal admittance to the teacher education program
Phase I: Curriculum Assessment and the Social Context ........ 10
SOFD 328 Schools in a Multicultural Society (3)
CURR 305 Curriculum and Methods: Secondary (5)
FETE 302 Field Experience II: Secondary (1)
EDFS 340 Introduction to Assessment and Evaluation (3)
Phase II: Content Methods, Literacy and Technology .......... 9
RDNG 311 Reading in the Secondary School (3)
FETE 402 Field Experience III: Secondary (1)
EDMT 320 Teaching Reading in the Secondary School (3)
HIST 481 The Teaching of Social Studies (3)
Phase III: Capsstone Experience ................................ 12
EDUC 692 Student Teaching (12)

Minor ....................................................... 20 hours
Select from economics, geography, political science, psychology, or sociology:

Total ...................................................... 132 hours

Note:
*Italicized courses are corequisites.

#These courses satisfy both general education requirements and requirements of the major. In order to avoid taking excess hours, students are advised to take these courses, or approved substitutes from another institution, as part of the general education requirements.

Social Studies Group Major (with a Minor in Economics, Geography, History or Political Science)
Secondary Teacher Certification
ISIS major code: HS34

Successful completion of this course of studies, in the context of other program requirements, qualifies the student for recommendation for certification for the Michigan Department of Education Secondary Provisional Certificate endorsed in social studies, certification code “RX,” and, depending on the minor selected, endorsement in economics (“CA”), geography (“CB”), history (“CC”), or political science (“CD”). General studies ........................................... 33 hours
General education requirements ................... 28 hours
Other requirements ...................................... 5 hours
One course from the following: (GESC 108 Earth Science recommended)
#ASTR 203 Exploration of the Universe (satisfies general education requirement II.1 or II.3) (no laboratory) (3)
#ASTR 203 Exploration of the Universe and ASTR 204 Astronomical Investigations (satisfies general education requirement II.1 or II.3) (4)
#ASTR 204 Astronomical Investigations and ASTR 205 Principles of Astronomy (satisfies general education requirement II.1 or II.3) (5)
#ASTR 205 Principles of Astronomy (satisfies general education requirement II.1 or II.3) (no laboratory) (4)
#CHEM 105 Chemistry and Society (satisfies general education requirement II.1 or II.3) (no laboratory) (3)
#CHEM 115-SCHEM 116 Chemistry and Society with lab (satisfies general education requirement II.1 or II.3) (4)
CHEM 117-SCHEM 118 Fundamentals of Chemistry with lab (satisfies general education requirement II.1 or II.3) (4)
#CHEM 120 Fundamentals of Organic and Biochemistry (satisfies general education requirement II.1 or II.3) (4)
#CHEM 121-SCHEM 122 General Chemistry with lab (satisfies general education requirement II.1 or II.3) (4)
The social science major requires a total of 36 hours, including elective courses, chosen from history, anthropology, sociology, economics, geography and political science.

The major must include at least eight hours in each of three areas from the seven areas of concentration listed below: of the 36 hours, at least 14 must be in courses at the 300 level or above.

Students may not minor in any of the fields included in his/her areas of concentration for this major.

General studies .................................................. 49 hours
General education requirements .................................. 47 hours
Physical education/graduation requirement .................. 2 hours

Areas of concentration ......................................... 36 hours
Select three areas.
I. World history .................................................. 8-9
    Two of the following: .................................. 6
        #HIST 101 Western Civilization to 1648 (satisfies general education requirement III.2) (3)
        #HIST 102 Western Civilization, 1648 to World War I (satisfies general education requirement III.2 or, if
        #HIST 101 is taken, III.1) (3)
        #HIST 103 20th-Century Civilization (satisfies general education requirement III.2 or, if #HIST 102 is taken,
        #HIST 104) (3)
        #HIST 105 Asian and African Civilizations (satisfies general education requirement III.2) (3)
    One world history course at the 300 level or above ............... 2-3
II. United States history ........................................... 8-9
    #HIST 123 The United States to 1877 (satisfies general education requirement III.2) (3)
    #HIST 124 The United States, 1877 to the Present (satisfies general education requirement III.3) (3)
    One United States or Canadian history course at the 300 level or above .................... 2-3
III. Anthropology .................................................. 8-9
    #ANTH 135 Introduction to Cultural Anthropology (satisfies general education requirement III.3) (3)
    An anthropology course at the 300 level or above ....................... 2-3
    Any other anthropology course ................................ 2-3
IV. Sociology ..................................................... 8-9
    #SOCI 105 Introductory Sociology (satisfies general education requirement III.3) (3)
    A sociology course at the 300 level or above ......................... 2-3
    Any other sociology course ..................................... 2-3
V. Economics ....................................................... 8-9
    #ECON 201 Principles of Economics I (satisfies general education requirement III.3) (3)
    #ECON 202 Principles of Economics II (satisfies general education requirement III.4) (3)
    An economics course at the 300 level or above ...................... 2-3
VI. Geography ..................................................... 8-9
    #GEOG 110 World Regions (satisfies general education requirement III.3) (3)
    An Area III geography course at the 300 level or above ................ 3
    Any other Area III geography course .............................. 2-3
VII. Political science .............................................. 8-9
    One course from the following: ................................ 3
        #PLSC 112/PLSC 113 American Government (satisfies general education requirement III.1) (3)
    A political science course at the 300 level or above ................ 3
    Any other political science course ................................. 2-3

*italicized courses are corequisites
These courses satisfy both general education requirements and requirements of the major. In order to avoid taking excess hours, students are advised to take these courses, or approved substitutes from another institution, as part of the general education requirements.
Elective courses
Choose courses from any of the above fields to complete the required 36 hours, except HIST 100 and HIST 481.

Minor ................................................................................. 20 hours
Elective courses ................................................................ 19 hours
Total .................................................................................. 124 hours

NOTE:
These courses satisfy both general education requirements and requirements of the minor. In order to avoid taking excess hours, students are advised to take these courses, or approved substitutes from another institution, as part of the general education requirements.

Area Studies Minor—Africa
ISIS minor code: HS01

Required area courses ..................................................... 15
#ANTH 236 Peoples and Cultures of Africa (satisfies general education requirement III.3 and the cross-cultural/international studies requirement)................................. 3

  *These courses satisfy both general education requirements and requirements of the minor. In order to avoid taking excess hours, students are advised to take these courses, or approved substitutes from another institution, as part of the general education requirements.

History Minor
Secondary, K-12, and Special Education-Secondary Teacher Certification
ISIS minor code: HS31

Successful completion of this minor, in the context of other program requirements, qualifies the student for recommendation for endorsement in history, certification code “CC.” The certification test covering this field is #09, “History.”

One course from the following: ............................................. 3
  *HIST 101 Western Civilization to 1648 (satisfies general education requirement II.2) (3)
  *HIST 102 Western Civilization, 1648 to World War I (satisfies general education requirement II.2 or, if HIST 101 is taken, II.4) (3)
  *HIST 103 20th-Century Civilization (satisfies general education requirement II.2 or, if HIST 102 is taken, II.4) (3)

One course from the following: ............................................. 3
  *HIST 123 The United States to 1877 (satisfies general education requirement II.2) (3)
  *HIST 124 The United States 1877 to the Present (satisfies general education requirement II.2 or, if HIST 123 is taken, II.4) (3)

Six hours of courses at the 300 level or above in one of the following areas and three hours in each of the other two areas:
  A. United States
  B. Europe
  C. Africa, Asia, History of Religions, Latin America

*Unrestricted elective courses ............................................... 2
Total .................................................................................. 20 hours
Religious Studies Minor

**Required course**
- #HIST 100: The Comparative Study of Religion (satisfies general education requirement IV.3) .................................................. 3

**Restricted elective courses**
- Four courses from the following:
  - #PHIL 215: Philosophy of Religion (satisfies general education requirement IV.3)
  - ANTH 338: Anthropology of Religion
  - HIST 301: The Religions of South and East Asia
  - HIST 302: Near Eastern and Western Religions
  - HIST 303: History of American Religion
  - LITR 251: The Bible as Literature
  - #PSY 225: Psychology of Religion (satisfies general education requirement IV.3)
  - SOCL 320: Sociology of Religion

**Effective courses**
- Two courses from the restricted elective courses list or from the following:
  - #PHIL 220: Ethics (satisfies general education requirement IV.3), PHIL 260: Existentialism
  - #ANTH 135: Introduction to Cultural Anthropology (satisfies general education requirement III.3)
  - CLAS 301: Mythology
  - HIST 127: Europe in Early Middle Ages 400-1050; HIST 330: Europe in the Renaissance and Reformation

**Total** ........................................................................................................ 20-21 hours

**Note:**
- Certain independent study courses and special topics courses may be counted as restricted elective courses or elective courses with the approval of the advising coordinator of religious studies.
- *No more than three of the seven courses in the minor may be chosen from a single area: fine arts, literature and history.
- These courses satisfy both general education requirements and requirements of the minor. In order to avoid taking excess hours, students are advised to take these courses, or approved substitutes from another institution, or part of the general education requirements.

Social Science Group Minor (Non-Teaching)

**HIS minor code: HIS06**

The social science minor requires a total of 24 credit hours chosen from history, anthropology, sociology, economics, geography and political science. The minor must include at least eight hours each in two of the disciplines listed above.

Of the 24 hours, at least eight must be at the 300 level or above. Students majoring in any of the fields listed above may not choose any courses from that field for this minor.

This minor cannot be taken together with the social science major.

**Areas of concentration**

Select two areas of concentration from the following:

1. World history: ................................................................. 8-9
   - #HIST 101: Western Civilization to 1648 (satisfies general education requirement III.2) ............................................. 3
   - #HIST 102: Western Civilization, 1648 to World War I (satisfies general education requirement III.2 or, if HIST 101 is taken, III.4) ............................................. 3
   - #HIST 103: 20th-Century Civilization (satisfies general education requirement III.2 or, if HIST 102 is taken, III.4) ............................................. 3
   - #HIST 106: Asian and African Civilizations (satisfies general education requirement III.2) ............................................. 3
   
   One world history course at the 300 level or above ......................................................... 2-3

2. United States history: .......................................................... 8-9
   - #HIST 123: The United States to 1877 (satisfies general education requirement III.2) ............................................. 3
   - #HIST 124: The United States, 1877 to Present (satisfies general education requirement III.2, or if HIST 123 is taken, III.4) ............................................. 3
   
   One United States or Canadian history course at the 300 level or above ......................................................... 2-3

3. Anthropology: ................................................................. 8-9
   - #ANTH 135: Introduction to Cultural Anthropology (satisfies general education requirement III.3) .......................... 3
   - Any anthropology course at the 300 level or above ......................................................... 3
   - Any other anthropology course ......................................................................................... 2-3

4. Sociology: ................................................................. 8-9
   - #SOC 105: Introductory Sociology (satisfies general education requirement III.3) ............................................. 3
   - Any sociology course at the 300 level or above ......................................................... 3
   - Any other sociology course ......................................................................................... 2-3

5. Economics: ................................................................. 8-9
   - #ECON 201: Principles of Economics I (satisfies general education requirement III.3) ............................................. 3
   - #ECON 202: Principles of Economics II (satisfies general education requirement III.4) ............................................. 3
   
   An economics course at the 300 level or above ......................................................... 2-3

6. Geography: ................................................................. 8-9
   - #GEOG 110: World Regions (satisfies general education requirement III.3) ............................................. 3
   - Any Area III geography course at the 300 level or above ......................................................... 3
   - Any other Area III geography course ......................................................................................... 2-3

7. Political science: .......................................................... 8-9
   - One course from the following: .......................... 3
     - #PSCI 112: World Politics (satisfies general education requirement III.1)
     - A political science course at the 300 level or above ......................................................................................... 3
   - Any other political science course ......................................................................................... 2-3

**Elective courses** ................................................................................ 5-8 hours

Select courses from any of the above fields to complete the required 24 hours, except HIST 100 and HIST 481.

**Total** ........................................................................................................ 24 hours

**Note:**
- These courses satisfy both general education requirements and requirements of the minor. In order to avoid taking excess hours, students are advised to take these courses, or approved substitutes from another institution, or part of the general education requirements.
Philosophy Minor

ISIS minor code: H803

Required Courses

PHIL 230 History of Philosophy: Ancient 3 hrs
PHIL 231 History of Philosophy: Modern 3 hrs
PHIL 232 History of Philosophy: 19th Century 3 hrs

Elective Courses

Two courses at the 300 or 400 level 6 hrs
Nine hours from other philosophy courses 9 hrs

Total 24 hrs

Note: Only one of the following pairs of courses counts toward the minor:

PHIL 100 Introduction to Philosophy (satisfies general education requirement IV-3) or PHIL 110 Philosophies of Life (satisfies general education requirement IV-3)

PHIL 120 Introduction to Critical Reasoning (satisfies general education requirement IV-3) or PHIL 130 Introduction to Logic (satisfies general education requirement IV-3)

These courses satisfy both general education requirements and requirements of the minor. In order to avoid taking excess hours, students are advised to take these courses or approved substitutes from another institution, as part of the general education requirements.

History Courses

HIST 100 The Comparative Study of Religion 3 hrs
An introduction to the systematic study of religious experience and expression, organized around representative motifs, phenomena, and institutions, and illustrated with relevant examples from the various religious traditions. Satisfies general education philosophy/religion requirement. Does not satisfy general education history requirement. Does not count for social science major or minor, or history major or minor.

HIST 101 Western Civilization to 1648 3 hrs
A topical survey of western civilization from Greco-Roman origins to the 17th century. Cultural development and institutional growth are emphasized. Greco-Roman contributions, the Judeo-Christian heritage, Byzantine and Islamic cultures, European expansion and militarism, the Renaissance, and the Reformation are among the major topics considered.

HIST 102 Western Civilization, 1648 to World War I 3 hrs
A topical survey of western civilization from the 17th century to World War I. Cultural development and institutional growth are emphasized. The Baroque era, Enlightenment, political and industrial revolutions, nationalism, and imperialism are among major topics considered.

HIST 201 18th-Century Civilization 3 hrs
An examination of the international developments of the 18th century, with particular emphasis on the interactions between the West and other world cultures.

HIST 204 Quest for Power: Famous Figures in History 3 hrs
An examination of the lives and times of selected leaders from the ancient and modern worlds. Examples of figures to be covered are Pericles, Nero, Napoleon I and Adolf Hitler. Major literary monuments of the periods will be examined as well. Taken taught by a member of the History Department and a classicist. This course satisfies one literature or one history requirement. Note: See Honors Humanities Courses.

HIST 105 Asian and African Civilizations 3 hrs
The civilizations of the Moslem world, Africa, India and East Asia in historical perspective. Philosophical outlook, cultural development and technological advances are emphasized with attention also being given to social and economic changes in the period since 1500.

HIST 109 World History to 1500 3 hrs
A survey of world civilizations (Africa, Asia, Europe, Western Hemisphere) from prehistory to 1500. The course will emphasize the diversity and interrelationships of world cultures and civilizations.

HIST 110 World History since 1500 3 hrs
A survey of world civilizations (Africa, Asia, Europe, Western Hemisphere) from 1500 to the present. The course will emphasize the diversity and interrelationships of world cultures and civilizations.

HIST 123 The United States to 1877 3 hrs
A study of United States history through the Reconstruction following the Civil War.

HIST 124 The United States, 1877 to the Present 3 hrs
A study of United States history from the end of Reconstruction to the present.

HIST 151 Reason and Revolution 3 hrs
An examination of the transition in political history, philosophy, art, literature, and culture from Puritan England and Louis XIV's France to Napoleon. Team-taught by members of the Art and History departments. This course satisfies one art or one history requirement.

Note: See Honors Humanities Courses, page 30.

HIST 177/178/179 Special Topics 1, 2, 3 hrs
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Prereq: Department permission.

HIST 277/278/279 Special Topics 1, 2, 3 hrs
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Prereq: One course in history or department permission.

HIST 200 Introduction to the History of Technology 3 hrs
An introduction to western technology from medieval times to the present. Examines the process of technical change, the nature of technological systems, the diffusion of technological improvements, and the role of technology in broader historical movements.

HIST 300 Researching and Writing History 3 hrs
An introduction to the historian's skills. Exercises include compiling a bibliography, writing book reviews and preparing a research paper. Required for the history major.

HIST 301 The Religions of South and East Asia 3 hrs
A survey of the religious traditions of India, Ceylon, Burma, Thailand, China, Tibet and Japan, showing the interaction of folk religion with the developing concepts and institutions of Hinduism, Buddhism, Confucianism, Taoism and Shinto.

Prereq: HIST 100 or HIST 106.

HIST 302 Near Eastern and Western Religions 3 hrs
A survey of the historical evolution of the several religions originating in western Asia, concentrating especially on the development and interaction of Judaism, Christianity and Islam.

Prereq: HIST 100 or HIST 101.

HIST 303 History of American Religion 3 hrs
A survey of religious institutions and ideas in relation to American culture from colonial times to the present.

Prereq: One course in American history.

HIST 305 Indians of the United States 3 hrs
An ethnography of Native American peoples and nations of the United States from their origins to the present.

Prereq: One course in history or department permission.

</tbody>
</table>
struggle for independence, and the problems faced by India since 1947.

HIST 342 North Africa, 1798 to the Present  3 hrs
A survey of the political, economic and social history of North Africa, Egypt and the Sudan, emphasizing the internal movements for independence from colonial powers.
PreReq: Junior standing or department permission.

HIST 343 Russia to 1855  3 hrs
A survey of political, economic, and cultural trends in the history of Russia from Kurrik to the death of Tsar Nicholas I, with special emphasis on the growth of tsarist absolutism.
PreReq: Junior standing or department permission.

HIST 344 Russia since 1855  3 hrs
A survey of the political, economic, and diplomatic history of imperial Russia and the Soviet Union from the great reforms of the 1860s to the present.
PreReq: Junior standing or department permission.

HIST 347 Sub-Saharan Africa to 1885  3 hrs
The historical evolution of sub-Saharan African civilizations including their origins, interrelations and responses to European colonialism.
PreReq: Junior standing or department permission.

HIST 348 20th-Century Africa  3 hrs
A detailed examination of Africa's response to the historical experience of European colonialism, along with the evolution of those responses, forms and patterns applicable not only to Africa, but also to the entire non-western world.

HIST 350 History of Canada  3 hrs
A survey of the development of Canada from prehistoric times to the present with an emphasis on social and economic topics.

HIST 355 Latin America: Colonial Period  3 hrs
Survey of the history of Spanish America and Portuguese America from the conquest to the independence era, stressing political, social and economic aspects.
PreReq: Junior standing or department permission.

HIST 356 Latin America: National Period  3 hrs
Survey of the history of Latin America from the independence era to the present, stressing political, social, intellectual, and economic topics.
PreReq: Junior standing or department permission.

HIST 362 United States Urban History  3 hrs
The development of United States cities from the commercial town of colonial times to the industrial metropolis of today. Emphasizes urban economic activities, boss and reform politics, immigrant and racial minorities, and city and suburban expansion.
PreReq: Junior standing or HIST 123 or 124.

HIST 364 United States Military History  3 hrs
A study of the origins and development of military institutions, traditions, and practices in the United States from the colonial period to the present, with attention given to the interface between military history and political, social and economic conditions in the United States and the world. A requirement for cadets in ROTC programs.
PreReq: One course in history.

HIST 365 The Old South  3 hrs
The South from the colonial foundations to the formation of the Confederacy in 1861.
PreReq: HIST 123 and junior standing.

HIST 375 Modern India  3 hrs
The development and maturing of British rule in India against the background of Indian culture. Examines the rise and development of Indian nationalism, the struggle for independence, and the problems faced by India since 1947.
PreReq: Junior standing or department permission.

HIST 377/378/379 Special Topics  1/2/3 hrs
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.
PreReq: One course in history or department permission.

HIST 380 American Colonies to Independence  3 hrs
A study of the European prelude to colonization, the founding of the colonies, and their political, economic, and social development; the deterioration of the relationship between Great Britain and the American colonies after 1763.
PreReq: HIST 123 or equivalent.

HIST 385 Civil War and Reconstruction  3 hrs
A study of the United States from the Mexican War through the era of Reconstruction. Examines the sectional tensions leading to the Civil War, the political, social, military, and economic aspects of the war; the problems of reconstruction and the rise of the solid South.
PreReq: Junior standing.

HIST 387 Cooperative Education in History  3 hrs
Four to six months of full-time employment in a business or industry chosen to provide practical experience in the student's major field. The program consists of one or two such work experiences alternating with full-time attendance at the University.
PreReq: Junior standing. History or social science major. Admittance to program by application only. Department approval.

HIST 411 England to 1689  3 hrs
The general history of England to the Revolution of 1688, with emphasis on its cultural and constitutional contributions to the modern world.

HIST 412 England 1689 to Present  3 hrs
England in the period of imperial expansion, its industrial and social revolutions and its transition into a modern socially minded nation. A continuation of HIST 411.

HIST 414 The Automobile Industry and Modern America  3 hrs
An examination of the European and American origins of the automobile industry, the emergence of Michigan's dominant position in the industry, and the social, economic and general cultural influence that the automobile and the industry have exerted on 20th-century America.

HIST 424 The United States from 1917 to 1941  3 hrs
A study of United States history from World War I through U.S. entry into World War II. The course covers foreign affairs, national government and politics, economic developments and social trends. World War I, modernization, and cultural conflict of the 1920s and the Great Depression, and New Deal of the 1930s receive special attention.
PreReq: HIST 124.

HIST 425 The United States from 1941 to 1963  3 hrs
A study of United States history from entry into World War II to the death of President John F. Kennedy. The course covers national government and politics, foreign policy, and social history of the American people. World War II diplomacy and home front; Cold War; Truman, Eisenhower and Kennedy administrations; Red Scare; civil rights; suburbanization; mass culture; and other postwar social and cultural trends receive special attention.
PreReq: HIST 124.

HIST 426 The United States from 1963 to the Present  3 hrs
A study of United States history from the presidency of Lyndon B. Johnson to the present. The course covers national government and politics, foreign policy, and social history of the American people. The Great Society; Vietnam War; protest movements of the 1960s; Nixon administration and Watergate; economic, social, and cultural trends of the 1970s and 1980s; the conservative resurgence, and the Reagan Revolution and its aftermath are among topics that receive special attention.
PreReq: HIST 124.

Study of the political, economic, social and diplomatic history of Europe since the end of World War II, with emphasis on the Cold War, economic recovery and decline, the European integration movement, solidarity and dissension within the communist bloc, stability and unrest within the democracies, and the impact of U.S.-Soviet detente.

Prereq: Junior standing or department permission.

HIST 457 History of Mexico 3 hrs
An introduction to Mexican history from the Amerindian period through the recent past. Examines political, social, economic and cultural developments in the area comprising the present day nation as well as those areas in North America once included in Mexico.

Prereq: Junior standing.

HIST 463 United States Labor History 3 hrs
A history of workers in the United States from colonial times to the present with special emphasis on developments occurring between 1830 and 1940. Considers working-class life and culture, labor unions, government-labor relations, and the impact of economic change.

Prereq: One course in history.

HIST 464 The Old West, 1540-1890 3 hrs
A study of Spanish settlement, the fur trade, great explorations, settlement and expansion, transportation and mining frontiers, the cattle industry and cowboy culture, and the impact on the Indians.

Prereq: One course in history.

HIST 465 United States Constitutional History 3 hrs
A history of the development of the American Constitution from English and American colonial origins to the present.

Prereq: HIST 123 or HIST 124 or department permission.

HIST 466 The American Mind to the Civil War 3 hrs
Ideas and culture in America during the 17th, 18th and early 19th centuries. Includes such subjects as Puritanism, the Enlightenment and Romanticism/Transcendentalism, together with their general cultural implications.

Prereq: HIST 123 and junior standing.

HIST 469 The American Mind Since the Civil War 3 hrs
Ideas and culture in America during the late-19th and 20th centuries. Includes such subjects as pragmatism, social Darwinism, nationalism and internationalism, and liberal and conservative thought together with their general cultural implications.

Prereq: One course in history and junior standing.

HIST 471 Social and Intellectual History of 19th-Century Europe 3 hrs
A detailed study of the original concepts of Europe's 19th-century intellectuals whose works were of major influence in the 19th and 20th centuries.

Prereq: Junior standing or department permission.

HIST 477/478/479 Special Topics 1/2/3 hrs
An exploration and study of topics not covered in other department offerings. Students may elect more than once, provided different topics are studied.

Prereq: One course in history or department permission.

HIST 481 The Teaching of Social Studies 3 hrs
For intending teachers in junior and senior high schools. Examines the nature of the subjects included in social science in the public schools and the problems related to the teaching of history and other social studies. Not open to students on academic probation.

Prereq: HIST 123 or equivalent.

HIST 482 The Age of Washington and Jefferson 3 hrs
The formation of the new nation during the War for Independence, the creation of the Constitution, the Federalist era, the Republican administration through Madison's term in office, the War of 1812 and postwar diplomacy.

Prereq: HIST 123 or equivalent.

HIST 486 The United States as an Emerging World Power 3 hrs
The passing of the frontier after the Civil War, the Industrial Revolution, the big city and its problems, Populism revolt and Progressive reform, Imperialism and World War I.

Prereq: HIST 123 or HIST 124 or equivalent.

HIST 487 Cooperative Education in History 3 hrs
Four to six months of full-time employment in a business or industry chosen to provide practical experience in the student's major field. The program consists of one or two such work experiences alternating with full-time attendance at the University.

Prereq: Junior standing. History or social science major. Admission to program by application only. Department approval.

HIST 497/498/499 Independent Study 1/2/3 hrs
Study on an individual basis in areas in which the department does not currently offer formal courses. These courses are restricted to highly proficient students. Students are limited to a maximum of three hours of independent study in history during any semester or session.

Prereq: Department permission.

Philosophy Courses

I. General Education Courses

PHIL 100 Introduction to Philosophy 3 hrs
An introduction to philosophy by the study of important philosophical thinkers, problems and methodologies.

PHIL 110 Philosophies of Life 3 hrs
An introduction to differing accounts of what constitutes a meaningful life and how an individual can attain it. Representative topics include the notions of
pleasure, love, empathy and power as discussed by such writers as Plato, Epicurus, Nietzsche, Lao Tsé and Buddha.

PHIL 120 Introduction to Critical Reasoning 3 hrs
An introduction to the techniques of identifying and evaluating arguments. The emphasis will be on the enhancement of reasoning skills through the study of arguments in their natural setting in newspapers, political speeches, advertising, etc. The course also may include such related topics as fallacies, inductive reasoning and the logic of explanation in the social sciences.

PHIL 130 Introduction to Logic 3 hrs
An introduction to the analysis of arguments using the theory and techniques of formal logic. The theory underlies most formal systems, including computer applications. Students learn such concepts as deduction and induction and how to prove that arguments are valid or invalid.

PHIL 212 Philosophy of Art 3 hrs
Can "art" be defined? Do artists owe a responsibility to society? Should works of art be primarily analyzed as "significant form" or as an expression of the artist's personality? Can we isolate a uniquely "aesthetic" attitude? Through considering such questions, the course introduces the student to philosophical reasoning and analysis.

PHIL 215 Philosophy of Religion 3 hrs
A philosophical study of the nature, goals and proper function of religion. Some possible topics are traditional arguments for the existence of God, grounds for disbelief in God, immortality, religious experience, the nature of religious language, the relation of science to religion, the role of faith and revelation, the connection between religion and ethics.

PHIL 220 Ethics 3 hrs
An introduction to the major problems of ethical theory such as the nature of value, the justification of ethical decisions, the idea of obligation, and the application of ethical theory to specific ethical problems, which may concern both personal relationships and important public issues—e.g., abortion, euthanasia, medical experimentation, privacy and surveillance.

PHIL 221 Business Ethics 3 hrs
An examination of the relationships between contemporary business values and traditional ethical values. Students will investigate various ethical theories and critically examine, by means of case studies, controversial current business issues.

PHIL 225 Political Philosophy 3 hrs
Examines the philosophical bases of political ideology and theory through analysis of a variety of political theories, their component parts, and their basic assumptions. Examples may be taken from the works of such writers as Plato, Aristotle, Hobbes, Locke, Rousseau, Marx and Thoreau.

PHIL 226 Philosophy of Women 3 hrs
A consideration of philosophical issues concerning the nature and status of women. Readings from both traditional and contemporary sources. Topics may include scientific and religious views, the ideal society and women's place in it, varieties of feminism, views on sexuality, family and reproduction, and work and the economy.

II. Other Courses

PHIL 177/178/179 Special Topics 1/2/3 hrs
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.
Prereq: Department permission.

PHIL 230 History of Philosophy: Ancient 3 hrs
A study of important philosophical developments in western thought from the pre-Socratics through Aristotle. Covers the pre-Socratics, Socrates, Plato and Aristotle.
Prereq: One course in philosophy other than PHIL 120 or PHIL 130.

PHIL 231 History of Philosophy: Modern 3 hrs
Prereq: One course in philosophy other than PHIL 120 or PHIL 130.

PHIL 232 History of Philosophy: 19th Century 3 hrs
An introduction to the major philosophical themes of the 19th century that dominate 20th century European thought. These themes include the collapse of German Idealism and Romanticism, the death of God, the nature of historical process, evolutionary theory, and the implications of these themes for the concept of human freedom.
Prereq: One course in philosophy other than PHIL 120 or PHIL 130. Recommended: PHIL 230 or PHIL 231.

PHIL 260 Existentialism 3 hrs
An examination of contemporary existentialist thought about the nature of reality and human existence as reflected in the works of such philosophers as Marcel, Heidegger, Sartre, and Camus and the sources of existentialism as found in the works of Kierkegaard and Nietzsche.
Prereq: One course in philosophy other than PHIL 120 or PHIL 130. Recommended: PHIL 231.

PHIL 277/278/279 Special Topics 1/2/3 hrs
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

PHIL 281 Symbolic Logic 3 hrs
An introduction to the notation and proof procedures of symbolic logic with emphasis upon the clarification and development of the notion of a formal language.

PHIL 310 Aesthetics 3 hrs
A study of philosophical issues relating to works of art and other aesthetic objects. Possible topics include: the nature of aesthetic attitude, evaluation, aesthetic meaning and truth, expression in art, the nature of a work of art and basic value of art, the kinds of concepts used to talk about the arts.
Prereq: One course in philosophy other than PHIL 120 or PHIL 130.

PHIL 325 Theory of Knowledge 3 hrs
An investigation of the nature, scope and limits of knowledge. Some possible topics are the connection between belief and knowledge, knowledge of other people's minds, the reliability of memory, the possibility of certainty in knowledge, theories of truth.
Prereq: One course in philosophy other than PHIL 120 or PHIL 130. Recommended: PHIL 230 or PHIL 231.

PHIL 355 Philosophy of Law 3 hrs
A consideration of philosophical questions about the law such as: What sorts of behavior should be illegal? What is punishment supposed to accomplish? When are we justified in punishing a person? How do judges arrive at decisions? Are there really legal principles that cover all the hard cases judges must deal with or do they use their own personal moral values? What is a legal system and how does it differ from a moral code?
Prereq: One course in philosophy other than PHIL 120 or PHIL 130, or department permission.

PHIL 370 Philosophy and Narrative 3 hrs
This course will focus on philosophical issues relevant to one or more of the following topic areas: philosophical issues in literature and film, theories of drama and performance, the politics of narrative, and recent hermeneutical theory. May be repeated for credit with department permission.
Prereq: One course in philosophy other than PHIL 120 or PHIL 130. Recommended: PHIL 232, PHIL 260 or PHIL 390.
PHIL 375 Metaphysics 3 hrs
A study of questions concerning basic structure and ultimate nature of reality. Possible topics include universals and particulars, space and time, determinism and freedom, the self, materialism, idealism, substance and process.
Prereq: One course in philosophy other than PHIL 120 or PHIL 130.

PHIL 377/378/379 Special Topics 1/2/3 hrs
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.
Prereq: Department permission.

PHIL 380 Philosophy of Science 3 hrs
A systematic examination of the main philosophical problems raised by the results and methods of the physical and social sciences. Topics include the problem of meaning, measurement, the interpretation of probability statements, the justification of induction, the concept of cause, the laws of nature, description and explanation, determinism and indeterminism.
Prereq: One course in philosophy other than PHIL 120 or PHIL 130. Recommended: PHIL 325.

PHIL 390 Phenomenology 3 hrs
The course attempts to trace the history and development of the phenomenological movement from its origins in the notion of the intentionality of consciousness, beginning with the work of Edmund Husserl and continuing with the later "existential" developments in the field by such thinkers as Heidegger, Sartre and Merleau-Ponty. The course also will study the impact of phenomenology on such varied fields as psychology, sociology and literature.
Prereq: One course in philosophy other than PHIL 120 or PHIL 130. Recommended: PHIL 231 or PHIL 260.

PHIL 426 Topics in Gender and Philosophy 3 hrs
An examination of gender and its relationship to other issues from a philosophical perspective. Possible topics include rationality, sexuality, aesthetics, ethics and political theory.
Prereq: Two courses in philosophy other than PHIL 120 or PHIL 130.

PHIL 442 Philosophy of Mind 3 hrs
A philosophical study of the nature of mind. Examines the logical relations among mental concepts such as consciousness, choice, intention, emotion, feeling, the unconscious; also treats human action, and the possibility and meaning of an adequate explanation of psychological phenomena.
Prereq: Two courses in philosophy other than PHIL 120 or PHIL 130.

PHIL 460 Philosophy of Language 3 hrs
An examination of the philosophically important aspects of language. Possible topics include theories of meaning, analysis of referring and predication, the relation between language and reality, analysis of vagueness and metaphor, the role of language in philosophical method, the relation between language and necessity truth.
Prereq: Two courses in philosophy.

PHIL 470 Contemporary European Philosophy 3 hrs
An exploration of recent developments in European thought. Possible topics include post-structuralist evaluations of western institutions and ideas; post-Marxist critical theory, the hermeneutic effort to establish interpretation as the basis of philosophical understanding, and the effect of deconstructive thought on philosophy and literature.
Prereq: Two courses in philosophy other than PHIL 120 or PHIL 130. Recommended: PHIL 232, PHIL 270, or PHIL 390.

PHIL 471 Contemporary British and American Philosophy 3 hrs
An examination of some of the major philosophical developments in Britain and the United States since approximately 1900. Considers logical atomism, logical positivism, pragmatism and ordinary language philosophy as reflected in the works of such philosophers as Russell, Carnap, Ayer, James, Dewey, Ryle, Austin and Quine.
Prereq: Two courses in philosophy other than PHIL 120 or PHIL 130. Recommended: PHIL 231.

PHIL 477/478/479 Special Topics 1/2/3 hrs
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.
Prereq: Department permission.

PHIL 497/498/499 Independent Study 1/2/3 hrs
Advanced study on an individual basis in areas in which the department does not offer a formal course. Restricted to juniors and seniors majoring or minoring in philosophy.
Prereq: Department permission.

Mathematics

www.emich.edu/public/math/math.html

Departmental Administration
Don R. Lick
Department Head
515 Pray-Harrold
734.487.1444
E-mail: don.lick@emich.edu

The program in mathematics is designed to give majors certain basic courses, and to ensure a broad background, yet allow enough elective courses for students to adapt programs to any of the following areas of mathematics: junior and senior high school teaching, statistics, engineering, the physical sciences, or graduate work in pure or applied mathematics.

Degrees Offered
Bachelor of Arts
Bachelor of Science

Programs of Study

Majors
Mathematics
Mathematics with concentration in statistics
Mathematics for the Elementary Teaching Certificate
Mathematics for secondary education

Minors
Mathematics
Mathematics for secondary, K-12, and special education-secondary
Mathematics with concentration in statistics
Mathematics for the Elementary Teaching Certificate

Joint Programs with Economics
Actuarial science and economics

Students needing general program advising should contact the appropriate undergraduate advising coordinator or the department secretary, who will direct students to appropriate faculty members.
Without department permission, no student may receive credit in courses MATH 104, MATH 105, MATH 107, MATH 112 or MATH 119 after credit for MATH 120 has been earned.

Students majoring in mathematics must complete at least nine credit hours and minors must complete at least six credit hours from courses numbered 300 or above.

Placement into mathematics classes
Students without credit in an EMU mathematics course, or equivalent transfer credit, will need to obtain placement into an appropriate mathematics course. Those with no declared major should go to Academic Advising; others go to the Department of Mathematics.

Note: For some mathematics classes, evidence that the official prerequisites have been satisfied must be presented to the instructor on the first day of class. Students without such evidence will not be permitted to remain in the class. Details will be found in the class schedule for that semester.
Actuarial Science and Economics Major
ISIS major code: MA02

Actuarial science and economics is a joint program of the Department of Mathematics and the Department of Economics. In addition to following a prescribed series of courses, students are expected to pass the first two actuarial examinations. The examinations are sponsored by leading actuarial societies and administered in numerous U.S. locations. MATH 372 and MATH 472 are designed to prepare students for these examinations.

Required courses ........................................... 53

General education .......................................... 9

ECON 201 Principles of Economics I (satisfies general education requirement III.3) ........................................ 3
ECON 202 Principles of Economics II (satisfies general education requirement III.4) ........................................ 3
One course from the following: (satisfies general education requirement I.5) ........................................ 3
#COSC 137 Introduction to FORTRAN Programming (3) .................................................................................
#COSC 138 Computer Science I (3)
#COSC 237 Computer Programming and Numeric Methods (3)

Mathematics .................................................. 29

MATH 120 Calculus I (satisfies general education requirement I.4) ........................................ 4
MATH 121 Calculus II (satisfies general education requirement I.4) ........................................ 4
MATH 122 Elementary Linear Algebra (satisfies general education requirement I.4) ........................................ 3
MATH 223 Multivariable Calculus ........................................ 4
MATH 370 Probability and Statistics I ........................................ 4
MATH 372 Problems in Actuarial Studies I ........................................ 2
MATH 436 Introduction to Numerical Analysis ........................................ 3
MATH 471 Probability and Statistics II ........................................ 3
MATH 472 Problems in Actuarial Studies II ........................................ 2

Economics .................................................. 15

ECON 301 Intermediate Macroeconomic Analysis ........................................ 3
ECON 302 Intermediate Microeconomic Analysis ........................................ 3
ECON 320 Labor Economics ........................................ 3
ECON 340 Money and Banking ........................................ 3
ECON 415 Introduction to Econometrics ........................................ 3

Restricted elective courses ...................................... 7

Select courses at the 300 level and above in mathematics, computer science or economics.

Total .................................................. 60 hours

NOTE:
# These courses satisfy both general education requirements and requirements of the major. In order to avoid taking excess hours, students are advised to take these courses, or approved substitutes from another institution, as part of the general education requirements.

Mathematics Major
ISIS major code: MA01

All majors must fill in a program sheet before graduation—see the undergraduate advising coordinator. At least nine hours in the major, at 300 level or above, must be taken at Eastern Michigan University.

General studies .................................................. 49 hours

General education requirements ......................................... 41 hours
Other required courses ........................................... 6 hours

One course from the following:
MATH 211 Introduction to Mathematical Proof ........................................ 3
MATH 330 Discrete Mathematical Structures ........................................ 3

One course from the following:
#COSC 137 Introduction to FORTRAN Programming (satisfies general education requirement I.5) (3)
#COSC 138 Computer Science I (satisfies general education requirement I.5) (3)
#COSC 237 Computer Programming and Numeric Methods (satisfies general education requirement I.5) (3)

an equivalent course as determined by the mathematics advising coordinator

Physical education/graduation requirement ...................................... 2 hours

Mathematics major ........................................... 34 hours

Required courses ........................................... 22

#MATH 120 Calculus I (satisfies general education requirement I.4) ........................................ 4
#MATH 121 Calculus II (satisfies general education requirement I.4) ........................................ 4
#MATH 122 Elementary Linear Algebra (satisfies general education requirement I.4) ........................................ 3
MATH 223 Multivariable Calculus ........................................ 4
MATH 370 Probability and Statistics I ........................................ 4
One course from the following: ........................................ 3
MATH 411 Abstract Algebra ........................................ 3
MATH 416 Linear Algebra ........................................ 3
MATH 420 Introduction to Analysis ........................................ 3

Restricted elective courses ...................................... 12

12 hours from the following:
MATH 367 Elementary Number Theory ........................................
MATH 319 Mathematical Modeling ........................................
MATH 325 Differential Equations ........................................
MATH 372 Problems in Actuarial Studies I ........................................
MATH 406 Introduction to Computability ........................................
MATH 411 Abstract Algebra ........................................
MATH 416 Linear Algebra ........................................
MATH 418 Modeling with Linear Algebra ........................................
MATH 419 Advanced Mathematical Modeling ........................................
MATH 420 Introduction to Analysis ........................................
MATH 424 Introduction to Complex Variables ........................................
MATH 425 Mathematics for Scientists ........................................
MATH 426 Differential Equations II ........................................
MATH 436 Introduction to Numerical Analysis ........................................
MATH 460 Applied Survey Sampling ........................................
MATH 461 Linear Regression Analysis ........................................
MATH 462 Design and Analysis of Experiments ........................................
MATH 471 Probability and Statistics II ........................................
MATH 472 Problems in Actuarial Studies II ........................................
MATH 474 Applied Statistics ........................................

Minor .................................................. 20 hours

Elective courses .................................................. 11 hours

Total .................................................. 124 hours
Recommended courses for double majors

Students electing a double major with mathematics—in business, the social sciences, biological or physical science—should consult an advising coordinator to choose appropriate mathematics elective courses. MATH 411 Abstract Algebra, MATH 416 Linear Algebra, and MATH 420 Introduction to Analysis are strongly recommended for double majors and those preparing for graduate work.

Biology: MATH 418 Modeling with Linear Algebra, MATH 471 Probability and Statistics II
Business: MATH 325 Differential Equations, MATH 418 Modeling with Linear Algebra, MATH 436 Introduction to Numerical Analysis, MATH 471 Probability and Statistics II
Chemistry: MATH 325 Differential Equations, MATH 418 Modeling with Linear Algebra, MATH 425 Mathematics for Scientists, MATH 436 Introduction to Numerical Analysis
Economics: MATH 325 Differential Equations, MATH 418 Modeling with Linear Algebra
Physics: MATH 325 Differential Equations, MATH 416 Linear Algebra, MATH 418 Modeling with Linear Algebra, MATH 425 Mathematics for Scientists, MATH 436 Introduction to Numerical Analysis
Psychology: MATH 418 Modeling with Linear Algebra, MATH 471 Probability and Statistics II

NOTE:
These courses satisfy both general education requirements and requirements of the major. In order to avoid taking excess hours, students are advised to take these courses, or approved substitutes from another institution, as part of the general education requirements.

Mathematics Major with Concentration in Statistics

ISIS major code: MA63

All majors must fill in a program sheet before graduation—see the undergraduate advising coordinator. At least nine hours in the major, at 300 level or above, must be taken at Eastern Michigan University.

General studies .......................................................... 46 hours
General education requirements ....................................... 41 hours
Other requirements ................................................... 3 hours
One course from the following:
#COSC 137 Introduction to FORTRAN Programming (satisfies general education requirement 1.5) (3)
#COSC 138 Computer Science I (satisfies general education requirement 1.5) (3)
#COSC 237 Computer Programming and Numeric Methods (satisfies general education requirement 1.5) (3)
Physical education/graduation requirement ....................... 2 hours
Major in mathematics with concentration in statistics .......... 37 hours
Required courses ...................................................... 28 hours
MATH 120 Calculus I (satisfies general education requirement 1.4) .......... 4
MATH 121 Calculus II (satisfies general education requirement 1.4) .......... 4
MATH 122 Elementary Linear Algebra (satisfies general education requirement 1.4) .......... 3
MATH 223 Multivariable Calculus ......................................... 4
MATH 370 Probability and Statistics I .................................... 4
MATH 461 Linear Regression Analysis ................................... 3
MATH 462 Design and Analysis of Experiments ...................... 3
MATH 471 Probability and Statistics II .................................. 3

Restrictive elective courses .......................................... 9 hours
Students must take nine hours from among the following, at least six of which must be taken from the applied statistics elective courses:

Applied statistics elective courses:
MATH 460 Applied Survey Sampling (3)
MATH 474 Applied Statistics (3)

Mathematics elective courses:
MATH 416 Linear Algebra (3)
MATH 418 Modeling with Linear Algebra (3)
MATH 420 Introduction to Analysis (3)
MATH 472 Problems in Actuarial Studies I (2)

Minor élective courses ................................................. 20 hours
Elective courses .......................................................... 124 hours
Total ................................................................. 144 hours

NOTE:
These courses satisfy both general education requirements and requirements of the major. In order to avoid taking excess hours, students are advised to take these courses, or approved substitutes from another institution, as part of the general education requirements.

Mathematics Major

Secondary Teacher Certification

ISIS major code: MA31

Successful completion of this course of studies, in the context of other program requirements, qualifies the student for recommendation for certification for the Michigan Department of Education Secondary Provisional Certificate endorsed in mathematics, certification code "EX," and, depending on the minor selected, an additional endorsement. This program of studies meets all requirements of the National Council of Teachers of Mathematics. The certification test covering this field is #22, "Mathematics."

General studies .......................................................... 46 hours
General education requirements ........................................ 41 hours
Other requirements ................................................... 3 hours
One course from the following:
#COSC 137 Introduction to FORTRAN Programming (satisfies general education requirement 1.5) (3)
#COSC 138 Computer Science I (satisfies general education requirement 1.5) (3)
#COSC 237 Computer Programming and Numeric Methods (satisfies general education requirement 1.5) (3)
Physical education/graduation requirement ....................... 2 hours
Teaching major .......................................................... 34 hours
All majors must fill in a program sheet before graduation—see the undergraduate advising coordinator. At least nine hours in the major, at 300 level or above, must be taken at Eastern Michigan University.

MATH 120 Calculus I (satisfies general education requirement 1.4) .......... 4
MATH 121 Calculus II (satisfies general education requirement 1.4) .......... 4
MATH 122 Elementary Linear Algebra (satisfies general education requirement 1.4) .......... 3
MATH 211 Introduction to Mathematical Proof .................................... 3
MATH 223 Multivariable Calculus ......................................... 4
MATH 341 College Geometry (satisfies general education requirement 1.4) .......... 3
MATH 411 Abstract Algebra .................................................. 3
MATH 370 Probability and Statistics I (4) (MATH 360 may be used with permission)
Six or seven hours from the following list. Credits in mathematics, including MATH 120 but not MATH 305, must total at least 34 hours.
MATH 307 Elementary Number Theory (3)
MATH 320 Mathematical Modeling (3)
MATH 325 Differential Equations (3)
MATH 372 Problems in Actuarial Studies I (2)
MATH 400 History and Development of Mathematics (3)
MATH 416 Linear Algebra (3)
MATH 420 Introduction to Analysis (3)
MATH 424 Introduction to Complex Variables (3)
### Mathematics Major for the Elementary Teaching Certificate

**Elementary and Special Education-Elementary Teacher Certification**

**ISIS major code: MA33**

Successful completion of this major, in the context of other program requirements, qualifies the student for recommendation for endorsement in mathematics; certification code “EX.” This program of studies meets all requirements of the National Council of Teachers of Mathematics. The certification test covering this field is #22, “Mathematics.”

139 hours
NOTE:
# This curriculum automatically satisfies general education requirement IV.4.
# These courses satisfy both general education requirements and requirements of the major. In order to avoid taking extra hours, students are advised to take these courses, or approved substitutes from another institution, as part of the general education requirements.

Mathematics Minor
ISIS minor code: MA02

All minors must fill in a program sheet before graduation—see the undergraduate advising coordinator. At least six hours in the minor, at 300 level or above, must be taken at Eastern Michigan University.

Required courses ................................................................. 14-15
#MATH 120 Calculus I (satisfies general education requirement 1.4) .......... 4
#MATH 121 Calculus II (satisfies general education requirement 1.4) ........ 4
#MATH 122 Elementary Linear Algebra (satisfies general education requirement 1.4) ........................................ 4
One course from the following: ............................................. 3
MATH 211 Introduction to Mathematical Proof (3)
*MATH 360 Statistical Methods (3)
*MATH 370 Probability and Statistics I (4)

Restricted elective courses ..................................................... 5-6
Five to six hours from the following:
MATH 224 Multivariable Calculus (4)
MATH 307 Elementary Number Theory (3)
MATH 319 Mathematical Modeling (3)
MATH 325 Differential Equations (3)
#MATH 341 College Geometry (satisfies general education requirement 1.4) (3)
*MATH 360 Statistical Methods or *MATH 370 Probability and Statistics I (3/4)
MATH 372 Problems in Actuarial Studies I (2)
MATH 406 Introduction to Computability (3)
MATH 411 Abstract Algebra (3)
MATH 416 Linear Algebra (3)
MATH 418 Modeling with Linear Algebra (3)
MATH 419 Advanced Mathematical Modeling (3)
MATH 420 Introduction to Analysis (3)
MATH 424 Introduction to Complex Variables (3)
MATH 425 Mathematics for Scientists (3)
MATH 426 Differential Equations II (3)
MATH 436 Introduction to Numerical Analysis (3)
MATH 460 Applied Survey Sampling (3)
MATH 461 Linear Regression Analysis (3)
MATH 462 Design and Analysis of Experiments (3)
MATH 471 Probability and Statistics II (3)
MATH 472 Problems in Actuarial Studies II (3)

Total ....................................................................................... 20 hours

Additional requirement .......................................................... 3
One course from the following: ............................................. 3
#COSC 137 Introduction to FORTRAN Programming (satisfies general education requirement 1.5) (3)
#COSC 138 Computer Science I (satisfies general education requirement 1.5) (3)
#COSC 237 Computer Programming and Numeric Methods (satisfies general education requirement 1.5) (3)

NOTE:
# These courses satisfy both general education requirements and requirements of the minor. In order to avoid taking extra hours, students are advised to take these courses, or approved substitutes from another institution, as part of the general education requirements.

Mathematics Minor with Concentration in Statistics
ISIS minor code: MA04

All minors must fill in a program sheet before graduation—see the undergraduate advising coordinator. At least six hours in the minor, at 300 level or above, must be taken at Eastern Michigan University.

Required courses ................................................................. 14
#MATH 120 Calculus I (satisfies general education requirement 1.4) .......... 4
#MATH 121 Calculus II (satisfies general education requirement 1.4) ........ 4
#MATH 122 Elementary Linear Algebra (satisfies general education requirement 1.4) ........ 3
One course from the following: ............................................. 3
MATH 211 Introduction to Mathematical Proof (3)
MATH 360 Statistical Methods (3)
MATH 370 Probability and Statistics I (4)

Restricted elective courses ..................................................... 9
Students must take nine hours from among the following, at least six of which must be taken from the statistics elective courses:
Statistics elective courses:
MATH 460 Applied Survey Sampling (3)
MATH 461 Linear Regression Analysis (3)
MATH 462 Design and Analysis of Experiments (3)
MATH 471 Probability and Statistics II (3)
MATH 474 Applied Statistics (3)

Mathematics elective courses:
MATH 211 Introduction to Mathematical Proof (3)
MATH 224 Multivariable Calculus (4)

Total ....................................................................................... 23 hours

Additional requirement .......................................................... 3
One course from the following: ............................................. 3
#COSC 137 Introduction to FORTRAN Programming (satisfies general education requirement 1.5) (3)
#COSC 138 Computer Science I (satisfies general education requirement 1.5) (3)
#COSC 237 Computer Programming and Numeric Methods (satisfies general education requirement 1.5) (3)

NOTE:
# These courses satisfy both general education requirements and requirements of the minor. In order to avoid taking extra hours, students are advised to take these courses, or approved substitutes from another institution, as part of the general education requirements.

Mathematics Minor
K-12, Secondary, and Special Education-Secondary Teacher Certification
ISIS minor code: MA31

Successful completion of this minor, in the context of other program requirements, qualifies the student for recommendation for endorsement in mathematics, certification code "EX." The certification test covering this field is #22, "Mathematics."

All minors must fill in a program sheet before graduation—see the undergraduate advising coordinator.

At least six hours in the minor, at 300 level or above, but not including MATH 304 or MATH 306, must be taken at Eastern Michigan University.

#MATH 120 Calculus I (satisfies general education requirement 1.4) .......... 4
#MATH 121 Calculus II (satisfies general education requirement 1.4) ........ 4

NOTE:
# It is not permitted to count both MATH 360 and MATH 370 on the minor.
# These courses satisfy both general education requirements and requirements of the minor. In order to avoid taking extra hours, students are advised to take these courses, or approved substitutes from another institution, as part of the general education requirements.
Mathematics Minor for the Elementary Teaching Certificate

Elementary and Special Education-Elementary Teacher Certification

ISIS minor code: MA33

Successful completion of this minor, in the context of other program requirements, qualifies the student for recommendation for endorsement in mathematics, certification code "EX." The certification test covering this field is #22, "Mathematics."

Total: 20 hours

Mathematics Courses

### MATH 097 Pre-College Mathematical Concepts - Part I
A mastery-based developmental mathematics course designed to prepare students for a developmental algebra course; covers beginning mathematical concepts and skill development in a supportive but structured setting; includes help with math study skills and reducing math anxiety. Credit for this course will not count toward graduation.

**Prereq:** Program placement.

### MATH 097A Pre-College Mathematical Concepts
The first part of a mastery-based developmental mathematics course designed to prepare students for a developmental algebra course; covers beginning mathematical concepts and skill development in a supportive but structured setting; includes help with math study skills and reducing math anxiety. Credit for this course will not count toward graduation.

**Prereq:** Program placement.

### MATH 097B Pre-College Mathematical Concepts - Part II
The second part of a mastery-based developmental mathematics course designed to prepare students for a developmental algebra course; covers beginning algebra concepts and skill development in a supportive but structured setting; includes help with math study skills and reducing math anxiety. Credit for this course will not count toward graduation.

**Prereq:** MATH 097A or program placement.

### MATH 098 Pre-College Introductory Algebra Concepts
A mastery-based developmental mathematics course designed to prepare students to succeed in a college-level mathematics course; covers beginning algebra concepts and skill development in a supportive but structured setting; includes help with math study skills and reducing math anxiety. Credit for this course will not count toward graduation.

**Prereq:** At least "C" in MATH 097 or MATH 097B, or placement.

### MATH 098A Pre-College Introductory Algebra Concepts - Part I
The first part of a mastery-based developmental mathematics course designed to prepare students to succeed in a college-level mathematics course; covers beginning algebra concepts and skill development in a supportive but structured setting; includes help with math study skills and reducing math anxiety. Credit for this course will not count toward graduation.

**Prereq:** At least "C" in MATH 097 or MATH 097B, or placement.

### MATH 098B Pre-College Introductory Algebra Concepts - Part II
The second part of a mastery-based developmental mathematics course designed to prepare students to succeed in a college-level mathematics course; covers beginning algebra concepts and skill development in a supportive but structured setting; includes help with math study skills and reducing math anxiety. Credit for this course will not count toward graduation.

**Prereq:** MATH 097A or MATH 097B, or placement.
setting; includes help with math study skills and reducing math anxiety. Credit for this course will not count toward graduation.

Prereq: At least "C" in MATH 098A, or placement.

**MATH 104 Intermediate Algebra** 3 hrs
A review of elementary algebra and a continuation into the study of functions, graphs and quadratic equations.

Prereq: Placement or at least "C" in MATH 098 or MATH 098B.

**MATH 105 College Algebra** 3 hrs
Properties of the real numbers; equations and inequalities; functions; sequences; mathematical induction; polynomial, rational, exponential and logarithmic functions; introduction to probability.

Prereq: Placement or at least a "C" in MATH 104.

**MATH 107 Plane Trigonometry** 2 hrs
An elementary course in plane trigonometry. Students who have good records in high school courses including trigonometric identities, trigonometric equations, and oblique triangles should not take the course.

Prereq: Placement or at least "C" in MATH 104 ("B" or better strongly recommended), or MATH 105, MATH 119, or MATH 210.

**MATH 108 Mathematics for Elementary Teachers I** 3 hrs
The first of a two-course sequence that examines topics in the elementary school mathematics curriculum from an advanced standpoint, with an emphasis on concepts and problem solving. Topics include number theory, real number systems and their properties, algebra concepts, and functions. Required of all students in elementary and later elementary curricula. Open only to prospective elementary teachers.

Prereq: Placement or at least "C" in MATH 098 or MATH 098B.

**MATH 109 Mathematics for Elementary Teachers II** 3 hrs
The second of a two-course sequence that examines topics in the elementary school mathematics curriculum from an advanced standpoint, with an emphasis on concepts and problem solving. Topics include: elementary probability including both experimental and theoretical; elementary statistics including exploratory data analysis, descriptive statistics, and an introduction to inferential statistics; informal geometry including symmetry, similarity and congruence, and measurement.

Prereq: MATH 108.

**MATH 110 Mathematical Reasoning** 3 hrs
An introduction to contemporary mathematical thinking for the non-specialist, with the aim of developing the capacity to engage in logical thinking and to read critically the technical information that is so prevalent in modern society. Topics include elementary logic, basic probability and statistics, and applications.

Prereq: Placement or at least "C" in MATH 098 or MATH 098B, or MATH 104, MATH 105, MATH 107, MATH 109, or MATH 120.

**MATH 112 Topics in Precalculus Mathematics** 4 hrs
Provides a thorough preparation for calculus for students who are insufficiently prepared in college algebra and trigonometry, or who need to review these subjects. Emphasis will be on topics from college algebra and trigonometry that are used in calculus. Some knowledge of trigonometry is assumed.

Prereq: Placement or MATH 105.

**MATH 118 Mathematical Analysis for Social Sciences I** 3 hrs
Solutions of linear equations and inequalities, vectors and matrices, linear programming, sets, probability. Emphasis on applications.

Prereq: Placement or at least "C" in MATH 098 or MATH 098B, or MATH 104, MATH 105, MATH 107, MATH 109, MATH 110, or MATH 120.

**MATH 119 Mathematical Analysis for Social Sciences II** 3 hrs
Functions, differentiation of algebraic functions, optimization, exponential and logarithmic functions and their derivatives, an introduction to the definite integral. Emphasis on problem setup and interpretation, and applications.

Prereq: Placement or at least a "C" in MATH 104 ("B" or better strongly recommended), or MATH 105 or MATH 210.

**MATH 120 Calculus I** 4 hrs
Calculus of functions of a single variable, including limits, derivatives; techniques of differentiation, the Mean Value Theorem and applications of differentiation to graphing, optimization and rates. Integral calculus, including indefinite integrals, the definite integral, the Fundamental Theorem of Integral Calculus, and applications of integration to area and volume. Knowledge of trigonometry is assumed.

Prereq: Placement or at least a "C" in MATH 105 and at least a "C" in MATH 107 ("B" or better strongly recommended in both), or at least a "C" in MATH 112 or at least a "C" in MATH 210.

**MATH 121 Calculus II** 4 hrs
Calculus of functions of a single variable continued; additional applications of definite integration to moments, centroids, arc length, surface area and work. Transcendental functions, infinite series, methods of integration, review of conic sections.

Prereq: At least a "C" in MATH 120.

**MATH 122 Elementary Linear Algebra** 3 hrs
Vectors and matrices, operations on matrices, determinants, systems of linear equations, linear independence, linear transformations, applications.

Prereq: At least a "C" in MATH 105 ("B" or better strongly recommended), or MATH 120, or placement.

**MATH 130 Calculus Laboratory I** 1 hr
Computer laboratory class designed to reinforce the major concepts of first-semester calculus.

Prereq: Concurrent registration in MATH 120.

**MATH 170 Elementary Statistics** 3 hrs
An introduction to standard methods in statistics, emphasizing the rationale behind them and their application to problems in a variety of fields. Data summary and representation, measures of center and dispersion, correlation and regression, basic probability, point and interval estimation, and hypothesis testing.

Prereq: Placement or at least a "C" in MATH 098 or MATH 098B, or MATH 104, MATH 105, MATH 107, MATH 109, MATH 110, MATH 118, MATH 119, or MATH 120.

**MATH 171/178/179 Special Topics** 1/2/3 hrs
These special topics courses will be used to teach some aspects of mathematics at an elementary level that would not be regularly offered. This course does not count on a regular major or minor in mathematics.

Prereq: Department permission.

**MATH 210 Algebra for Elementary Teachers** 3 hrs
Field properties, complex numbers, number sentences, introduction to coordinate geometry, nature of proof and concept of limit. Open only to prospective elementary teachers.

Prereq: MATH 109.

**MATH 211 Introduction to Mathematical Proof** 3 hrs
A transition to upper-level mathematics courses. This course highlights various types of mathematical thinking including direct, indirect and inductive proofs with careful treatment of quantified statements. Topics include sets, number theory and relations. Development of ability to write a precise mathematical proof is the primary goal.

Prereq: MATH 121 and MATH 122.

**MATH 223 Multivariable Calculus** 4 hrs
Vector products, lines and planes in three-dimensional space; quadric surfaces, cylindrical and spherical coordinates. Differential calculus of vector functions of a single variable; velocity and acceleration vectors, curvature, partial differentiation, gradient, chain rule, directional derivatives, tangent planes, applications to optimization. Multiple integration, change of coordinates, applications. Taylor's Theorem for Functions of Several Variables, line and surface integrals, Stokes' Theorem, Gauss' Theorem.

Prereq: At least a "C" in MATH 121, and MATH 122.
MATH 240 Geometry for Elementary Teachers 3 hrs
Informal geometry of the plane and space, congruence and measurement, elementary theorems and proof, and plane coordinate geometry. Open only to prospective elementary teachers.
Prereq: MATH 109.

MATH 277/278/279 Special Topics 1/2/3 hrs
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.
Prereq: Department permission.

MATH 301 Advanced Topics in Elementary Mathematics 3 hrs
Acquaints prospective elementary teachers with new topics in the elementary mathematics curriculum such as algebraic systems, conic sections, trigonometry, statistical procedures and topics in number theory.
Prereq: MATH 109 or MATH 210 or MATH 240.

MATH 304 Middle School Mathematics Methods and Content 3 hrs
Consideration of the mathematics program in middle school and junior high school, its organization and content, methods of teaching and learning. Not open to freshmen, sophomores or students on academic probation.
Prereq: MATH 240 or MATH 126.

MATH 306 Teaching of High School Mathematics 3 hrs
Consideration of the mathematics program in the high school, its organization and content, methods of teaching and learning. Does not count on the major or minor. Not open to freshmen, sophomores or students on academic probation.
Prereq: MATH 120 and CURR 305.

MATH 307 Elementary Number Theory 3 hrs
Primes, Euclidean algorithm and prime factorization, congruencies, multiplicative functions, quadratic residues and reciprocity; continued fractions, Diophantine equations, possible applications to cryptography, and/or primality testing.
Prereq: MATH 217.

MATH 319 Mathematical Modeling 3 hrs
The modeling process; model building and evaluation, techniques of modeling; model fitting and models requiring optimization; empirical model construction-experimental models, dimensional analysis, simulation models, dynamic models; use of derivatives in the modeling process, single and multivariable dynamic models.
Prereq: MATH 120 and MATH 122.

MATH 325 Differential Equations 3 hrs
First and second order differential equations with applications, linear differential equations, power series solutions, Laplace transforms.
Prereq: MATH 121 and MATH 122.

MATH 341 College Geometry 3 hrs
An introduction to several geometries such as affine, projective, space-time and non-Euclidean.
Prereq: MATH 211.

MATH 360 Statistical Methods 3 hrs
A comprehensive overview of statistical methods and analysis with applications. Topics include descriptive statistics, probability theory, random variables and probability distributions, sampling distributions, estimation and testing hypotheses, correlation and regression, introduction to computer-assisted statistical analysis. A statistical software package (SAS) is used.
Prereq: MATH 121.

MATH 370 Probability and Statistics I 4 hrs
Basic concepts of probability; expectation, variance, covariance, distribution functions and their application to statistical tests of hypothesis; bivariate, marginal and conditional distributions; treatment of experimental data. Applications to problems in science and/or social science are emphasized.
Prereq: MATH 223.

MATH 372 Problems in Actuarial Studies I 2 hrs
Applications of mathematics to actuarial science. Particular attention paid to subject matter not covered in the regular mathematics curriculum and to special techniques of problem solving appropriate to actuarial science. (This course can be useful in preparing for the Actuarial Examination, Part I-General Mathematics.)
Prereq: MATH 223; a minimum GPA in mathematics of 3.4 is strongly recommended.

MATH 377/378/379 Special Topics 1/2/3 hrs
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.
Prereq: Department permission.

MATH 381 The Teaching of Mathematics, K-6 3 hrs
Learning to teach children in the elementary grades (K-6) the understanding processes of mathematics. Attention is focused on learning-teaching situations and effective use of learning aids. Required of all students on early elementary and later elementary curricula. Not open to students on academic probation.
Prereq: MATH 109 and CURR 304.

MATH 382 Calculators and Microcomputers in Elementary Mathematics Education 3 hrs
A survey of the uses of calculators and microcomputers, with specific emphasis on their use in the elementary classroom. Emphasis will be placed on problem-solving. A calculator will be required.
Prereq: MATH 210.

MATH 387 Cooperative Education in Mathematics 3 hrs
Four to six months of full-time employment at an industrial firm especially chosen to provide practical experience in mathematics. The program consists of two work experiences (MATH 387 and MATH 487) alternating with full-time attendance at the University. Use of mathematics major subject to department permission. Graded on a credit/no credit basis.
Prereq: Junior or senior majoring in mathematics, MATH 223, admittance by program by application only, department permission.

MATH 400 History and Development of Mathematics 3 hrs
The course presents topics in the evolution of mathematics—the historical development of algebra, geometry and calculus provides the major focus. Problems will be assigned that reflect the content and methods of this development.
Prereq: MATH 121 and MATH 122.

MATH 401 Mathematics and Its History for Elementary Teachers 3 hrs
Topics in the evolution of mathematics from ancient times through the present, with an emphasis on connections with the elementary school curriculum. Development of numeration systems, algebra, different geometries, calculus, including the contributions of different cultures in the development of mathematics.
Prereq: MATH 240 and MATH 301.

MATH 403 Current Research in Elementary School Mathematics 3 hrs
A brief history of mathematics education, 1890 to present. Special emphasis on important recent research studies. Consideration of various textbook series, use and evaluation of supplementary materials, the place and value of teaching aids. Professional journals will be utilized throughout the course.
Prereq: MATH 301 and MATH 381.

MATH 406 Introduction to Computability 3 hrs
Computable functions, register machines, recursion, minimalization, Church's thesis, Turing machines, diagonal method, universal programs, decidability, recursive and recursively enumerable sets, undecidability, applications to computer science and the foundations of mathematics.
Prereq: MATH 223 or COSC 330.
MATH 411 Abstract Algebra  
3 hrs  
An introduction to the theory and concepts of abstract algebra. Topics from group theory: subgroups, cosets, Lagrange's Theorem, homomorphisms. Also selected topics from ring theory and field theory.  
Prereq: MATH 211.

MATH 416 Linear Algebra  
3 hrs  
Prereq: MATH 222 and MATH 311.

MATH 418 Modeling with Linear Algebra  
3 hrs  
Topics in linear algebra such as linear transformations, eigenvalues, eigenvectors and inner products. Applications may include rotations in space and 3D graphics, stochastic processes, systems of linear ODEs, Fourier series, orthogonal polynomials, projection methods for solving overdetermined systems.  
Prereq: MATH 121 and MATH 122.

MATH 419 Advanced Mathematical Modeling  
3 hrs  
A course involving an in-depth study of mathematical models of greater complexity than is possible in MATH 319, including both deterministic and probabilistic models. An important part of the course should include an opportunity for a student to become involved in an actual modeling problem.  
Prereq: MATH 319.

MATH 420 Introduction to Analysis  
3 hrs  
Real numbers, elementary topology of the real line, sequences and series, continuity, uniform convergence, differentiation, integration, sequences and series of functions.  
Prereq: MATH 211.

MATH 421 Introduction to Complex Variables  
3 hrs  
Complex numbers, analytic functions, elementary functions and their mapping properties, conformal mapping and applications: contour integrals, Cauchy-Goursat Theorem and its consequences, Taylor and Laurent series, calculus of residues.  
Prereq: MATH 223.

MATH 425 Mathematics for Scientists  
3 hrs  
The scientific applications of mathematics. Topics chosen will reflect the interests of the class. Possible areas of study include Fourier series and transforms, complex variables, generalized functions, Laplace transforms, Bessel functions, curve fitting, partial differential equations and the calculus of variations. A record of topics studied each semester will be kept in the mathematics files.  
Prereq: MATH 223.

MATH 426 Differential Equations II  
3 hrs  
Systems of linear differential equations, transforms, qualitative theory of systems, existence and uniqueness theorems.  
Prereq: MATH 325.

MATH 427 Introduction to Numerical Analysis  
3 hrs  
Introduces the theory and application of numeric methods using the digital computer as a tool; finite differences, polynomial approximation, numeric integration, solution of equations and nonlinear systems, numeric solution of differential equations, error analysis.  
Prereq: MATH 121 and MATH 122; and one of: COSC 137, COSC 138, or COSC 237.

MATH 448 Differential Geometry with an Introduction to General Relativity  
3 hrs  
Curve and surface theory in three-dimensional space; introduction to special and general relativity. Not open to students with credit in MATH 548 Introduction to Differential Geometry.  
Prereq: MATH 223 and MATH 325.

MATH 450 Applied Survey Sampling  
3 hrs  
A course in principles of sampling for assessment of data in business, social sciences or natural resource management. Sampling problem, selection of samples, designing questionnaires, estimation of means and variances, ratio, regression and difference methods, simple and stratified random sampling, systematic sampling, cluster sampling, probability proportional to size sampling. A special survey software package is used.  
Prereq: MATH 360 or MATH 370.

MATH 451 Linear Regression Analysis  
3 hrs  
Topics include modeling a response as a simple or multiple regression model, validity of assumptions, using models for estimation and prediction, multicollinearity, auto-correlation of error terms, residual analysis, stepwise regression. A statistical software package (SAS) is used extensively.  
Prereq: MATH 122 and MATH 360 or MATH 370.

MATH 452 Design and Analysis of Experiments  
3 hrs  
A basic course in principles of experimental designs and analysis: randomized blocks and Latin squares, nested experiments, experimental and sampling errors, fixed and random effects models, factorial and fractional designs. A statistical software package (SAS) is used extensively.  
Prereq: MATH 360 or MATH 370 or equivalent.

MATH 457 Probability and Statistics I  
3 hrs  
Nature of statistics; distributions, measure of central value and dispersion; sampling; statistical inference, estimation and tests of hypothesis. Methods of computation, applications and data analysis will be stressed. Nonparametric statistics: sequential tests, analysis of variance.  
Prereq: MATH 370.

MATH 458 Problems in Actuarial Studies II  
2 hrs  
Applications of probability and statistics to actuarial science. Particular attention paid to subject matter not covered in the regular mathematics curriculum and to special techniques of problem solving appropriate to actuarial science. (This course can be used in preparing for the Actuarial Examination, Part II-Probability and Statistics).  
Prereq: MATH 471 (may be taken concurrently); a minimum GPA in mathematics of 3.4 is strongly recommended.

MATH 464 Applied Statistics  
3 hrs  
This course stresses the empirical approach to statistics: Monte Carlo methods to generate samples and to model distributions; tests of fit to assumed distributions; medians vs. means and range vs. standard deviations; demonstrations of basic theorems; randomness and independence.  
Prereq: MATH 360 or MATH 370.

MATH 477/478/479 Special Topics  
1/2/3 hrs  
A senior-level course in a specific area of mathematics. The area to be studied will be determined by the field of specialization of the staff member teaching the course and the interest of the students enrolled.  
Prereq: Undergraduate grade point average in mathematics 3.0 or above and department permission.

MATH 485 Cooperative Education in Mathematics  
3 hrs  
Four to six months of full-time employment at an industrial firm specially chosen to provide practical experience in mathematics. The program consists of two work experiences (MATH 387 and MATH 487) alternating with full-time attendance at the University. Use on mathematics major subject to department permission. Graded on a credit/no credit basis.  
Prereq: Junior or senior majoring in mathematics, admittance to program by application only, MATH 387, department permission.

MATH 497/498/499 Independent Study  
1/2/3 hrs  
A report on an approved subject in the field of mathematics under the guidance of the Mathematics Department staff.  
Prereq: Undergraduate grade point average in mathematics 3.0 or above and department permission.
Music
www.emich.edu/public/music/music.html

Departmental Administration
Gordon McQuire
Department Head
N101 Alexander
734.487.0244
E-mail: gordon.mcquire@emich.edu

The Department of Music serves the state and region by offering undergraduate programs in performance, music education, and music therapy, and master's programs with concentrations in music education, music performance, piano pedagogy, and theory/literature. The department serves the University by providing the opportunity for education through music to all University students. The department serves the community by engaging in public performance and in outreach activities.

In fulfilling its mission, the department pursues these goals:
- to cultivate the highest possible level of student achievement in a caring and stimulating learning environment;
- to promote and explore excellence in all department programs;
- to provide appropriate educational opportunities to students;
- to utilize innovative means of teaching and learning, including new technologies;
- to insure the availability of facilities and equipment commensurate with the mission;
- to seek faculty and staff positions that support the mission;
- to support the scholarly and creative activities of the faculty in an appropriate manner;
- to support the outreach activities of faculty and students in an appropriate manner.

The Department of Music is a member of the National Association of Schools of Music.

Degrees Offered
Bachelor of Arts
Bachelor of Music
Bachelor of Music Education
Bachelor of Music Therapy
Bachelor of Science

Programs of Study
Majors
Music
Music education (instrumental and vocal) for K-12 education
Music performance
Music therapy

Minors
General music
Music education for elementary education

Advising is according to student interest. Advisers are posted each term in the department office, or the advising coordinator may be contacted for further information.

Advising Coordinators
All vocal programs: Ernest Bradon
Instrumental Music Education: Kimberly Cole
Performance, B.A./B.S.: Daniel Foster
Music Therapy: Michael McGuire
Music Minors: J.R. Smith

Enrollment in any music curriculum will be determined by the results of an audition process. All new students should write the department well in advance of their intended registration date to arrange these auditions and examinations. Transfer students may apply at the same time for advanced standing in music.

Address all correspondence to:
Department of Music
Eastern Michigan University
Ypsilanti, MI 48197
734.487.4380

Music fees are charged for private lessons according to the following schedule (1995-96):

Music majors: $60 per semester (maximum) for all instruction.
Other University students: $60 per semester for a one-hour lesson,$30 per semester for a half-hour lesson.
Students from public schools and the community, and EMU staff and families: Lessons are available through the EMU Community Music School. Fees vary depending on the length of the lesson, and the instructor. Call the Department of Music for details.

Student recitals are a participatory expectation of all music students. These performances may take place in studio classes, informal departmental recitals, or in public recitals, where required.

A senior recital to fulfill requirements of graduation must be prepared and approved by an appropriate faculty committee. Ensemble music may be included on the programs. In such event, the recitalist must have a principal solo role in the music performed. Additional approval of senior programs for public performance will rest with the committee's recommendation.

All public recitals are subject to prior review and approval by a faculty committee.

All full-time (minimum 12 hours) music majors are required to attend a quota of music recitals and concerts each semester. Majors should consult with their major applied instructor or department adviser for specific requirements. Graduate study leads to the master of arts degree in music. For description of graduate courses, see the graduate catalog.

Music Performance Major
ISIS major code: MU01

The bachelor of music degree curriculum is available for students using voice, guitar, keyboard or an orchestral instrument as the principal performing medium. All general education requirements must be completed, including one approved course in cross-cultural or international studies. (Complete pattern sheet is available in the department.)

Music Therapy Major

Successful completion of the requirements for the Bachelor of Music Therapy degree makes students eligible to sit for the Certification Examination given by the Certification Board for Music Therapists™.

The bachelor of music therapy degree is awarded on completion of this curriculum. The degree program is approved by the National Association for Music Therapy.

General studies ................................. 53 hours

*General education requirements .... 32 hours

Other Requirements ............................ 13 hours

#Biol 105 Introductory Biology for Non-majors (satisfies general education requirement II.2 or II.3) (4)
#PSY 101/PSY 102 General Psychology (satisfies general education requirement II.2 or II.3) (3/4)
#Socol 105 Introductory Sociology (satisfies general education requirement III.3) (3)

One course from the following:
#CTAC 225 Listening Behavior (satisfies general education requirement I.3) (3)
#CTAC 226 Nonverbal Communication (satisfies general education requirement I.3) (3)
#CTAC 227 Interpersonal Communication (satisfies general education requirement I.3) (3)
#CTAC 374 Intercultural Communication (satisfies general education requirement I.3 and the cross-cultural/international studies requirement) (3)

Additional requirements ........................................... 6 hours

PSY 360 Abnormal Psychology (3)
Zool 326 Human Physiology (3)

Physical education/graduation requirement ................. 2 hours

Two activity courses from the following:
PEGN 103 Couple, Square, and Ballroom Dancing
PEGN 155 Jazz I
PEGN 161 Modern Dance
PEGN 255 Jazz II
PEGN 261 Intermediate Modern Dance

Music therapy major ............................................ 87 hours

Education .......................................................... 3 hours

SPGN 251 Education of Exceptional Children (3)

General Music Minor
ISIS minor code: MUS3

Students seeking admission to the general minor in music must complete an application at the Music Department office and take placement tests in applied music and basic musicianship. Each must work out a course of study with a designated music adviser.

Total: ........................................ 20 hours

Elementary Music Education Minor

Elementary and Special Education-Elementary Teacher Certification
ISIS minor code: MUS32

Students seeking admission to the minor in elementary music education must complete an application at the Department of Music office and take placement tests in applied music and basic musicianship. Each must work out a course of study with a designated music adviser.

Successful completion of this minor, in the context of other program requirements, qualifies the student for recommendation for endorsement in music education, certification code “IX.” The certification test covering this field is #39, “Music Education.”

Three or four credit hours of student teaching also are required. The methods course must be taken in the area of teaching desired. All courses in the minor must be eq3 Music Courses

Students who do not qualify by audition for admission to a curriculum in music may, at the discretion of the department, be assigned preparatory work until ready for University-applied music study. It should be understood that delayed admission as a departmental major may extend the time normally required to satisfy graduation requirements.

Transfer students may be granted credit for applied music study accomplished at another institution or with a recognized private teacher. Eligibility for transfer must be determined by audition. A course of study designed to satisfy Department of Music graduation requirements will be recommended at that time.

At the time of admission to a music curriculum, students with piano as a secondary instrument must demonstrate the required level of proficiency for graduation in their chosen curriculum, or elect piano every semester until the required proficiency is attained.

Study is available on the following instruments:
- Bassoon (ABSN)
- Cello (AVCL)
- Clarinet (ACLA)
- Euphonium (AEPH)
- Flute (ABSN)
- Guitar* (AGTR)
- Harp (AHHRP)
- Harpsichord (AHPS)
- Oboe (AOBO)
- Organ (AORO)
- Piano (APNO)
- Percussion (APER)
- Saxophone (ASAX)
- String Bass (ADBS)
- Trumpet (APTP)
- Tuba (ATUB)
- Violin (AVLA)
- Viola (AVLA)

*Guitar does not qualify as a principal instrument in the bachelor of music education curriculum. It is acceptable, however, for students of music, or bachelor of science, or bachelor of music degree with major in music.

Principal Instruments

The bachelor’s degrees require varying credit hours of work on the principal applied music instrument as indicated in the course requirements of the specific curriculum and major.

Students are admitted to the 100 series level at different degrees of competency; therefore some students will require more time to achieve the proficiency needed for admission to the 300 series level. Permission to move to 300 series level may be given by the faculty jury with the permission of the teacher.

Applied Music Course AMUS 105 or 106 2 hrs
Probationary applied music. For the student who requires additional preparation in his or her principal instrument before entering regular freshman level work. Cannot apply toward graduation requirements in any music major curriculum.

Applied Music Course AMUS 101/102 (103/104 1 hr
For elective study. May be repeated for credit.

Applied Music Course AMUS 111/112/211/212/213/311/312/313/411/412 1 hr
For music minors. May be repeated for credit.

Applied Music Course AMUS 112/114/212/214 2 hrs
Lower-level work for music majors (BA, BS, BM, BME, BMV, BMT) only. May be repeated for credit.

Applied Music Course AMUS 140/144/240/244 4 hrs
Lower-level work for music majors (BM) only. May be repeated for credit.
Applied Music Course AMUS 312/314/412/414 2 hrs
Upper-level work for music majors (BA, BS, BME, BMEV, BMT) only. May be repeated for credit.

Applied Music Course AMUS 340/344/440/444 4 hrs
Upper-level work for music majors (BM) only. May be repeated for credit.

Music Courses

MUSC 100 Introduction to Music Theory 3 hrs
Designed for the nonmusic major. A preparatory course for MUSC 101 for the music major or minor deficient in music theory. The basic elements of music: notation of pitch and rhythm, scales, intervals, tonality, beginning sight-singing and dictation.

MUSC 101 Music Theory I 3 hrs
Integrated theory course dealing with perception, writing, analysis and performance of basic musical materials: stylistic comprehension of music of all periods. For music majors and minors. Taken concurrently with MUSC 118 and MUSC 119.
PrepReq: Department permission.

MUSC 102 Music Theory II 3 hrs
Continuation of MUSC 101. For music majors and minors. Taken concurrently with MUSC 128 and MUSC 129.
PrepReq: MUSC 101, MUSC 118 and MUSC 119.

MUSC 103 Introduction to Music Therapy 2 hrs
An orientation to music therapy. Introductory survey of the various impaired and disabled populations served, current career opportunities, and exploration of interventions utilized by music therapists to achieve specific therapeutic goals. Observation of registered music therapists in hospital, clinical and school settings is required.
PrepReq: Admission to music therapy program.

MUSC 104 Elements of Music 2 hrs
Singing, music reading, and theory experience in the elements of music for the elementary classroom teacher. Concepts of rhythm and tonality. Lecture: two hours per week. Laboratory: one hour per week.
PrepReq: Elementary education or special education major.

