- Earn a minimum of 60 credits from a four-year college or university; courses taken at community colleges cannot be used to meet this requirement. (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 unique credit hours in their major and 20 unique credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
- Earn no more than 60 credit hours in one subject area (prefix). Credits in excess of the 60 maximum will not be counted toward the minimum of 124 credits required for a bachelor's degree.
- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more that one major or minor.
  - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
  - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
  - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor.
- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is conducted by individual departments/schools within EMU, and additional documentation may be required. Please note: EMU awards only credit for transferred courses; grades are not used in the calculation of an EMU GPA.
- Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be reached in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

General Education Requirements:
EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available in the General Education section of the catalog: General Education

Students who transferred to EMU may have modified general education requirements based on Michigan Transfer Agreement (MTA) or articulation agreements; consult your academic advisor for additional information.

University Information: Consult the online catalog at catalog.emich.edu.

K-12 Music Education Major (Instrumental)

Successful completion of this course of study, which leads to the Bachelor of Music Education degree, in the context of other program requirements, qualifies the student for recommendation for the Michigan Department of Education Secondary Provisional Certificate endorsed in music education (K-12), certification code JQ. The Michigan Test for Teacher Certification (MTTC) covering this field is #099, "Music."

Initial Teacher Preparation Program Admission

In order to pursue the sequence of courses necessary to complete eligibility for recommendation for certification, one must apply for and be admitted to the teacher preparation program. Admission requirements are common for all teacher preparation programs, except that certain special education programs have additional requirements.

Each undergraduate student is responsible for applying to the teacher preparation program immediately after the semester in which the student has earned 56 credit hours. Transfer students with more than 56 credit hours should apply immediately after the semester in which they have earned 12 hours at EMU, including at least one course in their major. Students with 56 hours of transfer course work with a decision GPA of 3.0 may apply for admission to the teacher preparation program without 12 earned hours at EMU.
Admission to the teacher preparation program is not automatic. Only those persons who have formally applied are considered for admission. Not all persons who apply become eligible for admission.

Applications for the Initial Teacher Preparation Program at EMU are available within your my.emich account under the "Student" tab. Submit your completed application to the Office of Academic Services once you have earned 56 credit hours.

Teaching majors and minors are unofficial until program admission. Students pursuing teacher certification should follow the catalog that exists at the time of program admission. It is important that students apply to the teacher preparation program as soon as they have earned 56 credit hours.

Criteria:

1. Completion of 56 credit hours
2. Appropriate cumulative GPA. One of:
   1. An overall EMU GPA of 2.5 or higher based on a minimum of 12 credit hours taken at EMU. An EMU GPA of 2.5 or higher in your major, based on at least one course in your major. The Elementary Education Major is comprehensive, therefore, the elementary major GPA is based on the cumulative of liberal arts curriculum and content course work.
   2. Transferred 56 credits with a cumulative 3.0 GPA from all previous institutions.
3. A grade of "C" or higher (if taken) in the following courses:
   1. If Secondary: ENGL 121, CTAC 124, Quantitative Reasoning (GEQR), one lab science, all professional education courses, and, if special education, PSY 101.
   2. If Elementary: ENGL 121, CTAC 124, MATH 108, MATH 110E, PHY 100, ESSC 202, all of the professional education courses, all courses that state "for elementary teachers," and, if special education, PSY 101.
4. Official Test Scores showing competency in each of the following areas: mathematics, reading and writing. Scores are accepted from the Professional Readiness Exam (PRE), Basic Skills Test (no longer offered), ACT, or Michigan Merit Exam (MME). The following scores are acceptable:
   1. Mathematics: PRE pass, Basic Skills pass, ACT mathematics 22 or higher, or MME mathematics 1116 or higher.
   2. Writing: PRE pass, Basic Skills pass, ACT combined English/writing 24 or higher, or MME writing 1129 or higher.
   3. Reading: PRE pass, Basic Skills pass, ACT reading 22 or higher, or MME reading 1108 or higher.
5. ICHAT criminal background check and Statement of Civil/Criminal Convictions. If you answered yes to any of the civil/criminal conviction questions on the application, you will need to provide:
   1. A copy of the Judgment of Sentence, or Registrar of Actions, or Certification of Conviction.
   2. A written explanation of the offense(s). Application of students with civil/criminal convictions will be carefully reviewed and may take longer to process.
6. Meet academic, social, moral, and financial obligations as a member of the EMU community.

General Education Requirements:

For specific requirements refer to the General Education Program.

Music Courses: 70-75 hours

Core Courses: 41 hours

- MUSC 101 - Music Theory I 3 hrs
- MUSC 102 - Music Theory II 3 hrs
- MUSC 119 - Aural Skills I 1 hr
- MUSC 129 - Aural Skills II 1 hr
- MUSC 201 - Music Theory III 3 hrs
- MUSC 202 - Music Theory IV 3 hrs
- MUSC 211 - Basic Brass Class 1 hr
- MUSC 219 - Aural Skills III 1 hr
- MUSC 228 - Basic Music Literature 3 hrs
- MUSC 229 - Aural Skills IV 1 hr
- MUSC 232 - Voice Class 1 hr
- MUSC 241 - Percussion 1 hr
- MUSC 251 - Functional Piano 1 hr
- MUSC 252 - Functional Piano 1 hr
- MUSC 253 - Functional Piano 1 hr
- MUSC 254 - Functional Piano 1 hr
- MUSC 261 - Basic String Class: Violin 1 hr
- MUSC 281 - Basic Woodwind Class 1 hr
- MUSC 301W - History of Music to 1750 (GEWI) 4 hrs
- MUSC 302 - History of Music 3 hrs
- MUSC 326 - Conducting 2 hrs
- MUSC 327 - Instrumental Conducting 2 hrs
- MUSC 413 - Orchestration 2 hrs

Two courses from the following: 2 hours
- MUSC 212 - Brass Class 1 hr
- MUSC 262 - String Class: Viola 1 hr
- MUSC 263 - String Class: Cello and Double Bass 1 hr
- MUSC 282 - Woodwind Class 1 hr
- MUSC 283 - Woodwind Class 1 hr

Major Instrumental Ensembles: 8-11 hours

Wind and Percussion Principals: 11 Hours
- MUSC 249 - University Band (GELB) 1 hr
  Students are required to take 8 hrs of MUSC 249, only one credit hour will be counted towards the degree each semester.
- MUSC 149M - Marching Band (GELB) 1 hr
  Students are required to take 3 hours of MUSC 149M, only one credit hour will be counted towards the degree each semester.

String Principals: 8 Hours
- MUSC 248 - University Orchestra 1 hr
  Students are required to take 8 hours of MUSC 248, only one credit hour will count towards the degree each semester.

Elective Courses (string principals only): 3 hours
Applied Music Courses: 16 hours

Senior recital approval is required. Students must enroll in Applied Music during the semester the recital is performed.

Music majors enrolled in Applied Music will also participate in a weekly studio class. Studio class times vary; please contact the Applied Music teacher for schedule.

Keyboard and guitar principals must take 

- AMUS 115A - Secondary Applied Music 2 hrs
  4 semesters (minimum): 8 hours
- AMUS 115B - Secondary Applied Music (wind/percussion/string instrument) (total of 4 hrs).

Improvisation Requirement: 0-2 hours

Students in this degree must meet an improvisation requirement. This requirement may be met in one of the following ways:

- MUSC 244 - Jazz Ensemble 1 hr
- MUSC 250 - Jazz Combo 1 hr
- MUSC 305 - Keyboard Skills 2 hrs
- Other approved improvisation course (see an adviser for details)
- Contract in Applied Music for at least one Fall or Winter semester. An improvisation Contract must be completed by the student and approved by the applied music instructor and department head at the beginning of the semester. A written evaluation of the student's improvisation work must be provided by the applied music instructor and approved by the department head at the completion of the semester. Applied music improvisation projects can be in any style (jazz, classical, world music, etc.) and should be equivalent to one credit of independent study.

Professional Studies: 34 hours

Pre-Admission Phase: The Learner and the Community: 7 hours

The following courses may be taken before formal admission to the Initial Teacher Preparation Program:

- 100 clock hours of approved prestudent teaching field experiences (0 hrs)
- EDPS 322 - Human Development and Learning 4 hrs
- SPGN 251 - Introduction to Inclusion and Disabilities Studies in a Diverse Society (GEUS) 3 hrs

The following courses require formal admission to the Initial Teacher Preparation Program:

Phase I: Curriculum, Assessment and Social Context: 6 hours

- MUSC 332 - Instrumental Music in the Public Schools 3 hrs
• SOFD 328W - Schools for a Diverse and Democratic Society (GEWI) 3 hrs

Phase II: Content Methods, Literacy and Technology: 9 hours

• EDMT 330 - Instructional Applications of Media and Technology 3 hrs
• RDNG 311 - Teaching Reading in the Secondary School 3 hrs

One course from the following:

• MUSC 333 - Orchestral Methods 3 hrs
• MUSC 334 - Band Methods 3 hrs

Phase III: Capstone Experience: 12 hours

All Bachelor of Music Education students must pass a program specific screening exam before being approved for student teaching.

• EDUC 496 - Student Teaching (GELB) 6 hrs
• EDUC 497 - Student Teaching (GELB) 6 hrs

Minor Requirements:

This program does not require a minor.

Program Total:

Students must earn a minimum total of 124 credits at the 100-level or above.

MTTC Subject Area Test

Starting January 1, 2013, Students seeking licensure in a secondary or K-12 area are not required to take the MTTC subject area test in their minor area. Students who elect not to take the test in their minor will be required to sign a statement indicating that they understand that they will not be endorsed in their minor area and will not be eligible for teaching positions in their minor unless they pass the minor subject area test within five years of completing field experience and course requirements.

Note:

Recital Attendance Requirement
Each undergraduate music major must attend a total of 80 recitals/concerts (events) during their time of undergraduate study; they will receive credit for no more than 25 events per academic year. Students who fail to meet this requirement will not be permitted to graduate. The number of events that transfer students and students seeking a second bachelor's degree must attend will be prorated, based on the number of semesters of work remaining at the time of their matriculation. Normally each semester the student will attend at least ten musical events, of which five are usually the Department of Music and Dance weekly student recitals. Credit will be received for attendance at any Department of Music and Dance event. Students must be present for an entire event to receive credit. The cards are collected at the end of the program. A student who is performing in an event may receive recital attendance credit for that event if the student performs in less than 50 percent of the event. Attendance at many non-departmental musical events may be credited toward the recital attendance requirement. To obtain credit, bring a ticket stub
and program to the music office. The Head of the Department of Music and Dance will determine whether or not the event qualifies for recital credit.

Critical Graduation Information:

Each undergraduate student will be responsible for the fulfillment of the requirements or their equivalents of the Eastern Michigan University catalog in force at the time of their initial registration at a college or university or a subsequent catalog including the one in effect at the time of their graduation.

In the event an undergraduate student does not complete the degree requirements within seven years of the date of their original registration at a college or university, the student may be required to have their credits re-evaluated by the academic department(s) of their major/minor in keeping with catalog requirements in force during the year of their graduation.

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the 100-level and above. Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Complete a Writing Intensive (WI) Course in your major.
- Earn a minimum of 60 credits from a four-year college or university; courses taken at community colleges cannot be used to meet this requirement. (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 unique credit hours in their major and 20 unique credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
- Earn no more than 60 credit hours in one subject area (prefix). Credits in excess of the 60 maximum will not be counted toward the minimum of 124 credits required for a bachelor's degree.
- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more that one major or minor.
  - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
  - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
  - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor
- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is conducted by individual departments/schools within EMU, and additional documentation may be required. Please note: EMU awards only credit for transferred courses; grades are not used in the calculation of an EMU GPA.
- Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be reached in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)
General Education Requirements:

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available in the General Education section of the catalog: General Education

Students who transferred to EMU may have modified general education requirements based on Michigan Transfer Agreement (MTA) or articulation agreements; consult your academic advisor for additional information.

University Information: Consult the online catalog at catalog.emich.edu.

K-12 Music Education Major (Vocal)

Program Revised, effective Fall 2013

Successful completion of this course of study, which leads to the bachelor of music education degree, in the context of other program requirements, qualifies the student for recommendation for the Michigan Department of Education Secondary Provisional Certificate endorsed in music education, K-12 certification code JQ. The Michigan Test for Teacher Certification (MTTC) covering this field is #099, "Music."

At the time of admission, students with voice as a principal instrument must study keyboard and demonstrate the required level of proficiency for graduation; students with keyboard as a principal instrument must study voice and demonstrate the required level of proficiency for graduation; and students with guitar as a principal instrument must study both voice and piano, demonstrating the required level of proficiency on both for graduation.

6. Meet academic, social, moral, and financial obligations as a member of the EMU community.
General Education Requirements:

For specific requirements refer to the General Education Program.

Music Courses: 69–77 hours

Core Courses: 45 hours

- MUSC 101 - Music Theory I 3 hrs
- MUSC 102 - Music Theory II 3 hrs
- MUSC 110 - Vocal Diction I: English and Italian 1 hr
- MUSC 111 - Vocal Diction II: German and French 1 hr
- MUSC 119 - Aural Skills I 1 hr
- MUSC 129 - Aural Skills II 1 hr
- MUSC 201 - Music Theory III 3 hrs
- MUSC 202 - Music Theory IV 3 hrs
- MUSC 219 - Aural Skills III 1 hr
- MUSC 228 - Basic Music Literature 3 hrs
- MUSC 229 - Aural Skills IV 1 hr
- MUSC 241 - Percussion 1 hr
- MUSC 251 - Functional Piano 1 hr
- MUSC 252 - Functional Piano 1 hr
- MUSC 253 - Functional Piano 1 hr
- MUSC 254 - Functional Piano 1 hr
- MUSC 274 - Functional Guitar 1 hr
- MUSC 301W - History of Music to 1750 (GEWI) 4 hrs
- MUSC 302 - History of Music 3 hrs
- MUSC 305 - Keyboard Skills 2 hrs
- MUSC 326 - Conducting 2 hrs
- MUSC 328 - Choral Conducting 2 hrs
- MUSC 413 - Orchestration 2 hrs

One course from the following:

- MUSC 211 - Basic Brass Class 1 hr
- MUSC 212 - Brass Class 1 hr

One course from the following:

- MUSC 261 - Basic String Class: Violin 1 hr
- MUSC 262 - String Class: Viola 1 hr
- MUSC 263 - String Class: Cello and Double Bass 1 hr

One course from the following:

- MUSC 281 - Basic Woodwind Class 1 hr
- MUSC 282 - Woodwind Class 1 hr
- MUSC 283 - Woodwind Class 1 hr

**Major Vocal Ensemble: 8 hours**

*Must include at least four semesters of MUSC 131 - University Choir. Only one hour per semester counted toward degree.

**Applied Music Courses: 16–24 hours**

*Number of credit hours is determined by audition and principal instrument of choice.*

*Music majors enrolled in Applied Music will also participate in a weekly studio class. Studio class times vary; please contact the Applied Music teacher for schedule.*

**Principal Instrument Courses (Keyboard, Voice or Guitar): 16 hours**

*Senior recital approval is required. Students must enroll in applied music during the semester a degree recital is performed.*

- AMUS 116A - Principal Applied Music 2 hrs
  4 semesters (minimum): 8 hours
- AMUS 416A - Principal Applied Music 2 hrs
  4 semesters (minimum): 8 hours

**Secondary Instrument Courses (Keyboard, Voice or Guitar): 0–8 hours**

*One option from the following:*

**Option I: 0–4 hours**

*If voice is the principal instrument, take AMUS 115 (keyboard) until the prerequisite for AMUS 415 (keyboard) is met.*

**Option II: 0–4 hours**

*If keyboard is the principal instrument, take AMUS 115 (voice) until the prerequisite for AMUS 415 (voice) is met.*

**Option III: 0–8 hours**

*If guitar is the principal instrument, take AMUS 115 (keyboard) and AMUS 115 (voice) until the prerequisite for AMUS 415 is met in both instruments.*

**Improvisation Requirement: 0-2 hours**

*Students in this degree must meet an improvisation requirement. This requirement may be met in one of the following ways:*

- MUSC 244 - Jazz Ensemble 1 hr
- MUSC 250 - Jazz Combo 1 hr
- MUSC 305 - Keyboard Skills 2 hrs
- Other approved improvisation course (see an adviser for details)
- Contract in Applied Music for at least one Fall or Winter semester. An improvisation Contract must be completed by the student and approved by the applied music instructor and department head at the beginning of the semester. A written evaluation of the student's improvisation work must be provided by the applied music instructor and approved by the department head at the completion of the semester. Applied music improvisation projects can be in any style (jazz, classical, world music, etc.) and should be equivalent to one credit of independent study.

Professional Studies: 34 hours

Pre-Admission phase: The Learner and the Community: 7 hours

*The following courses may be taken before formal admission to the Initial Teacher Preparation Program:*

- 100 clock hours of approved prestudent teaching field experiences (0 hrs)
- EDPS 322 - Human Development and Learning 4 hrs
- SPGN 251 - Introduction to Inclusion and Disabilities Studies in a Diverse Society (GEUS) 3 hrs

*The following courses require formal admission to the Initial Teacher Preparation Program:*

Phase I: Curriculum, Assessment and the Social Context: 6 hours

- MUSC 330 - Music Education in the Elementary School 3 hrs
- SOFD 328W - Schools for a Diverse and Democratic Society (GEWI) 3 hrs

Phase II: Content Methods, Literacy and Technology: 9 hours

- EDMT 330 - Instructional Applications of Media and Technology 3 hrs
- MUSC 331 - Music Education in the Secondary School 3 hrs
- RDNG 311 - Teaching Reading in the Secondary School 3 hrs

Phase III: Capstone Experience: 12 hours

*All Bachelor of Music Education students must pass a program specific screening exam before being approved for student teaching.*

- EDUC 496 - Student Teaching (GELB) 6 hrs
- EDUC 497 - Student Teaching (GELB) 6 hrs

Minor Requirements:

This program does not require a minor.

Program Total:
Students must earn a minimum total of 124 credits at the 100-level or above.

Note:

Recital Attendance Requirement
Each undergraduate music major must attend a total of 80 recitals/concerts (events) during their time of undergraduate study; they will receive credit for no more than 25 events per academic year. In the event an undergraduate student does not complete the degree requirements within seven years of the date of their original registration at a college or university, the student may be required to have their credits re-evaluated by the academic department(s) of their major/minor in keeping with catalog requirements in force during the year of their graduation.

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the 100-level and above. Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Complete a Writing Intensive (WI) Course in your major.
- Earn a minimum of 60 credits from a four-year college or university; courses taken at community colleges cannot be used to meet this requirement. (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 unique credit hours in their major and 20 unique credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a
minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.

- Earn no more than 60 credit hours in one subject area (prefix). Credits in excess of the 60 maximum will not be counted toward the minimum of 124 credits required for a bachelor's degree.
- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more that one major or minor.
  - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
  - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
  - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor.
- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is conducted by individual departments/schools within EMU, and additional documentation may be required. Please note: EMU awards only credit for transferred courses; grades are not used in the calculation of an EMU GPA.
- Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be reached in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

General Education Requirements:

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available in the General Education section of the catalog: General Education

Students who transferred to EMU may have modified general education requirements based on Michigan Transfer Agreement (MTA) or articulation agreements; consult your academic advisor for additional information.

University Information: Consult the online catalog at catalog.emich.edu.

Music Major

Students must complete the requirements for the Bachelor of Arts or Bachelor of Science degrees by including the academic major below and a different minor subject of 20 to 24 hours in some other department. Bachelor of Arts degrees include one year of foreign language. Students will not earn a teaching certificate by completing this major.

Department Information:

Music & Dance Department - College of Arts & Sciences

Diane L. Winder, D.M., Department Head

354 Alexander Building
(734) 487-1421
diane.winder@emich.edu

Department Website
All prospective students (including transfers) must apply to the Department of Music and Dance and complete an entrance audition. Admissions information and access to the department's online application are available here. Applications must be submitted at least seven days in advance of the requested audition day.

In addition to the degree requirements stated below, students must learn and abide by additional department polices posted on the department's website.

Advisor Information:

Program Advisor: Dr. David Pierce
Email: david.pierce@emich.edu
Phone: 734.487.4380

General Education Requirements:

For specific requirements refer to the General Education Program.

Major Requirements: 52–53 hours

Core Courses: 30 hours

- MUSC 101 - Music Theory I 3 hrs
- MUSC 102 - Music Theory II 3 hrs
- MUSC 119 - Aural Skills I 1 hr
- MUSC 129 - Aural Skills II 1 hr
- MUSC 201 - Music Theory III 3 hrs
- MUSC 202 - Music Theory IV 3 hrs
- MUSC 219 - Aural Skills III 1 hr
- MUSC 228 - Basic Music Literature 3 hrs
- MUSC 229 - Aural Skills IV 1 hr
- MUSC 251 - Functional Piano 1 hr
- MUSC 252 - Functional Piano 1 hr
- MUSC 253 - Functional Piano 1 hr
- MUSC 254 - Functional Piano 1 hr
- MUSC 301W - History of Music to 1750 (GEWI) 4 hrs
- MUSC 302 - History of Music 3 hrs

Two courses from the following: 4–5 hours

- MUSC 315 - Introduction to Digital Music 2 hrs
- MUSC 317 - Music Composition 2 hrs
- MUSC 341 - Contrapuntal Techniques 2 hrs
- MUSC 401 - Music Theory-Literature V 2 hrs
- MUSC 402 - Music Theory-Literature VI 2 hrs
- MUSC 404 - Psychology of Music 3 hrs
- MUSC 413 - Orchestration 2 hrs
Major Ensemble: 6 hours

Only one hour per semester counted toward degree.

Applied Music (principal instrument): 12 hours

*Music majors enrolled in Applied Music will also participate in a weekly studio class. Studio class times vary; please contact the Applied Music teacher for schedule.*

- AMUS 116A - Principal Applied Music 2 hrs
  4 semesters (minimum): 8 hours
- AMUS 416A - Principal Applied Music 2 hrs
  2 semesters (minimum): 4 hours

Minor Requirements:

This program requires a minor. Please contact your program advisor for a list of possible minors.

Program Total:

Students must earn a minimum total of 124 credits at the 100-level or above.

Note:

*Bachelor of Arts degrees include one year of foreign language.*

*Students must also complete University Electives to bring the total credits taken to be 124.*

**Recital Attendance Requirement**

Each undergraduate music major must attend a total of 80 recitals/concerts (events) during their time of undergraduate study; they will receive credit for no more than 25 events per academic year. Students who fail to meet this requirement will not be permitted to graduate. The number of events that transfer students and students seeking a second bachelor's degree must attend will be prorated, based on the number of semesters of work remaining at the time of their matriculation. Normally each semester the student will attend at least ten musical events, of which five are usually the Department of Music and Dance weekly student recitals. Credit will be received for attendance at any Department of Music and Dance event. Students must be present for an entire event to receive credit. The cards are collected at the end of the program. A student who is performing in an event may receive recital attendance credit for that event if the student performs in less than 50 percent of the event. Attendance at many non-departmental musical events may be credited toward the recital attendance requirement. To obtain credit, bring a ticket stub and program to the music office. The Head of the Department of Music and Dance will determine whether or not the event qualifies for recital credit.

**Critical Graduation Information:**

Each undergraduate student will be responsible for the fulfillment of the requirements or their equivalents of the Eastern Michigan University catalog in force at the time of their initial registration at a college or university or a subsequent catalog including the one in effect at the time of their graduation.
In the event an undergraduate student does not complete the degree requirements within seven years of the date of their original registration at a college or university, the student may be required to have their credits re-evaluated by the academic department(s) of their major/minor in keeping with catalog requirements in force during the year of their graduation.

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the 100-level and above. Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Complete a Writing Intensive (WI) Course in your major.
- Earn a minimum of 60 credits from a four-year college or university; courses taken at community colleges cannot be used to meet this requirement. (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 unique credit hours in their major and 20 unique credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
- Earn no more than 60 credit hours in one subject area (prefix). Credits in excess of the 60 maximum will not be counted toward the minimum of 124 credits required for a bachelor's degree.
- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more that one major or minor.
  - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor.
  - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
  - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor.
- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is conducted by individual departments/schools within EMU, and additional documentation may be required. Please note: EMU awards only credit for transferred courses; grades are not used in the calculation of an EMU GPA.
- Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be reached in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

**General Education Requirements:**

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available in the General Education section of the catalog: General Education

Students who transferred to EMU may have modified general education requirements based on Michigan Transfer Agreement (MTA) or articulation agreements; consult your academic advisor for additional information.

**University Information:** Consult the online catalog at catalog.emich.edu.
Music Performance Major (Instrumental)-With specialization in guitar, keyboard, strings, winds or percussion

The bachelor of music degree curriculum is available for students who wish to pursue a career in performance.

In addition to the degree requirements stated below, students must learn and abide by additional department polices posted on the department's website.

Advisor Information:

Program Advisor: Dr. David Pierce
Email: david.pierce@emich.edu
Phone: 734.487.4380

General Education Requirements:

For specific requirements refer to the General Education Program.

Courses common to all specializations: 68-71 hours

Core Courses: 32 hours

- MUSC 101 - Music Theory I 3 hrs
- MUSC 102 - Music Theory II 3 hrs
- MUSC 119 - Aural Skills I 1 hr
- MUSC 129 - Aural Skills II 1 hr
- MUSC 201 - Music Theory III 3 hrs
- MUSC 202 - Music Theory IV 3 hrs
- MUSC 219 - Aural Skills III 1 hr
- MUSC 228 - Basic Music Literature 3 hrs
- MUSC 229 - Aural Skills IV 1 hr
- MUSC 251 - Functional Piano 1 hr
• MUSC 252 - Functional Piano 1 hr
• MUSC 253 - Functional Piano 1 hr
• MUSC 254 - Functional Piano 1 hr
• MUSC 301W - History of Music to 1750 (GEWI) 4 hrs
• MUSC 302 - History of Music 3 hrs
• MUSC 326 - Conducting 2 hrs

Two courses from the following: 4-5 hours

• MUSC 315 - Introduction to Digital Music 2 hrs
• MUSC 317 - Music Composition 2 hrs
• MUSC 341 - Contrapuntal Techniques 2 hrs
• MUSC 401 - Music Theory-Literature V 2 hrs
• MUSC 402 - Music Theory-Literature VI 2 hrs
• MUSC 404 - Psychology of Music 3 hrs
• MUSC 413 - Orchestration 2 hrs

Applied Music: 32 hours

Both a junior and a senior recital are required. Students must enroll in Applied Music during the semester each recital is performed.

Music majors enrolled in Applied Music will also participate in a weekly studio class. Studio class times vary; please contact the Applied Music teacher for schedule.

• AMUS 116B - Principal Applied Music 4 hrs
  4 semesters (minimum): 16 hours
• AMUS 416B - Principal Applied Music 4 hrs
  4 semesters (minimum): 16 hours

Improvisation Requirement: 0-2 hours

Students in this degree must meet an improvisation requirement. This requirement may be met in one of the following ways:

• MUSC 244 - Jazz Ensemble 1 hr
• MUSC 250 - Jazz Combo 1 hr
• MUSC 305 - Keyboard Skills 2 hrs
• Other approved improvisation course (see an adviser for details)
• Contract in Applied Music for at least one Fall or Winter semester. An improvisation Contract must be completed by the student and approved by the applied music instructor and department head at the beginning of the semester. A written evaluation of the student's improvisation work must be provided by the applied music instructor and approved by the department head at the completion of the semester. Applied music improvisation projects can be in any style (jazz, classical, world music, etc.) and should be equivalent to one credit of independent study.

Courses Chosen According to Area of Specialization: 13-16 hours
Area I: Guitar

- Ensembles (8 hrs)
  Only one hour per semester counted toward degree.

- Any elective courses in music (5-8 hrs)

Area II: Keyboard

- Ensembles (8 hrs) (may include up to two credit hours of accompanying)
  Only one hour per semester counted toward degree.

- Elective courses in music (5-8 hrs)

Area III: Strings

- Elective courses in music (4–7 hrs)
- MUSC 248 - University Orchestra 1 hr
  8 semesters (minimum): 8 hours Only one hour per semester counted toward degree.

One course from the following:

Violin principal:

One course from the following:

- AMUS 115A - Secondary Applied Music 1 hr
- MUSC 262 - String Class: Viola 1 hr

Viola principal:

One course from the following:

- AMUS 115A - Secondary Applied Music 1 hr
- MUSC 261 - Basic String Class: Violin 1 hr

Cello principal:

One course from the following:

- AMUS 115A - Secondary Applied Music 1 hr
- MUSC 263 - String Class: Cello and Double Bass 1 hr

String Bass principal:

One course from the following:

- AMUS 115A - Secondary Applied Music 1 hr
Area IV: Wind and Percussion

- Electives courses in music (5-8 hrs)
- MUSC 249 - University Band (GELB) 1 hr
  8 semesters (minimum): 8 hours

Minor Requirements:

This program does not require a minor.

Note:

Recital Attendance Requirement
Each undergraduate music major must attend a total of 80 recitals/concerts (events) during their time of undergraduate study; they will receive credit for no more than 25 events per academic year. Students who fail to meet this requirement will not be permitted to graduate. The number of events that transfer students and students seeking a second bachelor's degree must attend will be prorated, based on the number of semesters of work remaining at the time of their matriculation.   o Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
  o Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor
• Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is conducted by individual departments/schools within EMU, and additional documentation may be required. Please note: EMU awards only credit for transferred courses; grades are not used in the calculation of an EMU GPA.
• Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be reached in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

General Education Requirements:

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available in the General Education section of the catalog: General Education

Students who transferred to EMU may have modified general education requirements based on Michigan Transfer Agreement (MTA) or articulation agreements; consult your academic advisor for additional information.

University Information: Consult the online catalog at catalog.emich.edu.

Music Therapy Major

Successful completion of the requirements for the Bachelor of Music Therapy degree makes students eligible to sit for the Certification Examination given by the Certification Board for Music Therapists™.

The Bachelor of Music Therapy degree is awarded on completion of this curriculum. The degree program is approved by the American Music Therapy Association.

Certification in Music Therapy
The Certification Board for Music Therapists (CBMT) mandates that candidates for board certification must have successfully completed the academic and clinical training requirements for music therapy, or their equivalent, as established by the American Music Therapy Association. Candidates who pass the CBMT examination are allowed to use the credential "Music Therapist-Board Certified" (MT-BC).

**Admission**

Students must submit a 3-page double-spaced essay on the topic of "Why I wish to pursue a degree in music therapy." Include personal perspectives and motivations as well as current understanding of the field of music therapy and how you see yourself within the field. All essays are to be saved as a Word (.doc or .docx) document and sent as an attachment to Dr. Theresa Merrill, Director of Music Therapy at tmerril1@emich.edu.

**Department Information:**

Music & Dance Department - College of Arts & Sciences

Diane L. Winder, D.M., Department Head

354 Alexander Building
(734) 487-1421
diane.winder@emich.edu

Department Website

All prospective students (including transfers) must apply to the Department of Music and Dance and complete an entrance audition. Admissions information and access to the department's online application are available here. Applications must be submitted at least seven days in advance of the requested audition day.

In addition to the degree requirements stated below, students must learn and abide by additional department polices posted on the department's website.

**Advisor Information:**

Program Advisor:

**Theresa Merrill**
Assistant Professor

Music and Dance
N101 Alexander
(734) 487-4380
tmerril1@emich.edu

**General Education Requirements:**

For specific requirements refer to the General Education Program.

**Major Requirements: 56 hours**

**Core Courses: 38 hours**

- MUSC 101 - Music Theory I 3 hrs
• MUSC 102 - Music Theory II 3 hrs
• MUSC 119 - Aural Skills I 1 hr
• MUSC 129 - Aural Skills II 1 hr
• MUSC 201 - Music Theory III 3 hrs
• MUSC 202 - Music Theory IV 3 hrs
• MUSC 219 - Aural Skills III 1 hr
• MUSC 228 - Basic Music Literature 3 hrs
• MUSC 229 - Aural Skills IV 1 hr
• MUSC 232 - Voice Class 1 hr
• MUSC 241 - Percussion 1 hr
• MUSC 251 - Functional Piano 1 hr
• MUSC 252 - Functional Piano 1 hr
• MUSC 253 - Functional Piano 1 hr
• MUSC 254 - Functional Piano 1 hr
• MUSC 301W - History of Music to 1750 (GEWI) 4 hrs
• MUSC 302 - History of Music 3 hrs
• MUSC 305 - Keyboard Skills 2 hrs
• MUSC 326 - Conducting 2 hrs
• MUSC 413 - Orchestration 2 hrs

Ensembles: 4 hours

Must include at least two credit hours of vocal ensemble. Only one hour per semester counted toward degree.

Applied Music Courses: 14 hours

• AMUS 116A - Principal Applied Music 2 hrs
  4 semesters (minimum): 8 hours
• AMUS 416A - Principal Applied Music 2 hrs
  3 semesters (minimum): 6 hours

Music Therapy Courses: 31 hours

• MUSC 103 - Introduction to Music Therapy 3 hrs
• MUSC 109 - Music Therapy Improvisation Ensemble I 1 hr
• MUSC 209 - Music Therapy Improvisation Ensemble II 1 hr
• MUSC 225 - Voice Skills with Special Populations 1 hr
• MUSC 226 - Guitar Skills with Special Populations 2 hrs
• MUSC 236 - Pre-internship Clinical Training in Music Therapy I 1 hr
• MUSC 237 - Pre-internship Clinical Training in Music Therapy II 1 hr
• MUSC 238 - Methods and Materials in Music Therapy 3 hrs
• MUSC 303 - Music Therapy Clinical Approaches 2 hrs
• MUSC 304 - Music Therapy Professional Skills 2 hrs
• MUSC 309 - Music Therapy Improvisation Ensemble III 1 hr
• MUSC 323 - Pre-internship Clinical Training in Music Therapy III 1 hr
• MUSC 324 - Pre-internship Clinical Training in Music Therapy IV 1 hr
• MUSC 404 - Psychology of Music 3 hrs
• MUSC 405 - Music Therapy Research 3 hrs
• MUSC 409 - Music Therapy Improvisation Ensemble IV 1 hr
• MUSC 427 - Pre-internship Clinical Training in Music Therapy V 1 hr
• MUSC 428 - Pre-internship Clinical Training in Music Therapy VI 1 hr
• MUSC 488 - Clinical Training Internship in Music Therapy 2 hrs

Additional Requirements: 10 hours

• BIO 105 - Introductory Biology for Non-majors (GEKN) 4 hrs
• PSY 360 - Abnormal Psychology 3 hrs
• SPGN 251 - Introduction to Inclusion and Disabilities Studies in a Diverse Society (GEUS) 3 hrs

Improvisation Requirement: 0-2 hours

Students in this degree must meet an improvisation requirement. This requirement may be met in one of the following ways:

• MUSC 244 - Jazz Ensemble 1 hr
• MUSC 250 - Jazz Combo 1 hr
• MUSC 305 - Keyboard Skills 2 hrs
• Other approved improvisation course (see an adviser for details)
• Contract in Applied Music for at least one Fall or Winter semester. An improvisation Contract must be completed by the student and approved by the applied music instructor and department head at the beginning of the semester. A written evaluation of the student's improvisation work must be provided by the applied music instructor and approved by the department head at the completion of the semester. Applied music improvisation projects can be in any style (jazz, classical, world music, etc.) and should be equivalent to one credit of independent study.

Minor Requirements:

This program does not require a minor.

Note:

Recital Attendance Requirement
Each undergraduate music major must attend a total of 80 recitals/concerts (events) during their time of undergraduate study; they will receive credit for no more than 25 events per academic year. Students who fail to meet this requirement will not be permitted to graduate. The number of events that transfer students and students seeking a second bachelor's degree must attend will be prorated, based on the number of semesters of work remaining at the time of their matriculation. Normally each semester the student will attend at least ten musical events, of which five are usually the Department of Music and Dance weekly student recitals. Credit will be received for attendance at any Department of Music and Dance event. Students must be present for an entire event to receive credit. The cards are collected at the end of the program. A student who is performing in an event may receive recital attendance credit for that event if the student performs in less than 50 percent of the event. Attendance at many non-departmental musical events may be credited toward the recital attendance requirement. To obtain credit, bring a ticket stub and program to the music office. The Head of the Department of Music and Dance will determine whether or not the event qualifies for recital credit.
Program Total:

Students must earn a minimum total of 124 credits at the 100-level or above.

Critical Graduation Information:

Each undergraduate student will be responsible for the fulfillment of the requirements or their equivalents of the Eastern Michigan University catalog in force at the time of their initial registration at a college or university or a subsequent catalog including the one in effect at the time of their graduation.

In the event an undergraduate student does not complete the degree requirements within seven years of the date of their original registration at a college or university, the student may be required to have their credits re-evaluated by the academic department(s) of their major/minor in keeping with catalog requirements in force during the year of their graduation.

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the 100-level and above. Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Complete a Writing Intensive (WI) Course in your major.
- Earn a minimum of 60 credits from a four-year college or university; courses taken at community colleges cannot be used to meet this requirement. (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor.
- Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
- Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor.
- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is conducted by individual departments/schools within EMU, and additional documentation may be required. Please note: EMU awards only credit for transferred courses; grades are not used in the calculation of an EMU GPA.
• Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be reached in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

General Education Requirements:

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available in the General Education section of the catalog: General Education

Students who transferred to EMU may have modified general education requirements based on Michigan Transfer Agreement (MTA) or articulation agreements; consult your academic advisor for additional information.

University Information: Consult the online catalog at catalog.emich.edu.

Minor

Dance Minor

Students planning admission to the dance minor must complete the following:

1. An audition into the program.
3. A course of study planned with a dance advisor upon admission into the program.

Department Information:

Music & Dance Department - College of Arts & Sciences

Diane L. Winder, D.M., Department Head
354 Alexander Building
(734) 487-1421
diane.winder@emich.edu

Department Website

All prospective students (including transfers) must apply to the Department of Music and Dance and complete an entrance audition. Admissions information and access to the department's online application are available here. Applications must be submitted at least seven days in advance of the requested audition day.

In addition to the degree requirements stated below, students must learn and abide by additional department polices posted on the department's website.

Advisor Information:

Sherry Wilkinson, Professor

Music and Dance
N101 Alexander Hall
(734) 487-4380
sjerome@emich.edu
Minor Requirements: 32 hours

- Two levels of Modern Dance Technique I–IV
  (DANC 110, DANC 111, DANC 210 and DANC 211) (6 hrs)

- Two levels of Classical Ballet Technique I–IV
  (DANC 108, DANC 109, DANC 208 or DANC 209) (6 hrs)

- One level of Jazz I-II
  (DANC 101 or DANC 201) (2 hrs)

- DANC 107 - Rhythmic Analysis and Dance Accompaniment 3 hrs
- DANC 245 - Elements of Dance Composition 3 hrs
- DANC 255 - Dance Production 3 hrs
- DANC 351W - History of Dance: Romanticism to the Present (GEWI) 3 hrs
- DANC 450 - Advanced Dance Composition 4 hrs
- DANC 455 - Seminar in Dance 2 hrs

Minor Total: 32 hours

Note:

All minors must have at least six hours of course work at the 300-level or above.

Critical Graduation Information:

Each undergraduate student will be responsible for the fulfillment of the requirements or their equivalents of the Eastern Michigan University catalog in force at the time of their initial registration at a college or university or a subsequent catalog including the one in effect at the time of their graduation.

In the event an undergraduate student does not complete the degree requirements within seven years of the date of their original registration at a college or university, the student may be required to have their credits re-evaluated by the academic department(s) of their major/minor in keeping with catalog requirements in force during the year of their graduation.

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the 100-level and above. Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Complete a Writing Intensive (WI) Course in your major.
- Earn a minimum of 60 credits from a four-year college or university; courses taken at community colleges cannot be used to meet this requirement. (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
• Have a minimum of 30 unique credit hours in their major and 20 unique credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.

• Earn no more than 60 credit hours in one subject area (prefix). Credits in excess of the 60 maximum will not be counted toward the minimum of 124 credits required for a bachelor's degree.

• Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more that one major or minor.
  o Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
  o Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
  o Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor

• Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is conducted by individual departments/schools within EMU, and additional documentation may be required. Please note: EMU awards only credit for transferred courses; grades are not used in the calculation of an EMU GPA.

• Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be reached in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

**General Education Requirements:**

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available in the General Education section of the catalog: General Education

Students who transferred to EMU may have modified general education requirements based on Michigan Transfer Agreement (MTA) or articulation agreements; consult your academic advisor for additional information.

**University Information:** Consult the online catalog at catalog.emich.edu.

**Music Minor**

All prospective students (including transfers) must apply to the Department of Music and Dance and complete an entrance audition. Admissions information and access to the department's online application are available at: emich.edu/music/apply. Applications must be submitted at least seven days in advance of the requested audition day.

**Department Information:**

Music & Dance Department - College of Arts & Sciences

**Diane L. Winder, D.M., Department Head**

354 Alexander Building
(734) 487-1421
diane.winder@emich.edu

Department Website

**Advisor Information:**

Program Advisor: Dr. David Pierce  
Email: david.pierce@emich.edu  
Phone: 734.487.4380

**Required Area Courses: 14 hours**

- Ensembles (2 hrs)  
  Only one hour per semester counted toward degree.
- AMUS 115A - Secondary Applied Music 1 hr  
  2 semesters (minimum): 2 hours
- MUSC 101 - Music Theory I 1 hr  
  2 semesters (minimum): 2 hours
- MUSC 102 - Music Theory II 1 hr
- MUSC 119 - Aural Skills I 1 hr
- MUSC 129 - Aural Skills II 1 hr
- MUSC 251 - Functional Piano 1 hr
- MUSC 252 - Functional Piano 1 hr

**Electives: 6 hours**

*Any music courses for which the student meets the prerequisites.*

**Minor Total: 20 hours**

Due to the unique numbering system in place in the Department of Music and Dance, it has been determined by the University that completion of the Music minor as written in the catalog meets the requirements for graduation.

**Critical Graduation Information:**

Each undergraduate student will be responsible for the fulfillment of the requirements or their equivalents of the Eastern Michigan University catalog in force at the time of their initial registration at a college or university or a subsequent catalog including the one in effect at the time of their graduation.

In the event an undergraduate student does not complete the degree requirements within seven years of the date of their original registration at a college or university, the student may be required to have their credits re-evaluated by the academic department(s) of their major/minor in keeping with catalog requirements in force during the year of their graduation.

Students who transferred to EMU may have modified general education requirements based on Michigan Transfer Agreement (MTA) or articulation agreements; consult your academic advisor for additional information.

University Information: Consult the online catalog at catalog.emich.edu.

Certificate

Music Therapy Equivalency Certificate
The Music Therapy Post-Baccalaureate Certificate Program is for students with a music degree from a National Association of Schools of Music accredited institution (or an equivalent institution outside of the United States) and an interest in specialized studies that will lead to meeting the eligibility requirements to take the certification examination in music therapy administered by the Certification Board for Music Therapists. Successful passing of this examination leads to the person being credentialed as a music therapist–board certified. The courses within this equivalency certificate program are approved by the American Music Therapy Association, and accredited by the National Association of Schools of Music.

Admission
Students must satisfy admission requirements of the University, the Department of Music and Dance and the Music Therapy Program. Please note that an audition is not required unless students want to take applied music lessons on their principal instrument while completing this certificate. Applied music may be required in secondary instruments to prepare the student to pass the EMU Music Therapy Competencies. Students must be admitted into the music therapy post-baccalaureate certificate program before enrolling in required course work. Requirements for admission into this certificate program include the following:

1. Submission of the completed application, nonrefundable application fee and all official undergraduate and graduate transcripts to undergraduate admissions in the Office of Admissions.

2. The earned equivalent of a U.S. bachelor’s degree in music from an accredited college or University.

3. Submission of a 3-page double-spaced essay on the topic of "Why I wish to pursue a degree in music therapy." Include personal perspectives and motivations as well as current understanding of the field of music therapy and how you see yourself within the field. All essays are to be saved as a Word (.doc or .docx) document and sent as an attachment to Dr. Theresa Merrill, Director of Music Therapy at tmerril1@emich.edu.

4. A personal interview with the coordinator of music therapy is required. This interview will explore the applicant’s (1) interest in and general knowledge of music therapy, (2) music skills and (3) personal potential for being a successful music therapist.

5. Applicants whose native language is not English must demonstrate English language proficiency.

Certificate Requirements
The Post-Baccalaureate Music Therapy Equivalency Certificate Program must consist of all music therapy courses required for the bachelor of music therapy degree.

Courses in the sciences and in other areas to meet the American Music Therapy Association’s educational standards are required.

Students must successfully demonstrate the EMU music therapy competencies in guitar, piano and voice before being eligible to enter the required clinical training (internship). Copies of the criteria for the competencies can be obtained from the coordinator of music therapy.

A specific program of study will be developed by the coordinator of music therapy, in consultation with the student, once the student is admitted into the equivalency certificate program.

Critical Information regarding Certificates

Undergraduate certificates may only be offered in conjunction with or subsequent to a baccalaureate degree. They cannot be ‘stand alone’ certificates, offered to students who are not pursuing or do not have a bachelor’s degree. For students pursuing an undergraduate certificate concurrent with a bachelor’s degree, the certificate will be awarded upon graduation.

Department Information:

Music & Dance Department - College of Arts & Sciences
Diane L. Winder, D.M., Department Head

354 Alexander Building
(734) 487-1421
diane.winder@emich.edu

Department Website

All prospective students (including transfers) must apply to the Department of Music and Dance and complete an entrance audition. Admissions information and access to the department's online application are available here. Applications must be submitted at least seven days in advance of the requested audition day.

In addition to the degree requirements stated below, students must learn and abide by additional department polices posted on the department's website.

Advisor Information:

Program Advisor: Dr. David Pierce
Email: david.pierce@emich.edu
Phone: 734.487.4380

Music Therapy Courses: 31 hours

- MUSC 103 - Introduction to Music Therapy 3 hrs
- MUSC 109 - Music Therapy Improvisation Ensemble I 1 hr
- MUSC 209 - Music Therapy Improvisation Ensemble II 1 hr
- MUSC 225 - Voice Skills with Special Populations 1 hr
- MUSC 226 - Guitar Skills with Special Populations 2 hrs
- MUSC 236 - Pre-internship Clinical Training in Music Therapy I 1 hr
- MUSC 237 - Pre-internship Clinical Training in Music Therapy II 1 hr
- MUSC 238 - Methods and Materials in Music Therapy 3 hrs
- MUSC 303 - Music Therapy Clinical Approaches 2 hrs
- MUSC 304 - Music Therapy Professional Skills 2 hrs
- MUSC 309 - Music Therapy Improvisation Ensemble III 1 hr
- MUSC 323 - Pre-internship Clinical Training in Music Therapy III 1 hr
- MUSC 324 - Pre-internship Clinical Training in Music Therapy IV 1 hr
- MUSC 404 - Psychology of Music 3 hrs
- MUSC 405 - Music Therapy Research 3 hrs
- MUSC 409 - Music Therapy Improvisation Ensemble IV 1 hr
- MUSC 427 - Pre-internship Clinical Training in Music Therapy V 1 hr
- MUSC 428 - Pre-internship Clinical Training in Music Therapy VI 1 hr
- MUSC 488 - Clinical Training Internship in Music Therapy 2 hrs

Additional Requirements: 0–12 hours

Other courses may be required depending on the course content of the student's previous degree(s). Additional courses that are often required are:

- PEGN dance activity courses or DANC course (2 hrs)
• MUSC 326 - Conducting 2 hrs
• MUSC 413 - Orchestration 2 hrs
• PSY 360 - Abnormal Psychology 3 hrs
• SPGN 251 - Introduction to Inclusion and Disabilities Studies in a Diverse Society (GEUS) 3 hrs

Certificate Total: 31–43 hours

The number of required hours for the certificate depend upon the student’s undergraduate degree.

Note:

Recital Attendance Requirement
Each undergraduate music major must attend a total of 80 recitals/concerts (events) during their time of undergraduate study; they will receive credit for no more than 25 events per academic year. Students who fail to meet this requirement will not be permitted to graduate. The number of events that transfer students and students seeking a second bachelor's degree must attend will be prorated, based on the number of semesters of work remaining at the time of their matriculation. Normally each semester the student will attend at least ten musical events, of which five are usually the Department of Music and Dance weekly student recitals. Credit will be received for attendance at any Department of Music and Dance event. Students must be present for an entire event to receive credit. The cards are collected at the end of the program. A student who is performing in an event may receive recital attendance credit for that event if the student performs in less than 50 percent of the event. Attendance at many non-departmental musical events may be credited toward the recital attendance requirement. To obtain credit, bring a ticket stub and program to the music office. The Head of the Department of Music and Dance will determine whether or not the event qualifies for recital credit.

Critical Graduation Information:

Each undergraduate student will be responsible for the fulfillment of the requirements or their equivalents of the Eastern Michigan University catalog in force at the time of their initial registration at a college or university or a subsequent catalog including the one in effect at the time of their graduation.

In the event an undergraduate student does not complete the degree requirements within seven years of the date of their original registration at a college or university, the student may be required to have their credits re-evaluated by the academic department(s) of their major/minor in keeping with catalog requirements in force during the year of their graduation.

The following are minimum requirements for all bachelor’s degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

• Earn a minimum total of 124 credits at the 100-level and above. Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.
• Meet the requirements of the General Education program (see information below).
• Complete a Writing Intensive (WI) Course in your major.
• Earn a minimum of 60 credits from a four-year college or university; courses taken at community colleges cannot be used to meet this requirement. (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
• Earn a minimum of 30 credits from courses taken at EMU.
• Complete 10 of the last 30 hours for the degree from courses taken at EMU.
• Have a minimum of 30 unique credit hours in their major and 20 unique credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.

• Earn no more than 60 credit hours in one subject area (prefix). Credits in excess of the 60 maximum will not be counted toward the minimum of 124 credits required for a bachelor's degree.

• Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more that one major or minor.
  - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
  - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
  - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor

• Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is conducted by individual departments/schools within EMU, and additional documentation may be required. Please note: EMU awards only credit for transferred courses; grades are not used in the calculation of an EMU GPA.

• Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be reached in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

General Education Requirements:

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available in the General Education section of the catalog; General Education

Students who transferred to EMU may have modified general education requirements based on Michigan Transfer Agreement (MTA) or articulation agreements; consult your academic advisor for additional information.

University Information: Consult the online catalog at catalog.emich.edu.

**Applied Music**

**AMUS 115A - Secondary Applied Music**

Secondary applied music. May be repeated for credit.

Credit Hours: 1 hr

**AMUS 115B - Secondary Applied Music**

Secondary applied music. May be repeated for credit.

Credit Hours: 2 hrs

**AMUS 116A - Principal Applied Music**
Lower-level principal applied music. May be repeated for credit.

Credit Hours: 2 hrs

AMUS 116B - Principal Applied Music

Lower-level principal applied music. May be repeated for credit.

Credit Hours: 4 hrs

AMUS 415A - Secondary Applied Music

Upper-level secondary applied music. May be repeated for credit.

Credit Hours: 1 hr
Prerequisite: First semester of 400-level Applied Music must be approved by applied music teacher.

AMUS 415B - Secondary Applied Music

Upper-level secondary applied music. May be repeated for credit.

Credit Hours: 2 hrs
Prerequisite: First semester of 400-level Applied Music must be approved by applied music teacher.

AMUS 416A - Principal Applied Music

Upper-level principal applied music. May be repeated for credit.

Credit Hours: 2 hrs
Prerequisite: First semester of 400-level Applied Music must be approved by applied music teacher.

AMUS 416B - Principal Applied Music

Upper-level principal applied music. May be repeated for credit.

Credit Hours: 4 hrs
Prerequisite: First semester of 400-level Applied Music must be approved by applied music teacher.

Dance

DANC 100 - Ballet I (GEKA)

Introduces the theory and technique of classical ballet at the beginning level for the non-major student. Develops and maintains classical ballet technique at the beginning level and fosters understanding of ballet as an historical and contemporary art form.

Credit Hours: 3 hrs
Knowledge of the Disciplines:
Dance is the unspoken language of the human body common to all people in the global community. It existed as a means of communication before even the development of language. Ballet is the codification of western classical dance with its structure rooted deep in history and tradition and the forerunner of the other established dance forms. The study of ballet involves all the
arts including music, theatrical production and visual elements. Students in DANC 100 will actively participate by dancing in a traditional classical ballet class. Through this participation and supplemental lectures, discussions, video viewings, students will learn how to critically view their own ballet performances and those of others: learn codified ballet vocabulary and how to embody that vocabulary kinesthetically; how to creatively and critically problem-solve with ballet movement; and the history of the art form.

*Last Updated:* Fall 2010; effective Winter 2011

**DANC 101 - Jazz I**

Introduces the theory and technique of jazz dance at the beginning level for the nonmajor student. Develops and maintains jazz style and technique for the student at the beginning level and fosters a critical understanding of jazz as an historical and contemporary art form.

**Credit Hours:** 2 hrs

**DANC 102 - Modern Dance Fundamentals (GEKA)**

Introduces the theory and technique of modern dance at the beginning level for the non-major student. Designed to give students introductory experiences in modern dance as a contemporary performing art and fosters the critical understanding of modern dance as an historical and contemporary art form.

**Credit Hours:** 3 hrs

**Knowledge of the Disciplines:**

Modern Dance Fundamentals for non-majors meets the general education requirements for Arts in the knowledge of the disciplines. In this course, students will be introduced to the methodologies unique to the art form of modern dance. Modern dance, a form of human movement, provides a highly organized system for experiencing, organizing, creating, interpreting and evaluating the world around us. Modern dance embodies and perpetuates cultural values and traditions in a manner that is direct, universal and different from verbal forms of communication. In its close association with the human body, movement, space and time, modern dance can convey knowledge and meaning not learned through the study of other subjects. Modern dance communicates experiences common to all, and can convey contemporary cultural values such as those associated with the environment, patriotism, war or spirituality. In modern dance, personal and cultural meanings go far beyond mere, codified technique and entertainment. Through lectures, observation and experiential modes, students will learn how modern dance conveys personal and cultural meaning through qualities that are unique to modern dance.

*Last Updated:* Fall 2010; effective Winter 2011

**DANC 103 - Tap I**

Introduces the theory and technique of tap at the beginning level for the non-major student. Will develop and maintain tap technique and foster critical understanding of tap as an historical and contemporary art form.

**Credit Hours:** 2 hrs

**DANC 104 - Hip-Hop Dance**

An introduction to the theory and technique of hip-hop dance at the beginning level for the non-dance major student. Develops hip-hop technique and fosters understanding of hip-hop as a contemporary art form. Taught as a lecture/laboratory course.

**Credit Hours:** 2 hrs

**DANC 105 - African Dance**
The theory and technique of beginning African dance for the nonmajor dance student. Introduces students to African culture through traditional dance and music. Taught as a lecture/laboratory course.

**Credit Hours:** 2 hrs

**DANC 106 - Introduction to the Performing Arts (GEKA)**

A survey of the arts of dance, theatre and music; developing an understanding and appreciation of representative works in the three fields. The place of these arts in contemporary society and their contribution to a richer life. Attendance required at specific on-campus performances. This is a team taught course.

**Credit Hours:** 3 hrs

**Knowledge of the Disciplines:**

Introduction to the Performing Arts meets the general education requirement for Arts in the knowledge of the disciplines. The performing arts provide knowledge about the world and ways of experience it that contribute to an understanding that is both unique and different from those gained through other disciplines. The arts present insights about personal experiences common to us all- experiences such as birth, love, conflict and death. They also convey cultural meanings and values, such as patriotism and war. In the arts, personal and cultural meanings go far beyond the enjoyment of beauty. The arts convey knowledge and meaning not learned through the study of other subjects. In this course, students will learn how the performing arts convey personal and cultural meaning in lived space and time through qualities such as movement and sound that are unique to dance, music and theatre, they will discover the rich and unique ways that meaning in the performing arts takes shape in specific mediums, genres and styles.

**Last Updated:** *

**DANC 107 - Rhythmic Analysis and Dance Accompaniment**

The study of rhythm, sound and music literature as related to the teaching and performing of dance. Assigned listening experiences and designated explorations of pertinent elements of music.

**Credit Hours:** 3 hrs

**DANC 108 - Classical Ballet Technique I for Dance Majors/Minors**

A lecture/laboratory class that introduces the theory and technique of beginning/intermediate classical ballet and fosters critical understanding of ballet as an art form at the dance major/minor level.

**Credit Hours:** 3 hrs

**DANC 109 - Classical Ballet Technique II for Dance Majors/Minors**

A lecture/laboratory class that introduces the theory and technique of intermediate classical ballet and fosters critical understanding of ballet as an art form at the dance major/minor level.

**Credit Hours:** 3 hrs

**Prerequisite:** DANC 108 or equivalent and/or permission

**Last Updated:** Major Restriction Removed 10/2013, effective Winter 2014; Fall 2010; effective Winter 2011

**DANC 110 - Modern Dance I for Dance Majors/Minors**

A lecture/laboratory class that introduces the theory and technique of modern dance and fosters critical understanding of modern as an art form at the dance major/minor level.
**DANC 111 - Modern Dance II for Dance Majors/Minors**

A lecture/laboratory class that develops the theory and technique of modern dance and fosters critical understanding of modern as an art form at the dance major/minor level.

*Credit Hours:* 3 hrs  
*Prerequisite:* DANC 110 or equivalent and/or permission  
*Major Restrictions:* Dance major or minors only  
*Last Updated:* Fall 2010; effective Winter 2011

**DANC 112 - Pilates Mat Exercises**

The theory and technique of beginning level Pilates technique for both the dance major/minor and nonmajor student. This course is designed to familiarize students with the technical, conceptual and historical foundations of Pilates, as applied to Pilates techniques.

*Credit Hours:* 2 hrs  
*Lecture/Lab Hours:* Class is conducted in a lecture/laboratory format.

**DANC 177 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

*Credit Hours:* 1 hr  
*Prerequisite:* Department permission  
*Last Updated:* Fall 2010; effective Winter 2011

**DANC 178 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

*Credit Hours:* 2 hrs  
*Prerequisite:* Department permission  
*Last Updated:* Fall 2010; effective Winter 2011

**DANC 179 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

*Credit Hours:* 3 hrs  
*Prerequisite:* Department permission  
*Last Updated:* 02/2011
DANC 200 - Ballet II

The continuance of beginning/intermediate ballet technique and theory for the nonmajor student.

Credit Hours: 2 hrs
Prerequisite: DANC 100 and/or instructor permission
Last Updated: Links 04/2011

DANC 201 - Jazz II

The continuance of beginning/intermediate jazz theory and technique for the nonmajor student.

Credit Hours: 2 hrs
Prerequisite: DANC 101 and/or instructor permission
Last Updated: Fall 2010; effective Winter 2011

DANC 202 - Modern Dance II

The continuance of beginning/intermediate modern theory and technique for the nonmajor student.

Credit Hours: 2 hrs
Prerequisite: DANC 102 and/or instructor permission
Last Updated: Links 04/2011

DANC 208 - Classical Ballet Technique III

Theory and technique of intermediate classical ballet.

Credit Hours: 3 hrs
Prerequisite: DANC 109 or equivalent and/or permission
Last Updated: Major Restriction Removed 10/2013, effective Winter 2014; Fall 2010; effective Winter 2011

DANC 209 - Classical Ballet Technique IV

A continuation of the theory and technique of advanced and intermediate classical ballet.

Credit Hours: 3 hrs
Prerequisite: DANC 208 or equivalent and/or permission
Last Updated: Major Restriction Removed 10/2013, effective Winter 2014; Fall 2010; effective Winter 2011

DANC 210 - Modern Dance Technique III

A continuation of DANC 111. The theory and technique of intermediate modern dance.

Credit Hours: 3 hrs
Prerequisite: DANC 111 or equivalent, and/or department permission
Major Restrictions: Dance major and minors only
Last Updated: Fall 2010; effective Winter 2011

DANC 211 - Modern Dance Technique IV
A continuation of DANC 210. The theory and technique of modern dance.

**Credit Hours:** 3 hrs  
**Prerequisite:** DANC 210 or equivalent, and/or department permission  
**Major Restrictions:** Dance major and minors only  
**Last Updated:** Fall 2010; effective Winter 2011

**DANC 214 - Pointe and Variations**

A study of beginning pointe techniques in classical ballet for students with a strong technical ballet base. Classical ballet variations with appropriate technique, theory, and history will also be learned. Taught as a lecture/laboratory.

**Credit Hours:** 2 hrs

**DANC 220 - Dance for the Elementary School Teacher**

In this course students will learn both the theoretical and historical underpinnings of dance as well as the practical applications of dance and creative movement to the implementation of elementary school instruction.

**Credit Hours:** 3 hrs  
**Last Updated:** Spelling Error 7/2014

**DANC 245 - Elements of Dance Composition**

An introduction to the fundamentals of choreography, including the use of improvisation and the development of compositions. Exploration and manipulation of the elements of dance.

**Credit Hours:** 3 hrs  
**Prerequisite:** DANC 107, DANC 111 or department permission  
**Last Updated:** Links 04/2011

**DANC 255 - Dance Production**

A study of the fundamentals of dance production including publicity, planning and organization, set design and construction, stage lighting, sound effects, recording, costuming and stage makeup. Laboratory projects coordinated with dance productions.

**Credit Hours:** 3 hrs

**DANC 277 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 1 hr  
**Prerequisite:** Department permission  
**Last Updated:** Fall 2010; effective Winter 2011

**DANC 278 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.
DANC 279 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs
Prerequisite: Department permission
Last Updated: Fall 2010; effective Winter 2011

DANC 300 - Introduction to Video Dance

An experimental examination of the concepts and processes involved in making digital dance videos. Students will have an opportunity to practice recording, audio and editing techniques for dance as they become knowledgeable of aesthetic issues.

Credit Hours: 3 hrs
Repeatable for Credit: No
Prerequisite: DANC 110, DANC 210, and DANC 245
Class Restrictions: Sophomore, Junior and Senior
Last Updated: New Course 01/2014, effective Summer 2014

DANC 320 - Dance Workshop

The Dance Workshop is proposed as an integral part of the dance curriculum because it synthesizes experiences from dance theory, technique and composition in the act of performance. As a practicum in rehearsal and performance, workshops are considered essential to the balance of the total curriculum.

Credit Hours: 1 hr

DANC 331 - Service Teaching–Ballet

Service teaching is designed to provide practical experience for students to assist in dance technique classes in the dance program. This experience should be under the direction of a qualified instructor and must be approved prior to registering.

Credit Hours: 1 hr
Major Restrictions: Only Music Major and Music Minor Students may enroll in this course.
Last Updated: Major Restriction added 10/2013, effective Winter 2014

DANC 333 - Service Teaching–Modern Dance

Service teaching is designed to provide practical experience for students to assist in dance technique classes in the dance program. This experience should be under the direction of a qualified instructor and must be approved prior to registering.

Credit Hours: 1 hr
Major Restrictions: Only Music Major students may enroll in this course
Last Updated: Major Restriction added 10/2013, effective Winter 2014

DANC 350W - History of Dance: Prehistoric to Renaissance (GEWI)
A study of the historical development of Western theatrical dance from prehistoric times to the Renaissance, as well as the aesthetic, political, social and cultural contexts associated with the dances of these periods. Satisfies the first semester of a two semester writing for dance majors.

**Credit Hours:** 3 hrs  
**Class Restrictions:** Junior standing or instructor permission  
**Writing Intensive:**

*Last Updated:*

**DANC 351W - History of Dance: Romanticism to the Present (GEWI)**

A study of the historical development of Western theatrical dance from the Romantic era to the present, as well as the political, social and cultural contexts associated with the dances of these periods.

**Credit Hours:** 3 hrs  
**Class Restrictions:** Junior standing or instructor permission  
**Writing Intensive:**

*Last Updated:*

**DANC 354 - Methods and Materials in Teaching of Dance**

A study of the methods and the use of materials in the teaching of dance idioms K-12. Modes and models that facilitate learning, lesson planning and vertical progression. Experiences in teaching and field observations.

**Credit Hours:** 3 hrs  
**Major Restrictions:** Only Music Major Students may enroll in this course.  
**Last Updated:** Major Restriction added 10/2013, effective Winter 2014; Fall 2010; effective Winter 2011

**DANC 377 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 1 hr  
**Prerequisite:** Department permission  
**Last Updated:** Fall 2010; effective Winter 2011

**DANC 378 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 2 hrs  
**Prerequisite:** Department permission  
**Last Updated:** Fall 2010; effective Winter 2011

**DANC 379 - Special Topics**
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 3 hrs  
**Prerequisite:** Department permission  
**Last Updated:** Fall 2010; effective Winter 2011

**DANC 422 - Dance Workshop**

The Dance Workshop is proposed as an integral part of the dance curriculum because it synthesizes experiences from dance theory, technique and composition in the act of performance. As a practicum in rehearsal and performance, workshops are considered essential to the balance of the total curriculum.

**Credit Hours:** 2 hr

**DANC 450 - Advanced Dance Composition**

An extension of the principles explored in DANC 245 with emphasis on structural development and experiences in the use of thematic materials, selected dance idioms, multimedia resources and group choreography. A choreographic work will be required of students.

**Credit Hours:** 4 hrs  
**Prerequisite:** DANC 245  
**Last Updated:** Fall 2010; effective Winter 2011

**DANC 455 - Seminar in Dance**

Current literature and dance research, trends in dance education and developments in contemporary concert dance. Lecture-discussion.

**Credit Hours:** 2 hrs  
**Prerequisite:** DANC 245, DANC 450 or department permission  
**Last Updated:** Links 04/2011

**DANC 456 - Creative Dance for Children**

Goals, concepts, materials and experiences to teach children’s creative dance.

**Credit Hours:** 2 hrs

**DANC 477 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 1 hr  
**Prerequisite:** Department permission  
**Last Updated:** Fall 2010; effective Winter 2011

**DANC 478 - Special Topics**
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 2 hrs  
**Prerequisite:** Department permission  
**Last Updated:** Fall 2010; effective Winter 2011

**DANC 479 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 3 hrs  
**Prerequisite:** department permission

**DANC 497 - Directed Study**

An opportunity for directed study in areas not provided in other course offerings, or greater depth of study in areas in which the student has a continuing interest. Students will be assigned to select faculty members for direction, consultation and evaluation of the completed study or project. Open only to department majors and minors who have attained junior standing, with a GPA of 3.0 or above, and who have completed the appropriate background courses.

**Credit Hours:** 1 hr  
**Prerequisite:** Department permission  
**Last Updated:** Fall 2010; effective Winter 2011

**DANC 498 - Directed Study**

An opportunity for directed study in areas not provided in other course offerings, or greater depth of study in areas in which the student has a continuing interest. Students will be assigned to select faculty members for direction, consultation and evaluation of the completed study or project. Open only to department majors and minors who have attained junior standing, with a GPA of 3.0 or above, and who have completed the appropriate background courses.

**Credit Hours:** 2 hrs  
**Prerequisite:** Department permission  
**Last Updated:** Fall 2010; effective Winter 2011

**DANC 499 - Directed Study**

An opportunity for directed study in areas not provided in other course offerings, or greater depth of study in areas in which the student has a continuing interest. Students will be assigned to select faculty members for direction, consultation and evaluation of the completed study or project. Open only to department majors and minors who have attained junior standing, with a GPA of 3.0 or above, and who have completed the appropriate background courses.

**Credit Hours:** 3 hrs  
**Prerequisite:** Department permission  
**Last Updated:** Fall 2010; effective Winter 2011

**Music**

**MUSC 100 - Music Fundamentals (GEKA)**
Designed for the nonmusic major, an introduction to the basic elements of music: notation of pitch and rhythm, intervals, scales, chords, tonality, and form. Includes beginning aural training. A preparatory course for the music major or minor deficient in music theory and aural skills.

Credit Hours: 3 hrs
Major Restrictions: Non-Music Majors

Knowledge of the Disciplines:
Music Fundamentals (MUSC 100) meets the Arts requirement for Knowledge of the Disciplines because students in this course learn the basic elements of music through the exploration of the underlying properties of organized sound. Enhanced critical perception is achieved through aural, verbal, and visual analysis, and accompanied by an understanding of historical, cultural, and stylistic influences. Through this course, students develop basic skills in musicianship and gain a multifaceted understanding of the musical arts.

Last Updated: Gen Ed Approval 12/2011, effective Winter 2012; Title and Course Description Change 10/2011, effective Winter 2012

MUSC 101 - Music Theory I

Integrated theory course dealing with perception, writing, analysis and performance of basic musical materials; stylistic comprehension of music of all periods.

Credit Hours: 3 hrs
Corequisites: MUSC 119
Major Restrictions: Music Majors and Minors only
Last Updated: Links 04/2011

MUSC 102 - Music Theory II

Continuation of MUSC 101.

Credit Hours: 3 hrs
Prerequisite: MUSC 101 (with a grade of C or better) and MUSC 119 (with a grade of C or better)
Corequisites: MUSC 129
Major Restrictions: Music Majors and Minors only
Last Updated: Links 04/2011

MUSC 103 - Introduction to Music Therapy

Introductory survey of the various clientele served by music therapists, current career opportunities and exploration of interventions utilized by music therapists to achieve specific music therapy goals. Observation of Board Certified Music Therapists in hospital, clinical and school settings is required.

Credit Hours: 3 hrs

MUSC 105 - Appreciating Jazz: America's Music (GEKA)

Starting with the American Nineteenth Century, this course will examine the ways in which jazz evolved from vernacular and folk styles into an internationally recognized form of art music. Students will learn to aurally recognize performers and compositions from all of the major stylistic periods in jazz history and to recognize common song structures.

Credit Hours: 3 hrs
Repeatable for Credit: No
Knowledge of the Disciplines:
Through this course, students will achieve a deeper understanding of how jazz is uniquely an American art music, learn how it came into being, and develop the skills and knowledge to appreciate the art and its practitioners. Student will also learn the fundamentals of music through the exploration of the underlying properties of organized sound such as melody, harmony, rhythm, texture and form.

Last Updated: Gen Ed Approval 5/2012, effective Winter 2013; Course Number Change 03/2012; New Course 01/2012, effective Winter 2012

**MUSC 106 - Introduction to the Performing Arts (GEKA)**

A survey of the arts of dance, theatre and music, that seeks to develop an understanding and appreciation of representative works in the three fields and an awareness of the place of these arts in contemporary society. Attendance required at specified on-campus performances.

**Credit Hours:** 3 hrs

**Major Restrictions:** Not open to Music Majors, Dance Majors or Theater Majors

**Knowledge of the Disciplines:**
Introduction to the Performing Arts meets the general education requirement for Arts in the knowledge of the disciplines. The performing arts provide knowledge about the world and ways of experience it that contribute to an understanding that is both unique and different from those gained through other disciplines. The arts present insights about personal experiences common to us all- experiences such as birth, love, conflict and death. They also convey cultural meanings and values, such as patriotism and war. In the arts, personal and cultural meanings go far beyond the enjoyment of beauty. The arts convey knowledge and meaning not learned through the study of other subjects. In this course, students will learn how the performing arts convey personal and cultural meaning in lived space and time through qualities such as movement and sound that are unique to dance, music and theatre, they will discover the rich and unique ways that meaning in the performing arts takes shape in specific mediums, genres and styles.

Last Updated: *

**MUSC 107 - Music Appreciation (GEKA)**

Guides the student in listening to and understanding various types, forms and styles of instrumental and vocal music of the world. Representative works of all periods and cultures, including contemporary developments, will be studied. Attendance at some concerts and recitals required.

**Credit Hours:** 3 hrs

**Major Restrictions:** Students in the following majors can not enroll in this course: Choral Music; Music Education-Undecided; Music Education, Instrumental; Music Education, Vocal; Music Performance; Music Education; Piano Pedagogy; Music; Music Theory - Literature.

**Knowledge of the Disciplines:**
Music is a window into the values and identity of a culture- past and present. To understand a culture's music is to gain insight into the people who created it, who express themselves through it, and identify with it. Aesthetic education distinguishes people who have a university education. From the time of the ancient Greeks, music has been recognized as essential in the training of the mind, body and soul. Today, appreciation of music as an art from, and deeper understanding of the art of music, leads people to perceive qualities not found in the other arts.

MUSC 107 Music Appreciation guides the student in listening to and understanding various types, forms and styles of instrumental and vocal music of the world, representative works of all periods and cultures, including contemporary developments.

Last Updated: *

**MUSC 108 - World Music (GEGA & GEKA)**

Designed for the non-music major, a study of the World's music. Basic musical concepts are used to explore diverse musical styles and their functions in cultures throughout the world. This course assumes no prior formal musical training.
Credit Hours: 3 hrs

**Perspectives on a Diverse World:**

In prehistoric times, every culture conceived of the idea of using their voices and creating instruments to communicate; yet each culture's conception of music differed wildly. In this course, each selected musical tradition is traced from its point of origin to wherever its individual pathway of continuity and transformation may have led. Through this "music-cultural" lens, students view not only the creators of the music, but also how each unique musical tradition relates to diverse and intersecting planes of geography, history, identity and cultural worldview and practice. Global issues such as religious and ideological conflicts, Diasporas, militarism, and nationalism have always been vividly illustrated by a culture's music. Students will gain the ability to see past and present world events from the vantage point of the people who were and are directly affected by them. For these reasons, this course meets the Global Awareness category of the General Education program.

**Knowledge of the Disciplines:**

The world's diverse and ever-changing forms of music can foster an appreciation for the inherent qualities of creativity and shared global perspectives teaches students to approach its diversity with an open mind, open ears, thoughtfulness, and engagement. By learning to identify the building blocks of music, and how they are organized in each unique culture, students develop the tools to increase their appreciation and enjoyment of music overall. Moreover, these tools provide students with a productive lens through which to view how music undergoes a process of creative transformation that reflects cultures as they change, grow, intersect and adapt. Upon achieving these objectives, students gain the capacity to enhance their appreciation for cultural diversity and intercultural tolerance. For these reasons, this course meets the Arts Discipline category of the General Education program.

*Last Updated:* Gen Ed Approval 1/2013, effective Summer 2013; New Course 6/2012, effective Winter 2013

**MUSC 109 - Music Therapy Improvisation Ensemble I**

This introductory course will explore instrumental, vocal and movement improvisations. The student will gain insight into making personal-musical decisions and begin to explore the possible uses of improvisation in music therapy clinical practice.

Credit Hours: 1 hr

**Prerequisite:** MUSC 103

**Major Restrictions:** Music Therapy Major and Music Therapy Equivalency Certificate

*Last Updated:* Links 04/2011

**MUSC 110 - Vocal Diction I: English and Italian**

Designed to introduce the International Phonetic Alphabets, pronunciation rules for Italian and English, its application, and to focus on systematic study of phonetics to increase proficiency in singing in Italian and English.

Credit Hours: 1 hr

**Major Restrictions:** Restricted to all Music Majors and Minors

*Last Updated:* New Course, 4/2013, effective Winter 2014

**MUSC 111 - Vocal Diction II: German and French**

Designed to introduce the International Phonetic Alphabet, pronunciation rules for German and French, its application, and to focus on systematic study of phonetics to increase proficiency in signing in German and French. Prerequisite: Vocal Diction I in English and Italian, or permission from the instructor.

Credit Hours: 1 hr

**Repeatable for Credit:** No

**Prerequisite:** MUSC 110

**Major Restrictions:** Restricted to All Music Majors and Minors

*Last Updated:* New Course, 4/2013, effective Winter 2014
**MUSC 119 - Aural Skills I**

Development of fundamental sight-singing techniques as well as skills in notating performed melodic and harmonic musical examples. Objectives of the course parallel those of MUSC 101.

**Credit Hours:** 1 hr  
**Corequisites:** MUSC 101  
**Major Restrictions:** Music Majors and Minors only  
**Last Updated:** Links 04/2011

**MUSC 129 - Aural Skills II**

A continuation of MUSC 119. Development of intermediate sight-singing techniques as well as skills in notating performed melodic and harmonic musical examples. Objectives of the course parallel those of MUSC 102.

**Credit Hours:** 1 hr  
**Prerequisite:** MUSC 101 (with a grade of C or better) and MUSC 119 (with a grade of C or better)  
**Corequisites:** MUSC 102  
**Major Restrictions:** Music Majors and Minors only  
**Last Updated:** Links and prerequisite changes 04/2011

**MUSC 131 - University Choir**

Open to all students by audition.

**Credit Hours:** 1 hr  
**Prerequisite:** Audition  
**Last Updated:** 03/2011

**MUSC 136 - Chamber Choir**

Open to all students by audition.

**Credit Hours:** 1 hr  
**Prerequisite:** Audition  
**Last Updated:** 03/2011

**MUSC 149A - Athletic Band**

Open to all students by audition. The Athletic Band performs for men's and women's basketball home games. Athletic Band is offered as a credit/non-credit course.

**Credit Hours:** 1 hr  
**Prerequisite:** Audition  
**Notes:** Only offered during the Winter semester.  
**Previously Listed As:** MUSC 149  
**Last Updated:** 03/2011

**MUSC 149M - Marching Band (GELB)**
Open to all students by audition. EMU Marching Band performs at home football games and other events. Marching Band is offered as a graded course.

**Credit Hours:** 1 hr  
**Prerequisite:** Audition  
**Notes:** Only offered during the Fall semester.  
**Previously Listed As:** MUSC 149  
**Learning Beyond the Classroom:**

**Last Updated:** 12/2010

### MUSC 151 - Class Piano

Group instruction in piano for students with no previous keyboard experience.

**Credit Hours:** 2 hrs  
**Major Restrictions:** Non-Music Majors only

### MUSC 152 - Class Piano

Continuation of MUSC 151 with emphasis on the functional aspects of piano playing and elementary piano literature.

**Credit Hours:** 2 hrs  
**Prerequisite:** MUSC 151 or by department permission  
**Major Restrictions:** Non-Music Majors only  
**Last Updated:** Links 04/2011

### MUSC 177 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 1 hr  
**Prerequisite:** department permission

### MUSC 178 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 2 hrs  
**Prerequisite:** department permission

### MUSC 179 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 3 hrs  
**Prerequisite:** department permission
MUSC 201 - Music Theory III

Continuation of MUSC 102 with more emphasis on harmonic, melodic, compositional and structural techniques of 16th through 20th centuries.

Credit Hours: 3 hrs
Prerequisite: MUSC 102 (with a grade of C or better) and MUSC 129 (with a grade of C or better)
Corequisites: MUSC 219
Major Restrictions: Music Majors and Minors only
Last Updated: Prerequisite change 05/2011, effective Fall 2011

MUSC 202 - Music Theory IV

Continuation of MUSC 201.

Credit Hours: 3 hrs
Prerequisite: MUSC 201 (with a grade of C or better) and MUSC 219 (with a grade of C or better)
Corequisites: MUSC 229
Major Restrictions: Music Majors and Minors only
Last Updated: Prerequisite change 05/2011, effective Fall 2011

MUSC 209 - Music Therapy Improvisation Ensemble II

This post-introductory course explores improvisatory skills on piano, guitar and in voice using the pentatonic, organum, sedative and blues styles.

Credit Hours: 1 hr
Major Restrictions: Bachelor of Music Therapy Major and Music Therapy Equivalency Certificate students only
Last Updated: *

MUSC 211 - Basic Brass Class

The teaching and playing of trumpet and trombone.

Credit Hours: 1 hr
Major Restrictions: Music Majors and Minors only

MUSC 212 - Brass Class

The teaching and playing of French horn, euphonium and tuba.

Credit Hours: 1 hr
Major Restrictions: Music Majors and Minors only

MUSC 219 - Aural Skills III

A continuation of MUSC 129. Development of intermediate/advanced sight-singing techniques as well as skills in notating performed melodic and harmonic musical examples. Objectives of the course parallel those of MUSC 201. For music majors and minors. Taken concurrently with MUSC 201.

Credit Hours: 1 hr
Prerequisite: MUSC 102 (with a grade of C or better) and MUSC 129 (with a grade of C or better)

Corequisites: MUSC 201

Last Updated: Prerequisite change 05/2011, effective Fall 2011

MUSC 220 - Music for the Elementary Teacher (GEKA)

A course to prepare pre-service teachers to successfully use music as an integral and meaningful part of the elementary school curricula. Prerequisite: Admission to the College of Education
Class Restrictions: Junior standing and above

Knowledge of the Disciplines:

Last Updated: 03/2011

MUSC 225 - Voice Skills with Special Populations

Develops voice skills to facilitate therapeutic processes with clients ranging in ages, backgrounds and disabilities.

Credit Hours: 1 hr
Prerequisite: MUSC 232
Class Restrictions: Sophomore standing or above
Major Restrictions: Students in Bachelor of Music Therapy, Bachelor of Music Education Vocal, Bachelor of Music Education Instrumental or Post-Baccalaureate Certificate: Music Therapy Equivalency programs only

Last Updated: Links 04/2011

MUSC 226 - Guitar Skills with Special Populations

Develops guitar skills to facilitate therapeutic processes with clients ranging in ages, backgrounds and disabilities.

Credit Hours: 2 hrs
Repeatable for Credit: ?
Prerequisite: MUSC 103
Major Restrictions: Students in Bachelor of Music Therapy, Bachelor of Music Education Vocal, Bachelor of Music Education Instrumental, or Post-Baccalaureate Certificate: Music Therapy Equivalency programs only

Last Updated: Prerequisites 07/2011

MUSC 228 - Basic Music Literature

An introduction to analysis of musical style through listening and score study. Repertoire will include representative western art music, world music, and vernacular music chosen to develop musical understanding and aural literacy.

Credit Hours: 3 hrs
Prerequisite: MUSC 102 and MUSC 129
Class Restrictions: Sophomore standing
Major Restrictions: Open to MUSC, MUTR, MEDI, MEDV and MPRF students only

Last Updated: Links 04/2011
MUSC 229 - Aural Skills IV

A continuation of MUSC 219. Development of advanced sight-singing techniques as well as skills in notating performed melodic and harmonic musical examples. Objectives of the course parallel those of MUSC 202.

Credit Hours: 1 hr
Prerequisite: MUSC 201 (with a grade of C or better) and MUSC 219 (with a grade of C or better)
Corequisites: MUSC 202
Major Restrictions: Music Majors and Minors only
Last Updated: Prerequisite change 05/2011, effective Fall 2011

MUSC 232 - Voice Class

Improving the singing and speaking voice through the study of breath control, tone production and diction.

Credit Hours: 1 hr
Major Restrictions: Music Majors, Music Minors and Musical Theatre Minors only
Last Updated: Change in Restrictions 04/2012, effective Fall 2012

MUSC 236 - Pre-internship Clinical Training in Music Therapy I

Introductory fieldwork experience in music therapy. Observation and documentation of music therapy sessions in clinical or educational settings.

Credit Hours: 1 hr
Prerequisite: MUSC 103
Class Restrictions: Sophomore standing or above
Major Restrictions: Students in the Bachelor of Music Therapy or Bachelor of Music Therapy: Post-Baccalaureate Certificate: Music Therapy Equivalency programs only
Last Updated: Links 04/2011

MUSC 237 - Pre-internship Clinical Training in Music Therapy II

Continuation of MUSC 236.

Credit Hours: 1 hr
Prerequisite: MUSC 236
Class Restrictions: Sophomore standing or above
Major Restrictions: Students in the Bachelor of Music Therapy or Bachelor of Music Therapy: Post-Baccalaureate Certificate: Music Therapy Equivalency programs only
Last Updated: Links 04/2011

MUSC 238 - Methods and Materials in Music Therapy

Study of resources available in music therapy and their systematic application to meet the treatment needs of children and adults with various dysfunctions.

Credit Hours: 3 hrs
Prerequisite: MUSC 236
Class Restrictions: Sophomore standing or above
Major Restrictions: Students in the Bachelor of Music Therapy or Bachelor of Music Therapy: Post-Baccalaureate Certificate:
Music Therapy Equivalency programs only

Last Updated: Course Revisions 6/2014, effective Fall 2014, Links 06/2011

MUSC 241 - Percussion

The teaching and playing of snare drum, tympani and keyboard percussion with an emphasis on group lesson techniques; survey of accessory instruments; introduction of methods, literature and use of the percussion ensemble.

Credit Hours: 1 hr  
Major Restrictions: Music Majors and Minors only

MUSC 243 - Percussion Ensemble

For students enrolled in applied music: percussion or department permission.

Credit Hours: 1 hr  
Major Restrictions: Music majors and minors only  
Last Updated: *

MUSC 244 - Jazz Ensemble

Large ensemble performance class dealing with the elements of ensemble techniques and improvisation with special emphasis on the function of jazz in music education.

Credit Hours: 1 hr  
Prerequisite: audition  
Last Updated: 04/2011; effective Spring 2011; 05/2011 description; effective 05/2011.

MUSC 246 - String Ensemble

Chamber music for strings.

Credit Hours: 1 hr  
Prerequisite: department permission

MUSC 247 - Woodwind Ensemble

Chamber music for woodwinds.

Credit Hours: 1 hr  
Prerequisite: department permission

MUSC 248 - University Orchestra

Open to all students by audition.

Credit Hours: 1 hr  
Prerequisite: audition

MUSC 249 - University Band (GELB)
Wind band performance classes. Open to all students in the University. An audition is required for placement in the Wind Symphony, and may be required for the Symphonic Band.

**Credit Hours:** 1 hr  
**Prerequisite:** Audition  
**Learning Beyond the Classroom:**  
This course satisfies Option 3 of Group One of Learning Beyond the Classroom (LBC)  
**Last Updated:** Number Change 6/2013, effective Winter 2014; 11/2008; effective Spring 2009

**MUSC 250 - Jazz Combo**

Small ensemble performance class dealing with various styles of jazz, emphasizing improvisation and chord reading. Open to all students by audition.

**Credit Hours:** 1 hr  
**Last Updated:** 04/2011; effective Spring 2011

**MUSC 251 - Functional Piano**

Teaches keyboard skills necessary both for accompaniment of simple music and for developing musical understanding basic to all course work in music.

**Credit Hours:** 1 hr  
**Major Restrictions:** Music Majors and Minors only

**MUSC 252 - Functional Piano**

Continuation of MUSC 251. Any break in the continuity of functional piano courses will require an audition before resumption of study.

**Credit Hours:** 1 hr  
**Prerequisite:** MUSC 251  
**Major Restrictions:** Music Majors and Minors only  
**Last Updated:** Links 04/2011

**MUSC 253 - Functional Piano**

Continuation of MUSC 252. Stresses keyboard harmony, accompaniment, sight-reading, piano literature and technique. Any break in the continuity of functional piano courses will require an audition before resumption of study.

**Credit Hours:** 1 hr  
**Prerequisite:** MUSC 252  
**Major Restrictions:** Music Majors and Minors only  
**Last Updated:** Links 04/2011

**MUSC 254 - Functional Piano**

Continuation of MUSC 253. Additional accompaniment experience, keyboard harmony, improvisation, piano literature and techniques. Any break in the continuity of functional piano courses will require an audition before resumption of study.

