

Funding for higher education low in Michigan

The state of Michigan scores in 49th place among the 50 states in spending for higher education, according to the *Chronicle of Higher Education*.

The *Chronicle's* Oct. 20 report, prepared by independent analyst M.M. Chambers, compares state appropriations for colleges, universities and community colleges and also state funds appropriated

for scholarships.

Nationwide, higher education spending has increased 185 percent during the past 10 years. However, when measured against a 132.5 percent inflation factor, spending has actually increased only 23 percent.

In Michigan, the 10-year gain of 107 percent (49th place) translates to a loss of 11 percent

when adjusted for inflation. Only Illinois has a lower level of funding for its colleges and universities.

Among the states with a marked increase in higher education spending for the past 10 years are Alaska (up 89 percent), Wyoming (128 percent), Oklahoma (110 percent) and Texas (up 89 percent). Percentages are

adjusted for inflation.

For the past two years, funding for Michigan's institutions has gone up 14 percent, which is only two percentage points below the national average of 16 percent. Among state colleges and universities, Eastern's two-year change also measured 14 percent.

However, the increase is deceptive, according to George A. Johnston, director of University Planning. "The *Chronicle's* data is based on the original appropriation from the state," Johnston said.

"If we look at 1980-81, for example, we had a 12.2 percent increase in our original appropriation, but after the executive

orders, Eastern only realized a 5.8 percent increase," he said. "We have yet to see what we will realize as a final appropriation in 1982-83."

The *Chronicle* also noted that this year's increase nationally is the smallest in more than 20 years, only six percent more than the total for 1981-82. The economy is blamed for the suppressed level of funding for state colleges and universities.

Chambers, whose data the *Chronicle* report is based on, is a professor of education administration at Illinois State University. He has compiled state-by-state comparisons yearly since 1958.

MAGB questions candidates

The Michigan Association of Governing Boards of Colleges and Universities (MAGB) has developed a questionnaire on higher education for the two major gubernatorial candidates. Their responses to three questions were limited to 50 words maximum and are reprinted here as received by MAGB.

James Blanchard

Q. What State funding priority would you assign to higher education? Explain what funding plan; e.g., distribution and dollar levels, you would recommend for Michigan's public institutions? Private institutions?

A. As Governor, I will make education one of state government's highest priorities. I believe we must maintain, and when possible, increase rather than cut, the level of state funding for higher education. Of course, we can only consider such an increase in the context of Michigan's overall budget and economic problems. Our first priority must be to maintain the quality of both public and private systems by coordinated efforts.

Q. What role do you see for these institutions in the economic recovery and development of Michigan?

A. A major one. Representatives of the university community will play a major role in a working group of leaders from all sectors of Michigan's economy and community, charged with developing "target industries" strategies for revitalizing the state. Michigan's higher education system will play a vital role in providing information and research for the growth of new industries to bring new jobs to the state.

Q. Would you retain or change the existing autonomous system of cooperation and coordination of Michigan's public colleges and universities? Explain.

A. Our current fiscal crisis will require more cooperation than ever before between the colleges and universities; and I will actively promote that cooperation. I will not, however, take away the autonomy of the institutions.

Richard Headlee

Q. What state funding priority would you assign to higher education? Explain what funding plan; e.g., distribution and dollar levels, you would recommend for Michigan's public institutions? Private institutions?

A. Restoring state funding for quality education is a very important part of my 10-point plan to get Michigan working again. We must spend more on education and less on welfare because I firmly believe that education is the best investment we make in our future. My first priority in terms of state funding for higher education would be Michigan's 13 four-year colleges and universities and our 29 two-year junior and community colleges. Private institutions would be my next priority.

Q. What role do you see for these institutions in the economic recovery and development of Michigan?

A. As Governor, I will work in cooperation with the governing boards of Michigan's colleges and universities to strengthen their already important role in terms of economic recovery and development. I believe every public school student should be taught math and science through middle school and high school, our community colleges should assume primary responsibility for retraining workers unemployed as a result of structural changes in our economy, and our colleges and universities should produce the engineers and scientists we need to attract high technology industry. To help in this effort, I have proposed the development of a Michigan Jobs for Michigan Grads scholarship/employment program in cooperation with business and labor.

continued on page 2

United Way campaign extended

With the United Way campaign just short of its goal, the drive will be extended to meet the \$36,000 amount, according to John C. Fountain, acting vice president for University Relations and this year's chairperson.

