- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is coordinated by the Office of Admissions, and additional documentation may be required.
- Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be earned in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

General Education Requirements:

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available on the General Education section of the catalog: General Education

- For Students who began their undergraduate program at EMU in Fall 2007 or later or who have elected to follow the current ("new") General Education Program, follow the "For Students" link under the Current Program heading.
- For Students who began their undergraduate program at EMU before Fall 2007 and who have elected to follow the Pre-2007 General Education Requirements, follow the "General Education Program Prior to Fall 2007 (pdf file)" link under the Program Prior to Fall 2007 heading. Please note that students who wish to graduate under pre-2007 General Education requirements must graduate by August 2014; those who have not completed all degree requirements by that time will need to satisfy the current (Fall 2007) General Education requirements.

Students who transferred to EMU may have modified general education requirements based on MACRAO or articulation agreements; consult your academic adviser for additional information.

University Information: Consult the online catalog at catalog.emich.edu.
Secondary Education Geography Minor

PROGRAM WILL BE PHASED OUT: EFFECTIVE FALL 2012

This minor is only available to students taking the social studies or history major, for the purposes of state teacher certification. Successful completion of this minor, in the context of other program requirements, qualifies the student for recommendation for endorsement in geography, certification code CB. The Michigan Test for Teacher Certification (MTTC) covering this field is #008, “Geography.”

Geography and Geology Department Information:

Department Head: Richard Alan Sambrook
Department Contact: rsambroo@emich.edu
Website: emich.edu/geo

Required Courses: 18 hours

- ESSC 110 - The Dynamic Earth System (Gen Ed Area IV) 4 hrs
- GEOG 107 - Introduction to Geography (Gen Ed Area IV) 3 hrs
- GEOG 110 - World Regions (Gen Ed Area III) 3 hrs
- GEOG 313 - Geography of Michigan 2 hrs
- GEOG 320 - Geography of the United States and Canada 3 hrs
- HIST 481 - The Teaching of Social Studies 3 hrs

Elective Courses: 2-3 hours

Two or three additional credit hours in GEOG approved by the adviser.

Minor Total: 20-21 hours

Note:

All minors must have at least six hours of course work at the 300-level or above.

Critical Graduation Information:

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the 100-level and above. Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses
will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.

- Meet the requirements of the General Education program (see information below).
- Earn a minimum of 60 credits from a four-year college or university; courses taken at community colleges cannot be used to meet this requirement. (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 unique credit hours in their major and 20 unique credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
- Not more than 60 credit hours in one subject area (prefix) may be applied towards the minimum of 124 credit hours required for a bachelor's degree.
- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more that one major or minor.
   - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
   - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
   - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor
- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is coordinated by the Office of Admissions, and additional documentation may be required.
- Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be earned in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

Students who transferred to EMU may have modified general education requirements based on MACRAO or articulation agreements; consult your academic adviser for additional information.

University Information: Consult the online catalog at catalog.emich.edu.

Tourism Geography Minor
Geography and Geology Department Information:

Department Head: Richard Alan Sambrook
Department Contact: rsambroo@emich.edu
Website: emich.edu/geo

Required Courses: 21 hours

- GEOG 110 - World Regions (Gen Ed Area III) 3 hrs
- GEOG 112 - Introduction to Travel and Tourism 3 hrs
- GEOG 113 - Foundations of Guest Service 3 hrs
- GEOG 212 - Geography of Travel and Tourism 3 hrs
- GEOG 445 - Cultural Tourism Resources 3 hrs
- GEOG 446 - Heritage Interpretation and Tourism 3 hrs

One course from the following:

- ESSC 108 - Earth Science for Nonscience Majors (Gen Ed Area IV) 3 hrs
- GEOG 320 - Geography of the United States and Canada 3 hrs
- GEOG 332 - Urban Geography 3 hrs
- GEOG 336 - Tourism and Socioeconomic Development 3 hrs
- GEOG 441 - Transportation Geography and Planning 3 hrs
- GHPR 335 - Historic Preservation 3 hrs
- URP 215 - Introduction to Urban and Regional Planning 3 hrs

Minor Total: 21 hours

Note:

All minors must have at least six hours of course work at the 300-level or above.

Critical Graduation Information:

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the 100-level and above. Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Earn a minimum of 60 credits from a four-year college or university; courses taken at community colleges cannot be used to meet this requirement. (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.

Students who transferred to EMU may have modified general education requirements based on MACRAO or articulation agreements; consult your academic adviser for additional information.

University Information: Consult the online catalog at catalog.emich.edu.

Urban and Regional Planning Minor

Geography and Geology Department Information:

Department Head: Richard Alan Sambrook
Department Contact: rsambroo@emich.edu
Website: emich.edu/geo

Required Courses: 11 hours
- URP 215 - Introduction to Urban and Regional Planning 3 hrs
- URP 216 - Readings in Urban Planning 2 hrs
- URP 306 - Comprehensive Planning and Zoning 3 hrs
- URP 435 - History of Urban Form and Function 3 hrs

Restricted Elective Courses: 9 hours

Nine hours from the following selected in consultation with the advising coordinator.

- ESSC 303 - Field Geography 3 hrs
- GEOG 332 - Urban Geography 3 hrs
- GEOG 376 - Spatial Analysis 3 hrs
- GEOG 441 - Transportation Geography and Planning 3 hrs
- GHPR 335 - Historic Preservation 3 hrs
- GPLN 387 - Cooperative Education 3 hrs
- GPLN 488 - Internship 4 hrs
- GPLN 489 - Internship 5 hrs
- GPLN 490 - Internship 6 hrs
- GPLN 497 - Independent Study 1 hrs
- GPLN 498 - Independent Study 2 hrs
- GPLN 499 - Independent Study 3 hrs
- PLSC 270 - Public Administration 3 hrs
- SOCL 250 - Quantitative Applications in Sociology (Gen Ed Area II) 3 hrs
- URP 276 - Principles of Geographic Information Systems 3 hrs
- URP 401 - Planning/Preservation Graphics 3 hrs
- URP 409 - Professional Practice for Planners 2 hrs
- URP 410L - Site Planning Studio (Gen Ed Area V LBC) 4 hrs
- URP 495 - Environmental Assessment and Planning 3 hrs
- URP 452 - Infrastructure Planning and Policy (NEW COURSE) 3 hrs
- URP 456 - Zoning and Land Development Regulation (NEW COURSE) 2 hrs
- URP 459 - Planning/Preservation Studio (NEW COURSE) 3 hrs

Minor Total: 20 hours

Note:

All minors must have at least six hours of course work at the 300-level or above.

Critical Graduation Information:

The following are minimum requirements for all bachelor’s degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the 100-level and above. Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses
will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.

- Meet the requirements of the General Education program (see information below).
- Earn a minimum of 60 credits from a four-year college or university; courses taken at community colleges cannot be used to meet this requirement. (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 unique credit hours in their major and 20 unique credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
- Not more than 60 credit hours in one subject area (prefix) may be applied towards the minimum of 124 credit hours required for a bachelor's degree.
- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more that one major or minor.
  - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
  - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
  - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor
- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is coordinated by the Office of Admissions, and additional documentation may be required.
- Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be earned in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

General Education Requirements:

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. Students who transferred to EMU may have modified general education requirements based on MACRAO or articulation agreements; consult your academic adviser for additional information.

University Information: Consult the online catalog at catalog.emich.edu.

Earth Systems Science

ESSC 101 - Introduction to Weather and Forecasting (Gen Ed Area IV)
Students learn the scientific basis for using weather observations to make predictions of the future weather, the technology used to obtain weather observations and how these observations are presented for public information. Weather forecasting will focus on real-time local and significant weather impacts.

Credit Hours: 4 hrs
Lecture/Lab Hours: Lecture: 3 hours per week, Lab: 1 2-hour period per week.

Area IV: Knowledge of the Disciplines

ESSC 101 - Introduction to Weather and Forecasting

Students will be divided into several different groups throughout the semester to tackle small part of each unit independently. These groups will be defined in the online discussion groups and will also determine groups within lab. Each student group will be required to discuss, through online threaded discussions, their topic with guided questions provided by the instructor. For example, in the first unit one group will discuss temperature, another group will discuss wind, etc. Once each group develops an expertise in their topic they will split up into different groups with student from other groups to teach each other about their topic and to analyze a set of problems assigned by the instructor. This activity is commonly called a jigsaw puzzle activity because each student will bring to each group a piece of the puzzle and will be required to analyze or solve problems that require multiple students' knowledge (multiple parts of the puzzle). Often these discussions will be extensions of the laboratory exercises.

During lecture students will get an introduction to topics and discussion from the instructor on more difficult topics. The instructor will also discuss the student-led on-line discussions. Lecture time will also be used to assign groups and allow groups some time to get together in class, though most work of the groups is expected to be completed in laboratories and within on-line discussions.

Last Updated: New Course 02/2012, effective Fall 2012, Gen Ed Approval, effective Winter 2013

ESSC 105 - Climate Change in Human Times (Gen Ed Area III)

An introduction to the study of climate and its variability through time. We will discuss how the climate system works, examine past climate changes and possible causes, investigate the current global warming and its effect on the environment and human population, and analyze the predicted changes for the future and possible solutions.

Credit Hours: 3 hrs

ESSC 107 - Introduction to Environmental Science (Gen Ed Area III)

An introduction to the basic biological, physical and chemical processes that control today’s environmental conditions. The global ecosystem is presented as a structure that includes human society. The understanding of local and global environmental problems and discussion of potential solutions are emphasized.

Credit Hours: 3 hrs
Cross-Listed with: BIO 107
Notes: Does not count toward the Biology major or minor

Area III: Perspectives on a Diverse World

BIO/ESSC 107 Introduction to Environmental Science

This course gives students an understanding of important challenges to the integrity of the global ecosystem and begins to explain many of the scientific and social issues that surround them. Globally, human health and economic well-being can only be sustained under amenable environmental conditions, which depend on climate, atmosphere, water, forests, agricultural soils, human population density and biodiversity. Every bit of the surface of Earth is influenced by human activities; the global
connectedness of our economic activities means that many of our everyday decisions impact far-flung corners of the planet. The goal of this class is for students to gain a better understanding of the workings of the global ecosystem and how the expanding human population interacts with it and depends on it. Learning the basics of environmental science will allow students to make informed decisions about individual and collective actions that impact the present and future state of the environment, both locally and globally.  

Last Updated: Links 04/2011

ESSC 108 - Earth Science for Nonscience Majors (Gen Ed Area IV)

This class provides a basic understanding of the nature of the lithosphere, hydrosphere and atmosphere for nonscience majors. Emphasis is on understanding the dynamic processes that affect the earth and how to apply this knowledge to everyday life.

Credit Hours: 3 hrs
Corequisites: ESSC 109
Notes: Does not count towards major or minor.

Area IV: Knowledge of the Disciplines

ESSC 108 Earth Science for Non-science Majors & Lab [was GESC 108]  
Earth scientists view the entire Earth as a complex system in which a number of components dynamically interact on different timescales. Because the human race is entirely dependent on the resources of the Earth System, because the dynamic nature of the Earth System has a profound impact on individual and societal well-being, and because human activities in turn influence the delicate equilibrium of this system, it is essential to produce a citizenry that has a meaningful understanding of Earth System Science. Students will learn the procedures, practices, methodologies and assumptions that are fundamental to a scientific understanding of the Earth System. The overarching goal of the course is to create scientifically literate citizens that are both willing and able to participate responsibly in a global community by: (1) carefully applying the scientific method as a tool for problem solving, in general; (2) critically evaluating the scientific merit of anything that is presented as science (is it really science?), especially in the area of Earth System Science; and (3) thoroughly incorporating Earth System Science in important decisions and issues at the personal, local, national and global levels.

Last Updated: Links 04/2011

ESSC 109 - Earth Science Laboratory for Non-Science Majors (Gen Ed Area IV)

The laboratory class to accompany ESSC 108. Applications of the scientific method of inquiry as applied to earth sciences to reinforce basic concepts as taught in ESSC 108.

Credit Hours: 1 hr
Corequisites: ESSC 108
Notes: Does not count towards major or minor

Area IV: Knowledge of the Disciplines

ESSC 109 Earth Science for Non-science Majors & Lab [was GESC 108]  
Earth scientists view the entire Earth as a complex system in which a number of components dynamically interact on different timescales. Because the human race is entirely dependent on the resources of the Earth System, because the dynamic nature of the Earth System has a profound impact on individual and societal well-being, and because human activities in turn influence the delicate equilibrium of this system, it is essential to produce a citizenry that has a meaningful understanding of Earth System Science. Students will learn the procedures, practices, methodologies and assumptions that are fundamental to a scientific understanding of the Earth System. The overarching goal of the course is to create scientifically literate citizens that are both willing and able to participate responsibly in a global community by: (1) carefully applying the scientific method as a tool for problem solving, in general; (2) critically evaluating the scientific merit of anything that is presented as science (is it really
science?), especially in the area of Earth System Science; and (3) thoroughly incorporating Earth System Science in important decisions and issues at the personal, local, national and global levels.

Last Updated: Links 04/2011

ESSC 110 - The Dynamic Earth System (Gen Ed Area IV)

An introduction to the Earth System and its components. Utilizes the scientific method to address composition of the earth system, fundamental processes within the earth system and linkages between all components of the system. Includes consideration of how humans impact and are impacted by, the Earth System.

Credit Hours: 4 hrs

Area IV: Knowledge of the Disciplines

ESSC 110 The Dynamic Earth System
In this course, the Earth is viewed as a single, dynamic system, composed of four principal components: Geosphere (the solid Earth), Atmosphere (the gaseous outer envelope of the Earth), Hydrosphere (the liquid water component of the Earth), and Biosphere (the living component of the Earth). This course provides a detailed overview of how the scientific method is applied, in the context of the fundamental laws of physics and chemistry, to understand the Earth System, with particular emphasis being paced on the Geosphere component. The overarching goal of the course is to create scientifically literate citizens that are both willing and able to participate responsibly in a global community by: (1) carefully applying the scientific method as a tool for problem solving, in general (2) critically evaluating the scientific merit of anything that is presented as science (is it really science?), especially in the area of Earth System Science; and (3) thoroughly incorporating Earth System Science in important decisions and issues at the personal, local, national and global levels.

ESSC 111 - The Earth System through Time

The origin, development and succession of earth materials, surface and life forms, culminating in one present scene and organic population. Field trips and reports may be required. Required for Geology and Earth Science majors and minors.

Credit Hours: 4 hrs
Prerequisite: ESSC 110
Last Updated: Links 04/2011

ESSC 114 - Geology of the National Parks (Gen Ed Area IV)

An introduction to the geology of U.S. National Parks and Monuments. Application of the scientific method of inquiry to the basic geologic processes responsible for their formation.

Credit Hours: 4 hrs
Lecture/Lab Hours: Lecture: three hours per week. Laboratory: one two-hour period per week
Notes: Does not count towards major or minor

Last Updated: Credit Hour and Course Description Change 04/2012, effective Fall 2012

ESSC 120 - Dinosaurs, Mammoths and Trilobites: An Introduction to Paleontology (Gen Ed Area IV)

An introduction to Paleontology designed for students who are not majoring or minoring in science. Includes exploration of the scientific method in the context of Paleontology, with hands-on lab-based activities, plus overviews of major groups of life, key ecosystems, and mass extinction events during the history of the biosphere.
Credit Hours: 4 hrs
Lecture/Lab Hours: Lecture: three hours per week; Laboratory: one two-hour period per week.

Area IV: Knowledge of the Disciplines

ESSC 120 Dinosaurs, Mammoths & Turtles: An Introduction to Paleontology [was GEOL 120 The Fossil Record]
This course provides a detailed overview, including inquiry based modules, of how the scientific method is applied to understand: (1) the organic origin of fossils, (2) the key components of the process of fossilizations, (3) the Biosphere, and (5) mass extinction events in the history of the Biosphere, including their consequences and possible causes. Through these efforts the overarching goal of the course is to create scientifically literate citizens that are both willing and able to participate responsibly in a global community by: (1) carefully applying the scientific method as a tool for problem solving, in general; (2) critically evaluating the scientific merit of anything that is presented as science (is it really science?), especially in the area of Paleontology; and (3) thoroughly examining key issues pertaining to interactions between humans and their environment by employing the unique perspective that only a full and complete understanding of the history of the Biosphere, including our place in that history, can provide.

Last Updated: Credit Hour and Course Description Change 04/2012, effective Fall 2012

ESSC 177 - Special Topics
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr

ESSC 178 - Special Topics
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs

ESSC 179 - Special Topics
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs

ESSC 202 - Earth Science for Elementary Teachers (Gen Ed Area IV)
Lectures and laboratory deal with earth science concepts and teaching methodology. Nationally used elementary science curricula acquaint the student with techniques of teaching basic earth science concepts. Emphasis on student-centered, process-oriented approaches widely used in elementary classrooms.

Credit Hours: 3 hrs
Lecture/Lab Hours: Lecture: two hours per week. Laboratory: one two-hour period per week.
Prerequisite: CHEM 101
Notes: Equivalent to ESSC 108.
Area IV: Knowledge of the Disciplines

ESSC 202 Earth Science for Elementary Teachers
This course is an introduction to the study of the geosphere, hydrosphere, atmosphere and exosphere or space, providing students with earth science content knowledge and a hands-on minds-on experience to understand that knowledge. The content knowledge will help the student to be able to teach the elementary Earth Science Michigan Curriculum Framework standards and benchmarks. These benchmarks are required for teaching by in-service teachers. The earth science knowledge will also help the student pass the Michigan Test for Teacher Certification (MTTC). The course supplies students with the necessary skills required to understand the scientific method of inquiry, it provides students with experience doing laboratories that they may be able to modify for their own elementary classrooms. The students work on a DLESE: Digital Library for Earth System Education project which helps the students build a portfolio of earth science activities for use later as an elementary in-service teacher.

Last Updated: Links 04/2011

ESSC 208 - Natural Environmental Hazards

Analysis of devastating earthquakes, volcanic eruptions, floods, violent storms, freezes and other environmental catastrophes, emphasizing their causes and human adjustments to these events.

Credit Hours: 3 hrs
Prerequisite: ESSC 105 or BIO 107/ESSC 107 or ESSC 108 or ESSC 110 or ESSC 114 or ESSC 202
Last Updated: Links 04/2011

ESSC 212 - Weather, Climate and the Earth System

An examination of earth-sun relationships, the nature of atmospheric processes, weather, and climate.

Credit Hours: 3 hrs
Lecture/Lab Hours: Lecture: two hours per week. Laboratory: two hours per week.
Prerequisite: ESSC 110
Last Updated: Links 04/2011

ESSC 215 - Aviation Weather

This course provides the student with an introduction to the properties and processes that create weather and addresses aviation specific weather topics to prepare the student for Federal Aviation Administration examinations. Topics include types of weather that adversely affect flight operation and aviation weather services.

Credit Hours: 3 hrs
Major Restrictions: Aviation Flight Technology and Aviation Management Majors and Minors only
Cross-Listed with: AVT 215
Last Updated: Links 04/2011

ESSC 227 - Topographic Maps

Interpretation of distances, slopes and terrain features as shown on topographic contour maps. Preparation of contour maps from numerical data and of topographic profiles from contour maps; the correlation of landforms and landform patterns with the geologic materials and processes responsible for them.

Credit Hours: 2 hrs
Prerequisite: ESSC 110 or ESSC 202
Last Updated: Links 04/2011
ESSC 228 - Mineralogy

A study of the crystallography, crystal chemistry and identification of the most important rock forming and economic minerals of the crust of the earth.

Credit Hours: 4 hrs
Lecture/Lab Hours: Lecture: three hours per week. Laboratory: one two-hour period per week
Prerequisite: ESSC 110
Concurrent Prerequisite: CHEM 121 and CHEM 122 and ESSC 111
Last Updated: Links 04/2011

ESSC 229 - Rocks and Minerals

The identification and classification of rocks and minerals with special emphasis on characteristics used in the field.

Credit Hours: 3 hrs
Lecture/Lab Hours: Lecture: two hours per week. Laboratory: one two-hour period per week.
Prerequisite: ESSC 110
Last Updated: Links 04/2011

ESSC 250 - Introduction to Coastal Processes

Description and analysis of the physical and biogeographical processes of ocean and lake coasts. Distribution and origins of coastal environments. Natural and human modification of beach, river valley, estuary, marsh, delta and coral reef environments by waves, currents and tides. Classroom demonstrations and field trips.

Credit Hours: 3 hrs
Prerequisite: ESSC 110 or ESSC 202
Last Updated: Links 04/2011

ESSC 277 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr

ESSC 278 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hr

ESSC 279 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs
ESSC 300 - Introduction to Hydrology

Study of physical, chemical and biological elements of rivers, lakes, wetlands and groundwater, and the economic, social, political and legal issues currently associated with these systems. Required for the hydrogeology major.

**Credit Hours:** 3 hrs  
**Prerequisite:** ESSC 110  
**Last Updated:** Links 04/2011

ESSC 303 - Field Geography

Techniques in the observation and analysis of geographic features in the field. Emphasizes individual and group problem formulation, problem solving of geographic questions by using the scientific method and combining traditional field exploration with the use of library aids.

**Credit Hours:** 3 hrs  
**Prerequisite:** ESSC 110  
**Last Updated:** Links 04/2011

ESSC 307 - Essentials of Oceanography for Elementary Teachers

A course designed to prepare Elementary Education majors to conduct classes using marine-based materials. Ocean processes including marine geology, sediments, seawater properties, currents, waves, tides, coastal environments and marine organisms will be discussed. Students will receive hands-on activities created to directly engage K-6 pupils in the scientific method of investigation.

**Credit Hours:** 3 hrs  
**Prerequisite:** ESSC 202  
**Last Updated:** Links 04/2011

ESSC 311 - Weather and Climate for Elementary Teachers

Elementary investigation of weather and climate in their geographical distributions and relationships with other components of the earth system. Earth science principles and methods applicable to an elementary classroom using simple materials are stressed. Class activity includes simple hands-on demonstrations, application of the scientific method, field trips and analyses of weather and climate maps.

**Credit Hours:** 3 hrs  
**Prerequisite:** ESSC 202 or department permission  
**Last Updated:** Links 04/2011

ESSC 312 - Essentials of the Geosphere for Elementary Teachers

Investigation of plate tectonics; the dynamic processes that causes earthquakes, volcanoes, and mountain building; including earth materials and their relationships with other components of the earth system. Earth science principles and methods applicable to an elementary classroom using simple materials are stressed. Class activity includes simple hands-on demonstrations, and the application of the scientific method.

**Credit Hours:** 3 hrs  
**Prerequisite:** ESSC 202  
**Last Updated:** Links 04/2011
ESCC 315 - Water and the Environment for Elementary Teachers

This course, designed for elementary education majors, is an introductory through intermediate-level examination of earth science, emphasizing fresh water environments, supply and demand and their relationship to the depletion of natural resources. Students will receive hands-on training designed to directly engage K-6 pupils in the scientific method of investigation.

Credit Hours: 3 hrs
Prerequisite: ESSC 202
Last Updated: Links 04/2011

ESCC 320 - Oceanography

A study of the world's oceans, including coasts, waves, currents, tides, sediments, marine geology, properties of seawater, the energy balance, oceanographic research techniques and marine resources, stressing physical oceanography.

Credit Hours: 3 hrs
Lecture/Lab Hours: Lecture: two hours per week; Lab: one two-hour period per week.
Prerequisite: ESSC 111
Last Updated: Links 04/2011

ESCC 324 - Weather

Introduction to the properties and processes that create weather, including an analysis of conditions aloft, the formation of storms, and methods and problems of weather forecasting.

Credit Hours: 3 hrs
Lecture/Lab Hours: Lecture: two hours per week. Laboratory: two hours per week.
Prerequisite: ESSC 212 and (MATH 105 or MATH 112 or MATH 119 or MATH 120)
Cross-Listed with: ESSC 562
Last Updated: Prerequisite and Concurrent Prerequisite Change 02/2012, effective Fall 2012; Links 04/2011

ESCC 325 - Geomorphology

A detailed study of surface features and the degradational, aggradational and structural processes by which they are formed. Worldwide examples are used extensively.

Credit Hours: 4 hrs
Lecture/Lab Hours: Lecture: three hours per week. Laboratory: one three-hour period per week.
Prerequisite: ESSC 111
Last Updated: Links 04/2011

ESCC 326 - Structural Geology

Introduction to the terminology, geometry, kinematics and mechanics of rock deformation. Laboratory emphasizes geometric techniques of structural analysis.

Credit Hours: 4 hrs
Lecture/Lab Hours: Lecture: three hours per week. Laboratory: one two-hour period per week.
Prerequisite: ESSC 111 and either MATH 107, MATH 112, MATH 120 or MATH 122
Last Updated: Links 04/2011
ESSC 327 - Soil Science

This course will introduce methods of soil description and classification, and discuss processes and products of weathering, processes of soil formation, and factors influencing soil formation from a geologic and geographic perspective. Through classroom and laboratory/field experiences students will learn practical applications of soils in geologic and environmental studies. Lecture:3 hours per week. Lab: one 2 hour period per week.

Credit Hours: 4 hrs
Prerequisite: ESSC 110, and any of the following ESSC 111 or BIO 310 or ANTH 150
Last Updated: 6/29/2011

ESSC 329 - Igneous and Metamorphic Petrology

A study of the texture, chemistry, classification, origin and evolution of igneous and metamorphic rocks.

Credit Hours: 4 hrs
Lecture/Lab Hours: Lecture: three hours per week. Laboratory: one two-hour period per week.
Prerequisite: ESSC 111 and ESSC 228
Last Updated: Links 04/2011

ESSC 330 - Sedimentology and Stratigraphy

The properties, description and classification of sedimentary rocks; processes and environments of sediment deposition; principles and techniques of stratigraphy. Field trips and reports required.

Credit Hours: 4 hrs
Lecture/Lab Hours: Lecture: two hours per week. Laboratory: four hours per week.
Prerequisite: ESSC 111 and ESSC 228
Last Updated: Links 04/2011

ESSC 331 - Paleontology

Origin and development of life on earth and the environments in which animal assemblages lived. Study of the principles involved in the interpretation of fossils. Systematic study of the features of the organisms most important in the fossil record.

Credit Hours: 4 hrs
Lecture/Lab Hours: Lecture: three hours per week; laboratory: one two-hour period per week.
Prerequisite: ESSC 120, ESSC 111 or BIO 120
Last Updated: Links 04/2011

ESSC 347 - Methods for Teaching Secondary Earth Science

This class will introduce the student to the techniques of teaching laboratory-centered earth science, science content standards, hands-on activities, demos, laboratory organization and safety in the classroom, projects, assessments, writing in science, technology, and presentation skills. As a requirement for teacher certification, the preservice teacher should leave the class prepared to student teach in earth science, geology and physical geography.

Credit Hours: 3 hrs
Prerequisite: CURR 305 and ESSC 212; Admission to the College of Education and the Initial Teacher Preparation Program
Major Restrictions: Earth Science Secondary Teaching Major or Minor or Secondary Integrated Science Major students only
Notes: Not open to students on academic probation. Students majoring in Earth Science must take ESSC347;
students only have the choice of a methods class if they are an Integrated Science Major.

Last Updated: Links 04/2011

**ESSC 350 - Biogeography**

Analysis of the distribution, geologic setting and ecological function of inland freshwater lakes and Great Lakes coasts. Emphasis on sediment, vegetation, wildlife, waterfowl and fisheries resources.

**Credit Hours:** 3 hrs  
**Prerequisite:** ESSC 110  
**Last Updated:** Links 04/2011

**ESSC 355 - Field Geology I**

Theory and practice of precision mapping using tape, alidade, plane table and stadia rod in local area. With ESSC 356, satisfies the field requirement for major in geology. May include field study in a quarry.

**Credit Hours:** 2 hrs  
**Prerequisite:** ESSC 326, ESSC 329 and ESSC 330  
**Last Updated:** Links 04/2011

**ESSC 356 - Field Geology II**

Instruction and practice in pace-traverse mapping, measurement of stratigraphic sections and a mapping of areal geology and geologic structure. With ESSC 355, satisfies field requirement for geology major.

**Credit Hours:** 3 hrs  
**Prerequisite:** ESSC 326, ESSC 329 and ESSC 330  
**Last Updated:** Links 04/2011

**ESSC 370 - Glacial and Quaternary Geology**

The study of Quaternary glacial and non-glacial environments and deposits. Topics include glacial flow, melt-water production, glacial erosion and deposition, formation of landforms, causes of the ice ages, and environmental reconstructions. Weekend field trip and report required.

**Credit Hours:** 4 hrs  
**Lecture/Lab Hours:** Lecture: three hours per week. Laboratory: one three-hour period per week.  
**Prerequisite:** ESSC 111  
**Previously Listed As:** ESSC 370 - Glacial Geology  
**Last Updated:** Change in Title and Course Description 06/2012, effective Winter 2013; Links 04/2011

**ESSC 377 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 1 hr

**ESSC 378 - Special Topics**
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 2 hrs

**ESSC 379 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 3 hrs

**ESSC 387 - Cooperative Education in Geoscience**

Four to six months of full-time employment at a firm or agency, chosen for imparting a practical educational experience in geoscience. A written report is required at the end of the employment period.

**Credit Hours:** 3 hrs

**Prerequisite:** department permission

**Notes:** Graded on a credit/no-credit basis

**ESSC 406 - The Nature of Science**

This course examines the nature of scientific evidence, inquiry, hypothesis, models and laws. The development of science is put in the context of the structure and history of the scientific community. Interactions among scientists and between scientists and the rest of society are studied from an ethical perspective.

**Credit Hours:** 1 hr

**Prerequisite:** ESSC 110 and ESSC 111

**Major Restrictions:** Department permission required for Non-Earth Science Majors or Minors

**Graduate Credit:** This is an undergraduate course available to graduate students for graduate credit in the Earth Science Education program only.

**Cross-Listed with:** BIO 406 and CHEM 406

**Last Updated:** Cross-Listed 09/2011; Graduate Credit 07/2011; Links 04/2011

**ESSC 407 - Nature of Science for Elementary Teachers**

This course examines the nature of scientific evidence, inquiry, hypotheses, models and laws. The development of science is put in the context of the structure of the discipline, its history, and interactions with society. Discussions of modern theories and laws will integrate scientific concepts with the processes of how science works. The class will also provide students with activities to demonstrate these concepts.

**Credit Hours:** 2 hrs

**Prerequisite:** ASTR 105, PHY 100, CHEM 101, ESSC 202, BIO 105, PHY 311, CHEM 312 and ESSC 311

**Class Restrictions:** Junior standing or above

**Major Restrictions:** Elementary Integrated Science Majors only

**Cross-Listed with:** BIOT 407, CHEM 407, PSCI 407

**Last Updated:** Links 04/2011

**ESSC 414 - Teaching Science with Dinosaurs**
This course provides pre- and in-service teachers with the content and skills necessary to use dinosaurs as a focus group to teach the scientific method (i.e., science) at the K-12 level. Students will receive hands-on training in numerous dinosaur-based activities designed to directly engage K-12 pupils in all aspects of the scientific method, including data collection, hypothesis formulation and hypothesis testing.

**Credit Hours:** 3 hrs  
**Prerequisite:** ESSC 108, ESSC 110 or ESSC 202  
**Last Updated:** Links 04/2011

**ESSC 422 - Environmental Geochemistry**

An introduction to the principles of geochemistry designed for upper-level science majors. Focus will be on interactions between the natural environment and anthropogenic activities as well as discussion of current research in various aspects of geochemistry.

**Credit Hours:** 3 hrs  
**Prerequisite:** ESSC 110 and CHEM 123/CHEM 124 and (MATH 105 or MATH 107 or MATH 112 or MATH 119 or MATH 120 or MATH 122)  
**Class Restrictions:** Junior standing or above  
**Graduate Credit:** This is an undergraduate course available to graduate students for graduate credit.  
**Last Updated:** Graduate Credit 07/2011; 03/2011 effective Spring 2011

**ESSC 424 - Climatology**

An analysis of the world’s climate types, including characteristics, classification, controls and their effects on world soils and natural vegetation.

**Credit Hours:** 3 hrs  
**Prerequisite:** ESSC 324  
**Last Updated:** Links 04/2011

**ESSC 425W - Severe and Unusual Weather (Gen Ed Area I, W)**

Analysis of cyclones, blizzards, thunderstorms, tornadoes, hurricanes and other catastrophic weather phenomena. Their environmental impact and prediction.

**Credit Hours:** 3 hrs  
**Prerequisite:** ESSC 324  
**Graduate Credit:** This is an undergraduate course available to graduate students for graduate credit.  
**Last Updated:** Graduate Credit 07/2011; Links 04/2011

**ESSC 428 - Optical Mineralogy**

A study of the optical properties of minerals and the use of the petrographic microscope to identify common minerals in thin section.

**Credit Hours:** 3 hrs  
**Lecture/Lab Hours:** Lecture: two hours per week. Laboratory: two hours per week.  
**Prerequisite:** ESSC 228  
**Graduate Credit:** This is an undergraduate course available to graduate students for graduate credit.  
**Last Updated:** Graduate Credit 07/2011; Links 04/2011
ESSC 430 - Petroleum Geology

A study of the origin, migration and accumulation of petroleum; reservoir analysis, exploration and development techniques.

Credit Hours: 3 hrs
Lecture/Lab Hours: Lecture: two hours per week. Laboratory: two hours per week.
Prerequisite: ESSC 111 and any ESSC 300-level class or above
Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.
Last Updated: Graduate Credit 07/2011; Links 04/2011

ESSC 439 - Economic Geology

A study of the geochemical behavior of metallic elements; the origin, processes, controls and classification of ore deposits.

Credit Hours: 3 hrs
Lecture/Lab Hours: Lecture: two hours per week. Laboratory: two hours per week.
Prerequisite: ESSC 329
Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.
Last Updated: Graduate Credit 07/2011; Links 04/2011

ESSC 448 - Hydrogeology

Subsurface water occurrence, distribution, relationships to surface water and precipitation; subsurface flow, especially as related to well water production; tests of aquifers; well drilling and installation; ground water exploration and recharge; legal problems.

Credit Hours: 3 hrs
Prerequisite: ESSC 300 and either MATH 105 or MATH 107 or MATH 112 or MATH 120 or MATH 122
Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.
Last Updated: Graduate Credit 07/2011; Links 04/2011

ESSC 450 - Lake and Coastal Processes

Analysis of the geological and physical processes of North American coasts including the Great Lakes. We will discuss the origin and distribution of coastal environments; past, current, future natural and anthropogenic modifications and related environmental issues; potential energy resources like waves, tides and currents.

Credit Hours: 3 hrs
Lecture/Lab Hours: Lecture: three hours per week. Laboratory: one hour per week.
Prerequisite: ESSC 320 or ESSC 307
Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.
Previously Listed As: Lake and Coastal Management
Last Updated: Graduate Credit 07/2011; 06/2010 effective winter 2011

ESSC 459 - Aquifer Analysis

Study of the analysis of aquifer parameters and groundwater flow using analytical, numerical and statistical computer methods.

Credit Hours: 3 hrs
Prerequisite: ESSC 448
Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.
Last Updated: Graduate Credit 07/2011; Links 04/2011
ESSC 460 - Contaminant Hydrology

Study of hydrochemistry, pollution pathways and transport of contaminants.

Credit Hours: 3 hrs
Prerequisite: CHEM 121 and CHEM 122 and ESSC 448
Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.
Last Updated: Graduate Credit 07/2011; Links 04/2011

ESSC 466W - Global Tectonics (Gen Ed Area I, W)

A study of the tenets of plate tectonic theory, building on material from previous classes. Included is an investigation into the plate tectonic make-up and evolution of key aspects of the North American plate. This class is designed as a capstone course for upper-level Geology and Earth Science majors and graduate students. This class meets the requirements for a Writing Intensive course in the General Education Program.

Credit Hours: 3 hrs
Prerequisite: ESSC 111 and (ESSC 228 or ESSC 229) and (ESSC 300 or ESSC 320 or ESSC 324 or ESSC 325 or ESSC 326 or ESSC 329 or ESSC 330 or ESSC 370)
Class Restrictions: Junior standing
Last Updated: Links 04/2011

ESSC 470 - Quantitative Methods in Geography and Geology

Introduction to current techniques and methods applicable to geographic and geologic problems. An applied course emphasizing statistical analyses and computer applications.

Credit Hours: 3 hrs
Prerequisite: ESSC 110 and either MATH 104, MATH 105, MATH 107, MATH 112, MATH 120 or MATH 122
Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.
Last Updated: Graduate Credit 07/2011; Links 04/2011

ESSC 477 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr

ESSC 478 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs

ESSC 479 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.
ESSC 485 - Introduction to Remote Sensing

Introduction to remote sensing techniques and types of imagery, including multispectral, thermal and radar images. Emphasis on image enhancement and interpretation in regard to land-use planning and resource management.

Credit Hours: 3 hrs

Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.

Last Updated: Graduate Credit 07/2011

ESSC 487 - Cooperative Education in Geoscience

Four to six months of full-time employment at a firm or agency chosen for imparting a practical educational experience in geoscience. A written report is required at the end of the employment period. Graded on a credit/no-credit basis.

Credit Hours: 3 hrs

Prerequisite: department permission

ESSC 488 - Internship

Supervised internship in some aspect of geology, earth science or land use that is of mutual interest to the qualified student and the place the student will work. This experience is designed to integrate academic training with practical application.

Credit Hours: 4 hrs

Prerequisite: department permission

Notes: May be taken only once for credit.

ESSC 489 - Internship

Supervised internship in some aspect of geology, earth science or land use that is of mutual interest to the qualified student and the place the student will work. This experience is designed to integrate academic training with practical application.

Credit Hours: 5 hrs

Prerequisite: department permission

Notes: May be taken only once for credit.

ESSC 490 - Internship

Supervised internship in some aspect of geology, earth science or land use that is of mutual interest to the qualified student and the place the student will work. This experience is designed to integrate academic training with practical application.

Credit Hours: 6 hrs

Prerequisite: department permission

Notes: May be taken only once for credit.

ESSC 495 - Environmental Assessment and Planning

An examination of the program elements of environmental impact statements. Geobased data sources are explored and analyzed. Impact statements are prepared by the class and existing impact statements are evaluated.
ESSC 497 - Independent Study

Advanced study on individual basis in areas in which the department does not offer a formal course. Normally restricted to proficient students in the senior year under the general conditions prescribed for honors courses.

Credit Hours: 1 hr
Prerequisite: department permission

ESSC 498 - Independent Study

Advanced study on individual basis in areas in which the department does not offer a formal course. Normally restricted to proficient students in the senior year under the general conditions prescribed for honors courses.

Credit Hours: 2 hrs
Prerequisite: department permission

ESSC 499 - Independent Study

Advanced study on individual basis in areas in which the department does not offer a formal course. Normally restricted to proficient students in the senior year under the general conditions prescribed for honors courses.

Credit Hours: 3 hrs
Prerequisite: department permission

Geography

GEOG 100 - Introduction to Geospatial Sciences and Technology

This course is an introduction to the geospatial sciences and popular geospatial technologies that are widely used for mapping and analyzing geographic patterns of human activities and natural phenomena. Students will be exposed to basic concepts, techniques and practical skills in Cartography, Global Positioning Systems (GPS), Geographic Information Systems, and Remote Sensing. No previous exposure to GIS or mapping is necessary for enrollment in this course.

Credit Hours: 3 hrs
Previously Listed As: GEOG 100 - Human Geosciences
Last Updated: Title and Course Description Change 04/2012, effective Fall 2012

GEOG 107 - Introduction to Geography (Gen Ed Area IV)

A survey of the major concepts and subfields in modern geography. Physical, cultural, economic, political and social geography are among the major areas explored.

Credit Hours: 3 hrs
Area IV: Knowledge of the Disciplines

GEOG 107 Introduction to Geography
GEOG 107 Introduction to Geography addresses the five fundamental themes of geography: location, place, relationship within places, movement and regions. The course is intended as the first step in the development of lifelong geographic literacy and as an introduction to the social sciences.

GEOG 110 - World Regions (Gen Ed Area III)

Geographic evaluation of the human imprint on the world, focusing on how peoples of various societies have approached the problems of living in their natural environments and with each other. A requirement for both the major and minor in geography.

Credit Hours: 3 hrs

Area III: Perspectives on a Diverse World

GEOG110 World Regions
GEOG110 World Regions is designed to increase global awareness by systematically examining major world geographic regions and key places therein -- including absolute and relative locations, physical and human characteristics and interrelationships within the global community. The course explores how culture and experience influence people's perceptions and regions; encourages awareness and tolerance of other regional cultural realities; explores global patterns and networks of economic, political, and cultural interdependence; and illustrates how cooperation and conflict among people influence the division and control of Earth's surface; and illustrates balanced regional and global decision-making toward overall human development. the course emphasizes that virtually all geographic areas of the globe are increasingly interrelated in their effects upon one another. It emphasizes that to be a tolerant global citizen, one must be aware of the weak as well as the strong points of ones own cultural, political and economic realities in the context of global diversity. This course is intended as the first step in the development of lifelong geographic literacy as a requisite for global awareness.

Last Updated: Edited 02/2012

GEOG 111 - Regions and Resources

A comparative analysis of the economic resources of major regions of the world. The relationships among countries, corporations and multiple levels of technology are examined.

Credit Hours: 3 hrs

Prerequisite: GEOG 110

Last Updated: Links 04/2011

GEOG 112 - Introduction to Travel and Tourism

An introduction to the travel and tourism industry, including traditional and emerging careers; the ethical, behavioral and logistical aspects of the travel experience; traveler needs and motivations; futuristic travel directions; and travel-related organizations.

Credit Hours: 3 hrs

GEOG 113 - Foundations of Guest Service

Analysis of guest-host service concepts and interactions in the travel and tourism industry, emphasizing the requisite attitudes and role of the professional host. The course will improve student motivation and skills toward providing positive guest experiences.
Credit Hours: 3 hrs

GEOG 115 - Observing the Human Landscape

A geography course for students of any curriculum designed to enlighten travel experiences by developing observational awareness and perceptual appreciation of human landscapes and by enhancing sensitivity to the personality of places.

Credit Hours: 2 hrs

GEOG 150 - Sustainable Development (Gen Ed Area III)

This course will provide students with a comprehensive and broad-based introduction to the world of sustainability by exploring its origins, philosophy, proponents and detractors, and its wide-reaching applications according to the valuation system of the "triple bottom line", which takes into account environmental, economic, and social equity factors when providing a measure of success.

Credit Hours: 3 hrs

Area III: Perspectives on a Diverse World

GEOG 150 Sustainable Development

We live in a world today that shows us with ever-growing frequency that it is no longer an option for conscientious people to remain ignorant of the fact that all life on this planet is interconnected. From the heights of advanced technology to the ecosystems of underwater plant life, the actions of one entity affect many others and nowhere are these connections more evident than in the area of sustainability.

GEOG 150 - Sustainable Development satisfies the Global Awareness category of the General Education program. This course will provide students with an accessible and informative introduction to the world of sustainability as described through its philosophy and origins, its practitioners and naysayers, and through its many varied applications as both a field of study and an area for entrepreneurship. Students will be exposed to topics and themes that will form a complete introductory outline of sustainability; the study of the causes, effects, and remedies for the issues we face today as a global culture in relation to our environmental footprint and dwindling natural resources, our societal well-being and ability (and also willingness) to take care of the least among us, and our ability to prosper in the future and our failure to do so in the past as measured by the "triple bottom line" evaluation method. The "triple bottom line" benchmark for assessing the relative success of any of the decisions we make is one that takes into account not only the potential economic benefits or pitfalls, but also measures the environmental and social equity aspects of the equation. Students will also be encouraged to link sustainable principles and practices to their personal areas of interest, as sustainability can be practiced in some way in almost all disciplines.

Last Updated: General Education 03/2012, effective Fall 2012

GEOG 177 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr
Prerequisite: department permission

GEOG 178 - Special Topics
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 2 hrs  
**Prerequisite:** department permission

**GEOG 179 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 3 hrs  
**Prerequisite:** department permission

**GEOG 212 - Geography of Travel and Tourism**

A review of the philosophy, historical development and geographical distribution of travel and tourism. The economic, social and environmental impacts of these activities; case studies illustrating their significance from all regions of the world.

**Credit Hours:** 3 hrs

**GEOG 235 - Economic Geography**

Systematic treatment of economic activities in select world locations. Areal factors included in the evaluation, production and distribution of goods and services.

**Credit Hours:** 3 hrs

**GEOG 276 - Principles of Geographic Information Systems**

Introduction to the concept of computer mapping. Accessing online sources of spatial data; creating digital maps and charts using online data sources; vector and raster data models, spatial data entry and editing; coordinate systems and methods of georeferencing digital maps; elementary database management and spatial analysis. (Required for GIS minors and Urban and Regional Planning majors. Also suggested for teachers who would like to incorporate digital mapping into their teaching. Appropriate for all other disciplines using spatial mapping.)

**Credit Hours:** 3 hrs  
**Prerequisite:** (GEOG 107 or GEOG 110) and (ESSC 108 or ESSC 110)  
**Cross-Listed with:** URP 276  
**Last Updated:** Links 04/2011

**GEOG 277 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 1 hr  
**Prerequisite:** department permission

**GEOG 278 - Special Topics**
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 2 hrs  
**Prerequisite:** department permission

**GEOG 279 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 3 hrs  
**Prerequisite:** department permission

**GEOG 311 - History and Geography of the Modern World (NEW COURSE)**

This course provides an interdisciplinary study of global history and geography from 1500 to the present. It addresses key issues in global history and geography (such as the Colombian exchange, colonialism, global war) across several different world regions.

**Credit Hours:** 3 hrs  
**Prerequisite:** GEOG 110, HIST 110  
**Cross-Listed with:** HIST 311  
**Course Revisions:** This is a new course, effective Winter 2013.  
**Last Updated:** New Course 10/2012, effective Winter 2013

**GEOG 313 - Geography of Michigan**

Detailed analysis of the natural setting, population and settlement characteristics, industry, recreation and agriculture in the state.

**Credit Hours:** 2 hrs  
**Prerequisite:** GEOG 110  
**Last Updated:** Links 04/2011

**GEOG 314W - Geography of Russia and Neighboring States (Gen Ed Area I, W)**

A systematic and regional study of physical, cultural and economic factors in Russia and other states of the former Soviet Union. Distribution of natural resources, population and ethnic questions, environmental problems and political evolution will be emphasized.

**Credit Hours:** 3 hrs  
**Prerequisite:** GEOG 110  
**Previously Listed As:** GEOG 314  
**Last Updated:** Gen Ed Approval 10/2011, effective Winter 2012; Links 04/2011

**GEOG 315 - Travel and Tourism: The European Scene**

Consideration of Europe as the most significant continent for modern tourism. Emphasis is on the natural, cultural and historical factors that form the foundation of this industry; and on the major economic, social and environmental impacts that can be
attributed to tourism.

**Credit Hours:** 3 hrs  
**Prerequisite:** GEOG 112 and GEOG 212  
**Last Updated:** Links 04/2011

**GEOG 316 - History and Geography of Modern Europe**

An interdisciplinary geographical-historical study of modern Europe with the geographical component emphasizing information of an urban, demographic, occupational and environmental nature and the historical component stressing major political, social and cultural developments. Must be taken concurrently with HIST 316.

**Credit Hours:** 3 hrs  
**Prerequisite:** GEOG 110 and either HIST 101, HIST 102 or HIST 103  
**Last Updated:** Links 04/2011

**GEOG 317 - History and Geography of Spanish America**

An interdisciplinary presentation of the history and geography of Spanish America with emphasis on political, cultural and socioeconomic forces from the conquest to the present. Similarities and differences within and among nations are stressed as are the special relationships that exist between the nations and the United States.

**Credit Hours:** 3 hrs  
**Prerequisite:** GEOG 110 and one of HIST 101/HIST 102/HIST 103  
**Concurrent Prerequisite:** HIST 317  
**Last Updated:** Links 04/2011

**GEOG 318 - Geography of Asia**

A regional treatment of natural setting, distribution of the people, important occupations and problems of future development in each of several regions.

**Credit Hours:** 3 hrs  
**Prerequisite:** GEOG 110  
**Last Updated:** Links 04/2011

**GEOG 319 - Geography of Europe**

Systematic treatment of the natural setting, cultural patterns, economic activities and developmental problems of the continent; selected significant regions analyzed in detail.

**Credit Hours:** 3 hrs  
**Prerequisite:** GEOG 110  
**Last Updated:** Links 04/2011

**GEOG 320 - Geography of the United States and Canada**

A regional treatment of natural setting, distribution of the people, important occupations and problems of future development in each of several regions.

**Credit Hours:** 3 hrs
GEOG 321 - Geography of Latin America

A regional treatment of natural setting, distribution of the people, important occupations and problems of future development in each of several regions.

Credit Hours: 3 hrs
Prerequisite: GEOG 110
Last Updated: Links 04/2011

GEOG 322 - Geography of Africa

A human ecological treatment of the African continent, involving resource identification and use as well as the varied nature of evolving human landscapes.

Credit Hours: 3 hrs
Prerequisite: GEOG 110
Last Updated: Links 04/2011

GEOG 332 - Urban Geography

A study of geographic principles related to distribution, function, structure and regional setting of urban centers.

Credit Hours: 3 hrs
Prerequisite: GEOG 110
Last Updated: Links 04/2011

GEOG 333 - Settlement Geography

Cultural, functional and ecological factors underlying human settlement patterns.

Credit Hours: 3 hrs
Prerequisite: GEOG 110 or GEOG 115
Last Updated: Links 04/2011

GEOG 336 - Tourism and Socioeconomic Development

Socioeconomic impacts of tourism; national and international development strategies.

Credit Hours: 3 hrs
Prerequisite: GEOG 112 or GEOG 212
Last Updated: Links 04/2011

GEOG 345 - Geography of Resorts

Historical and systematic study of resorting and the resort as a functionally specialized settlement type; major resort areas of the world.

Credit Hours: 2 hrs
**GEOG 348 - Teaching Social Studies in Elementary Schools**

Survey of the social studies and evaluation of methods commonly used in the teaching of social studies in the elementary grades, with special emphasis on inquiry. Types of activities most effective in the presentation of materials and the use of visual aids are featured. A study of maps and globes, controversial issues, social values, environmental education, consumer education, global education and ethnic groups is included.

**Credit Hours:** 3 hrs  
**Prerequisite:** one course in geography  
**Notes:** Not open to students on academic probation.

**GEOG 360 - Cultural Geography**

Human landscape patterns; emphasis upon the processes concerned with their origins, locations and persistence.

**Credit Hours:** 3 hrs  
**Prerequisite:** GEOG 110

**GEOG 361 - Geography of Population**

An analytical study of population characteristics and growth, world patterns of fertility, mortality and migration. Major attention is given to human population problems, including ecology, resources depletion and impacts of urbanization.

**Credit Hours:** 3 hrs  
**Prerequisite:** GEOG 110

**GEOG 376 - Spatial Analysis**

Intermediate concepts and techniques in vector and raster GIS. Topics include thematic mapping, exploratory spatial data analysis, use of inferential statistics in GIS, point pattern analysis, regression modeling in GIS, modeling environmental and human geographic processes, surface interpolation and terrain analysis, map algebra, and network analysis.

**Credit Hours:** 3 hrs  
**Prerequisite:** GEOG 276 or URP 276  
**Previously Listed As:** GEOG 376 - Geographic Information Systems Analysis  
**Last Updated:** Title and Course Description Change 02/2012, effective Fall 2012; Links 04/2011

**GEOG 377 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 1 hr  
**Prerequisite:** department permission

**GEOG 378 - Special Topics**
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 2 hrs  
**Prerequisite:** department permission

**GEOG 379 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 3 hrs  
**Prerequisite:** department permission

**GEOG 387 - Cooperative Education in Geography**

Four to six months of full-time employment at a firm or agency, chosen for imparting a practical educational experience in geography. The program consists of two work experiences (GEOG387/487) alternating with full-time University attendance. A written report is required at the end of each employment period.

**Credit Hours:** 3 hrs  
**Prerequisite:** Admittance by application only  
**Class Restrictions:** Completion of Sophomore year  
**Major Restrictions:** Geography Majors only  
**Notes:** Graded on a credit/no-credit basis.

**GEOG 405 - Aerial Photo Interpretation**

Analysis of black and white and color infrared photographs for land use planning, environmental assessment, geology and resource management. Weekly lab exercises. Optional field trip.

**Credit Hours:** 3 hrs  
**Prerequisite:** GEOG 276 or URP 276  
**Notes:** Not open to students with credit in ESSC 575.  
**Last Updated:** Links 04/2011

**GEOG 441 - Transportation Geography and Planning**

Explores the evolution of transportation in American society, with special attention paid to the impact of railroads, the automobile and the airline industry. Topics include an introduction to techniques for modeling transportation system demand.

**Credit Hours:** 3 hrs  
**Prerequisite:** GEOG 235, GEOG 212 or URP 215  
**Graduate Credit:** This is an undergraduate course available to graduate students for graduate credit.  
**Last Updated:** Graduate Credit 07/2011; Links 04/2011

**GEOG 445 - Cultural Tourism Resources**

Survey of the relationships between cultural heritage resources and tourism. The tourism potentials of cultural centers and museums, archeological sites, folk crafts and foodways, regional cultural mannerisms, ethnic landscapes, architecturally significant buildings, historic cities and towns, and other types of historic landscapes will be covered.
GEOG 446 - Heritage Interpretation and Tourism

Evolution of the private sector tour-guiding and the public sector heritage interpretation concepts. Practice in the application of interpretive technique to cultural and natural tourism resources. Strategies for the integrative use of interpretive methods, including tours, demonstrations, talks, person-to-person experiences, publications, exhibits, signage and audiovisuals.

GEOG 476 - Geodatabases and GIS Client Applications

This course introduces students to current technologies used to develop and manage geodatabases. Emphasis is on the conceptual, logical and physical design aspects of geodatabases; managing personal and enterprise geodatabases; and desktop and web mapping clients that utilize geodatabases.

GEOG 477 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

GEOG 478 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

GEOG 479 - Special Topics
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 3 hrs  
**Prerequisite:** department permission  
**Graduate Credit:** This is an undergraduate course available to graduate students for graduate credit.  
**Last Updated:** Graduate Credit 07/2011

**GEOG 480 - Geographic Information Systems Projects**

A study of different ways in which GIS is being used to resolve problems in the public and private sectors and in academia. Emphasis is on how GIS technology is being used in areas such as facility management, natural resource management, urban planning, environmental modeling, historical preservation, geology, health planning, etc. By working on a number of small, but realistic, projects students learn how to conceptualize GIS solutions to problems and how to professionally implement GIS projects.

**Credit Hours:** 3 hrs  
**Prerequisite:** GEOG 376  
**Graduate Credit:** This is an undergraduate course available to graduate students for graduate credit.  
**Last Updated:** Graduate Credit 07/2011; Links 04/2011

**GEOG 487 - Cooperative Education in Geography**

Four to six months of full-time employment at a firm or agency chosen for imparting a practical educational experience in geography. The program consists of two work experiences (GEOG 387/GEOG 487) alternating with full-time attendance at the University. A written report is required at the end of each employment period.

**Credit Hours:** 3 hrs  
**Prerequisite:** GEOG 387; Admittance by application only  
**Class Restrictions:** Completion of Junior year  
**Major Restrictions:** Geography Major  
**Notes:** Graded on a credit/no-credit basis  
**Last Updated:** Links 04/2011

**GEOG 488 - Internship**

Supervised internship in some aspect of geography that is of mutual interest to the qualified student and the place the student will work. Designed to integrate academic training with practical application.

**Credit Hours:** 4 hrs  
**Prerequisite:** department permission and placement  
**Notes:** May be taken only once for credit.

**GEOG 489 - Internship**

Supervised internship in some aspect of geography that is of mutual interest to the qualified student and the place the student will work. Designed to integrate academic training with practical application

**Credit Hours:** 5 hrs  
**Prerequisite:** department permission and placement  
**Notes:** May be taken only once for credit.
GEOG 490 - Internship

Supervised internship in some aspect of geography that is of mutual interest to the qualified student and the place the student will work. Designed to integrate academic training with practical application

Credit Hours: 6 hrs
Prerequisite: department permission and placement
Notes: May be taken only once for credit.

GEOG 497 - Independent Study

Advanced study on individual basis in areas in which the department does not offer a formal course. Normally restricted to proficient students in the senior year under the general conditions prescribed for honors courses.

Credit Hours: 1 hr
Prerequisite: department permission

GEOG 498 - Independent Study

Advanced study on individual basis in areas in which the department does not offer a formal course. Normally restricted to proficient students in the senior year under the general conditions prescribed for honors courses.

Credit Hours: 2 hrs
Prerequisite: department permission

GEOG 499 - Independent Study

Advanced study on individual basis in areas in which the department does not offer a formal course. Normally restricted to proficient students in the senior year under the general conditions prescribed for honors courses.

Credit Hours: 3 hrs
Prerequisite: department permission

GEOG 513 - South American Lands

A regional study of the countries of South America; resources, people and national cultures are stressed.

Credit Hours: 2 hrs
Prerequisite: GEOG 321 or equivalent
Notes: This is a graduate course in an undergraduate program.
Last Updated: Links 04/2011

GEOG 518 - Problems of Sub-Saharan Africa

Individual research in selected problems in the geography of Sub-Saharan Africa.

Credit Hours: 2 hrs
Prerequisite: GEOG 322 or equivalent
Last Updated: Links 04/2011
Historic Preservation

GHPR 177 - Special Topics
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr
Prerequisite: department permission

GHPR 178 - Special Topics
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs
Prerequisite: department permission

GHPR 179 - Special Topics
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs
Prerequisite: department permission

GHPR 277 - Special Topics
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr
Prerequisite: department permission

GHPR 278 - Special Topics
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs
Prerequisite: department permission

GHPR 279 - Special Topics
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs
Prerequisite: department permission
GHPR 335 - Historic Preservation

Introduction to general concepts and goals of historic preservation. The built environment as a cultural heritage resource; objectives of cultural surveys and inventories; methods of preservation, conservation, planning and interpretation.

Credit Hours: 3 hrs
Prerequisite: GEOG 115
Last Updated: Links 04/2011

GHPR 377 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr
Prerequisite: department permission

GHPR 378 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs
Prerequisite: department permission

GHPR 379 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs
Prerequisite: department permission

GHPR 387 - Cooperative Education in Historic Preservation

Four to six months of full-time employment at a firm or agency, chosen for imparting a practical educational experience in historic preservation, historic administration or heritage interpretation. The program consists of two work experiences (GHPR 387/GHP 487) alternating with full-time University attendance. A written report is required at the end of each employment period.

Credit Hours: 3 hrs
Prerequisite: Admittance by application only
Class Restrictions: Completion of Sophomore year
Major Restrictions: Historic Preservation or related Minor
Notes: Graded on a credit/no-credit basis
Last Updated: Links 06/2011

GHPR 401 - Planning/ Preservation Graphics

A lecture-laboratory course in graphics techniques of mapmaking, topographic analysis, communication of data and presentation. Media explored will include pen and ink, colored pencil and markers, and digital photography.
GHPR 436 - Historic Preservation Field Project

Specially arranged, supervised field experiences and application of theoretical viewpoints to field problems in historic preservation.

Credit Hours: 3 hrs
Prerequisite: URP 215
Cross-Listed with: URP 401
Last Updated: Links 04/2011

GHPR 437 - Historic Preservation Field Project

Specially arranged, supervised field experiences and application of theoretical viewpoints to field problems in historic preservation.

Credit Hours: 6 hrs
Prerequisite: department permission

GHPR 475 - Architectural Nomenclature

The language and terms of architecture are the focus of this course. The history and development of architectural terminology from the Old World to America will be covered in the first half and the application of same to follow.

Credit Hours: 2 hrs
Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.
Last Updated: Graduate Credit 07/2011

GHPR 477 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr
Prerequisite: department permission

GHPR 478 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs
Prerequisite: department permission

GHPR 479 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.
Credit Hours: 3 hrs
Prerequisite: department permission

GHPR 487 - Cooperative Education in Historic Preservation

Four to six months of full-time employment at a firm or agency, chosen for imparting a practical educational experience in historic preservation, historic administration or heritage interpretation. The program consists of two work experiences (GHPR 387/GHPR 487) alternating with full-time attendance at the University. A written report is required at the end of each employment period.

Credit Hours: 3 hrs
Class Restrictions: Completion of Junior year
Major Restrictions: Historic Preservation or related Minor
Notes: Graded on a credit/no-credit basis
Last Updated: Links 06/2011

GHPR 488 - Internship

Supervised internship in some aspect of historic preservation, historic administration or heritage interpretation that is of mutual interest to the qualified student and the place the student will work. This experience is designed to integrate academic training with practical application.

Credit Hours: 4 hrs
Prerequisite: department permission and placement
Notes: May be taken only once for credit.

GHPR 489 - Internship

Supervised internship in some aspect of historic preservation, historic administration or heritage interpretation that is of mutual interest to the qualified student and the place the student will work. This experience is designed to integrate academic training with practical application.

Credit Hours: 5 hrs
Prerequisite: department permission and placement
Notes: May be taken only once for credit.

GHPR 490 - Internship

Supervised internship in some aspect of historic preservation, historic administration or heritage interpretation that is of mutual interest to the qualified.

Credit Hours: 6 hrs
Prerequisite: department permission and placement
Notes: May be taken only once for credit.

GHPR 497 - Independent Study

Advanced study on an individual basis in areas in which the department does not offer a formal course. Normally restricted to proficient students in the senior year under the general conditions prescribed for honors courses.
Credit Hours: 1 hr  
Prerequisite: department permission

**GHPR 498 - Independent Study**

Advanced study on an individual basis in areas in which the department does not offer a formal course. Normally restricted to proficient students in the senior year under the general conditions prescribed for honors courses.

Credit Hours: 2 hrs  
Prerequisite: department permission

**GHPR 499 - Independent Study**

Advanced study on an individual basis in areas in which the department does not offer a formal course. Normally restricted to proficient students in the senior year under the general conditions prescribed for honors courses.

Credit Hours: 3 hrs  
Prerequisite: department permission

**Urban and Regional Planning**

**GPLN 177 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr

**GPLN 178 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs

**GPLN 179 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs

**GPLN 277 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr

**GPLN 278 - Special Topics**
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 2 hrs

**GPLN 279 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**GPLN 499 - Independent Study**

Advanced study on an individual basis in areas in which the department does not offer a formal course. Normally restricted to proficient students in the senior year under the general conditions prescribed for honors courses.

**Credit Hours:** 3 hrs  
**Prerequisite:** department permission  
**Class Restrictions:** Sophomore standing

**URP 115 - The American City (Gen Ed Area IV)**

This course includes a systematic study of cities as incubators of change, how cities are planned and grow, and their social and political structures. Students will gain an understanding of how cities impact their lives by studying topics such as suburbanization, transportation and land use, and urban lifestyles.

**Credit Hours:** 3 hrs  
**Previously Listed As:** GPLN 115

**Area IV: Knowledge of the Disciplines**
URP 115 The American City [was GPLN 115]
The course provides an introduction to a variety of social science methods and ways of studying the complex relationships that exist between American cities and suburbs, and the people that inhabit them. Students in this course will explore how the urban experience has transformed the American landscape in recent years, and how our changing understandings of the issues of urban racial and ethnic identities, social class structures, and personal lifestyles have helped to reshape what the American city is in the 21st century. Students will gain an appreciation of various theoretical perspectives that have provided insights on how the city is both physically and socially structured. Sources of information about cities will also be discussed, and students will gain a fundamental understanding of how the various social sciences develop and utilize data in understanding urban phenomena.

Last Updated: Course Prefix Change 03/2012, effective Fall 2012

URP 215 - Introduction to Urban and Regional Planning

An introduction to community planning at local and regional levels, including an overview of issues and techniques for land use planning. Topics include purpose of community plans, housing and community development, environmental planning, transportation, historic preservation, economic development, and urban design. Included is discussion of planning as a career.

Credit Hours: 3 hrs
Previously Listed As: GPLN 215
Last Updated: Course Prefix and Class Restriction Change 03/2012, effective Fall 2012

URP 216 - Readings in Urban Planning

A lecture/seminar course in which students read and discuss classic readings in urban planning. This course serves as an introduction to important writers and topics in the field.

Credit Hours: 2 hrs
Class Restrictions: Sophomore standing
Previously Listed As: GPLN 216
Course Revisions: This course will have a class restriction change from "Sophomore standing" to "none," effective Winter 2013.
Last Updated: Course Description and Class Restriction Change 05/2012, effective Winter 2013; Course Prefix Change 03/2012

URP 276 - Principles of Geographic Information Systems

Introduction to the concept of computer mapping. Accessing online sources of spatial data; creating digital maps and charts using online data sources; vector and raster data models, spatial data entry and editing; coordinate systems and methods of georeferencing digital maps; elementary database management and spatial analysis. (Required for GIS minors and Urban and Regional Planning majors. Also suggested for teachers who would like to incorporate digital mapping into their teaching. Appropriate for all other disciplines using spatial mapping.)

Credit Hours: 3 hrs
Prerequisite: GEOG 107, GEOG 110, ESSC 108 or ESSC 110
Cross-Listed with: GEOG 276
Previously Listed As: GPLN 276
Last Updated: Course Prefix Change 03/2012, effective Fall 2012; Links 04/2011

URP 306 - Comprehensive Planning and Zoning

A course studying issues of comprehensive planning, zoning and land-use regulation. Topics include preparation of a general development plan, current and recent zoning issues, land use legislation and the drafting and use of state and local zoning ordinances. A base course for Urban and Regional Planning students as well as a valuable perspective to anyone interested in rural, urban or regional development issues.
URP 401 - Planning/Preservation Graphics

A lecture-laboratory course in graphics techniques of mapmaking, topographic analysis, communication of data, and presentation. Media explored will include pen and ink, colored pencil and markers, and digital photography.

Credit Hours: 3 hrs
Prerequisite: URP 215
Previously Listed As: GPLN 306
Last Updated: Course Prefix Change 03/2012, effective Fall 2012; Links 04/2011

URP 409 - Professional Practice for Planners

Presentation and discussion of topics relating to professional practice in planning and related areas. Readings, case studies, simulations, and guest speakers are used to expose students to professional activities, including public hearings, dealing with community controversies, and professional-level communication techniques. Topics also deal with issues of professional ethics, job searching, and certification.

Credit Hours: 2 hrs
Prerequisite: URP 306 and URP 415W
Previously Listed As: GPLN 409
Course Revisions: This course will have a prerequisite change from "URP 215" to "URP 306 and URP 415W," effective Winter 2013. The revision also includes a course description change, a corequisite change from "URP 410L" to "none," and class restriction change from "Senior standing" to "none."
Last Updated: Description, Prerequisite, Corequisite and Restriction Change 10/2012, effective Winter 2013; Course Prefix Change 03/2012; Links 04/2011

URP 410L - Site Planning Studio (Gen Ed Area V LBC)

A studio course in urban planning, gives hands-on experience in developing a site plan. Using an actual site and client, a project will be taken through the various stages of plan development. Activities include program analysis, data collection, development of alternative solutions, and selection and presentation of a final site plan.

Credit Hours: 4 hrs
Prerequisite: URP 215 and URP 306
Class Restrictions: Senior standing
Previously Listed As: GPLN 410L
Last Updated: Course Prefix Change 03/2012, effective Fall 2012

URP 415W - Methods of Planning Analysis (Gen Ed Area I, W)

This course will help students navigate through an urban planning research project from start to finish. Students learn the basics of research design, engage actively in gathering data using several data collection techniques, develop analytical skills to interpret the collected data, and learn to communicate results graphically, orally and in writing.

Credit Hours: 3 hrs
Prerequisite: URP 215, URP 276 and URP 306
Concurrent Prerequisite: URP 401
Class Restrictions: Sophomore standing
Previously Listed As: GPLN 415W

Rationale: Learning to communicate clearly and succinctly in written form and in a variety of styles is an important component of a professional planner's job. While courses in composition can provide you with the basics of writing, this class will teach you to write to a particular audience. Urban planners communicate information in a variety of ways: books, journal articles, refereed conference papers, reports, grant proposals, grant reviews, book reviews, plan reviews, plans, ordinances, memos, public announcements and flyers. While we will not be able to address all within this course, you will be challenged with a number of these different methods of communication so that you can begin to develop an understanding of the conventions in the field. In this course, you will learn to not only formulate different types of research projects but also to present the results of your research in several ways that are accepted in the field: basic memo writing; persuasive writing; report writing, creative writing; and grant writing. In other words, this course will train you for your everyday job as a planner who creates flyers, writes professional memos, writes planning reports, and pursues grants. You will do this by accessing several data sources including city and county planning data; plans and ordinances; census data; GIS data; and academic literature. While you will also learn to present your ideas verbally, the primary emphasis will be on written communication.

Last Updated: Course Prefix Change 03/2012, effective Fall 2012

URP 435 - History of Urban Form and Function

Historically important periods of urban planning are analyzed in select cities throughout the world and in the United States. Comparisons are made between city plans from other cultures and our own.

Credit Hours: 3 hrs
Prerequisite: URP 215 and URP 216
Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.
Notes: GEOG 332 is recommended.
Previously Listed As: GPLN 435

Last Updated: Course Prefix Change 03/2012, effective Fall 2012; Graduate Credit 07/2011; Links 04/2011

URP 452 - Infrastructure Planning and Policy (NEW COURSE)

This course gives students an understanding of the major urban and rural infrastructures systems, as well as the role capital budgeting plays in the financing of these systems. Students should be able to recognize and quantify municipal infrastructure needs and understanding the planner's role in the provision of these services.

Credit Hours: 3 hrs
Prerequisite: URP 215
Equivalent Courses: URP 552

Last Updated: New Course, 11/2012, effective Winter 2013

URP 456 - Zoning and Land Development Regulation (NEW COURSE)

A seminar course exploring zoning, subdivision, and other regulatory tools used in the planning profession to direct and control land development in urban, suburban, and rural areas. Course includes discussion of associated constitutional and legal issues surrounding property development, as well as alternatives to typical zoning regulation.

Credit Hours: 2 hrs
Prerequisite: URP 215 and URP 306, or permission of instructor
Concurrent Prerequisite: URP 306
Class Restrictions: Sophomore, Junior, and Senior

Last Updated: New Course, 11/2012, effective Winter 2013
URP 459 - Planning/Preservation Studio (NEW COURSE)

An interdisciplinary planning and preservation studio in which student teams analyze a neighborhood, development area, or street corridor in a local community. Students collect and analyze data, create future development proposals, and present their proposals at a public meeting.

Credit Hours: 3 hrs
Prerequisite: URP 215 or instructor permission
Concurrent Prerequisite: URP 306
Class Restrictions: Sophomore standing or above
Equivalent Courses: URP 559 Planning/Preservation Studio
Last Updated: New Course 11/2012; effective Winter 2013

URP 460 - Transportation Modeling Systems

This course provides skills necessary for being an effective transportation planner. It introduces students to the most common modeling software through lectures and exercises. Combined with other courses in the Undergraduate Certificate in Transportation Planning, it enhances their career choices in the field of transportation planning and engineering.

Credit Hours: 3 hrs
Prerequisite: GEOG 441 and URP 276
Equivalent Courses: URP 560
Last Updated: New Course, 11/2012, effective Winter 2013

URP 495 - Environmental Assessment and Planning

An examination of the program elements of environmental impact statements. Geo-based data sources are explored and analyzed. Impact statements are prepared by the class, and existing impact statements are evaluated.

Credit Hours: 3 hrs
Prerequisite: URP 215 or URP 276
Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.
Cross-Listed with: ESSC 495
Previously Listed As: GPLN 495
Last Updated: Course Prefix Change 03/2012, effective Fall 2012; Graduate Credit 07/2011; Links 04/2011

URP 505 - Seminar in Methods and Research

Basic research design and techniques applicable to Geography, Planning, and Geographic Information Systems students. Course work includes location and identification of source materials, statement and analysis of problems, and preparation of results of research.

Credit Hours: 2
Class Restrictions: Senior Standing Only
Last Updated: New Course 5/2012, effective Winter 2013
History and Philosophy Programs and Courses

History and Philosophy

Major

History Major

Through the study of history, students gain an understanding of the past as well as several widely transferable skills. History majors learn how to think critically and to write clearly. Students also learn how to conduct research, interpret sources, and create compelling arguments and intriguing narratives. Students of history also bring a historical and cross-cultural perspective to discussions of current affairs and can participate in public life as an informed, thoughtful, and articulate citizen and leader.

Majors in History take a class in historical research and writing and at least one upper-level course in the history of each of the following: the United States and Canada; Europe; and Africa, Asia, and Latin America. Beyond these basic requirements, the program allows students freedom to design a course of study focused on their own interests.

Phone Number for Advisers: 734.487.1018

General Education Requirements:

For specific requirements refer to the General Education Program. Download the Gen Ed Checklist here.

Major Requirements: 30 hours

Required Courses: 12 hours

- HIST 300W - Researching and Writing History (Gen Ed Area I, W) 3 hrs
One course from the following:

- HIST 101 - Western Civilization to 1648 (Gen Ed Area IV) 3 hrs
- HIST 102 - Western Civilization, 1648 to World War II (Gen Ed Area IV) 3 hrs
- HIST 103 - 20th-Century Civilization (Gen Ed Area III) 3 hrs
- HIST 109 - World History to 1500 3 hrs
- HIST 110 - World History since 1500 (Gen Ed Area III) 3 hrs

One course from the following:

- HIST 123 - The United States to 1877 (Gen Ed Area IV) 3 hrs
- HIST 124 - The United States, 1877 to the Present (Gen Ed Area IV) 3 hrs

An additional course to complete one of the following sequences:

- HIST 101 - Western Civilization to 1648 (Gen Ed Area IV) 3 hrs
- HIST 102 - Western Civilization, 1648 to World War II (Gen Ed Area IV) 3 hrs

- HIST 109 - World History to 1500 3 hrs
- HIST 110 - World History since 1500 (Gen Ed Area III) 3 hrs

- HIST 123 - The United States to 1877 (Gen Ed Area IV) 3 hrs
- HIST 124 - The United States, 1877 to the Present (Gen Ed Area IV) 3 hrs

Restricted Elective Courses: 15 hours

*Six credit hours of history courses 300-level or above in two of the following areas and three hours in the remaining area.*

A. United States and Canada
B. Europe (includes Russia and ancient Greece and Rome)
C. Africa, Asia, Latin America (includes Middle East and ancient Near East)

*One of these courses must be designated as emphasizing "Historical Writing" (HW).*

Elective Courses: 3 hours

*HIST 481 - The Teaching of Social Studies may not be counted toward the major.*

Minor Requirements:

This program requires a minor. Please contact your program adviser for a list of possible minors.

Program Total:

Students must earn a minimum total of 124 credits at the 100-level or above.
Critical Graduation Information:

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the 100-level and above. Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Earn a minimum of 60 credits from a four-year college or university; courses taken at community colleges cannot be used to meet this requirement. (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 unique credit hours in their major and 20 unique credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
- Not more than 60 credit hours in one subject area (prefix) may be applied towards the minimum of 124 credit hours required for a bachelor's degree.
- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more that one major or minor.
  - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor.
  - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
  - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor.
- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is coordinated by the Office of Admissions, and additional documentation may be required.
- Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be earned in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

General Education Requirements:

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available on the General Education section of the catalog: General Education

- For Students who began their undergraduate program at EMU in Fall 2007 or later or who have elected to follow the current ("new") General Education Program, follow the "For Students" link under the Current Program heading.
- For Students who began their undergraduate program at EMU before Fall 2007 and who have elected to follow the Pre-2007 General Education Requirements, follow the "General Education Program Prior to Fall 2007 (pdf file)" link under the Program Prior to Fall 2007 heading. Please note that students who wish to graduate under pre-2007 General Education requirements must graduate by August 2014; those who have not completed all degree requirements by that time will need to satisfy the current (Fall 2007) General Education requirements.
Students who transferred to EMU may have modified general education requirements based on MACRAO or articulation agreements; consult your academic adviser for additional information.

University Information: Consult the online catalog at catalog.emich.edu.

Philosophy Major

The Philosophy major provides basic knowledge in the general field of philosophy and strikes a balance between topical philosophical groups. The program supplements those in many other disciplines, such as teaching, literature, the performing arts and the sciences. A philosophy major also prepares students for graduate work in philosophy, law, theology, literature, political science and other related liberal arts subjects. It is a nonteaching major.

The Philosophy major consists of 33 credit hours, 24 of which must be at the 200 level or above. Majors must satisfactorily complete at least one course in each of the following five core areas, with a minimum of twelve credit hours at the 300 or 400 level.

History and Philosophy Department Information:

Department Head: Richard F. Nation
Department Contact: richard.nation@emich.edu
Website: http://www.emich.edu/historyphilosophy/

Adviser Information:

Program Adviser: Jill Dieterle
Email: jdieterle@emich.edu
Phone: 734.487.1018

General Education Requirements:

For specific requirements refer to the General Education Program. Download the Gen Ed Checklist here.

Major Requirements: 33 hours

_Students must select a minimum of three hours from each of the five core areas:_

I. Logic and Reasoning: 3-9 hours

At least one course from the following:

- *PHIL 120 - Introduction to Critical Reasoning (Gen Ed Area IV) 3 hrs
- *PHIL 130 - Introduction to Logic 3 hrs
- PHIL 181 - Logic and Model Theory (Gen Ed Area III) 3 hrs
- PHIL 281 - Symbolic Logic 3 hrs

II. History of Philosophy: 3-9 hours

At least one course from the following:
• PHIL 330W - History of Philosophy: Ancient (Gen Ed Area I, W) 3 hrs
• PHIL 331W - History of Philosophy: Modern (Gen Ed Area I, W) 3 hrs
• PHIL 332W - History of Philosophy: 19th Century (Gen Ed Area I, W) 3 hrs

III. Values: 3-24 hours

At least one course from the following:

• PHIL 212 - Philosophy of Art (Gen Ed Area IV) 3 hrs
• PHIL 220 - Ethics (Gen Ed Area IV) 3 hrs
• PHIL 221 - Business Ethics (Gen Ed Area IV) 3 hrs
• PHIL 223 - Medical Ethics (Gen Ed Area IV) 3 hrs
• PHIL 224 - Ethics and Food (Gen Ed Area IV) 3 hrs
• PHIL 225 - Political Philosophy (Gen Ed Area IV) 3 hrs
• PHIL 229 - Environmental Ethics (Gen Ed Area IV) 3 hrs
• PHIL 260 - Existentialism (Gen Ed Area IV) 3 hrs
• PHIL 310W - Aesthetics (Gen Ed Area I, W) 3 hrs
• PHIL 355W - Philosophy of Law (Gen Ed Area I, W) 3 hrs
• PHIL 370W - Philosophy and Narrative (Gen Ed Area I, W) 3 hrs
• ** PHIL 426W - Topics in Gender and Philosophy (Gen Ed Area I, W) 3 hrs
• PHIL 470W - Twentieth Century European Philosophy (Gen Ed Area I, W) 3 hrs

IV. Epistemology and Metaphysics: 3-27 hours

At least one course from the following:

• PHIL 215 - Philosophy of Religion (Gen Ed Area IV) 3 hrs
• PHIL 325W - Theory of Knowledge (Gen Ed Area I, W) 3 hrs
• PHIL 375W - Metaphysics (Gen Ed Area I, W) 3 hrs
• PHIL 480W - Philosophy of Science (Gen Ed Area I, W) 3 hrs
• PHIL 390W - Phenomenology (Gen Ed Area I, W) 3 hrs
• ** PHIL 426W - Topics in Gender and Philosophy (Gen Ed Area I, W) 3 hrs
• PHIL 442W - Philosophy of Mind (Gen Ed Area I, W) 3 hrs
• PHIL 460W - Philosophy of Language (Gen Ed Area I, W) 3 hrs
• PHIL 471W - Early Analytic Philosophy (Gen Ed Area I, W) 3 hrs
• PHIL 475W - Philosophy of Mathematics (Gen Ed Area I, W) 3 hrs

V. Eastern/Global: 3-9 hours

At least one course from the following:

• PHIL 226 - Feminist Theory (Gen Ed Area III, IV) 3 hrs
• PHIL 228 - Global Ethics (Gen Ed Area III, IV) 3 hrs
• PHIL 291 - Introduction to Asian Philosophy (Gen Ed Area III) 3 hrs
• PHIL 391W - Early Chinese Philosophy (Gen Ed Area I, W) 3 hrs

Restricted Elective Courses: 18 hours
Minor Requirements:

This program requires a minor. Please contact your program adviser for a list of possible minors.

Program Total:

Students must earn a minimum total of 124 credits at the 100-level or above.

Notes:

Each student must choose a writing intensive course as part of major completion requirements. Consult your adviser for course options.

Only one of PHIL 100 - Introduction to Philosophy or PHIL 110 - Philosophies of Life may be counted toward the major.

* Only one of PHIL 120 - Introduction to Critical Reasoning or PHIL 130 - Introduction to Logic may be counted toward the major.

** This course satisfies either area III or IV, depending on its specific content. It may only be used to satisfy one area requirement.

Critical Graduation Information:

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the 100-level and above. Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Earn a minimum of 60 credits from a four-year college or university; courses taken at community colleges cannot be used to meet this requirement. (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 unique credit hours in their major and 20 unique credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
- Not more than 60 credit hours in one subject area (prefix) may be applied towards the minimum of 124 credit hours required for a bachelor's degree.
- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more that one major or minor.
  - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
  - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor.

- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is coordinated by the Office of Admissions, and additional documentation may be required.

- Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be earned in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

**General Education Requirements:**

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available on the General Education section of the catalog: General Education.

- For Students who began their undergraduate program at EMU in Fall 2007 or later or who have elected to follow the current ("new") General Education Program, follow the "For Students" link under the Current Program heading.

- For Students who began their undergraduate program at EMU before Fall 2007 and who have elected to follow the Pre-2007 General Education Requirements, follow the "General Education Program Prior to Fall 2007 (pdf file)" link under the Program Prior to Fall 2007 heading. Please note that students who wish to graduate under pre-2007 General Education requirements must graduate by August 2014; those who have not completed all degree requirements by that time will need to satisfy the current (Fall 2007) General Education requirements.

Students who transferred to EMU may have modified general education requirements based on MACRAO or articulation agreements; consult your academic adviser for additional information.

**University Information:** Consult the online catalog at catalog.emich.edu.

**Secondary Education History Major**

**PROGRAM WILL BE PHASED OUT:**

**EFFECTIVE FALL 2012**

Successful completion of this course of study, in the context of other program requirements, qualifies the student for recommendation for the Michigan Department of Education Secondary Provisional Certificate endorsed in history, certification code CC and, depending on the minor selected, endorsement in geography (CB), political science (CD) or economics (CA). This program of study meets all requirements of the National Council for the Social Studies. The Michigan Test for Teacher Certification (MTTC) covering this field is #009, “History.”

Initial Teacher Preparation Program Admission

In order to pursue the sequence of courses necessary to complete eligibility for recommendation for certification, one must apply for and be admitted to the teacher preparation program. Admission requirements are common for all teacher preparation programs, except that certain special education programs have additional requirements.

Each undergraduate student is responsible for applying to the teacher preparation program immediately after the semester in which the student has earned 56 credit hours. Transfer students with more than 56 credit hours should apply immediately after the semester in which they have earned 12 hours at EMU, including at least one course in their major. Students with 56 hours of transfer course work with a decision GPA of 3.0 may apply for admission to the teacher preparation program without 12 earned hours at EMU.

Admission to the teacher preparation program is not automatic. Only those persons who have formally applied are considered for admission. Not all persons who apply become eligible for admission.

Applications for the Initial Teacher Preparation Program at EMU are available within your my.emich account under the "Student" tab. Submit your completed application to the Office of Academic Services once you have earned 56 credit hours.

Teaching majors and minors are unofficial until program admission. Students pursuing teacher certification should follow the catalog that exists at the time of program admission. It is important that students apply to the teacher preparation program as soon as they have earned 56 credit hours.

Criteria

1. Completion of 56 credit hours

2. Appropriate cumulative GPA. One of:

   1. An overall EMU GPA of 2.5 or higher. At least 12 of the 56 credit hours taken at EMU with an EMU GPA of 2.5 or higher in your major (each of your majors if declaring a double major). You must complete at least one course in your major(s) in order to be eligible.

   2. Transferred 56 credits with a cumulative 3.0 GPA from all previous institutions.

3. A grade of “C” or higher (if taken) in the following courses:

   1. Secondary: ENGL 121, CTAC 124, quantitative reasoning, one lab science, all professional education courses, and, if special education, PSY 101.
2. Elementary: ENGL 121, CTAC 124, MATH 108, MATH 110E, PHY 100, CHEM 101, ESSC 202, all of the professional education courses, all courses that state “for elementary teachers,” and, if special education, PSY 101.

4. Passing scores on all three sections of the Michigan Test for Teacher Certification Basic Skills Test (MTTC) (reading, mathematics, and writing). Official score report must be on file at Eastern Michigan University.

5. Personal statement about your experiences with youth/children and why you are going into teaching. This statement will be read for content, grammar, and punctuation.

6. Completion of a Disposition Self Evaluation Form.

7. ICHAT criminal background check and Statement of Civil/Criminal Convictions. If you answered yes to any of the civil/criminal conviction questions on the application, you will need to provide:
   1. A copy of the Judgment of Sentence, or Registrar of Actions, or Certification of Conviction.
   2. A written explanation of the offense(s). Application of students with civil/criminal convictions will be carefully reviewed and may take longer to process.

8. Meet academic, social, moral, and financial obligations as a member of the EMU community.

Major Requirements: 33-36 hours

Required Courses: 21-24 hours

- HIST 123 - The United States to 1877 (Gen Ed Area IV) 3 hrs
- HIST 124 - The United States, 1877 to the Present (Gen Ed Area IV) 3 hrs
- HIST 300W - Researching and Writing History (Gen Ed Area I, W) 3 hrs

One course from the following:

- GEOG 107 - Introduction to Geography (Gen Ed Area IV) 3 hrs
- GEOG 110 - World Regions (Gen Ed Area III) 3 hrs

One course from the following:

See History adviser for more options.

- ECON 375 - Economic History of the United States 3 hrs
- HIST 471 - Social and Intellectual History of 19th-Century Europe 3 hrs

One option from the following:

Option I:

- HIST 109 - World History to 1500 3 hrs
- HIST 110 - World History since 1500 (Gen Ed Area III) 3 hrs
Option II:

- HIST 101 - Western Civilization to 1648 (Gen Ed Area IV) 3 hrs
- HIST 102 - Western Civilization, 1648 to World War II (Gen Ed Area IV) 3 hrs
- HIST 103 - 20th-Century Civilization (Gen Ed Area III) 3 hrs

Elective Courses: 12 hours

_Six hours of history courses 300-level or above in one of the following areas and three hours in each of the remaining areas:_

A. United States and Canada
B. Europe (includes Russia and ancient Greece and Rome)
C. Africa, Asia and Latin America (includes Middle East and ancient Near East)

_For a current list of classes that count for each area, consult the History Section website or a History undergraduate adviser._

Professional Secondary Education Sequence

Secondary Education Pre-Admission Phase: The Learner and the Community: 7 hours

_Prerequisite: Sophomore standing or higher._

- EDPS 322 - Human Development and Learning 4 hrs
- SPGN 251 - Education of Students with Exceptionalities 3 hrs

The following phases require formal admission to the Initial Teacher Preparation Program:

Secondary Education Phase I: Curriculum, Assessment and the Social Context: 15 hours

_Prerequisite: Completion of Pre-Admission Phase is required._

* These two courses must be taken together.
** These courses must be taken with or after CURR 305.

- * CURR 305 - Curriculum and Methods: Secondary 3 hrs
- ** EDMT 330 - Instructional Applications of Media and Technology 3 hrs
- ** EDPS 340 - Introduction to Assessment and Evaluation 3 hrs
- * PRCT 305 - Practicum I: Secondary 3 hrs
- SOFD 328W - Schools for a Diverse and Democratic Society (Gen Ed Area I, W) 3 hrs
Secondary Education Phase II: Content and Methods and Teaching: 9 hours

Prerequisite: Completion of Phase I is required.

* These two courses must be taken together.

- * PRCT 311 - Practicum II: Secondary 3 hrs
- * RDNG 311 - Teaching Reading in the Secondary School 3 hrs

Methods Course by Major:

History Majors take:

- HIST 481 - The Teaching of Social Studies 3 hrs

Secondary Education Phase III: Capstone Experience: 9 hours

Prerequisite: Completion of Phase II and 100 pre-student teaching hours is required.

- EDUC 492 - Student Teaching 9 hrs
  This course requires a formal application to be submitted 7-8 months prior to the Student Teaching semester.

Minor Requirements:

This program requires a minor. Select from geography, political science or economics.

Program Total:

Students must earn a minimum total of 124 credits at the 100-level or above.

Critical Graduation Information:

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the 100-level and above. Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Earn a minimum of 60 credits from a four-year college or university; courses taken at community colleges cannot be used to meet this requirement. (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
Have a minimum of 30 unique credit hours in their major and 20 unique credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.

Not more than 60 credit hours in one subject area (prefix) may be applied towards the minimum of 124 credit hours required for a bachelor's degree.

Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more that one major or minor.
  - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
  - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
  - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor

Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is coordinated by the Office of Admissions, and additional documentation may be required.

Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be earned in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

**General Education Requirements:**

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available on the General Education section of the catalog: General Education

- For Students who began their undergraduate program at EMU in Fall 2007 or later or who have elected to follow the current ("new") General Education Program, follow the "For Students" link under the Current Program heading.
- For Students who began their undergraduate program at EMU before Fall 2007 and who have elected to follow the Pre-2007 General Education Requirements, follow the "General Education Program Prior to Fall 2007 (pdf file)" link under the Program Prior to Fall 2007 heading. Please note that students who wish to graduate under pre-2007 General Education requirements must graduate by August 2014; those who have not completed all degree requirements by that time will need to satisfy the current (Fall 2007) General Education requirements.

Students who transferred to EMU may have modified general education requirements based on MACRAO or articulation agreements; consult your academic adviser for additional information.

**University Information:** Consult the online catalog at catalog.emich.edu.

**Secondary Education History/Geography Comprehensive Major**

Successful completion of this course of study, in the context of other program requirements, qualifies the student for recommendation for the Michigan Department of Education Secondary Provisional Certificate endorsed in history, certification code CC and, depending on the minor selected, endorsement in geography (CB), political science (CD) or economics (CA). This program of study meets all requirements of the National Council for the Social Studies. The Michigan Test for Teacher Certification (MTTC) covering this field is #009, “History.”

**History and Philosophy Department Information:**
Initial Teacher Preparation Program Admission

In order to pursue the sequence of courses necessary to complete eligibility for recommendation for certification, one must apply for and be admitted to the teacher preparation program. Admission requirements are common for all teacher preparation programs, except that certain special education programs have additional requirements.

Each undergraduate student is responsible for applying to the teacher preparation program immediately after the semester in which the student has earned 56 credit hours. Transfer students with more than 56 credit hours should apply immediately after the semester in which they have earned 12 hours at EMU, including at least one course in their major. Students with 56 hours of transfer course work with a decision GPA of 3.0 may apply for admission to the teacher preparation program without 12 earned hours at EMU.

Admission to the teacher preparation program is not automatic. Only those persons who have formally applied are considered for admission. Not all persons who apply become eligible for admission.

Applications for the Initial Teacher Preparation Program at EMU are available within your my.emich account under the "Student" tab. Submit your completed application to the Office of Academic Services once you have earned 56 credit hours.

Teaching majors and minors are unofficial until program admission. Students pursuing teacher certification should follow the catalog that exists at the time of program admission. It is important that students apply to the teacher preparation program as soon as they have earned 56 credit hours.

Criteria

1. Completion of 56 credit hours

2. Appropriate cumulative GPA. One of:
   
   1. An overall EMU GPA of 2.5 or higher. At least 12 of the 56 credit hours taken at EMU with an EMU GPA of 2.5 or higher in your major (each of your majors if declaring a double major). You must complete at least one course in your major(s) in order to be eligible.
   
   2. Transferred 56 credits with a cumulative 3.0 GPA from all previous institutions.

3. A grade of “C” or higher (if taken) in the following courses:
   
   1. Secondary: ENGL 121, CTAC 124, quantitative reasoning, one lab science, all professional education courses, and, if special education, PSY 101.
2. Elementary: ENGL 121, CTAC 124, MATH 108, MATH 110E, PHY 100, CHEM 101, ESSC 202, all of the professional education courses, all courses that state “for elementary teachers,” and, if special education, PSY 101.

4. Passing scores on all three sections of the Michigan Test for Teacher Certification Basic Skills Test (MTTC) (reading, mathematics, and writing). Official score report must be on file at Eastern Michigan University.

5. Personal statement about your experiences with youth/children and why you are going into teaching. This statement will be read for content, grammar, and punctuation.

6. Completion of a Disposition Self Evaluation Form.

7. ICHAT criminal background check and Statement of Civil/Criminal Convictions. If you answered yes to any of the civil/criminal conviction questions on the application, you will need to provide:
   1. A copy of the Judgment of Sentence, or Registrar of Actions, or Certification of Conviction.
   2. A written explanation of the offense(s). Application of students with civil/criminal convictions will be carefully reviewed and may take longer to process.

8. Meet academic, social, moral, and financial obligations as a member of the EMU community.

General Education Requirements:

For specific requirements refer to the General Education Program. Download the Gen Ed Checklist here.

Required Courses: 45 hours

These courses form a single integrated program of study and cannot be taken separately in any way.

- ECON 375 - Economic History of the United States 3 hrs
- ESSC 110 - The Dynamic Earth System (Gen Ed Area IV) 4 hrs

- GEOG 100 - Introduction to Geospatial Sciences and Technology 3 hrs
  OR
- GEOG 276 - Principles of Geographic Information Systems 3 hrs

- GEOG 107 - Introduction to Geography (Gen Ed Area IV) 3 hrs
- GEOG 110 - World Regions (Gen Ed Area III) 3 hrs
- GEOG 313 - Geography of Michigan 2 hrs
- GEOG 320 - Geography of the United States and Canada 3 hrs
- GEOG 360 - Cultural Geography 3 hrs
- HIST 109 - World History to 1500 3 hrs
- HIST 110 - World History since 1500 (Gen Ed Area III) 3 hrs
- HIST 123 - The United States to 1877 (Gen Ed Area IV) 3 hrs
- HIST 124 - The United States, 1877 to the Present (Gen Ed Area IV) 3 hrs
- HIST 300W - Researching and Writing History (Gen Ed Area I, W) 3 hrs

- HIST 311 - History and Geography of the Modern World (NEW COURSE) 3 hrs
  OR
• GEOG 311 - History and Geography of the Modern World (NEW COURSE) 3 hrs
• HIST 416 - American Environmental History 3 hrs
• PLSC 112 - American Government (Gen Ed Area IV) 3 hrs
  ** OR **
• PLSC 113 - American Government Honors (Gen Ed Area IV) 3 hrs

**History/Geography Electives: 12-13 hours**

• One Geography (GEOG) or Earth System Science (ESSC) course at 300-level and above.
• Three upper-level History (HIST) courses (3 credits each, 300-level and above): one in United States or Canada (Area A), one in Europe (Area B), and one in Africa, Asia or Latin America (Area C).

**Professional Secondary Education Sequence**

**Secondary Education Pre-Admission Phase: The Learner and the Community: 7 hours**

*Prerequisite: Sophomore standing or higher.*

• EDPS 322 - Human Development and Learning 4 hrs
• SPGN 251 - Education of Students with Exceptionalities 3 hrs

**The following phases require formal admission to the Initial Teacher Preparation Program:**

**Secondary Education Phase I: Curriculum, Assessment and the Social Context: 15 hours**

*Prerequisite: Completion of Pre-Admission Phase is required.*

* These two courses must be taken together.
** These courses must be taken with or after CURR 305.

• * CURR 305 - Curriculum and Methods: Secondary 3 hrs
• ** EDMT 330 - Instructional Applications of Media and Technology 3 hrs
• ** EDPS 340 - Introduction to Assessment and Evaluation 3 hrs
• * PRCT 305 - Practicum I: Secondary 3 hrs
• SOFD 328W - Schools for a Diverse and Democratic Society (Gen Ed Area I, W) 3 hrs

**Secondary Education Phase II: Content and Methods and Teaching: 9 hours**

*Prerequisite: Completion of Phase I is required.*
* These two courses must be taken together.

- * PRCT 311 - Practicum II: Secondary 3 hrs
- * RDNG 311 - Teaching Reading in the Secondary School 3 hrs

Methods Course by Major:

History/Geography Comprehensive Majors take:

- HIST 481 - The Teaching of Social Studies 3 hrs

Secondary Education Phase III: Capstone Experience: 9 hours

*Prerequisite: Completion of Phase II and 100 pre-student teaching hours is required.*

- EDUC 492 - Student Teaching 9 hrs
  This course requires a formal application to be submitted 7-8 months prior to the Student Teaching semester.

Program Total:

Students must earn a minimum total of 124 credits at the 100-level or above.

MTTC Subject Area Test

*Starting January 1, 2013, Students seeking licensure in a secondary or K-12 area are not required to take the MTTC subject area test in their minor area. Students who elect not to take the test in their minor will be required to sign a statement indicating that they understand that they will not be endorsed in their minor area and will not be eligible for teaching positions in their minor unless they pass the minor subject area test within five years of completing field experience and course requirements.*

Notes:

Each student must choose a writing intensive course as part of major completion requirements. Consult your adviser for course options.

Critical Graduation Information:

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the 100-level and above. Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Earn a minimum of 60 credits from a four-year college or university; courses taken at community colleges cannot be used to meet this requirement. (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 unique credit hours in their major and 20 unique credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
- Not more than 60 credit hours in one subject area (prefix) may be applied towards the minimum of 124 credit hours required for a bachelor's degree.
- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more that one major or minor.
  - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
  - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
  - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor
- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is coordinated by the Office of Admissions, and additional documentation may be required.
- Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be earned in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

**General Education Requirements:**

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available on the General Education section of the catalog: General Education

- For Students who began their undergraduate program at EMU in Fall 2007 or later or who have elected to follow the current ("new") General Education Program, follow the "For Students" link under the Current Program heading.

Initial Teacher Preparation Program Admission

In order to pursue the sequence of courses necessary to complete eligibility for recommendation for certification, one must apply for and be admitted to the teacher preparation program. Admission requirements are common for all teacher preparation programs, except that certain special education programs have additional requirements.

Each undergraduate student is responsible for applying to the teacher preparation program immediately after the semester in which the student has earned 56 credit hours. Transfer students with more than 56 credit hours should apply immediately after the semester in which they have earned 12 hours at EMU, including at least one course in their major. Students with 56 hours of transfer course work with a decision GPA of 3.0 may apply for admission to the teacher preparation program without 12 earned hours at EMU.

Admission to the teacher preparation program is not automatic. Only those persons who have formally applied are considered for admission. Not all persons who apply become eligible for admission.

Applications for the Initial Teacher Preparation Program at EMU are available within your my.emich account under the "Student" tab. Submit your completed application to the Office of Academic Services once you have earned 56 credit hours.

Teaching majors and minors are unofficial until program admission. Students pursuing teacher certification should follow the catalog that exists at the time of program admission. It is important that students apply to the teacher preparation program as soon as they have earned 56 credit hours.

Criteria

1. Completion of 56 credit hours

2. Appropriate cumulative GPA. One of:
   1. An overall EMU GPA of 2.5 or higher. At least 12 of the 56 credit hours taken at EMU with an EMU GPA of 2.5 or higher in your major (each of your majors if declaring a double major). You must complete at least one course in your major(s) in order to be eligible.
   2. Transferred 56 credits with a cumulative 3.0 GPA from all previous institutions.
   3. A grade of “C” or higher (if taken) in the following courses:
1. Secondary: ENGL 121, CTAC 124, quantitative reasoning, one lab science, all professional education courses, and, if special education, PSY 101.

2. Elementary: ENGL 121, CTAC 124, MATH 108, MATH 110E, PHY 100, CHEM 101, ESSC 202, all of the professional education courses, all courses that state “for elementary teachers,” and, if special education, PSY 101.

4. Passing scores on all three sections of the Michigan Test for Teacher Certification Basic Skills Test (MTTC) (reading, mathematics, and writing). Official score report must be on file at Eastern Michigan University.

5. Personal statement about your experiences with youth/children and why you are going into teaching. This statement will be read for content, grammar, and punctuation.

6. Completion of a Disposition Self Evaluation Form.

7. ICHAT criminal background check and Statement of Civil/Criminal Convictions. If you answered yes to any of the civil/criminal conviction questions on the application, you will need to provide:
   1. A copy of the Judgment of Sentence, or Registrar of Actions, or Certification of Conviction.
   2. A written explanation of the offense(s). Application of students with civil/criminal convictions will be carefully reviewed and may take longer to process.

8. Meet academic, social, moral, and financial obligations as a member of the EMU community.

General Education Requirements:

For specific requirements refer to the General Education Program. Download the Gen Ed Checklist here.

Major Requirements: 69 hours

Core Courses: 69 hours

- ECON 103L - Economics for Living (Gen Ed Area V LBC) 3 hrs
- ECON 201 - Principles of Macroeconomics (Gen Ed Area IV) 3 hrs
- ECON 202 - Principles of Microeconomics (Gen Ed Area IV) 3 hrs
- ECON 340 - Money and Banking 3 hrs
- ECON 350 - Government Finance 3 hrs
- ECON 375 - Economic History of the United States 3 hrs
- ECON 385 - Economic Development 3 hrs
- ECON 480W - International Economics (Gen Ed Area I, W) 3 hrs
- GEOG 100 - Introduction to Geospatial Sciences and Technology 3 hrs
- GEOG 107 - Introduction to Geography (Gen Ed Area IV) 3 hrs
- GEOG 110 - World Regions (Gen Ed Area III) 3 hrs
- GEOG 320 - Geography of the United States and Canada 3 hrs
- HIST 109 - World History to 1500 3 hrs
- HIST 110 - World History since 1500 (Gen Ed Area III) 3 hrs
- HIST 123 - The United States to 1877 (Gen Ed Area IV) 3 hrs
- HIST 124 - The United States, 1877 to the Present (Gen Ed Area IV) 3 hrs

• PLSC 202 - State and Local Government (Gen Ed Area IV) 3 hrs
• PLSC 212 - Introduction to International Politics (Gen Ed Area IV) 3 hrs
• PLSC 305 - Law and Policy in a Constitutional Democracy 3 hrs

Professional Secondary Education Sequence

Secondary Education Pre-Admission Phase: The Learner and the Community: 7 hours

Prerequisite: Sophomore standing or higher.

• EDPS 322 - Human Development and Learning 4 hrs
• SPGN 251 - Education of Students with Exceptionalities 3 hrs

The following phases require formal admission to the Initial Teacher Preparation Program:

Secondary Education Phase I: Curriculum, Assessment and the Social Context: 15 hours

Prerequisite: Completion of Pre-Admission Phase is required.

* These two courses must be taken together.
** These courses must be taken with or after CURR 305.

  • * CURR 305 - Curriculum and Methods: Secondary 3 hrs
  • ** EDMT 330 - Instructional Applications of Media and Technology 3 hrs
  • ** EDPS 340 - Introduction to Assessment and Evaluation 3 hrs
  • * PRCT 305 - Practicum I: Secondary 3 hrs
  • SOFD 328W - Schools for a Diverse and Democratic Society (Gen Ed Area I, W) 3 hrs

Secondary Education Phase II: Content and Methods and Teaching: 9 hours

Prerequisite: Completion of Phase I is required.

* These two courses must be taken together.
• * PRCT 311 - Practicum II: Secondary 3 hrs
• * RDNG 311 - Teaching Reading in the Secondary School 3 hrs

Methods Course by Major:

Social Studies/Economics Comprehensive Majors take:

• HIST 481 - The Teaching of Social Studies 3 hrs

Secondary Education Phase III: Capstone Experience: 9 hours

Prerequisite: Completion of Phase II and 100 pre-student teaching hours is required.

• EDUC 492 - Student Teaching 9 hrs
  This course requires a formal application to be submitted 7-8 months prior to the Student Teaching semester.

MTTC Subject Area Test

Starting January 1, 2013, Students seeking licensure in a secondary or K-12 area are not required to take the MTTC subject area test in their minor area. Students who elect not to take the test in their minor will be required to sign a statement indicating that they understand that they will not be endorsed in their minor area and will not be eligible for teaching positions in their minor unless they pass the minor subject area test within five years of completing field experience and course requirements.

Program Total:

Students must earn a minimum total of 124 credits at the 100-level or above.

Critical Graduation Information:

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

   1. Secondary: ENGL 121, CTAC 124, quantitative reasoning, one lab science, all professional education courses, and, if special education, PSY 101.

   2. Elementary: ENGL 121, CTAC 124, MATH 108, MATH 110E, PHY 100, CHEM 101, ESSC 202, all of the professional education courses, all courses that state “for elementary teachers,” and, if special education, PSY 101.
4. Passing scores on all three sections of the Michigan Test for Teacher Certification Basic Skills Test (MTTC) (reading, mathematics, and writing). Official score report must be on file at Eastern Michigan University.

5. Personal statement about your experiences with youth/children and why you are going into teaching. This statement will be read for content, grammar, and punctuation.

6. Completion of a Disposition Self Evaluation Form.

7. ICHAT criminal background check and Statement of Civil/Criminal Convictions. If you answered yes to any of the civil/criminal conviction questions on the application, you will need to provide:
   
   1. A copy of the Judgment of Sentence, or Registrar of Actions, or Certification of Conviction.
   
   2. A written explanation of the offense(s). Application of students with civil/criminal convictions will be carefully reviewed and may take longer to process.

8. Meet academic, social, moral, and financial obligations as a member of the EMU community.

General Education Requirements:

For specific requirements refer to the General Education Program. Download the Gen Ed Checklist here.

Major Requirements: 62 hours

Core Courses: 62 hours

- One Geography (GEOG) elective at 300-level or above (3 hrs)

- ECON 103L - Economics for Living (Gen Ed Area V LBC) 3 hrs
- ECON 201 - Principles of Macroeconomics (Gen Ed Area IV) 3 hrs
- ECON 202 - Principles of Microeconomics (Gen Ed Area IV) 3 hrs
- GEOG 100 - Introduction to Geospatial Sciences and Technology 3 hrs
- GEOG 107 - Introduction to Geography (Gen Ed Area IV) 3 hrs
- GEOG 110 - World Regions (Gen Ed Area III) 3 hrs
- GEOG 311 - Geography of Michigan 2 hrs
- GEOG 320 - Geography of the United States and Canada 3 hrs
- GEOG 360 - Cultural Geography 3 hrs
- HIST 109 - World History to 1500 3 hrs
- HIST 110 - World History since 1500 (Gen Ed Area III) 3 hrs
- HIST 123 - The United States to 1877 (Gen Ed Area IV) 3 hrs
- HIST 124 - The United States, 1877 to the Present (Gen Ed Area IV) 3 hrs
- HIST 300W - Researching and Writing History (Gen Ed Area I, W) 3 hrs

- HIST 311 - History and Geography of the Modern World (NEW COURSE) 3 hrs
  OR
- GEOG 311 - History and Geography of the Modern World (NEW COURSE) 3 hrs

- HIST 416 - American Environmental History 3 hrs
• PLSC 112 - American Government (Gen Ed Area IV) 3 hrs
• PLSC 202 - State and Local Government (Gen Ed Area IV) 3 hrs
• PLSC 212 - Introduction to International Politics (Gen Ed Area IV) 3 hrs
• PLSC 305 - Law and Policy in a Constitutional Democracy 3 hrs

Professional Secondary Education Sequence

Secondary Education Pre-Admission Phase: The Learner and the Community: 7 hours

Prerequisite: Sophomore standing or higher.

• EDPS 322 - Human Development and Learning 4 hrs
• SPGN 251 - Education of Students with Exceptionalities 3 hrs

The following phases require formal admission to the Initial Teacher Preparation Program:

Secondary Education Phase I: Curriculum, Assessment and the Social Context: 15 hours

Prerequisite: Completion of Pre-Admission Phase is required.

* These two courses must be taken together.
** These courses must be taken with or after CURR 305.

• * CURR 305 - Curriculum and Methods: Secondary 3 hrs
• ** EDMT 330 - Instructional Applications of Media and Technology 3 hrs
• ** EDPS 340 - Introduction to Assessment and Evaluation 3 hrs
• * PRCT 305 - Practicum I: Secondary 3 hrs
• SOFD 328W - Schools for a Diverse and Democratic Society (Gen Ed Area I, W) 3 hrs

Secondary Education Phase II: Content and Methods and Teaching: 9 hours

Prerequisite: Completion of Phase I is required.

* These two courses must be taken together.

• * PRCT 311 - Practicum II: Secondary 3 hrs
• * RDNG 311 - Teaching Reading in the Secondary School 3 hrs

Methods Course by Major:

• HIST 481 - The Teaching of Social Studies 3 hrs
Secondary Education Phase III: Capstone Experience: 9 hours

Prerequisite: Completion of Phase II and 100 pre-student teaching hours is required.

- EDUC 492 - Student Teaching 9 hrs
  This course requires a formal application to be submitted 7-8 months prior to the Student Teaching semester.

MTTC Subject Area Test

Starting January 1, 2013, Students seeking licensure in a secondary or K-12 area are not required to take the MTTC subject area test in their minor area. Students who elect not to take the test in their minor will be required to sign a statement indicating that they understand that they will not be endorsed in their minor area and will not be eligible for teaching positions in their minor unless they pass the minor subject area test within five years of completing field experience and course requirements.

Program Total:

Students must earn a minimum total of 124 credits at the 100-level or above.

Critical Graduation Information:

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the 100-level and above. Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Earn a minimum of 60 credits from a four-year college or university; courses taken at community colleges cannot be used to meet this requirement. (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 unique credit hours in their major and 20 unique credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
- Not more than 60 credit hours in one subject area (prefix) may be applied towards the minimum of 124 credit hours required for a bachelor's degree.
- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more that one major or minor.
  - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
  - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
  - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor
- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for
college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is coordinated by the Office of Admissions, and additional documentation may be required.

- Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be earned in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

**General Education Requirements:**

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available on the General Education section of the catalog: General Education

- For Students who began their undergraduate program at EMU in Fall 2007 or later or who have elected to follow the current ("new") General Education Program, follow the "For Students" link under the Current Program heading.
- For Students who began their undergraduate program at EMU before Fall 2007 and who have elected to follow the Pre-2007 General Education Requirements, follow the "General Education Program Prior to Fall 2007 (pdf file)" link under the Program Prior to Fall 2007 heading. Please note that students who wish to graduate under pre-2007 General Education requirements must graduate by August 2014; those who have not completed all degree requirements by that time will need to satisfy the current (Fall 2007) General Education requirements.

Students who transferred to EMU may have modified general education requirements based on MACRAO or articulation agreements; consult your academic adviser for additional information.

**University Information:** Consult the online catalog at catalog.emich.edu.

**Secondary Education Social Studies /History Comprehensive Major**

Successful completion of this course of study, in the context of other program requirements, qualifies the student for recommendation for the Michigan Department of Education Secondary Provisional Certificate endorsed in social studies, certification code RX. This program of study meets all requirements of the National Council for the Social Studies. The Michigan Test for Teacher Certification (MTTC) covering this field is #084, “Social Studies;” this course of study will also lead to an endorsement in history (CC) MTTC #009.

**History and Philosophy Department Information:**

Department Head: Richard F. Nation

Phone Number for Advisers: 734.487.1018

**Initial Teacher Preparation Program Admission**
In order to pursue the sequence of courses necessary to complete eligibility for recommendation for certification, one must apply for and be admitted to the teacher preparation program. Admission requirements are common for all teacher preparation programs, except that certain special education programs have additional requirements.

Each undergraduate student is responsible for applying to the teacher preparation program immediately after the semester in which the student has earned 56 credit hours. Transfer students with more than 56 credit hours should apply immediately after the semester in which they have earned 12 hours at EMU, including at least one course in their major. Students with 56 hours of transfer course work with a decision GPA of 3.0 may apply for admission to the teacher preparation program without 12 earned hours at EMU.

Admission to the teacher preparation program is not automatic. Only those persons who have formally applied are considered for admission. Not all persons who apply become eligible for admission.

Applications for the Initial Teacher Preparation Program at EMU are available within your my.emich account under the "Student" tab. Submit your completed application to the Office of Academic Services once you have earned 56 credit hours.

Teaching majors and minors are unofficial until program admission. Students pursuing teacher certification should follow the catalog that exists at the time of program admission. It is important that students apply to the teacher preparation program as soon as they have earned 56 credit hours.

Criteria

1. Completion of 56 credit hours

2. Appropriate cumulative GPA. One of:
   
   1. An overall EMU GPA of 2.5 or higher. At least 12 of the 56 credit hours taken at EMU with an EMU GPA of 2.5 or higher in your major (each of your majors if declaring a double major). You must complete at least one course in your major(s) in order to be eligible.
   
   2. Transferred 56 credits with a cumulative 3.0 GPA from all previous institutions.

3. A grade of “C” or higher (if taken) in the following courses:
   
   1. Secondary: ENGL 121, CTAC 124, quantitative reasoning, one lab science, all professional education courses, and, if special education, PSY 101.
   
   2. Elementary: ENGL 121, CTAC 124, MATH 108, MATH 110E, PHY 100, CHEM 101, ESSC 202, all of the professional education courses, all courses that state “for elementary teachers,” and, if special education, PSY 101.

4. Passing scores on all three sections of the Michigan Test for Teacher Certification Basic Skills Test (MTTC) (reading, mathematics, and writing). Official score report must be on file at Eastern Michigan University.

5. Personal statement about your experiences with youth/children and why you are going into teaching. This statement will be read for content, grammar, and punctuation.

6. Completion of a Disposition Self Evaluation Form.

7. ICHAT criminal background check and Statement of Civil/Criminal Convictions. If you answered yes to any of the civil/criminal conviction questions on the application, you will need to provide:
   
   1. A copy of the Judgment of Sentence, or Registrar of Actions, or Certification of Conviction.
   
   2. A written explanation of the offense(s). Application of students with civil/criminal convictions will be carefully reviewed and may take longer to process.
8. Meet academic, social, moral, and financial obligations as a member of the EMU community.

General Education Requirements:

For specific requirements refer to the General Education Program. Download the Gen Ed Checklist here.

Major Requirements: 63 hours

Core Courses: 54 hours

- ECON 103L - Economics for Living (Gen Ed Area V LBC) 3 hrs
- ECON 201 - Principles of Macroeconomics (Gen Ed Area IV) 3 hrs
- ECON 202 - Principles of Microeconomics (Gen Ed Area IV) 3 hrs

- PLSC 467 - Advanced International Relations 3 hrs
III. Political Theory and Methods:

- PLSC 306 - Contemporary Political Thought 3 hrs
- PLSC 307 - Democracy and Power 3 hrs
- PLSC 309 - American Political Theory 3 hrs
- PLSC 310 - Methods of Political Research 3 hrs
- PLSC 320 - Political Science in Literature and Film 3 hrs
- PLSC 382 - Politics and the 21st Century 3 hrs

Professional Secondary Education Sequence

Secondary Education Pre-Admission Phase: The Learner and the Community: 7 hours

Prerequisite: Sophomore standing or higher.

- EDPS 322 - Human Development and Learning 4 hrs
- SPGN 251 - Education of Students with Exceptionalities 3 hrs

The following phases require formal admission to the Initial Teacher Preparation Program:

Secondary Education Phase I: Curriculum, Assessment and the Social Context: 15 hours

Prerequisite: Completion of Pre-Admission Phase is required.

* These two courses must be taken together.
** These courses must be taken with or after CURR 305.

- * CURR 305 - Curriculum and Methods: Secondary 3 hrs
- ** EDMT 330 - Instructional Applications of Media and Technology 3 hrs
- ** EDPS 340 - Introduction to Assessment and Evaluation 3 hrs
- * PRCT 305 - Practicum I: Secondary 3 hrs
- SOFD 328W - Schools for a Diverse and Democratic Society (Gen Ed Area I, W) 3 hrs

Secondary Education Phase II: Content and Methods and Teaching: 9 hours

Prerequisite: Completion of Phase I is required.

* These two courses must be taken together.

- * PRCT 311 - Practicum II: Secondary 3 hrs
- * RDNG 311 - Teaching Reading in the Secondary School 3 hrs
Methods Course by Major:

Social Studies/Political Science Comprehensive Majors take:

- HIST 481 - The Teaching of Social Studies 3 hrs

Secondary Education Phase III: Capstone Experience: 9 hours

Prerequisite: Completion of Phase II and 100 pre-student teaching hours is required.

- EDUC 492 - Student Teaching 9 hrs
  This course requires a formal application to be submitted 7-8 months prior to the Student Teaching semester.

MTTC Subject Area Test

Starting January 1, 2013, Students seeking licensure in a secondary or K-12 area are not required to take the MTTC subject area test in their minor area. Students who elect not to take the test in their minor will be required to sign a statement indicating that they understand that they will not be endorsed in their minor area and will not be eligible for teaching positions in their minor unless they pass the minor subject area test within five years of completing field experience and course requirements.

Program Total:

Students must earn a minimum total of 124 credits at the 100-level or above.

Critical Graduation Information:

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the 100-level and above. Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Earn a minimum of 60 credits from a four-year college or university; courses taken at community colleges cannot be used to meet this requirement. (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 unique credit hours in their major and 20 unique credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
- Not more than 60 credit hours in one subject area (prefix) may be applied towards the minimum of 124 credit hours required for a bachelor's degree.
- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more that one major or minor.
Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor.
Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor.

- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is coordinated by the Office of Admissions, and additional documentation may be required.
- Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be earned in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

General Education Requirements:

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available on the General Education section of the catalog: General Education

- For Students who began their undergraduate program at EMU in Fall 2007 or later or who have elected to follow the current ("new") General Education Program, follow the "For Students" link under the Current Program heading.
- For Students who began their undergraduate program at EMU before Fall 2007 and who have elected to follow the Pre-2007 General Education Requirements, follow the "General Education Program Prior to Fall 2007 (pdf file)" link under the Program Prior to Fall 2007 heading. Please note that students who wish to graduate under pre-2007 General Education requirements must graduate by August 2014; those who have not completed all degree requirements by that time will need to satisfy the current (Fall 2007) General Education requirements.

Students who transferred to EMU may have modified general education requirements based on MACRAO or articulation agreements; consult your academic adviser for additional information.

University Information: Consult the online catalog at catalog.emich.edu.

Social Studies Major

The Social Studies program, formerly called Social Science, serves students who intend to declare a major in Social Studies for Secondary Teaching. This major may also be elected by students seeking an interdisciplinary course of study in the social sciences.

History and Philosophy Department Information:

Department Head: Richard F. Nation
Department Contact: richard.nation@emich.edu
Website: http://www.emich.edu/historyphilosophy/

Adviser Information:

Program Adviser: Robert Duke
Email: rduke@emich.edu

Program Adviser: James Egge
Email: jegge@emich.edu
General Education Requirements:

For specific requirements refer to the General Education Program. Download the Gen Ed Checklist here.

Major Requirements: 36 hours

- ECON 201 - Principles of Macroeconomics (Gen Ed Area IV) 3 hrs
- ECON 202 - Principles of Microeconomics (Gen Ed Area IV) 3 hrs
- GEOG 107 - Introduction to Geography (Gen Ed Area IV) 3 hrs
- GEOG 110 - World Regions (Gen Ed Area III) 3 hrs
- GEOG 320 - Geography of the United States and Canada 3 hrs
- HIST 109 - World History to 1500 3 hrs
- HIST 110 - World History since 1500 (Gen Ed Area III) 3 hrs
- HIST 123 - The United States to 1877 (Gen Ed Area IV) 3 hrs
- HIST 124 - The United States, 1877 to the Present (Gen Ed Area IV) 3 hrs
- * HIST 300W - Researching and Writing History (Gen Ed Area I, W) 3 hrs

- PLSC 112 - American Government (Gen Ed Area IV) 3 hrs
  OR
  - PLSC 113 - American Government Honors (Gen Ed Area IV) 3 hrs

- PLSC 305 - Law and Policy in a Constitutional Democracy 3 hrs

Minor in Economics, Geography, History or Political Science: 20-24 Hours

Substitute Classes

Because some of the required classes in the major can also be counted towards the minor, students will be required to take anywhere from one to four substitute classes for the major. Additional substitute courses, if needed, can be taken in any of the four disciplines, at any level.

One of the classes must be taken from the following list:

Economics:

- ECON 321 - Minority Workers in the Labor Market 3 hrs
- ECON 327 - Economics of Poverty, Inequality and Discrimination 3 hrs
- ECON 328 - Economics of Women 3 hrs
- ECON 332 - Urban Economics 3 hrs
- ECON 370 - Comparative Economic Systems 3 hrs
- ECON 385 - Economic Development 3 hrs
- ECON 480W - International Economics (Gen Ed Area I, W) 3 hrs

**Geography:**

- GEOG 235 - Economic Geography 3 hrs
- GEOG 317 - History and Geography of Spanish America 3 hrs
- GEOG 318 - Geography of Asia 3 hrs
- GEOG 321 - Geography of Latin America 3 hrs
- GEOG 322 - Geography of Africa 3 hrs

**History:**

- HIST 201 - The Religions of South and East Asia 3 hrs
- HIST 202 - Religions in Conflict and Dialogue: Judaism, Christianity, and Islam (Gen Ed Area III) 3 hrs
- HIST 304 - Early Judaism 3 hrs
- HIST 306 - Hinduism 3 hrs
- HIST 307 - Buddhism 3 hrs
- HIST 310 - France since 1789 3 hrs
- HIST 315 - History of Black Americans 3 hrs
- HIST 321 - Women and Gender in the Ancient World 3 hrs
- HIST 335 - History of Women in Europe 3 hrs
- HIST 336 - History of Women in the United States and Great Britain, 1800 to the Present 3 hrs
- HIST 339 - Arab-Israeli Conflict 3 hrs
- HIST 341 - The Middle East, 1798 to the Present 3 hrs
- HIST 342 - North Africa, 1798 to the Present 3 hrs
- HIST 347 - Sub-Saharan Africa to 1885 3 hrs
- HIST 348 - 20th-Century Africa 3 hrs
- HIST 349 - South Africa, 1500-Present 3 hrs
- HIST 355 - Latin America: Colonial Period 3 hrs
- HIST 356 - Latin America: National Period 3 hrs
- HIST 375 - Modern India 3 hrs
- HIST 352 - East Asia to 1800 3 hrs
- HIST 442 - Modern China 3 hrs
- HIST 443 - Modern Japan 3 hrs
- HIST 444 - China and its Nomadic Neighbors 3 hrs
- HIST 457 - History of Mexico 3 hrs

**Political Science:**

- PLSC 212 - Introduction to International Politics (Gen Ed Area IV) 3 hrs
- PLSC 215 - Civil Rights and Liberties in a Diverse US (Gen Ed Area III) 3 hrs
- PLSC 221 - America at War: From Vietnam to Iraq 3 hrs
- PLSC 308 - Political Violence and Revolution 3 hrs
- PLSC 311 - Politics of the Developing World 3 hrs
- PLSC 330 - Urban Politics 3 hrs
- PLSC 341 - International Law 3 hrs
- PLSC 342 - International Organizations 3 hrs
• PLSC 365 - Women and Politics 3 hrs
• PLSC 367 - Latin American Politics 3 hrs
• PLSC 371 - Middle East Politics 3 hrs
• PLSC 372 - African Politics 3 hrs
• PLSC 374 - Asian Politics 3 hrs
• PLSC 467 - Advanced International Relations 3 hrs

Program Total:

Students must earn a minimum total of 124 credits at the 100-level or above.

Notes:

Students who declared a Social Science major before Fall 2008 have until 2014 to complete their degrees under the old requirements, or they may elect to complete the new requirements.

* History advisers may substitute for HIST 300W Writing Intensive research methods courses from other programs or institutions as they judge reasonable.

Critical Graduation Information:

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

• Earn a minimum total of 124 credits at the 100-level and above. Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.
• Meet the requirements of the General Education program (see information below).
• Earn a minimum of 60 credits from a four-year college or university; courses taken at community colleges cannot be used to meet this requirement. (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
• Earn a minimum of 30 credits from courses taken at EMU.
• Complete 10 of the last 30 hours for the degree from courses taken at EMU.
• Have a minimum of 30 unique credit hours in their major and 20 unique credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
• Not more than 60 credit hours in one subject area (prefix) may be applied towards the minimum of 124 credit hours required for a bachelor's degree.
• Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more that one major or minor.
  • Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
  • Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
  • Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor.
• Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and
the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is coordinated by the Office of Admissions, and additional documentation may be required.

- Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be earned in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

Minor Total: 20 hours

Note:

All minors must have at least six hours of course work at the 300-level or above.

Critical Graduation Information:

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

• Earn a minimum total of 124 credits at the 100-level and above. Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.
• Meet the requirements of the General Education program (see information below).
• Earn a minimum of 60 credits from a four-year college or university; courses taken at community colleges cannot be used to meet this requirement. (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
• Earn a minimum of 30 credits from courses taken at EMU.
• Complete 10 of the last 30 hours for the degree from courses taken at EMU.
• Have a minimum of 30 unique credit hours in their major and 20 unique credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
• Not more than 60 credit hours in one subject area (prefix) may be applied towards the minimum of 124 credit hours required for a bachelor's degree.
• Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more than one major or minor.
  o Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
  o Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
  o Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor
• Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is coordinated by the Office of Admissions, and additional documentation may be required.
• Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be earned in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

General Education Requirements:
EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available on the General Education section of the catalog: General Education

- For Students who began their undergraduate program at EMU in Fall 2007 or later or who have elected to follow the current ("new") General Education Program, follow the "For Students" link under the Current Program heading.
- For Students who began their undergraduate program at EMU before Fall 2007 and who have elected to follow the Pre-2007 General Education Requirements, follow the "General Education Program Prior to Fall 2007 (pdf file)" link under the Program Prior to Fall 2007 heading. Please note that students who wish to graduate under pre-2007 General Education requirements must graduate by August 2014; those who have not completed all degree requirements by that time will need to satisfy the current (Fall 2007) General Education requirements.

Students who transferred to EMU may have modified general education requirements based on MACRAO or articulation agreements; consult your academic adviser for additional information.

**University Information:** Consult the online catalog at catalog.emich.edu.

**Area Studies Minor — Middle East and North Africa**

Program Adviser: James Egge  
Email: jegge@emich.edu

Phone Number for Advisers: 734.487.1018

**Required Area Courses: 9 hours**

- ECON 385 - Economic Development 3 hrs  
- PLSC 371 - Middle East Politics 3 hrs

One course from the following:

- HIST 341 - The Middle East, 1798 to the Present 3 hrs  
- HIST 342 - North Africa, 1798 to the Present 3 hrs

**Area Elective Courses: 11 hours**
Certain independent study courses and special topics courses may be counted as restricted elective courses or elective courses with the approval of the advising coordinator of area studies. No more than three of the seven courses in the minor may be chosen from a single discipline.

Eleven hours from the following:

- ANTH 135 - Introduction to Cultural Anthropology (Gen Ed Area III, IV) 3 hrs
- ANTH 236 - Peoples and Cultures of Africa 3 hrs
- ANTH 336 - Social and Cultural Change 3 hrs
- CHL 351 - World Mythology 3 hrs
- ECON 585 - Economic Growth and Development 3 hrs
- GEOG 322 - Geography of Africa 3 hrs
- HIST 202 - Religions in Conflict and Dialogue: Judaism, Christianity, and Islam (Gen Ed Area III) 3 hrs
- HIST 204 - Introduction to the History of Judaism (NEW COURSE) 3 hrs
- HIST 304 - Early Judaism 3 hrs
- HIST 339 - Arab-Israeli Conflict 3 hrs
- HIST 341 - The Middle East, 1798 to the Present 3 hrs
- HIST 342 - North Africa, 1798 to the Present 3 hrs
- HIST 543 - Nationalism and Modernization in the Middle East and North Africa 3 hrs

Minor Requirements: 20 hours

Note:

All minors must have at least six hours of course work at the 300-level or above.

Critical Graduation Information:

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the 100-level and above. Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Earn a minimum of 60 credits from a four-year college or university; courses taken at community colleges cannot be used to meet this requirement. (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 unique credit hours in their major and 20 unique credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
- Not more than 60 credit hours in one subject area (prefix) may be applied towards the minimum of 124 credit hours required for a bachelor's degree.
• Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more than one major or minor.
  - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
  - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
  - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor

• Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is coordinated by the Office of Admissions, and additional documentation may be required.

• Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be earned in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

General Education Requirements:

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available on the General Education section of the catalog: General Education

• For Students who began their undergraduate program at EMU in Fall 2007 or later or who have elected to follow the current ("new") General Education Program, follow the "For Students" link under the Current Program heading.
• For Students who began their undergraduate program at EMU before Fall 2007 and who have elected to follow the Pre-2007 General Education Requirements, follow the "General Education Program Prior to Fall 2007 (pdf file)" link under the Program Prior to Fall 2007 heading. Please note that students who wish to graduate under pre-2007 General Education requirements must graduate by August 2014; those who have not completed all degree requirements by that time will need to satisfy the current (Fall 2007) General Education requirements.

Students who transferred to EMU may have modified general education requirements based on MACRAO or articulation agreements; consult your academic adviser for additional information.

Students who transferred to EMU may have modified general education requirements based on MACRAO or articulation agreements; consult your academic adviser for additional information.

University Information: Consult the online catalog at catalog.emich.edu.

Philosophy Minor
The philosophy minor consists of 24 credit hours. 15 of those hours must be at the 200-level or above. Minors must satisfactorily complete at least one course in each of the following five core areas, with a minimum of nine credit hours at the 300- or 400-level.

**History and Philosophy Department Information:**

Department Head: Richard F. Nation  
Department Contact: richard.nation@emich.edu  
Website: http://www.emich.edu/historyphilosophy/

**Adviser Information:**

Program Adviser: Jill Dieterle  
Email: jdieterle@emich.edu  
Phone: 734.487.1018

**Minor Requirements: 24 hours**

*Students must select a minimum of three hours from each of the five core areas:*

**I. Logic and Reasoning: 3-6 hours**

*At least one course from the following:*

- PHIL 120 - Introduction to Critical Reasoning (Gen Ed Area IV) 3 hrs
- PHIL 130 - Introduction to Logic 3 hrs
- PHIL 181 - Logic and Model Theory (Gen Ed Area III) 3 hrs
- PHIL 281 - Symbolic Logic 3 hrs

**II. History of Philosophy: 3-9 hours**

*At least one course from the following:*

- PHIL 330W - History of Philosophy: Ancient (Gen Ed Area I, W) 3 hrs
- PHIL 331W - History of Philosophy: Modern (Gen Ed Area I, W) 3 hrs
- PHIL 332W - History of Philosophy: 19th Century (Gen Ed Area I, W) 3 hrs

**III. Values: 3-12 hours**

*At least one course from the following:*

- PHIL 212 - Philosophy of Art (Gen Ed Area IV) 3 hrs
- PHIL 220 - Ethics (Gen Ed Area IV) 3 hrs
- PHIL 221 - Business Ethics (Gen Ed Area IV) 3 hrs
- PHIL 223 - Medical Ethics (Gen Ed Area IV) 3 hrs
- PHIL 224 - Ethics and Food (Gen Ed Area IV) 3 hrs
- PHIL 225 - Political Philosophy (Gen Ed Area IV) 3 hrs
- PHIL 229 - Environmental Ethics (Gen Ed Area IV) 3 hrs
- PHIL 260 - Existentialism (Gen Ed Area IV) 3 hrs
- PHIL 310W - Aesthetics (Gen Ed Area I, W) 3 hrs
- PHIL 355W - Philosophy of Law (Gen Ed Area I, W) 3 hrs
- PHIL 370W - Philosophy and Narrative (Gen Ed Area I, W) 3 hrs
- ** PHIL 426W - Topics in Gender and Philosophy (Gen Ed Area I, W) 3 hrs
- PHIL 470W - Twentieth Century European Philosophy (Gen Ed Area I, W) 3 hrs

### IV. Epistemology and Metaphysics: 3-12 hours

*At least one course from the following:

- PHIL 215 - Philosophy of Religion (Gen Ed Area IV) 3 hrs
- PHIL 325W - Theory of Knowledge (Gen Ed Area I, W) 3 hrs
- PHIL 375W - Metaphysics (Gen Ed Area I, W) 3 hrs
- PHIL 480W - Philosophy of Science (Gen Ed Area I, W) 3 hrs
- PHIL 390W - Phenomenology (Gen Ed Area I, W) 3 hrs
- ** PHIL 426W - Topics in Gender and Philosophy (Gen Ed Area I, W) 3 hrs
- PHIL 442W - Philosophy of Mind (Gen Ed Area I, W) 3 hrs
- PHIL 460W - Philosophy of Language (Gen Ed Area I, W) 3 hrs
- PHIL 471W - Early Analytic Philosophy (Gen Ed Area I, W) 3 hrs
- PHIL 475W - Philosophy of Mathematics (Gen Ed Area I, W) 3 hrs

### V. Eastern/Global: 3-9 hours

*At least one course from the following:

- PHIL 226 - Feminist Theory (Gen Ed Area III, IV) 3 hrs
- PHIL 228 - Global Ethics (Gen Ed Area III, IV) 3 hrs
- PHIL 291 - Introduction to Asian Philosophy (Gen Ed Area III) 3 hrs
- PHIL 391W - Early Chinese Philosophy (Gen Ed Area I, W) 3 hrs

**Restricted Elective Courses: 9 hours**

*Philosophy 100 - 499 if not already taken to complete the required 24 hours.*

**Minor Total: 24 hours**

**Notes:**

*All minors must have at least six hours of course work at the 300-level or above.*

*Only one of PHIL 100 - Introduction to Philosophy or PHIL 110 - Philosophies of Life may be counted toward the major.*

*Only one of PHIL 120 - Introduction to Critical Reasoning or PHIL 130 - Introduction to Logic may be counted toward the major.*

**This course satisfies either area III or area IV, depending on its specific content. It may only be used to satisfy one area requirement.*
Critical Graduation Information:

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the 100-level and above. Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Earn a minimum of 60 credits from a four-year college or university; courses taken at community colleges cannot be used to meet this requirement. (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 unique credit hours in their major and 20 unique credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
- Not more than 60 credit hours in one subject area (prefix) may be applied towards the minimum of 124 credit hours required for a bachelor's degree.
- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more that one major or minor.
  - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
  - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
  - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor
- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is coordinated by the Office of Admissions, and additional documentation may be required.
- Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be earned in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

General Education Requirements:

EMU’s General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available on the General Education section of the catalog: General Education

- For Students who began their undergraduate program at EMU in Fall 2007 or later or who have elected to follow the current ("new") General Education Program, follow the "For Students" link under the Current Program heading.
- For Students who began their undergraduate program at EMU before Fall 2007 and who have elected to follow the Pre-2007 General Education Requirements, follow the "General Education Program Prior to Fall 2007 (pdf file)" link under the Program Prior to Fall 2007 heading. Please note that students who wish to graduate under pre-2007 General Education requirements must graduate by August 2014; those who have not completed all degree requirements by that time will need to satisfy the current (Fall 2007) General Education requirements.
Students who transferred to EMU may have modified general education requirements based on MACRAO or articulation agreements; consult your academic adviser for additional information.

- HIST 307 - Buddhism 3 hrs
- LITR 251 - The Bible as Literature 3 hrs
- PHIL 215 - Philosophy of Religion (Gen Ed Area IV) 3 hrs
- PSY 225 - Psychology of Religion 3 hrs
- SOCL 320 - Sociology of Religion 3 hrs

Elective Courses: 5-6 hours
Certain independent study courses and special topics courses may be counted as restricted elective courses or elective courses with the approval of the advising coordinator of religious studies. No more than three of the seven courses in the minor may be chosen from a single area: fine arts, literature and history.

Two courses from the restricted elective courses list or from the following:

- ANTH 135 - Introduction to Cultural Anthropology (Gen Ed Area III, IV) 3 hrs
- ARTH 162 - Survey of Western Art I (Gen Ed Area IV) 3 hrs
- ARTH 368 - History of Classical Art 3 hrs
- ARTH 369 - History of Renaissance Art 3 hrs
- CHL 351 - World Mythology 3 hrs
- CLAS 301 - Classical Mythology 3 hrs
- HIST 327 - Europe in Early Middle Ages 400-1050 3 hrs
- HIST 328 - Europe in Late Middle Ages 1050-1400 3 hrs
- HIST 330 - Europe in the Renaissance and Reformation 3 hrs
- LITR 309 - The Development of American Literature 3 hrs
- LITR 314 - English Renaissance Prose and Poetry 1500-1660 3 hrs
- PHIL 220 - Ethics (Gen Ed Area IV) 3 hrs
- PHIL 260 - Existentialism (Gen Ed Area IV) 3 hrs

Minor Total: 20-21 hours

Note:

All minors must have at least six hours of course work at the 300-level or above.

Critical Graduation Information:

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the 100-level and above. Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Earn a minimum of 60 credits from a four-year college or university; courses taken at community colleges cannot be used to meet this requirement. (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 unique credit hours in their major and 20 unique credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
- Not more than 60 credit hours in one subject area (prefix) may be applied towards the minimum of 124 credit hours required for a bachelor's degree.
• Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more that one major or minor.
  o Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
  o Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
  o Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor.

• Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is coordinated by the Office of Admissions, and additional documentation may be required.

• Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be earned in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

General Education Requirements:

EMU’s General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available on the General Education section of the catalog: General Education

• For Students who began their undergraduate program at EMU in Fall 2007 or later or who have elected to follow the current ("new") General Education Program, follow the "For Students" link under the Current Program heading.
• For Students who began their undergraduate program at EMU before Fall 2007 and who have elected to follow the Pre-2007 General Education Requirements, follow the "General Education Program Prior to Fall 2007 (pdf file)" link under the Program Prior to Fall 2007 heading. Please note that students who wish to graduate under pre-2007 General Education requirements must graduate by August 2014; those who have not completed all degree requirements by that time will need to satisfy the current (Fall 2007) General Education requirements.

Students who transferred to EMU may have modified general education requirements based on MACRAO or articulation agreements; consult your academic adviser for additional information.

University Information: Consult the online catalog at catalog.emich.edu.

Secondary Education History Minor

PROGRAM WILL BE PHASED OUT: EFFECTIVE WINTER 2013

Successful completion of this minor, in the context of other program requirements, qualifies the student for recommendation for endorsement in history, certification code CC. The certification test covering this field is #009, “History.”

History and Philosophy Department Information:

Department Head: Richard F. Nation
Department Contact: richard.nation@emich.edu

Adviser Information:

Program Adviser: Robert Duke
Email: rduke@emich.edu

Program Adviser: James Egge
Email: jegge@emich.edu

Phone Number for Advisers: 734.487.1018

Required Area Courses 15-18 hours

- HIST 123 - The United States to 1877 (Gen Ed Area IV) 3 hrs
- HIST 124 - The United States, 1877 to the Present (Gen Ed Area IV) 3 hrs
- HIST 481 - The Teaching of Social Studies 3 hrs (If not required by your major)

One option from the following:

Option I:

- HIST 101 - Western Civilization to 1648 (Gen Ed Area IV) 3 hrs
- HIST 102 - Western Civilization, 1648 to World War II (Gen Ed Area IV) 3 hrs
- HIST 103 - 20th-Century Civilization (Gen Ed Area III) 3 hrs

Option II:

- HIST 109 - World History to 1500 3 hrs
- HIST 110 - World History since 1500 (Gen Ed Area III) 3 hrs

Restricted Elective Courses: 9 hours

*Three hours of history courses at the 300-level or above in each of the following areas:

A. United States (includes HIST 303)
B. Europe (includes Russia and ancient Greece and Roman history)
C. Africa, Asia (includes Middle East and ancient Near East), Latin America, History of Religions

Minor Total: 21-27 hours

Note:

All minors must have at least six hours of course work at the 300-level or above.

* For a current list of classes that count for each area, consult the History Section website or a History undergraduate adviser.
Critical Graduation Information:

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

Students who transferred to EMU may have modified general education requirements based on MACRAO or articulation agreements; consult your academic adviser for additional information.

University Information: Consult the online catalog at catalog.emich.edu.

History

HIST 100 - The Comparative Study of Religion (Gen Ed Area IV)

An introduction to the systematic study of religious experience and expression; organized around representative motifs, phenomena and institutions, and illustrated with relevant examples from the various historical religious traditions.

Credit Hours: 3 hrs

Area IV: Knowledge of the Disciplines

HIST 100 The Comparative Study of Religion
This General Education course is an introduction to the academic discipline of religious studies. Religious studies is an interdisciplinary field that draws on approaches from both the humanities and the social sciences. Because this course focuses primarily on the questions and methods of the humanities, it counts toward the Knowledge of the Disciplines requirement in the Humanities area. Students in this class will develop their ability to interpret religious texts and other religious expressions, to analyze religious ideas about human existence and the nature of the world, and to understand religions as historical traditions characterized by conflict and change.

HIST 101 - Western Civilization to 1648 (Gen Ed Area IV)

A topical survey of western civilization from its Greco-Roman origins to the 17th century. Cultural development and institutional growth are emphasized. Greco-Roman contributions, the Judeo-Christian heritage, Byzantine and Islamic cultures, European expansion and militarism, the Renaissance and the Reformation are among the major topics considered.

Credit Hours: 3 hrs

Area IV: Knowledge of the Disciplines

HIST 101 Western Civilization to 1648
History 101 explores the cultural development of Western Europe from the classical world through the religious reformation of the sixteenth century, through the examination of literary, philosophical and religious texts. Students in this class will be given a solid grounding in the major political and social developments of the civilizations that flourished across Europe and the Mediterranean prior to 1648. This context will prepare them to explore various literary, philosophical and religious texts, to understand how they were both products of their age and powerful shapers of their cultures. Many texts will reflect how political and social power was structured and projected, and these texts will offer students ample opportunity to reflect upon issues of class, gender and race. Through an exploration of philosophical and religious writings students will gain an understanding of how men and women in various western societies viewed human nature and attempted to make sense out of good and evil, life and death. Students will leave this course having gained an appreciation for the past cultures of Western Europe and will have developed a sensitivity to the dynamic interplay between social and cultural institutions and values, and the writing and thought produced within the framework of those values and institutions.
HIST 102 - Western Civilization, 1648 to World War II (Gen Ed Area IV)

A survey of western history from the 17th century to World War II. Major themes include the rise of modern states, the emergence of science, the impact of European colonialism on the non-European world, upheavals in the arts and philosophy, and the origins and consequences of total war.

Credit Hours: 3 hrs
Previously Listed As: HIST 102 - Western Civilization, 1648 to World War I

Area IV: Knowledge of the Disciplines

HIST 102 Western Civilization 1648 to WWI
History 102 explores the development of Western Europe from the mid-seventeenth century until World War I, through the examination of literary, philosophical, and religious texts. Students in this class will be given a solid grounding in the major political, social, and economic developments of early modern and modern Europe. This context will prepare them to explore various literary, political, philosophical, and religious texts, to understand how they were both products of their age and powerful shapers of European thought, culture, and society. Many texts will reflect how political and social power was structured and projected in this formative era of European history, and these texts will offer students ample opportunity to reflect upon issues of class, gender, and race. Through an exploration of philosophical and scientific writings, students will explore the tremendous paradigm shift which occurred with the scientific revolution in early modern Europe, a shift which fundamentally altered the way in which men and women viewed nature, the universe and human nature. The study of religious and philosophical texts will also allow students to examine the repercussions of this paradigm shift in religious thought and practice as well. Finally, numerous literary works and texts will offer students an understanding of the mentality and values of bourgeois society in nineteenth century Europe, and help them grasp the terrible clash of war brought about by nationalism and bourgeois values in 1914. Students will leave this course having gained an appreciation for early modern and modern Western Europe culture and society, and will have developed a sensitivity to the dynamic interplay between social and cultural institutions and values, and the writing and thought produced within the framework of those values and institutions.

Last Updated: Title and Course Description Change 02/2012, effective Fall 2012

HIST 103 - 20th-Century Civilization (Gen Ed Area III)

An examination of the international developments of the 20th century, with particular emphasis on the interactions between the West and other world cultures.

Credit Hours: 3 hrs

Area III: Perspectives on a Diverse World

HIST 103 Twentieth Century Civilization
HIST 103 fulfills the General Education Program's Global Awareness requirement for Perspectives on a Diverse World by providing the background necessary to understand today's chief global occurrences, especially the interactions between the Western world and other world cultures. This course examines not only the main political developments of the twentieth century, but also the era's chief trends in science and technology, economics, social changes, and cultural and religious developments, and how these various trends interrelate with one another. After completing this course, students should be able to identify the most important individuals and terms of the twentieth century and know the causes and effects of the era's most important events. They should also have a better understanding of such world-wide problems as nationalism, imperialism, militarism, globalization, ideological and cultural conflict, and the varying causes of wars and violence.

HIST 104 - Quest for Power: Famous Figures in History
An examination of the lives and times of selected leaders from the ancient and modern worlds. Examples of figures to be covered are Pericles, Nero, Napoleon I and Adolf Hitler. Major literary monuments of the periods will be examined as well. Team taught by a member of the History Department and a classicist.

Credit Hours: 3 hrs
Cross-Listed with: CLAS 104
Notes: This course satisfies one literature or one history requirement. See honors humanities courses
Last Updated: Links 04/2011

HIST 106 - Asian and African Civilizations

The civilizations of the Moslem world, Africa, India and East Asia in historical perspective. Philosophical outlook, cultural development and technological advances are emphasized with attention also being given to social and economic changes in the period since 1500.

Credit Hours: 3 hrs

HIST 109 - World History to 1500

A survey of world civilizations (Africa, Asia, Europe, Western Hemisphere) from prehistory to 1500. The course will emphasize the diversity and interrelationships of world cultures and civilizations.

Credit Hours: 3 hrs

HIST 110 - World History since 1500 (Gen Ed Area III)

A survey of world civilizations (Africa, Asia, Europe, Western Hemisphere) from 1500 to the present. The course will emphasize the diversity and interrelationships of world cultures and civilizations.

Credit Hours: 3 hrs

Area III: Perspectives on a Diverse World

HIST 110 World History since 1500

History 110 meets the Global Awareness requirement of the Perspectives on a Diverse World, because it seeks to give students knowledge and understanding of the political organization, religious beliefs, and cultural practices of the world's peoples, and their interconnections over half a millennium. They will be encouraged to think globally so that they can see how events or new ideas that developed in one area, affected another, how America's cultural practices related to those of other societies, how wars and imperialism produced radical political and economic changes and why social, cultural and racial intolerance existed in so many countries. In the process, students will work on their skills of reading and interpreting historical material, asking the questions that historians ask, and responding to questions both verbally and in writing. The most important goal of the course is to give students the knowledge and understanding of the past that they need to interpret the contemporary world.

HIST 115 - Making American Society: Race, Ethnicity and Gender in Historical Perspective (Gen Ed Area III)

Through historical perspective, students will understand the difficult questions about diversity that have confronted people of every generation and the accommodations made through law, institutions and changed social habits. By understanding past tragedies, successes, mistakes and wise choices, students will be better citizens of the present and guardians of the future.

Credit Hours: 3 hrs
Area III: Perspectives on a Diverse World

HIST 115 Making American Society: Race, Ethnicity & Gender in Historical Perspectives
To understand most clearly the issues surrounding diversity in the United States, one of the key goals of the General Education program at Eastern Michigan University, historians believe that students must understand the historical development of diversity: how the categories of race, ethnicity, gender, class and sexuality, among others, have been constructed and re-constructed over time. History 115 will explore why, throughout four centuries of the development of the United States, Americans have struggled over how (or whether) to make the words of democracy into reality in a land of diversity. Accordingly, the class will examine the conflicts presented when people of so many diverse backgrounds, values and options try to accomplish their separate and collective ambitions within a framework of democracy and capitalism. We will examine why too many men and women in each era were denied equality, and we will examine the slow but steady progress toward a "more perfect union" that gives voice, extends toleration and offers equal opportunity to all of its people regardless of color, race, creed, national origin, gender and sexuality.

Through historical perspective, students will understand the difficult questions that have confronted people of every generation and the accommodations made through law, institutions and changed social habits. By understanding past tragedies, success's, mistakes and wise choices, students will be better citizens of the present and guardians of the future. Therein is the primary goal.

HIST 116 - Intro to American Indian History (Gen Ed Area III)
This course is a study of American Indian history and culture with an emphasis on the twentieth century. This course examines how interaction between native peoples and the diverse peoples of the U.S. has over time created a complex society and raised such issues as the theft of natural resources, poverty, the use of Hollywood stereotypes, inferior health care and educational opportunities and the need to redefine traditional cultures within the mainstream America.

Credit Hours: 3 hrs

Area III: Perspectives on a Diverse World

HIST 115 Making American Society: Race, Ethnicity & Gender in Historical Perspectives
To understand most clearly the issues surrounding diversity in the United States, one of the key goals of the General Education program at Eastern Michigan University, historians believe that students must understand the historical development of diversity: how the categories of race, ethnicity, gender, class and sexuality, among others, have been constructed and re-constructed over time. History 115 will explore why, throughout four centuries of the development of the United States, Americans have struggled over how (or whether) to make the words of democracy into reality in a land of diversity. Accordingly, the class will examine the conflicts presented when people of so many diverse backgrounds, values and options try to accomplish their separate and collective ambitions within a framework of democracy and capitalism. We will examine why too many men and women in each era were denied equality, and we will examine the slow but steady progress toward a "more perfect union" that gives voice, extends toleration and offers equal opportunity to all of its people regardless of color, race, creed, national origin, gender and sexuality.

Through historical perspective, students will understand the difficult questions that have confronted people of every generation and the accommodations made through law, institutions and changed social habits. By understanding past tragedies, success's, mistakes and wise choices, students will be better citizens of the present and guardians of the future. Therein is the primary goal.

HIST 123 - The United States to 1877 (Gen Ed Area IV)
A study of United States history through the Reconstruction following the Civil War.

Credit Hours: 3 hrs
Area IV: Knowledge of the Disciplines

HIST 123 The US to 1877
This course provides an introduction to a variety of social science methodologies while emphasizing history's unique contribution to the social sciences, the notion that any period develops from the periods preceding it. In pursuit of that aim, you will gain the foundational content knowledge needed to understand and interpret the major trends, people, ideas and events that have shaped the United States before 1877. Second you will acquire and use the unique methods historians employ to critically select and evaluate evidence from the past, assess its significance and analyze the interpretive accounts that give this past meaning.

HIST 124 - The United States, 1877 to the Present (Gen Ed Area IV)
A study of United States history from the end of Reconstruction to the present.
Credit Hours: 3 hrs

Area IV: Knowledge of the Disciplines

HIST 124 The US 1877-Present
This course provides opportunities to acquire the procedures, practices, methodologies and fundamental assumptions of history in two ways. First, you will gain the foundational content knowledge needed to understand and interpret the major trends, people, ideas and events that have shaped the United States since 1877. Second you will acquire and use the unique methods historians employ to critically select and evaluate evidence from the past, assess its significance, and analyze the interpretive accounts that give this past meaning. In this iterative process, you will discover that the discipline of history places unique demands on those who aim to interpret and communicate a strange past- a past that is difficult to truly know and articulate. The application of historical thinking skills will help you discover much of the meaning, mystery, controversy and drama of history. This process of discovery requires that you question how historians view the relationship between evidence and historical accounts. you will learn to create interpretive accounts of the past by framing useful historical problems, marshalling and evaluating relevant evidence, detecting authorial bias, contextualizing or "historicizing" the past, assessing significance both in primary sources and in narrative accounts, debating competing theories of causation, using counter historical examples to critique narratives and exploring how theories of hegemony and human agency influence our understanding of the past.

HIST 151 - Reason and Revolution (Gen Ed Area IV)
An examination of the transition in political history, philosophy, art, literature and music from Puritan England and Louis XIV’s France to Napoleon. Team taught by members of the Art and History departments. This course satisfies one art or one history requirement. Note: see honors humanities courses.
Credit Hours: 3 hrs

Area IV: Knowledge of the Disciplines

HIST 151 Reason and Revolution [effective Fall 2008]
This inter-disciplinary course in history and art history is intended to introduce students to the works of art, philosophy and literature associated with a major turning point in European and world history- the Enlightenment and the French Revolution. It will offer students the opportunity to study the ideas that found their first political expression in the American Constitution, from their beginnings in 17th century France and England through the turmoil of revolution and war. The course will encourage students to analyze and write about a variety of artistic, philosophical and literary works in a specific historical context, and to understand how political events influenced humanistic thought and how the humanities shaped political and social change.

HIST 177 - Special Topics
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 1 hrs  
**Prerequisite:** department permission

**HIST 178 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 2 hrs  
**Prerequisite:** department permission

**HIST 179 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 3 hrs  
**Prerequisite:** department permission

**HIST 201 - The Religions of South and East Asia**

A comparative and historical survey of the native religious traditions of South and East Asia, showing the interaction of folk religion with the developing concepts and institutions of Hinduism, Buddhism, Confucianism, Daoism and Shinto.

**Credit Hours:** 3 hrs  
**Previously Listed As:** HIST301  
**Last Updated:** Links 04/2011

**HIST 202 - Religions in Conflict and Dialogue: Judaism, Christianity, and Islam (Gen Ed Area III)**

This is an historically-oriented analysis of the Semitic or Near Eastern monotheisms (Judaism, Christianity and Islam) from their common roots in the sacred stories of the patriarch Abraham to their often contentious and ecumenical relationships as global communities in the contemporary world.

**Credit Hours:** 3 hrs  
**Previously Listed As:** HIST302  
**Last Updated:** 03/2011; effective Spring 2011

**HIST 204 - Introduction to the History of Judaism (NEW COURSE)**

An introductory history of Judaism and the Jewish people. Surveys Judaism from archaic roots in ancient West Asia to the present, from religious ideas and practices of the Hebrew Bible (Old Testament) to the development of Jewish religious, social, and intellectual life in Christian, Islamic, medieval, and modern societies.

**Credit Hours:** 3 hrs  
**Course Revisions:**
HIST 277 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr
Prerequisite: one course in history or department permission

HIST 278 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs
Prerequisite: one course in history or department permission

HIST 279 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs
Prerequisite: one course in history or department permission

HIST 290 - Introduction to the History of Technology

An introduction to western technology from medieval times to the present. Examines the process of technical change, the nature of technological systems, the diffusion of technological improvements and the role of technology in broader historical movements.

Credit Hours: 3 hrs

HIST 300W - Researching and Writing History (Gen Ed Area I, W)

An introduction to the historian’s skills. Exercises include compiling a bibliography, writing book reviews and preparing a research paper.

Credit Hours: 3 hrs
Major Restrictions: Open only to students in the following programs: History; History for Secondary Teacher Certification; Social Studies; Social Studies for Secondary Teacher Certification; Social Science; Area Studies; SSET; SSGT; SSHT; SSPT; GHT; HGT
Notes: Required for the history major

Last Updated: Major Restrictions Added 11/2012, effective Winter 2013

HIST 303 - History of American Religion
A survey of religious institutions and ideas in relation to American culture from colonial times to the present.

**Credit Hours:** 3 hrs  
**Prerequisite:** one course in history or department permission

**HIST 304 - Early Judaism**

This course is a survey of the origin and historical development of Judaism in the Persian, Hellenistic, and Roman periods.

**Credit Hours:** 3 hrs  
**Prerequisite:** HIST 100 or HIST 101 or HIST 109 or equivalent  
**Last Updated:** Links 04/2011

**HIST 305 - Native American History**

An ethnohistory of America’s indigenous peoples and nations from before contact to the present.

**Credit Hours:** 3 hrs  
**Prerequisite:** one course in history or department permission

**HIST 306 - Hinduism**

This course is a thematic and historical study of Hinduism and the related Indian religions of Jainism and Sikhism. The course traces the development of religion in South Asia from prehistory to the present and examines the diverse ideas, values and ways of life that make up Hinduism today.

**Credit Hours:** 3 hrs  
**Class Restrictions:** Sophomore standing

**HIST 307 - Buddhism**

This course is a thematic and historical study of the Buddhist tradition. It traces the development of Buddhism from its origins in ancient India to the present and examines the diverse ideas, values and ways of life that make up Buddhism today.

**Credit Hours:** 3 hrs  
**Class Restrictions:** Sophomore standing

**HIST 308 - Integrated Elementary Social Studies Methods**

Social studies is the integrated study of the social sciences and humanities to promote civic competence inherent in group life. This course explores the teaching of social studies in the elementary school. It is organized to cover a variety of teaching methods to acquire skills through lectures, discussions, activities, and presentations.

**Credit Hours:** 3 hrs  
**Prerequisite:** CURR 304 and admission to the Initial Teacher Preparation Program  
**Class Restrictions:** Junior standing or above  
**Major Restrictions:** Elementary Education Majors only  
**Cross-Listed with:** CURR 308  
**Last Updated:** 03/2011; effective Spring 2011

**HIST 309 - France to 1789**
A study of the main currents in early modern times with special emphasis on the impact of the Protestant Revolt and the Renaissance on French society, the rise of absolutism and the political and intellectual background of the French Revolution.

Credit Hours: 3 hrs

**HIST 310 - France since 1789**

An examination of the major trends in French history since the start of the Revolution. Stresses cultural, social, economic, intellectual and political trends, and treats the ways in which France has been a seedbed for new movements in Europe.

Credit Hours: 3 hrs
Prerequisite: HIST 102 or department permission
Last Updated: Links 04/2011

**HIST 311 - History and Geography of the Modern World (NEW COURSE)**

This course provides an interdisciplinary study of global history and geography from 1500 to the present. It addresses key issues in global history and geography (such as the Colombian exchange, colonialism, global war) across several different world regions.

Credit Hours: 3 hrs
Prerequisite: HIST 110, GEOG 110
Cross-Listed with: GEOG 311
Course Revisions: This is a new course, effective Winter 2013.
Last Updated: New Course 10/2012, effective Winter 2013

**HIST 313 - Michigan History**

A survey of major economic, social and political developments in Michigan from prehistoric times to the present. Emphasizes the period prior to the 20th century.

Credit Hours: 3 hrs
Prerequisite: HIST 123 or HIST 124
Class Restrictions: Sophomore standing or higher
Last Updated: Prerequisite/Restriction change 5/2012, effective WINTER 2013.

**HIST 315 - History of Black Americans**

A history of Americans of African ancestry from colonial times to the present. Emphasizes slavery, the post-Civil War South, northward migration and urban settlement, and philosophies of racial progress.

Credit Hours: 3 hrs
Prerequisite: one course in history or department permission

**HIST 316 - History and Geography of Modern Europe**

An interdisciplinary and geographical-historical study of modern Europe with the geographical component emphasizing information of an urban, demographic, occupational and environmental nature, and with the history component stressing major political, social and cultural developments. A requirement for majors in language and international trade.
HIST 317 - History and Geography of Spanish America

An interdisciplinary geographical-historical study of Spanish America, emphasizing political, cultural and socioeconomic forces from the conquest to the present. Stresses similarities and differences within and between nations and the special relationships that exist between the nations and the United States. A requirement for majors in language and international trade.

Credit Hours: 3 hrs
Prerequisite: GEOG 110 and either HIST 101, HIST 102 or HIST 103
Concurrent Prerequisite: GEOG 316
Last Updated: Links 04/2011

HIST 319 - The Civil Rights Movement in the United States

Focusing on the 20th-century history of the African American struggle for equality, this course examines the rise of de jure racial segregation as a social system; the origins and early history of the Civil Rights movement; the movement’s development from the 1920s through the 1950s and its historic victories over segregation in the 1950s and 1960s.

Credit Hours: 3 hrs
Prerequisite: HIST 124, HIST 315 or department permission
Last Updated: Links 04/2011

HIST 321 - Women and Gender in the Ancient World

An investigation of conditions of life for women in antiquity, focusing on the sex-gender system of Greek and Roman societies. Literary, inscriptive and other evidence will be studied to disclose the classical roots of western beliefs and attitudes about women.

Credit Hours: 3 hrs
Prerequisite: one course in history
Cross-Listed with: CLAS 321, WGST 321
Last Updated: Links 04/2011

HIST 323 - Greek History

Examines the Greeks’ achievements from the Bronze Age to the Roman conquest, focusing on the period after 800 B.C.E. Emphasizes political, social and economic developments; also considers literary, intellectual and artistic accomplishments.

Credit Hours: 3 hrs
Prerequisite: one course in history
Last Updated: Links 04/2011

A topical approach to the role that sex and sexuality has played in American history; topics include the family, gender, interracial relations, the birth control movement, origins of the gay community, politics of abortion, and sexually transmitted infections.

Credit Hours: 3 hrs
Prerequisite: one course in history

HIST 326 - History and Geography of Modern Asia

An interdisciplinary geographical-historical study of modern Asia. The geography component emphasizes urban, demographic, occupational and environmental trends and developments; the history component stresses major political and social developments and international relations. A requirement for majors in the Japanese program in language and international trade.

Credit Hours: 3 hrs
Prerequisite: GEOG 110 and either HIST 103 or HIST 106
Last Updated: Links 04/2011

HIST 327 - Europe in Early Middle Ages 400-1050

Analyzes emergence of common European culture from fusion of Roman, Germanic and Christian elements. Includes examination of Merovingian and Carolingian culture, Anglo-Saxon Britain, Ottonian Germany, medieval Christianity and medieval women. Cultural institutions of Celts, Moslems and Vikings also explored.

Credit Hours: 3 hrs

HIST 328 - Europe in Late Middle Ages 1050-1400

Examines local feudalism and rise of French and English feudal monarchies. Special emphasis on crusades, medieval Christianity and heresy, women and Paris and Venice in late middle ages. Culture explored through extensive use of contemporary literature and art.

Credit Hours: 3 hrs

HIST 329 - Power, Place and Image in Florence and Rome

Students will travel to Florence and Rome where they will investigate the dynamics of political, social, and religious power, and the relationships between men and women that characterized life in these cities in the late Middle Ages and Renaissance eras. We will explore how political, social, and religious power and cultural values were expressed in monuments, palaces, city walls, churches, and works of art.

Credit Hours: 3 hrs

HIST 330 - Europe in the Renaissance and Reformation

A survey of the political, cultural, religious and economic history of Europe from the Italian Renaissance to the Peace of Westphalia.
Credit Hours: 3 hrs

HIST 332 - Modern Europe 1815-1919

A study of the development and conflicts of the national states of Europe from the Congress of Vienna to the Treaty of Versailles.

Credit Hours: 3 hrs

HIST 333 - Europe since 1919

A history of Europe since Versailles with emphasis upon the Communist, Fascist and Nazi revolutions and their impact on the world, the origins and outbreak of the Second World War, and the post-1945 era.

Credit Hours: 3 hrs
Class Restrictions: Junior standing or department permission

HIST 335 - History of Women in Europe

A study of the history of women and views of women in western society from the 18th century to the present. Emphasizes the struggles, setbacks and achievements of the women’s movements in the context of modern European history.

Credit Hours: 3 hrs
Prerequisite: one course in history or department permission
Cross-Listed with: WGST 335
Last Updated: Links 04/2011

HIST 336 - History of Women in the United States and Great Britain, 1800 to the Present

A comparative study of the history of women in the United States and Great Britain. Examines the ideology of the nature and role of women, the history of women’s lives, the impact of industrialization and the feminist movements of the 19th and 20th centuries.

Credit Hours: 3 hrs
Prerequisite: one course in history or department permission
Cross-Listed with: WGST 335
Last Updated: Links 04/2011

HIST 338 - German History Since 1815

Considers unification and Empire, World War I, the Weimar Republic, the rise of National Socialism, World War II and postwar Germany.

Credit Hours: 3 hrs
Class Restrictions: Junior standing or department permission

HIST 339 - Arab-Israeli Conflict

Course covers a major, ongoing issue in 19th- and 20th-century history, namely the conflicts between Arabs and Israelis in the Middle East.
**HIST 341 - The Middle East, 1798 to the Present**

A survey of the political, economic and social history of the Middle East, including Turkey and Iran, with emphasis on the growth of independence movements within the area.

**Credit Hours:** 3 hrs  
**Prerequisite:** one course in history or one course in political science or department permission

**HIST 342 - North Africa, 1798 to the Present**

A survey of the political, economic and social history of North Africa, Egypt and the Sudan, emphasizing the internal movements for independence from colonial powers.

**Credit Hours:** 3 hrs  
**Class Restrictions:** Junior standing or department permission

**HIST 343 - Russia to 1855**

A survey of political, economic and cultural trends in the history of Russia from Riurik to the death of Tsar Nicholas I, with special emphasis on the growth of tsarist absolutism.

**Credit Hours:** 3 hrs  
**Class Restrictions:** Junior standing or department permission

**HIST 344 - Russia since 1855**

A survey of the political, economic and diplomatic history of imperial Russia and the Soviet Union from the great reforms of the 1860s to the present.

**Credit Hours:** 3 hrs  
**Class Restrictions:** Junior standing or department permission

**HIST 347 - Sub-Saharan Africa to 1885**

The historical evolution of sub-Saharan African civilizations including their origins, interrelations and responses to European colonialism.

**Credit Hours:** 3 hrs  
**Class Restrictions:** Junior standing or department permission

**HIST 348 - 20th-Century Africa**

A detailed examination of black Africa’s response to the historical experience of European colonialism, along with the evolution of those responses, forms and patterns applicable not only to Africa, but also to the entire non-Western world.

**Credit Hours:** 3 hrs
**HIST 349 - South Africa, 1500-Present**

Examines the evolution of a multi-racial society: the Khoisan foragers, Bantu agro-pastoralists, European colonists, mixed blood "coloreds" and Asian indentured immigrants. Explores capitalists development and race relations arising from the mineral revolution of the late 19th century. The emergence and operations of the policies of segregation and apartheid are covered completely.

**Credit Hours:** 3 hrs  
**Class Restrictions:** Junior standing

**HIST 350 - History of Canada**

A survey of the development of Canada from prehistoric times to the present with an emphasis on social and economic topics.

**Credit Hours:** 3 hrs

**HIST 352 - East Asia to 1800**

A study of the history of China, Korea and Japan from ancient times to the beginning of the 19th century, stressing political, cultural and social developments and the dominant role of China.

**Credit Hours:** 3 hrs  
**Prerequisite:** One history course  
**Previously Listed As:** HIST 441  
**Last Updated:** 7/7/2011

**HIST 355 - Latin America: Colonial Period**

Surveys the history of Spanish America and Portuguese America from the conquest to the independence era, stressing political, social and economic aspects.

**Credit Hours:** 3 hrs  
**Class Restrictions:** Junior standing or department permission

**HIST 356 - Latin America: National Period**

Surveys the history of Latin America from the independence era to the present, stressing political, social, intellectual and economic topics.

**Credit Hours:** 3 hrs  
**Class Restrictions:** Junior standing or department permission

**HIST 360 - Civil War: Combat, Culture, and Place**

A course that takes students to important Civil War sites as part of a wider exploration of the events related to the cause, conduct, and consequence of the American Civil War. This travel course emphasizes the experience of the common soldier and civilian during the Civil War, and provides the student the opportunity to conduct primary research at a major document repository.

**Credit Hours:** 3 hrs  
**Prerequisite:** HIST 123 or HIST 124  
**Last Updated:** Links 04/2011
HIST 362 - United States Urban History

The development of United States cities from the commercial town of colonial times to the industrial metropolis of today. Emphasizes urban economic activities, boss and reform politics, immigrant and racial minorities, and city and suburban expansion.

Credit Hours: 3 hrs
Class Restrictions: Junior standing or department permission

HIST 364 - United States Military History

A study of the origins and developments of military institutions, traditions, and practices in the United States from the colonial period to the present, with attention given to the interrelationship between military history and political, social and economic conditions in the United States and the world. A requirement for cadets in ROTC programs.

Credit Hours: 3 hrs
Prerequisite: one course in history

HIST 365 - The Old South

The South from the colonial foundations to the formation of the Confederacy in 1861.

Credit Hours: 3 hrs
Prerequisite: HIST 123 or department permission
Last Updated: Links 04/2011

HIST 370 - History of American Sport

A study of American sports, recreation and leisure from the colonial period to the present day. The course discusses the role that sports has played in the development of American culture that participates in these activities. The course also examines the role of sport in defining social identities, gender roles, class distinctions, regional variations and statements of individual and collective achievement.

Credit Hours: 3 hrs
Prerequisite: HIST 123 or HIST 124
Last Updated: Links 04/2011

**HIST 487 - Internship**

**Credit Hours:** 3 hrs

**Graduate Credit:** This is an undergraduate course available to graduate students for graduate credit.

**Last Updated:** Graduate Credit 07/2011

**HIST 488 - Internship**

**Credit Hours:** 3 hrs

**HIST 489 - Internship**

**Credit Hours:** 3 hrs

**HIST 497 - Independent Study**

Study on an individual basis in areas in which the department does not currently offer formal courses. These courses are restricted to highly proficient students. Students are limited to a maximum of three hours of independent study in history during any semester or session.

**Credit Hours:** 1 hr

**Prerequisite:** department permission

**HIST 498 - Independent Study**
Study on an individual basis in areas in which the department does not currently offer formal courses. These courses are restricted to highly proficient students. Students are limited to a maximum of three hours of independent study in history during any semester or session.

**Credit Hours:** 2 hrs  
**Prerequisite:** department permission

**HIST 499 - Independent Study**

Study on an individual basis in areas in which the department does not currently offer formal courses. These courses are restricted to highly proficient students. Students are limited to a maximum of three hours of independent study in history during any semester or session.

**Credit Hours:** 3 hrs  
**Prerequisite:** department permission

**HIST 543 - Nationalism and Modernization in the Middle East and North Africa**

The development of nationalism and modernization in the Middle East and North Africa from World War I to the present; political and social changes occurring in this developing area.

**Credit Hours:** 3 hrs  
**Notes:** This is a graduate course in an undergraduate program.

**HIST 547 - 19th Century Ideological Background of the Russian Revolution**

Russian thought from the accession of Nicholas I (1825) until the Bolshevik Revolution. Major themes to be treated are the Slavophiles and Westernizers, socialism, anarchism, nihilism, populism, liberalism and conservatism.

**Credit Hours:** 3 hrs  
**Prerequisite:** one course in modern European history  
**Notes:** This is a graduate course in an undergraduate program.

**HIST 550 - 20th Century Russia**

Political, diplomatic, social and cultural developments in Russia from 1894 to the present.

**Credit Hours:** 2 hrs  
**Notes:** This is a graduate course in an undergraduate program.

**HIST 555 - Studies in Far Eastern History**

Study of selected eras and topics in Far Eastern history. The topic selected will be announced in the time schedule.

**Credit Hours:** 2 hrs  
**Prerequisite:** one course in Far Eastern history  
**Notes:** This is a graduate course in an undergraduate program.

**HIST 560 - Studies in Latin American History**
An intensive investigation of selected political, economic, social and cultural topics in Latin American history. The specific topics and chronological coverage are announced in the class schedule.

**Credit Hours:** 2 hrs  
**Notes:** This is a graduate program in an undergraduate program.

## Jewish Studies

### JSTS 177 - Special Topics

**Philosophy**

PHIL 100 - Introduction to Philosophy (Gen Ed Area IV)

An introduction to philosophy by the study of important philosophical thinkers, problems and methodologies.

**Credit Hours:** 3 hrs
Area IV: Knowledge of the Disciplines

PHIL 100 Introduction to Philosophy
For at least the preceding 2500 years, philosophical reflection has extended to all aspects of life, from politics, art and morality, to the very nature of knowledge and of existence itself. This course introduces students to the methods and trains of philosophical thinking that underlie the full range of human experience. Through the analysis of original philosophical texts, as well as the rich tradition of community on those texts, students in this course explore such fundamental questions as "What is the nature of truth?", "What is the ultimate nature of existence, e.g., is everything physical?", "How may a society best achieve justice?", and "What should be the role of art in our lives?". Introduction to Philosophy is also a skills course in that the serious investigation of issues such as those just listed enhances the analytic and critical skills required to address the intellectual and other challenges that inevitably complicate, and enrich, the lives of thoughtful human beings.

PHIL 110 - Philosophies of Life (Gen Ed Area IV)
An introduction to differing accounts of what constitutes a meaningful life and how an individual can attain it. Representative topics include the notions of pleasure, love, empathy and power as discussed by such writers as Plato, Epicurus, Nietzsche, Lao Tse and Buddha.

Credit Hours: 3 hrs

Area IV: Knowledge of the Disciplines

PHIL 110 Philosophies of Life
The traditions and methodology of philosophy can be introduced by the study of any of a number of specific fields within philosophy. This course, by probing the meaning of life, introduces students to the major methods and areas of philosophical thinking. This course permits students to study philosophical texts from around the world as well as the rich tradition of community on these texts. As an introduction to the discipline of philosophy, this course provides students with the opportunity to learn what the discipline of philosophy provides to ones overall intellectual development. More generally, its method is critical and analytical reasoning- habits of mind that everyone needs - and it addresses some of the most fundamental concepts in human thought- the nature of human reality, the meaning of life, and the life well-lived. Both the skills and concepts addressed in this course help students in their educations, careers and personal lives.

PHIL 120 - Introduction to Critical Reasoning (Gen Ed Area IV)
An introduction to the techniques of identifying and evaluating arguments. The emphasis will be on the enhancement of reasoning skills through the study of arguments in their natural setting in newspapers, political speeches, advertising, etc. The course also may include such related topics as fallacies, inductive reasoning and the logic of explanation in the social sciences.

Credit Hours: 3 hrs

Area IV: Knowledge of the Disciplines

PHIL 120 Introduction to Critical Reasoning
Critical reasoning is the methodology of philosophy, and philosophy is one of the central disciplines of the humanities. Critical reasoning is useful to everyone. it is the primary method used to analyze and evaluate the information we encounter daily. In this course, students learn to analyze written text from a variety of sources, to distinguish rhetoric from reason, and to distinguish good reasoning from bad. They are given opportunities to critique persuasive text from the history of philosophy to the rhetoric of talk television and to create arguments that stand up to vigorous critique. PHIL 120 Introduction to Critical Reasoning introduces students to philosophy by way of critical reasoning.
PHIL 130 - Introduction to Logic

An introduction to the analysis of arguments using the theory and techniques of formal logic. The theory underlies most formal systems, including computer applications. Students learn such concepts as deduction and induction and how to prove that arguments are valid or invalid.

Credit Hours: 3 hrs

PHIL 177 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr

PHIL 178 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs

PHIL 179 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs

PHIL 181 - Logic and Model Theory (Gen Ed Area III)

This course is designed to teach students the methods and principles of mathematical and philosophical logic, both deductive and inductive. Students will learn model theory, natural deduction, formal methods of proof and the methods and principles of inductive logic and probability.

Credit Hours: 3 hrs

Last Updated: Gen Ed 11/2011

PHIL 212 - Philosophy of Art (Gen Ed Area IV)

Can "art" be defined? Do artists owe a responsibility to society? Should works of art be primarily analyzed as "significant form" or as an expression of the artist's personality? Can we isolate a uniquely "aesthetic" attitude? Through considering such questions, the course introduces the student to philosophical reasoning and analysis.

Credit Hours: 3 hrs

Area IV: Knowledge of the Disciplines
PHIL 212 Philosophy of Art
In this course, students are introduced to a number of "theories of art" deriving from the Western Philosophical tradition, beginning with Plato's "Imitation Theory." Questions such as, "What makes something a work of art?", "What are the proper standards for judging works of art?", and, "What is the relation of art to the rest of society?" are explored. Through the study of competing answers to these and related questions, students learn about and learn to apply, the reflective and critical methodologies of Western Philosophy, e.g., conceptual analysis, criteria for the evaluation of explanatory theories and an array of critical thinking skills.

PHIL 215 - Philosophy of Religion (Gen Ed Area IV)

A philosophical study of the nature, goals and proper function of religion. Some possible topics are traditional arguments for the existence of God, grounds for disbelief in God, immortality, religious experience, the nature of religious language, the relation of science to religion, the role of faith and revelation, the connection between religion and ethics.

Credit Hours: 3 hrs

Area IV: Knowledge of the Disciplines

PHIL 215 Philosophy of Religion
Philosophy of Religion is an introduction to philosophy through the study of various aspects of religious belief, many of which have a direct bearing on the lives we choose to live. PHIL 215 Philosophy of Religion fulfills the humanities requirement of the Knowledge of the Disciplines category of the General Education Program because it is an introduction to the discipline of philosophy which enables students to discover what and how the content and methods of philosophical inquiry contribute to one's overall intellectual development. Generally, philosophic method develops one's critical reasoning abilities - skills transferable to many areas of one's life- and the philosophy of religion, in particular, applies these skills to some of the fundamental concepts involved in religious belief: whether God exists, and what difference our answer to this question plays in decisions we make regarding how we live our life.

PHIL 220 - Ethics (Gen Ed Area IV)

An introduction to the basic ethical theories and ethical problems in the Western philosophical tradition. Such problems may include: the nature of value, the justification of ethical decisions, the idea of obligation and the concept of human rights. Applications of ethical theory to specific ethical issues may concern both personal relationships and important contemporary issues.

Credit Hours: 3 hrs

Area IV: Knowledge of the Disciplines

PHIL 220 Ethics
PHIL 220 Ethics is an introduction to philosophy through the study of ethics, the area of philosophy that examines morality - right and wrong, good and evil, and the good life. This course introduces basic ethical theories from the Western philosophical tradition, comparing and contrasting their positions on contemporary moral issues. PHIL 220 Ethics fulfills the Humanities requirement of the Knowledge of the Disciplines category of the General Education Program because it is an introduction to the discipline of philosophy provides to one's overall intellectual development. more generally, its method is critical reasoning - a habit of mind that everyone needs- and it addresses some of the most fundamental concepts in human thought- the right and the good. Both the skills and concepts addressed in this course help students in their educations, careers and personal lives.

PHIL 221 - Business Ethics (Gen Ed Area IV)
A consideration of ethical questions regarding business practices in a global environment. Students will be introduced to ethical theory and critical reasoning. They will use these tools to critically examine the market system itself, as well as practices of multinational business. Students will explore the ethical responsibilities of corporations with regard to employees, consumers and other stakeholders.

Credit Hours: 3 hrs

Area IV: Knowledge of the Disciplines

PHIL 221 Business Ethics
PHIL 221 introduces students to the practices, methodologies and fundamental assumptions of philosophy through the study of global business ethics. Ethics is the area of philosophy that examines morality, and business ethics applies ethical theory to specific problems involving businesses. Students will formulate questions about the role of business in the world and its ethical responsibilities to employees, consumers and other stakeholders. PHIL 221 is a general education course because it is an introduction to philosophy through the study of global business ethics. It gives students the opportunity to learn what the study of philosophy provides to one's intellectual development. The methodology of the course is critical reasoning- a habit of mind that everyone needs- and the course addresses some of the most fundamental concepts in human thought- the right and the good. Both the skills and concepts addressed in this course help students in their educations, careers and personal lives.

PHIL 223 - Medical Ethics (Gen Ed Area IV)
An examination of the relationships between contemporary values in the medical profession and traditional ethical values. Students will investigate various ethical theories and critically examine controversial issues in medicine.

Credit Hours: 3 hrs

Area IV: Knowledge of the Disciplines

PHIL 223 Medical Ethics
PHIL 223 introduces student to the practices, methodologies and fundamental assumptions of philosophy through the study of medical ethics. Ethics is the area of philosophy that examines morality and medical ethics applies ethical theory to specific ethical problems within the practice of medicine. PHIL 223 is a general education course because it is an introduction to philosophy through the study of medical ethics. It gives students the opportunity to learn what the study of philosophy provides to one's intellectual development. The methodology of the course is critical reasoning - a habit of mind that everyone needs- and the course addresses some of the most fundamental concepts in human thought- the right and the good. Both the skills and concepts addressed in this course help students in their educations, careers and personal lives.

PHIL 224 - Ethics and Food (Gen Ed Area IV)
This course is an introduction to ethical issues involving food, its production and its distribution. After studying several ethical theories, students will apply those theories to food related ethical issues. Students will examine the industrialization of food production, the organic movement, the push for locally grown food, and the issue of global food distribution.

Credit Hours: 3 hrs

Area IV: Knowledge of the Disciplines

PHIL 224 Ethics and Food
PHIL 224 Ethics and Food introduces students to the practices, methodologies and fundamental assumptions of philosophy through the study of ethics and the application of ethics to our food choices. Whether we know it or not, every food choice we
make has ethical implications. Ethics is the are of philosophy that examines morality, and Ethics and Food applies ethical theory to specific ethical problems surrounding food. PHIL 224 Ethics and Food is an introduction to philosophy through the study of ethics. It gives student to opportunity to learn what the study of philosophy provides to ones intellectual development. The methodology of the course is critical reasoning - a habit of mind that everyone needs - and the course addresses some of the most fundamental concepts in human thought- the right and the good. Both the skills and concepts addressed in this course help students in their educations, careers and personal lives.

Last Updated: Updated Gen Ed 03/2012

PHIL 225 - Political Philosophy (Gen Ed Area IV)

Examines the philosophical bases of political ideology and theory through analysis of a variety of political theories, their component parts, and their basic assumptions. Examples may be taken from the works of such writers as Plato, Aristotle, Hobbes, Locke, Rousseau, Mussolini, Marx and Thoreau.

Credit Hours: 3 hrs

Area IV: Knowledge of the Disciplines

PHIL 225 Political Philosophy

Political philosophy is an area within the discipline of philosophy that examines concepts such as: the nature and extent of legitimate political authority, how to define political subjects and activities, theories of human nature, freedom, justice, equality, citizenship, power and the relationship between morality and the law. This course is a general education course in the Knowledge of the Disciplines, Humanities category, because it provides an introduction to the discipline of philosophy, its methodology and its contribution to the body of human knowledge. Students will acquire skills of critical reasoning and develop skills for evaluating and creating substantive arguments to support philosophical postilions. Developing such skills is central to the process of higher-education. Moreover, such skills will serves students throughout their educations across all disciplines, in their careers or in pursuing graduate or professional degrees, and in exercising their civic duties.

PHIL 226 - Feminist Theory (Gen Ed Area III, IV)

A consideration of philosophical issues concerning the nature and status of women. Readings from both traditional and contemporary sources. Topics may include scientific and religious views, the ideal society and women’s place in it, varieties of feminism, views on sexuality, family and reproduction, and work and the economy.

Credit Hours: 3 hrs
Cross-Listed with: WGST 226

Area III: Perspectives on a Diverse World

PHIL 226 Feminist Theory [was PHIL/WMST226]

Gender is one of the principal characteristics determining identity and life experience for human beings. This course takes a philosophical approach to gender, examining beliefs about women and men from a wide variety of cultural and political perspectives. We consider both traditional justifications of the differential treatment of women and men in such institutions as marriage and family, as well as theories that challenge these traditional views. PHIL226 Feminist Theory fulfills the Global Awareness requirement of the General Education Program because it considers a wide range of practices and beliefs about gender from across the globe, with an emphasis on the intellectual and ethical complexities of understanding and judging gendered practices in cultures other than our own. Gender is one of the principal characteristics determining identity and life experience for human beings. This course takes a philosophical approach to gender, examining beliefs about women and men from a wide variety of cultural and political perspectives. We consider both traditional justifications of the differential treatment of women and men in such institutions as marriage and family, as well as theories that challenge these traditional views. This course is a general education course in the knowledge of the disciplines because it provides an introduction to the discipline of philosophy
through the concept of gender, its methodology and its contribution to the body of human knowledge. Students will acquire skills or critical reasoning and develop skills for evaluating and creating substantive arguments to support philosophical positions. Developing such skills is central to the process of higher-education. Moreover, such skills will serve students throughout their educations across all disciplines, in their careers or in pursuing graduate or professional degrees and in exercising their civic duties.

method is critical reasoning—-a habit of mid that everyone needs- and it addresses some of the most fundamental concepts in human thought- the right and the good. Both the skills and concepts addressed in this course help students in their educations, careers and personal lives.

**PHIL 229 - Environmental Ethics (Gen Ed Area IV)**

A course addressing ethical and other philosophical issues concerning the environment. The course introduces philosophical perspectives on the environment from a variety of traditions and perspectives, and applies these perspectives to such issues as climate change, animals rights, preservation, pollution, sustainability, population, energy and future generations.

**Credit Hours:** 3 hrs

**Last Updated:** Gen Ed Approval 11/2011, effective Fall 2011; New Course 03/2011, effective Spring 2011

**PHIL 260 - Existentialism (Gen Ed Area IV)**

An examination of contemporary existentialist thought about the nature of reality and human existence as reflected in the works of such philosophers as Marcel, Heidegger, Sartre and Camus and the sources of existentialism as found in the works of Kierkegaard and Nietzsche.

**Credit Hours:** 3 hrs

**Area IV: Knowledge of the Disciplines**

**PHIL 260 Existentialism**

This course is an introduction to philosophy by the study of Existentialism. Existentialism explores major topics in the field of philosophy: the nature of humanity, the possibilities of human freedom, the meaning of life and the nature of reality. Existentialism is a story of significant philosophical rebellions, united by common themes throughout the nineteenth and twentieth centuries. In the quest to redefine human nature and human freedom, existential texts challenge the authority of Judeo-Christian religion, traditional views of the laws of nature, conventional and philosophical notions of truth and the notion of objective morality. Students study the social context of these philosophical rebellions and discover the ways that existentialism continues to transform society by its persistent challenge to ideological authority and to mass social movements. The traditional method of philosophy, critical and analytical reasoning is taught in this course. Students develop habits of mind and writing skills that enable them to develop and critique philosophical arguments.

**PHIL 277 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 1 hr

**PHIL 278 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs
Last Updated: Removed Gen Ed 03/2012

PHIL 281 - Symbolic Logic
An introduction to the notation and proof procedures of symbolic logic with emphasis upon the clarification and development of the notion of a formal language.

Credit Hours: 3 hrs

PHIL 291 - Introduction to Asian Philosophy (Gen Ed Area III)
This course is an overview of the rich philosophical traditions of South and East Asia. The course will introduce a number of major philosophers, texts, and movements across Hindu, Buddhist and Chinese/Japanese Traditions.

Credit Hours: 3 hrs

Area III: Perspectives on a Diverse World

PHIL291 Introduction to Asian Philosophy
Rationale for inclusion in Global Awareness: Global awareness courses are designed to expose students to issues influencing diverse cultures around the world. In this course, we will go beneath specific issues to address the very foundations of cultures. Specific issues within a culture arise within a specific cultural milieu and this milieu stands on philosophical foundations that distinguish it from other cultures. We will isolate the philosophical presuppositions of a variety of Asian cultures, focusing on their assumptions about the make-up of the world, how human beings fit into this make-up, how knowledge is formed within this framework, what the optimal goals of the human being are, and how, based on these presuppositions, human beings should best act in the world in order to achieve their goals. It will be important to discern how these philosophical foundations can play a role when covering specific contemporary issues and the roles they play when two cultures with contrasting philosophical foundations meet. Introduction to Asian Philosophy provides students with the opportunity to study the foundational cultures of several Asian societies. These cultures are based on philosophical assumptions that differ radically and in important ways form the common assumptions that people from other cultural traditions bring to living in the world. By understanding these philosophies, students will achieve both a foundational knowledge of the cultures and a sensitivity to diverse points of view. We will directly engage the texts of these traditions, which are broadly: Hinduism, Buddhism, Confucianism and Daoism.

PHIL 310W - Aesthetics (Gen Ed Area I, W)
A study of philosophical issues relating to works of art and other aesthetic objects. Possible topics include the nature of aesthetic attitude, evaluation, aesthetic meaning and truth, expression in art, the nature of a work of art and basic value of art, the kinds of concepts used to talk about the arts.

Credit Hours: 3 hrs
Prerequisite: One course in philosophy other than PHIL 120 or PHIL 130

Last Updated: Links 04/2011

PHIL 325W - Theory of Knowledge (Gen Ed Area I, W)
An investigation of the nature, scope and limits of knowledge. Some possible topics are the connection between belief and knowledge, knowledge of other people's minds, the reliability of memory, the possibility of certainty in knowledge, theories of truth.

**Credit Hours:** 3 hrs  
**Prerequisite:** One course in philosophy other than PHIL 120 or PHIL 130; recommended: PHIL 330W or PHIL 331W

**Last Updated:** Links 04/2011

**PHIL 326 - Philosophy & Sexuality**

This course applies philosophical methods to ethical, political, and conceptual questions related to sexual preference and identity, including: What is the ethical status of homosexuality? Should same sex marriage be legal? What groups does/should "LGBT"(etc) seek to identify? Who is "queer"? What is the relation between feminism and the liberation of sexual minorities?

**Credit Hours:** 3 hrs  
**Prerequisite:** One PHIL course excluding PHIL 120 and PHIL 130  
**Cross-Listed with:** WGST 326

**Course Revisions:**  
Course approved for General Education - Writing Intensive, effective Winter 2013  
**Last Updated:** New Course, 11/2012, effective Winter 2013

**PHIL 330W - History of Philosophy: Ancient (Gen Ed Area I, W)**

A study of important philosophical developments in western thought from the pre-Socratics through Aristotle. Covers the pre-Socratics, Socrates, Plato and Aristotle.

**Credit Hours:** 3 hrs  
**Prerequisite:** One course in philosophy other than PHIL 120 or PHIL 130

**Last Updated:** Links 04/2011

**PHIL 331W - History of Philosophy: Modern (Gen Ed Area I, W)**

A study of important philosophical developments in Europe from the Renaissance to the early 19th century. Covers such figures as Descartes, Spinoza, Leibnitz, Hobbes, Locke, Berkeley, Hume and Kant.

**Credit Hours:** 3 hrs  
**Prerequisite:** One course in philosophy other than PHIL 120 or PHIL 130

**Last Updated:** Links 04/2011

**PHIL 332W - History of Philosophy: 19th Century (Gen Ed Area I, W)**

An introduction to the major philosophical themes of the 19th century that dominate 20th century European thought. These themes include the collapse of German Idealism and Romanticism, the death of God, the nature of historical process, evolutionary theory and the implications of these themes for the concept of human freedom.

**Credit Hours:** 3 hrs  
**Prerequisite:** one course in philosophy other than PHIL 120 or PHIL 130; recommended: PHIL 330W or PHIL 331W
PHIL 355W - Philosophy of Law (Gen Ed Area I, W)

A consideration of philosophical questions about the law such as: What sorts of behavior should be illegal? What is punishment supposed to accomplish? When are we justified in punishing a person? How do judges arrive at decisions? Are there really legal principles that cover all the hard cases judges must deal with or do they use their own personal moral values? What is a legal system and how does it differ from a moral code?

Credit Hours: 3 hrs

PHIL 370W - Philosophy and Narrative (Gen Ed Area I, W)

This course will focus on philosophical issues relevant to one or more of the following topic areas: philosophical issues in literature and film, theories of drama and performance, the politics of narrative, and recent hermeneutical theory.

Credit Hours: 3 hrs
Prerequisite: One course in philosophy other than PHIL 120 or PHIL 130; recommended: PHIL 260, PHIL 332W or PHIL 390W

PHIL 375W - Metaphysics (Gen Ed Area I, W)

A study of questions concerning basic structure and ultimate nature of reality. Possible topics include universals and particulars, space and time, determinism and freedom, the self, materialism, idealism, substance and process.

Credit Hours: 3 hrs
Prerequisite: One course in philosophy other than PHIL 120 or PHIL 130

PHIL 377 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr
Prerequisite: Department permission

PHIL 378 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs
PHIL 379 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs
Prerequisite: Department permission
Last Updated: Links 04/2011

PHIL 390W - Phenomenology (Gen Ed Area I, W)

The course attempts to trace the history and development of the phenomenological movement from its origins in the notion of the intentionality of consciousness, beginning with the work of Edmund Husserl and continuing with the later "existential" developments in the field by such thinkers as Heidegger, Sartre and Merleau-Ponty. The course also will study the impact of phenomenology on such varied fields as psychology, sociology and literature.

Credit Hours: 3 hrs
Prerequisite: One course in philosophy other than PHIL 120 or PHIL 130; recommended: PHIL 331W or PHIL 260
Last Updated: Links 04/2011

PHIL 391W - Early Chinese Philosophy (Gen Ed Area I, W)

This course is an in-depth study of the major Chinese philosophical texts, which were seminal with regard to the subsequent 2000 years of Chinese thought and culture and which are still relevant to contemporary philosophical concerns. Possible texts include: Sunzi’s Art of War, the Yijing, Confucius’ Analects, Laozi Daodejing, Zhuangzi, Mencius and Xunzi.

Credit Hours: 3 hrs
Previously Listed As: Philosophy of Early China
Rationale: Students will complete frequent, short writing assignments tied to daily reading assignments, and two of those short writing assignments will be expanded into longer term papers. In the writing assignments, students will pose and answer questions regarding the content of the readings. Students will have the opportunity to also present these questions and answers orally in class and will choose from among these issues for development into standard analytic expository essays, which will also be presented in summary form orally in class.

Historically, there are many kinds of philosophical writing, from analytical essays, to aphorisms, to dialogues, but only one kind is generally accepted in academic circles today: defending a thesis. There are many kinds of these, such as interpreting a concept, refuting an argument in print elsewhere, offering a new perspective on a controversy or concept, and problematizing a generally accepted viewpoint or presupposition. In this class, students will work on the process of developing and defending a thesis.

Last Updated: 2/11/11; effective Fall 2011

PHIL 426W - Topics in Gender and Philosophy (Gen Ed Area I, W)

An examination of gender and its relationship to other issues from a philosophical perspective. Possible topics include rationality, sexuality, aesthetics, ethics and political theory.

Credit Hours: 3 hrs
Prerequisite: Two courses in philosophy other than PHIL 120 or PHIL 130
PHIL 429W - Topics in Environmental Philosophy

An advanced course that explores the philosophical aspects of topics related to nature, the environment, and/or animal life. Possible topics include: justice and the environment, ethical aspects of climate change, sustainability, conceptions of nature, the human place in nature, the philosophy of ecological restoration, and/or animals.

Credit Hours: 3 hrs
Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.

PHIL 442W - Philosophy of Mind (Gen Ed Area I, W)

A philosophical study of the nature of mind. Examines the logical relations among mental concepts such as consciousness, choice, intention, emotion, feeling, the unconscious; also treats human action, and the possibility and meaning of an adequate explanation of psychological phenomena.

Credit Hours: 3 hrs
Prerequisite: Two courses in philosophy other than PHIL 120 or PHIL 130

PHIL 460W - Philosophy of Language (Gen Ed Area I, W)

An examination of the philosophically important aspects of language. Possible topics include theories of meaning, analysis of referring and predication, the relation between language and reality, analysis of vagueness and metaphor, the role of language in philosophical method, the relation between language and necessary truth.

Credit Hours: 3 hrs
Prerequisite: Two courses in philosophy

PHIL 470W - Twentieth Century European Philosophy (Gen Ed Area I, W)
An exploration of recent developments in European thought. Possible topics include post-structuralist evaluations of Western institutions and ideas, post-Marxist critical theory, the hermeneutic effort to establish interpretation as the basis of philosophical understanding, and the effect of deconstructive thought on philosophy and literature.

Credit Hours: 3 hrs
Prerequisite: two courses in philosophy other than PHIL 120 or PHIL 130; recommended: PHIL 332W, PHIL 260 or PHIL 390W
Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.

Last Updated: Graduate Credit 07/2011; Links 04/2011

PHIL 471W - Early Analytic Philosophy (Gen Ed Area I, W)

An examination of some of the major philosophical developments in England and the United States since approximately 1900. Considers logical atomism, logical positivism, pragmatism and ordinary language philosophy as reflected in the works of such philosophers as Russell, Carnap, Ayer, James, Dewey, Ryle, Austin, Quine and Wittergenstein.

Credit Hours: 3 hrs
Prerequisite: two courses in philosophy other than PHIL 120 or PHIL 130; recommended: PHIL 331W

Last Updated: Links 04/2011

PHIL 475W - Philosophy of Mathematics (Gen Ed Area I, W)

This course focuses on philosophical issues in mathematics. What, if anything, is mathematics about? Are there mathematical truths? If so, how can we know them? What is the correct methodology of mathematics? Are the principles of mathematics independent of mind and language? Students will read both classic and contemporary works in the philosophy mathematics.

Credit Hours: 3 hrs
Prerequisite: PHIL 130, PHIL 281, or department permission

Last Updated: Links 04/2011

PHIL 477 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr
Prerequisite: Department permission

Last Updated: Links 04/2011

PHIL 478 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs
Prerequisite: Department permission

Last Updated: Links 04/2011
PHIL 479 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 3 hrs  
**Prerequisite:** Department permission  
**Last Updated:** Links 04/2011

PHIL 480W - Philosophy of Science (Gen Ed Area I, W)

A systematic examination of the main philosophical problems raised by the results and methods of the physical and social sciences. Topics include the problem of meaning, measurement, the interpretation of probability statements, the justification of induction, the concept of cause, the laws of nature, description and explanation, determinism and indeterminism.

**Credit Hours:** 3 hrs  
**Prerequisite:** One course in philosophy other than PHIL 120 or PHIL 130; recommended: PHIL 325W  
**Previously Listed As:** PHIL 380W - Philosophy of Science  
**Last Updated:** Course Number Change 02/2012, effective Fall 2012; Links 04/2011

PHIL 497 - Independent Study

Advanced study on an individual basis in areas in which the department does not offer a formal course. Restricted to juniors and seniors majoring or minoring in philosophy.

**Credit Hours:** 1 hr  
**Prerequisite:** Department permission  
**Last Updated:** Links 04/2011

PHIL 498 - Independent Study

Advanced study on an individual basis in areas in which the department does not offer a formal course. Restricted to juniors and seniors majoring or minoring in philosophy.

**Credit Hours:** 2 hrs  
**Prerequisite:** Department permission  
**Last Updated:** Links 04/2011

PHIL 499 - Independent Study

Advanced study on an individual basis in areas in which the department does not offer a formal course. Restricted to juniors and seniors majoring or minoring in philosophy.

**Credit Hours:** 3 hrs  
**Prerequisite:** Department permission  
**Last Updated:** Links 04/2011
Mathematics Programs and Courses

Mathematics

Major

Actuarial Science and Economics Major - Mathematics

Actuarial science and economics is a joint program of the Mathematics and Economics departments. In addition to following a prescribed series of courses, students are expected to pass the first two actuarial examinations. The examinations are sponsored by leading actuarial societies and administered in numerous U.S. locations. MATH 372 and MATH 472 are designed to prepare students for these examinations.

All majors must meet with the undergraduate advising coordinator in the Department of Mathematics to fill out a program sheet before graduation. At least 15 credit hours in the program at the 300 level or above must be taken at Eastern Michigan University.

Mathematics Department Information:

Department Head: Christopher Gardiner
Department Contact: cgardiner@emich.edu
Website: www.emich.edu/math/

Adviser Information:

Program Adviser: John Curran
Email: jcurran3@emich.edu
Phone: 734.487.1444

General Education Requirements:

For specific requirements refer to the General Education Program. Download the Gen Ed Checklist here.

Major Requirements: 61 hours

Required Courses: 12 hours

- ACC 240 - Principles of Financial Accounting 3 hrs
- ACC 241 - Principles of Managerial Accounting 3 hrs

One course from the following:

- COSC 111 - Introduction to Programming 3 hrs
- COSC 120 - Computational Principles for Mathematics and the Sciences 3 hrs
One course from the following:

- ECON 361 - Financial Economics 3 hrs
- FIN 350 - Principles of Finance 3 hrs

**Required Mathematics Courses: 25 hours**

- MATH 120 - Calculus I (Gen Ed Area II) 4 hrs
- MATH 121 - Calculus II 4 hrs
- MATH 122 - Elementary Linear Algebra 3 hrs
- MATH 223 - Multivariable Calculus 4 hrs
- MATH 370 - Probability and Statistics I 3 hrs
- MATH 372 - Problems in Actuarial Studies I 2 hrs
- MATH 471 - Probability and Statistics II 3 hrs
- MATH 472 - Problems in Actuarial Studies II 2 hrs

**Required Economics Courses: 18 hours**

- ECON 201 - Principles of Macroeconomics (Gen Ed Area IV) 3 hrs
- ECON 202 - Principles of Microeconomics (Gen Ed Area IV) 3 hrs
- ECON 411 - Intermediate Macroeconomic Analysis 3 hrs
- ECON 412 - Intermediate Microeconomic Analysis 3 hrs
- ECON 405 - Economic Analysis for Business 3 hrs
- ECON 415 - Introduction to Econometrics 3 hrs

**Restricted Elective Courses: 6 hours**

*Any combination of electives from:*

- Courses at the 300-level or above in mathematics
- ECON 340 - Money and Banking 3 hrs
- ECON 445 - Economic Fluctuations and Forecasting 3 hrs
- ECON 455W - Cost-Benefit Analysis (Gen Ed Area I, W) 3 hrs

**Minor Requirements:**

This program does not require a minor.

**Course Rotation Schedule**

Click here to access the Course Rotation Schedules page for the courses required for this program.

**Program Total:**

Students must earn a minimum total of 124 credits at the 100-level or above.
Note:

Each student must choose a writing intensive course as part of major completion requirements. Consult your adviser for course options.

Critical Graduation Information:

The following are minimum requirements for all bachelor’s degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the 100-level and above. Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Earn a minimum of 60 credits from a four-year college or university; courses taken at community colleges cannot be used to meet this requirement. (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 unique credit hours in their major and 20 unique credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
- Not more than 60 credit hours in one subject area (prefix) may be applied towards the minimum of 124 credit hours required for a bachelor’s degree.
- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more that one major or minor:
  - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
  - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
  - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor
- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is coordinated by the Office of Admissions, and additional documentation may be required.
- Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be earned in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

General Education Requirements:

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available on the General Education section of the catalog: General Education

- For Students who began their undergraduate program at EMU in Fall 2007 or later or who have elected to follow the current ("new") General Education Program, follow the "For Students" link under the Current Program heading.
• For Students who began their undergraduate program at EMU before Fall 2007 and who have elected to follow the Pre-2007 General Education Requirements, follow the "General Education Program Prior to Fall 2007 (pdf file)" link under the Program Prior to Fall 2007 heading. Please note that students who wish to graduate under pre-2007 General Education requirements must graduate by August 2014; those who have not completed all degree requirements by that time will need to satisfy the current (Fall 2007) General Education requirements.

Students who transferred to EMU may have modified general education requirements based on MACRAO or articulation agreements; consult your academic adviser for additional information.

University Information: Consult the online catalog at catalog.emich.edu.

Elementary Education Mathematics Major

Elementary Teacher Certification

Successful completion of this course of study, in the context of other program requirements, qualifies the student for recommendation for the Michigan Elementary Provisional Certificate. This program of study meets all requirements of the National Council of Teachers of Mathematics. At least nine hours of the major must be completed at Eastern Michigan University. The Michigan Test for Teacher Certification (MTTC) covering this Certification tests #103 and #104. The endorsement test for Mathematics Elementary is MTTC #089.

Phone Number for Advisers: 734.487.1444

General Education Requirements:

For specific requirements refer to the General Education Program. Download the Gen Ed Checklist here.

Liberal Arts Major Requirements: 48 hours

✧ Twelve of the required courses can fulfill General Education requirements

Note: Some of the courses listed below may also be listed in other areas of the program but only need to be taken once.

• ✧ ARTE 220 - Visual Arts for Elementary Teachers (Gen Ed Area IV) 3 hrs
CHEM 101 - Chemistry for Elementary Teachers (Gen Ed Area IV) 3 hrs
CHL 207 - Introduction to Children's Literature (Gen Ed Area IV) 3 hrs
CTAC 124 - Foundations of Speech Communication (Gen Ed Area I) 3 hrs
DANC 220 - Dance for the Elementary School Teacher 3 hrs
ENGL 121 - Composition II: Researching the Public Experience (Gen Ed Area I) 3 hrs
ESSC 202 - Earth Science for Elementary Teachers (Gen Ed Area IV) 3 hrs
GEOG 110 - World Regions (Gen Ed Area III) 3 hrs
HIST 123 - The United States to 1877 (Gen Ed Area IV) 3 hrs
HIST 313 - Michigan History 3 hrs
MATH 108 - Problem Solving and Number Concepts for Elementary School Teachers 3 hrs
MATH 110E - Mathematical Reasoning: Applications for Elementary School Teachers (Gen Ed Area II) 3 hrs
MUSC 220 - Music for the Elementary Teacher (Gen Ed Area IV) 3 hrs
PHY 100 - Physics for Elementary Teachers (Gen Ed Area IV) 3 hrs
PLSC 112 - American Government (Gen Ed Area IV) 3 hrs

One course from the following:

- ENGL 307 - Writing Process for Elementary Teachers 3 hrs
- RDNG 240 - Reading and Writing Connections in the Elementary Grades 3 hrs

Content Requirements: 30 hours

Required Courses: 22 hours

- MATH 108 - Problem Solving and Number Concepts for Elementary School Teachers 3 hrs
- MATH 110E - Mathematical Reasoning: Applications for Elementary School Teachers (Gen Ed Area II) 3 hrs
- MATH 120 - Calculus I (Gen Ed Area II) 4 hrs
- MATH 210 - Algebra for Elementary/Middle School Teachers 3 hrs
- MATH 240 - Geometry for Elementary/Middle School Teachers 3 hrs
- MATH 301 - Advanced Topics in Elementary Mathematics 3 hrs

One of the following:

- * MATH 401 - Mathematics and Its History for Elementary/Middle School Teachers 3 hrs
- * MATH 403 - Current Research in Elementary School Mathematics 3 hrs

Restricted Elective Courses: 8 hours

*Eight hours from the following, with at least three hours at the 300-or 400-level:

- MATH 107 - Plane Trigonometry 2 hrs
- MATH 118 - Linear Models and Probability (Gen Ed Area II) 3 hrs
- MATH 122 - Elementary Linear Algebra 3 hrs
- MATH 170 - Elementary Statistics (Gen Ed Area II) 3 hrs
- MATH 382 - Technology in the Mathematics Classroom 3 hrs
- * MATH 401 - Mathematics and Its History for Elementary/Middle School Teachers 3 hrs
Course Rotation Schedule

Click here to access the Course Rotation Schedules page for the courses required for this program.

Professional Elementary Education Sequence

Pre-Admission Phase: The Learner and the Community: 11 hours

Prerequisite: Sophomore standing or higher.

- EDPS 322 - Human Development and Learning 4 hrs
- HLED 320 - Health Education in the Elementary Grades 2 hrs
- PHED 257 - Physical Education for the Classroom Teacher 2 hrs
- SPGN 251 - Education of Students with Exceptionalities 3 hrs

The following courses require formal admission to the Initial Teacher Preparation Program:

Phase I: Curriculum, Assessment, and the Social Context: 18 hours

Prerequisite: Completion of Pre-Admission Phase is required.

* These two courses must be taken together.
** EDPS 340 needs to be taken with or after CURR 304.

- * CURR 304 - Curriculum and Methods: Elementary 3 hrs
- EDMT 330 - Instructional Applications of Media and Technology 3 hrs
- ** EDPS 340 - Introduction to Assessment and Evaluation 3 hrs
- * PRCT 304 - Practicum I: Elementary 3 hrs
- RDNG 300 - Early Literacy 3 hrs
- SOFD 328W - Schools for a Diverse and Democratic Society (Gen Ed Area I, W) 3 hrs

Phase II: Content and Methods and Teaching: 18 hours

Prerequisite: Completion of Phase I is required.

* These two courses must be taken together.

- BIOT 303 - Life Science for Elementary Teachers 3 hrs
- CTAR 300 - Integrated Arts 3 hrs
- MATH 381 - Teaching Mathematics in Elementary School 3 hrs
- * PRCT 310 - Practicum II: Elementary 3 hrs
- * RDNG 310 - Literacy Across the Curriculum in the Intermediate Grades 3 hrs

One course from the following:
• CURR 308 - Integrated Elementary Social Studies Methods 3 hrs
• HIST 308 - Integrated Elementary Social Studies Methods 3 hrs

Phase III: Capstone Experience: 9 hours

Prerequisite: Completion of Phase II is required.

• EDUC 492 - Student Teaching 9 hrs
  This course requires a formal application to be submitted 7-8 months prior to the Student Teaching semester.

Program Total:

Students must earn a minimum total of 124 credits at the 100-level or above.

Note:

Each student must choose a writing intensive course as part of major completion requirements. Consult your adviser for course options.

* MATH 401 and MATH 403 may each only be taken for credit in this major once. Each course may be taken as either a required course or a restricted elective; these courses do not double-count.

Critical Graduation Information:

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

• Earn a minimum total of 124 credits at the 100-level and above. Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.
• Meet the requirements of the General Education program (see information below).
• Earn a minimum of 60 credits from a four-year college or university; courses taken at community colleges cannot be used to meet this requirement. (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
• Earn a minimum of 30 credits from courses taken at EMU.
• Complete 10 of the last 30 hours for the degree from courses taken at EMU.
• Have a minimum of 30 unique credit hours in their major and 20 unique credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
• Not more than 60 credit hours in one subject area (prefix) may be applied towards the minimum of 124 credit hours required for a bachelor's degree.
• Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more than one major or minor.
  ○ Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
  ○ Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
- Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor.

- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is coordinated by the Office of Admissions, and additional documentation may be required.

- Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be earned in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

**General Education Requirements:**

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available on the General Education section of the catalog: General Education.

- For Students who began their undergraduate program at EMU in Fall 2007 or later or who have elected to follow the current ("new") General Education Program, follow the "For Students" link under the Current Program heading.

- For Students who began their undergraduate program at EMU before Fall 2007 and who have elected to follow the Pre-2007 General Education Requirements, follow the "General Education Program Prior to Fall 2007 (pdf file)" link under the Program Prior to Fall 2007 heading. Please note that students who wish to graduate under pre-2007 General Education requirements must graduate by August 2014; those who have not completed all degree requirements by that time will need to satisfy the current (Fall 2007) General Education requirements. Students who transferred to EMU may have modified general education requirements based on MACRAO or articulation agreements; consult your academic adviser for additional information.

**University Information:** Consult the online catalog at catalog.emich.edu.

**Mathematics Major**

All majors must fill in a program sheet before graduation — see the undergraduate advising coordinator. At least nine credit hours in the major, at 300-level or above, must be taken at Eastern Michigan University.

Additional Requirements: 3 hours

One course from the following:
- COSC 111 - Introduction to Programming 3 hrs
- COSC 120 - Computational Principles for Mathematics and the Sciences 3 hrs

Major Requirements: 36 hours

Required Courses: 24 hours
- MATH 120 - Calculus I (Gen Ed Area II) 4 hrs
- MATH 121 - Calculus II 4 hrs
- MATH 122 - Elementary Linear Algebra 3 hrs
- MATH 211 - Introduction to Mathematical Proof 3 hrs
- MATH 223 - Multivariable Calculus 4 hrs
- MATH 370 - Probability and Statistics I 3 hrs

One course from the following:
- MATH 411 - Abstract Algebra 3 hrs
- MATH 416 - Linear Algebra 3 hrs
- MATH 420 - Introduction to Real Analysis 3 hrs

Restricted Elective Courses: 12 hours

Twelve hours from the following:
- MATH 311W - Mathematical Problem Solving (Gen Ed Area I, W) 3 hrs
- MATH 319 - Mathematical Modeling 3 hrs
- MATH 325 - Differential Equations 3 hrs
- MATH 341 - College Geometry 3 hrs
- MATH 372 - Problems in Actuarial Studies I 2 hrs
- MATH 407 - Elementary Number Theory 3 hrs
- MATH 409 - Cryptology 3 hrs
- MATH 411 - Abstract Algebra 3 hrs
- MATH 416 - Linear Algebra 3 hrs
- MATH 418 - Modeling with Linear Algebra 3 hrs
- MATH 419W - Introduction to Stochastic Mathematical Modeling (Gen Ed Area I, W) 3 hrs
- MATH 420 - Introduction to Real Analysis 3 hrs
- MATH 424 - Introduction to Complex Variables 3 hrs
- MATH 425 - Mathematics for Scientists 3 hrs
• MATH 430 - Introduction to Stochastic Calculus 3 hrs
• MATH 436 - Introduction to Numerical Analysis 3 hrs
• MATH 460 - Applied Survey Sampling 3 hrs
• MATH 461 - Linear Regression Analysis 3 hrs
• MATH 462 - Design and Analysis of Experiments 3 hrs
• MATH 468 - Introduction to Biostatistics 3 hrs
• MATH 469 - Introduction to Categorical Data Analysis 3 hrs
• MATH 471 - Probability and Statistics II 3 hrs
• MATH 472 - Problems in Actuarial Studies II 2 hrs
• MATH 474W - Applied Statistics (Gen Ed Area I, W) 3 hrs

Minor Requirements:

This program requires a minor. Please contact your program adviser for a list of possible minors.

Program Total:

Students must earn a minimum total of 124 credits at the 100-level or above.

Course Rotation Schedule

Click here to access the Course Rotation Schedules page for the courses required for this program.

Notes:

Each student must choose a writing intensive course as part of major completion requirements. Consult your adviser for course options.

Any change to this program must be approved and proper paper work submitted before that change can be considered for graduation.

Critical Graduation Information:

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

• Earn a minimum total of 124 credits at the 100-level and above. Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.
• Meet the requirements of the General Education program (see information below).
• Earn a minimum of 60 credits from a four-year college or university; courses taken at community colleges cannot be used to meet this requirement. (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
• Earn a minimum of 30 credits from courses taken at EMU.
• Complete 10 of the last 30 hours for the degree from courses taken at EMU.
• Have a minimum of 30 unique credit hours in their major and 20 unique credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.

• Not more than 60 credit hours in one subject area (prefix) may be applied towards the minimum of 124 credit hours required for a bachelor's degree.

• Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more that one major or minor.
  o Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
  o Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
  o Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor

• Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is coordinated by the Office of Admissions, and additional documentation may be required.

• Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be earned in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

**General Education Requirements:**

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available on the General Education section of the catalog: General Education

• For Students who began their undergraduate program at EMU in Fall 2007 or later or who have elected to follow the current ("new") General Education Program, follow the "For Students" link under the Current Program heading.

• For Students who began their undergraduate program at EMU before Fall 2007 and who have elected to follow the Pre-2007 General Education Requirements, follow the "General Education Program Prior to Fall 2007 (pdf file)" link under the Program Prior to Fall 2007 heading. **Please note that students who wish to graduate under pre-2007 General Education requirements must graduate by August 2014; those who have not completed all degree requirements by that time will need to satisfy the current (Fall 2007) General Education requirements.**

Students who transferred to EMU may have modified general education requirements based on MACRAO or articulation agreements; consult your academic adviser for additional information.

**University Information:** Consult the online catalog at catalog.emich.edu.

**Mathematics Major with Concentration in Statistics**

All majors must fill in a program sheet before graduation — see the undergraduate advising coordinator. At least nine hours in the major, at 300-level or above, must be taken at Eastern Michigan University.

**Mathematics Department Information:**

Department Head: Christopher Gardiner
Department Contact: cgardiner@emich.edu
Website: www.emich.edu/math/
Adviser Information:

Program Adviser: Tanweer Shapla
Email: tshapla@emich.edu
Phone: 734.487.1444

General Education Requirements:

For specific requirements refer to the General Education Program. Download the Gen Ed Checklist here.

Additional Requirements: 3 hours

One course from the following:

- COSC 111 - Introduction to Programming 3 hrs
- COSC 120 - Computational Principles for Mathematics and the Sciences 3 hrs

Major Requirements: 36 hours

Required Courses: 27 hours

- MATH 120 - Calculus I (Gen Ed Area II) 4 hrs
- MATH 121 - Calculus II 4 hrs
- MATH 122 - Elementary Linear Algebra 3 hrs
- MATH 223 - Multivariable Calculus 4 hrs
- MATH 360 - Statistical Methods 3 hrs
- MATH 461 - Linear Regression Analysis 3 hrs
- MATH 462 - Design and Analysis of Experiments 3 hrs
- MATH 474W - Applied Statistics (Gen Ed Area I, W) 3 hrs

Restricted Elective Courses: 9 hours

At least nine hours from the following electives, with at least six hours from the statistics electives:

Statistics Elective Courses

- MATH 370 - Probability and Statistics I 3 hrs
- MATH 468 - Introduction to Biostatistics 3 hrs
- MATH 469 - Introduction to Categorical Data Analysis 3 hrs
- MATH 471 - Probability and Statistics II 3 hrs

Mathematics Elective Courses

- MATH 211 - Introduction to Mathematical Proof 3 hrs
- MATH 319 - Mathematical Modeling 3 hrs
- MATH 372 - Problems in Actuarial Studies I 2 hrs
• MATH 416 - Linear Algebra 3 hrs
• MATH 419W - Introduction to Stochastic Mathematical Modeling (Gen Ed Area I, W) 3 hrs
• MATH 420 - Introduction to Real Analysis 3 hrs
• MATH 436 - Introduction to Numerical Analysis 3 hrs
• MATH 472 - Problems in Actuarial Studies II 2 hrs

Course Rotation Schedule

Click here to access the Course Rotation Schedules page for the courses required for this program.

Minor Requirements: 20 hours

This program requires a minor. Please contact your program adviser for a list of possible minors.

Program Total:

Students must earn a minimum total of 124 credits at the 100-level or above.

Note:

Each student must choose a writing intensive course as part of major completion requirements. Consult your adviser for course options.