**Credit Hours:** 1 hr
Prerequisite: MUSC 253  
Major Restrictions: Music Majors and Minors only  
Last Updated: Links 04/2011

**MUSC 261 - Basic String Class: Violin**

The teaching and playing of the violin from a pedagogical approach. Small and large group instruction and current methods including rote and Suzuki approaches. Designed primarily for music education and music therapy majors.

Credit Hours: 1 hr  
Major Restrictions: Music Majors and Minors only  
Last Updated: 03/2011

**MUSC 262 - String Class: Viola**

Continuation of MUSC 261; teaching and playing of viola.

Credit Hours: 1 hr  
Prerequisite: MUSC 261  
Major Restrictions: Music Majors and Minors only  
Last Updated: Links 04/2011

**MUSC 263 - String Class: Cello and Double Bass**

The teaching and playing of cello and double bass.

Credit Hours: 1 hr  
Major Restrictions: Music Majors and Minors only

**MUSC 271 - Beginning Classical Guitar**

Group instruction in classical guitar through the study of standard beginning methods and repertoire.

Credit Hours: 2 hrs  
Major Restrictions: Music Majors and Minors only

**MUSC 272 - Intermediate Classical Guitar**

Continuation of MUSC 271; group instruction in classical guitar through the study of standard intermediate methods and repertoire.

Credit Hours: 2 hrs  
Prerequisite: MUSC 271  
Major Restrictions: Music Majors and Minors only  
Last Updated: Links 04/2011

**MUSC 274 - Functional Guitar**

Functional skills for playing guitar. Students will learn guitar notation, chords, and various accompaniment styles.

Credit Hours: 1 hr
Major Restrictions: Music Majors and Minors only
Last Updated: credit hour change 1/2013, effective Summer 2013

MUSC 277 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr
Prerequisite: department permission

MUSC 278 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs
Prerequisite: department permission

MUSC 279 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs
Prerequisite: department permission

MUSC 281 - Basic Woodwind Class

The teaching and playing of clarinet.

Credit Hours: 1 hr
Major Restrictions: Music Majors and Minors only

MUSC 282 - Woodwind Class

The teaching and playing of flute and saxophone.

Credit Hours: 1 hr
Major Restrictions: Music Majors and Minors only

MUSC 283 - Woodwind Class

The teaching and playing of oboe and bassoon.

Credit Hours: 1 hr
Major Restrictions: Music Majors and Minors only

MUSC 301W - History of Music to 1750 (GEWI)
Chronological study of western music in its historical and cultural setting. Recognition of idioms, changing sound, styles and forms of music in medieval, Renaissance and Baroque periods, approximately through 1750. In this course, you will accumulate music history vocabulary, concepts, and understanding as a basis for your developing musicianship and as a foundation of your professional expertise in music.

**Credit Hours:** 4 hrs  
**Prerequisite:** MUSC 228  
**Class Restrictions:** Junior standing  
**Major Restrictions:** Students in MUSC, MUTR, MEDI, MEDV or MPRF programs only

MUSC 315 - Introduction to Digital Music

An introduction to the application of music technology in the studio and classroom. Hands-on lecture demonstrations and projects using digital instruments and software. For musicians interested in gaining a basic knowledge of digital technology.

Credit Hours: 2 hrs
Prerequisite: MUSC 202
Major Restrictions: Music majors only
Last Updated: 05/2011

MUSC 317 - Music Composition

Original writing and analysis of music, beginning with the smaller forms. May be repeated for credit.

Credit Hours: 2 hrs
Prerequisite: MUSC 202 and department permission
Last Updated: Links 04/2011

MUSC 323 - Pre-internship Clinical Training in Music Therapy III

Intermediate fieldwork experience in clinical or educational settings.

Credit Hours: 1 hr
Prerequisite: MUSC 237 and MUSC 238
Class Restrictions: Junior standing or above
Major Restrictions: Students in the Bachelor of Music Therapy or Post-Baccalaureate Certificate: Music Therapy Equivalency programs only
Last Updated: 05/11 - prerequisites; effective 05/11

MUSC 324 - Pre-internship Clinical Training in Music Therapy IV

Continuation of MUSC 323.

Credit Hours: 1 hr
Prerequisite: MUSC 323
Corequisites: MUSC 304
Class Restrictions: Junior standing or above
Major Restrictions: Students in Bachelor of Music Therapy or Post-Baccalaureate Certificate: Music Therapy Equivalency programs only
Last Updated: Course Revisions 6/2014, effective Fall 2014, Links 04/2011

MUSC 326 - Conducting

Fundamentals of conducting technique, score reading and interpretation of instrumental and vocal music.

Credit Hours: 2 hrs
Class Restrictions: Junior standing or above
Major Restrictions: Music Majors and Minors only

MUSC 327 - Instrumental Conducting

A practical course in instrumental conducting: score preparation, conducting technique and technical and musical issues pertaining to conducting instrumental works.

Credit Hours: 2 hrs
Prerequisite: MUSC 326
Major Restrictions: Music Majors and Minors only
Last Updated: Links 04/2011

MUSC 328 - Choral Conducting

A practical course in choral conducting: score preparation, conducting technique and technical and musical issues pertaining to conducting choral works.

Credit Hours: 2 hrs
Prerequisite: MUSC 326
Major Restrictions: Music Majors and Minors only
Last Updated: Links 04/2011

MUSC 330 - Music Education in the Elementary School

Organization, planning and teaching of elementary music, and examination, evaluation and preparation of materials based on child growth and development principles. Concurrent placement in schools for observation and prestudent teaching experience.

Credit Hours: 3 hrs
Prerequisite: MUSC 202, MUSC 254, MUSC 326 and Applied Music: AMUS 416A or AMUS 416B status (principal) and AMUS 415A or AMUS 415B status (secondary); requires admission into the College of Education; no students on academic probation.
Class Restrictions: Junior standing or above
Major Restrictions: Music Education Majors only
Terms Offered: Course Rotation Schedule
Last Updated: Link 10/12; Links 04/2011

MUSC 331 - Music Education in the Secondary School
Classification and training of voices; song interpretation; organization and administration of choral ensembles; evaluation of materials suitable for choral organizations and other classes in the secondary school; psychology and philosophy of music education.

**Credit Hours:** 3 hrs  
**Prerequisite:** MUSC 202, MUSC 254, MUSC 326, MUSC 328 and Applied Music: AMUS 416A or AMUS 416B status (principal) and AMUS 415A or AMUS 415B status (secondary); requires admission into the College of Education; no students on academic probation  
**Class Restrictions:** Junior standing or above

Designed to assist students in their preparation as band directors in secondary schools; charting and drills for marching band; rehearsal procedures and selection of suitable materials for the concert band.

**Credit Hours:** 3 hrs  
**Prerequisite:** MUSC 327; requires admission into the College of Education; no students on academic probation  
**Class Restrictions:** Junior standing or above  
**Major Restrictions:** Instrumental Music Education Majors only  
**Terms Offered:** Course Rotation Schedule  
**Last Updated:** Link 10/2012; Links 04/2011

**MUSC 341 - Contrapuntal Techniques**
Writing in polyphonic forms with concomitant analysis.

**Credit Hours:** 2 hrs  
**Prerequisite:** MUSC 202  
**Last Updated:** Links 04/2011

**MUSC 351 - Collegium Musicum**

Early music ensemble. Open to all students by audition.

**Credit Hours:** 1 hr  
**Prerequisite:** Audition  
**Last Updated:** Links 04/2011

**MUSC 361 - Music for Piano Instruction**

Study of method books and materials suitable for use with beginning- and intermediate-level students.

**Credit Hours:** 2 hrs  
**Major Restrictions:** Music Majors and Minors only

**MUSC 377 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 1 hr  
**Prerequisite:** Department permission  
**Last Updated:** Links 04/2011

**MUSC 378 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 2 hrs  
**Prerequisite:** Department permission  
**Last Updated:** Links 04/2011

**MUSC 379 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 3 hrs  
**Prerequisite:** Department permission  
**Last Updated:** Links 04/2011

**MUSC 387 - Cooperative Education in Music**
A cooperative work experience in the field of music.

**Credit Hours:** 3 hrs

**MUSC 401 - Music Theory-Literature V**

Integration of previous studies in theory-literature and music history; continued study and analysis of music from all periods; original, creative composition with special emphasis on contemporary style.

**Credit Hours:** 2 hrs

**Prerequisite:** MUSC 202 (with a grade of C or better) and MUSC 229 (with a grade of C or better)

**Last Updated:** Links 04/2011

**MUSC 402 - Music Theory-Literature VI**

Continuation of MUSC 401.

**Credit Hours:** 2 hrs

**Prerequisite:** MUSC 401

**Last Updated:** Links 04/2011

**MUSC 404 - Psychology of Music**

Exploration of physiologic, neurologic, social, affective and aesthetic influences of music on human behavior. Initial development of research ideas, topics and questions.

**Credit Hours:** 3 hrs

**MUSC 405 - Music Therapy Research**

Introduction to evaluation of empirical research in the field; examination of the continued need for investigation and documentation in the profession of music therapy. Completion of a quantitative research proposal.

**Credit Hours:** 3 hrs

**Prerequisite:** MUSC 404

**Class Restrictions:** Junior standing or above

**Major Restrictions:** Students in the Bachelor of Music Therapy or Post-Baccalaureate Certificate: Music Therapy Equivalency programs only

**Last Updated:** Links 04/2011

**MUSC 409 - Music Therapy Improvisation Ensemble IV**

This advanced-level course develops musical accompanying and verbal processing skills used in psychodynamic music therapy approaches.

**Credit Hours:** 1 hr

**Prerequisite:** MUSC 309

**Class Restrictions:** Junior standing or above

**Major Restrictions:** Students in the Bachelor of Music Therapy or Post-Baccalaureate Certificate: Music Therapy Equivalency programs only

**Last Updated:** Links 04/2011
MUSC 413 - Orchestration

Practical work in setting compositions for full orchestra and various other instrumental ensembles.

Credit Hours: 2 hrs
Prerequisite: MUSC 202 (with a grade of C or better) and MUSC 229 (with a grade of C or better)
Last Updated: Prerequisite Change 04/2012, effective Fall 2012; Links 04/2011

MUSC 427 - Pre-internship Clinical Training in Music Therapy V

Advanced fieldwork experience in clinical or educational settings.

Credit Hours: 1 hr
Prerequisite: MUSC 324
Class Restrictions: Junior standing or above
Major Restrictions: Students in the Bachelor of Music Therapy or Post-Baccalaureate Certificate: Music Therapy Equivalency programs only
Last Updated: 03/2011

MUSC 428 - Pre-internship Clinical Training in Music Therapy VI

Advanced fieldwork experience continued.

Credit Hours: 1 hr
Prerequisite: MUSC 427
Class Restrictions: Junior standing or above
Major Restrictions: Students in the Bachelor of Music Therapy or Post-Baccalaureate Certificate: Music Therapy Equivalency programs only
Last Updated: Links 04/2011

MUSC 448 - Opera Workshop

A laboratory-performance course that deals with performance of opera scenes and, when feasible, complete works. Open to all students by audition.

Credit Hours: 1 hr
Prerequisite: Audition
Last Updated: Links 04/2011

MUSC 475 - Chamber Music Performance

Study and performance of literature for small chamber groups. May be repeated for credit.

Credit Hours: 1 hrs
Last Updated: Credit hour change 05/2011, effective Fall 2011

MUSC 477 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.
MUSC 478 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr
Prerequisite: Department permission
Last Updated: Links 04/2011

MUSC 479 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs
Prerequisite: Department permission
Last Updated: Links 04/2011

MUSC 488 - Clinical Training Internship in Music Therapy

A minimum of 900 clock hours of supervised training in an approved hospital, clinical or educational setting.

Credit Hours: 2 hrs
Prerequisite: MUSC 428; Completion of all other music therapy curriculum requirements and successful completion of guitar, keyboard and voice competency demonstrations
Major Restrictions: Students in the Bachelor of Music Therapy or Post-Baccalaureate Certificate: Music Therapy Equivalency programs only
Last Updated: Links 04/2011

MUSC 490 - Honors Course in Music

Provides superior students with the opportunity for an intensive program of independent study, original composition, performance or research.

Credit Hours: 2 hrs
Prerequisite: Cumulative GPA of 3.5 in music courses and 3.2 in general education courses; regulations governing honors courses must be followed
Class Restrictions: Senior standing

MUSC 492 - Honors Course in Music

Provides superior students with the opportunity for an intensive program of independent study, original composition, performance or research.

Credit Hours: 4 hrs
Prerequisite: Cumulative GPA of 3.5 in music courses and 3.2 in general education courses; regulations governing honors
courses must be followed

Class Restrictions: Senior standing

MUSC 497 - Independent Study

Independent study, under the supervision of a department member, in areas in which the department does not offer a course.

Credit Hours: 1 hr
Prerequisite: Department permission
Last Updated: Links 04/2011

MUSC 498 - Independent Study

Independent study, under the supervision of a department member, in areas in which the department does not offer a course.

Credit Hours: 2 hrs
Prerequisite: Department permission
Last Updated: Links 04/2011

MUSC 499 - Independent Study

Independent study, under the supervision of a department member, in areas in which the department does not offer a course.

Credit Hours: 3 hrs
Prerequisite: Department permission
Last Updated: Links 04/2011
Psychology Programs and Courses

Psychology

Major

Psychology Major

The major in psychology is designed to provide a general and in-depth survey of the fields in the science of psychology and to prepare students to work with people in several career areas. Further study beyond the baccalaureate is required to enter professional career work.

Department Information:

Department Website

Advisor Information:

Please contact the department for Advisor Information

General Education Requirements:

For specific requirements refer to the General Education Program.

Major Requirements: 32 hours

Required Courses: 14 hours

- PSY 101 - General Psychology Lecture (GEKN) 3 hrs
- PSY 103 - General Psychology Laboratory (GEKN) 1 hr
- PSY 205 - Quantitative Methods in Psychology 3 hrs
- PSY 301W - Introductory Experimental Psychology (GEWI) 4 hrs
- PSY 453 - History and Systems of Psychology 3 hrs

Restricted Elective Course: 12 hours

Select one course from each of the following categories:
I. Adjustment and Personality:

- PSY 360 - Abnormal Psychology 3 hrs
- PSY 451 - Dynamics of Personality 3 hrs

II. Biological:

- PSY 357 - Sensation and Perception 3 hrs
- PSY 433 - Cognitive Neuroscience 3 hrs
- PSY 457 - Physiological Psychology 3 hrs
- PSY 458 - Comparative Animal Behavior 3 hrs

III. Learning and Motivation:

- PSY 304 - Learning 3 hrs
- PSY 356 - Motivation and Emotion 3 hrs

IV. Development and Social:

- PSY 309 - Social Psychology 3 hrs
- PSY 321 - Child Psychology 3 hrs

Psychology Elective Courses: 6 hours

Students may elect any PSY course, that is not already a requirement, to satisfy the 6 hours of elective credit.

Minor Requirements:

This program requires a minor. Please contact your program advisor for a list of possible minors.

Program Total:

Students must earn a minimum total of 124 credits at the 100-level or above.

Critical Graduation Information:

Each undergraduate student will be responsible for the fulfillment of the requirements or their equivalents of the Eastern Michigan University catalog in force at the time of their initial registration at a college or university or a subsequent catalog including the one in effect at the time of their graduation.

In the event an undergraduate student does not complete the degree requirements within seven years of the date of their original registration at a college or university, the student may be required to have their credits re-evaluated by the academic department(s) of their major/minor in keeping with catalog requirements in force during the year of their graduation.

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.
- Earn a minimum total of 124 credits at the 100-level and above. Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Complete a Writing Intensive (WI) Course in your major.
- Earn a minimum of 60 credits from a four-year college or university; courses taken at community colleges cannot be used to meet this requirement. (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 unique credit hours in their major and 20 unique credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
- Earn no more than 60 credit hours in one subject area (prefix). Credits in excess of the 60 maximum will not be counted toward the minimum of 124 credits required for a bachelor's degree.
- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more than one major or minor.
  - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
  - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
  - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor.
- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is conducted by individual departments/schools within EMU, and additional documentation may be required. Please note: EMU awards only credit for transferred courses; grades are not used in the calculation of an EMU GPA.
- Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be reached in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

General Education Requirements:

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available in the General Education section of the catalog: General Education

Students who transferred to EMU may have modified general education requirements based on Michigan Transfer Agreement (MTA) or articulation agreements; consult your academic advisor for additional information.

University Information: Consult the online catalog at catalog.emich.edu.

• WGST 362 - Black Women: Religion and Sexism 3 hrs
• WGST 415 - Sexual Communities in American History 3 hrs
• WGST 462 - Practice with Lesbian, Gay, Bisexual and Transgender Persons 3 hrs

Minor Total: 21 hours

Note:

*Students may not take more than six credits of PSY courses as electives.*

Critical Graduation Information:

Each undergraduate student will be responsible for the fulfillment of the requirements or their equivalents of the Eastern Michigan University catalog in force at the time of their initial registration at a college or university or a subsequent catalog including the one in effect at the time of their graduation.

In the event an undergraduate student does not complete the degree requirements within seven years of the date of their original registration at a college or university, the student may be required to have their credits re-evaluated by the academic department(s) of their major/minor in keeping with catalog requirements in force during the year of their graduation.

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the 100-level and above. Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Complete a Writing Intensive (WI) Course in your major.
• Earn a minimum of 60 credits from a four-year college or university; **courses taken at community colleges cannot be used to meet this requirement.** (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)

• Earn a minimum of 30 credits from courses taken at EMU.

• Complete 10 of the last 30 hours for the degree from courses taken at EMU.

• Have a minimum of 30 unique credit hours in their major and 20 unique credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.

• Earn no more than 60 credit hours in one subject area (prefix). Credits in excess of the 60 maximum will not be counted toward the minimum of 124 credits required for a bachelor's degree.

• Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more that one major or minor.
  - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor.
  - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
  - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor.

• Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is conducted by individual departments/schools within EMU, and additional documentation may be required. *Please note:* EMU awards only credit for transferred courses; grades are not used in the calculation of an EMU GPA.

• Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be reached in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

**General Education Requirements:**

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available in the General Education section of the catalog: General Education

Students who transferred to EMU may have modified general education requirements based on Michigan Transfer Agreement (MTA) or articulation agreements; consult your academic advisor for additional information.

**University Information:** Consult the online catalog at catalog.emich.edu.

**Psychology Minor**

The minor provides students entering many career fields a fuller scientific understanding of human experience, behavior, needs, desires and potentialities. The minor is flexible; within limits it may be designed to meet the needs of each student.

**Department Information:**

Psychology Department - College of Arts & Sciences

**Carol Freedman-Doan, Ph.D., Department Head**
Required Courses: 3-4 hours

- PSY 101 - General Psychology Lecture (GEKN) 3 hrs
  or
  PSY 101 - General Psychology Lecture (GEKN) 3 hrs
  and
- PSY 103 - General Psychology Laboratory (GEKN) 1 hr

Elective Courses: 16-17 hours

In consultation with an advisor, students may elect any PSY course, that is not already a requirement, to satisfy the 16-17 hours of elective credit. At least 6 hours must be 300-level or above.

Minor Requirements: 20 hours

Note:

*All minors must have at least six hours of course work at the 300-level or above.*

Critical Graduation Information:

Each undergraduate student will be responsible for the fulfillment of the requirements or their equivalents of the Eastern Michigan University catalog in force at the time of their initial registration at a college or university or a subsequent catalog including the one in effect at the time of their graduation.

In the event an undergraduate student does not complete the degree requirements within seven years of the date of their original registration at a college or university, the student may be required to have their credits re-evaluated by the academic department(s) of their major/minor in keeping with catalog requirements in force during the year of their graduation.

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the 100-level and above. Courses with numbers below 100 will not be counted toward this degree requirement. Students who transferred to EMU may have modified general education requirements based on Michigan Transfer Agreement (MTA) or articulation agreements; consult your academic advisor for additional information.

University Information: Consult the online catalog at catalog.emich.edu.

Secondary Education Psychology Minor

Successful completion of this minor, in the context of other program requirements, qualifies the student for recommendation for endorsement in psychology, certification code CE. The Michigan Test for Teacher Certification (MTTC) covering this field is #011, “Psychology.”

Department Information:

Psychology Department - College of Arts & Sciences
Advisor Information:

Please contact the department for Advisor Information

Required Courses: 3-4 hours

- PSY 101 - General Psychology Lecture (GEKN) 3 hrs
  or
  - PSY 101 - General Psychology Lecture (GEKN) 3 hrs
  and
- PSY 103 - General Psychology Laboratory (GEKN) 1 hr

Elective Courses: 16-17 hours

In consultation with an advisor, students may elect any PSY course, that is not already a requirement, to satisfy the 16-17 hours of elective credit. At least 6 hours must be 300-level or above.

Minor Total: 20 hours

Note:

*All minors must have at least six hours of course work at the 300-level or above.*

MTTC Subject Area Test

*Starting January 1, 2013, Students seeking licensure in a secondary or K-12 area are not required to take the MTTC subject area test in their minor area. Students who elect not to take the test in their minor will be required to sign a statement indicating that they understand that they will not be endorsed in their minor area and will not be eligible for teaching positions in their minor unless they pass the minor subject area test within five years of completing field experience and course requirements.*

Critical Graduation Information:

Each undergraduate student will be responsible for the fulfillment of the requirements or their equivalents of the Eastern Michigan University catalog in force at the time of their initial registration at a college or university or a subsequent catalog including the one in effect at the time of their graduation.

In the event an undergraduate student does not complete the degree requirements within seven years of the date of their original registration at a college or university, the student may be required to have their credits re-evaluated by the academic department(s) of their major/minor in keeping with catalog requirements in force during the year of their graduation.

University Information: Consult the online catalog at catalog.emich.edu.

Psychology
PSY 101 - General Psychology Lecture (GEKN)

Principles, theories and methods evolving from the scientific analysis of behavior. *PSY 103 must be completed in addition to PSY 101 to satisfy four credits of the Knowledge of the Disciplines - Natural Science portion of the General Education program.

Credit Hours: 3 hrs  
Lecture/Lab Hours: Lecture: three hours per week

Knowledge of the Disciplines:

*General Psychology Lecture* and its required companion laboratory course (PSY 103) present basic principles of psychology that have been established by applications of the scientific method. They will also examine key historical developments that will help illustrate how knowledge and theories in science are dynamic. In the laboratory portion of the course, students generate data designed to provide an introduction to scientific discovery to demonstrate particular scientific principles, and how to reach conclusions based on controlled observations.

In this course, students will study basic principles of psychology that have been established by applications of the scientific method. They will also examine key historical developments that will help illustrate how knowledge and theories in science are dynamic. Students will generate data designed to demonstrate particular principles and how to reach conclusions based on controlled observations. Because of its focus on the scientific method and on applications of scientific methodology, PSY 101 and 103 together, meet the requirements of a natural science courses in the Knowledge of the Disciplines portion of the General Education Program.

Last Updated: Links 06/2011

PSY 103 - General Psychology Laboratory (GEKN)

Laboratory demonstrations and experiments illustrating concepts presented in PSY 101 lectures. PSY 101 must be completed in addition to PSY 103 to satisfy four credit hours of the Knowledge of the Disciplines - Natural Science portion of the General Education program.

Credit Hours: 1 hr  
Lecture/Lab Hours: Laboratory: two hours per week

Concurrent Prerequisite: PSY 101

PSY 177 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.
PSY 178 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs
Prerequisite: PSY 101 and department permission
Last Updated: Prerequisites 07/2011; Links 04/2011

PSY 179 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs
Prerequisite: PSY 101 and department permission
Last Updated: Prerequisites 07/2011; Links 04/2011

PSY 203 - Self-analysis and Control

Behavioral principles and techniques that can be applied to behavioral self-analysis and self-management. Student-initiated self-improvement projects encouraged.

Credit Hours: 3 hrs
Prerequisite: PSY 101
Last Updated: Prerequisites 07/2011; Links 04/2011

PSY 205 - Quantitative Methods in Psychology

Basic concepts and methods used in the analysis of psychological data. Methods of describing and drawing inferences from sets of data.

Credit Hours: 3 hrs
Prerequisite: PSY 101 and one of: MATH 104, MATH 105, MATH 110, MATH 118, MATH 120, MATH 170 (with a grade "C" or better in these Math courses) or College-Level Math Placement (53 or higher), MATH placement Level 4.
Last Updated: Prerequisites 07/2011; Links 04/2011

PSY 207 - Psychology of Adjustment

Systematic presentation of issues, concepts, principles and theories of human adjustment.

Credit Hours: 3 hrs
Prerequisite: PSY 101
Last Updated: Prerequisites 07/2011; Links 04/2011

PSY 225 - Psychology of Religion
The application of psychological theory, principles and method to the study of religious behavior. The relationships between religion and personality, health/pathology, social behavior and intense emotional experience.

**Credit Hours:** 3 hrs  
**Prerequisite:** PSY 101  
**Last Updated:** Prerequisites 07/2011; Links 04/2011

**PSY 240 - Psychology of Sex Part I**

Survey of the psychological research concerned with human sexuality from a psychological point of view with an emphasis on research findings.

**Credit Hours:** 3 hrs  
**Prerequisite:** PSY 101  
**Last Updated:** Prerequisites 07/2011; Title Change 06/2011, effective Fall 2011; Links 04/2011

**PSY 242 - Psychology of Women**

Theories and empirical research concerning personality development in females. Examination of the origins of the behavior of women.

**Credit Hours:** 3 hrs  
**Prerequisite:** PSY 101  
**Cross-Listed with:** WGST 242  
**Last Updated:** Prerequisites 07/2011; Links 04/2011

**PSY 277 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 1 hr  
**Prerequisite:** PSY 101 and department permission  
**Last Updated:** Prerequisites 07/2011; Links 04/2011

**PSY 278 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 2 hrs  
**Prerequisite:** PSY 101 and department permission  
**Last Updated:** Prerequisites 07/2011; Links 04/2011

**PSY 279 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 3 hrs
Prerequisite: PSY 101 and department permission  
_Last Updated:_ Prerequisites 07/2011; Links 04/2011

**PSY 301W - Introductory Experimental Psychology (GEWI)**

Design, control and measurement techniques employed in the scientific investigation of behavior; e.g., motivation, emotion, perception and learning.

_Credit Hours:_ 4 hrs  
_Prerequisite:_ PSY 205  
_Writing Intensive:_

_Last Updated:_ Links 04/2011

**PSY 304 - Learning**

Includes learning theories and empirical research as developed by Pavlov, Thorndike, Guthrie, Tolman, Hull, Skinner, Mowrer and others, plus select contemporary topics.

_Credit Hours:_ 3 hrs  
_Prerequisite:_ PSY 301W  
_Last Updated:_ Links 04/2011

**PSY 309 - Social Psychology**

The order and regularity underlying processes of human interaction. Motives and attitudes, social norms and roles, the socialization process, personality and group membership. The effect of group membership upon individual behavior.

_Credit Hours:_ 3 hrs  
_Prerequisite:_ PSY 101  
_Notes:_ Not open to those with credit in SOCL 308.  
_Last Updated:_ Prerequisites 07/2011; Links 04/2011

**PSY 321 - Child Psychology**

The development of human behavior from conception to adolescence. Analysis of developmental processes involved in cognition, socialization, emotion and personality, relying on research and theory; emphasis on developmental trends. Not open to students in early elementary education curriculum.

_Credit Hours:_ 3 hrs  
_Prerequisite:_ PSY 101  
_Last Updated:_ Prerequisites 07/2011; Links 04/2011

**PSY 322 - Psychology of Adolescence**

An opportunity to formulate, examine and understand a comprehensive, balanced picture of the physical, mental, emotional, social, and ideological developments and adjustments during adolescence.

_Credit Hours:_ 3 hrs  
_Prerequisite:_ PSY 101  
_Last Updated:_ Prerequisites 07/2011; Links 04/2011
**PSY 323 - Psychology of Human Aging**

Aging individuals in the context of their life span; the special problems of the aged in modern American society. Intellectual functioning, socialization and personality, environmental effects, and the problems of isolation and institutionalization.

Credit Hours: 3 hrs  
Prerequisite: PSY 101  
Class Restrictions: Junior or Senior standing or Second Bachelor’s students only  
Last Updated: Prerequisites 07/2011; Links 04/2011

**PSY 340 - Psychological Perspectives on Prejudice and Discrimination**

The psychological processes underlying the phenomena of prejudice and discrimination. A review of materials on personality and development relevant to the practice of discrimination and to the experience of prejudice on the part of both minority and majority group individuals.

Credit Hours: 3 hrs  
Prerequisite: PSY 101  
Class Restrictions: Sophomore standing  
Last Updated: Prerequisites 07/2011; Links 04/2011

**PSY 350 - Environmental Psychology**

The psychological effects of various environmental settings and configurations on human behavior. Select qualities of architectural spaces, urban environments and natural settings.

Credit Hours: 3 hrs  
Prerequisite: PSY 101  
Last Updated: Prerequisites 07/2011; Links 04/2011

**PSY 351 - Industrial Psychology**

Applications of psychological methods and principles to industrial problems.

Credit Hours: 3 hrs  
Prerequisite: PSY 101  
Class Restrictions: Junior or Senior standing  
Last Updated: Prerequisites 07/2011; Links 04/2011

**PSY 356 - Motivation and Emotion**

Review and analysis of theory and research in the areas of motivation and emotion.

Credit Hours: 3 hrs  
Prerequisite: PSY 301W  
Last Updated: Links 04/2011

**PSY 357 - Sensation and Perception**

Analysis of the psychological literature relating to sensory and perceptual experience.
PSY 358 - Cognitive Processes

A review of the theoretical and empirical developments concerned with cognitive processes, such as concept formation, memory and retrieval from memory, language acquisition, thought, problem solving, imagination, and creativity.

PSY 360 - Abnormal Psychology

Modern theories of the origin of mental disorders and personality disturbances, nature and mechanism of the various forms of abnormal behavior, prevention and treatment, social significance of aberrations.

PSY 361 - Psychotherapy

Survey of therapeutic systems and research on psychotherapy.

PSY 362 - The Psychology of Stress and Relaxation

PSY 365 - Behavior Modification

For students in psychology, special education, social work, nursing and related fields. Techniques for coping with problem behaviors. Training in practical observation and recording procedures, program evaluation designs, and behavior change principles.

PSY 366 - Health Psychology/Behavioral Medicine
The application of behavioral-science theory, principles, and techniques to understanding of health and illness, and to prevention, diagnosis, treatment, rehabilitation and health care delivery.

**Credit Hours:** 3 hrs  
**Prerequisite:** PSY 101  
**Last Updated:** Prerequisites 07/2011; Links 04/2011

**PSY 377 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 1 hrs  
**Prerequisite:** PSY 101 and department permission  
**Last Updated:** Prerequisites 07/2011; Links 04/2011

**PSY 378 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 2 hrs  
**Prerequisite:** PSY 101 and department permission  
**Last Updated:** Prerequisites 07/2011; Links 04/2011

**PSY 379 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 3 hrs  
**Prerequisite:** PSY 101 and department permission  
**Last Updated:** Prerequisites 07/2011; Links 04/2011

**PSY 380 - Psychology of Sex II: Identity, Sex, and Gender**

This course is an advanced study in the psychological aspects of human sexuality. It is intended to help students develop an increased awareness of how their various social identities (e.g., their sex, gender, sexual orientation, physical abilities, etc.) influence their understanding of sex, sexuality, and their behaviors in and attitudes about society.

**Credit Hours:** 3 hrs  
**Prerequisite:** PSY 101 and PSY 240  
**Last Updated:** New Course 06/2011, effective Fall 2011

**PSY 387 - Cooperative Education in Psychology**

Four months of full-time employment at an individual employer chosen to provide practical experience in the student’s major field. The program consists of two work experiences (PSY 387/PSY 487) alternating with full-time attendance at the University.

**Credit Hours:** 3 hrs
**Prerequisite:** two 300-level psychology courses and department permission  
*Last Updated:* Links 06/2011

**PSY 388 - Psychology in the Field Setting**

A practical work experience in a supervised mental health setting that integrates scholarly and practical aspects of psychology. Approximately three hours of fieldwork each week and completion of a journal of goals and experiences.

**Credit Hours:** 2 hrs  
**Prerequisite:** PSY 101  
**Concurrent Prerequisite:** A three-hour psychology class and/or department permission  
*Last Updated:* Prerequisites 07/2011; Links 04/2011

**PSY 397 - Individual Reading in Psychology**

Supervised reading on psychological problems.

**Credit Hours:** 1 hr  
**Prerequisite:** PSY 101 and prior department approval of a planned reading program  
*Last Updated:* Prerequisites 07/2011; Links 04/2011

**PSY 398 - Individual Reading in Psychology**

Supervised reading on psychological problems.

**Credit Hours:** 2 hrs  
**Prerequisite:** PSY 101 and prior department approval of a planned reading program  
*Last Updated:* Prerequisites 07/2011; Links 04/2011

**PSY 399 - Individual Reading in Psychology**

Supervised reading on psychological problems.

**Credit Hours:** 3 hrs  
**Prerequisite:** PSY 101 and prior department approval of a planned reading program  
*Last Updated:* Prerequisites 07/2011; Links 04/2011

**PSY 433 - Cognitive Neuroscience**

This course will introduce students to basic neuro-anatomy, as well as how the discipline of neuroscience defines such constructs as the mind and brain. Further, it will utilize cognitive neuroscience methodologies (e.g. fMRI, MRI, PET, and ERPs) to describe the processes of perception, attention, memory, language, and executive functioning (e.g. reasoning, decision making).

**Credit Hours:** 3 hrs  
**Prerequisite:** PSY 301W  
**Class Restrictions:** All Undergraduates, Post Bac. Teacher Cert.  
*Last Updated:* New Course 12/2013, effective Summer 2014

**PSY 445 - Consumer Psychology**
A survey of psychological principles, theories and methodology relating to consumer behavior.

**Credit Hours:** 2 hrs  
**Prerequisite:** PSY 101  
**Last Updated:** Prerequisites 07/2011; Links 04/2011

**PSY 448 - Seminar in Psychology**

A synthesis of various approaches to the study of psychology. Development, presentation, and critical appraisal of individual student projects.

**Credit Hours:** 2 hrs  
**Class Restrictions:** Senior standing  
**Major Restrictions:** Psychology Majors or Minors only  
**Last Updated:** Prerequisites 07/2011; Links 04/2011

**PSY 451 - Dynamics of Personality**

Physiological, psychological and cultural determinants of human personality; analysis of select theories of human personality.

**Credit Hours:** 3 hrs  
**Prerequisite:** PSY 101  
**Class Restrictions:** Junior or Senior standing or Second Bachelor’s students only  
**Last Updated:** Prerequisites 07/2011; Links 04/2011

**PSY 453 - History and Systems of Psychology**

Historical development of modern psychological theories; contemporary systems, including functionalism, behaviorism, phenomenology, psychoanalysis and dynamic psychologies.

**Credit Hours:** 3 hrs  
**Prerequisite:** PSY 101 and PSY 301W  
**Class Restrictions:** Junior or Senior standing or Second Bachelor’s students only  
**Last Updated:** Prerequisites 07/2011; Links 04/2011

**PSY 457 - Physiological Psychology**

Analysis of the relationships among brain functions, physiological processes and behavior. Open to junior and senior science majors with department permission.

**Credit Hours:** 3 hrs  
**Prerequisite:** PSY 301W; recommended: BIO 105 or BIO 140  
**Last Updated:** Links 04/2011

**PSY 458 - Comparative Animal Behavior**

Modern solutions to the innate versus learned behavior controversy; species differences with respect to behavior and behavioral capacities.

**Credit Hours:** 3 hrs  
**Prerequisite:** PSY 301W  
**Last Updated:** Links 04/2011
PSY 460 - Psychology of Film

The psychology of film and audience. Viewer psychology, presentation of psychology, family, violence and sexuality in film.

Credit Hours: 3 hrs
Class Restrictions: Junior standing and/or two courses in Psychology

PSY 477 - Special Topics

An examination of topics in psychology not covered in other department offerings. May be elected more than once, provided different topics are studied.

Credit Hours: 1 hr
Prerequisite: PSY 101 and department permission
Last Updated: Prerequisites 07/2011; Links 04/2011

PSY 478 - Special Topics

An examination of topics in psychology not covered in other department offerings. May be elected more than once, provided different topics are studied.

Credit Hours: 2 hrs
Prerequisite: PSY 101 and department permission
Last Updated: Prerequisites 07/2011; Links 04/2011

PSY 479 - Special Topics

An examination of topics in psychology not covered in other department offerings. May be elected more than once, provided different topics are studied.

Credit Hours: 3 hrs
Prerequisite: PSY 101 and department permission
Last Updated: Prerequisites 07/2011; Links 04/2011

PSY 480 - Psychology of Sex III: Atypical Sexual Behavior

This course is a survey course of atypical sexual cognition and behavior, the paraphilias, and criminal sexual behaviors. This course builds on a strong foundational knowledge of psychology and explores how it applies to atypical sexual development, expression, and consequences.

Credit Hours: 3 hrs
Prerequisite: PSY 101 and PSY 240
Last Updated: New Course 06/2011, effective Fall 2011

PSY 487 - Cooperative Education in Psychology

Four months of full-time employment at an individual employer chosen to provide practical experience in the student’s major field. The program consists of two work experiences (PSY 387/PSY 487) alternating with full-time attendance at the University.

Credit Hours: 3 hrs
PSY 497 - Individual Research in Psychology

Supervised investigation of psychological problems.

Credit Hours: 1 hr
Prerequisite: Department permission
Last Updated: Links 04/2011

PSY 498 - Individual Research in Psychology

Supervised investigation of psychological problems.

Credit Hours: 2 hrs
Prerequisite: Department permission
Last Updated: Links 04/2011

PSY 499 - Individual Research in Psychology

Supervised investigation of psychological problems.

Credit Hours: 3 hrs
Prerequisite: Department permission
Last Updated: Links 04/2011
Political Science Programs and Courses

Political Science

Major

Combined Bachelor's Degree in Political Science and Master's of Public Administration Degree

The Combined Bachelor’s Degree in Political Science (PLPA) and Master’s of Public Administration Degree is an accelerated five year program in which exceptional students will earn both undergraduate and graduate degrees. Students will spend their first three years engaged in undergraduate studies and their final two completing the graduate program. The total number of credits needed for the program will be 150. At the undergraduate level, students will complete their General Education requirements, a minor and an abbreviated version of the undergraduate Political Science major. Starting their fourth year, students will complete all 40-46 hours of the M.P.A. program, and a portion of the credits will double count toward the undergraduate B.S. degree.

The curriculum requires two internships, one as part of the undergraduate major, the second in the M.P.A. portion. Thus, students will have substantial field experience in public administration upon completing the full B.S./M.P.A. program.

http://www.emich.edu/polisci/Internship/undergrad_majors.html

Admission

Students will be invited to apply to the Combined Degree Program by Feb. 1 of their junior year, and will be offered admission by March 1 of their junior year. Applications will require letters of recommendation, a personal statement focusing on career goals and reasons for applying to the program, and an interview with the M.P.A. Director (or a designate). A minimum 3.3 grade-point average will be required for entry to this program.

General Education Requirements:

For specific requirements refer to the General Education Program.

Additional Requirements: 3 hours

One of the following:

- PLSC 112 - American Government (GEKS) 3 hrs
- PLSC 113 - American Government Honors (GEKS) 3 hrs

Undergraduate Requirements: 30 hours

Required Core Courses: 9 hours

- PLSC 210 - Introduction to Political Analysis (GEQR) 3 hrs
- PLSC 270 - Public Administration 3 hrs
- PLSC 480 - Field Seminar in Political Science/Public Administration 3 hrs

Restricted Electives: 6 hours

Two courses from the following:

- PLSC 211 - Introduction to Comparative Government (GEGA) 3 hrs
- PLSC 212 - Introduction to International Politics (GEKS) 3 hrs
- PLSC 213 - Introduction to Political Thought (GEKH) 3 hrs

Distribution Requirements: 9 hours

Three courses from the groups listed below, including at least one course from each group:

I. Comparative Politics and International Relations

- PLSC 120 - Global Issues (GEGA) 3 hrs
- PLSC 221 - America at War: From Vietnam to Iraq 3 hrs
- PLSC 345 - War and Peace in the Nuclear Age 3 hrs
- PLSC 308 - Political Violence and Revolution 3 hrs
- PLSC 311 - Politics of the Developing World 3 hrs
- PLSC 327W - American Foreign Policy Process (GEWI) 3 hrs
- PLSC 341 - International Law 3 hrs
- PLSC 342 - International Organizations 3 hrs
- PLSC 354 - Canadian Politics 3 hrs
- PLSC 361 - Russian Politics 3 hrs
- PLSC 367 - Latin American Politics 3 hrs
- PLSC 371 - Middle East Politics 3 hrs
II. Political Theory and Methods:

- PLSC 310 - Methods of Political Research 3 hrs
- PLSC 382 - Politics and the 21st Century 3 hrs
- PLSC 320 - Political Science in Literature and Film 3 hrs
- PLSC 306 - Contemporary Political Thought 3 hrs
- PLSC 307 - Democracy and Power 3 hrs
- PLSC 309 - American Political Theory 3 hrs

Graduate Courses Toward Undergraduate Major: 6 hours

Minor Requirements:

This program requires a minor. Please contact your program advisor for a list of possible minors.

Graduate Courses Toward MPA Only: 34-40 hours

Program Total:

Students must earn a minimum total of 124 credits at the 100-level or above.

Note:

Each student must choose a writing intensive course as part of major completion requirements. Consult your advisor for course options.

Critical Graduation Information:

Each undergraduate student will be responsible for the fulfillment of the requirements or their equivalents of the Eastern Michigan University catalog in force at the time of their initial registration at a college or university or a subsequent catalog including the one in effect at the time of their graduation.

In the event an undergraduate student does not complete the degree requirements within seven years of the date of their original registration at a college or university, the student may be required to have their credits re-evaluated by the academic department(s) of their major/minor in keeping with catalog requirements in force during the year of their graduation.

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.
- Earn a minimum total of 124 credits at the **100-level and above**. Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Complete a Writing Intensive (WI) Course in your major.
- Earn a minimum of 60 credits from a four-year college or university; **courses taken at community colleges cannot be used to meet this requirement.** (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 **unique** credit hours in their major and 20 **unique** credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
- Earn no more than 60 credit hours in one subject area (prefix). Credits in excess of the 60 maximum will not be counted toward the minimum of 124 credits required for a bachelor's degree.
- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more that one major or minor.
  - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
  - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
  - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor
- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is conducted by individual departments/schools within EMU, and additional documentation may be required. **Please note:** EMU awards only credit for transferred courses; grades are not used in the calculation of an EMU GPA.
- Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be reached in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

**General Education Requirements:**

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available in the General Education section of the catalog: General Education

Students who transferred to EMU may have modified general education requirements based on Michigan Transfer Agreement (MTA) or articulation agreements; consult your academic advisor for additional information.

**University Information:** Consult the online catalog at catalog.emich.edu.

**Combined Bachelor's Degree in Public Administration and Master's of Public Administration Degree (PAPA)**

The Combined Bachelor's Degree in Public Administration (PAPA) and Master's of Public Administration Degree is an accelerated five year program in which exceptional students will earn both undergraduate and graduate degrees. Students will
spend their first three years engaged in undergraduate studies and their final two completing the graduate program. The total number of credits needed for the program will be 150. At the undergraduate level, students will complete their General Education requirements, a minor and an abbreviated version of the undergraduate Public Administration major. Starting their fourth year, students will complete all 40-46 hours of the M.P.A. program, and a portion of the credits will double count toward the undergraduate B.S. degree.

The curriculum requires two internships, one as part of the undergraduate major, the second in the M.P.A. portion. Thus, students will have substantial field experience in public administration upon completing the full B.S./M.P.A. program.

http://www.emich.edu/polisci/Internship/undergrad_majors.html

Admission:

Students will be invited to apply to the Combined Degree Program by Feb. 1 of their junior year, and will be offered admission by March 1 of their junior year. Applications will require letters of recommendation, a personal statement focusing on career goals and reasons for applying to the program, and an interview with the M.P.A. Director (or a designate). A minimum 3.3 grade-point average will be required for entry to this program.

Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is conducted by individual departments/schools within EMU, and additional documentation may be required. Please note: EMU awards only credit for transferred courses; grades are not used in the calculation of an EMU GPA.
- Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be reached in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

General Education Requirements:

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available in the General Education section of the catalog: General Education

Students who transferred to EMU may have modified general education requirements based on Michigan Transfer Agreement (MTA) or articulation agreements; consult your academic advisor for additional information.

University Information: Consult the online catalog at catalog.emich.edu.
International Affairs Major

This curriculum (which counts as a combined major and minor) provides students with an opportunity to develop an understanding of both area and global issues. It is intended to prepare students for participation in a global society, including work with government, business and non-government organizations. It is intended for students who are interested in diplomacy, international affairs and international service.

There are two tracks within this curriculum: **Cognate Option A** does not have a foreign language requirement and is directed to students who either already possess an adequate level of foreign language proficiency or who anticipate employment in which such proficiency is not expected. This curriculum requires 54 hours. **Cognate Option B** includes a foreign language requirement and is strongly recommended for individuals who are seeking work outside the United States or work in which some familiarity with foreign language may be an asset such as the foreign service. This curriculum requires 61-64 credit hours.

Department Information:

Department Website

General Education Requirements:

For specific requirements refer to the General Education Program.

Required Courses: 12 hours

- PLSC 210 - Introduction to Political Analysis (GEQR) 3 hrs
- PLSC 211 - Introduction to Comparative Government (GEGA) 3 hrs
- PLSC 212 - Introduction to International Politics (GEKS) 3 hrs
- PLSC 327W - American Foreign Policy Process (GEWI) 3 hrs

Comparative Politics Courses: 9 hours

*Three courses from the following:*

- PLSC 308 - Political Violence and Revolution 3 hrs
- PLSC 311 - Politics of the Developing World 3 hrs
- PLSC 354 - Canadian Politics 3 hrs
- PLSC 355 - European Politics 3 hrs
- PLSC 361 - Russian Politics 3 hrs
- PLSC 367 - Latin American Politics 3 hrs
- PLSC 371 - Middle East Politics 3 hrs
- PLSC 372 - African Politics 3 hrs
• PLSC 374 - Asian Politics 3 hrs
• PLSC 405 - British Law and Politics 3 hrs

International Politics Courses: 6 hours

Catalog Correction: PLSC 344L is also an option for this section

Two courses from the following:

• PLSC 341 - International Law 3 hrs
• PLSC 342 - International Organizations 3 hrs
• PLSC 343L - Model United Nations (GELB) 3 hrs
• PLSC 345 - War and Peace in the Nuclear Age 3 hrs
• PLSC 346 - International Political Economy 3 hrs
• PLSC 390 - Poverty, Human Rights and Health (GEGA) 3 hrs
• PLSC 391 - Field Study: Global Experience - Poverty, Human Rights and Health 3 hrs
• PLSC 462 - Russian Foreign Relations 3 hrs
• PLSC 467 - Advanced International Relations 3 hrs

Cognate Option A: 24 hours

Students will select courses from at least two disciplines from an approved list of courses in History, Economics, Anthropology, Geography, African American Studies and World Language. If a foreign language is selected, students will consult with a World Languages advisor to select an appropriate sequence of classes.

Cognate Option B: 19-23 hours

Students will take an appropriate sequence of courses in a foreign language - French, German, Spanish, Japanese, Chinese, Arabic or Russian - and will select four courses from two disciplines from an approved list of courses in history, economics, anthropology and geography.

Capstone: 3 hours

Students may select one of the following options:

• PLSC 480 - Field Seminar in Political Science/Public Administration 3 hrs
• PLSC 491 - Honors Thesis 3 hrs
• PLSC 492 - International Affairs Honors Thesis 3 hrs
• PLSC 499 - Independent Study 3 hrs
  can be taken either as an undergraduate thesis course or study abroad.

Cognate Courses

African American Studies

• AFC 311 - The African Diaspora 3 hrs
• AFC 313 - Contemporary Africa: The Struggle and Prospects for Development (GEGA) 3 hrs
International Economics Perspective

- ECON 201 - Principles of Macroeconomics (GEKS) 3 hrs
- ECON 202 - Principles of Microeconomics (GEKS) 3 hrs
- ECON 411 - Intermediate Macroeconomic Analysis 3 hrs
- ECON 412 - Intermediate Microeconomic Analysis 3 hrs
- ECON 370 - Comparative Economic Systems 3 hrs
- ECON 385 - Economic Development 3 hrs
- ECON 480W - International Economics (GEWI) 3 hrs

International Geography Perspective

- GEOG 107 - Introduction to Geography (GEKS) 3 hrs
- GEOG 110 - World Regions (GEGA) 3 hrs
- GEOG 111 - Regions and Resources 3 hrs
- GEOG 235 - Economic Geography 3 hrs
- GEOG 314W - Geography of Russia and Neighboring States (GEWI) 3 hrs
- GEOG 316 - History and Geography of Modern Europe 3 hrs
- GEOG 318 - Geography of Asia 3 hrs
- GEOG 319 - Geography of Europe 3 hrs
- GEOG 321 - Geography of Latin America 3 hrs
- GEOG 322 - Geography of Africa 3 hrs

International Historical Perspective

- HIST 103 - 20th-Century Civilization (GEGA) 3 hrs
- HIST 110 - World History since 1500 (GEGA) 3 hrs
  After one 100-level class, students may select from the following:
- HIST 316 - History and Geography of Modern Europe 3 hrs
- HIST 333 - Europe since 1919 3 hrs
- HIST 339 - Arab-Israeli Conflict 3 hrs
- HIST 341 - The Middle East, 1798 to the Present 3 hrs
- HIST 342 - North Africa, 1798 to the Present 3 hrs
- HIST 344 - Russia since 1855 3 hrs
- HIST 347 - Sub-Saharan Africa to 1885 3 hrs
- HIST 348 - 20th-Century Africa 3 hrs
- HIST 349 - South Africa, 1500-Present 3 hrs
- HIST 350 - History of Canada 3 hrs
- HIST 356 - Latin America: National Period 3 hrs
- HIST 375 - Modern India 3 hrs
- HIST 426 - The United States from 1963 to the Present 3 hrs
- HIST 442 - Modern China 3 hrs
- HIST 443 - Modern Japan 3 hrs
- HIST 456 - Europe since 1945 3 hrs
- HIST 457 - History of Mexico 3 hrs
- HIST 461 - Foreign Relations of the United States 3 hrs
International Social/Cultural Perspective

- ANTH 135 - Introduction to Cultural Anthropology (GEGA & GEKS) 3 hrs
- ANTH 233 - Cultures of Mesoamerica and the Caribbean (GEGA) 3 hrs
- ANTH 236 - Peoples and Cultures of Africa 3 hrs
- ANTH 248 - Peoples and Cultures of the Pacific 3 hrs
- ANTH 336 - Social and Cultural Change 3 hrs
- ANTH 385 - Culture of Japan 3 hrs

Minor Requirements:

This program does not require a minor.

Program Total:

Students must earn a minimum total of 124 credits at the 100-level or above.

Critical Graduation Information:

Each undergraduate student will be responsible for the fulfillment of the requirements or their equivalents of the Eastern Michigan University catalog in force at the time of their initial registration at a college or university or a subsequent catalog including the one in effect at the time of their graduation.

In the event an undergraduate student does not complete the degree requirements within seven years of the date of their original registration at a college or university, the student may be required to have their credits re-evaluated by the academic department(s) of their major/minor in keeping with catalog requirements in force during the year of their graduation.

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the 100-level and above. Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Complete a Writing Intensive (WI) Course in your major.
- Earn a minimum of 60 credits from a four-year college or university; courses taken at community colleges cannot be used to meet this requirement. (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 unique credit hours in their major and 20 unique credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
- Earn no more than 60 credit hours in one subject area (prefix). Credits in excess of the 60 maximum will not be counted toward the minimum of 124 credits required for a bachelor's degree.
• Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more than one major or minor.
  - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
  - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
  - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor.
• Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is conducted by individual departments/schools within EMU, and additional documentation may be required. *Please note: EMU awards only credit for transferred courses; grades are not used in the calculation of an EMU GPA.*
• Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be reached in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

**General Education Requirements:**

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available in the General Education section of the catalog: General Education.

Students who transferred to EMU may have modified general education requirements based on Michigan Transfer Agreement (MTA) or articulation agreements; consult your academic advisor for additional information.

**University Information:** Consult the online catalog at catalog.emich.edu.

**Political Science Major**

For more information regarding internships visit the department site here: http://www.emich.edu/polisci/Internship/undergrad_majors.html

To fulfill the requirements for a major in political science, students must complete at least 30 hours in the major as specified below, complete at least four courses in the major numbered 300 or above and attain at least a C average in the major. Students are further encouraged to take PLSC 112/PLSC 113, as a general education course, prior to the required core courses. A maximum of three credit hours of independent study or internship/cooperative education courses may be applied to the 30 credit hours required for the major. Students should consult a departmental advisor for guidance about applying these and special topics courses towards the major.

General Education Requirements:

For specific requirements refer to the General Education Program.

Major Requirements: 30 hours

Required Core Courses: 9 hours

- PLSC 210 - Introduction to Political Analysis (GEQR) 3 hrs

Two courses from the following:

- PLSC 211 - Introduction to Comparative Government (GEGA) 3 hrs
- PLSC 212 - Introduction to International Politics (GEKS) 3 hrs
- PLSC 213 - Introduction to Political Thought (GEKH) 3 hrs
- PLSC 215 - Civil Rights and Liberties in a Diverse US (GEUS) 3 hrs

Area of Concentration: 21 hours

Seven courses from the three groups listed below, including at least one course from each group.

I. American Politics, Public Law and Administration

- PLSC 202 - State and Local Government (GEKS) 3 hrs
- PLSC 216 - Municipal Government 3 hrs
- PLSC 243 - Black Women: Politics and Racism 3 hrs
- PLSC 270 - Public Administration 3 hrs
- PLSC 301 - American Legal System 3 hrs
- PLSC 305 - Law and Policy in a Constitutional Democracy 3 hrs
- PLSC 312 - Constitutional Law: Institutions and Process 3 hrs
- PLSC 313 - Constitutional Law: Civil Rights and Liberties 3 hrs

- PLSC 314 - Civil Mock Trial and Legal Process 3 hrs
  or
- PLSC 316 - Criminal Mock Trial and Legal Process 3 hrs

- PLSC 330 - Urban Politics 3 hrs
- PLSC 332 - Intergovernmental Relations and Federalism 3 hrs
- PLSC 335 - Labor in American Politics 3 hrs
- PLSC 352 - Politics of Government Budgeting 3 hrs
- PLSC 357 - Campaigns and Elections 3 hrs
- PLSC 358 - Political Parties and Interest Groups 3 hrs
- PLSC 359W - Public Opinion and Political Learning (GEWI) 3 hrs
- PLSC 360 - American Politics and the Media 3 hrs
- PLSC 362 - Black Women: Religion and Sexism 3 hrs
- PLSC 364 - Legislative Process 3 hrs
- PLSC 365 - Women and Politics 3 hrs
- PLSC 380 - American Presidency 3 hrs
- PLSC 381 - Public Policy Analysis 3 hrs
- PLSC 385 - Judicial Process and Behavior 3 hrs
- PLSC 386 - U.S. Supreme Court Simulation 3 hrs

II. Comparative Politics and International Relations:

Catalog Correction: PLSC 343L and PLSC 344L are also options in this category

- PLSC 221 - America at War: From Vietnam to Iraq 3 hrs
- PLSC 308 - Political Violence and Revolution 3 hrs
- PLSC 311 - Politics of the Developing World 3 hrs
- PLSC 327W - American Foreign Policy Process (GEWI) 3 hrs
- PLSC 341 - International Law 3 hrs
- PLSC 342 - International Organizations 3 hrs
- PLSC 345 - War and Peace in the Nuclear Age 3 hrs
- PLSC 346 - International Political Economy 3 hrs
- PLSC 354 - Canadian Politics 3 hrs
- PLSC 355 - European Politics 3 hrs
- PLSC 361 - Russian Politics 3 hrs
- PLSC 367 - Latin American Politics 3 hrs
- PLSC 371 - Middle East Politics 3 hrs
- PLSC 372 - African Politics 3 hrs
- PLSC 374 - Asian Politics 3 hrs
- PLSC 390 - Poverty, Human Rights and Health (GEWA) 3 hrs
- PLSC 391 - Field Study: Global Experience - Poverty, Human Rights and Health 3 hrs
- PLSC 412W - Comparative Legal Systems (GEWI) 3 hrs
- PLSC 462 - Russian Foreign Relations 3 hrs
- PLSC 467 - Advanced International Relations 3 hrs

III. Political Theory and Methods:

- PLSC 306 - Contemporary Political Thought 3 hrs
- PLSC 307 - Democracy and Power 3 hrs
- PLSC 309 - American Political Theory 3 hrs
- PLSC 310 - Methods of Political Research 3 hrs
- PLSC 320 - Political Science in Literature and Film 3 hrs
- PLSC 382 - Politics and the 21st Century 3 hrs

Minor Requirements:

This program requires a minor. Please contact your program advisor for a list of possible minors.

Writing Intensive Course
Each student must choose a writing intensive course as part of major completion requirements. Consult your advisor for course options.

Program Total:

Students must earn a minimum total of 124 credits at the 100-level or above.

Critical Graduation Information:

Each undergraduate student will be responsible for the fulfillment of the requirements or their equivalents of the Eastern Michigan University catalog in force at the time of their initial registration at a college or university or a subsequent catalog including the one in effect at the time of their graduation.

In the event an undergraduate student does not complete the degree requirements within seven years of the date of their original registration at a college or university, the student may be required to have their credits re-evaluated by the academic department(s) of their major/minor in keeping with catalog requirements in force during the year of their graduation.

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the 100-level and above. Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Complete a Writing Intensive (WI) Course in your major.
- Earn a minimum of 60 credits from a four-year college or university; courses taken at community colleges cannot be used to meet this requirement. (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 unique credit hours in their major and 20 unique credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
- Earn no more than 60 credit hours in one subject area (prefix). Credits in excess of the 60 maximum will not be counted toward the minimum of 124 credits required for a bachelor's degree.
- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more that one major or minor.
  - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
  - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
  - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor
- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is conducted by individual departments/schools within EMU, and
additional documentation may be required. Please note: EMU awards only credit for transferred courses; grades are not used in the calculation of an EMU GPA.

- Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be reached in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

**General Education Requirements:**

EMU’s General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available in the General Education section of the catalog: General Education

Students who transferred to EMU may have modified general education requirements based on Michigan Transfer Agreement (MTA) or articulation agreements; consult your academic advisor for additional information.

**University Information:** Consult the online catalog at catalog.emich.edu.

**Public Administration Major**

Public administration is a broad-ranging discipline that combines theory and practice, and focuses on the organization of government structure, policies and programs, and the performance of officials. Public administration encourages public policies that are more responsible to human, social and economic needs and that are more efficient and effective.

The public administration major involves a core of course work in public administration and a choice of electives. It may be combined with any number of minors appropriate to the career interests of the student. Students who major in public administration enter a broad range of careers in government service (federal, state or local), nonprofit organizations or business. Some go on to graduate or professional schools in political science, public administration, public policy, business administration or law.

A minor is to be selected in consultation with a public administration advisor. Recommended choices include: Computer Science, Economics, General Business, Management, Writing, Communication, Conservation and Resource Use, Criminology and Criminal Justice, Aging Studies, Historic Preservation, Journalism Minor, Health Administration, Environmental Analysis, Military Science and Leadership, Nonprofit Administration, Public Law and Government, Social Work, and Urban and Regional Planning

Students are encouraged to take PLSC 112/PLSC 113 American Government as a General Education course prior to the required core courses. With permission of the public administration advisor, six credit hours of internship credit (PLSC 480, PLSC 486/PLSC 488/PLSC 489) or six credit hours of cooperative education credit (PLSC 387/PLSC 487) may be applied to the major. Students should consult an advisor about including these and special topics courses as a part of their program of study.

For more information regarding internships visit the department site here: http://www.emich.edu/polisci/internships/index.php

General Education Requirements:

For specific requirements refer to the General Education Program.

Additional Requirements: 3 hours

- MATH 170 - Elementary Statistics (GEQR) 3 hrs
  or
- SOCL 250 - Quantitative Applications in Sociology (GEQR) 3 hrs

Major Requirements: 36 hours

Required Courses: 21 hours

- PLSC 210 - Introduction to Political Analysis (GEQR) 3 hrs
- PLSC 270 - Public Administration 3 hrs
- PLSC 334 - Personnel Administration in Government 3 hrs
- PLSC 352 - Politics of Government Budgeting 3 hrs
- PLSC 381 - Public Policy Analysis 3 hrs
- PLSC 431W - Theories of Public Organization (GEWI) 3 hrs
- * PLSC 480 - Field Seminar in Political Science/Public Administration 3 hrs

Elective Courses: 15 hours

Five courses from the following:

- PLSC 202 - State and Local Government (GEKS) 3 hrs
- PLSC 216 - Municipal Government 3 hrs
- PLSC 305 - Law and Policy in a Constitutional Democracy 3 hrs
- PLSC 330 - Urban Politics 3 hrs
- PLSC 332 - Intergovernmental Relations and Federalism 3 hrs
- PLSC 364 - Legislative Process 3 hrs
- PLSC 380 - American Presidency 3 hrs
- PLSC 385 - Judicial Process and Behavior 3 hrs
- PLSC 470 - Seminar in Political Science 3 hrs
- * PLSC 486 - Internship in Political Science/Public Administration 3 hrs

Minor Requirements:

This program requires a minor. A minor is to be selected in consultation with a public administration advisor. Recommended choices include: Computer Science, Economics, General Business, Management, Writing, Communication, Conservation and Resource Use, Criminology and Criminal Justice, Aging Studies, Historic Preservation, Journalism Minor, Health Administration, Environmental Analysis, Military Science and Leadership, Nonprofit Administration, Public Law and Government, Social Work, and Urban and Regional Planning

Program Total:
Students must earn a minimum total of 124 credits at the 100-level or above.

Note:

* Each student must choose a writing intensive course as part of major completion requirements. Consult your advisor for course options.

* Up to six semester hours of internship credit (PLSC 480, PLSC 486, PLSC 488 or PLSC 489) or cooperative education credit (PLSC 387 and PLSC 487) may be applied to the major.

Critical Graduation Information:

Each undergraduate student will be responsible for the fulfillment of the requirements or their equivalents of the Eastern Michigan University catalog in force at the time of their initial registration at a college or university or a subsequent catalog including the one in effect at the time of their graduation.

In the event an undergraduate student does not complete the degree requirements within seven years of the date of their original registration at a college or university, the student may be required to have their credits re-evaluated by the academic department(s) of their major/minor in keeping with catalog requirements in force during the year of their graduation.

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the 100-level and above. Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Complete a Writing Intensive (WI) Course in your major.
- Earn a minimum of 60 credits from a four-year college or university; courses taken at community colleges cannot be used to meet this requirement. (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 unique credit hours in their major and 20 unique credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
- Earn no more than 60 credit hours in one subject area (prefix). Credits in excess of the 60 maximum will not be counted toward the minimum of 124 credits required for a bachelor's degree.
- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more than one major or minor.
  - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
  - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
  - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor.
- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S.
institutions; the internal review of such courses is conducted by individual departments/schools within EMU, and additional documentation may be required. Please note: EMU awards only credit for transferred courses; grades are not used in the calculation of an EMU GPA.

- Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be reached in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

**General Education Requirements:**

EMU’s General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available in the General Education section of the catalog: General Education

Students who transferred to EMU may have modified general education requirements based on Michigan Transfer Agreement (MTA) or articulation agreements; consult your academic advisor for additional information.

**University Information:** Consult the online catalog at catalog.emich.edu.

**Public Law and Government Major**

The Public Law and Government major focuses student attention on issues related to constitutional, criminal, comparative and international law, legal systems at the state, federal and international levels, and judicial process and behavior as well as alternative methods of dispute resolution. Students who major in public law and government may participate in Mock Trial competitions and typically continue on to law school prior to a career practicing law. Students are encouraged to take PLSC 112/PLSC 113 as a General Education course prior to the required core courses. Students shall complete at EMU at least three courses in the major numbered 300 or above, and attain at least a C average in the major. A maximum of four credit hours of independent study or internship/cooperative education courses, or a combination of both, may be applied to the 30 credit hours required for the major.

For more information regarding internships visit the department website here: http://www.emich.edu/polisci/Internship/undergrad_majors.html

**General Education Requirements:**

For specific requirements refer to the General Education Program.

**Major Requirements: 30 hours**
Required Area Courses: 12 hours

- PLSC 385 - Judicial Process and Behavior 3 hrs

One course from each of the following three areas of public law:

Area I:

- PLSC 301 - American Legal System 3 hrs
- PLSC 305 - Law and Policy in a Constitutional Democracy 3 hrs

Area II:

- PLSC 312 - Constitutional Law: Institutions and Process 3 hrs
- PLSC 313 - Constitutional Law: Civil Rights and Liberties 3 hrs

Area III:

- PLSC 341 - International Law 3 hrs
- PLSC 412W - Comparative Legal Systems (GEWI) 3 hrs

Public Law Elective Courses: 9 hours

Students may not double count courses taken in the Required Area Course Requirements.

- ECON 407 - Economic Analysis and Law 3 hrs
- HIST 465 - United States Constitutional History 3 hrs
- PLSC 301 - American Legal System 3 hrs
- PLSC 305 - Law and Policy in a Constitutional Democracy 3 hrs
- PLSC 312 - Constitutional Law: Institutions and Process 3 hrs
- PLSC 313 - Constitutional Law: Civil Rights and Liberties 3 hrs
- PLSC 314 - Civil Mock Trial and Legal Process 3 hrs
- PLSC 316 - Criminal Mock Trial and Legal Process 3 hrs
- PLSC 341 - International Law 3 hrs
- PLSC 386 - U.S. Supreme Court Simulation 3 hrs
- PLSC 387 - Cooperative Education in Political Science 3 hrs
- PLSC 412W - Comparative Legal Systems (GEWI) 3 hrs
- PLSC 456 - Criminal Law I 3 hrs
- PLSC 480 - Field Seminar in Political Science/Public Administration 3 hrs
- PLSC 486 - Internship in Political Science/Public Administration 3 hrs
- PLSC 487 - Cooperative Education in Political Science 3 hrs
- PLSC 488 - Internship in Political Science/Public Administration 6 hrs
- PLSC 489 - Internship in Political Science/Public Administration 9 hrs
- PLSC 497 - Independent Study 1 hrs
- PLSC 498 - Independent Study 2 hrs
- PLSC 499 - Independent Study 3 hrs
Restricted Elective Courses: 9 hours

Select one course from each of the following three groups:

I. American Politics and Administration

- PLSC 202 - State and Local Government (GEKS) 3 hrs
- PLSC 216 - Municipal Government 3 hrs
- PLSC 270 - Public Administration 3 hrs
- PLSC 330 - Urban Politics 3 hrs
- PLSC 332 - Intergovernmental Relations and Federalism 3 hrs
- PLSC 335 - Labor in American Politics 3 hrs
- PLSC 352 - Politics of Government Budgeting 3 hrs
- PLSC 357 - Campaigns and Elections 3 hrs
- PLSC 358 - Political Parties and Interest Groups 3 hrs
- PLSC 359W - Public Opinion and Political Learning (GEWI) 3 hrs
- PLSC 360 - American Politics and the Media 3 hrs
- PLSC 364 - Legislative Process 3 hrs
- PLSC 365 - Women and Politics 3 hrs
- PLSC 380 - American Presidency 3 hrs
- PLSC 381 - Public Policy Analysis 3 hrs

II: Comparative Politics and International Relations

- PLSC 211 - Introduction to Comparative Government (GEGA) 3 hrs
- PLSC 212 - Introduction to International Politics (GEKS) 3 hrs
- PLSC 221 - America at War: From Vietnam to Iraq 3 hrs
- PLSC 345 - War and Peace in the Nuclear Age 3 hrs
- PLSC 308 - Political Violence and Revolution 3 hrs
- PLSC 311 - Politics of the Developing World 3 hrs
- PLSC 327W - American Foreign Policy Process (GEWI) 3 hrs
- PLSC 342 - International Organizations 3 hrs
- PLSC 346 - International Political Economy 3 hrs
- PLSC 354 - Canadian Politics 3 hrs
- PLSC 361 - Russian Politics 3 hrs
- PLSC 367 - Latin American Politics 3 hrs
- PLSC 371 - Middle East Politics 3 hrs
- PLSC 372 - African Politics 3 hrs
- PLSC 374 - Asian Politics 3 hrs
- PLSC 462 - Russian Foreign Relations 3 hrs
- PLSC 467 - Advanced International Relations 3 hrs

III: Political Theory and Methods

- PLSC 210 - Introduction to Political Analysis (GEQR) 3 hrs
- PLSC 213 - Introduction to Political Thought (GEKH) 3 hrs
• PLSC 306 - Contemporary Political Thought 3 hrs
• PLSC 307 - Democracy and Power 3 hrs
• PLSC 309 - American Political Theory 3 hrs
• PLSC 310 - Methods of Political Research 3 hrs
• PLSC 320 - Political Science in Literature and Film 3 hrs
• PLSC 382 - Politics and the 21st Century 3 hrs

Minor Requirements:

This program requires a minor. Please contact your program advisor for a list of possible minors.

Program Total:

Students must earn a minimum total of 124 credits at the 100-level or above.

Note:

Courses may not be counted toward more than one requirement within the major.

Critical Graduation Information:

Each undergraduate student will be responsible for the fulfillment of the requirements or their equivalents of the Eastern Michigan University catalog in force at the time of their initial registration at a college or university or a subsequent catalog including the one in effect at the time of their graduation.

In the event an undergraduate student does not complete the degree requirements within seven years of the date of their original registration at a college or university, the student may be required to have their credits re-evaluated by the academic department(s) of their major/minor in keeping with catalog requirements in force during the year of their graduation.

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

• Earn a minimum total of 124 credits at the 100-level and above. Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.
• Meet the requirements of the General Education program (see information below).
• Complete a Writing Intensive (WI) Course in your major.
• Earn a minimum of 60 credits from a four-year college or university; courses taken at community colleges cannot be used to meet this requirement. (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
• Earn a minimum of 30 credits from courses taken at EMU.
• Complete 10 of the last 30 hours for the degree from courses taken at EMU.
• Have a minimum of 30 unique credit hours in their major and 20 unique credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
• Earn no more than 60 credit hours in one subject area (prefix). Credits in excess of the 60 maximum will not be counted toward the minimum of 124 credits required for a bachelor's degree.

• Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more that one major or minor.
  o Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
  o Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
  o Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor

• Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is conducted by individual departments/schools within EMU, and additional documentation may be required. Please note: EMU awards only credit for transferred courses; grades are not used in the calculation of an EMU GPA.

• Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be reached in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

General Education Requirements:

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available in the General Education section of the catalog: General Education

Students who transferred to EMU may have modified general education requirements based on Michigan Transfer Agreement (MTA) or articulation agreements; consult your academic advisor for additional information.

University Information: Consult the online catalog at catalog.emich.edu.

**Public Safety Administration Major**

The public safety administration program is an interdisciplinary program involving course work in three departments from two colleges within the University. The curriculum is intended to meet the professional development needs of in-service and entry-level personnel in public safety organizations including those involved in law enforcement, public safety, fire protection, private security, disaster and emergency management and corrections, with a competency-based curriculum resting on a strong liberal arts foundation.

The public safety manager's focus is on leadership, public policy, politics and administration. The public safety manager is concerned with issues such as the causes of crime, the nature and impact of criminal behavior, threats to public safety arising from environmental and natural disasters and the nature and operation of correctional institutions. The administrator's responsibilities extend to addressing how the public safety organization develops a response to these problems, the nature of the response and how resources — budgets and personnel — are obtained, utilized and evaluated in responding to problems.

This program builds on the public administration major. Courses are drawn from five groups:

• An interdisciplinary, skills-focused, foundation group

• An administration group directed toward developing an understanding of public and of nonprofit organizations and related personnel, budgeting and administrative skills
The program combines both major and minor requirements, and graduating students will be awarded a bachelor's degree in public administration.

Transfer students from associate degree programs in related fields may matriculate into the program. Students transferring from another college must, however, complete all general education course work as required by the University for the bachelor's degree.

An active articulation agreement exists between this program and several community colleges. To see a complete list of current colleges with program articulation agreements with EMU, please click here.

**General Education Requirements:**

For specific requirements refer to the General Education Program.

**Major Requirements: 63-64 hours**

**Foundation Group: 12 hours**

**One course from the following:**

- ANTH 135 - Introduction to Cultural Anthropology (GEGA & GEKS) 3 hrs
- ANTH 214 - U.S. Racial and Cultural Minorities (GEUS) 3 hrs
- SOCL 214 - U.S. Racial and Cultural Minorities (GEUS) 3 hrs
One course from the following:

- PLSC 202 - State and Local Government (GEKS) 3 hrs
- PLSC 216 - Municipal Government 3 hrs
- PLSC 330 - Urban Politics 3 hrs

One course from the following:

- CRM 300 - Criminal Justice 3 hrs
- PLSC 301 - American Legal System 3 hrs
- PLSC 313 - Constitutional Law: Civil Rights and Liberties 3 hrs

One course from the following:

- CTAC 352 - Communication in Negotiation 3 hrs
- CTAC 354 - Organizational Communication 3 hrs

Administration Group: 12 hours

- PLSC 270 - Public Administration 3 hrs
- PLSC 334 - Personnel Administration in Government 3 hrs
- PLSC 352 - Politics of Government Budgeting 3 hrs

One course from the following:

- HSEM 412 - Administration of Public Safety Agencies 3 hrs
- PLSC 431W - Theories of Public Organization (GEWI) 3 hrs

Public Safety Administration Group: 18 hours

- HSEM 380 - Planning and Decision-Making for Public Safety 3 hrs
- HSEM 381 - Public Relations and Public Safety 3 hrs
- HSEM 438 - Human Resource Management for Public Safety Agencies 3 hrs
- HSEM 439 - Managing Critical Incidents for Homeland Security 3 hrs

One course from the following:

- HSEM 453 - Management/Leadership for Public Safety 3 hrs
- PLSC 450 - Managing Public Safety Agencies 3 hrs

One course from the following:

- HSEM 454 - Managing Technology for Public Safety Agencies 3 hrs
- PLSC 451 - Seminar in Public Safety Administration 3 hrs
Area of Concentration: 15-16 hours

Five courses from the following:

- CRM 431 - Policing in Society 3 hrs
- ESSC 324 - Weather 3 hrs
- ESSC 325 - Geomorphology 4 hrs
- HSEM 255 - Emergency Preparedness Planning 3 hrs
- HSEM 306 - Issues in Emergency Preparedness 3 hrs
- HSEM 309 - Natural Hazard Mitigation 3 hrs
- HSEM 433 - Arson Investigation 3 hrs
- HSEM 434 - Hazardous Materials 3 hrs
- HSEM 435 - Incident Command 3 hrs
- HSEM 452 - Current Trends in Emergency Management 3 hrs
- HSEM 475 - Managing Correctional Agencies and Facilities 3 hrs

Academy or Internship/Co-op Experience: 6 hours

Preservice students must complete an internship or cooperative education placement or an accredited academy program; in-service students may substitute credits from an accredited academy program.

- PLSC 488 - Internship in Political Science/Public Administration 6 hrs

Minor Requirements:

This program does not require a minor.

Program Total:

Students must earn a minimum total of 124 credits at the 100-level or above.

Critical Graduation Information:

Each undergraduate student will be responsible for the fulfillment of the requirements or their equivalents of the Eastern Michigan University catalog in force at the time of their initial registration at a college or university or a subsequent catalog including the one in effect at the time of their graduation.

In the event an undergraduate student does not complete the degree requirements within seven years of the date of their original registration at a college or university, the student may be required to have their credits re-evaluated by the academic department(s) of their major/minor in keeping with catalog requirements in force during the year of their graduation.

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the **100-level and above**. Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.
• Meet the requirements of the General Education program (see information below).
• Complete a Writing Intensive (WI) Course in your major.
• Earn a minimum of 60 credits from a four-year college or university; courses taken at community colleges cannot be used to meet this requirement. (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
• Earn a minimum of 30 credits from courses taken at EMU.
• Complete 10 of the last 30 hours for the degree from courses taken at EMU.
• Have a minimum of 30 unique credit hours in their major and 20 unique credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
• Earn no more than 60 credit hours in one subject area (prefix). Credits in excess of the 60 maximum will not be counted toward the minimum of 124 credits required for a bachelor's degree.
• Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more that one major or minor.
  o Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
  o Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
  o Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor
• Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is conducted by individual departments/schools within EMU, and additional documentation may be required. Please note: EMU awards only credit for transferred courses; grades are not used in the calculation of an EMU GPA.
• Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be reached in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

Minor

International Affairs Minor

New Program, effective Fall 2014
This curriculum provides students with an opportunity to develop an understanding of both area and global issues. It is intended to prepare students for participation in global society, including work with government, business, and non-governmental organizations. It is intended for students who are interested in diplomacy, international affairs, and international service.

There are two tracks within this minor: **Cognate Option A** does not have a foreign language requirement and is directed to students who are either already proficient in a foreign language or who anticipate employment in which such proficiency is not expected. **Cognate Option B** includes a foreign language requirement and is *strongly recommended* for individuals who are seeking work outside of the United States or work in which some familiarity with a foreign language may be asset, such as employment with the foreign service.

**Department Information:**

Political Science Department - College of Arts & Sciences

Arnold Fleischmann, Ph.D., Department Head

601 Pray Harrold  
(734) 487-3113  
afeisch@emich.edu

**Required Courses: 6 Hours**

- PLSC 211 - Introduction to Comparative Government (GEGA) 3 hrs
- PLSC 212 - Introduction to International Politics (GEKS) 3 hrs

**Comparative Politics Course: 3 Hours**

*Pick one course from the following:*

- PLSC 308 - Political Violence and Revolution 3 hrs
- PLSC 311 - Politics of the Developing World 3 hrs
- PLSC 354 - Canadian Politics 3 hrs
- PLSC 355 - European Politics 3 hrs
- PLSC 361 - Russian Politics 3 hrs
- PLSC 367 - Latin American Politics 3 hrs
- PLSC 371 - Middle East Politics 3 hrs
- PLSC 372 - African Politics 3 hrs
- PLSC 374 - Asian Politics 3 hrs

**International Politics Courses: 3 hours**

*Catalog Correction: PLSC 344L is also an option in this section*

*Pick one course from the following:*

- PLSC 341 - International Law 3 hrs
- PLSC 342 - International Organizations 3 hrs
- PLSC 343L - Model United Nations (GELB) 3 hrs
Cognate Option:

*Students will pick one of the following two cognate options:*

**Cognate Option A: 9 Hours**

Students will select courses from at least two disciplines from an approved list of courses in History, Economics, Anthropology, Geography, Africology & African American Studies, World Languages, and International Business. If a foreign language is selected, students will consult with a World Languages advisor to select an appropriate sequence of classes.

**Cognate Option B: 9-12 Hours**

Students will take an appropriate sequence of courses in a foreign language - French, German, Spanish, Japanese, or Chinese (9-12 Hours). Students will consult with a World Languages advisor to select an appropriate sequence of classes.

**Program Total: 21-24 Hours**

In total, the minor requires 21 hours (Cognate Option A) or 21-24 hours (Cognate Option B, which may include more hours due to the language labs attached to some courses). This compares to 61-64 credit hours for the existing International Affairs Major.

**300-Level or above**

*All minors must have at least six hours of course work at the 300-level or above.*

**Cognate Courses:**

**Africology & African American Studies**

- AFC 311 - The African Diaspora 3 hrs
- AFC 313 - Contemporary Africa: The Struggle and Prospects for Development (GEGA) 3 hrs

**International Economics Perspective**

- ECON 201 - Principles of Macroeconomics (GEKS) 3 hrs
- ECON 202 - Principles of Microeconomics (GEKS) 3 hrs
- ECON 370 - Comparative Economic Systems 3 hrs
- ECON 385 - Economic Development 3 hrs
- ECON 411 - Intermediate Macroeconomic Analysis 3 hrs
• ECON 412 - Intermediate Microeconomic Analysis 3 hrs
• ECON 480W - International Economics (GEWI) 3 hrs

International Historical Perspective

Students should select only one of the following 100-Level Classes:

• HIST 103 - 20th-Century Civilization (GEGA) 3 hrs
or
• HIST 110 - World History since 1500 (GEGA) 3 hrs

After one 100-level class, students may select from the following:

• HIST 316 - History and Geography of Modern Europe 3 hrs
• HIST 333 - Europe since 1919 3 hrs
• HIST 339 - Arab-Israeli Conflict 3 hrs
• HIST 341 - The Middle East, 1798 to the Present 3 hrs
• HIST 342 - North Africa, 1798 to the Present 3 hrs
• HIST 344 - Russia since 1855 3 hrs
• HIST 347 - Sub-Saharan Africa to 1885 3 hrs
• HIST 348 - 20th-Century Africa 3 hrs
• HIST 349 - South Africa, 1500-Present 3 hrs
• HIST 350 - History of Canada 3 hrs
• HIST 356 - Latin America: National Period 3 hrs
• HIST 375 - Modern India 3 hrs
• HIST 426 - The United States from 1963 to the Present 3 hrs
• HIST 442 - Modern China 3 hrs
• HIST 443 - Modern Japan 3 hrs
• HIST 456 - Europe since 1945 3 hrs
• HIST 461 - Foreign Relations of the United States 3 hrs

International Social/Cultural Perspective

• ANTH 135 - Introduction to Cultural Anthropology (GEGA & GEKS) 3 hrs
• ANTH 233 - Cultures of Mesoamerica and the Caribbean (GEGA) 3 hrs
• ANTH 236 - Peoples and Cultures of Africa 3 hrs
• ANTH 248 - Peoples and Cultures of the Pacific 3 hrs
• ANTH 336 - Social and Cultural Change 3 hrs
• ANTH 385 - Culture of Japan 3 hrs

International Geography

• GEOG 107 - Introduction to Geography (GEKS) 3 hrs
• GEOG 110 - World Regions (GEGA) 3 hrs
• GEOG 111 - Regions and Resources 3 hrs
• GEOG 235 - Economic Geography 3 hrs
• GEOG 314W - Geography of Russia and Neighboring States (GEWI) 3 hrs
• GEOG 316 - History and Geography of Modern Europe 3 hrs
• GEOG 318 - Geography of Asia 3 hrs
- GEOG 319 - Geography of Europe 3 hrs
- GEOG 321 - Geography of Latin America 3 hrs
- GEOG 322 - Geography of Africa 3 hrs

**International Business**

- IB 210 - Fundamentals of Global Business (GEGA) 3 hrs
- IB 370 - International Business Ethics 1.5 hrs
- IB 375 - Doing Business in Countries/Regions 1.5 hrs

*Note:* To count toward the INTA Minor, IB 370 and IB 375 would both have to be taken, for a total of 3 credit hours

**Critical Graduation Information:**

Each undergraduate student will be responsible for the fulfillment of the requirements or their equivalents of the Eastern Michigan University catalog in force at the time of their initial registration at a college or university or a subsequent catalog including the one in effect at the time of their graduation.

In the event an undergraduate student does not complete the degree requirements within seven years of the date of their original registration at a college or university, the student may be required to have their credits re-evaluated by the academic department(s) of their major/minor in keeping with catalog requirements in force during the year of their graduation.

**The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.**

- Earn a minimum total of 124 credits at the 100-level and above. Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Complete a Writing Intensive (WI) Course in your major.
- Earn a minimum of 60 credits from a four-year college or university; courses taken at community colleges cannot be used to meet this requirement. (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 unique credit hours in their major and 20 unique credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
- Earn no more than 60 credit hours in one subject area (prefix). Credits in excess of the 60 maximum will not be counted toward the minimum of 124 credits required for a bachelor's degree.
- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more than one major or minor.
  - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
  - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
  - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor.
Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is conducted by individual departments/schools within EMU, and additional documentation may be required. Please note: EMU awards only credit for transferred courses; grades are not used in the calculation of an EMU GPA.

Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be reached in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

General Education Requirements:

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available in the General Education section of the catalog: General Education

Students who transferred to EMU may have modified general education requirements based on Michigan Transfer Agreement (MTA) or articulation agreements; consult your academic advisor for additional information.

University Information: Consult the online catalog at catalog.emich.edu.

Nonprofit Administration Minor

Revised Program, effective Winter 2014

The Nonprofit Administration minor provides an opportunity for students to develop the knowledge and skills related to administrative responsibilities in the nonprofit sector. It is linked to and enables a student to fulfill the Nonprofit Leadership Program's foundation and professional development competencies, and to earn a National Certification in Nonprofit Management and Leadership and the corresponding Certified Nonprofit Professional (CNP) credential. The Nonprofit Administration Minor requires that students without work experience in a nonprofit organization complete an internship for credit in a 501(c)3 organization. Upon graduation, students may go on to work in such organizations as the American Red Cross, Boysville of Michigan, United Way, ACCESS, Freedom House and any of the multitudes of nonprofit human social service, arts/cultural, health care and political nonprofit organizations.

- PLSC 352 - Politics of Government Budgeting 3 hrs
- PLSC 435 - Nonprofit Management and Leadership 3 hrs

Specialty Courses: 3 Hours

Choose one of the following courses:

- CTAC 370 - Nonprofit Organizational Communication 3 hrs
- MGMT 384 - Human Resource Management 3 hrs
- PLSC 334 - Personnel Administration in Government 3 hrs
- PLSC 434 - Nonprofit Board Development 3 hrs
- PLSC 436 - Fundraising for Nonprofits 3 hrs

Practical Application (Skills Development): 3 Hours

- PLSC 480 - Field Seminar in Political Science/Public Administration 3 hrs

Note: Can be waived for extensive administrative experience in the nonprofit sector with special permission from program advisor

Elective Courses: 3-6 hours

One or two courses (depending on whether an internship is required) from the following not previously been taken.

- AFC 231 - Race, Urbanization and the Policy Mindset 3 hrs
- AFC 351 - The Social Context of African American Health (GEKS) 3 hrs
- CTAC 370 - Nonprofit Organizational Communication 3 hrs
- EDPS 325 - Life Span Human Growth and Development 4 hrs
- JRNL 314 - Writing for Public Relations 3 hrs
- JRNL 408W - Case Studies in Public Relations (GEWI) 3 hrs
- LAW 393 - Law of Business Enterprises 3 hrs
- LAW 403 - Employment Law 3 hrs
- MGMT 386 - Organizational Behavior and Theory 3 hrs
- MKTG 360 - Principles of Marketing 3 hrs
- PLSC 434 - Nonprofit Board Development 3 hrs
- PLSC 436 - Fundraising for Nonprofits 3 hrs
• PSY 321 - Child Psychology 3 hrs
• PSY 322 - Psychology of Adolescence 3 hrs
• SOCL 214 - U.S. Racial and Cultural Minorities (GEUS) 3 hrs
• SOCL 303 - Sociology of Childhood and Youth 3 hrs
• SOCL 462 - Complex Organizations 3 hrs

300-Level or above

All minors must have at least six hours of course work at the 300-level or above.