Pledges totaling \$34,478 or 95.8 percent of goal were reported on Oct. 28.

"I believe some potential donors may have been overlooked and if each division below their goal makes a second effort, we will easily reach or surpass our institutional goal," Fountain said.

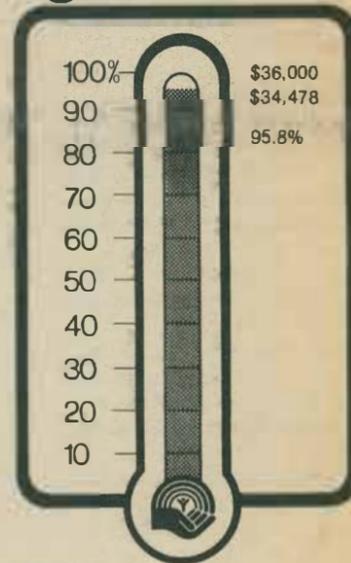

"Student Affairs is the only division to exceed their goal, thanks to the outstanding effort of Dr. Bette White. The division is at 112 percent of goal, with pledges of \$3,368," Fountain said.

Academic Affairs is just short of its goal with pledges of \$24,541 (98 percent). Business and Finance is at 94 percent with pledges totaling \$2,355 and Human Resources is at 74 percent with pledges of \$892.

The President's Office has pledged totaling \$451 or 90 percent of goal and University

relations has reported pledges of \$1,502 (83 percent). Emeritus Faculty have pledged \$1,370, which is 69 percent of their goal.

"We will extend the United Way drive until we reach the \$36,000," Fountain concluded. "I never stop an effort just short of its goal."

Campus Capsules

WEMU to cover Election '82

WEMU (89.1 FM) will broadcast reports today on the state and local elections. National Public Radio (NPR) will report on elections from across the country.

Beginning at 9 p.m., WEMU will broadcast continuous coverage of Election '82 results throughout the night.

New ID card system implemented

Faculty and staff are reminded to have their photo taken for the new ID card system. The cards will be used on conjunction with a new automated information system which the University is acquiring.

Pictures are being taken at the Registration Office in Briggs Hall, Monday through Friday from 8 a.m. to 5 p.m.; please enter at the east door. Bring your current EMU photo ID card with you, your driver's license or other suitable picture identification cards.

Finished photo ID cards will be available approximately two weeks after your photo is taken. There is no charge for the first ID card, but there will be a

replacement charge for lost cards. If you have any questions, please call Academic Affairs, 7-3233.

Undergraduate catalogs available

The 1981-83 catalogs for faculty use are available in the Academic Records Office, Room 5, Pierce Hall. Department heads may order quantities sufficient for their staffs by sending a memo to Paul L. Zabawa, Academic Records Office, indicating their needs. There are twenty-two catalogs in a carton. Orders of one carton or less will be sent through campus mail. Please make arrangements for someone to pick up larger orders.

Former Alvin Ailey dancer to perform

John Parks, a former member of the Alvin Ailey Dance Company, will perform and teach here Sunday, Nov. 7, as a guest artist.

He will teach a master class to Eastern's dancers in the afternoon and present an informal lecture and demonstration to the public at 7 p.m. at Warner Gymnasium.

Admission to the lecture/demonstration is \$4; \$3 for students; Tickets will be on sale starting Monday, Nov. 1 at Warner Gymnasium.

For telephone reservations and further information call 7-0090.

College Bowl tournament to be held at McKenny

College Bowl, the "varsity sport of the mind," will be held at McKenny Union Ballroom Friday and Saturday, Nov. 13 and 14.

College Bowl is a fast-paced quiz game in which teams of four students compete by answering questions from a broad range of fields. The annual tournament will be held from 9 a.m. to 6 p.m. Nov. 13 and from 1 to 7 p.m. Sunday.