Critical Graduation Information:

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

• Earn a minimum total of 124 credits at the 100-level and above. Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.
• Meet the requirements of the General Education program (see information below).
• Earn a minimum of 60 credits from a four-year college or university; courses taken at community colleges cannot be used to meet this requirement. (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
• Earn a minimum of 30 credits from courses taken at EMU.
• Complete 10 of the last 30 hours for the degree from courses taken at EMU.
• Have a minimum of 30 unique credit hours in their major and 20 unique credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
• Not more than 60 credit hours in one subject area (prefix) may be applied towards the minimum of 124 credit hours required for a bachelor's degree.
• Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more that one major or minor.
- Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor.
- Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
- Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor.

- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is coordinated by the Office of Admissions, and additional documentation may be required.

- Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be earned in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

**General Education Requirements:**

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available on the General Education section of the catalog: General Education

- For Students who began their undergraduate program at EMU in Fall 2007 or later or who have elected to follow the current ("new") General Education Program, follow the "For Students" link under the **Current Program** heading.
- For Students who began their undergraduate program at EMU before Fall 2007 and who have elected to follow the Pre-2007 General Education Requirements, follow the "General Education Program Prior to Fall 2007 (pdf file)" link under the **Program Prior to Fall 2007** heading. **Please note that students who wish to graduate under pre-2007 General Education requirements must graduate by August 2014; those who have not completed all degree requirements by that time will need to satisfy the current (Fall 2007) General Education requirements.**

Students who transferred to EMU may have modified general education requirements based on MACRAO or articulation agreements; consult your academic adviser for additional information.

**University Information:** Consult the online catalog at catalog.emich.edu.

**Secondary Education Mathematics Major**

Successful completion of this course of study, in the context of other program requirements, qualifies the student for recommendation for the Michigan Department of Education Secondary Provisional Certificate endorsed in mathematics, certification code EX, and, depending on the minor selected, an additional endorsement. This program of study meets all requirements of the National Council of Teachers of Mathematics. The Michigan Test for Teacher Certification (MTTC) covering this field is #022, “Mathematics (Secondary).”

All majors must fill in a program sheet before graduation — see the undergraduate advising coordinator. At least nine hours in the major, at 300-level or above, must be taken at Eastern Michigan University.

**Mathematics Department Information:**

Department Head: Christopher Gardiner
Department Contact: cgardiner@emich.edu
Website: www.emich.edu/math/

**Adviser Information:**
Initial Teacher Preparation Program Admission

In order to pursue the sequence of courses necessary to complete eligibility for recommendation for certification, one must apply for and be admitted to the teacher preparation program. Admission requirements are common for all teacher preparation programs, except that certain special education programs have additional requirements.

Each undergraduate student is responsible for applying to the teacher preparation program immediately after the semester in which the student has earned 56 credit hours. Transfer students with more than 56 credit hours should apply immediately after the semester in which they have earned 12 hours at EMU, including at least one course in their major. Students with 56 hours of transfer course work with a decision GPA of 3.0 may apply for admission to the teacher preparation program without 12 earned hours at EMU.

Admission to the teacher preparation program is not automatic. Only those persons who have formally applied are considered for admission. Not all persons who apply become eligible for admission.

Applications for the Initial Teacher Preparation Program at EMU are available within your my.emich account under the "Student" tab. Submit your completed application to the Office of Academic Services once you have earned 56 credit hours.

Teaching majors and minors are unofficial until program admission. Students pursuing teacher certification should follow the catalog that exists at the time of program admission. It is important that students apply to the teacher preparation program as soon as they have earned 56 credit hours.

Criteria

1. Completion of 56 credit hours

2. Appropriate cumulative GPA. One of:

   1. An overall EMU GPA of 2.5 or higher. At least 12 of the 56 credit hours taken at EMU with an EMU GPA of 2.5 or higher in your major (each of your majors if declaring a double major). You must complete at least one course in your major(s) in order to be eligible.

   2. Transferred 56 credits with a cumulative 3.0 GPA from all previous institutions.

3. A grade of “C” or higher (if taken) in the following courses:

   1. Secondary: ENGL 121, CTAC 124, quantitative reasoning, one lab science, all professional education courses, and, if special education, PSY 101.
2. Elementary: ENGL 121, CTAC 124, MATH 108, MATH 110E, PHY 100, CHEM 101, ESSC 202, all of the professional education courses, all courses that state “for elementary teachers,” and, if special education, PSY 101.

4. Passing scores on all three sections of the Michigan Test for Teacher Certification Basic Skills Test (MTTC) (reading, mathematics, and writing). Official score report must be on file at Eastern Michigan University.

5. Personal statement about your experiences with youth/children and why you are going into teaching. This statement will be read for content, grammar, and punctuation.

6. Completion of a Disposition Self Evaluation Form.

7. ICHAT criminal background check and Statement of Civil/Criminal Convictions. If you answered yes to any of the civil/criminal conviction questions on the application, you will need to provide:
   1. A copy of the Judgment of Sentence, or Registrar of Actions, or Certification of Conviction.
   2. A written explanation of the offense(s). Application of students with civil/criminal convictions will be carefully reviewed and may take longer to process.

8. Meet academic, social, moral, and financial obligations as a member of the EMU community.

**General Education Requirements:**

For specific requirements refer to the General Education Program. Download the Gen Ed Checklist here.

**Major Requirements: 36 hours**

**Required Area Courses: 30 hours**

- MATH 120 - Calculus I (Gen Ed Area II) 4 hrs
- MATH 121 - Calculus II 4 hrs
- MATH 122 - Elementary Linear Algebra 3 hrs
- MATH 211 - Introduction to Mathematical Proof 3 hrs
- MATH 223 - Multivariable Calculus 4 hrs
- MATH 305 - Technology as a Problem Solving Tool for Secondary Teachers 3 hrs
- MATH 341 - College Geometry 3 hrs
- MATH 360 - Statistical Methods 3 hrs
- MATH 411 - Abstract Algebra 3 hrs

**Restricted Elective Courses: 6 hours**

*Six hours from the following:*

- MATH 319 - Mathematical Modeling 3 hrs
- MATH 325 - Differential Equations 3 hrs
- MATH 372 - Problems in Actuarial Studies I 2 hrs
- MATH 400 - History and Development of Mathematics 3 hrs
Professional Secondary Education Sequence

Secondary Education Pre-Admission Phase: The Learner and the Community: 7 hours

*Prerequisite: Sophomore standing or higher.*

- EDPS 322 - Human Development and Learning 4 hrs
- SPGN 251 - Education of Students with Exceptionalities 3 hrs

The following phases require formal admission to the Initial Teacher Preparation Program:

Secondary Education Phase I: Curriculum, Assessment and the Social Context: 15 hours

*Prerequisite: Completion of Pre-Admission Phase is required.*

* These two courses must be taken together.
** These courses must be taken with or after CURR 305.

- * CURR 305 - Curriculum and Methods: Secondary 3 hrs
- ** EDMT 330 - Instructional Applications of Media and Technology 3 hrs
- ** EDPS 340 - Introduction to Assessment and Evaluation 3 hrs
- * PRCT 305 - Practicum I: Secondary 3 hrs
- SOFD 328W - Schools for a Diverse and Democratic Society (Gen Ed Area I, W) 3 hrs

Secondary Education Phase II: Content and Methods and Teaching: 9 hours

*Prerequisite: Completion of Phase I is required.*

* These two courses must be taken together.

- * PRCT 311 - Practicum II: Secondary 3 hrs
- * RDNG 311 - Teaching Reading in the Secondary School 3 hrs

Methods Course by Major:
Mathematics Majors take:

- MATH 306W - Teaching Mathematics in Secondary School (Gen Ed Area I, W) 3 hrs

Secondary Education Phase III: Capstone Experience: 9 hours

Prerequisite: Completion of Phase II and 100 pre-student teaching hours is required.

- EDUC 492 - Student Teaching 9 hrs
  This course requires a formal application to be submitted 7-8 months prior to the Student Teaching semester.

Minor Requirements: 20-24 hours

This program requires a minor. Please contact your program adviser for a list of possible minors.

Program Total:

Students must earn a minimum total of 124 credits at the 100-level or above.

MTTC Subject Area Test

Starting January 1, 2013, Students seeking licensure in a secondary or K-12 area are not required to take the MTTC subject area test in their minor area. Students who elect not to take the test in their minor will be required to sign a statement indicating that they understand that they will not be endorsed in their minor area and will not be eligible for teaching positions in their minor unless they pass the minor subject area test within five years of completing field experience and course requirements.

Course Rotation Schedule

Click here to access the Course Rotation Schedules page for the courses required for this program.

Note:

Each student must choose a writing intensive course as part of major completion requirements. Consult your adviser for course options.

Critical Graduation Information:

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the 100-level and above. Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
• Earn a minimum of 60 credits from a four-year college or university; courses taken at community colleges cannot be used to meet this requirement. (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)

• Earn a minimum of 30 credits from courses taken at EMU.

• Complete 10 of the last 30 hours for the degree from courses taken at EMU.

• Have a minimum of 30 unique credit hours in their major and 20 unique credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.

• Not more than 60 credit hours in one subject area (prefix) may be applied towards the minimum of 124 credit hours required for a bachelor's degree.

• Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more that one major or minor.
  o Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
  o Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
  o Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor

• Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is coordinated by the Office of Admissions, and additional documentation may be required.

• Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be earned in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

**General Education Requirements:**

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available on the General Education section of the catalog: General Education

• For Students who began their undergraduate program at EMU in Fall 2007 or later or who have elected to follow the current ("new") General Education Program, follow the "For Students" link under the Current Program heading.

• For Students who began their undergraduate program at EMU before Fall 2007 and who have elected to follow the Pre-2007 General Education Requirements, follow the "General Education Program Prior to Fall 2007 (pdf file)" link under the Program Prior to Fall 2007 heading. Please note that students who wish to graduate under pre-2007 General Education requirements must graduate by August 2014; those who have not completed all degree requirements by that time will need to satisfy the current (Fall 2007) General Education requirements.

Students who transferred to EMU may have modified general education requirements based on MACRAO or articulation agreements; consult your academic adviser for additional information.

**University Information:** Consult the online catalog at catalog.emich.edu.

**Minor**

**Elementary Education Mathematics Minor**

Successful completion of this course of study, in the context of other program requirements, qualifies the student for recommendation for the Michigan Elementary Provisional Certificate. This program of study meets all requirements of the
National Council of Teachers of Mathematics. At least nine hours of the major must be completed at Eastern Michigan University. The Michigan Test for Teacher Certification (MTTC) covering this certification are Elementary Certification tests #103 and # 104. The endorsement test for Mathematics Elementary is MTTC #089.

Email: ctayeh@emich.edu

Phone Number for Advisers: 734.487.1444

Required Courses: 15 hours

- MATH 108 - Problem Solving and Number Concepts for Elementary School Teachers 3 hrs  
- MATH 110E - Mathematical Reasoning: Applications for Elementary School Teachers (Gen Ed Area II) 3 hrs  
- MATH 210 - Algebra for Elementary/Middle School Teachers 3 hrs  
- MATH 240 - Geometry for Elementary/Middle School Teachers 3 hrs  
- MATH 301 - Advanced Topics in Elementary Mathematics 3 hrs

Restricted Elective Courses: 5 hours

Five hours from the following, with at least three hours at the 300-or 400-level:

- MATH 118 - Linear Models and Probability (Gen Ed Area II) 3 hrs  
- MATH 120 - Calculus I (Gen Ed Area II) 4 hrs  
- MATH 122 - Elementary Linear Algebra 3 hrs  
- MATH 170 - Elementary Statistics (Gen Ed Area II) 3 hrs  
- MATH 382 - Technology in the Mathematics Classroom 3 hrs  
- MATH 401 - Mathematics and Its History for Elementary/Middle School Teachers 3 hrs  
- MATH 403 - Current Research in Elementary School Mathematics 3 hrs  
- MATH 107 - Plane Trigonometry 2 hrs

Minor Total: 20 hours

Course Rotation Schedule

Additional Requirements: 3 hours

One course from the following:

- COSC 111 - Introduction to Programming 3 hrs
- COSC 120 - Computational Principles for Mathematics and the Sciences 3 hrs

Required Courses: 14 hours

- MATH 120 - Calculus I (Gen Ed Area II) 4 hrs
- MATH 121 - Calculus II 4 hrs
- MATH 122 - Elementary Linear Algebra 3 hrs

One course from the following:

- MATH 211 - Introduction to Mathematical Proof 3 hrs
- MATH 360 - Statistical Methods 3 hrs
• MATH 370 - Probability and Statistics I 3 hrs

Restricted Elective Courses: 6 hours

*Six credit hours from the following:

• * MATH 205 - Mathematical Structures for Computer Science 4 hrs
• MATH 223 - Multivariable Calculus 4 hrs
• MATH 311W - Mathematical Problem Solving (Gen Ed Area I, W) 3 hrs
• MATH 319 - Mathematical Modeling 3 hrs
• MATH 325 - Differential Equations 3 hrs
• MATH 341 - College Geometry 3 hrs
• ** MATH 360 - Statistical Methods 3 hrs
• ** MATH 370 - Probability and Statistics I 3 hrs
• MATH 372 - Problems in Actuarial Studies I 2 hrs
• MATH 407 - Elementary Number Theory 3 hrs
• MATH 409 - Cryptology 3 hrs
• MATH 411 - Abstract Algebra 3 hrs
• MATH 416 - Linear Algebra 3 hrs
• MATH 419W - Introduction to Stochastic Mathematical Modeling (Gen Ed Area I, W) 3 hrs
• MATH 418 - Modeling with Linear Algebra 3 hrs
• MATH 420 - Introduction to Real Analysis 3 hrs
• MATH 424 - Introduction to Complex Variables 3 hrs
• MATH 425 - Mathematics for Scientists 3 hrs
• MATH 430 - Introduction to Stochastic Calculus 3 hrs
• MATH 436 - Introduction to Numerical Analysis 3 hrs
• MATH 460 - Applied Survey Sampling 3 hrs
• MATH 461 - Linear Regression Analysis 3 hrs
• MATH 462 - Design and Analysis of Experiments 3 hrs
• MATH 468 - Introduction to Biostatistics 3 hrs
• MATH 471 - Probability and Statistics II 3 hrs

Minor Total: 23 hours

Course Rotation Schedule

Click here to access the Course Rotation Schedules page for the courses required for this program.

Note:

* Students can not count both MATH 205 and MATH 211 toward the minor.

** It is not permitted to count both MATH 360 and MATH 370 on the minor.

Critical Graduation Information:
The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the 100-level and above. Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Earn a minimum of 60 credits from a four-year college or university; courses taken at community colleges cannot be used to meet this requirement. (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 unique credit hours in their major and 20 unique credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
- Not more than 60 credit hours in one subject area (prefix) may be applied towards the minimum of 124 credit hours required for a bachelor's degree.
- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more than one major or minor.
  - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor.
  - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
  - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor.
- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is coordinated by the Office of Admissions, and additional documentation may be required.
- Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be earned in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

**General Education Requirements:**

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available on the General Education section of the catalog: General Education

- For Students who began their undergraduate program at EMU in Fall 2007 or later or who have elected to follow the current ("new") General Education Program, follow the "For Students" link under the Current Program heading.
- For Students who began their undergraduate program at EMU before Fall 2007 and who have elected to follow the Pre-2007 General Education Requirements, follow the "General Education Program Prior to Fall 2007 (pdf file)" link under the Program Prior to Fall 2007 heading. Please note that students who wish to graduate under pre-2007 General Education requirements must graduate by August 2014; those who have not completed all degree requirements by that time will need to satisfy the current (Fall 2007) General Education requirements.

Students who transferred to EMU may have modified general education requirements based on MACRAO or articulation agreements; consult your academic adviser for additional information.

**University Information:** Consult the online catalog at catalog.emich.edu.
Mathematics Minor with Concentration in Statistics

All minors must fill in a program sheet before graduation — see the undergraduate advising coordinator. At least six hours in the minor, at 300-level or above, must be taken at Eastern Michigan University.

Mathematics Department Information:

Department Head: Christopher Gardiner  
Department Contact: cgardiner@emich.edu  
Website: www.emich.edu/math/

Adviser Information:

Program Adviser: Tanweer Shapla  
Email: tshapla@emich.edu  
Phone: 734.487.1444

Additional Requirements: 3 hours

One course from the following:

- COSC 111 - Introduction to Programming 3 hrs
- COSC 120 - Computational Principles for Mathematics and the Sciences 3 hrs

Required Courses: 14 hours

- MATH 120 - Calculus I (Gen Ed Area II) 4 hrs
- MATH 121 - Calculus II 4 hrs
- MATH 122 - Elementary Linear Algebra 3 hrs

One course from the following:

- MATH 360 - Statistical Methods 3 hrs
- MATH 370 - Probability and Statistics I 3 hrs

Restricted Elective Courses: 9-10 hours

Nine hours from among the following, at least six of which must be taken from the statistics elective courses:

Statistics Elective Courses

- MATH 460 - Applied Survey Sampling 3 hrs
- MATH 461 - Linear Regression Analysis 3 hrs
- MATH 462 - Design and Analysis of Experiments 3 hrs
- MATH 468 - Introduction to Biostatistics 3 hrs
• MATH 469 - Introduction to Categorical Data Analysis 3 hrs
• MATH 471 - Probability and Statistics II 3 hrs
• MATH 474W - Applied Statistics (Gen Ed Area I, W) 3 hrs

Mathematics Elective Courses

• * MATH 205 - Mathematical Structures for Computer Science 4 hrs
• * MATH 211 - Introduction to Mathematical Proof 3 hrs
• MATH 223 - Multivariable Calculus 4 hrs

Minor Total: 26-27 hours

Course Rotation Schedule

Click here to access the Course Rotation Schedules page for the courses required for this program.

Note:

* Students can not count both MATH 205 and MATH 211 toward the minor.

Critical Graduation Information:

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

• Earn a minimum total of 124 credits at the 100-level and above. Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.
• Meet the requirements of the General Education program (see information below).
• Earn a minimum of 60 credits from a four-year college or university; courses taken at community colleges cannot be used to meet this requirement. (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
• Earn a minimum of 30 credits from courses taken at EMU.
• Complete 10 of the last 30 hours for the degree from courses taken at EMU.
• Have a minimum of 30 unique credit hours in their major and 20 unique credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
• Not more than 60 credit hours in one subject area (prefix) may be applied towards the minimum of 124 credit hours required for a bachelor's degree.
• Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more than one major or minor.
  • Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
  • Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
- Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor.

- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is coordinated by the Office of Admissions, and additional documentation may be required.

- Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be earned in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

**General Education Requirements:**

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available on the General Education section of the catalog: General Education

- For Students who began their undergraduate program at EMU in Fall 2007 or later or who have elected to follow the current ("new") General Education Program, follow the "For Students" link under the Current Program heading.

- For Students who began their undergraduate program at EMU before Fall 2007 and who have elected to follow the Pre-2007 General Education Requirements, follow the "General Education Program Prior to Fall 2007 (pdf file)" link under the Program Prior to Fall 2007 heading. Please note that students who wish to graduate under pre-2007 General Education requirements must graduate by August 2014; those who have not completed all degree requirements by that time will need to satisfy the current (Fall 2007) General Education requirements.

Students who transferred to EMU may have modified general education requirements based on MACRAO or articulation agreements; consult your academic adviser for additional information.

**University Information:** Consult the online catalog at catalog.emich.edu.

**Secondary Education Mathematics Minor**

Successful completion of this course of study, in the context of other program requirements, qualifies the student for recommendation for the Michigan Department of Education Secondary Provisional Certificate endorsed in mathematics, certification code EX, and, depending on the major selected, an additional endorsement. This program of study meets all requirements of the National Council of Teachers of Mathematics. The Michigan Test for Teacher Certification (MTTC) covering this field is #022, "Mathematics (Secondary)."

All minors must fill in a program sheet before graduation - see the undergraduate advising coordinator. At least six hours in the major at 300-level or above, not including MATH 306W, must be taken at Eastern Michigan University.

**Mathematics Department Information:**

Department Head: Christopher Gardiner
Department Contact: cgardiner@emich.edu
Website: www.emich.edu/math/

**Adviser Information:**

Program Adviser: Barbara Leapard
Email: bleapard@emich.edu
Required Courses: 26 hours

- MATH 120 - Calculus I (Gen Ed Area II) 4 hrs
- MATH 121 - Calculus II 4 hrs
- MATH 122 - Elementary Linear Algebra 3 hrs
- MATH 211 - Introduction to Mathematical Proof 3 hrs
- MATH 305 - Technology as a Problem Solving Tool for Secondary Teachers 3 hrs
- MATH 341 - College Geometry 3 hrs
- MATH 360 - Statistical Methods 3 hrs

One course from the following:

- MATH 304 - Middle School Mathematics Methods and Content 3 hrs
- MATH 306W - Teaching Mathematics in Secondary School (Gen Ed Area I, W) 3 hrs

Restricted Elective Courses: 3 hours

Three credit hours from the following:

- MATH 223 - Multivariable Calculus 4 hrs
- MATH 319 - Mathematical Modeling 3 hrs
- MATH 325 - Differential Equations 3 hrs
- MATH 400 - History and Development of Mathematics 3 hrs
- MATH 407 - Elementary Number Theory 3 hrs
- MATH 411 - Abstract Algebra 3 hrs
- MATH 416 - Linear Algebra 3 hrs
- MATH 420 - Introduction to Real Analysis 3 hrs
- MATH 424 - Introduction to Complex Variables 3 hrs

Minor Total: 29 hours

MTTC Subject Area Test
Starting January 1, 2013, Students seeking licensure in a secondary or K-12 area are not required to take the MTTC subject area test in their minor area. Students who elect not to take the test in their minor will be required to sign a statement indicating that they understand that they will not be endorsed in their minor area and will not be eligible for teaching positions in their minor unless they pass the minor subject area test within five years of completing field experience and course requirements.

Course Rotation Schedule

Click here to access the Course Rotation Schedules page for the courses required for this program.

Critical Graduation Information:

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

University Information: Consult the online catalog at catalog.emich.edu.

Mathematics

MATH 097 - Pre-College Mathematical Concepts

A mastery-based developmental mathematics course designed to prepare students for a developmental algebra course; covers beginning mathematical concepts and skill development in a supportive but structured setting; includes help with math study skills and reducing math anxiety.

For more information about this course, review the MATH 097 Outline

Credit Hours: 5 hrs
Prerequisite: program placement
Notes: Credit for this course will not count toward graduation
Last Updated: added course outline 10/2012

MATH 097A - Pre-College Mathematical Concepts — Part I

The first part of a mastery-based developmental mathematics course designed to prepare students for a developmental algebra course; covers beginning mathematical concepts and skill development in a supportive but structured setting; includes help with math study skills and reducing math anxiety.

Credit Hours: 3 hrs
Prerequisite: program placement
Notes: Credit for this course will not count toward graduation

MATH 097B - Pre-College Mathematical Concepts — Part II

The second part of a mastery-based developmental mathematics course designed to prepare students for a developmental algebra course; covers beginning mathematical concepts and skill development in a supportive but structured setting; includes help with math study skills and reducing math anxiety.

Credit Hours: 3 hrs
Prerequisite: grade of ‘C’ or better in MATH 097A or program placement
Notes: Credit for this course will not count toward graduation.
Last Updated: Links 04/2011
MATH 098 - Pre-College Introductory Algebra Concepts

A mastery-based developmental mathematics course designed to prepare students to succeed in a college-level mathematics course; covers beginning algebra concepts and skill development in a supportive but structured setting; includes help with math study skills and reducing math anxiety.

For more information about this course, review the MATH 098 Course Outline

Credit Hours: 4 hrs
Prerequisite: (at least C in either of the following courses: MATH 097 or MATH 097B) and placement score
Notes: Credit for this course will not count toward graduation.
Last Updated: added Course Outline 10/2012; Links 04/2011

MATH 098B - Pre-College Introductory Algebra Concepts — Part II

The second part of a mastery-based developmental mathematics course designed to prepare students to succeed in a college-level mathematics course; covers beginning algebra concepts and skill development in a supportive but structured setting; includes help with math study skills and reducing math anxiety.

Credit Hours: 3 hrs
Prerequisite: (at least C in MATH098A) or placement
Notes: Credit for this course will not count toward graduation
Last Updated: 2/23/11

MATH 104 - Intermediate Algebra

A review of elementary algebra and a continuation into the study of functions, graphs and quadratic equations.

For more information about this course, review the MATH 104 Course Outline.

Credit Hours: 3 hrs
Prerequisite: placement or (at least C in either of the following courses: MATH 098 or MATH 098B)
Last Updated: added Course Outline 10/2012; Links 04/2011

MATH 105 - College Algebra (Gen Ed Area II)

A study of functions and their graphs, including polynomial, rational, exponential and logarithmic functions; inverse functions; equations and inequalities; and applications.

Credit Hours: 3 hrs
Prerequisite: placement or (at least a C in MATH 104)

Area II: Quantitative Reasoning

MATH 105 College Algebra

This course will help students refine and extend fluency with algebraic skills. Additionally, the focus of this course is on the conceptual understanding of functions. The course makes the case for using functions to model physical phenomena and simultaneously teaches methods to analyze these functions in a meaningful way. The course presents a catalog of functions - linear, power, quadratic, polynomial, rational, absolute value, exponential and logarithmic functions. By the end of the course students should know the basic properties and graphs of these functions along with using them as models for real world applications. For these reasons, MATH 105 will count for the Quantitative Reasoning requirement in the General Education program Education for Participation in the Global Community.

Last Updated: Gen Ed approval 06/2011, effective Fall 2011
MATH 107 - Plane Trigonometry

An elementary course in plane trigonometry. Students who have good records in high school courses including trigonometric identities, trigonometric equations, and oblique triangles should not take the course.

Credit Hours: 2 hrs
Prerequisite: placement or (at least a C in MATH 104 (B or better strongly recommended)) or (passing grade in any of the following courses: MATH 105, MATH 119 or MATH 210)
Last Updated: Links 04/2011

MATH 108 - Problem Solving and Number Concepts for Elementary School Teachers

The course examines topics in the elementary school mathematics curriculum from an advanced standpoint, with an emphasis on conceptual understanding and problem solving. Topics include number theory, real number systems and their properties, algebra concepts and functions. Required of all students in the elementary education program. Open only to prospective elementary teachers.

Credit Hours: 3 hrs
Prerequisite: placement or (at least a C in any of the following courses: MATH 098, MATH 098B, MATH 104, MATH 105, MATH 107, MATH 110E or MATH 118)
Last Updated: Links 04/2011

MATH 110 - Mathematical Reasoning (Gen Ed Area II)

An introduction to quantitative reasoning, with the aim of developing the capacity to comprehend and analyze the quantitative information that is prevalent in modern society. Topics include mathematical modeling, basic probability and statistics and practical applications.

Credit Hours: 3 hrs
Prerequisite: placement or (at least C in either of the following courses: MATH 098 or MATH 098B) or (passing grade in any of the following courses: MATH 104, MATH 105, MATH 107 or MATH 112)
Major Restrictions: Restricted to students who have not declared Elementary Education intent; who are not in any Elementary Education program; and who are not in the Special Education Elementary program

Area II: Quantitative Reasoning

MATH 110 Mathematical Reasoning [was MATH150]
This course will provide students with ways to approach the quantitative information that they are certain to encounter in later coursework at Eastern Michigan University, throughout their careers, and in daily life. The emphasis is on learning methods for comprehending, analyzing and using quantitative information and on techniques for using data to inform decisions about real world events and problems. For these reasons, MATH110 will count for the Quantitative Reasoning requirement in the General Education Program for Participation in the Global Community.
Last Updated: Links 04/2011

MATH 110E - Mathematical Reasoning: Applications for Elementary School Teachers (Gen Ed Area II)

An introduction to quantitative reasoning, with the aim of developing the capacity to comprehend and analyze the quantitative information that is prevalent in modern society. Topics include mathematical modeling, basic probability and statistics, geometry and practical applications for elementary education majors.
Area II: Quantitative Reasoning

MATH 110E Mathematical Reasoning: Applications for Elementary School Teachers (Elementary Education majors only) [was MATH 109]
This course will provide students with ways to approach the quantitative information that they are certain to encounter in later coursework at Eastern Michigan University throughout their careers, and in daily life. The emphasis is on learning methods for comprehending, analyzing and using quantitative information and on techniques for using data to inform decisions about real world events and problems.

In addition, MATH110E is specifically designed to meet the needs of students that are looking toward becoming elementary school teachers. While the content of this class mirrors that of MATH 110, the examples, applications and projects are designed to help you make connections to the K-5 classroom and help you to begin to think about how you will teach young children to make sense of some beginning mathematical concepts.

Last Updated: Links 04/2011

MATH 112 - Topics in Precalculus Mathematics

Provides a thorough preparation for calculus for students who are insufficiently prepared in college algebra and trigonometry or who need to review these subjects. Emphasis will be on topics from college algebra and trigonometry that are used in calculus.

Credit Hours: 4 hrs
Prerequisite: placement or MATH 105
Notes: Some knowledge of trigonometry is assumed.
Last Updated: Links 04/2011

MATH 118 - Linear Models and Probability (Gen Ed Area II)

Linear models, systems of linear equations, linear regression, probability theory, probabilistic simulations, decision theory, descriptive statistics; combinatorics and/or financial models as time permits.

Credit Hours: 3 hrs
Prerequisite: placement or (at least C in either of the following courses: MATH 098 or MATH 098B) or (passing grade in any of the following courses: MATH 104, MATH 105, MATH 107, MATH 110, MATH 110E or MATH 120)

Last Updated: Links 04/2011; Gen Ed Approval 12/2006, effective Winter 2007

MATH 119 - Applied Calculus (Gen Ed Area II)

Introduction to the concepts and applications of differential and integral calculus: behavior and properties of algebraic, logarithmic and exponential functions, derivatives and rates of change, optimization and definite integral as accumulation. Emphasis on problem setup, interpretation and applications.

Credit Hours: 3 hrs
Prerequisite: placement or (at least a C in MATH 104 (B or better strongly recommended)) or (passing grade in either of the following courses: MATH 105 or MATH 210)

Last Updated: Links 04/2011; Gen Ed Approval 04/2008, effective Spring 2008
MATH 120 - Calculus I (Gen Ed Area II)

Calculus of functions of a single variable; differential calculus, including limits, derivatives, techniques of differentiation, the mean value theorem and applications of differentiation to graphing, optimization and rates. Integral calculus, including indefinite integrals, the definite integral, the fundamental theorem of integral calculus, and applications of integration to area and volume.

Credit Hours: 4 hrs
Prerequisite: placement or (at least a C in any of the following group of courses: (MATH 105 and MATH 107) or in (MATH 112) or in (MATH 210 and MATH 107))

Last Updated: Links 04/2011; Gen Ed Approval 03/2007, effective Spring 2007

MATH 121 - Calculus II

Calculus of functions of a single variable continued; additional applications of definite integration to moments, centroids, arc length, surface area and work. Transcendental functions, infinite series, methods of integration, review of conic sections.

Credit Hours: 4 hrs
Prerequisite: at least a C in MATH 120

Last Updated: Links 04/2011

MATH 122 - Elementary Linear Algebra

Vectors and matrices, operations on matrices, determinants, systems of linear equations, linear independence, linear transformations, applications.

Credit Hours: 3 hrs
Prerequisite: (at least a C in MATH 105) or (passing grade in either of the following courses: MATH 120 or MATH 112) or placement

Last Updated: Links 04/2011

MATH 140 - Applied Trigonometry and Calculus I for Technology (Gen Ed Area II)

Plane trigonometry and trigonometric functions; complex numbers; basic identities. Single-variable calculus: limits, derivatives, rate of change, applications of differentiation to optimization. Integral calculus, including indefinite and definite integrals; integrals as accumulation. Applications will focus on electronics and other engineering fields.

Credit Hours: 4 hrs
Prerequisite: MATH 105 with a C or better or math placement level 5
Equivalent Courses: MATH 119

Last Updated: Links 03/2011

MATH 141 - Applied Calculus II for Technology

Single-variable calculus continued; Transcendental functions, applications of integrals to moments and work. Methods of integration. Applications will focus on electronics and other engineering fields.

Credit Hours: 3 hrs
Prerequisite: MATH 140

Last Updated: Links 04/2011
MATH 170 - Elementary Statistics (Gen Ed Area II)

An introduction to standard methods in statistics, emphasizing the rationale behind them and their application to problems in a variety of fields. Data summary and representation, measures of center and dispersion, correlation and regression, basic probability, point and interval estimation, and hypothesis testing.

Credit Hours: 3 hrs
Prerequisite: placement or (at least a C in either of the following courses: MATH 098 or MATH 098B) or (passing grade in any of the following courses: MATH 104, MATH 105, MATH 107, MATH 110E, MATH 118, MATH 119 or MATH 120)

Last Updated: Links 04/2011; Gen Ed Approval 12/2006, effective Winter 2007

MATH 177 - Special Topics

These special topics courses will be used to teach some aspects of mathematics at an elementary level that would not be regularly offered. This course does not count on a regular major or minor in mathematics.

Credit Hours: 1 hr
Prerequisite: department permission

MATH 178 - Special Topics

These special topics courses will be used to teach some aspects of mathematics at an elementary level that would not be regularly offered. This course does not count on a regular major or minor in mathematics.

Credit Hours: 2 hrs
Prerequisite: department permission

MATH 179 - Special Topics

These special topics courses will be used to teach some aspects of mathematics at an elementary level that would not be regularly offered. This course does not count on a regular major or minor in mathematics.

Credit Hours: 3 hrs
Prerequisite: department permission

MATH 205 - Mathematical Structures for Computer Science

Propositional and predicate logic, sets and operations, discrete functions, sequences, finite summations, function growth, elementary number theory, matrices and applications, proof techniques, elementary combinatorics, discrete probability, relations.

Credit Hours: 4 hrs
Prerequisite: MATH 120
Terms Offered: Course Rotation Schedules
Last Updated: Link 5/2012; Links 04/2011

MATH 210 - Algebra for Elementary/Middle School Teachers

Interpreting and applying graphical and algebraic representations of functions, including linear, polynomial, rational, exponential, and logarithmic functions. Connections to teaching algebra in grades K-8 will also be examined.
MATH 211 - Introduction to Mathematical Proof

A transition to upper-level mathematics courses. This course highlights various types of mathematical thinking including direct, indirect and inductive proofs with careful treatment of quantified statements. Topics include sets, number theory and relations. Development of ability to write a precise mathematical proof is the primary goal.

MATH 223 - Multivariable Calculus

Vector products, lines and planes in three-dimensional space, quadric surfaces, cylindrical and spherical coordinates. Differential calculus of vector functions of a single variable: velocity and acceleration vectors, curvature. Partial differentiation, gradient, chain rule, directional derivatives, tangent planes, application to optimization. Multiple integration, change of coordinates, applications. Taylor’s Theorem for Functions of Several Variables, line and surface integrals, Stokes’ Theorem, Gauss’ Theorem.

MATH 240 - Geometry for Elementary/Middle School Teachers

Informal geometry of the plane and space, congruence and measurement, elementary theorems and proof, and plane coordinate geometry.

MATH 277 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 2 hrs  
**Prerequisite:** department permission

**MATH 279 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 3 hrs  
**Prerequisite:** department permission

**MATH 301 - Advanced Topics in Elementary Mathematics**

Acquaints prospective elementary teachers with new topics in the elementary mathematics curriculum such as algebraic systems, conic sections, trigonometry, statistical procedures and topics in number theory.

**Credit Hours:** 3 hrs  
**Prerequisite:** MATH 108 and MATH 110E; or MATH 210; or MATH 240  
**Terms Offered:** Course Rotation Schedules  
**Last Updated:** Link 5/2012; Links 04/2011

**MATH 304 - Middle School Mathematics Methods and Content**

Consideration of the mathematics program in middle school and junior high school, its organization and content, methods of teaching and learning.

**Credit Hours:** 3 hrs  
**Prerequisite:** MATH 240 or MATH 120  
**Notes:** Not open to freshmen, sophomores or students on academic probation  
**Terms Offered:** Course Rotation Schedules  
**Last Updated:** Link 5/2012; Links 04/2011

**MATH 305 - Technology as a Problem Solving Tool for Secondary Teachers**

Focus on how using technology can lead to new and deeper insights into mathematical concepts and problems in the high school mathematics curriculum.

**Credit Hours:** 3 hrs  
**Prerequisite:** MATH 120 and MATH 122  
**Terms Offered:** Course Rotation Schedules  
**Last Updated:** Link 5/2012; Links 04/2011

**MATH 306W - Teaching Mathematics in Secondary School (Gen Ed Area I, W)**

Consideration of the mathematics program in the high school, its organization and content, methods of teaching and learning.

**Credit Hours:** 3 hrs  
**Prerequisite:** MATH 120 and CURR 305; admission to the Initial Teacher Preparation Program
Class Restrictions: Junior standing or above
Notes: Not open to students on academic probation.
Terms Offered: Course Rotation Schedules

Last Updated: Link 5/2012; Links 03/2011

MATH 311W - Mathematical Problem Solving (Gen Ed Area I, W)

Problem solving strategies including deduction, argument by contradiction, induction, symmetry, the extreme principle, the pigeonhole principle and invariants. These strategies are exemplified by tackling open-ended problems in the areas of algebra, combinatorics, number theory and calculus.

Credit Hours: 3 hrs
Prerequisite: MATH 211
Terms Offered: Course Rotation Schedules

Last Updated: Link 5/2012; Links 04/2011

MATH 319 - Mathematical Modeling

The modeling process; model building and evaluation, techniques of modeling; model fitting and models requiring optimization; empirical model construction — experimental models, dimensional analysis, simulation models, dynamic models; use of derivatives in the modeling process, single and multivariable dynamic models.

Credit Hours: 3 hrs
Prerequisite: MATH 120 and MATH 122
Terms Offered: Course Rotation Schedules
Last Updated: Link 5/2012; Links 04/2011

MATH 325 - Differential Equations

First and second order differential equations with applications, linear differential equations, power series solutions, Laplace transforms.

Credit Hours: 3 hrs
Prerequisite: MATH 121 and MATH 122
Terms Offered: Course Rotation Schedules
Last Updated: Link 5/2012; Links 04/2011

MATH 341 - College Geometry

An introduction to several geometries such as affine, projective, space-time and non-Euclidean.

Credit Hours: 3 hrs
Prerequisite: MATH 211
Terms Offered: Course Rotation Schedules
Last Updated: link 5/2005; Links 04/2011

MATH 360 - Statistical Methods
A comprehensive overview of statistical methods and analysis with applications. Topics include descriptive statistics, probability theory, random variables and probability distributions, sampling distributions, estimation and testing hypotheses, correlation and regression, introduction to computer-assisted statistical analysis.

**Credit Hours:** 3 hrs  
**Prerequisite:** MATH 120  
**Terms Offered:** Course Rotation Schedules  
**Last Updated:** link 5/2012; Links 04/2011

**MATH 370 - Probability and Statistics I**

Basic concepts of probability; expectation, variance, covariance distribution functions; bivariate, marginal and conditional distributions; central limit theorem. Applications to problems in science and/or social science are emphasized.

**Credit Hours:** 3 hrs  
**Prerequisite:** MATH 223  
**Terms Offered:** Course Rotation Schedules  
**Course Revisions:**  
This course decreased in credit hours from 4 hrs to 3 hrs, effective Winter 2012.  
**Last Updated:** Link 5/2012; Links 04/2011; Revision 07/2011

**MATH 372 - Problems in Actuarial Studies I**

Applications of mathematics to actuarial science. Particular attention paid to subject matter not covered in the regular mathematics curriculum and to special techniques of problem solving appropriate to actuarial science. (This course can be useful in preparing for the Society of Actuaries Exam P: Probability.)

**Credit Hours:** 2 hrs  
**Prerequisite:** Department permission only; minimum GPA in mathematics of 3.4 is strongly recommended  
**Terms Offered:** Course Rotation Schedules  
**Last Updated:** Link 5/2012

**MATH 377 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 1 hr  
**Prerequisite:** department permission

**MATH 378 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 2 hrs  
**Prerequisite:** department permission

**MATH 379 - Special Topics**
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 3 hrs  
**Prerequisite:** department permission

**MATH 381 - Teaching Mathematics in Elementary School**

Learning how to teach mathematics to students in the elementary grades, with an emphasis on problem solving and concept development. Attention is focused on learning/teaching situations and effective use of learning aids. Required of all prospective elementary teachers.

**Credit Hours:** 3 hrs  
**Prerequisite:** MATH 108, MATH 110E and CURR 304; admission to the Initial Teacher Preparation Program  
**Notes:** Not open to students on academic probation  
**Terms Offered:** Course Rotation Schedules  
**Last Updated:** Link 5/2012; Links 04/2011

**MATH 382 - Technology in the Mathematics Classroom**

An introduction to way in which calculators and computers can be used effectively to enhance instruction in the elementary and middle school mathematics classroom.

**Credit Hours:** 3 hrs  
**Prerequisite:** MATH 210  
**Terms Offered:** Course Rotation Schedules  
**Last Updated:** Link 5/2012; Links 04/2011

**MATH 387 - Cooperative Education in Mathematics**

Four to six months of full-time employment at an industrial firm specially chosen to provide practical experience in mathematics. The program consists of two work experiences (MATH 387/MATH 487) alternating with full-time attendance at the University.

**Credit Hours:** 3 hrs  
**Prerequisite:** MATH 223  
**Class Restrictions:** Junior or Senior standing  
**Major Restrictions:** Mathematics Majors only  
**Notes:** Admittance to program by application only; department permission; Use on mathematics major subject to department permission. Graded on a credit/no-credit basis.  
**Terms Offered:** Course Rotation Schedules  
**Last Updated:** Link 5/2012; Links 04/2011

**MATH 400 - History and Development of Mathematics**

The course presents topics in the evolution of mathematics — the historical development of algebra, geometry and calculus provides the major focus. Problems will be assigned that reflect the content and methods of this development.

**Credit Hours:** 3 hrs  
**Prerequisite:** MATH 121 and MATH 122  
**Graduate Credit:** This is an undergraduate course available to graduate students for graduate credit.  
**Terms Offered:** Course Rotation Schedules  
**Last Updated:** Link 5/2012; Graduate Credit 07/2011; Links 04/2011
MATH 401 - Mathematics and Its History for Elementary/Middle School Teachers

Topics in the evolution of mathematics from ancient times through the present, with an emphasis on connections with the elementary school curriculum. Development of numeration systems, algebra, different geometries, calculus; including the contributions of different cultures in the development of mathematics.

Credit Hours: 3 hrs
Prerequisite: MATH 240 and MATH 301
Terms Offered: Course Rotation Schedules
Last Updated: Link 5/2012; Links 04/2011

MATH 403 - Current Research in Elementary School Mathematics

A brief history of mathematics education, 1890 to present. Special emphasis on important recent research studies. Consideration of various textbook series, use and evaluation of supplementary materials, the place and value of teaching aids. Professional journals will be utilized throughout the course.

Credit Hours: 3 hrs
Prerequisite: MATH 301 and CURR 304
Terms Offered: Course Rotation Schedules
Last Updated: Link 5/2012; Links 04/2011

MATH 407 - Elementary Number Theory

Primes, Euclidean algorithm and prime factorization, congruences, multiplicative functions, quadratic residues and reciprocity, continued fractions, Diophantine equations, possible applications to cryptology and/or primality testing.

Credit Hours: 3 hrs
Prerequisite: MATH 211
Terms Offered: Course Rotation Schedules
Last Updated: Link 5/2012; Links 04/2011

MATH 409 - Cryptology

An introduction to cryptology, the science of making and breaking codes and ciphers. Primes, modular arithmetic, probability, Euler’s phi-function, factoring algorithms, cryptographic and cryptanalytic techniques for classical and modern cryptographical systems including public key cryptology.

Credit Hours: 3 hrs
Prerequisite: MATH 205 or MATH 211
Terms Offered: Course Rotation Schedules
Last Updated: Link 5/2012; Links 04/2011

MATH 411 - Abstract Algebra

An introduction to the theory and concepts of abstract algebra. Topics from group theory: subgroups, cosets, Lagrange’s Theorem, homomorphisms. Also selected topics from ring theory and field theory.

Credit Hours: 3 hrs
Prerequisite: MATH 211
Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.
MATH 416 - Linear Algebra

Credit Hours: 3 hrs
Prerequisite: MATH 122 and MATH 211
Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.
Terms Offered: Course Rotation Schedules
Last Updated: Link 5/2012; Graduate Credit 07/2011; Links 04/2011

MATH 418 - Modeling with Linear Algebra

Topics in linear algebra such as linear transformations, eigenvalues, eigenvectors and inner products. Applications may include rotations in space and 3-D graphics, stochastic processes, systems of linear ODEs, Fourier series, orthogonal polynomials and projection methods for solving overdetermined systems.

Credit Hours: 3 hrs
Prerequisite: MATH 121 and MATH 122
Terms Offered: Course Rotation Schedules
Last Updated: Link 5/2012; Links 04/2011

MATH 419W - Introduction to Stochastic Mathematical Modeling (Gen Ed Area I, W)

Models of randomness in a variety of fields: actuarial studies, economics, biology, engineering and others as appropriate for student population. Discrete time Markov chains, Poisson processes and generalizations, time series, Brownian motion, and dynamic programming. An important part of the course is an opportunity for a student to become involved in an actual modeling problem.

Credit Hours: 3 hrs
Prerequisite: (MATH 223, MATH 311W, MATH 319, MATH 360 or MATH 370) and MATH 122
Terms Offered: Course Rotation Schedules
Last Updated: Link 5/2012; Links 04/2011

MATH 420 - Introduction to Real Analysis

A rigorous introduction to the foundations of calculus: real numbers, elementary topology of the real line, sequences and series, limits, continuity, uniform continuity, introduction to differentiation.

Credit Hours: 3 hrs
Prerequisite: MATH 211
Terms Offered: Course Rotation Schedules
Last Updated: Link 5/2012; Links 04/2011

MATH 424 - Introduction to Complex Variables
Complex numbers, analytic functions, elementary functions and their mapping properties, conformal mapping and applications; contour integrals, Cauchy-Goursat Theorem and its consequences, Taylor and Laurent series, calculus of residues.

**Credit Hours:** 3 hrs  
**Prerequisite:** MATH 211 and MATH 223  
**Last Updated:** Link 5/2012; Links 04/2011

**MATH 425 - Mathematics for Scientists**

The scientific applications of mathematics. Topics chosen will reflect the interests of the class. Possible areas of study include Fourier series and transforms, complex variables, generalized functions, Laplace transform, Bessel functions, curve fitting, partial differential equations and the calculus of variations. A record of topics studied each semester will be kept in the mathematics files.

**Credit Hours:** 3 hrs  
**Prerequisite:** MATH 223  
**Terms Offered:** Course Rotation Schedules  
**Last Updated:** Link 5/2012; Links 04/2011

**MATH 430 - Introduction to Stochastic Calculus**

An introduction to stochastic processes, stochastic integration and differentiation, solving stochastic differential equations, martingale calculus, and martingale measures.

**Credit Hours:** 3 hrs  
**Prerequisite:** MATH 223, MATH 325, and MATH 370  
**Last Updated:** New Course, 11/2012, effective Winter 2013

**MATH 436 - Introduction to Numerical Analysis**

Introduces the theory and application of numeric methods and error analysis; solution of nonlinear equations, interpolation and approximation, numerical integration, numerical solution of differential equations, numerical methods for solving large linear systems.

**Credit Hours:** 3 hrs  
**Prerequisite:** MATH 121 and MATH 122; and one of the following: COSC 145, COSC 111 or COSC 245  
**Terms Offered:** Course Rotation Schedules  
**Last Updated:** Link 5/2012; Links 04/2011

**MATH 448 - Differential Geometry with an Introduction to General Relativity**

Curve and surface theory in three-dimensional space: introduction to special and general relativity. Not open to students with credit in MATH 548 Introduction to Differential Geometry.

**Credit Hours:** 3 hrs  
**Prerequisite:** MATH 223 and MATH 325  
**Terms Offered:** Course Rotation Schedules  
**Last Updated:** Link 5/2012; Links 04/2011

**MATH 460 - Applied Survey Sampling**
A course in principles of sampling for assessment of data in business, social sciences or natural resource management. Sampling problem, selection of samples, designing questionnaires, estimation of means and variances, ratio, regression and difference methods, simple and stratified random sampling, systematic sampling, cluster sampling, probability proportional to size sampling. A special survey software package is used.

**Credit Hours:** 3 hrs  
**Prerequisite:** MATH 360 or MATH 370  
**Terms Offered:** Course Rotation Schedules  
**Last Updated:** Links 04/2011

**MATH 461 - Linear Regression Analysis**

Topics include modeling a response as a simple or multiple regression model, validity of assumptions, using models for estimation and prediction, multicolinearity, auto-correlation of error terms, residual analysis and stepwise regression. A statistical software package (SAS) is used extensively.

**Credit Hours:** 3 hrs  
**Prerequisite:** MATH 122 and either MATH 360 or MATH 370  
**Terms Offered:** Course Rotation Schedules  
**Last Updated:** Link 5/2012; Links 04/2011

**MATH 462 - Design and Analysis of Experiments**

A basic course in principles of experimental designs and analysis: randomized blocks and Latin squares, nested experiments, experimental and sampling errors, fixed and random effects models, factorial and fractional designs. A statistical software package (SAS) is used extensively.

**Credit Hours:** 3 hrs  
**Prerequisite:** MATH 360 or MATH 370  
**Terms Offered:** Course Rotation Schedules  
**Last Updated:** Link 5/2012; Links 04/2011

**MATH 468 - Introduction to Biostatistics**

This course introduces statistical concepts and analytical methods as applied to data encountered in biomedical sciences. Topics include sensitivity, specificity, ROC curve, nonparametric tests, Chi-square goodness-of-fit test, risk measures and survival analysis.

**Credit Hours:** 3 hrs  
**Prerequisite:** MATH 360  
**Terms Offered:** Course Rotation Schedules  
**Last Updated:** Link 5/2012; New Course 07/2011

**MATH 469 - Introduction to Categorical Data Analysis**

An introduction to hypothesis testing strategies in measuring associations between a categorical response and a set of explanatory variables in a contingency table setting. Nonparametric methods and some regression analysis techniques such as logistic regression, Poisson regression and loglinear models will be considered.

**Credit Hours:** 3 hrs  
**Prerequisite:** MATH 360
MATH 471 - Probability and Statistics II

Nature of statistics; distributions, measure of central value and dispersion; sampling; statistical inference, estimation and tests of hypothesis. Methods of computation, applications and data analysis will be stressed. Nonparametric statistics: sequential tests, analysis of variance.

Credit Hours: 3 hrs
Prerequisite: MATH 370
Terms Offered: Course Rotation Schedules
Last Updated: Link 5/2012; New Course 07/2011

MATH 472 - Problems in Actuarial Studies II

Applications of mathematics to actuarial science. Particular attention paid to subject matter not covered in the regular mathematics curriculum and to special techniques of problem solving appropriate to actuarial science. (This course can be useful in preparing for the Society of Actuaries Exam FM: Financial Mathematics.)

Credit Hours: 2 hrs
Prerequisite: Department permission; a minimum GPA in mathematics of 3.4 is strongly recommended
Terms Offered: Course Rotation Schedules
Last Updated: Link 5/2012

MATH 474W - Applied Statistics (Gen Ed Area I, W)

This course stresses the empirical approach to statistics: Monte Carlo methods to generate samples and to model distributions; tests of fit to assumed distributions; medians vs. means and range vs. standard deviations; demonstrations of basic theorems; randomness and independence.

Credit Hours: 3 hrs
Prerequisite: MATH 360 or MATH 370
Terms Offered: Course Rotation Schedules

Last Updated: Link 5/2012; Links 04/2011

MATH 477 - Special Topics

A senior-level course in a specific area of mathematics. The area to be studied will be determined by the field of specialization of the staff member teaching the course and the interest of the students enrolled.

Credit Hours: 1 hr
Prerequisite: undergraduate grade point average in mathematics 3.0 or above and department permission

MATH 478 - Special Topics

A senior-level course in a specific area of mathematics. The area to be studied will be determined by the field of specialization of the staff member teaching the course and the interest of the students enrolled.
Credit Hours: 2 hrs

Prerequisite: undergraduate grade point average in mathematics 3.0 or above and department permission

**MATH 479 - Special Topics**

A senior-level course in a specific area of mathematics. The area to be studied will be determined by the field of specialization of the staff member teaching the course and the interest of the students enrolled.

Credit Hours: 3 hrs

Prerequisite: undergraduate grade point average in mathematics 3.0 or above and department permission

**MATH 487 - Cooperative Education in Mathematics**

Four to six months of full-time employment at an industrial firm specially chosen to provide practical experience in mathematics. The program consists of two work experiences (MATH 387/MATH 487) alternating with full-time attendance at the University.

Credit Hours: 3 hrs

Prerequisite: Admittance to program by application only; MATH 387; department permission

Class Restrictions: Junior or Senior standing

Major Restrictions: Mathematics Majors only

Notes: Use on mathematics major subject to department permission. Graded on a credit/no-credit basis.

Terms Offered: Course Rotation Schedules

Last Updated: Link 5/2012; Links 04/2011

**MATH 497 - Independent Study**

A report on an approved subject in the field of mathematics under the guidance of the Mathematics Department staff.

Credit Hours: 1 hr

Prerequisite: undergraduate grade point average in mathematics 3.0 or above and department permission

**MATH 498 - Independent Study**

A report on an approved subject in the field of mathematics under the guidance of the Mathematics Department staff.

Credit Hours: 2 hrs

Prerequisite: undergraduate grade point average in mathematics 3.0 or above and department permission

**MATH 499 - Independent Study**

A report on an approved subject in the field of mathematics under the guidance of the Mathematics Department staff.

Credit Hours: 3 hrs

Prerequisite: undergraduate grade point average in mathematics 3.0 or above and department permission

**MATH 571 - Mathematical Statistics I: Probability Theory**

Set theory, Borel sets, Sigma field of events, probability measures on a sigma field, axioms, finite and countable spaces, random variables and distributions, functions of random vectors, derived distributions, generating and characteristic functions, limit theorems, modes of convergence, law of large numbers. Completion of courses in real analysis and calculus-based probability and statistics is assumed.
MATH 574 - Applied Statistics

An empirical approach to statistics: generate samples and model distributions; tests of fit to specified distributions; tests of assumptions of randomness (trend); independence (association); biostatistics; product and system reliability. Not open to students with credit in MATH 474W. Completion of a calculus-based probability and statistics course is assumed.

Credit Hours: 3 hrs
Notes: This is a graduate course in an undergraduate program.
Terms Offered: Course Rotation Schedules
Last Updated: Link 5/2012; Links 04/2011
Music and Dance Programs and Courses

Music and Dance

Major

Dance Major

Dance Curriculum-Bachelor of Arts/Bachelor of Science
This curriculum leads to either a Bachelor of Arts or a Bachelor of Science degree. (Students who complete one year of foreign language will be awarded the Bachelor or Arts degree.) Each degree offers students a choice of three career-track options: (1) pre-dance therapy, (2) studio management and (3) performance and choreography. Students in the studio management track will also complete a minor in the College of Business.

Students planning admission to the dance major must officially enroll in the program at the Academic Advising Center and complete the following:

1. An audition into the program.
2. An application into the dance program is available at N101 Alexander or online at www.emich.edu/dance/html/dance_future.html.
3. A course of study is planned with a dance adviser upon admission into the dance program.

All students must meet the General Education Requirements and the other courses specified in each area below. Suitable adjustments can be made in consultation with a dance faculty adviser. Some of the track required courses can be used to fulfill General Education Requirements.

Dance majors and minors are encouraged to enroll in a technique class every semester while attending Eastern Michigan University. Ballet or modern technique classes may be repeated for no credit.

Music and Dance Department Information:

Department Head: Diane Winder
Department Contact: diane.winder@emich.edu
Website: http://www.emich.edu/musicdance/

All prospective students (including transfers) must apply to the Department of Music and Dance and complete an entrance audition. Admissions information and access to the department's online application are available here. Applications must be submitted at least seven days in advance of the requested audition day.

In addition to the degree requirements stated below, students must learn and abide by these departmental policies.

General Education Requirements:

For specific requirements refer to the General Education Program. Download the Gen Ed Checklist here.

Major Requirements: 63-77 hours
Dance Core: 40 hours

- DANC 107 - Rhythmic Analysis and Dance Accompaniment 3 hrs
- DANC 208 - Classical Ballet Technique III 3 hrs
- DANC 209 - Classical Ballet Technique IV 3 hrs
- DANC 210 - Modern Dance Technique III 3 hrs
- DANC 211 - Modern Dance Technique IV 3 hrs
- DANC 245 - Elements of Dance Composition 3 hrs
- DANC 255 - Dance Production 3 hrs
- DANC 320 - Dance Workshop 1 hr
- DANC 350W - History of Dance: Prehistoric to Renaissance (Gen Ed Area I, W) 3 hrs
- DANC 351W - History of Dance: Romanticism to the Present (Gen Ed Area I, W) 3 hrs
- DANC 354 - Methods and Materials in Teaching of Dance 3 hrs
- DANC 422 - Dance Workshop 2 hr
- DANC 450 - Advanced Dance Composition 4 hrs
- DANC 455 - Seminar in Dance 2 hrs
- DANC 497 - Directed Study 1 hr

Select from one of the following tracks:

Track I: Pre-Dance Therapy (DANC PTHY): 32 hours

- EDPS 325 - Life Span Human Growth and Development 4 hrs
- PHED 200 - Anatomy and Physiology 5 hrs
- PHED 204 - Kinesiology (Biomechanics of Physical Activity) 3 hrs
- PSY 309 - Social Psychology 3 hrs
- PSY 360 - Abnormal Psychology 3 hrs
- THRC 250 - Fieldwork in Recreation Therapeutic Recreation 1 hr

Choose 12 hours from the following courses:

- MUSC 103 - Introduction to Music Therapy 3 hrs
- PHED 330 - Adapted Physical Education 3 hrs
- PSY 321 - Child Psychology 3 hrs
- PSY 322 - Psychology of Adolescence 3 hrs
- PSY 323 - Psychology of Human Aging 3 hrs
- PSY 362 - The Psychology of Stress and Relaxation 3 hrs
- PSY 365 - Behavior Modification 3 hrs
- THRC 200 - Recreation for Persons with Disabilities 3 hrs

One course from the following:

- DANC 331 - Service Teaching–Ballet 1 hr
- DANC 333 - Service Teaching–Modern Dance 1 hr

Track II: Studio Management (DANC STMG): 37 hours
The studio management track must select a minor from the college of business with adviser approval (21 credit hours).

- DANC 103 - Tap I 2 hrs
- DANC 331 - Service Teaching-Ballet 1 hr
- DANC 333 - Service Teaching-Modern Dance 1 hr
- DANC 456 - Creative Dance for Children 2 hrs
- PEGN 102 - Aerobic Dance 1 hr
- PEGN 103 - Ballroom Dance 1 hr
- PHED 200 - Anatomy and Physiology 5 hrs
- PHED 204 - Kinesiology (Biomechanics of Physical Activity) 3 hrs

Track III: Performance (DANC PERF): 23 hours

- CTAR 158 - Fundamentals of Acting (Gen Ed Area IV) 3 hrs
- CTAR 370 - Audition 3 hrs
- CTAR 380 - Musical Theatre Acting 2 hrs
- DANC 103 - Tap I 2 hrs
- DANC 201 - Jazz II 2 hrs
- DANC 320 - Dance Workshop 1 hr
- DANC 422 - Dance Workshop 2 hr
- PHED 200 - Anatomy and Physiology 5 hrs
- PHED 204 - Kinesiology (Biomechanics of Physical Activity) 3 hrs

Minor Requirements:

This program does not require a minor.

Program Total:

Students must earn a minimum total of 124 credits at the 100-level or above.

Critical Graduation Information:

The following are minimum requirements for all bachelor’s degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the 100-level and above. Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Earn a minimum of 60 credits from a four-year college or university; courses taken at community colleges cannot be used to meet this requirement. (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
• Have a minimum of 30 unique credit hours in their major and 20 unique credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.

• Not more than 60 credit hours in one subject area (prefix) may be applied towards the minimum of 124 credit hours required for a bachelor's degree.

• Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more than one major or minor.
  o Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor.
  o Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
  o Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor.

• Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is coordinated by the Office of Admissions, and additional documentation may be required.

• Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be earned in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

General Education Requirements:

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas. It does not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available on the General Education section of the catalog: General Education

• For Students who began their undergraduate program at EMU in Fall 2007 or later or who have elected to follow the current ("new") General Education Program, follow the "For Students" link under the Current Program heading.

• For Students who began their undergraduate program at EMU before Fall 2007 and who have elected to follow the Pre-2007 General Education Requirements, follow the "General Education Program Prior to Fall 2007 (pdf file)" link under the Program Prior to Fall 2007 heading. Please note that students who wish to graduate under pre-2007 General Education requirements must graduate by August 2014; those who have not completed all degree requirements by that time will need to satisfy the current (Fall 2007) General Education requirements.

Students who transferred to EMU may have modified general education requirements based on MACRAO or articulation agreements; consult your academic adviser for additional information.

University Information: Consult the online catalog at catalog.emich.edu.

K-12 Music Education Major (Instrumental)

Successful completion of this course of study, which leads to the Bachelor of Music Education degree, in the context of other program requirements, qualifies the student for recommendation for the Michigan Department of Education Secondary Provisional Certificate endorsed in music education (K-12), certification code JQ. The Michigan Test for Teacher Certification (MTTC) covering this field is #099, “Music.”

Music and Dance Department Information:

Department Head: Diane Winder
Department Contact: diane.winder@emich.edu
Website: http://www.emich.edu/musicdance/
All prospective students (including transfers) must apply to the Department of Music and Dance and complete an entrance audition. Admissions information and access to the department's online application are available here. Applications must be submitted at least seven days in advance of the requested audition day.

In addition to the degree requirements stated below, students must learn and abide by these departmental policies.

Adviser Information:

Program Adviser: Dr. David Pierce  
Email: david.pierce@emich.edu  
Phone: 734.487.4380

Initial Teacher Preparation Program Admission

In order to pursue the sequence of courses necessary to complete eligibility for recommendation for certification, one must apply for and be admitted to the teacher preparation program. Admission requirements are common for all teacher preparation programs, except that certain special education programs have additional requirements.

Each undergraduate student is responsible for applying to the teacher preparation program immediately after the semester in which the student has earned 56 credit hours. Transfer students with more than 56 credit hours should apply immediately after the semester in which they have earned 12 hours at EMU, including at least one course in their major. Students with 56 hours of transfer course work with a decision GPA of 3.0 may apply for admission to the teacher preparation program without 12 earned hours at EMU.

Admission to the teacher preparation program is not automatic. Only those persons who have formally applied are considered for admission. Not all persons who apply become eligible for admission.

Applications for the Initial Teacher Preparation Program at EMU are available within your my.emich account under the "Student" tab. Submit your completed application to the Office of Academic Services once you have earned 56 credit hours.

Teaching majors and minors are unofficial until program admission. Students pursuing teacher certification should follow the catalog that exists at the time of program admission. It is important that students apply to the teacher preparation program as soon as they have earned 56 credit hours.

Criteria

1. Completion of 56 credit hours

2. Appropriate cumulative GPA. One of:
   
   1. An overall EMU GPA of 2.5 or higher. At least 12 of the 56 credit hours taken at EMU with an EMU GPA of 2.5 or higher in your major (each of your majors if declaring a double major). You must complete at least one course in your major(s) in order to be eligible.
   
   2. Transferred 56 credits with a cumulative 3.0 GPA from all previous institutions.

3. A grade of “C” or higher (if taken) in the following courses:
   
   1. Secondary: ENGL 121 , CTAC 124, quantitative reasoning, one lab science, all professional education courses, and, if special education, PSY 101.
2. Elementary: ENGL 121, CTAC 124, MATH 108, MATH 110E, PHY 100, CHEM 101, ESSC 202, all of the professional education courses, all courses that state “for elementary teachers,” and, if special education, PSY 101.

4. Passing scores on all three sections of the Michigan Test for Teacher Certification Basic Skills Test (MTTC) (reading, mathematics, and writing). Official score report must be on file at Eastern Michigan University.

5. Personal statement about your experiences with youth/children and why you are going into teaching. This statement will be read for content, grammar, and punctuation.

6. Completion of a Disposition Self Evaluation Form.

7. ICHAT criminal background check and Statement of Civil/Criminal Convictions. If you answered yes to any of the civil/criminal conviction questions on the application, you will need to provide:
   1. A copy of the Judgment of Sentence, or Registrar of Actions, or Certification of Conviction.
   2. A written explanation of the offense(s). Application of students with civil/criminal convictions will be carefully reviewed and may take longer to process.

8. Meet academic, social, moral, and financial obligations as a member of the EMU community.

General Education Requirements:

For specific requirements refer to the General Education Program. Download the Gen Ed Checklist here.

Music Courses: 70-75 hours

Core Courses: 41 hours

- MUSC 101 - Music Theory I 3 hrs
- MUSC 102 - Music Theory II 3 hrs
- MUSC 119 - Aural Skills I 1 hr
- MUSC 129 - Aural Skills II 1 hr
- MUSC 201 - Music Theory III 3 hrs
- MUSC 202 - Music Theory IV 3 hrs
- MUSC 211 - Basic Brass Class 1 hr
- MUSC 219 - Aural Skills III 1 hr
- MUSC 228 - Basic Music Literature 3 hrs
- MUSC 229 - Aural Skills IV 1 hr
- MUSC 232 - Voice Class 1 hr
- MUSC 241 - Percussion 1 hr
- MUSC 251 - Functional Piano 1 hr
- MUSC 252 - Functional Piano 1 hr
- MUSC 253 - Functional Piano 1 hr
- MUSC 254 - Functional Piano 1 hr
- MUSC 261 - Basic String Class: Violin 1 hr
- MUSC 281 - Basic Woodwind Class 1 hr
- MUSC 301W - History of Music to 1750 (Gen Ed Area I, W) 4 hrs
- MUSC 302 - History of Music 3 hrs
- MUSC 326 - Conducting 2 hrs
- MUSC 327 - Instrumental Conducting 2 hrs
- MUSC 413 - Orchestration 2 hrs

**Two courses from the following: 2 hours**

- MUSC 212 - Brass Class 1 hr
- MUSC 262 - String Class: Viola 1 hr
- MUSC 263 - String Class: Cello and Double Bass 1 hr
- MUSC 282 - Woodwind Class 1 hr
- MUSC 283 - Woodwind Class 1 hr

**Major Instrumental Ensembles: 8-11 hours**

*Only one hour per semester counted toward degree.*

- Wind and Percussion Principals:
  - MUSC 249 - University Band: 8 hours
  - MUSC 149M - Marching Band: 3 hours

- String Principals:
  - MUSC 248 - University Orchestra: 8 hours

**Elective Courses (string principals only): 3 hours**

**Applied Music Courses: 16 hours**

*Senior recital approval is required. Students must enroll in Applied Music during the semester the recital is performed.*

*Music majors enrolled in Applied Music will also participate in a weekly studio class. Studio class times vary; please contact the Applied Music teacher for schedule.*

*Keyboard and guitar principals must take AMUS 115A - Secondary Applied Music/AMUS 115B - Secondary Applied Music (wind/percussion/string instrument) (total of 4 hrs).*

- AMUS 116A - Principal Applied Music 2 hrs
  - 4 semesters (minimum): 8 hours
- AMUS 416A - Principal Applied Music 2 hrs
  - 4 semesters (minimum): 8 hours

**Improvisation Requirement: 0-2 hours**

*Students in this degree must meet an improvisation requirement. This requirement may be met in one of the following ways:*

- MUSC 244 - Jazz Ensemble 1 hr
• MUSC 250 - Jazz Combo 1 hr
• MUSC 305 - Keyboard Skills 2 hrs
• Other approved improvisation course (see an adviser for details)
• Contract in Applied Music for at least one Fall or Winter semester. An improvisation Contract must be completed by the student and approved by the applied music instructor and department head at the beginning of the semester. A written evaluation of the student's improvisation work must be provided by the applied music instructor and approved by the department head at the completion of the semester. Applied music improvisation projects can be in any style (jazz, classical, world music, etc.) and should be equivalent to one credit of independent study.

Professional Studies: 34 hours

Pre-Admission Phase: The Learner and the Community: 7 hours

The following courses may be taken before formal admission to the Initial Teacher Preparation Program:

• 100 clock hours of approved presstudent teaching field experiences (0 hrs)
• EDPS 322 - Human Development and Learning 4 hrs
• SPGN 251 - Education of Students with Exceptionalities 3 hrs

The following courses require formal admission to the Initial Teacher Preparation Program:

Phase I: Curriculum, Assessment and Social Context: 6 hours

• MUSC 332 - Instrumental Music in the Public Schools 3 hrs
• SOFD 328W - Schools for a Diverse and Democratic Society (Gen Ed Area I, W) 3 hrs

Phase II: Content Methods, Literacy and Technology: 9 hours

• EDMT 330 - Instructional Applications of Media and Technology 3 hrs
• RDNG 311 - Teaching Reading in the Secondary School 3 hrs

One course from the following:

• MUSC 333 - Orchestral Methods 3 hrs
• MUSC 334 - Band Methods 3 hrs

Phase III: Capstone Experience: 12 hours

All Bachelor of Music Education students must pass a program specific screening exam before being approved for student teaching.

• EDUC 496 - Student Teaching 6 hrs
• EDUC 497 - Student Teaching 6 hrs
Minor Requirements:

This program does not require a minor.

Program Total:

Students must earn a minimum total of 124 credits at the 100-level or above.

MTTC Subject Area Test

Starting January 1, 2013, Students seeking licensure in a secondary or K-12 area are not required to take the MTTC subject area test in their minor area. Students who elect not to take the test in their minor will be required to sign a statement indicating that they understand that they will not be endorsed in their minor area and will not be eligible for teaching positions in their minor unless they pass the minor subject area test within five years of completing field experience and course requirements.

Note:

Recital Attendance Requirement

Each undergraduate music major must attend a total of 80 recitals/concerts (events) during their time of undergraduate study; they will receive credit for no more than 25 events per academic year. Students who fail to meet this requirement will not be permitted to graduate. The number of events that transfer students and students seeking a second bachelor's degree must attend will be prorated, based on the number of semesters of work remaining at the time of their matriculation. Normally each semester the student will attend at least ten musical events, of which five are usually the Department of Music and Dance weekly student recitals. Credit will be received for attendance at any Department of Music and Dance event. Students must be present for an entire event to receive credit. The cards are collected at the end of the program. A student who is performing in an event may receive recital attendance credit for that event if the student performs in less than 50 percent of the event. Attendance at many non-departmental musical events may be credited toward the recital attendance requirement. To obtain credit, bring a ticket stub and program to the music office. The Head of the Department of Music and Dance will determine whether or not the event qualifies for recital credit.

Critical Graduation Information:

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the **100-level and above**. **Courses with numbers below 100 will not be counted toward this degree requirement.** At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Earn a minimum of 60 credits from a four-year college or university; **courses taken at community colleges cannot be used to meet this requirement**. (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 **unique** credit hours in their major and 20 **unique** credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a
minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.

- Not more than 60 credit hours in one subject area (prefix) may be applied towards the minimum of 124 credit hours required for a bachelor's degree.
- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more that one major or minor.
  - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
  - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
  - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor
- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is coordinated by the Office of Admissions, and additional documentation may be required.
- Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be earned in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

General Education Requirements:

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available on the General Education section of the catalog: General Education

- For Students who began their undergraduate program at EMU in Fall 2007 or later or who have elected to follow the current ("new") General Education Program, follow the "For Students" link under the Current Program heading.
- For Students who began their undergraduate program at EMU before Fall 2007 and who have elected to follow the Pre-2007 General Education Requirements, follow the "General Education Program Prior to Fall 2007 (pdf file)" link under the Program Prior to Fall 2007 heading. Please note that students who wish to graduate under pre-2007 General Education requirements must graduate by August 2014; those who have not completed all degree requirements by that time will need to satisfy the current (Fall 2007) General Education requirements.

Students who transferred to EMU may have modified general education requirements based on MACRAO or articulation agreements; consult your academic adviser for additional information.

University Information: Consult the online catalog at catalog.emich.edu.

K-12 Music Education Major (Vocal)

Successful completion of this course of study, which leads to the bachelor of music education degree, in the context of other program requirements, qualifies the student for recommendation for the Michigan Department of Education Secondary Provisional Certificate endorsed in music education, K-12 certification code JQ. The Michigan Test for Teacher Certification (MTTC) covering this field is #099, “Music.”

At the time of admission, students with voice as a principal instrument must study keyboard and demonstrate the required level of proficiency for graduation; students with keyboard as a principal instrument must study voice and demonstrate the required level of proficiency for graduation; and students with guitar as a principal instrument must study both voice and piano, demonstrating the required level of proficiency on both for graduation.

Music and Dance Department Information:
All prospective students (including transfers) must apply to the Department of Music and Dance and complete an entrance audition. Admissions information and access to the department's online application are available here. Applications must be submitted at least seven days in advance of the requested audition day.

In addition to the degree requirements stated below, students must learn and abide by these departmental policies.

**Adviser Information:**

Program Adviser: Dr. David Pierce  
Email: david.pierce@emich.edu  
Phone: 734.487.4380

**Initial Teacher Preparation Program Admission**

In order to pursue the sequence of courses necessary to complete eligibility for recommendation for certification, one must apply for and be admitted to the teacher preparation program. Admission requirements are common for all teacher preparation programs, except that certain special education programs have additional requirements.

Each undergraduate student is responsible for applying to the teacher preparation program immediately after the semester in which the student has earned 56 credit hours. Transfer students with more than 56 credit hours should apply immediately after the semester in which they have earned 12 hours at EMU, including at least one course in their major. Students with 56 hours of transfer course work with a decision GPA of 3.0 may apply for admission to the teacher preparation program without 12 earned hours at EMU.

Admission to the teacher preparation program is not automatic. Only those persons who have formally applied are considered for admission. Not all persons who apply become eligible for admission.

Applications for the Initial Teacher Preparation Program at EMU are available within your my.emich account under the "Student" tab. Submit your completed application to the Office of Academic Services once you have earned 56 credit hours.

Teaching majors and minors are unofficial until program admission. Students pursuing teacher certification should follow the catalog that exists at the time of program admission. It is important that students apply to the teacher preparation program as soon as they have earned 56 credit hours.

**Criteria**

1. Completion of 56 credit hours

2. Appropriate cumulative GPA. One of:

   1. An overall EMU GPA of 2.5 or higher. At least 12 of the 56 credit hours taken at EMU with an EMU GPA of 2.5 or higher in your major (each of your majors if declaring a double major). You must complete at least one course in your major(s) in order to be eligible.

   2. Transferred 56 credits with a cumulative 3.0 GPA from all previous institutions.

3. A grade of “C” or higher (if taken) in the following courses:
1. Secondary: ENGL 121, CTAC 124, quantitative reasoning, one lab science, all professional education courses, and, if special education, PSY 101.

2. Elementary: ENGL 121, CTAC 124, MATH 108, MATH 110E, PHY 100, CHEM 101, ESSC 202, all of the professional education courses, all courses that state “for elementary teachers,” and, if special education, PSY 101.

4. Passing scores on all three sections of the Michigan Test for Teacher Certification Basic Skills Test (MTTC) (reading, mathematics, and writing). Official score report must be on file at Eastern Michigan University.

5. Personal statement about your experiences with youth/children and why you are going into teaching. This statement will be read for content, grammar, and punctuation.

6. Completion of a Disposition Self Evaluation Form.

7. ICHAT criminal background check and Statement of Civil/Criminal Convictions. If you answered yes to any of the civil/criminal conviction questions on the application, you will need to provide:
   1. A copy of the Judgment of Sentence, or Registrar of Actions, or Certification of Conviction.
   2. A written explanation of the offense(s). Application of students with civil/criminal convictions will be carefully reviewed and may take longer to process.

8. Meet academic, social, moral, and financial obligations as a member of the EMU community.

General Education Requirements:

For specific requirements refer to the General Education Program. Download the Gen Ed Checklist here.

Music Courses: 69–77 hours

Catalog Correction: Credit Hour Total for this major is 68-76 Hours. 10/2013

Core Courses: 44 hours

- MUSC 101 - Music Theory I 3 hrs
- MUSC 102 - Music Theory II 3 hrs
- MUSC 119 - Aural Skills I 1 hr
- MUSC 129 - Aural Skills II 1 hr
- MUSC 201 - Music Theory III 3 hrs
- MUSC 202 - Music Theory IV 3 hrs
- MUSC 219 - Aural Skills III 1 hr
- MUSC 228 - Basic Music Literature 3 hrs
- MUSC 229 - Aural Skills IV 1 hr
- MUSC 241 - Percussion 1 hr
- MUSC 251 - Functional Piano 1 hr
- MUSC 252 - Functional Piano 1 hr
- MUSC 253 - Functional Piano 1 hr
- MUSC 254 - Functional Piano 1 hr
- MUSC 274 - Functional Guitar 2 hrs
- MUSC 301W - History of Music to 1750 (Gen Ed Area I, W) 4 hrs
- MUSC 302 - History of Music 3 hrs
- MUSC 305 - Keyboard Skills 2 hrs
- MUSC 326 - Conducting 2 hrs
- MUSC 328 - Choral Conducting 2 hrs
- MUSC 413 - Orchestration 2 hrs

One course from the following:

- MUSC 211 - Basic Brass Class 1 hr
- MUSC 212 - Brass Class 1 hr

One course from the following:

- MUSC 261 - Basic String Class: Violin 1 hr
- MUSC 262 - String Class: Viola 1 hr
- MUSC 263 - String Class: Cello and Double Bass 1 hr

One course from the following:

- MUSC 281 - Basic Woodwind Class 1 hr
- MUSC 282 - Woodwind Class 1 hr
- MUSC 283 - Woodwind Class 1 hr

Major Vocal Ensemble: 8 hours

*Must include at least four semesters of MUSC 131 - University Choir. Only one hour per semester counted toward degree.*

Applied Music Courses: 16–24 hours

*Number of credit hours is determined by audition and principal instrument of choice.*

*Music majors enrolled in Applied Music will also participate in a weekly studio class. Studio class times vary; please contact the Applied Music teacher for schedule.*

Principal Instrument Courses (Keyboard, Voice or Guitar): 16 hours

*Senior recital approval is required. Students must enroll in applied music during the semester a degree recital is performed.*

- AMUS 116A - Principal Applied Music 2 hrs
  4 semesters (minimum): 8 hours
- AMUS 416A - Principal Applied Music 2 hrs
  4 semesters (minimum): 8 hours

Secondary Instrument Courses (Keyboard, Voice or Guitar): 0–8 hours
One option from the following:

Option I: 0–4 hours

If voice is the principal instrument, take AMUS 115 (keyboard) until the prerequisite for AMUS 415 (keyboard) is met.

Option II: 0–4 hours

If keyboard is the principal instrument, take AMUS 115 (voice) until the prerequisite for AMUS 415 (voice) is met.

Option III: 0–8 hours

If guitar is the principal instrument, take AMUS 115 (keyboard) and AMUS 115 (voice) until the prerequisite for AMUS 415 is met in both instruments.

Improvisation Requirement: 0-2 hours

Students in this degree must meet an improvisation requirement. This requirement may be met in one of the following ways:

- MUSC 244 - Jazz Ensemble 1 hr
- MUSC 250 - Jazz Combo 1 hr
- MUSC 305 - Keyboard Skills 2 hrs
- Other approved improvisation course (see an adviser for details)
- Contract in Applied Music for at least one Fall or Winter semester. An improvisation Contract must be completed by the student and approved by the applied music instructor and department head at the beginning of the semester. A written evaluation of the student's improvisation work must be provided by the applied music instructor and approved by the department head at the completion of the semester. Applied music improvisation projects can be in any style (jazz, classical, world music, etc.) and should be equivalent to one credit of independent study.

Professional Studies: 34 hours

General Education Requirements:

For specific requirements refer to the General Education Program. Download the Gen Ed Checklist here.

Major Requirements: 52–53 hours

Core Courses: 30 hours

- MUSC 101 - Music Theory I 3 hrs
- MUSC 102 - Music Theory II 3 hrs
- MUSC 119 - Aural Skills I 1 hr
- MUSC 129 - Aural Skills II 1 hr
- MUSC 201 - Music Theory III 3 hrs
- MUSC 202 - Music Theory IV 3 hrs
- MUSC 219 - Aural Skills III 1 hr
- MUSC 228 - Basic Music Literature 3 hrs
- MUSC 229 - Aural Skills IV 1 hr
- MUSC 251 - Functional Piano 1 hr
- MUSC 252 - Functional Piano 1 hr
- MUSC 253 - Functional Piano 1 hr
- MUSC 254 - Functional Piano 1 hr
- MUSC 301W - History of Music to 1750 (Gen Ed Area I, W) 4 hrs
- MUSC 302 - History of Music 3 hrs
Two courses from the following: 4–5 hours

- MUSC 315 - Introduction to Digital Music 2 hrs
- MUSC 317 - Music Composition 2 hrs
- MUSC 341 - Contrapuntal Techniques 2 hrs
- MUSC 401 - Music Theory-Literature V 2 hrs
- MUSC 402 - Music Theory-Literature VI 2 hrs
- MUSC 404 - Psychology of Music 3 hrs
- MUSC 413 - Orchestration 2 hrs

Major Ensemble: 6 hours

Only one hour per semester counted toward degree.

Applied Music (principal instrument): 12 hours

Music majors enrolled in Applied Music will also participate in a weekly studio class. Studio class times vary; please contact the Applied Music teacher for schedule.

- AMUS 116A - Principal Applied Music 2 hrs
  4 semesters (minimum): 8 hours
- AMUS 416A - Principal Applied Music 2 hrs
  2 semesters (minimum): 4 hours

Minor Requirements:

This program requires a minor. Please contact your program adviser for a list of possible minors.

Program Total:

Students must earn a minimum total of 124 credits at the 100-level or above.

Note:

Bachelor of Arts degrees include one year of foreign language.

Students must also complete University Electives to bring the total credits taken to be 124.

Recital Attendance Requirement

Each undergraduate music major must attend a total of 80 recitals/concerts (events) during their time of undergraduate study; they will receive credit for no more than 25 events per academic year. Students who fail to meet this requirement will not be permitted to graduate. The number of events that transfer students and students seeking a second bachelor's degree must attend will be prorated, based on the number of semesters of work remaining at the time of their matriculation. Normally each semester the student will attend at least ten musical events, of which five are usually the Department of Music and Dance weekly student recitals. Credit will be received for attendance at any Department of Music and Dance event. Students must be present for an entire event to receive credit. The cards are collected at the end of the program. A student who is performing in an event may receive recital attendance credit for that event if the student performs in less than 50 percent of the event. Attendance at many non-departmental musical events may be credited toward the recital attendance requirement. To obtain credit, bring a ticket stub
and program to the music office. The Head of the Department of Music and Dance will determine whether or not the event qualifies for recital credit.

Critical Graduation Information:

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the 100-level and above. Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Earn a minimum of 60 credits from a four-year college or university; courses taken at community colleges cannot be used to meet this requirement. (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 unique credit hours in their major and 20 unique credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
- Not more than 60 credit hours in one subject area (prefix) may be applied towards the minimum of 124 credit hours required for a bachelor's degree.
- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more that one major or minor.
  - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor.
  - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
  - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor.
- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is coordinated by the Office of Admissions, and additional documentation may be required.
- Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be earned in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

General Education Requirements:

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available on the General Education section of the catalog: General Education

- For Students who began their undergraduate program at EMU in Fall 2007 or later or who have elected to follow the current ("new") General Education Program, follow the "For Students" link under the Current Program heading.
- For Students who began their undergraduate program at EMU before Fall 2007 and who have elected to follow the Pre-2007 General Education Requirements, follow the "General Education Program Prior to Fall 2007 (pdf file)" link under the Program Prior to Fall 2007 heading. Please note that students who wish to graduate under pre-2007 General
Education requirements must graduate by August 2014; those who have not completed all degree requirements by that time will need to satisfy the current (Fall 2007) General Education requirements.

Students who transferred to EMU may have modified general education requirements based on MACRAO or articulation agreements; consult your academic adviser for additional information.

University Information: Consult the online catalog at catalog.emich.edu.

Music Performance Major (Instrumental)-With specialization in guitar, keyboard, strings, winds or percussion

The bachelor of music degree curriculum is available for students who wish to pursue a career in performance.

Music and Dance Department Information:

Department Head: Diane Winder
Department Contact: diane.winder@emich.edu
Website: http://www.emich.edu/musicdance/

All prospective students (including transfers) must apply to the Department of Music and Dance and complete an entrance audition. Admissions information and access to the department's online application are available here. Applications must be submitted at least seven days in advance of the requested audition day.

In addition to the degree requirements stated below, students must learn and abide by these departmental policies.

Adviser Information:

Program Adviser: Dr. David Pierce
Email: david.pierce@emich.edu
Phone: 734.487.4380

General Education Requirements:

For specific requirements refer to the General Education Program. Download the Gen Ed Checklist here.

Courses common to all specializations: 68-71 hours

Core Courses: 32 hours

- MUSC 101 - Music Theory I 3 hrs
- MUSC 102 - Music Theory II 3 hrs
- MUSC 119 - Aural Skills I 1 hr
- MUSC 129 - Aural Skills II 1 hr
- MUSC 201 - Music Theory III 3 hrs
- MUSC 202 - Music Theory IV 3 hrs
- MUSC 219 - Aural Skills III 1 hr
- MUSC 228 - Basic Music Literature 3 hrs
- MUSC 229 - Aural Skills IV 1 hr
- MUSC 251 - Functional Piano 1 hr
- MUSC 252 - Functional Piano 1 hr
- MUSC 253 - Functional Piano 1 hr
- MUSC 254 - Functional Piano 1 hr
- MUSC 301W - History of Music to 1750 (Gen Ed Area I, W) 4 hrs
- MUSC 302 - History of Music 3 hrs
- MUSC 326 - Conducting 2 hrs

Two courses from the following: 4-5 hours

- MUSC 315 - Introduction to Digital Music 2 hrs
- MUSC 317 - Music Composition 2 hrs
- MUSC 341 - Contrapuntal Techniques 2 hrs
- MUSC 401 - Music Theory-Literature V 2 hrs
- MUSC 402 - Music Theory-Literature VI 2 hrs
- MUSC 404 - Psychology of Music 3 hrs
- MUSC 413 - Orchestration 2 hrs

Applied Music: 32 hours

Both a junior and a senior recital are required. Students must enroll in Applied Music during the semester each recital is performed.

Music majors enrolled in Applied Music will also participate in a weekly studio class. Studio class times vary; please contact the Applied Music teacher for schedule.

- AMUS 116B - Principal Applied Music 4 hrs
  4 semesters (minimum): 16 hours
- AMUS 416B - Principal Applied Music 4 hrs
  4 semesters (minimum): 16 hours

Improvisation Requirement: 0-2 hours

Students in this degree must meet an improvisation requirement. This requirement may be met in one of the following ways:

- MUSC 244 - Jazz Ensemble 1 hr
- MUSC 250 - Jazz Combo 1 hr
- MUSC 305 - Keyboard Skills 2 hrs
- Other approved improvisation course (see an adviser for details)
- Contract in Applied Music for at least one Fall or Winter semester. An improvisation Contract must be completed by the student and approved by the applied music instructor and department head at the beginning of the semester. A written evaluation of the student's improvisation work must be provided by the applied music instructor and approved by the department head at the completion of the semester. Applied music improvisation projects can be in any style (jazz, classical, world music, etc.) and should be equivalent to one credit of independent study.
Courses Chosen According to Area of Specialization: 13-16 hours

Area I: Guitar

- Ensembles (8 hrs)
  Only one hour per semester counted toward degree.
- Any elective courses in music (5-8 hrs)

Area II: Keyboard

- Ensembles (8 hrs) (may include up to two credit hours of accompanying)
  Only one hour per semester counted toward degree.
- Elective courses in music (5-8 hrs)

Area III: Strings

- Elective courses in music (4–7 hrs)
- MUSC 248 - University Orchestra 1 hr
  8 semesters (minimum): 8 hours Only one hour per semester counted toward degree.

One course from the following:

Violin principal:

One course from the following:

- AMUS 115A - Secondary Applied Music 1 hr
- MUSC 262 - String Class: Viola 1 hr

Viola principal:

One course from the following:

- AMUS 115A - Secondary Applied Music 1 hr
- MUSC 261 - Basic String Class: Violin 1 hr

Cello principal:

One course from the following:

- AMUS 115A - Secondary Applied Music 1 hr
- MUSC 263 - String Class: Cello and Double Bass 1 hr

String Bass principal:
One course from the following:

- AMUS 115A - Secondary Applied Music 1 hr
- MUSC 263 - String Class: Cello and Double Bass 1 hr

Area IV: Wind and Percussion

- Electives courses in music (5-8 hrs)
- MUSC 249 - University Band 1 hr
  8 semesters (minimum): 8 hours

Minor Requirements:

This program does not require a minor.

Note:

Recital Attendance Requirement
Each undergraduate music major must attend a total of 80 recitals/concerts (events) during their time of undergraduate study; they will receive credit for no more than 25 events per academic year. Students who fail to meet this requirement will not be permitted to graduate. ### Music Therapy Major

Successful completion of the requirements for the Bachelor of Music Therapy degree makes students eligible to sit for the Certification Examination given by the Certification Board for Music Therapists™.

The Bachelor of Music Therapy degree is awarded on completion of this curriculum. The degree program is approved by the American Music Therapy Association.

**Certification in Music Therapy**

The Certification Board for Music Therapists (CBMT) mandates that candidates for board certification must have successfully completed the academic and clinical training requirements for music therapy, or their equivalent, as established by the American Music Therapy Association. Candidates who pass the CBMT examination are allowed to use the credential “Music Therapist-Board Certified” (MT-BC).

**Admission**

Students must submit a 3-page double-spaced essay on the topic of "Why I wish to pursue a degree in music therapy." Include personal perspectives and motivations as well as current understanding of the field of music therapy and how you see yourself within the field. All essays are to be saved as a Word (.doc or .docx) document and sent as an attachment to Dr. Theresa Merrill, Director of Music Therapy at tmerril1@emich.edu.

- MUSC 428 - Pre-internship Clinical Training in Music Therapy VI 1 hr
- MUSC 488 - Clinical Training Internship in Music Therapy 2 hrs

Additional Requirements: 10 hours

- BIO 105 - Introductory Biology for Non-majors (Gen Ed Area IV) 4 hrs
- PSY 360 - Abnormal Psychology 3 hrs
- SPGN 251 - Education of Students with Exceptionalities 3 hrs

Improvisation Requirement: 0-2 hours

*Students in this degree must meet an improvisation requirement. This requirement may be met in one of the following ways:*

- MUSC 244 - Jazz Ensemble 1 hr
- MUSC 250 - Jazz Combo 1 hr
- MUSC 305 - Keyboard Skills 2 hrs
- Other approved improvisation course (see an adviser for details)
- Contract in Applied Music for at least one Fall or Winter semester. An improvisation Contract must be completed by the student and approved by the applied music instructor and department head at the beginning of the semester. A written evaluation of the student's improvisation work must be provided by the applied music instructor and approved by the department head at the completion of the semester. Applied music improvisation projects can be in any style (jazz, classical, world music, etc.) and should be equivalent to one credit of independent study.
Minor Requirements:

This program does not require a minor.

Note:

Recital Attendance Requirement
Each undergraduate music major must attend a total of 80 recitals/concerts (events) during their time of undergraduate study; they will receive credit for no more than 25 events per academic year. Students who fail to meet this requirement will not be permitted to graduate. The number of events that transfer students and students seeking a second bachelor's degree must attend will be prorated, based on the number of semesters of work remaining at the time of their matriculation. Normally each semester the student will attend at least ten musical events, of which five are usually the Department of Music and Dance weekly student recitals. Credit will be received for attendance at any Department of Music and Dance event. Students must be present for an entire event to receive credit. The cards are collected at the end of the program. A student who is performing in an event may receive recital attendance credit for that event if the student performs in less than 50 percent of the event. Attendance at many non-departmental musical events may be credited toward the recital attendance requirement. To obtain credit, bring a ticket stub and program to the music office. The Head of the Department of Music and Dance will determine whether or not the event qualifies for recital credit.

Program Total:

Students must earn a minimum total of 124 credits at the 100-level or above.

Critical Graduation Information:

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the 100-level and above. Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Earn a minimum of 60 credits from a four-year college or university; courses taken at community colleges cannot be used to meet this requirement. (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 unique credit hours in their major and 20 unique credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
- Not more than 60 credit hours in one subject area (prefix) may be applied towards the minimum of 124 credit hours required for a bachelor's degree.
- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more that one major or minor.
  - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor.
  - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
○ Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor.

- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is coordinated by the Office of Admissions, and additional documentation may be required.

- Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be earned in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

General Education Requirements:

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available on the General Education section of the catalog: General Education

- For Students who began their undergraduate program at EMU in Fall 2007 or later or who have elected to follow the current ("new") General Education Program, follow the "For Students" link under the Current Program heading.
- For Students who began their undergraduate program at EMU before Fall 2007 and who have elected to follow the Pre-2007 General Education Requirements, follow the "General Education Program Prior to Fall 2007 (pdf file)" link under the Program Prior to Fall 2007 heading. Please note that students who wish to graduate under pre-2007 General Education requirements must graduate by August 2014; those who have not completed all degree requirements by that time will need to satisfy the current (Fall 2007) General Education requirements.

Students who transferred to EMU may have modified general education requirements based on MACRAO or articulation agreements; consult your academic adviser for additional information.

University Information: Consult the online catalog at catalog.emich.edu.

Minor

Dance Minor

Students planning admission to the dance minor must complete the following:

1. An audition into the program.
3. A course of study planned with a dance adviser upon admission into the program.

Music and Dance Department Information:

Department Head: Diane Winder
Department Contact: diane.winder@emich.edu
Website: http://www.emich.edu/musicdance/

All prospective students (including transfers) must apply to the Department of Music and Dance and complete an entrance audition. Admissions information and access to the department's online application are available here. Applications must be submitted at least seven days in advance of the requested audition day.

In addition to the degree requirements stated below, students must learn and abide by these departmental policies.
Minor Requirements: 32 hours

- Two levels of Modern Dance Technique I–IV
  (DANC 110, DANC 111, DANC 210 and DANC 211) (6 hrs)
- Two levels of Classical Ballet Technique I–IV
  (DANC 108, DANC 109, DANC 208 or DANC 209) (6 hrs)
- One level of Jazz I–II
  (DANC 101 or DANC 201) (2 hrs)
- DANC 107 - Rhythmic Analysis and Dance Accompaniment 3 hrs
- DANC 245 - Elements of Dance Composition 3 hrs
- DANC 255 - Dance Production 3 hrs
- DANC 351W - History of Dance: Romanticism to the Present (Gen Ed Area I, W) 3 hrs
- DANC 450 - Advanced Dance Composition 4 hrs
- DANC 455 - Seminar in Dance 2 hrs

Minor Total: 32 hours

Note:

*All minors must have at least six hours of course work at the 300-level or above.*

Critical Graduation Information:

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the *100-level and above.* Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Earn a minimum of 60 credits from a four-year college or university; *courses taken at community colleges cannot be used to meet this requirement.* (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 *unique* credit hours in their major and 20 *unique* credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
- Not more than 60 credit hours in one subject area (prefix) may be applied towards the minimum of 124 credit hours required for a bachelor's degree.
- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more that one major or minor.
Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor.

Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.

Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor.

Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is coordinated by the Office of Admissions, and additional documentation may be required.

Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be earned in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

Certificate

Music Therapy Equivalency Certificate

The Music Therapy Post-Baccalaureate Certificate Program is for students with a music degree from a National Association of Schools of Music accredited institution (or an equivalent institution outside of the United States) and an interest in specialized studies that will lead to meeting the eligibility requirements to take the certification examination in music therapy administered by the Certification Board for Music Therapists. Successful passing of this examination leads to the person being credentialed as a music therapist–board certified. The courses within this equivalency certificate program are approved by the American Music Therapy Association, and accredited by the National Association of Schools of Music.

Admission

Students must satisfy admission requirements of the University, the Department of Music and Dance and the Music Therapy Program. Please note that an audition is not required unless students want to take applied music lessons on their principal instrument while completing this certificate. Applied music may be required in secondary instruments to prepare the student to pass the EMU Music Therapy Competencies. Students must be admitted into the music therapy post-baccalaureate certificate program before enrolling in required course work. Requirements for admission into this certificate program include the following:

1. Submission of the completed application, nonrefundable application fee and all official undergraduate and graduate transcripts to undergraduate admissions in the Office of Admissions.
2. The earned equivalent of a U.S. bachelor’s degree in music from an accredited college or University.

3. Submission of a 3-page double-spaced essay on the topic of "Why I wish to pursue a degree in music therapy." Include personal perspectives and motivations as well as current understanding of the field of music therapy and how you see yourself within the field. All essays are to be saved as a Word (.doc or .docx) document and sent as an attachment to Dr. Theresa Merrill, Director of Music Therapy at tmerril1@emich.edu.

4. A personal interview with the coordinator of music therapy is required. This interview will explore the applicant’s (1) interest in and general knowledge of music therapy, (2) music skills and (3) personal potential for being a successful music therapist.

5. Applicants whose native language is not English must demonstrate English language proficiency.

Certificate Requirements
The Post-Baccalaureate Music Therapy Equivalency Certificate Program must consist of all music therapy courses required for the bachelor of music therapy degree.

Courses in the sciences and in other areas to meet the American Music Therapy Association’s educational standards are required.

Students must successfully demonstrate the EMU music therapy competencies in guitar, piano and voice before being eligible to enter the required clinical training (internship). Copies of the criteria for the competencies can be obtained from the coordinator of music therapy.

A specific program of study will be developed by the coordinator of music therapy, in consultation with the student, once the student is admitted into the equivalency certificate program.

Critical Information regarding Certificates
Undergraduate certificates may only be offered in conjunction with or subsequent to a baccalaureate degree. They cannot be ‘stand alone’ certificates, offered to students who are not pursuing or do not have a bachelor’s degree. For students pursuing an undergraduate certificate concurrent with a bachelor’s degree, the certificate will be awarded upon graduation.

Music and Dance Department Information:

Department Head: Diane Winder
Department Contact: diane.winder@emich.edu
Website: http://www.emich.edu/musicdance/

All prospective students (including transfers) must apply to the Department of Music and Dance and complete an entrance audition. Admissions information and access to the department's online application are available here. Applications must be submitted at least seven days in advance of the requested audition day.

In addition to the degree requirements stated below, students must learn and abide by these departmental policies.

Adviser Information:

Program Adviser: Dr. David Pierce
Email: david.pierce@emich.edu
Phone: 734.487.4380

Music Therapy Courses: 31 hours
• MUSC 103 - Introduction to Music Therapy 3 hrs
• MUSC 109 - Music Therapy Improvisation Ensemble I 1 hr
• MUSC 209 - Music Therapy Improvisation Ensemble II 1 hr
• MUSC 225 - Voice Skills with Special Populations 1 hr
• MUSC 226 - Guitar Skills with Special Populations 2 hrs
• MUSC 236 - Pre-internship Clinical Training in Music Therapy I 1 hr
• MUSC 237 - Pre-internship Clinical Training in Music Therapy II 1 hr
• MUSC 238 - Methods and Materials in Music Therapy 3 hrs
• MUSC 303 - Music Therapy Clinical Approaches 2 hrs
• MUSC 304 - Music Therapy Professional Skills 2 hrs
• MUSC 309 - Music Therapy Improvisation Ensemble III 1 hr
• MUSC 323 - Pre-internship Clinical Training in Music Therapy III 1 hr
• MUSC 324 - Pre-internship Clinical Training in Music Therapy IV 1 hr
• MUSC 404 - Psychology of Music 3 hrs
• MUSC 405 - Music Therapy Research 3 hrs
• MUSC 409 - Music Therapy Improvisation Ensemble IV 1 hr
• MUSC 427 - Pre-internship Clinical Training in Music Therapy V 1 hr
• MUSC 428 - Pre-internship Clinical Training in Music Therapy VI 1 hr
• MUSC 488 - Clinical Training Internship in Music Therapy 2 hrs

Additional Requirements: 0–12 hours

Other courses may be required depending on the course content of the student’s previous degree(s). Additional courses that are often required are:

• PEGN dance activity courses or DANC course (2 hrs)
• MUSC 326 - Conducting 2 hrs
• MUSC 413 - Orchestration 2 hrs
• PSY 360 - Abnormal Psychology 3 hrs
• SPGN 251 - Education of Students with Exceptionalities 3 hrs

Certificate Total: 31–43 hours

The number of required hours for the certificate depend upon the student’s undergraduate degree.

Note:

Recital Attendance Requirement
Each undergraduate music major must attend a total of 80 recitals/concerts (events) during their time of undergraduate study; they will receive credit for no more than 25 events per academic year. Students who fail to meet this requirement will not be permitted to graduate. The number of events that transfer students and students seeking a second bachelor's degree must attend will be prorated, based on the number of semesters of work remaining at the time of their matriculation. Normally each semester the student will attend at least ten musical events, of which five are usually the Department of Music and Dance weekly student recitals. Credit will be received for attendance at any Department of Music and Dance event. Students must be present for an entire event to receive credit. The cards are collected at the end of the program. A student who is performing in an event may receive recital attendance credit for that event if the student performs in less than 50 percent of the event. Attendance at many non-departmental musical events may be credited toward the recital attendance requirement. To obtain credit, bring a ticket stub
and program to the music office. The Head of the Department of Music and Dance will determine whether or not the event qualifies for recital credit.

Critical Graduation Information:

The following are minimum requirements for all bachelor’s degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the 100-level and above. Courses with numbers below 100 will not be counted toward this degree requirement. **University Information:** Consult the online catalog at catalog.emich.edu.

**Applied Music**

**AMUS 115A - Secondary Applied Music**

Secondary applied music. May be repeated for credit.

**Credit Hours:** 1 hr

**AMUS 115B - Secondary Applied Music**

Secondary applied music. May be repeated for credit.

**Credit Hours:** 2 hrs

**AMUS 116A - Principal Applied Music**

Lower-level principal applied music. May be repeated for credit.

**Credit Hours:** 2 hrs

**AMUS 116B - Principal Applied Music**

Lower-level principal applied music. May be repeated for credit.

**Credit Hours:** 4 hrs

**AMUS 415A - Secondary Applied Music**

Upper-level secondary applied music. May be repeated for credit.

**Credit Hours:** 1 hr

**Prerequisite:** First semester of 400-level Applied Music must be approved by applied music teacher.

**AMUS 415B - Secondary Applied Music**

Upper-level secondary applied music. May be repeated for credit.

**Credit Hours:** 2 hrs

**Prerequisite:** First semester of 400-level Applied Music must be approved by applied music teacher.

**AMUS 416A - Principal Applied Music**
Upper-level principal applied music. May be repeated for credit.

**Credit Hours:** 2 hrs  
**Prerequisite:** First semester of 400-level Applied Music must be approved by applied music teacher.

**AMUS 416B - Principal Applied Music**

Upper-level principal applied music. May be repeated for credit.

**Credit Hours:** 4 hrs  
**Prerequisite:** First semester of 400-level Applied Music must be approved by applied music teacher.

**Dance**

**DANC 100 - Ballet I (Gen Ed Area IV)**

Introduces the theory and technique of classical ballet at the beginning level for the non-major student. Develops and maintains classical ballet technique at the beginning level and fosters understanding of ballet as an historical and contemporary art form.

**Credit Hours:** 3 hrs

**Area IV: Knowledge of the Disciplines**

**DANC 100 Ballet Fundamentals**  
Dance is the unspoken language of the human body common to all people in the global community. It existed as a means of communication before even the development of language. Ballet is the codification of western classical dance with its structure rooted deep in history and tradition and the forerunner of the other established dance forms. The study of ballet involves all the arts including music, theatrical production and visual elements. Students in DANC 100 will actively participate by dancing in a traditional classical ballet class. Through this participation and supplemental lectures, discussions, video viewings, students will learn how to critically view their own ballet perform aces and those of others; learn codified ballet vocabulary and how to embody that vocabulary kinesthetically; how to creatively and critically problem-solve with ballet movement; and the history of the art form.  
*Last Updated:* Fall 2010; effective Winter 2011

**DANC 101 - Jazz I**

Introduces the theory and technique of jazz dance at the beginning level for the nonmajor student. Develops and maintains jazz style and technique for the student at the beginning level and fosters a critical understanding of jazz as an historical and contemporary art form.

**Credit Hours:** 2 hrs

**DANC 102 - Modern Dance Fundamentals (Gen Ed Area IV)**

Introduces the theory and technique of modern dance at the beginning level for the non-major student. Designed to give students introductory experiences in modern dance as a contemporary performing art and fosters the critical understanding of modern dance as an historical and contemporary art form.

**Credit Hours:** 3 hrs
Area IV: Knowledge of the Disciplines

DANC 102 Fundamentals of Modern Dance
Modern Dance Fundamentals for non-majors meets the general education requirements for Arts in the knowledge of the disciplines. In this course, students will be introduced to the methodologies unique to the art form of modern dance. Modern dance, a form of human movement, provides a highly organized system for experiencing, organizing, creating, interpreting and evaluating the world around us. Modern dance embodies and perpetuates cultural values and traditions in a manner that is direct, universal and different from verbal forms of communication. In its close association with the human body, movement, space and time, modern dance can convey knowledge and meaning not learned through the study of other subjects. Modern dance communicates experiences common to all, and can convey contemporary cultural values such as those associated with the environment, patriotism, war or spirituality. In modern dance, personal and cultural meanings go far beyond mere, codified technique and entertainment. Through lectures, observation and experiential modes, students will learn how modern dance conveys personal and cultural meaning through qualities that are unique to modern dance.

Last Updated: Fall 2010; effective Winter 2011

DANC 103 - Tap I

Introduces the theory and technique of tap at the beginning level for the non-major student. Will develop and maintain tap technique and foster critical understanding of tap as an historical and contemporary art form.

Credit Hours: 2 hrs

DANC 104 - Hip-Hop Dance

An introduction to the theory and technique of hip-hop dance at the beginning level for the non-dance major student. Develops hip-hop technique and fosters understanding of hip-hop as a contemporary art form. Taught as a lecture/laboratory course.

Credit Hours: 2 hrs

DANC 105 - African Dance

The theory and technique of beginning African dance for the nonmajor dance student. Introduces students to African culture through traditional dance and music. Taught as a lecture/laboratory course.

Credit Hours: 2 hrs

DANC 106 - Introduction to the Performing Arts (Gen Ed Area IV)

A survey of the arts of dance, theatre and music; developing an understanding and appreciation of representative works in the three fields. The place of these arts in contemporary society and their contribution to a richer life. Attendance required at specific on-campus performances. This is a team taught course.

Credit Hours: 3 hrs

Area IV: Knowledge of the Disciplines

DANC 106 Introduction to Performing Arts
Introduction to the Performing Arts meets the general education requirement for Arts in the knowledge of the disciplines. The performing arts provide knowledge about the world and ways of experience it that contribute to an understanding that is both unique and different from those gained through other disciplines. The arts present insights about personal experiences common to
us all- experiences such as birth, love, conflict and death. They also convey cultural meanings and values, such as patriotism and war. In the arts, personal and cultural meanings go far beyond the enjoyment of beauty. The arts convey knowledge and meaning not learned through the study of other subjects. In this course, students will learn how the performing arts convey personal and cultural meaning in lived space and time through qualities such as movement and sound that are unique to dance, music and theatre, they will discover the rich and unique ways that meaning in the performing arts takes shape in specific mediums, genres and styles.

**DANC 107 - Rhythmic Analysis and Dance Accompaniment**

The study of rhythm, sound and music literature as related to the teaching and performing of dance. Assigned listening experiences and designated explorations of pertinent elements of music.

**Credit Hours:** 3 hrs

**DANC 108 - Classical Ballet Technique I for Dance Majors/Minors**

A lecture/laboratory class that introduces the theory and technique of beginning/intermediate classical ballet and fosters critical understanding of ballet as an art form at the dance major/minor level.

**Credit Hours:** 3 hrs

**DANC 109 - Classical Ballet Technique II for Dance Majors/Minors**

A lecture/laboratory class that introduces the theory and technique of intermediate classical ballet and fosters critical understanding of ballet as an art form at the dance major/minor level.

**Credit Hours:** 3 hrs

**Prerequisite:** DANC 108 or equivalent and/or permission

**Major Restrictions:** Dance major or minor only

**Last Updated:** Fall 2010; effective Winter 2011

**DANC 110 - Modern Dance I for Dance Majors/Minors**

A lecture/laboratory class that introduces the theory and technique of modern dance and fosters critical understanding of modern as an art form at the dance major/minor level.

**Credit Hours:** 3 hrs

**DANC 111 - Modern Dance II for Dance Majors/Minors**

A lecture/laboratory class that develops the theory and technique of modern dance and fosters critical understanding of modern as an art form at the dance major/minor level.

**Credit Hours:** 3 hrs

**Prerequisite:** DANC 110 or equivalent and/or permission

**Major Restrictions:** Dance major or minors only

**Last Updated:** Fall 2010; effective Winter 2011

**DANC 112 - Pilates Mat Exercises**
The theory and technique of beginning level Pilates technique for both the dance major/minor and nonmajor student. This course is designed to familiarize students with the technical, conceptual and historical foundations of Pilates, as applied to Pilates techniques.

**Credit Hours:** 2 hrs  
**Lecture/Lab Hours:** Class is conducted in a lecture/laboratory format.

**DANC 177 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 1 hr  
**Prerequisite:** Department permission  
**Last Updated:** Fall 2010; effective Winter 2011

**DANC 178 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 2 hrs  
**Prerequisite:** Department permission  
**Last Updated:** Fall 2010; effective Winter 2011

**DANC 179 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 3 hrs  
**Prerequisite:** Department permission  
**Last Updated:** 02/2011

**DANC 200 - Ballet II**

The continuance of beginning/intermediate ballet technique and theory for the nonmajor student.

**Credit Hours:** 2 hrs  
**Prerequisite:** DANC 100 and/or instructor permission  
**Last Updated:** Links 04/2011

**DANC 201 - Jazz II**

The continuance of beginning/intermediate jazz theory and technique for the nonmajor student.

**Credit Hours:** 2 hrs  
**Prerequisite:** DANC 101 and/or instructor permission  
**Last Updated:** Fall 2010; effective Winter 2011

**DANC 202 - Modern Dance II**
The continuance of beginning/intermediate modern theory and technique for the nonmajor student.

**DANC 208 - Classical Ballet Technique III**

Theory and technique of intermediate classical ballet.

**Credit Hours:** 2 hrs  
**Prerequisite:** DANC 102 and/or instructor permission  
**Last Updated:** Links 04/2011  

**DANC 209 - Classical Ballet Technique IV**

A continuation of the theory and technique of advanced and intermediate classical ballet.

**Credit Hours:** 3 hrs  
**Prerequisite:** DANC 208 or equivalent and/or permission  
**Major Restrictions:** Dance major and minors only  
**Last Updated:** Fall 2010; effective Winter 2011

**DANC 210 - Modern Dance Technique III**

A continuation of DANC 111. The theory and technique of intermediate modern dance.

**Credit Hours:** 3 hrs  
**Prerequisite:** DANC 111 or equivalent, and/or department permission  
**Major Restrictions:** Dance major and minors only  
**Last Updated:** Fall 2010; effective Winter 2011

**DANC 211 - Modern Dance Technique IV**

A continuation of DANC 210. The theory and technique of modern dance.

**Credit Hours:** 3 hrs  
**Prerequisite:** DANC 210 or equivalent, and/or department permission  
**Major Restrictions:** Dance major and minors only  
**Last Updated:** Fall 2010; effective Winter 2011

**DANC 214 - Pointe and Variations**

A study of beginning pointe techniques in classical ballet for students with a strong technical ballet base. Classical ballet variations with appropriate technique, theory, and history will also be learned. Taught as a lecture/laboratory.

**Credit Hours:** 2 hrs

**DANC 220 - Dance for the Elementary School Teacher**
In this course students will learn both the theoretical and historical underpinnings of dance as well as the practical applications of dance and creative movement to the implementation of elementary school instruction.

**Credit Hours:** 3 hrs

**DANC 245 - Elements of Dance Composition**

An introduction to the fundamentals of choreography, including the use of improvisation and the development of compositions. Exploration and manipulation of the elements of dance.

**Credit Hours:** 3 hrs

**Prerequisite:** DANC 107, DANC 111 or department permission

**Last Updated:** Links 04/2011

**DANC 255 - Dance Production**

A study of the fundamentals of dance production including publicity, planning and organization, set design and construction, stage lighting, sound effects, recording, costuming and stage makeup. Laboratory projects coordinated with dance productions.

**Credit Hours:** 3 hrs

**DANC 277 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 1 hr

**Prerequisite:** Department permission

**Last Updated:** Fall 2010; effective Winter 2011

**DANC 278 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 2 hrs

**Prerequisite:** Department permission

**Last Updated:** Fall 2010; effective Winter 2011

**DANC 279 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 3 hrs

**Prerequisite:** Department permission

**Last Updated:** Fall 2010; effective Winter 2011

**DANC 320 - Dance Workshop**
The Dance Workshop is proposed as an integral part of the dance curriculum because it synthesizes experiences from dance theory, technique and composition in the act of performance. As a practicum in rehearsal and performance, workshops are considered essential to the balance of the total curriculum.

Credit Hours: 1 hr

**DANC 331 - Service Teaching–Ballet**

Service teaching is designed to provide practical experience for students to assist in dance technique classes in the dance program. This experience should be under the direction of a qualified instructor and must be approved prior to registering.

Credit Hours: 1 hr

**DANC 333 - Service Teaching–Modern Dance**

Service teaching is designed to provide practical experience for students to assist in dance technique classes in the dance program. This experience should be under the direction of a qualified instructor and must be approved prior to registering.

Credit Hours: 1 hr

**DANC 350W - History of Dance: Prehistoric to Renaissance (Gen Ed Area I, W)**

A study of the historical development of Western theatrical dance from prehistoric times to the Renaissance, as well as the aesthetic, political, social and cultural contexts associated with the dances of these periods. Satisfies the first semester of a two semester writing for dance majors.

Credit Hours: 3 hrs
Class Restrictions: Junior standing or instructor permission

**DANC 351W - History of Dance: Romanticism to the Present (Gen Ed Area I, W)**

A study of the historical development of Western theatrical dance from the Romantic era to the present, as well as the political, social and cultural contexts associated with the dances of these periods.

Credit Hours: 3 hrs
Class Restrictions: Junior standing or instructor permission

**DANC 354 - Methods and Materials in Teaching of Dance**

A study of the methods and the use of materials in the teaching of dance idioms K-12. Modes and models that facilitate learning, lesson planning and vertical progression. Experiences in teaching and field observations.

Credit Hours: 3 hrs
Last Updated: Fall 2010; effective Winter 2011

**DANC 377 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.
Credit Hours: 1 hr  
Prerequisite: Department permission  
Last Updated: Fall 2010; effective Winter 2011

**DANC 378 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs  
Prerequisite: Department permission  
Last Updated: Fall 2010; effective Winter 2011

**DANC 379 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs  
Prerequisite: Department permission  
Last Updated: Fall 2010; effective Winter 2011

**DANC 422 - Dance Workshop**

The Dance Workshop is proposed as an integral part of the dance curriculum because it synthesizes experiences from dance theory, technique and composition in the act of performance. As a practicum in rehearsal and performance, workshops are considered essential to the balance of the total curriculum.

Credit Hours: 2 hr

**DANC 450 - Advanced Dance Composition**

An extension of the principles explored in DANC 245 with emphasis on structural development and experiences in the use of thematic materials, selected dance idioms, multimedia resources and group choreography. A choreographic work will be required of students.

Credit Hours: 4 hrs  
Prerequisite: DANC 245  
Last Updated: Fall 2010; effective Winter 2011

**DANC 455 - Seminar in Dance**

Current literature and dance research, trends in dance education and developments in contemporary concert dance. Lecture-discussion.

Credit Hours: 2 hrs  
Prerequisite: DANC 245, DANC 450 or department permission  
Last Updated: Links 04/2011

**DANC 456 - Creative Dance for Children**
Goals, concepts, materials and experiences to teach children’s creative dance.

**Credit Hours:** 2 hrs

**DANC 477 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 1 hr  
**Prerequisite:** Department permission  
**Last Updated:** Fall 2010; effective Winter 2011

**DANC 478 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 2 hrs  
**Prerequisite:** Department permission  
**Last Updated:** Fall 2010; effective Winter 2011

**DANC 479 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 3 hrs  
**Prerequisite:** department permission

**DANC 497 - Directed Study**

An opportunity for directed study in areas not provided in other course offerings, or greater depth of study in areas in which the student has a continuing interest. Students will be assigned to select faculty members for direction, consultation and evaluation of the completed study or project. Open only to department majors and minors who have attained junior standing, with a GPA of 3.0 or above, and who have completed the appropriate background courses.

**Credit Hours:** 1 hr  
**Prerequisite:** Department permission  
**Last Updated:** Fall 2010; effective Winter 2011

**DANC 498 - Directed Study**

An opportunity for directed study in areas not provided in other course offerings, or greater depth of study in areas in which the student has a continuing interest. Students will be assigned to select faculty members for direction, consultation and evaluation of the completed study or project. Open only to department majors and minors who have attained junior standing, with a GPA of 3.0 or above, and who have completed the appropriate background courses.

**Credit Hours:** 2 hrs  
**Prerequisite:** Department permission  
**Last Updated:** Fall 2010; effective Winter 2011
DANC 499 - Directed Study

An opportunity for directed study in areas not provided in other course offerings, or greater depth of study in areas in which the student has a continuing interest. Students will be assigned to select faculty members for direction, consultation and evaluation of the completed study or project. Open only to department majors and minors who have attained junior standing, with a GPA of 3.0 or above, and who have completed the appropriate background courses.

Credit Hours: 3 hrs
Prerequisite: Department permission
Last Updated: Fall 2010; effective Winter 2011

Music

MUSC 100 - Music Fundamentals (Gen Ed Area IV)

Designed for the nonmusic major, an introduction to the basic elements of music: notation of pitch and rhythm, intervals, scales, chords, tonality, and form. Includes beginning aural training. A preparatory course for the music major or minor deficient in music theory and aural skills.

Credit Hours: 3 hrs
Major Restrictions: Non-Music Majors

Area IV: Knowledge of the Disciplines

MUSC 100 Music Fundamentals
Music Fundamentals (MUSC 100) meets the Arts requirement for Knowledge of the Disciplines because students in this course learn the basic elements of music through the exploration of the underlying properties of organized sound. Enhanced critical perception is achieved through aural, verbal, and visual analysis, and accompanied by an understanding of historical, cultural, and stylistic influences. Through this course, students develop basic skills in musicianship and gain a multifaceted understanding of the musical arts.

Last Updated: Gen Ed Approval 12/2011, effective Winter 2012; Title and Course Description Change 10/2011, effective Winter 2012

MUSC 101 - Music Theory I

Integrated theory course dealing with perception, writing, analysis and performance of basic musical materials; stylistic comprehension of music of all periods.

Credit Hours: 3 hrs
Corequisites: MUSC 119
Major Restrictions: Music Majors and Minors only
Last Updated: Links 04/2011

MUSC 102 - Music Theory II

Continuation of MUSC 101.

Credit Hours: 3 hrs
Prerequisite: MUSC 101 (with a grade of C or better) and MUSC 119 (with a grade of C or better)
Corequisites: MUSC 129
MUSC 103 - Introduction to Music Therapy

Introductory survey of the various clientele served by music therapists, current career opportunities and exploration of interventions utilized by music therapists to achieve specific music therapy goals. Observation of Board Certified Music Therapists in hospital, clinical and school settings is required.

Credit Hours: 3 hrs

MUSC 105 - Appreciating Jazz: America's Music (Gen Ed Area IV)

Starting with the American Nineteenth Century, this course will examine the ways in which jazz evolved from vernacular and folk styles into an internationally recognized form of art music. Students will learn to aurally recognize performers and compositions from all of the major stylistic periods in jazz history and to recognize common song structures.

Credit Hours: 3 hrs

Area IV: Knowledge of the Disciplines

MUSC 105 - Appreciating Jazz: America's Music

Through this course, students will achieve a deeper understanding of how jazz is uniquely an American art music, learn how it came into being, and develop the skills and knowledge to appreciate the art and its practitioners. Student will also learn the fundamentals of music through the exploration of the underlying properties of organized sound such as melody, harmony, rhythm, texture and form.

Last Updated: Gen Ed Approval 5/2012, effective Winter 2013; Course Number Change 03/2012; New Course 01/2012, effective Winter 2012

MUSC 106 - Introduction to the Performing Arts (Gen Ed Area IV)

A survey of the arts of dance, theatre and music, that seeks to develop an understanding and appreciation of representative works in the three fields and an awareness of the place of these arts in contemporary society. Attendance required at specified on-campus performances.

Credit Hours: 3 hrs

Major Restrictions: Not open to Music Majors, Dance Majors or Theater Majors

Area IV: Knowledge of the Disciplines

MUSC 106 Introduction to Performing Arts

Introduction to the Performing Arts meets the general education requirement for Arts in the knowledge of the disciplines. The performing arts provide knowledge about the world and ways of experience it that contribute to an understanding that is both unique and different from those gained through other disciplines. The arts present insights about personal experiences common to us all—experiences such as birth, love, conflict and death. They also convey cultural meanings and values, such as patriotism and war. In the arts, personal and cultural meanings go far beyond the enjoyment of beauty. The arts convey knowledge and meaning not learned through the study of other subjects. In this course, students will learn how the performing arts convey personal and
cultural meaning in lived space and time through qualities such as movement and sound that are unique to dance, music and theatre, they will discover the rich and unique ways that meaning in the performing arts takes shape in specific mediums, genres and styles.

**MUSC 107 - Music Appreciation (Gen Ed Area IV)**

Guides the student in listening to and understanding various types, forms and styles of instrumental and vocal music of the world. Representative works of all periods and cultures, including contemporary developments, will be studied. Attendance at some concerts and recitals required.

**Credit Hours:** 3 hrs  
**Major Restrictions:** Non-Music Majors

**Area IV: Knowledge of the Disciplines**

**MUSC 107 Music Appreciation**

Music is a window into the values and identity of a culture- past and present. To understand a culture's music is to gain insight into the people who created it, who express themselves through it, and identify with it. Aesthetic education distinguishes people who have a university education. From the time of the ancient Greeks, music has been recognized as essential in the training of the mind, body and soul. Today, appreciation of music as an art form, and deeper understanding of the art of music, leads people to perceive qualities not found in the other arts.

MUSC 107 Music Appreciation guides the student in listening to and understanding various types, forms and styles of instrumental and vocal music of the world, representative works of all periods and cultures, including contemporary developments.

**MUSC 108 - World Music**

Designed for the non-music major, a study of the World's music. Basic musical concepts are used to explore diverse musical styles and their functions in cultures throughout the world. This course assumes no prior formal musical training.

**Credit Hours:** 3 hrs  
**Last Updated:** New Course 6/2012, effective Winter 2013

**MUSC 109 - Music Therapy Improvisation Ensemble I**

This introductory course will explore instrumental, vocal and movement improvisations. The student will gain insight into making personal-musical decisions and begin to explore the possible uses of improvisation in music therapy clinical practice.

**Credit Hours:** 1 hr  
**Prerequisite:** MUSC 103  
**Major Restrictions:** Students in Bachelor of Music Therapy or Post-Baccalaureate Certificate: Music Therapy Equivalency program only  
**Last Updated:** Links 04/2011

**MUSC 119 - Aural Skills I**

Development of fundamental sight-singing techniques as well as skills in notating performed melodic and harmonic musical examples. Objectives of the course parallel those of MUSC 101.

**Credit Hours:** 1 hr
Corequisites: MUSC 101
Major Restrictions: Music Majors and Minors only
Last Updated: Links 04/2011

MUSC 129 - Aural Skills II

A continuation of MUSC 119. Development of intermediate sight-singing techniques as well as skills in notating performed melodic and harmonic musical examples. Objectives of the course parallel those of MUSC 102.

Credit Hours: 1 hr
Prerequisite: MUSC 101 (with a grade of C or better) and MUSC 119 (with a grade of C or better)
Corequisites: MUSC 102
Major Restrictions: Music Majors and Minors only
Last Updated: Links and prerequisite changes 04/2011

MUSC 131 - University Choir

Open to all students by audition.

Credit Hours: 1 hr
Prerequisite: Audition
Last Updated: 03/2011

MUSC 136 - Chamber Choir

Open to all students by audition.

Credit Hours: 1 hr
Prerequisite: Audition
Last Updated: 03/2011

MUSC 149A - Athletic Band

Open to all students by audition. The Athletic Band performs for men’s and women’s basketball home games. Athletic Band is offered as a credit/non-credit course.

Credit Hours: 1 hr
Prerequisite: Audition
Notes: Only offered during the Winter semester.
Previously Listed As: MUSC 149
Last Updated: 03/2011

MUSC 149M - Marching Band

Open to all students by audition. EMU Marching Band performs at home football games and other events. Marching Band is offered as a graded course.

Credit Hours: 1 hr
Prerequisite: Audition
Notes: Only offered during the Fall semester.
MUSC 151 - Class Piano

Group instruction in piano for students with no previous keyboard experience.

Credit Hours: 2 hrs
Major Restrictions: Non-Music Majors only

MUSC 152 - Class Piano

Continuation of MUSC 151 with emphasis on the functional aspects of piano playing and elementary piano literature.

Credit Hours: 2 hrs
Prerequisite: MUSC 151 or by department permission
Major Restrictions: Non-Music Majors only
Last Updated: Links 04/2011

MUSC 177 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr
Prerequisite: department permission

MUSC 178 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs
Prerequisite: department permission

MUSC 179 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs
Prerequisite: department permission

MUSC 201 - Music Theory III

Continuation of MUSC 102 with more emphasis on harmonic, melodic, compositional and structural techniques of 16th through 20th centuries.

Credit Hours: 3 hrs
Prerequisite: MUSC 102 (with a grade of C or better) and MUSC 129 (with a grade of C or better)
Corequisites: MUSC 219
**MUSC 202 - Music Theory IV**

Continuation of MUSC 201.

- **Credit Hours:** 3 hrs
- **Prerequisite:** MUSC 201 (with a grade of C or better) and MUSC 219 (with a grade of C or better)
- **Corequisites:** MUSC 229
- **Major Restrictions:** Music Majors and Minors only
- **Last Updated:** Prerequisite change 05/2011, effective Fall 2011

**MUSC 209 - Music Therapy Improvisation Ensemble II**

This post-introductory course explores improvisatory skills on piano, guitar and in voice using the pentatonic, organum, sedative and blues styles.

- **Credit Hours:** 1 hr
- **Major Restrictions:** Students in Bachelor of Music Therapy or Post-Baccalaureate Certificate: Music Therapy Equivalency programs only

**MUSC 211 - Basic Brass Class**

The teaching and playing of trumpet and trombone.

- **Credit Hours:** 1 hr
- **Major Restrictions:** Music Majors and Minors only

**MUSC 212 - Brass Class**

The teaching and playing of French horn, euphonium and tuba.

- **Credit Hours:** 1 hr
- **Major Restrictions:** Music Majors and Minors only

**MUSC 219 - Aural Skills III**

A continuation of MUSC 129. Development of intermediate/advanced sight-singing techniques as well as skills in notating performed melodic and harmonic musical examples. Objectives of the course parallel those of MUSC 201. For music majors and minors. Taken concurrently with MUSC 201.

- **Credit Hours:** 1 hr
- **Prerequisite:** MUSC 102 (with a grade of C or better) and MUSC 129 (with a grade of C or better)
- **Corequisites:** MUSC 201
- **Last Updated:** Prerequisite change 05/2011, effective Fall 2011

**MUSC 220 - Music for the Elementary Teacher (Gen Ed Area IV)**

A course to prepare pre-service teachers to successfully use music as an integral and meaningful part of the elementary school curricula. In this experiential class, students will acquire the basic knowledge and skills to help young children 1) use music as a
means to express ideas, feelings and concerns 2) analyze music from both formal and contextual viewpoints and 3) develop an understanding of the unique role of music in human experiences, as well as the commonalities it shares with dance, drama and the visual arts.

**Credit Hours:** 3 hrs  
**Prerequisite:** Admission to the College of Education

MUSC 238 - Methods and Materials in Music Therapy

Study of resources available in music therapy and their systematic application to meet the treatment needs of children and adults with various dysfunctions.

Credit Hours: 3 hrs
Prerequisite: MUSC 236
Class Restrictions: Sophomore standing or above
Major Restrictions: Students in the Bachelor of Music Therapy or Bachelor of Music Therapy: Post-Baccalaureate Certificate: Music Therapy Equivalency programs only
Last Updated: Links 06/2011

MUSC 241 - Percussion
The teaching and playing of snare drum, tympani and keyboard percussion with an emphasis on group lesson techniques; survey of accessory instruments; introduction of methods, literature and use of the percussion ensemble.

**Credit Hours:** 1 hr  
**Major Restrictions:** Music Majors and Minors only

**MUSC 243 - Percussion Ensemble**

For students enrolled in applied music: percussion or department permission.

**Credit Hours:** 1 hr  
**Prerequisite:** Music majors and minors only

**MUSC 244 - Jazz Ensemble**

Large ensemble performance class dealing with the elements of ensemble techniques and improvisation with special emphasis on the function of jazz in music education.

**Credit Hours:** 1 hr  
**Prerequisite:** audition  
**Last Updated:** 04/2011; effective Spring 2011; 05/ 2011 description; effective 05/2011.

**MUSC 246 - String Ensemble**

Chamber music for strings.

**Credit Hours:** 1 hr  
**Prerequisite:** department permission

**MUSC 247 - Woodwind Ensemble**

Chamber music for woodwinds.

**Credit Hours:** 1 hr  
**Prerequisite:** department permission

**MUSC 248 - University Orchestra**

Open to all students by audition.

**Credit Hours:** 1 hr  
**Prerequisite:** audition

**MUSC 249 - University Band**

Wind band performance classes. Open to all students in the University. An audition is required for placement in the Wind Symphony, and may be required for the Symphonic Band.

**Credit Hours:** 1 hr  
**Prerequisite:** Audition  
**Last Updated:** 11/2008; effective Spring 2009
MUSC 250 - Jazz Combo

Small ensemble performance class dealing with various styles of jazz, emphasizing improvisation and chord reading. Open to all students by audition.

Credit Hours: 1 hr
Last Updated: 04/2011; effective Spring 2011

MUSC 251 - Functional Piano

Teaches keyboard skills necessary both for accompaniment of simple music and for developing musical understanding basic to all course work in music.

Credit Hours: 1 hr
Major Restrictions: Music Majors and Minors only

MUSC 252 - Functional Piano

Continuation of MUSC 251. Any break in the continuity of functional piano courses will require an audition before resumption of study.

Credit Hours: 1 hr
Prerequisite: MUSC 251
Major Restrictions: Music Majors and Minors only
Last Updated: Links 04/2011

MUSC 253 - Functional Piano

Continuation of MUSC 252. Stresses keyboard harmony, accompaniment, sight-reading, piano literature and technique. Any break in the continuity of functional piano courses will require an audition before resumption of study.

Credit Hours: 1 hr
Prerequisite: MUSC 252
Major Restrictions: Music Majors and Minors only
Last Updated: Links 04/2011

MUSC 254 - Functional Piano

Continuation of MUSC 253. Additional accompaniment experience, keyboard harmony, improvisation, piano literature and techniques. Any break in the continuity of functional piano courses will require an audition before resumption of study.

Credit Hours: 1 hr
Prerequisite: MUSC 253
Major Restrictions: Music Majors and Minors only
Last Updated: Links 04/2011

MUSC 261 - Basic String Class: Violin

The teaching and playing of the violin from a pedagogical approach. Small and large group instruction and current methods including rote and Suzuki approaches. Designed primarily for music education and music therapy majors.
MUSC 262 - String Class: Viola

Continuation of MUSC 261; teaching and playing of viola.

Credit Hours: 1 hr
Prerequisite: MUSC 261
Major Restrictions: Music Majors and Minors only
Last Updated: Links 04/2011

MUSC 263 - String Class: Cello and Double Bass

The teaching and playing of cello and double bass.

Credit Hours: 1 hr
Major Restrictions: Music Majors and Minors only

MUSC 271 - Beginning Classical Guitar

Group instruction in classical guitar through the study of standard beginning methods and repertoire.

Credit Hours: 2 hrs
Major Restrictions: Music Majors and Minors only

MUSC 272 - Intermediate Classical Guitar

Continuation of MUSC 271; group instruction in classical guitar through the study of standard intermediate methods and repertoire.

Credit Hours: 2 hrs
Prerequisite: MUSC 271
Major Restrictions: Music Majors and Minors only
Last Updated: Links 04/2011

MUSC 274 - Functional Guitar

Functional skills for playing guitar. Students will learn guitar notation, chords, and various accompaniment styles.

Credit Hours: 2 hrs
Major Restrictions: Music Majors and Minors only

MUSC 277 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr
Prerequisite: department permission
MUSC 278 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs
Prerequisite: department permission

MUSC 279 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs
Prerequisite: department permission

MUSC 281 - Basic Woodwind Class

The teaching and playing of clarinet.

Credit Hours: 1 hr
Major Restrictions: Music Majors and Minors only

MUSC 282 - Woodwind Class

The teaching and playing of flute and saxophone.

Credit Hours: 1 hr
Major Restrictions: Music Majors and Minors only

MUSC 283 - Woodwind Class

The teaching and playing of oboe and bassoon.

Credit Hours: 1 hr
Major Restrictions: Music Majors and Minors only

MUSC 301W - History of Music to 1750 (Gen Ed Area I, W)

Chronological study of western music in its historical and cultural setting. Recognition of idioms, changing sound, styles and forms of music in medieval, Renaissance and Baroque periods, approximately through 1750. In this course, you will accumulate music history vocabulary, concepts, and understanding as a basis for your developing musicianship and as a foundation of your professional expertise in music.

Credit Hours: 4 hrs
Prerequisite: MUSC 228
Class Restrictions: Junior standing
Major Restrictions: Students in MUSC, MUTR, MEDI, MEDV or MPRF programs only
For music majors, MUSC 301 History of Music satisfies the General Education Writing Intensive requirement. The course has been designed to use writing as a central aspect of the pedagogy, that is, you will write to learn music history. In addition, as an
upper level course for music majors, a significant goal of the course is preparation for professional writing in the field of music.

_Last Updated:_ 03/2009; effective Fall 2010

**MUSC 302 - History of Music**

A continuation of MUSC 301W (History of Music from 1750 to present), but without the Writing Intensive component.

_Credit Hours:_ 3 hrs  
_Prerequisite:_ MUSC 301W  
_Last Updated:_ Links 04/2011

**MUSC 303 - Music Therapy Clinical Approaches**

Provides an exploration of the music therapy literature as it relates to people who are diagnosed with various dysfunctions. Developed are music therapy leadership skills that are necessary to implement goal oriented sessions.

_Credit Hours:_ 2 hrs  
_Prerequisite:_ PSY 101 and PSY 103 and (MUSC 238 passed with at least a C-)  
_Class Restrictions:_ Junior standing or above  
_Major Restrictions:_ Students in the Bachelor of Music Therapy or Post-Baccalaureate Certificate: Music Therapy Equivalency programs only  
_Last Updated:_ Prerequisites 07/2011; Links 04/2011

**MUSC 304 - Music Therapy Professional Skills**

Exploration of professional skills needed by music therapists in a variety of clinical settings. Includes examination of music therapy literature, development of professional presentational skills and creation of a professional portfolio.

_Credit Hours:_ 2 hrs  
_Prerequisite:_ MUSC 303 and MUSC 323  
_Major Restrictions:_ Students in the Bachelor of Music Therapy or Post-Baccalaureate Certificate: Music Therapy Equivalency programs only  
_Last Updated:_ Links 04/2011

**MUSC 305 - Keyboard Skills**

Develops skills in sight reading, harmonization, transposition, improvisation and score reading.

_Credit Hours:_ 2 hrs  
_Prerequisite:_ MUSC 102 and MUSC 254 or department permission  
_Major Restrictions:_ Music Majors and Minors only  
_Last Updated:_ Links 04/2011

**MUSC 309 - Music Therapy Improvisation Ensemble III**

This course applies previously learned improvisatory skills to various approaches used in music therapy, including Orff Music Therapy, Nordoff-Robbins Music Therapy and music therapy in conjunction with other creative arts.

_Credit Hours:_ 1 hr  
_Prerequisite:_ MUSC 209  
_Major Restrictions:_ Students in the Bachelor of Music Therapy or Post-Baccalaureate Certificate: Music Therapy Equivalency programs only
MUSC 315 - Introduction to Digital Music

An introduction to the application of music technology in the studio and classroom. Hands-on lecture demonstrations and projects using digital instruments and software. For musicians interested in gaining a basic knowledge of digital technology.

Credit Hours: 2 hrs
Prerequisite: MUSC 202
Major Restrictions: Music majors only
Last Updated: 05/2011

MUSC 317 - Music Composition

Original writing and analysis of music, beginning with the smaller forms. May be repeated for credit.

Credit Hours: 2 hrs
Prerequisite: MUSC 202 and department permission
Last Updated: 04/2011

MUSC 323 - Pre-internship Clinical Training in Music Therapy III

Intermediate fieldwork experience in clinical or educational settings.

Credit Hours: 1 hr
Prerequisite: MUSC 237 and MUSC 238
Class Restrictions: Junior standing or above
Major Restrictions: Students in the Bachelor of Music Therapy or Post-Baccalaureate Certificate: Music Therapy Equivalency programs only
Last Updated: 05/11 - prerequisites; effective 05/11

MUSC 324 - Pre-internship Clinical Training in Music Therapy IV

Continuation of MUSC 323.

Credit Hours: 1 hr
Prerequisite: MUSC 323
Class Restrictions: Junior standing or above
Major Restrictions: Students in Bachelor of Music Therapy or Post-Baccalaureate Certificate: Music Therapy Equivalency programs only
Last Updated: 04/2011

MUSC 326 - Conducting

Fundamentals of conducting technique, score reading and interpretation of instrumental and vocal music.

Credit Hours: 2 hrs
Class Restrictions: Junior standing or above
Major Restrictions: Music Majors and Minors only
MUSC 327 - Instrumental Conducting

A practical course in instrumental conducting: score preparation, conducting technique and technical and musical issues pertaining to conducting instrumental works.

Credit Hours: 2 hrs
Prerequisite: MUSC 326
Major Restrictions: Music Majors and Minors only
Last Updated: Links 04/2011

MUSC 328 - Choral Conducting

A practical course in choral conducting: score preparation, conducting technique and technical and musical issues pertaining to conducting choral works.

Credit Hours: 2 hrs
Prerequisite: MUSC 326
Major Restrictions: Music Majors and Minors only
Last Updated: Links 04/2011

MUSC 330 - Music Education in the Elementary School

Organization, planning and teaching of elementary music, and examination, evaluation and preparation of materials based on child growth and development principles. Concurrent placement in schools for observation and prestudent teaching experience.

Credit Hours: 3 hrs
Prerequisite: MUSC 202, MUSC 254, MUSC 326 and Applied Music: AMUS 416A or AMUS 416B status (principal) and AMUS 415A or AMUS 415B status (secondary); requires admission into the College of Education; no students on academic probation.
Class Restrictions: Junior standing or above
Major Restrictions: Music Education Majors only
Terms Offered: Course Rotation Schedule
Last Updated: Link 10/12; Links 04/2011

MUSC 331 - Music Education in the Secondary School

Classification and training of voices; song interpretation; organization and administration of choral ensembles; evaluation of materials suitable for choral organizations and other classes in the secondary school; psychology and philosophy of music education.

Credit Hours: 3 hrs
Prerequisite: MUSC 202, MUSC 254, MUSC 326, MUSC 328 and Applied Music: AMUS 416A or AMUS 416B status (principal) and AMUS 415A or AMUS 415B status (secondary); requires admission into the College of Education; no students on academic probation
Class Restrictions: Junior standing or above
Major Restrictions: Vocal Music Education Majors only
Terms Offered: Course Rotation Schedule
Last Updated: Link 10/2012; Links 04/2011

MUSC 332 - Instrumental Music in the Public Schools
Prepares students to teach instrumental music: organization of beginning classes, selection of materials, techniques of teaching, public relations, and other areas of interest. Special emphasis placed on music for grades four through nine.

**Credit Hours:** 3 hrs  
**Prerequisite:** MUSC 326; require admission into the college of Education; no students on academic probation  
**Class Restrictions:** Junior standing and above  
**Major Restrictions:** Music Education Majors only  
**Terms Offered:** Course Rotation Schedule  
**Last Updated:** Link 10/2012; Links 04/2011

### MUSC 333 - Orchestral Methods

Designed to assist students in their preparation as orchestra directors; special problems relevant to the string orchestra, string ensembles, and the string curriculum in the secondary schools.

**Credit Hours:** 3 hrs  
**Prerequisite:** MUSC 327; requires admission into the College of Education; no students on academic probation  
**Class Restrictions:** Junior standing or above  
**Major Restrictions:** Instrumental Music Education Majors only  
**Terms Offered:** Course Rotation Schedule  
**Last Updated:** Link 10/2012; Links 04/2011

### MUSC 334 - Band Methods

Designed to assist students in their preparation as band directors in secondary schools; charting and drills for marching band; rehearsal procedures and selection of suitable materials for the concert band.

**Credit Hours:** 3 hrs  
**Prerequisite:** MUSC 327; requires admission into the College of Education; no students on academic probation  
**Class Restrictions:** Junior standing or above  
**Major Restrictions:** Instrumental Music Education Majors only  
**Terms Offered:** Course Rotation Schedule  
**Last Updated:** Link 10/2012; Links 04/2011

### MUSC 341 - Contrapuntal Techniques

Writing in polyphonic forms with concomitant analysis.

**Credit Hours:** 2 hrs  
**Prerequisite:** MUSC 202  
**Last Updated:** Links 04/2011

### MUSC 351 - Collegium Musicum

Early music ensemble. Open to all students by audition.

**Credit Hours:** 1 hr  
**Prerequisite:** Audition  
**Last Updated:** Links 04/2011

### MUSC 361 - Music for Piano Instruction
Study of method books and materials suitable for use with beginning- and intermediate-level students.

**Credit Hours:** 2 hrs  
**Major Restrictions:** Music Majors and Minors only

**MUSC 377 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 1 hr  
**Prerequisite:** Department permission  
**Last Updated:** Links 04/2011

**MUSC 378 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 2 hrs  
**Prerequisite:** Department permission  
**Last Updated:** Links 04/2011

**MUSC 379 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 3 hrs  
**Prerequisite:** Department permission  
**Last Updated:** Links 04/2011

**MUSC 387 - Cooperative Education in Music**

A cooperative work experience in the field of music.

**Credit Hours:** 3 hrs

**MUSC 401 - Music Theory-Literature V**

Integration of previous studies in theory-literature and music history; continued study and analysis of music from all periods; original, creative composition with special emphasis on contemporary style.

**Credit Hours:** 2 hrs  
**Prerequisite:** MUSC 202 (with a grade of C or better) and MUSC 229 (with a grade of C or better)  
**Last Updated:** Links 04/2011

**MUSC 402 - Music Theory-Literature VI**

Continuation of MUSC 401.
Credit Hours: 2 hrs
Prerequisite: MUSC 401
Last Updated: Links 04/2011

MUSC 404 - Psychology of Music

Exploration of physiologic, neurologic, social, affective and aesthetic influences of music on human behavior. Initial development of research ideas, topics and questions.

Credit Hours: 3 hrs

MUSC 405 - Music Therapy Research

Introduction to evaluation of empirical research in the field; examination of the continued need for investigation and documentation in the profession of music therapy. Completion of a quantitative research proposal.

Credit Hours: 3 hrs
Prerequisite: MUSC 404
Class Restrictions: Junior standing or above
Major Restrictions: Students in the Bachelor of Music Therapy or Post-Baccalaureate Certificate: Music Therapy Equivalency programs only
Last Updated: Links 04/2011

MUSC 409 - Music Therapy Improvisation Ensemble IV

This advanced-level course develops musical accompanying and verbal processing skills used in psychodynamic music therapy approaches.

Credit Hours: 1 hr
Prerequisite: MUSC 309
Class Restrictions: Junior standing or above
Major Restrictions: Students in the Bachelor of Music Therapy or Post-Baccalaureate Certificate: Music Therapy Equivalency programs only
Last Updated: Links 04/2011

MUSC 413 - Orchestration

Practical work in setting compositions for full orchestra and various other instrumental ensembles.

Credit Hours: 2 hrs
Prerequisite: MUSC 202 (with a grade of C or better) and MUSC 229 (with a grade of C or better)
Last Updated: Prerequisite Change 04/2012, effective Fall 2012; Links 04/2011

MUSC 427 - Pre-internship Clinical Training in Music Therapy V

Advanced fieldwork experience in clinical or educational settings.

Credit Hours: 1 hr
Prerequisite: MUSC 324
Class Restrictions: Junior standing or above
Major Restrictions: Students in the Bachelor of Music Therapy or Post-Baccalaureate Certificate: Music Therapy Equivalency
MUSC 428 - Pre-internship Clinical Training in Music Therapy VI

Advanced fieldwork experience continued.

Credit Hours: 1 hr  
Prerequisite: MUSC 427  
Class Restrictions: Junior standing or above  
Major Restrictions: Students in the Bachelor of Music Therapy or Post-Baccalaureate Certificate: Music Therapy Equivalency programs only  
Last Updated: Links 04/2011

MUSC 448 - Opera Workshop

A laboratory-performance course that deals with performance of opera scenes and, when feasible, complete works. Open to all students by audition.

Credit Hours: 1 hr  
Prerequisite: Audition  
Last Updated: Links 04/2011

MUSC 475 - Chamber Music Performance

Study and performance of literature for small chamber groups. May be repeated for credit.

Credit Hours: 1 hrs  
Last Updated: Credit hour change 05/2011, effective Fall 2011

MUSC 477 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr  
Prerequisite: Department permission  
Last Updated: Links 04/2011

MUSC 478 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs  
Prerequisite: Department permission  
Last Updated: Links 04/2011

MUSC 479 - Special Topics
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 3 hrs  
**Prerequisite:** Department permission  
**Last Updated:** Links 04/2011

**MUSC 488 - Clinical Training Internship in Music Therapy**

A minimum of 900 clock hours of supervised training in an approved hospital, clinical or educational setting.

**Credit Hours:** 2 hrs  
**Prerequisite:** MUSC 428; Completion of all other music therapy curriculum requirements and successful completion of guitar, keyboard and voice competency demonstrations  
**Major Restrictions:** Students in the Bachelor of Music Therapy or Post-Baccalaureate Certificate: Music Therapy Equivalency programs only  
**Last Updated:** Links 04/2011

**MUSC 490 - Honors Course in Music**

Provides superior students with the opportunity for an intensive program of independent study, original composition, performance or research.

**Credit Hours:** 2 hrs  
**Prerequisite:** Cumulative GPA of 3.5 in music courses and 3.2 in general education courses; regulations governing honors courses must be followed  
**Class Restrictions:** Senior standing

**MUSC 492 - Honors Course in Music**

Provides superior students with the opportunity for an intensive program of independent study, original composition, performance or research.

**Credit Hours:** 4 hrs  
**Prerequisite:** Cumulative GPA of 3.5 in music courses and 3.2 in general education courses; regulations governing honors courses must be followed  
**Class Restrictions:** Senior standing

**MUSC 497 - Independent Study**

Independent study, under the supervision of a department member, in areas in which the department does not offer a course.

**Credit Hours:** 1 hr  
**Prerequisite:** Department permission  
**Last Updated:** Links 04/2011

**MUSC 498 - Independent Study**

Independent study, under the supervision of a department member, in areas in which the department does not offer a course.

**Credit Hours:** 2 hrs
MUSC 499 - Independent Study

Independent study, under the supervision of a department member, in areas in which the department does not offer a course.

Credit Hours: 3 hrs
Prerequisite: Department permission
Last Updated: Links 04/2011
Physics and Astronomy Programs and Courses

Physics and Astronomy

Major

Engineering Physics Major

Students following this program will earn a bachelor of science degree with a major in physics and will have a strong background in engineering mechanics. Graduates will be well qualified to fill engineering-oriented positions. No minor is required.

Physics and Astronomy Department Information:

Interim Department Head: Alexandria Oakes
Department Contact: aoakes@emich.edu
Website: http://www.emich.edu/physics

Adviser Information:

Program Adviser: Dr. Alexandria Oakes
Email: aoakes@emich.edu
Phone: 734.487.8647

Program Adviser: Dr. Weidian Shen
Email: wshen@emich.edu
Phone: 734.487.8797

General Education Requirements:

For specific requirements refer to the General Education Program. Download the Gen Ed Checklist here.

Major Requirements: 62 hours

Required Math Courses: 18 hours

- MATH 120 - Calculus I (Gen Ed Area II) 4 hrs
- MATH 121 - Calculus II 4 hrs
- MATH 122 - Elementary Linear Algebra 3 hrs
- MATH 223 - Multivariable Calculus 4 hrs
- MATH 325 - Differential Equations 3 hrs

Required Physics Courses: 26 hours

- PHY 223 - Mechanics and Sound (Gen Ed Area IV) 5 hrs
- PHY 224 - Electricity and Light 5 hrs
- PHY 360 - Heat and Thermodynamics 4 hrs
- PHY 370 - Introduction to Modern Physics 3 hrs
- PHY 372 - Modern Physics Laboratory 1 hr
- PHY 406 - Ethical Issues in Physics 1 hr
- PHY 420W - Capstone Project (Gen Ed Area I, W) 3 hrs
- PHY 456 - Electronics for Scientists 4 hrs

Required Engineering Mechanics Courses: 11 hours

- PHY 229 - Strength and Elasticity of Materials 4 hrs
- PHY 230 - Engineering Dynamics 4 hrs
- PHY 485 - Fluid Dynamics 3 hrs

Physics Elective Courses: 7 hours

Seven hours from the following:

- PHY 332 - Mechanics Laboratory 1 hr
- PHY 350 - Electricity and Magnetism I 3 hrs
- PHY 431 - Intermediate Mechanics II 3 hrs
- PHY 436 - Vibration and Sound 4 hrs
- PHY 442 - Optics and Optics Laboratory 4 hrs
- PHY 444 - Applied Optics 2 hrs
- PHY 458 - Electronic Devices for Scientists 4 hrs
- PHY 471 - Atomic and Nuclear Physics 3 hrs
- PHY 475 - Introduction to Quantum Mechanics 3 hrs
- PHY 481 - Mathematical Physics 3 hrs
- PHY 497 - Independent Study — Physics 1 hr
- PHY 498 - Independent Study — Physics 2 hrs
- PHY 499 - Independent Study — Physics 3 hrs

Additional Requirements: 11 hours

- CHEM 121 - General Chemistry I (Gen Ed Area IV) 3 hrs
- CHEM 122 - General Chemistry I Laboratory (Gen Ed Area IV) 1 hr
- CHEM 123 - General Chemistry II 3 hrs
- CHEM 124 - General Chemistry II Laboratory 1 hr
- COSC 111 - Introduction to Programming 3 hrs

Minor Requirements:

This program does not require a minor.

Program Total:
Students must earn a minimum total of 124 credits at the 100-level or above.

Notes:

Each student must choose writing intensive courses as part of major completion requirements. Consult your adviser for course options.

Students desiring a mathematics minor must take MATH 211 - Introduction to Mathematical Proof (3 hrs) or MATH 360 - Statistical Methods (3 hrs) or MATH 370 - Probability and Statistics I (4 hrs) to complete the minor.

Critical Graduation Information:

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the **100-level and above**. Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Earn a minimum of 60 credits from a four-year college or university; **courses taken at community colleges cannot be used to meet this requirement**. (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 unique credit hours in their major and 20 unique credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
- Not more than 60 credit hours in one subject area (prefix) may be applied towards the minimum of 124 credit hours required for a bachelor's degree.
- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more than one major or minor.
  - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
  - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
  - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor.
- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is coordinated by the Office of Admissions, and additional documentation may be required.
- Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be earned in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

General Education Requirements:
EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available on the General Education section of the catalog: General Education

- For Students who began their undergraduate program at EMU in Fall 2007 or later or who have elected to follow the current ("new") General Education Program, follow the "For Students" link under the Current Program heading.
- For Students who began their undergraduate program at EMU before Fall 2007 and who have elected to follow the Pre-2007 General Education Requirements, follow the "General Education Program Prior to Fall 2007 (pdf file)" link under the Program Prior to Fall 2007 heading. Please note that students who wish to graduate under pre-2007 General Education requirements must graduate by August 2014; those who have not completed all degree requirements by that time will need to satisfy the current (Fall 2007) General Education requirements.

Students who transferred to EMU may have modified general education requirements based on MACRAO or articulation agreements; consult your academic adviser for additional information.

University Information: Consult the online catalog at catalog.emich.edu.

Group Major/Minor in General Science

This 56-hour major and minor combination encompasses five areas of study: biology, chemistry, earth science, mathematics and physics. Students must follow regular department requirements to complete a 20-hour cognate minor in one of the areas listed above and a 36-hour group major composed of courses from the other four areas.

Physics and Astronomy Department Information:

Interim Department Head: Alexandria Oakes
Department Contact: aoakes@emich.edu
Website: http://www.emich.edu/physics

Adviser Information:

Program Adviser: Dr. Bonnie Wylo
Email: bwylo@emich.edu
Phone: 734.487.8642

Program Advisor: Dr. Beth Kubitskey
Email: mkubitske1@emich.edu
Phone: 734.487.8798

General Education Requirements:

For specific requirements refer to the General Education Program. Download the Gen Ed Checklist here.

Group Major (32-36 hrs) with Cognate Minor (20-22): 52-58 hours

Cognate minor in one of the following five science areas: 20-22 hours

- Biology (22 hrs)
- Chemistry (20–21 hrs)
• Earth science (21 hrs)
• Mathematics (20 hrs)
• Physics (21 hrs)

Select courses for your minor in consultation with an adviser in the appropriate department.

Group Major: 32-36 hours

With a biology minor, take the following for a group major:

• Approved elective courses in chemistry, earth science, mathematics and physics (8 hrs)
  *see note
• ASTR 205 - Principles of Astronomy (Gen Ed Area IV) 4 hrs
• CHEM 121 - General Chemistry I (Gen Ed Area IV) 3 hrs
• CHEM 122 - General Chemistry I Laboratory (Gen Ed Area IV) 1 hr
• ESSC 110 - The Dynamic Earth System (Gen Ed Area IV) 4 hrs
• ESSC 212 - Weather, Climate and the Earth System 3 hrs
• MATH 105 - College Algebra (Gen Ed Area II) 3 hrs
• MATH 107 - Plane Trigonometry 2 hrs
• PHY 221 - Mechanics, Sound and Heat (Gen Ed Area IV) 4 hrs
• PHY 222 - Electricity and Light 4 hrs

With a chemistry minor, take the following for a group major:

• Approved elective courses in biology, earth science, mathematics and physics (4 hrs)
  *see note
• ASTR 205 - Principles of Astronomy (Gen Ed Area IV) 4 hrs
• BIO 105 - Introductory Biology for Non-majors (Gen Ed Area IV) 4 hrs
• ESSC 110 - The Dynamic Earth System (Gen Ed Area IV) 4 hrs
• ESSC 212 - Weather, Climate and the Earth System 3 hrs
• MATH 105 - College Algebra (Gen Ed Area II) 3 hrs
• MATH 107 - Plane Trigonometry 2 hrs
• PHY 221 - Mechanics, Sound and Heat (Gen Ed Area IV) 4 hrs
• PHY 222 - Electricity and Light 4 hrs

With an earth science minor, take the following for a group major:

• Approved elective courses in biology, chemistry, mathematics and physics (7 hrs)
  *see note
• ASTR 205 - Principles of Astronomy (Gen Ed Area IV) 4 hrs
• BIO 110 - Introductory Biology I (Gen Ed Area IV) 5 hrs
• CHEM 121 - General Chemistry I (Gen Ed Area IV) 3 hrs
• CHEM 122 - General Chemistry I Laboratory (Gen Ed Area IV) 1 hr
• MATH 105 - College Algebra (Gen Ed Area II) 3 hrs
• MATH 107 - Plane Trigonometry 2 hrs
• PHY 221 - Mechanics, Sound and Heat (Gen Ed Area IV) 4 hrs
• PHY 222 - Electricity and Light 4 hrs

With a mathematics minor, take the following for a group major:

• Approved elective courses in biology, chemistry, earth science and physics (5 hrs)
  *see note
• ASTR 205 - Principles of Astronomy (Gen Ed Area IV) 4 hrs
• BIO 110 - Introductory Biology I (Gen Ed Area IV) 5 hrs
• CHEM 121 - General Chemistry I (Gen Ed Area IV) 3 hrs
• CHEM 122 - General Chemistry I Laboratory (Gen Ed Area IV) 1 hr
• ESSC 110 - The Dynamic Earth System (Gen Ed Area IV) 4 hrs
• ESSC 212 - Weather, Climate and the Earth System 3 hrs
• PHY 221 - Mechanics, Sound and Heat (Gen Ed Area IV) 4 hrs
• PHY 222 - Electricity and Light 4 hrs

With a physics minor, take the following for a group major:

• Approved elective courses in biology, chemistry, earth science and mathematics (5 hrs)
  *see note
• ASTR 205 - Principles of Astronomy (Gen Ed Area IV) 4 hrs
• BIO 110 - Introductory Biology I (Gen Ed Area IV) 5 hrs
• CHEM 121 - General Chemistry I (Gen Ed Area IV) 3 hrs
• CHEM 122 - General Chemistry I Laboratory (Gen Ed Area IV) 1 hr
• ESSC 110 - The Dynamic Earth System (Gen Ed Area IV) 4 hrs
• ESSC 212 - Weather, Climate and the Earth System 3 hrs
• MATH 120 - Calculus I (Gen Ed Area II) 4 hrs
• MATH 121 - Calculus II 4 hrs

Minor Requirements:

This program requires a minor. Please contact your program adviser for a list of possible minors.

Program Total:

Students must earn a minimum total of 124 credits at the 100-level or above.

Notes:

*Each student must choose a writing intensive course as part of major completion requirements. Consult your adviser for course options.*

*Approved Elective Courses:

This list is not complete; consult with the general science adviser for other possible courses.

• ASTR 204 - Astronomical Investigations (Gen Ed Area IV) 1 hr
• BIO 205 - Field Biology 4 hrs
• BIO 130 - Biology of Plants 4 hrs
• BIO 140 - Biology of Animals 4 hrs
• CHEM 123 - General Chemistry II 3 hrs
• CHEM 124 - General Chemistry II Laboratory 1 hr
• CHEM 270 - Survey of Organic Chemistry 4 hrs
• CHEM 271 - Organic Chemistry Laboratory 1 hr
• COSC 145 - Introduction to FORTRAN Programming 3 hrs
• ESSC 114 - Geology of the National Parks (Gen Ed Area IV) 4 hrs
• ESSC 228 - Mineralogy 4 hrs
• ESSC 229 - Rocks and Minerals 3 hrs
• ESSC 320 - Oceanography 3 hrs
• MATH 120 - Calculus I (Gen Ed Area II) 4 hrs
• MATH 121 - Calculus II 4 hrs
• MATH 122 - Elementary Linear Algebra 3 hrs
• MATH 223 - Multivariable Calculus 4 hrs
• PHY 330 - Intermediate Mechanics I 3 hrs
• PHY 370 - Introduction to Modern Physics 3 hrs
• PHY 372 - Modern Physics Laboratory 1 hr
• PSCI 270 - Relativity, Atomic and Nuclear Physics 3 hrs
• PSCI 305 - Energy and Society 3 hrs
• PSCI 309 - Thermal Science and Heat Transfer 3 hrs
• PSCI 340 - Milestones in Physics and Astronomy for Teachers 3 hrs

Critical Graduation Information:

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

• Earn a minimum total of 124 credits at the 100-level and above. Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.
• Meet the requirements of the General Education program (see information below).
• Earn a minimum of 60 credits from a four-year college or university; courses taken at community colleges cannot be used to meet this requirement. (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
• Earn a minimum of 30 credits from courses taken at EMU.
• Complete 10 of the last 30 hours for the degree from courses taken at EMU.
• Have a minimum of 30 unique credit hours in their major and 20 unique credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
• Not more than 60 credit hours in one subject area (prefix) may be applied towards the minimum of 124 credit hours required for a bachelor's degree.
• Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more than one major or minor.
  ○ Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor.

- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is coordinated by the Office of Admissions, and additional documentation may be required.
- Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be earned in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

**General Education Requirements:**

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available on the General Education section of the catalog: General Education

- For Students who began their undergraduate program at EMU in Fall 2007 or later or who have elected to follow the current ("new") General Education Program, follow the "For Students" link under the Current Program heading.
- For Students who began their undergraduate program at EMU before Fall 2007 and who have elected to follow the Pre-2007 General Education Requirements, follow the "General Education Program Prior to Fall 2007 (pdf file)" link under the Program Prior to Fall 2007 heading. **Please note that students who wish to graduate under pre-2007 General Education requirements must graduate by August 2014; those who have not completed all degree requirements by that time will need to satisfy the current (Fall 2007) General Education requirements.**

Students who transferred to EMU may have modified general education requirements based on MACRAO or articulation agreements; consult your academic adviser for additional information.

**University Information:** Consult the online catalog at catalog.emich.edu.

**Physics Major**

This major is provided for students who desire a general cultural education with an emphasis on physics, who are preparing for work in another field such as premedicine or prelaw, or who are interested in combining physics with an allied field such as biology, chemistry, astronomy, geology or with the field of business.

**Physics and Astronomy Department Information:**

Interim Department Head: Alexandria Oakes
Department Contact: aoakes@emich.edu

**Adviser Information:**

Program Adviser: Dr. Marshall Thomsen
Email: jthomsen@emich.edu
Phone: 734.487.8794

Program: David Pawlowski
Email: dpawlows@emich.edu
Phone: 734.487.8644
General Education Requirements:

For specific requirements refer to the General Education Program. Download the Gen Ed Checklist here.

Major Requirements: 33 hours

Required Courses: 29 hours

- PHY 223 - Mechanics and Sound (Gen Ed Area IV) 5 hrs
- PHY 224 - Electricity and Light 5 hrs
- PHY 330 - Intermediate Mechanics I 3 hrs
- PHY 332 - Mechanics Laboratory 1 hr
- PHY 350 - Electricity and Magnetism I 3 hrs
- PHY 360 - Heat and Thermodynamics 4 hrs
- PHY 370 - Introduction to Modern Physics 3 hrs
- PHY 372 - Modern Physics Laboratory 1 hr
- PHY 406 - Ethical Issues in Physics 1 hr
- PHY 420W - Capstone Project (Gen Ed Area I, W) 3 hrs

Restricted Elective Courses: 2-4 hours

One Laboratory course from the following:

- PHY 436 - Vibration and Sound 4 hrs
- PHY 442 - Optics and Optics Laboratory 4 hrs
- PHY 444 - Applied Optics 2 hrs
- PHY 456 - Electronics for Scientists 4 hrs

Elective Courses: 0-2 hours

Only physics or astronomy undergraduate courses numbered greater than 299 can be used as electives on this major, excluding ASTR 311, PHY 311, PHY 312 and PHY 325 which cannot be used on this major.

Additional Requirements: 18 hours

- COSC 111 - Introduction to Programming 3 hrs
- MATH 120 - Calculus I (Gen Ed Area II) 4 hrs
- MATH 121 - Calculus II 4 hrs
- MATH 122 - Elementary Linear Algebra 3 hrs
- MATH 223 - Multivariable Calculus 4 hrs

Minor Requirements:
This program requires a minor. Please contact your program adviser for a list of possible minors. A mathematics minor is highly recommended.

Program Total:

Students must earn a minimum total of 124 credits at the 100-level or above.

Note:

Each student must choose writing intensive courses as part of major completion requirements. Consult your adviser for course options.

Critical Graduation Information:

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the **100-level and above. Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement.** A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Earn a minimum of 60 credits from a four-year college or university; **courses taken at community colleges cannot be used to meet this requirement.** (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 **unique** credit hours in their major and 20 **unique** credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
- Not more than 60 credit hours in one subject area (prefix) may be applied towards the minimum of 124 credit hours required for a bachelor's degree.
- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more that one major or minor.
  - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor.
  - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
  - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor.
- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is coordinated by the Office of Admissions, and additional documentation may be required.
Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be earned in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

**General Education Requirements:**

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas. It does not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available on the General Education section of the catalog:

- For Students who began their undergraduate program at EMU in Fall 2007 or later or who have elected to follow the current ("new") General Education Program, follow the "For Students" link under the Current Program heading.
- For Students who began their undergraduate program at EMU before Fall 2007 and who have elected to follow the Pre-2007 General Education Requirements, follow the "General Education Program Prior to Fall 2007 (pdf file)" link under the Program Prior to Fall 2007 heading. Please note that students who wish to graduate under pre-2007 General Education requirements must graduate by August 2014; those who have not completed all degree requirements by that time will need to satisfy the current (Fall 2007) General Education requirements.

Students who transferred to EMU may have modified general education requirements based on MACRAO or articulation agreements; consult your academic adviser for additional information.

**University Information:** Consult the online catalog at catalog.emich.edu.

**Physics Research Major**

The physics research major provides the necessary background for those planning to become professional physicists. The requirements listed below ensure adequate depth and breadth of subject matter in both theoretical and experimental physics and in mathematics. Students successfully completing this major are prepared to enter technical positions in government or industrial research, or to undertake graduate study in physics. Further work at the graduate level is highly recommended. No minor is required.

**Physics and Astronomy Department Information:**

Interim Department Head: Alexandria Oakes
Department Contact: aoakes@emich.edu
Website: http://www.emich.edu/physics

**Adviser Information:**

Program Adviser: Dr. Patrick Koehn
Email: pkoehn@emich.edu

Phone: 734.487.8645

Program Adviser: Weidian Shen
Email: wade.shen@emich.edu
Phone: 734.487.8797

**General Education Requirements:**
Additional Requirements: 7 hours

- CHEM 121 - General Chemistry I (Gen Ed Area IV) 3 hrs
- CHEM 122 - General Chemistry I Laboratory (Gen Ed Area IV) 1 hr
- COSC 111 - Introduction to Programming 3 hrs

Major Requirements: 57 hours

Required Mathematics Courses: 18 hours

- MATH 120 - Calculus I (Gen Ed Area II) 4 hrs
- MATH 121 - Calculus II 4 hrs
- MATH 122 - Elementary Linear Algebra 3 hrs
- MATH 223 - Multivariable Calculus 4 hrs
- MATH 325 - Differential Equations 3 hrs

Required Physics Courses: 32 hours

- PHY 223 - Mechanics and Sound (Gen Ed Area IV) 5 hrs
- PHY 224 - Electricity and Light 5 hrs
- PHY 330 - Intermediate Mechanics I 3 hrs
- PHY 332 - Mechanics Laboratory 1 hr
- PHY 350 - Electricity and Magnetism I 3 hrs
- PHY 360 - Heat and Thermodynamics 4 hrs
- PHY 370 - Introduction to Modern Physics 3 hrs
- PHY 372 - Modern Physics Laboratory 1 hr
- PHY 406 - Ethical Issues in Physics 1 hr
- PHY 420W - Capstone Project (Gen Ed Area I, W) 3 hrs
- PHY 475 - Introduction to Quantum Mechanics 3 hrs

Restricted Elective Courses: 2-4 hours

One of the following laboratory courses:

- PHY 436 - Vibration and Sound 4 hrs
- PHY 442 - Optics and Optics Laboratory 4 hrs
- PHY 444 - Applied Optics 2 hrs
- PHY 456 - Electronics for Scientists 4 hrs

Elective Courses: 3-5 hours

Only ASTR and PHY undergraduate courses numbered greater than 299 can be used as electives on this major, excluding ASTR 311, PHY 311, PHY 312 and PHY 325 which can never be used on this major. For those planning to pursue graduate studies in physics, PHY 450 - Electricity and Magnetism II is strongly recommended.
Minor Requirements:

This program does not require a minor.

Program Total:

Students must earn a minimum total of 124 credits at the 100-level or above.

Note:

Each student must choose writing intensive courses as part of major completion requirements. Consult your adviser for course options.

Students desiring a mathematics minor must take MATH 211 - Introduction to Mathematical Proof (3 hrs) or MATH 360 - Statistical Methods (3 hrs) or MATH 370 - Probability and Statistics I (4 hrs) to complete the minor.

Critical Graduation Information:

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the 100-level and above. Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Earn a minimum of 60 credits from a four-year college or university; courses taken at community colleges cannot be used to meet this requirement. (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 unique credit hours in their major and 20 unique credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
- Not more than 60 credit hours in one subject area (prefix) may be applied towards the minimum of 124 credit hours required for a bachelor's degree.
- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more than one major or minor.
  - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
  - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
  - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor.
- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S.
institutions; the internal review of such courses is coordinated by the Office of Admissions, and additional documentation may be required.

- Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be earned in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

General Education Requirements:

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available on the General Education section of the catalog: General Education

- For Students who began their undergraduate program at EMU in Fall 2007 or later or who have elected to follow the current ("new") General Education Program, follow the "For Students" link under the Current Program heading.

- For Students who began their undergraduate program at EMU before Fall 2007 and who have elected to follow the Pre-2007 General Education Requirements, follow the "General Education Program Prior to Fall 2007 (pdf file)" link under the Program Prior to Fall 2007 heading. Students who transferred to EMU may have modified general education requirements based on MACRAO or articulation agreements; consult your academic adviser for additional information.

University Information: Consult the online catalog at catalog.emich.edu.

Secondary Education Integrated Science Comprehensive Group Major

The preparation of Integrated Science teachers includes courses in the three major categories of science identified in the Michigan Curriculum Framework: life, physical and Earth/space science. Candidates who apply for the secondary integrated science endorsement must pass the Michigan Test for Teacher Certification in integrated science at the secondary level. Successful completion of this course of study, in the context of other program requirements, qualifies the student for recommendation for the Michigan Department of Education Secondary Provisional Certificate endorsed in integrated science, certification code DI. The Michigan Test for Teacher Certification (MTTC) covering this field is #094, “Integrated Science (Secondary).”

Phone: 734.487.8798
Initial Teacher Preparation Program Admission

In order to pursue the sequence of courses necessary to complete eligibility for recommendation for certification, one must apply for and be admitted to the teacher preparation program. Admission requirements are common for all teacher preparation programs, except that certain special education programs have additional requirements.

Each undergraduate student is responsible for applying to the teacher preparation program immediately after the semester in which the student has earned 56 credit hours. Transfer students with more than 56 credit hours should apply immediately after the semester in which they have earned 12 hours at EMU, including at least one course in their major. Students with 56 hours of transfer course work with a decision GPA of 3.0 may apply for admission to the teacher preparation program without 12 earned hours at EMU.

Admission to the teacher preparation program is not automatic. Only those persons who have formally applied are considered for admission. Not all persons who apply become eligible for admission.

Applications for the Initial Teacher Preparation Program at EMU are available within your my.emich account under the "Student" tab. Submit your completed application to the Office of Academic Services once you have earned 56 credit hours.

Teaching majors and minors are unofficial until program admission. Students pursuing teacher certification should follow the catalog that exists at the time of program admission. It is important that students apply to the teacher preparation program as soon as they have earned 56 credit hours.

Criteria

1. Completion of 56 credit hours

2. Appropriate cumulative GPA. One of:
   1. An overall EMU GPA of 2.5 or higher. At least 12 of the 56 credit hours taken at EMU with an EMU GPA of 2.5 or higher in your major (each of your majors if declaring a double major). You must complete at least one course in your major(s) in order to be eligible.
   2. Transferred 56 credits with a cumulative 3.0 GPA from all previous institutions.

3. A grade of “C” or higher (if taken) in the following courses:
   1. Secondary: ENGL 121, CTAC 124, quantitative reasoning, one lab science, all professional education courses, and, if special education, PSY 101.
   2. Elementary: ENGL 121, CTAC 124, MATH 108, MATH 110E, PHY 100, CHEM 101, ESSC 202, all of the professional education courses, all courses that state “for elementary teachers,” and, if special education, PSY 101.

4. Passing scores on all three sections of the Michigan Test for Teacher Certification Basic Skills Test (MTTC) (reading, mathematics, and writing). Official score report must be on file at Eastern Michigan University.

5. Personal statement about your experiences with youth/children and why you are going into teaching. This statement will be read for content, grammar, and punctuation.

6. Completion of a Disposition Self Evaluation Form.

7. ICHAT criminal background check and Statement of Civil/Criminal Convictions. If you answered yes to any of the civil/criminal conviction questions on the application, you will need to provide:
   1. A copy of the Judgment of Sentence, or Registrar of Actions, or Certification of Conviction.
2. A written explanation of the offense(s). Application of students with civil/criminal convictions will be carefully reviewed and may take longer to process.

8. Meet academic, social, moral, and financial obligations as a member of the EMU community.

General Education Requirements:

For specific requirements refer to the General Education Program. Download the Gen Ed Checklist here.

Comprehensive Major Requirements: 57 hours

Life Sciences Courses: 14 hours

- BIO 110 - Introductory Biology I (Gen Ed Area IV) 5 hrs
- BIO 120 - Introductory Biology II 5 hrs
- BIO 226 - Global Ecology and the Environment 4 hrs

Physical Sciences Courses: 20 hours

- CHEM 120 - Fundamentals of Organic and Biochemistry (Gen Ed Area IV) 4 hrs
- CHEM 121 - General Chemistry I (Gen Ed Area IV) 3 hrs
- CHEM 122 - General Chemistry I Laboratory (Gen Ed Area IV) 1 hr
- CHEM 123 - General Chemistry II 3 hrs
- CHEM 124 - General Chemistry II Laboratory 1 hr
- PHY 221 - Mechanics, Sound and Heat (Gen Ed Area IV) 4 hrs
- PHY 222 - Electricity and Light 4 hrs

Earth/Space Sciences Courses: 18 hours

- ASTR 205 - Principles of Astronomy (Gen Ed Area IV) 4 hrs
- ASTR 315 - Observational Astronomy 3 hrs
- ESSC 110 - The Dynamic Earth System (Gen Ed Area IV) 4 hrs
- ESSC 111 - The Earth System through Time 4 hrs
- ESSC 212 - Weather, Climate and the Earth System 3 hrs

Additional Required Courses: 5-6 hours

Choose one option from the following:

Option I:

- MATH 107 - Plane Trigonometry 2 hrs
- MATH 119 - Applied Calculus (Gen Ed Area II) 3 hrs
Option II:

- MATH 120 - Calculus I (Gen Ed Area II) 4 hrs

And one course from the following:

- BIO 406 - The Nature of Science 1 hr
- CHEM 406 - The Nature of Science 1 hr
- ESSC 406 - The Nature of Science 1 hr
- PHY 406 - Ethical Issues in Physics 1 hr

Professional Secondary Education Sequence

Secondary Education Pre-Admission Phase: The Learner and the Community: 7 hours

Prerequisite: Sophomore standing or higher.

- EDPS 322 - Human Development and Learning 4 hrs
- SPGN 251 - Education of Students with Exceptionalities 3 hrs

The following phases require formal admission to the Initial Teacher Preparation Program:

Secondary Education Phase I: Curriculum, Assessment and the Social Context: 15 hours

Prerequisite: Completion of Pre-Admission Phase is required.

* These two courses must be taken together.
** These courses must be taken with or after CURR 305.

- * CURR 305 - Curriculum and Methods: Secondary 3 hrs
- ** EDMT 330 - Instructional Applications of Media and Technology 3 hrs
- ** EDPS 340 - Introduction to Assessment and Evaluation 3 hrs
- * PRCT 305 - Practicum I: Secondary 3 hrs
- SOFD 328W - Schools for a Diverse and Democratic Society (Gen Ed Area I, W) 3 hrs

Secondary Education Phase II: Content and Methods and Teaching: 9 hours

Prerequisite: Completion of Phase I is required.

* These two courses must be taken together.

- * PRCT 311 - Practicum II: Secondary 3 hrs
•  * RDNG 311 - Teaching Reading in the Secondary School 3 hrs

**Methods Course by Major:**

Integrated Science Comprehensive Group Majors take one of:

- BIOT 403 - Methods for Teaching Secondary Biology 3 hrs
- CHEM 325 - Methodology for Secondary Chemistry Teachers 3 hrs
- ESSC 347 - Methods for Teaching Secondary Earth Science 3 hrs
- PHY 325 - Methods of Teaching the Physical Sciences 3 hrs

**Secondary Education Phase III: Capstone Experience: 9 hours**

*Prerequisite: Completion of Phase II and 100 pre-student teaching hours is required.*

- EDUC 492 - Student Teaching 9 hrs
  This course requires a formal application to be submitted 7-8 months prior to the Student Teaching semester.

**Minor Requirements:**

This program does not require a minor.

**Program Total:**

Students must earn a minimum total of 124 credits at the 100-level or above.

**MTTC Subject Area Test**

*Starting January 1, 2013, Students seeking licensure in a secondary or K-12 area are not required to take the MTTC subject area test in their minor area. Students who elect not to take the test in their minor will be required to sign a statement indicating that they understand that they will not be endorsed in their minor area and will not be eligible for teaching positions in their minor unless they pass the minor subject area test within five years of completing field experience and course requirements.*

**Notes:**

*Each student must choose writing intensive courses as part of major completion requirements. Consult your adviser for course options.*

*The below requirement for students to complete a minimum number of credits at the 300-level or higher is waived for this major. The requirement is met through the Initial Teacher Preparation Program (ITPP).*

**Critical Graduation Information:**

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.
• Earn a minimum total of 124 credits at the 100-level and above. Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.

• Meet the requirements of the General Education program (see information below).
• Earn a minimum of 60 credits from a four-year college or university; courses taken at community colleges cannot be used to meet this requirement. (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
• Earn a minimum of 30 credits from courses taken at EMU.
• Complete 10 of the last 30 hours for the degree from courses taken at EMU.
• Have a minimum of 30 unique credit hours in their major and 20 unique credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
• Not more than 60 credit hours in one subject area (prefix) may be applied towards the minimum of 124 credit hours required for a bachelor's degree.
• Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below—these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more than one major or minor.
  ○ Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
  ○ Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
  ○ Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor.
• Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is coordinated by the Office of Admissions, and additional documentation may be required.
• Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be earned in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

General Education Requirements:

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available on the General Education section of the catalog: General Education

• For Students who began their undergraduate program at EMU in Fall 2007 or later or who have elected to follow the current ("new") General Education Program, follow the "For Students" link under the Current Program heading.
• For Students who began their undergraduate program at EMU before Fall 2007 and who have elected to follow the Pre-2007 General Education Requirements, follow the "General Education Program Prior to Fall 2007 (pdf file)" link under the Program Prior to Fall 2007 heading. Please note that students who wish to graduate under pre-2007 General Education requirements must graduate by August 2014; those who have not completed all degree requirements by that time will need to satisfy the current (Fall 2007) General Education requirements.

Students who transferred to EMU may have modified general education requirements based on MACRAO or articulation agreements; consult your academic adviser for additional information.

University Information: Consult the online catalog at catalog.emich.edu.

Secondary Education Physical Science Comprehensive Major
A comprehensive Secondary Physical Science Endorsement prepares candidates to teach physical science courses as identified in the Michigan Curriculum Framework. A minor is not required in this comprehensive group major. The preparation of physical science teachers includes courses in all of the major categories of science with a strong focus on basic chemistry and physics. Successful completion of this course of study, in the context of other program requirements, qualifies the student for recommendation for the Michigan Department of Education Secondary Provisional Certificate endorsed in Physical Science (DP). The Michigan Test for Teacher Certification (MTTC) covering this field is #097, "Physical Science."

Initial Teacher Preparation Program Admission

In order to pursue the sequence of courses necessary to complete eligibility for recommendation for certification, one must apply for and be admitted to the teacher preparation program. Admission requirements are common for all teacher preparation programs, except that certain special education programs have additional requirements.

Each undergraduate student is responsible for applying to the teacher preparation program immediately after the semester in which the student has earned 56 credit hours. Transfer students with more than 56 credit hours should apply immediately after the semester in which they have earned 12 hours at EMU, including at least one course in their major. Students with 56 hours of transfer course work with a decision GPA of 3.0 may apply for admission to the teacher preparation program without 12 earned hours at EMU.

Admission to the teacher preparation program is not automatic. Only those persons who have formally applied are considered for admission. Not all persons who apply become eligible for admission.

Applications for the Initial Teacher Preparation Program at EMU are available within your my.emich account under the "Student" tab. Submit your completed application to the Office of Academic Services once you have earned 56 credit hours.

Teaching majors and minors are unofficial until program admission. Students pursuing teacher certification should follow the catalog that exists at the time of program admission. It is important that students apply to the teacher preparation program as soon as they have earned 56 credit hours.

Criteria

1. Completion of 56 credit hours

2. Appropriate cumulative GPA. One of:
1. An overall EMU GPA of 2.5 or higher. At least 12 of the 56 credit hours taken at EMU with an EMU GPA of 2.5 or higher in your major (each of your majors if declaring a double major). You must complete at least one course in your major(s) in order to be eligible.

2. Transferred 56 credits with a cumulative 3.0 GPA from all previous institutions.

3. A grade of “C” or higher (if taken) in the following courses:
   1. Secondary: ENGL 121, CTAC 124, quantitative reasoning, one lab science, all professional education courses, and, if special education, PSY 101.
   2. Elementary: ENGL 121, CTAC 124, MATH 108, MATH 110E, PHY 100, CHEM 101, ESSC 202, all of the professional education courses, all courses that state “for elementary teachers,” and, if special education, PSY 101.

4. Passing scores on all three sections of the Michigan Test for Teacher Certification Basic Skills Test (MTTC) (reading, mathematics, and writing). Official score report must be on file at Eastern Michigan University.

5. Personal statement about your experiences with youth/children and why you are going into teaching. This statement will be read for content, grammar, and punctuation.

6. Completion of a Disposition Self Evaluation Form.

7. ICHAT criminal background check and Statement of Civil/Criminal Convictions. If you answered yes to any of the civil/criminal conviction questions on the application, you will need to provide:
   1. A copy of the Judgment of Sentence, or Registrar of Actions, or Certification of Conviction.
   2. A written explanation of the offense(s). Application of students with civil/criminal convictions will be carefully reviewed and may take longer to process.

8. Meet academic, social, moral, and financial obligations as a member of the EMU community.

General Education Requirements:

For specific requirements refer to the General Education Program. Download the Gen Ed Checklist here.

Major Requirements: 54-55 hours

Required Physical Science Courses: 54-55 hours

- ASTR 205 - Principles of Astronomy (Gen Ed Area IV) 4 hrs
- CHEM 121 - General Chemistry I (Gen Ed Area IV) 3 hrs
- CHEM 122 - General Chemistry I Laboratory (Gen Ed Area IV) 1 hr
- CHEM 123 - General Chemistry II 3 hrs
- CHEM 124 - General Chemistry II Laboratory 1 hr
- CHEM 270 - Survey of Organic Chemistry 4 hrs
- CHEM 271 - Organic Chemistry Laboratory 1 hr
- CHEM 281 - Introduction to Analytical Chemistry 4 hrs
- CHEM 351 - Foundations of Biochemistry 4 hrs
- ESSC 110 - The Dynamic Earth System (Gen Ed Area IV) 4 hrs
- PHY 221 - Mechanics, Sound and Heat (Gen Ed Area IV) 4 hrs
- PHY 222 - Electricity and Light 4 hrs
- PHY 372 - Modern Physics Laboratory 1 hr
- PSCI 270 - Relativity, Atomic and Nuclear Physics 3 hrs
- PSCI 305 - Energy and Society 3 hrs
- PSCI 309 - Thermal Science and Heat Transfer 3 hrs
- PSCI 340 - Milestones in Physics and Astronomy for Teachers 3 hrs

Choose one of the following:

- CHEM 406 - The Nature of Science 1 hr
- PHY 406 - Ethical Issues in Physics 1 hr

One from the following:

- ASTR 315 - Observational Astronomy 3 hrs
- ESSC 111 - The Earth System through Time 4 hrs

Additional Requirements: 8-9 hours

Life Science Course: 4 hours

- BIO 105 - Introductory Biology for Non-majors (Gen Ed Area IV) 4 hrs

Mathematics Course(s): 4-5 hours

One of the following options:

Option I:

- MATH 107 - Plane Trigonometry 2 hrs
- MATH 119 - Applied Calculus (Gen Ed Area II) 3 hrs

Option II:

- MATH 120 - Calculus I (Gen Ed Area II) 4 hrs

Professional Secondary Education Sequence

Secondary Education Pre-Admission Phase: The Learner and the Community: 7 hours

Prerequisite: Sophomore standing or higher.
The following phases require formal admission to the Initial Teacher Preparation Program:

Secondary Education Phase I: Curriculum, Assessment and the Social Context: 15 hours

Prerequisite: Completion of Pre-Admission Phase is required.
* These two courses must be taken together.
** These courses must be taken with or after CURR 305.

- * CURR 305 - Curriculum and Methods: Secondary 3 hrs
- ** EDMT 330 - Instructional Applications of Media and Technology 3 hrs
- ** EDPS 340 - Introduction to Assessment and Evaluation 3 hrs
- * PRCT 305 - Practicum I: Secondary 3 hrs
- SOFD 328W - Schools for a Diverse and Democratic Society (Gen Ed Area I, W) 3 hrs

Secondary Education Phase II: Content and Methods and Teaching: 9 hours

Prerequisite: Completion of Phase I is required.
* These two courses must be taken together.

- * PRCT 311 - Practicum II: Secondary 3 hrs
- * RDNG 311 - Teaching Reading in the Secondary School 3 hrs

Methods Course by Major:

Physical Science Comprehensive Majors take one of:

- CHEM 325 - Methodology for Secondary Chemistry Teachers 3 hrs
- PHY 325 - Methods of Teaching the Physical Sciences 3 hrs

Secondary Education Phase III: Capstone Experience: 9 hours

Prerequisite: Completion of Phase II and 100 pre-student teaching hours is required.

- EDUC 492 - Student Teaching 9 hrs
  This course requires a formal application to be submitted 7-8 months prior to the Student Teaching semester.

Minor Requirements:
This program does not require a minor.

Program Total:

Students must earn a minimum total of 124 credits at the 100-level or above.

MTTC Subject Area Test

Starting January 1, 2013, Students seeking licensure in a secondary or K-12 area are not required to take the MTTC subject area test in their minor area. Students who elect not to take the test in their minor will be required to sign a statement indicating that they understand that they will not be endorsed in their minor area and will not be eligible for teaching positions in their minor unless they pass the minor subject area test within five years of completing field experience and course requirements.

Note:

Each student must choose writing intensive courses as part of major completion requirements. Consult your adviser for course options.

Critical Graduation Information:

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the 100-level and above. Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Earn a minimum of 60 credits from a four-year college or university; courses taken at community colleges cannot be used to meet this requirement. (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 unique credit hours in their major and 20 unique credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
- Not more than 60 credit hours in one subject area (prefix) may be applied towards the minimum of 124 credit hours required for a bachelor's degree.
- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more than one major or minor.
  - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
  - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
  - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor.
- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and
the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is coordinated by the Office of Admissions, and additional documentation may be required.

- Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be earned in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

**General Education Requirements:**

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available on the General Education section of the catalog: General Education

- For Students who began their undergraduate program at EMU in Fall 2007 or later or who have elected to follow the current ("new") General Education Program, follow the "For Students" link under the Current Program heading.
- For Students who began their undergraduate program at EMU before Fall 2007 and who have elected to follow the Pre-2007 General Education Requirements, follow the "General Education Program Prior to Fall 2007 (pdf file)" link under the Program Prior to Fall 2007 heading. Please note that students who wish to graduate under pre-2007 General Education requirements must graduate by August 2014; those who have not completed all degree requirements by that time will need to satisfy the current (Fall 2007) General Education requirements.

Students who transferred to EMU may have modified general education requirements based on MACRAO or articulation agreements; consult your academic adviser for additional information.

**University Information:** Consult the online catalog at catalog.emich.edu.

**Secondary Education Physical Science Group Major**

A Secondary Physical Science endorsement prepares candidates to teach physical science courses as identified in the Michigan Curriculum Framework. The preparation of physical science teachers includes courses in all of the major categories of science with a strong focus on basic chemistry and physics. Coupling this group major with a minor in one of the sciences (biology, chemistry, earth science or physics), as required, additionally qualifies a student to apply for certification in that subject at the secondary level. Successful completion of this course of studies, in context of other program requirements, qualifies the student for recommendation for certification for the Michigan Department of Education Secondary Provisional Certificate endorsed in Physical Science (DP). The Michigan Test for Teacher Certification (MTTC) covering this field is #097, "Physical Science."

Initial Teacher Preparation Program Admission

In order to pursue the sequence of courses necessary to complete eligibility for recommendation for certification, one must apply for and be admitted to the teacher preparation program. Admission requirements are common for all teacher preparation programs, except that certain special education programs have additional requirements.

Each undergraduate student is responsible for applying to the teacher preparation program immediately after the semester in which the student has earned 56 credit hours. Transfer students with more than 56 credit hours should apply immediately after the semester in which they have earned 12 hours at EMU, including at least one course in their major. Students with 56 hours of transfer course work with a decision GPA of 3.0 may apply for admission to the teacher preparation program without 12 earned hours at EMU.

Admission to the teacher preparation program is not automatic. Only those persons who have formally applied are considered for admission. Not all persons who apply become eligible for admission.

Applications for the Initial Teacher Preparation Program at EMU are available within your my.emich account under the "Student" tab. Submit your completed application to the Office of Academic Services once you have earned 56 credit hours.

Teaching majors and minors are unofficial until program admission. Students pursuing teacher certification should follow the catalog that exists at the time of program admission. It is important that students apply to the teacher preparation program as soon as they have earned 56 credit hours.

Criteria

1. Completion of 56 credit hours

2. Appropriate cumulative GPA. One of:
   1. An overall EMU GPA of 2.5 or higher. At least 12 of the 56 credit hours taken at EMU with an EMU GPA of 2.5 or higher in your major (each of your majors if declaring a double major). You must complete at least one course in your major(s) in order to be eligible.
   2. Transferred 56 credits with a cumulative 3.0 GPA from all previous institutions.

3. A grade of “C” or higher (if taken) in the following courses:
   1. Secondary: ENGL 121, CTAC 124, quantitative reasoning, one lab science, all professional education courses, and, if special education, PSY 101.
   2. Elementary: ENGL 121, CTAC 124, MATH 108, MATH 110E, PHY 100, CHEM 101, ESSC 202, all of the professional education courses, all courses that state “for elementary teachers,” and, if special education, PSY 101.

4. Passing scores on all three sections of the Michigan Test for Teacher Certification Basic Skills Test (MTTC) (reading, mathematics, and writing). Official score report must be on file at Eastern Michigan University.

5. Personal statement about your experiences with youth/children and why you are going into teaching. This statement will be read for content, grammar, and punctuation.

6. Completion of a Disposition Self Evaluation Form.

7.ICHAT criminal background check and Statement of Civil/Criminal Convictions. If you answered yes to any of the civil/criminal conviction questions on the application, you will need to provide:
   1. A copy of the Judgment of Sentence, or Registrar of Actions, or Certification of Conviction.
2. A written explanation of the offense(s). Application of students with civil/criminal convictions will be carefully reviewed and may take longer to process.

8. Meet academic, social, moral, and financial obligations as a member of the EMU community.

General Education Requirements:

For specific requirements refer to the General Education Program. Download the Gen Ed Checklist here.

Major Requirements: 44-52 hours

Option I: With a Physics teaching minor (PHYT-21 hrs), complete the following courses:

Required Physical Science Courses: 36-37 hours

- ASTR 205 - Principles of Astronomy (Gen Ed Area IV) 4 hrs
- CHEM 121 - General Chemistry I (Gen Ed Area IV) 3 hrs
- CHEM 122 - General Chemistry I Laboratory (Gen Ed Area IV) 1 hr
- CHEM 123 - General Chemistry II 3 hrs
- CHEM 124 - General Chemistry II Laboratory 1 hr
- CHEM 270 - Survey of Organic Chemistry 4 hrs
- CHEM 271 - Organic Chemistry Laboratory 1 hr
- CHEM 281 - Introduction to Analytical Chemistry 4 hrs
- CHEM 351 - Foundations of Biochemistry 4 hrs
- ESSC 110 - The Dynamic Earth System (Gen Ed Area IV) 4 hrs
- PSCI 340 - Milestones in Physics and Astronomy for Teachers 3 hrs

Choose one from the following:

- CHEM 406 - The Nature of Science 1 hr
- PHY 406 - Ethical Issues in Physics 1 hr

Choose one from the following:

- ASTR 315 - Observational Astronomy 3 hrs
- ESSC 111 - The Earth System through Time 4 hrs

Additional Requirements: 8-9 hours

Life Science Course: 4 hours

- BIO 105 - Introductory Biology for Non-majors (Gen Ed Area IV) 4 hrs
Mathematics Course(s): 4-5 hours

One of the following options:

Option A:

- MATH 107 - Plane Trigonometry 2 hrs
- MATH 119 - Applied Calculus (Gen Ed Area II) 3 hrs

Option B:

- MATH 120 - Calculus I (Gen Ed Area II) 4 hrs

Option II: With a Chemistry teaching minor (CHMT-24 hrs), complete the following courses:

Required Physical Science Courses: 37 hours

- ASTR 205 - Principles of Astronomy (Gen Ed Area IV) 4 hrs
- ASTR 315 - Observational Astronomy 3 hrs
- ESSC 110 - The Dynamic Earth System (Gen Ed Area IV) 4 hrs
- ESSC 111 - The Earth System through Time 4 hrs
- PHY 221 - Mechanics, Sound and Heat (Gen Ed Area IV) 4 hrs
- PHY 222 - Electricity and Light 4 hrs
- PHY 372 - Modern Physics Laboratory 1 hr
- PSCI 270 - Relativity, Atomic and Nuclear Physics 3 hrs
- PSCI 305 - Energy and Society 3 hrs
- PSCI 309 - Thermal Science and Heat Transfer 3 hrs
- PSCI 340 - Milestones in Physics and Astronomy for Teachers 3 hrs

Choose one of the following:

- CHEM 406 - The Nature of Science 1 hr
- PHY 406 - Ethical Issues in Physics 1 hr

Additional Requirements: 8-9 hours

Life Sciences Course: 4 hours

- BIO 105 - Introductory Biology for Non-majors (Gen Ed Area IV) 4 hrs

Mathematics course(s): 4-5 hours

One of the following options:
Option A:

- MATH 107 - Plane Trigonometry 2 hrs
- MATH 119 - Applied Calculus (Gen Ed Area II) 3 hrs

Option B:

- MATH 120 - Calculus I (Gen Ed Area II) 4 hrs

Option III: With a Biology teaching minor (BIOT-24 hrs), complete the following courses:

Required Physical Science Courses: 39 hours

- CHEM 121 - General Chemistry I (Gen Ed Area IV) 3 hrs
- CHEM 122 - General Chemistry I Laboratory (Gen Ed Area IV) 1 hr
- CHEM 123 - General Chemistry II 3 hrs
- CHEM 124 - General Chemistry II Laboratory 1 hr
- CHEM 270 - Survey of Organic Chemistry 4 hrs
- CHEM 271 - Organic Chemistry Laboratory 1 hr
- CHEM 281 - Introduction to Analytical Chemistry 4 hrs
- PHY 221 - Mechanics, Sound and Heat (Gen Ed Area IV) 4 hrs
- PHY 222 - Electricity and Light 4 hrs
- PHY 372 - Modern Physics Laboratory 1 hr
- PSCI 270 - Relativity, Atomic and Nuclear Physics 3 hrs
- PSCI 305 - Energy and Society 3 hrs
- PSCI 309 - Thermal Science and Heat Transfer 3 hrs
- PSCI 340 - Milestones in Physics and Astronomy for Teachers 3 hrs

Choose one of the following:

- CHEM 406 - The Nature of Science 1 hr
- PHY 406 - Ethical Issues in Physics 1 hr

Additional Requirements: 9-10 hours

Life Science Course: 5 hours

- BIO 110 - Introductory Biology I (Gen Ed Area IV) 5 hrs

Mathematics Course(s): 4-5 hours

One of the following options:

Option A:
• MATH 107 - Plane Trigonometry 2 hrs
• MATH 119 - Applied Calculus (Gen Ed Area II) 3 hrs

Option B:

• MATH 120 - Calculus I (Gen Ed Area II) 4 hrs

Option IV: With an Earth Science teaching minor (ESCT-21 hrs), complete the following courses:

Required Physical Science Courses: 43 hours

• CHEM 121 - General Chemistry I (Gen Ed Area IV) 3 hrs
• CHEM 122 - General Chemistry I Laboratory (Gen Ed Area IV) 1 hr
• CHEM 123 - General Chemistry II 3 hrs
• CHEM 124 - General Chemistry II Laboratory 1 hr
• CHEM 270 - Survey of Organic Chemistry 4 hrs
• CHEM 271 - Organic Chemistry Laboratory 1 hr
• CHEM 281 - Introduction to Analytical Chemistry 4 hrs
• CHEM 351 - Foundations of Biochemistry 4 hrs
• PHY 221 - Mechanics, Sound and Heat (Gen Ed Area IV) 4 hrs
• PHY 222 - Electricity and Light 4 hrs
• PHY 372 - Modern Physics Laboratory 1 hr
• PSCI 270 - Relativity, Atomic and Nuclear Physics 3 hrs
• PSCI 305 - Energy and Society 3 hrs
• PSCI 309 - Thermal Science and Heat Transfer 3 hrs
• PSCI 340 - Milestones in Physics and Astronomy for Teachers 3 hrs

Choose one of the following:

• CHEM 406 - The Nature of Science 1 hr
• PHY 406 - Ethical Issues in Physics 1 hr

Additional Requirements: 8-9 hours

Life Science Course: 4 hours

• BIO 105 - Introductory Biology for Non-majors (Gen Ed Area IV) 4 hrs

Mathematics Course(s): 4-5 hours

One of the following options:

Option A:
• MATH 107 - Plane Trigonometry 2 hrs
• MATH 119 - Applied Calculus (Gen Ed Area II) 3 hrs

Option B:

• MATH 120 - Calculus I (Gen Ed Area II) 4 hrs

Professional Secondary Education Sequence

Secondary Education Pre-Admission Phase: The Learner and the Community: 7 hours

Prerequisite: Sophomore standing or higher.

• EDPS 322 - Human Development and Learning 4 hrs
• SPGN 251 - Education of Students with Exceptionalities 3 hrs

The following phases require formal admission to the Initial Teacher Preparation Program:

Secondary Education Phase I: Curriculum, Assessment and the Social Context: 15 hours

Prerequisite: Completion of Pre-Admission Phase is required.

* These two courses must be taken together.
** These courses must be taken with or after CURR 305.

• * CURR 305 - Curriculum and Methods: Secondary 3 hrs
• ** EDMT 330 - Instructional Applications of Media and Technology 3 hrs
• ** EDPS 340 - Introduction to Assessment and Evaluation 3 hrs
• * PRCT 305 - Practicum I: Secondary 3 hrs
• SOFD 328W - Schools for a Diverse and Democratic Society (Gen Ed Area I, W) 3 hrs

Secondary Education Phase II: Content and Methods and Teaching: 9 hours

Prerequisite: Completion of Phase I is required.

* These two courses must be taken together.

• * PRCT 311 - Practicum II: Secondary 3 hrs
• * RDNG 311 - Teaching Reading in the Secondary School 3 hrs

Methods Course by Major:
Physical Science Group Majors take one of:

- CHEM 325 - Methodology for Secondary Chemistry Teachers 3 hrs
- PHY 325 - Methods of Teaching the Physical Sciences 3 hrs

Secondary Education Phase III: Capstone Experience: 9 hours

Prerequisite: Completion of Phase II and 100 pre-student teaching hours is required.

- EDUC 492 - Student Teaching 9 hrs
  This course requires a formal application to be submitted 7-8 months prior to the Student Teaching semester.

Minor Requirements:

Students must select either a physics, chemistry, earth science or biology minor.

Program Total:

Students must earn a minimum total of 124 credits at the 100-level or above.

Note:

*Each student must choose writing intensive courses as part of major completion requirements. Consult your adviser for course options.*

Critical Graduation Information:

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the *100-level and above*. Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Earn a minimum of 60 credits from a four-year college or university; *courses taken at community colleges cannot be used to meet this requirement*. (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 *unique* credit hours in their major and 20 *unique* credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
- Not more than 60 credit hours in one subject area (prefix) may be applied towards the minimum of 124 credit hours required for a bachelor's degree.
• Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more that one major or minor.
  o Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
  o Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
  o Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor.

• Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is coordinated by the Office of Admissions, and additional documentation may be required.

• Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be earned in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

General Education Requirements:
EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available on the General Education section of the catalog: General Education

• For Students who began their undergraduate program at EMU in Fall 2007 or later or who have elected to follow the current ("new") General Education Program, follow the "For Students" link under the Current Program heading.

• For Students who began their undergraduate program at EMU before Fall 2007 and who have elected to follow the Pre-2007 General Education Requirements, follow the "General Education Program Prior to Fall 2007 (pdf file)" link under the Program Prior to Fall 2007 heading. Please note that students who wish to graduate under pre-2007 General Education requirements must graduate by August 2014; those who have not completed all degree requirements by that time will need to satisfy the current (Fall 2007) General Education requirements.

Students who transferred to EMU may have modified general education requirements based on MACRAO or articulation agreements; consult your academic adviser for additional information.

University Information: Consult the online catalog at catalog.emich.edu.

Secondary Education Physics Major

Successful completion of this course of study, in the context of other program requirements, qualifies the student for recommendation for the Michigan Department of Education Secondary Provisional Certificate endorsed in physics, certification code DE, and, depending on the minor selected, an additional endorsement. This program of study meets all requirements of the National Science Teachers Association. The Michigan Test for Teacher Certification (MTTC) covering this field is #019, “Physics.”

An active articulation agreement exists between this program and a community college. To see a complete list of current colleges with program articulation agreements with EMU, please click here.

Physics and Astronomy Department Information:

Interim Department Head: Alexandria Oakes
Department Contact: aoakes@emich.edu
Website: http://www.emich.edu/physics
Adviser Information:

Program Adviser: Dr. Diane Jacobs
Email: djacobs@emich.edu
Phone: 734.487.8799

Program Adviser: Dr. Marshall Thomsen
Email: jthomsen@emich.edu
Phone: 734.487.8794

Initial Teacher Preparation Program Admission

In order to pursue the sequence of courses necessary to complete eligibility for recommendation for certification, one must apply for and be admitted to the teacher preparation program. Admission requirements are common for all teacher preparation programs, except that certain special education programs have additional requirements.

Each undergraduate student is responsible for applying to the teacher preparation program immediately after the semester in which the student has earned 56 credit hours. Transfer students with more than 56 credit hours should apply immediately after the semester in which they have earned 12 hours at EMU, including at least one course in their major. Students with 56 hours of transfer course work with a decision GPA of 3.0 may apply for admission to the teacher preparation program without 12 earned hours at EMU.

Admission to the teacher preparation program is not automatic. Only those persons who have formally applied are considered for admission. Not all persons who apply become eligible for admission.

Applications for the Initial Teacher Preparation Program at EMU are available within your my.emich account under the "Student" tab. Submit your completed application to the Office of Academic Services once you have earned 56 credit hours.

Teaching majors and minors are unofficial until program admission. Students pursuing teacher certification should follow the catalog that exists at the time of program admission. It is important that students apply to the teacher preparation program as soon as they have earned 56 credit hours.

Criteria

1. Completion of 56 credit hours

2. Appropriate cumulative GPA. One of:
   1. An overall EMU GPA of 2.5 or higher. At least 12 of the 56 credit hours taken at EMU with an EMU GPA of 2.5 or higher in your major (each of your majors if declaring a double major). You must complete at least one course in your major(s) in order to be eligible.
   2. Transferred 56 credits with a cumulative 3.0 GPA from all previous institutions.

3. A grade of “C” or higher (if taken) in the following courses:
   1. Secondary: ENGL 121, CTAC 124, quantitative reasoning, one lab science, all professional education courses, and, if special education, PSY 101.
   2. Elementary: ENGL 121, CTAC 124, MATH 108, MATH 110E, PHY 100, CHEM 101, ESSC 202, all of the professional education courses, all courses that state “for elementary teachers,” and, if special education, PSY 101.
4. Passing scores on all three sections of the Michigan Test for Teacher Certification Basic Skills Test (MTTC) (reading, mathematics, and writing). Official score report must be on file at Eastern Michigan University.

5. Personal statement about your experiences with youth/children and why you are going into teaching. This statement will be read for content, grammar, and punctuation.

6. Completion of a Disposition Self Evaluation Form.

7. ICHAT criminal background check and Statement of Civil/Criminal Convictions. If you answered yes to any of the civil/criminal conviction questions on the application, you will need to provide:
   1. A copy of the Judgment of Sentence, or Registrar of Actions, or Certification of Conviction.
   2. A written explanation of the offense(s). Application of students with civil/criminal convictions will be carefully reviewed and may take longer to process.

8. Meet academic, social, moral, and financial obligations as a member of the EMU community.

General Education Requirements:

For specific requirements refer to the General Education Program. Download the Gen Ed Checklist here.

Major Requirements: 35 hours

Required Courses: 31 hours

- ASTR 204 - Astronomical Investigations (Gen Ed Area IV) 1 hr
- ASTR 205 - Principles of Astronomy (Gen Ed Area IV) 4 hrs
- PHY 223 - Mechanics and Sound (Gen Ed Area IV) 5 hrs
- PHY 224 - Electricity and Light 5 hrs
- PHY 330 - Intermediate Mechanics I 3 hrs
- PHY 332 - Mechanics Laboratory 1 hr
- PHY 350 - Electricity and Magnetism I 3 hrs
- PHY 360 - Heat and Thermodynamics 4 hrs
- PHY 370 - Introduction to Modern Physics 3 hrs
- PHY 372 - Modern Physics Laboratory 1 hr
- PHY 406 - Ethical Issues in Physics 1 hr

Restricted Elective Courses: 2-4 hours

One of the following laboratory courses:

- PHY 436 - Vibration and Sound 4 hrs
- PHY 442 - Optics and Optics Laboratory 4 hrs
- PHY 444 - Applied Optics 2 hrs
- PHY 456 - Electronics for Scientists 4 hrs
Elective Courses: 0-2 hours

Select elective courses in physics and astronomy to complete the 35 hour requirement. Only ASTR and PHY undergraduate courses numbered greater than 299 can be used as electives on this major, excluding ASTR 311, PHY 311, PHY 312 and PHY 325, which can never be used on this major.

Additional Requirements: 26 hours

- COSC 111 - Introduction to Programming 3 hrs
- MATH 120 - Calculus I (Gen Ed Area II) 4 hrs
- MATH 121 - Calculus II 4 hrs
- MATH 122 - Elementary Linear Algebra 3 hrs
- MATH 223 - Multivariable Calculus 4 hrs

One course from the following:

- CHEM 115 - Chemistry and Society (Gen Ed Area IV) 3 hrs
  and
- CHEM 116 - Chemistry and Society Laboratory (Gen Ed Area IV) 1 hr

- CHEM 117 - Fundamentals of Chemistry-Lecture (Gen Ed Area IV) 3 hrs
  and
- CHEM 118 - Fundamentals of Chemistry Laboratory (Gen Ed Area IV) 1 hr

- CHEM 120 - Fundamentals of Organic and Biochemistry (Gen Ed Area IV) 4 hrs

- CHEM 121 - General Chemistry I (Gen Ed Area IV) 3 hrs
  and
- CHEM 122 - General Chemistry I Laboratory (Gen Ed Area IV) 1 hr

One course from the following:

- BIO 105 - Introductory Biology for Non-majors (Gen Ed Area IV) 4 hrs
- BIO 130 - Biology of Plants 4 hrs
- BIO 140 - Biology of Animals 4 hrs

Professional Secondary Education Sequence

Secondary Education Pre-Admission Phase: The Learner and the Community: 7 hours

Prerequisite: Sophomore standing or higher.

- EDPS 322 - Human Development and Learning 4 hrs
- SPGN 251 - Education of Students with Exceptionalities 3 hrs
The following phases require formal admission to the Initial Teacher Preparation Program:

Secondary Education Phase I: Curriculum, Assessment and the Social Context: 15 hours

* Prerequisite: Completion of Pre-Admission Phase is required.

* These two courses must be taken together.

** These courses must be taken with or after CURR 305.

- * CURR 305 - Curriculum and Methods: Secondary 3 hrs
- ** EDMT 330 - Instructional Applications of Media and Technology 3 hrs
- ** EDPS 340 - Introduction to Assessment and Evaluation 3 hrs
- * PRCT 305 - Practicum I: Secondary 3 hrs
- SOFD 328W - Schools for a Diverse and Democratic Society (Gen Ed Area I, W) 3 hrs

Secondary Education Phase II: Content and Methods and Teaching: 9 hours

* Prerequisite: Completion of Phase I is required.

* These two courses must be taken together.

- * PRCT 311 - Practicum II: Secondary 3 hrs
- * RDNG 311 - Teaching Reading in the Secondary School 3 hrs

Methods Course by Major:

Physics Majors take:

- PHY 325 - Methods of Teaching the Physical Sciences 3 hrs

Secondary Education Phase III: Capstone Experience: 9 hours

* Prerequisite: Completion of Phase II and 100 pre-student teaching hours is required.

- EDUC 492 - Student Teaching 9 hrs
  This course requires a formal application to be submitted 7-8 months prior to the Student Teaching semester.

Minor Requirements:

This program requires a minor. Please contact your program adviser for a list of possible minors. Mathematics is highly recommended.

Program Total:
Students must earn a minimum total of 124 credits at the 100-level or above.

**MTTC Subject Area Test**

Starting January 1, 2013, Students seeking licensure in a secondary or K-12 area are not required to take the MTTC subject area test in their minor area. Students who elect not to take the test in their minor will be required to sign a statement indicating that they understand that they will not be endorsed in their minor area and will not be eligible for teaching positions in their minor unless they pass the minor subject area test within five years of completing field experience and course requirements.

**Note:**

*Each student must choose writing intensive courses as part of major completion requirements. Consult your adviser for course options.*

**Critical Graduation Information:**

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the **100-level and above**. Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Earn a minimum of 60 credits from a four-year college or university; **courses taken at community colleges cannot be used to meet this requirement.** (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 **unique** credit hours in their major and 20 **unique** credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
- Not more than 60 credit hours in one subject area (prefix) may be applied towards the minimum of 124 credit hours required for a bachelor's degree.
- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more than one major or minor.
  - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
  - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
  - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor.
- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is coordinated by the Office of Admissions, and additional documentation may be required.
Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be earned in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

General Education Requirements:

EMU’s General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available on the General Education section of the catalog: General Education

For Students who began their undergraduate program at EMU in Fall 2007 or later or who have elected to follow the current (“new”) General Education Program, follow the "For Students" link under the Current Program heading.

For Students who began their undergraduate program at EMU before Fall 2007 and who have elected to follow the Pre-2007 General Education Requirements, follow the "General Education Program Prior to Fall 2007 (pdf file)” link under the Program Prior to Fall 2007 heading. Please note that students who wish to graduate under pre-2007 General Education requirements must graduate by August 2014; those who have not completed all degree requirements by that time will need to satisfy the current (Fall 2007) General Education requirements.

Students who transferred to EMU may have modified general education requirements based on MACRAO or articulation agreements; consult your academic adviser for additional information.

University Information: Consult the online catalog at catalog.emich.edu.

Minor

Astronomy Group Minor

This minor is designed to give the student a basic knowledge of astronomy and related fields. It is recommended that students wishing to undertake graduate work in astronomy complete the research major in physics with a minor in either mathematics or astronomy. Electives used to fulfill the astronomy minor cannot be used to complete any other major or minor.

Physics and Astronomy Department Information:

Interim Department Head: Alexandria Oakes
Department Contact: aoakes@emich.edu
Website: http://www.emich.edu/physics

Adviser Information:

Program Adviser: Dr. Patrick Koehn
Email: pkoehn@emich.edu
Phone: 734.487.8795

Required Courses: 11 hours

- ASTR 204 - Astronomical Investigations (Gen Ed Area IV) 1 hr
- ASTR 205 - Principles of Astronomy (Gen Ed Area IV) 4 hrs
- ASTR 315 - Observational Astronomy 3 hrs
- ASTR 370 - Astrophysical Concepts 3 hrs
Restricted Elective Courses: 13 hours

Choose 13 credits from approved courses in physics, astronomy, mathematics or chemistry in consultation with the advising coordinator for astronomy.

Minor Total: 24 hours

Critical Graduation Information:

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the 100-level and above. Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).

University Information: Consult the online catalog at catalog.emich.edu.

Group Minor in General Science

A group minor in general science (24 credit hours) must be combined with an academic major in biology, chemistry, earth science, mathematics or physics.

Physics and Astronomy Department Information:

Interim Department Head: Alexandria Oakes
Department Contact: aoakes@emich.edu
Website: http://www.emich.edu/physics

Adviser Information:

Program Adviser: Dr. Bonnie Wylo
Email: bwylo@emich.edu
Phone: 734.487.8642

Program Adviser: Dr. Beth Kubitskey
Email: mkubitske1@emich.edu
Phone: 734.487.8798

With a major in biology, take the following courses:

- ASTR 205 - Principles of Astronomy (Gen Ed Area IV) 4 hrs
- CHEM 121 - General Chemistry I (Gen Ed Area IV) 3 hrs
- CHEM 122 - General Chemistry I Laboratory (Gen Ed Area IV) 1 hr
- ESSC 110 - The Dynamic Earth System (Gen Ed Area IV) 4 hrs
- MATH 105 - College Algebra (Gen Ed Area II) 3 hrs
- MATH 107 - Plane Trigonometry 2 hrs
- PHY 221 - Mechanics, Sound and Heat (Gen Ed Area IV) 4 hrs

One course from the following:

- Others as approved by general science adviser
- CHEM 123 - General Chemistry II 3 hrs
  and
With a major in chemistry, take the following courses:

- ASTR 205 - Principles of Astronomy (Gen Ed Area IV) 4 hrs
- BIO 110 - Introductory Biology I (Gen Ed Area IV) 5 hrs
- ESSC 110 - The Dynamic Earth System (Gen Ed Area IV) 4 hrs
- MATH 105 - College Algebra (Gen Ed Area II) 3 hrs
- MATH 107 - Plane Trigonometry 2 hrs
- PHY 221 - Mechanics, Sound and Heat (Gen Ed Area IV) 4 hrs

One course from the following:

- Others as approved by general science adviser
- BIO 226 - Global Ecology and the Environment 4 hrs
- COSC 145 - Introduction to FORTRAN Programming 3 hrs
- ESSC 212 - Weather, Climate and the Earth System 3 hrs
- PHY 222 - Electricity and Light 4 hrs

With a major in earth science, take the following:

- ASTR 205 - Principles of Astronomy (Gen Ed Area IV) 4 hrs
- BIO 110 - Introductory Biology I (Gen Ed Area IV) 5 hrs
- CHEM 121 - General Chemistry I (Gen Ed Area IV) 3 hrs
- CHEM 122 - General Chemistry I Laboratory (Gen Ed Area IV) 1 hr
- MATH 120 - Calculus I (Gen Ed Area II) 4 hrs
- PHY 221 - Mechanics, Sound and Heat (Gen Ed Area IV) 4 hrs

One course from the following:

- Others as approved by general science adviser
- BIO 226 - Global Ecology and the Environment 4 hrs
- CHEM 123 - General Chemistry II 3 hrs
  and
- CHEM 124 - General Chemistry II Laboratory 1 hr
- COSC 145 - Introduction to FORTRAN Programming 3 hrs
- MATH 121 - Calculus II 4 hrs
- PHY 222 - Electricity and Light 4 hrs

With a major in geology, take the following courses:
• ASTR 205 - Principles of Astronomy (Gen Ed Area IV) 4 hrs
• BIO 110 - Introductory Biology I (Gen Ed Area IV) 5 hrs
• CHEM 121 - General Chemistry I (Gen Ed Area IV) 3 hrs
• CHEM 122 - General Chemistry I Laboratory (Gen Ed Area IV) 1 hr
• MATH 120 - Calculus I (Gen Ed Area II) 4 hrs
• PHY 221 - Mechanics, Sound and Heat (Gen Ed Area IV) 4 hrs

One course from the following:

• Others as approved by general science adviser
• BIO 226 - Global Ecology and the Environment 4 hrs

• CHEM 123 - General Chemistry II 3 hrs
  and
• CHEM 124 - General Chemistry II Laboratory 1 hr

• ESSC 212 - Weather, Climate and the Earth System 3 hrs
• MATH 121 - Calculus II 4 hrs
• MATH 170 - Elementary Statistics (Gen Ed Area II) 3 hrs
• PHY 222 - Electricity and Light 4 hrs

With a major in mathematics, take the following courses:

• ASTR 205 - Principles of Astronomy (Gen Ed Area IV) 4 hrs
• BIO 110 - Introductory Biology I (Gen Ed Area IV) 5 hrs
• CHEM 121 - General Chemistry I (Gen Ed Area IV) 3 hrs
• CHEM 122 - General Chemistry I Laboratory (Gen Ed Area IV) 1 hr
• ESSC 110 - The Dynamic Earth System (Gen Ed Area IV) 4 hrs
• PHY 221 - Mechanics, Sound and Heat (Gen Ed Area IV) 4 hrs

One course from the following:

• Others as approved by general science adviser
• BIO 226 - Global Ecology and the Environment 4 hrs
• CHEM 123 - General Chemistry II 3 hrs
  and
• CHEM 124 - General Chemistry II Laboratory 1 hr

• ESSC 212 - Weather, Climate and the Earth System 3 hrs
• PHY 222 - Electricity and Light 4 hrs

With a major in physics, take the following courses:

• ASTR 205 - Principles of Astronomy (Gen Ed Area IV) 4 hrs
• BIO 110 - Introductory Biology I (Gen Ed Area IV) 5 hrs
• CHEM 121 - General Chemistry I (Gen Ed Area IV) 3 hrs
• CHEM 122 - General Chemistry I Laboratory (Gen Ed Area IV) 1 hr
• ESSC 110 - The Dynamic Earth System (Gen Ed Area IV) 4 hrs
• MATH 120 - Calculus I (Gen Ed Area II) 4 hrs

One course from the following:

• Others as approved by general science adviser
• BIO 226 - Global Ecology and the Environment 4 hrs
• CHEM 123 - General Chemistry II 3 hrs
  and
• CHEM 124 - General Chemistry II Laboratory 1 hr
• COSC 145 - Introduction to FORTRAN Programming 3 hrs
• ESSC 212 - Weather, Climate and the Earth System 3 hrs

Minor Total: 24-26 hours

Critical Graduation Information:

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

• Earn a minimum total of 124 credits at the 100-level and above. Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.
• Meet the requirements of the General Education program (see information below).
• Earn a minimum of 60 credits from a four-year college or university; courses taken at community colleges cannot be used to meet this requirement. (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
• Earn a minimum of 30 credits from courses taken at EMU.
• Complete 10 of the last 30 hours for the degree from courses taken at EMU.
• Have a minimum of 30 unique credit hours in their major and 20 unique credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
• Not more than 60 credit hours in one subject area (prefix) may be applied towards the minimum of 124 credit hours required for a bachelor's degree.
• Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more that one major or minor.
  o Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
  o Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
  o Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor
• Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S.
institutions; the internal review of such courses is coordinated by the Office of Admissions, and additional documentation may be required.

- Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be earned in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

**General Education Requirements:**

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available on the General Education section of the catalog: General Education

- For Students who began their undergraduate program at EMU in Fall 2007 or later or who have elected to follow the current ("new") General Education Program, follow the "For Students" link under the Current Program heading.
- For Students who began their undergraduate program at EMU before Fall 2007 and who have elected to follow the Pre-2007 General Education Requirements, follow the "General Education Program Prior to Fall 2007 (pdf file)" link under the Program Prior to Fall 2007 heading. Please note that students who wish to graduate under pre-2007 General Education requirements must graduate by August 2014; those who have not completed all degree requirements by that time will need to satisfy the current (Fall 2007) General Education requirements.

Students who transferred to EMU may have modified general education requirements based on MACRAO or articulation agreements; consult your academic adviser for additional information.

**University Information:** Consult the online catalog at catalog.emich.edu.

**Physics Minor**

The Physics Major is provided for students who plan to work in industry, business, or government in an area where physics is useful, such as medicine, law, technical analysis and financial analysis.

**Physics and Astronomy Department Information:**

Interim Department Head: Alexandria Oakes
Department Contact: aoakes@emich.edu

Program Adviser: David Pawlowski
Email: dpawlows@emich.edu
Phone: 734.487.8644

Program Adviser: Diane Jacobs
Email: djacobs@emich.edu
Phone: 734.487.8646

**Required Courses: 21 hours**
• PHY 223 - Mechanics and Sound (Gen Ed Area IV) 5 hrs
• PHY 224 - Electricity and Light 5 hrs
• PHY 330 - Intermediate Mechanics I 3 hrs
• PHY 360 - Heat and Thermodynamics 4 hrs
• PHY 370 - Introduction to Modern Physics 3 hrs
• PHY 372 - Modern Physics Laboratory 1 hr

Additional Requirements: 15 hours

• MATH 120 - Calculus I (Gen Ed Area II) 4 hrs
• MATH 121 - Calculus II 4 hrs
• MATH 122 - Elementary Linear Algebra 3 hrs
• MATH 223 - Multivariable Calculus 4 hrs

Minor Total: 36 hours

Critical Graduation Information:

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

• Earn a minimum total of 124 credits at the 100-level and above. Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.
• Meet the requirements of the General Education program (see information below).
• Earn a minimum of 60 credits from a four-year college or university; courses taken at community colleges cannot be used to meet this requirement. (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
• Earn a minimum of 30 credits from courses taken at EMU.
• Complete 10 of the last 30 hours for the degree from courses taken at EMU.
• Have a minimum of 30 unique credit hours in their major and 20 unique credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
• Not more than 60 credit hours in one subject area (prefix) may be applied towards the minimum of 124 credit hours required for a bachelor's degree.
• Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more that one major or minor.
  • Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
  • Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
  • Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor.
• Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S.
institutions; the internal review of such courses is coordinated by the Office of Admissions, and additional documentation may be required.

- Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be earned in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

**General Education Requirements:**

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available on the General Education section of the catalog: General Education

- For Students who began their undergraduate program at EMU in Fall 2007 or later or who have elected to follow the current ("new") General Education Program, follow the "For Students" link under the Current Program heading.
- For Students who began their undergraduate program at EMU before Fall 2007 and who have elected to follow the Pre-2007 General Education Requirements, follow the "General Education Program Prior to Fall 2007 (pdf file)" link under the Program Prior to Fall 2007 heading. Students who transferred to EMU may have modified general education requirements based on MACRAO or articulation agreements; consult your academic adviser for additional information.

**University Information:** Consult the online catalog at catalog.emich.edu.

**Secondary Education Physics Minor**

Successful completion of this minor, in the context of other program requirements, qualifies the student for recommendation for endorsement in physics, certification code DE. The Michigan Test for Teacher Certification (MTTC) covering this field is #019, “Physics.”

**Physics and Astronomy Department Information:**

**Required Physics and Astronomy Courses: 21 hours**
• PHY 223 - Mechanics and Sound (Gen Ed Area IV) 5 hrs
• PHY 224 - Electricity and Light 5 hrs
• PHY 330 - Intermediate Mechanics I 3 hrs
• PHY 360 - Heat and Thermodynamics 4 hrs
• PHY 370 - Introduction to Modern Physics 3 hrs
• PHY 372 - Modern Physics Laboratory 1 hr

Additional Requirements: 15 hours

• MATH 120 - Calculus I (Gen Ed Area II) 4 hrs
• MATH 121 - Calculus II 4 hrs
• MATH 122 - Elementary Linear Algebra 3 hrs
• MATH 223 - Multivariable Calculus 4 hrs

Minor Total for Science Majors: 36 hours

Minor Total for Non-Science Majors: 40 hours

*Students minoring in Physics with secondary certification, but not majoring in a science teaching program, must take the following courses:

• PHY 325 - Methods of Teaching the Physical Sciences 3 hrs
• * PHY 406 - Ethical Issues in Physics 1 hr

MTTC Subject Area Test

Starting January 1, 2013, Students seeking licensure in a secondary or K-12 area are not required to take the MTTC subject area test in their minor area. Students who elect not to take the test in their minor will be required to sign a statement indicating that they understand that they will not be endorsed in their minor area and will not be eligible for teaching positions in their minor unless they pass the minor subject area test within five years of completing field experience and course requirements.

Note:

* BIO 406, CHEM 406, or ESSC 406 may be substituted for PHY 406.

Critical Graduation Information:

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

Students who transferred to EMU may have modified general education requirements based on MACRAO or articulation agreements; consult your academic adviser for additional information.

University Information: Consult the online catalog at catalog.emich.edu.

Astronomy

ASTR 105 - Exploration of the Universe (Gen Ed Area IV)

An introductory astronomy course for students in any curriculum. The solar system, stars, galaxies, cosmology and the history of astronomy are covered.
Credit Hours: 3 hrs
Major Restrictions: Cannot be applied toward a Physics Major or Minor
Previously Listed As: ASTR 203

General Education: ASTR204 must be taken concurrently with this course to meet General Education requirements. Students may not receive General Education credit for both ASTR105 and ASTR205.

Area IV: Knowledge of the Disciplines

ASTR 105 Exploration of the Universe [effective Winter 2009]
Students will obtain an understanding of basic astronomy and our place in space by studying the structure of the universe. They will learn to make astronomical observations and use them to stimulate inquiry about our local space environment and to help them understand how our ancestors viewed the sky. Students will become literate scientific citizens by reading primary source articles, producing critical responses and by writing to elected officials to express their views on the doing and funding science in the United States. As such, ASTR 105 meets the requirements of a Natural Science Course in the Knowledge of the Disciplines portion of the new General Education program when taken concurrently with ASTR 204.

Last Updated: 2/28/2011

ASTR 177 - Special Topics
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr
Prerequisite: department permission

ASTR 178 - Special Topics
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs
Prerequisite: department permission

ASTR 179 - Special Topics
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs
Prerequisite: department permission

ASTR 204 - Astronomical Investigations (Gen Ed Area IV)
A laboratory course for the beginning astronomy student. The techniques and concepts of astronomy.

Credit Hours: 1 hr
Lecture/Lab Hours: two hours of laboratory per week.
Corequisites: ASTR 203 or ASTR 205
Area IV: Knowledge of the Disciplines

ASTR 204 Exploration of the Universe [effective Winter 2009]
Students will obtain an understanding of basic astronomy and our place in space by studying the structure of the universe. They will learn to make astronomical observations and use them to stimulate inquiry about our local space environment and to help them understand how our ancestors viewed the sky. Students will become literate scientific citizens by reading primary source articles, producing critical responses, and by writing to elected officials to express their views on the doing and funding of science in the United States. As such, ASTR 105 meets the requirements of a Natural Science Course in the Knowledge of the Disciplines portion of the new General Education program when taken concurrently with ASTR 204.

ASTR 205 - Principles of Astronomy (Gen Ed Area IV)

A survey of astronomy and astrophysics for Science, Integrated Science and Secondary Education majors and minors. The course covers the solar system, stars, galaxies, elementary celestial mechanics, light and cosmology. Students will solve appropriate problems and develop models that pertain to the topics.

Credit Hours: 4 hrs
Prerequisite: MATH 110 or placement
General Education: ASTR 204 must be taken concurrently with this course for General Education credit. Students may not receive General Education credit for both ASTR 105 and ASTR205.

Area IV: Knowledge of the Disciplines

ASTR 205 Principles of Astronomy [effective Winter 2009]
Students will obtain an understanding of basic astronomy and our place in space by studying the structure of the universe. They will learn to make astronomical observations and use them to stimulate inquiry about our local space environment and to help them understand how our ancestors viewed the sky. Students will become literate scientific citizens by reading primary source articles, producing critical responses and by writing to elected officials to express their views on the doing and funding of science in the United States. As such, ASTR 205 meets the requirements of a Natural Science Course in the Knowledge of the Disciplines portion of the new General Education program when taken concurrently with ASTR 204.

ASTR 277 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr
Prerequisite: department permission

ASTR 278 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs
Prerequisite: department permission

ASTR 279 - Special Topics
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 3 hrs  
**Prerequisite:** department permission

**ASTR 297 - Independent Study-Astronomy**

An intensive study of a problem or group of problems under the direction of a department faculty member.

**Credit Hours:** 1 hr  
**Prerequisite:** approval of the faculty member and department permission

**ASTR 298 - Independent Study-Astronomy**

An intensive study of a problem or group of problems under the direction of a department faculty member.

**Credit Hours:** 2 hrs  
**Prerequisite:** approval of the faculty member and department permission

**ASTR 299 - Independent Study-Astronomy**

An intensive study of a problem or group of problems under the direction of a department faculty member.

**Credit Hours:** 3 hrs  
**Prerequisite:** approval of the faculty member and department permission

**ASTR 311 - Astronomy Projects for Elementary Teachers**

A hands-on course designed to provide elementary teachers with experience doing projects, in the elementary classroom, to teach astronomy. The course will integrate grade-level appropriate mathematics and writing to investigate and solve astronomical problems. Students also will study human endeavors in space exploration and their impact on societal and technological issues.

**Credit Hours:** 3 hrs  
**Prerequisite:** ASTR 105 or ASTR 205  
**Last Updated:** 2/28/2011

**ASTR 315 - Observational Astronomy**

The practical aspects of astronomy emphasizing advanced amateur observational practices such as identification of astronomical objects using charts and references, telescopes, imaging and darkroom techniques, and computer applications.

**Credit Hours:** 3 hrs  
**Prerequisite:** ASTR 105 or ASTR 205  
**Last Updated:** 2/28/2011

**ASTR 370 - Astrophysical Concepts**

The emphasis is on the theoretical understanding and analytical treatment of topics in astrophysics. These topics include celestial mechanics, astronautics, planetary atmospheres, stellar structure, stellar evolution, galaxies and cosmology.
Credit Hours: 3 hrs  
Prerequisite: PHY 224; or PHY 222 and MATH 121  
Last Updated: 2/28/2011

**ASTR 377 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hrs  
Prerequisite: department permission

**ASTR 378 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs  
Prerequisite: department permission

**ASTR 379 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs  
Prerequisite: department permission

**ASTR 477 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hrs  
Prerequisite: department permission

**ASTR 478 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs  
Prerequisite: department permission

**ASTR 479 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs  
Prerequisite: department permission
ASTR 497 - Independent Study-Astronomy

An intensive study of a problem or group of problems under the direction of a department faculty member.

Credit Hours: 1 hr
Prerequisite: approval of the faculty member and department permission

ASTR 498 - Independent Study-Astronomy

An intensive study of a problem or group of problems under the direction of a department faculty member.

Credit Hours: 2 hrs
Prerequisite: approval of the faculty member and department permission

ASTR 499 - Independent Study-Astronomy

An intensive study of a problem or group of problems under the direction of a department faculty member.

Credit Hours: 3 hrs
Prerequisite: approval of the faculty member and department permission.

Physical Science

PSCI 110 - The Science of Everyday Life (Gen Ed Area IV)

This course is designed to give students a background in the principles of physics as applied to everyday living - a qualitative discussion of the key physical principles and how they relate to modern living and informed decisions about science and society. The laboratory experiments are hands-on experiences to provide evidence in support of underlying physical principles.

Credit Hours: 4 hrs
Lecture/Lab Hours: Four lecture hours and one one-hour laboratory.
Notes: Does not count toward a physics major or minor.

Area IV: Knowledge of the Disciplines

PSCI 270 - Relativity, Atomic and Nuclear Physics

This course completes the introductory sequence in college-level, algebra-based physics. Topics include relativity, quantum physics, atomic structure and models, molecules, nuclear fusion and cosmology. Applications include lasers, holography, scanning tunneling microscopes and magnetic resonance imaging. Emphasis is placed on understanding and comprehension as well as the ability to solve relevant mathematical problems.
PSCI 305 - Energy and Society

This course is designed particularly for teachers in physical science as an elementary study of energy concepts and the various relationships between energy and society. The focus is on simple experimental projects, followed by class discussions. Most of the apparatus will be made from materials available in the home or at a variety store.

Credit Hours: 3 hrs  
Prerequisite: PHY 222 or PHY 224  
Last Updated: Links 04/2011

PSCI 309 - Thermal Science and Heat Transfer

Basic course in the fundamental principles of thermodynamics and heat transfer. Topics include temperature scales, open and closed systems, properties of pure substances, change of state, P-V diagrams, specific heat, enthalpy, entropy, heat engine cycles, heat conduction, convection and radiation. Emphasis is placed on understanding and comprehension as well as the ability to solve relevant mathematical problems.

Credit Hours: 3 hrs  
Prerequisite: PHY 222 or PHY 224  
Last Updated: Links 04/2011

PSCI 340 - Milestones in Physics and Astronomy for Teachers

A course designed to give students an understanding of the contributions made by selected male and female scientists, from diverse racial and ethnic backgrounds, to the development of physics and astronomy, and the relationship of their ideas to the period in which scientists lived.

Credit Hours: 3 hrs  
Prerequisite: PHY 222 or PHY 224 and ASTR 205  
Last Updated: Links 04/2011

PSCI 407 - Nature of Science for Elementary Teachers

This course examines the nature of scientific evidence, inquiry, hypotheses, models and law. The development of science is put in the context of the structure of the discipline, its history, and interactions with society. Discussions of modern theories and laws will integrate scientific concepts with the processes of how science works. The class will also provide students with activities to demonstrate these concepts.

Credit Hours: 2 hrs  
Prerequisite: ASTR 105, BIO 105, PHY 311, CHEM 312 and ESSC 312  
Class Restrictions: Junior standing  
Major Restrictions: Elementary Integrated Science Majors only  
Cross-Listed with: BIOT 407, CHEM 407, and ESSC 407  
Last Updated: Links 06/2011

Physics
PHY 100 - Physics for Elementary Teachers (Gen Ed Area IV)

Designed to stimulate interest in physics by the use of simple and inexpensive equipment to demonstrate scientific principles. Motion, forces, sound, light, heat, electricity and magnetism.

Credit Hours: 3 hrs
Notes: Does not count toward a physics major or minor. Open only to students pursuing any curriculum for elementary teachers.

Area IV: Knowledge of the Disciplines

PHY 100 Physics for Elementary Teachers
This course includes 3 hours of lecture and 1 hour of laboratory each week. In this course all elementary education students are introduced to the core knowledge used in physics to understand phenomenon. This knowledge is an important foundation for studying the other sciences required of the elementary teacher and shows very practically both how physics manifests in our everyday lives and how these concepts can be presented in the elementary classroom. This core knowledge is the same core knowledge used by scientists in every laboratory in the world. The appropriate terminology is introduced and students are shown how to "scale it down" to the elementary student's vocabulary. The assumptions and shortcomings of models are highlighted. Whenever possible, appropriate simple demonstrations are used. Students are asked to estimate results, mathematics and models are used to predict results, and the results are compared with the student's intuition. Modern applications are discussed to guide students to become scientifically literate citizens who are capable of making informed decisions about scientific information.

PHY 101 - Physical Science in the Arts (Gen Ed Area IV)

This course is designed to give students a general background in the basic principles of physics, as applied to art, music and dance, with an emphasis on exploring the nature of music and its production. Laboratory experiments complement the lecture by providing hands-on experiences to verify and demonstrate those principles.

Credit Hours: 4 hrs
Lecture/Lab Hours: Three lecture hours and one two-hour laboratory per week.
Notes: Does not count toward a physics major or minor.

Area IV: Knowledge of the Disciplines

PHY 101 Physical Science in the Arts
Few of us would ever suspect that underlying much of what we experience in our world can be attributed to a handful of basic physical principles. The reason why an ice skater can spin faster when drawing in his arms at the end of a routine is the same reason why the planets orbiting the sun will have different speeds along their orbital paths. This course is a general introduction to the basic physical principles that scientists use to describe the world around you. The purpose of this course is to explore, test and apply the laws, governing many practical aspects of architecture, dance, sounds and musical instruments, light and color, and even planetary motion. This course is a journey to a much fuller understanding of our world through an eclectic approach to science.

PHY 177 - Special Topics

This special topics course will be used to teach aspects of physics at an elementary level that would not be regularly offered. A new course may be taught on an experimental basis with this offering.

Credit Hours: 1 hr
Prerequisite: See department for prerequisites
Last Updated: Links 04/2011
**PHY 178 - Special Topics**

This special topics course will be used to teach aspects of physics at an elementary level that would not be regularly offered. A new course may be taught on an experimental basis with this offering.

**Credit Hours:** 2 hrs  
**Prerequisite:** See department for prerequisites  
**Last Updated:** Links 04/2011

**PHY 179 - Special Topics**

This special topics course will be used to teach aspects of physics at an elementary level that would not be regularly offered. A new course may be taught on an experimental basis with this offering.

**Credit Hours:** 3 hrs  
**Prerequisite:** See department for prerequisites  
**Last Updated:** Links 04/2011

**PHY 221 - Mechanics, Sound and Heat (Gen Ed Area IV)**

The first course of an introductory two course sequence in college-level physics. Topics include particle motion, Newton’s laws of motion, conservation laws, gravitation, rotation, harmonic motion, sound and thermodynamics. Laboratory: two consecutive hours, one day per week. All physics majors, minors and pre-engineers must elect PHY 223.

**Credit Hours:** 4 hrs  
**Prerequisite:** (MATH 105 or MATH 119) and MATH 107, or MATH 140 with a C or better in each course; or MATH 112; or MATH 120  
**Last Updated:** Prereqs. 07/2011; Links 04/2011

**Area IV: Knowledge of the Disciplines**

**PHY 221 Mechanics, Sound and Heat**

The purpose of this course is to introduce, explore, test and apply the principles of physics that predict the motion of an object. Today when we take a flight from Detroit to Los Angeles, we expect the arrival time to be within five minutes of predicted time. Such predictions are based on the principles of physics and the tools of mathematics. Other practical applications of these principles include the flight of a baseball, the putting of a golf ball, the motion of the Earth around the sun, the rotation of a bicycle wheel, the setting of bones to allow healing, the vibration of the string on a violin, the flow of air across an airplane wing, and the conduction of heat through a window. PHY 221 presents in detail the foundational principles of motion that all scientists use in their research.  
**Last Updated:** Prereqs. 07/2011; Links 04/2011

**PHY 222 - Electricity and Light**

A continuation of PHY 221. Topics include electrostatics, fields, potentials, current, magnetism, DC and AC circuits, and geometrical and physical optics. Laboratory: two consecutive hours, one day per week. All physics majors, minors and pre-engineers must elect PHY 221.

**Credit Hours:** 4 hrs  
**Prerequisite:** PHY 221 or PHY 223; (MATH 105 or MATH 119) and MATH 107, or MATH 140 with a C or better in each course; or MATH 112; or MATH 120  
**Last Updated:** Prereqs. 07/2011; Links 04/2011
PHY 223 - Mechanics and Sound (Gen Ed Area IV)

A basic, calculus-based course in physics for students majoring in physical science and those on a pre-engineering curriculum. Topics include kinematics, Newton’s laws, work and energy, conservation laws, rotational motion, oscillations and sound.

Credit Hours: 5 hrs  
Lecture/Lab Hours: Laboratory: two consecutive hours, one day per week.  
Prerequisite: MATH 120

Area IV: Knowledge of the Disciplines

PHY 223 Mechanics and Sound
The purpose of this course is to introduce, explore, test and apply the principles of physics that predict the motion of an object. Today when we take a flight from Detroit to Los Angeles, we expect the arrival time to be within five minutes of the predicted time. Such predictions are based on the principles of physics and the tools of mathematics. Other practical applications of these principles include the flight of a baseball, the putting of a golf ball, the motion of the Earth around the sun, the rotation of a bicycle wheel, the setting of bones to allow healing, the building of bridges, the vibration of the string on a violin and the flow of air across an airplane wing. PHY 223 presents in detail the foundational principles of motion that all scientists use in their research.

Last Updated: Links 04/2011

PHY 224 - Electricity and Light

A continuation of PHY 223. Static and current electricity, magnetism and light.

Credit Hours: 5 hrs  
Lecture/Lab Hours: Laboratory: two consecutive hours, one day per week.  
Prerequisite: PHY 223 and MATH 121

Last Updated: Links 04/2011

PHY 229 - Strength and Elasticity of Materials

Fundamental principles of mechanics applied to solids. Equilibrium, elasticity, stress and strain, generalized Hooke’s Law, tension, torsion, shear, bending, deflection of beams, theory of columns and strain energy.

Credit Hours: 4 hrs  
Lecture/Lab Hours: Four lecture-recitation periods per week. Laboratory required.  
Prerequisite: PHY 223 and MATH 121

Last Updated: Links 04/2011

PHY 230 - Engineering Dynamics

Vector representation of physical quantities. Statics of rigid bodies. Friction, kinematics of particles and rigid bodies. Dynamics of particles and rigid bodies. Work and energy.

Credit Hours: 4 hrs  
Lecture/Lab Hours: Four lecture-recitation periods per week.  
Prerequisite: PHY 223; MATH 121; MATH 122

Last Updated: Links 04/2011

PHY 277 - Special Topics
This special topics course will be used to teach aspects of physics at an intermediate level that would not be regularly offered. A new course may be taught on an experimental basis with this offering.

**Credit Hours:** 1 hr  
**Prerequisite:** See department for prerequisites  
**Last Updated:** Links 04/2011

**PHY 278 - Special Topics**

This special topics course will be used to teach aspects of physics at an intermediate level that would not be regularly offered. A new course may be taught on an experimental basis with this offering.

**Credit Hours:** 2 hrs  
**Prerequisite:** See department for prerequisites  
**Last Updated:** Links 04/2011

**PHY 279 - Special Topics**

This special topics course will be used to teach aspects of physics at an intermediate level that would not be regularly offered. A new course may be taught on an experimental basis with this offering.

**Credit Hours:** 3 hrs  
**Prerequisite:** See department for prerequisites  
**Last Updated:** Links 04/2011

**PHY 297 - Independent Study**

An intensive study of a problem or group of problems under the direction of a department faculty member.

**Credit Hours:** 1 hr  
**Prerequisite:** Approval by the faculty member and department permission  
**Last Updated:** Links 04/2011

**PHY 311 - Teaching Elementary Physical Science**

Designed particularly for teachers in elementary science. An elementary study of motion, forces, energy, matter, heat, sound, light, magnetism and electricity. Focus is on simple experimental projects, followed by class discussions. Most of the apparatus will be made from materials available in the home or at a variety store. Offered only to elementary education students.

**Credit Hours:** 3 hrs  
**Prerequisite:** PHY 100  
**Last Updated:** Links 04/2011

**PHY 312 - Electricity Experiments for Elementary Teachers**

A practical course designed to help elementary teachers learn the basics of electricity and electrical safety. Students will use grade-level appropriate mathematics, equipment and measurement devices to investigate simple circuits. Electrical energy production, use and conservation will be discussed with reference to U.S. consumers in a global context. Only open to elementary education students.

**Credit Hours:** 3 hrs
PHY 325 - Methods of Teaching the Physical Sciences

A study of strategies and procedures used in secondary school teaching. Students will be provided with the opportunity to familiarize themselves with the newer science curricula; visit secondary school classrooms; present classroom demonstrations and conduct laboratory work; learn to use modern teaching aids, especially the computer, in classroom teaching; and develop means of evaluating cognitive and affective learning. Two recitation and two laboratory hours per week. Open to prospective teachers following the junior-senior high school curriculum who are majoring or minoring in integrated science or a physical science.

Credit Hours: 3 hrs
Prerequisite: CURR 305; or department permission
Class Restrictions: Junior standing
Major Restrictions: Admission to the Initial Teacher Preparation Program
Notes: Not open to students on academic probation. Students only have the choice of a methods class if they are an Integrated Science Major.
Last Updated: 2/16/2011

PHY 330 - Intermediate Mechanics I

The statics and dynamics of a particle, projectiles with air resistance, central forces, dynamics of a system of particles, vibrational motion and pendulums.

Credit Hours: 3 hrs
Prerequisite: PHY 224; MATH 121; MATH 122
Last Updated: Links 04/2011

PHY 332 - Mechanics Laboratory

A laboratory course providing experimental studies in intermediate mechanics.

Credit Hours: 1 hr
Lecture/Lab Hours: Three hours of laboratory per week.
Concurrent Prerequisite: PHY 330
Last Updated: Links 04/2011

PHY 350 - Electricity and Magnetism I

An introductory course dealing mainly with electrostatics and magnetostatics. The following topics will be covered: vector calculus; Coulomb’s law; Gauss’s and Ampere’s law; electric and magnetic fields; potentials and potential energies; solution of Laplace’s equation for rectangular, cylindrical and spherical geometries in the presence of conductors, dielectrics and magnetic materials; electric and magnetic susceptibilities; resistance; capacitance; inductance; electromotive force; and electromagnetic induction.

Credit Hours: 3 hrs
Prerequisite: PHY 224; MATH 223
Last Updated: Links 04/2011

PHY 360 - Heat and Thermodynamics
An intermediate course in the study of heat and thermodynamics. The course will include an introduction of the fundamental concepts followed by specific topics, including thermal expansion, specific heat, change of state, elementary kinetic theory, thermodynamics laws, entropy and other thermodynamic functions. No prior knowledge of thermodynamics is presumed.

**Credit Hours:** 4 hrs  
**Prerequisite:** PHY 222 or PHY 224; MATH 223  
**Last Updated:** Links 04/2011

**PHY 370 - Introduction to Modern Physics**

An introduction to modern physics and relativity. The qualitative interpretation, according to the modern quantum theory, of experimental results in atomic and nuclear physics.

**Credit Hours:** 3 hrs  
**Prerequisite:** MATH 121; PHY 222 or PHY 224  
**Last Updated:** Links 04/2011

**PHY 372 - Modern Physics Laboratory**

A laboratory course providing experimental studies in such areas as late classical, relativistic, quantum, and nuclear physics.

**Credit Hours:** 1 hr  
**Lecture/Lab Hours:** Three hours of laboratory per week.  
**Concurrent Prerequisite:** PHY 370  
**Last Updated:** Links 04/2011

**PHY 377 - Special Topics**

This special topics course will be used to teach some aspects of physics at an advanced level that would not be regularly offered. A new course may be taught on an experimental basis with this offering.

**Credit Hours:** 1 hr  
**Prerequisite:** See department for prerequisites  
**Last Updated:** Links 04/2011

**PHY 378 - Special Topics**

This special topics course will be used to teach some aspects of physics at an advanced level that would not be regularly offered. A new course may be taught on an experimental basis with this offering.

**Credit Hours:** 2 hrs  
**Prerequisite:** See department for prerequisites  
**Last Updated:** Links 04/2011

**PHY 379 - Special Topics**

This special topics course will be used to teach some aspects of physics at an advanced level that would not be regularly offered. A new course may be taught on an experimental basis with this offering.

**Credit Hours:** 3 hrs
**PHY 387 - Cooperative Education in Physics**

Four to six months of full-time employment at an industrial firm specially chosen for imparting a practical educational experience in physics. The program consists of two work experiences (PHY387/487) alternating with full-time attendance at the University.

**Credit Hours:** 3 hrs  
**Prerequisite:** Admittance by application only  
**Class Restrictions:** Junior standing  
**Notes:** Use toward a physics major or minor subject to department permission. Offered on a graded credit/no-credit basis

**PHY 390 - Physics Project**

A suitable project in physics is to be done on an individual basis. Arrangements must be made with a physics faculty member before the beginning of the semester.

**Credit Hours:** 2 hrs  
**Prerequisite:** Department permission  
**Last Updated:** Links 04/2011

**PHY 391 - Physics Project**

A suitable project in physics is to be done on an individual basis. Arrangements must be made with a physics faculty member before the beginning of the semester.

**Credit Hours:** 2 hrs  
**Prerequisite:** Department permission  
**Last Updated:** Links 04/2011

**PHY 397 - Independent Study**

An intensive study of a problem or group of problems under the direction of a department faculty member.

**Credit Hours:** 1 hr  
**Prerequisite:** Approval by the faculty member and department permission  
**Last Updated:** Links 04/2011

**PHY 398 - Independent Study**

An intensive study of a problem or group of problems under the direction of a department faculty member.

**Credit Hours:** 2 hrs  
**Prerequisite:** Approval by the faculty member and department permission  
**Last Updated:** Links 04/2011

**PHY 399 - Independent Study**

An intensive study of a problem or group of problems under the direction of a department faculty member.
**PHY 406 - Ethical Issues in Physics**

Ethical issues that a career physicist may encounter are studied and discussed. Historical accounts and essays are used to illustrate potential ethical conflicts associated with interactions within the scientific community as well as interactions between the scientific community and society at large.

**Credit Hours:** 3 hrs  
**Prerequisite:** Approval by the faculty member and department permission  
**Last Updated:** Links 04/2011

**PHY 417 - Undergraduate Research Laboratory**

Laboratory work of a research nature done under the direction of a staff member working on a research problem. One problem will extend through the semester, with a comprehensive report required. Six hours are to be spent in the laboratory each week. Arrangements must be made with the department before the beginning of the semester.

**Credit Hours:** 2 hrs  
**Prerequisite:** Department permission  
**Class Restrictions:** Open to Seniors nearing completion of a Physics Major  
**Major Restrictions:** Physics Major  
**Last Updated:** Links 04/2011

**PHY 420W - Capstone Project (Gen Ed Area I, W)**

This course provides the opportunity to synthesize knowledge of a wide range of physics and engineering topics into a research or design project, from concept development, through test and analysis, to final report. Assessment and development of concept knowledge and practical skills are integral to this course.

**Credit Hours:** 3 hrs  
**Prerequisite:** (PHY 230 or PHY 330), PHY 360 and PHY 370  
**Graduate Credit:** This is an undergraduate course available to graduate students for graduate credit.  
**Last Updated:** Graduate Credit 07/2011; Links 04/2011

**PHY 431 - Intermediate Mechanics II**

A continuation of PHY 330. Mechanics of a rigid body, generalized coordinates, the Lagrangian and Hamiltonian functions, relative motion.

**Credit Hours:** 3 hrs  
**Prerequisite:** PHY 330, MATH 223  
**Graduate Credit:** This is an undergraduate course available to graduate students for graduate credit.  
**Last Updated:** Graduate Credit 07/2011; Links 04/2011

**PHY 436 - Vibration and Sound**
Detailed studies of vibration and wave motion with specific emphasis on acoustic waves in air and other media. Reflection, refraction and interference of sound; vibrating strings and air columns; electroacoustic transducers; architectural acoustics.

**Credit Hours:** 4 hrs  
**Lecture/Lab Hours:** Laboratory required. Laboratory meets once per week for three hours.  
**Prerequisite:** PHY 222 or PHY 224; MATH 223  
**Graduate Credit:** This is an undergraduate course available to graduate students for graduate credit.  
**Last Updated:** Graduate Credit 07/2011; Links 04/2011

**PHY 442 - Optics and Optics Laboratory**

An intermediate course with a laboratory dealing with fundamentals of geometrical, physical and quantum optics. Topics covered include: reflection, refraction, lenses and optical instruments, spectrosopes and spectra, interference, diffraction and polarization.

**Credit Hours:** 4 hrs  
**Lecture/Lab Hours:** Three hours of laboratory per week.  
**Prerequisite:** PHY 222 or PHY 224; MATH 121  
**Graduate Credit:** This is an undergraduate course available to graduate students for graduate credit.  
**Last Updated:** Graduate Credit 07/2011; Links 04/2011

**PHY 444 - Applied Optics**

A combined lecture/laboratory course covering applications of optics. Applications include, but are not limited to, polarized light devices, laser operation, holography, image processing and fiber optics.

**Credit Hours:** 2 hrs  
**Lecture/Lab Hours:** Lecture: one hour per week. Laboratory: three consecutive hours per week.  
**Prerequisite:** PHY 224  
**Graduate Credit:** This is an undergraduate course available to graduate students for graduate credit.  
**Last Updated:** Graduate Credit 07/2011; Links 04/2011

**PHY 450 - Electricity and Magnetism II**

A brief review of electrostatics and magnetostatics. The following topics will be covered: Faraday’s Law, displacement current, Maxwell’s equations, Poynting vector, plane wave solutions, polarization, wave propagation in dielectrics and conductors, dispersion, Fresnel’s equations, guided waves, dipoleraditation, Lienard-Wiechert potentials, and radiation theory.

**Credit Hours:** 3 hrs  
**Prerequisite:** PHY 350; MATH 325  
**Graduate Credit:** This is an undergraduate course available to graduate students for graduate credit.  
**Last Updated:** Graduate Credit 07/2011; Links 04/2011

**PHY 452 - Electrical Measurements**

An intermediate course in electricity. The fundamental principles involved in measuring electric and magnetic quantities, the use of high-grade electrical apparatus. Experiments include studies of galvanometers, Wheatstone bridges of various forms, potentiometers and standard cells, vacuum tubes, magnetic measurements and methods of measuring capacitance and inductance.

**Credit Hours:** 4 hrs  
**Lecture/Lab Hours:** Laboratory: four consecutive hours, one day per week.  
**Prerequisite:** PHY 221/PHY 223 and PHY 222 or PHY 224
PHY 456 - Electronics for Scientists

Theory and application of passive and semiconductor circuit elements. Analog and digital circuit analysis and design problems.

Credit Hours: 4 hrs
Lecture/Lab Hours: Lecture: three hours per week. Laboratory: three hours per week.
Prerequisite: PHY 222 or PHY 224; MATH 121
Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.
Last Updated: Graduate Credit 07/2011; Links 04/2011

PHY 458 - Electronic Devices for Scientists

Electronic devices used in electronic instruments: transistors, logic gates, and interface circuits. Interface techniques with applications to measurements.

Credit Hours: 4 hrs
Lecture/Lab Hours: Lecture: three hours per week. Laboratory: three hours per week.
Prerequisite: PHY 456
Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.
Last Updated: Graduate Credit 07/2011; Links 04/2011

PHY 462 - Kinetic Theory and Statistical Mechanics

An introduction to the kinetic theory of gases and statistical mechanics. For students concentrating in physics and those contemplating advanced study in related fields of science and engineering. Maxwell-Boltzman distribution law, entropy and probability, transport phenomena, quantum statistics, Bose-Einstein and Fermi-Dirac statistics, the connection between statistical mechanics and thermodynamics, the equation of state, the elementary electron theory of metals and statistical methods in nuclear physics.

Credit Hours: 3 hrs
Prerequisite: PHY 224; MATH 223
Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.
Last Updated: Graduate Credit 07/2011; Links 04/2011

PHY 471 - Atomic and Nuclear Physics

Topics include basic nuclear structure, nuclear decay and radioactivity, nuclear reactions and particle physics.

Credit Hours: 3 hrs
Prerequisite: PHY 370, MATH 121
Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.
Last Updated: Graduate Credit 07/2011; Links 04/2011

PHY 475 - Introduction to Quantum Mechanics

The fundamental ideas of the quantum theory; the dual nature of matter, wave equations and wave packets, observable and linear operators, the application of the Schroedinger and Heisenberg equations to elementary systems, Pauli’s theory of electron spin.
**PHY 477 - Special Topics**

This special topics course will be used to teach aspects of physics at an advanced level that would not regularly be offered.

Credit Hours: 1 hr  
Prerequisite: see department for prerequisites

**PHY 478 - Special Topics**

This special topics course will be used to teach aspects of physics at an advanced level that would not regularly be offered.

Credit Hours: 2 hrs  
Prerequisite: see department for prerequisites

**PHY 479 - Special Topics**

This special topics course will be used to teach aspects of physics at an advanced level that would not regularly be offered.

Credit Hours: 3 hrs  
Prerequisite: see department for prerequisites

**PHY 481 - Mathematical Physics**

Advanced mathematical topics for the physics student, with applications drawn from the field of physics. Vectors, matrices, tensors, partial differential equations, contour integration, calculus of variations, integral equations and transforms, eigenvalue functions, perturbation and group theory, special functions.

Credit Hours: 3 hrs  
Prerequisite: MATH 325 and PHY 330  
Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.  
Last Updated: Graduate Credit 07/2011; Links 04/2011

**PHY 485 - Fluid Dynamics**

An introduction to the statics and dynamics of real and ideal fluids: properties of fluids, mathematical models, dimensional analysis, boundary layer flow, flow in pipes, compressible, incompressible, laminar and turbulent flow.

Credit Hours: 3 hrs  
Prerequisite: PHY 230 or PHY 330; PHY 360  
Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.  
Last Updated: Graduate Credit 07/2011; Links 04/2011

**PHY 487 - Cooperative Education in Physics**

Four to six months of full-time employment at an industrial firm specially chosen for imparting a practical educational experience in physics. The program consists of two work experiences (PHY 387 and PHY 487) alternating with full-time attendance at the
PHY 491 - Special Problems (Honors Courses)

An original experimental or theoretical problem in some area of physics investigated on an individual basis. Arrangements must be made with a staff member before the beginning of the semester.

Credit Hours: 2 hrs
Prerequisite: 20 hours of physics, a B average in physics and department permission

PHY 495 - Readings in Physics (Honors Course)

Designed to give individual students a planned intensive reading program in some field of physics, the subject being chosen jointly by the student and the instructor. A part of this course will be the presentation of an hour-long talk in the chosen subject at an open meeting of the Department of Physics staff and students.

Credit Hours: 1 hr
Prerequisite: 20 hours of physics and department permission
Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.
Last Updated: Graduate Credit 07/2011

PHY 497 - Independent Study — Physics

An extensive study of a problem or group of problems under the direction of a department faculty member.

Credit Hours: 1 hr
Prerequisite: Approval by the faculty member and department permission
Last Updated: Links 04/2011

PHY 498 - Independent Study — Physics

An extensive study of a problem or group of problems under the direction of a department faculty member.

Credit Hours: 2 hrs
Prerequisite: Approval by the faculty member and department permission
Last Updated: Links 04/2011

PHY 499 - Independent Study — Physics

An extensive study of a problem or group of problems under the direction of a department faculty member.

Credit Hours: 3 hrs
Prerequisite: Approval by the faculty member and department permission
Last Updated: Links 04/2011
Political Science Programs and Courses

Political Science

Major

Combined Bachelor's Degree in Political Science and Master's of Public Administration Degree

The Combined Bachelor's Degree in Political Science (PLPA) and Master’s of Public Administration Degree is an accelerated five year program in which exceptional students will earn both undergraduate and graduate degrees. Students will spend their first three years engaged in undergraduate studies and their final two completing the graduate program. The total number of credits needed for the program will be 150. At the undergraduate level, students will complete their General Education requirements, a minor and an abbreviated version of the undergraduate Political Science major. Starting their fourth year, students will complete all 40-46 hours of the M.P.A. program, and a portion of the credits will double count toward the undergraduate B.S. degree.

The curriculum requires two internships, one as part of the undergraduate major, the second in the M.P.A. portion. Thus, students will have substantial field experience in public administration upon completing the full B.S./M.P.A. program.

http://www.emich.edu/polisci/Internship/undergrad_majors.html

Admission

Students will be invited to apply to the Combined Degree Program by Feb. 1 of their junior year, and will be offered admission by March 1 of their junior year. Applications will require letters of recommendation, a personal statement focusing on career goals and reasons for applying to the program, and an interview with the M.P.A. Director (or a designate). A minimum 3.3 grade-point average will be required for entry to this program.

Political Science Department Information:

Department Head: Arnold Fleischmann
Department Contact: afleisch@emich.edu
Website: http://www.emich.edu/polisci/

Adviser Information:

Program Adviser: Dr. Gregory Plagens
Email: gplagen1@emich.edu
Phone: 734.487.3113

General Education Requirements:

For specific requirements refer to the General Education Program. Download the Gen Ed Checklist here.

Additional Requirements: 3 hours
One of the following:

- PLSC 112 - American Government (Gen Ed Area IV) 3 hrs
- PLSC 113 - American Government Honors (Gen Ed Area IV) 3 hrs

Undergraduate Requirements: 30 hours

Required Core Courses: 9 hours

- PLSC 210 - Introduction to Political Analysis (Gen Ed Area II) 3 hrs
- PLSC 270 - Public Administration 3 hrs
- PLSC 480 - Field Seminar in Political Science/Public Administration 3 hrs

Restricted Electives: 6 hours

Two courses from the following:

- PLSC 211 - Introduction to Comparative Government (Gen Ed Area III) 3 hrs
- PLSC 212 - Introduction to International Politics (Gen Ed Area IV) 3 hrs
- PLSC 213 - Introduction to Political Thought (Gen Ed Area IV) 3 hrs

Distribution Requirements: 9 hours

Three courses from the groups listed below, including at least one course from each group:

I. Comparative Politics and International Relations

- PLSC 120 - Global Issues (Gen Ed Area III) 3 hrs
- PLSC 221 - America at War: From Vietnam to Iraq 3 hrs
- PLSC 345 - War and Peace in the Nuclear Age 3 hrs
- PLSC 308 - Political Violence and Revolution 3 hrs
- PLSC 311 - Politics of the Developing World 3 hrs
- PLSC 327W - American Foreign Policy Process (Gen Ed Area I, W) 3 hrs
- PLSC 341 - International Law 3 hrs
- PLSC 342 - International Organizations 3 hrs
- PLSC 354 - Canadian Politics 3 hrs
- PLSC 361 - Russian Politics 3 hrs
- PLSC 367 - Latin American Politics 3 hrs
- PLSC 371 - Middle East Politics 3 hrs
- PLSC 372 - African Politics 3 hrs
- PLSC 374 - Asian Politics 3 hrs
- PLSC 390 - Poverty, Human Rights and Health (Gen Ed Area III) 3 hrs
- PLSC 391 - Field Study: Global Experience - Poverty, Human Rights and Health 3 hrs
- PLSC 462 - Russian Foreign Relations 3 hrs
- PLSC 467 - Advanced International Relations 3 hrs
II. Political Theory and Methods:

- PLSC 310 - Methods of Political Research 3 hrs
- PLSC 382 - Politics and the 21st Century 3 hrs
- PLSC 320 - Political Science in Literature and Film 3 hrs
- PLSC 306 - Contemporary Political Thought 3 hrs
- PLSC 307 - Democracy and Power 3 hrs
- PLSC 309 - American Political Theory 3 hrs

Graduate Courses Toward Undergraduate Major: 6 hours

Minor Requirements:

This program requires a minor. Please contact your program adviser for a list of possible minors.

Graduate Courses Toward MPA Only: 34-40 hours

Program Total:

Students must earn a minimum total of 124 credits at the 100-level or above.

Note:

*Each student must choose a writing intensive course as part of major completion requirements. Consult your adviser for course options.*

Critical Graduation Information:

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the *100-level and above*. Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Earn a minimum of 60 credits from a four-year college or university; *courses taken at community colleges cannot be used to meet this requirement*. (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 *unique* credit hours in their major and 20 *unique* credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
Not more than 60 credit hours in one subject area (prefix) may be applied towards the minimum of 124 credit hours required for a bachelor's degree.

Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more than one major or minor.
  - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor.
  - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
  - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor.

Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is coordinated by the Office of Admissions, and additional documentation may be required.

Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be earned in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

General Education Requirements:

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available on the General Education section of the catalog: General Education

For Students who began their undergraduate program at EMU in Fall 2007 or later or who have elected to follow the current ("new") General Education Program, follow the "For Students" link under the Current Program heading.

For Students who began their undergraduate program at EMU before Fall 2007 and who have elected to follow the Pre-2007 General Education Requirements, follow the "General Education Program Prior to Fall 2007 (pdf file)" link under the Program Prior to Fall 2007 heading. Please note that students who wish to graduate under pre-2007 General Education requirements must graduate by August 2014; those who have not completed all degree requirements by that time will need to satisfy the current (Fall 2007) General Education requirements.

Students who transferred to EMU may have modified general education requirements based on MACRAO or articulation agreements; consult your academic adviser for additional information.

University Information: Consult the online catalog at catalog.emich.edu.

Combined Bachelor's Degree in Public Administration and Master's of Public Administration Degree (PAPA)

The Combined Bachelor's Degree in Public Administration (PAPA) and Master's of Public Administration Degree is an accelerated five year program in which exceptional students will earn both undergraduate and graduate degrees. Students will spend their first three years engaged in undergraduate studies and their final two completing the graduate program. The total number of credits needed for the program will be 150. At the undergraduate level, students will complete their General Education requirements, a minor and an abbreviated version of the undergraduate Public Administration major. Starting their fourth year, students will complete all 40-46 hours of the M.P.A. program, and a portion of the credits will double count toward the undergraduate B.S. degree.

The curriculum requires two internships, one as part of the undergraduate major, the second in the M.P.A. portion. Thus, students will have substantial field experience in public administration upon completing the full B.S./M.P.A. program.

http://www.emich.edu/polisci/Internship/undergrad_majors.html
Admission
Students will be invited to apply to the Combined Degree Program by Feb. 1 of their junior year, and will be offered admission by March 1 of their junior year. Applications will require letters of recommendation, a personal statement focusing on career goals and reasons for applying to the program, and an interview with the M.P.A. Director (or a designate). A minimum 3.3 grade-point average will be required for entry to this program.

For specific requirements refer to the General Education Program. Download the Gen Ed Checklist here.

Additional Requirements: 3 hours

- MATH 170 - Elementary Statistics (Gen Ed Area II) 3 hrs
  or
- SOCL 250 - Quantitative Applications in Sociology (Gen Ed Area II) 3 hrs

Undergraduate Requirements: 30 hours

Required Core Courses: 9 hours

- PLSC 210 - Introduction to Political Analysis (Gen Ed Area II) 3 hrs
- PLSC 270 - Public Administration 3 hrs
- PLSC 480 - Field Seminar in Political Science/Public Administration 3 hrs

Restricted Electives: 15 hours

*Five courses from the following:*

- PLSC 202 - State and Local Government (Gen Ed Area IV) 3 hrs
- PLSC 216 - Municipal Government 3 hrs
- PLSC 301 - American Legal System 3 hrs
- PLSC 330 - Urban Politics 3 hrs
- PLSC 332 - Intergovernmental Relations and Federalism 3 hrs
- PLSC 334 - Personnel Administration in Government 3 hrs
- PLSC 352 - Politics of Government Budgeting 3 hrs
- PLSC 364 - Legislative Process 3 hrs
- PLSC 380 - American Presidency 3 hrs
- PLSC 381 - Public Policy Analysis 3 hrs
- PLSC 385 - Judicial Process and Behavior 3 hrs
- PLSC 431W - Theories of Public Organization (Gen Ed Area I, W) 3 hrs

Graduate Courses Toward Undergraduate Major: 6 hours

Minor Requirements:

This program requires a minor. Please contact your program adviser for a list of possible minors.

Graduate Courses Toward MPA Only: 34-40 hours

Program Total:

Students must earn a minimum total of 124 credits at the 100-level or above.

Note:

*Each student must choose a writing intensive course as part of major completion requirements. Consult your adviser for course options.*

Critical Graduation Information:

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the 100-level and above. Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Earn a minimum of 60 credits from a four-year college or university; courses taken at community colleges cannot be used to meet this requirement. (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 unique credit hours in their major and 20 unique credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
- Not more than 60 credit hours in one subject area (prefix) may be applied towards the minimum of 124 credit hours required for a bachelor's degree.
• Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more that one major or minor.
  o Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
  o Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
  o Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor
• Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is coordinated by the Office of Admissions, and additional documentation may be required.
• Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be earned in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

General Education Requirements:
EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available on the General Education section of the catalog: General Education

• For Students who began their undergraduate program at EMU in Fall 2007 or later or who have elected to follow the current ("new") General Education Program, follow the "For Students" link under the Current Program heading.
• For Students who began their undergraduate program at EMU before Fall 2007 and who have elected to follow the Pre-2007 General Education Requirements, follow the "General Education Program Prior to Fall 2007 (pdf file)" link under the Program Prior to Fall 2007 heading. Please note that students who wish to graduate under pre-2007 General Education requirements must graduate by August 2014; those who have not completed all degree requirements by that time will need to satisfy the current (Fall 2007) General Education requirements.

Students who transferred to EMU may have modified general education requirements based on MACRAO or articulation agreements; consult your academic adviser for additional information.

University Information: Consult the online catalog at catalog.emich.edu.

International Affairs Major
This curriculum (which counts as a combined major and minor) provides students with an opportunity to develop an understanding of both area and global issues. It is intended to prepare students for participation in a global society, including work with government, business and non-government organizations. It is intended for students who are interested in diplomacy, international affairs and international service.

There are two tracks within this curriculum: Cognate Option A does not have a foreign language requirement and is directed to students who either already possess an adequate level of foreign language proficiency or who anticipate employment in which such proficiency is not expected. This curriculum requires 54 hours. Cognate Option B includes a foreign language requirement and is strongly recommended for individuals who are seeking work outside the United States or work in which some familiarity with foreign language may be an asset such as the foreign service. This curriculum requires 61-64 credit hours.

Political Science Department Information:
Department Head: Arnold Fleischmann
Department Contact: afleisch@emich.edu
Website: http://www.emich.edu/polisci/
General Education Requirements:

For specific requirements refer to the General Education Program.

Required Courses: 12 hours

- PLSC 210 - Introduction to Political Analysis (Gen Ed Area II) 3 hrs
- PLSC 211 - Introduction to Comparative Government (Gen Ed Area III) 3 hrs
- PLSC 212 - Introduction to International Politics (Gen Ed Area IV) 3 hrs
- PLSC 327W - American Foreign Policy Process (Gen Ed Area I, W) 3 hrs

Comparative Politics Courses: 9 hours

Three courses from the following:

- PLSC 308 - Political Violence and Revolution 3 hrs
- PLSC 311 - Politics of the Developing World 3 hrs
- PLSC 354 - Canadian Politics 3 hrs
- PLSC 355 - European Politics 3 hrs
- PLSC 361 - Russian Politics 3 hrs
- PLSC 367 - Latin American Politics 3 hrs
- PLSC 371 - Middle East Politics 3 hrs
- PLSC 372 - African Politics 3 hrs
- PLSC 374 - Asian Politics 3 hrs
- PLSC 405 - British Law and Politics 3 hrs

International Politics Courses: 6 hours

Two courses from the following:

- PLSC 341 - International Law 3 hrs
- PLSC 342 - International Organizations 3 hrs
- PLSC 343L - Model United Nations (Gen Ed Area V LBC) 3 hrs
- PLSC 345 - War and Peace in the Nuclear Age 3 hrs
- PLSC 346 - International Political Economy (NEW COURSE) 3 hrs
- PLSC 390 - Poverty, Human Rights and Health (Gen Ed Area III) 3 hrs
- PLSC 391 - Field Study: Global Experience - Poverty, Human Rights and Health 3 hrs
- PLSC 462 - Russian Foreign Relations 3 hrs
- PLSC 467 - Advanced International Relations 3 hrs

Cognate Option A: 24 hours

Students will select courses from at least two disciplines from an approved list of courses in history, economics, anthropology, geography, african american studies and world language (formerly known as foreign language and bilingual studies, FLABS). If a foreign language is selected, students will consult with a world languages advisor to select an appropriate sequence of classes.
Cognate Option B: 19-23 hours

Students will take an appropriate sequence of courses in a foreign language - French, German, Spanish, Japanese, Chinese, Arabic or Russian - and will select four courses from two disciplines from an approved list of courses in history, economics, anthropology and geography.

Capstone: 3 hours

*Students may select one of the following options:*

- PLSC 480 - Field Seminar in Political Science/Public Administration 3 hrs
- PLSC 499 - Independent Study 3 hrs
can be taken either as an undergraduate thesis course or study abroad.

Cognate Courses

African American Studies

- AAS 311 - The African Diaspora 3 hrs
- AAS 313 - Contemporary Africa: The Struggle and Prospects for Development (Gen Ed Area III) 3 hrs

International Economics Perspective

- ECON 201 - Principles of Macroeconomics (Gen Ed Area IV) 3 hrs
- ECON 202 - Principles of Microeconomics (Gen Ed Area IV) 3 hrs
- ECON 411 - Intermediate Macroeconomic Analysis 3 hrs
- ECON 412 - Intermediate Microeconomic Analysis 3 hrs
- ECON 370 - Comparative Economic Systems 3 hrs
- ECON 385 - Economic Development 3 hrs
- ECON 480W - International Economics (Gen Ed Area I, W) 3 hrs

International Geography Perspective

- GEOG 107 - Introduction to Geography (Gen Ed Area IV) 3 hrs
- GEOG 110 - World Regions (Gen Ed Area III) 3 hrs
- GEOG 111 - Regions and Resources 3 hrs
- GEOG 235 - Economic Geography 3 hrs
- GEOG 314W - Geography of Russia and Neighboring States (Gen Ed Area I, W) 3 hrs
- GEOG 316 - History and Geography of Modern Europe 3 hrs
- GEOG 318 - Geography of Asia 3 hrs
- GEOG 319 - Geography of Europe 3 hrs
- GEOG 321 - Geography of Latin America 3 hrs
- GEOG 322 - Geography of Africa 3 hrs

International Historical Perspective
• HIST 103 - 20th-Century Civilization (Gen Ed Area III) 3 hrs
• HIST 110 - World History since 1500 (Gen Ed Area III) 3 hrs
After one 100-level class, students may select from the following:
• HIST 316 - History and Geography of Modern Europe 3 hrs
• HIST 333 - Europe since 1919 3 hrs
• HIST 339 - Arab-Israeli Conflict 3 hrs
• HIST 341 - The Middle East, 1798 to the Present 3 hrs
• HIST 342 - North Africa, 1798 to the Present 3 hrs
• HIST 344 - Russia since 1855 3 hrs
• HIST 347 - Sub-Saharan Africa to 1885 3 hrs
• HIST 348 - 20th-Century Africa 3 hrs
• HIST 349 - South Africa, 1500-Present 3 hrs
• HIST 350 - History of Canada 3 hrs
• HIST 356 - Latin America: National Period 3 hrs
• HIST 375 - Modern India 3 hrs
• HIST 426 - The United States from 1963 to the Present 3 hrs
• HIST 442 - Modern China 3 hrs
• HIST 443 - Modern Japan 3 hrs
• HIST 456 - Europe since 1945 3 hrs
• HIST 457 - History of Mexico 3 hrs
• HIST 461 - Foreign Relations of the United States 3 hrs

International Social/Cultural Perspective

• ANTH 135 - Introduction to Cultural Anthropology (Gen Ed Area III, IV) 3 hrs
• ANTH 233 - Cultures of Mesoamerica and the Caribbean (Gen Ed Area III) 3 hrs
• ANTH 236 - Peoples and Cultures of Africa 3 hrs
• ANTH 248 - Peoples and Cultures of the Pacific 3 hrs
• ANTH 336 - Social and Cultural Change 3 hrs
• ANTH 385 - Culture of Japan 3 hrs

Minor Requirements:

This program does not require a minor.

Program Total:

Students must earn a minimum total of 124 credits at the 100-level or above.

Critical Graduation Information:

The following are minimum requirements for all bachelor’s degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

• Earn a minimum total of 124 credits at the 100-level and above. Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses
will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.

• Meet the requirements of the General Education program (see information below).

• Earn a minimum of 60 credits from a four-year college or university; courses taken at community colleges cannot be used to meet this requirement. (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)

• Earn a minimum of 30 credits from courses taken at EMU.

• Complete 10 of the last 30 hours for the degree from courses taken at EMU.

• Have a minimum of 30 unique credit hours in their major and 20 unique credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.

• Not more than 60 credit hours in one subject area (prefix) may be applied towards the minimum of 124 credit hours required for a bachelor's degree.

• Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more that one major or minor.
  o Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
  o Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
  o Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor

• Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is coordinated by the Office of Admissions, and additional documentation may be required.

• Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be earned in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

General Education Requirements:

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. Political Science Major

For more information regarding internships visit the department site here:
http://www.emich.edu/polisci/Internship/undergrad_major.html
To fulfill the requirements for a major in political science, students must complete at least 30 hours in the major as specified below, complete at least four courses in the major numbered 300 or above and attain at least a C average in the major. Students are further encouraged to take PLSC 112/PLSC 113, as a general education course, prior to the required core courses and to complete PLSC 112/PLSC 113 and the required core courses within the first nine hours of political science course work. A maximum of three credit hours of independent study or internship/cooperative education courses may be applied to the 30 credit hours required for the major. Finally, neither the independent study, internship/cooperative education course, nor PLSC 470 meets the group distribution requirements specified below under areas of concentration, but any may be taken as free political science electives. Students should consult a departmental adviser for guidance about applying these and special topics courses towards the major.

Political Science Department Information:

Department Head: Arnold Fleischmann  
Department Contact: afleisch@emich.edu  
Website: http://www.emich.edu/polisci/

General Education Requirements:

For specific requirements refer to the General Education Program.

Major Requirements: 30 hours

Required Core Courses: 9 hours

- PLSC 210 - Introduction to Political Analysis (Gen Ed Area II) 3 hrs

Two courses from the following:

- PLSC 211 - Introduction to Comparative Government (Gen Ed Area III) 3 hrs  
- PLSC 212 - Introduction to International Politics (Gen Ed Area IV) 3 hrs  
- PLSC 213 - Introduction to Political Thought (Gen Ed Area IV) 3 hrs  
- PLSC 215 - Civil Rights and Liberties in a Diverse US (Gen Ed Area III) 3 hrs

Area of Concentration: 21 hours

Seven courses from the three groups listed below, including at least one course from each group.

I. American Politics, Public Law and Administration

- PLSC 202 - State and Local Government (Gen Ed Area IV) 3 hrs  
- PLSC 216 - Municipal Government 3 hrs  
- PLSC 243 - Black Women: Politics and Racism 3 hrs  
- PLSC 270 - Public Administration 3 hrs  
- PLSC 301 - American Legal System 3 hrs  
- PLSC 305 - Law and Policy in a Constitutional Democracy 3 hrs  
- PLSC 312 - Constitutional Law: Institutions and Process 3 hrs  
- PLSC 313 - Constitutional Law: Civil Rights and Liberties 3 hrs
• PLSC 314 - Civil Mock Trial and Legal Process 3 hrs
  or
• PLSC 316 - Criminal Mock Trial and Legal Process 3 hrs

• PLSC 330 - Urban Politics 3 hrs
• PLSC 332 - Intergovernmental Relations and Federalism 3 hrs
• PLSC 335 - Labor in American Politics 3 hrs
• PLSC 352 - Politics of Government Budgeting 3 hrs
• PLSC 357 - Campaigns and Elections 3 hrs
• PLSC 358 - Political Parties and Interest Groups 3 hrs
• PLSC 359W - Public Opinion and Political Learning (Gen Ed Area I, W) 3 hrs
• PLSC 360 - American Politics and the Media 3 hrs
• PLSC 362 - Black Women: Religion and Sexism 3 hrs
• PLSC 364 - Legislative Process 3 hrs
• PLSC 365 - Women and Politics 3 hrs
• PLSC 380 - American Presidency 3 hrs
• PLSC 381 - Public Policy Analysis 3 hrs
• PLSC 385 - Judicial Process and Behavior 3 hrs
• PLSC 386 - U.S. Supreme Court Simulation 3 hrs

II. Comparative Politics and International Relations:

• PLSC 221 - America at War: From Vietnam to Iraq 3 hrs
• PLSC 308 - Political Violence and Revolution 3 hrs
• PLSC 311 - Politics of the Developing World 3 hrs
• PLSC 327W - American Foreign Policy Process (Gen Ed Area I, W) 3 hrs
• PLSC 341 - International Law 3 hrs
• PLSC 342 - International Organizations 3 hrs
• PLSC 345 - War and Peace in the Nuclear Age 3 hrs
• PLSC 346 - International Political Economy (NEW COURSE) 3 hrs
• PLSC 354 - Canadian Politics 3 hrs
• PLSC 355 - European Politics 3 hrs
• PLSC 361 - Russian Politics 3 hrs
• PLSC 367 - Latin American Politics 3 hrs
• PLSC 371 - Middle East Politics 3 hrs
• PLSC 372 - African Politics 3 hrs
• PLSC 374 - Asian Politics 3 hrs
• PLSC 390 - Poverty, Human Rights and Health (Gen Ed Area III) 3 hrs
• PLSC 391 - Field Study: Global Experience - Poverty, Human Rights and Health 3 hrs
• PLSC 412W - Comparative Legal Systems (Gen Ed Area I, W) 3 hrs
• PLSC 462 - Russian Foreign Relations 3 hrs
• PLSC 467 - Advanced International Relations 3 hrs

III. Political Theory and Methods:

• PLSC 306 - Contemporary Political Thought 3 hrs
• PLSC 307 - Democracy and Power 3 hrs
• PLSC 309 - American Political Theory 3 hrs
• PLSC 310 - Methods of Political Research 3 hrs
• PLSC 320 - Political Science in Literature and Film 3 hrs
• PLSC 382 - Politics and the 21st Century 3 hrs

Minor Requirements:

This program requires a minor. Please contact your program adviser for a list of possible minors.

Program Total:

Students must earn a minimum total of 124 credits at the 100-level or above.

Note:

Each student must choose a writing intensive course as part of major completion requirements. Consult your adviser for course options.

Critical Graduation Information:

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

Students who transferred to EMU may have modified general education requirements based on MACRAO or articulation agreements; consult your academic adviser for additional information.

University Information: Consult the online catalog at catalog.emich.edu.

Public Administration Major

Public administration is a broad-ranging discipline that combines theory and practice, and focuses on the organization of government structure, policies and programs, and the performance of officials. Public administration encourages public policies that are more responsible to human, social and economic needs and that are more efficient and effective.

The public administration major involves a core of course work in public administration and a choice of electives. It may be combined with any number of minors appropriate to the career interests of the student. Students who major in public administration enter a broad range of careers in government service (federal, state or local), nonprofit organizations or business. Some go on to graduate or professional schools in political science, public administration, public policy, business administration or law.

A minor is to be selected in consultation with a public administration adviser. Recommended choices include: computer science, economics, general business, management or writing. Other appropriate minors include: communication, conservation and resource use, criminology and criminal justice, gerontology, historic preservation, journalism, health administration, land use analysis, military science, nonprofit administration, public law and government and social work.

Students are encouraged to take PLSC 112/PLSC 113 American Government as a General Education course prior to the required core courses and to complete PLSC 112/PLSC 113 within the first nine hours of political science course work. With permission of the public administration adviser, six credit hours of internship credit (PLSC 480, PLSC 486/PLSC 488/PLSC 489) or six credit hours of cooperative education credit (PLSC 387/PLSC 487) may be applied to the major. Students should consult an adviser about including these and special topics courses as a part of their program of study.

For more information regarding internships visit the department site here: http://www.emich.edu/polisci/internships/index.php

- Earn a minimum total of 124 credits at the 100-level and above. Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Earn a minimum of 60 credits from a four-year college or university; courses taken at community colleges cannot be used to meet this requirement. (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 unique credit hours in their major and 20 unique credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
- Not more than 60 credit hours in one subject area (prefix) may be applied towards the minimum of 124 credit hours required for a bachelor's degree.
- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more than one major or minor.
  - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
  - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
  - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor
- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is coordinated by the Office of Admissions, and additional documentation may be required.
- Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be earned in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

General Education Requirements:
EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available on the General Education section of the catalog: General Education

- For Students who began their undergraduate program at EMU in Fall 2007 or later or who have elected to follow the current ("new") General Education Program, follow the "For Students" link under the Current Program heading.
- For Students who began their undergraduate program at EMU before Fall 2007 and who have elected to follow the Pre-2007 General Education Requirements, follow the "General Education Program Prior to Fall 2007 (pdf file)" link under the Program Prior to Fall 2007 heading. Please note that students who wish to graduate under pre-2007 General Education requirements must graduate by August 2014; those who have not completed all degree requirements by that time will need to satisfy the current (Fall 2007) General Education requirements.

Students who transferred to EMU may have modified general education requirements based on MACRAO or articulation agreements; consult your academic adviser for additional information.

University Information: Consult the online catalog at catalog.emich.edu.

Public Law and Government Major

The Public Law and Government major focuses student attention on issues related to constitutional, criminal, comparative and international law, legal systems at the state, federal and international levels, and judicial process and behavior as well as alternative methods of dispute resolution. Students who major in public law and government may participate in the Mock Trial competitions and typically continue on to law school prior to a career practicing law. Students are encouraged to take PLSC 112/PLSC 113 as a General Education course prior to the required core courses and to complete PLSC 112/PLSC 113 within the first nine hours of political science course work. Students shall complete at EMU at least three courses in the major numbered 300 or above; and attain at least a C average in the major. A maximum of four credit hours of independent study or internship/cooperative education courses, or a combination of both, may be applied to the 30 credit hours required for the major.

For more information regarding internships visit the department website here:
http://www.emich.edu/polisci/Internship/undergrad_majors.html

Political Science Department Information:

Department Head: Arnold Fleischmann
Department Contact: afleisch@emich.edu
Website: http://www.emich.edu/polisci/

General Education Requirements:

For specific requirements refer to the General Education Program. Download the Gen Ed Checklist here.

Major Requirements: 30 hours

Required Area Courses: 12 hours

- PLSC 385 - Judicial Process and Behavior 3 hrs

One course from each of the following three areas of public law:

Area I:
- PLSC 301 - American Legal System 3 hrs
- PLSC 305 - Law and Policy in a Constitutional Democracy 3 hrs

Area II:

- PLSC 312 - Constitutional Law: Institutions and Process 3 hrs
- PLSC 313 - Constitutional Law: Civil Rights and Liberties 3 hrs

Area III:

- PLSC 341 - International Law 3 hrs
- PLSC 412W - Comparative Legal Systems (Gen Ed Area I, W) 3 hrs

Public Law Elective Courses: 9 hours

*Students may not double count courses taken in the Required Area Course Requirements.*

*Select three courses from the following:*

- ECON 407 - Economic Analysis and Law 3 hrs
- HIST 465 - United States Constitutional History 3 hrs
- PLSC 301 - American Legal System 3 hrs
- PLSC 305 - Law and Policy in a Constitutional Democracy 3 hrs
- PLSC 312 - Constitutional Law: Institutions and Process 3 hrs
- PLSC 313 - Constitutional Law: Civil Rights and Liberties 3 hrs
- PLSC 314 - Civil Mock Trial and Legal Process 3 hrs
- PLSC 316 - Criminal Mock Trial and Legal Process 3 hrs
- PLSC 341 - International Law 3 hrs
- PLSC 386 - U.S. Supreme Court Simulation 3 hrs
- PLSC 387 - Cooperative Education in Political Science 3 hrs
- PLSC 412W - Comparative Legal Systems (Gen Ed Area I, W) 3 hrs
- PLSC 456 - Criminal Law I 3 hrs
- PLSC 480 - Field Seminar in Political Science/Public Administration 3 hrs
- PLSC 486 - Internship in Political Science/Public Administration 3 hrs
- PLSC 487 - Cooperative Education in Political Science 3 hrs
- PLSC 488 - Internship in Political Science/Public Administration 6 hrs
- PLSC 489 - Internship in Political Science/Public Administration 9 hrs
- PLSC 497 - Independent Study 1 hrs
- PLSC 498 - Independent Study 2 hrs
- PLSC 499 - Independent Study 3 hrs

Restricted Elective Courses: 9 hours

*Select one course from each of the following three groups:*

I. American Politics and Administration
• PLSC 202 - State and Local Government (Gen Ed Area IV) 3 hrs
• PLSC 216 - Municipal Government 3 hrs
• PLSC 270 - Public Administration 3 hrs
• PLSC 330 - Urban Politics 3 hrs
• PLSC 332 - Intergovernmental Relations and Federalism 3 hrs
• PLSC 335 - Labor in American Politics 3 hrs
• PLSC 352 - Politics of Government Budgeting 3 hrs
• PLSC 357 - Campaigns and Elections 3 hrs
• PLSC 358 - Political Parties and Interest Groups 3 hrs
• PLSC 359W - Public Opinion and Political Learning (Gen Ed Area I, W) 3 hrs
• PLSC 360 - American Politics and the Media 3 hrs
• PLSC 364 - Legislative Process 3 hrs
• PLSC 365 - Women and Politics 3 hrs
• PLSC 380 - American Presidency 3 hrs
• PLSC 381 - Public Policy Analysis 3 hrs

II: Comparative Politics and International Relations

• PLSC 211 - Introduction to Comparative Government (Gen Ed Area III) 3 hrs
• PLSC 212 - Introduction to International Politics (Gen Ed Area IV) 3 hrs
• PLSC 221 - America at War: From Vietnam to Iraq 3 hrs
• PLSC 345 - War and Peace in the Nuclear Age 3 hrs
• PLSC 308 - Political Violence and Revolution 3 hrs
• PLSC 311 - Politics of the Developing World 3 hrs
• PLSC 327W - American Foreign Policy Process (Gen Ed Area I, W) 3 hrs
• PLSC 342 - International Organizations 3 hrs
• PLSC 346 - International Political Economy (NEW COURSE) 3 hrs
• PLSC 354 - Canadian Politics 3 hrs
• PLSC 361 - Russian Politics 3 hrs
• PLSC 367 - Latin American Politics 3 hrs
• PLSC 371 - Middle East Politics 3 hrs
• PLSC 372 - African Politics 3 hrs
• PLSC 374 - Asian Politics 3 hrs
• PLSC 462 - Russian Foreign Relations 3 hrs
• PLSC 467 - Advanced International Relations 3 hrs

III: Political Theory and Methods

• PLSC 210 - Introduction to Political Analysis (Gen Ed Area II) 3 hrs
• PLSC 213 - Introduction to Political Thought (Gen Ed Area IV) 3 hrs
• PLSC 306 - Contemporary Political Thought 3 hrs
• PLSC 307 - Democracy and Power 3 hrs
• PLSC 309 - American Political Theory 3 hrs
• PLSC 310 - Methods of Political Research 3 hrs
• PLSC 320 - Political Science in Literature and Film 3 hrs
• PLSC 382 - Politics and the 21st Century 3 hrs
Minor Requirements:

This program requires a minor. Please contact your program adviser for a list of possible minors.

Program Total:

Students must earn a minimum total of 124 credits at the 100-level or above.

Note:

*Each student must choose a writing intensive course as part of major completion requirements. Consult your adviser for course options.*

*Courses may not be counted toward more than one requirement within the major.*

Critical Graduation Information:

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the *100-level and above*. Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Earn a minimum of 60 credits from a four-year college or university; *courses taken at community colleges cannot be used to meet this requirement*. (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 unique credit hours in their major and 20 unique credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
- Not more than 60 credit hours in one subject area (prefix) may be applied towards the minimum of 124 credit hours required for a bachelor's degree.
- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more that one major or minor.
  - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
  - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
  - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor
- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is coordinated by the Office of Admissions, and additional documentation may be required.
• Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be earned in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

General Education Requirements:

EMU’s General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. Students who transferred to EMU may have modified general education requirements based on MACRAO or articulation agreements; consult your academic adviser for additional information.

University Information: Consult the online catalog at catalog.emich.edu.

Public Safety Administration Major

The public safety administration program is an interdisciplinary program involving course work in three departments from two colleges within the University. The curriculum is intended to meet the professional development needs of in-service and entry-level personnel in public safety organizations including those involved in law enforcement, public safety, fire protection, private security, disaster and emergency management and corrections, with a competency-based curriculum resting on a strong liberal arts foundation.

The public safety manager’s focus is on leadership, public policy, politics and administration. The public safety manager is concerned with issues such as the causes of crime, the nature and impact of criminal behavior, threats to public safety arising from environmental and natural disasters and the nature and operation of correctional institutions. The administrator’s responsibilities extend to addressing how the public safety organization develops a response to these problems, the nature of the response and how resources — budgets and personnel — are obtained, utilized and evaluated in responding to problems.

This program builds on the public administration major. Courses are drawn from five groups:

• An interdisciplinary, skills-focused, foundation group
• An administration group directed toward developing an understanding of public and of nonprofit organizations and related personnel, budgeting and administrative skills
• A public safety administration group that addresses conditions, strategies and practices found particularly in public safety agencies
• An area concentration
• An academy or internship component

The program combines both major and minor requirements, and graduating students will be awarded a bachelor's degree in public administration.
Transfer students from associate degree programs in related fields may matriculate into the program. Students transferring from another college must, however, complete all general education course work as required by the University for the bachelor’s degree.

An active articulation agreement exists between this program and several community colleges. To see a complete list of current colleges with program articulation agreements with EMU, please click here.

Students who transferred to EMU may have modified general education requirements based on MACRAO or articulation agreements; consult your academic adviser for additional information.

University Information: Consult the online catalog at catalog.emich.edu.

Minor

Nonprofit Administration Minor

The Nonprofit Administration minor provides an opportunity for students to develop the knowledge and skills related to administrative responsibilities in the nonprofit sector. It is linked to and enables a student to fulfill the Nonprofit Leadership Program’s foundation and professional development competencies, and to earn a National Certification in Nonprofit Management and Leadership and the corresponding Certified Nonprofit Professional (CNP) credential. The Nonprofit Administration Minor requires that students without work experience in a nonprofit organization complete an internship for credit in a 501(c)3 organization. Upon graduation, students may go on to work in such organizations as the American Red Cross, Boysville of Michigan, United Way, ACCESS, Freedom House and any of the multitudes of nonprofit human social service, arts/cultural, health care and political nonprofit organizations.

Adviser Information:
Program Adviser: Dr. Claudia Petrescu  
Email: cpetrescu@emich.edu  
Phone: 734.487.3113

Required Courses: 15 hours

- ACC 246 - Accounting for Public Administrators 3 hrs
- PLSC 336 - Foundations of the U.S. Nonprofit Sector 3 hrs
- PLSC 352 - Politics of Government Budgeting 3 hrs

One course from General Nonprofit Management:

- CTAC 370 - Nonprofit Organizational Communication 3 hrs
- MGMT 386 - Organizational Behavior and Theory 3 hrs
- PLSC 435 - Nonprofit Management and Leadership 3 hrs
- SOCL 462 - Complex Organizations 3 hrs

One course from Human Resource Development and Supervision:

- CTAC 370 - Nonprofit Organizational Communication 3 hrs
- MGMT 384 - Human Resource Management 3 hrs
- PLSC 334 - Personnel Administration in Government 3 hrs

Elective Courses: 6-9 hours

Two or three courses (depending on whether an internship is required) from the following not previously been taken.

- AAS 231 - Race, Urbanization and the Policy Mindset 3 hrs
- AAS 351 - The Social Context of African American Health (Gen Ed Area IV) 3 hrs
- CTAC 370 - Nonprofit Organizational Communication 3 hrs
- EDPS 325 - Life Span Human Growth and Development 4 hrs
- JRNL 314 - Writing for Public Relations 3 hrs
- JRNL 408W - Case Studies in Public Relations (Gen Ed Area I, W) 3 hrs
- LAW 393 - Law of Business Enterprises 3 hrs
- LAW 403 - Employment Law 3 hrs
- MKTG 360 - Principles of Marketing 3 hrs
- PLSC 434 - Nonprofit Board Development 3 hrs
- PLSC 436 - Fundraising for Nonprofits 3 hrs
- PLSC 480 - Field Seminar in Political Science/Public Administration 3 hrs
- PSY 321 - Child Psychology 3 hrs
- PSY 322 - Psychology of Adolescence 3 hrs
- SOCL 214 - U.S. Racial and Cultural Minorities (Gen Ed Area III) 3 hrs
- SOCL 303 - Sociology of Childhood and Youth 3 hrs

Minor Total: 21-24 hours
Critical Graduation Information:

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the 100-level and above. Courses with numbers below 100 will not be counted toward this degree requirement. Required Core Courses: 6 hours

Two courses from the following:

- PLSC 210 - Introduction to Political Analysis (Gen Ed Area II) 3 hrs
- PLSC 211 - Introduction to Comparative Government (Gen Ed Area III) 3 hrs
- PLSC 212 - Introduction to International Politics (Gen Ed Area IV) 3 hrs
- PLSC 213 - Introduction to Political Thought (Gen Ed Area IV) 3 hrs
- PLSC 215 - Civil Rights and Liberties in a Diverse US (Gen Ed Area III) 3 hrs
- PLSC 310 - Methods of Political Research 3 hrs

Area of Concentration: 15 hours

Five courses from two of the three following groups:

I. American Politics, Public Law and Administration:

- PLSC 202 - State and Local Government (Gen Ed Area IV) 3 hrs
- PLSC 216 - Municipal Government 3 hrs
- PLSC 243 - Black Women: Politics and Racism 3 hrs
- PLSC 270 - Public Administration 3 hrs
- PLSC 301 - American Legal System 3 hrs
- PLSC 305 - Law and Policy in a Constitutional Democracy 3 hrs
- PLSC 312 - Constitutional Law: Institutions and Process 3 hrs
- PLSC 313 - Constitutional Law: Civil Rights and Liberties 3 hrs
- PLSC 314 - Civil Mock Trial and Legal Process 3 hrs
or

- PLSC 316 - Criminal Mock Trial and Legal Process 3 hrs
- PLSC 330 - Urban Politics 3 hrs
- PLSC 332 - Intergovernmental Relations and Federalism 3 hrs
- PLSC 335 - Labor in American Politics 3 hrs
- PLSC 352 - Politics of Government Budgeting 3 hrs
- PLSC 357 - Campaigns and Elections 3 hrs
- PLSC 358 - Political Parties and Interest Groups 3 hrs
- PLSC 359W - Public Opinion and Political Learning (Gen Ed Area I, W) 3 hrs
- PLSC 362 - Black Women: Religion and Sexism 3 hrs
- PLSC 364 - Legislative Process 3 hrs
- PLSC 365 - Women and Politics 3 hrs
- PLSC 380 - American Presidency 3 hrs
- PLSC 381 - Public Policy Analysis 3 hrs
- PLSC 385 - Judicial Process and Behavior 3 hrs
- PLSC 386 - U.S. Supreme Court Simulation 3 hrs
- WGST 243 - Black Women: Politics and Racism 3 hrs

II. Comparative Politics and International Relations:

- PLSC 221 - America at War: From Vietnam to Iraq 3 hrs
- PLSC 308 - Political Violence and Revolution 3 hrs
- PLSC 310 - Methods of Political Research 3 hrs
- PLSC 311 - Politics of the Developing World 3 hrs
- PLSC 327W - American Foreign Policy Process (Gen Ed Area I, W) 3 hrs
- PLSC 341 - International Law 3 hrs
- PLSC 342 - International Organizations 3 hrs
- PLSC 345 - War and Peace in the Nuclear Age 3 hrs
- PLSC 354 - Canadian Politics 3 hrs
- PLSC 355 - European Politics 3 hrs
- PLSC 361 - Russian Politics 3 hrs
- PLSC 367 - Latin American Politics 3 hrs
- PLSC 371 - Middle East Politics 3 hrs
- PLSC 372 - African Politics 3 hrs
- PLSC 374 - Asian Politics 3 hrs
- PLSC 390 - Poverty, Human Rights and Health (Gen Ed Area III) 3 hrs
- PLSC 391 - Field Study: Global Experience - Poverty, Human Rights and Health 3 hrs
- PLSC 412W - Comparative Legal Systems (Gen Ed Area I, W) 3 hrs
- PLSC 462 - Russian Foreign Relations 3 hrs
- PLSC 467 - Advanced International Relations 3 hrs

III. Political Theory and Methods:

- PLSC 306 - Contemporary Political Thought 3 hrs
- PLSC 307 - Democracy and Power 3 hrs
- PLSC 309 - American Political Theory 3 hrs
• PLSC 310 - Methods of Political Research 3 hrs
• PLSC 320 - Political Science in Literature and Film 3 hrs
• PLSC 382 - Politics and the 21st Century 3 hrs

Minor Total: 21 hours

Note:

All minors must have at least six hours of course work at the 300-level or above.

Critical Graduation Information:

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

• Earn a minimum total of 124 credits at the 100-level and above. Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.
• Meet the requirements of the General Education program (see information below).
• Earn a minimum of 60 credits from a four-year college or university; courses taken at community colleges cannot be used to meet this requirement. (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
• Earn a minimum of 30 credits from courses taken at EMU.
• Complete 10 of the last 30 hours for the degree from courses taken at EMU.
• Have a minimum of 30 unique credit hours in their major and 20 unique credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
• Not more than 60 credit hours in one subject area (prefix) may be applied towards the minimum of 124 credit hours required for a bachelor's degree.
• Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more than one major or minor.
  o Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
  o Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
  o Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor.
• Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is coordinated by the Office of Admissions, and additional documentation may be required.
• Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be earned in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

General Education Requirements:
EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available on the General Education section of the catalog: General Education

- For Students who began their undergraduate program at EMU in Fall 2007 or later or who have elected to follow the current "new") General Education Program, follow the "For Students" link under the Current Program heading.
- For Students who began their undergraduate program at EMU before Fall 2007 and who have elected to follow the Pre-2007 General Education Requirements, follow the "General Education Program Prior to Fall 2007 (pdf file)" link under the Program Prior to Fall 2007 heading. Please note that students who wish to graduate under pre-2007 General Education requirements must graduate by August 2014; those who have not completed all degree requirements by that time will need to satisfy the current (Fall 2007) General Education requirements.

Students who transferred to EMU may have modified general education requirements based on MACRAO or articulation agreements; consult your academic adviser for additional information.

**University Information:** Consult the online catalog at catalog.emich.edu.

### Public Administration Minor

Students are encouraged to take PLSC 112/PLSC 113 as one of their general education courses, prior to the required core courses and to complete PLSC 112/PLSC 113 and the required core courses within the first nine hours of political science course work.

### Political Science Department Information:

Department Head: Arnold Fleischmann  
Department Contact: afleisch@emich.edu  
Website: http://www.emich.edu/polisci/

#### Required Course: 3 hours

- PLSC 270 - Public Administration 3 hrs

#### Restricted Elective Courses: 12 hours

_Four of the following courses:

- PLSC 210 - Introduction to Political Analysis (Gen Ed Area II) 3 hrs
- PLSC 334 - Personnel Administration in Government 3 hrs
- PLSC 352 - Politics of Government Budgeting 3 hrs
- PLSC 381 - Public Policy Analysis 3 hrs
- PLSC 431W - Theories of Public Organization (Gen Ed Area I, W) 3 hrs
- PLSC 480 - Field Seminar in Political Science/Public Administration 3 hrs

#### Elective Courses: 9 hours

_Three courses from the following:

- PLSC 202 - State and Local Government (Gen Ed Area IV) 3 hrs
- PLSC 216 - Municipal Government 3 hrs
- PLSC 301 - American Legal System 3 hrs
- PLSC 330 - Urban Politics 3 hrs
- PLSC 332 - Intergovernmental Relations and Federalism 3 hrs
- PLSC 364 - Legislative Process 3 hrs
- PLSC 380 - American Presidency 3 hrs
- PLSC 385 - Judicial Process and Behavior 3 hrs
- PLSC 470 - Seminar in Political Science 3 hrs
- PLSC 486 - Internship in Political Science/Public Administration 3 hrs

Minor Total: 24 hours

Note:

*All minors must have at least six hours of course work at the 300-level or above.*

Critical Graduation Information:

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the **100-level and above**. Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Earn a minimum of 60 credits from a four-year college or university; **courses taken at community colleges cannot be used to meet this requirement.** (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 **unique** credit hours in their major and 20 **unique** credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
- Not more than 60 credit hours in one subject area (prefix) may be applied towards the minimum of 124 credit hours required for a bachelor's degree.
- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more that one major or minor:
  - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
  - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
  - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor.
- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S.
institutions; the internal review of such courses is coordinated by the Office of Admissions, and additional documentation may be required.

- Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be earned in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

**General Education Requirements:**

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available on the General Education section of the catalog: General Education

- For Students who began their undergraduate program at EMU in Fall 2007 or later or who have elected to follow the current ("new") General Education Program, follow the "For Students" link under the Current Program heading.
- For Students who began their undergraduate program at EMU before Fall 2007 and who have elected to follow the Pre-2007 General Education Requirements, follow the "General Education Program Prior to Fall 2007 (pdf file)" link under the Program Prior to Fall 2007 heading. Please note that students who wish to graduate under pre-2007 General Education requirements must graduate by August 2014; those who have not completed all degree requirements by that time will need to satisfy the current (Fall 2007) General Education requirements.

Students who transferred to EMU may have modified general education requirements based on MACRAO or articulation agreements; consult your academic adviser for additional information.

**University Information:** Consult the online catalog at catalog.emich.edu.

**Public Law and Government Minor**

Students must complete at Eastern Michigan University at least three courses in the public law and government minor numbered 300 or above. A maximum of four credit hours of independent study or internship/cooperative education courses may be applied to the 21 credit hours required for this minor. Students are encouraged to take PLSC 112/PLSC 113 as one of their general education courses, prior to the required core courses and to complete PLSC 112/PLSC 113, and the required core courses within the first nine hours of political science course work.

For more information regarding internships visit the department website here: http://www.emich.edu/polisci/Internship/undergrad_majors.html

**Political Science Department Information:**

Department Head: Arnold Fleischmann
Department Contact: afleisch@emich.edu
Website: http://www.emich.edu/polisci/

**Core Required Courses: 9 hours**

One course from each of the following three areas of public law:

**Area I:**

- PLSC 301 - American Legal System 3 hrs
- PLSC 305 - Law and Policy in a Constitutional Democracy 3 hrs
- PLSC 385 - Judicial Process and Behavior 3 hrs
Area II:

- PLSC 312 - Constitutional Law: Institutions and Process 3 hrs
- PLSC 313 - Constitutional Law: Civil Rights and Liberties 3 hrs

Area III:

- PLSC 341 - International Law 3 hrs
- PLSC 412W - Comparative Legal Systems (Gen Ed Area I, W) 3 hrs

Public Law Restricted Elective Courses: 6 hours

Students may not double count courses taken in the Core Required Courses section.

Select two courses from the following:

- CRM 460 - Criminal Law II 3 hrs
- ECON 407 - Economic Analysis and Law 3 hrs
- HIST 465 - United States Constitutional History 3 hrs

• PLSC 467 - Advanced International Relations 3 hrs

Area III. Political Theory and Methods:

• PLSC 310 - Methods of Political Research 3 hrs
• PLSC 382 - Politics and the 21st Century 3 hrs
• PLSC 320 - Political Science in Literature and Film 3 hrs
• PLSC 306 - Contemporary Political Thought 3 hrs
• PLSC 307 - Democracy and Power 3 hrs
• PLSC 309 - American Political Theory 3 hrs

Minor Total: 24 hours

Note:

All minors must have at least six hours of course work at the 300-level or above.
*Students majoring in Social Studies will continue to be expected to take PLSC305, one of the two courses in Area I.

Critical Graduation Information:

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

• Earn a minimum total of 124 credits at the 100-level and above. Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.
• Meet the requirements of the General Education program (see information below).
• Earn a minimum of 60 credits from a four-year college or university; courses taken at community colleges cannot be used to meet this requirement. (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
• Earn a minimum of 30 credits from courses taken at EMU.
• Complete 10 of the last 30 hours for the degree from courses taken at EMU.
• Have a minimum of 30 unique credit hours in their major and 20 unique credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a
minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.

- Not more than 60 credit hours in one subject area (prefix) may be applied towards the minimum of 124 credit hours required for a bachelor's degree.
- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more that one major or minor.
  - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor.
  - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
  - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor.

- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is coordinated by the Office of Admissions, and additional documentation may be required.
- Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be earned in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

**General Education Requirements:**

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available on the General Education section of the catalog: General Education

- For Students who began their undergraduate program at EMU in Fall 2007 or later or who have elected to follow the current ("new") General Education Program, follow the "For Students" link under the Current Program heading.
- For Students who began their undergraduate program at EMU before Fall 2007 and who have elected to follow the Pre-2007 General Education Requirements, follow the "General Education Program Prior to Fall 2007 (pdf file)" link under the Program Prior to Fall 2007 heading. Please note that students who wish to graduate under pre-2007 General Education requirements must graduate by August 2014; those who have not completed all degree requirements by that time will need to satisfy the current (Fall 2007) General Education requirements.

Students who transferred to EMU may have modified general education requirements based on MACRAO or articulation agreements; consult your academic adviser for additional information.

**University Information:** Consult the online catalog at catalog.emich.edu.

**Political Science**

**PLSC 112 - American Government (Gen Ed Area IV)**

An overview of the structure and function of American national government, focusing on how government is designed, how individuals form and act on their political preferences, how these preferences are transmitted to government, and how government acts (and does not act) on what its citizens want.

**Credit Hours:** 3 hrs

**Notes:** Not open to those with credit in PLSC113; offered on a credit/no-credit basis.

**Area IV: Knowledge of the Disciplines**
PLSC 112 American Government
This course provides students with critical exposure to the methods used by social scientists in creating knowledge. Political Science 112 provides a thorough grounding in American government. It also provides a strong introduction to the discipline of political science. In this course, students gain exposure to how knowledge is generated in the social sciences through the lens of one content area, that of American government. Through material covered in the course, students gain practice in asking important questions about the political world and answering them using the methods practiced in this social science discipline.

Last Updated: 03/2011; effective Spring 2011

PLSC 113 - American Government Honors (Gen Ed Area IV)
An enhanced overview of the structure and function of American national government, focusing on how government is designed, how individuals form and act on their political preferences, how these preferences are transmitted to government, and how government acts (and does not act) on what its citizens want.

Credit Hours: 3 hrs
Notes: Not open to those with credit in PLSC112.

Area IV: Knowledge of the Disciplines

PLSC 113 American Government Honors
This course provides students with the critical exposure to the methods used by social scientists in creating knowledge. Political Science 113 provides a thorough grounding in American government. It also provides a strong introduction to the discipline of political science. In this course, students gain exposure to how knowledge is generated in the social sciences through the lens of one content area, that of American government. Through material covered in the course, students gain practice in asking important questions about the political world and answering them using the methods practiced in this social science discipline.

PLSC 120 - Global Issues (Gen Ed Area III)
This course examines global concerns that transcend boundaries of local and national communities. It emphasizes global perspectives and approaches to analyzing and solving world problems. Each semester will focus on a particular contemporary global issue (such as terrorism, genocide, human rights, global gender issues, ethnic identity/conflict, migration, and democratization).

Credit Hours: 3 hrs

Area III: Perspectives on a Diverse World

PLSC 120 Global Issues [effective Spring 2008]
People of diverse cultural and national backgrounds and experiences are relating to each other much more frequently and intensively, all around the world, than ever before. Global trade, the Internet, climate, migration, terrorism and concepts of human rights are just a few of the many types of interactions that are bringing distant people together in ways that may involve conflict or collaboration. This course will help develop awareness of the changing global context in which we live, of the importance of appreciating diverse perspectives and of the need for building bridges of communication and tolerance to address shared global challenges. Many global issues are controversial and subject to varying perspectives. Each semester, the course will focus on a particular contemporary global issue (such as terrorism, genocide, human rights, global gender issues, ethnic identity and conflict, migration and democratization), not to find a single "correct" solution, but rather to develop skills in analyzing diverse interpretations and considering our own roles and civic responsibilities on a global scale.

PLSC 177A - Topics in American Politics
An examination of a topic in American Politics not normally covered in the curriculum, in which the distinctive concerns of political science are emphasized. Students may elect this course several times, provided different topics are studied, but it may be taken only twice for credit toward a major or minor in political science.

Credit Hours: 1 hr
Previously Listed As: PLSC 177 - Special Topics
Last Updated: Course Number and Title Change 05/2012, effective Fall 2012

PLSC 177B - Topics in Public Law

An examination of a topic in Public Law not normally covered in the curriculum, in which the distinctive concerns of political science are emphasized. Students may elect this course several times, provided different topics are studied, but it may be taken only twice for credit toward a major or minor in political science.

Credit Hours: 1 hr
Previously Listed As: PLSC 177 - Special Topics
Last Updated: Course Number and Title Change 05/2012, effective Fall 2012

PLSC 177C - Topics in Public Administration

An examination of a topic in Public Administration not normally covered in the curriculum, in which the distinctive concerns of political science are emphasized. Students may elect this course several times, provided different topics are studied, but it may be taken only twice for credit toward a major or minor in political science.

Credit Hours: 1 hr
Previously Listed As: PLSC 177 - Special Topics
Last Updated: Course Number and Title Change 05/2012, effective Fall 2012

PLSC 177D - Topics in Nonprofit Administration

An examination of a topic in Nonprofit Administration not normally covered in the curriculum, in which the distinctive concerns of political science are emphasized. Students may elect this course several times, provided different topics are studied, but it may be taken only twice for credit toward a major or minor in political science.

Credit Hours: 1 hr
Previously Listed As: PLSC 177 - Special Topics
Last Updated: Course Number and Title Change 05/2012, effective Fall 2012

PLSC 177E - Topics in Comparative Politics

An examination of a topic in Comparative Politics not normally covered in the curriculum, in which the distinctive concerns of political science are emphasized. Students may elect this course several times, provided different topics are studied, but it may be taken only twice for credit toward a major or minor in political science.

Credit Hours: 1 hr
Previously Listed As: PLSC 177 - Special Topics
Last Updated: Course Number and Title Change 05/2012, effective Fall 2012

PLSC 177F - Topics in International Relations
An examination of a topic in International Relations not normally covered in the curriculum, in which the distinctive concerns of political science are emphasized. Students may elect this course several times, provided different topics are studied, but it may be taken only twice for credit toward a major or minor in political science.

**Credit Hours:** 1 hr  
**Previously Listed As:** PLSC 177 - Special Topics  
**Last Updated:** Course Number and Title Change 05/2012, effective Fall 2012

### PLSC 177G - Topics in Theory and Methods

An examination of a topic in Theory and Methods not normally covered in the curriculum, in which the distinctive concerns of political science are emphasized. Students may elect this course several times, provided different topics are studied, but it may be taken only twice for credit toward a major or minor in political science.

**Credit Hours:** 1 hr  
**Previously Listed As:** PLSC 177 - Special Topics  
**Last Updated:** Course Number and Title Change 05/2012, effective Fall 2012

### PLSC 178A - Topics in American Politics

An examination of a topic in American Politics not normally covered in the curriculum, in which the distinctive concerns of political science are emphasized. Students may elect this course several times, provided different topics are studied, but it may be taken only twice for credit toward a major or minor in political science.

**Credit Hours:** 2 hrs  
**Previously Listed As:** PLSC 178 - Special Topics  
**Last Updated:** Course Number and Title Change 05/2012, effective Fall 2012

### PLSC 178B - Topics in Public Law

An examination of a topic in Public Law not normally covered in the curriculum, in which the distinctive concerns of political science are emphasized. Students may elect this course several times, provided different topics are studied, but it may be taken only twice for credit toward a major or minor in political science.

**Credit Hours:** 2 hrs  
**Previously Listed As:** PLSC 178 - Special Topics  
**Last Updated:** Course Number and Title Change 05/2012, effective Fall 2012

### PLSC 178C - Topics in Public Administration

An examination of a topic in Public Administration not normally covered in the curriculum, in which the distinctive concerns of political science are emphasized. Students may elect this course several times, provided different topics are studied, but it may be taken only twice for credit toward a major or minor in political science.

**Credit Hours:** 2 hrs  
**Previously Listed As:** PLSC 178 - Special Topics  
**Last Updated:** Course Number and Title Change 05/2012, effective Fall 2012

### PLSC 178D - Topics in Nonprofit Administration
An examination of a topic in Nonprofit Administration not normally covered in the curriculum, in which the distinctive concerns of political science are emphasized. Students may elect this course several times, provided different topics are studied, but it may be taken only twice for credit toward a major or minor in political science.

Credit Hours: 2 hrs
Previously Listed As: PLSC 178 - Special Topics

### PLSC 202 - State and Local Government (Gen Ed Area IV)

A study of the forms and functions of state and local governments with special emphasis on the government of Michigan. Especially valuable for teachers of social studies in senior and junior high schools.

**Credit Hours:** 3 hrs

### Area IV: Knowledge of the Disciplines

**PLSC 202 State and Local Government [effective Winter 2009]**  
*State and Local Government* course looks at the critical exposure to the methods used by social scientists in creating knowledge. It provides a thorough grounding in sub-national governments in the American federal governmental system. It also provides a strong introduction to the discipline of political science. In this course, students gain exposure to how knowledge is generated in the social sciences through the lens of one content area, that of state and local government. Through material covered in the course, students gain practice in asking important questions about politics and government and answering them using the methods practiced in this social science discipline.

### PLSC 210 - Introduction to Political Analysis (Gen Ed Area II)

An introduction to techniques for using data to test a wide range of theories regarding how the political world operates. Focus is on building skill in using quantitative and qualitative techniques to understand political phenomena ranging from individual voting behavior to international cooperation and conflict.

**Credit Hours:** 3 hrs

**Last Updated:** Gen Ed Approval 06/2006, effective Summer 2006

### PLSC 211 - Introduction to Comparative Government (Gen Ed Area III)

Develops conceptual tools for comparative analysis of diverse political systems, examining selected nation-states to identify and explain similarities and differences in regime types and patterns of politics. Also examines the interaction of global forces (such as colonialism, the Cold War, and global markets) with domestic social and political change.

**Credit Hours:** 3 hrs  
**Area III: Perspectives on a Diverse World**

**PLSC 211 Comparative Politics**  
From the fall of the Berlin Wall to the rise of ethnic and religious nationalisms to the new challenges of a global marketplace, the world's politics are in transition. As people and events around the world become more interconnected, it is increasingly vital to understand the dramatic political changes going into the 21st century in order to gain global awareness and perspectives on the diverse world in which we live. This course offers an introduction to the study of politics and political issues in countries around the world, with particular focus on cases selected to reflect the diversity of societies and political systems. In comparing specific national responses to common problems, we will be learning not only about how governments work and how people change their form of government, but also about methods of comparative analysis (i.e., how to gain perspective through comparison)
about how the global context shapes and interacts with diverse peoples and governments. The course materials is organized thematically: countries of diverse economic, social and cultural types will be compared regarding a variety of topics (such as democracy, authoritarianism, capitalism, socialism, nationalism, development and globalization).

Last Updated: Format 10/2012

PLSC 212 - Introduction to International Politics (Gen Ed Area IV)

An introduction to major theories and approaches in the study of international relations. The course considers the character of the international system, causes of conflict and war, foreign policy decision-making, determinants of economic development, and global environmental degradation. It also examines current issues such as terrorism, the protection of human rights, and globalization.

Credit Hours: 3 hrs

Area IV: Knowledge of the Disciplines

PLSC 212 Introduction to International Politics
Political Science 212 introduces students to the study of international relations (IR), one of the main fields of political science. This course emphasizes how political scientists acquire and share knowledge about the world. The course requires students to use the theoretical frameworks of the study of IR - realism, neo-realism, liberals, and feminism - to pose and address questions about contemporary issues and problems, including interstate disputes and wars, economic globalization, the increasing inequality among rich and poor nations, protection of human rights, threats to environmental quality and population growth. Through examination of research on such topics, students become familiar with the process of research and acquire the ability to critically evaluate the design of, and results from, research. The course also provides students with the opportunity to gather, examine and interpret data and to report the findings of their research, thus contributing to their understanding of how inquiry is conducted and knowledge is disseminated in political science. In sum, the course prepares students for citizenship in a global community by not only giving them basic factual knowledge of international relations and global processes, but also by providing them with the tools necessary to understand and explain international events and global patterns of change.

PLSC 213 - Introduction to Political Thought (Gen Ed Area IV)

Fundamental concepts, language and arguments in Western political thought from the Classical to the contemporary post 9/11 world will be analyzed focusing on the basic themes of: liberty, equality, justice, fairness, representation and authority. This course meets the GE Requirement in the Humanities as well as being one of the core courses for the major in Political Science, Public Law and Public Administration.

Credit Hours: 3 hrs

Area IV: Knowledge of the Disciplines

PLSC 213 Political Theory
This course introduces students to the philosophical approach to the discipline of political science. Through careful and exacting readings of primary texts, students are introduce to the body of philosophical thought on politics and governing that has developed over 2500 years, learn how philosophical knowledge of politics is developed and disseminated, and learn to develop their own questions and a method for seeking answers to those questions in the discipline. Through a combination of close readings of the texts and placing the text in the historical context, students will gain a basic knowledge of selective works in political philosophy including the ideas or doctrines contained in the practices and approaches used in this long tradition of political reflection.

PLSC 215 - Civil Rights and Liberties in a Diverse US (Gen Ed Area III)
We will survey how a wide variety of groups and individuals sought and currently seek legal protection and recognition through the Constitution, judicial interpretation and legislation. Exposure to these struggles will allow the student to experience a wide range of perspectives and critique how the legal system and society has dealt with clashes between diverse elements of the U.S.

Credit Hours: 3 hrs

Area III: Perspectives on a Diverse World

PLSC 215 Civil Rights and Liberties
This course introduces students to issues of diversity in American society, workplace, schools and community through an examination of the historical development of civil liberties and civil rights in the United States. As such, it fulfills the I.S. Diversity requirement of the General Education curriculum. The course explores how many different groups and individuals have used the guarantees of liberty and equal protection of the laws provided for in the U.S. Constitution and its amendments to challenge unjust laws, break down social intolerance, prejudice and stereotypes, advance their socioeconomic interests and participate more fully in the political and economic life of the nation. By reading and analyzing the decisions of the federal courts, particularly the Supreme Court, in key civil liberties and civil rights cases, students will acquire an understanding of the experiences of the various groups and cultures that have struggled, and continue to struggle, for freedom equality and justice in the United States. They will also explore the social and ideological causes of the intense conflicts over civil liberties and rights that have shaped American history as well as those which shape our politics today. As a result of the study of major legal cases, students will leave the course with an understanding of the cultural complexity of American society as well as a deeper sense of their own civic and cultural identity.

PLSC 216 - Municipal Government
A study of forms and functions of municipal government.

Credit Hours: 3 hrs

PLSC 221 - America at War: From Vietnam to Iraq
Course explores the causes and effects of recent U.S. military interventions from Vietnam to the present. Particular attention will be given to the development and features of the military industrial complex as well as comparison of the geopolitical and military strategies of the Cold War and the Global War on Terror.

Credit Hours: 3 hrs

PLSC 242 - Black Women: Politics and Racism
An analysis of American politics as it relates to African American women. The course examines ways in which political issues affect Black women differently than African American men, white men and white women. Considerable attention is given to the definition of the political realm as opposed to the non-political realm when discussing groups traditionally marginalized or excluded from political life.

Credit Hours: 3 hrs
Cross-Listed with: AAS 242
Last Updated: 2/17/2011

PLSC 243 - Black Women: Politics and Racism
An analysis of American politics as it relates to African American women. The course examines ways in which political issues affect Black women differently than African American men, white men and white women. Considerable attention is given to the definition of the political realm as opposed to the nonpolitical realm when discussing groups traditionally marginalized or excluded from political life.

**Credit Hours:** 3 hrs  
**Cross-Listed with:** AAS 243/WGST 243  
**Last Updated:** Links 04/2011

**PLSC 270 - Public Administration**

This course examines the nature of public administration; problems connected therewith — direction and organization; recruitment, training, and promotion of personnel; maintenance of loyalty and efficiency.

**Credit Hours:** 3 hrs

**PLSC 277A - Topics in American Politics**

An examination of a topic in American Politics not normally covered in the curriculum, in which the distinctive concerns of political science are emphasized. Students may elect this course several times, provided different topics are studied, but it may be taken only twice for credit toward a major or minor in political science.

**Credit Hours:** 1 hr  
**Previously Listed As:** PLSC 277 - Special Topics  
**Last Updated:** Course Number and Title Change 05/2012, effective Fall 2012

**PLSC 277B - Topics in Public Law**

An examination of a topic in Public Law not normally covered in the curriculum, in which the distinctive concerns of political science are emphasized. Students may elect this course several times, provided different topics are studied, but it may be taken only twice for credit toward a major or minor in political science.

**Credit Hours:** 1 hr  
**Previously Listed As:** PLSC 277 - Special Topics  
**Last Updated:** Course Number and Title Change 05/2012, effective Fall 2012

**PLSC 277C - Topics in Public Administration**

An examination of a topic in Public Administration not normally covered in the curriculum, in which the distinctive concerns of political science are emphasized. Students may elect this course several times, provided different topics are studied, but it may be taken only twice for credit toward a major or minor in political science.

**Credit Hours:** 1 hr

PLSC 297 - Independent Study

Approved studies on an individual basis in areas in which the department does not offer formal courses.

Credit Hours: 1 hr

PLSC 298 - Independent Study

Approved studies on an individual basis in areas in which the department does not offer formal courses.

Credit Hours: 2 hrs

PLSC 299 - Independent Study

Approved studies on an individual basis in areas in which the department does not offer formal courses.

Credit Hours: 3 hrs

PLSC 301 - American Legal System

A survey of various substantive components of the American system of law and its function in a democratic society. Special emphasis is placed upon problems of law enforcement, legal agencies and the processes involved in the administration of criminal justice.

Credit Hours: 3 hrs

PLSC 305 - Law and Policy in a Constitutional Democracy
This course explores the political and legal processes that shape the development and interpretation of major constitutional principles. We will discuss the sources and context for American law and examine how actors in the legal and political systems across all levels of government contribute to the laws that govern American society.

**Credit Hours:** 3 hrs  
**Class Restrictions:** Open to Sophomores, Juniors, Seniors and Post-Baccalaureate students

**PLSC 306 - Contemporary Political Thought**

An examination of 20th and 21st century political theories and ideologies around the world including: liberal democracy and its conservative critics; varieties of fascism, socialism and communism; globalization and its critics; national and ethnic ideologies; international religious fundamentalism; and global environmentalism.

**Credit Hours:** 3 hrs

**PLSC 307 - Democracy and Power**

An analysis of citizen democracy and its relation to the power and legitimacy of governments around the world, both past and present, using classic writings, current journalistic and scholarly literature. The focus will be on: the scope and limits of governmental power; socio-economic, racial, gender and regional inequalities; and challenges to democratic politics in time of war, mass media and virtual communication.

**Credit Hours:** 3 hrs

**PLSC 308 - Political Violence and Revolution**

Examines political violence and revolution in comparative and international perspective. Considers theories and cases of structural violence rooted in social injustice; diverse forms and motives of political violence (such as war, rebellion, terrorism, ethnic conflict, national liberation); patterns and cycles of violence and non-violent alternatives; and the dynamics of revolution.

**Credit Hours:** 3 hrs

**PLSC 309 - American Political Theory**

An analysis of what makes American political thought and values both exceptional and reflective of Western political culture, from 18th century Founding to the post 9/11 21st century. Classic writings, journalism and other media, and contemporary scholarship by Americans and non-American observers, will be emphasized.

**Credit Hours:** 3 hrs

**PLSC 310 - Methods of Political Research**

Continued exploration of political analysis techniques introduced in PLSC 210. Attention is paid to data gathering and hypothesis testing, with an emphasis on applying these techniques to real-world political problems. Possible applications include doing applied research work for local municipalities or developing and implementing public opinion surveys.

**Credit Hours:** 3 hrs  
**Prerequisite:** PLSC 210

*Last Updated:* Links 04/2011
**PLSC 311 - Politics of the Developing World**

An examination of politics in developing countries, highlighting the relation between economic development and social/political change. The course investigates the colonial legacy and contemporary sociopolitical conditions, focusing on themes such as race/ethnicity and religion, gender, social polarization, role of the military, nationalisms, democratization, states and markets, globalization.

**Credit Hours:** 3 hrs

**PLSC 312 - Constitutional Law: Institutions and Process**

This course focuses on the foundations, adoption and development of the US Constitution and its impact on the development and operation of American governmental institutions and economic liberty. The course introduces students to landmark cases that interpret and implement the American Constitutions.

**Credit Hours:** 3 hrs

**PLSC 313 - Constitutional Law: Civil Rights and Liberties**

This course focuses on the foundations, adoption and development of the US Constitution and its impact on the development of civil rights and liberties in American law. Special emphasis is placed on the Bill of Rights, the 14th amendment and the right to privacy. The course introduces students to landmark cases that interpret and implement the American Constitution.

**Credit Hours:** 3 hrs

**PLSC 314 - Civil Mock Trial and Legal Process**

This course covers the basics of the actual trial process, the specifics of mock trial competition and rules, and introduces the fundamental elements of the legal research process. Legal methodology will be introduced and developed throughout the course. This course is intimately connected with the University’s Mock Trial Team and is used as a vehicle to train and practice for competition. Students may take the course without participating on the University’s team.

**Credit Hours:** 3 hrs

**PLSC 316 - Criminal Mock Trial and Legal Process**

This course covers the basics of the actual trial process, the specifics of mock trial competition and rules, and introduces the fundamental elements of the legal research process. Legal methodology will be introduced and developed throughout the course. This course is intimately connected with the University’s Mock Trial Team and is used as a vehicle to train and practice for competition. Students may take the course without participating on the University’s team.

**Credit Hours:** 3 hrs

**Last Updated:** Course Number Change 01/2012, effective Winter 2012

**PLSC 320 - Political Science in Literature and Film**

A discussion and analysis of political theories, institutions, and practices utilizing a storehouse of insightful and articulate materials not normally tapped in traditional political science courses: the works of essayists, aphorists, dramatists, pamphleteers, poets and novelists.

**Credit Hours:** 3 hrs
Prerequisite: At least nine hours of political science course work completed
Class Restrictions: Junior or Senior standing or department permission
Major Restrictions: Political Science Majors or Minors only
Previously Listed As: PLSC 410
Last Updated: 01/2009; effective Fall 2009

PLSC 327W - American Foreign Policy Process (Gen Ed Area I, W)

This course explores the content and conduct of American foreign policy. It examines American foreign policy history, theories of decision making, foreign policy actors inside and outside government, as well as specific policy areas including national security, economic prosperity, the environment, and human rights.

Credit Hours: 3 hrs
Rationale: The course will not only enhance students' ability to think critically about American foreign policy, it will also help them to develop and express their ideas through the modes of writing used in the discipline of political science. By completing the writing assignments, students will become proficient in the forms and conventions of writing in the discipline and thus strengthen a variety of skills essential for research, including reading comprehension, the formulation of research questions, review of the scholarly literature, identification of appropriate sources of information and data, accurate summarization of complex arguments and information, analysis of data, and argumentation. Through conducting their own research and writing a research paper, students will strengthen their understanding of how scholars create knowledge of the world.
Last Updated: 2/11/11; effective Fall 2011

PLSC 330 - Urban Politics

An examination of the urban political environment in the United States; structure, processes, power relationships, ethnic considerations, fiscal constraints and select, specific policy areas are considered.

Credit Hours: 3 hrs

PLSC 332 - Intergovernmental Relations and Federalism

A study of intergovernmental relations in the United States focusing on recent trends in the federal system. Examines significant developments and alternatives in shared governmental responsibilities, such as metropolitan reorganization, grant programs and regionalism.

Credit Hours: 3 hrs

PLSC 334 - Personnel Administration in Government

An examination of the basic personnel management practices of public bureaucracies. Topics include the development of the merit system and the civil service; public sector requirements for hiring, promotion, pay and benefits; discipline and grievance handling; the development and impact of public-sector collective bargaining.

Credit Hours: 3 hrs
Last Updated: Links 09/2011

PLSC 335 - Labor in American Politics

An examination of the role played by American labor as a political pressure group and as an agent of voter mobilization; American labor voting patterns; the political impact of labor organization on the civil service; American role in international union affairs.
Credit Hours: 3 hrs

**PLSC 336 - Foundations of the U.S. Nonprofit Sector**

This course provides students with a grounding in the historical and philosophical foundations of the nonprofit sector in American Society. Using and interdisciplinary approach, this course will help students understand the evolution of the nonprofit sector, its capacities and limitations, as well as its distinctiveness.

Credit Hours: 3 hrs

**PLSC 341 - International Law**

A study of the development of international law and world society over time. Examinations of the effect of treaties, customary law, and equity on the role of the United Nations Security Council, international courts, human rights, the law of the sea, war crimes, and other selected topics.

Credit Hours: 3 hrs

**PLSC 342 - International Organizations**

The theory and practice of various types of international organizations (including intergovernmental and nongovernmental). Examines their efforts to create collective solutions to problems such as security, human rights and humanitarian issues, environmental and resource challenges, and global economic governance.

Credit Hours: 3 hrs

**PLSC 343L - Model United Nations (Gen Ed Area V LBC)**

Explores the structure and function of the United Nations in a changing global context. Course includes an in-depth simulation of varying countries and their positions, aims and role within the UN. Students learn about foreign policy analysis, multilateral diplomacy, international organizations, and contemporary global issues.

Credit Hours: 3 hrs
Prerequisite: PLSC 211 or PLSC 212 and department permission
Notes: This course can be taken more than once. The second enrollment is PLSC 344(L).

*Last Updated: Links 03/2011*

**PLSC 344L - Model United Nations (Gen Ed Area V LBC)**

Explores the structure and function of the United Nations in a changing global context. Course includes an in-depth simulation of varying countries and their positions, aims and role within the UN. Students learn about foreign policy analysis, multilateral diplomacy, international organizations, and contemporary global issues.

Credit Hours: 3 hrs
Prerequisite: PLSC 211 or PLSC 212 and department permission

*Last Updated: Links 03/2011*

**PLSC 345 - War and Peace in the Nuclear Age**
This course is about international security, war, and policies to foster peace under the shadow of nuclear weapons. After investigating power distributions, military strategies, deterrence, arms control and disarmament, great-power concerts, collective security, and multilateralism, as well as negotiation and mediation, the course focuses on nuclear proliferation and international peacekeeping.

Credit Hours: 3 hrs  
Previously Listed As: PLSC 222  
Last Updated: Course Number Change 10/2011, effective Winter 2012

**PLSC 346 - International Political Economy (NEW COURSE)**

This course examines the impact of politics on the global economy. This course discusses broad ideas such a capitalism, socialism and communism, and how they have shaped the global economy. The course also attempts to understand a better understanding of major global challenges (such as movements for democracy, oil diplomacy, environmental degradation, international conflict etc.) due to economic globalization.

Credit Hours: 3 hrs  
Concurrent Prerequisite: PLSC 210 or PLSC 211 or PLSC 212  
Last Updated: New Course 06/2012, effective Winter 2013

**PLSC 352 - Politics of Government Budgeting**

An analysis of the political significance and the procedures of governmental budgeting in the United States.

Credit Hours: 3 hrs

**PLSC 354 - Canadian Politics**

Analysis of the Canadian political system in terms of historical background; political environment; constitutional structure; legislative, executive, and judicial processes; political parties and pressure groups; public opinion and voting behavior; political problems and trends.

Credit Hours: 3 hrs  
Last Updated: Title Change 05/2011, effective Fall 2011

**PLSC 355 - European Politics**

This course examines the development and performance of the European model of representative democracy, variations in European model, the patterns of social cleavage and resulting party systems in various European nations, and the factors that have contributed to national wealth and economic growth in the continents.

Credit Hours: 3 hrs  
Class Restrictions: Sophomore standing or above

**PLSC 357 - Campaigns and Elections**

An analysis of presidential and congressional elections. Topics include campaign strategies, role of the media and the impact of political action committees (PACS). Attention given to how individuals decide how to participate in the process, whether election results reflect the will of the people and to elections in other democracies.

Credit Hours: 3 hrs
PLSC 358 - Political Parties and Interest Groups

This course addresses a variety of issues related to the formation, maintenance and behavior of organized political groups. Primary focus is on political parties and interest groups in the United States. However, cross-national comparisons will be included whenever possible.

Credit Hours: 3 hrs

PLSC 359W - Public Opinion and Political Learning (Gen Ed Area I, W)

Examines how individuals form their political opinions and on how these opinions are measured (primarily through public opinion polling) and transmitted to government (primarily through elections). Considers the role public opinion plays in policy-making, and grapples with questions of the role it ought to play.

Credit Hours: 3 hrs

Last Updated: Links 04/2011

PLSC 360 - American Politics and the Media

This course examines the relationship between the media and American politics. We consider the various delivery mechanisms of news and information, and the impact of that information on both citizens and policy makers. From the earliest newspapers to the most contemporary digital information flow, the dynamic role of the media and its relationship to politics provide the basis for this course.

Credit Hours: 3 hrs

Concurrent Prerequisite: PLSC 112 or PLSC 113

Last Updated: New Course 01/2012, effective Winter 2012

PLSC 361 - Russian Politics

Course explores the continuing political, economic, and social transformation of Russia, the largest and most powerful successor state of the Soviet Union. Current political patterns and trends are analyzed within the broader context of Russian and Soviet political history and compared to democratic transformations in other post-communist states.

Credit Hours: 3 hrs

Last Updated: Title change 05/2011, effective Fall 2011

PLSC 362 - Black Women: Religion and Sexism

An introduction to the social and political role of Black women in African American religious institutions. Particular attention will be placed on how African American religion has limited the power of women. Additionally, the course will examine the historical evolution of the various major black denominations in America and their political and social roles in African American communities.

Credit Hours: 3 hrs

Cross-Listed with: AAS 362/WGST 362

Last Updated: Links 04/2011

PLSC 364 - Legislative Process
A study of the agencies, procedures, and influences in the formation of public policy by Congress, state legislatures and administrative agencies.

Credit Hours: 3 hrs

**PLSC 365 - Women and Politics**

A study of the role of women in American politics as voters, activists, and candidates, with consideration of how the political behavior of women relates to their economic, social and religious roles. Comparisons are made with select European and Asian political systems.

Credit Hours: 3 hrs
Cross-Listed with: WGST 365
Last Updated: Links 04/2011

**PLSC 367 - Latin American Politics**

A study of patterns and selected cases in Latin American politics, with special attention to social movements and grassroots perspectives. Students develop a comparative framework for analyzing domestic and international forces affecting politics and regime change. Themes include neocolonialism, authoritarianism and democracy, reform and revolution, indigenous and women’s movements, globalization.

Credit Hours: 3 hrs

**PLSC 371 - Middle East Politics**

The course focuses on the politics of several countries of the Middle East, devoting particular attention to the Arab-Israeli conflict, Iran’s nuclear ambitions, the Israeli nuclear program, secularism, Al Qaeda and terrorism, and the meaning of jihad.

Credit Hours: 3 hrs
Last Updated: Title change 05/2011, effective Fall 2011

**PLSC 372 - African Politics**

An approach to comparative politics through the examination of patterns of politics in Africa, including colonialism and decolonization, nationalist movements, ethnic conflict, transition to multiracial politics, challenges of state formation and regime change in sub-Saharan Africa.

Credit Hours: 3 hrs
Last Updated: Title change 05/2011, effective Fall 2011

**PLSC 374 - Asian Politics**

A study of the politics of Asia, including various regime types (such as liberal democratic, communist, and authoritarian capitalist). Comparative analysis will include themes such as political culture and ideology, political history, and changing roles of Asian countries in global politics and international political economy.

Credit Hours: 3 hrs

**PLSC 390 - Poverty, Human Rights and Health (Gen Ed Area III)**

This interdisciplinary course examines international connections between poverty, human rights, and health, focusing on how social/political structures and public policies affect human well being. Prerequisite for PLSC 391/HLAD 391, experiential learning through a class trip to a developing country to meet community organizers and policy specialists working on poverty and health issues.

Credit Hours: 3 hrs  
Class Restrictions: Sophomore, Junior or Senior standing  
Cross-Listed with: HLAD 390  
Area III: Perspectives on a Diverse World

PLSC 390 Poverty, Human Rights and Health [effective Spring 2008]  
Poverty is a central, if not the central, global problem of our time: it is connected to, or underlies, multiple problems and issues such as pandemics, regime instability, civil strife, terrorism and war. This course addresses the extent and causes of global economic inequality as well as the effects of profound poverty on health, human rights, human development and the quality of individual life. It explores the patterns of social, political and economic domination that sustain poverty and limit the opportunities of the very poor. Particular attention is devoted to the role of international economic institutions, multinational corporations and the advanced industrial nations, including the United States, in shaping the politics and economic development of countries and peoples in the global South. The course will also introduce students to international standards of human rights and the institutions and organizations that seek to protect those rights.  
Last Updated: Links 04/2011

**PLSC 391 - Field Study: Global Experience - Poverty, Human Rights and Health**

Interdisciplinary course offering experiential learning through travel abroad to a developing country to meet community organizers and policy specialists working on poverty and health issues. Examines connections between poverty, human rights, and health, focusing on how social/political structures and public policies affect human well being.

Credit Hours: 3 hrs  
Prerequisite: PLSC 390/HLAD 390  
Class Restrictions: Sophomore, Junior or Senior standing  
Last Updated: Links 04/2011

**PLSC 405 - British Law and Politics**

An analysis of the British Legal and Political systems as they relate to political environment; institutional design; legislative, executive, and judicial processes; political parties and pressure groups; public opinion and voting behavior; and current political problems and trends.
PLSC 412W - Comparative Legal Systems (Gen Ed Area I, W)

An analysis of the issues involved in comparing and contrasting legal systems around the world. Specific attention will be focused on institutional structure and sources of law examined against the historical background in which these laws and institutions were formed. Select legal systems will be compared and contrasted for illustration.

Credit Hours: 3 hrs
Class Restriction: Sophomore standing
Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.
Last Updated: Graduate Credit 07/2011

PLSC 431W - Theories of Public Organization (Gen Ed Area I, W)

An introduction to theories of organization as related to public bureaucracies in a democratic political context.

Credit Hours: 3 hrs
Prerequisite: PLSC 270
Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.
Last Updated: Graduate Credit 07/2011; Links 04/2011

PLSC 434 - Nonprofit Board Development

This course covers the best practices of nonprofit boards, board performance assessment, volunteer management and trends in board development. Board composition, recruiting, evaluation, leadership and board-staff relationships are discussed with an eye toward assembling and maintaining the most effective board possible.

Credit Hours: 3 hrs

PLSC 435 - Nonprofit Management and Leadership

This course explores major issues in the nonprofit sector including operations, board selection and development, strategic planning, marketing and governmental relations. The course emphasizes identification of critical management and leadership competencies through theory and practice, and the course has an Academic Service Learning component.

Credit Hours: 3 hrs

PLSC 436 - Fundraising for Nonprofits

This course provides the fundamentals in understanding of how nonprofits raise funds and prepare students who are interested in working in the nonprofit sector as fundraisers, and managers. It is part of the Nonprofit Administration minor and fulfills an American Humanics competency.

Credit Hours: 3 hrs
Class Restriction: Sophomore standing
Last Updated: Prerequisite change 12/2011, effective Winter 2012; Links 04/2011
PLSC 450 - Managing Public Safety Agencies

Analysis of public-sector management elements, including planning, organizing, leading, controlling, and communicating, presented in the context of, and applied to, internal police/fire and corrections administration.

Credit Hours: 3 hrs
Prerequisite: PLSC 431W
Last Updated: Links 04/2011

PLSC 451 - Seminar in Public Safety Administration

A capstone seminar in the public safety administration concentration; integrates previous course work in law, management and politics by focusing on contemporary problems and issues in public safety operations, including attention to leadership, organizational conflict and resource allocation/utilization; utilizes a case approach.

Credit Hours: 3 hrs
Class Restrictions: Senior standing

PLSC 456 - Criminal Law I

A study of criminal law currently in use in the United States with emphasis upon the way its basic concepts function; its principal components and problems central to its impact upon the political system.

Credit Hours: 3 hrs
Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.
Last Updated: Graduate Credit 07/2011

PLSC 462 - Russian Foreign Relations

An examination of Russia’s international relations and foreign policy from the tsarist period to the present. Particular attention is given to how Russia’s turbulent domestic politics shapes its foreign policy and international behavior, Russia’s contemporary international role, its relations with other post-Soviet states, and interactions with major powers, including the U.S.

Credit Hours: 3 hrs
Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.
Last Updated: Graduate Credit 07/2011

PLSC 467 - Advanced International Relations

The course will explore, through case studies, the ways in which ideas, cultural differences and different political systems combine to produce the international politics of today. Special attention will be paid to the United States in this process as well as the role of economics and international organization. Limit: 25 students.

Credit Hours: 3 hrs
Prerequisite: PLSC 212
Last Updated: Links 04/2011

PLSC 470 - Seminar in Political Science

Examination and utilization of research techniques in the preparation of a major seminar paper in political science, public administration or public law and government.
Credit Hours: 3 hrs

PLSC 477A - Topics in American Politics

An examination of a topic in American Politics not normally covered in the curriculum, in which the distinctive concerns of political science are emphasized. Students may elect this course several times, provided different topics are studied, but it may be taken only twice for credit toward a major or minor in political science.

Credit Hours: 1 hr
Previously Listed As: PLSC 477 - Special Topics
Last Updated: Course Number and Title Change 05/2012, effective Fall 2012

PLSC 477B - Topics in Public Law

An examination of a topic in Public Law not normally covered in the curriculum, in which the distinctive concerns of political science are emphasized. Students may elect this course several times, provided different topics are studied, but it may be taken only twice for credit toward a major or minor in political science.

Credit Hours: 1 hr
Previously Listed As: PLSC 477 - Special Topics
Last Updated: Course Number and Title Change 05/2012, effective Fall 2012

PLSC 477C - Topics in Public Administration

An examination of a topic in Public Administration not normally covered in the curriculum, in which the distinctive concerns of political science are emphasized. Students may elect this course several times, provided different topics are studied, but it may be taken only twice for credit toward a major or minor in political science.

Credit Hours: 1 hr
Previously Listed As: PLSC 477 - Special Topics
Last Updated: Course Number and Title Change 05/2012, effective Fall 2012

PLSC 477D - Topics in Nonprofit Administration

An examination of a topic in Nonprofit Administration not normally covered in the curriculum, in which the distinctive concerns of political science are emphasized. Students may elect this course several times, provided different topics are studied, but it may be taken only twice for credit toward a major or minor in political science.

Credit Hours: 1 hr
Previously Listed As: PLSC 477 - Special Topics
Last Updated: Course Number and Title Change 05/2012, effective Fall 2012

PLSC 477E - Topics in Comparative Politics

An examination of a topic in Comparative Politics not normally covered in the curriculum, in which the distinctive concerns of political science are emphasized. Students may elect this course several times, provided different topics are studied, but it may be taken only twice for credit toward a major or minor in political science.

Credit Hours: 1 hr
Previously Listed As: PLSC 477 - Special Topics
Last Updated: Course Number and Title Change 05/2012, effective Fall 2012

PLSC 477F - Topics in International Relations
An examination of a topic in International Relations not normally covered in the curriculum, in which the distinctive concerns of political science are emphasized. Students may elect this course several times, provided different topics are studied, but it may be taken only twice for credit toward a major or minor in political science.

Credit Hours: 1 hr
Previously Listed As: PLSC 477 - Special Topics
Last Updated: Course Number and Title Change 05/2012, effective Fall 2012

PLSC 477G - Topics in Theory and Methods
An examination of a topic in Theory and Methods not normally covered in the curriculum, in which the distinctive concerns of political science are emphasized. Students may elect this course several times, provided different topics are studied, but it may be taken only twice for credit toward a major or minor in political science.

Credit Hours: 1 hr
Previously Listed As: PLSC 477 - Special Topics
Last Updated: Course Number and Title Change 05/2012, effective Fall 2012

PLSC 478A - Topics in American Politics
An examination of a topic in American Politics not normally covered in the curriculum, in which the distinctive concerns of political science are emphasized. Students may elect this course several times, provided different topics are studied, but it may be taken only twice for credit toward a major or minor in political science.

Credit Hours: 2 hrs
Previously Listed As: PLSC 478 - Special Topics
Last Updated: Course Number and Title Change 05/2012, effective Fall 2012

PLSC 478B - Topics in Public Law
An examination of a topic in Public Law not normally covered in the curriculum, in which the distinctive concerns of political science are emphasized. Students may elect this course several times, provided different topics are studied, but it may be taken only twice for credit toward a major or minor in political science.

Credit Hours: 2 hrs
Previously Listed As: PLSC 478 - Special Topics
Last Updated: Course Number and Title Change 05/2012, effective Fall 2012

PLSC 478C - Topics in Public Administration
An examination of a topic in Public Administration not normally covered in the curriculum, in which the distinctive concerns of political science are emphasized. Students may elect this course several times, provided different topics are studied, but it may be taken only twice for credit toward a major or minor in political science.

Credit Hours: 2 hrs
PLSC 478D - Topics in Nonprofit Administration

An examination of a topic in Nonprofit Administration not normally covered in the curriculum, in which the distinctive concerns of political science are emphasized. Students may elect this course several times, provided different topics are studied, but it may be taken only twice for credit toward a major or minor in political science.

Credit Hours: 2 hrs

PLSC 478E - Topics in Comparative Politics

An examination of a topic in Comparative Politics not normally covered in the curriculum, in which the distinctive concerns of political science are emphasized. Students may elect this course several times, provided different topics are studied, but it may be taken only twice for credit toward a major or minor in political science.

Credit Hours: 2 hrs

PLSC 478F - Topics in International Relations

An examination of a topic in International Relations not normally covered in the curriculum, in which the distinctive concerns of political science are emphasized. Students may elect this course several times, provided different topics are studied, but it may be taken only twice for credit toward a major or minor in political science.

Credit Hours: 2 hrs

PLSC 478G - Topics in Theory and Methods

An examination of a topic in Theory and Methods not normally covered in the curriculum, in which the distinctive concerns of political science are emphasized. Students may elect this course several times, provided different topics are studied, but it may be taken only twice for credit toward a major or minor in political science.

Credit Hours: 2 hrs

PLSC 479A - Topics in American Politics

An examination of a topic in American Politics not normally covered in the curriculum, in which the distinctive concerns of political science are emphasized. Students may elect this course several times, provided different topics are studied, but it may be taken only twice for credit toward a major or minor in political science.

Credit Hours: 3 hrs
PLSC 479B - Topics in Public Law

An examination of a topic in Public Law not normally covered in the curriculum, in which the distinctive concerns of political science are emphasized. Students may elect this course several times, provided different topics are studied, but it may be taken only twice for credit toward a major or minor in political science.

Credit Hours: 3 hrs

PLSC 479C - Topics in Public Administration

An examination of a topic in Public Administration not normally covered in the curriculum, in which the distinctive concerns of political science are emphasized. Students may elect this course several times, provided different topics are studied, but it may be taken only twice for credit toward a major or minor in political science.

Credit Hours: 3 hrs

PLSC 479D - Topics in Nonprofit Administration

An examination of a topic in Nonprofit Administration not normally covered in the curriculum, in which the distinctive concerns of political science are emphasized. Students may elect this course several times, provided different topics are studied, but it may be taken only twice for credit toward a major or minor in political science.

Credit Hours: 3 hrs

PLSC 479E - Topics in Comparative Politics

An examination of a topic in Comparative Politics not normally covered in the curriculum, in which the distinctive concerns of political science are emphasized. Students may elect this course several times, provided different topics are studied, but it may be taken only twice for credit toward a major or minor in political science.

Credit Hours: 3 hrs

PLSC 479F - Topics in International Relations

An examination of a topic in International Relations not normally covered in the curriculum, in which the distinctive concerns of political science are emphasized. Students may elect this course several times, provided different topics are studied, but it may be taken only twice for credit toward a major or minor in political science.

Credit Hours: 3 hrs
PLSC 479G - Topics in Theory and Methods

An examination of a topic in Theory and Methods not normally covered in the curriculum, in which the distinctive concerns of political science are emphasized. Students may elect this course several times, provided different topics are studied, but it may be taken only twice for credit toward a major or minor in political science.

Credit Hours: 3 hrs

PLSC 480 - Field Seminar in Political Science/Public Administration

Designed to help students relate their field experience to some aspect of political science or public administration.

Credit Hours: 3 hrs
Prerequisite: Department Permission

PLSC 486 - Internship in Political Science/Public Administration

Extends classroom learning through practical experience with legislative, administrative, and other public-sector agencies at all levels of government.
http://www.emich.edu/polisci/Internship/undergrad_majors.html

Credit Hours: 3 hrs
Prerequisite: Department permission
Major Restrictions: Political Science and Public Administration Majors and Minors only

PLSC 487 - Cooperative Education in Political Science

Four to six months of full-time employment in the public sector intended to provide practical experience in government, politics or administration. The program consists of two directed work experiences (PLSC 387/PLSC 487) alternating with full-time attendance at the University.

Credit Hours: 3 hrs
Prerequisite: PLSC 387 or departmental recommendation required
Class Restrictions: Senior standing
Notes: Applications of credit toward political science programs subject to department approval. Graded on a credit/no-credit basis.

PLSC 488 - Internship in Political Science/Public Administration

Extends classroom learning through practical experience with legislative, administrative, and other public-sector agencies at all levels of government.
http://www.emich.edu/polisci/Internship/undergrad_majors.html
PLSC 489 - Internship in Political Science/Public Administration

Extends classroom learning through practical experience with legislative, administrative, and other public-sector agencies at all levels of government.  
http://www.emich.edu/polisci/Internship/undergrad_majors.html

PLSC 497 - Independent Study

Advanced study on an individual basis in areas in which the department does not offer formal courses.

PLSC 498 - Independent Study

Advanced study on an individual basis in areas in which the department does not offer formal courses.

PLSC 499 - Independent Study

Advanced study on an individual basis in areas in which the department does not offer formal courses.
Psychology Programs and Courses

Psychology

Major

Psychology Major

The major in psychology is designed to provide a general and in-depth survey of the fields in the science of psychology and to prepare students to work with people in several career areas. Further study beyond the baccalaureate is required to enter professional career work.

Psychology Department Information:

Department Head: Carol Freedman-Doan
Department Contact: cfreedman@emich.edu
Website: http://www.emich.edu/psychology/

General Education Requirements:

For specific requirements refer to the General Education Program. Download the Gen Ed Checklist here.

Major Requirements: 32 hours

Required Courses: 14 hours

- PSY 101 - General Psychology Lecture (Gen Ed Area IV*) 3 hrs
- PSY 103 - General Psychology Laboratory (Gen Ed Area IV) 1 hr
- PSY 205 - Quantitative Methods in Psychology 3 hrs
- PSY 301W - Introductory Experimental Psychology (Gen Ed Area I, W) 4 hrs
- PSY 453 - History and Systems of Psychology 3 hrs

Restricted Elective Course: 12 hours

Select one course from each of the following categories:

I. Adjustment and Personality:

- PSY 360 - Abnormal Psychology 3 hrs
- PSY 451 - Dynamics of Personality 3 hrs

II. Biological:

- PSY 357 - Sensation and Perception 3 hrs
- PSY 457 - Physiological Psychology 3 hrs
- PSY 458 - Comparative Animal Behavior 3 hrs

III. Learning and Motivation:
- PSY 304 - Learning 3 hrs
- PSY 356 - Motivation and Emotion 3 hrs

IV. Development and Social:
- PSY 309 - Social Psychology 3 hrs
- PSY 321 - Child Psychology 3 hrs

Psychology Elective Courses: 6 hours

Minor Requirements:
This program requires a minor. Please contact your program adviser for a list of possible minors.

Program Total:
Students must earn a minimum total of 124 credits at the 100-level or above.

Critical Graduation Information:
The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the 100-level and above. Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Earn a minimum of 60 credits from a four-year college or university; courses taken at community colleges cannot be used to meet this requirement. (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 unique credit hours in their major and 20 unique credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
- Not more than 60 credit hours in one subject area (prefix) may be applied towards the minimum of 124 credit hours required for a bachelor's degree.
- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more than one major or minor.
Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor

- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is coordinated by the Office of Admissions, and additional documentation may be required.

- Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be earned in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

**General Education Requirements:**

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available on the General Education section of the catalog: General Education

- For Students who began their undergraduate program at EMU in Fall 2007 or later or who have elected to follow the current ("new") General Education Program, follow the "For Students" link under the Current Program heading.
- For Students who began their undergraduate program at EMU before Fall 2007 and who have elected to follow the Pre-2007 General Education Requirements, follow the "General Education Program Prior to Fall 2007 (pdf file)" link under the Program Prior to Fall 2007 heading. Please note that students who wish to graduate under pre-2007 General Education requirements must graduate by August 2014; those who have not completed all degree requirements by that time will need to satisfy the current (Fall 2007) General Education requirements.

Students who transferred to EMU may have modified general education requirements based on MACRAO or articulation agreements; consult your academic adviser for additional information.

**University Information:** Consult the online catalog at catalog.emich.edu.

**Minor**

**Human Sexuality Minor**

**Psychology Department Information:**

Department Head: Carol Freedman-Doan

- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
• Have a minimum of 30 unique credit hours in their major and 20 unique credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.

• Not more than 60 credit hours in one subject area (prefix) may be applied towards the minimum of 124 credit hours required for a bachelor's degree.

• Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more than one major or minor.
  - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
  - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
  - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor

• Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is coordinated by the Office of Admissions, and additional documentation may be required.

• Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be earned in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

**General Education Requirements:**

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available on the General Education section of the catalog: General Education

• For Students who began their undergraduate program at EMU in Fall 2007 or later or who have elected to follow the current ("new") General Education Program, follow the "For Students" link under the Current Program heading.

• For Students who began their undergraduate program at EMU before Fall 2007 and who have elected to follow the Pre-2007 General Education Requirements, follow the "General Education Program Prior to Fall 2007 (pdf file)" link under the Program Prior to Fall 2007 heading. **Please note that students who wish to graduate under pre-2007 General Education requirements must graduate by August 2014; those who have not completed all degree requirements by that time will need to satisfy the current (Fall 2007) General Education requirements.**

Students who transferred to EMU may have modified general education requirements based on MACRAO or articulation agreements; consult your academic adviser for additional information.

**University Information:** Consult the online catalog at catalog.emich.edu.

**Secondary Education Psychology Minor**

Successful completion of this minor, in the context of other program requirements, qualifies the student for recommendation for endorsement in psychology, certification code CE. The Michigan Test for Teacher Certification (MTTC) covering this field is #011, “Psychology.”

**Psychology Department Information:**

Department Head: Carol Freedman-Doan
Department Contact: cfreedman@emich.edu
Website: http://www.emich.edu/psychology/
Required Courses: 3-4 hours

- PSY 101 - General Psychology Lecture (Gen Ed Area IV*) 3 hrs
  or
  PSY 101 - General Psychology Lecture (Gen Ed Area IV*) 3 hrs
  and
- PSY 103 - General Psychology Laboratory (Gen Ed Area IV) 1 hr

Elective Courses: 16-17 hours

_Sixteen to seventeen hours selected in consultation with an advising coordinator._

Minor Total: 20 hours

MTTC Subject Area Test

_Starting January 1, 2013, Students seeking licensure in a secondary or K-12 area are not required to take the MTTC subject area test in their minor area. Students who elect not to take the test in their minor will be required to sign a statement indicating that they understand that they will not be endorsed in their minor area and will not be eligible for teaching positions in their minor unless they pass the minor subject area test within five years of completing field experience and course requirements._

Note:

_All minors must have at least six hours of course work at the 300-level or above._

Critical Graduation Information:

_The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs._

- Earn a minimum total of 124 credits at the _100-level and above_. Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Earn a minimum of 60 credits from a four-year college or university; _courses taken at community colleges cannot be used to meet this requirement_. (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 _unique_ credit hours in their major and 20 _unique_ credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
- Not more than 60 credit hours in one subject area (prefix) may be applied towards the minimum of 124 credit hours required for a bachelor's degree.
• Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more that one major or minor.
  o Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
  o Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
  o Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor.

• Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. **University Information:** Consult the online catalog at catalog.emich.edu.

**Psychology**

**PSY 101 - General Psychology Lecture (Gen Ed Area IV*)**

Principles, theories and methods evolving from the scientific analysis of behavior. *PSY 103 must be completed in addition to PSY 101 to satisfy four credits of the Knowledge of the Disciplines - Natural Science portion of the General Education program.

**Credit Hours:** 3 hrs

**Lecture/Lab Hours:** Lecture: three hours per week

**Area IV: Knowledge of the Disciplines**

PSY 101 General Psychology (*PSY 103 must be completed in addition to count for this General Education credit)* General Psychology Lecture and its required companion laboratory course (PSY 103) present basic principles of psychology that have been established by applications of the scientific method. They will also examine key historical developments that will help illustrate how knowledge and theories in science are dynamic. In the laboratory portion of the course, students generate data.
designed to provide an introduction to scientific discovery to demonstrate particular scientific principles, and how to reach conclusions based on controlled observations.

In this course, students will study basic principles of psychology that have been established by applications of the scientific method. They will also examine key historical developments that will help illustrate how knowledge and theories in science are dynamic. Students will generate data designed to demonstrate particular principles and how to reach conclusions based on controlled observations. Because of its focus on the scientific method and on applications of scientific methodology.

**Last Updated:** Links 06/2011

**PSY 103 - General Psychology Laboratory (Gen Ed Area IV)**

Laboratory demonstrations and experiments illustrating concepts presented in PSY 101 lectures. PSY 101 must be completed in addition to PSY 103 to satisfy four credit hours of the Knowledge of the Disciplines - Natural Science portion of the General Education program.

**Credit Hours:** 1 hr  
**Lecture/Lab Hours:** Laboratory: two hours per week  
**Concurrent Prerequisite:** PSY 101

**Area IV: Knowledge of the Disciplines**

**PSY 101 General Psychology**

**PSY 177 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 1 hr  
**Prerequisite:** PSY 101 and department permission  
**Last Updated:** Prerequisites 07/2011; Links 04/2011

**PSY 178 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 2 hrs  
**Prerequisite:** PSY 101 and department permission  
**Last Updated:** Prerequisites 07/2011; Links 04/2011
PSY 179 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs  
Prerequisite: PSY 101 and department permission  
Last Updated: Prerequisites 07/2011; Links 04/2011

PSY 203 - Self-analysis and Control

Behavioral principles and techniques that can be applied to behavioral self-analysis and self-management. Student-initiated self-improvement projects encouraged.

Credit Hours: 3 hrs  
Prerequisite: PSY 101  
Last Updated: Prerequisites 07/2011; Links 04/2011

PSY 205 - Quantitative Methods in Psychology

Basic concepts and methods used in the analysis of psychological data. Methods of describing and drawing inferences from sets of data.

Credit Hours: 3 hrs  
Prerequisite: PSY 101 and one of: MATH 104, MATH 105, MATH 110, MATH 118, MATH 120, MATH 170 (with a grade "C" or better in these Math courses) or College-Level Math Placement (53 or higher), MATH placement Level 4.  
Last Updated: Prerequisites 07/2011; Links 04/2011

PSY 207 - Psychology of Adjustment

Systematic presentation of issues, concepts, principles and theories of human adjustment.

Credit Hours: 3 hrs  
Prerequisite: PSY 101  
Last Updated: Prerequisites 07/2011; Links 04/2011

PSY 225 - Psychology of Religion

The application of psychological theory, principles and method to the study of religious behavior. The relationships between religion and personality, health/pathology, social behavior and intense emotional experience.

Credit Hours: 3 hrs  
Prerequisite: PSY 101  
Last Updated: Prerequisites 07/2011; Links 04/2011

PSY 240 - Psychology of Sex Part I

Survey of the psychological research concerned with human sexuality from a psychological point of view with an emphasis on research findings.

Credit Hours: 3 hrs
PSY 242 - Psychology of Women

Theories and empirical research concerning personality development in females. Examination of the origins of the behavior of women.

Credit Hours: 3 hrs
Prerequisite: PSY 101
Cross-Listed with: WGST 242
Last Updated: Prerequisites 07/2011; Links 04/2011

PSY 277 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr
Prerequisite: PSY 101 and department permission
Last Updated: Prerequisites 07/2011; Links 04/2011

PSY 278 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs
Prerequisite: PSY 101 and department permission
Last Updated: Prerequisites 07/2011; Links 04/2011

PSY 279 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs
Prerequisite: PSY 101 and department permission
Last Updated: Prerequisites 07/2011; Links 04/2011

PSY 301W - Introductory Experimental Psychology (Gen Ed Area I, W)

Design, control and measurement techniques employed in the scientific investigation of behavior; e.g., motivation, emotion, perception and learning.

Credit Hours: 4 hrs
Prerequisite: PSY 205
Last Updated: Links 04/2011

PSY 304 - Learning
Includes learning theories and empirical research as developed by Pavlov, Thorndike, Guthrie, Tolman, Hull, Skinner, Mowrer and others, plus select contemporary topics.

**Credit Hours:** 3 hrs  
**Prerequisite:** PSY 301W  
**Last Updated:** Links 04/2011

**PSY 309 - Social Psychology**

The order and regularity underlying processes of human interaction. Motives and attitudes, social norms and roles, the socialization process, personality and group membership. The effect of group membership upon individual behavior.

**Credit Hours:** 3 hrs  
**Prerequisite:** PSY 101  
**Notes:** Not open to those with credit in SOCL 308.  
**Last Updated:** Prerequisites 07/2011; Links 04/2011

**PSY 321 - Child Psychology**

The development of human behavior from conception to adolescence. Analysis of developmental processes involved in cognition, socialization, emotion and personality, relying on research and theory; emphasis on developmental trends. Not open to students in early elementary education curriculum.

**Credit Hours:** 3 hrs  
**Prerequisite:** PSY 101  
**Last Updated:** Prerequisites 07/2011; Links 04/2011

**PSY 322 - Psychology of Adolescence**

An opportunity to formulate, examine and understand a comprehensive, balanced picture of the physical, mental, emotional, social, and ideological developments and adjustments during adolescence.

**Credit Hours:** 3 hrs  
**Prerequisite:** PSY 101  
**Last Updated:** Prerequisites 07/2011; Links 04/2011

**PSY 323 - Psychology of Human Aging**

Aging individuals in the context of their life span; the special problems of the aged in modern American society. Intellectual functioning, socialization and personality, environmental effects, and the problems of isolation and institutionalization.

**Credit Hours:** 3 hrs  
**Prerequisite:** PSY 101  
**Class Restrictions:** Junior or Senior standing or Second Bachelor’s students only  
**Last Updated:** Prerequisites 07/2011; Links 04/2011

**PSY 340 - Psychological Perspectives on Prejudice and Discrimination**

The psychological processes underlying the phenomena of prejudice and discrimination. A review of materials on personality and development relevant to the practice of discrimination and to the experience of prejudice on the part of both minority and majority group individuals.
PSY 350 - Environmental Psychology

The psychological effects of various environmental settings and configurations on human behavior. Select qualities of architectural spaces, urban environments and natural settings.

Credit Hours: 3 hrs
Prerequisite: PSY 101

PSY 351 - Industrial Psychology

Applications of psychological methods and principles to industrial problems.

Credit Hours: 3 hrs
Prerequisite: PSY 101

PSY 356 - Motivation and Emotion

Review and analysis of theory and research in the areas of motivation and emotion.

Credit Hours: 3 hrs
Prerequisite: PSY 301W

PSY 357 - Sensation and Perception

Analysis of the psychological literature relating to sensory and perceptual experience.

Credit Hours: 3 hrs
Prerequisite: PSY 301W

PSY 358 - Cognitive Processes

A review of the theoretical and empirical developments concerned with cognitive processes, such as concept formation, memory and retrieval from memory, language acquisition, thought, problem solving, imagination, and creativity.

Credit Hours: 3 hrs
Prerequisite: PSY 101

PSY 360 - Abnormal Psychology
Modern theories of the origin of mental disorders and personality disturbances, nature and mechanism of the various forms of abnormal behavior, prevention and treatment, social significance of aberrations.

**Credit Hours:** 3 hrs  
**Prerequisite:** PSY 101  
**Last Updated:** Prerequisites 07/2011; Links 04/2011

**PSY 361 - Psychotherapy**

Survey of therapeutic systems and research on psychotherapy.

**Credit Hours:** 3 hrs  
**Prerequisite:** PSY 360  
**Last Updated:** Links 04/2011

**PSY 362 - The Psychology of Stress and Relaxation**

**Credit Hours:** 3 hrs  
**Prerequisite:** PSY 101  
**Last Updated:** Prerequisites 07/2011; Links 04/2011

**PSY 365 - Behavior Modification**

For students in psychology, special education, social work, nursing and related fields. Techniques for coping with problem behaviors. Training in practical observation and recording procedures, program evaluation designs, and behavior change principles.

**Credit Hours:** 3 hrs  
**Prerequisite:** PSY 101  
**Last Updated:** Prerequisites 07/2011; Links 04/2011

**PSY 366 - Health Psychology/Behavioral Medicine**

The application of behavioral-science theory, principles, and techniques to understanding of health and illness, and to prevention, diagnosis, treatment, rehabilitation and health care delivery.

**Credit Hours:** 3 hrs  
**Prerequisite:** PSY 101  
**Last Updated:** Prerequisites 07/2011; Links 04/2011

**PSY 377 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 1 hrs  
**Prerequisite:** PSY 101 and department permission  
**Last Updated:** Prerequisites 07/2011; Links 04/2011
PSY 378 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs  
Prerequisite: PSY 101 and department permission  
Last Updated: Prerequisites 07/2011; Links 04/2011

PSY 379 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs  
Prerequisite: PSY 101 and department permission  
Last Updated: Prerequisites 07/2011; Links 04/2011

PSY 380 - Psychology of Sex II: Identity, Sex, and Gender

This course is an advanced study in the psychological aspects of human sexuality. It is intended to help students develop an increased awareness of how their various social identities (e.g., their sex, gender, sexual orientation, physical abilities, etc.) influence their understanding of sex, sexuality, and their behaviors in and attitudes about society.

Credit Hours: 3 hrs  
Prerequisite: PSY 101 and PSY 240  
Last Updated: New Course 06/2011, effective Fall 2011

PSY 387 - Cooperative Education in Psychology

Four months of full-time employment at an individual employer chosen to provide practical experience in the student’s major field. The program consists of two work experiences (PSY 387/PSY 487) alternating with full-time attendance at the University.

Credit Hours: 3 hrs  
Prerequisite: two 300-level psychology courses and department permission  
Last Updated: Links 06/2011

PSY 388 - Psychology in the Field Setting

A practical work experience in a supervised mental health setting that integrates scholarly and practical aspects of psychology. Approximately three hours of fieldwork each week and completion of a journal of goals and experiences.

Credit Hours: 2 hrs  
Prerequisite: PSY 101  
Concurrent Prerequisite: A three-hour psychology class and/or department permission  
Last Updated: Prerequisites 07/2011; Links 04/2011

PSY 397 - Individual Reading in Psychology

Supervised reading on psychological problems.
PSY 398 - Individual Reading in Psychology

Supervised reading on psychological problems.

PSY 399 - Individual Reading in Psychology

Supervised reading on psychological problems.

PSY 445 - Consumer Psychology

A survey of psychological principles, theories and methodology relating to consumer behavior.

PSY 448 - Seminar in Psychology

A synthesis of various approaches to the study of psychology. Development, presentation, and critical appraisal of individual student projects.

PSY 451 - Dynamics of Personality

Physiological, psychological and cultural determinants of human personality; analysis of select theories of human personality.

PSY 453 - History and Systems of Psychology

Historical development of modern psychological theories; contemporary systems, including functionalism, behaviorism, phenomenology, psychoanalysis and dynamic psychologies.
PSY 457 - Physiological Psychology

Analysis of the relationships among brain functions, physiological processes and behavior. Open to junior and senior science majors with department permission.

Credit Hours: 3 hrs
Prerequisite: PSY 101 and PSY 301W
Class Restrictions: Junior or Senior standing or Second Bachelor’s students only
Last Updated: Prerequisites 07/2011; Links 04/2011

PSY 458 - Comparative Animal Behavior

Modern solutions to the innate versus learned behavior controversy; species differences with respect to behavior and behavioral capacities.

Credit Hours: 3 hrs
Prerequisite: PSY 301W; recommended: BIO 105 or BIO 140
Last Updated: Links 04/2011

PSY 460 - Psychology of Film

The psychology of film and audience. Viewer psychology, presentation of psychology, family, violence and sexuality in film.

Credit Hours: 3 hrs
Class Restrictions: Junior standing and/or two courses in Psychology

PSY 477 - Special Topics

An examination of topics in psychology not covered in other department offerings. May be elected more than once, provided different topics are studied.

Credit Hours: 1 hr
Prerequisite: PSY 101 and department permission
Last Updated: Prerequisites 07/2011; Links 04/2011

PSY 478 - Special Topics

An examination of topics in psychology not covered in other department offerings. May be elected more than once, provided different topics are studied.

Credit Hours: 2 hrs
Prerequisite: PSY 101 and department permission
Last Updated: Prerequisites 07/2011; Links 04/2011

PSY 479 - Special Topics
An examination of topics in psychology not covered in other department offerings. May be elected more than once, provided different topics are studied.

**Credit Hours:** 3 hrs  
**Prerequisite:** PSY 101 and department permission  
**Last Updated:** Prerequisites 07/2011; Links 04/2011

### PSY 480 - Psychology of Sex III: Atypical Sexual Behavior

This course is a survey course of atypical sexual cognition and behavior, the paraphilias, and criminal sexual behaviors. This course builds on a strong foundational knowledge of psychology and explores how it applies to atypical sexual development, expression, and consequences.

**Credit Hours:** 3 hrs  
**Prerequisite:** PSY 101 and PSY 240  
**Last Updated:** New Course 06/2011, effective Fall 2011

### PSY 487 - Cooperative Education in Psychology

Four months of full-time employment at an individual employer chosen to provide practical experience in the student’s major field. The program consists of two work experiences (PSY 387/PSY 487) alternating with full-time attendance at the University.

**Credit Hours:** 3 hrs  
**Prerequisite:** PSY 387 and department permission  
**Last Updated:** Links 04/2011

### PSY 497 - Individual Research in Psychology

Supervised investigation of psychological problems.

**Credit Hours:** 1 hr  
**Prerequisite:** Department permission  
**Last Updated:** Links 04/2011

### PSY 498 - Individual Research in Psychology

Supervised investigation of psychological problems.

**Credit Hours:** 2 hrs  
**Prerequisite:** Department permission  
**Last Updated:** Links 04/2011

### PSY 499 - Individual Research in Psychology

Supervised investigation of psychological problems.

**Credit Hours:** 3 hrs  
**Prerequisite:** Department permission  
**Last Updated:** Links 04/2011

### PSY 551 - Psychology of Death and Dying
Study of attitudes toward, theories about, and empirical data concerning human mortality and suicide and its relevance to life adjustment, aging, religion and other areas.

**Credit Hours:** 2 hrs  
**Prerequisite:** PSY 101 or equivalent  
**Notes:** This is a graduate course in an undergraduate program.  
**Last Updated:** Prerequisites 07/2011; Links 04/2011
Sociology, Anthropology and Criminology Programs and Courses

Sociology, Anthropology and Criminology Major

Anthropology Major

The program in anthropology advances the goals of humanistic education, prepares students for successfully operating in a multicultural society and provides majors with a foundation for graduate study. Anthropology is the comparative study of human behavior, both in terms of its development and in terms of its culture-specific expressions. The University's program in anthropology gives particular attention to the sociocultural subfield.

Sociology, Anthropology and Criminology Department Information:

Department Head: Anders Linde-Laursen
Department Contact: alindela@emich.edu
Website: http://www.emich.edu/sac/

Adviser Information:

Program Adviser: Liza Cerroni-Long, Ph.D.
Phone: 734.487.0012
Email: liza.cerroni-long@emich.edu

General Education Requirements:

For specific requirements refer to the General Education Program. Download the Gen Ed Checklist here.

Major Requirements: 30 hours

Required Courses: 12 hours

- ANTH 135 - Introduction to Cultural Anthropology (Gen Ed Area III, IV) 3 hrs
- ANTH 140 - Introduction to Physical Anthropology 3 hrs
- ANTH 150 - Introductory Archaeology (Gen Ed Area IV) 3 hrs
- ANTH 210 - History of Anthropological Theory 3 hrs

Restricted Elective Courses: 12 hours

Two anthropology courses at the 400-level (6 hrs) in addition to the following:
One Culture Area Course:

Three hours selected from this list.

- ANTH 233 - Cultures of Mesoamerica and the Caribbean (Gen Ed Area III) 3 hrs
- ANTH 236 - Peoples and Cultures of Africa 3 hrs
- ANTH 237 - Native North American Cultures (Gen Ed Area III) 3 hrs
- ANTH 248 - Peoples and Cultures of the Pacific 3 hrs
- ANTH 351 - Mexico: The Route of Cortez 3 hrs
- ANTH 385 - Culture of Japan 3 hrs

One Methodology Course:

Three hours selected from this list.

- ANTH 337 - Applied Anthropology 3
- ANTH 345 - Ethnographic Methods 3 hrs
- ANTH 361 - Archaeological Fieldwork 5 hrs
- ANTH 362 - Artifact Analysis 3 hrs

Elective Courses: 6 hours

Two anthropology courses, of which at least one must be at the 300-level or above (6 hrs)

Exit Interview:

*Majors must register with an anthropology Faculty Mentor, who will administer their Exit Interview.*

Minor Requirements:

This program requires a minor. Please contact your program adviser for a list of possible minors.

Program Total:

Students must earn a minimum total of 124 credits at the 100-level or above.

Note:

*Each student must choose a writing intensive course as part of major completion requirements. Consult your adviser for course options.*

Critical Graduation Information:

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.
• Earn a minimum total of 124 credits at the 100-level and above. Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.

• Meet the requirements of the General Education program (see information below).

• Earn a minimum of 60 credits from a four-year college or university; courses taken at community colleges cannot be used to meet this requirement. (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)

• Earn a minimum of 30 credits from courses taken at EMU.

• Complete 10 of the last 30 hours for the degree from courses taken at EMU.

• Have a minimum of 30 unique credit hours in their major and 20 unique credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.

• Not more than 60 credit hours in one subject area (prefix) may be applied towards the minimum of 124 credit hours required for a bachelor's degree.

• Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more that one major or minor.
  o Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
  o Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
  o Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor

• Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is coordinated by the Office of Admissions, and additional documentation may be required.

• Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be earned in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

General Education Requirements:

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available on the General Education section of the catalog: General Education

• For Students who began their undergraduate program at EMU in Fall 2007 or later who have elected to follow the current ("new") General Education Program, follow the "For Students" link under the Current Program heading.

• For Students who began their undergraduate program at EMU before Fall 2007 and who have elected to follow the Pre-2007 General Education Requirements, follow the "General Education Program Prior to Fall 2007 (pdf file)" link under the Program Prior to Fall 2007 heading. Please note that students who wish to graduate under pre-2007 General Education requirements must graduate by August 2014; those who have not completed all degree requirements by that time will need to satisfy the current (Fall 2007) General Education requirements.

Students who transferred to EMU may have modified general education requirements based on MACRAO or articulation agreements; consult your academic adviser for additional information.

University Information: Consult the online catalog at catalog.emich.edu.

Criminology and Criminal Justice Major
The criminology and criminal justice curriculum provides students with a multidisciplinary understanding of crime and justice within the framework of broader social processes. This curriculum is a three-tiered structure composed of general education, a core curriculum and selected concentrations. The typical student will move from general education to the core of the program and then into one of four specialized concentrations, where he or she will be introduced to courses on the principles and application of the chosen specialty.

The curriculum for general education includes introductory courses in the fundamental social science disciplines of sociology and psychology. The core of the curriculum consists of a number of related courses that will build a foundation of social science education emphasizing analytical and conceptual skills. The pivotal course is CRM 301 - Criminology, a multidisciplinary perspective on the nature, extent and causes of crime. CRM 300 - Criminal Justice and CRM 301 - Criminology should be the first core courses taken by the typical student. The third and final tier of the curriculum consists of 21 hours in one of four concentrations. These concentrations contain some courses without criminological content that provide students with professionally relevant occupational knowledge and skills.

Students completing the curriculum will have satisfied all major and minor requirements for graduation. No additional minor is required.

An active articulation agreement exists between this program and a community college. To see a complete list of current colleges with program articulation agreements with EMU, please click here.

Sociology, Anthropology and Criminology Department Information:

Department Head: Anders Linde-Laursen

General Education Requirements:

For specific requirements refer to the General Education Program. Download the Gen Ed Checklist here.

Additional Requirements: 3 hours

One course from the following:

- PHIL 120 - Introduction to Critical Reasoning (Gen Ed Area IV) 3 hrs
- PHIL 130 - Introduction to Logic 3 hrs

Major Requirements: 70 hours

Core Requirements: 12 hours

- SOCL 105 - Introductory Sociology (Gen Ed Area IV) 3 hrs
- SOCL 202 - Social Problems 3 hrs
- PSY 101 - General Psychology Lecture (Gen Ed Area IV*) 3 hrs

One course from the following:
- PLSC 112 - American Government (Gen Ed Area IV) 3 hrs
- PLSC 113 - American Government Honors (Gen Ed Area IV) 3 hrs

Criminology and Criminal Justice Courses: 24 hours
- CRM 300 - Criminal Justice 3 hrs
- CRM 301 - Criminology 3 hrs
- CRM 331 - Introduction to Corrections 3 hrs
- CRM 354 - Juvenile Delinquency 3 hrs
- CRM 370 - White Collar Crime 3 hrs
- CRM 431 - Policing in Society 3 hrs
- CRM 447W - Senior Seminar in Criminology (Gen Ed Area I, W) 3 hrs

One course from the following:
- CRM 333 - Violence and Society 3 hrs
- CRM 337 - Deviance and Society 3 hrs
- SOCL 333 - Violence and Society 3 hrs
- SOCL 337 - Deviance and Society 3 hrs

Research Methods: 6 hours
* see note
- SOCL 250 - Quantitative Applications in Sociology (Gen Ed Area II) 3 hrs
- SOCL 304 - Methods in Sociological Research 3 hrs

Sociology/Anthropology Courses: 12 hours
- ANTH 135 - Introduction to Cultural Anthropology (Gen Ed Area III, IV) 3 hrs
- ANTH 214 - U.S. Racial and Cultural Minorities (Gen Ed Area III) 3 hrs
- SOCL 308 - Social Psychology 3 hrs
- SOCL 462 - Complex Organizations 3 hrs

Concentration Requirements: 15 hours

Select one from the following four concentrations:

I. Legal Studies (CRM LGST)
- CRM 412 - Law and Society 3 hrs
- CRM 460 - Criminal Law II 3 hrs

Nine hours from the following:

- AAS 441 - Law in the African American Experience 3 hrs
- CRM 277 - Special Topics 1 hr
- CRM 278 - Special Topics 2 hrs
- CRM 279 - Special Topics 3 hrs
- CRM 321 - Cooperation and Conflict in Society 3 hrs
- CRM 377 - Special Topics 1 hr
- CRM 378 - Special Topics 2 hrs
- CRM 379 - Special Topics 3 hrs
- CRM 488 - Field Internship in Criminology and Criminal Justice 3 hrs each
- CRM 489 - Field Internship in Criminology and Criminal Justice 3 hrs each
- CTAC 357 - Interviewing as Communication 3 hrs
- LAW 293 - Legal Environment of Business 3 hrs
- PHIL 120 - Introduction to Critical Reasoning (Gen Ed Area IV) 3 hrs
- PHIL 130 - Introduction to Logic 3 hrs
- PHIL 355W - Philosophy of Law (Gen Ed Area I, W) 3 hrs
- PLSC 301 - American Legal System 3 hrs
- PLSC 364 - Legislative Process 3 hrs
- PLSC 385 - Judicial Process and Behavior 3 hrs
- PLSC 456 - Criminal Law I 3 hrs

II. Law Enforcement (CRM LAWE):

One course from the following:

- CRM 432 - Police Organization 3 hrs
- PLSC 450 - Managing Public Safety Agencies 3 hrs

Nine hours from the following:

- CRM 320 - Criminal Investigation 3 hrs
- CRM 321 - Cooperation and Conflict in Society 3 hrs
- CRM 460 - Criminal Law II 3 hrs
- CRM 488 - Field Internship in Criminology and Criminal Justice 3 hrs each
- CRM 489 - Field Internship in Criminology and Criminal Justice 3 hrs each

One course from the following:

- CRM 277 - Special Topics 1 hr
- CRM 278 - Special Topics 2 hrs
- CRM 279 - Special Topics 3 hrs
- CRM 377 - Special Topics 1 hr
- CRM 378 - Special Topics 2 hrs
• CRM 379 - Special Topics 3 hrs

• HLED 490 - Drug Use and Abuse 3 hrs
OR
• SWRK 431 - Substance Abuse 3 hrs

• PLSC 301 - American Legal System 3 hrs
• PLSC 308 - Political Violence and Revolution 3 hrs
• PLSC 385 - Judicial Process and Behavior 3 hrs
• PLSC 456 - Criminal Law I 3 hrs
• PSY 340 - Psychological Perspectives on Prejudice and Discrimination 3 hrs
• PSY 360 - Abnormal Psychology 3 hrs
• SOCL 306 - The Urban Community 3 hrs
• SWRK 120 - Introduction to Social Work Services and Professional Roles 3 hrs

III. Corrections (CRM CORR)

• CRM 321 - Cooperation and Conflict in Society 3 hrs
• CRM 332 - Community Corrections 3 hrs

Nine hours from the following:

• COUN 450 - An Introduction: Counseling Concepts and Skills 3 hrs
• CRM 277 - Special Topics 1 hr
• CRM 278 - Special Topics 2 hrs
• CRM 279 - Special Topics 3 hrs
• CRM 377 - Special Topics 1 hr
• CRM 378 - Special Topics 2 hrs
• CRM 379 - Special Topics 3 hrs
• CRM 488 - Field Internship in Criminology and Criminal Justice 3 hrs each
• CRM 489 - Field Internship in Criminology and Criminal Justice 3 hrs each
• CTAC 357 - Interviewing as Communication 3 hrs
• HLED 490 - Drug Use and Abuse 3 hrs
• PSY 340 - Psychological Perspectives on Prejudice and Discrimination 3 hrs
• PSY 360 - Abnormal Psychology 3 hrs
• PSY 365 - Behavior Modification 3 hrs
• SWRK 120 - Introduction to Social Work Services and Professional Roles 3 hrs
• SWRK 431 - Substance Abuse 3 hrs

IV. Criminal Justice Administration (CRM ADM)

• CRM 332 - Community Corrections 3 hrs

One course from the following:

• CRM 432 - Police Organization 3 hrs
• PLSC 450 - Managing Public Safety Agencies 3 hrs
Nine hours from the following:

- ANTH 345 - Ethnographic Methods 3 hrs
- CRM 277 - Special Topics 1 hr
- CRM 278 - Special Topics 2 hrs
- CRM 279 - Special Topics 3 hrs
- CRM 320 - Criminal Investigation 3 hrs
- CRM 321 - Cooperation and Conflict in Society 3 hrs
- CRM 377 - Special Topics 1 hr
- CRM 378 - Special Topics 2 hrs
- CRM 379 - Special Topics 3 hrs
- CRM 420 - Drugs, Crime and Criminal Justice 3 hrs
- CRM 488 - Field Internship in Criminology and Criminal Justice 3 hrs each
- CRM 489 - Field Internship in Criminology and Criminal Justice 3 hrs each
- CTAC 357 - Interviewing as Communication 3 hrs
- LAW 403 - Employment Law 3 hrs
- MGMT 202 - Business Communication 3 hrs
- MGMT 386 - Organizational Behavior and Theory 3 hrs
- PLSC 270 - Public Administration 3 hrs
- PLSC 334 - Personnel Administration in Government 3 hrs
- PLSC 381 - Public Policy Analysis 3 hrs
- PLSC 456 - Criminal Law 1 3 hrs
- PSY 301W - Introductory Experimental Psychology (Gen Ed Area I, W) 4 hrs
- PSY 340 - Psychological Perspectives on Prejudice and Discrimination 3 hrs
- SOCL 307 - Sociology of Work 3 hrs
- SOCL 321 - Cooperation and Conflict in Society 3 hrs
- SOCL 345 - Ethnographic Methods 3 hrs

Minor Requirements:

This program does not require a minor.

Program Total:

Students must earn a minimum total of 124 credits at the 100-level or above.

Notes:

* SOCL 341 - Quantitative Methods of Social Research I and SOCL 342 - Quantitative Methods of Social Research II may be substituted for SOCL 250 and SOCL 304.

Critical Graduation Information:

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.
- Earn a minimum total of 124 credits at the 100-level and above. Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Earn a minimum of 60 credits from a four-year college or university; courses taken at community colleges cannot be used to meet this requirement. (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 unique credit hours in their major and 20 unique credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
- Not more than 60 credit hours in one subject area (prefix) may be applied towards the minimum of 124 credit hours required for a bachelor's degree.
- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more that one major or minor.
  - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor.
  - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
  - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor.
- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is coordinated by the Office of Admissions, and additional documentation may be required.
- Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be earned in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

### General Education Requirements:

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available on the General Education section of the catalog: General Education

- For Students who began their undergraduate program at EMU in Fall 2007 or later or who have elected to follow the current ("new") General Education Program, follow the "For Students" link under the Current Program heading.
- For Students who began their undergraduate program at EMU before Fall 2007 and who have elected to follow the Pre-2007 General Education Requirements, follow the "General Education Program Prior to Fall 2007 (pdf file)" link under the Program Prior to Fall 2007 heading. Please note that students who wish to graduate under pre-2007 General Education requirements must graduate by August 2014; those who have not completed all degree requirements by that time will need to satisfy the current (Fall 2007) General Education requirements.

Students who transferred to EMU may have modified general education requirements based on MACRAO or articulation agreements; consult your academic adviser for additional information.

### University Information:

Consult the online catalog at catalog.emich.edu.

### Sociology Major
Sociologists are uniquely poised to contribute to a variety of productive activities in an increasingly diverse and socially and technologically complex workplace. The Sociology Program at EMU offers both major and minor degree programs in general and applied Sociology. The sociology curriculum offers a broad education that emphasizes the social and cultural basis of human lived experiences, interactions, and motivation, along with the development of flexible analytical reasoning skills and tools for data management and analysis. This major prepares students for work within non-profit, governmental, and social service agencies, as well as within medicine, law, and business.

Sociology, Anthropology and Criminology Department Information:

Department Head: Anders Linde-Laursen
Department Contact: alindela@emich.edu
Website: http://www.emich.edu/sac/

General Education Requirements:

For specific requirements refer to the General Education Program.

Major Requirements: 33 hours

Required Courses: 18 hours

- SOCL 105 - Introductory Sociology (Gen Ed Area IV) 3 hrs
- SOCL 250 - Quantitative Applications in Sociology (Gen Ed Area II) 3 hrs
- SOCL 304 - Methods in Sociological Research 3 hrs
- SOCL 308 - Social Psychology 3 hrs
- SOCL 403W - Modern Sociological Theory (Gen Ed Area I, W) 3 hrs
- SOCL 405 - Senior Seminar in Sociology 3 hrs

One option from the following:

Option I: General Sociology: 15 hours

Required Courses: 3 hours

- ANTH 135 - Introduction to Cultural Anthropology (Gen Ed Area III, IV) 3 hrs

Restricted Elective Courses: 6 hours

Two courses from the following:

- ANTH 336 - Social and Cultural Change 3 hrs
- SOCL 307 - Sociology of Work 3 hrs
- SOCL 310 - Social Stratification 3 hrs
- SOCL 311W - Aging and the Life Course (Gen Ed Area I, W) 3 hrs
- SOCL 312 - Medical Sociology 3 hrs
- SOCL 336 - Social and Cultural Change 3 hrs
Elective Courses: 6 hours

Choose from courses in sociology, anthropology, criminology. Must be at the 300-level or above.

Option II: Applied Sociology: 15 hours

Required Courses: 9 hours

- SOCL 230 - Introduction to Applied Sociology 3 hrs
- SOCL 310 - Social Stratification 3 hrs
- SOCL 489 - Internship in Sociology 3 hrs

Restricted Electives: 6 hours

Students must take two courses from one of the following four areas:

Family/Health/Aging Concentration:

- SOCL 303 - Sociology of Childhood and Youth 3 hrs
- SOCL 311W - Aging and the Life Course (Gen Ed Area I, W) 3 hrs
- SOCL 312 - Medical Sociology 3 hrs
- SOCL 450 - The Family 3 hrs

Public/Private Sector Concentration:

- SOCL 306 - The Urban Community 3 hrs
- SOCL 307 - Sociology of Work 3 hrs
- SOCL 321 - Cooperation and Conflict in Society 3 hrs
- SOCL 334 - Population 3 hrs
- SOCL 462 - Complex Organizations 3 hrs

Deviance Concentration:

- CRM 301 - Criminology 3 hrs
- CRM 337 - Deviance and Society 3 hrs
- CRM 354 - Juvenile Delinquency 3 hrs
- CRM 370 - White Collar Crime 3 hrs
- CRM 412 - Law and Society 3 hrs
- SOCL 333 - Violence and Society 3 hrs

Media/Technology Concentration:

- CMT 425 - Communication Technology and Social Change 3 hrs
- SOCL 440 - Sociology of Technology 3 hrs
- STS 495 - Technology, Values, and the Future 3 hrs
Minor Requirements:

This program requires a minor. Please contact your program adviser for a list of possible minors.

Program Total:

Students must earn a minimum total of 124 credits at the 100-level or above.

Note:

Each student must choose a writing intensive course as part of major completion requirements. Consult your adviser for course options.

Critical Graduation Information:

The following are minimum requirements for all bachelor’s degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the 100-level and above. Courses with numbers below 100 will not be counted toward this degree requirement. Criminology/Criminal Justice Minor

Sociology, Anthropology and Criminology Department Information:

Department Head: Anders Linde-Laursen
Department Contact: alindela@emich.edu
Website: http://www.emich.edu/sac/

Adviser Information:

Program Adviser: Marilyn Horace-Moore
Email: mhoracem@emich.edu
Phone: 734.487.0012

Required Core Courses: 9 hours

- CRM 300 - Criminal Justice 3 hrs
- CRM 301 - Criminology 3 hrs
- PLSC 301 - American Legal System 3 hrs

Restricted Criminology Elective Courses: 6 hours

Two courses from the following:

- CRM 331 - Introduction to Corrections 3 hrs
- CRM 354 - Juvenile Delinquency 3 hrs
- CRM 370 - White Collar Crime 3 hrs
- CRM 412 - Law and Society 3 hrs
- CRM 420 - Drugs, Crime and Criminal Justice 3 hrs
- CRM 431 - Policing in Society 3 hrs
• CRM 460 - Criminal Law II 3 hrs

**Restricted Social Science Elective Courses: 6 hours**

*Two courses from the following:*

• HLED 490 - Drug Use and Abuse 3 hrs
• PHIL 355W - Philosophy of Law (Gen Ed Area I, W) 3 hrs
• PLSC 308 - Political Violence and Revolution 3 hrs
• PLSC 412W - Comparative Legal Systems (Gen Ed Area I, W) 3 hrs
• PLSC 456 - Criminal Law I 3 hrs
• PSY 360 - Abnormal Psychology 3 hrs
• SOCL 462 - Complex Organizations 3 hrs
• SWRK 431 - Substance Abuse 3 hrs

**Minor Total: 21 hours**

**Note:**

*All minors must have at least six hours of course work at the 300-level or above.*

**Critical Graduation Information:**

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

• Earn a minimum total of 124 credits at the 100-level and above. Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.
• Meet the requirements of the General Education program (see information below).
• Earn a minimum of 60 credits from a four-year college or university; courses taken at community colleges cannot be used to meet this requirement. (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
• Earn a minimum of 30 credits from courses taken at EMU.
• Complete 10 of the last 30 hours for the degree from courses taken at EMU.
• Have a minimum of 30 *unique* credit hours in their major and 20 *unique* credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
• Not more than 60 credit hours in one subject area (prefix) may be applied towards the minimum of 124 credit hours required for a bachelor's degree.
• Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more that one major or minor:
  o Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
  o Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor.

- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is coordinated by the Office of Admissions, and additional documentation may be required.
- Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be earned in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

General Education Requirements:

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available on the General Education section of the catalog: General Education.

- For Students who began their undergraduate program at EMU in Fall 2007 or later or who have elected to follow the current ("new") General Education Program, follow the "For Students" link under the Current Program heading.
- For Students who began their undergraduate program at EMU before Fall 2007 and who have elected to follow the Pre-2007 General Education Requirements, follow the "General Education Program Prior to Fall 2007 (pdf file)" link under the Program Prior to Fall 2007 heading. Please note that students who wish to graduate under pre-2007 General Education requirements must graduate by August 2014; those who have not completed all degree requirements by that time will need to satisfy the current (Fall 2007) General Education requirements.

Students who transferred to EMU may have modified general education requirements based on MACRAO or articulation agreements; consult your academic adviser for additional information.

University Information: Consult the online catalog at catalog.emich.edu.

Health and Illness Studies Interdisciplinary Minor

This minor examines the ways in which human beings deal with health and illness in different cultural settings including American society and its subcultures. Oriented toward the student interested in social and cultural aspects of health, illness and disease, it provides a theoretical perspective on comparative medical systems.

Sociology, Anthropology and Criminology Department Information:

Department Head: Anders Linde-Laursen
Department Contact: alindela@emich.edu
Website: http://www.emich.edu/sac/

Required Courses: 15 hours

- ANTH 135 - Introduction to Cultural Anthropology (Gen Ed Area III, IV) 3 hrs
- ANTH 329 - Medical Anthropology 3 hrs
- SOCL 105 - Introductory Sociology (Gen Ed Area IV) 3 hrs
- SOCL 311W - Aging and the Life Course (Gen Ed Area I, W) 3 hrs
- SOCL 312 - Medical Sociology 3 hrs

Elective Courses: 6 hours
Choose from courses in sociology, anthropology, criminology. Must be at the 300-level or above.

Minor Total: 21 hours

Note:

All minors must have at least six hours of course work at the 300-level or above.

---

**Sociocultural Perspectives on the Family Interdisciplinary Minor**

This minor combines the perspectives of anthropology and sociology by examining the sociocultural determinants and consequences of the family in the United States and other cultures. Students in such diverse fields as business, law, teaching, communication, nursing and technology learn how the family is integrated into the segment of society in which they intend to work. The program is designed for students planning to work directly with families as social workers, family life professionals or clinical psychologists.

Anthropology

ANTH 135 - Introduction to Cultural Anthropology (Gen Ed Area III, IV)

The study of human adaptations to natural and cultural environments focusing upon a variety of societies. The basic institutions of human society such as kinship, religion, law, politics and economics will be examined.

Credit Hours: 3 hrs

Area III: Global Perspectives on a Diverse World

ANTH 135 Introduction to Cultural Anthropology

Anthropology is the global comparative study of human societies, both in terms of their development and in terms of their culture-specific expressions. Students learn how an anthropological cross-cultural perspective can improve understandings of cultural diversity, especially when addressing topics and perspectives that are difficult to understand from a purely western perspective. The course covers a broad range of topics traditionally approached by anthropologists, which address each of the outcomes for the Global Awareness requirement. By better understanding the factors contributing to cross-cultural similarities, differences and interconnections, students learn to appreciate global diversity in development, ethnicity, language, subsistence,
modes of gender, kinship, sexuality, religion, forced and voluntary migration and how contemporary globalization is influencing each of these topics.

Last Updated: General Education Areas 07/2011

**ANTH 140 - Introduction to Physical Anthropology**

A survey of the evolution of primates and hominids and a general introduction to physical anthropological themes relating to prehistoric and living humans.

**Credit Hours:** 3 hrs
**Prerequisite:** ANTH 135

Last Updated: 2/17/2011

**ANTH 150 - Introductory Archaeology (Gen Ed Area IV)**

A general survey of the field of archeology; the methodologies and analyses employed in the study of prehistoric cultures.

**Credit Hours:** 3 hrs

**Area IV: Knowledge of the Disciplines**

**ANTH 150 Introductory Archaeology**

The course is designed as an introduction to the anthropological subfield of archaeology. In addition to general social science methods, the student will learn about archaeological survey and excavation techniques, the kinds of quantitative and qualitative data these produce, cross-cultural analyses, and social science theories that are tested with archaeological data. The course covers a broad range of topics traditionally approached by archaeologists, which contribute to an understanding of the human past and lessons for some of today’s major global issues. In the process of learning about archaeology, students also learn to appreciate how social science methods, in general, can produce knowledge and provide perspectives on social and political organization, power relationships, social change and contemporary global problems. Course assignments allow students to use general social science techniques with archaeological data to address these topics.

Last Updated: Minor Edit 1/2013

**ANTH 177 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 1 hr
**Prerequisite:** department permission

**ANTH 178 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 2 hrs
**Prerequisite:** department permission

**ANTH 179 - Special Topics**
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 3 hrs  
**Prerequisite:** department permission

**ANTH 208 - Minority Women in the United States (TO BE DELETED)**

This course surveys the situation of and the conditions that affect the lives of four groups of minority women in the United States who are from diverse cross-cultural backgrounds: African American, Asian-American, Latin American and Native American. It focuses on the contemporary situation of these women and compares the four groups in terms of demographics, economic and occupational situations, education, family lives and relationship to the feminist movement.

**Credit Hours:** 3 hrs  
**Prerequisite:** SOCL 105 or ANTH 135  
**Cross-Listed with:** SOCL 208 and WGST 208  
**Course Revisions:**  
**Course Revisions:** This course will be deleted, effective Winter 2013.  
**Last Updated:** Course Deletion 05/2012, effective Winter 2013

**ANTH 210 - History of Anthropological Theory**

A survey of various theoretical approaches within the field of cultural anthropology. The course will span the period from the mid-19th century to the present, covering theoretical perspectives that have dominated European and American schools of anthropology.

**Credit Hours:** 3 hrs  
**Prerequisite:** ANTH 135  
**Last Updated:** 2/17/2011

**ANTH 214 - U.S. Racial and Cultural Minorities (Gen Ed Area III)**

An introduction to the study of U.S. diversity with particular reference to the African American and Hispanic, and European and Asian immigrants in the United States; racial myths, doctrines and movements; conflict and accommodation of majority and minority people; and proposed solutions of ethnic problems.

**Credit Hours:** 3 hrs  
**Cross-Listed with:** SOCL 214

**Area III: Perspectives on a Diverse World**

**ANTH214 U.S. Racial and Cultural Minorities**  
This course is an introduction to the study of U.S. diversity in reference to majority-minority relations. Students will examine the characteristics of the racial, ethnic and subcultural factors leading to the emergence of specific minority groups in American society. The dynamics of discrimination and assimilation will be studied as they apply to major American ethnic and subcultural groups, and issues related to separatism vs. multiculturalism will be discussed in a cross-cultural, comparative framework.

This course provides students with the conceptual tools to analyze their own experience of minority-majority status, and to trace the roots of such an experience by placing it in the context of American culture. Also, by applying social-science models to the understanding of the cultural, racial, ethnic and subcultural diversity found in the U.S. students will be able to more clearly assess the complexity of in-group and out-group perspectives on identity and discrimination, particularly in reference to intercultural
ANTH 219 - Around the World in 80 Years: Adult Development Across Culture (TO BE DELETED)

Through the study of adult development, students will consider how the aging of the world's population is affecting diverse cultures, societies - and families - across the globe. Issues of social justice and empowerment related to population aging will addressed, particularly the social, economic, political and policy consequences.

Credit Hours: 3 hrs
Cross-Listed with: GERT 219 and SOCL 219
Course Revisions:
Course Revisions: This course will be deleted, effective Winter 2013.
Last Updated: Course Deletion 05/2012, effective Winter 2013

ANTH 233 - Cultures of Mesoamerica and the Caribbean (Gen Ed Area III)

A regional, historical and topical survey of Mesoamerica (Mexico, Guatemala, Belize, El Salvador and Honduras) and Caribbean cultures.

Credit Hours: 3 hrs

Area III: Perspectives on a Diverse World

Rationale: Mesoamerica and the Caribbean have diverse nations and cultures interacting in the global community that are confronting many of the same major issues as in other world regions. Students explore and compare cultures in both macro-regions, and further compare those cultures with cultures of North America. This course also emphasizes North American political and economical interconnections with Mesoamerica and the Caribbean: how those relationships have influenced the creation and character of national governments, alliances and conflicts, and grass-roots cultural reactions. By studying Mesoamerican and Caribbean cultures, students learn the diverse ways that cultures create and classify races, classes, and genders, and how these differ from classifications in North America. Students are exposed to culture-specific and cross-cultural patterns in the causes and consequences of social, cultural, and racial intolerance. Students successfully completing this course learn how to analyze and synthesize diverse sources of information to make informed decisions on major issues confronting Mesoamerica, the Caribbean, and other world religions experiencing similar issues.

Last Updated: 2/11/11; effective Fall 2011

ANTH 236 - Peoples and Cultures of Africa

A regional, historical and topical survey of African cultures.

Credit Hours: 3 hrs
Prerequisite: ANTH 135

Last Updated: 2/18/2011

ANTH 237 - Native North American Cultures (Gen Ed Area III)

A regional, historical and topical survey of aboriginal North American cultures.

Credit Hours: 3 hrs
Area III: Perspectives on a Diverse World

ANTH 237 Native North American Cultures
This course introduces students to the diverse political, economic, and belief systems of indigenous North American cultures (primarily within the U.S. but also in Canada) and the historical and modern impacts of European colonial and U.S. government policies toward Native American peoples. Emphasized throughout the course are the differences among Euro-American political economies and associated ideologies and those of different Native American cultures. Students will learn and understand the historic creation and modern perpetuation of social intolerance, institutionalized racism, ethnocentrism, stereotyping and exclusion. In addition to outlining the causes and consequences of ethnic cleansing, genocide and refugee migrations in North America, the course also explores institutionalized attempts at forced “westernization” of Native Americans through reservation-allotment, missionaries, educational systems and other policies resulting in impoverishment, erosion of social organizations, and loss of culture. Students develop awareness and explanations for alternative cultural identities and values by comparing the varying social experiences and civil rights movements of Native Americans with those of other minority groups.

ANTH 248 - Peoples and Cultures of the Pacific
A regional, historical and topical survey of indigenous Pacific cultures.

Credit Hours: 3 hrs
Prerequisite: ANTH 135
Last Updated: 2/18/2011

ANTH 250 - World Prehistory
An overview of human prehistory, from the earliest hominids to early state societies. Course topics include data, theories, and knowledge from anthropological archaeology on hominid material culture, social organization, and dispersals; transitions from foraging societies to Neolithic farming village societies; and the development of different types of state societies.

Credit Hours: 3 hrs
Last Updated: Corrected typo in description 4/2016

ANTH 261 - Introduction to Archaeological Fieldwork
One week of training in archaeological fieldwork.

Credit Hours: 3 hrs
Prerequisite: ANTH 135, ANTH 140 and departmental permission
Last Updated: Number Change 04/2012

ANTH 277 - Special Topics
An examination of topics in anthropology not normally covered in the curriculum. Students may elect this course several times, provided different topics are studied.

Credit Hours: 1 hr
Prerequisite: ANTH 135
Last Updated: 2/18/2011

ANTH 278 - Special Topics
An examination of topics in anthropology not normally covered in the curriculum. Students may elect this course several times, provided different topics are studied.

**Credit Hours:** 2 hrs  
**Prerequisite:** ANTH 135  
**Last Updated:** 2/18/2011

**ANTH 279 - Special Topics**

An examination of topics in anthropology not normally covered in the curriculum. Students may elect this course several times, provided different topics are studied.

**Credit Hours:** 3 hrs  
**Prerequisite:** ANTH 135  
**Last Updated:** 2/18/2011

**ANTH 309 - Culture and Personality**

An analysis of the manner in which group and cultural factors influence the growth and change of personality. The impact of personality types on group life.

**Credit Hours:** 3 hrs  
**Prerequisite:** SOCL 105 or ANTH 135  
**Notes:** Not open to those with credit in SOCL 309  
**Last Updated:** 2/18/2011

**ANTH 329 - Medical Anthropology**

Ways in which various cultures define, explain, and treat physical and psychic illness. Different approaches to curing including witchcraft, sorcery, spiritual and psychic healing, and the use of hallucinogens compared with contemporary medical practices.

**Credit Hours:** 3 hrs  
**Prerequisite:** ANTH 135 or department permission  
**Last Updated:** 2/18/2011

**ANTH 330 - Anthropology of Law and Politics**

Comparative study of political systems in various societies, local-level politics, government and law; examined from an anthropological perspective.

**Credit Hours:** 3 hrs  
**Prerequisite:** ANTH 135  
**Class Restrictions:** Sophomore standing  
**Last Updated:** 2/18/2011

**ANTH 336 - Social and Cultural Change**

A survey of the theories and problems of change as they affect at the global, national and subcultural levels.

**Credit Hours:** 3 hrs  
**Prerequisite:** ANTH 135 or SOCL 105
ANTH 337 - Applied Anthropology

The application of anthropological knowledge and methods to address contemporary human problems.

**Credit Hours:** 3
**Prerequisite:** ANTH 135, and Sophomore standing or above.
**Last Updated:** Prereq Update 7/26/2011; Created 7/22/2011

ANTH 338 - Anthropology of Religion

The cross-cultural study of religious belief and ritual in various societies.

**Credit Hours:** 3 hrs
**Prerequisite:** ANTH 135
**Class Restrictions:** Sophomore standing
**Last Updated:** 2/18/2011

ANTH 340 - Language and Culture

A study of the relation of language to social behavior and modes of thought in unilingual and multilingual speech communities.

**Credit Hours:** 3 hrs
**Prerequisite:** ANTH 135 or LING 201 or LNGE 223
**Cross-Listed with:** LING 340
**Previously Listed As:** ANT 340
**Last Updated:** Cross-listed Course Update 01/2012

ANTH 345 - Ethnographic Methods

A review and examination of social science research methods that entail fieldwork, participant observation, naturalistic experimentation and the analysis of cultural data.

**Credit Hours:** 3 hrs
**Prerequisite:** ANTH 135 or SOCL 105 or department permission
**Cross-Listed with:** SOCL 345
**Notes:** Not open to those with credit in SOCL 345.
**Previously Listed As:** Qualitative Methods
**Last Updated:** 2/18/2011; effective Spring 2011

ANTH 350 - Ancient Civilizations of Mesoamerica

A chronological and regional survey of the ancient civilizations of Mexico and northern Central America, including the Olmecs, Maya, Toltecs and Aztecs. Course themes include Mesoamerican archaeology, early state development and decline, social organization, economy and ecology, and the legacy of ancient Mesoamerica.

**Credit Hours:** 3 hrs
**Prerequisite:** ANTH 135
Class Restrictions: Sophomore standing

Last Updated: 2/18/2011

ANTH 351 - Mexico: The Route of Cortez

Follow the route of Cortez through Southern and Central Mexico. The course emphasizes cultural history, globalization, and gender themes from anthropological perspectives. This is a 1-week study abroad program with educational tours in the states of Tabasco, Veracruz, and Mexico. Students must apply for registration through the EMU Academic Programs Abroad Office.

Credit Hours: 3 hrs
Prerequisite: ANTH 135 and department permission

Last Updated: New Course 12/2011, effective Winter 2012

ANTH 355 - Anthropology of Women

This course focuses on the lives of women and theories of their positions in diverse cultural contexts. Issues of gender are also explored.

Credit Hours: 3 hrs
Prerequisite: ANTH 135
Cross-Listed with: WGST 355

Last Updated: 2/18/2011

ANTH 361 - Archaeological Fieldwork

Intermediate training in archaeological fieldwork.

Credit Hours: 5 hrs
Prerequisite: ANTH 135, ANTH 140 and departmental permission

Last Updated: Number Change 04/2012

ANTH 362 - Artifact Analysis

Principles and practical experience in archaeological laboratory recording and analysis of artifact attributes to address basic questions on chronology, site function and spatial patterns.

Credit Hours: 3 hrs
Prerequisite: ANTH 135 and ANTH 150

Last Updated: 2/18/2011

ANTH 377 - Special Topics

An examination of topics in anthropology not normally covered in the curriculum in which the distinctive perspective and methodology of anthropology are emphasized. Students may elect this course several times, provided different topics are studied.

Credit Hours: 1 hr
Prerequisite: ANTH 135

Last Updated: 2/18/2011

ANTH 378 - Special Topics
An examination of topics in anthropology not normally covered in the curriculum in which the distinctive perspective and methodology of anthropology are emphasized. Students may elect this course several times, provided different topics are studied.

Credit Hours: 2 hrs
Prerequisite: ANTH 135
Last Updated: 2/18/2011

ANTH 379 - Special Topics

An examination of topics in anthropology not normally covered in the curriculum in which the distinctive perspective and methodology of anthropology are emphasized. Students may elect this course several times, provided different topics are studied.

Credit Hours: 3 hrs
Prerequisite: ANTH 135
Last Updated: 2/18/2011

ANTH 385 - Culture of Japan

An analysis of Japanese culture from a comparative perspective. The course presents the ethnological approach to cross-cultural understanding as applied to the study of Japanese culture. By contrasting and comparing insider and outsider analyses of Japanese behavior, the dynamics of cross-cultural research are documented and discussed.

Credit Hours: 3 hrs
Prerequisite: ANTH 135 or department permission
Cross-Listed with: JPNE 385
Last Updated: 2/18/2011

ANTH 387 - Cooperative Education in Anthropology

Practical experience in industrial, business or government settings that provides job skills.

Credit Hours: 3 hrs
Prerequisite: 12 hours of anthropology, six of which must be at the 300-level or above
Notes: Offered on a credit/no-credit basis.

ANTH 430 - Museum Anthropology

This course is a practicum in museology, aimed at clarifying the foundational role of anthropology in Museum Studies. Through this course students will acquire a fuller understanding of the theoretical and methodological issues at the core of conservation in general and cultural heritage interpretation in particular. The outcome of the course will be a capacity to apply the theoretical underpinnings of museum studies in the professional exercise of research exhibit-and-presentation practice.

Credit Hours: 3 hrs
Last Updated: New Course 07/2011, effective Fall 2011

ANTH 437 - Kinship and Social Structure

The comparative study of kinship and social structure in various societies.

Credit Hours: 3 hrs
Prerequisite: ANTH 135, ANTH 210 and one additional ANTH course at the 300-level

Last Updated: Graduate Credit Removal 04/2012, effective Fall 2012; Graduate Credit 07/2011

ANTH 439W - Seminar in Anthropological Theory (Gen Ed Area I, W)

An intensive examination of theoretical approaches to the study of cultural phenomena. Emphasis will be placed upon the critical reading of primary source materials seminal to the development of various theoretical stances within the discipline of anthropology. This course will be organized around written and oral presentations by students.

Credit Hours: 3 hrs
Prerequisite: Four courses in anthropology including ANTH 210
Class Restrictions: Senior standing

Last Updated: Graduate Credit Removal 04/2012, effective Fall 2012; Gen Ed Approval 12/2011; Graduate Credit 07/2011

ANTH 445W - Culture Analysis Seminar (Gen Ed Area I, W)

A culminating course examining "culture" - the key subject matter of cultural anthropology - in reference to the foundational disciplinary perspectives of holism, comparativism, relativism. The course gives particular attention to the acquisition of cultural reflexivity, and to the distinction between ethnography and ethnology as it affects both research practice and its rhetorical expressions in discipline-specific writing.

Credit Hours: 3 hrs
Prerequisite: ANTH 135
Previously Listed As: ANTH 445
Course Revisions: This undergraduate course will be available to graduate students for graduate credit, effective Winter 2013.

Last Updated: Grad Credit approved 02/2012, effective Winter 2013; Gen Ed approved 04/2011

ANTH 461 - Advanced Archaeological Fieldwork

Intensive training in archaeological fieldwork.

Credit Hours: 6 hrs
Last Updated: Number Change 04/2012

ANTH 465 - Political Economy in Anthropology

This history of how political economy has been used in anthropological research and a survey of political economic approaches to major anthropological topics.

Credit Hours: 3 hrs
Prerequisite: ANTH 135 and ANTH 210
Class Restrictions: Sophomore standing
Last Updated: 2/18/2011

ANTH 477 - Special Topics

An examination of topics in anthropology not normally covered in the curriculum in which the distinctive perspective and methodology of anthropology are emphasized. Advanced students may elect this course several times, provided different topics
are studied.

**Credit Hours:** 1 hr  
**Prerequisite:** ANTH 135  
**Last Updated:** 2/18/2011

**ANTH 478 - Special Topics**

An examination of topics in anthropology not normally covered in the curriculum in which the distinctive perspective and methodology of anthropology are emphasized. Advanced students may elect this course several times, provided different topics are studied.

**Credit Hours:** 2 hrs  
**Prerequisite:** ANTH 135  
**Last Updated:** 2/18/2011

**ANTH 479 - Special Topics**

An examination of topics in anthropology not normally covered in the curriculum in which the distinctive perspective and methodology of anthropology are emphasized. Advanced students may elect this course several times, provided different topics are studied.

**Credit Hours:** 3 hrs  
**Prerequisite:** ANTH 135  
**Last Updated:** 2/18/2011

**ANTH 487 - Cooperative Education in Anthropology**

Practical experience in industrial, business or government settings that provides job skills.

**Credit Hours:** 3 hrs  
**Prerequisite:** department permission  
**Notes:** Offered on a credit/no-credit basis  
**Last Updated:** Graduate Credit Removal 04/2012, effective Fall 2012; Graduate Credit 07/2011

**ANTH 497 - Individualized Reading and Research in Anthropology**

Directed reading and research on problems within the field of anthropology.

**Credit Hours:** 1 hr  
**Prerequisite:** ANTH 135 and department permission  
**Last Updated:** 2/18/2011

**ANTH 498 - Individualized Reading and Research in Anthropology**

Directed reading and research on problems within the field of anthropology.

**Credit Hours:** 2 hrs  
**Prerequisite:** ANTH 135 and department permission  
**Last Updated:** 2/18/2011
ANTH 499 - Individualized Reading and Research in Anthropology

Directed reading and research on problems within the field of anthropology.

Credit Hours: 3 hrs
Prerequisite: ANTH 135 and department permission
Last Updated: 2/18/2011

Criminology

CRM 200 - Introduction to Crime and Justice (Gen Ed Area IV)

An introduction to policy issues, theories and strategies regarding the fields of criminal justice and criminology.

Credit Hours: 3 hrs

CRM 222 - Pornography and Crime

The course will focus on the legal definitions of pornography, censorship versus freedom of speech, the types of pornography that are policed (e.g. violent, and child pornography), police strategies, criminal versus social action, as well as the relationship between harm, consent, criminal behavior and hate crimes.

Credit Hours: 3 hrs

CRM 277 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr

CRM 278 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs

CRM 279 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs

CRM 300 - Criminal Justice
A critical view of the entire spectrum of criminal justice. The police, courts and corrections studied as interrelated institutions in the process of defining criminals.

**Credit Hours:** 3 hrs

**CRM 301 - Criminology**

**Credit Hours:** 3 hrs

**CRM 320 - Criminal Investigation**

Introduction to the science of criminal investigations, including the methodology of crime scene investigations, evidence collection, preservation and analysis. Other topics include the constitutional, legal and historical concerns relevant to procedural issues of investigation.

**Credit Hours:** 3 hrs

**Concurrent Prerequisite:** CRM 300

**Last Updated:** Links 04/2011

**CRM 321 - Cooperation and Conflict in Society**

The principles of cooperation, cooperation in our competitive-individualistic society, cooperative skills and forms of mutual aid are examined. Students learn cooperation through doing, as well as reading and writing, including a variety of group projects, exercises and discussion.

**Credit Hours:** 3 hrs

**Prerequisite:** SOCL 105

**Cross-Listed with:** SOCL 321

**Last Updated:** Links 04/2011

**CRM 331 - Introduction to Corrections**

An examination of corrections/punishment in contemporary society, its historical development, structural dependency, relationship to the system of justice and problems of effectiveness.

**Credit Hours:** 3 hrs

**Prerequisite:** CRM 300

**Last Updated:** Links 04/2011

**CRM 332 - Community Corrections**

An examination of the limitations of incarceration and the potential of community based alternatives.

**Credit Hours:** 3 hrs

**Prerequisite:** CRM 300

**Last Updated:** Links 04/2011

**CRM 333 - Violence and Society**
An introduction to and survey of the multi-disciplinary study of violence and society. Issues specifically examined are mass institutions of media, culture and identity formation.

Credit Hours: 3 hrs  
Prerequisite: SOCL 105  
Cross-Listed with: SOCL 333  
Last Updated: Links 04/2011

CRM 337 - Deviance and Society

An introduction to the scientific study of deviance, society’s reaction to deviance and the social strategies for managing deviance.

Credit Hours: 3 hrs  
Prerequisite: SOCL 105  
Cross-Listed with: SOCL 337  
Last Updated: Links 04/2011

CRM 338 - Women, Crime and Justice

This course will offer a critical analysis of gender and criminal justice as it relates to women as victims, offenders and agents of the criminal justice system. Additionally, the social conditions of criminality, intervention strategies as well as social action and criminal justice policy reform will be examined.

Credit Hours: 3 hrs  
Cross-Listed with: WGST 338, SOCL 338  
Last Updated: Links 04/2011

CRM 362 - Ethics for Criminal Justice Professionals

This course provides the basic materials for analyzing ethical situations in criminal justice professions. Case studies of misconduct and its effects, and various policy issues, such as discretion and due process in law enforcement, the courts and corrections will be examined.

Credit Hours: 3 hrs  
Last Updated: New Course 02/2012, effective Fall 2012

CRM 370 - White Collar Crime

An examination of the definitions, laws, causes and policy responses that shape crimes by corporations, government agencies, professionals and others engaged in legitimate occupations.

Credit Hours: 3 hrs

CRM 377 - Special Topics

A single topic is covered each semester, selected as the interest and/or problems change. Students may elect a special topics course several times, provided different topics are studied, but only twice for credit toward a major or minor in criminology.

Credit Hours: 1 hr

CRM 378 - Special Topics
A single topic is covered each semester, selected as the interest and/or problems change. Students may elect a special topics course several times, provided different topics are studied, but only twice for credit toward a major or minor in criminology.

**Credit Hours:** 2 hrs

**CRM 379 - Special Topics**

A single topic is covered each semester, selected as the interest and/or problems change. Students may elect a special topics course several times, provided different topics are studied, but only twice for credit toward a major or minor in criminology.

**Credit Hours:** 3 hrs

**CRM 387 - Cooperative Education in Criminal Justice**

Practical experience in agencies or government settings to provide job skills.

**Credit Hours:** 3 hrs  
**Prerequisite:** department permission  
**Class Restrictions:** Junior standing  
**Notes:** Offered on a credit/no-credit basis

**CRM 412 - Law and Society**

Law as a social and cultural product; the interrelationships between law and social institutions.

**Credit Hours:** 3 hrs  
**Prerequisite:** SOCL 105  
**Cross-Listed with:** SOCL 412  
**Notes:** Not open to those with credit in SOCL 412.

**Last Updated:** Graduate Credit Removal 04/2012, effective Fall 2012; Graduate Credit 07/2011; Links 04/2011

**CRM 420 - Drugs, Crime and Criminal Justice**

Analysis of legal and illegal drugs and their relation to crime, costs associated. With drug use and abuse, methodologies to collect data on drug theories, as well as drug control policies like D.A.R.E. and the War on Drugs and regulatory strategies as are applied to legal substances.

**Credit Hours:** 3 hrs  
**Prerequisite:** CRM 300 and CRM 301  
**Class Restrictions:** Sophomore standing  
**Last Updated:** Links 04/2011

**CRM 431 - Policing in Society**

The social and historical origin of the police; police culture, role and career; police in the legal system; police discretion; ethical development of police; police and the community; police organization and community control.

**Credit Hours:** 3 hrs  
**Prerequisite:** CRM 300  
**Last Updated:** Graduate Credit Removal 04/2012, effective Fall 2012; Graduate Credit 07/2011; Links 04/2011
CRM 432 - Police Organization

An examination of the major theories of police organization and how these theories can enhance our understanding of policing and help solve problems facing the police in everyday life.

Credit Hours: 3 hrs  
Prerequisite: CRM 300  
Last Updated: Links 04/2011

CRM 447W - Senior Seminar in Criminology (Gen Ed Area I, W)

Summations and integrations of the various bodies of criminological knowledge and their applications to policies of crime prevention and control.

Credit Hours: 3 hrs  
Prerequisite: CRM 300, CRM 301, SOCL 250 and SOCL 304  
Class Restrictions: Senior standing  
Last Updated: Graduate Credit Removal 04/2012, effective Fall 2012; Graduate Credit 07/2011; Links 04/2011

CRM 460 - Criminal Law II

The social, political, and historical evolution of criminal procedure with an emphasis on its application with regard to law enforcement and the judiciary.

Credit Hours: 3 hrs  
Last Updated: Graduate Credit Removal 04/2012, effective Fall 2012; Graduate Credit 07/2011

CRM 477 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr

CRM 478 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs

CRM 479 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs

CRM 487 - Cooperative Education in Criminal Justice
Practical experience in agencies or government settings to provide job skills.

**Credit Hours:** 3 hrs  
**Prerequisite:** department permission  
**Notes:** Offered on a credit/no-credit basis.  
**Last Updated:** Graduate Credit Removal 04/2012, effective Fall 2012; Graduate Credit 07/2011

**CRM 488 - Field Internship in Criminology and Criminal Justice**

A minimum of ten hours per week in a governmental or private agency dealing with the crime problem. The agency and the field instructor provide supervised learning experiences.

**Credit Hours:** 3 hrs each  
**Class Restrictions:** Junior standing and department permission; second semester Juniors may be admitted by department permission  
**Last Updated:** Graduate Credit Removal 04/2012, effective Fall 2012; Graduate Credit 07/2011

**CRM 489 - Field Internship in Criminology and Criminal Justice**

A minimum of ten hours per week in a governmental or private agency dealing with the crime problem. The agency and the field instructor provide supervised learning experiences.

**Credit Hours:** 3 hrs each  
**Class Restrictions:** Junior standing and department permission; second semester Juniors may be admitted by department permission  
**Last Updated:** Graduate Credit Removal 04/2012, effective Fall 2012; Graduate Credit 07/2011

**CRM 497 - Independent Study**

Independent study, under the supervision of a department member, in areas in which the department does not offer a course.

**Credit Hours:** 1 hr  
**Prerequisite:** department permission

**CRM 498 - Independent Study**

Independent study, under the supervision of a department member, in areas in which the department does not offer a course.

**Credit Hours:** 2 hrs  
**Prerequisite:** department permission

**CRM 499 - Independent Study**

Independent study, under the supervision of a department member, in areas in which the department does not offer a course.

**Credit Hours:** 3 hrs  
**Prerequisite:** department permission

**Sociology**
SOCL 105 - Introductory Sociology (Gen Ed Area IV)

Basic sociological concepts are used to analyze social systems, socialization, social inequality, deviance and conformity, and the process of social change with focus on family, educational, religious, governmental and economic institutions.

Credit Hours: 3 hrs

Area IV: Knowledge of the Disciplines

SOCL 105 Introductory Sociology
This course provides a critical introduction to key concepts and ideas common to all sociological endeavor, as well as the methods by which sociologists advance social scientific knowledge. Students will be introduced to major theoretical perspectives, as well as key concepts, such as culture, socialization and social interaction, all of which guide the practice of sociology. Students will also come to understand the nature of major societal institutions, including family, education, economy and government, along with the formal and informal dimensions of race, social class and gender within the field. For each segment of the course, students will examine the challenges associated with conducting social research. *Introduction to Sociology* focuses on comparing and contrasting the potential for using various research methods to generate knowledge, with a special emphasis on comparing quantitative and qualitative methods. Students will also come to explore the benefits of employing a sociological perspective to the analysis of contemporary events and, in the process, will be socialized into becoming critical consumers of reporting in the mass media, much of which is increasingly based on social science research.

*Last Updated:* Minor Edit 1/2013

SOCL 177 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr
Prerequisite: SOCL 105

*Last Updated:* Links 03/2011

SOCL 178 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs
Prerequisite: SOCL 105

*Last Updated:* Links 03/2011

SOCL 179 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs
Prerequisite: SOCL 105

*Last Updated:* Links 03/2011

SOCL 202 - Social Problems
An analysis of problems arising in contemporary American society, such as child rearing, relations between the sexes, crime and delinquency, relations between racial and cultural subgroups, and personality disorders.

**Credit Hours:** 3 hrs  
**Prerequisite:** SOCL 105  
**Last Updated:** Links 03/2011

**SOCL 204 - Marriage and Family**

The position and significance of the family in our changing society. Courtship, mate selection and problems of marital adjustment from sociological and social-psychological perspectives.

**Credit Hours:** 3 hrs  
**Prerequisite:** SOCL 105  
**Last Updated:** Links 03/2011

**SOCL 208 - Minority Women in the United States**

This course surveys the situation of and the conditions that affect the lives of four groups of minority women in the United States who are from diverse cross-cultural backgrounds: Black, Asian-American, Latin-American and Native American. It focuses on the contemporary situation of these women and compares the four groups in terms of demographics, economic and occupational situations, education, family lives and relationship to the feminist movement.

**Credit Hours:** 3 hrs  
**Prerequisite:** SOCL 105  
**Cross-Listed with:** ANTH 208, WGST 208  
**Last Updated:** Links 03/2011

**SOCL 214 - U.S. Racial and Cultural Minorities (Gen Ed Area III)**

An introduction to the study of U.S. diversity with particular reference to the black and Hispanic, and European and Asian immigrants in the United States; racial myths, doctrines and movements; conflict and accommodation of majority and minority people; and proposed solutions of ethnic problems.

**Credit Hours:** 3 hrs  
**Cross-Listed with:** ANTH 214

**Area III: Perspectives on a Diverse World**

**SOCL 214 U.S. Racial and Cultural Minorities**  
This course is an introduction to the study of U.S. diversity in reference to majority-minority relations. Students will examine the characteristics of the racial, ethnic and subcultural factors leading to the emergence of specific minority groups in American society. The dynamics of discrimination and assimilation will be studied as they apply to major American ethnic and subcultural groups, and issues related to separatism vs. multiculturalism will be discussed in a cross-cultural, comparative framework.

This course provides students with the conceptual tools to analyze their own experience of minority-majority status, and to trace the roots of such an experience by placing it in the context of American culture. Also, by applying social-science models to the understanding of the cultural, racial, ethnic and subcultural diversity found in the U.S. students will be able to more clearly assess the complexity of in-group and out-group perspectives on identity and discrimination, particularly in reference to intercultural competence.

**Last Updated:** Links 03/2011
SOCL 219 - Around the World in 80 Years: Adult Development Across Culture

Through the study of adult development, students will consider how the aging of the world’s population is affecting diverse cultures, societies - and families - across the globe. Issues of social justice and empowerment related to population aging will addressed, particularly the social, economic, political and policy consequences.

Credit Hours: 3 hrs
Cross-Listed with: ANTH 219, GERT 219
Last Updated: Links 03/2011

SOCL 230 - Introduction to Applied Sociology

This course will be geared towards those students interested in applying the core elements of sociology to business, government and social service organizations. The tools of sociology, including theory and methods, will actively inform the study of various issues in a range of professional settings.

Credit Hours: 3 hrs
Prerequisite: SOCL 105
Last Updated: Links 03/2011

SOCL 250 - Quantitative Applications in Sociology (Gen Ed Area II)

Introduction to the evaluation and interpretation of numerical and categorical data using descriptive and inferential statistical techniques.

Credit Hours: 3 hrs

Last Updated: Gen Ed Approval 08/2007, effective Winter 2008

SOCL 277 - Special Topics

A single topic is covered each semester, selected as the interest and/or problems change. Students may elect this course several times, provided different topics are studied, but only twice for credit toward a major or minor in sociology.

Credit Hours: 1 hr
Prerequisite: SOCL 105
Last Updated: Links 03/2011

SOCL 278 - Special Topics

A single topic is covered each semester, selected as the interest and/or problems change. Students may elect this course several times, provided different topics are studied, but only twice for credit toward a major or minor in sociology.

Credit Hours: 2 hrs
Prerequisite: SOCL 105
Last Updated: Links 03/2011

SOCL 279 - Special Topics

A single topic is covered each semester, selected as the interest and/or problems change. Students may elect this course several times, provided different topics are studied, but only twice for credit toward a major or minor in sociology.
SOCL 303 - Sociology of Childhood and Youth

Childhood and youth as elements of social organization. The relationship between social structure and the emergent personality of the individual; normality and deviance as social processes.

SOCL 304 - Methods in Sociological Research

Methods used in sociological research and their various applications. Participation in conducting a survey.

SOCL 306 - The Urban Community

Ecological and social organization of urban life. The metropolitan trend in the United States and the social problems created by it.

SOCL 307 - Sociology of Work

This course addresses the dynamics of paid, unpaid, and marginalized work; managerial control and worker resistance; work and family conflicts; connections between local and global economies; and how gender; race/ethnicity, social class. age, citizenship, and sexuality shape the opportunities and rewards of work.

SOCL 308 - Social Psychology

Introductory study of the order and regularity underlying processes of human interaction. Motives and attitudes, social norms and roles, the socialization process, personality and group membership. The effect of group membership upon individual behavior.
SOCL 309 - Culture and Personality

An analysis of the manner in which group and cultural factors influence the growth and change of personality. The impact of personality types on group life.

Credit Hours: 3 hrs
Prerequisite: SOCL 105 or ANTH 135
Notes: Not open to those with credit in ANTH 309.
Last Updated: Links 03/2011

SOCL 310 - Social Stratification

This course focuses on the social factors of inequality, the process of status attainment, and social mobility in contemporary societies. These aspects of stratification are examined on both the national and global levels. Course materials address the differential distribution of and access to resources including issues of race, class and gender.

Credit Hours: 3 hrs
Prerequisite: SOCL 105
Last Updated: Links 03/2011

SOCL 311W - Aging and the Life Course (Gen Ed Area I, W)

Aging is viewed as a life course process. We focus on social and cultural aspects, noting attitudes toward aging, assessing how aging experiences are affected by social location (gender, race/ethnicity, class), and elaborate the social construction of age including implications of population aging for individual and societal well-being.

Credit Hours: 3 hrs
Prerequisite: SOCL 105

Last Updated: Title and Course Description Change 10/2011, effective Winter 2012; Links 03/2011

SOCL 312 - Medical Sociology

Social behavior and social organization as factors in disease distribution. The sociological analysis of medical care, organization and practitioners.

Credit Hours: 3 hrs
Prerequisite: SOCL 105
Last Updated: Links 03/2011

SOCL 320 - Sociology of Religion

A sociological analysis of religious organizations and the institution of religion including the interaction between religious organizations and other institutions and associations, and the role of religion in social movements and social change.

Credit Hours: 3 hrs
Prerequisite: SOCL 105
Last Updated: Links 03/2011

SOCL 321 - Cooperation and Conflict in Society
The principles of cooperation, cooperation in our competitive-individualistic society, cooperative skills and forms of mutual aid are examined. Students learn cooperation through doing, as well as reading and writing, including a variety of group projects, exercises and discussion.

Credit Hours: 3 hrs  
Prerequisite: SOCL 105  
Cross-Listed with: CRM 321  
Last Updated: Links 03/2011

**SOCL 333 - Violence and Society**

An introduction to and survey of the multidisciplinary study of violence and society. Specifically examined are mass institutions of media, culture and identity formation.

Credit Hours: 3 hrs  
Prerequisite: SOCL 105  
Cross-Listed with: CRM 333  
Last Updated: Links 03/2011

**SOCL 334 - Population**

Population size and composition, and their impact on society; determinants and consequences of natality, mortality and migration; the relationship between human numbers and resources and its politico-economic implications; population theories and policies of population control.

