STATE APPROPRIATION INCREASE BY FUND BUDGET PRIORITIES

The Michigan Legislature has approved an appropriation totalling \$38,918,800 for Eastern for the 1983-84 fiscal year, some \$309,000 more than originally anticipated.

University officials had assumed the 1983-84 appropriation would come close to the governor's recommendation of \$38,609,613, a seven and a half percent increase. The General Fund Budget adopted by the Board of Regents in June, totalling \$62 million, incorporated that assumption.

University President John W. Porter held a press conference July 6 that he was "very pleased, very appreciative of the support Eastern Michigan has received from the Speaker of the House (Gary Owen) and the legislative conference committees.

"However," he noted, "an eight and half percent increase does not fund the budget in total. We are still short of the budget we think is essential to maintain a viable program. There are still some important programs that are not funded."

By the time the budget was recommended for approval in June, University officials were anticipating that the increase in the state appropriation might be higher than the governor's recommendation. A list of 24 priorities totalling \$393,151 was approved by the Board of Regents, should funding become available. President Porter indicated that those items would be funded in priority order to the extent that funds are available. The items include:

1. Planning & Budgeting	\$ 6,230
2. Fellowships, Graduate	7,800
3. Research, Faculty	19,500
4. Recreation/Intramurals	30,000
5. Development	4,000
6. Planning & Budgeting	3,484
7. Research, Faculty	6,820

8. Research, Faculty	\$ 1,723
9. Technology	17,262
10. Science & Mathematics	3,250
11. Health	2,800
12. Arts & Humanities	6,205
13. Board of Regents	1,250
14. President's Office	6,314
15. General Administration	16,954
16. Student Services, Admin.	7,400
17. Special Student Services	6,400
18. Human Resources	36,500
19. Planning & Budgeting	1,200
20. Custodial Services	12,000
21. University Relations, Admin.	5,000
22. Legal Services	15,739
23. Human Resources	158,023
24. Center-Educational Resources	17,297

However, Chief Budget Officer George Johnston pointed out that \$75,000 of the increase in the state appropriation over the budgeted amount will come during the 1984-85 fiscal year. He said he would be recommending that none of the 24 priority items be funded until the issue of forward funding was resolved, probably in October. Forward funding is the repayment of 50 percent of Executive Order No. 1983-5, to be withheld in the first quarter of the fiscal year and repaid during the fourth quarter. The University is anticipating that \$828,829 of the \$1,381,381 will be repaid.

PORTER TO ADDRESS NATIONAL CONSUMER PROGRAM

University President John W. Porter will address participants of the National Consumer Economics Program to be held at the Ann Arbor Inn, Ann Arbor, July 31 through Aug. 12.

Porter will welcome teacher-educators from all over the United States to the two-week institute which is sponsored by the Joint Council on Economic Education.

The purpose of the institute is to help teacher-educators to be more cognizant of consumer economics and incorporate these concerns into the curriculum at their schools and universities. (Continued on Page 4.)

RESEARCH

Humanities Grants Available

The Michigan Council for the Humanities is accepting proposals for project grants until August 26, 1983. Projects should contribute to the development of a humanities program in the State of Michigan that will (1) enrich the lives of its citizens by enlarging their knowledge and appreciation of the humanities; (2) employ the humanities effectively to increase understanding of contemporary issues; and (3) strengthen humanities resources for the benefit of the general public.

During 1984, MCH is especially encouraging the submission of applications which reflect the theme: MICHIGAN CELEBRATES THE HUMANITIES: A MODERN DAY CHAUTAUQUA. The term Chautauqua represents the American tradition established in the 1830s of taking the humanities to the general public through informal lectures and organized outdoor cultural activities. MCH anticipates that this theme will generate a statewide offering of public humanities projects that reflect the strongest qualities of the established MCH program.

MCH is also offering Humanities Services Grants. These grants are limited to \$250, and must be used to offset the costs of using the services of the newly established Michigan Center for Humanities Services at MCH. The Center assists project directors and sponsoring organizations to identify possible topics, speakers and supplemental humanities materials for their projects. It serves as a clearinghouse for all types of humanities resources, both human and material. The Humanities Services Grants will be awarded competitively and will provide a \$100 honorarium to a speaker and will underwrite travel expenses up to \$150. Applications for these grants are accepted anytime.

For more information on MCH's programs, contact Cheryl Kozell at 7-3090.

ENTERTAINER BARRY MANILOW
ENDOWS SCHOLARSHIP HERE

Popular singer Barry Manilow has established an endowed scholarship in his name in the Department of Music here.

The endowment is one of several such awards to outstanding music departments made by the popular singer/composer in locations where he performs on a regular basis.

The Barry Manilow Endowment in Music at Eastern will be awarded annually to a student "who shows strength in performance," according to James B. Hause, head of the Music Department. "The endowment fulfills Mr. Manilow's desire to make a lasting contribution to the world of music," said Hause. He said Eastern was selected to receive the contribution from Manilow because of the entertainer's high regard for its school of music.

Nominations for the Barry Manilow Endowment in Music will be submitted by the chairman of the Department of Music and a faculty committee will then participate in the selection process. Hause said that Manilow will participate both in the selection process and the annual announcement of the recipient.

Although the Barry Manilow Endowment in Music will be based primarily on merit, the financial situation of the nominees will be taken into consideration. Students must be currently enrolled in the school of music and be well-rounded individuals with strengths in music performance.

Hause noted that the endowment is the first ever at Eastern Michigan University to be provided by a currently popular performer. The \$7,500 endowment was achieved through Manilow's gift and a contribution from the University to the endowment. The Barry Manilow Endowment in Music annually will provide full tuition for one year to the recipient.

FOCUS EMU is published for faculty and staff every other Tuesday during the spring and summer by the Office of Information Services. The deadline date for copy is 5 p.m. Tuesdays for next week's issue.