The tournament is free and open to the public. For more information, call 7-3045.

NSF deputy director to visit campus

A presentation by Dr. James McCullough, deputy director of Planning and Resource Management of the National Science Foundation, is scheduled for Thursday, Nov. 11, 1982, at 10

a.m. in the Founders Room of McKenny Union.

All faculty and staff interested in attending this presentation should contact the Office of Research Development at 7-3090 for further information.

Photogrammetry Society to meet here Nov. 5

The Eastern Great Lakes Region of the American Society of Photogrammetry will hold a Remote Sensing Conference at Strong Hall Nov. 5.

For registration information call Dr. Eugene Jaworski, professor in the Geography Department, at 7-1480.

Rev. Daniel Berrigan to speak

The Rev. Daniel J. Berrigan, peace activist, poet, prisoner, teacher, theologian, author and founder of the Catholic Peace Fellowship, will visit here Sunday, Nov. 7 to Tuesday, Nov. 9.

Sunday, Nov. 7 at 7:30 p.m. at the Holy Trinity Chapel, 511 W. Forst Ave., Berrigan will give a sermon titled "The Cry of Martyrs." A reception will follow the sermon in the student center of the chapel.

Berrigan will also present a two-part lecture titled "The Countdown for Christians: Conscience and the Bomb." Part one is scheduled for Monday, Nov. 8 at 4 p.m. in the Tower Room of EMU's McKenny Union and part two will be Tuesday, Nov. 9 at the same time and location. The lectures are free and open to the public.

Applications for White House Fellowships due

Applications for White House Fellowships are being sought.

The program was established by President Lyndon B. Johnson in 1964 and brings a select group into the national government to serve at a high level for one year.

Application materials and additional information can be obtained from the President's Commission of White House Fellowships, 712 Jackson Place, Washington, D.C. 20503, (202) 395-4522. Requests for applications must be postmarked no later than Nov. 15. Completed applications must be returned with a postmark no later than Dec. 1. A brochure with more information is available at the Office of Information Services.

Fitness experts lend helpful hints for fall

Autumn's arrival signals the end to many American's favorite pastimes . . . boating, gardening, softball and often times our seemingly preoccupation with weight control.

As the clothing layers come on, so do the pounds we try to hide beneath them. And until next spring, like hibernating animals, many of us will languish in extra padding only to crash diet it off when the warm weather causes us to shed our clothes again.

It doesn't have to be that way, according to the Deborah Silverman, instructor of home economics. Winter weight gain may be a human phenomenon but it has no physiological basis.

"Life becomes more sedentary for most people when the weather becomes cooler, so our lessened activity may cause us to gain weight more easily," she said. "And although body fat is a good insulator, wearing an extra sweater works just as well in cooler months, and comes off a lot easier," she added.

Silverman, who teaches nutrition and public health classes at EMU, suggests the following for minimizing winter weight gain:

—Watch snacks. Since you're inside more frequently the ten-

dency to snack between meals is greater. Make a conscious effort to avoid snacking, particularly while watching television.

—Watch your consumption during the holidays and at parties. Decide what your limits will be before you arrive at that party or dinner and stick to them. Also, take smaller portions instead of large ones.

—Don't procrastinate when you notice weight gain. It's important to catch the creeping scale, says Silverman. "Weigh yourself once a week at the same time of day, and wearing the same amount of dress. When you begin to notice a weight gain of one, two, or three pounds, do something about it," she said.

—Do aerobic exercises in the house. If you don't have a regular exercise plan, Silverman suggests aerobics on a regular basis. Watching either of the morning television exercise shows and following along, or buying an adaptor for your bicycle that will allow you to pedal indoors can help keep you in shape.

—Do little extra activities. Take the stairs more often instead of riding an elevator.

Dr. Roger L. Williams, professor of exercise psychology at EMU and a certified exercise specialist, takes Silverman's suggestions a bit further. He believes the value of a good cardiorespiratory fitness program aimed at improving the circulation of

blood and oxygen cannot be underestimated.