Minor Total: 21-24 hours

Critical Graduation Information:

Each undergraduate student will be responsible for the fulfillment of the requirements or their equivalents of the Eastern Michigan University catalog in force at the time of their initial registration at a college or university or a subsequent catalog including the one in effect at the time of their graduation.

In the event an undergraduate student does not complete the degree requirements within seven years of the date of their original registration at a college or university, the student may be required to have their credits re-evaluated by the academic department(s) of their major/minor in keeping with catalog requirements in force during the year of their graduation.

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

• Earn a minimum total of 124 credits at the 100-level and above. Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.
• Meet the requirements of the General Education program (see information below).
• Complete a Writing Intensive (WI) Course in your major.
• Earn a minimum of 60 credits from a four-year college or university; courses taken at community colleges cannot be used to meet this requirement. (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
• Earn a minimum of 30 credits from courses taken at EMU.
• Complete 10 of the last 30 hours for the degree from courses taken at EMU.
• Have a minimum of 30 unique credit hours in their major and 20 unique credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
• Earn no more than 60 credit hours in one subject area (prefix). Credits in excess of the 60 maximum will not be counted toward the minimum of 124 credits required for a bachelor's degree.
• Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more that one major or minor.
  o Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
  o Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
  o Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor.
• Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is conducted by individual departments/schools within EMU, and additional documentation may be required. Please note: EMU awards only credit for transferred courses; grades are not used in the calculation of an EMU GPA.

• Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be reached in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

General Education Requirements:

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available in the General Education section of the catalog: General Education

Students who transferred to EMU may have modified general education requirements based on Michigan Transfer Agreement (MTA) or articulation agreements; consult your academic advisor for additional information.

University Information: Consult the online catalog at catalog.emich.edu.

Political Science Minor

Students are encouraged to take PLSC 112/PLSC 113 as one of their general education courses, prior to the required core courses and to complete PLSC 112/PLSC 113 and the required core courses within the first nine hours of political science course work.

Required Core Courses: 6 hours

Two courses from the following:

• PLSC 210 - Introduction to Political Analysis (GEQR) 3 hrs
• PLSC 211 - Introduction to Comparative Government (GEGA) 3 hrs
• PLSC 212 - Introduction to International Politics (GEKS) 3 hrs
• PLSC 213 - Introduction to Political Thought (GEKH) 3 hrs
• PLSC 215 - Civil Rights and Liberties in a Diverse US (GEUS) 3 hrs
• PLSC 310 - Methods of Political Research 3 hrs
Area of Concentration: 15 hours

Five courses from two of the three following groups:

I. American Politics, Public Law and Administration:

- PLSC 202 - State and Local Government (GEKS) 3 hrs
- PLSC 216 - Municipal Government 3 hrs
- PLSC 243 - Black Women: Politics and Racism 3 hrs
- PLSC 270 - Public Administration 3 hrs
- PLSC 301 - American Legal System 3 hrs
- PLSC 305 - Law and Policy in a Constitutional Democracy 3 hrs
- PLSC 312 - Constitutional Law: Institutions and Process 3 hrs
- PLSC 313 - Constitutional Law: Civil Rights and Liberties 3 hrs
  
  or

- PLSC 314 - Civil Mock Trial and Legal Process 3 hrs
- PLSC 316 - Criminal Mock Trial and Legal Process 3 hrs

- PLSC 330 - Urban Politics 3 hrs
- PLSC 332 - Intergovernmental Relations and Federalism 3 hrs
- PLSC 335 - Labor in American Politics 3 hrs
- PLSC 352 - Politics of Government Budgeting 3 hrs
- PLSC 357 - Campaigns and Elections 3 hrs
- PLSC 358 - Political Parties and Interest Groups 3 hrs
- PLSC 359W - Public Opinion and Political Learning (GEWI) 3 hrs
- PLSC 362 - Black Women: Religion and Sexism 3 hrs
- PLSC 364 - Legislative Process 3 hrs
- PLSC 365 - Women and Politics 3 hrs
- PLSC 380 - American Presidency 3 hrs
- PLSC 381 - Public Policy Analysis 3 hrs
- PLSC 385 - Judicial Process and Behavior 3 hrs
- PLSC 386 - U.S. Supreme Court Simulation 3 hrs
- WGST 243 - Black Women: Politics and Racism 3 hrs

II. Comparative Politics and International Relations:

Catalog Correction: PLSC 343L and PLSC 344L are options in this category

- PLSC 221 - America at War: From Vietnam to Iraq 3 hrs
- PLSC 308 - Political Violence and Revolution 3 hrs
- PLSC 310 - Methods of Political Research 3 hrs
- PLSC 311 - Politics of the Developing World 3 hrs
- PLSC 327W - American Foreign Policy Process (GEWI) 3 hrs
- PLSC 341 - International Law 3 hrs
- PLSC 342 - International Organizations 3 hrs
- PLSC 345 - War and Peace in the Nuclear Age 3 hrs
• PLSC 354 - Canadian Politics 3 hrs
• PLSC 355 - European Politics 3 hrs
• PLSC 361 - Russian Politics 3 hrs
• PLSC 367 - Latin American Politics 3 hrs
• PLSC 371 - Middle East Politics 3 hrs
• PLSC 372 - African Politics 3 hrs
• PLSC 374 - Asian Politics 3 hrs
• PLSC 390 - Poverty, Human Rights and Health (GEGA) 3 hrs
• PLSC 391 - Field Study: Global Experience - Poverty, Human Rights and Health 3 hrs
• PLSC 412W - Comparative Legal Systems (GEWI) 3 hrs
• PLSC 462 - Russian Foreign Relations 3 hrs
• PLSC 467 - Advanced International Relations 3 hrs

III. Political Theory and Methods:

• PLSC 306 - Contemporary Political Thought 3 hrs
• PLSC 307 - Democracy and Power 3 hrs
• PLSC 309 - American Political Theory 3 hrs
• PLSC 310 - Methods of Political Research 3 hrs
• PLSC 320 - Political Science in Literature and Film 3 hrs
• PLSC 382 - Politics and the 21st Century 3 hrs

Minor Total: 21 hours

Note:

*All minors must have at least six hours of course work at the 300-level or above.*

Critical Graduation Information:

Each undergraduate student will be responsible for the fulfillment of the requirements or their equivalents of the Eastern Michigan University catalog in force at the time of their initial registration at a college or university or a subsequent catalog including the one in effect at the time of their graduation.

In the event an undergraduate student does not complete the degree requirements within seven years of the date of their original registration at a college or university, the student may be required to have their credits re-evaluated by the academic department(s) of their major/minor in keeping with catalog requirements in force during the year of their graduation.

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. *Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.*

• Earn a minimum total of 124 credits at the 100-level and above. Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.
• Meet the requirements of the General Education program (see information below).
• Complete a Writing Intensive (WI) Course in your major.
• Earn a minimum of 60 credits from a four-year college or university; **courses taken at community colleges cannot be used to meet this requirement.** (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)

• Earn a minimum of 30 credits from courses taken at EMU.

• Complete 10 of the last 30 hours for the degree from courses taken at EMU.

• Have a minimum of 30 **unique** credit hours in their major and 20 **unique** credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.

• Earn no more than 60 credit hours in one subject area (prefix). Credits in excess of the 60 maximum will not be counted toward the minimum of 124 credits required for a bachelor's degree.

• Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more that one major or minor.
  - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
  - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
  - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor

• Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is conducted by individual departments/schools within EMU, and additional documentation may be required. Please note: EMU awards only credit for transferred courses; grades are not used in the calculation of an EMU GPA.

• Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be reached in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

**General Education Requirements:**

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available in the General Education section of the catalog: General Education

Students who transferred to EMU may have modified general education requirements based on Michigan Transfer Agreement (MTA) or articulation agreements; consult your academic advisor for additional information.

**University Information:** Consult the online catalog at catalog.emich.edu.

**Public Administration Minor**

Students are encouraged to take PLSC 112/PLSC 113 as one of their general education courses, prior to the required core courses and to complete PLSC 112/PLSC 113 and the required core courses within the first nine hours of political science course work.

**Department Information:**

Political Science Department - College of Arts & Sciences

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available in the General Education section of the catalog: General Education

Students who transferred to EMU may have modified general education requirements based on Michigan Transfer Agreement (MTA) or articulation agreements; consult your academic advisor for additional information.

University Information: Consult the online catalog at catalog.emich.edu.

Political Science

PLSC 112 - American Government (GEKS)
An overview of the structure and function of American national government, focusing on how government is designed, how individuals form and act on their political preferences, how these preferences are transmitted to government, and how government acts (and does not act) on what its citizens want.

Credit Hours: 3 hrs
Notes: Not open to those with credit in PLSC113; offered on a credit/no-credit basis.

Knowledge of the Disciplines:
This course provides students with critical exposure to the methods used by social scientists in creating knowledge. Political Science 112 provides a thorough grounding in American government. It also provides a strong introduction to the discipline of political science. In this course, students gain exposure to how knowledge is generated in the social sciences through the lens of one content area, that of American government. Through material covered in the course, students gain practice in asking important questions about the political world and answering them using the methods practiced in this social science discipline.

Last Updated: 03/2011; effective Spring 2011

PLSC 113 - American Government Honors (GEKS)

An enhanced overview of the structure and function of American national government, focusing on how government is designed, how individuals form and act on their political preferences, how these preferences are transmitted to government, and how government acts (and does not act) on what its citizens want.

Credit Hours: 3 hrs
Notes: Not open to those with credit in PLSC112.

Knowledge of the Disciplines:
This course provides students with critical exposure to the methods used by social scientists in creating knowledge. Political Science 113 provides a thorough grounding in American government. It also provides a strong introduction to the discipline of political science. In this course, students gain exposure to how knowledge is generated in the social sciences through the lens of one content area, that of American government. Through material covered in the course, students gain practice in asking important questions about the political world and answering them using the methods practiced in this social science discipline.

PLSC 120 - Global Issues (GEGA)

This course examines global concerns that transcend boundaries of local and national communities. It emphasizes global perspectives and approaches to analyzing and solving world problems. Each semester will focus on a particular contemporary global issue (such as terrorism, genocide, human rights, global gender issues, ethnic identity/conflict, migration, and democratization).

Credit Hours: 3 hrs

Perspectives on a Diverse World:
People of diverse cultural and national backgrounds and experiences are relating to each other much more frequently and intensively, all around the world, than ever before. Global trade, the Internet, climate, migration, terrorism and concepts of human rights are just a few of the many types of interactions that are bringing distant people together in ways that may involve conflict or collaboration. This course will help develop awareness of the changing global context in which we live, of the importance of appreciating diverse perspectives and of the need for building bridges of communication and tolerance to address shared global challenges. Many global issues are controversial and subject to varying perspectives. Each semester, the course will focus on a particular contemporary global issue (such as terrorism, genocide, human rights, global gender issues, ethnic identity/conflict, migration, and democratization), not to find a single "correct" solution, but rather to develop skills in analyzing diverse interpretations and considering our own roles and civic responsibilities on a global scale.

PLSC 202 - State and Local Government (GEKS)

A study of the forms and functions of state and local governments with special emphasis on the government of Michigan. Especially valuable for teachers of social studies in senior and junior high schools.

Credit Hours: 3 hrs
Knowledge of the Disciplines:
State and Local Government course looks at the critical exposure to the methods used by social scientists in creating knowledge. It provides a thorough grounding in sub-national governments in the American federal governmental system. It also provides a strong introduction to the discipline of political science. In this course, students gain exposure to how knowledge is generated in the social sciences through the lens of one content area, that of state and local government. Through material covered in the course, students gain practice in asking important questions about politics and government and answering them using the methods practiced in this social science discipline.

PLSC 210 - Introduction to Political Analysis (GEQR)

An introduction to techniques for using data to test a wide range of theories regarding how the political world operates. Focus is on building skill in using quantitative and qualitative techniques to understand political phenomena ranging from individual voting behavior to international cooperation and conflict.

Credit Hours: 3 hrs
Notes: *General Education credit is only available to students who meet QR Choice requirements
Quantitative Reasoning:

Last Updated: Gen Ed Approval 06/2006, effective Summer 2006

PLSC 211 - Introduction to Comparative Government (GEGA)

Develops conceptual tools for comparative analysis of diverse political systems, examining selected nation-states to identify and explain similarities and differences in regime types and patterns of politics. Also examines the interaction of global forces (such as colonialism, the Cold War, and global markets) with domestic social and political change.

Credit Hours: 3 hrs
Perspectives on a Diverse World:
From the fall of the Berlin Wall to the rise of ethnic and religious nationalisms to the new challenges of a global marketplace, the world's politics are in transition. As people and events around the world become more interconnected, it is increasingly vital to understand the dramatic political changes going into the 21st century in order to gain global awareness and perspectives on the diverse world in which we live. This course offers an introduction to the study of politics and political issues in countries around the world, with particular focus on cases selected to reflect the diversity of societies and political systems. In comparing specific national responses to common problems, we will be learning not only about how governments work and how people change their form of government, but also about methods of comparative analysis (i.e., how to gain perspective through comparison)' and about how the global context shapes and interacts with diverse peoples and governments. The course materials is organized thematically' countries of diverse economic, social and cultural types will be compared regarding a variety of topics (such as
democracy, authoritarianism, capitalism, socialism, nationalism, development and globalization).

Last Updated: Format change 10/2012

PLSC 212 - Introduction to International Politics (GEKS)

An introduction to major theories and approaches in the study of international relations. The course considers the character of the international system, causes of conflict and war, foreign policy decision-making, determinants of economic development, and global environmental degradation. It also examines current issues such as terrorism, the protection of human rights, and globalization.

Credit Hours: 3 hrs

Knowledge of the Disciplines:
Political Science 212 introduces students to the study of international relations (IR), one of the main fields of political science. This course emphasizes how political scientists acquire and share knowledge about the world. The course requires students to use the theoretical frameworks of the study of IR - realism, neo-realism, liberals, and feminism - to pose and address questions about contemporary issues and problems, including interstate disputes and wars, economic globalization, the increasing inequality among rich and poor nations, protection of human rights, threats to environmental quality and population growth. Through examination of research on such topics, students become familiar with the process of research and acquire the ability to critically evaluate the design of, and results from, research. The course also provides students with the opportunity to gather, examine and interpret data and to report the findings of their research, thus contributing to their understanding of how inquiry is conducted and knowledge is disseminated in political science. In sum, the course prepares students for citizenship in a global community by not only giving them basic factual knowledge of international relations and global processes, but also by providing them with the tools necessary to understand and explain international events and global patterns of change.

PLSC 213 - Introduction to Political Thought (GEKH)

Fundamental concepts, language and arguments in Western political thought from the Classical to the contemporary post 9/11 world will be analyzed focusing on the basic themes of: liberty, equality, justice, fairness, representation and authority. This course meets the GE Requirement in the Humanities as well as being one of the core courses for the major in Political Science, Public Law and Public Administration.

Credit Hours: 3 hrs

Knowledge of the Disciplines:
This course introduces students to the philosophical approach to the discipline of political science. Through careful and exacting readings of primary texts, students are introduced to the body of philosophical thought on politics and governing that has developed over 2500 years, learn how philosophical knowledge of politics is developed and disseminated, and learn to develop their own questions and a method for seeking answers to those questions in the discipline. Through a combination of close readings of the texts and placing the text in the historical context, students will gain a basic knowledge of selective works in political philosophy including the ideas or doctrines contained in the practices and approaches used in this long tradition of political reflection.

PLSC 215 - Civil Rights and Liberties in a Diverse US (GEUS)

We will survey how a wide variety of groups and individuals sought and currently seek legal protection and recognition through the Constitution, judicial interpretation and legislation. Exposure to these struggles will allow the student to experience a wide range of perspectives and critique how the legal system and society has dealt with clashes between diverse elements of the U.S.

Credit Hours: 3 hrs

Perspectives on a Diverse World:
This course introduces students to issues of diversity in American society, workplace, schools and community through an examination of the historical development of civil liberties and civil rights in the United States. As such, it fulfills the I.S. Diversity requirement of the General Education curriculum. The course explores how many different groups and individuals have used the guarantees of liberty and equal protection of the laws provided for in the U.S. Constitution and its amendments to challenge unjust laws, break down social intolerance, prejudice and stereotypes, advance their socioeconomic interests and participate more fully in the political and economic life of the nation. By reading and analyzing the decisions of the federal courts, particularly the Supreme Court, in key civil liberties and civil rights cases, students will acquire an understanding of the experiences of the various groups and cultures that have struggled, and continue to struggle, for freedom equality and justice in the United States. They will also explore the social and ideological causes of the intense conflicts over civil liberties and rights that have shaped American history as well as those which shape our politics today. As a result of the study of major legal cases, students will leave the course with an understanding of the cultural complexity of American society as well as a deeper sense of their own civic and cultural identity.

**PLSC 216 - Municipal Government**

A study of forms and functions of municipal government.

**Credit Hours:** 3 hrs

**PLSC 221 - America at War: From Vietnam to Iraq**

Course explores the causes and effects of recent U.S. military interventions from Vietnam to the present. Particular attention will be given to the development and features of the military industrial complex as well as comparison of the geopolitical and military strategies of the Cold War and the Global War on Terror.

**Credit Hours:** 3 hrs

**PLSC 242 - Black Women: Politics and Racism**

An analysis of American politics as it relates to African American women. The course examines ways in which political issues affect Black women differently than African American men, white men and white women. Considerable attention is given to the definition of the political realm as opposed to the non-political realm when discussing groups traditionally marginalized or excluded from political life.

**Credit Hours:** 3 hrs

**Cross-Listed with:** AAS 242

**Last Updated:** 2/17/2011

**PLSC 243 - Black Women: Politics and Racism**

An analysis of American politics as it relates to African American women. The course examines ways in which political issues affect Black women differently than African American men, white men and white women. Considerable attention is given to the definition of the political realm as opposed to the nonpolitical realm when discussing groups traditionally marginalized or excluded from political life.

Credit Hours: 3 hrs

PLSC 301 - American Legal System

A survey of various substantive components of the American system of law and its function in a democratic society. Special emphasis is placed upon problems of law enforcement, legal agencies and the processes involved in the administration of criminal justice.

Credit Hours: 3 hrs

PLSC 305 - Law and Policy in a Constitutional Democracy

This course explores the political and legal processes that shape the development and interpretation of major constitutional principles. We will discuss the sources and context for American law and examine how actors in the legal and political systems across all levels of government contribute to the laws that govern American society.

Credit Hours: 3 hrs

Class Restrictions: Open to Sophomores, Juniors, Seniors and Post-Baccalaureate students

PLSC 306 - Contemporary Political Thought
An examination of 20th and 21st century political theories and ideologies around the world including: liberal democracy and its conservative critics; varieties of fascism, socialism and communism; globalization and its critics; national and ethnic ideologies; international religious fundamentalism; and global environmentalism.

**Credit Hours:** 3 hrs

**PLSC 307 - Democracy and Power**

An analysis of citizen democracy and its relation to the power and legitimacy of governments around the world, both past and present, using classic writings, current journalistic and scholarly literature. The focus will be on: the scope and limits of governmental power; socio-economic, racial, gender and regional inequalities; and challenges to democratic politics in time of war, mass media and virtual communication.

**Credit Hours:** 3 hrs

**PLSC 308 - Political Violence and Revolution**

Examines political violence and revolution in comparative and international perspective. Considers theories and cases of structural violence rooted in social injustice; diverse forms and motives of political violence (such as war, rebellion, terrorism, ethnic conflict, national liberation); patterns and cycles of violence and non-violent alternatives; and the dynamics of revolution.

**Credit Hours:** 3 hrs

**PLSC 309 - American Political Theory**

An analysis of what makes American political thought and values both exceptional and reflective of Western political culture, from 18th century Founding to the post 9/11 21st century. Classic writings, journalism and other media, and contemporary scholarship by Americans and non-American observers, will be emphasized.

**Credit Hours:** 3 hrs

**PLSC 310 - Methods of Political Research**

Continued exploration of political analysis techniques introduced in PLSC 210. Attention is paid to data gathering and hypothesis testing, with an emphasis on applying these techniques to real-world political problems. Possible applications include doing applied research work for local municipalities or developing and implementing public opinion surveys.

**Credit Hours:** 3 hrs
**Prerequisite:** PLSC 210
**Last Updated:** Links 04/2011

**PLSC 311 - Politics of the Developing World**

An examination of politics in developing countries, highlighting the relation between economic development and social/political change. The course investigates the colonial legacy and contemporary sociopolitical conditions, focusing on themes such as race/ethnicity and religion, gender, social polarization, role of the military, nationalisms, democratization, states and markets, globalization.

**Credit Hours:** 3 hrs
PLSC 312 - Constitutional Law: Institutions and Process

This course focuses on the foundations, adoption and development of the US Constitution and its impact on the development and operation of American governmental institutions and economic liberty. The course introduces students to landmark cases that interpret and implement the American Constitutions.

Credit Hours: 3 hrs

PLSC 313 - Constitutional Law: Civil Rights and Liberties

This course focuses on the foundations, adoption and development of the US Constitution and its impact on the development of civil rights and liberties in American law. Special emphasis is placed on the Bill of Rights, the 14th amendment and the right to privacy. The course introduces students to landmark cases that interpret and implement the American Constitution.

Credit Hours: 3 hrs

PLSC 314 - Civil Mock Trial and Legal Process

This course covers the basics of the actual trial process, the specifics of mock trial competition and rules, and introduces the fundamental elements of the legal research process. Legal methodology will be introduced and developed throughout the course. This course is intimately connected with the University’s Mock Trial Team and is used as a vehicle to train and practice for competition. Students may take the course without participating on the University’s team.

Credit Hours: 3 hrs

PLSC 316 - Criminal Mock Trial and Legal Process

This course covers the basics of the actual trial process, the specifics of mock trial competition and rules, and introduces the fundamental elements of the legal research process. Legal methodology will be introduced and developed throughout the course. This course is intimately connected with the University’s Mock Trial Team and is used as a vehicle to train and practice for competition. Students may take the course without participating on the University’s team.

Credit Hours: 3 hrs

PLSC 320 - Political Science in Literature and Film

A discussion and analysis of political theories, institutions, and practices utilizing a storehouse of insightful and articulate materials not normally tapped in traditional political science courses: the works of essayists, aphorists, dramatists, pamphleteers, poets and novelists.

Credit Hours: 3 hrs
Prerequisite: At least nine hours of political science course work completed
Class Restrictions: Junior or Senior standing or department permission
Major Restrictions: Political Science Majors or Minors only
Previously Listed As: PLSC 410
Last Updated: 01/2009; effective Fall 2009

PLSC 327W - American Foreign Policy Process (GEWI)
This course explores the content and conduct of American foreign policy. It examines American foreign policy history, theories of decision making, foreign policy actors inside and outside government, as well as specific policy areas including national security, economic prosperity, the environment, and human rights.

**Credit Hours:** 3 hrs

**Writing Intensive:**
The course will not only enhance students' ability to think critically about American foreign policy, it will also help them to develop and express their ideas through the modes of writing used in the discipline of political science. By completing the writing assignments, students will become proficient in the forms and conventions of writing in the discipline and thus strengthen a variety of skills essential for research, including reading comprehension, the formulation of research questions, review of the scholarly literature, identification of appropriate sources of information and data, accurate summarization of complex arguments and information, analysis of data, and argumentation. Through conducting their own research and writing a research paper, students will strengthen their understanding of how scholars create knowledge of the world.

**Last Updated:** 2/11/11; effective Fall 2011

**PLSC 330 - Urban Politics**
An examination of the urban political environment in the United States; structure, processes, power relationships, ethnic considerations, fiscal constraints and select, specific policy areas are considered.

**Credit Hours:** 3 hrs

**PLSC 332 - Intergovernmental Relations and Federalism**
A study of intergovernmental relations in the United States focusing on recent trends in the federal system. Examines significant developments and alternatives in shared governmental responsibilities, such as metropolitan reorganization, grant programs and regionalism.

**Credit Hours:** 3 hrs

**PLSC 334 - Personnel Administration in Government**
An examination of the basic personnel management practices of public bureaucracies. Topics include the development of the merit system and the civil service; public sector requirements for hiring, promotion, pay and benefits; discipline and grievance handling; the development and impact of public-sector collective bargaining.

**Credit Hours:** 3 hrs

**PLSC 335 - Labor in American Politics**
An examination of the role played by American labor as a political pressure group and as an agent of voter mobilization; American labor voting patterns; the political impact of labor organization on the civil service; American role in international union affairs.

**Credit Hours:** 3 hrs

**PLSC 336 - Foundations of the U.S. Nonprofit Sector**
This course provides students with a grounding in the historical and philosophical foundations of the nonprofit sector in American Society. Using an interdisciplinary approach, this course will help students understand the evolution of the nonprofi
t sector, its capacities and limitations, as well as its distinctiveness.

Credit Hours: 3 hrs

**PLSC 341 - International Law**

A study of the development of international law and world society over time. Examinations of the effect of treaties, customary law, and equity on the role of the United Nations Security Council, international courts, human rights, the law of the sea, war crimes, and other selected topics.

Credit Hours: 3 hrs

**PLSC 342 - International Organizations**

The theory and practice of various types of international organizations (including intergovernmental and nongovernmental). Examines their efforts to create collective solutions to problems such as security, human rights and humanitarian issues, environmental and resource challenges, and global economic governance.

Credit Hours: 3 hrs

**PLSC 343L - Model United Nations (GELB)**

Explores the structure and function of the United Nations in a changing global context. Course includes an in-depth simulation of varying countries and their positions, aims and role within the UN. Students learn about foreign policy analysis, multilateral diplomacy, international organizations, and contemporary global issues.

Credit Hours: 3 hrs  
Prerequisite: PLSC 211 or PLSC 212 and department permission  
Notes: This course can be taken more than once. The second enrollment is PLSC 344(L).  
Last Updated: Links 03/2011

**PLSC 344L - Model United Nations (GELB)**

Explores the structure and function of the United Nations in a changing global context. Course includes an in-depth simulation of varying countries and their positions, aims and role within the UN. Students learn about foreign policy analysis, multilateral diplomacy, international organizations, and contemporary global issues.

Credit Hours: 3 hrs  
Prerequisite: PLSC 211 or PLSC 212 and department permission  
Last Updated: Links 03/2011

**PLSC 345 - War and Peace in the Nuclear Age**

This course is about international security, war, and policies to foster peace under the shadow of nuclear weapons. After investigating power distributions, military strategies, deterrence, arms control and disarmament, great-power concerts, collective security, and multilateralism, as well as negotiation and mediation, the course focuses on nuclear proliferation and international peacekeeping.

Credit Hours: 3 hrs  
Previously Listed As: PLSC 222  
Last Updated: Course Number Change 10/2011, effective Winter 2012
PLSC 346 - International Political Economy

This course examines the impact of politics on the global economy. This course discusses broad ideas such as capitalism, socialism and communism, and how they have shaped the global economy. The course also attempts to understand a better understanding of major global challenges (such as movements for democracy, oil diplomacy, environmental degradation, international conflict etc.) due to economic globalization.

Credit Hours: 3 hrs
Concurrent Prerequisite: PLSC 210 or PLSC 211 or PLSC 212
Last Updated: New Course 06/2012, effective Winter 2013

PLSC 352 - Politics of Government Budgeting

An analysis of the political significance and the procedures of governmental budgeting in the United States.

Credit Hours: 3 hrs

PLSC 354 - Canadian Politics

Analysis of the Canadian political system in terms of historical background; political environment; constitutional structure; legislative, executive, and judicial processes; political parties and pressure groups; public opinion and voting behavior; political problems and trends.

Credit Hours: 3 hrs
Last Updated: Title Change 05/2011, effective Fall 2011

PLSC 355 - European Politics

This course examines the development and performance of the European model of representative democracy, variations in European model, the patterns of social cleavage and resulting party systems in various European nations, and the factors that have contributed to national wealth and economic growth in the continents.

Credit Hours: 3 hrs
Class Restrictions: Sophomore standing or above

PLSC 357 - Campaigns and Elections

An analysis of presidential and congressional elections. Topics include campaign strategies, role of the media and the impact of political action committees (PACS). Attention given to how individuals decide how to participate in the process, whether election results reflect the will of the people and to elections in other democracies.

Credit Hours: 3 hrs

PLSC 358 - Political Parties and Interest Groups

This course addresses a variety of issues related to the formation, maintenance and behavior of organized political groups. Primary focus is on political parties and interest groups in the United States. However, cross-national comparisons will be included whenever possible.

Credit Hours: 3 hrs
PLSC 359W - Public Opinion and Political Learning (GEWI)

Examines how individuals form their political opinions and on how these opinions are measured (primarily through public opinion polling) and transmitted to government (primarily through elections). Considers the role public opinion plays in policy-making, and grapples with questions of the role it ought to play.

Credit Hours: 3 hrs
Writing Intensive:

Last Updated: Links 04/2011

PLSC 360 - American Politics and the Media

This course examines the relationship between the media and American politics. We consider the various delivery mechanisms of news and information, and the impact of that information on both citizens and policy makers. From the earliest newspapers to the most contemporary digital information flow, the dynamic role of the media and its relationship to politics provide the basis for this course.

Credit Hours: 3 hrs
Repeatable for Credit: No
Concurrent Prerequisite: PLSC 112 or PLSC 113
Last Updated: New Course 01/2012, effective Winter 2012

PLSC 361 - Russian Politics

Course explores the continuing political, economic, and social transformation of Russia, the largest and most powerful successor state of the Soviet Union. Current political patterns and trends are analyzed within the broader context of Russian and Soviet political history and compared to democratic transformations in other post-communist states.

Credit Hours: 3 hrs
Last Updated: Title change 05/2011, effective Fall 2011

PLSC 362 - Black Women: Religion and Sexism

An introduction to the social and political role of Black women in African American religious institutions. Particular attention will be placed on how African American religion has limited the power of women. Additionally, the course will examine the historical evolution of the various major black denominations in America and their political and social roles in African American communities.

Credit Hours: 3 hrs
Cross-Listed with: AFC 362/WGST 362
Last Updated: Links 04/2011

PLSC 364 - Legislative Process

A study of the agencies, procedures, and influences in the formation of public policy by Congress, state legislatures and administrative agencies.

Credit Hours: 3 hrs

PLSC 365 - Women and Politics
A study of the role of women in American politics as voters, activists, and candidates, with consideration of how the political behavior of women relates to their economic, social and religious roles. Comparisons are made with select European and Asian political systems.

Credit Hours: 3 hrs
Cross-Listed with: WGST 365
Last Updated: Links 04/2011

PLSC 367 - Latin American Politics

A study of patterns and selected cases in Latin American politics, with special attention to social movements and grassroots perspectives. Students develop a comparative framework for analyzing domestic and international forces affecting politics and regime change. Themes include neocolonialism, authoritarianism and democracy, reform and revolution, indigenous and women’s movements, globalization.

Credit Hours: 3 hrs

PLSC 371 - Middle East Politics

The course focuses on the politics of several countries of the Middle East, devoting particular attention to the Arab- Israeli conflict, Iran’s nuclear ambitions, the Israeli nuclear program, secularism, Al Qaeda and terrorism, and the meaning of jihad.

Credit Hours: 3 hrs
Last Updated: Title change 05/2011, effective Fall 2011

PLSC 372 - African Politics

An approach to comparative politics through the examination of patterns of politics in Africa, including colonialism and decolonization, nationalist movements, ethnic conflict, transition to multiracial politics, challenges of state formation and regime change in sub-Saharan Africa.

Credit Hours: 3 hrs
Last Updated: Title change 05/2011, effective Fall 2011

PLSC 374 - Asian Politics

A study of the politics of Asia, including various regime types (such as liberal democratic, communist, and authoritarian capitalist). Comparative analysis will include themes such as political culture and ideology, political history, and changing roles of Asian countries in global politics and international political economy.

Credit Hours: 3 hrs

**PLSC 380 - American Presidency**

A study of executive power, emphasizing the contemporary presidential role and how it has evolved, the politics of candidate choice, the personal qualities and political styles of recent presidents, and the array of formal and informal institutions constituting the modern presidency.

Credit Hours: 3 hrs

**PLSC 381 - Public Policy Analysis**

An examination of the political and administrative process of policy-making and the techniques of analyzing policy issues such as welfare, education, crime and economic development.

Credit Hours: 3 hrs

**PLSC 382 - Politics and the 21st Century**

A study of the political and public policy directions of the future. Consideration will be given to worldwide political developments and alternative political futures as affected by accelerating sociopolitical and technological change.

Credit Hours: 3 hrs

**PLSC 385 - Judicial Process and Behavior**

A study of the judicial process and behavior in the United States with emphasis on analysis of policy making by the courts. Federal judicial structures and functions, decision making procedures and political ideology, and judicial review.

Credit Hours: 3 hrs

**PLSC 386 - U.S. Supreme Court Simulation**

This semester long simulation affords students the opportunity to explore Supreme Court behavior. Each student will play the role of one justice and one litigation group. Justices will decide which cases they will consider, hear oral arguments and write decisions. Litigants will bring prospective cases to the Court, write legal briefs and engage in oral arguments.

Credit Hours: 3 hrs
Prerequisite: Department permission
Class Restrictions: Junior standing
Last Updated: Links 04/2011

**PLSC 387 - Cooperative Education in Political Science**

Four to six months of full-time employment in the public sector intended to provide practical experience in government, politics or administration. The program consists of two directed work experiences (PLSC387/487) alternating with full-time attendance at the University.

Credit Hours: 3 hrs
Prerequisite: Departmental recommendation required
Class Restrictions: Junior standing
Major Restrictions: Political Science Majors, Public Administration Majors and Public Law and Government Majors only
Notes: Applications of credit toward political science programs subject to department approval. Graded on a credit/no-credit basis.
Last Updated: Links 04/2011

PLSC 390 - Poverty, Human Rights and Health (GEGA)

This interdisciplinary course examines international connections between poverty, human rights, and health, focusing on how social/political structures and public policies affect human well being. Prerequisite for PLSC 391/HLAD 391, experiential learning through a class trip to a developing country to meet community organizers and policy specialists working on poverty and health issues.

Credit Hours: 3 hrs
Class Restrictions: Sophomore, Junior or Senior standing
Cross-Listed with: HLAD 390
Perspectives on a Diverse World:
PLSC 390 Poverty, Human Rights and Health [effective Spring 2008]
Poverty is a central, if not the central, global problem of our time: it is connected to, or underlies, multiple problems and issues such as pandemics, regime instability, civil strife, terrorism and war. This course addresses the extent and causes of global economic inequality as well as the effects of profound poverty on health, human rights, human development and the quality of individual life. It explores the patterns of social, political and economic domination that sustain poverty and limit the opportunities of the very poor. Particular attention is devoted to the role of international economic institutions, multinational corporations and the advanced industrial nations, including the United States, in shaping the politics and economic development of countries and peoples in the global South. The course will also introduce students to international standards of human rights and the institutions and organizations that seek to protect those rights.

Last Updated: Links 04/2011

PLSC 391 - Field Study: Global Experience - Poverty, Human Rights and Health

Interdisciplinary course offering experiential learning through travel abroad to a developing country to meet community organizers and policy specialists working on poverty and health issues. Examines connections between poverty, human rights, and health, focusing on how social/political structures and public policies affect human well being.

Credit Hours: 3 hrs
Prerequisite: PLSC 390/HLAD 390
Class Restrictions: Sophomore, Junior or Senior standing
Learning Beyond the Classroom:

An examination of Russia’s international relations and foreign policy from the tsarist period to the present. Particular attention is given to how Russia’s turbulent domestic politics shapes its foreign policy and international behavior, Russia’s contemporary international role, its relations with other post-Soviet states, and interactions with major powers, including the U.S.

Credit Hours: 3 hrs  
Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.  
Last Updated: Graduate Credit 07/2011

**PLSC 467 - Advanced International Relations**

The course will explore, through case studies, the ways in which ideas, cultural differences and different political systems combine to produce the international politics of today. Special attention will be paid to the United States in this process as well as the role of economics and international organization. Limit: 25 students.

Credit Hours: 3 hrs  
Prerequisite: PLSC 212  
Last Updated: Links 04/2011

**PLSC 470 - Seminar in Political Science**

Examination and utilization of research techniques in the preparation of a major seminar paper in political science, public administration or public law and government.

Credit Hours: 3 hrs
PLSC 477A - Topics in American Politics

An examination of a topic in American Politics not normally covered in the curriculum, in which the distinctive concerns of political science are emphasized. Students may elect this course several times, provided different topics are studied, but it may be taken only twice for credit toward a major or minor in political science.

Credit Hours: 1 hr
Previously Listed As: PLSC 477 - Special Topics
Last Updated: Course Number and Title Change 05/2012, effective Fall 2012

PLSC 477B - Topics in Public Law

An examination of a topic in Public Law not normally covered in the curriculum, in which the distinctive concerns of political science are emphasized. Students may elect this course several times, provided different topics are studied, but it may be taken only twice for credit toward a major or minor in political science.

Credit Hours: 1 hr
Previously Listed As: PLSC 477 - Special Topics
Last Updated: Course Number and Title Change 05/2012, effective Fall 2012

PLSC 477C - Topics in Public Administration

An examination of a topic in Public Administration not normally covered in the curriculum, in which the distinctive concerns of political science are emphasized. Students may elect this course several times, provided different topics are studied, but it may be taken only twice for credit toward a major or minor in political science.

Credit Hours: 1 hr
Previously Listed As: PLSC 477 - Special Topics
Last Updated: Course Number and Title Change 05/2012, effective Fall 2012

PLSC 477D - Topics in Nonprofit Administration

An examination of a topic in Nonprofit Administration not normally covered in the curriculum, in which the distinctive concerns of political science are emphasized. Students may elect this course several times, provided different topics are studied, but it may be taken only twice for credit toward a major or minor in political science.

Credit Hours: 1 hr
Previously Listed As: PLSC 477 - Special Topics
Last Updated: Course Number and Title Change 05/2012, effective Fall 2012

PLSC 477E - Topics in Comparative Politics

An examination of a topic in Comparative Politics not normally covered in the curriculum, in which the distinctive concerns of political science are emphasized. Students may elect this course several times, provided different topics are studied, but it may be taken only twice for credit toward a major or minor in political science.

Credit Hours: 1 hr
Previously Listed As: PLSC 477 - Special Topics
Last Updated: Course Number and Title Change 05/2012, effective Fall 2012

PLSC 477F - Topics in International Relations
An examination of a topic in International Relations not normally covered in the curriculum, in which the distinctive concerns of political science are emphasized. Students may elect this course several times, provided different topics are studied, but it may be taken only twice for credit toward a major or minor in political science.

**Credit Hours:** 1 hr  
**Previously Listed As:** PLSC 477 - Special Topics  
**Last Updated:** Course Number and Title Change 05/2012, effective Fall 2012

**PLSC 477G - Topics in Theory and Methods**

An examination of a topic in Theory and Methods not normally covered in the curriculum, in which the distinctive concerns of political science are emphasized. Students may elect this course several times, provided different topics are studied, but it may be taken only twice for credit toward a major or minor in political science.

**Credit Hours:** 1 hr  
**Previously Listed As:** PLSC 477 - Special Topics  
**Last Updated:** Course Number and Title Change 05/2012, effective Fall 2012

**PLSC 478A - Topics in American Politics**

An examination of a topic in American Politics not normally covered in the curriculum, in which the distinctive concerns of political science are emphasized. Students may elect this course several times, provided different topics are studied, but it may be taken only twice for credit toward a major or minor in political science.

**Credit Hours:** 2 hrs  
**Previously Listed As:** PLSC 478 - Special Topics  
**Last Updated:** Course Number and Title Change 05/2012, effective Fall 2012

**PLSC 478B - Topics in Public Law**

An examination of a topic in Public Law not normally covered in the curriculum, in which the distinctive concerns of political science are emphasized. Students may elect this course several times, provided different topics are studied, but it may be taken only twice for credit toward a major or minor in political science.

**Credit Hours:** 2 hrs  
**Previously Listed As:** PLSC 478 - Special Topics  
**Last Updated:** Course Number and Title Change 05/2012, effective Fall 2012

**PLSC 478C - Topics in Public Administration**

An examination of a topic in Public Administration not normally covered in the curriculum, in which the distinctive concerns of political science are emphasized. Students may elect this course several times, provided different topics are studied, but it may be taken only twice for credit toward a major or minor in political science.

**Credit Hours:** 2 hrs  
**Previously Listed As:** PLSC 478 - Special Topics  
**Last Updated:** Course Number and Title Change 05/2012, effective Fall 2012

**PLSC 478D - Topics in Nonprofit Administration**
An examination of a topic in Nonprofit Administration not normally covered in the curriculum, in which the distinctive concerns of political science are emphasized. Students may elect this course several times, provided different topics are studied, but it may be taken only twice for credit toward a major or minor in political science.

**Credit Hours:** 2 hrs  
**Previously Listed As:** PLSC 478 - Special Topics  
**Last Updated:** Course Number and Title Change 05/2012, effective Fall 2012

**PLSC 478E - Topics in Comparative Politics**

An examination of a topic in Comparative Politics not normally covered in the curriculum, in which the distinctive concerns of political science are emphasized. Students may elect this course several times, provided different topics are studied, but it may be taken only twice for credit toward a major or minor in political science.

**Credit Hours:** 2 hrs  
**Previously Listed As:** PLSC 478 - Special Topics  
**Last Updated:** Course Number and Title Change 05/2012, effective Fall 2012

**PLSC 478F - Topics in International Relations**

An examination of a topic in International Relations not normally covered in the curriculum, in which the distinctive concerns of political science are emphasized. Students may elect this course several times, provided different topics are studied, but it may be taken only twice for credit toward a major or minor in political science.

**Credit Hours:** 2 hrs  
**Previously Listed As:** PLSC 478 - Special Topics  
**Last Updated:** Course Number and Title Change 05/2012, effective Fall 2012

**PLSC 478G - Topics in Theory and Methods**

An examination of a topic in Theory and Methods not normally covered in the curriculum, in which the distinctive concerns of political science are emphasized. Students may elect this course several times, provided different topics are studied, but it may be taken only twice for credit toward a major or minor in political science.

**Credit Hours:** 2 hrs  
**Previously Listed As:** PLSC 478 - Special Topics  
**Last Updated:** Course Number and Title Change 05/2012, effective Fall 2012

**PLSC 479A - Topics in American Politics**

An examination of a topic in American Politics not normally covered in the curriculum, in which the distinctive concerns of political science are emphasized. Students may elect this course several times, provided different topics are studied, but it may be taken only twice for credit toward a major or minor in political science.

**Credit Hours:** 3 hrs  
**Previously Listed As:** PLSC 479 - Special Topics  
**Last Updated:** Course Number and Title Change 05/2012, effective Fall 2012

**PLSC 479B - Topics in Public Law**
An examination of a topic in Public Law not normally covered in the curriculum, in which the distinctive concerns of political science are emphasized. Students may elect this course several times, provided different topics are studied, but it may be taken only twice for credit toward a major or minor in political science.

**Credit Hours:** 3 hrs  
**Previously Listed As:** PLSC 479 - Special Topics  
**Last Updated:** Course Number and Title Change 05/2012, effective Fall 2012

### PLSC 479C - Topics in Public Administration

An examination of a topic in Public Administration not normally covered in the curriculum, in which the distinctive concerns of political science are emphasized. Students may elect this course several times, provided different topics are studied, but it may be taken only twice for credit toward a major or minor in political science.

**Credit Hours:** 3 hrs  
**Previously Listed As:** PLSC 479 - Special Topics  
**Last Updated:** Course Number and Title Change 05/2012, effective Fall 2012

### PLSC 479D - Topics in Nonprofit Administration

An examination of a topic in Nonprofit Administration not normally covered in the curriculum, in which the distinctive concerns of political science are emphasized. Students may elect this course several times, provided different topics are studied, but it may be taken only twice for credit toward a major or minor in political science.

**Credit Hours:** 3 hrs  
**Previously Listed As:** PLSC 479 - Special Topics  
**Last Updated:** Course Number and Title Change 05/2012, effective Fall 2012

### PLSC 479E - Topics in Comparative Politics

An examination of a topic in Comparative Politics not normally covered in the curriculum, in which the distinctive concerns of political science are emphasized. Students may elect this course several times, provided different topics are studied, but it may be taken only twice for credit toward a major or minor in political science.

**Credit Hours:** 3 hrs  
**Previously Listed As:** PLSC 479 - Special Topics  
**Last Updated:** Course Number and Title Change 05/2012, effective Fall 2012

### PLSC 479F - Topics in International Relations

An examination of a topic in International Relations not normally covered in the curriculum, in which the distinctive concerns of political science are emphasized. Students may elect this course several times, provided different topics are studied, but it may be taken only twice for credit toward a major or minor in political science.

**Credit Hours:** 3 hrs  
**Previously Listed As:** PLSC 479 - Special Topics  
**Last Updated:** Course Number and Title Change 05/2012, effective Fall 2012

### PLSC 479G - Topics in Theory and Methods
An examination of a topic in Theory and Methods not normally covered in the curriculum, in which the distinctive concerns of political science are emphasized. Students may elect this course several times, provided different topics are studied, but it may be taken only twice for credit toward a major or minor in political science.

**PLSC 480 - Field Seminar in Political Science/Public Administration**

Designed to help students relate their field experience to some aspect of political science or public administration.

**Credit Hours:** 3 hrs  
**Previously Listed As:** PLSC 479 - Special Topics  
**Last Updated:** Course Number and Title Change 05/2012, effective Fall 2012

**PLSC 486 - Internship in Political Science/Public Administration**

Extends classroom learning through practical experience with legislative, administrative, and other public-sector agencies at all levels of government.

http://www.emich.edu/polisci/Internship/undergrad_majors.html

**Credit Hours:** 3 hrs  
**Prerequisite:** Department permission  
**Last Updated:** Links 04/2011

**PLSC 487 - Cooperative Education in Political Science**

Four to six months of full-time employment in the public sector intended to provide practical experience in government, politics or administration. The program consists of two directed work experiences (PLSC 387/PLSC 487) alternating with full-time attendance at the University.

**Credit Hours:** 3 hrs  
**Prerequisite:** PLSC 387 or departmental recommendation required  
**Class Restrictions:** Senior standing  
**Notes:** Applications of credit toward political science programs subject to department approval. Graded on a credit/no-credit basis.  
**Last Updated:** Links 04/2011

**PLSC 488 - Internship in Political Science/Public Administration**

Extends classroom learning through practical experience with legislative, administrative, and other public-sector agencies at all levels of government.

http://www.emich.edu/polisci/Internship/undergrad_majors.html

**Credit Hours:** 6 hrs  
**Prerequisite:** Department permission  
**Major Restrictions:** Political Science and Public Administration Majors and Minors only  
**Last Updated:** Links 04/2011
PLSC 489 - Internship in Political Science/Public Administration

Extends classroom learning through practical experience with legislative, administrative, and other public-sector agencies at all levels of government.
http://www.emich.edu/polisci/Internship/undergrad_majors.html

Credit Hours: 9 hrs
Prerequisite: Department permission
Major Restrictions: Political Science and Public Administration Majors and Minors only
Last Updated: Links 04/2011

PLSC 491 - Honors Thesis

This is a capstone course for Political Science Honors students. A senior thesis is completed in consultation with the faculty member.

Credit Hours: 3 hrs
Prerequisite: Member of the Honors College
Last Updated: Change course type 7/2014, New Course 10/2013, effective Winter 2014

PLSC 492 - International Affairs Honors Thesis

This is a capstone course for Honors students in the International Affairs Program. A senior thesis is completed in consultation with the faculty member.

Credit Hours: 3 hrs
Class Restrictions: Honors College Students Only
Last Updated: New Course 10/2013, effective Winter 2014

PLSC 497 - Independent Study

Advanced study on an individual basis in areas in which the department does not offer formal courses.

Credit Hours: 1 hrs
Prerequisite: Department permission
Class Restrictions: Senior standing
Major Restrictions: Normally restricted to Political Science Majors
Last Updated: Links 04/2011

PLSC 498 - Independent Study

Advanced study on an individual basis in areas in which the department does not offer formal courses.

Credit Hours: 2 hrs
Prerequisite: Department permission
Class Restrictions: Senior standing
Major Restrictions:Normally restricted to Political Science Majors
Last Updated: Links 04/2011

PLSC 499 - Independent Study
Advanced study on an individual basis in areas in which the department does not offer formal courses.

**Credit Hours:** 3 hrs  
**Prerequisite:** Department permission  
**Class Restrictions:** Senior standing  
**Major Restrictions:** Normally restricted to Political Science Majors  
**Last Updated:** Links 04/2011
Physics and Astronomy Programs and Courses

Physics and Astronomy

Major

Engineering Physics Major

Students following this program will earn a bachelor of science degree with a major in physics and will have a strong background in engineering mechanics. Graduates will be well qualified to fill engineering-oriented positions. No minor is required.

Department Information:

Physics & Astronomy Department - College of Arts & Sciences

Alexandria Oakes, Ph.D., Department Head

309 Strong Hall
(734) 487-4144
aoakes@emich.edu

Department Website

Advisor Information:

Program Advisor: Dr. Alexandria Oakes
Email: aoakes@emich.edu
Phone: 734.487.8647

Program Advisor: Dr. Weidian Shen
Email: wshen@emich.edu
Phone: 734.487.8797

General Education Requirements:

For specific requirements refer to the General Education Program.

Major Requirements: 62 hours

Required Math Courses: 18 hours

- MATH 120 - Calculus I (GEQR) 4 hrs
- MATH 121 - Calculus II 4 hrs
- MATH 122 - Elementary Linear Algebra 3 hrs
- MATH 223 - Multivariable Calculus 4 hrs
- MATH 325 - Differential Equations 3 hrs
Required Physics Courses: 26 hours

- PHY 223 - Mechanics and Sound (GEKN) 5 hrs
- PHY 224 - Electricity and Light 5 hrs
- PHY 360 - Heat and Thermodynamics 4 hrs
- PHY 370 - Introduction to Modern Physics 3 hrs
- PHY 372 - Modern Physics Laboratory 1 hr
- PHY 406 - Ethical Issues in Physics 1 hr
- PHY 420W - Capstone Project (GEWI) 3 hrs
- PHY 456 - Electronics for Scientists 4 hrs

Required Engineering Mechanics Courses: 11 hours

- PHY 229 - Strength and Elasticity of Materials 4 hrs
- PHY 230 - Engineering Dynamics 4 hrs
- PHY 485 - Fluid Dynamics 3 hrs

Physics Elective Courses: 7 hours

Seven hours from the following:

- PHY 332 - Mechanics Laboratory 1 hr
- PHY 350 - Electricity and Magnetism I 3 hrs
- PHY 431 - Intermediate Mechanics II 3 hrs
- PHY 436 - Vibration and Sound 4 hrs
- PHY 442 - Optics and Optics Laboratory 4 hrs
- PHY 444 - Applied Optics 2 hrs
- PHY 458 - Electronic Devices for Scientists 4 hrs
- PHY 471 - Atomic and Nuclear Physics 3 hrs
- PHY 475 - Introduction to Quantum Mechanics 3 hrs
- PHY 481 - Mathematical Physics 3 hrs
- PHY 497 - Independent Study — Physics 1 hr
- PHY 498 - Independent Study — Physics 2 hrs
- PHY 499 - Independent Study — Physics 3 hrs

Additional Requirements: 11 hours

- CHEM 121 - General Chemistry I (GEKN) 3 hrs
- CHEM 122 - General Chemistry I Laboratory (GEKN) 1 hr
- CHEM 123 - General Chemistry II 3 hrs
- CHEM 124 - General Chemistry II Laboratory 1 hr
- COSC 111 - Introduction to Programming 3 hrs

Minor Requirements:

This program does not require a minor.
Program Total:

Students must earn a minimum total of 124 credits at the 100-level or above.

Notes:

*Students desiring a mathematics minor must take MATH 211 - Introduction to Mathematical Proof (3 hrs) or MATH 360 - Statistical Methods (3 hrs) or MATH 370 - Probability and Statistics I (4 hrs) to complete the minor.*

Critical Graduation Information:

Each undergraduate student will be responsible for the fulfillment of the requirements or their equivalents of the Eastern Michigan University catalog in force at the time of their initial registration at a college or university or a subsequent catalog including the one in effect at the time of their graduation.

In the event an undergraduate student does not complete the degree requirements within seven years of the date of their original registration at a college or university, the student may be required to have their credits re-evaluated by the academic department(s) of their major/minor in keeping with catalog requirements in force during the year of their graduation.

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the 100-level and above. Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Complete a Writing Intensive (WI) Course in your major.
- Earn a minimum of 60 credits from a four-year college or university; courses taken at community colleges cannot be used to meet this requirement. (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 unique credit hours in their major and 20 unique credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
- Earn no more than 60 credit hours in one subject area (prefix). Credits in excess of the 60 maximum will not be counted toward the minimum of 124 credits required for a bachelor's degree.
- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more that one major or minor.
  - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
  - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
  - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor
- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S.
institutions; the internal review of such courses is conducted by individual departments/schools within EMU, and additional documentation may be required. Please note: EMU awards only credit for transferred courses; grades are not used in the calculation of an EMU GPA.

- Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be reached in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

**General Education Requirements:**

EMU’s General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available in the General Education section of the catalog: General Education

Students who transferred to EMU may have modified general education requirements based on Michigan Transfer Agreement (MTA) or articulation agreements; consult your academic advisor for additional information.

**University Information:** Consult the online catalog at catalog.emich.edu.

**General Science Comprehensive Major**

This 56-hour major and minor combination encompasses five areas of study: biology, chemistry, earth science, mathematics and physics. Students must follow regular department requirements to complete a 20-hour cognate minor in one of the areas listed above and a 36-hour group major composed of courses from the other four areas.

**Department Information:**

Physics & Astronomy Department - College of Arts & Sciences

**Alexandria Oakes, Ph.D., Department Head**

309 Strong Hall

aoakes@emich.edu

Department Website

**Advisor Information:**

Program Advisor: Dr. Bonnie Wylo
Email: bwylo@emich.edu
Phone: 734.487.8642

**General Education Requirements:**

For specific requirements refer to the General Education Program.

**Group Major (32-36 hrs) with Cognate Minor (20-22): 52-58 hours**

Cognate minor in one of the following five science areas: 20-22 hours
• Biology (22 hrs)
• Chemistry (20–21 hrs)
• Earth science (21 hrs)
• Mathematics (20 hrs)
• Physics (21 hrs)

Select courses for your minor in consultation with an advisor in the appropriate department.

Group Major: 32-36 hours

With a biology minor, take the following for a group major:

• Approved elective courses in chemistry, earth science, mathematics and physics (8 hrs)
  *see note
• ASTR 205 - Principles of Astronomy (GEKN) 4 hrs
• CHEM 121 - General Chemistry I (GEKN) 3 hrs
• CHEM 122 - General Chemistry I Laboratory (GEKN) 1 hr
• ESSC 110 - The Dynamic Earth System (GEKN) 4 hrs
• ESSC 212 - Weather, Climate and the Earth System 3 hrs
• MATH 105 - College Algebra (GEQR) 3 hrs
• MATH 107 - Plane Trigonometry 2 hrs
• PHY 221 - Mechanics, Sound and Heat (GEKN) 4 hrs
• PHY 222 - Electricity and Light 4 hrs

With a chemistry minor, take the following for a group major:

• Approved elective courses in biology, earth science, mathematics and physics (4 hrs)
  *see note
• ASTR 205 - Principles of Astronomy (GEKN) 4 hrs
• BIO 105 - Introductory Biology for Non-majors (GEKN) 4 hrs
• ESSC 110 - The Dynamic Earth System (GEKN) 4 hrs
• ESSC 212 - Weather, Climate and the Earth System 3 hrs
• MATH 105 - College Algebra (GEQR) 3 hrs
• MATH 107 - Plane Trigonometry 2 hrs
• PHY 221 - Mechanics, Sound and Heat (GEKN) 4 hrs
• PHY 222 - Electricity and Light 4 hrs

With an earth science minor, take the following for a group major:

• Approved elective courses in biology, chemistry, mathematics and physics (7 hrs)
  *see note
• ASTR 205 - Principles of Astronomy (GEKN) 4 hrs
• BIO 110 - Introductory Biology I (GEKN) 5 hrs
• CHEM 121 - General Chemistry I (GEKN) 3 hrs
• CHEM 122 - General Chemistry I Laboratory (GEKN) 1 hr
• MATH 105 - College Algebra (GEQR) 3 hrs
• MATH 107 - Plane Trigonometry 2 hrs
• PHY 221 - Mechanics, Sound and Heat (GEKN) 4 hrs
• PHY 222 - Electricity and Light 4 hrs

With a mathematics minor, take the following for a group major:

• Approved elective courses in biology, chemistry, earth science and physics (5 hrs)
  *see note
• ASTR 205 - Principles of Astronomy (GEKN) 4 hrs
• BIO 110 - Introductory Biology I (GEKN) 5 hrs
• CHEM 121 - General Chemistry I (GEKN) 3 hrs
• CHEM 122 - General Chemistry I Laboratory (GEKN) 1 hr
• ESSC 110 - The Dynamic Earth System (GEKN) 4 hrs
• ESSC 212 - Weather, Climate and the Earth System 3 hrs
• PHY 221 - Mechanics, Sound and Heat (GEKN) 4 hrs
• PHY 222 - Electricity and Light 4 hrs

With a physics minor, take the following for a group major:

• Approved elective courses in biology, chemistry, earth science and mathematics (5 hrs)
  *see note
• ASTR 205 - Principles of Astronomy (GEKN) 4 hrs
• BIO 110 - Introductory Biology I (GEKN) 5 hrs
• CHEM 121 - General Chemistry I (GEKN) 3 hrs
• CHEM 122 - General Chemistry I Laboratory (GEKN) 1 hr
• ESSC 110 - The Dynamic Earth System (GEKN) 4 hrs
• ESSC 212 - Weather, Climate and the Earth System 3 hrs
• MATH 120 - Calculus I (GEQR) 4 hrs
• MATH 121 - Calculus II 4 hrs

Minor Requirements:

This program requires a minor. Please contact your program advisor for a list of possible minors.

Program Total:

Students must earn a minimum total of 124 credits at the 100-level or above.

Notes:

Each student must choose a writing intensive course as part of major completion requirements. Consult your advisor for course options.

* Approved Elective Courses:

This list is not complete; consult with the general science advisor for other possible courses.
- ASTR 204 - Astronomical Investigations (GEKN) 1 hr
- BIO 205 - Field Biology 4 hrs
- BIO 130 - Biology of Plants 4 hrs
- BIO 140 - Biology of Animals 4 hrs
- CHEM 123 - General Chemistry II 3 hrs
- CHEM 124 - General Chemistry II Laboratory 1 hr
- CHEM 270 - Survey of Organic Chemistry 4 hrs
- CHEM 271 - Organic Chemistry Laboratory 1 hr
- COSC 145 - Introduction to FORTRAN Programming 3 hrs
- ESSC 114 - Geology of the National Parks (GEKN) 4 hrs
- ESSC 228 - Mineralogy 4 hrs
- ESSC 229 - Rocks and Minerals 3 hrs
- ESSC 320 - Oceanography 3 hrs
- MATH 120 - Calculus I (GEQR) 4 hrs
- MATH 121 - Calculus II 4 hrs
- MATH 122 - Elementary Linear Algebra 3 hrs
- MATH 223 - Multivariable Calculus 4 hrs
- PHY 330 - Intermediate Mechanics I 3 hrs
- PHY 370 - Introduction to Modern Physics 3 hrs
- PHY 372 - Modern Physics Laboratory 1 hr
- PSCI 270 - Relativity, Atomic and Nuclear Physics 3 hrs
- PSCI 305 - Energy and Society 3 hrs
- PSCI 309 - Thermal Science and Heat Transfer 3 hrs
- PSCI 340 - Milestones in Physics and Astronomy for Teachers 3 hrs

**Critical Graduation Information:**

Each undergraduate student will be responsible for the fulfillment of the requirements or their equivalents of the Eastern Michigan University catalog in force at the time of their initial registration at a college or university or a subsequent catalog including the one in effect at the time of their graduation.

In the event an undergraduate student does not complete the degree requirements within seven years of the date of their original registration at a college or university, the student may be required to have their credits re-evaluated by the academic department(s) of their major/minor in keeping with catalog requirements in force during the year of their graduation.

The following are minimum requirements for all bachelor’s degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the 100-level and above. **Courses with numbers below 100 will not be counted toward this degree requirement.** At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Complete a Writing Intensive (WI) Course in your major.
- Earn a minimum of 60 credits from a four-year college or university; **courses taken at community colleges cannot be used to meet this requirement.** (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
• Complete 10 of the last 30 hours for the degree from courses taken at EMU.
• Have a minimum of 30 unique credit hours in their major and 20 unique credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
• Earn no more than 60 credit hours in one subject area (prefix). Credits in excess of the 60 maximum will not be counted toward the minimum of 124 credits required for a bachelor's degree.
• Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more that one major or minor.
  ○ Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
  ○ Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
  ○ Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor.
• Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is conducted by individual departments/schools within EMU, and additional documentation may be required. Please note: EMU awards only credit for transferred courses; grades are not used in the calculation of an EMU GPA.
• Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be reached in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

General Education Requirements:

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available in the General Education section of the catalog: General Education

Students who transferred to EMU may have modified general education requirements based on Michigan Transfer Agreement (MTA) or articulation agreements; consult your academic advisor for additional information.

University Information: Consult the online catalog at catalog.emich.edu.

Physics Major

This major is provided for students who desire a general cultural education with an emphasis on physics, who are preparing for work in another field such as premedicine or prelaw, or who are interested in combining physics with an allied field such as biology, chemistry, astronomy, geology or with the field of business.

Department Information:

Physics & Astronomy Department - College of Arts & Sciences

Alexandria Oakes, Ph.D., Department Head

309 Strong Hall
(734) 487-4144
aoakes@emich.edu
Advisor Information:

Program Advisor: Dr. Marshall Thomsen  
Email: jthomsen@emich.edu  
Phone: 734.487.8794

Program Advisor: David Pawlowski

Phone: 734.487.8644

Program Advisor: Diane Jacobs  
Email: djacobs@emich.edu  
Phone: 734.487.8646

General Education Requirements:

For specific requirements refer to the General Education Program.

Major Requirements: 33 hours

Required Courses: 29 hours

• PHY 223 - Mechanics and Sound (GEKN) 5 hrs  
• PHY 224 - Electricity and Light 5 hrs  
• PHY 330 - Intermediate Mechanics I 3 hrs  
• PHY 332 - Mechanics Laboratory 1 hr  
• PHY 350 - Electricity and Magnetism I 3 hrs  
• PHY 360 - Heat and Thermodynamics 4 hrs  
• PHY 370 - Introduction to Modern Physics 3 hrs  
• PHY 372 - Modern Physics Laboratory 1 hr  
• PHY 406 - Ethical Issues in Physics 1 hr  
• PHY 420W - Capstone Project (GEWI) 3 hrs

Restricted Elective Courses: 2-4 hours

One Laboratory course from the following:

• PHY 436 - Vibration and Sound 4 hrs  
• PHY 442 - Optics and Optics Laboratory 4 hrs  
• PHY 444 - Applied Optics 2 hrs  
• PHY 456 - Electronics for Scientists 4 hrs

Elective Courses: 0-2 hours

Only physics or astronomy undergraduate courses numbered greater than 299 can be used as electives on this major, excluding ASTR 311, PHY 311, PHY 312 and PHY 325 which cannot be used on this major.
Additional Requirements: 18 hours

- COSC 111 - Introduction to Programming 3 hrs
- MATH 120 - Calculus I (GEQR) 4 hrs
- MATH 121 - Calculus II 4 hrs
- MATH 122 - Elementary Linear Algebra 3 hrs
- MATH 223 - Multivariable Calculus 4 hrs

Minor Requirements:

This program requires a minor. Please contact your program advisor for a list of possible minors. A mathematics minor is highly recommended.

Program Total:

Students must earn a minimum total of 124 credits at the 100-level or above.

Critical Graduation Information:

Each undergraduate student will be responsible for the fulfillment of the requirements or their equivalents of the Eastern Michigan University catalog in force at the time of their initial registration at a college or university or a subsequent catalog including the one in effect at the time of their graduation.

In the event an undergraduate student does not complete the degree requirements within seven years of the date of their original registration at a college or university, the student may be required to have their credits re-evaluated by the academic department(s) of their major/minor in keeping with catalog requirements in force during the year of their graduation.

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the **100-level and above. Courses with numbers below 100 will not be counted toward this degree requirement.** At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Complete a Writing Intensive (WI) Course in your major.
- Earn a minimum of 60 credits from a four-year college or university; **courses taken at community colleges cannot be used to meet this requirement.** (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 **unique** credit hours in their major and 20 **unique** credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
- Earn no more than 60 credit hours in one subject area (prefix). Credits in excess of the 60 maximum will not be counted toward the minimum of 124 credits required for a bachelor's degree.
Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more than one major or minor.

- Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
- Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
- Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor.

Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is conducted by individual departments/schools within EMU, and additional documentation may be required. Please note: EMU awards only credit for transferred courses; grades are not used in the calculation of an EMU GPA.

- Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be reached in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

General Education Requirements:

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available in the General Education section of the catalog: General Education

Students who transferred to EMU may have modified general education requirements based on Michigan Transfer Agreement (MTA) or articulation agreements; consult your academic advisor for additional information.

University Information: Consult the online catalog at catalog.emich.edu.

Physics Research Major

The physics research major provides the necessary background for those planning to become professional physicists. The requirements listed below ensure adequate depth and breadth of subject matter in both theoretical and experimental physics and in mathematics. Students successfully completing this major are prepared to enter technical positions in government or industrial research, or to undertake graduate study in physics. Further work at the graduate level is highly recommended. No minor is required.

Phone: 734.487.8797  

General Education Requirements:  
For specific requirements refer to the General Education Program.  

Additional Requirements: 7 hours  

- CHEM 121 - General Chemistry I (GEKN) 3 hrs  
- CHEM 122 - General Chemistry I Laboratory (GEKN) 1 hr  
- COSC 111 - Introduction to Programming 3 hrs  

Major Requirements: 57 hours  

Required Mathematics Courses: 18 hours  

- MATH 120 - Calculus I (GEQR) 4 hrs  
- MATH 121 - Calculus II 4 hrs  
- MATH 122 - Elementary Linear Algebra 3 hrs  
- MATH 223 - Multivariable Calculus 4 hrs  
- MATH 325 - Differential Equations 3 hrs  

Required Physics Courses: 32 hours  

- PHY 223 - Mechanics and Sound (GEKN) 5 hrs  
- PHY 224 - Electricity and Light 5 hrs  
- PHY 330 - Intermediate Mechanics I 3 hrs  
- PHY 332 - Mechanics Laboratory 1 hr  
- PHY 350 - Electricity and Magnetism I 3 hrs  
- PHY 360 - Heat and Thermodynamics 4 hrs  
- PHY 370 - Introduction to Modern Physics 3 hrs  
- PHY 372 - Modern Physics Laboratory 1 hr  
- PHY 406 - Ethical Issues in Physics 1 hr  
- PHY 420W - Capstone Project (GEWI) 3 hrs  
- PHY 475 - Introduction to Quantum Mechanics 3 hrs  

Restricted Elective Courses: 2-4 hours
One of the following laboratory courses:

- PHY 436 - Vibration and Sound 4 hrs
- PHY 442 - Optics and Optics Laboratory 4 hrs
- PHY 444 - Applied Optics 2 hrs
- PHY 456 - Electronics for Scientists 4 hrs

Elective Courses: 3-5 hours

Only ASTR and PHY undergraduate courses numbered greater than 299 can be used as electives on this major, excluding ASTR 311, PHY 311, PHY 312 and PHY 325 which can never be used on this major. For those planning to pursue graduate studies in physics, PHY 450 - Electricity and Magnetism II is strongly recommended.

Minor Requirements:

This program does not require a minor.

Program Total:

Students must earn a minimum total of 124 credits at the 100-level or above.

Note:

Students desiring a mathematics minor must take MATH 211 - Introduction to Mathematical Proof (3 hrs) or MATH 360 - Statistical Methods (3 hrs) or MATH 370 - Probability and Statistics I (4 hrs) to complete the minor.

Critical Graduation Information:

Each undergraduate student will be responsible for the fulfillment of the requirements or their equivalents of the Eastern Michigan University catalog in force at the time of their initial registration at a college or university or a subsequent catalog including the one in effect at the time of their graduation.

In the event an undergraduate student does not complete the degree requirements within seven years of the date of their original registration at a college or university, the student may be required to have their credits re-evaluated by the academic department(s) of their major/minor in keeping with catalog requirements in force during the year of their graduation.

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the 100-level and above. Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Complete a Writing Intensive (WI) Course in your major.
- Earn a minimum of 60 credits from a four-year college or university; courses taken at community colleges cannot be used to meet this requirement. (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
• Earn a minimum of 30 credits from courses taken at EMU.
• Complete 10 of the last 30 hours for the degree from courses taken at EMU.
• Have a minimum of 30 unique credit hours in their major and 20 unique credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
• Earn no more than 60 credit hours in one subject area (prefix). Credits in excess of the 60 maximum will not be counted toward the minimum of 124 credits required for a bachelor's degree.
• Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more that one major or minor.
  o Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
  o Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
  o Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor
• Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is conducted by individual departments/schools within EMU, and additional documentation may be required. Please note: EMU awards only credit for transferred courses; grades are not used in the calculation of an EMU GPA.
• Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be reached in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

General Education Requirements:

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available in the General Education section of the catalog: General Education

Students who transferred to EMU may have modified general education requirements based on Michigan Transfer Agreement (MTA) or articulation agreements; consult your academic advisor for additional information.

University Information: Consult the online catalog at catalog.emich.edu.

Secondary Education Integrated Science Comprehensive Group Major

The preparation of Integrated Science teachers includes courses in the three major categories of science identified in the Michigan Curriculum Framework: life, physical and Earth/space science. Candidates who apply for the secondary integrated science endorsement must pass the Michigan Test for Teacher Certification in integrated science at the secondary level. Successful completion of this course of study, in the context of other program requirements, qualifies the student for recommendation for the Michigan Department of Education Secondary Provisional Certificate endorsed in integrated science, certification code DI. The Michigan Test for Teacher Certification (MTTC) covering this field is #094, "Integrated Science (Secondary)."

Department Information:
Initial Teacher Preparation Program Admission

In order to pursue the sequence of courses necessary to complete eligibility for recommendation for certification, one must apply for and be admitted to the teacher preparation program. Admission requirements are common for all teacher preparation programs, except that certain special education programs have additional requirements.

Each undergraduate student is responsible for applying to the teacher preparation program immediately after the semester in which the student has earned 56 credit hours. Transfer students with more than 56 credit hours should apply immediately after the semester in which they have earned 12 hours at EMU, including at least one course in their major. Students with 56 hours of transfer course work with a decision GPA of 3.0 may apply for admission to the teacher preparation program without 12 earned hours at EMU.

Admission to the teacher preparation program is not automatic. Only those persons who have formally applied are considered for admission. Not all persons who apply become eligible for admission.

Applications for the Initial Teacher Preparation Program at EMU are available within your my.emich account under the "Student" tab. Submit your completed application to the Office of Academic Services once you have earned 56 credit hours.

Teaching majors and minors are unofficial until program admission. Students pursuing teacher certification should follow the catalog that exists at the time of program admission. It is important that students apply to the teacher preparation program as soon as they have earned 56 credit hours.

Criteria:

1. Completion of 56 credit hours
2. Appropriate cumulative GPA. One of:
   1. An overall EMU GPA of 2.5 or higher based on a minimum of 12 credit hours taken at EMU. An EMU GPA of 2.5 or higher in your major, based on at least one course in your major. The Elementary Education Major is comprehensive, therefore, the elementary major GPA is based on the cumulative of liberal arts curriculum and content course work.
   2. Transferred 56 credits with a cumulative 3.0 GPA from all previous institutions.
3. A grade of "C" or higher (if taken) in the following courses:
   1. If Secondary: ENGL 121, CTAC 124, Quantitative Reasoning (GEQR), one lab science, all professional education courses, and, if special education, PSY 101.
   2. If Elementary: ENGL 121, CTAC 124, MATH 108, MATH 110E, PHY 100, ESSC 202, all of the professional education courses, all courses that state "for elementary teachers," and, if special education, PSY 101.
4. Official Test Scores showing competency in each of the following areas: mathematics, reading and writing. Scores are accepted from the Professional Readiness Exam (PRE), Basic Skills Test (no longer offered), ACT, or Michigan Merit Exam (MME). The following scores are acceptable:
   1. Mathematics: PRE pass, Basic Skills pass, ACT mathematics 22 or higher, or MME mathematics 1116 or higher.
   2. Writing: PRE pass, Basic Skills pass, ACT combined English/writing 24 or higher, or MME writing 1129 or higher.
   3. Reading: PRE pass, Basic Skills pass, ACT reading 22 or higher, or MME reading 1108 or higher.

5. ICHAT criminal background check and Statement of Civil/Criminal Convictions. If you answered yes to any of the civil/criminal conviction questions on the application, you will need to provide:
   1. A copy of the Judgment of Sentence, or Registrar of Actions, or Certification of Conviction.
   2. A written explanation of the offense(s). Application of students with civil/criminal convictions will be carefully reviewed and may take longer to process.

6. Meet academic, social, moral, and financial obligations as a member of the EMU community.

General Education Requirements:

For specific requirements refer to the General Education Program.

Comprehensive Major Requirements: 57 hours

Life Sciences Courses: 14 hours

- BIO 110 - Introductory Biology I (GEKN) 5 hrs
- BIO 120 - Introductory Biology II 5 hrs
- BIO 226 - Global Ecology and the Environment 4 hrs

Physical Sciences Courses: 20 hours

- CHEM 120 - Fundamentals of Organic and Biochemistry (GEKN) 4 hrs
- CHEM 121 - General Chemistry I (GEKN) 3 hrs
- CHEM 122 - General Chemistry I Laboratory (GEKN) 1 hr
- CHEM 123 - General Chemistry II 3 hrs
- CHEM 124 - General Chemistry II Laboratory 1 hr
- PHY 221 - Mechanics, Sound and Heat (GEKN) 4 hrs
- PHY 222 - Electricity and Light 4 hrs

Earth/Space Sciences Courses: 18 hours

- ASTR 205 - Principles of Astronomy (GEKN) 4 hrs
- ASTR 315 - Observational Astronomy 3 hrs
- ESSC 110 - The Dynamic Earth System (GEKN) 4 hrs
- ESSC 111 - The Earth System through Time 4 hrs
- ESSC 212 - Weather, Climate and the Earth System 3 hrs

Additional Required Courses: 5-6 hours
Choose one option from the following:

Option I:

- MATH 107 - Plane Trigonometry 2 hrs
- MATH 119 - Applied Calculus (GEQR) 3 hrs

Option II:

- MATH 120 - Calculus I (GEQR) 4 hrs

And one course from the following:

- BIO 406 - The Nature of Science 1 hr
- CHEM 406 - The Nature of Science 1 hr
- ESSC 406 - The Nature of Science 1 hr
- PHY 406 - Ethical Issues in Physics 1 hr

Professional Secondary Education Sequence

Secondary Education Pre-Admission Phase: The Learner and the Community: 7 hours

Prerequisite: Sophomore standing or higher.

- EDPS 322 - Human Development and Learning 4 hrs
- SPGN 251 - Introduction to Inclusion and Disabilities Studies in a Diverse Society (GEUS) 3 hrs

The following phases require formal admission to the Initial Teacher Preparation Program:

Secondary Education Phase I: Curriculum, Assessment and the Social Context: 15 hours

Prerequisite: Completion of Pre-Admission Phase is required.

* These two courses must be taken together.
** These courses must be taken with or after CURR 305.

- * CURR 305 - Curriculum and Methods: Secondary 3 hrs
- ** EDMT 330 - Instructional Applications of Media and Technology 3 hrs
- ** EDPS 340 - Introduction to Assessment and Evaluation 3 hrs
- * PRCT 305 - Practicum I: Secondary 3 hrs
- SOFD 328W - Schools for a Diverse and Democratic Society (GEWI) 3 hrs
Secondary Education Phase II: Content and Methods and Teaching: 9 hours

Prerequisite: Completion of Phase I is required.

* These two courses must be taken together.

- PRCT 311 - Practicum II: Secondary 3 hrs
- RDNG 311 - Teaching Reading in the Secondary School 3 hrs

Methods Course by Major:

Integrated Science Comprehensive Group Majors take one of:

- BIOT 403 - Methods for Teaching Secondary Biology 3 hrs
- CHEM 325 - Methodology for Secondary Chemistry Teachers 3 hrs
- ESSC 347 - Methods for Teaching Secondary Earth Science 3 hrs
- PHY 325 - Methods of Teaching the Physical Sciences 3 hrs

Secondary Education Phase III: Capstone Experience: 9 hours

Prerequisite: Completion of Phase II and 100 pre-student teaching hours is required.

- EDUC 492 - Student Teaching (GELB) 9 hrs
  This course requires a formal application to be submitted 7-8 months prior to the Student Teaching semester.

Minor Requirements:

This program does not require a minor.

Program Total:

Students must earn a minimum total of 124 credits at the 100-level or above.

Notes:

The below requirement for students to complete a minimum number of credits at the 300-level or higher is waived for this major. The requirement is met through the Initial Teacher Preparation Program (ITPP).

MTTC Subject Area Test

Starting January 1, 2013, Students seeking licensure in a secondary or K-12 area are not required to take the MTTC subject area test in their minor area. Students who elect not to take the test in their minor will be required to sign a statement indicating that they understand that they will not be endorsed in their minor area and will not be eligible for teaching positions in their minor unless they pass the minor subject area test within five years of completing field experience and course requirements.
Critical Graduation Information:

Each undergraduate student will be responsible for the fulfillment of the requirements or their equivalents of the Eastern Michigan University catalog in force at the time of their initial registration at a college or university or a subsequent catalog including the one in effect at the time of their graduation.

In the event an undergraduate student does not complete the degree requirements within seven years of the date of their original registration at a college or university, the student may be required to have their credits re-evaluated by the academic department(s) of their major/minor in keeping with catalog requirements in force during the year of their graduation.

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the 100-level and above. Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Complete a Writing Intensive (WI) Course in your major.
- Earn a minimum of 60 credits from a four-year college or university; courses taken at community colleges cannot be used to meet this requirement. (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 unique credit hours in their major and 20 unique credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
- Earn no more than 60 credit hours in one subject area (prefix). Credits in excess of the 60 maximum will not be counted toward the minimum of 124 credits required for a bachelor's degree.
- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more that one major or minor.
  - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
  - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
  - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor
- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is conducted by individual departments/schools within EMU, and additional documentation may be required. Please note: EMU awards only credit for transferred courses; grades are not used in the calculation of an EMU GPA.
- Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be reached in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

General Education Requirements:
EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available in the General Education section of the catalog: General Education

Students who transferred to EMU may have modified general education requirements based on Michigan Transfer Agreement (MTA) or articulation agreements; consult your academic advisor for additional information.

**University Information:** Consult the online catalog at catalog.emich.edu.

**Secondary Education Physical Science Comprehensive Major**

A comprehensive Secondary Physical Science Endorsement prepares candidates to teach physical science courses as identified in the Michigan Curriculum Framework. A minor is not required in this comprehensive group major. The preparation of physical science teachers includes courses in all of the major categories of science with a strong focus on basic chemistry and physics. Successful completion of this course of study, in the context of other program requirements, qualifies the student for recommendation for the Michigan Department of Education Secondary Provisional Certificate endorsed in Physical Science (DP). The Michigan Test for Teacher Certification (MTTC) covering this field is #097, "Physical Science."

**Initial Teacher Preparation Program Admission**

In order to pursue the sequence of courses necessary to complete eligibility for recommendation for certification, one must apply for and be admitted to the teacher preparation program. Admission requirements are common for all teacher preparation programs, except that certain special education programs have additional requirements.

Each undergraduate student is responsible for applying to the teacher preparation program immediately after the semester in which the student has earned 56 credit hours. Transfer students with more than 56 credit hours should apply immediately after the semester in which they have earned 12 hours at EMU, including at least one course in their major. Students with 56 hours of transfer course work with a decision GPA of 3.0 may apply for admission to the teacher preparation program without 12 earned hours at EMU.

Admission to the teacher preparation program is not automatic. Only those persons who have formally applied are considered for admission. Not all persons who apply become eligible for admission.
Applications for the Initial Teacher Preparation Program at EMU are available within your my.emich account under the "Student" tab. Submit your completed application to the Office of Academic Services once you have earned 56 credit hours.

Teaching majors and minors are unofficial until program admission. Students pursuing teacher certification should follow the catalog that exists at the time of program admission. It is important that students apply to the teacher preparation program as soon as they have earned 56 credit hours.

Criteria:

1. Completion of 56 credit hours
2. Appropriate cumulative GPA. One of:
   1. An overall EMU GPA of 2.5 or higher based on a minimum of 12 credit hours taken at EMU. An EMU GPA of 2.5 or higher in your major, based on at least one course in your major. The Elementary Education Major is comprehensive, therefore, the elementary major GPA is based on the cumulative of liberal arts curriculum and content course work.
   2. Transferred 56 credits with a cumulative 3.0 GPA from all previous institutions.
3. A grade of "C" or higher (if taken) in the following courses:
   1. If Secondary: ENGL 121, CTAC 124, Quantitative Reasoning (GEQR), one lab science, all professional education courses, and, if special education, PSY 101.
   2. If Elementary: ENGL 121, CTAC 124, MATH 108, MATH 110E, PHY 100, ESSC 202, all of the professional education courses, all courses that state "for elementary teachers," and, if special education, PSY 101.
4. Official Test Scores showing competency in each of the following areas: mathematics, reading and writing. Scores are accepted from the Professional Readiness Exam (PRE), Basic Skills Test (no longer offered), ACT, or Michigan Merit Exam (MME). The following scores are acceptable:
   1. Mathematics: PRE pass, Basic Skills pass, ACT mathematics 22 or higher, or MME mathematics 1116 or higher.
   2. Writing: PRE pass, Basic Skills pass, ACT combined English/writing 24 or higher, or MME writing 1129 or higher.
   3. Reading: PRE pass, Basic Skills pass, ACT reading 22 or higher, or MME reading 1108 or higher.
5. ICHAT criminal background check and Statement of Civil/Criminal Convictions. If you answered yes to any of the civil/criminal conviction questions on the application, you will need to provide:
   1. A copy of the Judgment of Sentence, or Registrar of Actions, or Certification of Conviction.
   2. A written explanation of the offense(s). Application of students with civil/criminal convictions will be carefully reviewed and may take longer to process.
6. Meet academic, social, moral, and financial obligations as a member of the EMU community.

General Education Requirements:

For specific requirements refer to the General Education Program.

Major Requirements: 54-55 hours

Required Physical Science Courses: 54-55 hours

- ASTR 205 - Principles of Astronomy (GEKN) 4 hrs
- CHEM 121 - General Chemistry I (GEKN) 3 hrs
- CHEM 122 - General Chemistry I Laboratory (GEKN) 1 hr
- CHEM 123 - General Chemistry II 3 hrs
• CHEM 124 - General Chemistry II Laboratory 1 hr
• CHEM 270 - Survey of Organic Chemistry 4 hrs
• CHEM 271 - Organic Chemistry Laboratory 1 hr
• CHEM 281 - Introduction to Analytical Chemistry 4 hrs
• CHEM 351 - Foundations of Biochemistry 4 hrs
• ESSC 110 - The Dynamic Earth System (GEKN) 4 hrs
• PHY 221 - Mechanics, Sound and Heat (GEKN) 4 hrs
• PHY 222 - Electricity and Light 4 hrs
• PHY 372 - Modern Physics Laboratory 1 hr
• PSCI 270 - Relativity, Atomic and Nuclear Physics 3 hrs
• PSCI 305 - Energy and Society 3 hrs
• PSCI 309 - Thermal Science and Heat Transfer 3 hrs
• PSCI 340 - Milestones in Physics and Astronomy for Teachers 3 hrs

Choose one of the following:

• CHEM 406 - The Nature of Science 1 hr
• PHY 406 - Ethical Issues in Physics 1 hr

One from the following:

• ASTR 315 - Observational Astronomy 3 hrs
• ESSC 111 - The Earth System through Time 4 hrs

Additional Requirements: 8-9 hours

Life Science Course: 4 hours

• BIO 105 - Introductory Biology for Non-majors (GEKN) 4 hrs

Mathematics Course(s): 4-5 hours

One of the following options:

Option I:

• MATH 107 - Plane Trigonometry 2 hrs
• MATH 119 - Applied Calculus (GEQR) 3 hrs

Option II:

• MATH 120 - Calculus I (GEQR) 4 hrs

Professional Secondary Education Sequence
Secondary Education Pre-Admission Phase: The Learner and the Community: 7 hours

Prerequisite: Sophomore standing or higher.

- EDPS 322 - Human Development and Learning 4 hrs
- SPGN 251 - Introduction to Inclusion and Disabilities Studies in a Diverse Society (GEUS) 3 hrs

The following phases require formal admission to the Initial Teacher Preparation Program:

Secondary Education Phase I: Curriculum, Assessment and the Social Context: 15 hours

Prerequisite: Completion of Pre-Admission Phase is required.

* These two courses must be taken together.
** These courses must be taken with or after CURR 305.

- * CURR 305 - Curriculum and Methods: Secondary 3 hrs
- ** EDMT 330 - Instructional Applications of Media and Technology 3 hrs
- ** EDPS 340 - Introduction to Assessment and Evaluation 3 hrs
- * PRCT 305 - Practicum I: Secondary 3 hrs
- SOFD 328W - Schools for a Diverse and Democratic Society (GEWI) 3 hrs

Secondary Education Phase II: Content and Methods and Teaching: 9 hours

Prerequisite: Completion of Phase I is required.

* These two courses must be taken together.

- * PRCT 311 - Practicum II: Secondary 3 hrs
- * RDNG 311 - Teaching Reading in the Secondary School 3 hrs

Methods Course by Major:

Physical Science Comprehensive Majors take one of:

- CHEM 325 - Methodology for Secondary Chemistry Teachers 3 hrs
- PHY 325 - Methods of Teaching the Physical Sciences 3 hrs

Secondary Education Phase III: Capstone Experience: 9 hours

Prerequisite: Completion of Phase II and 100 pre-student teaching hours is required.
• EDUC 492 - Student Teaching (GELB) 9 hrs
  This course requires a formal application to be submitted 7-8 months prior to the Student Teaching semester.

Minor Requirements:

This program does not require a minor.

Program Total:

Students must earn a minimum total of 124 credits at the 100-level or above.

Note:

Each student must choose writing intensive courses as part of major completion requirements. Consult your advisor for course options.

MTTC Subject Area Test

Starting January 1, 2013, Students seeking licensure in a secondary or K-12 area are not required to take the MTTC subject area test in their minor area. Students who elect not to take the test in their minor will be required to sign a statement indicating that they understand that they will not be endorsed in their minor area and will not be eligible for teaching positions in their minor unless they pass the minor subject area test within five years of completing field experience and course requirements.