Credit Hours: 3 hrs  
Prerequisite: SOCL 105  
Last Updated: Links 03/2011

**SOCL 336 - Social and Cultural Change**

A survey of the theories and problems of change as they affect at the global, national and subcultural levels.

Credit Hours: 3 hrs  
Prerequisite: SOCL 105 or ANTH 135  
Notes: Not open to those with credit in ANTH 336.  
Last Updated: Links 03/2011

**SOCL 337 - Deviance and Society**

An introduction to the scientific study of deviance, society’s reaction to deviance and the social strategies for managing deviance.

Credit Hours: 3 hrs  
Prerequisite: SOCL 105  
Cross-Listed with: CRM 337  
Last Updated: Links 03/2011

**SOCL 338 - Women, Crime and Justice**

This course will offer a critical analysis of gender and criminal justice as it relates to women as victims, offenders and agents of the criminal justice system. Additionally, the social conditions of criminality, intervention strategies, as well as, social action and
criminal justice policy reform will be examined.

**Credit Hours:** 3 hrs  
**Cross-Listed with:** WGST 338, CRM 338  
**Last Updated:** Links 03/2011

**SOCL 339 - Sociology of Love**

A sociological examination of love, emphasizing typologies, scientific research and cross-cultural comparisons. Special attention is given to the analysis of love in terms of feelings, thoughts, behaviors and attitudes.

**Credit Hours:** 3 hrs  
**Prerequisite:** SOCL 105  
**Last Updated:** Links 03/2011

**SOCL 341 - Quantitative Methods of Social Research I**

Examination and review of research methods in behavioral sciences and the nature of empirical data, organization of univariate and bivariate data.

**Credit Hours:** 3 hrs  
**Prerequisite:** SOCL 105  
**Notes:** Not open to those with credit in SOCL 250 or SOCL 304. Must be followed by SOCL 342.  
**Last Updated:** Links 03/2011

**SOCL 342 - Quantitative Methods of Social Research II**

Further review and applications of research methods and introduction to statistical inference.

**Credit Hours:** 3 hrs  
**Prerequisite:** SOCL 341  
**Notes:** Not open to those with credit in SOCL 250 or SOCL 304.  
**Last Updated:** Links 03/2011

**SOCL 344 - Sociology of Gender**

Analysis of past, present and future sex roles; the changing roles of women and men, and the conflicts and consequences of these changes on marriage and family systems in the United States.

**Credit Hours:** 3 hrs  
**Prerequisite:** SOCL 105  
**Cross-Listed with:** WGST 344  
**Last Updated:** Links 03/2011

**SOCL 345 - Ethnographic Methods**

A review and examination of social-science research methods that entail fieldwork, participant observation, naturalistic experimentation and the analysis of cultural data.

**Credit Hours:** 3 hrs  
**Prerequisite:** SOCL 105 or ANTH 135 or department permission
SOCL 352 - Sociology of Education

Using the traditional lecture method combined with small-group interactive exercises, this course will systematically examine the institution of American public education by focusing on the interplay between education, its social history, gender and race, environment, social control, ideology, the school in a global economy, and social structure in the formation and procession of schooling through a variety of theoretical scopes.

Credit Hours: 3 hrs
Prerequisite: SOCL 105
Last Updated: Links 03/2011

SOCL 375 - Political Sociology

The structure of political systems analyzed from an individual and social system perspective.

Credit Hours: 3 hrs
Prerequisite: SOCL 105
Last Updated: Links 03/2011

SOCL 387 - Cooperative Education in Sociology

Practical experience in industrial, business, or government settings to provide job skills.

Credit Hours: 3 hrs
Prerequisite: Department permission
Notes: Offered on a credit/no-credit basis
Last Updated: Links 03/2011

SOCL 402 - Group Dynamics

Structure and interaction processes of small groups. Cohesiveness, group standards, conformity and deviance, leadership, group emotion, communication, group roles and sociometrics.

Credit Hours: 3 hrs
Prerequisite: SOCL 105
Last Updated: Graduate Credit Removal 04/2012, effective Fall 2012; Graduate Credit 07/2011; Links 03/2011

SOCL 403W - Modern Sociological Theory (Gen Ed Area I, W)

The rise and development of sociological thought from Comte to the present. The works of various European and American schools analyzed and critically appraised in terms of their value in empirical research.

Credit Hours: 3 hrs
Prerequisite: SOCL 105

Area I: Effective Communication
SOCL 403W Modern Sociological Theory
This course is organized to have students develop and employ successful, flexible writing and reading strategies that support sustained inquiry in sociology. The course will culminate in a research project where students will use writing strategies designed to increase knowledge of how sociological theory has evolved to aid our understanding of pressing issues facing our contemporary world by formulating research questions, and responding to them by searching library data bases as well as incorporate assigned readings to conduct a literature review. This course will lead to the student learning to communicate, disseminate, and interpret information within sociology. Finally, this research project will be a process where student work is supported through intermediate steps with opportunities for feedback and revision.

Last Updated: Graduate Credit Removal 04/2012, effective Fall 2012; Gen Ed Approval 12/2011; Graduate Credit 07/2011; Links 03/2011

SOCL 405 - Senior Seminar in Sociology
The purpose of this course is to integrate sociological knowledge, theory and methods, and relate them to applications within the student’s discipline and profession.

Credit Hours: 3 hrs
Prerequisite: SOCL 105
Class Restrictions: Senior standing

Last Updated: Graduate Credit Removal 04/2012, effective Fall 2012; Graduate Credit 07/2011; Links 03/2011

SOCL 412 - Law and Society
Law as a social and cultural product; the interrelationships between law and social institutions.

Credit Hours: 3 hrs
Prerequisite: SOCL 105
Cross-Listed with: CRM 412
Notes: Not open to those with credit in CRM 412.

Last Updated: Graduate Credit Removal 04/2012, effective Fall 2012; Graduate Credit 07/2011; Links 03/2011

SOCL 440 - Sociology of Technology
A study of social factors involved in the creation, innovation, distribution, evaluation and social effects of technology.

Credit Hours: 3 hrs
Prerequisite: SOCL 105

Last Updated: Graduate Credit Removal 04/2012, effective Fall 2012; Graduate Credit 07/2011; Links 03/2011

SOCL 448 - Collective Behavior
Spontaneous, transitory and volatile collective behavior contrasted with the relatively stable, institutionalized patterns of interaction. Analysis of rumor transmission, crowd behavior, mass behavior, and the emergence of organized social movements.

Credit Hours: 3 hrs
Prerequisite: SOCL 105

Last Updated: Graduate Credit Removal 04/2012, effective Fall 2012; Graduate Credit 07/2011; Links 03/2011

SOCL 450 - The Family
The family as a basic social institution. Various types of family systems throughout the world with special emphasis on the American family.

**Credit Hours:** 3 hrs  
**Prerequisite:** SOCL 105  
**Last Updated:** Graduate Credit Removal 04/2012, effective Fall 2012; Graduate Credit 07/2011; Links 03/2011

**SOCL 451 - Sociology of Work and Occupations**

Social aspects of work. Recruitment, career patterns, professionalization, sociology of the workplace and labor force.

**Credit Hours:** 3 hrs  
**Prerequisite:** SOCL 105  
**Last Updated:** Graduate Credit Removal 04/2012, effective Fall 2012; Graduate Credit 07/2011; Links 03/2011

**SOCL 456 - Global Women: A Cross-Cultural Approach**

An overview of how globalization processes - economic, cultural and political - impact women and gender inequalities across countries and cultures. The course examines the intersections of gender and work, race, ethnicity, family, religion, and political participation from an international comparative approach, and how the internationalization of women’s rights and organizations has been redefining feminism worldwide.

**Credit Hours:** 3 hrs  
**Class Restrictions:** Senior, Graduate Certificate or Masters standing  
**Cross-Listed with:** WGST 456, WGST 556, SOCL 556  
**Last Updated:** Links 03/2011

**SOCL 462 - Complex Organizations**

An examination of several types of large organizations, with emphasis on the nature of bureaucratic organizations. Theoretical and empirical studies of organizational growth, recruitment, control and relations between organizations.

**Credit Hours:** 3 hrs  
**Prerequisite:** SOCL 105  
**Last Updated:** Graduate Credit Removal 04/2012, effective Fall 2012; Graduate Credit 07/2011; Links 03/2011

**SOCL 465 - Sociology of Revolution**

This course surveys major theoretical perspectives that have been used by social scientists to interpret and explain revolutions. With the aid of the best available theories, the course will examine a series of historical instances, ranging from the French Revolution of the 18th century, through the Russian and Chinese Revolutions, to recent revolutions in post-colonial or dependent countries, such as the Iranian Revolution.

**Credit Hours:** 3 hrs  
**Prerequisite:** SOCL 105  
**Last Updated:** Graduate Credit Removal 04/2012, effective Fall 2012; Graduate Credit 07/2011; Links 03/2011

**SOCL 477 - Special Topics**

A single topic is covered each semester, selected as interest and/or problems change. Students may elect this course several times, provided different topics are studied, but only twice for credit toward a major or minor in sociology.
SOCL 478 - Special Topics

A single topic is covered each semester, selected as interest and/or problems change. Students may elect this course several times, provided different topics are studied, but only twice for credit toward a major or minor in sociology.

Credit Hours: 1 hr
Prerequisite: SOCL 105
Last Updated: Links 03/2011

SOCL 479 - Special Topics

A single topic is covered each semester, selected as interest and/or problems change. Students may elect this course several times, provided different topics are studied, but only twice for credit toward a major or minor in sociology.

Credit Hours: 2 hrs
Prerequisite: SOCL 105
Last Updated: Graduate Credit Removal 04/2012, effective Fall 2012; Links 03/2011

SOCL 487 - Cooperative Education in Sociology

Practical experience in industrial, business, or government settings to provide job skills.

Credit Hours: 3 hrs
Prerequisite: SOCL 387/CRM 387
Notes: Offered on a credit/no-credit basis.
Last Updated: Graduate Credit 04/2012, effective Fall 2012; Graduate Credit 07/2011; Links 03/2011

SOCL 489 - Internship in Sociology

Students are assigned a minimum of eight hours per week to a governmental or private organization dealing with a sociological problem, issue, service or concern. The placement, in agreement with the field instructor, provides supervised learning experiences appropriate to the objectives of the undergraduate program. A weekly seminar relates field experience to theory.

Credit Hours: 3 hrs
Prerequisite: SOCL 105 and department permission
Class Restrictions: Senior Standing
Major Restrictions: Sociology Majors
Last Updated: Links 03/2011

SOCL 497 - Independent Study

Directed reading and research on problems within the field of sociology.

Credit Hours: 1 hr
Prerequisite: Department permission
Last Updated: Links 03/2011
SOCL 498 - Independent Study

Directed reading and research on problems within the field of sociology.

**Credit Hours:** 2 hrs  
**Prerequisite:** Department permission

*Last Updated:* Links 03/2011

SOCL 499 - Independent Study

Directed reading and research on problems within the field of sociology.

**Credit Hours:** 3 hrs  
**Prerequisite:** Department permission

*Last Updated:* Links 03/2011
Women's and Gender Studies Programs and Courses

Women’s and Gender Studies

Major

Women's and Gender Studies Major

Revised Program, Effective Winter 2013

*Catalog Correction:* Students who entered Eastern Michigan University in the Fall of 2012, are eligible to follow this program as it appeared in the 2011-2012 Undergraduate Catalog. Students may also follow the program as it appeared in the 2012-2013 Catalog and those succeeding it.

The Women's and Gender Studies Program offers an interdisciplinary academic major and minor to provide intellectual perspective and life-enriching skills for women and men. Professors have designed technology, politics and health courses that document the contributions of women to history, literature, science, education, family and work in a cultural context. Insights into the psychology of women, the impact of women on social structures and how women influence contemporary society will be valuable to students in their personal and professional lives.

Individual courses in the Women's and Gender Studies Program can be taken as electives to enrich any major.

Women's and Gender Studies Department Information:

General Education Requirements:

For specific requirements refer to the General Education Program. Download the Gen Ed Checklist here.

Major Requirements: 30 hours

Core Courses: 12 hours

- WGST 200 - Introduction to Women’s Studies (Gen Ed Area III) 3 hrs
- WGST 202 - Introduction to Gender and Sexuality (Gen Ed Area III) 3 hrs
- PHIL 226 - Feminist Theory (Gen Ed Area III, IV) 3 hrs
  or
- WGST 226 - Feminist Theory (Gen Ed Area III, IV) 3 hrs

- WGST 300 - Feminist Inquiry 3 hrs
- WGST 400 - Capstone Seminar 3 hrs
  (substitute course as approved by adviser)

**Restricted Elective Courses: 12 hours**

*Choose 3 hours from the courses listed under of the four groups. Special Topics/Independent Study substitutions approved by advisor.*

I. Arts and Humanities

- ARTH 473 - Women in Art 3 hrs
- CASI 240 - Reel Women/Real Women 3 hrs
- CHL 353 - Genders and Sexualities in Literature for Young Readers 3 hrs
- CLAS 321 - Women and Gender in the Ancient World 3 hrs
- HIST 321 - Women and Gender in the Ancient World 3 hrs
- HIST 325 - History of Sexuality 3 hrs
- HIST 335 - History of Women in Europe 3 hrs
- HIST 336 - History of Women in the United States and Great Britain, 1800 to the Present 3 hrs
- PHIL 326 - Philosophy & Sexuality 3 hrs
- PHIL 426W - Topics in Gender and Philosophy (Gen Ed Area I, W) 3 hrs
- LITR 443 - Women in Literature 3 hrs
- LITR 445 - Sexualities in Literature and Culture 3 hrs
- WGST 321 - Women and Gender in the Ancient World 3 hrs
- WGST 325 - History of Sexuality 3 hrs
- WGST 326 - Philosophy & Sexuality 3 hrs
- WGST 335 - History of Women in Europe 3 hrs
- WGST 336 - History of Women in the United States and Great Britain, 1800 to the Present 3 hrs
- WGST 340 - Transgenre; Genre, Gender and Sex (A Queer Poetics) 3 hrs
- WGST 353 - Genders and Sexualities in Literature for Young Readers 3 hrs
- WGST 426W - Topics in Gender and Philosophy (Gen Ed Area I, W) 3 hrs
- WGST 436 - Women in Art 3 hrs
- WGST 443 - Women in Literature 3 hrs
- WGST 445 - Sexualities in Literature and Culture 3 hrs

II. Social and Physical Sciences

- AAS 243 - Black Women: Politics and Racism 3 hrs
- AAS 362 - Black Women: Religion and Sexism 3 hrs
- ANTH 355 - Anthropology of Women 3 hrs
- BIO 269 - Biology of Sex and Gender 3 hrs
- CRM 338 - Women, Crime and Justice 3 hrs
• ECON 328 - Economics of Women 3 hrs
• PLSC 243 - Black Women: Politics and Racism 3 hrs
• PLSC 362 - Black Women: Religion and Sexism 3 hrs
• PLSC 365 - Women and Politics 3 hrs
• PSY 242 - Psychology of Women 3 hrs
• SOCL 338 - Women, Crime and Justice 3 hrs
• SOCL 344 - Sociology of Gender 3 hrs
• SOCL 450 - The Family 3 hrs
• WGST 242 - Psychology of Women 3 hrs
• WGST 243 - Black Women: Politics and Racism 3 hrs
• WGST 269 - Biology of Sex and Gender 3 hrs
• WGST 328 - Economics of Women 3 hrs
• WGST 338 - Women, Crime and Justice 3 hrs
• WGST 344 - Sociology of Gender 3 hrs
• WGST 355 - Anthropology of Women 3 hrs
• WGST 362 - Black Women: Religion and Sexism 3 hrs
• WGST 365 - Women and Politics 3 hrs

III. Multicultural and Cross-Cultural Studies

• AAS 243 - Black Women: Politics and Racism 3 hrs
• AAS 361 - The African American Family 3 hrs
• AAS 362 - Black Women: Religion and Sexism 3 hrs
• ANTH 355 - Anthropology of Women 3 hrs
• PLSC 243 - Black Women: Politics and Racism 3 hrs
• PLSC 362 - Black Women: Religion and Sexism 3 hrs
• PSY 340 - Psychological Perspectives on Prejudice and Discrimination 3 hrs
• WGST 210 - Gender in a Transnational World 3 hrs
• WGST 243 - Black Women: Politics and Racism 3 hrs
• WGST 355 - Anthropology of Women 3 hrs
• WGST 362 - Black Women: Religion and Sexism 3 hrs
• WGST 370 - Women's and Gender Studies Abroad (NEW COURSE) 3 hrs
• WGST 450 - Topics in Women's and Gender Studies (NEW COURSE) 3 hrs
• WGST 456 - Global Women: A Cross-Cultural Approach 3 hrs

IV. Communities

• BMMT 205 - Women in Business 3 hours
• CTAC 260 - Gender Communication (Gen Ed Area III) 3 hrs
• CTAC 265 - Communicating and LGBT Community 3 hrs
• LEGL 418 - Women and Law 3
• STS 420 - Women and Technology 3 hrs
• SWRK 413 - Women and Aging 3 hrs
• SWRK 462 - Practice with Lesbian, Gay, Bisexual and Transgender Persons 3 hrs
• WGST 205 - Women in Business 3 hrs
• WGST 230L - Conversations with Girls (Gen Ed Area V LBC) 4 hrs
• WGST 260 - Gender Communication (Gen Ed Area III) 3 hrs
- WGST 265 - Communicating and LGBT Community 3 hrs
- WGST 305 - Queer Studies 3 hrs
- WGST 387 - Cooperative Education in Women’s Studies 3 hrs
- WGST 413 - Women and Aging 3 hrs
- WGST 418 - Women and the Law 3 hrs
- WGST 420 - Women and Technology 3 hrs
- WGST 462 - Practice with Lesbian, Gay, Bisexual and Transgender Persons 3 hrs
- WGST 487 - Cooperative Education in Women’s Studies 3 hrs

Elective Courses: 6 hours

Students may choose any WGST course for their elective requirements.

300/400 Level Course Requirement

WGST majors must complete at least 15 credit hours of course work at the 300 level or above.

Program Total:

Students must earn a minimum total of 124 credits at the 100-level or above.

Minor Requirements:

This program requires a minor. Please contact your program adviser for a list of possible minors.

Note:

Each student must choose a writing intensive course as part of major completion requirements. Consult your adviser for course options.

Special topics courses (WGST 279/378/379/478/479) and independent study (WGST 497/498/499) offerings may be substituted for either restricted or other electives with department permission.

Critical Graduation Information:

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the 100-level and above. Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Earn a minimum of 60 credits from a four-year college or university; courses taken at community colleges cannot be used to meet this requirement. (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 unique credit hours in their major and 20 unique credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
- Not more than 60 credit hours in one subject area (prefix) may be applied towards the minimum of 124 credit hours required for a bachelor's degree.
- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more that one major or minor.
  - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
  - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
  - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor
- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is coordinated by the Office of Admissions, and additional documentation may be required.
- Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be earned in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

General Education Requirements:

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available on the General Education section of the catalog: General Education

- For Students who began their undergraduate program at EMU in Fall 2007 or later or who have elected to follow the current ("new") General Education Program, follow the "For Students" link under the Current Program heading.
- For Students who began their undergraduate program at EMU before Fall 2007 and who have elected to follow the Pre-2007 General Education Requirements, follow the "General Education Program Prior to Fall 2007 (pdf file)" link under the Program Prior to Fall 2007 heading. Please note that students who wish to graduate under pre-2007 General Education requirements must graduate by August 2014; those who have not completed all degree requirements by that time will need to satisfy the current (Fall 2007) General Education requirements.

Students who transferred to EMU may have modified general education requirements based on MACRAO or articulation agreements; consult your academic adviser for additional information.

University Information: Consult the online catalog at catalog.emich.edu.

Minor

Queer Studies Minor

New Minor, Effective Winter 2013

The minor in Queer Studies will foster critical and creative thinking about sexual and gender norms, identities, bodies, and experiences in global, national, and local contexts. Through examining and contextualizing debates in the field, students will
develop skills that inform approaches to lesbian, gay, bisexual, transgender, and queer history and politics, enabling participation in communities and scholarship.

Women's and Gender Studies Department Information:

Interim Department Head: Suzanne Gray
Department Contact: sgray17@emich.edu
Website: http://www.emich.edu/wgstudies/

Required Courses: 6 hours

- WGST 202 - Introduction to Gender and Sexuality (Gen Ed Area III) 3 hrs
- WGST 305 - Queer Studies 3 hrs

Restricted Electives: 15 hours

Students must take two course from two of the lists below, and one course from the remaining list for a total of 15 credit hours.

*Please note that only one course with the same non-WGST prefix will count towards the minor. (ex. You can not count two HIST courses to the Minor)*

Movements, Identities and Communities

- CTAC 265 - Communicating and LGBT Community 3 hrs
- HIST 325 - History of Sexuality 3 hrs
- HIST 415 - Sexual Communities in American History 3 hrs
- SOCL 344 - Sociology of Gender 3 hrs
- WGST 265 - Communicating and LGBT Community 3 hrs
- WGST 325 - History of Sexuality 3 hrs
- WGST 344 - Sociology of Gender 3 hrs

Theory and Culture

- CHL 353 - Genders and Sexualities in Literature for Young Readers 3 hrs
- PHIL 326 - Philosophy & Sexuality 3 hrs
- LITR 445 - Sexualities in Literature and Culture 3 hrs
- WGST 326 - Philosophy & Sexuality 3 hrs
- WGST 340 - Transgenre; Genre, Gender and Sex (A Queer Poetics) 3 hrs
- WGST 353 - Genders and Sexualities in Literature for Young Readers 3 hrs
- WGST 445 - Sexualities in Literature and Culture 3 hrs

Application and Practice

- BIO 269 - Biology of Sex and Gender 3 hrs
- HLED 130 - Healthy Sexuality 3 hrs
- PSY 240 - Psychology of Sex Part I 3 hrs
- SWRK 462 - Practice with Lesbian, Gay, Bisexual and Transgender Persons 3 hrs
- WGST 269 - Biology of Sex and Gender 3 hrs
- WGST 462 - Practice with Lesbian, Gay, Bisexual and Transgender Persons 3 hrs

Program Total: 21 hours

• For Students who began their undergraduate program at EMU in Fall 2007 or later or who have elected to follow the current ("new") General Education Program, follow the "For Students" link under the Current Program heading.

• For Students who began their undergraduate program at EMU before Fall 2007 and who have elected to follow the Pre-2007 General Education Requirements, follow the "General Education Program Prior to Fall 2007 (pdf file)" link under the Program Prior to Fall 2007 heading. Please note that students who wish to graduate under pre-2007 General Education requirements must graduate by August 2014; those who have not completed all degree requirements by that time will need to satisfy the current (Fall 2007) General Education requirements.

Students who transferred to EMU may have modified general education requirements based on MACRAO or articulation agreements; consult your academic adviser for additional information.

University Information: Consult the online catalog at catalog.emich.edu.

Women's and Gender Studies Minor

Revised Minor, Effective Winter 2013

For all of the following listed courses, note the relevant department’s or program’s course prerequisites. For availability of any of the following courses, check the class schedule of the term for which you register. Also, consult the Women’s and Gender Studies Program Director or the undergraduate adviser for other approved women’s and gender studies courses offered in the term for which you register.

Women's and Gender Studies Department Information:

Interim Department Head: Suzanne Gray
Department Contact: sgray17@emich.edu
Website: http://www.emich.edu/wgstudies/

Adviser Information:

Program Adviser: Dr. Deanna Mihaly
Email: dmihaly@emich.edu
Phone: 734.487.1177

Required Courses: 3 hours

• WGST 200 - Introduction to Women’s Studies (Gen Ed Area III) 3 hrs

Restricted Elective Courses: 12 hours

Select six hours from each of the following groups:

I. Arts and Humanities

• ARTH 473 - Women in Art 3 hrs
• CLAS 321 - Women and Gender in the Ancient World 3 hrs
• HIST 321 - Women and Gender in the Ancient World 3 hrs
II. Social and Physical Sciences

- AAS 243 - Black Women: Politics and Racism 3 hrs
- AAS 362 - Black Women: Religion and Sexism 3 hrs
- ANTH 355 - Anthropology of Women 3 hrs
- CRM 338 - Women, Crime and Justice 3 hrs
- CTAC 260 - Gender Communication (Gen Ed Area III) 3 hrs
- ECON 328 - Economics of Women 3 hrs
- PLSC 243 - Black Women: Politics and Racism 3 hrs
- PLSC 362 - Black Women: Religion and Sexism 3 hrs
- PLSC 365 - Women and Politics 3 hrs
- PSY 242 - Psychology of Women 3 hrs
- SOCL 338 - Women, Crime and Justice 3 hrs
- SOCL 344 - Sociology of Gender 3 hrs
- WGST 210 - Gender in a Transnational World 3 hrs
- WGST 242 - Psychology of Women 3 hrs
- WGST 243 - Black Women: Politics and Racism 3 hrs
- WGST 260 - Gender Communication (Gen Ed Area III) 3 hrs
- WGST 328 - Economics of Women 3 hrs
- WGST 338 - Women, Crime and Justice 3 hrs
- WGST 344 - Sociology of Gender 3 hrs
- WGST 355 - Anthropology of Women 3 hrs
- WGST 362 - Black Women: Religion and Sexism 3 hrs
- WGST 365 - Women and Politics 3 hrs
- WGST 456 - Global Women: A Cross-Cultural Approach 3 hrs

Elective Courses: 6 hours

*Six hours from the following elective courses, Unused Group courses, Special Topics courses (WGST 279/378/379/478/479) and Independent Study (WGST 497/498/499) may be approved for Elective by Program Adviser.*

- BMMT 205 - Women in Business 3 hours
- LEGL 418 - Women and Law 3
- PHED 405 - Women in Sports 3 hrs
- PSY 340 - Psychological Perspectives on Prejudice and Discrimination 3 hrs
- STS 420 - Women and Technology 3 hrs
- SWRK 413 - Women and Aging 3 hrs
- WGST 202 - Introduction to Gender and Sexuality (Gen Ed Area III) 3 hrs
- WGST 205 - Women in Business 3 hrs
- WGST 300 - Feminist Inquiry 3 hrs
- WGST 370 - Women's and Gender Studies Abroad (NEW COURSE) 3 hrs
- WGST 405 - Women in Sports 3 hrs
- WGST 413 - Women and Aging 3 hrs
- WGST 418 - Women and the Law 3 hrs
- WGST 420 - Women and Technology 3 hrs
- WGST 450 - Topics in Women's and Gender Studies (NEW COURSE) 3 hrs
- WGST 487 - Cooperative Education in Women’s Studies 3 hrs
- WGST 230L - Conversations with Girls (Gen Ed Area V LBC) 4 hrs
- WGST 387 - Cooperative Education in Women’s Studies 3 hrs

Minor Total: 21 hours

Note:

All minors must have at least six hours of course work at the 300-level or above.

Critical Graduation Information:

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the 100-level and above. Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Earn a minimum of 60 credits from a four-year college or university; courses taken at community colleges cannot be used to meet this requirement. (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 unique credit hours in their major and 20 unique credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
- Not more than 60 credit hours in one subject area (prefix) may be applied towards the minimum of 124 credit hours required for a bachelor's degree.
- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more that one major or minor.
Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor.
Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor.

- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is coordinated by the Office of Admissions, and additional documentation may be required.
- Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be earned in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

General Education Requirements:

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available on the General Education section of the catalog: General Education

- For Students who began their undergraduate program at EMU in Fall 2007 or later or who have elected to follow the current ("new") General Education Program, follow the "For Students" link under the Current Program heading.
- For Students who began their undergraduate program at EMU before Fall 2007 and who have elected to follow the Pre-2007 General Education Requirements, follow the "General Education Program Prior to Fall 2007 (pdf file)" link under the Program Prior to Fall 2007 heading. Please note that students who wish to graduate under pre-2007 General Education requirements must graduate by August 2014; those who have not completed all degree requirements by that time will need to satisfy the current (Fall 2007) General Education requirements.

Students who transferred to EMU may have modified general education requirements based on MACRAO or articulation agreements; consult your academic adviser for additional information.

University Information: Consult the online catalog at catalog.emich.edu.

Children's Literature

WGST 445 - Sexualities in Literature and Culture

A seminar devoted to theorizing and articulating the relationships between literature and culture, focusing on the diverse and shifting forms of sexuality manifested in the cultural imagination across several literary periods.

Credit Hours: 3 hrs
Prerequisite: Six hours of 300-level course work in one of the following prefixes-ENGL, LITR, HIST, PHIL - or Department Permission
Cross-Listed with: LITR 445
Last Updated: New Course, 11/2012, effective Winter 2013

Women and Gender Studies

WGST 177 - Special Topics

Different subject matter will be taught each semester offered, including interdisciplinary courses in women and gender studies. Students may take these courses more than once provided the subject matter is different.
WGST 178 - Special Topics

Different subject matter will be taught each semester offered, including interdisciplinary courses in women and gender studies. Students may take these courses more than once provided the subject matter is different.

Credit Hours: 1 hr
Prerequisite: department permission

WGST 179 - Special Topics

Different subject matter will be taught each semester offered, including interdisciplinary courses in women and gender studies. Students may take these courses more than once provided the subject matter is different.

Credit Hours: 2 hrs
Prerequisite: department permission

WGST 200 - Introduction to Women’s Studies (Gen Ed Area III)

This course provides an overview of the main issues confronting women in the United States today. Topics covered may include patriarchy and oppression, media images, violence, work, sexuality, feminism and commonalities and differences of women from different racial/ethnic and class backgrounds.

Credit Hours: 3 hrs

Area III: Perspectives on a Diverse World

WGST 200 Introduction to Women's Studies [was WMST200]
Introduction to Women’s Studies introduces students to diversity in the United States by examining the lives of women from diverse racial/ethnic and class backgrounds. The course explores constructions of difference- whether based on race, ethnicity, gender, sexuality or class- and helps students understand how these constructions have been and continue to be fundamental to life in the U.S.

WGST 202 - Introduction to Gender and Sexuality (Gen Ed Area III)

This course will introduce students to the way in which society constructs gender and sexual identity, and the way in which, in turn, gender and sexuality shape our understanding of the world and ourselves. Topics will include femininity and masculinity, as well as lesbian, gay, bisexual, transgender history and experience.

Credit Hours: 3 hrs

Area III: Perspectives on a Diverse World

WGST 202 Introduction to Gender and Sexuality
Introduction to Gender and Sexuality meets the requirements of the General Education Program in the U.S. Diversity area by demonstrating the ways in which gender and sexual conditioning influence the experiences of men and women and shape their sense of identity as it intersects with different classes, racial or ethnic groups and sexualities. The course helps students to
understand and explore the ways in which these complex constructions and attitudes towards gender and sexuality lead to prejudice in the spheres of family, education, employment, health, politics and the media.

**WGST 205 - Women in Business**

Social and business conditions that support the entry of women to executive positions in business; career opportunities at the professional and executive levels of business.

*Credit Hours: 3 hrs*
*Cross-Listed with: BMMT 205*
*Last Updated: Links 03/2011*

**WGST 208 - Minority Women in the United States**

This course surveys the situation of and the conditions that affect the lives of four groups of minority women in the United States who are from diverse cross-cultural backgrounds: Black, Asian-American, Latin-American and Native American. It focuses on the contemporary situation of these women and compares the four groups in terms of demographics, economic and occupational situations, education, family lives and relationship to the feminist movement.

*Credit Hours: 3 hrs*
*Cross-Listed with: ANTH 208, SOCL 208*
*Last Updated: Links 03/2011*

**WGST 210 - Gender in a Transnational World**

This course introduces students to a comparative framing of gender issues through a cross-national and intersectional approach. Course topics- the social construction of gender relations, the gendered family, gendered media and popular cultures, religion and gender, the gendered body, and the violence of gender - will be taught cross-culturally and cross-nationally. An intersectional approach - the interconnections of gender with class, race, ethnicity, sexual orientation, and location - will be explored throughout course topics. Students will critically analyze gender issues by situating them in a transnational world. Globalization will be presented as both a gendered and a multidimensional- cultural, economic, and political - process.

*Credit Hours: 3 hrs*
*Last Updated: New Course, 11/2012, effective Winter 2013*

**WGST 226 - Feminist Theory (Gen Ed Area III, IV)**

A consideration of philosophical issues concerning the nature and status of women. Readings from both traditional and contemporary sources. Topics may include scientific and religious views, the ideal society and women’s place in it, varieties of feminism, views on sexuality, family and reproduction, and work and the economy.

*Credit Hours: 3 hrs*
*Cross-Listed with: PHIL 226*

**Area III: Perspectives on a Diverse World**

WGST 226 Feminist Theory [was PHIL/WMST226]

Gender is one of the principal characteristics determining identity and life experience for human beings. This course takes a philosophical approach to gender, examining beliefs about women and men from a wide variety of cultural and political perspectives. We consider both traditional justifications of the differential treatment of women and men in such institutions as marriage and family, as well as theories that challenge these traditional views. *PHIL226 Feminist Theory* fulfills the Global
Awareness requirement of the General Education Program because it considers a wide range of practices and beliefs about gender from across the globe, with an emphasis on the intellectual and ethical complexities of understanding and judging gendered practices in cultures other than our own. Gender is one of the principal characteristics determining identity and life experience for human beings. This course takes a philosophical approach to gender, examining beliefs about women and men from a wide variety of cultural and political perspectives. We consider both traditional justifications of the differential treatment of women and men in such institutions as marriage and family, as well as theories that challenge these traditional views. This course is a general education course in the knowledge of the disciplines because it provides an introduction to the discipline of philosophy through the concept of gender, its methodology and its contribution to the body of human knowledge. Students will acquire skills or critical reasoning and develop skills for evaluating and creating substantive arguments to support philosophical positions. Developing such skills is central to the process of higher-education. Moreover, such skills will serve students throughout their educations across all disciplines, in their careers or in pursuing graduate or professional degrees and in exercising their civic duties.

Area IV: Knowledge of the Disciplines

WGST 226 Feminist Theory [was PHIL/WMST 226]
Gender is one of the principal characteristics determining identity and life experience for human beings. This course takes a philosophical approach to gender, examining beliefs about women and men from a wide variety of cultural and political perspectives. We consider both traditional justifications of the differential treatment of women and men in such institutions as marriage and family, as well as theories that challenge these traditional views. This course is a general education course in the knowledge of the disciplines because it provides an introduction to the discipline of philosophy through the concept of gender, its methodology and its contribution to the body of human knowledge. Students will acquire skills of critical reasoning and develop skills for evaluating and creating substantive arguments to support philosophical positions. Developing such skills is central to the process of higher-education. Moreover, such skills will serve students throughout their educations across all disciplines, in their careers or in pursuing graduate or professional degrees and in exercising their civic duties.

WGST 230L - Conversations with Girls (Gen Ed Area V LBC)

This course provides practice-based theory and methodology about educational mentoring relationships. Students are required to apply theory and methodology learned in the classroom to work with a community agency that is directly relevant to the focus of the course.

Credit Hours: 4 hrs

Last Updated: Links 03/2011

WGST 242 - Psychology of Women

Theories and empirical research concerning personality development in females. Examination of the origins of the behavior of women.

Credit Hours: 3 hrs
Prerequisite: PSY 101 or PSY 103
Cross-Listed with: PSY 242
Last Updated: Links 03/2011

WGST 243 - Black Women: Politics and Racism

This course examines American politics as it relates to African American women. The course analyzes ways in which political issues affect black women differently than African American men, white men and white women. Considerable attention is given
to the definition of the political realm as opposed to the nonpolitical realm when discussing groups traditionally marginalized or excluded from political life.

**Credit Hours:** 3 hrs  
**Cross-Listed with:** AAS 243, PLSC 243  
**Last Updated:** Links 03/2011

**WGST 260 - Gender Communication (Gen Ed Area III)**

Exploration of the multifaceted ways communication, culture, and gender are interconnected and the influences of each. Critical analysis of gender communications "differences" as they are influenced by culture and our everyday communication.

**Credit Hours:** 3 hrs  
**Cross-Listed with:** CTAC 260

**Area III: Perspectives on a Diverse World**

**CTAC 260 Gender Communication [was CTAC/WGST 360]**  
Gender Communication is communication about and between men and women. It is communication about men and women because gender communication is reflected in everything around us. From the time we are born important people in our life communicate our society's gender expectations to us. While individuals vary in the extent to which they accept or reject those messages, we all "do gender" by expressing our views about what we believe is normal or natural for a member of our sex. Since gender is a social construction that changes over time, it is important that we systematically study it to determine how it affects us, the people with whom we interact, and the world in which we live. Gender communication is also communication between men and women. In the United States interactions between women and men occur every hour of every day. The sheer number of contacts we have with the opposite sex heightens the need to study the effects of gender on the communication process.

CTAC 260 meets the U.S. diversity requirement of general education because it allows students to examine their gender identity and relate it to the gender identity of others. This ultimately leads to an understanding of the many different ways people view gender and communication in the United States. Attention is also focused on the communication-related causes and consequences of social intolerance toward individuals who deviate from normative sex and gender roles, and how that intolerance relates to racism, ethnocentrism, and exclusion in the United States. Last but not least, students explore the association between gender and income distribution, economic opportunities, political participation and the U.S. democratic process, and how those variables impact communication between and within the sexes.

**Last Updated:** Links 03/2011

**WGST 265 - Communicating and LGBT Community**

Communication and LGBT Community examines communication about and within diverse Lesbian, Gay, Bisexual, and Transgender identity communities. Patterns in social movement, issue advocacy, group identity expression, and media representation are reviewed and evaluated. The course explores questions of intolerance, stereotyping, and intersectionality, applying perspectives drawn from communication and queer theories.

**Credit Hours:** 3 hrs  
**Cross-Listed with:** CTAC 265  
**Last Updated:** New Course 09/2012, effective Winter 2012

**WGST 269 - Biology of Sex and Gender**
Lectures will address the biology of sex and gender from early stages of development throughout life. Anatomy and physiology of gender and behaviors in humans and other animals will be discussed. Topics include: sexual differentiation, puberty, reproductive patterns and the effects of aging on the sexual response.

**Credit Hours:** 3 hrs  
**Prerequisite:** BIO 105, BIO 110 or BIO 251  
**Cross-Listed with:** BIO 269  
**Last Updated:** 03/2011  

**WGST 277 - Special Topics**

Different subject matter will be taught each semester offered, including interdisciplinary courses in women and gender studies. Students may take these courses more than once provided the subject matter is different.

**Credit Hours:** 1 hr  
**Prerequisite:** department permission

**WGST 278 - Special Topics**

Different subject matter will be taught each semester offered, including interdisciplinary courses in women and gender studies. Students may take these courses more than once provided the subject matter is different.

**Credit Hours:** 2 hrs  
**Prerequisite:** department permission

**WGST 279 - Special Topics**

Different subject matter will be taught each semester offered, including interdisciplinary courses in women and gender studies. Students may take these courses more than once provided the subject matter is different.

**Credit Hours:** 3 hrs  
**Prerequisite:** department permission

**WGST 300 - Feminist Inquiry**

This course examines the concept of knowledge, traditional methods for the construction of knowledge, and feminist critiques of these traditional methods. Both multidisciplinary and interdisciplinary methodologies employed in women's and gender studies and explored and applied.

**Credit Hours:** 3 hrs  
**Prerequisite:** WGST 200 or WGST 202  
**Last Updated:** New Course, 11/2012, effective Winter 2013

**WGST 305 - Queer Studies**

Queer Studies explores scholarship, activism, and culture production by and about lesbian, gay, bisexual, transgendered, and queer people and communities. This course examines scholarly research in the social sciences and humanities along with fiction, poetry, and film in order to address how people build knowledge about queer lives.

**Credit Hours:** 3 hrs
Prerequisite: WGST 202
Last Updated: New Course, 11/2012, effective Winter 2013

**WGST 321 - Women and Gender in the Ancient World**

An investigation of life for women in antiquity, focusing on the sex-gender system of Greek and Roman societies. Literary, inscrptional and other evidence will be studied to disclose the classical roots of western beliefs and attitudes about women.

Credit Hours: 3 hrs
Prerequisite: one 100-level course in history
Cross-Listed with: CLAS 321, HIST 321
Last Updated: Links 03/2011

**WGST 325 - History of Sexuality**

A topical approach to the role that sex and sexuality has played in American history; topics include the family, gender, interracial relations, the birth control movement, origins of the gay community, politics of abortion, and sexually transmitted infections.

Credit Hours: 3 hrs
Cross-Listed with: HIST 325
Last Updated: Links 03/2011

**WGST 326 - Philosophy & Sexuality**

This course applies philosophical methods to ethical, political, and conceptual questions related to sexual preference and identity, including: What is the ethical status of homosexuality? Should same sex marriage be legal? What groups does/should “LGBT”(etc) seek to identify? Who is “queer”? What is the relation between feminism and the liberation of sexual minorities?

Credit Hours: 3 hrs
Prerequisite: One PHIL course excluding PHIL 120 and PHIL 130.

Cross-Listed with: PHIL 326
Course Revisions:
Course approved for General Education-Writing Intensive, Effective Winter 2013
Last Updated: New Course, 11/2012, effective Winter 2013

**WGST 328 - Economics of Women**

The changing economic role of women in the labor force. Analysis of policies affecting earnings, employment, and work and family issues in traditional and nontraditional occupations. Includes some international comparisons.

Credit Hours: 3 hrs
Prerequisite: one 100-, 200- or 300-level course in economics
Cross-Listed with: ECON 328
Last Updated: 03/2011

**WGST 335 - History of Women in Europe**

A study of the history of women and views of women in western society from the 18th century to the present. Emphasizes the struggles, setbacks and achievements of the women’s movements in the context of modern European history.
WGST 336 - History of Women in the United States and Great Britain, 1800 to the Present

A comparative study of the history of women in the United States and Great Britain. Examines the ideology of the nature and role of women, the history of women’s lives, the impact of industrialization and the feminist movements of the 19th and 20th centuries.

WGST 338 - Women, Crime and Justice

This course will offer a critical analysis of gender and criminal justice as it relates to women as victims, offenders and agents of the criminal justice system. Additionally, the social conditions of criminality, intervention strategies, as well as, social action and criminal justice policy reform will be examined.

WGST 340 - Transgenre; Genre, Gender and Sex (A Queer Poetics)

This course provides an introduction to the relation between literary genre theory and social systems of gender, sex and race through a rigorous investigation of "transgenre" literary texts (forms that transgress genre conversations) across periods and cultures. In addition, the course offers a creative writing workshop with an emphasis on the transgenre themes and forms.

WGST 344 - Sociology of Gender

Analysis of past, present and future sex roles; the changing roles of women and men, and the conflicts and consequences of these changes on marriage and family systems in the United States.

WGST 353 - Genders and Sexualities in Literature for Young Readers

Students in this course will read, discuss, research and write about works of literature written for children and young adults and focused on issues of sexuality and gender.
WGST 355 - Anthropology of Women

The role of women in diverse cultural contexts. Theories dealing with the position of women. Life histories of women constitute the basic reading in this course.

Credit Hours: 3 hrs
Prerequisite: ANTH 135 or department permission
Cross-Listed with: CHL 353

WGST 362 - Black Women: Religion and Sexism

An introduction to the social and political role of Black women in African American religious institutions. Particular attention will be placed on how African American religion has limited the power of women. Additionally, the course will examine the historical evolution of the various major black denominations in America and their political and social roles in African American communities.

Credit Hours: 3 hrs
Cross-Listed with: AAS 362, PLSC 362

WGST 365 - Women and Politics

A study of the role of women in American politics as voters, activists and candidates, with consideration of how the political behavior of women relates to their economic, social and religious roles. Comparisons are made with select European and Asian political systems.

Credit Hours: 3 hrs
Cross-Listed with: PLSC 365

WGST 370 - Women's and Gender Studies Abroad (NEW COURSE)

This course involves short-term travel and study outside the United States. Topics in women's and gender studies will be explored in the context of transnational feminism, with examination of issues related closely to the place of study.

Credit Hours: 3 hrs
Prerequisite: program director approval
Course Revisions: This is a new course, effective Winter 2013.
be counted toward the minor in women and gender studies.

**WGST 378 - Special Topics**

Different subject matter will be taught each semester offered, including interdisciplinary courses in women and gender studies. Students may take these courses more than once provided the subject matter is different, but no more than two such courses may be counted toward the minor in women and gender studies.

**Credit Hours:** 1 hr  
**Prerequisite:** department permission

**WGST 379 - Special Topics**

Different subject matter will be taught each semester offered, including interdisciplinary courses in women and gender studies. Students may take these courses more than once provided the subject matter is different, but no more than two such courses may be counted toward the minor in women and gender studies.

**Credit Hours:** 2 hrs  
**Prerequisite:** department permission

**WGST 387 - Cooperative Education in Women’s Studies**

This course provides students with an opportunity to deal directly with issues affecting women by working with agencies and local organizations.

**Credit Hours:** 3 hrs  
**Prerequisite:** department permission

**WGST 400 - Capstone Seminar**

A culminating experience designed to enable students to understand, demonstrate and improve skills acquired as majors or minors in the program, and to facilitate the integration of interdisciplinary knowledge.

**Credit Hours:** 3 hrs  
**Prerequisite:** WGST 200 and WGST 226  
**Course Revisions:**  
Course approved for General Education-Writing Intensive, effective Winter 2013  
**Last Updated:** 03/2011

**WGST 405 - Women in Sports**

Patterns, problems and conditions associated with women’s sports involvement in selected world cultures; the sportswoman in American society.

**Credit Hours:** 3 hrs  
**Cross-Listed with:** PHED 405  
**Last Updated:** 03/2011
WGST 413 - Women and Aging

Designed to provide social work, women’s studies, and gerontology students with the skills and sensitivity to understand the issues, needs, and positive attributes of women as they grow older. Students will examine the lives of women in special groups, such as older minority women, caregivers, widows and institutionalized elderly women. Students will learn skills to provide effective services to older women in a variety of human service settings.

Credit Hours: 3 hrs
Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.
Cross-Listed with: SWRK 413
Last Updated: Graduate Credit 07/2011; 03/2011

WGST 415 - Sexual Communities in American History

This class addresses the history of sexuality and the development of communities based on sexual identity in the United States. Topics include the origins of scientific theories of sexuality, the development of social movements around sexual issues and social responses to sexual minorities.

Credit Hours: 3 hrs
Cross-Listed with: HIST 415
Last Updated: 03/2011

WGST 418 - Women and the Law

A critical analysis how gender, as an element of the American legal system, impacts the lives of women. Major U.S. cases and state and federal laws will be evaluated and challenged as appropriate.

Credit Hours: 3 hrs
Prerequisite: One of the following: LAW 293, LEGL 211, PLSC 301 or WGST 200
Cross-Listed with: LEGL 418
Last Updated: 03/2011

WGST 420 - Women and Technology

An interdisciplinary course designed to familiarize students with various concepts of technology, technological change and technological society; probe the problems and advantages women face in technological society or technology-based professions; explore women’s roles in several specific technology professions.

Credit Hours: 3 hrs
Cross-Listed with: STS 420
Last Updated: 03/2011

WGST 426W - Topics in Gender and Philosophy (Gen Ed Area I, W)

An examination of gender and its relationship to other issues from a philosophical perspective. Possible topics include rationality, sexuality, aesthetics, ethics and political theory.

Credit Hours: 3 hrs
Prerequisite: two courses in philosophy or instructor permission
Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.
Cross-Listed with: PHIL 426W
WGST 436 - Women in Art

A survey of the contributions of female artists in the history of art. Discussions will include the history of women as patrons of the arts, and the uses of the female image in art.

Credit Hours: 3 hrs
Prerequisite: ARTH 263 or department permission
Cross-Listed with: ARTH 473
Last Updated: Links 06/2011

WGST 443 - Women in Literature

A study of women and their experiences as described in literature.

Credit Hours: 3 hrs
Prerequisite: two courses in literature
Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.
Cross-Listed with: LITR 443
Last Updated: Graduate Credit 07/2011; 03/2011

WGST 450 - Topics in Women's and Gender Studies (NEW COURSE)

An examination of various topics in women's and gender studies. Possible topics include sexuality, transnational feminism, popular culture, social media and activism.

Credit Hours: 3 hrs
Prerequisite: WGST 200 or WGST 202
Course Revisions:
Course Revisions: This is a new course, effective Winter 2013.
Last Updated: New Course 05/2012, effective Winter 2013

WGST 456 - Global Women: A Cross-Cultural Approach

An overview of how globalization processes - economic, cultural and political - impact women and gender inequalities across countries and cultures. The course examines the intersections of gender and work, race, ethnicity, family, religion, and political participation from an international comparative approach, and how the internationalization of women’s rights and organizations has been redefining feminism worldwide.

Credit Hours: 3 hrs
Class Restrictions: Senior, Graduate Certificate or Masters students only
Cross-Listed with: WGST 556, SOCL 456, SOCL 556
Last Updated: 02/2011

WGST 462 - Practice with Lesbian, Gay, Bisexual and Transgender Persons

This course exposes students to a wide array of life experiences of lesbian, gay, bi-attractional and transgender persons by listening to their own words — spoken, written, on film and through personal interviews. It develops a deeper contextual knowledge and understanding of life courses taken by sexual minorities.
WGST 477 - Special Topics

Different subject matter will be taught each semester offered, including interdisciplinary courses in women and gender studies. Students may take these courses more than once provided the subject matter is different.

Credit Hours: 3 hrs
Prerequisite: department permission

WGST 478 - Special Topics

Different subject matter will be taught each semester offered, including interdisciplinary courses in women and gender studies. Students may take these courses more than once provided the subject matter is different.

Credit Hours: 1 hr
Prerequisite: department permission

WGST 479 - Special Topics

Different subject matter will be taught each semester offered, including interdisciplinary courses in women and gender studies. Students may take these courses more than once provided the subject matter is different.

Credit Hours: 2 hrs
Prerequisite: department permission

WGST 487 - Cooperative Education in Women's Studies

This course provides students with an opportunity to deal directly with issues affecting women by working with agencies and local organizations.

Credit Hours: 3 hrs
Prerequisite: department permission
Course Revisions:
Course Revisions: This course will have a title change from WGST 487 "Cooperative Education in Women's Studies" to WGST 487 "Internship in Women's and Gender Studies," effective Winter 2013.
Last Updated: Title Change 05/2012, effective Winter 2013

WGST 497 - Independent Study

Advanced study on an individual basis in areas in which the program does not offer formal courses. These courses are restricted to juniors and seniors.

Credit Hours: 1 hr
Prerequisite: department permission

WGST 498 - Independent Study
Advanced study on an individual basis in areas in which the program does not offer formal courses. These courses are restricted to juniors and seniors.

**Course:**

**WGST 499 - Independent Study**

Advanced study on an individual basis in areas in which the program does not offer formal courses. These courses are restricted to juniors and seniors.

**Credit Hours:** 3 hrs  
**Prerequisite:** department permission
Accounting and Finance Programs and Courses

Accounting and Finance

Major

Accounting Information Systems Major

Accounting information systems is a four-year program designed to provide a bachelor's degree with a concentration in accounting and computer information systems. The program combines the course work required for a degree in accounting with several computer information systems courses.

Eastern Michigan University is one of only a few universities in the country offering this unique degree. Accounting information systems majors who obtain this degree are well prepared for careers in a dynamic and ever-changing environment, where knowledge of both accounting and computer information systems is mandatory. Possible career choices include computer systems design, computer assurance services, computer security analysis, internal auditing, public accounting, nonprofit accounting and strategic managerial accounting.

Upon graduation, accounting information systems majors who plan to become certified public accountants, certified management accountants, certified internal auditors or certified information systems auditors will qualify to sit for national certification examinations. In Michigan, CPA candidates qualify to sit for the exam upon graduation, but they need 150 hours of education for licensure in Michigan. However, many states require CPA candidates to have earned 150 hours of credit, or possibly a master's degree, before sitting for the exam. Be sure you know the requirements for your state.

The general requirements for the bachelor of business administration degree, the academic major requirements below and sufficient electives to meet the minimum of 124 hours for graduation, must be completed.

Accounting and Finance Department Information:

Interim Department Head: Zafar Khan
Department Contact: zkhan@emich.edu
Website: www.accfin.emich.edu

General Education Requirements:

For specific requirements refer to the General Education Program. Download the Gen Ed Checklist here.

College of Business Pre-Admission Requirements: 56 Credit Hours

Students seeking admission to any program in the College of Business must complete 56 credit hours of course work to include the following courses listed below. In addition, students must have completed Eastern Michigan University's General Education Quantitative Reasoning requirement. Lastly, students must have an EMU GPA of at least 2.50.

- ACC 240 - Principles of Financial Accounting 3 hrs
- ACC 241 - Principles of Managerial Accounting 3 hrs
- COB 200L - Introduction to Business (Gen Ed Area V LBC) 3 hrs
- CTAC 124 - Foundations of Speech Communication (Gen Ed Area I) 3 hrs
• DS 265 - Business Statistics I 3 hrs
• ECON 201 - Principles of Macroeconomics (Gen Ed Area IV) 3 hrs
• ECON 202 - Principles of Microeconomics (Gen Ed Area IV) 3 hrs
• ENGL 121 - Composition II: Researching the Public Experience (Gen Ed Area I) 3 hrs
• IS 215 - End-User Computing 3 hrs
• LAW 293 - Legal Environment of Business 3 hrs
• MGMT 202 - Business Communication 3 hrs

Major Requirements: 69 hours

Business Core: 36 hours

• ACC 240 - Principles of Financial Accounting 3 hrs
• ACC 241 - Principles of Managerial Accounting 3 hrs
• COB 200L - Introduction to Business (Gen Ed Area V LBC) 3 hrs
• DS 265 - Business Statistics I 3 hrs
• FIN 350 - Principles of Finance 3 hrs
• IS 215 - End-User Computing 3 hrs
• LAW 293 - Legal Environment of Business 3 hrs
• MGMT 202 - Business Communication 3 hrs
• MGMT 386 - Organizational Behavior and Theory 3 hrs
• * MGMT 490 - Business Policy 3 hrs
• MKTG 360 - Principles of Marketing 3 hrs
• OM 374 - Introduction to Operations Management 3 hrs

Discipline: 33 hours

• ACC 296 - The Accounting Cycle and Profession 3 hrs
• ACC 340 - Intermediate Accounting 3 hrs
• ACC 342 - Managerial Cost Accounting 3 hrs
• ACC 344 - Principles of Taxation 3 hrs
• ACC 356 - Accounting Information Systems 3 hrs
• ACC 496W - Financial Management and Controllship (Gen Ed Area I, W) 3 hrs
• ACC 548 - Information Systems Audit and Control 3 hrs
• IS 247 - Introduction to Web Application Development 3 hrs
• IS 315 - Object-Oriented Application Development 3 hrs
• IS 320 - Business Data Communications and Information Security 3 hrs

One course from the following:

*Choose one course from the following, however permission is need to take IS 380.*

• ACC 510 - Contemporary Accounting Information Systems 3 hrs
• IS 380 - Introduction to Databases 3 hrs

Minor Requirements:
This program does not require a minor.

Program Total:

Students must earn a minimum total of 124 credits at the 100-level or above.

Notes:

*Each student must choose a writing intensive course as part of major completion requirements. Consult your adviser for course options. All 200-level core courses listed above must be completed prior to admission to the College of Business.

*All 300-level core courses listed above must be completed before enrollment in MGMT 490 - Business Policy.

Critical Graduation Information:

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the 100-level and above. Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Earn a minimum of 60 credits from a four-year college or university; courses taken at community colleges cannot be used to meet this requirement. (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 unique credit hours in their major and 20 unique credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
- Not more than 60 credit hours in one subject area (prefix) may be applied towards the minimum of 124 credit hours required for a bachelor's degree.
- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more than one major or minor.
  - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor.
  - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
  - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor.
- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is coordinated by the Office of Admissions, and additional documentation may be required.
• Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be earned in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

General Education Requirements:

EMU’s General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available on the General Education section of the catalog: General Education

• For Students who began their undergraduate program at EMU in Fall 2007 or later or who have elected to follow the current ("new") General Education Program, follow the "For Students" link under the Current Program heading.
• For Students who began their undergraduate program at EMU before Fall 2007 and who have elected to follow the Pre-2007 General Education Requirements, follow the "General Education Program Prior to Fall 2007 (pdf file)" link under the Program Prior to Fall 2007 heading. Please note that students who wish to graduate under pre-2007 General Education requirements must graduate by August 2014; those who have not completed all degree requirements by that time will need to satisfy the current (Fall 2007) General Education requirements.

Students who transferred to EMU may have modified general education requirements based on MACRAO or articulation agreements; consult your academic adviser for additional information.

University Information: Consult the online catalog at catalog.emich.edu.

Accounting Major

Students majoring in accounting develop competencies necessary for professional careers in:

Controllership and Financial Management in Industry, which may lead to careers as Certified Management Accountants (CMA). Managerial accountants perform tasks within a business, such as strategic cost management, performance measurement, budget analysis and internal and operational auditing. The strategic managerial accountant generates and interprets operating and financial data that help management make decisions.

Internal Auditing, which may lead to careers as Certified Internal Auditors (CIA). Internal auditors are engaged within large corporations to provide independent objective assurance and consulting activities designed to add value and improve an organization’s operations.

Public and Nonprofit Sector Accounting, which may lead to careers as Certified Government Financial Managers (CGFM). Government accountants work in federal, state and local governmental entities to provide information and accountability to taxpayers and other resource providers. Accountants in nonprofit organizations provide similar information to donors, grantors and other resource providers.

Through an optional internship program, students with good academic records have an opportunity to work in public accounting or industry. These paid (at market wages) internships provide education, exposure to professionals and opportunities to network.

Upon graduation, accounting majors who plan to become Certified Public Accountants (CPA), Certified Management Accountants (CMA) or Certified Internal Auditors (CIA) will qualify to sit for national certification examinations. In Michigan, CPA candidates qualify to sit for the exam upon graduation, but they need 150 hours of education for licensure. However, many states require CPA candidates to have earned 150 hours of credit, or possibly a master’s degree, before sitting for the exam. Be sure you know the requirements for your state.

The general requirements for the bachelor of business administration degree, the academic major requirements below and sufficient electives to meet the minimum of 124 hours for graduation, must be completed.

Bachelor's-Master's Degree in Accounting Information Systems

This combined degree program prepares students for careers in public accounting, industry and governmental and nonprofit entities. CPA candidates must have completed 150 hours of education before being admitted as members of the American Institute of Certified Public Accountants and to be licensed in most states.

Admission Requirements

Following are the minimal standards for admission to the combined B.B.A and M.S.A. degree program in accounting. Generally, each item should be satisfied, though the candidate’s overall record is considered. Transfer credits and grades will be evaluated in terms of Eastern Michigan University equivalency.

Initial admission is dependent on:

1. completion of 90 hours of undergraduate course work including College of Business requirements, General Education requirements and ACC340 Intermediate Accounting;
2. a cumulative GPA of 3.0 on a 4.0 scale;
3. the candidate’s written statement of personal goals; and
4. an interview with the program adviser.

Admission to the graduate level requires:

1. completion of 120 hours of undergraduate course work including course content noted under initial admission above and the undergraduate components (i.e., required and restricted electives);
2. a GMAT score of 500 (must be taken during the fourth year, so that the candidate’s score is received before admission to the fifth year);
3. a cumulative G.P.A. of 3.0 and a 4.0 scale; and
4. completed application and payment of fee to the Graduate School.

Candidates should apply to the graduate program at the beginning of their senior year and take the Graduate Management Admission Test (GMAT) during that same year.

- IS 247 - Introduction to Web Application Development 3 hrs
- IS 315 - Object-Oriented Application Development 3 hrs
- IS 320 - Business Data Communications and Information Security 3 hrs

One course from the following:
• ACC 344 - Principles of Taxation 3 hrs
• ACC 544 - Federal Income Taxation 3 hrs

Restricted Electives: 3 hours

• ACC 442 - Advanced Cost Accounting 3 hrs
• ACC 450 - Internal Auditing 3 hrs
• ACC 460 - Principles of Fraud Examination 3 hrs
• ACC 475 - International Accounting 3 hrs
• ACC 491 - Accounting Honors Thesis 3 hrs
• ACC 499 - Directed Studies 3 hrs
• ACC 546 - Public and Nonprofit Sector Accounting 3 hrs
• ACC 550 - Professional Internal Auditing 3 hrs
• ACC 560 - Fraud Examination 3 hrs
• ACC 584 - Tax Research Methods, Practice and Problems 3 hrs
• ACC 585 - Business Tax Planning 3 hrs
• ACC 592 - Special Topics 3 hrs

Graduate Program Requirements: 24 hours

Required Accounting Courses: 9 hours

• * ACC 540 - Corporate Financial Reporting 3 hrs
• ACC 567 - Professional Auditing 3 hrs
• ACC 696 - Accounting Theory, Research and Policy 3 hrs

Restricted Elective Accounting Courses: 9 hours

• ACC 510 - Contemporary Accounting Information Systems 3 hrs
• ACC 511 - Accounting for E-Commerce 3 hrs

One course from the following:

• ACC 541 - Advanced Financial Accounting 3 hrs
• ** ACC 546 - Public and Nonprofit Sector Accounting 3 hrs
• ACC 550 - Professional Internal Auditing 3 hrs
• ACC 560 - Fraud Examination 3 hrs
• ACC 572 - Investment and Tax Financial Planning 3 hrs
• ACC 584 - Tax Research Methods, Practice and Problems 3 hrs
• ACC 585 - Business Tax Planning 3 hrs
• ACC 592 - Special Topics 3 hrs
• ACC 642 - Strategic Cost Management 3 hrs
• ACC 675 - International Accounting and Taxation 3 hrs
• ACC 681 - Special Topics 3 hrs
• ACC 699 - Independent Study 3 hrs
Restricted Electives: 6 hours

Select six credit hours from any combination of 500- to 600-level ACC, COB, DS, FIN, IB, IS, OM, MGMT, MKTG, LAW or SCM courses

Program Total:

Students must earn a minimum total of 124 credits at the 100-level or above.

Notes:

Each student must complete a writing intensive course as part of major completion requirements. Consult your adviser for course options.

All 200-level core courses listed above must be completed prior to admission to the College of Business.

Students must have a 3.0 GPA and a 500 GMAT to be admitted to the graduate portion of the program.

* Students must be admitted to the graduate portion of the program before registering for courses in the graduate section of this program of study. For ACC 540, an exception requiring department approval may be requested.

** Students planning on taking the CPA exam in Michigan must take ACC 546.

Critical Graduation Information:

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the 100-level and above. Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Earn a minimum of 60 credits from a four-year college or university; courses taken at community colleges cannot be used to meet this requirement. (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 unique credit hours in their major and 20 unique credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
- Not more than 60 credit hours in one subject area (prefix) may be applied towards the minimum of 124 credit hours required for a bachelor's degree.
- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more than one major or minor.
  - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
  - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor.

- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is coordinated by the Office of Admissions, and additional documentation may be required.

- Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be earned in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

General Education Requirements:

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available on the General Education section of the catalog: General Education

- For Students who began their undergraduate program at EMU in Fall 2007 or later or who have elected to follow the current ("new") General Education Program, follow the "For Students" link under the Current Program heading.

- For Students who began their undergraduate program at EMU before Fall 2007 and who have elected to follow the Pre-2007 General Education Requirements, follow the "General Education Program Prior to Fall 2007 (pdf file)" link under the Program Prior to Fall 2007 heading. Please note that students who wish to graduate under pre-2007 General Education requirements must graduate by August 2014; those who have not completed all degree requirements by that time will need to satisfy the current (Fall 2007) General Education requirements.

Students who transferred to EMU may have modified general education requirements based on MACRAO or articulation agreements; consult your academic adviser for additional information.

University Information: Consult the online catalog at catalog.emich.edu.

Bachelor’s-Master’s Degree in Accounting

This combined degree program prepares students for careers in public accounting, industry and governmental and nonprofit entities. CPA candidates must have completed 150 hours of education before being admitted as members of the American Institute of Certified Public Accountants and to be licensed in most states.

Admission Requirements

Following are the minimal standards for admission to the combined B.B.A and M.S.A. degree program in accounting. Generally, each item should be satisfied, though the candidate’s overall record is considered. Transfer credits and grades will be evaluated in terms of Eastern Michigan University equivalency.

Initial admission is dependent on:

1. completion of 90 hours of undergraduate course work including College of Business requirements, General Education requirements and ACC 340 - Intermediate Accounting;

2. a cumulative GPA of 3.0 on a 4.0 scale;

3. the candidate’s written statement of personal goals; and

4. an interview with the program adviser.

Admission to the graduate level requires:
1. completion of 120 hours of undergraduate course work including course content noted under initial admission above and the undergraduate components (i.e., required and restricted electives);

2. a GMAT score of 500 (must be taken during the fourth year, so that the candidate’s score is received before admission to the fifth year);

3. a cumulative G.P.A. of 3.0 and a 4.0 scale; and

4. completed application and payment of fee to the Graduate School.

Candidates should apply to the graduate program at the beginning of their senior year and take the Graduate Management Admission Test (GMAT) during that same year.

General Education Requirements:

For specific requirements refer to the General Education Program. Download the Gen Ed Checklist here.

Additional Requirements: 6 hours

- ECON 201 - Principles of Macroeconomics (Gen Ed Area IV) 3 hrs
- ECON 202 - Principles of Microeconomics (Gen Ed Area IV) 3 hrs

Undergraduate Program Requirements: 60 hours

Business Core Courses: 36 hours

- ACC 240 - Principles of Financial Accounting 3 hrs
- ACC 241 - Principles of Managerial Accounting 3 hrs
- COB 200L - Introduction to Business (Gen Ed Area V LBC) 3 hrs
- DS 265 - Business Statistics I 3 hrs
- FIN 350 - Principles of Finance 3 hrs
- IS 215 - End-User Computing 3 hrs
- LAW 293 - Legal Environment of Business 3 hrs
- MGMT 202 - Business Communication 3 hrs
- MGMT 386 - Organizational Behavior and Theory 3 hrs
- MGMT 490 - Business Policy 3 hrs
- MKTG 360 - Principles of Marketing 3 hrs
- OM 374 - Introduction to Operations Management 3 hrs

**Accounting Core Courses: 21 hours**

- ACC 296 - The Accounting Cycle and Profession 3 hrs
- ACC 340 - Intermediate Accounting 3 hrs
- ACC 342 - Managerial Cost Accounting 3 hrs
- ACC 356 - Accounting Information Systems 3 hrs
- ACC 496W - Financial Management and Controllership (Gen Ed Area I, W) 3 hrs
- ACC 540 - Corporate Financial Reporting 3 hrs

**One course from the following:**

- ACC 344 - Principles of Taxation 3 hrs
- ACC 544 - Federal Income Taxation 3 hrs

**Restricted Elective Course: 3 hours**

*Select one course from the following. If ACC 344 is selected for the accounting core course requirement, restricted elective course must be from the 500-level:*

- ACC 442 - Advanced Cost Accounting 3 hrs
- ACC 450 - Internal Auditing 3 hrs
- ACC 475 - International Accounting 3 hrs
- ACC 479 - Special Topics 3 hrs
- ACC 491 - Accounting Honors Thesis 3 hrs
- ACC 499 - Directed Studies 3 hrs
- ACC 510 - Contemporary Accounting Information Systems 3 hrs
- ACC 511 - Accounting for E-Commerce 3 hrs
- ACC 541 - Advanced Financial Accounting 3 hrs
- * ACC 546 - Public and Nonprofit Sector Accounting 3 hrs
- ACC 548 - Information Systems Audit and Control 3 hrs
- ACC 560 - Fraud Examination 3 hrs
- ACC 572 - Investment and Tax Financial Planning 3 hrs
- ACC 584 - Tax Research Methods, Practice and Problems 3 hrs
- ACC 585 - Business Tax Planning 3 hrs
- ACC 592 - Special Topics 3 hrs
Graduate Program Requirements: 24 hours

Required Accounting Courses: 6 hours

- ACC 567 - Professional Auditing 3 hrs
- ACC 696 - Accounting Theory, Research and Policy 3 hrs

Restricted Elective Accounting Courses: 12 hours

Twelve credit hours from the following:

- ACC 510 - Contemporary Accounting Information Systems 3 hrs
- ACC 511 - Accounting for E-Commerce 3 hrs
- ACC 541 - Advanced Financial Accounting 3 hrs
- * ACC 546 - Public and Nonprofit Sector Accounting 3 hrs
- ACC 548 - Information Systems Audit and Control 3 hrs
- ACC 560 - Fraud Examination 3 hrs
- ACC 584 - Tax Research Methods, Practice and Problems 3 hrs
- ACC 585 - Business Tax Planning 3 hrs
- ACC 592 - Special Topics 3 hrs
- ACC 642 - Strategic Cost Management 3 hrs
- ACC 572 - Investment and Tax Financial Planning 3 hrs
- ACC 675 - International Accounting and Taxation 3 hrs
- ACC 681 - Special Topics 3 hrs
- ACC 699 - Independent Study 3 hrs

Restricted Non-Accounting Courses: 6 hours

Select nine credit hours from any combination of 500- to 600-level COB, DS, FIN, IS, POM, MGMT, MKTG, LAW or SCM courses

Program Total:

Students must earn a minimum total of 124 credits at the 100-level or above.

Notes:

Each student must complete a writing intensive course as part of major completion requirements. Consult your adviser for course options.

All 200-level core courses listed above must be completed prior to admission to the College of Business.

Students must have a 3.0 GPA and a 500 GMAT to be admitted to the graduate portion of the program.

Students must be admitted to the graduate portion of the program before registering for courses in the graduate section of this program of study.

* Students planning on taking the CPA exam must take ACC 546.
Critical Graduation Information:

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the 100-level and above. Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Earn a minimum of 60 credits from a four-year college or university; courses taken at community colleges cannot be used to meet this requirement. (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 unique credit hours in their major and 20 unique credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
- Not more than 60 credit hours in one subject area (prefix) may be applied towards the minimum of 124 credit hours required for a bachelor's degree.
- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more that one major or minor.
  - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor.
  - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
  - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor.
- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is coordinated by the Office of Admissions, and additional documentation may be required.
- Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be earned in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

General Education Requirements:

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available on the General Education section of the catalog: General Education

- For Students who began their undergraduate program at EMU in Fall 2007 or later or who have elected to follow the current ("new") General Education Program, follow the "For Students" link under the Current Program heading.
- For Students who began their undergraduate program at EMU before Fall 2007 and who have elected to follow the Pre-2007 General Education Requirements, follow the "General Education Program Prior to Fall 2007 (pdf file)" link under the Program Prior to Fall 2007 heading. Students who transferred to EMU may have modified general education requirements based on MACRAO or articulation agreements; consult your academic adviser for additional information.

**University Information:** Consult the online catalog at catalog.emich.edu.

### Finance Major

Finance majors acquire the knowledge and skills to analyze financial data and use financial concepts to value financial and real assets, and to help individuals and companies make decisions about allocating scarce resources. Students can develop their expertise in a variety of areas including corporate finance, banking, investments and international finance.

The general requirements for the bachelor of business administration degree, the academic major requirements below, and sufficient electives to meet the minimum of 124 hours must be completed for graduation.

### Accounting and Finance Department Information:

Interim Department Head: Zafar Khan  
Department Contact: zkhan@emich.edu  
Website: www.accfin.emich.edu

### General Education Requirements:

For specific requirements refer to the General Education Program.

### College of Business Pre-Admission Requirements: 56 Credit Hours

Students seeking admission to any program in the College of Business must complete 56 credit hours of course work to include the following courses listed below. In addition, students must have completed Eastern Michigan University's General Education Quantitative Reasoning requirement. Lastly, students must have an EMU GPA of at least 2.50.

- ACC 240 - Principles of Financial Accounting 3 hrs  
- ACC 241 - Principles of Managerial Accounting 3 hrs  
- COB 200L - Introduction to Business (Gen Ed Area V LBC) 3 hrs  
- CTAC 124 - Foundations of Speech Communication (Gen Ed Area I) 3 hrs  
- DS 265 - Business Statistics I 3 hrs  
- ECON 201 - Principles of Macroeconomics (Gen Ed Area IV) 3 hrs  
- ECON 202 - Principles of Microeconomics (Gen Ed Area IV) 3 hrs  
- ENGL 121 - Composition II: Researching the Public Experience (Gen Ed Area I) 3 hrs  
- IS 215 - End-User Computing 3 hrs  
- LAW 293 - Legal Environment of Business 3 hrs  
- MGMT 202 - Business Communication 3 hrs

### Major Requirements: 60 hours

**Business Core Courses: 36 hours**

- ACC 240 - Principles of Financial Accounting 3 hrs
• ACC 241 - Principles of Managerial Accounting 3 hrs
• COB 200L - Introduction to Business (Gen Ed Area V LBC) 3 hrs
• DS 265 - Business Statistics I 3 hrs
• * FIN 350 - Principles of Finance 3 hrs
• IS 215 - End-User Computing 3 hrs
• LAW 293 - Legal Environment of Business 3 hrs
• MGMT 202 - Business Communication 3 hrs
• * MGMT 386 - Organizational Behavior and Theory 3 hrs
• * MGMT 490 - Business Policy 3 hrs
• * MKTG 360 - Principles of Marketing 3 hrs
• OM 374 - Introduction to Operations Management 3 hrs

Discipline: 24 hours

Required Courses: 12 hours

• FIN 354 - Investments 3 hrs
• FIN 357 - Financial Markets and Institutions 3 hrs
• FIN 359 - Intermediate Financial Theory 3 hrs
• FIN 450W - Problems in Financial Management (Gen Ed Area I, W) 3 hrs

Restricted Elective Courses: 12 hours

Twelve hours from the following:

• ACC 358 - Analysis of Financial Statements 3 hrs
• ECON 445 - Economic Fluctuations and Forecasting 3 hrs
• FIN 352 - Financial Management for Entrepreneurs 3 hrs
• FIN 370 - International Business Finance 3 hrs
• FIN 451 - Introduction to Speculative Markets 3 hrs
• FIN 453 - Commercial Banking 3 hrs
• FIN 454 - Mortgage Banking 3 hrs
• FIN 479 - Special Topics 3 hrs

Minor Requirements:

This program does not require a minor.

Program Total:

Students must earn a minimum total of 124 credits at the 100-level or above.

Notes:

Each student must choose a writing intensive course as part of major completion requirements. Consult your adviser for course options. All 200-level core courses listed above must be completed prior to admission to the College of Business.
Critical Graduation Information:

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

Finance Minor - (For nonbusiness majors)

Accounting and Finance Department Information:

Interim Department Head: Zafar Khan
Department Contact: zkhan@emich.edu
Website: www.accfin.emich.edu

Required Course: 21 hours

- ACC 240 - Principles of Financial Accounting 3 hrs
- ACC 241 - Principles of Managerial Accounting 3 hrs
- FIN 350 - Principles of Finance 3 hrs
- FIN 359 - Intermediate Financial Theory 3 hrs

Three courses from the following:

- ACC 358 - Analysis of Financial Statements 3 hrs
- FIN 354 - Investments 3 hrs
- FIN 370 - International Business Finance 3 hrs
- FIN 450W - Problems in Financial Management (Gen Ed Area I, W) 3 hrs
- FIN 451 - Introduction to Speculative Markets 3 hrs
- FIN 453 - Commercial Banking 3 hrs
- FIN 479 - Special Topics 3 hrs

Minor Total: 21 hours

Note:

All minors must have at least six hours of course work at the 300-level or above.

Students pursuing a COB minor must have a minimum cumulative GPA of 2.0 to enroll in 300/400 Business classes.

Students must be of Junior status (completion of 56 credit hours) to enroll in 300/400 Business classes.

Critical Graduation Information:

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.
- Earn a minimum total of 124 credits at the **100-level and above**. Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Earn a minimum of 60 credits from a four-year college or university; **courses taken at community colleges cannot be used to meet this requirement.** (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 **unique** credit hours in their major and 20 **unique** credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
- Not more than 60 credit hours in one subject area (prefix) may be applied towards the minimum of 124 credit hours required for a bachelor's degree.
- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more than one major or minor.
  - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
  - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
  - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor
- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is coordinated by the Office of Admissions, and additional documentation may be required.
- Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be earned in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

**General Education Requirements:**

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available on the General Education section of the catalog: General Education

- For Students who began their undergraduate program at EMU in Fall 2007 or later or who have elected to follow the current ("new") General Education Program, follow the "For Students" link under the Current Program heading.
- For Students who began their undergraduate program at EMU before Fall 2007 and who have elected to follow the Pre-2007 General Education Requirements, follow the "General Education Program Prior to Fall 2007 (pdf file)" link under the Program Prior to Fall 2007 heading. **Please note that students who wish to graduate under pre-2007 General Education requirements must graduate by August 2014; those who have not completed all degree requirements by that time will need to satisfy the current (Fall 2007) General Education requirements.**

Students who transferred to EMU may have modified general education requirements based on MACRAO or articulation agreements; consult your academic adviser for additional information.

**University Information:** Consult the online catalog at catalog.emich.edu.

**Accounting**
ACC 130 - Accounting for Nonbusiness Majors

Introduction to financial information generated by typical business organizations, with special emphasis on the use and interpretation of this information in managerial and financial decision-making processes.

Credit Hours: 3 hrs
Notes: May not be substituted for ACC240. Not open to students with credit for ACC240 or ACC241.
Terms Offered: Course Rotation Schedules
Previously Listed As: ACC 230
Last Updated: Links 06/2012; 2/17/2011

ACC 177 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr
Prerequisite: department permission
Terms Offered: Course Rotation Schedules
Last Updated: Links 06/2012

ACC 178 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs
Prerequisite: department permission
Terms Offered: Course Rotation Schedules
Last Updated: Links 06/2012

ACC 179 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs
Prerequisite: department permission
Terms Offered: Course Rotation Schedules
Last Updated: Links 06/2012

ACC 240 - Principles of Financial Accounting

Use and development of financial information about economic organizations, with special emphasis on the use of financial statements and their creation in the business decision-making and reporting process.

Credit Hours: 3 hrs
Prerequisite: (Level 3 Math Placement) or (an Elementary Algebra placement test score of at least 83 points) or (a grade of C or better in MATH 098 or MATH 098B) or one of the following: MATH 104, MATH 105, MATH 107, MATH 110, MATH 112, MATH 119, MATH 120, or MATH 170
ACC 241 - Principles of Managerial Accounting

Use and development of accounting information in managerial settings to achieve managerial goals. Use of managerial accounting tools such as budgets and cost analysis in typical business environments.

Credit Hours: 3 hrs
Prerequisite: (Level 3 Math Placement) or (an Elementary Algebra placement test score of at least 83 points) or (a grade of C or better in MATH 098 or MATH 098B) or one of the following: MATH 104, MATH 105, MATH 107, MATH 110, MATH 112, MATH 119, MATH 120, or MATH 170

ACC 244 - Personal Tax Accounting

Introduction to federal and state income and social security tax problems of individuals. Practice on preparation of individual tax returns.

Credit Hours: 2 hrs
Notes: Credit toward a degree will not be permitted for both ACC244 and ACC344. (Business education majors may substitute this course for ACC344 with permission of their department head.)

ACC 246 - Accounting for Public Administrators

Surveys the use of accounting to manage a public organization. Basic accounting principles, program budgeting and the construction of internal control systems.

Credit Hours: 3 hrs

ACC 277 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr
Prerequisite: department permission

ACC 278 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs
**ACC 279 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 3 hrs  
**Prerequisite:** department permission  
**Terms Offered:** Course Rotation Schedules  
**Last Updated:** Links 06/2012

**ACC 286 - Cooperative Education in Accounting**

Accounting employment at a business or public organization imparting a practical experience in accounting. Position may be part-time, volunteer, or less than full-semester in duration.

**Credit Hours:** 1 hr  
**Prerequisite:** department permission; admittance by application only  
**Major Restrictions:** Cannot be used on an Accounting Major or Minor  
**Terms Offered:** Course Rotation Schedules  
**Last Updated:** Links 06/2012

**ACC 287 - Cooperative Education in Accounting**

One term of full-time or two terms of part-time employment at a business or public organization chosen for imparting practical experience in accounting.

**Credit Hours:** 3 hrs  
**Prerequisite:** department permission; admittance by application only  
**Major Restrictions:** Cannot be used on an Accounting Major or Minor  
**Terms Offered:** Course Rotation Schedules  
**Last Updated:** Links 06/2012

**ACC 296 - The Accounting Cycle and Profession**

This course covers the accounting cycle process in manual and computerized environments. The course also explores various accounting occupations and other fundamental concepts, such as the time value of money.

**Credit Hours:** 3 hrs  
**Prerequisite:** ACC 240  
**Terms Offered:** Course Rotation Schedules  
**Last Updated:** Links 06/2012; 2/17/2011

**ACC 340 - Intermediate Accounting**

Examination of generally accepted accounting principles related to financial reporting of the assets, liabilities, equity and operating statement accounts of an organization. Concepts and theories that guide the recording, valuation and classification of transactions in an organization. Preparation and analysis of the balance sheet, income statement and statement of cash flows for
ACC 342 - Managerial Cost Accounting

Accounting information for use in planning objectives and controlling operations. A framework for measuring managerial performance is developed through an analytic treatment of cost behavior under dynamic conditions by employing such devices as cost-volume-profit relationships, flexible budgeting and standards.

Credit Hours: 3 hrs
Prerequisite: ACC 296, or department permission
Terms Offered: Course Rotation Schedules
Last Updated: Links 06/2012; 2/17/2011

ACC 344 - Principles of Taxation

This course is an introductory level study of taxation of individuals, corporations and some other entities. It develops a basic knowledge of tax rules useful and necessary in business management. The course also provides a foundation for the study of tax planning, research and compliance.

Credit Hours: 3 hrs
Prerequisite: (ACC 240 and ACC 241) or ACC 501
Terms Offered: Course Rotation Schedules
Last Updated: Links 06/2012; 2/17/2011

ACC 356 - Accounting Information Systems

Concepts of a responsive information system, including principles of design, profitability and responsibility, accounting and control. Description of typical accounting systems and procedures within the business enterprise.

Credit Hours: 3 hrs
Prerequisite: (ACC 240 and ACC 241) or ACC 501 or department permission
Terms Offered: Course Rotation Schedules
Last Updated: Links 06/2012; 2/17/2011

ACC 358 - Analysis of Financial Statements

Analysis and interpretation of the financial statements and reports of various types of businesses and industries. Examination of the impact of using alternative accounting methods on reported profits, taxes and cash flows. Forecast of financial statements for planning purposes.

Credit Hours: 3 hrs
Prerequisite: FIN 350
Terms Offered: Course Rotation Schedules
Previously Listed As: FIN 358
Last Updated: Links 06/2012; 2/17/2011
ACC 377 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr
Prerequisite: department permission
Terms Offered: Course Rotation Schedules
Last Updated: Links 06/2012

ACC 378 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs
Prerequisite: department permission
Terms Offered: Course Rotation Schedules
Last Updated: Links 06/2012

ACC 379 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs
Prerequisite: department permission
Terms Offered: Course Rotation Schedules
Last Updated: Links 06/2012

ACC 442 - Advanced Cost Accounting

Cost concepts on an advanced level such as standard costs-and-variance analysis; responsibility accounting, direct costing, overhead allocation, break-even; product pricing through return-on-investment methods; divisional income measurement; forecasting with statistical models; capital budgeting; and applications of mathematics to cost accounting problems.

Credit Hours: 3 hrs
Prerequisite: ACC 342
Terms Offered: Course Rotation Schedules
Last Updated: Links 06/2012; 2/17/2011

ACC 450 - Internal Auditing

Introduction to the profession of internal auditing. Includes professional standards, techniques, scientific methods, reporting, operational auditing and internal audit management.

Credit Hours: 3 hrs
Prerequisite: (ACC 240 and ACC 241) or ACC 501
Terms Offered: Course Rotation Schedules
Last Updated: Links 06/2012; 2/17/2011
ACC 456 - Accounting Information Systems Implementation and Projects

A capstone course for the accounting information systems major designed to develop expertise in the implementation of an accounting information system.

Credit Hours: 3 hrs  
Prerequisite: (ACC 356 and IS 380) or department permission  
Terms Offered: Course Rotation Schedules  
Last Updated: Links 06/2012; 2/17/2011

ACC 460 - Principles of Fraud Examination

This course examines the principles of fraud examination and deterrence, including the fraud triangle and characteristics of fraud perpetrators and organizations that are more likely to have frauds perpetrated against them. Students will be prepared for certain sections of the Certified Fraud Examiners (CFE) and Certified Internal Auditor (CIA) and CPA professional exams.

Credit Hours: 3 hrs  
Prerequisite: (ACC 240 and ACC 241) or department permission  
Notes: Not open for students with credit in ACC560 Fraud Examination.  
Terms Offered: Course Rotation Schedules  
Last Updated: Links 06/2012; 2/17/2011

ACC 475 - International Accounting

Introduction to accounting in an international environment. Includes the study of environmental factors, performance evaluation, financial reporting and specific accounting and auditing problems.

Credit Hours: 3 hrs  
Prerequisite: ACC 340 or instructor permission  
Terms Offered: Course Rotation Schedules  
Last Updated: Links 06/2012; Prerequisite Change 04/2011, effective Spring 2011

ACC 477 - Special Topics

Specialized accounting topics in relation to changes in the practice of accounting and its regulation by government agencies.

Credit Hours: 1 hr  
Prerequisite: ACC 340/ACC 356 and department permission  
Terms Offered: Course Rotation Schedules  
Last Updated: Links 06/2012; 2/17/2011

ACC 478 - Special Topics

Specialized accounting topics in relation to changes in the practice of accounting and its regulation by government agencies.

Credit Hours: 2 hrs  
Prerequisite: ACC 340/ACC 356 and department permission  
Terms Offered: Course Rotation Schedules  
Last Updated: Links 06/2012; 2/17/2011

ACC 479 - Special Topics
Specialized accounting topics in relation to changes in the practice of accounting and its regulation by government agencies.

**Credit Hours:** 3 hrs  
**Prerequisite:** ACC 340/ACC 356 and department permission  
**Terms Offered:** Course Rotation Schedules  
**Last Updated:** Linkts 06/2012; 2/17/2011

**ACC 489 - Accounting Internship**

Directed full-time work experience in the accounting phase of a business organization.

**Credit Hours:** 3 hrs  
**Prerequisite:** department permission  
**Notes:** Use on an accounting major or minor is not permitted. To be used as an elective only; does not apply on a major or minor; offered on a credit/no-credit basis.  
**Terms Offered:** Course Rotation Schedules  
**Last Updated:** Linkts 06/2012

**ACC 491 - Accounting Honors Thesis**

A directed studies course for accounting honors students only. An in-depth research thesis or project under the direction of an accounting faculty member is required with an oral examination or form of presentation to the faculty and other interested parties upon completion of the thesis.

**Credit Hours:** 3 hrs  
**Prerequisite:** final semester in undergraduate accounting honors program  
**Terms Offered:** Course Rotation Schedules  
**Last Updated:** Linkts 06/2012

**ACC 496W - Financial Management and Controllership (Gen Ed Area I, W)**

This course is a capstone experience for the accounting major who wants to manage the information needs of an organization from the perspective of the controller, chief financial officer, or financial manager. Topics include: accountability for performance; budgeting and costs; managing cash and the treasury function; and enterprise and information systems.

**Credit Hours:** 3 hrs  
**Prerequisite:** ACC 296, ACC 340, ACC 342, ACC 356, and (ACC 344 or ACC 544)  
**Class Restrictions:** senior standing  
**Major Restrictions:** Open to accounting-BBA majors only  
**Terms Offered:** Course Rotation Schedules  
**Previously Listed As:** ACC 496  

**Last Updated:** Linkts 06/2012; Prerequisite Change 07/2011, effective Fall 2011

**ACC 497 - Directed Studies**

Directed study of a problem or group of problems in accounting not otherwise treated in departmental courses.

**Credit Hours:** 1 hr  
**Prerequisite:** department permission
Terms Offered: Course Rotation Schedules
Last Updated: Links 06/2012

**ACC 498 - Directed Studies**

Directed study of a problem or group of problems in accounting not otherwise treated in departmental courses.

**Credit Hours:** 2 hrs  
**Prerequisite:** Department permission  
Terms Offered: Course Rotation Schedules  
Last Updated: Links 06/2012

**ACC 499 - Directed Studies**

Directed study of a problem or group of problems in accounting not otherwise treated in departmental courses.

**Credit Hours:** 3 hrs  
**Prerequisite:** Department permission  
Terms Offered: Course Rotation Schedules  
Last Updated: Links 06/2012

**ACC 501 - Accounting Principles**

Emphasizes analysis of the required financial statements for financial reporting purposes, including discussions of alternative accounting principles generally acceptable in their preparation. Significant emphasis also placed on the impact that business transactions have on a company’s financial position. Additional topics include profit-planning techniques, such as cost-volume-profit analysis and budgeting.

**Credit Hours:** 3 hrs  
Terms Offered: Course Rotation Schedules  
Last Updated: Links 06/2012; 2/17/2011

**ACC 510 - Contemporary Accounting Information Systems**

Provides the fundamentals of re-engineering and using and analyzing enterprise systems to produce efficient and effective management information and appropriate analysis and interpretation for strategic management decision-making, with emphasis on accounting applications.

**Credit Hours:** 3 hrs  
**Notes:** This is a graduate course in an undergraduate program.  
Terms Offered: Course Rotation Schedules  
Previously Listed As: ACC 610  
Last Updated: Links 07/2011

**ACC 511 - Accounting for E-Commerce**

This course explores the e-commerce environment including valuing stock of e-commerce firms, understanding the role of accountants in assessing risk and providing assurance over the authentication of e-commerce transactions, as well as tax and privacy issues.

**Credit Hours:** 3 hrs
Prerequisite: ACC 501
Notes: This is a graduate course in an undergraduate program.
Terms Offered: Course Rotation Schedules
Previously Listed As: ACC 611
Last Updated: Links 06/2012; 2/17/2011

ACC 540 - Corporate Financial Reporting

An examination of the generally accepted accounting principles used in corporate financial reporting with particular emphasis on advanced topics such as equity, long-term assets and liabilities, revenue recognition, prior period adjustments and cash flows. Also included is the role of the SEC in financial reporting of publicly traded companies.

Credit Hours: 3 hrs
Prerequisite: ACC 340
Major Restrictions: Master of Science in Accounting students; and students admitted to the graduate side of the 150-hour BBA-Accounting/MSA and 150-hour BBA-AIS/MSA programs only.
Notes: This is a graduate course in an undergraduate program.
Terms Offered: Course Rotation Schedules
Last Updated: Links 06/2012; 12/2007, effective Spring 2008

ACC 541 - Advanced Financial Accounting

Specialized topics in accounting with major emphasis on conceptual aspects and reporting of consolidated financial statements, international accounting challenges and foreign currency reporting issues.

Credit Hours: 3 hrs
Prerequisite: ACC 340, ACC 540 or equivalent and department permission
Major Restrictions: Master of Science in Accounting students; and students admitted to the graduate side of the 150-hour BBA-Accounting/MSA and 150-hour BBA-AIS/MSA programs only.
Notes: This is a graduate course in an undergraduate program.
Terms Offered: Course Rotation Schedules
Last Updated: Links 06/2012; 12/2007, effective Spring 2008

ACC 544 - Federal Income Taxation

This course is an introductory study of the tax rules governing individuals. It provides a basic knowledge of the tax formula, property transactions and business and personal deductions that facilitates optimum decision-making in both personal and business contexts. This course also provides a foundation for the study of tax planning, research and compliance.

Credit Hours: 3 hrs
Prerequisite: ACC 240 and ACC 241; or ACC 501
Major Restrictions: Master of Science in Accounting students; and students admitted to the graduate side of the 150-hour BBA-Accounting/MSA and 150-hour BBA-AIS/MSA programs only.
Notes: This is a graduate course in an undergraduate program.
Terms Offered: Course Rotation Schedules
Last Updated: Links 06/2012; 12/2007, effective Spring 2008

ACC 546 - Public and Nonprofit Sector Accounting

Accounting issues in governmental and nonprofit entities, including financial reporting, managerial accounting, information systems, auditing and regulatory and taxation issues. Also included is the SEC's role in financial reporting.
ACC 548 - Information Systems Audit and Control

This course covers the processing of audit in a computerized accounting information systems environment, and the evaluation of controls and risks in determining audit decisions.

Credit Hours: 3 hrs
Prerequisite: ACC 356 or ACC 605
Major Restrictions: Master of Science in Accounting students; and students admitted to the graduate side of the 150-hour BBA-Accounting/MSA and 150-hour BBA-AIS/MSA programs only.
Notes: This is a graduate course in an undergraduate program.
Terms Offered: Course Rotation Schedules
Previously Listed As: ACC 548
Last Updated: Links 06/2012; 12/2007, effective Spring 2008

ACC 550 - Professional Internal Auditing

This course examines the principles of internal auditing as an independent objective assurance and consulting activity designed to add value and improve an organization’s operations. Topics include enterprise risk management; internal control frameworks, such as COSO and COBIT; governance; preliminary surveys; audit programs; audit ports; and operational audits.

Credit Hours: 3 hrs
Prerequisite: ACC 240 and ACC 241; or ACC 501; or department permission
Not open to students with credit in ACC 450.
Terms Offered: Course Rotation Schedules
Last Updated: Links 06/2012; Created 11/2011

ACC 560 - Fraud Examination

This course initially provides a basis in internal audit principles, and then concentrates on the study of fraud examination. Specifics of the course focus on the theories of fraud, the "fraud tree," fraud awareness, fraud schemes especially those related to financial frauds and fraud deterrence practices. ACC 560 is appropriate for students who have already taken ACC 450 Internal Auditing or as a separate course for those who have not taken ACC 450.

Credit Hours: 3 hrs
Prerequisite: ACC 501 or department permission
Notes: This is a graduate course in an undergraduate program.
Terms Offered: Course Rotation Schedules
Previously Listed As: ACC 650
Last Updated: Links 06/2012

ACC 567 - Professional Auditing
A study of auditing concepts, objectives and procedures, and of the literature as it relates to current audit problems.

**Credit Hours:** 3 hrs  
**Prerequisite:** ACC 340 and ACC 356  
**Major Restrictions:** Master of Science in Accounting students; and students admitted to the graduate side of the 150-hour BBA-Accounting/MSA and 150-hour BBA-AIS/MSA programs only.  
**Notes:** This is a graduate course in an undergraduate program.  
**Terms Offered:** Course Rotation Schedules  
**Previously Listed As:** ACC 667  
**Last Updated:** Links 06/2012; 12/2007, effective Spring 2008

**ACC 572 - Investment and Tax Financial Planning**

This course focuses on the study of tax rules related to financial decisions, including investment, compensation, and business planning. The impact of these rules on employers and employees is studied as well as certain strategies affecting financial planning in both a personal and business context.

**Credit Hours:** 3 hrs  
**Prerequisite:** ACC 344 or ACC 544  
**Major Restrictions:** Master of Science in Accounting students; and students admitted to the graduate side of the 150-hour BBA-Accounting/MSA and 150-hour BBA-AIS/MSA programs only.  
**Notes:** This is a graduate course in an undergraduate program.  
**Terms Offered:** Course Rotation Schedules  
**Previously Listed As:** ACC 672  
**Last Updated:** Course Number/Description/Prerequisite Change 11/2011, effective Winter 2012

**ACC 584 - Tax Research Methods, Practice and Problems**

Introduction of tax research methods including identification of tax issues, efficient use of tax resources and effective communication of the research process.

**Credit Hours:** 3 hrs  
**Prerequisite:** ACC 501 or (ACC 240 and ACC 241)  
**Major Restrictions:** Master of Science in Accounting students; and students admitted to the graduate side of the 150-hour BBA-Accounting/MSA and 150-hour BBA-AIS/MSA programs only.  
**Notes:** This is a graduate course in an undergraduate program.  
**Terms Offered:** Course Rotation Schedules  
**Previously Listed As:** ACC 644  
**Last Updated:** Links 06/2012; 12/2007, effective Spring 2008

**ACC 585 - Business Tax Planning**

Conceptual coverage of the tax system, taxable and tax-reporting business entities, and principles of taxation for the purpose of identifying the tax planning opportunities in business decisions.

**Credit Hours:** 3 hrs  
**Prerequisite:** ACC 501 or (ACC 240 and ACC 241)  
**Major Restrictions:** Master of Science in Accounting students; and students admitted to the graduate side of the 150-hour BBA-Accounting/MSA and 150-hour BBA-AIS/MSA programs only.  
**Notes:** This is a graduate course in an undergraduate program.  
**Terms Offered:** Course Rotation Schedules
ACC 592 - Special Topics

An experimental course for subject matter not provided in other departmental offerings. The content will change from semester to semester. Students may elect this course several times, provided different topics are studied. Not more than six hours of special topics may be used on a degree program.

Credit Hours: 3 hrs
Notes: This is a graduate course in an undergraduate program.
Terms Offered: Course Rotation Schedules
Last Updated: Links 06/2012

ACC 642 - Strategic Cost Management

The role of cost management in strategic quality management. Cost accounting systems for continuous improvement; conceptual design, accounting models, performance measurement and investment performance. Topics also include advanced managerial accounting issues, such as activity based costing, profit and investment centers, project planning and control.

Credit Hours: 3 hrs
Prerequisite: DS 501 or an undergraduate statistics course; and ACC 605
Notes: This is a graduate course in an undergraduate program.
Terms Offered: Course Rotation Schedules
Last Updated: Links 06/2012

ACC 675 - International Accounting and Taxation

Introduction to accounting in an international environment. Includes the study of environmental factors, performance evaluation, financial reporting, international taxation and specific accounting and auditing problems.

Credit Hours: 3 hrs
Prerequisite: ACC 501
Notes: This is a graduate course in an undergraduate program.
Terms Offered: Course Rotation Schedules
Last Updated: Links 06/2012

ACC 681 - Special Topics

An experimental course for subject matter not provided in other departmental offerings. The content will change from semester to semester. Students may elect this course several times, provided different topics are studied. Not more than six hours of special topics may be used on a degree program.

Credit Hours: 3 hrs
Prerequisite: department permission
Notes: This is a graduate course in an undergraduate program.
Terms Offered: Course Rotation Schedules
Last Updated: Links 06/2012

ACC 696 - Accounting Theory, Research and Policy
A capstone course emphasizing and developing an understanding of the many interrelated applications of accounting in organizations and in the broader setting of financial markets.

**Credit Hours:** 3 hrs

**Prerequisite:** ACC 540 and department permission

**Major Restrictions:** Master of Science in Accounting students; and students admitted to the graduate side of the 150-hour BBA-Accounting/MSA and 150-hour BBA-AIS/MSA programs only.

**Notes:** This is a graduate course in an undergraduate program.

**Terms Offered:** Course Rotation Schedules

**Last Updated:** Links 06/2012; 12/2007, effective Spring 2008

### ACC 699 - Independent Study

Directed study or problems in accounting not otherwise treated in department courses.

**Credit Hours:** 3 hrs

**Prerequisite:** department permission

**Notes:** This is a graduate course in an undergraduate program.

**Terms Offered:** Course Rotation Schedules

**Last Updated:** Links 06/2012

### Decision Science

### DS 177 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 1 hr

**Prerequisite:** department permission

**Terms Offered:** Course Rotation Schedules

**Last Updated:** Links 06/2012

### DS 178 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 2 hrs

**Prerequisite:** department permission

**Terms Offered:** Course Rotation Schedules

**Last Updated:** Links 06/2012

### DS 179 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 3 hrs

**Prerequisite:** department permission
DS 265 - Business Statistics I

Concepts of statistics and applications to business decisions. Elements of probability, random samples, descriptive statistics, sampling distributions, point and interval estimation, hypothesis testing, chi-square analysis and regression and correlation analysis.

Credit Hours: 3 hrs
Prerequisite: (Level 3 Math Placement) or (An Elementary Algebra placement test score of at least 83 points) or (a grade of C or better in MATH 098 or MATH 098B)
Terms Offered: Course Rotation Schedules
Last Updated: Links 04/2011

DS 277 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr
Prerequisite: department permission
Terms Offered: Course Rotation Schedules
Last Updated: Links 06/2012

DS 278 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs
Prerequisite: department permission
Terms Offered: Course Rotation Schedules
Last Updated: Links 06/2012

DS 279 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs
Prerequisite: department permission
Terms Offered: Course Rotation Schedules
Last Updated: Links 06/2012

DS 317 - System Simulation

Computer-based simulation techniques for business analysis and decision making. Random number and process generators, system simulation models and specialized computer simulation languages. Simulation of discrete time systems and the GPSS language.
DS 367 - Business Statistics II

A continuation of the statistical methodology developed in Business Statistics I. Topics include two-sample interval estimation and hypothesis tests, inference about the population variance and simple and multiple regressions.

DS 377 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

DS 378 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

DS 379 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

DS 387 - Cooperative Education in Decision Science

Four months of full-time employment at a business or public organization to impart practical experience in decision science disciplines.
Credit Hours: 3 hrs  
Prerequisite: completion of three hours in decision science systems area and department permission  
Notes: Admittance by application only. Offered on a credit/no-credit basis for general elective credit only  
Terms Offered: Course Rotation Schedules  
Last Updated: Links 06/2012

**DS 465 - Applied Linear Statistical Models**

An introduction to linear models with an emphasis on business applications. Topics include multiple linear regression models, analysis of variance and multivariate data analysis. Computer packages will be used.

Credit Hours: 3 hrs  
Prerequisite: DS 265  
Terms Offered: Course Rotation Schedules  
Previously Listed As: ORI 465  
Last Updated: Links 04/2011

**DS 477 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr  
Prerequisite: department permission  
Terms Offered: Course Rotation Schedules  
Last Updated: Links 06/2012

**DS 478 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs  
Prerequisite: department permission  
Terms Offered: Course Rotation Schedules  
Last Updated: Links 06/2012

**DS 479 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs  
Prerequisite: department permission  
Terms Offered: Course Rotation Schedules  
Last Updated: Links 06/2012

**DS 487 - Cooperative Education in Decision Science**

Four months of full-time employment at a business or public organization to impart practical experience in decision science disciplines.
DS 497 - Independent Study

Directed study of a problem or group of problems in decision science.

Credit Hours: 1 hr
Prerequisite: department permission
Terms Offered: Course Rotation Schedules
Last Updated: Links 06/2012

DS 498 - Independent Study

Directed study of a problem or group of problems in decision science.

Credit Hours: 2 hrs
Prerequisite: department permission
Terms Offered: Course Rotation Schedules
Last Updated: Links 06/2012

DS 501 - Introductory Probability and Statistics for Business

The development of fundamental probability concepts and statistical techniques emphasizing their applications to business decision making. Includes the study of probability distributions, sampling, point and interval estimation, and hypothesis testing.

Credit Hours: 3 hrs
Prerequisite: Level 3 Math Placement; or an Elementary Algebra placement test score of at least 83 points; or a grade of C or better in MATH 098 or MATH 098B; or higher-level math course.
Terms Offered: Course Rotation Schedules
Previously Listed As: ORI 501
Last Updated: Links 04/2011

Finance

FIN 177 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr
Prerequisite: department permission
Terms Offered: Course Rotation Schedules
Last Updated: Links 06/2012

FIN 178 - Special Topics
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 2 hrs  
**Prerequisite:** department permission  
**Terms Offered:** Course Rotation Schedules  
**Last Updated:** Links 06/2012

**FIN 179 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 3 hrs  
**Prerequisite:** department permission  
**Terms Offered:** Course Rotation Schedules  
**Last Updated:** Links 06/2012

**FIN 277 - Special Topics**

These courses deal with subject matter not provided in other department offerings. Students may elect such a course several times, provided different topics are studied.

**Credit Hours:** 1 hr  
**Prerequisite:** department permission  
**Terms Offered:** Course Rotation Schedules  
**Last Updated:** Links 06/2012

**FIN 278 - Special Topics**

These courses deal with subject matter not provided in other department offerings. Students may elect such a course several times, provided different topics are studied.

**Credit Hours:** 2 hrs  
**Prerequisite:** department permission  
**Terms Offered:** Course Rotation Schedules  
**Last Updated:** Links 06/2012

**FIN 279 - Special Topics**

These courses deal with subject matter not provided in other department offerings. Students may elect such a course several times, provided different topics are studied.

**Credit Hours:** 3 hrs  
**Prerequisite:** department permission  
**Terms Offered:** Course Rotation Schedules  
**Last Updated:** Links 06/2012

**FIN 287 - Cooperative Education in Finance**
Four months of full-time employment at a business or public organization in a finance position chosen for imparting practical experience in finance.

**Credit Hours:** 3 hrs  
**Prerequisite:** ACC 240 and department permission  
**Notes:** Use on a finance major or minor not permitted. Offered on a credit/no-credit basis Admittance by application only  
**Terms Offered:** Course Rotation Schedules  
**Last Updated:** Links 04/2011

**FIN 350 - Principles of Finance**

A survey course covering the financial operations of business corporations. It begins with a general overview, then goes into detail on several concepts and techniques used in financial decision making. Specific topics emphasized include the time value of money, asset valuation models, risk management and financial statement analysis. The course is designed for the general business student.

**Credit Hours:** 3 hrs  
**Prerequisite:** ACC 240  
**Terms Offered:** Course Rotation Schedules  
**Last Updated:** Links 04/2011

**FIN 352 - Financial Management for Entrepreneurs**

A continuation of FIN 350, but with an emphasis on financial management for growth of the small- to medium-sized firm. Working capital management, short-term financing, equipment financing and other topics pertinent to the growth firm.

**Credit Hours:** 3 hrs  
**Prerequisite:** FIN 350 or equivalent  
**Terms Offered:** Course Rotation Schedules  
**Last Updated:** Links 04/2011

**FIN 354 - Investments**

The purpose of the course is to introduce students to fundamentals of investment analysis. The course attempts to highlight the alternative investments available and develop a way of thinking about investments. The course is a mixture of description and theory. The descriptive material involves a discussion of available investment instruments and considers the way the capital market currently works. The theoretical portion takes into consideration ways you should evaluate current investments and future opportunities.

**Credit Hours:** 3 hrs  
**Prerequisite:** FIN 350  
**Terms Offered:** Course Rotation Schedules  
**Last Updated:** Links 04/2011

**FIN 357 - Financial Markets and Institutions**

The operation and behavior of capital markets and financial intermediaries as sources of investment capital to the business firm. Liability management and investment portfolio behavior of financial market participants. Flow of funds through money and capital markets, and investment characteristics of securities traded. Term structure of yields, yield differentials and the valuation of debt and equity securities.

**Credit Hours:** 3 hrs
Prerequisite: FIN 350
Terms Offered: Course Rotation Schedules
Last Updated: Links 04/2011

FIN 359 - Intermediate Financial Theory

Students learn the theory behind a firm’s financial management decisions. The focus is on how a firm creates value through its investment decisions. Topics include the valuation of investment decisions, cost of capital, risk and capital budgeting, real options and mergers and acquisitions.

Credit Hours: 3 hrs
Prerequisite: a grade of C or better in FIN 350
Corequisites: FIN 360
Terms Offered: Course Rotation Schedules
Last Updated: Links 04/2011

FIN 360 - Theory of Financial Decisions

Students learn the theory behind a firm’s financial management decisions. The focus is on how a firm raises capital and whether financial decisions create value. Topics include short-term financing, capital structure, capital acquisition, dividend policy, leasing, the interaction between the firm’s financial and investment decisions, and financial distress and bankruptcy.

Credit Hours: 3 hrs
Prerequisite: FIN 350
Corequisites: FIN 359
Major Restrictions: Restricted to Finance Majors only
Terms Offered: Course Rotation Schedules
Last Updated: Links 08/2011

FIN 370 - International Business Finance

This course deals with how decisions about financial management are made in modern multinational enterprises. Financial management of any firm involves acquisition of funds, investing of these funds in economically productive assets, the managing of assets so acquired and eventual reconversion of some of the productive assets into funds to return to the original investors, creditors, suppliers, employees and other interest groups. International Business Finance deals with the management of these functions for firms operating in several countries.

Credit Hours: 3 hrs
Prerequisite: FIN 350 or equivalent
Terms Offered: Course Rotation Schedules
Last Updated: Links 04/2011

FIN 377 - Special Topics

These courses deal with subject matter not provided in other department offerings. Students may elect such a course several times, provided different topics are studied.

Credit Hours: 1 hr
Prerequisite: department permission
Terms Offered: Course Rotation Schedules
Last Updated: Links 06/2012
FIN 378 - Special Topics

These courses deal with subject matter not provided in other department offerings. Students may elect such a course several times, provided different topics are studied.

Credit Hours: 2 hrs  
Prerequisite: department permission  
Terms Offered: Course Rotation Schedules  
Last Updated: Links 06/2012

FIN 379 - Special Topics

These courses deal with subject matter not provided in other department offerings. Students may elect such a course several times, provided different topics are studied.

Credit Hours: 3 hrs  
Prerequisite: department permission  
Terms Offered: Course Rotation Schedules  
Last Updated: Links 06/2012

FIN 387 - Cooperative Education in Finance

Four months of full-time employment at a business or public organization in a finance position chosen for imparting practical experience in finance.

Credit Hours: 3 hrs  
Prerequisite: FIN 287 and department permission  
Notes: Use on a finance major or minor not permitted. Admittance by application only.  
Terms Offered: Course Rotation Schedules  
Previously Listed As: FIN 487  
Last Updated: Links 04/2011

FIN 450W - Problems in Financial Management (Gen Ed Area I, W)

Deals with application of financial management theory. Emphasis is placed on problem solving in differing economic and situational environments using various quantitative tools. Case analysis and class discussions are emphasized.

Credit Hours: 3 hrs  
Prerequisite: FIN 359  
Terms Offered: Course Rotation Schedules  
Previously Listed As: FIN 450  
Last Updated: Links 04/2011

FIN 451 - Introduction to Speculative Markets

This course is designed to provide a solid foundation in the principles of derivatives. It attempts to strike a balance between institutional details, theoretical foundations and practical applications. Options and futures will be the primary focus.

Credit Hours: 3 hrs  
Prerequisite: FIN 350
FIN 453 - Commercial Banking

Practices, policies, and problems of commercial bank management and operation, capital adequacy, loan and investment policy, liquidity and profit maximization.

Credit Hours: 3 hrs  
Prerequisite: FIN 350  
Terms Offered: Course Rotation Schedules  
Last Updated: Links 04/2011

FIN 454 - Mortgage Banking

The purpose of this course is to communicate and explain the fundamentals of mortgage lending in as simple and concise a manner as possible. A good portion of the course deals with real estate appraisal.

Credit Hours: 3 hrs  
Prerequisite: FIN 350 or equivalent  
Terms Offered: Course Rotation Schedules  
Last Updated: Links 04/2011

FIN 477 - Special Topics

These courses deal with subject matter not provided in other department offerings. Students may elect such a course several times, provided different topics are studied.

Credit Hours: 1 hr  
Prerequisite: department permission  
Terms Offered: Course Rotation Schedules  
Last Updated: Links 06/2012

FIN 478 - Special Topics

These courses deal with subject matter not provided in other department offerings. Students may elect such a course several times, provided different topics are studied.

Credit Hours: 2 hrs  
Prerequisite: department permission  
Terms Offered: Course Rotation Schedules  
Last Updated: Links 06/2012

FIN 479 - Special Topics

These courses deal with subject matter not provided in other department offerings. Students may elect such a course several times, provided different topics are studied.

Credit Hours: 3 hrs  
Prerequisite: department permission
FIN 487 - Cooperative Education in Finance

Four months of full-time employment at a business or public organization in a finance position chosen for imparting practical experience in finance.

Credit Hours: 3 hrs  
Prerequisite: FIN 387 and department permission  
Notes: Use on a finance major or minor not permitted. Admittance by application only. Offered on a credit/no-credit basis

FIN 489 - Internship

Directed full-time work experience in the finance phase of a business or public organization. Use on a finance major or minor not permitted. May be repeated once for additional credit.

Credit Hours: 3 hrs  
Prerequisite: department permission  
Notes: Admittance by application only.

FIN 497 - Independent Study

Directed study of a problem or group of problems in finance.

Credit Hours: 1 hr  
Prerequisite: department permission

FIN 498 - Independent Study

Directed study of a problem or group of problems in finance.

Credit Hours: 2 hrs  
Prerequisite: department permission

FIN 499 - Independent Study

Directed study of a problem or group of problems in finance.

Credit Hours: 3 hrs  
Prerequisite: department permission
FIN 502 - Financial Principles

Provides beginning graduate students a solid foundation in the general principles of finance. Provides an appreciation of how businesses and households allocate scarce resources over time and when outcomes are uncertain. The primary focus is corporate finance; the course will also introduce financial markets and institutions, and investments.

Credit Hours: 3 hrs
Prerequisite: ACC 501; ECON 500 is recommended
Terms Offered: Course Rotation Schedules
Last Updated: Links 04/2011
Computer Information Systems Programs and Courses

Computer Information Systems

Major

Computer Information Systems Major

The CIS program provides a learning environment where the students design, develop and deploy a wide range of integrated, end-to-end business applications and services in order to enable small, medium and large organizations to become more connected with customers, employees, partners and suppliers. Students learn about interoperability and explore road maps with products and technologies such as instant messaging, live communications, workflows and portals. Students also learn how to integrate the organizations’ applications and processes, how to perform business-to-business communications and how to develop comprehensive and reliable e-business solutions.

Computer Information Systems Department Information:

Interim Department Head: Hung-Lian Tang
Department Contact: htang@emich.edu
Website: www.cis.emich.edu

General Education Requirements:

For specific requirements refer to the General Education Program. Download the Gen Ed Checklist here.

College of Business Pre-Admission Requirements: 56 Credit Hours

Students seeking admission to any program in the College of Business must complete 56 credit hours of course work to include the following courses listed below. In addition, students must have completed Eastern Michigan University's General Education Quantitative Reasoning requirement. Lastly, students must have an EMU GPA of at least 2.50.

- ACC 240 - Principles of Financial Accounting 3 hrs
- ACC 241 - Principles of Managerial Accounting 3 hrs
- COB 200L - Introduction to Business (Gen Ed Area V LBC) 3 hrs
- CTAC 124 - Foundations of Speech Communication (Gen Ed Area I) 3 hrs
- DS 265 - Business Statistics I 3 hrs
- ECON 201 - Principles of Macroeconomics (Gen Ed Area IV) 3 hrs
- ECON 202 - Principles of Microeconomics (Gen Ed Area IV) 3 hrs
- ENGL 121 - Composition II: Researching the Public Experience (Gen Ed Area I) 3 hrs
- IS 215 - End-User Computing 3 hrs
- LAW 293 - Legal Environment of Business 3 hrs
- MGMT 202 - Business Communication 3 hrs

Major Requirements: 66 hours
Business Core Courses: 36 hours

- ACC 240 - Principles of Financial Accounting 3 hrs
- ACC 241 - Principles of Managerial Accounting 3 hrs
- COB 200L - Introduction to Business (Gen Ed Area V LBC) 3 hrs
- DS 265 - Business Statistics I 3 hrs
- FIN 350 - Principles of Finance 3 hrs
- IS 215 - End-User Computing 3 hrs
- LAW 293 - Legal Environment of Business 3 hrs
- MGMT 202 - Business Communication 3 hrs
- MGMT 386 - Organizational Behavior and Theory 3 hrs
- * MGMT 490 - Business Policy 3 hrs
- MKTG 360 - Principles of Marketing 3 hrs
- OM 374 - Introduction to Operations Management 3 hrs

Discipline: 30 hours

- IS 247 - Introduction to Web Application Development 3 hrs
- IS 315 - Object-Oriented Application Development 3 hrs
- IS 320 - Business Data Communications and Information Security 3 hrs
- IS 380 - Introduction to Databases 3 hrs
- IS 413 - IT Infrastructure and Network Security 3 hrs
- IS 417 - Systems Analysis and Design 3 hrs
- IS 421 - Enterprise Database Application 3 hrs
- IS 425 - IS Project and Risk Management 3 hrs
- IS 449W - Information Systems Integration (Gen Ed Area I, W) 3 hrs

One course from the following:

- IS 350 - Enterprise Resource Planning 3 hrs
- IS 410 - Business Intelligence 3 hrs
- IS 416 - System Software Administration 3 hrs

Minor Requirements:

This program does not require a minor.

Program Total:

Students must earn a minimum total of 124 credits at the 100-level or above.

Notes:

Each student must choose a writing intensive course as part of major completion requirements. Consult your adviser for course options. All 200-level core courses listed above must be completed prior to admission to the College of Business.
* All 300-level core courses listed above must be completed before enrollment in MGMT 490 - Business Policy.

Critical Graduation Information:

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the 100-level and above. Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Earn a minimum of 60 credits from a four-year college or university; courses taken at community colleges cannot be used to meet this requirement. (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 unique credit hours in their major and 20 unique credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
- Not more than 60 credit hours in one subject area (prefix) may be applied towards the minimum of 124 credit hours required for a bachelor's degree.
- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more that one major or minor.
  - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
  - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
  - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor.
- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is coordinated by the Office of Admissions, and additional documentation may be required.
- Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be earned in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

General Education Requirements:

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available on the General Education section of the catalog: General Education

- For Students who began their undergraduate program at EMU in Fall 2007 or later or who have elected to follow the current ("new") General Education Program, follow the "For Students" link under the Current Program heading.
- For Students who began their undergraduate program at EMU before Fall 2007 and who have elected to follow the Pre-2007 General Education Requirements, follow the "General Education Program Prior to Fall 2007 (pdf file)" link under the Program Prior to Fall 2007 heading. Please note that students who wish to graduate under pre-2007 General
Education requirements must graduate by August 2014; those who have not completed all degree requirements by that time will need to satisfy the current (Fall 2007) General Education requirements.

Students who transferred to EMU may have modified general education requirements based on MACRAO or articulation agreements; consult your academic adviser for additional information.

University Information: Consult the online catalog at catalog.emich.edu.

Minor

Business Information Technology Governance Minor

Computer Information Systems Department Information:

Interim Department Head: Hung-Lian Tang
Department Contact: htang@emich.edu
Website: www.cis.emich.edu

Required Courses: 15 hours

- IS 320 - Business Data Communications and Information Security 3 hrs
- IS 350 - Enterprise Resource Planning 3 hrs
- IS 413 - IT Infrastructure and Network Security 3 hrs
- IS 425 - IS Project and Risk Management 3 hrs
- IS 427 - Business Process and Identity Management 3 hrs

Two courses from the following: 6 hours

- IS 247 - Introduction to Web Application Development 3 hrs
- IS 380 - Introduction to Databases 3 hrs
- IS 416 - System Software Administration 3 hrs
- IS 437 - Introduction to Business Information Technology Audit 3 hrs

Minor Total: 21 hours

Note:

All minors must have at least six hours of course work at the 300-level or above.

Students pursuing a COB minor must have a minimum cumulative GPA of 2.0 to enroll in 300/400 Business classes.

Students must be of Junior status (completion of 56 credit hours) to enroll in 300/400.

Computer Information Systems Minor

(For nonbusiness majors)
The Department of Computer Information Systems has established articulation agreements with Macomb, Monroe and Washtenaw Community College. For more information, please contact the department head or the Office of Community College Relations at 229 Rackham Hall, 487.6577.

To see a complete list of current colleges with program articulation agreements with EMU, please click here.

**Information Security**
IS 439 - Search Marketing Practicum (NEW COURSE)

Students will manage a Non-Profit's Adwords campaign and analyze account performance using Google Analytics. They will develop an online professional Networking presence using a personal blog, Twitter, LinkedIn and Google+ to gain direct experience using online social networking to gain search visibility. Successful students may qualify for professional certification.

Credit Hours: 3 hrs  
Prerequisite: IS 239 and department permission  
Class Restrictions: All Undergraduates, Second Bacc  
Terms Offered: Course Rotation Schedules  
Last Updated: New Course 05/2012, effective Winter 2013

Information Systems

IS 177 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr  
Prerequisite: department permission  
Terms Offered: Course Rotation Schedules  
Last Updated: Links 06/2012

IS 178 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs  
Prerequisite: department permission  
Terms Offered: Course Rotation Schedules  
Last Updated: Links 06/2012

IS 179 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs  
Prerequisite: department permission  
Terms Offered: Course Rotation Schedules  
Last Updated: Links 06/2012

IS 215 - End-User Computing

Computers are being used more extensively by managers and professionals. This revolution is known by the name “End-User Computing” or EUC. Students learn traditional information systems, and business problem-solving. In addition, a wide-range of applications including decision support systems, executive information systems, Non-clerical Office Automation, Data Communications, and local area networks, are covered. These applications cover all the functional areas of businesses. Course work includes conceptual material as well as laboratory material.
IS 219 - File Processing and COBOL Programming

COBOL programming is an important skill for business application developers. In this class, students will learn to program in COBOL while also learning the basic algorithms for producing reports with multiple control breaks and for processing sequential and random files. All students will design, write, debug and test COBOL programs using good design techniques and software engineering principles. Intended for computer information systems majors and others.

IS 239 - Google AdWords and Web Page Design

In this course students learn how to manage a significant search engine advertising budget. In particular, the course teaches students the fundamentals of business search visibility and web page design to capitalize on search driven traffic to web sites.

IS 247 - Introduction to Web Application Development

This course introduces students to the tools and techniques used for building Web-based applications. Students will gain an understanding in the fundamental workings of the Web. Students will be taught how to develop Web applications using client-side tools such as HTML and JavaScript and server-side tools such as ASP.

IS 277 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**IS 280 - Introduction to Expert Systems in Business**

This course covers concepts of decision support systems and expert systems as they are applied to practical business problems. Students will learn methods of artificial intelligence and decision analysis, and gain practical experience using DSS and AI software tools for designing business solutions.

Credit Hours: 3 hrs  
Prerequisite: IS 215  
Terms Offered: Course Rotation Schedules  
Previously Listed As: ORI 280  
Last Updated: Links 04/2011

**IS 315 - Object-Oriented Application Development**

This course provides an introduction to object-oriented programming. The course uses an application driven and step-by-step tutorial approach to teach students the basics of programming. It enables students to create applications and components ranging from services, business objects to system-level applications. The course gives students the foundation in programming principles.

Credit Hours: 3 hrs  
Prerequisite: IS 215  
Terms Offered: Course Rotation Schedules  
Previously Listed As: ORI 315, CSC 239, ORI 415  
Last Updated: Prerequisite Change 01/2012, effective Winter 2012; Links 04/2011

**IS 320 - Business Data Communications and Information Security**

This course discusses the technologies and applications of data communications, computer networking, and information security. Topics include communications standards, network operating systems, planning and operation of organizational data communication networks, information security, as well as management and control of servers and wireless systems. This course also discusses information security to ensure confidentiality, integrity, availability and authorized use of the system.

Credit Hours: 3 hrs  
Class Restrictions: Sophomore standing  
Terms Offered: Course Rotation Schedules
IS 339 - Google Analytics and Landing Page Optimization

This course is the second of two courses in a sequence with the following goal: To help you achieve mastery of the algorithmic business models that dominate the web today, the most important of which are search and search marketing. To that end, this particular course focuses on optimizing landing pages for targeted search engine marketing campaigns using Google AdWords.

Credit Hours: 3 hrs
Prerequisite: (IS 239 or IS 279 or IS 247) or permission of the instructor
Terms Offered: Course Rotation Schedules
Last Updated: Links 04/2011

IS 350 - Enterprise Resource Planning

This course facilitates students to understand what an enterprise resource planning (ERP) system is and how the ERP system can be used for an organization. Students will learn how to configure ERP systems. Also, students will learn how to build an ERP system similar to those found in industry.

Credit Hours: 3 hrs
Prerequisite: IS 215
Terms Offered: Course Rotation Schedules
Last Updated: Links 04/2011

IS 375 - Advanced Software Design and Programming

Software development methods and tools are constantly changing, and it is imperative that developers keep up with recent trends. This course concentrates on creating real-world programs using the latest tools and techniques. Students will gain practical experience in various aspects of programming, including graphic interfaces, database manipulation, object-oriented techniques and internetworking. In this project-oriented course students will be exposed to modern development environments, and will build on the skills learned in the earlier programming classes.

Credit Hours: 3 hrs
Prerequisite: IS 315
Terms Offered: Course Rotation Schedules
Previously Listed As: ORI 375
Last Updated: Links 04/2011

IS 377 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr
Prerequisite: department permission
Terms Offered: Course Rotation Schedules
Last Updated: Links 06/2012

IS 378 - Special Topics
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hr  
Prerequisite: department permission  
Terms Offered: Course Rotation Schedules  
Last Updated: Links 06/2012

**IS 379 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs  
Prerequisite: department permission  
Terms Offered: Course Rotation Schedules  
Last Updated: Links 06/2012

**IS 380 - Introduction to Databases**

This course covers basic concepts of database design and implementation, primarily focusing on desktop database applications. This is a hands-on, practical course concentrating on use of desktop DBMS software. Topics covered include: overview of data models, introduction to SQL and QBE, practical applications of database technology.

Credit Hours: 3 hrs  
Prerequisite: IS 215  
Terms Offered: Course Rotation Schedules  
Previously Listed As: ORI 380, ORI 419  
Last Updated: Links 04/2011

**IS 387 - Cooperative Education in Information Systems**

Four months of full-time employment at a business or public organization to impart practical experience in computer information systems disciplines.

Credit Hours: 3 hrs  
Prerequisite: Completion of three hours in computer information systems area and department permission  
Notes: Admittance by application only. Offered on a credit/no-credit basis. For general elective credit only  
Terms Offered: Course Rotation Schedules  
Last Updated: Links 06/2012

**IS 410 - Business Intelligence**

Business intelligence is the user-centered iterative process of accessing data (ideally stored in the data warehouse) and analyzing it to derive insights, draw conclusions and communicate finding that support an enterprise’s decision-making processes. This course includes topics that discuss technologies and applications for front-end analytical tools, on-report analysis, ad hoc query and reporting, data warehouse, online analytical processing, enterprise portals, data visualization and data mining.

Credit Hours: 3 hrs  
Prerequisite: IS 380 or IS 215 and department permission  
Terms Offered: Course Rotation Schedules
IS 413 - IT Infrastructure and Network Security

This course examines the network infrastructure security to ensure confidentiality, integrity, availability and authorized use of network. It explores conceptual, and technological aspects of network infrastructure and security. The services and technologies presented in the course include activity directory, web application servers, messaging, and wireless services and technologies. Security issues such as security protocols, cryptographic systems, router, intrusion detection/prevention systems, and firewalls are also discussed.

Credit Hours: 3 hrs
Class Restrictions: Sophomore standing
Terms Offered: Course Rotation Schedules
Previously Listed As: ORI 413
Last Updated: Links 07/2011

IS 416 - System Software Administration

This course introduces students to the features and capabilities of a multi-user operating system through "hands-on" exercises. Topics include: functions of an operating system, operating system commands, filters, pipes, redirection, file system structure, text editors, file processing, file security, shells, Internet communication and file transfers, shell programming and system administration.

Credit Hours: 3 hrs
Prerequisite: IS 247 and IS 320
Terms Offered: Course Rotation Schedules
Last Updated: Links 04/2011

IS 417 - Systems Analysis and Design

This course introduces students to processes, principles, guidelines, tools and techniques for systems analysis and design of information systems. Topics include information systems development life cycle, requirements gathering, methods and techniques for system modeling, user interface design and tools for automation of the system analysis and design. The major thrust of the course is to aid the communication process that must take place between the system developers and users. This is facilitated by the use of projects as a vehicle for effectively communicating the content of this course.

Credit Hours: 3 hrs
Prerequisite: IS 315
Terms Offered: Course Rotation Schedules
Previously Listed As: ORI 417
Last Updated: Links 04/2011

IS 421 - Enterprise Database Application

This course covers advanced SQL, normalization, detailed discussion of relational data models, hierarchical models and network models, client server databases (front-end and back-end), distributed DBMS and data warehousing. It involves intensive use of advanced DBMS tools.

Credit Hours: 3 hrs
Prerequisite: IS 247 and IS 380
Terms Offered: Course Rotation Schedules
IS 425 - IS Project and Risk Management

This course introduces concepts and practices in project management, information technology governance and risk assessment. Topics covered range from planning and selection of project, scheduling tasks, allocating resources, monitoring progress and ensuring on-time delivery, within budget, to on-target in meeting the requirements. Topics include risk management, risk assessment, risk reduction, and risk transfer, privacy and ethical issues.

Credit Hours: 3 hrs  
Class Restrictions: Sophomore standing  
Terms Offered: Course Rotation Schedules  
Previously Listed As: ORI 421  
Last Updated: Links 04/2011

IS 426 - Advanced Structured COBOL Programming

Students work in teams developing integrated information systems in structured COBOL. Searches, reporting, subprograms, random files, indexed sequential files, various sorting routines, debugging techniques, programming style, optimization techniques, structured and modular programming concepts, transferability and portability strategies, and documentation, including writing program specifications and users’ manuals.

Credit Hours: 3 hrs  
Prerequisite: IS 417  
Terms Offered: Course Rotation Schedules  
Last Updated: Links 07/2011

IS 427 - Business Process and Identity Management

The purpose of this course is to discuss enterprise applications control and identity management. In particular, it discusses ABAP, Role Management, Business-Driven Identity Management, Compliance and Auditing, Password Management, Connectivity and Services for a major ERP system (i.e. SAP).

Credit Hours: 3 hrs  
Class Restrictions: Sophomore standing  
Terms Offered: Course Rotation Schedules  
Last Updated: Links 06/2011

IS 437 - Introduction to Business Information Technology Audit

This course introduces the basics of the information technology audit and control function. The concepts and techniques used in information technology audits will be reviewed. Students will learn the process of defining a control structure with goals and objectives, audit an information technology infrastructure against it, and establish a systematic remediation procedure for any inadequacies.

Credit Hours: 3 hrs  
Class Restrictions: Sophomore standing  
Terms Offered: Course Rotation Schedules  
Last Updated: Links 06/2012
**IS 442 - Information Resource Management**

Most organizations use computers for operations, control and planning, and for office automation. While computers facilitate and enhance the functioning of organizations, they also add to the responsibilities of managers. In this course, students learn how to acquire, organize, monitor and control information resources. The course also discusses problems unique to the management of information resources.

- **Credit Hours:** 3 hrs
- **Prerequisite:** Nine credit hours of IS courses from 219 and above
- **Terms Offered:** Course Rotation Schedules
- **Previously Listed As:** ORI 442
- **Last Updated:** Links 07/2011

**IS 449W - Information Systems Integration (Gen Ed Area I, W)**

This is a capstone course. The course introduces concepts, technologies and methodologies currently used for building information systems through selection and integration of available components and applications. Students will also learn how to customize available components and build new components when required. The course covers enterprise application integration (EAI) and business-to-business (B2B) integration.

- **Credit Hours:** 3 hrs
- **Prerequisite:** IS 413, IS 417 and IS 421
- **Terms Offered:** Course Rotation Schedules
- **Previously Listed As:** IS 449, ORI 449
- **Last Updated:** Links 03/2011

**IS 477 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

- **Credit Hours:** 1 hr
- **Prerequisite:** department permission
- **Terms Offered:** Course Rotation Schedules
- **Last Updated:** Links 06/2012

**IS 478 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

- **Credit Hours:** 2 hrs
- **Prerequisite:** department permission
- **Terms Offered:** Course Rotation Schedules
- **Last Updated:** Links 06/2012

**IS 479 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.
Credit Hours: 3 hrs
Prerequisite: department permission
Terms Offered: Course Rotation Schedules
Last Updated: Links 06/2012

**IS 487 - Cooperative Education in Information Systems**

Four months of full-time employment at a business or public organization to impart a practical experience in computer information systems disciplines.

Credit Hours: 3 hrs
Prerequisite: IS 387 and department permission
Notes: Admittance by application only
Terms Offered: Course Rotation Schedules
Last Updated: Links 04/2011

**IS 489 - Internship**

Directed full-time work experience in the business computer systems units of a business organization.

Credit Hours: 3 hrs
Prerequisite: major and department permission
Notes: This course may be repeated for a maximum of six hours.
Terms Offered: Course Rotation Schedules
Last Updated: Links 06/2012

**IS 497 - Independent Study**

Directed study of a problem or group of problems in production systems or management science.

Credit Hours: 1 hr
Prerequisite: department permission
Terms Offered: Course Rotation Schedules
Last Updated: Links 06/2012

**IS 498 - Independent Study**

Directed study of a problem or group of problems in production systems or management science.

Credit Hours: 2 hrs
Prerequisite: department permission
Terms Offered: Course Rotation Schedules
Last Updated: Links 06/2012

**IS 499 - Independent Study**

Directed study of a problem or group of problems in production systems or management science.

Credit Hours: 3 hrs
Prerequisite: department permission
IS 510 - Introduction to Object-Oriented Programming

In this course, you gain a solid foundation in object-oriented and component-based development, positioning you to move seamlessly into the strategic application of these technologies — including tools, languages and methodologies — to meet your business needs.

Credit Hours: 3 hrs
Notes: This is a graduate course in an undergraduate program.

Terms Offered: Course Rotation Schedules
Previously Listed As: ORI 510
Last Updated: Links 06/2012

Operations Management

OM 177 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr

Terms Offered: Course Rotation Schedules
Previously Listed As: POM 177
Last Updated: Links 04/2011

OM 178 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs

Terms Offered: Course Rotation Schedules
Previously Listed As: POM 178
Last Updated: Links 04/2011

OM 179 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs

Terms Offered: Course Rotation Schedules
Previously Listed As: POM 179
Last Updated: Links 04/2011

OM 277 - Special Topics
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 1 hr  
**Terms Offered:** Course Rotation Schedules  
**Previously Listed As:** POM 277  
**Last Updated:** Links 04/2011

**OM 278 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 2 hrs  
**Terms Offered:** Course Rotation Schedules  
**Previously Listed As:** POM 278  
**Last Updated:** Links 04/2011

**OM 279 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 3 hrs  
**Terms Offered:** Course Rotation Schedules  
**Previously Listed As:** POM 279  
**Last Updated:** Links 04/2011

**OM 374 - Introduction to Operations Management**

The major design, processes and control problems of operations management in manufacturing and service organizations. Topics include product or service design; facilities location and layout; productivity, including job design, standards and incentive plans; project management; materials management, including forecasting, purchasing and inventory control; operations control; quality assurance and control.

**Credit Hours:** 3 hrs  
**Prerequisite:** DS 265  
**Terms Offered:** Course Rotation Schedules  
**Previously Listed As:** POM 374  
**Last Updated:** Links 04/2011

**OM 377 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 1 hr  
**Terms Offered:** Course Rotation Schedules  
**Previously Listed As:** POM 377  
**Last Updated:** Links 04/2011
OM 378 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs
Terms Offered: Course Rotation Schedules
Previously Listed As: POM 378
Last Updated: Links 04/2011

OM 379 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs
Terms Offered: Course Rotation Schedules
Previously Listed As: POM 379
Last Updated: Links 04/2011

Management Programs and Courses

Management

Major

Entrepreneurship Major

The general requirements for the bachelor of business administration degree, the academic major requirements below and sufficient electives to meet the minimum of 124 hours for graduation must be completed.

Management Department Information:

Department Head: Fraya Wagner-Marsh
Department Contact: fwagnerm@emich.edu
Website: http://www.mgt.emich.edu/

General Education Requirements:

For specific requirements refer to the General Education Program. Download the Gen Ed Checklist here.

College of Business Pre-Admission Requirements: 56 Credit Hours

Students seeking admission to any program in the College of Business must complete 56 credit hours of course work to include the following courses listed below. In addition, students must have completed Eastern Michigan University's General Education Quantitative Reasoning requirement. Lastly, students must have an EMU GPA of at least 2.50.

- ACC 240 - Principles of Financial Accounting 3 hrs
- ACC 241 - Principles of Managerial Accounting 3 hrs
- COB 200L - Introduction to Business (Gen Ed Area V LBC) 3 hrs
- CTAC 124 - Foundations of Speech Communication (Gen Ed Area I) 3 hrs
- DS 265 - Business Statistics I 3 hrs
- ECON 201 - Principles of Macroeconomics (Gen Ed Area IV) 3 hrs
- ECON 202 - Principles of Microeconomics (Gen Ed Area IV) 3 hrs
- ENGL 121 - Composition II: Researching the Public Experience (Gen Ed Area I) 3 hrs
- IS 215 - End-User Computing 3 hrs
- LAW 293 - Legal Environment of Business 3 hrs
- MGMT 202 - Business Communication 3 hrs

Major Requirements: 60 hours

Business Core Courses: 36 hours

- ACC 240 - Principles of Financial Accounting 3 hrs
• ACC 241 - Principles of Managerial Accounting 3 hrs
• COB 200L - Introduction to Business (Gen Ed Area V LBC) 3 hrs
• DS 265 - Business Statistics I 3 hrs
• FIN 350 - Principles of Finance 3 hrs
• IS 215 - End-User Computing 3 hrs
• LAW 293 - Legal Environment of Business 3 hrs
• MGMT 202 - Business Communication 3 hrs
• MGMT 386 - Organizational Behavior and Theory 3 hrs
• ** MGMT 490 - Business Policy 3 hrs
• MKTG 360 - Principles of Marketing 3 hrs
• ** OM 374 - Introduction to Operations Management 3 hrs

Discipline: 24 hours

• MGMT 384 - Human Resource Management 3 hrs
• MGMT 388 - Introduction to Entrepreneurship 3 hrs
• MGMT 480W - Management Responsibility and Ethics (Gen Ed Area I, W) 3 hrs
• MGMT 481 - Managing the Entrepreneurial Venture 3 hrs
• MGMT 488L - Field Studies in Entrepreneurship (Gen Ed Area V LBC) 3 hrs

One course from the following:

• MKTG 363 - Retailing 3 hrs
• MKTG 374 - Business to Business Marketing 3 hrs
• MKTG 430 - Marketing of Services 3 hrs
• MKTG 473 - Marketing and Product Innovation 3 hrs
• MKTG 479 - Special Topics 3 hrs

Two courses from the following:

• ACC 342 - Managerial Cost Accounting 3 hrs
• ACC 344 - Principles of Taxation 3 hrs
• FIN 352 - Financial Management for Entrepreneurs 3 hrs
• MGMT 460 - Management Skills 3 hrs
• * MKTG 363 - Retailing 3 hrs
• * MKTG 374 - Business to Business Marketing 3 hrs
• * MKTG 430 - Marketing of Services 3 hrs

Minor Requirements:

This program does not require a minor.

Program Total:

Students must earn a minimum total of 124 credits at the 100-level or above.
Notes:

Each student must choose a writing intensive course as part of major completion requirements. Consult your adviser for course options. All 200-level Core Courses listed above must be completed prior to admission to the College of Business.

* Students may select one of these courses if not previously taken to meet marketing requirement

** All 300-level Core Courses listed above must be completed before enrollment in MGMT 490 - Business Policy. OM 374 can be taken concurrently with MGMT 490.

Critical Graduation Information:

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the 100-level and above. Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Earn a minimum of 60 credits from a four-year college or university; courses taken at community colleges cannot be used to meet this requirement. (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 unique credit hours in their major and 20 unique credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
- Not more than 60 credit hours in one subject area (prefix) may be applied towards the minimum of 124 credit hours required for a bachelor's degree.
- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more that one major or minor.
  - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
  - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
  - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor
- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is coordinated by the Office of Admissions, and additional documentation may be required.
- Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be earned in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

General Education Requirements:
EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available on the General Education section of the catalog: General Education

- For Students who began their undergraduate program at EMU in Fall 2007 or later or who have elected to follow the current ("new") General Education Program, follow the "For Students" link under the Current Program heading.
- For Students who began their undergraduate program at EMU before Fall 2007 and who have elected to follow the Pre-2007 General Education Requirements, follow the "General Education Program Prior to Fall 2007 (pdf file)" link under the Program Prior to Fall 2007 heading. Please note that students who wish to graduate under pre-2007 General Education requirements must graduate by August 2014; those who have not completed all degree requirements by that time will need to satisfy the current (Fall 2007) General Education requirements.

Students who transferred to EMU may have modified general education requirements based on MACRAO or articulation agreements; consult your academic adviser for additional information.

University Information: Consult the online catalog at catalog.emich.edu.

General Business Major

The major in general business has been designed for students seeking a broad business background rather than specialization in any one functional area of business. The program for the general business major includes a minimum of 124 hours for graduation as stipulated in the catalog.

Management Department Information:

Department Head: Fraya Wagner-Marsh
Department Contact: fwagnerm@emich.edu
Website: http://www.mgt.emich.edu/

General Education Requirements:

For specific requirements refer to the General Education Program. Download the Gen Ed Checklist here.

College of Business Pre-Admission Requirements: 56 Credit Hours

Students seeking admission to any program in the College of Business must complete 56 credit hours of course work to include the following courses listed below. In addition, students must have completed Eastern Michigan University's General Education Quantitative Reasoning requirement. Lastly, students must have an EMU GPA of at least 2.50.

- ACC 240 - Principles of Financial Accounting 3 hrs
- ACC 241 - Principles of Managerial Accounting 3 hrs
- COB 200L - Introduction to Business (Gen Ed Area V LBC) 3 hrs
- CTAC 124 - Foundations of Speech Communication (Gen Ed Area I) 3 hrs
- DS 265 - Business Statistics I 3 hrs
- ECON 201 - Principles of Macroeconomics (Gen Ed Area IV) 3 hrs
- ECON 202 - Principles of Microeconomics (Gen Ed Area IV) 3 hrs
- ENGL 121 - Composition II: Researching the Public Experience (Gen Ed Area I) 3 hrs
- IS 215 - End-User Computing 3 hrs
- LAW 293 - Legal Environment of Business 3 hrs
- MGMT 202 - Business Communication 3 hrs
Major Requirements: 60 hours

Business Core Courses: 36 hours

- ACC 240 - Principles of Financial Accounting 3 hrs
- ACC 241 - Principles of Managerial Accounting 3 hrs
- COB 200L - Introduction to Business (Gen Ed Area V LBC) 3 hrs
- DS 265 - Business Statistics I 3 hrs
- FIN 350 - Principles of Finance 3 hrs
- IS 215 - End-User Computing 3 hrs
- LAW 293 - Legal Environment of Business 3 hrs
- MGMT 202 - Business Communication 3 hrs
- MGMT 386 - Organizational Behavior and Theory 3 hrs
- MKTG 360 - Principles of Marketing 3 hrs
- ** OM 374 - Introduction to Operations Management 3 hrs
- ** MGMT 490 - Business Policy 3 hrs

Discipline: 24 hours

- MGMT 384 - Human Resource Management 3 hrs
- MGMT 388 - Introduction to Entrepreneurship 3 hrs
- MGMT 460 - Management Skills 3 hrs
- ** MGMT 480W - Management Responsibility and Ethics (Gen Ed Area I, W) 3 hrs

Students must also complete twelve hours of restricted electives selected from at least two different functional areas (ACC, FIN, IS, MGMT, MKTG, LAW, SCM, IB, OM) in the College of Business. (12 hours)

Minor Requirements:

This program does not require a minor.

Program Total:

Students must earn a minimum total of 124 credits at the 100-level or above.

Note:

* Each student must choose a writing intensive course as part of major completion requirements. Consult your adviser for course options. All 200-level core courses listed above must be completed prior to admission to the College of Business.

** All 300-level core courses listed above must be completed before enrollment in MGMT 490 - Business Policy. OM 374 can be take concurrently with MGMT 490.

Critical Graduation Information:
The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the 100-level and above. Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Earn a minimum of 60 credits from a four-year college or university; courses taken at community colleges cannot be used to meet this requirement. (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 unique credit hours in their major and 20 unique credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
- Not more than 60 credit hours in one subject area (prefix) may be applied towards the minimum of 124 credit hours required for a bachelor's degree.
- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more that one major or minor.
  - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor.
  - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
  - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor.
- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is coordinated by the Office of Admissions, and additional documentation may be required.
- Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be earned in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

General Education Requirements:

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available on the General Education section of the catalog: General Education

- For Students who began their undergraduate program at EMU in Fall 2007 or later or who have elected to follow the current ("new") General Education Program, follow the "For Students" link under the Current Program heading.
- For Students who began their undergraduate program at EMU before Fall 2007 and who have elected to follow the Pre-2007 General Education Requirements, follow the "General Education Program Prior to Fall 2007 (pdf file)" link under the Program Prior to Fall 2007 heading. Please note that students who wish to graduate under pre-2007 General Education requirements must graduate by August 2014; those who have not completed all degree requirements by that time will need to satisfy the current (Fall 2007) General Education requirements.

Students who transferred to EMU may have modified general education requirements based on MACRAO or articulation agreements; consult your academic adviser for additional information.

University Information: Consult the online catalog at catalog.emich.edu.
Management Major with Concentrations

The major in management prepares students for a variety of roles in the business world. These roles can include line and staff supervisory positions and human resource assignments. The general requirements for the bachelor of business administration degree include a minimum of 124 hours for graduation as stipulated in the catalog.

Management Department Information:

Department Head: Fraya Wagner-Marsh
Department Contact: fwagnerm@emich.edu

- ENGL 121 - Composition II: Researching the Public Experience (Gen Ed Area I) 3 hrs
- IS 215 - End-User Computing 3 hrs
- LAW 293 - Legal Environment of Business 3 hrs
- MGMT 202 - Business Communication 3 hrs

Major Requirements: 60 hours

Business Core Courses: 36 hours

- ACC 240 - Principles of Financial Accounting 3 hrs
- ACC 241 - Principles of Managerial Accounting 3 hrs
- COB 200L - Introduction to Business (Gen Ed Area V LBC) 3 hrs
- DS 265 - Business Statistics I 3 hrs
- FIN 350 - Principles of Finance 3 hrs
- IS 215 - End-User Computing 3 hrs
- LAW 293 - Legal Environment of Business 3 hrs
- MGMT 202 - Business Communication 3 hrs
• MGMT 386 - Organizational Behavior and Theory 3 hrs
• ** MGMT 490 - Business Policy 3 hrs
• MKTG 360 - Principles of Marketing 3 hrs
• ** OM 374 - Introduction to Operations Management 3 hrs

Management Required Courses: 12 hours

• MGMT 384 - Human Resource Management 3 hrs
• MGMT 460 - Management Skills 3 hrs
• * MGMT 480W - Management Responsibility and Ethics (Gen Ed Area I, W) 3 hrs
• MGMT 486 - Organizational Change and Team Building 3 hrs

Choose Concentration:

Choose one of the two concentrations below:

Human Resource Management Concentration: 12 hours

Four courses from the following:

• MGMT 482 - Compensation Administration 3 hrs
• MGMT 483 - Staffing Organizations 3 hrs
• MGMT 484 - Management-Union Relations 3 hrs
• MGMT 485 - Human Resource Development 3 hrs
• MGMT 496 - Current Issues in Human Resource Management 3 hrs

Management Concentration: 12 hours

Four courses from the following:

• MGMT 388 - Introduction to Entrepreneurship 3 hrs
• MGMT 403 - Managerial Communication: Theory and Application 3 hrs
• MGMT 450 - Leadership Theories and Practice 3 hrs
• MGMT 479 - Special Topics 3 hrs
• MGMT 481 - Managing the Entrepreneurial Venture 3 hrs
• MGMT 482 - Compensation Administration 3 hrs
• MGMT 483 - Staffing Organizations 3 hrs
• MGMT 484 - Management-Union Relations 3 hrs
• MGMT 485 - Human Resource Development 3 hrs
• MGMT 488L - Field Studies in Entrepreneurship (Gen Ed Area V LBC) 3 hrs
• MGMT 492 - Managing World Business Communication 3 hrs
• MGMT 495 - International Management 3 hrs
• MGMT 496 - Current Issues in Human Resource Management 3 hrs

Program Total:
Students must earn a minimum total of 124 credits at the 100-level or above.

**Note:**

Each student must choose a writing intensive course as part of major completion requirements. Consult your adviser for course options.

* All 200-level core courses listed above must be completed prior to admission to the College of Business.

** All 300-level core courses listed above must be completed before enrollment in MGMT 490 - Business Policy. OM 374 can be take concurrently with MGMT 490.

**Critical Graduation Information:**

The following are minimum requirements for all bachelor’s degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the **100-level and above**. Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Earn a minimum of 60 credits from a four-year college or university; **courses taken at community colleges cannot be used to meet this requirement.** (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 **unique** credit hours in their major and 20 **unique** credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
- Not more than 60 credit hours in one subject area (prefix) may be applied towards the minimum of 124 credit hours required for a bachelor's degree.
- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more that one major or minor.
  - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
  - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
  - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor.
- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is coordinated by the Office of Admissions, and additional documentation may be required.
- Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be earned in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

**General Education Requirements:**
EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available on the General Education section of the catalog: General Education

- For Students who began their undergraduate program at EMU in Fall 2007 or later or who have elected to follow the current ("new") General Education Program, follow the "For Students" link under the Current Program heading.
- For Students who began their undergraduate program at EMU before Fall 2007 and who have elected to follow the Pre-2007 General Education Requirements, follow the "General Education Program Prior to Fall 2007 (pdf file)" link under the Program Prior to Fall 2007 heading. Please note that students who wish to graduate under pre-2007 General Education requirements must graduate by August 2014; those who have not completed all degree requirements by that time will need to satisfy the current (Fall 2007) General Education requirements.

Students who transferred to EMU may have modified general education requirements based on MACRAO or articulation agreements; consult your academic adviser for additional information.

Use on a management major or minor not permitted.

**Credit Hours:** 1 hr  
**Prerequisite:** MGMT 202, department permission  
**Notes:** Admittance by application only.  
**Terms Offered:** Course Rotation Schedules  
**Last Updated:** Links 04/2011

### MGMT 382 - Cooperative Education in Management

Use on a management major or minor not permitted.

**Credit Hours:** 2 hrs  
**Prerequisite:** MGMT 202, department permission  
**Notes:** Admittance by application only.  
**Terms Offered:** Course Rotation Schedules  
**Last Updated:** Links 04/2011

### MGMT 384 - Human Resource Management

Industrial relations functions in business organization. Recruitment, selection, placement, training, motivation and appraisal of personnel; the scientific approach to the solution of practical problems of industrial manpower utilization.

**Credit Hours:** 3 hrs  
**Terms Offered:** Course Rotation Schedules  
**Previously Listed As:** MGT 384  
**Last Updated:** Links 07/2011

### MGMT 386 - Organizational Behavior and Theory

A survey of the theory and practice of Organizational Behavior to better understand and manage people at work through an interdisciplinary examination of individual, group and organizational issues. Critical topics are ethics, groups and teams, motivation, leadership, feedback, culture, diversity, organizational design and change.

**Credit Hours:** 3 hrs  
**Terms Offered:** Course Rotation Schedules  
**Previously Listed As:** MGT 386  
**Last Updated:** Links 07/2011

### MGMT 387 - Cooperative Education in Management

Four months of full-time employment at a business or public organization in a management position chosen for imparting practical experience in management.

**Credit Hours:** 3 hrs  
**Prerequisite:** MGMT 202 and department permission  
**Major Restrictions:** Use on a Management Major or Minor is not permitted  
**Notes:** Offered on a credit/no-credit basis. Admittance by application only.  
**Terms Offered:** Course Rotation Schedules  
**Last Updated:** Links 04/2011
MGMT 388 - Introduction to Entrepreneurship

This course emphasizes the role of the entrepreneur in making integrated managerial and growth decisions for a start-up enterprise. The focus will be on developing a business plan for a new venture.

Credit Hours: 3 hrs
Terms Offered: Course Rotation Schedules
Previously Listed As: MGT 388
Last Updated: Links 07/2011

MGMT 402 - Business Report Writing

Study of principles and practices of business report writing in business, industry, education and government. Concepts, their illustrations, and applications. The creative and functional aspects in understanding the problem, gathering and organizing data, and presenting reports for management, employees and the public.

Credit Hours: 3 hrs
Prerequisite: MGMT 202
Terms Offered: Course Rotation Schedules
Last Updated: Links 04/2011

MGMT 403 - Managerial Communication: Theory and Application

A theoretical framework of key managerial communication concepts; skills used to diagnose communication problems and to communicate corporate policies.

Credit Hours: 3 hrs
Prerequisite: MGMT 202 or department permission
Terms Offered: Course Rotation Schedules
Last Updated: Links 04/2011

MGMT 450 - Leadership Theories and Practice

Leadership theories and practice will provide students with knowledge of the theories of leadership as well as practice in leadership and management. Several diagnostic techniques will be used to help students understand their own leadership strengths and areas to be developed.

Credit Hours: 3 hrs
Terms Offered: Course Rotation Schedules
Last Updated: Links 06/2012

MGMT 457 - The Merlanti Corporate Ethics Seminar

The Merlanti seminar seeks to provide future business leaders (in part through case studies and mentoring from practitioners) with the advanced knowledge and business skills needed to identify, analyze and resolve pressing contemporary issues in corporate social responsibility and ethics.

Credit Hours: 3 hrs
Prerequisite: department permission is required
Terms Offered: Course Rotation Schedules
Last Updated: Links 06/2012
MGMT 460 - Management Skills

This course will provide students with extensive practice in critical management skills such as group facilitation, project management, supervising employees and individual career management. Multiple participative techniques will be used such as case study, exercises, group projects and student presentations.

Credit Hours: 3 hrs
Prerequisite: MGMT 384 and MGMT 386
Terms Offered: Course Rotation Schedules
Previously Listed As: MGT 360, MGT 281
Last Updated: Links 04/2011

MGMT 477 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr
Terms Offered: Course Rotation Schedules
Last Updated: Links 06/2012

MGMT 478 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs
Terms Offered: Course Rotation Schedules
Last Updated: Links 06/2012

MGMT 479 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs
Terms Offered: Course Rotation Schedules
Last Updated: Links 06/2012

MGMT 480W - Management Responsibility and Ethics (Gen Ed Area I, W)

Social, legal and moral pressures of external and community groups on business operations; management’s role of responsibility and leadership in interacting with these forces, and reducing and resolving conflicts with them.

Credit Hours: 3 hrs
Class Restrictions: Senior standing or department permission
Notes: MGMT457 can be used as a substitute for this course.
Terms Offered: Course Rotation Schedules
Previously Listed As: MGMT 480, Management Responsibility in Society, MGT 480
The Writing Intensive communication activities woven into this course's activities will give you practical experiences that apply and reinforce the written and oral communication tools you'll need as a business professional for active, ethical participation in
the global community. You'll communicate through individual written and oral presentations on business ethics and corporate
social responsibility case studies. Additionally, you'll work on a case study report, a team project, and will keep a journal which
lets you review and reflect on the readings, cases, and daily experiences that mirror (and occasionally) contradict what the course
covers. Through staged written assignments in the project, you'll demonstrate your understanding and ability to apply and
communicate what you have learned in this class as well as in other management courses in terms of human resource
management and leadership.

**MGMT 481 - Managing the Entrepreneurial Venture**

This course focuses on managing an entrepreneurial venture in an increasingly professional manner. Topics include: management
control systems, integrating short and long-range plans, financial planning, developing and implementing human resource
systems, and developing a management team.

**Credit Hours:** 3 hrs  
**Prerequisite:** MGMT 388 or department permission  
**Terms Offered:** Course Rotation Schedules  
**Previously Listed As:** MGT 481  
**Last Updated:** Links 04/2011

**MGMT 482 - Compensation Administration**

Basic concepts of design and methodology for wage and salary administration in an organization. Fundamental considerations in
evaluating jobs and positions. Compensation methods and wage incentive systems.

**Credit Hours:** 3 hrs  
**Prerequisite:** MGMT 384  
**Terms Offered:** Course Rotation Schedules  
**Previously Listed As:** MGT 482  
**Last Updated:** Links 04/2011

**MGMT 483 - Staffing Organizations**

The staffing of organizations; skills needed in human resource planning, recruitment, job analysis, selection techniques and
evaluation.

**Credit Hours:** 3 hrs  
**Prerequisite:** MGMT 384  
**Terms Offered:** Course Rotation Schedules  
**Last Updated:** Links 04/2011

**MGMT 484 - Management-Union Relations**

Management strategy and techniques for conducting effective management-union relationships and negotiations; contract
administration for both industrial and nonindustrial organizations.

**Credit Hours:** 3 hrs  
**Prerequisite:** MGMT 384  
**Terms Offered:** Course Rotation Schedules  
**Last Updated:** Links 04/2011
**MGMT 485 - Human Resource Development**

Determination of training needs; development of training objectives; selection and development of resources for appropriate training experiences; implementation of training program evaluation.

**Credit Hours:** 3 hrs  
**Prerequisite:** MGMT 384 or department permission  
**Terms Offered:** Course Rotation Schedules  
**Previously Listed As:** MGT 485  
**Last Updated:** Links 04/2011

**MGMT 486 - Organizational Change and Team Building**

A practical approach to creating the organizational changes necessary for effective team-based, continual-improvement work systems. Students learn how to manage change effectively, providing a foundation for learning how to build teams and work effectively within teams. The course provides knowledge and critical skills needed for initiating and managing change and for building effective teams.

**Credit Hours:** 3 hrs  
**Prerequisite:** MGMT 386 or department permission  
**Terms Offered:** Course Rotation Schedules  
**Last Updated:** Links 04/2011

**MGMT 487 - Cooperative Education in Management**

Four months of full-time employment at a business or public organization in a management position chosen for imparting practical experience in management.

**Credit Hours:** 3 hrs  
**Prerequisite:** MGMT 387; department permission  
**Major Restrictions:** Use on a Management Major or Minor is not permitted  
**Notes:** Offered on a credit/no-credit basis. Admittance by application only.  
**Terms Offered:** Course Rotation Schedules  
**Last Updated:** Links 04/2011

**MGMT 488L - Field Studies in Entrepreneurship (Gen Ed Area V LBC)**

This course puts student teams into entrepreneurial firms to study and analyze the problems of an actual business. A comprehensive final report to the firm is required.

**Credit Hours:** 3 hrs  
**Prerequisite:** MGMT 388 or department permission  
**Notes:** This course will count as credit for Learning Beyond the Classroom.  
**Terms Offered:** Course Rotation Schedules  
**Previously Listed As:** MGMT 488  
This is a real-world field study of an entrepreneurial venture. It presents special opportunities for learning and imposes special responsibilities since we are dealing with real organizations and real people and what we do may have real impact. Therefore, students participate in development, maintenance, and/or change of community standards and norms because they will be proposing real business solutions to the firms they are working with.  
**Last Updated:** Links 06/2012

**MGMT 489 - Management Internship**
Approved on-the-job experience of students in the management internship program supplemented by seminars as appropriate.

**Credit Hours:** 3 hrs  
**Prerequisite:** department permission  
**Major Restrictions:** Open only to students formally enrolled in Management  
**Notes:** Students can only take this course during their terms of supervised work experience. Offered on a credit/no-credit basis.  
**Terms Offered:** Course Rotation Schedules  
**Last Updated:** Links 06/2012

**MGMT 490 - Business Policy**

Integration and analytical application of fundamental areas of business-to-case problems. Policy issues in the identification and resolution of problem situations.

**Credit Hours:** 3 hrs  
**Concurrent Prerequisite:** OM 374  
**Class Restrictions:** Senior standing (Senior standing implies completion of the College of Business core: FIN 350, MKTG 360 and MGMT 386)  
**Major Restrictions:** Business Administration Majors only or department permission  
**Terms Offered:** Course Rotation Schedules  
**Last Updated:** Links 04/2011

**MGMT 492 - Managing World Business Communication**

This course focuses on such issues as global management in a cultural context, breaking down international business barriers, motivation in a global context, management of culture shock, international conflict management, management and cultural synergy, and business communication practice and traditions in specific national settings.

**Credit Hours:** 3 hrs  
**Prerequisite:** MGMT 202 or department permission  
**Terms Offered:** Course Rotation Schedules  
**Previously Listed As:** MGT 492  
**Last Updated:** Links 04/2011

**MGMT 495 - International Management**

Comparisons of management concepts, processes, and practices in various countries with their differing educational, sociological, legal-political and cultural constraints. The evolution of management, and the transfer of managerial philosophy and practices to other countries.

**Credit Hours:** 3 hrs  
**Prerequisite:** MGMT 386 or department permission  
**Terms Offered:** Course Rotation Schedules  
**Last Updated:** Links 04/2011

**MGMT 496 - Current Issues in Human Resource Management**

A practical application of HR management techniques to current business issues; specially designed workshop-type sessions for prospective managers, supervisors and personnel specialists.

**Credit Hours:** 3 hrs  
**Prerequisite:** MGMT 384
MGMT 497 - Independent Study

Directed study of a problem in management not otherwise treated in department courses.

Credit Hours: 1 hr
Prerequisite: department permission

Last Updated: Links 06/2012

MGMT 498 - Independent Study

Directed study of a problem in management not otherwise treated in department courses.

Credit Hours: 2 hrs
Prerequisite: department permission

Last Updated: Links 06/2012

MGMT 499 - Independent Study

Directed study of a problem in management not otherwise treated in department courses.

Credit Hours: 3 hrs
Prerequisite: department permission

Last Updated: Links 06/2012
Marketing Programs and Courses

Marketing

Major

International Business Major

The international business major offers a multidisciplinary focus within the College of Business that prepares students for careers in international business and related fields. The IB major is multidisciplinary, involving material from all areas of the College of Business as well as economics and foreign language required components. While the IB program is administratively housed in the Marketing Department, the IB prefix is an interdisciplinary prefix taught by professors from all business disciplines. Student advising for the IB program is handled by the Director of International Business Programs.

The IB degree is undertaken with an existing College of Business B.B.A. degree major (accounting, accounting information systems, computer information systems, economics, entrepreneurship, finance, general business, management, marketing, or supply chain management). Additionally, all IB students must fulfill a study abroad experience and prove proficiency in a second language or complete a foreign language sequence. The major varies from 124-139 hours depending on the major chosen to combine with IB.

All students must take the required courses carrying an IB prefix. Additionally, students must take the international course offering within their functional business area (e.g., an IB major in finance would require FIN 370 - International Business Finance).

The IB program of study prepares students for careers in an increasingly integrated world economy. The IB major is designed to appeal to students who favor an interdisciplinary approach to professional business studies. The major should also be appealing to international students or students who are already bilingual. The program of study emphasizes both broad-based business knowledge in international business (including a required course in international business ethics) as well as specific geographical areas of expertise (through seminars on doing business in specific nations or regions).

Marketing Department information:

Department Head: Anne L. Balazs
Department Contact: abalazs@emich.edu
Website: http://www.mkt.emich.edu/

General Education Requirements:

For specific requirements refer to the General Education Program. Download the Gen Ed Checklist here.

College of Business Pre-Admission Requirements: 56 Credit Hours

Students seeking admission to any program in the College of Business must complete 56 credit hours of course work to include the following courses listed below. In addition, students must have completed Eastern Michigan University's General Education Quantitative Reasoning requirement. Lastly, students must have an EMU GPA of at least 2.50.

- ACC 240 - Principles of Financial Accounting 3 hrs
- ACC 241 - Principles of Managerial Accounting 3 hrs
- COB 200L - Introduction to Business (Gen Ed Area V LBC) 3 hrs
- CTAC 124 - Foundations of Speech Communication (Gen Ed Area I) 3 hrs
- DS 265 - Business Statistics I 3 hrs
- ECON 201 - Principles of Macroeconomics (Gen Ed Area IV) 3 hrs
- ECON 202 - Principles of Microeconomics (Gen Ed Area IV) 3 hrs
- ENGL 121 - Composition II: Researching the Public Experience (Gen Ed Area I) 3 hrs
- IS 215 - End-User Computing 3 hrs
- LAW 293 - Legal Environment of Business 3 hrs
- MGMT 202 - Business Communication 3 hrs

Major Requirements: 60-66 hours

Business Core Courses: 36 hours

- ACC 240 - Principles of Financial Accounting 3 hrs
- ACC 241 - Principles of Managerial Accounting 3 hrs
- COB 200L - Introduction to Business (Gen Ed Area V LBC) 3 hrs
- DS 265 - Business Statistics I 3 hrs
- FIN 350 - Principles of Finance 3 hrs
- IS 215 - End-User Computing 3 hrs
- LAW 293 - Legal Environment of Business 3 hrs
- MGMT 202 - Business Communication 3 hrs
- MGMT 386 - Organizational Behavior and Theory 3 hrs
- *** MGMT 490 - Business Policy 3 hrs
- MKTG 360 - Principles of Marketing 3 hrs
- OM 374 - Introduction to Operations Management 3 hrs

Area Studies Requirements: 4.5 hours

- **** IB 375 - Doing Business in Countries/Regions 1.5 hrs

Required IB Courses: 4.5 hours

- IB 210 - Fundamentals of Global Business (Gen Ed Area III) 3 hrs
- IB 370 - International Business Ethics 1.5 hrs

Restricted Elective Course: 15 hours

*The number of electives a student takes depends on the number of required IB restricted electives required in your major as indicated under each functional area.*

- ACC 475 - International Accounting 3 hrs
- ECON 370 - Comparative Economic Systems 3 hrs
- ECON 480W - International Economics (Gen Ed Area I, W) 3 hrs
- FIN 370 - International Business Finance 3 hrs
- FLAN 489 - Internship in Language and International Trade 3 hrs
- IB 475 - International Business: Study Abroad Perspective 3 hrs
- IB 479 - Special Topics 3 hrs
- LAW 350 - International Business Law 3 hrs
- MGMT 492 - Managing World Business Communication 3 hrs
- MGMT 495 - International Management 3 hrs
- MKTG 375 - International Business Transactions 3 hrs
- MKTG 460 - International Marketing 3 hrs

**Language Requirements: 0-6 hours**

All international business students must complete (FRNH, GERN, JPNE, SPNH) 261. Depending on the past foreign language learning experience of individual students, they may be able to enter 261 directly. Conversely, students may need to begin foreign language study at a lower level, to be determined by the placement test in the Department of World Languages.

**see note**

- FRNH 261 - Introduction to Professional Language Study 3 hrs
- GERN 261 - Introduction to Professional Language Study 3 hrs
- JPNE 261 - Introduction to Professional Language Study 3 hrs
- SPNH 261 - Introduction to Professional Language Study (TO BE DELETED) 3 hrs

**Functional Areas: 24-36 hours**

Choose one of the following functional areas: Accounting, Accounting Information Systems, Computer Information Systems, Economics, Entrepreneurship, Finance, General Business, Management, Marketing or Supply Chain Management.

**I. Accounting: 24 hours**

**Required Courses:**

- ACC 296 - The Accounting Cycle and Profession 3 hrs
- ACC 340 - Intermediate Accounting 3 hrs
- ACC 342 - Managerial Cost Accounting 3 hrs
- ACC 344 - Principles of Taxation 3 hrs
- ACC 356 - Accounting Information Systems 3 hrs
- ACC 475 - International Accounting 3 hrs
- ACC 496W - Financial Management and Controllership (Gen Ed Area I, W) 3 hrs

**Restricted Electives:**

Choose one course from the following: (ACC 475 is required to fulfill the international business restricted electives)

- ACC 442 - Advanced Cost Accounting 3 hrs
- ACC 450 - Internal Auditing 3 hrs
- ACC 479 - Special Topics 3 hrs
- ACC 491 - Accounting Honors Thesis 3 hrs
- ACC 499 - Directed Studies 3 hrs
II. Accounting Information Systems: 36 hours

Required Courses:

- ACC 296 - The Accounting Cycle and Profession 3 hrs
- ACC 340 - Intermediate Accounting 3 hrs
- ACC 342 - Managerial Cost Accounting 3 hrs
- ACC 344 - Principles of Taxation 3 hrs
- ACC 356 - Accounting Information Systems 3 hrs
- ACC 456 - Accounting Information Systems Implementation and Projects 3 hrs
- ACC 496W - Financial Management and Controllership (Gen Ed Area I, W) 3 hrs
- ACC 548 - Information Systems Audit and Control 3 hrs
- IS 247 - Introduction to Web Application Development 3 hrs
- IS 315 - Object-Oriented Application Development 3 hrs
- IS 320 - Business Data Communications and Information Security 3 hrs
- IS 380 - Introduction to Databases 3 hrs

III. Computer Information Systems: 30 hours

Required Courses:

- IS 247 - Introduction to Web Application Development 3 hrs
- IS 315 - Object-Oriented Application Development 3 hrs
- IS 320 - Business Data Communications and Information Security 3 hrs
- IS 380 - Introduction to Databases 3 hrs
- IS 413 - IT Infrastructure and Network Security 3 hrs
- IS 417 - Systems Analysis and Design 3 hrs
- IS 421 - Enterprise Database Application 3 hrs
- IS 425 - IS Project and Risk Management 3 hrs
- IS 449W - Information Systems Integration (Gen Ed Area I, W) 3 hrs

Restricted Electives:

Choose one course from the following:

- IS 350 - Enterprise Resource Planning 3 hrs
- IS 410 - Business Intelligence 3 hrs
- IS 416 - System Software Administration 3 hrs
IV. Entrepreneurship: 24 hours

Required Courses:

- MGMT 384 - Human Resource Management 3 hrs
- MGMT 388 - Introduction to Entrepreneurship 3 hrs
- MGMT 480W - Management Responsibility and Ethics (Gen Ed Area I, W) 3 hrs
- MGMT 481 - Managing the Entrepreneurial Venture 3 hrs
- MGMT 488L - Field Studies in Entrepreneurship (Gen Ed Area V LBC) 3 hrs

Choose one course from the following:

- MKTG 363 - Retailing 3 hrs
- MKTG 374 - Business to Business Marketing 3 hrs
- MKTG 430 - Marketing of Services 3 hrs
- MKTG 479 - Special Topics 3 hrs

Choose two courses from the following: (Marketing choices selected above cannot be selected here)

- ACC 342 - Managerial Cost Accounting 3 hrs
- ACC 344 - Principles of Taxation 3 hrs
- FIN 352 - Financial Management for Entrepreneurs 3 hrs
- MKTG 363 - Retailing 3 hrs
- MKTG 374 - Business to Business Marketing 3 hrs
- MKTG 430 - Marketing of Services 3 hrs
- MKTG 460 - International Marketing 3 hrs
- MKTG 473 - Marketing and Product Innovation 3 hrs
- MGMT 460 - Management Skills 3 hrs

V. Economics: 24 hours

Required Courses:

- ECON 310 - Economic Statistics 3 hrs
- ECON 370 - Comparative Economic Systems 3 hrs
- ECON 411 - Intermediate Macroeconomic Analysis 3 hrs
- ECON 412 - Intermediate Microeconomic Analysis 3 hrs
- ECON 415 - Introduction to Econometrics 3 hrs
- ECON 480W - International Economics (Gen Ed Area I, W) 3 hrs

Restricted Electives:

Choose two courses from any 300-400 level economics course. Choose one course if you chose ECON 370 under international business restricted electives. ECON 480W is required to fulfill the international business restricted electives. (Business related topics are suggested.)
VI. Finance: 24 hours

Required Courses:

- FIN 354 - Investments 3 hrs
- FIN 357 - Financial Markets and Institutions 3 hrs
- FIN 359 - Intermediate Financial Theory 3 hrs
- FIN 370 - International Business Finance 3 hrs
- FIN 450W - Problems in Financial Management (Gen Ed Area I, W) 3 hrs

Restricted Electives:

Choose three courses from the following: (FIN 370 is required to fulfill the international business restricted electives)

- ACC 358 - Analysis of Financial Statements 3 hrs
- ECON 445 - Economic Fluctuations and Forecasting 3 hrs
- FIN 352 - Financial Management for Entrepreneurs 3 hrs
- FIN 451 - Introduction to Speculative Markets 3 hrs
- FIN 453 - Commercial Banking 3 hrs
- FIN 454 - Mortgage Banking 3 hrs
- FIN 479 - Special Topics 3 hrs

VII. General Business: 24 hours

Required Courses:

- MGMT 384 - Human Resource Management 3 hrs
- MGMT 388 - Introduction to Entrepreneurship 3 hrs
- MGMT 460 - Management Skills 3 hrs
- MGMT 480W - Management Responsibility and Ethics (Gen Ed Area I, W) 3 hrs

Restricted Electives:

Choose four courses from at least three different departments in the College of Business. At least two courses must be at the 300-400 level. (The restricted elective requirement may be fulfilled by completing the international business restricted elective requirements.)

VIII. Management: 24 hours

Required Courses:

- MGMT 384 - Human Resource Management 3 hrs
- MGMT 460 - Management Skills 3 hrs
- MGMT 480W - Management Responsibility and Ethics (Gen Ed Area I, W) 3 hrs
- MGMT 486 - Organizational Change and Team Building 3 hrs
- MGMT 492 - Managing World Business Communication 3 hrs
• MGMT 495 - International Management 3 hrs

Restricted Electives:

Choose two courses from the following:

• MGMT 388 - Introduction to Entrepreneurship 3 hrs
• MGMT 403 - Managerial Communication: Theory and Application 3 hrs
• MGMT 450 - Leadership Theories and Practice 3 hrs
• MGMT 479 - Special Topics 3 hrs
• MGMT 481 - Managing the Entrepreneurial Venture 3 hrs
• MGMT 482 - Compensation Administration 3 hrs
• MGMT 483 - Staffing Organizations 3 hrs
• MGMT 484 - Management-Union Relations 3 hrs
• MGMT 485 - Human Resource Development 3 hrs
• MGMT 496 - Current Issues in Human Resource Management 3 hrs

IX. Marketing: 24 hours

Required Courses:

• MKTG 261 - Contemporary Selling 3 hrs
• MKTG 365 - Consumer Behavior 3 hrs
• MKTG 368W - Marketing Strategy (Gen Ed Area I, W) 3 hrs
• MKTG 375 - International Business Transactions 3 hrs
• MKTG 460 - International Marketing 3 hrs
• MKTG 470 - Marketing Research 3 hrs
• MKTG 475 - Marketing Planning and Management 3 hrs

Restricted Electives:

Choose one course from the following:

• MKTG 363 - Retailing 3 hrs
• MKTG 369 - Advertising 3 hrs
• MKTG 374 - Business to Business Marketing 3 hrs
• MKTG 425 - Sports and Event Marketing 3 hrs
• MKTG 430 - Marketing of Services 3 hrs
• MKTG 461 - Sales Management 3 hrs
• MKTG 473 - Marketing and Product Innovation 3 hrs
• MKTG 474 - Promotional Strategy 3 hrs
• MKTG 479 - Special Topics 3 hrs
• MKTG 499 - Independent Study 3 hrs
• SCM 380 - Introduction to Supply Chain Management 3 hrs
• SCM 385 - Logistics 3 hrs

X. Supply Chain Management: 27 hours
Required Courses:

- IB 210 - Fundamentals of Global Business (Gen Ed Area III) 3 hrs
- SCM 380 - Introduction to Supply Chain Management 3 hrs
- SCM 385 - Logistics 3 hrs
- SCM 386 - Purchasing and Supply Management 3 hrs
- SCM 465W - Global Supply Chain Management (Gen Ed Area I, W) 3 hrs

Restricted Electives: (Choose four from the following)

- ID 346 - Industrial Climate 3 hrs
- IS 350 - Enterprise Resource Planning 3 hrs
- LAW 350 - International Business Law 3 hrs
- MKTG 363 - Retailing 3 hrs
- MKTG 368W - Marketing Strategy (Gen Ed Area I, W) 3 hrs
- MKTG 374 - Business to Business Marketing 3 hrs
- SCM 420 - Operations Planning and Scheduling in Supply Chain 3 hrs
- SCM 464 - Advanced Logistics 3 hrs
- QUAL 320 - Industrial Quality Control 3 hrs

Minor Requirements:

This program does not require a minor.

Program Total:

Students must earn a minimum total of 124 credits at the 100-level or above.

Notes:

*Each student must choose a writing intensive course as part of major completion requirements. Consult your adviser for course options.*

*All 200-level core courses listed above must be completed prior to admission to the College of Business.*

**Foreign language credits may be used to satisfy general education requirements I.3 and IV.1. Students who have learned English as a second language may have minimum requirements of French, German, Japanese or Spanish waived.*

***All 300-level core courses listed above must be completed before enrollment in MGMT 490 - Business Policy.*

****Students must take IB 375 three times to fulfill requirements as course content will change each semester to a different country or subregion within the broader area of study.**

Critical Graduation Information:

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.
• Earn a minimum total of 124 credits at the 100-level and above. Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.

• Meet the requirements of the General Education program (see information below).

• Earn a minimum of 60 credits from a four-year college or university; courses taken at community colleges cannot be used to meet this requirement. (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)

• Earn a minimum of 30 credits from courses taken at EMU.

• Complete 10 of the last 30 hours for the degree from courses taken at EMU.

• Have a minimum of 30 unique credit hours in their major and 20 unique credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.

• Not more than 60 credit hours in one subject area (prefix) may be applied towards the minimum of 124 credit hours required for a bachelor's degree.

• Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more than one major or minor.
  o Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
  o Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
  o Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor

• Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is coordinated by the Office of Admissions, and additional documentation may be required.

• Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be earned in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

**General Education Requirements:**

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available on the General Education section of the catalog: General Education

**For Students who began their undergraduate program at EMU in Fall 2007 or later or who have elected to follow the current ("new") General Education Program, follow the "For Students" link under the Current Program heading.**
**For Students who began their undergraduate program at EMU before Fall 2007 and who have elected to follow the Pre-2007 General Education Requirements, follow the "General Education Program Prior to Fall 2007 (pdf file)" link under the Program Prior to Fall 2007 heading. Please note that students who wish to graduate under pre-2007 General Education requirements must graduate by August 2014; those who have not completed all degree requirements by that time will need to satisfy the current (Fall 2007) General Education requirements.**

Students who transferred to EMU may have modified general education requirements based on MACRAO or articulation agreements; consult your academic adviser for additional information.

**University Information:** Consult the online catalog at catalog.emich.edu.

**Marketing Major**
The marketing major offers career preparation in sports marketing, advertising and sales promotion, international business, marketing research, purchasing and materials management, retailing, marketing channels, and sales and sales management. Students may select any nine-hour combination of eligible marketing electives, but they are encouraged to focus on their anticipated career path.

The general requirements for the bachelor of business administration degree, the academic major requirements below and sufficient electives to meet the minimum of 124 hours for graduation must be completed.

Marketing Department information:

Department Head: Anne L. Balazs

- ECON 202 - Principles of Microeconomics (Gen Ed Area IV) 3 hrs
- ENGL 121 - Composition II: Researching the Public Experience (Gen Ed Area I) 3 hrs
- IS 215 - End-User Computing 3 hrs
- LAW 293 - Legal Environment of Business 3 hrs
- MGMT 202 - Business Communication 3 hrs

Major Requirements: 60 hours

Business Core Courses: 36 hours

- ACC 240 - Principles of Financial Accounting 3 hrs
- ACC 241 - Principles of Managerial Accounting 3 hrs
- COB 200L - Introduction to Business (Gen Ed Area V LBC) 3 hrs
- DS 265 - Business Statistics I 3 hrs
- FIN 350 - Principles of Finance 3 hrs
- IS 215 - End-User Computing 3 hrs
- LAW 293 - Legal Environment of Business 3 hrs
- MGMT 202 - Business Communication 3 hrs
- MGMT 386 - Organizational Behavior and Theory 3 hrs
- MGMT 490 - Business Policy 3 hrs
- MKTG 360 - Principles of Marketing 3 hrs
- OM 374 - Introduction to Operations Management 3 hrs

**Discipline: 24 hours**

**Required Courses: 15 hours**

- MKTG 261 - Contemporary Selling 3 hrs
- MKTG 365 - Consumer Behavior 3 hrs
- MKTG 368W - Marketing Strategy (Gen Ed Area I, W) 3 hrs
- MKTG 470 - Marketing Research 3 hrs
- MKTG 475 - Marketing Planning and Management 3 hrs

**Concentration Courses: 9 hours**

*Students may select from one of the following program areas or may select any nine-hour combination of marketing and supply chain management electives to create their own program in consultation with an adviser:*

- Advertising and sales promotion
- International business
- Purchasing and materials management
- Marketing channels
- Supply chain management
- Retailing
- Sales and sales management
- Marketing management
- Sports marketing

**Minor Requirements:**

This program does not require a minor.

**Program Total:**

Students must earn a minimum total of 124 credits at the 100-level or above.

**Note:**
Each student must choose a writing intensive course as part of major completion requirements. Consult your adviser for course options. All 200-level core courses listed above must be completed prior to admission to the College of Business.

* FIN 350, MGMT 386 and MKTG 360 must be completed before enrollment in MGMT 490 - Business Policy.

**Critical Graduation Information:**

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the **100-level and above**. Courses with numbers below 100 will not be credited toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Earn a minimum of 60 credits from a four-year college or university; **courses taken at community colleges cannot be used to meet this requirement**. (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 **unique** credit hours in their major and 20 **unique** credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
- Not more than 60 credit hours in one subject area (prefix) may be applied towards the minimum of 124 credit hours required for a bachelor's degree.
- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more that one major or minor.
  - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
  - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
  - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor
- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is coordinated by the Office of Admissions, and additional documentation may be required.
- Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be earned in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

University Information: Consult the online catalog at catalog.emich.edu.

Minor
**International Business Minor (NEW PROGRAM)**

Most EMU Students will pursue careers that have an international dimension to them. This is true even for students choosing to stay within Southeastern Michigan. An International Business Minor will allow EMU graduates to raise their consciousness about the impact of globalization on their professions and their communities. It will promote discourse and understanding both during students' time at EMU and beyond.

**Marketing Department information:**

Department Head: Anne L. Balazs  
Department Contact: abalazs@emich.edu  
Website: http://www.mkt.emich.edu/

**Required Courses: 12 hours**

- COB 200L - Introduction to Business (Gen Ed Area V LBC) 3 hrs

- For Students who began their undergraduate program at EMU in Fall 2007 or later or who have elected to follow the current ("new") General Education Program, follow the "For Students" link under the Current Program heading.
- For Students who began their undergraduate program at EMU before Fall 2007 and who have elected to follow the Pre-2007 General Education Requirements, follow the "General Education Program Prior to Fall 2007 (pdf file)" link under the Program Prior to Fall 2007 heading. Please note that students who wish to graduate under pre-2007 General Education requirements must graduate by August 2014; those who have not completed all degree requirements by that time will need to satisfy the current (Fall 2007) General Education requirements.

Students who transferred to EMU may have modified general education requirements based on MACRAO or articulation agreements; consult your academic adviser for additional information.

University Information: Consult the online catalog at catalog.emich.edu.

Supply Chain Management Minor

Marketing Department information:

Department Head: Anne L. Balazs
Department Contact: abalazs@emich.edu
Website: http://www.mkt.emich.edu/

Required Courses: 15 hours

- MKTG 360 - Principles of Marketing 3 hrs
- OM 374 - Introduction to Operations Management 3 hrs
- SCM 380 - Introduction to Supply Chain Management 3 hrs
- SCM 385 - Logistics 3 hrs
- SCM 386 - Purchasing and Supply Management 3 hrs

Restricted Electives: 6 hours

Two courses from the following:

- IB 210 - Fundamentals of Global Business (Gen Ed Area III) 3 hrs
- IS 350 - Enterprise Resource Planning 3 hrs
- LAW 350 - International Business Law 3 hrs
- MKTG 363 - Retailing 3 hrs
- MKTG 368W - Marketing Strategy (Gen Ed Area I, W) 3 hrs
- MKTG 374 - Business to Business Marketing 3 hrs
- QUAL 320 - Industrial Quality Control 3 hrs
- SCM 420 - Operations Planning and Scheduling in Supply Chain 3 hrs
- SCM 464 - Advanced Logistics 3 hrs
- SCM 465W - Global Supply Chain Management (Gen Ed Area I, W) 3 hrs
Minor Total: 21 hours

Notes:

All minors must have at least six hours of course work at the 300-level or above.

Students pursuing a COB minor must have a minimum cumulative GPA of 2.0 to enroll in 300/400 Business classes.

Students must be of junior status (completion of 56 credit hours) to enroll in 300/400 Business classes.

Critical Graduation Information:

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the 100-level and above. Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Earn a minimum of 60 credits from a four-year college or university; courses taken at community colleges cannot be used to meet this requirement. (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 unique credit hours in their major and 20 unique credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
- Not more than 60 credit hours in one subject area (prefix) may be applied towards the minimum of 124 credit hours required for a bachelor's degree.
- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more than one major or minor.
  - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
  - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor.
- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is coordinated by the Office of Admissions, and additional documentation may be required.
- Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be earned in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

General Education Requirements:
EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available on the General Education section of the catalog: General Education

- For Students who began their undergraduate program at EMU in Fall 2007 or later or who have elected to follow the current ("new") General Education Program, follow the "For Students" link under the Current Program heading.
- For Students who began their undergraduate program at EMU before Fall 2007 and who have elected to follow the Pre-2007 General Education Requirements, follow the "General Education Program Prior to Fall 2007 (pdf file)" link under the Program Prior to Fall 2007 heading. Please note that students who wish to graduate under pre-2007 General Education requirements must graduate by August 2014; those who have not completed all degree requirements by that time will need to satisfy the current (Fall 2007) General Education requirements.

Students who transferred to EMU may have modified general education requirements based on MACRAO or articulation agreements; consult your academic adviser for additional information.

University Information: Consult the online catalog at catalog.emich.edu.

International Business

**IB 210 - Fundamentals of Global Business (Gen Ed Area III)**

Focuses on the globalization phenomenon and its impact on business. Critical country factors such as economic, political, legal, social and cultural factors as well as developmental issues of technology, environment and infrastructure and their relevance in global business will be discussed. The course also looks at the integrated and interdependent nature of business relations among nations and people. It examines components of global business such as global trade and foreign direct investment.

Credit Hours: 3 hrs
Terms Offered: Course Rotation Schedules

**Area III: Perspectives on a Diverse World**

**IB 210 Fundamentals of Global Business**

IB210 introduces students to cultural, social, economic and political perspectives that influence commerce today. The focus of IB210 is placed on awareness and understanding the perspectives and assumptions required by a pluralist global community. Global awareness requires that students understand and appreciate the ways, economic, social and cultural differences and similarities structure human experiences and knowledge. To achieve this, students will read articles, discuss cases, view videos, attend lectures and complete exercises which examine the globalization of cultures, economies and political, legal, social, technological and ecological systems and their impact on businesses, organization and people worldwide. Students also discuss the integrated and interdependent nature of business relations among nations and citizens of the world. They examine components of global business such as global trade and investment as well as human exchange. As part of their general education, EMU undergraduate students should understand that the world is no longer circumscribed by the boundaries of nations and continents.

Last Updated: Links 06/2012

**IB 277 - Special Topics**

An experimental course designed to investigate specific topics of concern in specialization areas.

Credit Hours: 1 hr
Prerequisite: department permission
Terms Offered: Course Rotation Schedules

Last Updated: Links 06/2012
IB 278 - Special Topics

An experimental course designed to investigate specific topics of concern in specialization areas.

- **Credit Hours:** 2 hrs
- **Prerequisite:** department permission
- **Terms Offered:** Course Rotation Schedules
- **Last Updated:** Links 06/2012

IB 279 - Special Topics

An experimental course designed to investigate specific topics of concern in specialization areas.

- **Credit Hours:** 3 hrs
- **Prerequisite:** department permission
- **Terms Offered:** Course Rotation Schedules
- **Last Updated:** Links 06/2012

IB 370 - International Business Ethics

This course examines business ethics as applied internationally. The course focuses on compliance with laws mandating ethical standards in international business situations; business ethics as applied globally relative to different cultures and countries; and global corporate social responsibility.

- **Credit Hours:** 1.5 hrs
- **Concurrent Prerequisite:** IB 375
- **Terms Offered:** Course Rotation Schedules
- **Last Updated:** Links 04/2011

IB 375 - Doing Business in Countries/Regions

This seminar addresses how to conduct business in the indicated region or country, addressing its specific business environment, culture and business operations, using U.S. corporate practice as the point of comparison. The central purpose of this course is to provide a practical basis for effective business practice for the business person involved in the designated market. The subject nation or region rotates (e.g., doing business in Germany; doing business in Japan, etc.), although the structure for the course remains consistent. In this way, students approach doing business in several nations or regions using a common frame or reference.

- **Credit Hours:** 1.5 hrs
- **Concurrent Prerequisite:** IB 210
- **Terms Offered:** Course Rotation Schedules
- **Last Updated:** Links 04/2011

IB 377 - Special Topics

An experimental course designed to investigate specific topics of concern in specialization areas.

- **Credit Hours:** 1 hr
- **Prerequisite:** department permission
- **Terms Offered:** Course Rotation Schedules
- **Last Updated:** Links 06/2012
IB 378 - Special Topics

An experimental course designed to investigate specific topics of concern in specialization areas.

**Credit Hours:** 2 hrs  
**Prerequisite:** department permission  
**Terms Offered:** Course Rotation Schedules  
**Last Updated:** Links 06/2012

IB 379 - Special Topics

An experimental course designed to investigate specific topics of concern in specialization areas.

**Credit Hours:** 3 hrs  
**Prerequisite:** department permission  
**Terms Offered:** Course Rotation Schedules  
**Last Updated:** Links 06/2012

IB 475 - International Business: Study Abroad Perspective

This course is a rigorous course of study taught by faculty at a non-US campus at host universities and led by an EMU faculty member. The course will address the business and cross-cultural issues in the country or countries in which the course take place.

**Credit Hours:** 3 hrs  
**Prerequisite:** IB 210  
**Terms Offered:** Course Rotation Schedules  
**Last Updated:** Links 04/2011

IB 477 - Special Topics

An experimental course designed to investigate specific topics of concern in specialization areas.

**Credit Hours:** 1 hr  
**Prerequisite:** department permission  
**Terms Offered:** Course Rotation Schedules  
**Last Updated:** Links 06/2012

IB 478 - Special Topics

An experimental course designed to investigate specific topics of concern in specialization areas.

**Credit Hours:** 2 hrs  
**Prerequisite:** department permission  
**Terms Offered:** Course Rotation Schedules  
**Last Updated:** Links 06/2012

IB 479 - Special Topics

An experimental course designed to investigate specific topics of concern in specialization areas.

**Credit Hours:** 3 hrs
Prerequisite: department permission
Terms Offered: Course Rotation Schedules
Last Updated: Links 06/2012

IB 497 - Independent Study

Advanced study on an individual basis in areas in which the department does not offer a formal course.

Credit Hours: 1 hr
Prerequisite: department permission
Terms Offered: Course Rotation Schedules
Last Updated: Links 06/2012

IB 498 - Independent Study

Advanced study on an individual basis in areas in which the department does not offer a formal course.

Credit Hours: 2 hrs
Prerequisite: department permission
Terms Offered: Course Rotation Schedules
Last Updated: Links 06/2012

IB 499 - Independent Study

Advanced study on an individual basis in areas in which the department does not offer a formal course.

Credit Hours: 3 hrs
Prerequisite: department permission
Terms Offered: Course Rotation Schedules
Last Updated: Links 06/2012

Law

LAW 293 - Legal Environment of Business

The judicial system and legal procedure, crimes and torts, contractual arrangements, sales of goods and other transactions under the Uniform Commercial Code.

Credit Hours: 3 hrs
Terms Offered: Course Rotation Schedules
Last Updated: Links 06/2012

LAW 350 - International Business Law

The course will focus on international business law applicable to international business transactions. Topics covered will include comparable legal systems in the world and the law relative to 1) international sales, transport, credit and commercial agreements; 2) trade law including imports, customs, tariff regulations/agreements, regional free trade areas; 3) regulation of the marketplace including licensing, patent, advertising, sales representation, foreign investment and business formation, currency risk, anti-trust, employment and environmental law.
LAW 393 - Law of Business Enterprises

The law of forms of business enterprise and negotiable instruments. Agency, partnerships, corporations and negotiable instruments.

LAW 403 - Employment Law

The legal framework within which business (or public) managers must make employment and labor relations decisions; includes laws relative to labor relations, discrimination, affirmative action, occupational health and safety, wage-hour, wrongful discharge, workers compensation, etc.

LAW 411 - Sports Law

This is a survey course that examines sports and recreation law including legal issues associated with sports, sporting events, sports related industries, sports programs, athletic education, recreation management, etc. Topics include: negligence, property and premises law, torts and criminal law, risk management, contract law, constitutional law and sports legislation.

LAW 425 - E-Commerce Law

A survey course on the basics of e-commerce law including the legal framework and issues and risks of doing e-commerce business. Topics studied include e-contracting, privacy and security, cyber-torts and crimes, jurisdiction, and dispute resolution, securities offerings, cyber-financing including banking and e-money, taxation, copyrights and trademarks.

LAW 430 - Ethics and Legal Compliance

A general course on ethics compliance relative to business and related professions. The course will focus on understanding and insuring both ethical and legal compliance with specific laws on topics such as employment, consumer protection, privacy, financial regulation (corporate governance and SOX), the environment and medicine.
LAW 456 - Environmental Law

This is an introductory survey course designed for students who seek employment in science, business, and/or nonprofits. The course covers Federal legislation that deals with current environmental issues. No prior knowledge of law, public administration, or business is required.

Credit Hours: 3 hrs
Terms Offered: Course Rotation Schedules
Last Updated: Links 06/2012

LAW 477 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr
Prerequisite: LAW 293
Terms Offered: Course Rotation Schedules
Last Updated: Links 04/2011

LAW 478 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs
Prerequisite: LAW 293
Terms Offered: Course Rotation Schedules
Last Updated: Links 04/2011

LAW 479 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs
Prerequisite: LAW 293
Terms Offered: Course Rotation Schedules
Last Updated: Links 04/2011

LAW 497 - Independent Study

Directed study of a problem in business law not otherwise treated in department courses.

Credit Hours: 1 hr
Prerequisite: department permission
LAW 498 - Independent Study

Directed study of a problem in business law not otherwise treated in department courses.

Credit Hours: 2 hrs
Prerequisite: department permission
Terms Offered: Course Rotation Schedules
Last Updated: Links 06/2012

LAW 499 - Independent Study

Directed study of a problem in business law not otherwise treated in department courses.

MKTG 285 - Cooperative Education

Employment at a business or public organization in a marketing position.

Credit Hours: 1 hr  
Notes: General elective credit only. Offered on a credit/no-credit basis
MKTG 286 - Cooperative Education

Employment at a business or public organization in a marketing position.

Credit Hours: 2 hrs
Notes: General elective credit only. Offered on a credit/no-credit basis

MKTG 287 - Cooperative Education

Employment at a business or public organization in a marketing position.

Credit Hours: 3 hrs
Notes: General elective credit only. Offered on a credit/no-credit basis

MKTG 360 - Principles of Marketing

Marketplace exchanges; the relationship between marketing activities of the organization and the consumer.

Credit Hours: 3 hrs

MKTG 363 - Retailing

The practices of retail store management: store location, layout, organization, buying systems, sales promotion activities, customer services and store operating expenses.

Credit Hours: 3 hrs
Prerequisite: MKTG 360

MKTG 365 - Consumer Behavior

The study of the basic factors influencing consumer behavior, including the roles of affect, cognition, behavior and the environment. Models designed to explain consumer behavior will be explored, as well as implications for public policy and the development of marketing strategies.

Credit Hours: 3 hrs
Prerequisite: MKTG 360 and PSY 101

MKTG 368W - Marketing Strategy (Gen Ed Area I, W)
Advanced policies and practices in marketing. Case analysis of marketing problems pertinent to product, price, promotion and channels of distribution policies.

Credit Hours: 3 hrs  
Prerequisite: MKTG 360 and ACC 240  
Terms Offered: Course Rotation Schedules  

Last Updated: Links 04/2011

MKTG 369 - Advertising

Advertising as a communication tool in marketing management. The role of advertising in the marketing mix and in society. Emphasis on problem-based decision making including the appropriate use of research in establishing advertising objectives, allocating advertising budgets, determining target audiences, developing creative strategies, selecting media and determining advertising effectiveness.

Credit Hours: 3 hrs  
Prerequisite: MKTG 360  
Terms Offered: Course Rotation Schedules  
Last Updated: Links 04/2011

MKTG 374 - Business to Business Marketing

Concepts, procedures, and problems encountered when one business or organization markets its products or services to another. Emphasizes the marketing practices employed by industrial organizations. Topics include: customer relationship management, market analysis, organizational buying behavior, purchasing procedures, pricing and negotiation, selling and marketing planning.

Credit Hours: 3 hrs  
Prerequisite: MKTG 360  
Terms Offered: Course Rotation Schedules  
Last Updated: Links 04/2011

MKTG 375 - International Business Transactions

How goods and services are moved internationally. Transportation concepts and systems, the shipping scene, various documents needed to expedite the international movement of goods.

Credit Hours: 3 hrs  
Prerequisite: MKTG 360  
Terms Offered: Course Rotation Schedules  
Last Updated: Links 04/2011

MKTG 377 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr  
Terms Offered: Course Rotation Schedules  
Last Updated: Links 06/2012
MKTG 378 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs
Terms Offered: Course Rotation Schedules
Last Updated: Links 06/2012

MKTG 379 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs
Terms Offered: Course Rotation Schedules
Last Updated: Links 06/2012

MKTG 385 - Cooperative Education

Employment at a business or public organization in a marketing position.

Credit Hours: 1 hrs
Prerequisite: department permission
Notes: General elective credit only. Offered on a credit/no-credit basis
Terms Offered: Course Rotation Schedules
Last Updated: Links 06/2012

MKTG 386 - Cooperative Education

Employment at a business or public organization in a marketing position.

Credit Hours: 2 hrs
Prerequisite: department permission
Notes: General elective credit only. Offered on a credit/no-credit basis.
Terms Offered: Course Rotation Schedules
Last Updated: Links 06/2012

MKTG 387 - Cooperative Education

Employment at a business or public organization in a marketing position.

Credit Hours: 3 hrs
Prerequisite: department permission

Terms Offered: Course Rotation Schedules
Last Updated: Links 06/2012

MKTG 425 - Sports and Event Marketing
This course includes topics germane to marketing activities associated with sports and a variety of events. It looks at the marketing of spectator and participation sports as well as events such as the arts, local festivals and charity events. The course also examines the use of such events as marketing tools. This component will look at issues such as endorsements, licensing, naming rights and sponsorship linkages.

Credit Hours: 3 hrs
Prerequisite: MKTG 360
Terms Offered: Course Rotation Schedules
Last Updated: Links 04/2011

**MKTG 426 - Sponsorship**

This course looks at sponsorship as an element of the organization's integrated marketing communications (IMC) plan. It covers traditional sponsorship and the three special forms of sponsorship: licensing, venue naming rights, and endorsements. It addresses all six primary areas for sponsorship as defined by the International Events Group (IEG): sports; cause-related marketing; festivals, fairs and annual events; the arts; entertainment, tours and attractions; and associations and membership organizations.

Credit Hours: 3 hrs
Prerequisite: MKTG 360
Terms Offered: Course Rotation Schedules
Last Updated: New Course 06/2011, effective Fall 2011

**MKTG 430 - Marketing of Services**

Study of marketing practices as applied to the service industry. Special emphasis is placed on the marketing concept and customer satisfaction in the service industry.

Credit Hours: 3 hrs
Prerequisite: MKTG 360
Terms Offered: Course Rotation Schedules
Last Updated: Links 04/2011

**MKTG 444 - Direct and Interactive Marketing**

This course provides a comprehensive examination of direct and interactive marketing concepts, methods, techniques, tools and applications. It covers the foundations of direct and interactive marketing, integrated and multi-channel marketing communications, and response measurement and evaluative metrics.

Credit Hours: 3 hrs
Prerequisite: MKTG 360
Terms Offered: Course Rotation Schedules
Last Updated: New Course 06/2011, effective Fall 2011

**MKTG 460 - International Marketing**

International marketing and its role in the multinational corporation. Appraising international opportunities; product, price, promotion and distribution policies; foreign marketing environments.

Credit Hours: 3 hrs
Prerequisite: MKTG 360
Terms Offered: Course Rotation Schedules
Last Updated: Links 04/2011
MKTG 461 - Sales Management
Planning, organizing, directing and controlling the sales force. Recruiting, selecting, training, evaluating, compensating and supervising.

Credit Hours: 3 hrs  
Prerequisite: MKTG 261 and MKTG 360  
Terms Offered: Course Rotation Schedules  
Last Updated: Links 04/2011

MKTG 470 - Marketing Research
Skills and attitudes required to specify and utilize market and buyer information in defining marketing problems and making marketing decisions. Applied marketing research problems.

Credit Hours: 3 hrs  
Prerequisite: MKTG 360 and DS 265  
Terms Offered: Course Rotation Schedules  
Last Updated: Links 04/2011

MKTG 473 - Marketing and Product Innovation

Credit Hours: 3 hrs  
Prerequisite: MKTG 360  
Terms Offered: Course Rotation Schedules  
Last Updated: Linked 04/2011

MKTG 474 - Promotional Strategy
Problems of advertising and other promotional tools in the context of Integrated Marketing Communications theory. Topics include interactive promotions, direct marketing promotions, sales promotions and public relations. Emphasis on problem-based decision making and development of promotional campaigns.

Credit Hours: 3 hrs  
Prerequisite: MKTG 369  
Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.  
Terms Offered: Course Rotation Schedules  
Last Updated: Graduate Credit 07/2011; Links 04/2011

MKTG 475 - Marketing Planning and Management
Integration of concepts from previous marketing courses and planning the marketing program.

Credit Hours: 3 hrs  
Prerequisite: MKTG 368W  
Terms Offered: Course Rotation Schedules  
Last Updated: Links 04/2011
MKTG 477 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr

**SCM 377 - Special Topics**
One topic is covered each semester, selected as the interest and/or problems change. Students may elect this course several times, provided different topics are studied, but only twice for credit toward a major or minor in supply chain management.

**Credit Hours:** 1 hr  
**Terms Offered:** Course Rotation Schedules  
**Last Updated:** Links 06/2012

**SCM 378 - Special Topics**

One topic is covered each semester, selected as the interest and/or problems change. Students may elect this course several times, provided different topics are studied, but only twice for credit toward a major or minor in supply chain management.

**Credit Hours:** 2 hrs  
**Terms Offered:** Course Rotation Schedules  
**Last Updated:** Links 06/2012

**SCM 379 - Special Topics**

One topic is covered each semester, selected as the interest and/or problems change. Students may elect this course several times, provided different topics are studied, but only twice for credit toward a major or minor in supply chain management.

**Credit Hours:** 3 hrs  
**Terms Offered:** Course Rotation Schedules  
**Last Updated:** Links 06/2012

**SCM 380 - Introduction to Supply Chain Management**

This course introduces students to business processes of Supply Chain Management. It examines the managerial issues within firms and value added activities that occur when firms purchase, produce, source, and distribute goods and services to satisfy customer needs. The role of IT in SCM will be discussed.

**Credit Hours:** 3 hrs  
**Terms Offered:** Course Rotation Schedules  
**Last Updated:** Links 06/2012

**SCM 385 - Logistics**

Students will be introduced to the different components of logistics (transportation, warehousing, material handling, order-processing, inventory, packaging, customer service) and its applications to different industries including not-for-profit organizations. Operational issues, fundamental management techniques, and technological issues will be discussed.

**Credit Hours:** 3 hrs  
**Prerequisite:** MKTG 360  
**Terms Offered:** Course Rotation Schedules  
**Last Updated:** Links 03/2011

**SCM 386 - Purchasing and Supply Management**

This course focuses on implementation of the entire purchasing process from evaluating purchasing need to effective supplier management. Topics will be presented in three major areas: tactical, strategic, and electronic. Particular emphasis is placed on supplier selection/evaluation, in/outourcing decisions, supplier relationships, and ethical issues in purchasing and supply
management.

**Credit Hours:** 3 hrs  
**Class Restrictions:** Junior standing  
**Terms Offered:** Course Rotation Schedules  
**Last Updated:** Links 06/2012

### SCM 420 - Operations Planning and Scheduling in Supply Chain

This course integrates operations planning and scheduling activities for manufacturing and service operations in a supply chain management system. Topics include: ERP, demand management, production planning, master production scheduling, resource requirements planning, capacity management, inventory management and detailed scheduling. Hands on computer exercises using MS Excel and SAP/R3 are included.

**Credit Hours:** 3 hrs  
**Prerequisite:** OM 374  
**Class Restrictions:** Junior standing  
**Terms Offered:** Course Rotation Schedules  
**Last Updated:** Links 03/2011

### SCM 464 - Advanced Logistics

This course provides and in-depth understanding of the strategic and operational challenges involved in developing and implementing a firm’s logistic strategy. Particular emphasis will be placed on logistics as a value-added process in the areas of warehousing, transportation, and global logistics decisions.

**Credit Hours:** 3 hrs  
**Prerequisite:** SCM 385  
**Class Restrictions:** Junior standing  
**Terms Offered:** Course Rotation Schedules  
**Last Updated:** Links 03/2011

### SCM 465W - Global Supply Chain Management (Gen Ed Area I, W)

This course integrates the concepts and tools of SCM approach with emphasis on issues in a global supply chain. Topics include indentifying/managing risks, global supplier selection/evaluation/management, distribution and logistics management, international contracts/documents, and development/maintenance of international buyer-supplier relationships/alliances and global practices.

**Credit Hours:** 3 hrs  
**Prerequisite:** SCM 380 and IB 210  
**Class Restrictions:** Junior standing  
**Previously Listed As:** SCM 465  
**Terms Offered:** Course Rotation Schedules  
This course is offered as a part of the General Education Program and satisfies the Writing Intensive requirement.  
**Last Updated:** Gen Ed Approval 03/2012, effective Fall 2012; Links 03/2011

### SCM 477 - Special Topics

A single topic is covered each semester, selected as interest and/or problems change. Students may elect this course several times, provided different topics are studied, but only twice for credit toward a major or minor in supply chain management.
SCM 478 - Special Topics

A single topic is covered each semester, selected as interest and/or problems change. Students may elect this course several times, provided different topics are studied, but only twice for credit toward a major or minor in supply chain management.

Credit Hours: 1 hr
Terms Offered: Course Rotation Schedules
Last Updated: Links 06/2012

SCM 479 - Special Topics

A single topic is covered each semester, selected as interest and/or problems change. Students may elect this course several times, provided different topics are studied, but only twice for credit toward a major or minor in supply chain management.

Credit Hours: 2 hrs
Terms Offered: Course Rotation Schedules
Last Updated: Links 06/2012

SCM 497 - Independent Study

Intensive study of a problem or theory supervised by a faculty member in social foundations of education.

Credit Hours: 1 hr
Prerequisite: Department permission and consent of instructor
Terms Offered: Course Rotation Schedules
Last Updated: Links 03/2011

SCM 498 - Independent Study

Intensive study of a problem or theory supervised by a faculty member in social foundations of education.

Credit Hours: 2 hrs
Prerequisite: Department permission and consent of instructor
Terms Offered: Course Rotation Schedules
Last Updated: Links 03/2011

SCM 499 - Independent Study

Intensive study of a problem or theory supervised by a faculty member in social foundations of education.

Credit Hours: 3 hrs
Prerequisite: Department permission and consent of instructor
Terms Offered: Course Rotation Schedules
Last Updated: Links 03/2011
Leadership and Counseling Programs and Courses

Leadership and Counseling

Counseling

COUN 100L - Career Exploration and Decision-Making (Gen Ed Area V LBC)

Self-exploration (values, interests, goals) as it relates to careers and the world of work. Presentation in an experimental format of career exploration and personal decision-making strategies and processes. Investigation of career planning and resources (people and materials).

Credit Hours: 2 hrs
This is an introduction course in career exploration and decision-making. The purpose is to gain an overview of the world of work and to use reflective and structured methods of self-discovery to achieve a tentative career choice. This course provides students the opportunity to consider their interests and goals in order to help in planning a rewarding career as one pursues their degree at Eastern Michigan University.

Career Exploration and Decision Making provides students with the knowledge, resources, and strategies for making career and professional decisions. Students will learn about professional opportunities connected to their academic interests (historic preservation, counseling, nursing marketing, information technology, etc.) through experiential assignments and class discussions. Various decision-making strategies and goal setting exercises also will be explored.

Last Updated: 02/2011

COUN 450 - An Introduction: Counseling Concepts and Skills

Introduction to basic concepts of counseling relationships; training in basic counseling skills; experiential learning activities which focus on self-development, interpersonal relationships and related issues; and initial exposure to counseling theory and process.

Credit Hours: 3 hrs
Class Restrictions: Junior or Senior standing or by department permission
Notes: Recommended for those planning a career in the helping professions.

COUN 477 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr
Prerequisite: department permission

COUN 478 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs
Prerequisite: department permission
COUN 479 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs
Prerequisite: department permission

COUN 497 - Independent Study

Advanced study on an individual basis in areas in which the department does not offer a formal course.

Credit Hours: 1 hr
Prerequisite: department permission

COUN 498 - Independent Study

Advanced study on an individual basis in areas in which the department does not offer a formal course.

Credit Hours: 2 hrs
Prerequisite: department permission

COUN 499 - Independent Study

Advanced study on an individual basis in areas in which the department does not offer a formal course.

Credit Hours: 3 hrs
Prerequisite: department permission

Educational Leadership

EDLD 477 - Special Topics

Courses that can be offered on an experimental basis for one semester for purposes of meeting special needs, interests and/or innovations.

Credit Hours: 1 hr
Prerequisite: department permission

EDLD 478 - Special Topics

Courses that can be offered on an experimental basis for one semester for purposes of meeting special needs, interests and/or innovations.

Credit Hours: 2 hrs
Prerequisite: department permission

EDLD 479 - Special Topics
Courses that can be offered on an experimental basis for one semester for purposes of meeting special needs, interests and/or innovations.

_Credit Hours:_ 3 hrs  
_Prerequisite:_ department permission

**EDLD 497 - Independent Study**

Advanced study on an individual basis in areas in which the department does not offer a formal course.

_Credit Hours:_ 1 hr  
_Prerequisite:_ department permission

**EDLD 498 - Independent Study**

Advanced study on an individual basis in areas in which the department does not offer a formal course.

_Credit Hours:_ 2 hrs  
_Prerequisite:_ department permission

**EDLD 499 - Independent Study**

Advanced study on an individual basis in areas in which the department does not offer a formal course.

_Credit Hours:_ 3 hrs  
_Prerequisite:_ department permission
Special Education Programs and Courses

Special Education

Major

Special Education Major K-12 Cognitive Impairment Endorsement - Elementary

Successful completion of this course of study, in the context of other program requirements, qualifies the student for recommendation to the Michigan Department of Education for K-12 endorsement as a Teacher of Students with Cognitive Impairment. This program of study meets all requirements of the Council for Exceptional Children. The Michigan Test for Teacher Certification (MTTC) covering this field is #056, “Cognitive Impairment.” Students are required to regularly meet with their program area faculty adviser to expedite their program of study.

Students selecting Elementary Certification must complete a second major in Liberal Arts for Elementary Education. In addition, those selecting Elementary Certification must pass the “Elementary Education” certification test, #083. Important Note: Starting October 2013 the Elementary Test #083 will be discontinued and replaced by two tests, #103 and #104.

Special Education Department Information:

Interim Department Head: Philip Smith
Department Contact: psmith16@emich.edu
Website: http://www.emich.edu/coe/sped/

Adviser Information:

Program Adviser: Ann Orr
Email: aorr@emich.edu
Phone: 734.487.3300

Important Note: Please see your adviser prior to selecting any general education courses not listed in the Liberal Arts Major below. Most students will need to add one U.S. Diversity course and one Humanities course.

General Education Requirements:

For specific requirements refer to the General Education Program. Download the Gen Ed Checklist here.

Initial Teacher Preparation Program Admission

In order to pursue the sequence of courses necessary to complete eligibility for recommendation for certification, one must apply for and be admitted to the teacher preparation program. Admission requirements are common for all teacher preparation programs, except that certain special education programs have additional requirements.

Each undergraduate student is responsible for applying to the teacher preparation program immediately after the semester in which the student has earned 56 credit hours. Transfer students with more than 56 credit hours should apply immediately after the
semester in which they have earned 12 hours at EMU, including at least one course in their major. Students with 56 hours of transfer course work with a decision GPA of 3.0 may apply for admission to the teacher preparation program without 12 earned hours at EMU.

Admission to the teacher preparation program is not automatic. Only those persons who have formally applied are considered for admission. Not all persons who apply become eligible for admission.

Applications for the Initial Teacher Preparation Program at EMU are available within your my.emich account under the "Student" tab. Submit your completed application to the Office of Academic Services once you have earned 56 credit hours.

Teaching majors and minors are unofficial until program admission. Students pursuing teacher certification should follow the catalog that exists at the time of program admission. It is important that students apply to the teacher preparation program as soon as they have earned 56 credit hours.

**Criteria**

1. Completion of 56 credit hours

2. Appropriate cumulative GPA. One of:

   1. An overall EMU GPA of 2.5 or higher. At least 12 of the 56 credit hours taken at EMU with an EMU GPA of 2.5 or higher in your major (each of your majors if declaring a double major). You must complete at least one course in your major(s) in order to be eligible.

   2. Transferred 56 credits with a cumulative 3.0 GPA from all previous institutions.

3. A grade of “C” or higher (if taken) in the following courses:

   1. Secondary: ENGL 121, CTAC 124, quantitative reasoning, one lab science, all professional education courses, and, if special education, PSY 101.

   2. Elementary: ENGL 121, CTAC 124, MATH 108, MATH 110E, PHY 100, CHEM 101, ESSC 202, all of the professional education courses, all courses that state “for elementary teachers,” and, if special education, PSY 101.

4. Passing scores on all three sections of the Michigan Test for Teacher Certification Basic Skills Test (MTTC) (reading, mathematics, and writing). Official score report must be on file at Eastern Michigan University.

5. Personal statement about your experiences with youth/children and why you are going into teaching. This statement will be read for content, grammar, and punctuation.

6. Completion of a Disposition Self Evaluation Form.

7. ICHAT criminal background check and Statement of Civil/Criminal Convictions. If you answered yes to any of the civil/criminal conviction questions on the application, you will need to provide:

   1. A copy of the Judgment of Sentence, or Registrar of Actions, or Certification of Conviction.

   2. A written explanation of the offense(s). Application of students with civil/criminal convictions will be carefully reviewed and may take longer to process.

8. Meet academic, social, moral, and financial obligations as a member of the EMU community.
Major Requirements: 42 hours

* PHED 257 and SPGN 491 are considered to be major requirements although they are listed as part of the professional sequence.

K-12 Special Education Core: 23 hours

- PSY 101 - General Psychology Lecture (Gen Ed Area IV*) 3 hrs
- SPGN 251 - Education of Students with Exceptionalities 3 hrs
- SPGN 271 - Speech and Language Development in Children, Adolescents and Young Adults with Exceptional Learning Needs 2 hrs
- SPGN 323W - Writing for Professionals in Special Education (Gen Ed Area I, W) 3 hrs
- * SPGN 390 - Measurement and Diagnosis in Special Education 3 hrs
- SPGN 395 - Children, Adolescents, and Young Adults with Disabilities: School, Family and Community Interaction 3 hrs
- * SPGN 461 - Classroom Management and Intervention Strategies for Students with Disabilities 3 hrs
- * SPGN 481 - Assistive and Instructional Technology in Special Education 3 hrs

Teachers of Students with Cognitive Impairment Endorsement: 19 hours

- SPCI 240 - Preclinical Experiences — Cognitive Impairment 3 hrs
- SPCI 350L - Introduction to Cognitive Impairment (Gen Ed Area V LBC) 3 hrs
- * SPCI 429 - Education for Teachers of Individuals with Mild Cognitive Impairment in Inclusive Settings 4 hrs
- * SPCI 483 - Education of Students in Programs for Moderate or Severe Cognitive Impairment 4 hrs
- * SPLI 468 - Education of Children with Learning Disabilities 2 hrs
- * SPGN 471 - Curriculum and Transitions for Secondary Special Education 3 hrs

Liberal Arts Major Requirements - Special Education: 42 hours

✧ Twelve of the required courses can fulfill General Education requirements

Some of the courses listed below may also be listed in other areas of the program but only need to be taken once.