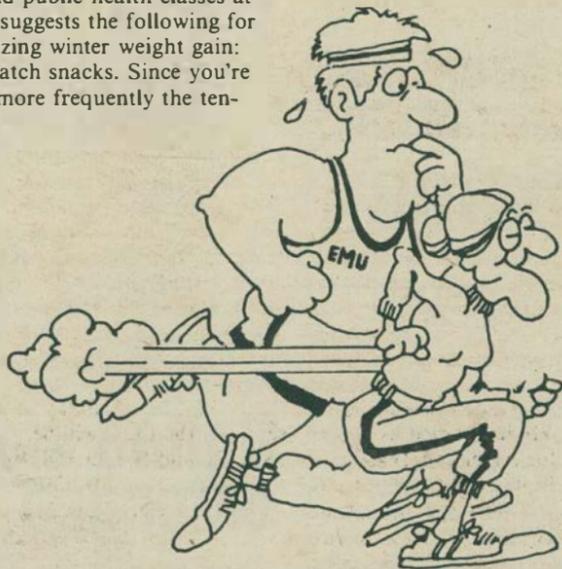

Before beginning any exercise plan, however, Williams warns that a medical examination and stress test are essential. These procedures can determine one's overall health and pinpoint an individual's maximum heart rate.

According to Williams, a program of aerobic exercises, jogging, walking, cross country skiing, and swimming is the best way to improve circulation because they're rhythmic, continuous and flowing.

"However, in order to benefit from such a program it must be repeated at least three times per week, for a minimum of 20 to 30 minutes each time," he said. "Also, 70 to 85 percent of the maximum heart rate must be reached each time."

Williams maintains that many cardiovascular problems adults face today are the result of self-imposed factors such as excessive weight gain, high blood pressure, a sedentary lifestyle, high blood fats and smoking.

—Susan Bairley

First "Big-E Run" a huge success

The first "Big-E Run," a fundraiser for Eastern's athletic department, was a huge success with 127 percent of the goal raised in the one-day run held Sunday, Oct. 10, 1982.

The targeted goal of \$35,000 was shattered as a total of \$44,575 in pledges has been recorded.

The "Big-E Run" involved current EMU varsity athletes, members of the University faculty and staff, E-Club members and local celebrity runners.

"The Big-E Run was a tremendous effort by everyone in the athletic department," EMU associate athletic director and organizer of the run Ron Oestrike said. "The men and women athletes should be commended for a job well done.

It is a tremendous reward to see the socialization and involvement for all athletes in the department. I think this fund-raiser has greater potential and we have selected Oct. 9, 1983 as the next Big-E Run."

There were 612 participants in the "Big-E Run" with 413 of those EMU varsity athletes. Each participant was responsible for money pledged for the successful completion of a lap during the run at the Olds-Marshall Track at Rynearson Stadium on Oct. 10.

The average amount pledged for each lap completed was \$9.09 with the total number of laps run, walked or crawled 7,404. The average number of laps completed per contestant was 12 with total miles run 1,851.

Media personalities to lecture here

Five Detroit area radio and television personalities will lecture during November as part of "Detroit Media Month" scheduled by the University's Office of Campus Life.

All of the programs are free and open to the public. Each of the lectures will include a short lecture/discussion followed by a period for questions by the audience.

The schedule includes:

—William Flynn, vice president and general manager of WJBK-TV in Detroit, who will speak Monday, Nov. 8 at 7:30 p.m. in the Goddard Lounge. Flynn joined WJBK in April. Prior to his appointment, he served in similar positions at Storer television stations in Cleveland and Boston.

—Mort Crim, chief anchor at WDIV-TV in Detroit, who will speak Tuesday, Nov. 9 at 7:30 p.m. in the Goddard Hall Lounge. Prior to his appointment at WDIV, Crim was the anchor of the "Lee Phillips-Mort Crim Noonbreak" at CBS-owned WBBM-TV in Chicago. He holds a master's degree in journalism from Northwestern University and won Northwestern's Harrington Award for outstanding promise as a journalist. Crim has won numerous awards for his work, including an Emmy in 1978 for his investigative reporting on the

insurance industry.