MUSC 106 Introduction to the Performing Arts 3 hrs
A survey of the arts of dance, theatre and music, developing an understanding and appreciation of representative works in the three fields; the place of these arts in contemporary society and their contribution to a richer life. Attendance required at specified on-campus performances. Nonmusic majors only.

MUSC 107 Music Appreciation 2 hrs
Guides the student in listening to and understanding various types, forms and styles of instrumental and vocal music of the world. Representative works of all periods and cultures, including contemporary developments, will be studied. Attendance at concerts and recitals required. Nonmusic majors only.

MUSC 118 Music Literature I 1 hr
Stylistic analysis and aural presentation of select musical masterworks in the history of western music, from the medieval period through the classical period. Objectives of the course parallel and relate to those of MUSC 101. Taken concurrently with MUSC 101 and MUSC 119.
PrepReq: Department permission.

MUSC 119 Aural Skills I 1 hr
Development of fundamental sight-singing techniques as well as skills in noting performed melodic and harmonic musical examples. Objectives of the course parallel those of MUSC 101. Taken concurrently with MUSC 101 and MUSC 118.
PrepReq: Department permission.

MUSC 128 Music Literature II 1 hr
A continuation of MUSC 118. Stylistic analysis and aural presentation of select musical masterworks in the history of western music from the classical period through the 20th century. Objectives of the course parallel and relate to those of MUSC 102. For music majors and minors. Taken concurrently with MUSC 102 and MUSC 129.
PrepReq: MUSC 101, MUSC 118 and MUSC 119.

MUSC 129 Aural Skills II 1 hr
A continuation of MUSC 119. Development of intermediate sight-singing techniques as well as skills in noting performed melodic and harmonic musical examples. Objectives of the course parallel those of MUSC 102. For music majors and minors. Taken concurrently with MUSC 102 and MUSC 128.
PrepReq: MUSC 101, MUSC 118 and MUSC 119.

MUSC 131 University Choir 1 hr
An ensemble of advanced singers. Open to all students in the University.
PrepReq: Department permission.

MUSC 134 University Women's Chorus 1 hr
Open to all women students.
PrepReq: Department permission.

MUSC 135 University Men's Chorus 1 hr
Open to all men students.
PrepReq: Department permission.

MUSC 136 Chamber Choir 1 hr
Chamber music for mixed voices. Open to all students.
PrepReq: Department permission.

MUSC 149 Athletic Band 1 hr
The Athletic Band rehearses music and performs for a schedule (determined by the instructor) of the University's men's and women's basketball and volleyball home games. The Athletic Band also may perform for postseason basketball competition. MUSC 149 may not serve to fulfill Group V general education requirement.
PrepReq: Department permission.

MUSC 151 Class Piano 2 hrs
Group instruction in piano for students with no previous keyboard experience. Provides the necessary skills for carrying on a music program in the elementary classroom. Nonmusic majors only.

MUSC 152 Class Piano 2 hrs
Continuation of MUSC 151 with emphasis on the functional aspects of piano playing and elementary piano literature. For students not specializing in music and with not more than one year of previous keyboard experience.
PrepReq: MUSC 151 or department permission.

MUSC 177/178/179 Special Topics 1/2/3 hrs
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.
PrepReq: Department permission.

MUSC 201 Music Theory III 3 hrs
Continuation of MUSC 102 with more emphasis on harmonic, melodic, compositional and structural techniques of 16th through 20th centuries. For music majors and minors. Taken concurrently with MUSC 218 and MUSC 219.
PrepReq: MUSC 102, MUSC 128 and MUSC 129.

MUSC 202 Music Theory IV 3 hrs
Continuation of MUSC 201. For music majors and minors. Taken concurrently with MUSC 225 and MUSC 229.
PrepReq: MUSC 201, MUSC 218 and MUSC 219.

MUSC 211 Basic Brass Class 1 hr
The teaching and playing of trumpet and trombone. Majors and minors only.
MUSC 212 Brass Class
The teaching and playing of French horn, euphonium and tuba. Majors and minors only.

MUSC 218 Music Literature III
Stylistic analysis and oral presentation of select musical masterworks in the history of western music from the medieval period through the Baroque period. Objectives of the course parallel and relate to those of MUSC 201. For music majors and minors. Taken concurrently with MUSC 231 and MUSC 239.
Prereq: MUSC 102, MUSC 128 and MUSC 129.

MUSC 219 Aural Skills III
A continuation of MUSC 129. Development of intermediate/advanced sight-reading techniques as well as skills in notating performed melodic and harmonic musical examples. Objectives of the course parallel and relate to those of MUSC 201. For music majors and minors. Taken concurrently with MUSC 201 and MUSC 218.
Prereq: MUSC 102, MUSC 128 and MUSC 129.

MUSC 221 Methods and Materials in Music Therapy
2 hrs
Study of resources available in music therapy and their systematic application to meet the treatment needs of children and adults with various dysfunctions. Presentation of specifically designed music therapy experiences.
Prereq: MUSC 221.

MUSC 222 Preclinical Training Practicum in Music Therapy I
1 hr
Introducory fieldwork experience in music therapy. Observation and documentation of music therapy sessions in clinical or educational settings.
Prereq: MUSC 102, MUSC 103.

MUSC 223 Preclinical Training Practicum in Music Therapy II
1 hr
Continuation of MUSC 222. Leadership or co-leadership of music therapy sessions.
Prereq: MUSC 222.

MUSC 224 Recreational Music
2 hrs
For recreation majors. Specific activities, techniques and resources for directing recreational music programs.

MUSC 228 Music Literature IV
1 hr
A continuation of MUSC 218. Stylistic analysis and oral presentation of select musical masterworks in the history of western music from the modern period through the 20th century. Objectives of the course parallel and relate to those of MUSC 202. For music majors and minors. Taken concurrently with MUSC 202 and MUSC 229.
Prereq: MUSC 201, MUSC 218 and MUSC 219.

MUSC 229 Aural Skills IV
1 hr
A continuation of MUSC 219. Development of advanced sight-reading techniques as well as skills in notating performed melodic and harmonic musical examples. Objectives of the course parallel those of MUSC 202. For music majors and minors. Taken concurrently with MUSC 202 and MUSC 228.
Prereq: MUSC 201, MUSC 218 and MUSC 219.

MUSC 232 Voice Class
1 hr
Improving the singing and speaking voice through the study of breath control, tone production and diction. Not open to students with voice as a principal instrument.
Prereq: The ability to read music in the clef appropriate to student's voice classification.

MUSC 235 Dieton in Singing
2 hrs
The physiological descriptions and laboratory practice of diction as used in singing English, French, German, Italian and Latin.

MUSC 241 Percussion
1 hr
The teaching and playing of snare drum, tympani and keyboard percussion with an emphasis on group lesson techniques; survey of accessory instruments; introduction of methods, literature and use of the percussion ensemble. Majors and minors only.

MUSC 243 Percussion Ensemble
1 hr
Performance class designed to develop the percussionist's technical and musical skills in an ensemble setting. Devoted to the rehearsal and performance of the best in 20th-century percussion ensemble literature in a variety of styles.
Prereq: Percussion major or minor or department permission.

MUSC 244 Jazz Ensemble
1 hr
Performance class dealing with the elements of jazz arrangement, improvisation, and ensemble techniques with special emphasis on the function of jazz in music education.
Prereq: Department permission.

MUSC 246 String Ensemble
1 hr
Chamber music for strings.
Prereq: Department permission.

MUSC 247 Woodwind Ensemble
1 hr
Chamber music for woodwinds.
Prereq: Department permission.

MUSC 248 Orchestra
1 hr
Open to all students in the University.

MUSC 249 Band
1 hr
MUSC 249 includes Concert Winds, Symphonic Band and Marching Band. Open to all students of the University. Enrollment in MUSC 249 requires attendance for the entire semester. Students electing MUSC 249 may also elect PEGN 140 for one credit.

MUSC 251 Functional Piano
1 hr
Required for all music majors and minors with no previous piano experience. Teaches keyboard skills necessary both for accompaniment of simple music and for developing musical understanding basic to all course work in music.
Prereq: Majors or minors only.

MUSC 252 Functional Piano
1 hr
Continuation of MUSC 251.
Prereq: MUSC 251 or equivalent. Majors or minors only.

MUSC 253 Functional Piano
1 hr
Continuation of MUSC 252. Stresses keyboard harmony, accompaniment, sight-reading, piano literature and technique.
Prereq: MUSC 252. Majors or minors only.

MUSC 254 Functional Piano
1 hr
Continuation of MUSC 253. Additional accompaniment experience, keyboard harmony, improvisation, piano literature and techniques. Any break in the continuity of Functional Piano courses will require an audition before resumption of study.
Prereq: MUSC 253 or equivalent. Majors or minors only.

MUSC 261 Basic String Class: Violin
1 hr
The teaching and playing of the violin from a pedagogical approach. Designed primarily for music education and music therapy majors. Small and large group instruction and current methods including rote and Suzuki approaches. Majors and minors only.

<td>Music Therapy Principles I</td>
<td>4</td>
<td>Examination of the research literature dealing specifically with the influence of music on behavior, including neurophysiological effects. In-depth study of diagnostic categories and systematic application of music therapy treatment to people within these categories. Laboratory experience is required in which music therapy treatment is provided to individuals with various dysfunctions.</td>
</tr>
<tr>
<td>MUSC 304</td>
<td>Music Therapy Principles II</td>
<td>4</td>
<td>Continuation of MUSC 303. Exploration of professional skills needed by a music therapist in a variety of clinical settings. Includes in-depth examination of music therapy literature, various psychological theories and their relationships to music therapy. Laboratory experience is required.</td>
</tr>
<tr>
<td>MUSC 305</td>
<td>Keyboard Skills</td>
<td>2</td>
<td>Sight reading, harmonization, transposition, improvisation and score reading.</td>
</tr>
<tr>
<td>MUSC 317</td>
<td>Music Composition</td>
<td>2</td>
<td>Original writing and analysis of music, beginning with the smaller forms. May be repeated for credit.</td>
</tr>
<tr>
<td>MUSC 320</td>
<td>Elementary Music Education</td>
<td>2</td>
<td>A study of materials and teaching techniques in relation to the interests, characteristics, and needs of children in elementary and special education classrooms. Non-majors only.</td>
</tr>
<tr>
<td>MUSC 326</td>
<td>Conducting</td>
<td>2</td>
<td>Fundamentals of baton technique, score reading, and interpretation of instrumental and vocal music.</td>
</tr>
<tr>
<td>MUSC 327</td>
<td>Instrumental Conducting</td>
<td>2</td>
<td>A practical course in instrumental conducting: score preparation, baton technique, study of technical and musical problems in conducting traditional and contemporary works.</td>
</tr>
<tr>
<td>MUSC 328</td>
<td>Choral Conducting</td>
<td>2</td>
<td>A practical course in choral conducting; baton technique, score analysis, study of technical and musical problems in conducting traditional and contemporary works.</td>
</tr>
<tr>
<td>MUSC 331</td>
<td>Music Education in the Secondary School</td>
<td>3</td>
<td>Care and treatment of adolescent voices; classification and training of voices; song interpretation; organization and administration of all types of choral ensembles; theory, history and literature of music classes; evaluation of numerous materials suitable for choral organizations and other classes in the secondary school; psychology and philosophy of music education. Open to music education majors only.</td>
</tr>
<tr>
<td>MUSC 332</td>
<td>Instrumental Music in the Public Schools</td>
<td>3</td>
<td>Designed to prepare students to teach instrumental music; covers organization of beginning classes, special problems of string, selection of suitable materials, techniques of teaching, public relations and other areas of interest in the development of orchestras and bands. Special emphasis placed on music for grades four through nine. Open only to instrumental music education majors and minors. No students on academic probation.</td>
</tr>
<tr>
<td>MUSC 333</td>
<td>Orchestral Methods</td>
<td>3</td>
<td>Designed to assist students in their preparation as orchestra directors; special problems relevant to the string orchestra, string ensembles, and the string curriculum in the secondary schools. Open only to instrumental music majors. No students on academic probation.</td>
</tr>
</tbody>
</table>
MUSC 334 Band Methods
3 hrs
Designed to assist students in their preparation as band directors in secondary schools; charting and drills for marching band; rehearsal procedures and selection of suitable materials for the concert band. Open only to instrumental music education majors. No students on academic probation.
Prereq: MUSC 332 and junior standing.

MUSC 341 Counterpointal Techniques
2 hrs
Writing in polyphonic forms with concomitant analysis.
Prereq: MUSC 202.

MUSC 351 Collegium Musicum
1 hr
Various ensembles of soloists—instrumental, vocal and mixed. Opportunity to perform old and new music infrequently heard. Open to all qualified students.

MUSC 361 Music for Piano Instruction
2 hrs
Study of method books and materials suitable for use with beginning- and intermediate-level students.
Prereq: Subject to availability of instruction.

MUSC 377/378/379 Special Topics
1/2/3 hrs
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.
Prereq: Department permission.

MUSC 387 Cooperative Education in Music
3 hrs
A cooperative work experience in the field of music.
Prereq: Department permission.

MUSC 401 Music Theory-Literature V
2 hrs
Integration of previous studies in theory-literature and music history; continued study and analysis of music from all periods; original, creative composition with special emphasis on contemporary style.
Prereq: MUSC 202.

MUSC 402 Music Theory-Literature VI
2 hrs
Continuation of MUSC 401.
Prereq: MUSC 401.

MUSC 404 Psychology of Music I
2 hrs
Study of the functional uses, psychological attributes, aesthetic effects and psycho-acoustical properties of music. Introduction to statistical analysis and evaluation of research in the field; examination of the continued need for investigation and documentation.
Prereq: MUSC 304.

MUSC 405 Psychology of Music II
2 hrs
Continuation of MUSC 404. In-depth exploration of empirical research in the field, with opportunities to conduct individual investigation of select topics.
Prereq: MUSC 404.

MUSC 415 Orchestration
2 hrs
Practical work in setting compositions for full orchestra and various other instrumental ensembles.
Prereq: MUSC 302.

MUSC 416 Band Arranging
2 hrs
Arranging for band; transcription from other media; original composition; analysis of representative works.
Prereq: MUSC 413 and senior standing.

MUSC 424 Preclinical Training Practicum in Music Therapy III
1 hr
Fieldwork experience in clinical or educational setting under supervision of a registered music therapist. Taken concurrently with MUSC 404.
Prereq: Senior standing in music therapy program; MUSC 304.

MUSC 425 Preclinical Training Practicum in Music Therapy IV
1 hr
Fieldwork experience continued. Taken concurrently with MUSC 405.
Prereq: MUSC 424.

MUSC 448/449 Opera Workshop
1/2 hrs
A laboratory-performance course that deals with performance of opera scenes and, when feasible, complete works. Musical, technical and dramatic aspects of production.
Prereq: Department permission.

MUSC 475 Chamber Music Performance
2 hrs
Study and performance of literature for small chamber groups. May be repeated for credit.
Prereq: Department permission.

MUSC 477/478/479 Special Topics
1/2/3 hrs
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.
Prereq: Department permission.

MUSC 488 Clinical Training in Music Therapy
2 hrs
Six months of supervised training in a hospital, clinical or educational setting affiliated with the National Association for Music Therapy.
Prereq: MUSC 425, senior standing, completion of all other music therapy curriculum requirements, and successful completion of guitar, keyboard and voice competency examinations.

MUSC 490/492 Honors Course in Music
2/4 hrs
Provides superior students with the opportunity for an intensive program of independent study, original composition, performance or research.
Prereq: Senior standing, cumulative average of 3.5 in music, 3.2 in general studies. Regulations governing honors courses must be followed (see page 30).

Physics and Astronomy

Departmental Administration

Dan Trochet
Department Head
303 Strong Hall
734.487.4144
E-mail: dan.trochet@emich.edu

The Department of Physics and Astronomy offers majors in physics, physics research and engineering physics. Minors are offered in astronomy, general science and physics. The department also administers interdisciplinary offerings of applied science and general science. Transfer students who wish to major in physics, physics research or engineering physics must take a minimum of nine credit hours at the 300 level or above in this department. Transfer students who wish to minor in these areas must take a minimum of six credit hours of course work at the 300 level or above in this department.

Degrees Offered

Bachelor of Arts
Bachelor of Science

Programs of Study

Curriculum

- Applied science
- Group majors

- General science
- General science for secondary education

Majors

- Engineering physics
- Geophysics
- Physics research
- Physics
- Physics for secondary education

Minors

- Astronomy
- General science
Advising is assigned according to the indicated field of study.

Advising coordinators:
- Applied science curriculum: Dan Trochet
- Astronomy minor: David Reid, Jon Wooley
- Engineering physics: Alexandria Oakes, Wecian Shen
- Physics major: Diane Jacobs, David Reid, Marshall Thomas
- General science major/minor: Jon Wooley, Bonnie Wylo
- Geophysics: James Sheerin
- Physics research major: Nathi Sharma, James Sheerin

Graduate study leads to the master's degree in physics research, physics education or general science. These programs are described in the graduate catalog.

### Group Major/Minor in General Science

**ISIS major code:** PH01

This 56-hour major and minor combination encompasses five areas of study: biology, chemistry, earth science, mathematics and physics. Students must follow regular department requirements to complete a 20-hour cognate minor in one of the areas listed above and a 36-hour group major composed of courses from the other four areas.

With a biology minor, take the following courses:
- **#ASTR 205 Principles of Astronomy** (satisfies general education requirement II.3)...
- **#CHEM 121-CHEM 122 General Chemistry I with lab** (satisfies general education requirement II.1 or II.3)...
- **#GESC 108 Earth Science** (satisfies general education requirement II.1 or II.3)...
- **#GESC 324 Weather**...
- **MATH 107 Plane Trigonometry**...
- **#PHY 221 Mechanics, Sound, and Heat** (satisfies general education requirement II.3)...
- **#PHY 222 Electricity and Light**...

Approved elective courses in biology, chemistry, mathematics and physics...

With a mathematics minor, take the following courses:
- **#ASTR 205 Principles of Astronomy** (satisfies general education requirement II.3)...
- **#BIOL 105 Introductory Biology for Non-majors** (satisfies general education requirement II.2 or II.3)...
- **#BiOL 224 Principles of Conservation**...
- **#CHEM 121-CHEM 122 General Chemistry I with lab** (satisfies general education requirement II.1 or II.3)...
- **#GESC 108 Earth Science** (satisfies general education requirement II.1 or II.3)...
- **#GESC 324 Weather**...
- **#PHY 221 Mechanics, Sound, and Heat** (satisfies general education requirement II.3)...
- **#PHY 222 Electricity and Light**...

Approved elective courses in biology, chemistry, earth science and physics...

With a physics minor, take the following courses:
- **#ASTR 205 Principles of Astronomy** (satisfies general education requirement II.3)...
- **#BIOL 105 Introductory Biology for Non-majors** (satisfies general education requirement II.2 or II.3)...
- **#BiOL 224 Principles of Conservation**...
- **#CHEM 121-CHEM 122 General Chemistry I with lab** (satisfies general education requirement II.1 or II.3)...
- **#GESC 108 Earth Science** (satisfies general education requirement II.1 or II.3)...
- **#GESC 324 Weather**...
- **#MATH 120 Calculus I** (satisfies general education requirement II.4)...
- **#MATH 121 Calculus II** (satisfies general education requirement II.4)...

Approved elective courses in biology, chemistry, mathematics and mathematics...

Approved elective courses:
- ASTR 204 Astronomical Investigations
- BIOL 205 Field Biology
- BIOL 207 Elements of Ecology
- #BOTN 221 General Botany (satisfies general education requirement II.2 or II.3)
- #ZOOL 222 General Zoology (satisfies general education requirement II.2 or II.3)
- CHEM 123 General Chemistry II
- CHEM 124 General Chemistry III Laboratory
- CHEM 270 Survey of Organic Chemistry
- CHEM 271 Organic Chemistry Laboratory

---

### Approved courses

- **#MATH 106 College Algebra**
- **#MATH 107 Plane Trigonometry**
- **#PHY 221 Mechanics, Sound, and Heat** (satisfies general education requirement II.3)
- **#PHY 222 Electricity and Light**
- **Approved elective courses in biology, earth science, mathematics and physics**...
Physics Major
ISIS major code: PH03

This major is provided for students who desire a general cultural education with an emphasis on physics, who are preparing for work in another field such as premedicine or prelaw, or who are interested in combining physics with an allied field such as biology, chemistry, astronomy, geology, or with the field of business.

General studies ........................................... 57 hours
General education requirements ......................... 57 hours
Other required courses .................................. 14 hours

#MATH 120 Calculus I (satisfies general education requirement L4) (4)
#MATH 121 Calculus II (satisfies general education requirement L4) (4)
#MATH 122 Elementary Linear Algebra (satisfies general education requirement L4) (3)
#COSC 237 Computer Programming and Numeric Methods (satisfies general education requirement L5) (3)

Additional requirements ................................ 4 hours
MATH 223 Multivariable Calculus (4)
Physical education/graduation requirement .......... 2 hours

Major in physics ........................................... 32 hours

Required physics courses ............................... 20 hours

#PHY 223 Mechanics, Sound, and Heat (also satisfies general education requirement II.1 or II.3) ........... 5
PHY 224 Electricity and Light ............................ 5
PHY 300 Intermediate Mechanics ........................ 3
PHY 350 Electricity and Magnetism (II.4) ............. 3
PHY 370 Introduction to Modern Physics ............... 3
PHY 406 Ethical Issues in Physics ....................... 1

Restricted elective courses .............................. 3-12 hours
Three courses from the following:

PHY 332 Mechanics Laboratory (1)
PHY 372 Modern Physics Laboratory (1)
PHY 456 Vibration and Sound (1)
PHY 442 Optics Laboratory (1)
PHY 456 Electronics for Scientists (1)
PHY 458 Microcomputer and Digital Electronics (1)

Applied Science Major
ISIS major code: PH04

This program is designed for students who plan to enter occupations in which a substantial background in mathematics and science is required. It calls for concentrations of 16 to 18 hours in each of two departments (chemistry, mathematics or physics) and 36 hours in the third. To qualify for a bachelor of arts degree, the student must complete one year of college-level credit in a foreign language. In addition to meeting the general education requirements, all students on this curriculum must complete all other courses specified. No minor is required.

General studies ........................................... 42 hours
General education requirements ......................... 34 hours
Other requirements ....................................... 6 hours
CADM 122 Engineering Graphics I (3)
CADM 223 Engineering Graphics II (3)
Physical education/graduation requirement .......... 2 hours

Major in applied science ................................. 68 hours

Chemistry courses ........................................ 15 hours
#CHEM 121-CHEM 122 General Chemistry I with lab (satisfies general education requirement II.1 or II.3) ....... 4
CHEM 123 General Chemistry II ......................... 3
CHEM 124 General Chemistry Laboratory .......... 4
CHEM 241 Inorganic Chemistry ......................... 3
CHEM 281 Quantitative Analysis ....................... 4

Mathematics and computer science courses ........... 17 hours
#MATH 120 Calculus I (satisfies general education requirement L4) ........................................... 4
#MATH 121 Calculus II (satisfies general education requirement L4) ........................................... 4
#MATH 122 Elementary Linear Algebra (satisfies general education requirement L4) ....................... 2
#MATH 223 Multivariable Calculus ..................... 4
#COSC 237 Computer Programming and Numeric Methods (satisfies general education requirement L5) ..... 3

Physics courses ........................................... 18 hours
#PHY 223 Mechanics, Sound, and Heat (also satisfies general education requirement II.3) ............... 5
PHY 224 Electricity and Light ............................ 5
PHY 370 Introduction to Modern Physics ............... 3
PHY 442 Optics Laboratory (1) ......................... 1
PHY 456 Electronics for Scientists .................... 4

Engineering courses ..................................... 6 hours
CADM 122 Engineering Graphics I ..................... 3
CADM 223 Engineering Graphics II .................... 3
Restricted elective courses .......................... 18-20

18 to 20 hours from one of the following groups to complete the major:
chemistry, mathematics or physics.

Chemistry:
CHEM 371 Organic Chemistry I
CHEM 372 Organic Chemistry II
CHEM 373 Organic Chemistry Laboratory
and electives chosen in consultation with advising coordinator in
applied science

Mathematics:
MATH 325 Differential Equations
MATH 425 Mathematics for Scientists
and electives chosen in consultation with advising coordinator in
applied science

Physics:
PHY 330 Intermediate Mechanics I
PHY 452 Electrical Measurements
PHY 471 Nuclear Physics
One course from the following laboratory courses
PHY 332 Mechanics Laboratory
PHY 442 Optics Laboratory
and electives chosen at the 300 or 400 level, chosen in consultation with
the advising coordinator in applied science

Minor ........................................................................... 0 hours

No minor is required.

Elective courses ......................................................... 14 hours

Total ............................................................................ 124 hours

NOTE:
#These courses satisfy both general education requirements and requirements
of the major. In order to avoid taking excess hours, students are advised to take
these courses, or approved substitutes from another institution, as part of
the general education requirements.

Engineering Physics Major

ISIS major code: PH10301

Students following this program will earn a bachelor of science degree with a
major in physics and will have a strong background in engineering mechanics.
Graduates will be well qualified to fill engineering-oriented positions. No minor
is required.

General studies ......................................................... 65 hours

General education requirements ................................. 34 hours

Other required courses .............................................. 18 hours
#CHEM 121-CHEM 122 General Chemistry I and II (satisfies
general education requirement II.1) (4)
#COSC 237 Computer Programming and Numeric Methods
(satisfies general education requirement III.5) (3)
#MATH 120 Calculus I (satisfies general education requirement
1.4) (4)
#MATH 121 Calculus II (satisfies general education requirement
1.4) (4)
#MATH 122 Elementary Linear Algebra (satisfies general education
requirement 1.4) (3)

Additional requirements ............................................. 11 hours
CHEM 241 Materials Science (3)
CHEM 242 Materials Science Laboratory (1)
MATH 223 Multivariable Calculus (4)
MATH 325 Differential Equations (3)

Physical education/graduation requirements .................. 2 hours

Major in physics, concentration in physics-engineering .......... 48 hours

Required physics courses .......................................... 29
#PHY 223 Mechanics, Sound, and Heat (also satisfies general
education requirement II.3) ...................................... 5
PHY 224 Electricity and Light .................................. 5

PHYS 360 Heat and Thermodynamics .......................... 3
PHY 379 Introduction to Modern Physics .................. 3
PHY 372 Modern Physics Laboratory ..................... 1
PHY 440 Optics .................................................. 3
PHY 442 Optics Laboratory ................................... 1
PHY 456 Electronics for Scientists ......................... 4
PHY 458 Microcomputer and Digital Electronics ........ 4

Physics elective courses ............................................. 6
Six hours from the following:
PHY 332 Mechanics Laboratory
PHY 406 Ethical Issues in Physics
PHY 431 Intermediate Mechanics II
PHY 436 Vibration and Sound
PHY 471 Nuclear Physics
PHY 497/498 Independent Study—Physics (with prior
department approval)

Required engineering mechanics courses ...................... 14
PHY 229 Strength and Elasticity of Materials ............ 4
PHY 250 Engineering Dynamics ............................... 4
PHY 429 Engineering Physics Design .................... 3
PHY 485 Fluid Dynamics .......................................... 3

Required chemistry courses ....................................... 8
#CHEM 121-CHEM 122 General Chemistry I and II (satisfies
general education requirement II.1 or II.3) ............. 4
CHEM 241 Materials Science .................................. 3
CHEM 242 Materials Science Laboratory ................. 1

Required mathematics courses ................................ 21
#MATH 120 Calculus I (satisfies general education requirement
1.4) ....................................................................... 4
#MATH 121 Calculus II (satisfies general education requirement
1.4) ..................................................................... 4
#MATH 122 Elementary Linear Algebra (satisfies general
education requirement 1.4) ................................ 3
MATH 223 Multivariable Calculus ......................... 4
#COSC 237 Computer Programming and Numeric Methods
(satisfies general education requirement I.5) ........... 3
MATH 325 Differential Equations .......................... 3

Minor .......................................................................... 0 hours

No minor is required.

Elective course .......................................................... 11 hours

Total ............................................................................ 124 hours

NOTE:
*Students desiring a mathematics minor must take MATH 211 Introduction to
Mathematical Proof or MATH 360 Statistical Methods or MATH 370 Probability
and Statistics I (3-4) to complete the minor.
#These courses satisfy both general education requirements and requirements
of the major. In order to avoid taking excess hours, students are advised to take
these courses, or approved substitutes from another institution, as part of
the general education requirements.

Geophysics Major

ISIS major code: PH05

The geophysics major involves concentrations in physics, geology and
mathematics. This major is designed to bring together the traditional sciences of
physics and geology into a program that will prepare students for employment in the
modern-day geoscience area. This major also will prepare the student for graduate
work in either geophysics, geology or physics. No minor is required.

General studies ......................................................... 59 hours

General education requirements ......................... 28 hours

Other Requirements ................................................. 18 hours
#CHEM 121-CHEM 122 General Chemistry I and II (satisfies
general education requirement II.1 or II.3) (4)
#COSC 237 Computer Programming and Numeric Methods (satisfies general education requirement 1.5) (3)
#MATH 120 Calculus I (satisfies general education requirement 1.4) (4)
#MATH 121 Calculus II (satisfies general education requirement 1.4) (4)
#MATH 122 Elementary Linear Algebra (satisfies general education requirement 1.4) (3)

Physical education/graduation requirement ........................................... 2 hours

Geophysics major ......................................................................................... 90-92 hours

Minor ............................................................................................................ 0 hours
No minor is required.

Total ............................................................................................................ 126 hours

NOTE:

These courses satisfy both general education requirements and requirements of the major. In order to avoid taking excess hours, students are advised to take these courses, or approved substitutes from another institution, as part of the general education requirements.

Physics Research Major

ISIS major code: PH06

The physics research major provides the necessary background for those planning to become professional physicists. The requirements listed below ensure adequate depth and breadth of subject matter in both theoretical and experimental physics and in mathematics. Students successfully completing this major are prepared to enter technical positions in government or industrial research, or to undertake graduate study in physics. Further work at the graduate level is highly recommended. No minor is required.

General elective courses in physics and astronomy ................................ 0-9

No physics or astronomy courses numbered less than 300 are to be used as electives on this major. PHY 323 is not to be used as an elective on this major.

Minor ............................................................................................................ 0 hours
No minor is required.

Total ............................................................................................................ 124 hours
Students desiring a mathematics minor must take MATH 211 Introduction to Mathematical Proof or MATH 360 Statistical Methods or MATH 370 Probability and Statistics 1 (3-4) to complete the minor.

These courses satisfy both general education requirements and requirements of the major. In order to avoid taking excess hours, students are advised to take these courses, or approved substitutes from another institution, as part of the general education requirements.

### General Science Major

**Secondary Teacher Certification**

**ISIS major code:** PH31

Successful completion of this course of studies, in the context of other program requirements, qualifies the student for recommendation for certification for the Michigan Department of Education Secondary Provisional Certificate endorsed in general science, certification code "DX." This program of studies meets all requirements of the National Science Teachers Association. The certification test covering this field is #16, "Science."

#### Teaching major/minor

Choose a cognate minor in one of the following five science areas: 20-21

- Biology (20)
- Chemistry (20)
- Earth Science (21)
- Mathematics (20)
- Physics (20)

Select courses for your minor in consultation with an advisor in the appropriate department.

With a biology minor, take the following for the group major:

- #ASTR 205 Principles of Astronomy (satisfies general education requirement II.3) 4
- #CHEM 121-CHEM 122 General Chemistry I with lab (satisfies general education requirement II.1 or II.3) 4
- GESC 108 Earth Science (satisfies general education requirement II.1 or II.3) 4
- GESC 324 Weather 3
- MATH 105 College Algebra 3
- MATH 107 Plane Trigonometry 2
- #PHY 221 Mechanics, Sound, and Heat (satisfies general education requirement II.3) 4
- PHY 222 Electricity and Light 4

Approved electives in biology, earth science mathematics, and physics 4

With a chemistry minor, take the following for the group major:

- #ASTR 205 Principles of Astronomy (satisfies general education requirement II.3) 4
- #CHEM 121-CHEM 122 General Chemistry I with lab (satisfies general education requirement II.1 or II.3) 4
- MATH 105 College Algebra 3
- MATH 107 Plane Trigonometry 2
- #PHY 221 Mechanics, Sound, and Heat (satisfies general education requirement II.3) 4
- PHY 222 Electricity and Light 4

Approved electives in biology, earth science mathematics, and physics 4

With a mathematics minor, take the following for the group major:

- #ASTR 205 Principles of Astronomy (satisfies general education requirement II.3) 4
- #BIOL 105 Introductory Biology for Non-majors (satisfies general education requirement II.2 or II.3) 4
- BIOL 224 Principles of Conservation 4
- #CHEM 121-CHEM 122 General Chemistry I with lab (satisfies general education requirement II.1 or II.3) 4
- GESC 108 Earth Science (satisfies general education requirement II.1 or II.3) 4
- GESC 324 Weather 3
- PHY 221 Mechanics, Sound, and Heat (satisfies general education requirement II.3) 4
- PHY 222 Electricity and Light 4

Approved electives in biology, chemistry, earth science and physics 4

With a physics minor, take the following for the group major:

- #ASTR 205 Principles of Astronomy (satisfies general education requirement II.3) 4
- #BIOL 105 Introductory Biology for Non-majors (satisfies general education requirement II.2 or II.3) 4
- BIOL 224 Principles of Conservation 4
- #CHEM 121-CHEM 122 General Chemistry I with lab (satisfies general education requirement II.1 or II.3) 4
- GESC 108 Earth Science (satisfies general education requirement II.1 or II.3) 4
- GESC 324 Weather 3
- MATH 120 Calculus I (satisfies general education requirement I.A) 4
- MATH 221 Calculus II (satisfies general education requirement I.A) 4

Approved electives in biology, chemistry, mathematics and physics 5

Teaching Minor methods course (3)

With a biology minor, take BIOL 403 Methods and Materials for Teaching Biology

With a chemistry minor, take PHY 225 Methods of Teaching the Physical Sciences
With an earth science minor, take GESC 347 Teaching Earth Science and Physical Geography
With a mathematics minor, take MATH 306 Teaching of High School Mathematics
With a physics minor, take PHY 325 Methods of Teaching the Physical Sciences

Phase III: Capstone Experience ................................................ 12

Total ........................................................................ 131-135

NOTE:
* italicized courses are corequisites.
These courses satisfy both general education requirements and requirements of the major. In order to avoid taking excess hours, students are advised to take these courses, or approved substitutes from another institution, as part of the general education requirements.

Physics Major
Secondary Teacher Certification

ISIS major code: PH33

Successful completion of this course of studies, in the context of other program requirements, qualifies the student for recommendation for certification for the Michigan Department of Education Secondary Provisional Certificate endorsed in physics, certification code "DE," and, depending on the minor selected, an additional endorsement. This program of studies meets all requirements of the National Science Teachers Association. The certification test covering this field is #19, "Physics."

General studies .......................................................... 59 hours

General education requirements ........................................ 31 hours
Other requirements ....................................................... 26 hours
#MATH 120 Calculus I (satisfies general education requirement 14) (4)
#MATH 121 Calculus II (satisfies general education requirement 14) (4)
#MATH 122 Elementary Linear Algebra (satisfies general education requirement 14) (3)
MATH 223 Multivariable Calculus (4)
#COSC 237 Computer Programming and Numeric Methods (satisfies general education requirement 1.5) (3)

One course from the following (4)

#CHEM 115-1CHEM 116 Chemistry and Society with lab (satisfies general education requirement II.1 or II.3)
#CHEM 117-CHEM 118 Fundamentals of Chemistry with lab (satisfies general education requirement II.1 or II.3)
#CHEM 120 Fundamentals of Organic and Biochemistry (satisfies general education requirement II.1 or II.3)
#CHEM 121-CHEM 122 General Chemistry I with lab (satisfies general education requirement II.1 or II.3)

One course from the following:

#Biol 105 Introductory Biology for Non-majors (satisfies general education requirement II.2 or II.3) (4)
#BOTN 221 General Botany (satisfies general education requirement II.2 or II.3) (4)
#ZOOL 222 General Zoology (satisfies general education requirement II.2 or II.3) (4)

Physical education/graduation requirement ....................... 2 hours

Teaching major ......................................................... 40

Required courses ......................................................... 25

ASTR 204 Astronomical Investigations ............................... 1
#ASTR 205 Principles of Astronomy (satisfies general education requirement II.3) .......... 4
#PHY 223 Mechanics, Sound, and Heat (also satisfies general education requirement II.3) .... 5
PHY 224 Electricity and Light ........................................... 5

Additional requirements

A four-hour geology course............................................ 4
An additional four hours in the areas of biology, chemistry or geology ............................. 4

*Teaching Minor .......................................................... 20 hours

Select a minor from the approved list of minors for secondary, K-12, and special education-secondary programs (mathematics highly recommended).

Professional studies ..................................................... 39 hours

Pre-admission phase: The Learner and the Community ........... 8
EDPS 322 Human Development and Learning (4)
FETE 202 Field Experience I (1)
SPQR 251 Education of Exceptional Children (3)

Courses that require formal admission to the teacher education program.

EDMT 330 Instructional Applications of Media and Technology (2)
PHY 325 Methods of Teaching the Physical Sciences (3)

Phase III: Capstone Experience ...................................... 12
EDUC 492 Student Teaching (12)

Total ........................................................................ 147##

NOTE:
* Students desiring a mathematics minor must take the following to complete the minor:

MATH 306 Teaching of High School Mathematics (3)
One course from the following:
MATH 360 Statistical Methods (3)
MATH 370 Probability and Statistics I (4)

One course from the following:
MATH 211 Introduction to Mathematical Proof (3)
MATH 360 Statistical Methods (3)
MATH 370 Probability and Statistics I (4)

# Advising note: These courses satisfy both general education requirements and requirements of the major. In order to avoid taking excess hours, students are advised to take these courses, or approved substitutes from another institution, as part of the general education requirements.
## Could be fewer, depending on the minor and the possible application of general education courses to the minor.

Astronomy Group Minor

ISIS minor code: PH81

This minor is designed to give the student a basic knowledge of astronomy and related fields. It is recommended that students wishing to undertake graduate
work in astronomy complete the research major in physics with a minor in either mathematics or astronomy. Electives used to fulfill the astronomy minor cannot be used to complete any other major or minor.

Required courses

<table>
<thead>
<tr>
<th>Course</th>

<td>3</td>
</tr>
</tbody>
</table>

Total: 11 hours

Restricted elective courses

Choose 13 credits from approved courses in physics, astronomy, mathematics or chemistry in consultation with the advising coordinator for astronomy.

Total: 24 hours

NOTE:

This course satisfies both general education requirements and requirements of the minor. In order to avoid taking excess hours, students are advised to take this course, or an approved substitute from another institution, as part of the general education requirements.

Group Minor in General Science

ISIS minor code: PH02

A group minor in general science must be combined with an academic major in biology, chemistry, earth science, mathematics or physics.

With a major in biology, take the following courses:

<table>
<thead>
<tr>
<th>Course</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>#ASTR 205 Principles of Astronomy (satisfies general education requirement II.3)</td>
<td>4</td>
</tr>
<tr>
<td>#CHEM 121-CHEM 122 General Chemistry I with lab (satisfies general education requirement II.1 or II.3)</td>
<td>4</td>
</tr>
<tr>
<td>GESC 108 Earth Science (satisfies general education requirement II.1 or II.3)</td>
<td>4</td>
</tr>
<tr>
<td>MATH 105 College Algebra</td>
<td>4</td>
</tr>
<tr>
<td>MATH 107 Plane Trigonometry</td>
<td>3</td>
</tr>
<tr>
<td>#PHY 221 Mechanics, Sound, and Heat (satisfies general education requirement II.3)</td>
<td>4</td>
</tr>
</tbody>
</table>

Three hours from:

<table>
<thead>
<tr>
<th>Course</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>CHEM 123 General Chemistry II (3)</td>
<td></td>
</tr>
<tr>
<td>CHEM 124 General Chemistry II Laboratory (1)</td>
<td></td>
</tr>
<tr>
<td>GESC 324 Weather (3)</td>
<td></td>
</tr>
<tr>
<td>#COSC 137 Introduction to FORTRAN Programming (satisfies general education requirement II.1 or II.3) (3)</td>
<td>3</td>
</tr>
<tr>
<td>PHY 222 Electricity and Light (4)</td>
<td></td>
</tr>
</tbody>
</table>

Others as approved by general science adviser

With a major in chemistry, take the following courses:

<table>
<thead>
<tr>
<th>Course</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>#ASTR 205 Principles of Astronomy (satisfies general education requirement II.3)</td>
<td>4</td>
</tr>
<tr>
<td>#BIOL 105 Introductory Biology for Non-majors (satisfies general education requirement II.2 or II.3)</td>
<td>4</td>
</tr>
<tr>
<td>#GESC 108 Earth Science (satisfies general education requirement II.1 or II.3)</td>
<td>4</td>
</tr>
<tr>
<td>MATH 105 College Algebra</td>
<td>4</td>
</tr>
<tr>
<td>MATH 107 Plane Trigonometry</td>
<td>3</td>
</tr>
<tr>
<td>#PHY 221 Mechanics, Sound, and Heat (satisfies general education requirement II.3)</td>
<td>4</td>
</tr>
</tbody>
</table>

Three hours from:

<table>
<thead>
<tr>

PHYS 422 Electricity and Light (4)
Others as approved by general science adviser

With a major in earth science, a structured general science minor is included in the program.

With a major in mathematics, take the following courses:
#ASTR 205 Principles of Astronomy (satisfies general education requirement II.3) .................................................. 4
#BIOI 105 Introductory Biology for Non-majors (satisfies general education requirement II.2 or II.3) .................................................. 4
#CHEM 121-CHEM 122 General Chemistry I with lab (satisfies general education requirement II.1 or II.3) .................................................. 4
#GESC 108 Earth Science (satisfies general education requirement II.1 or II.3) .................................................. 4
#PHY 221 Mechanics, Sound, and Heat (satisfies general education requirement II.3) .................................................. 4

Four hours from:
#BIOI 224 Principles of Conservation (4)
#CHEM 121-CHEM 122 General Chemistry I with lab (satisfies general education requirement II.1 or II.3) 4
GESC 324 Weather (3)
PHY 222 Electricity and Light (4)
Others as approved by general science adviser

With a major in physics, take the following courses:
#ASTR 205 Principles of Astronomy (satisfies general education requirement II.3) .................................................. 4
#BIOI 105 Introductory Biology for Non-majors (satisfies general education requirement II.2 or II.3) .................................................. 4
#CHEM 121-CHEM 122 General Chemistry I with lab (satisfies general education requirement II.1 or II.3) .................................................. 4
#GESC 108 Earth Science (satisfies general education requirement II.1 or II.3) .................................................. 4
#MATH 120 Calculus I (satisfies general education requirement II.3) .................................................. 4

Four hours from:
#BIOI 224 Principles of Conservation (4)
#CHEM 121-CHEM 122 General Chemistry I with lab (satisfies general education requirement II.1 or II.3) 4
GESC 324 Weather (3)
#COSC 137 Introduction to FORTRAN Programming (satisfies general education requirement II.3) (3) 3

Others as approved by general science adviser

Total .................................................................................................. 24 hours

NOTE:
These courses satisfy both general education requirements and requirements of the minor. In order to avoid taking excess hours, students are advised to take these courses, or approved substitutes from another institution, as part of the general education requirements.

Physics Minor
Secondary, K-12, and Special Education-Secondary Teacher Certification

ISIS minor code: PH36

Successful completion of this minor, in the context of other program requirements, qualifies the student for recommendation for endorsement in physics, certification code "DE." The certification test covering this field is #19, "Physics."

#MATH 120 Calculus I (satisfies general education requirement II.3) .................................................. 4
#MATH 121 Calculus II (satisfies general education requirement II.4) .................................................. 4
(Math requirement to meet physics prerequisites)
#PHY 223 Mechanics, Sound, and Heat (satisfies general education requirement II.1 or II.3) .................................................. 5
Astronomy Courses

ASTR 177/178/179 Special Topics 1/2/3 hrs
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.
Prereq: Department permission.

ASTR 202 Exploration of the Universe 3 hrs
An introductory astronomy course for students of any curriculum. The solar system, stars, galaxies, cosmology and the history of astronomy. Observations with telescopes are scheduled a few evenings each semester. ASTR 204 may be taken concurrently with this course. Cannot be applied toward a physics major or minor.

ASTR 204 Astronomical Investigations 1 hr
A laboratory course for the beginning astronomy student. The techniques and concepts of astronomy. Two hours of laboratory per week.
Prereq or coreq: ASTR 203 or ASTR 205.

ASTR 205 Principles of Astronomy 4 hrs
An astronomy course for students desiring a comprehensive introduction to astronomy. Topics discussed in ASTR 204 are covered in more detail, and additional topics are introduced. Especially recommended for science students. ASTR 204 may be taken concurrently. Not open to students with credit in ASTR 203.

ASTR 277/278/279 Special Topics 1/2/3 hrs
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.
Prereq: Department permission.

ASTR 297/298/299 Independent Study-Astronomy 1/2/3 hrs
An intensive study of a problem or group of problems under the direction of a department faculty member.
Prereq: Approval of the faculty member and department permission.

ASTR 315 Astronomical Astronomy 3 hrs
The practical aspects of astronomy emphasizing advanced amateur observational practices such as identification of astronomical objects using charts and references, telescopes, imaging and darkroom techniques, and computer applications.
Prereq: ASTR 203 or ASTR 205.

ASTR 370 Astrophysical Concepts 3 hrs
The emphasis is on the theoretical understanding and analytical treatment of topics in astrophysics. These topics include celestial mechanics, astrophysics, planetary atmospheres, stellar structure, stellar evolution, galaxies and cosmology.
Prereq: ASTR 224 or ASTR 222 and MATH 112.

ASTR 377/378/379 Special Topics 1/2/3 hrs
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.
Prereq: Department permission.

ASTR 477/478/479 Special Topics 1/2/3 hrs
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.
Prereq: Department permission.

ASTR 497/498/499 Independent Study-Astronomy 1/2/3 hrs
An intensive study of a problem or group of problems under the direction of a department faculty member.
Prereq: Approval of the faculty member and department permission.

Physics Courses

PHYS 100 Science for Elementary Teachers 3 hrs
Designed to stimulate interest in science by the use of simple and inexpensive equipment to demonstrate scientific principles. Sound, light, heat, electricity and magnetism. Does not count toward a physics major or minor. Open only to students pursuing any curriculum for elementary teachers.

PHYS 101 Physical Science in the Arts 4 hrs
This course is designed to give students a general background in the basic principles of physics, as applied to art, music and dance, with an emphasis on exploring the nature of music and its production. Laboratory experiments complement the lecture by providing hands-on experiences to verify and demonstrate these principles. Three lecture hours and one two-hour laboratory per week. Does not count toward a physics major or minor.

PHYS 110 Physical Science 4 hrs
Designed for the non-science major with little or no background in science or mathematics. Provides a more perceptive view of physical reality by introducing central ideas, principles and relationships of physical science that relate to one's everyday environment. Students in science, medicine or engineering should take physics courses PHYS 221 and PHYS 222, or PHYS 223 and PHYS 224. Does not count toward a physics major or minor.

PHYS 177/178/179 Special Topics 1/2/3 hrs
This special topics course will be used to teach aspects of physics at an elementary level that would not be regularly offered. A new course may be taught on an experimental basis with this offering.
Prereq: See department for prerequisites.

PHYS 221 Mechanics, Sound, and Heat 4 hrs
A basic course in college physics for liberal arts students who desire an introduction to physics and for preprofessional students who do not require a rigorous knowledge of problem solving. All physics majors and pre-engineers must elect PHYS 223. The laws of mechanics, sound and heat with more emphasis on applications and less on problems. Laboratory; two consecutive hours, one day per week.
Prereq: (MATH 103 or MATH 119) and MATH 107, with a "C" or better in each course; or MATH 112; or MATH 120.

PHYS 222 Electricity and Light 4 hrs
A continuation of PHYS 221. Static and current electricity, magnetism and light. Laboratory; two consecutive hours, one day per week.
Prereq: PHYS 221.

PHYS 223 Mechanics, Sound, and Heat 5 hrs
A basic course in college physics for students majoring in physical science and those on a pre-engineering curriculum. Laws of mechanics, sound and heat to-
together with their application. Laboratory: two consecutive hours, one day per week.
Prereq: MATH 120.

PHYS 224 Electricity and Light 5 hrs
A continuation of PHYS 223. Static and current electricity, magnetism and light. Laboratory: two consecutive hours, one day per week.
Prereq: PHYS 223; MATH 121.

PHYS 229 Strength and Elasticity of Materials 4 hrs
Fundamental principles of mechanics applied to solids. Equilibrium, elasticity, stress and strain, generalized Hook's Law, tension, torsion, shear, bending, deflection of beams, theory of columns, and strain energy. Four lecture-recitation periods per week. Laboratory required.
Prereq: PHYS 223; MATH 120.

PHYS 230 Engineering Dynamics 4 hrs
Vector representation of physical quantities. Statics of rigid bodies. Friction, kinematics of particles and rigid bodies. Dynamics of particles and rigid bodies. Work and energy. Four lecture-recitation periods per week.
Prereq: PHYS 223; MATH 121; MATH 122.

PHYS 277/278/279 Special Topics 1/2/3 hrs
This special topics course will be used to teach aspects of physics at an intermediate level that would not be regularly offered. A new course may be taught on an experimental basis with this offering.
Prereq: See department for prerequisites.

PHYS 297/298/299 Independent Study 1/2/3 hrs
An intensive study of a problem or group of problems under the direction of a department faculty member.
Prereq: Approval by the faculty member and department permission.

PHYS 311 Elementary Physical Science 3 hrs
Designed particularly for teachers in elementary science. An elementary study of motion, forces, energy, matter, heat, sound, light, magnetism and electricity. Focus is on simple experimental projects, followed by class discussions. Most of the apparatus will be made from materials available in the home or at a variety store. Does not count toward a physics major or minor.
Prereq: PHYS 100.

PHYS 325 Methods of Teaching the Physical Sciences 3 hrs
A study of strategies and procedures used in secondary school teaching. Students will be provided with the opportunity to familiarize themselves with the newer science curricula, visit secondary school classrooms, present classroom demonstrations and conduct laboratory work, learn to use modern teaching aids, especially the computer, in classroom teaching, and develop means of evaluating cognitive and affective learning. Two recitation and two laboratory hours per week. Open to prospective teachers following the junior-senior high school curriculum who are majoring or minoring in general science or a physical science. Not open to students on academic probation. Does not count toward physics major or minor.
Prereq: Curr 305 and junior standing or department permission.

PHYS 330 Intermediate Mechanics I 3 hrs
The statics and dynamics of a particle, projectiles with air resistance, central forces, dynamics of a system of particles, vibrational motion and pendulums.
Prereq: PHYS 224; MATH 121; MATH 122.

PHYS 332 Mechanics Laboratory 1 hr
A laboratory course providing experimental studies in intermediate mechanics. Three hours of laboratory per week.
Prereq: PHYS 330; may be taken concurrently.

PHYS 350 Electricity and Magnetism I 3 hrs
An introductory course dealing mainly with electrostatics and magnetostatics. The following topics will be covered: vector calculus, Coulomb's law, Gauss's and Ampere's law, electric and magnetic fields; potentials and potential energies; solution of Laplace's equation for rectangular, cylindrical, and spherical geometries in the presence of conductors, dielectrics, and magnetic materials; electric and magnetic susceptibilities; resistance; capacitance; inductance; electromagnetic force; and electromagnetic induction.
Prereq: PHYS 224; MATH 225.

PHYS 360 Heat and Thermodynamics 3 hrs
An intermediate course in the fundamentals of heat and thermodynamics. Thermal expansion, specific heat, change of state, heat transfer, elementary kinetic theory, thermodynamic laws, entropy, and other thermodynamic functions.
Prereq: PHYS 222 or PHYS 224; MATH 223.

PHYS 370 Introduction to Modern Physics 3 hrs
An introduction to modern physics and relativity. The qualitative interpretation, according to the modern quantum theory, of experimental results in atomic and nuclear physics.
Prereq: MATH 121; PHYS 222 or PHYS 224.

PHYS 372 Modern Physics Laboratory 1 hr
A laboratory course providing experimental studies in such areas as late classical, relativistic, quantum, and nuclear physics. Three hours of laboratory per week.
Prereq: PHYS 370; may be taken concurrently.

PHYS 377/378/379 Special Topics 1/2/3 hrs
This special topics course will be used to teach some aspects of physics at an advanced level that would not be regularly offered. A new course may be taught on an experimental basis with this offering.
Prereq: See department for prerequisites.

PHYS 387 Cooperative Education in Physics 3 hrs
Four to six months of full-time employment at an industrial firm specially chosen for imparting a practical educational experience in physics. The program consists of two work experiences (PHYS 387 and PHYS 487) alternating with full-time attendance at the University. Offered to a physics major or minor subject to department permission. Offered on a graded credit/no credit basis.
Prereq: Junior standing. Admisision by application only.

PHYS 390/391 Physics Project 2 hrs each
A suitable project in physics is to be done on an individual basis. Arrangements must be made with a physics faculty member before the beginning of the semester.
Prereq: Department permission.

PHYS 397/398/399 Independent Study 1/2/3 hrs
An intensive study of a problem or group of problems under the direction of a department faculty member.
Prereq: Approval by the faculty member and department permission.

PHYS 406 Ethical Issues in Physics 1 hr
Ethical issues that a career physicist may encounter are studied and discussed. Historical accounts and essays are used to illustrate potential ethical conflicts associated with interactions within the scientific community as well as interactions between the scientific community and society at large.
Prereq: PHYS 224.

PHYS 417 Undergraduate Research Laboratory 2 hrs
Laboratory work of a research nature done under the direction of a staff member working on a research problem. One problem will extend through the semester, with a comprehensive report required. Six hours are to be spent in the laboratory each week. Arrangements must be made with the department before the beginning of the semester. Open to seniors nearing completion of a physics major.
Prereq: Department permission.

PHYS 420 Engineering Physics Design 2 hrs
This course seeks to integrate knowledge of wide-ranging topics in engineering physics in order to solve design problems. Major emphasis is placed on a group-
oriented term project which must successfully be completed from concept through
analysis to layout and report.

PHY 431 Intermediate Mechanics II 3 hrs
A continuation of PHY 330. Mechanics of a rigid body, generalized coordinates,
the Lagrangian and Hamiltonian functions, relative motion.
Prereq: PHY 330, MATH 223.

PHY 436 Vibration and Sound 4 hrs
Detailed studies of vibration and wave motion with specific emphasis on acoust.
ic waves in air and other media. Reflection, refraction and interference of sound;
vibrating strings and air columns; electroacoustic transducers; architectural acoust.
icies. Laboratory required. Laboratory meets once per week for three hours.
Prereq: PHY 222 or PHY 224; MATH 223.

PHY 438 Optics 3 hrs
An intermediate course dealing with fundamentals of geometrical and physical
optics. Refraction, refraction, lenses and optical instruments, spectra and
spectra, interference, diffraction and polarization.
Prereq: PHY 222 or PHY 224; MATH 223.

PHY 440 Optics Laboratory 1 hr
A laboratory course providing experimental studies in geometrical, physical and
quantum optics. Three hours of laboratory per week.
Prereq: PHY 440; may be taken concurrently.

PHY 450 Electricity and Magnetism II 3 hrs
A brief review of electrostatics and magnetostatics. The following topics will be
covered: Faraday's Law, displacement current, Maxwell's equations, Faraday
vector, plane wave solutions, optical wave propagation in dielectrics and
conductors, dispersion in dielectrics, guided waves, radioastronomy, Lienard-Wiechert potentials, and radiation theory.
Prereq: PHY 350, MATH 325.

PHY 451 Kinetic Theory and Statistical Mechanics 3 hrs
An introduction to the kinetic theory of gases and statistical mechanics. For
students concentrating in physics and those contemplating advanced study in
related fields of science and engineering. Optional: Boltzmann distribution law,
entropy and probability, transport phenomena, quantum statistics, Bose-Einstein
Fermi-Dirac statistics, and statistical mechanics in nuclear physics.
Prereq: PHY 224; MATH 223.

PHY 471 Nuclear Physics 3 hrs
Topics include basic nuclear structure, nuclear decay and radioactivity, nuclear
reactions and particle physics.
Prereq: PHY 370, MATH 121.

PHY 476 Vibration and Sound 4 hrs
The fundamental ideas of the quantum theory; the dual nature of matter, wave
equations and wave packets, observable and linear operators, the application of
the Schrödinger and Heisenberg equations to elementary systems, Pauli's theory
of electron spin.
Prereq: PHY 370; MATH 223.

PHY 477/478/479 Special Topics 1/2/3 hrs
This special topics course will be used to teach aspects of physics at an ad
vanced level that would not regularly be offered.
Prereq: See department for prerequisites.

PHY 481 Mathematical Physics 3 hrs
Advanced mathematical topics for the physics student, with applications drawn
from the field of physics. Vectors, matrices, tensors, partial differential equa
trons, contour integration, calculus of variations, integral equations and trans
forms, eigenvalue functions, perturbation and group theory, special functions.
Prereq: MATH 315; PHY 330.

PHY 485 Fluid Dynamics 3 hrs
An introduction to the statics and dynamics of real and ideal fluids: properties
of fluids, mathematical models, dimensional analysis, boundary layer flow, flow
in pipes, compressible, incompressible, laminar and turbulent flow.
Prereq: PHY 320 or PHY 330; PHY 360.

PHY 487 Cooperative Education in Physics 3 hrs
Four to six months of full-time employment at an industrial firm specially chosen
for imparting a practical educational experience in physics. The program consists of two work experiences (PHY 387 and PHY 487) alternating with full
attendance at the University. Use toward a physics major or minor subject
department permission. Offered on a graded credit/no credit basis.
Prereq: PHY 387. Admission by application only.

PHY 490/491 Special Problems (Honors Courses) 2 hrs each
An original experimental or theoretical problem in some area of physics investi
igated on an individual basis. Arrangements must be made with a staff member
before the beginning of the semester.
Prereq: 20 hours of physics, a "B" average in physics, and department
permission.

PHY 493-494-495 Independent Study—Physics 1/2/3 hrs
An extensive study of a problem or group of problems under the direction of a
department faculty member.
Prereq: Approval by the faculty member and department permission.
Political Science

www.emich.edu/public/polisci/polsci.htm

Departmental Administration
Rhonda S. Kinney
Interim Department Head
601 Pray-Harrold
734.487.3113
E-mail: rhonda.kinney@emich.edu

Political science studies every aspect of public life, encouraging a high level of civic literacy and political participation. It explores political thinking, values, systems of government, and the socio-economic environments in which they function. Legislative, executive and judicial structures of government are emphasized, along with the roles of parties and interest groups, voting behavior, public opinion and political socialization. The discipline also considers such matters as public law, public policy and public administration.

Political science draws upon a variety of methodological approaches to focus on public life, including both the qualitative social sciences and quantitative analytic techniques. Computer-assisted learning is encouraged.

Students who select major programs within the Department of Political Science are successful in a broad range of careers such as: elective public office, legal studies, state and local government service, public opinion research, primary and secondary school teaching, journalism and business. Many pursue post-baccalaureate education and their master's and doctoral levels in professional schools. As an inherently interdisciplinary liberal arts discipline, political science coordinates prelaw studies for the University and also participates in several international programs of study.

**Degrees Offered**
- Bachelor of Arts
- Bachelor of Science

**Programs of Study**

**Majors**
- Political science
- Political science for secondary education
- Public administration
- Public law and government
- Public safety administration

**Minors**
- Political science
- Political science for secondary, K-12, and special education-secondary
- Public administration
- Public law and government

**Preprofessional Program**
- Prelaw

Advising is coordinated by the Department of Political Science. Faculty advisers are available during posted office hours or by appointment. Students enrolled in any of the majors offered by the department are expected to consult an assigned department faculty adviser when they declare the major and prior to each registration for classes.

**Advising Coordinators**
- Political science: Rhonda S. Kinney, Robert Grady
- Public administration: Joseph F. Often
- Public law and government: David W. Hortin, Barry Pyle
- Prelaw: David W. Hortin, Barry Pyle

Graduate study in the Department of Political Science consists of a master of public administration degree. A political science concentration is also possible under the interdisciplinary master of arts in social science that is administered by the History and Philosophy Department. The M.P.A. and the M.A. programs are described in the graduate catalog.

**Political Science Major**

**ISIS major code: PL01**

To fulfill the requirements for a major in political science, students must (1) complete at least 30 hours in the major as specified below, (2) complete at EMU at least four courses in the major numbered 300 or above, and (3) attain at least a "C" average in the major. Students are further expected to take PLSC 112/PLSC 113, one of their general education courses, prior to the required core courses and to complete PLSC 112/PLSC 113 and the required core courses within the first 18 hours of political science course work. A maximum of three credit hours of independent study or internship/cooperative education courses may be applied to the 30 credit hours required for the major. Finally, neither the independent study nor the internship/cooperative education course nor PLSC 470 meets the group distribution requirements specified below under areas of concentration, but both may be taken as free political science electives.

**General studies**

- General education requirements
- Other requirements

**Political science major**

- Required core courses

One course from the following: 3 hours
- PLSC 210 Introduction to Political Analysis (3)
- PLSC 310 Methods of Political Research (3)

Two courses from the following: 6 hours
- PLSC 211 Introduction to Comparative Government (3)
- PLSC 212 Introduction to International Politics (3)
- PLSC 213 Introduction to Political Thought (3)

**Areas of concentration**

- Seven courses from the three groups listed below, including at least one course from each group.

**Group I—American politics, public law, and administration**
- PLSC 202 State and Local Government (3)
- PLSC 216 Municipal Government (3)
- PLSC 270 Public Administration (3)
- PLSC 301 The American Legal System (3)
- PLSC 312 American Constitutional Law I (3)
- PLSC 313 American Constitutional Law II (3)
- PLSC 330 Urban Politics (3)
- PLSC 332 Intergovernmental Relations and Federalism (3)
- PLSC 335 Labor in American Politics (3)
- PLSC 338 Politics of Government Budgeting (3)
- PLSC 358 Parties, Elections, and Interest Groups (3)
- PLSC 364 The Legislative Process (3)
- PLSC 365 Women and Politics (3)
- PLSC 380 The American Presidency (3)
- PLSC 381 Public Policy Analysis (3)
- PLSC 385 Judicial Process and Behavior (3)

**Group II—Comparative politics and international relations**
- PLSC 221 Vietnam (3)
- PLSC 222 War and Peace in the Nuclear Age (3)
- PLSC 311 Third World Politics (3)
- PLSC 327 American Foreign Policy Process (3)
- PLSC 341 International Law (3)
- PLSC 342 International Organizations (3)
- PLSC 354 Government and Politics of Canada (3)
- PLSC 361 Russian Politics in Transition (3)
- PLSC 367 Contemporary Political Systems of Latin America (3)
- PLSC 371 Governance and Politics of the Middle East (3)
- PLSC 372 Government and Politics of Sub-Saharan Africa (3)
- PLSC 374 Asian Political Systems (3)
- PLSC 402 Russian Foreign Relations (3)
Public Administration Major

ISIS major code: PL02

Public administration is a broad-ranging discipline that combines theory and practice, and focuses on the organization of government structure, policies and programs, and the performance of officials. Public administration encourages public policies that are more responsible to human, social and economic needs and that are more efficient and effective.

The major is interdisciplinary, involving political science, economics, sociology, business administration, computer science/business computer systems and English composition. Students who complete the major have access to a broad range of careers in government service, business, or enter graduate or professional schools for further study.

A minor is to be selected in consultation with a public administration advisor. Recommended choices include: computer science, economics, general business management, or writing. Other appropriate minors include communication, conservation and resource use, criminal justice and public administration.

With permission of the public administration advisor, six credit hours of internship credit (PLSC 480, PLSC 485/486/487) or six credit hours of cooperative education credit (PLSC 387 and PLSC 487) may be substituted for two of the required electives.

General studies
General education requirements ........................................................................... 49 hours
Other requirements ......................................................................................... 33 hours
#ECON 201 Principles of Economics I (satisfies general education requirement III.3) 
#ECON 202 Principles of Economics II (satisfies general education requirement III.4)
#PLSC 112/PLSC 113 American Government (satisfies general education requirement III.1)
#SOC 105 Introductory Sociology (satisfies general education requirement III.3)
Physical education/graduation requirement ..................................................... 2 hours
Public administration major ........................................................................... 36 hours
Required courses ......................................................................................... 18
PLSC 270 Public Administration ................................................................... 3
PLSC 334 Personnel Administration in Government ................................... 3
PLSC 352 Politics of Government Budgeting .............................................. 3
PLSC 381 Public Policy Analysis .................................................................. 3
PLSC 431 Theories of Public Organization .................................................. 3
ACC 246 Accounting for Public Administrators ......................................... 3
Restricted elective courses ......................................................................... 18

One course from each of the following six categories:

- ECON 350 Government Finance
- ECON 455 Cost-Benefit Analysis
- COSC 137 Introduction to FORTRAN Programming (satisfies general education requirement I.5)
- IJS 215 End-User Computing (satisfies general education requirement I.5)
- SOCL 250 Social Statistics I (satisfies general education requirement I.4)
- PLSC 310 Methods of Political Research, SOCL 304 Methods in Sociological Research
- ENGL 225 Intermediate English Composition (satisfies general education requirement I.5)
- JRN 314 Writing for Public Relations
- ENGL 324 Principles of Technical Communication (satisfies general education requirement I.5)
- ENGL 328 Writing: Style and Language, MGMT 202 Business Communication
- PLSC 216 Municipal Government, PLSC 330 Urban Politics, PLSC 332 Intergovernmental Relations and Federalism, PLSC 470 Seminar in Public Science

Minor ............................................................................................................. 20 hours
Elective courses ........................................................................................... 25 hours
Total .................................................................................................................. 124 hours

NOTE:
These courses satisfy both general education requirements and requirements of the major. In order to avoid taking excess hours, students are advised to take these courses, or approved substitutes from another institution, as part of the general education requirements.

Public Law and Government Major

ISIS major code: PL03

To fulfill the requirements for a major in public law and government, students must (1) complete #PLSC 112/#PLSC 113, a general education requirement and a prerequisite for public law and government courses; (2) complete at least 16 hours in the major as specified below; (3) complete at least four courses in the major numbered 300 or above; and (4) attain at least a "C" average in the major. A maximum of six credit hours of independent study or internship/cooperative education courses, or a combination of both, may be applied to the 36 credit hours required for the major.

General studies .............................................................................................. 49 hours
General education requirements .................................................................... 44 hours
Other Requirements ...................................................................................... 5 hours
#PLSC 112/#PLSC 113 American Government (satisfies general education requirement III.1) (3)
Physical education/graduation requirement .................................................. 2 hours
Public law and government major .................................................................. 36 hours
Required courses ......................................................................................... 9
PLSC 301 The American Legal System .......................................................... 3
Two courses from the following: ................................................................... 6
PLSC 312 American Constitutional Law I (3)
PLSC 313 American Constitutional Law II (3)
PLSC 341 International Law (3)
PLSC 412 Comparative Legal Systems (3)
Restricted elective courses ......................................................................... 9

One course from each of the following three groups:

- PLSC 202 State and Local Government (3)
- PLSC 216 Municipal Government (3)
- PLSC 270 Public Administration (3)
- PLSC 330 Urban Politics (3)
- PLSC 332 Intergovernmental Relations and Federalism (3)
- PLSC 335 Labor in American Politics (3)
- PLSC 334 Politics of Government Budgeting (3)
- PLSC 358 Parties, Elections, and Interest Groups (3)
- PLSC 364 The Legislative Process (3)
- PLSC 365 Women and Politics (3)
Public Safety Administration Major

ISIS major code: P1.65

The public safety administration program is an interdisciplinary program involving course work in three departments from two colleges within the University. The curriculum is intended to meet the professional development needs of in-service and entry-level personnel in public safety organizations including those involved in law enforcement, public safety, fire protection, private security, and corrections with a competency-based curriculum resting on a strong liberal arts foundation.

The public safety manager’s focus is on public policy, politics, and administration. The public safety manager is concerned with the causes of crime, the nature and impact of criminal behavior, threats to public safety arising from environmental and natural disasters, and the nature and operation of correctional institutions. The administrator’s responsibilities extend to addressing how the public safety organization develops a response to these problems, the nature of the response, and how resources—budgets and personnel—are obtained, utilized, and evaluated in responding to problems.

This program builds on the existing public administration major. Courses are drawn from an interdisciplinary foundation group, an administration group, and a public safety administration component that includes three areas: a public safety administration program, an area concentration, and an academic or internship component. The program combines both major and minor requirements, and graduating students will be awarded a baccalaureate in public administration.

Transfer students from associate degree programs in related fields can matriculate into the program. Students transferring from another college must, however, complete all general education course work as required by the University for the bachelor’s degree.

General studies ................................................................................. 50 hours

General education requirements ..................................................... 17 hours

Other requirements ......................................................................... 31 hours

#CTAS 124 Fundamentals of Speech (satisfies general education requirement 1.2) (3)

PSY 381 Abnormal Psychology (3)
INDT 473 Managing Correctional Agencies and Facilities (3)

Academy or Internship/Coop: ................................................................. 6

Preservice students must complete an internship or cooperative education
placement or an accredited academy program; in-service students may substitute credits from an accredited academy program.
PLSC 488 Internship in Political Science/Public Administration

Elective courses ......................................................................................... 11 hours
Total: ....................................................................................................... 124 hours

NOTE:

These courses satisfy both general education requirements and requirements
of the major. In order to avoid taking excess hours, students are advised to take
these courses, or approved substitutes from another institution, as part of the
general education requirements.

Political Science Major
Secondary Teacher Certification

ISIS major code: PL31
Successful completion of this course of studies, in the context of other program
requirements, qualifies the student for recommendation for certification for the
Michigan Department of Education Secondary Provisional Certificate endorsed in
delivered science, certification code “CD,” and, depending on the minor selected,
education in economics (“CA”), geography (“CB”), history (“CC”),
psychology (“CE”), sociology (“CF”), or social studies (“RX”). The certification
test covering this field is #10, “Political Science.”

To fulfill the requirements for a major in political science, students must (1)
complete at least 30 credit hours in the major as specified below, (2) complete at
EMU at least four courses in the major numbered 300 or above, and (3) attain at
least a “C” average in the major. Students are further expected to take #PLSC
112/#PLSC 113; one of their general education courses, prior to the required
core courses and to complete #PLSC 112/#PLSC 113 and the required core
courses within the first 18 hours of political science course work. A maximum of
three credit hours of independent study or internship/cooperative education
courses may be applied to the 30 credit hours required for the major. Finally,
nether the independent study nor internship/cooperative education course nor
PLSC 470 meets the group distribution requirements specified below under an
area of concentration, but both may be taken as free political science electives.

## Preprofessional Program in Prelaw

**ISIS major code: PL04**

Most law schools require a bachelor’s degree and evidence of potential for law school as measured by grade point average and the results of the Law School Admission Test (LSAT). In addition, most law school admission officers emphasize the importance of a broad academic background and the development of analytical and communication skills. The Department of Political Science provides counseling for prelaw students, LSAT registration, and application materials and catalogs from many law schools throughout the country.

Because law schools typically do not require specific courses for admission or identify any particular major or curriculum as preferable, it is necessary for prelaw students to plan their own academic programs. Given the increasing competitiveness of admission to law school, it is important that great care be exercised in selecting a program of study appropriate to a legal career and in maintaining a high level of academic performance. It is also prudent to choose a program that will provide a suitable alternative career.

The majors most commonly selected by prelaw students are political science, economics, history and sociology. Other frequent choices include English language and literature, communications, psychology, philosophy and business administration. Although less numerous, students with majors in mathematics, the natural sciences, foreign languages, music, and art also enter law school to enhance their career potential.

Whatever major/minor combination is chosen, attention also should be given to the selection of appropriate elective courses. Generally, any challenging course that will facilitate mastery of the use of language, develop critical understanding of human values and institutions, or contribute to the capacity for independent and creative thinking is likely to be useful. Among specific courses that are often recommended by prelaw advisers are advanced English composition, persuasive speech, logic and accounting. Mathematics and science courses are frequently cited as helpful in developing needed analytical skills.

Prelaw students who desire to gain greater insight into the law and legal procedures, and law school approaches to legal studies, may choose from a broad range of courses offered by the Departments of Political Science, Sociology, Economics, History and Philosophy, and Marketing. The major and minor in
public law and government, offered by the Department of Political Science, provide a firm foundation on which to build a career in law.

**Political Science Courses**

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Title</th>
<th>Units</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>PLSC 112</td>
<td>American Government</td>
<td>3 hrs</td>
<td>A study of the institutions and processes of American national government. Includes critical comparisons with major foreign governmental systems. Satisfies the political science requirement of all curricula. Not open to those with credit in PLSC 113.</td>
</tr>
<tr>
<td>PLSC 113</td>
<td>American Government Honors</td>
<td>3 hrs</td>
<td>An enhanced approach to the study of the institutions and processes of American national government. Includes critical comparisons with major foreign governmental systems. Satisfies the political science requirement of all curricula. Not open to those with credit in PLSC 112.</td>
</tr>
<tr>
<td>PLSC 177/178/179 Special Topics</td>
<td>1/2/3 hrs</td>
<td>An examination of a topic in political science not normally covered in the curriculum, in which the distinctive concerns of political science are emphasized. Students may elect this course several times, provided different topics are studied, but it may be taken only twice for credit toward a major or minor in political science. Prereq: Department permission.</td>
<td></td>
</tr>
<tr>
<td>PLSC 210</td>
<td>Introduction to Political Analysis</td>
<td>3 hrs</td>
<td>A study of the conceptual and analytical focus of political science. Consideration is given to micro-level analysis of personality, attitudes, socialization, and roles, and to macro-level analysis of group theory, decision making, and communications. Prereq: PLSC 112/PLSC 113, or department permission.</td>
</tr>
<tr>
<td>PLSC 211</td>
<td>Introduction to Comparative Government</td>
<td>3 hrs</td>
<td>A study of the forms and functions of state and local governments with special emphasis on the government of Michigan. Especially valuable for teachers of social studies in senior and junior high schools. Prereq: PLSC 112/PLSC 113, or department permission.</td>
</tr>
<tr>
<td>PLSC 212</td>
<td>Introduction to International Politics</td>
<td>3 hrs</td>
<td>The fundamentals of great-power politics, the impact of efforts at international organization. Prereq: PLSC 112/PLSC 113.</td>
</tr>
<tr>
<td>PLSC 213</td>
<td>Introduction to Political Thought</td>
<td>3 hrs</td>
<td>Selections from major theorists are used to examine different approaches to perennial issues such as justice, liberty, equality, legitimacy, and political order. Prereq: PLSC 112/PLSC 113.</td>
</tr>
<tr>
<td>PLSC 221</td>
<td>Vietnam</td>
<td>3 hrs</td>
<td>This course will be a political-military look at the Vietnam War from its beginnings in the 1940s to its climax in 1975. A brief look at the parallels with other wars (The Persian Gulf, etc.) and the aftermath will be included. The course will include the PBS videotapes of Vietnam: A History. Prereq: PLSC 112/PLSC 113.</td>
</tr>
<tr>
<td>PLSC 222</td>
<td>War and Peace in the Nuclear Age</td>
<td>3 hrs</td>
<td>This course will be a study of the history of atomic weapons and the struggle to control them from 1945 to 1989. While concentrating most on the United States, it will include the Soviet Union, China and western Europe. It will also examine the personalities involved and attempt to assess the impact they had on the struggle for arms control. Prereq: PLSC 112/PLSC 113.</td>
</tr>
<tr>
<td>PLSC 270</td>
<td>Public Administration</td>
<td>3 hrs</td>
<td>The nature of public administration; problems connected therewith—direction and organization; recruitment, training, and promotion of personnel; maintenance of loyalty and efficiency. Prereq: PLSC 112/PLSC 113.</td>
</tr>
<tr>
<td>PLSC 277/278/279 Special Topics</td>
<td>1/2/3 hrs</td>
<td>An examination of a topic in political science not normally covered in the curriculum, in which the distinctive concerns of political science are emphasized. Students may elect this course several times, provided different topics are studied, but it may be taken only twice for credit toward a major or minor in political science. Prereq: PLSC 112/PLSC 113.</td>
<td></td>
</tr>
<tr>
<td>PLSC 279</td>
<td>Independent Study</td>
<td>1/2/3 hrs</td>
<td>Approved studies on an individual basis in areas in which the department does not offer formal courses. Prereq: PLSC 112/PLSC 113.</td>
</tr>
<tr>
<td>PLSC 301</td>
<td>The American Legal System</td>
<td>3 hrs</td>
<td>A survey of various substantive components of the American legal system and its function in a democratic society. Special emphasis is placed upon problems of law enforcement, legal agencies, and the processes involved in the administration of criminal justice. Prereq: PLSC 112/PLSC 113.</td>
</tr>
<tr>
<td>PLSC 308</td>
<td>Political Violence and Revolution</td>
<td>3 hrs</td>
<td>A cross-national examination of political violence and revolution. Covers distinctions in types of political violence; examines ideological arguments on violence and revolution; examines case studies; and the impact of political, biological, psychological, and sociological factors that have been associated with violent outbreaks cross-nationally. Prereq: PLSC 112/PLSC 113.</td>
</tr>
<tr>
<td>PLSC 310</td>

Examines significant developments and alternatives in shared governmental responsibilities, such as metropolitan reorganization, grant programs, and regionalism. Prereq: PLSC 112/PLSC 113.

PLSC 333 Personnel Administration in Government 3 hrs. An examination of the basic personnel management practices of public bureaucracies. Topics include the development of the merit system and the civil service; public sector requirements for hiring, promotion, pay, and benefits; discipline and grievance handling; the development and impact of public-sector collective bargaining. Prereq: PLSC 112/PLSC 113.

PLSC 334 Labor in American Politics 3 hrs. An examination of the role of labor as a political pressure group and as an agent of voter mobilization; American labor voting patterns; the political impact of labor organization on the civil service; American role in international union affairs. Prereq: PLSC 112/PLSC 113.

PLSC 335 History of American Political Thought 3 hrs. An analysis of the philosophical foundations of American political thought. The role of political ideas in shaping public policy and in institution building will be studied. Prereq: PLSC 112/PLSC 113.

PLSC 336 Women and Politics 3 hrs. A study of the role of women in American politics as voters, activists, and candidates, with consideration of how the political behavior of women relates to their economic, social, and religious roles. Comparisons are made with selected European and Asian political systems. Prereq: PLSC 112/PLSC 113.

PLSC 337 The Legislative Process 3 hrs. A study of the agencies, procedures, and influences in the formation of public policy by Congress, state legislatures, and administrative agencies. Prereq: PLSC 112/PLSC 113.

PLSC 338 The American Political System 3 hrs. An introduction to the formulation and execution of American foreign policy, including consideration of the role of public opinion, the press, interest groups, Congress, the president, deterrence theory, and decision making in crisis situations. Prereq: PLSC 111/PLSC 113.

PLSC 339 Public Opinion and Political Learning 3 hrs. The nature, formation, measurement, and role of public opinion; the structure of media and the performance of the mass media; the nature of techniques, strategies, and effects of propaganda. Prereq: PLSC 112/PLSC 113.

PLSC 340 The American Presidency 3 hrs. A study of executive power, emphasizing the contemporary presidential role and how it has evolved; the politics of candidate choice, the personal qualities and political styles of recent presidents, and the array of formal and informal institutions constituting the modern presidency. Prereq: PLSC 112/PLSC 113.

PLSC 341 International Law 3 hrs. An introduction to the principles and practices of public international law. The origin and development of the nature and sources of international law. Special emphasis will be placed upon the legal problems of peace and war and the future perspectives of international law in the relations of nations. Prereq: PLSC 112/PLSC 113.

PLSC 342 International Organizations 3 hrs. The structure and functions of international organizations. Collective security, disarmament, and the specific settlement of disputes will be examined. Organizations emphasized will be the League of Nations, the United Nations, the European Common Market, and OPEC. Prereq: PLSC 112/PLSC 113.

PLSC 343 The Middle East 3 hrs. A study of the Middle East as a case study in the field of comparative politics. European and Asian political systems, military influence, students, labor, and the development of political parties. Prereq: PLSC 112/PLSC 113.

PLSC 344 The Legislative Process 3 hrs. A study of the agencies, procedures, and influences in the formation of public policy by Congress, state legislatures, and administrative agencies. Prereq: PLSC 112/PLSC 113.

PLSC 345 The American Political System 3 hrs. An introduction to the formulation and execution of American foreign policy, including consideration of the role of public opinion, the press, interest groups, Congress, the president, deterrence theory, and decision making in crisis situations. Prereq: PLSC 111/PLSC 113.

PLSC 346 Comparative Political Systems 3 hrs. A study of governmental structure and the nature of political activity in select Latin-American nations, with an emphasis on issues such as urbanization, military influence, students, labor, and the development of political parties. Prereq: PLSC 112/PLSC 113.

PLSC 347 International Relations 3 hrs. An introduction to the principles and practices of public international law. The origin and development of the nature and sources of international law. Special emphasis will be placed upon the legal problems of peace and war and the future perspectives of international law in the relations of nations. Prereq: PLSC 112/PLSC 113.

PLSC 348 International Organizations 3 hrs. The structure and functions of international organizations. Collective security, disarmament, and the specific settlement of disputes will be examined. Organizations emphasized will be the League of Nations, the United Nations, the European Common Market, and OPEC. Prereq: PLSC 112/PLSC 113.

PLSC 349 The Middle East 3 hrs. A study of the Middle East as a case study in the field of comparative politics. European and Asian political systems, military influence, students, labor, and the development of political parties. Prereq: PLSC 112/PLSC 113.

PLSC 350 The American Presidency 3 hrs. A study of executive power, emphasizing the contemporary presidential role and how it has evolved; the politics of candidate choice, the personal qualities and political styles of recent presidents, and the array of formal and informal institutions constituting the modern presidency. Prereq: PLSC 112/PLSC 113.