- ✧ ARTE 220 - Visual Arts for Elementary Teachers (Gen Ed Area IV) 3 hrs
- ✧ CHEM 101 - Chemistry for Elementary Teachers (Gen Ed Area IV) 3 hrs
- ✧ CHL 207 - Introduction to Children's Literature (Gen Ed Area IV) 3 hrs
- ✧ CTAC 124 - Foundations of Speech Communication (Gen Ed Area I) 3 hrs
- ✧ DANC 220 - Dance for the Elementary School Teacher 3 hrs
- ✧ ENGL 121 - Composition II: Researching the Public Experience (Gen Ed Area I) 3 hrs
- ✧ ESSC 202 - Earth Science for Elementary Teachers (Gen Ed Area IV) 3 hrs
- ✧ GEOG 110 - World Regions (Gen Ed Area III) 3 hrs
- ✧ HIST 123 - The United States to 1877 (Gen Ed Area IV) 3 hrs
- ✧ MATH 108 - Problem Solving and Number Concepts for Elementary School Teachers 3 hrs
- ✧ MATH 110E - Mathematical Reasoning: Applications for Elementary School Teachers (Gen Ed Area II) 3 hrs
- ✧ MUSC 220 - Music for the Elementary Teacher (Gen Ed Area IV) 3 hrs
- ✧ PHY 100 - Physics for Elementary Teachers (Gen Ed Area IV) 3 hrs
- ✧ PLSC 112 - American Government (Gen Ed Area IV) 3 hrs
Professional Elementary Education Sequence - Special Education

Pre-Admission Phase: The Learner and the Community: 8 hours

*Prerequisite: Sophomore standing or higher.*

- EDPS 325 - Life Span Human Growth and Development 4 hrs
- HLED 320 - Health Education in the Elementary Grades 2 hrs
- PHED 257 - Physical Education for the Classroom Teacher 2 hrs

Phase I: Curriculum, Assessment, and the Social Context: 15 hours

*Prerequisite: Completion of Pre-Admission Phase and formal admission to the Initial Teacher Preparation Program is required.*

- CURR 304 - Curriculum and Methods: Elementary 3 hrs
- GEOG 348 - Teaching Social Studies in Elementary Schools 3 hrs
- RDNG 300 - Early Literacy 3 hrs
- SOFD 328W - Schools for a Diverse and Democratic Society (Gen Ed Area I, W) 3 hrs

One of the following:

- PRCT 304 - Practicum I: Elementary 3 hrs
- SPCI 240 - Preclinical Experiences — Cognitive Impairment 3 hrs
- SPEI 240 - Pre-clinical Experiences — Emotional Impairment 3 hrs
- SPPI 240 - Preclinical Experiences — POHI 3 hrs

Phase II: Content and Methods and Teaching: 15 hours

*Prerequisite: Completion of Phase I is required.*

- BIOT 303 - Life Science for Elementary Teachers 3 hrs
- CTAR 300 - Integrated Arts 3 hrs
- MATH 381 - Teaching Mathematics in Elementary School 3 hrs
- PRCT 310 - Practicum II: Elementary 3 hrs
- RDNG 310 - Literacy Across the Curriculum in the Intermediate Grades 3 hrs

Phase III: Capstone Experience: 16 hours

*Prerequisite: Completion of Phase II is required.*

- EDUC 499 - Student Teaching 4 hrs
- SPGN 491 - Special Education Student Teaching and Seminar 12 hrs

Continuance Criteria

Continuance Criteria
Criteria for continuance in a program of study in the Department of Special Education is dependent upon

1. Maintenance of a 2.5 GPA.
2. Maintenance of a 2.5 GPA in major courses in program of study.
3. Completion of all courses in the major with a grade of C or better. Students will be required to retake any major course in which they earn a grade below C. A major course may be repeated only once.
4. Demonstration of behaviors which indicate stability, maturity, understanding and aptitude as judged necessary for predicted success in the professional field of special education. Such qualitative judgments will be made by the department faculty.

The continuance or termination decision will be made by the faculty in the program area. Students may request a meeting with the faculty of a program area to apprise faculty of any extenuating circumstances that may aid faculty in arriving at a fair and equitable decision. The faculty decision will be final and will be transmitted to the student in writing by the department head.

Nothing in this department’s procedures will negate University or College of Education action for students on academic, administrative or social probation.

Termination from the Department

Students who fail to comply with the continuation criteria stated above will be notified in writing of their termination from the program. Students so notified have the right to appeal such termination through normal University channels. In some cases, a student will be required to meet with program area faculty for discussion of academic performance and continuation in the program.

Minor Requirements:

This program does not require a minor.

Program Total:

Students must earn a minimum total of 124 credits at the 100-level or above.

Note:

* Admission to the Initial Teacher Preparation Program required.

Critical Graduation Information:

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the 100-level and above. Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
• Earn a minimum of 60 credits from a four-year college or university; **courses taken at community colleges cannot be used to meet this requirement.** (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)

• Earn a minimum of 30 credits from courses taken at EMU.

• Complete 10 of the last 30 hours for the degree from courses taken at EMU.

• Have a minimum of 30 unique credit hours in their major and 20 unique credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.

• Not more than 60 credit hours in one subject area (prefix) may be applied towards the minimum of 124 credit hours required for a bachelor's degree.

• Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more that one major or minor.
  - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
  - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
  - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor

• Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is coordinated by the Office of Admissions, and additional documentation may be required.

• Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be earned in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

**General Education Requirements:**

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available on the General Education section of the catalog: General Education

• For Students who began their undergraduate program at EMU in Fall 2007 or later or who have elected to follow the current ("new") General Education Program, follow the "For Students" link under the **Current Program** heading.

• For Students who began their undergraduate program at EMU before Fall 2007 and who have elected to follow the Pre-2007 General Education Requirements, follow the "General Education Program Prior to Fall 2007 (pdf file)" link under the **Program Prior to Fall 2007** heading. Please note that students who wish to graduate under pre-2007 General Education requirements must graduate by August 2014; those who have not completed all degree requirements by that time will need to satisfy the current (Fall 2007) General Education requirements.

Students who transferred to EMU may have modified general education requirements based on MACRAO or articulation agreements; consult your academic adviser for additional information.

**University Information:** Consult the online catalog at catalog.emich.edu.

**Special Education Major K-12 Cognitive Impairment Endorsement - Secondary**

Successful completion of this course of study, in the context of other program requirements, qualifies the student for recommendation to the Michigan Department of Education for a Michigan Provisional Secondary Teaching Certificate with a K-12 endorsement as a Teacher of Students with Cognitive Impairment, certification code SA and, depending on the minor selected,
an additional endorsement. This program of study meets all requirements of the Council for Exceptional Children. The Michigan Test for Teacher Certification (MTTC) covering this field is #056, “Cognitive Impairment.” Students are required to regularly meet with their program area faculty adviser to expedite their program of study.

Students selecting Secondary Certification must select a teachable minor from the approved list, and students must pass the certification test related to the minor in order to be recommended for endorsement in the minor field.

- SPGN 491 - Special Education Student Teaching and Seminar 12 hrs

Continuance Criteria

Continuance Criteria

Criteria for continuance in a program of study in the Department of Special Education is dependent upon

1. Maintenance of a 2.5 GPA.
2. Maintenance of a 2.5 GPA in major courses in program of study.

3. Completion of all courses in the major with a grade of C or better. Students will be required to retake any major course in which they earn a grade below C. A major course may be repeated only once.

4. Demonstration of behaviors which indicate stability, maturity, understanding and aptitude as judged necessary for predicted success in the professional field of special education. Such qualitative judgments will be made by the department faculty.

The continuance or termination decision will be made by the faculty in the program area. Students may request a meeting with the faculty of a program area to apprise faculty of any extenuating circumstances that may aid faculty in arriving at a fair and equitable decision. The faculty decision will be final and will be transmitted to the student in writing by the department head.

Nothing in this department’s procedures will negate University or College of Education action for students on academic, administrative or social probation.

Termination from the Department

Students who fail to comply with the continuation criteria stated above will be notified in writing of their termination from the program. Students so notified have the right to appeal such termination through normal University channels. In some cases, a student will be required to meet with program area faculty for discussion of academic performance and continuation in the program.

Minor Requirements:

This program requires a minor. Please contact your program adviser for a list of possible minors.

Program Total:

Students must earn a minimum total of 124 credits at the 100-level or above.

MTTC Subject Area Test

Starting January 1, 2013, Students seeking licensure in a secondary or K-12 area are not required to take the MTTC subject area test in their minor area. Students who elect not to take the test in their minor will be required to sign a statement indicating that they understand that they will not be endorsed in their minor area and will not be eligible for teaching positions in their minor unless they pass the minor subject area test within five years of completing field experience and course requirements.

Note:

* Admission to the Initial Teacher Preparation Program required.

Critical Graduation Information:

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the 100-level and above. Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses
will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.

- Meet the requirements of the General Education program (see information below).
- Earn a minimum of 60 credits from a four-year college or university; courses taken at community colleges cannot be used to meet this requirement. (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 unique credit hours in their major and 20 unique credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
- Not more than 60 credit hours in one subject area (prefix) may be applied towards the minimum of 124 credit hours required for a bachelor's degree.
- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more that one major or minor.
  - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
  - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
  - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor
- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is coordinated by the Office of Admissions, and additional documentation may be required.
- Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be earned in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

**General Education Requirements:**

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available on the General Education section of the catalog: General Education

- For Students who began their undergraduate program at EMU in Fall 2007 or later or who have elected to follow the current ("new") General Education Program, follow the "For Students" link under the Current Program heading.
- For Students who began their undergraduate program at EMU before Fall 2007 and who have elected to follow the Pre-2007 General Education Requirements, follow the "General Education Program Prior to Fall 2007 (pdf file)" link under the Program Prior to Fall 2007 heading. Please note that students who wish to graduate under pre-2007 General Education requirements must graduate by August 2014; those who have not completed all degree requirements by that time will need to satisfy the current (Fall 2007) General Education requirements.

Students who transferred to EMU may have modified general education requirements based on MACRAO or articulation agreements; consult your academic adviser for additional information.

**University Information:** Consult the online catalog at catalog.emich.edu.

**Special Education Major K-12 Emotional Impairment Endorsement - Elementary**
Successful completion of this course of study, in the context of other program requirements, qualifies the student for recommendation to the Michigan Department of Education for the K-12 endorsement as a Teacher of Students with Emotional Impairment. This program of study meets all requirements of the Council for Exceptional Children. The Michigan Test for Teacher Certification (MTTC) covering this field is #059, "Emotional Impairment". Students select Secondary or Elementary Teacher Certification. Students selecting Elementary Certification must complete a second major in Liberal Arts for Elementary Education. In addition, those selecting elementary certification must pass the Elementary Education Certification Test, MTTC #083. **Important Note: Starting October 2013, the MTTC Elementary Test #083 will be discontinued and replaced by two tests, #103 and #104.**

**Special Education Department Information:**

Interim Department Head: Philip Smith  
Department Contact: psmith16@emich.edu  
Website: http://www.emich.edu/coe/sped/

**Adviser Information:**

Advisers are assigned alphabetically by the student's last name.

A-G: Karen Carney  
kcarnery@emich.edu  
H-L: Gilbert Stiefel  
gstiefel@emich.edu

M-Q: Jennifer Desiderio  
 jdesider@emich.edu  
R-Z: Lynne Rocklage  
lrocklage@emich.edu

Phone Number for Advisers: 734.487.3300

Important Note: Please see your advisor prior to selecting any general education courses not listed in the Liberal Arts Major below. Most students will need to add one U.S. Diversity course and one Humanities course.

**General Education Requirements:**

For specific requirements refer to the General Education Program. Download the Gen Ed Checklist here.

**Initial Teacher Preparation Program Admission**

In order to pursue the sequence of courses necessary to complete eligibility for recommendation for certification, one must apply for and be admitted to the teacher preparation program. Admission requirements are common for all teacher preparation programs, except that certain special education programs have additional requirements.

Each undergraduate student is responsible for applying to the teacher preparation program immediately after the semester in which the student has earned 56 credit hours. Transfer students with more than 56 credit hours should apply immediately after the semester in which they have earned 12 hours at EMU, including at least one course in their major. Students with 56 hours of transfer course work with a decision GPA of 3.0 may apply for admission to the teacher preparation program without 12 earned hours at EMU.

Admission to the teacher preparation program is not automatic. Only those persons who have formally applied are considered for admission. Not all persons who apply become eligible for admission.

Applications for the Initial Teacher Preparation Program at EMU are available within your my.emich account under the "Student" tab. Submit your completed application to the Office of Academic Services once you have earned 56 credit hours.
Teaching majors and minors are unofficial until program admission. Students pursuing teacher certification should follow the catalog that exists at the time of program admission. It is important that students apply to the teacher preparation program as soon as they have earned 56 credit hours.

**Criteria**

1. Completion of 56 credit hours

2. Appropriate cumulative GPA. One of:
   1. An overall EMU GPA of 2.5 or higher. At least 12 of the 56 credit hours taken at EMU with an EMU GPA of 2.5 or higher in your major (each of your majors if declaring a double major). You must complete at least one course in your major(s) in order to be eligible.
   2. Transferred 56 credits with a cumulative 3.0 GPA from all previous institutions.

3. A grade of “C” or higher (if taken) in the following courses:
   1. Secondary: ENGL 121, CTAC 124, quantitative reasoning, one lab science, all professional education courses, and, if special education, PSY 101.
   2. Elementary: ENGL 121, CTAC 124, MATH 108, MATH 110E, PHY 100, CHEM 101, ESSC 202, all of the professional education courses, all courses that state “for elementary teachers,” and, if special education, PSY 101.

4. Passing scores on all three sections of the Michigan Test for Teacher Certification Basic Skills Test (MTTC) (reading, mathematics, and writing). Official score report must be on file at Eastern Michigan University.

5. Personal statement about your experiences with youth/children and why you are going into teaching. This statement will be read for content, grammar, and punctuation.

6. Completion of a Disposition Self Evaluation Form.

7. ICHAT criminal background check and Statement of Civil/Criminal Convictions. If you answered yes to any of the civil/criminal conviction questions on the application, you will need to provide:
   1. A copy of the Judgment of Sentence, or Registrar of Actions, or Certification of Conviction.
   2. A written explanation of the offense(s). Application of students with civil/criminal convictions will be carefully reviewed and may take longer to process.

8. Meet academic, social, moral, and financial obligations as a member of the EMU community.

**K-12 Special Education Core: 24 hours**

*These courses require formal admission to the Initial Teacher Preparation Program.

- PSY 101 - General Psychology Lecture (Gen Ed Area IV*) 3 hrs
- SPGN 251 - Education of Students with Exceptionalities 3 hrs
- SPGN 271 - Speech and Language Development in Children, Adolescents and Young Adults with Exceptional Learning Needs 2 hrs
- SPGN 323W - Writing for Professionals in Special Education (Gen Ed Area I, W) 3 hrs
• * SPGN 390 - Measurement and Diagnosis in Special Education 3 hrs
• SPGN 395 - Children, Adolescents, and Young Adults with Disabilities: School, Family and Community Interaction 3 hrs
• * SPGN 461 - Classroom Management and Intervention Strategies for Students with Disabilities 3 hrs
• * SPGN 481 - Assistive and Instructional Technology in Special Education 3 hrs

Emotional Impairment Endorsement: 19 hours

*These courses require admission to the Initial Teacher Preparation Program.

• SPEI 240 - Pre-clinical Experiences — Emotional Impairment 3 hrs
• SPEI 301 - Children and Adolescents with Emotional Impairment 4 hrs
• * SPEI 401L - Programming, Methods and Curriculum for Elementary Students with Emotion Impairment (Gen Ed Area V LBC) 4 hrs
• * SPEI 449 - Beyond Behavior 3 hrs
• * SPLI 468 - Education of Children with Learning Disabilities 2 hrs
• * SPGN 471 - Curriculum and Transitions for Secondary Special Education 3 hrs

Liberal Arts Major Requirements - Special Education: 42 hours

✧ Twelve of the required courses can fulfill General Education requirements

Some of the courses listed below may also be listed in other areas of the program but only need to be taken once.

• ✧ ARTE 220 - Visual Arts for Elementary Teachers (Gen Ed Area IV) 3 hrs
• ✧ CHEM 101 - Chemistry for Elementary Teachers (Gen Ed Area IV) 3 hrs
• ✧ CHL 207 - Introduction to Children's Literature (Gen Ed Area IV) 3 hrs
• ✧ CTAC 124 - Foundations of Speech Communication (Gen Ed Area I) 3 hrs
• DANC 220 - Dance for the Elementary School Teacher 3 hrs
• ✧ ENGL 121 - Composition II: Researching the Public Experience (Gen Ed Area I) 3 hrs
• ✧ ESSC 202 - Earth Science for Elementary Teachers (Gen Ed Area IV) 3 hrs
• ✧ GEOG 110 - World Regions (Gen Ed Area III) 3 hrs
• ✧ HIST 123 - The United States to 1877 (Gen Ed Area IV) 3 hrs
• MATH 108 - Problem Solving and Number Concepts for Elementary School Teachers 3 hrs
• ✧ MATH 110E - Mathematical Reasoning: Applications for Elementary School Teachers (Gen Ed Area II) 3 hrs
• ✧ MUSC 220 - Music for the Elementary Teacher (Gen Ed Area IV) 3 hrs
• ✧ PHY 100 - Physics for Elementary Teachers (Gen Ed Area IV) 3 hrs
• ✧ PLSC 112 - American Government (Gen Ed Area IV) 3 hrs

Professional Elementary Education Sequence - Special Education

Pre-Admission Phase: The Learner and the Community: 8 hours

Prerequisite: Sophomore standing or higher.

• EDPS 325 - Life Span Human Growth and Development 4 hrs
• HLED 320 - Health Education in the Elementary Grades 2 hrs
• PHED 257 - Physical Education for the Classroom Teacher 2 hrs

Phase I: Curriculum, Assessment, and the Social Context: 15 hours

Prerequisite: Completion of Pre-Admission Phase and formal admission to the Initial Teacher Preparation Program is required.

• CURR 304 - Curriculum and Methods: Elementary 3 hrs
• GEOG 348 - Teaching Social Studies in Elementary Schools 3 hrs
• RDNG 300 - Early Literacy 3 hrs
• SOFD 328W - Schools for a Diverse and Democratic Society (Gen Ed Area I, W) 3 hrs

One of the following:

• PRCT 304 - Practicum I: Elementary 3 hrs
• SPCI 240 - Preclinical Experiences — Cognitive Impairment 3 hrs
• SPEI 240 - Pre-clinical Experiences — Emotional Impairment 3 hrs
• SPPI 240 - Preclinical Experiences — POHI 3 hrs

Phase II: Content and Methods and Teaching: 15 hours

Prerequisite: Completion of Phase I is required.

• BIOT 303 - Life Science for Elementary Teachers 3 hrs
• CTAR 300 - Integrated Arts 3 hrs
• MATH 381 - Teaching Mathematics in Elementary School 3 hrs
• PRCT 310 - Practicum II: Elementary 3 hrs
• RDNG 310 - Literacy Across the Curriculum in the Intermediate Grades 3 hrs

Phase III: Capstone Experience: 16 hours

Prerequisite: Completion of Phase II is required.

• EDUC 499 - Student Teaching 4 hrs
• SPGN 491 - Special Education Student Teaching and Seminar 12 hrs

Continuance Criteria

Continuance Criteria

Criteria for continuance in a program of study in the Department of Special Education is dependent upon

Continuance Criteria

Continuance Criteria

Criteria for continuance in a program of study in the Department of Special Education is dependent upon

1. Maintenance of a 2.5 GPA.
2. Maintenance of a 2.5 GPA in major courses in program of study.
3. Completion of all courses in the major with a grade of C or better. Students will be required to retake any major course in which they earn a grade below C. A major course may be repeated only once.
4. Demonstration of behaviors which indicate stability, maturity, understanding and aptitude as judged necessary for predicted success in the professional field of special education. Such qualitative judgments will be made by the department faculty.

The continuance or termination decision will be made by the faculty in the program area. Students may request a meeting with the faculty of a program area to apprise faculty of any extenuating circumstances that may aid faculty in arriving at a fair and equitable decision. The faculty decision will be final and will be transmitted to the student in writing by the department head.

Nothing in this department’s procedures will negate University or College of Education action for students on academic, administrative or social probation.

Termination from the Department

Students who fail to comply with the continuation criteria stated above will be notified in writing of their termination from the program. Students so notified have the right to appeal such termination through normal University channels. In some cases, a student will be required to meet with program area faculty for discussion of academic performance and continuation in the program.

Minor Requirements:

This program requires a minor. Please contact your program adviser for a list of possible minors.

Program Total:
Students must earn a minimum total of 124 credits at the 100-level or above.

**MTTC Subject Area Test**

*Starting January 1, 2013, Students seeking licensure in a secondary or K-12 area are not required to take the MTTC subject area test in their minor area. Students who elect not to take the test in their minor will be required to sign a statement indicating that they understand that they will not be endorsed in their minor area and will not be eligible for teaching positions in their minor unless they pass the minor subject area test within five years of completing field experience and course requirements.*

**Critical Graduation Information:**

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the **100-level and above**. Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Earn a minimum of 60 credits from a four-year college or university; **courses taken at community colleges cannot be used to meet this requirement.** (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 **unique** credit hours in their major and 20 **unique** credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
- Not more than 60 credit hours in one subject area (prefix) may be applied towards the minimum of 124 credit hours required for a bachelor's degree.
- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more that one major or minor:
  - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
  - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
  - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor.
- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is coordinated by the Office of Admissions, and additional documentation may be required.
- Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be earned in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

**General Education Requirements:**
EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available on the General Education section of the catalog: General Education

- For Students who began their undergraduate program at EMU in Fall 2007 or later or who have elected to follow the current ("new") General Education Program, follow the "For Students" link under the Current Program heading.
- For Students who began their undergraduate program at EMU before Fall 2007 and who have elected to follow the Pre-2007 General Education Requirements, follow the "General Education Program Prior to Fall 2007 (pdf file)" link under the Program Prior to Fall 2007 heading. Please note that students who wish to graduate under pre-2007 General Education requirements must graduate by August 2014; those who have not completed all degree requirements by that time will need to satisfy the current (Fall 2007) General Education requirements.

Students who transferred to EMU may have modified general education requirements based on MACRAO or articulation agreements; consult your academic adviser for additional information.

University Information: Consult the online catalog at catalog.emich.edu.

Special Education Major K-12 Hearing Impairment Endorsement - Elementary

Successful completion of this course of study, in the context of other program requirements, qualifies the student for recommendation to the Michigan Department of Education for K-12 endorsement as a Teacher of Students with Hearing Impairment. This program of study meets all requirements of the Council for Exceptional Children. The Michigan Test for Teacher Certification (MTTC) covering this field is #062, “Hearing Impairment.” Students select Secondary or Elementary Teacher Certification. Students selecting Elementary Certification must complete a second major in Liberal Arts for Elementary Education. In addition, those selecting Elementary Certification must pass the "Elementary Education" certification test, #083. Important Note: Starting October 2013 the Elementary Test #083 will be discontinued and replaced by two tests, #103 and #104.

Registration for the first course in the hearing impaired sequence (SPHI 228) is by permission only. If there is greater demand for enrollment than availability of places in the class, program faculty will determine who receives permission. Grade point average will be the primary criterion. It is essential to see an adviser in the hearing impairment program in order to begin the program sequence.

All students are considered provisional majors until such time as they successfully complete SPHI 391.

The basic philosophy of the program is oral communication; however, students are exposed to manual communication during their course of study.

Students are required to regularly meet with their program area faculty adviser to expedite their program of study.

Special Education Department Information:

Interim Department Head: Philip Smith
Department Contact: psmith16@emich.edu
Website: http://www.emich.edu/coe/sped/

Adviser Information:

Program Adviser: Linda Polter
Email: lpolter1@emich.edu
Phone: 734.487.3300
Important Note: Please see your adviser prior to selecting any general education courses not listed in the Liberal Arts Major below. Most students will need to add one U.S. Diversity course and one Humanities course.

General Education Requirements:

For specific requirements refer to the General Education Program. Download the Gen Ed Checklist here.

Initial Teacher Preparation Program Admission

In order to pursue the sequence of courses necessary to complete eligibility for recommendation for certification, one must apply for and be admitted to the teacher preparation program. Admission requirements are common for all teacher preparation programs, except that certain special education programs have additional requirements.

Each undergraduate student is responsible for applying to the teacher preparation program immediately after the semester in which the student has earned 56 credit hours. Transfer students with more than 56 credit hours should apply immediately after the semester in which they have earned 12 hours at EMU, including at least one course in their major. Students with 56 hours of transfer course work with a decision GPA of 3.0 may apply for admission to the teacher preparation program without 12 earned hours at EMU.

Admission to the teacher preparation program is not automatic. Only those persons who have formally applied are considered for admission. Not all persons who apply become eligible for admission.

Applications for the Initial Teacher Preparation Program at EMU are available within your my.emich account under the "Student" tab. Submit your completed application to the Office of Academic Services once you have earned 56 credit hours.

Teaching majors and minors are unofficial until program admission. Students pursuing teacher certification should follow the catalog that exists at the time of program admission. It is important that students apply to the teacher preparation program as soon as they have earned 56 credit hours.

Criteria

1. Completion of 56 credit hours

2. Appropriate cumulative GPA. One of:
   1. An overall EMU GPA of 2.5 or higher. At least 12 of the 56 credit hours taken at EMU with an EMU GPA of 2.5 or higher in your major (each of your majors if declaring a double major). You must complete at least one course in your major(s) in order to be eligible.
   2. Transferred 56 credits with a cumulative 3.0 GPA from all previous institutions.

3. A grade of “C” or higher (if taken) in the following courses:
   1. Secondary: ENGL 121, CTAC 124, quantitative reasoning, one lab science, all professional education courses, and, if special education, PSY 101.
   2. Elementary: ENGL 121, CTAC 124, MATH 108, MATH 110E, PHY 100, CHEM 101, ESSC 202, all of the professional education courses, all courses that state “for elementary teachers,” and, if special education, PSY 101.

4. Passing scores on all three sections of the Michigan Test for Teacher Certification Basic Skills Test (MTTC) (reading, mathematics, and writing). Official score report must be on file at Eastern Michigan University.
5. Personal statement about your experiences with youth/children and why you are going into teaching. This statement will be read for content, grammar, and punctuation.

6. Completion of a Disposition Self Evaluation Form.

7. ICHAT criminal background check and Statement of Civil/Criminal Convictions. If you answered yes to any of the civil/criminal conviction questions on the application, you will need to provide:
   1. A copy of the Judgment of Sentence, or Registrar of Actions, or Certification of Conviction.
   2. A written explanation of the offense(s). Application of students with civil/criminal convictions will be carefully reviewed and may take longer to process.

8. Meet academic, social, moral, and financial obligations as a member of the EMU community.

Major Requirements: 51 hours

* PHED 257 and SPGN 491 are considered major requirements although they are listed in the professional sequence.

K-12 Special Education Core: 21 hours

- PSY 101 - General Psychology Lecture (Gen Ed Area IV*) 3 hrs
- SPGN 251 - Education of Students with Exceptionalities 3 hrs
- SPGN 323W - Writing for Professionals in Special Education (Gen Ed Area I, W) 3 hrs
- * SPGN 390 - Measurement and Diagnosis in Special Education 3 hrs
- SPGN 395 - Children, Adolescents, and Young Adults with Disabilities: School, Family and Community Interaction 3 hrs
- * SPGN 461 - Classroom Management and Intervention Strategies for Students with Disabilities 3 hrs
- * SPGN 481 - Assistive and Instructional Technology in Special Education 3 hrs

Hearing Impairment Endorsement: 30 hours

- SPGN 271 - Speech and Language Development in Children, Adolescents and Young Adults with Exceptional Learning Needs 2 hrs
- * SPGN 471 - Curriculum and Transitions for Secondary Special Education 3 hrs
- SPHI 228 - Education of Students with Hearing Impairment 3 hrs
- SPHI 375 - Fundamentals of Sign Communication 2 hrs
- SPHI 387 - Introductory Practicum — Students with Hearing Impairment 1 hr
- * SPHI 391 - Language for Students with Hearing Impairment 3 hrs
- SPHI 392 - Introduction to Audiology 3 hrs
- * SPHI 394 - Aural Habilitation Rehabilitation 3 hrs
- SPHI 435 - Phonetics and Hearing Impairment 3 hrs
- * SPHI 436 - Speech Methods for Students with Hearing Impairment 3 hrs
- * SPHI 437 - Adaptive Curriculum for Students with Hearing Impairment 3 hrs
- * SPHI 487 - Speech Practicum — Students with Hearing Impairment 1 hr

Liberal Arts Major Requirements - Special Education: 42 hours
Twelve of the required courses can fulfill General Education requirements

Some of the courses listed below may also be listed in other areas of the program but only need to be taken once.

- ARTE 220 - Visual Arts for Elementary Teachers (Gen Ed Area IV) 3 hrs
- CHEM 101 - Chemistry for Elementary Teachers (Gen Ed Area IV) 3 hrs
- CHL 207 - Introduction to Children's Literature (Gen Ed Area IV) 3 hrs
- CTAC 124 - Foundations of Speech Communication (Gen Ed Area I) 3 hrs
- DANC 220 - Dance for the Elementary School Teacher 3 hrs
- ENGL 121 - Composition II: Researching the Public Experience (Gen Ed Area I) 3 hrs
- ESSC 202 - Earth Science for Elementary Teachers (Gen Ed Area IV) 3 hrs
- GEOG 110 - World Regions (Gen Ed Area III) 3 hrs
- HIST 123 - The United States to 1877 (Gen Ed Area IV) 3 hrs
- MATH 108 - Problem Solving and Number Concepts for Elementary School Teachers 3 hrs
- MATH 110E - Mathematical Reasoning: Applications for Elementary School Teachers (Gen Ed Area II) 3 hrs
- MUSC 220 - Music for the Elementary Teacher (Gen Ed Area IV) 3 hrs
- PHY 100 - Physics for Elementary Teachers (Gen Ed Area IV) 3 hrs
- PLSC 112 - American Government (Gen Ed Area IV) 3 hrs

Professional Elementary Education Sequence - Special Education

Pre-Admission Phase: The Learner and the Community: 8 hours

Prerequisite: Sophomore standing or higher.

- EDPS 325 - Life Span Human Growth and Development 4 hrs
- HLED 320 - Health Education in the Elementary Grades 2 hrs
- PHED 257 - Physical Education for the Classroom Teacher 2 hrs

Phase I: Curriculum, Assessment, and the Social Context: 15 hours

Prerequisite: Completion of Pre-Admission Phase and formal admission to the Initial Teacher Preparation Program is required.

- CURR 304 - Curriculum and Methods: Elementary 3 hrs
- GEOG 348 - Teaching Social Studies in Elementary Schools 3 hrs
- RDNG 300 - Early Literacy 3 hrs
- SOFD 328W - Schools for a Diverse and Democratic Society (Gen Ed Area I, W) 3 hrs

One of the following:

- PRCT 304 - Practicum I: Elementary 3 hrs
- SPCI 240 - Preclinical Experiences — Cognitive Impairment 3 hrs
- SPEI 240 - Pre-clinical Experiences — Emotional Impairment 3 hrs
- SPPI 240 - Preclinical Experiences — POHI 3 hrs

Phase II: Content and Methods and Teaching: 15 hours
Prerequisite: Completion of Phase I is required.

- BIOT 303 - Life Science for Elementary Teachers 3 hrs
- CTAR 300 - Integrated Arts 3 hrs
- MATH 381 - Teaching Mathematics in Elementary School 3 hrs
- PRCT 310 - Practicum II: Elementary 3 hrs
- RDNG 310 - Literacy Across the Curriculum in the Intermediate Grades 3 hrs

Phase III: Capstone Experience: 16 hours

Prerequisite: Completion of Phase II is required.

- EDUC 499 - Student Teaching 4 hrs
- SPGN 491 - Special Education Student Teaching and Seminar 12 hrs

Continuance Criteria

Continuance Criteria

Criteria for continuance in a program of study in the Department of Special Education is dependent upon

1. Maintenance of a 2.5 GPA.
2. Maintenance of a 2.5 GPA in major courses in program of study.
3. Completion of all courses in the major with a grade of C or better. Students will be required to retake any major course in which they earn a grade below C. A major course may be repeated only once.
4. Demonstration of behaviors which indicate stability, maturity, understanding and aptitude as judged necessary for predicted success in the professional field of special education. Such qualitative judgments will be made by the department faculty.

The continuance or termination decision will be made by the faculty in the program area. Students may request a meeting with the faculty of a program area to apprise faculty of any extenuating circumstances that may aid faculty in arriving at a fair and equitable decision. The faculty decision will be final and will be transmitted to the student in writing by the department head.

Nothing in this department’s procedures will negate University or College of Education action for students on academic, administrative or social probation.

Termination from the Department

Students who fail to comply with the continuation criteria stated above will be notified in writing of their termination from the program. Students so notified have the right to appeal such termination through normal University channels. In some cases, a student will be required to meet with program area faculty for discussion of academic performance and continuation in the program.

Minor Requirements:

This program does not require a minor.

Program Total:
Students must earn a minimum total of 124 credits at the 100-level or above.

Note:

* Admission to the Initial Teacher Preparation Program required.

Critical Graduation Information:

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the 100-level and above. Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Earn a minimum of 60 credits from a four-year college or university; courses taken at community colleges cannot be used to meet this requirement. (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 unique credit hours in their major and 20 unique credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
- Not more than 60 credit hours in one subject area (prefix) may be applied towards the minimum of 124 credit hours required for a bachelor's degree.
- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more that one major or minor.
  - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor.
  - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
  - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor.
- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is coordinated by the Office of Admissions, and additional documentation may be required.
- Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be earned in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

General Education Requirements:

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available on the General Education section of the catalog: General Education
For Students who began their undergraduate program at EMU in Fall 2007 or later or who have elected to follow the current ("new") General Education Program, follow the "For Students" link under the Current Program heading.

For Students who began their undergraduate program at EMU before Fall 2007 and who have elected to follow the Pre-2007 General Education Requirements, follow the "General Education Program Prior to Fall 2007 (pdf file)" link under the Program Prior to Fall 2007 heading. Please note that students who wish to graduate under pre-2007 General Education requirements must graduate by August 2014; those who have not completed all degree requirements by that time will need to satisfy the current (Fall 2007) General Education requirements.

Students who transferred to EMU may have modified general education requirements based on MACRAO or articulation agreements; consult your academic adviser for additional information.

University Information: Consult the online catalog at catalog.emich.edu.

Special Education Major K-12 Hearing Impairment Endorsement - Secondary

Successful completion of this course of study, in the context of other program requirements, qualifies the student for recommendation to the Michigan Department of Education for a Michigan Provisional Secondary Teaching Certificate with a K-12 endorsement as a Teacher of Students with Hearing Impairment, certification code SL and, depending on the minor selected, an additional endorsement. This program of study meets all requirements of the Council for Exceptional Children. The Michigan Test for Teacher Certification (MTTC) covering this field is #062, “Hearing Impaired.” Students are required to regularly meet with their program area faculty adviser to expedite their program of study.

Students selecting Secondary Certification must select a teachable minor from the approved list, and students must pass the certification test related to the minor.

Registration for the first course in the hearing impaired sequence (SPHI 228) is by permission only. If there is greater demand for enrollment than availability of places in the class, program faculty will determine who receives permission. Grade point average will be the primary criterion. It is essential to see an adviser in the hearing impairment program in order to begin the program sequence.

All students are considered provisional majors until such time as they successfully complete SPHI 391.

The basic philosophy of the program is oral communication; however, students are exposed to manual communication during their course of study.

Initial Teacher Preparation Program Admission

In order to pursue the sequence of courses necessary to complete eligibility for recommendation for certification, one must apply for and be admitted to the teacher preparation program. Admission requirements are common for all teacher preparation programs, except that certain special education programs have additional requirements.

Each undergraduate student is responsible for applying to the teacher preparation program immediately after the semester in which the student has earned 56 credit hours. Transfer students with more than 56 credit hours should apply immediately after the semester in which they have earned 12 hours at EMU, including at least one course in their major. Students with 56 hours of transfer course work with a decision GPA of 3.0 may apply for admission to the teacher preparation program without 12 earned hours at EMU.

Admission to the teacher preparation program is not automatic. Only those persons who have formally applied are considered for admission. Not all persons who apply become eligible for admission.

Applications for the Initial Teacher Preparation Program at EMU are available within your my.emich account under the "Student" tab. Submit your completed application to the Office of Academic Services once you have earned 56 credit hours.

Teaching majors and minors are unofficial until program admission. Students pursuing teacher certification should follow the catalog that exists at the time of program admission. It is important that students apply to the teacher preparation program as soon as they have earned 56 credit hours.

Criteria

1. Completion of 56 credit hours
2. Appropriate cumulative GPA. One of:
   1. An overall EMU GPA of 2.5 or higher. At least 12 of the 56 credit hours taken at EMU with an EMU GPA of 2.5 or higher in your major (each of your majors if declaring a double major). You must complete at least one course in your major(s) in order to be eligible.
   2. Transferred 56 credits with a cumulative 3.0 GPA from all previous institutions.
3. A grade of “C” or higher (if taken) in the following courses:
   1. Secondary: ENGL 121, CTAC 124, quantitative reasoning, one lab science, all professional education courses, and, if special education, PSY 101.
   2. Elementary: ENGL 121, CTAC 124, MATH 108, MATH 110E, PHY 100, CHEM 101, ESSC 202, all of the professional education courses, all courses that state “for elementary teachers,” and, if special education, PSY 101.
4. Passing scores on all three sections of the Michigan Test for Teacher Certification Basic Skills Test (MTTC) (reading, mathematics, and writing). Official score report must be on file at Eastern Michigan University.
5. Personal statement about your experiences with youth/children and why you are going into teaching. This statement will be read for content, grammar, and punctuation.
6. Completion of a Disposition Self Evaluation Form.
7. ICHAT criminal background check and Statement of Civil/Criminal Convictions. If you answered yes to any of the civil/criminal conviction questions on the application, you will need to provide:
   1. A copy of the Judgment of Sentence, or Registrar of Actions, or Certification of Conviction.
2. A written explanation of the offense(s). Application of students with civil/criminal convictions will be carefully reviewed and may take longer to process.

8. Meet academic, social, moral, and financial obligations as a member of the EMU community.

Major Requirements: 55 hours

* SPGN 491 is considered a major requirement although it is listed in the professional sequence.

K-12 Special Education Core: 25 hours

- PHED 257 - Physical Education for the Classroom Teacher 2 hrs
- PSY 101 - General Psychology Lecture (Gen Ed Area IV*) 3 hrs

Prerequisite: Completion of Phase I is required.

- Methods Teaching Course in Minor area of concentration (3 hrs)
- RDNG 311 - Teaching Reading in the Secondary School 3 hrs

Phase III: Capstone Experience: 16 hours

Prerequisite: Completion of Phase II is required.

- EDUC 499 - Student Teaching 4 hrs
- SPGN 491 - Special Education Student Teaching and Seminar 12 hrs

Continuance Criteria

Continuance Criteria

Criteria for continuance in a program of study in the Department of Special Education is dependent upon

1. Maintenance of a 2.5 GPA.
2. Maintenance of a 2.5 GPA in major courses in program of study.
3. Completion of all courses in the major with a grade of C or better. Students will be required to retake any major course in which they earn a grade below C. A major course may be repeated only once.
4. Demonstration of behaviors which indicate stability, maturity, understanding and aptitude as judged necessary for predicted success in the professional field of special education. Such qualitative judgments will be made by the department faculty.

The continuance or termination decision will be made by the faculty in the program area. Students may request a meeting with the faculty of a program area to apprise faculty of any extenuating circumstances that may aid faculty in arriving at a fair and equitable decision. The faculty decision will be final and will be transmitted to the student in writing by the department head.

Nothing in this department’s procedures will negate University or College of Education action for students on academic, administrative or social probation.

Termination from the Department

Students who fail to comply with the continuation criteria stated above will be notified in writing of their termination from the program. Students so notified have the right to appeal such termination through normal University channels. In some cases, a student will be required to meet with program area faculty for discussion of academic performance and continuation in the program.
Minor Requirements:

This program requires a minor. Please contact your program adviser for a list of possible minors.

Program Total:

Students must earn a minimum total of 124 credits at the 100-level or above.

MTTC Subject Area Test

Starting January 1, 2013, Students seeking licensure in a secondary or K-12 area are not required to take the MTTC subject area test in their minor area. Students who elect not to take the test in their minor will be required to sign a statement indicating that they understand that they will not be endorsed in their minor area and will not be eligible for teaching positions in their minor unless they pass the minor subject area test within five years of completing field experience and course requirements.

Note:

* Admission to the Initial Teacher Preparation Program required.

Critical Graduation Information:

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the 100-level and above. Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Earn a minimum of 60 credits from a four-year college or university; courses taken at community colleges cannot be used to meet this requirement. (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 unique credit hours in their major and 20 unique credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
- Not more than 60 credit hours in one subject area (prefix) may be applied towards the minimum of 124 credit hours required for a bachelor's degree.
- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more than one major or minor.
  - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
  - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
  - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor
Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is coordinated by the Office of Admissions, and additional documentation may be required.

Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be earned in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

General Education Requirements:

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available on the General Education section of the catalog: General Education

- For Students who began their undergraduate program at EMU in Fall 2007 or later or who have elected to follow the current ("new") General Education Program, follow the "For Students" link under the Current Program heading.
- For Students who began their undergraduate program at EMU before Fall 2007 and who have elected to follow the Pre-2007 General Education Requirements, follow the "General Education Program Prior to Fall 2007 (pdf file)" link under the Program Prior to Fall 2007 heading. Please note that students who wish to graduate under pre-2007 General Education requirements must graduate by August 2014; those who have not completed all degree requirements by that time will need to satisfy the current (Fall 2007) General Education requirements.

Students who transferred to EMU may have modified general education requirements based on MACRAO or articulation agreements; consult your academic adviser for additional information.

University Information: Consult the online catalog at catalog.emich.edu.

Special Education Major K-12 Physical and Other Health Impairment Endorsement - Elementary

Successful completion of this course of study, in the context of other program requirements, qualifies the student for recommendation to the Michigan Department of Education for K-12 endorsement as a Teacher of Students with Physical Impairment and Students with Other Health Impairment (SC). This program of study meets all requirements of the Council for Exceptional Children. The Michigan Test for Teacher Certification (MTTC) covering this field is #058, “Physically or otherwise Health Impaired.” Students selecting Elementary Certification must complete a second major in Liberal Arts for Elementary Education. In addition, those selecting Elementary Certification must pass the "Elementary Education" certification test, #083. Important Note: Starting October 2013 the Elementary Test #083 will be discontinued and replaced by two tests, #103 and #104.

Special Education Department Information:

Interim Department Head: Philip Smith
Department Contact: psmith16@emich.edu
Website: http://www.emich.edu/coe/sped/

Adviser Information:

Program Adviser: Ann Orr
Email: aorr@emich.edu
Phone: 734.487.3300
Important Note: Please see your adviser prior to selecting any general education courses not listed in the Liberal Arts Major below. Most students will need to add one U.S. Diversity course and one Humanities course.

General Education Requirements:

For specific requirements refer to the General Education Program. Download the Gen Ed Checklist here.

Initial Teacher Preparation Program Admission

In order to pursue the sequence of courses necessary to complete eligibility for recommendation for certification, one must apply for and be admitted to the teacher preparation program. Admission requirements are common for all teacher preparation programs, except that certain special education programs have additional requirements.

Each undergraduate student is responsible for applying to the teacher preparation program immediately after the semester in which the student has earned 56 credit hours. Transfer students with more than 56 credit hours should apply immediately after the semester in which they have earned 12 hours at EMU, including at least one course in their major. Students with 56 hours of transfer course work with a decision GPA of 3.0 may apply for admission to the teacher preparation program without 12 earned hours at EMU.

Admission to the teacher preparation program is not automatic. Only those persons who have formally applied are considered for admission. Not all persons who apply become eligible for admission.

Applications for the Initial Teacher Preparation Program at EMU are available within your my.emich account under the "Student" tab. Submit your completed application to the Office of Academic Services once you have earned 56 credit hours.

Teaching majors and minors are unofficial until program admission. Students pursuing teacher certification should follow the catalog that exists at the time of program admission. It is important that students apply to the teacher preparation program as soon as they have earned 56 credit hours.

Criteria

1. Completion of 56 credit hours
2. Appropriate cumulative GPA. One of:
   1. An overall EMU GPA of 2.5 or higher. At least 12 of the 56 credit hours taken at EMU with an EMU GPA of 2.5 or higher in your major (each of your majors if declaring a double major). You must complete at least one course in your major(s) in order to be eligible.
   2. Transferred 56 credits with a cumulative 3.0 GPA from all previous institutions.
3. A grade of “C” or higher (if taken) in the following courses:
   1. Secondary: ENGL 121, CTAC 124, quantitative reasoning, one lab science, all professional education courses, and, if special education, PSY 101.
   2. Elementary: ENGL 121, CTAC 124, MATH 108, MATH 110E, PHY 100, CHEM 101, ESSC 202, all of the professional education courses, all courses that state “for elementary teachers,” and, if special education, PSY 101.
4. Passing scores on all three sections of the Michigan Test for Teacher Certification Basic Skills Test (MTTC) (reading, mathematics, and writing). Official score report must be on file at Eastern Michigan University.
5. Personal statement about your experiences with youth/children and why you are going into teaching. This statement will be read for content, grammar, and punctuation.

6. Completion of a Disposition Self Evaluation Form.

7. ICHAT criminal background check and Statement of Civil/Criminal Convictions. If you answered yes to any of the civil/criminal conviction questions on the application, you will need to provide:
   1. A copy of the Judgment of Sentence, or Registrar of Actions, or Certification of Conviction.
   2. A written explanation of the offense(s). Application of students with civil/criminal convictions will be carefully reviewed and may take longer to process.

8. Meet academic, social, moral, and financial obligations as a member of the EMU community.

Major Requirements: 47-49 hours

* PHED 257 and SPGN 491 are considered major requirements although they are listed in the professional sequence.

K-12 Special Education Core: 26 hours

- PSY 101 - General Psychology Lecture (Gen Ed Area IV*) 3 hrs
- SPGN 251 - Education of Students with Exceptionalities 3 hrs
- SPGN 271 - Speech and Language Development in Children, Adolescents and Young Adults with Exceptional Learning Needs 2 hrs
- SPGN 323W - Writing for Professionals in Special Education (Gen Ed Area I, W) 3 hrs
- * SPGN 390 - Measurement and Diagnosis in Special Education 3 hrs
- SPGN 395 - Children, Adolescents, and Young Adults with Disabilities: School, Family and Community Interaction 3 hrs
- * SPGN 461 - Classroom Management and Intervention Strategies for Students with Disabilities 3 hrs
- * SPGN 471 - Curriculum and Transitions for Secondary Special Education 3 hrs
- * SPGN 481 - Assistive and Instructional Technology in Special Education 3 hrs

Teacher of Students with Physical and Other Health Impairment Endorsement: 21-23 hours

- An approved course in Human Anatomy and Physiology (4-5 hrs)
- An approved course in Human Disease Process (3-4 hrs)
- SPCI 350L - Introduction to Cognitive Impairment (Gen Ed Area V LBC) 3 hrs
- * SPLI 468 - Education of Children with Learning Disabilities 2 hrs
- SPP1 240 - Preclinical Experiences — POHI 3 hrs
- * SPPI 412 - Ancillary Services and Health Procedures for Teachers of Physically Impaired 2 hrs
- * SPPI 414 - Educational Strategies for Teachers of the Physically Impaired 4 hrs

Liberal Arts Major Requirements - Special Education: 42 hours

✧ Twelve of the required courses can fulfill General Education requirements
Some of the courses listed below may also be listed in other areas of the program but only need to be taken once.

- ARTE 220 - Visual Arts for Elementary Teachers (Gen Ed Area IV) 3 hrs
- CHEM 101 - Chemistry for Elementary Teachers (Gen Ed Area IV) 3 hrs
- CHL 207 - Introduction to Children's Literature (Gen Ed Area IV) 3 hrs
- CTAC 124 - Foundations of Speech Communication (Gen Ed Area I) 3 hrs
- DANC 220 - Dance for the Elementary School Teacher 3 hrs
- ENGL 121 - Composition II: Researching the Public Experience (Gen Ed Area I) 3 hrs
- ESSC 202 - Earth Science for Elementary Teachers (Gen Ed Area IV) 3 hrs
- GEOG 110 - World Regions (Gen Ed Area III) 3 hrs
- HIST 123 - The United States to 1877 (Gen Ed Area IV) 3 hrs
- MATH 108 - Problem Solving and Number Concepts for Elementary School Teachers 3 hrs
- MATH 110E - Mathematical Reasoning: Applications for Elementary School Teachers (Gen Ed Area II) 3 hrs
- MUSC 220 - Music for the Elementary Teacher (Gen Ed Area IV) 3 hrs
- PHY 100 - Physics for Elementary Teachers (Gen Ed Area IV) 3 hrs
- PLSC 112 - American Government (Gen Ed Area IV) 3 hrs

Professional Elementary Education Sequence - Special Education

Pre-Admission Phase: The Learner and the Community: 8 hours

Prerequisite: Sophomore standing or higher.

- EDPS 325 - Life Span Human Growth and Development 4 hrs
- HLED 320 - Health Education in the Elementary Grades 2 hrs
- PHED 257 - Physical Education for the Classroom Teacher 2 hrs

Phase I: Curriculum, Assessment, and the Social Context: 15 hours

Prerequisite: Completion of Pre-Admission Phase and formal admission to the Initial Teacher Preparation Program is required.

- CURR 304 - Curriculum and Methods: Elementary 3 hrs
- GEOG 348 - Teaching Social Studies in Elementary Schools 3 hrs
- RDNG 300 - Early Literacy 3 hrs
- SOFD 328W - Schools for a Diverse and Democratic Society (Gen Ed Area I, W) 3 hrs

One of the following:

- PRCT 304 - Practicum I: Elementary 3 hrs
- SPCI 240 - Preclinical Experiences — Cognitive Impairment 3 hrs
- SPEI 240 - Pre-clinical Experiences — Emotional Impairment 3 hrs
- SPPI 240 - Preclinical Experiences — POHI 3 hrs

Phase II: Content and Methods and Teaching: 15 hours

Prerequisite: Completion of Phase I is required.
- BIOT 303 - Life Science for Elementary Teachers 3 hrs
- CTAR 300 - Integrated Arts 3 hrs
- MATH 381 - Teaching Mathematics in Elementary School 3 hrs
- PRCT 310 - Practicum II: Elementary 3 hrs
- RDNG 310 - Literacy Across the Curriculum in the Intermediate Grades 3 hrs

Phase III: Capstone Experience: 16 hours

Prerequisite: Completion of Phase II is required.

- EDUC 499 - Student Teaching 4 hrs
- SPGN 491 - Special Education Student Teaching and Seminar 12 hrs

Continuance Criteria

Continuance Criteria

Criteria for continuance in a program of study in the Department of Special Education is dependent upon

1. Maintenance of a 2.5 GPA.
2. Maintenance of a 2.5 GPA in major courses in program of study.
3. Completion of all courses in the major with a grade of C or better. Students will be required to retake any major course in which they earn a grade below C. A major course may be repeated only once.
4. Demonstration of behaviors which indicate stability, maturity, understanding and aptitude as judged necessary for predicted success in the professional field of special education. Such qualitative judgments will be made by the department faculty.

The continuance or termination decision will be made by the faculty in the program area. Students may request a meeting with the faculty of a program area to apprise faculty of any extenuating circumstances that may aid faculty in arriving at a fair and equitable decision. The faculty decision will be final and will be transmitted to the student in writing by the department head.

Nothing in this department’s procedures will negate University or College of Education action for students on academic, administrative or social probation.

Termination from the Department

Students who fail to comply with the continuation criteria stated above will be notified in writing of their termination from the program. Students so notified have the right to appeal such termination through normal University channels. In some cases, a student will be required to meet with program area faculty for discussion of academic performance and continuation in the program.

Minor Requirements:

This program does not require a minor.

Program Total:

Students must earn a minimum total of 124 credits at the 100-level or above.
**Note:**

*Admission to the Initial Teacher Preparation Program required.*

**Critical Graduation Information:**

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the **100-level and above.** Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Earn a minimum of 60 credits from a four-year college or university; **courses taken at community colleges cannot be used to meet this requirement.** (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 **unique** credit hours in their major and 20 **unique** credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
- Not more than 60 credit hours in one subject area (prefix) may be applied towards the minimum of 124 credit hours required for a bachelor's degree.
- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more that one major or minor.
  - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
  - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
  - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor.
- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is coordinated by the Office of Admissions, and additional documentation may be required.
- Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be earned in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

**General Education Requirements:**

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available on the General Education section of the catalog: General Education

- For Students who began their undergraduate program at EMU in Fall 2007 or later or who have elected to follow the current ("new") General Education Program, follow the "For Students" link under the *Current Program* heading.
For Students who began their undergraduate program at EMU before Fall 2007 and who have elected to follow the Pre-2007 General Education Requirements, follow the "General Education Program Prior to Fall 2007 (pdf file)" link under the Program Prior to Fall 2007 heading. Please note that students who wish to graduate under pre-2007 General Education requirements must graduate by August 2014; those who have not completed all degree requirements by that time will need to satisfy the current (Fall 2007) General Education requirements.

Students who transferred to EMU may have modified general education requirements based on MACRAO or articulation agreements; consult your academic adviser for additional information.

University Information: Consult the online catalog at catalog.emich.edu.

Special Education Major K-12 Physical and Other Health Impairment Endorsement - Secondary

Successful completion of this course of study, in the context of other program requirements, qualifies the student for recommendation to the Michigan Department of Education for K-12 endorsement as a Teacher of Students with Physical Impairment and Students with Other Health Impairment (SC). This program of study meets all requirements of the Council for Exceptional Children. The Michigan Test for Teacher Certification (MTTC) covering this field is #058, “Physically or otherwise Health Impaired.” Students are required to regularly meet with their program area faculty adviser to expedite their program of study.

Students selecting Secondary Certification must select a teachable minor from the approved list, and students must pass the certification test related to the minor in order to be recommended for endorsement in the minor field.

Prerequisite: Completion of Phase I is required.

- Methods Teaching Course in Minor area of concentration (3 hrs)
- RDNG 311 - Teaching Reading in the Secondary School 3 hrs

Phase III: Capstone Experience: 16 hours

Prerequisite: Completion of Phase II is required.

- EDUC 499 - Student Teaching 4 hrs
- SPGN 491 - Special Education Student Teaching and Seminar 12 hrs

Continuance Criteria

Continuance Criteria

Criteria for continuance in a program of study in the Department of Special Education is dependent upon

1. Maintenance of a 2.5 GPA.
2. Maintenance of a 2.5 GPA in major courses in program of study.
3. Completion of all courses in the major with a grade of C or better. Students will be required to retake any major course in which they earn a grade below C. A major course may be repeated only once.
4. Demonstration of behaviors which indicate stability, maturity, understanding and aptitude as judged necessary for predicted success in the professional field of special education. Such qualitative judgments will be made by the department faculty.

The continuance or termination decision will be made by the faculty in the program area. Students may request a meeting with the faculty of a program area to apprise faculty of any extenuating circumstances that may aid faculty in arriving at a fair and equitable decision. The faculty decision will be final and will be transmitted to the student in writing by the department head.

Nothing in this department’s procedures will negate University or College of Education action for students on academic, administrative or social probation.

Termination from the Department

Students who fail to comply with the continuation criteria stated above will be notified in writing of their termination from the program. Students so notified have the right to appeal such termination through normal University channels. In some cases, a student will be required to meet with program area faculty for discussion of academic performance and continuation in the program.

Minor Requirements:

This program requires a minor. Please contact your program adviser for a list of possible minors.

Program Total:

Students must earn a minimum total of 124 credits at the 100-level or above.
MTTC Subject Area Test

Starting January 1, 2013, Students seeking licensure in a secondary or K-12 area are not required to take the MTTC subject area test in their minor area. Students who elect not to take the test in their minor will be required to sign a statement indicating that they understand that they will not be endorsed in their minor area and will not be eligible for teaching positions in their minor unless they pass the minor subject area test within five years of completing field experience and course requirements.

Note:

* Admission to the Initial Teacher Preparation Program required.

Critical Graduation Information:

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the 100-level and above. Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Earn a minimum of 60 credits from a four-year college or university; courses taken at community colleges cannot be used to meet this requirement. (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 unique credit hours in their major and 20 unique credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
- Earn a minimum of 9 credits in 300-level or higher courses at EMU in each minor that requires a minor.
- Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor.
- Not more than 60 credit hours in one subject area (prefix) may be applied towards the minimum of 124 credit hours required for a bachelor's degree.
- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more that one major or minor.
  - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor.
  - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
  - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor.
- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is coordinated by the Office of Admissions, and additional documentation may be required.
- Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be earned in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

General Education Requirements:
EMU’s General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available on the General Education section of the catalog: General Education

- For Students who began their undergraduate program at EMU in Fall 2007 or later or who have elected to follow the current ("new") General Education Program, follow the "For Students" link under the Current Program heading.
- For Students who began their undergraduate program at EMU before Fall 2007 and who have elected to follow the Pre-2007 General Education Requirements, follow the "General Education Program Prior to Fall 2007 (pdf file)" link under the Program Prior to Fall 2007 heading. Please note that students who wish to graduate under pre-2007 General Education requirements must graduate by August 2014; those who have not completed all degree requirements by that time will need to satisfy the current (Fall 2007) General Education requirements.

Students who transferred to EMU may have modified general education requirements based on MACRAO or articulation agreements; consult your academic adviser for additional information.

**University Information:** Consult the online catalog at catalog.emich.edu.

**Special Education Major K-12 Speech/Language Pathology Endorsement - Elementary**

*The professional entry-level credential in speech-language pathology is the master’s degree in the field.*

Successful completion of this course of study, in the context of other program requirements, with respect to K-12 teacher licensure, satisfies the undergraduate portion of the requirements for the professional entry-level credential at the master’s degree level. This program leads toward, but does not satisfy, the requirements for recommendation to the Michigan Department of Education for K-12 endorsement as a Teacher of Students with Speech and Language Impairment, certification code SB, and Michigan Provisional Elementary Teaching Certificate. This program of study meets all requirements of the Council for Exceptional Children and of the American Speech-Language-Hearing Association. The Michigan Test for Teacher Certification (MTTC) covering this field are Elementary Certification tests #103 and #104 and MTTC #057, “Speech and Language Impairment. Students are required to regularly meet with their program area faculty adviser to expedite their program of study.

**Certificate in Speech Pathology**

The American Speech-Language-Hearing Association issues Certificates of Clinical Competence to individuals who present satisfactory evidence of their ability to provide independent clinical services to persons who have disorders of communication (speech, language and/or hearing). An individual who meets these requirements may be awarded a Certificate in Speech Pathology or in Audiology, depending upon the emphasis of his or her preparation. Note: The program at Eastern Michigan University prepares individuals to meet the requirements in speech pathology only. Specific requirements may be obtained from the advisers in speech pathology.

**Note:** Students must have and maintain a 3.0 GPA in order to be admitted into and take SPSI courses.

**Special Education Department Information:**

Interim Department Head: Philip Smith  
Department Contact: psmith16@emich.edu  
Website: http://www.emich.edu/coe/sped/

**Adviser Information:**

Advisers are assigned by students’ last two digits of EID.

Admission to the teacher preparation program is not automatic. Only those persons who have formally applied are considered for admission. Not all persons who apply become eligible for admission.

Applications for the Initial Teacher Preparation Program at EMU are available within your my.emich account under the "Student" tab. Submit your completed application to the Office of Academic Services once you have earned 56 credit hours.

Teaching majors and minors are unofficial until program admission. Students pursuing teacher certification should follow the catalog that exists at the time of program admission. It is important that students apply to the teacher preparation program as soon as they have earned 56 credit hours.

Criteria

1. Completion of 56 credit hours
2. Appropriate cumulative GPA. One of:
   1. An overall EMU GPA of 2.5 or higher. At least 12 of the 56 credit hours taken at EMU with an EMU GPA of 2.5 or higher in your major (each of your majors if declaring a double major). You must complete at least one course in your major(s) in order to be eligible.
   2. Transferred 56 credits with a cumulative 3.0 GPA from all previous institutions.
3. A grade of “C” or higher (if taken) in the following courses:
   1. Secondary: ENGL 121, CTAC 124, quantitative reasoning, one lab science, all professional education courses, and, if special education, PSY 101.
2. Elementary: ENGL 121, CTAC 124, MATH 108, MATH 110E, PHY 100, CHEM 101, ESSC 202, all of the professional education courses, all courses that state “for elementary teachers,” and, if special education, PSY 101.

4. Passing scores on all three sections of the Michigan Test for Teacher Certification Basic Skills Test (MTTC) (reading, mathematics, and writing). Official score report must be on file at Eastern Michigan University.

5. Personal statement about your experiences with youth/children and why you are going into teaching. This statement will be read for content, grammar, and punctuation.

6. Completion of a Disposition Self Evaluation Form.

7. ICHAT criminal background check and Statement of Civil/Criminal Convictions. If you answered yes to any of the civil/criminal conviction questions on the application, you will need to provide:

   1. A copy of the Judgment of Sentence, or Registrar of Actions, or Certification of Conviction.

   2. A written explanation of the offense(s). Application of students with civil/criminal convictions will be carefully reviewed and may take longer to process.

8. Meet academic, social, moral, and financial obligations as a member of the EMU community.

K-12 Special Education Core: 15 hours

- PSY 101 - General Psychology Lecture (Gen Ed Area IV*) 3 hrs
- SPGN 251 - Education of Students with Exceptionalities 3 hrs
- SPGN 323W - Writing for Professionals in Special Education (Gen Ed Area I, W) 3 hrs
- * SPGN 390 - Measurement and Diagnosis in Special Education 3 hrs
- * SPGN 481 - Assistive and Instructional Technology in Special Education 3 hrs

Teachers of Students with Speech and Language Impairment Endorsement: 31 hours

- * RDNG 300 - Early Literacy 3 hrs
- * SPGN 461 - Classroom Management and Intervention Strategies for Students with Disabilities 3 hrs
- SPHI 392 - Introduction to Audiology 3 hrs
- * SPHI 394 - Aural Habilitation Rehabilitation 3 hrs
- SPSI 332 - Acoustic Phonetics: Speech Science 2 hrs
- SPSI 334 - Applied Phonetics 3 hrs
- SPSI 335 - Introduction to Communication Disorders 3 hrs
- SPSI 336 - Physiologic Phonetics: Anatomy and Physiology 3 hrs
- SPSI 337 - Language Acquisition 3 hrs
- SPSI 346 - Speech, Language and Phonological Disorders in Children 3 hrs
- SPSI 347 - Normal Aging and Health Issues in Speech-Language Pathology 3 hrs

Liberal Arts Major Requirements - Special Education: 42 hours

✧ Twelve of the required courses can fulfill General Education requirements
Some of the courses listed below may also be listed in other areas of the program but only need to be taken once.

- ARTE 220 - Visual Arts for Elementary Teachers (Gen Ed Area IV) 3 hrs
- CHEM 101 - Chemistry for Elementary Teachers (Gen Ed Area IV) 3 hrs
- CHL 207 - Introduction to Children's Literature (Gen Ed Area IV) 3 hrs
- CTAC 124 - Foundations of Speech Communication (Gen Ed Area I) 3 hrs
- DANC 220 - Dance for the Elementary School Teacher 3 hrs
- ENGL 121 - Composition II: Researching the Public Experience (Gen Ed Area I) 3 hrs
- ESSC 202 - Earth Science for Elementary Teachers (Gen Ed Area IV) 3 hrs
- GEOG 110 - World Regions (Gen Ed Area III) 3 hrs
- HIST 123 - The United States to 1877 (Gen Ed Area IV) 3 hrs
- MATH 108 - Problem Solving and Number Concepts for Elementary School Teachers 3 hrs
- MATH 110E - Mathematical Reasoning: Applications for Elementary School Teachers (Gen Ed Area II) 3 hrs
- MUSC 220 - Music for the Elementary Teacher (Gen Ed Area IV) 3 hrs
- PHY 100 - Physics for Elementary Teachers (Gen Ed Area IV) 3 hrs
- PLSC 112 - American Government (Gen Ed Area IV) 3 hrs

Professional Elementary Education Sequence - Speech/Language Pathology

Pre-Admission Phase: The Learner and the Community: 8 hours

Prerequisite: Sophomore standing or higher.

- EDPS 325 - Life Span Human Growth and Development 4 hrs
- HLED 320 - Health Education in the Elementary Grades 2 hrs
- PHED 257 - Physical Education for the Classroom Teacher 2 hrs

Phase I: Curriculum, Assessment, and the Social Context: 15 hours

Prerequisite: Completion of Pre-Admission Phase and formal admission to the Initial Teacher Preparation Program is required.

- CURR 304 - Curriculum and Methods: Elementary 3 hrs
- GEOG 348 - Teaching Social Studies in Elementary Schools 3 hrs
- PRCT 304 - Practicum I: Elementary 3 hrs
- RDNG 300 - Early Literacy 3 hrs
- SOFD 328W - Schools for a Diverse and Democratic Society (Gen Ed Area I, W) 3 hrs

Phase II: Content and Methods and Teaching: 15 hours

Prerequisite: Completion of Phase I is required.

- BIOT 303 - Life Science for Elementary Teachers 3 hrs
- CTAR 300 - Integrated Arts 3 hrs
- MATH 381 - Teaching Mathematics in Elementary School 3 hrs
- PRCT 310 - Practicum II: Elementary 3 hrs
- RDNG 310 - Literacy Across the Curriculum in the Intermediate Grades 3 hrs
Phase III: Capstone Experience: 4 hours

Prerequisite: Completion of Phase II is required.

- EDUC 499 - Student Teaching 4 hrs

Continuance Criteria

Continuance Criteria

Criteria for continuance in a program of study in the Department of Special Education is dependent upon

1. Maintenance of a 2.5 GPA.
2. Maintenance of a 2.5 GPA in major courses in program of study.
3. Completion of all courses in the major with a grade of C or better. Students will be required to retake any major course in which they earn a grade below C. A major course may be repeated only once.
4. Demonstration of behaviors which indicate stability, maturity, understanding and aptitude as judged necessary for predicted success in the professional field of special education. Such qualitative judgments will be made by the department faculty.

The continuance or termination decision will be made by the faculty in the program area. Students may request a meeting with the faculty of a program area to apprise faculty of any extenuating circumstances that may aid faculty in arriving at a fair and equitable decision. The faculty decision will be final and will be transmitted to the student in writing by the department head.

Nothing in this department's procedures will negate University or College of Education action for students on academic, administrative or social probation.

Termination from the Department

Students who fail to comply with the continuation criteria stated above will be notified in writing of their termination from the program. Students so notified have the right to appeal such termination through normal University channels. In some cases, a student will be required to meet with program area faculty for discussion of academic performance and continuation in the program.

Additional Continuance Criteria (Speech and Language Impairment)

To be allowed to continue in the speech-language pathology program, the student must meet the following criteria:

1. Maintenance of a cumulative overall GPA of 2.5 or better.
2. Maintenance of a cumulative major GPA of 2.5 or better.
3. Demonstration of behaviors which indicate reasonable stability, maturity, understanding and aptitude as judged necessary for predicted success as a speech-language pathologist. Such qualitative judgments will be made by the SLP faculty.
4. Students on academic probation will not be allowed to enroll in major courses until the probation is lifted and their overall GPA is 2.5.
5. Must pass a speech and hearing screening.
Minor Requirements:

This program does not require a minor.

Program Total:

Students must earn a minimum total of 124 credits at the 100-level or above.

Note:

* Admission to the Initial Teacher Preparation Program required.

Critical Graduation Information:

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the 100-level and above. Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Earn a minimum of 60 credits from a four-year college or university; courses taken at community colleges cannot be used to meet this requirement. (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 unique credit hours in their major and 20 unique credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
- Not more than 60 credit hours in one subject area (prefix) may be applied towards the minimum of 124 credit hours required for a bachelor's degree.
- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more that one major or minor.
  - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
  - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
  - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor
- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is coordinated by the Office of Admissions, and additional documentation may be required.
• Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be earned in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

**General Education Requirements:**

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available on the General Education section of the catalog: General Education

• For Students who began their undergraduate program at EMU in Fall 2007 or later or who have elected to follow the current ("new") General Education Program, follow the "For Students" link under the Current Program heading.

• For Students who began their undergraduate program at EMU before Fall 2007 and who have elected to follow the Pre-2007 General Education Requirements, follow the "General Education Program Prior to Fall 2007 (pdf file)" link under the Program Prior to Fall 2007 heading. Please note that students who wish to graduate under pre-2007 General Education requirements must graduate by August 2014; those who have not completed all degree requirements by that time will need to satisfy the current (Fall 2007) General Education requirements.

Students who transferred to EMU may have modified general education requirements based on MACRAO or articulation agreements; consult your academic adviser for additional information.

**University Information:** Consult the online catalog at catalog.emich.edu.

**Special Education Major K-12 Speech/Language Pathology Endorsement - Secondary**

_The professional entry-level credential in speech-language pathology is the master’s degree in the field._

Successful completion of this course of study, in the context of other program requirements, with respect to K-12 teacher licensure, satisfies the undergraduate portion of the requirements for the professional entry-level credential at the master’s degree level. This program leads toward, but does not satisfy, the requirements for recommendation to the Michigan Department of Education for K-12 endorsement as a Teacher of Students with Speech and Language Impairment. This program of study meets all requirements of the Council for Exceptional Children and of the American Speech-Language-Hearing Association. The Michigan Test for Teacher Certification (MTTC) covering this field is #057, “Speech and Language Impairment.”

Students selecting Secondary Certification must select a teachable minor from the approved list, and students must pass the certification test related to the minor.

Students are required to regularly meet with their program area faculty adviser to expedite their program of study.

**Certificate in Speech Pathology**

The American Speech-Language-Hearing Association issues Certificates of Clinical Competence to individuals who present satisfactory evidence of their ability to provide independent clinical services to persons who have disorders of communication (speech, language and/or hearing). An individual who meets these requirements may be awarded a Certificate in Speech Pathology or in Audiology, depending upon the emphasis of his or her preparation. Note: The program at Eastern Michigan prepares individuals to meet the requirements in speech pathology only. Specific requirements may be obtained from the advisers in speech pathology.

**Note:**

_Students must have a 3.0 GPA in order to be admitted into SPSI courses._

General Education Requirements:

For specific requirements refer to the General Education Program. Download the Gen Ed Checklist here.

Initial Teacher Preparation Program Admission

In order to pursue the sequence of courses necessary to complete eligibility for recommendation for certification, one must apply for and be admitted to the teacher preparation program. Admission requirements are common for all teacher preparation programs, except that certain special education programs have additional requirements.

Each undergraduate student is responsible for applying to the teacher preparation program immediately after the semester in which the student has earned 56 credit hours. Transfer students with more than 56 credit hours should apply immediately after the semester in which they have earned 12 hours at EMU, including at least one course in their major. Students with 56 hours of transfer course work with a decision GPA of 3.0 may apply for admission to the teacher preparation program without 12 earned hours at EMU.

Admission to the teacher preparation program is not automatic. Only those persons who have formally applied are considered for admission. Not all persons who apply become eligible for admission.

Applications for the Initial Teacher Preparation Program at EMU are available within your my.emich account under the "Student" tab. Submit your completed application to the Office of Academic Services once you have earned 56 credit hours.

Teaching majors and minors are unofficial until program admission. Students pursuing teacher certification should follow the catalog that exists at the time of program admission. It is important that students apply to the teacher preparation program as soon as they have earned 56 credit hours.

Criteria

1. Completion of 56 credit hours

2. Appropriate cumulative GPA. One of:
1. An overall EMU GPA of 2.5 or higher. At least 12 of the 56 credit hours taken at EMU with an EMU GPA of 2.5 or higher in your major (each of your majors if declaring a double major). You must complete at least one course in your major(s) in order to be eligible.

2. Transferred 56 credits with a cumulative 3.0 GPA from all previous institutions.

3. A grade of “C” or higher (if taken) in the following courses:
   1. Secondary: ENGL 121, CTAC 124, quantitative reasoning, one lab science, all professional education courses, and, if special education, PSY 101.
   2. Elementary: ENGL 121, CTAC 124, MATH 108, MATH 110E, PHY 100, CHEM 101, ESSC 202, all of the professional education courses, all courses that state “for elementary teachers,” and, if special education, PSY 101.

4. Passing scores on all three sections of the Michigan Test for Teacher Certification Basic Skills Test (MTTC) (reading, mathematics, and writing). Official score report must be on file at Eastern Michigan University.

5. Personal statement about your experiences with youth/children and why you are going into teaching. This statement will be read for content, grammar, and punctuation.

6. Completion of a Disposition Self Evaluation Form.

7. ICHAT criminal background check and Statement of Civil/Criminal Convictions. If you answered yes to any of the civil/criminal conviction questions on the application, you will need to provide:
   1. A copy of the Judgment of Sentence, or Registrar of Actions, or Certification of Conviction.
   2. A written explanation of the offense(s). Application of students with civil/criminal convictions will be carefully reviewed and may take longer to process.

8. Meet academic, social, moral, and financial obligations as a member of the EMU community.

Continuance Criteria

Continuance Criteria

Criteria for continuance in a program of study in the Department of Special Education is dependent upon

1. Maintenance of a 2.5 GPA.
2. Maintenance of a 2.5 GPA in major courses in program of study.
3. Completion of all courses in the major with a grade of C or better. Students will be required to retake any major course in which they earn a grade below C. A major course may be repeated only once.
4. Demonstration of behaviors which indicate stability, maturity, understanding and aptitude as judged necessary for predicted success in the professional field of special education. Such qualitative judgments will be made by the department faculty.

The continuance or termination decision will be made by the faculty in the program area. Students may request a meeting with the faculty of a program area to apprise faculty of any extenuating circumstances that may aid faculty in arriving at a fair and equitable decision. The faculty decision will be final and will be transmitted to the student in writing by the department head.

Nothing in this department’s procedures will negate University or College of Education action for students on academic, administrative or social probation.

**Termination from the Department**

Students who fail to comply with the continuation criteria stated above will be notified in writing of their termination from the program. Students so notified have the right to appeal such termination through normal University channels. In some cases, a student will be required to meet with program area faculty for discussion of academic performance and continuation in the program.

**Additional Continuance Criteria (Speech and Language Impairment)**

To be allowed to continue in the speech-language pathology program, the student must meet the following criteria:

1. Maintenance of a cumulative overall GPA of 2.5 or better.
2. Maintenance of a cumulative major GPA of 2.5 or better.
3. Demonstration of behaviors which indicate reasonable stability, maturity, understanding and aptitude as judged necessary for predicted success as a speech-language pathologist. Such qualitative judgments will be made by the SLP faculty.
4. Students on academic probation will not be allowed to enroll in major courses until the probation is lifted and their overall GPA is 2.5.
5. Must pass a speech and hearing screening.

**Minor Requirements:**

This program requires a minor. Please contact your program adviser for a list of possible minors.

**Program Total:**

Students must earn a minimum total of 124 credits at the 100-level or above.

**MTTC Subject Area Test**

*Starting January 1, 2013, Students seeking licensure in a secondary or K-12 area are not required to take the MTTC subject area test in their minor area. Students who elect not to take the test in their minor will be required to sign a statement indicating that they understand that they will not be endorsed in their minor area and will not be eligible for teaching positions in their minor unless they pass the minor subject area test within five years of completing field experience and course requirements.*

**Note:**
Critical Graduation Information:

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the 100-level and above. Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Earn a minimum of 60 credits from a four-year college or university; courses taken at community colleges cannot be used to meet this requirement. (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 unique credit hours in their major and 20 unique credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
- Not more than 60 credit hours in one subject area (prefix) may be applied towards the minimum of 124 credit hours required for a bachelor's degree.
- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more that one major or minor.
  - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
  - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
  - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor
- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is coordinated by the Office of Admissions, and additional documentation may be required.
- Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be earned in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

General Education Requirements:

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available on the General Education section of the catalog: General Education

- For Students who began their undergraduate program at EMU in Fall 2007 or later or who have elected to follow the current ("new") General Education Program, follow the "For Students" link under the Current Program heading.
- For Students who began their undergraduate program at EMU before Fall 2007 and who have elected to follow the Pre-2007 General Education Requirements, follow the "General Education Program Prior to Fall 2007 (pdf file)" link under the Program Prior to Fall 2007 heading. Please note that students who wish to graduate under pre-2007 General
Education requirements must graduate by August 2014; those who have not completed all degree requirements by that time will need to satisfy the current (Fall 2007) General Education requirements. Students who transferred to EMU may have modified general education requirements based on MACRAO or articulation agreements; consult your academic adviser for additional information.

University Information: Consult the online catalog at catalog.emich.edu.

Special Education Major K-12 Visual Impairment Endorsement - Elementary

Successful completion of this course of study, in the context of other program requirements, qualifies the student for recommendation to the Michigan Department of Education for K-12 as a Teacher of Students with Visual Impairment (SK). This program of study meets all requirements of the Council for Exceptional Children. The Michigan Test for Teacher Certification (MTTC) covering this field is #061, “Visual Impairment.” Students may select Secondary or Elementary Teacher Certification. Students selecting Elementary Certification must complete a second major in Liberal Arts for Elementary Education. In addition, those selecting Elementary Certification must pass the "Elementary Education" certification test, #083. Important Note: Starting October 2013 the Elementary Test #083 will be discontinued and replaced by two tests, #103 and #104.

Students are required to regularly meet with their program area faculty adviser to expedite their program of study.

Special Education Department Information:

Interim Department Head: Philip Smith
Department Contact: psmith16@emich.edu
Website: http://www.emich.edu/coe/sped/

Adviser Information:

Program Adviser: Alicia Li
Email: tli@emich.edu
Phone: 734.487.3300

Important Note: Please see your adviser prior to selecting any general education courses not listed in the Liberal Arts Major below. Most students will need to add one U.S. Diversity course and one Humanities course.

General Education Requirements:

For specific requirements refer to the General Education Program. Download the Gen Ed Checklist here.

Initial Teacher Preparation Program Admission

In order to pursue the sequence of courses necessary to complete eligibility for recommendation for certification, one must apply for and be admitted to the teacher preparation program. Admission requirements are common for all teacher preparation programs, except that certain special education programs have additional requirements.

Each undergraduate student is responsible for applying to the teacher preparation program immediately after the semester in which the student has earned 56 credit hours. Transfer students with more than 56 credit hours should apply immediately after the semester in which they have earned 12 hours at EMU, including at least one course in their major. Students with 56 hours of
transfer course work with a decision GPA of 3.0 may apply for admission to the teacher preparation program without 12 earned
hours at EMU.

Admission to the teacher preparation program is not automatic. Only those persons who have formally applied are considered for
admission. Not all persons who apply become eligible for admission.

Applications for the Initial Teacher Preparation Program at EMU are available within your my.emich account under the
"Student" tab. Submit your completed application to the Office of Academic Services once you have earned 56 credit hours.

Teaching majors and minors are unofficial until program admission. Students pursuing teacher certification should follow the
catalog that exists at the time of program admission. It is important that students apply to the teacher preparation program as soon
as they have earned 56 credit hours.

Criteria

1. Completion of 56 credit hours

2. Appropriate cumulative GPA. One of:

   1. An overall EMU GPA of 2.5 or higher. At least 12 of the 56 credit hours taken at EMU with an EMU GPA of
      2.5 or higher in your major (each of your majors if declaring a double major). You must complete at least one
      course in your major(s) in order to be eligible.

   2. Transferred 56 credits with a cumulative 3.0 GPA from all previous institutions.

3. A grade of “C” or higher (if taken) in the following courses:

   1. Secondary: ENGL 121, CTAC 124, quantitative reasoning, one lab science, all professional education
courses, and, if special education, PSY 101.

   2. Elementary: ENGL 121, CTAC 124, MATH 108, MATH 110E, PHY 100, CHEM 101, ESSC 202, all of the
      professional education courses, all courses that state “for elementary teachers,” and, if special education, PSY
      101.

4. Passing scores on all three sections of the Michigan Test for Teacher Certification Basic Skills Test (MTTC) (reading,
mathematics, and writing). Official score report must be on file at Eastern Michigan University.

5. Personal statement about your experiences with youth/children and why you are going into teaching. This statement
will be read for content, grammar, and punctuation.

6. Completion of a Disposition Self Evaluation Form.

7. ICHAT criminal background check and Statement of Civil/Criminal Convictions. If you answered yes to any of the
civil/criminal conviction questions on the application, you will need to provide:

   1. A copy of the Judgment of Sentence, or Registrar of Actions, or Certification of Conviction.

   2. A written explanation of the offense(s). Application of students with civil/criminal convictions will be
carefully reviewed and may take longer to process.

8. Meet academic, social, moral, and financial obligations as a member of the EMU community.

Major Requirements: 46 hours
PHED 257 and SPGN 491 are considered major requirements although they are listed in the professional sequence.

K-12 Special Education Core: 26 hours

- PSY 101 - General Psychology Lecture (Gen Ed Area IV*) 3 hrs
- SPGN 251 - Education of Students with Exceptionalities 3 hrs
- SPGN 271 - Speech and Language Development in Children, Adolescents and Young Adults with Exceptional Learning Needs 2 hrs
- SPGN 323W - Writing for Professionals in Special Education (Gen Ed Area I, W) 3 hrs
- * SPGN 390 - Measurement and Diagnosis in Special Education 3 hrs
- SPGN 395 - Children, Adolescents, and Young Adults with Disabilities: School, Family and Community Interaction 3 hrs
- * SPGN 461 - Classroom Management and Intervention Strategies for Students with Disabilities 3 hrs
- * SPGN 471 - Curriculum and Transitions for Secondary Special Education 3 hrs
- * SPGN 481 - Assistive and Instructional Technology in Special Education 3 hrs

Teacher of Students with Visual Impairment Endorsement: 20 hours

- SPVI 365 - Braille 3 hrs
- SPVI 366 - The Eye and Vision — Anatomy and Physiology 2 hrs
- SPVI 368 - Mobility Training for Persons with Visual Impairment 2 hrs
- SPVI 369 - Community Considerations for Persons with Visual Impairment 3 hrs
- * SPVI 464 - Methods of Teaching Children who are Blind 3 hrs
- * SPVI 465 - Braille II: Nemeth Code 3 hrs
- * SPVI 467 - Education of Children with Visual Impairment 2 hrs
- * SPVI 469 - Technology for Persons with Visual Impairment 2 hrs

Liberal Arts Major Requirements - Special Education: 42 hours

✧ Twelve of the required courses can fulfill General Education requirements

Some of the courses listed below may also be listed in other areas of the program but only need to be taken once.

- ✧ ARTE 220 - Visual Arts for Elementary Teachers (Gen Ed Area IV) 3 hrs
- ✧ CHEM 101 - Chemistry for Elementary Teachers (Gen Ed Area IV) 3 hrs
- ✧ CHL 207 - Introduction to Children's Literature (Gen Ed Area IV) 3 hrs
- ✧ CTAC 124 - Foundations of Speech Communication (Gen Ed Area I) 3 hrs
- ✧ DANC 220 - Dance for the Elementary School Teacher 3 hrs
- ✧ ENGL 121 - Composition II: Researching the Public Experience (Gen Ed Area I) 3 hrs
- ✧ ESSC 202 - Earth Science for Elementary Teachers (Gen Ed Area IV) 3 hrs
- ✧ GEOG 110 - World Regions (Gen Ed Area III) 3 hrs
- ✧ HIST 123 - The United States to 1877 (Gen Ed Area IV) 3 hrs
- ✧ MATH 108 - Problem Solving and Number Concepts for Elementary School Teachers 3 hrs
- ✧ ✧ MATH 110E - Mathematical Reasoning: Applications for Elementary School Teachers (Gen Ed Area II) 3 hrs
- ✧ MUSC 220 - Music for the Elementary Teacher (Gen Ed Area IV) 3 hrs
- ✧ PHY 100 - Physics for Elementary Teachers (Gen Ed Area IV) 3 hrs
- ✧ PLSC 112 - American Government (Gen Ed Area IV) 3 hrs
Professional Elementary Education Sequence - Special Education

Pre-Admission Phase: The Learner and the Community: 8 hours

Prerequisite: Sophomore standing or higher.

- EDPS 325 - Life Span Human Growth and Development 4 hrs
- HLED 320 - Health Education in the Elementary Grades 2 hrs
- PHED 257 - Physical Education for the Classroom Teacher 2 hrs

Phase I: Curriculum, Assessment, and the Social Context: 15 hours

Prerequisite: Completion of Pre-Admission Phase and formal admission to the Initial Teacher Preparation Program is required.

- CURR 304 - Curriculum and Methods: Elementary 3 hrs
- GEOG 348 - Teaching Social Studies in Elementary Schools 3 hrs
- RDNG 300 - Early Literacy 3 hrs
- SOFD 328W - Schools for a Diverse and Democratic Society (Gen Ed Area I, W) 3 hrs

One of the following:

- PRCT 304 - Practicum I: Elementary 3 hrs
- SPCI 240 - Preclinical Experiences — Cognitive Impairment 3 hrs
- SPEI 240 - Pre-clinical Experiences — Emotional Impairment 3 hrs
- SPPI 240 - Preclinical Experiences — POHI 3 hrs

Phase II: Content and Methods and Teaching: 15 hours

Prerequisite: Completion of Phase I is required.

- BIOT 303 - Life Science for Elementary Teachers 3 hrs
- CTAR 300 - Integrated Arts 3 hrs
- MATH 381 - Teaching Mathematics in Elementary School 3 hrs
- PRCT 310 - Practicum II: Elementary 3 hrs
- RDNG 310 - Literacy Across the Curriculum in the Intermediate Grades 3 hrs

Phase III: Capstone Experience: 16 hours

Prerequisite: Completion of Phase II is required.

- EDUC 499 - Student Teaching 4 hrs
- SPGN 491 - Special Education Student Teaching and Seminar 12 hrs

Continuance Criteria

Continuance Criteria
Criteria for continuance in a program of study in the Department of Special Education is dependent upon

1. Maintenance of a 2.5 GPA.
2. Maintenance of a 2.5 GPA in major courses in program of study.
3. Completion of all courses in the major with a grade of C or better. Students will be required to retake any major course in which they earn a grade below C. A major course may be repeated only once.
4. Demonstration of behaviors which indicate stability, maturity, understanding and aptitude as judged necessary for predicted success in the professional field of special education. Such qualitative judgments will be made by the department faculty.

The continuance or termination decision will be made by the faculty in the program area. Students may request a meeting with the faculty of a program area to apprise faculty of any extenuating circumstances that may aid faculty in arriving at a fair and equitable decision. The faculty decision will be final and will be transmitted to the student in writing by the department head.

Nothing in this department’s procedures will negate University or College of Education action for students on academic, administrative or social probation.

Termination from the Department

Students who fail to comply with the continuation criteria stated above will be notified in writing of their termination from the program. Students so notified have the right to appeal such termination through normal University channels. In some cases, a student will be required to meet with program area faculty for discussion of academic performance and continuation in the program.

Minor Requirements:

This program does not require a minor.

Program Total:

Students must earn a minimum total of 124 credits at the 100-level or above.

Note:

* Admission to the Initial Teacher Preparation Program required.

Critical Graduation Information:

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the 100-level and above. Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Earn a minimum of 60 credits from a four-year college or university; **courses taken at community colleges cannot be used to meet this requirement.** (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 unique credit hours in their major and 20 unique credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
- Not more than 60 credit hours in one subject area (prefix) may be applied towards the minimum of 124 credit hours required for a bachelor's degree.
- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more than one major or minor.
  - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
  - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
  - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor
- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is coordinated by the Office of Admissions, and additional documentation may be required.
- Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be earned in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

**General Education Requirements:**

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available on the General Education section of the catalog: General Education

- For Students who began their undergraduate program at EMU in Fall 2007 or later or who have elected to follow the current ("new") General Education Program, follow the "For Students" link under the Current Program heading.
- For Students who began their undergraduate program at EMU before Fall 2007 and who have elected to follow the Pre-2007 General Education Requirements, follow the "General Education Program Prior to Fall 2007 (pdf file)" link under the Program Prior to Fall 2007 heading. **Please note that students who wish to graduate under pre-2007 General Education requirements must graduate by August 2014; those who have not completed all degree requirements by that time will need to satisfy the current (Fall 2007) General Education requirements.**

Students who transferred to EMU may have modified general education requirements based on MACRAO or articulation agreements; consult your academic adviser for additional information.

**University Information:** Consult the online catalog at catalog.emich.edu.

**Special Education Major K-12 Visual Impairment Endorsement - Secondary**

Successful completion of this course of study, in the context of other program requirements, qualifies the student for recommendation to the Michigan Department of Education for a Michigan Provisional Secondary Teaching Certificate with a K-12 endorsement as a Teacher of Students with Visual Impairment, certification code SK and, depending on the minor selected, an
additional endorsement. This program of study meets all requirements of the Council for Exceptional Children. The Michigan Test for Teacher Certification (MTTC) covering this field is #061, “Visually Impaired.” Students are required to regularly meet with their program area faculty adviser to expedite their program of study.

Students selecting Secondary Certification must select a teachable minor from the approved list, and students must pass the certification test related to the minor in order to be recommended for endorsement in the minor field.

**Special Education Department Information:**

Interim Department Head: Philip Smith  
Department Contact: psmith16@emich.edu  
Website: http://www.emich.edu/coe/sped/

**General Education Requirements:**

For specific requirements refer to the General Education Program. Download the Gen Ed Checklist here.

**Initial Teacher Preparation Program Admission**

In order to pursue the sequence of courses necessary to complete eligibility for recommendation for certification, one must apply for and be admitted to the teacher preparation program. Admission requirements are common for all teacher preparation programs, except that certain special education programs have additional requirements.

Each undergraduate student is responsible for applying to the teacher preparation program immediately after the semester in which the student has earned 56 credit hours. Transfer students with more than 56 credit hours should apply immediately after the semester in which they have earned 12 hours at EMU, including at least one course in their major. Students with 56 hours of transfer course work with a decision GPA of 3.0 may apply for admission to the teacher preparation program without 12 earned hours at EMU.

Admission to the teacher preparation program is not automatic. Only those persons who have formally applied are considered for admission. Not all persons who apply become eligible for admission.

Applications for the Initial Teacher Preparation Program at EMU are available within your my.emich account under the "Student" tab. Submit your completed application to the Office of Academic Services once you have earned 56 credit hours.

Teaching majors and minors are unofficial until program admission. Students pursuing teacher certification should follow the catalog that exists at the time of program admission. It is important that students apply to the teacher preparation program as soon as they have earned 56 credit hours.

**Criteria**

1. Completion of 56 credit hours

2. Appropriate cumulative GPA. One of:
   1. An overall EMU GPA of 2.5 or higher. At least 12 of the 56 credit hours taken at EMU with an EMU GPA of 2.5 or higher in your major (each of your majors if declaring a double major). You must complete at least one course in your major(s) in order to be eligible.
   2. Transferred 56 credits with a cumulative 3.0 GPA from all previous institutions.
   3. A grade of “C” or higher (if taken) in the following courses:
1. Secondary: ENGL 121, CTAC 124, quantitative reasoning, one lab science, all professional education courses, and, if special education, PSY 101.

2. Elementary: ENGL 121, CTAC 124, MATH 108, MATH 110E, PHY 100, CHEM 101, ESSC 202, all of the professional education courses, all courses that state “for elementary teachers,” and, if special education, PSY 101.

4. Passing scores on all three sections of the Michigan Test for Teacher Certification Basic Skills Test (MTTC) (reading, mathematics, and writing). Official score report must be on file at Eastern Michigan University.

5. Personal statement about your experiences with youth/children and why you are going into teaching. This statement will be read for content, grammar, and punctuation.

6. Completion of a Disposition Self Evaluation Form.

7. ICHAT criminal background check and Statement of Civil/Criminal Convictions. If you answered yes to any of the civil/criminal conviction questions on the application, you will need to provide:
   1. A copy of the Judgment of Sentence, or Registrar of Actions, or Certification of Conviction.
   2. A written explanation of the offense(s). Application of students with civil/criminal convictions will be carefully reviewed and may take longer to process.

8. Meet academic, social, moral, and financial obligations as a member of the EMU community.

Major Requirements: 48 hours

* SPGN 491 is considered to be major a requirement although it is listed in the professional sequence.

K-12 Special Education Core: 25 hours

- PHED 257 - Physical Education for the Classroom Teacher 2 hrs
- PSY 101 - General Psychology Lecture (Gen Ed Area IV*) 3 hrs
- SPGN 251 - Education of Students with Exceptionalities 3 hrs
- SPGN 271 - Speech and Language Development in Children, Adolescents and Young Adults with Exceptional Learning Needs 2 hrs
- SPGN 323W - Writing for Professionals in Special Education (Gen Ed Area I, W) 3 hrs
- * SPGN 390 - Measurement and Diagnosis in Special Education 3 hrs
- SPGN 395 - Children, Adolescents, and Young Adults with Disabilities: School, Family and Community Interaction 3 hrs
- * SPGN 461 - Classroom Management and Intervention Strategies for Students with Disabilities 3 hrs
- * SPGN 481 - Assistive and Instructional Technology in Special Education 3 hrs

Teacher of Students with Visual Impairment Endorsement: 23 hours

- * SPGN 471 - Curriculum and Transitions for Secondary Special Education 3 hrs
- SPVI 365 - Braille 3 hrs
- SPVI 366 - The Eye and Vision — Anatomy and Physiology 2 hrs
- SPVI 368 - Mobility Training for Persons with Visual Impairment 2 hrs
Professional Secondary Education Sequence - Special Education

Pre-Admission Phase: The Learner and the Community: 4 hours

*Prerequisite: Sophomore standing or higher.

- EDPS 325 - Life Span Human Growth and Development 4 hrs

Phase I: Curriculum, Assessment, and the Social Context: 6 hours

*Prerequisite: Completion of Pre-Admission Phase and formal admission to the Initial Teacher Preparation Program is required.

- CURR 305 - Curriculum and Methods: Secondary 3 hrs
- SOFD 328W - Schools for a Diverse and Democratic Society (Gen Ed Area I, W) 3 hrs

Phase II: Content and Methods and Teaching: 6 hours

*Prerequisite: Completion of Phase I is required.

- Methods Teaching Course in Minor area of concentration (3 hrs)
- RDNG 311 - Teaching Reading in the Secondary School 3 hrs

Phase III: Capstone Experience: 16 hours

*Prerequisite: Completion of Phase II is required.

- EDUC 499 - Student Teaching 4 hrs
- SPGN 491 - Special Education Student Teaching and Seminar 12 hrs

Continuance Criteria

Continuance Criteria

Criteria for continuance in a program of study in the Department of Special Education is dependent upon

1. Maintenance of a 2.5 GPA.
2. Maintenance of a 2.5 GPA in major courses in program of study.
3. Completion of all courses in the major with a grade of C or better. Students will be required to retake any major course in which they earn a grade below C. A major course may be repeated only once.
4. Demonstration of behaviors which indicate stability, maturity, understanding and aptitude as judged necessary for predicted success in the professional field of special education. Such qualitative judgments will be made by the department faculty.

The continuance or termination decision will be made by the faculty in the program area. Students may request a meeting with the faculty of a program area to apprise faculty of any extenuating circumstances that may aid faculty in arriving at a fair and equitable decision. The faculty decision will be final and will be transmitted to the student in writing by the department head.

Nothing in this department’s procedures will negate University or College of Education action for students on academic, administrative or social probation.

**Termination from the Department**

Students who fail to comply with the continuation criteria stated above will be notified in writing of their termination from the program. Students so notified have the right to appeal such termination through normal University channels. In some cases, a student will be required to meet with program area faculty for discussion of academic performance and continuation in the program.

**Minor Requirements:**

This program requires a minor. Please contact your program adviser for a list of possible minors.

**Program Total:**

Students must earn a minimum total of 124 credits at the 100-level or above.

**Note:**

*Admission to the Initial Teacher Preparation Program required.*

**MTTC Subject Area Test**

*Starting January 1, 2013, Students seeking licensure in a secondary or K-12 area are not required to take the MTTC subject area test in their minor area. Students who elect not to take the test in their minor will be required to sign a statement indicating that they understand that they will not be endorsed in their minor area and will not be eligible for teaching positions in their minor unless they pass the minor subject area test within five years of completing field experience and course requirements.*

**Critical Graduation Information:**

The following are minimum requirements for all bachelor’s degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the **100-level and above.** Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
• Earn a minimum of 60 credits from a four-year college or university; **courses taken at community colleges cannot be used to meet this requirement.** (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)

• Earn a minimum of 30 credits from courses taken at EMU.

• Complete 10 of the last 30 hours for the degree from courses taken at EMU.

• Have a minimum of 30 unique credit hours in their major and 20 unique credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.

• Not more than 60 credit hours in one subject area (prefix) may be applied towards the minimum of 124 credit hours required for a bachelor's degree.

• Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more that one major or minor.
  - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
  - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
  - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor

• Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is coordinated by the Office of Admissions, and additional documentation may be required.

• Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be earned in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

**General Education Requirements:**

EMU’s General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. Students who transferred to EMU may have modified general education requirements based on MACRAO or articulation agreements; consult your academic adviser for additional information.

**University Information:** Consult the online catalog at catalog.emich.edu.

**Speech/Language Pathology Major - Health Care Track**

*The professional entry-level credential in speech-language pathology is the master’s degree in the field.*

**Certificate in Speech Pathology**
The American Speech-Language-Hearing Association issues Certificates of Clinical Competence to individuals who present satisfactory evidence of their ability to provide independent clinical services to persons who have disorders of communication
(speech, language and/or hearing). An individual who meets these requirements may be awarded a Certificate in Speech Pathology or in Audiology, depending upon the emphasis of his or her preparation. Note: The program at Eastern Michigan University prepares individuals to meet the requirements in speech pathology only. Specific requirements may be obtained from the advisers in speech pathology.

**Note:** Students must have and maintain a 3.0 GPA in order to be admitted into and take SPSI courses.

University Information: Consult the online catalog at catalog.emich.edu.

Cognitive Impairment

SPCI 177 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 1 hr  
**Prerequisite:** Department permission  
**Last Updated:** Links 03/2011

SPCI 178 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 2 hrs  
**Prerequisite:** Department permission  
**Last Updated:** Links 03/2011

SPCI 179 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 3 hrs  
**Prerequisite:** Department permission  
**Last Updated:** Links 03/2011

SPCI 240 - Preclinical Experiences — Cognitive Impairment

This introductory course provides exposure to and experience with K-12 students with cognitive impairment. EMU students will be encouraged to evaluate and examine their motivation to become a teacher of students with cognitive impairment, and will be introduced to all aspects of the teaching profession. In this course students will participate in field experiences with K-12 students with cognitive impairment.
Credit Hours: 3 hrs

SPCI 277 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr
Prerequisite: Department permission
Last Updated: Links 03/2011

SPCI 278 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs
Prerequisite: Department permission
Last Updated: Links 03/2011

SPCI 279 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs
Prerequisite: Department permission
Last Updated: Links 03/2011

SPCI 350L - Introduction to Cognitive Impairment (Gen Ed Area V LBC)

Introduction to the field of cognitive impairment, its history, terminology, causes, health, medical and sensorineural components. Philosophies influencing educational practice and life management approaches are presented.

Credit Hours: 3 hrs
Prerequisite: SPGN 251, PSY 101

Last Updated: Links 03/2011

SPCI 377 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr
Prerequisite: Department permission
Last Updated: Links 03/2011

SPCI 378 - Special Topics
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 2 hrs  
**Prerequisite:** Department permission  
**Last Updated:** Links 03/2011

**SPCI 379 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 3 hrs  
**Prerequisite:** Department permission  
**Last Updated:** Links 03/2011

**SPCI 427 - Education of the Elementary Student with Cognitive Impairment**

Development of programs, materials and instructional techniques appropriate to meet the needs of the child with cognitive impairment from birth to age 12.

**Credit Hours:** 2 hrs  
**Prerequisite:** SPCI 240, SPCI 350L and admission to the Initial Teacher Preparation Program  
**Last Updated:** Links 03/2011

**SPCI 429 - Education for Teachers of Individuals with Mild Cognitive Impairment in Inclusive Settings**

Philosophy of education, curriculum, assessment, teaching methods and classroom management techniques for students with mild cognitive impairment across the K-12 spectrum. A three-hour per week field experience is an integral component of the course.

**Credit Hours:** 4 hrs  
**Prerequisite:** SPCI 240, SPCI 350L and admission to the Initial Teacher Preparation Program  
**Graduate Credit:** This is an undergraduate course available to graduate students for graduate credit.  
**Last Updated:** Graduate Credit 07/2011; Links 03/2011

**SPCI 477 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 1 hr  
**Prerequisite:** Department permission  
**Last Updated:** Links 03/2011

**SPCI 478 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.
SPCI 479 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs  
Prerequisite: Department permission  
Last Updated: Links 03/2011

SPCI 483 - Education of Students in Programs for Moderate or Severe Cognitive Impairment

Philosophy, curriculum, assessment, teaching methods and classroom management techniques for students with moderate or severe cognitive impairment, or with multiple impairments. A three-hour per week field experience is an integral component of the course.

Credit Hours: 4 hrs  
Prerequisite: SPGN 240, SPCI 350L and SPGN 461; admission to the Initial Teacher Preparation Program  
Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.  
Last Updated: Graduate Credit 07/2011; Links 03/2011

SPCI 497 - Independent Study

Advanced study on an individual basis in areas in which the department does not offer a formal course.

Credit Hours: 1 hr  
Prerequisite: Department permission  
Last Updated: Links 03/2011

SPCI 498 - Independent Study

Advanced study on an individual basis in areas in which the department does not offer a formal course.

Credit Hours: 2 hrs  
Prerequisite: Department permission  
Last Updated: Links 03/2011

SPCI 499 - Independent Study

Advanced study on an individual basis in areas in which the department does not offer a formal course.

Credit Hours: 3 hrs  
Prerequisite: Department permission  
Last Updated: Links 03/2011

Emotional Impairment
SPEI 177 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr
Prerequisite: Department permission
Last Updated: Links 03/2011

SPEI 178 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs
Prerequisite: Department permission
Last Updated: Links 03/2011

SPEI 179 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs
Prerequisite: Department permission
Last Updated: Links 03/2011

SPEI 240 - Pre-clinical Experiences — Emotional Impairment

This introductory course provides exposure to and experience with K-12 students with emotional impairment. Students are encouraged to evaluate and examine their motivation to become a teacher of students with emotional impairment, as they are introduced to all aspects of the teaching profession. In this course, students participate in field experiences with K-12 students with emotional impairment and have opportunities to visit a variety of placements serving K-12 students with emotional impairment.

Credit Hours: 3 hrs

SPEI 277 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr
Prerequisite: Department permission
Last Updated: Links 03/2011

SPEI 278 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.
SPEI 279 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs
Prerequisite: Department permission
Last Updated: Links 03/2011

SPEI 301 - Children and Adolescents with Emotional Impairment

This course provides an exploration of conceptual models that explain disturbed behavior of children and adolescents. Definitive diagnostic categories will also be explored in context of their use in a variety of education settings by teachers of children and adolescents with emotional impairment.

Credit Hours: 4 hrs
Prerequisite: SPEI 240; SPGN 251; admission to the Initial Teacher Preparation Program; not open to students on academic probation
Major Restrictions: Emotional Impairment Majors only
Last Updated: Links 03/2011

SPEI 377 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr
Prerequisite: Department permission
Last Updated: Links 03/2011

SPEI 378 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs
Prerequisite: Department permission
Last Updated: Links 03/2011

SPEI 379 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs
Prerequisite: Department permission
Last Updated: Links 03/2011
**SPEI 401L - Programming, Methods and Curriculum for Elementary Students with Emotion Impairment (Gen Ed Area V LBC)**

Teaching methods, techniques and materials for educating elementary age children with emotional impairments will be presented. In addition, types of programs serving elementary age students with emotional impairment, as well as the individualized education program and federal and state rules governing the programs will be discussed.

**Credit Hours:** 4 hrs  
**Prerequisite:** SPGN 390, SPGN 461, SPEI 301, and admission to the Initial Teacher Preparation Program  
**Major Restrictions:** Emotional Impairment Majors only  
**Graduate Credit:** This is an undergraduate course available to graduate students for graduate credit.

*Last Updated:* Graduate Credit 07/2011; Links 03/2011

**SPEI 449 - Beyond Behavior**

An examination of systemic topics beyond the scope of the Individuals with Disabilities Education Act (IDEA) that impact the well-being of youth and adolescents with emotional-behavioral impairments: social, cultural and environmental factors; home disruptions; internalized disorders; externalized disorders; and pervasive disorders.

**Credit Hours:** 3 hrs  
**Prerequisite:** SPEI 301; SPGN 390; SPGN 395; SPGN 461 and admission to the Initial Teacher Preparation Program  
**Class Restrictions:** Junior standing  
**Major Restrictions:** Emotional Impairment Majors only  
*Last Updated:* Links 03/2011

**SPEI 477 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 1 hr  
**Prerequisite:** Department permission  
*Last Updated:* Links 03/2011

**SPEI 478 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 2 hrs  
**Prerequisite:** Department permission  
*Last Updated:* Links 03/2011

**SPEI 479 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 3 hrs
Prerequisite: Department permission

Last Updated: Links 03/2011

**SPEI 488 - Curriculum, Methods and Programming for Secondary Students with Emotional Impairment**

Teaching methods, techniques and materials appropriate for adolescents with emotional impairment are presented. Transition fundamentals are addressed and students are provided opportunities to observe and interact with adolescents and young adults with emotional impairment. Students participate in the development of a transition plan through a structured field experience.

Credit Hours: 2 hrs

**SPEI 497 - Independent Study**

Advanced study on an individual basis in which the department does not offer a formal course.

Credit Hours: 1 hr
Prerequisite: Department permission

Last Updated: Links 03/2011

**SPEI 498 - Independent Study**

Advanced study on an individual basis in which the department does not offer a formal course.

Credit Hours: 2 hrs
Prerequisite: Department permission

**Hearing Impairment**

**SPHI 177 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr
Prerequisite: Department permission

Last Updated: Links 03/2011

**SPHI 178 - Special Topics**
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 2 hrs  
**Prerequisite:** Department permission  
**Last Updated:** Links 03/2011

**SPHI 228 - Education of Students with Hearing Impairment**

Designed to cover the history of the education of persons with hearing impairments, and to provide an overview of educational programming, psychological adjustment, parent counseling, communication methods and various philosophical approaches to education of persons with hearing impairments.

**Credit Hours:** 3 hrs  
**Concurrent Prerequisite:** SPGN 251  
**Last Updated:** Links 03/2011

**SPHI 277 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 1 hr  
**Prerequisite:** Department permission  
**Last Updated:** Links 03/2011

**SPHI 278 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 2 hrs  
**Prerequisite:** Department permission  
**Last Updated:** Links 03/2011

**SPHI 279 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 3 hrs  
**Prerequisite:** Department permission  
**Last Updated:** Links 03/2011

**SPHI 375 - Fundamentals of Sign Communication**

A study of the rationale for use of manual communication systems with persons with hearing impairments, including American Sign Language, manually-coded English Sign systems and fingerspelling. Beginning-level skills in manual communication will be developed. Observation of use of sign language in school programs will be required.

**Credit Hours:** 2 hrs
SPHI 377 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr
Prerequisite: Department permission
Last Updated: Links 03/2011

SPHI 378 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs
Prerequisite: Department permission
Last Updated: Links 03/2011

SPHI 379 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs
Prerequisite: Department permission
Last Updated: Links 03/2011

SPHI 387 - Introductory Practicum — Students with Hearing Impairment

Thirty clock hours of supervised observation and work with students with hearing impairments.

Credit Hours: 1 hr
Prerequisite: SPHI 228; admission to the Initial Teacher Preparation Program
Last Updated: Links 03/2011

SPHI 391 - Language for Students with Hearing Impairment

Language development of children with prelingual hearing impairments. Survey of various methods of teaching language, including natural and structured approaches.

Credit Hours: 3 hrs
Prerequisite: SPHI 228; admission to the Initial Teacher Preparation Program
Last Updated: Links 03/2011

SPHI 392 - Introduction to Audiology

This course provides an overview of the fundamental concepts of acoustics, anatomy and physiology. The pathologies of the auditory system, the basic audiological assessment techniques and audiometric interpretation; hearing screening and various rehabilitative measures will be discussed.

Credit Hours: 3 hrs
Prerequisite: SPSI 332, SPSI 334, SPSI 335, SPSI 336 and SPSI 337
Class Restrictions: Junior standing
Last Updated: Prerequisites 04/2012; Links 03/2011

SPHI 394 - Aural Habilitation Rehabilitation

A study of the avenues of receptive language available to persons with impaired hearing; the development of auditory learning, auditory training and the training of speechreading. Includes the understanding of group and individual hearing aids, other assistive technology and surgical implants.

Credit Hours: 3 hrs
Prerequisite: SPHI 392; admission to the Initial Teacher Preparation Program
Last Updated: Links 03/2011

SPHI 435 - Phonetics and Hearing Impairment

Credit Hours: 3 hrs
Prerequisite: SPSI 332 and SPSI 336
Last Updated: Links 03/2011

SPHI 436 - Speech Methods for Students with Hearing Impairment

Methods of assessment and intervention in the development of intelligible connected speech in persons with hearing impairments.

Credit Hours: 3 hrs
Prerequisite: SPHI 435; admission to the Initial Teacher Preparation Program
Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.
Last Updated: Graduate Credit 07/2011; Links 03/2011

SPHI 437 - Adaptive Curriculum for Students with Hearing Impairment

Principles and methods of teaching academic subjects to students with hearing impairments. Classroom procedures and materials especially designed for students with hearing impairments, as well as the adaptation of regular curricula and materials will be presented.

Credit Hours: 3 hrs
Prerequisite: SPHI 391; admission to the Initial Teacher Preparation Program
Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.
Last Updated: Graduate Credit 07/2011; Links 03/2011

SPHI 477 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.
SPHI 478 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 1 hr  
**Prerequisite:** Department permission  
**Last Updated:** Links 03/2011

SPHI 479 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 2 hrs  
**Prerequisite:** Department permission  
**Last Updated:** Links 03/2011

SPHI 487 - Speech Practicum — Students with Hearing Impairment

Thirty clock hours of supervised observation and speech work with persons with hearing impairments.

**Credit Hours:** 1 hr  
**Prerequisite:** SPHI 436; admission to the Initial Teacher Preparation Program  
**Last Updated:** Links 03/2011

SPHI 497 - Independent Study

Advanced study on an individual basis in areas in which the department does not offer a formal course.

**Credit Hours:** 1 hr  
**Prerequisite:** Department permission  
**Last Updated:** Links 03/2011

SPHI 498 - Independent Study

Advanced study on an individual basis in areas in which the department does not offer a formal course.

**Credit Hours:** 2 hrs  
**Prerequisite:** Department permission  
**Last Updated:** Links 03/2011

SPHI 499 - Independent Study

Advanced study on an individual basis in areas in which the department does not offer a formal course.

**Credit Hours:** 3 hrs
Prerequisite: Department permission

**SPPI 177 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 1 hr  
**Prerequisite:** Department permission  
**Last Updated:** Links 03/2011

**SPPI 178 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 2 hrs  
**Prerequisite:** Department permission  
**Last Updated:** Links 03/2011

**SPPI 179 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 3 hrs
**SPPI 240 - Preclinical Experiences — POHI**

This introductory course provides exposure to and experience with the physically or otherwise health impaired. Students will be encouraged to evaluate and examine their motivation for becoming a teacher of the physically and health impaired and be introduced to all aspects of the teaching profession. Students will participate in a field experience, being exposed to all age and grade levels. They will have an opportunity to visit a variety of settings that employ teachers of the physically and health impaired and be exposed to the ancillary services found in most POHI delivery models.

**Credit Hours:** 3 hrs

**SPPI 277 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 1 hr
**Prerequisite:** Department permission
**Last Updated:** Links 03/2011

**Last Updated:** Links 03/2011

**SPPI 279 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 3 hrs
**Prerequisite:** Department permission
**Last Updated:** Links 03/2011

**SPPI 310 - Developmental Sciences for Teachers of the Physically and Health Impaired**

A study of developmental human anatomy and physiology with emphasis upon the impact of the nervous system and its integration, function and control of the other body systems and their functions. The relationship of normal development to disability is explored and infused throughout the course. Laboratory periods are required where students can investigate the principles covered in lecture using anatomical models and specimens.

**Credit Hours:** 4 hrs
**Prerequisite:** BIO 105 and SPGN 251
**Last Updated:** Links 03/2011
SPPI 360 - Pathology of Physical and Health Impairments

A comprehensive study of orthopedic, neurologic, health and other handicapping conditions common to children and youth comprising the population found in educational settings serviced by the POHI teacher. Medical terminology and procedures are also introduced.

Credit Hours: 3 hrs
Prerequisite: SPPI 310
Last Updated: Links 03/2011

SPPI 377 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr
Prerequisite: Department permission
Last Updated: Links 03/2011

SPPI 378 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs
Prerequisite: Department permission
Last Updated: Links 03/2011

SPPI 379 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs
Prerequisite: Department permission
Last Updated: Links 03/2011

SPPI 412 - Ancillary Services and Health Procedures for Teachers of Physically Impaired

Information concerning the individual disciplines that provide ancillary services to physically and health impaired students. Skills involving the use of adaptive equipment, manipulation of orthotics, and implementation of health intervention and maintenance procedures will be learned.

Credit Hours: 2 hrs
Prerequisite: SPPI 310 or instructor permission; admission to the Initial Teacher Preparation Program
Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.
Last Updated: Graduate Credit 07/2011; Links 03/2011

SPPI 414 - Educational Strategies for Teachers of the Physically Impaired
This course encompasses information and develops skills needed to develop, implement, and evaluate curriculum and methods for the preschool and elementary physically and otherwise health impaired student. All aspects of cognitive, affective, and psychomotor education are explored. Emphasis is placed upon individualized instruction and programming, adaptations and modification of instructional methods and materials, remediation, communication, problem-solving, decision-making, personal adjustment, prevocational education and leisure activities. A directed classroom laboratory is required.

**Credit Hours:** 4 hrs  
**Prerequisite:** SPPI 360 and CURR 304 or CURR 305; admission to the Initial Teacher Preparation Program  
**Graduate Credit:** This is an undergraduate course available to graduate students for graduate credit.  
**Last Updated:** Graduate Credit 07/2011; Links 03/2011

### SPPI 497 - Independent Study

Advanced study on an individual basis in areas in which the department does not offer a formal course.

**Credit Hours:** 1 hr  
**Prerequisite:** Department permission  
**Last Updated:** Links 03/2011

### SPPI 498 - Independent Study

Advanced study on an individual basis in areas in which the department does not offer a formal course.

**Credit Hours:** 2 hrs  
**Prerequisite:** Department permission  
**Last Updated:** Links 03/2011

### SPPI 499 - Independent Study

Advanced study on an individual basis in areas in which the department does not offer a formal course.

**Credit Hours:** 3 hrs  
**Prerequisite:** Department permission  
**Last Updated:** Links 03/2011

### Special Education

#### SPGN 177 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 1 hr  
**Prerequisite:** Department permission  
**Last Updated:** Links 03/2011

#### SPGN 178 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.
SPGN 179 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs
Prerequisite: Department permission
Last Updated: Links 03/2011

SPGN 251 - Education of Students with Exceptionalities

This introductory survey course provides a framework for understanding how legislative and social changes in the U.S. have modified the ways in which diversity issues related to student learning characteristics have impacted equity in education. This course includes the historical, philosophical and organizational factors leading to the enactment of federal and state laws, rules, and regulations governing special education. Characteristics, educational considerations and implications of all areas of exceptionality are addressed.

Credit Hours: 3 hrs

SPGN 271 - Speech and Language Development in Children, Adolescents and Young Adults with Exceptional Learning Needs

Speech and language development in children and adolescents from birth through young adulthood. Unique patterns of speech and language development in children and adolescents with special learning needs are emphasized. Lecture and observation.

Credit Hours: 2 hrs
Notes: Required of all special education majors except speech and language impairment and hearing impaired, who must take SPGL337 Language Acquisition.

SPGN 277 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr
Prerequisite: Department permission
Last Updated: Links 03/2011

SPGN 278 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs
Prerequisite: Department permission
Last Updated: Links 03/2011
SPGN 279 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs
Prerequisite: Department permission
Last Updated: Links 03/2011

SPGN 323W - Writing for Professionals in Special Education (Gen Ed Area I, W)

Intermediate writing course to prepare students for professional writing in the field of special education.

Credit Hours: 3 hrs
Prerequisite: ENGL 121 and admission to the Initial Teacher Preparation Program
Class Restrictions: Junior standing
Last Updated: Links 03/2011

SPGN 377 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr
Prerequisite: Department permission
Last Updated: Links 03/2011

SPGN 378 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs
Prerequisite: Department permission
Last Updated: Links 03/2011

SPGN 379 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs
Prerequisite: Department permission
Last Updated: Links 03/2011

SPGN 390 - Measurement and Diagnosis in Special Education

This course is required for all students majoring in special education. Students will learn about a wide variety of standardized and criterion-referenced tests and about their role in assessing intellectual capacity, academic achievement, socioemotional skills, adaptive behavior, and auditory and visual limitations of students with handicaps. The course will be taught in a lecture format.
Students will look at and become familiar with a wide variety of commonly used tests. Cultural reactions, test bias, and limitations will be explored.

**Credit Hours:** 3 hrs  
**Prerequisite:** SPGN 251; admission to the Initial Teacher Preparation Program  
**Last Updated:** Links 03/2011

**SPGN 395 - Children, Adolescents, and Young Adults with Disabilities: School, Family and Community Interaction**

Knowledge of the reciprocal influences of children and adolescents with disabilities, their families, and community institutions: legal, medical, social, educational, and welfare components of social institutions. Students develop skills required to identify problem areas for the children and adolescents with disabilities, and their families, when interfacing with community institutions and to plan and implement effective intervention for positive growth.

**Credit Hours:** 3 hrs  
**Prerequisite:** SPGN 251  
**Last Updated:** Links 03/2011

**SPGN 401 - International Teaching I (NEW COURSE)**

Students will have the opportunity to practice teaching non-English and/or English speaking children and develop an understanding of different learning styles, cultures, societies, family, language, history, and education through a semester-long teaching practicum in a foreign classroom. They will learn about characteristics of culturally and linguistically diverse students, evidence-based teaching methods, and teachers' roles and responsibilities.

**Credit Hours:** 6 hrs  
**Prerequisite:** 48-credit hours and department permission  
**Graduate Credit:** This is an undergraduate course available to graduate students for graduate credit.  
**Notes:** Students may register for both SPGN 401: International Teaching I and SPGN 402: International Teaching II for a total of 12 credits.  
**Last Updated:** Graduate Credit Approval 09/2012, effective Winter 2013; New Course 6/2012

**SPGN 402 - International Teaching II (NEW COURSE)**

Students will have the opportunity to practice teaching non-English and/or English speaking children and develop an understanding of different learning styles, cultures, societies, family, language, history, and education through a semester-long teaching practicum in a foreign classroom. They will learn about characteristics of culturally and linguistically diverse students, evidence-based teaching methods, and teachers' roles and responsibilities.

**Credit Hours:** 6 hrs  
**Prerequisite:** 48-credit hours and department permission  
**Graduate Credit:** This is an undergraduate course available to graduate students for graduate credit.  
**Notes:** Students may register for both SPGN 401: International Teaching I and SPGN 402 International Teaching II for a total of 12 credits.  
**Last Updated:** Graduate Credit Approval 09/2012, effective Winter 2013; New Course 06/2012

**SPGN 461 - Classroom Management and Intervention Strategies for Students with Disabilities**
Strategies, approaches and techniques for effective classroom management for students with disabilities. Behavioral theories provide the foundation for the construction of effective strategies and techniques applicable in inclusive, resource and self-contained classroom settings. Roles and responsibilities of students, teachers, families and other school personnel are discussed.

Credit Hours: 3 hrs
Prerequisite: SPGN 251; admission to the Initial Teacher Preparation Program
Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.
Last Updated: Graduate Credit 07/2011; Links 03/2011

**SPGN 471 - Curriculum and Transitions for Secondary Special Education**

The role of the special educator relative to curriculum and transition planning at the secondary level is explored. Topics address all disability areas and settings. An approved field work practicum is required.

Credit Hours: 3 hrs
Prerequisite: SPGN 251, SPGN 390, SPGN 461, SPGN 395 and admission to the Initial Teacher Preparation Program
Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.
Last Updated: Graduate Credit 07/2011; Links 03/2011

**SPGN 477 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr
Prerequisite: Department permission
Last Updated: Links 03/2011

**SPGN 478 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs
Prerequisite: Department permission
Last Updated: Links 03/2011

**SPGN 479 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs
Prerequisite: Department permission
Last Updated: Links 03/2011

**SPGN 481 - Assistive and Instructional Technology in Special Education**

Identification and Implementation of instructional and assistive technology in the special general education curriculum. Educational software, productivity, applications, digital media, adapted microcomputers, voice input/output, switching device, alternative input methods, adaptive output methods and other adaptive and assistive devices are explored. Course provides a
broad knowledge base rather than disability specific information.

**Credit Hours:** 3 hrs  
**Prerequisite:** SPGN 251; admission to the Initial Teacher Preparation Program  
**Graduate Credit:** This is an undergraduate course available to graduate students for graduate credit.  
**Last Updated:** Graduate Credit 07/2011; Links 03/2011

**SPGN 485 - Curriculum, Programs and Services for Adolescents and Young Adults with Disabilities**

Secondary and post-secondary special education curricula, programs and services are explored, with focus on the cognitive, personal, social, emotional, physical, prevocational and vocational needs of adolescents and young adults with disabilities.

**Credit Hours:** 2 hrs

**SPGN 486 - Transition and Related Field Experiences: Adolescents and Young Adults with Disabilities**

Application of transition fundamentals appropriate to the student’s area of endorsement. Observation and direct work with adolescents and young adults with disabilities is required. A transition plan will be completed.

**Credit Hours:** 2 hrs

**SPGN 491 - Special Education Student Teaching and Seminar**

Culminating field-based experience and seminar in the Special Education professional preparation program. Student teaching placement is in a K-12 special education setting in the area in which the endorsement will be earned. Seminar requirements will focus on expanding field-based experiences. The placement and seminar are for one complete academic semester.

**Credit Hours:** 12 hrs  
**Prerequisite:** admission to the Initial Teacher Preparation Program  
**Graduate Credit:** This is an undergraduate course available to graduate students for graduate credit.  
**Last Updated:** Graduate Credit 07/2011

**SPGN 497 - Independent Study**

Directed study of a problem or group of problems in special education.

**Credit Hours:** 1 hr  
**Prerequisite:** Department permission  
**Last Updated:** Links 03/2011

**SPGN 498 - Independent Study**

Directed study of a problem or group of problems in special education.

**Credit Hours:** 2 hrs  
**Prerequisite:** Department permission  
**Last Updated:** Links 03/2011
SPGN 499 - Independent Study

Directed study of a problem or group of problems in special education.

Credit Hours: 3 hrs
Prerequisite: Department permission
Last Updated: Links 03/2011

Speech/Language Pathology

SPSI 177 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr
Prerequisite: Department permission
Last Updated: Links 03/2011

SPSI 178 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs
Prerequisite: Department permission
Last Updated: Links 03/2011

SPSI 179 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs
Prerequisite: Department permission
Last Updated: Links 03/2011

SPSI 277 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr
Prerequisite: Department permission
Last Updated: Links 03/2011

SPSI 278 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.
Credit Hours: 2 hrs  
Prerequisite: Department permission  
Last Updated: Links 03/2011

**SPSI 279 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs  
Prerequisite: Department permission  
Last Updated: Links 03/2011

**SPSI 332 - Acoustic Phonetics: Speech Science**

Basic principles of acoustic science and speech perception. Consideration of speech as an acoustical phenomenon and the analysis of speech patterns through measurements of sound and spectral analysis.

Credit Hours: 2 hrs  
Class Restrictions: Junior standing or higher  
Major Restrictions: Must be enrolled in one of the following majors: Special Education Major K-12 Speech/Language Pathology Endorsement (Elementary or Secondary), Speech/Language Pathology Major - Health Care Track  
Course Revisions:  
Course Revisions: This course will have a class restriction change from "none" to "Junior standing or higher," effective Winter 2013. The course revision also includes a major restriction from "SPSI approved" to "Must be enrolled in one of the following majors: Special Education Major K-12 Speech/Language Pathology Endorsement (Elementary or Secondary), Speech/Language Pathology Major - Health Care Track."  
Last Updated: Major and Class Restriction Change 10/2012, effective Winter 2013

**SPSI 334 - Applied Phonetics**

An introduction to the use of the International Phonetic Alphabet Classification and production of English speech sounds. Phonemic transcription, including some analysis of deviant and variant speech. Lab experiences weekly.

Credit Hours: 3 hrs  
Class Restrictions: Junior standing or higher  
Major Restrictions: Must be enrolled in one of the following majors: Special Education Major K-12 Speech/Language Pathology Endorsement (Elementary or Secondary), Speech/Language Pathology Major - Health Care Track  
Course Revisions:  
Course Revisions: This course will have a class restriction change from "none" to "Junior standing or higher," effective Winter 2013. The course revision also includes a major restriction from "SPSI approved" to "Must be enrolled in one of the following majors: Special Education Major K-12 Speech/Language Pathology Endorsement (Elementary or Secondary), Speech/Language Pathology Major - Health Care Track."  
Last Updated: Major and Class Restriction Change 10/2012, effective Winter 2013; Credit Hour Change 02/2012

**SPSI 335 - Introduction to Communication Disorders**

A study of the major communication disorders as deviations from normal physical and social behavior. Etiology and symptomatology.

Credit Hours: 3 hrs
Corequisites: SPSI 334
Class Restrictions: Junior standing or higher
Course Revisions: This course will have a title change from "Communication Disorders" to "Introduction to Communication Disorders," effective Winter 2013. The course revision also includes a class restriction change from "none" to "Junior standing or higher," and a major restriction change from "SPSI approved" to "none."
Last Updated: Title, Major, and Class Restriction Change 10/2012, effective Winter 2013

**SPSI 336 - Physiologic Phonetics: Anatomy and Physiology**

Anatomy and physiology of normal speech production, consideration of speech as a motor behavior, physiological investigation of speech and voice.

Credit Hours: 3 hrs
Class Restrictions: Junior standing or higher
Major Restrictions: Must be enrolled in one of the following majors: Special Education Major K-12 Speech/Language Pathology Endorsement (Elementary or Secondary), Speech/Language Pathology Major - Health Care Track
Course Revisions: This course will have a class restriction change from "none" to "Junior standing or higher," effective Winter 2013. The course revision also includes a major restriction from "SPSI approved" to "Must be enrolled in one of the following majors: Special Education Major K-12 Speech/Language Pathology Endorsement (Elementary or Secondary), Speech/Language Pathology Major - Health Care Track."
Last Updated: Major and Class Restriction Change 10/2012, effective Winter 2013

**SPSI 337 - Language Acquisition**

The development of speech, language, hearing and communication from birth. The interrelationship between cognitive development and language acquisition and usage. Developmental processes and milestones in phonology, morphology, syntax and semantics and pragmatics as a basis for understanding the effects of speech, language and hearing problems of the individual.

Credit Hours: 3 hrs
Class Restrictions: Junior standing or higher
Major Restrictions: Must be enrolled in one of the following majors: Special Education Major K-12 Speech/Language Pathology Endorsement (Elementary or Secondary), Speech/Language Pathology Major - Health Care Track
Course Revisions: This course will have a class restriction change from "none" to "Junior standing or higher," effective Winter 2013. The course revision also includes a major restriction from "SPSI approved" to "Must be enrolled in one of the following majors: Special Education Major K-12 Speech/Language Pathology Endorsement (Elementary or Secondary), Speech/Language Pathology Major - Health Care Track."
Last Updated: Major and Class Restriction Change 10/2012, effective Winter 2013

**SPSI 344 - Clinical Practice in Speech-Language Pathology**

Supervised clinical experience with language, phonological and articulation disorders.

Credit Hours: 2 hrs
Prerequisite: SPSI343 and department permission

**SPSI 346 - Speech, Language and Phonological Disorders in Children**

Issues in the theoretical bases of speech, language and phonological disorders in children. Review of nature and diagnosis of these disorders in children.
Credit Hours: 3 hrs
Prerequisite: SPSI 332, SPSI 334, SPSI 336 and SPSI 337
Class Restrictions: Junior standing or higher
Major Restrictions: Must be enrolled in one of the following majors: Special Education Major K-12 Speech/Language Pathology Endorsement (Elementary or Secondary), Speech/Language Pathology Major - Health Care Track
Previously Listed As: (SPSI 340 and SPSI 342); SPSI 341
Course Revisions: This course will have a class restriction change from "none" to "Junior standing or higher," effective Winter 2013. The course revision also includes a major restriction from "SPSI approved" to "Must be enrolled in one of the following majors: Special Education Major K-12 Speech/Language Pathology Endorsement (Elementary or Secondary), Speech/Language Pathology Major - Health Care Track."
Last Updated: Major and Class Restriction Change 10/2012, effective Winter 2013

SPSI 347 - Normal Aging and Health Issues in Speech-Language Pathology

This course is designed to introduce students to the impact of normal aging on communication disorders. Structures and models for service delivery associated with speech pathologists serving geriatric patients will also be taught.

Credit Hours: 3 hrs
Class Restrictions: Junior standing or higher
Major Restrictions: Must be enrolled in one of the following majors: Special Education Major K-12 Speech/Language Pathology Endorsement (Elementary or Secondary), Speech/Language Pathology Major - Health Care Track
Course Revisions: This course will have a class restriction change from "none" to "Junior standing or higher," effective Winter 2013. The course revision also includes a major restriction from "SPSI approved" to "Must be enrolled in one of the following majors: Special Education Major K-12 Speech/Language Pathology Endorsement (Elementary or Secondary), Speech/Language Pathology Major - Health Care Track."
Last Updated: Major and Class Restriction Change 10/2012, effective Winter 2013

SPSI 377 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr
Prerequisite: Department permission
Last Updated: Links 03/2011

SPSI 378 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

SPVI 279 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 3 hrs  
**Prerequisite:** Department permission  
**Last Updated:** Links 03/2011

SPVI 365 - Braille

Developing proficiency in reading and writing error-free braille and the reading of music braille.

**Credit Hours:** 3 hrs  
**Prerequisite:** Admission to the Initial Teacher Preparation Program  
**Concurrent Prerequisite:** SPGN 251  
**Last Updated:** Links 03/2011

SPVI 366 - The Eye and Vision — Anatomy and Physiology

Anatomy, physiology, and pathology of the organs of vision, refractive errors, and principles of correction. Educational implications of visual impairment in children, rather than strictly medical achievements. Interpretation of medical reports to parents, students and teachers.

**Credit Hours:** 2 hrs  
**Prerequisite:** SPGN 251  
**Last Updated:** Links 03/2011

SPVI 368 - Mobility Training for Persons with Visual Impairment

Sensory training, study, and development of cane techniques as they apply to mobility for persons with visual impairment. Introduction to leader dog program. Practicum included. Offered on the junior, senior and graduate level.

**Credit Hours:** 2 hrs  
**Class Restrictions:** Junior standing

SPVI 369 - Community Considerations for Persons with Visual Impairment

The lifestyle and needs of persons with visual impairment; appropriate considerations the community must take for all levels of physical, emotional, and vocational development. Field trips and classroom experiences, acquaintance with a wide variety of service-oriented facilities for persons with visual impairment.

**Credit Hours:** 3 hrs  
**Prerequisite:** SPGN 251; admission to the Initial Teacher Preparation Program  
**Last Updated:** Links 03/2011

SPVI 377 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.
SPVI 378 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs
Prerequisite: Department permission
Last Updated: Links 03/2011

SPVI 379 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs
Prerequisite: Department permission
Last Updated: Links 03/2011

SPVI 464 - Methods of Teaching Children who are Blind

A study of the various methods used in educating and assessing children who are blind, and the adaptation of these methods to the teaching of school subjects for these students. Further emphasis on Nemeth Code, Cranmer abacus and other teaching materials and devices.

Credit Hours: 3 hrs
Prerequisite: SPGN 251; admission to the Initial Teacher Preparation Program
Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.
Last Updated: Graduate Credit 07/2011; Links 03/2011

SPVI 465 - Braille II: Nemeth Code

Development of proficiency in reading and writing Nemeth Braille code for mathematics and science notation.

Credit Hours: 3 hrs
Prerequisite: SPVI 365; admission to the Initial Teacher Preparation Program
Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.
Last Updated: Graduate Credit 07/2011; Links 03/2011

SPVI 467 - Education of Children with Visual Impairment

Organization and administration of various plans for educating children with visual impairment. Adaptation of various teaching methods and materials for these children, as well as comparison of various vision testing methods and devices.

Credit Hours: 2 hrs
Prerequisite: SPGN 251; admission to the Initial Teacher Preparation Program
Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.
Last Updated: Graduate Credit 07/2011; Links 03/2011
SPVI 469 - Technology for Persons with Visual Impairment

Experience with a variety of tools available for use by persons with visual impairment. The tools and devices covered include those designed to provide assistance in reading, Braille and low-vision.

Credit Hours: 2 hrs
Prerequisite: admission to the Initial Teacher Preparation Program
Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.
Last Updated: Graduate Credit 07/2011

SPVI 477 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr
Prerequisite: Department permission

Teacher Education Programs and Courses

Teacher Education

Major

Elementary Education Early Childhood Education Major (ECE)

Students seeking a major in ECE need to attend early childhood group advising sessions early in their program.

Successful completion of this course of study, in the context of other program requirements, qualifies the student for recommendation for the Michigan Department of Education Elementary Provisional Certificate, which is valid for teaching all subjects K-5, for teaching in self-contained classrooms in grades six to eight. In addition, the student who passes the Early Childhood Education MTTC is qualified for recommendation for endorsement in early childhood, certification code ZS. The Michigan Test for Teacher Certification (MTTC) for this field are #082, “Early Childhood,” #083, “Elementary Education,” and Elementary Certification Test 1, #103, and Elementary Certification Test 2, #104, and those needed for subject area endorsements.

Elementary education and early childhood education students are required to attend a group advising session and then an open advising session before being assigned an adviser.

Teacher Education Department Information:

Interim Department Head: Martha Kinney-Sedgwick
Department Contact: mkinneys@emich.edu
Website: http://www.emich.edu/coe/ted/

General Education Requirements:

For specific requirements refer to the General Education Program. Download the Gen Ed Checklist here.

Initial Teacher Preparation Program Admission

In order to pursue the sequence of courses necessary to complete eligibility for recommendation for certification, one must apply for and be admitted to the teacher preparation program. Admission requirements are common for all teacher preparation programs, except that certain special education programs have additional requirements.

Each undergraduate student is responsible for applying to the teacher preparation program immediately after the semester in which the student has earned 56 credit hours. Transfer students with more than 56 credit hours should apply immediately after the semester in which they have earned 12 hours at EMU, including at least one course in their major. Students with 56 hours of transfer course work with a decision GPA of 3.0 may apply for admission to the teacher preparation program without 12 earned hours at EMU.

Admission to the teacher preparation program is not automatic. Only those persons who have formally applied are considered for admission. Not all persons who apply become eligible for admission.

Applications for the Initial Teacher Preparation Program at EMU are available within your my.emich account under the "Student" tab. Submit your completed application to the Office of Academic Services once you have earned 56 credit hours.
Teaching majors and minors are unofficial until program admission. Students pursuing teacher certification should follow the catalog that exists at the time of program admission. It is important that students apply to the teacher preparation program as soon as they have earned 56 credit hours.

**Criteria**

1. Completion of 56 credit hours
2. Appropriate cumulative GPA. One of:
   1. An overall EMU GPA of 2.5 or higher. At least 12 of the 56 credit hours taken at EMU with an EMU GPA of 2.5 or higher in your major (each of your majors if declaring a double major). You must complete at least one course in your major(s) in order to be eligible.
   2. Transferred 56 credits with a cumulative 3.0 GPA from all previous institutions.
3. A grade of “C” or higher (if taken) in the following courses:
   1. Secondary: ENGL 121, CTAC 124, quantitative reasoning, one lab science, all professional education courses, and, if special education, PSY 101.
   2. Elementary: ENGL 121, CTAC 124, MATH 108, MATH 110E, PHY 100, CHEM 101, ESSC 202, all of the professional education courses, all courses that state “for elementary teachers,” and, if special education, PSY 101.
4. Passing scores on all three sections of the Michigan Test for Teacher Certification Basic Skills Test (MTTC) (reading, mathematics, and writing). Official score report must be on file at Eastern Michigan University.
5. Personal statement about your experiences with youth/children and why you are going into teaching. This statement will be read for content, grammar, and punctuation.
6. Completion of a Disposition Self Evaluation Form.
7. ICHAT criminal background check and Statement of Civil/Criminal Convictions. If you answered yes to any of the civil/criminal conviction questions on the application, you will need to provide:
   1. A copy of the Judgment of Sentence, or Registrar of Actions, or Certification of Conviction.
   2. A written explanation of the offense(s). Application of students with civil/criminal convictions will be carefully reviewed and may take longer to process.
8. Meet academic, social, moral, and financial obligations as a member of the EMU community.

**Liberal Arts Major Requirements: 48 hours**

*Twelve of the required courses can fulfill General Education requirements*

**Note:** Some of the courses listed below may also be listed in other areas of the program but only need to be taken once.

- ARTE 220 - Visual Arts for Elementary Teachers (Gen Ed Area IV) 3 hrs
- CHEM 101 - Chemistry for Elementary Teachers (Gen Ed Area IV) 3 hrs
- CHL 207 - Introduction to Children's Literature (Gen Ed Area IV) 3 hrs
• CTAC 124 - Foundations of Speech Communication (Gen Ed Area I) 3 hrs
• DANC 220 - Dance for the Elementary School Teacher 3 hrs
• ENGL 121 - Composition II: Researching the Public Experience (Gen Ed Area I) 3 hrs
• ESSC 202 - Earth Science for Elementary Teachers (Gen Ed Area IV) 3 hrs
• GEOG 110 - World Regions (Gen Ed Area III) 3 hrs
• HIST 123 - The United States to 1877 (Gen Ed Area IV) 3 hrs
• HIST 313 - Michigan History 3 hrs
• MATH 108 - Problem Solving and Number Concepts for Elementary School Teachers 3 hrs
• MATH 110E - Mathematical Reasoning: Applications for Elementary School Teachers (Gen Ed Area II) 3 hrs
• MUSC 220 - Music for the Elementary Teacher (Gen Ed Area IV) 3 hrs
• PHY 100 - Physics for Elementary Teachers (Gen Ed Area IV) 3 hrs
• PLSC 112 - American Government (Gen Ed Area IV) 3 hrs

One course from the following:

• ENGL 307 - Writing Process for Elementary Teachers 3 hrs
• RDNG 240 - Reading and Writing Connections in the Elementary Grades 3 hrs

Content Requirements: 34 hours

• ECE 214 - The Developing Child Birth-Age Eight 3 hrs
• ECE 215 - The Developing Early Childhood Professional 3 hrs
• ECE 302 - Child Centered Teaching and Learning 3 hrs
• ECE 303 - Implementing the Curriculum 3 hrs
• ECE 307 - Diverse Children, Families and Communities 3 hrs
• ECE 314 - Infants and Toddlers: Development, Curriculum and Programs 3 hrs
• ** ECE 341 - Assessment of the Young Child 3 hrs
• ECE 342 - Intentional Teaching in the Content Areas 3 hrs
• ECE 343 - Advocacy, Leadership and Administration 3 hrs
• ECE 451 - inclusive Classroom in Early Childhood 3 hrs
• EDUC 495 - Student Teaching 4 hrs

Professional Elementary Education Sequence - ECE

Pre-Admission Phase: The Learner and the Community: 7 hours

• EDPS 322 - Human Development and Learning 4 hrs
• SPGN 251 - Education of Students with Exceptionalities 3 hrs

The following courses require formal admission to the Initial Teacher Preparation Program:

Phase I: Curriculum, Assessment, and the Social Context: 15 hrs

Prerequisite: Completion of Pre-Admission Phase is required.
These two courses must be taken together.

- CURR 304 - Curriculum and Methods: Elementary 3 hrs
- EDMT 330 - Instructional Applications of Media and Technology 3 hrs
- PRCT 304 - Practicum I: Elementary 3 hrs
- RDNG 300 - Early Literacy 3 hrs
- SOFD 328W - Schools for a Diverse and Democratic Society (Gen Ed Area I, W) 3 hrs

Phase II: Content and Methods and Teaching: 18 hours

Prerequisite: Completion of Phase I is required.

- BIOT 303 - Life Science for Elementary Teachers 3 hrs
- CTAR 300 - Integrated Arts 3 hrs
- MATH 381 - Teaching Mathematics in Elementary School 3 hrs
- PRCT 310 - Practicum II: Elementary 3 hrs
- RDNG 310 - Literacy Across the Curriculum in the Intermediate Grades 3 hrs

One course from the following:

- CURR 308 - Integrated Elementary Social Studies Methods 3 hrs
- HIST 308 - Integrated Elementary Social Studies Methods 3 hrs

Phase III: Capstone Experience: 9 hours

Prerequisite: Completion of Phase II is required.

- EDUC 495 - Student Teaching 4 hrs
- EDUC 498 - Student Teaching 5 hrs

Program Total:

Students must earn a minimum total of 124 credits at the 100-level or above.

Notes:

** This course cannot be taken until Pre-Admission Phase is completed.

Critical Graduation Information:

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the 100-level and above. Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.
• Meet the requirements of the General Education program (see information below).

• Earn a minimum of 60 credits from a four-year college or university; courses taken at community colleges cannot be used to meet this requirement. (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)

• Earn a minimum of 30 credits from courses taken at EMU.

• Complete 10 of the last 30 hours for the degree from courses taken at EMU.

• Have a minimum of 30 unique credit hours in their major and 20 unique credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.

• Not more than 60 credit hours in one subject area (prefix) may be applied towards the minimum of 124 credit hours required for a bachelor's degree.

• Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more that one major or minor.
  o Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
  o Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
  o Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor.

• Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is coordinated by the Office of Admissions, and additional documentation may be required.

• Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be earned in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

**General Education Requirements:**

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available on the General Education section of the catalog: General Education

• For Students who began their undergraduate program at EMU in Fall 2007 or later or who have elected to follow the current ("new") General Education Program, follow the "For Students" link under the Current Program heading.

• For Students who began their undergraduate program at EMU before Fall 2007 and who have elected to follow the Pre-2007 General Education Requirements, follow the "General Education Program Prior to Fall 2007 (pdf file)" link under the Program Prior to Fall 2007 heading. Please note that students who wish to graduate under pre-2007 General Education requirements must graduate by August 2014; those who have not completed all degree requirements by that time will need to satisfy the current (Fall 2007) General Education requirements.

Students who transferred to EMU may have modified general education requirements based on MACRAO or articulation agreements; consult your academic adviser for additional information.

**University Information:** Consult the online catalog at catalog.emich.edu.

**Elementary Education Integrated Science Major**

**Elementary Teacher Certification**
Successful completion of this course of study, in the context of other program requirements, qualifies the student for recommendation for the Michigan Elementary Provisional Certificate. The Michigan Test for Teacher Certification (MTTC)
covering this certification are Elementary Certification tests #103 and #104. The endorsement test for Integrated Science (Elementary) is MTTC#093.

Teacher Education Department Information:

Interim Department Head: Martha Kinney-Sedgwick  
Department Contact: mkinneys@emich.edu  
Website: http://www.emich.edu/coe/ted/

General Education Requirements:

For specific requirements refer to the General Education Program. Download the Gen Ed Checklist here.

Initial Teacher Preparation Program Admission

In order to pursue the sequence of courses necessary to complete eligibility for recommendation for certification, one must apply for and be admitted to the teacher preparation program. Admission requirements are common for all teacher preparation programs, except that certain special education programs have additional requirements.

Each undergraduate student is responsible for applying to the teacher preparation program immediately after the semester in which the student has earned 56 credit hours. Transfer students with more than 56 credit hours should apply immediately after the semester in which they have earned 12 hours at EMU, including at least one course in their major. Students with 56 hours of transfer course work with a decision GPA of 3.0 may apply for admission to the teacher preparation program without 12 earned hours at EMU.

Admission to the teacher preparation program is not automatic. Only those persons who have formally applied are considered for admission. Not all persons who apply become eligible for admission.

Applications for the Initial Teacher Preparation Program at EMU are available within your my.emich account under the "Student" tab. Submit your completed application to the Office of Academic Services once you have earned 56 credit hours.

Teaching majors and minors are unofficial until program admission. Students pursuing teacher certification should follow the catalog that exists at the time of program admission. It is important that students apply to the teacher preparation program as soon as they have earned 56 credit hours.

Criteria

1. Completion of 56 credit hours
2. Appropriate cumulative GPA. One of:
   1. An overall EMU GPA of 2.5 or higher. At least 12 of the 56 credit hours taken at EMU with an EMU GPA of 2.5 or higher in your major (each of your majors if declaring a double major). You must complete at least one course in your major(s) in order to be eligible.
   2. Transferred 56 credits with a cumulative 3.0 GPA from all previous institutions.
3. A grade of “C” or higher (if taken) in the following courses:
   1. Secondary: ENGL 121 , CTAC 124, quantitative reasoning, one lab science, all professional education courses, and, if special education, PSY 101.
2. Elementary: ENGL 121, CTAC 124, MATH 108, MATH 110E, PHY 100, CHEM 101, ESSC 202, all of the professional education courses, all courses that state “for elementary teachers,” and, if special education, PSY 101.

4. Passing scores on all three sections of the Michigan Test for Teacher Certification Basic Skills Test (MTTC) (reading, mathematics, and writing). Official score report must be on file at Eastern Michigan University.

5. Personal statement about your experiences with youth/children and why you are going into teaching. This statement will be read for content, grammar, and punctuation.

6. Completion of a Disposition Self Evaluation Form.

7. ICHAT criminal background check and Statement of Civil/Criminal Convictions. If you answered yes to any of the civil/criminal conviction questions on the application, you will need to provide:
   1. A copy of the Judgment of Sentence, or Registrar of Actions, or Certification of Conviction.
   2. A written explanation of the offense(s). Application of students with civil/criminal convictions will be carefully reviewed and may take longer to process.

8. Meet academic, social, moral, and financial obligations as a member of the EMU community.

Liberal Arts Major Requirements: 48 hours

✧ Twelve of the required courses can fulfill General Education requirements

Note: Some of the courses listed below may also be listed in other areas of the program but only need to be taken once.

- ✧ ARTE 220 - Visual Arts for Elementary Teachers (Gen Ed Area IV) 3 hrs
- ✧ CHEM 101 - Chemistry for Elementary Teachers (Gen Ed Area IV) 3 hrs
- ✧ CHL 207 - Introduction to Children's Literature (Gen Ed Area IV) 3 hrs
- ✧ CTAC 124 - Foundations of Speech Communication (Gen Ed Area I) 3 hrs
- ✧ DANC 220 - Dance for the Elementary School Teacher 3 hrs
- ✧ ENGL 121 - Composition II: Researching the Public Experience (Gen Ed Area I) 3 hrs
- ✧ ESSC 202 - Earth Science for Elementary Teachers (Gen Ed Area IV) 3 hrs
- ✧ GEOG 110 - World Regions (Gen Ed Area III) 3 hrs
- ✧ HIST 123 - The United States to 1877 (Gen Ed Area IV) 3 hrs
- ✧ HIST 313 - Michigan History 3 hrs
- ✧ MATH 108 - Problem Solving and Number Concepts for Elementary School Teachers 3 hrs
- ✧ MATH 110E - Mathematical Reasoning: Applications for Elementary School Teachers (Gen Ed Area II) 3 hrs
- ✧ MUSC 220 - Music for the Elementary Teacher (Gen Ed Area IV) 3 hrs
- ✧ PHY 100 - Physics for Elementary Teachers (Gen Ed Area IV) 3 hrs
- ✧ PLSC 112 - American Government (Gen Ed Area IV) 3 hrs

One course from the following:

- ✧ ENGL 307 - Writing Process for Elementary Teachers 3 hrs
- ✧ RDNG 240 - Reading and Writing Connections in the Elementary Grades 3 hrs
Integrated Science Content Major Requirements: 36 hours

Required Course: 33 hours

- ASTR 105 - Exploration of the Universe (Gen Ed Area IV) 3 hrs
- BIO 105 - Introductory Biology for Non-majors (Gen Ed Area IV) 4 hrs
- BIOT 303 - Life Science for Elementary Teachers 3 hrs
- CHEM 101 - Chemistry for Elementary Teachers (Gen Ed Area IV) 3 hrs
- CHEM 312 - Teaching Elementary Chemistry 3 hrs
- ESSC 202 - Earth Science for Elementary Teachers (Gen Ed Area IV) 3 hrs
- ESSC 311 - Weather and Climate for Elementary Teachers 3 hrs
- ESSC 312 - Essentials of the Geosphere for Elementary Teachers 3 hrs
- PHY 100 - Physics for Elementary Teachers (Gen Ed Area IV) 3 hrs
- PHY 311 - Teaching Elementary Physical Science 3 hrs

One course from the following:

- BIOT 407 - Nature of Science for Elementary Teachers 2 hrs
- CHEM 407 - Nature of Science for Elementary Teachers 2 hrs
- ESSC 407 - Nature of Science for Elementary Teachers 2 hrs

Restricted Elective: 3 hours

Three hours from the following:

- ASTR 204 - Astronomical Investigations (Gen Ed Area IV) 1 hr
- ASTR 311 - Astronomy Projects for Elementary Teachers 3 hrs
- BIO 140 - Biology of Animals 4 hrs
- BIO 205 - Field Biology 4 hrs
- BIO 215 - Plants and People (Gen Ed Area III) 3 hrs
- BIO 226 - Global Ecology and the Environment 4 hrs
- BIO 259 - Biology of Aging 2 hrs
- CHEM 315 - Green Chemistry and the Environment for Elementary Teachers 3 hrs
- ESSC 114 - Geology of the National Parks (Gen Ed Area IV) 4 hrs
- ESSC 208 - Natural Environmental Hazards 3 hrs
- ESSC 307 - Essentials of Oceanography for Elementary Teachers 3 hrs
- ESSC 315 - Water and the Environment for Elementary Teachers 3 hrs
- ESSC 414 - Teaching Science with Dinosaurs 3 hrs
- PHY 312 - Electricity Experiments for Elementary Teachers 3 hrs

Professional Elementary Education Sequence

Pre-Admission Phase: The Learner and the Community: 11 hours

Prerequisite: Sophomore standing or higher.
• EDPS 322 - Human Development and Learning 4 hrs
• HLED 320 - Health Education in the Elementary Grades 2 hrs
• PHED 257 - Physical Education for the Classroom Teacher 2 hrs
• SPGN 251 - Education of Students with Exceptionalities 3 hrs

The following courses require formal admission to the Initial Teacher Preparation Program:

Phase I: Curriculum, Assessment, and the Social Context: 18 hours

Prerequisite: Completion of Pre-Admission Phase is required.

* These two courses must be taken together.
** EDPS 340 needs to be taken with or after CURR 304.

• CURR 304 - Curriculum and Methods: Elementary 3 hrs
• EDMT 330 - Instructional Applications of Media and Technology 3 hrs
• EDPS 340 - Introduction to Assessment and Evaluation 3 hrs
• PRCT 304 - Practicum I: Elementary 3 hrs
• RDNG 300 - Early Literacy 3 hrs
• SOFD 328W - Schools for a Diverse and Democratic Society (Gen Ed Area I, W) 3 hrs

Phase II: Content and Methods and Teaching: 18 hours

Prerequisite: Completion of Phase I is required.

* These two courses must be taken together.

• BIOT 303 - Life Science for Elementary Teachers 3 hrs
• CTAR 300 - Integrated Arts 3 hrs
• MATH 381 - Teaching Mathematics in Elementary School 3 hrs
• PRCT 310 - Practicum II: Elementary 3 hrs
• RDNG 310 - Literacy Across the Curriculum in the Intermediate Grades 3 hrs

One course from the following:

• CURR 308 - Integrated Elementary Social Studies Methods 3 hrs
• HIST 308 - Integrated Elementary Social Studies Methods 3 hrs

Phase III: Capstone Experience: 9 hours

Prerequisite: Completion of Phase II is required.

• EDUC 492 - Student Teaching 9 hrs
   This course requires a formal application to be submitted 7-8 months prior to the Student Teaching semester.

Program Total:
Students must earn a minimum total of 124 credits at the 100-level or above.

Notes:

Each student must choose a writing intensive course as part of major completion requirements. Consult your adviser for course options.

* These courses are listed as co-requisites.

Critical Graduation Information:

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the 100-level and above. Courses with numbers below 100 will not be counted toward this degree requirement. Professional Elementary Education Sequence

Pre-Admission Phase: The Learner and the Community: 11 hours

Prerequisite: Sophomore standing or higher.

• EDPS 322 - Human Development and Learning 4 hrs
• HLED 320 - Health Education in the Elementary Grades 2 hrs
• PHED 257 - Physical Education for the Classroom Teacher 2 hrs
• SPGN 251 - Education of Students with Exceptionalities 3 hrs

The following courses require formal admission to the Initial Teacher Preparation Program:

Phase I: Curriculum, Assessment, and the Social Context: 18 hours

Prerequisite: Completion of Pre-Admission Phase is required.

* These two courses must be taken together.
** EDPS 340 needs to be taken with or after CURR 304.

• * CURR 304 - Curriculum and Methods: Elementary 3 hrs
• EDMT 330 - Instructional Applications of Media and Technology 3 hrs
• ** EDPS 340 - Introduction to Assessment and Evaluation 3 hrs
• * PRCT 304 - Practicum I: Elementary 3 hrs
• RDNG 300 - Early Literacy 3 hrs
• SOFD 328W - Schools for a Diverse and Democratic Society (Gen Ed Area I, W) 3 hrs

Phase II: Content and Methods and Teaching: 18 hours

Prerequisite: Completion of Phase I is required.

* These two courses must be taken together.

• BIOT 303 - Life Science for Elementary Teachers 3 hrs
• CTAR 300 - Integrated Arts 3 hrs
• MATH 381 - Teaching Mathematics in Elementary School 3 hrs
• * PRCT 310 - Practicum II: Elementary 3 hrs
• * RDNG 310 - Literacy Across the Curriculum in the Intermediate Grades 3 hrs
One course from the following:

- CURR 308 - Integrated Elementary Social Studies Methods 3 hrs
- HIST 308 - Integrated Elementary Social Studies Methods 3 hrs

Phase III: Capstone Experience: 9 hours

Prerequisite: Completion of Phase II is required.

- EDUC 492 - Student Teaching 9 hrs
  This course requires a formal application to be submitted 7-8 months prior to the Student Teaching semester.

Program Total:

Students must earn a minimum total of 124 credits at the 100-level or above.

Note:

*Each student must choose a writing intensive course as part of major completion requirements. Consult your adviser for course options.*

Critical Graduation Information:

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the 100-level and above. Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Earn a minimum of 60 credits from a four-year college or university; courses taken at community colleges cannot be used to meet this requirement. (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 20 unique credit hours in their major and 30 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
- Not more than 60 credit hours in one subject area (prefix) may be applied towards the minimum of 124 credit hours required for a bachelor's degree.
- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more than one major or minor.
  - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
  - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
- Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor.

- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is coordinated by the Office of Admissions, and additional documentation may be required.

- Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be earned in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

**General Education Requirements:**

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available on the General Education section of the catalog: General Education.

- For Students who began their undergraduate program at EMU in Fall 2007 or later or who have elected to follow the current ("new") General Education Program, follow the "For Students" link under the Current Program heading.

- For Students who began their undergraduate program at EMU before Fall 2007 and who have elected to follow the Pre-2007 General Education Requirements, follow the "General Education Program Prior to Fall 2007 (pdf file)" link under the Program Prior to Fall 2007 heading. Please note that students who wish to graduate under pre-2007 General Education requirements must graduate by August 2014; those who have not completed all degree requirements by that time will need to satisfy the current (Fall 2007) General Education requirements.

Students who transferred to EMU may have modified general education requirements based on MACRAO or articulation agreements; consult your academic adviser for additional information.

**University Information:** Consult the online catalog at catalog.emich.edu.

**Elementary Education Program with Two Minors**

Successful completion of this course of study, in the context of other program requirements, qualifies the student for recommendation for the Michigan Elementary Provisional Certificate. The Michigan Test for Teacher Certification (MTTC) covering this certification are Elementary Certification tests #103 and #104.

**Teacher Education Department Information:**

Interim Department Head: Martha Kinney-Sedgwick
Department Contact: mkinneys@emich.edu
Website: http://www.emich.edu/coe/ted/

**General Education Requirements:**

For specific requirements refer to the General Education Program. Download the Gen Ed Checklist here.

**Initial Teacher Preparation Program Admission**

In order to pursue the sequence of courses necessary to complete eligibility for recommendation for certification, one must apply for and be admitted to the teacher preparation program. Admission requirements are common for all teacher preparation programs, except that certain special education programs have additional requirements.
Each undergraduate student is responsible for applying to the teacher preparation program immediately after the semester in which the student has earned 56 credit hours. Transfer students with more than 56 credit hours should apply immediately after the semester in which they have earned 12 hours at EMU, including at least one course in their major. Students with 56 hours of transfer course work with a decision GPA of 3.0 may apply for admission to the teacher preparation program without 12 earned hours at EMU.

Admission to the teacher preparation program is not automatic. Only those persons who have formally applied are considered for admission. Not all persons who apply become eligible for admission.

Applications for the Initial Teacher Preparation Program at EMU are available within your my.emich account under the "Student" tab. Submit your completed application to the Office of Academic Services once you have earned 56 credit hours.

Teaching majors and minors are unofficial until program admission. Students pursuing teacher certification should follow the catalog that exists at the time of program admission. It is important that students apply to the teacher preparation program as soon as they have earned 56 credit hours.

**Criteria**

1. Completion of 56 credit hours

2. Appropriate cumulative GPA. One of:
   1. An overall EMU GPA of 2.5 or higher. At least 12 of the 56 credit hours taken at EMU with an EMU GPA of 2.5 or higher in your major (each of your majors if declaring a double major). You must complete at least one course in your major(s) in order to be eligible.

2. Transferred 56 credits with a cumulative 3.0 GPA from all previous institutions.

3. A grade of “C” or higher (if taken) in the following courses:
   1. Secondary: ENGL 121, CTAC 124, quantitative reasoning, one lab science, all professional education courses, and, if special education, PSY 101.
   2. Elementary: ENGL 121, CTAC 124, MATH 108, MATH 110E, PHY 100, CHEM 101, ESSC 202, all of the professional education courses, all courses that state “for elementary teachers,” and, if special education, PSY 101.

4. Passing scores on all three sections of the Michigan Test for Teacher Certification Basic Skills Test (MTTC) (reading, mathematics, and writing). Official score report must be on file at Eastern Michigan University.

5. Personal statement about your experiences with youth/children and why you are going into teaching. This statement will be read for content, grammar, and punctuation.

6. Completion of a Disposition Self Evaluation Form.

7. ICHAT criminal background check and Statement of Civil/Criminal Convictions. If you answered yes to any of the civil/criminal conviction questions on the application, you will need to provide:
   1. A copy of the Judgment of Sentence, or Registrar of Actions, or Certification of Conviction.
   2. A written explanation of the offense(s). Application of students with civil/criminal convictions will be carefully reviewed and may take longer to process.

8. Meet academic, social, moral, and financial obligations as a member of the EMU community.
Liberal Arts Major Requirements: 48 hours

✧ Twelve of the required courses can fulfill General Education requirements

Note: Some of the courses listed below may also be listed in other areas of the program but only need to be taken once.

- ARTE 220 - Visual Arts for Elementary Teachers (Gen Ed Area IV) 3 hrs
- CHEM 101 - Chemistry for Elementary Teachers (Gen Ed Area IV) 3 hrs
- CHL 207 - Introduction to Children's Literature (Gen Ed Area IV) 3 hrs
- CTAC 124 - Foundations of Speech Communication (Gen Ed Area I) 3 hrs
- DANC 220 - Dance for the Elementary School Teacher 3 hrs
- ENGL 121 - Composition II: Researching the Public Experience (Gen Ed Area I) 3 hrs
- ESSC 202 - Earth Science for Elementary Teachers (Gen Ed Area IV) 3 hrs
- GEOG 110 - World Regions (Gen Ed Area III) 3 hrs
- HIST 123 - The United States to 1877 (Gen Ed Area IV) 3 hrs
- HIST 313 - Michigan History 3 hrs
- MATH 108 - Problem Solving and Number Concepts for Elementary School Teachers 3 hrs
- MATH 110E - Mathematical Reasoning: Applications for Elementary School Teachers (Gen Ed Area II) 3 hrs
- MUSC 220 - Music for the Elementary Teacher (Gen Ed Area IV) 3 hrs
- PHY 100 - Physics for Elementary Teachers (Gen Ed Area IV) 3 hrs
- PLSC 112 - American Government (Gen Ed Area IV) 3 hrs

One course from the following:

- ENGL 307 - Writing Process for Elementary Teachers 3 hrs
- RDNG 240 - Reading and Writing Connections in the Elementary Grades 3 hrs

Content Requirements: 40-48 hours

Select two teaching minors from the following:
(Cannot combine Language Arts and Reading minors)

- Elementary Education Integrated Science Minor
- Elementary Education Language Arts Group Minor
- Elementary Education Mathematics Minor
- Elementary Education Reading Minor

One of the minors can be in French, German, Spanish, or Teaching English as a Second Language.

Professional Elementary Education Sequence

Pre-Admission Phase: The Learner and the Community: 11 hours

Prerequisite: Sophomore standing or higher.

- EDPS 322 - Human Development and Learning 4 hrs
- HLED 320 - Health Education in the Elementary Grades 2 hrs
- PHED 257 - Physical Education for the Classroom Teacher 2 hrs
The following courses require formal admission to the Initial Teacher Preparation Program:

**Phase I: Curriculum, Assessment, and the Social Context: 18 hours**

Prerequisite: Completion of Pre-Admission Phase is required.

* These two courses must be taken together.
** EDPS 340 needs to be taken with or after CURR 304.

- * CURR 304 - Curriculum and Methods: Elementary 3 hrs
- EDMT 330 - Instructional Applications of Media and Technology 3 hrs
- ** EDPS 340 - Introduction to Assessment and Evaluation 3 hrs
- * PRCT 304 - Practicum I: Elementary 3 hrs
- RDNG 300 - Early Literacy 3 hrs
- SOFD 328W - Schools for a Diverse and Democratic Society (Gen Ed Area I, W) 3 hrs

**Phase II: Content and Methods and Teaching: 18 hours**

Prerequisite: Completion of Phase I is required.

* These two courses must be taken together.

- BIOT 303 - Life Science for Elementary Teachers 3 hrs
- CTAR 300 - Integrated Arts 3 hrs
- MATH 381 - Teaching Mathematics in Elementary School 3 hrs
- * PRCT 310 - Practicum II: Elementary 3 hrs
- * RDNG 310 - Literacy Across the Curriculum in the Intermediate Grades 3 hrs

One course from the following:

- CURR 308 - Integrated Elementary Social Studies Methods 3 hrs
- HIST 308 - Integrated Elementary Social Studies Methods 3 hrs

**Phase III: Capstone Experience: 9 hours**

Prerequisite: Completion of Phase II is required.

- EDUC 492 - Student Teaching 9 hrs
  
  This course requires a formal application to be submitted 7-8 months prior to the Student Teaching semester.

**Program Total:**

Students must earn a minimum total of 124 credits at the 100-level or above.

**Critical Graduation Information:**
The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the 100-level and above. Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Earn a minimum of 60 credits from a four-year college or university; courses taken at community colleges cannot be used to meet this requirement. (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 unique credit hours in their major and 20 unique credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
- Not more than 60 credit hours in one subject area (prefix) may be applied towards the minimum of 124 credit hours required for a bachelor's degree.
- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more that one major or minor.
  - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each major.
  - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
  - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor.
- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is coordinated by the Office of Admissions, and additional documentation may be required.
- Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be earned in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

General Education Requirements:

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available on the General Education section of the catalog: General Education.

- For Students who began their undergraduate program at EMU in Fall 2007 or later or who have elected to follow the current ("new") General Education Program, follow the "For Students" link under the Current Program heading.

Professional Elementary Education Sequence

Pre-Admission Phase: The Learner and the Community: 11 hours

*Prerequisite: Sophomore standing or higher.*

- EDPS 322 - Human Development and Learning 4 hrs
- HLED 320 - Health Education in the Elementary Grades 2 hrs
- PHED 257 - Physical Education for the Classroom Teacher 2 hrs
• SPGN 251 - Education of Students with Exceptionalities 3 hrs

The following courses require formal admission to the Initial Teacher Preparation Program:

Phase I: Curriculum, Assessment, and the Social Context: 18 hours

*Prerequisite: Completion of Pre-Admission Phase is required.

* These two courses must be taken together.
** EDPS 340 needs to be taken with or after CURR 304.

- CURR 304 - Curriculum and Methods: Elementary 3 hrs
- EDMT 330 - Instructional Applications of Media and Technology 3 hrs
- ** EDPS 340 - Introduction to Assessment and Evaluation 3 hrs
- * PRCT 304 - Practicum I: Elementary 3 hrs
- RDNG 300 - Early Literacy 3 hrs
- SOFD 328W - Schools for a Diverse and Democratic Society (Gen Ed Area I, W) 3 hrs

Phase II: Content and Methods and Teaching: 18 hours

*Prerequisite: Completion of Phase I is required.

* These two courses must be taken together.

- BIOT 303 - Life Science for Elementary Teachers 3 hrs
- CTAR 300 - Integrated Arts 3 hrs
- MATH 381 - Teaching Mathematics in Elementary School 3 hrs
- * PRCT 310 - Practicum II: Elementary 3 hrs
- * RDNG 310 - Literacy Across the Curriculum in the Intermediate Grades 3 hrs

One course from the following:

- CURR 308 - Integrated Elementary Social Studies Methods 3 hrs
- HIST 308 - Integrated Elementary Social Studies Methods 3 hrs

Phase III: Capstone Experience: 9 hours

*Prerequisite: Completion of Phase II is required.

- EDUC 492 - Student Teaching 9 hrs
  This course requires a formal application to be submitted 7-8 months prior to the Student Teaching semester.

Program Total:

Students must earn a minimum total of 124 credits at the 100-level or above.

Note:
Each student must choose a writing intensive course as part of major completion requirements. Consult your adviser for course options.

* These courses are listed as corequisites.

Critical Graduation Information:

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the 100-level and above. Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Earn a minimum of 60 credits from a four-year college or university; courses taken at community colleges cannot be used to meet this requirement. (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 unique credit hours in their major and 20 unique credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
- Not more than 60 credit hours in one subject area (prefix) may be applied towards the minimum of 124 credit hours required for a bachelor's degree.
- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more that one major or minor.
  - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
  - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
  - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor
- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is coordinated by the Office of Admissions, and additional documentation may be required.
- Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be earned in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

General Education Requirements:

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available on the General Education section of the catalog: General Education

- For Students who began their undergraduate program at EMU in Fall 2007 or later or who have elected to follow the current ("new") General Education Program, follow the "For Students" link under the Current Program heading.
• For Students who began their undergraduate program at EMU before Fall 2007 and who have elected to follow the Pre-2007 General Education Requirements, follow the "General Education Program Prior to Fall 2007 (pdf file)" link under the Program Prior to Fall 2007 heading. Please note that students who wish to graduate under pre-2007 General Education requirements must graduate by August 2014; those who have not completed all degree requirements by that time will need to satisfy the current (Fall 2007) General Education requirements.

Students who transferred to EMU may have modified general education requirements based on MACRAO or articulation agreements; consult your academic adviser for additional information.

University Information: Consult the online catalog at catalog.emich.edu.

Minor

Elementary Education Integrated Science Minor

Elementary and Special Education-Elementary Teacher Certification
Successful completion of this course of study, in the context of other program requirements, qualifies the student for recommendation for the Michigan Elementary Provisional Certificate. The Michigan Test for Teacher Certification (MTTC) covering this certification are Elementary Certification tests #103 and #104. The endorsement test for Integrated Science (Elementary) is MTTC #093.

Initial Teacher Preparation Program Admission

In order to pursue the sequence of courses necessary to complete eligibility for recommendation for certification, one must apply for and be admitted to the teacher preparation program. Admission requirements are common for all teacher preparation programs, except that certain special education programs have additional requirements.

Each undergraduate student is responsible for applying to the teacher preparation program immediately after the semester in which the student has earned 56 credit hours. Transfer students with more than 56 credit hours should apply immediately after the semester in which they have earned 12 hours at EMU, including at least one course in their major. Students with 56 hours of transfer course work with a decision GPA of 3.0 may apply for admission to the teacher preparation program without 12 earned hours at EMU.

Admission to the teacher preparation program is not automatic. Only those persons who have formally applied are considered for admission. Not all persons who apply become eligible for admission.

Applications for the Initial Teacher Preparation Program at EMU are available within your my.emich account under the "Student" tab. Submit your completed application to the Office of Academic Services once you have earned 56 credit hours.

Teaching majors and minors are unofficial until program admission. Students pursuing teacher certification should follow the catalog that exists at the time of program admission. It is important that students apply to the teacher preparation program as soon as they have earned 56 credit hours.

Criteria
1. Completion of 56 credit hours

2. Appropriate cumulative GPA. One of:
   
   1. An overall EMU GPA of 2.5 or higher. At least 12 of the 56 credit hours taken at EMU with an EMU GPA of 2.5 or higher in your major (each of your majors if declaring a double major). You must complete at least one course in your major(s) in order to be eligible.
   
   2. Transferred 56 credits with a cumulative 3.0 GPA from all previous institutions.

3. A grade of “C” or higher (if taken) in the following courses:
   
   1. Secondary: ENGL 121, CTAC 124, quantitative reasoning, one lab science, all professional education courses, and, if special education, PSY 101.
   
   2. Elementary: ENGL 121, CTAC 124, MATH 108, MATH 110E, PHY 100, CHEM 101, ESSC 202, all of the professional education courses, all courses that state “for elementary teachers,” and, if special education, PSY 101.

4. Passing scores on all three sections of the Michigan Test for Teacher Certification Basic Skills Test (MTTC) (reading, mathematics, and writing). Official score report must be on file at Eastern Michigan University.

5. Personal statement about your experiences with youth/children and why you are going into teaching. This statement will be read for content, grammar, and punctuation.

6. Completion of a Disposition Self Evaluation Form.

7. ICHAT criminal background check and Statement of Civil/Criminal Convictions. If you answered yes to any of the civil/criminal conviction questions on the application, you will need to provide:
   
   1. A copy of the Judgment of Sentence, or Registrar of Actions, or Certification of Conviction.
   
   2. A written explanation of the offense(s). Application of students with civil/criminal convictions will be carefully reviewed and may take longer to process.

8. Meet academic, social, moral, and financial obligations as a member of the EMU community.

**Required Courses: 15 hours**

- ASTR 105 - Exploration of the Universe (Gen Ed Area IV) 3 hrs
- BIOT 303 - Life Science for Elementary Teachers 3 hrs
- CHEM 101 - Chemistry for Elementary Teachers (Gen Ed Area IV) 3 hrs
- * ESSC 202 - Earth Science for Elementary Teachers (Gen Ed Area IV) 3 hrs
- PHY 100 - Physics for Elementary Teachers (Gen Ed Area IV) 3 hrs

**Three courses from the following: 9-10 hours**

- BIO 105 - Introductory Biology for Non-majors (Gen Ed Area IV) 4 hrs
- CHEM 312 - Teaching Elementary Chemistry 3 hrs
- ESSC 311 - Weather and Climate for Elementary Teachers 3 hrs
- PHY 311 - Teaching Elementary Physical Science 3 hrs
Minor Total: 24-25 hours

Notes:

*All minors must have at least six hours of course work at the 300-level or above.

*For transfer students with ESSC 108 credit completed: ESSC 108 automatically substitutes for ESSC 202 and fulfills the requirement.

Critical Graduation Information:

The following are minimum requirements for all bachelor’s degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available on the General Education section of the catalog: General Education

- For Students who began their undergraduate program at EMU in Fall 2007 or later or who have elected to follow the current ("new") General Education Program, follow the "For Students" link under the Current Program heading.
- For Students who began their undergraduate program at EMU before Fall 2007 and who have elected to follow the Pre-2007 General Education Requirements, follow the "General Education Program Prior to Fall 2007 (pdf file)" link under the Program Prior to Fall 2007 heading. Please note that students who wish to graduate under pre-2007 General
Education requirements must graduate by August 2014; those who have not completed all degree requirements by that time will need to satisfy the current (Fall 2007) General Education requirements.

Students who transferred to EMU may have modified general education requirements based on MACRAO or articulation agreements; consult your academic adviser for additional information.

University Information: Consult the online catalog at catalog.emich.edu.

Post-Baccalaureate

Post-Baccalaureate Program in Elementary Education

Students pursuing this program will complete elementary teacher certification requirements. Students wishing to pursue an endorsement in any area of special education, in addition to their teaching certificate, should see the master’s teacher certification and endorsement in special education program described under the Department of Special Education. Students wishing to be certified in any of the following areas have requirements that differ from the general programs listed below and must obtain additional information from the College of Education Office of Academic Services: art, music (vocal and instrumental), physical education, business, management, marketing and technology, and technology and design. General procedures for obtaining post-baccalaureate certification can be found under the College of Education.

Initial contact for all post-baccalaureate students should be with the College of Education Office of Academic Services.

Admission Requirements

1. Minimum cumulative undergraduate GPA of 2.5 or a 3.0 in a master’s degree from an accredited college or university. Applicants with less than a 2.5 GPA should contact the Second Bachelor’s Office located in the Undergraduate Advising and Career Development Center, 200 McKenny, 734.487.5497.

2. Passing scores on all three sections (reading, mathematics and writing) of the Michigan Test for Teacher Certification (MTTC) Basic Skills Test; an official score report on file at Eastern Michigan University.

3. Personal statement and letter of recommendation.

4. Freedom from civil/criminal convictions, academic probation, or administrative probation. ICHAT criminal background check and Statement of Civil/Criminal Convictions. For any civil/criminal conviction provide:

   - A copy of the Judgment of Sentence, Registrar of Actions, or Certification of Conviction.
   - A written explanation of the offense(s).

Applications of students with civil/criminal convictions will be carefully reviewed and may take longer to process.

Meet academic, social, moral, and financial obligations as a member of the EMU community. Compliance with all other admissions requirements.

Program Requirements

The student must:

1. Have a review of previous course work performed by the College of Education Office of Academic Services, to determine those requirements already completed, both for the teaching subject major/minor and for certification.

2. Successfully complete major/minor requirements for elementary education.

3. Successfully complete required hours of fieldwork experience. Presently a minimum of 100 clock hours of field experience is required, including required practicum courses.

4. Successfully complete professional elementary education course requirements.

5. Successfully complete student teaching.

Exit Criteria
1. Successful completion of all course work on program (designated minimum GPA overall, and in majors/minors).

2. Successful completion of required student teaching.

3. Successful completion of required subject area tests.

4. Recent signed civil/criminal convictions statement.

5. Current adult and child CPR and first aid certification.

Curricula
Most courses required for post-baccalaureate certification are undergraduate courses (course numbers under 500). It is important to note that 600-level or higher courses may not be used on a program of study.

Teacher Education Department Information:
Interim Department Head: Martha Kinney-Sedgwick
Department Contact: mkinneys@emich.edu
Website: http://www.emich.edu/coe/ted/

Criteria for Admission to the Post-Baccalaureate Certification Program

- Minimum cumulative undergraduate grade point average (GPA) of 2.5 or a 3.0 in a master’s degree from an accredited college or university. Applicants with less than a 2.5 GPA should contact the Second Bachelor’s Office, 301 Pierce Hall, 734.487.5497

- Passing scores on all three sections (reading, mathematics and writing) of the Michigan Test for Teacher Certification (MTTC) Basic Skills Test; an official score report must be on file at Eastern Michigan University.

- Personal Statement and letter of recommendation.

- Freedom from civil/criminal convictions, academic probation, or administrative probation. If you answered yes to any of the civil/criminal conviction questions on the application, you will need to provide:
  - A copy of the Judgment of Sentence, or Registrar of Actions, or Certification of Conviction.
  - A written explanation of the offense(s). Application of students with civil/criminal convictions will be carefully reviewed and may take longer to process.

- Meet academic, social, moral, and financial obligations as a member of the EMU community.

- Compliance with all other admissions requirements.

Undergraduate students on academic probation may not earn credit for any graduate-level on-campus or off-campus courses (500-level and above).

Once admitted, students are considered teacher candidates. Manuals, policies and procedures are available to all teacher candidates at www.emich.edu/coe/oas. Teacher candidates should print the student manual, read it and keep a copy for their records.

The teacher preparation program has a process for identifying teacher candidates with professional weaknesses. The process is called “red flagging” and is explained in student and faculty manuals. Two red flags can lead to dismissal from the teacher preparation program.
Program Requirements:

All elementary certification students must complete the requirements for the Liberal Arts Major for Elementary Education as well as the Professional Education Sequence. The elementary certification student must also choose a second major or two minors. The Michigan Test for Teacher Certification (MTTC) covering this certification are Elementary Certification tests #103 and # 104.

Liberal Arts Major Requirements: 48 hours

✧ Twelve of the required courses can fulfill General Education requirements

Note: Some of the courses listed below may also be listed in other areas of the program but only need to be taken once.

- ARTE 220 - Visual Arts for Elementary Teachers (Gen Ed Area IV) 3 hrs
- CHEM 101 - Chemistry for Elementary Teachers (Gen Ed Area IV) 3 hrs
- CHL 207 - Introduction to Children's Literature (Gen Ed Area IV) 3 hrs
- CTAC 124 - Foundations of Speech Communication (Gen Ed Area I) 3 hrs
- DANC 220 - Dance for the Elementary School Teacher 3 hrs
- ENGL 121 - Composition II: Researching the Public Experience (Gen Ed Area I) 3 hrs
- ESSC 202 - Earth Science for Elementary Teachers (Gen Ed Area IV) 3 hrs
- GEOG 110 - World Regions (Gen Ed Area III) 3 hrs
- HIST 123 - The United States to 1877 (Gen Ed Area IV) 3 hrs
- HIST 313 - Michigan History 3 hrs
- MATH 108 - Problem Solving and Number Concepts for Elementary School Teachers 3 hrs
- MATH 110E - Mathematical Reasoning: Applications for Elementary School Teachers (Gen Ed Area II) 3 hrs
- MUSC 220 - Music for the Elementary Teacher (Gen Ed Area IV) 3 hrs
- PHY 100 - Physics for Elementary Teachers (Gen Ed Area IV) 3 hrs
- PLSC 112 - American Government (Gen Ed Area IV) 3 hrs

One course from the following:

- ENGL 307 - Writing Process for Elementary Teachers 3 hrs
- RDNG 240 - Reading and Writing Connections in the Elementary Grades 3 hrs

Approved Additional Majors in Elementary Education:

- Early Childhood Education
- Integrated Elementary Science
- Language Arts Group
- Mathematics for Elementary Teaching
- Reading
- Social Studies Group
Approved Additional Minors in Elementary Education:

- Integrated Elementary Science
- Language Arts Group
- Mathematics for Elementary Teaching
- Reading

*The student may not combine Language Arts and Reading minors. One of the minors can be in:

- French Language
- German Language
- Spanish Language
- Teaching English as a Second Language

Professional Elementary Education Sequence

Pre-Admission Phase: The Learner and the Community: 11 hours

*Prerequisite: Sophomore standing or higher.

- EDPS 322 - Human Development and Learning 4 hrs
- HLED 320 - Health Education in the Elementary Grades 2 hrs
- PHED 257 - Physical Education for the Classroom Teacher 2 hrs
- SPGN 251 - Education of Students with Exceptionalities 3 hrs

The following courses require formal admission to the Initial Teacher Preparation Program:

Phase I: Curriculum, Assessment, and the Social Context: 18 hours

*Prerequisite: Completion of Pre-Admission Phase is required.

* These two courses must be taken together.
** EDPS 340 needs to be taken with or after CURR 304.

- * CURR 304 - Curriculum and Methods: Elementary 3 hrs
- EDMT 330 - Instructional Applications of Media and Technology 3 hrs
- ** EDPS 340 - Introduction to Assessment and Evaluation 3 hrs
- * PRCT 304 - Practicum I: Elementary 3 hrs
- RDNG 300 - Early Literacy 3 hrs
- SOFD 328W - Schools for a Diverse and Democratic Society (Gen Ed Area I, W) 3 hrs

Phase II: Content and Methods and Teaching: 18 hours
**Prerequisite:** Completion of Phase I is required.

* These two courses must be taken together.

- BIOT 303 - Life Science for Elementary Teachers 3 hrs
- CTAR 300 - Integrated Arts 3 hrs
- MATH 381 - Teaching Mathematics in Elementary School 3 hrs
- * PRCT 310 - Practicum II: Elementary 3 hrs
- * RDNG 310 - Literacy Across the Curriculum in the Intermediate Grades 3 hrs

One course from the following:

- CURR 308 - Integrated Elementary Social Studies Methods 3 hrs
- HIST 308 - Integrated Elementary Social Studies Methods 3 hrs

**Phase III: Capstone Experience: 9 hours**

**Prerequisite:** Completion of Phase II is required.

- EDUC 492 - Student Teaching 9 hrs
  This course requires a formal application to be submitted 7-8 months prior to the Student Teaching semester.

---

**Post-Baccalaureate Program in Secondary Education**

Students pursuing this program will complete secondary teacher certification requirements. Students wishing to pursue an endorsement in any area of special education, in addition to their teaching certificate, should see the master’s teacher certification and endorsement in special education program described under the Department of Special Education. Students wishing to be certified in any of the following areas have requirements that differ from the general programs listed below and must obtain additional information from the College of Education Office of Academic Services: art, music (vocal and instrumental), physical education, business, management, marketing and technology, and technology and design. General procedures for obtaining post-baccalaureate certification can be found under the College of Education.

**Initial contact for all post-baccalaureate students should be with the College of Education Office of Academic Services.**

**Admission Requirements**

1. Minimum cumulative undergraduate GPA of 2.5 or a 3.0 in a master’s degree from an accredited college or university. Applicants with less than a 2.5 GPA should contact the Second Bachelor’s Office located in the Undergraduate Advising and Career Development Center, 200 McKenny, 734.487.5497.
2. Passing scores on all three sections (reading, mathematics and writing) of the Michigan Test for Teacher Certification (MTTC) Basic Skills Test; an official score report on file at Eastern Michigan University.
3. Personal statement and letter of recommendation.
4. Freedom from civil/criminal convictions, academic probation, or administrative probation. ICHAT criminal background check and Statement of Civil/Criminal Convictions. For any civil/criminal conviction provide:
   - A copy of the Judgment of Sentence, Registrar of Actions, or Certification of Conviction.
   - A written explanation of the offense(s).
5. Meet academic, social, moral, and financial obligations as a member of the EMU community.
6. Compliance with all other admissions requirements.

**Program Requirements**

The student must:
1. Have a review of previous course work performed by the College of Education Office of Academic Services, to determine those requirements already completed, both for the teaching subject major/minor and for certification.

2. Successfully complete general education requirements as needed.

3. Successfully complete major/minor requirements for secondary education.

4. Successfully complete required hours of fieldwork experience. Presently a minimum of 100 clock hours of field experience is required, including required practicum courses.

5. Successfully complete professional secondary education course requirements.

6. Successfully complete student teaching.

Exit Criteria

1. Successful completion of all course work on program (designated minimum GPA overall, and in majors/minors).

2. Successful completion of required student teaching.

3. Successful completion of required subject area tests.

4. Recent signed civil/criminal convictions statement.

5. Current adult and child CPR and first aid certification.

The teacher preparation program has a process for identifying teacher candidates with professional weaknesses. The process is called “red flagging” and is explained in student and faculty manuals. Two red flags can lead to dismissal from the teacher preparation program.

Liberal Art Requirements:

Students must complete a minimum of 40 credit hours in liberal arts studies, which include the areas listed below. Many students can meet most liberal arts requirements through courses previously taken as part of a bachelor’s degree.

• a course in English writing
• a course in communication
• a course in literature
• a course in humanities/social sciences (American Government recommended)
• a course in mathematics
• a course in natural or physical sciences
• a course in arts

Major/Minor Requirements:

Students must complete one approved major and one approved minor.

Approved Majors for Secondary Education:

• Biology
• Business, Management, Marketing and Technology
• Chemistry
• Communication and Theatre Arts (speech)
• Computer Science
• Earth Science
• French Language
• Geography (requires a minor in History)
• German Language and Literature
• History (requires a minor in Geography)
• Integrated Science*
• Language, Literature and Writing (English)
• Mathematics
• Physical Science Comprehensive Major*
• Physical Science Group Major (requires a minor in Biology, Chemistry, Earth Science or Physics)
• Physics
• Social Studies (requires a minor in Economics, Geography, History or Political Science)
• Spanish Language

Approved Minors for Secondary Education:
• Biology
• Chemistry
• Communication and Theatre Arts (speech)
• Computer Science
• Earth Science
• Economics (requires a major in Social Studies)
• French Language
• Geography
• German Language
• Health
• History (requires a major in Social Studies or Geography)
• Language, Literature and Writing (English)
• Mathematics
• Physical Education
• Physics
• Political Science (requires a major in Social Studies)
• Psychology
• Spanish Language
• Teaching English as a Second Language
• Vocational Technical Education

Approved K-12 (Secondary Certificate):

• French Language
• German Language and Literature
• Japanese Language and Culture
• Music Education (Instrumental)*
• Music Education (Vocal)*
• Physical Education
• Spanish Language
• Technology and Design Education
• Visual Art Education*

* This major does not require a minor.

Professional Secondary Education Sequence

Pre-Admission Phase: The Learner and the Community: 7 hours

*Prerequisite: Sophomore standing or higher.

• EDPS 322 - Human Development and Learning 4 hrs
• SPGN 251 - Education of Students with Exceptionalities 3 hrs

The following courses require formal admission to the Initial Teacher Preparation Program:

Phase I: Curriculum, Assessment and the Social Context: 15 hours

*Prerequisite: Completion of Pre-Admission Phase is required.

* These two courses must be taken together.
** These courses must be taken with or after CURR 305.

• * CURR 305 - Curriculum and Methods: Secondary 3 hrs
• ** EDMT 330 - Instructional Applications of Media and Technology 3 hrs
• ** EDPS 340 - Introduction to Assessment and Evaluation 3 hrs
• * PRCT 305 - Practicum I: Secondary 3 hrs
• SOFD 328W - Schools for a Diverse and Democratic Society (Gen Ed Area I, W) 3 hrs
Phase II: Content and Methods and Teaching: 9-12 hours

Prerequisite: Completion of Phase I is required.

* These two courses must be taken together.

- Methods of Teaching in Subject Area (3-6 hrs)
- * PRCT 311 - Practicum II: Secondary 3 hrs
- * RDNG 311 - Teaching Reading in the Secondary School 3 hrs

Phase III: Capstone Experience: 9 hours

Prerequisite: Completion of Phase II and 100 pre-student teaching hours is required.

- EDUC 492 - Student Teaching 9 hrs

This course requires a formal application to be submitted 7-8 months prior to the Student Teaching semester.

Curriculum

CURR 177 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr
Prerequisite: department permission

CURR 178 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs
Prerequisite: department permission

CURR 179 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs
Prerequisite: department permission

CURR 277 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.
**CURR 278 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 1 hr  
**Prerequisite:** department permission

**CURR 279 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 2 hrs  
**Prerequisite:** department permission

**CURR 304 - Curriculum and Methods: Elementary**

The concept of curriculum and its relationship to differing philosophies of education and styles of teaching. The instructional process and multiple teaching strategies examined and applied through lesson planning and demonstration. Classroom management principles and techniques considered in the light of a curriculum and instruction perspective. This course is linked to PRCT 304, a planned practicum experience in public schools.

**Credit Hours:** 3 hrs  
**Prerequisite:** EDPS 322 or EDPS 325; admission to the Initial Teacher Preparation Program  
**Last Updated:** Links 04/2011

**CURR 305 - Curriculum and Methods: Secondary**

The concept of curriculum and its relationship to differing philosophies of education and styles of teaching. The instructional process and multiple teaching strategies examined and applied through lesson planning and demonstration. Classroom management principles and techniques considered in the light of a curriculum and instruction perspective. Includes a planned practicum experience in public schools in addition to the regularly scheduled hours.

**Credit Hours:** 3 hrs  
**Prerequisite:** EDPS 322 or EDPS 325; admission to the Initial Teacher Preparation Program  
**Last Updated:** Links 04/2011

**CURR 308 - Integrated Elementary Social Studies Methods**

Social studies is the integrated study of the social sciences and humanities to promote civic competence inherent in group life. This course explores the teaching of social studies in the elementary school. It is organized to cover a variety of teaching methods to acquire skills through lectures, discussions, activities, and presentations.

**Credit Hours:** 3 hrs  
**Prerequisite:** CURR 304 and admission to the Initial Teacher Preparation Program  
**Class Restrictions:** Junior standing or above  
**Major Restrictions:** Elementary Education Majors only
Cross-Listed with: HIST 308  
Last Updated: 03/2011; effective Spring 2011

**CURR 377 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 1 hr  
**Prerequisite:** department permission

**CURR 378 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 2 hrs  
**Prerequisite:** department permission

**CURR 379 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 3 hrs  
**Prerequisite:** department permission

**CURR 477 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 1 hr  
**Prerequisite:** department permission

**CURR 478 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 2 hrs  
**Prerequisite:** department permission

**CURR 479 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 3 hrs  
**Prerequisite:** department permission
CURR 486 - Internship in Teacher Education

Directed experience involving a field placement in curriculum.

Credit Hours: 1 hr  
Prerequisite: department permission

CURR 488 - Internship in Teacher Education

Directed experience involving a field placement in curriculum.

Credit Hours: 2 hrs  
Prerequisite: department permission

CURR 489 - Internship in Teacher Education

Directed experience involving a field placement in curriculum.

Credit Hours: 3 hrs  
Prerequisite: department permission

CURR 497 - Independent Study

Advanced study on an individual basis in areas in which the department does not offer a formal course.

Credit Hours: 1 hr  
Prerequisite: department permission

CURR 498 - Independent Study

Advanced study on an individual basis in areas in which the department does not offer a formal course.

Credit Hours: 2 hrs  
Prerequisite: department permission

CURR 499 - Independent Study

Advanced study on an individual basis in areas in which the department does not offer a formal course.

Credit Hours: 3 hrs  
Prerequisite: department permission

Early Childhood Education

ECE 214 - The Developing Child Birth-Age Eight

This course explores developmental patterns of children in various settings. Physical, mental, social and emotional components of growth through the first five stages of the family life cycle with emphasis on the child from two to eight years. Impact of the family, resources, attitudes and values on young children will be explored.
ECE 215 - The Developing Early Childhood Professional

This course provides an orientation to early childhood education, addressing such topics as teacher-child interaction, observation, guidance, ECE content area, and health and safety requirements. Students participate in a practicum experience at EMU Children's Institute for three hours per week and attend a two hour class once a week.

Credit Hours: 3 hrs
Concurrent Prerequisite: ECE 215
Class Restrictions: Sophomore standing
Last Updated: Links 04/2011

ECE 302 - Child Centered Teaching and Learning

This course teaches students to design and implement developmentally appropriate programs and curriculum for children from birth through age eight. A historical overview of early childhood programs and differentiated instruction to meet the needs of young children is the focus. An inquiry approach will be used to assist the student in broadening the scope of curriculum

Credit Hours: 3 hrs
Prerequisite: ECE 214, ECE 215, EDPS 322 or EDPS 325, ECE 307 and ECE 314; Admission to the College of Education
Corequisites: ECE 303 and practicum in EMU Children's Institute
Class Restrictions: Junior or Senior standing
Major Restrictions: Early Childhood Education Major
Last Updated: Links 04/2011

ECE 303 - Implementing the Curriculum

The content of the class will focus on implementing a developmentally appropriate curriculum in programs for young children. The students participate in a practicum experience at the EMU Children's Institute for three hours per week and attend a two hour class once a week. The faculty member supervises the students in the Children's Institute.

Credit Hours: 3 hrs
Prerequisite: ECE 214 and ECE 215, EDPS 322 or EDPS 325, ECE 307, ECE 314; Admission to the Initial Teacher Preparation Program
Corequisites: ECE 302 and a practicum at the EMU Children's Institute
Class Restrictions: Sophomore or Junior standing
Last Updated: Links 04/2011

ECE 307 - Diverse Children, Families and Communities

Course focuses on diverse families emphasizing young children in peril. Students will explore poverty and other critical conditions affecting families and apply knowledge of school and community resources to address young children's needs and build resilience. Students will learn and apply affective communication strategies to develop meaningful home-school-community partnerships.

Credit Hours: 3 hrs
Prerequisite: ECE 214 and ECE 215
Class Restrictions: Junior standing
Last Updated: Links 04/2011

ECE 314 - Infants and Toddlers: Development, Curriculum and Programs

This course examines the development of infants and toddlers (conception to 36 months), and the characteristics of high quality curriculum and child care programs for this age group. It requires 10-12 hours of observation/participation in infant-toddler programs.

Credit Hours: 3 hrs
Prerequisite: ECE 214 and ECE 215
Class Restrictions: Junior standing
Last Updated: Links 04/2011

ECE 318 - Play and Creativity in ECE

An overview of approaches to play and creative expression in the education of young children. Applications will be made to the fields of early childhood, elementary education, special education and extended day programs. Students will conduct observations and interviews on play and experiment with a variety of play materials and media with children.

Credit Hours: 3 hrs
Prerequisite: ECE 214 and ECE 215
Major Restrictions: Admission to the Initial Teacher Preparation Program
Last Updated: Links 04/2011

ECE 341 - Assessment of the Young Child

This course focuses on formal and informal procedures and practices used in the formative and summative evaluation and assessment of all aspects of a child's development from birth through the elementary years, with emphasis on children birth through age eight.

Credit Hours: 3 hrs
Prerequisite: ECE 214, ECE 215 and (EDPS 322 or EDPS 325); Admission to the Initial Teacher Preparation Program
Class Restrictions: Junior or Senior standing
Last Updated: Links 04/2011

ECE 342 - Intentional Teaching in the Content Areas

This is an advanced early childhood curriculum class that focuses on using developmentally appropriate instructional methods to address early learning standards in the areas of literacy, math, science and social studies. Integrating language development and critical thinking through all areas of the curriculum will be emphasized.

Credit Hours: 3 hrs
Prerequisite: ECE 302, ECE 303, RDNG 300 and admission to the Initial Teacher Preparation Program
Class Restrictions: Junior standing or above
Major Restrictions: Early Childhood Education Major only
Last Updated: Links 04/2011

ECE 343 - Advocacy, Leadership and Administration
This course focuses on advocacy, leadership and policy in early childhood education. Students will explore state, national and international policies impacting children, learn and apply advocacy and community organizational skills, and examine roles of leadership and the administration of programs in early childhood education.

**Credit Hours:** 3 hrs  
**Prerequisite:** ECE 302, ECE 303 and admission to the Initial Teacher Preparation Program  
**Class Restrictions:** Junior standing or above  
**Major Restrictions:** Early Childhood Education Major only  
**Last Updated:** Links 04/2011

**ECE 379 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 3 hrs

**ECE 451 - inclusive Classroom in Early Childhood**

This course prepares early childhood teachers to teach young children with exceptional needs in early childhood or early childhood special education classrooms. It addresses Special Education history, theory, models and laws pertaining to young children as well as inclusive curricular, assessment, and family approaches, teaming and collaboration and managing challenging behavior.

**Credit Hours:** 3 hrs  
**Prerequisite:** ECE 302, ECE 303 and SPGN 251  
**Class Restrictions:** Junior standing or above  
**Major Restrictions:** Early Childhood Education Major only  
**Cross-Listed with:** SPGN 451  
**Last Updated:** Links 04/2011

**SPGN 451 - Inclusive Classroom in Early Childhood**

This course prepares early childhood teachers to teach young children with exceptional needs in early childhood or early childhood special education classrooms. It addresses Special Education history, theory, models and laws pertaining to young children as well as inclusive curricular, assessment, and family approaches, teaming and collaboration and managing challenging behavior.

**Credit Hours:** 3 hrs  
**Prerequisite:** ECE 302, ECE 303  
**Class Restrictions:** Junior standing or above  
**Major Restrictions:** Early Childhood Education Major only  
**Cross-Listed with:** ECE 451  
**Last Updated:** Links 03/2011

**Educational Media and Technology**

**EDMT 330 - Instructional Applications of Media and Technology**

This course guides preservice teacher educators to critically and creatively apply the concepts, principles, hardware and software associated with the infusion of technology in solving educational problems and meeting challenges in their roles as facilitators of
EDMT 477 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 1 hr  
**Prerequisite:** department permission

EDMT 478 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 2 hrs  
**Prerequisite:** department permission

EDMT 479 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 3 hrs  
**Prerequisite:** department permission

EDMT 497 - Independent Study

Advanced study on an individual basis in areas in which the department does not offer a formal course.

**Credit Hours:** 1 hr  
**Prerequisite:** department permission

EDMT 498 - Independent Study

Advanced study on an individual basis in areas in which the department does not offer a formal course.

**Credit Hours:** 2 hrs  
**Prerequisite:** department permission

**Educational Psychology**

EDPS 106 - Strategic Learning for Academic Success
Introduction to EMU services, diagnostic testing of learning styles and learning strategies for academic success.

**Credit Hours:** 3 hrs

**EDPS 177 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 1 hr

**Prerequisite:** department permission

**EDPS 178 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 1 hr

**EDPS 179 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 2 hrs

**EDPS 277 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 1 hrs

**Prerequisite:** department permission

**EDPS 278 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 2 hrs

**Prerequisite:** department permission

**EDPS 279 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 3 hrs

**Prerequisite:** department permission
EDPS 322 - Human Development and Learning

The study of childhood psychology from birth through adolescence with a focus on intellectual and psychosocial behavior and the role of parents and teachers in fostering learning and development.

Credit Hours: 4 hrs

EDPS 325 - Life Span Human Growth and Development

An exploration of the biological, cognitive, social and affective domains of human growth and development from the prenatal period until death; the relationship of growth and development to behavior through the life span.

Credit Hours: 4 hrs

EDPS 340 - Introduction to Assessment and Evaluation

Basic principles in evaluation and assessment. Students will construct and interpret tests and alternative assessments; critique standardized tests; assess social, affective and behavioral factors; use computer applications; and examine assessment issues.

Credit Hours: 3 hrs
Prerequisite: EDPS 322
Concurrent Prerequisite: CURR 304 or CURR 305
Major Restrictions: Admission to the Initial Teacher Preparation Program
Last Updated: Links 04/2011

EDPS 377 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr
Prerequisite: department permission

EDPS 378 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs
Prerequisite: department permission

EDPS 379 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs
Prerequisite: department permission

EDPS 477 - Special Topics
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr
Prerequisite: department permission

EDPS 478 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs
Prerequisite: department permission

EDPS 479 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs
Prerequisite: department permission

EDPS 497 - Independent Study

Advanced study on an individual basis in areas in which the department does not offer a formal course.

Credit Hours: 1 hr
Prerequisite: department permission

EDPS 498 - Independent Study

Advanced study on an individual basis in areas in which the department does not offer a formal course.

Credit Hours: 2 hrs
Prerequisite: department permission

EDPS 499 - Independent Study

Advanced study on an individual basis in areas in which the department does not offer a formal course.

Credit Hours: 3 hrs
Prerequisite: department permission

EDPS 621 - Statistical Applications in Educational Research

Emphasizes the role of statistics in hypothesis testing; statistical applications in visually presenting and summarizing data; computation of central tendency, variability, relationship and prediction indices; and interpretation of results.

Credit Hours: 2 hrs
Notes: This is a graduate course in an undergraduate program.
EDPS 651 - Inferential Statistics

Inferential statistics, both parametric and nonparametric, theory of hypothesis testing.

Credit Hours: 2 hrs
Prerequisite: EDPS 621 or equivalent
Notes: This is a graduate course in an undergraduate program.
Last Updated: Links 04/2011

Practicum

PRCT 304 - Practicum I: Elementary

Field placement in an elementary school. Focus is on reflective teaching and assessment decisions.

Credit Hours: 3 hrs
Prerequisite: EDPS 322; admission to the Initial Teacher Preparation Program
Concurrent Prerequisite: CURR 304
Previously Listed As: FETE 301
Last Updated: Links 04/2011

PRCT 305 - Practicum I: Secondary

Field placement in a middle level or high school. Focus is on reflective teaching and assessment decisions.

Credit Hours: 3 hrs
Prerequisite: EDPS 322; admission to the Initial Teacher Preparation Program
Concurrent Prerequisite: CURR 305
Previously Listed As: FETE 302
Last Updated: Links 04/2011

PRCT 310 - Practicum II: Elementary

Field placement in an elementary school with a diverse student population. Emphasis is on developing literacy in diverse populations and adapting instruction to individual student needs.

Credit Hours: 3 hrs
Prerequisite: CURR 304; admission to the Initial Teacher Preparation Program
Concurrent Prerequisite: RDNG 310
Previously Listed As: FETE 401
Last Updated: Links 04/2011

PRCT 311 - Practicum II: Secondary

Field placement in a middle level or high school with a diverse student population. Emphasis is on developing literacy in diverse populations and adapting instruction to individual student needs.

Credit Hours: 3 hrs
Prerequisite: CURR 305; admission to the Initial Teacher Preparation Program
Concurrent Prerequisite: RDNG 311
Reading

RDNG 177 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr  
Prerequisite: Department permission  
Last Updated: Links 04/2011

RDNG 178 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs  
Prerequisite: Department permission  
Last Updated: Links 04/2011

RDNG 179 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs  
Prerequisite: Department permission  
Last Updated: Links 04/2011

RDNG 220 - Instructional Uses of Trade Books

In this course, students will acquire a knowledge of trade books and their uses in language arts instruction and in instruction across the curriculum. Students will develop strategies and methods for using trade books so that children discover the value and satisfaction of reading.

Credit Hours: 3 hrs  
Prerequisite: CHL 207  
Last Updated: Links 04/2011

RDNG 230 - Word Study in the Reading Program

Using language theory as a basis, students will explore the various aspects of word study: phonemic awareness, phonics, vocabulary, dictionary skills and spelling. Using literature and other texts, they will develop techniques/strategies for teaching word study in the elementary grades.

Credit Hours: 3 hrs
RDNG 240 - Reading and Writing Connections in the Elementary Grades

This course provides preservice teachers an opportunity to explore research on the relationship between the reading and writing processes, to experience writers’ workshop, to determine ways to promote growth in students’ written language across the content areas and to determine management and evaluation procedures within the reading/writing classroom.

Credit Hours: 3 hrs

RDNG 277 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr
Prerequisite: Department permission
Last Updated: Links 04/2011

RDNG 278 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs
Prerequisite: Department permission
Last Updated: Links 04/2011

RDNG 279 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs
Prerequisite: Department permission
Last Updated: Links 04/2011

RDNG 300 - Early Literacy

A concentration on the developmental aspects of literacy learning from birth to eight years old. Involves theoretical and research knowledge pertinent to child growth and development.

Credit Hours: 3 hrs
Prerequisite: EDPS 322 Human Development and admission to the College of Education
Last Updated: Links 04/2011

RDNG 310 - Literacy Across the Curriculum in the Intermediate Grades

This course focuses on the developmental aspects of literacy processes in the intermediate grades. Emphasis will be placed on theory and research and their application to literacy instruction across all content areas. Field based experiences are included in the corequisite PRCT 310. Required of students seeking elementary certification.

Credit Hours: 3 hrs
**Prerequisite:** CURR 304 and RDNG 300

**Last Updated:** Links 06/2011

**RDNG 311 - Teaching Reading in the Secondary School**

The developmental sequence for reading skills at the junior and senior high school levels and methods for teaching the sequence, including teaching programs for all students. Providing reading instruction within the context of the various areas. Required for all students who seek certification to teach in secondary schools.

**Credit Hours:** 3 hrs

**Prerequisite:** CURR 305, ARTE 358, PHED 317, BMMT 200, MUSC 330, MUSC 332 or TEDU 350; admission to the Initial Teacher Preparation Program

**Last Updated:** Prerequisite Change 04/2011, effective Summer 2011

**RDNG 330 - Reading and the Culturally and Linguistically Diverse Learner**

Exploring research on second language reading and language instruction, students will develop strategies for working with elementary students from diverse cultural and linguistic backgrounds. Students will engage in action research to design instructional methods and tools which will foster reading and language learning for second language learners in particular.

**Credit Hours:** 3 hrs

**Prerequisite:** RDNG 230, RDNG 300

**Last Updated:** Links 04/2011

**RDNG 340 - Literacy Assessment in the Elementary Schools**

A course in the types of informal literacy assessments appropriate for elementary school children. Students will examine a variety of literacy assessments techniques for primary and upper elementary grades including reading level assessment, motivational, spelling and writing scales. Portfolio development and parent conferences will also be examined.

**Credit Hours:** 3 hrs

**Prerequisite:** RDNG 300; EDPS 340 or ECE 341

**Last Updated:** Links 04/2011

**RDNG 350 - Integrated Language Arts Instruction**

This course focuses on the interrelationship of speaking, listening, reading, writing, viewing, and visually representing within language arts instruction. The purpose is to acquaint preservice teachers with recent research and practice relevant to language arts instruction in the elementary classroom.

**Credit Hours:** 3 hrs

**Prerequisite:** RDNG 300

**Last Updated:** Links 04/2011

**RDNG 377 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 1 hr
Prerequisite: Department permission
Last Updated: Links 04/2011

RDNG 378 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs
Prerequisite: Department permission
Last Updated: Links 04/2011

RDNG 379 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs
Prerequisite: Department permission
Last Updated: Links 04/2011

RDNG 400 - Program Development for Struggling Readers

A course in the development of an intervention program to meet the needs of struggling readers. Students will develop and implement an intervention program for a child in the local community and report the results of this program to the parents and the school.

Credit Hours: 3 hrs
Prerequisite: RDNG 340
Last Updated: Links 04/2011

RDNG 410 - Literacy in and Beyond the Classroom

This course provides an in-depth look at current literacy practices in American schools. Students will explore classroom and intervention programs, after school tutorials, parent programs, community programs and working with school personnel. Professional development opportunities including membership and attendance at professional conferences will also be examined.

Credit Hours: 3 hrs
Prerequisite: RDNG 300, RDNG 310
Class Restrictions: Senior standing only. Certificate candidates.
Major Restrictions: Reading majors only
Previously Listed As: RDNG 210
Last Updated: Links 04/2011

RDNG 420 - Middle School Literacy and the Early Adolescent Reader

This course has the following purposes: (a) Understanding early adolescent literacy development; (b) Exploring literacy practices associated with middle level disciplines; (c) Applying various instructional strategies to those practices to enhance comprehension, composition, and learning of content; (d) Developing personal understanding of the relationship between literacy and learning across disciplines.
Credit Hours: 3 hrs  
Prerequisite: RDNG 300  
Class Restrictions: Senior standing only. Certificate candidates.  
Major Restrictions: Reading majors only  
Course Revisions:  
Course Revisions: This course will have a prerequisite change from "RDNG 300, RDNG 310" to "RDNG 300," effective Winter 2013.

Major

Athletic Training Major

The athletic training education program at Eastern Michigan University is a rigorous and intense program that places specific requirements and demands on the students enrolled in the program. An objective of this program is to prepare graduates to enter a variety of employment settings and to render care to a wide spectrum of individuals engaged in physical activity. The technical standards set forth by the athletic training education program establish the qualities considered necessary for students to achieve the knowledge, skills and competencies of an entry-level athletic trainer, as well as meet the expectations of the program’s accrediting agency (Commission on Accreditation of Athletic Training Education (CAATE)). The following abilities and expectations must be met by all students admitted to the athletic training educational program. In the event a student is unable to fulfill these technical standards, with or without reasonable accommodation, the student will not be admitted into the program.

Compliance with the program’s technical standards does not guarantee a student’s eligibility for the Board of Certification (BOC) certification exam. Students also must complete all requirements of the ATEP.

Candidates for the athletic training education program must demonstrate:

- The capacity to assimilate, analyze, synthesize, integrate concepts and solve problems to formulate assessment and therapeutic judgments and to be able to distinguish deviations from the norm.

- Sufficient postural and neuromuscular control, sensory function and coordination to perform appropriate physical examinations using accepted techniques; and to accurately, safely and efficiently use equipment and materials during the assessment and treatment of patients.

- The ability to communicate effectively with patients and colleagues, including individuals from different cultural and social backgrounds; this includes, but is not limited to, the ability to establish rapport with patients and communicate judgments and treatment information effectively. Students must be able to understand and speak the English language at a level consistent with competent professional practice.

- The ability to record the physical examination results and a treatment plan clearly and accurately.

- The capacity to maintain composure and continue to function well during periods of high stress.

- The perseverance, diligence and commitment to complete the athletic training education program as outlined and sequenced.

- Flexibility and the ability to adjust to changing situations and uncertainty in clinical situations.

Affective skills and appropriate demeanor and rapport that relate to professional education and quality patient care. Candidates for selection to the athletic training education program will be required to verify they understand and meet these technical standards or that they believe that, with certain accommodations, they can meet the standards.
The Disability Resource Center will evaluate a student who says he/she could meet the program’s technical standards with accommodation and confirm that the stated condition qualifies as a disability under applicable laws.

If a student says he/she can meet the technical standards with accommodation, the University will determine whether it agrees that the student can meet the technical standards with reasonable accommodation. This includes a review of whether the accommodations requested are reasonable, taking into account whether accommodation would jeopardize clinician/patient safety or the educational process of the student or the institution, including all course work, clinical experiences and internships deemed essential to graduation.

Students in the Athletic Training Education Program that are applying to begin their clinical Education must obtain and submit a medical physical to be reviewed by a physician. They must obtain, complete and submit an application for ATTR 225 and complete the Hepatitis B vaccination form prior to enrolling in the clinical education coursework. These forms may be printed from the Athletic Training website or picked up from the Athletic training Education Program Coordinator.

When an “intent” has successfully achieved the above, he/she must apply for “First Year Review”. The application form can be obtained from the program coordinator or the clinical coordinator or online at the program’s website. The “intent” will be notified of the date and time for a personal interview with the Athletic Training Education Committee.

All forms and the most up to date information about the Athletic Training Education Program can be obtained from the program website: www.emich.edu/hphp/ATRindex.html

General Education Requirements:

For specific requirements refer to the General Education Program.

Additional Requirements: 7-8 hours

One option from the following:

Option I:

- CHEM 120 - Fundamentals of Organic and Biochemistry (Gen Ed Area IV) 4 hrs

Option II:

- CHEM 121 - General Chemistry I (Gen Ed Area IV) 3 hrs
- CHEM 122 - General Chemistry I Laboratory (Gen Ed Area IV) 1 hr

One option from the following:

Option I:
• PSY 101 - General Psychology Lecture (Gen Ed Area IV*) 3 hrs

Option II:

• PSY 101 - General Psychology Lecture (Gen Ed Area IV*) 3 hrs
• PSY 103 - General Psychology Laboratory (Gen Ed Area IV) 1 hr

Sports Medicine - Athletic Training: 70 hours

• ATTR 201 - Human Anatomy for Sports Medicine 3 hrs
• ATTR 202 - Human Physiology for Sports Medicine 3 hrs
• ATTR 219 - Introduction to Athletic Training 3 hrs
• ATTR 225 - Practicum I 3 hrs
• ATTR 290 - Practicum II 2 hrs
• ATTR 295 - Assessment of Lower Body Injuries 3 hrs
• ATTR 296 - Assessment of Upper Body Injuries 3 hrs
• ATTR 304 - Structural Kinesiology 3 hrs
• ATTR 310 - Emergency Care in Athletic Training 2 hrs
• ATTR 321 - Therapeutic Modalities for AT. with Lab 3 hrs
• ATTR 322 - Therapeutic Exercise for Athletic Trainers with Lab 3 hrs
• ATTR 326 - Practicum III 2 hrs
• ATTR 327 - Practicum IV 2 hrs
• ATTR 384 - Ergogenic Aids and Athletic Performance 2 hrs
• ATTR 390 - Senior Practicum 3 hrs
• ATTR 419 - Medical Aspects of Athletic Training 3 hrs
• ATTR 420 - Administrative and Legal Aspects of Athletic Training 2 hrs
• ATTR 485 - Seminar in Athletic Training 3 hrs
• ATTR 490 - Internship — Athletic Training 6 hrs
• DTC 204 - Sports Nutrition 3 hrs
• SPMD 119 - Orientation to Sports Medicine 1 hr
• SPMD 280 - Pharmacology for Sports Medicine 2 hrs
• SPMD 300 - Physiology of Exercise 4 hrs
• SPMD 305 - Kinesiology-Tissue Mechanics 3 hrs
• SPMD 380W - Behavioral Aspects of Sports Medicine (Gen Ed Area I, W) 3 hrs

Electives: 13 hours

Program Total:

Students must earn a minimum total of 124 credits at the 100-level or above.

Notes:

Each student must choose a writing intensive course as part of major completion requirements. Consult your adviser for course options.
The above curriculum, numerous clinical competencies/proficiencies and clinical experience under the supervision of an NATA-certified athletic trainer are required for graduation and to sit for the NATABOC certification exam. In addition, completed athletic training education competencies are required by all students prior to graduation from the CAAHEP accredited program. Clinical education must be attained in no less than two academic years and not more than five years.

Critical Graduation Information:

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the 100-level and above. Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Earn a minimum of 60 credits from a four-year college or university; courses taken at community colleges cannot be used to meet this requirement. (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 unique credit hours in their major and 20 unique credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
- Not more than 60 credit hours in one subject area (prefix) may be applied towards the minimum of 124 credit hours required for a bachelor's degree.
- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more that one major or minor.
  - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor.
  - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
  - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor.
- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is coordinated by the Office of Admissions, and additional documentation may be required.
- Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be earned in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

General Education Requirements:

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available on the General Education section of the catalog: General Education

- For Students who began their undergraduate program at EMU in Fall 2007 or later or who have elected to follow the current ("new") General Education Program, follow the "For Students" link under the Current Program heading.
For Students who began their undergraduate program at EMU before Fall 2007 and who have elected to follow the Pre-2007 General Education Requirements, follow the "General Education Program Prior to Fall 2007 (pdf file)" link under the Program Prior to Fall 2007 heading. Please note that students who wish to graduate under pre-2007 General Education requirements must graduate by August 2014; those who have not completed all degree requirements by that time will need to satisfy the current (Fall 2007) General Education requirements.

Students who transferred to EMU may have modified general education requirements based on MACRAO or articulation agreements; consult your academic adviser for additional information.

University Information: Consult the online catalog at catalog.emich.edu.

Exercise Science Major

Students entering the exercise science program are listed as “intents” and will be considered for candidacy when the following criteria are met:

1. Declaration of intent to major in exercise science with the Academic Advising Center in Pierce Hall and the School of Health Promotion and Human Performance.

2. An overall GPA at Eastern Michigan University of 2.80 (transfer GPA evaluated separately).

3. Completion of all pre-candidacy courses in the exercise science major with a B- or better.

When an “intent” has successfully achieved the above, he or she must complete the candidacy application, including the application form, three letters of recommendation (two professional and one personal) and a biographical sketch, and turn this in to their adviser. Once accepted into candidacy, the student must maintain a minimum 2.8 GPA. The student will not be allowed to complete the internship experience (SPMD 480) if the GPA falls below 2.8. In addition, a grade of B- or better must be attained in all required and elective courses in the exercise science major. If the above are not met, the course(s) in question must be retaken. CPR certification by the American Red Cross or American Heart Association is also required as part of this program.

School of Health Promotion and Human Performance Information:

School Director: Christine Karshin
School Contact: ckarshin@emich.edu
Website: http://www.emich.edu/hphp/

General Education Requirements:

For specific requirements refer to the General Education Program. Download the Gen Ed Checklist here.

Correction Note:

The following corrections have been made to this program:

1. PSY 101 (General Psychology Lecture) should not be listed as a pre-candidacy requirement for this program.
2. Under “Elective Courses”, the following clause has been removed, “Only two credit hours are required if the 124 credit hours program total has been met. If the 124 credit hours have not been completed, then five credit hours are required”? “5-6 hours” instead of “2-6 hours” should be listed as the credit hour total for elective courses.
3. There were numerical errors regarding the number of hours in 'Required Courses', it now correctly reads "13", not "17". Also, pre-candidacy courses should read "24-25 hours", not "19-24 hours". Major requirements should read "66-68 credits", not "62-71 credits".

These corrections apply to this catalog, will not appear until the 2013 Catalog.
Major Requirements: 62-71 hours

Pre-candidacy Courses: 19-24 hours

- PHY 221 - Mechanics, Sound and Heat (Gen Ed Area IV) 4 hrs
- PSY 101 - General Psychology Lecture (Gen Ed Area IV*) 3 hrs
- SPMD 144 - Introduction to Exercise Science 2 hrs
- SPMD 201 - Human Anatomy for Sports Medicine 3 hrs
- SPMD 202 - Human Physiology for Sports Medicine 3 hrs
- SPMD 300 - Physiology of Exercise 4 hrs

Choose one from each group:

* For students also preparing for medical school, physical therapy school or physician assistant school, BIO 110 and CHEM 121/122 should be taken instead of BIO 105 and CHEM 120. These substitutions will meet program and general education requirements. Grade requirements will still be enforced.

Group I:

- * BIO 105 - Introductory Biology for Non-majors (Gen Ed Area IV) 4 hrs
- * BIO 110 - Introductory Biology I (Gen Ed Area IV) 5 hrs

Group II:

- * CHEM 120 - Fundamentals of Organic and Biochemistry (Gen Ed Area IV) 4 hrs
  OR
- * CHEM 121 - General Chemistry I (Gen Ed Area IV) 3 hrs
  AND
- * CHEM 122 - General Chemistry I Laboratory (Gen Ed Area IV) 1 hr

Required Courses: 17 hours

- DTC 204 - Sports Nutrition 3 hrs
- SPMD 280 - Pharmacology for Sports Medicine 2 hrs
- SPMD 305 - Kinesiology-Tissue Mechanics 3 hrs
- SPMD 325 - Practicum in Exercise Science 2 hrs
- SPMD 380W - Behavioral Aspects of Sports Medicine (Gen Ed Area I, W) 3 hrs

Required Courses (Postcandidacy): 24 hours

- SPMD 410 - Laboratory Techniques in Human Performance Analysis 4 hrs
- SPMD 430 - Principles of Electrocardiography 3 hrs
- SPMD 431 - Pathophysiology for Sports Medicine 3 hrs
- SPMD 432 - Introduction to Exercise Programming 3 hrs
- SPMD 433 - Principles of Strength and Conditioning 3 hrs
- SPMD 480 - Internship — Exercise Science 8 hrs
Elective Courses: 2-6 hours

Only two credit hours are required if the 124 credit hours program total has been met. If the 124 credit hours have not been completed, then five credit hours are required.