Dayna Eubanks, chief anchor at WXYZ-TV in Detroit, who will speak Wednesday, Nov. 10 at 7:30 p.m. in the Goddard Hall Lounge. Eubanks joined the staff at WXYZ-TV in 1981 after working at stations in Phoenix, Ariz. and Topeka, Kans. A native of Wichita, Eubanks is a graduate of the University of Kansas School of Journalism. Recently she was named the Outstanding Woman in Broadcast News by the Detroit chapter of American Women in Radio and Television.

—Cheryl Chodun, news anchor for WCXI-FM radio station in Detroit, who will speak Tuesday, Nov. 16 at 7:30 p.m. in the Downing Hall Lounge. A native of Minnesota, Chodun worked as a news writer for WXYZ-TV for four years and is a former newspaper reporter for Suburban Communications in Detroit. Chodun attended Wayne State University and Oakland University.

—And Jim Harper and Steve Gannon, morning personalities at WNIC-FM radio station in Detroit, who will speak Wednesday, Nov. 17 at 7:30 p.m. in the Downing Hall Lounge.

An open reception will follow each of the scheduled programs.

For further information, call the Office of Campus Life at 7-3045.

Openings

Clerical/Secretarial (Minimum Bi-weekly Rate)

CS/04 — \$404.82 — Secretary II — Affirmative Action (Ability to take dictation and 65-70 w.p.m. typing required)

CC/05 — \$446.18 — Senior Secretary — Employee Relations (A minimum of 70 w.p.m. typing required)

Final date for the acceptance of internal applications for the above positions is Nov. 9, 1982.

Administrative/Professional/ Technical (Bi-weekly Salary Range)

AP 07 — \$618.63-\$849.73 — Assistant coach, Basketball — Intercollegiate Athletics. Deadline Date: Dec. 3, 1982

AP 09 — \$801.06-\$1,123.26 — Coordinator-Management Information Systems — University Planning, Budgeting and Analysis. Deadline Date: Dec. 17, 1982

Internal applicants for the above Clerical Secretarial and Administrative Professional/Technical positions should submit a Promotional Openings Application form to the department in which the vacancy exists.

Faculty

Department of Psychology — Part-time lecturers, Winter semester 1983 — To teach the following courses (please specify which class or classes applying for):

PSY 242 Psychology of Women M-W-F 12:00-12:50 p.m.

PSY 321 Child Psychology T-Th 12:30-1:45 p.m.

PSY 542 Women and Mental Health M 5:15-6:55 p.m.

Preference will be given to those applicants who have a Ph.D. degree in Psychology, but those who have completed all coursework but dissertation are eligible. Deadline Date: Dec. 17, 1982

Department of Social Work — Part-time temporary lecturer: Minimum qualifications include a master's degree in Social Work plus three years of practical experience in child welfare. Must have current knowledge of Michigan State Department of Social Services Child Welfare policies and programs. Experience in training agency staff is required. College teaching experience and knowledge of practices of staff

supervisors in child welfare agencies are strongly preferred. Deadline Date: Nov. 12, 1982

Interdisciplinary Technology — Full-time faculty position to begin Jan., 1983. Twelve-month appointment. Primary responsibilities will be teaching, program coordination, and some energy involvement in the University's service area. Experience in energy management is essential; doctorate with teaching experience in higher education is preferred, master's required. Salary and rank commensurate with qualifications and experience. Deadline Date: Dec. 8, 1982

Office of International Projects — The Office of International Projects is requesting applications from EMU faculty members interested in serving as a short-term Evaluation Adviser Specialist to the Primary Curriculum Development Project in Manzini, Swaziland. Applications will be accepted for either January-April or May-August. For further information please contact the Office of International Projects at 7-0412. Deadline Date: Nov. 12, 1982

An Affirmative Action/Equal Opportunity Employer and Educational Institution

Candidates

continued from page 1

Q. Would you retain or change the existing autonomous system of cooperation and coordination of Michigan's public colleges and universities? Explain.