PLSC 351 The American Political System 3 hrs. An introduction to the formulation and execution of American foreign policy, including consideration of the role of public opinion, the press, interest groups, Congress, the president, deterrence theory, and decision making in crisis situations. Prereq: PLSC 111/PLSC 113.

PLSC 381 Public Policy Analysis 3 hrs
An advanced course in public administration dealing with modern administrative techniques, budget analysis, the politics of resource allocation, and regulatory problems.
Prereq: PLSC 270.

PLSC 382 Politics and the 21st Century 3 hrs
A study of the political and public policy directions of the future. Consideration will be given to worldwide political developments and alternative political futures as affected by accelerating sociopolitical and technological change.
Prereq: PLSC 112/PLSC 113.

PLSC 385 Judicial Process and Behavior 3 hrs
A study of the judicial process and behavior in the United States with emphasis on analysis of policy making by the courts. Federal judicial structures and functions, decision making procedures and political ideology, and judicial review.
Prereq: PLSC 112/PLSC 113.

PLSC 387 Cooperative Education in Political Science 3 hrs
Four to six months of full-time employment in the public sector intended to provide practical experience in government, politics or administration. The program consists of two directed work experiences (PLSC 387 and PLSC 487) alternating with full-time attendance at the University. Applications of credit toward political science programs subject to department approval. Graded on a credit/no credit basis.
Prereq: Junior standing. Major in political science, public administration, or public law and government. Departmental recommendation required.

PLSC 410 Political Science in Fiction 3 hrs
A discussion and analysis of political theories, institutions, and practices utilizing a storehouse of insightful and articulate materials not normally tapped in traditional political science courses: the works of essayists, philosophers, dramatists, pamphleterists, poets and novelists.
Prereq: Political science major or minor. At least nine hours of political science course work completed. Junior or senior standing or department permission.

PLSC 412 Comparative Legal Systems 3 hrs
Analysis of fundamental elements of the common law, the civil law, socialist laws and other legal traditions, and a comparison of the legal systems of select foreign countries.
Prereq: PLSC 112/PLSC 113.

PLSC 418 20th-Century Political Theory 3 hrs
A comparative study of recent political theories and ideologies including democracy, socialism, communism and fascism. The analysis includes modern psychological and sociological theories as they affect political thought.
Prereq: PLSC 112/PLSC 113.

PLSC 420 Democracy and Power 3 hrs
A study of the ideals and limitations of democracy. Examines values such as consent, equality, rights, citizenship, and the public interest and the limitations posed by authority, coercion, class conflict, distribution of wealth, and the state.

PLSC 422 American Political Theory 3 hrs
A concise survey of American political thought. The origins, growth, and present state of American political ideologies will be examined.
Prereq: PLSC 112/PLSC 113.

PLSC 431 Theories of Public Organization 3 hrs
An introduction to theories of organization as related to public bureaucracies in a democratic political context.
Prereq: PLSC 270 or department permission.

PLSC 450 Managing Public Safety Agencies 3 hrs
Analysis of public-sector management elements, including planning, organizing, leading, controlling, and communicating, presented in the context of, and applied to, internal police/fire and corrections administration.
Prereq: PLSC 270 and PLSC 431, or department permission.

PLSC 451 Seminar in Public Safety Administration 3 hrs
A capstone seminar in the public safety administration concentration; integrates previous course work in law, management, and politics by focusing on contemporary problems and issues in public safety operations, including attention to leadership, organizational conflict, and resource allocation/utilization; utilizes a case approach.
Prereq: Senior standing and department permission.

PLSC 456 Criminal Law I 3 hrs
A study of criminal law currently in use in the United States with emphasis upon the way its basic concepts function; its principal components and problems central to its impact upon the political system.
Prereq: PLSC 112/PLSC 113.

PLSC 462 Russian Foreign Relations 3 hrs
An analytical and historical examination of Soviet foreign policies since 1917—their sources, character, objectives and periodization.
Prereq: PLSC 112/PLSC 113.

PLSC 467 Advanced International Relations 3 hrs
The course will explore, through case studies, the ways in which ideas, cultural differences, and different political systems combine to produce the international politics of today. Special attention will be paid to the United States in this process as well as the role of economics and international organization. Limit: 25 students.
Prereq: PLSC 212 and PLSC 327.

PLSC 470 Seminar in Political Science 3 hrs
Examination and utilization of research techniques in the preparation of a major seminar paper in political science, public administration, or public law and government.
Prereq: PLSC 112/PLSC 113.

PLSC 477/478/479 Special Topics 1/2/3 hrs
An examination of a topic in political science not normally covered in the curriculum, in which the distinctive concerns of political science are emphasized. Students may elect this course several times, provided different topics are studied, but it may be taken only twice for credit toward a major or minor in political science.
Prereq: PLSC 112/PLSC 113.

PLSC 480 Field Seminar in Political Science/Public Administration 3 hrs
Designed to help students relate their field experience to some aspect of political science or public administration.
Prereq: Department permission.

PLSC 486/488/489 Internship in Political Science/Public Administration 3/6/9 hrs
Extends classroom learning through practical experience with legislative, administrative, and other public-sector agencies at all levels of government. Open to majors and minors in political science and public administration.
Prereq: Department permission.

PLSC 487 Cooperative Education in Political Science 3 hrs
Four to six months of full-time employment in the public sector intended to provide practical experience in government, politics or administration. The program consists of two directed work experiences (PLSC 387 and PLSC 487) alternating with full-time attendance at the University. Applications of credit toward political science programs subject to department approval. Graded on a credit/no credit basis.
Prereq: Senior standing, PLSC 387 or departmental recommendation required.

PLSC 497/498/499 Independent Study 1/2/3 hrs
Advanced study on an individual basis in areas in which the department does not offer formal courses. Normally restricted to political science majors.
Prereq: Senior standing and department permission.

Departmental Administration
Kenneth W. Rusnak
Department Head
537 Mark Jefferson
734.487.1155, 734.487.0047
E-mail: ken.rusnak@emich.edu

Psychology, as a discipline, is concerned with the experience, behavior, needs, desires and potential of human beings. It is basic to self-development, and to career fields and life pursuits that involve other human beings.

Objectives of the department are to provide a general and in-depth survey of the fields of the science of psychology for students interested in diversified career fields; to prepare undergraduate students to pursue graduate studies in order to enter one of the several professional career areas for which the major is required: clinical psychology, industrial psychology, school psychology, teaching and research in psychology, for example; and to help students who are interested in self-development obtain current and sound approaches to problems of topical interest.

Degrees Offered
Bachelor of Science
Programs of Study
Major
Psychology
Psychology for secondary education
Minor
Psychology
Psychology for secondary, K-12, and special education—secondary
Advising is available to all students and can be obtained from any department faculty member. It is recommended that students see a faculty member specializing in the area of the student's interest if graduate study is anticipated.

Information may be obtained from any department office.

Advising coordinator: Marilyn K. Bonem
Graduate study leads to a master's degree in psychology with programs in general psychology, clinical psychology, clinical behavioral psychology, and to the Ph. D in clinical psychology. These programs are described in the graduate catalog.

Psychology Major

ISIS major code: P501

The major in psychology is designed to provide a general and in-depth survey of the fields in the science of psychology and to prepare students to work with people in several career areas. Further study beyond the baccalaureate is required to enter professional career work.

General studies .............................................. 46 hours
General education requirements ..................... 44 hours
Physical education/graduation requirement ........ 2 hours
Psychology major ......................................... 30 hours

Required courses ......................................... 13-14
#PSY 101/PSY 102 General Psychology (satisfies general education requirement II.2 or II.3) ................ 3-4
PSY 205 Quantitative Methods in Psychology .......... 3
PSY 301 Introductory Experimental Psychology .......... 4
PSY 453 History and Systems of Psychology .......... 3

Restricted elective courses ............................. 12
Adjustment and personality

One course from the following: ......................... 3
PSY 360 Abnormal Psychology (3)
PSY 451 Dynamics of Personality (3)

Bio logical
One course from the following: ........................ 3
PSY 357 Sensation and Perception (3)
PSY 457 Physiological Psychology (3)
PSY 458 Comparative Animal Behavior (3)

Learning and motivation
One course from the following: ........................ 3
PSY 304 Learning (3)
PSY 356 Motivation and Emotion (3)

Developmental and social
One course from the following: ........................ 3
PSY 309 Social Psychology (3)
PSY 321 Child Psychology (3)

Elective courses ........................................... 4-5
Select four to five credits (enough to total 30 hours in psychology, including PSY 101 General Psychology), in consultation with an advising coordinator.

Minor ......................................................... 20 hours
Elective courses ........................................... 28 hours
Total ......................................................... 124 hours

NOTE:
These courses satisfy both general education requirements and requirements of the major. In order to avoid taking excess hours, students are advised to take these courses or approved substitutes from another institution, as part of the general education requirements.

Psychology Major
Secondary Teacher Certification

ISIS major code: PS31

Successful completion of this course of studies, in the context of other program requirements, qualifies the student for recommendation for certification for the Michigan Department of Education Secondary Provisional Certificate endorsed in psychology, certification code "CE", and, depending on the minor selected, endorsement in economics ("CA"), geography ("GB"), history ("CH"), political science ("CD"), sociology ("CF"), or social studies ("RA"). The certification test covering this field is #11, "Psychology."

General studies .............................................. 46 hours
General education requirements ..................... 35 hours
Other requirements ....................................... 9 hours
#HIST 102 Western Civilization, 1648 to World War I (satisfies general education requirement II.2) (3)
#GEOG 107 Introduction to Geography (satisfies general education requirement III.3) or #GEOG 110 World Regions (satisfies general education requirement III.3) (3)
#HIST 103 20th-Century Civilization (satisfies general education requirement III.4) (3)
A course in economics, if not included in the minor (3)
Physical education/graduation requirement ........ 2 hours

Teaching major ............................................ 30

One course from the following: ....................... 3-4
#PSY 101 General Psychology (no laboratory) (satisfies general education requirement II.2 or III.3) (3)
#PSY 102 General Psychology (satisfies general education requirement II.2 or III.3) (4)
PSY 205 Quantitative Methods in Psychology .......... 3
PSY 301 Introductory Experimental Psychology .......... 4
PSY 453 History and Systems of Psychology .......... 3

Adjustment and personality
One course from the following: ....................... 3
PSY 360 Abnormal Psychology (3)
PSY 451 Dynamics of Personality (3)
Biological

One course from the following: .................................................. 3
PSY 357 Sensation and Perception (3)
PSY 457 Physiological Psychology (3)
PSY 458 Comparative Animal Behavior (3)

Learning and motivation

One course from the following: .................................................. 3
PSY 394 Learning (3)
PSY 356 Motivation and Emotion (3)

Developmental and social

One course from the following: .................................................. 3
PSY 309 Social Psychology (3)
PSY 321 Child Psychology (3)

NOTE:
These courses satisfy both general education requirements and requirements of the minor. In order to avoid taking excess hours, students are advised to take these courses, or approved substitutes from another institution, as part of the general education requirements.

Teaching minor .............................................................................. 20 hours

A minor in one of economics, geography, history, political science, sociology.

Professional studies ....................................................................... 39 hours

Pre-admission phase: The Learner and the Community .............. 8
EDPS 322 Human Development and Learning (4)
FETE 201 Field Experience I (1)
SPGD 251 Education of Exceptional Children (3)

Courses that require formal admission to the teacher education program.

Phase I: Curriculum, Assessment and the Social Context .......... 10
SOFD 328 Schools in a Multicultural Society (3)
CURR 305 Curriculum and Methods: Secondary (3)
FETE 302 Field Experience II: Secondary (1)
EDPS 340 Introduction to Assessment and Evaluation (3)

Phase II: Content Methods, Literacy and Technology ............... 9
RDNG 311 Teaching Reading in the Secondary School (3)
FETE 402 Field Experience III: Secondary (1)
EDMT 330 Instructional Applications of Media and Technology (2)
HIST 481 The Teaching of Social Studies (3)

Phase III: Capstone Experience ............................................... 12
EDUC 492 Student Teaching (12)

Total .............................................................................................. 135

NOTE:
#These courses satisfy both general education requirements and requirements of the minor. In order to avoid taking excess hours, students are advised to take these courses, or approved substitutes from another institution, as part of the general education requirements.

Psychology Minor

ISIS minor code: PS31

Successful completion of this minor, in the context of other program requirements, qualifies the student for recommendation for endorsement in psychology, certification code "CE." The certification test covering this field is #11, "Psychology."

One course from the following: .................................................. 3-4
#PSY 101 General Psychology (no laboratory) (satisfies general education requirement II.2 or II.3) (3)
#PSY 102 General Psychology (satisfies general education requirement II.2 or II.3) (4)

16 to 17 hours selected in consultation with advising coordinator.

Total .............................................................................................. 20 hours

NOTE:
#These courses satisfy both general education requirements and requirements of the minor. In order to avoid taking excess hours, students are advised to take these courses, or approved substitutes from another institution, as part of the general education requirements.

Psychology Courses

PSY 101 General Psychology .................................................. 3 hrs
Principles, theories and methods evolving from the scientific analysis of behavior. This or PSY 102 is a prerequisite to all other courses. Not open to those who have earned credit in PSY 102.

PSY 102 General Psychology .................................................. 4 hrs
Principles, theories and methods evolving from the scientific analysis of behavior. Laboratory demonstrations and experiments illustrating selected concepts. Not open to those who have credit in PSY 101.

PSY 177/178/179 Special Topics .............................................. 1/2/3 hrs
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.
Prereq: PSY 101 or PSY 102 and department permission.

PSY 203 Self-analysis and Control .......................................... 3 hrs
Behavioral principles and techniques that can be applied to behavioral self-analysis and self-management. Student-initiated self-improvement projects encouraged.
Prereq: PSY 101/PSY 102.

PSY 205 Quantitative Methods in Psychology ......................... 3 hrs
Basic concepts and methods used in the analysis of psychological data. Methods of describing and drawing inferences from sets of data.
Prereq: PSY 101/PSY 102, and one of: MATH 118, MATH 119, MATH 120, MATH 121 or MATH 122.

PSY 207 Psychology of Adjustment .......................................... 3 hrs
Systematic presentation of issues, concepts, principles and theories of human adjustment.
Prereq: PSY 101/PSY 102.
PSY 225 Psychology of Religion 3 hrs
The application of psychological theory, principles and method to the study of religious behavior. The relationships between religion and personality, health pathology, social behavior and intense emotional experience.
Prereq: PSY 101/PSY 102.

PSY 240 Psychology of Sex 3 hrs
Survey of the psychological research concerned with human sexuality from a psychological point of view with an emphasis on research findings.
Prereq: PSY 101/PSY 102.

PSY 242 Psychology of Women 3 hrs
Theories and empirical research concerning personality development in females. Examination of the origins of the behavior of women.
Prereq: PSY 101/PSY 102.

PSY 277/278/279 Special Topics 1/2/3 hrs
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.
Prereq: PSY 101/PSY 102 and department permission.

PSY 301 Introductory Experimental Psychology 4 hrs
Design, control and measurement techniques employed in the scientific investigation of behavior; e.g., motivation, emotion, perception and learning.
Prereq: PSY 205.

PSY 304 Learning 3 hrs
Includes learning theories and empirical research as developed by Pavlov, Thorndike, Guthrie, Tolman, Hull, Skinner, Mower and others, plus select contemporary topics.
Prereq: PSY 301.

PSY 309 Social Psychology 3 hrs
The order and regularity underlying processes of human interaction. Motives and attitudes, social norms and roles, the socialization process, personality and group membership. The effect of group membership upon individual behavior. Not open to those with credit in SOC 308.
Prereq: SOC 105 and PSY 101/PSY 102.

PSY 321 Child Psychology 3 hrs
The development of human behavior from conception to adolescence. Analysis of developmental processes involved in cognition, socialization, emotion and personality, relating research to theory; emphasis on developmental trends. Not open to students in early elementary education curriculum.
Prereq: PSY 101/PSY 102.

PSY 322 Psychology of Adolescence 3 hrs
An opportunity to formulate, examine and understand a comprehensive, balanced picture of the physical, mental, emotional, social, and ideological developments and adjustments during adolescence.
Prereq: PSY 101/PSY 102.

PSY 323 Psychology of Human Aging 3 hrs
Aging individuals in the context of their life span; the special problems of the aged in modern American society. Intellectual functioning, socialization and personality, environmental effects, and the problems of isolation and institutionalization.
Prereq: PSY 101 or PSY 102. Junior or senior standing or Second Bachelor's only.

PSY 340 Psychological Perspectives on Prejudice and Discrimination 3 hrs
The psychological processes underlying the phenomena of prejudice and discrimination. A review of material on personality and development relevant to the practice of discrimination and to the experience of prejudice on the part of both minority and majority group individuals.
Prereq: PSY 101/PSY 102 and sophomore standing.

PSY 350 Environmental Psychology 3 hrs
The psychological effects of various environmental settings and configurations on human behavior. Select qualities of architectural spaces, urban environments and natural settings.
Prereq: PSY 101/PSY 102.

PSY 351 Industrial Psychology 3 hrs
Applications of psychological methods and principles to industrial problems. Prereq: PSY 101/PSY 102, and junior or senior standing.

PSY 356 Motivation and Emotion 3 hrs
Review and analysis of theory and research in the areas of motivation and emotion. Prereq: PSY 301.

PSY 357 Sensation and Perception 3 hrs
Analysis of the psychological literature relating to sensory and perceptual experience. Prereq: PSY 301.

PSY 358 Cognitive Processes 3 hrs
A review of the theoretical and empirical developments concerned with cognitive processes, such as concept formation, memory and retrieval from memory, language acquisition, thought, problem solving, imagination, and creativity. Prereq: Junior or senior standing or Second Bachelor's only. PSY 205.

PSY 360 Abnormal Psychology 3 hrs
Modern theories of the origin of mental disorders and personality disturbances, nature and mechanism of the various forms of abnormal behavior, prevention and treatment, social significance of aberrations.
Prereq: PSY 101/PSY 102.

PSY 361 Psychotherapy 3 hrs
Survey of therapeutic systems and research on psychotherapy. Prereq: PSY 360.

PSY 362 The Psychology of Stress and Relaxation 3 hrs
Prereq: PSY 101/PSY 102.

PSY 365 Behavior Modification 3 hrs
For students in psychology, special education, social work, nursing and related fields. Techniques for coping with problem behaviors. Training in practical observation and recording procedures, program evaluation designs, and behavior change principles.
Prereq: PSY 101/PSY 102.

PSY 366 Health Psychology/Behavioral Medicine 3 hrs
The application of behavioral-science theory, principles, and techniques to understanding of health and illness, and to prevention, diagnosis, treatment, rehabilitation and health care delivery.
Prereq: PSY 101/PSY 102.

PSY 377/378/379 Special Topics 1/2/3 hrs
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.
Prereq: PSY 101/PSY 102 and department permission.

PSY 387 Cooperative Education in Psychology 3 hrs
Four months of full-time employment at an individual employer chosen to provide practical experience in the student's major field. The program consists of two work experiences (PSY 387 and PSY 487) alternating with full-time attendance at the University.
Prereq: Two 300-level psychology courses and department permission.
PSY 388 Psychology in the Field Setting  
A practical work experience in a supervised mental health setting that integrates scholarly and practical aspects of psychology. Approximately three hours of fieldwork each week and completion of a journal of goals and experiences.  
Prereq: PSY 101/PSY 102, concurrent enrollment in a three-hour psychology class, and/or department permission.

PSY 397/398/399 Individual Reading in Psychology  
Supervised reading on psychological problems.  
Prereq: PSY 101/PSY 102, and prior department approval of a planned reading program.

PSY 445 Consumer Psychology  
A survey of psychological principles, theories and methodology relating to consumer behavior.  
Prereq: PSY 101/PSY 102.

PSY 451 Dynamics of Personality  
Physiological, psychological and cultural determinants of human personality; analysis of select theories of human personality.  
Prereq: PSY 101/PSY 102. Junior or senior standing or Second Bachelor's only.

PSY 453 History and Systems of Psychology  
Historical development of modern psychological theories; contemporary systems, including functionalism, behaviorism, phenomenology, psychoanalysis and dynamic psychologies.  
Prereq: PSY 301.

PSY 457 Physiological Psychology  
Analysis of the relationships among brain functions, physiological processes and behavior. Open to junior and senior science majors with department permission.  
Prereq: PSY 301. Recommended: BIOL 105 or ZOOL 222.

PSY 458 Comparative Animal Behavior  
Modern solutions to the innate versus learned behavior controversy; species differences with respect to behavior and behavioral capacities.  
Prereq: PSY 301.

PSY 460 Psychology of Film  
The psychology of film and audiences. Viewer psychology, presentation of psychology, family, violence and sexuality in film.  
Prereq: Junior standing and/or two courses in psychology.

PSY 477/478/479 Special Topics  
An examination of topics in psychology not covered in other department offerings. May be elected more than once, provided different topics are studied.  
Prereq: PSY 101/PSY 102, and department permission.

PSY 487 Cooperative Education in Psychology  
Four months of full-time employment at an individual employer chosen to provide practical experience in the student's major field. The program consists of two work experiences (PSY 387 and PSY 487) alternating with full-time attendance at the University.  
Prereq: PSY 387 and department permission.

PSY 497/498/499 Individual Research in Psychology  
Supervised investigation of psychological problems.  
Prereq: Department permission.

Sociology, Anthropology and Criminology

www.emich.edu/public/sac/home.html

Departmental Administration
Joe Rankin
Department Head
712-A Pray-Harrold
734.487.0012
E-mail: J_Rankin@online.emich.edu

The department offers majors and minors in the disciplines of sociology, anthropology, and criminology and criminal justice, and participates in the social work curriculum, the major in area studies, and programs in gerontology, bicultural education, and women's studies.

Degrees Offered
Bachelor of Arts
Bachelor of Science

Programs of Study
Curriculum

- Criminology and criminal justice
- Anthropology
- Sociology
- Sociology for secondary education

Minors
- Anthropology
- Criminology and criminal justice
- Sociology
- Sociology for secondary, K-12, and special education-secondary

Interdisciplinary minors in Anthropology/Sociology:
- Health and illness studies
- Sociocultural perspectives on the family

Advising is available for particular areas of study. Students majoring in one of the department's programs are encouraged to see the undergraduate advising coordinator to be assigned an adviser as soon as they make their selection. Students not majoring in the department's programs may seek information about the curricula from any faculty member during their "on call" advising hours.

Advising Coordinators
Undergraduate: Patrick Kastor
Graduate criminology and criminal justice: Paul Leighton
Graduate sociology: Denise Reiling

Graduate study leads to the master's degree in sociology or criminology and criminal justice. The M.A. degree is described in the graduate catalog.

Anthropology Major
ISIS major code: SC02

The program in anthropology advances the goals of humanistic education, prepares students for successfully operating in a multicultural society, and provides majors with a foundation for graduate study. Anthropology is the comparative study of human behavior, both in terms of its development and in terms of its culture-specific expressions. Eastern's program in anthropology gives particular attention to the sociocultural subfield.

Curriculum in Criminology and Criminal Justice

ISIS major code: SC03

The criminology and criminal justice curriculum provides students with a multidisciplinary understanding of crime and justice within the framework of broader social processes. This curriculum is a three-tiered structure composed of general education, a core curriculum, and selected concentrations. The typical student will move from general education to the core of the program and then into one of four specialized concentrations, where she will be introduced to courses on the principles and application of the chosen specialty.

The curriculum for general education includes introductory courses in the fundamental social science disciplines of sociology and psychology. The core of the curriculum consists of a number of related courses that will build a foundation of social science education emphasizing analytical and conceptual skills. The pivotal course is CRM 301 Criminology, a multidisciplinary perspective on the nature, extent, and causes of crime. CRM 300 Criminal Justice and CRM 301 Criminology should be the first core courses taken by the typical student. The third and final tier of the curriculum consists of 21 hours in one of four concentrations. These concentrations contain some courses without criminological content that provide students with professionally relevant occupational knowledge and skills.

Students completing the curriculum will have satisfied all major and minor requirements for graduation. No additional minor is required.

General studies .................................................. 46 hours
General education requirements ............................ 32 hours

Other requirements .............................................. 12 hours
#PLSC 442/PLSC 443 American Government (satisfies general education requirement III.1) (3)
#PSY 101/PSY 102 General Psychology (satisfies general education requirement II.2 or III.2) (3/4)
#SOC 105 Introductory Sociology (satisfies general education requirement III.3) (3)
#SOC 202 Social Problems (satisfies general education requirement III.4) (3)

Physical education/graduation requirement .......... 2 hours

Major in criminology and criminal justice ........... 69-70

Core requirements ............................................. 48-49

All of the following courses must be taken as part of the requirements for the Criminology and Criminal Justice curriculum .............................................. 12-13
#PSY 101/PSY 102 General Psychology (satisfies general education requirement II.2 or III.2) (3/4)
#PLSC 112/PLSC 113 American Government (satisfies general education requirement III.1) (3)
#SOC 105 Introductory Sociology (satisfies general education requirement III.3) (3)
#SOC 202 Social Problems (if #SOC 105 is taken, satisfies general education requirement III.4) (3)

Restricted elective courses .................................................. 6

Two courses from the following: .................................................. 6
- SOCL 306 The Urban Community (3)
- SOCL 307 Industrial Sociology (3)
- SOCL 310 Contemporary American Class Structure (3)
- SOCL 462 Complex Organizations (3)
- SOCL 405 Senior Seminar in Sociology (3)

Elective courses .................................................. 6

Choose from courses in sociology, anthropology, criminology or social work. Courses taken in social work, criminology or anthropology as elective credit for the sociology major must be at the 300 level or above.

Minor .................................................. 20 hours

Elective courses .................................................. 31 hours

Total .............................................................................. 124 hours

NOTE:

These courses satisfy both general education requirements and requirements of the major. In order to avoid taking excess hours, students are advised to take these courses, or approved substitutes from another institution, as part of the general education requirements.
Sociology Major
Secondary Teacher Certification

ISIS major code: SC31

Successful completion of this course of studies, in the context of other program requirements, qualifies the student for recommendation for certification for the Michigan Department of Education Secondary Provisional Certificate endorsed in sociology, certification code “CB,” and, depending on the minor selected, endorsement in economics (“CA”), geography (“CB”), history (“CC”), political science (“CD”), psychology (“CE”), or social studies (“RX”). The certification test covering this field is #12, “Sociology.”

General Studies

General education requirements .................................................. 35 hours
Other requirements .................................................................... 9 hours

Teaching major ........................................................................... 30 hours

One course from the following:

#HIST 102 Western Civilization, 1648 to World War I (satisfies general education requirement III.2) (3)
#GEOG 107 Introduction to Geography (satisfies general education requirement III.3) (3)
#GEOG 110 World Regions (satisfies general education requirement III.3) (3)
#HIST 165 20th-Century Civilization (satisfies general education requirement III.4) (3)

A course in economics, if not included in the minor (3)
Physical education/graduation requirement ................................ 2 hours

Teaching minor ............................................................................ 20 hours

A minor in one of economics, geography, history, political science, psychology.

Professional studies

Pre-admission phase: The Learner and the Community ..................... 8 hours

EDPS 322 Human Development and Learning (4)
FETE 201 Field Experience I (1)
$PGN 251 Education of Exceptional Children (3)

Courses that require formal admission to the teacher education program

Health and Illness Studies Interdisciplinary Minor

ISIS minor code: SC04

This minor examines the ways in which human beings deal with health and illness in different cultural settings including American society and its subcultures. Oriented toward the student interested in social and cultural aspects of
health, illness, and disease, it provides a theoretical perspective on comparative medical systems.

### Required courses

- **SOCL 105 Introductory Sociology** (satisfies general education requirement III.3) ........................................ 3
- **ANTH 135 Introduction to Cultural Anthropology** (satisfies general education requirement III.3) ............... 3
- **SOCL 311 Social Gerontology** ................................................................. 3
- **SOCL 312 Medical Sociology** ................................................................. 3
- **ANTH 329 Medical Anthropology** ........................................................... 3

**Total** ...................................................................................................... 15

### Elective courses

- Anthropology courses at the 300 level or above ........................................ 6

**Total** ...................................................................................................... 21 hours

**NOTE:**

- These courses satisfy both general education requirements and requirements of the minor. In order to avoid taking excess hours, students are advised to take these courses, or approved substitutes from another institution, as part of the general education requirements.

### Sociology Minor

**ISIS minor code: SC05**

**Required courses**

- **SOCL 105 Introductory Sociology** (satisfies general education requirement III.3) ........................................ 3
- **ANTH 135 Introduction to Cultural Anthropology** (satisfies general education requirement III.3) ............... 3
- Sociology or criminology courses at the 300 level or above ...................... 8-9

**Elective courses**

- Anthropology courses at the 300 level or above. Social work courses may not be counted toward the sociology minor.

**Total** ...................................................................................................... 14-15

**NOTE:**

- These courses satisfy both general education requirements and requirements of the minor. In order to avoid taking excess hours, students are advised to take these courses, or approved substitutes from another institution, as part of the general education requirements.

### Sociocultural Perspectives on the Family

**ISIS minor code: SC05**

This minor combines the perspectives of anthropology and sociology by examining the sociocultural determinants and consequences of the family in the United States and other cultures. Students in such diverse fields as business, law, teaching, communication, nursing, and technology learn how the family is integrated into the segment of society in which they intend to work. It is designed for students planning to work directly with families as social workers, family life professionals or clinical psychologists.

**Required courses:**

- **ANTH 135 Introduction to Cultural Anthropology** (satisfies general education requirement III.3) ............... 3
- **ANTH 309 Culture and Personality** .......................................................... 3
- **SOCL 105 Introductory Sociology** (satisfies general education requirement III.3) ........................................ 3
- **SOCL 204 Marriage and Family** ............................................................... 3
- **SOCL 305 Sociology of Childhood and Youth** ........................................... 3
- **SOCL 344/WMST 344 Sociology of Gender** (satisfies general education requirement III.4 and the cross-cultural/international studies requirement) ........................................................................... 3
- **SOCL 450 The Family** ............................................................................ 3

**Total** ...................................................................................................... 21 hours

**NOTE:**

- These courses satisfy both general education requirements and requirements of the minor. In order to avoid taking excess hours, students are advised to take these courses, or approved substitutes from another institution, as part of the general education requirements.

### Sociology Minor

**Secondary, K-12, and Special Education-Secondary Teacher Certification (not available to social studies group majors)**

**ISIS minor code: SC03**

Successful completion of this minor, in the context of other program requirements, qualifies the student for recommendation for endorsement in sociology. Certification code “CF.” The certification test covering this field is #12, “Sociology.”

- **SOCL 105 Introductory Sociology** (satisfies general education requirement III.3) ........................................ 3
- **ANTH 135 Introduction to Cultural Anthropology** (satisfies general education requirement III.3) ............... 3
- Eight hours of sociology or criminology courses at the 300 level or above .... 8
- **Six hours of elective courses. Any course in anthropology must be at the 300 level or above.** ......................................................... 6

**Total** ...................................................................................................... 20 hours

**NOTE:**

- Social work courses may not be counted.

- These courses satisfy both general education requirements and requirements of the minor. In order to avoid taking excess hours, students are advised to take these courses, or approved substitutes from another institution, as part of the general education requirements.

### Anthropology Courses

- **ANTH 135 Introduction to Cultural Anthropology** ................................ 3 hrs
  Man's adaptation to natural and cultural environments focusing upon primitive and non-western societies. The basic institutions of human society such as kinship, religion, law, politics and economics.

- **ANTH 140 Introduction to Prehistoric Anthropology** ................................ 3 hrs
  A survey of the evolution of human societies using materials from primate studies, early man, and archeological findings.

  **Prereq:** **ANTH 135.**

- **ANTH 150 Introductory Archeology** ...................................................... 3 hrs
  A general survey of the field of archeology: the methodologies and analyses employed in the study of prehistoric cultures.

  **Prereq:** **ANTH 135.**

- **ANTH 177/178/179 Special Topics** ....................................................... 1/2/3 hrs
  An exploration and study of topics not covered in other departmental offerings.
  Students may elect more than once, provided different topics are studied.

  **Prereq:** Department permission.

- **ANTH 200 Writing for Anthropology** .................................................... 3 hrs
  This course will teach students the necessary writing and research skills for anthropology. Students will also learn how to use library resources for anthropological research.

  **Prereq:** Sophomore, junior, or senior standing, **ANTH 135, ENGL 121, and one additional anthropology course at the 100, 200 or 300 level.**

- **ANTH 210 History of Anthropological Theory** .................................... 3 hrs
  A survey of various theoretical approaches within the field of cultural anthropology. The course will span the period from the mid-19th century to the present, covering theoretical perspectives that have dominated European and American schools of anthropology.

  **Prereq:** **ANTH 135.**
ANTH 233 Peoples and Cultures of Mexico 3 hrs
A regional, historical and topical survey of Mexican cultures.
Prereq: ANTH 135.

ANTH 236 Peoples and Cultures of Africa 3 hrs
A regional, historical and topical survey of African cultures.
Prereq: ANTH 135.

ANTH 237 Indians of North America 3 hrs
A regional, historical and topical survey of aboriginal North American cultures.
Prereq: ANTH 133 or department permission.

ANTH 245 Culture of Japan 3 hrs
A historical and topical survey of Japanese culture.
Prereq: ANTH 135 or department permission.

ANTH 248 Peoples and Cultures of the Pacific 3 hrs
A regional, historical and topical survey of aboriginal Pacific cultures.
Prereq: ANTH 135.

ANTH 277/278/279 Special Topics 1/2/3 hrs
An examination of topics in anthropology not normally covered in the curriculum.
Students may elect this course several times, provided different topics are studied.
Prereq: ANTH 135.

ANTH 299 Culture and Personality 3 hrs
An analysis of the manner in which group and cultural factors influence the growth and change of personality. The impact of personality types on group life.
Not open to those with credit in SOCL 309.
Prereq: SOCL 105 or ANTH 135.

ANTH 304 Medical Anthropology 3 hrs
Ways in which various cultures define, explain, and treat physical and psychic illness. Different approaches to curing including witchcraft, sorcery, spiritual and psychic healing, and the use of hallucinogens compared with contemporary medical practices.
Prereq: ANTH 135 or department permission.

ANTH 305 Anthropology of Law and Politics 3 hrs
Comparative study of political systems in primitive and peasant societies, local-level politics, government and law; examined from an anthropological perspective.
Prereq: ANTH 135 and sophomore standing.

ANTH 306 Social and Cultural Change 3 hrs
A study of the theories and problems of change in developing and advanced societies. Not open to those with credit in SOCL 336.
Prereq: ANTH 135 or SOCL 105.

ANTH 308 Anthropology of Religion 3 hrs
The anthropological study of religious belief and ritual in primitive and peasant societies.
Prereq: ANTH 135 and sophomore standing.

ANTH 340 Language and Culture 3 hrs
A study of the relation of language to social behavior and modes of thought in unilingual and multilingual speech communities.
Prereq: ANTH 135 or LNG 201 or LNGE 223.

ANTH 345 Qualitative Methods 3 hrs
A review and examination of social science research methods that entail fieldwork, participant observation, naturalistic experimentation, and the analysis of cultural data. Not open to those with credit in SOCL 345.
Prereq: ANTH 135 or SOCL 105 or department permission.

ANTH 355 Anthropology of Women 3 hrs
The role of women in diverse cultural contexts. Theories dealing with the position of women. Life histories of women constitute the basic reading in the course.
Prereq: ANTH 135.

ANTH 377/378/379 Special Topics 1/2/3 hrs
An examination of topics in anthropology not normally covered in the curriculum in which the distinctive perspective and methodology of anthropology are emphasized. Students may elect this course several times, provided different topics are studied.
Prereq: ANTH 135.

ANTH 387 Cooperative Education in Anthropology 3 hrs
Practical experience in industrial, business or government settings that provides job skills. Offered on a credit/no credit basis.
Prereq: 12 hours of anthropology, six of which must be at the 300 level or above.

ANTH 389 Kinship and Social Structure 3 hrs
The comparative study of kinship and social structure traced from primitive through complex societies.
Prereq: ANTH 135, ANTH 210 and one additional ANTH course at the 300 level.

ANTH 399 Seminar in Anthropological Theory 3 hrs
An intensive examination of theoretical approaches to the study of cultural phenomena. Emphasis will be placed upon the critical reading of primary source materials seminal to the development of various theoretical stances within the discipline of anthropology. This course will be organized around written and oral presentations by students.
Prereq: Four courses in anthropology including ANTH 140, ANTH 200, ANTH 210 and senior standing.

ANTH 411 Senior Seminar in Anthropology 3 hrs
An intensive study of specific subdisciplinary issues in the context of current anthropological theory and ethnographic practice.
Prereq: ANTH 135, ANTH 140, ANTH 200, ANTH 210 and ANTH 349, ANTH 345 or ANTH 437, and one additional ANTH course at the 300 level. Senior anthropology majors only.

ANTH 477/478/479 Special Topics 1/2/3 hrs
An examination of topics in anthropology not normally covered in the curriculum in which the distinctive perspective and methodology of anthropology are emphasized. Students may elect this course several times, provided different topics are studied.
Prereq: ANTH 135.

ANTH 487 Cooperative Education in Anthropology 3 hrs
Practical experience in industrial, business, or government settings that provides job skills. Offered on a credit/no credit basis.
Prereq: Department permission.

ANTH 497/498/499 Individualized Reading and Research in Anthropology 1/2/3 hrs
Directed reading and research on problems within the field of anthropology.
Prereq: ANTH 135 and department permission.

Criminology Courses

CRM 277/278/279 Special Topics 1/2/3 hrs
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

</tr>
<tr>
<td>SOCL 250</td>
<td>Social Statistics I</td>
<td>3 hrs</td>
<td>Introduction to the evaluation of empirical data and the organization of bivariate and univariate data using descriptive and inferential statistical techniques. Prereq: SOCL 105 and level 3 Math Placement or MATH 098, MATH 093B, MATH 104, or MATH 105.</td>
</tr>
<tr>
<td>SOCL 277/278/279</td>
<td>Special Topics</td>
<td>1/2/3 hrs</td>
<td>A single topic is covered each semester, selected as the interest and/or problems change. Students may elect this course several times, provided different topics are studied, but only twice for credit toward a major or minor in sociology. Prereq: SOCL 105.</td>
</tr>
</tbody>
</table>
SOCL 303 Sociology of Childhood and Youth
Childhood and youth as elements of social organization. The relationship between social structure and the emergent personality of the individual; normality and deviance as social processes.
Prereq: SOCL 105.

SOCL 304 Methods in Sociological Research
Methods used in sociological research and their various applications. Participation in conducting a survey.
Prereq: SOCL 105.

SOCL 306 The Urban Community
Ecological and social organization of urban life. The metropolitan trend in the United States and the social problems created by it.
Prereq: SOCL 105.

SOCL 307 Industrial Sociology
The social structure of the workplace, the work experience of the participants and the relation of both to the community and to society. Formal structure of large-scale organizations and the operation of small groups within them.
Prereq: SOCL 105.

SOCL 308 Social Psychology
Introductory study of the order and regularity underlying processes of human interaction. Motives and attitudes, social norms and roles, the socialization process, personality and group membership. The effect of group membership upon individual behavior. Credit cannot be earned in both SOCL 308 and PSY 309.
Prereq: SOCL 105.

SOCL 309 Culture and Personality
An analysis of the manner in which group and cultural factors influence the growth and change of personality. The impact of personality types on group life. Not open to those with credit in ANTH 309.
Prereq: SOCL 105 or ANTH 135.

SOCL 310 Contemporary American Class Structure
The determinants and consequences of social class structure in America. The nature of social classes, status groups, and the distribution of power from various theoretical perspectives. The relationships between social class and the family, schools, government, religion and recreation both with reference to the total system and to various racial and regional subsystems.
Prereq: SOCL 105.

SOCL 311 Social Gerontology
Demographic and sociocultural factors in aging, the aging individual as a person, older people as groups and aggregates within the culture and structure of a changing society, the manner in which society attempts to meet the needs of aging people and the aged.
Prereq: SOCL 105.

SOCL 312 Medical Sociology
Social behavior and social organization as factors in disease distribution. The sociological analysis of medical care, organization and practitioners.
Prereq: SOCL 105 and sophomore standing.

SOCL 315 Sociology of Religion
A sociological analysis of religious organizations and the institution of religion including the interaction between religious organizations and other institutions and associations, and the role of religion in social movements and social change.
Prereq: SOCL 105.

SOCL 321 Cooperation and Conflict in Society
The principles of cooperation, cooperation in our competitive-individualistic society, cooperative skills, and forms of mutual aid are examined. Students learn cooperation through doing, as well as reading and writing, including a variety of group projects, exercises and discussion.
Prereq: SOCL 105.

SOCL 334 Population
Population size and composition, and their impact on society; determinants and consequences of natality, mortality and migration; the relationship between human numbers and resources and its politico-economic implications; population theories and policies of population control.
Prereq: SOCL 105.

SOCL 336 Social and Cultural Change
Survey of the theories and problems of change in developing and advanced societies. Not open to those with credit in SOCL 336.
Prereq: SOCL 105 or ANTH 135.

SOCL 339 Sociology of Love
A sociological examination of love, emphasizing typologies, scientific research and cross-cultural comparisons. Special attention is given to the analysis of love in terms of feelings, thoughts, behaviors and attitudes.
Prereq: SOCL 105.

SOCL 341 Quantitative Methods of Social Research I
Examination and review of research methods in behavioral sciences and the nature of empirical data, organization of univariate and bivariate data. Not open to those with credit in SOCL 250 or SOCL 304. Must be followed by SOCL 342.
Prereq: SOCL 105.

SOCL 342 Quantitative Methods of Social Research II
Further review and applications of research methods and introduction to statistical inference. Not open to those with credit in SOCL 250 or SOCL 304.
Prereq: SOCL 341.

SOCL 344 Sociology of Gender
Analysis of past, present and future sex roles; the changing roles of women and men, and the conflicts and consequences of these changes on marriage and family systems in the United States.
Prereq: SOCL 105.

SOCL 345 Qualitative Methods
A review and examination of social science research methods that entail fieldwork, participant observation, naturalistic experimentation, and the analysis of cultural data. Not open to those with credit in ANTH 345.
Prereq: SOCL 105 or ANTH 135 or department permission.

SOCL 352 Sociology of Education
Using the traditional lecture method combined with small-group interactive exercises, this course will systematically examine the institution of American public education by focusing on the interplay between education, its social history, gender and race, environment, social control, ideology, the school in a global economy, and social structure in the formation and procession of schooling through a variety of theoretical scopes.

SOCL 375 Political Sociology
The structure of political systems analyzed from an individual and social system perspective.
Prereq: SOCL 105. Junior standing.

SOCL 377/378/379 Special Topics
One topic is covered each semester, selected as the interest and/or problems change. Students may elect this course several times, provided different topics are studied, but only twice for credit toward a major or minor in sociology.
Prereq: SOCL 105.

SOCL 387 Cooperative Education in Sociology
Practical experience in industrial, business, or government settings to provide job skills. Offered on a credit/no credit basis.
Prereq: Department permission.
SOCL 402 Group Dynamics 3 hrs
Structure and interaction processes of small groups. Cohesiveness, group standards, conformity and deviance, leadership, group emotion, communication, group roles and sociometrics.
Prereq: SOCL 105.

SOCL 403 Modern Sociological Theory 3 hrs
The rise and development of sociological thought from Comte to the present. The works of various European and American schools analyzed and critically appraised in terms of their value in empirical research.
Prereq: SOCL 105.

SOCL 405 Senior Seminar in Sociology 3 hrs
The purpose of this course is to integrate sociological knowledge, theory and methods, and relate them to applications within the student's discipline and profession.
Prereq: SOCL 105. Senior standing.

SOCL 412 Law and Society 3 hrs
Law as a social and cultural product; the interrelationships between law and social institutions. Not open to those with credit in CRM 412.
Prereq: SOCL 105.

SOCL 448 Collective Behavior 3 hrs
Spontaneous, transitory and volatile collective behavior contrasted with the relatively stable, institutionalized patterns of interaction. Analysis of rumor transmission, crowd behavior, mass behavior, and the emergence of organized social movements.
Prereq: SOCL 105.

SOCL 450 The Family 3 hrs
The family as a basic social institution. Various types of family systems throughout the world with special emphasis on the American family.
Prereq: Junior standing and SOCL 105 or ANTH 135.

SOCL 451 Sociology of Work and Occupations 3 hrs
Social aspects of work. Recruitment, career patterns, professionalization, sociology of the workplace and labor force.
Prereq: SOCL 105.

SOCL 462 Complex Organizations 3 hrs
An examination of several types of large organizations, with emphasis on the nature of bureaucratic organizations. Theoretical and empirical studies of organizational growth, recruitment, control and relations between organizations.
Prereq: SOCL 105.

SOCL 465 Sociology of Revolution 3 hrs
This course surveys major theoretical perspectives that have been used by social scientists to interpret and explain revolutions. With the aid of the best available theories, the course will examine a series of historical instances, ranging from the French Revolution of the 18th century, through the Russian and Chinese Revolutions, to recent revolutions in post-colonial or dependent countries, such as the Iranian Revolution.
Prereq: SOCL 105.

SOCL 474/478/479 Special Topics 1/2/3 hrs
A single topic is covered each semester, selected as interest and/or problems change. Students may elect this course several times, provided different topics are studied, but only twice for credit toward a major or minor in sociology.
Prereq: SOCL 105.

SOCL 487 Cooperative Education in Sociology 3 hrs
Practical experience in industrial, business, or government settings to provide job skills. Offered on a credit/no credit basis.
Prereq: SOCL 387/CRM 387.

SOCL 489 Internship in Sociology 3 hrs
Students are assigned a minimum of eight hours per week to a governmental or private organization dealing with a sociological problem, issue, service or concern. The placement, in agreement with the field instructor, provides supervised learning experiences appropriate to the objectives of the undergraduate program. A weekly seminar relates field experience to theory.
Prereq: SOCL 105, senior standing in sociology and department permission.

SOCL 497/498/499 Independent Study 1/2/3 hrs
Directed reading and research on problems within the field of sociology.
Prereq: Department permission.

ANTH 214/WMST 214 Racial and Cultural Minorities (satisfies general education requirement III.4 and the cross-cultural/international studies requirement) (3)
ANTH 344/WMST 344 Sociology of Gender (satisfies general education requirement III.4 and the cross-cultural/international studies requirement) (3)

**Elective courses**

6

Special topics courses (WMST 279/378/379/478/479) and independent study (WMST 497/498/499) offerings may be substituted for either restricted or other electives with department permission.

Six hours from the following elective courses:

AAS 361 The African American Family (3)
ANTH 214/WMST 214 Racial and Cultural Minorities (satisfies general education requirement III.4 and the cross-cultural/international studies requirement) (3)
ANTH 344/WMST 344 Sociology of Gender (satisfies general education requirement III.4 and the cross-cultural/international studies requirement) (3)

**Total**

30 hours

**NOTE:**

These courses satisfy both general education requirements and requirements of the major. In order to avoid taking excess hours, students are advised to take these courses, or approved substitutes from another institution, as part of the general education requirements.
Women's Studies Courses

WMST 116/PHIL 116 Special Topics
1/2/3 hrs
Different subject matter will be taught each semester offered, including interdisciplinary courses in women's studies. Students may take these courses more than once provided the subject matter is different, but no more than two such courses may be counted toward the minor in women's studies.
Prereq: Department permission.

WMST 200 Introduction to Women's Studies
3 hrs
An overview of women in society. Historical and literary perspectives on women's contributions; socialization, roles and status in professional fields.

WMST 205 Women in Business
3 hrs
Social and business conditions that support the entry of women to executive positions in business; career opportunities at the professional and executive levels of business.

WMST 226 Philosophy of Women
3 hrs
A consideration of philosophical issues concerning the nature and status of women. Readings from both traditional and contemporary sources. Topics may include scientific and religious views, the ideal society and women's place in it, varieties of feminism, views on sexuality, family and reproduction, and work and the economy.

WMST 242 Psychology of Women
3 hrs
Theories and empirical research concerning personality development in females. Examination of the origins of the behavior of women.
Prereq: PSY 101 or PSY 102.

WMST 277/278/279 Special Topics
1/2/3 hrs
Different subject matter will be taught each semester offered, including interdisciplinary courses in women's studies. Students may take these courses more than once provided the subject matter is different, but no more than two such courses may be counted toward the minor in women's studies.
Prereq: Department permission.

WMST 322 Women and Gender in the Ancient World
3 hrs
An investigation of women in antiquity, focusing on the sex-gender system of Greek and Roman societies. Literary, inscriptive and other evidence will be studied to disclose the classical roots of western beliefs and attitudes about women.
Prereq: One 100-level course in history.

WMST 328 Economics of Women
3 hrs
The changing economic role of women in the labor force. Analysis of policies affecting earnings, employment, and work and family issues in traditional and nontraditional occupations. Includes some international comparisons.
Prereq: One 100, 200, or 300 level course in economics.

WMST 335 History of Women in Europe
3 hrs
A study of the history of women and views of women in western society from the 18th century to the present. Emphasizes the struggles, setbacks and achievements of the women's movements in the context of modern European history.
Prereq: One course in history.

WMST 336 History of Women in the United States and Great Britain, 1800 to the Present
3 hrs
A comparative study of the history of women in the United States and Great Britain. Examines the ideology of the nature and role of women, the history of women's lives, the impact of industrialization, and the feminist movements of the 19th and 20th centuries.
Prereq: One course in history or department permission.

WMST 344 Sociology of Gender
3 hrs
Analysis of past, present and future sex roles; the changing roles of women and men, and the conflicts and consequences of these changes on marriage and family systems in the United States.
Prereq: SOCL 105 and sophomore standing.

WMST 355 Anthropology of Women
3 hrs
The role of women in diverse cultural contexts. Theories dealing with the position of women. Life histories of women constitute the basic reading in this course.
Prereq: ANTH 105 or department permission.

WMST 377/378/379 Special Topics
1/2/3 hrs
Different subject matter will be taught each semester offered, including interdisciplinary courses in women's studies. Students may take these courses more than once provided the subject matter is different, but no more than two such courses may be counted toward the minor in women's studies.
Prereq: Department permission.

WMST 387 Cooperative Education in Women's Studies
3 hrs
This course provides students with an opportunity to deal directly with issues affecting women by working with agencies and local organizations.
Prereq: Department permission.

WMST 400 Capstone Seminar
3 hrs
A culminating experience designed to enable students to understand, demonstrate and improve skills acquired as majors or minors in the program, and to facilitate the integration of interdisciplinary knowledge.
Preques: WMST 200 and WMST 226/PHIL 226.

WMST 420 Women and Technology
3 hrs
An interdisciplinary course designed to familiarize students with various concepts of technology, technological change, and technological society; probe the problems and advantages women face in technological society or technology-based professions; explore women's roles in several specific technology professions.

WMST 426 Topics in Gender and Philosophy
3 hrs
An examination of gender and its relationship to other issues from a philosophical perspective. Possible topics include rationality, sexuality, aesthetics, ethics and political theory.
Preques: Two courses in philosophy.

WMST 436 Women in Art
3 hrs
A survey of the contributions of female artists in the history of art. Discussions will include the history of women as patrons of the arts, and the uses of the female image in art.
Preques: FA 108 or department permission.

WMST 443 Women in Literature
3 hrs
A study of women and their experiences as described in literature.
Preques: Two courses in literature.

WMST 477/478/479 Special Topics
1/2/3 hrs
Different subject matter will be taught each semester offered, including interdisciplinary courses in women's studies. Students may take these courses more than once provided the subject matter is different, but no more than two such courses may be counted toward the minor in women's studies.
Preques: Department permission.

WMST 487 Cooperative Education in Women's Studies
3 hrs
This course provides students with an opportunity to deal directly with issues affecting women by working with agencies and local organizations.
Preques: Department permission.
WMST 497/498/499 Independent Study 1/2/3 hrs
Advanced study on an individual basis in areas in which the program does not offer formal courses. These courses are restricted to juniors and seniors.
Prereq: Department permission.

Mission Statement:
To provide a Learning Edge through our commitment to teaching and active learning, applied research, professional service and lifelong development, all in partnership with our stakeholders.
The College of Business, in partnership with our stakeholders, prepares individuals for careers in business by providing professionally accredited programs at the undergraduate and graduate levels, as well as offering professional development education to the business community. The college values and promotes active learning, life-long development, applied research, professional service and an international perspective in all of its programs.

With all the benefits of a large university, the College of Business provides:

- Small classes taught by professors with practical experience.
- A participatory environment that promotes critical thinking and opportunities to participate in applied research that expands knowledge and provides practical solutions to real world problems.

The bachelor of business administration degree is offered to students majoring in any one of 12 undergraduate professional programs:

- Accounting
- Bachelor-Master's degree in accounting (150-hour program)
- Accounting Information Systems
- Computer Information Systems
- Economics
- Entrepreneurship
- Finance
- General Business
- International Business
- **Language and World Business**
- Management
- Marketing

NOTE:

*Economics is offered in cooperation with the Department of Economics.

**The joint bachelor of business administration-bachelor of arts degree in language and world business is offered in cooperation with the Department of Foreign Languages and Bilingual Studies, College of Arts and Sciences and the EMU World College.

Graduate programs lead to a master's of business administration or master of science degree in accounting, computer-based information systems, and in human resource management and organization development. For descriptions of graduate programs and courses in the College of Business, consult the graduate catalog.

Accreditation of all undergraduate and graduate programs is by AACSB: The International Association for Management Education.

Admission

Please contact the following person for admissions information:

Amelia S. Chan
Assistant Dean and Advising Coordinator
401 Gary M. Owen Building
734.487.2344/FAX: 734.480.0618
E-mail: amelia.chan@emich.edu

Admission to the college of business is open to student applicants with 60 or more hours completed who are enrolled in the last one or two of the 16 required courses to qualify for admission. Students wishing to advance register for classes should return their applications to the College of Business Undergraduate Business Program Office by the following deadlines:

Winter semester ........................................... November 15
Spring and summer sessions .......................... March 15
Fall semester ............................................. July 15

NOTE:

*Students who do not meet the above deadline for application to the College of Business should contact the Undergraduate Business Programs Office regarding late application.

Applicants must bring to the Undergraduate Business Program Office a progress report, tabulation of transfer credits, and transcripts or grade reports in order to be properly approved immediately for registration in 300- to 400-level business courses.

Students must be admitted to the University to be considered for admission to the College of Business. However, students admitted to the University, are not automatically admitted to the College of Business.

Business majors who wish to enroll in 300- to 400-level business courses must contact the Undergraduate Business Program Office.

To qualify for admission, students must have successfully completed 56 hours with a minimum cumulative grade point average of 2.5. In addition, the following courses (1 through 14) must be recognized as successfully completed by the University, and the business courses (9 through 14) must be completed with a minimum earned grade of "C-" ("C" required for transfer courses) in each:

1. ENGL 121 English Composition (satisfies general education requirement (I))
2. CTAS 121 Fundamentals of Speech (satisfies general education requirement (I.2)) or CTAS 124 Fundamentals of Speech (satisfies general education requirement (I.2))
3. An English, foreign language or communication elective
4. MATH 118 Mathematical Analysis for Social Sciences I (satisfies general education requirement (1.4))
5. ECON 201 Principles of Economics I (satisfies general education requirement (III.3)) and ECON 202 Principles of Economics II (satisfies general education requirement (III.4))
6. PLSC 112/PLSC 113 American Government (satisfies general education requirement (III.1))
7. Philosophy or religion (logic or ethics strongly recommended)
8. PSY 101/PSY 102 General Psychology (satisfies general education requirement (II.2 or II.3))
9. COB 200 Introduction to Business
10. ACC 240 Principles of Accounting I and ACC 241 Principles of Accounting II
11. LAW 293 Legal Environment of Business
12. IS 215 End-User Computing (satisfies general education requirement (1.15))
13. MGMT 202 Business Communication
14. DS 265 Business Statistics I

Business students may not enroll in 300- to 400-level business courses prior to completing admission requirements. Students who fail to satisfy admission requirements may be involuntarily withdrawn from upper-division business courses by the college.

Non-business majors need not apply for admission to the College of Business but must contact the Undergraduate Business Program Office. Students will be asked to provide academic records to complete a student intake sheet to confirm their program of study and preparation. Students must be of junior standing (56 or more hours) and in good academic standing (2.00 grade point average or better) to enroll in 300- and 400-level College of Business courses.

No student majoring in a program outside of the College of Business may be given more than 30 hours of credit for courses offered in EMU's College of Business. This limitation applies to those minors in business as well as to those taking business courses for general electives.

Non-business majors also must satisfy stated course prerequisites listed in this catalog or updated in the current class schedule bulletin.

Prospective transfer students are strongly recommended to contact the Undergraduate Business Program Office for a review and evaluation of transfer credits individually and unofficially. Prospective transfer students should present unofficial transcripts/records. Once an applicant is accepted as a transfer student at Eastern Michigan University, an official tabulation of credit will be provided to the student during the initial advising appointment at Academic Advising in 301 Pierce Hall. Business-intent students will be advised in the College of Business Undergraduate Programs Office after the initial advising appointment at Academic Advising. Transfer business students are required to formally apply for
admission to the College of Business and must meet all college admission requirements.

Second bachelor's degree students must apply to the Undergraduate Business Programs Office. Second bachelor's degree students must be advised by the EMU second bachelor's coordinator in the Academic Advising Center at 301 Pierce Hall, to set up a program of study. Second bachelor's candidates working toward a business degree must formally apply for admission to the College of Business and must meet all college admission requirements.

Special students and nonmatriculated students may not be eligible to register in College of Business courses. Such students should contact the Undergraduate Business Program Office for advising and course approval.

Guest students may enroll in business classes for only one semester with approval in advance from the College of Business. Guest students must provide proof of guest status and completion of 56 hours, as well as completion of appropriate prerequisites for intended 300- to 400-level course work. An unofficial transcript from the student's parent institution may be used for advising purposes only. However, for admission to the University, an official transcript is required.

Business Scholars Program

This program is designed to attract EMU Honors Program members to the College of Business. Students benefit from being members of a select group in their area of interest, enjoy mutually supportive relationships, course work designed especially for them, the mentorship of College of Business faculty, and easier access to courses in the preferred area of study, and the special recognition, which accompanies membership in the group. For additional information contact the EMU Honors Program at 734.487.0341 or 734.487.2344.

E-mail: amelia.chan@emich.edu

The bachelor of business administration degree requires that students successfully complete a minimum of 60 hours in business within the minimum 124 hours required to qualify for a B.B.A. degree. No more than 50 percent of the 124 hours may be completed in the business courses.

In the program of study outlined below, the number of general education hours in symbols and communication, mathematics, science and technology, social science, and arts and humanities is indicated. Students must take the specified courses as shown. In some cases, courses taken to meet general education requirements also may satisfy specific program requirements, as in the case of economics, mathematics, and computer literacy. (Please refer to EMU General Education Graduate Requirements).

Students must meet requirements for admission to the College of Business before enrolling in upper-division (300- or 400-level) business courses.

The curriculum described meets the major and minor requirements for graduation. No additional minor is needed.

The business core and major requirements in effect at the time of the student's initial registration at Eastern Michigan University (see the EMU seven-year rule), or the requirements of a subsequent catalog, including those in effect at the time of the student's graduation, may be used to complete graduation requirements.

Graduation Requirements for Bachelor of Business Administration

Academic standards require that students maintain a 2.00 grade point average. Students who fail to achieve this cumulative 2.00 GPA will be considered to be on probation by the University. Two consecutive semesters below a 2.00 earned or cumulative GPA may result in dismissal from the University.

To qualify for graduation, students must maintain a GPA of 2.00 in the business administration core and 2.00 in their major as well as maintaining a 2.00 overall EMU GPA.

The Joint Bachelor of Business Administration-Bachelor of Arts Degree in Language and World Business

ISIS major code: BU02

The joint bachelor of business administration-bachelor of arts degree in language and world business is a double degree for undergraduates planning to enter a career in world business or international government and public administration. The major objective of the program is to prepare students for international careers with business and language skills along with the knowledge needed to function effectively in the increasingly competitive world economy. The language and world business joint degree provides students with both practical, on-site work experience as well as a thorough academic background in international affairs and world enterprise.

Students in the language and world business program receive two separate yet integrated degrees: a bachelor of business administration, with a major in any one of eight professional areas, and a bachelor of arts in language and international trade. The language and international trade major trains students in French, German, Japanese or Spanish for business and professional situations. It also includes cultural and area studies. Students additionally may take examinations leading to certification in business French or German.

All eligible language and world business joint degree students may take part in a cooperative education internship. Qualified students are eligible for placement in companies in locations such as Paris, Rome, Madrid and Stuttgart. Companies around the world that have hosted EMU interns include: Mercedes-Benz, Volkswagen, Bosch, Siemens, Renault, ELF Pechnochemical, Kinki, Société Générale de Surveillance, Foreign Trade Bank of Madrid, Unesca Corporation, and others, including foreign branches of U.S. Fortune 500 companies. The goal is to place qualifying students abroad where they can use their language and business skills in an actual international professional environment. Students who do not go abroad may be placed regionally and work one or two semesters for an employer in a staff support or administrative capacity. Both foreign and domestic internships are contingent on the availability of trainee positions.

The program is designed for students who have completed coursework in a foreign language and can be placed into third-year language classes. Students are advised to take this course, or an approved substitute from another institution, as part of the general education requirements.

Advising

Please contact the following persons for advising and additional information:

Ronald Ceré
LWB and Foreign Language for Business Adviser
Department of Foreign Languages and Bilingual Studies
219 Alexander
734.487.0136/Fax: 734.487.0338
E-mail: fla_cere@online.emich.edu

Amelia S. Chan
Assistant Dean and LWB/International Business Adviser
College of Business
401 Gary M. Owen
734.487.2344/Fax: 734.488.0618
E-mail: amelia.s.chan@emich.edu

Advising is offered to all joint B.B.A.-B.A. language and world business students, both in their major language and in their business major area. Faculty are available to discuss career opportunities and to assist students who are undecided about a major. Foreign language advising is available from appropriate advising coordinators who will recommend specific courses required in each language pattern.

E-mail: thomas.clanciolo@emich.edu

The Department of Accounting prepares students for professional careers related
to the fields of accounting and accounting information systems. Within each
of these major areas, students can develop their expertise in a variety of
areas including financial accounting, budgeting, managerial accounting, accounting
information systems, internal auditing, governmental accounting, taxes and
auditing. Because of the need for good communication in business, students are
encouraged to elect courses in English composition and speech beyond the basic
requirements.

Advising assistance, both academic and career, is provided by the faculty and is
available in the department office Monday through Friday while school is in
session, or by appointment.

Graduate study leads to the master of science degree in accounting (M.S.A.).
The M.S.A. degree program and courses are described in the graduate catalog.

Bachelor-Master's Degree in Accounting (B.B.A.-
M.S.A.)

Accounting
ISIS major code (undergraduate): AC0202
ISIS major code (graduate): AC9901

Accounting Information Systems Track
ISIS major code (undergraduate): AC0402
ISIS major code (graduate): AC9902

CPA candidates must have completed 150 hours of education before being ad-
mitted as members of the American Institute of Certified Public Accountants.
Admission Requirements

Following are the minimal standards for admission to the 150-hour combined B.B.A and M.S.A. degree program in accounting. Generally, each item should be satisfied, though the candidate's overall record is considered most significant. Thus, a slight deficiency in one criterion may be compensated by the candidate's strength in other areas. Special circumstances, particularly improvement in recent performance, will be considered on their merits by the 150-hour program policy committee. Transfer credits and grades will be evaluated in terms of Eastern Michigan University equivalency.

Initial admission is dependent on:
1. completion of 90 hours of undergraduate course work including College of Business requirements, general education requirements and ACC 341 Intermediate Accounting II.
2. a cumulative GPA of 3.0 on a 4.0 scale.
3. the candidate's written statement of personal goals.
4. an interview with the 150-hour program director/adviser.

Admission to the graduate level requires:
1. completion of 120 hours of undergraduate course work including course content noted under initial admission above and the undergraduate components (i.e., required and restricted electives).
2. a GMAT score of 500 (must be taken during the fourth year, so that the candidate's score is received before admission to the fifth year).
3. completed application and payment of fee to the Graduate School.

If the candidate is an accounting undergraduate from another four-year accredited school and plans to complete the graduate-level program at EMU, he/she must meet the minimum requirements set for graduate-level admission noted above, in addition to the bachelor's degree. The candidate is encouraged to apply to EMU at the beginning of his/her senior year and take the Graduate Management Admission Test (GMAT) during that same year.

To inquire about the specific requirements and to develop the program of study, contact:

Director of Graduate Business Programs
401 Gary M. Owen Building
Eastern Michigan University
Ypsilanti, MI 48197
734.487.4444

Accounting Major
ISIS major code: AC02

Students majoring in accounting are prepared for professional careers in three major areas:

Public accounting, which leads to a career as a Certified Public Accountant (CPA). CPA firms provide a wide variety of professional services to their clients such as audit, tax, management advisory and personal financial planning.

Strategic managerial accounting, which leads to careers in strategic cost management, financial accounting, budget analysis, cost estimation and determination, and internal and operational auditing. The strategic managerial accountant generates and interprets operating and financial data that help management in their strategic and operational decision making.

Not-for-Profit or governmental accounting, which leads to positions in not-for-profit organizations and local, state and federal governmental agencies. These professionals provide financial information about the effectiveness of operations, similar to management accountants; review tax returns, analyze cost reports on projects funded by government; and assist regulatory commissions in monitoring private industry and individual businesses.

Internal Audit is a track available to students who seek careers in large private corporations. Internal auditors are viable candidates for executive development programs in large organizations.

Through an optional internship program, students with good academic records have an opportunity to work in public accounting or industry. These paid (at market wages) internships provide education, exposure to professionals and opportunities to network.

Upon graduation, accounting majors who plan to become Certified Public Accountants (public accounting), Certified Management Accountants (industrial), not-for-profit or governmental accounting), or Certified Internal Auditors (industrial, not-for-profit or governmental accounting) will qualify to sit for national certification examinations. In Michigan, CPA candidates will qualify to sit for the exam upon graduation, but they will need 150 hours of education for licensure beginning July 1, 2003. However, many states require CPA candidates to have earned 150 hours of credit, or possibly a master's degree, before sitting for the exam. Be sure you know the requirements for your state.

The general requirements for the bachelor of business administration degree, the academic major requirements below, and sufficient electives to meet the minimum of 124 hours for graduation, must be completed.

Accounting Information Systems Major

**ISIS major code: AC04**

Accounting information systems is a four-year program designed to provide a bachelor's degree with a concentration in accounting and computer information systems. The program combines the course work required for a degree in accounting with numerous computer information systems courses. Eastern Michigan University is one of only a few universities in the country offering this unique degree. Accounting information systems majors who obtain this degree are well prepared for careers in a dynamic and ever-changing environment, where knowledge of both accounting and computer information systems is mandatory. Possible career choices include computer systems design, computer assurance services, computer security analysis, internal auditing, public accounting, not-for-profit accounting and strategic managerial accounting.

Upon graduation, accounting information systems majors who plan to become certified public accountants (public accounting), certified management accountants (industrial, not-for-profit or governmental accounting), certified internal auditors (industrial, not-for-profit or governmental auditing), or certified information systems auditors (public accounting, industrial, not-for-profit or governmental accounting) will qualify to sit for national certification examinations. In Michigan, CPA candidates will qualify to sit for the exam upon graduation, but they will need 150 hours of education for licensure beginning July 1, 2003. However, many states require CPA candidates to have earned 150 hours of credit, or possibly a master's degree, before sitting for the exam. Be sure you know the requirements for your state.

The general requirements for the bachelor of business administration degree, the academic major requirements below, and sufficient electives to meet the minimum of 124 hours for graduation, must be completed.

### General studies

- **General education requirements**: 46 hours
- **Other requirements**: 15 hours
  - ENGL 121 English Composition (satisfies general education requirement III.1) (3)
  - PLSC 112/PLSC 113 American Government (satisfies general education requirement III.1) (3)

### Minor

No minor is required.

**Elective courses**: 18 hours

**Total**: 124 hours

### Note:

- Students who intend to sit for the CPA examination in Michigan must elect ACC 346 Public and Nonprofit Sector Accounting and should select ACC 451 Advanced Financial Accounting.
- This course satisfies both general education requirements and requirements of the major. In order to avoid taking excess hours, students are advised to take this course, or an approved substitute from another institution, as part of the general education requirements.

### Business administration core courses

- ACC 240 Principles of Accounting I
- ACC 241 Principles of Accounting II
- COB 200 Introduction to Business
- LAW 293 Legal Environment of Business
- MGMT 202 Business Communication
- IS 215 End-User Computing (satisfies general education requirement I.5)
- DS 265 Business Statistics I

**Business administration core courses**: 15 hours

(All 200-level core courses listed above must be completed prior to admission to the College of Business.)

- FIN 350 Principles of Finance
- MKTG 360 Principles of Marketing
- MGMT 386 Organizational Behavior and Theory
- POM 374 Introduction to Production/Operations Management
- MGMT 490 Business Policy

### Specialization

- ACC 340 Intermediate Accounting I
- ACC 341 Intermediate Accounting II
- ACC 342 Managerial Cost Accounting
- ACC 344 Tax Accounting
- ACC 356 Accounting Information Systems
- ACC 445 Auditing
- ACC 448 Information Systems Auditing
- ACC 456 Accounting Information Systems Implementation and Projects
- IS 219 File Processing and COBOL Programming
- IS 380 Introduction to Databases

**Two courses from the following**: 6 hours

- IS 247 Software Design and Programming in Business
- IS 280 Introduction to Expert Systems in Business
- IS 315 Applied Data Structures
- IS 420 Business Data Communications and Computer Networks

### Minor

- **Minor**: 0 hours
- **No minor is required.
- **Elective courses**: 6 hours
- **Total**: 124 hours

### Note:

- This course satisfies both general education requirements and requirements of the major. In order to avoid taking excess hours, students are advised to take this course, or an approved substitute from another institution, as part of the general education requirements.
*Manufacturing Cost Analysis Concentration*

**ISIS major code: IT15**

Manufacturing cost analysis is an interdisciplinary concentration offered by the Departments of Accounting and Industrial Technology to prepare graduates to work with engineers, technical managers, and financial managers in determining the cost of manufactured parts and related services in supplier and end-user companies. Graduates with industrial experience are in high demand. The manufacturing cost analysis is a four-year interdisciplinary program designed to provide a bachelor of science degree in manufacturing with a concentration in manufacturing cost analysis. The program combines coursework required by the Department of Accounting in business administration and accounting, and by the Department of Industrial Technology in manufacturing.

Eastern Michigan University is presently the only university to offer this undergraduate degree program in the United States. Graduates of the degree program will be prepared to work as a member of a team or team leader in determining the cost of manufactured parts and related services. Graduates employed by supplier companies may have the opportunity to negotiate part costs with end-user companies such as DaimlerChrysler, Ford, or General Motors. In turn, cost analysts with previous successful work experience may work for major end-user companies in a leadership role determining the cost of manufactured components.

**Accounting Minor**

(For non-business majors)

**ISIS minor code: ACO 1**

**Accounting Courses**

**ACC 130 Accounting for Non-business Majors**

Introduction to financial information generated by typical business organizations, with special emphasis on the use and interpretation of this information in managerial and financial decision-making process. May not be substituted for ACC 240. Not open to students with credit for ACC 240 or ACC 241.

**ACC 240 Principles of Accounting I**

Use and development of financial information about economic organizations, with special emphasis on the use of financial statements and their creation in the business decision-making and reporting process.

**ACC 241 Principles of Accounting II**

Use and development of accounting information in managerial settings to achieve managerial goals. Use of managerial accounting tools such as budgets and cost analysis in typical business environments.

**ACC 244 Personal Tax Accounting**

Introduction to federal and state income and social security tax problems of individuals. Practice on preparation of individual tax returns. Credit toward a degree will not be permitted for both ACC 244 and ACC 344. (Business education majors may substitute this course for ACC 344 with permission of their department head.)

**ACC 246 Accounting for Public Administrators**

Surveys the use of accounting to manage a public organization. Basic accounting principles, program budgeting, and the construction of internal control systems.

**ACC 277/278/279 Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**ACC 286 Cooperative Education in Accounting**

One term of full-time or two terms of part-time employment at a business or public organization chosen for imparting practical experience in accounting. Use on an accounting major or minor is not permitted. Offered on a credit/no credit basis. Admisibility by application only. This course may be repeated for credit.

**ACC 287 Cooperative Education in Accounting**

One term of full-time or two terms of part-time employment at a business or public organization chosen for imparting practical experience in accounting. Use on an accounting major or minor is not permitted. Offered on a credit/no credit basis. Admisibility by application only. This course may be repeated for credit.

**ACC 296 The Accounting Cycle and Profession**

This course covers the accounting cycle process in manual and computerized environments. The course also explores various accounting occupations. Majors must take this course no later than concurrent with the start of 300-level courses.

**ACC 340 Intermediate Accounting I**

Review of recording and reporting procedures; accounting concepts and theories guiding the valuation and classification of current assets, plant assets, intangible assets and current liabilities.

**ACC 341 Intermediate Accounting II**

Capital stock, rights, options, and retained earnings; long-term liabilities; income tax allocation; long-term investments; prior-period adjustments; funds flow; price level accounting; consignments; installment sales.

**ACC 342 Managerial Cost Accounting**

Accounting information for use in planning objectives and controlling operations. A framework for measuring managerial performance is developed through an analytic treatment of cost behavior under dynamic conditions by employing
such devices as cost-volume-profit relationships, flexible budgeting and standards.

Prerequisites: ACC 240 and ACC 241.

ACC 344 Tax Accounting 3 hrs

History of the income tax; the tax legislative process; tax research; income and loss realization and recognition; capital gains and losses; exclusions; deductions; losses; exemptions; rates, personal tax returns.

Prerequisites: ACC 240 and ACC 241.

ACC 345 Governmental Accounting 3 hrs

Accounting philosophy for nonprofit organizations; principles of fund accounting; the tax process, including program budgeting; institutional (college, hospital, welfare agency) accounting; internal control, data processing.

Prerequisites: ACC 240 and ACC 241.

ACC 355 Accounting Information Systems 3 hrs

Concepts of a responsive information system, including principles of design, profitability and responsibility, accounting and control. Description of typical accounting systems and procedures within the business enterprise.

Prerequisites: ACC 240 and ACC 241 or department permission.

ACC 377/378/379 Special Topics 1/1/3 hrs

An exploration and study of topics not covered in other departmental offerings. Students may elect more than one, provided different topics are studied.

Prerequisites: Department permission.

ACC 445 Advanced Accounting 3 hrs

Consolidation accounting; partnership organization, change and liquidation; and basic accounting; introduction to governmental accounting.

Prerequisite: ACC 341.

ACC 446 Advanced Cost Accounting 3 hrs

Cost concepts on an advanced level such as standard costs and variance analysis; responsibility accounting, direct costing, overhead allocation, break-even; product pricing through return-on-investment methods, divisional income measurement; forecasting with statistical models; capital budgeting; applications of mathematics to cost accounting problems.

Prerequisite: ACC 342.

ACC 447 Advanced Tax Accounting 3 hrs

Tax law applicable to partnerships and corporations; operation distributions; reorganization and liquidation.

Prerequisite: ACC 344.

ACC 448 Auditing 3 hrs

Audit standards, professional responsibility, ethics, internal control evaluation, statistical sampling, and audit of EDP systems.

Prerequisite: ACC 356.

ACC 449 Contemporary CPA Problems 3 hrs

Analysis of current accounting problems faced by the CPA profession. Audit, legal liability, ethics, and theory and practice.

Prerequisite: ACC 440.

ACC 448 Information Systems Auditing 3 hrs

A comprehensive coverage of electronic data processing (EDP) auditing from both a theoretical and pragmatic point of view with special emphasis on control features of a system and its purpose.

Prerequisite: ACC 336.

ACC 450 Internal Auditing 3 hrs

Introduction to the profession of internal auditing. Includes professional standards, techniques, scientific methods, reporting, operational auditing and internal audit management.

Prerequisites: ACC 240 and ACC 241.

ACC 451 Advanced Internal Auditing 3 hrs

A continuing study of the profession of internal auditing. The focus of this course will be on the advanced study of topics that were briefly discussed in the introductory course. Special emphasis will be placed on applying the concepts learned in the introductory course by performing exercises with practical (real-world) applications.

Prerequisite: ACC 450.

ACC 456 Accounting Information Systems Implementation and Projects 3 hrs

A capstone course for the accounting information systems major designed to develop expertise in the implementation of an accounting information system.

Prerequisites: ACC 336 and IS 380, or department permission.

ACC 475 International Accounting 3 hrs

Introduction to accounting in an international environment. Includes the study of environmental factors, performance evaluation, financial reporting, and specific accounting and auditing problems.

Prerequisites: ACC 240 and ACC 241.

ACC 477/478/479 Special Topics 1/1/3 hrs

Specialized accounting topics in relation to changes in the practice of accounting and its regulation by government agencies.

Prerequisites: ACC 341 and department permission.

ACC 489 Accounting Internship 3 hrs

Directed full-time work experience in the accounting phase of a business organization. Use on an accounting major or minor is not permitted. This course may be repeated once for additional credit. Offered on a credit/no credit basis. To be used as an elective only; does not apply on a major or minor.

Prerequisites: Department permission.

ACC 491 Accounting Honors Thesis 3 hrs

A directed studies course for accounting honors students only. An in-depth research thesis or project under the direction of an accounting faculty member is required with an oral examination or final presentation to the faculty and other interested parties upon completion of the thesis.

Prerequisite: Final semester in undergraduate accounting honors program.

ACC 497/498/499 Directed Studies 1/1/3 hrs

Directed study of a problem or group of problems in accounting not otherwise treated in departmental courses.

Prerequisites: Department permission.

Open to Upperclass and Graduate Students

ACC 541 Advanced Financial Accounting 3 hrs

Specialized topics in accounting with major emphasis on conceptual aspects and reporting of consolidated financial statements, international accounting challenges, and foreign currency reporting issues.

Prerequisite: ACC 341 or department permission.

ACC 544 Theory of Individual Taxation 3 hrs

Introduction to the principles of taxation as they relate to individuals in the United States. Among topics covered are: the tax legislative process, income and loss realization, and recognition and tax planning issues.

Prerequisite: ACC 301 or department permission.

ACC 546 Public and Nonprofit Sector Accounting 3 hrs

Accounting issues in governmental and nonprofit entities, including financial reporting, managerial accounting, information systems, auditing, and regulatory and taxation issues. Also included is the SEC's role in financial reporting.

Prerequisite: ACC 340 or department permission.
Decision Science Courses

DS 177/178/179 Special Topics 1/2/3 hrs
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.
Prereq: Department permission.

DS 265 Business Statistics I 3 hrs
Concepts of statistics and applications to business decisions. Elements of probability, random samples, descriptive statistics, sampling distributions, point and interval estimation, hypothesis testing, chi-square analysis, and regression and correlation analysis.
Prereq: IS 215 and either MATH 118 or MATH 120 or MATH 122.

DS 277/278/279 Special Topics 1/2/3 hrs
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.
Prereq: Department permission.

DS 317 System Simulation 3 hrs
Computer-based simulation techniques for business analysis and decision making. Random number and process generators, system simulation models, and specialized computer simulation languages. Simulation of discrete time systems and the GPSS language.
Prereq: IS 215 and DS 265.

DS 367 Business Statistics II 3 hrs
A continuation of the statistical methodology developed in Business Statistics I. Topics include two-sample interval estimation and hypothesis tests, inference about the population variance, and simple and multiple regressions.
Prereq: DS 265.

DS 377/378/379 Special Topics 1/2/3 hrs
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.
Prereq: Department permission.

DS 387 Cooperative Education in Decision Science 3 hrs
Four months of full-time employment at a business or public organization to impart practical experience in decision science disciplines. Offered on a credit/no credit basis for general elective credit only. Admittance by application only.
Prereq: Completion of three hours in decision science systems area and department permission.

DS 465 Applied Linear Statistical Models 3 hrs
An introduction to linear models with an emphasis on business applications. Topics include multiple linear regression models, analysis of variance and multivariate data analysis. Computer packages will be used.
Prereq: DS 265.

DS 477/478/479 Special Topics 1/2/3 hrs
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.
Prereq: Department permission.

DS 487 Cooperative Education in Decision Science 3 hrs
Four months of full-time employment at a business or public organization to impart practical experience in decision science disciplines. Offered on a credit/no credit basis for general elective credit only. Admittance by application only.
Prereq: DS 387. Department permission.

DS 497/498/499 Independent Study 1/2/3 hrs
Directed study of a problem or group of problems in decision science.
Prereq: Department permission.

Finance and Computer Information Systems

Finance and Computer Information Systems

Departmental Administration

Hung-Lian Tang
Department Head
412 Gary M. Owen Building
734.487.2454
E-mail: huling.tang@emich.edu

The finance area prepares students for professional careers related to the fields of finance. Students can develop their expertise in a variety of areas including corporate financial analysis, budgeting, banking, investments and appraisal.

The computer information systems area prepares students for careers in business information systems, and the production/operations management area unit prepares students for careers in production and operations management.

Degrees Offered

Bachelors in Business Administration
Programs of Study

Majors
Computer information systems
Finance

Minors
Computer information systems
Finance
Production/operations management

Advising

Please contact the following persons for advising and additional information:

Aarat Tessema
Advising Coordinator
467 Gary M. Owen Building
734.487.1898
E-mail: aarat.tessema@emich.edu

Advising assistance, both academic and career, is provided by the faculty and is available Monday through Friday while school is in session, or by appointment.

Graduate study leads to the master of business administration with concentration in finance, CIS and POM or the master of science degree in information systems (M.S.I.S.). These degree programs and courses are described in the graduate catalog.

Computer Information Systems Major

IS 101 major code: OR06

Computer information systems emphasizes the role and application of the computer in making management decisions. Students are prepared for careers as systems analysts, programmers, systems engineers, database specialists, and information systems and database management administrators.