- Any undergraduate or graduate-level SPMD course
- SPMD 407 - Fitness Center Management 3 hrs
- SPMD 434 - Introduction to Echocardiography 2 hrs
- SPMD 508 - Exercise Epidemiology 3 hrs
- SPMD 515 - Diabetes and Obesity 3 hrs
- SPMD 518 - Sports Supplements 3 hrs
- PHED 260 - Motor Development 2 hrs
- PHED 360 - Motor Learning 3 hrs

Minor Requirements:

This major does not require a minor. For students interested in fitness and wellness center management, a minor in management (21 hours) is encouraged.

Program Total:

Students must earn a minimum total of 124 credits at the 100-level or above.

Notes:

Each student must choose a writing intensive course as part of major completion requirements. Consult your adviser for course options.

Critical Graduation Information:

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the 100-level and above. Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Earn a minimum of 60 credits from a four-year college or university; courses taken at community colleges cannot be used to meet this requirement. (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 unique credit hours in their major and 20 unique credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a
minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.

- Not more than 60 credit hours in one subject area (prefix) may be applied towards the minimum of 124 credit hours required for a bachelor's degree.
- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more that one major or minor.
  - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor.
  - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
  - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor.
- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is coordinated by the Office of Admissions, and additional documentation may be required.
- Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be earned in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

**General Education Requirements:**

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available on the General Education section of the catalog: General Education

- For Students who began their undergraduate program at EMU in Fall 2007 or later or who have elected to follow the current ("new") General Education Program, follow the "For Students" link under the Current Program heading.
- For Students who began their undergraduate program at EMU before Fall 2007 and who have elected to follow the Pre-2007 General Education Requirements, follow the "General Education Program Prior to Fall 2007 (pdf file)" link under the Program Prior to Fall 2007 heading. Please note that students who wish to graduate under pre-2007 General Education requirements must graduate by August 2014; those who have not completed all degree requirements by that time will need to satisfy the current (Fall 2007) General Education requirements.

Students who transferred to EMU may have modified general education requirements based on MACRAO or articulation agreements; consult your academic adviser for additional information.

**University Information:** Consult the online catalog at catalog.emich.edu.

**K-12 Physical Education Major**

Successful completion of this course of study leads to a Bachelor of Science degree, and qualifies the student for recommendation for the Michigan Department of Education Secondary Provisional Certificate K-12 endorsement in physical education, certification code MB and, depending on the minor selected, an additional endorsement. This program of study meets all requirements of the National Association for Sport and Physical Education/American Alliance for Health, Physical Education, Recreation and Dance. The Michigan Test for Teacher Certification (MTTC) covering this field is #044, “Physical Education,” and is taken at the completion of all program requirements.

Students planning admission to the Physical Education major must officially enroll in the program at the Academic Advising Center and complete an application at 318/319 Porter.

Students seeking certification must meet requirements for entry into the Initial Teacher Preparation Program. The course of study requires completion of general education requirements, an approved teaching minor in a secondary subject area, the Physical Education major and professional education courses.
The course of study is uniquely designed to provide students with theoretical and practical knowledge of how to deliver physical education programming to K-12 students with and without disabilities. The Exemplary Physical Education Curriculum (EPEC) is used as a model to enable students to develop exemplary physical education programs upon graduation. The methods of teaching courses provide information on the sequencing and presenting of a wide variety of activities found within the public schools.

Fieldwork experiences are a critical component of the professional program. Extracurricular assignments enhance the practical application of knowledge learned within the classroom. Majors are required to complete a minimum of 100 hours of prestudent teaching experiences with students of all ages and abilities. Fieldwork experiences will begin in the freshman year, will include students with and without disabilities and will culminate in a one semester student teaching assignment with elementary and secondary students under the supervision of master teachers.

This program primarily serves the needs of K-12 school programs in Michigan and the United States. Faculty provide students with numerous opportunities for professional growth. Opportunities for additional certifications and endorsements such as water safety instructor (WSI), American Red Cross First Aid, coaching and certification in programs for students with disabilities are also available and strongly encouraged.

The Physical Education major program participates in the Honors College. Students wishing to enroll in the Honors Program must maintain a GPA of 3.3 and fulfill all requirements in specific honor courses. See the department honors adviser for specific information.

**Physical Education Majors/Minors Academic Standards**

**Standard I**  
The following core physical education courses shall be completed by Physical Education majors prior to admission into the Initial Teacher Preparation Program in addition to other requirements currently in place.

- PHED 100 - History and Foundations of Physical Education (2 hrs)
- PHED 200 - Anatomy and Physiology (5 hrs)
- PHED 204 - Kinesiology (Biomechanics of Physical Activity) (3 hrs)
- PHED 260 - Motor Development (2 hrs)

**Standard II**  
The following GPA requirements for Physical Education majors are required prior to being admitted to the student teaching experience.

Minimum cumulative GPA of 2.75 in the following core courses with no single grade lower than a C. (Initial Teacher Preparation Program overall GPA requirements remain in effect).

- PHED 100 - History and Foundations of Physical Education (2 hrs)
- HLED 210 - Standard American Red Cross First Aid (2 hrs)
- PHED 200 - Anatomy and Physiology (5 hrs)
- PHED 204 - Kinesiology (Biomechanics of Physical Activity) (3 hrs)
- PHED 260 - Motor Development (2 hrs)
- PHED 300 - Physiology of Exercise (4 hrs)
- PHED 330 - Adapted Physical Education (3 hrs)
- PHED 360 - Motor Learning (3 hrs)

Minimum grade of B in the following Methods of Teaching courses.

- PHED 215 - Methods of Teaching Individual Sports (3 hrs)
- PHED 217 - Methods of Teaching Team Sports (3 hrs)
- PHED 219 - Methods of Teaching Rhythmic Activities, Fundamental Movement and Movement Education (3 hrs)
PHED 315 - Methods of Teaching Conditioning Activities (2 hrs)
PHED 317 - Methods of Teaching Elementary Physical Education (2 hrs)

Standard III
The following GPA requirements and minimum grade standard are required for the completion of the physical education minor and the physical education minor for special education majors.

- Overall cumulative GPA as required by the Initial Teacher Preparation Program.
- No single grade lower than C in any required class and GPA of 2.75 in minor courses.

Website: http://www.emich.edu/hphp/

Initial Teacher Preparation Program Admission

In order to pursue the sequence of courses necessary to complete eligibility for recommendation for certification, one must apply for and be admitted to the teacher preparation program. Admission requirements are common for all teacher preparation programs, except that certain special education programs have additional requirements.

Each undergraduate student is responsible for applying to the teacher preparation program immediately after the semester in which the student has earned 56 credit hours. Transfer students with more than 56 credit hours should apply immediately after the semester in which they have earned 12 hours at EMU, including at least one course in their major. Students with 56 hours of transfer course work with a decision GPA of 3.0 may apply for admission to the teacher preparation program without 12 earned hours at EMU.

Admission to the teacher preparation program is not automatic. Only those persons who have formally applied are considered for admission. Not all persons who apply become eligible for admission.

Applications for the Initial Teacher Preparation Program at EMU are available within your my.emich account under the "Student" tab. Submit your completed application to the Office of Academic Services once you have earned 56 credit hours.

Teaching majors and minors are unofficial until program admission. Students pursuing teacher certification should follow the catalog that exists at the time of program admission. It is important that students apply to the teacher preparation program as soon as they have earned 56 credit hours.

Criteria

1. Completion of 56 credit hours
2. Appropriate cumulative GPA. One of:
   1. An overall EMU GPA of 2.5 or higher. At least 12 of the 56 credit hours taken at EMU with an EMU GPA of 2.5 or higher in your major (each of your majors if declaring a double major). You must complete at least one course in your major(s) in order to be eligible.
   2. Transferred 56 credits with a cumulative 3.0 GPA from all previous institutions.
   3. A grade of “C” or higher (if taken) in the following courses:
1. Secondary: ENGL 121, CTAC 124, quantitative reasoning, one lab science, all professional education courses, and, if special education, PSY 101.

2. Elementary: ENGL 121, CTAC 124, MATH 108, MATH 110E, PHY 100, CHEM 101, ESSC 202, all of the professional education courses, all courses that state “for elementary teachers,” and, if special education, PSY 101.

4. Passing scores on all three sections of the Michigan Test for Teacher Certification Basic Skills Test (MTTC) (reading, mathematics, and writing). Official score report must be on file at Eastern Michigan University.

5. Personal statement about your experiences with youth/children and why you are going into teaching. This statement will be read for content, grammar, and punctuation.

6. Completion of a Disposition Self Evaluation Form.

7. ICHAT criminal background check and Statement of Civil/Criminal Convictions. If you answered yes to any of the civil/criminal conviction questions on the application, you will need to provide:
   1. A copy of the Judgment of Sentence, or Registrar of Actions, or Certification of Conviction.
   2. A written explanation of the offense(s). Application of students with civil/criminal convictions will be carefully reviewed and may take longer to process.

8. Meet academic, social, moral, and financial obligations as a member of the EMU community.

General Education Requirements:

For specific requirements refer to the General Education Program. Download the Gen Ed Checklist here.

Additional Requirements: 2 hours

- PEGN 210L - Lifetime Wellness and Fitness (Gen Ed Area V LBC) 2 hrs

Major Requirements: 37 hours

- HLED 210 - Standard American Red Cross First Aid 2 hrs
- PHED 100 - History and Foundations of Physical Education 2 hrs
- PHED 200 - Anatomy and Physiology 5 hrs
- PHED 204 - Kinesiology (Biomechanics of Physical Activity) 3 hrs
- PHED 215 - Methods of Teaching Individual Sports 3 hrs
- PHED 217 - Methods of Teaching Team Sports 3 hrs
- PHED 219 - Methods of Teaching Rhythmic Activities, Fundamental Movement and Movement Education 3 hrs
- PHED 260 - Motor Development 2 hrs
- PHED 300 - Physiology of Exercise 4 hrs
- PHED 315 - Methods of Teaching Conditioning Activities 2 hrs
- PHED 317 - Methods of Teaching Elementary Physical Education 2 hrs
- PHED 330 - Adapted Physical Education 3 hrs
- PHED 360 - Motor Learning 3 hrs
Professional Education Courses: 30 hours

Pre-admission: 4 hours

- EDPS 322 - Human Development and Learning 4 hrs

Phase I: 8 hours

- PHED 415 - Curriculum and Instruction in Physical Education 3 hrs
- PHED 470 - Assessment and Evaluation in Physical Education 2 hrs
- SOFD 328W - Schools for a Diverse and Democratic Society (Gen Ed Area I, W) 3 hrs

Phase II: 5 hours

- PHED 370 - Physical Education Applied Technologies 2 hrs
- RDNG 311 - Teaching Reading in the Secondary School 3 hrs

Phase III: 13 hours

- EDUC 496 - Student Teaching 6 hrs
- EDUC 497 - Student Teaching 6 hrs
- PHED 495 - Senior Seminar 1 hr

Minor Requirements:

This program requires a minor. Please contact your program adviser for a list of possible minors.

Program Total:

Students must earn a minimum total of 124 credits at the 100-level or above.

MTTC Subject Area Test

Starting January 1, 2013, Students seeking licensure in a secondary or K-12 area are not required to take the MTTC subject area test in their minor area. Students who elect not to take the test in their minor will be required to sign a statement indicating that they understand that they will not be endorsed in their minor area and will not be eligible for teaching positions in their minor unless they pass the minor subject area test within five years of completing field experience and course requirements.

Note:

Each student must choose a writing intensive course as part of major completion requirements. Consult your adviser for course options.

Critical Graduation Information:
The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the 100-level and above. Courses with numbers below 100 will not be counted toward this degree requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Earn a minimum of 60 credits from a four-year college or university; courses taken at community colleges cannot be used to meet this requirement. Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 50 unique credit hours in their major and 20 unique credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
- Not more than 60 credit hours in one subject area (prefix) may be applied towards the minimum of 124 credit hours required for a bachelor's degree.
- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more than one major or minor.
  - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor.
  - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
  - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor.
- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is coordinated by the Office of Admissions, and additional documentation may be required.
- Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be earned in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

General Education Requirements:

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. - For Students who began their undergraduate program at EMU in Fall 2007 or later or who have elected to follow the current ("new") General Education Program, follow the "For Students" link under the Current Program heading.
- For Students who began their undergraduate program at EMU before Fall 2007 and who have elected to follow the Pre-2007 General Education Requirements, follow the "General Education Program Prior to Fall 2007 (pdf file)" link under the Program Prior to Fall 2007 heading. Please note that students who wish to graduate under pre-2007 General Education requirements must graduate by August 2014; those who have not completed all degree requirements by that time will need to satisfy the current (Fall 2007) General Education requirements.

Students who transferred to EMU may have modified general education requirements based on MACRAO or articulation agreements; consult your academic adviser for additional information.

University Information: Consult the online catalog at catalog.emich.edu.
Physical Education Non-Teaching Major

The physical education non-teaching option is available for students who wish to pursue careers in health and wellness other than the teaching of physical education. Graduates have found employment in fitness centers, as coaches of sports teams and in other sport-related fields and have used the degree for entry into graduate study in athletic administration, occupational and physical therapy and related careers.

Students who transferred to EMU may have modified general education requirements based on MACRAO or articulation agreements; consult your academic adviser for additional information.

**University Information:** Consult the online catalog at catalog.emich.edu.

**Sport Management Major**

**Admission**

Students who are interested in the sport management major will be listed as "pre-sport management" and will be considered for candidacy to "sport management" when the following criteria are met:

1. Declare intent to major in sport management with the Academic Advising Center in Pierce Hall and the School of Health Promotion and Human Performance.

2. Achieve an overall GPA at Eastern Michigan University of 2.5 (transfer GPA evaluated separately) after the sophomore year.

When a "pre-sport management" student has successfully achieved the above, he or she must complete the candidacy application, including the application form, one professional letter of recommendation, and a biographical sketch and turn this in to the assigned department advisor. Once accepted into candidacy, the student must maintain a minimum 2.5 GPA. The student will not be allowed to complete the Fieldwork experience any semester the overall average falls below 2.5. In addition, a grade of B- or better must be attained in the following courses: SMGT 255, SMGT 375, SMGT 445.

**General Education Requirements:**

For specific requirements refer to the General Education Program. Download the Gen Ed Checklist here.

**Required Core Courses: 36 hours**

- LAW 411 - Sports Law 3 hrs
- SMGT 201 - Foundations of Sport Management 3 hrs
- SMGT 255 - Social Psychology of Sport 3 hrs
- SMGT 325 - Sport Facilities 3 hrs
- SMGT 375 - Sport and Event Planning 3 hrs
- SMGT 385W - Introduction to Research in Sport Management (Gen Ed Area I, W) 3 hrs
- SMGT 425 - Diversity in Sport Organizations 3 hrs
• SMGT 445 - Sport Economics and Finance 3 hrs
• SMGT 460 - Sports Ethics 3 hrs
• SMGT 493 - Fieldwork in Sport Management I 3 hrs
• SMGT 495 - Fieldwork in Sport Management 3 hrs
• SMGT 494 - Fieldwork in Sport Management 3 hrs

Possible Electives:

• SMGT 477 - Special Topics 1 hr
• SMGT 478 - Special Topics 2 hrs
• SMGT 479 - Special Topics 3 hrs
• SMGT 511 - NCAA Compliance 3 hrs

Minor Requirements:

This major requires a minor. Choose a minor from the following:

Communication Minor
Entrepreneurship Minor
Nonprofit Administration Minor
General Business Minor - (For nonbusiness majors)
Hotel and Restaurant Management Minor
Management Minor - (For nonbusiness majors)
Marketing Minor - (For nonbusiness majors)

Program Total:

Students must earn a minimum total of 124 credits at the 100-level or above.

Critical Graduation Information:

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

• Earn a minimum total of 124 credits at the 100-level and above. Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.
• Meet the requirements of the General Education program (see information below).
• Earn a minimum of 60 credits from a four-year college or university; courses taken at community colleges cannot be used to meet this requirement. (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
• Earn a minimum of 30 credits from courses taken at EMU.
• Complete 10 of the last 30 hours for the degree from courses taken at EMU.
• Have a minimum of 30 unique credit hours in their major and 20 unique credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a
students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.

- Not more than 60 credit hours in one subject area (prefix) may be applied towards the minimum of 124 credit hours required for a bachelor's degree.
- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more than one major or minor.
  - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
  - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
  - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor.
- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is coordinated by the Office of Admissions, and additional documentation may be required.
- Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be earned in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

**General Education Requirements:**

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available on the General Education section of the catalog: General Education

- For Students who began their undergraduate program at EMU in Fall 2007 or later or who have elected to follow the current ("new") General Education Program, follow the "For Students“ link under the Current Program heading.
- For Students who began their undergraduate program at EMU before Fall 2007 and who have elected to follow the Pre-2007 General Education Requirements, follow the "General Education Program Prior to Fall 2007 (pdf file)" link under the Program Prior to Fall 2007 heading. Please note that students who wish to graduate under pre-2007 General Education requirements must graduate by August 2014; those who have not completed all degree requirements by that time will need to satisfy the current (Fall 2007) General Education requirements.

Students who transferred to EMU may have modified general education requirements based on MACRAO or articulation agreements; consult your academic adviser for additional information.

**University Information:** Consult the online catalog at catalog.emich.edu.

**Minor**

**Coaching Minor**

This program is intended for students planning to pursue coaching as a full- or part-time activity. The minor is not considered a teacher minor for education majors.

**Minor Requirements:** 23 hours

**Required Courses:** 13 hours

- HLED 490 - Drug Use and Abuse 3 hrs
• PHED 200 - Anatomy and Physiology 5 hrs
• PHED 421 - Legal Aspects of Sport, Physical Education, and Recreation 2 hrs
• SPMD 380W - Behavioral Aspects of Sports Medicine (Gen Ed Area I, W) 3 hrs

Restricted Elective Courses: 10 hours

Four to six hours from the following:

• Other Theory Coaching Courses
• ATHL 263 - Theory of Football 2 hrs
• ATHL 265 - Theory of Baseball 2 hrs
• ATHL 267 - Theory of Basketball 2 hrs
• ATHL 268 - Theory of Coaching Swimming 2 hrs
• ATHL 269 - Theory of Track and Field 2 hrs

Four to six hours from the following:

See advisor for other approved electives.

• ATHL 261 - Techniques of Officiating I 2 hrs
• ATHL 262 - Techniques of Officiating II 2 hrs
• PHED 305 - Practical Concepts of Conditioning 2 hrs
• PHED 316 - Foundations of Coaching 2 hrs
• PHED 360 - Motor Learning 3 hrs
• PHED 389 - Sport and Activity for the Disabled 1 hr
• PHED 405 - Women in Sports 3 hrs
• PHED 477 - Special Topics 1 hr
• PHED 478 - Special Topics 2 hrs
• PHED 479 - Special Topics 3 hrs

Minor Total: 23 hours

Note:

All minors must have at least six hours of course work at the 300-level or above.

Critical Graduation Information:

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

Physical Education Minor for Special Education Majors-Special Education-Elementary and Special Education-Secondary Teacher Certification

This program is intended for special education majors interested in a teaching minor in adapted physical education. The minor in adapted physical education is designed for undergraduates who wish to earn the State of Michigan Endorsement for Teachers of Students with Disabilities. Because it is a minor, students are required to meet University requirements governing minors as well as the competencies in the revised Administrative Rules for Special Education (April, 1997).

Successful completion of this minor, in the context of other program requirements, qualifies the student for recommendation for endorsement in physical education, certification code MB, according to their major area of study (i.e., a secondary education...
major will receive a secondary education endorsement). The Michigan Test for Teacher Certification (MTTC) covering this field is #044, “Physical Education,” and should be taken at the completion of the program.

School of Health Promotion and Human Performance Information:

School Director: Christine Karshin
School Contact: ckarshin@emich.edu
Website: http://www.emich.edu/hphp/

Minor Requirements: 24 hours

Required Courses: 20 hours

- ** PHED 200 - Anatomy and Physiology 5 hrs
- PHED 260 - Motor Development 2 hrs
- PHED 300 - Physiology of Exercise 4 hrs
- PHED 330 - Adapted Physical Education 3 hrs
- PHED 388 - Assessment in Adapted Physical Education 1 hr
- PHED 389 - Sport and Activity for the Disabled 1 hr
- PHED 415 - Curriculum and Instruction in Physical Education 3 hrs
- PHED 434 - Adapted Preschool Physical Education 1 hr

Restricted Elective Courses: 4 hours

Four hours from the following:

- PHED 215 - Methods of Teaching Individual Sports 3 hrs
- PHED 217 - Methods of Teaching Team Sports 3 hrs
- PHED 313 - Methods of Teaching Gymnastics 2 hrs
- PHED 315 - Methods of Teaching Conditioning Activities 2 hrs
- PHED 317 - Methods of Teaching Elementary Physical Education 2 hrs
- PHED 319 - Methods of Teaching Aquatics 2 hrs
- * PHED 490 - Field Experience in Adapted Physical Education 4 hrs

Minor Total: 24 hours

Notes:

* All minors must have at least six hours of course work at the 300-level or above.

* This course is required for those students seeking the State of Michigan Endorsement as a Physical Education Teachers for Students with Disabilities.

** Majors in physically and otherwise health impaired (POHI) are exempt from this requirement. However, students must select an additional five credit hours of electives in consultation with the adapted physical education adviser.
Critical Graduation Information:

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

## Recreation and Park Management Minor

The mission of the recreation and park management minor is to provide a core of training that is sufficient in depth and breadth for individuals from a variety of specializations to become employed in public and private agencies to supervise recreation facilities and provide recreation services. The need to integrate into the community, to reposition the recreation profession as a catalyst for decision making, and to assist in solving community problems are emphasized. Training in the minor is directed to heighten concern for providing recreation opportunities in an increasingly pluralistic society and to promote environmental stewardship and sustainability.

The recreation and parks management minor is aimed at:

1. Majors who desire training in the recreation industry and who are concurrently acquiring knowledge and skills in, for example, business, the humanities and social sciences.
2. Individuals seeking training in the recreation industry after earning a degree, but who choose not to seek a second degree.
3. Individuals who already have a degree and who have or who are working in a variety of fields but seek a change in employment to the recreation industry.
4. Majors in other fields who want to develop additional employment opportunities in the recreation industry in addition to their own specialization.
5. Individuals who desire knowledge and skills of the recreation industry.

Objectives of the minor:

1. To build on an existing and/or developing base of knowledge and skills in other occupational areas.
2. To provide knowledge and skills to succeed in the recreation industry.
3. To provide knowledge of leisure and recreation as phenomena in society.
4. To provide the opportunity to earn the minor in two semesters for individuals seeking to retool in an occupational specialty.

- HLED 490 - Drug Use and Abuse 3 hrs
Minor Total: 24 hours

Note:

All minors must have at least six hours of course work at the 300-level or above.

Students are required to earn a "C" grade or better in all HLTT minor courses.

Critical Graduation Information:

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the 100-level and above. Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Earn a minimum of 60 credits from a four-year college or university; courses taken at community colleges cannot be used to meet this requirement. (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 unique credit hours in their major and 20 unique credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
- Not more than 60 credit hours in one subject area (prefix) may be applied towards the minimum of 124 credit hours required for a bachelor's degree.
- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more that one major or minor.
  - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
  - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
  - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor
- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is coordinated by the Office of Admissions, and additional documentation may be required.
- Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be earned in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

General Education Requirements:

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available on the General Education section of the catalog: General Education
For Students who began their undergraduate program at EMU in Fall 2007 or later or who have elected to follow the current ("new") General Education Program, follow the "For Students" link under the Current Program heading.

For Students who began their undergraduate program at EMU before Fall 2007 and who have elected to follow the Pre-2007 General Education Requirements, follow the "General Education Program Prior to Fall 2007 (pdf file)" link under the Program Prior to Fall 2007 heading. Please note that students who wish to graduate under pre-2007 General Education requirements must graduate by August 2014; those who have not completed all degree requirements by that time will need to satisfy the current (Fall 2007) General Education requirements.

Students who transferred to EMU may have modified general education requirements based on MACRAO or articulation agreements; consult your academic adviser for additional information.

University Information: Consult the online catalog at catalog.emich.edu.

Secondary Education Physical Education Minor

Successful completion of this minor, in the context of other program requirements, qualifies the student for recommendation for endorsement in physical education, certification code MB, according to their major area of study (i.e. a secondary education major will receive a secondary education endorsement). The Michigan Test for Teacher Certification (MTTC) covering this field is #044, “Physical Education,” and should be taken at the completion of the program.

School of Health Promotion and Human Performance Information:

School Director: Christine Karshin
School Contact: ckarshin@emich.edu
Website: http://www.emich.edu/hphp/

Minor Requirements: 25 hours

- PHED 200 - Anatomy and Physiology 5 hrs
- PHED 204 - Kinesiology (Biomechanics of Physical Activity) 3 hrs
- PHED 260 - Motor Development 2 hrs
- PHED 300 - Physiology of Exercise 4 hrs
- PHED 315 - Methods of Teaching Conditioning Activities 2 hrs
- PHED 330 - Adapted Physical Education 3 hrs
- PHED 415 - Curriculum and Instruction in Physical Education 3 hrs

One course from the following:

- PHED 215 - Methods of Teaching Individual Sports 3 hrs
- PHED 217 - Methods of Teaching Team Sports 3 hrs

Minor Total: 25 hours

MTTC Subject Area Test

Starting January 1, 2013, Students seeking licensure in a secondary or K-12 area are not required to take the MTTC subject area test in their minor area. Students who elect not to take the test in their minor will be required to sign a statement indicating that
they understand that they will not be endorsed in their minor area and will not be eligible for teaching positions in their minor unless they pass the minor subject area test within five years of completing field experience and course requirements.

Note:

All minors must have at least six hours of course work at the 300-level or above.

Critical Graduation Information:

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the 100-level and above. Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Earn a minimum of 60 credits from a four-year college or university; courses taken at community colleges cannot be used to meet this requirement. (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 unique credit hours in their major and 20 unique credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
- Not more than 60 credit hours in one subject area (prefix) may be applied towards the minimum of 124 credit hours required for a bachelor's degree.
- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more than one major or minor.
  - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
  - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
  - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor
- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. University Information: Consult the online catalog at catalog.emich.edu.

Athletic Training

ATTR 201 - Human Anatomy for Sports Medicine

Required lecture course for sports medicine majors that examines the structure of the human body. In addition to lecture format, computer graphic software will be utilized to enhance the learning process.

Credit Hours: 3 hrs
Prerequisite: departmental permission and 2.5 GPA in sports medicine
Corequisite: ATTR 202
Cross-Listed with: SPMD 201
Last Updated: 2/28/2011

ATTR 202 - Human Physiology for Sports Medicine

Required lecture course for sports medicine majors that examines the structure and function of the human body.

Credit Hours: 3 hrs
Prerequisite: departmental permission and 2.5 GPA in sports medicine
Corequisite: ATTR 201
Class Restrictions: Sophomore standing or above
Cross-Listed with: SPMD 202
Last Updated: 2/28/2011

ATTR 219 - Introduction to Athletic Training

An introduction designed to expose the student to the discipline of athletic health care. The student will study modern concepts of the prevention and care of athletic injury and common health care issues.

Credit Hours: 3 hrs
Prerequisite: SPMD 119
Last Updated: 2/28/2011

ATTR 225 - Practicum I

A required course that will provide students with information regarding basic skills of athletic training. The content of the course will involve taping and wrapping skills, stethoscope and blood pressure measurement techniques, basic modality usage, record keeping, OSHA training and ambulatory aid fitting and usage.
ATTR 290 - Practicum II

Students will be provided with an athletic training experience under the direct supervision of a certified athletic trainer. The content of the course will involve topical anatomy identification and assessment, situational orthopedic assessment, development of taping, padding and bracing skills, emergency care and professional CPR training. The clinical component will require a minimum of 15 hours per week.

ATTR 295 - Assessment of Lower Body Injuries

A study of the principles, procedures and techniques that are commonly utilized in the recognition and assessment process of athletic injury to the lower body. Emphasis is placed on taking a history, physical examination and the special tests of athletic injury. The course is lecture and lab. However, demonstrations and practical skill analysis supplement the course.

ATTR 296 - Assessment of Upper Body Injuries

A study of principles, procedures and techniques that are commonly utilized in the recognition and assessment process of athletic injury to the upper body. Emphasis is placed on taking a history, physical examination and the special tests of athletic injury. The course is lecture and lab. However, demonstrations and practical skill analysis supplement the course.

ATTR 304 - Structural Kinesiology

This course involves a study of the basic functional anatomy and kinesiology principles. Emphasis will be placed on musculoskeletal anatomy including, muscle origins and insertions. Additionally, special attention will be placed on joint motion identification and quantification. An understanding of basic bio-mechanics principles will also be covered, as well as general body movement analysis.
ATTR 310 - Emergency Care in Athletic Training

Students will learn how to handle emergency situations in the arena of athletic training. This will include skills in spine boarding, oxygen administration and more advanced emergency skills. Students will also learn how to perform the skills of CPR, rescue breathing and how to use an automatic defibrillator.

Credit Hours: 2 hrs
Corequisites: ATTR 295, ATTR 321 and ATTR 326
Major Restrictions: Athletic Training Majors only
Last Updated: 2/28/2011

ATTR 321 - Therapeutic Modalities for AT. with Lab

A detailed study of theory, applications, physiological effects, and indications and contradictions of commonly used therapeutic modalities in the practice of athletic training. A laboratory experience is included for "hands on" experience.

Credit Hours: 3 hrs
Prerequisite: ATTR 290, ATTR 296 and ATTR 304
Corequisites: ATTR 295, ATTR 310 and ATTR 326
Major Restrictions: Athletic Training Majors only
Last Updated: 2/28/2011

ATTR 322 - Therapeutic Exercise for Athletic Trainers with Lab

A study of the principles of applications, physiological effects and indications and contraindications of commonly used therapeutic exercise methods in the practice of athletic training. Students will be exposed to theory as well as practical applications of the rehabilitation techniques.

Credit Hours: 3 hrs
Prerequisite: ATTR 295 and ATTR 296
Corequisites: ATTR 327 and ATTR 419
Major Restrictions: Athletic Training major
Last Updated: 2/28/2011

ATTR 326 - Practicum III

A course designed to provide students with an athletic training experience under the direct supervision of a certified athletic trainer. The content of the course will involve situational orthopedic assessments (upper and lower extremity), review of therapeutic modalities, skill development in orthotic fabrication, imaging and special testing methods, nutritional aspects of sport, substance abuse counseling and exposure to general medical situations. The clinical component will require a minimum of 15 hours per week.

Credit Hours: 2 hrs
Prerequisite: ATTR 290
Corequisites: ATTR 310, ATTR 321 and ATTR 295
Major Restrictions: Athletic Training Majors only
Last Updated: 2/28/2011

ATTR 327 - Practicum IV
The course will provide students with an athletic training experience under the direct supervision of a certified athletic trainer. Course content will include orthopedic assessments, therapeutic modalities, pharmacological knowledge/application, and emergency situations. There will be skill development in the areas of strength/conditioning, rehabilitation and general medical conditions. The clinical component will require a minimum of 15 hours per week.

**ATTR 384 - Ergogenic Aids and Athletic Performance**

The course will be designed to increase the student's awareness of nutritional and pharmacological supplements relative to athletic participation. A strong emphasis will also be placed on educating students in areas of performance enhancement through psychological intervention, nutritional planning and various strength and conditioning methods. Guest speakers and in-class laboratory activities will be utilized to enhance the educational learning experience.

**ATTR 390 - Senior Practicum**

A course designed to provide students with an athletic training experience under the direct supervision of a certified athletic trainer. The content of the course will involve general medical assessments, therapeutic rehabilitation, strength/conditioning program development, skills assessment in eating disorders, psychosocial management of injuries and health care administration. The clinical component will require a minimum of 15 hours per week.

**ATTR 419 - Medical Aspects of Athletic Training**

To expose students to various medical specialties that an athletic trainer is likely to utilize as medical support staff. Students will learn to perform pre-participation examinations, basic medical evaluations and learn decision-making skills, including proper medical referrals. This course is primarily lecture and guest speakers from allied health professions.

**ATTR 420 - Administrative and Legal Aspects of Athletic Training**

This course examines the administrative and legal issues surrounding the field of athletic training. Students will learn the basis of management, program management, human resource management, finance resource management, facility design and planning,
information management, athletic injury insurance and legal considerations and how these apply to the profession to athletic training.

**Credit Hours:** 2 hrs  
**Prerequisite:** ATTR 327 and department permission  
**Corequisites:** ATTR 390 and ATTR 485  
**Class Restrictions:** Senior standing  
**Major Restrictions:** Athletic Training major  
**Last Updated:** 2/28/2011

**ATTR 485 - Seminar in Athletic Training**

A course designed to prepare students for the internship experience and future employment in the athletic training profession. The three major components of the course include professional preparation, administrative principles and procedures, and certification examination preparation. The course delivery includes computer simulations, role-playing, collaborative interaction and individual activities.

**Credit Hours:** 3 hrs  
**Prerequisite:** ATTR 327 and department permission  
**Corequisites:** ATTR 390 and ATTR 420  
**Class Restrictions:** Senior standing  
**Major Restrictions:** Athletic Training major  
**Last Updated:** 2/28/2011

**ATTR 490 - Internship — Athletic Training**

The course is clinical experience to be conducted at an off-campus agency. The agency provides direct supervision at the site. The student will be expected to increase his/her skills and knowledge in the domains of athletic training. This course will segue the Athletic Training student into the health care arena.

**Credit Hours:** 6 hrs  
**Prerequisite:** department permission  
**Major Restrictions:** Athletic Training major

**Athletics**

**ATHL 177 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 1 hr

**ATHL 178 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 2 hrs

**ATHL 179 - Special Topics**
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 3 hrs

**ATHL 261 - Techniques of Officiating I**

An elective course offered to men and women students interested in pursuing officiating as an avocation or as an integral part of a coaching background. The course covers football and men’s and women’s basketball. Registration with the Michigan High School Athletic Association will be available.

**Credit Hours:** 2 hrs

**ATHL 262 - Techniques of Officiating II**

An elective course offered to men and women students who are interested in pursuing officiating as an avocation. The course would also be valuable to those students who are interested in coaching, as the coach-official relationship is a valuable tool in one’s coaching background. The sports covered are: track and field, baseball and softball. There will be a practical phase as well as a lecture phase of instruction.

**Credit Hours:** 2 hrs

**ATHL 263 - Theory of Football**

Lecture course covering the basic fundamentals and styles of offensive and defensive football.

**Credit Hours:** 2 hrs

**ATHL 264 - Theory of Soccer**

The purpose of this course is to explore the theory of soccer from its history to the energy demands of the sport to its mental preparation as well as its technical structure. The course will rely on the latest research on the game and look for applied solutions to the problems that arise from the data. Technical and tactical theories will cover systems of play, passing and support to attacking and defending. Notational analysis will be used during laboratory sessions to further understand the sport.

**Credit Hours:** 3 hrs

**ATHL 265 - Theory of Baseball**

The fundamental skills and strategy of baseball for the prospective teacher and coach.

**Credit Hours:** 2 hrs

**ATHL 267 - Theory of Basketball**

Lecture course covering the basic fundamentals and styles of offensive and defensive basketball.

**Credit Hours:** 2 hrs

**ATHL 268 - Theory of Coaching Swimming**
ATHL 268 is a lecture course for anyone who might coach swimming. The topics covered are stroke technique, applied physiology, strength and flexibility training, rules and how these components contribute to a daily, weekly and seasonal training plan.

Credit Hours: 2 hrs

**ATHL 269 - Theory of Track and Field**

The fundamental techniques for coaching and administering programs of track and field for the prospective teacher and coach.

Credit Hours: 2 hrs

**ATHL 277 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr

**ATHL 278 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs

**ATHL 279 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs

**ATHL 317 - Theory of Coaching Individual Sports for Women**

Coordinates, correlates and supplements skills and information already conveyed in badminton, golf, tennis and archery activity classes. Place of individual sports in the school intramural and interschool programs, lesson plans, unit plans, techniques and strategies of advanced play, organization of a large class, evaluation of current literature pertinent to each activity.

Credit Hours: 2 hrs

**ATHL 318 - Theory of Coaching and Teaching Women’s Team Sports**

Coordinates, correlates and supplements skills and coaching techniques introduced in activity courses. Field sports, volleyball and basketball.

Credit Hours: 2 hrs

**ATHL 377 - Special Topics**
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 1 hr

**ATHL 378 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 2 hrs

**ATHL 379 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 3 hrs

**ATHL 477 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 1 hr

**ATHL 478 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 2 hrs

**ATHL 479 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 3 hrs

**ATHL 497 - Directed Study**

Directed study in areas not covered in other course offerings, or greater depth of study in areas in which the student has a continuing interest. Students will be assigned to select faculty members for direction, consultation and evaluation of the completed study or project. Open only to department majors and minors who have attained junior standing, with a GPA of 3.0 or above, and who have completed the appropriate background courses.

**Credit Hours:** 1 hr

**Prerequisite:** department permission
ATHL 498 - Directed Study

Directed study in areas not covered in other course offerings, or greater depth of study in areas in which the student has a continuing interest. Students will be assigned to select faculty members for direction, consultation and evaluation of the completed study or project. Open only to department majors and minors who have attained junior standing, with a GPA of 3.0 or above, and who have completed the appropriate background courses.

Credit Hours: 2 hrs
Prerequisite: department permission

ATHL 499 - Directed Study

Directed study in areas not covered in other course offerings, or greater depth of study in areas in which the student has a continuing interest. Students will be assigned to select faculty members for direction, consultation and evaluation of the completed study or project. Open only to department majors and minors who have attained junior standing, with a GPA of 3.0 or above, and who have completed the appropriate background courses.

Credit Hours: 3 hrs
Prerequisite: department permission

Exercise Science and Athletic Training

SPMD 119 - Orientation to Sports Medicine

A class for students interested in sports medicine. An introductory course to orient students to the specialized major areas of athletic training and exercise science.

Credit Hours: 1 hr

SPMD 144 - Introduction to Exercise Science

A required course for students interested in majoring in Exercise Science. Instruction will focus on program and professional issues, the basic concepts of exercise physiology and career preparation.

Credit Hours: 2 hrs
Last Updated: New Course 03/2012

SPMD 177 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr

SPMD 178 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs
SPMD 179 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs

SPMD 201 - Human Anatomy for Sports Medicine

Required lecture course for sports medicine majors that examines the structure of the human body. In addition to lecture format, computer graphic software will be utilized to enhance the learning process.

Credit Hours: 3 hrs
Prerequisite: BIO 105 or BIO 110, departmental permission and 2.5 GPA in Exercise Science
Corequisites: SPMD 202
Cross-Listed with: ATTR 201
Course Revisions: This course will have a prerequisite change from "BIO 105 or BIO 110, departmental permission and 2.5 GPA in Exercise Science" to "BIO 105 or BIO 110, CHEM 120 or CHEM 121/122, departmental permission and 2.5 GPA in Exercise Science," effective Winter 2013.
Last Updated: Prerequisite Change 04/2012, effective Winter 2013; Links 03/2011

SPMD 202 - Human Physiology for Sports Medicine

Required lecture course for sports medicine majors that examines the structure and function of the human body.

Credit Hours: 3 hrs
Prerequisite: BIO 105 or BIO 110, departmental permission and 2.5 GPA in Exercise Science
Corequisites: SPMD 201
Cross-Listed with: ATTR 202
Course Revisions: This course will have a prerequisite change from "BIO 105 or BIO 110, departmental permission and 2.5 GPA in Exercise Science" to "BIO 105 or BIO 110, CHEM 120 or CHEM 121/122, departmental permission and 2.5 GPA in Exercise Science," effective Winter 2013.
Last Updated: Prerequisite Change 04/2012, effective Winter 2013; Links 03/2011

SPMD 221 - Therapeutic Modalities for Athletic Trainers

A detailed study, with laboratory experiences, of theory, applications, physiological effects, indications, and contraindications of commonly used therapeutic modalities in the practice of athletic training.

Credit Hours: 2 hrs
Prerequisite: SPMD 119
Last Updated: Links 03/2011

SPMD 269 - Anatomy and Physiology for Dietetics

This course will provide an essential examination of the structure and function of the human organism. Emphasis will be placed on the interactions of the body systems, and all aspects of anatomy and physiology will be presented as they relate specifically to the dietetics curriculum.
**SPMD 277 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 1 hr

**SPMD 278 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 2 hrs

**SPMD 279 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 3 hrs

**SPMD 280 - Pharmacology for Sports Medicine**

Provides basic components of pharmacology, theories of drug actions, physiological processes mediating drug actions, variables affecting drug actions, benefits plus unusual and adverse drug therapy responses. Physiological and cultural aspects of drug therapy and self-medication are explored.

**Credit Hours:** 2 hrs  
**Prerequisite:** BIO 105 or BIO 110, SPMD 20/ATTR 202, CHEM 120 or CHEM 121  
**Last Updated:** Links 03/2011

**SPMD 300 - Physiology of Exercise**

A lecture/laboratory course concerned with human responses and adaptations to muscular activity. The enhancement of health and physical fitness for the general population, optimizing performance in the various types and levels of competitive athletics.

**Credit Hours:** 4 hrs  
**Prerequisite:** SPMD 201/ATTR 201 and SPMD 202/ATTR 202 or equivalent (BIO 251 & BIO 252)  
**Cross-Listed with:** PHED 300  
**Last Updated:** Links 03/2011

**SPMD 305 - Kinesiology-Tissue Mechanics**

A required course for majors in the sports medicine program. Instruction will focus on the laws of physics as they are adapted to explain motion and human performance.

**Credit Hours:** 3 hrs
**Prerequisite:** SPMD 201/ATTR 201, SPMD 202/ATTR 202 and PHY 221  
*Last Updated:* Links 03/2011

**SPMD 318 - Laboratory in Human Anatomy**

A laboratory of gross anatomy utilizing computer graphic software and/or plasticized modes. Material is designed to accompany the lecture material in SPMD 201.

**Credit Hours:** 2  
**Prerequisite:** BIO 105 or BIO 110  
**Corequisites:** SPMD 201  
*Last Updated:* 2/7/2011

**SPMD 325 - Practicum in Exercise Science**

A 120-hour observational experience in a department-approved agency under the supervision of certified personnel. Areas of observation may include but are not limited to cardiac rehabilitation, wellness center management, worksite health promotion or strength and conditioning.

**Credit Hours:** 2 hrs  
**Prerequisite:** SPMD 300 and department permission  
**Major Restrictions:** Exercise Science major  
*Last Updated:* Links 03/2011

**SPMD 377 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 1 hr

**SPMD 378 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 2 hrs

**SPMD 379 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 3 hrs

**SPMD 380W - Behavioral Aspects of Sports Medicine (Gen Ed Area I, W)**

A course to teach student psychological skills that can be applied to facilitate the rehabilitation process. The student will be able to motivate patients/injured athletes to adhere to their treatment program, manage their illness/pain more effectively and rebuild their confidence in their physical skills.
**SPMD 407 - Fitness Center Management**

This course examines the role of fitness in worksite health promotion and disease prevention. Coursework will emphasize the effective management and implementation of corporate fitness programs, as well as the health and economic benefits of physical activity in the workplace.

**Credit Hours:** 3 hrs  
**Prerequisite:** PSY 101

_Last Updated:_ Links 03/2011

---

**SPMD 410 - Laboratory Techniques in Human Performance Analysis**

A lecture and laboratory course that emphasizes exercise testing and assessment techniques. Specific instruction will focus on assessing anaerobic capacity, indirect and direct measures of aerobic capacity, graded exercise testing, various body composition techniques and strength and flexibility assessment.

**Credit Hours:** 4 hrs  
**Prerequisite:** PHED 300/SPMD 300 and candidacy

_Last Updated:_ February 27, 2011; effective Spring 2011

---

**SPMD 430 - Principles of Electrocardiography**

A three-hour undergraduate course on the basics of electrocardiography. The student will learn the basic concepts of conduction, rate, rhythm, axis determination, hypertrophy infraction and the effects of drug therapy.

**Credit Hours:** 3 hrs  
**Prerequisite:** PHED 300/SPMD 300 and candidacy

_Last Updated:_ Graduate Credit 07/2011; Links 03/2011

---

**SPMD 431 - Pathophysiology for Sports Medicine**

A required course for sports medicine majors that relates normal body functioning to the physiologic changes that occur as a result of injury and disease, and examines the effects of physical activity on these processes.

**Credit Hours:** 3 hrs  
**Prerequisite:** PHED 300/SPMD 300 and candidacy

_Last Updated:_ Graduate Credit 07/2011; Links 03/2011

---

**SPMD 432 - Introduction to Exercise Programming**

A required course for students majoring in exercise science. This course provides information needed to develop, implement, and manage exercise programs in a variety of settings. Within the context of each program setting the following issues will be
discussed: 1) the health screening; 2) implementation and management of the exercise prescription; 3) identification and development of exercise leadership skills; and 4) exercise compliance issues.

Credit Hours: 3 hrs  
Prerequisite: SPMD 410 and candidacy  
Last Updated: Links 03/2011

**SPMD 433 - Principles of Strength and Conditioning**

The purpose of this course is to have the student integrate components within the discipline of exercise science (e.g., exercise physiology, biomechanics, growth and maturation, nutrition, etc.) and demonstrate an understanding of their utility in the design and implementation of aerobic and anaerobic exercise programming. Special emphasis will be placed within the area of resistance training, and the opportunity to prepare for professional fitness certification.

Credit Hours: 3 hrs  
Prerequisite: (SPMD 305 or PHED 204), PHED 300/SPMD 300  
Class Restrictions: Junior or Senior standing or department permission  
Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.  
Last Updated: Graduate Credit 07/2011; Links 03/2011

**SPMD 434 - Introduction to Echocardiography**

This course is designed to give students the fundamental background in echocardiography, cardiac anatomy and function, cardiac disease states and proper terminology which will allow students entering the health care professions the ability to understand and analyze a basic two-dimensional echocardiogram.

Credit Hours: 2 hrs  
Prerequisite: SPMD 430  
Last Updated: Links 03/2011

**SPMD 477 - Special Topics**

Offered on an experimental basis for one semester for purposes of meeting special needs and/or innovations.

Credit Hours: 1 hr

**SPMD 478 - Special Topics**

Offered on an experimental basis for one semester for purposes of meeting special needs and/or innovations.

Credit Hours: 2 hrs

**SPMD 479 - Special Topics**

Offered on an experimental basis for one semester for purposes of meeting special needs and/or innovations.

Credit Hours: 3 hrs

**SPMD 480 - Internship — Exercise Science**
A 600-hour full semester field experience in a department-approved agency under the supervision of certified personnel. Areas of specialization include but are not limited to cardiac rehabilitation, wellness center management, worksite health promotion or strength and conditioning.

**SPMD 497 - Directed Study**

Directed study in areas not covered in other course offerings, or greater depth of study in areas in which the student has a continuing interest. Students will be assigned to select faculty members for direction, consultation and evaluation of the completed study or project. Open only to department majors and minors who have attained junior standing, with a GPA of 3.0 or above, and who have completed the appropriate background courses.

**Credit Hours:** 1 hr

**Prerequisite:** Department permission

**Last Updated:** Links 03/2011

**SPMD 498 - Directed Study**

Directed study in areas not covered in other course offerings, or greater depth of study in areas in which the student has a continuing interest. Students will be assigned to select faculty members for direction, consultation and evaluation of the completed study or project. Open only to department majors and minors who have attained junior standing, with a GPA of 3.0 or above, and who have completed the appropriate background courses.

**Credit Hours:** 2 hrs

**Prerequisite:** Department permission

**Last Updated:** Links 03/2011

**SPMD 499 - Directed Study**

Directed study in areas not covered in other course offerings, or greater depth of study in areas in which the student has a continuing interest. Students will be assigned to select faculty members for direction, consultation and evaluation of the completed study or project. Open only to department majors and minors who have attained junior standing, with a GPA of 3.0 or above, and who have completed the appropriate background courses.

**Credit Hours:** 3 hrs

**Prerequisite:** Department permission

**Last Updated:** Links 03/2011

**SPMD 508 - Exercise Epidemiology**

SPMD 508 examines the relationship between physical activity and the burden of disease in the population. Specifically, activity's role in health promotion and disease prevention will be emphasized. Students will gain a basic understanding of the principles of epidemiology and specific measurements of physical activity in the population setting.

**Credit Hours:** 3 hrs

**Prerequisite:** PHED 300/SPMD 300

**Last Updated:** Added to Catalog 04/2012
SPMD 515 - Diabetes and Obesity

This course will provide students in clinical fields of study the knowledge and practical skills to understand the concepts of diabetes and obesity and the implications towards health status. In addition, the role of lifestyle modification will be examined in relation to managing both conditions and improving potential morbidity. Course available only to students in the Physical Education, Sports Medicine, Exercise Physiology, Health, Orthotics and Prosthetics, Dietetics, Nursing, Social Work, Occupational Therapy, Psychology and Biology programs.

Credit Hours: 3 hrs
Last Updated: Added to Catalog 04/2012

SPMD 518 - Sports Supplements

Graduate students interested in nutritional products that are purported to enhance athletic performance, further their understanding of exercise physiology through this course. Examination of research articles, student presentations, writing assignments and traditional lectures will enable the students to critically evaluate such compounds.

Credit Hours: 3 hrs
Prerequisite: PHED 300/SPMD 300 or equivalent
Last Updated: Added to Catalog 04/2012

General Activity

PEGN 101 - Weight Control and Fitness

The purpose of the course is to relate pertinent information about the effects of exercise and nutrition upon the human organism, to understand its structure, function, capabilities and limitations, and experience some of the effects of exercise and improved nutrition.

Credit Hours: 2 hrs

PEGN 102 - Aerobic Dance

A course in which the student can experience physical conditioning and fitness, utilizing dance and music as the medium for aerobic exercise.

Credit Hours: 1 hr

PEGN 103 - Ballroom Dance

Students will learn theory, technique and beginning patterns in merengue, swing, fox trot, waltz, tango and ballrooming.

Credit Hours: 1 hr

PEGN 104 - Cardio Kickboxing

A noncontact aerobic workout with the dynamic punching and kicking of the martial arts and boxing. Cardio Kick movements are very easy to follow and are choreographed to music.

Credit Hours: 1 hr
PEGN 106 - Kendo

This course introduces Kendo and the philosophy behind the Japanese culture of Bushido. Kendo is a martial art form that is focused on the development of the spirit as well as the physicality of the body.

Credit Hours: 1 hr
Last Updated: New Course 04/2012, effective Fall 2012

PEGN 107 - Water Aerobics

This course will incorporate exercises designed to increase cardiovascular fitness, balance, flexibility, strength and muscular endurance. The class will utilize the shallow and deep areas of the pool. This is a class designed with low impact/no impact exercise for non-swimmers.

Credit Hours: 1 hr
Last Updated: New Course 04/2012, effective Fall 2012

PEGN 108 - Basketball

The course is designed for the novice skilled player. The purpose is to learn the basics of individual and team play with emphasis on fundamentals.

Credit Hours: 1 hr

PEGN 110 - Beginning Tae Kwon Do

An introductory course showing the various techniques used in the art of self-defense. Students learn discipline, self-confidence and a vigorous physical activity.

Credit Hours: 1 hr

PEGN 111 - Volleyball

This course will provide opportunities to develop/improve basic volleyball skills, strategies and concepts via lecture, demonstration and laboratory experiences. The course is designed to enhance the student’s performance and increase the enjoyment of participation.

Credit Hours: 1 hr

PEGN 112 - Spinning

A course designed to introduce indoor cycling as a workout along with core training exercises.

Credit Hours: 1 hr
Last Updated: New Course 04/2012, effective Fall 2012

PEGN 113 - Core Training

This course is designed to introduce and teach students physical exercises and behaviors related to performance, care, and enhancement of the abdominal and lower back region of the human body. Coursework will include a review of basic functional
anatomy, concepts of resistance and aerobic exercise, and basic nutritional information.

Credit Hours: 1 hr
Last Updated: New Course 04/2012, effective Fall 2012

PEGN 115 - Karate

This is a beginner’s course in the art of self-defense movements. The aim of self defense is to protect oneself from attack to the point where escape is possible. The student will be introduced to a variety of defensive movement.

Credit Hours: 1 hr

PEGN 116 - Bully Proofing

This course uses lecture, play-based activities and role playing to teach self-defense techniques to aid in developing lifelong communication, advocacy and physical skills that help "bully proof." This course focuses on enhancing emotional health, social skills, building relationships, self-defense skills, and the "judoka" develops confidence. The physical portion of the course includes training in judo which helps improve aerobic capacity, coordination and balance falling skills, efficiency of movement, flexibility and strength.

Credit Hours: 1 hr
Last Updated: New Course 04/2012, effective Fall 2012

PEGN 118 - Mixed Martial Arts

This course introduces basics of both fighting on the ground and fighting from the standing position. Techniques covered include strikes, joint locks, throws, submission holds, pins, and pressure points with a focus on grappling and ground fighting. The standing portion features boxing that also includes strikes using the legs, the knees, the hands and the elbows.

Credit Hours: 1 hr
Last Updated: New Course 04/2012, effective Fall 2012

PEGN 119 - Women’s Gymnastics

An introductory course in the understanding of and participation in the various tumbling routines and apparatus used by women. Emphasis is on the ability to develop new skills and to provide an increase in the physical fitness of the participants.

Credit Hours: 1 hr

PEGN 122 - Men’s Gymnastics I

This is a basic men’s gymnastic skills class, and an introduction to the sport of gymnastics.

Credit Hours: 1 hr

PEGN 123 - Line Dance

Introduction to various types of line dances including country western, multicultural, contemporary club dances, as well as "classic" dances.
PEGN 124 - Fitness Walking

This course is designed to provide students with basic knowledge of physical fitness and healthy lifestyle principles. Power walking is a program that trains muscular strength and endurance, flexibility, cardiovascular endurance and promotes total body health.

Credit Hours: 1 hr

PEGN 126 - Conditioning Activities

A beginning course designed for students with limited or no experience in physical fitness conditioning activities. A variety of activities will be used to promote the skills and knowledge for individual use.

Credit Hours: 1 hr

PEGN 127 - Healthy Hearts

This course covers the essential elements of cardiovascular fitness and wellness, combining instructor lecture, small and large group discussion, activities, games, and personal assessments to achieve course objectives. Emphasis is placed on the prevention and control of cardiovascular problems through behavior modification and positive health practices.

Credit Hours: 1 hr

PEGN 128 - Judo I

A beginning course in the martial arts of judo. Students will learn its history, as well as being able to demonstrate the various techniques.

Credit Hours: 1 hr

PEGN 129 - Kung Fu, Strength and Conditioning

This course teaches how to create a connection of well being within the individual such as: physical fitness for improving the body's ability to perform, as well as rehabilitation and injury prevention; mental awareness for a deeper level of concentration and understanding of one's potential; and connecting the mind and the body to achieve motion with greater ease, inner harmony, optimal health (mental and physical), and self-development.

Credit Hours: 1 hr

PEGN 130 - Assault and Rape Prevention

A course designed to develop skills that will help a person to: (1) recognize possible dangers to property and self, (2) identify alternatives to physical aggression and (3) use appropriate self defense techniques when physical aggression cannot be avoided.

Credit Hours: 1 hr
PEGN 131 - Aikido I

Focuses on the objectives of Aikido: to strengthen students physically and mentally by increasing mental focus through the practice of its techniques. It is a non-competitive art of self-defense, which requires a high degree of concentration and timing. Training focuses on maintaining self-control and equanimity in any crisis situation, developing greater strength, flexibility and martial awareness.

Credit Hours: 1 hr
Last Updated: New Course 04/2012, effective Fall 2012

PEGN 132 - Extreme Workout

This course is designed to provide advanced training concepts to educate the student how to create a comprehensive physical activity program for development of an extreme workout.

Credit Hours: 1 hr
Last Updated: New Course 04/2012, effective Fall 2012

PEGN 133 - Women's Fitness

This course is designed to provide basic and advanced fitness concepts to educate female students how to develop a comprehensive physical activity program. Topics include basic components of fitness (cardiovascular, body composition, muscular strength, muscular endurance, and flexibility) as it relates to women's health.

Credit Hours: 1 hr
Last Updated: New Course 04/2012, effective Fall 2012

PEGN 140 - Marching Band

A class taken by "Permission Only" from the Music and Dance Department. Those accepted will be part of the EMU Marching Band and are expected to be available for practices and performances.

Credit Hours: 1 hr

PEGN 142 - Racquetball and Paddleball

Students will learn the fundamental skills of forehand, backhand and serving. The student will also be responsible for learning the basic rules, strategies and scoring before being given an opportunity to compete with fellow classmates.

Credit Hours: 1 hr

PEGN 143 - Fencing

An introductory course in the history of fencing and the fundamental skills and techniques for use of the foil. Emphasis is placed on the individual body movements and skills for a novice.

Credit Hours: 1 hr

PEGN 145 - Cross-Country Skiing
A course to give the student fundamental knowledge of cross-country skiing, covering: equipment, basic skills, waxing techniques, proper dress and survival. Students furnish their own equipment, or rental from the recreation area.

**Credit Hours:** 1 hr

**PEGN 146 - Beginning Snow Skiing**

A class designed to provide instruction in the basic fundamentals of downhill snow skiing at a recreational level.

**Credit Hours:** 1 hr

**PEGN 148 - Tennis**

This course is designed to promote skill development in the basic tennis strokes and to promote an understanding of rules, etiquette, scoring, strategies and singles and doubles play.

**Credit Hours:** 1 hr

**PEGN 149 - Badminton**

A beginning course in badminton to develop sufficient skill and knowledge to permit a person to enjoy it as a recreational sport. Students will learn the basic badminton strokes, scoring procedures, rules and etiquette.

**Credit Hours:** 1 hr

**PEGN 150 - Golf**

An introductory course focusing on basic instruction on the golf swing, woods and iron play, chipping, putting and playing from the sand. The course also covers golf etiquette and discusses different types of equipment used in today’s game. The commercial establishment charges an extra fee.

**Credit Hours:** 1 hr

**PEGN 151 - Bowling**

This course is designed for the beginning bowler. The student will learn basic knowledge of all aspects of bowling to include: skills, scoring, rules, etiquette and common conversions. The commercial establishment charges an extra fee.

**Credit Hours:** 1 hr

**PEGN 152 - Sailing**

This course is designed for the novice/beginning sailor. The course will provide opportunities to develop basic sailing skills via lecture, demonstration and practical experience.

**Credit Hours:** 1 hr

**PEGN 153 - Swimming**
A course for those who cannot swim or are novice swimmers, to enhance their ability to enjoy water and its recreational fitness. The student will learn to practice safe habits and increase their knowledge and ability to swim using a variety of elementary strokes.

**Credit Hours:** 1 hr

**PEGN 157 - Rape Aggression Defense System**

This course is designed to help build self-confidence, self-esteem, and physical skills to reduce the risk of experiencing an assault. Included in this course is learning to identify characteristics of perpetrators and assault situations.

**Credit Hours:** 1 hr

*Last Updated:* New Course 04/2012, effective Fall 2012

**PEGN 171 - Nia**

Nia is a holistic approach to lifestyle and fitness that blends movement principles from dance, healing and martial arts. It increases body awareness and enhances endurance, strength, flexibility and balance in body, mind, emotions and spirit.

**Credit Hours:** 1 hr

**PEGN 172 - Capoeira**

This course will introduce students to the Afro-Brazilian martial art, Capoeira Mandinga. Basic concepts of the movement, history and music of Capoeira will be presented with emphasis on the traditions that are followed within the martial art. Calisthenics are necessary for effective class participation.

**Credit Hours:** 1 hr

**PEGN 173 - Judo II**

Judo II is designed to further familiarize students with physical Judo theory and technique, specifically naga waza and katame no kata. The physiological principles tantamount to Judo are discussed. Further, functional methodology in regard to Judo training methods is presented in traditional fashion and at the same time offering a new concept of training.

**Credit Hours:** 1 hr

*Prerequisite:* PEGN 128

*Last Updated:* New Course 04/2012, effective Fall 2012

**PEGN 174 - Leading Creative Play**

This course is designed to develop your skills in leading activity and games. It will review theories of game and activity leadership and allow the student to put those theories into practice by demonstrating their abilities and leading a variety of activity experiences during the class.

**Credit Hours:** 1 hr

*Last Updated:* New Course 04/2012, effective Fall 2012

**PEGN 177 - Special Topics**
A one-, two- or three-hour experimental course of a subject to be listed by title.

Credit Hours: 1 hr

**PEGN 178 - Special Topics**

A one-, two- or three-hour experimental course of a subject to be listed by title

Credit Hours: 2 hrs

**PEGN 179 - Special Topics**

A one-, two- or three-hour experimental course of a subject to be listed by title

Credit Hours: 3 hrs

**PEGN 180 - Yoga**

This course is designed to teach the student the five key elements of yoga. It will include exercises, breathing, relaxation and meditation techniques.

Credit Hours: 1 hr

**PEGN 190 - Extramural Club Sports**

The purpose of this course is to promote physical activity by participation in extramural club sports recognized by Campus Life, and the Rec/IM Department. Students will be required to attend all practices and club organized competitions throughout the semester.

Credit Hours: 1 hr
Prerequisite: Department permission

Last Updated: Links 04/2011

**PEGN 193 - Swing Dance I**

This course is designed to teach students the theory, technique and beginning patterns in triple time and single time swing, West Coast swing, the hustle and ballrooming.

Credit Hours: 1 hr

**PEGN 201 - Fitness Activities**

This course is designed to provide students with a background in physical fitness, exercise and health principles and practices. These principles will be applied to personal exercise and health programs through activities such as target heart rate monitoring, body measurements, posture analysis, energy intake and expenditure assessment.

Credit Hours: 1 hr

**PEGN 203 - Latin Dance**
This course is designed to provide students with the technical and foundations in Latin dance. This is a beginning level course.

**Credit Hours:** 1 hr

**PEGN 204 - Lifeguard Training**

This course introduces knowledge and skills needed to prevent and respond to aquatic emergencies. The course content and activities prepare participants to recognize and respond quickly and effectively to emergencies and prevent drowning and injuries.

**Credit Hours:** 2 hrs  
*Last Updated:* New Course 04/2012, effective Fall 2012

**PEGN 206 - Fitness Instructor and Personal Trainer Certification Preparation**

This course is designed to provide theoretical knowledge and practical skills in preparation for a national certification exam in personal training. Topics include guidelines for instructing safe, effective, and purposeful exercise, essentials of the client-trainer relationship, conducting health and fitness assessments, and designing and implementing appropriate physical exercise programming.

**Credit Hours:** 3 hrs  
*Last Updated:* New Course 04/2012, effective Fall 2012

**PEGN 210L - Lifetime Wellness and Fitness (Gen Ed Area V LBC)**

A lecture course covering the essential elements of wellness and fitness. The course is geared toward entering freshmen.

**Credit Hours:** 2 hrs  
*Last Updated:* Links 03/2011

**PEGN 211 - Intermediate Volleyball**

An advanced course designed to develop and increase the students’ ability to perform specific skills necessary for participation in the game of volleyball. The intermediate skills plus offensive and defensive strategies will be stressed.

**Credit Hours:** 1 hr

**PEGN 215 - Tai Chi**

A course designed to explore the Yang family style of Tai Chi Chuan. Students will focus on the basic long form with ancillary experiences in two person play, balance and coordination exercises and some philosophy. Beginning and continuing levels offer opportunities to develop and further skills.

**Credit Hours:** 1 hr

**PEGN 220 - Varsity Rifle Team**

This course is a coed rifle team. The course of instruction will cover the fundamentals of rifle marksmanship and firearms safety. It will focus on the National Rifle Association (NRA) basic rifle course, NCAA rifle team guidelines and the NRA small bore rifle rules for competition. The team practices and competes using three positions, which are the prone, standing (off-hand) and
kneeling positions. Throughout the course, safety and the proper use of equipment are reinforced. The majority of competitions are held on campus.

**Credit Hours:** 1 hr  
**Prerequisite:** department permission

**PEGN 222 - Men's Gymnastics II**

This is a continuation of the knowledge and skills learned in Gymnastic I, and applied to more advanced routines on the different apparatus.

**Credit Hours:** 1 hr

**PEGN 224 - Jogging**

A course designed to provide the student with endurance training experience through jogging. The students will receive information regarding the control of intensity, duration and frequency of endurance type exercise in the promotion of optimal cardio-respiratory fitness.

**Credit Hours:** 1 hr

**PEGN 226 - Weight Training**

A beginning course for the student to gain knowledge and skills that will permit a novice to organize a personal weight training program, and measure the effects of such a program on his/her physical fitness components.

**Credit Hours:** 1 hr

**PEGN 229 - Varsity Soccer**

A planned program to teach and develop the advanced skills and strategies necessary for participation in the collegiate level competition of soccer. Permission required.

**Credit Hours:** 1 hr

**PEGN 230 - Varsity Cross Country**

A planned program to teach and develop the advanced skills and strategies necessary for participation in the collegiate level competition of cross country. Permission required.

**Credit Hours:** 1 hr

**PEGN 231 - Varsity Football**

A planned program to teach and develop the advanced skills and strategies necessary for participation in the collegiate level competition of football. Permission required.

**Credit Hours:** 1 hr

**PEGN 232 - Varsity Basketball**
A planned program to teach and develop the advanced skills and strategies necessary for participation in the collegiate level competition of basketball. Permission required.

**Credit Hours:** 1 hr

**PEGN 233 - Varsity Swimming**

A planned program to teach and develop the advanced skills and strategies necessary for participation in the collegiate level competition of swimming. Permission required.

**Credit Hours:** 1 hr

**PEGN 234 - Varsity Gymnastics**

A planned program to teach and develop the advanced skills and strategies necessary for participation in the collegiate level competition of gymnastics. Permission required.

**Credit Hours:** 1 hr

**PEGN 235 - Varsity Wrestling**

A planned program to teach and develop the advanced skills and strategies necessary for participation in the collegiate level competition of wrestling. Permission required.

**Credit Hours:** 1 hr

**PEGN 236 - Varsity Track**

A planned program to teach and develop the advanced skills and strategies necessary for participation in the collegiate level competition of track. Permission required.

**Credit Hours:** 1 hr

**PEGN 237 - Varsity Baseball**

A planned program to teach and develop the advanced skills and strategies necessary for participation in the collegiate level competition of baseball. Permission required.

**Credit Hours:** 1 hr

**PEGN 238 - Varsity Golf**

A planned program to teach and develop the advanced skills and strategies necessary for participation in the collegiate level competition of golf. Permission required.

**Credit Hours:** 1 hr

**PEGN 239 - Varsity Tennis**
A planned program to teach and develop the advanced skills and strategies necessary for participation in the collegiate level competition of tennis. Permission required.

**Credit Hours:** 1 hr

**PEGN 240 - Varsity Volleyball**

A planned program to teach and develop the advanced skills and strategies necessary for participation in the collegiate level competition of volleyball. Permission required.

**Credit Hours:** 1 hr

**PEGN 242 - Varsity Softball**

A planned program to teach and develop the advanced skills and strategies necessary for participation in the collegiate level competition of softball. Permission required.

**Credit Hours:** 1 hr

**PEGN 256 - Basic River Kayak**

The basic river kayak course is a program emphasizing safety, enjoyment and skill acquisition for entry-level through intermediate levels for individuals in public, private and commercial settings.

**Credit Hours:** 1 hr

**PEGN 277 - Special Topics**

A one-hour experimental course of a subject to be listed by title.

**Credit Hours:** 1 hr

**PEGN 278 - Special Topics**

A two-hour experimental course of a subject to be listed by title.

**Credit Hours:** 2 hrs

**PEGN 279 - Special Topics**

A three-hour experimental course of a subject to be listed by title.

**Credit Hours:** 3 hrs

**PEGN 310 - Intermediate Tae Kwon Do**

A continuum of the beginning tae kwon do (TKD) course designed for students who have mastered the initial skills and wish to advance their knowledge and skills towards a higher TKD-ability class belt.

**Credit Hours:** 1 hr
PEGN 348 - Basic Scuba Diving

This course will provide the student with the knowledge and skills to safely enjoy and gain limited experience in the diving environment under normal open water diving conditions. The course prepares students for open-water scuba diving certification by the Professional Associate of Diving Instructors.

Credit Hours: 1 hr

PEGN 377 - Special Topics

A one-hour experimental course of a subject to be listed by title.

Credit Hours: 1 hr

PEGN 378 - Special Topics

A two-hour experimental course of a subject to be listed by title.

Credit Hours: 2 hrs

PEGN 379 - Special Topics

A three-hour experimental course of a subject to be listed by title.

Credit Hours: 3 hrs

PEGN 477 - Special Topics

A one-hour experimental course of a subject to be listed by title.

Credit Hours: 1 hr

PEGN 478 - Special Topics

A two-hour experimental course of a subject to be listed by title.

Credit Hours: 2 hrs

PEGN 479 - Special Topics

A three-hour experimental course of a subject to be listed by title.

Credit Hours: 3 hrs

PEGN 497 - Directed Study

Directed study in areas not covered in other course offerings, or greater depth of study in areas in which the student has a continuing interest. Students will be assigned to select faculty members for direction, consultation, and evaluation of the completed study or project. Open only to department majors and minors who have attained junior standing, with a GPA of 3.0 or above and who have completed the appropriate background courses.
PEGN 498 - Directed Study

Directed study in areas not covered in other course offerings, or greater depth of study in areas in which the student has a continuing interest. Students will be assigned to select faculty members for direction, consultation, and evaluation of the completed study or project. Open only to department majors and minors who have attained junior standing, with a GPA of 3.0 or above and who have completed the appropriate background courses.

Credit Hours: 2 hrs
Prerequisite: Department permission
Last Updated: Links 04/2011

PEGN 499 - Directed Study

Directed study in areas not covered in other course offerings, or greater depth of study in areas in which the student has a continuing interest. Students will be assigned to select faculty members for direction, consultation, and evaluation of the completed study or project. Open only to department majors and minors who have attained junior standing, with a GPA of 3.0 or above and who have completed the appropriate background courses.

Credit Hours: 3 hrs
Prerequisite: Department permission

Health Education

HLED 130 - Healthy Sexuality

This course examines a variety of topics and issues related to healthy sexuality. This is an elective course which is targeted towards freshmen. Methods include lecture, discussion, individual and group learning activities as well as use of the Internet.

Credit Hours: 3 hrs

HLED 177 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr

HLED 178 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs
HLED 179 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs

HLED 210 - Standard American Red Cross First Aid

For all students interested in accident prevention and in the development of the knowledge and skills essential for the immediate care of the suddenly ill or injured. Readings, lectures and practical work. Certificates for Standard first aid and for cardiopulmonary resuscitation are awarded upon successful completion of the requirements for each.

Credit Hours: 2 hrs

HLED 250 - Communicable and Noncommunicable Diseases

This course will introduce students to common communicable and noncommunicable diseases. Identifying risk factors and prevention strategies will be emphasized. Methods include lecture, discussion, small group activities and the use of Web resources.

Credit Hours: 3 hrs

HLED 270 - Principles of Health Education

This course will provide students with an understanding of the professional roles and competencies of the health educator. Course content will address professional development, code of ethics, application of health education theory and recommendations for practice. Methods will include: lecture, student presentations, cooperative learning and observation of professional practice.

Credit Hours: 3 hrs

HLED 277 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr

HLED 278 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs

HLED 279 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.
HLED 302 - From Host to Host: The Communicable Diseases

Various types of communicable diseases — childhood and young adulthood, skin, upper respiratory, gastrointestinal and sexually transmitted—their causes, modes of transmission, signs and symptoms, treatment, complications and means of control. Lectures, discussions, readings and audio-visual materials.

HLED 305 - Current Health Issues I

This course offers a broad overview of several health education issues, including consumer health education, environmental health education, intentional injury, unintentional injury and emotional health. The course is intended for those entering the health education profession. Methods include lecture, discussion, active learning projects and advocacy.

HLED 315 - Current Health Issues II

This course offers a broad overview of several health education issues, physical activity, nutrition, dental health and the prevention of communicable and noncommunicable disease. The course is intended for those entering the health education profession. Methods include lecture, discussion, active learning projects and developing Web resources.

HLED 320 - Health Education in the Elementary Grades

This course is for students preparing to teach primary and intermediate grades. It focuses on the eight-component Coordinated School Health Program (CSHP) and how teachers can utilize this program for health promotion and disease prevention for their students. Methods include lecture, discussion and the use of Web resources.

HLED 325 - Instructional Skills and Strategies for Health Education

This course is designed to prepare health minors to plan and implement instructional programs of quality comprehensive health education. Emphasis will be placed on development of materials as well as methods and strategies used to effectively teach K–12 health education. Methods include: lecture, cooperative learning, student presentations and peer evaluation.

HLED 340 - Health Education and Nutrition: Enhancing Health and Fitness

This course offers a broad overview of nutrition and its application to enhancing healthy lifestyles. This course is intended for those entering health education or fitness-related fields who will have responsibility for educating future students or clients.
Methods include lectures, discussion, personal dietary analysis and the use of Web resources.

**Credit Hours:** 3 hrs

**HLED 350 - Scientific Foundations in Health Education**

This course will familiarize students with the scientific foundations of disease prevention and health promotion, focusing on risk and protective factors for leading causes of death and disability. This course is designed for health minors. Methods include lectures, discussion, personal health risk analysis and the use of Web resources.

**Credit Hours:** 3 hrs

**HLED 355 - Health Education Program Planning**

This course is designed to prepare school health and health minors to understand and develop the skills necessary to identify health needs, plan, implement and evaluate health education programs in the schools and in the community. Methods include: lecture, cooperative learning and student presentations.

**Credit Hours:** 3 hrs  
**Prerequisite:** HLED 270 and HLED 305 or HLED 315  
**Last Updated:** Links 04/2011

**HLED 377 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 1 hr

**HLED 378 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 2 hrs

**HLED 379 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 3 hrs

**HLED 380 - Psychosocial Health and Service Learning**

The mental/intellectual, psychological/emotional, social and spiritual dimensions of health will be explored as they affect the health of the human being; specifically to physiological functioning. Students will explore self-assessment for aspects of their psychosocial health and complete a service-learning project.

**Credit Hours:** 3 hrs
**HLED 399 - Teaching about AIDS**

A course for prospective teachers, nurses or others who want to examine the issues pertaining to teaching about AIDS prevention. Includes curriculum, methods and resources.

**Credit Hours:** 1 hr

**HLED 402 - Selecting Health Products and Services**

The development of skills in making wise selections of health products and services. Characteristics of the health consumer, consumer protection agencies and laws, quackery, evaluation of health products and services.

**Credit Hours:** 3 hrs

**HLED 420 - Health and Aging**

A study of some of the major physiological aspects of aging. A review of the basic systemic anatomy and physiology necessary to understand the major aspects of biological aging and the chronic diseases associated with aging. For the general student.

**Credit Hours:** 3 hrs

**HLED 450 - Health Education Assessment**

This course provides an introduction to the use of assessment strategies for health education. Methods include lecture, discussion and active learning projects.

**Credit Hours:** 3 hrs  
**Prerequisite:** HLED 325  
**Class Restrictions:** Junior or Senior standing  
**Last Updated:** Links 04/2011

**HLED 460 - Concepts in Sexuality Education**

This course examines the biological and behavioral dynamics of human sexuality and sexuality education with the identification and examination of contemporary issues. Emphasis will be placed on sexuality education in schools and the community. Methods include: lecture, small group discussion, computer applications and student presentations.

**Credit Hours:** 3 hrs  
**Class Restrictions:** Sophomore standing or above  
**Graduate Credit:** This is an undergraduate course available to graduate students for graduate credit.  
**Last Updated:** Graduate Credit 07/2011

**HLED 477 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 1 hr
HLED 478 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs

HLED 479 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs

HLED 480 - Stress Management for Teachers

This course will introduce students to the relationship between stress and health. Stress management techniques will be emphasized. Methods include lectures, discussion, cooperative learning strategies, personal exploration, lesson plan creation and using Web resources.

Credit Hours: 1 hr

HLED 481 - Life Loss Education for Teachers

This course is designed to familiarize teachers and preservice teachers with the skills, resources and activities needed to assist the school age child with the issues of loss, grief and trauma. Methods include; lecture, discussion, self-assessment, cooperative group activities, role-play and the World Wide Web.

Credit Hours: 1 hr

HLED 482 - Conflict Resolution for Teachers

This course is designed to familiarize teachers and preservice teachers with the skills needed for healthy and peaceful resolution of conflict. Methods include; lecture, discussion, self-assessment, cooperative group activities, role-play and the World Wide Web.

Credit Hours: 1 hr

HLED 490 - Drug Use and Abuse

This course offers a broad overview of drug use. Historical perspectives of current problems, pharmacology of drugs commonly used and abused, physiological and psychological factors related to abuse, substance abuse prevention programs, treatment and drugs and the law are all addressed. Methods include: lecture, small group discussion, and student presentations.

Credit Hours: 3 hrs
Class Restrictions: sophomore standing or above
Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.
Last Updated: Graduate Credit 07/2011

HLED 495 - Health Education for Diverse Populations
This course is designed to help students identify, and develop, effective health education programming that will lend to the reduction of health disparities which exist in diverse populations. Methods will include lecture, discussion and classroom activities designed to enhance application of course content.

**Credit Hours:** 3 hrs  
**Class Restrictions:** Sophomore standing or above

### HLED 497 - Directed Study

Directed study in areas not covered in other course offerings, or greater depth of study in areas in which the student has a continuing interest. Students will be assigned to select faculty members for direction, consultation and evaluation of the completed study or project. Open only to department majors and minors who have attained junior standing, with a GPA of 3.0 or above, and who have completed the appropriate background courses.

**Credit Hours:** 1 hr  
**Prerequisite:** department permission

### HLED 498 - Directed Study

Directed study in areas not covered in other course offerings, or greater depth of study in areas in which the student has a continuing interest. Students will be assigned to select faculty members for direction, consultation and evaluation of the completed study or project. Open only to department majors and minors who have attained junior standing, with a GPA of 3.0 or above, and who have completed the appropriate background courses.

**Credit Hours:** 2 hrs  
**Prerequisite:** department permission

### HLED 499 - Directed Study

Directed study in areas not covered in other course offerings, or greater depth of study in areas in which the student has a continuing interest. Students will be assigned to select faculty members for direction, consultation and evaluation of the completed study or project. Open only to department majors and minors who have attained junior standing, with a GPA of 3.0 or above, and who have completed the appropriate background courses.

**Credit Hours:** 3 hrs  
**Prerequisite:** department permission

### Physical Education

#### PEGN 114 - Exercise Equipment Selection and Usage

This course introduces benefits of basic types of anaerobic and aerobic training. Includes, discussion and selection of proper equipment for the desired type of training and identification of possible problems that can arise during training.

**Credit Hours:** 1 hr  
**Last Updated:** New Course, 11/2012, effective Winter 2013

#### PEGN 125 - Family Fitness
This course offers a lecture and practical perspective to family fitness. Health and fitness considerations, safety concerns, training concepts, and other relevant issues will be covered. The above objectives will be met through lectures, discussions, handouts, and practical activities.

Credit Hours: 1 hr
All PEGN activity courses are approved for LBC Group 1 credit

Last Updated: New Course, 11/2012, effective Winter 2013

PHED 100 - History and Foundations of Physical Education

A lecture and discussion course in the history and foundation of physical education. This course is an examination of the influence of selected cultures, peoples and events that have contributed to the development of the physical education discipline.

Credit Hours: 2 hrs

PHED 177 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr

PHED 178 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs

PHED 179 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs

PHED 200 - Anatomy and Physiology

A textbook course, supplemented by lectures and demonstrations, on the structure and functions of the bones, joints and muscles and the organs of digestion, respiration and excretion.

Credit Hours: 5 hrs

PHED 204 - Kinesiology (Biomechanics of Physical Activity)

A required class for sports medicine and physical education majors/minors to scientifically analyze the techniques involved in the performance of human movement skills.

Credit Hours: 3 hrs
Prerequisite: PHED 200 or SPMD 201/ATTR 201 and SPMD 202/ATTR 202

Last Updated: Links 04/2011
**PHED 209 - Bio-Fitness**

Individual biological needs and how those needs are related to daily habits. Students will complete an individual fitness profile that will be the basis for understanding how desirable changes in fitness are achieved.

**Credit Hours:** 2 hrs

**PHED 215 - Methods of Teaching Individual Sports**

A required class for physical education majors/minors who are preparing to teach individual sports in the elementary and secondary schools. Instruction in the teaching, performance, analysis and evaluation of selected fundamental badminton, golf and tennis skills.

**Credit Hours:** 3 hrs

**PHED 217 - Methods of Teaching Team Sports**

A required class for physical education majors/minors who are preparing to teach in elementary and secondary schools. Instruction in the teaching, performance, analysis and evaluation of fundamental basketball, softball and volleyball skills will be presented.

**Credit Hours:** 3 hrs

**PHED 219 - Methods of Teaching Rhythmic Activities, Fundamental Movement and Movement Education**

A required class for physical education majors who are preparing to teach in elementary and secondary schools. Instruction will focus on the teaching, performance, analysis and evaluation of fundamental rhythmic, social dance, locomotor, nonlocomotor and manipulative skills and creative movement activities.

**Credit Hours:** 3 hrs

**PHED 231 - Service Teaching**

This is an individual program under the direction of a qualified faculty member, to enhance the student’s ability to gain additional professional experience.

**Credit Hours:** 1 hr

**Prerequisite:** Department permission

**Last Updated:** Links 04/2011

**PHED 233 - Service Teaching**

For qualified students an additional opportunity to undertake an individualized program under the direction of a qualified faculty member.

**Credit Hours:** 1 hr

**Prerequisite:** Department permission

**Last Updated:** Links 04/2011
PHED 257 - Physical Education for the Classroom Teacher

A methods and materials course in which the prospective classroom teacher gains knowledge in organizing and implementing a physical education program. Not intended for students majoring in physical education.

Credit Hours: 2 hrs

PHED 260 - Motor Development

A required course for physical education majors and minors. Instruction will focus on principles of motor development, with implications for learning gross motor skills. Consideration of the factors associated with individual differences in attaining motor proficiency during childhood and adolescence will be examined.

Credit Hours: 2 hrs
Prerequisite: Permission required from physical education advisor

PHED 277 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr

PHED 278 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs

PHED 279 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs

PHED 282 - Perceptual-Motor Training

Planning and effecting gross motor activity programs for students with neurological dysfunction. Assessment procedures and activity sequences. Supervised field experiences required.

Credit Hours: 1 hr

PHED 287 - Cooperative Education

One semester of supervised work in concentration area. An evaluation is required at the end of the employment period.

Credit Hours: 3 hrs
PHED 300 - Physiology of Exercise

A lecture/laboratory course concerned with human responses and adaptations to muscular activity. The enhancement of health and physical fitness for the general population, optimizing performance in the various types and levels of competitive athletics.

Credit Hours: 4 hrs
Prerequisite: PHED 200 or SPMD 201/ATTR 201 and SPMD 202/ATTR 202
Cross-Listed with: SPMD 300
Last Updated: Links 04/2011

PHED 305 - Practical Concepts of Conditioning

A practical experience in applying the concepts and theories of conditioning to in-class situations as well as coaching. Programs such as interval training will be designed and experienced by the student for use in a particular situation.

Credit Hours: 2 hrs
Prerequisite: PHED 204 or department permission
Last Updated: Links 04/2011

PHED 312 - Athletic Training and Physiotherapy

For prospective coaches and physical educators. Principles and skills of athletic training and physiotherapy. Lectures, demonstration and practice of massaging, bandaging, taping and therapeutic measures as applied in athletic activities and injuries.

Credit Hours: 2 hrs
Prerequisite: PHED 200
Last Updated: Links 04/2011

PHED 313 - Methods of Teaching Gymnastics

A required class for Physical Education majors/minors who are preparing to teach in elementary and secondary schools. Instruction in the teaching, performance, analysis, and evaluation of fundamental gymnastics skills will be presented.

Credit Hours: 2 hrs
Prerequisite: PHED 204
Last Updated: Links 04/2011

PHED 315 - Methods of Teaching Conditioning Activities

A required lecture/laboratory class for physical education majors/minors who are preparing to teach in elementary and secondary schools. Instruction will focus on the practical application of physical fitness and wellness concepts.

Credit Hours: 2 hrs
Prerequisite: PHED 300/SPMD 300
Last Updated: Links 04/2011

PHED 316 - Foundations of Coaching
Practical and scientific information necessary for the implementation of a successful coaching program.

**Credit Hours:** 2 hrs

**PHED 317 - Methods of Teaching Elementary Physical Education**

A required course for physical education majors who are preparing to teach and direct physical education experiences for elementary school children. The course focuses on theory and practical experience in physical education in the elementary school. It presents a variety of activities and teaching styles needed to meet the needs of children in the elementary school years.

**Credit Hours:** 2 hrs  
**Prerequisite:** PHED 260  
**Last Updated:** Links 04/2011

**PHED 319 - Methods of Teaching Aquatics**

An elective course for physical education majors/minors. Aquatics covers the teaching of the four competitive swimming strokes; front crawl, back crawl, breast stroke and butterfly. In addition, life saving strokes, side-stroke and elementary backstroke are studied to prepare students to teach swimming in physical education classes.

**Credit Hours:** 2 hrs

**PHED 330 - Adapted Physical Education**

A lecture and participation course covering the philosophy and goals of adaptive physical education, the relationship of adaptive physical education to the general physical education program, the needs and characteristics of the students with disabilities, and the designing of exemplary adapted physical education programs. Supervised fieldwork required.

**Credit Hours:** 3 hrs  
**Prerequisite:** PHED 260  
**Last Updated:** Links 04/2011

**PHED 331 - Service Teaching**

Provides additional individual opportunities at an advanced level.

**Credit Hours:** 1 hr  
**Prerequisite:** Department permission  
**Last Updated:** Links 04/2011

**PHED 333 - Service Teaching**

For the advanced student who has shown some interest in undertaking a research project for professional development.

**Credit Hours:** 1 hr  
**Prerequisite:** Department permission  
**Last Updated:** Links 04/2011

**PHED 353 - American Red Cross Lifeguarding**
American Red Cross (ARC). This course covers CPR for the professional rescuer (CPR-PR), first aid and in-water rescue skills. ARC lifeguarding certificates are awarded upon successful course completion.

**Credit Hours:** 3 hrs

**PHED 354 - American Red Cross Water Safety Instructor**

The purpose of this course is to train instructor candidates to teach courses in the American Red Cross Swimming and Water Safety program by developing their understanding of how to use course materials, how to conduct training sessions and how to evaluate participant’s progress. Demonstration, explanation, utilization of course manuals and materials, videos and digital video discs (DVDs), analysis and practice of teaching skills are used to carry out course objectives. American Red Cross certification in Fundamentals of Instructor Training (FIT) and Water Safety Instructor are offered upon successful completion.

**Credit Hours:** 2 hrs  
**Prerequisite:** PEGN 153 or instructor permission  
**Last Updated:** Links 04/2011

**PHED 360 - Motor Learning**

A required course for physical education majors. Instruction will focus on learning the processes underlying skilled performance, how skilled performances are learned and how to apply the principles of skilled performance and learning in teaching and coaching situations.

**Credit Hours:** 3 hrs  
**Prerequisite:** PHED 260 or instructor permission  
**Last Updated:** Links 04/2011

**PHED 370 - Physical Education Applied Technologies**

This required course provides an overview of how technology can be integrated into the physical education and coaching professions. Through the use of the World WideWeb, lecture/demonstrations and hands-on experiences, students use and evaluate a variety of software applicable to school and nonschool settings.

**Credit Hours:** 2 hrs  
**Prerequisite:** Admission to the Initial Teacher Preparation Program  
**Class Restrictions:** Junior or Senior standing  
**Last Updated:** Links 04/2011

**PHED 377 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 1 hr

**PHED 378 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 2 hrs
PHED 379 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs

PHED 381 - Motor Development of the Young Child

A course designed specifically for early childhood minors and others interested in young children. A study of the sequential development of motor skills during early childhood with focus on children ages birth to eight years. Investigation and application of the major learning theories in relationship to motor behavior, with specific implications for motor development programs for students of different abilities. Methods of assessment and developmentally appropriate practices for planning and conducting movement curricula will be addressed.

Credit Hours: 3 hrs
Notes: No credit in PHED 260
Last Updated: Links 04/2011

PHED 387 - Cooperative Education in Physical Education

One semester of supervised work in concentration area. An evaluation is required at the end of the employment period.

Credit Hours: 3 hrs
Prerequisite: Nine credit hours in concentration, approval by Cooperative Education Office and department permission
Last Updated: Links 04/2011

PHED 388 - Assessment in Adapted Physical Education

A study of the process of assessing gross motor functioning of students who exhibit a variety of disabilities. Investigation of the legislative mandates requiring assessment and application of the latest assessment instruments for students with disabilities. Fieldwork required.

Credit Hours: 1 hr
Prerequisite: PHED 330
Class Restrictions: Sophomore, Junior or Senior standing
Last Updated: Links 04/2011

PHED 389 - Sport and Activity for the Disabled

A course designed to investigate sports organizations that serve people with disabilities. Topics to be explored include the role of the United States Olympic Committee (USOC), Group E members of the USOC and Committee on Sports for the Disabled, classification of athletes for competition, role of the National Governing Bodies in promoting sports and ways people with disabilities can access sports and noncompetitive opportunities.

Credit Hours: 1 hr
Prerequisite: PHED 330
Class Restrictions: Sophomore, Junior or Senior standing
Last Updated: Links 04/2011

PHED 400W - Philosophical Aspects of Physical Education and Sport (Gen Ed Area I, W)
This course challenges students to discover the essence of physical education and sports throughout philosophy. Students will examine why we play, what we value, who we are, how we know, through physical education. This lecture/discussion course is required for physical education majors.

**Credit Hours:** 2 hrs  
**Prerequisite:** PHIL 100  
**Class Restrictions:** Junior or Senior standing

*Last Updated:* Links 04/2011

**PHED 405 - Women in Sports**

Patterns, problems, and conditions associated with women’s sports involvement in selected world cultures; the sportswoman in American society.

**Credit Hours:** 3 hrs  
**Cross-Listed with:** WGST 405  
*Last Updated:* Links 04/2011

**PHED 415 - Curriculum and Instruction in Physical Education**

Methods and use of materials in the teaching of activities in the elementary and secondary grades. Unit and lesson planning, classroom management, audio-visual aids. Observations of physical education classes at different levels required. Entry into College of Education required.

**Credit Hours:** 3 hrs  
**Prerequisite:** PHED 260; admission to the Initial Teacher Preparation Program  
*Last Updated:* Links 04/2011

**PHED 421 - Legal Aspects of Sport, Physical Education, and Recreation**

Individual rights, due process, selected legal concepts and principles, liability, safe environments, risk management, contracts, insurance and other selected topics.

**Credit Hours:** 2 hrs  
**Class Restrictions:** Senior standing

**PHED 434 - Adapted Preschool Physical Education**

This course presents instructional strategies and curricular models of instruction for preschool-aged children (age three to five) with special needs or who are at-risk for disabilities and school failure. Planning and effecting gross motor activity programs, assessment procedures and activity sequences will be emphasized. Legislative mandates and rationale for the development of preschool motor activity programs will be discussed. Supervised field experience required.

**Credit Hours:** 1 hr  
**Prerequisite:** PHED 330  
**Class Restrictions:** Sophomore, Junior or Senior standing  
*Last Updated:* Links 04/2011

**PHED 454 - American Red Cross Lifeguard Instructor**
The purpose of this course is to train instructor candidates to teach courses in the American Red Cross Lifeguarding program by developing their understanding of how to use course materials, how to conduct training sessions and how to evaluate participant's progress. Demonstration, explanation, utilization of course manuals and materials, videos and digital video discs (DVDs), analysis and practice of teaching skills are used to carry out course objectives. American Red Cross certification in Fundamentals of Instructor Training (FIT) and Lifeguard Instructor (LGI) are offered upon successful completion.

**Credit Hours:** 2 hrs  
**Prerequisite:** PHED 353 or instructor permission  
**Last Updated:** Links 04/2011

**PHED 470 - Assessment and Evaluation in Physical Education**

The discriminating selection, administration, interpretation and use of standardized tests and measurements in physical education.

**Credit Hours:** 2 hrs  
**Prerequisite:** Entry into College of Education required.  
**Graduate Credit:** This is an undergraduate course available to graduate students for graduate credit.  
**Last Updated:** Graduate Credit 07/2011

**PHED 477 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 1 hr

**PHED 478 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 2 hrs

**PHED 479 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 3 hrs

**PHED 487 - Cooperative Education in Physical Education**

One semester of supervised work in concentration area. An evaluation is required at the end of the employment period.

**Credit Hours:** 3 hrs  
**Prerequisite:** Nine credit hours in concentration, approval by Cooperative Education Office and department permission  
**Last Updated:** Links 04/2011

**PHED 490 - Field Experience in Adapted Physical Education**
Required course for "teachers of physical education for handicapped individuals; approval." A directed 15-week field experience in teaching physical education to handicapped persons in a school setting.

**Credit Hours:** 4 hrs  
**Prerequisite:** Department permission  
**Last Updated:** Links 04/2011

**PHED 495 - Senior Seminar**

A synthesis of educational theories presented in the undergraduate physical education program and the student teaching experience.

**Credit Hours:** 1 hr  
**Corequisites:** EDUC 496 and EDUC 497  
**Last Updated:** Links 04/2011

**PHED 497 - Directed Study**

Directed study in areas not covered in other course offerings, or greater depth of study in areas in which the student has a continuing interest. Students will be assigned to select faculty members for direction, consultation and evaluation of the completed study or project. Open only to department majors and minors who have attained junior standing, with a GPA of 3.0 or above, and who have completed the appropriate background courses.

**Credit Hours:** 1 hr  
**Prerequisite:** Department permission  
**Last Updated:** Links 04/2011

**PHED 498 - Directed Study**

Directed study in areas not covered in other course offerings, or greater depth of study in areas in which the student has a continuing interest. Students will be assigned to select faculty members for direction, consultation and evaluation of the completed study or project. Open only to department majors and minors who have attained junior standing, with a GPA of 3.0 or above, and who have completed the appropriate background courses.

**Credit Hours:** 2 hrs  
**Prerequisite:** Department permission  
**Last Updated:** Links 04/2011

**PHED 499 - Directed Study**

Directed study in areas not covered in other course offerings, or greater depth of study in areas in which the student has a continuing interest. Students will be assigned to select faculty members for direction, consultation and evaluation of the completed study or project. Open only to department majors and minors who have attained junior standing, with a GPA of 3.0 or above, and who have completed the appropriate background courses.

**Credit Hours:** 3 hrs  
**Prerequisite:** Department permission  
**Last Updated:** Links 04/2011

Recreation
RECR 100L - Introduction to Recreation and Leisure (Gen Ed Area V LBC)

A basic overview of the fields of recreation and leisure service delivery for the major student. Emphasizes the broad aspects of recreation and leisure as they relate to the delivery of human services. Includes history, philosophy, trends and job opportunities. Lecture, discussion, film and speakers from the field.

Credit Hours: 3 hrs

Last Updated: Links 03/2011

RECR 110 - Rediscovering Your Creativity

This course is designed to develop creative problem solving and idea generating abilities through a review of applied research. In addition, a series of in-class exercises will be facilitated and designed to enhanced latent creative abilities.

Credit Hours: 1 hr
Cross-Listed with: IHHS 110
Last Updated: Links 04/2011

RECR 120 - Business Golf

This course does not teach the game itself, it focuses on how to build relationships with clients, proper etiquette on and off the course, the selection of equipment, protocol of behavior at country clubs and an overview of the process of planning and implementing a personal business golf strategy to further your career.

Credit Hours: 1 hr

RECR 165 - Leisure Lifestyles

An introduction to leisure lifestyles as related to oneself and how leisure behavior relates to an individual’s work, education, economy, ethnic beliefs and values. The course involves individual leisure awareness, choices, goals and strategies to assist in creating a quality and fulfilling life. Lecture, discussion, evaluation techniques and self-exploration. Helpful for majors in any discipline.

Credit Hours: 3 hrs

RECR 177 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr

RECR 178 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs
RECR 179 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs

RECR 260 - Recreation Leadership

Methods and techniques of group and individual leadership skills at three levels: direct face-to-face leadership, supervision and management. An overview of conceptual and theoretical components of the leadership process; practical application of various leadership methods and procedures in a cross section of leisure service settings. Lectures, discussion and experiential learning.

Credit Hours: 3 hrs

RECR 271 - Park Maintenance

This course will present material on the role of park maintenance in parks and open space areas; knowledge of the properties of soil for development of parks and open spaces; the fundamentals of turf management and management of woody plants, as well as the maintenance of structures and trails for parks and open spaces scheduling, and safety and practice equipment.

Credit Hours: 3 hrs

RECR 277 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr

RECR 278 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs

RECR 279 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs

RECR 280L - Camping (Gen Ed Area V LBC)

History of organized camping; camping on federal and state recreation areas; information sources for camping; planning and preparation (equipment, clothing, meals, camp schedules and camp programs). Skills areas for camping: map and compass; ropes and knot-tying; campfire construction; camp tool use and maintenance; and tents. Safety reviewed for meal preparation, use of tools, and toxic plants and animals. Lecture, demonstrations and student participation in a weekend camping trip.
**Credit Hours:** 2 hrs  
*Last Updated:* Links 03/2011

**RECR 282L - Backpacking (Gen Ed Area V LBC)**

The history, knowledge, and skills required to participate in backpacking are introduced. Trip planning and preparation are presented. Trip topics include trip planning, meal planning and preparation, equipment, clothing, footwear, safety, and first aid. Site topics include: low impact, trail construction, backcountry travel, leadership, safety, backcountry etiquette, wildlife encounters, evacuation methods/procedures, and agency provider identification.

**Credit Hours:** 3 hrs  
*Last Updated:* Links 03/2011

**RECR 290 - Practical Research in Recreation**

Students learn and apply research methodology, design, sampling and measurement to solve problems related to the provision of social services. Students design data collection instruments, collect and code data. Data is analyzed using appropriate statistical techniques. Results are interpreted and a research report is submitted.

**Credit Hours:** 3 hrs  
**Prerequisite:** MATH 105  
*Last Updated:* Links 04/2011

**RECR 360 - Recreation Program Planning**

This is an introductory course in planning and implementing recreation programs for diverse social and ethnic groups. In cooperation with a community service agency students plan, advertise, market, promote, implement, assess and evaluate the actual delivery of recreation program.

**Credit Hours:** 3 hrs

**RECR 361 - Special Events in Recreation**

This upper-level course is designed to inform the student of current trends in special events and management. The course will combine lecture materials with small group techniques to develop and present a special-event idea to a panel of professional recreationists.

**Credit Hours:** 3 hrs  
**Prerequisite:** RECR 100L and RECR 260  
*Last Updated:* Links 04/2011

**RECR 370 - Leisure Facility Design and Management**

This course is of interest to all students involved in managing a public facility. The course will cover information needed to plan, develop and coordinate a public facility.

**Credit Hours:** 3 hrs
RECR 377 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr

RECR 378 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs

RECR 379 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs

RECR 390 - Outdoor Recreation

History of outdoor recreation and outdoor recreation management. A systems view of outdoor recreation resources; federal, state, and local agencies that provide outdoor recreation opportunities; their history and management philosophies and problems. Tools utilized by managers of outdoor recreation resources to provide opportunities for recreation. Lecture, speakers, projects.

Credit Hours: 3 hrs

RECR 450 - Park Planning and Design

This course focuses on history and purpose of park planning. Discussions will include the planning process, systems and site-level planning, use of recreation standards, and use of consultants. Reviewed are principles of site design and site plans. The lab will deal with maps and aerial photos, computer drawing.

Credit Hours: 3 hrs

RECR 460 - Park and Recreation Administration

This course introduces students to organizational management approach and structures. Students learn how to design management objectives. Fundraising and fund development methods are presented. Volunteer program design is discussed. The course emphasizes marketing of leisure and social services and pricing of products and services. Administrative responsibility and ethics are covered.

Credit Hours: 3 hrs

RECR 465 - Park and Recreation Management

This course will present the philosophical stance of managers in directing nonprofit leisure service agencies; the problem solving process; policy development; and strategic planning for nonprofit leisure service agencies. Students will learn how to involve the
public in management decision making.

**Credit Hours:** 3 hrs

**RECR 471 - Contemporary Issues in Recreation**

This course is to familiarize the recreation and park management student with vital issues that practicing professionals are facing on a daily basis. The class will utilize a seminar format with each session focusing on a single issue. A wide range of leading authorities in the field will present from their perspective followed by an in-depth discussion session on how this topic affects the future professional.

**Credit Hours:** 3 hrs  
**Prerequisite:** RECR 100L  
**Class Restrictions:** Junior or Senior standing  
**Last Updated:** Links 04/2011

**RECR 477 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 1 hr

**RECR 478 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 2 hrs

**RECR 479 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 3 hrs

**RECR 489 - Recreation Practicum**

A full-time, 15-week, 600-hour experience in a leisure services setting under a qualified recreation/leisure specialist and University supervisor.

**Credit Hours:** 8 hrs  
**Prerequisite:** Completion of 90 percent of all academic courses including RECR 100L, THRC 200, THRC 250, RECR 260, RECR 360, RECR 460 and RECR 465; completion of 250 hours of fieldwork; overall grade point average of 2.5 and GPA of 2.75 in recreation and park management required and elective courses  
**Last Updated:** Links 04/2011

**RECR 497 - Directed Study**
An opportunity for directed study in areas not covered in other course offerings, or greater depth of study in areas of continued interest for the student. Students will be assigned to select faculty members for direction, consultation and evaluation of the completed study or project. Open only to department majors and minors who have attained junior standing, with a GPA of 3.0 or above and who have completed the appropriate background courses.

**Credit Hours:** 1 hr  
**Prerequisite:** Department permission  
**Last Updated:** Links 04/2011

**RECR 498 - Directed Study**

An opportunity for directed study in areas not covered in other course offerings, or greater depth of study in areas of continued interest for the student. Students will be assigned to select faculty members for direction, consultation and evaluation of the completed study or project. Open only to department majors and minors who have attained junior standing, with a GPA of 3.0 or above and who have completed the appropriate background courses.

**Credit Hours:** 2 hrs  
**Prerequisite:** Department permission  
**Last Updated:** Links 04/2011

**RECR 499 - Directed Study**

An opportunity for directed study in areas not covered in other course offerings, or greater depth of study in areas of continued interest for the student. Students will be assigned to select faculty members for direction, consultation and evaluation of the completed study or project. Open only to department majors and minors who have attained junior standing, with a GPA of 3.0 or above and who have completed the appropriate background courses.

**Credit Hours:** 3 hrs  
**Prerequisite:** Department permission  
**Last Updated:** Links 04/2011

**Sport Management**

**SMGT 201 - Foundations of Sport Management**

This course discusses the meaning of sport management in terms of its scope, principles, issues and future trends. In addition, this course examines the job responsibilities and competencies required of sport managers in a variety of sports or sports-related organizations in a hope to have the student become acquainted with the role of sport administrators and managers. Finally, this course provides the student with an overview of the different facets and career opportunities that are available in the field of sport management.

**Credit Hours:** 3 hrs

**SMGT 255 - Social Psychology of Sport**

A required course for sport management majors which examines the psychological factors that influence sport performance. The student will learn the theories and practical applications of the factors that influence athletes and coaches, such as coaching leadership, efficacy beliefs within sport group contexts, morality in sport, the coach-athlete relationship, and team cohesion.

**Credit Hours:** 3 hrs
SMGT 325 - Sport Facilities

A required course for sport management majors which examines the planning and management of sport facilities. The course will focus on elements of planning, design and management, while examining functions related to maintenance, security, operations and evaluation.

**Credit Hours:** 3 hrs  
**Prerequisite:** SMGT 201; SMGT 255  
**Class Restrictions:** Junior and Senior standing only  
**Last Updated:** Links 03/2011

SMGT 375 - Sport and Event Planning

This course offers an introduction to the planning, marketing, management and evaluation of sporting events. The course content will explore the theories and practices relevant to successful event planning for high school athletics, collegiate athletics, and other sporting events.

**Credit Hours:** 3 hrs  
**Prerequisite:** SMGT 201; SMGT 255  
**Last Updated:** Links 03/2011

SMGT 385W - Introduction to Research in Sport Management (Gen Ed Area I, W)

A course to teach students the research skills that can be applied to their professional careers. The student will be able to effectively locate research articles related to sport management, and understand how to apply the research to their professional careers.

**Credit Hours:** 3 hrs  
**Prerequisite:** SMGT 201; SMGT 255  
**Class Restrictions:** Junior or Senior standing  
**Last Updated:** Links 04/2011

SMGT 405 - Applied Sport Psychology for Sport Management Professionals

Course covers theory analysis and understanding of applied-sport psychology for individuals in sport management. Students explore ways to use mental-skills training and educate coaches regarding applied-sport psychology. Strategies for working with consultants to enhance athlete performance are addressed.

**Credit Hours:** 3 hrs  
**Prerequisite:** PSY 101 or SMGT 255 or instructor permission  
**Class Restrictions:** Junior standing  
**Last Updated:** Links 03/2011

SMGT 425 - Diversity in Sport Organizations

A required course for sport management majors which examines diversity management strategies used by sport organizations. Students will learn how to design an effective diversity training program.
SMGT 445 - Sport Economics and Finance

Basic theory in economics and finance applied to managerial control of sport organizations.

SMGT 460 - Sports Ethics

The purpose of this course is to provide students an opportunity to reflect on and discuss ethical concerns in physical education and athletics. Topics will include ergogenic aids, competition vs. cooperation, commercialization, and youth sport.

SMGT 477 - Special Topics

Offered on an experimental basis for one semester for purposes of meeting special needs and/or innovations.

SMGT 478 - Special Topics

Offered on an experimental basis for one semester for purposes of meeting special needs and or innovations.

SMGT 479 - Special Topics

Offered on an experimental basis for one semester for purposes of meeting special needs and/or innovations.
SMGT 493 - Fieldwork in Sport Management I

This course provides students with real world experience in the area of sport management. Students will take this course before SMGT 494 and SMGT 495 for a total of 9 credits in three different sport management locations.

Credit Hours: 3 hrs  
Prerequisite: SMGT 201 and department permission  
Class Restrictions: Sophomore standing or above  
Last Updated: Links 03/2011

SMGT 494 - Fieldwork in Sport Management

This course provides students with real world experience in the area of sport management. Students will take this course three times for a total of 9 credits in three different sport management locations.

Credit Hours: 3 hrs  
Prerequisite: SMGT 201 and department permission  
Class Restrictions: Sophomore standing or above  
Last Updated: Links 03/2011

SMGT 495 - Fieldwork in Sport Management

This course provides students with real world experience in the area of sport management. Students will take this course three times for a total of 9 credits in three different sport management locations.

Credit Hours: 3 hrs  
Prerequisite: SMGT 201 and department permission  
Class Restrictions: Sophomore standing or above  
Last Updated: Links 03/2011

SMGT 511 - NCAA Compliance

This course introduces students to basic compliance principles and the NCAA rules that affect the management of a college athletic department. This course offers an understanding of the structure and function of a Division I compliance operation. The governing principles of institutional control and ethical conduct will be explored from a compliance perspective.

Credit Hours: 3 hrs  
Notes: This is a graduate course in an undergraduate program.
School of Health Sciences Programs and Courses

School of Health Sciences

Major

Clinical Laboratory Sciences Major - Cytogenetics Concentration

The clinical laboratory sciences program offers a clinical certification track that includes a submajor in cytogenetics. The track is designed to prepare graduates for employment in hospitals, physician’s offices, private laboratories, public health agencies, pharmaceutical companies and academic or industrial research.

Advising is available by faculty through the clinical laboratory sciences program. To assess progress, students should meet with their adviser each semester in which they are enrolled in classes. The MLS program is accredited by:

National Accrediting Agency for Clinical Laboratory Sciences
5600 North River Road
Suite 720
Rosemont, IL 60018

Certification as a Medical Laboratory Scientist

Once the student has completed the requirements for a B.S. through our NAACLS accredited Medical Laboratory Science Program he or she is eligible to sit for the Board of Certification exam sponsored by the American Society of Clinical Pathologist.

Clinical Certification Track

This curriculum is a four-year program at Eastern Michigan University:

The medical laboratory science option consists of seven semesters of course work in general education, basic sciences and clinical sciences and includes 22 weeks of rotation through an accredited clinical laboratory. These rotations for the clinical track include:

University of Michigan, Ann Arbor
Mercy Memorial Hospital, Monroe
Garden City Hospital, Garden City
VA Hospital, Ann Arbor
St. John Providence, Southfield
Promedica Health System, Toledo OH
Because enrollment in the fourth year is limited by the size of classes in the affiliated hospitals, admission to the program does not ensure admission to the clinical rotations of the curriculum. Admission into the clinical rotations is competitive. The cytogenetics and histotechnology options consist of six semesters of course work and 12 months of clinical rotations through an accredited clinical laboratory.

The major in clinical laboratory sciences follows an interdisciplinary format composed of courses in clinical laboratory sciences, biology, chemistry and mathematics.

All students must complete the courses in each of the four areas of general education. At least 30 hours of the academic program must be completed at Eastern Michigan University. Students should be aware of the 60- and 75-hour rule regarding transfer of community college credit.

Admission and continuation in the clinical laboratory sciences program is based upon the following:

a. A minimum EMU cumulative GPA of 2.0. A cumulative GPA of less than 2.8 mandates warning students of their ineligibility for acceptance into the clinical track.

b. No grade below C in any mathematics or science course.

c. A grade of D (including D- and E) in one course in the clinical laboratory sciences major may, upon recommendation by the Program Review Committee, result in dismissal from the CLS program.

d. Freedom from any kind of probation (administrative, academic, academic dishonesty or other university sanctioned probations) must be maintained. While on academic probation, no student may register for, remain in, or receive credit for science courses or practicum courses within the clinical laboratory sciences program.

e. TOEFL scores of 570 or above (230 on the computer-based exam or 88 on the internet-based exam).

f. Students may retake any science, math or CLSC course only one time in order to improve a grade.

g. Transfer credits from any institution must be at least a B or above.

Successful completion of the clinical track and the bachelor of science degree qualifies students to take the national board examination in medical laboratory science.

Clinical Track Requirements
Students must be accepted to Eastern Michigan University before they can be considered by the Clinical Laboratory Science Program Screening Committee. However, admission to EMU does not guarantee admission into the clinical track program.

Students entering the program will be classified initially as clinical laboratory sciences “intents.” Application for full admission to the clinical track program should be made during the winter semester of the junior year.

Application packets can be obtained from the program director. Completed applications must be in the office by March 15 in order to be considered for acceptance for the winter semester.

Selection criteria include overall EMU GPA, letters of recommendation, overall science GPA, interview evaluations, freedom from any academic dishonesty and completed application form.

Admission to the clinical laboratory sciences curriculum/clinical track is competitive and is based on the following:

1. A minimum GPA of 2.8 with no grade below C in any science, mathematics or preprofessional course. The prerequisite courses may be taken at EMU, or other four-year college/university or at a community college.

2. A minimum science GPA of 2.8.

3. Completion of at least 60 hours of University credit, including 45 credit hours of prerequisite mathematics and science courses, as indicated on the application form.

4. Three letters of recommendation. It is suggested that references should include a science instructor and an employer.

5. Documentation that an applicant will have completed all prerequisite clinical laboratory sciences courses prior to beginning clinical rotations in the spring of the senior year.

The first three years of clinical laboratory sciences are similar for both the professional and clinical tracks. It is likely that acceptance into the clinical track will be highly competitive. Clinical laboratory sciences majors who are not accepted into the clinical track program, yet desire to sit for the registry examination in medical laboratory science, have the following options:

1. Completion of the bachelor of science degree in clinical laboratory sciences (professional track) at Eastern Michigan University and filing a reapplication to the clinical track program.

2. Completion of all required course work for the bachelor of science degree in clinical laboratory sciences and application to an approved hospital-based school of medical technology. The faculty advisers will assist students in the application process. Students are selected for internship placement through a statewide computer matching process. The selection process is completed in September each year, with internships usually beginning during the month of July.
A bachelor of science in clinical laboratory sciences will qualify the student to apply to hospitals within Michigan and throughout the United States.

Hospital-based schools of medical technology (internship programs) associated with the computer match process are:

Detroit Medical Center, Detroit
St. John Hospital, Detroit
Hurley Hospital, Flint
William Beaumont Hospital, Royal Oak

**Cytogenetics Track:**

Program Director: Jim Zabawski (Henry Ford Hospital)
Cytogenetic technologists work independently under general supervision and can interpret and implement established procedures to prepare biological specimens for cytogenetics analysis, perform the analysis and construct and interpret karyotypes.

Students may be accepted into the cytogenetics specialization after completing the required science, mathematics and clinical laboratory science courses. University general education requirements must also be met. The senior year consists of a 12-month internship at Henry Ford Hospital in the Cytogenetics department. The program consists of an integrated presentation of didactic material and intensive laboratory study in the area of cytogenetics that includes specimen preparation, cell culture, chromosome analysis, microscopy and photography.

**School of Health Sciences Information:**

Interim School Director: Colleen Croxall
School Contact: ccroxall@emich.edu

**General Education Requirements:**

For specific requirements refer to the General Education Program. Download the Gen Ed Checklist here.

**Clinical Laboratory Sciences Major Requirements: 52 hours**

- AHPR 200 - Medical Terminology 1 hr
- BIO 110 - Introductory Biology I (Gen Ed Area IV) 5 hrs
- BIO 301 - Genetics 3 hrs
- BIO 305 - Cell and Molecular Biology 3 hrs
- CHEM 121 - General Chemistry I (Gen Ed Area IV) 3 hrs
- CHEM 122 - General Chemistry I Laboratory (Gen Ed Area IV) 1 hr
- CHEM 123 - General Chemistry II 3 hrs
- CHEM 124 - General Chemistry II Laboratory 1 hr
- CHEM 270 - Survey of Organic Chemistry 4 hrs
- CHEM 271 - Organic Chemistry Laboratory 1 hr
- CHEM 351 - Foundations of Biochemistry 4 hrs
- CLSC 200 - Clinical Laboratory Techniques 3 hrs
- CLSC 300 - Molecular Diagnostics 3 hrs
- CLSC 332 - Clinical Microbiology I 3 hrs
- CLSC 335 - Clinical Immunology 3 hrs
- CLSC 336 - Clinical Immunology Laboratory 1 hr
- CLSC 401W - Laboratory Management/Education (Gen Ed Area I, W) 3 hrs
- CLSC 407 - Hematology 3 hrs
- CLSC 408 - Clinical Hematology Laboratory 1 hr

One from the following:

- MATH 170 - Elementary Statistics (Gen Ed Area II) 3 hrs
- SOCL 250 - Quantitative Applications in Sociology (Gen Ed Area II) 3 hrs

**Cytogenetics Concentration Requirements: 29 hours**

- BIO 120 - Introductory Biology II 5 hrs
- BIO 476 - Mammalian Histology 3 hrs

- * CLSC 410A - Cytogenetics Clinical Internship 7 hrs  
  **OR**
- * CLSC 410B - Cytogenetics Clinical Internship 7 hrs
- * CLSC 411 - Cytogenetics, Clinical Internship II 14 hrs

**Minor Requirements:**

This program does not require a minor.

**Program Total:**

Students must earn a minimum total of 124 credits at the 100-level or above.

**Notes:**

* These three courses are an off-campus, full-time clinical internship.
Critical Graduation Information:

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the 100-level and above. Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Earn a minimum of 60 credits from a four-year college or university; courses taken at community colleges cannot be used to meet this requirement. (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 unique credit hours in their major and 20 unique credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
- Not more than 60 credit hours in one subject area (prefix) may be applied towards the minimum of 124 credit hours required for a bachelor's degree.
- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more that one major or minor.
  - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
  - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
  - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor.
- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is coordinated by the Office of Admissions, and additional documentation may be required.
- Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be earned in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

General Education Requirements:
EMU’s General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available on the General Education section of the catalog: General Education

- For Students who began their undergraduate program at EMU in Fall 2007 or later or who have elected to follow the current ("new") General Education Program, follow the "For Students" link under the Current Program heading.
- For Students who began their undergraduate program at EMU before Fall 2007 and who have elected to follow the Pre-2007 General Education Requirements, follow the "General Education Program Prior to Fall 2007 (pdf file)" link under the Program Prior to Fall 2007 heading. Please note that students who wish to graduate under pre-2007 General Education requirements must graduate by August 2014; those who have not completed all degree requirements by that time will need to satisfy the current (Fall 2007) General Education requirements.

Students who transferred to EMU may have modified general education requirements based on MACRAO or articulation agreements; consult your academic adviser for additional information.

University Information: Consult the online catalog at catalog.emich.edu.

Clinical Laboratory Sciences Major - Histotechnology Concentration

The clinical laboratory sciences program offers a clinical certification track that includes a submajor in histotechnology. The tracks are designed to prepare graduates for employment in hospitals, physician’s offices, private laboratories, public health agencies, pharmaceutical companies and academic or industrial research.

Advising is available by faculty through the clinical laboratory sciences program. To assess progress, students should meet with their adviser each semester in which they are enrolled in classes. The MLS program is accredited by:

National Accrediting Agency for Clinical Laboratory Sciences
5600 North River Road

Hospital-based schools of medical technology (internship programs) associated with the computer match process are:

- Detroit Medical Center, Detroit
- St. John Hospital, Detroit
- Hurley Hospital, Flint
- William Beaumont Hospital, Royal Oak

**Histotechnology Track:**

Program Director: Peggy Wenk (William Beaumont Hospital)

Histotechnologists perform a variety of diagnostic and research procedures in the anatomic sciences. Basic histologic techniques involve the processing and staining of tissue specimens that have been removed from humans or animals by biopsy or autopsy. Advanced techniques involve the use of the electron microscope, immunofluorescence microscopy, autoradiography, cytogenetics and medical photography.

Students may be accepted into the histotechnology specialization after completing the required science, mathematics and clinical laboratory science courses. University general education requirements must also be met. The senior year consists of a 12-month internship at William Beaumont Hospital School of Histotechnology.

**School of Health Sciences Information:**

- CHEM 122 - General Chemistry I Laboratory (Gen Ed Area IV) 1 hr
- CHEM 123 - General Chemistry II 3 hrs
- CHEM 124 - General Chemistry II Laboratory 1 hr
- CHEM 270 - Survey of Organic Chemistry 4 hrs
- CHEM 271 - Organic Chemistry Laboratory 1 hr
- CHEM 351 - Foundations of Biochemistry 4 hrs
- CLSC 200 - Clinical Laboratory Techniques 3 hrs
- CLSC 300 - Molecular Diagnostics 3 hrs
- CLSC 332 - Clinical Microbiology I 3 hrs
- CLSC 335 - Clinical Immunology 3 hrs
- CLSC 336 - Clinical Immunology Laboratory 1 hr
- CLSC 401W - Laboratory Management/Education (Gen Ed Area I, W) 3 hrs
- CLSC 407 - Hematology 3 hrs
- CLSC 408 - Clinical Hematology Laboratory 1 hr

One from the following:

- MATH 170 - Elementary Statistics (Gen Ed Area II) 3 hrs
- SOCL 250 - Quantitative Applications in Sociology (Gen Ed Area II) 3 hrs

Histotechnology Concentration Requirements: 41 hours

- BIO 251 - Human Anatomy and Physiology I 4 hrs
- BIO 252 - Human Anatomy and Physiology II 4 hrs
- BIO 476 - Mammalian Histology 3 hrs
- CLSC 307 - Urinalysis, Body Fluids and Hemostasis 3 hrs
- * CLSC 416 - Basic Histotechnique and Histochemical Staining Methods 12 hrs
- * CLSC 417 - Basic Electron Microscopy 8 hrs
- * CLSC 418 - Immunohisto-Cytochemistry 4 hrs
- PHIL 223 - Medical Ethics (Gen Ed Area IV) 3 hrs

Minor Requirements:
This program does not require a minor.

Program Total:

Students must earn a minimum total of 124 credits at the 100-level or above.

Notes:

* These three courses are an off-campus, full-time clinical internship.

Critical Graduation Information:

The following are minimum requirements for all bachelor’s degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the 100-level and above. Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Earn a minimum of 60 credits from a four-year college or university; courses taken at community colleges cannot be used to meet this requirement. (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 unique credit hours in their major and 20 unique credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
- Not more than 60 credit hours in one subject area (prefix) may be applied towards the minimum of 124 credit hours required for a bachelor's degree.
- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more than one major or minor.
  - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
  - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
  - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor.
- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is coordinated by the Office of Admissions, and additional documentation may be required.

- Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be earned in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

**General Education Requirements:**

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available on the General Education section of the catalog: General Education

- For Students who began their undergraduate program at EMU in Fall 2007 or later or who have elected to follow the current ("new") General Education Program, follow the "For Students" link under the Current Program heading.

- For Students who began their undergraduate program at EMU before Fall 2007 and who have elected to follow the Pre-2007 General Education Requirements, follow the "General Education Program Prior to Fall 2007 (pdf file)" link under the Program Prior to Fall 2007 heading. Please note that students who wish to graduate under pre-2007 General Education requirements must graduate by August 2014; those who have not completed all degree requirements by that time will need to satisfy the current (Fall 2007) General Education requirements.

Students who transferred to EMU may have modified general education requirements based on MACRAO or articulation agreements; consult your academic adviser for additional information.

**University Information:** Consult the online catalog at catalog.emich.edu.

**Clinical Laboratory Sciences Major - Medical Laboratory Science Concentration**

The clinical laboratory sciences program offers a clinical certification track that includes a submajor in medical laboratory science. The track is designed to prepare graduates for employment in hospitals, physician’s offices, private laboratories, public health agencies, pharmaceutical companies and academic or industrial research. The professional track is the preferred course of study for students considering graduate school or advanced studies in the clinical sciences. The professional track also can be used as preparation for careers in medicine, dentistry, and veterinary science.
Advising is available by faculty through the clinical laboratory sciences program. To assess progress, students should meet with their adviser each semester in which they are enrolled in classes. The MLS program is accredited by:

**National Accrediting Agency for Clinical Laboratory Sciences**

5600 North River Road  
Suite 720  
Rosemont, IL 60018

**Certification as a Medical Laboratory Scientist**

Once the student has completed the requirements for a B.S. through our NAACLS accredited Medical Laboratory Science Program he or she is eligible to sit for the Board of Certification exam sponsored by the American Society of Clinical Pathologist.

**Clinical Certification Track**

This curriculum is a four-year program at Eastern Michigan University:

The medical laboratory science option consists of seven semesters of course work in general education, basic sciences and clinical sciences and includes 22 weeks of rotation through an accredited clinical laboratory. These rotations for the clinical track include:

- University of Michigan, Ann Arbor
- Mercy Memorial Hospital, Monroe
- Garden City Hospital, Garden City
- VA Hospital, Ann Arbor
- St. John Providence, Southfield
- Promedica Health System, Toledo OH
- Alverno Clinical Labs, Hammond IN
- Henry Ford Hospital, Detroit for Cytogenetics
- William Beaumont Hospital, Royal Oak Histotechnology

Because enrollment in the fourth year is limited by the size of classes in the affiliated hospitals, admission to the program does not ensure admission to the clinical rotations of the curriculum. Admission into the clinical rotations is competitive. The Medical Laboratory Science program is accredited by the National Accrediting Agency for Clinical Laboratory Sciences.

The major in clinical laboratory sciences follows an interdisciplinary format composed of courses in clinical laboratory sciences, biology, chemistry and mathematics.

All students must complete the courses in each of the four areas of general education. At least 30 hours of the academic program must be completed at Eastern Michigan University. Students should be aware of the 60- and 75-hour rule regarding transfer of community college credit.
Admission and continuation in the clinical laboratory sciences program is based upon the following:

a. A minimum EMU cumulative GPA of 2.0. A cumulative GPA of less than 2.8 mandates warning students of their ineligibility for acceptance into the clinical track.

b. No grade below C in any mathematics or science course.

c. A grade of D (including D- and E) in one course in the clinical laboratory sciences major may, upon recommendation by the Program Review Committee, result in dismissal from the CLS program.

d. Freedom from any kind of probation (administrative, academic, academic dishonesty or other university sanctioned probations) must be maintained. While on academic probation, no student may register for, remain in, or receive credit for science courses or practicum courses within the clinical laboratory sciences program.

e. TOEFL scores of 570 or above (230 on the computer-based exam or 88 on the internet-based exam).

f. Students may retake any science, math or CLSC course only one time in order to improve a grade.

g. Transfer credits from any institution must be at least a B or above.

Successful completion of the clinical track and the bachelor of science degree qualifies students to take the national board examination in medical laboratory science.

Clinical Track Requirements

Students must be accepted to Eastern Michigan University before they can be considered by the Clinical Laboratory Science Program Screening Committee. However, admission to EMU does not guarantee admission into the clinical track program.

Students entering the program will be classified initially as clinical laboratory sciences “intents.” Application for full admission to the clinical track program should be made during the winter semester of the junior year.

Application packets can be obtained from the program director. Completed applications must be in the office by March 15 in order to be considered for acceptance for the winter semester.

Selection criteria include overall EMU GPA, letters of recommendation, overall science GPA, interview evaluations, freedom from any academic dishonesty and completed application form.

Admission to the clinical laboratory sciences curriculum/clinical track is competitive and is based on the following:
1. A minimum GPA of 2.8 with no grade below C in any science, mathematics or preprofessional course. The prerequisite courses may be taken at EMU, or other four-year college/university or at a community college.

2. A minimum science GPA of 2.8.

3. Completion of at least 60 hours of University credit, including 45 credit hours of prerequisite mathematics and science courses, as indicated on the application form.

4. Three letters of recommendation. It is suggested that references should include a science instructor and an employer.

5. Documentation that an applicant will have completed all prerequisite clinical laboratory sciences courses prior to beginning clinical rotations in the spring of the senior year.

The first three years of clinical laboratory sciences are similar for both the professional and clinical tracks. It is likely that acceptance into the clinical track will be highly competitive. Clinical laboratory sciences majors who are not accepted into the clinical track program, yet desire to sit for the registry examination in medical laboratory science, have the following options:

1. Completion of the bachelor of science degree in clinical laboratory sciences (professional track) at Eastern Michigan University and filing a reapplication to the clinical track program.

2. Completion of all required course work for the bachelor of science degree in clinical laboratory sciences and application to an approved hospital-based school of medical technology. The faculty advisers will assist students in the application process. Students are selected for internship placement through a statewide computer matching process. The selection process is completed in September each year, with internships usually beginning during the month of July. A bachelor of science in clinical laboratory sciences will qualify the student to apply to hospitals within Michigan and throughout the United States.

Hospital-based schools of medical technology (internship programs) associated with the computer match process are:

Detroit Medical Center, Detroit
St. John Hospital, Detroit
Hurley Hospital, Flint
William Beaumont Hospital, Royal Oak

- * CLSC 456 - Clinical Microbiology Practicum 4 hrs
- CLSC 459 - Clinical Microbiology Practicum II 3 hrs

Minor Requirements:

This program does not require a minor.

Program Total:

Students must earn a minimum total of 124 credits at the 100-level or above.

Notes:

* These four courses are an off-campus, full-time clinical internship.

Critical Graduation Information:

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the **100-level and above. Courses with numbers below 100 will not be counted toward this degree requirement.** At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Earn a minimum of 60 credits from a four-year college or university; **courses taken at community colleges cannot be used to meet this requirement.** (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 unique credit hours in their major and 20 unique credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
- Not more than 60 credit hours in one subject area (prefix) may be applied towards the minimum of 124 credit hours required for a bachelor's degree.
- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more that one major or minor.
  - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
  - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
  - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor
- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is coordinated by the Office of Admissions, and additional documentation may be required.
- Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be earned in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

**General Education Requirements:**

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available on the General Education section of the catalog: General Education

- For Students who began their undergraduate program at EMU in Fall 2007 or later or who have elected to follow the current ("new") General Education Program, follow the "For Students" link under the Current Program heading.
- For Students who began their undergraduate program at EMU before Fall 2007 and who have elected to follow the Pre-2007 General Education Requirements, follow the "General Education Program Prior to Fall 2007 (pdf file)" link under the Program Prior to Fall 2007 heading. **Please note that students who wish to graduate under pre-2007 General Education requirements must graduate by August 2014; those who have not completed all degree requirements by that time will need to satisfy the current (Fall 2007) General Education requirements.**
Students who transferred to EMU may have modified general education requirements based on MACRAO or articulation agreements; consult your academic adviser for additional information.

**University Information:** Consult the online catalog at catalog.emich.edu.

**Clinical Laboratory Sciences Major - Medical Laboratory Science Pre-Professional Concentration**

The clinical laboratory sciences program offers a professional track. The professional track is the preferred course of study for students considering graduate school or advanced studies in the clinical sciences. The professional track also can be used as preparation for careers in medicine, dentistry, and veterinary science.

Advising is available by faculty through the clinical laboratory sciences program. To assess progress, students should meet with their adviser each semester in which they are enrolled in classes. The MLS program is accredited by:

**National Accrediting Agency for Clinical Laboratory Sciences**
5600 North River Road
Suite 720
Rosemont, IL 60018

**Certification as a Medical Laboratory Scientist**

Once the student has completed the requirements for a B.S. through our NAACLS accredited Medical Laboratory Science Program he or she is eligible to sit for the Board of Certification exam sponsored by the American Society of Clinical Pathologist.

**Professional Track**

This curriculum is a four-year program at Eastern Michigan University:

**Preprofessional track:** This option consists of eight semesters of course work in general education and in basic, advanced and clinical sciences. Graduates will be prepared for careers in medicine, dentistry, veterinary medicine and other health care industries, and as physician’s assistants. Additionally, graduates will be eligible for entry into a master’s or doctoral level program in the basic or clinical sciences. Students also would be eligible for one-year hospital rotations and subsequent certification as registered medical technologists.

The major in clinical laboratory sciences follows an interdisciplinary format composed of courses in clinical laboratory sciences, biology, chemistry and mathematics.
All students must complete the courses in each of the four areas of general education. At least 30 hours of the academic program must be completed at Eastern Michigan University. Students should be aware of the 60- and 75-hour rule regarding transfer of community college credit.

Admission and continuation in the clinical laboratory sciences program is based upon the following:

- **a.** A minimum EMU cumulative GPA of 2.0. A cumulative GPA of less than 2.8 mandates warning students of their ineligibility for acceptance into the clinical track.
- **b.** No grade below C in any mathematics or science course.
- **c.** A grade of D (including D- and E) in one courses in the clinical laboratory sciences major may, upon recommendation by the Program Review Committee, result in dismissal from the CLS program.
- **d.** Freedom from any kind of probation (administrative, academic, academic dishonesty or other university sanctioned probations) must be maintained. While on academic probation, no student may register for, remain in, or receive credit for science courses or practicum courses within the clinical laboratory sciences program.
- **e.** TOEFL scores of 570 or above (230 on the computer-based exam or 88 on the internet-based exam).
- **f.** Students may retake any science, math or CLSC course only one time in order to improve a grade.
- **g.** Transfer credits from any institution must be at least a B or above.

Successful completion of the clinical track and the bachelor of science degree qualifies students to take the national board examination in medical laboratory science.

**Professional Track Requirements**

The professional track is designed for students with an interest in the clinical sciences, whose career goals may not include working as a registered medical technologist in a hospital laboratory setting.

Students electing the professional track of the clinical laboratory sciences program complete eight semesters of academic course work.

Work opportunities are diverse and include employment in pharmaceutical companies, analytical laboratories and research laboratories. The clinical practicum is not required for the professional track.

Formal application into the professional track is not required. Students must maintain an overall GPA of 2.0 in the major and satisfy University requirements for graduation. Registration for cooperative courses requires a 2.5 overall GPA and 2.5 in the sciences.

These curricula lead to a bachelor of science in the clinical laboratory sciences program.

Students who transferred to EMU may have modified general education requirements based on MACRAO or articulation agreements; consult your academic adviser for additional information.

**University Information:** Consult the online catalog at catalog.emich.edu.

**Combined Bachelor-Master's Degree in Occupational Therapy (OT-BMOT)**

Established in 1941, Eastern Michigan University’s Occupational Therapy Program has a long-standing tradition of excellence. The EMU OT Program provides competent and caring professionals to the local community as well as throughout the State of Michigan and across the nation.

The Bureau of Labor Statistics Occupational Outlook Handbook predicts a greater than average employment need for occupational therapists through at least 2014. This is based on the general population growth and the increasing demand for services for those aged 75 years and older who are requiring occupational therapy services to improve their quality of life. In addition, emerging practice areas for occupational therapists, for example, in such areas as driver rehabilitation and fall prevention, continue to develop. Occupational therapists are employed in diverse settings including but not limited to: hospitals, schools, rehabilitation facilities, long-term care facilities, home health care, and in areas of prevention and wellness.

**Program of Study**

Occupational therapy advising for occupational therapy-intent students is performed by the OT intent adviser or the College of Health and Human Services Advising Center. All students should attend a group advising session with the OT Intent Adviser to discuss admission and portfolio requirements. Upon acceptance into the occupational therapy program, students are assigned to a faculty advising team. All students admitted to the program must meet with their advising team before registering each semester.

**Certification in Occupational Therapy**

The National Board for Certification in Occupational Therapy, Inc. (NBCOT) administers the national certification exam for occupational therapists in the United States. All students in occupational therapy programs must successfully complete the academic requirements and fieldwork experiences in their programs in order to be eligible to sit for the national certification examination. After successful completion of this exam, the individual will be an occupational therapist, registered (OTR) and can apply for licensure or registration in the state where they choose to practice. All students must take the NBCOT Certification exam in order to practice in the profession of occupational therapy. Character background information is reviewed by NBCOT to determine a person’s ability to sit for the examination. If you have any potential impediments, such as a felony charge or conviction, an encumbrance of professional license or negligence, malpractice or willful intentional misconduct, we strongly recommend that you contact NBCOT to determine your eligibility to sit for the national exam.

**Contact information:**
The Eugene Casey Building
Combined Bachelor's-Master's Degree in Occupational Therapy

A competitive application process is utilized to select students. Please be aware that admission to Eastern Michigan University as well as successful completion of undergraduate courses does not guarantee entry into the program. A minimum GPA of 2.75 is required to be considered for admission.

There are two different tracks, or means, of entering the Masters of Occupational Therapy program, the 3+2 track and the MOT track. The 3+2 track is designed for undergraduate students who do not yet have a Bachelors degree. It combines three years of undergraduate general education classes with two years of graduate course work in occupational therapy. This track culminates in a bachelor of science degree and a Master of Occupational Therapy (MOT) degree. Undergraduates accepted into the program must have successfully completed 90 undergraduate credits by August 1 in order to begin the program in the Fall of the year in which they applied.

Required Prerequisite Courses
In order to be considered for admission to the occupational therapy program, a student must complete the following prerequisite courses with a grade of B- or better. If you have previously taken these courses at another university please note that all prerequisite substitutions must be pre-approved before the submission of your portfolio. Submission of your portfolio without prior approval will result in your application being denied.

**Anatomy and Physiology**
- BIO 251 - Human Anatomy and Physiology I
- BIO 252 - Human Anatomy and Physiology II

**Neuroanatomy**
- BIO 330 - Neuroanatomy
Medical Terminology
AHPR 200 - Medical Terminology

Statistics
All of the following EMU courses meet this requirement: SOCL 250, EDPS 621, EDPS 651, MATH 170, MATH 360, MATH 370, MATH 571, MATH 573, MATH 574, or PSY 205

Human Growth and Development
IHHS 260 - Aging to Infancy: A Life Course Retrospective or EDPS 325 - Life Span Human Growth and Development

NOTE: BIO 251, AHPR 200, the statistics course, and IHHS 260/EDPS 325 must be completed by the application deadline. The remaining two must be completed before entering the program.

Application Process
The competitive admission process consists of a review of portfolios by a screening committee in the occupational therapy program followed by interviews with faculty for applicants who make the cut. Portfolios are accepted once a year on August 1 for students interested in beginning the program in the winter semester of that academic year. No late submissions are accepted. The portfolio must include the following items: official college transcripts from all schools attended, results of the GRE General Test, one academic reference, documentation of 100 hours of completed volunteer service with two references from these experiences, and a sample of reflective writing. Detailed information about the application process can be found on the program's website. We strongly encourage all students interested in applying to the program to attend a group advising session with the OT Intent Advisor in order to successfully complete their application.

International Students
International students must contact the International Admissions office at 734.487.0205. They will assist in the evaluation of transcripts and determine your cumulative GPA. International students must provide a copy of the EMU Graduate School approved TOEFL score in their application portfolio.

Fieldwork
A minimum of six months of full time supervised fieldwork is required at the conclusion of the academic program. Field placements are arranged by the Occupational Therapy Fieldwork Coordinator and approved by the faculty.

Scholarships
The Occupational Therapy program offers a number of scholarships to students who are admitted to the program. For more information contact the OT program at 734.487.4096. There are also a number of University scholarships available to students. Contact the office of Financial Aid for information.
Accreditation

The EMU OT program is accredited by the American Council for Occupational Therapy Education (ACOTE) of the American Occupational Therapy Association (AOTA), located at 4720 Montgomery Lane, P.O. Box 31220, Bethesda, MD 20824-1220. Telephone number: 301.652.AOTA.

General Education Requirements:

For specific requirements refer to the General Education Program. Download the Gen Ed Checklist here.

Major Requirements: 66 hours

- HLAD 510 - Medical Care Organization 3 hrs
- OCTH 412 - Models of Practice 3 hrs
- OCTH 419 - Programming I 6 hrs
- OCTH 420 - Level I Fieldwork I 3 hrs
- OCTH 495 - Neurological Foundations of Human Occupation 3 hrs
- OCTH 500W - Philosophy of Occupational Therapy (Gen Ed Area I, W) 3 hrs
- OCTH 502 - Theory and Analysis of Occupation 3 hrs
- OCTH 516 - Level I Community Fieldwork II 3 hrs
- OCTH 517 - Level I Community Fieldwork III 3 hours
- OCTH 519 - Programming II 6 hrs
- OCTH 540 - Research Methods I 3 hrs
- OCTH 588 - Fieldwork Level II: Clinical Skills 6 hrs
- OCTH 589 - Fieldwork Level II: Clinical Skills 6 hrs
- OCTH 600 - Supervision and Professional Roles 3 hrs
- OCTH 619 - Programming III 6 hrs
- OCTH 686 - Culminating Project I 3 hrs
- OCTH 687 - Culminating Project II 3 hrs

Minor Requirements:

This major does not require a minor.

Program Total:

Students must earn a minimum total of 124 credits and the 100-level or above.

Critical Graduation Information:

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas
below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the 100-level and above. Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Earn a minimum of 60 credits from a four-year college or university; courses taken at community colleges cannot be used to meet this requirement. (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 unique credit hours in their major and 20 unique credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
- Not more than 60 credit hours in one subject area (prefix) may be applied towards the minimum of 124 credit hours required for a bachelor's degree.
- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more than one major or minor.
  - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
  - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
  - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor
- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is coordinated by the Office of Admissions, and additional documentation may be required.
- Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be earned in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

**General Education Requirements:**

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names
will fulfill these requirements. A detailed description of General Education requirements is available on the General Education section of the catalog: General Education

- For Students who began their undergraduate program at EMU in Fall 2007 or later or who have elected to follow the current ("new") General Education Program, follow the "For Students" link under the Current Program heading.
- For Students who began their undergraduate program at EMU before Fall 2007 and who have elected to follow the Pre-2007 General Education Requirements, follow the "General Education Program Prior to Fall 2007 (pdf file)" link under the Program Prior to Fall 2007 heading. **Please note that students who wish to graduate under pre-2007 General Education requirements must graduate by August 2014; those who have not completed all degree requirements by that time will need to satisfy the current (Fall 2007) General Education requirements.**

Students who transferred to EMU may have modified general education requirements based on MACRAO or articulation agreements; consult your academic adviser for additional information.

**University Information:** Consult the online catalog at catalog.emich.edu.

**Dietetics Major (IDTC)**

**School of Health Sciences Information:**

Interim School Director: Colleen Croxall  
School Contact: ccroxall@emich.edu  
Website: www.emich.edu/hs/

**Adviser Information:**

College of Health and Human Services Advising Center  
Email: chhsadvising@emich.edu  
Phone: 734.487.0918

**Dietetics Program Information**

The Coordinated Program in Dietetics is fully accredited by the Accreditation Council for Education in Nutrition and Dietetics (ACEND) of the Academy of Nutrition and Dietetics (A.N.D. or the Academy).

Accreditation Council for Education in Nutrition and Dietetics  
The Academy of Nutrition and Dietetics  
120 South Riverside Plaza, Suite 2000  
Chicago, IL 60606-6995  
312/889-0040, ext. 5400
This is a second admissions program with both online and on-campus delivery methods. Through the online delivery method, this program is available to students who do not live within 100 miles of Eastern Michigan University's campus. The program begins in the fall of the junior year. Please be aware that admission to the University is not a guarantee of entry into the dietetics program. Important information and the application for both the online and on-campus programs can be found at the Extended Programs and Educational Outreach web site. In addition, students are encouraged to contact the College of Health and Human Services Advising Center at chhsadvising@emich.edu or 734.487.0918 for additional information. The application deadline for both the online and on-campus programs is January 15 for consideration for entrance into the professional phase of the program the following fall semester.

**Admission Requirements**
The applicants for either delivery method must meet the following requirements to be considered for the professional phase of the program:

1. Admission to EMU;
2. Junior standing achieved by completing 56 or more credit hours or equivalent (including transfer courses);
3. Minimum GPA of 2.75; and
4. Satisfactory completion (C or above) of the following prerequisites prior to entrance into the professional phase of the program.

Recency of Education rules apply to any program courses that are transferred into Eastern Michigan University. Please follow the Recency of Education link to learn more.

The availability of clinical facilities limits the number of students admitted to each class. Therefore, a screening procedure is used to select the most qualified students for the available positions in the program. Academic status, letters of recommendation, a personal statement and answers to given questions are considered in this screening procedure.

**Continuance**
Once students have been accepted into the CPD, it is assumed that they will maintain their academic status.

In preparing for a professional career in dietetics, students are expected to assume responsibility for their learning, to support the ethics and standards of practice of their profession and to value honesty in the fulfillment of scholarly and professional endeavors. The department reserves the right to retain only those students who, in the judgment of the faculty, satisfy the requirements of scholarship and practice competence and personal integrity suitable to dietetics.
**Registration in Dietetics**
Upon successful completion of the coordinated dietetics curriculum and degree, students will be eligible to sit for the Registration Examination for Dietitians. Passage of the exam will provide the recognized credential of Registered Dietitian through the Commission on Dietetics Registration of the Academy of Nutrition and Dietetics.

**Articulation Agreement**
An active articulation agreement exists between this program and a community college. To see a complete list of current colleges with program articulation agreements with EMU, please click here.

**General Education Requirements:**
For specific requirements refer to the General Education Program. Download the Gen Ed Checklist here.

**Prerequisites of Professional Phase**

**Pre-Application Phase: 20 hours**

*The following prerequisites are to be completed prior to January 15th CPD application deadline.*

- BIO 326 - Human Physiology 3 hrs
  OR
- SPMD 269 - Anatomy and Physiology for Dietetics 3 hrs
- BIO 328 - Introductory Microbiology 3 hrs
- CHEM 270 - Survey of Organic Chemistry 4 hrs
- CHEM 351 - Foundations of Biochemistry 4 hrs
- PSY 101 - General Psychology Lecture (Gen Ed Area IV*) 3 hrs
- SOCL 250 - Quantitative Applications in Sociology (Gen Ed Area II) 3 hrs
  OR
- MATH 170 - Elementary Statistics (Gen Ed Area II) 3 hrs

**Pre-Admission Phase: 13-14 hours**

*The following prerequisites are to be completed prior to start of Professional Phase.*

- AHPR 200 - Medical Terminology 1 hr
- DTC 108 - Careers in Nutrition and Dietetics 2 hrs
- DTC 202 - Principles of Human Nutrition 3 hrs
- DTC 251 - Experimental Foods 4 hrs
- EDPS 325 - Life Span Human Growth and Development 4 hrs
  OR
IHHS 260 - Aging to Infancy: A Life Course Retrospective 3 hrs

Major Requirements: 58 hours

- DTC 302 - Nutrient Metabolism: Macronutrients 3 hrs
- DTC 330 - Nutrition Therapy I 3 hrs
- DTC 331 - Nutrition Therapy I Experience 2 hrs
- DTC 350 - Food Systems Management I 3 hrs
- DTC 351 - Food Systems Management I Experience 4 hrs
- DTC 358 - Food and Culture (Gen Ed Area III) 3 hrs
- DTC 370 - Nutrition Therapy II 3 hrs
- DTC 371L - Nutrition Therapy II Experience (Gen Ed Area V LBC) 4 hrs
- DTC 372 - Nutrition of the Life Cycle 3 hrs
- DTC 375 - Complementary and Alternative Medicine 3 hrs
- DTC 422 - Nutrient Metabolism: Micronutrients 3 hrs
- DTC 430 - Nutrition Therapy III 3 hrs
- DTC 431W - Nutrition Therapy III Experience (Gen Ed Area I, W, or Area V LBC) 4 hrs
- DTC 435 - Seminar in Dietetics 2 hrs
- DTC 450 - Food Systems Management II 2 hrs
- DTC 451 - Food Systems Management II Experience 4 hrs
- DTC 459 - Development of Entrepreneurial Dietitian 3 hrs
- DTC 470 - Nutrition Therapy IV 2 hr
- DTC 471 - Nutrition Therapy IV Experience 4 hrs

Minor Requirements:

This program does not require a minor.

Program Total:

Students must earn a minimum total of 124 credits at the 100-level or above.

Notes:

*Each student must choose a writing intensive course as part of major completion requirements. Consult your adviser for course options.*

Critical Graduation Information:

*The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas*
below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the 100-level and above. Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Earn a minimum of 60 credits from a four-year college or university; courses taken at community colleges cannot be used to meet this requirement. (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 unique credit hours in their major and 20 unique credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
- Not more than 60 credit hours in one subject area (prefix) may be applied towards the minimum of 124 credit hours required for a bachelor’s degree.
- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more than one major or minor.
  - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
  - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
  - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor.
- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a “C” (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a “C” (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is coordinated by the Office of Admissions, and additional documentation may be required.
- Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be earned in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

General Education Requirements:

EMU’s General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names
will fulfill these requirements. A detailed description of General Education requirements is available on the General Education section of the catalog: General Education

- For Students who began their undergraduate program at EMU in Fall 2007 or later or who have elected to follow the current ("new") General Education Program, follow the "For Students" link under the Current Program heading.

Please note that students who wish to graduate under pre-2007 General Education requirements must graduate by August 2014; those who have not completed all degree requirements by that time will need to satisfy the current (Fall 2007) General Education requirements.

Students who transferred to EMU may have modified general education requirements based on MACRAO or articulation agreements; consult your academic adviser for additional information.

University Information: Consult the online catalog at catalog.emich.edu.

Health Administration Major

The program in Health Administration emphasizes the rapidly changing forms of health care delivery, health care reform, health care for the indigent and services to special populations, such as uninsured workers, the homeless and prisoners. Student writing, publication and opportunities for research are central to the program’s mission.

Admission Requirements
To qualify for admission to the program in Health Administration, students must have successfully completed 45 hours of undergraduate coursework at an accredited institution of higher learning with a minimum cumulative grade point average of 2.5. In addition, the following courses must be completed with a minimum earned grade of C- (C required for transfer courses) in each:

ENGL 121 - Composition II: Researching the Public Experience (Gen Ed Area I) (3 hrs)
CTAC 124 - Foundations of Speech Communication (Gen Ed Area I) (3 hrs)

Prospective majors in Health Administration who do not have the minimum 2.5 cumulative grade point average may petition the program in writing, through the Program Director, to request probationary admission to the major. Such applications will be considered by the program’s faculty on a case-by-case basis and would be expected to include information explaining either disruption in the applicant’s higher education, personal experience and achievements that counterbalance the grade point average, or other issues of relevance to the request.

Clinical Affiliations
The Health Administration program is closely affiliated with the American Academy of Medical Administrators (AAMA) and the American College of Health Executives (ACHE). The Health Administration Student Organization is a student chapter of the American College of Health Care Executives. Internship opportunities are an essential component in the curriculum of the program. The following organizations are representative of those in which health administration majors acquire field experience:

Alzheimer’s Disease and Related Disorders Association, Southfield, MI
Arbor Hospice, Ann Arbor
Chelsea Community Hospital, Chelsea, MI
City of Detroit, Bureau of Substance Abuse Services, Detroit
Detroit Osteopathic Hospital Corporation, Detroit
Detroit Receiving Hospital, Detroit
Garden City Osteopathic Hospital, Garden City, MI
Gift of Life
Health Alliance Plan of Michigan, Detroit
Henry County Hospital, Napoleon, OH
Henry Ford Hospital, Detroit
Henry Ford Village
Hospice of Washtenaw, Ann Arbor
Laurel Home Health Care Centers, Ypsilanti
M-Care, Ann Arbor
McAuley-McPhearson Health Care, Howell, MI
Michigan Blue Shield and Michigan Blue Cross, Detroit
Michigan Insurance Bureau, Lansing, MI
Michigan Department of Corrections
Michigan Department of Mental Health
Michigan Department of Public Health
Munson Memorial Hospital, Traverse City
Milan Federal Correctional Institution, Milan, MI
Munson Memorial Hospital, Traverse City, MI
Oakland County Department of Public Health
Snow Health Center
St. John Hospital, Detroit
St. Joseph Mercy Hospital, Ann Arbor
St. Mary’s Hospital, Saginaw, MI
Seaway Hospital, Trenton, MI
Springfield Hospital, Springfield, VT
Traverse City Osteopathic Hospital, Traverse City, MI
Trinity Health Care
University of Michigan Hospitals, Ann Arbor
Visiting Nurse Association of Huron Valley, Ann Arbor
Health Administration Curriculum

The curriculum concentrates on the principles and processes utilized in the field of health administration and management. The program is designed to prepare those seeking a career in the administrative sector of the health care delivery system in any of its forms. It also is appropriate for those already working in the health care field in some other capacity but wishing to redirect their career toward the area of health administration. Practicing health administrators without previous formal education in the field also may find this program beneficial for career advancement.

All students must take a one-semester internship during their junior or senior year unless waived by the program director due to significant administrative experience. No outside minor is required. However, many students elect the Gerontology Minor. Other minors that fit well with the Health Administration Major include the American Humanics Certificate in Nonprofit Management.

A degree completion track, Health Services Management, has been established for persons with clinical associate degrees from accredited community colleges who have had five or more years of experience subsequent to that of degree completion. Associate degree trained nurses, respiratory therapists and others interested in the degree completion option in health services management should contact the program director. Successful completion of the degree completion track leads to the same degree as the regular program major.

An active articulation agreement exists between this program and several community colleges. To see a complete list of current colleges with program articulation agreements with EMU, please click here.

A B.S. in Health Administration articulation agreement has been established with the programs of radiography, nursing and dental assisting at Washtenaw Community College and a B.S. in Health Administration articulation agreement with health information technology at Schoolcraft College, which permit graduates of these two-year degree programs to complete their bachelor’s degree in two years, or the equivalent of four full-time semesters at Eastern Michigan University, culminating with a degree in Health Administration. Unlike the health services management track, which is a generic degree for completion for clinicians with a two-year clinical degree, these articulations provide selected transfer students with an efficient degree completion curriculum that fits into a traditional four-year undergraduate schedule. Graduates of the programs in radiography, nursing and dental assisting at Washtenaw Community College and health information technology at Schoolcraft College should
contact the program director (program in health administration) or their community college academic adviser for complete details about these degree completion opportunities.

A Health Administration Minor is available to undergraduate students at Eastern Michigan University. The curriculum for the minor in Health Administration includes 20 to 22 hours. Students interested in the minor should contact the program in writing and meet with the program’s minor curriculum adviser.

General Education Requirements:

For specific requirements refer to the General Education Program.

Additional Requirements: 13-16 hours

- BIO 105 - Introductory Biology for Non-majors (Gen Ed Area IV) 4 hrs
- ECON 201 - Principles of Macroeconomics (Gen Ed Area IV) 3 hrs
- ECON 202 - Principles of Microeconomics (Gen Ed Area IV) 3 hrs

One course from the following:

- MATH 118 - Linear Models and Probability (Gen Ed Area II) 3 hrs
- SOCL 250 - Quantitative Applications in Sociology (Gen Ed Area II) 3 hrs

If student has taken MATH 118, choose one course from the following:

- DS 265 - Business Statistics I 3 hrs
- ECON 310 - Economic Statistics 3 hrs
- PSY 205 - Quantitative Methods in Psychology 3 hrs
- SOCL 250 - Quantitative Applications in Sociology (Gen Ed Area II) 3 hrs

Major Requirements: 54 hours

Required Courses in Health Administration: 44 hours

- HLAD 305 - The U.S. Health Care System 3 hrs
- HLAD 307W - Communication Effectiveness in Health Administration (Gen Ed Area I, W) 3 hrs
- HLAD 308 - Ethical Dimensions in Health Care Delivery 3 hrs
- HLAD 310 - Administration of Health Care Organizations 3 hrs
- HLAD 311 - Management of Health Services 3 hrs
- HLAD 312 - Health Personnel Management and Development 3 hrs
- HLAD 315 - Research Methods and Data Analysis in Health Sciences 3 hrs
- HLAD 416 - Health Planning 3 hrs
- HLAD 418 - Principles of Healthcare Finance Management 3 hrs
- HLAD 419 - Legal and Regulatory Issues in Health Care 4 hrs
• HLAD 420 - Health Insurance and Reimbursement 3 hrs
• HLAD 425 - Decision Making for Health Administrators 3 hrs
• HLAD 480 - Internship Seminar in Health Administration 2 hrs
• HLAD 488 - Internship 6 hrs

Required Courses in Associated Health Profession: 4 hours

• AHPR 200 - Medical Terminology 1 hr

One course from the following:

• HLAD 401 - Legal Issues in Health Care 3 hrs
• LAW 293 - Legal Environment of Business 3 hrs
• PLSC 301 - American Legal System 3 hrs

Required Courses in Business Administration and Liberal Arts: 6 hours

• ACC 240 - Principles of Financial Accounting 3 hrs
• ECON 436 - Health Economics 3 hrs

Minor Requirements:

This major does not require a minor.

Program Total:

Students must earn a minimum total of 124 credits at the 100-level or above.

Note:

Each student must choose a writing intensive course as part of major completion requirements. Consult your adviser for course options.

Health Services Management Track Curriculum

This is a degree completion track leading to the bachelor of science degree in health administration for persons holding an accredited associate’s degree in a recognized health services or clinical discipline and who have had five or more years of experience subsequent to that degree completion. Such disciplines include nursing, respiratory therapy or other specialized two-year programs of study.

For degree completion students in this curriculum, up to 22 credit hours may be awarded and credited toward the bachelor of science obligation of 124 credit hours on the basis of supervised clinical course work taken in the associate degree curriculum. These credits may be based on supervised clinical
courses that have no exact equivalence at Eastern Michigan University. This is determined in consultation with the program director of the health administration program.

General Education Requirements: 40 hours

For specific requirements refer to the General Education Program.

Major Requirements: 30 hours

- Two hours of applicable transfer work from an associates degree.
- AHPR 200 - Medical Terminology 1 hr
- HLAD 305 - The U.S. Health Care System 3 hrs
- HLAD 308 - Ethical Dimensions in Health Care Delivery 3 hrs
- HLAD 310 - Administration of Health Care Organizations 3 hrs
- HLAD 311 - Management of Health Services 3 hrs
- HLAD 315 - Research Methods and Data Analysis in Health Sciences 3 hrs
- HLAD 401 - Legal Issues in Health Care 3 hrs
- HLAD 420 - Health Insurance and Reimbursement 3 hrs
- HLAD 425 - Decision Making for Health Administrators 3 hrs

One course from the following:

- HLAD 416 - Health Planning 3 hrs
- HLAD 419 - Legal and Regulatory Issues in Health Care 4 hrs

Minor Requirements:

This program requires a minor. Please contact your program adviser for a list of possible minors. A minor in management is required for non-business majors.

Program Total:

Students must earn a minimum total of 124 credits at the 100-level or above.

Note:
Each student must choose a writing intensive course as part of major completion requirements. Consult your adviser for course options.

Critical Graduation Information:

The following are minimum requirements for all bachelor’s degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the 100-level and above. Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.

- Meet the requirements of the General Education program (see information below).

- Earn a minimum of 60 credits from a four-year college or university; courses taken at community colleges cannot be used to meet this requirement. (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)

- Earn a minimum of 30 credits from courses taken at EMU.

- Complete 10 of the last 30 hours for the degree from courses taken at EMU.

- Have a minimum of 30 unique credit hours in their major and 20 unique credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.

- Not more than 60 credit hours in one subject area (prefix) may be applied towards the minimum of 124 credit hours required for a bachelor's degree.

- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more than one major or minor.
  - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
  - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
  - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor
Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is coordinated by the Office of Admissions, and additional documentation may be required.

Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be earned in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

General Education Requirements:

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available on the General Education section of the catalog: General Education

- For Students who began their undergraduate program at EMU in Fall 2007 or later or who have elected to follow the current ("new") General Education Program, follow the "For Students" link under the Current Program heading.

- For Students who began their undergraduate program at EMU before Fall 2007 and who have elected to follow the Pre-2007 General Education Requirements, follow the "General Education Program Prior to Fall 2007 (pdf file)" link under the Program Prior to Fall 2007 heading. Please note that students who wish to graduate under pre-2007 General Education requirements must graduate by August 2014; those who have not completed all degree requirements by that time will need to satisfy the current (Fall 2007) General Education requirements.

Students who transferred to EMU may have modified general education requirements based on MACRAO or articulation agreements; consult your academic adviser for additional information.

University Information: Consult the online catalog at catalog.emich.edu.

Therapeutic Recreation Major

The therapeutic recreation curriculum leads to a bachelor of science degree in therapeutic recreation. Graduates from this program may apply for national certification as certified therapeutic recreation specialists.

This curriculum consists of a minimum of 48 hours of general education and a minimum of 63 credit hours of therapeutic recreation required courses. The therapeutic recreation student must complete 250 hours of clinical and/or paid therapeutic recreation experience before taking a full time 15-week,
600-hour practicum. The student must also file for candidate status one semester prior to enrolling in the practicum. No outside minor is required.

Students planning admission to the therapeutic recreation major must officially enroll in the program at the Academic Advising Center and complete an application for program admission at 363 Marshall. Criteria for admission into the therapeutic recreation major are:

1. Application for program admission;
2. Interview with the therapeutic recreation faculty.

Criteria for entry into THRC 449 - Therapeutic Recreation Practicum are:

1. Minimum of 2.5 GPA overall and 2.75 GPA in all major core and required courses;
2. Completion of 180 hours of verified fieldwork experience in four or more therapeutic recreation service agencies serving people with disabilities;
3. Completion of all academic courses.

**General Education Requirements:**

For specific requirements refer to the General Education Program. Download the Gen Ed Checklist here.

**Major Requirements: 63-64 hours**

- AHPR 200 - Medical Terminology 1 hr
- COUN 450 - An Introduction: Counseling Concepts and Skills 3 hrs
- HLAD 305 - The U.S. Health Care System 3 hrs
- PHED 200 - Anatomy and Physiology 5 hrs
- PSY 360 - Abnormal Psychology 3 hrs
- SPMD 280 - Pharmacology for Sports Medicine 2 hrs
- THRC 100 - Foundation and Advancement of the Therapeutic Recreation Profession 3 hrs
- THRC 200 - Recreation for Persons with Disabilities 3 hrs
- THRC 250 - Fieldwork in Recreation Therapeutic Recreation 1 hr
- THRC 251 - Fieldwork in Recreation Therapeutic Recreation 1 hr
- THRC 252 - Fieldwork in Recreation Therapeutic Recreation 1 hr
• THRC 290 - Quality Improvement: Research Methods in Health Care 3 hrs
• THRC 300 - Principles of Therapeutic Recreation 3 hrs
• THRC 320 - Leisure Education 3 hrs
• THRC 340 - Therapeutic Recreation Processes I 3 hrs
• THRC 360 - Therapeutic Recreation Program Planning 3 hrs
• THRC 400 - Therapeutic Recreation Process II 3 hrs
• THRC 430W - Issues in Therapeutic Recreation (Gen Ed Area I, W) 3 hrs
• THRC 449 - Therapeutic Recreation Practicum 8 hrs

Choose one from the following:

• THRC 180 - Activity Analysis and Adaption 2 hrs
• THRC 481 - Adapted Aquatics 2 hrs

Choose one from the following:

• THRC 310 - Leisure and Aging 3 hrs
• THRC 330 - Therapeutic Recreation: Substance Abuse 3 hrs

Choose one from the following:

• EDPS 325 - Life Span Human Growth and Development 4 hrs
• IHHS 260 - Aging to Infancy: A Life Course Retrospective 3 hrs

Elective Courses: 10-12 hours

*Students may choose ten to twelve credit hours of electives in consultation with an adviser.*

Minor Requirements:

This major does not require a minor.

Program Total:

Students must earn a minimum total of 124 credits at the 100-level or above.
Note:

*Each student must choose a writing intensive course as part of major completion requirements. Consult your adviser for course options.*

Critical Graduation Information:

The following are minimum requirements for all bachelor’s degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the **100-level and above. Courses with numbers below 100 will not be counted toward this degree requirement.** At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.

- Meet the requirements of the General Education program (see information below).

- Earn a minimum of 60 credits from a four-year college or university; **courses taken at community colleges cannot be used to meet this requirement.** (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)

- Earn a minimum of 30 credits from courses taken at EMU.

- Complete 10 of the last 30 hours for the degree from courses taken at EMU.

- Have a minimum of 30 **unique** credit hours in their major and 20 **unique** credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.

- Not more than 60 credit hours in one subject area (prefix) may be applied towards the minimum of 124 credit hours required for a bachelor's degree.

- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more than one major or minor.
  - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
  - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor.

- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is coordinated by the Office of Admissions, and additional documentation may be required.

- Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be earned in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

General Education Requirements:

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available on the General Education section of the catalog: General Education

- For Students who began their undergraduate program at EMU in Fall 2007 or later or who have elected to follow the current ("new") General Education Program, follow the "For Students" link under the Current Program heading.

- For Students who began their undergraduate program at EMU before Fall 2007 and who have elected to follow the Pre-2007 General Education Requirements, follow the "General Education Program Prior to Fall 2007 (pdf file)" link under the Program Prior to Fall 2007 heading. Students who transferred to EMU may have modified general education requirements based on MACRAO or articulation agreements; consult your academic adviser for additional information.

University Information: Consult the online catalog at catalog.emich.edu.

Minor

Gerontology Minor

Adviser: Dr. Elizabeth Schuster, Director
Gerontology Program
The gerontology minor is administered by the Department of Health Sciences in the College of Health and Human Services through an interdisciplinary coordinating committee composed of faculty who are actively involved in the gerontology field. The 21-semester-hour interdisciplinary minor is available to students who are majors in any department or college of the University. It may serve as a core of study for undergraduate students who wish to supplement their studies with a detailed knowledge of gerontology or who contemplate entering master’s or doctoral programs in gerontology. The minor should be of particular interest to students preparing for work in the physical and mental health service careers, to those working in continuing care centers, for community organization and social service workers, and for educators.

**Required Courses: 13-14 hours**

- BIO 259 - Biology of Aging 2 hrs
- GERT 212 - Introduction to Gerontology 3 hrs
- PSY 323 - Psychology of Human Aging 3 hrs
- SOCL 311W - Aging and the Life Course (Gen Ed Area I, W) 3 hrs

One course from the following:

- * GERT 488 - Gerontology Practicum 2 hrs
- * GERT 489 - Gerontology Practicum 3 hrs

**Elective Courses: 7-8 hours**

Students must select 7-8 hours from the following courses:

- DTC 202 - Principles of Human Nutrition 3 hrs
- or
- DTC 203 - Nutrition for Health Professionals 3 hrs
- or
- DTC 204 - Sports Nutrition 3 hrs
- DTC 372 - Nutrition of the Life Cycle 3 hrs
- EDPS 325 - Life Span Human Growth and Development 4 hrs
- GERT 219 - Around the World in 80 Years: Adult Development Across Culture (Gen Ed Area III) 3 hrs
- GERT 497 - Independent Study 1 hr
- GERT 498 - Independent Study 2 hrs
- GERT 499 - Independent Study 3 hrs
- GERT 509 - Older Adults and Chemical Dependency 1 hr
- GERT 511 - Elders and Their Families 2 hrs
- GERT 513 - Intergenerational Programs and Services 2 hrs
- GERT 515 - Sexuality and Aging 1 hr
- GERT 516 - The Elderly and the Law 1 hr
- GERT 517 - Developing Funding Proposals for Aging Programs 2 hrs
- GERT 518 - Introduction to Alzheimer’s and Related Dementia 2 hrs
- GERT 523 - Designing Programs for People with Dementia 2 hrs
- GERT 524 - Families and Dementia 2 hrs
- GERT 526 - Behaviors in Dementia 2 hrs
- GERT 528 - Advanced Issues in Dementia Care 2 hrs
- GERT 532 - Aging Through the Eyes of the Old 2 hrs
- GERT 590 - Special Topics 1 hr
- HLAD 310 - Administration of Health Care Organizations 3 hrs
- HLED 420 - Health and Aging 3 hrs
- IDE 111 - Environmental Psychology and Behavior for Interior Design 3 hrs
- IDE 503 - Physical Environments for Aging 2 hrs
- IHHS 260 - Aging to Infancy: A Life Course Retrospective 3 hrs
- SWRK 413 - Women and Aging 3 hrs
- SWRK 420 - Working with Aging People 3 hrs
- THRC 310 - Leisure and Aging 3 hrs
- WGST 413 - Women and Aging 3 hrs

Minor Total: 20-22 hours

Note:

All minors must have at least six hours of course work at the 300-level or above.

* Students who are required to complete a practicum in a setting serving older people as a part of their major may request that this experience fulfill the practicum component GERT 488/489.

Students can only take DTC 202 or DTC 203 or DTC 204.

Students cannot take both SWRK 413 and WGST 413.

Critical Graduation Information:

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the 100-level and above. Courses with numbers below 100 will not be counted toward this degree requirement. Health Administration Minor

School of Health Sciences Information:
Interim School Director: Colleen Croxall
School Contact: ccroxall@emich.edu
Website: www.emich.edu/hs/

Minor Requirements: 16 hours

- AHPR 200 - Medical Terminology 1 hr
- HLAD 305 - The U.S. Health Care System 3 hrs
- HLAD 310 - Administration of Health Care Organizations 3 hrs
- HLAD 311 - Management of Health Services 3 hrs
- HLAD 401 - Legal Issues in Health Care 3 hrs
- HLAD 420 - Health Insurance and Reimbursement 3 hrs

Elective Courses: 6 hours

Two courses from the following:

- AAS 351 - The Social Context of African American Health (Gen Ed Area IV) 3 hrs
- HLAD 250 - Introduction to Public Health 3 hrs
- HLAD 308 - Ethical Dimensions in Health Care Delivery 3 hrs
- HLAD 315 - Research Methods and Data Analysis in Health Sciences 3 hrs
- HLAD 416 - Health Planning 3 hrs
- HLAD 419 - Legal and Regulatory Issues in Health Care 4 hrs
- HLAD 421 - Managed Care 3 hrs
- HLAD 425 - Decision Making for Health Administrators 3 hrs
- HLAD 460 - Long-Term Care Administration 3 hrs
- HLAD 479 - Special Topics 3 hrs
SWRK 431 - Substance Abuse 3 hrs

Minor Total: 22 hours

Note:

All minors must have at least six hours of course work at the 300-level or above.

Critical Graduation Information:

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

Human Nutrition Minor

This non-teaching minor benefits students enrolled in the majors of: nursing, sports medicine, hotel and restaurant management, occupational therapy, education, psychology and biology.
School of Health Sciences Information:

Interim School Director: Colleen Croxall
School Contact: ccroxall@emich.edu
Website: www.emich.edu/hs/

Required Area Courses: 15 hours

- DTC 358 - Food and Culture (Gen Ed Area III) 3 hrs
- DTC 372 - Nutrition of the Life Cycle 3 hrs
- DTC 375 - Complementary and Alternative Medicine 3 hrs
- DTC 430 - Nutrition Therapy III 3 hrs

One course from the following:

- DTC 202 - Principles of Human Nutrition 3 hrs
- DTC 203 - Nutrition for Health Professionals 3 hrs
- DTC 204 - Sports Nutrition 3 hrs

Restricted Electives Courses: 5 hours

Five hours from the following:

- AHPR 200 - Medical Terminology 1 hr
- BIO 259 - Biology of Aging 2 hrs
- DTC 108 - Careers in Nutrition and Dietetics 2 hrs
- DTC 155 - Fundamentals of Healthy Lifestyles 2 hrs
- DTC 251 - Experimental Foods 4 hrs
- DTC 302 - Nutrient Metabolism: Macronutrients 3 hrs
- HLAD 305 - The U.S. Health Care System 3 hrs
- HLAD 308 - Ethical Dimensions in Health Care Delivery 3 hrs
- HLED 302 - From Host to Host: The Communicable Diseases 1 hr
- HLED 402 - Selecting Health Products and Services 3 hrs
- HLED 420 - Health and Aging 3 hrs
- HLED 490 - Drug Use and Abuse 3 hrs
- IHHS 260 - Aging to Infancy: A Life Course Retrospective 3 hrs
- PHED 209 - Bio-Fitness 2 hrs
- PHIL 223 - Medical Ethics (Gen Ed Area IV) 3 hrs
- THRC 310 - Leisure and Aging 3 hrs

Minor Total: 20 hours

Note:

_All minors must have at least six hours of course work at the 300-level or above._

Critical Graduation Information:

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the **100-level and above. Courses with numbers below 100 will not be counted toward this degree requirement.** At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Earn a minimum of 60 credits from a four-year college or university; courses taken at community colleges cannot be used to meet this requirement. (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 **unique** credit hours in their major and 20 **unique** credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
• Not more than 60 credit hours in one subject area (prefix) may be applied towards the minimum of 124 credit hours required for a bachelor's degree.

• Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more that one major or minor.
  
  o Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
  
  o Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
  
  o Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor.

• Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is coordinated by the Office of Admissions, and additional documentation may be required.

• Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be earned in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

**General Education Requirements:**

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available on the General Education section of the catalog: General Education

• For Students who began their undergraduate program at EMU in Fall 2007 or later or who have elected to follow the current ("new") General Education Program, follow the "For Students" link under the **Current Program** heading.

• For Students who began their undergraduate program at EMU before Fall 2007 and who have elected to follow the Pre-2007 General Education Requirements, follow the "General Education Program Prior to Fall 2007 (pdf file)" link under the **Program Prior to Fall 2007** heading. **Please note that students who wish to graduate under pre-2007 General Education requirements must graduate by August 2014; those who have not completed all degree requirements by that time will need to satisfy the current (Fall 2007) General Education requirements.**
Students who transferred to EMU may have modified general education requirements based on MACRAO or articulation agreements; consult your academic adviser for additional information.

**University Information**: Consult the online catalog at catalog.emich.edu.

**Certificate**

**Health Informatics Certificate (CHIN)**

This certificate introduces the student to information systems terminology, structures, applications, and their relationship to management functions in health services organizations. Health providers and enterprise-wide health systems are continuing to make multimillion dollar investments in information systems in order to meet new market and regulatory requirements. Health services managers are required to play a critical role in the analysis, design, acquisition, installation, operation and ultimate success of information systems necessary to meet organizational goals and objectives in such environments. This course exposes students to the fundamental IS/IT applications used to support health care management functions. In addition, applications and management issues unique to industry segments (e.g., long-term care, home care, hospital administration, physician practice management) will also be explored. The certificate is designed to ensure that students are schooled in the terminology, conceptual models, applications, opportunities, and limitations of core technologies and their relation to information systems used in health services, to the point where they can ask appropriate questions, recognize and state significant issues, and participate in the discussion and analysis of information systems development and application. Ultimately, it seeks to provide students with an understanding of the basic structures of information systems in health administration; the relationship of these systems to managerial functions such as communications, coordination, control, strategic and process planning and decision making; and the important policy and ethical issues associated with privacy, confidentiality, and security in information systems. A key component of the certificate will be a commitment to provide continuous updates to course materials, as U.S. health care technology and policy evolves. Also, since the certificate represents the integration and application of a prerequisite CIS or Computer Science sequence, students will be grounded in fundamental technologies commonly used in health care in addition to gaining an understanding of major information management issues specific to health care systems.

**Critical Information regarding Certificates**

Undergraduate certificates may only be offered in conjunction with or subsequent to a baccalaureate degree. They cannot be ‘stand alone’ certificates, offered to students who are not pursuing or do not have a bachelor’s degree. For students pursuing an undergraduate certificate concurrent with a bachelor’s degree, the certificate will be awarded upon graduation.

**School of Health Sciences Information:**
Required Courses: 12 hours

- HLAD 476 - Introduction to Healthcare Informatics 3 hrs

Choose a track: 9 hours

CIS Track:

- IS 215 - End-User Computing 3 hrs
- IS 320 - Business Data Communications and Information Security 3 hrs
- IS 380 - Introduction to Databases 3 hrs

COSC Track:

- COSC 111 - Introduction to Programming 3 hrs
- COSC 211 - Programming Data Structures 3 hrs

Choose one of the following: 3 hours

- COSC 215 - Scientific Simulation 3 hrs
- COSC 231 - Internet-based Computing 3 hrs

Electives: 6 hours

*Six hours from the following:*

- HLAD 311 - Management of Health Services 3 hrs
- HLAD 315 - Research Methods and Data Analysis in Health Sciences 3 hrs
- HLAD 416 - Health Planning 3 hrs
- HLAD 418 - Principles of Healthcare Finance Management 3 hrs
- HLAD 419 - Legal and Regulatory Issues in Health Care 4 hrs

Certificate Total: 18 hours
Critical Graduation Information:

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the 100-level and above. Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.

- Meet the requirements of the General Education program (see information below).

- Earn a minimum of 60 credits from a four-year college or university; courses taken at community colleges cannot be used to meet this requirement. (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)

- Earn a minimum of 30 credits from courses taken at EMU.

- Complete 10 of the last 30 hours for the degree from courses taken at EMU.

- Have a minimum of 30 unique credit hours in their major and 20 unique credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.

- Not more than 60 credit hours in one subject area (prefix) may be applied towards the minimum of 124 credit hours required for a bachelor's degree.

- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more that one major or minor.
  - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
  - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
  - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor

- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in
which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is coordinated by the Office of Admissions, and additional documentation may be required.

- Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be earned in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

General Education Requirements:

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available on the General Education section of the catalog: General Education

- For Students who began their undergraduate program at EMU in Fall 2007 or later or who have elected to follow the current ("new") General Education Program, follow the "For Students" link under the Current Program heading.

- For Students who began their undergraduate program at EMU before Fall 2007 and who have elected to follow the Pre-2007 General Education Requirements, follow the "General Education Program Prior to Fall 2007 (pdf file)" link under the Program Prior to Fall 2007 heading. Please note that students who wish to graduate under pre-2007 General Education requirements must graduate by August 2014; those who have not completed all degree requirements by that time will need to satisfy the current (Fall 2007) General Education requirements.

Students who transferred to EMU may have modified general education requirements based on MACRAO or articulation agreements; consult your academic adviser for additional information.

University Information: Consult the online catalog at catalog.emich.edu.

Clinical Laboratory Sciences

CLSC 177 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hrs
Prerequisite: department permission

CLSC 178 - Special Topics
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs
Prerequisite: department permission

CLSC 179 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs
Prerequisite: department permission

CLSC 200 - Clinical Laboratory Techniques

Basic skills necessary to function in a clinical laboratory; e.g., phlebotomy, use of the microscope, specimen collection and preparation, pipetting and lab safety.

Credit Hours: 3 hrs
Prerequisite: BIO 110, CHEM 121 and CHEM 122
Last Updated: Links 04/2011

CLSC 201 - Phlebotomy Techniques

Phlebotomy Techniques is presented in a lecture-laboratory format. The course is designed to present the theory of blood collection and the practical techniques for venipuncture and skin puncture. Topics included in the course will cover the phlebotomist's role, professionalism and ethics, laboratory and hospital organization, specimen collection techniques, various blood drawing equipment, patient interaction and some medical and laboratory terminology.

Credit Hours: 3 hrs
Concurrent Prerequisite: AHPR 200 or department permission
Last Updated: Links 04/2011

CLSC 277 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hrs
Prerequisite: department permission
**CLSC 278 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 2 hrs  
**Prerequisite:** department permission

**CLSC 279 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 3 hrs  
**Prerequisite:** department permission

**CLSC 300 - Molecular Diagnostics**

This course covers molecular diagnostic techniques in the clinical laboratory. Topics will include laboratory diagnosis of infectious and genetic diseases through cytogenetic, molecular cytogenetic and DNA molecular technology.

**Credit Hours:** 3 hrs  
**Concurrent Prerequisite:** BIO 301 and CLSC 200  
**Last Updated:** Links 04/2011

**CLSC 301 - Molecular Diagnostics Laboratory**

This laboratory course will examine the techniques of molecular techniques use in the clinical laboratory, including nucleic acid extraction, nucleic acid hybridization, electrophoresis and polymerase chain reactions.

**Credit Hours:** 1 hr

**CLSC 307 - Urinalysis, Body Fluids and Hemostasis**

Lecture and laboratory covering urines, body fluids and hemostasis. Specimen collection and handling, physical examination, chemical testing, and microscopic evaluation of urines and body fluids; evaluation of hemostasis testing and hemostasis theory.

**Credit Hours:** 3 hrs  
**Prerequisite:** CLSC 200 or permission  
**Last Updated:** Links 04/2011
CLSC 322 - Clinical Microbiology I

A lecture and laboratory course on the basic disease processes and pathogenesis of clinically-relevant microorganisms. This course will discuss the major pathogenic bacteria, viruses and fungi. The laboratory portion of this course will emphasize the standard microbiological techniques, including isolation, cultivation, identification and antibiotic susceptibility testing. This course will serve as an entry-level microbiology course and is intended as a one-semester survey of microbiology for health science students and as a first semester of a two-semester sequence for clinical laboratory sciences students.

Credit Hours: 4 hrs  
Prerequisite: BIO 105 or BIO 110 or with department permission  
Last Updated: Links 04/2011

CLSC 332 - Clinical Microbiology I

A lecture and laboratory course on the basic disease processes and pathogenesis of clinically-relevant microorganisms. The laboratory portion of this course will emphasize the standard microbiological techniques, including isolation, cultivation and identification. This course will serve as a first semester of a two-semester sequence for clinical laboratory science students.

Credit Hours: 3 hrs  
Prerequisite: BIO 105 or BIO 110 or department permission  
Concurrent Prerequisite: CLSC 200  
Class Restrictions: Sophomore standing  
Major Restrictions: Clinical Laboratory Science Program Majors only  
Last Updated: Links 04/2011

CLSC 335 - Clinical Immunology

Lecture and laboratory presenting theory, basic principles, and practical experience in clinical immunology. The correlation of basic principles to human disease state.

Credit Hours: 3 hrs  
Prerequisite: CLSC 200 or permission of instructor  
Last Updated: Links 04/2011

CLSC 336 - Clinical Immunology Laboratory

This laboratory course will examine the immunological diagnostic techniques use in the clinical immunology laboratory, including fluorescence immunoassay's, enzyme immunoassay's, immunoelectrophoresis and latex agglutination testing.
CLSC 377 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr
Prerequisite: department permission

CLSC 378 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs
Prerequisite: department permission

CLSC 379 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs
Prerequisite: department permission

CLSC 387 - Cooperative Education in Clinical Laboratory Science

Three or four months of full-time employment at a clinical, research or industrial laboratory or related area chosen for providing a practical educational experience in clinical laboratory sciences. The program consists of two work experiences alternating with full-time attendance at the University.

Credit Hours: 3 hrs
Prerequisite: CHEM 270 and CHEM 271; permission of program director
Notes: Offered on a graded or credit/no-credit basis
Last Updated: Links 04/2011

CLSC 401W - Laboratory Management/Education (Gen Ed Area I, W)
Basic management skills for laboratory personnel and laboratory. Personnel practices, equipment and reagent purchase, and laboratory information systems including computer applications, laboratory statistics and evaluation of methods are covered in this lecture course.

**Credit Hours:** 3 hrs  
**Prerequisite:** CLSC 200 and MATH 170 or equivalent  
**Graduate Credit:** This is an undergraduate course available to graduate students for graduate credit. This course is offered as a part of the General Education Program and satisfies the Writing Intensive requirement.  
**Last Updated:** Graduate Credit 07/2011; Links 03/2011

**CLSC 402 - Clinical Chemistry**

This lecture course covers the relationship of clinical chemistry to diagnosis, prognosis, and treatment of disease. Focus will be on testing procedures, instrumentation and controlling the functions in order to provide correct information to the medical staff.

**Credit Hours:** 3 hrs  
**Prerequisite:** CHEM 351 or permission of instructor  
**Last Updated:** 04/2011

**CLSC 403 - Clinical Chemistry Laboratory**

This laboratory course will examine the diagnostic testing used in the clinical chemistry laboratory. These procedures will include enzymatic diagnostic procedures, spectrophotometric analysis and protein electrophoresis using clinical samples.

**Credit Hours:** 1 hrs  
**Corequisites:** CLSC 402  
**Last Updated:** Links 04/2011

**CLSC 405 - Cytotechnology Clinical Internship**

Microscopic study of cellular alterations indicative of cancer and precancerous conditions, bacterial, viral and parasitic infections, and hormonal abnormalities; cytogenetics; and a research project.

**Credit Hours:** 14 hrs  
**Prerequisite:** program approval

**CLSC 406 - Cytotechnology Clinical Internship**

Continuation of CLSC 405.
CLSC 407 - Hematology

This lecture and laboratory course covers the theory and application of hematological test procedures, interpretation of results, problem solving, and correlation of laboratory findings with disease states.

Credit Hours: 14 hrs
Prerequisite: program approval
Last Updated: Links 05/2011

CLSC 408 - Clinical Hematology Laboratory

This laboratory course will examine the hematological techniques used in the clinical hematology laboratory. These include the identification of abnormal blood cells, cell counting procedures and staining procedures used to identify abnormal blood cells.

Credit Hours: 3 hrs
Prerequisite: CLSC 200 or permission
Notes: Not open to those with credit in BIO 407.
Last Updated: Links 04/2011

CLSC 410A - Cytogenetics Clinical Internship

CLSC 410 and CLSC 411 cytogenetics clinical rotation I and II will be used for the clinical practice for the cytogenetics track in the CLS program. The student will set up tissue cultures, harvest cells, prepare slides for analysis and prepare analysis for a broad spectrum of genetic abnormalities. This will include photograph and computer-assisted chromosome analysis. Procedures will include chronic villus, fragile X and sister chromatid exchanges.

Credit Hours: 7 hrs
Prerequisite: program approval
Previously Listed As: CLSC 410; now split into CLSC 410A and CLSC 410B
Last Updated: Links 04/2011

CLSC 410B - Cytogenetics Clinical Internship

CLSC 410 and CLSC 411 cytogenetics clinical rotation I and II will be used for the clinical practice for the cytogenetics track in the CLS program. The student will set up tissue cultures, harvest cells, prepare slides for analysis and prepare analysis for a broad spectrum of genetic abnormalities. This will include photograph and computer-assisted chromosome analysis. Procedures will include chronic villus, fragile X
and sister chromatid exchanges.

**Credit Hours:** 7 hrs  
**Prerequisite:** program approval  
**Previously Listed As:** CLSC 410; now split into CLSC 410A and CLSC 410B  
**Last Updated:** Links 04/2011

**CLSC 411 - Cytogenetics, Clinical Internship II**

Continuation of CLSC 410A or CLSC 410B.

**Credit Hours:** 14 hrs  
**Prerequisite:** program approval  
**Last Updated:** Links 04/2011

**CLSC 412 - Clinical Laboratory**

Individual Clinical Laboratory practicum experience. Experiences will be in the specialty areas of the clinical laboratory including, but not limited to molecular diagnosis.

**Credit Hours:** 14 hrs  
**Prerequisite:** department permission

**CLSC 416 - Basic Histotechnique and Histochemical Staining Methods**

Didactic and practicum experience in preparing histologic sections for light microscopy, including the study of more than 50 different histologic staining methods and their specific applications.

**Credit Hours:** 12 hrs  
**Prerequisite:** program approval

**CLSC 417 - Basic Electron Microscopy**

Didactic and practicum experience in basic biological electron microscopy. Electron microscopic histochemistry and special techniques are also covered. Emphasis is on the electron microscope as a medical diagnostic tool.

**Credit Hours:** 8 hrs  
**Prerequisite:** program approval

**CLSC 418 - Immunohisto-Cytochemistry**
A course designed to teach basic and advanced procedures of fluorescent and enzyme-labeled antibody techniques. The course includes the preparation of tissues, staining with labeled antibodies and the use of fluorescence microscopes in clinical medicine and research.

**Credit Hours:** 4 hrs  
**Prerequisite:** program approval

**CLSC 419 - Internship Special Histotechnology Techniques**

A course designed to present didactic and practicum experience in molecular pathology, including in-situ-hybridization and DNA analysis. Cytogenetics will be presented with emphasis on preparing karyotypes and chromosome identification. A research project will be required on a related topic, then formalized and presented as a lecture. Management and education methodologies will be presented.

**Credit Hours:** 4 hrs  
**Prerequisite:** program approval

**CLSC 432 - Clinical Microbiology**

Course covers mechanisms of pathogenesis associated with specific bacterial, viral, fungal and parasitic etiological agents of human disease.

**Credit Hours:** 3 hrs  
**Prerequisite:** CLSC 332 or permission  
**Last Updated:** Links 04/2011

**CLSC 433 - Clinical Microbiology Laboratory**

Laboratory will cover methods of detection, isolation, enumeration and identification of human pathogenic microorganisms encountered in the clinical microbiology laboratory.

**Credit Hours:** 2 hrs  
**Concurrent Prerequisite:** CLSC 432  
**Last Updated:** Links 04/2011

**CLSC 434 - Advanced Immunohematology**

Principles and procedures used in the blood bank. The laboratory is designed to simulate problem situations in the clinical laboratory.

**Credit Hours:** 3 hrs  
**Prerequisite:** CLSC 335 or permission  
**Last Updated:** Links 04/2011
CLSC 450 - Clinical Hematology

An intensive, hands-on clinical experience in routine hematology, coagulation and special techniques at an advanced level.

Credit Hours: 4 hrs
Prerequisite: acceptance into clinical track
Last Updated: 2/4/2011

CLSC 452 - Clinical Immunology/Immunohematology Practicum

An intensive, hands-on clinical experience at an advanced level of instruction in blood banking, immunology and serology.

Credit Hours: 4 hrs
Prerequisite: acceptance into clinical track

CLSC 454 - Clinical Chemistry Practicum

An intensive, hands-on clinical experience at an advanced level of instruction in automated chemistry, radioimmunoassay, electrophoresis and toxicology.

Credit Hours: 4 hrs
Prerequisite: acceptance into clinical track

CLSC 456 - Clinical Microbiology Practicum

An intensive, hands-on clinical experience at an advanced level of instruction in clinical microbiology.

Credit Hours: 4 hrs
Prerequisite: acceptance into clinical track

CLSC 459 - Clinical Microbiology Practicum II

This is an intensive introductory lecture and laboratory course highlighting medically important fungi, disease states and laboratory methods of isolation and identification.

Credit Hours: 3 hrs
Prerequisite: acceptance into clinical track or permission of instructor

CLSC 477 - Special Topics
Advanced level courses covering specific topics in clinical laboratory sciences not discussed in other clinical laboratory sciences courses.

**Credit Hours:** 1 hr  
**Prerequisite:** permission of instructor

**CLSC 478 - Special Topics**

Advanced level courses covering specific topics in clinical laboratory sciences not discussed in other clinical laboratory sciences courses.

**Credit Hours:** 2 hrs  
**Prerequisite:** permission of instructor

**CLSC 479 - Special Topics**

Advanced level courses covering specific topics in clinical laboratory sciences not discussed in other clinical laboratory sciences courses.

**Credit Hours:** 3 hrs  
**Prerequisite:** permission of instructor

**CLSC 487 - Cooperative Education in Clinical Laboratory Science**

Three to four months of full-time employment at a clinical, research or industrial laboratory or related area chosen for providing a practical educational experience in clinical laboratory sciences. The program consists of two work experiences alternating with full-time attendance at the University.

**Credit Hours:** 3 hrs  
**Prerequisite:** CLSC 387, permission of program director  
**Notes:** Offered on a credit/no-credit basis.  
**Last Updated:** Links 04/2011

**CLSC 497 - Independent Study**

Independent, original endeavors involving library and/or laboratory work under the guidance of a clinical laboratory program faculty member or clinical associate faculty member.

**Credit Hours:** 1 hr  
**Prerequisite:** permission of the instructor

**CLSC 498 - Independent Study**
Independent, original endeavors involving library and/or laboratory work under the guidance of a clinical laboratory program faculty member or clinical associate faculty member.

**Credit Hours:** 2 hrs  
**Prerequisite:** permission of the instructor

**CLSC 499 - Independent Study**

Independent, original endeavors involving library and/or laboratory work under the guidance of a clinical laboratory program faculty member or clinical associate faculty member.

**Credit Hours:** 3 hrs  
**Prerequisite:** permission of the instructor

**Dietetics**

**DTC 101 - Fundamentals of Personal Nutrition**

How much do you know about nutrition and its impact on health, disease and lifestyle? This course will help you develop skills to critically evaluate the role of nutrition in a healthy lifestyle by providing an overview of nutrients, their functions, relationship to health and disease and explain how culture and society influences one’s nutritional status.

**Credit Hours:** 3 hrs

**DTC 108 - Careers in Nutrition and Dietetics**

Orientation to dietetics profession by exploring its roles in the health care system, examining the different facets and specializations of the profession and investigating future trends.

**Credit Hours:** 2 hrs  
**Previously Listed As:** DTC301, therefore students could not earn credit for both DTC108 and DTC301

**DTC 155 - Fundamentals of Healthy Lifestyles**

Current nutrition strategies to promote fitness and a healthy lifestyle.

**Credit Hours:** 2 hrs

**DTC 177 - Special Topics**

An experimental course designed to investigate specific topics of concern in specialization areas.
**DTC 178 - Special Topics**

An experimental course designed to investigate specific topics of concern in specialization areas.

**Credit Hours:** 1 hr  
**Prerequisite:** department permission

**DTC 179 - Special Topics**

An experimental course designed to investigate specific topics of concern in specialization areas.

**Credit Hours:** 2 hrs  
**Prerequisite:** department permission

**DTC 201 - Nutrition Perspectives**

Application of nutrition concepts and recommendations for health maintenance.

**Credit Hours:** 3 hrs  
**Notes:** Not open to students who take DTC202, DTC203 or DTC204.

**DTC 202 - Principles of Human Nutrition**

A study of the functions and sources of nutrients as well as their role in health; topics include digestion, absorption and metabolism of energy nutrients; vitamin and mineral structure and function; energy balance and weight maintenance; eating disorders; nutrition and disease; food safety; and the world food situation.

**Credit Hours:** 3 hrs  
**Prerequisite:** CHEM 121 and CHEM 122  
**Notes:** Not open to students who take DTC 201, DTC 203 or DTC 204.  
**Last Updated:** Links 04/2011

**DTC 203 - Nutrition for Health Professionals**

Study of the functions, digestion, absorption and metabolism of nutrients in health and wellness. Application of principles of medical nutrition therapy in the provision of care to clients in acute/long-term/and ambulatory care settings.

**Credit Hours:** 3 hrs
DTC 204 - Sports Nutrition

Study of sources, functions, digestion, absorption and metabolism of nutrients. Emphasis on diet in athletic training and exercise science.

Credit Hours: 3 hrs
Prerequisite: CHEM 120
Major Restrictions: Sports Medicine Majors only
Last Updated: Links 04/2011

DTC 251 - Experimental Foods

Nature and reactions of food explained in terms of chemical composition, microbial flora and manipulative practices.

Credit Hours: 4 hrs
Prerequisite: CHEM 121 and CHEM 122 and BIO 328
Last Updated: Links 04/2011

DTC 258 - American Regional Foods (Gen Ed Area IV)

This course meets the requirements for a social sciences course in the General Education Program because it covers regional American foods and the history, culture, food products and cuisines of fifteen culinary regions. The culinary regions are defined through geography, homogeneous food culture of indigenous people, the food culture of first settlers, foods and cooking techniques brought by immigrants and economic viability.

Credit Hours: 3 hrs

Area IV: Knowledge of the Disciplines

DTC 258 American Regional Foods [effective Fall 2012]

DTC 258 meets the requirements for a social sciences course in the General Education Program because students will use historical methods, ethnographic methods, material culture, and quantitative methods to understand the relationships between food and the human experience. The course covers regional American foods and the history, culture, food products, and cuisines of fifteen culinary regions. Students will complete an interview, make observations including a household food inventory project and food waste/recycling project, and study physical objects to gain a fundamental
understanding of how social science research methods can be used to study regional American foods and culture. Therefore, DTC 258 fulfills the Social Science requirement of the General Education Program.

_Last Updated:_ General Education Approval, 7/2012 effective Fall 2012; New Course 03/2012

**DTC 277 - Special Topics**

An experimental course designed to investigate specific topics of concern in specialization areas.

*Credit Hours:* 1 hr  
*Prerequisite:* department permission

**DTC 278 - Special Topics**

An experimental course designed to investigate specific topics of concern in specialization areas.

*Credit Hours:* 2 hrs  
*Prerequisite:* department permission

**DTC 279 - Special Topics**

An experimental course designed to investigate specific topics of concern in specialization areas.

*Credit Hours:* 3 hrs  
*Prerequisite:* department permission

**DTC 302 - Nutrient Metabolism: Macronutrients**

A discussion of the biochemical and metabolic functions of carbohydrates, fats and proteins. Emphasis is on the cellular reactions and their relationships to human nutrition, health and disease.

*Credit Hours:* 3 hrs  
*Prerequisite:* DTC 202, CHEM 351 and department permission  
_Last Updated:_ Links 04/2011

**DTC 330 - Nutrition Therapy I**

Students will be introduced to the Nutrition Care Process, components of nutrition screening and assessment; topics in medical nutrition therapy relevant to gastrointestinal, cardiovascular, diabetes and pulmonary disease will be included as will an introduction to renal disease, acid-based balance and nutrition support with emphasis with an emphasis on enteral support.

*Credit Hours:* 3 hrs
**Prerequisite:** DTC 202, CHEM 351 and department permission  
**Major Restrictions:** Dietetics Majors and Nutrition Minors only  
**Last Updated:** Links 04/2011

**DTC 331 - Nutrition Therapy I Experience**

Supervised practice experience in the medical nutrition therapy professional environment. Emphasis is on nutrition assessment utilizing the Nutrition Care Process Model and ADI charting system.

**Credit Hours:** 2 hrs  
**Prerequisite:** DTC 202, CHEM 351, BIO 326 and department permission  
**Major Restrictions:** Dietetics Majors only  
**Last Updated:** Links 04/2011

**DTC 350 - Food Systems Management I**

Introduction to food systems management with emphasis on sanitation safety, equipment selection and operation, food purchasing, receiving and storage, and personnel management.

**Credit Hours:** 3 hrs  
**Prerequisite:** DTC 251 and department permission  
**Major Restrictions:** Dietetics Majors only  
**Last Updated:** Links 04/2011

**DTC 351 - Food Systems Management I Experience**

Supervised practice experiences related to food systems management including food production and distribution, procurement and customer satisfaction. Students also become certified in food safety.

**Credit Hours:** 4 hrs  
**Prerequisite:** DTC 251; department permission  
**Corequisites:** DTC 350  
**Major Restrictions:** Dietetics Majors only  
**Last Updated:** Links 04/2011

**DTC 358 - Food and Culture (Gen Ed Area III)**

Global food supply issues can be understood within the context of culture. This course explores factors influencing global food supply including: religion, culture, society, agricultural and livestock capabilities, environmental changes affecting food sources, malnutrition, overfeeding, fair trade agreements for growers/processors, food availability, industrialization, traditional health beliefs and intercultural communication.
Area III: Perspectives on a Diverse World

DTC 358 Food and Culture
This course addresses many global issues such as fair trade, agriculture, religion, cultural intolerances and social dynamics that influence food preferences and food habits. Fair trade issues are explored through study of small farms that grow coffee, tea, fruit, rice, and sugar and sell to processors and distributors under fair trade certification. This is compared to large commercial operations and/or purchasing through the middleman system in developing countries. Religious preference also has a great influence on food habits around the world.

This course meets the General Education Global Awareness category because students are exploring global issues through food and food habits, exploring their own culture and food habits, exploring social dynamics and cultural intolerances that influence food habits and analyzing information from diverse sources to make informed decisions regarding global issues.

DTC 370 - Nutrition Therapy II

Development, implementation, and evaluation of nutrition care plans for individuals requiring medical nutrition therapy for liver disease, cancer, weight management, transplant, HIV/AIDS, metabolic stress including burns, wounds, sepsis, pediatric nutrition and total parenteral nutrition (TPN).

Credit Hours: 3 hrs
Prerequisite: DTC 330 and department permission
Major Restrictions: Dietetics Majors only
Last Updated: Links 04/2011

DTC 371L - Nutrition Therapy II Experience (Gen Ed Area V LBC)

Supervised clinical and ambulatory site based practice experiences in the clinical nutrition professional environment.

Credit Hours: 4 hrs
Prerequisite: DTC 330, DTC 331 and department permission
Corequisites: DTC 370
Major Restrictions: Dietetics Majors only

Last Updated: Gen Ed Approval 11/2011, effective Fall 2011; Links 04/2011

DTC 372 - Nutrition of the Life Cycle
Emphasis on nutrient needs and influencing factors for each of the physiological stages of the life cycle.

Credit Hours: 3 hrs
Prerequisite: DTC 202, DTC 203 or DTC 204; and department permission
Last Updated: Links 04/2011

DTC 375 - Complementary and Alternative Medicine

This course provides an overview of current strategies to integrate fundamental concepts of nutrition, and health promotion using complementary therapies, phytochemicals, nutraceuticals and herbology to establish a healthy lifestyle.

Credit Hours: 3 hrs
Prerequisite: DTC 202, DTC 203 or DTC 204; and department permission
Last Updated: Links 04/2011

DTC 377 - Special Topics

An experimental course designed to investigate specific topics of concern in specialization areas.

Credit Hours: 1 hr
Prerequisite: department permission

DTC 378 - Special Topics

An experimental course designed to investigate specific topics of concern in specialization areas.

Credit Hours: 2 hrs
Prerequisite: department permission

DTC 379 - Special Topics

An experimental course designed to investigate specific topics of concern in specialization areas.

Credit Hours: 3 hrs
Prerequisite: department permission

DTC 422 - Nutrient Metabolism: Micronutrients

This course will explore the role of vitamins and minerals in basic biochemical pathways. The role of the micronutrients in these pathways will be integrated with nutritionally relevant physiological processes such as macronutrient metabolism, bone and collagen metabolism, erythropoiesis and gene expression.
DTC 430 - Nutrition Therapy III

Examination of federal, state, and local nutrition programs; conduct needs assessment in community and design appropriate education program.

DTC 431W - Nutrition Therapy III Experience (Gen Ed Area I, W, or Area V LBC)

Supervised practice experience in a variety of community settings with emphasis on nutrition education techniques and the operation of federal, state and local nutrition programs.

DTC 431W Nutrition Therapy III Experience [was DTC 431L]

A critical skill of the Registered Dietitian (RD) is the ability to communicate in a variety of ways including through the written word. RDs use this skill daily in their jobs, as well as during their educational years. Writing skills are essential in the dietetics field because they are used continuously and consistently throughout the career.

This course provides the opportunity for students to develop competence with a variety of genres used in the profession. One of these genres is health care documentation using the discipline-specific Nutrition Care Process. Students also learn to write for a variety of audiences by writing a legislative letter, a nutrition tip of the week article targeted at a general audience, and both health fair and education materials that are developed for more specific audiences. Students complete several additional assignments that have writing components including a strategic planning paper and flow of
The major assignment for this course is a 3-tier program planning project consisting of a community needs assessment, a program planning assignment, and two nutrition articles, one for professionals and one for a lay audience. Each of these assignments uses a different type of writing and is representative of writing across the discipline. Of the final grade in DTC 431W, almost 60% is based on writing assignments.

Due to the extensive writing in this course related to the role of the RD in the nutrition discipline, and instruction and support connected to that writing, DTC 431W fulfills the Writing Intensive requirement for the dietetics major.

**Last Updated:** Gen Ed Approval (WI) 03/2012, effective Fall 2012; Gen Ed Approval (LBC) 11/2011; Links 04/2011

**DTC 435 - Seminar in Dietetics**

Analysis and application of research topics and techniques as they apply to the field of dietetics.

- **Credit Hours:** 2 hrs
- **Prerequisite:** department permission
- **Class Restrictions:** Senior standing
- **Major Restrictions:** Dietetics Majors only

**DTC 450 - Food Systems Management II**

Advanced topics in food systems management including leadership, development of employees, accountability, budgeting, financial management, information management and managing change. Students will also prepare a professional portfolio.

- **Credit Hours:** 2 hrs
- **Prerequisite:** DTC 350, DTC 351 and department permission
- **Last Updated:** Links 04/2011

**DTC 451 - Food Systems Management II Experience**

Supervised practice experiences that include documentation of competencies related to advanced food systems management. Students plan and implement a theme meal, conduct employee training and a quality improvement project.

- **Credit Hours:** 4 hrs
- **Prerequisite:** DTC 350, DTC 351 and department permission
- **Corequisites:** DTC 450
- **Major Restrictions:** Dietetics Majors only
- **Last Updated:** Links 04/2011
DTC 459 - Development of Entrepreneurial Dietitian

This course emphasizes the role of the nutrition entrepreneur in the conceptualization, planning and marketing for a start-up enterprise or private practice. The focus will be on developing a business plan for a new venture and will consider legal and ethical issues in nutrition.

Credit Hours: 3 hrs
Prerequisite: DTC 108, DTC 202 and department permission
Major Restrictions: Intent to pursue Dietetics or acceptance to the Dietetics program
Last Updated: Links 04/2011

DTC 470 - Nutrition Therapy IV

Formulation, implementation, and evaluation of nutritional care plans for individuals requiring medical nutrition therapy focusing on abnormal nutrient metabolism, trauma and critical illness, examination of enteral and parenteral nutrition regimens, fluid electrolyte balance and acid-base management.

Credit Hours: 2 hr
Prerequisite: DTC 430 and department permission
Major Restrictions: Dietetics Majors only
Last Updated: Links 04/2011

DTC 471 - Nutrition Therapy IV Experience

Supervised practice experience in the medical nutrition therapy professional environment. Focus is on complicated disease states and the management of enteral and parenteral nutrition regimens.

Credit Hours: 4 hrs
Prerequisite: DTC 431W and department permission
Co-requisites: DTC 470
Major Restrictions: Dietetics Majors only
Last Updated: Links 04/2011

DTC 477 - Special Topics

An experimental course designed to investigate specific topics of concern in specialization areas.

Credit Hours: 1 hrs
Prerequisite: department permission

DTC 478 - Special Topics
An experimental course designed to investigate specific topics of concern in specialization areas.

**Credit Hours:** 2 hrs  
**Prerequisite:** department permission

**DTC 479 - Special Topics**

An experimental course designed to investigate specific topics of concern in specialization areas.

**Credit Hours:** 3 hrs  
**Prerequisite:** department permission

**DTC 479 - Independent Study**

Advanced study on an individual basis in areas in which the department does not offer a formal course.

**Credit Hours:** 1 hr  
**Prerequisite:** department permission

**DTC 497 - Independent Study**

Advanced study on an individual basis in areas in which the department does not offer a formal course.

**Credit Hours:** 2 hrs  
**Prerequisite:** department permission

**DTC 498 - Independent Study**

Advanced study on an individual basis in areas in which the department does not offer a formal course.

**Credit Hours:** 3 hrs  
**Prerequisite:** department permission

**Health Administration**

**HLAD 177 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 1 hr  
**Prerequisite:** department permission
HLAD 178 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs
Prerequisite: department permission

HLAD 179 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs
Prerequisite: department permission

HLAD 250 - Introduction to Public Health

This course will survey public health organizations, services, and the philosophical, legal and ethical complications of public health problems. Health status of populations, anticipation, prevention and responses to epidemics and other threats to community health will be discussed. Illustrations will be used from an international perspective.

Credit Hours: 3 hrs
Class Restrictions: Sophomore standing

HLAD 277 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr
Prerequisite: department permission

HLAD 278 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs
Prerequisite: department permission

HLAD 279 - Special Topics
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 3 hrs  
**Prerequisite:** department permission

**HLAD 287 - Cooperative Education in Health Education**

Employment for pay in a work setting chosen to provide practical experience related to health administration. The cooperative education sequence consists of two work experiences (HLAD287/387) alternating with full-time attendance at the University.

**Credit Hours:** 3 hrs  
**Class Restrictions:** Sophomore standing  
**Major Restrictions:** Health Administration Majors only

**HLAD 305 - The U.S. Health Care System**

A survey of important issues facing the health field: the U.S. health care system and the relationship between components; the changing nature of the health field and implications for the future.

**Credit Hours:** 3 hrs  
**Notes:** (encouraged in sophomore year or early junior year).

**HLAD 307W - Communication Effectiveness in Health Administration (Gen Ed Area I, W)**

This course offers a structured approach to the principal categories of formal communication within health care systems and organizations. The course highlights the need for precision and the uniqueness of the health care system as specialized venue for communications. The course includes formal writing, oral communications, writing for internal or external technical reports, proposals and evaluations. The course concludes with an assessment of evolving electronic media for communications within health systems.

**Credit Hours:** 3 hrs  
**Corequisites:** HLAD 305  
**Major Restrictions:** Health Administration Major and Intent

**Last Updated:** Links 04/2011

**HLAD 308 - Ethical Dimensions in Health Care Delivery**

This course presents information that students interested in the health professions may use to identify ethical situations and to resolve dilemmas they may face in their professional lives.
Credit Hours: 3 hrs

**HLAD 310 - Administration of Health Care Organizations**

Analysis of modern health care organizations with emphasis on management structure, boards of trustees, administration, physicians and others. Delivery of institutional patient care, role of professionals and other personnel, and departmental interrelatedness.

**Credit Hours: 3 hrs**  
**Prerequisite:** HLAD 305  
**Last Updated:** Prerequisites 03/2012; 2002

**HLAD 311 - Management of Health Services**

A continuation of HLAD 310, emphasizing quantitative methods in program implementation, control and evaluation. The administrative role in financial control, the legal aspects of control and the control of human resources is examined.

**Credit Hours: 3 hrs**  
**Prerequisite:** HLAD 310  
**Last Updated:** Links 04/2011

**HLAD 312 - Health Personnel Management and Development**

This course examines the concepts, models and methods used in managing and developing human resources in health care provider organizations as well as in the health care system as a whole.

**Credit Hours: 3 hrs**  
**Prerequisite:** HLAD 305  
**Last Updated:** Links 04/2011

**HLAD 315 - Research Methods and Data Analysis in Health Sciences**

Introduction to the application of statistical methods and research design to a range of practice and research problems in the health sciences.

**Credit Hours: 3 hrs**  
**Prerequisite:** college algebra

**HLAD 377 - Special Topics**
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 1 hr  
**Prerequisite:** department permission

**HLAD 378 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 2 hrs  
**Prerequisite:** department permission

**HLAD 379 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 3 hrs  
**Prerequisite:** department permission

**HLAD 387 - Cooperative Education in Health Education**

Employment for pay in a work setting chosen to provide practical experience related to health administration. The cooperative education sequence consists of two work experiences (HLAD 287/HLAD 387) alternating with full-time attendance at the University.

**Credit Hours:** 3 hrs  
**Prerequisite:** department permission  
**Last Updated:** Links 04/2011

**HLAD 390 - Poverty, Human Rights and Health (Gen Ed Area III)**

This interdisciplinary course examines connections between poverty, human rights and health, focusing on how social/political structures and public polices affect human well being. Prerequisite for HLAD 391/PLSC 391, experiential learning through a class trip to a developing country to meet community organizers and policy specialists working on poverty and health issues.

**Credit Hours:** 3 hrs  
**Class Restrictions:** Sophomore, Junior or Senior standing  
**Cross-Listed with:** PLSC 390
Area III: Perspectives on Diverse World

HLAD 390 Poverty, Human Rights and Health [effective Spring 2008]
Poverty is a central, if not the central, global problem of our time: it is connected to, or underlies, multiple problems and issues such as pandemics, regime instability, civil strife, terrorism and war. This course addresses the extent and causes of global economic inequality as well as the effects of profound poverty on health, human rights, human development and the quality of individual life. It explores the patterns of social, political and economic domination that sustain poverty and limit the opportunities of the very poor. Particular attention is devoted to the role of international economic institutions, multinational corporations and the advanced industrial nations, including the United States, in shaping the politics and economic development of countries and peoples in the global South. The course will also introduce students to international standards of human rights and the institutions and organizations that seek to protect those rights.

Last Updated: Links 04/2011

HLAD 391 - Field Study: Global Experience - Poverty, Human Rights and Health

Interdisciplinary course offering experiential learning through travel abroad to develop country to meet community organizers and policy specialists working on poverty and health issues. Examines connections between poverty, human rights and health, focusing on how social/political structures and public policies affect human well being.

Credit Hours: 3 hrs
Prerequisite: HLAD 390/PLSC 390
Class Restrictions: Sophomore, Junior or Senior standing
Cross-Listed with: PLSC 391

Last Updated: Links 04/2011

HLAD 401 - Legal Issues in Health Care

This is a survey of the laws that govern the health care system. Litigation, malpractice, contract, regulation, licensure of health care personnel and the use of human subjects in medical research are among the topics discussed.

Credit Hours: 3 hrs

HLAD 402 - Health Policy

This course provides an overview of the American political system, the policy process and the impact on health policy in the United States. Topics include structure of the U.S. political system, public policy process, evolution of the American health insurance system, governmental programs, financing of health care, and other health policy issues.
HLAD 416 - Health Planning

This course examines in detail the essence of health planning as practiced in the health care industry. Topics include the history of health planning, planning theory and conceptual foundations, public sector planning and policy-making, private-sector planning and health planning methods. Special emphasis is placed on health planning as an ongoing process that should be developed by health care organizations in order to be successful.

Credit Hours: 3 hrs
Prerequisite: HLAD 310

Last Updated: New Course 10/2011, effective Winter 2012

HLAD 417 - Health Regulation (TO BE DELETED)

This course will provide an overview of health care regulation from the perspective of providers, the government regulator and the general citizenry. Topics of discussion will include licensing and private accreditation, the regulation relating to cost containment, alternative delivery systems, health care reform, rate regulation and health planning.

Credit Hours: 3 hrs
Prerequisite: HLAD 310
Course Revisions:
Course Revisions: This course will be deleted, effective Summer 2013.

Last Updated: Course Deletion 09/2012, effective Summer 2013; Links 04/2011

HLAD 418 - Principles of Healthcare Finance Management

Principles of Healthcare Finance provides students with procedures and techniques that assist healthcare managers in accomplishing the health care organizations purpose.

Credit Hours: 3 hrs
Prerequisite: HLAD 305/HLAD 310 and ACC 240

Last Updated: Links 04/2011

HLAD 419 - Legal and Regulatory Issues in Health Care

This course examines the major legal and regulatory aspects of health care administration and the impact of the U.S. political system on health care systems. American political systems, litigation,
malpractice, contracts, statutes, regulations, and legal issues for health care personnel are among the topics discussed.

**Credit Hours:** 4 hrs  
**Prerequisite:** HLAD 310  
**Class Restrictions:** Junior standing or higher  
**Last Updated:** New Course 10/2011, effective Winter 2012

**HLAD 420 - Health Insurance and Reimbursement**

This course focuses on health insurance and other reimbursement methods. Key topics include private and public sectors insurance, underwriting principles, insurance contracts, inpatient and outpatient payment, mechanisms, regulations and reserves as they apply to the health care system.

**Credit Hours:** 3 hrs  
**Prerequisite:** HLAD 310  
**Last Updated:** Links 04/2011

**HLAD 421 - Managed Care**

This course will provide an overview of the managed-care industry. It will discuss the origins of managed care, the mechanics of managed care, and the effects of managed care across the various constituencies involved (purchaser, provider and patient). The role of managed care in the area of health reform will also be treated in some detail.

**Credit Hours:** 3 hrs  
**Prerequisite:** HLAD 420  
**Last Updated:** Links 04/2011

**HLAD 425 - Decision Making for Health Administrators**

The integration of many knowledge areas into health administration. A capstone course utilizing case studies, role playing, simulation and games.

**Credit Hours:** 3 hrs  
**Prerequisite:** HLAD 420  
**Last Updated:** Links 04/2011

**HLAD 460 - Long-Term Care Administration**

This course is for students seeking a career in long-term care services, or the regulation of long-term care. Long-term care includes care for the aged and other vulnerable people due to disease or trauma. Students will study the continuum of care and specific expectations of nursing home administrator
HLAD 476 - Introduction to Healthcare Informatics

This course introduces students to key management issues related to healthcare informatics, focusing on management strategies, evaluation methods, and strategic planning for systems and security management. The course provides advanced conceptual models, applications, methods, and management strategies related to information systems in health services organizations.

Credit Hours: 3 hrs
Prerequisite: HLAD 310 or HLAD 510
Class Restrictions: Senior standing
Last Updated: Links 04/2011

HLAD 477 - Special Topics

For seniors. Topics included will depend upon the interests of the students and the faculty member’s field of specialization. Topics generally include planning, regulation, and issues of special populations such as the homeless and prisoners.

Credit Hours: 1 hr
Prerequisite: department permission

HLAD 478 - Special Topics

For seniors. Topics included will depend upon the interests of the students and the faculty member’s field of specialization. Topics generally include planning, regulation, and issues of special populations such as the homeless and prisoners.

Credit Hours: 2 hrs
Prerequisite: department permission

HLAD 479 - Special Topics

For seniors. Topics included will depend upon the interests of the students and the faculty member’s field of specialization. Topics generally include planning, regulation, and issues of special populations such as the homeless and prisoners.
Credit Hours: 3 hrs  
Prerequisite: department permission

**HLAD 480 - Internship Seminar in Health Administration**

Seminar for those students taking an internship to provide a forum for the exchange of ideas and experiences.

Credit Hours: 2 hrs  
Prerequisite: HLAD 310 and department permission  
Last Updated: Links 04/2011

**HLAD 488 - Internship**

Internship to provide formally structured and directed work experience to assist in integrating classroom learning with professional perspectives and working requirements.

Credit Hours: 6 hrs  
Prerequisite: Program permission  
Concurrent Prerequisite: HLAD 480  
Last Updated: Links 04/2011

**HLAD 497 - Independent Study**

Under the supervision of a health administration faculty member, study in subjects not covered in other course offerings, or advanced study in areas of special interest to the student.

Credit Hours: 1 hr  
Prerequisite: program permission

**HLAD 498 - Independent Study**

Under the supervision of a health administration faculty member, study in subjects not covered in other course offerings, or advanced study in areas of special interest to the student.

Credit Hours: 2 hrs  
Prerequisite: program permission

**HLAD 499 - Independent Study**

Under the supervision of a health administration faculty member, study in subjects not covered in other course offerings, or advanced study in areas of special interest to the student.
Credit Hours: 3 hrs
Prerequisite: program permission

**HLAD 510 - Medical Care Organization**

A theoretical approach to the medical care system that allows the consideration of the key problems and issues such as DRG-based prospective payment, alternative delivery systems, and cost-quality tradeoffs.

Credit Hours: 3 hrs
Prerequisite: Minimum 2.8 GPA
Class Restrictions: Senior standing
Notes: This is a graduate course in an undergraduate program.

**Health Sciences**

**AHPR 177 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr
Prerequisite: department permission

**AHPR 178 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs
Prerequisite: department permission

**AHPR 179 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs
Prerequisite: department permission

**AHPR 196 - Introduction to Health Careers**
An introductory course designed to familiarize the student with careers in the health sciences. Various careers such as medical technology, nursing, dietetics, health administration, occupational therapy, medicine, clinical psychology, physical therapy and others will be presented by individuals in the respective disciplines. Education requirements, career opportunities, and clinical experience requirements will be highlighted.

Credit Hours: 2 hrs

**AHPR 200 - Medical Terminology**

A detailed study of medical terminology, through which students will achieve a working medical vocabulary. Anatomical terms and terminology relating to diseases and disease processes will be presented. This course is designed for students entering a health-related education program, and is a prerequisite for admission to the occupational therapy program.

Credit Hours: 1 hr
Last Updated: Grading Type 03/2012

**AHPR 277 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr

OCTH 287 - Cooperative Education in Occupational Therapy

A two-course sequence that provides a work position designed to offer experience related to occupational therapy while the student receives academic credit and financial support. Available to students pursuing the profession of occupational therapy at the freshmen, sophomore or junior levels. Consists of either full-time work experience alternating with full-time attendance at the University, or a combination of part-time work and academic courses. Cooperative education does not substitute for occupational therapy Fieldwork I or II.