A. As Chairman of the Oakland University Board of Trustees, I assure you that as Governor I will work to preserve the autonomy of Michigan's public colleges and universities. However, I must also tell you that I think our current approach to the appropriation process demonstrates competition rather than cooperation or coordination and that is a situation we can no longer afford. If we are to obtain quality education, we must develop a multi-year strategic plan for higher education to achieve excellence in part by eliminating overlapping programs and the duplication of facilities.

Research

NSF Chautaugua Short Courses for College Teachers

Applications are now being accepted from college faculty for NSF's 1982-83 Chautaugua Short Courses program. The Chautaugua Short Courses are an annual series of forums held throughout the U.S. in which scholars at the frontiers of various sciences meet with undergraduate teachers of science in intensive sessions for several days. The word "science" is used as a general term referring to the following disciplines: the mathematical, physical, biological, medical (but not clinical), engineering and social sciences, psychology and the history and philosophy of science; also included are interdisciplinary fields.

More than 41 topics are to be covered in the 1982-83 series, including the following:

1. Remote Sensing of the Earth: Concepts and Applications.
2. Immunobiology: Evolutionary, Developmental and Molecular Perspectives.
3. Science and . . . : Interdisciplinary Approaches to Teaching Science.
4. A Laboratory/Lecture Approach to Microcomputer Education.

Participants or their institutions pay the costs of lodging, travel, meals and incidental expenses. Application should be made as soon as possible. For courses that begin in the fall, field centers make their selections of participants about four weeks prior to the beginning of the course. Courses are held Oct. 1982 through May 1983. For further information, contact ORD or your department head.

Research

Fund for the Improvement of Postsecondary Education's annual priorities for the FIPSE Grant Program this year will include:

- a. Increasing the availability of high quality programs for all postsecondary students;
- b. Expanding professional education and employment for racial or ethnic minorities and women;
- c. Expanding learning opportunities for the full-time worker;
- d. Increasing the use of active modes of learning;
- e. Enhancing the knowledge and abilities of postsecondary students;
- f. Improving leadership for new educational circumstances;
- g. Establishing institutions and programs using the technology of communications;
- h. Improving graduate education and the recruitment and retention of faculty.

The preliminary proposal tentative submission date is Dec. 14, 1982.

Forensics team wins third tournament

Eastern's forensics team was victorious for the third time in as many attempts, finishing 82 sweepstakes points ahead of the nearest competitor Clarion College of Pennsylvania in a tournament at Wayne State University Oct. 23 and 24.

Eleven schools from four states competed in the tournament in which Eastern took 21 of the 65 nationally qualifying spots.

"Our goal was to qualify 12 spots, we qualified 21. Needless to say we were very pleased," Lynn Bajec, EMU forensics director, said.

In the public address events Dan Weist finished first in impromptu speaking, Beth Rumpa placed fourth and Tim Muelhoff took fifth.

In extemporaneous speaking, Mickey Blashfield placed first, Rumpa finished fourth and Weist

took sixth.

Paul Friedrich and Diane Bechel placed fourth and sixth respectively in the persuasion event.

In rhetorical criticism, Ann York placed second, Melissa Hartley finished third, Rumpz finished fifth and Muelhoff took sixth.

In informative speaking, Rick Green took fourth and Laura Duncan finished fifth. Bobby Perrin finished first in the after dinner competition.

Eastern took 10 of the top 18 spots in the interpretation events. In dramatic duo competition Eastern's entries took the top three spots. Green and Duncan placed first, second was won by Cheryl Collins and Muehlhoff. Podoske and Scott finished third.

In poetry, Scott placed first, Green took second, Podoske took third and Duncan finished fifth.

Prose was won by Perrin. Scott placed second and Duncan finished fourth.

Seminar to be conducted by Felix Kaufmann

Dr. Felix Kaufmann, president of Science for Business, Inc., will present a seminar dealing with major changes in the U.S. workforce, managing new technology and sunrise and sunset industries Nov. 17, 18 and 19 at the Michigan Inn Hotel in Southfield.