The general requirements for the bachelor of business administration degree, the academic major requirements below, and sufficient electives to meet the minimum of 124 hours for graduation, must be completed.

General Studies

General education requirements 39 hours
Other requirements 15 hours
#ENGL 121 English Composition (satisfies general education requirement I.1) (3)
#PLSC 112/PLSC 113 American Government (satisfies general education requirement III.1) (3)
Finance Major

ISIS major code: FN02

The finance major is designed for students interested in planning and managing assets and the acquisition of funds for investment by corporations, nonprofit organizations, governmental units and financial institutions.

The general requirements for the bachelor of business administration degree, the academic major requirements below, and sufficient electives to meet the minimum of 124 hours, must be completed for graduation.

General studies ........................................................................... 46 hours

Finance Courses

FIN 177/178/179 Special Topics 1/2/3 hrs
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.
Prereq: Department permission.

FIN 277/278/279 Special Topics 1/2/3 hrs
These courses deal with subject matter not provided in other department offerings. Students may elect such a course several times, provided different topics are studied.
Prereq: Department permission.

FIN 287 Cooperative Education in Finance 3 hrs
Four months of full-time employment at a business or public organization in a finance position chosen for imparting practical experience in finance. Use on a finance major or minor not permitted. Offered on a credit/no credit basis. Admission by application only.
Prereq: ACC 240 and department permission.

FIN 350 Principles of Finance 3 hrs
A survey course covering the financial operations of business corporations. It begins with a general overview, then goes into detail on several concepts and techniques used in financial decision making. Specific topics emphasized include the time value of money, asset valuation models, risk management and financial statement analysis. The course is designed for the general business student.
Prereq: ACC 241.

FIN 352 Financial Management for Entrepreneurs 3 hrs
A continuation of FIN 350, but with an emphasis on financial management for growth of the small-to-medium-sized firm. Working capital management, short-term financing, equipment financing, and other topics pertinent to the growth firm.
Prereq: FIN 350 or equivalent.

FIN 354 Investments 3 hrs
The purpose of the course is to introduce students to fundamentals of investment analysis. The course attempts to highlight the alternative investments available and develop a way of thinking about investments. The course is a mixture of description and theory. The descriptive material involves a discussion of available investment instruments and considers the way the capital market currently works. The theoretical portion takes into consideration ways you should evaluate current investments and future opportunities.
Prereq: FIN 350.

FIN 357 Financial Markets and Institutions 3 hrs
The operation and behavior of capital markets and financial intermedaries as sources of investment capital to the business firm. Liability management and investment portfolio behavior of financial market participants. Flow of funds through money and capital markets, and investment characteristics of securities traded. Term structure of yields, yield differentials, and the valuation of debt and equity securities.
Prereq: FIN 350.

FIN 358 Analysis of Financial Statements 3 hrs
Analysis and interpretation of the financial statements and reports of various types of businesses and industries. Examination of the impact of using alternative accounting methods on reported profits, taxes and cash flows. Forecast of financial statements for planning purposes.
Prereq: FIN 350.

FIN 359 Intermediate Financial Theory 3 hrs
Focuses on the theory of financial management and analysis of financial decisions made by financial managers. The financial decisions include capital structure, dividend policy, lease or buy, mergers and issuance of new securities.
Prereq: FIN 350.

FIN 370 International Business Finance 3 hrs
This course deals with how decisions about financial management are made in modern multinational enterprises. Financial management of any firm involves acquisition of funds, investing of these funds in economically productive assets, the managing of assets so acquired, and eventual reconversion of some of the productive assets into funds to return to the original investors, creditors, suppliers, employees and other interest groups. International Business Finance deals with the management of these functions for firms operating in several countries.
Prereq: FIN 350 or equivalent.

FIN 377/378/379 Special Topics 1/2/3 hrs
These courses deal with subject matter not provided in other department offerings. Students may elect such a course several times, provided different topics are studied.
Prereq: Department permission.

FIN 387 Cooperative Education in Finance 3 hrs
Four months of full-time employment at a business or public organization in a finance position chosen for imparting practical experience in finance. Use on a finance major or minor not permitted. Offered on a credit/no credit basis. Admission by application only.
Prereq: FIN 350 and department permission.

FIN 450 Problems in Financial Management 3 hrs
Deals with application of financial management theory. Emphasis is placed on problem solving in differing economic and situational environments using various quantitative tools. Case analysis and class discussions are emphasized.
Prereq: FIN 359.

FIN 451 Introduction to Speculative Markets 3 hrs
This course is designed to provide a solid foundation in the principles of derivatives. It attempts to strike a balance between institutional details, theoretical foundations and practical applications. Options and futures will be the primary focus.
Prereq: FIN 354 or equivalent.

FIN 453 Commercial Banking 3 hrs
Practices, policies, and problems of commercial bank management and operation, capital adequacy, loan and investment policy, liquidity and profit maximization.
Prereq: FIN 350.

FIN 454 Mortgage Banking 3 hrs
The purpose of this course is to communicate and explain the fundamentals of mortgage lending in as simple and concise a manner as possible. A good portion of the course deals with real estate appraisal.
Prereq: FIN 350 or equivalent.

FIN 477/478/479 Special Topics 1/2/3 hrs
These courses deal with subject matter not provided in other department offerings. Students may elect such a course several times, provided different topics are studied.
Prereq: Department permission.

FIN 487 Cooperative Education in Finance 3 hrs
Four months of full-time employment at a business or public organization in a finance position chosen for imparting practical experience in finance. Use on a finance major or minor not permitted. Offered on a credit/no credit basis. Admission by application only.
Prereq: FIN 387 and department permission.
FIN 489 Internship 3 hrs
Directed full-time work experience in the finance phase of a business or public organization. Use on a finance major or minor not permitted. May be repeated once for additional credit. Offered on a credit/no credit basis. Admission by application only.
Prereq: Department permission.

FIN 497/498/499 Independent Study 1/2/3 hrs
Directed study of a problem or group of problems in finance.
Prereq: Department permission.

Insurance Courses

INS 177/178/179 Special Topics 1/2/3 hrs
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.
Prereq: Department permission.

INS 277/278/279 Special Topics 1/2/3 hrs
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.
Prereq: Department permission.

INS 351 Introduction to Risk and Insurance 3 hrs
An introduction to study of pure risks, risk management and insurance, with emphasis on the application of risk management principles, and techniques of handling the pure risks of business firms and public institutions. Topics covered include nature and types of risks, risk management process, and types and uses of insurance.
Prereq: ACC 241.

INS 377/378/379 Special Topics 1/2/3 hrs
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.
Prereq: Department permission.

Computer Information Systems Courses

IS 177/178/179 Special Topics 1/2/3 hrs
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.
Prereq: Department permission.

IS 215 End-User Computing 3 hrs
Computers are being used more extensively by managers and professionals. This revolution is known by the name "End-User Computing" (EUC). Students learn traditional information systems topics such as software life cycles, transaction processing systems, and business problem solving. In addition, a wide range of applications including Decision Support Systems, Executive Information Systems, Noncomputer User Affairs, Autoparts, Communications, and Local Area Networks, are covered. These applications cover all the functional areas of businesses. Course work includes conceptual material as well as laboratory material.
Prereq: MATH 118.

IS 219 File Processing and COBOL Programming 3 hrs
COBOL programming is an important skill for business application developers. In this class, students will learn to program in COBOL while also learning the basic algorithms for producing reports with multiple control breaks and for processing sequential and random files. All students will design, write, debug and test COBOL programs using good design techniques and software engineering principles. Intended for computer information systems majors, and others.

IS 247 Software Design and Programming in Business 3 hrs
Business computer programmers must be able to use problem-solving techniques, appropriate algorithms, and follow the principles of software engineering to develop good computer solutions to business problems. In this class, students will study these topics and apply them in the design, writing, debugging and testing of several programs. This is the first of a sequence of three courses, the others being IS 315 and IS 375.
Prereq: IS 215 and IS 219.

IS 277/278/279 Special Topics 1/2/3 hrs
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.
Prereq: Department permission.

IS 280 Introduction to Expert Systems in Business 3 hrs
This course covers concepts of decision support systems and expert systems as they are used to apply business problems. Students will learn methods of artificial intelligence and decision analysis, and gain practical experience using DSS and AI software tools for designing business solutions.
Prereq: IS 215.

IS 315 Applied Data Structures 3 hrs
Business computer programmers must have a good knowledge of basic data structures such as linked lists, trees, and networks to permit them to design appropriate computer solutions to the more difficult problems they are typically being asked to solve. In this class, the students will study these data structures and apply them in the design, writing, debugging, and testing of several programs in some suitable high-level language. This is the second of a sequence of three courses, the others being IS 247 and IS 375.
Prereq: IS 247.

IS 35 Advanced Software Design and Programming 3 hrs
Software development methods and tools are constantly changing, and it is imperative that developers keep up with recent trends. This course concentrates on creating real-world programs using the latest tools and techniques. Students will gain practical experience in various aspects of programming, including modern development environments, object-oriented techniques and inter-networking. In this project-oriented course students will be exposed to modern development environments, and will build on the skills learned in the earlier programming classes. This is the third of a sequence of three courses, the others being IS 247 and IS 375.
Prereq: IS 315.

IS 377/378/379 Special Topics 1/2/3 hrs
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.
Prereq: Department permission.

IS 380 Introduction to Databases 3 hrs
This course covers basic concepts of database design and implementation, primarily focusing on desktop database applications. This is a hands-on, practical course concentrating on use of desktop DBMS Software. Topics covered include: overview of data models, introduction to SQL and QBE, practical applications of database technology.
Prereq: IS 215.

IS 387 Cooperative Education in Information Systems 3 hrs
Four months of full-time employment at a business or public organization to impart practical experience in computer information systems disciplines. Offered on a credit/no credit basis for general elective credit only. Admission by application only.
Prereq: Completion of three hours in computer information systems area and department permission.

IS 410 Knowledge-Based Systems 3 hrs
Modern knowledge-based software is being used increasingly in all business activities. Techniques such as English language database queries and expert systems have moved from the realm of research laboratories to everyday business
use in the last few years. Business computer professionals of the future will be
expected to be skilled in the use of a wide variety of knowledge-based software
and knowledge engineering techniques. This class will study one important pro-
gramming language and its application to several knowledge-based systems.
Each student will design and implement several computer programs.
Prereq: IS 315.

IS 413 Evaluation and Application of Computer Hardware 3 hrs
Evaluation of computer hardware found in business computer systems. A non-
technical explanation of the operation, needs, and limits of CPUs and peripherals;
practical demonstrations of the hardware: CPUs, memory printers, disks,
terminals, communications and related software.
Prereq: IS 219.

IS 416 Computer Operating Systems 3 hrs
Decision methods and concepts for determining the types of computer operating
systems required for a particular business environment. Various operating
system designs with respect to allocation and utilization of resources; the accep-
tance, executive, and presentation portions of the systems; large and small operating
systems to be considered for the business environment.
Prereq: IS 215.

IS 417 Systems Analysis and Design 3 hrs
Computer-based information systems exist everywhere in business and industry.
People armed with the necessary tools are the key to both successful develop-
ment and performance of these systems. The objective of this course is to
introduce students to processes, principles, guidelines, tools and techniques for
systems analysis and design of information systems. The major thrust of the
course is to aid the communication process that must take place between the
system developers and users. This is facilitated by the use of projects as a
vehicle for effectively communicating the content of this course.
Prereq: IS 215 and IS 219.

IS 420 Business Data Communications and Computer Networks 3 hrs
In an information-based society, knowledge of data communications and computer
networks is important to everyone who works with computers. This course is
intended to teach students everything they need to know to be effective partici-
ants in the establishment of data communications links for their employers.
This course assumes no prior data communications and computer networks
knowledge. It combines technical aspects with practical business applications
without resorting to a rigorous mathematical approach.
Prereq: IS 215.

IS 421 Advanced Database Design 3 hrs
This course covers advanced SQL, normalization, detailed discussion of rela-
tional data models, hierarchical models, and network models, client server data-
bases (front-end and back-end), distributed DBMS, and data warehousing. It
involves intensive use of advanced DBMS tools.
Prereq: IS 380 and IS 417.

IS 425 Software Engineering Management 3 hrs
Introduction of the concept and techniques of managing software growth and
software life cycle, increasing software productivity, reliability, correctness, and
predicting software costs. Legal and ethical aspects of software, and human fac-
tors, are discussed.
Prereq: IS 417.

IS 426 Advanced Structured COBOL Programming 3 hrs
Students work in teams developing integrated information systems in structured
COBOL. Searches, reporting, subprograms, random files, indexed sequential
files, various sorting routines, debugging techniques, programming style, opti-
mization techniques, structured and modular programming concepts, transfer-
ability and portability strategies, and documentation, including writing program
specifications and users' manuals.
Prereq: IS 417.

IS 442 Information Resource Management 3 hrs
Most organizations use computers for operations, control and planning, and for
office automation. While computers facilitate and enhance the functioning of
organizations, they also add to the responsibilities of managers. In this course,
students learn how to acquire, organize, maintain, and control information re-
sources. The course also discusses problems unique to the management of infor-
mation resources.
Prereq: Three hours of IS courses, not including IS 213.

IS 449 Information Systems Development and Implementation 3 hrs
Projects
This is the capstone course. Students work in teams to develop information sys-
tems for real-life organizations. These organizations include local businesses,
industries, nonprofit organizations, governmental institutions, and universities.
Classes start with short lectures. The subject matter is then applied to the vari-
ous projects by the teams with the help of the instructor. The objective of the
discussion is to support the students in producing quality operational informa-
tion systems. Examples are drawn from students' projects to facilitate dis-
cussion.
Prereq: IS 315, IS 380, and IS 417.

IS 477/478/479 Special Topics 3 hrs
An exploration and study of topics not covered in other departmental offerings.
Students may elect more than once, provided different topics are studied.
Prereq: Department permission.

IS 487 Cooperative Education in Information Systems 3 hrs
Four months of full-time employment at a business or public organization to
impart a practical experience in computer information systems disciplines.
Offered on a credit/no credit basis for general elective credit only. Admission by
application only.
Prereq: IS 377 and department permission.

IS 489 Internship 3 hrs
Directed full-time work experience in the business computer systems units of a
business organization. This course may be repeated for a maximum of six hours.
Prereq: Major and department permission.

IS 497/498/499 Independent Study 1/2/3 hrs
Directed study of a problem or group of problems in production systems or
management science.
Prereq: Department permission.

Production/Operations Management Courses

POM 177/178/179 Special Topics 1/2/3 hrs
An exploration and study of topics not covered in other departmental offerings.
Students may elect more than once, provided different topics are studied.
Prereq: Department permission.

POM 277/278/279 Special Topics 1/2/3 hrs
An exploration and study of topics not covered in other departmental offerings.
Students may elect more than once, provided different topics are studied.
Prereq: Department permission.

POM 374 Introduction to Production/Operations Management 3 hrs
The major design, operation, and control problems of production/operations man-
gagement in manufacturing and service organizations. Topics include product or
service design; facilities location, design and layout; productivity, including job
design, standards and incentive plans; materials management, including fore-
casting, purchasing and inventory control; production control; quality assurance
and control.
Prereq: IS 265.

POM 377/378/379 Special Topics 1/2/3 hrs
An exploration and study of topics not covered in other departmental offerings.
Students may elect more than once, provided different topics are studied.
Prereq: Department permission.
POM 374 Design of the Production/Operations System
3 hrs
An in-depth qualitative, quantitative and computerized analysis of problems related to the design of manufacturing and non-manufacturing systems. Product service design, process planning, facility planning, job design and measurement, and maintenance planning and control.
Prereq: POM 374.

POM 475 Production and Inventory Control I
3 hrs
The main objective of this course is to provide students with a solid background in several topics in the field of production and inventory control. Specifically, an in-depth analysis of the following topics is covered: strategic planning, forecasting of demand and its relationships to production planning, master production scheduling and demand management, material requirements planning, and capacity management. These topics are discussed within the framework of production-to-stock, assemble-to-stock, and production-to-order. A secondary objective of this course is to provide students with the material necessary to start preparing for the certification exams of the American Production and Inventory Control Society (APICS) in master planning, and material and capacity requirements planning.
Prereq: POM 374.

POM 476 Production and Inventory Control II
3 hrs
The main objective of this course is to provide students with a solid background in several topics in the field of production and inventory control. Specifically, an in-depth analysis of the following topics is covered: inventory management and distribution requirements planning (DRP), production activity control (PAC), purchasing management, project management, just-in-time, and the role of quality management. A secondary objective of this course is to provide students with the material necessary to start preparing for the CPIM exams of the American Production and Inventory Control Society (APICS) in inventory management, production activity control, and just-in-time.
Prereq: POM 374.

POM 477/478/479 Special Topics
1/2/3 hrs
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.
Prereq: Department permission.

POM 480 Production/Operations Management-A World Business View
3 hrs
A discussion of similarities and differences in concepts and techniques used worldwide in Production/Operations Management. American, European, and Japanese systems are compared and analyzed throughout this course. Comparative topics in POM include productivity, management, product/service design, process planning and manufacturing technology, facilities planning, maintenance and quality management, production/inventory planning and control system, and planning and control of repetitive manufacturing.
Prereq: POM 374 or equivalent.

POM 487 Cooperative Education in Operations Research
3 hrs
Four months of full-time employment at a business or public organization to impart practical experience in production/operations management disciplines. Offered on a credit/no credit basis for general elective credit only. Admittance by application only.
Prereq: Completion of three hours in production/operations management area and department permission.

POM 390 Management Systems
3 hrs
Various concepts of systems theory and their applications to management. The environment and boundaries of a system, organizational information flows and the firm as a system, cybernetics and communication theory, and the management of large-scale systems.
Prereq: MGMT 366.

POM 472 Tools for Strategic Quality Management
3 hrs
Examination of "Enumerative" and "Analytic" statistical studies of quality management. Emphasis is given on how to diagnose an unstable process and how to improve a stable process through analysis of control charts and other management tools for continuous improvement. Major modern philosophies by Deming and Taguchi as well as others, concerning quality management, are discussed.
Prereq: POM 374.

POM 478 Internship Program
3 hrs
Directed full-time work experience in the production/operations management units of a business organization. This course may be repeated for a maximum of six hours.
Prereq: Major and department permission.

POM 477/498/499 Independent Study
1/2/3 hrs
Directed study of a problem or group of problems in production systems or management science.
Prereq: Department permission.

Management

Departmental Admission
Frauya Wagner-Marsh
Department Head
466 Gary M. Owen Building
734.487.3240
E-mail: frauya.wagner@emich.edu

Graduates from the Department of Management are prepared to assume leadership roles in today's dynamic environment in both business and non-business organizations. They understand the roles of management as well as the complex social and environmental obligations faced in business today. In so doing, they are ready to apply the needed technical, human, and conceptual skills.

Eastern Michigan University's management graduates understand and are able to apply the behavioral sciences in planning, implementation, communication, organizational design and development, and in performance measurement to maximize organizational and employee achievement.

Degrees Offered
Bachelors in Business Administration

Programs of Study
Majors
Entrepreneurship
General business
Management

Minors
Entrepreneurship
General Business
Management

Faculty from the department provide both academic and career advising assistance Monday through Friday while school is in session, or by appointment. Management advisers are available to help students tailor a course program that answers a variety of career needs in both general business and management. A concentration in human resource management is available under the management major and a concentration in entrepreneurship is available under the general business major. See your advisor for details.

Advising
Please contact the following person for advising and additional information:
### Entrepreneurship Major

**ISIS major code: MG10**

The program for the entrepreneurship major includes a minimum of 124 hours for graduation as stipulated in this catalog.

**General studies** .................................................. 46 hours

- General education requirements ...................................... 29 hours
- Other requirements ........................................................ 15 hours
  - #ENGL 121 English Composition (satisfies general education requirement 1.1) (3)
  - #PLSC 112/PLSC 113 American Government (satisfies general education requirement II.1) (3)
  - #ECON 201 Principles of Economics I (satisfies general education requirement III.2) (3)
  - #ECON 202 Principles of Economics II (satisfies general education requirement III.4) (3)

One course from the following:

- MATH 118 Mathematical Analysis for Social Sciences I (satisfies general education requirement 1.4) (3)
- MATH 122 Elementary Linear Algebra (satisfies general education requirement 1.4) (3)

Logic or ethics is strongly recommended for general education requirement IV.3.

**Physical education/graduation requirement** ........................................... 2 hours

**Entrepreneurship major** .............................................. 60 hours

**Business core courses** .................................................. 21 hours

- ACC 240 Principles of Accounting I ................................. 3
- ACC 241 Principles of Accounting II ................................. 3
- COB 200 Introduction to Business ..................................... 3
- LAW 293 Legal Environment of Business ............................ 3
- MGMT 202 Business Communication ................................... 3
- #IS 215 End-User Computing (satisfies general education requirement 1.5) ......................... 3
- DS 265 Business Statistics I ........................................... 3

**Business administration core courses** ........................................... 15 hours

(All 200-level core courses listed above must be completed prior to admission to the College of Business.)

- FIN 350 Principles of Finance ......................................... 3
- MKTG 360 Principles of Marketing .................................... 3
- MGMT 386 Organizational Behavior and Theory .................... 3
- POM 374 Introduction to Production/Operations Management 3
- MGMT 490 Business Policy ........................................... 3

(All 300-level core courses listed above must be completed before enrollment in MGMT 490 Business Policy.)

**Specialization** .......................................................... 24 hours

- MGMT 388 Introduction to Entrepreneurship ......................... 3
- MGMT 460 Management Skills .......................................... 3
- MGMT 480 Management Responsibility and Ethics .................. 3
- MGMT 481 Managing the Entrepreneurial Venture .................. 3
- MGMT 488 Field Studies in Entrepreneurship ....................... 3

One course from the following:

- MGMT 363 Retailing .................................................. 3
- MGMT 374 Business to Business Marketing ......................... 3
- MGMT 430 Marketing of Services (Note: Formal approval of MGMT 430 is pending) ............. 3
- MGMT 479 Special Topics ........................................... 3
- MKTG 473 Marketing and Product Innovation ....................... 3

Two courses from the following: ......................................... 6

- ACC 342 Managerial Cost Accounting ............................... 3
- ACC 344 Tax Accounting ............................................. 3
- FIN 352 Financial Management for Entrepreneurs .................. 3
- *MGMT 363 Retailing .................................................. 3
- *MGMT 374 Business to Business Marketing ....................... 3
- *MGMT 479 Marketing for Services ................................. 3
- *MGMT 473 Marketing and Product Innovation ................. 3
- MGMT 384 Human Resource Management ......................... 3
- POM 472 Tools for Strategic Quality Management ............... 3
- POM 474 Design of the Production/Operations System .......... 3
- POM 475 Production and Inventory Control ...................... 3

Other courses with approval of the adviser ............................ 0 hours

**Minor** ........................................................................ 8 hours

No minor is required.

**Elective courses** .......................................................... 15 hours

Total: ........................................................................ 124 hours

**NOTE:**

* Students may select one of these courses if not previously taken to meet marketing requirement.

* This course satisfies both general education requirements and requirements of the minor. In order to avoid taking excess hours, students are advised to take this course or an approved substitute from another institution, as part of the general education requirements.

### General Business Major

**ISIS major code: MG84**

The major in general business has been designed for students seeking a broad business background rather than specialization in any one functional area of business. The program for the general business major includes a minimum of 124 hours for graduation as stipulated in the catalog.

**General studies** ....................................................... 46 hours

- General education requirements ...................................... 29 hours
- Other requirements ....................................................... 15 hours
  - #ENGL 121 English Composition (satisfies general education requirement 1.1) (3)
  - #PLSC 112/PLSC 113 American Government (satisfies general education requirement II.1) (3)
  - #ECON 201 Principles of Economics I (satisfies general education requirement III.2) (3)
  - #ECON 202 Principles of Economics II (satisfies general education requirement III.4) (3)

One course from the following:

- MATH 118 Mathematical Analysis for Social Sciences I (satisfies general education requirement 1.4) (3)
- MATH 122 Elementary Linear Algebra (satisfies general education requirement 1.4) (3)

Logic or ethics is strongly recommended for general education requirement IV.3.

**Physical education/graduation requirement** ...................................... 2 hours

**General business major** ................................................. 60 hours

**Business core courses** ................................................... 21 hours

- ACC 240 Principles of Accounting I .................................. 3
- ACC 241 Principles of Accounting II .................................. 3
- COB 200 Introduction to Business ................................... 3
- LAW 293 Legal Environment of Business ......................... 3
- MGMT 202 Business Communication ................................ 3
- #IS 215 End-User Computing (satisfies general education requirement 1.5) ......................... 3
- DS 265 Business Statistics I ........................................... 3
Business administration core courses .................................. 15 hours
(All 200-level core courses listed above must be completed prior to admis­
sion to the College of Business.)
FIN 350 Principles of Finance .............................................. 3
MKTG 360 Principles of Marketing ........................................ 3
MGMT 386 Organizational Behavior and Theory ..................... 3
POM 374 Introduction to Production/Operations Management 3
MGMT 490 Business Policy .................................................. 3
(All 300-level core courses listed above must be completed before enrollment in MGMT 490 Business Policy)

Specialization ................................................................. 24 hours
MGMT 384 Human Resource Management ............................ 3
MGMT 388 Introduction to Entrepreneurship ........................... 3
MGMT 460 Management Skills ............................................ 3
MGMT 480 Management Responsibility and Ethics ................. 3
Restricted electives ......................................................... 12
12 hours selected from at least three different departments in the
College of Business. At least six hours must be at the 300 or 400
level.
Minor ............................................................................. 0 hours
No minor is required.
Elective courses ............................................................ 15 hours
Total ................................................................................ 124 hours

NOTE:
This course satisfies both general education requirements and requirements of
the minor. In order to avoid taking excess hours, students are advised to take
this course, or an approved substitute from another institution, as part of the
general education requirements.

Management Major
ISIS major code: MG02

The major in management prepares students for a variety of roles in the business
world. These roles can include line and staff management positions and human
resource assignments. The general requirements for the bachelor of business
administration degree include a minimum of 124 hours for graduation as stipu­
lated in the catalog.

General studies ................................................................. 46 hours
General education requirements ............................................ 29 hours
Other requirements ......................................................... 15 hours
#ENGL 121 English Composition (satisfies general education
requirement 1.1) (3)
#PSC 112/PSC 113 American Government (satisfies general
education requirement III.1) (3)
#ECON 201 Principles of Economics I (satisfies general education
requirement III.3) (3)
#ECON 202 Principles of Economics II (satisfies general education
requirement III.4) (3)
One course from the following:
#MATH 118 Mathematical Analysis for Social Sciences I
(satisfies general education requirement I.4) (3)
#MATH 122 Elementary Linear Algebra (satisfies general
education requirement I.4) (3)
Logic or ethics is strongly recommended for general education
requirement IV.3.
Physical education/graduation requirement ......................... 2 hours
Management major ............................................................ 63 hours
Business core courses ...................................................... 21 hours
ACC 240 Principles of Accounting I .................................... 3
ACC 241 Principles of Accounting II ................................... 3
COB 200 Introduction to Business ...................................... 3
LAW 293 Legal Environment of Business .......................... 3
MGMT 202 Business Communication ............................... 3
#IS 215 End-User Computing (satisfies general education
requirement 1.5) ..................................................... 3
#DS 265 Business Statistics I ............................................ 3
Business administration core courses .................................. 15 hours
(All 200-level core courses listed above must be completed prior to admis­
sion to the College of Business.)
FIN 350 Principles of Finance .............................................. 3
MKTG 360 Principles of Marketing ........................................ 3
MGMT 386 Organizational Behavior and Theory ..................... 3
POM 374 Introduction to Production/Operations Management 3
MGMT 490 Business Policy .................................................. 3
(All 300-level core courses listed above must be completed before enrollment in MGMT 490 Business Policy)

Specialization ................................................................. 27 hours
MGMT 384 Human Resource Management ............................ 3
MGMT 460 Management Skills ............................................ 3
MGMT 480 Management Responsibility and Ethics ................. 3
MGMT 486 Organizational Change and Team Building ............... 3
Four courses from the following ......................................... 12
MGMT 388 Introduction to Entrepreneurship (3)
MGMT 402 Business Report Writing or MGMT 403
Managerial Communication: Theory and Application (3)
MGMT 450 Leadership Theories and Practice (3)
MGMT 479 Special Topics (3)
MGMT 482 Compensation Administration (3)
MGMT 483 Staffing Organizations (3)
MGMT 484 Management-Union Relations (3)
MGMT 485 Human Resource Development (3)
MGMT 492 Managing World Business Communication or
MGMT 495 International Management (3)
MGMT 496 Current Issues in Human Resource Manage­
ment (3)

Minor ............................................................................. 0 hours
No minor is required.
Elective courses ............................................................ 12 hours
Total ................................................................................ 124 hours

NOTE:
This course satisfies both general education requirements and requirements of
the minor. In order to avoid taking excess hours, students are advised to take
this course, or an approved substitute from another institution, as part of the
general education requirements.

Entrepreneurship Minor
ISIS minor code: MG03

Required courses ............................................................. 12 hours
ACC 240 Principles of Accounting I .................................... 3
MKTG 360 Principles of Marketing ...................................... 3

Required courses .......................................................... 6 hours
MGMT 202 Business Communication ........................................... 3
MGMT 386 Organizational Behavior and Theory .......................... 3

Five courses from the following, three of which must be MGMT courses:

15
ACC 130 Accounting for Non-business Majors (3)
ACC 240 Principles of Accounting I (3)
ACC 241 Principles of Accounting II (3)
COB 200 Introduction to Business (3)
#IS 215 End-User Computing (satisfies general education requirement L.S.3) (3), or POM 374 Introduction to Production/Operations Management (3) (if prerequisite DS 265 or ECON 310 is met) to fulfill foundation courses for the MBA program.

Elective courses ..................................................................... 9 hours
Any three courses offered by the COB that were not taken as a required course.

Total ................................................................................... 21 hours

NOTE:
#This course satisfies both general education requirements and requirements of the minor. In order to avoid taking excess hours, students are advised to take this course, or an approved substitute from another institution, as part of the general education requirements.

Management Minor
(For non-business majors)
ISIS minor code: MG01

Required courses .......................................................... 6 hours
MGMT 202 Business Communication ........................................... 3
MGMT 386 Organizational Behavior and Theory .......................... 3

Five courses from the following, three of which must be MGMT courses:

15
ACC 130 Accounting for Non-business Majors (3)
ACC 240 Principles of Accounting I (3)
ACC 241 Principles of Accounting II (3)
COB 200 Introduction to Business (3)
#IS 215 End-User Computing (satisfies general education requirement L.S.3) (3), or POM 374 Introduction to Production/Operations Management (3) (if prerequisite DS 265 or ECON 310 is met) to fulfill foundation courses for the MBA program.

Elective courses ..................................................................... 9 hours
Any three courses offered by the COB that were not taken as a required course.

Total ................................................................................... 21 hours

NOTE:
#This course satisfies both general education requirements and requirements of the minor. In order to avoid taking excess hours, students are advised to take this course, or an approved substitute from another institution, as part of the general education requirements.

College of Business Courses

MGMT 177/178/179 Special Topics 1/2/3 hrs
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

MGMT 202 Business Communication ........................................... 3 hrs
Study of principles, elements, and practices underlying administrative communication. The role of communication in problem-solving. The psychology and applications of communicative behavior. The study of the functions of communication in business. Taught in a seminar format.

MGMT 277/278/279 Special Topics 1/2/3 hrs
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

MGMT 377/378/379 Special Topics 1/2/3 hrs
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

MGMT 381/382 Cooperative Education in Management 1/2 hrs
PreReq: MGMT 302 and junior standing.

MGMT 384 Human Resource Management ................................ 3 hrs
Industrial relations functions in business organizations. Recruitment, selection, placement, training, motivation, and appraisal of personnel; the scientific approach to the solution of practical problems of manpower utilization.

MGMT 385 Organizational Behavior and Theory ........................ 3 hrs
The study of behavioral problems in administration. Individual, group, intergroup, and organizational behavior under dynamic environmental conditions.

MGMT 387 Cooperative Education in Management ..................... 3 hrs
Four months of full-time employment at a business or public organization in a management position chosen for imparting practical experience in management. Use on a management major or minor or not permitted. Offered on a credit/no credit basis. Admission by application only. PreReq: MGMT 202.

MGMT 388 Introduction to Entrepreneurship ............................. 3 hrs
This course emphasizes the role of the entrepreneur in making integrated managerial and growth decisions for a start-up enterprise. The focus will be on developing a business plan for a new venture.

MGMT 402 Business Report Writing ....................................... 3 hrs
Study of principles and practices of business report writing required of men and women in business, industry, education and government. Concepts, their illustrations, and applications. The creative and functional aspects in understanding
the problem, gathering and organizing data, and presenting reports for management, employees and the public.
Prereq: MGMT 202.

MGMT 403 Managerial Communication: Theory and Application 3 hrs
A theoretical framework of key managerial communication concepts; skills used to diagnose communication problems and to communicate corporate policies.
Prereq: MGMT 202, MGMT 366 or department permission.

MGMT 450 Leadership Theories and Practice 3 hrs
Leadership theories and practice will provide students with knowledge of the theories of leadership as well as practice in leadership and management. Several diagnostic techniques will be used to help students understand their own leadership strengths and areas to be developed.

MGMT 460 Management Skills 3 hrs
This course will provide students with extensive practice in critical management skills such as group facilitation, project management, supervising employees and individual career management. Multiple participative techniques will be used such as case study, exercises, group projects and student presentations.
Prereq: MGMT 384 and MGMT 366.

MGMT 477/478/479 Special Topics 1/2/3 hrs
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.
Prereq: Department permission.

MGMT 480 Management Responsibility and Ethics 3 hrs
Social, legal, and moral pressures of external and community groups on business operations; management's role of responsibility and leadership in interacting with these forces, and resolving and reducing conflicts with them.
Prereq: Senior standing or department permission.

MGMT 481 Managing the Entrepreneurial Venture 3 hrs
This course focuses on managing an entrepreneurial venture in an increasingly professional manner. Topics include: management control systems, integrating short and long range plans, financial planning, developing and implementing human resource systems, and developing a management team.

MGMT 482 Compensation Administration 3 hrs
Basic concepts of design and methodology for wage and salary administration in an organization. Fundamental considerations in evaluating jobs and positions. Compensation methods and wage incentive systems.
Prereq: MGMT 384 or department permission.

MGMT 483 Staffing Organizations 3 hrs
The staffing of organizations; skills needed in human resource planning, recruitment, job analysis, selection techniques and evaluation.
Prereq: MGMT 384.

MGMT 484 Management-Union Relations 3 hrs
Management strategy and techniques for conducting effective management-union relationships and negotiations; contract administration for both industrial and non-industrial organizations.
Prereq: MGMT 384 or department permission.

MGMT 485 Human Resource Development 3 hrs
Determination of training needs; development of training objectives; selection and development of resources for appropriate training experiences; implementation of training program evaluation.
Prereq: MGMT 384 or department permission.

MGMT 486 Organizational Change and Team Building 3 hrs
A practical approach to creating the organizational changes necessary for effective team-based, continual-improvement work systems. Students learn how to manage change effectively, providing a foundation for learning how to build teams and work effectively within teams. The course provides knowledge and critical skills needed for initiating and managing change and for building effective teams.
Prereq: MGMT 386 or department permission.

MGMT 487 Cooperative Education in Management 3 hrs
Four months of full-time employment at a business or public organization in a management position chosen for imparting practical experience in management; use on a management major or minor not permitted. Offered on a credit/no credit basis. Admission by application only.
Prereq: MGMT 387. Department permission.

MGMT 488 Field Studies in Entrepreneurship 3 hrs
This course puts student teams into entrepreneurial firms to study and analyze the problems of an actual business. A comprehensive final report to the firm is required.
Prereq: Junior standing or permission of the instructor.

MGMT 489 Management Internship 3 hrs
Approved on-the-job experience of students in the management internship program supplemented by seminars as appropriate. Open only to students formally enrolled in the program and taken during their terms of supervised work experience. May be repeated for a maximum of six credit hours, but may be counted for free elective credits only. Offered on a credit/no credit basis.
Prereq: Department permission.

MGMT 490 Business Policy 3 hrs
Integration and analytical application of fundamental areas of business-to-case problems. Policy issues in the identification and resolution of problem situations.
Prereq: Senior standing in business administration or department permission (Senior standing implies completion of the College of Business core: FIN350, MKTG 360, MGMT 386, POM 374)

MGMT 492 Managing World Business Communication 3 hrs
This course focuses on such issues as global management in a cultural context, breaking down international business barriers, motivation in a global context, management of culture shock, international conflict management, management and cultural synergy, and business communication practice and traditions in specific national settings.
Prereq: MGMT 202 or department permission.

MGMT 495 International Management 3 hrs
Comparisons of management concepts, processes, and practices in various countries with their differing educational, sociological, legal-political, and cultural constraints. The evolution of management, and the transfer of managerial philosophy and practices to other countries.
Prereq: MGMT 386 and senior standing or department permission.

MGMT 496 Current Issues in Human Resource Management 3 hrs
A practical application of personnel management techniques to current business issues; specially designed workshop-type sessions for prospective managers, supervisors and personnel specialists.
Prereq: MGMT 384 and 3 hours of HRM courses.

MGMT 497/498/499 Independent Study 1/2/3 hrs
Directed study of a problem in management not otherwise treated in department courses.
Prereq: Department permission.

469 Gary M. Owen Building
734.487.3323
E-mail: elizabeth.edwards@emich.edu

The marketing curriculum prepares students for careers in sales, advertising, product management, marketing management, marketing research, retailing, international business and logistics.

Degrees Offered
Bachelor of Business Administration

Programs of Study

Majors

Marketing with concentrations in:
Advertising and sales promotion
Distribution
International business
Marketing management
Purchasing and materials management
Sales and sales management

Minors

Marketing

Advising

Please contact the following person for advising and additional information:
Elizabeth A. Edwards
Advising Coordinator
Interim Department Head
469 Gary M. Owen Building
734.487.3323
E-mail: elizabeth.edwards@emich.edu

Advising is provided by the department head and faculty and is available during scheduled office hours, or by appointment.

Graduate study leads to the master of business administration (M.B.A.) degree. The M.B.A. degree program and courses are described in the graduate catalog.

Marketing Major

ISIS major code: MK02

The marketing major offers career concentrations in advertising and sales promotion, international business, marketing research, purchasing and materials management, retailing and sales, and sales management. Students are encouraged to complete one of the 18 specified concentrations, or they may elect any nine-hour combination of marketing electives.

To be completed are the general requirements for the bachelor of business administration degree, the academic major requirements below, and sufficient electives to meet the minimum of 124 hours for graduation.

General studies

General education requirements .................................................. 46 hours

General education requirements .................................................. 29 hours

Other requirements ................................................................. 15 hours

#ENGL 121 English Composition (satisfies general education requirement 1.1) (3)
#PLSC 112/PLSC 113 American Government (satisfies general education requirement 1.1) (3)
#ECON 201 Principles of Economics I (satisfies general education requirement 1.3) (3)

#ECON 202 Principles of Economics II (satisfies general education requirement 1.4) (3)

One course from the following:
#MATH 118 Mathematical Analysis for Social Sciences I (satisfies general education requirement 1.4) (3)
#MATH 122 Elementary Linear Algebra (satisfies general education requirement 1.4) (3)

Logic or ethics is strongly recommended for general education requirement IV.3.

Physical education/fitness requirement ........................................ 2 hours

Marketing major ............................................................... 60 hours

Business core courses ....................................................... 21 hours

ACC 240 Principles of Accounting I ........................................ 3
ACC 241 Principles of Accounting II ....................................... 3
COB 200 Introduction to Business ......................................... 3
LAW 253 Legal Environment of Business ................................. 3
MGMT 202 Business Communication ..................................... 3
#IS 215 End-User Computing (satisfies general education requirement 1.2) .................................................. 3
DS 265 Business Statistics I .................................................. 3

Business administration core courses .................................... 15 hours

(All 200-level core courses listed above must be completed prior to admission to the College of Business.)

FIN 350 Principles of Finance ................................................ 3
MKTG 360 Principles of Marketing ......................................... 3
MGMT 386 Organizational Behavior and Theory ........................ 3

MKTG 464 Supplier Chain Management .................................. 3

IV. The distribution concentration prepares students for careers as retail buyers, merchandising managers and store managers. Course work covers subjects such as retailing as an institution, site selection,
product assortment, merchandising, retail advertising and inventory control.

MKTG 363 Retailing (3)
MKTG 369 Advertising (3)
MGMT 384 Human Resource Management (3)

V. The sales and sales management concentration prepares students for such careers as salesman, district sales manager and national sales manager.

MKTG 374 Business to Business Marketing (3)
MKTG 461 Sales Management (3)
Any additional marketing elective (3)

VI. The marketing management concentration prepares students for positions in marketing administration such as product or brand management, customer satisfaction and market manager.

Any three marketing electives (9)

Minor ................................................................. 0 hours

No minor is required.

Elective courses ............................................................ 15 hours

Total ............................................................................. 124 hours

NOTE:

Students, in consultation with the marketing adviser, may select any nine-hour combination of marketing electives to create their own concentration.

This course satisfies both general education requirements and requirements of the minor. In order to avoid taking excess hours, students are advised to take this course, or an approved substitute from another institution, as part of the general education requirements.

### Marketing Minor

(For non-business majors)

ISIS minor code: MK01

Students who are not majors in the College of Business may elect to minor in marketing.

Required courses ......................................................... 6 hours

MKTG 261 Contemporary Selling .................................. 3
MKTG 360 Principles of Marketing ............................... 3

Restricted elective courses .............................................. 15 hours

Five courses of which three must be in Marketing.

ACC 340 Principles of Accounting I (3)
MGMT 202 Business Communication (3)
MGMT 386 Organizational Behavior and Theory (3)
MKTG 363 Retailing (3)
MKTG 364 Logistics and Materials Management (3)
MKTG 365 Consumer Behavior (3)
MKTG 368 Marketing Strategy (3)
MKTG 369 Advertising (3)
MKTG 374 Business to Business Marketing (3)
MKTG 375 International Business Transactions (3)
MKTG 460 International Marketing (3)
MKTG 461 Sales Management (3)
MKTG 464 Supply Chain Management (3)
MKTG 470 Marketing Research (I) (3)
MKTG 473 Marketing and Product Innovation (3 hrs)
MKTG 474 Promotional Strategy (3)
MKTG 475 Marketing Planning and Management (3)

Total ............................................................................. 21 hours

NOTE:

College of Business approval is required for students planning to enroll in 300- to 400-level business courses. All students must meet the specific course prerequisites for enrollment in any College of Business course.

This course satisfies both general education requirements and requirements of the minor. In order to avoid taking excess hours, students are advised to take this course, or an approved substitute from another institution, as part of the general education requirements.

The law of forms of business enterprise and negotiable instruments. Agency, partnerships, corporations and negotiable instruments.
Prereq: LAW 293 or department permission.

LAW 403 Employment Law .............................................. 3 hrs
The legal framework within which business (or public) managers must make employment and labor relations decisions; includes laws relative to labor relations, discrimination, affirmative action, occupational health and safety, wage-hour, wrongful discharge, workers compensation, etc.

LAW 477/478/479 Special Topics ...................................... 1/2/3 hrs
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.
Prereq: LAW 293.

LAW 499 Independent Study ............................................. 3 hrs
Directed study of a problem in business law not otherwise treated in department courses.
Prereq: Department permission.

### Marketing Courses

MKTG 177/178/179 Special Topics ................................. 1/2/3 hrs
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

MKTG 261 Contemporary Selling .................................. 3 hrs
The basic principles of personal selling applicable to any product and/or service; professional attitudes and performance.

MKTG 277/278/279 Special Topics ................................. 1/2/3 hrs
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

MKTG 285/286/287 Cooperative Education ...................... 1/2/3 hrs
Employment at a business or public organization in a marketing position. General elective credit only. Offered on a credit/no credit basis.
Prereq: Department permission.

MKTG 360 Principles of Marketing .................................. 3 hrs
Marketplace exchanges; the relationship between marketing activities of the organization and the consumer.

MKTG 363 Retailing ....................................................... 3 hrs
The practices of retail store management. Store location, layout, organization, buying systems, sales promotion activities, customer services and store operating expenses.
Prereq: MKTG 360.

MKTG 364 Logistics and Materials Management .............. 3 hrs
Concepts and systems designed to facilitate and control the movement of materials and parts through the procurement, production and distribution processes.
until they reach the final user. Transportation, inventory control, materials handling, warehousing, customer service, order processing, planning and control.

**MKTG 365 Consumer Behavior**
3 hrs
The study of the basic factors influencing consumer behavior, including the roles of affect, cognition, behavior and the environment. Models designed to explain consumer behavior will be explored, as well as implications for public policy and the development of marketing strategies.

**Prereq:** MKTG 360.

**MKTG 368 Marketing Strategy**
3 hrs
Advanced policies and practices in marketing. Case analysis of marketing problems pertinent to product, price, promotion, and channels of distribution policies.

**Prereq:** MKTG 360 and ACC 240.

**MKTG 369 Advertising**
3 hrs
Advertising as a communications tool in marketing management. The role of advertising in the marketing mix, advertising and the process of communication; influence of buyer behavior on the character of promotional efforts; planning creative strategies; effective execution of promotional programs; measuring the results of promotional efforts.

**Prereq:** MKTG 360.

3 hrs
Concepts, procedures, and problems encountered when one business markets its products or services to another company. Emphasizes the marketing practices employed by industrial organizations. Topics include: market analysis, organizational buying behavior, purchasing procedures, pricing and negotiation, selling and marketing planning.

**Prereq:** MKTG 360.

**MKTG 375 International Business Transactions**
3 hrs
How goods and services are moved internationally. Transportation concepts and systems, the shipping scene, various documents needed to expedite the international movement of goods.

**Prereq:** MKTG 360.

**MKTG 377/378/379 Special Topics**
1/2/3 hrs
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Prereq:** MKTG 360.

**MKTG 385/386/387 Cooperative Education**
1/2/3 hrs
Employment at a business or public organization in a marketing position. General elective credit only. Offered on a credit/no credit basis.

**Prereq:** Department permission.

**MKTG 460 International Marketing**
3 hrs
International marketing and its role in the multinational corporation. Appraising international opportunities; product, price, promotion and distribution policies; foreign marketing environments.

**Prereq:** MKTG 350.

**MKTG 461 Sales Management**
3 hrs
Planning, organizing, directing and controlling the sales force. Recruiting, selecting, training, evaluating, compensating and supervising.

**Prereq:** MKTG 261 and MKTG 360.

**MKTG 464 Supplier Chain Management**
3 hrs
Management of the supply and purchasing functions. Determining the right price, quality assurance, selection of suppliers, negotiation, supplier consultation and training, and the legal and environmental aspects of purchasing and supply.

**Prereq:** MKTG 360.

**MKTG 470 Marketing Research**
3 hrs
Skills and attitudes required to specify and utilize market and buyer information in defining marketing problems and making marketing decisions. Applied marketing research problems.

**Prereq:** MKTG 360 and DS 240s.

**MKTG 473 Marketing and Product Innovation**
3 hrs
Marketing and product successes and failures; environmental influences, market/product plans, and the new product planning process. Development of a project, starting with product idea and continuing through offering a new product/service.

**Prereq:** MKTG 360.

**MKTG 474 Promotional Strategy**
3 hrs
Problems of advertising and promotion, including appropriate use of research in advertising decision making. Development of advertising campaigns, determining advertising effectiveness, client-agency relationships and societal impact of advertising.

**Prereq:** MKTG 369.

**MKTG 475 Marketing Planning and Management**
3 hrs
Integration of concepts from previous marketing courses and planning the marketing program.

**Prereq:** MKTG 368 and marketing major with senior standing or department permission.

**MKTG 477/478/479 Special Topics**
1/2/3 hrs
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Prereq:** MKTG 360.

**MKTG 485/486/487 Cooperative Education in Marketing**
1/2/3 hrs
Employment at a business or public organization in a marketing position. General elective credit only. Offered on a credit/no credit basis.

**Prereq:** MKTG 387 and department permission.

**MKTG 489 Internship Program**
3 hrs
Approved marketing projects with business or nonprofit organizations.

**Prereq:** Marketing major and department permission.

**MKTG 497/498/499 Independent Study**
1/2/3 hrs
Directed study of a problem or group of problems in production systems or management science.

**Prereq:** Department permission.
Mission Statement:
To create an exemplary educational environment to develop the intellectual curiosity, creativity, critical and reflective thinking, and problem-solving abilities of our students so that they may become ethical, productive and contributing participants and leaders in a democratic and diverse society.
For more than 150 years, the College of Education at EMU has played a major state and national role in the preparation of teachers, other school personnel, and related professionals. For example, we were among the first institutions in the country to prepare physical education teachers and special education teachers.

Now we are, and have been for some years, the nation's largest producer of professional education personnel. We offer programs at the bachelor's, master's, specialist's, and doctoral degree levels.

Our programs have received a number of national recognitions. We are fully accredited by the National Council for the Accreditation of Teacher Education and approved by the Michigan Department of Education. In almost every instance, where a program-specific national recognition exists, we hold this recognition at the highest level.

In addition to our academic programs and various sponsored projects, through the Office of Collaborative Education we work with numerous school districts in a variety of school improvement activities.

Our teacher graduates are highly prized and are actively recruited by many out-of-state school districts. Our alumni hold many distinctions, including the Pulitzer Prize, National Teacher of the Year, and president or executive of major national professional organizations.

For our initial teacher preparation programs, EMU develops knowledgeable professionals who are caring, reflective, decision-makers in a culturally diverse and technological society.

Further, EMU advanced professional education programs develop leaders who demonstrate reflective thought and scholarship within the context of a culturally diverse society.

**The Professional Education Programs of Eastern Michigan University**

**Applicability**

The curricula and academic policies contained in this portion of the catalog are applicable to students who were admitted to the program in professional education personnel. We offer programs at the bachelor's, master's, specialist's, and doctoral degree levels.

Our programs have received a number of national recognitions. We are fully accredited by the National Council for the Accreditation of Teacher Education and approved by the Michigan Department of Education. In almost every instance, where a program-specific national recognition exists, we hold this recognition at the highest level.

In addition to our academic programming and various sponsored projects, through the Office of Collaborative Education we work with numerous school districts in a variety of school improvement activities.

Our teacher graduates are highly prized and are actively recruited by many out-of-state school districts. Our alumni hold many distinctions, including the Pulitzer Prize, National Teacher of the Year, and president or executive of major national professional organizations.

For our initial teacher preparation programs, EMU develops knowledgeable professionals who are caring, reflective, decision-makers in a culturally diverse and technological society.

Further, EMU advanced professional education programs develop leaders who demonstrate reflective thought and scholarship within the context of a culturally diverse society.

**Transfer Students**

Many of the curricular and academic policies of this catalog are stated as though the student took all work at Eastern Michigan University. It is recognized that many students have course work from other institutions. Inquiries about the possible application of some or all work from other institutions to an undergraduate program of study at Eastern Michigan University should be directed to the Office of Records and Registration, where they will be addressed in conformity with EMU policies on transfer work.

Inquiries about the possible application of some or all work from other institutions to a graduate program of study at EMU should be directed to the graduate coordinator in the department in which the program is housed.

**Post-Baccalaureate Students**

Except where otherwise noted, students who hold a baccalaureate (or higher) degree prior to the beginning of pedagogical studies or prior to admission to the teacher education program are expected to complete all requirements for the desired teaching specialty as outlined in this catalog. These requirements include (but are not limited to) those related to the teachable major and teachable minor, grade point average, admission to the teacher education program, the appropriate pedagogical sequence, and required state tests.

A useful first step for persons who fall into this category is to consult with an appropriate adviser regarding which courses, already part of the person's academic record, are applicable to the desired teaching specialty.

**Exceptions**

By policy of the college of education council, covering matters related to all professional education programs and, in addition, all other programs offered by the college of education, requests for exceptions to academic policy (e.g., admission, retention, exit requirements) and exceptions to curricular requirements are to be processed through administrative channels.

In particular, a request for an exception should be discussed with the academic adviser, reviewed and approved by the appropriate department head, and reviewed and approved by the dean of the college of education (or their designee). From there, depending on the nature of the request for exception, it may be reviewed as necessary by other administrators, and, if approved at all levels, transmitted to the appropriate office for use at the time of graduation audit and/or request for recommendation for certification.

In general, there are few appropriate opportunities for exceptions to be made. Each component of a program is carefully designed to accomplish some particular purpose. Where options are available, they are identified in this document. Where options are not available, it is generally because requirements (local or external) do not permit other approaches.

**Interpretation**

Any student, staff member, faculty member, or administrator may request an official interpretation of the provisions of this portion of the catalog. Such a request must be made, in writing, to the dean of the college of education. The dean will advise the requester of the source of the policy or curriculum requirement in question. If the source is an authority other than EMU governance structure for professional education (e.g., Michigan Department of Education), the request will be advised from whom the interpretation should be sought. If the source is the EMU governance structure for professional education, the dean, in consultation with appropriate parties, will obtain and provide the requested interpretation.

**Relationship of this Document to Other Modes of Written and Oral Advice**

Because the provisions of this catalog are applicable (see above), the student must understand that, in the event of an inconsistency between (a) oral advice (e.g., conversation with a faculty or staff member) or informal written advice (e.g., an advising form, a brochure, a letter, a departmental Web site) and (b) the provisions of this catalog, the provisions of this catalog are the ones that govern the situation.
Given the size and complexities of the professional preparation programs of Eastern Michigan University, the complicated interactions between University programming and external authorities, the rapid change that is occurring to keep EMU professional education programming on "the cutting edge," and other such factors, it is virtually impossible for any single faculty or staff member to be completely and fully informed on every matter that might be raised.

Faculty and staff members make every effort to be helpful to students and departmental/program materials are intended to inform. Even so, some of these sources are infallible, especially in complicated situations.

Thus, there is the need for a single, authoritative source of information about professional education curricula and academic policy on which the entire EMU community can draw and in which all can have confidence. This portion of the catalog is intended to serve that purpose.

The Governance of Professional Education

As a member of The Renaissance Group, Eastern Michigan University is committed to the principle that teacher preparation is a campus-wide responsibility. Many EMU organizational entities are involved with services to prospective teachers (and other professional personnel) and teacher (and other professional personnel) preparation program delivery. Several established faculty bodies are charged with roles involving curriculum and academic policy issues.

Committee on Basic Programs

The committee on basic programs (CBP), under its governing document, with the coordination of initial teacher preparation, is charged with the selection of initial teacher preparation. The CBP is composed of elected faculty members from three academic colleges, each representing one or more program areas in which the institution prepares beginning teachers; students; and major administrators of the teacher education program. The determinations of the CBP are made as recommendations to the education council.

College of Education Council

The college of education council (COE council) is composed of elected members of the faculty of the college of education. CBP recommendations are forwarded to the COE council for its review. Positive recommendations are forwarded through the dean of the college of education to the office of the provost, vice president for academic affairs for further review and approval.

All matters related to the advanced preparation of teachers and related to the preparation of all other types of educational personnel (e.g., principals, counselors) are processed through the committee on advanced programs and the COE council determinations are forwarded through the dean of the college of education to the office of the provost/vice president for academic affairs.

Central Institutional Structures

An item approved by the college of education council and also approved by the dean of the college of education is transmitted to the office of the provost and vice president for academic affairs. From there, its routing to obtain clearance on the item, depending on the nature of the item, might be to one or more of several different entities, including the faculty council, the Graduate School, the Board of Regents, etc. The policies, procedures, minutes, etc. of these various structures are available through the executive officer of the body or the relevant Eastern Michigan University administrator.

General Information Applicable to All Prospective Teachers

Eastern Michigan University is authorized and approved by the Michigan Department of Education and accredited by the National Council for Accreditation of Teacher Education to prepare the following types of teachers. Successful completion of the appropriate program of studies leads to a recommendation for the Michigan provisional certificate.

Elementary

Several approaches for establishing eligibility for recommendation for certification as an elementary teacher are offered. One approach includes the course work necessary for eligibility for the additional early childhood education endorsement. See the curricula in both elementary and early childhood education.

Secondary and K-12

Programming is offered to establish eligibility for recommendation for certification as a secondary teacher in the following major fields: biology, business education (business services and technology education), chemistry, computer science, earth science, economics, English, French, general science, geography, German, history, industrial-occupational education, marketing education, mathematics, physics, political science, psychology, social studies, sociology, Spanish, and speech (communication). Preparation through a minor is available in several additional fields. See the curricula for these secondary programs.

Programming is offered to establish eligibility for recommendation for certification as a K-12 teacher in the following fields: art education, industrial technology, Japanese language and culture, music (instrumental), music (vocal), physical education, and technology and design. See the curricula for these K-12 programs.

Special Education

In general, one must complete requirements for becoming an elementary or secondary teacher prior to or simultaneously with completing additional requirements for becoming a special education teacher. At the baccalaureate level, EMU prepares special education teachers in the areas of emotionally impaired, hearing impaired, mentally impaired, physically and otherwise health impaired, and visually impaired. The speech and language impaired program is a five-year course of study that culminates in a master's degree. The learning disabilities program is a graduate-level program only. See the curricula for these special education programs.

Endorsements

One may become eligible to become endorsed in a second (or third or fourth) teaching field. In addition to the teaching fields given above, course work leading to eligibility for recommendation for a certification endorsement is available in fields such as bilingual Spanish, health, and vocational business education.

Employment Opportunities

The demand for certain kinds of teachers is much greater; both in Michigan and nationally, than it is for other kinds of teachers. In addition, it is sometimes difficult to place student teachers in certain teaching fields. Accordingly, prospective teachers are urged to consult with an adviser at an early point so as to optimize ultimate employment opportunities through careful selection of a course of study.

Admission to and Retention in the Teacher Education Program

In order to pursue the sequence of courses necessary to complete eligibility for recommendation for certification, one must apply for and be admitted to the teacher education program. Admission requirements are common for all teacher education programs, except that certain special education programs have additional requirements.

Application for admission to the teacher education program should occur immediately after the semester in which the student has earned 56 hours of credit. Transfer students with more than 56 hours should apply immediately after the semester in which they have earned 12 hours at EMU.

Admission to the teacher education program is not automatic. Only those persons who have formally applied are considered for admission. Not all persons who apply become eligible for admission.

Application forms and additional information are available in the College of Education Office of Academic Services, 206 Porter.

Criteria

Criteria for admission to and continuance in the teacher education program are:

1. Completion of 56 hours with a minimum EMU overall grade point average of at least 2.5 in the major (secondary and where applicable, elementary) or three minors (elementary).
2. Demonstrated competence in:
   a. Graduate (post-baccalaureate) students whose undergraduate GPA is 2.5 or above must either:
      i. apply to a post-baccalaureate student through the Office of Admissions if all requirements for admission to the teacher education program are met, or
      ii. enter as a self-improvement student through the Office of Admissions and fulfill all requirements for admission to the teacher education program before application for admission to the teacher education program as a post-baccalaureate student through the Office of Admissions.
   b. Graduate (post-baccalaureate) students whose undergraduate GPA is below 2.5 must either:
      i. apply to the second bachelor's program and satisfy the GPA requirement by completing 24 hours of approved undergraduate work in Michigan-approved substantive fields at EMU and earn a GPA of 2.5 or better. At least one half of the credits must be in the student's major or minor(s), which he/she expects to teach. Students must submit the list of courses for approval to the college of education office of academic services during the first semester of course work. Students may not enroll in courses for which admission to the teacher education program is a prerequisite before the 24 hours are completed. The second bachelor's degree must be posted before the student is approved for student teaching.
      ii. complete a master's degree in a Michigan substantive field he/she expects to teach. Students may not enroll in courses for which admission to the teacher education program is a prerequisite before the master's degree is completed.

2. Demonstrated competence in:
   a. Speaking effectiveness as determined by successful completion of the required course(s) in speech;
   b. Reading ability as determined by EMU admission policies, successful completion of general education requirements, and successful completion of the state-mandated basic skills test;
   c. Written expression as determined by successful completion of all general education requirements, a review of an autobiography submitted as a part of the teacher education program admission process, and successful completion of the state-mandated basic skills test;
   d. Mathematical computation as determined by EMU admissions policies, completion of general education requirements in science and mathematics with a C or better, and successful completion of the state-mandated basic skills test.

3. Satisfactory health status, including tuberculosis and speech and hearing screenings.

4. Social and emotional adjustment account is taken of standards of conduct expected on Eastern's campus; the degree to which students meet their academic, financial, moral, social, and other obligations; and the practice of good citizenship among fellow students.

5. Freedom from any kind of probation—administrative or academic. While on academic probation, students may not register for, remain in, or receive credit for a professional education course. This includes all methods classes taught in departments outside of the College of Education.

Undergraduate students on academic probation may not earn credit for any graduate-level on-campus or off-campus courses (500 level and above).

**Elementary and Early Childhood Programs**

The curricula for the elementary education programs leading to the bachelor's degree consists of (1) an appropriately selected group of courses in general education, (2) a major and minor (or three minors) from approved lists, and (3) a required group of professional education courses. If the student wishes to be endorsed in a subject field, an additional minor from the approved list will be required. A variation of this program is available for those who wish to be prepared as early childhood teachers. Satisfactory completion of these courses and requirements will satisfy requirements for a baccalaureate and for eligibility for recommendation for the State of Michigan Provisional Elementary Certificate. See General Information Applicable to All Prospective Teachers for requirements having to do with admission to, retention in, and exit from the teacher education program.

Ordinarily, the degree earned is the bachelor of science. The bachelor of arts degree requires completion of 75 hours in the liberal arts and one year of college credit in foreign language.

The State Elementary Provisional Certificate is valid for teaching all subjects through grade five, for teaching in self-contained classrooms in grades six through eight, and for teaching in one's major or minor areas of concentration in grades six through eight. The certification test for elementary education is #33, "Elementary Education." A person is not considered or "program completion" until this test is passed.

**Approved Majors for the Elementary Program**

- **Elementary Science Group**
  - Language Arts Group
  - Mathematics for the Elementary Teaching Certificate
  - Social Studies Group Major for Elementary Education

**Approved Minors for the Elementary Program and the Special Education-Elementary Programs**

- Art
  - Arts Group minor (not available with art minor, music minor, or with technology minor)
- Early Childhood Education
- Elementary Music Education
- Elementary Science Group
- Language, Literature and Writing
- French Language
- German Language
- Health
- Language Arts Group
- Mathematics for the Elementary Teaching Certificate
- Physical Education for Special Education (only for special education majors)
- Social Studies Group (Elementary)
- Spanish Language
- Structure of the Disciplines
- Technology and Design

**Secondary (Middle-High School) and K-12 Program**

The curricula for the secondary/K-12 teacher education programs consist of (1) an appropriately selected group of courses in general education, including the EMU General Education program, (2) an appropriately chosen major and (certain teaching fields excepted) minor, (3) a required group of professional education courses. See General Information Applicable to All Prospective Teachers for requirements having to do with admission to, retention in, and exit from the teacher education program. Satisfactory completion of these courses and requirements will satisfy requirements for a baccalaureate degree and for eligibility for recommendation for the State of Michigan Provisional Secondary Certificate.

Ordinarily, the degree earned is the bachelor of science; however, the bachelor of arts degree may be obtained by completion of 75 hours in the liberal arts and one year of college credit in foreign language.

**Approved Majors for Secondary (Middle-High School) and K-12 Teachers**

**Secondary Programs**

- Biology
- Business Services and Technology Education (business education)
- Chemistry
- Communication (speech)
- Computer Science
Admission and Continuance Criteria (For All Programs Except Speech and Language Impaired)

1. Completion of 55 hours of college credit and with an EMU grade point average of 2.5 or better.
2. Completion of SPSPN 251 and the introductory course in the major area of study with a grade of "C" or better. These introductory courses are:
   a. Emotionally impaired: SPEI 301.
   b. Hearing impaired: SPEI 301.
   d. Physically and otherwise health impaired: SSPPI 310.
   e. Visually impaired: Demonstrate proficiency in typing.
3. Successful completion of the state-mandated basic skills test.
4. Submission of a formal application for admission to the department of Special Education supported by a letter of recommendation from a faculty member in the Department of Special Education.

Criteria for continuance in a program of study in the Department of Special Education is dependent upon:

1. Maintenance of a 2.5 cumulative grade point average.
2. Maintenance of a 2.5 cumulative grade point average in major courses in program of study.
3. Completion of all courses in the major with a grade of "C" or better. Students will be required to retake any major course in which they earn a grade below "C." A major course may be repeated only once.
4. Demonstration of performance that indicates reasonable aptitude, maturity, stability, skill, and understanding necessary for success in the professional field of special education.

The continuance or termination decision will be made by the faculty in the program area. Students may request a meeting with the faculty of a program area to apprise them of any extenuating circumstances that may aid them in arriving at a fair and equitable decision. The faculty decision will be final and will be transmitted to the student in writing by the department head.

Nothing in this department's procedures will negate University or College of Education action for students on academic, administrative, or social probation.

Speech and Language Impaired Admission and Continuance Criteria

The following criteria must be met before admission to the undergraduate program is granted:

1. Must complete 35 to 45 hours with a minimum GPA of 2.75.
2. Must have passed the Basic Skills Test, which assesses math, reading comprehension, grammar, and writing skills. Must achieve or surpass the score established by the College of Education.
3. Must pass a speech and hearing screening.
4. Must meet application submission deadlines:
   - Fall semester: February 15
   - Winter semester: October 15

When the number of applicants exceeds program capacity, a specific formula will be applied to make selections. Preference will be given on the basis of GPA, previous enrollment at EMU, membership in a protected minority group.

To be allowed to continue in the speech-language pathology program, the student must meet the following:

1. Maintenance of a cumulative overall GPA of 2.75 or better.
2. Maintenance of a cumulative major GPA of 3.0 or better.
3. Completion of all major academic courses with a grade of "C" or better. Courses in which a grade of "C" or lower is achieved must be repeated and may be repeated only once. A student must retake the course in which the lowest grade was received. No more than one course may be repeated. Students will not be able to enroll in courses at the management level or beyond until this requirement is met. Students must remain in their planned tracks if they are required to repeat. This implies eligibility to take advanced SPSPI courses for one or two terms.
4. Completion of all major clinical courses with a grade of "C+" or better. Clinical courses in which a grade of "C" or lower is achieved must be...
dent clinical services 10 persons who have disorders of communication (speech, language, and/or hearing). An individual who meets these requirements may be awarded a Certificate of Clinical Competence in Speech Pathology. Specific requirements may be obtained from the SL P faculty.

Termination from the Program
Students who fail to comply with the continuation criteria stated above will be notified in writing of their termination from the program. Students so notified have the right to appeal such termination through normal University channels. In some cases, a student will be required to meet with the full faculty for discussion of academic performance and continuation in the program.

General Information
Fieldwork in both general and special education is required. Pre-student teaching experiences are required of all candidates pursuing a teaching certificate. (See Pre-student Teaching) Majors in special education are required to complete practicums or preclinical experiences in addition to those required for teacher certification and should consult with their advisers regarding specific requirements within their designated areas of special education.

Student teaching in either elementary or secondary education must be successfully completed prior to the special student teaching placement. Special student teaching assignments are arranged and approved by the department upon the recommendation of the faculty within the designated area of special education.

Certification—Special Education
Certification in either elementary or secondary (regular) education is required for all programs of study in special education except speech and language impaired (see SLP program description). Successful completion of any program of study leads to a K–12 special education endorsement when students pass the relevant state certification test.

The professional entry-level credential in speech-language pathology (speech and language impaired) is the master's degree. Students who are awarded the bachelor's degree in speech-language pathology at Eastern Michigan University are expected to apply for admission to graduate degree programs. Those applying to the graduate speech-language pathology program at Eastern Michigan University will compete with other applicants for admission.

Each of the programs of study in special education meets or exceeds minimum course, experience, competency, or content requirements established by the Michigan State Board of Education for that endorsement area. However, meeting Michigan teaching certification and endorsement requirements does not necessarily meet requirements for teacher certification or endorsement in other states. All special education programs of study are recognized and approved for accreditation by the International Council for Exceptional Children.

The hearing impaired and speech and language impaired programs also are certified by national professional associations. The American Speech-LanguageHearing Association issues Certificates of Clinical Competence to individuals who present satisfactory evidence of their ability to provide independent clinical services to persons who have disorders of communication (speech, language, and/or hearing). An individual who meets these requirements may be awarded a Certificate of Clinical Competence in Speech Pathology. Specific requirements may be obtained from the advisors in speech and language impairment.

National certification is provided by the Council on Education of the Deaf to eligible majors in the hearing impaired program. Specific requirements may be obtained from advisors in this area.

Pre-Student Teaching Field Experiences
Departmental Administration
Barbara Gorenflo
Director
206 Porter
734-487-1416
E-mail: barbara.gorenflo@emich.edu

The pre-student teaching field experience requires prospective teachers to work with children or youth in an actual classroom setting. It is designed to help prospective teachers evaluate their own abilities as teachers and to affirm their decision about choosing teaching as a career. It also enables prospective teachers to understand how the professional education courses in human development and learning, social aspects of teaching, and curriculum and methods relate to the classroom.

The pre-student teaching field experience requires prospective teachers to visit diverse environments and work with children or youth in actual classroom settings. It is designed to help prospective teachers evaluate their own abilities as teachers and to affirm their decision about choosing teaching as a career. It also enables prospective teachers to understand how the professional education courses in human development and learning, social aspects of teaching, and curriculum and methods relate to the classroom.

A minimum of 100 clock hours of approved pre-student teaching field experiences is required of all candidates for a recommendation for a teaching certificate. See the program descriptions for the exact requirement in each program. At least 50 percent of the experience must be in a classroom situation with the age group and (in the case of secondary) K–12 in the subject matter area the student plans to teach. Students should make sure that their pre-student teaching field experiences include opportunities to work with students from different socio-economic levels and cultures.
By the end of the pre-student teaching field experience, the student should be able to:

1. Discuss the ways in which schools and communities interact to impact student learning.
2. Describe and reflect upon teaching/learning activities in a variety of settings.
3. Plan, carry out, and assess a series of learning activities for an individual student or group students.
4. Describe and reflect upon a variety of classroom environments and how they affect student learning.
5. Make a valid decision concerning teaching as a career.

Most students will complete approximately 60 of their 100 pre-student teaching hours through required Field Experiences in Teacher Education (FETE) courses. Students who complete all three FETE courses are not required to complete an additional pre-student teaching coursepack. Students in programs that do not require three FETE courses must complete the appropriate sections of the general pre-student teaching coursepack. Majors in special education should consult their advisors or the pre-student teaching director concerning overlapping preclinical requirements.

**Student Teaching**

**Departmental Administration**

Barbara Goranflo
Director
206 Porter
734.487.1416
E-mail: barbara.goranflo@emich.edu

**Applicability**

All candidates for recommendation for certification as a teacher are required to fulfill a student teaching requirement in the areas of their academic preparation and at the level for which certification is being sought.

Students desiring certification in the elementary, secondary, and K-12 programs are required to complete successfully 12 credit hours of student teaching.

Students in special education areas (emotionally impaired, hearing impaired, mentally impaired, physically or otherwise health impaired, visually impaired) are required to fulfill six credit hours of student teaching with nonimpaired children and an additional ten credit hours of student teaching in their area of specialization.

Students desiring certification in bilingual education are required to fulfill eight credit hours of student teaching with English-speaking children and an additional four credit hours of student teaching in bilingual education.

**Application Deadlines**

Applications for student teaching may be obtained from the College of Education Office of Academic Services, 206 Porter, and should be completed and returned to that office in accordance with the following schedule:

- Fall student teaching: previous January 15
- Summer student teaching: previous January 15
- Winter student teaching: previous January 15
- Spring student teaching: previous January 15

Applications for student teaching will be accepted after the deadline; however, placement priority is given to those students who file in accordance with the deadline dates and it is rarely possible to provide placements for those who apply late.

**Eligibility for Student Teaching**

To qualify for a student teaching placement, students must satisfy the following criteria:

1. Fulfill the requirements of the pre-student teaching field experience.
2. Demonstrate minimum levels of skills in reading, written English, and mathematics as defined and measured by the state-mandated basic skills test.
3. Demonstrate competence in the teaching field(s) through a satisfactory score on state-mandated subject area test(s), if required by the state.
4. Provide written recommendations from course instructors and field supervisors demonstrating a minimum level of skill in working with students. These become a part of the student teacher's file.
5. Have a positive recommendation from the designated representative of the department in which the major is located.
6. Register in the appropriate student teaching course (see course descriptions).
7. Be a first semester senior with the majority of major courses completed.
8. Carry a class load of no more than 15 hours. To be considered for more than 15 hours, the student must have a 3.0 cumulative GPA.
9. Complete one semester of resident study at EMU prior to student teaching. Exceptions are subject to approval by the dean of the College of Education or the Dean's designee.

The following prerequisites are to be completed prior to student teaching and cannot be taken concurrently:

1. CURR 304 Curriculum and Methods: Elementary (Elementary) or CURR 305 Curriculum and Methods: Secondary (Secondary and K-12)
2. EDPS 322 Human Development and Learning (all except Special Education) or EDPS 325 Life Span Human Growth and Development (Special Education)
3. SOED 328 Schools in a Multicultural Society
4. Secondary and K-12: the appropriate special methods course in the major or minor field.
5. Elementary: RDNG 314 Teaching Reading in the Elementary School and MATH 381 The Teaching of Mathematics, K-6
6. All state-mandated tests.

No student shall be assigned to student teaching whose grade point average is less than 2.5 in work completed at Eastern Michigan University or less than 2.5 in the teaching major (including courses completed at other colleges if applicable). No student shall be assigned to student teaching who has received a grade lower than "C" in any professional education course. Students enrolled in the elementary education program, if taking the three minors option, must attain a combined minimum GPA of 2.5 in the three teaching minors.

**Placements**

Students who meet all eligibility requirements at the time of application for student teaching will receive priority in placement. Placement during the requested semester can not be guaranteed for those who do not qualify at the time of application.

Students cannot arrange their own student teaching assignments. Prior arrangements will not be honored by the College of Education Office of Academic Services. Placement could be delayed a full semester in these cases. A preferred student teaching placement will be accommodated by the College of Education Office of Academic Services if possible. In requesting placement in a particular school district, the student is advised to avoid the following: districts in which a parent or other relative is employed by the district board of education; districts in which the student has a record of significant prior involvement; and districts that are outside of the list of the student teaching agreements.

The director of student teaching must approve all placements outside the list of Eastern Michigan University cooperating districts. A request for a guest student teaching must be approved by the Office of Records and Teacher Certification and the director of student teaching and must be at an NCATE (National Council for Accreditation of Teacher Education) accredited institution. Guest status at another university requires a 3.0 University GPA.

Students enrolled at another institution in Michigan or in another state who wish to do their student teaching through Eastern Michigan University are advised to consult the director of student teaching on their campus prior to submitting the request to this University. Students granted guest student status for student teaching are expected to have fulfilled all prerequisites required for student teaching at the home institution.
Spring student teaching is available only under very specialized circumstances involving special education teachers.

When students are doing student teaching, they should arrange their daily schedule so that teaching will take precedence over other interests and duties.

Students requesting placements beyond a 40-mile radius from Eastern Michigan may be assessed a mileage fee.

Courses
All student teaching courses (EDUC 490 through EDUC 499) provide practical experience in the appropriate classroom under the guidance of mentor supervising teachers. The student teacher's role as an instructional decision-maker is reflected in planning for teaching, managing the classroom, and directing the learning activities of pupils. Student teachers are given increasing tasks for directing the activities of the classroom, gradually assuming full responsibility.

All student teaching courses have as prerequisites the following requirements, with additional prerequisites given, as applicable, with each course:
- Elementary—Completion of EDPS 322 or EDPS 325, RDNG 314, CURR 304, SOFD 328, and MATH 381 (or appropriate substitutions).
- Secondary—Completion of EDPS 322, CURR 305, SOFD 328, and completion of the special methods course in the major or minor (or appropriate substitutions).

Health, Physical Education, Recreation, and Dance

www.emich.edu/public/hperd/hperd.html

Departmental Administration

Frederick Andres
Department Head
319 Porter Building
734.487.4388
E-mail: frederick.andres@emich.edu

Any student who has started his/her academic career after the fall 1997 semester shall take the PEON 210 Lifetime Wellness and Fitness course. In addition, students may elect up to eight hours of physical education activity courses that enhance students' personal development, health-related fitness, and their use of leisure. All students seeking admission to a professional major program must make application in 319 Porter Building. Upon acceptance into a program, declared major students are assigned a faculty adviser.

In addition, the department provides career education in the fields of dance, health, physical education, adapted physical education, recreation/park management, therapeutic recreation, and sports medicine.

Three physical education facilities are available to accommodate accelerating student use. Warner Physical Education Building, dedicated in 1964, houses the majority of areas used by the department to instruct students in their career preparation. The facility includes three gymnasia, a dance studio, a commons room, a gymnastics room, sports medicine lab and six classrooms.

Adjacent and attached to Warner are Bowen Field House and the Olds Student Recreation Center, where classes are taught in facilities such as the indoor track, racquetball/paddleball courts, and 50-meter swimming pool. Also available for class use and gymnasiums near by.

The department is affiliated with the American Alliance and Michigan Associations of Health, Physical Education, Recreation, and Dance; the National and Michigan Recreation and Park Associations; and the National Athletic Trainers Association. It also sponsors the student professional organizations Eta Sigma Gamma (health) and Delta Psi Kappa (physical education). Other student organizations include the Student Athletic Trainer Club, the Student Exercise Science Club, the Physical Education Organization, and the Student Recreation Organization.

Degrees Offered

Bachelor of Science

Programs of Study

Majors:
- Dance
- Physical education for K-12 education
- Recreation and park management
- Sports medicine-athletic training
- Sports medicine-exercise science
- Therapeutic recreation

Minors:
- Athletic coaching
- Dance
- Health education
- Physical education for elementary, secondary, K-12, special education—elementary, and special education-secondary
- Physical education for secondary, K-12, and special education-secondary
- Physical education for special education-elementary and special education-secondary
- Recreation and park management

The list of officially assigned advisers is posted in 319 Porter Building. It is recommended that students seek out their adviser as soon as possible to establish a course of study leading to the degree sought.

Advising Coordinators

Faculty in each of the professional programs are assigned advising responsibilities for those who declare their majors in one of the four disciplines. Coordinators are:

Majors:
- Dance: JoAnn McNamara
- Teachers of physical education: Michael Paciorek
- Recreation and park management: Vic Chiasson
- Therapeutic recreation: David Thomas
- Sports medicine-athletic training: Jodi Schumacher
- Sports medicine-exercise science: Shari Levine

Minors:
- Coaching: Michael Paciorek
Dance: JoAnn McNamara
Health: Kay Woodiel
Physical education: Michael Paciorek
Physical education minor for special education: Michael Paciorek
Recreation and park management: David Thomas

Approvals:
State of Michigan Approval as a Physical Education Teacher for Students with Disabilities: Michael Paciorek
Fieldwork is a criteria of individual professional programs. Extracurricular assignments enhance the practical application of knowledge learned in the classroom.
Certification is dependent upon the professional program a student selects. Each of the major and minor programs allows students to fulfill professional preparation for different careers.
Graduate study leads to the master's degree in physical education. For descriptions of graduate courses and programs, consult the graduate catalog.

Activity Courses for General Students
Students are required to wear apparel appropriate to safe and efficient participation in the particular course activity. Students are also required to pay a locker and towel fee. This fee is payable at the Cashier's Office, 201 Pierce Hall.

Dance Curriculum
181S major code: PE02

Program Advising
Please contact the following person for advising and additional program information:
Sherry Jerome
319 Porter
734.487.2711
E-mail: sherry.jerome@emich.edu

The dance curriculum is uniquely designed, offering students of dance a choice of three career-track options. This curriculum leads to a bachelor of science degree. The three tracks are: (1) pre-dance therapy, (2) studio management, and (3) performance. Students are not required to choose a minor, with the exception of studio management.

Students planning admission to the dance major must officially enroll in the program at the Academic Advising Center and complete the following:
1. A technical assessment and audition into the program
2. An application into the dance program at 319 Porter
3. An application into the Department of HPERD at 319 Porter.
4. A course of study planned with a dance adviser based on track recommendations.

All students must meet the general education requirements and the other courses specified in each area below.
Suitable adjustments can be made in consultation with a dance faculty adviser. Some of the track required courses can be used to fulfill general education requirements.
Dance majors need to enroll in a technique class every semester while attending Eastern Michigan University. Ballet or modern technique classes may be repeated for no-credit.

*Minor .......................................................... 18-21 hours
**Elective courses ........................................... 1-16 hours
Total .......................................................... 124 hours

NOTE:
*The studio management track must select a minor from business or management (21 hours).
**The studio management track requires 1 hour in elective courses, other tracks require 16 hours in elective courses.**

#This course satisfies both general education requirements and requirements of the major. In order to avoid taking excess hours, students are advised to take this course, or an approved substitute from another institution, as part of the general education requirements.

##Recreation and Park Management

**ISIS major code: PE4**

###Program Advising

Please contact the following person for advising and additional program information:

Vic Chlasson
319 Porter
734.487.2707
E-mail: vic.chlasson@cmich.edu

The recreation and park management curriculum leads to a bachelor of science degree and is designed to prepare students for a broad range of professional career options including municipal and regional recreation, state and federal park agencies, college intramurals and student unions, commercial and private recreation, outdoor adventure programs, industrial recreation, armed forces recreation, and resorts. The program is non-teaching major. A minor in recreation and park management is offered to majors in other fields.

The curriculum is multidisciplinary, including course work in management and the social sciences, with required course work to include recreation leadership, programming, and administration and management courses. Students are advised in selecting electives from recreation/park and related subject areas that will further prepare them for careers in their chosen area of interest.

This curriculum consists of a minimum of 52 to 54 hours of general education, a minimum of 59 hours of courses in the recreation and park management major, eight to 13 hours of electives, 250 hours of volunteer and/or paid recreation experience, and a minimum GPA requirement before taking a full-time 15-week practicum. The practicum and fieldwork cannot be completed at the same site. The student must also file for candidate status one semester prior to enrollment in the practicum. No outside minor is required, but it is strongly recommended.