Credit Hours: 3 hrs  
Prerequisite: Approval of the Cooperative Education Office and program permission  
Last Updated: Links 04/2011

OCTH 350 - Exploring Occupational Performance in the Context of a Disability

This course will provide opportunities for the student to reflect on the experiences of individuals with disabilities through the use of movies, documentaries, literary works, visual arts and a fieldwork experience. Students will explore the effect of the disability on the individual’s quality of life and discuss occupational dysfunction.

Credit Hours: 3 hrs

OCTH 377 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr  
Prerequisite: Department permission  
Last Updated: Links 04/2011

OCTH 378 - Special Topics
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 2 hrs  
**Prerequisite:** Department permission  
*Last Updated:* Links 04/2011

**OCTH 379 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 3 hrs  
**Prerequisite:** Department permission  
*Last Updated:* Links 04/2011

**OCTH 387 - Cooperative Education in Occupational Therapy**

A two-course sequence that provides a work position designed to offer experience related to occupational therapy while the student receives academic credit and financial support. Available to students pursuing the profession of occupational therapy at the freshmen, sophomore or junior levels. Consists of either full-time work experience alternating with full-time attendance at the University, or a combination of part-time work and academic courses. Cooperative education does not substitute for occupational therapy Fieldwork I or II.

**Credit Hours:** 3 hrs  
**Prerequisite:** OCTH 287  
*Last Updated:* Links 04/2011

**OCTH 412 - Models of Practice**

This course will introduce the student to the theories and models of practice that are the foundations of practice in occupational therapy. Models from other fields that inform the occupational therapist’s understanding of occupational performance will also be discussed. Students will analyze models and apply knowledge to selected cases.

**Credit Hours:** 3 hrs  
**Prerequisite:** EDP 325 or IHHS 260  
**Graduate Credit:** This is an undergraduate course available to graduate students for graduate credit.  
*Last Updated:* Graduate Credit 07/2011; Links 04/2011

**OCTH 419 - Programming I**
Students will have opportunities to learn methods of evaluating occupational performance issues present in selected conditions that affect the child from birth to adolescence. The effect of environmental, cultural, and social factors on occupational performance is emphasized. Students use critical thinking skills to develop intervention plans using theoretically sound techniques.

**Credit Hours:** 6 hrs  
**Prerequisite:** OCTH 412, OCTH 495, OCTH 500W, OCTH 502  
**Graduate Credit:** This is an undergraduate course available to graduate students for graduate credit.  
**Last Updated:** Graduate Credit 07/2011; Links 04/2011

**OCTH 420 - Level I Fieldwork I**

Exploring the role of an occupational therapist in a clinical setting.

**Credit Hours:** 3 hrs

**OCTH 477 - Special Topics**

Experimental courses or special topics in occupational therapy may be offered.

**Credit Hours:** 1 hr  
**Prerequisite:** Department permission  
**Last Updated:** Links 04/2011

**OCTH 478 - Special Topics**

Experimental courses or special topics in occupational therapy may be offered.

**OCTH 480 - Special Topics**
Experimental courses or special topics in occupational therapy may be offered.

**Credit Hours:** 4 hrs  
**Prerequisite:** Department permission  
**Last Updated:** Links 04/2011

**OCTH 495 - Neurological Foundations of Human Occupation**

Students will pursue knowledge in the neurosciences related to function and dysfunction of the central nervous system. Emphasis is placed on integrated brain function impacting daily living and occupational performance. Related clinical conditions will be correlated with research investigations that support appropriate and current interventions in occupational therapy.

**Credit Hours:** 3 hrs  
**Prerequisite:** BIO 330; EDPS 325 or IHHS 260  
**Graduate Credit:** This is an undergraduate course available to graduate students for graduate credit.  
**Last Updated:** Graduate Credit 07/2011; Links 04/2011

**OCTH 497 - Independent Study**

Independent work following an approved plan to develop knowledge in specialized areas.

**Credit Hours:** 1 hr  
**Prerequisite:** Department permission  
**Last Updated:** Links 04/2011

**OCTH 498 - Independent Study**

Independent work following an approved plan to develop knowledge in specialized areas.

**Credit Hours:** 2 hrs  
**Prerequisite:** Department permission  
**Last Updated:** Links 04/2011

**OCTH 499 - Independent Study**

Independent work following an approved plan to develop knowledge in specialized areas.

**Credit Hours:** 3 hrs  
**Prerequisite:** Department permission  
**Last Updated:** Links 04/2011

**OCTH 500W - Philosophy of Occupational Therapy (Gen Ed Area I, W)**
Through readings, classroom discussions and group experiences, the students will collectively develop an understanding of the philosophy of occupational therapy. This course includes analysis of experiences and examination of the documents of the profession to develop a view of occupational therapy practice today.

**Credit Hours:** 3 hrs  
**Prerequisite:** Admission to program  
**Notes:** This is a graduate course in an undergraduate program.

_Last Updated:_ Links 04/2011

**OCTH 502 - Theory and Analysis of Occupation**

Students will use laboratory, discussions, lecture, readings, observations and interviews as methods of learning about the science of occupation. This course places emphasis on the individual's experience of occupation, and the exploration of its personal, social and cultural meetings.

**Credit Hours:** 3 hrs  
**Notes:** This is a graduate course in an undergraduate program.

**OCTH 516 - Level I Community Fieldwork II**

Students will complete a part-time fieldwork experience in a community agency. Fieldwork experiences will be accompanied by a seminar.

**Credit Hours:** 3 hrs  
**Prerequisite:** OCTH 502 and BIO 330  
**Notes:** This is a graduate course in an undergraduate program.  
_Last Updated:_ Links 04/2011

**OCTH 517 - Level I Community Fieldwork III**

Students will complete a part-time fieldwork experience in a community agency or in an occupational therapy setting. Students will also participate in a directed seminar.

**Credit Hours:** 3 hours  
**Prerequisite:** OCTH 516, OCTH 640 and BIO 330  
**Corequisites:** OCTH 619  
**Notes:** This is a graduate course in an undergraduate program.  
_Last Updated:_ Links 04/2011

**OCTH 519 - Programming II**
Students will have opportunities to learn methods of evaluating occupational performance issues present in selected conditions that affect individuals from adolescence to middle adulthood. The effect of environmental, cultural and social factors on occupational performance is emphasized. Students use critical thinking skills to develop intervention plans using theoretically sound techniques.

**Credit Hours:** 6 hrs  
**Prerequisite:** OCTH 419 and OCTH 420  
**Corequisite:** OCTH 516  
**Class Restrictions:** Seniors and Master’s students only  
**Notes:** This is a graduate course in an undergraduate program.  
**Last Updated:** Links 04/2011

**OCTH 540 - Research Methods I**

This course introduces students to research methods used in occupational therapy. Students develop beginning skills in formulation of research questions, proposal development, approaches to design and implementation, and dissemination of results. Students choose research advisers and begin to participate in research with their adviser.

**Credit Hours:** 3 hrs  
**Prerequisite:** MATH 360, MATH 370, MATH 571, MATH 574, SOCL 250, EDPS 621 or EDPS 651  
**Class Restrictions:** Junior standing or above  
**Notes:** This is a graduate course in an undergraduate program.  
**Last Updated:** Links 04/2011

**OCTH 588 - Fieldwork Level II: Clinical Skills**

Students will be assigned to a 12-week fieldwork experience designed to develop and refine clinical skills. This may be completed on a part-time or a full-time basis.

**Credit Hours:** 6 hrs  
**Prerequisite:** Completion of all academic work and faculty approval  
**Notes:** This is a graduate course in an undergraduate program.  
**Last Updated:** Links 04/2011

**OCTH 589 - Fieldwork Level II: Clinical Skills**

Students will be assigned to a 12-week fieldwork experience designed to develop and refine clinical skills. This may be completed on a part-time or a full-time basis.

**Credit Hours:** 6 hrs  
**Prerequisite:** Completion of all academic work and faculty approval
OCTH 600 - Supervision and Professional Roles

This course covers the management of occupational therapy services in multiple environments. Students will learn grant-writing skills and complete a capstone project developing an OT program for use in a nontraditional setting.

Credit Hours: 3 hrs
Prerequisite: OCTH 517 and OCTH 619
Notes: This is a graduate course in an undergraduate program.
Last Updated: Links 04/2011

OCTH 619 - Programming III

Students will have the opportunity to learn methods of evaluating occupational performance issues that affect individuals from middle to older adulthood. The effect of environmental, cultural and social factors on occupational performance is emphasized. Students use critical thinking skills to develop intervention plans using theoretically sound techniques.

Credit Hours: 6 hrs
Prerequisite: OCTH 516 and OCTH 519
Corequisites: OCTH 517
Class Restrictions: Master's students only
Last Updated: Links 04/2011

OCTH 686 - Culminating Project I

Under the direction of their research adviser, students will carry out a research project and develop beginning proficiency in proposal development and research skills. The completion of the project will occur in OCTH 687.

Credit Hours: 3 hrs
Prerequisite: OCTH 540
Notes: This is a graduate course in an undergraduate program.
Last Updated: Links 04/2011

OCTH 687 - Culminating Project II

Under the direction of their research adviser, students will complete research projects begun in OCTH 686 and disseminate their findings. This is the culminating project in the research sequence of the master's of occupational therapy (MOT) degree.
**Therapeutic Recreation**

**THRC 100 - Foundation and Advancement of the Therapeutic Recreation Profession**

This course is designed as an introductory course to the therapeutic recreation profession. Historical development, accreditation regulations, professional development, credentialing, service models, advocacy, ethics and professional associations will be covered. Students will also develop an initial portfolio for their own professional preparation.

**Credit Hours:** 3 hrs  
**Last Updated:** Title and description change 5/2012; effective WINTER 2013

**THRC 177 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 1 hr  
**Prerequisite:** Department permission  
**Last Updated:** Links 03/2011

**THRC 178 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 2 hrs  
**Prerequisite:** Department permission  
**Last Updated:** Links 03/2011

**THRC 179 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 3 hrs
Prerequisite: Department permission

Last Updated: Links 03/2011

**THRC 180 - Activity Analysis and Adaption**

Develops the skills necessary to analyze activities to find inherent characteristics that contribute to program objectives for special populations. Components of activity analysis (physical, cognitive, affective and social/interactional skills) are studied in detail. Lecture, discussion and experiential learning.

Credit Hours: 2 hrs

**THRC 200 - Recreation for Persons with Disabilities**

This course is designed to familiarize students with the nature and scope of recreation for people with disabilities. The course will explore social, environmental and psychosocial issues that influence the leisure lifestyle of people with disabilities. Other topics include: barriers to leisure participation, activity adaptation and characteristics of diagnostic groups.

Credit Hours: 3 hrs

**THRC 250 - Fieldwork in Recreation Therapeutic Recreation**

An introductory course in fieldwork. Students select a site for recreation leadership within a community or clinical setting. Students spend 60 hours on-site and participate in five classroom meetings.

Credit Hours: 1 hr

Prerequisite: THRC 100

Last Updated: Links 03/2011

**THRC 251 - Fieldwork in Recreation Therapeutic Recreation**

An introductory course in fieldwork. Students select a site for recreation leadership within a community or clinical setting. Students spend 60 hours on-site and participate in five classroom meetings.

Credit Hours: 1 hr

Prerequisite: THRC 100

Last Updated: Links 03/2011

**THRC 252 - Fieldwork in Recreation Therapeutic Recreation**

An introductory course in fieldwork. Students select a site for recreation leadership within a community or clinical setting. Students spend 60 hours on-site and participate in five classroom meetings.
THRC 277 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr
Prerequisite: THRC 100
Last Updated: Links 03/2011

THRC 278 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs
Prerequisite: Department permission
Last Updated: Links 03/2011

THRC 279 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs
Prerequisite: Department permission
Last Updated: Links 03/2011

THRC 290 - Quality Improvement: Research Methods in Health Care

This course is designed to prepare the entry-level health care practitioner with a knowledge of continuous quality improvement techniques which focus on process and outcome measures relevant to individual disciplines. The student will develop an understanding of applied research methodology and its application to CQI development and evaluation.

Credit Hours: 3 hrs

THRC 300 - Principles of Therapeutic Recreation
Principles of Therapeutic Recreation is an introductory course designed to familiarize students with the diverse nature and scope of the therapeutic recreation profession. The course content includes an analysis of: historical and philosophical influences, service models, service settings, practice standards, ethics, quality improvement, credentialing, consulting and terminology.

**Credit Hours:** 3 hrs  
**Prerequisite:** THRC 100  
**Last Updated:** Links 03/2011

**THRC 310 - Leisure and Aging**

This course will examine the physical, psychological and affective characteristics of aging, implications of leisure and retirement, and recreational services provided in community and institutional settings.

**Credit Hours:** 3 hrs

**THRC 320 - Leisure Education**

Concepts and techniques of leisure education for use with all populations. Leisure awareness, social interaction skills, leisure activity skills and leisure resources. Educates the student as a provider of leisure services. Lecture, speakers, readings and participation.

**Credit Hours:** 3 hrs

**THRC 330 - Therapeutic Recreation: Substance Abuse**

The use of leisure and recreation in the prevention and/or rehabilitation of chemical dependency. Skill development in areas of leisure education, group dynamics, facilitation techniques, communication, values clarification, decision-making, games and sports, new games, socialization and outdoor/nature techniques, and family leisure education. Lectures, discussions and experiential learning.

**Credit Hours:** 3 hrs  
**Prerequisite:** THRC 100  
**Last Updated:** Links 03/2011

**THRC 340 - Therapeutic Recreation Processes I**

Introduction to specific techniques used in therapeutic recreation, including counseling theory, psychotherapies, medical terminology and transfers and lifts. Lecture, speakers, assessments and 30 hours of fieldwork.

**Credit Hours:** 3 hrs
Prerequisite: THRC 100

Last Updated: Links 03/2011

THRC 360 - Therapeutic Recreation Program Planning

This course is designed to provide the therapeutic recreation student with knowledge in the planning and development of programs to achieve goals, objectives and strategies through the use of structured and systematic interventions that improve client functioning and independence in life activities and leisure functioning.

Credit Hours: 3 hrs
Prerequisite: THRC 100
Last Updated: Links 03/2011

THRC 377 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr
Prerequisite: Department permission
Last Updated: Links 03/2011

THRC 378 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs
Prerequisite: Department permission
Last Updated: Links 03/2011

THRC 379 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs
Prerequisite: Department permission
Last Updated: Links 03/2011

THRC 400 - Therapeutic Recreation Process II
This course is designed to familiarize students with best-practice interventions used in the treatment/program planning process, medical record documentation and evaluation techniques. Emphasis will be placed on exploring established activity-based protocols and potentially new protocols applicable to rehabilitation and health promotion settings.

**Credit Hours:** 3 hrs  
**Prerequisite:** THRC 100  
**Last Updated:** Links 03/2011

**THRC 430W - Issues in Therapeutic Recreation (Gen Ed Area I, W)**

This required course is designed for the senior therapeutic recreation major. Students will gain an awareness of the current issues affecting the practice of therapeutic recreation.

**Credit Hours:** 3 hrs  
**Prerequisite:** THRC 200/THRC 300  
**Last Updated:** Gen Ed Approval 09/2011, effective Fall 2011; Links 03/2011

**THRC 449 - Therapeutic Recreation Practicum**

A full-time, 15-week, 600-hour experience in an approved hospital, outpatient or community setting under direction of a certified therapeutic recreation specialist and University supervisor. Leadership, supervisory and administrative experience of a practical nature.

**Credit Hours:** 8 hrs  
**Prerequisite:** Candidate status for a minimum of one semester prior to application for practicum; completion of 90 percent of all academic courses including THRC 100, THRC 200, THRC 250, THRC 260, THRC 300, THRC 340, THRC 360, THRC 400, THRC 460; completion of 250 hours of fieldwork; grade point average of 2.5 overall and 2.75 in all major classes  
**Last Updated:** Links 03/2011

**THRC 477 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 1 hr  
**Prerequisite:** Department permission  
**Last Updated:** Links 03/2011

**THRC 478 - Special Topics**
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 2 hrs  
**Prerequisite:** Department permission.  
**Last Updated:** Links 03/2011

**THRC 479 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 3 hrs  
**Prerequisite:** Department permission.  
**Last Updated:** Links 03/2011

**THRC 481 - Adapted Aquatics**

Aquatic instructional techniques in working with special populations including physically disabled, developmentally disabled, emotionally impaired and the aged. Lectures, films, swimming skills, adaptations of swimming skills and 20 hours of fieldwork.

**Credit Hours:** 2 hrs  
**Graduate Credit:** This is an undergraduate course available to graduate students for graduate credit.  
**Last Updated:** Graduate Credit 07/2011

**THRC 497 - Directed Study**

An opportunity for directed study in areas not covered in other course offerings, or greater depth of study in areas of continued interest for the student. Students will be assigned to select faculty members for direction, consultation, and evaluation of the completed study or project.

**Credit Hours:** 1 hr  
**Class Restrictions:** Junior standing or above only  
**Major Restrictions:** Department Majors and Minors only  
**Notes:** Open only to students who have attained a GPA of 3.0 or above and who have completed the appropriate background courses.

**THRC 498 - Directed Study**

An opportunity for directed study in areas not covered in other course offerings, or greater depth of study in areas of continued interest for the student. Students will be assigned to select faculty members for direction, consultation, and evaluation of the completed study or project.
Credit Hours: 2 hrs
Class Restrictions: Junior standing or above only
Major Restrictions: Department Majors and Minors only
Notes: Open only to students who have attained a GPA of 3.0 or above and who have completed the appropriate background courses.

THRC 499 - Directed Study

An opportunity for directed study in areas not covered in other course offerings, or greater depth of study in areas of continued interest for the student. Students will be assigned to select faculty members for direction, consultation, and evaluation of the completed study or project.

Credit Hours: 3 hrs
Class Restrictions: Junior standing or above only
Major Restrictions: Department Majors and Minors only
Notes: Open only to students who have attained a GPA of 3.0 or above and who have completed the appropriate background courses.
School of Nursing Programs and Courses

School of Nursing

Major

Nursing Major

The Nursing Program is approved by the State of Michigan Board of Nursing and is accredited by the Commission on Collegiate Nursing Education. The undergraduate curriculum leads to the Bachelor of Science in Nursing (B.S.N.) degree and requires the following courses to complete the 124 hours needed for graduation. Curriculum revisions may result in changes in the nursing courses listed below, as well as the pre-admission courses. Potential nursing students should consult with the College of Health and Human Services Advising Office for the most accurate information at 734.487.0918.

There are three options within the undergraduate Nursing Program at Eastern Michigan University:

1. Traditional B.S.N. - for students who are NOT already Registered Nurses and who do NOT possess a Baccalaureate Degree in another discipline.
2. R.N. to B.S.N. - for students who are already Registered Nurses (generally with a diploma or Associates Degree) who wish to obtain a Baccalaureate Degree in Nursing. This is the Nursing Major - B.S.N. Completion.
3. Second Degree (B.S.N.) - for students who possess a Baccalaureate Degree in another discipline and wish to obtain a Baccalaureate Degree in Nursing. This is the Nursing Major - B.S.N. Second Degree.

Traditional B.S.N. Option

Admission to the University and indication of intent to enter the nursing curriculum do not guarantee admission to the Nursing Program. Admission to the Nursing Program is a separate application and admission process. Prospective students should contact the College of Health and Human Services Advising Office at 734.487.0918 prior to their first semester and obtain a schedule of the School of Nursing information sessions. Plan to attend one of these sessions.

All completed applications must be received in the School of Nursing office (311 Marshall) by 5 p.m. on May 15 of each calendar year.

Applicants are considered for selection into the Nursing Program upon completion of the following pre-admission courses with a GPA of 3.0 or better:

1. Completion of Quantitative Reasoning (Gen Ed Area II) 3 hrs
2. CHEM 120 - Fundamentals of Organic and Biochemistry (Gen Ed Area IV) 4 hrs
3. ENGL 121 - Composition II: Researching the Public Experience (Gen Ed Area I) 3 hrs
4. PSY 101 - General Psychology Lecture (Gen Ed Area IV*) 3 hrs
5. One of the two options below:
   - SOCL 105 - Introductory Sociology (Gen Ed Area IV) 3 hrs
   - ANTH 135 - Introduction to Cultural Anthropology (Gen Ed Area III, IV) 3 hrs
6. One of the two options below:
   - IHHS 260 - Aging to Infancy: A Life Course Retrospective  3 hrs
   or
   - EDPS 325 - Life Span Human Growth and Development  4 hrs

7. One of the following two course sequences:
   - SPMD 201 - Human Anatomy for Sports Medicine 3 hrs
     and
   - SPMD 202 - Human Physiology for Sports Medicine 3 hrs
     OR
   - BIO 251 - Human Anatomy and Physiology I 4 hrs
     and
   - BIO 252 - Human Anatomy and Physiology II 4 hrs

Recommended:
NURS 110 - Recommended and counts toward points for admission to the program. Helps to prepare students for the rigor of the undergraduate curriculum.

The University may give credit for nursing courses taken at another college of university; however, the School reserves the right to make the final decision on course substitution based on examination of course materials. Requirements may vary based on prior education. Students must speak with a pre-admission counselor in the CHHS Intent Advising Office (734.387.0918) for details.

Additional factors that are considered for admission to the nursing program include:

- Official transcripts from all other schools and universities
- TOEFL score if English is a second language
- Completion of the ATI-TEAS examination (arranged during Winter term of freshman year)
- Science GPA
- Health Care related work experience
- Completion of course work at EMU versus other colleges and universities
- Math or English waiver with ACT/SAT/CLEP
- Satisfactory completion of NURS 110

Applicants must submit a criminal background check, physical examination, and drug screening in order to receive confirmation of admission to the Nursing Program.

Following admission to the Nursing Program, and prior to taking the 300-level nursing courses, students must successfully complete:

- DTC 203 - Nutrition for Health Professionals  3 hrs
  And
- Either BIO 328 - Introductory Microbiology  3 hrs
- or CLSC 432 - Clinical Microbiology  3 hrs
Nursing courses must be taken in the sequence specified by the School of Nursing.

**Program Total**
Students should plan carefully for the demanding nature of the Nursing Program and the extensive clinical hours required. Students must earn a minimum of 124 credits at the 100-level or above. The program requires five to six semesters of study and the School reserves the right to make changes in the curriculum as needed. To be eligible for graduation, the program (124 hours) must be completed within six calendar years from the date of enrollment in NURS 208. Eligibility to take the NCLEX exam (required to earn Registered Nurse licensure) is dependent upon graduation from the University with a B.S.N. degree.

**Academic and Professional Integrity**
Students are expected to assume responsibility for their learning, to support the ethics and goals of the profession and to value honesty in the fulfillment of scholarly and professional endeavors. Students must abide by the University code of conduct. Students who violate the University code of conduct will be subject to appropriate disciplinary action.

The School of Nursing recognizes its responsibilities to the public and to the nursing profession. Students and faculty must promote academic and professional integrity and take action when a violation of such integrity occurs. The School reserves the right to retain only those students who, in the judgment of the faculty, satisfy the requirements of scholarship, clinical competence, and professional and personal integrity suitable for nursing.

**Clinical Learning Experience**
Practical experience in nursing is provided through clinical learning experiences under the supervision of faculty in a variety of health care organizations, such as ambulatory care settings, acute care settings, medical centers, community hospitals, public schools, nursing homes, county public health agencies, and home health care agencies. Students are expected to provide their own transportation to clinical agencies.

**Other Options**
See catalog for B.S.N. - Completion and Second Degree options.

**School of Nursing Information:**

Interim School Director: Michael L. Williams, MSN, RN, CCRN, CNE
School Contact: michael.williams@emich.edu

**Adviser Information:**

Program Adviser: College of Health and Human Services Advising Center
Phone: 734.487.0918
Email: chhsadvising@emich.edu

**General Education Requirements:**

For specific requirements refer to the General Education Program.

**Major Requirements: 60 hours**

- NURS 208 - The Art and Science of Nursing I 2 hrs
- NURS 209 - The Art and Science of Nursing I Clinical 3 hrs
- NURS 220 - Health Assessment 2 hrs
- NURS 250 - The Art and Science of Nursing II 2 hrs
• NURS 251 - The Art and Science of Nursing II Laboratory 3 hrs
• NURS 260 - Pathophysiology 4 hrs
• NURS 270 - Pharmacology 3 hrs
• NURS 275 - Essentials of Professional Nursing Practice I 3 hrs
• NURS 304 - Nursing Care of Childbearing Families 2 hrs
• NURS 305 - Nursing Care of Childbearing Families Clinical 3 hrs
• NURS 306 - Child/Family Health Nursing 2 hrs
• NURS 307 - Child Family Health Nursing Laboratory 3 hrs
• NURS 330 - Adult Health Nursing I 2 hrs
• NURS 331 - Adult Health Nursing I Clinical 3 hrs
• NURS 350 - Psychiatric/Mental Health Nursing 2 hrs
• NURS 351 - Psychiatric/Mental Health Nursing Clinical 3 hrs
• NURS 372 - Nursing Research 2 hrs
• NURS 375W - Essentials of Professional Nursing Practice II (Gen Ed Area I, W) 3 hrs
• NURS 404 - Adult Health Nursing II 2 hrs
• NURS 405 - Adult Health Nursing II Clinical 3 hrs
• NURS 450 - Community Health Nursing 2 hrs
• NURS 451 - Community Health Nursing Clinical 3 hrs
• NURS 475 - Essentials of Professional Nursing Practice III 3 hrs

Program Total:

Students must earn a minimum total of 124 credits at the 100-level or above.

Notes:

Each student must choose a writing intensive course as part of major completion requirements. Consult your adviser for course options.

A program fee of $73.80 per credit hour is assessed on each nursing course with 300-level or higher designation.

Critical Graduation Information:

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

• Earn a minimum total of 124 credits at the 100-level and above. Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.
• Meet the requirements of the General Education program (see information below).
• Earn a minimum of 60 credits from a four-year college or university; courses taken at community colleges cannot be used to meet this requirement. (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
• Earn a minimum of 30 credits from courses taken at EMU.
• Complete 10 of the last 30 hours for the degree from courses taken at EMU.
• Have a minimum of 30 unique credit hours in their major and 20 unique credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.

• Not more than 60 credit hours in one subject area (prefix) may be applied towards the minimum of 124 credit hours required for a bachelor's degree.

• Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more that one major or minor.
  - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
  - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
  - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor

• Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is coordinated by the Office of Admissions, and additional documentation may be required.

• Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be earned in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

General Education Requirements:

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available on the General Education section of the catalog: General Education

• For Students who began their undergraduate program at EMU in Fall 2007 or later or who have elected to follow the current ("new") General Education Program, follow the "For Students" link under the Current Program heading.

• For Students who began their undergraduate program at EMU before Fall 2007 and who have elected to follow the Pre-2007 General Education Requirements, follow the "General Education Program Prior to Fall 2007 (pdf file)" link under the Program Prior to Fall 2007 heading. Please note that students who wish to graduate under pre-2007 General Education requirements must graduate by August 2014; those who have not completed all degree requirements by that time will need to satisfy the current (Fall 2007) General Education requirements.

Students who transferred to EMU may have modified general education requirements based on MACRAO or articulation agreements; consult your academic adviser for additional information.

University Information: Consult the online catalog at catalog.emich.edu.

Nursing Major - B.S.N. Completion

An active articulation agreement exists between this program and several community colleges. To see a complete list of current colleges with program articulation agreements with EMU, please click here.

Email: chhsadvising@emich.edu

General Education Requirements:

For specific requirements refer to the General Education Program. Download the Gen Ed Checklist here.

Additional Requirements: 25-28 hours

- BIO 328 - Introductory Microbiology 3 hrs
- CHEM 120 - Fundamentals of Organic and Biochemistry (Gen Ed Area IV) 4 hrs
- DTC 203 - Nutrition for Health Professionals 3 hrs
- PSY 101 - General Psychology Lecture (Gen Ed Area IV*) 3 hrs

One course from the following:

- EDPS 325 - Life Span Human Growth and Development 4 hrs
  or
- IHHS 260 - Aging to Infancy: A Life Course Retrospective 3 hrs

One course from the following:

- ANTH 135 - Introduction to Cultural Anthropology (Gen Ed Area III, IV) 3 hrs
  or
- SOCL 105 - Introductory Sociology (Gen Ed Area IV) 3 hrs

One of the following two course sequences:

Either

- SPMD 201 - Human Anatomy for Sports Medicine 3 hrs
  and
- SPMD 202 - Human Physiology for Sports Medicine 3 hrs

or

- BIO 251 - Human Anatomy and Physiology I 4 hrs
  and
- BIO 252 - Human Anatomy and Physiology II 4 hrs

Major Requirements: 60 hours
Required Courses: 55 hours

- NLN Exams or State of Michigan R.N. license (30 hrs)
- NURS 220 - Health Assessment 2 hrs
- NURS 260 - Pathophysiology 4 hrs
- NURS 270 - Pharmacology 3 hrs
- NURS 275 - Essentials of Professional Nursing Practice I 3 hrs
- NURS 372 - Nursing Research 2 hrs
- NURS 375W - Essentials of Professional Nursing Practice II (Gen Ed Area I, W) 3 hrs
- NURS 450 - Community Health Nursing 2 hrs
- NURS 451 - Community Health Nursing Clinical 3 hrs
- NURS 475 - Essentials of Professional Nursing Practice III 3 hrs

Restrictive Elective Courses: 5 hours

- Five hours in nursing

Program Total:

Students must earn a minimum total of 124 credits at the 100-level or above.

Notes:

Each student must choose a writing intensive course as part of major completion requirements. Consult your adviser for course options.

A program fee of $73.80 per credit hour is assessed on each nursing course with a 300-level or higher designation.

Critical Graduation Information:

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the 100-level and above. Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Earn a minimum of 60 credits from a four-year college or university; courses taken at community colleges cannot be used to meet this requirement. (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 unique credit hours in their major and 20 unique credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a
minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.

- Not more than 60 credit hours in one subject area (prefix) may be applied towards the minimum of 124 credit hours required for a bachelor's degree.
- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more that one major or minor.
  - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
  - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
  - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor.
- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is coordinated by the Office of Admissions, and additional documentation may be required.
- Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be earned in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

General Education Requirements:

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available on the General Education section of the catalog: General Education

- For Students who began their undergraduate program at EMU in Fall 2007 or later or who have elected to follow the current ("new") General Education Program, follow the "For Students" link under the Current Program heading.
- For Students who began their undergraduate program at EMU before Fall 2007 and who have elected to follow the Pre-2007 General Education Requirements, follow the "General Education Program Prior to Fall 2007 (pdf file)" link under the Program Prior to Fall 2007 heading. Please note that students who wish to graduate under pre-2007 General Education requirements must graduate by August 2014; those who have not completed all degree requirements by that time will need to satisfy the current (Fall 2007) General Education requirements.

Students who transferred to EMU may have modified general education requirements based on MACRAO or articulation agreements; consult your academic adviser for additional information.

University Information: Consult the online catalog at catalog.emich.edu.

Nursing Major - B.S.N. Second Degree

The second degree-BSN (SD-BSN) program sequence provides an opportunity for individuals who have a bachelor's degree in a discipline other than nursing to complete a B.S.N. in 16 months of full-time study. The same admission criteria apply as for the traditional B.S.N. program, plus three other prerequisite courses. Those three courses (pathophysiology, microbiology and therapeutic human nutrition) must be completed with a C or better before the admitted student is allowed to progress to the clinical nursing courses.

Please also see the Nursing Major Degree.

School of Nursing Information:
Nursing

NURS 110 - Introduction to Professional Nursing

This elective course identifies the nursing profession as an integral component in the health care arena. Students are introduced to this profession through seminar discussion and personal exploration.

Credit Hours: 2 hrs

Last Updated: 2/14/2011

NURS 177 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr

NURS 178 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs

NURS 179 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs

NURS 208 - The Art and Science of Nursing I

This introductory course examines professional nursing roles in health, health promotion, and illness prevention with a focus on the adult.

Credit Hours: 2 hrs

Corequisites: NURS 209

Major Restrictions: Nursing Majors only

Last Updated: 2/14/2011
NURS 209 - The Art and Science of Nursing I Clinical

This course provides the laboratory and clinical practice for the beginning nursing student. In the clinical experience the student will apply concepts learned in NURS 208, NURS 220 and NURS 275 and apply the skills necessary to provide basic nursing care to adults.

**Credit Hours:** 3 hrs  
**Corequisites:** NURS 208  
**Major Restrictions:** Nursing Majors only  
**Last Updated:** 2/14/2011

NURS 220 - Health Assessment

This course will introduce how to obtain a patient history, and perform a health and physical examination across the lifespan. Emphasis will focus on interviewing patients, hands on physical assessment, documentation and developing appropriate nursing diagnoses.

**Credit Hours:** 2 hrs  
**Corequisites:** NURS 275  
**Major Restrictions:** Nursing Majors only  
**Last Updated:** 2/14/2011

NURS 250 - The Art and Science of Nursing II

The course continues exploration of professional nursing and the development of knowledge and skills foundational to nursing care of adults in health and illness. Emphasis is placed on the nursing care of adults in the context of family and culture.

**Credit Hours:** 2 hrs  
**Prerequisite:** NURS 208, NURS 209, NURS 220 and NURS 275  
**Corequisites:** NURS 251, NURS 260, NURS 270  
**Major Restrictions:** Nursing Majors only  
**Last Updated:** 2/14/2011

NURS 251 - The Art and Science of Nursing II Laboratory

The course focuses on providing nursing care to adults in various health and illness states in inpatient health care settings.

**Credit Hours:** 3 hrs  
**Prerequisite:** NURS 208, NURS 209, NURS 220 and NURS 275  
**Corequisites:** NURS 250, NURS 260 and NURS 270  
**Major Restrictions:** Nursing Majors only  
**Last Updated:** 2/14/2011

NURS 260 - Pathophysiology

The course will concentrate on how physiologic functions are modified by disease processes and stress. All major physiologic functions will be presented. Knowledge gained from this course will provide the student with rationale for clinical decision making and action in related nursing courses.

**Credit Hours:** 4 hrs  
**Prerequisite:** NURS 208, NURS 209, NURS 220 and NURS 275
Corequisites: NURS 250, NURS 251 and NURS 270
Major Restrictions: Nursing Majors only
Last Updated: 2/14/2011

NURS 270 - Pharmacology

The course focuses on the basic concepts of pharmacology. The role and responsibility of the nurse for safe, legal, ethical and therapeutic drug therapy are developed.

Credit Hours: 3 hrs
Prerequisite: NURS 208, NURS 209, NURS 220 and NURS 275
Corequisites: NURS 250, NURS 251 and NURS 260
Major Restrictions: Nursing Majors only
Last Updated: 2/14/2011

NURS 275 - Essentials of Professional Nursing Practice I

This is the first in a sequence of three courses. The course introduces the foundational elements of professional nursing as identified by the American Association of Colleges of Nursing.

Credit Hours: 3 hrs
Corequisites: NURS 220
Major Restrictions: Nursing Majors only
Last Updated: 2/14/2011

NURS 277 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr
Major Restrictions: Nursing Majors only

NURS 278 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs
Major Restrictions: Nursing Majors only

NURS 279 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs
Major Restrictions: Nursing Majors only

NURS 304 - Nursing Care of Childbearing Families
This course focuses on maternal-newborn nursing with a family centered approach. The course encompasses the entire childbearing process, from preconception planning through pregnancy, birth and the postpartum period.

**Credit Hours:** 2 hrs  
**Prerequisite:** NURS 208, NURS 209, NURS 220, NURS 250, NURS 251, NURS 260, NURS 270 and NURS 275  
**Corequisites:** NURS 305, NURS 306 and NURS 307  
**Major Restrictions:** Nursing Majors only  
**Last Updated:** 2/14/2011

**NURS 305 - Nursing Care of Childbearing Families Clinical**

This course focuses on family theory in the care of childbearing families. Clinical experiences will occur in prenatal clinics and intra-partum and postpartum settings.

**Credit Hours:** 3 hrs  
**Prerequisite:** NURS 208, NURS 209, NURS 220, NURS 250, NURS 251, NURS 260, NURS 270 and NURS 275  
**Corequisites:** NURS 304, NURS 306 and NURS 307  
**Major Restrictions:** Nursing Majors only  
**Last Updated:** 2/14/2011

**NURS 306 - Child/Family Health Nursing**

This course is designed to provide theoretical and practical knowledge in the nursing care of children and families in wellness and illness states. Health promotion, maintenance and restoration are stressed to promote physical, psychosocial, mental and spiritual wellness.

**Credit Hours:** 2 hrs  
**Prerequisite:** NURS 208, NURS 209, NURS 220, NURS 250, NURS 251, NURS 260, NURS 270 and NURS 275  
**Corequisites:** NURS 304, NURS 305 and NURS 307  
**Major Restrictions:** Nursing Majors only  
**Last Updated:** 2/14/2011

**NURS 307 - Child Family Health Nursing Laboratory**

This course is designed to provide a variety of clinical experiences with healthy and ill children in acute care and community settings. These experiences are designed to facilitate sound clinical judgment and the development of leadership, collaboration, organization and management skills in pediatric clinical practice.

**Credit Hours:** 3 hrs  
**Prerequisite:** NURS 208, NURS 209, NURS 220, NURS 250, NURS 251, NURS 260, NURS 270 and NURS 275  
**Corequisites:** NURS 304, NURS 305 and NURS 306  
**Major Restrictions:** Nursing Majors only  
**Last Updated:** 2/14/2011

**NURS 330 - Adult Health Nursing I**

This course focuses on nursing care of adults and families with chronic illnesses and populations vulnerable to chronic illnesses. With a focus on critical thinking, the course emphasizes the application of nursing knowledge through teaching/learning, interdisciplinary collaboration, patient advocacy, and the coordination of care.

**Credit Hours:** 2 hrs  
**Prerequisite:** NURS 208, NURS 209, NURS 220, NURS 250, NURS 251, NURS 260, NURS 270 and NURS 275
Corequisites: NURS 331, NURS 350 and NURS 351
Major Restrictions: Nursing Majors only
Last Updated: 2/14/2011

NURS 331 - Adult Health Nursing I Clinical

This clinical course focuses on caring for adults with chronic illnesses. The needs of adults and family members are addressed as students practice primarily in inpatient settings. Special focus is placed on patient teaching and evidence-based interventions.

Credit Hours: 3 hrs
Prerequisite: NURS 208, NURS 209, NURS 220, NURS 250, NURS 251, NURS 260, NURS 270 and NURS 275
Corequisites: NURS 330, NURS 350 and NURS 351
Major Restrictions: Nursing Majors only
Last Updated: 2/14/2011

NURS 350 - Psychiatric/Mental Health Nursing

This course is designed to provide a foundation in professional psychiatric mental health nursing. Emphasis is placed on gaining knowledge of preventive interventions appropriate for provision of evidence-based, holistic nursing care to emotionally and mentally ill patients across the lifespan.

Credit Hours: 2 hrs
Prerequisite: NURS 208, NURS 209, NURS 220, NURS 250, NURS 251, NURS 260, NURS 270 and NURS 275
Corequisites: NURS 330, NURS 331 and NURS 351
Major Restrictions: Nursing Majors only
Last Updated: 2/14/2011

NURS 351 - Psychiatric/Mental Health Nursing Clinical

This course focuses on student collaboration with patients, faculty, and health care professionals in public and private inpatient psychiatric hospitals. Students learn traditional and nontraditional treatment approaches; use the nursing process and evidence-based research to provide holistic, culturally competent direct care.

Credit Hours: 3 hrs
Prerequisite: NURS 208, NURS 209, NURS 220, NURS 250, NURS 251, NURS 260, NURS 270 and NURS 275
Corequisites: NURS 330, NURS 331 and NURS 350
Major Restrictions: Nursing Majors only
Last Updated: 2/14/2011

NURS 372 - Nursing Research

This course will examine nursing research as it relates to nursing practice. Nursing research literature and the importance of evidence-based nursing practice will be examined. Ethical issues involved in nursing research, adequacy of existing research and application of nursing research will be explored.

Credit Hours: 2 hrs
Prerequisite: NURS 208, NURS 209, NURS 220, NURS 250, NURS 251, NURS 260, NURS 270 and NURS 275
Major Restrictions: Nursing Majors only
Last Updated: 2/14/2011

NURS 375W - Essentials of Professional Nursing Practice II (Gen Ed Area I, W)
This second of a three-course sequence builds knowledge of essential elements of professional nursing. This course builds on the foundational elements of professional nursing as identified by the American Association of Colleges of Nursing.

Credit Hours: 3 hrs  
Prerequisite: NURS 208, NURS 209, NURS 220, NURS 250, NURS 251, NURS 260, NURS 270 and NURS 275  
Major Restrictions: Nursing Majors only

Last Updated: Links 04/2011

NURS 377 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr  
Major Restrictions: Nursing Majors only

NURS 378 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs  
Major Restrictions: Nursing Majors only

NURS 379 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs  
Major Restrictions: Nursing Majors only

NURS 384 - Global Health Issues

This course explores contemporary issues in global health. Topics include health care systems, measurement and indicators of health status, emerging health problems in different countries, comparisons between developed and developing countries, and bioethics in international health care. Students will broaden and deepen their understanding of issues of health care across the globe.

Credit Hours: 3 hrs  
Last Updated: 2/15/11; effective Spring 2011

NURS 404 - Adult Health Nursing II

This course focuses on the nursing care of adults and families experiencing acute, chronic, and multiple complex health problems. Critical thinking, pathophysiology, and nursing research will be emphasized in order to prepare the student for caring for this patient population.

Credit Hours: 2 hrs  
Prerequisite: NURS 304, NURS 305, NURS 306, NURS 307, NURS 330, NURS 331, NURS 350, NURS 351, NURS 372 and
NURS 405 - Adult Health Nursing II Clinical

This course will assist the student in applying and synthesizing the principles necessary for caring for adults with complex medical-surgical problems. The primary emphasis will be attainment of advanced clinical performance in adult health nursing applying clinical reasoning, critical thinking, and leadership skills.

Credit Hours: 3 hrs
Prerequisite: NURS 304, NURS 305, NURS 306, NURS 307, NURS 330, NURS 331, NURS 350, NURS 351, NURS 372 and NURS 375W
Corequisites: NURS 404
Major Restrictions: Nursing Majors only
Last Updated: 2/14/2011

NURS 450 - Community Health Nursing

This course applies the concepts and principles from nursing and public health sciences. Approaches to health concerns include levels of prevention, health promotion, injury prevention, interdisciplinary practice, case finding, case coordination, ethical decision-making, community referrals, and cultural practices.

Credit Hours: 2 hrs
Prerequisite: NURS 304, NURS 305, NURS 306, NURS 307, NURS 330, NURS 331, NURS 350, NURS 351, NURS 372 and NURS 375W
Corequisites: NURS 451
Major Restrictions: Nursing Majors only
Last Updated: 2/14/2011

NURS 451 - Community Health Nursing Clinical

This course applies community health nursing concepts to the care of individuals, families, groups and communities in selected clinical settings. Nursing care will include health promotion, disease and injury prevention to diverse groups of people across the lifespan.

Credit Hours: 3 hrs
Prerequisite: NURS 304, NURS 305, NURS 306, NURS 307, NURS 330, NURS 331, NURS 350, NURS 351, NURS 372 and NURS 375W
Corequisites: NURS 450
Major Restrictions: Nursing Majors only
Last Updated: 2/14/2011

NURS 475 - Essentials of Professional Nursing Practice III

This third of a three-course sequence builds knowledge of essential elements of professional nursing as identified by the American Association of Colleges of Nursing (AACN).

Credit Hours: 3 hrs
Prerequisite: NURS 304, NURS 305, NURS 306, NURS 307, NURS 330, NURS 331, NURS 350, NURS 351, NURS 372 and NURS 375W
**NURS 477 - Special Topics**

Experimental courses or special topics in nursing may be offered.

**Credit Hours:** 1 hr  
**Prerequisite:** NURS 304, NURS 305, NURS 306, NURS 307, NURS 330, NURS 331, NURS 350, NURS 351, NURS 372 and NURS 375W  
**Major Restrictions:** Nursing Majors only  
**Last Updated:** 2/14/2011

**NURS 478 - Special Topics**

Experimental courses or special topics in nursing may be offered.

**Credit Hours:** 2 hrs  
**Prerequisite:** NURS 304, NURS 305, NURS 306, NURS 307, NURS 330, NURS 331, NURS 350, NURS 351, NURS 372 and NURS 375W  
**Major Restrictions:** Nursing Majors only  
**Last Updated:** 4/2011

**NURS 479 - Special Topics**

Experimental courses or special topics in nursing may be offered.

**Credit Hours:** 3 hrs  
**Prerequisite:** NURS 304, NURS 305, NURS 306, NURS 307, NURS 330, NURS 331, NURS 350, NURS 351, NURS 372 and NURS 375W  
**Major Restrictions:** Nursing Majors only  
**Last Updated:** 4/2011

**NURS 480 - Evidence Based Practice in Health Care**

This course explores the critical thinking and actions of evidence-based practice in nursing. Various means to access, evaluate and use evidence in nursing and health care are practiced. In addition to class discussions, students participate in web-based learning activities, independently exploring evidence-based guidelines in their areas of choice.

**Credit Hours:** 3 hrs

**NURS 482 - Management of Health Care Delivery: Disasters & Bioterrorism**

This foundational course is an examination of issues in natural and man-made disasters and bio terror events that impact the delivery of health care at local, state and national levels and the strategies necessary for preparedness, mitigation, response and evaluation in community environments. The course is designed to meet the knowledge needs and care preformed by pre-professional and professional health care providers; the lay public is also invited to join the course.

**Credit Hours:** 3 hrs  
**Cross-Listed with:** IHHS 482  
**Last Updated:** 4/2011
NURS 497 - Independent Study

A student may work with a faculty member independently to pursue a topic of interest to the student. Independent study is a student-initiated project.

Credit Hours: 1 hr
Major Restrictions: Nursing Majors only

NURS 498 - Independent Study

A student may work with a faculty member independently to pursue a topic of interest to the student. Independent study is a student-initiated project.

Credit Hours: 2 hrs
Major Restrictions: Nursing Majors only

NURS 499 - Independent Study

A student may work with a faculty member independently to pursue a topic of interest to the student. Independent study is a student-initiated project.

Credit Hours: 3 hrs
Major Restrictions: Nursing Majors only
School of Social Work Programs and Courses

School of Social Work

Major

Social Work Major

The Social Work Major leads to a bachelor of social work (BSW) and requires the following courses to complete the 124 hours needed for graduation. No outside minor is required.

An active articulation agreement exists between this program and several community colleges. To see a complete list of current colleges with program articulation agreements with EMU, please click here.

Admission Requirements

In addition to completing the University's General Education requirements, social work students complete a series of seven specific liberal arts courses in a variety of related disciplines (listed below as Liberal Arts Requirements) in order to build a foundation for their social work studies. Social work intent students also complete four pre-major social work courses (listed below as Required Courses: Pre-Major) prior to being admitted to the Major.

Admission requirements are as follows:

1. Students must complete a Social Work Admissions application. These are distributed in SWRK 251.

2. Students must earn a grade of C or higher in the following pre-major social work classes (again, listed below as Required Courses: Pre-Major):
   
   o SWRK 120 - Introduction to Social Work Services and Professional Roles (Ideally, this course should be taken either concurrently with or prior to the other pre-major courses)

   o SWRK 200 - Human Diversity and Social Justice

   o SWRK 222 - Social Welfare Policies and Services

   o SWRK 251 - Self Assessment and Development for Social Work (Ideally, this course should be taken concurrently with or after the other pre-major courses)

3. Students must complete a reflective essay in SWRK 251. The essay is designed to assist students in assessing their own "goodness of fit" with the values and ethics of the School of Social Work and the social work profession.

4. Students must earn a cumulative GPA of 2.3 or higher at the time of admission into the BSW program.

5. Students must complete forty (40) hours of volunteer service, internship experience, or employment within a human service setting.

School of Social Work Information:

Interim School Director: Lynn M. Nybell
School Contact: lynn.nybell@emich.edu
Website: http://www.emich.edu/sw/
General Education Requirements:

For specific requirements refer to the General Education Program. Download the Gen Ed Checklist here.

Liberal Arts Requirements: 27-30 hours

- ANTH 135 - Introduction to Cultural Anthropology (Gen Ed Area III, IV) 3 hrs
- BIO 105 - Introductory Biology for Non-majors (Gen Ed Area IV) 4 hrs
  or a 3 credit hour course in Human Biology
- PLSC 112 - American Government (Gen Ed Area IV) 3 hrs
- PSY 101 - General Psychology Lecture (Gen Ed Area IV*) 3 hrs
  or PSY 101 and PSY 103 (lecture and lab) for 4 credit hours.
- PSY 360 - Abnormal Psychology 3 hrs
- SOCL 105 - Introductory Sociology (Gen Ed Area IV) 3 hrs

One course from the following:

- EDPS 325 - Life Span Human Growth and Development 4 hrs
- IHHS 260 - Aging to Infancy: A Life Course Retrospective 3 hrs

Restricted Elective Courses: 6 hours

Students are required to take six credits in cross-cultural related courses. Completion of both sections of General Education Area III (with the exception of ANTH 135) will meet this requirement. Other courses outside of Area III may also count towards this requirement with departmental permission.

Major Requirements: 56 hours

Required Courses: Pre-Major: 10 hours

- SWRK 120 - Introduction to Social Work Services and Professional Roles 3 hrs
- SWRK 200 - Human Diversity and Social Justice 3 hrs
- SWRK 222 - Social Welfare Policies and Services 3 hrs
- SWRK 251 - Self Assessment and Development for Social Work 1 hr

Required Course: Major: 44 hours
• SWRK 315 - Theoretical Bases for Social Work Practice 3 hrs
• SWRK 317 - Foundations of Social Work Practice 3 hrs
• SWRK 318 - Practice I - Skill Integration Seminar 1 hr
• SWRK 319W - Writing for Agency Practice (Gen Ed Area I, W) 3 hrs
• SWRK 350L - Generalist Social Work Practice: Organizations and Communities (Gen Ed Area V LBC) 3 hrs
• SWRK 405 - Analysis and Change of Social Welfare Policies 3 hrs
• SWRK 408 - Generalist Social Work Practice with Individuals and Families 3 hrs
• SWRK 409 - Generalist Social Work Practice with Groups 3 hrs
• SWRK 430 - Social Work Evaluation and Research: Qualitative and Statistical Methods 4 hrs
• SWRK 450 - Practice Issues with Women 3 hrs
• SWRK 451 - Social Work Practice with People of Color 3 hrs
• SWRK 488 - Field Experience I 6 hrs
• SWRK 489 - Field Experience II 6 hrs

Social Work Elective: 3 hours

Minor Requirements:

This program does not require a minor.

Program Total:

Students must earn a minimum total of 124 credits at the 100-level or above.

Critical Graduation Information:

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

• Earn a minimum total of 124 credits at the 100-level and above. Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.
• Meet the requirements of the General Education program (see information below).
• Earn a minimum of 60 credits from a four-year college or university; courses taken at community colleges cannot be used to meet this requirement. (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
• Earn a minimum of 30 credits from courses taken at EMU.
• Complete 10 of the last 30 hours for the degree from courses taken at EMU.
• Have a minimum of 30 unique credit hours in their major and 20 unique credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
• Not more than 60 credit hours in one subject area (prefix) may be applied towards the minimum of 124 credit hours required for a bachelor's degree.
• Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more than one major or minor.
  o Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
  o Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
  o Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor

• Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is coordinated by the Office of Admissions, and additional documentation may be required.

• Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be earned in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

General Education Requirements:

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available on the General Education section of the catalog: General Education

• For Students who began their undergraduate program at EMU in Fall 2007 or later or who have elected to follow the current ("new") General Education Program, follow the "For Students" link under the Current Program heading.

• For Students who began their undergraduate program at EMU before Fall 2007 and who have elected to follow the Pre-2007 General Education Requirements, follow the "General Education Program Prior to Fall 2007 (pdf file)" link under the Program Prior to Fall 2007 heading. Please note that students who wish to graduate under pre-2007 General Education requirements must graduate by August 2014; those who have not completed all degree requirements by that time will need to satisfy the current (Fall 2007) General Education requirements.

Students who transferred to EMU may have modified general education requirements based on MACRAO or articulation agreements; consult your academic adviser for additional information.

University Information: Consult the online catalog at catalog.emich.edu.

Minor

Social Work Minor

This minor is compatible with disciplines where the college graduate will be in a helping role with people.

School of Social Work Information:

Interim School Director: Lynn M. Nybell
School Contact: lynn.nybell@emich.edu
Website: http://www.emich.edu/sw/

School of Social Work Advising
Required Courses: 9 hours

- SWRK 120 - Introduction to Social Work Services and Professional Roles 3 hrs
- SWRK 200 - Human Diversity and Social Justice 3 hrs
- SWRK 222 - Social Welfare Policies and Services 3 hrs

Elective Courses: 11-12 hours

11 to 12 hours selected in consultation with a social work adviser from social work elective courses.

Minor Total: 20-21 hours

Critical Graduation Information:

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the 100-level and above. Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Earn a minimum of 60 credits from a four-year college or university; courses taken at community colleges cannot be used to meet this requirement. (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 unique credit hours in their major and 20 unique credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
- Not more than 60 credit hours in one subject area (prefix) may be applied towards the minimum of 124 credit hours required for a bachelor's degree.
- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more than one major or minor.
  - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
  - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
  - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor
• Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is coordinated by the Office of Admissions, and additional documentation may be required.

• Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be earned in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

General Education Requirements:

EMU’s General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available on the General Education section of the catalog: General Education

Gerontology

GERT 177 - Special Topics

Specialized topics integral to the field of gerontology. Gerontology faculty members will select contemporary topics that are different from existing courses. Since topics change, a student may elect to take the course more than once.

Credit Hours: 1 hr
Prerequisite: department permission
Last Updated: 06/2011

GERT 178 - Special Topics

Specialized topics integral to the field of gerontology. Gerontology faculty members will select contemporary topics that are different from existing courses. Since topics change, a student may elect to take the course more than once.

Credit Hours: 2 hrs
Prerequisite: department permission
Last Updated: 06/2011

GERT 179 - Special Topics

Specialized topics integral to the field of gerontology. Gerontology faculty members will select contemporary topics that are different from existing courses. Since topics change, a student may elect to take the course more than once.
GERT 212 - Introduction to Gerontology

This course is designed to provide an exploration of the diverse dimensions of gerontology by studying contemporary issues relevant to the field. Students will gain an understanding of the domains of theory, research, education, practice, policy and service, all of which help to define the diverse nature of gerontology.

Credit Hours: 3 hrs
Prerequisite: department permission
Last Updated: 06/2011

GERT 219 - Around the World in 80 Years: Adult Development Across Culture (Gen Ed Area III)

Through the study of adult development, students will consider how the aging of the world's population is affecting diverse cultures, societies - and families - across the globe. Issues of social justice and empowerment related to population aging will be addressed, particularly the social, economic, political and policy consequences.

Credit Hours: 3 hrs
Cross-Listed with: ANTH 219, SOCL 219

Area III: Perspectives on a Diverse World

GERT 219 Around the World in 80 years
This Global Awareness Course offers students the opportunity to examine diverse cultures and countries through a social and demographic reality shared across the world: population aging. While variances exist in lifespan, every society and every country - whether industrialized Western or least industrialized African or Asian- is faced with the circumstance of adults living longer than ever before in their history. How each culture has historically dealt with and currently deals with its aging population, as well as aging individuals, offers a lens for considering the diversities and commonalities of societies around the world. Through the study of aging issues of global relations, social justice and empowerment will be addressed, particularly the social, economic, political and policy consequences.

GERT 379 - Special Topics

Specialized topics integral to the field of gerontology. Gerontology faculty members will select contemporary topics that are different from existing courses. Since topics change, a student may elect to take the course more than once.

Credit Hours: 3 hrs
Prerequisite: department permission
Last Updated: 06/2011

GERT 417 - Work and Retirement

Issues on the historical aspect of retirement, the realities of retirement, the necessity of preparing individuals for this significant part of their life-span, and work past the age of 65.

Credit Hours: 2 hrs
Class Restrictions: Junior, Senior or Graduate standing
Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.
Last Updated: Graduate Credit 07/2011; 06/2011

GERT 466 - Edna Gates Conference: Seminar on Dementia Care
This two-day seminar provides opportunity to participate in a premier regional conference on dementia care and network with hundreds of health care professionals. Experts will present on cutting edge developments in research and practice. Students will learn ways to develop partnerships with staff, people with dementia and their families.

**Credit Hours:** 1 hr  
**Class Restrictions:** Junior or Senior standing  
**Last Updated:** 06/2011

**GERT 477 - Special Topics**

Content will change from semester to semester. An experimental course for subject matter not yet provided in other program offerings. Students may elect this course more than once, provided different topics are covered.

**Credit Hours:** 1 hr  
**Prerequisite:** department permission  
**Last Updated:** 06/2011

**GERT 478 - Special Topics**

Content will change from semester to semester. An experimental course for subject matter not yet provided in other program offerings. Students may elect this course more than once, provided different topics are covered.

**Credit Hours:** 2 hrs  
**Prerequisite:** department permission  
**Last Updated:** 06/2011

**GERT 479 - Special Topics**

Content will change from semester to semester. An experimental course for subject matter not yet provided in other program offerings. Students may elect this course more than once, provided different topics are covered.

**Credit Hours:** 3 hrs  
**Prerequisite:** department permission  
**Last Updated:** 06/2011

**GERT 488 - Gerontology Practicum**

An aging focused internship provides integration of previous gerontology course work, life experience, knowledge, and skills in a practice based setting. This seminar course provides the opportunity to explore and to discuss the gerontological internship experience and to build new skills and understandings using supplemental practice information.

**Credit Hours:** 2 hrs  
**Prerequisite:** Completion of two courses in the gerontology minor or advising coordinator’s permission  
**Class Restrictions:** Senior standing  
**Graduate Credit:** This is an undergraduate course available to graduate students for graduate credit.  
**Last Updated:** Title and Description Change 12/2011, effective Winter 2012; Graduate Credit 07/2011; 06/2011

**GERT 489 - Gerontology Practicum**

An aging focused internship provides integration of previous gerontology course work, life experience, knowledge, and skills in a practice based setting. This seminar course provides the opportunity to explore and to discuss the gerontological internship
experience and to build new skills and understandings using supplemental practice information.

**Credit Hours:** 3 hrs  
**Prerequisite:** Completion of two courses in the gerontology minor or advising coordinator’s permission  
**Class Restrictions:** Senior standing  
**Graduate Credit:** This is an undergraduate course available to graduate students for graduate credit.  
**Last Updated:** Title and Description Change 12/2011, effective Winter 2012; Graduate Credit 07/2011; 06/2011

**GERT 497 - Independent Study**

Directed study in areas not provided in other course offerings or advanced study in areas of special interest to the student.

**Credit Hours:** 1 hr  
**Prerequisite:** department permission  
**Last Updated:** 06/2011

**GERT 498 - Independent Study**

Directed study in areas not provided in other course offerings or advanced study in areas of special interest to the student.

**Credit Hours:** 2 hrs  
**Prerequisite:** department permission  
**Last Updated:** 06/2011

**GERT 499 - Independent Study**

Directed study in areas not provided in other course offerings or advanced study in areas of special interest to the student.

**Credit Hours:** 3 hrs  
**Prerequisite:** department permission  
**Last Updated:** 06/2011

**GERT 509 - Older Adults and Chemical Dependency**

This course is a survey of the epidemiology, clinical presentation, public policy issues and current treatment models for geriatric chemical dependency. Emphasis will be placed on both clinical and policy issues related to access to treatment and the types of treatment available.

**Credit Hours:** 1 hr  
**Notes:** This is a graduate course in an undergraduate program.  
**Last Updated:** 06/2011

**GERT 511 - Elders and Their Families**

Examines the nature and significance of family and family-like relationships in later life, including long-term marriage, widowhood, divorce, remarriage, adult-to-adult/parent-child relationships, grandparenthood, siblingship and friendship.

**Credit Hours:** 2 hrs  
**Notes:** This is a graduate course in an undergraduate program.  
**Last Updated:** 06/2011
GERT 513 - Intergenerational Programs and Services

Learners will explore common connections between elders and youth, examine factors that support or hinder intergenerational relationships and develop an intergenerational program or service plan.

**Credit Hours:** 2 hrs  
**Notes:** This is a graduate course in an undergraduate program.  
**Last Updated:** 06/2011

GERT 515 - Sexuality and Aging

Examines factors affecting sexual expression, capacity and relationships in later life; considers special population needs/issues (e.g., disabled elders, homosexuality, sexuality and dementia, HIV/AIDS, women).

**Credit Hours:** 1 hr  
**Notes:** This is a graduate course in an undergraduate program.  
**Last Updated:** 06/2011

GERT 516 - The Elderly and the Law

This course discusses the legal issues and implications surrounding health care, long-term care, public entitlement programs, termination of life support, guardianship and alternatives, and intergenerational family issues.

**Credit Hours:** 1 hr  
**Notes:** This is a graduate course in an undergraduate program.  
**Last Updated:** 06/2011

GERT 517 - Developing Funding Proposals for Aging Programs

This course is designed to provide the students with grantsmanship theory and an introduction to the basic skills needed to research and select appropriate aging funders, and develop grant proposals for funding aging programs.

**Credit Hours:** 2 hrs  
**Notes:** This is a graduate course in an undergraduate program  
**Last Updated:** 06/2011

GERT 518 - Introduction to Alzheimer’s and Related Dementia

This introductory course provides an overview of Alzheimer’s disease and related dementias, the clinical features of progressive dementias, and impact on quality-of-life issues for families and individuals with dementia. Emphasis is placed on developing meaningful relations with persons with dementia and exploring innovative programs and services designed to accommodate dementia-related changes throughout the continuum of illness.

**Credit Hours:** 2 hrs  
**Class Restrictions:** Senior standing with permission. Certificate, Masters and Doctoral candidates.  
**Notes:** This is a graduate course in an undergraduate program.  
**Last Updated:** 06/2011

GERT 523 - Designing Programs for People with Dementia
This seminar examines issues involved in designing meaningful programs that address the cognitive, physical and psychosocial needs of persons with dementia. A fieldwork assignment provides students the opportunity to design, implement and evaluate a small group program. Students may choose a site for this assignment.

**Credit Hours:** 2 hrs  
**Notes:** This is a graduate course in an undergraduate program.  
**Last Updated:** 06/2011

**GERT 524 - Families and Dementia**

This class looks at family care giving of people with dementia by addressing primary concerns, needs, assessment issues and interventions appropriate to the early, middle and late stages of dementia, and the period after the family member's death.

**Credit Hours:** 2 hrs  
**Notes:** This is a graduate course in an undergraduate program.  
**Last Updated:** 06/2011

**GERT 526 - Behaviors in Dementia**

Behaviors in Dementia identifies factors that influence behaviors common in individuals with dementia— including unmet needs, biological, psychological and environmental causes. Strategies are discussed to develop interventions for target behaviors and implementation of person-centered treatment plans.

**Credit Hours:** 2 hrs  
**Last Updated:** 07/2011

**GERT 528 - Advanced Issues in Dementia Care**

Seminar focuses in depth on assessment and treatment of Alzheimer's disease, dementia with Lewy bodies, picks, Creutzfeldt Jakob disease and related disorders. An interdisciplinary team will facilitate discussions on specialized care issues. Students will participate in an innovative service-learning project involving in-home respite.

**Credit Hours:** 2 hrs  
**Notes:** This is a graduate course in an undergraduate program.  
**Last Updated:** 06/2011

**GERT 532 - Aging Through the Eyes of the Old**

Course is designed to provide students with an opportunity to learn what it is to experience being old by reading journals and books written by or about older people who use their writings to come to terms with old age. Also, the class will delve into a number of theories that are helpful for understanding that aging process and the readings. Film, music and storytelling will be part of the learning experience.

**Credit Hours:** 2 hrs  
**Notes:** This is a graduate course in an undergraduate program.  
**Last Updated:** 06/2011

**GERT 590 - Special Topics**

Content will change from semester to semester. An experimental course for subject matter not yet provided in other program offerings. Students may elect this course more than once, provided different topics are covered. Not more than six hours of
special topics may be used on a degree program.

Credit Hours: 1 hr
Notes: This is a graduate course in an undergraduate program.
Last Updated: 06/2011

Social Work

SWRK 120 - Introduction to Social Work Services and Professional Roles

An overview of the social work profession including its philosophy, values, professional roles, current trends and models in varied practice arenas as criminal justice, mental health, child and family services, public welfare services and medical and industrial settings.

Credit Hours: 3 hrs
Notes: Concurrent registration in SWRK222/251 is permitted, but not required.

SWRK 177 - Special Topics

Specialized topics integral to contemporary social work practice. Social work faculty members will select contemporary topics that are different from existing social work courses. Since topics change, a student may take the course more than once.

Credit Hours: 1 hr

SWRK 178 - Special Topics

Specialized topics integral to contemporary social work practice. Social work faculty members will select contemporary topics that are different from existing social work courses. Since topics change, a student may take the course more than once.

Credit Hours: 2 hrs

SWRK 179 - Special Topics

Specialized topics integral to contemporary social work practice. Social work faculty members will select contemporary topics that are different from existing social work courses. Since topics change, a student may take the course more than once.

Credit Hours: 3 hrs

SWRK 200 - Human Diversity and Social Justice

This course introduces students to a framework for understanding the implications of human diversity for social work practice. Dimensions of diversity addressed include race, class and gender, along with ethnicity, sexual orientation and privilege. Students develop the basis for sensitive, competent social work practice and social justice advocacy.

Credit Hours: 3 hrs

SWRK 222 - Social Welfare Policies and Services

A survey of welfare institutions and policies in their historical and modern contexts. American social welfare services as related to the economic, political and sociocultural conditions, and prevailing ideologies.
Credit Hours: 3 hrs
Notes: Concurrent registration in SWRK 120 and SWRK 251 is permitted, but not required.

Course Revisions:
Course Revisions: This course will have a prerequisite change from "SWRK 120" to "none," effective Winter 2013.
Last Updated: Prerequisite Change 09/2012, effective Winter 2013; Links 03/2011

SWRK 251 - Self Assessment and Development for Social Work

This course is required for admission to the Social Work program. It is designed to help students to self-assess their personal preparation for the social work profession. Exercises will help students explore their own values, particularly with respect to culture, gender and sexual orientation. Students will learn about the social work program sequence and requirements. Opportunities will be provided for learning about working in groups, being assertive and developing skills for educational survival.

Credit Hours: 1 hr
Prerequisite: SWRK 222
Concurrent Prerequisite: SWRK 120, SWRK 200 and SWRK 222
Major Restrictions: Social Work Intent students only

Course Revisions:
Course Revisions: This course will have a prerequisite change from "SWRK 120 and/or SWRK 222" to "none," effective Winter 2013. The course revision also includes a concurrent prerequisite change from "none" to "SWRK 120, SWRK 200 and SWRK 222" and a major restriction change from "none" to "Social Work Intent students only."
Last Updated: Prerequisite, Concurrent Prerequisite and Major Restriction Change 09/2012, effective Winter 2013; Links 03/2011

SWRK 254 - The Social Work Profession and Social Service Policies

This course is an overview of the development of the social work profession distinguishing features, including social work values and ethics, and the historical development of social welfare policies and programs. In addition, students will learn about social work roles and settings. This course is designed for students who intend to be social work majors. It is not open to students who have already completed SWRK 120 and/or SWRK 222.

Credit Hours: 4 hrs
Concurrent Prerequisite: SWRK 251

Last Updated: Fall 1994

SWRK 277 - Special Topics

Specialized topics integral to contemporary social work practice. Social work faculty members will select contemporary topics that are different from existing social work courses. Since topics change, a student may take the course more than once.

Credit Hours: 1 hr
Prerequisite: Department permission
Last Updated: Links 03/2011

SWRK 278 - Special Topics

Specialized topics integral to contemporary social work practice. Social work faculty members will select contemporary topics that are different from existing social work courses. Since topics change, a student may take the course more than once.

Credit Hours: 2 hrs
Prerequisite: Department permission
Last Updated: Links 03/2011

**SWRK 279 - Special Topics**

Specialized topics integral to contemporary social work practice. Social work faculty members will select contemporary topics that are different from existing social work courses. Since topics change, a student may take the course more than once.

Credit Hours: 3 hrs
Prerequisite: Department permission
Last Updated: Links 03/2011

**SWRK 315 - Theoretical Bases for Social Work Practice**

Integrating, supplementing, and translating into social work practice students’ knowledge of human beings and their social environments. The purposes for which the social work professional intends to use the knowledge and the values that form the base of professional practice.

Credit Hours: 3 hrs
Concurrent Prerequisite: EDPS 325 or IHHS 260; BIO 105; ANTH 135; PSY 101; SOCL 105; PSY 360
Major Restrictions: Social Work Majors only
Last Updated: Links 03/2011; Prerequisite/Corequisite Change 06/2011, effective Fall 2011

**SWRK 317 - Foundations of Social Work Practice**

The first course in a sequence of social work practice, designed to prepare the student for field experience. Relationship building, information gathering and preliminary assessment and contracting.

Credit Hours: 3 hrs
Concurrent Prerequisite: SWRK 315
Corequisites: SWRK 318
Major Restrictions: Social Work Majors only
Last Updated: 01/2007, effective Spring 2007; Credit Hour/Corequisite/Concurrent Prerequisite Change 06/2011, effective Fall 2011

**SWRK 318 - Practice I - Skill Integration Seminar**

This seminar is a co-requisite of SWRK 317. The seminar focuses on practicing the skills explored during the lecture. Students engage in videotaped role-plays for feedback and skill refinement.

Credit Hours: 1 hr
Concurrent Prerequisite: SWRK 315
Corequisites: SWRK 317
Class Restrictions: Sophomore
Major Restrictions: Social Work Majors only
Last Updated: Prerequisite and Corequisite Change 06/2011, effective Fall 2011; 11/2007, effective Spring 2008

**SWRK 319W - Writing for Agency Practice (Gen Ed Area I, W)**

This course is a writing intensive course, preparing students for the professional writing components of professional, agency-based practice. The course will sensitize students to the agency-based demands and issues associated with professional social
work practice while developing professional writing skills focused on a simulated client situation.

**Credit Hours:** 3 hrs  
**Concurrent Prerequisite:** SWRK 315  
**Class Restrictions:** Sophomore, Junior, Senior  
**Major Restrictions:** Social Work Majors only

Social work practice requires that record-keeping be accountable, efficient, and that it protect the client's privacy. Good records are concise, specific, relevant, clear, logical, timely, meaningful, and useful. Records are grounded in fact, professional ethics, and accepted theory. Above all, high quality records are well organized and well written. This Writing Intensive course is based on the philosophy that the most effective way to improve student social work record-keeping skills is to practice writing actual social work records. To this end, the course will be modeled after a writing lab, where each week students will be working on a particular social work record-keeping document, such as an Intake Form, Social History, Plan of Care, Case Notes, Advocacy Letter, and using a simulated case this is the focus of the Social Work practice course SWRK 317 in which students are concurrently enrolled.

**Last Updated:** 12/2007, effective Winter 2008; Corequisite and Concurrent Prerequisite Change 06/2011, effective Fall 2011

**SWRK 350L - Generalist Social Work Practice: Organizations and Communities (Gen Ed Area V LBC)**

This course provides generalist practice skills in organizations and communities, supported by a service-learning experiential component. Students will learn a range of macro practice assessment and intervention skills to promote improvements in social service organizations, social welfare systems and communities for the purpose of empowerment, social and economic justice and social change.

**Credit Hours:** 3 hrs  
**Concurrent Prerequisite:** SWRK 315, SWRK 317 and SWRK 318  
**Class Restrictions:** Junior or Senior standing only  
**Major Restrictions:** Social Work Majors only  
**Previously Listed As:** SWRK 388 and SWRK 410

Students in this course learn skills that enable them to promote improvements in social service organizations, social welfare systems, and communities for the purpose of empowerment, social and economic justice, and social change. They do this by working in groups to participate in activities that serve and enhance the community. Each student contributes at least 40 hours of such service. Through these experiences, students develop leadership, acquire skills in working collaboratively with others, prepare themselves for their careers, and broaden their understanding and empathy for others in the community.

**Last Updated:** 02/2008, effective Winter 2008; Prerequisite and Concurrent Prerequisite Change 06/2011, effective Fall 2011

**SWRK 375 - Working with Youth in Care**

Students explore the effects of child abuse and placement on adolescent development and necessary worker skill adaptations. The course sensitizes students to the unique needs of older youth in foster care/group living and explores strength-based/youth development approaches to service. Skills needed for social work and residential practice are developed.

**Credit Hours:** 3 hrs

**SWRK 377 - Special Topics**

Specialized topics integral to contemporary social work practice. Social work faculty members will select contemporary topics that are different from existing social work courses. Since topics change, a student may take the course more than once.

**Credit Hours:** 1 hr  
**Prerequisite:** Department permission

**Last Updated:** Links 03/2011
SWRK 387 - Cooperative Education in Social Work

Employment for pay in a work setting chosen to provide practical experience related to social work. The cooperative education sequence is alternating with full-time attendance at the University. Students who wish to substitute a cooperative education course for the practicum component of SWRK 388 must enroll in SWRK 388 concurrently with one of the cooperative courses. Cooperative education does not substitute for the field placement courses required of all social work majors.

**Credit Hours:** 3 hrs  
**Prerequisite:** SWRK 120, approval of the Cooperative Education Office and department permission  
**Class Restrictions:** Sophomore standing  
**Last Updated:** Links 03/2011

---

SWRK 405 - Analysis and Change of Social Welfare Policies

Current social policy and its intended and unintended effects on client populations. Policy analysis and strategies and methods for policy change.

**Credit Hours:** 3 hrs  
**Prerequisite:** PLSC 112, SWRK 315, SWRK 317, SWRK 318 and SWRK 319W  
**Major Restrictions:** Social Work Majors only  
**Last Updated:** 04/2009; effective Fall 2010

---

SWRK 408 - Generalist Social Work Practice with Individuals and Families

This course provides students with a framework for generalist social work practice with individuals and families. Content includes practice values, models of assessment and phases of planned sequential change.

**Credit Hours:** 3 hrs  
**Prerequisite:** SWRK 315, SWRK 317, SWRK 318 and SWRK 319W  
**Concurrent Prerequisite:** SWRK 350L  
**Major Restrictions:** Social Work Majors only  
**Last Updated:** 12/2009, effective Spring 2009; Prerequisite and Concurrent Prerequisite Change 06/2011, effective Fall 2011

---

SWRK 409 - Generalist Social Work Practice with Groups

This course explored generalist practice with groups. Students learn how to analyze group situations in different domains of social work practice. Students develop skills to intervene at both the group and the individual levels and how to develop mutual aid and empowerment among the members of the social work group.

**Credit Hours:** 3 hrs  
**Prerequisite:** SWRK 315, SWRK 317, SWRK 318 and SWRK 319W  
**Concurrent Prerequisite:** SWRK 350L  
**Major Restrictions:** Social Work Majors only  
**Last Updated:** 01/2009, effective Spring 2009; Prerequisite and Concurrent Prerequisite Change 06/2011, effective Fall 2011

---

SWRK 413 - Women and Aging

Designed to provide social work, women’s studies, and gerontology students with the skills and sensitivity to understand the issues, needs and positive attributes of women as they grow older. Students will examine the lives of women in special groups, such as older minority women, caregivers, widows and institutionalized elderly women. Students will learn skills to provide effective services to older women in a variety of human service settings.
SWRK 420 - Working with Aging People

The role of social worker with aged people. The delivery of social services to the aged with a focus on practice approaches and techniques unique to various social service settings.

SWRK 430 - Social Work Evaluation and Research: Qualitative and Statistical Methods

This course introduces knowledge and develops skills in research and practice evaluation from a social work empowerment perspective that is sensitive to diversity and social justice. Students will develop competencies in evaluation of professional literature, qualitative and quantitative methods, research skills, assessment and in utilizing technologies through a laboratory experience.

SWRK 431 - Substance Abuse

Current approaches to the prevention and treatment of drug and alcohol abuse. Consideration of the physiological, psychological and social impact of substance abuse on the individual, the family, and the community. The role of the social worker in prevention and treatment.

SWRK 435 - Group Work with Children and Families

Social group work theory and practice as a relevant way to work with children and families. Group process as it occurs in natural groups and the effect of this process on individual behavior. Techniques that can be built into the group to effect client change.

SWRK 440 - Issues in Mental Health Practice
Issues in mental health practice with emphasis on deinstitutionalization, community mental health and the role of the entry-level social worker.

Credit Hours: 3 hrs
Major Restrictions: Social Work Majors and Minors only or department permission

SWRK 443 - Assessment Issues in Domestic Violence

This course will explore violence in the home, focusing primarily on spouse or partner abuse and touching on elder abuse, sexual abuse and child abuse and neglect. Students will learn how to make domestic violence social work assessments.

Credit Hours: 3 hrs
Major Restrictions: Social Work Majors and Minors only or department permission

SWRK 450 - Practice Issues with Women

This course provides a critical examination of the potential of social policies and programs, community, organizations and practice interventions to challenge women's systematic disadvantage and enhance women's welfare. Intervention strategies that give voice to women's strengths and address their unique needs are learned while exploring the diversity of women's lives. Issue of work income maintenance, family life, health, sexuality and community are addressed as they impact women.

Credit Hours: 3 hrs
Prerequisite: SWRK 315, SWRK 317, SWRK 318, SWRK 319W and SWRK 350L
Concurrent Prerequisite: SWRK 408 and SWRK 409
Major Restrictions: Social Work Majors only
Last Updated: 01/2007, effective Spring 2007; Prerequisite and Concurrent Prerequisite Changes 06/2011, effective Fall 2011

SWRK 451 - Social Work Practice with People of Color

This course is a required undergraduate course intended to prepare students for cultural competent generalist practice with people of color. The course helps students apply culturally appropriate knowledge, skills and values in their work with clients. Special attention is given to pressing regional concerns impacting clients of color and describes ways students can become active change agents as they strive to respond to the needs of agency clients.

Credit Hours: 3 hrs
Prerequisite: SWRK 315, SWRK 317, SWRK 318, SWRK 319W and SWRK 350L
Concurrent Prerequisite: SWRK 408 and SWRK 409
Major Restrictions: Social Work Majors only
Last Updated: 01/2007, effective Spring 2007; Prerequisite and Concurrent Prerequisite Change 06/2011, effective Fall 2011

SWRK 457 - Separation, Loss and Grief

Separation, loss and grief as integral aspects of the human experience. Practice issues and applications addressing the impact of loss, separation and grief on client and societal systems.

Credit Hours: 1 hr
Major Restrictions: Social Work Majors and Minors only or department permission

SWRK 460 - The Law and Social Work with the Family
Social workers and lawyers frequently find themselves working together dealing with issues and problems involving individuals and families, such as in cases of divorce, child abuse and neglect, child custody, delinquency and mental health. Legal and social work perspectives in terms of client rights, needs and professional goals. Social work practice in the family court arena.

**Credit Hours:** 3 hrs

**Major Restrictions:** Social Work Majors and Minors only or department permission

**Graduate Credit:** This is an undergraduate course available to graduate students for graduate credit.

**Last Updated:** Graduate Credit 07/2011

### SWRK 462 - Practice with Lesbian, Gay, Bisexual and Transgender Persons

This course exposes students to a wide array of life experiences of lesbian, gay, bi-atractional and transgender persons by listening to their own words — spoken, written, on film and through personal interviews. It develops a deeper contextual knowledge and understanding of life courses taken by sexual minorities.

**Credit Hours:** 3 hrs

**Cross-Listed with:** WGST 462

**Last Updated:** Links 03/2011

### SWRK 463 - Social Work Practice with Legal Offenders

Professional roles and appropriate practice skills utilized by social workers and allied professionals in working with legal offenders.

**Credit Hours:** 3 hrs

**Major Restrictions:** Social Work Majors and Minors only or department permission

**Graduate Credit:** This is an undergraduate course available to graduate students for graduate credit.

**Last Updated:** Graduate Credit 07/2011

### SWRK 467 - Crisis Intervention

Systems in crisis including different types of crises, indications of a system in crisis and crisis intervention strategies.

**Credit Hours:** 2 hrs

**Major Restrictions:** Social Work Majors and Minors only or department permission

### SWRK 477 - Special Topics

Specialized topics integral to contemporary social work practice. Social work faculty members will select contemporary topics that are different from existing social work courses. Since topics change, a student may take the course more than once.

**Credit Hours:** 1 hr

**Prerequisite:** (SWRK 120 and SWRK 222) or SWRK 251 and SWRK 254 or Department permission

**Last Updated:** Links 03/2011

### SWRK 478 - Special Topics

Specialized topics integral to contemporary social work practice. Social work faculty members will select contemporary topics that are different from existing social work courses. Since topics change, a student may take the course more than once.

**Credit Hours:** 2 hrs
**SWRK 479 - Special Topics**

Specialized topics integral to contemporary social work practice. Social work faculty members will select contemporary topics that are different from existing social work courses. Since topics change, a student may take the course more than once.

**Credit Hours:** 3 hrs

**Prerequisite:** (SWRK 120 and SWRK 222) or SWRK 251 and SWRK 254 or Department permission

**Last Updated:** Links 03/2011

**SWRK 488 - Field Experience I**

Field experience designed to meet the learning needs of students and the standards of professional social work education. Professional standards are fixed; however, learning needs of students may vary. Field experience designed to meet the learning needs of students and the standards of professional social work education. Professional standards are fixed; however, learning needs of students. The field placement agency, in consultation with the School of Social Work, provides learning experiences and supervision at the senior level. Open only to students with an overall GPA of 2.3 or better in social work courses. Student may not be on academic probation.

**Credit Hours:** 6 hrs

**Prerequisite:** SWRK 350L and department permission

**Major Restrictions:** Social Work Majors only

**Last Updated:** Links 03/2011

**SWRK 489 - Field Experience II**

A continuation of SWRK 488.

**Credit Hours:** 6 hrs

**Prerequisite:** A student must receive a C or better in SWRK 488, have an overall GPA of 2.3 or better in social work courses, not be on academic probation and have Department permission.

**Corequisites:** SWRK 488

**Major Restrictions:** Social Work Majors only

**Notes:** Concurrent registration in SWRK 405, SWRK 408, SWRK 409, SWRK 410, SWRK 430, SWRK 452, SWRK 460 and SWRK 489 is permitted, but not required.

**Last Updated:** Links 03/2011

**SWRK 490 - Senior Thesis Seminar**

This is the capstone course for students completing the honors program in social work. A senior thesis or project is completed in consultation with the faculty member.

**Credit Hours:** 3 hrs

**Prerequisite:** Member of Honors College

**Major Restrictions:** Social Work Majors only
Military Science and Leadership Programs and Courses

Military Science and Leadership

Minor

Military Science and Leadership Minor

Military Science and Leadership Department Information:

Department Head: LTC Michael C. Wise
Department Contact: mwise2@emich.edu
Website: http://armyrotc.com/edu/easternmi/

Adviser Information:

Program Adviser: LTC Michael C. Wise
Email: mwise2@emich.edu
Phone: 734.487.6802

Required Courses: 20 hours

Students must take all of the following courses unless granted advanced placement. Students electing a minor in military science may not use this minor to fulfill the state secondary provisional certificate requirement of a teaching minor.

- MSL 101 - Foundations of Officership 2 hrs
- MSL 102 - Basic Leadership 2 hrs
- MSL 201 - Individual Leadership Studies 2 hrs
- MSL 202 - Leadership and Teamwork 2 hrs
- MSL 301 - Leadership and Problem Solving 3 hrs
- MSL 302 - Leadership and Ethics 3 hrs
- MSL 401 - Adaptive Leadership 3 hrs
- MSL 402 - Leadership in a Complex World 3 hrs

Minor Total: 20 hours

Critical Graduation Information:

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the 100-level and above. Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses
will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.

- Meet the requirements of the General Education program (see information below).
- Earn a minimum of 60 credits from a four-year college or university; courses taken at community colleges cannot be used to meet this requirement. (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 unique credit hours in their major and 20 unique credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
- Not more than 60 credit hours in one subject area (prefix) may be applied towards the minimum of 124 credit hours required for a bachelor's degree.
- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more that one major or minor.
  - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
  - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
  - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor
- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is coordinated by the Office of Admissions, and additional documentation may be required.
- Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be earned in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

General Education Requirements:

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available on the General Education section of the catalog: General Education

- For Students who began their undergraduate program at EMU in Fall 2007 or later or who have elected to follow the current ("new") General Education Program, follow the "For Students" link under the Current Program heading.
- For Students who began their undergraduate program at EMU before Fall 2007 and who have elected to follow the Pre-2007 General Education Requirements, follow the "General Education Program Prior to Fall 2007 (pdf file)" link under the Program Prior to Fall 2007 heading. Please note that students who wish to graduate under pre-2007 General Education requirements must graduate by August 2014; those who have not completed all degree requirements by that time will need to satisfy the current (Fall 2007) General Education requirements.

Students who transferred to EMU may have modified general education requirements based on MACRAO or articulation agreements; consult your academic adviser for additional information.

University Information: Consult the online catalog at catalog.emich.edu.

Military Science and Leadership

MSL 101 - Foundations of Officership
Introduces students to issues and competencies that are central to a commissioned officer’s responsibilities. Established framework for understanding officership, leadership, and Army values. Includes "life skills" such as physical fitness training, time management, stress management, group dynamics and briefing skills.

**Credit Hours:** 2 hrs  
**Notes:** Requires medical fitness statement, DA Form 3425-R, signed by physician. Pick up form at 18 Roosevelt prior to the first day of class.  
**Last Updated:** Requirements Added 11/2011

**MSL 102 - Basic Leadership**

Establishes foundation of basic leadership fundamentals such as problem solving, communications, briefings, effective writing, goal-setting, techniques for improving listening and speaking skills, an introduction to counseling, additional physical fitness training and time management training.

**Credit Hours:** 2 hrs  
**Prerequisite:** MSL 101 or department permission  
**Notes:** Requires medical fitness statement, DA Form 3425-R, signed by physician. Pick up form at 18 Roosevelt prior to the first day of class.  
**Last Updated:** Requirements Added 11/2011; Links 04/2011

**MSL 201 - Individual Leadership Studies**

Students identify successful leadership characteristics through observation of others and self through experimental learning exercises. Students record observed traits (good and bad) in a dimensional leadership journal and discuss observations in small group settings, additional physical fitness training and additional time management training.

**Credit Hours:** 2 hrs  
**Prerequisite:** MSL 101, MSL 102 or department permission  
**Notes:** Requires medical fitness statement, DA Form 3425-R, signed by physician. Pick up form at 18 Roosevelt prior to the first day of class.  
**Last Updated:** Requirements Added 11/2011; Links 04/2011

**MSL 202 - Leadership and Teamwork**

Students examine how to build successful teams, various methods for influencing action, effective communication in setting and achieving goals, the importance of timing the decision, creativity in the problem-solving process and obtaining team buy-in through immediate feedback and additional physical fitness training.

**Credit Hours:** 2 hrs  
**Prerequisite:** MSL 101, MSL 102, MSL 201 or department permission  
**Notes:** Requires medical fitness statement, DA Form 3425-R, signed by physician. Pick up form at 18 Roosevelt prior to the first day of class.  
**Last Updated:** Requirements Added 11/2011; Links 04/2011

**MSL 301 - Leadership and Problem Solving**

Students conduct self-assessment of leadership style, develop personal fitness regimen, and learn to plan and conduct individual/small unit tactical training while testing reasoning and problem-solving techniques. Students receive direct feedback on leadership abilities.

**Credit Hours:** 3 hrs
**MSL 302 - Leadership and Ethics**

Examines the role communications, values and ethics play in effective leadership. Topics include ethical decision-making, consideration of others, spirituality in the military and survey Army leadership doctrine. Emphasis on improving oral and written communication abilities, as well as, additional physical fitness training.

**Credit Hours:** 3 hrs  
**Prerequisite:** MSL 101, MSL 102, MSL 201, MSL 202, MSL 301 or department permission  
**Last Updated:** Links 04/2011

**MSL 401 - Adaptive Leadership**

Develops student proficiency in planning and executing complex operations, functioning as a member of a staff and mentoring subordinates. Students explore training management, methods of effective staff collaboration and developmental counseling techniques along with additional physical fitness training.

**Credit Hours:** 3 hrs  
**Prerequisite:** MSL 101, MSL 102, MSL 201, MSL 202, MSL 301, MSL 302 or department permission  
**Previously Listed As:** MSL 401 - Leadership and Management  
**Last Updated:** Course Name Change 02/2012, effective Fall 2012; Links 04/2011

**MSL 402 - Leadership in a Complex World**

Study includes case study analysis of military law and practical exercises on establishing an ethical command climate. Students must complete a semester-long Senior Leadership Project that requires them to plan, organize, collaborate, analyze, demonstrate their leadership skills and additional physical fitness training. This course is designed to transition the student/cadet to service as a second lieutenant in the Army or for government service, i.e. U.S. Army history.

**Credit Hours:** 3 hrs  
**Prerequisite:** MSL 101, MSL 102, MSL 201, MSL 202, MSL 301, MSL 302, MSL 401 or department permission  
**Previously Listed As:** MSL 402 - Officership  
**Last Updated:** Course Name Change 02/2012, effective Fall 2012; Links 04/2011

**MSL 497 - Independent Study**

Intensive study or project approved by the department head. Study or project is directly related to a military subject.

**Credit Hours:** 1 hr  
**Prerequisite:** department permission

**MSL 498 - Independent Study**

Intensive study or project approved by the department head. Study or project is directly related to a military subject.

**Credit Hours:** 2 hrs  
**Prerequisite:** department permission

**MSL 499 - Independent Study**
Intensive study or project approved by the department head. Study or project is directly related to a military subject.

**Credit Hours:** 3 hrs

**Prerequisite:** department permission
School of Engineering Technology Programs and Courses

School of Engineering Technology

Major

Applied Technology Major

The applied technology major is designed to serve those individuals who wish to continue their technology-related community college education. The program offers the flexibility of accepting a block of up to 34 credits of technical courses as transfer credit. Articulation agreements have been established with several community colleges to ensure the maximum transfer of credits. Students transferring from other four-year higher education institutions with a technical major may also find this major suitable.

An active articulation agreement exists between this program and several community colleges. To see a complete list of current colleges with program articulation agreements with EMU, please click here.

School of Engineering Technology Information:

School Director: Bob Lahidji
School Contact: bob.lahidji@emich.edu
Website: http://www.emich.edu/set/

General Education Requirements:

For specific requirements refer to the General Education Program.

Major Requirements: 75 hours

Required Courses: 20 hours

- CHEM 117 - Fundamentals of Chemistry-Lecture (Gen Ed Area IV) 3 hrs
- CHEM 118 - Fundamentals of Chemistry Laboratory (Gen Ed Area IV) 1 hr
- MATH 105 - College Algebra (Gen Ed Area II) 3 hrs
- MATH 107 - Plane Trigonometry 2 hrs
- PHY 221 - Mechanics, Sound and Heat (Gen Ed Area IV) 4 hrs
- PHY 222 - Electricity and Light 4 hrs
- SET 350W - Engineering Communication (Gen Ed Area I, W) 3 hrs

Restricted Elective Courses: 6 hours

Select six hours of restricted electives in consultation with an adviser.
Restricted MFG Elective Courses: 15 hours

Select 15 hours at the 300- and 400-level in consultation with an adviser.

Technical Courses: 34 hours

Up to 34 hours of transferred technical courses may be applied to this major.

Minor Requirements:

This program does not require a minor.

Electives Courses: 9 hours

Program Total:

Students must earn a minimum total of 124 credits at the 100-level or above.

Note:

Each student must choose a writing intensive course as part of major completion requirements. Consult your adviser for course options.

Critical Graduation Information:

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the 100-level and above. Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement. **Computer Engineering Technology Major**

The computer engineering technology program applies scientific, computer, and engineering knowledge, combined with technical skills, in support of computerized activities. The computing field is one of the fastest growing segments of industry, and the program is developed to include many application aspects of computer engineering technology. The graduates generally apply the theories and principles to design, analyze, produce, operate, program and maintain computer and digital control systems. In addition, the curriculum includes the study of engineering database management and engineering information technology. Graduates are employed in industry as computer engineers, computer architecture designers, software engineers and engineering information technologists.

**General Education Requirements:**

For specific requirements refer to the General Education Program.
Major Requirements: 83-89 hours

Required Courses: 80-83 hours

- Writing Intensive Course (3 hrs)
- CET 151 - Introduction to Computing in Engineering Technology 3 hrs
- CET 353 - Web Development for Engineering Applications 3 hrs
- CET 387 - Cooperative Education in Computer Engineering Technology 3 hrs
- CET 427 - Programmable Logic Controller 3 hrs
- CET 451 - Engineering Database Development 3 hrs
- CET 453 - Engineering Programming 3 hrs
- CET 491 - Senior Design Capstone 3 hrs
- COSC 211 - Programming Data Structures 3 hrs
- COSC 246 - Programming in C++ 3 hrs
- COSC 311 - Algorithms and Data Structures 3 hrs
- ELEC 200 - Circuit Analysis I 3 hrs
- ELEC 214 - Digital Circuit Analysis I 3 hrs
- ELEC 215 - Computer-Aided Electronics 3 hrs
- ELEC 218 - Motors and Controls 3 hrs
- ELEC 300 - Analog Circuit Analysis I 3 hrs
- ELEC 320 - Microcomputer Circuits 3 hrs
- ET 100 - Introduction to Engineering Technology 3 hrs
- ET 101 - Introduction to Engineering Technology Computing 1 hr
- IS 380 - Introduction to Databases 3 hrs
- OM 374 - Introduction to Operations Management 3 hrs
- PDD 122 - Engineering Graphics 4 hrs

One of the following:

- MATH 120 - Calculus I (Gen Ed Area II) 4 hrs
- MATH 140 - Applied Trigonometry and Calculus I for Technology (Gen Ed Area II) 4 hrs

One of the following:

- MATH 121 - Calculus II 4 hrs
- MATH 141 - Applied Calculus II for Technology 3 hrs

One of the following:

- PHY 221 - Mechanics, Sound and Heat (Gen Ed Area IV) 4 hrs
- PHY 223 - Mechanics and Sound (Gen Ed Area IV) 5 hrs

One of the following:

- PHY 222 - Electricity and Light 4 hrs
• PHY 224 - Electricity and Light 5 hrs

Restricted Electives: 3-6 hours

Three hours from the following selected in consultation with an adviser:

• CET 426 - Engineering Product Information 3 hrs
• COSC 221 - Computer Organization I 3 hrs
• COSC 321 - Computer Organization II 3 hrs
• ELEC 314 - Digital Circuit Analysis II 3 hrs
• ELEC 420 - Advanced Microprocessors 3 hrs
• IS 315 - Object-Oriented Application Development 3 hrs
• MATH 122 - Elementary Linear Algebra 3 hrs
• MATH 325 - Differential Equations 3 hrs
• MET 223 - Descriptive Geometry 2 hrs
• PDD 111 - Materials 3 hrs
• PDD 123 - Manufacturing Processes 4 hrs
• PHY 230 - Engineering Dynamics 4 hrs

Minor Requirements:

This program does not require a minor.

Program Total:

Students must earn a minimum total of 124 credits at the 100-level or above.

Critical Graduation Information:

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

• Earn a minimum total of 124 credits at the 100-level and above. Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.
• Meet the requirements of the General Education program (see information below).
• Earn a minimum of 60 credits from a four-year college or university; courses taken at community colleges cannot be used to meet this requirement. (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
• Earn a minimum of 30 credits from courses taken at EMU.
• Complete 10 of the last 30 hours for the degree from courses taken at EMU.
• Have a minimum of 30 unique credit hours in their major and 20 unique credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
• Not more than 60 credit hours in one subject area (prefix) may be applied towards the minimum of 124 credit hours required for a bachelor's degree.

• Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more that one major or minor.
  - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
  - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
  - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor

• Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is coordinated by the Office of Admissions, and additional documentation may be required.

• Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be earned in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

General Education Requirements:

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available on the General Education section of the catalog: General Education

• For Students who began their undergraduate program at EMU in Fall 2007 or later or who have elected to follow the current ("new") General Education Program, follow the "For Students" link under the Current Program heading.
• For Students who began their undergraduate program at EMU before Fall 2007 and who have elected to follow the Pre-2007 General Education Requirements, follow the "General Education Program Prior to Fall 2007 (pdf file)" link under the Program Prior to Fall 2007 heading. Please note that students who wish to graduate under pre-2007 General Education requirements must graduate by August 2014; those who have not completed all degree requirements by that time will need to satisfy the current (Fall 2007) General Education requirements.

Students who transferred to EMU may have modified general education requirements based on MACRAO or articulation agreements; consult your academic adviser for additional information.

University Information: Consult the online catalog at catalog.emich.edu.

Construction Management Major

The construction management major includes course work in general education with specified science and mathematics courses, business courses, electives (a list of recommended course electives that require the prior approval of a construction or facility management adviser) and technical courses. A minor is not required. A C- or better is required for all major courses.

The construction management major is designed to prepare men and women for middle- and upper-level management in the construction industry. The major has been developed in cooperation with experts from the construction industry and guidelines are established by major construction associations and feedback from employers and graduates. The construction management major reflects the current needs and trends in the construction industry and is accredited by the American Council for Construction Education.

An active articulation agreement exists between this program and several community colleges. To see a complete list of current colleges with program articulation agreements with EMU, please click here.
School of Engineering Technology Information:

School Director: Bob Lahidji  
School Contact: bob.lahidji@emich.edu  
Website: http://www.emich.edu/set/

General Education Requirements:

For specific requirements refer to the General Education Program.

Major Requirements: 97 hours

Required Courses: 52 hours

- CNST 125 - Introduction to Construction 2 hrs  
- CNST 201 - Construction Systems 3 hrs  
- CNST 202 - Construction Materials 3 hrs  
- CNST 206 - Surveying 3 hrs  
- CNST 213 - Construction Safety 3 hrs  
- CNST 228 - Construction Graphics 3 hrs  
- CNST 229 - Analysis of Commercial Prints 3 hrs  
- CNST 302 - Contract Documents, Regulations, and Specifications 3 hrs  
- CNST 303 - Electrical, Mechanical, and Equipment Systems 3 hrs  
- CNST 304 - Construction Estimating and Bidding 3 hrs  
- CNST 361 - Planning and Scheduling 3 hrs  
- CNST 387 - Cooperative Education in Construction Management 3 hrs  
- CNST 403 - Production Control 2 hrs  
- CNST 406W - Construction Law (Gen Ed Area I, W) 3 hrs  
- CNST 412 - Fundamentals of Structural Design 3 hrs  
- CNST 436 - Heavy/Highway Construction Means and Methods 3 hrs  
- CNST 440 - LEED for New Construction and Major Renovations 3 hrs  
- CNST 450 - Fundamentals of Construction Project Management 3 hrs

Construction Management Restricted Electives: 12 hours

12 hours from the following (Minimum one course with CNST prefix):

- MATH 105 - College Algebra (Gen Ed Area II) 3 hrs  
- MATH 107 - Plane Trigonometry 2 hrs  
- CNST 426 - Mechanical and Electrical Construction Applications 3 hrs  
- CNST 427 - Industrial Construction 2 hrs  
- CNST 437 - Environmental Construction Contracting 2 hrs  
- CNST 438 - Fundamentals of Land Development 3 hrs  
- CNST 446 - Senior Seminar on Professional Issues in Engineering, Technology and Construction 1 hr
- CNST 479 - Special Topics 3 hrs
- GHPR 335 - Historic Preservation 3 hrs
- URP 215 - Introduction to Urban and Regional Planning 3 hrs
- IDE 208 - Introduction to Basic Design 3 hrs
- IDE 317 - Lighting Systems for Interior Designers 3 hrs

**Business Major Requirements: 15 hours**

- Any course from the College of Business not already taken (3 hrs)
- ACC 240 - Principles of Financial Accounting 3 hrs
- LAW 293 - Legal Environment of Business 3 hrs
- MGMT 202 - Business Communication 3 hrs
- MGMT 384 - Human Resource Management 3 hrs

**Natural Sciences/Math Restricted Elective: 4 hours**

*Four hours from the following:*

- CHEM 117 - Fundamentals of Chemistry-Lecture (Gen Ed Area IV) 3 hrs
  with
- CHEM 118 - Fundamentals of Chemistry Laboratory (Gen Ed Area IV) 1 hr
- MATH 120 - Calculus I (Gen Ed Area II) 4 hrs

Additional courses with adviser approval.

**General Restricted Electives: 14 hours**

- ESSC 110 - The Dynamic Earth System (Gen Ed Area IV) 4 hrs
- MATH 170 - Elementary Statistics (Gen Ed Area II) 3 hrs
- PHY 221 - Mechanics, Sound and Heat (Gen Ed Area IV) 4 hrs

Choose one of the following:

- ECON 100 - Introduction to Economic Problems and Policies (Gen Ed Area IV) 3 hrs
- ECON 200 - The American Economy 3 hrs

**Minor Requirements:**

This program does not require a minor.

**Program Total:**

Students must earn a minimum total of 124 credits at the 100-level or above.

**Note:**
Each student must choose a writing intensive course as part of major completion requirements. Consult your adviser for course options.

Critical Graduation Information:

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the 100-level and above. Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Earn a minimum of 60 credits from a four-year college or university; courses taken at community colleges cannot be used to meet this requirement. (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 unique credit hours in their major and 20 unique credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
- Not more than 60 credit hours in one subject area (prefix) may be applied towards the minimum of 124 credit hours required for a bachelor's degree.
- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more that one major or minor.
  - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
  - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
  - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor.
- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is coordinated by the Office of Admissions, and additional documentation may be required.
- Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be earned in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

General Education Requirements:

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available on the General Education section of the catalog: General Education

- For Students who began their undergraduate program at EMU in Fall 2007 or later or who have elected to follow the current ("new") General Education Program, follow the "For Students" link under the Current Program heading.
- For Students who began their undergraduate program at EMU before Fall 2007 and who have elected to follow the Pre-2007 General Education Requirements, follow the "General Education Program Prior to Fall 2007 (pdf file)" link under the Program Prior to Fall 2007 heading. Please note that students who wish to graduate under pre-2007 General
Education requirements must graduate by August 2014; those who have not completed all degree requirements by that time will need to satisfy the current (Fall 2007) General Education requirements.

Students who transferred to EMU may have modified general education requirements based on MACRAO or articulation agreements; consult your academic adviser for additional information.

University Information: Consult the online catalog at catalog.emich.edu.

Electronic Engineering Technology Major

The electronic engineering technology major is designed to prepare students for interesting and challenging positions in the diverse field of electronics. The curriculum provides for a strong foundation in electronics to support future changes in technology or the career roles of the individual. The graduate may find employment on engineering teams in product design and development, in production and automation, in instrumentation and communications or in technical sales and operations.

An active articulation agreement exists between this program and a community college. To see a complete list of current colleges with program articulation agreements with EMU, please click here.

General Education Requirements:

For specific requirements refer to the General Education Program. Download the Gen Ed Checklist here.

Major Requirements: 90-93 hours

Required Courses: 90-93 hours

- Writing Intensive Course (3 hrs)
- CET 427 - Programmable Logic Controller 3 hrs
- CHEM 121 - General Chemistry I (Gen Ed Area IV) 3 hrs
- CHEM 122 - General Chemistry I Laboratory (Gen Ed Area IV) 1 hr
- COSC 246 - Programming in C++ 3 hrs
- ELEC 200 - Circuit Analysis I 3 hrs
- ELEC 210 - Circuit Analysis II 3 hrs
- ELEC 214 - Digital Circuit Analysis I 3 hrs
- ELEC 215 - Computer-Aided Electronics 3 hrs
- ELEC 218 - Motors and Controls 3 hrs
- ELEC 300 - Analog Circuit Analysis I 3 hrs
- ELEC 310 - Analog Circuit Analysis II 3 hrs
- ELEC 314 - Digital Circuit Analysis II 3 hrs
- ELEC 320 - Microcomputer Circuits 3 hrs
- ELEC 326 - Transform Circuit Analysis with Calculus 3 hrs
- ELEC 387 - Cooperative Education in Electronic Technology 3 hrs
• ELEC 415 - Communication Circuits 3 hrs
• ELEC 420 - Advanced Microprocessors 3 hrs
• ELEC 426 - Control Systems Engineering (NEW COURSE) 3 hrs
• ELEC 450 - Senior Design Project 3 hrs
• ET 100 - Introduction to Engineering Technology 3 hrs
• ET 101 - Introduction to Engineering Technology Computing 1 hr
• MATH 122 - Elementary Linear Algebra 3 hrs
• MET 312 - Applied Dynamics Principles 3 hrs
• PDD 122 - Engineering Graphics 4 hrs
• QUAL 320 - Industrial Quality Control 3 hrs

One of the following:

• PHY 221 - Mechanics, Sound and Heat (Gen Ed Area IV) 4 hrs
• PHY 223 - Mechanics and Sound (Gen Ed Area IV) 5 hrs

One of the following:

• PHY 222 - Electricity and Light 4 hrs
• PHY 224 - Electricity and Light 5 hrs

One of the following:

• MATH 120 - Calculus I (Gen Ed Area II) 4 hrs
• MATH 140 - Applied Trigonometry and Calculus I for Technology (Gen Ed Area II) 4 hrs

One of the following:

• MATH 121 - Calculus II 4 hrs
• MATH 141 - Applied Calculus II for Technology 3 hrs

Minor Requirements:

This program does not require a minor.

**Interior Design Major**

The interior design program offers a Council for Interior Design Accreditation (CIDA) accredited, four-year studio based curriculum, culminating in a bachelor of science degree. The program’s mission is to academically prepare students to enable them to creatively solve problems related to the function and quality of interior environments.

The program promotes critical thinking by requiring a balance between broad liberal arts courses, specific courses in fine arts, management, marketing, construction and an intense curriculum of interior design courses. The interior design curriculum provides experiential educational opportunities to investigate the interaction of humans and environments through the integration of theory, knowledge and technical skills, preparing students to achieve in the challenging profession of interior design. Central to a mission of preparing students to achieve as professional interior design practitioners is our goal to impart to our students a holistic view of people and their environments in multicultural, multiracial and multiethnic settings; a sensitivity to environmentally conscious design issues; a consideration of the needs of all people, regardless of age, stature or ability; and the ability to creatively analyze design problems in order to create interior environments that meet human needs and fulfill human aspirations.

Students must complete IDE courses with a grade of C or better.

Mechanical Engineering Technology Major

http://www.emich.edu/cot/met

The mechanical engineering technology major offers the opportunity to prepare for rewarding and responsible careers in support of technical and engineering activities. The program is designed to provide graduates with a strong technical foundation that integrates the methods, materials, machinery and power resources found in modern industry. Students receive both lecture and
hands-on laboratory training in manufacturing processes, engineering mechanics, thermo-fluid sciences and machine design, culminating in a senior design capstone project.

General Education Requirements

For specific requirements refer to the General Education Program.

Major Requirements: 85-88 hours

- CET 151 - Introduction to Computing in Engineering Technology 3 hrs
- CHEM 121 - General Chemistry I (Gen Ed Area IV) 3 hrs
- CHEM 122 - General Chemistry I Laboratory (Gen Ed Area IV) 1 hr
- ELEC 200 - Circuit Analysis I 3 hrs
- ELEC 218 - Motors and Controls 3 hrs
- ET 100 - Introduction to Engineering Technology 3 hrs
- MATH 105 - College Algebra (Gen Ed Area II) 3 hrs
- MATH 107 - Plane Trigonometry 2 hrs
- MET 211 - Statics 3 hrs
- MET 312 - Applied Dynamics Principles 3 hrs
- MET 313 - Applied Mechanics of Materials 3 hrs
- MET 314 - Applied Thermodynamics and Heat Transfer 3 hrs
- MET 316 - Design for Manufacturing and Tooling 3 hrs
- MET 319 - Fluid Mechanics 3 hrs
- MET 387 - Cooperative Education in Mechanical Engineering Technology 3 hrs
- MET 411 - Mechanical/Machine Design 3 hrs
- MET 437 - Kinematics of Machines 3 hrs
- MET 470 - Mechanical Vibrations 2 hrs
- MET 492 - Senior Design Projects I 3 hrs
- MET 493 - Senior Design Projects II 3 hrs
- PDD 111 - Materials 3 hrs
- PDD 122 - Engineering Graphics 4 hrs
- PDD 123 - Manufacturing Processes 4 hrs
- PDD 435 - Finite Element Analysis 3 hrs

One of the following:

- PHY 221 - Mechanics, Sound and Heat (Gen Ed Area IV) 4 hrs
- PHY 223 - Mechanics and Sound (Gen Ed Area IV) 5 hrs
One of the following:

- PHY 222 - Electricity and Light 4 hrs
- PHY 224 - Electricity and Light 5 hrs

One of the following:

- MATH 120 - Calculus I (Gen Ed Area II) 4 hrs
- MATH 140 - Applied Trigonometry and Calculus I for Technology (Gen Ed Area II) 4 hrs

One of the following:

- MATH 121 - Calculus II 4 hrs
- MATH 141 - Applied Calculus II for Technology 3 hrs

Minor Requirements

This program does not require a minor.

Program Total

Students must earn a minimum total of 124 credits at the 100-level or above.

Note:

*Each student must choose a writing intensive course as part of major completion requirements. Consult your adviser for course options.*

Critical Graduation Information:

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the *100-level and above*. Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Earn a minimum of 60 credits from a four-year college or university; *courses taken at community colleges cannot be used to meet this requirement*. (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 unique credit hours in their major and 20 unique credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require
minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.

- Not more than 60 credit hours in one subject area (prefix) may be applied towards the minimum of 124 credit hours required for a bachelor's degree.
- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more that one major or minor.
  - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
  - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
  - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor.
- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is coordinated by the Office of Admissions, and additional documentation may be required.
- Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be earned in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

**General Education Requirements:**

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available on the General Education section of the catalog: General Education

- For Students who began their undergraduate program at EMU in Fall 2007 or later or who have elected to follow the current ("new") General Education Program, follow the "For Students" link under the Current Program heading.
- For Students who began their undergraduate program at EMU before Fall 2007 and who have elected to follow the Pre-2007 General Education Requirements, follow the "General Education Program Prior to Fall 2007 (pdf file)" link under the Program Prior to Fall 2007 heading. Please note that students who wish to graduate under pre-2007 General Education requirements must graduate by August 2014; those who have not completed all degree requirements by that time will need to satisfy the current (Fall 2007) General Education requirements.

Students who transferred to EMU may have modified general education requirements based on MACRAO or articulation agreements; consult your academic adviser for additional information.

**University Information:** Consult the online catalog at catalog.emich.edu.

**Polymers and Coatings Technology Major**

The polymers and coatings curriculum is designed to provide the background necessary for graduates to find employment in companies that manufacture and use paints, coatings, rubber, plastics, polymers, adhesives and inks, or in companies that manufacture raw materials for these industries. Students completing this curriculum have met the major and minor requirements for graduation. No outside minor is needed.

Click here to watch a short video about this program.

**School of Engineering Technology Information:**
General Education Requirements

For specific requirements refer to the General Education Program.

Additional Requirements: 16 hours

- CHEM 123 - General Chemistry II 3 hrs
- CHEM 124 - General Chemistry II Laboratory 1 hr
- CHEM 381W - Instrumentation for Chemical Technology (Gen Ed Area I, W) 2 hrs
- MATH 107 - Plane Trigonometry 2 hrs
- MATH 120 - Calculus I (Gen Ed Area II) 4 hrs
- PHY 222 - Electricity and Light 4 hrs

Major Requirements: 51 hours

- CHEM 281 - Introduction to Analytical Chemistry 4 hrs
- CHEM 361 - Fundamentals of Physical Chemistry 3 hrs
- CHEM 371 - Organic Chemistry I 3 hrs
- CHEM 372 - Organic Chemistry II 3 hrs
- CHEM 373 - Organic Chemistry Laboratory 2 hrs
- PC 203 - Miniaturization in Technology 3 hrs
- PC 260 - Introduction to Coatings Science and Technology 3 hrs
- PC 310 - Polymers for Engineers and Technologists 3 hrs
- PC 387 - Cooperative Education in Interdisciplinary Technology 3 hrs
- PC 400 - Polymers and Coatings Technology I 3 hrs
- PC 401 - Polymers and Coatings Technology I Laboratory 3 hrs
- PC 402 - Polymers and Coatings Technology II 3 hrs
- PC 403 - Polymers and Coatings Technology II Laboratory 3 hrs
- PC 404 - Coatings Raw Materials 3 hrs
- PC 416 - Water-Based Coatings 3 hrs
- PC 460 - Advanced Coatings Topics 3 hrs
- SET 350W - Engineering Communication (Gen Ed Area I, W) 3 hrs

Elective Courses: 18 hours

Eighteen hours from the following:

- CHEM 340 - Introduction to Industrial Chemistry 3 hrs
- CHEM 341 - Fundamentals of Material Science 3 hrs
- CHEM 415 - Environmental Chemistry 3 hrs
- PC 185 - World of the Super Small 3 hrs
- PC 379 - Special Topics 3 hrs
- PC 406 - Colloids and Interfaces 3 hrs
• PC 407 - Coating Processes II 3 hrs
• PC 477 - Special Topics 1 hr
• PC 478 - Special Topics 2 hrs
• PC 479 - Special Topics 3 hrs
• PC 487 - Cooperative Education in Interdisciplinary Technology 3 hrs
• PC 497 - Independent Study 1 hr
• PC 498 - Independent Study 2 hrs

Minor Requirements

This program does not require a minor.

Program Total

Students must earn a minimum total of 124 credits at the 100-level or above.

Note:

Each student must choose a writing intensive course as part of major completion requirements. Consult your adviser for course options

Critical Graduation Information:

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

• Earn a minimum total of 124 credits at the 100-level and above. Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.
• Meet the requirements of the General Education program (see information below).
• Earn a minimum of 60 credits from a four-year college or university; courses taken at community colleges cannot be used to meet this requirement. (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
• Earn a minimum of 30 credits from courses taken at EMU.
• Complete 10 of the last 30 hours for the degree from courses taken at EMU.
• Have a minimum of 30 unique credit hours in their major and 20 unique credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
• Not more than 60 credit hours in one subject area (prefix) may be applied towards the minimum of 124 credit hours required for a bachelor's degree.
• Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more that one major or minor.
  o Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
  o Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor.

- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is coordinated by the Office of Admissions, and additional documentation may be required.

- Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be earned in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

**General Education Requirements:**

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available on the General Education section of the catalog: General Education

- For Students who began their undergraduate program at EMU in Fall 2007 or later or who have elected to follow the current ("new") General Education Program, follow the "For Students" link under the Current Program heading.
- For Students who began their undergraduate program at EMU before Fall 2007 and who have elected to follow the Pre-2007 General Education Requirements, follow the "General Education Program Prior to Fall 2007 (pdf file)" link under the Program Prior to Fall 2007 heading. Please note that students who wish to graduate under pre-2007 General Education requirements must graduate by August 2014; those who have not completed all degree requirements by that time will need to satisfy the current (Fall 2007) General Education requirements.

Students who transferred to EMU may have modified general education requirements based on MACRAO or articulation agreements; consult your academic adviser for additional information.

**University Information:** Consult the online catalog at catalog.emich.edu.

**Product Design and Development Major**

Students majoring in Product Design and Development are prepared for a wide range of product design and development job opportunities. The program prepares students to participate in the customer driven product realization process including concept generation, evaluating design alternatives, computer modeling, prototyping, engineering analysis, selecting materials and processes, cost estimating, tool development, quality and production.

Click here to watch a short video about this program.

**School of Engineering Technology Information:**

School Director: Bob Lahidji
School Contact: bob.lahidji@emich.edu
Website: http://www.emich.edu/set/

**General Education Requirements:**

For specific requirements refer to the General Education Program.

**Major Requirements: 92 hours**
- ARTS 122 - Three-Dimensional Design 3 hrs
- CHEM 117 - Fundamentals of Chemistry-Lecture (Gen Ed Area IV) 3 hrs
- CHEM 118 - Fundamentals of Chemistry Laboratory (Gen Ed Area IV) 1 hr
- MATH 105 - College Algebra (Gen Ed Area II) 3 hrs
- MATH 107 - Plane Trigonometry 2 hrs
- PDD 111 - Materials 3 hrs
- PDD 122 - Engineering Graphics 4 hrs
- PDD 123 - Manufacturing Processes 4 hrs
- PDD 156 - Teamwork in Product Design and Development 3 hrs
- PDD 157 - Introduction to Product Design 3 hrs
- PDD 212 - Molding Materials and Processes 3 hrs
- PDD 220 - Geometric Dimensioning and Tolerancing 3 hrs
- PDD 224 - 3-D Solid Modeling 3 hrs
- PDD 309 - Molded Product Design 3 hrs
- PDD 310 - Formed Product Design 3 hrs
- PDD 316 - Concept Development Studio 3 hrs
- PDD 325 - Applied Statics and Strength of Materials 4 hrs
- PDD 331 - Product Design Data Management 3 hrs
- PDD 350 - Prototyping 3 hrs
- PDD 380 - Engineering Cost Estimating 3 hrs
- PDD 387 - Cooperative Education in Product Design 3 hrs
- PDD 432 - 3-D Modeling and Surfacing Techniques 3 hrs
- PDD 433 - Advanced Tool Development 3 hrs
- PDD 435 - Finite Element Analysis 3 hrs
- PDD 491 - Computer-Aided Design Studio 3 hrs
- PDD 492 - Product Realization Studio 3 hrs
- PHY 221 - Mechanics, Sound and Heat (Gen Ed Area IV) 4 hrs
- PHY 222 - Electricity and Light 4 hrs
- QUAL 320 - Industrial Quality Control 3 hrs
- SET 350W - Engineering Communication (Gen Ed Area I, W) 3 hrs

**Minor Requirements:**

This program does not require a minor.

**Program Total:**

Students must earn a minimum total of 124 credits at the 100-level or above.

**60 Hour Waiver**

Students in this program are granted a waiver of the University requirement that students may not earn "more than 60 credit hours in one subject area (prefix)." **Students in this program may earn up to (but not exceed) 70 hours in "PDD" credit towards graduation.**

**Note:**
Each student must choose a writing intensive course as part of major completion requirements. Consult your adviser for course options.

**Critical Graduation Information:**

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the 100-level and above. Courses with numbers below 100 will not be counted toward this degree requirement. University Information: Consult the online catalog at catalog.emich.edu.

Minor

Construction Management Minor

This minor is designed to provide a background in fundamental technical applications for students with majors outside the department who expect to work in industry. Employment opportunities are enhanced for persons with technical course work. University elective courses in the minor are selected to relate to the student’s major subject area. Academic advising to determine elective course choices is provided by the School of Engineering Technology. A maximum of six hours may be transferred from outside the department.

School of Engineering Technology Information:

School Director: Bob Lahidji
School Contact: bob.lahidji@emich.edu
Website: http://www.emich.edu/set/

Required Courses: 23 hours

- CNST 125 - Introduction to Construction 2 hrs
- CNST 201 - Construction Systems 3 hrs
- CNST 202 - Construction Materials 3 hrs
- CNST 228 - Construction Graphics 3 hrs
- CNST 229 - Analysis of Commercial Prints 3 hrs
- CNST 302 - Contract Documents, Regulations, and Specifications 3 hrs
- CNST 304 - Construction Estimating and Bidding 3 hrs
- CNST 361 - Planning and Scheduling 3 hrs

Minor Total: 23 hours

Note:

All minors must have at least six hours of course work at the 300 level or above.

Critical Graduation Information:

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.
- Earn a minimum total of 124 credits at the 100-level and above. Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Earn a minimum of 60 credits from a four-year college or university; courses taken at community colleges cannot be used to meet this requirement. (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 unique credit hours in their major and 20 unique credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
- Not more than 60 credit hours in one subject area (prefix) may be applied towards the minimum of 124 credit hours required for a bachelor's degree.
- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more than one major or minor.
  - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
  - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
  - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor.
- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is coordinated by the Office of Admissions, and additional documentation may be required.
- Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be earned in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

**General Education Requirements:**

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available on the General Education section of the catalog: General Education

- For Students who began their undergraduate program at EMU in Fall 2007 or later or who have elected to follow the current ("new") General Education Program, follow the "For Students" link under the Current Program heading.
- For Students who began their undergraduate program at EMU before Fall 2007 and who have elected to follow the Pre-2007 General Education Requirements, follow the "General Education Program Prior to Fall 2007 (pdf file)" link under the Program Prior to Fall 2007 heading. Please note that students who wish to graduate under pre-2007 General Education requirements must graduate by August 2014; those who have not completed all degree requirements by that time will need to satisfy the current (Fall 2007) General Education requirements.

Students who transferred to EMU may have modified general education requirements based on MACRAO or articulation agreements; consult your academic adviser for additional information.

**University Information:** Consult the online catalog at catalog.emich.edu.

**Electronic Engineering Technology Minor (EET)**
The Electronic Engineering Technology Minor will incorporate to enhance the quality of research through diversification and help disseminate the findings among students with different backgrounds.

To complete the minor, students must fulfill the following:

- Minimum of 6 hours from 200-level courses (maximum of 12 hours)
- Minimum of 6 hours from 300-level courses
- Minimum of 3 hours from 400-level courses
- Satisfaction of all prerequisites

See following required courses for specifics.

**Core Courses: 6 hours**

Choose a minimum of six hours from the following:

- * ELEC 200 - Circuit Analysis I 3 hrs
- ELEC 210 - Circuit Analysis II 3 hrs
- ELEC 214 - Digital Circuit Analysis I 3 hrs
- * ELEC 218 - Motors and Controls 3 hrs

Choose one option from the following:

**Option I (Microprocessors): 9 hours**

- ELEC 314 - Digital Circuit Analysis II 3 hrs
- ELEC 320 - Microcomputer Circuits 3 hrs
- ELEC 420 - Advanced Microprocessors 3 hrs

**Option II (Analog & Communication): 9 hours**

- ELEC 300 - Analog Circuit Analysis I 3 hrs
- ELEC 310 - Analog Circuit Analysis II 3 hrs
- ELEC 415 - Communication Circuits 3 hrs

**Option III (Controls): 9 hours**

- Additional 300-level ELEC course chosen in collaboration with Minor adviser (3 hrs)
- ELEC 326 - Transform Circuit Analysis with Calculus 3 hrs
- ELEC 450 - Senior Design Project 3 hrs

**Minor Total: 18-21 hours**

**Notes:**
If student's major requires them to take ELEC 200 and/or ELEC 218, then student will only be required to take the minor as eighteen hours. All others will be required to take the minor as twenty-one hours.

Critical Graduation Information:

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the 100-level and above. Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Earn a minimum of 60 credits from a four-year college or university; courses taken at community colleges cannot be used to meet this requirement. (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 unique credit hours in their major and 20 unique credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
- Not more than 60 credit hours in one subject area (prefix) may be applied toward the minimum of 124 credit hours required for a bachelor's degree.
- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more than one major or minor.
  - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor.
  - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
  - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor.
- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is coordinated by the Office of Admissions, and additional documentation may be required.
- Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be earned in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

General Education Requirements:

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available on the General Education section of the catalog: General Education

- For Students who began their undergraduate program at EMU in Fall 2007 or later or who have elected to follow the current ("new") General Education Program, follow the "For Students" link under the Current Program heading.
- For Students who began their undergraduate program at EMU before Fall 2007 and who have elected to follow the Pre-2007 General Education Requirements, follow the "General Education Program Prior to Fall 2007 (pdf file)" link under the Program Prior to Fall 2007 heading. Please note that students who wish to graduate under pre-2007 General Education
Education requirements must graduate by August 2014; those who have not completed all degree requirements by that time will need to satisfy the current (Fall 2007) General Education requirements.

Students who transferred to EMU may have modified general education requirements based on MACRAO or articulation agreements; consult your academic adviser for additional information.

University Information: Consult the online catalog at catalog.emich.edu.

Interior Design Minor

School of Engineering Technology Information:

School Director: Bob Lahidji
School Contact: bob.lahidji@emich.edu
Website: http://www.emich.edu/set/

Required Courses: 6 hours

- IDE 111 - Environmental Psychology and Behavior for Interior Design 3 hrs
- IDE 131 - Interior Design Theory I 3 hrs

Restricted Elective Courses: 14 hours

Fourteen hours from the following:

- IDE Elective (2 hrs)  
  Selected in consultation with the interior design adviser
- IDE 110 - Interior Design Studio I 3 hrs
- IDE 120 - Interior Design Studio II 3 hrs
- IDE 121 - Interior Design Materials and Components 3 hrs
- IDE 122 - Interior Design Theory II 3 hrs
- IDE 123 - Computers for Interior Design I 3 hrs
- IDE 210 - Interior Design Studio III 3 hrs
- IDE 219 - Computers for Interior Design II 3 hrs
- IDE 220 - Interior Design Studio IV 3 hrs
- IDE 221 - Environmental Systems for Interior Designers 3 hrs
- IDE 226 - History of Interiors from 1800 to Present 3 hrs
- IDE 317 - Lighting Systems for Interior Designers 3 hrs
- IDE 318 - Interior Building Codes and ADA 3 hrs
- IDE 425 - Mill Work Design and Detailing 3 hrs

Minor Total: 20 hours

Note

All minors must have at least six hours of course work at the 300-level or above.
Critical Graduation Information:

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the 100-level and above. Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Earn a minimum of 60 credits from a four-year college or university; courses taken at community colleges cannot be used to meet this requirement. (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 unique credit hours in their major and 20 unique credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
- Not more than 60 credit hours in one subject area (prefix) may be applied towards the minimum of 124 credit hours required for a bachelor's degree.
- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more that one major or minor.
  - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor.
  - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
  - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor.
- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is coordinated by the Office of Admissions, and additional documentation may be required.
- Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be earned in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

General Education Requirements:

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available on the General Education section of the catalog: General Education.

- For Students who began their undergraduate program at EMU in Fall 2007 or later or who have elected to follow the current ("new") General Education Program, follow the "For Students" link under the Current Program heading.
- For Students who began their undergraduate program at EMU before Fall 2007 and who have elected to follow the Pre-2007 General Education Requirements, follow the "General Education Program Prior to Fall 2007 (pdf file)" link under the Program Prior to Fall 2007 heading. Please note that students who wish to graduate under pre-2007 General Education requirements must graduate by August 2014; those who have not completed all degree requirements by that time will need to satisfy the current (Fall 2007) General Education requirements.
Students who transferred to EMU may have modified general education requirements based on MACRAO or articulation agreements; consult your academic adviser for additional information.

**University Information:** Consult the online catalog at catalog.emich.edu.

---

### Manufacturing Minor

The manufacturing minor is designed to provide majors in business and science with an introduction to manufacturing engineering. Employment opportunities typically increase for persons with this minor.

University elective courses in the minor are selected to relate to the student’s major. Academic advising to determine elective course choices is provided by a manufacturing adviser in the School of Engineering Technology.

---

### School of Engineering Technology Information:

School Director: Bob Lahidji  
School Contact: bob.lahidji@emich.edu  
Website: http://www.emich.edu/set/

---

#### Required Courses: 13 hours

- MFG 124 - Manufacturing Processes and Methods II 3 hrs
- PDD 203 - Industrial Operations 3 hrs
- PDD 111 - Materials 3 hrs
- PDD 123 - Manufacturing Processes 4 hrs

#### Restricted Electives: 9 hours

*Choose nine hours from the following:

- MET 223 - Descriptive Geometry 2 hrs
- MFG 306 - Plastic Processing 3 hrs
- MFG 361 - Computer Numerical Control 3 hrs
- MFG 421 - Manufacturing Engineering Analysis 3 hrs
- MFG 425 - Advanced Manufacturing Methods 3 hrs
- PDD 470 - Integrated Product and Process Design 3 hrs
- PDD 122 - Engineering Graphics 4 hrs
- PDD 212 - Molding Materials and Processes 3 hrs
- PDD 220 - Geometric Dimensioning and Tolerancing 3 hrs
- PDD 316 - Concept Development Studio 3 hrs
- PDD 492 - Product Realization Studio 3 hrs
- QUAL 320 - Industrial Quality Control 3 hrs

---

**Minor Total: 22 hours**

**Note:**
All minors must have at least six hours of course work at the 300 level or above.

Critical Graduation Information:

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the **100-level and above**. Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Earn a minimum of 60 credits from a four-year college or university; **courses taken at community colleges cannot be used to meet this requirement**. (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 **unique** credit hours in their major and 20 **unique** credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
- Not more than 60 credit hours in one subject area (prefix) may be applied towards the minimum of 124 credit hours required for a bachelor's degree.
- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more than one major or minor.
  - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
  - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
  - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor
- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is coordinated by the Office of Admissions, and additional documentation may be required.
- Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be earned in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

General Education Requirements:

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. Education requirements must graduate by August 2014; those who have not completed all degree requirements by that time will need to satisfy the current (Fall 2007) General Education requirements.

Students who transferred to EMU may have modified general education requirements based on MACRAO or articulation agreements; consult your academic adviser for additional information.

University Information: Consult the online catalog at catalog.emich.edu.

CAD

CADM 105 - Computer Applications for Industry

Provides the theory, general applications, and specific applications of microcomputers. Students are exposed to software packages commonly used for general and specific applications in industry.

Credit Hours: 3 hrs
Lecture/Lab Hours: Lecture and laboratory course.

CADM 106 - Industrial Computer Applications for Manufacturing

This course presents advanced DOS commands and concepts appropriate for microcomputers configured for CAD/CAM and other similar industrial applications.

Credit Hours: 3 hrs
Lecture/Lab Hours: Lecture and laboratory course.
Prerequisite: a course in computer literacy

CADM 120 - Computer-Aided Print Reading

A manufacturing print reading course which includes an introduction to computer-aided drawing. This course is intended for manufacturing cost analysis majors with no previous engineering drawing experience.

Credit Hours: 3 hrs
Prerequisite: CADM 105 or IS 215
Last Updated: Links 03/2011

CADM 177 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hrs
Prerequisite: department permission

CADM 178 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs
Prerequisite: department permission
**CADM 179 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 3 hrs  
**Prerequisite:** department permission

**CADM 231 - Computer Graphic Programming for Industry**

A series of computer graphics programs illustrate graphics algorithms and terminology. Students write similar computer programs using graphics functions. Topics include computer graphics, multi-view drawings, multiaxis rotations, CAD databases, animation and interactive programming.

**Credit Hours:** 3 hrs  
**Lecture/Lab Hours:** Lecture and laboratory course  
**Prerequisite:** MATH 107 and a course in C programming  
**Last Updated:** Links 03/2011

**CADM 277 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 1 hr  
**Prerequisite:** department permission

**CADM 278 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 2 hrs  
**Prerequisite:** department permission

**CADM 279 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 3 hrs  
**Prerequisite:** department permission

**CADM 334 - 3-D Computer-Aided Design Modeling**

This course provides the advanced CAD user with an in-depth understanding and skill of constructing and integrating 3-D solid modeling and surfacing techniques into part modeling, assembly and animation using commercial CAD software.

**Credit Hours:** 3 hrs  
**Prerequisite:** PDD 122  
**Last Updated:** Links 03/2011
**CADM 360 - CIM Operations**

Concepts, components, and application of computer-based industrial automation. The integration and implications of CAD, CAM and business functions into CIM are included.

**Credit Hours:** 3 hrs  
**Prerequisite:** PDD 203  
**Last Updated:** Links 03/2011

**CADM 377 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 1 hr  
**Prerequisite:** department permission

**CADM 378 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 2 hrs  
**Prerequisite:** department permission

**CADM 379 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 3 hrs  
**Prerequisite:** department permission

**CADM 387 - Cooperative Education in CAD/CAM Technology**

Industrial technology majors will be placed on a job that relates to their primary area of study, for one semester. During this period regular employee benefits may be received.

**Credit Hours:** 3 hrs  
**Prerequisite:** department permission  
**Major Restrictions:** Industrial Technology and Industrial Teacher Education Majors only  
**Notes:** Offered on a credit/no-credit basis.

**CADM 417 - Industrial Robotics**

The nature and use of industrial robotics: capabilities, equipment and associated hardware, justification, preparation and installation, launching and monitoring.

**Credit Hours:** 3 hrs  
**Lecture/Lab Hours:** Lecture and laboratory course
**Prerequisite:** CADM 106, PDD 203, ELEC 218 and MFG 318

**Last Updated:** Links 03/2011

**CADM 461 - CAD/CAM NC Programming**

Study of conversion of part descriptions to numerical control programs for mill, lathe, and three-axis machining center. Advanced APT and CAD/CAM NC programming for producing the instruction codes necessary to manufacture parts with NC machine tools are emphasized. Verification of the computer assisted NC programs are accomplished by laboratory work.

**Credit Hours:** 3 hrs  
**Prerequisite:** MFG 361  
**Last Updated:** Links 03/2011

**CADM 477 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 1 hr  
**Prerequisite:** department permission

**CADM 478 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 2 hrs  
**Prerequisite:** department permission

**CADM 479 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 3 hrs  
**Prerequisite:** department permission

**CADM 485 - Flexible Manufacturing Systems**

Design and implementation of a flexible manufacturing cell. Machining materials, material handling and storage, inspection and inventory are emphasized. Part programming using numerical control, robotics/programmable automation programming, development of a manufacturing database and hierarchical computer control.

**Credit Hours:** 3 hrs  
**Lecture/Lab Hours:** Lecture and laboratory course  
**Prerequisite:** PDD 316, PDD 224, MFG 361, QUAL 320 and MFG 425  
**Last Updated:** Links 03/2011

**CADM 487 - Cooperative Education in CAD/CAM Technology**
The second in a two-course sequence for industrial technology majors. The students will be placed on a job that relates to their primary area of study, for one semester. Regular employee benefits may be received.

**Credit Hours:** 3 hrs  
**Prerequisite:** CADM 387 and department permission  
**Notes:** Graded on a credit/no-credit basis.

**Last Updated:** Links 03/2011

### CADM 494 - Industry-Based Special Topics

Course descriptions are formulated at the time of an industry’s request and reflect the particular requirements of the client company.

**Credit Hours:** 1 hr  
**Notes:** Offered on a credit/no-credit basis

### CADM 495 - Industry-Based Special Topics

Course descriptions are formulated at the time of an industry’s request and reflect the particular requirements of the client company.

**Credit Hours:** 2 hrs  
**Notes:** Offered on a credit/no-credit basis.

### CADM 496 - Industry-Based Special Topics

Course descriptions are formulated at the time of an industry’s request and reflect the particular requirements of the client company.

**Credit Hours:** 3 hrs  
**Notes:** Offered on a credit/no-credit basis.

### CADM 497 - Independent Study

Available to selected students who have demonstrated ability to profit from a directed-study project. Intensive study of a problem appropriate to the student’s area of concentration. Enrollment and selection of a project proposal must be approved by the department adviser and chair.

**Credit Hours:** 1 hr  
**Prerequisite:** department permission

### CADM 498 - Independent Study

Available to selected students who have demonstrated ability to profit from a directed-study project. Intensive study of a problem appropriate to the student’s area of concentration. Enrollment and selection of a project proposal must be approved by the department adviser and chair.

**Credit Hours:** 2 hrs  
**Prerequisite:** department permission

### CADM 499 - Independent Study
Available to selected students who have demonstrated ability to profit from a directed-study project. Intensive study of a problem appropriate to the student’s area of concentration. Enrollment and selection of a project proposal must be approved by the department adviser and chair.

**Credit Hours:** 3 hrs  
**Prerequisite:** department permission

### Computer Engineering Technology

#### CET 151 - Introduction to Computing in Engineering Technology

This course introduces a variety of software tools and techniques used by engineers. It is intended for anyone interested in engineering design, analysis and software development. Engineering software developments related to real life applications are included.

**Credit Hours:** 3 hrs  
**Previously Listed As:** CET 251 Engineering Software and Applications  
**Last Updated:** Links 03/2011

#### CET 177 - Special Topics

An exploration and study of topics not covered in other departmental offerings.

**Credit Hours:** 1 hr  
**Notes:** Students may elect more than once, provided different topics are studied.

#### CET 178 - Special Topics

An exploration and study of topics not covered in other departmental offerings.

**Credit Hours:** 2 hrs  
**Notes:** Students may elect more than once, provided different topics are studied.

#### CET 179 - Special Topics

An exploration and study of topics not covered in other departmental offerings.

**Credit Hours:** 3 hrs  
**Notes:** Students may elect more than once, provided different topics are studied.

#### CET 277 - Special Topics

An exploration and study of topics not covered in other departmental offerings.

**Credit Hours:** 1 hr  
**Notes:** Students may elect more than once, provided different topics are studied.

#### CET 278 - Special Topics
An exploration and study of topics not covered in other departmental offerings.

**Credit Hours:** 2 hrs  
**Notes:** Students may elect more than once, provided different topics are studied.

**CET 279 - Special Topics**

An exploration and study of topics not covered in other departmental offerings.

**Credit Hours:** 3 hrs  
**Notes:** Students may elect more than once, provided different topics are studied.

**CET 353 - Web Development for Engineering Applications**

The application of Web technology to engineering disciplines. Emphasis is given to designing, analyzing and developing Web applications for various engineering disciplines and enterprises. Projects integrate various Web-based engineering software to be simultaneously used and managed for concurrent engineering and business activities in virtual environment.

**Credit Hours:** 3 hrs  
**Prerequisite:** CET 151, IS 380  
**Last Updated:** Links 03/2011

**CET 377 - Special Topics**

An exploration and study of topics not covered in other departmental offerings.

**Credit Hours:** 1 hr  
**Notes:** Students may elect more than once, provided different topics are studied.

**CET 378 - Special Topics**

An exploration and study of topics not covered in other departmental offerings.

**Credit Hours:** 2 hrs  
**Notes:** Students may elect more than once, provided different topics are studied.

**CET 379 - Special Topics**

An exploration and study of topics not covered in other departmental offerings.

**Credit Hours:** 3 hrs  
**Notes:** Students may elect more than once, provided different topics are studied.

**CET 387 - Cooperative Education in Computer Engineering Technology**

An industrial experience in business and industrial where primary work emphasis is related to computer engineering technology. During this period employee benefits may be received.

**Credit Hours:** 3 hrs  
**Prerequisite:** department permission
CET 426 - Engineering Product Information

An overview of the information related to product design and manufacturing production. Emphasis will be given to utilize product information in various aspects of engineering design, analysis, manufacturing and concurrent engineering.

Credit Hours: 3 hrs
Prerequisite: ELEC 218
Last Updated: Links 03/2011

CET 427 - Programmable Logic Controller

The application of electricity, electronics, programmable logic controller, data acquisition, and analysis techniques to the open-loop and closed-loop control of machines and processes. Emphasis will be given to utilization of computers and programmable logic controllers for industrial control purposes.

Credit Hours: 3 hrs
Lecture/Lab Hours: Lecture and laboratory course.
Prerequisite: ELEC 218
Last Updated: Links 03/2011

CET 451 - Engineering Database Development

This course covers the essentials of developing and implementing database system for engineering applications. The emphasis is given to the development of database applications for integrating product design, production analysis, manufacturing, process control, assembly, inventory control and other engineering functions. Practical examples of C3P that integrate CAD systems, CAM systems, FEA systems, SQC, etc. are presented. Several popular products data management systems such as Parametric Technology’s Windchill, EDS’s PLM (Product Lifecycle Management) and IBM’s PLM will be introduced.

Credit Hours: 3 hrs
Prerequisite: IS 380
Last Updated: Links 03/2011

CET 453 - Engineering Programming

Cover Java programming essentials with emphasis in the object-oriented programs for engineering applications. Emphasis will be given to the development of interface programs that allow popular engineering application software to be used in specific applications and the development of Web-based programs for engineering applications.

Credit Hours: 3 hrs
Prerequisite: CET 353 and CET 451
Last Updated: Links 03/2011

CET 477 - Special Topics

An exploration and study of topics not covered in other departmental offerings.

Credit Hours: 1 hr
Notes: Students may elect more than once, provided different topics are studied.

CET 478 - Special Topics
An exploration and study of topics not covered in other departmental offerings.

Credit Hours: 2 hrs
Notes: Students may elect more than once, provided different topics are studied.

CET 479 - Special Topics

An exploration and study of topics not covered in other departmental offerings.

Credit Hours: 3 hrs
Notes: Students may elect more than once, provided different topics are studied.

CET 491 - Senior Design Capstone

A synthesis of all previous academic course work for the capstone activity for the computer engineering technology student; includes a proposal phase, development phase and final project. This course focuses on the effective teamwork strategies and the applications of computer software and hardware in engineering activities. Technical reports and presentations are required.

Credit Hours: 3 hrs
Prerequisite: ELEC 218, ENGL 324W and CET 353
Class Restrictions: Senior standing
Last Updated: Links 03/2011

CET 497 - Independent Study

Available to selected students who have demonstrated ability to profit from directed-study project. Intensive study of a problem appropriate to the student's area of concentration. Election and selection of a project proposal must be approved by the department adviser and chair.

Credit Hours: 1 hr
Prerequisite: department permission
Class Restrictions: Sophomore or Junior standing

CET 498 - Independent Study

Available to selected students who have demonstrated ability to profit from directed-study project. Intensive study of a problem appropriate to the student's area of concentration. Election and selection of a project proposal must be approved by the department adviser and chair.

Credit Hours: 2 hrs
Prerequisite: department permission
Class Restrictions: Junior or Senior standing

CET 499 - Independent Study

Available to selected students who have demonstrated ability to profit from directed-study project. Intensive study of a problem appropriate to the student's area of concentration. Election and selection of a project proposal must be approved by the department adviser and chair.

Credit Hours: 3 hrs
Prerequisite: department permission
Class Restrictions: Junior or Senior standing

**Construction Management**

**CNST 125 - Introduction to Construction**

An overview of the construction industry, including the developing, planning, and scheduling of construction projects. Site development, material usage, specifications, estimating and managing cost control are included as topic areas.

Credit Hours: 2 hrs

**CNST 177 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hrs
Prerequisite: department permission

**CNST 178 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs
Prerequisite: department permission

**CNST 179 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs
Prerequisite: department permission

**CNST 201 - Construction Systems**

Structural systems, associated nonstructural components and considerations appropriate to mechanical, electrical, plumbing and support equipment. Lecture and laboratory course.

Credit Hours: 3 hrs

**CNST 202 - Construction Materials**

The characteristics, specifications, and applications of basic construction materials such as stone, concrete, wood, glass, plastics, metals and bituminous products. Lecture and laboratory course.

Credit Hours: 3 hrs
CNST 206 - Surveying

The fundamental use of the transit and level. Linear measurement, angle measurements, differential and profile leveling, a simple transverse survey, and the keeping of accurate notes. Lecture and laboratory course.

Credit Hours: 3 hrs
Prerequisite: MATH 107
Last Updated: Links 04/2011

CNST 213 - Construction Safety

Philosophical, social, economic, and technological bases for safety related to the development of a construction job-site safety plan. Emphasis is also placed on the OSHA and MIOSHA construction industry standards.

Credit Hours: 3 hrs

CNST 228 - Construction Graphics

Basic print reading skills. Symbols, terminology, print organization, and basic material take-off techniques. Sketching and some basic drawing skills will be required. Lecture and laboratory course.

Credit Hours: 3 hrs
Prerequisite: CNST 125 and CNST 201
Last Updated: Links 04/2011

CNST 229 - Analysis of Commercial Prints

Development of the ability to read and interpret prints. Actual commercial prints and project manuals are used for analysis and material take-off procedures. Preparation of field drawings using graph paper and sketching techniques. Lecture and laboratory course.

Credit Hours: 3 hrs
Prerequisite: CNST 228
Last Updated: Links 04/2011

CNST 277 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr
Prerequisite: department permission

CNST 278 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.
CNST 279 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs
Prerequisite: department permission

CNST 302 - Contract Documents, Regulations, and Specifications

The different types of construction contracts, construction documents and regulations, the role of specifications, and the project manual in the construction process.

Credit Hours: 3 hrs
Prerequisite: CNST 201, LAW 293 and CNST 125 or department permission
Last Updated: Links 04/2011

CNST 303 - Electrical, Mechanical, and Equipment Systems

This course provides an understanding of mechanical, electrical, plumbing, drain-waste-vent, equipment considerations and other specialized nonstructural systems found in commercial buildings.

Credit Hours: 3 hrs
Prerequisite: CNST 228
Last Updated: Links 04/2011

CNST 304 - Construction Estimating and Bidding

The principles and procedures for developing estimates, bids and contracts for heavy/highway and commercial construction. Computer applications are included.

Credit Hours: 3 hrs
Prerequisite: CNST 229 and CNST 302
Last Updated: Links 04/2011

CNST 361 - Planning and Scheduling

The planning process of the construction industry. Various scheduling systems commonly used within the industry are studied including scheduling software.

Credit Hours: 3 hrs
Prerequisite: CADM 105 and CNST 229
Last Updated: Links 04/2011

CNST 377 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.
Credit Hours: 1 hr
Prerequisite: department permission

CNST 378 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs
Prerequisite: department permission

CNST 379 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs
Prerequisite: department permission

CNST 387 - Cooperative Education in Construction Management

Construction management majors will be placed on a job that relates to their primary area of study, for one semester. During this period regular employee benefits may be received.

Credit Hours: 3 hrs
Prerequisite: department permission
Major Restrictions: Credit applicable to the major in Construction Management only
Notes: Offered on a credit/no-credit basis.

CNST 403 - Production Control

Methods of control used in the construction industry for production problems involving the estimate, bidding schedules, cost analysis, cost comparison, scheduling systems, evaluation and debriefing.

Credit Hours: 2 hrs
Prerequisite: ACC 130, CNST 304 and CNST 361
Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.
Last Updated: Graduate Credit 07/2011; Links 04/2011

CNST 406W - Construction Law (Gen Ed Area I, W)

Common basic legal problems associated with construction contracting. Current areas of concern and their significant implications are covered.

Credit Hours: 3 hrs
Prerequisite: CNST 302
Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.

Last Updated: Graduate Credit 07/2011; Links 04/2011
CNST 412 - Fundamentals of Structural Design

Fundamentals and theory of construction design including soil mechanics and basic structural elements. This is an elementary, analytical and practical approach to the principles and physical concepts of statics, strength of materials, and soils as they relate to construction.

Credit Hours: 3 hrs
Prerequisite: PHY 221, CNST 202 and MATH 107
Last Updated: Links 04/2011

CNST 426 - Mechanical and Electrical Construction Applications

This course provides the student with a broad understanding of the principles and construction of plumbing, heating, ventilating and air conditioning (HVAC) and electrical systems for nonresidential buildings. Emphasis will be placed on project management issues relating to these systems including estimating, coordinating, change orders and commissioning.

Credit Hours: 3 hrs
Prerequisite: CNST 303
Major Restrictions: Available only to students in the Construction Management program
Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.
Last Updated: Graduate Credit 07/2011; Links 04/2011

CNST 427 - Industrial Construction

This lecture course provides an overview of the design, installation, and start-up of various industrial systems as they relate to construction management. Emphasis is placed on construction pertaining to: automotive, food & beverage, chemical/refinery, pharmaceutical, steel and cast metals, machining, plastic molding, power generation, electronics manufacturing and others.

Credit Hours: 2 hrs
Prerequisite: CNST 303, CNST 304 and CNST 361
Last Updated: Links 04/2011

CNST 436 - Heavy/Highway Construction Means and Methods

The study of the means and methods of construction used in the heavy/highway construction industry. Soil, aggregate, concrete, and asphalt properties will be studied, and their associated design theories. Means and methods of construction will also be examined, including earthwork excavation, hauling and compaction. Operational characteristics of heavy equipment will be evaluated.

Credit Hours: 3 hrs
Prerequisite: CNST 202/CNST 302/CNST 304
Major Restrictions: Available only to students in the Construction Management program
Previously Listed As: CNST 436 - Heavy/Highway Construction Contracting
Last Updated: Title and Course Description Change 02/2012, effective Fall 2012; Graduate Credit 07/2011; Links 04/2011

CNST 437 - Environmental Construction Contracting

This course covers a wide range of environmental construction contracting project types. It is delivered in three main segments: the regulatory framework; assessment and design elements used in environmental remediation projects; and managing the construction process. Actual projects are studied in order to provide students with a variety of construction methods.
CNST 438 - Fundamentals of Land Development

An examination of the land development process, including its market, finance, design, construction and regulatory aspects. The course will focus on actual residential and commercial projects underway or recently completed by local developers, along with the challenges and opportunities encountered in managing these projects from initial inception to final sale.

Credit Hours: 3 hrs
Prerequisite: CNST 302
Last Updated: Credit Hour Change 02/2012, effective Fall 2012; Links 04/2011

CNST 440 - LEED for New Construction and Major Renovations

This course provides an understanding of how green building intents, strategies and technologies are considered, coordinated, implemented, and verified while designing, constructing, commissioning, and using commercial buildings in particular, and the greater built environment in general. It expands on how LEED accredited professionals oversee building certification processes, and the documents and standards required to attain LEED certification at all levels. Materials for the course derive from the United States Green Building Council's Green Building Rating System for New Constructions and Major Renovations, Reference Guides, Registered Project Checklist, and Green Building Certification Institute's web resources. This course is required for Construction Management Major.

Credit Hours: 3 hrs
Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.
Previously Listed As: CNST470
Last Updated: Graduate Credit 07/2011; Links 04/2011

CNST 446 - Senior Seminar on Professional Issues in Engineering, Technology and Construction

The seminar course addresses the important elements of professional conduct essential for the starting professional to succeed in technology-based industries. The course will focus on building the appropriate personal skills including networking, work relations, technical communications, ethics, diversity sensitivity, professionalism, public speaking and community service.

Credit Hours: 1 hr

CNST 450 - Fundamentals of Construction Project Management

Students combine many previous concepts and skills into a single comprehensive project that includes estimating, scheduling, production control techniques and documentation procedures. Lecture and laboratory course.

Credit Hours: 3 hrs
Prerequisite: ENGL 324W (B or better), MGMT 384, CNST 304 and CNST 361
Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.
Last Updated: Graduate Credit 07/2011; Links 04/2011

CNST 477 - Special Topics
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 1 hrs  
**Prerequisite:** department permission

### CNST 478 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 2 hrs  
**Prerequisite:** department permission

### CNST 479 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 3 hrs  
**Prerequisite:** department permission

### CNST 487 - Cooperative Education in Construction Management

The second in a two-course sequence for construction management majors. The students will be placed on a job that relates to their primary area of study, for one semester. Regular employee benefits may be received.

**Credit Hours:** 3 hrs  
**Prerequisite:** CNST 387 and department permission  
**Notes:** Graded on a credit/no-credit basis  
**Last Updated:** Links 04/2011

### CNST 494 - Industry-Based Special Topics

Course descriptions are formulated at the time of an industry’s request and reflect the particular requirements of the client company.

**Credit Hours:** 1 hrs  
**Prerequisite:** Offered on a credit/no-credit basis.

### CNST 495 - Industry-Based Special Topics

Course descriptions are formulated at the time of an industry’s request and reflect the particular requirements of the client company.

**Credit Hours:** 2 hrs  
**Prerequisite:** Offered on a credit/no-credit basis.

### CNST 496 - Industry-Based Special Topics
Course descriptions are formulated at the time of an industry’s request and reflect the particular requirements of the client company.

**Credit Hours:** 3 hrs  
**Prerequisite:** Offered on a credit/no-credit basis.

**CNST 497 - Directed Study in Construction Management Techniques**

Available to selected students who have demonstrated ability to profit from a directed-study project. Intensive study of a problem appropriate to the student’s area of concentration. Enrollment and selection of a project proposal must be approved by the department adviser and chair.

**Credit Hours:** 1 hrs  
**Prerequisite:** department permission

**CNST 498 - Directed Study in Construction Management Techniques**

Available to selected students who have demonstrated ability to profit from a directed-study project. Intensive study of a problem appropriate to the student’s area of concentration. Enrollment and selection of a project proposal must be approved by the department adviser and chair.

**Credit Hours:** 2 hrs  
**Prerequisite:** department permission

**CNST 499 - Directed Study in Construction Management Techniques**

Available to selected students who have demonstrated ability to profit from a directed-study project. Intensive study of a problem appropriate to the student’s area of concentration. Enrollment and selection of a project proposal must be approved by the department adviser and chair.

**Credit Hours:** 3 hrs  
**Prerequisite:** department permission

**Electronic Engineering Technology**

**ELEC 120 - Principles of Electrical Theory**

This course presents an introduction to principles of electrical circuits and components using an applied approach which includes hands-on activity.

**Credit Hours:** 3 hrs

**ELEC 177 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 1 hr  
**Prerequisite:** department permission
ELEC 178 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs
Prerequisite: department permission

ELEC 179 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs
Prerequisite: department permission

ELEC 200 - Circuit Analysis I

A first course in the fundamentals of circuit analysis and design. Kirchoff’s and Ohm’s Laws. Thevenin and Norton network theorems, with primary emphasis on DC circuits. Electronic instruments, laboratory data collection and report writing are also emphasized. Simulation software is used for computer assisted learning.

Credit Hours: 3 hrs
Prerequisite: MATH 105/MATH 107
Last Updated: Links 04/2011

ELEC 210 - Circuit Analysis II

Second course in fundamental circuit analysis and design. Emphasis will be on steady state analysis and power in AC circuits. Laboratory data collection and report writing. Simulation software is used.

Credit Hours: 3 hrs
Prerequisite: ELEC 200
Corequisites: MATH 112, MATH 120 or Math Placement
Last Updated: Links 04/2011

ELEC 214 - Digital Circuit Analysis I

The study of combinational and sequential circuits, logic families and design procedures. Simulation software is used for computer-assisted learning. Lab exercises with typical circuits data collection and report writing.

Credit Hours: 3 hrs
Prerequisite: ELEC 200
Last Updated: Links 04/2011

ELEC 215 - Computer-Aided Electronics

This course will introduce the student to the computers and software used for electronic circuit design and layout. CAD tools are used to develop block diagrams, electronic symbols, component representation, layout and assemblies.

Credit Hours: 3 hrs
**ELEC 218 - Motors and Controls**

The study of DC and AC motor theory, operation and control. Power, energy, efficiency and applications of motors and motor control circuitry are featured.

**Credit Hours:** 3 hrs  
**Prerequisite:** ELEC 200  
**Last Updated:** Links 04/2011

**ELEC 219 - Techniques of Energy Control**

An introduction to the use of tools, materials, machines, equipment, supplies, and mechanisms utilized in power mechanics for energy control. Lecture and laboratory course.

**Credit Hours:** 3 hrs

**ELEC 277 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 1 hr  
**Prerequisite:** department permission

**ELEC 278 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 2 hrs  
**Prerequisite:** department permission

**ELEC 279 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 3 hrs  
**Prerequisite:** department permission

**ELEC 300 - Analog Circuit Analysis I**

The study of the fundamentals of discrete solid state devices and linear integrated circuits. The concepts of instrumentation and control applications are included. Data collection and report writing are required.

**Credit Hours:** 3 hrs  
**Prerequisite:** ELEC 210  
**Corequisites:** MATH 120  
**Last Updated:** Links 04/2011
ELEC 310 - Analog Circuit Analysis II

The continuation of analog circuit design and analysis, including operational amplifiers, filters and phase-locked-loops. Laboratory exercises, data collection and report writing are included; and simulation software is used for enhanced learning.

Credit Hours: 3 hrs
Prerequisite: ELEC 300
Corequisites: MATH 121
Last Updated: Links 04/2011

ELEC 314 - Digital Circuit Analysis II

The continuation of digital circuit design and analysis. Laboratory exercises with circuitry interfaced to a personal computer and report writing. Simulation software is also used.

Credit Hours: 3 hrs
Prerequisite: ELEC 214
Last Updated: Links 04/2011

ELEC 320 - Microcomputer Circuits

Circuit design and principles are considered, including address-control-data lines in microprocessors, memory and interfacing. Machines and other programming languages are used in laboratory exercises.

Credit Hours: 3 hrs
Prerequisite: ELEC 214/ELEC 300
Corequisites: COSC 111
Last Updated: Links 04/2011

ELEC 326 - Transform Circuit Analysis with Calculus

This course presents the fundamentals of transient circuit and system analysis with an emphasis on the Laplace transform and pole-zero approach for analyzing and interpreting problems.

Credit Hours: 3 hrs
Prerequisite: ELEC 120 and MATH 120
Last Updated: Links 04/2011

ELEC 377 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr
Prerequisite: department permission

ELEC 378 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.
Credit Hours: 2 hrs
Prerequisite: department permission

ELEC 379 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs
Prerequisite: department permission

ELEC 387 - Cooperative Education in Electronic Technology

An industrial experience in some facet of business or industry where the primary work emphasis is related to electronic engineering technology. During this period employee benefits may be received.

Credit Hours: 3 hrs
Prerequisite: department permission
Notes: Offered on a credit/no-credit basis.

ELEC 415 - Communication Circuits

The principles of communication circuits and systems are studied, including oscillators, amplifiers, modulation, antennas and transmission lines. Information theory, voice and data communications are considered also.

Credit Hours: 3 hrs
Prerequisite: ELEC 310
Corequisites: ELEC 314
Last Updated: Links 04/2011

ELEC 420 - Advanced Microprocessors

Further study of microprocessors and interfacing applications. Use of personal computers as the platform for data collection, instrumentation and control applications.

Credit Hours: 3 hrs
Prerequisite: ELEC 310, ELEC 314 and COSC 211
Last Updated: Links 04/2011

ELEC 426 - Control Systems Engineering (NEW COURSE)

This course presents control system concepts including the skills needed to identify control systems models and their transfer functions. Simulation software will be used to illustrate mathematical procedures and provide computer solutions to practical problems.

Credit Hours: 3 hrs
Prerequisite: ELEC 326
Class Restrictions: Junior standing and above only
Last Updated: New Course 05/2012, effective Winter 2013

ELEC 450 - Senior Design Project
This course is intended to be the capstone activity for the student; includes a proposal phase, development phase and final project, using the skills learned throughout the program.

**Credit Hours:** 3 hrs  
**Prerequisite:** ELEC 420 and ELEC 415  
**Last Updated:** Links 04/2011

**ELEC 477 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 1 hr  
**Prerequisite:** department permission

**ELEC 478 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 2 hrs  
**Prerequisite:** department permission

**ELEC 479 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 3 hrs  
**Prerequisite:** department permission

**ELEC 487 - Cooperative Education in Electronic Technology**

The second industrial experience for electronic technology majors. The students will be placed on a job that relates to their primary area of study, for one semester. Regular employee benefits may be received.

**Credit Hours:** 3 hrs  
**Prerequisite:** ELEC 387 and department permission  
**Notes:** Offered on a credit/no-credit basis.  
**Last Updated:** Links 04/2011

**ELEC 494 - Industry-Based Special Topics**

Course descriptions are formulated at the time of an industry’s request and reflect the particular requirements of the client company.

**Credit Hours:** 1 hr  
**Notes:** Offered on a credit/no-credit basis

**ELEC 495 - Industry-Based Special Topics**
Course descriptions are formulated at the time of an industry’s request and reflect the particular requirements of the client company.

**Credit Hours:** 2 hrs  
**Notes:** Offered on a credit/no-credit basis.

**ELEC 496 - Industry-Based Special Topics**

Course descriptions are formulated at the time of an industry’s request and reflect the particular requirements of the client company.

**Credit Hours:** 3 hrs  
**Notes:** Offered on a credit/no-credit basis.

**ELEC 497 - Independent Study**

Available to selected students who have demonstrated ability to profit from a directed-study project. Intensive study of a problem appropriate to the student’s area of concentration. Enrollment and selection of a project proposal must be approved by the department adviser and chair.

**Credit Hours:** 1 hrs  
**Prerequisite:** department permission

**ELEC 498 - Independent Study**

Available to selected students who have demonstrated ability to profit from a directed-study project. Intensive study of a problem appropriate to the student’s area of concentration. Enrollment and selection of a project proposal must be approved by the department adviser and chair.

**Credit Hours:** 2 hrs  
**Prerequisite:** department permission

**ELEC 499 - Independent Study**

Available to selected students who have demonstrated ability to profit from a directed-study project. Intensive study of a problem appropriate to the student’s area of concentration. Enrollment and selection of a project proposal must be approved by the department adviser and chair.

**Credit Hours:** 3 hrs  
**Prerequisite:** department permission

**Engineering Technology**

**ET 100 - Introduction to Engineering Technology**

Introduction to the Engineering Technology profession by demonstrating and applying problem solving concepts from science and technology courses. Development of open-ended technological design projects which emphasize the communication skills. Supporting these activities is a structured syllabus that employs mathematical and physical reasoning towards the solution of fundamental engineering problems.
ET 101 - Introduction to Engineering Technology Computing

Introduction to Engineering Technology Computing will cover the basics of Matlab and Excel. Data input, basic commands, predefined functions, plotting and simple programming as applied to engineering technology problems will be covered. Laboratory course.

Credit Hours: 3 hrs
Concurrent Prerequisite: MATH 104 or higher
Last Updated: Credit Hour Change 02/2012, effective Fall 2012; Links 04/2011

ET 477 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr
Prerequisite: department permission

ET 478 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs
Prerequisite: department permission

ET 479 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs
Prerequisite: department permission

ET 497 - Independent Study

Available to selected students who have demonstrated ability to profit from a directed-study project. Intensive study of a problem appropriate to the student’s area of concentration. Enrollment and selection of a project proposal must be approved by the department adviser and chair.

Credit Hours: 1 hr
Prerequisite: department permission

ET 498 - Independent Study

Available to selected students who have demonstrated ability to profit from a directed-study project. Intensive study of a problem appropriate to the student’s area of concentration. Enrollment and selection of a project proposal must be approved by the
department adviser and chair.

Credit Hours: 2 hrs  
Prerequisite: department permission  

ET 499 - Independent Study

Available to selected students who have demonstrated ability to profit from a directed-study project. Intensive study of a problem appropriate to the student’s area of concentration. Enrollment and selection of a project proposal must be approved by the department adviser and chair.

Credit Hours: 3 hrs  
Prerequisite: department permission  

Facility Management

FMGT 177 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr  
Prerequisite: department permission

FMGT 178 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs  
Prerequisite: department permission

FMGT 179 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs  
Prerequisite: department permission

FMGT 202 - Introduction to Facility Management

The student will gain an overview of the facility management profession. The following topics will be introduced: history of the facility management profession, organizational structure, property management, facilities planning, maintenance and operations, managing support services, managing construction projects, strategic planning and budgeting, and conducting a facilities audit.

Credit Hours: 3 hrs  

FMGT 230 - Facility Operations and Maintenance
This course provides the student with an introduction to the operation and maintenance of facility systems. These systems include: heating, ventilation and air conditioning; elevators; grounds; building exterior and roof; interior walls and floors; plumbing; electrical; telecommunications; fire safety; and security.

**Credit Hours:** 3 hrs

**FMGT 277 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 1 hr  
**Prerequisite:** department permission

**FMGT 278 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 2 hrs  
**Prerequisite:** department permission

**FMGT 279 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 3 hrs  
**Prerequisite:** department permission

**FMGT 377 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 1 hr  
**Prerequisite:** department permission

**FMGT 378 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 2 hrs  
**Prerequisite:** department permission

**FMGT 379 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.
FMGT 387 - Cooperative Education in Facility Management

Facility management majors will be placed on a job that relates to their primary area of study, for one semester. During this period regular employee benefits may be received.

Credit Hours: 3 hrs
Prerequisite: department permission

FMGT 416 - Managing Utilities, Lighting Systems and Code Compliance

This course covers utility rate structures and their effect on building operation strategies, building code requirements, and managing lighting systems for cost efficiency and code compliance.

Credit Hours: 3 hrs
Prerequisite: CADM 105 and FMGT 202

FMGT 417 - Computer-Aided Facility Management

This course teaches the student how to use software that is dedicated to managing facilities.

Credit Hours: 3 hrs
Prerequisite: CADM 105 and FMGT 230

FMGT 418 - Building Automation Systems

This course teaches the student how computerized control systems work in a building. The principal systems covered will be: heating, ventilation and air conditioning control; lighting systems-switching and dimming; elevators-optimum scheduling; security-access control and monitoring; and fire safety-air flow controls, alarms and sprinklers.

Credit Hours: 3 hrs
Prerequisite: CADM 105 and FMGT 202

FMGT 424 - Industrial Plant Facilities and Planning

Planning procedures related to small plant and heavy industrial production. Mass production layout methods, machine and production equipment arrangements, types of plant architecture and related facilities, transportation and handling facilities, lighting, sewerage, ventilation, water supply, electrical power and personal facilities are included.

Credit Hours: 3 hrs

FMGT 432 - Senior Seminar in Facility Management
This course is a capstone experience that considers and integrates special problems in facility management.

**Credit Hours:** 3 hrs  
**Prerequisite:** FMGT 202 and FMGT 230  
**Concurrent Prerequisite:** Completed or concurrent co-op  
**Class Restrictions:** Senior standing  
**Last Updated:** Links 04/2011

**FMGT 477 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 1 hr  
**Prerequisite:** department permission

**FMGT 478 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 2 hrs  
**Prerequisite:** department permission

**FMGT 479 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 3 hrs  
**Prerequisite:** department permission

**FMGT 487 - Cooperative Education in Facility Management**

The second in a two-course sequence for facility management majors. The students will be placed on a job that relates to their primary area of study, for one semester. Regular employee benefits may be received.

**Credit Hours:** 3 hrs  
**Prerequisite:** FMGT 387 and department permission.  
**Notes:** Graded on a credit/no-credit basis  
**Last Updated:** Links 04/2011

**FMGT 494 - Industry-Based Special Topics**

Course descriptions are formulated at the time of an industry’s request and reflect the particular requirements of the client company.

**Credit Hours:** 1 hr  
**Notes:** Offered on a credit/no-credit basis.

**FMGT 495 - Industry-Based Special Topics**
Course descriptions are formulated at the time of an industry’s request and reflect the particular requirements of the client company.

**Credit Hours:** 2 hrs  
**Notes:** Offered on a credit/no-credit basis

**FMGT 496 - Industry-Based Special Topics**

Course descriptions are formulated at the time of an industry’s request and reflect the particular requirements of the client company.

**Credit Hours:** 3 hrs  
**Notes:** Offered on a credit/no-credit basis

**FMGT 497 - Directed Study in Facility Management Techniques**

Available to selected students who have demonstrated ability to profit from a directed-study project. Intensive study of a problem appropriate to the student’s area of concentration. Enrollment and selection of a project proposal must be approved by the department adviser and chair.

**Credit Hours:** 1 hr  
**Prerequisite:** department permission

**FMGT 498 - Directed Study in Facility Management Techniques**

Available to selected students who have demonstrated ability to profit from a directed-study project. Intensive study of a problem appropriate to the student’s area of concentration. Enrollment and selection of a project proposal must be approved by the department adviser and chair.

**Credit Hours:** 2 hrs  
**Prerequisite:** department permission

**FMGT 499 - Directed Study in Facility Management Techniques**

Available to selected students who have demonstrated ability to profit from a directed-study project. Intensive study of a problem appropriate to the student’s area of concentration. Enrollment and selection of a project proposal must be approved by the department adviser and chair.

**Credit Hours:** 3 hrs  
**Prerequisite:** department permission

**Interior Design**

**IDE 110 - Interior Design Studio I**

Introduction to technical drawing techniques, interior construction processes and construction materials used in interior design. Emphasis on basic architectural drafting skills and conventions as applied to wood frame construction.

**Credit Hours:** 3 hrs
IDE 111 - Environmental Psychology and Behavior for Interior Design

Introduction to human factors, anthropometric, the precepts of Universal Design and ADA, as the foundation for the design process for interior environments. The course explores the program diversity in interior environments for both residential and commercial design using basic concepts of environmental psychology and behavior.

Credit Hours: 3 hrs
Class Restrictions: First-Year and Sophomore standing only
Previously Listed As: IDE 111 Human Factors and Universal Design
Last Updated: Title, description and restriction change 6/2012, effective winter 2013

IDE 120 - Interior Design Studio II

Development of interior design graphic presentation skills. Emphasis on quick sketched, 1 and 2 points perspectives and rendering techniques.

Credit Hours: 3 hrs

IDE 121 - Interior Design Materials and Components

Investigation of characteristics, properties, and uses of materials and components specified by the interior designer. Emphasis: Life cycle analysis of interior finishes, furnishings and equipment (FF&E) with discussion of relevant environmentally responsible design considerations.

Credit Hours: 3 hrs

IDE 122 - Interior Design Theory II

Introduction to environment and behavior and psychosocial theories as they apply to the design of interior environments. Emphasis: Environment and behavior and psychosocial theories, as relevant to environmentally responsible design, as a platform for exploration of environmentally responsible design in interior design practices.

Credit Hours: 3 hrs

IDE 123 - Computers for Interior Design I

Introduction to the use of computers in interior design. Emphasis: two-dimensional computer-aided drafting and three-dimensional modeling and rendering.

Credit Hours: 3 hrs

IDE 131 - Interior Design Theory I

Introduction to design theories as the foundation for planning interior environments. Emphasis: Discussion and exploration of relevant design theories including environment and behavior, design composition, spatial relationships and principles and elements of design.

Credit Hours: 3 hrs

IDE 177 - Special Topics
An experimental course designed to investigate specific topics of concern in specialization areas.

**Credit Hours:** 1 hr  
**Prerequisite:** department permission

**IDE 178 - Special Topics**

An experimental course designed to investigate specific topics of concern in specialization areas.

**Credit Hours:** 2 hrs  
**Prerequisite:** department permission

**IDE 179 - Special Topics**

An experimental course designed to investigate specific topics of concern in specialization areas.

**Credit Hours:** 3 hrs  
**Prerequisite:** department permission

**IDE 208 - Introduction to Basic Design**

Application of the basic principles and concepts of design as they pertain to the relationship between contemporary human needs and environmental needs. Color theory; functional and creative interior design

**Credit Hours:** 3 hrs  
**Major Restrictions:** Non-majors only

**IDE 210 - Interior Design Studio III**

Introduction to the design process used in the interior design profession. Emphasis: programming, ideation, concept development, space planning, design development and documentation, and presentation of design projects.

**Credit Hours:** 3 hrs  
**Prerequisite:** IDE 110, IDE 120 and IDE 123  
**Last Updated:** Links 04/2011

**IDE 219 - Computers for Interior Design II**

Advanced computer-aided design techniques for multimedia presentations. Emphasis: Three-dimensional modeling, interior design graphics, presentation of interior design projects and the parametric design system.

**Credit Hours:** 3 hrs  
**Prerequisite:** IDE 123  
**Last Updated:** Links 04/2011

**IDE 220 - Interior Design Studio IV**

Engagement in creative problem solving using the design process to integrate both physiological and socio-psychological user needs with the functional and aesthetic design of an interior environment; analysis, synthesis and presentation of three-dimensional solutions to a beginning-level, small scale design problem.
IDE 221 - Environmental Systems for Interior Designers

Introduction to acoustics, noise control, climate control, plumbing and electrical systems. Emphasis: Investigation of building systems to enable interior designers to work within the parameters dictated by these systems and to communicate effectively with the subcontractors who design and install these systems.

Credit Hours: 3 hrs

IDE 225 - History of Interiors from Antiquity to 1800 (NEW COURSE)

Chronological survey of styles in architecture, interiors, furniture, and decorative arts from Antiquity to 1800. Emphasis on the design, function, construction, and evolution of interior environments and the sociological, psychological, and cultural factors that influenced the characteristics of each style.

Credit Hours: 3 hrs
Class Restrictions: All undergraduates and second bacc.
Last Updated: New Course 06/2012, effective Winter 2013

IDE 226 - History of Interiors from 1800 to Present

Chronological survey of styles in architecture, interiors, furniture, and decorative arts from 1800 to present. Emphasis on the design, function, construction, and evolution of interior environments and the sociological, psychological, and cultural factors that influenced the characteristics of each style.

Credit Hours: 3 hrs
Major Restrictions: All undergraduates and second bacc.
Previously Listed As: IDE 222 History of Interiors
Last Updated: number, title and description change 6/2012, effective Winter 2013

IDE 277 - Special Topics

An experimental course designed to investigate specific topics of concern in specialization areas.

Credit Hours: 1 hr
Prerequisite: department permission

IDE 278 - Special Topics

An experimental course designed to investigate specific topics of concern in specialization areas.

Credit Hours: 2 hrs
Prerequisite: department permission

IDE 279 - Special Topics

An experimental course designed to investigate specific topics of concern in specialization areas.
IDE 310 - Interior Design Studio V

Engagement in creative problem solving using the design process to integrate both physiological and socio-psychological user needs with the functional and aesthetic design of the interior environment through analysis, synthesis and presentation of three-dimensional solution to an intermediate-level, medium scale design problem.

IDE 317 - Lighting Systems for Interior Designers

Introduction to lighting design for interior environments. Emphasis on lighting design fundamentals, the lighting design process, light sources and energy conservation. Application: Retail lighting design.

IDE 318 - Interior Building Codes and ADA

Examination of the codes and laws relevant to the design of the interior environment with in-depth analysis of ADA as it relates to interior designers. Emphasis is implementation of the code check process and ADA compliance evaluations.

IDE 320 - Interior Design Studio VI

Engagement in creative problem solving using the design process to integrate both physiological and socio-psychological user needs with the functional and aesthetic design of the interior environment through analysis, synthesis, and presentation of a three-dimensional solution to an intermediate-level, medium scale, non-residential design problem.

IDE 324 - Internship in Interior Design

Development of communication tools required for Interior Design internship placement with emphasis on portfolio and resume preparation, and interviewing techniques. Evaluation of the supervised internship student work experience in the Interior Design professional practice learning outcomes in specific design domain.
Previously Listed As: IDE 411 & IDE 323

Course Revisions:

Merge of IDE 411 Internship in Interior Design and IDE 323 Internship in Interior Design Preparation

Last Updated: Number change 7/2012, effective Winter 2013; course merge, description, credit and prerequisite change 6/2012, effective Winter 2013; Links 04/2011

IDE 325 - Professional Practice in Interior Design

Examination of business principles and practices in the interior design profession. This course will cover the different types of business organizations, marketing practices, management practices, and legal aspects specific to interior design firms, the management of interior design projects, warranties, and liabilities for products and service provided by interior designers.

Credit Hours: 3 hrs
Major Restrictions: Interior Design Majors only
Previously Listed As: IDE 422 Professional Practice in Interior Design
Last Updated: number and description change 6/2012, effective Winter 2013

IDE 377 - Special Topics

An experimental course designed to investigate specific topics of concern in specialization areas.

Credit Hours: 1 hr
Prerequisite: department permission

IDE 378 - Special Topics

An experimental course designed to investigate specific topics of concern in specialization areas.

Credit Hours: 2 hrs
Prerequisite: department permission

IDE 379 - Special Topics

An experimental course designed to investigate specific topics of concern in specialization areas.

Credit Hours: 3 hrs
Prerequisite: department permission

IDE 410 - Interior Design Studio VII

Engagement in creative problem solving and critical thinking, using the design process to integrate both physiological and sociopsychological user needs with the functional and aesthetic design of the interior environment through analysis, synthesis and presentation of a three-dimensional solution to an advanced-level, large scale, non-residential design problem. Emphasis: Mixed-use design project in an adaptive reuse of a mid or high-rise building.

Credit Hours: 3 hrs
Prerequisite: IDE 320
Last Updated: Links 04/2011

IDE 411 - Internship in Interior Design (TO BE DELETED)
Supervised work experience in the interior design profession (120 hours). Emphasis: Opportunity to work with an NCIDQ certificate holder to observe and participate in the day-to-day operations of the firm to gain a better understanding of professional practice in that particular design domain.

**Credit Hours:** 1 hrs  
**Prerequisite:** IDE 324  
**Last Updated:** Merge with IDE 323, effective Winter 2013; Links 04/2011

**IDE 420 - Interior Design Studio VIII**

Engagement in creative problem solving and critical thinking, using the design process to integrate both physiological and socio-psychological user needs with the functional and aesthetic design of the interior environment through analysis, synthesis and presentation of a three-dimensional solution to an advanced-level, large scale, non-residential design problem.

**Credit Hours:** 3 hrs  
**Prerequisite:** IDE 410  
**Last Updated:** Links 04/2011

**IDE 425 - Mill Work Design and Detailing**

The design of architectural detail and mil-work correlated with construction specifications development for commercial environments. Emphasis on research based design of the different materials and their applications with the building's electrical, plumbing, mechanical, acoustical, security, fire suppression and lighting systems.

**Credit Hours:** 3 hrs  
**Prerequisite:** IDE 320  
**Concurrent Prerequisite:** IDE 320  
**Class Restrictions:** Senior standing only  
**Previously Listed As:** IDE 322  
**Last Updated:** Change in number, description and prerequisites, 6/2012, effective Winter 2013; Links 04/2011

**IDE 430W - Writing for Interior Design (Gen Ed Area I, W)**

The course focuses on writing about interior design topics. Students will develop their skills in presenting design content accurately and efficiently on a variety of topics dealing with design discourse, business practices, and technical processes. By focusing the students' attention on writing for a professional audience, a higher degree of relevancy will be stressed.

**Credit Hours:** 3 hrs  
**Prerequisite:** IDE 410  
**Class Restrictions:** Senior standing only  
**Major Restrictions:** Interior Design Majors only

**Area I: Effective Communication**

**IDE 430W Writing for Interior Design**

This course is intended for students in the Interior Design program in the School of Engineering Technology (SET). The purpose of this course is to provide students with the opportunity to excel in writing that is relevant to the Interior Design profession. By connecting writing and design content more closely, this course will better prepare students for the expectations of the workplace, and improve their opportunities for professional advancement.

Interior design professionals must be able to use appropriate language for the appropriate audiences in presenting their ideas and designs. In the Interior Design profession, visual presentations are used to make the initial impact, however what is appealing to
the eye needs to be justified on paper and followed through throughout the design process in order for designs to come alive. It is important for students to leave the program with sufficient knowledge about how to prepare and administer contract documents, how to use persuasion when pursuing potential projects, and how to engage in profitable discourse about any given design project. Inclusion of an intensive writing course that focuses strictly on the Interior Design profession will allow students to develop these skills.

In contrast to most IDE courses, which emphasize the applications of interior design theory and technology via graphic presentation, this course focuses entirely on clear and concise writing. The writing activities will count for 75 percent of the course grade.

**IDE 477 - Special Topics**

An experimental course designed to investigate specific topics of concern in specialization areas.

_Credit Hours_: 1 hr  
_Prerequisite_: department permission

**IDE 478 - Special Topics**

An experimental course designed to investigate specific topics of concern in specialization areas.

_Credit Hours_: 2 hrs  
_Prerequisite_: department permission

**IDE 479 - Special Topics**

An experimental course designed to investigate specific topics of concern in specialization areas.

_Credit Hours_: 3 hrs  
_Prerequisite_: department permission

**IDE 497 - Independent Study**

Advanced study on an individual basis in areas in which the department does not offer a formal course.

_Credit Hours_: 1 hr  
_Prerequisite_: department permission

**IDE 498 - Independent Study**

Advanced study on an individual basis in areas in which the department does not offer a formal course.

_Credit Hours_: 2 hrs  
_Prerequisite_: department permission

**IDE 499 - Independent Study**

Advanced study on an individual basis in areas in which the department does not offer a formal course.
IDE 503 - Physical Environments for Aging

The course will explore the interrelationship between the physical and psychosocial changes that occur with normal aging and the designed environment. Environmental assessments and recommendations to accommodate normal aging and the related physical impairments will be addressed.

Manufacturing

MFG 103 - Introduction to Automation

An introduction to the technology of discrete parts manufacturing. Topics include the contemporary manufacturing environment, new and emerging technologies, human-machine interfaces and human resource issues. Course includes field trips.

MFG 124 - Manufacturing Processes and Methods II

An introduction and survey of machines, tools, processes and materials of industry. Includes conventional and nonconventional machining, theory of metal removal, cutting tool geometry and materials, fixturing and measuring devices. Lecture and laboratory course.

MFG 140 - Science, Technology and People

This course will help people better understand the complementary relationship between science and technology in (a) creating technical devices, services and systems; and (b) solving problems.

MFG 177 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

MFG 178 - Special Topics
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 2 hrs  
**Prerequisite:** department permission  
**Last Updated:** 2/8/2011

**MFG 179 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 3 hrs  
**Prerequisite:** department permission  
**Last Updated:** 2/8/2011

**MFG 215 - Machine Tool Metalworking**

Machine tools and metalworking processes including turning, drilling, shaping, milling and grinding. Principles of tooling, precision measurement and identification of metals. Lecture and laboratory course.

**Credit Hours:** 3 hrs  
**Last Updated:** 2/8/2011

**MFG 251 - Material Analysis and Testing**

Study of the structure, characteristics, and working qualities of common industrial materials. Lecture and laboratory course.

**Credit Hours:** 3 hrs  
**Last Updated:** 2/8/2011

**MFG 277 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 1 hr  
**Prerequisite:** department permission  
**Last Updated:** 2/9/2011

**MFG 278 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 2 hrs  
**Prerequisite:** department permission  
**Last Updated:** 2/9/2011

**MFG 279 - Special Topics**
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 3 hrs  
**Prerequisite:** department permission  
**Last Updated:** 2/9/2011

### MFG 306 - Plastic Processing

A study of high polymers, basic resin types, and their application to molding and fabrication process. Analysis of chemical and physical properties, mold design, and problems of production. Experimentation and testing required. Lecture and laboratory course.

**Credit Hours:** 3 hrs  
**Prerequisite:** PDD 111  
**Last Updated:** Links 05/2011

### MFG 318 - Fluid Power

Industrial hydraulic and pneumatic power transmission. Emphasis is on components, system control techniques, logic, system analysis and design. Lecture and laboratory course.

**Credit Hours:** 3 hrs  
**Prerequisite:** PHY 221  
**Last Updated:** Links 04/2011

### MFG 361 - Computer Numerical Control

NC programming for both CNC mill and lathe. The transfer of part descriptions into a detailed process plan, tool selection, and finally into NC machine codes. Computer-assisted programming, APT, and CAD/CAM for 2-D machining is emphasized. Verification is accomplished by laboratory work.

**Credit Hours:** 3 hrs  
**Prerequisite:** MATH 107 or Level 6 math placement, MFG 124 and PDD 122  
**Last Updated:** Links 04/2011

### MFG 377 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 1 hr  
**Prerequisite:** department permission  
**Last Updated:** 2/9/2011

### MFG 378 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 2 hrs
MFG 379 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs
Prerequisite: department permission
Last Updated: 2/9/2011

MFG 411 - Plastics Fabricating and Decorating

Processes involved in forming and fastening of standard profile materials in plastics. Methods of joining, machining and decorating of plastics materials and products are required. Lecture and laboratory course.

Credit Hours: 3 hrs
Prerequisite: MFG 306
Last Updated: 4/2011

MFG 421 - Manufacturing Engineering Analysis

An advanced course in the analysis of manufacturing operations, utilizing current and new concepts and methods of manufacturing engineering and quality. Students from various programs will work together in integrated teams and utilize complementary tools and skills to identify and solve problems. Lecture and laboratory course.

Credit Hours: 3 hrs
Prerequisite: PDD 316
Last Updated: 5/2011

MFG 425 - Advanced Manufacturing Methods

The course emphasizes computerized methods of planning, material handling, machining cells and inspection. Lecture and laboratory course.

Credit Hours: 3 hrs
Prerequisite: MFG 103, MFG 124, PDD 203, ELEC 218 and PDD 123
Last Updated: 4/2011

MFG 477 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr
Prerequisite: department permission
Last Updated: 2/9/2011

MFG 478 - Special Topics
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 2 hrs  
**Prerequisite:** department permission  
**Last Updated:** 2/9/2011

**MFG 479 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 3 hrs  
**Prerequisite:** department permission  
**Last Updated:** 2/9/2011

**MFG 494 - Industry-Based Special Topics**

Course descriptions are formulated at the time of an industry’s request and reflect the particular requirements of the client company.

**Credit Hours:** 1 hr  
**Notes:** Offered on a credit/no-credit basis.  
**Last Updated:** 2/9/2011

**MFG 495 - Industry-Based Special Topics**

Course descriptions are formulated at the time of an industry’s request and reflect the particular requirements of the client company.

**Credit Hours:** 2 hrs  
**Notes:** Offered on a credit/no-credit basis.  
**Last Updated:** 2/9/2011

**MFG 496 - Industry-Based Special Topics**

Course descriptions are formulated at the time of an industry’s request and reflect the particular requirements of the client company.

**Credit Hours:** 3 hrs  
**Notes:** Offered on a credit/no-credit basis.  
**Last Updated:** 2/9/2011

**MFG 497 - Independent Study**

Available to selected students who have demonstrated ability to profit from a directed-study project. Intensive study of a problem appropriate to the student’s area of concentration. Enrollment and selection of a project proposal must be approved by the department adviser and chair.

**Credit Hours:** 1 hr
Prerequisite: department permission
Last Updated: 2/9/2011

MFG 498 - Independent Study

Available to selected students who have demonstrated ability to profit from a directed-study project. Intensive study of a problem appropriate to the student’s area of concentration. Enrollment and selection of a project proposal must be approved by the department adviser and chair.

Credit Hours: 2 hrs
Prerequisite: department permission
Last Updated: 2/9/2011

MFG 499 - Independent Study

Available to selected students who have demonstrated ability to profit from a directed-study project. Intensive study of a problem appropriate to the student’s area of concentration. Enrollment and selection of a project proposal must be approved by the department adviser and chair.

Credit Hours: 3 hrs
Prerequisite: department permission
Last Updated: 2/9/2011

Mechanical Engineering Technology

MET 211 - Statics

This course is an applied and analytical study of structural components in static equilibrium with emphasis on engineering applications. Topics include force resultants, moments, trusses, frames, centroids and moments of inertia.

Credit Hours: 3 hrs
Prerequisite: (MATH 120 or MATH 140) and ( a C- or better in PHY 221 or PHY 223)
Last Updated: Prerequisite Change 11/2011, effective Winter 2012; Links 04/2011

MET 223 - Descriptive Geometry

Students will develop the graphical procedures for working with points, lines, planes and solids in space and in relation to other points, lines, planes and solids. Intersections and developments of these geometric features will be performed.

Credit Hours: 2 hrs
Lecture/Lab Hours: Lecture and laboratory course
Prerequisite: MATH 107 and PDD 122
Last Updated: Links 04/2011

MET 312 - Applied Dynamics Principles

Fundamentals of the kinematics and kinetics of motion with emphasis on practical applications of engineering systems. Theory and application of Newton’s Laws of Motion, displacement, velocity, acceleration, rectilinear and curvilinear motion, power, impulse and momentum.
MET 313 - Applied Mechanics of Materials

Analysis and design of structural members subjected to external forces, considering stress, strain and deformation of elastic solids. Study of tension, compression, shear, torsion and combined stress. Emphasis on the practical application of these concepts to the analysis of beams, columns, pressure vessels and machine members. Lecture and laboratory course.

Credit Hours: 3 hrs
Prerequisite: MET 211 and (a C- or better in PHY 221 or PHY 223)
Class Restrictions: Sophomore standing
Last Updated: Prerequisite revision 7/2012; Prerequisite Change 11/2011, effective Winter 2012; Links 04/2011

MET 314 - Applied Thermodynamics and Heat Transfer

Applications of the first and second laws of thermodynamics. Study of thermodynamics steam and refrigeration cycles. Availability and conservation of energy. Power and efficiency. Introduction heat transfer by conduction, convection and radiation. Fundamental laws governing the transformation of heat into mechanical energy with emphasis on practical applications of engineering systems. Lecture and laboratory course.

Credit Hours: 3 hrs
Prerequisite: (MATH 120 or MATH 140) and (a C- or better in PHY 221 or PHY 223)
Class Restrictions: Sophomore standing
Last Updated: Prerequisite Revision 7/2012; Prerequisite Change 11/2011, effective Winter 2012; Links 04/2011

MET 316 - Design for Manufacturing and Tooling

A study of manufacturing tooling systems integrated with product and process design principles, utilizing concurrent engineering methods. Students from various programs will work together in integrated teams and utilize complementary tools and skills to solve design problems. Lecture and laboratory course.

Credit Hours: 3 hrs
Prerequisite: PDD 122 and PDD 123
Class Restrictions: Sophomore standing
Last Updated: Links 04/2011

MET 319 - Fluid Mechanics

An analytical study of fluids under all conditions of rest and motion. The emphasis is on physical concepts rather than mathematical manipulation. Topics include fluid statics, kinematics of fluid motion, incompressible and compressible flow, impulse momentum principle, fluid flow in pipes and open channels, and fluid measurement. Lecture and Laboratory course.

Credit Hours: 3 hrs
Prerequisite: MET 211, and (a C- or better in PHY 221 or PHY 223)
Class Restrictions: Sophomore standing
Last Updated: Prerequisite revision 7/2012; Prerequisite Change 11/2011, effective Winter 2012; Links 04/2011

MET 387 - Cooperative Education in Mechanical Engineering Technology
Mechanical Engineering Technology majors will be placed in a job that relates to their primary area of study, for one semester. During this period regular employee benefits may be received.

Credit Hours: 3 hrs  
Prerequisite: department permission  
Notes: Offered on a credit/no-credit basis.

**MET 411 - Mechanical/Machine Design**

A study of the decision-making processes which mechanical engineers use in the formulation of plans for the physical realization of machines, devices, and systems. Topics include the phases of design, codes and standards, stress analysis, failure criteria, design for fatigue strength and the design of mechanical elements.

Credit Hours: 3 hrs  
Prerequisite: PDD 123, MET 312 and MET 313  
Class Restrictions: Junior standing  
Last Updated: Links 04/2011

**MET 437 - Kinematics of Machines**

Static, kinematic and dynamic analysis of plane motion. A study of instantaneous centers, velocities, accelerations and forces in mechanisms and machine elements. Development and analysis by analytical and graphical methods.

Credit Hours: 3 hrs  
Prerequisite: MET 313 and MET 312  
Last Updated: Links 04/2011

**MET 470 - Mechanical Vibrations**

Credit Hours: 2 hrs  
Prerequisite: MET 312  
Last Updated: Links 04/2011

**MET 492 - Senior Design Projects I**

The first term of a two-term, comprehensive, capstone, open-ended design project. Establishment and development of the design process with special emphasis placed on teamwork towards the initial design proposal — written and oral.

Credit Hours: 3 hrs  
Prerequisite: SET 350W  
Concurrent Prerequisite: MET 437  
Class Restrictions: Senior standing  
Last Updated: Prerequisite Change 11/2011, effective Winter 2012; Links 04/2011

**MET 493 - Senior Design Projects II**

The concluding term of a two-term, comprehensive, capstone, open-ended design project. Generation and conclusive development of the final design with consideration for design reviews, prototype requirements, scheduling, ergonomics, safety
and economic constraints. A written report and oral defense of the project is required.

**Credit Hours:** 3 hrs
**Prerequisite:** MET 492
**Last Updated:** Links 04/2011

### Polymers and Coatings

#### PC 185 - World of the Super Small

This course acquaints students with nanotechnology phenomena in basic science and engineering disciplines. The material presented broadly illustrates the diversity of nanoscale phenomena and how these phenomena impact our daily lives. A prime objective is to inseminate the ability to discuss and understand basic aspects of interesting "nano" phenomena.

**Credit Hours:** 3 hrs

#### PC 203 - Miniaturization in Technology

Miniaturization as a scientific, sociological or economic driver in the evolution of technology is examined. This specialized history course focuses on technology development from the 19th through 21st centuries and illustrates how various industrial and consumer products and manufacturing processes have led to the current focus on nanotechnology.

**Credit Hours:** 3 hrs

#### PC 260 - Introduction to Coatings Science and Technology

The course is designed for the science and engineering undergraduates who want to gain basic understanding about the coatings. Coatings are used in myriad applications such as buildings, automobiles, industrial products, construction, electronics, etc. and fundamental knowledge of this interdisciplinary field is very useful to the future scientists and engineers.

**Credit Hours:** 3 hrs
**Prerequisite:** CHEM 123, CHEM 124 and PHY 222
**Class Restrictions:** Sophomore, Junior or Senior standing
**Last Updated:** Links 04/2011

#### PC 310 - Polymers for Engineers and Technologists

Introduction to polymer science, polymerization, polymer modifications, size and weight of polymer molecules, plastics, adhesives, silicones, foams, surface coatings, fibers, elastomers, transitions and relaxations in polymers, rheology, polymer fabrication techniques.

**Credit Hours:** 3 hrs
**Prerequisite:** CHEM 123 and CHEM 124 or department permission
**Last Updated:** Links 04/2011

#### PC 377 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.
PC 378 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr
Prerequisite: Department permission
Last Updated: Links 04/2011

PC 379 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs
Prerequisite: Department permission
Last Updated: Links 04/2011

PC 387 - Cooperative Education in Interdisciplinary Technology

A minimum of three to four months of full-time employment in a business or industry that provides experiences directly related to the major area of study. Work sites must be approved in advance by the Interdisciplinary Technology Department. Regular employee benefits may be received during the employment period.

Credit Hours: 3 hrs
Prerequisite: Department permission
Last Updated: Links 04/2011

PC 400 - Polymers and Coatings Technology I

Introduction to synthesis, film formation, structure, and properties of polymers commonly used in coatings. Polymer systems to be covered include acrylic, vinyls, polyesters, alkyds, oils, epoxies, epoxyesters, aminoplasts, urethanes, phenolics, hydrocarbons, cellulosics.

Credit Hours: 3 hrs
Prerequisite: CHEM 371 and CHEM 372
Last Updated: Links 04/2011

PC 401 - Polymers and Coatings Technology I Laboratory

Synthesis, characterization and identification of polymers used in coatings. The synthesis of solution acrylic, vinyl, acrylic emulsion, polyester, alkyd, epoxyester, melamine formaldehyde and urethane polymers with extensive use of physical techniques such as GIRT, GP and calorimetry.

Credit Hours: 3 hrs
Corequisites: PC 400
Last Updated: Links 04/2011
PC 402 - Polymers and Coatings Technology II

Formulation in oil-based and waterborne coatings covering the use of solvents, pigments and additives. Principles of adhesion and corrosion, and the use of conversion coatings. Safety, health, government regulations and paint production techniques.

**Credit Hours:** 3 hrs  
**Prerequisite:** PC 400  
**Last Updated:** Links 04/2011

PC 403 - Polymers and Coatings Technology II Laboratory

Practical formulation in oil-based and waterborne systems including the preparation and evaluation of various topcoats and primers currently used in the coatings industry (e.g., oil-based air-dry enamel, thermosetting coating, epoxy-ester primer, two-package urethane, acrylic latex and ED primer).

**Credit Hours:** 3 hrs  
**Corequisites:** PC 402  
**Last Updated:** Links 04/2011

PC 404 - Coatings Raw Materials

Coating industry is raw material intensive. Understanding of properties of coatings, their optimization and trouble shooting requires thorough knowledge about the raw materials used in coatings. This course provides basic understanding of chemistry and technology of different classes of raw materials used in formulations of coatings.

**Credit Hours:** 3 hrs  
**Prerequisite:** CHEM 123 and CHEM 124  
**Class Restrictions:** Sophomore, Junior or Senior standing  
**Last Updated:** Links 04/2011

PC 405 - Coating Processes I

Development of expertise in industrial coating processes. Substrate preparation, principles of adhesion, corrosion control, industrial coating materials, industrial coating systems and regulatory compliance in the coatings industry.

**Credit Hours:** 3 hrs  
**Prerequisite:** PC 310 or PC 400 or department permission  
**Graduate Credit:** This is an undergraduate course available to graduate students for graduate credit.  
**Last Updated:** Graduate Credit 07/2011; Links 04/2011

PC 406 - Colloids and Interfaces

The basics of surface and interfacial physical chemistry are presented and tied to the important elements of coating and dispersions technology. Surface tension, capillarity, thermodynamics, surface films on liquids, contact angles, wetting, detergency, friction, lubrication, electrical double layer, stabilization, comminution, dispersions, and emulsions are the main topics covered.

**Credit Hours:** 3 hrs  
**Prerequisite:** CHEM 361 or department permission  
**Last Updated:** Links 04/2011
PC 407 - Coating Processes II

Process and equipment for coatings application, economic analysis of coating operations, paint defects and line design for productivity and energy conservation.

Credit Hours: 3 hrs
Prerequisite: PC 405 or department permission
Last Updated: Links 04/2011

PC 408 - Patent Drafting and Prosecution

Elementary patent law, efficient methods of reviewing patents, careers in the patenting arena and learning technology from patent publications are discussed and illustrated. Technical writing skills for drafting patent applications and for partnering with patent attorneys in prosecuting patent applications are developed in homework and in-class workshop exercises.

Credit Hours: 3 hrs
Class Restrictions: Junior or Senior standing

PC 416 - Water-Based Coatings

A course to present the technology involved in preparing and utilizing water-based coatings (solvent-based, powder and others) are presented. The requirements for polymers and other ingredients of water-based coatings formulations are taught.

Credit Hours: 3 hrs
Prerequisite: PC 310
Corequisites: PC 400
Last Updated: Links 04/2011

PC 460 - Advanced Coatings Topics

Development of in-depth formulating skills; new technology areas in coatings and polymers.

Credit Hours: 3 hrs
Prerequisite: PC 402, PC 403 or department permission
Last Updated: Links 04/2011

PC 477 - Special Topics

An examination of topics in interdisciplinary technology not covered in other departmental offerings. Students may elect these courses more than once, provided different topics are studied.

Credit Hours: 1 hr
Prerequisite: Department permission
Last Updated: Links 04/2011

PC 478 - Special Topics

An examination of topics in interdisciplinary technology not covered in other departmental offerings. Students may elect these courses more than once, provided different topics are studied.

Credit Hours: 2 hrs
Prerequisite: Department permission  
*Last Updated:* Links 04/2011

**PC 479 - Special Topics**

An examination of topics in interdisciplinary technology not covered in other departmental offerings. Students may elect these courses more than once, provided different topics are studied.

Credit Hours: 3 hrs  
Prerequisite: Department permission  
*Last Updated:* Links 04/2011

**PC 487 - Cooperative Education in Interdisciplinary Technology**

A minimum of three to four months of full-time employment in a business or industry that provides experiences directly related to the major area of study. Work sites must be approved in advance by the Interdisciplinary Technology Department. Regular employee benefits may be received during the employment period.

Credit Hours: 3 hrs  
Prerequisite: Department permission  
*Last Updated:* Links 04/2011

**PC 497 - Independent Study**

Individual work in some area of interdisciplinary technology under the direction of a faculty member. Preliminary draft of proposed study must be approved by the department prior to enrollment. May be selected more than once, after resubmission and approval.

Credit Hours: 1 hr  
Prerequisite: Department permission  
*Last Updated:* Links 04/2011

**PC 498 - Independent Study**

Individual work in some area of interdisciplinary technology under the direction of a faculty member. Preliminary draft of proposed study must be approved by the department prior to enrollment. May be selected more than once, after resubmission and approval.

Credit Hours: 2 hrs  
Prerequisite: Department permission  
*Last Updated:* Links 04/2011

**PC 499 - Independent Study**

Individual work in some area of interdisciplinary technology under the direction of a faculty member. Preliminary draft of proposed study must be approved by the department prior to enrollment. May be selected more than once, after resubmission and approval.

Credit Hours: 3 hrs  
Prerequisite: Department permission  
*Last Updated:* Links 04/2011
Product Design and Development

PDD 101 - Introduction to Industrial Drawing

An introductory mechanical drawing course emphasizing lettering, measuring, geometric construction, sketching, equipment usage, pictorials, orthographic projection and dimensioning. This course is intended for students without previous drafting experience.

Credit Hours: 3 hrs
Lecture/Lab Hours: Lecture and laboratory course.
Notes: This course does not count toward a CAD/CAM major.
Previously Listed As: CADM 101
Last Updated: Links 04/2011

PDD 111 - Materials

This course introduces students to the major categories of engineering materials. It focuses on selection, failure and degradation of metals, polymers, ceramics and composites.

Credit Hours: 3 hrs
Previously Listed As: MFG 111
Last Updated: Links 04/2011

PDD 122 - Engineering Graphics

An introductory product design course emphasizing the creation and documentation of drawings using software application packages. Some of the units of instruction include orthographic projection, dimensioning, threads, fasteners, tolerancing, gears, cams, sheet metal and weldments. The students in this course will be required to design simple mechanisms throughout the course.

Credit Hours: 4 hrs
Lecture/Lab Hours: Lecture and laboratory course.
Prerequisite: PDD 101 or one year of high school drafting
Previously Listed As: CADM 122
Last Updated: Links 04/2011

PDD 123 - Manufacturing Processes

An introduction and survey of manufacturing process and materials. Lecture, laboratory, and outside study assignments are an essential part of this course and are related to heat training, properties of materials, casting, forming, joining, survey of machines, tools, conventional and non-traditional machining, theory of metal removal, cutting tool geometry and materials, fixturing and measuring devices.

Credit Hours: 4 hrs
Previously Listed As: MFG 123
Last Updated: Links 04/2011

PDD 156 - Teamwork in Product Design and Development
An introduction to the formation and use of teams and the structures and tools utilized in the product design and development process. The course includes skills needed by individuals in order to be a part of a successful product design and development team.

Credit Hours: 3 hrs

PDD 157 - Introduction to Product Design

Presents an in-depth study of structured product design processes and methods. Methods discussed include experiences with hands-on products, applications of contemporary technologies, realistic applications of mathematics and scientific principles, studies of systematic experimentation, exploration of the design methodology and decision making for real product development.

Credit Hours: 3 hrs

PDD 203 - Industrial Operations

A survey course in the practices of manufacturing organizations. Units include careers, regulatory agencies, facilities management, group technology, problem solving and quality decision-making.

Credit Hours: 3 hrs
Previously Listed As: MFG 203
Last Updated: Subject Code Change 08/2011, effective Fall 2011

PDD 212 - Molding Materials and Processes

A study of molded products: material properties and identification, processing techniques, and application of design to product manufacture. Lecture and laboratory course.

Credit Hours: 3 hrs
Prerequisite: PDD 111 and PDD 123
Previously Listed As: MFG 112
Last Updated: Links 04/2011

PDD 220 - Geometric Dimensioning and Tolerancing

Introduction to metrology and geometric dimensioning and tolerancing concepts. Practical applications of metrology including geometric dimensioning and tolerancing will be focused on through lecture and laboratory experiences.

Credit Hours: 3 hrs
Prerequisite: PDD 122 and PDD 123
Previously Listed As: MFG 290
Last Updated: Links 04/2011

PDD 224 - 3-D Solid Modeling

Examination and production of engineering designs/drawings using 3-D solid and wireframe techniques. Software generation of drawings, models and assemblies, including exploration of file formats and transfers. Class files utilized to construct physical prototypes using rapid prototyping equipment as an output device. Models can be used for testing and visualization.

Credit Hours: 3 hrs
Prerequisite: PDD 122 and PDD 123
PDD 309 - Molded Product Design

Principles of mold design for a variety of molded products. Topics include gating, venting, risering, parting, ejection, mold materials, machining, fabricating and testing. Lecture and laboratory course.

Credit Hours: 3 hrs
Prerequisite: PDD 156, PDD 157, PDD 212, PDD 220 and PDD 224
Previously Listed As: MFG 409
Last Updated: Links 04/2011

PDD 310 - Formed Product Design

Principles of tooling design for a variety of formed products. Topics include tooling for thermoforming, blow molding, stamping, hydroforming and other forming processes. Lecture and laboratory course.

Credit Hours: 3 hrs
Prerequisite: PDD 156, PDD 157, PDD 212, PDD 220, PDD 224
Previously Listed As: MFG 410
Last Updated: Links 04/2011

PDD 311 - Engineering Intellectual Property

Introduction to intellectual property as related to the field of engineering. Topics include patents, copyrights, trademarks, trade secrets and intellectual property licensing.

Credit Hours: 3 hrs
Class Restrictions: Sophomore standing or higher
Previously Listed As: MFG 311
Last Updated: Links 04/2011; Subject Code/Prerequisite/Restriction Change 08/2011, effective Fall 2011

PDD 316 - Concept Development Studio

A course in the generation, selection and testing of new and revised product concepts. Converting customer needs and specification into a set of product concepts from which the product development team will make a final selection. Includes the methods, processes and procedures for making sound decisions in a cross functional product team environment.

Credit Hours: 3 hrs
Prerequisite: ARTS 122, PDD 156, PDD 157, PDD 220 and PDD 224
Previously Listed As: MFG 316
Last Updated: Links 04/2011

PDD 325 - Applied Statics and Strength of Materials

Students will understand the fundamentals of statics of mechanical body and system. This course is the study of elementary, analytical and practical approaches to the principles of physical concepts of static and strength materials.

Credit Hours: 4 hrs
Lecture/Lab Hours: Lecture and laboratory course
PDD 327 - Engineering Project Management

A study of project management activities associated with design and manufacturing engineering. Topics include project management concepts, methodologies, planning, budgeting, scheduling, evaluation, communication and implementation.

Credit Hours: 3 hrs
Class Restrictions: Sophomore standing or higher
Previously Listed As: MFG 327
Last Updated: Links 04/2011; Subject Code/Prerequisite/Restriction Change 08/2011, effective Fall 2011

PDD 331 - Product Design Data Management

Students develop an interactive CAD software package. Principles of software design, the use of graphics hardware and the generating, modifying, and transforming of CAD entities and databases are included.

Credit Hours: 3 hrs
Lecture/Lab Hours: Lecture and laboratory course
Prerequisite: PDD 224
Previously Listed As: CADM 331
Last Updated: Links 04/2011

PDD 340 - Engineering Ethics

Study of professional moral frameworks and applications in the engineering profession. Real and theoretical cases in addition to codes of ethics from numerous professional engineering organizations will be examined.

Credit Hours: 3 hrs
Class Restrictions: Junior standing or higher only
Previously Listed As: EM 340
Last Updated: Course Revision 05/2012, effective Fall 2012; Links 04/2011

PDD 350 - Prototyping

An introduction into the purpose, planning, construction and testing of prototypes and their application to the product design and development process. Topics include: prototyping types and uses, principles, technologies, plans and reverse engineering.

Credit Hours: 3 hrs
Lecture/Lab Hours: Lecture and Laboratory Course
Prerequisite: PDD 316
Last Updated: Links 04/2011

PDD 380 - Engineering Cost Estimating

PDD 387 - Cooperative Education in Product Design

Industrial technology majors will be placed on a job that relates to their primary area of study, for one semester. During this period regular employee benefits may be received.

PDD 432 - 3-D Modeling and Surfacing Techniques

Students learn and practice surface modeling techniques using a 3-D CAD surface modeling software application package and measurement data. Free form surface modeling techniques and scanned or digitized point data will be created to produce high-quality surface models.

PDD 433 - Advanced Tool Development

This course will introduce students to the generation of tool paths for 2.5 and 3-axis milling and drilling application. This class, as a continuation of modeling, adds knowledge and experience related to product design, assembly modeling, master model concepts and basic NX CAM functionality.

PDD 435 - Finite Element Analysis

Finite element analysis (FEA) is a powerful tool used by industries to solve many engineering problems. Basic concepts of this technique will be introduced and the students will have hands-on experience to analyze truss, beam, stress and strain problems by using FEA software packages.
PDD 450 - Lean Enterprise

Overview of lean philosophy and lean practices. Application of lean practices in manufacturing and service industries. Topics include but are not limited to standardized work, muda, kanban, 5S, jidoka, value stream mapping, JIT and Hoshin planning.

Credit Hours: 3 hrs
Class Restrictions: Sophomore standing or higher
Previously Listed As: MFG 450
Last Updated: Links 04/2011; Subject Code/Prerequisite/Restriction Change 08/2011, effective Fall 2011

PDD 470 - Integrated Product and Process Design

This course investigates the integration of product and process design methodologies. It is intended for anyone involved in product design, manufacturing engineering, process engineering, or manufacturing management. The course investigates design for manufacture and assembly, quality function deployment, value analysis, failure mode and effects analysis, error/mistake proofing, team dynamics and design of experiments.

Credit Hours: 3 hrs
Class Restrictions: Sophomore standing or higher
Previously Listed As: MFG 470
Last Updated: Links 04/2011; Subject Code/Prerequisite/Restriction Change 08/2011, effective Fall 2011

PDD 487 - Cooperative Education in Manufacturing Technology

The second in a two-course sequence for industrial technology majors. The students will be placed on a job that relates to their primary area of study, for one semester. Regular employee benefits may be received.

Credit Hours: 3 hrs
Prerequisite: PDD 387 and department permission
Notes: Graded on a credit/no-credit basis
Last Updated: Links 04/2011

PDD 491 - Computer-Aided Design Studio

The design studio will focus on the design and development of products in a teamwork environment using CAD/CAE tools. This is a comprehensive, capstone design project class for senior Product and Design Development majors.

Credit Hours: 3 hrs
Prerequisite: PDD 435, PDD 432 and PDD 433
Previously Listed As: CADM 491
Last Updated: Links 04/2011

PDD 492 - Product Realization Studio

This design studio will focus on the design and development of a product and the production system and enterprise for its manufacture. Students will work together in integrated teams and utilize complementary tools and skills to solve design, planning and production problems.

Credit Hours: 3 hrs
Prerequisite: PDD 380 or MFG 421
Previously Listed As: MFG 490
Last Updated: Links 04/2011

Quality Technology

QUAL 177 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr
Prerequisite: Department permission
Last Updated: Links 04/2011

QUAL 178 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs
Prerequisite: Department permission
Last Updated: Links 04/2011

QUAL 179 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs
Prerequisite: Department permission
Last Updated: Links 04/2011

QUAL 277 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr
Prerequisite: Department permission
Last Updated: Links 04/2011

QUAL 278 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs
Prerequisite: Department permission
Last Updated: Links 04/2011
QUAL 279 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs
Prerequisite: Department permission
Last Updated: Links 04/2011

QUAL 320 - Industrial Quality Control

An introduction to quality control systems and methods utilized in industry. Topics include quality policy and organization, data collection, and reporting, control charts, process and gauge capability, sampling plans, reliability, cost of quality, product liability and problem analysis.

Credit Hours: 3 hrs
Prerequisite: College Algebra or equivalent

QUAL 377 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr
Prerequisite: Department permission
Last Updated: Links 04/2011

QUAL 378 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hr
Prerequisite: Department permission
Last Updated: Links 04/2011

QUAL 379 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs
Prerequisite: Department permission
Last Updated: Links 04/2011

QUAL 387 - Cooperative Education in Quality Technology

Industrial technology majors will be placed on a job that relates to their primary area of study, for one semester. During this period regular employee benefits may be received.

Credit Hours: 3 hrs
Prerequisite: Department permission
Major Restrictions: Credit applicable to Industrial Technology Majors and Industrial Teacher Education Majors only
Notes: Offered on a credit/no-credit basis.
Last Updated: Links 04/2011

QUAL 477 - Special Topics
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.
Credit Hours: 1 hr
Prerequisite: Department permission
Last Updated: Links 04/2011

QUAL 478 - Special Topics
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.
Credit Hours: 2 hrs
Prerequisite: Department permission
Last Updated: Links 04/2011

QUAL 479 - Special Topics
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.
Credit Hours: 3 hrs
Prerequisite: Department permission
Last Updated: Links 04/2011

QUAL 487 - Cooperative Education in Quality Technology
The second in a two-course sequence for industrial technology majors. The students will be placed on a job that relates to their primary area of study for one semester. Regular employee benefits may be received.
Credit Hours: 3 hrs
Prerequisite: QUAL 387 and department permission
Notes: Graded on a credit/no-credit basis.
Last Updated: Links 04/2011

QUAL 494 - Industry-Based Special Topics
Course descriptions are formulated at the time of an industry’s request and reflect the particular requirements of the client company.
Credit Hours: 1 hr
Notes: Offered on a credit/no-credit basis

QUAL 495 - Industry-Based Special Topics
Course descriptions are formulated at the time of an industry’s request and reflect the particular requirements of the client company.

**QUAL 496 - Industry-Based Special Topics**

Course descriptions are formulated at the time of an industry’s request and reflect the particular requirements of the client company.

**Credit Hours:** 2 hrs  
**Notes:** Offered on a credit/no-credit basis

**QUAL 497 - Independent Study**

Available to selected students who have demonstrated ability to profit from a directed-study project. Intensive study of a problem appropriate to the student’s area of concentration. Enrollment and selection of a project proposal must be approved by the department adviser and chair.

**Credit Hours:** 1 hr  
**Prerequisite:** Department permission  
**Last Updated:** Links 04/2011

**QUAL 498 - Independent Study**

Available to selected students who have demonstrated ability to profit from a directed-study project. Intensive study of a problem appropriate to the student’s area of concentration. Enrollment and selection of a project proposal must be approved by the department adviser and chair.

**Credit Hours:** 2 hrs  
**Prerequisite:** Department permission  
**Last Updated:** Links 04/2011

**QUAL 499 - Independent Study**

Available to selected students who have demonstrated ability to profit from a directed-study project. Intensive study of a problem appropriate to the student’s area of concentration. Enrollment and selection of a project proposal must be approved by the department adviser and chair.

**Credit Hours:** 3 hrs  
**Prerequisite:** Department permission  
**Last Updated:** Links 04/2011

**School of Engineering Technology**

**SET 102 - World Wide Production: Global Impacts (Gen Ed Area III)**

A course on the effects of globalization of the production of consumer products. Students will explore the production of selected common products in China, India, Uzbekistan, Cambodia, Brazil, and Pakistan. Students will consider the changing role of
women, debt bondage, child labor, health and safety issues, and environmental degradation. These workforce issues are also entwined with immigration, trade agreements, natural resources, standards of living, and social/cultural systems.

Credit Hours: 3 hrs

Area III: Perspectives on a Diverse World

SET 102 World Wide Production
In this course, students will investigate how global trade has and is changing the lives or people around the world. The course focuses on the production of several simple products (such as paperclips, candlesticks, blue jeans, bricks and charcoal) in order to learn about several countries and the conditions of life for the people who make these items. This knowledge will help students make informed decisions about global issues and will assist them in understanding the changing modern world.

Last Updated: Links 03/2011

SET 177 - Special Topics
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr

SET 178 - Special Topics
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs

SET 179 - Special Topics
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs

SET 277 - Special Topics
A single topic is covered each semester, selected as the interest and/or problems change. Students may elect this course several times, provided different topics are studied, but only twice for credit toward a major or minor in sociology.

Credit Hours: 1 hr

SET 278 - Special Topics
A single topic is covered each semester, selected as the interest and/or problems change. Students may elect this course several times, provided different topics are studied, but only twice for credit toward a major or minor in sociology.

Credit Hours: 2 hrs

SET 279 - Special Topics
A single topic is covered each semester, selected as the interest and/or problems change. Students may elect this course several times, provided different topics are studied, but only twice for credit toward a major or minor in sociology.

**Credit Hours:** 3 hrs

**SET 350W - Engineering Communication (Gen Ed Area I, W)**

A writing course that focuses on writing about scientific and technical topics. Students will develop their skills in presenting technical content accurately and efficiently.

**Credit Hours:** 3 hrs  
**Prerequisite:** ENGL 121

*Last Updated:* Links 04/2011

**SET 377 - Special Topics**

One topic is covered each semester, selected as the interest and/or problems change. Students may elect this course several times, provided different topics are studied, but only twice for credit toward a major or minor in sociology.

**Credit Hours:** 1 hr

**SET 378 - Special Topics**

One topic is covered each semester, selected as the interest and/or problems change. Students may elect this course several times, provided different topics are studied, but only twice for credit toward a major or minor in sociology.

**Credit Hours:** 2 hrs

**SET 379 - Special Topics**

One topic is covered each semester, selected as the interest and/or problems change. Students may elect this course several times, provided different topics are studied, but only twice for credit toward a major or minor in sociology.

**Credit Hours:** 3 hrs

**SET 477 - Special Topics**

A single topic is covered each semester, selected as interest and/or problems change. Students may elect this course several times, provided different topics are studied, but only twice for credit toward a major or minor in sociology.

**Credit Hours:** 1 hr

**SET 478 - Special Topics**

A single topic is covered each semester, selected as interest and/or problems change. Students may elect this course several times, provided different topics are studied, but only twice for credit toward a major or minor in sociology.

**Credit Hours:** 2 hrs
SET 479 - Special Topics

A single topic is covered each semester, selected as interest and/or problems change. Students may elect this course several times, provided different topics are studied, but only twice for credit toward a major or minor in sociology.

Credit Hours: 3 hrs

SET 497 - Independent Study

Intensive study of a problem or theory supervised by a faculty member in social foundations of education.

Credit Hours: 1 hr
Prerequisite: Department permission and consent of instructor
Last Updated: Links 03/2011

SET 498 - Independent Study

Intensive study of a problem or theory supervised by a faculty member in social foundations of education.

Credit Hours: 2 hrs
Prerequisite: Department permission and consent of instructor
Last Updated: Links 03/2011

SET 499 - Independent Study

Intensive study of a problem or theory supervised by a faculty member in social foundations of education.

Credit Hours: 3 hrs
Prerequisite: Department permission and consent of instructor

School of Technology Studies Programs and Courses

School of Technology Studies

Major

Apparel, Textiles and Merchandising Major

The apparel, textiles and merchandising curriculum offers practical career oriented knowledge and skills as well as theoretical foundations of manufacturing and marketing fashion apparel and furnishing textiles. The program offers research opportunities for undergraduate students in textile science. A minor in art, communication, physical science, journalism, management, marketing or theatre is required.