Kaufmann's credentials are impressive. He has served as a consultant for American Telephone and Telegraph Co.; Hoffman-LaRoche, Inc.; Johnson & Johnson, and numerous other organizations. The positions he has held include director of international strategic planning for the Bendix Corp.; executive vice president of Kerr International, Inc.; president of Kerr Italia; manager of corporate planning for Hoffmann-LaRoche, Inc.; and founder and first director of future planning at the Hoffmann Institute.

Kaufmann has lectured internationally. Audiences usually find his presentations outstanding and claim his ideas give them a fresh outlook and new insights into the business world.

The three-day seminar, sponsored by the Division of Continuing Education, will be divided into three separate topics.

On the first day of the seminar, Nov. 17, the topic will be, "Major Changes in the U.S. Workforce." Kaufmann will analyze the workforce of the 1980s by age, sex, race, skills, attitude and type of employ. He also will discuss the new generation of entrants onto the U.S. workforce and the role of

the Japanese will play in their future.

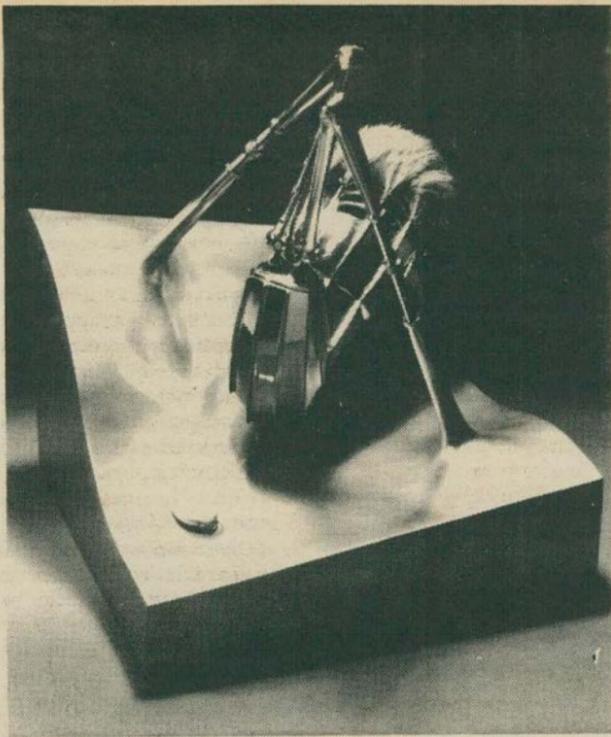

Nov. 18, "Managing New Technology" is the scheduled topic. Kaufmann will delve into the new technologies of the 1980s and 1990s. In addition, he will discuss how work can be fun as well as profitable.

Nov. 19, the final day of the seminar, the topic will be, "Sunrise and Sunset Industries: Pitfalls and Opportunities." Kaufmann will expand upon his theory that most of the raw materials, consumer items and foods produced in the U.S. today will cease to be profitable in the years to come. He believes that only much riskier, short-lived products will have a chance of succeeding. He will explain how we must readjust our planning, marketing and management to meet such a challenge.

The cost of the seminar is \$285 per day. This includes lunch, refreshments, and seminar materials. A \$50 discount is available for three or more persons attending the seminar from the same company, and for the same person attending on the second and third day. To register, call 7-0312. VISA and MasterCard will be accepted.

For further information on the seminar, call Professor Alexandra Aldridge in the College of Technology at 7-1161.

Emergency Call 1-2-3
On Campus?

"Taxonomy," a work in stainless steel, ivory and fur is one of the award winners on display in the new Ford gallery as part of the current metalsmith show.

Ford Gallery opens with metalsmith show

The University Art Department has a new gallery—the brand new Ford Gallery.

Ford Gallery will replace Sill Gallery, which closed Oct. 1. The replacement was necessary because the Art Department moved out of Sill Hall to make room for the expanding College of Technology. Ford Gallery, along with the department's offices, is located in Ford Hall.

The new gallery is smaller than the old one by about 80 square feet, but that isn't necessarily a drawback, says gallery director Jay Yager, professor of art.

"The space is on more of a human scale," he says. "Sill Gallery is a huge space if you're just hanging a painting show. I think this is more comfortable."

"We have a better lighting situation here," he said. "The lights cover more area."