Students planning admission to the recreation and park management major must officially enroll in the program at the Academic Advising Center and complete an application at 319 Porter.

Criteria for candidate status in recreation and park management are:

1. Obtain a minimum of 2.5 GPA overall and 2.75 GPA in all major courses.
2. Complete an application for candidate status in recreation and park management.
3. Complete 250 hours of verified volunteer or paid work experience in one or more leisure service agencies (this requirement stands alone and does not include required hours included in other courses such as RECR 200, RECR 250/251/252/253).
4. Complete 30 hours of volunteer or work experience in recreation with persons with disabilities.
5. Complete all recreation and park management core courses.
6. Complete all recreation and park management required courses.
7. Complete 90 percent of all academic courses.
8. Submit two letters of recommendation from recreation professionals under whom the applicant has completed work or volunteer experience to the assigned academic adviser in recreation.

Sports Medicine—Athletic Training .................................. 62 hours

Curriculum for Sports Medicine

ISUS major code: PE8

Program Advising

Please contact the following person for advising and additional information:
Shel Levine
319 Porter
734.487.2713
E-mail: shel.levine@emich.edu

Jodi Schumacher
319 Porter
734.487.2722
E-mail: jodi.schumacher@emich.edu

Discipline of Sports Medicine is a comparatively new field of study that integrates sports medicine, the sciences, and other health-related areas into a professional curriculum. It is identified under different approaches and titles including: athletic training, cardiovascular rehabilitation, exercise physiology and biomechanics.

The curriculum leads to a bachelor of science degree in sports medicine.

The course of study consists of a minimum of 53 hours in general education, a minimum of 62 (for A.T.) hours in the major, and 17 to 20 hours of free electives. Students must participate in a variety of practicum experiences prior to completing a full-time internship in the senior year. The program has established special course prerequisites, GPA requirements, and candidacy admission requirements. No outside minor is needed.

Sports Medicine—Athletic Training

Accredited by the Commission on Accreditation of Allied Health Education Programs (CAAHEP)

Program Advising

Please contact the following person for advising and additional program information:

Jodi Schumacher
319 Porter
734.487.2722
E-mail: jodi.schumacher@emich.edu

Students entering the athletic training program are listed as “intents” and cannot be considered for candidacy until the following criteria are met:

1. Officially enrolled in the program at the Academic Advising Center and complete an application at 319 Porter.
2. Overall grade point average at Eastern Michigan University of 2.9 (transfer grade point average evaluated separately).
3. Completion of 60 hours of the program.
5. A grade of “B” or above in SPMD 201 Anatomy for Sports Medicine, SPMD 202 Physiology of Sports Medicine, SPMD 203 Laboratory in Human Anatomy, and SPMD 295 Recognition and Evaluation of Athletic Injury.
6. Three letters of recommendation, two professional and one personal.
7. Biographical sketch.

When an “intent” has successfully achieved the above, they are notified by the program director. The “intent” will be notified of the date and time for a personal interview with the sports medicine committee.

These courses are reserved for candidate students
The above curriculum and 1,500 hours of practicum under the supervision of an NATA-certified athletic trainer are required for graduation and to sit for the NATA Certification Exam. These hours must be attained in no less than two academic years and not more than five years.
Sports Medicine—Exercise Science
ISIS major code: PE0802

Program Advising
Please contact the following person for advising and additional information:
Shel Levine
319 Porter
734.487.2713
E-mail: shel.levine@emich.edu

Students entering the exercise science program are listed as "intents" and cannot be considered for candidacy until the following criteria are met:

1. Declare major intent with the Academic Advising Center and the department.
2. Overall grade point average at Eastern Michigan University of 2.75 (transfer grade point average evaluated separately).
3. Completion of 60 hours of the program. The following courses must be included in the 60 hours: SPMD 119, PHED 209, SPMD 201, SPMD 202, ZOOL 318, and PHED 204 or SPMD 305.
4. Grades of "C" or above in each of the following: BIOL 105, CHEM 120, PHYS 221, SPMD 201, SPMD 202, and ZOOL 318.
5. Three letters of recommendation, two professional and one personal.

When an "intent" has successfully achieved the above, he or she must apply for candidacy with the program chair for a personal interview with the sports medicine committee. Once accepted into candidacy, the student must maintain a 2.75 GPA. Failure to maintain the required GPA will result in dismissal from the program.

Therapeutic Recreation Curriculum
ISIS major code: PE06

Program Advising
Please contact the following person for advising and additional information:
David Thomas
319 Porter
734.487.2724
E-mail: david.thomas@emich.edu

The therapeutic recreation curriculum leads to a bachelor of science degree in therapeutic recreation. Graduates from this program may apply for national certification as a certified therapeutic recreation specialist.

This curriculum consists of a minimum of 52 to 54 hours of general education, a minimum of general education, a minimum of 64 hours of courses in the therapeutic recreation major, eight to 10 hours of electives, and 250 hours of volunteer and/or paid recreation experience before taking a full-time 15 week, 600 hour practicum. The practicum and fieldwork cannot be completed at the same site. The student must file for candidate status one semester prior to enrolling in the practicum. No outside minor is required, but it is strongly recommended.

Students planning admission to the therapeutic recreation major must officially enroll in the program at the Academic Advising Center and complete an application at 319 Porter.

Criteria for therapeutic recreation provisional status are:
1. Application for program admission.
2. Autobiographical sketch and your interest in working with special populations in the field of therapeutic recreation.
3. Statement of goals

Criteria for candidate status in therapeutic recreation are:
1. Obtain a minimum of 2.50 GPA overall and 2.75 GPA in all major courses.
2. Complete an application for candidate status in therapeutic recreation.
3. Complete 250 hours of verified volunteer or paid work experience in one or more leisure service agencies serving people with disabilities.
4. Complete all therapeutic recreation core courses.
5. Complete all therapeutic recreation required courses.
6. Complete 90 percent of all academic courses.

Physical Education Major
K-12 Teacher Certification
ISIS major code: PE 31

Program Advising
Please contact the following person for advising and additional information:
Michael Paciorek
319 Porter
734.487.2717
E-mail: michael.paciorek@umich.edu

Successful completion of this course of studies leads to a bachelor of science degree, and qualifies the student for recommendation for certification for the Michigan Department of Education Secondary Provisional Certificate K-12 endorsement in physical education, certification code "MB" and, depending on the minor selected, an additional endorsement. This program of studies meets all requirements of the National Association for Sport and Physical Education/American Alliance for Health, Physical Education, Recreation, and Dance. The certification test covering this field is #44, "Physical Education" and is taken at the completion of all program requirements.

Students planning admission to the physical education major must officially enroll in the program at the Academic Advising Center and complete an application at 319 Porter.

Students seeking certification must meet requirements for entry into the teacher education program. The course of studies requires completion of general education requirements, a minor in a secondary subject area, the physical education major, and professional education courses.

The course of studies is uniquely designed to provide students with theoretical and practical knowledge of how to deliver physical education programming to students with and without disabilities, from kindergarten through grade 12. The Michigan Exemplary Physical Education Curriculum Project (MI-EPEC) is used as a model to enable students to develop exemplary physical education programs upon graduation. The methods of teaching courses provide information on the sequencing and presenting of a wide variety of activities found within the public schools.

Fieldwork experiences are a critical component of the professional program. Extracurricular assignments enhance the practical application of knowledge learned within the classroom. Majors are required to complete a minimum of 100 hours of student teaching experiences with students of all ages and abilities. Fieldwork experiences will begin in the freshman year, will include students with and without disabilities, and will culminate in a one semester student teaching assignment with elementary and secondary students under the supervision of master teachers.

This program primarily serves the needs of K-12 school programs in Michigan and the United States. Faculty provide students with numerous opportunities for professional growth. Opportunities for additional certifications and endorsements such as water safety instructor (WSI), American Red Cross First Aid, coaching, and certification in programs for students with disabilities are also available and strongly encouraged.

The physical education major program participates in the University Honors Program. Students wishing to enroll in the Honors Program must maintain a GPA of 3.3 and fulfill all requirements in specified honor courses. See the department honors adviser for specific information.

General education requirements ...................................... 49 hours
General education requirements ...................................... 40 hours
Other requirements ........................................................ 7 hours
#BIOL 103 Introductory Biology for Non-majors ............. 4
#PSY 101 General Psychology ......................................... 3

Michael Paclorek
319 Porter
734.487.2717
E-mail: michael.paclorek@emich.edu
This program is intended for special education majors interested in a teaching minor in adapted physical education. The minor in adapted physical education is designed for undergraduates who wish to complete the State of Michigan Approval for Teachers of Students with Disabilities. Because it is a minor, students are required to meet University requirements governing minors as well as the competencies in the Revised Administrative Rules for Special Education, July 1, 1987.

Successful completion of this minor in the context of other program requirements qualifies the student for recommendation for endorsement in physical education, certification level "MB." The certification test covering this field is #44, "Physical Education," and should be taken at the completion of the program.

**Athletic Courses**

**ATHL 177/178/179 Special Topics** 1/2/3 hrs

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Prereq:** Department permission.

**ATHL 261 Techniques of Officiating I** 2 hrs

An elective course offered to men and women students interested in pursuing officiating as an avocation or as an integral part of a coaching background. The course covers football and men's and women's basketball. Registration with the Michigan High School Athletic Association will be available.

**ATHL 262 Techniques of Officiating II** 2 hrs

An elective course offered to men and women students who are interested in pursuing officiating as an avocation. The course would also be valuable to those students who are interested in coaching, as the coach-official relationship is a valuable tool in one's coaching background. The sports covered are: track and field, baseball and softball. There will be a practical phase as well as a lecture phase of instruction.

**ATHL 263 Theory of Football** 2 hrs

Lecture course covering the basic fundamentals and styles of offensive and defensive football.

**ATHL 265 Theory of Baseball** 2 hrs

The fundamental skills and strategy of baseball for the prospective teacher and coach.

**ATHL 267 Theory of Basketball** 2 hrs

Lecture course covering the basic fundamentals and styles of offensive and defensive basketball.

**ATHL 268 Theory of Coaching Swimming** 2 hrs

ATHL 268 is a lecture course for anyone who might coach swimming. The topics covered are stroke technique, applied physiology, strength and flexibility training, rules, and how these components contribute to a daily, weekly and seasonal training plan.

**ATHL 269 Theory of Track and Field** 2 hrs

The fundamental techniques for coaching and administering programs of track and field for the prospective teacher and coach.

A choreographic work will be required of students. Prereq: DANC 107 and DANC 211.</td>
</tr>
<tr>
<td>DANC 455</td>
<td>Seminar in Dance</td>
<td>2 hrs</td>
<td>Current literature and dance research, trends in dance education and developments in contemporary concert dance. Lecture-discussion. Prereq: DANC 390, DANC 450, or department permission.</td>
</tr>
</tbody>
</table>
DANC 456 Creative Dance for Children 2 hrs
Goals, concepts, materials and experiences to teach children's creative dance.

DANC 477/478/479 Special Topics 1/2/3 hrs
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.
Prereq: Department permission.

DANC 497/498/499 Directed Study 1/2/3 hrs
An opportunity for directed study in areas not provided in other course offerings, or greater depth of study in which the student has a continuing interest. Students will be assigned to select faculty members for direction, consultation, and evaluation of the completed study or project. Open only to department majors and minors who have attained junior standing, with a grade point average of 3.0 or above, and who have completed the appropriate background courses.
Prereq: Department permission.

Health Courses

HLED 120 Healthy Living 3 hrs
Develops in students the responsibility for guiding and evaluating their own health. Acquisition of attitudes, habits, skills, and ideas favorable to efficient and healthful living. Material and information concerning mental, physical, and social well-being. Group discussion, lectures, and instructional aids.

HLED 177/178/179 Special Topics 1/2/3 hrs
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.
Prereq: Department permission.

HLED 210 Standard American Red Cross First Aid 2 hrs
For all students interested in accident prevention and in the development of the knowledge and skills essential for immediate care of the suddenly ill or injured. Readings, lectures, and practical work. Certificates for Standard First Aid and for Cardiopulmonary Resuscitation are awarded upon successful completion of the requirements for each.

HLED 277/278/279 Special Topics 1/2/3 hrs
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.
Prereq: Department permission.

HLED 302 From Host to Host: The Communicable Diseases 1 hr
Various types of communicable diseases—childhood and young adulthood, skin, upper respiratory, gastrointestinal, and sexually transmitted—cause, modes of transmission, signs and symptoms, treatment, complications, and means of control. Lectures, discussions, readings, and audio-visual materials.

HLED 310 Advanced First Aid and Emergency Care 2 hrs
Designed for the sports medicine major. At the completion of this course, the student should have developed the functional first aid capabilities required of police officers, firefighters, emergency squad members, ambulance attendants, and others who, as part of their daily routines, may be required to provide the initial emergency care necessary to sustain life and to maintain life support until the victims of accidents or sudden illness are cared for by qualified medical personnel.
Prereq: HLED 210 or current Red Cross certification in First Aid.

HLED 320 Health Education in the Elementary Grades 2 hrs
For students preparing to teach primary and intermediate grades. Health education of school children; survey of environmental conditions and other methods of determining the health needs of the child. The application of educational principles in health instruction. Evaluation of the newer courses in health education.
Prereq: Sophomore standing.

HLED 350 Scientific Foundations in Health 3 hrs
Basic instruction in the physiological and anatomical concepts related to the health of the human organism.

HLED 360 Concepts in School Sex Education 2 hrs
The concepts of sex education as they apply to the school setting. A study of the biological, sociological, and psychological foundations of sex education and the methods and materials for use in presenting sex education in schools.

HLED 377/378/379 Special Topics 1/2/3 hrs
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.
Prereq: Department permission.

HLED 380 Psychosocial Concepts of Health 2 hrs
Mental and social factors as they affect the health of the human being. An exploration of all health concepts and correlation of the mental and social phenomena with the physiological principles presented in HLED 350.

HLED 390 Drug Use and Abuse 3 hrs
Alcohol and other drug use and abuse. Historical perspectives of current problems, pharmacology of drugs commonly used and abused, physiological and psychosocial factors related to abuse, drug problems of special populations, alcohol and other drug abuse prevention, treatment and rehabilitation, drugs and the law.

HLED 399 Teaching about AIDS 1 hr
A course for prospective teachers, nurses, or others who want to examine the issues pertaining to teaching about AIDS prevention. Includes curriculum, methods and resources.
Prereq: One course in AIDS or department permission.

HLED 401 Selecting Health Products and Services 3 hrs
The development of skills in making wise selections of health products and services. Characteristics of the health consumer, consumer protection agencies and laws, quackery, evaluation of health products and services.
Prereq: Sophomore standing.

HLED 420 Health and Aging 3 hrs
A study of some of the major physiological aspects of aging. A review of the basic systemic anatomy and physiology necessary to understand the major aspects of biological aging and the chronic diseases associated with aging. For the general student.
Prereq: Sophomore standing.

HLED 477/478/479 Special Topics 1/2/3 hrs
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.
Prereq: Department permission.

**Physical Education Courses**

PHED 150 Methods of Teaching Individual Sports 3 hrs
A required class for physical education majors/minors who are preparing to teach individual sports in the elementary and secondary schools. Instruction in the teaching, performance, analysis, and evaluation of selected fundamental badminton, golf and tennis skills.

PHED 151 Methods of Teaching Team Sports I 3 hrs
A required class for physical education majors/minors who are preparing to teach in elementary and secondary schools. Instruction in the teaching, performance, analysis, and evaluation of fundamental basketball, softball, and volleyball skills will be presented.

PHED 152 Methods of Teaching Team Sports II 1 hr
A required class for physical education majors/minors who are preparing to teach in elementary and secondary schools. Instruction will focus on performance, analysis, methods of teaching and evaluation of skills utilized in soccer, team handball and non-traditional activities.

PHED 153 Methods of Teaching Conditioning Activities 1 hr
A required class for physical education majors/minors who are preparing to teach in elementary and secondary schools. Instruction will focus on performance, analysis, methods of teaching, and evaluating conditioning activities to increase physical fitness.

PHED 177/178/179 Special Topics 1/2/3 hrs
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.
Prereq: Department permission.

PHED 200 Anatomy and Physiology 5 hrs
A textbook course, supplemented by lectures and demonstrations, on the structure and functions of the bones, joints, and muscles and the organs of digestion, respiration and excretion.
Prereq: SPMD 200.
PHED 204 Kinesiology (Biomechanics of Physical Activity) 3 hrs
A required class for sports medicine and physical education majors/minors to scientifically analyze the techniques involved in the performance of human movement skills. Prereq: PHED 200.

PHED 209 Bio-Fitness 2 hrs
Individual biological needs and how those needs are related to daily habits. Students will complete an individual fitness profile that will be the basis for understanding how desirable changes in fitness are achieved.

PHED 231 Service Teaching 1 hr

PHED 233 Service Teaching 1 hr

PHED 248 History and Foundation of Physical Education 2 hrs
A lecture and discussion course in the history and foundation of physical education. This course is an examination of the influence of selected cultures, peoples, and events that have contributed to the development of the physical education discipline.

PHED 250 Methods of Teaching Aquatics 2 hrs
A required course for physical education majors/minors. Aquatics covers the teaching of the four competitive swimming strokes, front crawl, back crawl, breast stroke and butterfly. In addition, lifesaving strokes, side stroke, and elementary backstroke are studied to prepare students to teach swimming in physical education classes.

PHED 251 Methods of Teaching Gymnastics 3 hrs
A required class for physical education majors/minors who are preparing to teach in elementary and secondary schools. Instruction in the teaching, performance, analysis, and evaluation of fundamental gymnastics skills will be presented.

PHED 257 Physical Education for the Classroom Teacher 2 hrs
A methods and materials course in which the prospective classroom teacher gains knowledge in organizing and implementing a physical education program. Not intended for students majoring in physical education.

PHED 277/278/279 Special Topics 1/2/3 hrs
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied. Prereq: Department permission.

PHED 281 Motor Development 2 hrs
A required course for physical education majors and minors. Instruction will focus on principles of motor development, with implications for learning gross motor skills. Consideration of the factors associated with individual differences in attaining motor proficiency during childhood and adolescence will be examined.

PHED 287 Cooperative Education 3 hrs
One semester of supervised work in concentration area. An evaluation is required at the end of the employment period. Prereq: Nine credit hours in concentration, approval by Cooperative Education Office, and department permission.

PHED 300 Physiology of Exercise 4 hrs
A lecture/laboratory course concerned with human responses and adaptations to muscular activity. The enhancement of health and physical fitness for the general population, optimizing performance in the various types and levels of competitive athletics. Prereq: SPMD 200.

PHED 305 Practical Concepts of Conditioning 2 hrs
A practical experience in applying the concepts and theories of conditioning to in-class situations as well as coaching. Programs such as interval training will be designed and experienced by the student for use in a particular situation.

PHED 312 Athletic Training and Physiotherapy 2 hrs
For prospective coaches and physical educators. Principles and skills of athletic training and physiotherapy. Lectures, demonstration, and practice of massaging, bandaging, taping, and therapeutic measures as applied in athletic activities and injuries. Prereq: SPMD 200.

PHED 316 Foundations of Coaching 2 hrs
Practical and scientific information necessary for the implementation of successful coaching program.

PHED 331 Service Teaching 1 hr

PHED 333 Service Teaching 1 hr

PHED 334 Adapted Physical Education 3 hrs
A required class for physical education majors who are preparing to teach in elementary and secondary schools. Instruction will focus on the teaching, performance, analysis, and evaluation of fundamental rhythmic and dance skills.

PHED 351 Methods of Teaching Fundamental Movement and Movement Education 1 hr
A required class for physical education majors who are preparing to teach in elementary and secondary schools. Instruction will focus on the teaching, performance, analysis, and evaluation of fundamental movement skills. Prereq: PHED 281.

PHED 352 Methods of Teaching Elementary Physical Education 2 hrs
A required course for physical education majors who are preparing to teach and direct physical education experiences for elementary school children. The course focuses on theory and practical experience in physical education in the elementary school. It presents a variety of activities and teaching styles needed to meet the needs of children in the elementary school years. Prereq: PHED 351.

PHED 353 American Red Cross Lifeguarding 3 hrs
American Red Cross (ARC). This course covers CPR for the professional rescuer (CPR-PR), first aid, and in-water rescue skills. ARC Lifeguarding certificates are awarded upon successful course completion.

PHED 367 Methods and Materials in Physical Education 3 hrs
Methods and use of materials in the teaching of activities in the elementary and secondary grades. Unit and lesson planning, classroom management, audio-visual aids. Observations of physical education classes at different levels required. Entry into College of Education required.

PHED 377/378/379 Special Topics 1/2/3 hrs
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied. Prereq: Department permission.

PHED 381 Motor Development of the Young Child 3 hrs
A course designed specifically for early childhood minors and others interested in young children. A study of the sequential development of motor skills during early childhood with focus on children ages birth to eight years. Investigation and application of the major learning theories in relationship to motor behavior, with specific implications for motor development programs for students of different abilities. Methods of assessment and developmentally appropriate practices for planning and conducting movement curricula will be addressed. No credit in PHED 281.
PHED 382 Motor Learning 3 hrs
A required course for physical education majors. Instruction will focus on learning the processes underlying skilled performance, how skilled performances are learned, and how to apply the principles of skilled performance and learning in teaching and coaching situations.
Prereq: PST 101 or Instructor permission.

PHED 387 Cooperative Education in Physical Education 3 hrs
One semester of supervised work in concentration area. An evaluation is required at the end of the employment period.
Prereq: Nine credit hours in concentration, approved by Cooperative Education Office, and department permission.

PHED 388 Assessment in Adapted Physical Education 1 hr
A study of the process of assessing gross motor functioning of students who exhibit a variety of disabilities. Investigation of the legislative mandates requiring assessment and application of the latest assessment instruments for students with disabilities. Fieldwork required.
Prereq: PHED 334.

PHED 389 Sport and Activity for the Disabled 1 hr
A course designed to investigate sports organizations that serve people with disabilities. Topics to be explored include the role of the United States Olympic Committee, Group B members of the USOC and Committee on Sports for the Disabled, classification of athletes for competition, role of the National Governing Bodies in promoting sports, and ways people with disabilities can access sports and non-competitive opportunities.

PHED 400 Philosophical Aspects of Physical Education and Sport 2 hrs
This course challenges students to discover the essence of physical education and sports throughout philosophy. Students will examine why we play, what we value, who we are, how we know, through physical education. This lecture/discussion course is required for physical education majors.
Prereq: PHIL 100 and Junior or Senior standing.

PHED 405 Women in Sports 3 hrs
Patterns, problems, and conditions associated with women's sports involvement in selected world cultures; the sportswoman in American society.

PHED 421 Legal Aspects of Sport, Physical Education, and Recreation 2 hrs
Individual rights, due process, selected legal concepts and principles, liability, safe environments, risk management, contracts, insurance, and other selected topics.
Prereq: Senior standing.

PHED 434 Adapted Preschool Physical Education 1 hr
This course presents instructional strategies and curricular models of instruction for preschool-aged children (age three to five) with special needs or who are at-risk for disabilities and school failure. Planning and effecting gross motor activity programs, assessment procedures, and activity sequences will be emphasized. Legislative mandates and rationale for the development of preschool motor activity programs will be discussed. Supervised field experience required.
Prereq: PHED 334 or permission.

PHED 440 Tests and Measurements in Physical Education 2 hrs
The discriminating selection, administration, interpretation, and use of standardized tests and measurements in physical education. Entry into College of Education required.

PHED 453 American Red Cross Water Safety and Lifeguard Instructor 3 hrs
This course offers students American Red Cross (AR) Certification in instructor candidate training (ICT), water safety instructor (WSI), lifeguards, instructor (LGI), waterfront-lifeguarding instructor (WFI), and head lifeguarding instructor (HLGI). Demonstration, explanation, analysis, practice of teaching skills, use of manuals and videos are used to implement the course content.

PHED 477/478/479 Special Topics 245 hrs
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.
Prereq: Department permission.

PHED 497 Cooperative Education in Physical Education 3 hrs
One semester of supervised work in concentration area. An evaluation is required at the end of the employment period.
Prereq: Nine credit hours in concentration, approved by Cooperative Education Office, and department permission.

PHED 499 Field Experience in Adapted Physical Education 4 hrs
Required course for "teachers of physical education for handicapped individuals." A directed 15-week field experience in teaching physical education to handicapped persons in a school setting.
Prereq: Department permission.

PHED 495 Senior Seminar 1 hr
A synthesis of educational theories presented in the undergraduate physical education program and the student teaching experience. Concurrent registration in EDUC 496 and EDUC 497 is required.

RECR 100 Introduction to Recreation and Leisure 3 hrs
A basic overview of the fields of recreation and leisure service delivery for the major student. Emphasizes the broad aspects of recreation and leisure as they relate to the delivery of human services. Includes history, philosophy, trends and job opportunities. Lecture, discussion, film, and speakers from the field.

RECR 165 Leisure Lifestyles 3 hrs
An introduction to leisure lifestyles as related to oneself and how leisure behaviors relate to an individual's work, education, economy, ethnic beliefs and values. The course involves individual leisure awareness, choices, goals, and strategies to assist in creating a quality and fulfilling life. Lecture, discussion, evaluation techniques and self-exploration. Helpful for majors in any discipline.

RECR 177/178/179 Special Topics 1/2/3 hrs
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.
Prereq: Department permission.

RECR 180 Activity Analysis and Adaptation 2 hrs
Develops the skills necessary to analyze activities to find inherent characteristics that contribute to program objectives for special populations. Components of activity analysis (physical, cognitive, affective and social/interactive skills) are studied in detail. Lecture, discussion and experiential learning.

RECR 200 Recreation for Persons with Disabilities 3 hrs
An overview of therapeutic recreation relative to physically disabled, mentally impaired, emotionally impaired, socially deviant, the aged, and chemically dependent within clinical, outpatient and community settings. Lecture, discussion, film, readings, and 20 hours of fieldwork experience.

RECR 210 Camping for Special Populations 2 hrs
This course will provide practical experience for the student interested in working as a counselor at a camp for special populations. It will also provide experi-
safety practices; legal issues; and public relations. Lecture, speaking, park visits, and field trips.

RECR 260 Recreation Leadership 3 hrs
Methods and techniques of group and individual leadership skills at three levels: direct face-to-face leadership, supervision, and management. An overview of conceptual and theoretical components of the leadership process; practical application of various leadership methods and procedures in a cross section of leisure service settings. Lectures, discussion, and experiential learning.

RECR 271 Park Maintenance 3 hrs
Principles, practices, and techniques of maintenance and management of outdoor recreation areas and facilities. Resource maintenance and management; maintenance and depreciation of equipment; personnel practices in maintenance; safety practices, legal issues; and public relations. Lecture, speakers, park visits, and projects.

Prereq: RECR 100 or department permission.

RECR 277/278/279 Special Topics 1/2/3 hrs
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Prereq: Department permission.

RECR 280 Camping 2 hrs
History of organized camping; camping on federal and state recreation areas; information sources for camping; planning and preparation (equipment, clothing, meals, camp schedules and camp programs). Skills areas for camping: map and compass; ropes and knot-tying; campfire construction; camp tool use and maintenance; and tents. Safety reviewed for meal preparation, use of tools, and toxic plants and animals. Lecture, demonstrations, and student participation in a weekend camping trip.

RECR 290 Practical Research in Recreation 3 hrs
The purpose of this discussion/lecture course is to understand and apply basic research design, evaluation procedures and interpretation, and computer and statistical techniques to assessment, planning and evaluation processes in the leisure services. The course is required for recreation and therapeutic recreation majors.

Prereq: Department permission.

RECR 300 Principles of Therapeutic Recreation 3 hrs
Leadership, assessment, and programming techniques to meet the leisure needs of special populations in today's society. Task analysis, facilitation techniques, leisure counseling, programming, and adaptation of specific activities. Lecture, experiential participation, and 30 hours of community fieldwork.

Prereq: RECR 260 or RECR 300.

RECR 320 Leisure Education 3 hrs
Concepts and techniques of leisure education for use with all populations. Leisure awareness, social interaction skills, leisure activity skills and leisure resources. Educates the student as a provider of leisure services. Lecture, speakers, readings, and participation.

RECR 330 Therapeutic Recreation: Substance Abuse 3 hrs
The use of leisure and recreation in the prevention and/or rehabilitation of chemical dependency. Skill development in areas of leisure education, group dynamics, facilitation techniques, communication, values clarification, decision making, games and sports, new games, socialization and outdoor/nature techniques, and family leisure education. Lectures, discussions and experiential learning.

Prereq: RECR 260.

RECR 340 Techniques in Therapeutic Recreation 3 hrs
Introduction to specific techniques used in therapeutic recreation, including counseling theory, psychotherapy, medical terminology, and transfers and lifts. Lecture, speakers, assessments, and 30 hours of fieldwork.

Prereq: RECR 260.

RECR 360 Recreation Program Planning 3 hrs
Learning to plan and deliver leisure experiences to an individual or group of individuals. Use of systematic way of identifying, developing, implementing, evaluating, and revising programs to meet people's leisure needs and interests. Plan individual programs. Lecture, speakers, projects.

Prereq: RECR 277.

RECR 380 Basic First Aid 3 hrs
This basic level course is designed to inform the student of current trends in special events and management. The course will cover vital information needed to plan, develop, construct, and manage various types of facilities. The course will utilize lecture, discussion, guest speakers, and field trips to enhance the students' understanding of the topic.

Prereq: RECR 100, RECR 260, and RECR 360.

RECR 390 Outdoor Recreation 3 hrs
History of outdoor recreation and outdoor recreation management. A systems view of outdoor recreation resources; federal, state, and local agencies that provide outdoor recreation opportunities; their history and management philosophies and problems. Tools utilized by managers of outdoor recreation resources to provide opportunities for recreation. Lecture, speakers, and projects.

Prereq: RECR 100, RECR 300, RECR 340; or department permission.

RECR 410 Professional Preparation 1 hr
Involves self-appraisal as a recreation professional; professional ethics; writing practicum and career goals; developing a chronological and functional resume; writing letter of inquiry and cover letter; information on job placement within recreation services; NCPRA registration/certification; applying for graduate school; and the job interview process. Lecture, self-appraisal, formal videotaped interview with a recreation professional.

RECR 430 Issues in Therapeutic Recreation 3 hrs
This required course is designed for the senior therapeutic recreation major. Students will gain an awareness of the current issues affecting the practice of therapeutic recreation.

Prereq: RECR 260, RECR 300, RECR 400.

RECR 449 Therapeutic Recreation Practicum 8 hrs
A full-time, 15-week, 600-hour experience in an approved hospital, outpatient, or community setting under direction of a certified therapeutic recreation spe-
Influence of organizational thought as related to park and recreation agent and University supervisor. Leadership, supervisory, and administrative

growth in the demand for recreation and open space: site analysis; use area
planning; use of consultants; sources for planning; recreation standards; and interpretation. Lab: maps and aerial

Lecture, projects, field trips.

RECR 460 Park and Recreation Administration 3 hrs
Influence of organizational thought as related to park and recreation agencies. Organizational structures of park and recreation agencies, budgeting, management by objectives, public and private financial sources, volunteerism, marketing of park and recreation resources, pricing services and products, and administrative responsibility and ethics. Lectures, speakers, projects.

Prereq: RECR 100, RECR 260, RECR 360, or permission.

RECR 465 Park and Recreation Management 3 hrs
Use of systems approach to agency management; nature of a problem and problem-solving model; use of public input in management decision-making; role of research in managing recreation services; personnel management practices, and basic legal issues. Lectures, speakers, projects.

Prereq: RECR 100, RECR 260, RECR 360, or permission.

RECR 471 Contemporary Issues in Recreation 3 hrs
This course is to familiarize the recreation and park management student with vital issues that practicing professionals are facing on a daily basis. The class will utilize a seminar format with each session focusing on a single issue. A wide range of leading authorities in the field will present from their perspective. Followed by an in-depth discussion session on how this topic affects the future professional.

Prereq: RECR 100, RECR 260, RECR 360, or permission.

RECR 477/478/479 Special Topics 1/2/3 hrs
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Prereq: Department permission.

RECR 481 Adapted Aquatics 2 hrs
Aquatic instructional techniques in working with special populations including physically disabled, developmenally disabled, emotionally impaired, and the aged. Lectures, films, swimming skills, adaptations of swimming skills, and 20 hours of fieldwork.

RECR 489 Recreation Practicum 8 hrs
A full time, 15 week, 600-hour experience in a leisure service setting under a qualified recreation/leisure specialist and University supervisor.

Prereq: Completion of 90 percent of all academic courses including RECR 100, RECR 200, RECR 250, RECR 260, RECR 360, RECR 460, and RECR 465; completion of 250 hours of fieldwork. Overall grade point average of 2.5 and GPA of 2.75 in recreation and park management required and elective courses.

RECR 497/498/499 Directed Study 1/2/3 hrs
An opportunity for directed study in areas not covered in other course offerings, or greater depth of study in areas of continued interest for the student. Students will be assigned to select faculty members for direction, consultation, and evaluation of the completed study or project. Open only to department majors and minors who have attained junior standing, with a grade point average of 3.0 or above and who have completed the appropriate background courses.

Sports Medicine Courses

SPMD 119 Orientation to Sports Medicine 1 hr
A class for students interested in sports medicine. An introductory course to orient students to the specialized major areas of athletic training and exercise science.

SPMD 177/178/179 Special Topics 1/2/3 hrs
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Prereq: Department permission.

SPMD 200 Anatomy and Physiology 5 hrs
Required lecture course for sports medicine majors that examines the structure and function of the human body. Designed to accompany laboratory material in ZOOL 318.

Prereq: BIOL 105, CHEM 120 and 2.5 GPA.

SPMD 219 Introduction to Athletic Training 3 hrs
An introduction designed to expose the student to the discipline of athletic care. The student will study modern concepts of the prevention and care of athletic injury and common health care issues.

Prereq: SPMD 119.

SPMD 221 Therapeutic Modalities for Athletic Trainers 2 hrs
A detailed study, with laboratory experiences, of theory, applications, physiological effects, indications, and contraindications of commonly used therapeutic modalities in the practice of athletic training.

SPMD 225 Practicum I 2 hrs
A supervised educational experience in athletic training under the supervision of a certified athletic trainer.

Prereq: GPA 2.5, SPMD 119 and department permission.

SPMD 237/238/239 Special Topics 1/2/3 hrs
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Prereq: Department permission.

SPMD 290 Practicum II 2 hrs
A supervised athletic training practicum designed to incorporate theories and technical skills learned in the prerequisite courses. The objective is to obtain hands-on experiences in an intercollegiate setting.

Prereq: Department permission and GPA 2.5.

SPMD 295 Recognition and Evaluation of Athletic Injury 4 hrs
A study of the principles, procedures and techniques that are commonly utilized in the recognition and assessment process of athletic injury. Emphasis is on the student taking patient history, conducting the physical examination, and the primary care features of athletic injury.

Prereq: SPMD 225 and a 2.5 GPA.

SPMD 305 Kinesiology-Tissue Mechanics 3 hrs
A required course for athletic training majors in the sports medicine program. Instruction will focus on the laws of physics as they are adapted to explain biologic phenomena.

Prereq: PHY 221, SPMD 201, SPMD 202 and a 2.7 GPA.

SPMD 315 Applied Sport Psychology 3 hrs
A course of study that provides information to help the prospective teacher/coach or sports medicine student apply behavioral science principles to the performance aspects of sport and human performance.

Prereq: PSY 101.

SPMD 321 Therapeutic Modalities for Athletic Trainers 2 hrs
A detailed study of theory, applications, physiological effects, and indications and contraindications of commonly used therapeutic modalities in the practice of athletic training.

SPMD 322 Therapeutic Exercise for Athletic Trainers 3 hrs
A study of the principles of applications, physiological effects, and indications and contraindications of commonly used therapeutic exercise methods in the practice of athletic training.
Prereq: SPMD 219 and SPMD 225.

SPMD 377/378/379 Special Topics 1/2/3 hrs
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.
Prereq: Department permission.

SPMD 396 Preinternship 2 hrs
This course is organized and conducted to include a supervised clinical experience that allow the advanced student to assist in the skills, procedures and management of athletic injury and health care.
Prereq: Candidacy and department permission; 3.0 GPA.

SPMD 410 Laboratory Techniques in Human Performance Analysis 4 hrs
A required course for students majoring in the exercise portion of the sports medicine program. Instruction will focus on techniques of human performance analysis including graded exercise testing, measurement of resting and exercise blood pressure, body composition, EKG recordings, indirect measures of energy expenditure, estimated MET levels from walking, running, leg ergometry, arm ergometry, and stepping exercises, environmental considerations in exercise testing and training.
Prereq: SPMD 430 and Candidacy.

SPMD 421 Legal Aspects of Sports Medicine 3 hrs
This course examines the legal issues surrounding the field of sports medicine including; individual rights, due process, selected legal concepts and principles, liability, safe environments, risk management, contracts, insurance, and other select topics.
Prereq: Candidacy.

SPMD 430 Basic Principles of Electrocardiography 3 hrs
A three-hour undergraduate course on the basics of electrocardiography. The student will learn the basic concepts of conduction, rate, rhythm, axis determination, hypertrophy, infarction, and the effects of drug therapy.
Prereq: Candidacy.

SPMD 431 Pathology for Sports Medicine 3 hrs
A required course for sports medicine majors that relates normal body functioning to the physiologic changes that occur as a result of injury and disease, and examines the effects of physical activity on these processes.
Prereq: SPMD 200 and CHEM 120, or equivalent.

SPMD 432 Introduction to Exercise Programming 3 hrs
A required course for students majoring in exercise science. This course provides information needed to develop, implement, and manage exercise programs in a variety of settings. Within the context of each program setting the following issues will be discussed: 1) the health screening; 2) implementation and management of the exercise prescription; 3) identification and development of exercise leadership skills; and 4) exercise compliance issues.
Prereq: SPMD 201, SPMD 202, SPMD 410 and Candidacy.

SPMD 477/478/479 Special Topics 1/2/3 hrs
Offered on an experimental basis for one semester for purposes of meeting special needs and/or innovations.
Prereq: Candidacy and department permission.

SPMD 480 Internship—Exercise Science 8 hrs
A directed full-semester field experience in a department-approved agency or institution under the direction of certified personnel to work with adult fitness and/or cardiac rehabilitation.
Prereq: Candidacy and department permission.

SPMD 490 Internship Athletic Training 8 hrs
The course is clinical experience to be conducted at an off-campus agency. The agency provides direct supervision at the site. The course is limited to senior students in their last semester. The student will be expected to increase his/her skills and knowledge in the key skill areas of athletic training.
Prereq: Candidacy and department permission.

Graduate-level Study
Students who wish to enter the educational leadership program or the counseling and student affairs practice program are reminded that these are graduate-level programs. The undergraduate courses in these areas provide an introductory exposure to the organization of American education, help students explore career opportunities, or provide an opportunity for the students to learn about basic counseling concepts and processes. Undergraduate students may not enroll in any graduate course work in the Department of Leadership and Counseling.

Rules governing graduate study and complete descriptions of all graduate courses and programs are in the graduate catalog.

The educational leadership program offers graduate work leading to the master's, specialist, and doctoral degrees in educational leadership, as well as many other leadership positions in education, e.g., adult education, vocational education, community education, personnel, public relations, community college.

The counseling and student affairs practice program is concerned with the professional preparation of elementary and secondary school counselors, student personnel workers in higher education, and counselors and personnel workers in noneducation settings, e.g., employment counselors, vocational rehabilitation counselors, community agency personnel, business/industry personnel. This program provides course work leading to completion of the master's and specialist degrees.

Educational Leadership Courses

EDLD 477/478/479 Special Topics 1/2/3 hrs
Courses that can be offered on an experimental basis for one semester for purposes of meeting special needs, interests and/or innovations.
Prereq: Department permission.

Counseling and Student Affairs Practice Courses

CSAP 100 Career Exploration and Decision-Making 2 hrs
Self-exploration (values, interests, goals) as related to careers and the world of work. Presentation in an experimental format of career exploration and personal decision-making strategies and processes. Investigation of career planning and resources (people and materials).
Prereq: Department permission.

CSAP 450 An Introduction: Counseling Concepts and Skills 3 hrs
Introduction to basic concepts of counseling relationships; training in basic counseling skills; experiential learning activities which focus on self-development, interpersonal relationships, and related issues; and initial exposure to counseling theory and process. Open to juniors and seniors or by department permission; recommended for those planning a career in the helping professions.

CSAP 477/478/479 Special Topics 1/2/3 hrs
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.
Prereq: Department permission.
The Department of Special Education is among the oldest and most prestigious Departmental Administrationbecause of its numerous course offerings, experienced facility, location, and affiliations with schools, clinics, institutions, agencies, and hospitals in the metropolitan area that surrounds the University.

The department provides courses that prepare students to educate individuals with special needs and where necessary to meet the basic requirements for the State Provisional Elementary and Secondary Certificate in Teaching.

Students not majoring in special education may enroll in a planned program consisting of a sequence of special education courses to meet personal and professional goals. Designed primarily for those majoring in physical education or recreation, technology education, and music education, the program provides background on handicapping conditions but will not offer sufficient specialized work to meet endorsement requirements to teach students with disabilities. The sequence of courses is to be planned in advance and have the written approval of the head of the Department of Special Education.

In addition, the department has unique facilities on campus:

1. A speech and hearing clinic, which provides a complete range of clinical training opportunities for majors in speech-language pathology as well as observation opportunities for students in other programs of study. Clinical outpatient services are available to college students and to children and adults from the surrounding areas.

Clinical speech and language evaluations and therapy and complete audiological services are offered, including diagnostic audiology, hearing aid evaluation and selection, aural rehabilitation, preschool evaluation and training, and parent counseling. As part of their preparation, majors in speech and language impaired and hearing impaired may be directly involved in the delivery of these services under staff supervision.

2. A parent-infant management program for the hearing impaired, which provides guidance for parents of hearing impaired children and enables them to help their child develop auditory/speech/language skills during their formative years.

Parents/caregivers are expected to work in the clinical setting with their infant/toddler and discuss problems concerning their child. University students also have the opportunity to observe and participate in skill development.

3. Center for Adaptive Technology Education (CATE) The Center for Adaptive Technology Education is a program and facility housed in the department of Special Education. The CATE program focuses on the use of adaptive and assistive technology to support and facilitate the activities and pursuits of EMU students, staff and faculty with disabilities. The CATE facility provides evaluation services to assist in determining which technologies are the most appropriate for a given individual, as well as providing training and support in the use of selected technologies.

4. Specialized Technology Laboratory (STL) The Specialized Technology Lab (STL) is a component of the Department of Special Education. The lab houses adaptive and assistive technologies appropriate for use with students with disabilities from prekindergarten through grade 12. The Specialized Technology Lab serves as the teaching environment for the department’s preschool courses in assistive technology. Additionally, the lab is utilized as a site for interswana presentations and workshops for professionals working with children and adolescents with disabilities, and their families.

Degrees Offered
Bachelor of Arts
Bachelor of Science

Programs of Study

Majors
- Emotionally Impaired (K-12)
- Hearing Impaired (K-12)
- Mentally Impaired (K-12)
- Physically and Otherwise Health Impaired (K-12)
- Speech and Language Impaired—Elementary or Secondary, Healthcare track
- Visually Impaired (K-12)

Minors
- Students planning on teaching must complete one subject area minor of 20 hours or a group minor of 24 hours. The minor must be in a teaching subject appropriate to and approved for the level of teaching certificate for which the student is qualifying. Elementary certificate candidates may complete an approved planned program in lieu of a minor when circumstances warrant.

Advising
Students are assigned a faculty advisor from the program area he/she elects as a major. The adviser will monitor the student's progress throughout his/her professional preparation; however, it is the student's responsibility to schedule advising appointments each semester prior to or during the university registration period. Faculty advisors post office hours and other times students may schedule appointments. Advisers can inform students of special area requirements and procedures. For example, students in the speech and language impaired and the hearing impaired program areas must have permission from their advisors prior to registration.

Faculty Advisers
- Emotionally impaired: Robert Kroger, Jody Smith
- Hearing impaired: Gayle Nash, Kathleen Quinn
- Mentally impaired: Marylin Lake, Nora Martin, Kathryn Parker
- Physically and otherwise health impaired: Roberta Anderson
- Speech and language impaired: Ronald Hoodin
- Visually impaired: George Barach, Alicia Li

Admission
Admission requirements to the University, the teacher education program, and the Department of Special Education must be met by students intending to major in the programs listed below. However, students may indicate their intention to major in special education upon entrance to the University. Formal application for admission to any of the special education programs of study will be considered only when supported by a recommendation from a faculty member in the Department of Special Education and following acceptance into the teacher education program. Program area faculty will determine admission.

Admission and Continuance Criteria (For All Programs Except Speech and Language Impaired)

1. Completion of 56 hours of college credit and with an EMU grade point average of 2.50 or better.
2. Completion of SPGN 251 Education of Exceptional Children and the introductory course in the major area of study with a grade of “C” or better. These introductory courses are:
   a. Emotionally impaired: SPEI 240 Preclinical Experiences and SPEI 301 Emotionally Impaired Children and Adolescents.
   b. Hearing impaired: (see statement under Hearing Impaired).
   c. Mentally impaired: SPME 350 Introduction to Mental Retardation.
   d. Physically and otherwise health impaired: SPPH 310 Developmental Sciences for Teachers of the Physically and Health Impaired.
Speech and Language Impaired Admission and Continuance Criteria

The following criteria must be met before admission to the undergraduate program is granted:

1. Must complete 35 to 45 credit hours with a minimum GPA of 2.75.
2. Must have taken the Basic Skills Test, which assesses math, reading comprehension, grammar, and writing skills. Must achieve or surpass the score established by the College of Education.
3. Must pass a speech and hearing screening.
4. Must meet application submission deadlines:
   - Fall semester: February 15
   - Winter semester: October 15

When the number of applicants exceeds program capacity, a specific formula will be applied to make selections. Preference will be given on the basis of GPA and membership in a protected minority group.

To be allowed to continue in the speech-language pathology program, the student must meet the following:

1. Maintenance of a cumulative overall GPA of 2.75 or better.
2. Maintenance of a cumulative major GPA of 3.0 or better.
3. Completion of all major academic courses with a grade of "C" or better. Courses in which a grade of "C-" or lower is achieved must be repeated and may be repeated only once. A student must retake the course in which the lowest grade was received. No more than one course may be repeated.
4. Completion of all major clinical courses with a grade of "C+" or better. Clinical courses in which a grade of "C" or lower is achieved must be repeated before the student is allowed to continue with the next level of courses and may be repeated only once.
5. Demonstration of behaviors which indicate reasonable stability, maturity, understanding, and attitude as judged necessary for predicted success as a speech-language pathologist. Such qualitative judgements will be made by the SLP faculty.
6. Students on academic probation will not be allowed to enroll in major courses until the probation is lifted and their overall GPA is 2.75.

Termination from the Program

Students who fail to comply with the continuation criteria stated above will be notified in writing of their termination from the program. Students so notified have the right to appeal such termination through normal University channels. In some cases, a student will be required to meet with the full faculty for discussion of academic performance and continuation in the program.

General Information

Fieldwork in both general and special education is required. Practicum teaching experiences are required of all candidates pursuing a teaching certificate. (See Practicum Teaching) Majors in special education are required to complete practicums or pre-clinical experiences in addition to those required for teacher certification and should consult with their advisers regarding specific requirements within their designated areas of special education.

Student teaching in either elementary or secondary education must be successfully completed prior to the student teaching placement. Special student teaching assignments are arranged and approved by the department upon the recommendation of the faculty within the designated area of special education.

Certification—Special Education

Certification in either elementary or secondary (regular) education is required for all programs of study in special education except speech and language impaired (see SLP program description). Successful completion of any program of study leads to a K-12 special education endorsement.

The professional entry-level credential in speech-language pathology (speech and language impaired) is the master's degree. Students who are awarded the bachelor's degree in speech-language pathology at Eastern Michigan University are expected to apply for admission to graduate degree programs. Those applying to the graduate speech-language pathology program at Eastern Michigan University will compete with other applicants for admission.

Each of the programs of study in special education meets or exceeds minimum course, experience, or competency requirements established by the Michigan State Board of Education for that endorsement area. However, meeting Michigan teaching certification and endorsement requirements does not necessarily meet requirements for teacher certification or endorsement in other states. All special education programs of study are recognized and approved for accreditation by the International Council for Exceptional Children.

The hearing impaired and speech language impaired programs are also certified by national professional associations. The American Speech-Language-Hearing Association issues Certificates of Clinical Competence to individuals who present satisfactory evidence of their ability to provide independent clinical services to persons who have disorders of communication (speech, language, and/or hearing). An individual who meets these requirements may be awarded a Certificate of Clinical Competence in Speech Pathology. Specific requirements may be obtained from the advisers in speech and language impairment.

National certification is provided by the Council on Education of the Deaf to eligible majors in the hearing impaired program. Specific requirements may be obtained from advisers in this area.

E-mail: gayle.nash@umich.edu

Successful completion of this course of studies, in the context of other program
requirements, qualifies the student for recommendation to the Michigan Depar­
tment of Education for K-12 endorsement in hearing impaired, certification
code "SL." This program of studies meets all requirements of the Council for
Exceptional Children. The certification test covering this field is #62, "Hearing
Impaired." Students may select Secondary Certification or Elementary Certifi­
cation. A minor from the respective approved lists is required in either instance
and students must pass the certification test, if one, related to the minor in order
to be recommended for endorsement in the minor field. In addition, those
selecting Elementary Certification must pass the "Elementary Education" certifi­
cation test, #83, as well.

Registration for the first course in the hearing impaired sequence (SPH I
228) is by permission only. If there is greater demand for enrollment than avail­
ability of places in the class, the hearing impaired program faculty will deter­
mine who receives permission. Grade point average will be the primary cri­
terion. It is essential to see a hearing impaired program adviser in order to begin
the program sequence.

All students are considered provisionally majors until such time as they suc­
cessfully complete SPH I 391 and pass a language proficiency examination. The
basic philosophy of the program is oral communication; however, students are
exposed to manual communication during their course of study.

The hearing impaired program is in the process of developing a portfolio
presentation as a capstone requirement, attached to SPG 491 Seminar for Teach­
ers of Special Education, for the hearing impaired program majors.

General studies

Elementary .......................................................................................... 49 hours

Secondary ............................................................................................ 52 hours

General education requirements

Area I
ENGL 101 English Composition (satisfies general education
requirement I.1) (3)

E-mail: ron.hoodin@emich.edu

Successful completion of this course of studies, in the context of other program requirements, with respect to K-12 teacher licensure, satisfies the undergraduate portion of the requirements for the professional entry-level credential at the master's degree level. This program leads toward, but does not satisfy, the requirements for recommendation to the Michigan Department of Education for K-12 endorsement in speech-language impaired; certification code "SB." This program of studies meets all requirements of the Council for Exceptional Children and of the American Speech-Language-Hearing Association. The certification test covering this field is #57, "Speech and Language Impaired."

Prospective teachers may select Secondary Certification or Elementary Certification. A minor from the respective approved lists (or the planned program, if Elementary Certification) is required in either instance and students must pass the certification test related to the minor (if a minor is selected for Elementary Certification) in order to be recommended for endorsement in the minor field. In addition, those selecting Elementary Certification must pass the "Elementary Education" certification test, #83, as well.

Those selecting the health care track have a choice among a different group of minors.

The professional teacher certification entry-level credential in speech-language pathology (speech and language impaired) is the master's degree in the field.

Emotionally Impaired

SPEI 177/178/179 Special Topics \( \text{1/2/3 hrs} \)
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Prereq: Department permission.

SPEI 240 Introductory Clinical Experiences in Emotional Impairment \( \text{3 hrs} \)
Students will be provided with an opportunity to work with impaired students in an effort to help them understand these youngsters, and evaluate their own qualifications for working with this type of youngster. Evaluations of the student's performance will be obtained from a supervising person. Majors in the area of emotional impairment will complete 150 clock hours of experience with youngsters prior to student teaching with emotionally impaired students. Twenty-five (25) of these hours will be completed during this course. An overview and hours introduction to the field of teaching emotionally impaired children and youth, including theory, service delivery systems, and classroom practices will also be presented.

SPEI 277/278/279 Special Topics \( \text{1/2/3 hrs} \)
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Prereq: Department permission.

SPEI 301 Emotionally Impaired Children and Adolescents \( \text{4 hrs} \)
This course provides an explanation of conceptual models which explain disturbed behavior of children and adolescents. Definitive diagnostic categories will also be explained in context of their use in a variety of educational settings by teachers of emotionally impaired children and adolescents.

Prereq: PSY 360; SPEI 240; SPGN 251 is advised. Not open to students on academic probation.

SPEI 377/378/379 Special Topics \( \text{1/2/3 hrs} \)
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Prereq: Department permission.

SPEI 401 Programming, Methods, and Curriculum for the Elementary Emotionally Impaired Child \( \text{4 hrs} \)
Teaching methods, techniques, and materials for educating elementary age emotionally impaired children will be presented. In addition, types of programs serving elementary age disturbed youngsters as well as the Individualized Education Program, federal, and state rules governing the programs will be discussed. For elementary majors only.

Prereq: SPEI 301 and SPGN 461, and admission to the teacher education program.
SPGN 481 Adaptive Technology in Special Education 2 hrs
An exploration and study of topics not covered in other departmental offerings.
Students may elect more than once, provided different topics are studied.
Prereq: SPGN 395; Seminar for Teachers of Special Education.

SPGN 487 Cooperative Education 3 hrs
One semester of supervised work in concentration area. An evaluation is required at the end of the employment period.
Prereq: Nine credit hours in concentration, approved by Cooperative Education Office, and department permission.

SPGN 491 Seminar for Teachers of Special Education 2 hrs
This course provides a transition from the academic environment to the professional setting. Competencies and issues necessary for teacher preparation and pertinent to the student's internship are presented. Topics for discussion include: a review of the history, nature, and structure of the Michigan Public School system and the delivery of total services to all students including the special education child; state and federal law including due process, data privacy requirements, teacher tenure, and professional liability; professional ethics, orga-
nizations, unions, and the influences on education; supervision of and interaction with teaching aids, paraprofessionals, volunteers, and other school personnel including the regular classroom teacher. Concurrent with special student teaching.

Pre req: Admission to the teacher education program.

SPGN 497/498/499 Independent Study 1/2/3 hrs
Directed study of a problem or group of problems in special education.
Pre req: Department permission.

Hearing Impaired

SPHI 177/178/179 Special Topics 1/2/3 hrs
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.
Pre req: Department permission.

SPHI 228 Education of Hearing-Impaired Students 3 hrs
Designed to cover the history of the education of persons with hearing impairments, and to provide an overview of educational programming, psychological adjustment, parent counseling, communication methods, and various philosophical approaches to education of persons with hearing impairments.
Pre or coreq: SPGN 251

SPHI 277/278/279 Special Topics 1/2/3 hrs
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.
Pre req: Department permission.

SPHI 375 Fundamentals of Sign Communication 2 hrs
A study of the rationale for use of manual communication systems with persons with hearing impairments, including American Sign Language, manually-coded English Sign systems, and finger spelling. Beginning-level skills in manual communication will be developed. Observation of use of sign language in school programs will be required.

SPHI 377/378/379 Special Topics 1/2/3 hrs
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.
Pre req: Department permission.

SPHI 387 Introductory Practicum with Hearing-Impaired Students 1 hr
Thirty-hour supervised observation and work with students with hearing impairments.
Pre req: SPHI 228; admission to the teacher education program.

SPHI 391 Language for Hearing-Impaired Students 4 hrs
Language development of children with prelingual hearing impairments. Survey of various methods of teaching language, including natural and structured approaches.
Pre req: SPHI 228; admission to the teacher education program.

SPHI 392 Introduction to Audiology 2 hrs
Medical and surgical treatment of pathologies of the ear. Hearing screening tests, basic audiometric testing procedures, and audiometric interpretation.
Pre req: SPHI 332 and SPH 336.

SPHI 394 Aural Habilitation/Rehabilitation 3 hrs
A study of the avenues of receptive language available to persons with impaired hearing; the development of auditory learning, auditory training, and the training of speechreading. Includes the understanding of group and individual hearing aids, other assistive technology, and surgical implants.
Pre req: SPHI 392.

SPHI 435 Phonetics and Hearing Impairment 2 hrs
Pre req: SPH 332 and SPH 336.

SPHI 436 Speech Methods for Hearing-Impaired Persons 2 hrs
Methods of assessment and intervention in the development of intelligible connected speech in persons with hearing impairments.
Pre req: SPHI 435; admission to the teacher education program.

SPHI 437 Adaptive Curriculum for Hearing-Impaired Students 3 hrs
Principles and methods of teaching academic subjects to students with hearing impairments. Classroom procedures and materials especially designed for students with hearing impairments, as well as adaptation of regular curricula and materials will be presented.
Pre req: SPHI 391; admission to the teacher education program.

SPHI 477/478/479 Special Topics 1/2/3 hrs
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.
Pre req: Department permission.

SPHI 487 Speech Practicum with Hearing-Impaired Students 1 hr
Thirty (30) clock hours of supervised observation and speech work with persons with hearing impairments.
Pre req: SPHI 436; admission to the teacher education program.

Learning Disabled

SPLI 468 Education of Children with Learning Disabilities 2 hrs
A study of educational and psychological problems of children with neurological and perceptual defects. Theories as they relate to the central nervous system, teaching techniques, classroom management, case studies, research, and teacher-child and parent relationships.
Pre req: SPGN 251; admission to the teacher education program; senior standing.

SPLI 477/478/479 Special Topics 1/2/3 hrs
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.
Pre req: Department permission.

SPMI 177/178/179 Special Topics 1/2/3 hrs
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.
Pre req: Department permission.

SPMI 240 Preclinical: Mentally Impaired 3 hrs
The purposes of the preclinical experiences in the area of the mentally impaired are twofold. First, it provides the student with opportunities to observe a variety of programs and work with children or youth displaying a variety of types and/or degrees of learning, emotional, and physical disabilities. (For a more detailed description of this component, please review the Handbook for Majors in the Mentally Impaired.) Secondly, students will meet together to discuss observations, insights, and concerns related to their experiences. Educational programs for students with mental retardation will be discussed and site visits will be made.

SPMI 277/278/279 Special Topics 1/2/3 hrs
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.
Pre req: Department permission.

SPMI 350 Introduction to Mental Retardation 3 hrs
This lecture course introduces students to the field of mental retardation: its history, terminology, causes, health, medical, and sensorineural components.
The range of philosophies influencing educational practices and life management programs are also discussed.

Prereq: SPGN 251, PSY 101.

SPPI 377/378/379 Special Topics 1/2/3 hrs
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Prereq: Department permission.

SPPI 427 Educating the Elementary Student with Mild Retardation 2 hrs
The development of programs, materials, and instructional techniques appropriate to the needs of the educable mentally retarded child from birth to age 12. Prereq: SPPI 240, SPPI 350; and admission to the teacher education program.

SPPI 429 Curriculum Design and Education Programs for Students with Mild Retardation 3 hrs
Emphasis will be given to the assessment of basic learning skills and academic levels of functioning based on the use and results of formal tests, criterion referenced tests, and formal data gathering instruments. Additional emphasis will be placed on the development of appropriate educational program goals. The development of appropriate lessons using selected materials, methods, and techniques to meet these goals. Selected behavioral management approaches will be included as they relate to overall educational goals and program development.

Prereq: SPPI 427, SPPI 483 (prerequisite or corequisite), and admission to the college of education.

SPPI 477/478/479 Special Topics 1/2/3 hrs
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Prereq: Department permission.

SPPI 483 Education of Students with Moderate or Severe Retardation 4 hrs
This course focuses on philosophy, curriculum, assessment, teaching methods, and classroom management techniques for students identified as TM1, SMI, or SXL. A three-hour-per-week field placement in one of the above classrooms is an integral part of the course.

Prereq: SPPI 240, SPPI 350, and SPPI 481L. Admission to the teacher education program.

Physically or Otherwise Health Impaired

SPPI 177/178/179 Special Topics 1/2/3 hrs
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Prereq: Department permission.

SPPI 240 Preclinical Experiences—POHI 3 hrs
This introductory course provides exposure to and experience with the physically or otherwise health impaired. Students will be encouraged to evaluate and examine their motivation for becoming a teacher of the physically and health impaired and be introduced to all aspects of the teaching profession. Students will participate in a field experience, being exposed to all age and grade levels. They will have an opportunity to visit a variety of settings that employ teachers of the physically and health impaired and be exposed to the ancillary services found in most POHI delivery models.

SPPI 277/278/279 Special Topics 1/2/3 hrs
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Prereq: Department permission.

SPPI 310 Developmental Sciences for Teachers of the Physically and Health Impaired 4 hrs
A study of developmental human anatomy and physiology with emphasis upon the impact of the nervous system and its integration, function, and control of the other body systems and their functions. The relationship of normal development to disability is explored and infused throughout the course. Laboratory periods are required where students can investigate the principles covered in lecture using anatomical models and specimens.

Prereq: BIOL 105 and SPGN 251.

SPPI 360 Pathology of Physical and Health Impairments 3 hrs
A comprehensive study of orthopedic, neurologic, health, and other handicapping conditions common to children and youth comprising the population found in educational settings. Students will study the impact of the nervous system and various organ systems upon the prevention, assessment, and diagnosis of various health conditions. The development of programs, materials, and instructional techniques appropriate to the needs of the physically and health impaired child from birth to age 12.

Prereq: SPPI 310.

SPPI 377/378/379 Special Topics 1/2/3 hrs
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Prereq: Department permission.

SPPI 412 Ancillary Services and Health Procedures for Teachers of Physically Impaired 2 hrs
This course encompasses information and develops skills needed to develop, implement, and evaluate curriculum and methods for the preschool and elementary physically otherwise health impaired student. All aspects of cognitive, affective, and psychomotor education are explored. Emphasis is placed upon individualized instruction and programming, adaptations and modifications of instructional methods and materials, remediation, communication, problem-solving, decision-making, personal adjustment, community and leisure studies. A directed classroom laboratory is required.

Prereq: SPPI 360 or instructor permission. Admission to the teacher education program.

SPPI 414 Educational Strategies for Teachers of the Physically Impaired 4 hrs
This course encompasses information and develops skills needed to develop, implement, and evaluate curriculum and methods for the preschool and elementary physically otherwise health impaired student. All aspects of cognitive, affective, and psychomotor education are explored. Emphasis is placed upon individualized instruction and programming, adaptations and modifications of instructional methods and materials, remediation, communication, problem-solving, decision-making, personal adjustment, prevocational education, and leisure studies. A directed classroom laboratory is required.

Prereq: SPPI 360. Admission to the teacher education program.

SPPI 477/478/479 Special Topics 1/2/3 hrs
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Prereq: Department permission.

Speech and Language Impaired

SPSI 177/178/179 Special Topics 1/2/3 hrs
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Prereq: Department permission.

SPSI 277/278/279 Special Topics 1/2/3 hrs
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Prereq: Department permission.

SPSI 332 Acoustic Phonetics: Speech Science 2 hrs
Basic principles of acoustic science and speech perception. Consideration of speech as an acoustical phenomenon and the analysis of speech patterns through measurements of sound and spectral analysis.

Coreq: SPSI 336.

SPSI 334 Applied Phonetics 2 hrs
An introduction to the use of the International Phonetic Alphabet Classification and production of English speech sounds. Phonemic transcription, including some analysis of deviant and variant speech. Lab experiences weekly.

Coreq: SPSI 333.
SPSI 335 Communication Disorders 3 hrs
A study of the major communication disorders as deviations from normal physical and social behavior. Etiology and symptomatology.
Coreq: SPSI 334.

SPSI 336 Physiologic Phonetics: Anatomy and Physiology 3 hrs
Anatomy and physiology of normal speech production, consideration of speech as a motor behavior, physiological investigation of speech and voice.
Coreq: SPSI 332.

SPSI 337 Language Acquisition 3 hrs
The development of speech, language, hearing, and communication from birth. The interrelationship between cognitive development and language acquisition and usage. Developmental processes and milestones in phonology, morphology, syntax, and semantics and pragmatics as a basis for understanding the effects of speech, language, and hearing problems of the individual.
Coreq: SPSI 332 and SPSI 336.

SPSI 340 Management of Phonological Disorders 3 hrs
Diagnosis and treatment of functional articulation problems, and phonological disorders.

SPSI 341 Management of Language Disorders 3 hrs
Diagnosis and treatment of language disorders that result from developmental lag, physical anomalies, and cultural differences. Focuses on preschool, elementary, and secondary school-aged individuals.

SPSI 344 Clinical Practice in Speech-Language Pathology I 2 hrs
Supervised clinical practice with children and adults in individual and group settings. Developmental articulation, language disorders and dialect.
Prereq: SPSI 340, SPSI 342, department permission.

SPSI 345 Clinical Practice in Speech-Language Pathology II 2 hrs
A minimum of 60 clock hours of supervised clinical experience with speech disorders associated with organic impairment. Problems of children and adults with cerebral palsy, cleft palate, hearing losses, mental impairments, and language.
Prereq: SPSI 343 and department permission.

SPSI 377/378/379 Special Topics 1/2/3 hrs
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.
Prereq: Department permission.

SPSI 452 Voice 3 hrs
A study of the etiology, diagnosis, and treatment of functional and organic voice disorders, including defects of loudness, pitch, and quality.
Prereq: SPSI 340, SPSI 342.

SPSI 453 Stuttering 3 hrs
Caution, symptomatology, and remedial procedures of stuttering: specific therapy procedures in the clinic, the school, and the home.
Prereq: SPSI 340, SPSI 342.

SPSI 477/478/479 Special Topics 1/2/3 hrs
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.
Prereq: Department permission.

Visually Impaired

SPSI 177/178/179 Special Topics 1/2/3 hrs
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.
Prereq: Department permission.

SPSI 277/278/279 Special Topics 1/2/3 hrs
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.
Prereq: Department permission.

SPSI 365 Braille 3 hrs
Developing proficiency in reading and writing error-free braille and the reading of music braille.
Prereq: Department permission.

SPSI 366 The Eye and Vision—Anatomy and Physiology 2 hrs
Anatomy, physiology, and pathology of the organs of vision, refractive errors, and principles of correction. Educational implications of visual handicaps in children rather than strictly medical achievements. Interpretation of medical reports to parents, students, and other teachers.
Prereq: SPSI 251.

SPSI 368 Mobility Training for the Visually Impaired 2 hrs
Sensory training, study, and development of cane techniques as they apply to mobility for the blind. Introduction to leader dog program. Practicum included. Offered on the junior, senior, and graduate levels.
Prereq: Junior level.

SPSI 369 Community Considerations for the Visually Impaired 3 hrs
The lifestyle and needs of persons with visual impairments. Appropriate considerations the community must take for all levels of physical, emotional, and vocational development. Field trips and classroom experiences. Acquainted with a wide variety of service-oriented facilities for the visually impaired.
Prereq: SPSI 251.

SPSI 377/378/379 Special Topics 1/2/3 hrs
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.
Prereq: Department permission.

SPSI 464 Methods of Teaching the Blind 3 hrs
A study of the various methods used in educating and assessing blind children. The adaptation of these methods to the teaching of school subjects to blind students. Further emphasis on Nemeth Code, Cenmber abacus and other teaching materials and devices.
Prereq: SPSI 251; admission to the teacher education program.

SPSI 465 Braille II: Nemeth Code 3 hrs
Transcription skills with Nemeth Code. Prereq: SPSI 365; admission to the teacher education program.

SPSI 467 Education of Children with Impaired Vision 2 hrs
Organization and administration of various plans for educating partially seeing children. Adaptation of the various teaching materials and methods to partially seeing children. A comparison of various vision testing methods and devices. Visits to classes for visually impaired children.
Prereq: SPSI 251; admission to the teacher education program.

SPSI 469 Electronic Communication for the Visually Impaired 3 hrs
This course is designed to expose the student to a variety of tools available for use by visually impaired persons. The tools or devices covered include those designed to provide assistance in travel, reading, braille, low vision (such as the Optacon, Kurzweil Reading Machine, VersaBraille, Stereo Toner, and Computer Braille Programs). Proficiency of five words per minute on the Optacon is expected.
Prereq: Admission to the teacher education program.

SPSI 477/478/479 Special Topics 1/2/3 hrs
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.
Prereq: Department permission.
The Department of Teacher Education provides undergraduate courses in psychological and social foundations of education, curriculum and instruction, reading, educational media, and technology and early childhood education. These courses, along with courses in other University departments, comprise the programs for preparing elementary, secondary, and K-12 teachers.

Curricula

The department provides coordination of and a portion of the course work for programs for persons seeking to become elementary teachers, elementary teachers with early childhood endorsement, secondary teachers, and teachers of K-12 subjects.

The Department of Teacher Education administers these majors for prospective elementary teachers: elementary science group; language arts group; social studies group major for elementary education.

The Department of Teacher Education administers these minors for prospective elementary teachers: arts group; early childhood education; elementary science group; language arts group; social studies group (elementary) and structure of the disciplines.

Advising

Olga Nelson
Advising Coordinator for Elementary Certification
313 Porter
734.487.3185

Advising is required for all students so that each can pursue both personal and professional goals in a timely and satisfying manner.

Elementary education and early childhood education students are required to attend group advising sessions before meeting individually with an advisor. Students should visit the Teacher Education office in 313 Porter to pick up a copy of the group advising schedule as part of the advising process pursuant to the declaration of intent.

Graduate study leads to the master’s degree in early childhood education, elementary education, middle level and secondary education, common learnings in curriculum, reading, social foundations, and educational psychology (development and personality, research and measurement, or educational media and technology concentrations). For descriptions of graduate courses and programs, consult the graduate catalog.

Elementary Education Program with a Science Group Major

Elementary Teacher Certification
ISIS major code: TF33

Program Advising

Please contact the Department of Teacher Education for advising and additional information.

Department of Teacher Education
313 Porter Building
734.487.3260

Successful completion of this major, in the context of other program requirements, qualifies the student for recommendation for endorsement in science, certification code “DX.” The certification test covering this field is #16, “Science.”

General education requirements ........................................... 45 hours
General education requirements ........................................... 12 hours
ENGL 121 English Composition (satisfies general education requirement II,1) (3)
GEOG 101 World Regions (satisfies general education requirement III,3) (3)
MATH 109 Mathematics for Elementary Teachers II (satisfies general education requirement I,4) (3)
PHY 100 Science for Elementary Teachers (3)
PLSC 112/PLSC 113 American Government (satisfies general education requirement III,1) (3)

Additional required courses ............................................. 8 hours
GESC 202 Science for Elementary Teachers (3)
MATH 108 Mathematics for Elementary Teachers I (3)
MUSC 104 Elements of Music (2)

Physical education/graduation requirement .......................... 2 hours

Specialty Studies .......................................................... 36 hours
Teaching major ......................................................... 36 hours

One course from the following: ...................................... 3-4

#PSY 101 General Psychology (satisfies general education requirement II,2 or III,3) (3)
#PSY 102 General Psychology (satisfies general education requirement II,2 or III,3) (4)
#PHY 100 Science for Elementary Teachers (satisfies general education requirement II,1 or II,2) (3)
#CHEM 101 Science for Elementary Teachers (satisfies general education requirement II,1 or II,2) (3)
GESC 202 Science for Elementary Teachers (3)
#ESCI 303 Science for the Elementary Teacher (satisfies general education requirement II,2 or II,3) (3)

If PSY 101 is in the program, choose 21 credits from the entire list of courses below. If PSY 102 is in the program, choose 20 credits from the entire list below. The selections of electives must include at least six hours of courses at the 300 level or higher.

ESCI 303 is the other science requirement (1,2) (3)
GESC and GEOL courses are in the same department. GESC and GEOL courses are in the same department.

Graduate study leads to the master’s degree in early childhood education, elementary education, middle level and secondary education, common learnings in curriculum, reading, social foundations, and educational psychology (development and personality, research and measurement, or educational media and technology concentrations). For descriptions of graduate courses and programs, consult the graduate catalog.
Phase I: Technology, Opportunity.

Phase II: Curriculum and Assessment (may be taken with Phase I courses):

Phase III: Methods and Technology (may be taken with Phase IV courses):

Students may not proceed to Phase Ill unless: The required structure of the disciplines minor is automatically met within this minor.

Pre-admission Phase: The Learner and the Community

**EDPS 322 Human Development and Learning** 4
**FETE 201 Field Experience** 1
**SPGN 251 Education of Exceptional Children** 3

Courses that require formal admission to the teacher education program

Phase I: Technology, Diversity, and Teaching Environments (may be taken with Phase II courses):

**TEDU 253 Technology Education for Children** 3
**HLED 320 Health Education in the Elementary Grades** 2
**SOFT 328 Schools in a Multicultural Society** 3

Phase II: Curriculum and Assessment (may be taken with Phase I courses):

**CURR 304 Curriculum and Methods: Elementary** 3
**FETE 501 Field Experience II: Elementary** 1
**EDPS 340 Introduction to Assessment and Evaluation** 3

Students may not proceed to Phase III until Phase II is completed.

Phase III: Methods and Technology (may be taken with Phase IV courses):

**ESCI 301 Science for the Elementary Teacher** 3
**MATH 381 The Teaching of Mathematics, K-6** 3

EDMT 330 Instructional Applications of Media and Technology 2
PHED 257 Physical Education for the Classroom Teacher 2

Phase IV: Literacy, Culture, and the Arts (may be taken with Phase IV courses):

**EDPS 314 Reading in the Elementary School** 6
**FETE 401 Field Experience III: Elementary** 1
FA 300 Art Integration for the Elementary Teacher 4
MUSC 320 Elementary Music Education 2

Phase V: Capstone Experience:

**EDUC 492 Student Teaching** 12

Total: 139 hours

NOTE:

**Italicized courses are corequisites.

#These courses satisfy both general education requirements and requirements of the major. In order to avoid taking excess hours, students are advised to take these courses, or approved substitutes from another institution, as part of the general education requirements.

313 Porter Building
734.487.3260

Recommendation for endorsement in social studies (certification code “P.X”) requires a group major of 36 hours covering economics, geography, history, and political science. The certification test covering social studies is #84, “Social Studies.”

General studies ........................................................................ 45 hours

General education requirements ............................................. 17 hours

Other requirements ............................................................... 15 hours

#CHEM 101 Science for Elementary Teachers (satisfies general education requirement II.3) (3)
#ENGL 121 English Composition (satisfies general education requirement II.1) (3)
#MATH 109 Mathematics for Elementary Teachers I (satisfies general education requirement I.A.4) (3)
#PHY 100 Science for Elementary Teachers (satisfies general education requirement II.E) (3)
#PSY 101/PSY 102 General Psychology (satisfies general education requirement II.2 or II.3) (3-4)

Additional requirements ......................................................... 11 hours
GESC 202 Science for Elementary Teachers (3)
LITR 207 Introduction to Children’s Literature (3)
MATH 108 Mathematics for Elementary Teachers II (3)
MUSC 104 Elements of Music (2)

Physical education/graduation requirement ...................... 2 hours

Specialty studies ..................................................................... 36 hours

Teaching major ..................................................................... 36 hours

#PLSC 112/PLSC 113 American Government (satisfies general education requirement II.1) (3)
PLSC 301 The American Legal System .................................. 3
#GEOG 107 Introduction to Geography (satisfies general education requirement III.3) (3)
#GEOG 110 World Regions (satisfies general education requirement III.3) (3)
GEOG 320 Geography of the United States and Canada (3)
Courses that require formal admission to the teacher education program
Phase I: Technology, Diversity, and Teaching Environments (may be taken with
Phase II courses):
TEDU 253 Technology Education for Children ........................................... 3
HLED 320 Health Education in the Elementary Grades ............................. 2
SOPD 328 Schools in a Multicultural Society ............................................. 2
Phase II: Curriculum and Assessment (may be taken with Phase I courses):
**EDPS 316 Curriculum and Methods: Elementary .................................. 3
**FETE 301 Field Experience I: Elementary ............................................ 1
**EDPS 340 Introduction to Assessment and Evaluation ............................ 3
STUDENTS MAY NOT PROCEED TO PHASE III UNTIL PHASE II IS
COMPLETED
Phase III: Methods and Technology (may be taken with Phase IV courses):
HSCI 303 Science for the Elementary Teacher ........................................... 3
MATH 381 The Teaching of Mathematics, K-6 ........................................... 3
EDMT 331 Instructional Applications of Media and Technology ............... 2
PHED 257 Physical Education for the Classroom Teacher ........................ 2
Phase IV: Literacy, Culture, and the Arts (may be taken with Phase IV courses):
**RDNG 314 Teaching Reading in the Elementary School ........................... 6
**FETE 401 Field Experience III: Elementary ........................................... 1
FA 300 Art Integration for the Elementary Teacher ................................... 4
MUSC 320 Elementary Music Education .................................................... 2
Phase V: Capitol Experience:
EDUC 494 Student Teaching ....................................................................... 12
Total .............................................................................................................. 139 hours

NOTE:
#These courses satisfy both general education requirements and requirements
of the major. In order to avoid taking excess hours, students are advised to take
these courses, or approved substitutes from another institution, as part of the
general education requirements.

One course from the following: .............................................................. 3
A second course in two-course sequence
A cross-cultural or international course
One course from the following: .............................................................. 2-3

Pre-Admission Phase: The Learner and the Community
The following three courses may be taken prior to Phase I. At least a 2.0
GPA at Eastern Michigan University is required to be eligible for
the pre-admission courses.
**EDPS 322 Human Development and Learning (4) |             |
**FETE 201 Field Experience I (1) |             |
SPGN 251 Education of Exceptional Children (3) |             |

All professional education courses must be completed prior to student
Teaching with grades of C or higher.
Phase I: Technology, Diversity and Teaching Environments (may be taken with Phase II courses):
- TEDU 253 Technology Education for Children (3)
- HLED 320 Health Education in the Elementary Grades (2)
- SOFD 328 Schools in a Multicultural Society (3)

Phase II: Curriculum and Assessment (may be taken with Phase I courses):
- **CURR 304 Curriculum and Methods: Elementary (3)**
- **FETE 301 Field Experience II: Elementary (1)**
- EDPS 340 Introduction to Assessment and Evaluation (3)

You may not proceed to Phase III until you have completed Phase II.

Phase III: Methods and Technology (may be taken with Phase IV courses):
- ESCI 303 Biology for Elementary Teachers (3)
- MATH 381 Teaching of Mathematics K-6 (3)
- EDMT 330 Instructional Applications of Media and Technology (2)
- PHED 257 Physical Education for the Classroom Teacher (2)

Phase IV: Literacy, Culture and the Arts (may be taken with Phase IV courses):
- RDNG 314 Teaching Reading in Elementary School (6)
- Fall 401 Field Experience II: Elementary (1)
- FA 300 Art Integration for the Elementary Teacher (4)
- MUSC 320 Elementary Music Education (2)

Completion of all courses listed above is required before you are eligible for student teaching.

Phase V: Capstone Experience**
- EDUC 492 Student Teaching (12)
- EDUC 490 Student Teaching (8)
- EDUC 494 (4)

Note:
*Indicated courses are corequisites.
**If you have an Early Childhood Education or Bilingual-Bicultural Education minor you are required to have two student teaching experiences.

## Elementary Education Program with an Early Childhood Education Minor

### Elementary Teacher Certification

**ISIS Minor code: TE 37**

Successful completion of this course of studies, in the context of other program requirements, qualifies the student for recommendation for certification for the Michigan Department of Education Elementary Provisional Certificate, which is valid for teaching all subjects kindergarten through grade five for teaching in self-contained classrooms in grades six to eight, and for teaching in one’s major or minor subject areas of concentration in grades six to eight. In addition, the student is qualified for recommendation for endorsement in early childhood, certification code “ZA.” Depending on the major selected (or two other minors selected), the individual will be eligible for an additional endorsement(s). The certification tests for this field are #81, “Early Childhood,” #83, “Elementary,” and those needed for subject area endorsements.

Elementary education and early childhood education students are required to attend a group advising session and then an open advising session before being assigned an adviser.

### General studies .................................................. 54 hours

- General education requirements .................................. 28 hours
- Other requirements .................................................. 15 hours
  - #CHEM 101 Science for Elementary Teachers .................. 3
  - #ESCI 303 Science for the Elementary Teacher ................. 3
  - #GEOG 110 World Regions ...................................... 3
  - #MATH 109 Mathematics for Elementary Teachers II ........ 3
  - #PHY 100 Science for Elementary Teachers .................... 3

### Additional requirements ......................................... 9 hours

- GESC 202 Science for Elementary Teachers ................... 3
- MATH 108 Mathematics for Elementary Teachers I ............. 3
- MUSC 104 Elements of Music .................................... 3

### Physical education/graduation requirement .................. 2 hours

### Specialty studies ................................................ 62 hours

Select from either option I or option II:

### Option I: Select a major from the approved list for elementary education.

### Option II: Select two minors other than early childhood education from the approved list for elementary education.

### Teaching Minor

#### Required courses ................................................. 17 hours
- CURR 214 The Developing Child in ECE .......................... 3
- CURR 215 The Developing Professional in ECE .................... 2
- CURR 302 Methods of Integrating Curriculum and Resources in ECE 3
- *CURR 303 Implementing the Curriculum in ECE .................. 2
- EDPS 341 Assessment of the Young Child .......................... 4

### Restricted elective courses ...................................... 9 hours

#### Three courses from the following:
- EDPS 307 Young Children in Peril: Educational Implications .... 3
- CURR 314 Infants and Toddlers in ECE ............................. 3
- EDPS 315 Play and Creativity in ECE .............................. 3
- PHED 381 Motor Development of the Young Child ................. 3

### Professional Studies ............................................... 46 hours

- Preadmission Phase: The Learners and the Community
  - **EDPS 322 Human Development and Learning .................... 4
  - **FETE 401 Field Experience ....................................... 1
- SPGN 251 Education of Exceptional Children .................... 3

### Courses that require formal admission to the teacher education program

#### Phase I: Technology, Diversity, and Teaching Environments (may be taken with Phase II courses):
- SOFD 328 Schools in a Multicultural Society ............... 3
- Phase II: Curriculum and Assessment (may be taken with Phase I courses):
  - **CURR 304 Curriculum and Methods: Elementary .............. 3
  - **FETE 301 Field Experience II: Elementary .................... 1

#### STUDENTS MAY NOT PROCEED TO PHASE III UNTIL PHASE II IS COMPLETED

#### Phase III: Methods and Technology (may be taken with Phase IV courses):
- #ESCI 303 Science for the Elementary Teacher .................. 3
- MATH 381 The Teaching of Mathematics, K-6 ...................... 3
- EDMT 330 Instructional Applications of Media and Technology 2
- PHED 257 Physical Education for the Classroom Teacher ....... 2

#### Phase IV: Literacy, Culture, and the Arts (may be taken with Phase IV courses):
- **RDNG 314 Teaching Reading in the Elementary School .......... 6
- **FETE 401 Field Experience III: Elementary .................... 1
- FA 300 Art Integration for the Elementary Teacher ............ 4

#### Phase V: Capstone Experience:
- EDUC 490 Student Teaching ........................................ 8
- EDUC 495 Student Teaching .......................................... 4

**Total: ......................................................... 162 hours**

### NOTE:

This curriculum automatically satisfies general education requirement IV.4.
*Admission to the teacher education program is required.
**Could be fewer hours, depending on the minors or major and the possible application of general education courses to the minors or majors.