Critical Graduation Information:

Each undergraduate student will be responsible for the fulfillment of the requirements or their equivalents of the Eastern Michigan University catalog in force at the time of their initial registration at a college or university or a subsequent catalog including the one in effect at the time of their graduation.

In the event an undergraduate student does not complete the degree requirements within seven years of the date of their original registration at a college or university, the student may be required to have their credits re-evaluated by the academic department(s) of their major/minor in keeping with catalog requirements in force during the year of their graduation.

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

• Earn a minimum total of 124 credits at the 100-level and above. Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.
• Meet the requirements of the General Education program (see information below).
• Complete a Writing Intensive (WI) Course in your major.
• Earn a minimum of 60 credits from a four-year college or university; courses taken at community colleges cannot be used to meet this requirement. (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
• Earn a minimum of 30 credits from courses taken at EMU.
• Complete 10 of the last 30 hours for the degree from courses taken at EMU.
• Have a minimum of 30 unique credit hours in their major and 20 unique credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.

• Earn no more than 60 credit hours in one subject area (prefix). Credits in excess of the 60 maximum will not be counted toward the minimum of 124 credits required for a bachelor's degree.

• Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more that one major or minor.
  o Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
  o Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
  o Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor

• Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is conducted by individual departments/schools within EMU, and additional documentation may be required. Please note: EMU awards only credit for transferred courses; grades are not used in the calculation of an EMU GPA.

• Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be reached in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

General Education Requirements:

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available in the General Education section of the catalog: General Education

Students who transferred to EMU may have modified general education requirements based on Michigan Transfer Agreement (MTA) or articulation agreements; consult your academic advisor for additional information.

University Information: Consult the online catalog at catalog.emich.edu.

Secondary Education Physical Science Group Major

A Secondary Physical Science endorsement prepares candidates to teach physical science courses as identified in the Michigan Curriculum Framework. The preparation of physical science teachers includes courses in all of the major categories of science with a strong focus on basic chemistry and physics. Coupling this group major with a minor in one of the sciences (biology, chemistry, earth science or physics), as required, additionally qualifies a student to apply for certification in that subject at the secondary level. Successful completion of this course of studies, in context of other program requirements, qualifies the student for recommendation for certification for the Michigan Department of Education Secondary Provisional Certificate endorsed in Physical Science (DP). The Michigan Test for Teacher Certification (MTTC) covering this field is #097, "Physical Science."

Department Information:

Physics & Astronomy Department - College of Arts & Sciences

Alexandria Oakes, Ph.D., Department Head
Initial Teacher Preparation Program Admission

In order to pursue the sequence of courses necessary to complete eligibility for recommendation for certification, one must apply for and be admitted to the teacher preparation program. Admission requirements are common for all teacher preparation programs, except that certain special education programs have additional requirements.

Each undergraduate student is responsible for applying to the teacher preparation program immediately after the semester in which the student has earned 56 credit hours. Transfer students with more than 56 credit hours should apply immediately after the semester in which they have earned 12 hours at EMU, including at least one course in their major. Students with 56 hours of transfer course work with a decision GPA of 3.0 may apply for admission to the teacher preparation program without 12 earned hours at EMU.

Admission to the teacher preparation program is not automatic. Only those persons who have formally applied are considered for admission. Not all persons who apply become eligible for admission.

Applications for the Initial Teacher Preparation Program at EMU are available within your my.emich account under the "Student" tab. Submit your completed application to the Office of Academic Services once you have earned 56 credit hours.

Teaching majors and minors are unofficial until program admission. Students pursuing teacher certification should follow the catalog that exists at the time of program admission. It is important that students apply to the teacher preparation program as soon as they have earned 56 credit hours.

Criteria:

1. Completion of 56 credit hours
2. Appropriate cumulative GPA. One of:
   1. An overall EMU GPA of 2.5 or higher based on a minimum of 12 credit hours taken at EMU. An EMU GPA of 2.5 or higher in your major, based on at least one course in your major. The Elementary Education Major is comprehensive, therefore, the elementary major GPA is based on the cumulative of liberal arts curriculum and content course work.
   2. Transferred 56 credits with a cumulative 3.0 GPA from all previous institutions.
3. A grade of "C" or higher (if taken) in the following courses:
   1. If Secondary: ENGL 121, CTAC 124, Quantitative Reasoning (GEQR), one lab science, all professional education courses, and, if special education, PSY 101.
   2. If Elementary: ENGL 121, CTAC 124, MATH 108, MATH 110E, PHY 100, ESSC 202, all of the professional education courses, all courses that state "for elementary teachers," and, if special education, PSY 101.
4. Official Test Scores showing competency in each of the following areas: mathematics, reading and writing. Scores are accepted from the Professional Readiness Exam (PRE), Basic Skills Test (no longer offered), ACT, or Michigan Merit Exam (MME). The following scores are acceptable:
1. Mathematics: PRE pass, Basic Skills pass, ACT mathematics 22 or higher, or MME mathematics 1116 or higher.
2. Writing: PRE pass, Basic Skills pass, ACT combined English/writing 24 or higher, or MME writing 1129 or higher.
3. Reading: PRE pass, Basic Skills pass, ACT reading 22 or higher, or MME reading 1108 or higher.
5. ICHAT criminal background check and Statement of Civil/Criminal Convictions. If you answered yes to any of the civil/criminal conviction questions on the application, you will need to provide:
   1. A copy of the Judgment of Sentence, or Registrar of Actions, or Certification of Conviction.
   2. A written explanation of the offense(s). Application of students with civil/criminal convictions will be carefully reviewed and may take longer to process.
6. Meet academic, social, moral, and financial obligations as a member of the EMU community.

General Education Requirements:

For specific requirements refer to the General Education Program.

Major Requirements: 44-52 hours

Option I: With a Physics teaching minor (PHYT-21 hrs), complete the following courses:

Required Physical Science Courses: 36-37 hours

- ASTR 205 - Principles of Astronomy (GEKN) 4 hrs
- CHEM 121 - General Chemistry I (GEKN) 3 hrs
- CHEM 122 - General Chemistry I Laboratory (GEKN) 1 hr
- CHEM 123 - General Chemistry II 3 hrs
- CHEM 124 - General Chemistry II Laboratory 1 hr
- CHEM 270 - Survey of Organic Chemistry 4 hrs
- CHEM 271 - Organic Chemistry Laboratory 1 hr
- CHEM 281 - Introduction to Analytical Chemistry 4 hrs
- CHEM 351 - Foundations of Biochemistry 4 hrs
- ESSC 110 - The Dynamic Earth System (GEKN) 4 hrs
- PSCI 340 - Milestones in Physics and Astronomy for Teachers 3 hrs

Choose one from the following:

- CHEM 406 - The Nature of Science 1 hr
- PHY 406 - Ethical Issues in Physics 1 hr

Choose one from the following:

- ASTR 315 - Observational Astronomy 3 hrs
- ESSC 111 - The Earth System through Time 4 hrs
Additional Requirements: 8-9 hours

Life Science Course: 4 hours

- BIO 105 - Introductory Biology for Non-majors (GEKN) 4 hrs

Mathematics Course(s): 4-5 hours

One of the following options:

Option A:

- MATH 107 - Plane Trigonometry 2 hrs
- MATH 119 - Applied Calculus (GEQR) 3 hrs

Option B:

- MATH 120 - Calculus I (GEQR) 4 hrs

Option II: With a Chemistry teaching minor (CHMT-24 hrs), complete the following courses:

Required Physical Science Courses: 37 hours

- ASTR 205 - Principles of Astronomy (GEKN) 4 hrs
- ASTR 315 - Observational Astronomy 3 hrs
- ESSC 110 - The Dynamic Earth System (GEKN) 4 hrs
- ESSC 111 - The Earth System through Time 4 hrs
- PHY 221 - Mechanics, Sound and Heat (GEKN) 4 hrs
- PHY 222 - Electricity and Light 4 hrs
- PHY 372 - Modern Physics Laboratory 1 hr
- PSCI 270 - Relativity, Atomic and Nuclear Physics 3 hrs
- PSCI 305 - Energy and Society 3 hrs
- PSCI 309 - Thermal Science and Heat Transfer 3 hrs
- PSCI 340 - Milestones in Physics and Astronomy for Teachers 3 hrs

Choose one of the following:

- CHEM 406 - The Nature of Science 1 hr
- PHY 406 - Ethical Issues in Physics 1 hr

Additional Requirements: 8-9 hours

Life Sciences Course: 4 hours
- BIO 105 - Introductory Biology for Non-majors (GEKN) 4 hrs

Mathematics course(s): 4-5 hours

One of the following options:

Option A:

- MATH 107 - Plane Trigonometry 2 hrs
- MATH 119 - Applied Calculus (GEQR) 3 hrs

Option B:

- MATH 120 - Calculus I (GEQR) 4 hrs

Option III: With a Biology teaching minor (BIOT-24 hrs), complete the following courses:

Required Physical Science Courses: 39 hours

- CHEM 121 - General Chemistry I (GEKN) 3 hrs
- CHEM 122 - General Chemistry I Laboratory (GEKN) 1 hr
- CHEM 123 - General Chemistry II 3 hrs
- CHEM 124 - General Chemistry II Laboratory 1 hr
- CHEM 270 - Survey of Organic Chemistry 4 hrs
- CHEM 271 - Organic Chemistry Laboratory 1 hr
- CHEM 281 - Introduction to Analytical Chemistry 4 hrs
- PHY 221 - Mechanics, Sound and Heat (GEKN) 4 hrs
- PHY 222 - Electricity and Light 4 hrs
- PHY 372 - Modern Physics Laboratory 1 hr
- PSCI 270 - Relativity, Atomic and Nuclear Physics 3 hrs
- PSCI 305 - Energy and Society 3 hrs
- PSCI 309 - Thermal Science and Heat Transfer 3 hrs
- PSCI 340 - Milestones in Physics and Astronomy for Teachers 3 hrs

Choose one of the following:

- CHEM 406 - The Nature of Science 1 hr
- PHY 406 - Ethical Issues in Physics 1 hr

Additional Requirements: 9-10 hours

Life Science Course: 5 hours

- BIO 110 - Introductory Biology I (GEKN) 5 hrs
Mathematics Course(s): 4-5 hours

One of the following options:

Option A:

- MATH 107 - Plane Trigonometry 2 hrs
- MATH 119 - Applied Calculus (GEQR) 3 hrs

Option B:

- MATH 120 - Calculus I (GEQR) 4 hrs

Option IV: With an Earth Science teaching minor (ESCT-21 hrs), complete the following courses:

Required Physical Science Courses: 43 hours

- CHEM 121 - General Chemistry I (GEKN) 3 hrs
- CHEM 122 - General Chemistry I Laboratory (GEKN) 1 hr
- CHEM 123 - General Chemistry II 3 hrs
- CHEM 124 - General Chemistry II Laboratory 1 hr
- CHEM 270 - Survey of Organic Chemistry 4 hrs
- CHEM 271 - Organic Chemistry Laboratory 1 hr
- CHEM 281 - Introduction to Analytical Chemistry 4 hrs
- CHEM 351 - Foundations of Biochemistry 4 hrs
- PHY 221 - Mechanics, Sound and Heat (GEKN) 4 hrs
- PHY 222 - Electricity and Light 4 hrs
- PHY 372 - Modern Physics Laboratory 1 hr
- PSCI 270 - Relativity, Atomic and Nuclear Physics 3 hrs
- PSCI 305 - Energy and Society 3 hrs
- PSCI 309 - Thermal Science and Heat Transfer 3 hrs
- PSCI 340 - Milestones in Physics and Astronomy for Teachers 3 hrs

Choose one of the following:

- CHEM 406 - The Nature of Science 1 hr
- PHY 406 - Ethical Issues in Physics 1 hr

Additional Requirements: 8-9 hours

Life Science Course: 4 hours

- BIO 105 - Introductory Biology for Non-majors (GEKN) 4 hrs
Mathematics Course(s): 4-5 hours

One of the following options:

Option A:

- MATH 107 - Plane Trigonometry 2 hrs
- MATH 119 - Applied Calculus (GEQR) 3 hrs

Option B:

- MATH 120 - Calculus I (GEQR) 4 hrs

Professional Secondary Education Sequence

Secondary Education Pre-Admission Phase: The Learner and the Community: 7 hours

Prerequisite: Sophomore standing or higher.

- EDPS 322 - Human Development and Learning 4 hrs
- SPGN 251 - Introduction to Inclusion and Disabilities Studies in a Diverse Society (GEUS) 3 hrs

The following phases require formal admission to the Initial Teacher Preparation Program:

Secondary Education Phase I: Curriculum, Assessment and the Social Context: 15 hours

Prerequisite: Completion of Pre-Admission Phase is required.

* These two courses must be taken together.
** These courses must be taken with or after CURR 305.

- * CURR 305 - Curriculum and Methods: Secondary 3 hrs
- ** EDMT 330 - Instructional Applications of Media and Technology 3 hrs
- ** EDPS 340 - Introduction to Assessment and Evaluation 3 hrs
- * PRCT 305 - Practicum I: Secondary 3 hrs
- SOFD 328W - Schools for a Diverse and Democratic Society (GEWI) 3 hrs

Secondary Education Phase II: Content and Methods and Teaching: 9 hours

Prerequisite: Completion of Phase I is required.
* These two courses must be taken together.

- * PRCT 311 - Practicum II: Secondary 3 hrs
- * RDNG 311 - Teaching Reading in the Secondary School 3 hrs

Methods Course by Major:

Physical Science Group Majors take one of:

- CHEM 325 - Methodology for Secondary Chemistry Teachers 3 hrs
- PHY 325 - Methods of Teaching the Physical Sciences 3 hrs

Secondary Education Phase III: Capstone Experience: 9 hours

Prerequisite: Completion of Phase II and 100 pre-student teaching hours is required.

- EDUC 492 - Student Teaching (GELB) 9 hrs
  This course requires a formal application to be submitted 7-8 months prior to the Student Teaching semester.

Minor Requirements:

Students must select either a physics, chemistry, earth science or biology minor.

Program Total:

Students must earn a minimum total of 124 credits at the 100-level or above.

Note:

*Each student must choose writing intensive courses as part of major completion requirements. Consult your advisor for course options.*

MTTC Subject Area Test

Starting January 1, 2013, Students seeking licensure in a secondary or K-12 area are not required to take the MTTC subject area test in their minor area. Students who elect not to take the test in their minor will be required to sign a statement indicating that they understand that they will not be endorsed in their minor area and will not be eligible for teaching positions in their minor unless they pass the minor subject area test within five years of completing field experience and course requirements.

Critical Graduation Information:

Each undergraduate student will be responsible for the fulfillment of the requirements or their equivalents of the Eastern Michigan University catalog in force at the time of their initial registration at a college or university or a subsequent catalog including the one in effect at the time of their graduation.

In the event an undergraduate student does not complete the degree requirements within seven years of the date of their original registration at a college or university, the student may be required to have their credits re-evaluated by the academic department(s) of their major/minor in keeping with catalog requirements in force during the year of their graduation.
The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the 100-level and above. Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Complete a Writing Intensive (WI) Course in your major.
- Earn a minimum of 60 credits from a four-year college or university; courses taken at community colleges cannot be used to meet this requirement. (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 unique credit hours in their major and 20 unique credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
- Earn no more than 60 credit hours in one subject area (prefix). Credits in excess of the 60 maximum will not be counted toward the minimum of 124 credits required for a bachelor's degree.
- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more that one major or minor.
  - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
  - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
  - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor
- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is conducted by individual departments/schools within EMU, and additional documentation may be required. Please note: EMU awards only credit for transferred courses; grades are not used in the calculation of an EMU GPA.
- Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be reached in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

General Education Requirements:

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available in the General Education section of the catalog: General Education

Students who transferred to EMU may have modified general education requirements based on Michigan Transfer Agreement (MTA) or articulation agreements; consult your academic advisor for additional information.

University Information: Consult the online catalog at catalog.emich.edu.

Secondary Education Physics Major
Successful completion of this course of study, in the context of other program requirements, qualifies the student for recommendation for the Michigan Department of Education Secondary Provisional Certificate endorsed in physics, certification code DE, and, depending on the minor selected, an additional endorsement. This program of study meets all requirements of the National Science Teachers Association. The Michigan Test for Teacher Certification (MTTC) covering this field is #019, “Physics.”

An active articulation agreement exists between this program and a community college. To see a complete list of current colleges with program articulation agreements with EMU, please click here.

Initial Teacher Preparation Program Admission

In order to pursue the sequence of courses necessary to complete eligibility for recommendation for certification, one must apply for and be admitted to the teacher preparation program. Admission requirements are common for all teacher preparation programs, except that certain special education programs have additional requirements.

Each undergraduate student is responsible for applying to the teacher preparation program immediately after the semester in which the student has earned 56 credit hours. Transfer students with more than 56 credit hours should apply immediately after the semester in which they have earned 12 hours at EMU, including at least one course in their major. Students with 56 hours of transfer course work with a decision GPA of 3.0 may apply for admission to the teacher preparation program without 12 earned hours at EMU.

Admission to the teacher preparation program is not automatic. Only those persons who have formally applied are considered for admission. Not all persons who apply become eligible for admission.

Applications for the Initial Teacher Preparation Program at EMU are available within your my.emich account under the "Student" tab. Submit your completed application to the Office of Academic Services once you have earned 56 credit hours.

Teaching majors and minors are unofficial until program admission. Students pursuing teacher certification should follow the catalog that exists at the time of program admission. It is important that students apply to the teacher preparation program as soon as they have earned 56 credit hours.
Criteria:

1. Completion of 56 credit hours
2. Appropriate cumulative GPA. One of:
   1. An overall EMU GPA of 2.5 or higher based on a minimum of 12 credit hours taken at EMU. An EMU GPA of 2.5 or higher in your major, based on at least one course in your major. The Elementary Education Major is comprehensive, therefore, the elementary major GPA is based on the cumulative of liberal arts curriculum and content course work.
   2. Transferred 56 credits with a cumulative 3.0 GPA from all previous institutions.
3. A grade of "C" or higher (if taken) in the following courses:
   1. If Secondary: ENGL 121, CTAC 124, Quantitative Reasoning (GEQR), one lab science, all professional education courses, and, if special education, PSY 101.
   2. If Elementary: ENGL 121, CTAC 124, MATH 108, MATH 110E, PHY 100, ESSC 202, all of the professional education courses, all courses that state "for elementary teachers," and, if special education, PSY 101.
4. Official Test Scores showing competency in each of the following areas: mathematics, reading and writing. Scores are accepted from the Professional Readiness Exam (PRE), Basic Skills Test (no longer offered), ACT, or Michigan Merit Exam (MME). The following scores are acceptable:
   1. Mathematics: PRE pass, Basic Skills pass, ACT mathematics 22 or higher, or MME mathematics 1116 or higher.
   2. Writing: PRE pass, Basic Skills pass, ACT combined English/writing 24 or higher, or MME writing 1129 or higher.
   3. Reading: PRE pass, Basic Skills pass, ACT reading 22 or higher, or MME reading 1108 or higher.
5. ICHAT criminal background check and Statement of Civil/Criminal Convictions. If you answered yes to any of the civil/criminal conviction questions on the application, you will need to provide:
   1. A copy of the Judgment of Sentence, or Registrar of Actions, or Certification of Conviction.
   2. A written explanation of the offense(s). Application of students with civil/criminal convictions will be carefully reviewed and may take longer to process.
6. Meet academic, social, moral, and financial obligations as a member of the EMU community.

General Education Requirements:

For specific requirements refer to the General Education Program.

Major Requirements: 35 hours

Required Courses: 31 hours

- ASTR 204 - Astronomical Investigations (GEKN) 1 hr
- ASTR 205 - Principles of Astronomy (GEKN) 4 hrs
- PHY 223 - Mechanics and Sound (GEKN) 5 hrs
- PHY 224 - Electricity and Light 5 hrs
- PHY 330 - Intermediate Mechanics 1 3 hrs
- PHY 332 - Mechanics Laboratory 1 hr
- PHY 350 - Electricity and Magnetism 1 3 hrs
- PHY 360 - Heat and Thermodynamics 4 hrs
- PHY 370 - Introduction to Modern Physics 3 hrs
- PHY 372 - Modern Physics Laboratory 1 hr
• PHY 406 - Ethical Issues in Physics 1 hr

**Restricted Elective Courses: 2-4 hours**

*One of the following laboratory courses:*

• PHY 436 - Vibration and Sound 4 hrs
• PHY 442 - Optics and Optics Laboratory 4 hrs
• PHY 444 - Applied Optics 2 hrs
• PHY 456 - Electronics for Scientists 4 hrs

**Elective Courses: 0-2 hours**

*Select elective courses in physics and astronomy to complete the 35 hour requirement. Only ASTR and PHY undergraduate courses numbered greater than 299 can be used as electives on this major, excluding ASTR 311, PHY 311, PHY 312 and PHY 325, which can never be used on this major.*

**Additional Requirements: 26 hours**

• COSC 111 - Introduction to Programming 3 hrs
• MATH 120 - Calculus I (GEQR) 4 hrs
• MATH 121 - Calculus II 4 hrs
• MATH 122 - Elementary Linear Algebra 3 hrs
• MATH 223 - Multivariable Calculus 4 hrs

*One course from the following:*

• CHEM 115 - Chemistry and Society (GEKN) 3 hrs
  and
• CHEM 116 - Chemistry and Society Laboratory (GEKN) 1 hr
• CHEM 117 - Fundamentals of Chemistry-Lecture (GEKN) 3 hrs
  and
• CHEM 118 - Fundamentals of Chemistry Laboratory (GEKN) 1 hr
• CHEM 120 - Fundamentals of Organic and Biochemistry (GEKN) 4 hrs
• CHEM 121 - General Chemistry I (GEKN) 3 hrs
  and
• CHEM 122 - General Chemistry I Laboratory (GEKN) 1 hr

*One course from the following:*

• BIO 105 - Introductory Biology for Non-majors (GEKN) 4 hrs
• BIO 130 - Biology of Plants 4 hrs
• BIO 140 - Biology of Animals 4 hrs
Professional Secondary Education Sequence

Secondary Education Pre-Admission Phase: The Learner and the Community: 7 hours

*Prerequisite: Sophomore standing or higher.

- EDPS 322 - Human Development and Learning 4 hrs
- SPGN 251 - Introduction to Inclusion and Disabilities Studies in a Diverse Society (GEUS) 3 hrs

The following phases require formal admission to the Initial Teacher Preparation Program:

Secondary Education Phase I: Curriculum, Assessment and the Social Context: 15 hours

*Prerequisite: Completion of Pre-Admission Phase is required.

- * CURR 305 - Curriculum and Methods: Secondary 3 hrs
- ** EDMT 330 - Instructional Applications of Media and Technology 3 hrs
- ** EDPS 340 - Introduction to Assessment and Evaluation 3 hrs
- * PRCT 305 - Practicum I: Secondary 3 hrs
- SOFD 328W - Schools for a Diverse and Democratic Society (GEWI) 3 hrs

Secondary Education Phase II: Content and Methods and Teaching: 9 hours

*Prerequisite: Completion of Phase I is required.

- * PRCT 311 - Practicum II: Secondary 3 hrs
- * RDNG 311 - Teaching Reading in the Secondary School 3 hrs

Methods Course by Major:

Physics Majors take:

- PHY 325 - Methods of Teaching the Physical Sciences 3 hrs

Secondary Education Phase III: Capstone Experience: 9 hours

*Prerequisite: Completion of Phase II and 100 pre-student teaching hours is required.
• EDUC 492 - Student Teaching (GELB) 9 hrs
  This course requires a formal application to be submitted 7-8 months prior to the Student Teaching semester.

Minor Requirements:

This program requires a minor. Please contact your program advisor for a list of possible minors. Mathematics is highly recommended.

Program Total:

Students must earn a minimum total of 124 credits at the 100-level or above.

Note:

Each student must choose writing intensive courses as part of major completion requirements. Consult your advisor for course options.

MTTC Subject Area Test

Starting January 1, 2013, Students seeking licensure in a secondary or K-12 area are not required to take the MTTC subject area test in their minor area. Students who elect not to take the test in their minor will be required to sign a statement indicating that they understand that they will not be endorsed in their minor area and will not be eligible for teaching positions in their minor unless they pass the minor subject area test within five years of completing field experience and course requirements.

Critical Graduation Information:

Each undergraduate student will be responsible for the fulfillment of the requirements or their equivalents of the Eastern Michigan University catalog in force at the time of their initial registration at a college or university or a subsequent catalog including the one in effect at the time of their graduation.

In the event an undergraduate student does not complete the degree requirements within seven years of the date of their original registration at a college or university, the student may be required to have their credits re-evaluated by the academic department(s) of their major/minor in keeping with catalog requirements in force during the year of their graduation.

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

• Earn a minimum total of 124 credits at the 100-level and above. Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.
• Meet the requirements of the General Education program (see information below).
• Complete a Writing Intensive (WI) Course in your major.
• Earn a minimum of 60 credits from a four-year college or university; courses taken at community colleges cannot be used to meet this requirement. (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
• Earn a minimum of 30 credits from courses taken at EMU.
• Complete 10 of the last 30 hours for the degree from courses taken at EMU.
• Have a minimum of 30 unique credit hours in their major and 20 unique credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.

• Earn no more than 60 credit hours in one subject area (prefix). Credits in excess of the 60 maximum will not be counted toward the minimum of 124 credits required for a bachelor's degree.

• Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more that one major or minor.
  o Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
  o Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
  o Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor

• Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is conducted by individual departments/schools within EMU, and additional documentation may be required. Please note: EMU awards only credit for transferred courses; grades are not used in the calculation of an EMU GPA.

• Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be reached in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

General Education Requirements:

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available in the General Education section of the catalog: General Education

Students who transferred to EMU may have modified general education requirements based on Michigan Transfer Agreement (MTA) or articulation agreements; consult your academic advisor for additional information.

University Information: Consult the online catalog at catalog.emich.edu.

Minor

Astronomy Group Minor

This minor is designed to give the student a basic knowledge of astronomy and related fields. It is recommended that students wishing to undertake graduate work in astronomy complete the research major in physics with a minor in either mathematics or astronomy. Electives used to fulfill the astronomy minor cannot be used to complete any other major or minor.

Department Information:

Physics & Astronomy Department - College of Arts & Sciences

Alexandria Oakes, Ph.D., Department Head
Advisor Information:

Program Advisor: Dr. Patrick Koehn
Email: pkoehn@emich.edu
Phone: 734.487.8795

Program Advisor: David Pawlowski
Email: dpawlows@emich.edu
Phone: 734.487.8644

Required Courses: 11 hours

- ASTR 204 - Astronomical Investigations (GEKN) 1 hr
- ASTR 205 - Principles of Astronomy (GEKN) 4 hrs
- ASTR 315 - Observational Astronomy 3 hrs
- ASTR 370 - Astrophysical Concepts 3 hrs

Restricted Elective Courses: 13 hours

Choose 13 credits from approved courses in physics, astronomy, mathematics or chemistry in consultation with the advising coordinator for astronomy.

Minor Total: 24 hours

Critical Graduation Information:

Each undergraduate student will be responsible for the fulfillment of the requirements or their equivalents of the Eastern Michigan University catalog in force at the time of their initial registration at a college or university or a subsequent catalog including the one in effect at the time of their graduation.

In the event an undergraduate student does not complete the degree requirements within seven years of the date of their original registration at a college or university, the student may be required to have their credits re-evaluated by the academic department(s) of their major/minor in keeping with catalog requirements in force during the year of their graduation.

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the 100-level and above. Courses with numbers below 100 will not be counted toward this degree requirement. Students who transferred to EMU may have modified general education requirements based on Michigan Transfer Agreement (MTA) or articulation agreements; consult your academic advisor for additional information.

University Information: Consult the online catalog at catalog.emich.edu.

Group Minor in General Science

A group minor in general science (24 credit hours) must be combined with an academic major in biology, chemistry, earth science, mathematics or physics.

Department Information:

Physics & Astronomy Department - College of Arts & Sciences

Alexandria Oakes, Ph.D., Department Head
With a major in biology, take the following courses:

- ASTR 205 - Principles of Astronomy (GEKN) 4 hrs
- CHEM 121 - General Chemistry I (GEKN) 3 hrs
- CHEM 122 - General Chemistry I Laboratory (GEKN) 1 hr
- ESSC 110 - The Dynamic Earth System (GEKN) 4 hrs
- MATH 105 - College Algebra (GEQR) 3 hrs
- MATH 107 - Plane Trigonometry 2 hrs
- PHY 221 - Mechanics, Sound and Heat (GEKN) 4 hrs

One course from the following:

- Others as approved by general science advisor
- CHEM 123 - General Chemistry II 3 hrs
  and
- CHEM 124 - General Chemistry II Laboratory 1 hr

With a major in chemistry, take the following courses:

- ASTR 205 - Principles of Astronomy (GEKN) 4 hrs
- BIO 110 - Introductory Biology I (GEKN) 5 hrs
- ESSC 110 - The Dynamic Earth System (GEKN) 4 hrs
- MATH 105 - College Algebra (GEQR) 3 hrs
- MATH 107 - Plane Trigonometry 2 hrs
- PHY 221 - Mechanics, Sound and Heat (GEKN) 4 hrs

One course from the following:

- Others as approved by general science advisor
- BIO 226 - Global Ecology and the Environment 4 hrs
- COSC 145 - Introduction to FORTRAN Programming 3 hrs
• ESSC 212 - Weather, Climate and the Earth System 3 hrs
• PHY 222 - Electricity and Light 4 hrs

With a major in earth science, take the following:

• ASTR 205 - Principles of Astronomy (GEKN) 4 hrs
• BIO 110 - Introductory Biology I (GEKN) 5 hrs
• CHEM 121 - General Chemistry I (GEKN) 3 hrs
• CHEM 122 - General Chemistry I Laboratory (GEKN) 1 hr
• MATH 120 - Calculus I (GEQR) 4 hrs
• PHY 221 - Mechanics, Sound and Heat (GEKN) 4 hrs

One course from the following:

• Others as approved by general science advisor
• BIO 226 - Global Ecology and the Environment 4 hrs
• CHEM 123 - General Chemistry II 3 hrs
  and
• CHEM 124 - General Chemistry II Laboratory 1 hr
• COSC 145 - Introduction to FORTRAN Programming 3 hrs
• MATH 121 - Calculus II 4 hrs
• PHY 222 - Electricity and Light 4 hrs

With a major in geology, take the following courses:

• ASTR 205 - Principles of Astronomy (GEKN) 4 hrs
• BIO 110 - Introductory Biology I (GEKN) 5 hrs
• CHEM 121 - General Chemistry I (GEKN) 3 hrs
• CHEM 122 - General Chemistry I Laboratory (GEKN) 1 hr
• MATH 120 - Calculus I (GEQR) 4 hrs
• PHY 221 - Mechanics, Sound and Heat (GEKN) 4 hrs

One course from the following:

• Others as approved by general science advisor
• BIO 226 - Global Ecology and the Environment 4 hrs
• CHEM 123 - General Chemistry II 3 hrs
  and
• CHEM 124 - General Chemistry II Laboratory 1 hr
• ESSC 212 - Weather, Climate and the Earth System 3 hrs
• MATH 121 - Calculus II 4 hrs
• MATH 170 - Elementary Statistics (GEQR) 3 hrs
• PHY 222 - Electricity and Light 4 hrs
With a major in mathematics, take the following courses:

- ASTR 205 - Principles of Astronomy (GEKN) 4 hrs
- BIO 110 - Introductory Biology I (GEKN) 5 hrs
- CHEM 121 - General Chemistry I (GEKN) 3 hrs
- CHEM 122 - General Chemistry I Laboratory (GEKN) 1 hr
- ESSC 110 - The Dynamic Earth System (GEKN) 4 hrs
- PHY 221 - Mechanics, Sound and Heat (GEKN) 4 hrs

One course from the following:

- Others as approved by general science advisor
- BIO 226 - Global Ecology and the Environment 4 hrs
- CHEM 123 - General Chemistry II 3 hrs

and

- CHEM 124 - General Chemistry II Laboratory 1 hr
- ESSC 212 - Weather, Climate and the Earth System 3 hrs
- PHY 222 - Electricity and Light 4 hrs

With a major in physics, take the following courses:

- ASTR 205 - Principles of Astronomy (GEKN) 4 hrs
- BIO 110 - Introductory Biology I (GEKN) 5 hrs
- CHEM 121 - General Chemistry I (GEKN) 3 hrs
- CHEM 122 - General Chemistry I Laboratory (GEKN) 1 hr
- ESSC 110 - The Dynamic Earth System (GEKN) 4 hrs
- MATH 120 - Calculus I (GEQR) 4 hrs

One course from the following:

- Others as approved by general science advisor
- BIO 226 - Global Ecology and the Environment 4 hrs
- CHEM 123 - General Chemistry II 3 hrs

and

- CHEM 124 - General Chemistry II Laboratory 1 hr
- COSC 145 - Introduction to FORTRAN Programming 3 hrs
- ESSC 212 - Weather, Climate and the Earth System 3 hrs

Minor Total: 24-26 hours

Writing Intensive Course

Each student must choose a writing intensive course as part of major completion requirements. Consult your advisor for course options.
Critical Graduation Information:

Each undergraduate student will be responsible for the fulfillment of the requirements or their equivalents of the Eastern Michigan University catalog in force at the time of their initial registration at a college or university or a subsequent catalog including the one in effect at the time of their graduation.

In the event an undergraduate student does not complete the degree requirements within seven years of the date of their original registration at a college or university, the student may be required to have their credits re-evaluated by the academic department(s) of their major/minor in keeping with catalog requirements in force during the year of their graduation.

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the 100-level and above. Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Complete a Writing Intensive (WI) Course in your major.
- Earn a minimum of 60 credits from a four-year college or university; courses taken at community colleges cannot be used to meet this requirement. (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 unique credit hours in their major and 20 unique credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
- Earn no more than 60 credit hours in one subject area (prefix). Credits in excess of the 60 maximum will not be counted toward the minimum of 124 credits required for a bachelor's degree.
- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more that one major or minor.
  - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
  - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
  - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor
- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is conducted by individual departments/schools within EMU, and additional documentation may be required. Please note: EMU awards only credit for transferred courses; grades are not used in the calculation of an EMU GPA.
- Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be reached in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

General Education Requirements:
EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available in the General Education section of the catalog: General Education

Students who transferred to EMU may have modified general education requirements based on Michigan Transfer Agreement (MTA) or articulation agreements; consult your academic advisor for additional information.

University Information: Consult the online catalog at catalog.emich.edu.

Physics Minor

The Physics Major is provided for students who plan to work in industry, business, or government in an area where physics is useful, such as medicine, law, technical analysis and financial analysis.

Department Information:

Physics & Astronomy Department - College of Arts & Sciences

Alexandria Oakes, Ph.D., Department Head

309 Strong Hall
(734) 487-4144

Program Advisor: Diane Jacobs
Email: djacobs@emich.edu
Phone: 734.487.8646

Required Courses: 21 hours

- PHY 223 - Mechanics and Sound (GEKN) 5 hrs
- PHY 224 - Electricity and Light 5 hrs
- PHY 330 - Intermediate Mechanics I 3 hrs
- PHY 360 - Heat and Thermodynamics 4 hrs
- PHY 370 - Introduction to Modern Physics 3 hrs
- PHY 372 - Modern Physics Laboratory 1 hr

Additional Requirements: 15 hours
• MATH 120 - Calculus I (GEQR) 4 hrs
• MATH 121 - Calculus II 4 hrs
• MATH 122 - Elementary Linear Algebra 3 hrs
• MATH 223 - Multivariable Calculus 4 hrs

Minor Total: 36 hours

Critical Graduation Information:

Each undergraduate student will be responsible for the fulfillment of the requirements or their equivalents of the Eastern Michigan University catalog in force at the time of their initial registration at a college or university or a subsequent catalog including the one in effect at the time of their graduation.

In the event an undergraduate student does not complete the degree requirements within seven years of the date of their original registration at a college or university, the student may be required to have their credits re-evaluated by the academic department(s) of their major/minor in keeping with catalog requirements in force during the year of their graduation.

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

• Earn a minimum total of 124 credits at the 100-level and above. Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.
• Meet the requirements of the General Education program (see information below).
• Complete a Writing Intensive (WI) Course in your major.
• Earn a minimum of 60 credits from a four-year college or university; courses taken at community colleges cannot be used to meet this requirement. (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
• Earn a minimum of 30 credits from courses taken at EMU.
• Complete 10 of the last 30 hours for the degree from courses taken at EMU.
• Have a minimum of 30 unique credit hours in their major and 20 unique credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
• Earn no more than 60 credit hours in one subject area (prefix). Credits in excess of the 60 maximum will not be counted toward the minimum of 124 credits required for a bachelor's degree.
• Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more than one major or minor.
  o Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
  o Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
  o Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor
• Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is conducted by individual departments/schools within EMU, and
additional documentation may be required. Please note: EMU awards only credit for transferred courses; grades are not used in the calculation of an EMU GPA.

- Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be reached in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

General Education Requirements:

EMU’s General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available in the General Education section of the catalog: General Education

Students who transferred to EMU may have modified general education requirements based on Michigan Transfer Agreement (MTA) or articulation agreements; consult your academic advisor for additional information.

University Information: Consult the online catalog at catalog.emich.edu.

Secondary Education Physics Minor

Successful completion of this minor, in the context of other program requirements, qualifies the student for recommendation for endorsement in physics, certification code DE. The Michigan Test for Teacher Certification (MTTC) covering this field is #019, “Physics.”

Department Information:

Physics & Astronomy Department - College of Arts & Sciences

Alexandria Oakes, Ph.D., Department Head

309 Strong Hall
(734) 487-4144
aoakes@emich.edu

Department Website

Advisor Information:

Program Advisor: Dr. Diane Jacobs
Email: djacobs@emich.edu
Phone: 734.487.8799

Program Advisor: Dr. David Pawlowski
Email: dpawlows@emich.edu
Phone: 734.487.8644

Required Physics and Astronomy Courses: 21 hours

- PHY 223 - Mechanics and Sound (GEKN) 5 hrs
- PHY 224 - Electricity and Light 5 hrs
- PHY 330 - Intermediate Mechanics I 3 hrs
• PHY 360 - Heat and Thermodynamics 4 hrs
• PHY 370 - Introduction to Modern Physics 3 hrs
• PHY 372 - Modern Physics Laboratory 1 hr

Additional Requirements: 15 hours

• MATH 120 - Calculus I (GEQR) 4 hrs
• MATH 121 - Calculus II 4 hrs
• MATH 122 - Elementary Linear Algebra 3 hrs
• MATH 223 - Multivariable Calculus 4 hrs

Minor Total for Science Majors: 36 hours

Minor Total for Non-Science Majors: 40 hours

Students minoring in Physics with secondary certification, but not majoring in a science teaching program, must take the following courses:

• PHY 325 - Methods of Teaching the Physical Sciences 3 hrs
• * PHY 406 - Ethical Issues in Physics 1 hr

Note:

* BIO 406, CHEM 406, or ESSC 406 may be substituted for PHY 406.

MTTC Subject Area Test

Starting January 1, 2013, Students seeking licensure in a secondary or K-12 area are not required to take the MTTC subject area test in their minor area. Students who elect not to take the test in their minor will be required to sign a statement indicating that they understand that they will not be endorsed in their minor area and will not be eligible for teaching positions in their minor unless they pass the minor subject area test within five years of completing field experience and course requirements.

Critical Graduation Information:

Each undergraduate student will be responsible for the fulfillment of the requirements or their equivalents of the Eastern Michigan University catalog in force at the time of their initial registration at a college or university or a subsequent catalog including the one in effect at the time of their graduation.

In the event an undergraduate student does not complete the degree requirements within seven years of the date of their original registration at a college or university, the student may be required to have their credits re-evaluated by the academic department(s) of their major/minor in keeping with catalog requirements in force during the year of their graduation.

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.
• Earn a minimum total of 124 credits at the 100-level and above. Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.

• Meet the requirements of the General Education program (see information below).

• Complete a Writing Intensive (WI) Course in your major.

• Earn a minimum of 60 credits from a four-year college or university; courses taken at community colleges cannot be used to meet this requirement. (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)

• Earn a minimum of 30 credits from courses taken at EMU.

• Complete 10 of the last 30 hours for the degree from courses taken at EMU.

• Have a minimum of 30 unique credit hours in their major and 20 unique credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.

• Earn no more than 60 credit hours in one subject area (prefix). Credits in excess of the 60 maximum will not be counted toward the minimum of 124 credits required for a bachelor's degree.

• Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more that one major or minor.
  o Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
  o Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
  o Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor.

• Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is conducted by individual departments/schools within EMU, and additional documentation may be required. Please note: EMU awards only credit for transferred courses; grades are not used in the calculation of an EMU GPA.

• Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be reached in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

General Education Requirements:

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available in the General Education section of the catalog: General Education.

Students who transferred to EMU may have modified general education requirements based on Michigan Transfer Agreement (MTA) or articulation agreements; consult your academic advisor for additional information.

University Information: Consult the online catalog at catalog.emich.edu.

Astronomy

ASTR 105 - Exploration of the Universe (GEKN)
An introductory astronomy course for students in any curriculum. The solar system, stars, galaxies, cosmology and the history of astronomy are covered.

**Credit Hours:** 3 hrs  
**Major Restrictions:** Cannot be applied toward a Physics Major or Minor  
**Previously Listed As:** ASTR 203

**Knowledge of the Disciplines:**
Students will obtain an understanding of basic astronomy and our place in space by studying the structure of the universe. They will learn to make astronomical observations and use them to stimulate inquiry about our local space environment and to help them understand how our ancestors viewed the sky. Students will become literate scientific citizens by reading primary source articles, producing critical responses and by writing to elected officials to express their views on the doing and funding science in the United States. As such, ASTR 105 meets the requirements of a Natural Science Course in the Knowledge of the Disciplines portion of the new General Education program when taken concurrently with ASTR 204.

ASTR204 must be taken concurrently with this course to meet General Education requirements. Students may not receive General Education credit for both ASTR105 and ASTR205.  
**Last Updated:** 2/28/2011

**ASTR 177 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 1 hr  
**Prerequisite:** department permission

**ASTR 178 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 2 hrs  
**Prerequisite:** department permission

**ASTR 179 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 3 hrs  
**Prerequisite:** department permission

**ASTR 204 - Astronomical Investigations (GEKN)**

A laboratory course for the beginning astronomy student. The techniques and concepts of astronomy.

**Credit Hours:** 1 hr  
**Lecture/Lab Hours:** two hours of laboratory per week.  
**Corequisites:** ASTR 203 or ASTR 205  
**Knowledge of the Disciplines:**
Students will obtain an understanding of basic astronomy and our place in space by studying the structure of the universe. They will learn to make astronomical observations and use them to stimulate inquiry about our local space environment and to help
them understand how our ancestors viewed the sky. Students will become literate scientific citizens by reading primary source articles, producing critical responses, and by writing to elected officials to express their views on the doing and funding of science in the United States. As such, ASTR 105 meets the requirements of a Natural Science Course in the Knowledge of the Disciplines portion of the new General Education program when taken concurrently with ASTR 204.

Last Updated: 2/28/2011

**ASTR 205 - Principles of Astronomy (GEKN)**

A survey of astronomy and astrophysics for Science, Integrated Science and Secondary Education majors and minors. The course covers the solar system, stars, galaxies, elementary celestial mechanics, light and cosmology. Students will solve appropriate problems and develop models that pertain to the topics.

**Credit Hours:** 4 hrs  
**Prerequisite:** MATH 110 or placement  
**Knowledge of the Disciplines:**  
**General Education:** ASTR 204 must be taken concurrently with this course for General Education credit. Students may not receive General Education credit for both ASTR 105 and ASTR 205.

Students will obtain an understanding of basic astronomy and our place in space by studying the structure of the universe. They will learn to make astronomical observations and use them to stimulate inquiry about our local space environment and to help them understand how our ancestors viewed the sky. Students will become literate scientific citizens by reading primary source articles, producing critical responses and by writing to elected officials to express their views on the doing and funding of science in the United States. Last Updated: 2/28/2011

**ASTR 277 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 1 hr  
**Prerequisite:** department permission

**ASTR 278 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 2 hrs  
**Prerequisite:** department permission

**ASTR 279 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 3 hrs  
**Prerequisite:** department permission

**ASTR 297 - Independent Study-Astronomy**
An intensive study of a problem or group of problems under the direction of a department faculty member.

**Credit Hours:** 1 hr  
**Prerequisite:** approval of the faculty member and department permission

**ASTR 298 - Independent Study-Astronomy**

An intensive study of a problem or group of problems under the direction of a department faculty member.

**Credit Hours:** 2 hrs  
**Prerequisite:** approval of the faculty member and department permission

**ASTR 299 - Independent Study-Astronomy**

An intensive study of a problem or group of problems under the direction of a department faculty member.

**Credit Hours:** 3 hrs  
**Prerequisite:** approval of the faculty member and department permission

**ASTR 311 - Astronomy Projects for Elementary Teachers**

A hands-on course designed to provide elementary teachers with experience doing projects, in the elementary classroom, to teach astronomy. The course will integrate grade-level appropriate mathematics and writing to investigate and solve astronomical problems. Students also will study human endeavors in space exploration and their impact on societal and technological issues.

**Credit Hours:** 3 hrs  
**Prerequisite:** ASTR 105 or ASTR 205

*Last Updated: 2/28/2011*

**ASTR 315 - Observational Astronomy**

The practical aspects of astronomy emphasizing advanced amateur observational practices such as identification of astronomical objects using charts and references, telescopes, imaging and darkroom techniques, and computer applications.

**Credit Hours:** 3 hrs  
**Prerequisite:** ASTR 105 or ASTR 205

*Last Updated: 2/28/2011*

**ASTR 370 - Astrophysical Concepts**

The emphasis is on the theoretical understanding and analytical treatment of topics in astrophysics. These topics include celestial mechanics, astronautics, planetary atmospheres, stellar structure, stellar evolution, galaxies and cosmology.

**Credit Hours:** 3 hrs  
**Prerequisite:** PHY 224; or PHY 222 and MATH 121

*Last Updated: 2/28/2011*

**ASTR 377 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.
Credit Hours: 1 hrs  
Prerequisite: department permission

**ASTR 378 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs  
Prerequisite: department permission

**ASTR 379 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs  
Prerequisite: department permission

**ASTR 477 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hrs  
Prerequisite: department permission

**ASTR 478 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs  
Prerequisite: department permission

**ASTR 479 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs  
Prerequisite: department permission

**ASTR 497 - Independent Study-Astronomy**

An intensive study of a problem or group of problems under the direction of a department faculty member.

Credit Hours: 1 hr  
Prerequisite: approval of the faculty member and department permission
ASTR 498 - Independent Study-Astronomy

An intensive study of a problem or group of problems under the direction of a department faculty member.

Credit Hours: 2 hrs
Prerequisite: approval of the faculty member and department permission

ASTR 499 - Independent Study-Astronomy

An intensive study of a problem or group of problems under the direction of a department faculty member.

Credit Hours: 3 hrs
Prerequisite: approval of the faculty member and department permission.

Physical Science

PSCI 110 - The Science of Everyday Life (GEKN)

This course is designed to give students a background in the principles of physics as applied to everyday living - a qualitative discussion of the key physical principles and how they relate to modern living and informed decisions about science and society. The laboratory experiments are hands-on experiences to provide evidence in support of underlying physical principles.

Credit Hours: 4 hrs
Lecture/Lab Hours: Four lecture hours and one one-hour laboratory.
Notes: Does not count toward a physics major or minor.
Knowledge of the Disciplines:
This course is a general introduction to the physical laws that govern everyday experiences and activities. Examples include the laws of mechanics which govern how motor vehicles behave and how sound is transmitted and perceived. The laws of thermodynamics in part determine our home fuel bills and why layered clothing can keep us warmer. Knowledge of the laws governing the flow of electricity can help us to avoid home electrical fires. understanding the structure of atoms and of the atomic nucleus sheds light on the properties of a wide range of materials as well as one of the reasons for the prodigious energy released by nuclear weapons and the benefits and dangers of nuclear reactors.
Last Updated: *

PSCI 270 - Relativity, Atomic and Nuclear Physics

This course completes the introductory sequence in college-level, algebra-based physics. Topics include relativity, quantum physics, atomic structure and models, molecules, nuclear fusion and cosmology. Applications include lasers, holography, scanning tunneling microscopes and magnetic resonance imaging. Emphasis is placed on understanding and comprehension as well as the ability to solve relevant mathematical problems.

Credit Hours: 3 hrs
Prerequisite: PHY 222 or PHY 224
Last Updated: Links 04/2011

PSCI 305 - Energy and Society

This course is designed particularly for teachers in physical science as an elementary study of energy concepts and the various relationships between energy and society. The focus is on simple experimental projects, followed by class discussions. Most of the apparatus will be made from materials available in the home or at a variety store.
PSCI 309 - Thermal Science and Heat Transfer

Basic course in the fundamental principles of thermodynamics and heat transfer. Topics include temperature scales, open and closed systems, properties of pure substances, change of state, P-V diagrams, specific heat, enthalpy, entropy, heat engine cycles, heat conduction, convection and radiation. Emphasis is placed on understanding and comprehension as well as the ability to solve relevant mathematical problems.

PSCI 340 - Milestones in Physics and Astronomy for Teachers

A course designed to give students an understanding of the contributions made by selected male and female scientists, from diverse racial and ethnic backgrounds, to the development of physics and astronomy, and the relationship of their ideas to the period in which scientists lived.

PSCI 407 - Nature of Science for Elementary Teachers

This course examines the nature of scientific evidence, inquiry, hypotheses, models and law. The development of science is put in the context of the structure of the discipline, its history, and interactions with society. Discussions of modern theories and laws will integrate scientific concepts with the processes of how science works. The class will also provide students with activities to demonstrate these concepts.

Physics

PHY 100 - Physics for Elementary Teachers (GEKN)

Designed to stimulate interest in physics by the use of simple and inexpensive equipment to demonstrate scientific principles. Motion, forces, sound, light, heat, electricity and magnetism.

Credit Hours: 3 hrs
Notes: Does not count toward a physics major or minor. Open only to students pursuing any curriculum for elementary teachers.

Knowledge of the Disciplines:
This course includes 3 hours of lecture and 1 hour of laboratory each week. In this course all elementary education students are introduced to the core knowledge used in physics to understand phenomenon. This knowledge is an important foundation for
studying the other sciences required of the elementary teacher and shows very practically both how physics manifests in our everyday lives and how these concepts can be presented in the elementary classroom. This core knowledge is the same core knowledge used by scientists in every laboratory in the world. The appropriate terminology is introduced and students are shown how to "scale it down" to the elementary student's vocabulary. The assumptions and shortcomings of models are highlighted. Whenever possible, appropriate simple demonstrations are used. Students are asked to estimate results, mathematics and models are used to predict results, and the results are compared with the student's intuition. Modern applications are discussed to guide students to become scientifically literate citizens who are capable of making informed decisions about scientific information. 

Last Updated: Spelling Error 11/2014

**PHY 101 - Physical Science in the Arts (GEKN)**

This course is designed to give students a general background in the basic principles of physics, as applied to art, music and dance, with an emphasis on exploring the nature of music and its production. Laboratory experiments complement the lecture by providing hands-on experiences to verify and demonstrate those principles.

Credit Hours: 4 hrs
Lecture/Lab Hours: Three lecture hours and one two-hour laboratory per week.
Notes: Does not count toward a physics major or minor.

**Knowledge of the Disciplines:**
Few of us would ever suspect that underlying much of what we experience in our world can be attributed to a handful of basic physical principles. The reason why an ice skater can spin faster when drawing in his arms at the end of a routine is the same reason why the planets orbiting the sun will have different speeds along their orbital paths. This course is a general introduction to the basic physical principles that scientists use to describe the world around you. The purpose of this course is to explore, test and apply the laws, governing many practical aspects of architecture, dance, sounds and musical instruments, light and color, and even planetary motion. This course is a journey to a much fuller understanding of our world through an eclectic approach to science.

**PHY 177 - Special Topics**

This special topics course will be used to teach aspects of physics at an elementary level that would not be regularly offered. A new course may be taught on an experimental basis with this offering.

Credit Hours: 1 hr
Prerequisite: See department for prerequisites

Last Updated: Links 04/2011

**PHY 178 - Special Topics**

This special topics course will be used to teach aspects of physics at an elementary level that would not be regularly offered. A new course may be taught on an experimental basis with this offering.

Credit Hours: 2 hrs
Prerequisite: See department for prerequisites

Last Updated: Links 04/2011

**PHY 179 - Special Topics**

This special topics course will be used to teach aspects of physics at an elementary level that would not be regularly offered. A new course may be taught on an experimental basis with this offering.

Credit Hours: 3 hrs
**PHY 221 - Mechanics, Sound and Heat (GEKN)**

The first course of an introductory two course sequence in college-level physics. Topics include particle motion, Newton's laws of motion, conservation laws, gravitation, rotation, harmonic motion, sound and thermodynamics. Laboratory: two consecutive hours, one day per week. All physics majors, minors and pre-engineers must elect PHY 223.

**Credit Hours:** 4 hrs  
**Prerequisite:** (MATH 105 or MATH 119) and MATH 107, or MATH 140 with a C or better in each course; or MATH 112; or MATH 120

**Knowledge of the Disciplines:**
The purpose of this course is to introduce, explore, test and apply the principles of physics that predict the motion of an object. Today when we take a flight from Detroit to Los Angeles, we expect the arrival time to be within five minutes of predicted time. Such predictions are based on the principles of physics and the tools of mathematics. Other practical applications of these principles include the flight of a baseball, the putting of a golf ball, the motion of the Earth around the sun, the rotation of a bicycle wheel, the setting of bones to allow healing, the vibration of the string on a violin, the flow of air across an airplane wing, and the conduction of heat through a window. PHY 221 presents in detail the foundational principles of motion that all scientists use in their research.

**Last Updated:** Prereqs. 07/2011; Links 04/2011

**PHY 222 - Electricity and Light**

A continuation of PHY 221. Topics include electrostatics, fields, potentials, current, magnetism, DC and AC circuits, and geometrical and physical optics. Laboratory: two consecutive hours, one day per week. All physics majors, minors and pre-engineers must elect PHY 221.

**Credit Hours:** 4 hrs  
**Prerequisite:** PHY 221 or PHY 223; (MATH 105 or MATH 119) and MATH 107, or MATH 140 with a C or better in each course; or MATH 112; or MATH 120

**Last Updated:** Prereqs. 07/2011; Links 04/2011

**PHY 223 - Mechanics and Sound (GEKN)**

A basic, calculus-based course in physics for students majoring in physical science and those on a pre-engineering curriculum. Topics include kinematics, Newton's laws, work and energy, conservation laws, rotational motion, oscillations and sound.

**Credit Hours:** 5 hrs  
**Lecture/Lab Hours:** Laboratory: two consecutive hours, one day per week.  
**Prerequisite:** MATH 120

**Knowledge of the Disciplines:**
The purpose of this course is to introduce, explore, test and apply the principles of physics that predict the motion of an object. Today when we take a flight from Detroit to Los Angeles, we expect the arrival time to be within five minutes of the predicted time. Such predictions are based on the principles of physics and the tools of mathematics. Other practical applications of these principles include the flight of a baseball, the putting of a golf ball, the motion of the Earth around the sun, the rotation of a bicycle wheel, the setting of bones to allow healing, the building of bridges, the vibration of the string on a violin and the flow of air across an airplane wing. PHY 223 presents in detail the foundational principles of motion that all scientists use in their research.

**Last Updated:** Links 04/2011

**PHY 224 - Electricity and Light**
A continuation of PHY 223. Static and current electricity, magnetism and light.

**Credit Hours:** 5 hrs  
**Lecture/Lab Hours:** Laboratory: two consecutive hours, one day per week.  
**Prerequisite:** PHY 223 and MATH 121  
**Last Updated:** Links 04/2011

**PHY 229 - Strength and Elasticity of Materials**

Fundamental principles of mechanics applied to solids. Equilibrium, elasticity, stress and strain, generalized Hooke’s Law, tension, torsion, shear, bending, deflection of beams, theory of columns and strain energy.

**Credit Hours:** 4 hrs  
**Lecture/Lab Hours:** Four lecture-recitation periods per week. Laboratory required.  
**Prerequisite:** PHY 223 and MATH 121  
**Last Updated:** Links 04/2011

**PHY 230 - Engineering Dynamics**

Vector representation of physical quantities. Statics of rigid bodies. Friction, kinematics of particles and rigid bodies. Dynamics of particles and rigid bodies. Work and energy.

**Credit Hours:** 4 hrs  
**Lecture/Lab Hours:** Four lecture-recitation periods per week.  
**Prerequisite:** PHY 223; MATH 121; MATH 122  
**Last Updated:** Links 04/2011

**PHY 277 - Special Topics**

This special topics course will be used to teach aspects of physics at an intermediate level that would not be regularly offered. A new course may be taught on an experimental basis with this offering.

**Credit Hours:** 1 hr  
**Prerequisite:** See department for prerequisites  
**Last Updated:** Links 04/2011

**PHY 278 - Special Topics**

This special topics course will be used to teach aspects of physics at an intermediate level that would not be regularly offered. A new course may be taught on an experimental basis with this offering.

**Credit Hours:** 2 hrs  
**Prerequisite:** See department for prerequisites  
**Last Updated:** Links 04/2011

**PHY 279 - Special Topics**

This special topics course will be used to teach aspects of physics at an intermediate level that would not be regularly offered. A new course may be taught on an experimental basis with this offering.

**Credit Hours:** 3 hrs
**PHY 297 - Independent Study**

An intensive study of a problem or group of problems under the direction of a department faculty member.

**Credit Hours:** 1 hr  
**Prerequisite:** Approval by the faculty member and department permission

**Last Updated:** Links 04/2011

**PHY 311 - Teaching Elementary Physical Science**

Designed particularly for teachers in elementary science. An elementary study of motion, forces, energy, matter, heat, sound, light, magnetism and electricity. Focus is on simple experimental projects, followed by class discussions. Most of the apparatus will be made from materials available in the home or at a variety store. Offered only to elementary education students.

**Credit Hours:** 3 hrs  
**Prerequisite:** PHY 100

**Last Updated:** Links 04/2011

**PHY 312 - Electricity Experiments for Elementary Teachers**

A practical course designed to help elementary teachers learn the basics of electricity and electrical safety. Students will use grade-level appropriate mathematics, equipment and measurement devices to investigate simple circuits. Electrical energy production, use and conservation will be discussed with reference to U.S. consumers in a global context. Only open to elementary education students.

**Credit Hours:** 3 hrs  
**Prerequisite:** PHY 100

**Last Updated:** Links 04/2011

**PHY 325 - Methods of Teaching the Physical Sciences**

A study of strategies and procedures used in secondary school teaching. Students will be provided with the opportunity to familiarize themselves with the newer science curricula; visit secondary school classrooms; present classroom demonstrations and conduct laboratory work; learn to use modern teaching aids, especially the computer, in classroom teaching; and develop means of evaluating cognitive and affective learning. Two recitation and two laboratory hours per week. Open to prospective teachers following the junior-senior high school curriculum who are majoring or minoring in integrated science or a physical science.

**Credit Hours:** 3 hrs  
**Prerequisite:** CURR 305; or department permission  
**Class Restrictions:** Junior standing  
**Major Restrictions:** Admission to the Initial Teacher Preparation Program  
**Notes:** Not open to students on academic probation. Students only have the choice of a methods class if they are an Integrated Science Major.

**Last Updated:** 2/16/2011

**PHY 330 - Intermediate Mechanics I**
The statics and dynamics of a particle, projectiles with air resistance, central forces, dynamics of a system of particles, vibrational motion and pendulums.

**Credit Hours:** 3 hrs  
**Prerequisite:** PHY 224; MATH 121; MATH 122  
**Course Revisions:** effective Winter 2015, (a C or better in PHY 224) will be required prior to enrolling in this course.

**Last Updated:** Change to prereq 5/2014, effective Winter 2015; Links 04/2011

**PHY 332 - Mechanics Laboratory**

A laboratory course providing experimental studies in intermediate mechanics.

**Credit Hours:** 1 hr  
**Lecture/Lab Hours:** Three hours of laboratory per week.  
**Concurrent Prerequisite:** PHY 330  
**Last Updated:** Links 04/2011

**PHY 350 - Electricity and Magnetism I**

An introductory course dealing mainly with electrostatics and magnetostatics. The following topics will be covered: vector calculus; Coulomb's law; Gauss's and Ampere's law; electric and magnetic fields; potentials and potential energies; solution of Laplace's equation for rectangular, cylindrical and spherical geometries in the presence of conductors, dielectrics and magnetic materials; electric and magnetic susceptibilities; resistance; capacitance; inductance; electromotive force; and electromagnetic induction.

**Credit Hours:** 3 hrs  
**Prerequisite:** PHY 224; MATH 223  
**Course Revisions:** effective Winter 2015, a C or better in PHY 224 will be required prior to enrolling in this course.

**Last Updated:** change to prereq 5/2014, effective Winter 2015; Links 04/2011

**PHY 360 - Heat and Thermodynamics**

An intermediate course in the study of heat and thermodynamics. The course will include an introduction of the fundamental concepts followed by specific topics, including thermal expansion, specific heat, change of state, elementary kinetic theory, thermodynamics laws, entropy and other thermodynamic functions. No prior knowledge of thermodynamics is presumed.

**Credit Hours:** 4 hrs  
**Prerequisite:** PHY 222 or PHY 224; MATH 223  
**Course Revisions:** effective Winter 2015, (at least a C in PHY 222) or (at least a C in PHY 224) and MATH 223 will be required prior to enrolling in this course.

**Last Updated:** Change to prereq 5/2014, effective Winter 2015; Links 04/2011

**PHY 370 - Introduction to Modern Physics**

An introduction to modern physics and relativity. The qualitative interpretation, according to the modern quantum theory, of experimental results in atomic and nuclear physics.

**Credit Hours:** 3 hrs  
**Prerequisite:** MATH 121; PHY 222 or PHY 224
Course Revisions: effective Winter 2015, (At least a C in PHY 222) or (at least a C in PHY 224) and MATH 121 will be required prior to enroll in this course

Last Updated: Change to Prereq 5/2014, effective Winter 2015; Links 04/2011

PHY 372 - Modern Physics Laboratory

A laboratory course providing experimental studies in such areas as late classical, relativistic, quantum, and nuclear physics.

Credit Hours: 1 hr
Lecture/Lab Hours: Three hours of laboratory per week.
Concurrent Prerequisite: PHY 370
Last Updated: Links 04/2011

PHY 377 - Special Topics

This special topics course will be used to teach some aspects of physics at an advanced level that would not be regularly offered. A new course may be taught on an experimental basis with this offering.

Credit Hours: 1 hr
Prerequisite: See department for prerequisites
Last Updated: Links 04/2011

PHY 378 - Special Topics

This special topics course will be used to teach some aspects of physics at an advanced level that would not be regularly offered. A new course may be taught on an experimental basis with this offering.

Credit Hours: 2 hrs
Prerequisite: See department for prerequisites
Last Updated: Links 04/2011

PHY 379 - Special Topics

This special topics course will be used to teach some aspects of physics at an advanced level that would not be regularly offered. A new course may be taught on an experimental basis with this offering.

Credit Hours: 3 hrs
Prerequisite: See department for prerequisites
Last Updated: Links 04/2011

PHY 387 - Cooperative Education in Physics

Four to six months of full-time employment at an industrial firm specially chosen for imparting a practical educational experience in physics. The program consists of two work experiences (PHY387/487) alternating with full-time attendance at the University.

Credit Hours: 3 hrs
Prerequisite: Admittance by application only
Class Restrictions: Junior standing
Notes: Use toward a physics major or minor subject to department permission. Offered on a graded credit/no-credit basis
PHY 390 - Physics Project

A suitable project in physics is to be done on an individual basis. Arrangements must be made with a physics faculty member before the beginning of the semester.

Credit Hours: 2 hrs
Prerequisite: Department permission
Last Updated: Links 04/2011

PHY 391 - Physics Project

A suitable project in physics is to be done on an individual basis. Arrangements must be made with a physics faculty member before the beginning of the semester.

Credit Hours: 2 hrs
Prerequisite: Department permission
Last Updated: Links 04/2011

PHY 397 - Independent Study

An intensive study of a problem or group of problems under the direction of a department faculty member.

Credit Hours: 1 hr
Prerequisite: Approval by the faculty member and department permission
Last Updated: Links 04/2011

PHY 398 - Independent Study

An intensive study of a problem or group of problems under the direction of a department faculty member.

Credit Hours: 2 hrs
Prerequisite: Approval by the faculty member and department permission
Last Updated: Links 04/2011

PHY 399 - Independent Study

An intensive study of a problem or group of problems under the direction of a department faculty member.

Credit Hours: 3 hrs
Prerequisite: Approval by the faculty member and department permission
Last Updated: Links 04/2011

PHY 406 - Ethical Issues in Physics

Ethical issues that a career physicist may encounter are studied and discussed. Historical accounts and essays are used to illustrate potential ethical conflicts associated with interactions within the scientific community as well as interactions between the scientific community and society at large.

Credit Hours: 1 hr
Prerequisite: PHY 222 and PHY 224
Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.
Course Revisions: Effective Winter 2015, this course is no longer approved for Graduate credit. Also, (a C or better in PHY 222) or (a C or better in PHY 224), and (PHY 230 or PHY 330) and MATH 121 will be required prior to enrolling in this course.

Last Updated: No longer available for Graduate credit 10/14, effective Winter 2015, Change to prereq 5/2014, effective Winter 2015; Graduate Credit 07/2011; Links 04/2011

PHY 417 - Undergraduate Research Laboratory

Laboratory work of a research nature done under the direction of a staff member working on a research problem. One problem will extend through the semester, with a comprehensive report required. Six hours are to be spent in the laboratory each week. Arrangements must be made with the department before the beginning of the semester.

Credit Hours: 2 hrs
Prerequisite: Department permission
Class Restrictions: Open to Seniors nearing completion of a Physics Major
Major Restrictions: Physics Major
Last Updated: Links 04/2011

PHY 420W - Capstone Project (GEWI)

This course provides the opportunity to synthesize knowledge of a wide range of physics and engineering topics into a research or design project, from concept development, through test and analysis, to final report. Assessment and development of concept knowledge and practical skills are integral to this course.

Credit Hours: 3 hrs
Prerequisite: (PHY 230 or PHY 330), PHY 360 and PHY 370
Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.
Writing Intensive:

Last Updated: Graduate Credit 07/2011; Links 04/2011

PHY 431 - Intermediate Mechanics II

A continuation of PHY 330. Mechanics of a rigid body, generalized coordinates, the Lagrangian and Hamiltonian functions, relative motion.

Credit Hours: 3 hrs
Prerequisite: PHY 330, MATH 223
Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.
Last Updated: Graduate Credit 07/2011; Links 04/2011

PHY 436 - Vibration and Sound

Detailed studies of vibration and wave motion with specific emphasis on acoustic waves in air and other media. Reflection, refraction and interference of sound; vibrating strings and air columns; electroacoustic transducers; architectural acoustics.

Credit Hours: 4 hrs
Lecture/Lab Hours: Laboratory required. Laboratory meets once per week for three hours.
Prerequisite: PHY 222 or PHY 224; MATH 223
Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.
Course Revisions: effective Winter 2015, (At least a C in PHY 222) or (at least a C in PHY 224) and MATH 223 will be needed to enroll in this course
**PHY 442 - Optics and Optics Laboratory**

An intermediate course with a laboratory dealing with fundamentals of geometrical, physical and quantum optics. Topics covered include: reflection, refraction, lenses and optical instruments, spectrosopes and spectra, interference, diffraction and polarization.

**Credit Hours:** 4 hrs  
**Lecture/Lab Hours:** Three hours of laboratory per week.  
**Prerequisite:** PHY 222 or PHY 224; MATH 121  
**Graduate Credit:** This is an undergraduate course available to graduate students for graduate credit.  
**Course Revisions:** Effective Winter 2015, At least a C in PHY 222 or PHY 224 and MATH 121 will be needed to enroll in this course

**Last Updated:** Change to prerequisites 5/2014, effective Winter 2015; Graduate Credit 07/2011; Links 04/2011

**PHY 444 - Applied Optics**

A combined lecture/laboratory course covering applications of optics. Applications include, but are not limited to, polarized light devices, laser operation, holography, image processing and fiber optics.

**Credit Hours:** 2 hrs  
**Lecture/Lab Hours:** Lecture: one hour per week. Laboratory: three consecutive hours per week.  
**Prerequisite:** PHY 224  
**Graduate Credit:** This is an undergraduate course available to graduate students for graduate credit.  
**Course Revisions:** Effective Winter 2015, Change to prerequisites "at least a C in PHY 224"

**Last Updated:** Change to prerequisites 5/2014, effective Winter 2015; Graduate Credit 07/2011; Links 04/2011

**PHY 450 - Electricity and Magnetism II**

A brief review of electrostatics and magnetostatics. The following topics will be covered: Faraday’s Law, displacement current, Maxwell’s equations, Poynting vector, plane wave solutions, polarization, wave propagation in dielectrics and conductors, dispersion, Fresnel’s equations, guided waves, dipoleradiation, Lienard-Wiechert potentials, and radiation theory.

**Credit Hours:** 3 hrs  
**Prerequisite:** PHY 350; MATH 325  
**Graduate Credit:** This is an undergraduate course available to graduate students for graduate credit.  
**Last Updated:** Graduate Credit 07/2011; Links 04/2011

**PHY 452 - Electrical Measurements**

An intermediate course in electricity. The fundamental principles involved in measuring electric and magnetic quantities, the use of high-grade electrical apparatus. Experiments include studies of galvanometers, Wheatstone bridges of various forms, potentiometers and standard cells, vacuum tubes, magnetic measurements and methods of measuring capacitance and inductance.

**Credit Hours:** 4 hrs  
**Lecture/Lab Hours:** Laboratory: four consecutive hours, one day per week.  
**Prerequisite:** PHY 221/PHY 223 and PHY 222 or PHY 224
PHY 456 - Electronics for Scientists

Theory and application of passive and semiconductor circuit elements. Analog and digital circuit analysis and design problems.

Credit Hours: 4 hrs
Lecture/Lab Hours: Lecture: three hours per week. Laboratory: three hours per week.
Prerequisite: PHY 224; PHY 230 or PHY 330; MATH 121 or Departmental Permission
Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.
Course Revisions: Effective Winter 2015, this course is no longer approved for Graduate credit. Also, (a C or better in PHY 224) will now be required prior to enrolling in this course.

Last Updated: No longer available for Graduate credit 10/14, effective Winter 2015, Change in Prerequisites 5/2014, effective Winter 2015; Change in Prerequisites 2/2013, effective Summer 2013; Graduate Credit 07/2011; Links 04/2011

PHY 458 - Electronic Devices for Scientists

Electronic devices used in electronic instruments: transistors, logic gates, and interface circuits. Interface techniques with applications to measurements.

Credit Hours: 4 hrs
Lecture/Lab Hours: Lecture: three hours per week. Laboratory: three hours per week.
Prerequisite: PHY 456
Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.

Last Updated: Graduate Credit 07/2011; Links 04/2011

PHY 462 - Kinetic Theory and Statistical Mechanics

An introduction to the kinetic theory of gases and statistical mechanics. For students concentrating in physics and those contemplating advanced study in related fields of science and engineering. Maxwell-Boltzman distribution law, entropy and probability, transport phenomena, quantum statistics, Bose-Einstein and Fermi-Dirac statistics, the connection between statistical mechanics and thermodynamics, the equation of state, the elementary electron theory of metals and statistical methods in nuclear physics.

Credit Hours: 3 hrs
Prerequisite: PHY 224; MATH 223
Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.

Last Updated: Graduate Credit 07/2011; Links 04/2011

PHY 471 - Atomic and Nuclear Physics

Topics include basic nuclear structure, nuclear decay and radioactivity, nuclear reactions and particle physics.

Credit Hours: 3 hrs
Prerequisite: PHY 370, MATH 121
Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.

Last Updated: Graduate Credit 07/2011; Links 04/2011

PHY 475 - Introduction to Quantum Mechanics
The fundamental ideas of the quantum theory; the dual nature of matter, wave equations and wave packets, observable and linear operators, the application of the Schrödinger and Heisenberg equations to elementary systems, Pauli's theory of electron spin.

Credit Hours: 3 hrs
Prerequisite: PHY 370 and MATH 223
Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.
Course Revisions: Effective Winter 2015, this course is no longer approved for Graduate credit.

Last Updated: No longer available for Graduate credit 10/14, effective Winter 2015, Graduate Credit 07/2011; Links 04/2011

**PHY 477 - Special Topics**

This special topics course will be used to teach aspects of physics at an advanced level that would not regularly be offered.

Credit Hours: 1 hr
Prerequisite: see department for prerequisites

**PHY 478 - Special Topics**

This special topics course will be used to teach aspects of physics at an advanced level that would not regularly be offered.

Credit Hours: 2 hrs
Prerequisite: see department for prerequisites

**PHY 479 - Special Topics**

This special topics course will be used to teach aspects of physics at an advanced level that would not regularly be offered.

Credit Hours: 3 hrs
Prerequisite: see department for prerequisites

**PHY 481 - Mathematical Physics**

Advanced mathematical topics for the physics student, with applications drawn from the field of physics. Vectors, matrices, tensors, partial differential equations, contour integration, calculus of variations, integral equations and transforms, eigenvalue functions, perturbation and group theory, special functions.

Credit Hours: 3 hrs
Prerequisite: MATH 325 and PHY 330
Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.
Course Revisions: Effective Winter 2015, this course is no longer approved for Graduate credit.

Last Updated: No longer available for Graduate credit 10/14, effective Winter 2015, Graduate Credit 07/2011; Links 04/2011

**PHY 485 - Fluid Dynamics**

An introduction to the statics and dynamics of real and ideal fluids: properties of fluids, mathematical models, dimensional analysis, boundary layer flow, flow in pipes, compressible, incompressible, laminar and turbulent flow.

Credit Hours: 3 hrs
Prerequisite: PHY 230 or PHY 330; PHY 360
PHY 487 - Cooperative Education in Physics

Four to six months of full-time employment at an industrial firm specially chosen for imparting a practical educational experience in physics. The program consists of two work experiences (PHY 387 and PHY 487) alternating with full-time attendance at the University.

Credit Hours: 3 hrs
Prerequisite: PHY 387; admittance by application only
Notes: Use toward a physics major or minor subject to department permission. Offered on a graded credit/no-credit basis

PHY 491 - Special Problems (Honors Courses)

An original experimental or theoretical problem in some area of physics investigated on an individual basis. Arrangements must be made with a staff member before the beginning of the semester.

Credit Hours: 2 hrs
Prerequisite: 20 hours of physics, a B average in physics and department permission

PHY 495 - Readings in Physics (Honors Course)

Designed to give individual students a planned intensive reading program in some field of physics, the subject being chosen jointly by the student and the instructor. A part of this course will be the presentation of an hour-long talk in the chosen subject at an open meeting of the Department of Physics staff and students.

Credit Hours: 1 hr
Prerequisite: 20 hours of physics and department permission
Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.
Last Updated: Graduate Credit 07/2011

PHY 497 - Independent Study — Physics

An extensive study of a problem or group of problems under the direction of a department faculty member.

Credit Hours: 1 hr
Prerequisite: Approval by the faculty member and department permission
Last Updated: Links 04/2011

PHY 498 - Independent Study — Physics

An extensive study of a problem or group of problems under the direction of a department faculty member.

Credit Hours: 2 hrs
Prerequisite: Approval by the faculty member and department permission
Last Updated: Links 04/2011

PHY 499 - Independent Study — Physics
An extensive study of a problem or group of problems under the direction of a department faculty member.

**Credit Hours:** 3 hrs  
**Prerequisite:** Approval by the faculty member and department permission  
**Last Updated:** Links 04/2011
Sociology, Anthropology and Criminology Programs and Courses

Sociology, Anthropology and Criminology

Major

Anthropology Major

Program Revised, effective Fall 2014

The program in anthropology advances the goals of humanistic education, prepares students for successfully operating in a multicultural society and provides majors with a foundation for graduate study. Anthropology is the comparative study of human behavior, both in terms of its development and in terms of its culture-specific expressions. The University's program in anthropology gives particular attention to the sociocultural sub-field.

Department Information:

Sociology, Anthropology, and Criminology Department - College of Arts & Sciences

Anders Linde-Laursen, Ph.D., Department Head

712 Pray Harrold
(734) 487-0012
alindela@emich.edu

Department Website

Advisor Information:

Liza Cerroni-Long, Ph.D., Professor

712 Pray Harrold
(734) 487-0012
liza.cerroni-long@emich.edu

General Education Requirements:

For specific requirements refer to the General Education Program.

Major Requirements: 30 hours

Required Courses: 12 hours
ANTH 135 - Introduction to Cultural Anthropology (GEGA & GEKS) 3 hrs
ANTH 140 - Introduction to Physical Anthropology 3 hrs
ANTH 150 - Introductory Archaeology (GEKS) 3 hrs
ANTH 210 - History of Anthropological Theory 3 hrs

Restricted Elective Courses: 12 hours

Two anthropology courses at the 400-level (6 hrs), at least one of which must be in cultural anthropology (see advisor), in addition to the following:

One Culture Area Course:

Three hours selected from this list.

- ANTH 212 - Peoples and Cultures of China 3 hrs
- ANTH 233 - Cultures of Mesoamerica and the Caribbean (GEGA) 3 hrs
- ANTH 236 - Peoples and Cultures of Africa 3 hrs
- ANTH 237 - Native North American Cultures (GEUS) 3 hrs
- ANTH 248 - Peoples and Cultures of the Pacific 3 hrs
- ANTH 351 - Mexico: The Route of Cortez 3 hrs
- ANTH 385 - Culture of Japan 3 hrs

One Methodology Course:

Three hours selected from this list.

- ANTH 337 - Applied Anthropology 3
- ANTH 345 - Ethnographic Methods 3 hrs
- ANTH 361 - Archaeological Fieldwork 5 hrs
- ANTH 362 - Artifact Analysis 3 hrs
- ANTH 370 - Human Osteology in Anthropology 3 hrs
- ANTH 471 - Research Methods in Bio-archaeology 3 hrs

Elective Courses: 6 hours

Two anthropology courses, of which at least one must be at the 300-level or above (6 hrs)

Exit Interview:

_Majors must register with an anthropology Faculty Mentor, who will administer their Exit Interview._

Minor Requirements:

This program requires a minor. Please contact your program advisor for a list of possible minors.

Writing Intensive Course
Each student must choose a writing intensive course as part of major completion requirements. Consult your advisor for course options.

Program Total:

Students must earn a minimum total of 124 credits at the 100-level or above.

Critical Graduation Information:

Each undergraduate student will be responsible for the fulfillment of the requirements or their equivalents of the Eastern Michigan University catalog in force at the time of their initial registration at a college or university or a subsequent catalog including the one in effect at the time of their graduation.

In the event an undergraduate student does not complete the degree requirements within seven years of the date of their original registration at a college or university, the student may be required to have their credits re-evaluated by the academic department(s) of their major/minor in keeping with catalog requirements in force during the year of their graduation.

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the 100-level and above. Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Complete a Writing Intensive (WI) Course in your major.
- Earn a minimum of 60 credits from a four-year college or university; courses taken at community colleges cannot be used to meet this requirement. (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 unique credit hours in their major and 20 unique credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
- Earn no more than 60 credit hours in one subject area (prefix). Credits in excess of the 60 maximum will not be counted toward the minimum of 124 credits required for a bachelor's degree.
- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more that one major or minor.
  - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
  - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
  - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor
- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is conducted by individual departments/schools within EMU, and
additional documentation may be required. Please note: EMU awards only credit for transferred courses; grades are not used in the calculation of an EMU GPA.

- Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be reached in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

General Education Requirements:

EMU’s General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available in the General Education section of the catalog: General Education

Students who transferred to EMU may have modified general education requirements based on Michigan Transfer Agreement (MTA) or articulation agreements; consult your academic advisor for additional information.

University Information: Consult the online catalog at catalog.emich.edu.

Criminology and Criminal Justice Major

Revised Program, effective Winter 2014

The criminology and criminal justice curriculum provides students with a multidisciplinary understanding of crime and justice within the framework of broader social processes. This curriculum is a three-tiered structure composed of general education, a core curriculum and selected concentrations. The typical student will move from general education to the core of the program and then into one of four specialized concentrations, where he or she will be introduced to courses on the principles and application of the chosen specialty.

The curriculum for general education includes introductory courses in the fundamental social science disciplines of sociology and psychology. The core of the curriculum consists of a number of related courses that will build a foundation of social science education emphasizing analytical and conceptual skills. The pivotal course is CRM 301 - Criminology, a multidisciplinary perspective on the nature, extent and causes of crime. CRM 300 - Criminal Justice and CRM 301 - Criminology should be the first core courses taken by the typical student. The third and final tier of the curriculum consists of 21 hours in one of four concentrations. These concentrations contain some courses without criminological content that provide students with professionally relevant occupational knowledge and skills.

Students completing the curriculum will have satisfied all major and minor requirements for graduation. No additional minor is required.

An active articulation agreement exists between this program and a community college. To see a complete list of current colleges with program articulation agreements with EMU, please click here.

Advisor Information:

Program Advisor: Marilyn Horace-Moore  
Email: mhoracem@emich.edu  
Phone: 734.487.0012

General Education Requirements:

For specific requirements refer to the General Education Program.

Additional Requirements: 3 hours

One course from the following:

- PHIL 120 - Introduction to Critical Reasoning (GEKH) 3 hrs
- PHIL 130 - Introduction to Logic 3 hrs

Major Requirements: 70 hours

Core Requirements: 12 hours

- SOCL 105 - Introductory Sociology (GEKS) 3 hrs
- SOCL 202 - Social Problems 3 hrs
- PSY 101 - General Psychology Lecture (GEKN) 3 hrs

One course from the following:

- PLSC 112 - American Government (GEKS) 3 hrs
- PLSC 113 - American Government Honors (GEKS) 3 hrs

Criminology and Criminal Justice Courses: 30 hours

- CRM 300 - Criminal Justice 3 hrs
- CRM 301 - Criminology 3 hrs
- CRM 331 - Introduction to Corrections 3 hrs
- CRM 338 - Women, Crime and Justice 3 hrs
- CRM 354 - Juvenile Delinquency 3 hrs
- CRM 362 - Ethics for Criminal Justice Professionals 3 hrs
- CRM 370 - White Collar Crime 3 hrs
- CRM 431 - Policing in Society 3 hrs
- CRM 447W - Senior Seminar in Criminology (GEWI) 3 hrs

One course from the following:
• CRM 333 - Violence and Society 3 hrs
• CRM 337 - Deviance and Society 3 hrs
• SOCL 333 - Violence and Society 3 hrs
• SOCL 337 - Deviance and Society 3 hrs

Research Methods: 6 hours

* see note

• SOCL 250 - Quantitative Applications in Sociology (GEQR) 3 hrs
• SOCL 304 - Methods in Sociological Research 3 hrs

Sociology/Anthropology Courses: 12 hours

• ANTH 135 - Introduction to Cultural Anthropology (GEGA & GEKS) 3 hrs
• ANTH 214 - U.S. Racial and Cultural Minorities (GEUS) 3 hrs
• SOCL 308 - Social Psychology 3 hrs
• SOCL 462 - Complex Organizations 3 hrs

Concentration Requirements: 15 hours

Select one from the following four concentrations:

I. Legal Studies (CRM LGST)

• CRM 412 - Law and Society 3 hrs
• CRM 460 - Criminal Law II 3 hrs

Nine hours from the following:

• AFC 441 - Law in the African American Experience 3 hrs
• ANTH 330 - Anthropology of Law and Politics 3 hrs
• CRM 222 - Pornography and Crime 3 hrs
• CRM 277 - Special Topics 1 hr
• CRM 278 - Special Topics 2 hrs
• CRM 279 - Special Topics 3 hrs
• CRM 321 - Cooperation and Conflict in Society 3 hrs
• CRM 377 - Special Topics 1 hr
• CRM 378 - Special Topics 2 hrs
• CRM 379 - Special Topics 3 hrs
• CRM 488 - Field Internship in Criminology and Criminal Justice 3 hrs each
• CRM 489 - Field Internship in Criminology and Criminal Justice 3 hrs each
• PHIL 355W - Philosophy of Law (GEWI) 3 hrs
• PLSC 301 - American Legal System 3 hrs
• PLSC 364 - Legislative Process 3 hrs
• PLSC 385 - Judicial Process and Behavior 3 hrs
PLSC 456 - Criminal Law I 3 hrs

II. Law Enforcement (CRM LAWE):

One course from the following:

• CRM 432 - Police Organization 3 hrs

Nine hours from the following:

• CRM 222 - Pornography and Crime 3 hrs
• CRM 320 - Criminal Investigation 3 hrs
• CRM 321 - Cooperation and Conflict in Society 3 hrs
• CRM 412 - Law and Society 3 hrs
• CRM 460 - Criminal Law II 3 hrs
• CRM 488 - Field Internship in Criminology and Criminal Justice 3 hrs each
• CRM 489 - Field Internship in Criminology and Criminal Justice 3 hrs each

One course from the following:

• CRM 277 - Special Topics 1 hr
• CRM 278 - Special Topics 2 hrs
• CRM 279 - Special Topics 3 hrs
• CRM 377 - Special Topics 1 hr
• CRM 378 - Special Topics 2 hrs
• CRM 379 - Special Topics 3 hrs
• CRM 420 - Drugs, Crime and Criminal Justice 3 hrs
• PLSC 301 - American Legal System 3 hrs
• PLSC 308 - Political Violence and Revolution 3 hrs
• PLSC 385 - Judicial Process and Behavior 3 hrs
• PLSC 456 - Criminal Law I 3 hrs
• PSY 340 - Psychological Perspectives on Prejudice and Discrimination 3 hrs
• PSY 360 - Abnormal Psychology 3 hrs
• SOCL 306 - The Urban Community 3 hrs
• SWRK 120 - Introduction to Social Work Services and Professional Roles 3 hrs

III. Corrections (CRM CORR)

• CRM 321 - Cooperation and Conflict in Society 3 hrs
• CRM 332 - Community Corrections 3 hrs

Nine hours from the following:

• ANTH 330 - Anthropology of Law and Politics 3 hrs
• CRM 222 - Pornography and Crime 3 hrs
• CRM 277 - Special Topics 1 hr
• CRM 278 - Special Topics 2 hrs
• CRM 279 - Special Topics 3 hrs
• CRM 377 - Special Topics 1 hr
• CRM 378 - Special Topics 2 hrs
• CRM 379 - Special Topics 3 hrs
• CRM 412 - Law and Society 3 hrs
• CRM 420 - Drugs, Crime and Criminal Justice 3 hrs
• CRM 488 - Field Internship in Criminology and Criminal Justice 3 hrs each
• CRM 489 - Field Internship in Criminology and Criminal Justice 3 hrs each
• CTAC 357 - Interviewing as Communication 3 hrs
• PSY 340 - Psychological Perspectives on Prejudice and Discrimination 3 hrs
• SWRK 120 - Introduction to Social Work Services and Professional Roles 3 hrs

IV. Criminal Justice Administration (CRM ADM)

• CRM 332 - Community Corrections 3 hrs
• CRM 432 - Police Organization 3 hrs

Nine hours from the following:

• ANTH 330 - Anthropology of Law and Politics 3 hrs
• ANTH 345 - Ethnographic Methods 3 hrs
• CRM 222 - Pornography and Crime 3 hrs
• CRM 277 - Special Topics 1 hr
• CRM 278 - Special Topics 2 hrs
• CRM 279 - Special Topics 3 hrs
• CRM 320 - Criminal Investigation 3 hrs
• CRM 321 - Cooperation and Conflict in Society 3 hrs
• CRM 377 - Special Topics 1 hr
• CRM 378 - Special Topics 2 hrs
• CRM 379 - Special Topics 3 hrs
• CRM 412 - Law and Society 3 hrs
• CRM 420 - Drugs, Crime and Criminal Justice 3 hrs
• CRM 488 - Field Internship in Criminology and Criminal Justice 3 hrs each
• CRM 489 - Field Internship in Criminology and Criminal Justice 3 hrs each
• MGMT 202 - Business Communication 3 hrs
• PLSC 270 - Public Administration 3 hrs
• PLSC 334 - Personnel Administration in Government 3 hrs
• PLSC 381 - Public Policy Analysis 3 hrs
• PLSC 456 - Criminal Law I 3 hrs
• PSY 301W - Introductory Experimental Psychology (GEWI) 4 hrs
• PSY 340 - Psychological Perspectives on Prejudice and Discrimination 3 hrs
• SOCL 307 - Sociology of Work 3 hrs
• SOCL 321 - Cooperation and Conflict in Society 3 hrs
• SOCL 345 - Ethnographic Methods 3 hrs

Minor Requirements:
This program does not require a minor.