The lobby outside the gallery is also being equipped as exhibit space, but security arrangements for that area have yet to be made.

The new gallery is somewhat more centrally located than Sill Gallery was. Yager hopes this will increase attendance.

The policies of Ford Gallery will be the same, he said. "I look at the gallery basically as an educational support facility. I see that as its main function." Besides the annual group shows by EMU students and faculty, the gallery will feature primarily the work of professional artists from outside Eastern.

The schedule for the coming year includes: through Nov. 24, "Metalsmithing: The Michigan Influence," (co-sponsored by the Michigan Silversmiths Guild); Nov. 29-Dec. 17, Annual Faculty Exhibition; Jan. 5-28, Invitational Textiles Exhibition; March 7-25, Annual Student Show; March 28-April 22, Public School Show; May 9-July 29, Master of Fine Art Graduate Exhibitions.

All of the exhibits are free and open to the public.

LECTURE — William Flynn, vice president and general manager of WJBK-TV 2, will lecture and answer questions, Goddard Lounge, 7:30 p.m.

Sports

Hoop hopes high for '82-83

Practice has begun and Eastern's men's basketball coach Jim Boyce is expecting big things from his charges in 1982-83.

"I feel that we have the best talent since I've been here," Boyce said. "We have enough veteran talent back along with some top recruits to make us a real contender for the Mid-American Conference championship."

A total of 11 lettermen return to the Huron squad that is hoping to build on the success of the 1981-82 season. Last year the Hurons recorded a 15-12 overall record, the first winning season for a men's basketball team since 1971-72.

Eastern also qualified for the 1981-82 Mid-American Conference for the third consecutive year, only one of the four teams to qualify for every tournament.

The fortunes of the '82-83 Hurons lie in finding replacements for the "Twin Towers" Jeff Zatkoff and Jack Brusewitz. The 6-foot-9 front line players produced 40 percent of the Huron offensive firepower last year.

While those two players were lost through graduation, Boyce is confident that senior veterans Marlow McClain, Anthony White and Eric Watson will team with Vince Giles and several top newcomers to make the Hurons a strong team in '82-83.

McClain, a three-year starter at guard, was the co-Most Valuable Player on last year's team along with Zatkoff. McClain averaged 23 points and 2.6 rebounds and currently stands 15th on the all-time EMU scoring list with 928 points.

White, a 6-foot-5 forward, has started for two seasons and averaged 9.2 points and 4.7 rebounds last year. Watson, a 6-foot senior point guard, assumed a starting role midway through

the 1981-82 season and finished with a 2.9 per-game scoring average.

Backed up 6-foot-9 sophomore, Brusewitz at center last season and despite limited playing time showed that he has the power to step in and start at that position.

Other veterans returning this season are Maurice Adams, Johnnie Bailey, Reggie Brown, Dave Lazear, Anthony Miller, Keith Walker and Eddie Womack. Guards Spencer Gardner and Percy Cooper should also help the Huron outside shooting game. Gardner sat out last season with a foot injury

while Cooper will be eligible in January after sitting out the required transfer year after leaving South Alabama University.

Top newcomers in the program are freshmen Ricky Buttrom, Anthony Crews and Jeff Sewell and junior college transfer Phil Blevins will also help immediately.

The 1982-83 Hurons will play a full 18-game Mid-American Conference schedule with home-and-home games slated by the league for the first time since expansion to 10 teams.

In addition to those 18 MAC games the Hurons will play non-

conference games against Wisconsin-Green Bay, Pittsburgh and Akron at home and Grand Valley, Illinois-Chicago and Marshall on the road. Eastern will play Ohio State in a single game on the road and also participate in the Indiana Classic at Indiana University in a field that includes host Indiana, University of North Carolina-Wilmington and Wyoming. The Hurons will play Indiana in the first game of that tournament.

1982-83 SCHEDULE

Nov. 23	WINDSOR CLUB (EXH)	7:30 p.m.
Nov. 29	WISCONSIN-GREEN BAY	7:30 p.m.
Dec. 1	at Grand Valley	7:30 p.m.