These courses satisfy both general education requirements and requirements of the major. In order to avoid taking excess hours, students are advised to take these courses, or approved substitutes from another institution, as part of the general education requirements.

### Arts Group Minor

#### Elementary and Special Education-Elementary Teacher Certification

(not available with Art Minor, Music Minor, or with Technology Minor)

** ISIS minor code: TE 331**

Successful completion of this minor, in the context of other program requirements, qualifies the student for recommendation for endorsement in fine arts,
Certification code "OX." The certification test covering this field is #53, "Fine Arts."

#FA 101 Introduction to Art (satisfies general education requirement IV.4) .... 3
*FA 300 Art Integration for the Elementary Teacher ................. 4
*MUSIC 104 Elements of Music ........................................ 2
*MUSC 320 Elementary Music Education ............................... 2
*TEDU 253 Technology Education for Children ........................ 3
TEDU 354 Experiences in Technology for Children .................. 2

Eight hours from the following:

CTAA 168/CTAA 268/CTAA 368/CTAA 468 Interpretation (1 each)
*CTAR 222 Drama and Play in Human Experience (satisfies general education requirement IV.4) (3)
CTAR 322 Theatre for the Young (3)
CTAR 323 Improvising and Role-Play (3)
CTAR 324 Oral Interpretation of Literature for the Young (3)
CTAR 407/498/499 Independent Study (1/2/3)
*CTAO 210 Interpretive Reading (satisfies general education requirement IV.2) (3)
*CTAR 106 Introduction to the Performing Arts (satisfies general education requirement IV.4) (3) (Not open to those with credit in MUSIC 106)
*CTAR 159 Introduction to Theatre (satisfies general education requirement IV.4) (3)
*CTAR 151 African American Theatre: An Introduction (satisfies general education requirement IV.4 and the cross-cultural/ international studies requirement) (3)
CTAR 153 Technical Theatre: Costume and Makeup (2)
CTAR 251 African American Theatre: Creative Problems (3)

Other courses in drama/theatre for the young or theater arts

*FA 100 Art Appreciation (satisfies general education requirement IV.4) (3)
*FA 107 Art History Survey I (satisfies general education requirement IV.4) (3)
*FA 108 Art History Survey II (satisfies general education requirement IV.4) (3)
*FA 122 Two-Dimensional Design (satisfies general education requirement IV.4) (3)
*FA 123 Drawing I (satisfies general education requirement IV.4) (3)
FA 124 Drawing II (3)
FA 201 Introduction to Graphic Design I (3)
FA 210 Life Drawing (3)
FA 215 History of 19th Century Art (3)
FA 231 Three-Dimensional Design (3)
FA 235 Textiles (3)
FA 204 Beginning Photographic Imagery (3)
FA 207 Ceramics (3)
FA 310 Sculpture (3)
FA 320 Jewelry (3)
FA 341 History of Renaissance Art (3)
FA 421 History of Oriental Art (3)
FA 425 Arts of Africa (3)
FA 426 Medieval Art History (3)
FA 427 Baroque Art (3)
FA 429 History of American Architecture (3)
FA 430 Meso-American Art (3)
FA 436 Women in Art (3)
TEDU 118 Energy Technology (3)
TEDU 152 Arts and Crafts (3)
*FA 106 Introduction to the Performing Arts (satisfies general education requirement IV.4) (3) (Not open to those with credit in CTAR 106)
*FA 197 Music Appreciation (satisfies general education requirement IV.4) (2)
MUSIC 151 Class Piano (2)

MUSIC 152 Class Piano (2)
MUSIC 232 Voice Class (1)
MUSIC 131 University Choir (1)
MUSIC 134 University Women's Chorus (1)
MUSIC 135 University Men's Chorus (1)
MUSIC 249 Band (1)
MUSIC 248 Orchestra (1)
MUSIC 274 Functional Guitar (2)
MUSIC 224 Recreational Music (2)
Other courses in music

INDT 121 Graphic Communication (3)
TEDU 103 Structures and Design in Technology (3)
TEDU 106 Processing Technology (3)
TEDU 114 Information and Control Technology (3)

Total ................................................................. 24 hours

Advising note: Students are advised that some of the courses listed have prerequisites that are not necessarily met by other courses in the program. In order to avoid taking excess hours, students should select from courses for which the prerequisites have been met.

NOTE:

* Included in professional studies for elementary program.

These courses satisfy both general education requirements and requirements of the minor. In order to avoid taking excess hours, prospective teachers of fine art are advised to take these courses, or approved substitutes from another institution, as part of the general education requirements.

Elementary Science Group Minor

Elementary and Special Education-Elementary Teacher Certification

ISIS minor code: TE32

Successful completion of this minor, in the context of other program requirements, qualifies the student for recommendation for endorsement in science, certification code "OX." The certification test covering this field is #53, "Fine Arts."

**One of (satisfies general education requirement II.2 or II.3)

#PSY 101 General Psychology (3)
#PSY 102 General Psychology (4)

**CHEM 101 Science for Elementary Teachers (satisfies general education requirement II.3) ......................... 3
**GESC 202 Science for Elementary Teachers (satisfies general education requirement II.1 or II.3) ......................... 3
**ESCI 303 Science for the Elementary Teacher (satisfies general education requirement II.2 or II.3) ......................... 3
**PHY 100 Science for Elementary Teachers (satisfies general education requirement II.1 or II.3) ......................... 3

If PSY 101 is in the program, choose nine credits from the entire list of courses below so that the minor has a total of 24 hours. If PSY 102 is in the program, choose eight credits from the entire list of courses below to total 24 hours. The selections of electives must include at least three hours of courses at the 300 level or higher. (ESCI 303 is the other three hours for the minor requirement of three hours of 300 or higher courses.) Take two or more courses from one science area, one of which is a 300 or higher level course.

ASTR 203 Exploration of the Universe (3)
ASTR 204 Astronomical Investigations (1)
#Biol 105 Introductory Biology for Non-majors (satisfies general education requirement II.2 or II.3) (4)
Biol 203 Field Biology (4)
Biol 207 Elements of Ecology (2)
Biol 224 Principles of Conservation (4)
Biol 232 Nature Interpretation (2)

MUSC 101 Science for Elementary Teachers (satisfies general education requirement II.2 or II.3) (3)
To tal 24 hours

NOTE:

*Required in general education in some programs.

**Required in general education in the elementary program.

***Special Topics for Educators (subtitle) are appropriate for this minor. These are courses with prefixes of ESCI, BIOI, ZOOL, CHEM, GESC, GEOL, or PHY and with course numbers of 317-379, 477-479 (1-3 hours)

#These courses satisfy both general education requirements and requirements of the minor. In order to avoid taking excess hours, prospective elementary teachers are advised to take these courses, or approved substitutes from another institution, as part of the general education requirements.

---

Language Arts Group Minor

Elementary and Special Education-Elementary Teacher Certification

ISIS minor code: TE41

Successful completion of this minor, in the context of other program requirements, qualifies the student for recommendation for endorsement in language arts, certification code “BA.” The certification test covering this field is #01, “Language Arts.”

*LIRI 207 Introduction to Children’s Literature (required for elementary program) ........................................ 3

LING 201 An Introduction to Linguistics .................................................................................................................. 3

One course from the following: (satisfies general education requirement IV.1 or IV.2) ........................................ 3

#ENGL 225 Intermediate English Composition (elementary)

#ENGL 233 Writing in the Professional World (special education)

One course from the following: (satisfies general education requirement IV.1 or IV.2) ........................................ 3

#LIRI 100 The Reading of Literature (3)

#LIRI 101 The Reading of Literature: Fiction (3)

#LIRI 102 The Reading of Literature: Poetry (3)

#LIRI 103 The Reading of Literature: Drama (3)

One course from the following: .......................................................................................................................... 3

#LIRI 204 Native American Literature (satisfies general education requirement IV.1 or IV.2 and the cross-cultural/international studies requirement) (3)

#LIRI 260 African American Literature (satisfies general education requirement IV.1 or IV.2 and the cross-cultural/international studies requirement) (3)

#CTAC 374 Intercultural Communication (satisfies general education requirement IV.1 and the cross-cultural/international studies requirement) (3)

#CTAC 375 Intercultural/Interethnic Communication (satisfies general education requirement IV.1 and the cross-cultural/international studies requirement) (3)

One course from the following: .......................................................................................................................... 3

ENGL 450 Children’s Literature: Criticism and Response (3)

ENGL 451 Writing about Controversy in Literature (3)

One course from the following: .......................................................................................................................... 3

LIRI 351 World Mythology (3)

LIRI 352 Folk Literature: Ballads and Folk Tales (3)

LIRI 479 Special Topics (tagged Literature for the Young) (3)

One course from the following: .......................................................................................................................... 3

#CTAO 210 Interpretative Reading (satisfies general education requirement IV.2) (3)

#CTAR 222 Drama and Play in Human Experience (satisfies general education requirement IV.4) (3)

CTAR 323 Improvising and Role-Play (3)

CTAR 324 Oral Interpretation of Literature for the Young (3)

Total ................................................................................................................................................................. 24 hours

*Satisfies elementary professional requirement

Social Studies Group Minor (Elementary)

Elementary and Special Education-Elementary Teacher Certification

ISIS minor code: TE40

Successful completion of this minor, in the context of other program requirements, qualifies the student for recommendation for endorsement in social studies, certification code “RX.” The certification test covering this field is #84, “Social Studies.”

Biological Sciences Group Minor

Elementary and Middle School Counselor Certification

ISIS minor code: TE42

Successful completion of this minor, in the context of other program requirements, qualifies the student for recommendation for endorsement in biological science, certification code “RX.” The certification test covering this field is #84, “Biological Sciences.”

---

College of Education
Structure of the Disciplines Minor

Elementary Certification

ISIS minor code: TE43

NOTE:
Effective with students who enter under (or change to) the 1998 and later catalogs, the program for prospective elementary teachers will include the structure of the disciplines minor, either in connection with one of the majors from the approved list of majors for elementary or in connection with two additional minors.

The structure of the disciplines minor is a liberal arts minor that varies in credit numbers depending on the major or minors with which it is selected. To select a structure of the disciplines minor, a student shall select either Option I or Option II below. This applies only to elementary education students who do not have an early childhood minor (ECE): (early childhood students must see an early childhood advisor for information on majors and minors.)

Option I: Select a major from the recommended majors listed below and choose the structure of the disciplines as the corresponding minor.

Elementary Science Group
Language Arts Group (not to be combined with English and American Language and Literature minor.)
Mathematics for Elementary Teaching Certification
Social Studies (for Elementary) Group

Option II: Select three minors from below:

a. You must choose at least one of the following:
   Elementary Science Group Minor
   Language Arts Group Minor
   Group Minor in English Language and American Literature
   Math for Elementary Teaching Certification Minor
   Social Studies Group Minor

b. A second minor from list (a) above or from among the following:
   Art Minor
   Arts Group Minor
   Elementary Music Education Minor (Vocal or Instrumental)
   French Language Minor (Elementary Education)
   German Language Minor (Elementary Education)
   Spanish Language Minor (Elementary Education)
   Health Minor
   Technology Education Minor

The structure of the disciplines minor is the third choice in option II.

All of the following courses are required for prospective elementary teachers. Only those that are not applied to either (a) the student's major or (b) the student's other two minors may be applied to the structure of the disciplines minor. A number of these courses also satisfy a general education requirement. The structure of the disciplines minor does not lead to subject-area certification.

#ENGL 121 English Composition (satisfies general education requirement II) 3
#CTAC 121Pro-CTAC 124 2
#LITR 207 Introduction to Children's Literature 3
#MATH 108 Mathematics for Elementary Teachers I 3
#MATH 109 Mathematics for Elementary Teachers II (satisfies general education requirement II) 3
#MATH 381 The Teaching of Mathematics, K-6 3
#PHY 106 Science for Elementary Teachers (satisfies general education requirement II) 3
#CHEM 101 Science for Elementary Teachers (satisfies general education requirement II) 3
#GESC 202 Science for Elementary Teachers 3
#ESCI 303 Science for the Elementary Teacher (satisfies general education requirement II or III) 3
#TDED 253 Technology Education for Children 3
#FA 300 Art Integration for the Elementary Teacher 3
#MUSC 104 Elements of Music 3
#MUSC 320 Elementary Music Education 3
#PSY 101/PSY 102 General Psychology (satisfies general education requirement II or III) 3
#PLSC 112/PLSC 113 American Government (satisfies general education requirement III) 3
#GEOG 110 World Regions (satisfies general education requirement III) 3
#HLED 32 Health Education in the Elementary Grades 2
#PHED 257 Physical Education for the Classroom Teacher 2

**Total:** 24 hours

Curriculum Courses

CURRE 177/179/279 Special Topics 1/2/3 hrs
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.
**Prepar:** Department permission.

CURRE 214 The Developing Child in ECE 3 hrs
Developmental patterns of children in various settings. Physical, mental, social and emotional components of growth through the first five stages of the family life cycle, with emphasis on the child from two to eight years. Impact of the family resources, attitudes and values on young children. Concurrent registration in CURRE 215 required.
**Prepar:** PST 101 and sophomore standing.

CURRE 215 The Developing Professional in ECE 2 hrs
An orientation to the profession of early childhood education. Students will learn communication skills, how to interpret child and adult behaviors, and how to build relationships. Students will begin to apply effective teaching practices and to use a reflective inquiry approach to understand child development theories as the bases for early childhood programs. Concurrent registration in CURRE 214 required. Includes three-hours-per-week practicum experience.
**Prepar:** PST 101 and sophomore standing.

CURRE 277/278/279 Special Topics 1/2/3 hrs
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.
**Prepar:** Department permission.
CURR 302 Methods of Integrating Curriculum and Resources in ECE 3 hrs
To help students design and implement developmentally appropriate curricula and programs for children prekindergarten through third grade. An inquiry approach will be used to assist the student in broadening the scope of curriculum to provide for individual interests and needs.
Prereq: EDPS 322 or EDPS 325. Concurrent registration in CURR 303. Admission to the teacher education program.

CURR 303 Implementing the Curriculum in ECE 2 hrs
This course is divided into two parts, the first being a 1 1/2-hour class each week. The content of the class will focus on implementing a developmentally appropriate curriculum in the practical setting. The second part is a three-hour-per-week practicum experience in a program serving preschoolers or kindergartners.
Prereq: EDPS 322 or EDPS 325. Concurrent registration in CURR 303. Admission to the teacher education program.

CURR 304 Curriculum and Methods: Elementary 3 hrs
The concept of curriculum and its relationship to differing philosophies of education and styles of teaching. The instructional process and multiple teaching strategies examined and applied through lesson planning and demonstration. Social studies content used in lesson planning by students seeking elementary certification. Classroom management principles and techniques considered in the light of a curriculum and instruction perspective. Includes a planned practicum experience in public schools in addition to the regularly scheduled hours.
Prereq: EDPS 322 or EDPS 325. Concurrent registration in FETE 301. Pre-or coreq.: SOFD 328. Admission to the teacher education program.

CURR 305 Curriculum and Methods: Secondary 3 hrs
The concept of curriculum and its relationship to differing philosophies of education and styles of teaching. The instructional process and multiple teaching strategies examined and applied through lesson planning and demonstration. Classroom management principles and techniques considered in the light of a curriculum and instruction perspective. Includes a planned practicum experience in public schools in addition to the regularly scheduled hours.
Prereq: EDPS 322 or EDPS 325. Concurrent registration in FETE 302. Pre-or coreq.: SOFD 328. Admission to the teacher education program.

CURR 314 Infants and Toddlers in ECE 3 hrs
The home as a center for the nurture and development of infants and toddlers (conception to 2 1/2 years) with particular emphasis on the dynamics of the parent-child relationship.
Prereq: CURR 214 and CURR 215.

CURR 377/378/379 Special Topics 1/2/3 hrs
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.
Prereq.: Department permission.

CURR 477/478/479 Special Topics 1/2/3 hrs
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.
Prereq.: Department permission.

CURR 486/488/489 Internship in Teacher Education 1/2/3 hrs
Directed experience involving a field placement in curriculum.
Prereq.: Department permission.

CURR 497/498/499 Independent Study 1/2/3 hrs
Advanced study on an individual basis in areas in which the department does not offer a formal course.
Prereq.: Department permission.
child advocacy and early educational interventions that promote understanding of family, ethnic, cultural and socioeconomic diversity.
Prereq: CURR 314 and CURR 215

EDPS 318 Play and Creativity in ECE 3 hrs
An overview of approaches to play and creative expression in the education of young children. Applications will be made to the fields of early childhood, elementary education, special education, and extended day programs. Students will conduct observations and interviews on play and experiment with a variety of play materials and media with children.
Prereq: CURR 214, CURR 215, and admission to the teacher education program.

EDPS 322 Human Development and Learning 4 hrs
The study of childhood psychology from birth through adolescence with a focus on intellectual and psychosocial behavior and the role of parents and teachers in fostering learning and development.
Coreq: FETE 201.

EDPS 325 Life Span Human Growth and Development 4 hrs
An exploration of the biological, cognitive, social, and affective domains of human growth and development from the prenatal period until death; the relationship of growth and development to behavior through the life span.
Prereq: PSY 101/PSY 102.

EDPS 340 Introduction to Assessment and Evaluation 3 hrs
Basic principles in evaluation and assessment. Students will construct and interpret tests and alternative assessments, critique standardized tests; assess social, affective and behavioral factors; use computer applications; and examine assessment issues.
Prereq: EDPS 322. Admission to the teacher education program. Coreq: FETE 301 or FETE 302, and CURR 304 or CURR 305.

EDPS 341 Assessment of the Young Child 3 hrs
Procedures and practices used in the evaluation and assessment of young children from birth through the elementary years, with emphasis on children up through age eight.
Prereq: CURR 214 and CURR 215, and EDPS 322 or EDPS 325. Admission to the teacher education program.

EDPS 377/378/379 Special Topics 1/2/3 hrs
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.
Prereq: Department permission.

EDPS 402 Learning in the Later Years 3 hrs
Introduction to the nature of age-related changes and differences among age groups found in the teaching-learning process. Learning in later years, including processes, strategies and variables associated with the older learner.
Prereq: EDPS 101 or equivalent.

EDPS 477/478/479 Special Topics 1/2/3 hrs
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.
Prereq: Department permission.

EDPS 497/498/499 Independent Study 1/2/3 hrs
Advanced study on an individual basis in areas in which the department does not offer a formal course.
Prereq: Department permission.

Educational Technology Courses

EDTC 179 Special Topics 3 hrs
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.
Prereq: Department permission.

EDTC 300 Introduction to Computer Applications in Education 1 hr
An introductory course in educational technology with an emphasis on the emergence of technology in schools. Technology and its applications in schools past, present and future. Students will conduct observations and interviews on play and experiment with a variety of play materials and media with children.
Prereq: Department permission.

EDTC 477/478/479 Special Topics 1/2/3 hrs
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.
Prereq: Department permission.

Field Experience Courses

FETE 201 Field Experience I 1 hr
Prospective teachers will participate in a service-learning experience in a diverse community, and examine their beliefs and attitudes about working with others who are different from themselves.
Coreq: EDPS 322.

FETE 301 Field Experience II: Elementary 1 hr
Field placement in an elementary school. Focus is on reflective teaching and assessment decisions.
Prereq: EDPS 322. Coreq: CURR 304.

FETE 302 Field Experience II: Secondary 1 hr
Field placement in a middle level or high school. Focus is on reflective teaching and assessment decisions.
Prereq: EDPS 322. Coreq: CURR 305.

FETE 401 Field Experience III: Elementary 1 hr
Field placement in an elementary school with a diverse student population. Emphasis is on developing literacy in diverse populations and adapting instruction to individual student needs.

FETE 402 Field Experience III: Secondary 1 hr
Field placement in a middle level or high school with a diverse student population. Emphasis is on developing literacy in diverse populations and adapting instruction to individual student needs.
Prereq: CURR 305. Coreq: RDG 311.

Reading Courses

RDNG 177/178/179 Special Topics 1/2/3 hrs
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.
Prereq: Department permission.

RDNG 277/278/279 Special Topics 1/2/3 hrs
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.
Prereq: Department permission.

RDNG 311 Teaching Reading in the Secondary School 3 hrs
The developmental sequence for reading skills at the junior and senior high school levels and methods for teaching the sequence, including teaching programs for all students. Providing reading instruction within the context of the various areas. Required for all students who seek certification to teach in secondary schools.
Prereq: CURR 305 or PHED 352 or BEDU 200 or MUSC 330 or MUSC 332. Concurrent registration in FETE 402. Admission to the teacher education program.
RDNG 314 Teaching Reading in the Elementary School  
6 hrs  
The developmental aspects of reading and language arts programs from preschool through elementary school. Theoretical and research knowledge pertinent to child growth and development and fundamental skills appropriate for the teaching of reading and language arts. Field-based experiences. Required for all students who seek certification to teach in elementary schools.  
Prereq: CURR 304. Concurrent registration in FETE 401. Admission to the teacher education program.

RDNG 377/378/379 Special Topics  
1/2/3 hrs  
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.  
Prereq: Department permission.

RDNG 477/478/479 Special Topics  
1/2/3 hrs  
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.  
Prereq: Department permission.

Social Foundations Courses

SOFD 177/178/179 Special Topics  
1/2/3 hrs  
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.  
Prereq: Department permission.

SOFD 277/278/279 Special Topics  
1/2/3 hrs  
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.  
Prereq: Department permission.

SOFD 328 Schools in a Multicultural Society  
3 hrs  
A study of the interactive relationship between schools and society, and the development of a culturally responsible pedagogy. Special emphasis on educational equity and the theoretical foundations of multicultural education.  
Prereq: EDPS 322 or EDPS 325. Admission to the teacher education program.

SOFD 377/378/379 Special Topics  
1/2/3 hrs  
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.  
Prereq: Department permission.

SOFD 477/478/479 Special Topics  
1/2/3 hrs  
A study of select issues in social foundations of education. Topics may vary from term to term. Students may elect this course several times, provided different topics are covered.  
Prereq: Department permission.

SOFD 497/498/499 Independent Study  
1/2/3 hrs  
Intensive study of a problem or theory supervised by a faculty member in social foundations of education.  
Prereq: Department permission and consent of instructor.
An image of a page from a document with text about the College of Health and Human Services at Eastern Michigan University. The document contains contact information for the Dean, Associate Deans, and Administrative Assistant, as well as a list of departments including Associated Health Professions, Human, Environmental and Consumer Resources, Nursing, and Social Work. It also includes a Mission Statement describing the focus on preparing professionals with an appropriate combination of knowledge and skills to enhance quality of life and facilitate social change to meet societal needs. The statement mentions the importance of experiential education that is community-based, strongly links theory and practice, and focuses on a holistic view of individuals, groups, families, communities, and the process of change. Interrelationships of people, institutions, and services are also included. A unique contribution is the preparation of students for professional roles within the service delivery system.
The College of Health and Human Services provides tomorrow's professionals with the appropriate combination of knowledge and skills to enable them to enhance the quality of life and facilitate social change to meet societal needs. The programs in the college focus on the preparation of professionals for a unique combination of health and human service disciplines. As a result, curricula are built around an integration of knowledge with practice. Experiential education that is community based strongly links theory and practice. The curricula focus on a holistic view of individuals, groups, families, communities, the process of change, and the interrelationships of people, institutions, and services.

The new Everett L. Marshall Building, in conjunction with Roosevelt Hall, provides excellent facilities for the Departments of Associated Health Professions; Human, Environmental and Consumer Resources; Nursing; and Social Work. The design of the Marshall building addressed four goals: to foster a sense of community; to provide a healthy environment by using green sustainable finishes and furnishings; to provide leading-edge technology for teaching and learning; and to use universal design to meet the needs of everyone who uses the building, regardless of their physical ability or stature.

In addition to the existing classrooms and laboratories in Roosevelt Hall, 10 new classrooms are available in Marshall. These classrooms have leading-edge instructional technology controlled from a touch panel at the podium. The furnishings in the rooms are adjustable to accommodate students of different physical stature or those with disabilities. Student tables and chairs are on casters so that the room can easily be arranged to accommodate different teaching and learning styles, e.g., lecture, small group, large group, or role-play. There are more than 1000 network connections in the building to enable students with laptop computers to easily communicate with peers or professors and provide easy access to the Internet. Two student commons and a cafe in a two-story atrium space provide comfortable environments for studying or group work. The building also serves as a demonstration site for environmentally-conscious design. Furnishings and finishes were selected to "do no harm" to the earth’s environment.

State-of-the-art laboratory spaces include the clinical lab sciences suite, two occupational therapy labs, a nursing skills lab and an assessment lab, and a social work laboratory. A home care unit resembles an apartment. Students can mock-up different home environments to simulate clients’ homes for delivery of home health care or to design supportive environments for people who are frail or disabled. Modern laboratories for apparel, textile and merchandising, dietetics, hotel and restaurant management; and interior design are located in Roosevelt Hall.

The Community Outreach Program enables faculty and students to offer educational programs and services to residents of southeast Michigan. Six rooms, for five to 15 people, are designed with comfortable seating to facilitate family or small-group meetings. Each room can be monitored using a built-in camera and microphone so that the rooms can be used to teach interviewing or counseling skills. This suite of rooms can also be used by graduate students working on research projects that involve recorded interviews.

The Department of Human, Environmental and Consumer Resources is located in Roosevelt Hall. The Marshall Building houses the Dean of the College of Health and Human Services, and the Departments of Associated Health Professions, Nursing, and Social Work. The college advising offices are adjacent to the reception desk and lobby in Marshall to meet the needs of prospective and incoming students. The goal of the College is to create an environment that fosters a sense of community and belonging for all students, faculty, and staff.

College of Health and Human Services Courses

IHHS 277/278/279 Special Topics 1/2/3 hrs
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once; provided different topics are studied. Prereq: Department permission.

IHHS 226 Computers for Health and Human Services 3 hrs
This interdisciplinary computer literacy course will introduce students to computers and their applications in health and human services. Students will learn about computers and computer languages. This course will include applications of computer technology to direct services for clients as well as the use of computers to manage work.

IHHS 277/278/279 Special Topics 1/2/3 hrs
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once; provided different topics are studied. Prereq: Department permission.

IHHS 377/378/379 Special Topics 1/2/3 hrs
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once; provided different topics are studied. Prereq: Department permission.

IHHS 477/478/479 Special Topics 1/2/3 hrs
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once; provided different topics are studied. Prereq: Department permission.

Associated Health Professions
www.emich.edu/public/dahp/dahphome.htm

Departmental Administration
Judith Olson
Interim Department Head
313 Marshall Building
734.487.4094
E-mail: judy.olson@emich.edu

The Associated Health Professions Department offers programs that lead to the baccalaureate in clinical laboratory sciences, health administration, and occupational therapy. The department also offers a minor in health administration and a certificate program in phlebotomy. In addition, the department offers several interdisciplinary courses relating to the health services and the health care specialties.

Degrees Offered
Bachelor of Science

Programs of Study
Clinical laboratory sciences with tracks in:
- medical technology
- cytogenetics
- cytotechnology
- histotechnology
- phlebotomy
- pre-professional tracks
Health administration
Health services management (degree completion track)
Occupational therapy

Clinical Laboratory Sciences Program

Advising
Please contact the following person for additional program information:
Gary Hammerberg
Program Director
320 Marshall Building
734.487.3223
E-mail: gary.hammerberg@emich.edu

The clinical laboratory sciences program offers two tracks; the clinical certification track that includes submajors of medical technology, cytogenetics, cytotechnology, and histotechnology; and the professional track. Each leads to the bachelor of science degree. Successful completion of a three-course sequence in phlebotomy qualifies students to take a national certification examination in phlebotomy. The tracks are designed to prepare graduates for employment in hospitals, physician's offices, private laboratories, public health agencies, phar-
Clinical Laboratory Sciences/Medical Technology

Clinical Certification Track and Professional Track

This curriculum is a four-year program at Eastern Michigan University with two options or tracks:

1. **Clinical certification track:** The medical technology option consists of seven semesters of course work in general education, basic sciences, and clinical sciences and includes 23 weeks of rotation through an accredited clinical laboratory. These rotations for the clinical track include:
   - University of Michigan, Ann Arbor
   - Garden City Hospital, Garden City
   - St. Joseph Mercy Hospital, Ann Arbor
   - Providence Hospital, Southfield
   - Henry Ford Hospital, Detroit
   - WM Beaumont Hospital, Royal Oak
   
   The cytogenetics, cytotechnology, and histotechnology options consist of six semesters of course work, and 12 months of clinical rotations through an accredited clinical laboratory. These programs are accredited by the National Accrediting Agency for Clinical Laboratory Sciences.

2. **Professional track:** This option consists of eight semesters of course work in the general education, basic and advanced sciences, and clinical sciences. Included will be a strongly recommended cooperative education experience in industry or academia. Graduates will be prepared for careers in pharmaceutical, clinical diagnostics or other health care industries. Additionally, graduates will be eligible for entry into a master's or doctoral level program in the basic or clinical sciences. Students also would be eligible for one-year hospital rotations and subsequent certification as registered medical technologists.

The major in clinical laboratory sciences follows an interdisciplinary format composed of courses in clinical laboratory sciences, biology, chemistry and mathematics.

All students must complete the courses in each of the four areas of general education. At least 30 hours of the academic program must be completed at Eastern Michigan University. Students should be aware of the 60- and 75-hour rule regarding transfer of community college credit.

Continuation in the clinical laboratory sciences program is based upon the following:

a. A minimum EMU cumulative grade point average of 2.0 must be maintained. However, a cumulative GPA of less than 2.7 mandates warning letters of recommendation, and recommendation for transfer to another program.

b. No grade below "C" in any mathematics or science course.

c. A grade of "D" (including "D-" and "E") in two courses in the clinical laboratory sciences major may, upon recommendation by the Program Review Committee, result in dismissal from the CLS program.

d. Freedom from any kind of probation, administrative, academic or social, must be maintained. While on academic probation, no student may register for, remain in, or receive credit for science courses or practicum courses within the clinical laboratory sciences program.

Successful completion of the clinical track and the bachelor of science degree qualifies students to take the national registry examination in medical technology. The two certifying agencies recommended are the American Society of Clinical Pathologists and the National Certifying Agency for Clinical Laboratory Personnel.

**Clinical Track Requirements**

Students must first be accepted into Eastern Michigan University before they can be considered by the Clinical Laboratory Science Program Screening Committee. However, admission to EMU does not guarantee acceptance into the clinical track program.

Students entering the program will be classified initially as clinical laboratory sciences "tentative." Application for full admission to the clinical track program should be made during the winter semester of the junior year.

Application packets can be obtained from the Department of Associated Health Professions office. Completed applications must be in the office by March 15 in order to be considered for acceptance for the winter semester.

Selection criteria include overall EMU GPA, letters of recommendation, overall science GPA, interview evaluations, and completed application form.

Admission to the clinical laboratory sciences curriculum/clinical track is competitive and is based on the following:

1. A minimum grade point average of 2.7 on a 4.0 scale with no grade below "C" in any science, mathematics or professional course. The prerequisite course may be taken at EMU, any four-year college/university, or at a community college.

2. A minimum science GPA of 2.7.

3. Completion of at least 60 hours of university credit, including 45 credit hours of prerequisite mathematics and science courses, as indicated on the application form.

4. Three letters of recommendation. It is suggested that references should include a science instructor and an employer.

5. Students must document that they will have completed all prerequisite clinical laboratory sciences courses prior to beginning clinical rotations in the spring of their senior year.

The first three years of clinical laboratory sciences are the same for both the professional and clinical tracks. It is likely that acceptance into the clinical track will be highly competitive. Clinical laboratory sciences majors who are not accepted into the clinical track program, yet desire to sit for the registry examination in medical technology, have the following options:

1. Completion of the bachelor of science degree in clinical laboratory sciences (professional track) at Eastern Michigan University and filing a reapplication to the clinical track program.

2. Completion of all required course work for the bachelor of science degree in clinical laboratory sciences and application to an approved hospital-based school of medical technology. The faculty advisors will assist students in the application process. Students are selected for internship placement through a statewide computer matching process. The selection process is completed in February each year, with interviews usually beginning during the month of July. A bachelor of science in clinical laboratory sciences will qualify the student to apply to hospitals within Michigan and throughout the United States.

Hospital-based schools of medical technology (internship programs) affiliated with the University are:

- Detroit Medical Center, Detroit
- St. John Hospital, Detroit
- Genesys-St Joseph, Flint

**Professional Track Requirements**

The professional track is designed for students with an interest in the clinical sciences, whose career goals may not include working as a registered medical technologist in a hospital laboratory setting. Students electing the professional track of the clinical laboratory sciences program complete eight semesters of academic course work. The curriculum includes an optional but recommended cooperative education experience. Work
opportunities are diverse and include employment in pharmaceutical companies, analytical laboratories, and research laboratories. The clinical practicum is not required for the professional track.

Formal application into the professional track is not required. Students must maintain an overall GPA of 2.0 in the major and satisfy University requirements for graduation. Registration for cooperative courses requires a 2.5 overall GPA and 2.5 in the sciences.

These curricula lead to a bachelor of science in the clinical laboratory sciences program.

**Cytotechnology/Histotechnology Track**

**Specialization in cytotechnology**

Program Director: Susan Dingler (Henry Ford Hospital)

A cytotechnologist is a trained laboratory professional who detects cell disease by light microscopic examination of cell samples from all areas of human blood. Students may be accepted into the cytotechnology program after completing the required science, mathematics, and clinical laboratory science courses. University general education requirements also must be met. The senior year consists of a 12 month internship at Henry Ford Hospital. The program includes an integrated presentation of didactic material, microscopic study, specimen preparation, clinical observation, cytogenetics, laboratory management, and a research project.

**Specialization in histotechnology**

Program Director: Peggy Wenk (William Beaumont Hospital)

Histotechnologists perform a variety of diagnostic and research procedures in the anatomie sciences. Basic histologic techniques involve the processing and staining of tissue specimens that have been removed from humans or animals by biopsy or autopsy. Advanced techniques involve the use of the electron microscope, immunofluorescence microscopy, autoradiography, cytogenetics, and medical photography.

Students may be accepted into the histotechnology specialization after completing the required science, mathematics, and clinical laboratory science courses. University general education requirements must also be met. The senior year consists of a 12-month internship at William Beaumont Hospital School of Histotechnology.

**Specialization in cytogenetics**

Program Director: Jim Zabawski (Henry Ford Hospital)

Cytogeneticists work independently under general supervision and can interpret and implement established procedures to prepare biological specimens for cytogenetics analysis, perform the analysis, and construct and interpret karyotypes.

Students may be accepted into the cytogenetics specialization after completing the required science, mathematics, and clinical laboratory science courses. University general education requirements must also be met. The senior year consists of a 12-month internship at Henry Ford Hospital in the Cytogenetics Department. The program consists of an integrated presentation of didactic material and intensive laboratory study in the area of cytogenetics that includes specimen preparation, cell culture, chromosome analysis, microscopy, and photography.

Programs of Study

Health administration
Health services management (degree completion track)

Advising

Advising is available by the faculty in the health administration program offices.

Richard L. Douglass
Honors Adviser
329 Marshall Building
734.487.0460

The program in health administration emphasizes the rapidly changing forms of health care delivery, health care reform, health care for the indigent, and services to special populations, such as migrant workers, the homeless and prisoners. Student writing, publication, and opportunities for research are central to the program's mission.

Clinical Affiliations

The Health Administration program is closely affiliated with the American Academy of Medical Administrators (AAMA) and the American College of Health Executives (ACHE). The Health Administration Student Association is a Student Chapter of the American College of Health Care Executives. Internship opportunities are an important component in the curriculum of the program. The following organizations are representative of those in which health administration majors acquire field experience:

- Alzheimer's Disease and Related Disorders Association, Southfield
- Arbor Hospice, Ann Arbor
- Catherine McAuley Health Center, Ann Arbor
- Chelsea Community Hospital, Chelsea
- City of Detroit, Bureau of Substance Abuse Services, Detroit
- Detroit Health Care for the Homeless, Detroit
- Detroit Osteopathic Hospital Corporation, Detroit
- Detroit Receiving Hospital, Detroit
- Garden City Osteopathic Hospital, Garden City
- Health Alliance Plan of Michigan, Detroit
- Henry Ford Hospital, Detroit
- Hospice of Washtenaw, Ann Arbor
- Hospice of Livingston County, Howell
- Institute of Women's Medicine, Hurley Hospital, Detroit
- Korte-bu Teaching Hospital, University of Ghana, Accra, Ghana, West Africa
- Laurel Home Health Care Centers, Ypsilanti
- Lorna Colleges and Medical Center, San Fernando, Luzon, The Philippines
- M-Care, Ann Arbor
- McAuley-McPherson Health Care, Howell
- Michigan Blue Shield and Michigan Blue Cross, Detroit
- Michigan Insurance Bureau, Lansing
- Michigan Department of Corrections
- Michigan Department of Mental Health
- Michigan Department of Public Health
- Munson Memorial Hospital, Traverse City
- Saline Community Hospital, Saline
- St. John Hospital, Detroit
- St. Mary's Hospital, Saginaw
- St. Joseph Mercy Hospital, Ann Arbor
- Springfield Hospital, Springfield, Vermont
- Traverse City Osteopathic Hospital, Traverse City
- University of Michigan Hospitals, Ann Arbor
- Visiting Nurse Association of Huron Valley, Ann Arbor
- Washtenaw County Community Mental Health, Ann Arbor
- Wayne County Medical Examiner's Office, Detroit

Health Administration Curriculum

ISIS major code: AH05

The curriculum concentrates on the principles and processes utilized in the field of health administration and management. The program is designed to prepare those seeking a career in the administrative sector of the health care delivery system in any of its forms. It also is appropriate for those already working in the health care field in some other capacity but wishing to redirect their career toward the area of health administration. Practicing health administrators without previous formal education in the field also may find this program beneficial for career advancement.

All students must take a one-semester internship during their senior year unless waived by the program director due to significant administrative experience. Courses denoted with an (*) complete the requirements for a degree. No outside minor is required. However, many students elect the gerontology minor.

A degree completion track, health services management, has been established for persons with clinical associate degrees form accredited community colleges who have had two or more years of experience subsequent to that of degree completion. Associate degree trained nurses, respiratory therapists, and other interested in the degree completion option in health services management should contact the program director. Successful completion of the degree completion track leads to the same degree as the regular program major.

Degree Completion Articulation with Washtenaw Community College and Schoolcraft College

Two associate degree-B.S. in health administration articulation agreements have been established with the programs of radiography and respiratory therapy at Washtenaw Community College and one associate degree-B.S. in health administration articulation agreement with information technology at Schoolcraft College permit graduates of these two-year degree programs to complete their bachelors degree in two years, or the equivalent of four full-time semesters at Eastern Michigan University, culminating with a degree in health administration. Unlike the health services management track, which is a generic degree for completion for clinicians with a two-year clinical degree, these articulations provide selected transfer students with an efficient degree completion curriculum that fits into a traditional four year undergraduate schedule. Graduates of the programs in radiography and respiratory therapy at Washtenaw Community College and information technology at Schoolcraft College should contact the program director; program in health administration or their academic adviser at these two institutions for complete details about these degree completion opportunities.

A minor in health administration is available to undergraduate students at Eastern Michigan University. The curriculum for the minor in health administration includes 20 to 22 hours. Students interested in the minor should contact the program in writing and meet with the program's minor curriculum adviser.

General studies ....................................................... 59 hours
General education requirements .......................... 34 hours
Other required courses ........................................ 13 hours
#BIOL 105 Introductory Biology for Non-majors (satisfies general education requirement II.2 or II.3) (4)
#ECON 201 Principles of Economics I (satisfies general education requirement IIL3) (3)
#ECON 202 Principles of Economics II (satisfies general education requirement IIL4) (3)
#MATH 118 Mathematical Analysis for Social Sciences I (satisfies general education requirement L4) (3)

Physical education/graduation requirement .................................. 2 hours

Major in health administration .................................................. 57 hours

Required courses in health administration .................................. 33 hours
- HLAB 305 The U.S. Health Care System ..................................... 3
- HLAB 310 Administration of Health Care Organizations .................. 3
- HLAB 311 Management of Health Services .................................. 3
- HLAB 416 Health Planning ...................................................... 3
- HLAB 417 Health Regulation .................................................... 3
- HLAB 420 Financial Management of Health Institutions .................. 3
- HLAB 421 Managed Care ......................................................... 3
- HLAB 425 Decision Making for Health Administrators .................... 3
- HLAB 480 Internship Seminar in Health Administration .................. 3
- HLAB 488 Internship .............................................................. 6

Required courses in associated health professions ......................... 9 hours
- AHPR 200 Medical Terminology ................................................ 1
- AHPR 208 Ethical Dimensions in Health Care Delivery ..................... 2
  One course from the following: ................................................ 3
  - AHPR 305 Data Analysis for the Health Sciences (3)
  - MKTG 360 Principles of Marketing (3)

One course from the following: .................................................. 3
- AHPR 401 Legal Issues in Health Care (3)
- LAW 293 Legal Environment of Business (3)
- PLSC 301 The American Legal System (3)

Required courses in business administration and liberal arts .......... 15 hours
- ECON 436 Health Economics ................................................... 3
- ACC 240 Principles of Accounting I ......................................... 3
- MGMT 384 Human Resource Management ................................... 3
  One course from the following: ................................................ 3
  - DS 265 Business Statistics I (3)
  - PSY 205 Quantitative Methods in Psychology (3)
  - ECON 310 Economic Statistics (3)
  - SOSC 250 Social Statistics I (satisfies general education requirement L4) (3)
  - #BEDU 201 Microcomputers for Business Applications (satisfies general education requirement L5) (3)

Minor .......................................................................................... 0 hours

No minor is required.

Elective courses .......................................................................... 18 hours

The following courses are suggested as possible electives:
- HLAB 479 Special Topics: Health Care for the Homeless (Honors only)
- ACC 342 Managerial Cost Accounting
- ECON 322 American Labor Unions
- LAW 403 Employment Law
- POM 374 Introduction to Production/Operations Management
- #PHIL 221 Business Ethics
- PLSC 332 Intergovernmental Relations and Federalism
- PSY 351 Industrial Psychology
- PSY 360 Abnormal Psychology
- SOSC 307 Industrial Sociology
- SOSC 311 Social Gerontology
- SOSC 462 Complex Organizations

For permissible College of Business courses (maximum 30 hours), see a program adviser.

Total ....................................................................................... 51 hours

NOTE:
#These courses satisfy both general education requirements and requirements of the major. In order to avoid taking excess hours, students are advised to take these courses, or approved substitutes from another institution, as part of the general education requirements.

Health Services Management Track Curriculum

ISIS major code: AHOS

This is a degree completion track leading to the bachelor of science in health administration for persons holding an accredited associate’s degree in a recognized health services or clinical discipline. Such disciplines include nursing, respiratory therapy, or other specialized two-year programs of study.

For degree completion students in this curriculum, up to 22 credit hours may be awarded and credited toward the bachelor of science obligation of 124 credit hours on the basis of supervised clinical course work taken in the associate degree curriculum. These credits may be based on supervised clinical courses that have no exact equivalence at Eastern Michigan University. This is determined in consultation with the program director of the health administration program.

General studies ........................................................................ 49 hours

- General education ...................................................................... 47 hours
- Physical education/graduation requirement ............................... 2 hours

Major in health administration—health services management track .................................................. 27 hours

Occupational Therapy Program

Program Administration
- Elizabeth Francis
- Program Director
- 322 Marshall Building
- 734.487.3220

Program of Study
Occupational therapy

Advising for occupational therapy-intent students is performed by the Academic Advising Center. After acceptance into the occupational therapy program, students are assigned a faculty adviser. All students in the professional program must meet with their advisers before registering each semester.

Special Requirements

Admission
1. Students must first be accepted to the University by the Office of Admissions before they can be considered by the Occupational Therapy Screening Committee. However, admission to EMU does not guarantee admission to occupational therapy. After acceptance by the University, a separate application must then be made to the occupational therapy program. Applications are available from occupational therapy in Marshall Hall.
2. Admission to the occupational therapy curriculum is competitive and based on the following:
   a. A minimum grade point average of 2.7 on a 4.0 scale, at least a "B-" in two prerequisites and at least a "C" in the other one.
   b. Completion of at least 40 credit hours of college credit (in addition to physical education activity courses) including the following prerequisites:
      #PSY 101 General Psychology (satisfies general education requirement II.2 or II.3)
      #Biol 105 Introductory Biology for Non-majors (satisfies general education requirement II.2 or II.3)
      #CHEM 117-CHEM 118 Fundamentals of Chemistry with lab (satisfies general education requirement II.1 or II.3) or equivalent.
   c. Acceptance is provisional. Before the student begins the professional curriculum, evidence of successful completion of at least 55 credit hours and the following additional prerequisite courses must be presented with at least a "B-" in four of these courses and at least a "C" in the other one: a course in art, music, theatre, or dance, life span human growth and development, or psychology of aging and child psychology; a course in medical terminology; and human physiology (ZOOI 326) or an equivalent with a lab.
   d. The prerequisite courses may be taken at EMU or at another four-year college/university. Individuals with fewer than 75 credit hours of transferable credits may take courses at a junior or community college.
      e. Completed information on the application form with emphasis on work/volunteer experiences with individuals having special needs. A minimum of 80 hours is required.
      f. Three references required: at least one from a supervisor of work or volunteer experience with individuals having special needs. Personal references are not acceptable (e.g., relatives, friends, neighbors.)
   g. Application deadlines are December 1 for the following fall semester and June 1 for the following winter semester.

The availability of fieldwork placements and other considerations restrict the number of students admitted to the classes that begin each fall and winter semester.

Criteria for continuance in the occupational therapy curriculum is based upon the following:
1. Scholarship:
   a. A minimum EMU cumulative grade point average of 2.0 on a 4.0 scale must be maintained.
   b. All students must achieve a minimum letter grade of "C" in all courses in the OT program (OCTH 300, OCTH 302, OCTH 303, OCTH 304, OCTH 308, OCTH 400, OT 403, OCTH 418, OCTH 420, OCTH 421, OCTH 425, OCTH 488, OCTH 489, gerontology, ZOOI 317, ZOOI 417, HLAB 300, and TEDU 358).

      If the student receives a "C-" or below in an occupational therapy course, the student must retake the course and obtain at least a "C" grade before the student is allowed to take the next course in the sequence and will be automatically placed on "Academic Warning" status. A second "C-" or below in any course in the OT program will result in automatic dismissal.
   c. A letter grade of "E" in any required course will result in automatic dismissal from the OT program.
2. Demonstrated competence in:
   a. Speaking effectiveness
   b. Written expression
3. Demonstrated responsibility for:
   a. Punctuality and attendance
   b. Communication with instructors, supervisors, students
   c. Organization of time
   d. Professional appearance
4. Freedom from any kind of probation, administrative, academic, or social.

While on academic probation, no student may register for, remain in, or receive credit for the science and mathematics courses or the practical arts (Group VI) courses within the occupational therapy curriculum.

Supervised fieldwork of a minimum of six months is required for the bachelor's degree and to become eligible for the national certification examination. Assignment to field placement is arranged and approved by the program and is by recommendation of the occupational therapy faculty. OCTH 488 and OCTH 489 OT Fieldwork are full-time placements of a minimum of three months each. All fieldwork experiences must be completed within 24 months of completion of the academic portion of the program.

Certification requires successful completion of all academic requirements and fieldwork experiences. A registered occupational therapist (OTR) is one who has passed the certification examination administered by the National Board for Certification in Occupational Therapy (NBCOT). The Occupational Therapy Program is accredited by the Accreditation Council for Occupational Therapy Education (ACOTE) of the American Occupational Therapy Association (AOTA), located at 4725 Montgomery Lane, P.O. Box 31200, Bethesda, MD 20824-1220. AOTA'S phone number is 301.652.AOTA. Graduates of the program will be able to sit for the national certification examination for the occupational therapist administered by the National Board for Certification in Occupational Therapy (NBCOT). After successful completion of this exam, the individual will be an Occupational Therapist, Registered (OTR). Most states require licensure in order to practice; however, state licenses are usually based on the results of the NBCOT Certification Examination.

The professional segment of the program requires four semesters of academic courses and, in addition, a minimum of six months full-time fieldwork experience. Courses in the occupational therapy major are usually offered in the fall and winter semesters only.

**OCCUPATIONAL THERAPY CURRICULUM**

**ISIS major code: AH06**

The occupational therapy curriculum leads to a bachelor of science degree in occupational therapy. Completion of courses identified by an asterisk (*) satisfies all major and minor requirements for a degree. No outside minor is needed.

**General studies** .......................................................... 71 hours

| General education requirements | 37 |
| Required courses | 13 |
| #Biol 110 Introductory Biology (satisfies general education requirement II.2 or II.3) | 4 |

Minor 0 hours

NOTE:
These courses satisfy both general education requirements and requirements of the major. In order to avoid taking excess hours, students are advised to take these courses, or approved substitutes from another institution, as part of the general education requirements.

Health Administration Minor
ISIS minor code: A901

Requirments 15-16 hours

One course from the following:

- HLAD 300 Health Care Issues 3
- HLAD 305 The U.S. Health Care System 2
- HLAD 310 Administration of Health Care Organizations 3
- HLAD 311 Management of Health Services 3
- HLAD 420 Financial Management of Health Institutions 3
- AHPR 401 Legal Issues in Health Care 3
- AHPR 200 Medical Terminology 3
- HLAD 479 Special Topics 3

Elective courses 5-6

Two courses from the following:

- AHPR 401 Legal Issues in Health Care 3
- HLAD 479 Special Topics 3
- AHPR 208 Ethical Dimensions in Health Care Delivery 2
- HLAD 305 The U.S. Health Care System 2
- SWRK 431 Substance Abuse 3
- SWRK 438 The Interdisciplinary Health Care Team 3
- GEIT 404 Gerontology Interdisciplinary Seminar 3
- AAS 351 The Social Context of African American Health 3

Total 20-22 hours

Clinical Laboratory Science Courses

Clinical Laboratory Science Phlebotomy Program

The clinical laboratory science program, in conjunction with Ann Arbor area hospitals, has established a phlebotomy training program. This program consists of three courses. The program can be completed in two semesters. This allows students the opportunity to become employed as health care professionals at well-paying jobs while they continue their education.

Upon successful completion of AHPR 200, CLSC 201, and CLSC 202, students will qualify to take a national certification examination in phlebotomy, such as the examination given by the American Society of Phlebotomy Technicians.

Interdisciplinary Courses

AHPR 177/178/179 Special Topics 1/2/3 hrs
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.
Prereq: Department permission.

AHPR 196 Introduction to Health Careers 2 hrs
An introductory course designed to familiarize the student with careers in the health sciences. Various careers such as medical technology, nursing, dietetics, health administration, occupational therapy, medicine, clinical psychology, physical therapy and others will be presented by individuals in the respective disciplines. Education requirements, career opportunities, and clinical experience requirements will be highlighted.

AHPR 208 Ethical Dimensions in Health Care Delivery 2 hrs
This course presents information that students interested in the health professions may use to identify ethical situations and to resolve dilemmas they may face in their professional lives.

AHPR 277/278/279 Special Topics 1/2/3 hrs
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.
Prereq: Department permission.

AHPR 365 Data Analysis for the Health Sciences 3 hrs
Introduction to the application of statistical methods and research design to a range of practice and research problems in the health sciences.
Prereq: College algebra.

AHPR 377/378/379 Special Topics 1/2/3 hrs
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.
Prereq: Department permission.

AHPR 401 Legal Issues in Health Care 3 hrs
This is a survey of the laws that govern the health care system. Litigation, malpractice, contract, regulatory, health care personnel, and the use of human subjects in medical research are among the topics discussed.

Clinical Laboratory Sciences Courses

CLSC 177/178/179 Special Topics 1/2/3 hrs
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.
Prereq: Department permission.

CLSC 200 Clinical Laboratory Techniques 3 hrs
Basic skills necessary to function in a clinical laboratory, e.g., phlebotomy, use of the microscope, specimen collection, and preparation, pipetting and laboratory safety.

CLSC 201 Phlebotomy Techniques 3 hrs
Phlebotomy Techniques is presented in a lecture-laboratory format. The course is designed to present the theory of blood collection and the practical techniques for venipuncture and skin puncture. Topics included in the course will cover the phlebotomist's role, professionalism and ethics, laboratory and hospital organization, specimen collection techniques, various blood drawing equipment, patient interaction, and some medical and laboratory terminology.
Prereq/coreq: AHPR 200 or department permission.

CLSC 202 Clinical Phlebotomy Practicum 2 hrs
The Clinical Phlebotomy Practicum is the second course in a two-course sequence designed to prepare students for entry-level positions as phlebotomists. The practicum will generally consist of 40 hours of training at an affiliated institution. Graded on a credit/no credit basis.
Prereq: Permission of instructor and CLSC 201.

CLSC 277/278/279 Special Topics 1/2/3 hrs
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.
Prereq: Department permission.

CLSC 300 Molecular Diagnostics 3 hrs
This course covers molecular diagnostic techniques in the clinical laboratory. Topics will include laboratory diagnosis of infectious and genetic diseases through cytogenetic, molecular cytogenetic and DNA molecular technology.
CLSC 307 Urinalysis, Body Fluids, and Hemostasis 3 hrs
Lecture and laboratory covering urines, body fluids and hemostasis. Specimen collection and handling, physical examination, chemical testing, and microscopic evaluation of urines and body fluids; evaluation of hemostasis testing and hemostasis theory.
Prereq: CHEM 270 and CHEM 271.

CLSC 335 Clinical Immunology 4 hrs
Lecture and laboratory presenting theory, basic principles, and practical experience in clinical immunology. The correlation of basic principles to human disease state.
Prereq: CLSC 200 or permission of instructor.

CLSC 377/378/379 Special Topics 1/2/3 hrs
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.
Prereq: Department permission.

CLSC 387 Cooperative Education in Clinical Laboratory Science 3 hrs
Three or four months of full-time employment at a clinical, research or industrial laboratory or related area chosen for providing a practical educational experience in clinical laboratory sciences. The program consists of two work experiences alternating with full-time attendance at the University. Offered on a graded or credit/no credit basis.
Prereq: CHEM 270, 271; permission of program director.

CLSC 401 Laboratory Management/Education/Quality Assurance 3 hrs
Basic management skills for laboratory personnel and laboratory personnel practices, equipment and reagent purchase, and laboratory information systems including computer applications, laboratory statistics, and evaluation of methods are covered in this lecture course.
Prereq: MATH 170 or equivalent.

CLSC 402 Applications of Clinical Chemistry to Pathophysiology 3 hrs
This lecture course covers the relationship of clinical chemistry to diagnosis, prognosis, and treatment of disease. Focus will be on testing procedures, instrumentation, and controlling the functions in order to provide correct information to the medical staff.
Prereq: CHEM 451 or permission of instructor.

CLSC 405 Cytotechnology Clinical Internship 14 hrs
Microscopic study of cellular alterations indicative of cancer and precancerous conditions; bacterial, viral and parasitic infections, and hormonal abnormalities; cytogenetics; and a research project.
Prereq: Program approval.

CLSC 406 Cytotechnology Clinical Internship 14 hrs
Continuation of CLSC 405.
Prereq: Program approval.

CLSC 407 Hematology 4 hrs
This lecture and laboratory course covers the theory and application of hematological test procedures, interpretation of results, problem solving, and correlation of laboratory findings with disease states. Not open to those with credit in BIOL 407.
Prereq: CLSC 200 or department permission.

CLSC 410 Cytogenetics, Clinical Internship I 14 hrs
CLSC 410 and CLSC 411 Cytogenetics clinical rotatations I and II will be used for the clinical practice for the cytogenetics track in the CLS program. The student will set up tissue cultures, harvest cells, prepare slides for analysis, and prepare analysis for a broad spectrum of genetic abnormalities. This will include photograph and computer-assisted chromosome analysis. Procedures will include chronic villus, fragile X and sister chromatid exchanges.
Prereq: Program approval.

CLSC 411 Cytogenetics, Clinical Internship II 14 hrs
Continuation of CLSC 410.
Prereq: Program approval.

CLSC 412 Clinical Laboratory 14 hrs
Individual Clinical Laboratory practicum experience. Experiences will be in the specialty areas of the clinical laboratory including, but not limited to molecular diagnosis.
Prereq: Department permission

CLSC 416 Basic Histotechnique and Histochemical Staining Methods 12 hrs
Didactic and practicum experience in preparing histologic sections for light microscopy, including the study of more than 50 different histologic staining methods and their specific applications.
Prereq: Program approval.

CLSC 417 Basic Electron Microscopy 8 hrs
Didactic and practicum experience in basic biological electron microscopy. Emphasis is on the electron microscope as a medical diagnostic tool.
Prereq: Program approval.

CLSC 418 Immunohisto-Cytchemistry 4 hrs
A course designed to teach basic and advanced procedures of fluorescent and enzyme-labeled antibody techniques. The course includes the preparation of tissues, staining with labeled antibodies, and the use of fluorescence microscopes in clinical medicine and research.
Prereq: Program approval.

CLSC 419 Internship Special Histotechnology Techniques 4 hrs
A course designed to present didactic and practicum experience in molecular pathology, including in-situ hybridization and DNA analysis. Pathogenesis will be presented with emphasis on preparing karyotypes and chromosome identification. A research project will be required on a related topic, then formalized and presented as a lecture. Management and education methodologies will be presented.
Prereq: Program approval.

CLSC 432 Clinical Microbiology 3 hrs
Course covers mechanisms of pathogenesis associated with specific bacterial, viral, fungal, and parasitic etiological agents of human disease.
Prereq: CLSC 335 or permission of the instructor.

CLSC 433 Clinical Microbiology Laboratory 2 hrs
Laboratory will cover methods of detection, isolation, enumeration, and identification of human pathogenic microorganisms encountered in the clinical microbiology laboratory.
Prereq: CLSC 333 or permission of the instructor. Coreq: CLSC 432.

CLSC 434 Advanced Immunohematology 3 hrs
Principles and procedures used in the blood bank. The laboratory is designed to simulate problem situations in the clinical laboratory.
Prereq: CLSC 307 and CLSC 335.

CLSC 440 Hematology/Coagulation Practicum 5 hrs
An intensive, hands-on clinical experience in routine hematology, coagulation, and special techniques at an advanced level.
Prereq: Acceptance into clinical track.

CLSC 452 Clinical Immunology/Immunohematology Practicum 5 hrs
An intensive, hands-on clinical experience at an advanced level of instruction in blood banking, immunology and serology.
Prereq: Acceptance into clinical track.

CLSC 454 Clinical Chemistry Practicum 5 hrs
An intensive, hands-on clinical experience at an advanced level of instruction in automated chemistry, radioimmunoassay, electrophoresis and toxicology.
Prereq: Acceptance into clinical track.
CLSC 455 Clinical Chemistry Laboratory 2 hrs
This laboratory course includes theory, instrumentation, and current procedures used in clinical chemistry laboratories. Analysis will be done on clinical specimens, and a clinical chemistry quality-control program will be integrated throughout the semester.
Prereq or coreq: CHEM 281.

CLSC 456 Clinical Microbiology Practicum 5 hrs
An intensive, hands-on clinical experience at an advanced level of instruction in clinical microbiology.
Prereq: Acceptance into clinical track.

CLSC 457 Clinical Methods Practicum 1 hr
This one-week, intensive course includes an orientation to hospitals training students, a one-day experience at the American Red Cross, and a combined urinalysis/phlebotomy experience at the hospital affiliates.
Prereq: Acceptance into clinical track.

CLSC 459 Clinical Microbiology Practicum II 3 hrs
This is an intensive introductory lecture and laboratory course highlighting medically important fungi, disease states, and laboratory methods of isolation and identification. Offered on a credit/no credit basis.
Prereq: Acceptance into clinical track or permission of instructor.

CLSC 477/478/479 Special Topics 1/2/3 hrs
Advanced level courses covering specific topics in clinical laboratory sciences not discussed in other clinical laboratory sciences courses.
Prereq: Permission of instructor.

CLSC 487 Cooperative Education in Clinical Laboratory Science 3 hrs
Three to four months of full-time employment at a clinical, research or industrial laboratory or related area chosen for providing a practical educational experience in clinical laboratory sciences. The program consists of two work experiences alternating with full-time attendance at the University. Offered on a credit/no credit basis.
Prereq: CLSC 387, permission of program director.

CLSC 497/498/499 Independent Study 1/2/3 hrs
Independent, original endeavors involving library and/or laboratory work under the guidance of a clinical laboratory program faculty member or clinical associate faculty member.
Prereq: Permission of the instructor.

Health Administration Courses

HLAD 177/178/179 Special Topics 1/2/3 hrs
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.
Prereq: Department permission.

HLAD 277/278/279 Special Topics 1/2/3 hrs
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.
Prereq: Department permission.

HLAD 287 Cooperative Education in Health Education 3 hrs
Employment for pay in a work setting chosen to provide practical experience related to health administration. The cooperative education sequence consists of two work experiences (HLAD 287 and HLAD 387) alternating with full-time attendance at the University.
Prereq: Sophomore standing and health administration major.

HLAD 300 Health Care Issues 2 hrs
This survey of the organization, traditions, professional stratification, and current issues of the U.S. health care system is designed to introduce the non-health administration major to the field of managing and administering health care services in hospitals, public health systems, nursing homes and ambulatory settings.

HLAD 305 The U.S. Health Care System 3 hrs
A survey of important issues facing the health field. The U.S. health care system and the relationship between components; the changing nature of the health field and implications for the future (encouraged in sophomore year or early junior year).

HLAD 310 Administration of Health Care Organizations 3 hrs
Analysis of modern health care organizations with emphasis on management structure, boards of trustees, administration, physicians, and others. Delivery of institutional patient care, role of professionals and other personnel, and departmental interrelatedness.
Prereq: HLAD 300 or HLAD 305.

HLAD 311 Management of Health Services 3 hrs
A continuation of HLAD 310, emphasizing quantitative methods in program implementation, control and evaluation. The administrative role in financial control, the legal aspects of control, and the control of human resources.
Prereq: HLAD 310.

HLAD 377/378/379 Special Topics 1/2/3 hrs
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.
Prereq: Department permission.

HLAD 387 Cooperative Education in Health Education 3 hrs
Employment for pay in a work setting chosen to provide practical experience related to health administration. The cooperative education sequence consists of two work experiences (HLAD 287 and HLAD 387) alternating with full-time attendance at the University.
Prereq: Department permission.

HLAD 416 Health Planning 3 hrs
This course examines in detail the essence of health planning as practiced in the health care industry. Topics include the history of health planning, planning theory and conceptual foundations, public sector planning and policy-making, private sector planning and health planning methods. Special emphasis is placed on health planning as an ongoing process that should be developed by health care organizations in order to be successful.
Prereq: HLAD 310.

HLAD 417 Health Regulation 3 hrs
This course will provide an overview of health care regulation from the perspective of providers, the government regulator and the general citizenry. Topics of discussion will include licensing and private accreditation, the regulation relating to cost containment, alternative delivery systems, health care reform, rate regulation and health planning.
Prereq: HLAD 310, HLAD 311, and one course in law (A/PR 401, LAW 203, or PLSC 301).

HLAD 420 Financial Management of Health Institutions 3 hrs
The application of generic concepts and tools to the health field.
Prereq: HLAD 310 and ACC 240.

HLAD 423 Managed Care 3 hrs
This course will provide an overview of the managed-care industry. It will discuss the origins of managed care, the mechanics of managed care, and the effects of managed care across the various constituencies involved (purchaser, provider and patient). The role of managed care in the area of health reform will also be treated in some detail.
Prereq: HLAD 420.

HLAD 425 Decision Making for Health Administrators 3 hrs
The integration of many knowledge areas into health administration. A capstone course utilizing case studies, role playing, simulation and games.
Prereq: HLAD 420.
Occupational Therapy Courses

OCTH 177/178/179 Special Topics 1/2/3 hrs
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied. 
Prereq: Department permission.

OCTH 200 Orientation to Occupational Therapy 2 hrs
An overview of roles and functions of occupational therapists in a variety of settings. Career information is explored including helping skills, comparison to other fields, salaries, outlook, and application process.

OCTH 277/278/279 Special Topics 1/2/3 hrs
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied. 
Prereq: Department permission.

OCTH 287 Cooperative Education in Occupational Therapy 3 hrs
A two-course sequence that provides a work position designed to offer experience related to occupational therapy while the student receives academic credit and financial support. Available to students pursuing the profession of occupational therapy at the freshman, sophomore or junior levels. Consists of either full-time work experience alternating with full-time attendance at the University, or a combination of part-time work and academic courses. Cooperative education does not substitute for occupational therapy Fieldwork I or II.
Prereq: Approval of the cooperative education office and program permission.

OCTH 300 Introduction to Occupational Therapy 3 hrs
OCTH 300 is a foundation course for the advanced professional courses in the OT curriculum. Course content includes an introduction to the concept of occupation, the ecological philosophy of the EMU-OT curriculum, values (professional and personal), uniform terminology in OT practice, context, therapeutic use of self, brief history of the OT profession, roles of OTs, code of ethics, professional associations and publications, skill development in transfers, disease-control techniques and use of the Canadian Performance Measure, and professional writing. 
Prereq: Admission to the program. Coreq.: ZOOL 317.

OCTH 302 Occupational Activities I 3 hrs
The theory, analysis, and application of activities used in occupational therapy. 
Coreq: OCTH 300.

OCTH 303 Conditions I 3 hrs
Health and illness, and select conditions that affect occupational performance and require OT intervention. 
Prereq: For OT majors: OCTH 300, ZOOL 317, and ZOOL 326. For non-OT majors: department permission. Prereq or coreq: ZOOL 417

OCTH 304 Occupational Activities II 3 hrs
Analysis of sensory motor function and application of specific tools to evaluate performance. 
Prereq: OCTH 303, OCTH 308, OT majors only.

OCTH 308 Programming I 5 hrs
Theory and application of occupational therapy in working with consumers of mental health services. Includes methods of evaluation and development of intervention plans for a range of service delivery models. 
Prereq: OCTH 300 and OCTH 302. Coreq: OCTH 303 and ZOOL 417

OCTH 377/378/379 Special Topics 1/2/3 hrs
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied. 
Prereq: Department permission.

OCTH 387 Cooperative Education in Occupational Therapy 3 hrs
A two-course sequence that provides a work position designed to offer experience related to occupational therapy while the student receives academic credit and financial support. Available to students pursuing the profession of occupational therapy at the freshman, sophomore or junior levels. Consists of either full-time work experience alternating with full-time attendance at the University, or a combination of part-time work and academic courses. Cooperative education does not substitute for occupational therapy Fieldwork I or II.
Prereq: OCTH 287.

OCTH 400 The OT Manager and Consultant 3 hrs
The issues covered in HLD 300 as they pertain to occupational therapy. 
Prereq: OCTH 304, OCTH 403, OCTH 418, and OCTH 421. Coreq: HLD 300.

OCTH 403 Conditions II 3 hrs
Conditions that interrupt development and performance in later childhood and adolescence, and necessitate intervention. 
Prereq: For OT majors: OCTH 303, OCTH 308. For non-OT majors: department permission.

OCTH 418 Programming II 5 hrs
Methods of evaluating physical function across the life span. Results of evaluations are used to develop program plans for those with physical dysfunction. 
Prereq: OCTH 303 and OCTH 308. Coreq: OCTH 304 and OCTH 403

OCTH 419 Programming III 3 hrs
The rationale and methods of evaluating the developmental status of the young child in relation to the performance of life tasks. Includes methods of translating the evaluation data into program plans appropriate for the young child. 
Prereq: OCTH 418.

OCTH 420 Level I Fieldwork 3 hrs
Exploring the role of an occupational therapist in a clinical setting. 
Prereq: OCTH 300 and OCTH 302

OCTH 421 Level I Fieldwork 3 hrs
Exploring the role of an occupational therapist in a nontraditional clinical setting. 
Prereq: OCTH 420. Coreq: OCTH 403 and OCTH 418. OT majors only.

OCTH 425 Critical Thinking in Occupational Therapy 3 hrs
Prereq: OCTH 403, OCTH 418, OCTH 421, OCTH 304.

OCTH 477/478/479/480 Special Topics 1/2/3/4 hrs
Experimental courses or special topics in occupational therapy may be offered. 
Prereq: Department permission.
OCTH 488/489 OT Fieldwork (full-time) 6 hrs each
A full-time, three-month experience in a select health services agency, in which the student will gain in-depth experience in evaluation and programming for occupational therapy intervention. Credit/no-credit.
Prereq: Department permission; completion of all courses in major.

OCTH 490 Fieldwork (full-time elective) 6 hrs
A full-time work experience with special populations, or in special settings other than those completed in the required placements. Credit/no-credit.
Prereq: OCTH 488 and OCTH 489; department permission.

OCTH 497/498/499 Independent Study 1/2/3 hrs
Independent work following an approved plan to develop knowledge in specialized areas.
Prereq: Department permission.

Human, Environmental and Consumer Resources

Departmental Administration
George Liepa
Department Head
210 Roosevelt Hall
734.487.1217
E-mail: george.liepa@emich.edu

The Department of Human, Environmental and Consumer Resources prepares students for professional roles in dietetics, apparel, textiles and merchandising, hotel and restaurant management, and interior design. Emphasis is placed on improving the quality of life for individuals. Career opportunities are available in private and public institutions, in educational systems, in businesses and industries, and with federal, state, and local governmental agencies.

The dietetics program is accredited by the Commission on Accreditation for Dietetics Education (CADE) of the American Dietetic Association. The interior design program is accredited by the Foundation for Interior Design Education Research (FIDER).

The apparel, textiles and merchandising curriculum offers practical career-oriented knowledge and skills as well as theoretical foundations of marketing fashion apparel and accessories. A minor in art, communication, journalism, management, marketing or theatre is required.

General studies ........................................................................................................ 49 hours
General education requirements ................................................................. 47
Physical education/graduation requirement ........................................ 2

Major in apparel, textile and merchandising: ........................................ 48 hours
Required courses .................................................................................................. 21
ATM 145 Introduction to Apparel and Textile Merchandising .......... 3
ATM 215 Introductory Textiles .............................................................. 3
ATM 255 Apparel Analysis .............................................................. 3
ATM 345 Merchandise Planning and Control ..................................... 3
ATM 355 Application of Merchandising Practices ......................... 3
ATM 437 Professional Seminar .................................................. 3
ATM 497 Field Experience .......................................................... 3

Elective courses ...................................................................................................... 24
24 hours from the following:
ATM 105 Integrated Arts (3)
ATM 116 Apparel Studio (3)
ATM 135 Cultural Study of Dress (3)
ATM 210 Display Technques (2)
ATM 265 Merchandising of Interior Furnishings (3)
ATM 302 Fashion Marketing Techniques (3)
ATM 380 Fashion of the Haute Couture (3)
ATM 390 Visual Merchandising (3)
ATM 392 Pattern Design (3)
ATM 404 Advanced Textiles (3)
ATM 439 Fashion Markets (3)
ATM 460 Tailoring (3)

Minor .......................................................................................................................... 21 hours
Select a minor from the following:

art
communication
journalism
management
marketing
theatre

Elective courses ........................................................................................................ 9 hours
Total ........................................................................................................................... 124 hours

NOTE:
These courses satisfy both general education requirements and requirements of the major. In order to avoid taking excess hours, students are advised to take these courses, or approved substitutes from another institution, as part of the general education requirements.

Dietetics Major
ISIS major code: HCD3

Advising
Please contact the following person for advising and additional information:
Judi Brookman, R.D.
Program Coordinator
206 Roosevelt Hall
734.487.7962
E-mail: judi.brookman@emich.edu

This specialized educational program, accredited by the Commission on Accreditation for Dietetics Education of the American Dietetic Association, integrates academic study with professional practice experience in a coordinated program in dietetics. Upon completion of the bachelor of science degree in dietetics, students qualify for membership in the American Dietetic Association and/or are eligible to take the Credentialing Examination for Registered Dietitians. Excellent career opportunities for dietitians are available in hospitals and other health care facilities; in community agencies; in industrial, university and school food service programs; in business; in teaching; in research; or in private practice.
This is a second admissions program that begins in fall of the junior year. Therefore, admission to the University is not a guarantee of entry into the dietetics program. Students submit program applications by January 15 of their sophomore year for entrance into the professional phase of the program the following fall semester.

The applicant must meet the following requirements to be considered for the professional phase of the program:

1. Junior standing achieved by completing 55 or more credit hours or equivalent.
2. Minimum grade point average of 2.5.
3. Satisfactory completion ("C" grade or above) of the following courses at time of application into the program: DTC 202 Principles of Human Nutrition, DTC 301 Orientation to Dietetics, BIOL 105 Introductory Biology for Non-majors, CHEM 121-CHEM 122 General Chemistry I and lab, SOCL 105 Introductory Sociology, SOCL 250 Social Statistics I (satisfies general education requirement I.4), ENGL 121 English Composition (satisfies general education requirement I.1), CTAS 121 Fundamentals of Speech (satisfies general education requirement I.2), IHHS 226 Computers for Health and Human Services (satisfies general education requirement I.5) (or equivalent substitute); and CHEM 270 Survey of Organic Chemistry.
4. DTC 211 Experimental Foods and CHEM 351 Survey of Biochemistry must be completed before entering the program in the fall.

Application forms that describe the requirements in more detail may be obtained from the coordinator of the dietetics program. The availability of clinical facilities limits the number of students admitted to each class. Therefore, a screening procedure is used to select the most qualified students for the available positions in the program. Academic status is a primary consideration in this screening procedure.

Students accepted into the dietetics program who desire to substitute courses taken at other colleges and/or universities for the 300- and 400-level dietetics courses are accepted at the discretion of the program faculty. A theoretical or practical examination may be required. Proven prior learning may be accepted with alternative activities assigned in substitution.

Criteria for continuation in the professional phase of the program are as follows:

1. Students receive a "C" grade or better in any required course in science and major courses after being admitted to the program.
2. A letter grade of "D," "D+," "D," or "D-" in any required course automatically results in student status. Students receiving letter grades of "D," "D+," "D," or "D-" must retake the appropriate course.
3. Opportunity to continue in the dietetics program is contingent upon:
   - Retaking the dietetics science or management courses in which a letter grade of "D" was earned and receiving a final grade of at least a "C";
   - Retaking the dietetics science or management courses in which a letter grade of "D-" was earned and receiving a final grade of at least a "C-";
   - AND readmission into the dietetics program; based on availability of an open position.
4. In preparing to assume professional careers in dietetics, students are expected to assume responsibility for their learning, to support the ethics and standards of practice of their profession, and to value honesty in the fulfillment of scholarly and professional endeavors. The department reserves the right to retain only those students who, in the judgment of the faculty, satisfy the requirements of scholarship, practice competence, and personal integrity suitable to dietetics.
Hotel and Restaurant Management Major

**ISIS major code:** HC07

Hotel and restaurant management provides an interdisciplinary program that integrates principles of food and lodging management with the physical sciences, social sciences, and business. A minor in management is required.

### Interior Design Major

**ISIS major code:** HC08

#### Advising

Please contact the following person for advising and addition information:

- **Keith Fineberg**
- **208 Roosevelt Hall**
- **734.487.5634**
- **E-mail: keith.fineberg@emich.edu**

The interior design curriculum, which is interdisciplinary in nature, prepares students to become professional interior designers. The integrated major includes courses in fine arts, management, marketing, construction, and textiles, in addition to the courses in interior design. Creative problem solving in the area of human-environment relationships is emphasized. The focus of the program is
on the theory, processes and skills necessary for graduates of the program to reach the highest levels of professional achievement. The interior design program is accredited by the Foundation for Interior Design Education Research (FIDER).

In addition to meeting general education requirements, all students on this curriculum must complete all other courses specified. Students completing this curriculum have met the major and minor requirements for a degree. The Interior Design student must receive a grade of "C-" or better in all prerequisite courses. No outside minor is required.

Before students may enter studio courses at the 300 level or above in the interior design major, all of the following standards must be met:

1. The student must achieve a GPA of 2.70 or above as calculated from the grades in the following courses: IDE 110 Interior Design Studio I, IDE 111 Human Factors and Special Needs, IDE 120 Interior Design Studio II, IDE 121 Interior Design Materials and Components, FA 123 Two-Dimensional Design, FA 123 Drawing I, #COSC 136 Computers for the Non-Specialist (satisfies general education requirement I.5), one course in English composition, one course in Physical Science, #PSY 101 General Psychology (satisfies general education requirement II.2 or II.3) or #PSY 102 General Psychology (satisfies general education requirement II.2 or II.3), CNST 201 Construction Systems, IDE 210 Interior Design Studio III, IDE 211 Lighting for Interiors, IDE 220 Interior Design Studio IV, ATM 235 Introductory Textiles, IDE 221 Environmental Systems for Interiors, FA 231 Three-Dimensional Design.

2. The student must receive a "C-" grade or better in each of the courses listed above in 1.

**NOTE:**
Specifically, interior design studio courses that are 300 level and above include: IDE 310 Interior Design Studio V; Residential, IDE 312 Computers for Interior Design, IDE 320 Interior Design Studio VI; Contract, IDE 410 Interior Design Studio VII; Contract, and IDE 420 Interior Design Studio VIII; Contract.

**Apparel, Textiles and Merchandising Courses**

**ATM 105 Integrated Arts**

The application of design elements and principles to human and contemporary environmental needs. **Laboratory required.**

**ATM 118 Apparel Studio**

Apparel construction using a commercial pattern. Emphasis is placed on fabric selection, fit and techniques.

**ATM 119 Early American Textiles**

Survey of textiles used in early history of North America; laboratory experiences allow students to develop skills in spinning wool and flax, traditional weaving, and natural dyeing.

**ATM 135 Cultural Study of Dress**

A study of the social, psychological and physical aspects of dress as related to culture, society and the individual.

**ATM 145 Introduction to Apparel and Textile Merchandising**

Analysis of the apparel and textile industry from the designing to distribution through major domestic and foreign markets. Emphasis is placed on fashion trends and cycles, history of merchandising, and careers.

**ATM 177/178/179 Special Topics**

An experimental course designed to investigate specific topics of concern in specialization areas. **Prereq: Department permission.**

**ATM 210 Display Techniques**

The techniques, resources and evaluation of effective displays for use in educational, commercial and informational exhibits. Participation experiences in all phases of display work. **Prereq: ATM 101.**

**ATM 235 Introductory Textiles**

The analytical study of fibers, yarns, fabrics and finishes with emphasis on the performance of apparel and interiors fabrics. **Laboratory required.**

**ATM 255 Apparel Analysis**

A study of the components of apparel at the various price and quality levels. Emphasis placed on standard terminology necessary to describe/evaluate apparel. **Laboratory required.** **Prereq: ATM 135.**

**ATM 265 Merchandising of Interior Furnishings**

Study of fashion marketing practices, buying techniques, and promotional activities as they relate to home furnishings industries. **Field trips required.**

**ATM 277/278/279 Special Topics**

An experimental course designed to investigate specific topics of concern in specialization areas. **Prereq: Department permission.**

**ATM 302 Fashion Manufacturing Techniques**

Experiences, and analysis of apparel and textile product production. Includes selection of commercial equipment and textiles. **Prereq: ATM 118.**

**ATM 345 Merchandise Planning and Control**

Applications of merchandising mathematical concepts to buying functions and activities. Major focus on problem solving. **Field trips required.** **Prereq: ATM 145.**

**ATM 355 Application of Merchandising Practices**

Adaptation of apparel and textile merchandising concepts (ATM 345) to computer systems. Development of processing tasks using specific merchandising information, utilizing the computer for simulation problem solving. **Prereq: ATM 345.**

**ATM 377/378/379 Special Topics**

An experimental course designed to investigate specific topics of concern in specialization areas. **Prereq: Department permission.**

**ATM 380 Fashion of the Haute Couture**

A detailed study of 20th-century American and European fashion and its relationship to identifiable costumes of the past with emphasis on haute couture. **Field trips required.**

**ATM 390 Visual Merchandising**

Analysis of visual media and techniques used in presentation of merchandise in a variety of settings. Laboratory participation integrates theory and practice. **Prereq: ATM 165.**

**ATM 392 Pattern Design**

Principles of pattern making, and special problems in clothing construction and design. **Prereq: ATM 118 or equivalent.**

**ATM 404 Advanced Textiles**

Recent technological developments in textiles; textile testing techniques. **Prereq: ATM 215 and one laboratory science course.**

**ATM 437 Professional Seminar**

Exploration of professional aspects of merchandising. Emphasis on career preparation. Presentation of fashion related enterprises. Lectures by specialists. **Field trips required.** **Prereq: Senior standing, ATM 355.**

**ATM 439 Fashion Markets**

Comprehensive overview of the world fashion markets with emphasis on their development, operation and contribution; includes a trip to one fashion-related market. **Prereq: Department permission.**

**ATM 460 Tailoring**

Fundamental construction processes and special techniques applied to the construction of tailored garments; alterations and adaptations. **Prereq: ATM 118 or equivalent.**

**ATM 477/478/479 Special Topics**

An experimental course designed to investigate specific topics of concern in specialization areas. **Prereq: Department permission.**
**Dietetics Courses**

<td>DTC 481 Ambulatory Nutrition Care Experience</td>
<td>Supervised practice experiences in various ambulatory care settings. Open only to dietetics majors.</td>
<td>2 hrs</td>
<td>Supervised practice experiences in various ambulatory care settings. Open only to dietetics majors.</td>
<td>Coreq: DTC 482.</td>
</tr>
<tr>
<td>DTC 482 Ambulatory Nutrition Care</td>
<td>Aspects of nutrition care applied to ambulatory care settings including the workplace and long-term care facilities. Emphasis on marketing strategies, consultative practice areas, health care regulations, and payment mechanisms in nutrition care.</td>
<td>1 hr</td>
<td>Aspects of nutrition care applied to ambulatory care settings including the workplace and long-term care facilities. Emphasis on marketing strategies, consultative practice areas, health care regulations, and payment mechanisms in nutrition care.</td>
<td>Prereq: DTC 312 and DTC 384. Coreq: DTC 484.</td>
</tr>
<tr>
<td>DTC 483 Clinical Nutrition II Experience</td>
<td>Supervised practice experiences in the clinical nutrition professional environment. Open only to dietetics majors.</td>
<td>4 hrs</td>
<td>Supervised practice experiences in the clinical nutrition professional environment. Open only to dietetics majors.</td>
<td>Coreq: DTC 385.</td>
</tr>
<tr>
<td>DTC 484 Clinical Nutrition II</td>
<td>Development, implementation and evaluation of nutritional care plans for individuals requiring modified diets for disease intervention. Open only to dietetics students.</td>
<td>1 hr</td>
<td>Development, implementation and evaluation of nutritional care plans for individuals requiring modified diets for disease intervention. Open only to dietetics students.</td>
<td>Prereq: DTC 384.</td>
</tr>
</tbody>
</table>
DTC 485 Clinical Nutrition III 5 hrs
Formulation, implementation and evaluation of nutritional care plans for individuals with abnormal nutrient metabolism. Supervised practice experiences. Open only to dietetics students.
Prereq: DTC 312 and DTC 431.

