Resolution 20100519

Faculty Senate

Resolution 20100519

1. *The Provost's office is running a search for a new head of the Honors College. The faculty members who comprise the Honors College Advisory Committee—appointed by the Faculty Senate—are serving on the search committee. Unfortunately, the timing of the creation of the search committee precluded the Senate's right to name members to that committee. The Senate recognizes the work being done by the Honors College Advisory Committee, but because the Honors College is a university-wide institution, to qualify as official faculty representation, the members of the search committee should have been appointed by the Senate directly. The Senate calls upon the Provost to ensure that future searches work within the timeframe of the Senate's processes.* The resolution passed 18 –