**Program Total:**

Students must earn a minimum total of 124 credits at the 100-level or above.

**Notes:**

* SOCL 341 - Quantitative Methods of Social Research I and SOCL 342 - Quantitative Methods of Social Research II may be substituted for SOCL 250 and SOCL 304.

**Extended Programs**

This program is available at an EMU off-campus location. For a list of locations, please click here.

**Critical Graduation Information:**

Each undergraduate student will be responsible for the fulfillment of the requirements or their equivalents of the Eastern Michigan University catalog in force at the time of their initial registration at a college or university or a subsequent catalog including the one in effect at the time of their graduation.

In the event an undergraduate student does not complete the degree requirements within seven years of the date of their original registration at a college or university, the student may be required to have their credits re-evaluated by the academic department(s) of their major/minor in keeping with catalog requirements in force during the year of their graduation.

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the **100-level and above**. Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Complete a Writing Intensive (WI) Course in your major.
- Earn a minimum of 60 credits from a four-year college or university; **courses taken at community colleges cannot be used to meet this requirement**. (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 **unique** credit hours in their major and 20 **unique** credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
- Earn no more than 60 credit hours in one subject area (prefix). Credits in excess of the 60 maximum will not be counted toward the minimum of 124 credits required for a bachelor's degree.
- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more than one major or minor.
  - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor.
Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.

- Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor.

- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is conducted by individual departments/schools within EMU, and additional documentation may be required. Please note: EMU awards only credit for transferred courses; grades are not used in the calculation of an EMU GPA.

- Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be reached in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

**General Education Requirements:**

EMU’s General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available in the General Education section of the catalog: General Education

Students who transferred to EMU may have modified general education requirements based on Michigan Transfer Agreement (MTA) or articulation agreements; consult your academic advisor for additional information.

**University Information:** Consult the online catalog at catalog.emich.edu.

**Sociology Major**

Sociologists are uniquely poised to contribute to a variety of productive activities in an increasingly diverse and socially and technologically complex workplace. The Sociology Program at EMU offers both major and minor degree programs in general and applied Sociology. The sociology curriculum offers a broad education that emphasizes the social and cultural basis of human lived experiences, interactions, and motivation, along with the development of flexible analytical reasoning skills and tools for data management and analysis. This major prepares students for work within non-profit, governmental, and social service agencies, as well as within medicine, law, and business.

General Education Requirements:
For specific requirements refer to the General Education Program.

Major Requirements: 33 hours

Required Courses: 18 hours

- SOCL 105 - Introductory Sociology (GEKS) 3 hrs
- SOCL 250 - Quantitative Applications in Sociology (GEQR) 3 hrs
- SOCL 304 - Methods in Sociological Research 3 hrs
- SOCL 308 - Social Psychology 3 hrs
- SOCL 403W - Modern Sociological Theory (GEWI) 3 hrs
- SOCL 405 - Senior Seminar in Sociology 3 hrs

One option from the following:

Option I: General Sociology: 15 hours

Required Courses: 3 hours

- ANTH 135 - Introduction to Cultural Anthropology (GEGA & GEKS) 3 hrs

Restricted Elective Courses: 6 hours

Two courses from the following:

- ANTH 336 - Social and Cultural Change 3 hrs
- SOCL 307 - Sociology of Work 3 hrs
- SOCL 310 - Social Stratification 3 hrs
- SOCL 311W - Aging and the Life Course (GEWI) 3 hrs
- SOCL 312 - Sociology of Health & Illness 3 hrs
- SOCL 336 - Social and Cultural Change 3 hrs

Elective Courses: 6 hours

Choose from courses in sociology, anthropology, criminology. Must be at the 300-level or above.

Option II: Applied Sociology: 15 hours

Required Courses: 9 hours

- SOCL 230 - Introduction to Applied Sociology 3 hrs
- SOCL 310 - Social Stratification 3 hrs
- SOCL 489 - Internship in Sociology 3 hrs

**Restricted Electives: 6 hours**

*Students must take two courses from one of the following four areas:*

**Family/Health/Aging Concentration:**
- SOCL 303 - Sociology of Childhood and Youth 3 hrs
- SOCL 311W - Aging and the Life Course (GEWI) 3 hrs
- SOCL 312 - Sociology of Health & Illness 3 hrs
- SOCL 450 - The Family 3 hrs

**Public/Private Sector Concentration:**
- SOCL 306 - The Urban Community 3 hrs
- SOCL 307 - Sociology of Work 3 hrs
- SOCL 321 - Cooperation and Conflict in Society 3 hrs
- SOCL 334 - Population 3 hrs
- SOCL 462 - Complex Organizations 3 hrs

**Deviance Concentration:**
- CRM 301 - Criminology 3 hrs
- CRM 337 - Deviance and Society 3 hrs
- CRM 354 - Juvenile Delinquency 3 hrs
- CRM 370 - White Collar Crime 3 hrs
- CRM 412 - Law and Society 3 hrs
- SOCL 333 - Violence and Society 3 hrs

**Media/Technology Concentration:**
- CMT 425 - Communication Technology and Social Change 3 hrs
- SOCL 440 - Sociology of Technology 3 hrs
- STS 495 - Technology, Values, and the Future 3 hrs

**Minor Requirements:**
This program requires a minor. Please contact your program advisor for a list of possible minors.

**Program Total:**

Students must earn a minimum total of 124 credits at the 100-level or above.

**Critical Graduation Information:**
Each undergraduate student will be responsible for the fulfillment of the requirements or their equivalents of the Eastern Michigan University catalog in force at the time of their initial registration at a college or university or a subsequent catalog including the one in effect at the time of their graduation.

Sociocultural Perspectives on the Family Interdisciplinary Minor
This minor combines the perspectives of anthropology and sociology by examining the sociocultural determinants and consequences of the family in the United States and other cultures. Students in such diverse fields as business, law, teaching, communication, nursing and technology learn how the family is integrated into the segment of society in which they intend to work. The program is designed for students planning to work directly with families as social workers, family life professionals or clinical psychologists.

Required Courses: 21 hours

- ANTH 135 - Introduction to Cultural Anthropology (GEGA & GEKS) 3 hrs
- ANTH 309 - Culture and Personality 3 hrs
- SOCL 105 - Introductory Sociology (GEKS) 3 hrs
- SOCL 204 - Marriage and Family 3 hrs
- SOCL 303 - Sociology of Childhood and Youth 3 hrs
- SOCL 344 - Sociology of Gender 3 hrs
- SOCL 450 - The Family 3 hrs

Minor Total: 21 hours

Note:

All minors must have at least six hours of course work at the 300-level or above.

Critical Graduation Information:

Each undergraduate student will be responsible for the fulfillment of the requirements or their equivalents of the Eastern Michigan University catalog in force at the time of their initial registration at a college or university or a subsequent catalog including the one in effect at the time of their graduation.
In the event an undergraduate student does not complete the degree requirements within seven years of the date of their original registration at a college or university, the student may be required to have their credits re-evaluated by the academic department(s) of their major/minor in keeping with catalog requirements in force during the year of their graduation.

**The following are minimum requirements for all bachelor’s degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.**

- Earn a minimum total of 124 credits at the **100-level and above**. Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.

- Meet the requirements of the General Education program (see information below).

- Complete a **Writing Intensive (WI) Course** in your major.

- Earn a minimum of 60 credits from a four-year college or university; **courses taken at community colleges cannot be used to meet this requirement.** (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)

- Earn a minimum of 30 credits from courses taken at EMU.

- **Complete 10 of the last 30 hours for the degree from courses taken at EMU.**

- Have a minimum of 30 **unique** credit hours in their major and 20 **unique** credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.

- Earn no more than 60 credit hours in one subject area (prefix). Credits in excess of the 60 maximum will not be counted toward the minimum of 124 credits required for a bachelor's degree.

- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more than one major or minor.
  - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
  - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
  - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor.

- **Transfer credit** will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is conducted by individual departments/schools within EMU, and additional documentation may be required. **Please note:** EMU awards only credit for transferred courses; grades are not used in the calculation of an EMU GPA.

- Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be reached in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

**General Education Requirements:**

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available in the General Education section of the catalog: General Education

Students who transferred to EMU may have modified general education requirements based on Michigan Transfer Agreement (MTA) or articulation agreements; consult your academic advisor for additional information.

**University Information:** Consult the online catalog at catalog.emich.edu.
Sociology Minor

Department Information:

Sociology, Anthropology, and Criminology Department - College of Arts & Sciences

Anders Linde-Laursen, Ph.D., Department Head

Students who transferred to EMU may have modified general education requirements based on Michigan Transfer Agreement (MTA) or articulation agreements; consult your academic advisor for additional information.

**University Information:** Consult the online catalog at catalog.emich.edu.

**Anthropology**
ANTH 135 - Introduction to Cultural Anthropology (GEGA & GEKS)

The study of human adaptations to natural and cultural environments focusing upon a variety of societies. The basic institutions of human society such as kinship, religion, law, politics and economics will be examined.

Credit Hours: 3 hrs

Perspectives on a Diverse World:
Anthropology is the global comparative study of human societies, both in terms of their development and in terms of their culture-specific expressions. Students learn how an anthropological cross-cultural perspective can improve understandings of cultural diversity, especially when addressing topics and perspectives that are difficult to understand from a purely western perspective. The course covers a broad range of topics traditionally approached by anthropologists, which address each of the outcomes for the Global Awareness requirement. By better understanding the factors contributing to cross-cultural similarities, differences and interconnections, students learn to appreciate global diversity in development, ethnicity, language, subsistence, modes of gender, kinship, sexuality, religion, forced and voluntary migration and how contemporary globalization is influencing each of these topics.

Knowledge of the Disciplines:

Last Updated: General Education Areas 07/2011

ANTH 140 - Introduction to Physical Anthropology

A survey of the evolution of primates and hominids and a general introduction to physical anthropological themes relating to prehistoric and living humans.

Credit Hours: 3 hrs
Prerequisite: ANTH 135
Last Updated: 2/17/2011

ANTH 150 - Introductory Archaeology (GEKS)

A general survey of the field of archeology; the methodologies and analyses employed in the study of prehistoric cultures.

Credit Hours: 3 hrs

Knowledge of the Disciplines:
The course is designed as an introduction to the anthropological subfield of archaeology. In addition to general social science methods, the student will learn about archaeological survey and excavation techniques, the kinds of quantitative and qualitative data these produce, cross-cultural analyses, and social science theories that are tested with archaeological data. The course covers a broad range of topics traditionally approached by archaeologists, which contribute to an understanding of the human past and lessons for some of today's major global issues. In the process of learning about archaeology, students also learn to appreciate how social science methods, in general, can produce knowledge and provide perspectives on social and political organization, power relationships, social change and contemporary global problems. Course assignments allow students to use general social science techniques with archaeological data to address these topics.

Last Updated: Minor edit 1/2013

ANTH 177 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.
ANTH 178 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr
Prerequisite: department permission

ANTH 179 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs
Prerequisite: department permission

ANTH 210 - History of Anthropological Theory

A survey of various theoretical approaches within the field of cultural anthropology. The course will span the period from the mid-19th century to the present, covering theoretical perspectives that have dominated European and American schools of anthropology.

Credit Hours: 3 hrs
Prerequisite: ANTH 135
Last Updated: 2/17/2011

ANTH 212 - Peoples and Cultures of China

This course provides an overview of anthropological approaches to the study of both traditional and contemporary China, with an emphasis on conditions in the most recent decades. It pays particular attention to issues of family and social relations, gender and kinship, ethnicity, social inequality, and China in globalization.

Credit Hours: 3 hrs
Repeatable for Credit: No
Prerequisite: ANTH 135
Class Restrictions: All Undergraduates
Last Updated: New Course 4/2014, effective Fall 2014

ANTH 214 - U.S. Racial and Cultural Minorities (GEUS)

An introduction to the study of U.S. diversity with particular reference to the African American and Hispanic, and European and Asian immigrants in the United States; racial myths, doctrines and movements; conflict and accommodation of majority and minority people; and proposed solutions of ethnic problems.

Credit Hours: 3 hrs
Cross-Listed with: SOCL 214
Perspectives on a Diverse World:
This course is an introduction to the study of U.S. diversity in reference to majority-minority relations. Students will examine the characteristics of the racial, ethnic and subcultural factors leading to the emergence of specific minority groups in American
society. The dynamics of discrimination and assimilation will be studied as they apply to major American ethnic and subcultural groups, and issues related to separatism vs. multiculturalism will be discussed in a cross-cultural, comparative framework.

This course provides students with the conceptual tools to analyze their own experience of minority-majority status, and to trace the roots of such an experience by placing it in the context of American culture. Also, by applying social-science models to the understanding of the cultural, racial, ethnic and subcultural diversity found in the U.S. students will be able to more clearly assess the complexity of in-group and out-group perspectives on identity and discrimination, particularly in reference to intercultural competence.

**Last Updated:** 2/17/2011

**ANTH 233 - Cultures of Mesoamerica and the Caribbean (GEGA)**

A regional, historical and topical survey of Mesoamerica (Mexico, Guatemala, Belize, El Salvador and Honduras) and Caribbean cultures.

**Credit Hours:** 3 hrs

**Perspectives on a Diverse World:**

Rationale: Mesoamerica and the Caribbean have diverse nations and cultures interacting in the global community that are confronting many of the same major issues as in other world regions. Students explore and compare cultures in both macro-regions, and further compare those cultures with cultures of North America. This course also emphasizes North American political and economical interconnections with Mesoamerica and the Caribbean: how those relationships have influenced the creation and character of national governments, alliances and conflicts, and grass-roots cultural reactions. By studying Mesoamerican and Caribbean cultures, students learn the diverse ways that cultures create and classify races, classes, and genders, and how these differ from classifications in North America. Students are exposed to culture-specific and cross-cultural patterns in the causes and consequences of social, cultural, and racial intolerance. Students successfully completing this course learn how to analyze and synthesize diverse sources of information to make informed decisions on major issues confronting Mesoamerica, the Caribbean, and other world religions experiencing similar issues.

**Last Updated:** 2/11/11; effective Fall 2011

**ANTH 236 - Peoples and Cultures of Africa**

A regional, historical and topical survey of African cultures.

**Credit Hours:** 3 hrs

**Prerequisite:** ANTH 135

**Last Updated:** 2/18/2011

**ANTH 237 - Native North American Cultures (GEUS)**

A regional, historical and topical survey of aboriginal North American cultures.

**Credit Hours:** 3 hrs

**Perspectives on a Diverse World:**

This course introduces students to the diverse political economic and belief systems of indigenous North American cultures (primarily within the U.S. but also in Canada) and the historical and modern impacts of European colonial and U.S. government policies toward Native American peoples. Emphasized throughout the course are the differences among Euro-American political economies and associated ideologies and those of different Native American cultures. Students will learn and understand the historic creation and modern perpetuation of social intolerance, institutionalized racism, ethnocentrism, stereotyping and exclusion. In addition to outlining the causes and consequences of ethnic cleansing, genocide and refugee migrations in North America, the course also explores institutionalized attempts at forced "westernization" of Native Americans through reservation-allotment, missionaries, educational systems and other policies resulting in impoverishment, erosion of social organizations, and loss of culture. Students develop awareness and explanations for alternative cultural identities and values by comparing the
varying social experiences and civil rights movements of Native Americans with those of other minority groups.

Last Updated: *

**ANTH 248 - Peoples and Cultures of the Pacific**

A regional, historical and topical survey of indigenous Pacific cultures.

**Credit Hours:** 3 hrs  
**Prerequisite:** ANTH 135  
**Last Updated:** 2/18/2011

**ANTH 250 - World Prehistory**

An overview of human prehistory, from the earliest hominids to early state societies. Course topics include data, theories, and knowledge from anthropological archaeology on hominid material culture, social organization, and dispersals; transitions from foraging societies to Neolithic farming village societies; and the development of different types of state societies.

**Credit Hours:** 3 hrs  
**Last Updated:** Corrected typo in description 4/2016

**ANTH 261 - Introduction to Archaeological Fieldwork**

One week of training in archaeological fieldwork.

**Credit Hours:** 3 hrs  
**Prerequisite:** ANTH 135, ANTH 140 and departmental permission  
**Last Updated:** Number Change 04/2012

**ANTH 277 - Special Topics**

An examination of topics in anthropology not normally covered in the curriculum. Students may elect this course several times, provided different topics are studied.

**Credit Hours:** 1 hr  
**Prerequisite:** ANTH 135  
**Last Updated:** 2/18/2011

**ANTH 278 - Special Topics**

An examination of topics in anthropology not normally covered in the curriculum. Students may elect this course several times, provided different topics are studied.

**Credit Hours:** 2 hrs  
**Prerequisite:** ANTH 135  
**Last Updated:** 2/18/2011

**ANTH 279 - Special Topics**

An examination of topics in anthropology not normally covered in the curriculum. Students may elect this course several times, provided different topics are studied.
ANTH 309 - Culture and Personality

An analysis of the manner in which group and cultural factors influence the growth and change of personality. The impact of personality types on group life.

**Credit Hours:** 3 hrs  
**Prerequisite:** ANTH 135  
**Last Updated:** 2/18/2011

ANTH 329 - Medical Anthropology

Ways in which various cultures define, explain, and treat physical and psychic illness. Different approaches to curing including witchcraft, sorcery, spiritual and psychic healing, and the use of hallucinogens compared with contemporary medical practices.

**Credit Hours:** 3 hrs  
**Prerequisite:** ANTH 135 or department permission  
**Last Updated:** 2/18/2011

ANTH 330 - Anthropology of Law and Politics

Comparative study of political systems in various societies, local-level politics, government and law; examined from an anthropological perspective.

**Credit Hours:** 3 hrs  
**Prerequisite:** ANTH 135  
**Class Restrictions:** Sophomore standing  
**Last Updated:** 2/18/2011

ANTH 336 - Social and Cultural Change

A survey of the theories and problems of change as they affect at the global, national and subcultural levels.

**Credit Hours:** 3 hrs  
**Prerequisite:** ANTH 135 or SOCL 105  
**Notes:** Not open to those with credit in SOCL 309  
**Last Updated:** 2/18/2011

ANTH 337 - Applied Anthropology

The application of anthropological knowledge and methods to address contemporary human problems.

**Credit Hours:** 3  
**Prerequisite:** ANTH 135, and Sophomore standing or above.  
**Last Updated:** Prereq Update 7/26/2011; Created 7/22/2011

ANTH 338 - Anthropology of Religion
The cross-cultural study of religious belief and ritual in various societies.

**Credit Hours:** 3 hrs  
**Prerequisite:** ANTH 135  
**Class Restrictions:** Sophomore standing  
**Last Updated:** 2/18/2011

**ANTH 340 - Language and Culture**

A study of the relation of language to social behavior and modes of thought in unilingual and multilingual speech communities.

**Credit Hours:** 3 hrs  
**Prerequisite:** ANTH 135 or LING 201 or LNGE 223  
**Cross-Listed with:** LING 340  
**Previously Listed As:** ANT 340  
**Last Updated:** Cross-listed Course Update 01/2012

**ANTH 345 - Ethnographic Methods**

A review and examination of social science research methods that entail fieldwork, participant observation, naturalistic experimentation and the analysis of cultural data.

**Credit Hours:** 3 hrs  
**Prerequisite:** ANTH 135 or SOCL 105 or department permission  
**Cross-Listed with:** SOCL 345  
**Notes:** Not open to those with credit in SOCL 345.  
**Previously Listed As:** Qualitative Methods  
**Last Updated:** 2/18/2011; effective Spring 2011

**ANTH 350 - Ancient Civilizations of Mesoamerica**

A chronological and regional survey of the ancient civilizations of Mexico and northern Central America, including the Olmecs, Maya, Toltecs and Aztecs. Course themes include Mesoamerican archaeology, early state development and decline, social organization, economy and ecology, and the legacy of ancient Mesoamerica.

**Credit Hours:** 3 hrs  
**Prerequisite:** ANTH 135  
**Class Restrictions:** Sophomore standing  
**Last Updated:** 2/18/2011

**ANTH 351 - Mexico: The Route of Cortez**

Follow the route of Cortez through Southern and Central Mexico. The course emphasizes cultural history, globalization, and gender themes from anthropological perspectives. This is a 1-week study abroad program with educational tours in the states of Tabasco, Veracruz, and Mexico. Students must apply for registration through the EMU Academic Programs Abroad Office.

**Credit Hours:** 3 hrs  
**Repeatable for Credit:** No  
**Prerequisite:** ANTH 135 and department permission  
**Last Updated:** New Course 12/2011, effective Winter 2012

**ANTH 355 - Anthropology of Women**
This course focuses on the lives of women and theories of their positions in diverse cultural contexts. Issues of gender are also explored.

**Credit Hours:** 3 hrs  
**Prerequisite:** ANTH 135  
**Cross-Listed with:** WGST 355  
**Last Updated:** 2/18/2011

### ANTH 361 - Archaeological Fieldwork

Intermediate training in archaeological fieldwork.

**Credit Hours:** 5 hrs  
**Prerequisite:** ANTH 135, ANTH 140 and departmental permission  
**Last Updated:** Number Change 04/2012

### ANTH 362 - Artifact Analysis

Principles and practical experience in archaeological laboratory recording and analysis of artifact attributes to address basic questions on chronology, site function and spatial patterns.

**Credit Hours:** 3 hrs  
**Concurrent Prerequisite:** ANTH 361 or ANTH 461  
**Last Updated:** Change to prerequisites 1/2014, effective Summer 2014; 2/18/2011

### ANTH 370 - Human Osteology in Anthropology

An in-depth introduction to the human skeleton from an anthropological bio-cultural evolutionary perspective, covering bone histology, growth and development, human variation, pathology, bio-mechanics, taphonomy, and ethical considerations for applications in forensic anthropology and bioarchaeology.

**Credit Hours:** 3 hrs  
**Repeatable for Credit:** No  
**Prerequisite:** ANTH 140  
**Class Restrictions:** Sophomore, Junior, Senior, and Second Bachelor  
**Last Updated:** New Course 4/2014, effective Summer 2014

### ANTH 377 - Special Topics

An examination of topics in anthropology not normally covered in the curriculum in which the distinctive perspective and methodology of anthropology are emphasized. Students may elect this course several times, provided different topics are studied.

**Credit Hours:** 1 hr  
**Prerequisite:** ANTH 135  
**Last Updated:** 2/18/2011

### ANTH 378 - Special Topics

An examination of topics in anthropology not normally covered in the curriculum in which the distinctive perspective and methodology of anthropology are emphasized. Students may elect this course several times, provided different topics are studied.

**Credit Hours:** 2 hrs
Prerequisite: ANTH 135
Last Updated: 2/18/2011

ANTH 379 - Special Topics

An examination of topics in anthropology not normally covered in the curriculum in which the distinctive perspective and methodology of anthropology are emphasized. Students may elect this course several times, provided different topics are studied.

Credit Hours: 3 hrs
Prerequisite: ANTH 135
Last Updated: 2/18/2011

ANTH 385 - Culture of Japan

An analysis of Japanese culture from a comparative perspective. The course presents the ethnological approach to cross-cultural understanding as applied to the study of Japanese culture. By contrasting and comparing insider and outsider analyses of Japanese behavior, the dynamics of cross-cultural research are documented and discussed.

Credit Hours: 3 hrs
Prerequisite: ANTH 135 or department permission
Cross-Listed with: JPNE 385
Last Updated: 2/18/2011

ANTH 387 - Cooperative Education in Anthropology

Practical experience in industrial, business or government settings that provides job skills.

Credit Hours: 3 hrs
Prerequisite: 12 hours of anthropology, six of which must be at the 300-level or above
Notes: Offered on a credit/no-credit basis.

ANTH 412 - Culture, Tourism and Anthropology

Focusing on anthropological studies of cultural tourism, the class introduces major relevant theories and examines ethnographic case studies from around the world, to understand the consequences of tourism on local, regional, national and transnational scales.

Credit Hours: 3 hrs
Repeatable for Credit: No
Prerequisite: ANTH 135 and ANTH 210
Last Updated: New Course 01/2014, effective Summer 2014

ANTH 430 - Museum Anthropology

This course is a practicum in museology, aimed at clarifying the foundational role of anthropology in Museum Studies. Through this course students will acquire a fuller understanding of the theoretical and methodological issues at the core of conservation in general and cultural heritage interpretation in particular. The outcome of the course will be a capacity to apply the theoretical underpinnings of museum studies in the professional exercise of research exhibit-and-presentation practice.

Credit Hours: 3 hrs
Repeatable for Credit: No
Last Updated: New Course 07/2011, effective Fall 2011
ANTH 437 - Kinship, Marriage, and Social Organization

This course emphasizes Variation in family groups, larger descent groups, marriage systems, and kin terminology, with an emphasis on how these strategies are related to property ownership, labor, and gender. The course also emphasizes the historic and ongoing factors behind changing kinship strategies.

Credit Hours: 3 hrs
Prerequisite: ANTH 135 and ANTH 210
Previously Listed As: Kinship and Social Structure
Last Updated: Title and Description Change 2/2013, effective Summer 2013; Graduate Credit Removal 04/2012, effective Fall 2012; Graduate Credit 07/2011

ANTH 439W - Seminar in Anthropological Theory (GEWI)

An intensive examination of theoretical approaches to the study of cultural phenomena. Emphasis will be placed upon the critical reading of primary source materials seminal to the development of various theoretical stances within the discipline of anthropology. This course will be organized around written and oral presentations by students.

Credit Hours: 3 hrs
Prerequisite: Four courses in anthropology including ANTH 210
Class Restrictions: Senior standing
Writing Intensive:

Last Updated: Graduate Credit Removal 04/2012, effective Fall 2012; Gen Ed Approval 12/2011; Graduate Credit 07/2011

ANTH 445W - Culture Analysis Seminar (GEWI)

A culminating course examining "culture" - the key subject matter of cultural anthropology - in reference to the foundational disciplinary perspectives of holism, comparativism, relativism. The course gives particular attention to the acquisition of cultural reflexivity, and to the distinction between ethnography and ethnology as it affects both research practice and its rhetorical expressions in discipline-specific writing.

Credit Hours: 3 hrs
Prerequisite: ANTH 135
Graduate Credit: Yes
Previously Listed As: ANTH 445
Writing Intensive:

Last Updated: Grad Credit approved 02/2012, effective Winter 2013; Gen Ed approved 04/2011

ANTH 461 - Advanced Archaeological Fieldwork

Intensive training in archaeological fieldwork.

Credit Hours: 6 hrs
Last Updated: Number Change 04/2012

ANTH 462W - Archaeological Theory (GEWI)

A history of archaeological thought and the development of different theoretical trends in contemporary archeology.
ANTH 465W - Political Economy in Anthropology (GEWI)

This history of how political economy has been used in anthropological research and a survey of political economic approaches to major anthropological topics.

Last Updated: General Education Approval 10/2013, effective Winter 2014; New Course 1/2013, effective Summer 2013

ANTH 471 - Research Methods in Bio-archaeology

Applications of methods in bio-archaeological research, including curation, ethical considerations, data collection, and quantitative and qualitative analysis on ancient human skeletal remains.

Last Updated: General Education Writing Intensive Credit 2/2013, effective Summer 2013; 2/18/2011

ANTH 477 - Special Topics

An examination of topics in anthropology not normally covered in the curriculum in which the distinctive perspective and methodology of anthropology are emphasized. Advanced students may elect this course several times, provided different topics are studied.

Last Updated: 2/18/2011

ANTH 478 - Special Topics

An examination of topics in anthropology not normally covered in the curriculum in which the distinctive perspective and methodology of anthropology are emphasized. Advanced students may elect this course several times, provided different topics are studied.

Last Updated: 2/18/2011

ANTH 479 - Special Topics
An examination of topics in anthropology not normally covered in the curriculum in which the distinctive perspective and methodology of anthropology are emphasized. Advanced students may elect this course several times, provided different topics are studied.

**Credit Hours:** 3 hrs  
**Prerequisite:** ANTH 135  
**Last Updated:** 2/18/2011

### ANTH 487 - Cooperative Education in Anthropology

Practical experience in industrial, business or government settings that provides job skills.

**Credit Hours:** 3 hrs  
**Prerequisite:** department permission  
**Notes:** Offered on a credit/no-credit basis  
**Last Updated:** Graduate Credit Removal 04/2012, effective Fall 2012; Graduate Credit 07/2011

### ANTH 497 - Individualized Reading and Research in Anthropology

Directed reading and research on problems within the field of anthropology.

**Credit Hours:** 1 hr  
**Prerequisite:** ANTH 135 and department permission  
**Last Updated:** 2/18/2011

### ANTH 498 - Individualized Reading and Research in Anthropology

Directed reading and research on problems within the field of anthropology.

**Credit Hours:** 2 hrs  
**Prerequisite:** ANTH 135 and department permission  
**Last Updated:** 2/18/2011

### ANTH 499 - Individualized Reading and Research in Anthropology

Directed reading and research on problems within the field of anthropology.

**Credit Hours:** 3 hrs  
**Prerequisite:** ANTH 135 and department permission  
**Last Updated:** 2/18/2011

### Criminology

### CRM 200 - Introduction to Crime and Justice (GEKS)

An introduction to policy issues, theories and strategies regarding the fields of criminal justice and criminology.

**Credit Hours:** 3 hrs  
**Knowledge of the Disciplines:**
CRM 222 - Pornography and Crime

The course will focus on the legal definitions of pornography, censorship versus freedom of speech, the types of pornography that are policed (e.g. violent, and child pornography), police strategies, criminal versus social action, as well as the relationship between harm, consent, criminal behavior and hate crimes.

Credit Hours: 3 hrs

CRM 277 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr

CRM 278 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs

CRM 279 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs

CRM 300 - Criminal Justice

A critical view of the entire spectrum of criminal justice. The police, courts and corrections studied as interrelated institutions in the process of defining criminals.

Credit Hours: 3 hrs

CRM 301 - Criminology

Credit Hours: 3 hrs

CRM 320 - Criminal Investigation

Introduction to the science of criminal investigations, including the methodology of crime scene investigations, evidence collection, preservation and analysis. Other topics include the constitutional, legal and historical concerns relevant to procedural issues of investigation.
CRM 321 - Cooperation and Conflict in Society

The principles of cooperation, cooperation in our competitive-individualistic society, cooperative skills and forms of mutual aid are examined. Students learn cooperation through doing, as well as reading and writing, including a variety of group projects, exercises and discussion.

Credit Hours: 3 hrs
Prerequisite: CRM 300
Last Updated: Links 04/2011

CRM 331 - Introduction to Corrections

An examination of corrections/punishment in contemporary society, its historical development, structural dependency, relationship to the system of justice and problems of effectiveness.

Credit Hours: 3 hrs
Prerequisite: CRM 300
Last Updated: Links 04/2011

CRM 332 - Community Corrections

An examination of the limitations of incarceration and the potential of community based alternatives.

Credit Hours: 3 hrs
Prerequisite: CRM 300
Last Updated: Links 04/2011

CRM 333 - Violence and Society

An introduction to and survey of the multi-disciplinary study of violence and society. Issues specifically examined are mass institutions of media, culture and identity formation.

Credit Hours: 3 hrs
Prerequisite: SOCL 105
Cross-Listed with: SOCL 333
Last Updated: Links 04/2011

CRM 337 - Deviance and Society

An introduction to the scientific study of deviance, society’s reaction to deviance and the social strategies for managing deviance.

Credit Hours: 3 hrs
Prerequisite: SOCL 105
Cross-Listed with: SOCL 337
Last Updated: Links 04/2011
CRM 338 - Women, Crime and Justice

This course will offer a critical analysis of gender and criminal justice as it relates to women as victims, offenders and agents of the criminal justice system. Additionally, the social conditions of criminality, intervention strategies as well as social action and criminal justice policy reform will be examined.

**Credit Hours:** 3 hrs  
**Cross-Listed with:** WGST 338, SOCL 338  
**Last Updated:** Links 04/2011

CRM 354 - Juvenile Delinquency

The nature, incidence and measurement of juvenile delinquency; theories and causation; juvenile justice philosophies and treatment methods.

**Credit Hours:** 3 hrs  
**Last Updated:** Department change 7/2014

CRM 362 - Ethics for Criminal Justice Professionals

This course provides the basic materials for analyzing ethical situations in criminal justice professions. Case studies of misconduct and its effects, and various policy issues, such as discretion and due process in law enforcement, the courts and corrections will be examined.

**Credit Hours:** 3 hrs  
**Repeatable for Credit:** No  
**Last Updated:** New Course 02/2012, effective Fall 2012

CRM 370 - White Collar Crime

An examination of the definitions, laws, causes and policy responses that shape crimes by corporations, government agencies, professionals and others engaged in legitimate occupations.

**Credit Hours:** 3 hrs

CRM 377 - Special Topics

A single topic is covered each semester, selected as the interest and/or problems change. Students may elect a special topics course several times, provided different topics are studied, but only twice for credit toward a major or minor in criminology.

**Credit Hours:** 1 hr

CRM 378 - Special Topics

A single topic is covered each semester, selected as the interest and/or problems change. Students may elect a special topics course several times, provided different topics are studied, but only twice for credit toward a major or minor in criminology.

**Credit Hours:** 2 hrs

CRM 379 - Special Topics
A single topic is covered each semester, selected as the interest and/or problems change. Students may elect a special topics course several times, provided different topics are studied, but only twice for credit toward a major or minor in criminology.

**Credit Hours:** 3 hrs

**CRM 387 - Cooperative Education in Criminal Justice**

Practical experience in agencies or government settings to provide job skills.

**Credit Hours:** 3 hrs  
**Prerequisite:** department permission  
**Class Restrictions:** Junior standing  
**Notes:** Offered on a credit/no-credit basis

**CRM 410 - Forensic Science Evidence in Criminal Cases**

A study of scientific evidence in criminal cases, the standards used to prevent "junk science", the reliability of common forms of evidence (fingerprints, handwriting, hair, bite marks, ballistics, fire and Arson, blood stains, and social sciences testimony), and the impact of DNA exonerations on the reliability of forensic science evidence.

**Credit Hours:** 3 hrs  
**Repeatable for Credit:** No  
**Prerequisite:** CRM 300  
**Last Updated:** New Course 5/2013, effective Winter 2014

**CRM 412 - Law and Society**

Law as a social and cultural product; the interrelationships between law and social institutions.

**Credit Hours:** 3 hrs  
**Prerequisite:** SOCL 105  
**Cross-Listed with:** SOCL 412  
**Notes:** Not open to those with credit in SOCL 412.  
**Last Updated:** Graduate Credit Removal 04/2012, effective Fall 2012; Graduate Credit 07/2011; Links 04/2011

**CRM 420 - Drugs, Crime and Criminal Justice**

Analysis of legal and illegal drugs and their relation to crime, costs associated. With drug use and abuse, methodologies to collect data on drug theories, as well as drug control policies like D.A.R.E. and the War on Drugs and regulatory strategies as are applied to legal substances.

**Credit Hours:** 3 hrs  
**Prerequisite:** CRM 300 and CRM 301  
**Class Restrictions:** Sophomore standing  
**Last Updated:** Links 04/2011

**CRM 431 - Policing in Society**

The social and historical origin of the police; police culture, role and career; police in the legal system; police discretion; ethical development of police; police and the community; police organization and community control.

**Credit Hours:** 3 hrs
Prerequisite: CRM 300

**CRM 432 - Police Organization**

An examination of the major theories of police organization and how these theories can enhance our understanding of policing and help solve problems facing the police in everyday life.

Credit Hours: 3 hrs
Prerequisite: CRM 300

**CRM 447W - Senior Seminar in Criminology (GEWI)**

Summations and integrations of the various bodies of criminological knowledge and their applications to policies of crime prevention and control.

Credit Hours: 3 hrs
Prerequisite: CRM 300, CRM 301, SOCL 250 and SOCL 304
Class Restrictions: Senior standing
Writing Intensive:

Last Updated: Graduate Credit Removal 04/2012, effective Fall 2012; Graduate Credit 07/2011; Links 04/2011

**CRM 460 - Criminal Law II**

The social, political, and historical evolution of criminal procedure with an emphasis on its application with regard to law enforcement and the judiciary.

Credit Hours: 3 hrs
Last Updated: Graduate Credit Removal 04/2012, effective Fall 2012; Graduate Credit 07/2011

**CRM 477 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr

**CRM 478 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs

**CRM 479 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.
Credit Hours: 3 hrs

CRM 487 - Cooperative Education in Criminal Justice

Practical experience in agencies or government settings to provide job skills.

Credit Hours: 3 hrs
Prerequisite: department permission
Notes: Offered on a credit/no-credit basis.
Last Updated: Graduate Credit Removal 04/2012, effective Fall 2012; Graduate Credit 07/2011

CRM 488 - Field Internship in Criminology and Criminal Justice

A minimum of ten hours per week in a governmental or private agency dealing with the crime problem. The agency and the field instructor provide supervised learning experiences.

Credit Hours: 3 hrs each
Class Restrictions: Junior standing and department permission; second semester Juniors may be admitted by department permission
Last Updated: Graduate Credit Removal 04/2012, effective Fall 2012; Graduate Credit 07/2011

CRM 489 - Field Internship in Criminology and Criminal Justice

A minimum of ten hours per week in a governmental or private agency dealing with the crime problem. The agency and the field instructor provide supervised learning experiences.

Credit Hours: 3 hrs each
Class Restrictions: Junior standing and department permission; second semester Juniors may be admitted by department permission
Last Updated: Graduate Credit Removal 04/2012, effective Fall 2012; Graduate Credit 07/2011

CRM 497 - Independent Study

Independent study, under the supervision of a department member, in areas in which the department does not offer a course.

Credit Hours: 1 hr
Prerequisite: department permission

CRM 498 - Independent Study

Independent study, under the supervision of a department member, in areas in which the department does not offer a course.

Credit Hours: 2 hrs
Prerequisite: department permission

CRM 499 - Independent Study

Independent study, under the supervision of a department member, in areas in which the department does not offer a course.
Sociology

SOCL 105 - Introductory Sociology (GEKS)

Basic sociological concepts are used to analyze social systems, socialization, social inequality, deviance and conformity, and the process of social change with focus on family, educational, religious, governmental and economic institutions.

Credit Hours: 3 hrs

Prerequisite: department permission

Knowledge of the Disciplines:

This course provides a critical introduction to key concepts and ideas common to all sociological endeavor, as well as the methods by which sociologists advance social scientific knowledge. Students will be introduced to major theoretical perspectives, as well as key concepts, such as culture, socialization and social interaction, all of which guide the practice of sociology. Students will also come to understand the nature of major societal institutions, including family, education, economy and government, along with the formal and informal dimensions of race, social class and gender within the field. For each segment of the course, students will examine the challenges associated with conducting social research. Introduction to Sociology focuses on comparing and contrasting the potential for using various research methods to generate knowledge, with a special emphasis on comparing quantitative and qualitative methods. Students will also come to explore the benefits of employing a sociological perspective to the analysis of contemporary events and, in the process, will be socialized into becoming critical consumers of reporting in the mass media, much of which is increasingly based on social science research.

Last Updated: Minor edit 1/2013

SOCL 177 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr

Prerequisite: SOCL 105

Last Updated: Links 03/2011

SOCL 178 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs

Prerequisite: SOCL 105

Last Updated: Links 03/2011

SOCL 179 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs

Prerequisite: SOCL 105

Last Updated: Links 03/2011
SOCL 202 - Social Problems

An analysis of problems arising in contemporary American society, such as child rearing, relations between the sexes, crime and delinquency, relations between racial and cultural subgroups, and personality disorders.

Credit Hours: 3 hrs
Prerequisite: SOCL 105
Last Updated: Links 03/2011

SOCL 204 - Marriage and Family

The position and significance of the family in our changing society. Courtship, mate selection and problems of marital adjustment from sociological and social-psychological perspectives.

Credit Hours: 3 hrs
Prerequisite: SOCL 105
Last Updated: Links 03/2011

SOCL 208 - Minority Women in the United States

This course surveys the situation of and the conditions that affect the lives of four groups of minority women in the United States who are from diverse cross-cultural backgrounds: Black, Asian-American, Latin-American and Native American. It focuses on the contemporary situation of these women and compares the four groups in terms of demographics, economic and occupational situations, education, family lives and relationship to the feminist movement.

Credit Hours: 3 hrs
Prerequisite: SOCL 105
Cross-Listed with: WGST 208
Last Updated: Links 03/2011

SOCL 214 - U.S. Racial and Cultural Minorities (GEUS)

An introduction to the study of U.S. diversity with particular reference to the black and Hispanic, and European and Asian immigrants in the United States; racial myths, doctrines and movements; conflict and accommodation of majority and minority people; and proposed solutions of ethnic problems.

Credit Hours: 3 hrs
Cross-Listed with: ANTH 214
Perspectives on a Diverse World:
This course is an introduction to the study of U.S. diversity in reference to majority-minority relations. Students will examine the characteristics of the racial, ethnic and subcultural factors leading to the emergence of specific minority groups in American society. The dynamics of discrimination and assimilation will be studied as they apply to major American ethnic and subcultural groups, and issues related to separatism vs. multiculturalism will be discussed in a cross-cultural, comparative framework.

This course provides students with the conceptual tools to analyze their own experience of minority-majority status, and to trace the roots of such an experience by placing it in the context of American culture. Also, by applying social-science models to the understanding of the cultural, racial, ethnic and subcultural diversity found in the U.S. students will be able to more clearly assess the complexity of in-group and out-group perspectives on identity and discrimination, particularly in reference to intercultural competence.

Last Updated: Links 03/2011

SOCL 219 - Around the World in 80 Years: Adult Development Across Culture
Through the study of adult development, students will consider how the aging of the world's population is affecting diverse cultures, societies - and families - across the globe. Issues of social justice and empowerment related to population aging will addressed, particularly the social, economic, political and policy consequences.

Credit Hours: 3 hrs
Cross-Listed with: AGIN 219
Last Updated: Links 03/2011

SOCL 230 - Introduction to Applied Sociology

This course will be geared towards those students interested in applying the core elements of sociology to business, government and social service organizations. The tools of sociology, including theory and methods, will actively inform the study of various issues in a range of professional settings.

Credit Hours: 3 hrs
Prerequisite: SOCL 105
Last Updated: Links 03/2011

SOCL 250 - Quantitative Applications in Sociology (GEQR)

Introduction to the evaluation and interpretation of numerical and categorical data using descriptive and inferential statistical techniques.

Credit Hours: 3 hrs
Prerequisite: MATH 104 (with a grade of C or better) or MATH 110 or level 4 math placement (math ACT score greater or equal to 23 or SAT Math score greater or equal to 580 or at least 53 on the College Level Math part of the Mathematics placement test).
Quantitative Reasoning:

Last Updated: prerequisite added 1/2/13, effective Summer 2013 Gen Ed Approval 08/2007, effective Winter 2008

SOCL 277 - Special Topics

A single topic is covered each semester, selected as the interest and/or problems change. Students may elect this course several times, provided different topics are studied, but only twice for credit toward a major or minor in sociology.

Credit Hours: 1 hr
Prerequisite: SOCL 105
Last Updated: Links 03/2011

SOCL 278 - Special Topics

A single topic is covered each semester, selected as the interest and/or problems change. Students may elect this course several times, provided different topics are studied, but only twice for credit toward a major or minor in sociology.

Credit Hours: 2 hrs
Prerequisite: SOCL 105
Last Updated: Links 03/2011

SOCL 279 - Special Topics
A single topic is covered each semester, selected as the interest and/or problems change. Students may elect this course several times, provided different topics are studied, but only twice for credit toward a major or minor in sociology.

**Credit Hours:** 3 hrs  
**Prerequisite:** SOCL 105  
**Last Updated:** Links 03/2011

**SOCL 303 - Sociology of Childhood and Youth**

Childhood and youth as elements of social organization. The relationship between social structure and the emergent personality of the individual; normality and deviance as social processes.

**Credit Hours:** 3 hrs  
**Prerequisite:** SOCL 105  
**Last Updated:** Links 03/2011

**SOCL 304 - Methods in Sociological Research**

Methods used in sociological research and their various applications. Participation in conducting a survey.

**Credit Hours:** 3 hrs  
**Prerequisite:** SOCL 105  
**Last Updated:** Links 03/2011

**SOCL 306 - The Urban Community**

Ecological and social organization of urban life. The metropolitan trend in the United States and the social problems created by it.

**Credit Hours:** 3 hrs  
**Prerequisite:** SOCL 105  
**Last Updated:** Links 03/2011

**SOCL 307 - Sociology of Work**

This course addresses the dynamics of paid, unpaid, and marginalized work; managerial control and worker resistance; work and family conflicts; connections between local and global economies; and how gender; race/ethnicity, social class. age, citizenship, and sexuality shape the opportunities and rewards of work.

**Credit Hours:** 3 hrs  
**Prerequisite:** SOCL 105  
**Previously Listed As:** SOCL 307 - Sociology of the Workplace  
**Last Updated:** Title and Description change 11/2012, effective Winter 2013; Links 03/2011

**SOCL 308 - Social Psychology**

Introductory study of the order and regularity underlying processes of human interaction. Motives and attitudes, social norms and roles, the socialization process, personality and group membership. The effect of group membership upon individual behavior.

**Credit Hours:** 3 hrs  
**Prerequisite:** SOCL 105
SOCL 309 - Culture and Personality

An analysis of the manner in which group and cultural factors influence the growth and change of personality. The impact of personality types on group life.

Credit Hours: 3 hrs
Prerequisite: SOCL 105 or ANTH 135
Notes: Not open to those with credit in ANTH 309.

SOCL 310 - Social Stratification

This course focuses on the social factors of inequality, the process of status attainment, and social mobility in contemporary societies. These aspects of stratification are examined on both the national and global levels. Course materials address the differential distribution of and access to resources including issues of race, class and gender.

Credit Hours: 3 hrs
Prerequisite: SOCL 105

SOCL 311W - Aging and the Life Course (GEWI)

Aging is viewed as a life course process. We focus on social and cultural aspects, noting attitudes toward aging, assessing how aging experiences are affected by social location (gender, race/ethnicity, class), and elaborate the social construction of age including implications of population aging for individual and societal well-being.

Credit Hours: 3 hrs
Prerequisite: SOCL 105
Writing Intensive:

SOCL 312 - Sociology of Health & Illness

Credit Hours: 3 hrs
Prerequisite: SOCL 105
Previously Listed As: Medical Sociology

SOCL 320 - Sociology of Religion

A sociological analysis of religious organizations and the institution of religion including the interaction between religious organizations and other institutions and associations, and the role of religion in social movements and social change.

Credit Hours: 3 hrs
SOCL 321 - Cooperation and Conflict in Society

The principles of cooperation, cooperation in our competitive-individualistic society, cooperative skills and forms of mutual aid are examined. Students learn cooperation through doing, as well as reading and writing, including a variety of group projects, exercises and discussion.

Credit Hours: 3 hrs
Prerequisite: SOCL 105
Cross-Listed with: CRM 321
Last Updated: Links 03/2011

SOCL 333 - Violence and Society

An introduction to and survey of the multidisciplinary study of violence and society. Specifically examined are mass institutions of media, culture and identity formation.

Credit Hours: 3 hrs
Prerequisite: SOCL 105
Cross-Listed with: CRM 333
Last Updated: Links 03/2011

SOCL 334 - Population

Population size and composition, and their impact on society; determinants and consequences of natality, mortality and migration; the relationship between human numbers and resources and its politico-economic implications; population theories and policies of population control.

Credit Hours: 3 hrs
Prerequisite: SOCL 105
Last Updated: Links 03/2011

SOCL 336 - Social and Cultural Change

A survey of the theories and problems of change as they affect at the global, national and subcultural levels.

Credit Hours: 3 hrs
Prerequisite: SOCL 105 or ANTH 135
Notes: Not open to those with credit in ANTH 336.
Last Updated: Links 03/2011

SOCL 337 - Deviance and Society

An introduction to the scientific study of deviance, society’s reaction to deviance and the social strategies for managing deviance.

Credit Hours: 3 hrs
Prerequisite: SOCL 105
Cross-Listed with: CRM 337
Last Updated: Links 03/2011
SOCL 338 - Women, Crime and Justice

This course will offer a critical analysis of gender and criminal justice as it relates to women as victims, offenders and agents of the criminal justice system. Additionally, the social conditions of criminality, intervention strategies, as well as, social action and criminal justice policy reform will be examined.

Credit Hours: 3 hrs  
Cross-Listed with: WGST 338, CRM 338  
Last Updated: Links 03/2011

SOCL 339 - Sociology of Love

A sociological examination of love, emphasizing typologies, scientific research and cross-cultural comparisons. Special attention is given to the analysis of love in terms of feelings, thoughts, behaviors and attitudes.

Credit Hours: 3 hrs  
Prerequisite: SOCL 105  
Last Updated: Links 03/2011

SOCL 341 - Quantitative Methods of Social Research I

Examination and review of research methods in behavioral sciences and the nature of empirical data, organization of univariate and bivariate data.

Credit Hours: 3 hrs  
Prerequisite: SOCL 105  
Notes: Not open to those with credit in SOCL 250 or SOCL 304. Must be followed by SOCL 342.  
Last Updated: Links 03/2011

SOCL 342 - Quantitative Methods of Social Research II

Further review and applications of research methods and introduction to statistical inference.

Credit Hours: 3 hrs  
Prerequisite: SOCL 341  
Notes: Not open to those with credit in SOCL 250 or SOCL 304.  
Last Updated: Links 03/2011

SOCL 344 - Sociology of Gender

Analysis of past, present and future sex roles; the changing roles of women and men, and the conflicts and consequences of these changes on marriage and family systems in the United States.

Credit Hours: 3 hrs  
Prerequisite: SOCL 105  
Cross-Listed with: WGST 344  
Last Updated: Links 03/2011

SOCL 345 - Ethnographic Methods
A review and examination of social-science research methods that entail fieldwork, participant observation, naturalistic experimentation and the analysis of cultural data.

**Credit Hours:** 3 hrs  
**Prerequisite:** SOCL 105 or ANTH 135 or department permission  
**Cross-Listed with:** ANTH 345  
**Notes:** Not open to those with credit in ANTH 345.  
**Previously Listed As:** Qualitative Methods  
**Last Updated:** 2/16/2011; effective Spring 2011

**SOCL 352 - Sociology of Education**

Using the traditional lecture method combined with small-group interactive exercises, this course will systematically examine the institution of American public education by focusing on the interplay between education, its social history, gender and race, environment, social control, ideology, the school in a global economy, and social structure in the formation and procession of schooling through a variety of theoretical scopes.

**Credit Hours:** 3 hrs  
**Prerequisite:** SOCL 105  
**Last Updated:** Links 03/2011

**SOCL 375 - Political Sociology**

The structure of political systems analyzed from an individual and social system perspective.

**Credit Hours:** 3 hrs  
**Prerequisite:** SOCL 105  
**Last Updated:** Links 03/2011

**SOCL 387 - Cooperative Education in Sociology**

Practical experience in industrial, business, or government settings to provide job skills.

**Credit Hours:** 3 hrs  
**Prerequisite:** Department permission  
**Notes:** Offered on a credit/no-credit basis  
**Last Updated:** Links 03/2011

**SOCL 402 - Group Dynamics**

Structure and interaction processes of small groups. Cohesiveness, group standards, conformity and deviance, leadership, group emotion, communication, group roles and sociometrics.

**Credit Hours:** 3 hrs  
**Prerequisite:** SOCL 105  
**Last Updated:** Graduate Credit Removal 04/2012, effective Fall 2012; Graduate Credit 07/2011; Links 03/2011

**SOCL 403W - Modern Sociological Theory (GEWI)**

The rise and development of sociological thought from Comte to the present. The works of various European and American schools analyzed and critically appraised in terms of their value in empirical research.
Writing Intensive:
This course is organized to have students develop and employ successful, flexible writing and reading strategies that support sustained inquiry in sociology. The course will culminate in a research project where students will use writing strategies designed to increase knowledge of how sociological theory has evolved to aid our understanding of pressing issues facing our contemporary world by formulating research questions, and responding to them by searching library data bases as well as incorporate assigned readings to conduct a literature review. This course will lead to the student learning to communicate, disseminate, and interpret information within sociology. Finally, this research project will be a process where student work is supported through intermediate steps with opportunities for feedback and revision.

SOCL 405 - Senior Seminar in Sociology

The purpose of this course is to integrate sociological knowledge, theory and methods, and relate them to applications within the student’s discipline and profession.

SOCL 412 - Law and Society

Law as a social and cultural product; the interrelationships between law and social institutions.

SOCL 440 - Sociology of Technology

A study of social factors involved in the creation, innovation, distribution, evaluation and social effects of technology.

SOCL 448 - Collective Behavior

Spontaneous, transitory and volatile collective behavior contrasted with the relatively stable, institutionalized patterns of interaction. Analysis of rumor transmission, crowd behavior, mass behavior, and the emergence of organized social movements.
SOCL 450 - The Family

The family as a basic social institution. Various types of family systems throughout the world with special emphasis on the American family.

Credit Hours: 3 hrs
Prerequisite: SOCL 105
Last Updated: Graduate Credit Removal 04/2012, effective Fall 2012; Graduate Credit 07/2011; Links 03/2011

SOCL 451 - Sociology of Work and Occupations

Social aspects of work. Recruitment, career patterns, professionalization, sociology of the workplace and labor force.

Credit Hours: 3 hrs
Prerequisite: SOCL 105
Last Updated: Graduate Credit Removal 04/2012, effective Fall 2012; Graduate Credit 07/2011; Links 03/2011

SOCL 456 - Global Women: A Cross-Cultural Approach

An overview of how globalization processes - economic, cultural and political - impact women and gender inequalities across countries and cultures. The course examines the intersections of gender and work, race, ethnicity, family, religion, and political participation from an international comparative approach, and how the internationalization of women's rights and organizations has been redefining feminism worldwide.

Credit Hours: 3 hrs
Class Restrictions: Senior, Graduate Certificate or Masters standing
Cross-Listed with: WGST 456, WGST 556, SOCL 556
Course Revisions: effective Winter 2015, the following revisions will be made to this course, 1) Change to course title, to "Gendered Globalization: Economic, Political and Cultural Dimensions, and 2) change to course description.

Last Updated: Course revision note added 6/2014, effective Winter 2015; Links 03/2011

SOCL 462 - Complex Organizations

An examination of several types of large organizations, with emphasis on the nature of bureaucratic organizations. Theoretical and empirical studies of organizational growth, recruitment, control and relations between organizations.

Credit Hours: 3 hrs
Prerequisite: SOCL 105
Last Updated: Graduate Credit Removal 04/2012, effective Fall 2012; Graduate Credit 07/2011; Links 03/2011

SOCL 465 - Sociology of Revolution

This course surveys major theoretical perspectives that have been used by social scientists to interpret and explain revolutions. With the aid of the best available theories, the course will examine a series of historical instances, ranging from the French Revolution of the 18th century, through the Russian and Chinese Revolutions, to recent revolutions in post-colonial or dependent countries, such as the Iranian Revolution.

Credit Hours: 3 hrs
Prerequisite: SOCL 105
Last Updated: Graduate Credit Removal 04/2012, effective Fall 2012; Graduate Credit 07/2011; Links 03/2011
SOCL 477 - Special Topics

A single topic is covered each semester, selected as interest and/or problems change. Students may elect this course several times, provided different topics are studied, but only twice for credit toward a major or minor in sociology.

Credit Hours: 1 hr
Prerequisite: SOCL 105
Last Updated: Links 03/2011

SOCL 478 - Special Topics

A single topic is covered each semester, selected as interest and/or problems change. Students may elect this course several times, provided different topics are studied, but only twice for credit toward a major or minor in sociology.

Credit Hours: 2 hrs
Prerequisite: SOCL 105
Last Updated: Graduate Credit Removal 04/2012, effective Fall 2012; Links 03/2011

SOCL 479 - Special Topics

A single topic is covered each semester, selected as interest and/or problems change. Students may elect this course several times, provided different topics are studied, but only twice for credit toward a major or minor in sociology.

Credit Hours: 3 hrs
Prerequisite: SOCL 105
Last Updated: Links 03/2011

SOCL 487 - Cooperative Education in Sociology

Practical experience in industrial, business, or government settings to provide job skills.

Credit Hours: 3 hrs
Prerequisite: SOCL 387/CRM 387
Notes: Offered on a credit/no-credit basis.
Last Updated: Graduate Credit 04/2012, effective Fall 2012; Graduate Credit 07/2011; Links 03/2011

SOCL 489 - Internship in Sociology

Students are assigned a minimum of eight hours per week to a governmental or private organization dealing with a sociological problem, issue, service or concern. The placement, in agreement with the field instructor, provides supervised learning experiences appropriate to the objectives of the undergraduate program. A weekly seminar relates field experience to theory.

Credit Hours: 3 hrs
Prerequisite: SOCL 105 and department permission
Class Restrictions: Senior Standing
Major Restrictions: Sociology Majors
Last Updated: Links 03/2011

SOCL 497 - Independent Study
Directed reading and research on problems within the field of sociology.

**SOCL 498 - Independent Study**

Directed reading and research on problems within the field of sociology.

**Credit Hours:** 1 hr  
**Prerequisite:** Department permission  
**Last Updated:** Links 03/2011

**SOCL 499 - Independent Study**

Directed reading and research on problems within the field of sociology.

**Credit Hours:** 2 hrs  
**Prerequisite:** Department permission  
**Last Updated:** Links 03/2011
Women's and Gender Studies Programs and Courses

Women’s and Gender Studies

Major

Women's and Gender Studies Major

The Women’s and Gender Studies Program offers an interdisciplinary academic major and minor to provide intellectual perspective and life-enriching skills for women and men. Professors have designed technology, politics and health courses that document the contributions of women to history, literature, science, education, family and work in a cultural context. Insights into the psychology of women, the impact of women on social structures and how women influence contemporary society will be valuable to students in their personal and professional lives.

Individual courses in the Women’s and Gender Studies Program can be taken as electives to enrich any major.

General Education Requirements:

For specific requirements refer to the General Education Program.

Major Requirements: 30 hours

Core Courses: 12 hours

- WGST 200 - Introduction to Women's Studies (GEUS) 3 hrs
  or
- WGST 202 - Introduction to Gender and Sexuality (GEUS) 3 hrs
• PHIL 226 - Feminist Theory (GEGA & GEKH) 3 hrs
  or
• WGST 226 - Feminist Theory (GEGA & GEKH) 3 hrs

• WGST 300 - Feminist Inquiry 3 hrs
• WGST 400W - Capstone Seminar (GEWI) 3 hrs

**Restricted Elective Courses: 12 hours**

*Three hours from each of the following four groups. Special Topics/Independent Study substitutions need to be approved by advisor.*

**I. Arts and Humanities**

• ARTH 473 - Women in Art 3 hrs
• CASI 240 - Reel Women/Real Women 3 hrs
• CHL 353 - Genders and Sexualities in Literature for Young Readers 3 hrs
• CLAS 321 - Women and Gender in the Ancient World 3 hrs
• HIST 321 - Women and Gender in the Ancient World 3 hrs
• HIST 325 - History of Sexuality 3 hrs
• HIST 335 - History of Women in Europe 3 hrs
• HIST 336 - History of Women in the United States and Great Britain, 1800 to the Present 3 hrs
• HIST 415 - Sexual Communities in American History 3 hrs
• PHIL 326W - Philosophy & Sexuality (GEWI) 3 hrs
• PHIL 426W - Topics in Gender and Philosophy (GEWI) 3 hrs
• LITR 443 - Women in Literature 3 hrs
• LITR 445 - Sexualities in Literature and Culture 3 hrs
• WGST 321 - Women and Gender in the Ancient World 3 hrs
• WGST 325 - History of Sexuality 3 hrs
• WGST 326W - Philosophy & Sexuality (GEWI) 3 hrs
• WGST 335 - History of Women in Europe 3 hrs
• WGST 336 - History of Women in the United States and Great Britain, 1800 to the Present 3 hrs
• WGST 340 - Transgenre; Genre, Gender and Sex (A Queer Poetics) 3 hrs
• WGST 353 - Genders and Sexualities in Literature for Young Readers 3 hrs
• WGST 415 - Sexual Communities in American History 3 hrs
• WGST 426W - Topics in Gender and Philosophy (GEWI) 3 hrs
• WGST 436 - Women in Art 3 hrs
• WGST 443 - Women in Literature 3 hrs
• WGST 445 - Sexualities in Literature and Culture 3 hrs

**II. Social and Physical Sciences**

• AFC 243 - Black Women: Politics and Racism 3 hrs
• AFC 362 - Black Women: Religion and Sexism 3 hrs
• ANTH 355 - Anthropology of Women 3 hrs
• BIO 269 - Biology of Sex and Gender 3 hrs
- CRM 338 - Women, Crime and Justice 3 hrs
- ECON 328 - Economics of Women 3 hrs
- PLSC 243 - Black Women: Politics and Racism 3 hrs
- PLSC 362 - Black Women: Religion and Sexism 3 hrs
- PLSC 365 - Women and Politics 3 hrs
- PSY 242 - Psychology of Women 3 hrs
- SOCL 338 - Women, Crime and Justice 3 hrs
- SOCL 344 - Sociology of Gender 3 hrs
- SOCL 450 - The Family 3 hrs
- WGST 242 - Psychology of Women 3 hrs
- WGST 243 - Black Women: Politics and Racism 3 hrs
- WGST 269 - Biology of Sex and Gender 3 hrs
- WGST 328 - Economics of Women 3 hrs
- WGST 338 - Women, Crime and Justice 3 hrs
- WGST 344 - Sociology of Gender 3 hrs
- WGST 355 - Anthropology of Women 3 hrs
- WGST 362 - Black Women: Religion and Sexism 3 hrs
- WGST 365 - Women and Politics 3 hrs

III. Multicultural and Cross-Cultural Studies

- AFC 243 - Black Women: Politics and Racism 3 hrs
- AFC 361 - The African American Family 3 hrs
- AFC 362 - Black Women: Religion and Sexism 3 hrs
- ANTH 355 - Anthropology of Women 3 hrs
- PLSC 243 - Black Women: Politics and Racism 3 hrs
- PLSC 362 - Black Women: Religion and Sexism 3 hrs
- PSY 340 - Psychological Perspectives on Prejudice and Discrimination 3 hrs
- WGST 210 - Gender in a Transnational World (GEGA) 3 hrs
- WGST 243 - Black Women: Politics and Racism 3 hrs
- WGST 355 - Anthropology of Women 3 hrs
- WGST 362 - Black Women: Religion and Sexism 3 hrs
- WGST 370 - Women's and Gender Studies Abroad 3 hrs
- WGST 450 - Topics in Women's and Gender Studies 3 hrs
- WGST 456 - Global Women: A Cross-Cultural Approach 3 hrs

IV. Communities

- BMMT 205 - Women in Business (GEUS) 3 hours
- CTAC 260 - Gender Communication (GEUS) 3 hrs
- CTAC 265 - Communicating and LGBT Community (GEUS) 3 hrs
- LEGL 418 - Women and Law 3
- STS 420 - Women and Technology 3 hrs
- SWRK 413 - Women and Aging 3 hrs
- SWRK 462 - Practice with Lesbian, Gay, Bisexual and Transgender Persons 3 hrs
- WGST 205 - Women in Business (GEUS) 3 hrs
- WGST 230L - Conversations with Girls (GELB) 4 hrs
- WGST 260 - Gender Communication (GEUS) 3 hrs
- WGST 265 - Communicating and LGBT Community (GEUS) 3 hrs
- WGST 305 - Queer Studies 3 hrs
- WGST 387 - Cooperative Education in Women’s Studies 3 hrs
- WGST 413 - Women and Aging 3 hrs
- WGST 418 - Women and the Law 3 hrs
- WGST 420 - Women and Technology 3 hrs
- WGST 462 - Practice with Lesbian, Gay, Bisexual and Transgender Persons 3 hrs
- WGST 487 - Internship in Women’s and Gender Studies 3 hrs

**Elective Courses: 6 hours**

*Students may choose any WGST course for their elective requirements*

**300/400 Level Course Requirement**

WGST majors must complete at least 15 credit hours of course work at the 300 level or above

**Minor Requirements:**

This program requires a minor. Please contact your program advisor for a list of possible minors.

**Program Total:**

Students must earn a minimum total of 124 credits at the 100-level or above.

**Note:**

*Each student must choose a writing intensive course as part of major completion requirements. Consult your advisor for course options.*

*Special topics courses (WGST 279/378/379/478/479) and independent study (WGST 497/498/499) offerings may be substituted for either restricted or other electives with department permission.*

**Critical Graduation Information:**

Each undergraduate student will be responsible for the fulfillment of the requirements or their equivalents of the Eastern Michigan University catalog in force at the time of their initial registration at a college or university or a subsequent catalog including the one in effect at the time of their graduation.

In the event an undergraduate student does not complete the degree requirements within seven years of the date of their original registration at a college or university, the student may be required to have their credits re-evaluated by the academic department(s) of their major/minor in keeping with catalog requirements in force during the year of their graduation.

*The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.*
- Earn a minimum total of 124 credits at the 100-level and above. Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Complete a Writing Intensive (WI) Course in your major.
- Earn a minimum of 60 credits from a four-year college or university; courses taken at community colleges cannot be used to meet this requirement. (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 unique credit hours in their major and 20 unique credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
- Earn no more than 60 credit hours in one subject area (prefix). Credits in excess of the 60 maximum will not be counted toward the minimum of 124 credits required for a bachelor's degree.
- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more than one major or minor.
  - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor.
  - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
  - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor.
- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is conducted by individual departments/schools within EMU, and additional documentation may be required. Please note: EMU awards only credit for transferred courses; grades are not used in the calculation of an EMU GPA.
- Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be reached in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

**General Education Requirements:**

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available in the General Education section of the catalog: General Education

Students who transferred to EMU may have modified general education requirements based on Michigan Transfer Agreement (MTA) or articulation agreements; consult your academic advisor for additional information.

**University Information:** Consult the online catalog at catalog.emich.edu.

**Minor**

**Queer Studies Minor**
The minor in Queer Studies will foster critical and creative thinking about sexual and gender norms, identities, bodies, and experiences in global, national, and local contexts. Through examining and contextualizing debates in the field, students will develop skills that inform approaches to lesbian, gay, bisexual, transgender, and queer history and politics, enabling participation in communities and scholarship.

Required Courses: 6 hours

- WGST 202 - Introduction to Gender and Sexuality (GEUS) 3 hrs
- WGST 305 - Queer Studies 3 hrs

Restricted Electives: 15 hours

Students must take two course from two of the lists below, and one course from the remaining list for a total of 15 credit hours.

*Please note that only one course with the same non-WGST prefix will count towards the minor. (ex. You can not count two HIST courses to the Minor)*

Movements, Identities and Communities

- CTAC 265 - Communicating and LGBT Community (GEUS) 3 hrs
- HIST 325 - History of Sexuality 3 hrs
  
or
- HIST 415 - Sexual Communities in American History 3 hrs
- SOCL 344 - Sociology of Gender 3 hrs
- WGST 265 - Communicating and LGBT Community (GEUS) 3 hrs
- WGST 325 - History of Sexuality 3 hrs
- WGST 344 - Sociology of Gender 3 hrs

Theory and Culture
• CHL 353 - Genders and Sexualities in Literature for Young Readers 3 hrs
• PHIL 326W - Philosophy & Sexuality (GEWI) 3 hrs
• LITR 445 - Sexualities in Literature and Culture 3 hrs
• WGST 326W - Philosophy & Sexuality (GEWI) 3 hrs
• WGST 340 - Transgenre; Genre, Gender and Sex (A Queer Poetics) 3 hrs
• WGST 353 - Genders and Sexualities in Literature for Young Readers 3 hrs
• WGST 445 - Sexualities in Literature and Culture 3 hrs

Application and Practice

• BIO 269 - Biology of Sex and Gender 3 hrs
• HLED 130 - Healthy Sexuality 3 hrs
• PSY 240 - Psychology of Sex Part I 3 hrs
• SWRK 462 - Practice with Lesbian, Gay, Bisexual and Transgender Persons 3 hrs
• WGST 269 - Biology of Sex and Gender 3 hrs
• WGST 462 - Practice with Lesbian, Gay, Bisexual and Transgender Persons 3 hrs

Program Total: 21 hours

- **Prerequisite:** department permission

**WGST 200 - Introduction to Women's Studies (GEUS)**

This course provides an overview of the main issues confronting women in the United States today. Topics covered may include patriarchy and oppression, media images, violence, work, sexuality, feminism and commonalities and differences of women from different racial/ethnic and class backgrounds.

- **Credit Hours:** 3 hrs

**Perspectives on a Diverse World:**
Introduction to Women's Studies introduces students to diversity in the United States by examining the lives of women from diverse racial/ethnic and class backgrounds. The course explores constructions of difference- whether based on race, ethnicity, gender, sexuality or class- and helps students understand how these constructions have been and continue to be fundamental to life in the U.S.

- **Last Updated:** *

**WGST 202 - Introduction to Gender and Sexuality (GEUS)**

This course will introduce students to the way in which society constructs gender and sexual identity, and the way in which, in turn, gender and sexuality shape our understanding of the world and ourselves. Topics will include femininity and masculinity, as well as lesbian, gay, bisexual, transgender history and experience.
Credit Hours: 3 hrs

*Perspectives on a Diverse World:*
Introduction to Gender and Sexuality meets the requirements of the General Education Program in the U.S. Diversity area by demonstrating the ways in which gender and sexual conditioning influence the experiences of men and women and shape their sense of identity as it intersects with different classes, racial or ethnic groups and sexualities. The course helps students to understand and explore the ways in which these complex constructions and attitudes towards gender and sexuality lead to prejudice in the spheres of family, education, employment, health, politics and the media.

Last Updated: *

**WGST 205 - Women in Business (GEUS)**

Social and business conditions that support the entry of women to executive positions in business; career opportunities at the professional and executive levels of business.

Credit Hours: 3 hrs

Cross-Listed with: BMMT 205

*Perspectives on a Diverse World:*
This course fulfills the requirement for General Education in the area of Perspectives of a Diverse World- U.S. Diversity, as it reviews the role of women in business from the perspective of the individual and the manager. It traces the development of women's roles in the workforce starting with the dramatic influx of women in manufacturing during World War II. Then it looks at the changing social and business conditions from the 1960's through today that have added to the growing numbers of women workers. Laws enacted to eliminate gender discrimination in employment are reviewed, as well as legislation only applicable to women (such as with pregnancy). This course also examines masculine, feminine and androgynous management and leadership styles, and the unique work challenges faced by women of color. The challenges of global job assignments are reviewed, particularly as they relate to women in children. Lastly, the course introduces students to organizations that provide support for women pursuing business careers.

**WGST 208 - Minority Women in the United States**

This course surveys the situation of and the conditions that affect the lives of four groups of minority women in the United States who are from diverse cross-cultural backgrounds: Black, Asian-American, Latin-American and Native American. It focuses on the contemporary situation of these women and compares the four groups in terms of demographics, economic and occupational situations, education, family lives and relationship to the feminist movement.

Credit Hours: 3 hrs

Cross-Listed with: SOCL 208

Last Updated: Links 03/2011

**WGST 210 - Gender in a Transnational World (GEGA)**

This course introduces students to a comparative framing of gender issues through a cross-national and inter-sectional approach. Course topics- the social construction of gender relations, the gendered family, gendered media and popular cultures, religion and gender, the gendered body, and the violence of gender - will be taught cross-culturally and cross-nationally. An inter-sectional approach - the interconnections of gender with class, race, ethnicity, sexual orientation, and location - will be explored throughout course topics. Students will critically analyze gender issues by situating them in a transnational world. Globalization will be presented as both a *gendered* and *multidimensional* - cultural, economic, and political - process.

Credit Hours: 3 hrs

*Perspectives on a Diverse World:*
Gender relations have been increasingly impacted by economic, cultural and political globalization processes. This has led to new dynamics between the local and global in the construction and transformation of gender. By contextualizing and comparing
gender issues across-cultures and socio-economic contexts this course fosters global understanding and values, as well as it builds necessary skills and knowledge to improve gender relations and combat gender inequalities within and among local and global locations. Critically understanding gender relations from a cross cultural perspective becomes central to one's full participation as citizens and workers in increasingly globalized gendered communities and workplaces. As such, WGST 210 Gender in a Transnational World meets the outcomes for a course in the Global Awareness category of the General Education Program. 

**WGST 226 - Feminist Theory (GEGA & GEKH)**

A consideration of philosophical issues concerning the nature and status of women. Readings from both traditional and contemporary sources. Topics may include scientific and religious views, the ideal society and women's place in it, varieties of feminism, views on sexuality, family and reproduction, and work and the economy.

**Credit Hours:** 3 hrs

**Cross-Listed with:** PHIL 226

**Perspectives on a Diverse World:**

Gender is one of the principal characteristics determining identity and life experience for human beings. This course takes a philosophical approach to gender, examining beliefs about women and men from a wide variety of cultural and political perspectives. We consider both traditional justifications of the differential treatment of women and men in such institutions as marriage and family, as well as theories that challenge these traditional views. PHIL 226 Feminist Theory fulfills the Global Awareness requirement of the General Education Program because it considers a wide range of practices and beliefs about gender from across the globe, with an emphasis on the intellectual and ethical complexities of understanding and judging gendered practices in cultures other than our own. Gender is one of the principal characteristics determining identity and life experience for human beings. This course takes a philosophical approach to gender, examining beliefs about women and men from a wide variety of cultural and political perspectives. We consider both traditional justifications of the differential treatment of women and men in such institutions as marriage and family, as well as theories that challenge these traditional views. This course is a general education course in the knowledge of the disciplines because it provides an introduction to the discipline of philosophy through the concept of gender, its methodology, and its contribution to the body of human knowledge. Students will acquire skills of critical reasoning and develop skills for evaluating and creating substantive arguments to support philosophical positions. Developing such skills is central to the process of higher-education. Moreover, such skills will serve students throughout their educations across all disciplines, in their careers or in pursuing graduate or professional degrees and in exercising their civic duties.

**Knowledge of the Disciplines:**

**WGST 230L - Conversations with Girls (GELB)**

This course provides practice-based theory and methodology about educational mentoring relationships. Students are required to apply theory and methodology learned in the classroom to work with a community agency that is directly relevant to the focus of the course.

**Credit Hours:** 4 hrs

**Last Updated:** Links 03/2011
WGST 242 - Psychology of Women

Theories and empirical research concerning personality development in females. Examination of the origins of the behavior of women.

Credit Hours: 3 hrs  
Prerequisite: PSY 101 or PSY 103  
Cross-Listed with: PSY 242

WGST 243 - Black Women: Politics and Racism

This course examines American politics as it relates to African American women. The course analyzes ways in which political issues affect black women differently than African American men, white men and white women. Considerable attention is given to the definition of the political realm as opposed to the nonpolitical realm when discussing groups traditionally marginalized or excluded from political life.

Credit Hours: 3 hrs  
Cross-Listed with: AFC 243, PLSC 243

WGST 260 - Gender Communication (GEUS)

Exploration of the multifaceted ways communication, culture, and gender are interconnected and the influences of each. Critical analysis of gender communications "differences" as they are influenced by culture and our everyday communication.

Credit Hours: 3 hrs  
Cross-Listed with: CTAC 260

Perspectives on a Diverse World:

Gender Communication is communication about and between men and women. It is communication about men and women because gender communication is reflected in everything around us. From the time we are born important people in our life communicate our society's gender expectations to us. While individuals vary in the extent to which they accept or reject those messages, we all "do gender" by expressing our views about what we believe is normal or natural for a member of our sex. Since gender is a social construction that changes over time, it is important that we systematically study it to determine how it affects us, the people with whom we interact, and the world in which we live. Gender communication is also communication between men and women. In the United States interactions between women and men occur every hour of every day. The sheer number of contacts we have with the opposite sex heightens the need to study the effects of gender on the communication process.

CTAC 260 and WGST 260 meet the U.S. diversity requirement of general education because it allows students to examine their gender identity and relate it to the gender identity of others. This ultimately leads to an understanding of the many different ways people view gender and communication in the United States. Attention is also focused on the communication-related causes and consequences of social intolerance toward individuals who deviate from normative sex and gender roles, and how that intolerance relates to racism, ethnocentrism, and exclusion in the United States. Last but not least, students explore the association between gender and income distribution, economic opportunities, political participation and the U.S. democratic process, and how those variables impact communication between and within the sexes.

WGST 265 - Communicating and LGBT Community (GEUS)

Communication and LGBT Community examines communication about and within diverse Lesbian, Gay, Bisexual, and Transgender identity communities. Patterns in social movement, issue advocacy, group identity expression, and media representation are reviewed and evaluated. The course explores questions of intolerance, stereotyping, and intersectionality,
applying perspectives drawn from communication and queer theories.

**Credit Hours:** 3 hrs  
**Cross-Listed with:** CTAC 265  
**Perspectives on a Diverse World:**

**Last Updated:** New Course 09/2012, effective Winter 2012

**WGST 269 - Biology of Sex and Gender**

Lectures will address the biology of sex and gender from early stages of development throughout life. Anatomy and physiology of gender and behaviors in humans and other animals will be discussed. Topics include: sexual differentiation, puberty, reproductive patterns and the effects of aging on the sexual response.

**Credit Hours:** 3 hrs  
**Prerequisite:** BIO 105, BIO 110 or BIO 251  
**Cross-Listed with:** BIO 269  
**Course Revisions:** Effective Winter 2015, the following revisions will be made to this course 1) Number change from "269" to "369" 2) Cross-listed with BIO 369

**Last Updated:** Course Revision note added 8/2014, effective Winter 2015; 03/2011

**WGST 277 - Special Topics**

Different subject matter will be taught each semester offered, including interdisciplinary courses in women and gender studies. Students may take these courses more than once provided the subject matter is different.

**Credit Hours:** 1 hr  
**Prerequisite:** department permission

**WGST 278 - Special Topics**

Different subject matter will be taught each semester offered, including interdisciplinary courses in women and gender studies. Students may take these courses more than once provided the subject matter is different.

**Credit Hours:** 2 hrs  
**Prerequisite:** department permission

**WGST 279 - Special Topics**

Different subject matter will be taught each semester offered, including interdisciplinary courses in women and gender studies. Students may take these courses more than once provided the subject matter is different.

**Credit Hours:** 3 hrs  
**Prerequisite:** department permission

**WGST 300 - Feminist Inquiry**

This course examines the concept of knowledge, traditional methods for the construction of knowledge, and feminist critiques of these traditional methods. Both multidisciplinary and interdisciplinary methodologies employed in women’s and gender studies and explored and applied.
WGST 305 - Queer Studies

Queer Studies explores scholarship, activism, and culture production by and about lesbian, gay, bisexual, transgendered, and queer people and communities. This course examines scholarly research in the social sciences and humanities along with fiction, poetry, and film in order to address how people build knowledge about queer lives.

WGST 321 - Women and Gender in the Ancient World

An investigation of life for women in antiquity, focusing on the sex-gender system of Greek and Roman societies. Literary, inscriptional and other evidence will be studied to disclose the classical roots of western beliefs and attitudes about women.

WGST 325 - History of Sexuality

A topical approach to the role that sex and sexuality has played in American history; topics include the family, gender, interracial relations, the birth control movement, origins of the gay community, politics of abortion, and sexually transmitted infections.

WGST 326W - Philosophy & Sexuality (GEWI)

This course applies philosophical methods to ethical, political, and conceptual questions related to sexual preference and identity, including: What is the ethical status of homosexuality? Should same sex marriage be legal? What groups does/should "LGBT(etc)" seek to identify? Who is "queer"? What is the relation between feminism and the liberation of sexual minorities?

WGST 328 - Economics of Women
The changing economic role of women in the labor force. Analysis of policies affecting earnings, employment, and work and family issues in traditional and nontraditional occupations. Includes some international comparisons.

Credit Hours: 3 hrs
Prerequisite: one 100-, 200- or 300-level course in economics
Cross-Listed with: ECON 328
Last Updated: 03/2011

**WGST 335 - History of Women in Europe**

A study of the history of women and views of women in western society from the 18th century to the present. Emphasizes the struggles, setbacks and achievements of the women’s movements in the context of modern European history.

Credit Hours: 3 hrs
Prerequisite: one course in history
Cross-Listed with: HIST 335
Last Updated: 03/2011

**WGST 336 - History of Women in the United States and Great Britain, 1800 to the Present**

A comparative study of the history of women in the United States and Great Britain. Examines the ideology of the nature and role of women, the history of women’s lives, the impact of industrialization and the feminist movements of the 19th and 20th centuries.

Credit Hours: 3 hrs
Prerequisite: one course in history or department permission
Cross-Listed with: HIST 336
Last Updated: 03/2011

**WGST 338 - Women, Crime and Justice**

This course will offer a critical analysis of gender and criminal justice as it relates to women as victims, offenders and agents of the criminal justice system. Additionally, the social conditions of criminality, intervention strategies, as well as, social action and criminal justice policy reform will be examined.

Credit Hours: 3 hrs
Cross-Listed with: CRM 338, SOCL 338
Last Updated: 03/2011

**WGST 340 - Transgenre; Genre, Gender and Sex (A Queer Poetics)**

This course provides an introduction to the relation between literary genre theory and social systems of gender, sex and race through a rigorous investigation of “transgenre” literary texts (forms that transgress genre conversations) across periods and cultures. In addition, the course offers a creative writing workshop with an emphasis on the transgenre themes and forms.

Credit Hours: 3 hrs
Prerequisite: WGST 202
Class Restrictions: Undergraduates 2nd year and above
Last Updated: New Course 11/2012, effective Winter 2013
WGST 344 - Sociology of Gender

Analysis of past, present and future sex roles; the changing roles of women and men, and the conflicts and consequences of these changes on marriage and family systems in the United States.

Credit Hours: 3 hrs  
Prerequisite: SOCL 105  
Cross-Listed with: SOCL 344  
Last Updated: 03/2011

WGST 353 - Genders and Sexualities in Literature for Young Readers

Students in this course will read, discuss, research and write about works of literature written for children and young adults and focus on issues of sexuality and gender.

Credit Hours: 3 hrs  
Cross-Listed with: CHL 353  
Last Updated: Spelling Error 7/2014, New Course 11/2012, effective Winter 2013

WGST 355 - Anthropology of Women

The role of women in diverse cultural contexts. Theories dealing with the position of women. Life histories of women constitute the basic reading in this course.

Credit Hours: 3 hrs  
Prerequisite: ANTH 135 or department permission  
Cross-Listed with: ANTH 355  
Last Updated: 03/2011

WGST 362 - Black Women: Religion and Sexism

An introduction to the social and political role of Black women in African American religious institutions. Particular attention will be placed on how African American religion has limited the power of women. Additionally, the course will examine the historical evolution of the various major black denominations in America and their political and social roles in African American communities.

Credit Hours: 3 hrs  
Cross-Listed with: AFC 362, PLSC 362  
Last Updated: 03/2011

WGST 365 - Women and Politics

A study of the role of women in American politics as voters, activists and candidates, with consideration of how the political behavior of women relates to their economic, social and religious roles. Comparisons are made with select European and Asian political systems.

Credit Hours: 3 hrs  
Cross-Listed with: PLSC 365  
Last Updated: 03/2011

WGST 370 - Women's and Gender Studies Abroad
This course involves short-term travel and study outside the United States. Topics in women's and gender studies will be explored in the context of transnational feminism, with examination of issues related closely to the place of study.

**Credit Hours:** 3 hrs  
**Repeatable for Credit:** May be repeated for credit. **Prerequisite:** program director approval  
**Last Updated:** New Course 05/2012, effective Winter 2013

**WGST 377 - Special Topics**

Different subject matter will be taught each semester offered, including interdisciplinary courses in women and gender studies. Students may take these courses more than once provided the subject matter is different, but no more than two such courses may be counted toward the minor in women and gender studies.

**Credit Hours:** 1 hr  
**Prerequisite:** department permission

**WGST 378 - Special Topics**

Different subject matter will be taught each semester offered, including interdisciplinary courses in women and gender studies. Students may take these courses more than once provided the subject matter is different, but no more than two such courses may be counted toward the minor in women and gender studies.

**Credit Hours:** 2 hrs  
**Prerequisite:** department permission

**WGST 379 - Special Topics**

Different subject matter will be taught each semester offered, including interdisciplinary courses in women and gender studies. Students may take these courses more than once provided the subject matter is different, but no more than two such courses may be counted toward the minor in women and gender studies.

**Credit Hours:** 3 hrs  
**Prerequisite:** department permission

**WGST 387 - Cooperative Education in Women’s Studies**

This course provides students with an opportunity to deal directly with issues affecting women by working with agencies and local organizations.

**Credit Hours:** 3 hrs  
**Prerequisite:** department permission

**WGST 400W - Capstone Seminar (GEWI)**

A culminating experience designed to enable students to understand, demonstrate and improve skills acquired as majors or minors in the program, and to facilitate the integration of interdisciplinary knowledge.

**Credit Hours:** 3 hrs  
**Prerequisite:** WGST 200 and WGST 226/PHIL 226  
*Writing Intensive:*
**WGST 405 - Women in Sports**

Patterns, problems and conditions associated with women’s sports involvement in selected world cultures; the sportswoman in American society.