School of Technology Studies Information:

Interim School Director: Wade Tornquist
School Contact: wade.tornquist@emich.edu
Website: http://www.emich.edu/sts/

General Education Requirements:

For specific requirements refer to the General Education Program. Download the Gen Ed Checklist here.

Major Requirements: 27 hours

- STS 300W - Research and Writing: The Technology Career Perspective (Gen Ed Area I, W) 3 hrs
- ATM 118 - Apparel Studio 3 hrs
- ATM 145 - Introduction to Apparel and Textile Merchandising 3 hrs
- ATM 212 - Textile Science I: Fibers & Yarns 3 hrs
- ATM 255 - Apparel Analysis 3 hrs
- ATM 312 - Textile Science II: Fabric Formation, Dyeing and Finishing 3 hrs
- ATM 345 - Merchandise Planning and Control 3 hrs
- ATM 355 - Application of Merchandising Practices 3 hrs
- ATM 487 - Field Experience 3 hrs

Elective Courses: 18 hours

Eighteen hours from the following:

- ATM 105 - Integrated Arts 3 hrs
- ATM 135 - Cultural Study of Dress 3 hrs
- ATM 200 - Aesthetics and Design for the Apparel Industry 3 hrs
- ATM 210 - Display Techniques 3 hr
- ATM 265 - Merchandising of Interior Furnishings 3 hrs
- ATM 271 - Woven Structures and Design 3 hrs
• ATM 302 - Fashion Manufacturing Techniques 3 hrs
• ATM 372 - Design and Production of a Fashion Show 3 hrs
• ATM 380 - Fashion of the Haute Couture 3 hrs
• ATM 390 - Visual Merchandising 3 hrs
• ATM 392 - Pattern Design 3 hrs
• ATM 404 - Textiles for Merchandising 3 hrs
• ATM 439 - Fashion Markets 3 hrs

General Electives: 18 hours

Minor Requirements:

This major requires a minor. Select a minor from the following:

• Art
• Communication
• Journalism
• Management
• Marketing
• Theatre Arts

Program Total:

Students must earn a minimum total of 124 credits at the 100-level or above.

Note:

Each student must choose a writing intensive course as part of major completion requirements. Consult your adviser for course options.

Critical Graduation Information:

The following are minimum requirements for all bachelor’s degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

• Earn a minimum total of 124 credits at the 100-level and above. Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.
• Meet the requirements of the General Education program (see information below).
• Earn a minimum of 60 credits from a four-year college or university; courses taken at community colleges cannot be used to meet this requirement. (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
• Earn a minimum of 30 credits from courses taken at EMU.
• Complete 10 of the last 30 hours for the degree from courses taken at EMU.
• Have a minimum of 30 unique credit hours in their major and 20 unique credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
• Not more than 60 credit hours in one subject area (prefix) may be applied towards the minimum of 124 credit hours required for a bachelor's degree.
• Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more that one major or minor.
  o Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
  o Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
  o Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor
• Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is coordinated by the Office of Admissions, and additional documentation may be required.
• Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be earned in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

**General Education Requirements:**

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available on the General Education section of the catalog: General Education

• For Students who began their undergraduate program at EMU in Fall 2007 or later or who have elected to follow the current ("new") General Education Program, follow the "For Students" link under the Current Program heading.
• For Students who began their undergraduate program at EMU before Fall 2007 and who have elected to follow the Pre-2007 General Education Requirements, follow the "General Education Program Prior to Fall 2007 (pdf file)" link under the Program Prior to Fall 2007 heading. Please note that students who wish to graduate under pre-2007 General Education requirements must graduate by August 2014; those who have not completed all degree requirements by that time will need to satisfy the current (Fall 2007) General Education requirements.

Students who transferred to EMU may have modified general education requirements based on MACRAO or articulation agreements; consult your academic adviser for additional information.

**University Information:** Consult the online catalog at catalog.emich.edu.

**Aviation Flight Technology Major**

This program is designed to prepare individuals for positions as entry-level professional pilots in the aviation industry. Based upon the needs of the aviation industry, the program encompasses a program of study that takes an individual from student pilot to certified flight instructor. It also includes a number of specialized courses that incorporate aviation business and management skills, safety, human factors, aerodynamics, aviation law and regulations, and crew resource management. The program includes a general education curriculum designed to provide a well-rounded knowledge foundation.

The aviation flight technology program has amendments to the basic aviation program designed to accommodate ROTC students planning on applying for military pilot training. The accommodations include the Eastern Michigan University U.S. Army ROTC
program and the Air Force or Naval ROTC programs located at the University of Michigan which may be attended by Eastern Michigan University students. Please contact the aviation flight technology program coordinator for further information.

Click here to watch a short video about this program.

General Education Requirements:

For specific requirements refer to the General Education Program.

Major Requirements: 78 hours

- PHY 100 or higher PHY course
- AVT 100 - Introduction to Air Transportation 3 hrs
- AVT 110 - Aircraft Maintenance I 3 hrs
- AVT 120 - Flight Operations I 3 hrs
- AVT 170 - Aviation Ground Instruction 3 hrs
- AVT 208 - Aviation Human Factors 3 hrs
- AVT 215 - Aviation Weather 3 hrs
- AVT 220 - Flight Operations II 3 hrs
- AVT 222 - Introduction to Automation in Aviation 3 hrs
- * AVT 255 - Private Pilot Certification 4 hrs
- AVT 263 - Aircraft Systems 3 hrs
- AVT 303 - Aviation Law and Insurance 3 hrs
- AVT 313 - Aviation Industry Regulations 3 hrs
- AVT 320 - Aviation Safety 3 hrs
- AVT 321 - Cockpit and Crew Resource Management 3 hrs
- AVT 322 - System Safety in Aviation 3 hrs
- AVT 341 - Instrument Ground Instruction 2 hrs
- AVT 342 - Commercial Ground Instruction 2 hrs
- * AVT 355 - Instrument Pilot Certification 4 hrs
- * AVT 361 - Commercial/Complex Flight Instruction 2 hrs
- * AVT 371 - Commercial Certification 2 hrs
- AVT 382 - Flight Instructor Ground Instruction 3 hrs
- AVT 419 - High Airspeed Aerodynamics/High Altitude Flight 3 hrs
- AVT 422 - Senior Seminar in Aviation Management 3 hrs
- * AVT 426 - Multi-Engine Flight Instruction 3 hrs
- * AVT 427 - Flight Instructor: Airplane 2 hrs
- STS 300W - Research and Writing: The Technology Career Perspective (Gen Ed Area I, W) 3 hrs

Electives: 0-4 hours
- AVT 428 - Flight Instructor: Instrument 2 hrs
- AVT 429 - Flight Instructor: Multi-Engine 2 hrs

**Minor Requirements:**

This program does not require a minor.

**Program Total:**

Students must earn a minimum total of 124 credits at the 100-level or above.

**Note:**

*Each student must choose a writing intensive course as part of major completion requirements. Consult your adviser for course options.*

*This course is a flight course involving flight activities conducted at the Eagle Flight Center.*

**Critical Graduation Information:**

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the **100-level and above**. Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Earn a minimum of 60 credits from a four-year college or university; courses taken at community colleges cannot be used to meet this requirement. (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 unique credit hours in their major and 20 unique credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
- Not more than 60 credit hours in one subject area (prefix) may be applied towards the minimum of 124 credit hours required for a bachelor's degree.
- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more than one major or minor.
  - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
  - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
  - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor.
- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and
the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is coordinated by the Office of Admissions, and additional documentation may be required.

- Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be earned in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

**General Education Requirements:**

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available on the General Education section of the catalog: General Education

- For Students who began their undergraduate program at EMU in Fall 2007 or later or who have elected to follow the current ("new") General Education Program, follow the "For Students" link under the Current Program heading.
- For Students who began their undergraduate program at EMU before Fall 2007 and who have elected to follow the Pre-2007 General Education Requirements, follow the "General Education Program Prior to Fall 2007 (pdf file)" link under the Program Prior to Fall 2007 heading. Please note that students who wish to graduate under pre-2007 General Education requirements must graduate by August 2014; those who have not completed all degree requirements by that time will need to satisfy the current (Fall 2007) General Education requirements.

Students who transferred to EMU may have modified general education requirements based on MACRAO or articulation agreements; consult your academic adviser for additional information.

**University Information:** Consult the online catalog at catalog.emich.edu.

**Aviation Management Technology Major**

The aviation management technology curriculum is designed to prepare individuals for entry-level management and supervisory positions in the field of aviation technology. The program has a foundation of aviation-related and basic business course work.

Communication Technology Major
Communication Technology is a joint program offered by the School of Technology Studies and the Department of Communication, Media and Theatre Arts. This curriculum is designed to provide the background necessary for graduates to find employment as managers in communication-based industries. The program emphasis is on having the student acquire those business, manufacturing, media, computer and communication skills necessary for employment in today’s communication technology industries and business organizations.

An active articulation agreement exists between this program and a community college. To see a complete list of current colleges with program articulation agreements with EMU, please click here.

Website: http://www.emich.edu/sts/

**General Education Requirements:**

For specific requirements refer to the General Education Program. Download the Gen Ed Checklist here.

**Major Requirements: 65 hours**

**Media Production: 9 hours**

- CTAT 130 - Introduction to Electronic Media 3 hrs  
- CTAT 141 - Audio and Video Production for Nonmajors 3 hrs

One course from the following:

- CTAT 331 - Intermediate Radio Production and direction 3 hrs  
- CTAT 332 - Intermediate Television Production and Direction 3 hrs

**Transmission Systems: 9 hours**

- CMT 305W - Communication Transmission Systems (Gen Ed Area I, W) 3 hrs  
- CMT 408 - Telephone Technology 3 hrs  
- ELEC 120 - Principles of Electrical Theory 3 hrs

**Computer Technology: 12 hours**

*Choose one option from the following:*

**Option I: Computer Programming**

- COSC 111 - Introduction to Programming 3 hrs  
- COSC 211 - Programming Data Structures 3 hrs  
- COSC 221 - Computer Organization I 3 hrs
• COSC 255 - Computer Hardware and Software Systems 3 hrs

Option II: Information Management

• IS 219 - File Processing and COBOL Programming 3 hrs
• IS 320 - Business Data Communications and Information Security 3 hrs
• IS 380 - Introduction to Databases 3 hrs

One course from the following:

• IS 417 - Systems Analysis and Design 3 hrs
• IS 442 - Information Resource Management 3 hrs

Option III: Graphic Applications

• CMT 205 - Digital Photo-Technology 3 hrs
• CMT 301 - Multimedia Authoring Techniques 3 hrs
• CMT 421 - Web Publishing Technology 3 hrs
• CMT 336 - Electronic Publishing Technology 3 hrs

Communication Theory and Practice: 6 hours

• CTAC 227 - Interpersonal Communication (Gen Ed Area IV) 3 hrs
• CTAC 354 - Organizational Communication 3 hrs

Business and Investment Skills: 6 hours

• MKTG 360 - Principles of Marketing 3 hrs
• PSY 205 - Quantitative Methods in Psychology 3 hrs

Management Skills: 6 hours

• ACC 130 - Accounting for Nonbusiness Majors 3 hrs
• MGMT 202 - Business Communication 3 hrs

Interdisciplinary Technology: 17 hours

• CMT 121 - Graphic Communication 3 hrs
• CMT 131 - Introduction to Computer Graphic Systems 3 hrs
• CMT 387 - Co-operative Education 3 hrs
• CMT 409 - Emerging Technologies in Storage and Retrieval 3 hrs
• CMT 425 - Communication Technology and Social Change 3 hrs
• CMT 470 - Senior Seminar in Communication Technology 2 hrs

Industrial Distribution Major

The industrial distribution program emphasizes professional communication and is designed to provide graduates with the theoretical as well as practical applications today’s industry is seeking. It develops graduates for career opportunities in industrial and technical sales, sales management, materials planning, quality assurance, purchasing, inventory control and branch/operations management. Students complete a set of required courses and either three concentrations, at least one of which must be technical, or a technical concentration and an academic minor in a related field which is chosen with adviser approval. The program is National Association of Industrial Technology accredited. Advising or additional information is available within the school.

An active articulation agreement exists between this program and a community college. To see a complete list of current colleges with program articulation agreements with EMU, please click here.

Interim School Director: Wade Tornquist
School Contact: wade.tornquist@emich.edu
Website: http://www.emich.edu/sts/

General Education Requirements:

For specific requirements refer to the General Education Program. Download the Gen Ed Checklist here.

Major Requirements: 66-75 hours

Correction: The minimum credit hours for this major is 70 not 66.

Required Courses: 43 hours

- ID 140 - Introduction to Wholesale Distribution 3 hrs
- ID 240 - Profit Strategies in Distribution 3 hrs
- ID 340 - Relationships in Wholesaling 3 hrs
- ID 345 - Marketing in Wholesale Distribution 3 hrs
- ID 346 - Industrial Climate 3 hrs
- ID 387 - Co-operative Education 3 hrs
• ID 391 - Wholesale Account Development 3 hrs
• ID 440 - Inventory Strategies in Distribution 3 hrs
• ID 444 - Quality Planning in Distribution 3 hrs
• ID 448 - Best Practices in Wholesale Distribution 3 hrs
• IS 215 - End-User Computing 3 hrs
• IS 350 - Enterprise Resource Planning 3 hrs
• PDD 123 - Manufacturing Processes 4 hrs
• STS 300W - Research and Writing: The Technology Career Perspective (Gen Ed Area I, W) 3 hrs

Concentrations: 27-36 hours

Students may select concentrations from the following:

General Concentrations:

• Communication (9 hrs)
• International Business (9 hrs)
• Management (12 hrs)
• Purchasing/Materials Management (12 hrs)
• Sales (12 hrs)
• Supply Chain Management (12 hrs)

Other concentrations with advisory approval.

Technical Concentrations:

• Apparel, Textiles and Merchandising (9 hrs)
• Electronics (9 hrs)
• Information Systems (9 hrs)
• Manufacturing (9 hrs)
• Pharmaceutical and Sales - Combined Concentration (24 hrs)

Other concentrations with advisory approval.

Minor Requirements:

This program does not require a minor.

Program Total:
Students must earn a minimum total of 124 credits at the 100-level or above.

Note:

Each student must choose a writing intensive course as part of major completion requirements. Consult your adviser for course options.

Critical Graduation Information:

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the 100-level and above. Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Earn a minimum of 60 credits from a four-year college or university; courses taken at community colleges cannot be used to meet this requirement. (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 unique credit hours in their major and 20 unique credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
- Not more than 60 credit hours in one subject area (prefix) may be applied towards the minimum of 124 credit hours required for a bachelor's degree.
- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more than one major or minor.
  - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor.
  - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
  - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor.
- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is coordinated by the Office of Admissions, and additional documentation may be required.
- Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be earned in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

General Education Requirements:

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available on the General Education section of the catalog: General Education
• For Students who began their undergraduate program at EMU in Fall 2007 or later or who have elected to follow the current "(new)" General Education Program, follow the "For Students" link under the Current Program heading.
• For Students who began their undergraduate program at EMU before Fall 2007 and who have elected to follow the Pre-2007 General Education Requirements, follow the "General Education Program Prior to Fall 2007 (pdf file)" link under the Program Prior to Fall 2007 heading. Please note that students who wish to graduate under pre-2007 General Education requirements must graduate by August 2014; those who have not completed all degree requirements by that time will need to satisfy the current (Fall 2007) General Education requirements.

Students who transferred to EMU may have modified general education requirements based on MACRAO or articulation agreements; consult your academic adviser for additional information.

University Information: Consult the online catalog at catalog.emich.edu.

Information Assurance Major

Individuals selecting the information assurance degree will have the flexibility to focus on a concentration of classes that will prepare them for employment after graduation or to take that next step to an advanced degree. There are four unique concentrations to this degree: IA management, applied IA, IA cryptography and network security/administration.

The unique interdisciplinary nature of information assurance requires a diverse educational approach. The purpose of this undergraduate interdisciplinary program is to:

1. Meet society’s need for educated professionals in information assurance.
2. Provide graduates with the knowledge and skills required to protect the informational technology needs of society which includes all government branches and the private sector.
3. To propagate a new generation of research scientists in information assurance. As a National Security Agency (NSA) Center of Academic Excellence in Information Assurance Education, the program offers tremendous opportunities that are excellent preparation for an advanced degree in information assurance.

What is Information Assurance?
The term "information assurance" encompasses the scientific, technical and management disciplines required to ensure computer and network security, such as:

- Systems/network administration and operation
- Systems security engineering
- Information assurance systems and product acquisition
- Cryptography
- Threat and vulnerability assessment (includes risk management)
- Web security
- Computer emergency response team operation
- Information assurance training, education and management
- Computer forensics
- Defensive information operations

NSA Center of Academic Excellence
Eastern Michigan University’s Center of Academic Excellence is one the 106 federally designated Centers of Academic Excellence in Information Assurance Education in the nation. This valued designation provides students with a wealth of research, scholarship and educational opportunities. The National Centers of Academic Excellence in Information Assurance Education (CAEIAE) program is an outreach program designed and operated by the National Security Agency (NSA) and the Department of Homeland Security (DHS) in support of the President’s National Strategy to Secure Cyberspace. The goal of the program is to reduce vulnerability in our national information infrastructure by promoting higher education in information assurance.
All incoming students will take a placement examination prior to enrolling in IA 300-level courses. This examination will be offered on-line and available for the student to take.

For more information, please visit the program website.

School of Technology Studies Information:

Interim School Director: Wade Tornquist
School Contact: wade.tornquist@emich.edu
Website: http://www.emich.edu/sts/

General Education Requirements:

For specific requirements refer to the General Education Program. Download the Gen Ed Checklist here.

Major Requirements: 93 hours

Foundation Courses: 42 hours

- COSC 146 - Applied Programming 3 hrs
- COSC 211 - Programming Data Structures 3 hrs
- IA 103 - Information Security Overview 3 hrs
- IA 202L - Risk-Vulnerability Analysis (Gen Ed Area V LBC) 3 hrs
- IA 210 - Concepts of Network and Business Technology 3 hrs
- IA 212 - Open Systems Platform and Network Administration 3 hrs
- IA 213 - Privacy and Technology 3 hrs
- IA 215 - System Support and Troubleshooting 3 hrs
- IA 240 - Intelligence Analysis I 3 hrs
- IA 329 - Policy Development in Information Assurance 3 hrs
- LEGL 320 - Cyber Law and Compliance 3 hrs
- MATH 170 - Elementary Statistics (Gen Ed Area II) 3 hrs
- STS 300W - Research and Writing: The Technology Career Perspective (Gen Ed Area I, W) 3 hrs

One course from the following: 3 hours

- CTAC 224 - Public Speaking 3 hrs
- CTAC 225 - Listening Behavior (Gen Ed Area IV) 3 hrs
- CTAC 227 - Interpersonal Communication (Gen Ed Area IV) 3 hrs
- CTAC 350 - Persuasion 3 hrs

Choose one concentration from the following:

Information Assurance Management: Concentration for Second Admission

Information assurance management will enable the student to focus on management of information systems. The practice of vulnerability, risk, countermeasures and ethics enable the IA manager to meet cyber security in the 21st century. The management of information in today’s business, industry, government, education and other related fields is how persons in
positions of trust manage information systems and apply secure computing to their business enterprise. This concentration of study will enable that management oriented student to apply secure computing concepts in the protection of cyberspace.

**Concentration Courses: 42 hours**

- IA 343 - Intelligence Analysis II 3 hrs
- IA 344 - Administration of Computer Systems 3 hrs
- IA 400 - Malware Analysis and Reverse Engineering 3 hrs
- IA 415 - Introduction to Research in Information Assurance 3 hrs
- IA 422 - Networks: Planning and Design 3 hrs
- IA 425 - Cyber Crime Investigation I 3 hrs
- IA 427 - Digital Forensics I 3 hrs
- IA 430 - Network Forensics 3 hrs
- IA 445 - Ethical Hacking and Offensive Security 3 hrs
- IA 480 - SQL Database Security 3 hrs
- MGMT 386 - Organizational Behavior and Theory 3 hrs
- MGMT 403 - Managerial Communication: Theory and Application 3 hrs
- MGMT 480W - Management Responsibility and Ethics (Gen Ed Area I, W) 3 hrs

And one of the following:

- IA 387 - Cooperative Education 3 hrs
- IA 416 - Applied Research Project 3 hrs

**Applied Information Assurance: Concentration for Second Admission**

Applied information assurance management prepares the student with hands-on applications for analysis, prevention, deterrence and countermeasures of information security and integrity in the global arena. Students who select this concentration of study will find that hands-on application will enable them to embrace the concepts studied in lecture format and apply those concepts in a laboratory setting. This concentration also provides an opportunity to conduct directed research as a final project.

**Concentration Courses: 42 hours**

- COSC 374 - Applied Cryptography 3 hrs
- IA 343 - Intelligence Analysis II 3 hrs
- IA 344 - Administration of Computer Systems 3 hrs
- IA 400 - Malware Analysis and Reverse Engineering 3 hrs
- IA 412 - Linux Security Administration 3 hrs
- IA 415 - Introduction to Research in Information Assurance 3 hrs
- IA 425 - Cyber Crime Investigation I 3 hrs
- IA 427 - Digital Forensics I 3 hrs
- IA 428 - Digital Forensics II 3 hrs
- IA 430 - Network Forensics 3 hrs
- IA 445 - Ethical Hacking and Offensive Security 3 hrs
- IA 455 - Incident Response 3 hrs
- IA 480 - SQL Database Security 3 hrs

And one of the following:
Information Assurance Encryption: Concentration for Second Admission

The sustained and rapid advance of information technology in the 21st century dictates the adoption of a flexible and adaptable cryptographic strategy for protecting national security information. This strategy complements the existing policy for the use of the advanced encryption standard (AES) to protect national security systems and information as specified in The National Policy on the Use of the Advanced Encryption Standard (AES) to Protect National Security Systems and National Security Information (CNSSP-15).

Over the past 30 years, public key cryptography has become a mainstay for secure communications over the Internet and throughout many other forms of communication. It provides the foundation for both key management and digital signatures. In key management, public key cryptography is used to distribute secret keys used in other cryptographic algorithms (e.g., DES). For digital signatures, public key cryptography is used to authenticate the origin of data and protect the integrity of that data. For the past 20 years, Internet communications have been secured by the first generation of public key cryptographic algorithms developed in the mid-1970s. Notably, they form the basis for key management and authentication for IP encryption (IKE/IPSEC), Web traffic (SSL/TLS) and secure electronic mail.

Information assurance encryption will prepare the students for master's or doctoral work. The student may want to teach upon completion of the degree or enter into the area of information security research. This block also provides an opportunity to conduct directed research as a final project.

Concentration Courses: 42 hours

- COSC 314 - Computational Discrete Structures 3 hrs
- COSC 374 - Applied Cryptography 3 hrs
- IA 400 - Malware Analysis and Reverse Engineering 3 hrs
- IA 415 - Introduction to Research in Information Assurance 3 hrs
- IA 427 - Digital Forensics I 3 hrs
- IA 430 - Network Forensics 3 hrs
- IA 480 - SQL Database Security 3 hrs
- MATH 120 - Calculus I (Gen Ed Area II) 4 hrs
- MATH 121 - Calculus II 4 hrs
- MATH 205 - Mathematical Structures for Computer Science 4 hrs
- MATH 319 - Mathematical Modeling 3 hrs
- * MATH 409 - Cryptology 3 hrs

And one of the following:

- IA 387 - Cooperative Education 3 hrs
- IA 416 - Applied Research Project 3 hrs

Information Assurance Network Security/Administration: Concentration for Second Admission

The Network Security and Administration concentration prepares the student with hands-on applications for administration, design, and implementation of secure computer networks. Students will learn to administer network environments to be scalable, secure and available. Student work will center on best practice administration across Microsoft, Open Source and CISCO.
products. Students will implement these products and build countermeasures for defending services that underpin the product solution. Students who select this concentration of study will find that hands-on application of classes will enable them to embrace the concepts studied in lecture format and apply those concepts in a laboratory setting. This concentration also provides an opportunity to conduct research as a final project.

Concentration Courses: 42 hours

- IA 344 - Administration of Computer Systems 3 hrs
- IA 350 - Network Connectivity 3 hrs
- IA 354 - Multi-Level Networking 3 hrs
- IA 364 - Advanced Windows Security 3 hrs
- IA 400 - Malware Analysis and Reverse Engineering 3 hrs
- IA 412 - Linux Security Administration 3 hrs
- IA 422 - Networks: Planning and Design 3 hrs
- IA 427 - Digital Forensics I 3 hrs
- IA 430 - Network Forensics 3 hrs
- IA 445 - Ethical Hacking and Offensive Security 3 hrs
- IA 455 - Incident Response 3 hrs
- IA 480 - SQL Database Security 3 hrs
- IA 495 - Networks: Implementation and Evaluation 3 hrs

And one of the following:

- IA 387 - Cooperative Education 3 hrs
- IA 416 - Applied Research Project 3 hrs

Electives: 9 hours

Student may select any course from other concentrations (above) as an elective. Suggested electives are:

- BMMT 396 - Information and Media Administration 3 hrs
- BMMT 496 - Records Administration Using Database 3 hrs
- CMT 305W - Communication Transmission Systems (Gen Ed Area I, W) 3 hrs
- COSC 105 - Everyday Computing and Social Responsibility 3 hrs
- IA 426 - Cyber Crime Investigation II 3 hrs
- IA 429 - Enterprise Digital Analysis 3 hrs
- IA 441 - Foreign and Domestic Terrorism and Information Warfare 3 hrs
- IA 442 - Cyber Intelligence 3 hrs
- MGMT 202 - Business Communication 3 hrs

Program Total:

Students must earn a minimum total of 124 credits at the 100-level or above.

Notes:
Each student must choose a writing intensive course as part of major completion requirements. Consult your adviser for course options.

* Student must complete math sequence prior to taking Cryptology.

Additional courses may be required as some of the "Concentrations" include courses with prerequisites that are not included in the program.

Critical Graduation Information:

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the 100-level and above. Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Earn a minimum of 60 credits from a four-year college or university; courses taken at community colleges cannot be used to meet this requirement. (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 unique credit hours in their major and 20 unique credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
- Not more than 60 credit hours in one subject area (prefix) may be applied towards the minimum of 124 credit hours required for a bachelor's degree.
- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more that one major or minor.
  - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
  - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
  - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor.
- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is coordinated by the Office of Admissions, and additional documentation may be required.
- Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be earned in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

General Education Requirements:

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available on the General Education section of the catalog: General Education
For Students who began their undergraduate program at EMU in Fall 2007 or later or who have elected to follow the current ("new") General Education Program, follow the "For Students" link under the Current Program heading.

For Students who began their undergraduate program at EMU before Fall 2007 and who have elected to follow the Pre-2007 General Education Requirements, follow the "General Education Program Prior to Fall 2007 (pdf file)" link under the Program Prior to Fall 2007 heading. Please note that students who wish to graduate under pre-2007 General Education requirements must graduate by August 2014; those who have not completed all degree requirements by that time will need to satisfy the current (Fall 2007) General Education requirements.

Students who transferred to EMU may have modified general education requirements based on MACRAO or articulation agreements; consult your academic adviser for additional information.

University Information: Consult the online catalog at catalog.emich.edu.

K-12 Technology and Engineering Teacher Preparation Major

The technology and engineering teacher preparation major prepares teachers of technology education for grades K-12.

This major must be completed in conjunction with the technology education curriculum. Successful completion of this course of study, in the context of other program requirements, qualifies the student for recommendation for the Michigan Department of Education Secondary Provisional Certificate endorsed in technology and design, certification code TX. The Michigan Test for Teacher Certification (MTTC) covering this field is #088, “Technology and Design.”

Graduates may qualify for a vocational endorsement by completing BMMT 200 - Principles of Career and Technical Education and BMMT 363 - Curriculum for Career and Technical Education, and have two years of occupational experience in employment related to the area of study. Options for cooperative work experience are available to students as partial credit toward that occupational requirement.

An active articulation agreement exists between this program and a community college. To see a complete list of current colleges with program articulation agreements with EMU, please click here.

School of Technology Studies Information:

Interim School Director: Wade Tornquist
School Contact: wade.tornquist@emich.edu
Website: http://www.emich.edu/sts/

Initial Teacher Preparation Program Admission

In order to pursue the sequence of courses necessary to complete eligibility for recommendation for certification, one must apply for and be admitted to the teacher preparation program. Admission requirements are common for all teacher preparation programs, except that certain special education programs have additional requirements.

Each undergraduate student is responsible for applying to the teacher preparation program immediately after the semester in which the student has earned 56 credit hours. Transfer students with more than 56 credit hours should apply immediately after the semester in which they have earned 12 hours at EMU, including at least one course in their major. Students with 56 hours of transfer course work with a decision GPA of 3.0 may apply for admission to the teacher preparation program without 12 earned hours at EMU.

Admission to the teacher preparation program is not automatic. Only those persons who have formally applied are considered for admission. Not all persons who apply become eligible for admission.

Applications for the Initial Teacher Preparation Program at EMU are available within your my.emich account under the "Student" tab. Submit your completed application to the Office of Academic Services once you have earned 56 credit hours.
Teaching majors and minors are unofficial until program admission. Students pursuing teacher certification should follow the catalog that exists at the time of program admission. It is important that students apply to the teacher preparation program as soon as they have earned 56 credit hours.

**Criteria**

1. Completion of 56 credit hours
2. Appropriate cumulative GPA. One of:
   1. An overall EMU GPA of 2.5 or higher. At least 12 of the 56 credit hours taken at EMU with an EMU GPA of 2.5 or higher in your major (each of your majors if declaring a double major). You must complete at least one course in your major(s) in order to be eligible.
   2. Transferred 56 credits with a cumulative 3.0 GPA from all previous institutions.
3. A grade of “C” or higher (if taken) in the following courses:
   1. Secondary: ENGL 121, CTAC 124, quantitative reasoning, one lab science, all professional education courses, and, if special education, PSY 101.
   2. Elementary: ENGL 121, CTAC 124, MATH 108, MATH 110E, PHY 100, CHEM 101, ESSC 202, all of the professional education courses, all courses that state “for elementary teachers,” and, if special education, PSY 101.
4. Passing scores on all three sections of the Michigan Test for Teacher Certification Basic Skills Test (MTTC) (reading, mathematics, and writing). Official score report must be on file at Eastern Michigan University.
5. Personal statement about your experiences with youth/children and why you are going into teaching. This statement will be read for content, grammar, and punctuation.
6. Completion of a Disposition Self Evaluation Form.
7. ICHAT criminal background check and Statement of Civil/Criminal Convictions. If you answered yes to any of the civil/criminal conviction questions on the application, you will need to provide:
   1. A copy of the Judgment of Sentence, or Registrar of Actions, or Certification of Conviction.
   2. A written explanation of the offense(s). Application of students with civil/criminal convictions will be carefully reviewed and may take longer to process.
8. Meet academic, social, moral, and financial obligations as a member of the EMU community.

**General Education Requirements:**

For specific requirements refer to the General Education Program. Download the Gen Ed Checklist here.

**Major Requirements: 48-50 hours**

- TEDU 110 - Teaching Impacts of Technology (3 hrs)
- TEDU 340 - Teaching Introduction to Engineering Design (3 hrs)
- CNST 201 - Construction Systems 3 hrs
- ELEC 200 - Circuit Analysis I 3 hrs
- ELEC 214 - Digital Circuit Analysis I 3 hrs
- MATH 105 - College Algebra (Gen Ed Area II) 3 hrs
- MATH 107 - Plane Trigonometry 2 hrs
- MFG 140 - Science, Technology and People 3 hrs
- PDD 111 - Materials 3 hrs
- PDD 123 - Manufacturing Processes 4 hrs
- PHY 221 - Mechanics, Sound and Heat (Gen Ed Area IV) 4 hrs
- TEDU 250 - Foundations of Technology, Vocational, and Engineering Teacher Education 3 hrs
- TEDU 345 - Teaching Energy and Transportation in Technology and Engineering Teacher Education 3 hrs
- TEDU 350 - Curriculum in Technology, Vocational, and Engineering Teacher Education 3 hrs
- TEDU 450 - Capstone in Technology and Engineering Teacher Education 3 hrs

Technical Concentration: 2-4 hours

Choose 2-4 hours from the following:

- CMT 121 - Graphic Communication 3 hrs
- CMT 131 - Introduction to Computer Graphic Systems 3 hrs
- CMT 427 - Digital Imaging and Reproduction 3 hrs
- CMT 470 - Senior Seminar in Communication Technology 2 hrs
- CNST 125 - Introduction to Construction 2 hrs
- ELEC 314 - Digital Circuit Analysis II 3 hrs
- PDD 101 - Introduction to Industrial Drawing 3 hrs
- PDD 122 - Engineering Graphics 4 hrs
- PDD 325 - Applied Statics and Strength of Materials 4 hrs
- SAG 105 - Introduction to Simulation, Animation and Gaming 3 hrs
- SAG 175 - Graphics for Simulation I 3 hrs
- SAG 225 - Graphics for Simulation II 3 hrs
- SAG 235 - Flash 13 hrs
- SAG 285 - Studio I Simulation 3 hrs
- TEDU 104 - Modeling, Automation, and Energy 3 hours
- TEDU 107 - Flight, Electronics, and Science of Technology 3 hrs

Professional Studies: 31 hours

Pre-Admission Phase: The Learner and the Community: 7 hours

Prerequisite: Sophomore standing or higher.

- EDPS 322 - Human Development and Learning 4 hrs
- SPGN 251 - Education of Students with Exceptionalities 3 hrs

The following courses require formal admission to the Initial Teacher Preparation Program:
Phase I: Curriculum, Assessment and the Social Context: 6 hours

Prerequisite: Completion of Pre-Admission Phase is required.

- EDPS 340 - Introduction to Assessment and Evaluation 3 hrs
- SOFD 328W - Schools for a Diverse and Democratic Society (Gen Ed Area I, W) 3 hrs

Phase II: Content and Methods and Teaching: 9 hours

Prerequisite: Completion of Phase I is required.

* These two courses must be taken together.

- * PRCT 311 - Practicum II: Secondary 3 hrs
- * RDNG 311 - Teaching Reading in the Secondary School 3 hrs
- TEDU 460 - Methods of Teaching Technology, Vocational, and Engineering Education 3 hrs

Phase III: Capstone Experience: 9 hours

Prerequisite: Completion of Phase II and 100 pre-student teaching hours is required.

- EDUC 492 - Student Teaching 9 hrs
  This course requires a formal application to be submitted 7-8 months prior to the Student Teaching semester.

Minor Requirements:

This program requires a minor. Please contact your program adviser for a list of possible minors. Students who have at least 4,000 hours of work experience (2 years) and/or 18 credits in an occupational area related to automotive, construction, drafting/CAD, Electricity, graphics, machining, or radio and TV broadcasting may want to consider the Vocational Technical Endorsement Minor.

Program Total:

Students must earn a minimum total of 124 credits at the 100-level or above.

MTTC Subject Area Test

Starting January 1, 2013, Students seeking licensure in a secondary or K-12 area are not required to take the MTTC subject area test in their minor area. Students who elect not to take the test in their minor will be required to sign a statement indicating that they understand that they will not be endorsed in their minor area and will not be eligible for teaching positions in their minor unless they pass the minor subject area test within five years of completing field experience and course requirements.

Note:

Each student must choose a writing intensive course as part of major completion requirements. Consult your adviser for course options.

Critical Graduation Information:
The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the 100-level and above. Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Earn a minimum of 60 credits from a four-year college or university; courses taken at community colleges cannot be used to meet this requirement. (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 unique credit hours in their major and 20 unique credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
- Not more than 60 credit hours in one subject area (prefix) may be applied towards the minimum of 124 credit hours required for a bachelor's degree.
- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below; these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more that one major or minor:
  - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor.
  - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
  - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor.
- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is coordinated by the Office of Admissions, and additional documentation may be required.
- Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be earned in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

General Education Requirements:

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available on the General Education section of the catalog: General Education

- For Students who began their undergraduate program at EMU in Fall 2007 or later or who have elected to follow the current ("new") General Education Program, follow the "For Students" link under the Current Program heading.
- For Students who began their undergraduate program at EMU before Fall 2007 and who have elected to follow the Pre-2007 General Education Requirements, follow the "General Education Program Prior to Fall 2007 (pdf file)" link under the Program Prior to Fall 2007 heading. Please note that students who wish to graduate under pre-2007 General Education requirements must graduate by August 2014; those who have not completed all degree requirements by that time will need to satisfy the current (Fall 2007) General Education requirements.

Students who transferred to EMU may have modified general education requirements based on MACRAO or articulation agreements; consult your academic adviser for additional information.

University Information: Consult the online catalog at catalog.emich.edu.
Paralegal Major

The paralegal major focuses on the skills necessary for the graduate to work under the supervision and direction of an attorney with the understanding that the practice of law by lay persons is strictly prohibited. Students get inside the law and develop skills including proficiency in legal research, writing and analysis, drafting legal instruments and pleadings, interviewing clients and witnesses, doing discovery, preparing for trial and using computer-assisted research tools. Employment opportunities are excellent in law firms, corporations, banks, human resource offices, hospitals, state and federal governments and court systems. This major offers professional training and lays a foundation for a career in the legal field. It also qualifies as a pre-law major. This program is approved by the American Bar Association.

For students who have earned a prior degree, the paralegal major can be pursued through a second bachelor’s degree. The completion of 50 hours of study is required for the second bachelor's degree. These 50 hours must include the required courses and the business and information processing core. The remaining hours are to be selected from either restricted University elective courses or University elective courses.

An active articulation agreement exists between this program and several community colleges. To see a complete list of current colleges with program articulation agreements with EMU, please click here.

Click here to watch a short video about this program.

Secondary Admission and Retention Policy
Students who wish to be Paralegal (Legal Assistant) Studies Program majors must apply for admission to the program. Students may be admitted to the program in the fall or winter terms. Applications for a winter term will be due by Dec. 1 of the preceding fall term. Applications for a fall term will be due by April 1 of the preceding winter term.

Program Admission

Program admission criteria are:

1. Admission to the University as an undergraduate or second bachelor’s degree candidate;
2. * Completion of ENGL 121 with a grade of B or higher;
3. Completion of LEGL 211 - Introduction to Paralegalism and Legal Terminology, with a grade of B- or higher;
4. Completion of LEGL 304W - Legal Writing, Research and Analysis I with a grade of C+ or higher; and
5. A cumulative GPA of at least 2.5 on a 4.0 scale.

Students satisfying these criteria are eligible to apply for admission to the program, but admission is not guaranteed.

Program Retention Policy

In addition to secondary admission requirements, program majors will be required to:

1. Complete each program core course (e.g., all courses having a LEGL prefix [except LEGL 211 and LEGL 304W — see above]), with a minimum grade of C;
2. ** Maintain a cumulative GPA of at least 2.5 on a 4.0 scale
3. ** Maintain a GPA within the major of at least 2.5 on a 4.0 scale

Notes:
* Students applying for admission to the program as second bachelor’s degree candidates must present evidence of having completed an acceptable college-level English composition course with a grade of B or higher. A remedial English composition or writing course is not an acceptable college-level English composition course.

** A student whose cumulative GPA or cumulative major GPA falls below 2.5 will be placed on program probation for the next succeeding term. If the student fails to raise his or her cumulative GPA, cumulative major GPA or both to 2.5 or higher with the grades earned during the probationary term, the student will be dismissed from the program. For purposes of this policy, a student who is placed on program probation as the result of a deficient GPA at the close of a winter term will have until the close of the next fall term to raise his or her GPA to 2.5 or higher. If a student earns lower than a C in any program core course (except LEGL 211 and LEGL 304W — see above), the student will be allowed to repeat the course twice. If the student fails to earn a C or better in the repeated courses, the student will be dismissed from the program.

School of Technology Studies Information:

Interim School Director: Wade Tornquist  
School Contact: wade.tornquist@emich.edu  
Website: http://www.emich.edu/sts/

General Education Requirements:

For specific requirements refer to the General Education Program. Download the Gen Ed Checklist here.

Additional Requirements: 6 hours

Option I:

- ECON 201 - Principles of Macroeconomics (Gen Ed Area IV) 3 hrs
- ECON 202 - Principles of Microeconomics (Gen Ed Area IV) 3 hrs

Option II:

- SOCL 105 - Introductory Sociology (Gen Ed Area IV) 3 hrs
- SOCL 202 - Social Problems 3 hrs

Major Requirements: 69-72 hours

Required Courses: 33-36 hours

- LEGL 211 - Introduction to Paralegalism and Legal Terminology 3 hrs
- LEGL 212 - Law Office Administration and Technology 3 hrs
- *** LEGL 304W - Legal Writing, Research and Analysis I (Gen Ed Area I, W) 3 hrs
- LEGL 305 - Advanced Legal Writing, Research and Analysis II 3 hrs
- LEGL 400 - Advanced Legal Writing, Research and Analysis III 3 hrs
- LEGL 311 - Probate, Estates and Wills 3 hrs
- LEGL 313 - Family Law 3 hrs
- LEGL 404 - Court Rules, Forms and Drafting Contracts 3 hrs
- LEGL 405 - Civil Litigation, Investigation and Procedure I 3 hrs
• LEGL 406 - Civil Litigation, Investigation and Procedure II 3 hrs
• ** LEGL 416 - Legal Assistant Internship 3-6 hrs

Restricted Elective Courses: 21 hours

21 hours from the following or any other law-related course with department permission:

• BMMT 220 - Word/Information Processing Operations 3 hrs
• BMMT 396 - Information and Media Administration 3 hrs
• BMMT 497 - Independent Study 1 hrs
• BMMT 498 - Independent Study 2 hrs
• BMMT 499 - Independent Study 3 hrs
• CTAC 357 - Interviewing as Communication 3 hrs
• LAW 293 - Legal Environment of Business 3 hrs
• LAW 393 - Law of Business Enterprises 3 hrs
• LAW 403 - Employment Law 3 hrs
• LEGL 278 - Special Topics 2 hrs
• LEGL 279 - Special Topics 3 hrs
• LEGL 315 - Land Transaction and Real Estate for Paralegals 3 hrs
• LEGL 379 - Special Topics 3 hrs
• LEGL 320 - Cyber Law and Compliance 3 hrs
• LEGL 414 - Legal Assistance Center Clinical Experience 3 hrs
• LEGL 415 - Bankruptcy Law 3 hrs
• LEGL 418 - Women and Law 3
• LEGL 478 - Special Topics 2 hrs
• LEGL 479 - Special Topics 3 hrs
• IA 210 - Concepts of Network and Business Technology 3 hrs
• PHIL 355W - Philosophy of Law (Gen Ed Area I, W) 3 hrs
• PLSC 301 - American Legal System 3 hrs
• PLSC 312 - Constitutional Law: Institutions and Process 3 hrs
• PLSC 313 - Constitutional Law: Civil Rights and Liberties 3 hrs
• PLSC 341 - International Law 3 hrs
• PLSC 385 - Judicial Process and Behavior 3 hrs
• PLSC 412W - Comparative Legal Systems (Gen Ed Area I, W) 3 hrs
• PLSC 456 - Criminal Law I 3 hrs
• STS 202 - Disabled in the U.S.A. - Rights, Prejudice, Claims and Responsibilities 3 hrs

Business and Information Processing Core: 15 hours

• ACC 240 - Principles of Financial Accounting 3 hrs
• BMMT 201 - Microcomputers for Business Applications 3 hrs
• BMMT 396 - Information and Media Administration 3 hrs
• BMMT 496 - Records Administration Using Database 3 hrs
• * STS 224 - Solving Quantitative Problems in Technology (Gen Ed Area II) 3 hrs

Minor Requirements:
This program does not require a minor.

Program Total:

Students must earn a minimum total of 124 credits at the 100-level or above.

Select one option from the following:

Note:

* This course meets the "Quantitative Reasoning" requirement.

** These courses meet the "Learning Beyond the Classroom" requirement.

*** LEGL 304W meets the writing intensive requirement.

Critical Graduation Information:

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the 100-level and above. Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Earn a minimum of 60 credits from a four-year college or university; courses taken at community colleges cannot be used to meet this requirement. (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 unique credit hours in their major and 20 unique credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
- Not more than 60 credit hours in one subject area (prefix) may be applied towards the minimum of 124 credit hours required for a bachelor's degree.
- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more than one major or minor.
  - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
  - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
  - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor.
- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S.
institutions; the internal review of such courses is coordinated by the Office of Admissions, and additional documentation may be required.

- Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be earned in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

**General Education Requirements:**

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available on the General Education section of the catalog: General Education

- For Students who began their undergraduate program at EMU in Fall 2007 or later or who have elected to follow the current ("new") General Education Program, follow the "For Students" link under the Current Program heading.
- For Students who began their undergraduate program at EMU before Fall 2007 and who have elected to follow the Pre-2007 General Education Requirements, follow the "General Education Program Prior to Fall 2007 (pdf file)" link under the Program Prior to Fall 2007 heading. Please note that students who wish to graduate under pre-2007 General Education requirements must graduate by August 2014; those who have not completed all degree requirements by that time will need to satisfy the current (Fall 2007) General Education requirements.

Students who transferred to EMU may have modified general education requirements based on MACRAO or articulation agreements; consult your academic adviser for additional information.

**University Information:** Consult the online catalog at catalog.emich.edu.

**Secondary Education Business, Management, Marketing and Technology Major (with Minor)**

Successful completion of this course of study, in the context of other program requirements, qualifies the student for recommendation for the Michigan Department of Education Secondary Provisional Certificate endorsed in Business, Management, Marketing and Technology, certification code GQ. The Michigan Test for Teacher Certification (MTTC) covering this field is #098, “Business, Management, Marketing and Technology.” In addition, upon meeting the requirements according to the current Michigan State Plan, it leads to a vocational endorsement. The program prepares prospective teachers in the areas of information processing and management, administrative services, accounting and computing, and basic business such as economics, consumer economics, business law, business management, computer literacy and introduction to business.

**Important BMMT Information**

1. There is a 36 credit hour requirement for BMMT and this major requires a teachable minor. The Vocational Minor is recommended, however any teachable minor may be approved.
2. Students are required to take ECON 201 as part of their general education degree requirements. See the Additional Requirements core listed below.
3. A vocational endorsement in either Business (VB) or Marketing (VM) requires work experience which meets state requirements. Hours must be recent, relevant and of appropriate duration. With approved work experience, a person may receive vocational endorsements in both areas.
4. Students must earn a C or better in all of the following courses: writing, speech, math, lab science, and all professional education courses. A C- (or lower) is not acceptable and needs to be addressed immediately.
5. Post-Baccalaureate students that take ACC 501 for the business core will need to choose an alternative elective in the College of Business.

**School of Technology Studies Information:**
Initial Teacher Preparation Program Admission

In order to pursue the sequence of courses necessary to complete eligibility for recommendation for certification, one must apply for and be admitted to the teacher preparation program. Admission requirements are common for all teacher preparation programs, except that certain special education programs have additional requirements.

Each undergraduate student is responsible for applying to the teacher preparation program immediately after the semester in which the student has earned 56 credit hours. Transfer students with more than 56 credit hours should apply immediately after the semester in which they have earned 12 hours at EMU, including at least one course in their major. Students with 56 hours of transfer course work with a decision GPA of 3.0 may apply for admission to the teacher preparation program without 12 earned hours at EMU.

Admission to the teacher preparation program is not automatic. Only those persons who have formally applied are considered for admission. Not all persons who apply become eligible for admission.

Applications for the Initial Teacher Preparation Program at EMU are available within your my.emich account under the "Student" tab. Submit your completed application to the Office of Academic Services once you have earned 56 credit hours.

Teaching majors and minors are unofficial until program admission. Students pursuing teacher certification should follow the catalog that exists at the time of program admission. It is important that students apply to the teacher preparation program as soon as they have earned 56 credit hours.

Criteria

1. Completion of 56 credit hours
2. Appropriate cumulative GPA. One of:
   1. An overall EMU GPA of 2.5 or higher. At least 12 of the 56 credit hours taken at EMU with an EMU GPA of 2.5 or higher in your major (each of your majors if declaring a double major). You must complete at least one course in your major(s) in order to be eligible.
   2. Transferred 56 credits with a cumulative 3.0 GPA from all previous institutions.
3. A grade of “C” or higher (if taken) in the following courses:
   1. Secondary: ENGL 121, CTAC 124, quantitative reasoning, one lab science, all professional education courses, and, if special education, PSY 101.
   2. Elementary: ENGL 121, CTAC 124, MATH 108, MATH 110E, PHY 100, CHEM 101, ESSC 202, all of the professional education courses, all courses that state “for elementary teachers,” and, if special education, PSY 101.
4. Passing scores on all three sections of the Michigan Test for Teacher Certification Basic Skills Test (MTTC) (reading, mathematics, and writing). Official score report must be on file at Eastern Michigan University.

5. Personal statement about your experiences with youth/children and why you are going into teaching. This statement will be read for content, grammar, and punctuation.

6. Completion of a Disposition Self Evaluation Form.

7. ICHAT criminal background check and Statement of Civil/Criminal Convictions. If you answered yes to any of the civil/criminal conviction questions on the application, you will need to provide:
   1. A copy of the Judgment of Sentence, or Registrar of Actions, or Certification of Conviction.
   2. A written explanation of the offense(s). Application of students with civil/criminal convictions will be carefully reviewed and may take longer to process.

8. Meet academic, social, moral, and financial obligations as a member of the EMU community.

General Education Requirements:

For specific requirements refer to the General Education Program.

Vocational Endorsement Requirements:

A combination of work experience may be used for both Vocational Business (VB) and Vocational Marketing (VM); however, hours can only be used once. All hours must be verified by the BMMT Program Coordinator (or coordinator's selected assignee) using designated documents (i.e. personal records, tax documents, Social Security records, etc.).

Required Work Experience:

Work (within last 6 years)

- Option I: 4,000 hours total (2 years) (evidence required)
- Option II: 2,000 hours total + one semester EMU co-op course work
- Option III: 3,000 hours total + MOCAC Test (qualifies for 1,000)

Required Courses: 6 hours

- * BMMT 200 - Principles of Career and Technical Education 3 hrs
- * BMMT 363 - Curriculum for Career and Technical Education 3 hrs

Additional Requirements: 8 hours

- BMMT 123 - Word Processing/Keyboarding Applications 2 hrs
- BMMT 201 - Microcomputers for Business Applications 3 hrs
- ECON 201 - Principles of Macroeconomics (Gen Ed Area IV) 3 hrs
Major Requirements: 36 hours

Business Core: 9 hours

- ACC 240 - Principles of Financial Accounting 3 hrs
- BMMT 100 - Contemporary Business 3 hrs

Undergraduates choose one course from the following:

- ACC 241 - Principles of Managerial Accounting 3 hrs
- ACC 296 - The Accounting Cycle and Profession 3 hrs

Post-Baccalaureates choose one course from the following:

- ACC 241 - Principles of Managerial Accounting 3 hrs
- ACC 501 - Accounting Principles 3 hrs

Management Core: 9 hours

One course from the following:

- LAW 293 - Legal Environment of Business 3 hrs
- LAW 503 - Legal Environment of Business 3 hrs

One course from the following:

- BMMT 250 - Personal Finance 3 hrs
- FIN 350 - Principles of Finance 3 hrs
- FIN 502 - Financial Principles 3 hrs

One course from the following:

- MGMT 384 - Human Resource Management 3 hrs
- MGMT 386 - Organizational Behavior and Theory 3 hrs
- MGMT 388 - Introduction to Entrepreneurship 3 hrs
- TM 212 - The Management of Technological Change 3 hrs

Marketing Core: 9 hours

One course from the following:

- MKTG 360 - Principles of Marketing 3 hrs
- MKTG 510 - Marketing Management 3 hrs

Choose two courses from the following:
• Any other pre-approved Marketing course not listed below (3 hrs)
  • MKTG 261 - Contemporary Selling 3 hrs
  • MKTG 363 - Retailing 3 hrs
  • MKTG 368W - Marketing Strategy (Gen Ed Area I, W) 3 hrs
  • MKTG 369 - Advertising 3 hrs
  • MKTG 374 - Business to Business Marketing 3 hrs
  • MKTG 461 - Sales Management 3 hrs

Information Technology Core: 9 hours

• Any other pre-approved Information or Communication Technology course not listed below (3 hrs)
  • BMMT 321 - Digital Tools: Communication 3 hrs
  • BMMT 496 - Records Administration Using Database 3 hrs
  • CMT 421 - Web Publishing Technology 3 hrs

Professional Secondary Education Sequence

Secondary Education Pre-Admission Phase: The Learner and the Community: 10 hours

Prerequisite: Sophomore standing or higher.

• * BMMT 200 - Principles of Career and Technical Education 3 hrs
  • EDPS 322 - Human Development and Learning 4 hrs
  • SPGN 251 - Education of Students with Exceptionalities 3 hrs

The following phases require formal admission to the Initial Teacher Preparation Program:

Secondary Education Phase I: Curriculum, Assessment and the Social Context: 11 hours

Prerequisite: Completion of Pre-Admission Phase is required.

• * BMMT 363 - Curriculum for Career and Technical Education 3 hrs
  • BMMT 366 - Methods of Teaching Marketing Education 2 hrs
  • EDPS 340 - Introduction to Assessment and Evaluation 3 hrs
  • SOFD 328W - Schools for a Diverse and Democratic Society (Gen Ed Area I, W) 3 hrs

Secondary Education Phase II: Content and Methods and Teaching: 9 hours

Prerequisite: Completion of Phase I is required.

** These two courses must be taken together.
PRCT 311 - Practicum II: Secondary 3 hrs
** RDNG 311 - Teaching Reading in the Secondary School 3 hrs

Methods Course by Major:

Business, Management, Marketing and Technology Majors take:

- BMMT 360 - Methods of Teaching General Business and Office Education 3 hrs

Secondary Education Phase III: Capstone Experience: 9 hours

*Prerequisite: Completion of Phase II and 100 pre-student teaching hours is required.*

- EDUC 492 - Student Teaching 9 hrs
  This course requires a formal application to be submitted 7-8 months prior to the Student Teaching semester.

Minor Requirements:

This program requires a minor. Please contact your program adviser for a list of possible minors (the Vocational Minor is recommended).

Program Total:

Students must earn a minimum total of 124 credits at the 100-level or above.

MTTC Subject Area Test

*Starting January 1, 2013, Students seeking licensure in a secondary or K-12 area are not required to take the MTTC subject area test in their minor area. Students who elect not to take the test in their minor will be required to sign a statement indicating that they understand that they will not be endorsed in their minor area and will not be eligible for teaching positions in their minor unless they pass the minor subject area test within five years of completing field experience and course requirements.*

Notes:

*Each student must choose a writing intensive course as part of major completion requirements. Consult your adviser for course options.*

*These courses need only be taken once to count for Vocational Endorsement and Professional Education cores.*

Critical Graduation Information:

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the 100-level and above. Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses
will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.

- Meet the requirements of the General Education program (see information below).
- Earn a minimum of 60 credits from a four-year college or university; courses taken at community colleges cannot be used to meet this requirement. (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 unique credit hours in their major and 20 unique credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
- Not more than 60 credit hours in one subject area (prefix) may be applied towards the minimum of 124 credit hours required for a bachelor's degree.
- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more that one major or minor.
  - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
  - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
  - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor
- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is coordinated by the Office of Admissions, and additional documentation may be required.
- Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be earned in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

General Education Requirements:

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available on the General Education section of the catalog: General Education

- For Students who began their undergraduate program at EMU in Fall 2007 or later or who have elected to follow the current ("new") General Education Program, follow the "For Students" link under the Current Program heading.
- For Students who began their undergraduate program at EMU before Fall 2007 and who have elected to follow the Pre-2007 General Education Requirements, follow the "General Education Program Prior to Fall 2007 (pdf file)" link under the Program Prior to Fall 2007 heading. Please note that students who wish to graduate under pre-2007 General Education requirements must graduate by August 2014; those who have not completed all degree requirements by that time will need to satisfy the current (Fall 2007) General Education requirements.

Students who transferred to EMU may have modified general education requirements based on MACRIO or articulation agreements; consult your academic adviser for additional information.

Simulation, Animation and Gaming Major

Click here to watch a short video about this program.
School of Technology Studies Information:

Interim School Director: Wade Tornquist
School Contact: wade.tornquist@emich.edu
Website: http://www.emich.edu/sts/

General Education Requirements:

For specific requirements refer to the General Education Program. Download the Gen Ed Checklist here.

Required Courses: 54 hours

- ARTS 121 - Two-Dimensional Design 3 hrs
- ARTS 123 - Foundations Drawing I 3 hrs
- ARTS 122 - Three-Dimensional Design 3 hrs
- CMT 131 - Introduction to Computer Graphic Systems 3 hrs
- CMT 205 - Digital Photo-Technology 3 hrs
- COSC 111 - Introduction to Programming 3 hrs
- COSC 211 - Programming Data Structures 3 hrs
- COSC 215 - Scientific Simulation 3 hrs
- CTAT 141 - Audio and Video Production for Nonmajors 3 hrs
- MGMT 386 - Organizational Behavior and Theory 3 hrs
- MGMT 486 - Organizational Change and Team Building 3 hrs
- SAG 105 - Introduction to Simulation, Animation and Gaming 3 hrs
- SAG 175 - Graphics for Simulation I 3 hrs
- SAG 225 - Graphics for Simulation II 3 hrs
- SAG 235 - Flash I 3 hrs
- SAG 245 - Story Development 3 hrs
- SAG 285 - Studio I Simulation 3 hrs
- SAG 375 - Studio II Simulation 3 hrs
- STS 300W - Research and Writing: The Technology Career Perspective (Gen Ed Area I, W) 3 hrs

Select from either Cognate A or Cognate B:

Cognate A: 18 hours

This cognate allows students to continue in the graphic and design aspect of simulation, animation and gaming.

Required Courses: 15 hours

- SAG 275 - Texturing and Mapping 3 hrs
- SAG 305 - Environment Design 3 hrs
- SAG 355 - Lighting and Camera Techniques 3 hrs
- SAG 375 - Studio II Simulation 3 hrs
- SAG 470 - Simulation and Animation Dynamics 3 hrs

Capstone Experience: 3 hours
- COSC 485 - Senior Projects in SAG 3 hrs
  or
- SAG 485 - Senior Projects in SAG 3 hrs

**Cognate B: 23 hours**

This cognate allows the students to pursue their final two years in the Computer Science Department, learning the programming languages needed to succeed in the SAG profession. The courses in this cognate utilize existing courses within the department.

- COSC 221 - Computer Organization I 3 hrs
- COSC 311 - Algorithms and Data Structures 3 hrs
- COSC 456 - Computer Graphics 3 hrs
- COSC 457 - Computer Game Programming 3 hrs
- COSC 461 - Heuristic Programming 3 hrs
- COSC 481W - Software Engineering and Senior Project (Gen Ed Area I, W) 3 hrs
- COSC 486 - Cooperative Education in Computer Science 1 hrs
- MATH 205 - Mathematical Structures for Computer Science 4 hrs

**Minor Requirements:**

This program does not require a minor.

**Program Total:**

Students must earn a minimum total of 124 credits at the 100-level or above.

**Critical Graduation Information:**

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the 100-level and above. Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Earn a minimum of 60 credits from a four-year college or university; courses taken at community colleges cannot be used to meet this requirement. (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 unique credit hours in their major and 20 unique credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
- Not more than 60 credit hours in one subject area (prefix) may be applied towards the minimum of 124 credit hours required for a bachelor's degree.
• Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more that one major or minor.
  o Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
  o Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
  o Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor
• Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is coordinated by the Office of Admissions, and additional documentation may be required.
• Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be earned in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

General Education Requirements:

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available on the General Education section of the catalog: General Education

• For Students who began their undergraduate program at EMU in Fall 2007 or later or who have elected to follow the current ("new") General Education Program, follow the "For Students" link under the Current Program heading.
• For Students who began their undergraduate program at EMU before Fall 2007 and who have elected to follow the Pre-2007 General Education Requirements, follow the "General Education Program Prior to Fall 2007 (pdf file)" link under the Program Prior to Fall 2007 heading. Please note that students who wish to graduate under pre-2007 General Education requirements must graduate by August 2014; those who have not completed all degree requirements by that time will need to satisfy the current (Fall 2007) General Education requirements.

Students who transferred to EMU may have modified general education requirements based on MACRAO or articulation agreements; consult your academic adviser for additional information.

University Information: Consult the online catalog at catalog.emich.edu.

Technology Management Major

The technology management program is designed for transfer students with an associate of applied science degree. The interdisciplinary curriculum provides the necessary foundation to meet the changing needs of management in a variety of fields; ranging from business and health to criminal justice, environmental sciences, automotive technology and computer service technology.

An active articulation agreement exists between this program and several community colleges. To see a complete list of current colleges with program articulation agreements with EMU, please click here.

More information about this major can be found at the program website.

School of Technology Studies Information:

Interim School Director: Wade Tornquist
School Contact: wade.tornquist@emich.edu
Website: http://www.emich.edu/sts/
General Education Requirements:

For specific requirements refer to the General Education Program. Download the Gen Ed Checklist here.

Additional Requirements: 9-12 hours

- ECON 201 - Principles of Macroeconomics (Gen Ed Area IV) 3 hrs
- ECON 202 - Principles of Microeconomics (Gen Ed Area IV) 3 hrs

One course from the following:

- MATH 118 - Linear Models and Probability (Gen Ed Area II) 3 hrs
- STS 224 - Solving Quantitative Problems in Technology (Gen Ed Area II) 3 hrs

Must take this course or a proficiency exam:

- STS 201 - Microcomputer Applications in Technology 3 hrs

Major Requirements: 60-79 hours

Core Courses: 18 hours

- TM 130 - Introduction to Technology Management 3 hrs
- TM 212 - The Management of Technological Change 3 hrs
- TM 311 - Information Technology Management and Organizations 3 hrs
- TM 314W - A Socio-Technical Systems Approach to Process Improvement (Gen Ed Area I, W) 3 hrs
- TM 402 - Technology Project Management 3 hrs
- TM 415 - Senior Seminar in Technology Management 3 hrs

Technology Management Elective Courses: 12-15 hours

Choose four of the following. At least one must be a 300- or 400-level course.

- ACC 130 - Accounting for Nonbusiness Majors 3 hrs
- ACC 240 - Principles of Financial Accounting 3 hrs
- ACC 241 - Principles of Managerial Accounting 3 hrs
- ACC 358 - Analysis of Financial Statements 3 hrs
- FIN 350 - Principles of Finance 3 hrs
- LAW 293 - Legal Environment of Business 3 hrs
- LAW 403 - Employment Law 3 hrs
- MGMT 384 - Human Resource Management 3 hrs
- MGMT 386 - Organizational Behavior and Theory 3 hrs
- MGMT 388 - Introduction to Entrepreneurship 3 hrs
- MGMT 480W - Management Responsibility and Ethics (Gen Ed Area I, W) 3 hrs
- MKTG 360 - Principles of Marketing 3 hrs
- MKTG 369 - Advertising 3 hrs
- MKTG 473 - Marketing and Product Innovation 3 hrs
- TM 306 - Quantitative Analysis of Sustainability Issues (Gen Ed Area II) 3 hrs
- TM 308 - Seminar in Technological Impacts 3 hrs
- TM 377 - Special Topics 1 hr
- TM 378 - Special Topics 2 hrs
- TM 379 - Special Topics 3 hrs
- TM 387 - Cooperative Education 3 hrs
- TM 477 - Special Topics 1 hr
- TM 478 - Special Topics 2 hrs
- TM 479 - Special Topics 3 hrs

Technical Concentration 30-46 hours

The following technical specializations from two-year institutions may be transferable into this concentration. These technical specializations will include, but are not limited to, the following areas:

- Automotive service technology
- Biomedical engineering technology
- Computer service technology
- Correctional science
- Criminology
- Emergency medical technician
- Environmental technology
- Fire technology
- Fluid power technology
- Graphic design technology
- Health information technology
- Laser-electro optics
- Photographic technology
- Public Safety technology
- Refrigeration and air conditioning technology
- Telecommunication technology

Minor Requirements:

This program does not require a minor.

Program Total:

Students must earn a minimum total of 124 credits at the 100-level or above.

Note:

Each student must choose a writing intensive course as part of major completion requirements. Consult your adviser for course options.

Critical Graduation Information:
The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the 100-level and above. Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Earn a minimum of 60 credits from a four-year college or university; courses taken at community colleges cannot be used to meet this requirement. (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 unique credit hours in their major and 20 unique credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
- Not more than 60 credit hours in one subject area (prefix) may be applied towards the minimum of 124 credit hours required for a bachelor's degree.
- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more that one major or minor.
  - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
  - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
  - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor.
- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is coordinated by the Office of Admissions, and additional documentation may be required.
- Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be earned in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

General Education Requirements:

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available on the General Education section of the catalog: General Education

- For Students who began their undergraduate program at EMU in Fall 2007 or later or who have elected to follow the current ("new") General Education Program, follow the "For Students" link under the Current Program heading.
- For Students who began their undergraduate program at EMU before Fall 2007 and who have elected to follow the Pre-2007 General Education Requirements, follow the "General Education Program Prior to Fall 2007 (pdf file)" link under the Program Prior to Fall 2007 heading. Minor

Administrative Management Minor

School of Technology Studies Information:

Interim School Director: Wade Tornquist
School Contact: wade.tornquist@emich.edu
Website: http://www.emich.edu/sts/

Required Courses: 12 hours

- BMMT 310 - Word/Information Processing Administration 3 hrs
- BMMT 387 - Co-operative Education 3 hrs
- BMMT 395 - Administering Workplace Systems and Technology 3 hrs
- BMMT 396 - Information and Media Administration 3 hrs

Restricted Elective Courses: 9 hours

Nine hours from the following:

- BMMT 220 - Word/Information Processing Operations 3 hrs
- BMMT 496 - Records Administration Using Database 3 hrs
- HLAD 305 - The U.S. Health Care System 3 hrs
- HLAD 310 - Administration of Health Care Organizations 3 hrs
- HLAD 425 - Decision Making for Health Administrators 3 hrs
- LAW 293 - Legal Environment of Business 3 hrs
- LEGL 211 - Introduction to Paralegalism and Legal Terminology 3 hrs
- LEGL 212 - Law Office Administration and Technology 3 hrs
- MGMT 388 - Introduction to Entrepreneurship 3 hrs
- MGMT 480W - Management Responsibility and Ethics (Gen Ed Area I, W) 3 hrs
- IA 210 - Concepts of Network and Business Technology 3 hrs
- STS 202 - Disabled in the U.S.A. - Rights, Prejudice, Claims and Responsibilities 3 hrs

Minor Total: 21 hours

Note:

All minors must have at least six hours of course work at the 300-level or above.

Critical Graduation Information:

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.
Earn a minimum total of 124 credits at the 100-level and above. Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement. Graphic Communication Minor

This minor is designed to provide technical communication skills to majors in fields such as graphic design and journalism. The electives in the minor are diverse and extensive enough to allow for individual flexibility.

School of Technology Studies Information:

Interim School Director: Wade Tornquist
School Contact: wade.tornquist@emich.edu
Website: http://www.emich.edu/sts/

Required Courses: 12 hours

- CMT 104 - Introduction to Communication Technology 3 hrs
- CMT 121 - Graphic Communication 3 hrs
- CMT 204 - Photographic Communication 3 hrs
- CMT 427 - Digital Imaging and Reproduction 3 hrs

Elective Courses: 11-12 hours

Electives selected with an adviser to equal 11-12 credit hours from the areas of:

- Communication Technology
- Art
- Telecommunication and Film
- Written Communication
- Journalism/Public Relations
- Interior Design
- BMMT
- CAD/CAM
- ELEC
- Advertising
- Marketing/Management

Minor Requirements: 23-24 hours

Note:

All minors must have at least six hours of course work at the 300-level or above.

Critical Graduation Information:

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

Critical Graduation Information:

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the 100-level and above. Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Earn a minimum of 60 credits from a four-year college or university; courses taken at community colleges cannot be used to meet this requirement. (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 *unique* credit hours in their major and 20 *unique* credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
- Not more than 60 credit hours in one subject area (prefix) may be applied towards the minimum of 124 credit hours required for a bachelor's degree.
Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more than one major or minor.

- Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor.
- Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
- Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor.

Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is coordinated by the Office of Admissions, and additional documentation may be required.

- Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be earned in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

**General Education Requirements:**

EMU’s General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available on the General Education section of the catalog: General Education.

- For Students who began their undergraduate program at EMU in Fall 2007 or later or who have elected to follow the current ("new") General Education Program, follow the "For Students" link under the Current Program heading.
- For Students who began their undergraduate program at EMU before Fall 2007 and who have elected to follow the Pre-2007 General Education Requirements, follow the "General Education Program Prior to Fall 2007 (pdf file)" link under the Program Prior to Fall 2007 heading. Please note that students who wish to graduate under pre-2007 General Education requirements must graduate by August 2014; those who have not completed all degree requirements by that time will need to satisfy the current (Fall 2007) General Education requirements.

Students who transferred to EMU may have modified general education requirements based on MACRAO or articulation agreements; consult your academic adviser for additional information.

**University Information:** Consult the online catalog at catalog.emich.edu.

**Secondary Education Vocational Technical Endorsement Minor**

Successful completion of this program, in the context of other program requirements, qualifies the student for recommendation for the Michigan Department of Education Secondary Provisional Certificate, endorsed in Vocational Technical, certification code VT. The student also qualifies for the Interim Occupational Certificate.

**School of Technology Studies Information:**

Interim School Director: Wade Tornquist
School Contact: wade.tornquist@emich.edu
Website: http://www.emich.edu/sts/

**Adviser Information:**

Program Adviser: Ron Fulkert
Email: ron.fulkert@emich.edu
Phone: 734.487.4330
Required Work Experience:

**Work** (within last 5 years)

- Option I: 4,000 hours total (2 years)
- Option II: 2,000 hours total + one semester EMU co-op course work, + MOCAC/NOCTI test

Required Courses: 6 hours

- BMMT 200 - Principles of Career and Technical Education 3 hrs
- BMMT 363 - Curriculum for Career and Technical Education 3 hrs

Select a concentration from the following: 18 hours

*Whenever possible, courses should be taken at EMU. Credits to satisfy this requirement may be taken at another institution. Students must meet with adviser to ensure coursework satisfies concentration area.*

- 47.0604 - Automotive Technician Concentration
- 47.0603 - Collision Repair Technician Concentration
- 46.0000 - Construction Trades Concentration
- 15.1301 - Drafting & Design Concentration
- 47.0101 - Electrical/Electronics Concentration
- 15.0000 - Engineering and Technology Concentration
- 10.0301 - Graphics/Visual Communications Concentration
- 48.0501 - Machine Tool Operation Concentration
- 47.0613 - Medium/Heavy Truck Technician Concentration
- 10.0202 - Radio & TV Broadcasting Concentration
- 48.0508 - Welding, Braising, and Soldering Concentration

Minor Total: 24 hours

MTTC Subject Area Test

*Starting January 1, 2013, Students seeking licensure in a secondary or K-12 area are not required to take the MTTC subject area test in their minor area. Students who elect not to take the test in their minor will be required to sign a statement indicating that they understand that they will not be endorsed in their minor area and will not be eligible for teaching positions in their minor unless they pass the minor subject area test within five years of completing field experience and course requirements.*
Critical Graduation Information:

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the 100-level and above. Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Earn a minimum of 60 credits from a four-year college or university; courses taken at community colleges cannot be used to meet this requirement. (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 unique credit hours in their major and 20 unique credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
- Not more than 60 credit hours in one subject area (prefix) may be applied towards the minimum of 124 credit hours required for a bachelor's degree.
- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more that one major or minor:
  - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
  - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
  - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor
- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is coordinated by the Office of Admissions, and additional documentation may be required.
- Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be earned in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

General Education Requirements:

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available on the General Education section of the catalog: General Education

- For Students who began their undergraduate program at EMU in Fall 2007 or later or who have elected to follow the current ("new") General Education Program, follow the "For Students" link under the Current Program heading.
- For Students who began their undergraduate program at EMU before Fall 2007 and who have elected to follow the Pre-2007 General Education Requirements, follow the "General Education Program Prior to Fall 2007 (pdf file)" link under the Program Prior to Fall 2007 heading. Please note that students who wish to graduate under pre-2007 General Education requirements must graduate by August 2014; those who have not completed all degree requirements by that time will need to satisfy the current (Fall 2007) General Education requirements.
Students who transferred to EMU may have modified general education requirements based on MACRAO or articulation agreements; consult your academic adviser for additional information.

University Information: Consult the online catalog at catalog.emich.edu.

Apparel Textiles Merchandising

ATM 105 - Integrated Arts

The application of design elements and principles to human and contemporary environmental needs.

Credit Hours: 3 hrs
Lecture/Lab Hours: Laboratory required

ATM 118 - Apparel Studio

Apparel construction using a commercial pattern. Emphasis is placed on fabric selection, fit and techniques.

Credit Hours: 3 hrs

ATM 119 - Early American Textiles

Survey of textiles used in early history of North America; laboratory experience allow students to develop skills in spinning wool and flax, traditional weaving and natural dyeing.

Credit Hours: 3 hrs

ATM 135 - Cultural Study of Dress

A study of the social, psychological and physical aspects of dress as related to culture, society and the individual.

Credit Hours: 3 hrs

ATM 145 - Introduction to Apparel and Textile Merchandising

Analysis of the apparel and textiles industry from the designing to distribution through major domestic and foreign markets. Emphasis is placed on fashion trends and cycles, history of merchandising and careers.

Credit Hours: 3 hrs

ATM 177 - Special Topics

An experimental course designed to investigate specific topics of concern in specialization areas.

Credit Hours: 1 hr
Prerequisite: department permission

ATM 178 - Special Topics
An experimental course designed to investigate specific topics of concern in specialization areas.

**ATM 179 - Special Topics**

An experimental course designed to investigate specific topics of concern in specialization areas.

**Credit Hours:** 2 hrs  
**Prerequisite:** department permission

**ATM 200 - Aesthetics and Design for the Apparel Industry**

This course will explore current and historical trends in design and aesthetics within and related to the apparel and merchandising industry. Concept development in visual design is the primary focus. Students will work individually and in teams to develop concepts and presentations in multiple media.

**Credit Hours:** 3 hrs

**ATM 210 - Display Techniques**

Study and evaluation of visual presentations for store interiors and window displays for fashion retailing, educational and trade exhibits. Basic principles of design, as applied to merchandise displays are examined. Provides a hands-on opportunity to create window display designs with other students in campus buildings and the local community.

**Credit Hours:** 3 hr  
**Prerequisite:** ATM 105  
**Last Updated:** 2/28/2011

**ATM 212 - Textile Science I: Fibers & Yarns**

This course is an intensive study of natural and man-made fibers and yarns. Both fiber production methods and properties are discussed. Yarn classifications, construction and production are also taught. Both swatch book exercise and laboratory practice are utilized for hands on training. All fibers and yarns used in apparel, furnishing and technical textiles are covered.

**Credit Hours:** 3 hrs

**ATM 255 - Apparel Analysis**

A study of the components of apparel at the various price and quality levels. Emphasis placed on standard terminology necessary to describe/evaluate apparel.

**Credit Hours:** 3 hrs  
**Lecture/Lab Hours:** Laboratory required  
**Prerequisite:** ATM 118  
**Last Updated:** Prerequisite Change: 11/2011, effective Winter 2012; Links 02/2011

**ATM 265 - Merchandising of Interior Furnishings**
Study of fashion marketing practices, buying techniques, and promotional activities as they relate to home furnishings industries

**Credit Hours:** 3 hrs  
**Notes:** Field trips required

**ATM 271 - Woven Structures and Design**

Practical applications in current technologies in woven fabric design and construction, including the history of technological developments in the design and development of woven structures.

**Credit Hours:** 3 hrs

**ATM 277 - Special Topics**

An experimental course designed to investigate specific topics of concern in specialization areas.

**Credit Hours:** 1 hr  
**Prerequisite:** department permission

**ATM 278 - Special Topics**

An experimental course designed to investigate specific topics of concern in specialization areas.

**Credit Hours:** 2 hrs  
**Prerequisite:** department permission

**ATM 279 - Special Topics**

An experimental course designed to investigate specific topics of concern in specialization areas.

**Credit Hours:** 3 hrs  
**Prerequisite:** department permission

**ATM 302 - Fashion Manufacturing Techniques**

Experiences and analysis of apparel and textile product production. Includes selection of commercial equipment and textiles.

**Credit Hours:** 3 hrs  
**Prerequisite:** ATM 118  
**Last Updated:** 2/28/2011

**ATM 312 - Textile Science II: Fabric Formation, Dyeing and Finishing**

This course deals with the formation of fabric by different technologies including weaving, knitting, braiding and nonwoven. Color science and textile dyeing are also taught.

**Credit Hours:** 3 hrs  
**Concurrent Prerequisite:** ATM 145 and ATM 212  
**Class Restrictions:** Sophomore standing or above  
**Last Updated:** 2/28/2011
ATM 345 - Merchandise Planning and Control

Applications of merchandising mathematical concepts to buying functions and activities. Major focus on problem solving.

Credit Hours: 3 hrs
Prerequisite: ATM 145
Notes: Field trips required
Last Updated: 2/28/2011

ATM 355 - Application of Merchandising Practices

Adaptation of apparel and textile merchandising concepts (ATM345) to computer systems. Development of processing tasks using specific merchandising information, utilizing the computer for simulation problem solving.

Credit Hours: 3 hrs
Prerequisite: COSC 101 or IHHS224
Last Updated: 2/28/2011

ATM 371 - Textiles for Interior Design

Textiles for Interior Design is a study of textile fibers, yarns and fabrics that are used in interior furnishing. Selection of textile for interior based on durability, aesthetics, safety and environmental issues are discussed. The course includes lab sections on fiber identification and fabric analysis for properties and design.

Credit Hours: 3 hrs
Class Restrictions: Junior and Senior students only

ATM 372 - Design and Production of a Fashion Show

Students work as a team to design, develop and produce a fashion show. Emphasis is on project development, including budget, scheduling, communication, management, leadership and synthesis of program area skills.

Credit Hours: 3 hrs
Prerequisite: ATM 145
Notes: Students may repeat this course.
Last Updated: 2/28/2011

ATM 377 - Special Topics

An experimental course designed to investigate specific topics of concern in specialization areas.

Credit Hours: 1 hr
Prerequisite: department permission

ATM 378 - Special Topics

An experimental course designed to investigate specific topics of concern in specialization areas.

Credit Hours: 2 hrs
Prerequisite: department permission
ATM 379 - Special Topics

An experimental course designed to investigate specific topics of concern in specialization areas.

Credit Hours: 3 hrs
Prerequisite: department permission

ATM 380 - Fashion of the Haute Couture

A detailed study of 20th-century American and European fashion and its relationship to identifiable costumes of the past with emphasis on haute couture

Credit Hours: 3 hrs
Notes: Field trip required

ATM 390 - Visual Merchandising

Analysis of visual media and techniques used in presentation of merchandise in a variety of settings. Laboratory participation integrates theory and practice.

Credit Hours: 3 hrs
Prerequisite: ATM 105
Last Updated: 2/28/2011

ATM 392 - Pattern Design

Principles of pattern making, and special problems in clothing construction and design.

Credit Hours: 3 hrs
Prerequisite: ATM 118 or equivalent
Last Updated: 2/28/2011

ATM 404 - Textiles for Merchandising

Recent technological developments in textiles; textile testing techniques.

Credit Hours: 3 hrs
Prerequisite: ATM 118 and one laboratory science course
Last Updated: Prerequisite Change 11/2011, effective Winter 2012; Links 02/2011

ATM 437 - Professional Seminar

Credit Hours: 3 hrs
Concurrent Prerequisite: ATM 355 can be taken concurrently
Class Restrictions: Senior standing
Notes: Field trips required
Last Updated: 2/28/2011
ATM 439 - Fashion Markets

Comprehensive overview of the world fashion markets with emphasis on their development, operation and contribution; includes a trip to one fashion-related market.

Credit Hours: 3 hrs
Prerequisite: department permission

ATM 460 - Tailoring

Fundamental construction processes and special techniques applied to the construction of tailored garments; alterations and adaptations.

Credit Hours: 3 hrs
Prerequisite: ATM 118 or equivalent
Last Updated: 2/28/2011

ATM 477 - Special Topics

An experimental course designed to investigate specific topics of concern in specialization areas.

Credit Hours: 1 hrs
Prerequisite: department permission

ATM 478 - Special Topics

An experimental course designed to investigate specific topics of concern in specialization areas.

Credit Hours: 2 hrs
Prerequisite: department permission

ATM 479 - Special Topics

An experimental course designed to investigate specific topics of concern in specialization areas.

Credit Hours: 3 hrs
Prerequisite: department permission

ATM 487 - Field Experience

Supervised field experiences working with family social agencies and/or businesses in the area of specialization emphasizing professional competencies and self-evaluation. Sections of course offered for specialization areas as needed. International students need a work permit before registration.

Credit Hours: 3 hrs
Prerequisite: department permission
Class Restrictions: Senior standing

ATM 497 - Independent Study
Advanced study on an individual basis in areas in which the department does not offer a formal course.

Credit Hours: 1 hrs  
Prerequisite: department permission

ATM 498 - Independent Study

Advanced study on an individual basis in areas in which the department does not offer a formal course.

Credit Hours: 2 hrs  
Prerequisite: department permission

ATM 499 - Independent Study

Advanced study on an individual basis in areas in which the department does not offer a formal course.

Credit Hours: 3 hrs  
Prerequisite: department permission

### Aviation Technology

**AVT 100 - Introduction to Air Transportation**

This course is designed to provide a basic understanding of the operational categories within civil aviation and the functions of state and federal government in its control and regulation. The history, scope, and diverse nature of aviation will be discussed, together with some of the many occupational opportunities available.

Credit Hours: 3 hrs

**AVT 110 - Aircraft Maintenance I**

The functions and roles of maintenance procedures in an aviation maintenance organization structure.

Credit Hours: 3 hrs  
Lecture/Lab Hours: Lecture: three hours per week.

**AVT 120 - Flight Operations I**

The role of aviation in general aviation and the interface with regulatory agencies and parent organizations.

Credit Hours: 3 hrs  
Lecture/Lab Hours: Lecture: three hours per week.

**AVT 170 - Aviation Ground Instruction**

Basic ground instruction in aerodynamics, navigation, federal aviation regulations, meteorology, and flight procedures directed toward preparation for the private pilot written examination.

Credit Hours: 3 hrs
AVT 177 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr
Prerequisite: department permission

AVT 178 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs
Prerequisite: department permission

AVT 179 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs
Prerequisite: department permission

AVT 208 - Aviation Human Factors

A course designed to provide the student with an introduction to human factors as applied in aviation. Topics include human error, fatigue, visual illusions, attitudes, training, displays and controls, biological factors, psychological factors and social factors.

Credit Hours: 3 hrs

AVT 215 - Aviation Weather

This course provides the student with an introduction to the properties and processes that create weather and addresses aviation specific weather topics to prepare the student for Federal Aviation Administration examinations. Topics include types of weather that adversely affect flight operation and aviation weather services.

Credit Hours: 3 hrs
Major Restrictions: Aviation Flight Technology and Aviation Management majors/minors only

AVT 220 - Flight Operations II

In-depth study of the functions and organization of operations and the relationship with the other departments within an aviation organization.

Credit Hours: 3 hrs
Prerequisite: AVT 120
Last Updated: 2/28/2011
AVT 222 - Introduction to Automation in Aviation

This course examines the world of aircraft automation including a review of its history, capabilities of automated aircraft cockpit systems, aspects of automated aircraft design, the human role in automated flight, crew coordination errors and an examination of the automated systems used in Eastern Michigan University flight training.

Credit Hours: 3 hrs  
Major Restrictions: Aviation Flight Technology Majors only

AVT 250 - Aircraft Transition

This course provides a means for incoming students with past flight experience of FAA ratings to transition into the advanced cockpit aircraft used in the Eastern Michigan University Flight Technology Program. The transition consists of oral examination and flight instruction as needed followed by a flight transition demonstration.

Credit Hours: 1 hr  
Major Restrictions: Students in Aviation Flight Technology only

AVT 255 - Private Pilot Certification

The student will receive dual instruction in flight operations to achieve solo flights in accordance with Federal Aviation Administration requirements. The student will then receive dual instruction and conduct solo practice in extended cross-country flight, flight maneuvers, and be prepared to take the oral and flight examination for the Private Pilot Certificate.

Credit Hours: 4 hrs  
Prerequisite: Student Pilot Certificate: FAA Class I Medical  
Major Restrictions: Aviation Flight Technology and Aviation Management Technology Majors only

AVT 263 - Aircraft Systems

This course is designed to provide an understanding of aircraft systems. The course will focus on electrical, hydraulic, pneumatic, power plant, fuel, oil, lubrication, cooling and aerodynamic control systems. The course will prepare the student pilot to succeed in future employer-required aircraft system classes.

Credit Hours: 3 hrs  
Major Restrictions: Aviation Flight Technology and Aviation Management Technology Majors only

AVT 277 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr  
Prerequisite: department permission

AVT 278 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.
AVT 279 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

AVT 285 - Preprofessional Internship

One semester of practical, on-the-job work experience and training at select on-campus or off-campus facilities.

AVT 286 - Preprofessional Internship

One semester of practical, on-the-job work experience and training at select on-campus or off-campus facilities.

AVT 287 - Preprofessional Internship

One semester of practical, on-the-job work experience and training at select on-campus or off-campus facilities.

AVT 303 - Aviation Law and Insurance

Overview of legal considerations in general aviation, government agencies exercising control, regulations, laws, advisory information and insurance requirements and considerations.

AVT 313 - Aviation Industry Regulations

The major significance of aviation regulations and policies including the development and enforcement of federal aviation regulations will be presented. The major elements of managing an aviation operation within the guidelines of international and federal aviation industry regulations together with the influence of local and state requirements will be presented.

AVT 315 - Airport Management
The major elements in the process of planning and managing airports are presented including federal airport policy, the airport master-planning process, capacity analysis, site selection and funding. The historical development of and current practices in airport administration, operations management, maintenance and safety will be presented.

**Credit Hours:** 3 hrs

**AVT 320 - Aviation Safety**

A study of basic aviation safety concepts related to accident causation and prevention. The course will provide an overview of current safety issues relative to risk management, human factors, aviation security and safety education. In addition, resources and techniques needed for the development and implementation of aviation safety programs will be discussed.

**Credit Hours:** 3 hrs
**Prerequisite:** AVT 170
**Last Updated:** 2/28/2011

**AVT 321 - Cockpit and Crew Resource Management**

The major elements in the process of planning and managing airports are presented including This course will present an introduction to the theories and concepts that make up the elements of cockpit and crew resource management (CRM). Topics including aviation human factors, high integrity flight teams, stress and performance, situational awareness and assessment, decision making, conflict resolution and problem solving will be explored.

**Credit Hours:** 3 hrs

**AVT 322 - System Safety in Aviation**

This course explores the Federal Aviation Administration’s air carrier certification processes and the air transportation oversight system. Topics include the FAA systems approach to safety; aircraft configuration control, manual subsystems, flight operation subsystems, personnel training and qualifications, route structures, airmen duty time and technical administration of air carrier systems. Restricted to Aviation Flight Technology majors and minors, and Aviation Management Technology majors and minors.

**Credit Hours:** 3 hrs
**Prerequisite:** AVT 313
**Class Restrictions:** Sophomore standing
**Last Updated:** 2/28/2011

**AVT 341 - Instrument Ground Instruction**

Advanced ground instruction in flight instrument systems, attitude instrument flying, instrument navigation, weather, Air Traffic control systems and Federal Aviation Regulations directed toward preparation for the FAA instrument written and practical examinations.

**Credit Hours:** 2 hrs
**Prerequisite:** AVT 170
**Major Restrictions:** Aviation Flight Technology Majors only
**Last Updated:** 2/28/2011

**AVT 342 - Commercial Ground Instruction**
Advanced ground instruction will be presented to include aerodynamics, airports and airport operations, Federal Aviation Regulations, metrology, weather reports, aircraft performance, aircraft systems, weight and balance, and commercial pilot operations.

**Credit Hours:** 2 hrs  
**Major Restrictions:** Aviation Flight Technology Majors only

**AVT 355 - Instrument Pilot Certification**

The student will receive an introduction in cross-country operations and instrument flying techniques, including radio navigation, instrument approaches, and IFR operations. The course will prepare the student for the FAA instrument pilot written, oral, and practical examinations to achieve instrument pilot certification.

**Credit Hours:** 4 hrs  
**Prerequisite:** AVT 251  
**Previously Listed As:** AVT 271  
**Last Updated:** 2/4/2011

**AVT 355 - Instrument Pilot Certification**

The student will receive instruction in cross-country and instrument flying techniques, including radio navigation, instrument approaches, and IFR operations. This course will prepare the student for the FAA instrument pilot written, oral and practical examinations to achieve instrument pilot certification.

**Credit Hours:** 4 hrs  
**Prerequisite:** AVT 255  
**Major Restrictions:** Aviation Flight Technology and Aviation Management Technology Majors only; department permission required for Aviation Management Majors  
**Last Updated:** 2/28/2011

**AVT 361 - Commercial/Complex Flight Instruction**

The student will receive dual instruction to introduce commercial flight operations. The student will also complete instruction in complex aircraft for the purpose of preparing for Commercial Pilot Certification.

**Credit Hours:** 2 hrs  
**Prerequisite:** AVT351  
**Major Restrictions:** Aviation Flight Technology Majors only  
**Last Updated:** 2/28/2011

**AVT 371 - Commercial Certification**

The student will complete the dual instruction and solo practice in all phases of flight training specified by the Federal Aviation Administration for the insurance of the Commercial Pilot Certificate. The student will complete the oral examinations and flight tests required for this certificate and rating.

**Credit Hours:** 2 hrs  
**Prerequisite:** AVT 361  
**Major Restrictions:** Aviation Flight Technology Majors only  
**Last Updated:** 2/28/2011
AVT 377 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr
Prerequisite: department permission

AVT 378 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs
Prerequisite: department permission

AVT 379 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs
Prerequisite: department permission

AVT 382 - Flight Instructor Ground Instruction

A course designed to prepare the student to meet Federal Aviation Administration requirements for the FAA Flight Instructor Certificate for an airplane category rating and single-engine land class rating. Theories of instruction, the learning process, instructor responsibilities and authority will be presented.

Credit Hours: 3 hrs
Major Restrictions: Aviation Flight Technology Majors only

AVT 384 - Multi-engine/Aircraft Systems Ground Instruction

A course designed to prepare the student for FAA multiengine certification. The course will present the areas of aeronautical knowledge required for the multiengine pilot rating and the oral portion of the FAA multiengine practical test.

Credit Hours: 3 hrs
Major Restrictions: Aviation Flight Technology Majors only

AVT 387 - Co-operative Education in Aviation Technology

A minimum of three to four months of full-time employment in a business or industry that provides experiences directly related to the major area of study. Work sites must be approved in advance by the Interdisciplinary Technology Department. Regular employee benefits may be received during the employment period.

Credit Hours: 3 hrs
Prerequisite: department permission
AVT 419 - High Airspeed Aerodynamics/High Altitude Flight

A course designed to meet the Federal Aviation Administration ground training requirements for pilots who will conduct flight operations above 25,000 feet. The course will cover aerodynamic and physiological considerations for high altitude flight.

Credit Hours: 3 hrs
Major Restrictions: Aviation Flight Technology Majors only

AVT 422 - Senior Seminar in Aviation Management

Current issues in aviation management will be explored using group and individual projects and analysis of case studies. Research, analysis and application of skills and knowledge acquired in other course work will be stressed.

Credit Hours: 3 hrs
Prerequisite: department permission
Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.
Last Updated: Graduate Credit 07/2011

AVT 426 - Multi-Engine Flight Instruction

This course consists of the flight training and ground training requirements to meet FAA airplane class rating for multi-engine land. This course is conducted off campus by the approved flight training provider.

Credit Hours: 3 hrs
Major Restrictions: Aviation Flight Technology Majors only

AVT 427 - Flight Instructor: Airplane

This course consists of the flight training requirements for the student to meet Federal Aviation Administration standards for the rating of Certified Flight Instructor-Airplane.

Credit Hours: 2 hrs
Major Restrictions: Aviation Flight Technology Majors only

AVT 428 - Flight Instructor: Instrument

This course consists of the flight training requirements for the student to meet Federal Aviation Administration standards for the rating of Certified Flight Instructor-Instrument.

Credit Hours: 2 hrs
Prerequisite: AVT 427
Major Restrictions: Aviation Flight Technology Majors only
Last Updated: 2/28/2011

AVT 429 - Flight Instructor: Multi-Engine

This course consists of the flight training requirements for the student to meet Federal Aviation Administration standards for the rating of Certified Flight Instructor-Multiengine.

Credit Hours: 2 hrs
Prerequisite: AVT 428
Major Restrictions: Aviation Flight Technology Majors only
Last Updated: 2/28/2011

AVT 477 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr
Prerequisite: department permission

AVT 478 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs
Prerequisite: department permission

AVT 479 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs
Prerequisite: department permission

AVT 487 - Co-operative Education in Interdisciplinary Technology

A minimum of three to four months of full-time employment in a business or industry that provides experiences directly related to the major area of study. Work sites must be approved in advance by the Interdisciplinary Technology Department. Regular employee benefits may be received during the employment period.

Credit Hours: 3 hrs
Prerequisite: department permission

AVT 497 - Independent Study

Advanced study on an individual basis in areas in which the department does not offer a formal course.

Credit Hours: 1 hr
Prerequisite: department permission

AVT 498 - Independent Study

Advanced study on an individual basis in areas in which the department does not offer a formal course.

Credit Hours: 2 hrs
Prerequisite: department permission
AVT 499 - Independent Study

Advanced study on an individual basis in areas in which the department does not offer a formal course.

Credit Hours: 3 hrs
Prerequisite: department permission

Business Management Marketing and Technology

BMMT 100 - Contemporary Business

The American business enterprise and international business. Contemporary problems and future challenges. Career decision-making in terms of business careers

Credit Hours: 3 hrs
Notes: Open to all students except upper-division business majors.

BMMT 123 - Word Processing/Keyboarding Applications

Continued keyboarding and word processing skill development. Application of skill to business documents, manuscripts and reports. Emphasis on improved editing, proofreading and referencing skills.

Credit Hours: 2 hrs

BMMT 177 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr
Prerequisite: department permission

BMMT 178 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs
Prerequisite: department permission

BMMT 179 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs
Prerequisite: department permission

BMMT 200 - Principles of Career and Technical Education
An introduction to career and technical education. The scope and importance of vocational education. Vocational curriculum development, including standards, unit plans, lesson plans and assessment objectives. Safety, ethical issues and management of vocational programs. Pre-student teaching experience will be initiated in conjunction with this course.

Credit Hours: 3 hrs

**BMMT 201 - Microcomputers for Business Applications**

Computer hardware and software for office use including both mainframe and microcomputer systems. "Hands-on" experience limited to microcomputers. Basic skills in using prepared software and developing programs for office applications using Microsoft BASIC. Requires no prior knowledge of computers or programming.

Credit Hours: 3 hrs

**BMMT 205 - Women in Business**

Social and business conditions that support the entry of women to executive positions in business; career opportunities at the professional and executive levels of business.

Credit Hours: 3 hours
Cross-Listed with: WGST 205
Last Updated: Links 03/2011

**BMMT 220 - Word/Information Processing Operations**

Continued development of editing, proofreading and referencing techniques. Emphasis on advanced functions of word processing software, typography, graphics and other desktop publishing concepts. Advanced document applications including merge and list processing, math operations and importing from other software programs.

Credit Hours: 3 hrs
Prerequisite: BMMT 123 and BMMT 201
Last Updated: Links 03/2011

**BMMT 250 - Personal Finance**

The management of financial resources to satisfy personal or family goals. Budgeting, consumer credit, investments, insurance, real estate, wills and trusts, and income taxes. Students learn to make decisions within the context of a realistic consumer-oriented environment.

Credit Hours: 3 hrs
Notes: Open to all students.

**BMMT 277 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr
Prerequisite: department permission

**BMMT 278 - Special Topics**
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 2 hrs  
**Prerequisite:** department permission

**BMMT 279 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 3 hrs  
**Prerequisite:** department permission

**BMMT 285 - Preprofessional Internship**

One semester of practical, on-the-job work experience and training at select on-campus or off-campus facilities.

**Credit Hours:** 1 hrs  
**Prerequisite:** department permission

**BMMT 286 - Preprofessional Internship**

One semester of practical, on-the-job work experience and training at select on-campus or off-campus facilities.

**Credit Hours:** 2 hrs  
**Prerequisite:** department permission

**BMMT 287 - Preprofessional Internship**

One semester of practical, on-the-job work experience and training at select on-campus or off-campus facilities.

**Credit Hours:** 3 hrs  
**Prerequisite:** department permission

**BMMT 310 - Word/Information Processing Administration**

Techniques to utilize staff and equipment most effectively, record keeping, work flow, evaluating personnel, establishing policies and standards of operation as applied to word processing.

**Credit Hours:** 3 hrs  
**Prerequisite:** IA 210 and BMMT 220  
**Last Updated:** Links 03/2011

**BMMT 321 - Digital Tools: Communication**

Learning and teaching digital tools and systems provide an opportunity to learn new technology input skills in a hands-on setting and methods of teaching are deeply integrated. A portion of the course is to help develop and revise curriculum for classes taught at the high school level in which digitools is incorporated. The class will delve into the national and state standards pertinent to the BMMT program.
Credit Hours: 3 hrs

**BMMT 360 - Methods of Teaching General Business and Office Education**

This course will take the performance-based teacher education (PBTE) approach to instructor/facilitator preparation in which the educator is required to demonstrate essential competencies. Procedures for developing behavioral objectives, selecting appropriate methods and media, lesson planning, and evaluation will be introduced and/or reviewed through formative evaluation and discussion of reading assignments.

Credit Hours: 3 hrs  
Prerequisite: BMMT 200, and admission to the Initial Teacher Preparation Program  
*Last Updated:* New Course 01/2012, effective Winter 2012

**BMMT 363 - Curriculum for Career and Technical Education**

This course is sequenced to take students through the process of curriculum planning and design for a Career and Technical Education Program and is required by the state to receive a vocational endorsement. The process results in both the assembly of a curriculum package and mastery of the process.

Credit Hours: 3 hrs  
Prerequisite: BMMT 200  
Major Restrictions: Admission to the Initial Teacher Preparation Program  
*Last Updated:* Links 03/2011

**BMMT 364 - Methods in Teaching General Business Subjects**

Methods in teaching general business, law and keyboarding with application to classroom situations. Objectives, lesson planning, techniques of teaching, and sources of materials.

Credit Hours: 2 hrs  
Prerequisite: RDNG 311 and EDPS 322; 2.5 GPA in all business education subjects taken at EMU; no academic probation  
Major Restrictions: Admission to the Initial Teacher Preparation Program  
*Last Updated:* Links 03/2011

**BMMT 366 - Methods of Teaching Marketing Education**

Techniques and practices utilized in teaching marketing and cooperative education in secondary schools, community colleges and adult evening schools.

Credit Hours: 2 hrs  
Prerequisite: EDPS 322; 2.5 GPA in all business education subjects taken at EMU; no academic probation  
Major Restrictions: Admission to the Initial Teacher Preparation Program  
*Last Updated:* Links 03/2011

**BMMT 367 - Curriculum in Marketing Education**

Overviews content bases and other factors affecting marketing education curriculum. Includes development of comprehensive curriculum plans for a variety of marketing education settings, utilization of nonclassroom curriculum delivery systems, and implementation of curriculum evaluation and revision procedures. Examines current trends in marketing education curriculum.
**BMMT 368 - Management of Marketing Education Programs**

Examines the marketing educator roles of DECA adviser, public relations specialist, career counselor, program administrator/supervisor and professional educator.

**Credit Hours:** 2 hrs

**BMMT 377 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 1 hrs

**Prerequisite:** department permission

**BMMT 378 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 2 hrs

**Prerequisite:** department permission

**BMMT 379 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 3 hrs

**Prerequisite:** department permission

**BMMT 387 - Co-operative Education**

Graduate students who are completing research (Master’s or Specialist), capstone or internship experiences and have completed all other graduate program course requirements may remain affiliated with the University through Continuous Enrollment. Enrollment enables access to library, health services and other resources.

**Credit Hours:** 3 hrs

**Prerequisite:** department permission

**Notes:** Credit will not apply toward degree completion. Course is offered on a credit/no-credit basis

**BMMT 395 - Administering Workplace Systems and Technology**

Assessment, implementations and utilization of workplace systems and technology from the point of view of the administrative manager. Examination of workplace organization, physical facilities and productivity.

**Credit Hours:** 3 hrs
BMMT 396 - Information and Media Administration

Management methodology in records, control, costs, protection, retention, retrieval and disposal. Records administration as a management tool.

Credit Hours: 3 hrs
Prerequisite: BMMT 201
Last Updated: Links 03/2011

BMMT 461 - Projects and Simulations in Marketing Education

Projects and simulations methods in marketing education are explored with a major focus on the organization and coordination of the school store. Implementation steps for the entrepreneurship simulation are developed. Small scale simulations and projects are also studied as well as procedures for developing simulations and projects.

Credit Hours: 2 hrs

BMMT 477 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr
Prerequisite: department permission

BMMT 478 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs
Prerequisite: department permission

BMMT 479 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs
Prerequisite: department permission

BMMT 487 - Co-operative Education

Graduate students who are completing research (Master’s or Specialist), capstone or internship experiences and have completed all other graduate program course requirements may remain affiliated with the University through Continuous Enrollment. Enrollment enables access to library, health services and other resources.

Credit Hours: 3 hrs
Prerequisite: department permission
Notes: Credit will not apply toward degree completion. Course is offered on a credit/no-credit basis

**BMMT 496 - Records Administration Using Database**

Database as a tool of automated search and retrieval. Identifying information needs of users: design and development of records classification structures suitable for automated records systems; searching techniques; generation of reports such as records user listings, master record listings and records retention schedules. Extensive applications using database software.

Credit Hours: 3 hrs
Prerequisite: BMMT 396
Last Updated: Links 03/2011

**BMMT 497 - Independent Study**

Advanced study on an individual basis in areas in which the department does not offer a formal course.

Credit Hours: 1 hrs
Prerequisite: department permission

**BMMT 498 - Independent Study**

Advanced study on an individual basis in areas in which the department does not offer a formal course.

Credit Hours: 2 hrs
Prerequisite: department permission

**BMMT 499 - Independent Study**

Advanced study on an individual basis in areas in which the department does not offer a formal course.

Credit Hours: 3 hrs
Prerequisite: department permission

**Communication Technology**

**CMT 104 - Introduction to Communication Technology**

An introduction to the field of communication technology. Communication theory and the graphic and telecommunication industries.

Credit Hours: 3 hrs
Lecture/Lab Hours: Lecture: two hours per week.

**CMT 121 - Graphic Communication**

Preparation and design of graphic media. The theory and application of effective communications. Information collection, analysis and dissemination; survey of the graphic communication industry.
**CMT 131 - Introduction to Computer Graphic Systems**

Students are provided with opportunities to work on a variety of vector-based, paint-based and timeline-based software applications including the Adobe Suite of applications. Students will learn terminology for graphics, hardware and software. Students will explore applications of graphics to their own field of study. Lecture and laboratory course.

**Credit Hours:** 3 hrs  
**Major Restrictions:** Course does not count for CAD majors

---

**CMT 177 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 1 hrs  
**Prerequisite:** department permission

---

**CMT 178 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 2 hrs  
**Prerequisite:** department permission

---

**CMT 179 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 3 hrs  
**Prerequisite:** department permission

---

**CMT 204 - Photographic Communication**

Basic functions, principles and applications of photography in graphic communication.

**Credit Hours:** 3 hrs  
**Lecture/Lab Hours:** Lecture: two hours per week. Laboratory: two hours per week.  
**Notes:** Students must furnish their own camera and photo materials.

---

**CMT 205 - Digital Photo-Technology**

A course designed to develop an understanding of pixel-based images and color theory as applied in graphic communication. Students will learn all aspects of pixel based imaging software through hands-on demonstration and laboratory work.

**Credit Hours:** 3 hrs
CMT 277 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hrs
Prerequisite: department permission

CMT 278 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs
Prerequisite: department permission

CMT 279 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs
Prerequisite: department permission

CMT 285 - Preprofessional Internship

One semester of practical, on-the-job work experience and training at select on-campus or off-campus facilities.

Credit Hours: 1 hr
Prerequisite: department permission

CMT 286 - Preprofessional Internship

One semester of practical, on-the-job work experience and training at select on-campus or off-campus facilities.

Credit Hours: 2 hrs
Prerequisite: department permission

CMT 287 - Preprofessional Internship

One semester of practical, on-the-job work experience and training at select on-campus or off-campus facilities.

Credit Hours: 3 hrs
Prerequisite: department permission

CMT 301 - Multimedia Authoring Techniques

Students are provided with opportunities to design and develop multimedia presentations. During this course there will be lecture on the history of multimedia presentation, theories involving multimedia and how to properly script for a variety of multimedia productions. Students are encouraged to work in groups to produce usable multimedia presentations.
CMT 304 - Advanced Photographic Communication

Photographic theory and techniques, with particular emphasis upon commercial and industrial applications.

Credit Hours: 3 hrs
Prerequisite: CMT 131 or CTAT 242
Last Updated: Links 04/2011

CMT 305W - Communication Transmission Systems (Gen Ed Area I, W)

Consideration of source, encoder (transmitter), channel and receiver functions. Principles of line communication, a study of various systems and future developments in communication transmission systems.

Credit Hours: 3 hrs
Notes: The student must furnish a camera and photo materials.
Last Updated: Links 04/2011

CMT 318 - Graphic Arts Workshop

Selected topics in the field of graphic arts technology, such as composition, press work, screen process and advanced photomechanics.

Credit Hours: 3 hrs

CMT 336 - Electronic Publishing Technology

The application of electronic design and layout principles to publication and presentation documents. Develop skills in graphics, type, file creation and manipulation, word processing interface, and output of paginated, camera-ready copy through several software packages.

Credit Hours: 3 hrs
Notes: This course was previously listed as an undergraduate course available to graduate students for graduate credit; the course is no longer available for graduate credit.
Previously Listed As: CMT 436
Last Updated: Course Number Change 02/2012, effective Fall 2012; Graduate Credit 07/2011

CMT 377 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hrs
Prerequisite: department permission

CMT 378 - Special Topics
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 2 hrs  
**Prerequisite:** department permission

### CMT 379 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 3 hrs  
**Prerequisite:** department permission

### CMT 387 - Co-operative Education

Graduate students who are completing research (Master’s or Specialist), capstone or internship experiences and have completed all other graduate program course requirements may remain affiliated with the University through Continuous Enrollment. Enrollment enables access to library, health services and other resources.

**Credit Hours:** 3 hrs  
**Prerequisite:** department permission  
**Notes:** Credit will not apply toward degree completion. Course is offered on a credit/no-credit basis

### CMT 404 - Photo Communication Workshop

Selected topics in photo communications, such as commercial and industrial photography, photo journalism, sensitometry and photography, and photo processing. The class schedule describes the specific topic being offered during a given semester.

**Credit Hours:** 3 hrs  
**Prerequisite:** CMT 304  
**Graduate Credit:** This is an undergraduate course available to graduate students for graduate credit.  
**Last Updated:** Graduate Credit 07/2011; Links 04/2011

### CMT 408 - Telephone Technology

This class will cover an introduction to telecommunications theory and practice. The course content will include both traditional private branch exchanges (PBX’s) and voice over Internet protocol (VoIP) systems. The administration of these systems, their configuration and the testing of the hardware and software components will be covered. Lecture/lab course.

**Credit Hours:** 3 hrs  
**Prerequisite:** CMT 305W  
**Last Updated:** Links 04/2011

### CMT 409 - Emerging Technologies in Storage and Retrieval

Conventional as well as emerging technologies of information storage and retrieval. Lecture and laboratory.

**Credit Hours:** 3 hrs  
**Graduate Credit:** This is an undergraduate course available to graduate students for graduate credit.  
**Last Updated:** Graduate Credit 07/2011
CMT 421 - Web Publishing Technology

An introduction to HTML coding, web page design, web page editors, graphics, sound files and multimedia. Also included will be an introduction to online services, servers and ongoing maintenance of the web site.

Credit Hours: 3 hrs
Prerequisite: CMT 121/CMT 205
Major Restrictions: Not available to students in Extended Programs and Educational Outreach
Last Updated: Links 04/2011

CMT 425 - Communication Technology and Social Change

The social implications of recent and future developments in communication technology. The effects upon education, research and scientific knowledge, business and entertainment.

Credit Hours: 3 hrs
Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.
Last Updated: Graduate Credit 07/2011

CMT 427 - Digital Imaging and Reproduction

Study and laboratory work in scanning, measuring and reproducing graphic images as applied to offset presswork and other forms of digital reproduction which includes the preparation and proofing of files for color separation and electronic transfer.

Credit Hours: 3 hrs
Prerequisite: CMT 336
Previously Listed As: CMT 207
Last Updated: Course Number Change 02/2012, effective Fall 2012; Links 04/2011

CMT 470 - Senior Seminar in Communication Technology

Guest speakers and/or site visitations will be used to illustrate the application of new communication technologies common to business, industrial or governmental environments.

Credit Hours: 2 hrs

CMT 477 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr
Prerequisite: department permission
Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.
Last Updated: Graduate Credit 07/2011

CMT 478 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.
CMT 479 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs
Prerequisite: department permission
Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.
Last Updated: Graduate Credit 07/2011

CMT 487 - Co-operative Education

Graduate students who are completing research (Master’s or Specialist), capstone or internship experiences and have completed all other graduate program course requirements may remain affiliated with the University through Continuous Enrollment. Enrollment enables access to library, health services and other resources. Credit will not apply toward degree completion.

Credit Hours: 3 hrs
Prerequisite: department permission
Notes: Course is offered on a credit/no-credit basis.

CMT 497 - Independent Study

Advanced study on an individual basis in areas in which the department does not offer a formal course.

Credit Hours: 1 hrs
Prerequisite: department permission

CMT 498 - Independent Study

Advanced study on an individual basis in areas in which the department does not offer a formal course.

Credit Hours: 2 hrs
Prerequisite: department permission

CMT 499 - Independent Study

Advanced study on an individual basis in areas in which the department does not offer a formal course.

Credit Hours: 3 hrs
Prerequisite: department permission

Homeland Security and Emergency Management

HSEM 255 - Emergency Preparedness Planning
An introduction to emergency planning, including assessment of community hazards and resources, for students responsible for civil defense or emergency-preparedness tasks. Provides a planning and analytical framework, hazard/vulnerability analysis, that can be applied to the local comprehensive emergency-management context.

Credit Hours: 3 hrs  
Last Updated: Course type 07/2011

HSEM 306 - Issues in Emergency Preparedness

This course is designed for emergency managers to explore strategies in management and organizational development for improving skills and understanding of an effective emergency management organization. It is comprised of five key areas: legal issues, strategic management, executive skills, service quality in the public sector, and stress management.

Credit Hours: 3 hrs  
Prerequisite: HSEM 255 or department permission  
Last Updated: Links 04/2011

HSEM 309 - Natural Hazard Mitigation

The purpose of natural hazard mitigation is to introduce the concepts and skills of hazard mitigation and recovery planning, vulnerability risk analysis and implementation of a community-wide program, and to relate natural hazard mitigation processes to disaster planning.

Credit Hours: 3 hrs  
Prerequisite: HSEM 255 or department permission  
Last Updated: Links 04/2011

HSEM 380 - Planning and Decision-Making for Public Safety

Planning and decision-making is central to the command officer's role. This course provides the foundation for the planning and decisions that must be made relevant to every aspect of administering an agency. The KSA's acquired will assist the student as they approach the topics in human resource management, administration of the agency and homeland security.

Credit Hours: 3 hrs  
Last Updated: Course type 07/2011

HSEM 381 - Public Relations and Public Safety

An examination of the relationship between public safety agencies and the larger community, with particular emphasis on administrative and policy dimensions; the role of public safety agencies, the community's involvement in establishing that role, police-community relations programs, relationships with the media and professionalization and accreditation movements in public safety agencies are addressed.

Credit Hours: 3 hrs  
Last Updated: Course type 07/2011

HSEM 412 - Administration of Public Safety Agencies

This course addresses the management and administrative duties associated with administering a public safety agency. Topics include community relations, budgeting, employee wellness, line of duty deaths, labor law and legal issues, consolidation of services and negotiation of labor contracts are addressed from a management perspective.
HSEM 433 - Arson Investigation

An examination of the nature and causes of suspicious and incendiary fires, their detection and investigation; involves classroom lecture and field training. Students will conduct fire scene investigations, collect evidence, document findings, and participate in a mock trial. Assumes no previous experience in fire investigation. Students must provide their own 35mm camera, safety shoes, gloves and hard hat.

Credit Hours: 3 hrs
Prerequisite: (CHEM 117 and CHEM 118) or PHY 221
Previously Listed As: SSC 433
Last Updated: Links 04/2011

HSEM 434 - Hazardous Materials

An examination of hazardous material incidents from the perspective of the public safety officer/manager charged with protecting people and property; identifying hazardous materials, assessing hazardous material accidents, planning and tactics for addressing hazardous material problems.

Credit Hours: 3 hrs
Prerequisite: (CHEM 117 and CHEM 118) or PHY 221
Last Updated: Links 04/2011

HSEM 435 - Incident Command

The study of complex fire situations, including analysis of prefire planning, establishing and managing the command post, and effective management of complex fireground operations. Emphasizes the study of multiple company response and the efficient utilization of available and prospective resources in handling major fires.

Credit Hours: 3 hrs
Prerequisite: PLSC 450 or department permission
Last Updated: Links 04/2011

HSEM 438 - Human Resource Management for Public Safety Agencies

Human Resource Management includes the process of recruiting, assessing, selecting, and promotion of employees. This course examines the staffing process and provides participants with tactics to ensure the highest qualified candidate is selected and managed. The course addresses employment law, Assessment Centers, as well as traditional interviewing and testing.

Credit Hours: 3 hrs
Prerequisite: PLSC 334 or department permission
Last Updated: Links 04/2011

HSEM 439 - Managing Critical Incidents for Homeland Security

This course applies current Homeland Security Policies in budgeting and management. The student will also apply critical decision making in crisis situations. A table top exercise will provide a capstone experience for application of concepts taught.
HSEM 452 - Current Trends in Emergency Management

This course was designed to provide students with the knowledge of emergency management and the philosophy of emergency planning for community, business and industry. Students will develop a management perspective on issues, concerns and constraints effective to emergencies that responders must think about today.

Credit Hours: 3 hrs
Prerequisite: HSEM 255
Last Updated: Links 04/2011

HSEM 453 - Management/Leadership for Public Safety

This course addresses the various styles of leadership theories and an analysis of public safety management elements, including planning, organizing, leading, controlling and communicating. Presented in the context of, and applied to internal police/fire/emergency management administration.

Credit Hours: 3 hrs
Prerequisite: HSEM 380
Notes: Equivalent to PLSC450
Last Updated: Links 04/2011

HSEM 454 - Managing Technology for Public Safety Agencies

This course applies IT function and electronic research into accomplishing organizational objectives in a Public Safety Agency. The student will distinguish between reliable and questionable sources of information. Managing and controlling of the IT function.

Credit Hours: 3 hrs
Prerequisite: HSEM 453
Notes: Equivalent to PLSC 451
Last Updated: Links 04/2011

HSEM 475 - Managing Correctional Agencies and Facilities

A study of administrative practices in correctional agencies and facilities, including attention to organization structure, management problems, financing, rights of offenders, intervention strategies and community-based programs.

Credit Hours: 3 hrs
Prerequisite: PLSC 450 or department permission
Last Updated: Links 04/2011

Hotel and Restaurant Management

HRM 103 - Introduction to the Hospitality Industry

This is a course designed to expose the hospitality undergraduate to the food service and lodging industries. It covers an introduction to the various segments of the food service industry and lodging industry. Career choices in food service and lodging
industries will also be discussed.

**HRM 150 - Sanitation in the Hospitality Industry**

Management of basic sanitation in food-service and lodging facilities. Meets specifications required for National Institute for the Food Service Industry certification.

Credit Hours: 3 hrs  
Terms Offered: Course Rotation Schedules  
Last Updated: Link 5/2012

**HRM 177 - Special Topics**

An experimental course designed to investigate specific topics of concern in specialization areas.

Credit Hours: 1 hr  
Prerequisite: department permission

**HRM 178 - Special Topics**

An experimental course designed to investigate specific topics of concern in specialization areas.

Credit Hours: 2 hrs  
Prerequisite: department permission

**HRM 179 - Special Topics**

An experimental course designed to investigate specific topics of concern in specialization areas.

Credit Hours: 3 hrs  
Prerequisite: department permission

**HRM 180 - Food Production**

Study of kitchen sanitation and safety, food preparation and storage. Includes menu design based on customer needs and preparation of final buffet.

Credit Hours: 3 hrs  
Prerequisite: HRM 150  
Major Restrictions: Admission to the Hotel and Restaurant Management Program  
Terms Offered: Course Rotation Schedules  
Last Updated: Link 5/2012; Links 04/2011

**HRM 251 - Meal Service Management**

Theories, principles and skills for food and beverage service in institutional, commercial and resort properties. Supervisory techniques and training styles effective for food service.
HRM 268 - Hotel Operations Management

This course provides a systematic approach to hotel operations including front office and housekeeping operations. Topics covered include reservation processes, revenue management, customer relations and an overview of housekeeping management.

HRM 270 - People Skills for the Hospitality Industry

Applied approach to encourage the improvement of human relation skills. Addresses personal and professional skills in human relations and encourages the improvement of human interactions. Focused on efforts to enhance the quality of interactions between the service provider and customer/client.

HRM 277 - Special Topics

An experimental course designed to investigate specific topics of concern in specialization areas.

HRM 278 - Special Topics

An experimental course designed to investigate specific topics of concern in specialization areas.

HRM 279 - Special Topics

An experimental course designed to investigate specific topics of concern in specialization areas.

HRM 287 - Cooperative Education in Hotel and Restaurant Management

Employment in an appropriate setting, chosen to provide supervised practical experience. Credit hours determined by program area and academic advise.
Credit Hours: 1 hr  
Prerequisite: approval of the Cooperative Education Office and department permission  
Notes: Offered on credit/no-credit basis only

HRM 288 - Cooperative Education in Hotel and Restaurant Management

Employment in an appropriate setting, chosen to provide supervised practical experience. Credit hours determined by program area and academic adviser.

Credit Hours: 2 hrs  
Prerequisite: approval of the Cooperative Education Office and department permission  
Notes: Offered on credit/no-credit basis only.

HRM 289 - Cooperative Education in Hotel and Restaurant Management

Employment in an appropriate setting, chosen to provide supervised practical experience. Credit hours determined by program area and academic adviser.

Credit Hours: 3 hrs  
Prerequisite: approval of the Cooperative Education Office and department permission  
Notes: Offered on credit/no-credit basis only.

HRM 330 - Hotel and Restaurant Management

This course explores the issues related to managing hotels and restaurants using computer technology. Principles of networking, security, and databases provide the basis for understanding how computer technology is used to make reservations, manage inventory, process food orders, manage facilities and market over the Internet.

Credit Hours: 3 hrs  
Prerequisite: STS 201 or BMMT 201 or instructor permission  
Class Restrictions: Junior standing  
Terms Offered: Course Rotation Schedules  
Last Updated: Link 5/2012; Prerequisite Clarification 03/2012; Links 04/2011

HRM 340 - Cost Controls in the Hospitality Industry

Techniques used by hospitality managers to control food, equipment, labor and operating costs. Purchasing, labor and pilferage controls and fiscal management.

Credit Hours: 3 hrs  
Prerequisite: MATH 110 or higher  
Terms Offered: Course Rotation Schedules  
Last Updated: Link 5/2012; Links 04/2011

HRM 350 - Lodging Facilities Management

Organization and management of operational departments and functional areas involved in the operation of various types of lodging properties. Planning and control systems, especially physical, mechanical, engineering and electrical systems.

Credit Hours: 3 hrs
HRM 360 - Franchising and Contract Management

This course covers franchise operations from franchisor and owner/operator perspectives regarding product/service offering, contract options and evaluation of relationship requirements. In addition, responsibilities and advantages of contract management in food-service and lodging establishments will be discussed.

Credit Hours: 3 hrs

HRM 376 - Legal Aspects of the Hospitality Industry

An introduction to the rights and responsibilities that the law grants to or imposes upon hospitality managers is covered in this class. In addition, illustrations of possible consequences of failure to comply with legal obligations are covered.

Credit Hours: 3 hrs
Prerequisite: three courses in major

HRM 377 - Special Topics

An experimental course designed to investigate specific topics of concern in specialization areas.

Credit Hours: 1 hr
Prerequisite: department permission

HRM 378 - Special Topics

An experimental course designed to investigate specific topics of concern in specialization areas.

Credit Hours: 2 hrs
Prerequisite: department permission

HRM 379 - Special Topics

An experimental course designed to investigate specific topics of concern in specialization areas.

Credit Hours: 3 hrs
Prerequisite: department permission

HRM 387 - Cooperative Education in Hotel and Restaurant Management

Employment in an appropriate setting, chosen to provide supervised practical experience. Credit hours determined by program area and academic adviser.

Credit Hours: 1 hr
Prerequisite: approval of the Cooperative Education Office and department permission
Notes: Offered on credit/no-credit basis only.

HRM 388 - Cooperative Education in Hotel and Restaurant Management

Employment in an appropriate setting, chosen to provide supervised practical experience. Credit hours determined by program area and academic adviser.

Credit Hours: 2 hrs
Prerequisite: approval of the Cooperative Education Office and department permission
Notes: Offered on credit/no-credit basis only.

HRM 389 - Cooperative Education in Hotel and Restaurant Management

Employment in an appropriate setting, chosen to provide supervised practical experience. Credit hours determined by program area and academic adviser.

Credit Hours: 3 hrs
Prerequisite: approval of the Cooperative Education Office and department permission
Notes: Offered on credit/no-credit basis only.

HRM 396 - Club and Resort Management

Examination of historical background and development of clubs and administrative procedures typically practiced. Discussion of goals and objectives of clubs, governance structures, buildings and facilities operations plus programming components including food and beverages operations, golf, tennis and pool management. Accounting and finance issues of clubs and marketing strategies are studied.

Credit Hours: 3 hrs
Prerequisite: three courses in major
Terms Offered: Course Rotation Schedules
Last Updated: Link 5/2012

HRM 410 - Human Resource Issues in the Hospitality Industry

Hotel and restaurant industry issues related to the administration of personnel with emphasis on strategies for successful recruitment, employment and retention of employees, particularly teenaged, senior, immigrant and disabled candidates. Includes worker-environment fit, motivation of minimum-wage employees and general legal issues relevant to personnel laws in this industry.

Credit Hours: 3 hrs
Prerequisite: MGMT 384
Terms Offered: Course Rotation Schedules
Last Updated: Link 5/2012; Links 04/2011

HRM 420 - Quality Service Management

This course is designed to explore, challenge and define the principles of guest service management in any hospitality organization. Topics include characteristics and attributes of service, analysis of service gaps and development of service strategies to address these gaps and develop service recovery procedures.
HRM 430 - Seminar in Hospitality Management

Current topics in hospitality management will be covered along with professional development topics related to finding and obtaining a position upon graduation. The development and implementation of a professional or community project will be included in the course.

Credit Hours: 3 hrs  
Prerequisite: HRM 289 and HRM 268  
Terms Offered: Course Rotation Schedules  
Last Updated: Link 5/2012; Links 04/2011

HRM 441 - Commercial Purchasing

Study of principles and techniques applicable to purchasing with emphasis on selection and specification requirements for food, supplies, equipment and contract services.

Credit Hours: 3 hrs  
Corequisites: HRM 180 and HRM 340  
Terms Offered: Course Rotation Schedules  
Last Updated: Link 5/2012; Links 04/2011

HRM 450 - Meetings and Events Management

Overview of meeting planning, and events management with emphasis on defining the management of events. Discussion of components of various types of events, negotiating contracts, facilities, costing, support services and legal issues will be covered. Students will be required to assist with several events planned during the semester.

Credit Hours: 3 hrs  
Prerequisite: HRM 180 and HRM 251  
Class Restrictions: Senior standing  
Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.  
Terms Offered: Course Rotation Schedules  
Last Updated: Link 5/2012; Graduate Credit 07/2011; Links 04/2011

HRM 460 - Advanced Foodservice Management

Evaluation of recent trends in the foodservice management including systems, food and equipment innovations and operational issues will be covered. Students will have the opportunity to apply knowledge and skills gained through previous courses and work experiences in a foodservice operations project.

Credit Hours: 3 hrs  
Prerequisite: HRM 251  
Major Restrictions: Hotel and Restaurant Majors and Minors only  
Terms Offered: Course Rotation Schedules  
Last Updated: Link 5/2012; Links 04/2011
HRM 465 - Advance Topics in Hospitality Management

This course is designed to acquaint the student with the major trends and other current issues of concern to the hospitality management professional. Issues pertaining to the identification and analysis of events, trends and forces arising from the external environment will be explored, integrated and applied to the hospitality context.

Credit Hours: 3 hrs  
Prerequisite: HRM 268  
Major Restrictions: Hotel and Restaurant Majors and Minors only  
Last Updated: Links 04/2011

HRM 470 - Hospitality Industry Marketing

This course covers basic knowledge for developing, implementing and evaluating strategic marketing plans for hospitality properties. Principles of service marketing are covered as they apply to the hospitality industry.

Credit Hours: 3 hrs  
Terms Offered: Course Rotation Schedules  
Last Updated: Link 5/2012

HRM 475 - International Hospitality Management

This course is focused on providing a better understanding and deeper appreciation of management and marketing applications within a globalized context. The course presents a systematic approach to preparing students for leadership roles in tomorrow's worldwide lodging industry.

Credit Hours: 3 hrs  
Prerequisite: HRM 470  
Terms Offered: Course Rotation Schedules  
Last Updated: Link 5/2012; Links 04/2011

HRM 477 - Special Topics

An experimental course designed to investigate specific topics of concern in specialization areas.

Credit Hours: 1 hr  
Prerequisite: department permission

HRM 478 - Special Topics

An experimental course designed to investigate specific topics of concern in specialization areas.

Credit Hours: 2 hrs  
Prerequisite: department permission

HRM 479 - Special Topics

An experimental course designed to investigate specific topics of concern in specialization areas.

Credit Hours: 3 hrs  
Prerequisite: department permission
HRM 480 - Gaming and Casino Management

This course provides an overview of gaming and casino operations and management. Topics include gaming trends in the United States and the world, casino hotel organizational structure, government regulations and casino games. Also covered are the practices and concerns associated with casino management including staffing, controls, security, marketing and entertainment.

Credit Hours: 3 hrs
Terms Offered: Course Rotation Schedules
Last Updated: Link 5/2012

HRM 485 - Beverage Management

This course introduces responsible beverage operations in a hospitality operation. Topics include history, service, procurement, storage, and control. Beverages discussed are: sparkling waters, coffees, teas, wine, and fermented and distilled beverages. Management topics will include operations, trend identification, basic production methods, costing and pricing, and inventory methods. Students must be over 21 years old.

Credit Hours: 3 hrs
Prerequisite: HRM 103 and HRM 251
Class Restrictions: Junior standing or higher
Terms Offered: Course Rotation Schedules
Last Updated: Link 5/2012; New Course 09/2011, effective Winter 2012

HRM 496 - Strategies in Hospitality Management

Strategies for assessing, planning, implementation, evaluation and training in hospitality operations will be addressed.

Credit Hours: 3 hrs
Prerequisite: HRM 410 and HRM 470
Class Restrictions: Senior standing
Major Restrictions: Hospitality Management Majors only
Last Updated: Link 5/2012; Links 04/2011

HRM 497 - Independent Study

Advanced study on an individual basis in areas in which the department does not offer a formal course.

Credit Hours: 1 hr
Prerequisite: department permission

HRM 498 - Independent Study

Advanced study on an individual basis in areas in which the department does not offer a formal course.

Credit Hours: 2 hrs
Prerequisite: department permission

HRM 499 - Independent Study

Advanced study on an individual basis in areas in which the department does not offer a formal course.
Industrial Distribution

ID 140 - Introduction to Wholesale Distribution

This course is an introduction to wholesale distribution. Students will explore the history and theory of wholesaling and its impact on today’s economy. Through lectures, discussions, presentations by industry experts and field experiences, students will examine the various industries and supply channels and will develop an understanding of wholesale distribution.

Credit Hours: 3 hrs
Prerequisite: department permission

ID 177 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr
Prerequisite: department permission

ID 178 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs
Prerequisite: department permission

ID 179 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs
Prerequisite: department permission

ID 240 - Profit Strategies in Distribution

Explanation of the terms related to profits and markup, calculation of profit, discounts, markups, identification and interpretation of profitability ratios, and the distribution of financial resources.

Credit Hours: 3 hrs

ID 277 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.
Credit Hours: 1 hr
Prerequisite: department permission

ID 278 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs
Prerequisite: department permission

ID 279 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs
Prerequisite: department permission

ID 285 - Pre-Professional Internship

One semester of practical, on-the-job work experience and training at select on-campus or off-campus facilities.

Credit Hours: 1 hr
Prerequisite: department permission

ID 286 - Pre-Professional Internship

One semester of practical, on-the-job work experience and training at select on-campus or off-campus facilities.

Credit Hours: 2 hrs
Prerequisite: department permission

ID 287 - Pre-Professional Internship

One semester of practical, on-the-job work experience and training at select on-campus or off-campus facilities.

Credit Hours: 3 hrs
Prerequisite: department permission

ID 340 - Relationships in Wholesaling

Analysis of major industries and professional trade associations, and their interaction within the marketing channel. Emphasis will be placed on the relationship between trade associations and industry, elements of the marketing channel (manufacturer, distributor, customer and the employer and employee).

Credit Hours: 3 hrs

ID 345 - Marketing in Wholesale Distribution
The course focuses on strategies, processes, and techniques used to elicit industrial sales and develop markets by distributors. Students will examine the tools various "key" industry leaders use to penetrate the industrial market. Through case study and field experience, the students will be able to problem solve and provide cost-effective solutions to industry concerns.

Credit Hours: 3 hrs

**ID 346 - Industrial Climate**

Focus will be on various "key" industries that makeup the wholesale market. Manufacturing and the tiered supply base, HVAC, electrical, electronic, abrasives and cutting tools, fluid power, fasteners, safety and security equipment, paper, sporting goods, clothing etc. will be areas of concentration with emphasis on the role distributors play in the process.

Credit Hours: 3 hrs

**ID 377 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr
Prerequisite: department permission

**ID 378 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs
Prerequisite: department permission

**ID 379 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs
Prerequisite: department permission

**ID 387 - Co-operative Education**

Credit Hours: 3 hrs

**ID 391 - Wholesale Account Development**

An in-depth study into the processes and techniques involved in acquiring and developing industrial accounts from the distributor’s and the manufacturer’s point of view. The course will develop practical and effectual skills in the area of advanced industrial wholesale account development. Guest lectures by manufacturers’ representatives and from purchasing agents will augment the course.

Credit Hours: 3 hrs
ID 440 - Inventory Strategies in Distribution

An examination of the wholesale inventory management problem. The interrelationship between physical inventory, profitability and customer service will be explored.

Credit Hours: 3 hrs

ID 444 - Quality Planning in Distribution

Wholesale distributors are moving toward a total commitment to the philosophy of continuous improvement with zero errors as their ultimate goal. The course explores the quality assurance movement as it applies to wholesalers.

Credit Hours: 3 hrs

ID 448 - Best Practices in Wholesale Distribution

Wholesale policies used to support supply integration from the manufacturers to the end users will be examined. The balance of power between the manufacturers and distributors has changed significantly. This course will examine those changes and the effect they are having in today’s economy through an analysis of sound principles/policies that are utilized by industry leaders.

Credit Hours: 3 hrs

ID 477 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr
Prerequisite: department permission

ID 478 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs
Prerequisite: department permission

ID 479 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs
Prerequisite: department permission

ID 487 - Co-operative Education

Credit Hours: 3 hrs
ID 497 - Independent Study

Advanced study on an individual basis in areas in which the department does not offer a formal course.

**Credit Hours:** 1 hr  
**Prerequisite:** department permission

ID 498 - Independent Study

Advanced study on an individual basis in areas in which the department does not offer a formal course.

**Credit Hours:** 2 hrs  
**Prerequisite:** department permission

ID 499 - Independent Study

Advanced study on an individual basis in areas in which the department does not offer a formal course.

**Credit Hours:** 3 hrs  
**Prerequisite:** department permission

**Information Assurance**

**IA 103 - Information Security Overview**

A study of security in both the voice and data networks and an examination of the security issues associated with the movement toward a convergence of the two infrastructures. Topics include voice and data network connectivity, modem security, VOIP security, wireless security, cryptography, intrusion detection systems, voice and data firewalls, malicious software, information operations and warfare, and denial of service attacks.

**Credit Hours:** 3 hrs  
**Last Updated:** 2/10/2011

**IA 177 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 1hr  
**Prerequisite:** department permission  
**Last Updated:** 2/10/2011

**IA 178 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 2hrs  
**Prerequisite:** department permission  
**Last Updated:** 2/10/2011
**IA 179 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 3hrs  
**Prerequisite:** department permission  
**Last Updated:** 2/10/2011

**IA 202L - Risk-Vulnerability Analysis (Gen Ed Area V LBC)**

Tools, techniques, and methodologies in performing computer system and network security vulnerability-risk analyses. "Security best practices" and audit requirements for specific environments will be studied. Topics to be covered include internal and external penetration tests, wireless security technology, risk and analysis methodology, and security audits.

**Credit Hours:** 3 hrs  
This course has been approved as a General Education Program "Learning Beyond the Classroom, Group 4: Career and Professional Development" course.

This course will assist students in their career preparation as information system security managers. Upon successful completion of this course, students should be able to:

- demonstrate risk management and risk analysis  
- demonstrate vulnerability assessment techniques  
- demonstrate threat analysis techniques  
- plan vulnerability assessment, threat assessment, and risk analysis projects  
- apply risk management principles throughout the software and systems development life cycles to include continuity  
- demonstrate incident handling, continuity, and disaster recovery techniques  
- define network security assessment and accreditation techniques

**Last Updated:** 2/10/2011

**IA 210 - Concepts of Network and Business Technology**

The concepts and functions of networks and related business technology. The course emphasizes administration client/server and peer-to-peer networks. The course includes equipment, procedures and career opportunities.

**Credit Hours:** 3 hrs  
**Previously Listed As:** NITA 210  
**Last Updated:** Prerequisite Change 02/2012, effective Fall 2012; Links 04/2011
IA 212 - Open Systems Platform and Network Administration

Introduction to open source client/server networking, careers and basic information security and assurance concepts. Focusing on Linux as a platform and server operating system, students learn through theory and applied work. Topics included are: file and hardware management, user account management, TCP/IP protocols and installation of the Linux client and server. Students build and administer a basic network.

Credit Hours: 3 hrs
Previously Listed As: NITA 212
Last Updated: 2/10/2011

IA 213 - Privacy and Technology

This course prepares students to recognize, analyze, and manage privacy challenges created by technology. Both business and self regulatory efforts will be reviewed.

Credit Hours: 3 hrs
Last Updated: 2/10/2011

IA 215 - System Support and Troubleshooting

IA215 maps fully to CompTIA's A+ Exam objectives. This course is focused on learning the fundamentals of supporting and troubleshooting computer hardware. At the same time, it prepares students to successfully pass the A+ 220-701 and 220-702 exams. Students will be instructed via theory and practical pedagogy in the world of PC hardware support.

Credit Hours: 3 hrs
Last Updated: 2/10/2011

IA 240 - Intelligence Analysis I

An introductory intelligence analysis course designed to prepare intelligence products, hypothesis, along with collection and dissemination planning. Students will explore historical, legal, and ethical basis for intelligence collection, retention and of the analytical product.

Credit Hours: 3 hrs
Previously Listed As: IA 440 - Intelligence Analyst I
Last Updated: Course Number and Prerequisite Change 02/2012, effective Fall 2012

IA 277 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1hr
Prerequisite: department permission
Last Updated: 2/10/2011

IA 278 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.
IA 279 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

IA 285 - Pre-Professional Internship

One semester of practical, on-the-job work experience and training at select on-campus or off-campus facilities.

IA 286 - Pre-Professional Internship

One semester of practical, on-the-job work experience and training at select on-campus or off-campus facilities.

IA 287 - Pre-Professional Internship

One semester of practical, on-the-job work experience and training at select on-campus or off-campus facilities.

IA 329 - Policy Development in Information Assurance

This course serves the essential aspects for developing sound information security policy. Organizational objectives, threats, risk mitigation and cost-benefit analysis will be explored. The student will utilize industry accepted methodologies to create practical security policy that will communicate the organization’s asset protection objectives.

IA 343 - Intelligence Analysis II
The second course in the Intelligence Analysis Series that uses technical software in the analysis of data. Material presented through analysis software, oral and written presentations and case analysis. The student will be required to understand the relationship between demographics, technology and the impacts on critical infrastructures within the assigned areas of research.

**Credit Hours:** 3 hrs  
**Prerequisite:** IA 240  
**Class Restrictions:** Sophomore standing or higher  
**Last Updated:** New Course 02/2012, effective Fall 2012

**IA 344 - Administration of Computer Systems**

Principles and practices of computer operating systems for networks in educational or small to mid-sized organizations. The course will emphasize the tasks the administrator must perform frequently.

**Credit Hours:** 3 hrs  
**Prerequisite:** IA 210  
**Class Restrictions:** Sophomore, Junior or Senior standing  
**Previously Listed As:** NITA 344  
**Last Updated:** 2/10/2011

**IA 350 - Network Connectivity**

This course is focused on managing CISCO switches in practical environments. It prepares students for a portion of the Cisco Certified Network Associate (CCNA) certification examination. It provides students with knowledge and skills necessary to install, configure, update, and troubleshoot switched LANs and VLANs.

**Credit Hours:** 3 hrs  
**Last Updated:** 2/10/2011

**IA 354 - Multi-Level Networking**

This course will focus on the connectivity required to build two- to n-tiered networks. Students will configure and administer routers utilizing CISCO IOS. Security concepts for LAN and WAN environments are discussed. This course builds on prerequisite knowledge of the TCP/IP protocol suite, networking, and WAN/LAN topology concepts.

**Credit Hours:** 3 hrs  
**Class Restrictions:** Junior or Senior standing  
**Major Restrictions:** Admitted to the Network Security/Administration Concentration program  
**Previously Listed As:** NITA354  
**Last Updated:** 2/10/2011

**IA 364 - Advanced Windows Security**

This course will focus on the technology, methodology and implementation issues of network based application. Special network services include electronic mail, Web/Application, proxy, storage, and collaboration services. Security issues related to the technology are discussed. This course contains a lab component in which students assemble server technology discussed in lecture.

**Credit Hours:** 3 hrs  
**Prerequisite:** IA 344  
**Major Restrictions:** Admitted to the Information Assurance program
IA 377 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr
Prerequisite: department permission
Last Updated: 2/10/2011

IA 378 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs
Prerequisite: department permission
Last Updated: 2/10/2011

IA 379 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs
Prerequisite: IA 344
Previously Listed As: NITA 379
Last Updated: 2/10/2011

IA 387 - Cooperative Education

Credit Hours: 3 hrs
Previously Listed As: NITA387
Last Updated: 2/10/2011

IA 400 - Malware Analysis and Reverse Engineering

This course adopts a practical approach in detecting, analyzing, reverse engineering, and eradicating malicious software (or malware). It uses a standard methodology, which includes setting up an inexpensive laboratory and utilizing a selected set of forensic tools to dissect a malware, discover its characteristics, and neutralize its effects.

Credit Hours: 3 hrs
Prerequisite: COSC 146 and COSC 205
Class Restrictions: Sophomore standing or higher
Last Updated: New Course 02/2012, effective Fall 2012

IA 412 - Linux Security Administration
Students in this course build complex Linux-based networks, implement selected special servers in the network and test various configurations for performance and security. Students identify the vulnerabilities of a complex network, apply security controls and troubleshoot problems in complex networks. Ethical, legal, professional conduct and security policy are discussed in this course.

**Credit Hours:** 3 hrs  
**Prerequisite:** IA 212  
**Previously Listed As:** NITA 412  
**Last Updated:** 2/10/2011

### IA 415 - Introduction to Research in Information Assurance

An introduction to the conduct of studies in information and network assurance and security, including the reading of published research studies, selected approaches used for research, and formulation of researchable questions. Students will prepare a proposal for the study to be completed in IA 416.

**Credit Hours:** 3 hrs  
**Prerequisite:** STS 300W, all IA foundation courses and at least 15 hours in concentration  
**Last Updated:** 2/10/2011

### IA 416 - Applied Research Project

Students will conduct and write results of the research study proposed in IA 415, Foundations of Information Assurance Research. This includes modifying any aspects of the methods of the study that may be necessary. The final results will be prepared and presented according to guidelines of an appropriate style manual.

**Credit Hours:** 3 hrs  
**Prerequisite:** IA 415  
**Last Updated:** 2/10/2011

### IA 422 - Networks: Planning and Design

The course focuses on planning and designing networks systems that deliver information services and resources. Emphasis is on end-user needs assessment, alternative system designs, security planning, support issues, and training and development. Students will develop a proposal for a new or revised end-user system that reflects the principles covered in the course.

**Credit Hours:** 3 hrs  
**Prerequisite:** IA 344  
**Previously Listed As:** NITA 422  
**Last Updated:** 2/10/2011

### IA 425 - Cyber Crime Investigation I

This course is part one of a two sequence course of study. It is designed to prepare students to become effective cyber crime investigators. The course examines the basic steps required in hardware identification, TCP-IP, rules of electronic evidence, DOS, network investigation, case management and intrusion detection.

**Credit Hours:** 3 hrs  
**Class Restrictions:** Sophomore standing  
**Previously Listed As:** IA325  
**Last Updated:** 2/10/2011
IA 426 - Cyber Crime Investigation II

Intensive hands on investigation of computer related crime designed for the professional electronic crime investigator. The course will focus on Internet crimes, fraud investigation, malicious logic, encryption and intrusion detection involving hacking networks and software. This is the second part of two semester course offering.

- Credit Hours: 3 hrs
- Prerequisite: IA 425
- Previously Listed As: IA 326
- Last Updated: 2/10/2011

IA 427 - Digital Forensics I

This course addresses the comprehension and application of Digital Forensic Investigations. Students will evaluate and synthesize technical and legal issues in relation to digital evidence. Students will apply various skills and techniques, combined with numerous investigative software tools to analyze seized electronic media. Students subject to background investigation prior to admittance.

- Credit Hours: 3 hrs
- Prerequisite: IA 210
- Class Restrictions: Sophomore standing
- Previously Listed As: IA 327
- Last Updated: 2/10/2011

IA 428 - Digital Forensics II

This advanced course addresses the comprehension and application of Digital Forensic Investigations. Students will evaluate and synthesize technical and legal issues in relation to digital evidence. Students will apply various skills and techniques, combined with numerous investigative software tools to analyze seized electronic media. Students subject to background investigation prior to admittance.

- Credit Hours: 3 hrs
- Prerequisite: IA 427
- Class Restrictions: Sophomore standing
- Previously Listed As: IA 328
- Last Updated: 2/10/2011

IA 429 - Enterprise Digital Analysis

- Credit Hours: 3 hrs
- Prerequisite: IA 427 and IA 428
- Last Updated: 2/10/2011

IA 430 - Network Forensics

This course will introduce the student to the essential best practices in database security strategies. The student will be provided with the tools, techniques and industry accepted methodologies so that upon completion of the course the student will be able to describe key concepts of database security and how to apply those concepts to securing database management systems within their organization.

- Credit Hours: 3 hrs
**Prerequisite:** IA 427  
**Class Restrictions:** Sophomore standing or higher  
**Last Updated:** New Course 02/2012, effective Fall 2012

### IA 441 - Foreign and Domestic Terrorism and Information Warfare

This course provides for the preparation and response to a foreign or domestic act of terrorism including Information Warfare. Students will explore the technology of weapons of mass destruction, how to prepare their communities, respond to the incident, and mitigate the effects of a terrorist act.

**Credit Hours:** 3 hrs  
**Previously Listed As:** SSC441  
**Last Updated:** 2/10/2011

### IA 442 - Cyber Intelligence

Cyber intelligence analysis training. Students will examine concepts of cyber warfare attacks and threats to critical systems. Students will also examine government, military, and business responsibility through a centric approach to include security, law enforcement, and intelligence applications. Intelligence software will be introduced for link analysis.

**Credit Hours:** 3 hrs  
**Prerequisite:** IA 240  
**Class Restrictions:** Sophomore standing or higher  
**Last Updated:** New Course 02/2012, effective Fall 2012

### IA 445 - Ethical Hacking and Offensive Security

This course will use hacking techniques used by malicious, black hat hackers as a means to learn best defense from these same hackers. The course is an in-depth study using hands-on lab exercises. While these hacking skills can be used for malicious purposes, this class teaches you how to use the same hacking techniques to perform a white-hat, ethical hack, on your organization.

**Credit Hours:** 3 hrs  
**Prerequisite:** IA 103 and IA 210  
**Last Updated:** Links 05/2011

### IA 455 - Incident Response

This course will introduce the student to the essential aspects of information security and incident response. The student will be provided with the tools, techniques and industry accepted methodologies so that upon completion of the course the student will be able to describe key concepts of network security and incident response and how those concepts apply to themselves and their organization.

**Credit Hours:** 3 hrs  
**Prerequisite:** IA 430  
**Previously Listed As:** IA 455 - Network Security Hardening  
**Last Updated:** Title/Course Description/Prerequisite Change 02/2012, effective Fall 2012

### IA 477 - Special Topics
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr
Prerequisite: department permission
Last Updated: 2/10/2011

IA 478 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs
Prerequisite: department permission
Last Updated: 2/10/2011

IA 479 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs
Prerequisite: department permission
Last Updated: 2/10/2011

IA 480 - SQL Database Security

This course will introduce the student to the essential best practices in database security strategies. The student will be provided with the tools, techniques and industry accepted methodologies so that upon completion of the course the student will be able to describe key concepts database security and how to apply those concepts to securing database management systems within their organization.

Credit Hours: 3 hrs
Prerequisite: IA 210
Class Restrictions: Sophomore standing or higher
Last Updated: New Course 02/2012, effective Fall 2012

IA 487 - Cooperative Education

Credit Hours: 3 hrs
Last Updated: 2/10/2011

IA 495 - Networks: Implementation and Evaluation

The course focuses on implementing and evaluating network systems that deliver information services and resources. Emphasis is on implementation based on current theories of innovation and change and on development of evaluation criteria. Testing information security and service delivery is included. Students will evaluate an actual or hypothetical end-user system.

Credit Hours: 3 hrs
Prerequisite: IA 344
IA 497 - Independent Study
Advanced study on an individual basis in areas in which the department does not offer a formal course.

Credit Hours: 1 hr
Prerequisite: department permission
Last Updated: 2/10/2011

IA 498 - Independent Study
Advanced study on an individual basis in areas in which the department does not offer a formal course.

Credit Hours: 2 hrs
Prerequisite: department permission
Last Updated: 2/10/2011

IA 499 - Independent Study
Advanced study on an individual basis in areas in which the department does not offer a formal course.

Credit Hours: 3 hrs
Prerequisite: department permission
Last Updated: 2/10/2011

Legal Assistant

LEGL 177 - Special Topics
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr

LEGL 178 - Special Topics
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs

LEGL 179 - Special Topics
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs
LEGL 211 - Introduction to Paralegalism and Legal Terminology

An overview of the nature of the legal assistant (paralegal) program, with a look at the roles, opportunities, responsibilities and problems encountered. The student is introduced to areas of the law in which the legal assistant may work. Ethical considerations are addressed and legal terminology will be introduced and emphasized. Must be completed in the first 12 hours of the major.

Credit Hours: 3 hrs
Notes: A minimum grade of "B-" is required if taken towards the Legal Assistant (Paralegal) Program.

LEGL 212 - Law Office Administration and Technology

This course will teach the fundamentals of law office management and organization, and introduce the student to technologies used in a typical law practice. Subjects covered include: basic principles and structure of law firm management, computerized conflict-checking, timekeeping and accounting systems, marketing issues, ethical issues, and the Michigan Code of Professional Responsibility, administrative and substantive systems in the law office and law practice technology.

Credit Hours: 3 hrs
Prerequisite: BMMT 201
Major Restrictions: Legal Assistant (Paralegal) Majors only
Notes: A minimum grade of "C" is required.
Last Updated: Links 04/2011

LEGL 277 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr

LEGL 278 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs

LEGL 279 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs

LEGL 304W - Legal Writing, Research and Analysis I (Gen Ed Area I, W)

This course is designed to develop basic skills in analyzing legal problems, researching those problems and searching for legal authority. Students are also introduced to primary and secondary legal resources. Emphasis is given to preparing and writing legal memoranda. Extensive use of library law materials is required.

Credit Hours: 3 hrs
**LEGL 305 - Advanced Legal Writing, Research and Analysis II**

This course will build upon skills acquired in LEGL 304W. Students will be introduced to computerized research sources with a special emphasis on LEXIS and Westlaw. Discussion will also focus on the state appellate process. Students will learn how to prepare an appellate brief and do online legal research to complete their brief. Special emphasis will be placed on students improving their legal writing techniques.

**Credit Hours:** 3 hrs  
**Prerequisite:** BMMT 201 or equivalent; ENGL 121; LEGL 304W  
**Major Restrictions:** Legal Assistant (Paralegal) Majors only  
**Notes:** A minimum grade of "C" is required.

**Last Updated:** Links 04/2011

**LEGL 311 - Probate, Estates and Wills**

The student will study the probate code and probate procedures, descendents’ estates, death and inheritance taxes, and other related problems. Special attention will be given to wills and how wills are drafted.

**Credit Hours:** 3 hrs  
**Prerequisite:** LEGL 211  
**Major Restrictions:** Legal Assistant (Paralegal) Majors only  
**Notes:** A minimum grade of “C” is required.

**Last Updated:** Links 04/2011

**LEGL 313 - Family Law**

A basic introduction to the areas of domestic law, including such subjects as divorce, adoption, abortion, parental rights, children’s rights, child abuse, neglect and guardianship. The course will be directed toward the legal assistant’s role in preparing court documents and other tasks of the paralegal in this area.

**Credit Hours:** 3 hrs  
**Prerequisite:** LEGL 211  
**Major Restrictions:** Legal Assistant (Paralegal) Majors only  
**Notes:** A minimum grade of “C” is required.

**Last Updated:** Links 04/2011

**LEGL 315 - Land Transaction and Real Estate for Paralegals**

Introduction to the skills needed to assist an attorney in representing clients in real property transactions, including closings for purchase/sale of residential property; examining issues of ownership of real property; financing real property transactions; and the landlord-tenant relationship in leasing real property.

**Credit Hours:** 3 hrs  
**Prerequisite:** LEGL 211 or LAW 293  
**Class Restrictions:** Sophomore standing

**Last Updated:** Links 04/2011
LEGL 320 - Cyber Law and Compliance

An in-depth examination of the law dealing with computers and the Internet, including such issues as intellectual property, electronic commerce, information privacy, freedom of expression, cybercrime and jurisdiction. Included are detailed analyses of significant legal case studies plus review of applicable federal and state legislation.

Credit Hours: 3 hrs
Previously Listed As: LEGL 413 Internet Law
Last Updated: Number and Title Change 10/2012; effective Winter 2013

LEGL 377 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr

LEGL 378 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs

LEGL 379 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs

LEGL 400 - Advanced Legal Writing, Research and Analysis III

This course will build upon the skills learned in LEGL 304W and LEGL 305. Students will refine their legal writing skills through critical thinking by integrating legal analysis, writing, and research. Plain English will also be discussed. Competency in computer assisted legal research is required.

Credit Hours: 3 hrs
Prerequisite: LEGL 304W and LEGL 305
Major Restrictions: Legal Assistant (Paralegal) Majors only
Notes: A minimum grade of "C" is required.
Previously Listed As: LEGL 306
Last Updated: Course Number and Description Change 05/2012, effective Fall 2012; Links 04/2011

LEGL 404 - Court Rules, Forms and Drafting Contracts

Study will be made of Michigan court rules and court forms commonly used in the Michigan court system. Students will do problems preparing court forms for a variety of legal actions. Students will also study contract law and learn to draft documents.

Credit Hours: 3 hrs
Prerequisite: LEGL 304W
Major Restrictions: Legal Assistant (Paralegal) Majors only
Notes: A minimum grade of "C" is required.
Last Updated: Links 04/2011

LEGL 405 - Civil Litigation, Investigation and Procedure I

A study of the law and litigation techniques in personal injury cases. Students will become acquainted with such torts as assault, battery, false imprisonment, defamation and strict product liability. Study will be directed particularly to the fields of negligence and medical malpractice.

Credit Hours: 3 hrs
Prerequisite: LEGL 404
Major Restrictions: Legal Assistant (Paralegal) Majors only
Notes: A minimum grade of "C" is required.
Last Updated: Links 04/2011

LEGL 406 - Civil Litigation, Investigation and Procedure II

A comprehensive survey of civil litigation and procedure. The student will be introduced to every phase of litigation starting with the filing of the lawsuit through the appellate process. The student will be expected to draw up a complaint and a number of pleadings, as well as drafting interrogatories and digesting depositions. Legal investigations will be addressed.

Credit Hours: 3 hrs
Prerequisite: LEGL 405
Major Restrictions: Legal Assistant (Paralegal) majors only
Notes: A minimum grade of "C" is required.
Last Updated: Links 04/2011

LEGL 414 - Legal Assistance Center Clinical Experience

Student work at the Washtenaw County-Eastern Michigan University Legal Assistance Center providing legal assistance to people with basic legal problems. All student work must be done under attorney supervision, and students may not engage in activities that constitute the unauthorized practice of law.

Credit Hours: 3 hrs
Prerequisite: LEGL 211, LEGL 304W and LEGL 404; department permission
Concurrent Prerequisite: LEGL 311, LEGL 313 and LEGL 405
Major Restrictions: Legal Assistant (Paralegal) Majors only
Last Updated: Links 04/2011

LEGL 415 - Bankruptcy Law

A study will be made of the Federal Bankruptcy Code, with emphasis on Chapters 7, 11 and 13. Students will learn how to prepare the necessary papers for filing for bankruptcy.

Credit Hours: 3 hrs
Prerequisite: LEGL 304W
Last Updated: Links 04/2011

LEGL 416 - Legal Assistant Internship
Students work with law firms, courts, corporations, etc, for on-the-job training as a legal assistant. Each student will have a supervisor on the job and a faculty supervisor. The latter will consult with students individually or in a group meeting. A written report is required upon completion of the internship.
http://www.emich.edu/cot/internships.htm

Credit Hours: 3-6 hrs
Prerequisite: LEGL 211, LEGL 304W, LEGL 305, LEGL 404, LEGL 405 and permission of instructor; Must have completed required courses in the curriculum
Class Restrictions: Legal Assistant (Paralegal) Majors only
Notes: A minimum grade of "C" is required Where appropriate criteria are met; Cooperative education can be substituted for an internship.
Last Updated: Links 04/2011

LEGL 418 - Women and Law

A critical analysis how gender, as an element of the American legal system, impacts the lives of women. Major U.S. cases and state and federal laws will be evaluated and challenged as appropriate.

Credit Hours: 3
Prerequisite: One of the following: LAW 293, LEGL 211, PLSC 301, or WGST 200
Last Updated: 05/2006

LEGL 477 - Special Topics

An exploration and study of topics not covered in other program offerings. Student may elect more than once.

Credit Hours: 1 hr

LEGL 478 - Special Topics

An exploration and study of topics not covered in other program offerings. Student may elect more than once.

Credit Hours: 2 hrs

LEGL 479 - Special Topics

An exploration and study of topics not covered in other program offerings. Student may elect more than once.

Credit Hours: 3 hrs

LEGL 497 - Independent Study

Students pursue some special area of study or experimentation under the direction of a designated faculty member from the department.

Credit Hours: 1 hr

LEGL 498 - Independent Study

Students pursue some special area of study or experimentation under the direction of a designated faculty member from the department.
LEGL 499 - Independent Study

Students pursue some special area of study or experimentation under the direction of a designated faculty member from the department.

Credit Hours: 3 hrs

Public Safety

PS 177 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr
Prerequisite: Department permission
Last Updated: Links 04/2011

PS 178 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs
Prerequisite: Department permission
Last Updated: Links 04/2011

PS 179 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs
Prerequisite: Department permission
Last Updated: Links 04/2011

PS 277 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr
Prerequisite: Department permission
Last Updated: Links 04/2011

PS 278 - Special Topics
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs
Prerequisite: Department permission
Last Updated: Links 04/2011

**PS 279 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs
Prerequisite: Department permission
Last Updated: Links 04/2011

**PS 285 - Pre-Professional Internship**

One semester of practical, on-the-job work experience and training at select on-campus or off-campus facilities.

Credit Hours: 1 hr
Prerequisite: Department permission
Last Updated: Links 04/2011

**PS 286 - Pre-Professional Internship**

One semester of practical, on-the-job work experience and training at select on-campus or off-campus facilities.

Credit Hours: 2 hrs
Prerequisite: Department permission
Last Updated: Links 04/2011

**PS 287 - Pre-Professional Internship**

One semester of practical, on-the-job work experience and training at select on-campus or off-campus facilities.

Credit Hours: 3 hrs
Prerequisite: Department permission
Last Updated: Links 04/2011

**PS 377 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr
Prerequisite: Department permission
Last Updated: Links 04/2011

**PS 378 - Special Topics**
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 2 hrs  
**Prerequisite:** Department permission

**Last Updated:** Links 04/2011

**PS 379 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 3 hrs  
**Prerequisite:** Department permission

**Last Updated:** Links 04/2011

**PS 387 - Cooperative Education**

**Credit Hours:** 3 hrs

**PS 442 - School Safety — Emergency Planning/Incident Command**

Course provides analysis and strategies for educators in their response capabilities to school safety. Technical and natural disaster preparation, incident command system for educators, techniques for bomb searching, preparation for weapons of mass destruction and school shootings will be covered. Site security analysis will be applied.

**Credit Hours:** 3 hrs

**PS 477 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 1 hr  
**Prerequisite:** Department permission

**Last Updated:** Links 04/2011

**PS 478 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 2 hrs  
**Prerequisite:** Department permission

**Last Updated:** Links 04/2011

**PS 479 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

School of Technology Studies

STS 150 - Understanding Technology

An introduction to the discipline of technology focusing on technological concepts and problems. Several technological systems and their dynamics, particularly as they relate to global issues and culture, will be examined.

Credit Hours: 3 hrs

STS 170L - Global Technologies (Gen Ed Area III)

Students analyze and synthesize information from diverse sources to explore how communications, energy and medical technologies influence cultural interactions. Students explore the issues of intolerance, along with historical, social and cultural differences and how they affect interactions with those cultures in order to make informed decisions.

Credit Hours: 3 hrs

Area III: Perspectives on a Diverse World

STS 170 Global Technologies [effective Winter 2008]

STS170 meets the general education requirement for Global Awareness by exploring the choices people made in the past and the choices today's students will have to make in the near future with regard to energy, medical and communication technology. Students analyze examples of the impact of technological change in energy and medicine and develop consideration for other cultures when making decisions. They apply the lessons learned from historical examples in energy technology and medical technology to emerging issues related to alternative energy and communication technology. After completing the course, students
should have a better understanding of the international impact of technological change and a better idea of how to anticipate and cope with changes caused by new technologies in ways that consider the effect of their choices on other cultures.

_Last Updated: Links 09/2011_

**STS 201 - Microcomputer Applications in Technology**

An introduction to microcomputers and their applications in technology. The course contains an introduction to word processing, spreadsheets, database management and their applications.

_Credit Hours: 3 hrs_

_Prerequisite: basic keyboard skill is recommended_

**STS 202 - Disabled in the U.S.A. - Rights, Prejudice, Claims and Responsibilities**

Examines responsibility of society from legal perspective towards persons with disabilities, including intensive examination of their rights in all aspects of society, their challenges and strategies for successful integration in diverse settings. Explores skills necessary to assist in protecting rights and assist in defending lawsuits filed by the disabled.

_Credit Hours: 3 hrs_

**STS 224 - Solving Quantitative Problems in Technology (Gen Ed Area II)**

Application of computer-based tools and procedures to the solution of mathematical problems encountered in technology.

_Credit Hours: 3 hrs_

_Last Updated: Gen Ed Approval 10/2006, effective Winter 2007_

**STS 277 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

_Credit Hours: 1 hr_

_Prerequisite: Department permission_

_Last Updated: Links 03/2011_

**STS 278 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

_Credit Hours: 2 hrs_

_Prerequisite: Department permission_

_Last Updated: Links 03/2011_

**STS 279 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.
Credit Hours: 3 hrs  
Prerequisite: Department permission  
Last Updated: Links 03/2011

STS 285 - Pre-Professional Internship

One semester of practical, on-the-job work experience and training at select on-campus or off-campus facilities.

Credit Hours: 1 hr  
Prerequisite: Department permission  
Last Updated: Links 03/2011

STS 286 - Pre-Professional Internship

One semester of practical, on-the-job work experience and training at select on-campus or off-campus facilities.

Credit Hours: 2 hrs  
Prerequisite: Department permission  
Last Updated: Links 03/2011

STS 287 - Pre-Professional Internship

One semester of practical, on-the-job work experience and training at select on-campus or off-campus facilities.

Credit Hours: 3 hrs  
Prerequisite: Department permission  
Last Updated: Links 03/2011

STS 300W - Research and Writing: The Technology Career Perspective (Gen Ed Area I, W)

Focuses on research and writing in technology career fields. Students analyze documents, writing standards, and audiences. They integrate research findings to construct effective arguments. Genres include policies, procedures, reports, and presentations for the workplace and for community, professional, and governmental bodies. Assignments are customized to School of Technology Studies majors.

Credit Hours: 3 hrs  
Prerequisite: ENGL 121  
Class Restrictions: Junior standing  
Last Updated: Links 03/2011

STS 377 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr  
Prerequisite: Department permission  
Last Updated: Links 03/2011
**STS 378 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

*Credit Hours:* 2 hrs  
*Prerequisite:* Department permission  
*Last Updated:* Links 03/2011

**STS 379 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

*Credit Hours:* 3 hrs  
*Prerequisite:* Department permission  
*Last Updated:* Links 03/2011

**STS 387 - Cooperative Education**

*Credit Hours:* 3 hrs

**STS 420 - Women and Technology**

This course surveys gender issues surrounding technology development, transfer and use. We will examine these issues from historical, contemporary and global perspectives.

*Credit Hours:* 3 hrs  
*Graduate Credit:* This is an undergraduate course available to graduate students for graduate credit.  
*Cross-Listed with:* WGST 420  
*Last Updated:* Graduate Credit 07/2011; Links 03/2011

**STS 477 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

*Credit Hours:* 1 hr  
*Prerequisite:* Department permission  
*Last Updated:* Links 03/2011

**STS 478 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

*Credit Hours:* 2 hrs  
*Prerequisite:* Department permission  
*Last Updated:* Links 03/2011
**STS 479 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 3 hrs  
**Prerequisite:** Department permission  
**Last Updated:** Links 03/2011

**STS 487 - Cooperative Education**

**Credit Hours:** 3 hrs

**STS 495 - Technology, Values, and the Future**

The development of modern technological society: major breakthroughs in the physical and life sciences, the influence of some of these breakthroughs on technological development, the consequent shaping of new world views and, hence, values in contemporary and future societies. Interrelationships between technology and political, socioeconomic and environmental systems; the relationship between technology and values.

**Credit Hours:** 3 hrs  
**Graduate Credit:** This is an undergraduate course available to graduate students for graduate credit.  
**Last Updated:** Graduate Credit 07/2011

**STS 497 - Independent Study**

Advanced study on an individual basis in areas in which the department does not offer a formal course.

**Credit Hours:** 1 hr  
**Prerequisite:** Department permission  
**Last Updated:** Links 03/2011

**STS 498 - Independent Study**

Advanced study on an individual basis in areas in which the department does not offer a formal course.

**Credit Hours:** 2 hrs  
**Prerequisite:** Department permission  
**Last Updated:** Links 03/2011

**STS 499 - Independent Study**

Advanced study on an individual basis in areas in which the department does not offer a formal course.

**Credit Hours:** 3 hrs  
**Prerequisite:** Department permission  
**Last Updated:** Links 03/2011

**Simulation, Animation and Gaming**
SAG 105 - Introduction to Simulation, Animation and Gaming

This course will be an overview of the software and hardware associated with simulation and gaming. It will also explore the creativity and development skills necessary. It is an introductory overview of the electronic game development process and underlines its history, content creation strategies and future trends in the industry.

Credit Hours: 3 hrs

SAG 155 - Illustrator

This course is an introduction of illustrator software features. This class prepares students with the aptitude to use an innovate process in order to produce artistic work for use in print, multimedia, and web creations. In addition, students will combine Illustrator with Adobe products to further enhance their media production abilities. Emphasis of the class will be on techniques, aesthetics and creative imagery for all medium types.

Credit Hours: 3 hrs

Last Updated: New Course, 11/2012, effective Winter 2013

SAG 175 - Graphics for Simulation I

This course is an introduction to the development of graphics for simulation. Students will develop skills involved in the principle of realistic graphics from a variety of views. The main focus will be on the comprehension and creation of accurate 2-dimensional graphics for use and development of 3-dimensional models.

Credit Hours: 3 hrs

SAG 225 - Graphics for Simulation II

In this course, students continue their application of graphics for construction and refinement of 3-dimensional models to develop a variety of high quality 3-dimensional objects. Students will develop a number of computer simulation applications using 3-dimensional graphic and beginning multimedia software.

Credit Hours: 3 hrs
Prerequisite: SAG 175
Last Updated: Links 04/2011

SAG 235 - Flash I

This course is an introduction to Flash software features. The main focus of the class will be on designing Flash projects, working with animation, creating interactive files and incorporating sound and video files. Students will be introduced to the techniques of optimization, publishing to the Web and ActionScript programming.

Credit Hours: 3 hrs
Prerequisite: CMT 131
Last Updated: Links 04/2011

SAG 245 - Story Development

This course examines how to create an engaging, effective story while relating the practical considerations of building a simulation, animation or game. Emphasis will be placed on traditional narrative development as well as interactive design necessary for game development. Techniques such as storyboarding and flow-charting for interaction are introduced.
SAG 255 - SAG Movement

Simulation, Animation and Gaming (SAG) Movement specifically teaches how humans, animals, insects, and microbes move in both realistic and SAG settings. SAG Movement involves project-based application and crossover of life science principles to simulation, animation and gaming contexts. It is required of SAG Majors but also open to student from other majors.

SAG 275 - Texturing and Mapping

This course focuses on learning the techniques and constraints used to create textures for 3-dimensional models and environments used in gaming and simulation. Through instruction and lab, this course provides basic principles, research tools, techniques and in-depth tutorials of texturing and mapping.

SAG 285 - Studio I Simulation

This course is a practical survey covering the principles of simulation. Multimedia exercises are explored and students learn to use a variety of techniques to produce games and simulation situations using software, such as 3-D Max. Students will use their graphics skills to build 3-dimensional models and simulate them in different settings.

SAG 295 - SAG Rigging

This course is an introduction of Character Rigging. This class prepares students with the aptitude to use industry standard processes in order to produce hierarchical bone structures to easily control three dimensional models. In addition, students will combine the knowledge gained from SAG Movement and Studio 1 further in the course to become more knowledgeable in 3D Studio Max. Emphasis of the class will be on techniques, workflows, naming conventions and organization of the rigging process.

SAG 305 - Environment Design

This course focuses on the creation of virtual spaces and environments that you move through in games or simulations. Through instruction and tutorials, this course introduces the techniques used for creating detailed interiors, landscapes, cityscapes and
nature assets for those environments.

**Credit Hours:** 3 hrs  
**Prerequisite:** SAG 285  
**Class Restrictions:** Junior or Senior standing  
**Last Updated:** Links 04/2011

**SAG 325 - Principles of Animation**

This course teaches the principles of animation and prepares students with the aptitude to use industry standard processes in order to produce visually realistic three dimensional animations using industry standard software. In addition, students will combine the knowledge gained from SAG movement and rigging in the course to becomes more knowledgeable in 3D studio Max. Emphasis of the class will be on techniques, workflows, theories and organization of the animation process.

**Credit Hours:** 3 hrs  
**Prerequisite:** SAG 295  
**Last Updated:** New Course, 11/2012, effective Winter 2013

**SAG 335 - Flash II**

The focus of this class is a continued study of Flash. In this class, the students will learn important steps using the illustrative tools of the software. Topics include techniques for drawing photorealistic vector illustrations for game art.

**Credit Hours:** 3 hrs  
**Prerequisite:** SAG 235  
**Class Restrictions:** Junior or Senior standing  
**Last Updated:** Links 04/2011

**SAG 355 - Lighting and Camera Techniques**

This course covers the concepts, theoretical aspects and techniques necessary to create convincing digital lighting. Also covered are camera techniques to produce realistic and dramatic visual presentations and how to effectively utilize these in any simulation.

**Credit Hours:** 3 hrs  
**Prerequisite:** CMT 205  
**Last Updated:** Links 04/2011

**SAG 365 - Flash III**

This class advances the student's skills with Flash by using ActionScript to produce interactive games. The coding covered are the principles of animation, math and physics concepts, interaction from input devices, data collection, render methods and sound effects. Students in this class will produce and publish an animated game.

**Credit Hours:** 3 hrs  
**Prerequisite:** SAG 335  
**Class Restrictions:** Junior or Senior standing  
**Last Updated:** Links 03/2011

**SAG 375 - Studio II**
A continued study of 3-dimensional graphics and multimedia software used for simulation. Students will advance their skills to create 3-dimensional simulation models in different realistic environments. Topics covered in this hands-on course include creating natural elements and special effects such as fire, earth, air and water.

**Credit Hours:** 3 hrs  
**Prerequisite:** SAG 285  
**Class Restrictions:** Junior or Senior standing  
**Last Updated:** Links 04/2011

**SAG 470 - Simulation and Animation Dynamics**

This course focuses on a host of constraints used to create accurate physical relationships between rigid-body and soft-body objects for simulations and animation. The techniques taught are used to create high-speed simulations with interactions between multiple objects with control over mass, friction and elasticity.

**Credit Hours:** 3 hrs  
**Prerequisite:** PHY 221  
**Class Restrictions:** Junior or Senior standing  
**Last Updated:** Links 03/2011

**SAG 485 - Senior Projects in SAG**

The application of simulation, animation and gaming techniques for the completion of a team based final project. Also covered will be a discussion of necessary skills for career success. Guest speakers and site visitations will be part of the class.

**Credit Hours:** 3 hrs  
**Prerequisite:** SAG 470  
**Corequisites:** Junior or Senior standing  
**Cross-Listed with:** COSC 485  
**Last Updated:** Links 03/2011

**Staff and Command**

**SSC 177 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 1 hr  
**Prerequisite:** Department permission  
**Last Updated:** Links 03/2011

**SSC 178 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 2 hrs  
**Prerequisite:** Department permission  
**Last Updated:** Links 03/2011
**SSC 179 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 3 hrs  
**Prerequisite:** Department permission  
*Last Updated:* Links 03/2011

**SSC 277 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 1 hr  
**Prerequisite:** Department permission  
*Last Updated:* Links 03/2011

**SSC 278 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 2 hrs  
**Prerequisite:** Department permission  
*Last Updated:* Links 03/2011

**SSC 279 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 3 hrs  
**Prerequisite:** Department permission  
*Last Updated:* Links 03/2011

**SSC 285 - Pre-Professional Internship**

One semester of practical, on-the-job work experience and training at select on-campus or off-campus facilities.

**Credit Hours:** 1 hr  
**Prerequisite:** Department permission  
*Last Updated:* Links 03/2011

**SSC 286 - Pre-Professional Internship**

One semester of practical, on-the-job work experience and training at select on-campus or off-campus facilities.

**Credit Hours:** 2 hrs  
**Prerequisite:** Department permission  
*Last Updated:* Links 03/2011
**SSC 287 - Pre-Professional Internship**

One semester of practical, on-the-job work experience and training at select on-campus or off-campus facilities.

**Credit Hours:** 3 hrs  
**Prerequisite:** Department permission  
**Last Updated:** Links 03/2011

**SSC 377 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 1 hr  
**Prerequisite:** Department permission  
**Last Updated:** Links 03/2011

**SSC 378 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 2 hrs  
**Prerequisite:** Department permission  
**Last Updated:** Links 03/2011

**SSC 379 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 3 hrs  
**Prerequisite:** Department permission  
**Last Updated:** Links 03/2011

**SSC 387 - Cooperative Education**

**Credit Hours:** 3 hrs

**SSC 477 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 1 hr  
**Prerequisite:** Department permission  
**Last Updated:** Links 03/2011

**SSC 478 - Special Topics**
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 2 hrs  
**Prerequisite:** Department permission  
**Last Updated:** Links 03/2011

### SSC 479 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 3 hrs  
**Prerequisite:** Department permission  
**Last Updated:** Links 03/2011

### SSC 487 - Cooperative Education

**Credit Hours:** 3 hrs

### Technology Education

#### TEDU 104 - Modeling, Automation, and Energy

A middle school approach demonstrating how to excite students with hands-on Science-, Technology-, Engineering-, and Mathematics-related (STEM) activities. Future teachers will discuss, demonstrate and develop hands-on units of study surrounding design and modeling, automation and robotics, and power and energy. Safety practiced while developing teaching skills.

**Credit Hours:** 3 hours  
**Last Updated:** New Course 08/2011, effective Fall 2011

#### TEDU 105 - History of Industrial Technology

An introduction to the history of industrial technology. The development of industry and its impact on the other arts and culture in general. Basic principles of design in industrial and home arts, and the eotechnic, paleotechnic, neotechnic and atomic periods of technology.

**Credit Hours:** 3 hrs

#### TEDU 106 - Processing Technology

An introduction to tools, materials, and processes and their application to discrete and integrated systems of technology. Interrelationships between humans and machines will be studied to develop the student's ability to transfer knowledge of processes from one environment to the other.

**Credit Hours:** 3 hrs

#### TEDU 107 - Flight, Electronics, and Science of Technology
A middle school approach demonstrating how to excite students with hands-on Science-, Technology-, Engineering-, and Mathematics-related (STEM) activities. Future teachers will discuss, demonstrate and develop hands-on units of study surrounding flight, electricity/electronics, and science of technology. Safety practices while developing teaching skills.

**Credit Hours:** 3 hrs  
**Last Updated:** New Course 03/2012

**TEDU 114 - Information and Control Technology**

Access, manage and control information and technology through the application of technological systems. Design and construct models, devices and mechanisms that will process information and control technology through the use of machines and humans.

**Credit Hours:** 3 hrs

**TEDU 152 - Arts and Crafts**

Experience in design and use of a wide variety of craft materials. A vocational and recreational use of craft media.

**Credit Hours:** 3 hrs

**TEDU 177 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 1 hr  
**Prerequisite:** Department permission  
**Last Updated:** Links 03/2011

**TEDU 246 - Safety in Technology and Vocational Education**

Safety, health and environmental factors and their implications for technology and vocational educators, students, laboratories and instructional programs.

**Credit Hours:** 2 hrs

**TEDU 250 - Foundations of Technology, Vocational, and Engineering Teacher Education**

An introduction to the foundations and implementations of technology, vocational and engineering teacher education. Past, present, and future developments in the profession will be studied through lectures, discussions, seminars, micro-teaching, school visitations, and pre-student teaching activities.

**Credit Hours:** 3 hrs  
**Last Updated:** Title and Course Description Change 11/2011, effective Winter 2012

**TEDU 253 - Technology Education for Children**

Content and methods which enable the elementary teacher to assist children in learning about the concepts, processes, systems and impacts of technology. Individual and group laboratory activities involve applications of technology with other subject areas through problem solving experiences.
TEDU 277 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs
Prerequisite: Department permission
Last Updated: Links 03/2011

TEDU 278 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr
Prerequisite: Department permission
Last Updated: Links 03/2011

TEDU 279 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs
Prerequisite: Department permission
Last Updated: Links 03/2011

TEDU 345 - Teaching Energy and Transportation in Technology and Engineering Teacher Education

Forms, sources, and uses of past, present, and future energy and transportation systems and their relationships to technology and engineering. Description of technology and engineering systems that transform, transmit, store, control and/or utilize energy and/or transportation. Other topics include principles of engineering conservation, and K-12 education instructional methods.

Credit Hours: 3 hrs
Prerequisite: TEDU 340, PHY 221, PHY 222
Previously Listed As: TEDU 118 - Energy and Transportation Technology
Last Updated: Number/Title/Description/Prerequisite Change 12/2011, effective Winter 2012.

TEDU 350 - Curriculum in Technology, Vocational, and Engineering Teacher Education

Curriculum bases, the derivation of content, the formulation of objectives, the selection and organization of learning activities, and the selection and development of procedures for evaluating K-12 education technology, vocational, and engineering students and programs.

Credit Hours: 3 hrs
Prerequisite: TEDU 250
Major Restrictions: Admission to the College of Education

Last Updated: Title/Course Description/Prerequisite Change 11/2011, effective Winter 2012; Links 03/2011

TEDU 354 - Experiences in Technology for Children

Laboratory experiences in the use of materials, tools, processes and products of industry as utilized in the elementary and middle school. Emphasis is on individual and group learning situations relevant to integrated curriculum activities.

Credit Hours: 2 hrs
Prerequisite: TEDU 253
Last Updated: Links 03/2011

TEDU 355 - Seminar in Technology for the Elementary School

Practical experiences in integrating concepts of technology with existing elementary and special education curricula. Students will design, conduct and evaluate manipulative activities for and with children.

Credit Hours: 2 hrs
Prerequisite: TEDU 354
Last Updated: Links 03/2011

TEDU 358 - Tools and Materials

Experiences in the use of selected tools, machines and materials following contemporary therapeutic practices in occupational therapy and related professions.

Credit Hours: 3 hrs
Lecture/Lab Hours: Lecture: two hours per week. Laboratory: two hours per week.

TEDU 377 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr
Prerequisite: Department permission
Last Updated: Links 03/2011

TEDU 378 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs
Prerequisite: Department permission
Last Updated: Links 03/2011

TEDU 379 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.
TEDU 387 - Cooperative Education in Technology Education

Technology education majors will be placed on a job that relates to their primary area of study for one semester. During this period regular employee benefits may be received.

TEDU 450 - Capstone in Technology and Engineering Teacher Education

A capstone experience in the components of the technology and engineering education curriculum. Student applies problem-solving and engineering techniques to arrive at solutions to technological and engineering problems.

TEDU 452 - Principles of Vocational Education

Concepts and principles of vocational education; current issues in vocational education in Michigan.

TEDU 460 - Methods of Teaching Technology, Vocational, and Engineering Education

Direct involvement in solving teaching and learning problem in K-12 technology, vocational, and engineering education. Emphasis upon developing appropriate strategies for managing the classroom and laboratory environments.

TEDU 477 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.
TEDU 478 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs
Prerequisite: Department permission
Last Updated: Links 03/2011

TEDU 479 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs
Prerequisite: Department permission
Last Updated: Links 03/2011

TEDU 487 - Cooperative Education in Technology Education

The second in a two-course sequence for technology education majors. The students will be placed on a job that relates to their primary area of study for one semester. Regular employee benefits may be received.

Credit Hours: 3 hrs
Prerequisite: TEDU 387 and Department permission
Major Restrictions: Technology Education Majors only
Last Updated: Links 03/2011

TEDU 497 - Directed Study—Technology Education

Available to select students who have demonstrated ability to profit from a directed study project. Intensive study of a problem appropriate to the student’s area of concentration. Enrollment and selection of a project proposal must be approved by the department adviser-chair.

Credit Hours: 1 hr
Prerequisite: Department permission
Last Updated: Links 03/2011

TEDU 498 - Directed Study—Technology Education

Available to select students who have demonstrated ability to profit from a directed study project. Intensive study of a problem appropriate to the student’s area of concentration. Enrollment and selection of a project proposal must be approved by the department adviser-chair.

Credit Hours: 2 hrs
Prerequisite: Department permission
Last Updated: Links 03/2011

TEDU 499 - Directed Study—Technology Education
Available to select students who have demonstrated ability to profit from a directed study project. Intensive study of a problem appropriate to the student’s area of concentration. Enrollment and selection of a project proposal must be approved by the department advisor-chair.

**Credit Hours:** 3 hrs  
**Prerequisite:** Department permission

**Last Updated:** Links 03/2011

### Technology Management

#### TM 130 - Introduction to Technology Management

This course will provide the student with an understanding of technology management issues and introduce them to the necessary aspects required to manage a technological enterprise.

**Credit Hours:** 3 hrs

#### TM 177 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 1 hr  
**Prerequisite:** department permission

#### TM 178 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 2 hrs  
**Prerequisite:** department permission

#### TM 179 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 3 hrs  
**Prerequisite:** department permission

#### TM 212 - The Management of Technological Change

The implementation of new technology within organizations often requires substantial changes in organizational, group and individual work processes. This course will present change frameworks that enhance the effectiveness and efficiency of technology change and implementation. It will integrate materials from several disciplines including organizational development, management, industrial engineering and organizational science.

**Credit Hours:** 3 hrs
**TM 277 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 1 hr  
**Prerequisite:** department permission

**TM 278 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 2 hrs  
**Prerequisite:** department permission

**TM 279 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 3 hrs  
**Prerequisite:** department permission

**TM 285 - Pre-Professional Internship**

One semester of practical, on-the-job work experience and training at select on-campus or off-campus facilities.

**Credit Hours:** 1 hr  
**Prerequisite:** department permission

**TM 286 - Pre-Professional Internship**

One semester of practical, on-the-job work experience and training at select on-campus or off-campus facilities.

**Credit Hours:** 2 hrs  
**Prerequisite:** department permission

**TM 287 - Pre-Professional Internship**

One semester of practical, on-the-job work experience and training at select on-campus or off-campus facilities.

**Credit Hours:** 3 hrs  
**Prerequisite:** department permission

**TM 306 - Quantitative Analysis of Sustainability Issues (Gen Ed Area II)**

Quantitative analysis of issues and technologies related to sustainable use of limited resources such as energy, fresh water, arable land, forests, and clean air. Students extrapolate resource usage and population trends, make numerical comparisons of alternative technologies, interpret statistical studies, analyze raw data, and compare costs of implementation using financial models that
TM 306 Quantitative Analysis of Sustainability Issueses
Transitioning from a dramatically increasing world population that is using diminishing natural resources into a stable, sustainable society is one of the most important challenges facing human kind in this century. The future availability of limited resources such as energy, food, fresh water, and clean air will depend on what technologies we choose to use and understanding the results of those choices. Most discussions about creating a sustainable society use qualitative reasoning to set appropriate goals but this is only the first step. To implement those goals, it is vitally important to choose appropriate technologies. This course applies the tools of quantitative reasoning to the choices that must be made between competing technologies to achieve those goals with our limited financial resources in the time we have available.

Last Updated: Gen Ed Approval 03/2012, effective Fall 2012; New Course 02/2012

TM 308 - Seminar in Technological Impacts
An undergraduate-level introduction to technology assessment. Development of skills related to forecasting technological inventions and assessing their effect if adopted by society.

Credit Hours: 3 hrs

TM 311 - Information Technology Management and Organizations
This course will introduce the student to the varying aspects of information technology management in organizations. Emphasis will be placed on the technical and organizational foundations of information systems along with contemporary approaches to building and managing information systems and their respective support systems.

Credit Hours: 3 hrs
Class Restrictions: Junior standing or proficiency exam only

TM 314W - A Socio-Technical Systems Approach to Process Improvement (Gen Ed Area I, W)
The purpose of this course is to describe an approach to process improvement that integrates technical aspects of industrial engineering with social psychological dimensions of work processes. The course will delineate ideas for strategically incorporating technology levers into plans for improving work processes on an individual and work group level.

Credit Hours: 3 hrs
Concurrent Prerequisite: TM 130

TM 314W A Socio-Technical Systems Approach to Process Improvement is a writing intensive course designed to equip Technology Management graduates with those writing skills which are peculiar to the goals and directives peculiar to process improvement. As our graduates move into the workplace they will find themselves writing documents intended for both internal and external audiences, such as procedure and policy papers, white papers (or other authoritative reports), interdepartmental memos, business letters, professional emails and written proposals. Graduates will not only be expected to have a working knowledge of the syntactical standards for such documents, but also with the structure and conventions that said documents will
be expected to satisfy. In TM 314W you will learn to tailor your writing to meet the demands and expectations of specific audiences, research topics that are relevant to the field, and build and deliver persuasive arguments relating to process improvements.

_Last Updated:_ Gen Ed Approval 05/2011, effective Fall 2011

**TM 377 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

_Credit Hours:_ 1 hr  
_Prerequisite:_ department permission

**TM 378 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

_Credit Hours:_ 2 hrs  
_Prerequisite:_ department permission

**TM 379 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

_Credit Hours:_ 3 hrs  
_Prerequisite:_ department permission

**TM 387 - Cooperative Education**

_Credit Hours:_ 3 hrs

**TM 402 - Technology Project Management**

A study of the core subjects of project management as they relate to the management of technology-oriented projects using communication technologies that enable virtual teams to function in a global work environment.

_Credit Hours:_ 3 hrs  
_Graduate Credit:_ This is an undergraduate course available to graduate students for graduate credit.  
_Last Updated:_ Graduate Credit 07/2011

**TM 415 - Senior Seminar in Technology Management**

This course will allow students to synthesize the structure and procedures of strategic management and project management. The course will integrate the ideas and information presented in other courses within the technology management concentration core. Students will demonstrate their ability to integrate information ascertained from previous classes within a capstone project.

_Credit Hours:_ 3 hrs  
_Prerequisite:_ TM 130
Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.

Last Updated: Graduate Credit 07/2011; Links 06/2011

TM 477 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr
Prerequisite: department permission

TM 478 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs
Prerequisite: department permission

TM 479 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs
Prerequisite: department permission

TM 487 - Cooperative Education

Credit Hours: 3 hrs

TM 497 - Independent Study

Advanced study on an individual basis in areas in which the department does not offer a formal course.

Credit Hours: 1 hr
Prerequisite: department permission

TM 498 - Independent Study

Advanced study on an individual basis in areas in which the department does not offer a formal course.

Credit Hours: 2 hrs
Prerequisite: department permission

TM 499 - Independent Study

Advanced study on an individual basis in areas in which the department does not offer a formal course.
Credit Hours: 3 hrs
Prerequisite: department permission
Academic Affairs Programs and Courses

Academic Programming

Pre-Professional Studies

Pre-Architecture Program

This program is designed for students who wish to transfer to an architecture program at another university. Students are strongly advised to consult with an adviser as soon as possible to select courses and to review admission requirements to architectural school. Typically, a student will transfer to an architectural school after a maximum of two years. Department advisers at EMU maintain contact with universities that offer related four-year programs in order to maximize the value of the transfer program of study at the University to other universities. Students planning to transfer to four-year programs should not complete EMU’s general education requirements.

Required Courses: 58 hours

- ARTS 123 - Foundations Drawing I 3 hrs
- ARTS 122 - Three-Dimensional Design 3 hrs
- CHEM 117 - Fundamentals of Chemistry-Lecture (Gen Ed Area IV) 3 hrs
- CHEM 118 - Fundamentals of Chemistry Laboratory (Gen Ed Area IV) 1 hr
- COSC 111 - Introduction to Programming 3 hrs
- CTAC 124 - Foundations of Speech Communication (Gen Ed Area I) 3 hrs
- ECON 201 - Principles of Macroeconomics (Gen Ed Area IV) 3 hrs
- ECON 202 - Principles of Microeconomics (Gen Ed Area IV) 3 hrs
- ENGL 121 - Composition II: Researching the Public Experience (Gen Ed Area I) 3 hrs
- HIST 123 - The United States to 1877 (Gen Ed Area IV) 3 hrs
- MATH 120 - Calculus I (Gen Ed Area II) 4 hrs
- MATH 121 - Calculus II 4 hrs
- PHIL 130 - Introduction to Logic 3 hrs
- PHY 223 - Mechanics and Sound (Gen Ed Area IV) 5 hrs
- PHY 224 - Electricity and Light 5 hrs

One course from the following:

- PLSC 112 - American Government (Gen Ed Area IV) 3 hrs
- PLSC 113 - American Government Honors (Gen Ed Area IV) 3 hrs

Two Literature courses: 6 hours

Recommended Courses (course may not transfer): 2 hours

- CNST 125 - Introduction to Construction 2 hrs
Pre-Dentistry

Most students select either a chemistry major and biology minor or a biology major and chemistry minor as preparation for admission to dental school. The exact requirements for a particular dental school can be found in the publication *Admission Requirements of U.S. and Canadian Dental Schools*, available in the office of the predentistry adviser.

The majority of pre-dental students complete four years of undergraduate work, earning a B.S. degree. Since admission to dental school is very competitive, it is recommended that alternative career plans be a part of every pre-dental student’s program.

Students seeking admission to dental school take the Dental Aptitude Test, usually late in the junior year or early in the senior year. Application is generally made between August and December for the class beginning the following fall. Virtually all dental schools require the use of a central agency, the American Association of Dental Schools Application Service, when applying for admission.

Science courses required for admission into most dental schools are listed below. Careful scheduling will allow the student to complete these courses in three years.

**Adviser Information:**

Program Adviser: Gregg Wilmes
Phone: 734.487.0106
Email: gwilmes@emich.edu

**Required Courses: 34 hours**

*see note

- BIO 110 - Introductory Biology I (Gen Ed Area IV) 5 hrs
- BIO 120 - Introductory Biology II 5 hrs
- CHEM 121 - General Chemistry I (Gen Ed Area IV) 3 hrs
- CHEM 122 - General Chemistry I Laboratory (Gen Ed Area IV) 1 hr
- CHEM 123 - General Chemistry II 3 hrs
- CHEM 124 - General Chemistry II Laboratory 1 hr
- CHEM 371 - Organic Chemistry I 3 hrs
- CHEM 372 - Organic Chemistry II 3 hrs
- CHEM 373 - Organic Chemistry Laboratory 2 hrs
- PHY 221 - Mechanics, Sound and Heat (Gen Ed Area IV) 4 hrs
- PHY 222 - Electricity and Light 4 hrs

**Notes:**

*Introductory courses in histology or human physiology, biochemistry and microbiology are recommended. One year of English composition/literature. On course in sociology, psychology or anthropology.*

**Dental Hygiene and Dental Assisting**

Eastern Michigan University offers no degrees or certificates in these areas. Two-year certificates and four-year degree programs are available at the University of Michigan, Ferris State University and the University of Detroit-Mercy. Two-year programs also are available at numerous community colleges.
Students interested in these programs should plan on transferring after completing their freshman year at EMU. Liberal arts preparation in English composition, speech, chemistry (CHEM 117/118 Fundamentals of Chemistry with lab), psychology, sociology and political science, plus electives in social science, natural science and humanities, generally will be transferable. More specific descriptions of requirements should be obtained by writing to the schools in question since requirements vary from school to school.

**Pre-Engineering Program**

This program is a two-year program designed for the student who wishes to transfer to an engineering program at another University. Students are strongly advised to consult with the engineering school to which they plan to transfer for specific requirements. Courses taken may apply to other majors at the University if the student chooses to remain on campus to complete a bachelor’s degree.

Pre-engineering advisers in the department maintain contact with universities that offer related four-year programs in order to maximize the value of the transfer program of study at the University to other universities. Currently we offer a formal program with the University of Detroit-Mercy and transfer agreements with the University of Michigan in Ann Arbor and the University of Michigan in Dearborn.

An active articulation agreement exists between this program and a community college. To see a complete list of current colleges with program articulation agreements with EMU, please click here.

**Required Mathematics Courses: 18 hours**

- MATH 120 - Calculus I (Gen Ed Area II) 4 hrs
- MATH 121 - Calculus II 4 hrs
- MATH 122 - Elementary Linear Algebra 3 hrs
- MATH 223 - Multivariable Calculus 4 hrs
- MATH 325 - Differential Equations 3 hrs

**Required Physics Courses: 18 hours**

- PHY 223 - Mechanics and Sound (Gen Ed Area IV) 5 hrs
- PHY 224 - Electricity and Light 5 hrs
- PHY 229 - Strength and Elasticity of Materials 4 hrs
- PHY 230 - Engineering Dynamics 4 hrs

**Other Required Courses: 16 hours**

- One literature course (3 hrs)
- CHEM 121 - General Chemistry I (Gen Ed Area IV) 3 hrs
- CHEM 122 - General Chemistry I Laboratory (Gen Ed Area IV) 1 hr
- COSC 246 - Programming in C++ 3 hrs
- ECON 201 - Principles of Macroeconomics (Gen Ed Area IV) 3 hrs
- ENGL 121 - Composition II: Researching the Public Experience (Gen Ed Area I) 3 hrs

**Electives: 15 hours**

*see note*
More than three credit hours of computer science courses
More than three credit hours of literature courses
More than three credit hours of humanities courses
More than three credit hours of social science courses
Other courses with consultation
BIO 110 - Introductory Biology I (Gen Ed Area IV) 5 hrs
CHEM 123 - General Chemistry II 3 hrs
CHEM 124 - General Chemistry II Laboratory 1 hr
CHEM 341 - Fundamentals of Material Science 3 hrs
CHEM 371 - Organic Chemistry I 3 hrs
CHEM 372 - Organic Chemistry II 3 hrs
CHEM 373 - Organic Chemistry Laboratory 2 hrs
ECON 202 - Principles of Microeconomics (Gen Ed Area IV) 3 hrs
ENGL 225 - Writing in a Changing World 3 hrs
PHY 360 - Heat and Thermodynamics 4 hrs
PHY 370 - Introduction to Modern Physics 3 hrs
PHY 456 - Electronics for Scientists 4 hrs
PHY 471 - Atomic and Nuclear Physics 3 hrs
PHY 485 - Fluid Dynamics 3 hrs

Note:

All electives should be chosen in consultation with a pre-engineering adviser. Every engineering program has different requirements. Different fields in engineering (mechanical, electrical, nuclear, chemical, civil, aerospace, environmental, etc) requires different courses. Meeting with a pre-engineering adviser to develop a plan of study will maximize the value of your transfer program.

Pre-Law

Most law schools require a bachelor’s degree and evidence of potential for law school as measured by grade point average and the results of the Law School Admission Test (LSAT). In addition, most law school admission officers emphasize the importance of a broad academic background and the development of analytical and communication skills. The Department of Political Science provides counseling for prelaw students, LSAT registration, and application materials and catalogs from many law schools throughout the country.

Because law schools typically do not require specific courses for admission or identify any particular major or curriculum as preferable, it is necessary for prelaw students to plan their own academic programs. Given the increasing competitiveness of admission to law school, it is important that great care be exercised in selecting a program of study appropriate to a legal career and in maintaining a high level of academic performance. It is also prudent to choose a program that will provide a suitable alternative career.

The majors most commonly selected by prelaw students are political science, economics, history and sociology. Other frequent choices include English language and literature, communications, psychology, philosophy and business administration. Although less numerous, students with majors in mathematics, the natural sciences, foreign languages, music, and art also enter law school to enhance their career potential.

Whatever major and minor combination is chosen, attention also should be given to the selection of appropriate elective courses. Generally, any challenging course that will facilitate mastery of the use of language, develop critical understanding of human values and institutions, or contribute to the capacity for independent and creative thinking is likely to be useful. Among specific
courses that are often recommended by prelaw advisers are advanced English composition, persuasive speech, logic and accounting. Mathematics and science courses are frequently cited as helpful in developing needed analytical skills.

Prelaw students who desire to gain greater insight into the law and legal procedures, and law school approaches to legal studies, may choose from a broad range of courses offered by the Departments of Political Science, Sociology, Economics, History and Philosophy, and Marketing. The major and minor in public law and government, offered by the Department of Political Science, provides a firm foundation on which to build a career in law.

Pre-Medicine (Allopathic and Osteopathic), Pre-Veterinary, and Pre-Chiropractic, Pre-Optometry and Pre-Podiatry

Students planning on pursuing a career in the medical field can complete course requirements at EMU for admission to medicine, optometry, podiatry, veterinary and chiropractic programs. For information on these programs, see the advising coordinator.

While medical schools do not prescribe a premedical curriculum, they expect a thorough understanding of modern concepts in biology, chemistry and physics, and all value mathematical competence, with some specifying a course sequence in mathematics. Most pre-medical students, therefore, select a major in one of these areas, although this is not mandatory. Students should earn the bachelor’s degree prior to admission to medical school.

An important admission requirement for most medical schools, the Medical College Admission Test (MCAT), is given in April and August in various centers throughout the nation. This test should be taken after prerequisites in biology, chemistry and physics are completed, typically during the junior year.

Each allopathic and osteopathic medical school establishes its own admission requirements. The course requirements are similar but differ enough so that students should consult the catalogs of the schools in which they are interested. The latest edition of Medical School Admission Requirements, available at the reference desk of Halle library and in the pre-medicine adviser’s office, should be consulted. The introductory chapters of this book should be read by every prospective medical student.

If students electing the pre-medicine sequence are not achieving at least a 2.75 GPA (overall and in their major), their chances of acceptance by a medical school are minimal, and they should plan their programs so that other professional or vocational goals are possible.

The following programs have articulation agreements with the colleges listed below. For more information, please contact the department head or the Office of Community College Relations at 229 Rackham Hall, 487.6577. To see a complete list of current colleges with program articulation agreements with EMU, please click here.

B.S. Pre-Chiropractic — Logan University

Adviser Information:

Program Adviser: Michael Angell
Phone: 734.487.4242
Email: mangell@emich.edu

General Requirements: 60 hours
Students planning to apply for admission to a medical school should plan their schedule to include the following general requirements:

- Elective in English language or literature (3 hrs)
- Sociology and psychology courses (8 hrs)
- BIO 110 - Introductory Biology I (Gen Ed Area IV) 5 hrs
- BIO 120 - Introductory Biology II 5 hrs
- BIO 301 - Genetics 3 hrs
- BIO 305 - Cell and Molecular Biology 3 hrs
- BIO 306W - Cell and Molecular Biology and Genetics Laboratory (Gen Ed Area I, W) 3 hrs
- CHEM 121 - General Chemistry I (Gen Ed Area IV) 3 hrs
- CHEM 122 - General Chemistry I Laboratory (Gen Ed Area IV) 1 hr
- CHEM 123 - General Chemistry II 3 hrs
- CHEM 124 - General Chemistry II Laboratory 1 hr
- CHEM 371 - Organic Chemistry I 3 hrs
- CHEM 372 - Organic Chemistry II 3 hrs
- CHEM 373 - Organic Chemistry Laboratory 2 hrs
- CHEM 451 - Biochemistry I 3 hrs
- ENGL 121 - Composition II: Researching the Public Experience (Gen Ed Area I) 3 hrs
- PHY 221 - Mechanics, Sound and Heat (Gen Ed Area IV) 4 hrs
- PHY 222 - Electricity and Light 4 hrs

First Year-Pre-Medicine: 27-39 hours

*Because of the nature of the premedical program, if the student is a biology or chemistry major it is almost mandatory to follow the first year as patterned below.*

First Semester: 13-19 hours

- Mathematics (2-4 hrs)
  **see note**
- General education (2-6 hrs)
- BIO 110 - Introductory Biology I (Gen Ed Area IV) 5 hrs
- CHEM 121 - General Chemistry I (Gen Ed Area IV) 3 hrs
- CHEM 122 - General Chemistry I Laboratory (Gen Ed Area IV) 1 hr

Second Semester: 14-20 hours

*see note

- Mathematics (2-4 hrs)
  **see note**
- General education (3-7 hrs)
- BIO 120 - Introductory Biology II 5 hrs
- CHEM 123 - General Chemistry II 3 hrs
- CHEM 124 - General Chemistry II Laboratory 1 hr
Notes:

* Prior to registering for the second semester, the student should see the premedical coordinator.

** Students with one to two years of less than high-level algebra take MATH 105 - College Algebra (Gen Ed Area II). Students with only one year of algebra take MATH 104 - Intermediate Algebra, followed by MATH 105. Students without trigonometry take MATH 107 - Plane Trigonometry. Although students may need to take MATH 104, MATH 105 or MATH 107 these courses do not satisfy general education requirements. Students must still complete a mathematics course from the list of approved mathematics courses; biology majors will satisfy both general education and biology major requirements by taking MATH 120.

Pre-Mortuary Science

The pre-mortuary science program requires two academic years. Before entering the professional mortuary school, the student must complete at least 60 hours of college work that includes the following science and mathematics courses:

Adviser Information:

Program Adviser: Heather Holmes
Phone: 734.487.0106
Email: hholmes1@emich.edu

Recommended Courses

- BIO 105 - Introductory Biology for Non-majors (Gen Ed Area IV) 4 hrs
- CHEM 121 - General Chemistry I (Gen Ed Area IV) 3 hrs
- CHEM 122 - General Chemistry I Laboratory (Gen Ed Area IV) 1 hr
- CHEM 123 - General Chemistry II 3 hrs
- CHEM 124 - General Chemistry II Laboratory 1 hr
- MATH 104 - Intermediate Algebra 3 hrs
  Another mathematics elective may be substituted.
- PHY 101 - Physical Science in the Arts (Gen Ed Area IV) 4 hrs

Recommended Elective Courses

The Board of Examiners in Mortuary Science recommends the following courses for elective hours. They include behavioral sciences, business, counseling, first aid and public speaking.

- ACC 240 - Principles of Financial Accounting 3 hrs
- COUN 450 - An Introduction: Counseling Concepts and Skills 3 hrs
- CTAC 124 - Foundations of Speech Communication (Gen Ed Area I) 3 hrs
- CTAC 225 - Listening Behavior (Gen Ed Area IV) 3 hrs
- CTAC 226 - Nonverbal Communication (Gen Ed Area IV) 3 hrs
- CTAC 227 - Interpersonal Communication (Gen Ed Area IV) 3 hrs
- ECON 200 - The American Economy 3 hrs
- ECON 201 - Principles of Macroeconomics (Gen Ed Area IV) 3 hrs
- HLED 210 - Standard American Red Cross First Aid 2 hrs
- LAW 293 - Legal Environment of Business 3 hrs
- MKTG 360 - Principles of Marketing 3 hrs
- MKTG 363 - Retailing 3 hrs
- PSY 225 - Psychology of Religion 3 hrs
- PSY 323 - Psychology of Human Aging 3 hrs
- SOCL 105 - Introductory Sociology (Gen Ed Area IV) 3 hrs
- SOCL 311W - Aging and the Life Course (Gen Ed Area I, W) 3 hrs

Pre-Pharmacy

Two years of college work (60 transferable hours, including the courses listed below) are required for admission to a professional school of pharmacy. Some schools have additional required or recommended courses.

Programs in pharmacy require two to four additional years of study after acceptance into the program. Clinical experience is required for some, especially doctoral programs. Theses are minimal requirements. To be competitive for some pharmacy programs, students may need to complete a bachelors program. It is strongly advised that students contact pharmacy schools directly to determine whether additional coursework and PCAT exam scores are required.

Adviser Information:

Program Adviser: Tim Friebe
Phone: 734.487.0106
Email: tfriebe@emich.edu

Recommended Courses

- One biology course with a lab (Some schools require additional courses.)
- Two social science courses
- Two humanities courses (two foreign language courses may be substituted.)
- BIO 328 - Introductory Microbiology 3 hrs
- CHEM 121 - General Chemistry I (Gen Ed Area IV) 3 hrs
- CHEM 122 - General Chemistry I Laboratory (Gen Ed Area IV) 1 hr
- CHEM 123 - General Chemistry II 3 hrs
- CHEM 124 - General Chemistry II Laboratory 1 hr
- CHEM 371 - Organic Chemistry I 3 hrs
- CHEM 372 - Organic Chemistry II 3 hrs
- CHEM 373 - Organic Chemistry Laboratory 2 hrs
- ENGL 121 - Composition II: Researching the Public Experience (Gen Ed Area I) 3 hrs
- MATH 120 - Calculus I (Gen Ed Area II) 4 hrs

Academic Programming

SABR 177 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr
SABR 178 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs

SABR 179 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs

SABR 277 - Special Topics

A single topic is covered each semester, selected as the interest and/or problems change. Students may elect this course several times, provided different topics are studied.

Credit Hours: 1 hr

SABR 278 - Special Topics

A single topic is covered each semester, selected as the interest and/or problems change. Students may elect this course several times, provided different topics are studied.

Credit Hours: 2 hrs

SABR 279 - Special Topics

A single topic is covered each semester, selected as the interest and/or problems change. Students may elect this course several times, provided different topics are studied.

Credit Hours: 3 hrs

SABR 377 - Special Topics

One topic is covered each semester, selected as the interest and/or problems change. Students may elect this course several times, provided different topics are studied.

Credit Hours: 1 hr

SABR 378 - Special Topics

One topic is covered each semester, selected as the interest and/or problems change. Students may elect this course several times, provided different topics are studied.

Credit Hours: 2 hrs

SABR 379 - Special Topics
One topic is covered each semester, selected as the interest and/or problems change. Students may elect this course several times, provided different topics are studied.

**Credit Hours:** 3 hrs

**SABR 477 - Special Topics**

A single topic is covered each semester, selected as interest and/or problems change. Students may elect this course several times, provided different topics are studied.

**Credit Hours:** 1 hr

**SABR 478 - Special Topics**

A single topic is covered each semester, selected as interest and/or problems change. Students may elect this course several times, provided different topics are studied.

**Credit Hours:** 2 hrs

**SABR 479 - Special Topics**

A single topic is covered each semester, selected as interest and/or problems change. Students may elect this course several times, provided different topics are studied.

**Credit Hours:** 3 hrs

**SABR 480 - Special Topics**

**Credit Hours:** 4 hrs

*Last Updated:* New Course 08/2011, effective Fall 2011

**SABR 490 - Special Topics**

**Credit Hours:** 8 hrs

*Last Updated:* New Course 08/2011, effective Fall 2011

**UNIV 100L - Introduction to the University (Gen Ed Area V LBC)**

This course facilitates students’ successful transition to college. Students learn to navigate the University system and to identify and develop strategies for enhancing their learning. Through academically-engaging activities that connect the classroom to the EMU community, students learn how to live and learn in a multicultural environment.

**Credit Hours:** 1 hr

*Last Updated:* 11/2006

**UNIV 101L - Introduction to the University (Gen Ed Area V LBC)**

Restricted to first-time entering freshman and first semester transfer students. This course provides students the information and skills that help make the transition to college more successful. Students learn how to successfully manage the university system,
what study techniques can enhance their grades, and how to live and learn in a multicultural environment. In addition, the classes are small and allow students to develop individual relationships with the faculty/staff teaching team members and other students in the class. This class prepares students for success at EMU and beyond.

**Credit Hours:** 3 hrs  
**Class Restrictions:** First Term Freshman Only

UNIV 101L extends the orientation experience for first-year students. The course helps students learn and use the skills and sensibilities of successful college students, in and out of the classroom. The course connects students with themselves, others holding a stake in their success, and the University. Students make these connections by completing a variety of assignments involving writing, reading, and leaning skills, as well as interviewing and public speaking. In addition, this course satisfies the requirements in Area V: Life Beyond the Classroom by requiring students to participate in at least four cultural and/or academic events sponsored by an EMU organization.  
*Last Updated:* Links 04/2011

**Creative Scientific Inquiry Experience**

**CSIE 150L - Cyanobacteria in Ford Lake/ Huron River Watershed (Gen Ed Area V LBC)**

The focus of the course is an Academic Service-Learning project to characterize the genotype, and conditions for growth of potentially harmful cyanobacteria in Southeast Michigan waterways.

**Credit Hours:** 1 hr  
**Corequisites:** BIO 110, CHEM 121 and CHEM 122

*Last Updated:* Links 03/2011

**CSIE 177 - Five Miles to Clean Water**

Students will investigate various methods for providing clean drinking water in rural developing countries. Challenges include drilling down to the water table, bringing water from miles away, filtering out infectious/toxic contaminants, and water storage. Students will also conduct patent searches and build scaled down models of such devices as the Play Pump, Sono arsenic filter, and the Hippo Water Roller.

**Credit Hours:** 1 hr  
**Corequisites:** MATH 121 and PHY 223

*Last Updated:* Links 04/2011

**CSIE 177 - Inconvenient Truths**

Students will evaluate science topics for clarity, accuracy and misleading information using a variety of media sources including science periodicals, TV, and the internet. Students will prepare PowerPoint presentations for the public or a conference-quality poster to communicate complex information and research findings from the Great Lake Environmental Research Laboratory to the general public.

**Credit Hours:** 1 hr  
**Corequisites:** CTAC 124, CHEM 117 and CHEM 118

*Last Updated:* Links 04/2011

**CSIE 177 - Super-powered Applications for Elementary Math and Physics**
CSIE students will learn how to integrate physics and mathematics content and demonstrate applications through hands on classroom experiences and experiments.

**Credit Hours:** 1 hr  
**Corequisites:** MATH 108 and PHY 100  
**Last Updated:** Links 04/2011

### CSIE 177L - Groundwater Studies (Gen Ed Area I, W)

This course provides students that aspire to be professional scientists with an opportunity to participate in a real-world, environment-based scientific investigation while still at a very early stage of their studies. Investigations will be conducted in collaboration with a local government agency and will focus on sites in southeast Michigan.

**Credit Hours:** 1 hr  
**Concurrent Prerequisite:** ESSC 110 or BIO 110 or CHEM 121  
**Last Updated:** Links 04/2011

### CSIE 277 - Coaching Science Olympiad

This special CSIE seminar trains EMU students to become effective Science Olympiad Coaches and to assist area 6th – 12th grade teams. Science Olympiad is an extra-curricular program with regional, state and national competitions.

**Credit Hours:** 1 hr  
**Corequisites:** Enrollment in Phase I Content Methods, Literacy and Technology  
**Last Updated:** Course type 07/2011

### CSIE 277 - Digitized Motion Studies

In this cluster, calculus and physics students will apply such principles as vector analysis, integrals, velocity, and Newtonian laws to model real-life scenarios. Students analyze digital videos using sophisticated graphing programs to visualize 3-dimensional motion in 2-dimensional equations.

**Credit Hours:** 1 hr  
**Corequisites:** PHY 223 and MATH 121  
**Last Updated:** Links 04/2011

### CSIE 277 - Indicator Species- Stoneflies Search for Huron River Watershed and Friends of Rouge River

This course is intended to complement and integrate the material covered in both BIO120 Introductory Biology II and CHEM 123/124 General Chemistry II. The course will include participation in the Friends of the Rouge’s (FOTR) Annual Stonefly Search as an integral academic service-learning project.

**Credit Hours:** 1 hr  
**Last Updated:** Course type 07/2011

### CSIE 377 - Brownbag Organic Analysis

This seminar course will explore relationships between organic chemistry and quantitative analysis, focusing on thermodynamic properties such as pH and pKa, and structures and functions of relevant organic molecules such as indicators for titrations and
CSIE 377 - Modeling Concrete Mechanical Systems using MATLAB

An interdisciplinary course on the connections between classical mechanics and differential equations. The seminar will explore the mathematical modeling of various concrete mechanical systems using differential equations and software.

Credit Hours: 1 hr
Corequisites: MATH 325 and PHY 330
Last Updated: Links 04/2011

Study Abroad

SABR 470 - Study Abroad at JCMU -Japan (NEW COURSE)

Credit Hours: 13
Last Updated: New Course 8/2012

SABR 471 - Study Abroad at JCMU -Japan (NEW COURSE)

Credit Hours: 14
Last Updated: New Course 8/2012, effective Winter 2013

SABR 472 - Study Abroad at Tokyo Gakugei University-Japan (NEW COURSE)

Credit Hours: 15
Last Updated: New Course 8/2012, effective Winter 2013

SABR 473 - Study Abroad at Tokyo Gakugei University (GEN)-Japan (NEW COURSE)

Credit Hours: 15
Last Updated: New Course 8/2012, effective Fall 2012

SABR 474 - Study Abroad at Kansai Gaidai-Japan (NEW COURSE)

Credit Hours: 15
Last Updated: New Course 8/2012, effective Fall 2012

SABR 475 - Study Abroad at University Of Derby-United Kingdom (NEW COURSE)

Credit Hours: 12
Last Updated: New Course 8/2012, effective Fall 2012

SABR 476 - Study Abroad at Oxford Brooks University-United Kingdom (NEW COURSE)
Credit Hours: 15
Last Updated: New Course 8/2012, effective Fall 2012

SABR 481 - Study Abroad at ICN Business School-France (NEW COURSE)

Credit Hours: 15
Last Updated: New Course 8/2012, effective Winter 2013

SABR 482 - Study Abroad at Universite Catholique de L'Ouest-France (NEW COURSE)

Credit Hours: 15

Last Updated: New Course 8/2012, effective Winter 2013

SABR 493 - Study Abroad at CC-CS, Alicante, Spain

Students that opt for this course of study attend classes alongside other international students for whom Spanish is not their first language.

Designed as a language-intensive program at the intermediate to advanced Spanish levels, you will benefit from a rich language-
focused curriculum, taught by professors at Universidad de Alicante (UA). Spanish Studies students in this program also benefit from a unique culture course taught by the Resident Director called Social & Cultural Realities of Spain. This course allows you to synthesize your immersion experience from understanding daily life in the home stay to the historic and sociological foundations of Spain's current social reality.

**Credit Hours:** 18 hrs  
**Last Updated:** New Course, 12/2012, effective Winter 2013

**SABR 495 - Study Abroad, Novancia, Paris-France**

The courses taken at the Novancia Business School appear on the EMU transcript as EMU courses. Students may select courses to count towards a major, minor or General Education requirements, with approval from the appropriate department. Students may attend for one or two semesters.

**Credit Hours:** 15 hrs  
**Last Updated:** New Course, 11/2012, effective Winter 2013

**SABR 496 - Study Abroad at CC-CS, Alicante, Spain**

**Credit Hours:** 16 hrs  
**Last Updated:** New Course, 12/2012, effective Winter 2013

**SABR 497 - Study Abroad at JLU-Giessen, Germany**

**Credit Hours:** 16 hrs  
**Class Restrictions:** 3.0 GPA, and sophomore standing or above with completion of at least two semesters of study at EMU prior to departure.  
**Major Restrictions:** Priority is given to German Language Majors.  
**Last Updated:** New course 1/2013; effective Winter 2013

**Other Courses**

**SABR 494 - Study Abroad, EMU-Oxford Program-UK**

Eastern Michigan University operates an integrated academic study abroad program in Oxford. The EMU Oxford Program places students into one of a number of Oxford Colleges, including; Christ Church, Hertford College, New College, and St. Catherine's College.

Instruction is provided by Oxford University faculty and is based on the same individualized tutorial system that makes Oxford University one of the most distinguished educational institutions in the world. With on-campus advisers and on-site staff in Oxford, EMU ensures a unique and challenging academic experience. The staff in the office of Academic Programs Abroad are your first point of contact and can answer all your questions. The Oxford staff conducts an on-site orientation, coordinates housing and excursions, as well as works closely with faculty and advisers from many Oxford University Colleges to assure a high quality personal and academic experience.

**Credit Hours:** 12 hrs  
**Last Updated:** New Course, 12/2012, effective Winter 2013
Confirming Student LBC Participation

LBC Approved Experiences

- Students enrolled in **approved LBC courses**
  - automatically confirmed upon successful completion of the course
- Events and experiences where **student rosters** exist (e.g., coached sports)
  - final rosters (with student E#) should be submitted to General Education Office for upload into Banner
- **Non-course related community service**
  - coordination and confirmation will be done through the VISION office
- **Co-ops, internships**, student teaching, practicums, clinicals (and other course-related field experiences identified and approved through the Gen Ed Office)
  - students satisfactorily completing these courses will be automatically confirmed as meeting LBC(4) – Career and Professional Development
- **Approved non-course related experiences** (e.g., Echo editor; Wellness Wheel; performer in an EMU theatre production; participation on the MLK Day Planning Committee; presenter at the Undergraduate Symposium)
  - confirmed by the supervising “EMU employee” through my.emich
- **Attendance at EMU-sponsored cultural or academic events**
  - capture student names and E#s and submit for data entry

How to Confirm LBC Participation for Students

1. Confirming LBC participation through my.emich
   - Click on the “Employee” tab or “Faculty” tab
   - Click on “Application Administration” tab
   - Click on “Confirm Student LBC Participation”
   - Enter E# of the “EMU employee” confirming the participation
   - Enter E# of the student
   - Enter (through drop down menu) the LBC category being confirmed
   - Click “submit”

2. Confirming LBC participation using Excel spreadsheet
   - Open an Excel spreadsheet
   - Enter the following information – do NOT use column headings (see attached example)
     - Column A – Confirmer E#
     - Column B – LBC code (e.g. LB1, LB2, LB3, LB4, LB5, or LB6)
     - Column C – Date of event (mm/dd/yyyy format)
     - Column D – Student E#
     - Column E – Student last name
   - Save as a text file (.csv) with this name: LBC_EVENT_DATA_MMDDYY (reflecting Event Name and Date of Event)
   - Send file as email attachment to Chris Foreman (chris.foreman@emich.edu) as an attachment