DTC 492 Food Systems Management II Experience 4 hrs
Principles of food production procedures emphasizing financial and quality controls in institutional food-service systems. Supervised practice experiences. Open only to dietetics majors.
Prereq: DTC 393, DTC 394. Coreq: DTC 494.

DTC 494 Food Systems Management II 1 hr
Application of supervisory processes to food service systems with emphasis on cost and quality control in food production and labor management. Open only to dietetics students.
Prereq: DTC 393, DTC 394, MGMT 384, and MICR 328.

DTC 495 Food Systems Management III 5 hrs
Administrative functions of food service departments such as assessing, planning, decision making, evaluating and training. Communication, stress control and behavior management. Supervised practice experiences. Open only to dietetics students.
Prereq: DTC 393 and DTC 394.

Human, Environmental and Consumer Resources Courses

HECR 177/178/179 Special Topics 1/2/3 hrs
An experimental course designed to investigate specific topics of concern in specialization areas.
Prereq: Department permission.

HECR 277/278/279/280 Special Topics 1/2/3/4 hrs
An experimental course designed to investigate specific topics of concern in specialization areas.
Prereq: Department permission.

HECR 287/288/289 Cooperative Education in HECR 1/2/3 hrs
Employment in an appropriate setting, chosen to provide supervised practical experience. Credit hours determined by program area and academic adviser. Offered on credit/no credit basis only.
Prereq: Approval of the cooperative education office and department permission.

HECR 379/387/379 Special Topics 1/2/3 hrs
An experimental course designed to investigate specific topics of concern in specialization areas.
Prereq: Department permission.

HECR 387/388/389 Cooperative Education in HECR 1/2/3 hrs
Employment in an appropriate setting, chosen to provide supervised practical experience. Credit hours determined by program area and academic adviser. Offered on credit/no credit basis only.
Prereq: Approval of the cooperative education office and department permission.

HECR 393 Food Systems Management I Experience 2 hrs
Application of basic components of an operating quantity food service facility. Supervised practice experiences. Open only to dietetics majors.
Prereq: DTC 211. Coreq: HECR 394.

HECR 394 Food Systems Management I 2 hrs
Introduction to food systems management with emphasis on sanitation, safety, equipment selection and operation, food purchasing, receiving and storage, and personnel management. Open only to dietetics majors.
Prereq: DTC 211, MGMT 386.

HECR 492 Food Systems Management II Experience 205 hrs
Principles of food production procedures emphasizing financial and quality controls in institutional food-service systems. Supervised practice experiences. Open only to dietetics majors.

HECR 494 Food Systems Management II 1 hr
Application of supervisory processes to food service systems with emphasis on cost and quality control in food production and labor management. Open only to dietetics students.
Prereq: HECR 393, HECR 394, MGMT 384, and MICR 328.

HECR 497/498/497/499 Special Topics 1/2/3/4 hrs
An experimental course designed to investigate specific topics of concern in specialization areas.
Prereq: Department permission.

HECR 497/498/499 Directed Study 1/2/3 hrs
Opportunity for qualified senior students to carry on an intensive study or project in their area of specialization.
Prereq: Department permission.

Hotel and Restaurant Management Courses

HRM 103 Introduction to the Hospitality Industry 2 hrs
Orientation to the lodging and food-service industry by tracing the industry's growth and development; reviewing the organization of lodging, food service, and tourism operations; and by focusing on industry opportunities and future trends.

HRM 177/178/179 Special Topics 1/2/3 hrs
An experimental course designed to investigate specific topics of concern in specialization areas.
Prereq: Department permission.

HRM 180 Food Production 3 hrs
Study of kitchen sanitation and safety, food preparation and storage. Includes menu design based on customer needs, and preparation of final buffet.
Prereq: CHEM 115 Chemistry.

HRM 204 Sanitation in the Hospitality Industry 1 hr
Management of basic sanitation in food-service and lodging facilities. Meets specifications required for National Institute for the Food Service Industry certification.

HRM 251 Meal Service Management 3 hrs
Theories, principles and skills for food and beverage service in institutional, commercial and resort properties. Supervisory techniques and training styles effective for food service.

HRM 277/278/279 Special Topics 1/2/3 hrs
An experimental course designed to investigate specific topics of concern in specialization areas.
Prereq: Department permission.

HRM 287/288/289 Cooperative Education in Hotel and Restaurant Management 1/2/3 hrs
Employment in an appropriate setting, chosen to provide supervised practical experience. Credit hours determined by program area and academic adviser. Offered on credit/no credit basis only.
Prereq: Approval of the cooperative education office and department permission.

HRM 368 Hospitality Information Systems 3 hrs
A systematic approach to front office procedures including record keeping, the reservation processes, collection procedures and customer relations.
Prereq: COSC 136 or IIHS 226.

<tr>
<td>IDE 211</td>
<td>Lighting for Interiors</td>
<td>3 hrs</td>
<td>Introduction to lighting design for interior environments with emphasis on lighting fundamentals, lighting design process and methods, and the physiological and psychological effects of light.</td>
</tr>
<tr>
<td>IDE 220</td>
<td>Interior Design Studio IV</td>
<td>4 hrs</td>
<td>Execution of design problems using design processes to integrate both physiological and socio-psychological user needs with the creative and functional design of interior environments. Emphasis on analysis, synthesis, creativity, and presentation of three-dimensional solutions to intermediate-level residential and contract design problems.</td>
</tr>
<tr>
<td>IDE 221</td>
<td>Environmental Systems for Interiors</td>
<td>2 hrs</td>
<td>Introduction to acoustics, noise control, climate control, plumbing and electrical systems in interiors. Emphasis on environmental systems principles necessary for the solution of interior design problems.</td>
</tr>
</tbody>
</table>
IDE 269 Housing for Consumers
3 hrs
Consumer housing as it relates to social, psychological, legislative and economic conditions for individuals and families in society.
Prereq: Sophomore standing.

IDE 277/278/279 Special Topics
1/2/3 hrs
An experimental course designed to investigate specific topics of concern in specialization areas.
Prereq: Department permission.

IDE 310 Interior Design Studio V: Residential
4 hrs
Application of the design process in solving advanced residential design problems focusing on physiological, socio-psychological, functional, and aesthetic elements and their relationship to user needs. Emphasis on medium-scale contract design problems.
Prereq: Meet criteria for enrollment in 300-level interior design studio courses. Department permission.

IDE 311 History of Interiors: Ancient-1800
2 hrs
Chronological survey of interior design from ancient times through the mid-19th century. Emphasis on design, function, construction and evolution of interior environments and the sociological, psychological and cultural factors that influenced historical interiors, furniture, accessories and ornamental design.
Prereq: Junior standing or department permission.

IDE 312 Computers for Interior Design
3 hrs
Introduction to the use of computers in interior design. Emphasis on computer-aided design.
Prereq: COSC 136. Meet criteria for enrollment in 300-level interior design studio courses. Department permission.

IDE 313 Space Planning and Specifications
3 hrs
Space planning and specification techniques for interiors. Emphasis on corporate standards for furniture and finishes, CSI specifications format, performance standards for interior finishes and materials, and the code search process.
Prereq: IDE 110 or CNST 228.

IDE 320 Interior Design Studio VI: Contract
4 hrs
Application of the design process to commercial design focusing on physiological, socio-psychological, functional, and aesthetic elements, and their relationship to user needs. Emphasis on medium-scale contract design problems.
Prereq: IDE 310, IDE 312. Prereq/Coreq: IDE 313.

IDE 321 History of Interiors: 1800-Present
2 hrs
Chronological survey of interior design from the mid-19th century through the present. Emphasis on design, function, construction and evolution of interiors and the sociological, psychological and cultural factors that influence interior environments.
Prereq: Junior standing or department permission.

IDE 364 Facility Management
3 hrs
An examination of principles for coordinating the physical workplace with the people and work of the organization. Integrates the principles of business administration, architecture, and the behavioral and engineering sciences.
Prereq: Two courses in major.

IDE 377/378/379 Special Topics
1/2/3 hrs
An experimental course designed to investigate specific topics of concern in specialization areas.
Prereq: Department permission.

IDE 410 Interior Design Studio VII: Contract
4 hrs
Application of the design process in solving advanced contract design problems in design specialization areas, including historic preservation, restoration and adaptive reuse. Emphasis on physiological, socio-psychological, functional, and aesthetic elements, and their relationship to user needs.
Prereq: A minimum grade of 1.7 in each of the following courses: IDE 311, IDE 320, IDE 331.

IDE 420 Interior Design Studio VIII: Contract
4 hrs
Application of the design process for the comprehensive solution of large scale, complex, contract design problems focusing on physiological, socio-psychological, functional, and aesthetic elements, and their relationship to user needs.
Prereq: A minimum grade of 1.7 in each of the following courses: MGMT 386, IDE 410.

IDE 421 Field Experience in Interior Design
2 hrs
Supervised work experience in the interior design field. Emphasis on professional competency, professional ethics and self-evaluation.
Prereq/Coreq: A minimum grade of 1.7 in IDE 320.

IDE 422 Professional Practice in Interior Design
3 hrs
Examination of business principles and practices as applied in the interior design field. Emphasis on marketing interior design services, managing interior design firms, and managing interior design projects.
Prereq: A minimum grade of 1.7 in each of the following: MKTG 360, MGMT 386.

IDE 469 Strategic Planning and Research for Facility Management
3 hrs
An introduction to strategic planning and research techniques in facility management with an emphasis on site and interior environment needs and evaluation.
Prereq: IDE 364.

IDE 477/478/479 Special Topics
1/2/3 hrs
An experimental course designed to investigate specific topics of concern in specialization areas.
Prereq: Department permission.

Nursing
www.emich.edu/nursing

Departmental Administration
Dr. Regina M. Williams, R.N., F.A.A.N.
Department Head
311 Marshall Building
734.487.2310
E-mail: regina.williams@emich.edu

Degrees Offered
Bachelor of Science in Nursing

Program of Study
Nursing

Admission to the University: indication of an intent to enter the nursing curriculum does not guarantee admission to the nursing program. Admission to the nursing program requires a separate application process.

Prospective students should request an application from the Admissions Office, 401 Pierce Hall; early in their freshman year. The application will specify exact requirements, deadline dates, and expected notification times.

Students are eligible for consideration for selection into the nursing program upon completion of the following prerequisite courses with a 2.0 ("C") or better: PSY 101 General Psychology (satisfies general education requirement II.2), or BIOL 101 General Biology (satisfies general education requirement II.3). CHEM 120 Fundamentals of Organic and Biochemistry, GENGL 121 English Composition (satisfies general education requirement II.3) or equivalent, and 203 Nutrition for Health Professionals.

ZOOL 201 Human Anatomy and Physiology I, ZOOL 202 Human
Anatomy and Physiology II, and EDPS 325 Life Span Human Growth and Development. Required prerequisite courses are subject to change.

Students should plan carefully for the demand on the professional nature of the nursing program and the extensive clinical hours required. This professional segment requires six sequential semesters of work. Students are discouraged from working more than 16 hours per week.

Because of the rapidly changing nature of the health care field, it is necessary that graduates have current professional nursing skills and knowledge in order to practice successfully. Therefore, the following policies have been established:

Once admitted to the EMU nursing program, students must complete all nursing (NURS) courses and MICR 328 Introductory Microbiology, with a grade of "C" or better within a period of six calendar years to be considered eligible for graduation. Nursing courses must be taken in the sequence specified by the Department of Nursing.

The University may give credit for nursing courses taken at another college/university; however, the department reserves the right to make the final decision on course substitution based on examination of course materials.

Academic and professional integrity

Students are expected to assume responsibility for their learning, to support the ethics and goals of their profession, and to value honesty in the fulfillment of scholarly and professional endeavors. Students must abide by the University code of conduct. Students who violate the University code of conduct will be subject to appropriate disciplinary action.

The Nursing Department recognizes its responsibilities to the public and the nursing profession. Students and faculty must promote academic and professional integrity and take action when a violation of such integrity occurs.

The department reserves the right to retain only those students who, in the judgment of the faculty, satisfy the requirements of scholarship, clinical competence, and personal integrity suitable for nursing.

Clinical learning experience

Fieldwork in nursing is provided through clinical learning experiences under the supervision of a faculty in a variety of health agencies such as ambulatory care settings, acute care settings, medical centers, community hospitals, public schools, nursing homes, county health agencies, and home health care agencies. Students are expected to provide their own transportation to clinical agencies.

Nursing students are assessed $15 per credit hour on all clinical laboratory courses. A portion of these funds goes to the department to help defray the cost of updating, replacing and maintaining equipment and supplies used in the classroom laboratories (skills lab, health assessment and computer labs).

Following receipt of the bachelor of science in nursing degree (BSN), students are eligible to sit for the national nursing licensure examination (NCLEX-RN).

This nursing program is approved by the State of Michigan Board of Nursing. It is accredited by the National League for Nursing Accrediting Commission, and has preliminary approval of the Commission on Collegiate Nursing Education.

Nurses who are licensed to practice nursing in the state of Michigan and wish to complete a bachelor of science in nursing degree are eligible for consideration for admission. Registered nurse students must apply to and be accepted by the University. In addition, registered nurse students must:
1. meet with RN/BSN coordinator
2. show transcripts demonstrating graduation from a diploma or associate degree program of nursing
3. show a current unrestricted license to practice nursing in Michigan. This license represents having passed the National Council Licensing Examination for which 30 credits of nursing course work will be awarded
4. show submission of a TOEFL score of 500/173 (paper/computer) or above for students for whom English is a second language. A MELAB test is also acceptable
5. show completion by students of prerequisite courses to enroll in any given course.

All information related to academic and professional integrity and clinical learning experiences also apply to RN/BSN completion students.

The Department of Nursing offers courses for registered nurses at off-campus sites. These sites are Jackson, Monroe and Livonia.

Nursing Major

ISIS major code: NU 01

This curriculum leads to the bachelor of science in nursing (B.S.N.) degree and requires the following courses to complete the 124 hours needed for graduation. Curriculum revisions may result in changes in nursing courses listed below, as well as prerequisite courses. Potential nursing students should consult with the Department of Nursing for the most accurate information.

Nursing Courses

NURS 177/178/179 Special Topics .............................................................. 1/2/3 hrs
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied. Prereq: Department permission.

NURS 207 Critical Thinking in Nursing .................................................. 1 hr
Provides exploration of critical thinking in the professional domain, and its application to the nursing process. Prereq: Admission to the nursing program. Coreq: NURS 208, NURS 209, NURS 220.

NURS 208 The Art and Science of Nursing I ........................................ 2 hrs

NURS 209 The Art and Science of Nursing I Laboratory ......................... 3 hrs
This companion course to NURS 207 and NURS 208 provides laboratory/clinical practice in nursing care of adults in predictable states of disharmony and harmony. Prereq: Admission to the nursing program. Coreq: NURS 207, NURS 208, NURS 220, MICR 325.

NURS 220 Health Assessment ................................................................. 3 hrs
Familiarizes students with health history-taking and physical examination techniques. Laboratory sessions provide opportunities for doing assessments under the guidance of the nursing faculty. Prereq: Admission to the nursing program. Coreq: NURS 207, NURS 208, NURS 220, MICR 325.

NURS 250 The Art and Science of Nursing II ........................................ 2 hrs
Continues the development of knowledge and skills basic to nursing care of adults in predictable states of disharmony and harmony. Prereq: NURS 207, NURS 208, NURS 209, NURS 220, Coreq: NURS 251, MICR 325, NURS 260, NURS 270.

NURS 251 The Art and Science of Nursing II Laboratory ....................... 3 hrs
Students apply the concepts learned in theory and laboratory in providing care to culturally diverse adult clients who are in predictable states of harmony and disharmony. Prereq: NURS 207, NURS 208, NURS 209, NURS 220, Coreq: NURS 251, MICR 325, NURS 260, NURS 270.

NURS 260 Pathophysiology ................................................................. 4 hrs
The dysfunctions created by major physical illnesses, theories of causation, and signs and symptoms of the more usual syndromes. Prereq: Admission to the nursing program/permission of the department.

NURS 270 Pharmacology ..................................................................... 3 hrs
The fundamental principles of pharmacology including the action of drug groups on the human body and how drugs are administered, metabolized and excreted. Prereq: Admission to the nursing program/permission of the department.

NURS 277/278/279 Special Topics .............................................................. 1/2/3 hrs
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied. Prereq: Department permission.

NURS 304 Nursing Care of Childbearing Families .................................. 2 hrs
Focuses on maternal-newborn nursing within a family-centered approach. The course encompasses the entire childbearing process, from preconception planning through pregnancy, birth and the postpartum period. Students use scientific knowledge base and select theories (e.g., family, nursing, systems, developmental, ethical and coping/stress/adaptation) to promote harmony within the context of the childbearing families in predictable and less-predictable health states with diverse populations. Prereq: Completion of sophomore-level nursing courses, MICR 325. Coreq: NURS 305, NURS 308.

NURS 305 Nursing Care of Childbearing Families Laboratory ............... 3 hrs
Focuses on the clinical application of maternal-newborn nursing theory and practice with selected maternity clients and their newborns. Clinical experiences will occur in prenatal, intrapartum and postpartum settings of community hospitals. Prereq: Completion of sophomore-level nursing courses, MICR 325. Coreq: NURS 304, NURS 308.

NURS 306 Nursing Care of Childbearing Families .................................. 2 hrs
Focuses on assisting students to learn nursing care for children and their families in predictable and less-predictable health phases of disharmony and harmony. Children and their families at different developmental ages, having al-
NURS 307 Nursing Care of Childbearing Families Laboratory 3 hrs
Focuses on the clinical application of nursing knowledge from NURS 306 to the care of children and their families in various clinical settings.
Prereq: Completion of sophomore-level nursing courses. Coreq: NURS 306, NURS 308.

NURS 308 A Theoretical Basis for Nursing Care of Childbearing Families, Childbearing Families, and Groups 1 hr
Focuses on students gaining an understanding of theories both in nursing and related disciplines in families and groups, and the impact of stress and illness for this population.
Prereq: Completion of sophomore-level nursing courses or departmental permission.

NURS 310 Concepts of Professional Practice 2 hrs
Explores the use of critical thinking, and the concepts upon which professional nursing is based. Various nursing theories are introduced and applied to the concepts of the individual, family, groups and community. Lecture: Two hours per week. RN/BSN students may register for this course prior to admission to the program.
Prereq: Completion of sophomore-level nursing courses or departmental permission.

NURS 330 Adult Health Nursing I 2 hrs
Focuses on caring for adult clients within families with predictable medical-surgical problems, both acute and chronic. The goal of the course is to provide a strong foundation of principles for the adult-health nursing care of clients from diverse populations with medical-surgical problems across the health care setting. Students will focus on the predictable phases of disharmony as well as concepts including cancer nursing, fluids and electrolytes, grieving, teaching/learning, stress and coping.

NURS 331 Adult Health Nursing I Laboratory 3 hrs
Clinical application of nursing knowledge from NURS 330 to the care of adult clients in a variety of health care settings.
Prereq: Completion of sophomore-level nursing courses. Coreq: NURS 308 and NURS 330.

NURS 340 Community Mental Health Nursing 1 hr
This course is designed to provide the conceptual basis for professional nursing practice regarding states of disharmony and reorganization in the psychiatric/mental health care of individuals, families, and groups in the community.

NURS 341 Community Mental Health Nursing 3 hrs
This course is designed to fulfill clinical requirements in community mental health nursing. Both the on-campus lab activities and the on-site clinical patient contacts offer direct experiences with diverse populations across the lifespan. Clinical placements are available in a variety of mental health settings located in the community.

NURS 350 Psychiatric/Mental Health Nursing 2 hrs
Designed to fulfill theory requirements in psychiatric/mental health nursing. Classroom content will cover the care of adults, children and adolescents experiencing states of disharmony and reorganization.
Prereq: Completion of sophomore-level nursing courses. Coreq: NURS 308.

NURS 350 Psychiatric/Mental Health Nursing Laboratory 3 hrs
Designed to fulfill clinical nursing requirements in psychiatric/mental health nursing. Clinical practice will offer direct experiences with diverse groups of children, adolescents and adults in states of disharmony and reorganization through placements in a variety of psychiatric/mental health clinical settings.
Prereq: Completion of sophomore-level nursing courses. Coreq: NURS 308.

NURS 372 Nursing Research 2 hrs
Analyzes existing research, and examines the potential for utilizing existing research to nursing practice. Theoretical nursing frameworks will be explored for their relevance to research and practice.
Prereq: Completion of sophomore-level nursing courses and departmental permission.

NURS 377/378/379 Special Topics 1/2/3 hrs
An exploration and study of topics not covered in other departmental offerings. Students may select more than once, provided different topics are studied.
Prereq: Department permission.

NURS 404 Adult Health Nursing II 2 hrs
Includes the primary, secondary and tertiary levels of prevention for the adult client with multiple complex alterations in health status. Students will provide for continuity of care across health settings. Students will focus on acute and chronic phases of disharmony as well as concepts including stress and coping, grieving and teaching/learning that relate to reorganization.
Prereq: Completion of junior-level nursing courses. Coreq: NURS 405.

NURS 405 Adult Health Nursing II Laboratory 3 hrs
Clinical application of nursing knowledge from NURS 404 to the care of adult clients in a variety of health care settings.
Prereq: Completion of junior-level nursing courses.

NURS 420 The Evolution of Professional Nursing 2 hrs
Explores the historical development of the nursing profession and current issues and trends affecting nursing and health care.
Prereq: Completion of junior-level nursing courses or departmental permission.

NURS 430 Health Care of Vulnerable Populations 2 hrs
Examines the health care needs of vulnerable populations.
Prereq: Completion of junior-level nursing courses, or departmental permission.

NURS 450 Community Health Nursing 2 hrs
Focuses on the community as client. Students will learn and apply concepts from the public health sciences to the assessment, diagnosis, planning and intervention related to community health problems. Community health problems will be examined incorporating epidemiological analysis, all levels of prevention, available as well as needed health and community resources, and the role of nursing in interdisciplinary health care. Specific focus will be given to the role of the environment and its subsystems on the health and well-being of individuals, families and communities. Efforts to prioritize health care needs and set health care goals, such as Healthy People 2000, will be examined.
Prereq: Completion of junior-level nursing courses.

NURS 451 Community Health Nursing Practice 3 hrs
The clinical course for community health nursing provides students with opportunities to apply community health nursing concepts with clients with individuals, families and aggregates. Care will be provided at all levels of prevention to persons across the life span. Care to individuals and families will be analyzed from a community or aggregate perspective.
Prereq: Completion of junior-level nursing courses.

NURS 460 Nursing Leadership and Management 2 hrs
Students will learn and apply leadership and management concepts and theories to patient care. The health care system as well as the internal and external influences on this system will be studied.
Prereq: Completion of junior-level nursing courses or departmental permission.
Experimental courses or special topics in nursing may be offered. 
Prereq: Department permission.

NURS 497/498/499 Independent Study
1/2/3 hrs
A student may work with a faculty member independently to pursue a topic of interest to the student. Independent study is a student-initiated project. 
Prereq: Department permission.

Social Work

Departmental Administration
Marilyn Wedenoja
Interim Department Head
317 Marshall Building
734.487.0393
E-mail: marilyn.wedenoja@emich.edu

The social work program offers students a generalist foundation of knowledge, values, and skills integral to entry level social work careers. It includes a fully accredited major in social work. The department also offers a master's in social work, for more information please consult the graduate catalog.

The department supports three student organizations, the Student Social Work Organization, a student chapter of the National Association of Black Social Workers and the TriPride Student Organization. Members of the student organizations sponsor social activities and community service projects, serve on faculty committees and sponsor an annual student conference. All social work students are encouraged to be involved in one or both organizations.

Degrees Offered
Bachelor of Science
Bachelor of Arts

Programs of Study
Social work (professional degree)

Minors
Gerontology
Social work

Admissions
As of fall 2001, all who wish to become majors in the Department of Social Work need to formally apply prior to taking their first 300-level social work class. Successful applicants will:
1. Complete a declaration of major form
2. Have a minimum 2.3 GPA
3. Have a post-high school minimum of forty hours volunteer, internship or work experience at a social welfare agency or organization that is documented by a reference letter from the supervisor of that experience.
4. Obtain a C or better in SWRK 251: Self Assessment and Development for Social Work

For those students who wish to enter the major and need to meet the volunteer requirement, it is preferable to enroll in SWRK 251: Self Assessment and Development for Social Work.

Those students who wish to transfer form an accredited B.S.W. Program need to meet with the EMU B.S.W. coordinator and complete a declaration of major form.

Field Experience
Field experience required is two semesters in field placement in a social agency designated by the social work faculty as a training agency for EMU students. This placement component is taken during students' senior year, either fall and winter terms or winter and spring-summer terms. Students will be in the field 16 hours per week, Tuesdays and Thursdays, for the semesters in the field placement cycle. Open only to social work majors.

Eligibility for field placement:
1. A 2.3 overall grade point average at the time of entering and during field placement (no probation).
2. At least a "C" in each required social work class.
3. Students must have completed all required social work courses through the 300 level before beginning field placement and must have senior standing. In addition, students must have completed EDPS 325 Life Span Human Growth and Development, and PSY 360 Abnormal Psychology prior to field placement.
4. Students must receive a grade of "C" or better in their first semester field placement and practice classes (SWRK 408 Social Work Practice I and SWRK 488 Field Experience I) to be eligible to continue in the second semester (SWRK 409 Social Work Practice II and SWRK 489 Field Experience II). Students who receive a grade of "D" in either semester of field placement (SWRK 488-SWRK 489 Field Experience I-II) must obtain special departmental permission to repeat the course.

5. A field placement application must be obtained from the social work office, completed by the student, and returned to the field placement coordinator by the date set by the field coordinator or by March at the latest if placement is desired fall/winter and by October for the following winter/spring/summer terms. Each student is required to attend an informational meeting at the announcement time in the semester their field application is due. The field placement coordinator will arrange all field placements. Students may not recruit their own field placement sites.

6. Students must take field placement in consecutive semesters (i.e., fall and winter or winter and spring/summer terms). Students enrolling for the first semester of field placement (SWRK 488 Field Experience I) must take SWRK 408 Social Work Practice I concurrently. Students enrolling for the second term of field placement (SWRK 489 Field Experience II) must take SWRK 409 Social Work Practice II concurrently.

7. Transportation: Agencies are located within a 60-mile radius of EMU. Students will need their own transportation. In a few cases, car pools can be arranged with participants sharing expenses. Students must have appropriate automobile insurance coverage.

8. Academic credit for life experience and previous work experience will not be granted in lieu of field placement.

9. Students in field placement must adhere to professional standards as set forth in the Code of Ethics of the National Association of Social Workers.

10. All students should obtain and read a copy of the department field placement policies.

Accreditation
Accreditation is by the Council on Social Work Education, the accrediting body for the baccalaureate and the master's degree social work curricula. Accreditation reflects a standard of high quality that the program meets. Students who graduate from an accredited undergraduate program may obtain advanced standing in some graduate schools of social work.

Honors Program in Social Work
Students with excellent academic records who are majoring in social work may apply to pursue the honors program in social work. Before pursuing the Social Work Honors Program, students must be admitted to and in good standing in the University Honors Program. The Social Work Honors Program consists of taking 12 honors course work in social work. For more information, contact either the Social Work Honors Program advisor or the University Honors Program.

Social Work Curriculum
ISIS major code: SW01

This curriculum leads to the bachelor of science or the bachelor of arts degree. Students completing the curriculum will have met the major and minor requirements for graduation; no outside minor is required. Specific courses required to complete the designated 124 hours leading to a degree in social work are indicated by an asterisk (*)

**NOTE:**

*These courses satisfy both general education requirements and requirements of the major. In order to avoid taking excess hours, students are advised to take these courses, or approved substitutes from another institution, as part of the general education requirements.*
Social Work Minor

This minor is compatible with the disciplines where the college graduate will be in a helping role with people.

Required courses .............................................. 6 hours

SWRK 120 Introduction to Social Work Services and Professional Roles ............................................ 3
SWRK 222 Social Welfare Policies and Services .......................................................... 3

Elective courses .............................................. 14-15 hours

14 to 15 hours selected from social work courses.

Total .......................................................... 20-21 hours

Social Work Courses

SWRK 120 Introduction to Social Work Services and Professional Roles ............................................. 3 hrs
An overview of the social work profession including its philosophy, values, professional roles, current trends, and models in varied practice arenas as criminal justice, mental health, child and family services, public welfare services, and medical and industrial settings.

SWRK 177/178/179 Special Topics .................................................. 11/2/3 hrs
Specialized topics integral to contemporary social work practice. Social work faculty members will select contemporary topics that are different from existing social work courses. Since topics change, a student may take the course more than once.

Prereq: SWRK 120.

SWRK 222 Social Welfare Policies and Services .......................................................... 3 hrs
A survey of welfare institutions and policies in their historical and modern contexts. American social welfare services as related to the economic, political and sociocultural conditions, and prevailing ideologies.

Prereq: SWRK 120.

SWRK 251 Self Assessment and Development for Social Work .......................................................... 1 hr
An experimental course helping students to self-assess their personal preparation for the social professions. Exercises will help students explore their own values, particularly with respect to culture, gender, and sexual orientation. Students will learn about the social work program sequence and requirements. Opportunities will be provided for learning about working in groups, being assertive, and developing skills for educational survival.

Coreq: SWRK 254.

SWRK 254 The Social Work Profession and Social Service Policies .......................................................... 4 hrs
This course is an overview of the development of the social work profession, its distinguishing features, including social work values and ethics, and the historical development of social welfare policies and programs. In addition, students will learn about social work roles and settings. This course is designed for students who intend to be social work majors. This course must be taken concurrently with SWRK 251. It is not open to students who have already completed SWRK 120 or SWRK 222.

SWRK 277/278/279 Special Topics .................................................. 11/2/3 hrs
Specialized topics integral to contemporary social work practice. Social work faculty members will select contemporary topics that are different from existing social work courses. Since topics change, a student may take the course more than once.

Prereq: Department permission.

SWRK 387 Cooperative Education in Social Work .......................................................... 3 hrs
Employment for pay in a work setting chosen to provide practical experience related to social work. The cooperative education sequence is alternating with full-time attendance at the University. Students who wish to substitute a cooperative education course for the practicum component of SWRK 388 must enroll in SWRK 388 concurrently with one of the cooperative courses. Cooperative education does not substitute for the field placement courses required of all social work majors.

Prereq: SWRK 120, sophomore standing, approval of the cooperative education office, and department permission.

SWRK 388 Preprofessional Practicum .......................................................... 3 hrs
The student is assigned to a human services agency or organization for the semester for four hours weekly. The agency, in agreement with the faculty instructor, provides social work learning experiences and social work supervision. A two-hour weekly seminar relates practical experience to theoretical knowledge. For students majoring in social work, students minoring in social work, and students pursuing related disciplines such as gerontology and criminal justice, who are interested in an introduction to practical aspects. Social work majors must take concurrently with SWRK 317.

Prereq: (SWRK 120 or SWRK 222) or (SWRK 254 and SWRK 251) and department permission.

SWRK 403 Practice Issues with Women .......................................................... 3 hrs
Builds upon and integrates various theoretical frameworks to provide a basis for social work practice with women. An important theme in the course is the exploration of personal attitudes and beliefs that affect social work practice with women.

Prereq: PSY 242
SWRK 405 Analysis and Change of Social Welfare Policies 3 hrs
Current social policy and its intended and unintended effects on client populations. Policy analysis and strategies and methods for policy change. Social work majors must enroll concurrently in SWRK 408 and SWRK 488.
Prereq: SWRK 120 and SWRK 222 or SWRK 251, SWRK 254, and either PLSC 112 or PLSC 202.

SWRK 408 Social Work Practice II 3 hrs
The generalist conceptual framework for social work practice. Practice values, models of assessment, and phases of planned sequential change. Must be taken concurrently with SWRK 406 and SWRK 488.
Prereq: Department permission. Coreq: SWRK 405 and SWRK 488.

SWRK 409 Social Work Practice III 3 hrs
A continuation of SWRK 408; examines in more depth a variety of social work practice models, intervention strategies, methods, roles, and skills. Must be taken concurrently with SWRK 489 Field Experience II.
Prereq: SWRK 408, SWRK 488 and department permission.

SWRK 413 Women and Aging 3 hrs
Designed to provide social work, women’s studies, and gerontology students with the skills and sensitivity to understand the issues, needs, and positive attributes of women as they grow older. Students will examine the lives of women in special groups, such as older minority women, caregivers, widows and institutionalized elderly women. Students will learn skills to provide effective services to older women in a variety of human service settings.
Prereq: Junior/senior or graduate standing.

SWRK 420 Working with Aging People 3 hrs
The role of the social worker with aged people. The delivery of social services to the aged with a focus on practice approaches and techniques unique to various social service settings.
Prereq: Department permission.

SWRK 431 Substance Abuse 3 hrs
Current approaches to the prevention and treatment of drug and alcohol abuse. Consideration of the physiological, psychological, and social impact of substance abuse on the individual, the family, and the community. The role of the social worker in prevention and treatment.
Prereq: SWRK 120, SWRK 222, or department permission.

SWRK 435 Group Work with Children and Families 3 hrs
Social group work theory and practice as a relevant way to work with children and families. Group process as it occurs in natural groups and the effect of this process on individual behavior. Techniques that can be built into the group to effect client change.
Prereq: Department permission.

SWRK 440 Issues in Mental Health Practice 3 hrs
Issues in mental health practice with emphasis on deinstitutionalization, community mental health, and the role of the entry-level social worker.
Prereq: SWRK 120, SWRK 222, or department permission.

SWRK 443 Assessment Issues in Domestic Violence 3 hrs
This course will explore violence in the home, focusing primarily on spouse or partner abuse and touching on elder abuse, sexual abuse, and child abuse and neglect. Students will learn how to make domestic violence social work assessments.
Prereq: (SWRK 120 and SWRK 222) or SWRK 254 and junior/senior, or graduate standing; or department permission.

SWRK 457 Separation, Loss, and Grief 1 hr
Separation, loss, and grief as integral aspects of the human experience. Practice issues and applications addressing the impact of loss, separation, and grief on client and societal systems.
Prereq: (SWRK 120 and SWRK 222) or SWRK 254 or department permission.

SWRK 460 The Law and Social Work with the Family 3 hrs
Social workers and lawyers frequently find themselves working together dealing with issues and problems involving individuals and families, such as cases of divorce, child abuse and neglect, child custody, delinquency and mental health. Legal and social work perspectives in terms of client rights, needs and professional goals. Social work practice in the family court arena.
Prereq: (SWRK 120 and SWRK 222) or SWRK 254.

SWRK 463 Social Work Practice with Legal Offenders 3 hrs
Professional roles and appropriate practice skills utilized by social workers and allied professionals in working with legal offenders.

SWRK 467 Crisis intervention 2 hrs
Systems in crisis including different types of crises, indications of a system in crisis and crisis intervention strategies.
Prereq: (SWRK 120 and SWRK 222) or SWRK 254.

SWRK 477/478/479 Special Topics 1/2/3 hrs
Specialized topics integral to contemporary social work practice. Social work faculty members will select contemporary topics that are different from existing social work courses. Since topics change, a student may take the course more than once.
Prereq: (SWRK 120 and SWRK 222) or SWRK 254 or department permission.

SWRK 488 Field Experience I 6 hrs
Field experience designed to meet the learning needs of students and the standards of professional social work education. Professional standards are fixed; however, learning needs of students may vary. The field placement agency, in consultation with the Social Work Department, provides learning experiences and supervision at the senior level. Open only to social work majors with senior standing and an overall GPA of 2.3 or better in social work courses. Student may not be on academic probation. Must be taken concurrently with SWRK 405 and SWRK 408.
Prereq: SWRK 317, SWRK 360, SWRK 388, EDPS 325, PSY 360 and department permission.

SWRK 489 Field Experience II 6 hrs
A continuation of SWRK 488. A student must receive a “C” or better in SWRK 488, have an overall GPA of 2.3 or better in social work courses, and not be on academic probation. Open to majors only. Must be taken concurrently with SWRK 409.
Prereq: SWRK 488.

SWRK 490 Senior Thesis Seminar 3 hrs
This is the capstone course for students completing the honors program in social work. A senior thesis or project is completed in consultation with the faculty member.
Prereq: Senior standing, social work major, and course work on statistics and research methodology.

SWRK 497/498/499 Independent Study 1/2/3 hrs
Directed study in areas not provided in other course offerings, or advanced study in areas of special interest to the student.
Prereq: Department permission.

Gerontology

Departmental Administration
Elizabeth Schuster
Director
104 Roosevelt

Mission Statement:
To provide a variety of educational programs leading to a baccalaureate and advanced degrees that are responsive to current and emerging domestic and international work force needs. More specifically, the College of Technology meets the need for well-prepared individuals for a variety of business and industrial positions, teachers of business and technology education, and reserve officers in the United States Army.
The College of Technology's mission is to provide a variety of educational programs leading to baccalaureates and advanced degrees that are responsive to current and emerging domestic and international workforce needs. More specifically, the College of Technology meets the need for well-prepared individuals for a variety of business and industrial positions, teachers of business and industrial education, and commissioned officers for the United States Army.

In addition to the bachelor of science degree, the college offers a bachelor of business education for those students satisfying the requirements for programs in business services technology education and marketing education, and a bachelor of applied science. Baccalaureate and graduate programs provide a solid foundation in mathematics, science, technology management and human relations in order to effectively serve the educational aspirations of its students. Students learn to apply sound theory to practical problems and have opportunities for cooperative work experiences. Graduates are prepared for engineering technology and technology management positions in design, production, research and marketing for business and industry. Also included within the college is the University's long-standing military science program, which promotes leadership qualities for and entry into the active Army, Army Reserve, or National Guard as a commissioned officer.

The college currently is composed of the departments of Business and Technology Education, Industrial Technology, Interdisciplinary Technology, and Military Science. Inherent in the interdisciplinary program is the study of existing courses and personnel throughout the University. Students in the pre-architecture and pre-engineering professional programs are advised by faculty in IT. Specific programs have been designed as collaborative efforts with other colleges including arts and sciences and business.

The College of Technology emphasizes relevant, real-life, hands-on-learning activities, a solid interdisciplinary foundation, close relationships with business and industry, teamwork and individual professional competence. All departments in the College of Technology focus on the importance of change. Students are encouraged to be tomorrow's leaders by refining the knowledge and skills necessary to understand, adapt to, and influence change.

### Business and Technology Education

#### Degrees Offered

**Degree**  
Bachelor of Business Education  
Bachelor of Science

**Programs of Study**

Business education curriculum  
Office technology curriculum  
Technology education curriculum

#### Majors

- Administrative Management
- Business Services and Technology Education for Secondary Education
- Industrial Technology Education
- Industrial-Vocational Education
- Legal Assistant
- Marketing Education for Secondary Education
- Network and Information Technology Administration
- Technology and Design Education

### Minor

Office Technology  
Technology and Design Education (elementary only)

#### Office Technology Curriculum

The bachelor of science degree is designed for individuals preparing for administrative management, legal assistant (paralegal profession), and network and information technology administration careers. Individuals who complete this professional curriculum should find many career opportunities open to them.

Students should follow the general education guidelines in the catalog under which they entered the University. Students following the new general education requirements must include a course in cross-cultural or international studies within the general education. Please follow general guidelines except for specific requirements as noted below.

Students without appropriate background or prerequisites that are identified for courses in the majors are responsible to take those prerequisites. Transfer students should see the program adviser in their major to determine where transfer credit will be used on the major.

#### Administrative Management Major

**ISIS major code: B102**

#### Advising

Please contact the following person for advising and additional program information:

Ronald Fulkert  
20 Sill Hall  
743.487.4330 / FAX 734.487.7690  
E-mail: rfulkert@online.emich.edu

The administrative management major focuses on the technical and management skills, concepts and principles needed to assume responsibility for executive office administration. Administrative managers are vital members of executive teams and assume supervisory, organizational and communicative roles in the coordination of administrative services.

**General studies**  
52 hours

General education requirements  
32 hours

**Information processing**

BEDU 123 Word Processing/Keyboarding Applications (2)
BEDU 210 Concepts of Network and Business Technology (3)
BEDU 224 Computer-based Business Mathematics (3)

Minor: No minor is required.

Elective courses: 22 hours

**Total:** 124 hours

**NOTE:**
These courses satisfy both general education requirements and requirements of the major. In order to avoid taking excess hours, students are advised to take these courses or approved substitutes from another institution, as part of the general education requirements.

### Network and Information Technology Administration Major

**ISIS major code: BT03**

The major in network and information technology administration was created to meet the changing demands presented by managing information and its delivery systems. The program is designed to prepare individuals for positions in local area network administration, microcomputer and office systems administration, client liaison and training, customer support, and help desk/information center positions. Changes to some requirements have been proposed but are pending approval by the University. Students must work with the program advisor to ensure that network administration courses are selected for the program of studies.

**General studies**

BEDU 487 Cooperative Education in Business Education (3)
BEDU 497/498/499 Independent Study (1/2/3)

**Minor**

- No minor is required.
- Elective courses: 16 hours
- **Total:** 124 hours

**NOTE:**
These courses satisfy both general education requirements and requirements of the major. In order to avoid taking excess hours, students are advised to take these courses or approved substitutes from another institution, as part of the general education requirements.

### Legal Assistant (Paralegal) Major

**ISIS major code: BT04**

The legal assistant major focuses on the skills necessary for an individual to assist the attorney, under the supervision and direction of the attorney, and with the understanding that the practice of law by lay persons is strictly prohibited. Skills include proficiency in legal research and analysis, drafting legal instruments and pleadings, interviewing clients and witnesses, doing discovery, preparing for trial, and using computer-assisted research tools. Employment opportunities are excellent in law firms, corporations, banks, human resource offices, hospitals, state and federal government, and court systems. This major offers professional training and lays a foundation for a career in the legal field. It also qualifies as a prelaw major. This program is accredited by the American Bar Association.

For students who have earned a prior degree, the legal assistant major can be pursued through a second bachelor's degree.

**General studies**

Minor ..................................................................... 0 hours  
No minor is required.

Elective courses ....................................................... 16 hours  
Total ..................................................................... 124 hours

NOTE:  
#These courses satisfy both general education requirements and requirements of the major. In order to avoid taking excess hours, students are advised to take these courses, or approved substitutes from another institution, as part of the general education requirements.

Business Education Curriculum

The bachelor of business education degree is designed for individuals preparing for careers as junior high school business teachers, high school teachers of marketing or business services and technology education, or other positions requiring teacher certification. Students completing the professional program will find teaching and non-teaching careers in business open to them.

Business Services and Technology Education

Secondary Teacher Certification

ISIS major code: BT32

The business services and technology education major leads to a Michigan Department of Education Secondary Provisional Certificate and, upon meeting the requirements according to the current Michigan State Plan, a vocational endorsement. The program prepares prospective teachers in the areas of information processing and management, administrative services, accounting and computing, and basic business such as economics, consumer economics, business law, management, computer literacy, and introduction to business.

This major can be completed only in conjunction with the bachelor of business education curriculum. Successful completion of this course of studies, in the context of other program requirements, qualifies the student for recommendation for certification for the Michigan Department of Education Secondary Provisional Certificate endorsed in business education, certification code “GX,” and, with appropriate work experience, certification code “VB.” The certification test covering this field is #32, “Business Education.”

General studies ......................................................... 40 hours  
General education requirements 32 hours  
Other requirements 6 hours  
#MATH 118 Mathematical Analysis for Social Sciences I (satisfies general education requirement I.4) (3)  
#PSY 101 General Psychology (satisfies general education requirement II.2 or II.3) (3)

Physical education/graduation requirements 2 hours
Teaching major ......................................................... 61 hours  
BEDU 100 Contemporary Business ................................ 3  
BEDU 123 Word Processing/Keyboarding Applications ...... 2  
BEDU 220 Word/Information Processing Operations ...... 2  
BEDU 224 Computer-based Business Mathematics ....... 3  
BEDU 395 Administering Workplace Systems and Technology 3  
BEDU 396 Information and Media Administration .......... 3  

Ten courses from the following:  
ACC 340 Intermediate Accounting I (3)  
ACC 341 Intermediate Accounting II (3)  
ACC 342 Managerial Cost Accounting (3)  
ACC 346 Governmental Accounting (3)  

No minor is required in this program.

Professional studies ............................................... 35 hours  
Courses that may be taken before formal admission to the teacher education program 10 hours  
100 clock hours of approved pre-student teaching field experiences (0)  
BEDU 200 Principles of Marketing and Office Education (3)
These courses satisfy both general education requirements and requirements of the major. In order to avoid taking excess hours, students are advised to take these courses, or approved substitutes from another institution, as part of the general education requirements.

**Marketing Education**

**Secondary Teacher Certification**

ISIS major code: BT31

The marketing education major leads to a Michigan Department of Education Secondary Provisional Certificate and vocational endorsement qualifying the prospective teacher in such areas as sales, retailing, marketing, and advertising.

This major can be completed only in conjunction with the bachelor of business education curriculum. Successful completion of this course of studies, in the context of other program requirements, qualifies the student for recommendation for certification to the Michigan Department of Education Secondary Provisional Certificate endorsed in business education, certification code “GM,” and, with appropriate work experience, certification code “VD.” The certification test covering this field is #36, “Marketing (Distributive Education).”

**General studies**

- General education requirements ........................................ 43 hours
- Other requirements ........................................................ 9 hours
  - MATH 118 Mathematical Analysis for Social Sciences I (satisfies general education requirement I.4) (3)
  - BEDU 201 Microcomputers for Business Applications (satisfies general education requirement I.5) (3)
  - PSY 101 General Psychology (satisfies general education requirement II.2 or II.3) (3)

- MKTG 365 Consumer Behavior ........................................

*Two courses from the following:*

- LAW 393 Law of Business Enterprises (3)
- MKTG 384 Human Resource Management (3)
- MKTG 386 Introduction to Entrepreneurship (3)
- MKTG 485 Human Resource Development (3)
- MKTG 389 Marketing Strategy (3)
- MKTG 396 Advertising (3)
- MKTG 374 Business to Business Marketing (3)
- MKTG 461 Sales Management (3)

**Technology Education Curriculum**

The technology education curriculum prepares teachers of technology and industrial subjects for the elementary, middle, and senior high school and teachers of industrial-vocational subjects for the senior high and community college. It offers a broad-based description of modern industry and technology, and the opportunity to acquire specialized competencies in a number of technical, industrial and/or vocational areas. The programs and endorsements offered in technology education are:

**Technology and Design (TX):** The field of technology and design addresses the development of technological literacy for all students. Technological literacy encompasses the ability to apply technology, understand issues raised by technology, and appreciate the significance of technology. The focus of the field is to engage learners with the actions used in developing, producing and assessing technology, and the concepts where technology is developed and used. The 36-hour major endorsement qualifies the individual to teach only this subject area in grades K-12. The 24-hour minor endorsement qualifies the individual to teach only this subject area in grades K-8.
**Industrial Technology Education (IX):** The field of industrial technology addresses the development of technical knowledge and skills associated with a worker's life role. The focus of the field is to engage learners in activities related to contemporary industrial practices, procedures, and processes. Learners may use the knowledge and skills of industrial technology as a foundation for participation in instructional programs that prepare them for specific technical careers. This K-12 endorsement qualifies the individual to teach only this subject area in grades K-12.

**Vocational Endorsement:** In addition to the above requirements, if the graduate possesses paid occupational experience in an area that is identified as appropriate for teaching in a reimbursed vocational education program, a vocational endorsement in that occupational area may also be granted. With the endorsement, the graduate may teach the specified vocational subject in grades 9-12. A minimum of two years employment (equated to 4,000 hours) of recent occupational experience that is directly related to the specific vocational courses one wishes to teach is required. This endorsement qualifies the individual to teach only this occupational area in grades 9-12.

**Industrial-Vocational Education (VT):** This major is designed to prepare teachers of industrial-vocational subjects for senior high and community college vocational education programs. Graduates who complete this major and have a minimum of two years paid work experience in a certifiable occupational area will qualify for the Temporary Vocational Authorization to teach in a specific occupational area. Options for cooperative work experience studies are available to the student as partial credit toward the occupational requirement. This endorsement qualifies the individual to teach only this occupational area in grades 9-12.

**Technology and Design Education (TX) K-12 Teacher Certification**

**ISIS major code:** BT35

The technology and design major prepares teachers of technology education for grades K-12. All graduates with this major qualify for a Michigan Department of Education Secondary Provisional Certificate with an endorsement in technology and design. Graduates may qualify for vocational endorsement (Temporary Vocational Authorization) by completing two years of occupational experience in employment related to the area of study. Options for cooperative work experience are available to students as partial credit toward the occupational requirement.

This major must be completed in conjunction with the technology education curriculum. Successful completion of this course of studies, in the context of other program requirements, qualifies the student for recommendation for certification for the Michigan Department of Education Secondary Provisional Certificate endorsed in technology and design, certification code “TX.” The certification test covering this field is currently under development.

    Total ......................................................................................... 124 hours

NOTE:
#These courses satisfy both general education requirements and requirements
of the major. In order to avoid taking excess hours, students are advised to take
The industrial-vocational major is designed to prepare teachers of industrial-vocational subjects for senior high school and community college vocational education programs. Graduates who complete this major and have a minimum of two years work experience in a certifiable occupational area will qualify for the Temporary Vocational Authorization to teach in a specific occupational area. Options for cooperative work experience studies are available to the student as partial credit toward the occupational requirement.

This major must be completed in conjunction with the technology education curriculum. This major qualifies individuals to teach only in select occupational areas. The Temporary Vocational Authorization is valid for six years. By that time, individuals must have completed additional requirements to qualify for the Occupational Education Certificate.

This major provides favorable opportunities for community college transfer students who have completed a technical major at the community college and who wish to teach in a specific occupational subject area in the senior high school or community college. Individuals currently teaching in an industrial-vocational subject area under the Annual Vocational Authorization would also find this major to be a desirable option.

Successful completion of this course of studies, in the context of other program requirements, qualifies the student for recommendation for certification for the Michigan Department of Education Secondary Provisional Certificate endorsed in vocational trades, certification code "VT." The certification test covering this field is an occupational area test.

#LITR 102 The Reading of Literature: Poetry (satisfies general education requirement IV.1 or IV.2) (3)
#LITR 103 The Reading of Literature: Drama (satisfies general education requirement IV.1 or IV.2) (3)
#LITR 150 Humanity and Technology (honors only—satisfies general education requirement IV.1 or IV.2) (3)

One course from the following: ..................................... 3
#FLAN 215 The Cultures of Mexican-Americans and Cubans in the United States (satisfies general education requirement IV.2 and the cross-cultural/international studies requirement) (3)
#LITR 204 Native American Literature (satisfies general education requirement IV.2 and the cross-cultural/international studies requirement) (3)
#LITR 260 African American Literature (satisfies general education requirement IV.2 and the cross-cultural/international studies requirement) (3)
#PHIL 226/WMST 226 Philosophy of Women (satisfies general education requirement IV.2 and the cross-cultural/international studies requirement) (3)
#CTAR 151 African American Theatre: An Introduction (satisfies general education requirement IV.4 and the cross-cultural/international studies requirement) (3)

One course from the following: ..................................... 3
#PHIL 100 Introduction to Philosophy (satisfies general education requirement IV.3) (3)
#PHIL 130 Introduction to Logic (satisfies general education requirement IV.3) (3)

Physical education/graduation requirements .................................. 2 hours
Teaching major/minor .................................................. 44 hours
#INDT 150 Understanding Technology (satisfies general education requirement IV.3) (3)
TEDU 246 Safety in Technology and Industrial-Vocational Education .......................................... 3
TEDU 250 Foundations of Technology and Industrial-Vocational Education .......................................... 3
TEDU 350 Curriculum in Technology and Industrial-Vocational Education .......................................... 3
TEDU 452 Principles of Vocational-Technical Education .................................................. 3

Concentration ............................................................. 36

The occupational specialization in which the student will seek vocational authorization must be sought for community college or other technical school course work as transfer credit if it properly represents a certifiable occupational area. Work experience also may be validated and credit awarded toward the area of concentration by successfully passing an occupational competency examination.

Professional studies .................................................... 38 hours

Courses that may be taken before formal admission to the teacher education program .................................. 10 hours
100 clock hours of approved pre-student teaching field experiences (0)
TEDU 250 Foundations of Technology and Industrial-Vocational Education (3)
SPNG 251 Education of Exceptional Children (3)
EDPS 322 Human Development and Learning (4)

Courses that require formal admission to the teacher education program .................................. 28 hours
RDNG 311 Teaching Reading in the Secondary School (3)
SOFD 328 Schools in a Multicultural Society (3)
EDPS 340 Introduction to Assessment and Evaluation (3)
EDU 350 Curriculum in Technology and Industrial-Vocational Education (3)
EDU 460 Practicum in Technology and Industrial-Vocational Education (2)
EDU 461 The Teaching of Technology and Industrial-Vocational Education (2)
EDUC 492 Student Teaching (12)

NOTE:
These courses satisfy both general education requirements and requirements of the major. In order to avoid taking excess hours, students are advised to take these courses, or approved substitutes from another institution, as part of the general education requirements.

**Business Education Courses**

BEDU 100 Contemporary Business 3 hrs

BEDU 119 Keyboarding for Computers 2 hrs
Basic touch keyboading and word processing skills needed to use computers with an alphabetic/numeric keyboard, a 10-key keypad, and word processing software. Lab fee required.

BEDU 123 Word Processing/Keyboarding Applications 2 hrs
Continued keyboarding and word processing skill development. Application of skill to business documents, manuscripts and reports. Emphasis on improved editing, proofreading and referencing skills. Lab fee required.

BEDU 177/178/179 Special Topics 1/2/3 hrs
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied. Prereq: BEDU 119 or touch keyboarding experience.

BEDU 200 Principles of Marketing and Office Education 3 hrs
An introduction to marketing and office education. The scope and importance of vocational education with emphasis on marketing and office education. Preservice teaching experience will be initiated in conjunction with this course.

BEDU 207 Microcomputers for Business Applications 3 hrs
Computer hardware and software for office use including both mainframe and microcomputer systems. "Hands-on" experience limited to microcomputers. Basic skills in using prepared software and developing programs for office applications using Microsoft BASIC. Requires no prior knowledge of computers or programming. Lab fee required.

BEDU 205 Women in Business 3 hrs
Social and business conditions that support the entrance of women to executive positions in business. Career opportunities at the professional and executive levels of business.

BEDU 210 Concepts of Network and Business Technology 3 hrs
The concepts and functions of networks and related business technology. The course emphasizes administration of Personal Computers, their applications and peripherals, and peer-to-peer networks. The course includes equipment, procedures, and career opportunities.

Prereq: BEDU 201

BEDU 220 Word/Information Processing Operations 3 hrs
Continued development of editing, proofreading and referencing techniques. Emphasis on advanced functions of word processing software, typography, graphics, and other desktop publishing concepts. Advanced document applications including merge and list processing, math operations, and importing from other software programs.

Prereq: BEDU 123 and BEDU 201.
INOT software programs. From dictated and its, and other desktop publishing concepts. Advanced document applications.

The management of financial resources to satisfy personal or family goals. Budgeting, consumer credit, investing, insurance. Designed to provide skills for successful note-taking for a variety of academic and professional activities, including library and other text-based research, and meetings, interviews, and other audio/aural formats. Develops skill in rapid writing and reading systems along with related study, listening and basic transcription skills.

BEDU 224 Computer-based Business Mathematics 3 hrs
Application of computer-based tools and procedures to the solution of mathematical problems encountered in the business office. Lab fee required.
Prereq: BEDU 201 or department permission.

BEDU 225 Note-taking Skills for Professionals 2 hrs
Designed to provide skills for successful notetaking for a variety of academic and professional activities, including library and other text-based research, and meetings, interviews, and other audio/aural formats. Develops skill in rapid writing and reading systems along with related study, listening and basic transcription skills.
Prereq: BEDU 224.

BEDU 250 Personal Finance 3 hrs
The management of financial resources to satisfy personal or family goals. Budgeting, consumer credit, investing, insurance, real estate, wills and trusts, and income taxes. Students learn to make decisions within the context of a realistic consumer-oriented environment. Open to all students.

BEDU 277/278/279 Special Topics 1/2/3 hrs
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.
Prereq: Department permission.

BEDU 310 Word/Information Processing Administration 3 hrs
Techniques to utilize staff and equipment most effectively, record keeping, work flow, evaluating personnel, establishing policies and standards of operation as applied to word processing.
Prereq: BEDU 201, BEDU 210, BEDU 220.

BEDU 325 Advanced Notetaking and Transcription for Professionals 2 hrs
A continuation of BEDU 225 which develops higher speeds in notetaking and transcription skills for employment and professional use. Continues the development of related study and listening skills.
Prereq: BEDU 123 and BEDU 225, or equivalent.

BEDU 344 Administration of Computer Systems 3 hrs
To provide an introduction to the principles and practices required to operate a computer operating system in the educational or small/medium institution environment. The course will deal with both the operating system in micro- and minicomputer forms as a program and as a complete system. The course will emphasize the daily tasks a small/medium system administrator must accomplish.
Prereq: BEDU 201, BEDU 224, BEDU 306, ENGL 324.

BEDU 363 Curriculum for Business Service and Technology Education 3 hrs
Overviews content bases and other factors that affect business service and technology, includes the relationship in philosophies of education and styles of teaching, classroom management in a variety of settings, including utilization of non-classroom curriculum delivery systems and the implementation of curriculum evaluation and revision procedures.
Prereq: BEDU 200, Admission to the teacher education program.
presentation steps for the entrepreneurship simulation are developed. Small scale simulations and projects are also studied as well as procedures for developing simulations and projects.

**BEDU 477/478/479 Special Topics** 1/2/3 hrs
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Prereq: Department permission.

**BEDU 487 Cooperative Education in Business Education** 3 hrs
Business education majors will be placed on a job that relates to their primary area of study for one semester. During this period regular employees’ benefits may be received. Offered on a credit/no credit basis. Credit applicable to the major in business education only.

Prereq: BEDU 387.

**BEDU 495 End-User Systems: Implementation and Evaluation** 3 hrs
The course focuses on implementing and evaluating end-user systems that deliver information services and resources. Emphasis is on implementation based on current theories of innovation and change and on development of evaluation criteria. Testing information service delivery is included. Students will evaluate an actual or hypothetical end-user system. Lab fee required.

Prereq: BEDU 395 or BEDU 396.

**BEDU 496 Records Administration Using Database** 3 hrs
Database as a tool of automated search and retrieval. Identifying information needs of users; design and development of records classification structures suitable for automated records systems; searching techniques; generation of reports such as records user listings, master record listings and records retention schedules. Extensive applications using database software. Lab fee required.

Prereq: BEDU 201 and BEDU 396.

**BEDU 497/498/499 Independent Study** 1/2/3 hrs
Students pursue some special area of study or experimentation under the direction of a designated faculty member from the department.

Prereq: Department permission.

### Legal Assistant Courses

**LEGL 177/178/179 Special Topics** 1/2/3 hrs
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**LEGL 211 Introduction to Paralegalism and Legal Terminology** 3 hrs
An overview of the nature of the legal assistant (paralegal) program, with a look at the roles, opportunities, responsibilities and problems encountered. The student is introduced to areas of the law in which the legal assistant may work. Ethical considerations are addressed and legal terminology will be introduced and emphasized. Must be completed in the first 32 hours of the major.

**LEGL 277/278/279 Special Topics** 1/2/3 hrs
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**LEGL 304 Legal Writing, Research, and Analysis I** 3 hrs
This course is designed to develop basic skills in analyzing legal problems, researching those problems, and searching for legal authority. Students are also introduced to primary and secondary legal resources. Emphasis is given to preparing and writing legal memos. Extensive use of library law materials is required.

Prereq: ENGL 121 and BEDU 123 (majors only).

**LEGL 305 Advanced Legal Writing, Research, and Analysis II** 3 hrs
This course will build upon skills acquired in LEGL 304. Students will be introduced to computerized research sources with a special emphasis on LEXIS and Westlaw. Discussion will also focus on the state appellate process. Students will learn how to prepare an appellate brief and do online legal research to complete their brief. Special emphasis will be placed on students improving their legal writing techniques. Lab fee required.

Prereq: LEGL 304 and BEDU 201.

**LEGL 306 Advanced Legal Writing, Research, and Analysis III** 3 hrs
This course will build upon the skills learned in LEGL 304 and LEGL 305. Students will focus on their legal writing skills by analyzing facts in a simulated litigation experience and by drafting appropriate client and court documents. Emphasis will be on the “process” approach giving attention to the steps in reasoning that must be followed to arrive at the final product. Plain English will also be discussed.

Prereq: LEGL 304.

**LEGL 311 Probate, Estates, and Wills** 3 hrs
The student will study the Probate Code and probate procedures, descendents’ estates, death and inheritance taxes, and other related problems. Special attention will be given to wills and how wills are drafted.

Prereq: LEGL 211.

**LEGL 313 Family Law** 3 hrs
A basic introduction to the areas of domestic law, including such subjects as divorce, adoption, abortion, parental rights, children’s rights, child abuse, neglect and guardianship. The course will be directed toward the legal assistant’s role in preparing court documents and other tasks of the paralegal in this area.

Prereq: LEGL 211.

**LEGL 377/378/379 Special Topics** 1/2/3 hrs
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**LEGL 404 Court Rules, Forms, and Drafting Contracts** 3 hrs
Study will be made of the Michigan Court Rules and court forms commonly used in the Michigan Court system. Students will do problems preparing court forms for a variety of legal actions. Students will also study contract law and learn to draft documents.

Prereq: LEGL 304.

**LEGL 405 Civil Litigation, Investigation, and Procedure I** 3 hrs
A comprehensive survey of civil litigation and procedure. The student will be introduced to every phase of litigation starting with the filing of the lawsuit through the appellate process. The student will be expected to draw up a complaint and a number of pleadings, as well as drafting interrogatories and depositions. Legal investigation will be addressed.

Prereq: LEGL 404.

**LEGL 406 Civil Litigation, Investigation, and Procedure II** 3 hrs
A study of the law and litigation techniques in personal injury cases. Students will become acquainted with such torts as assault, battery, false imprisonment, defamation and strict product liability. Study will be directed particularly to the fields of negligence and medical malpractice.

Prereq: LEGL 405.

**LEGL 415 Bankruptcy Law** 3 hrs
A study will be made of the Federal Bankruptcy Code, with emphasis on Chapters 7, 11 and 13. Students will learn how to prepare the necessary papers for filing for bankruptcy.

Prereq: LEGL 304.

**LEGL 416 Legal Assistant Internship** 3-6 hrs
Placement for students will be arranged with law firms, courts, or corporations, etc., for on-the-job training as a legal assistant. Each student will have a supervisor on the job and a faculty supervisor. The latter will consult with students individually or in a group meeting. A written report is required upon completion of the internship. Where appropriate criteria are met, Cooperative Education can be substituted for an Internship.

Prereq: LEGL 211, LEGL 304, LEGL 305, LEGL 404, LEGL 405. Permission of instructor must have completed required courses in the curriculum.
LEGL 477/478/479 Special Topics 1/2/3 hrs
An exploration and study of topics not covered in other program offerings. Student may elect more than once.

LEGL 497/498/499 Independent Study 1/2/3 hrs
Students pursue some special area of study or experimentation under the direction of a designated faculty member from the department.

Technology Education Courses

TEDU 103 Structures and Design in Technology 3 hrs
The application of design elements, principles and procedures in the development of solutions to structural problems in technology. Consider human and environmental factors in design solutions. Illustration and description of structures, forms and forms used in these solutions. Lab fee required.

TEDU 105 History of Industrial Technology 3 hrs
An introduction to the history of industrial technology. Development of industry and its impact on other arts and culture in general. Basic principles of design in industrial and home arts, and the extechnic, paleotechnic, neotechnic and atomic periods of technology.

TEDU 106 Processing Technology 3 hrs
An introduction to the selection, application of tools, materials, and processes and their application to discrete and integrated systems of technology. Interrelationships between humans and machines will be studied to develop the student's ability to transfer knowledge of processes from one environment to the other. Lab fee required.

TEDU 114 Information and Control Technology 3 hrs
Access, manage and control information and technology through the application of technological systems. Design and construct models, devices and mechanisms that will process information and control technology through the use of machines and humans. Lab fee required.

TEDU 118 Energy Technology 3 hrs
Forms, sources and uses of energy for application to technology. Description of past, present and future systems that transform, transmit, store, control and utilize energy. Considers energy conservation issues. Laboratory experiences focus on experimenting with energy conversions and measurement. Lab fee required.

TEDU 152 Arts and Crafts 3 hrs
Experience in design and use of a wide variety of craft materials. Avocational and recreational use of craft media. Lab fee required.

TEDU 177/178/179 Special Topics 1/2/3 hrs
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied. PreREQ: Department permission.

TEDU 246 Safety in Technology and Industrial-Vocational Education 2 hrs
Safety, health and environmental factors and their implications for technology and industrial-vocational educators, students, laboratories and instructional programs.

TEDU 250 Foundations of Technology and Industrial-Vocational Education 3 hrs
An introduction to the foundations and implementation of technology education and industrial-vocational education. Past, present and future developments in the profession will be studied through lectures, discussion, seminars, micro-teaching, school visitsations and precedent teaching activities.

TEDU 252 Pre-vocational/Vocational Special Needs Program 4 hrs
An examination of the role of special education personnel in providing career awareness, pre-vocational skill development, and vocational education support activities. Laboratory activities focus on the integration of these concepts on a broad continuum from elementary to secondary school programs. Lectures and field experiences will be used to illustrate a variety of programs and services. Lab fee required.

TEDU 253 Technology Education for Children 3 hrs
Content and methods which enable the elementary teacher to assist children in learning about the concepts, processes, systems and impacts of technology. Individual and group laboratory activities involve applications of technology with other subject areas through problem solving experiences. Lab fee required.

TEDU 277/278/279 Special Topics 1/2/3 hrs
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied. PreREQ: Department permission.

TEDU 350 Curriculum in Technology and Industrial-Vocational Education 3 hrs
Curriculum bases, the derivation of content, the formulation of objectives, the selection and organization of learning activities, and the selection and development of procedures for evaluating technology and industrial-vocational education students and programs. PreREQ: TEDU 250.

TEDU 354 Experiences in Technology for Children 2 hrs
Laboratory experiences in the use of materials, tools, processes and products of industry as utilized in the elementary and middle school. Emphasis is on individual and group learning situations relevant to integrated curriculum activities. Lab fee required. PreREQ: TEDU 250.

TEDU 355 Seminar in Technology for the Elementary School 2 hrs
Practical experiences in integrating concepts of technology with existing elementary and special education curricula. Students will design, conduct, and evaluate manipulative activities for and with children. PreREQ: TEDU 354.

TEDU 358 Tools and Materials 3 hrs
Experiences in the use of selected tools, machines and materials following contemporary therapeutic practices in occupational therapy and related professions. Lecture: two hours per week. Laboratory: two hours per week. Lab fee required. PreREQ: Occupational Therapy major or department permission.

TEDU 377/378/379 Special Topics 1/2/3 hrs
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied. PreREQ: Department permission.

TEDU 387 Cooperative Education in Technology Education 3 hrs
Technology education majors will be placed on a job that relates to their primary area of study for one semester. During this period regular employee benefits may be received. Offered on a credit/no credit basis. Credit applicable to a major in technology education only. PreREQ: Department permission.

TEDU 450 Solving Technological Problems 3 hrs
A capstone experience in the technology component of the technology education curriculum. Student applies problem solving techniques to arrive at the solution to a technological problem. PreREQ: TEDU 350; senior standing and department approval.

TEDU 452 Principles of Vocational-Technical Education 3 hrs
Concepts and principles of vocational-technical education; current issues in vocational education in Michigan. PreREQ: TEDU 350 or department permission.

TEDU 460 Practicum in Technology and Industrial-Vocational Education 2 hrs
Direct involvement in solving teaching/learning problems in technology and industrial-vocational education. Emphasis upon developing appropriate strate-
gies for managing the classroom and laboratory environment. Concurrent registration with TEDU 460 and student teaching.
Prereq: TEDU 350.

TEDU 461 The Teaching of Technology and Industrial-Vocational Education 2 hrs
Examine the relationship between principles of effective learning and various methods of instruction in technology and industrial-vocational education. Emphasis upon the preparation of lessons and units of study and the evaluation of instruction. Concurrent registration with TEDU 460 and student teaching.
Prereq: TEDU 350.

TEDU 477/478/479 Special Topics 1 1/2 hrs
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.
Prereq: Department permission.

TEDU 487 Cooperative Education in Technology Education 3 hrs
The second in a two-course sequence for technology education majors. Students will be placed on a job that relates to their primary area of study for one semester. Regular employee benefits may be received. Credit applicable to a major in technology education only. Offered on a credit/no-credit basis.
Prereq: TEDU 387 and department permission.

TEDU 497/498/499 Directed Study—Technology Education 1 1/2 hrs
Available to select students who have demonstrated ability to profit from a directed study project. Intensive study of a problem appropriate to the student's area of concentration. Enrollment and selection of a project proposal must be approved by the department adviser-chair.
Prereq: Department permission.

The Department of Industrial Technology offers three curricula: construction management with two majors and a minor, industrial technology with three majors and a minor, and engineering technology with two majors. In addition, two pre-professional programs are shared with the College of Arts and Sciences—pre-architecture and pre-engineering. Advising for these programs is provided by this department.

Degree
Bachelor of Science

Mechanical Engineering Technology
Options
Manufacturing
Design
Pre-professional programs
Pre-engineering
Pre-architecture

The construction management program has been accredited by the American Council for Construction Education, and the computer-aided design program and the manufacturing program with concentrations in computer-aided manufacturing, manufacturing technology, and plastics have been accredited by the National Association of Industrial Technology.

The advising procedure is posted outside the department office. It is recommended that majors see their department adviser each semester to review their program. Majors are responsible for meeting the requirements for graduation. A new student in the department not assigned to an adviser should call the department office at 734.487.2040 for an appointment.

Advisers
Applied technology: Jon Jellema, Walter Tucker
Computer-aided design: Tony Shue, Pamela Speedman, Alex Wang
Computer-aided manufacturing: Jonathan Lin
Construction management: Mike Ferber, Victoria Gottes, Peter Loughney, Greg Mitchell, James Stein
Electronics engineering technology: Jamal Bari, J. Jan Jellema
Facility management: Peter Loughney
Manufacturing Cost Analysis: Pach Bombach
Manufacturing technology: Philip Rufe, Tracy Tillman
Mechanical engineering technology: J. Albayyari, Harvey Lyons
Plastics: Erik Lokensgard

Pre-engineering: Bob Lahidj
Pre-architecture: Peter Loughney

Graduate study leads to the master of science degree in industrial technology. Available areas of concentration are CAD/CAM, manufacturing, quality, and construction management. These degrees are described in the graduate catalog.

Construction Curriculum

The construction curriculum includes course work in general education with specified science and mathematics courses, recommended business courses electives (a list of recommended course electives that require the prior approval of a construction or facility management adviser), and technical courses. A minor is not required.

Construction Management Major

ISIS major code: IT07

The construction management major is designed to prepare men and women for middle- and upper-level management in general contracting. The major has been developed in cooperation with experts from the construction industry, guidelines established by major construction associations, and feedback from employers and graduates. The construction management major reflects the current needs and trends in the construction industry.

No minor is required.

Total ...................................................................... 124 hours

NOTE:

These courses satisfy both general education requirements and requirements of the major. In order to avoid taking excess hours, students are advised to take these courses, or approved substitutes from another institution, as part of the general education requirements.

Facility Management Curriculum

ISIS major code: IT12

Facility management is the practice of coordinating the workplace with the people and work of the organization; it integrates the principles of business administration, architecture, and the behavioral and engineering sciences. Students completing this curriculum have met major and minor requirements for graduation.

Engineering Technology Curriculum

The engineering technology curriculum is based on engineering theory with emphasis on application and implementation skills. The curriculum includes University general education, the engineering technology core, and majors in electronic engineering technology (EET) and mechanical engineering technology (MET). The MET major contains options in design or manufacturing. With a common general education and engineering technology core, students may investigate career options and personal preferences at the beginning of their studies and change majors without loss of credits toward program completion.

Electronic Engineering Technology Major
ISIS major code: IT110

The electronic engineering technology major is designed to prepare students for interesting and challenging positions in the diverse field of electronics. The curriculum provides for a strong foundation in electronics to support future changes in technology or the career roles of the individual. The graduate may find employment on engineering teams in product design and development, in production and automation, in instrumentation and communications or in technical sales and operations. Program requirements are as follows:

Mechanical Engineering Technology Major
ISIS major code: IT111

The mechanical engineering technology major offers the opportunity to prepare for rewarding and responsible careers in support of technical and engineering activities. The program is designed to provide graduates with a strong technical foundation that integrates the methods, materials, machinery and power resources found in modern industry. Students receive both lecture and hands-on laboratory training in manufacturing processes, engineering mechanics, thermo-fluid sciences and machine design, culminating with an option in design or manufacturing as described below.

Design Option
ISIS major code: IT1102

The design option within the MET program emphasizes the design aspect of MET in a wide range of programming, modeling and analysis that includes kinematic modeling, finite element analysis and 3-D CAD/CAM/CAE. This option furnishes the fundamental theoretical foundation with emphasis on realistic technical problem solving and projects. The design option culminates with a capstone design project that provides a comprehensive, pre-professional design experience.

Manufacturing Option
ISIS major code: IT1101

The manufacturing option within the MET program emphasizes critical areas of the manufacturing enterprise such as manufacturing engineering analysis, motors and controls, industrial quality control and process planning. This option furnishes the fundamental technical foundation that is concerned with the design and use of manufacturing systems in the industrial environment. The manufacturing option culminates in a manufacturing enterprise capstone project that includes the functional development and management of manufacturing enterprises.

General studies ........................................................................................................... 52 hours
General education requirements ................................................................. 14 hours
Other requirements ................................................................................................ 36 hours
#CHEM 121-CHEM 122 General Chemistry I with lab (satisfies general education requirement II.1 or II.3) ....................... 4

#ECON 201 Principles of Economics I (satisfies general education requirement III.3) .................................................. 3
Industrial Technology Curriculum

The industrial technology curriculum is designed to prepare technical and/or technical management-oriented professionals for employment in business, industry, and government. The curriculum integrates university general education requirements with majors in computer-aided design, manufacturing and applied technology. The manufacturing major has three options. The applied technology major is designed to accommodate the needs of students transferring from community colleges and similar educational institutions. A minor is not required for any of the industrial technology majors.

Applied Technology Major (Transfer)

ISIS major code: IT105

The applied technology major is designed to serve those individuals who wish to continue their technology-related community college education. The program offers the flexibility of accepting a block of up to 34 credits of technical courses as transfer credit. Articulation agreements have been established with several community colleges to ensure the maximum transfer of credits. Students transferring from other four-year higher education institutions with a technical major may also find this major suitable.

Major in Applied Technology (transfer) ........................................... 55 hours
Restrict electives at the 100-400 level ................................. 6 hours
Restricted EMU MFG electives at the 300-400 level .......... 15 hours
Maximum of 34 transfer hours of technical courses ......... 34 hours

Note:
12 hours from above must be from approved technical management courses.

Computer-Aided Design Major

ISIS major code: IT102

Individuals majoring in CAD are prepared for a wide range of computer-related job opportunities. Graduates are employed in industry as CAD engineers, product engineers, software development engineers, application programmers, technical support engineers, CAD/CAM system managers, project consultants, and entry-level designers, as well as in equipment sales and support. The applications of CAD are becoming more diverse, and are found in many areas, such as architecture, engineering, geographic information systems, facilities management, product presentation, and computer animation.

The CAD major includes a core of technical courses designed to provide a well-rounded graduate with extensive hands-on experience. Engineering graphics courses are included to provide an understanding of the process involved in producing design models on the computer. In the CAD courses, students gain knowledge and hands-on experience in the following four technical areas: (1) interactive 2-D and 3-D wireframe drawing, geometric dimensioning and tolerancing, solid modeling, and surface modeling; (2) interactive 2-D and 3-D computer graphics programming for business graphics, animation, and CAD drawings involving icons and database development and database management; (3) CAD management involving extensive knowledge of microcomputer applications, CAD software installation, peripheral interfaces and customization, and; (4) applied mechanics, kinematics, and design, and finite element analysis.

MATH 107 Plane Trigonometry: 2 hours

Additional Required Courses: 3 hours

MATH 115 College Algebra or MATH 119 Mathematical Analysis for Social Sciences I: 3 hours

Elective (must be approved by advisor): 3 hours

Especially for manufacturing engineers, manufacturing operations managers, computer applications integrators, product, process, and tool designers, and in many other technical and managerial positions.

## Manufacturing Major

The manufacturing major consists of three concentrations: Computer-aided manufacturing, manufacturing technology, and plastics. Majors must complete the general education requirements outlined below, core manufacturing courses, plus the requirements of one of the concentrations.

The rapid increase in complexity of manufacturing technology and operations has caused the education of most engineers to become increasingly theoretical. This has produced a demand for manufacturing professionals who have acquired technical skills. Our graduates, who are educated in applied technology, help to meet that demand. Students majoring in manufacturing are prepared for a wide range of professional positions in industry. Graduates are employed in a leadership role determining the cost of manufactured parts and other technical and managerial positions.
Manufacturing Major—Computer-Aided Manufacturing Concentration

ISIS major code: IT03

The computer-aided manufacturing concentration combines instructional experiences in robotics, control and power systems, and numerical control. The concentration is designed to prepare individuals for supervisory and management positions in automated plants and factories for both today and the future.

These courses satisfy both general education requirements and requirements of the major. In order to avoid taking excess hours, students are advised to take these courses, or approved substitutes from another institution, as part of the general education requirements.

Manufacturing Major—Manufacturing Technology Concentration

ISIS major code: IT04

The manufacturing technology concentration includes a core of fundamental manufacturing courses designed to produce a well-rounded graduate with hands-on experience. In advanced courses, students gain knowledge and skills in mechanical and tool design, fluid power systems, quality control, robotics, and...
control technologies for machines, processes, and manufacturing operations management. A number of our graduates have become certified as manufacturing technologies or manufacturing engineers by the Society of Manufacturing Engineers.

### Manufacturing Major—Plastics Concentration

**ISIS major code: IT06**

The plastics concentration is designed to prepare men and women for a wide range of technical positions in the plastics processing industry. Graduates have a general understanding of the plastics industry, polymer materials, common plastics processes, and finishing and decorating techniques. Graduates are employed as cost estimators, sales and marketing representatives, production schedulers, mold designers, process engineers, product engineers, production supervisors, and quality control supervisors, as well as in their related technical specialties.

Construction Management Minor
ISIS minor code: IT01

This minor is designed to provide a background in fundamental technical applications for students with majors outside the department who expect to work in industry. Employment opportunities are enhanced for persons with technical course work.

Elective courses in the minor are selected to relate to the student’s major subject area. Academic advising to determine elective course choices is provided by the Department of Industrial Technology. A maximum of six hours may be transferred from outside the department.

Required courses
CNST 125 Introduction to Construction ......................................................... 2
CNST 201 Construction Systems ....................................................................... 3
CNST 228 Construction Graphics ....................................................................... 3
CNST 229 Analysis of Commercial Prints ....................................................... 3

MFG 421 Manufacturing Engineering Analysis (3) .......................................... 3
MFG 490 Manufacturing Enterprise Capstone (3) .......................................... 3

Total ........................................................................................................................ 21 hours

NOTE:
#Not open to students who have completed the computer literacy requirement of general education.