**Credit Hours:** 3 hrs  
**Cross-Listed with:** PHED 405  
**Last Updated:** 03/2011

---

**WGST 413 - Women and Aging**

Designed to provide social work, women’s studies, and gerontology students with the skills and sensitivity to understand the issues, needs, and positive attributes of women as they grow older. Students will examine the lives of women in special groups, such as older minority women, caregivers, widows and institutionalized elderly women. Students will learn skills to provide effective services to older women in a variety of human service settings.

**Credit Hours:** 3 hrs  
**Graduate Credit:** This is an undergraduate course available to graduate students for graduate credit.  
**Cross-Listed with:** SWRK 413  
**Last Updated:** Graduate Credit 07/2011; 03/2011

---

**WGST 415 - Sexual Communities in American History**

This class addresses the history of sexuality and the development of communities based on sexual identity in the United States. Topics include the origins of scientific theories of sexuality, the development of social movements around sexual issues and social responses to sexual minorities.

**Credit Hours:** 3 hrs  
**Cross-Listed with:** HIST 415  
**Last Updated:** 03/2011

---

**WGST 418 - Women and the Law**

A critical analysis how gender, as an element of the American legal system, impacts the lives of women. Major U.S. cases and state and federal laws will be evaluated and challenged as appropriate.

**Credit Hours:** 3 hrs  
**Prerequisite:** One of the following: LAW 293, LEGL 211, PLSC 301 or WGST 200  
**Cross-Listed with:** LEGL 418  
**Last Updated:** 03/2011

---

**WGST 420 - Women and Technology**

This course surveys gender issues surrounding technology development, transfer and use. We will examine the gender implications of technologies used in everyday life, particularly those that apply to work, health, reproduction, education, and communication. Historical and cross-cultural/global perspectives will be integrated into course themes.

**Credit Hours:** 3 hrs
WGST 426W - Topics in Gender and Philosophy (GEWI)

An examination of gender and its relationship to other issues from a philosophical perspective. Possible topics include rationality, sexuality, aesthetics, ethics and political theory.

Credit Hours: 3 hrs  
Prerequisite: two courses in philosophy or instructor permission  
Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.  
Cross-Listed with: PHIL 426W  
Writing Intensive:  

Last Updated: Graduate Credit 07/2011; 03/2011

WGST 436 - Women in Art

A survey of the contributions of female artists in the history of art. Discussions will include the history of women as patrons of the arts, and the uses of the female image in art.

Credit Hours: 3 hrs  
Prerequisite: ARTH 263 or department permission  
Cross-Listed with: ARTH 473  
Last Updated: Links 06/2011

WGST 443 - Women in Literature

A study of women and their experiences as described in literature.

Credit Hours: 3 hrs  
Prerequisite: two courses in literature  
Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.  
Cross-Listed with: LITR 443  
Last Updated: Graduate Credit 07/2011; 03/2011

WGST 445 - Sexualities in Literature and Culture

A seminar devoted to theorizing and articulating the relationships between literature and culture, focusing on the diverse and shifting forms of sexuality manifested in the cultural imagination across several literary periods.

Credit Hours: 3 hrs  
Prerequisite: Six hours of 300-level course work in one of the following prefixes-ENGL, LITR, HIST, PHIL - or Department Permission  
Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.  
Cross-Listed with: LITR 445  
Course Revisions: Effective Winter 2015, this course is no longer approved for Graduate credit.

Last Updated: No longer available for Graduate credit 10/14, effective Winter 2015, New Course 11/2012, effective Winter 2013

WGST 450 - Topics in Women's and Gender Studies
An examination of various topics in women's and gender studies. Possible topics include sexuality, transnational feminism, popular culture, social media and activism.

**Credit Hours:** 3 hrs  
**Repeatable for Credit:** May be repeated for credit. **Prerequisite:** WGST 200 or WGST 202  
**Last Updated:** New Course 05/2012, effective Winter 2013

**WGST 456 - Global Women: A Cross-Cultural Approach**

An overview of how globalization processes - economic, cultural and political - impact women and gender inequalities across countries and cultures. The course examines the intersections of gender and work, race, ethnicity, family, religion, and political participation from an international comparative approach, and how the internationalization of women's rights and organizations has been redefining feminism worldwide.

**Credit Hours:** 3 hrs  
**Class Restrictions:** Senior, Graduate Certificate or Masters students only  
**Cross-Listed with:** WGST 556, SOCL 456, SOCL 556  
**Course Revisions:** effective Winter 2015, the following revisions will be made to this course, 1) Change to course title, to "Gendered Globalization: Economic, Political and Cultural Dimensions, and 2) change to course description.

**Last Updated:** Course revision note added 6/2014, effective Winter 2015; 02/2011

**WGST 462 - Practice with Lesbian, Gay, Bisexual and Transgender Persons**

This course exposes students to a wide array of life experiences of lesbian, gay, bi-attractional and transgender persons by listening to their own words — spoken, written, on film and through personal interviews. It develops a deeper contextual knowledge and understanding of life courses taken by sexual minorities.

**Credit Hours:** 3 hrs  
**Cross-Listed with:** SWRK 462  
**Last Updated:** 02/2011

**WGST 477 - Special Topics**

Different subject matter will be taught each semester offered, including interdisciplinary courses in women and gender studies. Students may take these courses more than once provided the subject matter is different.

**Credit Hours:** 1 hr  
**Prerequisite:** department permission

**WGST 478 - Special Topics**

Different subject matter will be taught each semester offered, including interdisciplinary courses in women and gender studies. Students may take these courses more than once provided the subject matter is different.

**Credit Hours:** 2 hrs  
**Prerequisite:** department permission

**WGST 479 - Special Topics**
Different subject matter will be taught each semester offered, including interdisciplinary courses in women and gender studies. Students may take these courses more than once provided the subject matter is different.

**Credit Hours:** 3 hrs  
**Prerequisite:** department permission

**WGST 487 - Internship in Women's and Gender Studies**

This course provides students with an opportunity to deal directly with issues affecting women by working with agencies and local organizations.

**Credit Hours:** 3 hrs  
**Prerequisite:** department permission  
*Last Updated:* Title Change 05/2012, effective Winter 2013

**WGST 497 - Independent Study**

Advanced study on an individual basis in areas in which the program does not offer formal courses. These courses are restricted to juniors and seniors.

**Credit Hours:** 1 hr  
**Prerequisite:** department permission

**WGST 498 - Independent Study**

Advanced study on an individual basis in areas in which the program does not offer formal courses. These courses are restricted to juniors and seniors.

**Credit Hours:** 2 hrs  
**Prerequisite:** department permission

**WGST 499 - Independent Study**

Advanced study on an individual basis in areas in which the program does not offer formal courses. These courses are restricted to juniors and seniors.

**Credit Hours:** 3 hrs  
**Prerequisite:** department permission
World Languages Programs and Courses

World Languages

Major

French Major

Depending on initial placement, students may need to take up to 22 additional credit hours of 100- and 200-level classes in the language before they can begin courses required in the major. Students with prior language study or knowledge will be placed at an appropriate level in consultation with an advising coordinator.

It is recommended that students specializing in French, or planning to continue with graduate work, carry their undergraduate study beyond the minimum requirements listed below. Many graduate schools require additional course work in literature.

Department Information:

World Languages Department - College of Arts & Sciences

Rosemary Weston-Gil, Ph.D., Department Head
219 Alexander Hall
(734) 487-0130
rweston3@emich.edu

General Education Requirements:

For specific requirements refer to the General Education Program.

Major Requirements: 30 hours

Group I: Language Development: 12 hours

- FRNH 343 - French Composition 3 hrs
- FRNH 344 - French Conversation 3 hrs
- FRNH 443W - Advanced French Grammar and Composition (GEWI) 3 hrs
- FRNH 444 - Advanced French Conversation 3 hrs

Group II: Civilization and Literature: 12 hours

- FRNH 345 - French Culture and Civilization 3 hrs
- FRNH 346 - 20th-Century French Civilization 3 hrs
- FRNH 441 - Survey of French Literature I 3 hrs
- FRNH 442 - Survey of French Literature II 3 hrs
Group III: Immersion Experience: 6 hours

- FRNH 490 - Intensive French Abroad 6 hrs

Writing Intensive Course

*Each student must choose a writing intensive course as part of major completion requirements. Consult your advisor for course options.*

Minor Requirements:

This program requires a minor. Please contact your program advisor for a list of possible minors.

Program Total:

Students must earn a minimum total of 124 credits at the 100-level or above.

Critical Graduation Information:

Each undergraduate student will be responsible for the fulfillment of the requirements or their equivalents of the Eastern Michigan University catalog in force at the time of their initial registration at a college or university or a subsequent catalog including the one in effect at the time of their graduation.

In the event an undergraduate student does not complete the degree requirements within seven years of the date of their original registration at a college or university, the student may be required to have their credits re-evaluated by the academic department(s) of their major/minor in keeping with catalog requirements in force during the year of their graduation.

*The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.*

- Earn a minimum total of 124 credits at the 100-level and above. Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Complete a Writing Intensive (WI) Course in your major.
- Earn a minimum of 60 credits from a four-year college or university; courses taken at community colleges cannot be used to meet this requirement. (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 unique credit hours in their major and 20 unique credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
- Earn no more than 60 credit hours in one subject area (prefix). Credits in excess of the 60 maximum will not be counted toward the minimum of 124 credits required for a bachelor's degree.
• Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more than one major or minor.
  o Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
  o Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
  o Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor

• Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is conducted by individual departments/schools within EMU, and additional documentation may be required. Please note: EMU awards only credit for transferred courses; grades are not used in the calculation of an EMU GPA.

• Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be reached in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

General Education Requirements:

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available in the General Education section of the catalog: General Education

Students who transferred to EMU may have modified general education requirements based on Michigan Transfer Agreement (MTA) or articulation agreements; consult your academic advisor for additional information.

University Information: Consult the online catalog at catalog.emich.edu.

German Language and Literature Major

Depending on initial placement, students may need to take up to 22 additional credit hours of 100- and 200-level classes in the language before they can begin courses required in the major. Students with prior language study or knowledge will be placed at an appropriate level in consultation with an advising coordinator.

- GERN 442 - Survey of German Literature: Enlightenment to 1945 3 hrs

Group III: Culture: 6 hours
- GERN 366 - The Cultures of German-Speaking Europe 3 hrs
- GERN 428 - German Literature and Film from 1945 to the Present 3 hrs

Group IV: Immersion Experience: 6 hours
- GERN 490 - Intensive German in Europe 6 hrs

Minor Requirements:

This program requires a minor. Please contact your program advisor for a list of possible minors.

Program Total:

Students must earn a minimum total of 124 credits at the 100-level or above.

Critical Graduation Information:

Each undergraduate student will be responsible for the fulfillment of the requirements or their equivalents of the Eastern Michigan University catalog in force at the time of their initial registration at a college or university or a subsequent catalog including the one in effect at the time of their graduation.

In the event an undergraduate student does not complete the degree requirements within seven years of the date of their original registration at a college or university, the student may be required to have their credits re-evaluated by the academic department(s) of their major/minor in keeping with catalog requirements in force during the year of their graduation.

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the 100-level and above. Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses...
will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.

- Meet the requirements of the General Education program (see information below).
- Complete a Writing Intensive (WI) Course in your major.
- Earn a minimum of 60 credits from a four-year college or university; courses taken at community colleges cannot be used to meet this requirement. (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 unique credit hours in their major and 20 unique credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
- Earn no more than 60 credit hours in one subject area (prefix). Credits in excess of the 60 maximum will not be counted toward the minimum of 124 credits required for a bachelor's degree.
- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more that one major or minor.
  - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
  - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
  - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor.
- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is conducted by individual departments/schools within EMU, and additional documentation may be required. Please note: EMU awards only credit for transferred courses; grades are not used in the calculation of an EMU GPA.
- Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be reached in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

General Education Requirements:

For specific requirements refer to the General Education Program.

Language, International, and Cultural Studies: 33-36 Hours

Language Courses: 24 Hours

Students must complete a minimum of 24 credit hours in French. Depending on initial placement, beginning students may need to take FRNH 121, FRNH 122, FRNH 221, FRNH 222, FRNH 233, or FRNH 234.

Required Courses: 18 Hours

• FRNH 343 - French Composition 3 hrs
• FRNH 344 - French Conversation 3 hrs
• FRNH 361 - French for International Trade 3 hrs
• FRNH 446 - Business French I 3 hrs
• FRNH 466 - French Speaking Cultures of the World 3 hrs
• A Special Topics in Translation course 3 hrs

Elective Courses: 6 Hours

• FRNH 441 - Survey of French Literature I 3 hrs
• FRNH 442 - Survey of French Literature II 3 hrs
• FRNH 447 - Business French II 3 hrs
• FRNH 450 - French Civilization in Film 3 hrs
• FRNH 466 - French Speaking Cultures of the World 3 hrs
• FRNH 446 - Business French I 3 hrs
International and Cultural Courses (Restricted Electives): 6 Hours

Select 2 required elective courses from the following lists in consultation with an advisor.

Note: students may need to take prerequisites for some courses listed here. Some of these 200-level course may also be used to satisfy EMU general education requirements. Courses selected to fulfill the LIC 6-hour minimum in international and cultural studies cannot also be counted toward the minor.

Anthropology Courses

- ANTH 214 - U.S. Racial and Cultural Minorities (GEUS) 3 hrs
- ANTH 233 - Cultures of Mesoamerica and the Caribbean (GEGA) 3 hrs
- ANTH 236 - Peoples and Cultures of Africa 3 hrs
- ANTH 248 - Peoples and Cultures of the Pacific 3 hrs
- ANTH 329 - Medical Anthropology 3 hrs
- ANTH 330 - Anthropology of Law and Politics 3 hrs
- ANTH 336 - Social and Cultural Change 3 hrs
- ANTH 350 - Ancient Civilizations of Mesoamerica 3 hrs
- ANTH 385 - Culture of Japan 3 hrs

Business Courses

- ACC 475 - International Accounting 3 hrs
- FIN 370 - International Business Finance 3 hrs
- IB 210 - Fundamentals of Global Business (GEGA) 3 hrs
- IB 370 - International Business Ethics 1.5 hrs
- LAW 350 - International Business Law 3 hrs
- MGMT 202 - Business Communication 3 hrs
- MGMT 492 - Managing World Business Communication 3 hrs
- MGMT 495 - International Management 3 hrs
- MKTG 375 - International Business Transactions 3 hrs
- MKTG 460 - International Marketing 3 hrs

Communication Courses

- CTAC 225 - Listening Behavior (GEKS) 3 hrs
- CTAC 226 - Nonverbal Communication (GEKS) 3 hrs
- CTAC 274 - Intercultural Communication (GEGA) 3 hrs
- CTAC 275 - Interracial/Interethnic Communication (GEUS) 3 hrs
- CTAC 350 - Persuasion 3 hrs
- CTAC 352 - Communication in Negotiation 3 hrs
- CTAC 356 - Argumentation and Debate 3 hrs
- CTAC 376 - Communication and Conflict Resolution 3 hrs

Economic Courses
• ECON 108 - Introduction to the Global Economy (GEGA) 3 hrs
• ECON 385 - Economic Development 3 hrs
• ECON 480W - International Economics (GEWI) 3 hrs

Geography Courses

• GEOG 212 - Geography of Travel and Tourism 3 hrs
• GEOG 235 - Economic Geography 3 hrs
• GEOG 314W - Geography of Russia and Neighboring States (GEWI) 3 hrs
• GEOG 315 - Travel and Tourist: The European Scene 3 hrs
• GEOG 318 - Geography of Asia 3 hrs
• GEOG 319 - Geography of Europe 3 hrs
• GEOG 321 - Geography of Latin America 3 hrs
• GEOG 336 - Tourism and Socioeconomic Development 3 hrs

History Courses

• HIST 316 - History and Geography of Modern Europe 3 hrs
• HIST 317 - History and Geography of Spanish America 3 hrs
• HIST 326 - History and Geography of Modern Asia 3 hrs
• HIST 355 - Latin America: Colonial Period 3 hrs
• HIST 356 - Latin America: National Period 3 hrs
• HIST 442 - Modern China 3 hrs
• HIST 443 - Modern Japan 3 hrs
• HIST 456 - Europe since 1945 3 hrs
• HIST 457 - History of Mexico 3 hrs
• HIST 461 - Foreign Relations of the United States 3 hrs

Political Science Courses

• PLSC 211 - Introduction to Comparative Government (GEGA) 3 hrs
• PLSC 212 - Introduction to International Politics (GEKS) 3 hrs
• PLSC 311 - Politics of the Developing World 3 hrs
• PLSC 341 - International Law 3 hrs

The major in language and international careers is designed to integrate the study of modern foreign languages and cultures with preparation in an international career. The major objective of the program is to provide students with the skills, knowledge and understanding needed to function in a foreign environment and in professional dealings with people and clients who speak foreign languages. Students completing this group major will have met the major and minor requirements for graduation. The minor is included in the major requirements.

Qualified students in German may have the option of participating in a cooperative work exchange in an area of the world where German is spoken.

Department Website

General Education Requirements:

For specific requirements refer to the General Education Program.
Language, International, and Cultural Studies: 33-36 Hours

Language Courses: 24 Hours

Students must complete a minimum of 24 credit hours in German. Depending on initial placement, beginning students may need to take GERN 121, GERN 122, GERN 221, GERN 233, or GERN 234.

Required Courses: 18 Hours

- GERN 343 - German Composition on Cultures and Civilization 3 hrs
- GERN 344 - Principles of German Phonetics and Conversation 3 hrs
- GERN 361 - German for International Trade 3 hrs
- GERN 366 - The Cultures of German-Speaking Europe 3 hrs
- GERN 446 - Business German I 3 hrs
- A Special Topics in Translation course 3 hrs

Elective Courses: 6 Hours

- GERN 428 - German Literature and Film from 1945 to the Present 3 hrs
- GERN 441 - Survey of German Literature 800-Enlightenment 3 hrs
- GERN 442 - Survey of German Literature: Enlightenment to 1945 3 hrs
- GERN 443W - German Syntax and Advanced Composition (GEWI) 3 hrs
- GERN 444 - Advanced German Conversation 3 hrs
- GERN 447 - Business German II 3 hrs

International and Cultural Courses (Restricted Electives): 6 Hours

Select 2 required elective courses from the following lists in consultation with an advisor.

Note: students may need to take prerequisites for some courses listed here. Some of these 200-level course may also be used to satisfy EMU general education requirements. Courses selected to fulfill the LIC 6-hour minimum in international and cultural studies cannot also be counted toward the minor.

Anthropology Courses

- ANTH 214 - U.S. Racial and Cultural Minorities (GEUS) 3 hrs
- ANTH 233 - Cultures of Mesoamerica and the Caribbean (GEGA) 3 hrs
- ANTH 236 - Peoples and Cultures of Africa 3 hrs
- ANTH 248 - Peoples and Cultures of the Pacific 3 hrs
- ANTH 329 - Medical Anthropology 3 hrs
- ANTH 330 - Anthropology of Law and Politics 3 hrs
- ANTH 336 - Social and Cultural Change 3 hrs
- ANTH 350 - Ancient Civilizations of Mesoamerica 3 hrs
- ANTH 385 - Culture of Japan 3 hrs

Business Courses
• ACC 475 - International Accounting 3 hrs
• FIN 370 - International Business Finance 3 hrs
• IB 210 - Fundamentals of Global Business (GEKA) 3 hrs
• IB 370 - International Business Ethics 1.5 hrs
• LAW 350 - International Business Law 3 hrs
• MGMT 202 - Business Communication 3 hrs
• MGMT 492 - Managing World Business Communication 3 hrs
• MGMT 495 - International Management 3 hrs
• MKTG 375 - International Business Transactions 3 hrs
• MKTG 460 - International Marketing 3 hrs

Communication Courses

• CTAC 225 - Listening Behavior (GEKS) 3 hrs
• CTAC 226 - Nonverbal Communication (GEKS) 3 hrs
• CTAC 274 - Intercultural Communication (GEKA) 3 hrs
• CTAC 275 - Interracial/Interethnic Communication (GEUS) 3 hrs
• CTAC 350 - Persuasion 3 hrs
• CTAC 352 - Communication in Negotiation 3 hrs
• CTAC 356 - Argumentation and Debate 3 hrs
• CTAC 376 - Communication and Conflict Resolution 3 hrs

Economic Courses

• ECON 108 - Introduction to the Global Economy (GEKA) 3 hrs
• ECON 385 - Economic Development 3 hrs
• ECON 480W - International Economics (GEWI) 3 hrs

Geography Courses

• GEOG 212 - Geography of Travel and Tourism 3 hrs
• GEOG 235 - Economic Geography 3 hrs
• GEOG 314W - Geography of Russia and Neighboring States (GEWI) 3 hrs
• GEOG 315 - Travel and Tourism: The European Scene 3 hrs
• GEOG 318 - Geography of Asia 3 hrs
• GEOG 319 - Geography of Europe 3 hrs
• GEOG 321 - Geography of Latin America 3 hrs
• GEOG 336 - Tourism and Socioeconomic Development 3 hrs

History Courses

• HIST 316 - History and Geography of Modern Europe 3 hrs
• HIST 317 - History and Geography of Spanish America 3 hrs
• HIST 326 - History and Geography of Modern Asia 3 hrs
• HIST 355 - Latin America: Colonial Period 3 hrs
• HIST 356 - Latin America: National Period 3 hrs
- HIST 442 - Modern China 3 hrs
- HIST 443 - Modern Japan 3 hrs
- HIST 456 - Europe since 1945 3 hrs
- HIST 457 - History of Mexico 3 hrs
- HIST 461 - Foreign Relations of the United States 3 hrs

**Political Science Courses**

- PLSC 211 - Introduction to Comparative Government (GEGA) 3 hrs
- PLSC 212 - Introduction to International Politics (GEKS) 3 hrs
- PLSC 311 - Politics of the Developing World 3 hrs
- PLSC 341 - International Law 3 hrs
- PLSC 342 - International Organizations 3 hrs
- PLSC 354 - Canadian Politics 3 hrs
- PLSC 367 - Latin American Politics 3 hrs
- PLSC 374 - Asian Politics 3 hrs
- PLSC 412W - Comparative Legal Systems (GEWI) 3 hrs

**Field Experience: 3-6 Hours**

*Consult with LIC Advisor for one of the following:*

- GERN 490 - Intensive German in Europe 6 hrs
- FLAN 387 - Cooperative Education in Foreign Language 3 hrs
- FLAN 487 - Cooperative Education in Foreign Language 3 hrs
- FLAN 489 - Internship in Language and International Trade 3 hrs

**Recommendation for the Minor (21 Hours)**

In consultation with an advisor in LIC and an appropriate areas, students can choose a minor to receive concentrated training in a wide variety of professional disciplines, such as Economics, Political Science, Geography, History, Business for non-business majors, Communication, Computer Science, International Affairs, Journalism, Public Law and Government, Health Administration, School Health Education, Social Work, Social Services, Public Administration, Hotel and Restaurant Management, Sociology, Tourism, Military Science and Leadership (ROTC).

**Program Total:**

Students must earn a minimum total of 124 credits at the 100-level or above.

**Note:**

*Each student must choose a writing intensive course as part of major completion requirements. Consult your advisor for course options. Students with prior language study or knowledge will be placed at an appropriate level in consultation with an advising coordinator.*

**Critical Graduation Information:**
Each undergraduate student will be responsible for the fulfillment of the requirements or their equivalents of the Eastern Michigan University catalog in force at the time of their initial registration at a college or university or a subsequent catalog including the one in effect at the time of their graduation.

In the event an undergraduate student does not complete the degree requirements within seven years of the date of their original registration at a college or university, the student may be required to have their credits re-evaluated by the academic department(s) of their major/minor in keeping with catalog requirements in force during the year of their graduation.

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the 100-level and above. Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Complete a Writing Intensive (WI) Course in your major.
- Earn a minimum of 60 credits from a four-year college or university; courses taken at community colleges cannot be used to meet this requirement. (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 unique credit hours in their major and 20 unique credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
- Earn no more than 60 credit hours in one subject area (prefix). Credits in excess of the 60 maximum will not be counted toward the minimum of 124 credits required for a bachelor's degree.
- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more that one major or minor.
  - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
  - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
  - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor
- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is conducted by individual departments/schools within EMU, and additional documentation may be required. Please note: EMU awards only credit for transferred courses; grades are not used in the calculation of an EMU GPA.
- Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be reached in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

General Education Requirements:

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available in the General Education section of the catalog: General Education
Students who transferred to EMU may have modified general education requirements based on Michigan Transfer Agreement (MTA) or articulation agreements; consult your academic advisor for additional information.

**University Information:** Consult the online catalog at catalog.emich.edu.

**Group Major in Language and International Trade - Japanese**

Depending on initial placement, students may need to take up to 16 additional credit hours of 100- and 200-level classes in the language before they can begin courses required in the major. The major in language and international trade is designed to integrate the study of modern foreign languages and cultures with preparation in the field of international business.

The major objective of the program is to provide students with the skills, knowledge and understanding needed to function in a foreign environment and in professional dealings with business people and clients who speak foreign languages. Students completing this group major will have met the major and minor requirements for graduation. The minor is included in the major requirements.

Qualified students in Japanese may have the option of participating in a cooperative work exchange in an area of the world where Japanese is spoken.

**Major Requirements: 60-63 hours**

**Additional Required Business Courses: 6 hours**

- MKTG 460 - International Marketing 3 hrs

One course from the following
- ECON 370 - Comparative Economic Systems 3 hrs
- ECON 480W - International Economics (GEWI) 3 hrs

Language and Area Studies Courses: 30 hours

- One JPNE at the 300- or 400-level (3 hrs)
- One JPNE at the 400-level (3 hrs)
- JPNE 343W - Japanese Composition (GEWI) 3 hrs
- JPNE 344 - Japanese Conversation 3 hrs
- JPNE 361 - Japanese for International Trade 3 hrs
- JPNE 446 - Business Japanese I 3 hrs
- JPNE 447 - Business Japanese II 3 hrs

One Political Science course from the following:

- PLSC 211 - Introduction to Comparative Government (GEGA) 3 hrs
- PLSC 212 - Introduction to International Politics (GEKS) 3 hrs
- PLSC 341 - International Law 3 hrs
- PLSC 342 - International Organizations 3 hrs
- PLSC 354 - Canadian Politics 3 hrs
- PLSC 367 - Latin American Politics 3 hrs
- PLSC 412W - Comparative Legal Systems (GEWI) 3 hrs

One option from the following:

Option I: Geography and History: 6 hours

- One 300/400 level GEOG course of the geography of Japan.
- One 300/400 level HIST course of the history of Japan.

Option II: Geography and Foreign Language: 6 hours

- One 300/400 level GEOG course of the geography of Japan.
- One additional 300/400 level JPNE course.

Option III: History and Foreign Language: 6 hours

- One 300/400 level HIST course of the history of Japan.
- One additional 300/400 level JPNE course.

Field Experience: 3-6 hours

Consult with LIT Advisor.

One course from the following:
- FLAN 387 - Cooperative Education in Foreign Language 3 hrs
- FLAN 487 - Cooperative Education in Foreign Language 3 hrs
- FLAN 489 - Internship in Language and International Trade 3 hrs
- JPNE 490 - Intensive Japanese Abroad 6 hrs

**Business Minor: 21 hours**

*Students must complete requirements for a minor in an operational area of business of their choosing. These areas include: economics, marketing, management, accounting, finance, business computer systems and general business, among others. Special combinations of business courses equivalent to a minor are possible in consultation with an advisor.*

**Program Total:**

Students must earn a minimum total of 124 credits at the 100-level or above.

**Critical Graduation Information:**

Each undergraduate student will be responsible for the fulfillment of the requirements or their equivalents of the Eastern Michigan University catalog in force at the time of their initial registration at a college or university or a subsequent catalog including the one in effect at the time of their graduation.

K-12 French Teaching Major
This major was revised on February 14, 2019, to correct an error. FLAN 411 and FLAN 412 were removed from the Professional Secondary Education Sequence.

Depending on initial placement, students may need to take up to 16 additional credit hours of 100- and 200-level classes in the language before they can begin courses required in the major. Students with prior language study or knowledge will be placed at an appropriate level in consultation with an advising coordinator.

Successful completion of this course of study, in the context of other program and NCATE requirements, qualifies the student for recommendation for the Michigan Department of Education K-12 Provisional Certificate in French, certification code FA, and, depending on the minor selected, an additional endorsement. The Michigan Test for Teacher Certification (MTTC) covering this field is #23, "French." In addition, all students must pass the Oral Proficiency Interview (OPI) for French.

Initial Teacher Preparation Program Admission

In order to pursue the sequence of courses necessary to complete eligibility for recommendation for certification, one must apply for and be admitted to the teacher preparation program. Admission requirements are common for all teacher preparation programs, except that certain special education programs have additional requirements.

Each undergraduate student is responsible for applying to the teacher preparation program immediately after the semester in which the student has earned 56 credit hours. Transfer students with more than 56 credit hours should apply immediately after the semester in which they have earned 12 hours at EMU, including at least one course in their major. Students with 56 hours of transfer course work with a decision GPA of 3.0 may apply for admission to the teacher preparation program without 12 earned hours at EMU.

Admission to the teacher preparation program is not automatic. Only those persons who have formally applied are considered for admission. Not all persons who apply become eligible for admission.

Applications for the Initial Teacher Preparation Program at EMU are available within your my.emich account under the "Student" tab. Submit your completed application to the Office of Academic Services once you have earned 56 credit hours.

Teaching majors and minors are unofficial until program admission. Students pursuing teacher certification should follow the catalog that exists at the time of program admission. It is important that students apply to the teacher preparation program as soon as they have earned 56 credit hours.

Criteria:

1. Completion of 56 credit hours
2. Appropriate cumulative GPA. One of:
   1. An overall EMU GPA of 2.5 or higher based on a minimum of 12 credit hours taken at EMU. An EMU GPA of 2.5 or higher in your major, based on at least one course in your major. The Elementary Education Major
is comprehensive, therefore, the elementary major GPA is based on the cumulative of liberal arts curriculum and content course work.

2. Transferred 56 credits with a cumulative 3.0 GPA from all previous institutions.

3. A grade of "C" or higher (if taken) in the following courses:
   1. If Secondary: ENGL 121, CTAC 124, Quantitative Reasoning (GEQR), one lab science, all professional education courses, and, if special education, PSY 101.
   2. If Elementary: ENGL 121, CTAC 124, MATH 108, MATH 110E, PHY 100, ESSC 202, all of the professional education courses, all courses that state "for elementary teachers," and, if special education, PSY 101.

4. Official Test Scores showing competency in each of the following areas: mathematics, reading and writing. Scores are accepted from the Professional Readiness Exam (PRE), Basic Skills Test (no longer offered), ACT, or Michigan Merit Exam (MME). The following scores are acceptable:
   1. Mathematics: PRE pass, Basic Skills pass, ACT mathematics 22 or higher, or MME mathematics 1116 or higher.
   2. Writing: PRE pass, Basic Skills pass, ACT combined English/writing 24 or higher, or MME writing 1129 or higher.
   3. Reading: PRE pass, Basic Skills pass, ACT reading 22 or higher, or MME reading 1108 or higher.

5. ICHAT criminal background check and Statement of Civil/Criminal Convictions. If you answered yes to any of the civil/criminal conviction questions on the application, you will need to provide:
   1. A copy of the Judgment of Sentence, or Registrar of Actions, or Certification of Conviction.
   2. A written explanation of the offense(s). Application of students with civil/criminal convictions will be carefully reviewed and may take longer to process.

6. Meet academic, social, moral, and financial obligations as a member of the EMU community.

General Education Requirements:

For specific requirements refer to the General Education Program.

Major Requirements: 30 hours

Group I: Language Development: 12 hours

- FRNH 343 - French Composition 3 hrs
- FRNH 344 - French Conversation 3 hrs
- FRNH 443W - Advanced French Grammar and Composition (GEWI) 3 hrs
- FRNH 444 - Advanced French Conversation 3 hrs

Group II: Civilization and Literature: 12 hours

- FRNH 345 - French Culture and Civilization 3 hrs
- FRNH 346 - 20th-Century French Civilization 3 hrs
- FRNH 441 - Survey of French Literature I 3 hrs
- FRNH 442 - Survey of French Literature II 3 hrs

Group III: Immersion Courses: 6 hours

- FRNH 490 - Intensive French Abroad 6 hrs
K-12 Foreign Language Methods Core: 12 hours

- FLAN 411 - Theory and Methods of Modern Language Teaching 3 hrs
- FLAN 412 - Methods of Teaching Modern Languages in the Elementary Grades 3 hrs
- FLAN 441 - Practicum in World Language Instruction - Secondary 3 hrs

Professional K-12 Education Sequence

Pre-Admission Phase: The Learner and the Community: 7 hours

Prerequisite: Sophomore standing or higher.

- EDPS 322 - Human Development and Learning 4 hrs
- SPGN 251 - Introduction to Inclusion and Disabilities Studies in a Diverse Society (GEUS) 3 hrs

The following phases require formal admission to the Initial Teacher Preparation Program:

Phase I: Curriculum, Assessment and the Social Context: 12 hours

Prerequisite: Completion of Pre-Admission Phase is required.

* These two courses must be taken together.
** These courses must be taken with or after CURR 305.

- CURR 305 - Curriculum and Methods: Secondary 3 hrs
- EDPS 340 - Introduction to Assessment and Evaluation 3 hrs
- PRCT 305 - Practicum I: Secondary 3 hrs
- SOFD 328W - Schools for a Diverse and Democratic Society (GEWI) 3 hrs

Phase II: Content and Methods and Teaching: 9 hours

Prerequisite: Completion of Phase I is required.

* These two courses must be taken together.

- EDMT 330 - Instructional Applications of Media and Technology 3 hrs
- PRCT 311 - Practicum II: Secondary 3 hrs
- RDNG 311 - Teaching Reading in the Secondary School 3 hrs

Phase III: Capstone Experience: 12 hours

Prerequisite: Completion of Phase II and 100 pre-student teaching hours is required.

- EDUC 489 - Student Teaching (GELB) 12 hrs
  In order to meet NCATE standards, candidates who:
  - major in a language shall complete more than half of their student teaching contact hours in that language.
• double major in a language and in another content area shall complete a portion of the student teaching experience in that language.
• double major in two languages shall student teach in each language.

Minor Requirements:

This program requires a minor. Please contact your program advisor for a list of possible minors.

Program Total:

Students must earn a minimum total of 124 credits at the 100-level or above.

Critical Graduation Information:

Each undergraduate student will be responsible for the fulfillment of the requirements or their equivalents of the Eastern Michigan University catalog in force at the time of their initial registration at a college or university or a subsequent catalog including the one in effect at the time of their graduation.

In the event an undergraduate student does not complete the degree requirements within seven years of the date of their original registration at a college or university, the student may be required to have their credits re-evaluated by the academic department(s) of their major/minor in keeping with catalog requirements in force during the year of their graduation.

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

• Earn a minimum total of 124 credits at the 100-level and above. Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.
• Meet the requirements of the General Education program (see information below).
• Complete a Writing Intensive (WI) Course in your major.
• Earn a minimum of 60 credits from a four-year college or university; courses taken at community colleges cannot be used to meet this requirement. (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
• Earn a minimum of 30 credits from courses taken at EMU.
• Complete 10 of the last 30 hours for the degree from courses taken at EMU.
• Have a minimum of 30 unique credit hours in their major and 20 unique credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
• Earn no more than 60 credit hours in one subject area (prefix). Credits in excess of the 60 maximum will not be counted toward the minimum of 124 credits required for a bachelor's degree.
• Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more that one major or minor.
  o Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
  o Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
  o Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor.
• Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is conducted by individual departments/schools within EMU, and additional documentation may be required. Please note: EMU awards only credit for transferred courses; grades are not used in the calculation of an EMU GPA.

• Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be reached in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

General Education Requirements:

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available in the General Education section of the catalog: General Education

Students who transferred to EMU may have modified general education requirements based on Michigan Transfer Agreement (MTA) or articulation agreements; consult your academic advisor for additional information.

University Information: Consult the online catalog at catalog.emich.edu.

K-12 German Language and Literature Major

This major was revised on February 14, 2019, to correct an error. FLAN 411 and FLAN 412 were removed from the Professional Secondary Education Sequence.

Depending on initial placement, students may need to take up to 16 additional credit hours of 100- and 200-level classes in the language before they can begin courses required in the major. Students with prior language study or knowledge will be placed at an appropriate level in consultation with an advising coordinator.

Successful completion of this major, in the context of other program and NCATE requirements, qualifies the student for recommendation for the Michigan Department of Education K-12 Provisional Certificate in German, certification code FB. The Michigan Test for Teacher Certification (MTTC) covering this field is #024, "German." In addition, all students must pass the Oral Proficiency Interview (OPI) for German.

Initial Teacher Preparation Program Admission
In order to pursue the sequence of courses necessary to complete eligibility for recommendation for certification, one must apply for and be admitted to the teacher preparation program. Admission requirements are common for all teacher preparation programs, except that certain special education programs have additional requirements.

Each undergraduate student is responsible for applying to the teacher preparation program immediately after the semester in which the student has earned 56 credit hours. Transfer students with more than 56 credit hours should apply immediately after the semester in which they have earned 12 hours at EMU, including at least one course in their major. Students with 56 hours of transfer course work with a decision GPA of 3.0 may apply for admission to the teacher preparation program without 12 earned hours at EMU.

Admission to the teacher preparation program is not automatic. Only those persons who have formally applied are considered for admission. Not all persons who apply become eligible for admission.

Applications for the Initial Teacher Preparation Program at EMU are available within your my.emich account under the "Student" tab. Submit your completed application to the Office of Academic Services once you have earned 56 credit hours.

Teaching majors and minors are unofficial until program admission. Students pursuing teacher certification should follow the catalog that exists at the time of program admission. It is important that students apply to the teacher preparation program as soon as they have earned 56 credit hours.

Criteria:

1. Completion of 56 credit hours
2. Appropriate cumulative GPA. One of:
   1. An overall EMU GPA of 2.5 or higher based on a minimum of 12 credit hours taken at EMU. An EMU GPA of 2.5 or higher in your major, based on at least one course in your major. The Elementary Education Major is comprehensive, therefore, the elementary major GPA is based on the cumulative of liberal arts curriculum and content course work.
   2. Transferred 56 credits with a cumulative 3.0 GPA from all previous institutions.
3. A grade of "C" or higher (if taken) in the following courses:
   1. **If Secondary:** ENGL 121, CTAC 124, Quantitative Reasoning (GEQR), one lab science, all professional education courses, and, if special education, PSY 101.
   2. **If Elementary:** ENGL 121, CTAC 124, MATH 108, MATH 110E, PHY 100, ESSC 202, all of the professional education courses, all courses that state "for elementary teachers," and, if special education, PSY 101.
4. Official Test Scores showing competency in each of the following areas: mathematics, reading and writing. Scores are accepted from the Professional Readiness Exam (PRE), Basic Skills Test (no longer offered), ACT, or Michigan Merit Exam (MME). The following scores are acceptable:
   1. **Mathematics:** PRE pass, Basic Skills pass, ACT mathematics 22 or higher, or MME mathematics 1116 or higher.
   2. **Writing:** PRE pass, Basic Skills pass, ACT combined English/writing 24 or higher, or MME writing 1129 or higher.
   3. **Reading:** PRE pass, Basic Skills pass, ACT reading 22 or higher, or MME reading 1108 or higher.
5. ICHAT criminal background check and Statement of Civil/Criminal Convictions. If you answered yes to any of the civil/criminal conviction questions on the application, you will need to provide:
   1. A copy of the Judgment of Sentence, or Registrar of Actions, or Certification of Conviction.
   2. A written explanation of the offense(s). Application of students with civil/criminal convictions will be carefully reviewed and may take longer to process.
6. Meet academic, social, moral, and financial obligations as a member of the EMU community.

General Education Requirements:
For specific requirements refer to the General Education Program.

**Major Requirements: 30 hours**

**Group I: Language Development: 12 hours**

- GERN 343 - German Composition on Cultures and Civilization 3 hrs
- GERN 344 - Principles of German Phonetics and Conversation 3 hrs
- GERN 443W - German Syntax and Advanced Composition (GEWI) 3 hrs
- GERN 444 - Advanced German Conversation 3 hrs

**Group II: Literature: 6 hours**

- GERN 441 - Survey of German Literature 800-Enlightenment 3 hrs
- GERN 442 - Survey of German Literature: Enlightenment to 1945 3 hrs

**Group III: Culture: 6 hours**

- GERN 366 - The Cultures of German-Speaking Europe 3 hrs
- GERN 428 - German Literature and Film from 1945 to the Present 3 hrs

**Group IV. Immersion Experience: 6 hours**

- GERN 490 - Intensive German in Europe 6 hrs

**K-12 Foreign Language Methods Core: 12 hours**

- FLAN 411 - Theory and Methods of Modern Language Teaching 3 hrs
- FLAN 412 - Methods of Teaching Modern Languages in the Elementary Grades 3 hrs
- FLAN 441 - Practicum in World Language Instruction - Secondary 3 hrs
- FLAN 442 - Practicum in World Language Instruction - Elementary 3 hrs

**Professional K-12 Education Sequence**

**Pre-Admission Phase: The Learner and the Community: 7 hours**

*Prerequisite: Sophomore standing or higher.*

- EDPS 322 - Human Development and Learning 4 hrs
- SPGN 251 - Introduction to Inclusion and Disabilities Studies in a Diverse Society (GEUS) 3 hrs

The following phases require formal admission to the Initial Teacher Preparation Program:
Phase I: Curriculum, Assessment and the Social Context: 12 hours

Prerequisite: Completion of Pre-Admission Phase is required.

* These two courses must be taken together.
** These courses must be taken with or after CURR 305.

- * CURR 305 - Curriculum and Methods: Secondary 3 hrs
- ** EDPS 340 - Introduction to Assessment and Evaluation 3 hrs
- * PRCT 305 - Practicum I: Secondary 3 hrs
- SOFD 328W - Schools for a Diverse and Democratic Society (GEWI) 3 hrs

Phase II: Content and Methods and Teaching: 9 hours

Prerequisite: Completion of Phase I is required.

* These two courses must be taken together.

- EDMT 330 - Instructional Applications of Media and Technology 3 hrs
- * PRCT 311 - Practicum II: Secondary 3 hrs
- * RDNG 311 - Teaching Reading in the Secondary School 3 hrs

Phase III: Capstone Experience: 12 hours

Prerequisite: Completion of Phase II and 100 pre-student teaching hours is required.

- EDUC 489 - Student Teaching (GELB) 12 hrs
  In order to meet NCATE standards, candidates who:
  - major in a language shall complete more than half of their student teaching contact hours in that language.
  - double major in a language and in another content area shall complete a portion of the student teaching experience in
    that language.
  - double major in two languages shall student teach in each language.

Minor Requirements:

This program requires a minor. Please contact your program advisor for a list of possible minors.

MTTC Subject Area Test

Starting January 1, 2013, Students seeking licensure in a secondary or K-12 area are not required to take the MTTC subject area test in their minor area. Students who elect not to take the test in their minor will be required to sign a statement indicating that they understand that they will not be endorsed in their minor area and will not be eligible for teaching positions in their minor unless they pass the minor subject area test within five years of completing field experience and course requirements.

Program Total:

Students must earn a minimum total of 124 credits at the 100-level or above.
Critical Graduation Information:

Each undergraduate student will be responsible for the fulfillment of the requirements or their equivalents of the Eastern Michigan University catalog in force at the time of their initial registration at a college or university or a subsequent catalog including the one in effect at the time of their graduation.

In the event an undergraduate student does not complete the degree requirements within seven years of the date of their original registration at a college or university, the student may be required to have their credits re-evaluated by the academic department(s) of their major/minor in keeping with catalog requirements in force during the year of their graduation.

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the 100-level and above. Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Complete a Writing Intensive (WI) Course in your major.
- Earn a minimum of 60 credits from a four-year college or university; courses taken at community colleges cannot be used to meet this requirement. (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 unique credit hours in their major and 20 unique credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
- Earn no more than 60 credit hours in one subject area (prefix). Credits in excess of the 60 maximum will not be counted toward the minimum of 124 credits required for a bachelor's degree.
- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more than one major or minor.
  - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
  - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
  - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor.
- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is conducted by individual departments/schools within EMU, and additional documentation may be required. Please note: EMU awards only credit for transferred courses; grades are not used in the calculation of an EMU GPA.
- Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be reached in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

General Education Requirements:
EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available in the General Education section of the catalog: General Education

Students who transferred to EMU may have modified general education requirements based on Michigan Transfer Agreement (MTA) or articulation agreements; consult your academic advisor for additional information.

University Information: Consult the online catalog at catalog.emich.edu.

K-12 Japanese Language and Culture Teaching Major

This major was revised on February 14, 2019, to correct an error. FLAN 411 and FLAN 412 were removed from the Professional Secondary Education Sequence.

Depending on initial placement, students may need to take up to 16 additional credit hours of 100- and 200-level classes in the language before they can begin courses required in the major. Students with prior language study or knowledge will be placed at an appropriate level in consultation with an advising coordinator.

Successful completion of this course of study, in the context of other program and NCATE requirements, qualifies the student for recommendation for the Michigan Department of Education K-12 Provisional Certificate in Japanese, certification code FL. The Michigan Test for Teacher Certification (MTTC) covering this field is #100, "Japanese." In addition, all students must pass the Oral Proficiency Interview (OPI) for Japanese.

Initial Teacher Preparation Program Admission

In order to pursue the sequence of courses necessary to complete eligibility for recommendation for certification, one must apply for and be admitted to the teacher preparation program. Admission requirements are common for all teacher preparation programs, except that certain special education programs have additional requirements.

Each undergraduate student is responsible for applying to the teacher preparation program immediately after the semester in which the student has earned 56 credit hours. Transfer students with more than 56 credit hours should apply immediately after the semester in which they have earned 12 hours at EMU, including at least one course in their major. Students with 56 hours of transfer course work with a decision GPA of 3.0 may apply for admission to the teacher preparation program without 12 earned hours at EMU.
Admission to the teacher preparation program is not automatic. Only those persons who have formally applied are considered for admission. Not all persons who apply become eligible for admission.

Applications for the Initial Teacher Preparation Program at EMU are available within your my.emich account under the "Student" tab. Submit your completed application to the Office of Academic Services once you have earned 56 credit hours.

Teaching majors and minors are unofficial until program admission. Students pursuing teacher certification should follow the catalog that exists at the time of program admission. It is important that students apply to the teacher preparation program as soon as they have earned 56 credit hours.

Criteria:

1. Completion of 56 credit hours
2. Appropriate cumulative GPA. One of:
   1. An overall EMU GPA of 2.5 or higher based on a minimum of 12 credit hours taken at EMU. An EMU GPA of 2.5 or higher in your major, based on at least one course in your major. The Elementary Education Major is comprehensive, therefore, the elementary major GPA is based on the cumulative of liberal arts curriculum and content course work.
   2. Transferred 56 credits with a cumulative 3.0 GPA from all previous institutions.
3. A grade of "C" or higher (if taken) in the following courses:
   1. If Secondary: ENGL 121, CTAC 124, Quantitative Reasoning (GEQR), one lab science, all professional education courses, and, if special education, PSY 101.
   2. If Elementary: ENGL 121, CTAC 124, MATH 108, MATH 110E, PHY 100, ESSC 202, all of the professional education courses, all courses that state "for elementary teachers," and, if special education, PSY 101.
4. Official Test Scores showing competency in each of the following areas: mathematics, reading and writing. Scores are accepted from the Professional Readiness Exam (PRE), Basic Skills Test (no longer offered), ACT, or Michigan Merit Exam (MME). The following scores are acceptable:
   1. Mathematics: PRE pass, Basic Skills pass, ACT mathematics 22 or higher, or MME mathematics 1116 or higher.
   2. Writing: PRE pass, Basic Skills pass, ACT combined English/writing 24 or higher, or MME writing 1129 or higher.
   3. Reading: PRE pass, Basic Skills pass, ACT reading 22 or higher, or MME reading 1108 or higher.
5. ICHAT criminal background check and Statement of Civil/Criminal Convictions. If you answered yes to any of the civil/criminal conviction questions on the application, you will need to provide:
   1. A copy of the Judgment of Sentence, or Registrar of Actions, or Certification of Conviction.
   2. A written explanation of the offense(s). Application of students with civil/criminal convictions will be carefully reviewed and may take longer to process.
6. Meet academic, social, moral, and financial obligations as a member of the EMU community.

General Education Requirements:

For specific requirements refer to the General Education Program.

Major Requirements: 33 hours

Group I: Language Development: 18 hours

- JPNE 343W - Japanese Composition (GEWI) 3 hrs
- JPNE 344 - Japanese Conversation 3 hrs
• JPNE 361 - Japanese for International Trade 3 hrs
• JPNE 444 - Advanced Japanese Conversation 3 hrs
• JPNE 446 - Business Japanese I 3 hrs
• JPNE 447 - Business Japanese II 3 hrs

Group II: Literature: 3 hours

• JPNE 445 - Survey of Japanese Literature 3 hrs

Group III: Civilization and Culture: 3 hours

Choose one from the following:

• ANTH 385 - Culture of Japan 3 hrs
• JPNE 448 - Readings on Japanese Culture 3 hrs

Group IV. Immersion Experience: 6 hours

• JPNE 490 - Intensive Japanese Abroad 6 hrs

Group V: Capstone Seminar: 3 hours

• JPNE 494 - Seminar in Japanese Studies 3 hrs

K-12 Foreign Language Methods Core: 12 hours

• FLAN 411 - Theory and Methods of Modern Language Teaching 3 hrs
• FLAN 412 - Methods of Teaching Modern Languages in the Elementary Grades 3 hrs
• FLAN 441 - Practicum in World Language Instruction - Secondary 3 hrs
• FLAN 442 - Practicum in World Language Instruction - Elementary 3 hrs

Professional K-12 Education Sequence

Pre-Admission Phase: The Learner and the Community: 7 hours

*Prerequisite: Sophomore standing or higher.*

• EDPS 322 - Human Development and Learning 4 hrs
• SPGN 251 - Introduction to Inclusion and Disabilities Studies in a Diverse Society (GEUS) 3 hrs

The following phases require formal admission to the Initial Teacher Preparation Program:

Phase I: Curriculum, Assessment and the Social Context: 12 hours
Prerequisite: Completion of Pre-Admission Phase is required.

* These two courses must be taken together.
** These courses must be taken with or after CURR 305.

- * CURR 305 - Curriculum and Methods: Secondary 3 hrs
- ** EDPS 340 - Introduction to Assessment and Evaluation 3 hrs
- * PRCT 305 - Practicum I: Secondary 3 hrs
- SOFD 328W - Schools for a Diverse and Democratic Society (GEWI) 3 hrs

Phase II: Content and Methods and Teaching: 9 hours

Prerequisite: Completion of Phase I is required.

* These two courses must be taken together.

- EDMT 330 - Instructional Applications of Media and Technology 3 hrs
- * PRCT 311 - Practicum II: Secondary 3 hrs
- * RDNG 311 - Teaching Reading in the Secondary School 3 hrs

Phase III: Capstone Experience: 12 hours

Prerequisite: Completion of Phase II and 100 pre-student teaching hours is required.

- EDUC 489 - Student Teaching (GELB) 12 hrs
  In order to meet NCATE standards, candidates who:
  - major in a language shall complete more than half of their student teaching contact hours in that language.
  - double major in a language and in another content area shall complete a portion of the student teaching experience in that language.
  - double major in two languages shall student teach in each language.

Minor Requirements:

This program requires a minor. Please contact your program advisor for a list of possible minors.

Program Total:

Students must earn a minimum total of 124 credits at the 100-level or above.

MTTC Subject Area Test

Starting January 1, 2013, Students seeking licensure in a secondary or K-12 area are not required to take the MTTC subject area test in their minor area. Students who elect not to take the test in their minor will be required to sign a statement indicating that they understand that they will not be endorsed in their minor area and will not be eligible for teaching positions in their minor unless they pass the minor subject area test within five years of completing field experience and course requirements.

Critical Graduation Information:
Each undergraduate student will be responsible for the fulfillment of the requirements or their equivalents of the Eastern Michigan University catalog in force at the time of their initial registration at a college or university or a subsequent catalog including the one in effect at the time of their graduation.

In the event an undergraduate student does not complete the degree requirements within seven years of the date of their original registration at a college or university, the student may be required to have their credits re-evaluated by the academic department(s) of their major/minor in keeping with catalog requirements in force during the year of their graduation.

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the 100-level and above. Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Complete a Writing Intensive (WI) Course in your major.
- Earn a minimum of 60 credits from a four-year college or university; courses taken at community colleges cannot be used to meet this requirement. (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 unique credit hours in their major and 20 unique credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
- Earn no more than 60 credit hours in one subject area (prefix). Credits in excess of the 60 maximum will not be counted toward the minimum of 124 credits required for a bachelor's degree.
- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more that one major or minor.
  - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
  - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
  - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor
- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is conducted by individual departments/schools within EMU, and additional documentation may be required. Please note: EMU awards only credit for transferred courses; grades are not used in the calculation of an EMU GPA.
- Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be reached in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

General Education Requirements:

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available in the General Education section of the catalog: General Education
Students who transferred to EMU may have modified general education requirements based on Michigan Transfer Agreement (MTA) or articulation agreements; consult your academic advisor for additional information.

University Information: Consult the online catalog at catalog.emich.edu.

K-12 Spanish Teaching Major

This major was revised on February 14, 2019, to correct an error. FLAN 411 and FLAN 412 were removed from the Professional Secondary Education Sequence.

Depending on initial placement, students may need to take up to 24 additional credit hours of 100- and 200-level classes in the language before they can begin courses required in the major. Students with prior language study or knowledge will be placed at an appropriate level in consultation with an advising coordinator.

Successful completion of this course of study, in the context of other program and NCATE requirements, qualifies the student for recommendation for the Michigan Department of Education Secondary Provisional Certificate in Spanish, certification code FF, and, depending on the minor selected, an additional endorsement. The Michigan Test for Teacher Certification (MTTC) covering this field is #028, "Spanish." In addition, all students must pass the Oral Proficiency Interview (OPI) for Spanish.

Initial Teacher Preparation Program Admission

In order to pursue the sequence of courses necessary to complete eligibility for recommendation for certification, one must apply for and be admitted to the teacher preparation program. Admission requirements are common for all teacher preparation programs, except that certain special education programs have additional requirements.

Each undergraduate student is responsible for applying to the teacher preparation program immediately after the semester in which the student has earned 56 credit hours. Transfer students with more than 56 credit hours should apply immediately after the semester in which they have earned 12 hours at EMU, including at least one course in their major. Students with 56 hours of transfer course work with a decision GPA of 3.0 may apply for admission to the teacher preparation program without 12 earned hours at EMU.

Admission to the teacher preparation program is not automatic. Only those persons who have formally applied are considered for admission. Not all persons who apply become eligible for admission.

Applications for the Initial Teacher Preparation Program at EMU are available within your my.emich account under the "Student" tab. Submit your completed application to the Office of Academic Services once you have earned 56 credit hours.

Teaching majors and minors are unofficial until program admission. Students pursuing teacher certification should follow the catalog that exists at the time of program admission. It is important that students apply to the teacher preparation program as soon as they have earned 56 credit hours.
Criteria:

1. Completion of 56 credit hours
2. Appropriate cumulative GPA. One of:
   1. An overall EMU GPA of 2.5 or higher based on a minimum of 12 credit hours taken at EMU. An EMU GPA of 2.5 or higher in your major, based on at least one course in your major. The Elementary Education Major is comprehensive, therefore, the elementary major GPA is based on the cumulative of liberal arts curriculum and content course work.
   2. Transferred 56 credits with a cumulative 3.0 GPA from all previous institutions.
3. A grade of "C" or higher (if taken) in the following courses:
   1. If Secondary: ENGL 121, CTAC 124, Quantitative Reasoning (GEQR), one lab science, all professional education courses, and, if special education, PSY 101.
   2. If Elementary: ENGL 121, CTAC 124, MATH 108, MATH 110E, PHY 100, ESSC 202, all of the professional education courses, all courses that state "for elementary teachers," and, if special education, PSY 101.
4. Official Test Scores showing competency in each of the following areas: mathematics, reading and writing. Scores are accepted from the Professional Readiness Exam (PRE), Basic Skills Test (no longer offered), ACT, or Michigan Merit Exam (MME). The following scores are acceptable:
   1. Mathematics: PRE pass, Basic Skills pass, ACT mathematics 22 or higher, or MME mathematics 1116 or higher.
   2. Writing: PRE pass, Basic Skills pass, ACT combined English/writing 24 or higher, or MME writing 1129 or higher.
   3. Reading: PRE pass, Basic Skills pass, ACT reading 22 or higher, or MME reading 1108 or higher.
5. ICHAT criminal background check and Statement of Civil/Criminal Convictions. If you answered yes to any of the civil/criminal conviction questions on the application, you will need to provide:
   1. A copy of the Judgment of Sentence, or Registrar of Actions, or Certification of Conviction.
   2. A written explanation of the offense(s). Application of students with civil/criminal convictions will be carefully reviewed and may take longer to process.
6. Meet academic, social, moral, and financial obligations as a member of the EMU community.

General Education Requirements:

For specific requirements refer to the General Education Program.

Major Requirements: 30 hours

Group I: Language Development: 12 hours

- SPNH 343 - Spanish Grammar and Composition 3 hrs
- SPNH 344 - Spanish Conversation and Composition 3 hrs
- SPNH 443 - Advanced Spanish Grammar and Composition 3 hrs

One of the following:

- SPNH 423 - Hispanic Linguistics 3 hrs
- SPNH 430 - Spanish Phonetics and Phonology 3 hrs
- SPNH 444 - Advanced Spanish Conversation and Composition 3 hrs
Group II: Literature: 6 hours

- SPNH 401 - Advanced Readings in Spanish Literature 3 hrs
- SPNH 402 - Advanced Readings in Spanish American Literature 3 hrs

Group III: Civilization and Culture: 6 hours

- SPNH 411 - The Cultures of Spain 3 hrs
- SPNH 412 - The Cultures of Spanish America 3 hrs

Group IV: Immersion Experience: 6 hours

- SPNH 490 - Intensive Spanish 6 hrs

K-12 Foreign Language Methods Core: 12 hours

- FLAN 411 - Theory and Methods of Modern Language Teaching 3 hrs
- FLAN 412 - Methods of Teaching Modern Languages in the Elementary Grades 3 hrs
- FLAN 441 - Practicum in World Language Instruction - Secondary 3 hrs
- FLAN 442 - Practicum in World Language Instruction - Elementary 3 hrs

Professional K-12 Education Sequence

Pre-Admission Phase: The Learner and the Community: 7 hours

Prerequisite: Sophomore standing or higher.

- EDPS 322 - Human Development and Learning 4 hrs
- SPGN 251 - Introduction to Inclusion and Disabilities Studies in a Diverse Society (GEUS) 3 hrs

The following phases require formal admission to the Initial Teacher Preparation Program:

Phase I: Curriculum, Assessment and the Social Context: 12 hours

Prerequisite: Completion of Pre-Admission Phase is required.

* These two courses must be taken together.

** This course must be taken with or after CURR 305.

- * CURR 305 - Curriculum and Methods: Secondary 3 hrs
- ** EDPS 340 - Introduction to Assessment and Evaluation 3 hrs
- * PRCT 305 - Practicum I: Secondary 3 hrs
- SOFD 328W - Schools for a Diverse and Democratic Society (GEWI) 3 hrs
Phase II: Content and Methods and Teaching: 9 hours

Prerequisite: Completion of Phase I is required.

* These two courses must be taken together.

** This course must be taken with or after CURR 305.

- ** EDMT 330 - Instructional Applications of Media and Technology 3 hrs
- * PRCT 311 - Practicum II: Secondary 3 hrs
- * RDNG 311 - Teaching Reading in the Secondary School 3 hrs

Phase III: Capstone Experience: 12 hours

Prerequisite: Completion of Phase II and 100 pre-student teaching hours is required.

- EDUC 489 - Student Teaching (GELB) 12 hrs
  In order to meet NCATE standards, candidates who:
  - major in a language shall complete more than half of their student teaching contact hours in that language.
  - double major in a language and in another content area shall complete a portion of the student teaching experience in that language.
  - double major in two languages shall student teach in each language.

Minor Requirements:

This program requires a minor. Please contact your program advisor for a list of possible minors.

Program Total:

Students must earn a minimum total of 124 credits at the 100-level or above.

MTTC Subject Area Test

Starting January 1, 2013, Students seeking licensure in a secondary or K-12 area are not required to take the MTTC subject area test in their minor area. Students who elect not to take the test in their minor will be required to sign a statement indicating that they understand that they will not be endorsed in their minor area and will not be eligible for teaching positions in their minor unless they pass the minor subject area test within five years of completing field experience and course requirements.

Critical Graduation Information:

Each undergraduate student will be responsible for the fulfillment of the requirements or their equivalents of the Eastern Michigan University catalog in force at the time of their initial registration at a college or university or a subsequent catalog including the one in effect at the time of their graduation.

In the event an undergraduate student does not complete the degree requirements within seven years of the date of their original registration at a college or university, the student may be required to have their credits re-evaluated by the academic department(s) of their major/minor in keeping with catalog requirements in force during the year of their graduation.
The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the 100-level and above. Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Complete a Writing Intensive (WI) Course in your major.
- Earn a minimum of 60 credits from a four-year college or university; courses taken at community colleges cannot be used to meet this requirement. (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 unique credit hours in their major and 20 unique credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
- Earn no more than 60 credit hours in one subject area (prefix). Credits in excess of the 60 maximum will not be counted toward the minimum of 124 credits required for a bachelor's degree.
- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more than one major or minor.
  - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
  - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
  - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor
- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is conducted by individual departments/schools within EMU, and additional documentation may be required. Please note: EMU awards only credit for transferred courses; grades are not used in the calculation of an EMU GPA.
- Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be reached in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

**General Education Requirements:**

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available in the General Education section of the catalog: General Education

Students who transferred to EMU may have modified general education requirements based on Michigan Transfer Agreement (MTA) or articulation agreements; consult your academic advisor for additional information.

**University Information:** Consult the online catalog at catalog.emich.edu.

**Secondary Education French Major**
Depending on initial placement, students may need to take up to 16 additional credit hours of 100 and 200 level classes in the language before they can begin courses required in the major. Students with prior language study or knowledge will be placed at an appropriate level in consultation with an advising coordinator.

Successful completion of this course of study, in the context of other program and NCATE requirements, qualifies the student for recommendation for the Michigan Department of Education Secondary Provisional Certificate in French, certification code FA, and, depending on the minor selected, an additional endorsement. The Michigan Test for Teacher Certification (MTTC) covering this field is #023, "French." In addition, all students must pass the Oral Proficiency Interview (OPI) for French.

Students who elect not to take the test in their minor will be required to sign a statement indicating that they understand that they will not be endorsed in their minor area and will not be eligible for teaching positions in their minor unless they pass the minor subject area test within five years of completing field experience and course requirements.

Critical Graduation Information:

Each undergraduate student will be responsible for the fulfillment of the requirements or their equivalents of the Eastern Michigan University catalog in force at the time of their initial registration at a college or university or a subsequent catalog including the one in effect at the time of their graduation.

In the event an undergraduate student does not complete the degree requirements within seven years of the date of their original registration at a college or university, the student may be required to have their credits re-evaluated by the academic department(s) of their major/minor in keeping with catalog requirements in force during the year of their graduation.

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the 100-level and above. Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Complete a Writing Intensive (WI) Course in your major.
- Earn a minimum of 60 credits from a four-year college or university; courses taken at community colleges cannot be used to meet this requirement. (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 unique credit hours in their major and 20 unique credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
- Earn no more than 60 credit hours in one subject area (prefix). Credits in excess of the 60 maximum will not be counted toward the minimum of 124 credits required for a bachelor's degree.
• Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more than one major or minor.
  o Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor.
  o Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
  o Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor.

• Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is conducted by individual departments/schools within EMU, and additional documentation may be required. Please note: EMU awards only credit for transferred courses; grades are not used in the calculation of an EMU GPA.

• Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be reached in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

General Education Requirements:

EMU’s General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available in the General Education section of the catalog: General Education

Students who transferred to EMU may have modified general education requirements based on Michigan Transfer Agreement (MTA) or articulation agreements; consult your academic advisor for additional information.

University Information: Consult the online catalog at catalog.emich.edu.

Secondary Education Spanish Language Teaching Major

Depending on initial placement, students may need to take up to 24 additional credit hours of 100- and 200-level classes in the language before they can begin courses required in the major. Students with prior language study or knowledge will be placed at an appropriate level in consultation with an advising coordinator.

Successful completion of this course of study, in the context of other program and NCATE requirements, qualifies the student for recommendation for the Michigan Department of Education Secondary Provisional Certificate in Spanish, certification code FF, and, depending on the minor selected, an additional endorsement. The Michigan Test for Teacher Certification (MTTC) covering this field is #028, "Spanish." In addition, all students must pass the Oral Proficiency Interview (OPI) for Spanish.

Initial Teacher Preparation Program Admission

In order to pursue the sequence of courses necessary to complete eligibility for recommendation for certification, one must apply for and be admitted to the teacher preparation program. Admission requirements are common for all teacher preparation programs, except that certain special education programs have additional requirements.

Each undergraduate student is responsible for applying to the teacher preparation program immediately after the semester in which the student has earned 56 credit hours. Transfer students with more than 56 credit hours should apply immediately after the semester in which they have earned 12 hours at EMU, including at least one course in their major. Students with 56 hours of transfer course work with a decision GPA of 3.0 may apply for admission to the teacher preparation program without 12 earned hours at EMU.

Admission to the teacher preparation program is not automatic. Only those persons who have formally applied are considered for admission. Not all persons who apply become eligible for admission.

Applications for the Initial Teacher Preparation Program at EMU are available within your my.emich account under the "Student" tab. Submit your completed application to the Office of Academic Services once you have earned 56 credit hours.

Teaching majors and minors are unofficial until program admission. Students pursuing teacher certification should follow the catalog that exists at the time of program admission. It is important that students apply to the teacher preparation program as soon as they have earned 56 credit hours.

Criteria:

1. Completion of 56 credit hours
2. Appropriate cumulative GPA. One of:
   1. An overall EMU GPA of 2.5 or higher based on a minimum of 12 credit hours taken at EMU. An EMU GPA of 2.5 or higher in your major, based on at least one course in your major. The Elementary Education Major is comprehensive, therefore, the elementary major GPA is based on the cumulative of liberal arts curriculum and content course work.
   2. Transferred 56 credits with a cumulative 3.0 GPA from all previous institutions.
3. A grade of "C" or higher (if taken) in the following courses:
   1. If Secondary: ENGL 121, CTAC 124, Quantitative Reasoning (GEQR), one lab science, all professional education courses, and, if special education, PSY 101.
   2. If Elementary: ENGL 121, CTAC 124, MATH 108, MATH 110E, PHY 100, ESSC 202, all of the professional education courses, all courses that state "for elementary teachers," and, if special education, PSY 101.
4. Official Test Scores showing competency in each of the following areas: mathematics, reading and writing. Scores are accepted from the Professional Readiness Exam (PRE), Basic Skills Test (no longer offered), ACT, or Michigan Merit Exam (MME). The following scores are acceptable:
   1. Mathematics: PRE pass, Basic Skills pass, ACT mathematics 22 or higher, or MME mathematics 1116 or higher.
   2. Writing: PRE pass, Basic Skills pass, ACT combined English/writing 24 or higher, or MME writing 1129 or higher.
   3. Reading: PRE pass, Basic Skills pass, ACT reading 22 or higher, or MME reading 1108 or higher.
5. ICHAT criminal background check and Statement of Civil/Criminal Convictions. If you answered yes to any of the civil/criminal conviction questions on the application, you will need to provide:
   1. A copy of the Judgment of Sentence, or Registrar of Actions, or Certification of Conviction.
   2. A written explanation of the offense(s). Application of students with civil/criminal convictions will be carefully reviewed and may take longer to process.
6. Meet academic, social, moral, and financial obligations as a member of the EMU community.
General Education Requirements:

For specific requirements refer to the General Education Program.

Major Requirements: 30 hours

Group I: Language Development: 12 hours

- SPNH 343 - Spanish Grammar and Composition 3 hrs
- SPNH 344 - Spanish Conversation and Composition 3 hrs
- SPNH 443 - Advanced Spanish Grammar and Composition 3 hrs

One of the following:

- SPNH 423 - Hispanic Linguistics 3 hrs
- SPNH 430 - Spanish Phonetics and Phonology 3 hrs
- SPNH 444 - Advanced Spanish Conversation and Composition 3 hrs

Group II: Literature: 6 hours

- SPNH 401 - Advanced Readings in Spanish Literature 3 hrs
- SPNH 402 - Advanced Readings in Spanish American Literature 3 hrs

Group III: Civilization and Culture: 6 hours

- SPNH 411 - The Cultures of Spain 3 hrs
- SPNH 412 - The Cultures of Spanish America 3 hrs

Group IV. Immersion Experience: 6 hours

- SPNH 490 - Intensive Spanish 6 hrs

Foreign Language Education Methods Core: 6 hours

- FLAN 411 - Theory and Methods of Modern Language Teaching 3 hrs
- FLAN 441 - Practicum in World Language Instruction - Secondary 3 hrs

Professional Secondary Education Sequence

Secondary Education Pre-Admission Phase: The Learner and the Community: 7 hours

Prerequisite: Sophomore standing or higher.
• EDPS 322 - Human Development and Learning 4 hrs
• SPGN 251 - Introduction to Inclusion and Disabilities Studies in a Diverse Society (GEUS) 3 hrs

The following phases require formal admission to the Initial Teacher Preparation Program:

Secondary Education Phase I: Curriculum, Assessment and the Social Context: 15 hours

Prerequisite: Completion of Pre-Admission Phase is required.

* These two courses must be taken together.
** These courses must be taken with or after CURR 305.

• * CURR 305 - Curriculum and Methods: Secondary 3 hrs
• ** EDMT 330 - Instructional Applications of Media and Technology 3 hrs
• ** EDPS 340 - Introduction to Assessment and Evaluation 3 hrs
• * PRCT 305 - Practicum I: Secondary 3 hrs
• SOFD 328W - Schools for a Diverse and Democratic Society (GEWI) 3 hrs

Secondary Education Phase II: Content and Methods and Teaching: 9 hours

Prerequisite: Completion of Phase I is required.

* These two courses must be taken together.

• * PRCT 311 - Practicum II: Secondary 3 hrs
• * RDNG 311 - Teaching Reading in the Secondary School 3 hrs

Methods Course by Major:

World Languages Majors take:

• FLAN 411 - Theory and Methods of Modern Language Teaching 3 hrs

Secondary Education Phase III: Capstone Experience: 9 hours

Prerequisite: Completion of Phase II and 100 pre-student teaching hours is required.

• EDUC 492 - Student Teaching (GELB) 9 hrs
  This course requires a formal application to be submitted 7-8 months prior to the Student Teaching semester.

Minor Requirements:

This program requires a minor. Please contact your program advisor for a list of possible minors.
Program Total:

Students must earn a minimum total of 124 credits at the 100-level or above.

Notes:

The minimum residency requirement for transfer students seeking a minor in Spanish for teaching is 12 hours taken through EMU, including SPNH 343 and 344 (or SPNH 442 and 44, if appropriate) plus SPNH 490.

MTTC Subject Area Test

Starting January 1, 2013, Students seeking licensure in a secondary or K-12 area are not required to take the MTTC subject area test in their minor area. Students who elect not to take the test in their minor will be required to sign a statement indicating that they understand that they will not be endorsed in their minor area and will not be eligible for teaching positions in their minor unless they pass the minor subject area test within five years of completing field experience and course requirements.

Critical Graduation Information:

Each undergraduate student will be responsible for the fulfillment of the requirements or their equivalents of the Eastern Michigan University catalog in force at the time of their initial registration at a college or university or a subsequent catalog including the one in effect at the time of their graduation.

In the event an undergraduate student does not complete the degree requirements within seven years of the date of their original registration at a college or university, the student may be required to have their credits re-evaluated by the academic department(s) of their major/minor in keeping with catalog requirements in force during the year of their graduation.

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the 100-level and above. Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Complete a Writing Intensive (WI) Course in your major.
- Earn a minimum of 60 credits from a four-year college or university; courses taken at community colleges cannot be used to meet this requirement. (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 unique credit hours in their major and 20 unique credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
- Earn no more than 60 credit hours in one subject area (prefix). Credits in excess of the 60 maximum will not be counted toward the minimum of 124 credits required for a bachelor's degree.
- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more than one major or minor.
Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor

- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is conducted by individual departments/schools within EMU, and additional documentation may be required. Please note: EMU awards only credit for transferred courses; grades are not used in the calculation of an EMU GPA.
- Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be reached in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

General Education Requirements:

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available in the General Education section of the catalog: General Education

Students who transferred to EMU may have modified general education requirements based on Michigan Transfer Agreement (MTA) or articulation agreements; consult your academic advisor for additional information.

University Information: Consult the online catalog at catalog.emich.edu.

Spanish Major

Depending on initial placement, students may need to take up to 24 additional credit hours of 100- and 200-level classes in the language before they can begin courses required in the major. Students with prior language study or knowledge will be placed at an appropriate level in consultation with an advising coordinator.

The courses listed below meet the minimum requirements only; it is recommended that students specializing in Spanish, or planning to continue with graduate work, carry their undergraduate study beyond the minimum. Many graduate schools require additional course work in literature.

Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor

- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is conducted by individual departments/schools within EMU, and additional documentation may be required. Please note: EMU awards only credit for transferred courses; grades are not used in the calculation of an EMU GPA.

- Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be reached in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

**General Education Requirements:**

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available in the General Education section of the catalog: General Education

Students who transferred to EMU may have modified general education requirements based on Michigan Transfer Agreement (MTA) or articulation agreements; consult your academic advisor for additional information.

**University Information:** Consult the online catalog at catalog.emich.edu.

**Classical Studies Minor**

**Department Information:**

World Languages Department - College of Arts & Sciences

**Rosemary Weston-Gil, Ph.D., Department Head**

219 Alexander Hall  
(734) 487-0130

Department Website

**Advisor Information:**

Program Advisor: James Holoka  
Email: jholoka@emich.edu  
Phone: 734.487.2283

**Required Courses: 12 hours**

- ARTH 368 - History of Classical Art 3 hrs
- HIST 323 - Greek History 3 hrs
- HIST 324 - Roman History 3 hrs
- PHIL 330W - History of Philosophy: Ancient (GEWI) 3 hrs

**Restricted Elective Courses: 12 hours**

*see note*

**One of the following groups:**

**Group A (Greek Language): 12 hours**

- GREK 101 - Beginning Ancient Greek I 3 hrs
- GREK 102 - Beginning Ancient Greek II 3 hrs
- GREK 201 - Intermediate Ancient Greek I 3 hrs
- GREK 202 - Intermediate Ancient Greek II 3 hrs

**Group B (Latin Language): 12 hours**

- LATN 101 - Beginning Latin I 3 hrs
- LATN 102 - Beginning Latin II 3 hrs
- LATN 201 - Intermediate Latin I 3 hrs
- LATN 202 - Intermediate Latin II 3 hrs

**Group C (Classical Culture and Heritage): 12 hours**

*Choose 12 hours from the following:*

- CHL 351 - World Mythology 3 hrs
- CLAS 106 - Rome and America (GEKH) 6 hrs
- CLAS 181 - The Legacy of Greece 3 hrs
- CLAS 301 - Classical Mythology 3 hrs
- CLAS 321 - Women and Gender in the Ancient World 3 hrs
- HIST 202 - Religions in Conflict and Dialogue: Judaism, Christianity, and Islam (GEGA) 3 hrs
- HIST 321 - Women and Gender in the Ancient World 3 hrs
- HIST 327 - Europe in Early Middle Ages 400-1050 3 hrs
- HIST 328 - Europe in Late Middle Ages 1050-1400 3 hrs
- HIST 330 - Europe in the Renaissance and Reformation 3 hrs
- LING 205 - English Words 3 hrs
- LNGE 134 - Etymology 3 hrs
- WGST 321 - Women and Gender in the Ancient World 3 hrs

**Minor Total: 24 hours**

**Notes:**

*All minors must have at least six hours of course work at the 300-level or above.*
* Certain independent study and special topics courses may be counted as restricted elective courses with the approval of the advising coordinator.

Critical Graduation Information:

Each undergraduate student will be responsible for the fulfillment of the requirements or their equivalents of the Eastern Michigan University catalog in force at the time of their initial registration at a college or university or a subsequent catalog including the one in effect at the time of their graduation.

In the event an undergraduate student does not complete the degree requirements within seven years of the date of their original registration at a college or university, the student may be required to have their credits re-evaluated by the academic department(s) of their major/minor in keeping with catalog requirements in force during the year of their graduation.

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the 100-level and above. Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Complete a Writing Intensive (WI) Course in your major.
- Earn a minimum of 60 credits from a four-year college or university; courses taken at community colleges cannot be used to meet this requirement. (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 unique credit hours in their major and 20 unique credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
- Earn no more than 60 credit hours in one subject area (prefix). Credits in excess of the 60 maximum will not be counted toward the minimum of 124 credits required for a bachelor's degree.
- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more than one major or minor.
  - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
  - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
  - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor.
- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is conducted by individual departments/schools within EMU, and additional documentation may be required. Please note: EMU awards only credit for transferred courses; grades are not used in the calculation of an EMU GPA.
- Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be reached in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)
General Education Requirements:

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available in the General Education section of the catalog: General Education

Students who transferred to EMU may have modified general education requirements based on Michigan Transfer Agreement (MTA) or articulation agreements; consult your academic advisor for additional information.

English as a Second Language for Non-Native Speakers of English Minor (ESL)

This minor is limited to international students who are non-native speakers of English and conditionally admitted to the University on the basis of English language proficiency. It is administered jointly by the Department of World Languages and the Department of English Language and Literature.

Students who have placed in the 300 level ESL classes will complete all of the following required courses. Students who have placed at the 400 level will begin this minor by taking ESLN 412 - Academic ESL Writing (GEEC), ESLN 414 - Academic ESL Reading and ESLN 416 - Academic ESL Speaking and Listening. These students must choose six credit hours from the restricted elective courses or other courses with the permission of the advisor.

Department Information:

World Languages Department - College of Arts & Sciences

Rosemary Weston-Gil, Ph.D., Department Head

219 Alexander Hall
(734) 487-0130
rweston3@emich.edu

Required Courses: 21 hours

- WRTG 225 - Writing in a Changing World 3 hrs
- WRTG 326 - Research Writing 3 hrs
- ESLN 412 - Academic ESL Writing (GEEC) 3 hrs
- ESLN 414 - Academic ESL Reading 3 hrs
- ESLN 416 - Academic ESL Speaking and Listening 3 hrs

One course from the following:

- ESLN 310 - Advanced ESL Grammar 3 hrs
- ESLN 312 - Advanced ESL Writing 4 hrs

One course from the following:

- ESLN 314 - Advanced ESL Reading 4 hrs
- ESLN 316 - Advanced ESL Speaking and Listening 4 hrs

Restricted Elective Courses: 3 hours

One course from the following:

- Other English language or linguistics course (written permission required) (3 hrs)
• Other speech communication course (written permission required) (3 hrs)
• Other advanced (speech) courses not including theatre arts courses, with written permission from the ESL coordinator
• CTAC 224 - Public Speaking 3 hrs
• CTAC 350 - Persuasion 3 hrs
• CTAC 356 - Argumentation and Debate 3 hrs
• CTAC 359 - Small Group Communication 3 hrs
• LING 201 - An Introduction to Linguistics 3 hrs
• LING 402 - Modern English Grammar 3 hrs

Minor Total: 24 hours

Note:

All minors must have at least six hours of course work at the 300-level or above.

Critical Graduation Information:

Each undergraduate student will be responsible for the fulfillment of the requirements or their equivalents of the Eastern Michigan University catalog in force at the time of their initial registration at a college or university or a subsequent catalog including the one in effect at the time of their graduation.

In the event an undergraduate student does not complete the degree requirements within seven years of the date of their original registration at a college or university, the student may be required to have their credits re-evaluated by the academic department(s) of their major/minor in keeping with catalog requirements in force during the year of their graduation.

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

• Earn a minimum total of 124 credits at the 100-level and above. Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.
• Meet the requirements of the General Education program (see information below).
• Complete a Writing Intensive (WI) Course in your major.
• Earn a minimum of 60 credits from a four-year college or university; courses taken at community colleges cannot be used to meet this requirement. (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
• Earn a minimum of 30 credits from courses taken at EMU.
• Complete 10 of the last 30 hours for the degree from courses taken at EMU.
• Have a minimum of 30 unique credit hours in their major and 20 unique credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
• Earn no more than 60 credit hours in one subject area (prefix). Credits in excess of the 60 maximum will not be counted toward the minimum of 124 credits required for a bachelor's degree.
• Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more than one major or minor.
  o Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
○ Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
○ Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor

- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is conducted by individual departments/schools within EMU, and additional documentation may be required. Please note: EMU awards only credit for transferred courses; grades are not used in the calculation of an EMU GPA.

- Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be reached in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

General Education Requirements:

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available in the General Education section of the catalog: General Education

Students who transferred to EMU may have modified general education requirements based on Michigan Transfer Agreement (MTA) or articulation agreements; consult your academic advisor for additional information.

University Information: Consult the online catalog at catalog.emich.edu.

Foundations in Spanish Translation Minor

Translation and interpretation are intellectual activities that aim to bridge the gap between individuals and groups with different languages. The main goal of such activities is to bring people together that would otherwise remain strangers so they can communicate orally and in writing for multiple everyday and/or professional purposes. Thinking of translation and interpretation in widest sense, it can be seen that they not only happen when different languages come into contact, but rather on any occasion when individuals or groups with different backgrounds and/or lifestyles come into contact - even if they communicate in a common language. For example, the expression "economic crisis" has different means for different peoples not only worldwide but also in the United States.

We are now aware that translation and interpretation are preformed daily by many of us at different levels. As such, they quite spontaneously overflow the four walls of a classroom or the campus of a university, to find themselves at work in various settings. Extensive and intensive reflection on translation, interpretation, and services learning provide students with the professional tools needed to the most adequate translations and interpretations. Such work is based on deep linguistic, knowledge of the target audience (i.e. the Spanish translation of the source texts, as well as the interpretation of conversations), and their social, political, cultural, educational and linguistic uses. Both this knowledge base as well as the necessary related skills needed to be proficient will be achieved in the minor in Foundations in Spanish Translations via extensive practice, both in and outside of the classroom (internships and service learning contracts will be sought for students) as they pertain to professional fields, but, especially, to those of business, education, health, and law.

Department Information:

World Languages Department - College of Arts & Sciences

Rosemary Weston-Gil, Ph.D., Department Head
Required Courses: 12 Hours

- SPNH 420 - Introduction to Translation 3 hrs
- SPNH 430 - Spanish Phonetics and Phonology 3 hrs
- SPNH 443 - Advanced Spanish Grammar and Composition 3 hrs
- SPNH 467 - Introduction to Spanish Interpretation 3 hrs

Restricted Electives: 9 hours

- SPNH 411 - The Cultures of Spain 3 hrs
- SPNH 412 - The Cultures of Spanish America 3 hrs
- SPNH 423 - Hispanic Linguistics 3 hrs
- SPNH 444 - Advanced Spanish Conversation and Composition 3 hrs
- SPNH 490 - Intensive Spanish 6 hrs
- or an additional 3 credit Spanish course approved by faculty

Minor Total: 21 hours

Notes:

*All minors must have at least six hours of course work at the 300-level or above.*

Critical Graduation Information:

Each undergraduate student will be responsible for the fulfillment of the requirements or their equivalents of the Eastern Michigan University catalog in force at the time of their initial registration at a college or university or a subsequent catalog including the one in effect at the time of their graduation.

In the event an undergraduate student does not complete the degree requirements within seven years of the date of their original registration at a college or university, the student may be required to have their credits re-evaluated by the academic department(s) of their major/minor in keeping with catalog requirements in force during the year of their graduation.

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. *Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.*

- Earn a minimum total of 124 credits at the 100-level and above. Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Complete a Writing Intensive (WI) Course in your major.
• Earn a minimum of 60 credits from a four-year college or university; **courses taken at community colleges cannot be used to meet this requirement.** (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)

• Earn a minimum of 30 credits from courses taken at EMU.

• Complete 10 of the last 30 hours for the degree from courses taken at EMU.

• Have a minimum of 30 **unique** credit hours in their major and 20 **unique** credit hours in their minor for a total of at least 50 **unique** credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.

• Earn no more than 60 credit hours in one subject area (prefix). Credits in excess of the 60 maximum will not be counted toward the minimum of 124 credits required for a bachelor's degree.

• Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more than one major or minor.
  • Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
  • Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
  • Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor

• Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is conducted by individual departments/schools within EMU, and additional documentation may be required. **Please note:** EMU awards only credit for transferred courses; grades are not used in the calculation of an EMU GPA.

• Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be reached in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

**General Education Requirements:**

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available in the General Education section of the catalog: General Education

Students who transferred to EMU may have modified general education requirements based on Michigan Transfer Agreement (MTA) or articulation agreements; consult your academic advisor for additional information.

**University Information:** Consult the online catalog at catalog.emich.edu.

**French Language and Literature Minor**

**Department Information:**

World Languages Department - College of Arts & Sciences

Rosemary Weston-Gil, Ph.D., Department Head

219 Alexander Hall
(734) 487-0130
rweston3@emich.edu
Required Courses: 21 hours

- One additional course in French at the 300 or 400-level (3 hrs)
- FRNH 343 - French Composition 3 hrs
- FRNH 344 - French Conversation 3 hrs
- FRNH 345 - French Culture and Civilization 3 hrs
- FRNH 346 - 20th-Century French Civilization 3 hrs
- FRNH 441 - Survey of French Literature I 3 hrs
- FRNH 442 - Survey of French Literature II 3 hrs

Minor Total: 21 hours

Note:

All minors must have at least six hours of course work at the 300-level or above.

Each student must choose a writing intensive course as part of major completion requirements. Consult your advisor for course options.

Critical Graduation Information:

Each undergraduate student will be responsible for the fulfillment of the requirements or their equivalents of the Eastern Michigan University catalog in force at the time of their initial registration at a college or university or a subsequent catalog including the one in effect at the time of their graduation.

In the event an undergraduate student does not complete the degree requirements within seven years of the date of their original registration at a college or university, the student may be required to have their credits re-evaluated by the academic department(s) of their major/minor in keeping with catalog requirements in force during the year of their graduation.

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the 100-level and above. Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses
will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.

- Meet the requirements of the General Education program (see information below).
- Complete a Writing Intensive (WI) Course in your major.
- Earn a minimum of 60 credits from a four-year college or university; courses taken at community colleges cannot be used to meet this requirement. (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 unique credit hours in their major and 20 unique credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
- Earn no more than 60 credit hours in one subject area (prefix). Credits in excess of the 60 maximum will not be counted toward the minimum of 124 credits required for a bachelor's degree.
- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more that one major or minor.
  - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
  - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
  - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor
- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is conducted by individual departments/schools within EMU, and additional documentation may be required. Please note: EMU awards only credit for transferred courses; grades are not used in the calculation of an EMU GPA.
- Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be reached in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

General Education Requirements:

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available in the General Education section of the catalog: General Education

Students who transferred to EMU may have modified general education requirements based on Michigan Transfer Agreement (MTA) or articulation agreements; consult your academic advisor for additional information.

University Information: Consult the online catalog at catalog.emich.edu.

Japanese Language Minor

Department Information:

World Languages Department - College of Arts & Sciences

Rosemary Weston-Gil, Ph.D., Department Head
Required Courses: 12 hours

- JPNE 343W - Japanese Composition (GEWI) 3 hrs
- JPNE 344 - Japanese Conversation 3 hrs
- JPNE 361 - Japanese for International Trade 3 hrs
- JPNE 444 - Advanced Japanese Conversation 3 hrs

Restricted Elective Courses: 8 hours

*Eight hours in Japanese at any level selected in consultation with an advisor.*

Minor Total: 20 hours

Note:

*All minors must have at least six hours of course work at the 300-level or above.*

Critical Graduation Information:

Each undergraduate student will be responsible for the fulfillment of the requirements or their equivalents of the Eastern Michigan University catalog in force at the time of their initial registration at a college or university or a subsequent catalog including the one in effect at the time of their graduation.

In the event an undergraduate student does not complete the degree requirements within seven years of the date of their original registration at a college or university, the student may be required to have their credits re-evaluated by the academic department(s) of their major/minor in keeping with catalog requirements in force during the year of their graduation.

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. *Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.*

- Earn a minimum total of 124 credits at the *100-level and above.* Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Complete a Writing Intensive (WI) Course in your major.
- Earn a minimum of 60 credits from a four-year college or university; *courses taken at community colleges cannot be used to meet this requirement.* (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
• Have a minimum of 30 unique credit hours in their major and 20 unique credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.

• Earn no more than 60 credit hours in one subject area (prefix). Credits in excess of the 60 maximum will not be counted toward the minimum of 124 credits required for a bachelor's degree.

• Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more that one major or minor.
  - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
  - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
  - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor

• Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is conducted by individual departments/schools within EMU, and additional documentation may be required. Please note: EMU awards only credit for transferred courses; grades are not used in the calculation of an EMU GPA.

• Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be reached in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

General Education Requirements:

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available in the General Education section of the catalog: General Education

Students who transferred to EMU may have modified general education requirements based on Michigan Transfer Agreement (MTA) or articulation agreements; consult your academic advisor for additional information.

- Meet the requirements of the General Education program (see information below).
- Complete a Writing Intensive (WI) Course in your major.
- Earn a minimum of 60 credits from a four-year college or university; courses taken at community colleges cannot be used to meet this requirement. (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 unique credit hours in their major and 20 unique credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
- Earn no more than 60 credit hours in one subject area (prefix). Credits in excess of the 60 maximum will not be counted toward the minimum of 124 credits required for a bachelor's degree.
- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more than one major or minor.
  - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
  - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
  - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor
- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is conducted by individual departments/schools within EMU, and additional documentation may be required. Please note: EMU awards only credit for transferred courses; grades are not used in the calculation of an EMU GPA.
- Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be reached in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

General Education Requirements:

EMU’s General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available in the General Education section of the catalog: General Education

Students who transferred to EMU may have modified general education requirements based on Michigan Transfer Agreement (MTA) or articulation agreements; consult your academic advisor for additional information.

University Information: Consult the online catalog at catalog.emich.edu.
Teaching English to Speakers of Other Languages Minor (TESOL) - Elementary, Secondary, and non-certification

This minor is designed for individuals who intend to teach English as a second language in any setting - schools, corporations, community centers, etc. - and can be combined with any major program of study. Successful completion of this minor, in context of other program and NCATE requirements, qualifies the student for recommendation for endorsement in English as a Second Language, certification code NS. The Michigan Test for Teacher Certification (MTTC) covering this field is #086, "English as a Second Language."

Department Information:

World Languages Department - College of Arts & Sciences

Rosemary Weston-Gil, Ph.D., Department Head

219 Alexander Hall
(734) 487-0130
rweston3@emich.edu

Department Website

Advisor Information:

Program Advisor: Jeff Popko
Email: apopko@emich.edu
Phone: 734.487.0130

Required Courses: 24 hours

- LNGE 202 - Grammar for ESL Teachers 3 hrs
- LNGE 223 - Introduction to Language 3 hrs
- LNGE 325 - Second Language Acquisition 3 hrs
- TSLN 330 - TESOL Methodology: Literacy 3 hrs
- TSLN 332 - Methodology: Listening and Speaking 3 hrs
- TSLN 410 - TESOL Methodology: Content-Based Approaches 3 hrs
- TSLN 420 - SLA Testing and Assessment 3 hrs

One course from the following:

- LNGE 240 - Linguistic and Cultural Diversity in the U.S. 3 hrs
- LNGE 242 - Linguistic and Cultural Diversity: Global Englishes 3 hrs

Minor Requirements: 24 hours

Note:
All minors must have at least six hours of course work at the 300-level or above.

Critical Graduation Information:

Each undergraduate student will be responsible for the fulfillment of the requirements or their equivalents of the Eastern Michigan University catalog in force at the time of their initial registration at a college or university or a subsequent catalog including the one in effect at the time of their graduation.

In the event an undergraduate student does not complete the degree requirements within seven years of the date of their original registration at a college or university, the student may be required to have their credits re-evaluated by the academic department(s) of their major/minor in keeping with catalog requirements in force during the year of their graduation.

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the 100-level and above. Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Complete a Writing Intensive (WI) Course in your major.
- Earn a minimum of 60 credits from a four-year college or university; courses taken at community colleges cannot be used to meet this requirement. (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 unique credit hours in their major and 20 unique credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
- Earn no more than 60 credit hours in one subject area (prefix). Credits in excess of the 60 maximum will not be counted toward the minimum of 124 credits required for a bachelor's degree.
- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more that one major or minor.
  - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
  - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
  - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor
- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is conducted by individual departments/schools within EMU, and additional documentation may be required. Please note: EMU awards only credit for transferred courses; grades are not used in the calculation of an EMU GPA.
- Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be reached in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

General Education Requirements:
EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. Chinese

CHNE 121 - Beginning Chinese I (GEKH)

This is an introductory course in Mandarin Chinese. Students will communicate in a variety of practical contexts, analyze the cultural practices, products and perspectives shaping everyday situations, develop oral communication skills, read and write simplified versions of characters and gain exposure to the traditional characters.

Credit Hours: 5 hrs
Notes: Students who earn a 3 on the AP Chinese Exam may receive credit in this course.
Knowledge of the Disciplines:

Last Updated: AP credit added 5/2013

CHNE 122 - Beginning Chinese II (GEKH)

This is the second introductory course in Mandarin Chinese. Students will communicate in a variety of practical contexts, analyze the cultural practices, products and perspectives shaping everyday situations, develop oral communication skills, read and write simplified versions of characters and gain exposure to the traditional characters.

Credit Hours: 5 hrs
Prerequisite: CHNE 121
Notes: Students who earn a 4 on the AP Chinese Exam may earn credit in this course.
Knowledge of the Disciplines:

Last Updated: Links 04/2011

CHNE 211 - Beginning Chinese III (GEKH)

This is the third introductory course in Mandarin Chinese. Students will communicate in a variety of practical contexts, analyze the cultural practices, products and perspectives shaping everyday situations, develop oral communication skills, read and write simplified versions of characters and gain exposure to the traditional characters.

Credit Hours: 5 hrs
Prerequisite: CHNE 122
Knowledge of the Disciplines:

Last Updated: Links 04/2011

CHNE 212 - Beginning Chinese IV (GEKH)
The is the fourth introductory course in Mandarin Chinese. Students will communicate in a variety of practical contexts, analyze the cultural practices, products and perspectives shaping everyday situations, develop oral communication skills, read and write simplified versions of characters and gain exposure to the traditional characters.

**Credit Hours:** 5 hrs  
**Prerequisite:** CHNE 211  
**Knowledge of the Disciplines:**

**Last Updated:** Links 04/2011

### Classics Courses

#### CLAS 104 - Quest for Power: Famous Figures in History

An examination of the lives and times of select leaders from the ancient and modern worlds. Examples of figures to be covered are Pericles, Nero, Napoleon I and Adolf Hitler. Major literary monuments of the periods will be examined as well. Team taught by a member of the History Department and a classicist. This course satisfies one literature or one history requirement.

**Credit Hours:** 3 hrs  
**Cross-Listed with:** HIST 104  
**Notes:** See honors humanities courses  
**Last Updated:** Links 04/2011

#### CLAS 106 - Rome and America (GEKH)

An investigation into problems and pressures comparing the people and culture of ancient Rome and modern America, considering individual hopes and ideals, religious beliefs and ideas about death, government, morality, love and sex. Team taught by a member of the English Department and a classicist. These courses must be taken concurrently and satisfy two literature requirements.

**Credit Hours:** 6 hrs  
**Cross-Listed with:** LITR 106  
**Notes:** See honors humanities courses  
**Knowledge of the Disciplines:**

This course introduces students to the humanities disciplines of the study of American literature and of ancient Roman literature. By its strong emphasis on comparative analysis, the course facilitates a clear understanding of the literary concept of genre (e.g., satire, epic, lyric, novel, etc.). Besides issues of literary theory, the course also encourages the appreciation of continuity in major themes, such as the definition of "heroism" or of the "successful" life, the gender system of the relevant cultures, and social class distinctions, as well as the techniques (e.g., parody, irony, allegory, symbolism, etc.) common to the literatures of classical Roman antiquity and present-day American. By examining literary works from two cultures remote in time and place from each other, students learn to grasp and evaluate what is traditional and what is innovative in each.

**Last Updated:** Links 04/2011

#### CLAS 177 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 1 hr  
**Prerequisite:** department permission
CLAS 178 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs
Prerequisite: department permission

CLAS 179 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs
Prerequisite: department permission

CLAS 181 - The Legacy of Greece

An introduction to Greek epic, drama, poetry, history and philosophy, illustrating the influence of the Greek tradition on western civilization. The literature is read in English translation. Representative examples of Greek architecture and sculpture also are examined. Team taught by a classicist and/or a member of the English Department. This course satisfies one literature requirement.

Credit Hours: 3 hrs
Cross-Listed with: LITR 181
Notes: See Honor's humanities courses
Last Updated: Links 04/2011

CLAS 277 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr
Prerequisite: department permission

CLAS 278 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs
Prerequisite: department permission

CLAS 279 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs
Prerequisite: department permission
CLAS 301 - Classical Mythology

An examination of classical Greek and Roman mythology, chiefly through the study of literary and artistic works. The influence of classical mythology in later literature will also be considered.

Credit Hours: 3 hrs

CLAS 321 - Women and Gender in the Ancient World

An investigation of life for women in antiquity, focusing on the sex-gender system of Greek and Roman societies. Literary, inscriptive and other evidence will be studied to disclose the classical roots of western beliefs and attitudes about women.

Credit Hours: 3 hrs
Prerequisite: HIST 321, WGST 321
Last Updated: Links 04/2011

CLAS 377 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr
Prerequisite: department permission

CLAS 378 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs
Prerequisite: department permission

CLAS 379 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs
Prerequisite: department permission

CLAS 477 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hrs
Prerequisite: department permission

CLAS 478 - Special Topics
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 2 hrs  
**Prerequisite:** department permission

**CLAS 479 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 3 hrs  
**Prerequisite:** department permission

**CLAS 497 - Independent Study**

Advanced study on an individual research basis in areas not covered in formal course work.

**Credit Hours:** 1 hr  
**Prerequisite:** department permission

**CLAS 498 - Independent Study**

Advanced study on an individual research basis in areas not covered in formal course work.

**Credit Hours:** 2 hrs  
**Prerequisite:** department permission

**CLAS 499 - Independent Study**

Advanced study on an individual research basis in areas not covered in formal course work.

**Credit Hours:** 3 hrs  
**Prerequisite:** department permission

**English for International Students**

**ESLN 002 - Foundations in ESL Writing**

This course develops basic writing skills including appropriate use of selected vocabulary and grammar at the foundational level. Students will produce accurate sentences and progress to short and simple paragraphs on topics related to their personal and everyday life.

**Credit Hours:** 6 hrs  
**Repeatable for Credit:** No  
**Prerequisite:** Department Permission  
**Last Updated:** New Course 3/2013, effective Summer 2013

**ESLN 004 - Foundations in ESL Reading**
Students learn basic reading, vocabulary, and grammar skills. Students will be able to recognize basic parts of a sentence and understand the main idea. Students will be able to understand short and simplified reading passages related to their daily life and community.

**Credit Hours:** 6 hrs  
**Repeatable for Credit:** No  
**Prerequisite:** Department Permission  
**Last Updated:** New Course 3/2013, effective Summer 2013

### ESLN 006 - Foundations in ESLN Speaking/Listening

This course builds basic speaking and listening skills in personal contexts. Students practice simple phrases and sentences such as asking and answering simple questions on personal and daily topics. Students learn vocabulary and grammar, improve pronunciation, and develop fluency and confidence.

**Credit Hours:** 6 hrs  
**Repeatable for Credit:** No  
**Prerequisite:** Department Permission  
**Last Updated:** New Course 3/2013, effective Summer 2013

### ESLN 008 - Foundations in ESL Vocabulary

This course is designed to expand students' knowledge of general vocabulary and improve their use of strategies for vocabulary learning. Students learn to recognize new vocabulary in reading passages and listening excerpts at the beginning level, and use it correctly in speaking and writing activities.

**Credit Hours:** 3 hrs  
**Repeatable for Credit:** Yes, 3 hrs  
**Prerequisite:** Department Permission  
**Last Updated:** New Course 3/2013, effective Summer 2013

### ESLN 010 - Beginning ESL Grammar

This course focuses on the knowledge and skills necessary to produce grammatically accurate simple and compound sentences in conversation and simple writing assignments. Students will examine the parts of speech, the basic verb tenses, questions and negative forms in sentences and paragraphs.

**Credit Hours:** 3 hrs  
**Prerequisite:** Department permission  
**Corequisites:** ESLN 012  
**Cross-Listed with:** ESLN 110  
**Last Updated:** Links 04/2011

### ESLN 012 - Beginning ESL Writing

This course builds on students' knowledge of sentence writing and leads them through the process of writing paragraphs. Students write, revise, and edit paragraphs on a variety of personal topics. Students develop their use of basic vocabulary and grammar.

**Credit Hours:** 6 hrs  
**Prerequisite:** Department permission  
**Corequisites:** ESLN 010  
**Cross-Listed with:** ESLN 112  
**Last Updated:** Course description and credit hour change 03/2013; effective SUMMER 2013: Links 04/2011
ESLN 013 - American Pronunciation I

Students will learn to recognize and correct those aspects of pronunciation that hinder overall oral and aural comprehensibility through listening, analyzing, repeating, and correcting both recorded examples and their own production. Students will focus on consonant and vowel sounds, and will be able to discriminate and produce these sounds.

Credit Hours: 3 hrs
Prerequisite: Placement by the ESL Advisor according to on-campus placement test through the ESL Office or by the sub-scores on either the TOEFL, MELAB, or IELTS exam (at the time of application, students have the option of providing a TOEFL/MELAB/IELTS score, or taking a placement test upon arrival); department permission
Cross-Listed with: ESLN 113
Last Updated: Links 04/2011

ESLN 014 - Beginning ESL Reading

This course teaches students to read simplified texts on general topics of interest. Students learn to identify the structure, main ideas, and supporting details of texts. Students use knowledge of grammar and vocabulary to comprehend meaning in readings and to respond effectively through written or spoken assignments.

Credit Hours: 6 hrs
Prerequisite: department permission
Cross-Listed with: ESLN 114
Last Updated: Credit hour and course description change 03/2013; effective SUMMER 2013: Links 04/2011

ESLN 015 - Study Skills for the English Language Learner I

The purpose of this course is to provide international students with the information and language skills that help make the transition to an American college more successful. Students learn how to effectively use their syllabus, determine their own learning styles and ESL study techniques, how to manage their time and prioritize tasks based on importance, and how to prepare for ESL classes and language tests.

Credit Hours: 3 hrs
Prerequisite: department permission
Last Updated: Links 04/2011

ESLN 016 - Beginning ESL Speaking and Listening

This course builds speaking and listening skills in social settings. Students learn and practice short conversations on personal topics. Students develop vocabulary and improve fluency, using understandable pronunciation and grammar.

Credit Hours: 6 hrs
Prerequisite: department permission
Cross-Listed with: ESLN 116
Last Updated: Credit hour and course description change 03/2013; effective SUMMER 2013: Links 04/2011

ESLN 017 - American Language and Culture I

This course introduces students to broad themes in American Culture and targeted issues related to the academic culture of American universities. The course uses reading, media, and external oral assignments to provide international students with knowledge, skills, and cultural capital needed to understand America and to succeed in the university.
ESLN 018 - Beginning ESL Vocabulary

This course is designed to expand students' knowledge of general vocabulary and improve their use of strategies for vocabulary learning. Students learn to recognize new vocabulary in reading passages and listening excerpts at the pre-intermediate level, and use it correctly in speaking and writing activities.

Credit Hours: 3 hrs
Repeatable for Credit: Yes
Prerequisite: Placement by the ESL Advisor according to on-campus placement test through the ESL Office or by the sub-scores on either the TOEFL, MELAB, or IELTS exam (at the time of application, students have the option of providing a TOEFL/MELAB/IELTS score, or taking a placement test upon arrival); department permission
Cross-Listed with: ESLN 117
Last Updated: Links 04/2011

ESLN 019 - Community and Current Events I

This course focuses on integrating students into the American university and surrounding community by promoting cultural knowledge. Students have opportunities to interact with Ypsilanti citizens during community participation. Through regular contact with native speakers, the international students practice listening, speaking and vocabulary in an informal environment with supplemental technology use.

Credit Hours: 3 hrs
Prerequisite: Placement by the ESL Advisor according to on-campus placement test through the ESL Office or by the sub-scores on either the TOEFL/MELAB/IELTS exam (at the time of application, students have the option of providing a TOEFL/MELAB/IELTS score, or taking a placement test upon arrival); department permission
Cross-Listed with: ESLN 119
Last Updated: Links 04/2011

ESLN 020 - Intermediate ESL Grammar

This course focuses on the knowledge and skills necessary to produce grammatically accurate, coherent texts in speaking and writing assignments on personal topics. Students review basic grammar components and clause structure and study the concepts of time and aspect in verb tenses, comparisons, modals, infinitives, gerunds and passive voice.

Credit Hours: 3 hrs
Prerequisite: department permission
Corequisites: ESLN 022
Cross-Listed with: ESLN 210
Last Updated: Links 04/2011

ESLN 022 - Intermediate ESL Writing

This course teaches students how to write different kinds of paragraphs with good support. Students write a series of paragraphs and short essays on personal and general interest topics. Students learn how to use intermediate grammar and new vocabulary to write clearly.

Credit Hours: 6 hrs
Prerequisite: department permission
Corequisites: ESLN 020
ESLN 024 - Intermediate ESL Reading

This course teaches students to read intermediate texts on general topics of interest. Students learn to identify the structure, main ideas, and supporting details of texts. Students use knowledge of grammar and vocabulary to comprehend meaning in intermediate-level readings and to respond effectively through written or spoken assignments.

Credit Hours: 6 hrs
Prerequisite: department permission
Cross-Listed with: ESLN 214
Last Updated: Credit hour and course description change 03/2013; effective SUMMER 2013: Links 04/2011

ESLN 026 - Intermediate ESL Speaking and Listening

This course teaches students to speak fluently and understand informal spoken English. Students improve their ability to talk about personal and informal topics in social and academic settings. Students learn pronunciation, spoken vocabulary and grammar.

Credit Hours: 6 hrs
Prerequisite: department permission
Cross-Listed with: ESLN 216
Last Updated: Credit hour and course description change 03/2013; effective Summer 2013: Links 04/2011

ESLN 028 - Intermediate ESL Vocabulary

This course is designed to expand students' knowledge of general vocabulary and improve their use of strategies for vocabulary learning. Students learn to recognize new vocabulary in reading passages and listening excerpts at the intermediate level, and use it correctly in speaking writing activities.

Credit Hours: 3 hrs
Prerequisite: Department Permission
Last Updated: Spelling Error 7/2014, New Course 3/2013, effective Summer 2013

ESLN 030 - Advanced ESL Grammar

This course focuses on the knowledge and skills necessary to produce grammatically accurate, coherent texts in spoken and written assignments on general academic topics. Students review intermediate grammar structures and study advanced structures, including parallelism, less frequently used verb tenses, complex sentences and clauses.

Credit Hours: 3 hrs
Prerequisite: department permission
Corequisites: ESLN 032
Cross-Listed with: ESLN 310
Last Updated: Links 04/2011

ESLN 032 - Advanced ESL Writing

This course introduces students to composition writing in the academic context. Students read and write effective compositions in multiple genres and develop their ability to analyze and critique peer writing. Students will improve their use of advanced
ESLN 033 - American Pronunciation II

Students practice recognizing and producing fundamental patterns of stress in advanced-level phrase structures as well as rhythm, sentence stress and intonation as they occur in extended conversation and informational media sources. Attention is given to reinforcing accurate pronunciation of vocabulary targeted at this level.

Credit Hours: 3 hrs
Prerequisite: department permission
Cross-Listed with: ESLN 313
Last Updated: Links 04/2011

ESLN 034 - Advanced ESL Reading

This course teaches students to comprehend authentic, informational texts. Students identify main and supporting ideas, summarize information, pose critical questions and infer the meaning of new vocabulary from context. Students practice skills in intensive and extensive reading, and will use skills in academic vocabulary and grammar to build reading fluency.

Credit Hours: 4 hrs
Prerequisite: department permission
Cross-Listed with: ESLN 314
Last Updated: Change in Description and Credit Hours 2/2013, effective Fall 2013; Links 04/2011

ESLN 036 - Advanced ESL Speaking and Listening

This course improves oral skills for participation in academic and social settings. Students practice listening and speaking skills in classroom presentations and discussions. Students learn note-taking skills from talks featuring a variety of accents. Students learn to use informal versus academic vocabulary and grammar form appropriately in context.

Credit Hours: 4 hrs
Prerequisite: department permission
Cross-Listed with: ESLN 316
Last Updated: Change in Description and Credit Hours 2/2013, effective Summer 2013; Links 04/2011

ESLN 037 - American Language and Culture II

Students explore themes in American society and pop culture. Using reading, media, and oral assignments, international students develop American cultural capital to help them better understand America's people and society. The focus is on building the four linguistic communicative competencies through practice and application.

Credit Hours: 3 hrs
Prerequisite: Placement by the ESL Advisor according to on-campus placement test through the ESL Office or by the sub-scores on either the TOEFL/MELAB/IELTS exam (at the time of application, students have the option of providing a TOEFL/MELAB/IELTS score, or taking a placement test upon arrival); department permission
ESLN 038 - Study Skills for the English Language Learner II

The purpose of this course is to provide international students with the information and skills that help make the transition to an American college more successful. Students learn how to effectively use their syllabus, determine their own learning styles and study techniques, how to manage their time and prioritize tasks based on individual goals, and to live and learn in a multicultural environment.

Credit Hours: 3 hrs
Prerequisite: Placement by the ESL Advisor according to on-campus placement test through the ESL Office or by the sub-scores on either the TOEFL/MELAB/IELTS exam (at the time of application, students have the option of providing a TOEFL/MELAB/IELTS score, or taking a placement test upon arrival); department permission

ESLN 039 - Community and Current Events II

This course provides students with practice in the English listening/speaking skills necessary to succeed in the American university. It also will provide students with the chance to combine critical thinking with practical experience as they make an active contribution with community-based projects. Students will learn about themselves and their community.

Credit Hours: 3 hrs
Prerequisite: Placement by the ESL Advisor according to on-campus placement test through the ESL Office or by the sub-scores on either the TOEFL, MELAB, or IELTS exam (at the time of application, students have the option of providing a TOEFL/MELAB/IELTS score, or taking a placement test upon arrival); department permission

ESLN 040 - Academic ESL Grammar

This course focuses on the knowledge and skills required to produce grammatically accurate and coherent texts in extended academic oral and written discourse. Students practice less frequently used verb tense sequencing, modifications to adjective and adverb clauses and multiple forms of noun clauses in various complex sentences.

Credit Hours: 3 hrs
Prerequisite: department permission
Corequisites: ESLN 042

ESLN 041 - Advanced ESL Vocabulary

This course is designed to expand students' knowledge of academic vocabulary and improve their use of strategies for vocabulary learning. Students learn to recognize new vocabulary in reading passages and listening excerpts at the high-intermediate level, and use it correctly in speaking and writing activities.

Credit Hours: 3 hrs
Repeatable for Credit: Yes, 3 hrs Prerequisite: Department Permission
Last Updated: New Course 3/2013, effective Summer 2013
ESLN 042 - Academic ESL Writing

This course focuses on academic inquiry and writing with an emphasis on American conventions for non-native speakers of English. Students utilize critical reading and thinking skills to engage in the process of writing researched essays.

Credit Hours: 3 hrs
Prerequisite: department permission
Corequisites: ESLN 040
Cross-Listed with: ESLN 412
Last Updated: Links 04/2011

ESLN 044 - Academic ESL Reading

Students in this course will explore various strategies when reading university-level academic texts. Students will compare and synthesize different points of view and recognize and respond to the rhetorical techniques and structures used by writers to achieve their purpose. Students further develop their academic vocabulary skills and strategies.

Credit Hours: 3 hrs
Prerequisite: department permission
Cross-Listed with: ESLN 414
Last Updated: Links 04/2011

ESLN 046 - Academic ESL Speaking and Listening

This course improves speaking and listening skills for active participation in academic settings. Student practice comprehending lectures on academic topics, taking notes and effectively participating in informal and formal classroom speaking activities. Students continue to build and use academic vocabulary in oral discourse.

Credit Hours: 3 hrs
Prerequisite: department permission
Cross-Listed with: ESLN 416
Last Updated: Links 04/2011

ESLN 048 - American Pronunciation for Professionals

Students recognize and correct those aspects of pronunciation that hinder overall oral and aural comprehensibility by analyzing, repeating, and monitoring both recorded examples of speech in academic and professional contexts and their own production. They also develop oral control of the academic vocabulary in their field of study.

Credit Hours: 3 hrs
Prerequisite: Placement by the ESL Advisor according to on-campus placement test through the ESL Office or by the sub-scores on either the TOEFL, MELAB, or IELTS exam (at the time of application, students have the option of providing a TOEFL/MELAB/IELTS score, or taking a placement test upon arrival); department permission
Cross-Listed with: ESLN 418
Last Updated: Links 04/2011

ESLN 049 - Academic ESL Vocabulary

This course is designed to expand students' knowledge of academic vocabulary and improve their use of strategies for vocabulary learning. Students learn to recognize new vocabulary in reading passages and listening excerpts at the advanced level, and use it correctly in speaking and writing activities.
ESLN 052 - Academic Writing for International Graduate Students

Students engage in extensive critical reading and analysis of discipline-specific topics and compose well-documented papers on the basis of their research using standard English conversations and documentation. Attention is given to grammatical accuracy and language usage in written assignments.

ESLN 110 - Beginning ESL Grammar

This course focuses on the knowledge and skills necessary to produce grammatically accurate simple and compound sentences in conversation and simple writing assignments. Students will examine the parts of speech, the basic verb tenses, questions and negative forms in sentences and paragraphs.

ESLN 112 - Beginning ESL Writing

This course builds on students' knowledge of sentence writing and leads them through the process of writing paragraphs. Students write, revise, and edit paragraphs on a variety of personal topics. Students develop their use of basic vocabulary and grammar.

ESLN 113 - American Pronunciation I

Students will learn to recognize and correct those aspects of pronunciation that hinder overall oral and aural comprehensibility through listening, analyzing, repeating, and correcting both recorded examples and their own production. Students will focus on consonant and vowel sounds, and will be able to discriminate and produce these sounds.

ESLN 114 - Beginning ESL Reading

This course teaches students to read simplified texts on general topics of interest. Students learn to identify the structure, main ideas, and supporting details of texts. Students use knowledge of grammar and vocabulary to comprehend meaning in readings.
and to respond effectively through written or spoken assignments.

Credit Hours: 6 hrs
Prerequisite: department permission or placement exam
Last Updated: Change in Description and Credit Hours 2/2013, effective Summer 2013

ESLN 115 - Study Skills for the English Language Learner

The purpose of this course is to provide international students with the information and language skills that help make the transition to an American college more successful. Students learn how to effectively use their syllabus, determine their own learning styles and ESL study techniques, how to manage their time and prioritize tasks based on importance, and how to prepare for ESL classes and language tests.

Credit Hours: 3 hrs
Prerequisite: Placement by the ESL Advisor according to on-campus placement test through the ESL Office or by the sub-scores on either the TOEFL, MELAB, or IELTS exam (at the time of application, students have the option of providing a TOEFL/MELAB/IELTS score, or taking a placement test upon arrival); department permission

ESLN 116 - Beginning ESL Speaking and Listening

This course builds speaking and listening skills in social settings. Students learn and practice short conversations on personal topics. Students develop vocabulary and improve fluency, using understandable pronunciation and grammar.

Credit Hours: 6 hrs
Prerequisite: department permission
Last Updated: Change in Description and Credit Hours 2/2013, effective Summer 2013

ESLN 117 - American Language and Culture I

This course introduces students to broad themes in American Culture and targeted issues related to the academic culture of American universities. The course uses reading, media, and external oral assignments to provide international students with knowledge, skills, and cultural capital needed to understand American and to succeed in the university.

Credit Hours: 3 hrs
Prerequisite: Placement by the ESL Advisor according to on-campus placement test through the ESL Office or by the sub-scores on either the TOEFL, MELAB, or IELTS exam (at the time of application, students have the option of providing a TOEFL/MELAB/IELTS score, or taking a placement test upon arrival); department permission

ESLN 119 - Community and Current Events I

This course focuses on integrating students into the American university and surrounding community by promoting cultural knowledge. Students have opportunities to interact with Ypsilanti citizens during community participation. Through regular contact with native speakers, the international students practice listening, speaking and vocabulary in an informal environment with supplemental technology use.

Credit Hours: 3 hrs
Prerequisite: Placement by the ESL Advisor according to on-campus placement test through the ESL Office or by the sub-scores on either the TOEFL, MELAB, or IELTS exam (at the time of application, students have the option of providing a TOEFL/MELAB/IELTS score, or taking a placement test upon arrival); department permission

ESLN 120 - Beginning ESL Vocabulary
This course is designed to expand students' knowledge of general vocabulary and improve their use of strategies for vocabulary learning. Students learn to recognize new vocabulary in reading passage and listening excerpts at the pre-intermediate level, and use it correctly in speaking and writing activities.

**Credit Hours:** 3 hrs  
**Prerequisite:** Department Permission  
**Last Updated:** New Course 3/2013, effective Summer 2013

**ESLN 177 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 1 hr  
**Prerequisite:** department permission or placement exam

**ESLN 178 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 2 hrs  
**Prerequisite:** department permission or placement exam

**ESLN 179 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 3 hrs  
**Prerequisite:** department permission or placement exam

**ESLN 210 - Intermediate ESL Grammar**

This course focuses on the knowledge and skills necessary to produce grammatically accurate, coherent texts in speaking and writing assignments on personal topics. Students review basic grammar components and clause structure and study the concepts of time and aspect in verb tenses, comparisons, modals, infinitives, gerunds and passive voice.

**Credit Hours:** 3 hrs  
**Prerequisite:** department permission

**ESLN 212 - Intermediate ESL Writing**

This course teaches students how to write different kinds of paragraph with good support. Students write a series of paragraphs and short essays on personal and general interests topics. Student learn how to use intermediate grammar and new vocabulary to write clearly.

**Credit Hours:** 6 hrs  
**Prerequisite:** department permission  
**Corequisites:** ESLN 210  
**Last Updated:** Change in Description and Credit Hours 2/2013, effective Summer 2013; Links 04/2011
ESLN 214 - Intermediate ESL Reading

This course teaches students to read intermediate texts on general topics of interest. Students learn to identify the structure, main ideas, and supporting details of texts. Students use knowledge of grammar and vocabulary to comprehend meaning in intermediate-level readings and to respond effectively through written or spoken assignments.

Credit Hours: 6 hrs
Prerequisite: department permission or placement
Last Updated: Change in description & credit hours 2/2013, effective Summer 2013

ESLN 216 - Intermediate ESL Speaking and Listening

This course teaches students to speak fluently and understand informal spoken English. Students improve their ability to talk about personal and informal topics in social and academic settings. Students learn pronunciation, spoken vocabulary, and grammar.

Credit Hours: 6 hrs
Prerequisite: department permission or placement
Last Updated: Change in Description & Credit Hours 2/2013, effective Summer 2013

ESLN 219 - Intermediate ESL Vocabulary

This course is designed to expand students' knowledge of general vocabulary and improve their use of strategies for vocabulary learning. Students learn to recognize new vocabulary in reading passages and listening excerpts at the intermediate level, and use it correctly in speaking writing activities.

Credit Hours: 3 hrs
Repeatable for Credit: Yes, 3 CreditsPrerequisite: Department Permission
Last Updated: New Course 3/2013, effective Summer 2013

ESLN 277 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr
Prerequisite: department permission

ESLN 278 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs
Prerequisite: department permission

ESLN 279 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.
ESLN 310 - Advanced ESL Grammar

This course focuses on the knowledge and skills necessary to produce grammatically accurate, coherent texts in spoken and written assignments on general academic topics. Students review intermediate grammar structures and study advanced structures, including parallelism, less frequently used verb tenses, complex sentences and clauses.

ESLN 312 - Advanced ESL Writing

This course introduces students to composition writing in the academic context. Students read and write effective compositions in multiple genres, and develop their ability to analyze and critique peer writing. Students will improve their use of advanced vocabulary and grammar structures.

ESLN 313 - American Pronunciation II

Students practice recognizing and producing fundamental patterns of stress in advanced-level phrase structures as well as rhythm, sentence stress and intonation as they occur in extended conversation and informational media sources. Attention is given to reinforcing accurate pronunciation of vocabulary targeted at this level.

ESLN 314 - Advanced ESL Reading

This course teaches students to comprehend authentic, informational texts. Students identify main and supporting ideas, summarize information, pose critical questions and infer the meaning of new vocabulary from context. Students practice skills in academic vocabulary and grammar to build reading fluency.

ESLN 315 - Study Skills for the English Language Learner II

The purpose of this course is to provide international students with the information and skills that help make the transition to an American college more successful. Students learn how to effectively use their syllabus, determine their own learning styles and study techniques, how to manage their time and prioritize tasks based on individual goals, and to live and learn in a multicultural environment.
ESLN 316 - Advanced ESL Speaking and Listening

This course improves oral skills for participation in academic and social settings. Students practice listening and speaking skills in classroom presentations and discussions. Students learn note-taking skills, especially from talks featuring a variety of accents. Students learn to use informal versus academic vocabulary and grammar forms appropriately in context.

Credit Hours: 4 hrs
Prerequisite: ESLN 216, department permission or placement
Last Updated: Change in Description & Credit Hours 2/2013, effective Summer 2013; Links 04/2011

ESLN 317 - American Language and Culture II

Students explore themes in American society and pop culture. Using reading, media, and oral assignments, international students develop American cultural capital to help them better understand America's people and society. The focus is on building the four linguistic communicative competencies through practice and application.

Credit Hours: 3 hrs
Prerequisite: Placement by the ESL Advisor according to on-campus placement test through the ESL Office or by the sub-scores on either the TOEFL, MELAB, or IELTS exam (at the time of application, students have the option of providing a TOEFL/MELAB/IELTS score, or taking a placement test upon arrival); department permission

ESLN 319 - Community and Current Events II

This course provides students with practice in the English listening/speaking skills necessary to succeed in the American university. It also will provide students with the chance to combine critical thinking with practical experiences as they make an active contribution with community-based projects. Students will learn about themselves and their community.

Credit Hours: 3 hrs
Prerequisite: Placement by the ESL Advisor according to on-campus placement test through the ESL Office or by the sub-scores on either the TOEFL, MELAB, or IELTS exam (at the time of application, students have the option of providing a TOEFL/MELAB/IELTS score, or taking a placement test upon arrival); department permission
Notes: Academic Service Learning Course (Winter 2015, CRN: 25530).
Last Updated: Course Note 12/2014

ESLN 320 - Advanced ESL Vocabulary

This course is designed to expand students' knowledge of academic vocabulary and improve their use of strategies for vocabulary learning. Students learn to recognize new vocabulary in reading passages and listening excerpts at the high-intermediate level, and use it correctly in speaking and writing activities.

Credit Hours: 3 hrs
Repeatable for Credit: Yes, 3 Credits Prerequisite: Department Permission
Last Updated: New Course 3/2013, effective Summer 2013

ESLN 377 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.
ESLN 378 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr
Prerequisite: department permission

ESLN 379 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs
Prerequisite: department permission

Last Updated: Department change 7/2014

ESLN 410 - Academic ESL Grammar

This course focuses on the knowledge and skills required to produce grammatically accurate and coherent texts in extended academic oral and written discourse. Students practice less frequently used verb tenses, verb tense sequencing, modifications to adjective and adverb clauses and multiple forms of noun clauses in various complex sentences.

Credit Hours: 3 hrs
Prerequisite: department permission

ESLN 412 - Academic ESL Writing (GEEC)

This course focuses on academic inquiry and writing with an emphasis on American conventions for non-native speakers of English. Students utilize critical reading and thinking skills to engage in the process of writing researched essays.

Credit Hours: 3 hrs
Prerequisite: department permission
Corequisites: ESLN 410

Effective Communication:
In ESLN 412, EMU students develop the foundation for writing, research and critical thinking strategies that they will use throughout their college careers and in the workplace. Writing is both a means of communication, and a tool for developing new ideas. Good writers are flexible. They know how to assess the expectations of a variety of audiences with whom they want to communicate and how to draw on or develop different writing strategies to meet those expectations. Good writers also understand that different kinds of writing have different conventions and they can move fluidly between those conventions. ESLN 412 students develop these strategies that are key to effective communication throughout the course. Students write between 50-70 pages of draft work and between 20-30 pages of polished, final-draft work during the course of the semester, and that work is supported and directed by frequent feedback from the instructor.

Last Updated: Links 04/2011

ESLN 414 - Academic ESL Reading
Students in this course will explore various strategies when reading university-level academic texts. Students will compare and synthesize different points of view and recognize and respond to the rhetorical techniques and structures used by writers to achieve their purposes. Students further develop their academic vocabulary skills and strategies.

**Credit Hours:** 3 hrs  
**Prerequisite:** ESLN 314, department permission or placement  
**Last Updated:** Links 04/2011

**ESLN 416 - Academic ESL Speaking and Listening**

This course improves speaking and listening skills for active participation in academic settings. Students practice comprehending lectures on academic topics, taking notes and effectively participating in informal and formal classroom speaking activities. Students continue to build and use academic vocabulary in oral discourse.

**Credit Hours:** 3 hrs  
**Prerequisite:** ESLN 316, department permission or placement  
**Last Updated:** Links 04/2011

**ESLN 418 - American Pronunciation for Professionals**

Students recognize and correct those aspects of pronunciation that hinder overall oral and aural comprehensibility by analyzing, repeating, and monitoring both recorded examples of speech in academic and professional contexts and their own production. They also develop oral control of the academic vocabulary in their field of study.

**Credit Hours:** 3 hrs  
**Prerequisite:** Placement by the ESL Advisor according to on-campus placement test through the ESL Office or by the sub-scores on either the TOEFL, MELAB, or IELTS exam (at the time of application, students have the option of providing a TOEFL/MELAB/IELTS score, or taking a placement test upon arrival); department permission

**ESLN 419 - Academic ESL Vocabulary Seminar**

This course is designed to expand students' knowledge of academic vocabulary and improve their use of strategies for vocabulary learning. Students learn to recognize new vocabulary in reading passages and listening excerpts at the advanced level, and use it correctly in speaking and writing activities.

**Credit Hours:** 3 hrs  
**Prerequisite:** Department permission  
**Last Updated:** New course 03/2013; effective Summer 2013

**ESLN 477 - Special Topics**

These courses deal with subject matter not provided in other department offerings. Students may elect such a course several times, provided different topics are studied.

**Credit Hours:** 1 hr  
**Prerequisite:** department permission

**ESLN 478 - Special Topics**

These courses deal with subject matter not provided in other department offerings. Students may elect such a course several times, provided different topics are studied.
ESLN 479 - Special Topics

These courses deal with subject matter not provided in other department offerings. Students may elect such a course several times, provided different topics are studied.

ESLN 497 - Independent Study

Advanced study on an individual research basis in areas not covered in formal course work.

ESLN 498 - Independent Study

Advanced study on an individual research basis in areas not covered in formal course work.

ESLN 499 - Independent Study

Advanced study on an individual research basis in areas not covered in formal course work.

ESLN 512 - Academic Writing for International Graduate Students

Students engage in extensive critical reading and analysis of discipline-specific topics and compose well-documented papers on the basis of their research using standard English conventions and documentation. Attention is given to grammatical accuracy and language usage in written assignments.

FRNH 111 - Introduction to French and the French-Speaking World (GEGA)
An introduction to the thirty plus countries where French is spoken. Survey of their cultures, history, geography, religions, politics, economy, literature and arts. Comparison of cultural practices in daily life and the professional world. Acquisition of basic language skills.

No prerequisites. Does not count for FRNH major or minor. In English and French.

Credit Hours: 3 hrs
Repeatable for Credit: No

Perspectives on a Diverse World:

The study of French-speaking countries, including France, their cultures, is critical for students to expand their understanding of global cultural dynamics and critically compare their own culture to others. French is spoken as a native, official or business language in more than 30 countries in the world. This course aims at furthering the internationalization of EMU students by addressing some of the issues that have been at the forefront of EMU's Administrators' recent campaign in that regard. It will help students adapt for the future in a global society, develop a philosophy of inclusion, become aware of a great variety of cultures other than their own, fight cultural stereotypes, expand their comfort zones with cultural differences, adopt positive attitudes towards and avoid discriminating against others. It will also help them develop a sense of self and understand their own place in the global community.

FRNH 121 - Beginning French (GEKH)

Introductory course including practice in listening, speaking, reading and writing in French. Sessions in the language laboratory are part of regular assignments.

Credit Hours: 4 hrs

Knowledge of the Disciplines:
To be able to communicate in French and appreciate linguistic and cultural similarities and differences, FRNH 121 students learn to produce through speaking and writing, and to understand through reading and listening, the elements of the French language necessary to be able to function at a basic level in a French-speaking environment. Instruction in FRNH 121 provides examples of speaking and writing that native speakers use to accomplish real tasks; students learn to master these structures while developing a new perspective on their own language, and an appreciation of a foreign cultural viewpoint.

Last Updated: Change to Credit Hours 2/2014, effective Summer 2014

FRNH 122 - Beginning French (GEKH)

Introductory course including practice in listening, speaking, reading and writing in French. Sessions in the language laboratory are part of regular assignments.

Credit Hours: 4 hrs

Prerequisite: FRNH 121 or by placement exam

Knowledge of the Disciplines:
To be able to communicate in French and appreciate linguistic and cultural similarities and differences, FRNH 122 students learn to produce through speaking and writing, and to understand through reading and listening, the elements of the French language necessary to be able to function at a basic level in a French-speaking environment. Instruction in FRNH 122 provides examples of speaking and writing that native speakers use to accomplish real tasks; students learn to master these structures while developing a new perspective on their own language, and an appreciation of a foreign cultural viewpoint.

Last Updated: Change to Credit Hours 12/2013, effective Fall 2014; Links 04/2011

FRNH 177 - Special Topics
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 1 hr  
**Prerequisite:** department permission

**FRNH 178 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 2 hrs  
**Prerequisite:** department permission

**FRNH 179 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 3 hrs  
**Prerequisite:** department permission

**FRNH 221 - Intermediate French (Reading) (GEKH)**

Rapid reading of large quantities of French. Materials include readings in literature and civilization. Students who plan to continue in French should take this course concurrently with FRNH 233.

**Credit Hours:** 3 hrs  
**Prerequisite:** FRNH 122 or by placement exam  
**Knowledge of the Disciplines:**

**Last Updated:** Gen Ed Approval 04/2012, effective Fall 2012; Links 04/2011

**FRNH 222 - Intermediate French (Reading) (GEKH)**

Rapid reading of large quantities of French. Materials include readings in literature and civilization. Students who plan to continue in French should take this course concurrently with FRNH 234.

**Credit Hours:** 3 hrs  
**Prerequisite:** FRNH 221 or by placement exam  
**Knowledge of the Disciplines:**

**Last Updated:** Gen Ed Approval 04/2012, effective Fall 2012; Links 04/2011

**FRNH 233 - Intermediate French Conversation, Composition and Grammar (GEKH)**

A review of grammar; practice in writing and speaking. Sessions in the language laboratory are available. Students who plan to continue in French should take this course concurrently with FRNH 221.

**Credit Hours:** 3 hrs  
**Prerequisite:** FRNH 122 or by placement exam
FRNH 234 - Intermediate French Conversation, Composition and Grammar (GEKH)

A review of grammar; practice in writing and speaking. Sessions in the language laboratory are available. Students who plan to continue in French should take this course concurrently with FRNH 222.

Credit Hours: 3 hrs
Prerequisite: FRNH 233 or placement exam

FRNH 261 - Introduction to Professional Language Study

This course introduces students to the application of professional languages in a variety of settings focusing on oral and written communication. Students acquire the vocabulary and phrases of basic professional interactions, learn to translate documents of different professions and acquire basic interpreting techniques. Students with interests in other careers will find the course helpful and they can complete special projects.

Credit Hours: 3 hrs
Prerequisite: FRNH 121, FRNH 122, FRNH 221, FRNH 222, FRNH 233, FRNH 234

FRNH 277 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr
Prerequisite: department permission

FRNH 278 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs
Prerequisite: department permission

FRNH 279 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs
Prerequisite: department permission

FRNH 343 - French Composition
A review and expansion of the elements of the grammar, idioms and deep structures of French. English to French translation exercises provide practice and clarification of the relationship between morphology and syntax. Written compositions on a wide choice of topics are assigned to demonstrate students' mastery of acquired linguistic competence in French.

**FRNH 344 - French Conversation**

Builds on the foundation in speaking skills acquired in previous courses. Emphasizes pronunciation, acquisition of vocabulary and idioms for daily life, basic sentence structures and the development of greater oral proficiency. Presentation and practice of phonological principles. In French.

**FRNH 345 - French Culture and Civilization**

A study of French history and civilization. All major pre-World War I historical periods and cultural movements will be covered. In French.

**FRNH 346 - 20th-Century French Civilization**

A study of the main events of the 20th century. The major historical and social movements will be covered. In French.

**FRNH 361 - French for International Trade**

This course is intended for students who already have a solid intermediate-level command of French and who wish to acquire minimum professional competence in the French language as it is used in the world of international business. It includes practice in various forms of business communication, both oral and written. In French.

**FRNH 377 - Special Topics**

These courses deal with subject matter not provided in other department offerings. Students may elect such a course several times, provided different topics are studied. In French.
FRNH 378 - Special Topics

These courses deal with subject matter not provided in other department offerings. Students may elect such a course several times, provided different topics are studied. In French.

Credit Hours: 1 hr
Prerequisite: department permission

FRNH 379 - Special Topics

These courses deal with subject matter not provided in other department offerings. Students may elect such a course several times, provided different topics are studied. In French.

Credit Hours: 2 hrs
Prerequisite: department permission

FRNH 388 - Internship

Provides an opportunity for the student to extend theoretical classroom learning through working experience in an appropriate setting. Field experience will be supplemented by regular meetings with the faculty supervisors. Credit/no-credit. In French.

Credit Hours: 1 hr
Prerequisite: department permission

FRNH 420 - Introduction to Translation (French/English - English/French)

Students will learn basic translation theory and its techniques and processes. They will undertake written exercises on all aspects of translation and will also translate sample documents from various professional fields, from English into French and French into English. Various professional areas are included (business, tourism, office etiquette, etc.)

Credit Hours: 3 hrs
Prerequisite: FRNH 343 and FRNH 344
Concurrent Prerequisite: FRNH 443W
Last Updated: New Course 2/2014, effective Fall 2014

FRNH 421 - Introduction to French Interpretation

Introductory course in consecutive dialogue interpreting for the professions. Compare modes of expression and introduce theoretical aspects and practical techniques of interpreting using simulations. Students interpret from English into French and French into English. Various professional areas are included (business, tourism, office etiquette, etc). Students also do a field project and write a research paper on an aspect of interpreting.

Credit Hours: 3 hrs
Prerequisite: FRNH 443W
Last Updated: New Course 2/2014, effective Fall 2014

FRNH 441 - Survey of French Literature I
Survey of French Literature from the Middle Ages to the end of the 18th Century. Readings, textual analysis, study of genres, cultural and literary comparisons, interpretations of representative texts, and study of culture lead students to a target proficiency level of Intermediate High on the ACTFL scale for standards 1.3, 2.2, 3.1, 3.2, and 5.2.

**Credit Hours:** 3 hrs  
**Prerequisite:** FRNH 346  
**Previously Listed As:** FRNH 341  
**Last Updated:** Links 04/2011

**FRNH 442 - Survey of French Literature II**

Survey of French Literature from the beginning of the 19th Century to the present. Readings, textual analysis, study of genres, cultural and literary comparisons, interpretations of representative texts, and study of culture lead students to a target proficiency level of Intermediate High on the ACTFL scale for standards 1.3, 2.2, 3.1, 3.2, and 5.2.

**Credit Hours:** 3 hrs  
**Prerequisite:** FRNH 346  
**Previously Listed As:** FRNH 342  
**Last Updated:** Links 04/2011

**FRNH 443W - Advanced French Grammar and Composition (GEWI)**

An advanced study of the morphology and syntax of French. Students will further develop their knowledge of the deep structure and lexicon of the language through translation and compositions on a wide variety of topics, demonstrating mastery of idioms, stylistic levels, textual comprehension and an awareness of the distinction between English and French. In French.

**Credit Hours:** 3 hrs  
**Prerequisite:** FRNH 343  
**Graduate Credit:** This is an undergraduate course available to graduate students for graduate credit.  
**Writing Intensive:**

**Last Updated:** Description 07/2011; Graduate Credit 07/2011; Links 04/2011

**FRNH 444 - Advanced French Conversation**

Development of advanced oral proficiency. Emphasizes pronunciation, acquisition of vocabulary and idioms for daily life, advanced sentence structures. Advanced presentation and practice of phonological principles. Includes a formal proficiency assessment in French.

**Credit Hours:** 3 hrs  
**Prerequisite:** FRNH 343 and FRNH 344 or department permission  
**Graduate Credit:** This is an undergraduate course available to graduate students for graduate credit.  
**Last Updated:** Graduate Credit 07/2011; Links 04/2011

**FRNH 445 - French Phonetics**

Study of the sound system of the French language including both theory and practice. Major focus on the International Phonetic Alphabet as it applies to French. Lecture and practical exercises in class. In French.

**Credit Hours:** 3 hrs  
**Prerequisite:** FRNH 344
**FRNH 446 - Business French I**

Study of principles and practices of business communication in France with emphasis on business correspondence and translation. Introduction to the French economy including business law, industry, business and services. In French.

Credit Hours: 3 hrs  
Prerequisite: FRNH 361 or department permission

**FRNH 447 - Business French II**

Further study of business practices, business law and the French economy. Emphasis on business correspondence and translation and on French ties with the European economic community, the U.S., the East, developing countries and Francophone countries. Prepares student for language proficiency examinations (CCIP diplomas). In French.

Credit Hours: 3 hrs  
Prerequisite: FRNH 446 or department permission

**FRNH 450 - French Civilization in Film**

The purpose of this course is to study a number of French films and distinguish between fiction and reality as portrayed in the film. Students will research the era and compare the events shown in the film with the societal or historical facts found in their research.

Credit Hours: 3 hrs  
Prerequisite: FRNH 343 and FRNH 344

**FRNH 451 - Readings in French**

Special projects in directed readings for majors and minors who have completed the available offerings in French or who, because of most unusual circumstances, are granted department approval to substitute one or both of these for the regular courses.

Credit Hours: 1 hr  
Prerequisite: FRNH 441, FRNH 442 or department permission

**FRNH 452 - Readings in French**

Special projects in directed readings for majors and minors who have completed the available offerings in French or who, because of most unusual circumstances, are granted department approval to substitute one or both of these for the regular courses.

Credit Hours: 2 hrs  
Prerequisite: FRNH 441, FRNH 442 or department permission
Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.

Last Updated: Graduate Credit 07/2011; Links 04/2011

FRNH 466 - French Speaking Cultures of the World

Survey of the more than two dozen different cultures of the world that make up "la Francophonie." Language and cultural variations that one must know in order to understand and to communicate successfully with people in those cultures. In French.

Credit Hours: 3 hrs
Prerequisite: FRNH 343 and FRNH 344
Last Updated: Links 04/2011

FRNH 477 - Special Topics

These courses deal with subject matter not provided in other department offerings. Students may elect such a course several times, provided different topics are studied.

Credit Hours: 1 hr
Prerequisite: department permission

FRNH 478 - Special Topics

These courses deal with subject matter not provided in other department offerings. Students may elect such a course several times, provided different topics are studied.

Credit Hours: 2 hrs
Prerequisite: department permission

FRNH 479 - Special Topics

These courses deal with subject matter not provided in other department offerings. Students may elect such a course several times, provided different topics are studied.

Credit Hours: 3 hrs
Prerequisite: department permission

FRNH 488 - Internship

Provides an opportunity for the student to extend theoretical classroom learning through working experience in an appropriate setting. Field experience will be supplemented by regular meetings with the faculty supervisors. In French.

Credit Hours: 2 hrs
Prerequisite: department permission

FRNH 489 - Internship

Provides an opportunity for the student to extend theoretical classroom learning through working experience in an appropriate setting. Field experience will be supplemented by regular meetings with the faculty supervisors.

Credit Hours: 3 hrs
Prerequisite: department permission
Notes: In French.

FRNH 490 - Intensive French Abroad
An intensive linguistic and cultural immersion experience of at least six weeks’ duration offered in an approved French-speaking environment. Instruction at many different levels. In French.

Credit Hours: 6 hrs

FRNH 497 - Independent Study
Advanced study on an individual research basis in areas not covered in formal course work.

Credit Hours: 1 hr
Prerequisite: department permission

These courses deal with subject matter not provided in other department offerings. Students may elect such a course several times, provided different topics are studied.

Credit Hours: 3 hrs  
Prerequisite: department permission

**FLAN 387 - Cooperative Education in Foreign Language**

Four to six months of full-time employment in a position designed to give practical experience in a field related to the student’s foreign language major. The program ordinarily consists of two work experiences (FLAN 387/FLAN 487) alternating with full-time attendance at the University.

Credit Hours: 3 hrs  
Prerequisite: Admission to the program by application only  
Class Restrictions: Junior standing  
Notes: Offered on a credit/no-credit basis.  
Last Updated: Links 06/2011

**FLAN 388 - Internship**

An opportunity for the student to extend theoretical classroom learning through working experience in an appropriate setting. Field experience will be supplemented by regular meetings with the faculty supervisors.

Credit Hours: 1 hr  
Prerequisite: department permission  
Notes: Offered on a credit/no-credit basis.

**FLAN 411 - Theory and Methods of Modern Language Teaching**

The history, theory and techniques of modern language teaching. Not counted in the language area of the degree requirements, nor toward a major in any modern language. Should be taken during the fall semester prior to student teaching. Not open to students on academic probation.

Credit Hours: 3 hrs  
Prerequisite: FRNH 343, SPNH 343, GERN 343 or department permission  
Corequisites: FLAN 441  
Class Restrictions: Junior standing  
Major Restrictions: Admission to the Initial Teacher Preparation Program  
Last Updated: Co-requisite update, 07/2012; Links 04/2011

**FLAN 412 - Methods of Teaching Modern Languages in the Elementary Grades**

This course is designed to prepare students who have already earned secondary teaching certificates in French, German, Japanese and Spanish for careers as foreign language teachers in elementary (K-6) school settings.

Credit Hours: 3 hrs
Prerequisite: FLAN 411; department permission
Corequisites: FLAN 442
Class Restrictions: Senior standing
Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.
Last Updated: Corequisite update 08/2012; Graduate Credit 07/2011; Links 04/2011

FLAN 421 - History and Theory of Bilingual Education

Sociolinguistic and psycholinguistic aspects of bilingualism, language acquisition and cognitive development in the bilingual child, different instructional models for bilingual education programs, and school and community relations. A minimum of 24 hours of field experience required. Not open to students on academic probation.

Credit Hours: 3 hrs

FLAN 422 - Teaching Hispanic Culture and Language

The techniques and materials for teaching the language and culture of Hispanic groups within the bilingual classroom. Techniques and materials for teaching other subject-matter areas in Spanish. A minimum of 24 hours of field experience in a bilingual classroom required. Not open to students on academic probation.

Credit Hours: 3 hrs

Major Restrictions: Admission to the Initial Teacher Preparation Program
Last Updated: Links 04/2011

FLAN 441 - Practicum in World Language Instruction - Secondary

Students apply concepts and theories learned in FLAN 411 to teach varied lesson designs in mentored, weekly small group micro-teaching sessions.

Credit Hours: 3 hrs

Prerequisite: Successful completion of Phase I of the Initial Teacher Preparation Program, and department permission
Corequisites: FLAN 411
Last Updated: New Course 04/2012, effective Fall 2012

FLAN 442 - Practicum in World Language Instruction - Elementary

This course prepares teacher candidates for careers as world language teachers in elementary schools. Students participate in weekly guided discussion sessions based on concepts and theories learned in FLAN 412 and complete a minimum of 45 hours of observation in approved K-5 auxiliary, elementary, exploratory, and immersion world language programs.

Credit Hours: 3 hrs

Prerequisite: FLAN 411, FLAN 441, successful completion of Phase I of the Initial Teacher Preparation Program, and department permission
Corequisites: FLAN 412
Last Updated: New Course 04/2012, effective Fall 2012

FLAN 477 - Special Topics

These courses deal with subject matter not provided in other department offerings. Students may elect such a course several times, provided different topics are studied.

**German**

**GERN 111 - Introduction to German Language and German-Speaking Cultures (GEGA)**

This course introduces student to the German language as well as the cultures of the German-speaking world thought interactive participation, films, readings, and extracurricular cultural activities. Student will gain basic knowledge of German language. Does not count toward German major or minor. Taught in German and English.

**Credit Hours:** 3 hrs  
**Repeatable for Credit:** No  
**Perspectives on a Diverse World:**

**Last Updated:** Gen Edu Approval 6/2013, effective Winter 2014; New Course 4/2013, effective Winter 2014

**GERN 121 - Beginning German (GEKH)**

Instruction includes pronunciation, aural-oral pattern practice, the fundamentals of grammar, written exercises and reading.

**Credit Hours:** 5 hrs  
**Knowledge of the Disciplines:**
Beginning German qualifies as a General Education course for the Humanities because it satisfies the outcome requirements for Foreign Language courses: 1. Communicate at a basic functional level in a language other than their own native tongue; 2. Demonstrate a basic understanding of the relationship between culture and language; and 3. Use basic forms and structures of a language in communicating in that language. Students learn to produce, through speaking and writing, and to understand, through reading and listening, the elements of the German language necessary to be able to function on a basic level in a German-speaking environment.

**Last Updated:** * 

**GERN 122 - Beginning German (GEKH)**

The goals of the two-course Beginning German sequence are the development of oral and written communication through the use of verbal and nonverbal symbols. The emphasis is on communicative competence (both spoken and written) through the mastery of vocabulary and grammar appropriate to given communicational situations. Besides gaining communicative skills in German, the student can expect to gain some familiarity with modern German culture.

**Credit Hours:** 5 hrs  
**Prerequisite:** GERN 121 or by placement examination  

**Knowledge of the Disciplines:**
The second semester course of Beginning German satisfies the outcome requirements for Foreign Language courses. To be able to communicate in German and appreciate linguistic and cultural similarities and difference, GERN 122 students learn to produce through speaking and writing, and to understand through reading and listening, the elements of their German language necessary to be able to function at a basic level in a German-speaking environment. Instruction in GERN 122 provides examples of speaking and writing that native speakers use to accomplish real tasks; students learn to master these structures while developing a new perspective on their own language, and an appreciation of a foreign cultural viewpoint.

**Last Updated:** Links 04/2011

**GERN 177 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 1 hr  
**Prerequisite:** department permission

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 3 hrs  
**Prerequisite:** department permission
GERN 221 - Intermediate German Reading (GEKH)

This course consists of readings in German literature and civilization. Students who plan to continue in German should take GERN 233 concurrently with GERN 221, and GERN 234 concurrently with GERN 222.

Credit Hours: 3 hrs
Prerequisite: GERN 122 or by placement examination
Knowledge of the Disciplines:
As a language course sequence, GERN 221 and GERN 222 are designed to strengthen and improve students' language skills (speaking, reading, listening and writing) at the appropriate level. The contents of the course enable students to develop an appreciation and understanding of other cultures (German-speaking countries of Europe), in the domains of literature, films, the arts, as well as linguistic, cultural and societal differences. The students are expected to express their knowledge and understanding of these topics in German.

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs
Prerequisite: department permission

GREK 201 - Intermediate Ancient Greek I

As a follow-up to GREK 101-GREK 102, this course will complete a full survey of the elements of the grammar and syntax of ancient Greek. It will also introduce students to the reading of original passages of major authors, especially prose writers such as Herodotus, Plato, Xenophon and the Evangelists.

Credit Hours: 3 hrs
Prerequisite: GREK 102
Last Updated: Links 04/2011

GREK 202 - Intermediate Ancient Greek II

As a follow-up to GREK 201, this course will review basic and finer points of the grammar and syntax of ancient Greek during the reading of major authors such as Homer, Thucydides, Plato, Lysias, Sophocles, Euripides and Aristophanes.
GREK 277 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs
Prerequisite: GREK 201

GREK 278 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr
Prerequisite: department permission

GREK 279 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs
Prerequisite: department permission

GREK 377 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr
Prerequisite: department permission

GREK 378 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs
Prerequisite: department permission

GREK 379 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs
Prerequisite: department permission
GREK 477 - Special Topics
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 1 hr
**Prerequisite:** department permission

GREK 478 - Special Topics
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 2 hrs
**Prerequisite:** department permission

GREK 479 - Special Topics
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 3 hrs
**Prerequisite:** department permission

GREK 497 - Independent Study
Advanced study on an individual research basis in areas not covered in formal course work.

**Credit Hours:** 1 hr
**Prerequisite:** department permission

GREK 498 - Independent Study
Advanced study on an individual research basis in areas not covered in formal course work.

**Credit Hours:** 2 hrs
**Prerequisite:** department permission

GREK 499 - Independent Study
Advanced study on an individual research basis in areas not covered in formal course work.

**Credit Hours:** 3 hrs
**Prerequisite:** department permission

Japanese

JPNE 121 - Beginning Japanese I (GEKH)
Practice in elementary conversation with special attention to reading and writing the two Japanese syllabaries and basic ideographs.

**Credit Hours:** 5 hrs  
**Knowledge of the Disciplines:**
To be able to communicate in Japanese and appreciate linguistic and cultural similarities and differences, JPNE 121 students learn to produce through speaking and writing, and to understand through reading and listening, the elements of the Japanese language necessary to be able to function at a basic level in a Japanese speaking environment. Instruction in JPNE 121 provides examples of speaking and writing that native speakers use to accomplish real tasks; students learn to master these structures while developing a new perspective on their own language, and an appreciation of a foreign cultural viewpoint.

**Prerequisite:** department permission

**JPNE 179 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 3 hrs  
**Prerequisite:** department permission
**JPNE 211 - Intermediate Japanese I (GEKH)**

Practice in intermediate Japanese conversation, with heavy emphasis on reading and writing common ideographs in nontechnical text.

**Credit Hours:** 5 hrs  
**Prerequisite:** JPNE 122 or department permission  
**Knowledge of the Disciplines:**

**Last Updated:** Gen Ed Approval 04/2012, effective Fall 2012; Links 04/2011

**JPNE 212 - Intermediate Japanese II (GEKH)**

Instruction includes practice in intermediate Japanese conversation, with heavy emphasis on reading and writing common ideographs in nontechnical text.

**Credit Hours:** 5 hrs  
**Prerequisite:** JPNE 211 or by placement examination  
**Knowledge of the Disciplines:**

**Last Updated:** Gen Ed Approval 04/2012, effective Fall 2012; Links 04/2011

**JPNE 261 - Introduction to Professional Language Study**

This course introduces students to the application of professional languages in a variety of settings focusing on oral and written communication. Students acquire the vocabulary and phrases of basic professional interactions, learn to translate documents of different professions and acquire basic interpreting techniques.

**Credit Hours:** 3 hrs  
**Prerequisite:** JPNE 212 or department permission  
**Last Updated:** Links 04/2011

**JPNE 343W - Japanese Composition (GEWI)**

Writing for a variety of purposes and a review of kanji (ideographs) and grammar constitute the core of the course. Frequent written assignments.

**Credit Hours:** 3 hrs  
**Prerequisite:** JPNE 212 or department permission  
**Writing Intensive:**

**Last Updated:** Links 03/2011

**JPNE 344 - Japanese Conversation**

Emphasizes acquisition of an active vocabulary for daily life and greater oral facility. Intensive study of casual or familiar levels of speech as well as polite forms and honorifics. About 80 percent in Japanese.

**Credit Hours:** 3 hrs  
**Prerequisite:** JPNE 212 or department permission  
**Last Updated:** Links 04/2011
JPNE 361 - Japanese for International Trade

Credit Hours: 3 hrs
Prerequisite: JPNE 344 or department permission

Last Updated: Links 04/2011

JPNE 377 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr
Prerequisite: department permission

JPNE 378 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs
Prerequisite: department permission

JPNE 379 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs
Prerequisite: department permission

JPNE 385 - Culture of Japan

An analysis of Japanese culture from a comparative perspective. The course presents the ethnological approach to cross-cultural understanding as applied to the study of Japanese culture. By contrasting and comparing insider and outsider analyses of Japanese behavior, the dynamics of cross-cultural research are documented and discussed.

Credit Hours: 3 hrs
Prerequisite: ANTH 135 or department permission
Cross-Listed with: ANTH 385
Last Updated: Links 04/2011

JPNE 444 - Advanced Japanese Conversation

The course aims to develop advanced conversational fluency. Students are expected to participate actively in group discussion. Instruction includes extensive vocabulary building for discussing a variety of subjects in Japanese.

Credit Hours: 3 hrs
Prerequisite: JPNE 344 or department permission  
Last Updated: Links 04/2011

**JPNE 445 - Survey of Japanese Literature**

Guides students to an understanding of the value and role of literary and cultural texts and uses them to interpret and recognize distinctive Japanese cultural perspectives over time.

**Credit Hours:** 3 hrs  
**Prerequisite:** JPNE 444 or department permission  
**Last Updated:** Links 04/2011

**JPNE 446 - Business Japanese I**

The course aims to increase proficiency in business communication in Japanese and to develop knowledge of Japanese economy, industry and foreign trade. Extensive work on the vocabulary and idiom of Japanese economy and business. In Japanese.

**Credit Hours:** 3 hrs  
**Prerequisite:** JPNE 361 or department permission  
**Last Updated:** Links 04/2011

**JPNE 447 - Business Japanese II**

The course provides an overview of the system of organization, managerial style and personnel relations of Japanese companies. Study of business communication focuses on business correspondence. In Japanese.

**Credit Hours:** 3 hrs  
**Prerequisite:** JPNE 446 or department permission  
**Last Updated:** Links 04/2011

**JPNE 448 - Readings on Japanese Culture**

This is a course of study designed to introduce contemporary Japanese culture and civilization through reading.

**Credit Hours:** 3 hrs  
**Prerequisite:** JPNE 444 or department permission  
**Last Updated:** Links 04/2011

**JPNE 477 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 1 hr  
**Prerequisite:** department permission

**JPNE 478 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.
**JPNE 479 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours**: 2 hrs  
**Prerequisite**: department permission

**JPNE 490 - Intensive Japanese Abroad**

An intensive linguistic and cultural immersion experience of at least one academic semester duration offered in Japan. Instruction at many different levels. May be repeated for credit.

**Credit Hours**: 6 hrs  
**Notes**: In Japanese.

**Credit Hours**: 3 hrs  
**Prerequisite**: department permission

**JPNE 494 - Seminar in Japanese Studies**

Required of students majoring in teaching Japanese language and culture. Extensive study and discussion of issues related to Japanese society and to language structures. Students are required to apply Japanese language skills in research, presentations and papers.

**Credit Hours**: 3 hrs  
**Prerequisite**: JPNE 446 or department permission  
**Graduate Credit**: This is an undergraduate course available to graduate students for graduate credit.  
**Last Updated**: Graduate Credit 07/2011; Links 04/2011

**JPNE 497 - Independent Study**

Advanced study on an individual research basis in areas not covered in formal course work.

**Credit Hours**: 1 hr  
**Prerequisite**: department permission

**JPNE 498 - Independent Study**

Advanced study on an individual research basis in areas not covered in formal course work.

**Credit Hours**: 2 hrs  
**Prerequisite**: department permission

**JPNE 499 - Independent Study**

Advanced study on an individual research basis in areas not covered in formal course work.

**Credit Hours**: 3 hrs  
**Prerequisite**: department permission
Language

LNGE 134 - Etymology
Greek and Latin words and roots that are current in English forms are studied in order to enlarge the vocabulary and to produce a more discriminating use of words.

Credit Hours: 3 hrs

LNGE 177 - Special Topics
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr
Prerequisite: department permission

LNGE 178 - Special Topics
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs
Prerequisite: department permission

LNGE 179 - Special Topics
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs
Prerequisite: department permission

LNGE 202 - Grammar for ESL Teachers
The main purpose of this course is to help students to develop: (a) an explicit understanding of the most frequently occurring English structures, (b) a working knowledge of prescriptive and descriptive rules, (c) sensitivity to learners’ developmental errors and (d) the analytical skills needed to teach grammar to English language learners.

Credit Hours: 3 hrs

LNGE 223 - Introduction to Language
The basic principles of linguistic structure as they apply to the western European languages taught in the department.

Credit Hours: 3 hrs

LNGE 240 - Linguistic and Cultural Diversity in the U.S.
Students explore the nature of language and its relationship to culture as it impacts the classroom. Special emphasis will be placed on the dissemination and use of English in the U.S., the role of geography, ethnicity, and social status in language diversity, and the impact of language choice as they impact TESOL.

**Credit Hours:** 3 hrs  
**Last Updated:** 04/2006; effective Summer 2007

**LNGE 242 - Linguistic and Cultural Diversity: Global Englishes**

Students will explore the nature of language and its relationship to culture as it impacts the classroom. Emphasis will be on the dissemination of Englishes around the world through TESOL, the role of geography, ethnicity, and social status in language diversity, and the impact of language choice within educational settings.

**Credit Hours:** 3 hrs  
**Last Updated:** 04/2006; effective Summer 2007

**LNGE 277 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 1 hr  
**Prerequisite:** department permission

**LNGE 278 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 2 hrs  
**Prerequisite:** department permission

**LNGE 279 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 3 hrs  
**Prerequisite:** department permission

**LNGE 325 - Second Language Acquisition**

Students examine the nature of learning a second language simultaneously with, or subsequent to, one’s first language. Linguistic, cognitive, affective, cultural and social factors influencing the acquisition of another language are explored. Focus includes various age and English ability levels.

**Credit Hours:** 3 hrs  
**Prerequisite:** LNGE 223 and LNGE 202  
**Last Updated:** Links 04/2011

**LNGE 377 - Special Topics**
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 1 hr  
**Prerequisite:** department permission

### LNGE 378 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 2 hrs  
**Prerequisite:** department permission

### LNGE 379 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 3 hrs  
**Prerequisite:** department permission

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 3 hrs  
**Prerequisite:** department permission

### LNGE 497 - Independent Study

Advanced study on an individual research basis in areas not covered in formal course work.
Credit Hours: 1 hr  
Prerequisite: department permission

**LNGE 498 - Independent Study**

Advanced study on an individual research basis in areas not covered in formal course work.

Credit Hours: 2 hrs  
Prerequisite: department permission

**LNGE 499 - Independent Study**

Advanced study on an individual research basis in areas not covered in formal course work.

Credit Hours: 3 hrs  
Prerequisite: department permission

**Latin**

**LATN 101 - Beginning Latin I**

This course introduces students to the basic vocabulary, grammar, and syntax of the Latin language with a view to the reading of Roman literature.

Credit Hours: 3 hrs

**LATN 102 - Beginning Latin II**

As a follow-up to LATN 101, this course will continue a general introduction to the basic vocabulary, grammar and syntax of the Latin language with a view to the reading of Roman literature.

Credit Hours: 3 hrs  
Prerequisite: LATN 101  
*Last Updated: Links 04/2011*

**LATN 177 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr  
Prerequisite: department permission

**LATN 178 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs  
Prerequisite: department permission
LATN 179 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs
Prerequisite: department permission

LATN 201 - Intermediate Latin I

As a follow-up to LATN 101-LATN 102, this course will complete a full survey of the elements of Latin grammar and syntax. It will also introduce students to the reading of original passages of major authors, especially prose writers such as Cicero, Caesar, Sallust and Livy.

Credit Hours: 3 hrs
Prerequisite: LATN 102
Last Updated: Links 04/2011

LATN 202 - Intermediate Latin II

As a follow-up to LATN 201, this course will review basic and finer points of the grammar and syntax of ancient Latin during the reading of major authors such as Lucretius, Catullus, Virgil, Cicero, Seneca, Tacitus and Juvenal.

Credit Hours: 3 hrs
Prerequisite: LATN 201
Last Updated: Links 04/2011

**Prerequisite:** department permission

**Spanish**

**SPNH 111 - Introduction to Spanish Language and Hispanic Cultures (GEGA)**

This course introduces students to the Spanish Language as well as the cultures of the Spanish - Speaking world through interactive participation, films, readings and extracurricular cultural activities. Students will gain basic knowledge of Spanish language. Does not count towards SPNH major. Taught in English and Spanish.

**Credit Hours:** 3 hrs  
**Class Restrictions:** All Undergraduates  
**Perspectives on a Diverse World:**

**SPNH 121 - Beginning Spanish I (GEKH)**

First semester of beginning Spanish covering basic principles of grammar. Practice in elementary conversation, pronunciation, composition and reading. Regular use of language laboratory and ancillaries (e.g., workbook, compact discs, tapes and publisher Internet resources).

**Credit Hours:** 4 hrs  
**Knowledge of the Disciplines:**  
To be able to communicate in Spanish and appreciate linguistic and cultural similarities and differences, SPNH 121 students learn to produce through speaking and writing, and to understand through reading and listening, the elements of the Spanish language necessary to be able to function at a basic level in a Spanish-speaking environment. Instruction in SPNH 121 provides examples of speaking and writing that native speakers use to accomplish real tasks; students learn to master theses structures while developing a new perspective on their own language, and an appreciation of a foreign cultural viewpoint.  
*Last Updated:* Change to Credit Hours 12/2013, effective Summer 2014

**SPNH 122 - Beginning Spanish II (GEKH)**
Second semester of beginning Spanish covering basic principles of grammar. Practice in elementary conversation, pronunciation, composition and reading. Regular use of language laboratory and ancillaries (e.g., workbook, compact discs, tapes and publisher Internet resources).

**Credit Hours**: 4 hrs  
**Prerequisite**: SPNH 121 or by placement exam

**Knowledge of the Disciplines**:  
To be able to communicate in Spanish and appreciate linguistic and cultural similarities and differences, SPNH 122 students learn to produce through speaking and writing, and to understand through reading and listening the elements of the Spanish language necessary to be able to function at a basic level in a Spanish speaking environment. Instruction in SPNH 122 provides examples of speaking and writing that native speakers use to accomplish real tasks; students learn to master these structures while developing a new perspective on their own language, and an appreciation of foreign cultural viewpoint.  
**Last Updated**: Change to Credit Hours 02/2014, effective Summer 2014; Links 03/2011

**SPNH 177 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours**: 1 hr  
**Prerequisite**: Department permission  
**Last Updated**: Links 03/2011

**SPNH 178 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**SPNH 233 - Intermediate Spanish I (GEKH)**

First semester of second-year Spanish focusing on a review of Spanish grammar, composition, and oral work. Regular use of language laboratory and ancillaries (e.g., workbook, compact discs, tapes and publisher Internet resources). In Spanish.

**Credit Hours**: 3 hrs  
**Prerequisite**: SPNH 122 or by placement exam  
**Previously Listed As**: SPNH 201  
**Knowledge of the Disciplines**:  
Intermediate Spanish prepares students to communicate effectively through both oral and written language comprehension and production, by offering a thorough review of elementary structures along with an introduction to and practice of more
complicated grammatical concepts and more sophisticated vocabulary terms. The course meets four hours weekly, which provides students continuing contact with the language and consistent exposure to the cultural components of language acquisition, including: study of the customs and history of Spanish-speaking places, knowledge of linguistic developments, exposure to works of art, music and literary selections produced within a Hispanic context, and a global awareness through knowledge of particular social and political issues affecting Spanish-speaking populations in the United States and abroad.

_Last Updated:_ Change to course number and credit hours 2/2014, effective Summer 2014; Links 03/2011

**SPNH 234 - Intermediate Spanish II (GEKH)**

Second semester of second-year Spanish focusing on a review of Spanish grammar, composition, and oral work. Regular use of language laboratory and ancillaries (e.g., workbook, compact discs, tapes and publisher Internet resources). In Spanish.

_Credit Hours:_ 3 hrs  
_Prerequisite:_ SPNH 233 or by placement exam  
_Previously Listed As:_ SPNH 202

SPNH 379 - Special Topics
These courses deal with subject matter not provided in other department offerings. Students may elect such a course several times, provided different topics are studied.

**Credit Hours:** 3 hrs  
**Prerequisite:** Department permission  
**Last Updated:** Links 03/2011

### SPNH 388 - Internship

Provides an opportunity for the student to extend theoretical classroom learning through working experience in an appropriate setting. Field experience will be supplemented by regular meetings with the faculty supervisors.

**Credit Hours:** 1 hr  
**Prerequisite:** Department permission  
**Notes:** Offered on a credit/no-credit basis.  
**Last Updated:** Links 03/2011

### SPNH 401 - Advanced Readings in Spanish Literature

Students will read, analyze and discuss in class a selection of representative and challenging works of Spanish literature from a variety of genres (poetry, prose, theater), and from a variety of historical periods. Course readings will be discussed in their historical, cultural and social contexts, and with regard to related literary trends and critical theories. In Spanish.

**Credit Hours:** 3 hrs  
**Prerequisite:** SPNH 322 or departmental permission  
**Graduate Credit:** This is an undergraduate course available to graduate students for graduate credit.  
**Last Updated:** Prerequisite Change 05/2012, effective Winter 2013; Graduate Credit 07/2011; Links 03/2011

### SPNH 402 - Advanced Readings in Spanish American Literature

Students will read, analyze and discuss a selection of representative and challenging works of Spanish-American literature from multiple historical periods and genres (poetry, prose, theatre). Course readings will be discussed in their historical, cultural and social contexts, and with regard to related literary trends and critical theories. In Spanish.

**Credit Hours:** 3 hrs  
**Prerequisite:** SPNH 322 or departmental permission  
**Graduate Credit:** This is an undergraduate course available to graduate students for graduate credit.  
**Last Updated:** Prerequisite Change 05/2012, effective Winter 2013; Graduate Credit 07/2011; 03/2011

### SPNH 411 - The Cultures of Spain

A comprehensive study of the peoples of Spain, their cultures, environment and way of life, covering the evolution of Spain's society throughout history and its current configuration, including natural and human resources, politics, economics, ethnic, linguistic and religious minorities, international relations, literature, the arts, and leisure activities.

**Credit Hours:** 3 hrs  
**Prerequisite:** SPNH 343 or SPNH 344 or SPNH 361  
**Previously Listed As:** SPNH 301  
**Last Updated:** Number, prereqs. 07/2011; 03/2011

### SPNH 412 - The Cultures of Spanish America
A comprehensive study of the peoples of Spanish America, their cultures, environment and way of life, covering the evolution of Hispanic societies in the New World and their current configuration, including natural and human resources, politics, economics, ethnic, linguistic and religious minorities, international relations, literature, the arts, and leisure activities. *In Spanish.*

**Credit Hours:** 3 hrs  
**Prerequisite:** SPNH 343 or SPNH 344 or SPNH 361  
**Last Updated:** Course Number, description, and prereqs. 07/2011; 03/2011

**SPNH 420 - Introduction to Translation**

Students will learn basic translation theory and its techniques and processes. They will undertake written exercises on all aspects of translation and will also translate sample documents from various professional fields, from English into Spanish and Spanish into English. The professional subject matter will change each time the course is offered.

**Credit Hours:** 3 hrs  
**Repeatable for Credit:** Yes (up to 9 credits)  
**Prerequisite:** SPNH 343, SPNH 344, SPNH 443, and department permission  
**Concurrent Prerequisite:** SPNH 443  
**Last Updated:** New Course 07/2011

**SPNH 423 - Hispanic Linguistics**

Introduction of the core components of Spanish linguistics, including the sound system (phonetics and phonology), word formation (morphology), formation of phrases and sentences (syntax), the use of the language to convey meaning (semantics and pragmatics), the history of the language and regional and social varieties of Spanish.

**Credit Hours:** 3 hrs  
**Prerequisite:** SPNH 343, SPNH 344, and Departmental Permission.  
**Notes:** In Spanish  
**Previously Listed As:** SPNH 422  
**Last Updated:** Number Change 08/2011, effective Winter 2012; Departmental Permission 7/26/2011; Created 7/22/2011

**SPNH 430 - Spanish Phonetics and Phonology**

Introduction to the sounds of Spanish: their place and manner of articulation (phonetics) as well as how they pattern with respect to each other and are influenced by morphological and syntactic factors (phonology). Practice in transcription. Comparisons are made between English and Spanish.

**Credit Hours:** 3 hrs  
**Prerequisite:** SPNH 343, SPNH 344, and Departmental Permission.  
**Notes:** In Spanish  
**Last Updated:** Departmental Permission 7/26/11; Created 7/22/2011

**SPNH 443 - Advanced Spanish Grammar and Composition**

Extensive written practice for a variety of purposes integrating advanced grammatic structures. Frequent written assignments.

**Credit Hours:** 3 hrs  
**Prerequisite:** SPNH 343 and SPNH 344 or department permission  
**Last Updated:** Links 03/2011

**SPNH 444 - Advanced Spanish Conversation and Composition**
Emphasis on greater oral facility, acquisition of additional vocabulary and idioms, advanced sentence structures and frequent written compositions.

**Credit Hours:** 3 hrs  
**Prerequisite:** SPNH 343 and SPNH 344 or department permission  
**Graduate Credit:** This is an undergraduate course available to graduate students for graduate credit.  
**Last Updated:** Graduate Credit 07/2011; 03/2011

**SPNH 445 - Spanish-American Prose**

A study of selected topics in Spanish-American literature. May be repeated for credit if the material of the course is in another area. In Spanish.

**Credit Hours:** 3 hrs  
**Prerequisite:** SPNH 402 or department permission  
**Graduate Credit:** This is an undergraduate course available to graduate students for graduate credit.  
**Last Updated:** Graduate Credit 07/2011; 03/2011

**SPNH 446 - Business Spanish I**

Required of students majoring in business Spanish. Practice with Spanish commercial correspondence, translation of Spanish business documents and reading of foreign periodical publications on economics and international trade. An overview of international economic organizations and trade agreements related to Spanish-speaking countries and a review of existing bibliography on commercial Spanish.

**Credit Hours:** 3 hrs  
**Prerequisite:** SPNH 361 or department permission  
**Last Updated:** Title Change, 9/2012 effective Winter 2013

**SPNH 447 - Business Spanish II**

Continuation of Business Spanish I. Required of students majoring in Business Spanish. Practice with Spanish commercial correspondence, translation of Spanish business documents and reading of foreign periodical publications on economics and international trade. An overview of international economic organizations and trade agreements related to Spanish-speaking countries and a review of existing bibliography on commercial Spanish.

**Credit Hours:** 3 hrs  
**Prerequisite:** SPNH 446 or department permission  
**Last Updated:** Description and Prerequisite Change 09/2012, effective Winter 2013

**SPNH 448 - Modern Drama**

The development of modern Spanish drama and its various types. Works of the principal dramatists of the 19th and 20th centuries. In Spanish.

**Credit Hours:** 3 hrs  
**Prerequisite:** SPNH 401 or department permission  
**Graduate Credit:** This is an undergraduate course available to graduate students for graduate credit.  
**Last Updated:** Graduate Credit 07/2011; 03/2011
SPNH 449 - Romanticism

A study of the major works of Hispanic Romanticism.

Credit Hours: 3 hrs
Prerequisite: SPNH 401 or department permission
Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.
Notes: In Spanish.
Last Updated: Graduate Credit 07/2011; 03/2011

SPNH 450 - Spanish-American Theatre

A study of the theatre in Spanish America from its beginning to the present. In Spanish.

Credit Hours: 3 hrs
Prerequisite: SPNH 402 or department permission
Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.
Last Updated: Graduate Credit 07/2011; 03/2011

SPNH 454 - Modernism in Spanish America

A survey of the literary movement known as "modernismo" in the literature of Spanish America. In Spanish.

Credit Hours: 3 hrs
Prerequisite: SPNH 402 or department permission
Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.
Last Updated: Graduate Credit 07/2011; 03/2011

SPNH 455 - The Generation of 1898

A study of the works of the main authors of the generation of 1898, from Unamuno to Ortega y Gasset. In Spanish.

Credit Hours: 3 hrs
Prerequisite: SPNH 401 or department permission
Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.
Last Updated: Graduate Credit 07/2011; 03/2011

SPNH 456 - Scientific and Technical Spanish I

Study of the fundamental Spanish terminology required for scientific and technical contexts, including basic vocabulary for mathematics, geometry and physics. In-depth study of at least one scientific or technical field (e.g., automobile industry, automated processes). Students will explore the vocabulary and resources in their chosen fields.

Credit Hours: 3 hrs
Prerequisite: SPNH 343 or department permission
Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.
Last Updated: Graduate Credit 07/2011; Links 03/2011

SPNH 457 - Scientific and Technical Spanish II
Study of the fundamental Spanish terminology required for scientific and technical contexts, including basic vocabulary for computers, chemistry and biology. In-depth study of at least one scientific or technical field (e.g., data processing, nutrition). Students will explore the vocabulary and resources in their chosen fields.

**Credit Hours:** 3 hrs  
**Prerequisite:** SPNH 456 or department permission  
**Graduate Credit:** This is an undergraduate course available to graduate students for graduate credit.  
**Last Updated:** Graduate Credit 07/2011; Links 03/2011

**SPNH 463 - Don Quixote**

The universal qualities of both the book and its author, as well as their relation to Spanish life and literature of the period. In Spanish.