#These courses satisfy both general education requirements and requirements of the major. In order to avoid taking excess hours, students are advised to take these courses, or approved substitutes from another institution, as part of the general education requirements.

Pre-architecture Program

This program is designed for students who wish to transfer to an architecture program at another university. Students are strongly advised to consult with the school to which they plan to transfer for specific requirements. Courses taken may apply to other majors at the University if the student chooses to remain on this campus to complete a bachelor’s degree.

Department advisers in these areas maintain contact with universities that offer related four-year programs in order to maximize the value of the transfer program of study at the University to other universities. Students planning to transfer to four-year programs should not complete EMU’s general education requirements.

Required courses ................................................................................................. 57 hours

CNST 125 Introduction to Construction ............................................................. 3

NOTE:
#These courses satisfy both general education requirements and requirements of the major. In order to avoid taking excess hours, students are advised to take these courses, or approved substitutes from another institution, as part of the general education requirements.

Pre-engineering Program

This program is designed for the student who wishes to transfer to an engineering program at another university. Students are strongly advised to consult with
CAD/CAM Courses

CADM 101 Introduction to Industrial Drawing 3 hrs
An introductory mechanical drawing course emphasizing lettering, measuring, geometric construction, sketching, equipment usage, pictorials, orthographic projection and dimensioning. This course is intended for students without previous drafting experience. Lecture and laboratory course. This course does not count toward a CAD/CAM major.

CADM 105 Computer Applications for Industry 3 hrs
Provides the theory, general applications, and specific applications of microcomputers. Students are exposed to software packages commonly used for general and specific applications in industry. Lecture and laboratory course.

CADM 106 Industrial Computer Applications for Manufacturing 3 hrs
This course presents advanced DOS commands and concepts appropriate for microcomputers configured for CAD/CAM and other similar industrial applications. Lecture and laboratory course.

Prereq: A course in computer literacy.

CADM 120 Computer-Aided Print Reading 3 hrs
A manufacturing print reading course which includes an introduction to computer-aided drawing. This course is intended for manufacturing cost analysis majors with no previous engineering drawing experience.

Prereq: CADM 105 or IS 215.

CADM 122 Engineering Graphics I 3 hrs
A mechanical drawing course emphasizing orthographic projection, pictorial representation, dimensioning, sectional and auxiliary views, computer-aided drafting, mechanical fasteners and working drawings. Lecture and laboratory course.

Prereq: CADM 101 or one year of high school drafting.

CADM 177/178/179 Special Topics 1/2/3 hrs
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Prereq: Department permission.

CADM 211 Statics 3 hrs
This course is an applied and analytical study of structural components in static equilibrium with emphasis on engineering applications. Topics include force resultants, moments, trusses, frames, centroids and moments of inertia.

Prereq: PHY 223 and MATH 120 or Level 6 math placement.

CADM 222 Engineering Graphics II 3 hrs
Engineering Graphics II is an advanced drawing course designed as a continuation of Engineering Graphics I. Units of instruction include stress classifications, geometric dimensioning and tolerancing, gears, cams, revolution, intersection, and development. Lecture and laboratory course.

Prereq: MATH 107 and CADM 122.

CADM 231 Computer Graphics Programming 3 hrs
A series of computer graphics programs illustrate graphics algorithms and terminology. Students write similar programs using graphic functions. Topics include computer graphics, multi-view drawings, multi-axis rotations, CAD databases, animation and interactive programming. Lecture and laboratory course.

Prereq: MATH 107 and a course in C programming.

CADM 277/278/279 Special Topics 1/2/3 hrs
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Prereq: Department permission.

CADM 319 Fluid Mechanics 3 hrs
An analytical and mathematical study of fluids under all conditions of rest and motion. The emphasis is on physical concepts rather than mathematical manipulation. Topics include fluid statics, kinematics of fluid motion, incompressible and compressible flow, impulse-momentum principle, fluid flow in pipes and open channels, and fluid measurement.

Prereq: CADM 211.

CADM 324 Industrial Drawing 3 hrs
An examination and application of engineering design and drawing using three-dimensional wireframe and solids techniques. Computer-aided design systems will be used to produce designs and drawings. Lecture and laboratory course.

Prereq: CADM 223.

CADM 325 Applied Mechanics, Kinematics, and Design 3 hrs
The study of mechanical devices, the forces to which they are subjected and systems design considerations. Topics include statistics, dynamics, and modification of mechanisms. Lecture and laboratory course.

Prereq: PHY 221.
CADM 331 Interactive CAD Programming 3 hrs  
Students develop an interactive CAD software package. Principles of software design, the use of graphics hardware and the generating, modifying, and transforming of CAD entities and databases are included. Lecture and laboratory course.  
Prereq: CADM 231.

CADM 334 3-D Computer-Aided Design Modeling 3 hrs  
This course provides the advanced CAD user with an in-depth understanding and skill of constructing and integrating 3-D solid modeling and surface techniques into part modeling, assembly, and animation using commercial CAD software.  
Prereq: CADM 122 and CADM 223.

CADM 360 CIM Operations 3 hrs  
Concepts, components, and application of computer-based automated manufacturing. The integration and implications of CAD, CAM, and business functions into CIM are included.  
Prereq: CADM 203.

CADM 361 Computer Numerical Control 3 hrs  
NC programming for both CNC milling and lathe. The transfer of part descriptions into a detailed process plan, tool selection, and finally into NC machine codes. Computer-assisted programming, APT, and CAD/CAM for 2-D machining is emphasized. Verification is accomplished by laboratory work.  
Prereq: MATH 101 or Level 6 math placement, MFG 124, and CADM 223.

CADM 377/378/379 Special Topics 1/2/3 hrs  
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.  
Prereq: Department permission.

CADM 387 Cooperative Education in CAD/CAM Technology 3 hrs  
Industrial technology majors will be placed on a job that relates to their primary area of study, for one semester. During this period regular employee benefits may be received. Offered on a credit/no credit basis. Credit applicable to the major in industrial technology or industrial teacher education only.  
Prereq: Department permission.

CADM 411 Mechanical/Machine Design 3 hrs  
A study of the decision-making processes which mechanical engineers use in the formulation of plans for the physical realization of devices, machines, and systems. Topics include the phases of design, codes and standards, stress analysis, failure criteria, design for fatigue strength, and the design of mechanical elements.  
Prereq: MFG 124, COSC 138, CADM 211, PHY 229, and PHY 230.

CADM 417 Industrial Robotics 3 hrs  
The nature and use of industrial robotics: capabilities, equipment and associated hardware, justification, preparation and installation, launching, and monitoring. Lecture and laboratory course.  
Prereq: CADM 168, MFG 203, ELEC 218, and MFG 318.

CADM 425 Advanced Manufacturing Methods 3 hrs  
The course emphasizes computerized methods of planning, material handling, machining cells and inspection. Lecture and laboratory course.  
Prereq: MFG 100, MFG 133, MFG 124, MFG 203, and ELEC 218.

CADM 426 Manufacturing Communication Systems 3 hrs  
An overview of the computerization of information related to manufacturing production. Class will emphasize functional specification and installation problems of computer-integrated manufacturing communications systems. Lecture and laboratory course.  
Prereq: MFG 123, MFG 124, MFG 203, and ELEC 218.

CADM 427 Advanced Industrial Control 3 hrs  
The application of electricity, electronics, programmable logic controller, data acquisition, and analysis techniques to the open-loop and closed-loop control of machines and processes. Emphasis will be given to utilizations of computers and programmable logic controllers for industrial control purposes. Lecture and laboratory course.  
Prereq: ELEC 218.

CADM 432 3-D Feature-Based Modeling and Surfacing Techniques 3 hrs  
Students learn and practice 3-D feature-based part modeling and surfacing techniques on a high-performance 3-D CAD system. Advanced modeling techniques and assemblies will be presented. Lecture and laboratory course.  
Prereq: CADM 223.

CADM 433 Advanced Computer-Aided Design 3 hrs  
Advanced computer-aided design course that focuses on software installation and customization. AutoLISP programming, CAD database exchange, and CAD database exchange and CAD database exchange. Lecture and laboratory course.  
Prereq: CADM 223 and CADM 231.

CADM 435 Finite Element Analysis 3 hrs  
Finite Element Analysis (FEA) is a powerful tool used by industries to solve many engineering problems. Basic concepts of this technique will be introduced and the students will have hands-on experience to analyze heat transfer, beam deflection, and stress and strain problems by using several different software packages. Lecture and laboratory course.  
Prereq: CADM 325 or PHY 229 or instructor permission.

CADM 436 Kinematic Modelling and Analysis 3 hrs  
A study of the design and building of computer models of physical systems such as mechanical mechanisms and devices. Computer simulation is used for analysis of behavior such as displacement, velocity, and acceleration and compared with results using traditional graphs and analytical methods.  
Prereq: CADM 211, CADM 223, PHY 230.

CADM 461 CAD/CAM NC Programming 3 hrs  
Study of conversion of part descriptions to numerical control programs for mill, lathe, and three-axis machining center. Advanced APT and CAD/CAM NC programming for producing the instruction codes necessary to manufacture parts with NC machine tools are emphasized. Verification of the computer assisted NC programs are accomplished by laboratory work.  
Prereq: CADM 361.

CADM 475 3-D CAD/CAM/CAE 3 hrs  
A study of the integrated 3-D CAD/CAM/CAE approach to planning, design, and manufacturing a mechanical part. Parts are created on a 3-D CAD system, analyzed using finite element analysis software, and processed by CAM software for tool path programming.  
Prereq: CADM 334, CADM 361, CADM 435.

CADM 477/478/479 Special Topics 1/2/3 hrs  
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.  
Prereq: Department permission.

CADM 485 Flexible Manufacturing Systems 3 hrs  
Design and implementation of a flexible manufacturing cell. Machining materials, material handling and storage, inspection, and inventory are emphasized. Part programming using numerical control, robotics/programmable automation programming, development of a manufacturing database, and hierarchical computer control. Lecture and laboratory course.  
Prereq: MFG 316, CADM 324, CADM 361, QUAL 320, and CADM 425.

CADM 487 Cooperative Education in CAD/CAM Technology 3 hrs  
The second in a two-course sequence for industrial technology majors. The student will be placed on a job that relates to their primary area of study, for one semester. Regular employee benefits may be received. Graded on a credit/no credit basis.  
Prereq: CADM 387 and department permission.
CADM 491 Design Capstone
A synthesis of all previous academic work for the development of a fully defined new product in a team work environment, using CAD/CAE system and integrated design methodology for the product design process. Technical reports and presentations are required.

CADM 494/495/496 Industry-Based Special Topics 1/2/3 hrs
Course descriptions are formulated at the time of an industry's request and reflect the particular requirements of the client company. Offered on a credit/no-credit basis.

CADM 497/498/499 Independent Study 1/2/3 hrs
Available to selected students who have demonstrated ability to profit from a directed-study project. Intensive study of a problem appropriate to the student's area of concentration. Enrollment and selection of a project proposal must be approved by the department advisor and chair.
Prereq: Department permission.

Construction Management Courses

CNST 125 Introduction to Construction 2 hrs
Developing, planning, and scheduling of construction projects. Site development, material usage, specifications, estimating, and managing cost control are included.

CNST 177/178/179 Special Topics 1/2/3 hrs
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.
Prereq: Department permission.

CNST 201 Construction Systems 3 hrs
Structural systems, associated nonstructural components, and considerations appropriate to mechanical, electrical, plumbing, and support equipment. Lecture and laboratory course.
Prereq: CNST 125 and CNST 228. For Construction Management majors only.

CNST 202 Construction Materials 3 hrs
The characteristics, specifications, and applications of basic construction materials such as stone, concrete, wood, glass, plastics, metals and bituminous products. Lecture and laboratory course.
Prereq: CNST 201.

CNST 206 Surveying 3 hrs
The fundamental use of the transit and level. Linear measurement, angle measurements, extending straight lines, differential and profile leveling, a simple traverse survey, and the keeping of accurate notes. Lecture and laboratory course.
Prereq: MATH 167.

CNST 213 Construction Safety 3 hrs
Philosophical, social, economic, and technological bases for safety related to the development of a construction site safety plan. Emphasis is also placed on the OSHA and MIOSHA construction industry standards.

CNST 228 Construction Graphics 3 hrs
Basic print reading skills. Symbols, terminology, print organization, and basic material take-off techniques. Sketching and some basic drawing skills required. Lecture and laboratory course.

CNST 229 Analysis of Commercial Prints 3 hrs
Development of the ability to read and interpret prints. Actual commercial prints and project manuals are used for analysis and material take-off procedures. Preparation of field drawings using graph paper and sketching techniques. Lecture and laboratory course.
Prereq: CNST 201 and CNST 228.

CNST 277/278/279 Special Topics 1/2/3 hrs
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.
Prereq: Department permission.

CNST 302 Contract Documents, Regulations, and Specifications 3 hrs
The different types of construction contracts, construction documents and regulations, the role of specifications, and the project manual in the construction process.
Prereq: CNST 201 and LAW 293, or department permission.

CNST 304 Electrical, Mechanical, and Equipment Systems 3 hrs
This course provides an understanding of electrical, mechanical, plumbing, drain-waste-vent, equipment considerations, and other specialized nonstructural systems found in commercial buildings.
Prereq: CNST 201 and CNST 228.

CNST 306 Construction Estimating and Bidding 3 hrs
The principles and procedures for developing estimates, bids, and contracts for residential and commercial construction.
Prereq: CNST 201 and CNST 229.

CNST 361 Planning and Scheduling 3 hrs
The planning process of the construction industry. Various scheduling systems commonly used within the industry.
Prereq: CADM 105, CNST 201, and CNST 304.

CNST 377/378/379 Special Topics 1/2/3 hrs
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.
Prereq: Department permission.

CNST 387 Cooperative Education in Construction Management 3 hrs
Construction management majors will be placed on a job that relates to their primary area of study, for one semester. During this period regular employee benefits may be received. Offered on a credit/no credit basis. Credit applicable to the major in construction management only.
Prereq: Department permission.

CNST 403 Production Control 2 hrs
Methods of control used in the construction industry for production problems involving the estimate, bidding schedules, cost analysis, cost comparison, scheduling systems, evaluation and debriefing.
Prereq: CNST 301, CNST 401, and ACC 110.

CNST 406 Construction Law 2 hrs
Common basic legal problems associated with construction contracting. Current areas of concern and the significant implications are covered.
Prereq: CNST 302 and LAW 293.

CNST 450 Fundamentals of Construction Project Management 3 hrs
Students combine many previous concepts and skills into a single comprehensive project that includes estimating, scheduling, production control techniques and documentation procedures. Lecture and laboratory course.
Prereq: CNST 301, CNST 302, CNST 401, and MGMT 354.

CNST 477/478/479 Special Topics 1/2/3 hrs
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.
Prereq: Department permission.

CNST 487 Cooperative Education in Construction Management 3 hrs
The second in a two-course sequence for construction management majors. The student will be placed on a job that relates to their primary area of study, for one semester. Regular employee benefits may be received. Graded on a credit/no credit basis.
Prereq: CNST 387 and department permission.
ELEC 210 Circuit Analysis II
The second course in the study of the fundamentals of circuit analysis and design. Emphasis to AC circuits with consideration of steady-state and transient waveform analysis, using Laplace transform and Fourier methods. Laboratory data collection and report writing. Simulation software is used.
Prereq: ELEC 200. Coreq: MATH 112 or MATH 120.

ELEC 214 Digital Circuit Analysis I
The study of combinational and sequential circuits, logic families and design procedures. Simulation software is used for computer-assisted learning. Lab exercises with typical circuits data collection and report writing.
Prereq: ELEC 200.

ELEC 215 Computer-Aided Electronics
This course will introduce the student to the computers and software used for electronic circuit design and layout. CAD tools are used to develop block diagrams, electronic symbols, component representation, layout and assemblies.

ELEC 218 Motors and Controls
The study of DC and AC motor theory, operation and control. Power, energy, efficiency and applications of motors and motor control circuitry are featured.
Prereq: ELEC 200.

ELEC 219 Techniques of Energy Control
An introduction to the use of tools, materials, machines, equipments, supplies, and mechanisms utilized in power mechanics for energy control. Lecture and laboratory course.

ELEC 277/278/279 Special Topics
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.
Prereq: Department permission.

ELEC 300 Analog Circuit Analysis I
The study of the fundamentals of discrete solid state devices and linear integrated circuits. The concepts of instrumentation and control applications are included. Data collection and report writing are required.
Prereq: ELEC 210. Coreq: MATH 120.

ELEC 310 Analog Circuit Analysis II
The continuation of analog circuit design and analysis, including operational amplifiers, filters and phase-locked-loops. Laboratory exercises, data collection and report writing are included; and simulation software is used for enhanced learning.
Prereq: ELEC 300. Coreq: MATH 122.

ELEC 314 Digital Circuit Analysis II
The continuation of digital circuit design and analysis. Laboratory exercises with circuitry interfaced to a personal computer and report writing. Simulation software is also used.
Prereq: ELEC 214.

ELEC 320 Microcomputer Circuits
Circuit design and principles are considered, including address-control-data lines in microprocessors, memory and interfacing. Machines and other programming languages are used in laboratory exercises.

ELEC 377/378/379 Special Topics
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.
Prereq: Department permission.

ELEC 387 Cooperative Education in Electronic Technology
An industrial experience in some facet of business or industry where the primary work emphasis is related to electronic engineering technology. During this period employee benefits may be received. Credit/no credit.
Prereq: Department permission.

ELEC 415 Communication Circuits
The principles of communication circuits and systems are studied, including oscillations, amplifiers, modulation, antennas and transmission lines. Information theory, voice and data communications are considered also.

ELEC 420 Advanced Microprocessors
Further study of microprocessors and interfacing applications. Use of personal computers as the platform for data collection, instrumentation and control applications.
Prereq: ELEC 320.

ELEC 450 Senior Design Project
This course is intended to be the capstone activity for the student; includes a proposal phase, development phase and final project, using the skills learned throughout the program.
Prereq: ELEC 320 and ELEC 415.

ELEC 477/478/479 Special Topics
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.
Prereq: Department permission.

ELEC 487 Cooperative Education in Electronic Technology
The second industrial experience for electronic technology majors. The students will be placed on a job that relates to their primary area of study, for one semester. Regular employee benefits may be received. Graded credit/no credit.
Prereq: ELEC 387 and department permission.

ELEC 494/495/496 Industry-Based Special Topics
Course descriptions are formulated at the time of an industry's request and reflect the particular requirements of the client company. Credit/no credit.

ELEC 497/498/499 Independent Study
Available to selected students who have demonstrated ability to profit from a directed-study project. Intensive study of a problem appropriate to the student's area of concentration. Enrollment and selection of a project proposal must be approved by the department adviser and chair.
Prereq: Department permission.
Facility Management Courses

FMGT 202 Introduction to Facility Management 3 hrs
The student will gain an overview of the facility management profession. The following topics will be introduced: history of the facility management profession, organizational structure, property management, facilities planning, maintenance and operations, managing support services, managing construction projects, strategic planning and budgeting, and conducting a facilities audit.

FMGT 230 Facility Operations and Maintenance  3 hrs
This course provides the student with an introduction to the operation and maintenance of facility systems. These systems include: heating, ventilation and air conditioning; elevators; grounds; building exterior and roof; interior walls and floors; plumbing; electrical; telecommunications; fire safety; and security.

FMGT 416 Managing Utilities, Lighting Systems, and Code Compliance 3 hrs
This course covers utility rate structures and their effect on building operation strategies, building code requirements, and managing lighting systems for cost efficiency and code compliance.
Prereq: CADM 103 and FMGT 202.

FMGT 417 Computer-Aided Facility Management 3 hrs
This course teaches the student how to use software that is dedicated to managing facilities.
Prereq: CADM 103 and FMGT 202.

FMGT 418 Building Automation Systems 3 hrs
This course teaches the student how computerized control systems work in a building. The principal systems covered will be: heating, ventilation and air conditioning control; lighting systems switching and dimming; elevators; optimum scheduling; security access control and monitoring; and fire safety and air-flow controls, alarms and sprinklers.
Prereq: CADM 103 and FMGT 202.

FMGT 424 Industrial Plant Facilities and Planning 3 hrs
Planning procedures related to small plant and heavy industrial production. Mass production layout methods, machine and production equipment arrangements, types of plant architecture and related facilities, transportation and handling facilities, lighting, sewerage, ventilation, water supply, electrical power and personal facilities are included.

FMGT 432 Seminar in Facility Management 3 hrs
This course is an update experience that considers and integrates special problems in facility management.
Prereq: FMGT 202, FMGT 230, senior standing, completed or concurrent co-op.

Manufacturing Courses

MFG 103 Introduction to Automation 3 hrs
An introduction to the technology of discrete parts manufacturing. Topics include the contemporary manufacturing environment, new and emerging technologies, human-machine interfaces and human resource issues. Course includes field trips.

MFG 111 Materials 3 hrs
This course introduces students to the major categories of engineering materials. It focuses on selection, failure and degradation of metals, polymers, ceramics and composites.

MFG 112 Plastics 3 hrs
A study of the plastics industry, material properties and identification, processing techniques, and application of design to product manufacture. Lecture and laboratory course.

MFG 123 Manufacturing Processes and Methods I 3 hrs
An introduction and survey of manufacturing processes and materials. Lectures, laboratory, and outside study assignments are an essential part of this course and are related to heat treating, properties of materials, casting, forming and joining. Lecture and laboratory course.

MFG 124 Manufacturing Processes and Methods II 3 hrs
An introduction and survey of machines, tools, processes, and materials of industry. Includes conventional and nonconventional machining, theory of metal removal, cutting tool geometry and materials, fixtureing, and measuring devices. Lecture and laboratory course.
Prereq: MATH 107 or Level 4 math placement.

MFG 140 Science, Technology, and People 3 hrs
This course will help people better understand the complementary relationship between science and technology in (a) creating technical devices, services and systems; and (b) solving problems.

MFG 177/178/179 Special Topics 1/2/3 hrs
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.
Prereq: Department permission.

MFG 203 Industrial Operation 3 hrs
A survey course in the practices of manufacturing organizations. Units include careers, regulatory agencies, facilities management, group technology, problem solving and quality decision making.
Prereq: MFG 122.

MFG 215 Machine Tool Metalworking 3 hrs
Machine tools and metalworking processes including turning, drilling, shaping, milling and grinding. Principles of tooling, precision measurement and identification of metals. Lecture and laboratory course.

MFG 251 Material Analysis and Testing 3 hrs
Study of the structure, characteristics, and working qualities of common industrial materials. Lecture and laboratory course.

MFG 277/278/279 Special Topics 1/2/3 hrs
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.
Prereq: Department permission.

MFG 306 Plastic Processing 3 hrs
A study of high polymers, basic resin types, and their application to molding and fabrication process. Analysis of chemical and physical properties, mold design, and problems of production. Experimentation and testing required. Lecture and laboratory course.
Prereq: MFG 111.

MFG 316 Design for Manufacturing and Tooling 3 hrs
A study of manufacturing tooling systems integrated with product and process design principles, utilizing concurrent engineering methods. Students from various programs will work together in integrated teams and use complementary tools and skills to solve design problems. Lecture and laboratory course.
Prereq: MFG 124 and MFG 203.

MFG 318 Fluid Power 3 hrs
Industrial hydraulic and pneumatic power transmission. Emphasis is on components, system control techniques, system analysis, and design. Lecture and laboratory course.
Prereq: PHY 211.

MFG 377/378/379 Special Topics 1/2/3 hrs
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.
Prereq: Department permission.
MFG 387 Cooperative Education in Manufacturing Technology 3 hrs
Industrial technology majors will be placed on a job that relates to their primary area of study, for one semester. During this period regular employee benefits may be received. Offered on a credit/no credit basis. Credit applicable to the major in industrial technology or industrial teacher education only.
Prereq: Department permission.

MFG 409 Plastics Mold Design and Construction 3 hrs
Principles of mold design for a variety of plastic-molding processes. Mold materials, machining, fabrication, and testing in appropriate processing equipment are required. Lecture and laboratory course.
Prereq: MFG 306.

MFG 410 Plastics Product Design 3 hrs
The development of products through plastic materials selection and design that includes the esthetics of design and the selection of engineering properties. Lecture and laboratory course.
Prereq: MFG 306.

MFG 411 Plastics Fabricating and Decorating 3 hrs
Processes involved in forming and fastening of standard profile materials in plastics. Methods of joining, machining, and decorating of plastics materials and products are required. Lecture and laboratory course.
Prereq: MFG 306.

MFG 421 Manufacturing Engineering Analysis 3 hrs
An advanced course in the analysis of manufacturing operations, utilizing current and new concepts and methods of manufacturing engineering and quality. Students from various programs will work together in integrated teams and utilize complementary tools and skills to identify and solve problems. Lecture and laboratory course.
Prereq: MFG 316.

MFG 477/478/479 Special Topics 1/2/3 hrs
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.
Prereq: Department permission.

MFG 487 Cooperative Education in Manufacturing Technology 3 hrs
The second in a two-course sequence for industrial technology majors. The student will be placed on a job that relates to their primary area of study, for one semester. Regular employee benefits may be received. Offered on a credit/no credit basis.
Prereq: MFG 387 and department permission.

MFG 490 Manufacturing Enterprise Capstone 3 hrs
This capstone course will focus on the design and development of a product and the production system and enterprise for its manufacture. Students from various programs will work together in integrated teams and utilize complementary tools and skills to solve design, planning and production problems. Lecture and laboratory course.
Prereq: MFG 421.

MFG 494/495/496 Industry-Based Special Topics 1/2/3 hrs
Course descriptions are formulated at the time of an industry's request and reflect the particular requirements of the client company. Offered on a credit/no credit basis.

MFG 497/498/499 Independent Study 1/2/3 hrs
Available to selected students who have demonstrated ability to profit from a directed-study project. Intensive study of a problem appropriate to the student's area of concentration. Enrollment and selection of a project proposal must be approved by the department adviser and chair.
Prereq: Department permission.

Quality Technology Courses

QUAL 177/178/179 Special Topics 1/2/3 hrs
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.
Prereq: Department permission.

QUAL 277/278/279 Special Topics 1/2/3 hrs
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.
Prereq: Department permission.

QUAL 320 Industrial Quality Control 3 hrs
An introduction to quality control systems and methods utilized in industry. Topics include quality policy and organization, data collection, and reporting, control charts, process and gauge capability, sampling plans, reliability, cost of quality, product liability, and problem analysis.
Prereq: MATH 118 or MATH 170 or Level 3 math placement.

QUAL 377/378/379 Special Topics 1/2/3 hrs
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.
Prereq: Department permission.

QUAL 387 Cooperative Education in Quality Technology 3 hrs
Industrial technology majors will be placed on a job that relates to their primary area of study, for one semester. During this period regular employee benefits may be received. Offered on a credit/no credit basis. Credit applicable to the major in industrial technology or industrial teacher education only.
Prereq: Department permission.

QUAL 477/478/479 Special Topics 1/2/3 hrs
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.
Prereq: Department permission.

QUAL 487 Cooperative Education in Quality Technology 3 hrs
The second in a two-course sequence for industrial technology majors. The student will be placed on a job that relates to their primary area of study, for one semester. Regular employee benefits may be received. Offered on a credit/no credit basis.
Prereq: QUAL 387 and department permission.

QUAL 494/495/496 Industry-Based Special Topics 1/2/3 hrs
Course descriptions are formulated at the time of an industry's request and reflect the particular requirements of the client company. Offered on a credit/no credit basis.

QUAL 497/498/499 Independent Study 1/2/3 hrs
Available to selected students who have demonstrated ability to profit from a directed-study project. Intensive study of a problem appropriate to the student's area of concentration. Enrollment and selection of a project proposal must be approved by the department adviser and chair.
Prereq: Department permission.

Degree
Bachelor of Science
Programs of Study

Major
- Aviation Management Technology
- Communication Technology
- Industrial Distribution
- Polymers and Coatings Technology
- Technology Management

Minors
- Aviation Flight Technology
- Graphic Communication Technology and Society

The Department of Interdisciplinary Technology draws heavily from other disciplines throughout the University. Its undergraduate programs are listed below and are in addition to a master of liberal studies in technology and a master of science in polymers technology, described in the graduate catalog.

Advising Coordinators:
- Aviation management technology: Timothy Doyle
- Communication technology: David Gore
- Industrial distribution: John Boyle
- Polymers and coatings technology: David Wordstrom
- Aviation flight technology: Timothy Doyle
- Graphic communication minor: David Gore

Communications Technology

ISIS major code: ID07

The communications technology curriculum is designed to provide individuals for entry-level management and supervisory positions in the field of communications. The program has a foundation of aviation-related and basic business course work.

General studies ...................................................................................... 49 hours
General education requirements .............................................................. 29 hours
Other requirements .................................................................................. 18 hours

#ECON 201 Principles of Economics I (satisfies general education requirement III.3) .......................... 3
#ECON 202 Principles of Economics II (satisfies general education requirement III.4) ......................... 3
#INDT 150 Understanding Technology (satisfies general education requirement II.3) ......................... 3
#INDT 201 Microcomputer Applications in Technology (satisfies general education requirement I.5) ....... 3
#PLSC 112/PLSC 113 American Government (satisfies general education requirement III.1) ............... 3
Physical education/graduation requirements ................................................. 2 hours

Aviation management major .................................................................... 69 hours
INDT 422 Senior Seminar in Aviation Management ...................................... 3
MGMT 384 Human Resource Management .............................................. 3
MGMT 386 Organizational Behavior and Theory ......................................... 3
#MATH 118 Mathematical Analysis for Social Sciences I (satisfies general education requirement I.4) ........ 3
#MATH 119 Mathematical Analysis for Social Sciences II (satisfies general education requirement I.4) .... 3
DS 265 Business Statistics I ....................................................................... 3
ACC 240 Principles of Accounting I ........................................................... 3
ACC 241 Principles of Accounting II .......................................................... 3
MATH 350 Principles of Finance ................................................................. 3
MKTG 360 Principles of Marketing .............................................................. 3
#IS 215 End-User Computing (satisfies general education requirement I.5) ............................................. 3
LAW 293 Legal Environment of Business .................................................. 3

Elective courses ...................................................................................... 6 hours
No minor is required.

Total ........................................................................................................... 124 hours

NOTE:
#These courses satisfy both general education requirements and requirements of the major. In order to avoid taking excess hours, students are advised to take these courses, or approved substitutes from another institution, as part of the general education requirements.

Communications Technology Curriculum

ISIS major code: ID07

Communication technology is a joint program offered by the Department of Interdisciplinary Technology and the Department of Communication and Theatre Arts. This curriculum is designed to provide the background necessary for graduates to find employment as managers in communication-based industries. The program emphasis is on having the student acquire those business, manufacturing, media, computer and communication skills necessary for employment in today's communication technology industries and business organizations.

General studies ...................................................................................... 49 hours
General education requirements .............................................................. 26 hours

#ECON 201 Principles of Economics I (satisfies general education requirement III.3) ......................... 3
#ECON 202 Principles of Economics II (satisfies general education requirement III.4) ......................... 3
#INDT 150 Understanding Technology (satisfies general education requirement II.3) ......................... 3
#MATH 118 Mathematical Analysis for Social Sciences I (satisfies general education requirement I.4) .... 3
#PSY 101 General Psychology (satisfies general education requirement II.2 or II.3) ............................... 3
One course from the following ................................................................. 3
#ENGL 324 Principles of Technical Communication (satisfies general education requirement I.3) (3)
#CTAC 227 Interpersonal Communication (satisfies general education requirement I.3) (3)
#CTAC 374 Intercultural Communication (satisfies general education requirement I.3 and the cross-cultural/ international studies requirement) (3)

Any course in foreign language composition
One course from the following ................................................................. 3
#INDT 201 Microcomputer Applications in Technology (satisfies general education requirement I.5) (3)
#IS 215 End-User Computing (satisfies general education requirement I.5) (3)
The industrial distribution program is designed to provide graduates with the theoretical as well as practical applications today's industry is seeking. It develops graduates for career opportunities in industrial and technical sales, management, materials planning, quality assurance, purchasing, inventory control and branch/operations management. No minor is required.

General studies ............................................. 49 hours
General education requirements ................................ 27 hours
Other requirements ........................................... 22 hours

#ECON 201 Principles of Economics I (satisfies general education requirement II.3) .................................. 3
#ECON 202 Principles of Economics II (satisfies general education requirement III.3) .................................. 3
#ENGL 121 English Composition (satisfies general education requirement I.1) ........................................... 3
#INDT 150 Understanding Technology (satisfies general education requirement II.3) .................................. 3
#INDT 201 Microcomputer Applications in Technology (satisfies general education requirement L.5) .................... 3
#PLSC 112/PLSC 113 American Government (satisfies general education requirement III.1) .......................... 3

Other requirements ........................................... 36 hours
#BIOI 10 Introductory Biology for Non-Majors (satisfies general education requirement II.1 or III.3) .................. 4
#CHEM 121-CHEM 122 General Chemistry I with lab (satisfies general education requirement II.1 or III.3) ........... 4
#CTAS 121 Fundamentals of Speech (satisfies general education requirement L.2) ........................................... 2
#ECON 201 Principles of Economics I (satisfies general education requirement III.3) .................................. 3
#ECON 202 Principles of Economics II (satisfies general education requirement III.4) .................................. 3
#ENGL 121 English Composition (satisfies general education requirement I.1) ........................................... 3
#ENGL 324 Principles of Technical Communication (satisfies general education requirement I.3) ....................... 3
#INDT 201 Microcomputer Applications in Technology (satisfies general education requirement L.5) .................. 3
#MATH 120 Calculus I (satisfies general education requirement L.4) ......................................................... 3

Other requirements ........................................... 0 hours

Elective courses ........................................... 30 hours

Total ......................................................... 124 hours

NOTE:
*No more than 30 hours in the College of Business may be taken by nonbusiness majors.
#These courses satisfy both general education requirements and requirements of the major. In order to avoid taking excess hours, students are advised to take these courses, or approved substitutes from another institution, as part of the general education requirements.

Polymers and Coatings Technology Curriculum

The polymers and coatings curriculum is designed to provide the background necessary for graduates to find employment in research and development laboratories of companies that manufacture paints, coatings, adhesives, and inks, or in companies that manufacture raw materials for these industries.

Students completing this curriculum have met the major and minor requirements for graduation. No outside minor is needed.

General studies ............................................. 68 hours
General education requirements ................................ 14 hrs
Other requirements ........................................... 36 hours

#BIOI 10 Introductory Biology for Non-Majors (satisfies general education requirement II.1 or III.3) .................. 4
#CHEM 121-CHEM 122 General Chemistry I with lab (satisfies general education requirement II.1 or III.3) ........... 4
#CTAS 121 Fundamentals of Speech (satisfies general education requirement L.2) ........................................... 2
#ECON 201 Principles of Economics I (satisfies general education requirement III.3) .................................. 3
#ECON 202 Principles of Economics II (satisfies general education requirement III.4) .................................. 3
#ENGL 121 English Composition (satisfies general education requirement I.1) ........................................... 3
#ENGL 324 Principles of Technical Communication (satisfies general education requirement I.3) ....................... 3
#INDT 201 Microcomputer Applications in Technology (satisfies general education requirement L.5) .................. 3
#MATH 120 Calculus I (satisfies general education requirement L.4) ......................................................... 3
#PHY 221 Mechanics, Sound, and Heat (satisfies general education requirement II.I or II.3) ........................................ 4
#PLSC 112/PLSC 113 American Government (satisfies general education requirement III.1) ........................................ 3

Additional required courses ..................................................................... 16 hours
CHEM 123 General Chemistry ................................................................. 1
CHEM 124 General Chemistry Laboratory ............................................... 1
CHEM 381 Instrumentation of Chemical Technology ............................. 2
MATH 105 College Algebra ...................................................................... 3
MATH 107 Plane Trigonometry ................................................................ 2
PHY 222 Electricity and Light ................................................................. 4

Physical education/graduation requirements ............................................. 2 hours

Polymers and coatings technology major .............................................. 54-55 hours

Required courses .................................................................................. 42 hours
CHEM 281 Quantitative Analysis ............................................................ 4
INDT 310 Polymers for Engineers and Technologists ............................ 3
CHEM 361 Fundamentals of Physical Chemistry .................................... 3
CHEM 371 Organic Chemistry I .............................................................. 3
CHEM 372 Organic Chemistry II ............................................................ 3
CHEM 373 Organic Chemistry Laboratory ......................................... 2
INDT 387 Cooperative Education in Interdisciplinary Technology ....... 3
INDT 400 Polymers and Coatings Technology I .................................... 3
INDT 401 Polymers and Coatings Technology I Laboratory .............. 3
INDT 402 Polymers and Coatings Technology II ................................ 3
INDT 403 Polymers and Coatings Technology II Laboratory .............. 3
INDT 405 Coating Processes ............................................................... 3
INDT 460 Advanced Coatings Topics .................................................. 3
INDT 479 Special Topics: Statistical Process Control in Coatings ....... 3

Elective courses ..................................................................................... 12-13 hours
12-13 hours from the following:
CHEM 241 Materials Science (3)
CHEM 340 Introduction to Industrial Chemistry (3)
CHEM 415 Environmental Chemistry (3)
CHEM 478 Special Topics (2)
INDT 487 Cooperative Education in Interdisciplinary Technology (1)
INDT 478 Special Topics: Instrumental Analysis of Coatings (2)

Elective courses ..................................................................................... 1-2 hours

Total ....................................................................................................... 124 hours

**NOTE:**

These courses satisfy both general education requirements and requirements of the major. In order to avoid taking excess hours, students are advised to take these courses or approved substitutes from another institution, as part of the general education requirements.

### Technology Management Curricula

**ISIS major code: ID09**

**General studies** .............................................................................. 49-55 hours
General education requirement ............................................................. 23-29 hours
Other requirements ............................................................................. 24 hours

- ENGL 324 Principles of Technical Communication .......................... 3
- MATH 118 Mathematical Analysis for Social Science I .................... 3
- MATH 119 Mathematical Analysis for Social Science II .................. 3

- ECON 202 Principles of Economics II .............................................. 3
- Physical education/graduation requirements ..................................... 2 hours

**Technology management major** ....................................................... 70 hours

Core courses .......................................................................................... 15 hours

- INDT 130 Introduction to Technology Management ..................... 3
- INDT 212 The Management of Technological Change .................. 3
- INDT 311 Information Technology Management and Organizations .......................................................... 3
- INDT 314 A Socio-Technical Systems Approach to Process Improvement .......................................................... 3
- INDT 415 Senior Seminar in Technology Management ................ 3

Elective courses ..................................................................................... 9 hours
- MFG 105 Introduction to Automation .............................................. 3
- MFG 123 Manufacturing Processes and Methods I ......................... 3
- MFG 203 Industrial Operation .......................................................... 3
- ACC 240 Principles of Accounting ................................................... 3
- BEDU 310 Wood/Information Processing Administration .............. 3
- MKTG 360 Principles of Marketing .................................................. 3
- MGMT 386 Organizational Behavior and Theory ............................ 3
- ECON 386 Technology and Economic Growth ............................... 3
- INDT 387 Cooperative Education .................................................... 3
- PLSC 381 Public Policy Analysis ..................................................... 3
- SOCL 462 Complex Organizations .................................................. 3

**Technical Concentrations** ................................................................ 46 hours

This program of study is specifically designed for the under-served student population whose associate-degree program does not easily articulate with existing bachelor of science degree programs. Technical specializations from two-year institutions which do not transfer to an appropriate bachelor of science degree program are transferable into this concentration. These technical specializations will include, but not be limited to, the following areas:

- Automotive Service Technology
- Biomedical Engineering Technology
- Computer Service Technology
- Correctional Science
- Criminology
- Emergency Medical Technician
- Environmental Technology
- Fire Technology
- Fluid Power Technology
- Graphic Design Technology
- Health Information Technology
- Laser-Electro Optics
- Photographic Technology
- Public Safety Technology
- Refrigeration and Air Conditioning Technology
- Telecommunication Technology

**Minor** .............................................................................................. 0 hours

No minor is required.

**Total** .................................................................................................. 124 hours

### Aviation Flight Technology Minor

**ISIS minor code: ID01**

The aviation flight technology minor is designed to develop flight skills as a pilot for various fields of aviation. Students who complete the minor will have earned their private pilot license and their commercial pilot license with an instrument rating, will be certified for flying personal and business interests and will be prepared for entry into the professional and career pilot field if they so choose.

**Required courses** ............................................................................. 21 hours

- INDT 179 Aviation Ground Instruction .............................................. 3
- INDT 251 Basic Flight I ..................................................................... 2
- INDT 261 Basic Flight II .................................................................... 2
- INDT 271 Basic Flight III ................................................................. 2
- INDT 341 Advanced Ground Instruction .......................................... 3
- INDT 351 Advanced Flight I ............................................................. 2
Graphic Communication Minor

This minor is designed to provide technical communication skills to majors in fields such as graphic design and journalism. The electives in the minor are diverse and extensive enough to allow for individual flexibility.

Interdisciplinary Technology Courses

This course is designed to provide a basic understanding of the operational categories within civil aviation and the functions of state and federal government in its control and regulation. The history, scope, and diverse nature of aviation will be discussed, together with some of the many occupational opportunities available.

**Elective courses**

Total: 24-26 hours
INDT 170 Aviation Ground Instruction
3 hrs
Basic ground instruction in aerodynamics, navigation, federal aviation regulations, meteorology, and flight procedures directed toward preparation for the private pilot written examination.

INDT 177/178/179 Special Topics
1/2/3 hrs
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once; provided different topics are studied.
Prereq: Department permission.

INDT 201 Microcomputer Applications in Technology
3 hrs
An introduction to microcomputers and their applications in technology. The course contains an introduction to word processing, spreadsheets, database management, and their applications.
Prereq: Basic keyboard skill is recommended; EDU 119 is suggested.

INDT 204 Photographic Communication
3 hrs
Basic functions, principles and applications of photography in graphic communication. Lecture: two hours per week. Laboratory: two hours per week. Students must furnish their own camera and photo materials.

INDT 205 Phototechnology
2 hrs
The applications of light sensitive materials used in industry to include photodrafting and photofabrication. Lecture: one hour per week. Laboratory: two hours per week.
Prereq: IND 121 and a chemistry course.

INDT 207 Photographic Reproduction
3 hrs
Study and laboratory work in photomechanics, stripping and platemaking as applied to offset presswork. Includes the preparation of layout materials for printing. Lecture: one hour per week. Laboratory: two hours per week.
Prereq: IND 104 or IND 121.

INDT 210 Aircraft Maintenance II
3 hrs
The functions and organization of an aircraft maintenance facility and role of the supervisors within that structure. Lecture: three hours per week.
Prereq: IND 110.

INDT 211 The Management of Technological Change
3 hrs
The implementation of new technology within organizations often requires substantial changes in organizational, group, and individual work processes. This course will present change frameworks that enhance the effectiveness and efficiency of technology change and implementation. It will integrate materials from several disciplines including organizational development, management, industrial engineering, and organizational science.
Prereq: IND 139 (May be taken concurrently).

INDT 214 Rubber Technology I
2 hrs
Lectures and laboratory experiments on the fundamentals of rubber chemistry, compounds and processing technology, and rubber testing methods.
Prereq: High school or college course in chemistry, or approval of instructor.

INDT 220 Flight Operations II
3 hrs
In-depth study of the functions and organization of operations and the relationship with the other departments within an aviation organization.
Prereq: IND 120.

INDT 231 Introduction to Computer Graphic Systems
3 hrs
Students are provided with opportunities to work on a variety of CAD and paint systems. Students will learn terminology for graphics hardware and software, write short graphics programs, and explore applications of graphics to their own field of study. Lecture and laboratory course. Course does not count for CAD majors.

INDT 240 Profit Strategies in Distribution
3 hrs
Explanation of the terms related to profits and markup, calculation of profit, discounts, markups, identification and interpretation of profitability ratios, and the distribution of financial resources.

INDT 250 Wire Technology I
3 hrs
The fundamentals of wire manufacturing, steel production, wire joining, cleaning, descaling, coating, drawing, cooling and lubrication. Lecture and demonstration. No previous wire manufacturing knowledge required.

INDT 251 Basic Flight I
2 hrs
The student will receive dual instruction in preflight procedures, ground reference maneuvers, takeoff and landings, power-off and power-on stalls, local flight operations, and precision flight maneuvers. Remaining hours will be solo flight.
Prereq: IND 121, Student Pilot Certificate, and Class II or III Medical.

INDT 255 Emergency Preparedness Planning
3 hrs
An introduction to emergency planning, including assessment of community hazards and resources, for students responsible for civil defense or emergency-preparedness tasks. Provides a planning and analytical framework, hazard/vulnerability analysis, that can be applied to the local comprehensive emergency-management context.

INDT 261 Basic Flight II
2 hrs
The student will receive dual instruction and solo practice in extended cross-country flight operations, flight proficiency maneuvers, and all phases of flight specified by the Federal Aviation Administration. The student will be prepared to take the oral and flight examination for the Private Pilot Certificate.
Prereq: IND 251.

INDT 271 Basic Flight III
2 hrs
The student will receive an introduction to commercial maneuvers and instrument flying techniques, including dual instruction and solo practice in areas of ground reference maneuvers, flight precision maneuvers, radio navigation, and special cross-country flight operations.
Prereq: IND 261.

INDT 277/278/279 Special Topics
1/2/3 hrs
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once; provided different topics are studied.
Prereq: Department permission.

INDT 303 Aviation Law and Insurance
3 hrs
Overview of legal considerations in general aviation, government agencies exercising control, regulations, laws, advisory information, and insurance requirements and considerations.

INDT 304 Advanced Photographic Communication
3 hrs
Photographic theory and techniques, with particular emphasis upon commercial and industrial applications. Lecture: two hours per week. Laboratory: two hours per week. The student must furnish a camera and photo materials.
Prereq: IND 204.

INDT 305 Communication Transmission Systems
3 hrs
Consideration of source, encoder (transmitter), channel and receiver functions. Principles of line communication, a study of various systems, and future developments in communication transmission systems.

INDT 308 Seminar in Technological Impacts
3 hrs
An undergraduate-level introduction to technology assessment. Development of skills related to forecasting technological inventions and assessing their effect if adopted by society.

INDT 310 Polymers for Engineers and Technologists
3 hrs
Introduction to polymer science, polymerization, polymer modifications, size and weight of polymer molecules, plastics, adhesives, silicones, foams, surface coatings, fibers, elastomers, transitions, and relaxations in polymers, rheology, polymer fabrication techniques.

INDT 311 Information Technology Management and Organizations
3 hrs
This course will introduce the student to the varying aspects of information technology management in organizations. Emphasis will be placed on the technical and organizational foundations of information systems along with contempo-
INDT 313 Aviation Industry Regulations 3 hrs
The major significance of aviation regulations and policies including the development and enforcement of federal aviation regulations will be presented. The major elements of managing an aviation operation within the guidelines of international and federal aviation industry regulations together with the influence of local and state requirements will be presented.

INDT 314 A Socio-Technical Systems Approach to Process Improvement 3 hrs
The purpose of this course is to describe an approach to process improvement that integrates technical aspects of industrial engineering with social psychological dimensions of work processes. The course will delineate ideas for strategically incorporating technology levers into plans for improving work processes on an individual and work group level.

INDT 315 Airport Management 3 hrs
The major elements in the process of planning and managing airports are presented including federal airport policy, the airport master-planning process, capacity analysis, site selection and funding. The historical development of actual current practices in airport administration, operations management, maintenance and safety will be presented.

INDT 318 Graphic Arts Workshop 3 hrs
Selected topics in the field of graphic arts technology, such as composition, press work, screen process and advanced photomechanics. May be repeated for additional credit.

INDT 320 Aviation Safety 3 hrs
In-depth study of aviation safety (flight and ground); accident prevention; accident investigation and personnel training.

INDT 321 Cockpit and Crew Resource Management 3 hrs
The major elements in the process of planning and managing airports are presented including this course will present an introduction to the theories and concepts that make up the elements of Cockpit and Crew Resource Management (CRM). Topics include aviation human factors, high integrity flight teams, stress and performance, situational awareness and assessment, decision making, conflict resolution and problem solving will be explored.

INDT 340 Relationships in Wholesaling 3 hrs
Analysis of major industries and professional trade associations, and their interaction within the marketing channel. Emphasis will be placed on the relationship between trade associations and industry, elements of the marketing channel (manufacturer, distributor, customer, and the employer and employee).

INDT 341 Advanced Ground Instruction 3 hrs
Advanced ground instruction in aerodynamics, navigation regulations, and procedures directed toward preparation for the instrument rating and commercial pilot written examinations.

INDT 350 Wire Technology II 3 hrs
An intermediate course designed to study contemporary concepts and practices of wire manufacturing.

INDT 351 Advanced Flight I 2 hrs
The student will receive dual instruction and solo practice in advanced cross-country navigation, commercial maneuvers, and an introduction to instrument flying techniques.

INDT 361 Advanced Flight II 2 hrs
The student will receive dual instruction and solo practice in commercial flight maneuvers and instrument flight procedures, including instrument approaches, holding patterns and partial panel procedures.

INDT 371 Advanced Flight III 2 hrs
The student will complete the dual instruction and solo practice in all phases of flight training specified by the Federal Aviation Administration for the issuance of the Commercial Pilot Certificate and the instrument rating. The student will complete the oral examinations and flight tests required for this certificate and rating.

INDT 377/378/379 Special Topics 1/2/3 hrs
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

INDT 380 Planning and Decision-Making for Public Safety 3 hrs
The study of planning and decision-making techniques as applied to public safety operations; includes attention to concepts, e.g., the process of change in organizations, as well as particular skills and techniques; e.g., PERT, decision trees.

INDT 381 Public Relations and Public Safety 3 hrs
An examination of the relationship between public safety agencies and the larger community, with particular emphasis on administrative and policy dimensions, the role of public safety agencies, the community's involvement in establishing that role, police-community relations programs, relationships with the media, and professionalization and accreditation movements in public safety agencies are addressed.

INDT 387 Cooperative Education in Interdisciplinary Technology 3 hrs
A minimum of three to four months of full-time employment in a business or industry that provides experiences directly related to the major area of study. Work sites must be approved in advance by the Interdisciplinary Technology Department. Regular employee benefits may be received during the employment period.

INDT 391 Wholesale Account Development 3 hrs
An in-depth study into the processes and techniques involved in acquiring and developing industrial accounts from the distributor's point of view. The course will develop practical and effective skills in the area of advanced industrial wholesale account development. Guest lectures by manufacturers' representatives and from purchasing agents will augment the course.

INDT 400 Polymers and Coatings Technology I 3 hrs
Introduction to synthesis, film formation, structure, and properties of polymers commonly used in coatings. Polymer systems to be covered include acrylic, vinyl, polystyrene, allyl, epoxies, epoxyesters, aminoplasts, urethanes, phenolics, hydrocarbons, cellulose.

INDT 401 Polymers and Coatings Technology I Laboratory 3 hrs
Synthesis, characterization and identification of polymers used in coatings. The synthesis of solution acrylic, vinyl, acrylic emulsion, polyester, alkyd, epoxide, melamine formaldehyde and urethane polymers with extensive use of physical techniques such as GIFT, GIP and calorimetry.

INDT 402 Polymers and Coatings Technology II 3 hrs
Formulation in oil-based and waterborne coatings covering the use of solvents, pigments and additives. Principles of adhesion and corrosion, and the use of conversion coatings. Safety, health, government regulations and paint production techniques.

INDT 409 Polymers and Coatings Technology II Laboratory 3 hrs
Synthesis, characterization and identification of polymers used in coatings. The synthesis of solution acrylic, vinyl, acrylic emulsion, polyester, alkyd, epoxide, melamine formaldehyde and urethane polymers with extensive use of physical techniques such as GIFT, GIP and calorimetry.

INDT 410 Polymers and Coatings Technology I Laboratory 3 hrs
Synthesis, characterization and identification of polymers used in coatings. The synthesis of solution acrylic, vinyl, acrylic emulsion, polyester, alkyd, epoxide, melamine formaldehyde and urethane polymers with extensive use of physical techniques such as GIFT, GIP and calorimetry.

INDT 420 Polymers and Coatings Technology II 3 hrs
Formulation in oil-based and waterborne coatings covering the use of solvents, pigments and additives. Principles of adhesion and corrosion, and the use of conversion coatings. Safety, health, government regulations and paint production techniques.
INDT 403 Polymers and Coatings Technology II Laboratory 3 hrs
Practical formulation in oil-based and waterborne systems including the preparation and evaluation of various topcoats and primers currently used in the coatings industry (e.g., oil-based air-dry enamel, thermostetting coating, epoxyester primer, two-package urethane, acrylic latex and ED primer).
Prereq: INDT 402.

INDT 404 Photo Communication Workshop 3 hrs
Selected topics in photo communications, such as commercial and industrial photography, photo journalism, sensitometry and photography, and photo processing. The class schedule describes the specific topic being offered during a given semester. May be repeated for credit.
Prereq: INDT 304.

INDT 405 Coating Processes I 3 hrs
Development of expertise in industrial coating processes. substrate preparation, principles of adhesion, corrosion control, industrial coating materials, industrial coating systems, and regulatory compliance in the coatings industry.
Prereq: INDT 310 or INDT 400, or department permission.

INDT 409 Emerging Technologies in Storage and Retrieval 3 hrs
Conventional as well as emerging technologies of information storage and retrieval. Lecture and laboratory.

INDT 415 Senior Seminar in Technology Management 3 hrs
This course will allow students to synthesize the structure and procedures of strategic management and project management. The course will integrate the ideas and information presented in other courses within the Technology Management concentration core. Students will demonstrate their ability to integrate information ascertained from previous courses within a capstone project.
Prereq: INDT 130.

INDT 420 Women and Technology 3 hrs
This course surveys gender issues surrounding technology development, transfer and use. We will examine these issues from historical, contemporary and global perspectives.

INDT 421 Photographic Typesetting 3 hrs
Study of the fundamentals of phototypesetting technology. Document preparation, keyboard entry, file manipulation, and typeset copy output will be covered as well as word processor interfacing. Two hour lecture, two hour lab.

INDT 422 Senior Seminar in Aviation Management 3 hrs
Current issues in aviation management will be explored using group and individual projects and analysis of case studies. Research, analysis, and application of skills and knowledge acquired in other course work will be stressed.
Prereq: Department permission.

INDT 425 Communication Technology and Social Change 3 hrs
The social implications of recent and future developments in communication technology. The effects upon education, research and scientific knowledge, business and entertainment.

INDT 433 Arson Investigation 3 hrs
An examination of the nature and causes of suspicious and incendiary fires, their detection and investigation; involves classroom lecture and field training. Students will conduct fire scene investigations, collect evidence, document findings, and participate in a mock trial. Assumes no previous experience in fire investigation. Students must provide their own 35mm camera, safety shoes, gloves, and hard hat.
Prereq: CHEM 117-CHEM 118 or PHY 221.

INDT 434 Hazardous Materials 3 hrs
An examination of hazardous material incidents from the perspective of the public safety officer/manager charged with protecting people and property; identifying hazardous materials, assessing hazardous material accidents, planning and tactics for addressing hazardous material problems.
Prereq: CHEM 117-CHEM 118 or PHY 221.

INDT 435 Incident Command 3 hrs
The study of complex fire situations, including analysis of prefire planning, establishing and managing the command post, and effective management of complex fireground operations. Emphasizes the study of multiple company response and the efficient utilization of available and prospective resources in handling major fires.
Prereq: PLSC 450 or department permission.

INDT 436 Electronic Publishing Technology 3 hrs
The application of electronic design and layout principles to publication and presentation documents. Develop skills in graphics, type, file creation and manipulation, word processing interface, and output of paginated, camera-ready copy through several software packages.

INDT 440 Inventory Strategies in Distribution 3 hrs
An examination of the wholesale inventory management problem. The interrelationship between physical inventory, profitability and customer service will be explored.
Prereq: INDT 240.

INDT 444 Quality Planning in Distribution 3 hrs
Wholesale distributors are moving toward a total commitment to the philosophy of continuous improvement with zero errors as their ultimate goal. The course explores the quality assurance movement as it applies to wholesalers.
Prereq: INDT 350 or permission of instructor.

INDT 450 Advanced Coatings Topics II 3 hrs
Advanced wire technology; in-depth study of wire in manufactured products.
Prereq: INDT 305 or permission of instructor.

INDT 452 Current Trends in Emergency Management 3 hrs
This course was designed to provide students with the knowledge of emergency management and the philosophy of emergency planning for community, business and industry. Students will develop a management perspective on issues, concerns and constraints effective to emergencies that responders must think about today.
Prereq: INDT 255.

INDT 460 Advanced Coatings Topics 3 hrs
Development of in-depth formulating skills; new technology areas in coatings and polymers.
Prereq: INDT 402, INDT 403, or department permission.

INDT 470 Senior Seminar in Communication Technology 2 hrs
Guest speakers and/or site visitations will be used to illustrate the application of new communication technologies common to business, industrial or governmental environments.

INDT 475 Managing Correctional Agencies and Facilities 3 hrs
A study of administrative practices in correctional agencies and facilities, including attention to organization structure, management problems, financing, rights of offenders, intervention strategies, and community-based programs.
Prereq: PLSC 450 or department permission.

INDT 477/478/479 Special Topics 1/2/3 hrs
An examination of topics in interdisciplinary technology not covered in other departmental offerings. Students may elect these courses more than once, provided different topics are studied.
Prereq: Department permission.

INDT 487 Cooperative Education in Interdisciplinary Technology 3 hrs
A minimum of three to four months of full-time employment in a business or industry that provides experiences directly related to the major area of study. Work sites must be approved in advance by the Interdisciplinary Technology Department. Regular employee benefits may be received during the employment period.
Prereq: Department permission.
The development of modern technological society: major breakthroughs in the physical and life sciences, the influence of some of these breakthroughs on technological development, the consequent shaping of new world views and, hence, values in contemporary and future societies. Interrelationships between technology and political, socioeconomic and environmental systems; the relationship between technology and values.

INDT 497/498/499 Independent Study 1/2/3 hrs
Individual work in some area of interdisciplinary technology under the direction of a faculty member. Preliminary draft of proposed study must be approved by the department prior to enrollment. May be selected more than once, after re-submission and approval. 
Prereq: Department permission.

Military Science

www.emich.edu

Departmental Administration
Lt. Col. Curt A. Lapham
Department Head
18 Roosevelt Building
734.487.1020
E-mail: milsc@emich.edu

The Department of Military Science offers a four-year and two-year program that prepares students for commissioning as second lieutenants in the United States Army, Army Reserve, or National Guard. Emphasis is given to the development of the student as a leader and a manager, capable of organizing and motivating others.

The program is of either four or two years' duration and is pursued as a complement to the student's academic major. If the program is successfully completed, the student may be commissioned as an officer upon graduation.

Students must complete all of the military science courses unless granted advanced placement for the 100- and 200-level courses.

ROTC scholarships for three or two years' duration are available and are awarded on a "best qualified" basis. Scholarships cover payment of tuition, fees, texts, and supply costs related to the student's curriculum for the period of award. Also, a $250 per month subsistence allowance is paid for each school month during the period of the scholarship. Application can be made by contacting the Department of Military Science in January of the school year preceding the effective semester of the award.

The two-year program is designed for students transferring from community colleges and other students who were not enrolled in military science courses during their first two years of college. Applicants complete a six-week training program during the summer months, which takes the place of the on-campus MILT 100 and 200 courses. While in summer training, the student remains a civilian but earns Army pay and travel allowances. Upon completing the program, the student may be granted eight credit hours upon the recommendation of the Department of Military Science and may apply for entry into the MILT 300-level courses. Students may compete for two-year ROTC scholarships while at summer training. Applications for the two-year program are accepted from December through May.

The Simultaneous Membership Program (SMP) is a co-op work experience program where advanced ROTC students are assigned to local Army Reserve or National Guard units. One weekend a month students learn leadership and management skills by drilling with the unit. For this experience, students earn approximately $300 per month. SMP is an excellent opportunity to learn applied management skills.

Veterans can qualify for advanced placement credit directly into MILT 300. Applicants should contact the department for acceptance into MILT 300 or 301 at the earliest possible time before the next fall semester.

All uniforms and texts are provided to the student without cost. Students are required to place a refundable security deposit for the use of personal equipment and uniforms. Additionally, MILT 300 and 400 participants receive $250 per month during the school year and are paid at one-half the rate of a second lieutenant while attending a summer field course. Armed forces veterans may receive the $250 per month pay in addition to any other veterans benefits they are receiving.

Programs of Study

Minor

Military Science

Advising Coordinator: Capt. Daniel Soller

Special Requirements

Admission into the advanced program (MILT 300, MILT 301, MILT 400 and MILT 401) requires that all students successfully complete the Officer Selection Battery Test (OSB), undergo a complete physical examination at the Snow Health Center and have completed the basic course or its equivalent.

The criteria for continuance is that all students maintain a 2.0 GPA or better, and pass the Army Physical Fitness Test.

The fieldwork criteria is that all members of the advanced program participate in a field training exercise (FTX) each semester.

In the summer, between the third and fourth academic years, students will attend Advanced Camp at Ft. Lewis, Washington, in which their leadership skills are evaluated against the skills of other cadets across the nation.

Nursing students within the University nursing program will attend the Nurse Summer Training Program (NSTP) in addition to the Advanced Camp between the third and fourth years.

Credit Toward Graduation

The 12 hours of credit earned in the advanced program may be used as free elective credit. Requirements in certain majors and curricula will cause the ROTC student to take more than the minimum 124 hours credit for graduation. When finalizing their undergraduate program, students should consult an academic adviser within the department of their declared major.

Military Science Courses

MILT 100 Fundamentals of Leadership and Management I .......... 2
MILT 101 Fundamentals of Leadership and Management II .......... 2
MILT 200 Applied Leadership and Management I .......... 2
MILT 201 Applied Leadership and Management II .......... 2
MILT 300 Advanced Military Leadership and Management I .......... 3
MILT 301 Fundamentals and Dynamics of the Military Team I .......... 3
MILT 400 Fundamentals and Dynamics of the Military Team II .......... 3
MILT 401 Advanced Military Leadership and Management II .......... 3

Students must take all of the above courses unless granted advanced placement. Students electing a minor in military science may not use this minor to fulfill the state secondary provisional certificate requirement of a teaching minor.

Total ................................................................................. 20 hours

Military Science Courses

MILT 100 Fundamentals of Leadership and Management I .......... 2 hrs
An introduction to the U.S. defense establishment with emphasis on the role and structure of the U.S. Army. Students also participate in adventure mini-courses (rappelling, rifle marksmanship, etc.) This course is also offered online in the fall and winter semesters.

MILT 101 Fundamentals of Leadership and Management II .......... 2 hrs
An introduction to the role of the army officer, ethics, professionalism, leadership traits, and principles. As a part of the course, students receive a mini-course in first aid and land navigation.

Prereq: MILT 100 or department permission.
MILT 200 Applied Leadership and Management I 2 hrs
An introduction to basic military leadership skills to include: map reading, communications, military briefings, physical training and individual leadership skills. Prereq: MILT 101 or department permission.

MILT 201 Applied Leadership and Management II 2 hrs
A continuation of MILT 200 in the study of military leadership and management skills. Included in this course are: individual leadership skills, applied management skills, terrain analysis, and platoon offense/defense operations. Prereq: MILT 200 or department permission.

MILT 300 Advanced Military Leadership and Management I 3 hrs
Techniques of leadership and management with emphasis on the role of the small unit leader as a teacher. Theory and application of basic military skills: topography, close order drill and weaponry. Prereq: MILT 201 or department permission.

MILT 301 Fundamentals and Dynamics of the Military Team I 3 hrs
An examination of the leader’s role as an organizer, decision-maker, and leader of a military team. Small unit leadership studied from the perspective of mission, capabilities and management. Prepares students for the advanced summer camp experience. Prereq: MILT 300 or department permission.

MILT 302 Leadership Laboratory
Conducted for both semesters of the 300-level courses. Field application of classroom theories and studies. Physical abilities strengthened and tested. All areas of classroom instruction, drill, military skills, leadership and physical aptitude are practiced and evaluated. Concurrent registration with MILT 300 or MILT 301.

MILT 400 Fundamentals and Dynamics of the Military Team II 3 hrs
The organization and functioning of command and staff in army organizations. The essentials of military correspondence, communications and training. Prereq: MILT 301 or department permission.

MILT 401 Advanced Military Leadership and Management II 3 hrs
The essentials of the army personnel and logistics management systems. An in-depth examination of ethics and professionalism as they apply to the military officer. Case study of small-unit combat leadership. Prereq: MILT 400 or department permission.

MILT 402 Leadership Laboratory
A two-semester practicum conducted concurrently with 400-level courses. Exercise of organizational and leadership theory to which the student has been exposed. The cadet battalion command and staff structure is used as a vehicle to provide practical experience in the processes of leadership. Concurrent registration in MILT 400 or MILT 401.

MILT 497/498 Independent Study 1/2/3 hrs
Intensive study or project approved by the department head. Study or project is directly related to a military subject. Prereq: Department permission.

Pathak, Chandra (1981) Professor, Ph.D.; University of Tennessee
Shiriff, Mohamed (1981) Professor, Ph.D.; Louisiana State University
Snybt, Andrew (1984) Professor, Ph.D.; Purdue University
Woodhead, Linda (1982) Professor, Ph.D.; Purdue University
Young, Kenneth (1975) Associate Professor, Ph.D.; Purdue University
Sullivan, John M. (1958) Professor; Ph.D.; University of Michigan
Torquist, Wade J. (1986) Professor and Department Head; Ph.D.; University of Minnesota

Vees, Jose C. (1991) Associate Professor; University of Notre Dame

Work, Stewart D. (1964) Professor; Ph.D.; Duke University

**Communication and Theatre Arts**

Agbossa, Pirooz (1995) Associate Professor; Ph.D.; Texas Tech University

Aldridge, Henry B. (1972) Professor; Ph.D.; University of Michigan

Alexander, Jessica (2000) Assistant Professor; M.F.A.; Eastern Michigan University

Beagen, Dennis M. (1967) Professor and Department Head; M.A.; University of Michigan

Bird, P. George (1955) Professor; M.S.; University of Wisconsin

Bridges Wallace (1992) Associate Professor; M.F.A.; Western Illinois University

Cooper, John G. (1993) Associate Professor; Ph.D.; Bowling Green State University

Engen, David (1999) Assistant Professor; Ph.D.; Bowling Green State University

Evans, Gary L. (1970) Professor; Ph.D.; University of Michigan

Fields, Doris (1997) Assistant Professor; M.A.; Eastern Michigan University

Foreman, Chris (1994) Associate Professor; Ph.D.; University of Kentucky

Grady, Dennis P. (1996) Assistant Professor; Ph.D.; University of Texas

Graves, Karry L. (1997) Assistant Professor; M.A.; Eastern Michigan University

Hammill, Geoffrey D. (1987) Professor; Ph.D.; Bowling Green State University

Heck-Seleber, Theresa (1992) Associate Professor; M.F.A.; University of Wisconsin

Low, Walter (1969) Assistant Professor; M.S.; Middle Tennessee State University

Martin, Annette (1965) Professor; Ph.D.; University of Michigan

McCracken, Sally R. (1968) Professor; Ph.D.; Wayne State University

Quiel, Ramond (1999) Assistant Professor; M.A.; Eastern Michigan University

Rich, Anita (1996) Assistant Professor; Ph.D.; Southern Illinois University

Robinson, James A. (1988) Professor; Ph.D.; University of Michigan

Stacey, Kathleen (1992) Associate Professor; Ph.D.; Wayne State University

Stevens, Kenneth W. (1972) Professor; M.A.; University of Cincinnati

Stille, Lee (1998) Assistant Professor; Ph.D.; University of Minnesota

Strand-Evans, Katherine E. (1973) Professor; M.F.A.; Ohio University

Sturgis-Hill, Judy (1992) Assistant Professor; M.A.; Eastern Michigan University

Tow, Michael A. (1989) Associate Professor; Ph.D.; Wayne State University

Watson, Mary Ann (1990) Professor; Ph.D.; University of Michigan

Zimmer, Patricia Moore (1980) Professor; M.F.A.; Florida State University

**Computer Science**

Baberski, Zenia (1990) Instructor; M.S.; Eastern Michigan University

Chaudhuri, Ranjan (1984) Professor; Ph.D.; University of South Florida

Cooper, John K., Jr. (1980) Assistant Professor; Ph.D.; Michigan State University

Evett, Matthew (1998) Assistant Professor; Ph.D.; University of Maryland

Haynam, George E. Ph.D.; Professor

Haynes, Susan M. (1992) Associate Professor; Ph.D.; University of Michigan

Hoff, Hartmut F.W. (1970) Professor and Department Head; Ph.D.; University of Houston

Ikeji, Augustine C. (1988) Assistant Professor; Ph.D.; Wayne State University

Lauckner, Kurt F. (1963) Professor; Ph.D.; University of Michigan

Linnier, Mildred D. (1986) Professor; Ph.D.; University of Michigan

Moore, Pamela A. (1985) Instructor; M.S.; Michigan State University

Rensers, John H. (1971) Associate Professor; Ph.D.; University of Michigan

Scheid, Sascha K. (1980) Associate Professor; Ph.D.; University of Arizona

Sverdlik, William (1999) Assistant Professor; Ph.D.; Wayne State University

Tehrani, Aby (1992) Assistant Professor; Ph.D.; University of Nebraska

Zeiger, Michael (1979) Assistant Professor; Ph.D.; University of Michigan

**Economics**

Cray, David B. (1982) Associate Professor; Ph.D.; University of Maryland

Dewan, Abdullah (1984) Professor; Ph.D.; University of Kentucky

Edgren, John (1979) Professor; Ph.D.; University of Michigan

Ermeng, Sharon J. (1988) Associate Professor; Ph.D.; University of Illinois

Esposto, Alfredo C. (1990) Associate Professor; Ph.D.; Temple University

Hanna, Raouf S. (1973) Professor and Department Head; Ph.D.; Indiana University

Haywth, Steven C. (1977) Associate Professor; Ph.D.; Massachusetts Institute of Technology

Moreland, Kemper (1980) Professor; Ph.D.; University of Wisconsin

Pearson, Donald W. (1970) Professor; Ph.D.; University of Texas

Thorton, James (1991) Professor; Ph.D.; University of Oregon

Vogt, Michael G. (1976) Professor; Ph.D.; University of Wisconsin

Woodland, Bill M. (1981) Professor; Ph.D.; Purdue University

**English Language and Literature**

Adler-Kassner, Linda (2000) Assistant Professor; Ph.D.; University of Minnesota

Al-Qaher, Moneera (1999) Assistant Professor; Ph.D.; University of California at Berkeley

Allen, Nancy (1991) Associate Professor; Ph.D.; Purdue University

Annsler, Mark (1999) Professor; Ph.D.,

Angle, Jim Bell Professor

Arstir-Dry, Helen (1991) Professor; Ph.D.; University of Texas at Austin

Arrington, Phillip (1969) Professor; Ph.D.; University of Louisville

Bakeless, Ann (1996) Associate Professor; Ph.D.; Carnegie-Mellon University

Bruss, Paul S. (1969) Professor; Ph.D.; University of Rochester

Burlingame, Lori (1997) Assistant Professor; Ph.D.; University of Rochester

Case, Franklin D. (1962) Professor; A.M.; University of Michigan

Cassidy, Cheryl (1990) Professor; Ph.D.; University of Michigan

Cross, B. Gilbert (1966) Professor; Ph.D.; University of Michigan

Cisella, Joseph (2000) Assistant Professor; Ph.D.; University of Nevada at Las Vegas

Doelen, Elisabeth (1992) Associate Professor; Ph.D.; Indiana University

Dionne, Craig (1995) Associate Professor; Ph.D.; Carnegie-Mellon University

Duncan, Jeffrey L. (1971) Professor; Ph.D.; University of Virginia

Elias, Harry E. (1967) Professor; Ph.D.; University of North Dakota

Estelman, Clayton (1986) Professor; M.A.; Indiana University

Estren, Heidi (2000) Assistant Professor; Ph.D.; University of Nevada at Reno

Fenkl, Heinz Insu (1977) Associate Professor; M.F.A.; University of California at Davis

Fleisher, Catherine (1990) Professor; Ph.D.; University of Michigan

Geherin, David J. (1989) Professor; Ph.D.; Purdue University

George, Laura (1994) Associate Professor; Ph.D.; Ohio State University

Goodman, Beverley (1996) Associate Professor; Ph.D.; Cornell University

Grosdons, Veronique (2000) Assistant Professor; Ph.D.; University of Pittsburgh

Huyden, Lucy K. (1983) Professor; Ph.D.; University of Michigan

Hunting, Thomas P. (1966) Professor; Ph.D.; University of Wisconsin

Hendrix, Lolita (1994) Associate Professor; M.A.; Eastern Michigan University

Kasten, Andrea (2000) Assistant Professor; Ph.D.; University of Wisconsin

Kaufman, Janet (1988) Professor; Ph.D.; University of Chicago

Knap, James (1998) Assistant Professor; Ph.D.; University of Rochester

Kraft, Robert G. (1969) Professor; Ph.D.; University of Washington

Kruse, Steven (1998) Assistant Professor; Ph.D.; Bowling Green University

Larson, Russell R. (1970) Professor and Department Head; Ph.D.; University of Michigan

McGlynn, Paul (1964) Professor; Ph.D.; Rice University

Miller, Bernard A. (1987) Professor; Ph.D.; Purdue University

Most, Sheila (1971) Professor; Ph.D.; Northwestern University

Motschall, Melissa (1995) Associate Professor; Ph.D.; Wayne State University

Neff, Heather (1993) Associate Professor; Ph.D.; University of Zurich

Kreger, Robert D. (1996) Professor; Ph.D.; University of Michigan
Li, Tsai-Ping (Alicia) (1995) Assistant Professor; Ed.D.; University of Northern Colorado
Martin, Nora (1967) Professor; Ph.D.; University of Michigan
Nash, Gayle (1977) Associate Professor; Ed.D.; University of Alabama
Navarro, Gary (1970) Professor; Ed.D.; Wayne State University
Parker, Kathryn Ph.D.; Assistant Professor
Quinn, Kathleen S. (1965) Associate Professor and Department Head; Ph.D.; University of Michigan
Rice, Dale L. (1967) Professor; Ph.D.; University of Michigan
Rocklage, Lynne A. (1991) Associate Professor and Department Head; Ph.D.; Southern Illinois University
Schatz, Kenneth (1990) Associate Professor; M.A.; Eastern Michigan University
Smie, Lizbeth (1998) Assistant Professor; Ph.D.; Wayne State University
Tontkovich, John Ph.D.; Assistant Professor
Wisniewski, Lech (1991) Associate Professor; Ph.D.; University of Missouri
Teacher Education
Allen, Irene (1968) Professor; Ed.D.; Ball State University
Baiyee, Martha (1998) Assistant Professor; Ph.D.; Virginia Tech
Barber, Betty (1969) Assistant Professor; M.S.; Eastern Michigan University
Beauvais, Kathleen (1991) Professor; Ph.D.; University of Michigan
Bednar, Anne (1991) Professor; Ed.D.; Indiana University
Birger, Mary (1977) Professor; Ph.D.; University of Michigan
Burke, Wendy Ph.D.; Assistant Professor
Charles, Michael (1997) Assistant Professor; Ph.D.; Arizona State University
Daisy, Peggy (1944) Associate Professor; Ph.D.; Kansas State University
Dichichniller, Margo L. Ph.D.; Assistant Professor
Frankes, Lisa (1997) Assistant Professor; Ph.D.; University of Maryland
Gardner, Trevor (1985) Professor; Ph.D.; Michigan State University
Gordon, Jane (1992) Associate Professor; Ph.D.; University of Miami
Gould, Caroline (1997) Assistant Professor; M.A.; University of Michigan
Grossman, Sue (1995) Associate Professor; Ph.D.; Michigan State University
Gwaltney, Thomas (1964) Professor; Ph.D.; Southern Illinois University
Harmon, Deborah Ph.D.; Assistant Professor
Hoffman, Ellen Assistant Professor
Huyvaert, Sarah (1986) Professor; Ed.D.; Indiana University
Johnson, Elizabeth (1994) Associate Professor; Ed.D.; Wayne State University
Jones, Sylvia (1992) Associate Professor; Ph.D.; University of Michigan
Jose-Kampfner, Christina (1991) Professor; Ph.D.; University of Michigan
Kinney-Sedgewick, Martha (1987) Associate Professor; Ph.D.; University of Iowa
Klinge, Georgie (1985) Professor; Ph.D.; Stanford University
Lewis-White, Linda (1996) Assistant Professor; Ph.D.; East Texas State University
Margaret-Loys, Jon Assistant Professor
Martusewicz, Rebekah (1988) Professor; Ed.D.; University of Rochester
Maytose, Nelson Assistant Professor
McConnell, Maureen (1938) Professor; Ed.D.; University of Cincinnati
Moore-Hart, Margaret (1998) Professor; Ph.D.; University of South Florida
Nelson, Olga (1991) Associate Professor; Ph.D.; Kent State University
Pactorek, Karena (1988) Professor; Ph.D.; Peabody College of Vanderbilt University
Pietig, Jeanne (1985) Professor; Ph.D.; University of Minnesota
Pokey, Patricia (1988) Professor; Ph.D.; University of Michigan
Polakow, Valerie (1988) Professor; Ph.D.; University of Michigan
Quiller, Shawn (1996) Assistant Professor; Ph.D.; University of South Carolina
Samonte, Quinnc (1963) Professor; Ph.D.; University of Michigan
Skaggs, Kathryn (1997) Assistant Professor; M.S.; Peabody College of Vanderbilt University
Starko, Alane (1986) Professor and Department Head; Ph.D.; University of Connecticut
Stokes-Jones, Toni Ph.D.; Assistant Professor
Williams-Boyd, Patricia (1996) Assistant Professor; Ed.D.; University of Kansas
Williston, Judith (1971) Professor; Ph.D.; University of Michigan

Foreign Languages and Bilingual Studies, Department: 104

Geography and Geology, Department of: 122
Courses
- Geography in Social Science: 129
- Geology: 131
- Urban and Regional Planning: 135

Majors
- Earth Science: 122
- Earth Science, teaching: 125
- Geography: 123
- Geography, teaching: 125
- Geology, general concentration: 123
- Geology, Hydrogeology concentration: 124
- Geology, Professional concentration: 123
- Travel and Tourism: 124
- Urban and Regional Planning: 125

Minors
- Cartography and Remote Sensing: 126
- Coastal Environments: 126
- Earth Science: 127
- Earth Science, teaching: 128
- Environmental Analysis: 127
- Geography: 127
- Geography, teaching: 128
- Geology: 127
- Geology, teaching: 129
- Historic Preservation: 127
- Travel and Tourism: 128
- Urban and Regional Planning: 128

Gerontology: 306, 307

Grade point average
- Minimum for Clinical Lab Sciences: 281

Graduate School
- policies and information: 5

Handicapped students
Rehabilitation Act of 1973: 6

Health, Physical Education, Recreation, and Dance: 232
Courses
- Activity Courses for General Students: 242
- Athletic: 240
- Dance: 241
- Health: 242
- Physical Education: 243
- Recreation and Park Management: 245
- Sports Medicine: 247
- Therapeutic Recreation: 247

Majors
- Dance: 233
- Physical Education: 237
- Recreation and Park Management: 234
- Sports Medicine: 235
- Sports Medicine, athletic training: 235
- Sports Medicine, exercise science: 236
- Therapeutic Recreation: 236

Minors
- Coaching: 238
- Dance: 238
Health: 238
Health, teaching: 239
Physical Education: 239
Physical Education for Special Education Teachers: 239
Recreation and Park Management: 238

History and Philosophy, Department of: 135

Courses
- History, Basic: 144
- Philosophy, Basic Studies: 147
- Philosophy, Other: 148

Majors
- Area Studies: 136
- Area Studies, Africa: 136
- Area Studies, Asia-Far East: 136
- Area Studies, Latin America: 137
- Area Studies, Middle East and North Africa: 137
- Area Studies, Soviet Union: 138
- History: 138
- History, teaching: 139
- Philosophy: 138
- Social Sciences: 140
- Social Studies, teaching: 139

Minors
- Area Studies, Africa: 141
- Area Studies, Asia-Far East: 141
- Area Studies, Latin America: 141
- Area Studies, Middle East and North Africa: 142
- Area Studies, Soviet Union: 142
- History: 142
- History, teaching: 142
- Philosophy: 144
- Religious Studies: 143
- Social Science Group Minor: 143

Histotechnology Specialization: 282

Human, Environmental and Consumer Resources, Dept.: 291

Courses
- Apparel, Textiles and Merchandising: 295
- Dietetics: 296
- Hotel and Restaurant Management: 297
- Human, Environmental and Consumer Resources: 297
- Interior Design: 298

Majors
- Apparel, Textiles and Merchandising: 291
- Dietetics: 291
- Hotel and Restaurant Management: 293
- Interior Design: 293

Minors
- Apparel, Textiles and Merchandising: 294
- Human Environment: 294
- Nutrition: 295

Industrial Technology, Department of: 320

Courses
- CAD/CAM: 328
- Construction Management: 330
- Electronic Technology: 331
- Facility Management: 332
- Manufacturing: 332
- Quality Technology: 333

Majors
- Applied Technology (transfer): 322
- Computer-Aided Design: 323
- Construction Management: 320
- Electronic Engineering Technology: 322
- Facility Management: 321
- Industrial Technology curricula: 323

Mathematics, Department of: 149

Courses
- Mathematics: 154
- Mathematics: 153

Majors
- Actuarial Science and Economics: 150
- Mathematics: 150
- Mathematics for the Elementary Teaching Certificate: 152
- Mathematics, teaching: 151
- Mathematics with Concentration in Statistics: 151

Minors
- Mathematics: 153
- Mathematics for the Elementary Teaching Certificate: 154
- Mathematics, teaching: 153
- Mathematics with Concentration in Statistics: 153
Medical Technology: 280

Military Science, Department of: 341