**Credit Hours:** 3 hrs  
**Prerequisite:** SPNH 401 or department permission  
**Last Updated:** 03/2011

**SPNH 464 - Drama of the Golden Age**

The drama of the 16th and 17th centuries. Works of the major authors will be read and discussed. In Spanish.

**Credit Hours:** 3 hrs  
**Prerequisite:** SPNH 401 or department permission  
**Last Updated:** 03/2011

**SPNH 465 - Modern Novel**

Study of the development of the modern novel in Spain during the 19th and 20th centuries. Representative novels will be read and discussed. In Spanish.

**Credit Hours:** 3 hrs  
**Prerequisite:** SPNH 401 or department permission  
**Graduate Credit:** This is an undergraduate course available to graduate students for graduate credit.  
**Last Updated:** Graduate Credit 07/2011; 03/2011

**SPNH 467 - Introduction to Spanish Interpretation**

Introductory course in consecutive interpreting for the professions. Compare modes of express of expression and introduce theoretical aspects and practical techniques of interpreting using simulations. Students interpret from English to Spanish and from Spanish to English. Professional area changes each time offered. Students also do a field project and write a research paper on an aspect of interpreting.

**Credit Hours:** 3 hrs  
**Prerequisite:** SPNH 443  
**Last Updated:** New Course 11/2012, effective Winter 2013

**SPNH 471 - Culture and Literature of the Hispanic Groups in the United States**

A study of the cultures of the major Hispanic groups in the U.S. The study of representative literary works is intended to lead to an increased appreciation of the cultural roots and current life styles of these groups. In Spanish. A minimum of 24 hours of field
experience required.

**Credit Hours:** 3 hrs  
**Prerequisite:** SPNH 322, or Department Permission  
**Graduate Credit:** This is an undergraduate course available to graduate students for graduate credit.  
**Last Updated:** Prerequisite added 11/2012, effective Winter 2013; Graduate Credit 07/2011

**SPNH 477 - Special Topics**

These courses deal with subject matter not provided in other department offerings. Students may elect such a course several times, provided different topics are studied.

**Credit Hours:** 1 hr  
**Prerequisite:** Department permission  
**Last Updated:** Links 03/2011

**SPNH 478 - Special Topics**

These courses deal with subject matter not provided in other department offerings. Students may elect such a course several times, provided different topics are studied.

**Credit Hours:** 2 hrs  
**Prerequisite:** Department permission  
**Last Updated:** Links 03/2011

**SPNH 479 - Special Topics**

These courses deal with subject matter not provided in other department offerings. Students may elect such a course several times, provided different topics are studied.

**Credit Hours:** 3 hrs  
**Prerequisite:** Department permission  
**Last Updated:** Links 03/2011

**SPNH 482 - Language of the Hispanic Groups in the United States**

A survey of present-day social and regional variations in the Spanish spoken in the U.S. and the historical background of these variations. In Spanish. A minimum of 24 hours of field experience required.

**Credit Hours:** 3 hrs  
**Prerequisite:** An introductory course in linguistics or department permission  
**Graduate Credit:** This is an undergraduate course available to graduate students for graduate credit.  
**Last Updated:** Graduate Credit 07/2011; Links 03/2011

**SPNH 488 - Internship**

Provides an opportunity for the student to extend theoretical classroom learning through working experience in an appropriate setting. Field experience will be supplemented by regular meetings with the faculty supervisors.

**Credit Hours:** 2 hrs  
**Prerequisite:** Department permission
**SPNH 489 - Internship**

Provides an opportunity for the student to extend theoretical classroom learning through working experience in an appropriate setting. Field experience will be supplemented by regular meetings with the faculty supervisors.

*Credit Hours:* 3 hrs  
*Prerequisite:* Department permission  
*Notes:* Offered on a credit/no-credit basis.  
*Last Updated:* Links 03/2011

**SPNH 490 - Intensive Spanish**

An intensive linguistic and cultural immersion experience of at least six weeks’ duration in a Spanish-speaking country. Instruction at many different levels. May be repeated for credit. In Spanish.

*Credit Hours:* 6 hrs

**SPNH 497 - Independent Study**

Advanced study on an individual research basis in areas not covered in formal course work.

*Credit Hours:* 1 hr  
*Prerequisite:* Department permission  
*Last Updated:* Links 03/2011

**SPNH 498 - Independent Study**

Advanced study on an individual research basis in areas not covered in formal course work.

*Credit Hours:* 2 hrs  
*Prerequisite:* Department permission  
*Last Updated:* Links 03/2011

**SPNH 499 - Independent Study**

Advanced study on an individual research basis in areas not covered in formal course work.

*Credit Hours:* 3 hrs  
*Prerequisite:* Department permission  
*Last Updated:* Links 03/2011

**TESOL**

**TSLN 330 - TESOL Methodology: Literacy**

This course teaches recent literacy theory and its application to pedagogy, including research-based concepts of literacy and their relationship to practical aspects of language acquisition. The course builds teacher candidates’ understanding of language and
literacy development with an emphasis on teaching English to speakers of other languages.

**Credit Hours:** 3 hrs  
**Prerequisite:** LNGE 325  
**Last Updated:** Links 03/2011

**TSLN 332 - Methodology: Listening and Speaking**

This course connects recent language theory and research-based concepts of the teaching of oral/aural language to practical aspects of language acquisition and teaching. The course builds teacher candidates’ understanding of oral/aural language development with an emphasis on teaching English to speakers of other languages.

**Credit Hours:** 3 hrs  
**Prerequisite:** LNGE 325  
**Last Updated:** Links 03/2011

**TSLN 410 - TESOL Methodology: Content-Based Approaches**

This course focuses on applying principles of English language instruction within content courses. Emphasis is placed on teaching students to use research-based methods of teaching language components (i.e. grammar, vocabulary and pronunciation) and integrating the 4-skills (listening, speaking, reading and writing) with teaching specific content (e.g. science, social studies).

**Credit Hours:** 3 hrs  
**Prerequisite:** TSLN 330 and TSLN 332  
**Graduate Credit:** This is an undergraduate course available to graduate students for graduate credit.  
**Last Updated:** Graduate Credit 07/2011; Links 03/2011

**TSLN 420 - SLA Testing and Assessment**

This course teaches students the basics of testing English speakers of other languages (ESOL) based on current second language acquisition theory, reviews existing tests used with ESOL students, develops tests and alternative assessments for ESOL students, and practices administering ESOL test used in public schools.

**Credit Hours:** 3 hrs  
**Prerequisite:** TSLN 330 and TSLN 332  
**Concurrent Prerequisite:** TSLN 410  
**Last Updated:** Links 03/2011

**TSLN 477 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 1 hr  
**Prerequisite:** department permission

**TSLN 478 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.
Credit Hours: 2 hrs
Prerequisite: department permission

**TSLN 479 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs
Prerequisite: department permission

**TSLN 497 - Independent Study**

Advanced study on an individual research basis in areas not covered in formal course work.

Credit Hours: 1 hr
Prerequisite: department permission

**TSLN 498 - Independent Study**

Advanced study on an individual research basis in areas not covered in formal course work.

Credit Hours: 2 hrs
Prerequisite: department permission

**TSLN 499 - Independent Study**

Advanced study on an individual research basis in areas not covered in formal course work.

Credit Hours: 3 hrs
Prerequisite: department permission
Interdisciplinary Programs

Major

Interdisciplinary Environmental Science and Society (IESS)

Program Revised, Effective Fall 2013

The Interdisciplinary Environmental Science and Society (IESS) program is an interdisciplinary program designed to provide broad knowledge of the interaction between humans and the environment from various points of view. Students can tailor their curriculum by following one of several concentrations and sub-concentrations to gain a deeper understanding of an environmental issue depending on their interest. Currently, concentrations in Environmental Science and Environment and Society are available, but more can be developed in the future. All IESS students will learn how population growth and increased economic activity affect our environment and how GIS can be used as a tool to present environmental data. Students choosing the Environmental Science concentration learn the concepts needed to understand the "Grand Challenges in Environmental Science" as identified by the National Academies of Science including biodiversity and ecosystem functioning, climate variability, hydrologic forecasting, land-use dynamics, and biogeochemical cycles. Students choosing the Environment and Society concentration learn how environmental policies and regulations have economic, political, and social impacts.

Students completing the program will be competitive to enter careers such as environmental technician, environmental advocate, hydrologist, resource manager, and environmental lobbyist. Research institutions, regulatory agencies, nonprofit organizations, and consulting firms will be the main source of employment for graduates of the program. Although, as with many science baccalaureate degrees, many of the jobs available to students who complete the Environmental Science concentration are entry-level, experience and graduate work can allow students to advance to environmental management positions. The environmental science degree, in consultation with an advisor, prepares students to enter a graduate degree or graduate certificate program in a specific environmental science such as atmospheric scientist, ecologist, or hydrogeologist.

General Education Requirements:

For specific requirements refer to the General Education Program.

Advisor Information:

Tom Kovacs, Ph.D., Professor
303D Mark Jefferson Science Complex
(734) 487-8591
tkovacs@emich.edu

Required Core Courses: 32-34 hours

- ENVI 105 - Introduction to Environment and Society (GEGA) 3 hrs
- ENVI 305W - Current Topics in Environmental Science and Society (GEWI) 3 hrs
• ENVI 405 - Capstone Seminar 1 hr
• GEOG 276 - Principles of Geographic Information Systems 3 hrs
• MATH 170 - Elementary Statistics (GEQR) 3 hrs
• PHIL 229 - Environmental Ethics (GEKH) 3 hrs

One of the following:

• BIO 107 - Introduction to Environmental Science (GEGA) 3 hrs
• ESSC 107 - Introduction to Environmental Science (GEGA) 3 hrs

One of the following:

• * BIO 110 - Introductory Biology I (GEKN) 5 hrs
• BIO 226 - Global Ecology and the Environment 4 hrs

One of the following:

• CHEM 115 - Chemistry and Society (GEKN) 3 hrs
  AND
• CHEM 116 - Chemistry and Society Laboratory (GEKN) 1 hr
  OR

• * CHEM 121 - General Chemistry I (GEKN) 3 hrs
  AND
• * CHEM 122 - General Chemistry I Laboratory (GEKN) 1 hr

One of the following:

• ESSC 108 - Earth Science for Nonscience Majors (GEKN) 3 hrs
  AND
• ESSC 109 - Earth Science Laboratory for Non-Science Majors (GEKN) 1 hr
  OR

• * ESSC 110 - The Dynamic Earth System (GEKN) 4 hrs

Choose a Concentration:

*Students must choose from either the Environmental Science concentration or the Environment and Society concentration.*

Environmental Science Concentration: 45-58 hours

*Students choose an emphasis from the list below. Students must complete all the requirements of the emphasis chosen.*

Atmosphere and Climate Emphasis
Environmental Biology Emphasis

Environmental Chemistry Emphasis

Environmental Geoscience Emphasis

Environmental Hydrology Emphasis

**Environment and Society Concentration: 30 hours**

**Required Concentration Courses: 15 hours**

- ESSC 495 - Environmental Assessment and Planning 3 hrs
- GEOG 110 - World Regions (GEGA) 3 hrs
- HIST 416 - American Environmental History 3 hrs
- LAW 456 - Environmental Law 3 hrs
- PLSC 381 - Public Policy Analysis 3 hrs

**Concentration Electives: 15 hours**

*Students choose 5 courses from the following:*

- ECON 336 - Economics of Environment and Natural Resources 3 hrs
- WRTG 310 - Writing and Civic Literacy 3 hrs
- GEOG 150 - Thinking Sustainably (GEGA) 3 hrs
- PHIL 224 - Ethics and Food (GEKH) 3 hrs
- PHIL 429W - Topics in Environmental Philosophy (GEWI) 3 hrs
- PLSC 336 - Foundations of the U.S. Nonprofit Sector 3 hrs
- PLSC 342 - International Organizations 3 hrs
- PLSC 435 - Nonprofit Management and Leadership 3 hrs

**Minor Requirements:**

This major does not require a minor.

**Program Total:**

Students must earn a minimum total of 124 credits at the 100-level or above.

**Critical Graduation Information:**

Each undergraduate student will be responsible for the fulfillment of the requirements or their equivalents of the Eastern Michigan University catalog in force at the time of their initial registration at a college or university or a subsequent catalog including the one in effect at the time of their graduation.

In the event an undergraduate student does not complete the degree requirements within seven years of the date of their original registration at a college or university, the student may be required to have their credits re-evaluated by the academic department(s) of their major/minor in keeping with catalog requirements in force during the year of their graduation.
The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the 100-level and above. Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Complete a Writing Intensive (WI) Course in your major.
- Earn a minimum of 60 credits from a four-year college or university; courses taken at community colleges cannot be used to meet this requirement. (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 unique credit hours in their major and 20 unique credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
- Earn no more than 60 credit hours in one subject area (prefix). Credits in excess of the 60 maximum will not be counted toward the minimum of 124 credits required for a bachelor's degree.
- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more that one major or minor.
  - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
  - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
  - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor
- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is conducted by individual departments/schools within EMU, and additional documentation may be required. Please note: EMU awards only credit for transferred courses; grades are not used in the calculation of an EMU GPA.
- Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be reached in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

General Education Requirements:

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available in the General Education section of the catalog: General Education

Students who transferred to EMU may have modified general education requirements based on Michigan Transfer Agreement (MTA) or articulation agreements; consult your academic advisor for additional information.

University Information: Consult the online catalog at catalog.emich.edu.
Interdisciplinary Major in Children's Literature and Drama/Theatre for the Young

Department Information:

English Language & Literature Department - College of Arts & Sciences

Mary K. Ramsey, Ph.D., Department Head

612 Pray Harrold
(734) 487-4220
mramsey6@emich.edu

Department Website

Advisor Information:

Ramona Caponegro

603D Pray-Harrold
(734) 487-4830
rcaponeg@emich.edu

General Education Requirements:

For specific requirements refer to the General Education Program.

Major Requirements: 36 hours

Required Courses: 21 hours

- CHL 207 - Introduction to Children's Literature (GEKH) 3 hrs
- CHL 208 - Multicultural Children's Literature (GEUS) 3 hrs
- CTAR 327 - Plays for the Young 3 hrs

One course from the following:

- CHL 351 - World Mythology 3 hrs
- CHL 352 - Folk Literature: Ballads and Folk Tales 3 hrs

One course from the following:

- CHL 450W - Children's Literature: Criticism and Response (GEWI) 3 hrs
- CHL 451W - Writing about Controversy in Literature for the Young (GEWI) 3 hrs

One course from the following:
• CTAR 222 - Drama and Play in the Human Experience (GEKA) 3 hrs
• CTAR 323 - Improvising and Role-Play 3 hrs

One course from the following:

• CTAR 322 - Theatre for Children 3 hrs
• CTAR 324 - Oral Interpretation of Children's Literature 3 hrs

Restricted Elective Courses: 15 hours

Courses not chosen to fulfill program requirements above may be taken as restricted electives.

Occasionally special topics courses may be offered (such as children’s film, storytelling, or puppetry) which may be substituted for a restricted elective with departmental permission. Qualified seniors may, with an advisor’s permission, substitute appropriate 500-level course.

• CHL 137 - Harry Potter: Literary Allusion, Children's Literature and Popular Culture (GEKH) 3 hrs
• CHL 209 - Global Children's Literature (GEGA) 3 hrs
• CHL 351 - World Mythology 3 hrs
• CHL 352 - Folk Literature: Ballads and Folk Tales 3 hrs
• CHL 353 - Genders and Sexualities in Literature for Young Readers 3 hrs
• CHL 450W - Children's Literature: Criticism and Response (GEWI) 3 hrs
• CHL 451W - Writing about Controversy in Literature for the Young (GEWI) 3 hrs
• CHL 453 - Illustrated Texts: Picture Books, Comics, and Graphic Novels 3 hrs
• CHL 455 - Adolescent Literature 3 hrs
• CHL 456 - Jewish Children’s and Adolescent Literature 3 hrs
• CHL 497 - Independent Study 1 hr
• CHL 498 - Independent Study 2 hrs
• CHL 499 - Independent Study 3 hrs
• CTAO 210 - Interpretative Reading (GEKH) 3 hrs
• CTAR 222 - Drama and Play in the Human Experience (GEKA) 3 hrs
• CTAR 322 - Theatre for Children 3 hrs
• CTAR 323 - Improvising and Role-Play 3 hrs
• CTAR 324 - Oral Interpretation of Children's Literature 3 hrs
• CTAR 326 - Drama/Theatre for Persons with Disabilities 2 hrs
• CTAR 327 - Plays for the Young 3 hrs
• CTAR 329 - Performing Theatre for the Young 3 hrs
• CTAR 497 - Independent Study 1 hr
• CTAR 498 - Independent Study 2 hrs
• CTAR 499 - Independent Study 3 hrs

Capstone Experience

At the conclusion of the program, the students will submit a portfolio of three papers/projects/performances which the student believes are representative of his/her best work produced for the major. By the middle of the student’s final semester, he/she will consult with his/her advisor about the materials to be submitted and the date that they are due. All materials must be submitted at least on month prior to the close of the semester in question. This portfolio will be evaluated by a committee composed of members of the English Department’s Children’s Literature faculty and Drama/Theatre for the Young faculty from the
Department of Communication, Media and Theatre Arts. Portfolios will be maintained by the Children's Literature faculty. Students whose portfolios are found to be deficient will be asked to make up that deficiency and submit new materials.

**Minor Requirements:**

This program requires a minor. Please contact your program advisor for a list of possible minors.

**Program Total:**

Students must earn a minimum total of 124 credits at the 100-level or above.

**Critical Graduation Information:**

Each undergraduate student will be responsible for the fulfillment of the requirements or their equivalents of the Eastern Michigan University catalog in force at the time of their initial registration at a college or university or a subsequent catalog including the one in effect at the time of their graduation.

In the event an undergraduate student does not complete the degree requirements within seven years of the date of their original registration at a college or university, the student may be required to have their credits re-evaluated by the academic department(s) of their major/minor in keeping with catalog requirements in force during the year of their graduation.

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the *100-level and above*. Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Complete a Writing Intensive (WI) Course in your major.
- Earn a minimum of 60 credits from a four-year college or university; *courses taken at community colleges cannot be used to meet this requirement*. (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 *unique* credit hours in their major and 20 *unique* credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
- Earn no more than 60 credit hours in one subject area (prefix). Credits in excess of the 60 maximum will not be counted toward the minimum of 124 credits required for a bachelor's degree.
- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more than one major or minor.
  - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
  - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
  - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor.
Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is conducted by individual departments/schools within EMU, and additional documentation may be required. Please note: EMU awards only credit for transferred courses; grades are not used in the calculation of an EMU GPA.

Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be reached in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

General Education Requirements:

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available in the General Education section of the catalog: General Education

Students who transferred to EMU may have modified general education requirements based on Michigan Transfer Agreement (MTA) or articulation agreements; consult your academic advisor for additional information.

University Information: Consult the online catalog at catalog.emich.edu.

Minor

Sustainability Minor

New Minor, effective Fall 2014

Scholarly discussions of sustainability aim to address three basic questions: sustainability of what, for what, for whom, and why? The Sustainability Minor takes an interdisciplinary approach to answering these questions. Students who participate in the Minor will think critically about different views of sustainability, and will refine their abilities to communicate effectively with regard to sustainability-related issues.

Advisor Information:

Chris Mayda, Ph.D.

Geography and Geology
205 Strong Hall
(734) 487-0218
cmayda@emich.edu

Required Core Courses: 9 Hours

• BIO 107 - Introduction to Environmental Science (GEGA) 3 hrs
  or
• ESSC 107 - Introduction to Environmental Science (GEGA) 3 hrs
• GEOG 150 - Thinking Sustainably (GEKA) 3 hrs
• PHIL 229 - Environmental Ethics (GEKH) 3 hrs

Restricted Elective Courses: 12 Hours

Select a total of 12 hours from at least two of the following groups. All students must earn at least 6 credits at the 300 level or above.

Design & Technology:

• CNST 440 - LEED for New Construction and Major Renovations 3 hrs
• IDE 221 - Environmental Systems for Interior Designers 3 hrs
• IDE 122 - Interior Design Theory II 3 hrs

Society, Planning, Justice:

• ENVI 105 - Introduction to Environment and Society (GEKA) 3 hrs
• GEOG 111 - Regions and Resources 3 hrs
  (Prerequisite: GEOG 110)
• GEOG 320 - Geography of the United States and Canada 3 hrs
  (Prerequisite: GEOG 110)
• GEOG 333 - Unsettled Geographies 3 hrs
  (Prerequisite: GEOG 110 or GEOG 115)
• GEOG 336 - Tourism and Socioeconomic Development 3 hrs
  (Prerequisite: GEOG 112 or GEOG 212)
• GHPR 335 - Historic Preservation 3 hrs
  (Prerequisite: GEOG 115)
• HIST 416 - American Environmental History 3 hrs
  (Prerequisite: HIST 123 or HIST 124 or BIO 107 or ESSC 107)
• PHIL 280 - Philosophy and the Fundamentals of Scientific Reasoning 3 hrs
• PHIL 224 - Ethics and Food (GEKH) 3 hrs
• PHIL 429W - Topics in Environmental Philosophy (GEWI) 3 hrs

Business & Economics:

• ECON 336 - Economics of Environment and Natural Resources 3 hrs
  (Prerequisite: ECON 202)
• LAW 456 - Environmental Law 3 hrs

Sciences:

• BIO 226 - Global Ecology and the Environment 4 hrs
  (Prerequisite: BIO 107/ESSC 107 and (BIO 105 or BIO 110 or BIO 106))
• CHEM 115 - Chemistry and Society (GEKN) 3 hrs
• CHEM 415 - Environmental Chemistry 3 hrs
  (Prerequisite: (CHEM 123 and CHEM 124) or (CHEM 125 and CHEM 126))
• ESSC 105 - Climate Change in Human Times (GEKA) 3 hrs
- ESSC 208 - Natural Environmental Hazards 3 hrs
  (Prerequisite: ESSC 105 or (BIO 107 or ESSC 107) or ESSC 108 or ESSC 114 or ESSC 202)
- ESSC 300 - Introduction to Hydrology 3 hrs
  (Prerequisite: ESSC 110)
- ESSC 212 - Weather, Climate and the Earth System 3 hrs
  (Prerequisite: ESSC 110)

Minor Total: 21 hours

Critical Graduation Information:

Each undergraduate student will be responsible for the fulfillment of the requirements or their equivalents of the Eastern Michigan University catalog in force at the time of their initial registration at a college or university or a subsequent catalog including the one in effect at the time of their graduation.

In the event an undergraduate student does not complete the degree requirements within seven years of the date of their original registration at a college or university, the student may be required to have their credits re-evaluated by the academic department(s) of their major/minor in keeping with catalog requirements in force during the year of their graduation.

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the 100-level and above. Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Complete a Writing Intensive (WI) Course in your major.
- Earn a minimum of 60 credits from a four-year college or university; courses taken at community colleges cannot be used to meet this requirement. (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 unique credit hours in their major and 20 unique credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
- Earn no more than 60 credit hours in one subject area (prefix). Credits in excess of the 60 maximum will not be counted toward the minimum of 124 credits required for a bachelor's degree.
- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more than one major or minor.
  - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
  - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
  - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor.
- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S.
institutions; the internal review of such courses is conducted by individual departments/schools within EMU, and additional documentation may be required. Please note: EMU awards only credit for transferred courses; grades are not used in the calculation of an EMU GPA.

- Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be reached in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

General Education Requirements:

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available in the General Education section of the catalog: General Education

Students who transferred to EMU may have modified general education requirements based on Michigan Transfer Agreement (MTA) or articulation agreements; consult your academic advisor for additional information.

University Information: Consult the online catalog at catalog.emich.edu.

- General Education Transfer Guidelines

General Information

Chris Foreman, Ph.D., Director
cforeman@emich.edu

http://www.emich.edu/gened

General education is the core of an undergraduate education. It is general in that it provides students with a comprehensive educational experience and prepares them for study within their major. General education teaches students to think critically and communicate effectively; it provides an introduction to the methodologies and practices of the academic disciplines; it promotes intellectual curiosity and a love of learning. General education is the heart of an EMU education and a source of institutional pride.

Curriculum Categories

General Education Core Requirements

- Effective Communication (GEEC)
- Quantitative Reasoning (GEQR)
- Knowledge of the Disciplines (GEKA, GEKH, GEKN & GEKS)
General Education Application Requirements

- Perspectives on a Diverse World (GEGA & GEUS)
- Learning Beyond the Classroom (GELB)
- Writing Intensive (GEWI)

Waiver, Placement and Substitutions

- Students may choose to complete ENGL 120 as an elective to prepare for the required ENGL 121 course. Students with an ACT English sub-score of 29 or higher, or an SAT Verbal sub-score of 640 or higher, are waived from this requirement. International students may use ESLN 412 to meet the ENGL 121 requirement Area I, #1.
- Students with a very strong background in oral communication (public speaking and critical listening) may contact the Communication and Theatre Arts department at 124 Quirk, 734.487.3131, for a possible waiver of the required CTAC 124 course. Waivers are granted only on a case-by-case basis.
- Students with an ACT Math sub-score of less than 19, or an SAT Math sub-score of less than 520, are encouraged to take MATH 097/MATH 098 in preparation for MATH 110. However, students may take the Math Placement Test to place into MATH 110. (NOTE: MATH 097 and MATH 098 do NOT count toward the minimum 124 hours required for graduation. Students who complete MATH 097 and/or MATH 098 will be required to complete additional hours over the minimum of 124 hours to graduate.)
- Students with:
  - an ACT Math sub-score of 19-22, or an SAT Math sub-score of 520-570, are eligible to take MATH 110 based on that test score.
  - an ACT Math sub-score of 23-27, an SAT Math sub-score of 580-660, or a CLM score of 53-92 may take MATH 110 or another course designated as a quantitative reasoning (QR) course.
  - an ACT Math sub-score of 28 or higher, an SAT Math sub-score of 670 or higher, or a CLM score of 93 or higher are waived from the MATH 110 requirement.
- Upon a student's initial enrollment at EMU, the University Advising and Career Development Center (200 McKenny Hall, (734) 487-0400) has the authority to exercise professional judgment when accepting transfer courses for the General Education Program. Credits earned through the Advanced Placement (AP), College-Level Examination Program (CLEP), International Baccalaureate (IB), and the military are treated as transfer credit and the scores/credits are evaluated by the following departments:
  - AP - College of Arts and Sciences, Dean's Office, (734) 487-4344
  - CLEP - University Advising and Career Development Center, 200 McKenny Hall, (734) 487-0400
  - IB - Office of Records & Registration, 303 Pierce Hall, (734) 487-4111
  - Military credit - Veterans Services, (734) 487-3119
- After their initial enrollment at EMU, students who wish to receive General Education approval to take, at another institution, courses not accepted as direct (course-to-course) equivalencies to the General Education Program, must receive prior approval from the General Education Director (734) 487-0439.

Waivers and substitutions for courses taken at EMU and not approved for the General Education Program can only be granted by the General Education Director ((734) 487-0439) and cannot be approved for General Education credit by academic departments.

NOTE: Exceptions to this are the courses in Effective Communication and Quantitative Reasoning whose guidelines appear above.

QRChoice Category Information

Students are placed into a Quantitative Reasoning (QR) category based upon their ACT or SAT math scores. Students with an ACT math score greater than or equal to 23 or an SAT math score greater than or equal to 580 are in the "QRChoice" category; they can take any approved QR course (or may be waived from the requirement* if the score is 28+ for ACT or 670+ for SAT). All other students, including those without an ACT or SAT score, must take MATH 110 or MATH 110E (for Elementary Education certification) as the requirement for the General Education Program.
Students who are not eligible for QRChoice may test into this category by using the College Level Math section (CLM) of the mathematics placement test. Testing into QRChoice can only be done under the following conditions:

1. A student must obtain a form designated for this purpose from the University Advising and Career Development Center (UACDC), 200 McKenny. (This is not the same as the pink math placement authorization form.)
2. The score on the CLM must be 53 or higher. No exceptions will be made to this cutoff.
3. A score of 93 or higher will earn the student a QR waiver**.
4. The student cannot take the CLM test more than two times. This includes times that the test is taken for initial placement purposes.
5. A student must wait a minimum of 30 days between a first attempt and a second attempt.
6. The test must be taken within two calendar years from the beginning of the student's first term at EMU with an application decision of "regular admit." This applies also to a second attempt.
7. To take the QRChoice test, a student must have a minimum math score on the ACT of 19 or on the SAT of 520 or have passed the Elementary Algebra placement test with a minimum score of 83.

Students should consider getting the QRChoice Category Request to Test Form if this situation applies to them.

QRChoice Category Request to Test Forms will be returned to the University Advising and Career Development Center (UACDC) through a secure route, and kept on file there. Students who successfully test into QRChoice will have a code entered onto their record by the University Advising and Career Development Center to be used for graduation audit purposes. A study guide can be found here.

* A QR waiver means that the QR requirement for the General Education Program is deemed to have been satisfied. A student may still have to take one of the designated QR courses if his/her program (major, minor or curriculum) requires it or if it is needed as a prerequisite to another course he/she wishes to take.

** General Education Transfer Guidelines **

The Michigan Transfer Agreement (MTA) satisfies EMU’s General Education Core Requirements.

Transfer students with an MTA endorsement on their transcript will only need to complete the General Education Application Requirements:

1. Perspectives on a Diverse World - Demonstrate the application of learning in either global awareness or U.S. Diversity by completing one course, which may be transferred in as a part of the MTA
2. Learning Beyond the Classroom - Demonstrate the application of classroom knowledge and obtain hands on experience in settings outside of the classroom
3. Writing Intensive - Demonstrate the application of written communication skills within the major

* MTA may be completed after initial enrollment at EMU

For transfer students without the MTA endorsement, transfer courses completed before admission to EMU will be applied to General Education Core requirements if they meet the spirit of the requirement. To receive General Education credit for transfer courses completed after the first term of enrollment at EMU with an application decision of "regular admit," the courses must be direct equivalencies (course-to-course) to EMU's General Education Program in order to be applied to General Education requirements. Questions regarding course-to-course equivalencies should be directed to the Director of the General Education Program at (734) 487-0439.

For students who started at a community college prior to Fall 2014, and are currently working on a MACRAO agreement, please click here.
Accounting and Finance Programs and Courses

Accounting and Finance

Major

Accounting Information Systems Major

Accounting Information Systems is a four-year program designed to provide a bachelor's degree with a concentration in accounting and computer information systems. The program combines the course work required for a degree in accounting with several computer information systems courses.

Eastern Michigan University is one of only a few universities in the country offering this unique degree. Accounting information systems majors who obtain this degree are well prepared for careers in a dynamic and ever-changing environment, where knowledge of both accounting and computer information systems is mandatory. Possible career choices include computer systems design, computer assurance services, computer security analysis, internal auditing, public accounting, nonprofit accounting and strategic managerial accounting.

Upon graduation, accounting information systems majors who plan to become certified public accountants, certified management accountants, certified internal auditors or certified information systems auditors can qualify to sit for national certification examinations. In Michigan, CPA candidates can qualify to sit for the exam upon graduation, but they need 150 hours of education for licensure in Michigan. However, many states require CPA candidates to have earned 150 hours of credit, or possibly a master's degree, before sitting for the exam. Be sure you know the requirements for your state.

The general requirements for the bachelor of business administration degree, the academic major requirements below and sufficient electives to meet the minimum of 124 hours for graduation, must be completed.

General Education Requirements:

For specific requirements refer to the General Education Program.

Admission Criteria: 56 Hours

Students seeking admission to any program in the College of Business must complete 56 credit hours of course work to include the courses listed below.

The foundation courses for admission to the College of Business must be completed with a minimum earned grade of C- (C required for transfer courses) in each. Students must also have an EMU GPA of at least 2.50.

College of Business Foundation Courses: 21 Hours

The following seven COB courses are to be completed prior to COB admission, and count toward the total credit hours required for this major.

- ACC 240 - Principles of Financial Accounting 3 hrs
- ACC 241 - Principles of Managerial Accounting 3 hrs
- COB 200L - Introduction to Business (GELB) 3 hrs
- DS 265 - Business Statistics I 3 hrs
- IS 215 - Information Systems for Business 3 hrs
- LAW 293 - Legal Environment of Business 3 hrs
- MGMT 202 - Business Communication 3 hrs

Non-College of Business Foundation Courses: 15 Hours

- CTAC 124 - Foundations of Speech Communication (GEEC) 3 hrs
- ECON 201 - Principles of Macroeconomics (GEKS) 3 hrs
- ECON 202 - Principles of Microeconomics (GEKS) 3 hrs
- ENGL 121 - Composition II: Researching the Public Experience (GEEC) 3 hrs
  or WRTG 121 - Composition II: Researching the Public Experience (GEEC) 3 hrs
- Quantitative Reasoning (GEQR) requirement 3 hrs

Additional Coursework: 20 Hours

In addition to the courses listed above, students must complete an additional 20 credit hours of course work prior to admission to the College of Business.

Major Requirements: 69 hours

Business Core: 36 Hours

College of Business Foundation Courses: 21 Hours
The following COB courses are to be completed prior to admission, and count towards the total credit hours required for this major.

- ACC 240 - Principles of Financial Accounting 3 hrs
- ACC 241 - Principles of Managerial Accounting 3 hrs
- COB 200L - Introduction to Business (GELB) 3 hrs
- DS 265 - Business Statistics I 3 hrs
- IS 215 - Information Systems for Business 3 hrs
- LAW 293 - Legal Environment of Business 3 hrs
- MGMT 202 - Business Communication 3 hrs

Post Admission Core Requirement: 15 Hours

- FIN 350 - Principles of Finance 3 hrs
- MGMT 386 - Organizational Behavior and Theory 3 hrs
- MGMT 490 - Business Policy 3 hrs
- MKTG 360 - Principles of Marketing 3 hrs
- OM 374 - Introduction to Operations Management 3 hrs

Note: All 300-level Core Courses listed above must be completed before enrollment in MGMT 490 - Business Policy. OM 374 can be taken concurrently with MGMT 490.

Discipline: 33 hours

- ACC 296 - The Accounting Cycle and Profession 3 hrs
- ACC 340 - Intermediate Accounting 3 hrs
- ACC 342 - Managerial Cost Accounting 3 hrs
- ACC 344 - Principles of Taxation 3 hrs
- ACC 356 - Accounting Information Systems 3 hrs
- ACC 496W - Financial Management and Controllership (GEWI) 3 hrs
- ACC 548 - Information Systems Audit and Control 3 hrs
- IS 247 - Introduction to Web Application Development 3 hrs
- IS 315 - Object-Oriented Application Development 3 hrs
- IS 320 - Business Data Communications and Information Security 3 hrs

One course from the following:

Choose one course from the following; however permission is needed to take IS 380.

- IS 380 - Introduction to Databases 3 hrs

Minor Requirements:

This program does not require a minor.

Program Total:

Students must earn a minimum total of 124 credits at the 100-level or above.
Critical Graduation Information:

Each undergraduate student will be responsible for the fulfillment of the requirements or their equivalents of the Eastern Michigan University catalog in force at the time of their initial registration at a college or university or a subsequent catalog including the one in effect at the time of their graduation.

In the event an undergraduate student does not complete the degree requirements within seven years of the date of their original registration at a college or university, the student may be required to have their credits re-evaluated by the academic department(s) of their major/minor in keeping with catalog requirements in force during the year of their graduation.

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

• Earn a minimum total of 124 credits at the 100-level and above. Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.

• Meet the requirements of the General Education program (see information below).

• Complete a Writing Intensive (WI) Course in your major.

• Earn a minimum of 60 credits from a four-year college or university; courses taken at community colleges cannot be used to meet this requirement. (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)

• Earn a minimum of 30 credits from courses taken at EMU.

• Complete 10 of the last 30 hours for the degree from courses taken at EMU.

• Have a minimum of 30 unique credit hours in their major and 20 unique credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.

• Earn no more than 60 credit hours in one subject area (prefix). Credits in excess of the 60 maximum will not be counted toward the minimum of 124 credits required for a bachelor's degree.

• Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more than one major or minor.
  o Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
  o Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
  o Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor.

• Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is conducted by individual departments/schools within EMU, and additional documentation may be required. Please note: EMU awards only credit for transferred courses; grades are not used in the calculation of an EMU GPA.

• Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be reached in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

General Education Requirements:
EMU’s General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available in the General Education section of the catalog: General Education

Students who transferred to EMU may have modified general education requirements based on Michigan Transfer Agreement (MTA) or articulation agreements; consult your academic advisor for additional information.

University Information: Consult the online catalog at catalog.emich.edu.

**Accounting Major**

Students majoring in accounting develop competencies necessary for professional careers in:

**Controllership and Financial Management in Industry**, which may lead to careers as Certified Management Accountants (CMA). Managerial accountants perform tasks within a business, such as strategic cost management, performance measurement, budget analysis and internal and operational auditing. The strategic managerial accountant generates and interprets operating and financial data that help management make decisions.

**Internal Auditing**, which may lead to careers as Certified Internal Auditors (CIA). Internal auditors are engaged within large corporations to provide independent objective assurance and consulting activities designed to add value and improve an organization's operations.

**Public and Nonprofit Sector Accounting**, which may lead to careers as Certified Government Financial Managers (CGFM). Government accountants work in federal, state and local governmental entities to provide information and accountability to taxpayers and other resource providers. Accountants in nonprofit organizations provide similar information to donors, grantors and other resource providers.

Through an optional internship program, students with good academic records have an opportunity to work in public accounting or industry. These paid (at market wages) internships provide education, exposure to professionals and opportunities to network.

Upon graduation, accounting majors who plan to become Certified Public Accountants (CPA), Certified Management Accountants (CMA) or Certified Internal Auditors (CIA) can qualify to sit for national certification examinations. In Michigan, CPA candidates can qualify to sit for the exam upon graduation, but they need 150 hours of education for licensure. However, many states require CPA candidates to have earned 150 hours of credit, or possibly a master's degree, before sitting for the exam. Be sure you know the requirements for your state.

The general requirements for the bachelor of business administration degree, the academic major requirements below and sufficient electives to meet the minimum of 124 hours for graduation, must be completed.

Admission Criteria: 56 Hours

Students seeking admission to any program in the College of Business must complete 56 credit hours of course work to include the courses listed below.

The foundation courses for admission to the College of Business must be completed with a minimum earned grade of C- (C required for transfer courses) in each. Students must also have an EMU GPA of at least 2.50.

College of Business Foundation Courses: 21 Hours

The following seven COB courses are to be completed prior to COB admission, and count toward the total credit hours required for this major.

- ACC 240 - Principles of Financial Accounting 3 hrs
- ACC 241 - Principles of Managerial Accounting 3 hrs
- COB 200L - Introduction to Business (GELB) 3 hrs
- DS 265 - Business Statistics I 3 hrs
- IS 215 - Information Systems for Business 3 hrs
- LAW 293 - Legal Environment of Business 3 hrs
- MGMT 202 - Business Communication 3 hrs

Non-College of Business Foundation Courses: 15 Hours

- CTAC 124 - Foundations of Speech Communication (GEEC) 3 hrs
- ECON 201 - Principles of Macroeconomics (GEKS) 3 hrs
- ECON 202 - Principles of Microeconomics (GEKS) 3 hrs
- ENGL 121 - Composition II: Researching the Public Experience (GEEC) 3 hrs
  or WRTG 121 - Composition II: Researching the Public Experience (GEEC) 3 hrs
- Quantitative Reasoning (GEQR) requirement 3 hrs

Additional Coursework: 20 Hours

In addition to the courses listed above, students must complete an additional 20 credit hours of course work prior to admission to the College of Business.
Major Requirements: 60 hours

Business Core: 36 Hours

College of Business Foundation Courses: 21 Hours

The following COB courses are to be completed prior to admission, and count towards the total credit hours required for this major.

- ACC 240 - Principles of Financial Accounting 3 hrs
- ACC 241 - Principles of Managerial Accounting 3 hrs
- COB 200L - Introduction to Business (GELB) 3 hrs
- DS 265 - Business Statistics I 3 hrs
- IS 215 - Information Systems for Business 3 hrs
- LAW 293 - Legal Environment of Business 3 hrs
- MGMT 202 - Business Communication 3 hrs

Post Admission Core Requirement: 15 Hours

- FIN 350 - Principles of Finance 3 hrs
- MGMT 386 - Organizational Behavior and Theory 3 hrs
- MGMT 490 - Business Policy 3 hrs
- MKTG 360 - Principles of Marketing 3 hrs
- OM 374 - Introduction to Operations Management 3 hrs

**Note:** All 300-level Core Courses listed above must be completed before enrollment in MGMT 490 - Business Policy. OM 374 can be taken concurrently with MGMT 490.

Discipline: 24 hours

Required Courses: 18 hours

- ACC 296 - The Accounting Cycle and Profession 3 hrs
- ACC 340 - Intermediate Accounting 3 hrs
- ACC 342 - Managerial Cost Accounting 3 hrs
- ACC 344 - Principles of Taxation 3 hrs
- ACC 356 - Accounting Information Systems 3 hrs
- ACC 496W - Financial Management and Controllership (GEWI) 3 hrs

Restricted Elective Courses: 6 hours

*Two courses from the following:*

- ACC 442 - Advanced Cost Accounting 3 hrs
- ACC 450 - Internal Auditing 3 hrs
- ACC 475 - International Accounting 3 hrs
- ACC 479 - Special Topics 3 hrs
• ACC 491 - Accounting Honors Thesis 3 hrs
• ACC 499 - Directed Studies 3 hrs
• ACC 510 - Contemporary Accounting Information Systems 3 hrs
• ACC 511 - Accounting for E-Commerce 3 hrs
• ACC 540 - Corporate Financial Reporting 3 hrs
• ACC 541 - Advanced Financial Accounting 3 hrs
• ACC 546 - Public and Nonprofit Sector Accounting 3 hrs
• ACC 548 - Information Systems Audit and Control 3 hrs
• ACC 560 - Fraud Examination 3 hrs
• ACC 584 - Tax Research Methods, Practice and Problems 3 hrs
• ACC 585 - Business Tax Planning 3 hrs

Minor Requirements:

This program does not require a minor.

Program Total:

Students must earn a minimum total of 124 credits at the 100-level or above.

Note:

* Students who intend to sit for the CPA examination in Michigan must elect ACC 546 - Public and Nonprofit Sector Accounting and should consider the MSA graduate program as ACC 540, ACC 546 and ACC 567 should be taken at a minimum, in order to sit for the CPA exam.

Critical Graduation Information:

Each undergraduate student will be responsible for the fulfillment of the requirements or their equivalents of the Eastern Michigan University catalog in force at the time of their initial registration at a college or university or a subsequent catalog including the one in effect at the time of their graduation.

In the event an undergraduate student does not complete the degree requirements within seven years of the date of their original registration at a college or university, the student may be required to have their credits re-evaluated by the academic department(s) of their major/minor in keeping with catalog requirements in force during the year of their graduation.

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

• Earn a minimum total of 124 credits at the 100-level and above. Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.
• Meet the requirements of the General Education program (see information below).
• Complete a Writing Intensive (WI) Course in your major.
• Earn a minimum of 60 credits from a four-year college or university; courses taken at community colleges cannot be used to meet this requirement. (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
• Earn a minimum of 30 credits from courses taken at EMU.
• Complete 10 of the last 30 hours for the degree from courses taken at EMU.
• Have a minimum of 30 unique credit hours in their major and 20 unique credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
• Earn no more than 60 credit hours in one subject area (prefix). Credits in excess of the 60 maximum will not be counted toward the minimum of 124 credits required for a bachelor's degree.
• Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more that one major or minor.
  o Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
  o Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
  o Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor.
• Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is conducted by individual departments/schools within EMU, and additional documentation may be required. *Please note:* EMU awards only credit for transferred courses; grades are not used in the calculation of an EMU GPA.
• Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be reached in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

**General Education Requirements:**

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available in the General Education section of the catalog: General Education

Students who transferred to EMU may have modified general education requirements based on Michigan Transfer Agreement (MTA) or articulation agreements; consult your academic advisor for additional information.

**University Information:** Consult the online catalog at catalog.emich.edu.

**Bachelor's-Master's Degree in Accounting**

This combined degree program prepares students for careers in public accounting, industry and governmental and nonprofit entities. CPA candidates must have completed 150 hours of education before being admitted as members of the American Institute of Certified Public Accountants and to be licensed in most states.

**Admission Requirements**

Following are the minimal standards for admission to the combined B.B.A and M.S.A. degree program in accounting. Generally, each item should be satisfied, though the candidate's overall record is considered. Transfer credits and grades will be evaluated in terms of Eastern Michigan University equivalency.

**Undergraduate admission is dependent on:**
1. completion of 90 hours of undergraduate course work including College of Business admission criteria, General Education requirements and ACC 340 - Intermediate Accounting;
2. a cumulative GPA of 3.0 on a 4.0 scale;
3. the candidate's written statement of personal goals; and
4. an interview with the program advisor.

Admission to the graduate level requires:

1. completion of 120 hours of undergraduate course work including course content noted under initial admission above and the undergraduate components (i.e., required and restricted electives);
2. a GMAT score of 500 or higher or GRE score of 306 or higher (must be taken during the fourth year, so that the candidate's score is received before admission to the fifth year);
3. a cumulative G.P.A. of 3.0 on a 4.0 scale; and
4. completed application and payment of fee to the Graduate School.

Candidates should apply to the graduate program at the beginning of their senior year and take the Graduate Management Admission Test (GMAT) during that same year.

General Education Requirements:

For specific requirements refer to the General Education Program.

Admission Criteria: 56 Hours

Students seeking admission to any program in the College of Business must complete 56 credit hours of course work to include the courses listed below.

The foundation courses for admission to the College of Business must be completed with a minimum earned grade of C- (C required for transfer courses) in each. Students must also have an EMU GPA of at least 2.50.

College of Business Foundation Courses: 21 Hours

The following seven COB courses are to be completed prior to COB admission, and count toward the total credit hours required for this major.

- ACC 240 - Principles of Financial Accounting 3 hrs
- ACC 241 - Principles of Managerial Accounting 3 hrs
- COB 200L - Introduction to Business (GELB) 3 hrs
- DS 265 - Business Statistics I 3 hrs
- IS 215 - Information Systems for Business 3 hrs
- LAW 293 - Legal Environment of Business 3 hrs
- MGMT 202 - Business Communication 3 hrs

Non-College of Business Foundation Courses: 15 Hours

- CTAC 124 - Foundations of Speech Communication (GEEC) 3 hrs
- ECON 201 - Principles of Macroeconomics (GEKS) 3 hrs
- ECON 202 - Principles of Microeconomics (GEKS) 3 hrs
- ENGL 121 - Composition II: Researching the Public Experience (GEEC) 3 hrs or WRTG 121 - Composition II: Researching the Public Experience (GEEC) 3 hrs
- Quantitative Reasoning (GEQR) requirement 3 hrs
Additional Coursework: 20 Hours

In addition to the courses listed above, students must complete an additional 20 credit hours of course work prior to admission to the College of Business.

Undergraduate Program Requirements: 60 hours

Business Core: 36 Hours

College of Business Foundation Courses: 21 Hours

The following COB courses are to be completed prior to admission, and count towards the total credit hours required for this major.

- ACC 240 - Principles of Financial Accounting 3 hrs
- ACC 241 - Principles of Managerial Accounting 3 hrs
- COB 200L - Introduction to Business (GELB) 3 hrs
- DS 265 - Business Statistics I 3 hrs
- IS 215 - Information Systems for Business 3 hrs
- LAW 293 - Legal Environment of Business 3 hrs
- MGMT 202 - Business Communication 3 hrs

Post Admission Core Requirement: 15 Hours

- FIN 350 - Principles of Finance 3 hrs
- MGMT 386 - Organizational Behavior and Theory 3 hrs
- MGMT 490 - Business Policy 3 hrs
- MKTG 360 - Principles of Marketing 3 hrs
- OM 374 - Introduction to Operations Management 3 hrs

**Note:** All 300-level Core Courses listed above must be completed before enrollment in MGMT 490 - Business Policy. OM 374 can be taken concurrently with MGMT 490.

Accounting Core Courses: 21 hours

- ACC 296 - The Accounting Cycle and Profession 3 hrs
- ACC 340 - Intermediate Accounting 3 hrs
- ACC 342 - Managerial Cost Accounting 3 hrs
- ACC 356 - Accounting Information Systems 3 hrs
- ACC 496W - Financial Management and Controllership (GEWI) 3 hrs
- ACC 540 - Corporate Financial Reporting 3 hrs

One course from the following:

- ACC 344 - Principles of Taxation 3 hrs
- ACC 544 - Federal Income Taxation 3 hrs
Restricted Elective Course: 3 hours

Select one course from the following. If ACC 344 is selected for the accounting core course requirement, restricted elective course must be from the 500-level:

- ACC 442 - Advanced Cost Accounting 3 hrs
- ACC 450 - Internal Auditing 3 hrs
- ACC 460 - Principles of Fraud Examination 3 hrs
- ACC 475 - International Accounting 3 hrs
- ACC 479 - Special Topics 3 hrs
- ACC 491 - Accounting Honors Thesis 3 hrs
- ACC 499 - Directed Studies 3 hrs
- ACC 510 - Contemporary Accounting Information Systems 3 hrs
- ACC 511 - Accounting for E-Commerce 3 hrs
- ACC 541 - Advanced Financial Accounting 3 hrs
- ACC 546 - Public and Nonprofit Sector Accounting 3 hrs
- ACC 548 - Information Systems Audit and Control 3 hrs
- ACC 550 - Professional Internal Auditing 3 hrs
- ACC 560 - Fraud Examination 3 hrs
- ACC 572 - Investment and Tax Financial Planning 3 hrs
- ACC 584 - Tax Research Methods, Practice and Problems 3 hrs
- ACC 585 - Business Tax Planning 3 hrs
- ACC 592 - Special Topics 3 hrs

Program Total:

Students must earn a minimum total of 124 credits at the 100-level or above.

Graduate Program Requirements: 24 hours

Required Accounting Courses: 6 hours

- ACC 567 - Professional Auditing
- ACC 696 - Accounting Theory, Research and Policy

Restricted Elective Accounting Courses: 12 hours

Twelve credit hours from the following:

- ACC 510 - Contemporary Accounting Information Systems 3 hrs
- ACC 511 - Accounting for E-Commerce 3 hrs
- ACC 541 - Advanced Financial Accounting 3 hrs
- ACC 546 - Public and Nonprofit Sector Accounting 3 hrs
- ACC 548 - Information Systems Audit and Control 3 hrs
- ACC 550 - Professional Internal Auditing 3 hrs
- ACC 560 - Fraud Examination 3 hrs
- ACC 572 - Investment and Tax Financial Planning 3 hrs
• ACC 584 - Tax Research Methods, Practice and Problems 3 hrs
• ACC 585 - Business Tax Planning 3 hrs
• ACC 592 - Special Topics 3 hrs
• ACC 642 - Strategic Cost Management 3 hrs
• ACC 675 - International Accounting and Taxation 3 hrs
• ACC 681 - Special Topics 3 hrs
• ACC 684 - Electronic Tax Preparation 3 hrs
• ACC 686 - Advanced Taxation of Corporations and Partnerships 3 hrs
• ACC 687 - Tax Compliance, Research and Policy 3 hrs
• ACC 699 - Independent Study 3 hrs

Restricted Elective Courses: 6 hours

Select six credit hours from any combination of 500- to 600-level ACC, COB, DS, FIN, IB, IS, OM, MGMT, MKTG, LAW or SCM courses

Notes:

Students must have a 3.0 GPA and a 500 GMAT to be admitted to the graduate portion of the program.

Students must be admitted to the graduate portion of the program before registering for courses in the graduate section of this program of study.

* Students planning on taking the CPA exam must take ACC 546.

Critical Graduation Information:

Each undergraduate student will be responsible for the fulfillment of the requirements or their equivalents of the Eastern Michigan University catalog in force at the time of their initial registration at a college or university or a subsequent catalog including the one in effect at the time of their graduation.

In the event an undergraduate student does not complete the degree requirements within seven years of the date of their original registration at a college or university, the student may be required to have their credits re-evaluated by the academic department(s) of their major/minor in keeping with catalog requirements in force during the year of their graduation.

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

• Earn a minimum total of 124 credits at the 100-level and above. Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.
• Meet the requirements of the General Education program (see information below).
• Complete a Writing Intensive (WI) Course in your major.
• Earn a minimum of 60 credits from a four-year college or university; courses taken at community colleges cannot be used to meet this requirement. (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
• Earn a minimum of 30 credits from courses taken at EMU.
• Complete 10 of the last 30 hours for the degree from courses taken at EMU.
• Have a minimum of 30 \textit{unique} credit hours in their major and 20 \textit{unique} credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.

• Earn no more than 60 credit hours in one subject area (prefix). Credits in excess of the 60 maximum will not be counted toward the minimum of 124 credits required for a bachelor's degree.

• Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more that one major or minor.
  - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
  - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
  - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor

• Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is conducted by individual departments/schools within EMU, and additional documentation may be required. \textit{Please note:} EMU awards only credit for transferred courses; grades are not used in the calculation of an EMU GPA.

• Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be reached in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

General Education Requirements:

EMU’s General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available in the General Education section of the catalog: General Education

Students who transferred to EMU may have modified general education requirements based on Michigan Transfer Agreement (MTA) or articulation agreements; consult your academic advisor for additional information.

University Information: Consult the online catalog at catalog.emich.edu.

Bachelor's-Master's Degree in Accounting Information Systems

This combined degree program prepares students for careers in public accounting, industry and governmental and nonprofit entities. CPA candidates must have completed 150 hours of education before being admitted as members of the American Institute of Certified Public Accountants and to be licensed in most states.

Admission Requirements:

Following are the minimal standards for admission to the combined B.B.A and M.S.A. degree program in accounting. Generally, each item should be satisfied, though the candidate's overall record is considered. Transfer credits and grades will be evaluated in terms of Eastern Michigan University equivalency.

Undergraduate admission is dependent on:

1. completion of 90 hours of undergraduate course work including College of Business Admission Criteria, General Education requirements and ACC 340 - Intermediate Accounting;
2. a cumulative GPA of 3.0 on a 4.0 scale;
3. the candidate's written statement of personal goals; and
4. an interview with the program advisor.

Admission to the graduate level requires:

1. completion of 120 hours of undergraduate course work including course content noted under initial admission above and the undergraduate components (i.e., required and restricted electives);
2. a GMAT score of 500 or higher or GRE score of 306 or higher (must be taken during the fourth year, so that the candidate's score is received before admission to the fifth year)
3. a cumulative G.P.A. of 3.0 on a 4.0 scale; and
4. completed application and payment of fee to the Graduate School.

Candidates should apply to the graduate program at the beginning of their senior year and take the Graduate Management Admission Test (GMAT) during that same year.

General Education Requirements:

For specific requirements refer to the General Education Program.

Admission Criteria: 56 Hours

Students seeking admission to any program in the College of Business must complete 56 credit hours of course work to include the courses listed below.

The foundation courses for admission to the College of Business must be completed with a minimum earned grade of C- (C required for transfer courses) in each. Students must also have an EMU GPA of at least 2.50.

College of Business Foundation Courses: 21 Hours

The following seven COB courses are to be completed prior to COB admission, and count toward the total credit hours required for this major.

- ACC 240 - Principles of Financial Accounting 3 hrs
- ACC 241 - Principles of Managerial Accounting 3 hrs
- COB 200L - Introduction to Business (GELB) 3 hrs
- DS 265 - Business Statistics I 3 hrs
- IS 215 - Information Systems for Business 3 hrs
- LAW 293 - Legal Environment of Business 3 hrs
- MGMT 202 - Business Communication 3 hrs

Non-College of Business Foundation Courses: 15 Hours

- CTAC 124 - Foundations of Speech Communication (GEEC) 3 hrs
- ECON 201 - Principles of Macroeconomics (GEKS) 3 hrs
- ECON 202 - Principles of Microeconomics (GEKS) 3 hrs
- ENGL 121 - Composition II: Researching the Public Experience (GEEC) 3 hrs or WRTG 121 - Composition II: Researching the Public Experience (GEEC) 3 hrs
- Quantitative Reasoning (GEQR) requirement 3 hrs

Additional Coursework: 20 Hours

In addition to the courses listed above, students must complete an additional 20 credit hours of course work prior to admission to the College of Business.

Undergraduate Requirements: 69 hours
Business Core: 36 Hours

College of Business Foundation Courses: 21 Hours

The following COB courses are to be completed prior to admission, and count towards the total credit hours required for this major.

- ACC 240 - Principles of Financial Accounting 3 hrs
- ACC 241 - Principles of Managerial Accounting 3 hrs
- COB 200L - Introduction to Business (GELB) 3 hrs
- DS 265 - Business Statistics I 3 hrs
- IS 215 - Information Systems for Business 3 hrs
- LAW 293 - Legal Environment of Business 3 hrs
- MGMT 202 - Business Communication 3 hrs

Post Admission Core Requirement: 15 Hours

- FIN 350 - Principles of Finance 3 hrs
- MGMT 386 - Organizational Behavior and Theory 3 hrs
- MGMT 490 - Business Policy 3 hrs
- MKTG 360 - Principles of Marketing 3 hrs
- OM 374 - Introduction to Operations Management 3 hrs

Note: All 300-level Core Courses listed above must be completed before enrollment in MGMT 490 - Business Policy. OM 374 can be taken concurrently with MGMT 490.

Accounting Information Systems Core Courses: 30 hours

- ACC 296 - The Accounting Cycle and Profession 3 hrs
- ACC 340 - Intermediate Accounting 3 hrs
- ACC 342 - Managerial Cost Accounting 3 hrs
- ACC 356 - Accounting Information Systems 3 hrs
- ACC 496W - Financial Management and Controllership (GEWI) 3 hrs
- ACC 548 - Information Systems Audit and Control 3 hrs
- IS 247 - Introduction to Web Application Development 3 hrs
- IS 315 - Object-Oriented Application Development 3 hrs
- IS 320 - Business Data Communications and Information Security 3 hrs

One course from the following:

- ACC 344 - Principles of Taxation 3 hrs
- ACC 544 - Federal Income Taxation 3 hrs

Restricted Electives: 3 hours

- ACC 442 - Advanced Cost Accounting 3 hrs
- ACC 450 - Internal Auditing 3 hrs
• ACC 460 - Principles of Fraud Examination 3 hrs
• ACC 475 - International Accounting 3 hrs
• ACC 491 - Accounting Honors Thesis 3 hrs
• ACC 499 - Directed Studies 3 hrs
• ACC 546 - Public and Nonprofit Sector Accounting 3 hrs
• ACC 550 - Professional Internal Auditing 3 hrs
• ACC 560 - Fraud Examination 3 hrs
• ACC 572 - Investment and Tax Financial Planning 3 hrs
• ACC 584 - Tax Research Methods, Practice and Problems 3 hrs
• ACC 585 - Business Tax Planning 3 hrs
• ACC 592 - Special Topics 3 hrs

Program Total:

Students must earn a minimum total of 124 credits at the 100-level or above.

Graduate Program Requirements: 24 hours

Required Accounting Courses: 9 hours

• ACC 540 - Corporate Financial Reporting
• ACC 567 - Professional Auditing
• ACC 696 - Accounting Theory, Research and Policy

Restricted Elective Accounting Courses: 9 hours

• ACC 510 - Contemporary Accounting Information Systems
• ACC 511 - Accounting for E-Commerce

One course from the following:

• ACC 541 - Advanced Financial Accounting 3 hrs
• ACC 546 - Public and Nonprofit Sector Accounting 3 hrs
• ACC 550 - Professional Internal Auditing 3 hrs
• ACC 560 - Fraud Examination 3 hrs
• ACC 572 - Investment and Tax Financial Planning 3 hrs
• ACC 584 - Tax Research Methods, Practice and Problems 3 hrs
• ACC 585 - Business Tax Planning 3 hrs
• ACC 592 - Special Topics 3 hrs
• ACC 642 - Strategic Cost Management 3 hrs
• ACC 675 - International Accounting and Taxation 3 hrs
• ACC 681 - Special Topics 3 hrs
• ACC 684 - Electronic Tax Preparation 3 hrs
• ACC 686 - Advanced Taxation of Corporations and Partnerships 3 hrs
• ACC 687 - Tax Compliance, Research and Policy 3 hrs
• ACC 699 - Independent Study 3 hrs
Restricted Electives: 6 hours

Select six credit hours from any combination of 500- to 600-level ACC, COB, DS, FIN, IB, IS, OM, MGMT, MKTG, LAW or SCM courses

Notes:

Students must have a 3.0 GPA and a 500 GMAT to be admitted to the graduate portion of the program.

* Students must be admitted to the graduate portion of the program before registering for courses in the graduate section of this program of study. For ACC 540, an exception requiring department approval may be requested.

** Students planning on taking the CPA exam in Michigan must take ACC 546.

Critical Graduation Information:

Each undergraduate student will be responsible for the fulfillment of the requirements or their equivalents of the Eastern Michigan University catalog in force at the time of their initial registration at a college or university or a subsequent catalog including the one in effect at the time of their graduation.

In the event an undergraduate student does not complete the degree requirements within seven years of the date of their original registration at a college or university, the student may be required to have their credits re-evaluated by the academic department(s) of their major/minor in keeping with catalog requirements in force during the year of their graduation.

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the 100-level and above. Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Complete a Writing Intensive (WI) Course in your major.
- Earn a minimum of 60 credits from a four-year college or university; courses taken at community colleges cannot be used to meet this requirement. (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 unique credit hours in their major and 20 unique credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
- Earn no more than 60 credit hours in one subject area (prefix). Credits in excess of the 60 maximum will not be counted toward the minimum of 124 credits required for a bachelor's degree.
- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more than one major or minor.
  - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
  - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor.

- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is conducted by individual departments/schools within EMU, and additional documentation may be required. Please note: EMU awards only credit for transferred courses; grades are not used in the calculation of an EMU GPA.

- Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be reached in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

General Education Requirements:

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available in the General Education section of the catalog: General Education

Students who transferred to EMU may have modified general education requirements based on Michigan Transfer Agreement (MTA) or articulation agreements; consult your academic advisor for additional information.

University Information: Consult the online catalog at catalog.emich.edu.

Finance Major

Finance majors acquire the knowledge and skills to analyze financial data and use financial concepts to value financial and real assets, and to help individuals and companies make decisions about allocating scarce resources. Students can develop their expertise in a variety of areas including corporate finance, banking, investments and international finance.

The general requirements for the bachelor of business administration degree, the academic major requirements below, and sufficient electives to meet the minimum of 124 hours must be completed for graduation.

College of Business Academic Services

Undergraduate Academic Advising
General Education Requirements:

For specific requirements refer to the General Education Program.

Admission Criteria: 56 Hours

Students seeking admission to any program in the College of Business must complete 56 credit hours of course work to include the courses listed below.

The foundation courses for admission to the College of Business must be completed with a minimum earned grade of C- (C required for transfer courses) in each. Students must also have an EMU GPA of at least 2.50.

College of Business Foundation Courses: 21 Hours

The following seven COB courses are to be completed prior to COB admission, and count toward the total credit hours required for this major.

- ACC 240 - Principles of Financial Accounting 3 hrs
- ACC 241 - Principles of Managerial Accounting 3 hrs
- COB 200L - Introduction to Business (GELB) 3 hrs
- DS 265 - Business Statistics I 3 hrs
- IS 215 - Information Systems for Business 3 hrs
- LAW 293 - Legal Environment of Business 3 hrs
- MGMT 202 - Business Communication 3 hrs

Non-College of Business Foundation Courses: 15 Hours

- CTAC 124 - Foundations of Speech Communication (GEEC) 3 hrs
- ECON 201 - Principles of Macroeconomics (GEKS) 3 hrs
- ECON 202 - Principles of Microeconomics (GEKS) 3 hrs
- ENGL 121 - Composition II: Researching the Public Experience (GEEC) 3 hrs
  or WRTG 121 - Composition II: Researching the Public Experience (GEEC) 3 hrs
- Quantitative Reasoning (GEQR) requirement 3 hrs

Additional Coursework: 20 Hours

In addition to the courses listed above, students must complete an additional 20 credit hours of course work prior to admission to the College of Business.

Major Requirements: 60 hours
Business Core: 36 Hours

College of Business Foundation Courses: 21 Hours

The following COB courses are to be completed prior to admission, and count towards the total credit hours required for this major.

- ACC 240 - Principles of Financial Accounting 3 hrs
- ACC 241 - Principles of Managerial Accounting 3 hrs
- COB 200L - Introduction to Business (GELB) 3 hrs
- DS 265 - Business Statistics I 3 hrs
- IS 215 - Information Systems for Business 3 hrs
- LAW 293 - Legal Environment of Business 3 hrs
- MGMT 202 - Business Communication 3 hrs

Post Admission Core Requirement: 15 Hours

- FIN 350 - Principles of Finance 3 hrs
- MGMT 386 - Organizational Behavior and Theory 3 hrs
- MGMT 490 - Business Policy 3 hrs
- MKTG 360 - Principles of Marketing 3 hrs
- OM 374 - Introduction to Operations Management 3 hrs
  
  **Note:** All 300-level Core Courses listed above must be completed before enrollment in MGMT 490 - Business Policy. OM 374 can be taken concurrently with MGMT 490.

Discipline: 24 hours

Required Courses: 12 hours

- FIN 354 - Investments 3 hrs
- FIN 357 - Financial Markets and Institutions 3 hrs
- FIN 359 - Intermediate Financial Theory 3 hrs
- FIN 450W - Problems in Financial Management (GEWI) 3 hrs

Restricted Elective Courses: 12 hours

Twelve hours from the following:

- ACC 358 - Analysis of Financial Statements 3 hrs
- ECON 445W - Economic Fluctuations and Forecasting (GEWI) 3 hrs
- FIN 352 - Financial Management for Entrepreneurs 3 hrs
- FIN 370 - International Business Finance 3 hrs
- FIN 451 - Introduction to Speculative Markets 3 hrs
- FIN 453 - Commercial Banking 3 hrs
- FIN 454 - Mortgage Banking 3 hrs
- FIN 479 - Special Topics 3 hrs
Minor Requirements:

This program does not require a minor.

Program Total:

Students must earn a minimum total of 124 credits at the 100-level or above.

Critical Graduation Information:

Each undergraduate student will be responsible for the fulfillment of the requirements or their equivalents of the Eastern Michigan University catalog in force at the time of their initial registration at a college or university or a subsequent catalog including the one in effect at the time of their graduation.

In the event an undergraduate student does not complete the degree requirements within seven years of the date of their original registration at a college or university, the student may be required to have their credits re-evaluated by the academic department(s) of their major/minor in keeping with catalog requirements in force during the year of their graduation.

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the 100-level and above. Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Complete a Writing Intensive (WI) Course in your major.
- Earn a minimum of 60 credits from a four-year college or university; courses taken at community colleges cannot be used to meet this requirement. (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 unique credit hours in their major and 20 unique credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
- Earn no more than 60 credit hours in one subject area (prefix). Credits in excess of the 60 maximum will not be counted toward the minimum of 124 credits required for a bachelor's degree.
- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more than one major or minor.
  - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor.
  - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
  - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor.
- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is conducted by individual departments/schools within EMU, and
additional documentation may be required. Please note: EMU awards only credit for transferred courses; grades are not used in the calculation of an EMU GPA.

- Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be reached in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

General Education Requirements:

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available in the General Education section of the catalog: General Education

Students who transferred to EMU may have modified general education requirements based on Michigan Transfer Agreement (MTA) or articulation agreements; consult your academic advisor for additional information.

Accounting
ACC 130 - Accounting for Nonbusiness Majors

Introduction to financial information generated by typical business organizations, with special emphasis on the use and interpretation of this information in managerial and financial decision-making processes.

Credit Hours: 3 hrs
Notes: May not be substituted for ACC240. Not open to students with credit for ACC240 or ACC241.
Terms Offered: Course Rotation Schedules
Previously Listed As: ACC 230
Last Updated: Links 06/2012; 2/17/2011

ACC 177 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr
Prerequisite: department permission
Terms Offered: Course Rotation Schedules
Last Updated: Links 06/2012

ACC 178 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs
Prerequisite: department permission
Terms Offered: Course Rotation Schedules
Last Updated: Links 06/2012

ACC 179 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs
Prerequisite: department permission
Terms Offered: Course Rotation Schedules
Last Updated: Links 06/2012

ACC 240 - Principles of Financial Accounting

Use and development of financial information about economic organizations, with special emphasis on the use of financial statements and their creation in the business decision-making and reporting process.

Credit Hours: 3 hrs
Prerequisite: (Level 3 Math Placement) or (an Elementary Algebra placement test score of at least 83 points) or (a grade of C or better in MATH 098 or MATH 098B) or one of the following: MATH 104, MATH 105, MATH 107, MATH 110, MATH 112, MATH 119, MATH 120, or MATH 170
ACC 241 - Principles of Managerial Accounting

Use and development of accounting information in managerial settings to achieve managerial goals. Use of managerial accounting tools such as budgets and cost analysis in typical business environments.

Credit Hours: 3 hrs
Prerequisite: (Level 3 Math Placement) or (an Elementary Algebra placement test score of at least 83 points) or (a grade of C or better in MATH 098 or MATH 098B) or one of the following: MATH 104, MATH 105, MATH 107, MATH 110, MATH 112, MATH 119, MATH 120, or MATH 170
Terms Offered: Course Rotation Schedules
Last Updated: Links 06/2012; Prerequisite Change 03/2012, effective Fall 2012

ACC 244 - Personal Tax Accounting

Introduction to federal and state income and social security tax problems of individuals. Practice on preparation of individual tax returns.

Credit Hours: 2 hrs
Notes: Credit toward a degree will not be permitted for both ACC244 and ACC344. (Business education majors may substitute this course for ACC344 with permission of their department head.)
Terms Offered: Course Rotation Schedules
Last Updated: Links 06/2012

ACC 246 - Accounting for Public Administrators

Surveys the use of accounting to manage a public organization. Basic accounting principles, program budgeting and the construction of internal control systems.

Credit Hours: 3 hrs
Terms Offered: Course Rotation Schedules
Last Updated: Links 06/2012

ACC 277 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr
Prerequisite: department permission
Terms Offered: Course Rotation Schedules
Last Updated: Links 06/2012

ACC 278 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs
ACC 279 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs
Prerequisite: department permission
Terms Offered: Course Rotation Schedules
Last Updated: Links 06/2012

ACC 286 - Cooperative Education in Accounting

Accounting employment at a business or public organization imparting a practical experience in accounting. Position may be part-time, volunteer, or less than full-semester in duration.

Credit Hours: 1 hr
Prerequisite: department permission; admittance by application only
Major Restrictions: Cannot be used on an Accounting Major or Minor
Terms Offered: Course Rotation Schedules
Last Updated: Links 06/2012

ACC 287 - Cooperative Education in Accounting

One term of full-time or two terms of part-time employment at a business or public organization chosen for imparting practical experience in accounting.

Credit Hours: 3 hrs
Prerequisite: department permission; admittance by application only
Major Restrictions: Cannot be used on an Accounting Major or Minor
Terms Offered: Course Rotation Schedules
Last Updated: Links 06/2012

ACC 296 - The Accounting Cycle and Profession

This course covers the accounting cycle process in manual and computerized environments. The course also explores various accounting occupations and other fundamental concepts, such as the time value of money.

Credit Hours: 3 hrs
Prerequisite: ACC 240
Terms Offered: Course Rotation Schedules
Last Updated: Links 06/2012; 2/17/2011

ACC 340 - Intermediate Accounting

Examination of generally accepted accounting principles related to financial reporting of the assets, liabilities, equity and operating statement accounts of an organization. Concepts and theories that guide the recording, valuation and classification of transactions in an organization. Preparation and analysis of the balance sheet, income statement and statement of cash flows for
ACC 342 - Managerial Cost Accounting

Accounting information for use in planning objectives and controlling operations. A framework for measuring managerial performance is developed through an analytic treatment of cost behavior under dynamic conditions by employing such devices as cost-volume-profit relationships, flexible budgeting and standards.

Credit Hours: 3 hrs
Prerequisite: ACC 296, or department permission
Terms Offered: Course Rotation Schedules
Last Updated: Links 06/2012; 2/17/2011

ACC 344 - Principles of Taxation

This course is an introductory level study of taxation of individuals, corporations and some other entities. It develops a basic knowledge of tax rules useful and necessary in business management. The course also provides a foundation for the study of tax planning, research and compliance.

Credit Hours: 3 hrs
Prerequisite: (ACC 240 and ACC 241) or ACC 501
Terms Offered: Course Rotation Schedules
Last Updated: Links 06/2012; 2/17/2011

ACC 356 - Accounting Information Systems

Concepts of a responsive information system, including principles of design, profitability and responsibility, accounting and control. Description of typical accounting systems and procedures within the business enterprise.

Credit Hours: 3 hrs
Prerequisite: (ACC 240 and ACC 241) or ACC 501 or department permission
Terms Offered: Course Rotation Schedules
Last Updated: Links 06/2012; 2/17/2011

ACC 358 - Analysis of Financial Statements

Analysis and interpretation of the financial statements and reports of various types of businesses and industries. Examination of the impact of using alternative accounting methods on reported profits, taxes and cash flows. Forecast of financial statements for planning purposes.

Credit Hours: 3 hrs
Prerequisite: FIN 350
Terms Offered: Course Rotation Schedules
Previously Listed As: FIN 358
Last Updated: Links 06/2012; 2/17/2011
ACC 377 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr
Prerequisite: department permission
Terms Offered: Course Rotation Schedules
Last Updated: Links 06/2012

ACC 378 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs
Prerequisite: department permission
Terms Offered: Course Rotation Schedules
Last Updated: Links 06/2012

ACC 379 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs
Prerequisite: department permission
Terms Offered: Course Rotation Schedules
Last Updated: Links 06/2012

ACC 442 - Advanced Cost Accounting

Cost concepts on an advanced level such as standard costs-and-variance analysis; responsibility accounting, direct costing, overhead allocation, break-even; product pricing through return-on-investment methods; divisional income measurement; forecasting with statistical models; capital budgeting; and applications of mathematics to cost accounting problems.

Credit Hours: 3 hrs
Prerequisite: ACC 342
Terms Offered: Course Rotation Schedules
Last Updated: Links 06/2012; 2/17/2011

ACC 450 - Internal Auditing

Introduction to the profession of internal auditing. Includes professional standards, techniques, scientific methods, reporting, operational auditing and internal audit management.

Credit Hours: 3 hrs
Prerequisite: (ACC 240 and ACC 241) or ACC 501
Terms Offered: Course Rotation Schedules
Last Updated: Links 06/2012; 2/17/2011
ACC 456 - Accounting Information Systems Implementation and Projects

A capstone course for the accounting information systems major designed to develop expertise in the implementation of an accounting information system.

Credit Hours: 3 hrs
Prerequisite: (ACC 356 and IS 380) or department permission
Terms Offered: Course Rotation Schedules
Last Updated: Links 06/2012; 2/17/2011

ACC 460 - Principles of Fraud Examination

This course examines the principles of fraud examination and deterrence, including the fraud triangle and characteristics of fraud perpetrators and organizations that are more likely to have frauds perpetrated against them. Students will be prepared for certain sections of the Certified Fraud Examiners (CFE) and Certified Internal Auditor (CIA) and CPA professional exams.

Credit Hours: 3 hrs
Prerequisite: (ACC 240 and ACC 241) or department permission
Notes: Not open for students with credit in ACC 560 Fraud Examination.
Terms Offered: Course Rotation Schedules
Last Updated: Links 06/2012; 2/17/2011

ACC 475 - International Accounting

Introduction to accounting in an international environment. Includes the study of environmental factors, performance evaluation, financial reporting and specific accounting and auditing problems.

Credit Hours: 3 hrs
Prerequisite: ACC 340 or instructor permission
Terms Offered: Course Rotation Schedules
Last Updated: Links 06/2012; Prerequisite Change 04/2011, effective Spring 2011

ACC 477 - Special Topics

Specialized accounting topics in relation to changes in the practice of accounting and its regulation by government agencies.

Credit Hours: 1 hr
Prerequisite: ACC 340/ACC 356 and department permission
Terms Offered: Course Rotation Schedules
Last Updated: Links 06/2012; 2/17/2011

ACC 478 - Special Topics

Specialized accounting topics in relation to changes in the practice of accounting and its regulation by government agencies.

Credit Hours: 2 hrs
Prerequisite: ACC 340/ACC 356 and department permission
Terms Offered: Course Rotation Schedules
Last Updated: Links 06/2012; 2/17/2011

ACC 479 - Special Topics
Specialized accounting topics in relation to changes in the practice of accounting and its regulation by government agencies.

**Credit Hours:** 3 hrs  
**Prerequisite:** ACC 340/ACC 356 and department permission  
**Terms Offered:** Course Rotation Schedules  
**Last Updated:** Linkts 06/2012; 2/17/2011

**ACC 489 - Accounting Internship**

Directed full-time work experience in the accounting phase of a business organization.

**Credit Hours:** 3 hrs  
**Prerequisite:** department permission  
**Notes:** Use on an accounting major or minor is not permitted. To be used as an elective only; does not apply on a major or minor; offered on a credit/no-credit basis.  
**Terms Offered:** Course Rotation Schedules  
**Last Updated:** Linkts 06/2012

**ACC 491 - Accounting Honors Thesis**

A directed studies course for accounting honors students only. An in-depth research thesis or project under the direction of an accounting faculty member is required with an oral examination or form of presentation to the faculty and other interested parties upon completion of the thesis.

**Credit Hours:** 3 hrs  
**Prerequisite:** final semester in undergraduate accounting honors program  
**Terms Offered:** Course Rotation Schedules  
**Last Updated:** Linkts 06/2012

**ACC 496W - Financial Management and Controllership (GEWI)**

This course is a capstone experience for the accounting major who wants to manage the information needs of an organization from the perspective of the controller, chief financial officer, or financial manager. Topics include: accountability for performance; budgeting and costs; managing cash and the treasury function; and enterprise and information systems.

**Credit Hours:** 3 hrs  
**Prerequisite:** ACC 296, ACC 340, ACC 342, ACC 356, and (ACC 344 or ACC 544)  
**Class Restrictions:** senior standing  
**Major Restrictions:** Open to accounting-BBA majors only  
**Terms Offered:** Course Rotation Schedules  
**Previously Listed As:** ACC 496  
**Writing Intensive:**

**Last Updated:** Linkts 06/2012; Prerequisite Change 07/2011, effective Fall 2011

**ACC 497 - Directed Studies**

Directed study of a problem or group of problems in accounting not otherwise treated in departmental courses.

**Credit Hours:** 1 hr  
**Prerequisite:** department permission
ACC 498 - Directed Studies

Directed study of a problem or group of problems in accounting not otherwise treated in departmental courses.

Credit Hours: 2 hrs
Prerequisite: department permission

ACC 499 - Directed Studies

Directed study of a problem or group of problems in accounting not otherwise treated in departmental courses.

Credit Hours: 3 hrs
Prerequisite: Department permission

Decision Science

DS 177 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr
Prerequisite: department permission

DS 178 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs
Prerequisite: department permission

DS 179 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs
Prerequisite: department permission
DS 265 - Business Statistics I

Concepts of statistics and applications to business decisions. Elements of probability, random samples, descriptive statistics, sampling distributions, point and interval estimation, hypothesis testing, chi-square analysis and regression and correlation analysis.

Credit Hours: 3 hrs  
Prerequisite: (Level 3 Math Placement) or (An Elementary Algebra placement test score of at least 83 points) or (a grade of C or better in MATH 098 or MATH 098B)

DS 277 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr  
Prerequisite: department permission

DS 278 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs  
Prerequisite: department permission

DS 279 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs  
Prerequisite: department permission

DS 317 - System Simulation

Computer-based simulation techniques for business analysis and decision making. Random number and process generators, system simulation models and specialized computer simulation languages. Simulation of discrete time systems and the GPSS language.
DS 367 - Business Statistics II

A continuation of the statistical methodology developed in Business Statistics I. Topics include two-sample interval estimation and hypothesis tests, inference about the population variance and simple and multiple regressions.

DS 377 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

DS 378 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

DS 379 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

DS 387 - Cooperative Education in Decision Science

Four months of full-time employment at a business or public organization to impart practical experience in decision science disciplines.
DS 465 - Applied Linear Statistical Models

An introduction to linear models with an emphasis on business applications. Topics include multiple linear regression models, analysis of variance and multivariate data analysis. Computer packages will be used.

Credit Hours: 3 hrs
Prerequisite: DS 265
Terms Offered: Course Rotation Schedules
Previously Listed As: ORI 465
Last Updated: Links 04/2011

DS 477 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr
Prerequisite: department permission
Terms Offered: Course Rotation Schedules
Last Updated: Links 06/2012

DS 478 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs
Prerequisite: department permission
Terms Offered: Course Rotation Schedules
Last Updated: Links 06/2012

DS 479 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs
Prerequisite: department permission
Terms Offered: Course Rotation Schedules
Last Updated: Links 06/2012

DS 487 - Cooperative Education in Decision Science

Four months of full-time employment at a business or public organization to impart practical experience in decision science disciplines.
DS 497 - Independent Study

Directed study of a problem or group of problems in decision science.

Credit Hours: 1 hr
Prerequisite: department permission
Terms Offered: Course Rotation Schedules
Last Updated: Links 06/2012

DS 498 - Independent Study

Directed study of a problem or group of problems in decision science.

Credit Hours: 2 hrs
Prerequisite: department permission
Terms Offered: Course Rotation Schedules
Last Updated: Links 06/2012

Finance

FIN 177 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr
Prerequisite: department permission
Terms Offered: Course Rotation Schedules
Last Updated: Links 06/2012

FIN 178 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs
Prerequisite: department permission
Terms Offered: Course Rotation Schedules
Last Updated: Links 06/2012

FIN 179 - Special Topics
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs
Prerequisite: department permission
Terms Offered: Course Rotation Schedules
Last Updated: Links 06/2012

FIN 277 - Special Topics

These courses deal with subject matter not provided in other department offerings. Students may elect such a course several times, provided different topics are studied.

Credit Hours: 1 hr
Prerequisite: department permission
Terms Offered: Course Rotation Schedules
Last Updated: Links 06/2012

FIN 278 - Special Topics

These courses deal with subject matter not provided in other department offerings. Students may elect such a course several times, provided different topics are studied.

Credit Hours: 2 hrs
Prerequisite: department permission
Terms Offered: Course Rotation Schedules
Last Updated: Links 06/2012

FIN 279 - Special Topics

These courses deal with subject matter not provided in other department offerings. Students may elect such a course several times, provided different topics are studied.

Credit Hours: 3 hrs
Prerequisite: department permission
Terms Offered: Course Rotation Schedules
Last Updated: Links 06/2012

FIN 287 - Cooperative Education in Finance

Four months of full-time employment at a business or public organization in a finance position chosen for imparting practical experience in finance.

Credit Hours: 3 hrs
Prerequisite: ACC 240 and department permission
Notes: Use on a finance major or minor not permitted. Offered on a credit/no-credit basis Admittance by application only
Terms Offered: Course Rotation Schedules
Last Updated: Links 04/2011

FIN 350 - Principles of Finance
A survey course covering the financial operations of business corporations. It begins with a general overview, then goes into
detail on several concepts and techniques used in financial decision making. Specific topics emphasized include the time value of
money, asset valuation models, risk management and financial statement analysis. The course is designed for the general business
student.

Credit Hours: 3 hrs
Prerequisite: ACC 240
Terms Offered: Course Rotation Schedules
Last Updated: Links 04/2011

FIN 352 - Financial Management for Entrepreneurs

A continuation of FIN 350, but with an emphasis on financial management for growth of the small- to medium-sized firm.
Working capital management, short-term financing, equipment financing and other topics pertinent to the growth firm.

Credit Hours: 3 hrs
Prerequisite: FIN 350 or equivalent
Terms Offered: Course Rotation Schedules
Last Updated: Links 04/2011

FIN 354 - Investments

The purpose of the course is to introduce students to fundamentals of investment analysis. The course attempts to highlight the
alternative investments available and develop a way of thinking about investments. The course is a mixture of description and
theory. The descriptive material involves a discussion of available investment instruments and considers the way the capital
market currently works. The theoretical portion takes into consideration ways you should evaluate current investments and future
opportunities.

Credit Hours: 3 hrs
Prerequisite: FIN 350
Terms Offered: Course Rotation Schedules
Last Updated: Links 04/2011

FIN 357 - Financial Markets and Institutions

The operation and behavior of capital markets and financial intermediaries as sources of investment capital to the business firm.
Liability management and investment portfolio behavior of financial market participants. Flow of funds through money and
capital markets, and investment characteristics of securities traded. Term structure of yields, yield differentials and the valuation
of debt and equity securities.

Credit Hours: 3 hrs
Prerequisite: FIN 350
Terms Offered: Course Rotation Schedules
Last Updated: Links 04/2011

FIN 359 - Intermediate Financial Theory

Students learn the theory behind a firm’s financial management decisions. The focus is on how a firm creates value through its
investment decisions. Topics include the valuation of investment decisions, cost of capital, risk and capital budgeting, real
options and mergers and acquisitions.

Credit Hours: 3 hrs
Prerequisite: a grade of C or better in FIN 350
Corequisites: FIN 360
Terms Offered: Course Rotation Schedules
Last Updated: Links 04/2011

FIN 360 - Theory of Financial Decisions

Students learn the theory behind a firm’s financial management decisions. The focus is on how a firm raises capital and whether financial decisions create value. Topics include short-term financing, capital structure, capital acquisition, dividend policy, leasing, the interaction between the firm’s financial and investment decisions, and financial distress and bankruptcy.

Credit Hours: 3 hrs
Prerequisite: FIN 350
Corequisites: FIN 359
Major Restrictions: Restricted to Finance Majors only
Terms Offered: Course Rotation Schedules
Last Updated: Links 08/2011

FIN 370 - International Business Finance

This course deals with how decisions about financial management are made in modern multinational enterprises. Financial management of any firm involves acquisition of funds, investing of these funds in economically productive assets, the managing of assets so acquired and eventual reconversion of some of the productive assets into funds to return to the original investors, creditors, suppliers, employees and other interest groups. International Business Finance deals with the management of these functions for firms operating in several countries.

Credit Hours: 3 hrs
Prerequisite: FIN 350 or equivalent
Terms Offered: Course Rotation Schedules
Last Updated: Links 04/2011

FIN 377 - Special Topics

These courses deal with subject matter not provided in other department offerings. Students may elect such a course several times, provided different topics are studied

Credit Hours: 1 hr
Prerequisite: department permission
Terms Offered: Course Rotation Schedules
Last Updated: Links 06/2012

FIN 378 - Special Topics

These courses deal with subject matter not provided in other department offerings. Students may elect such a course several times, provided different topics are studied.

Credit Hours: 2 hrs
Prerequisite: department permission
Terms Offered: Course Rotation Schedules
Last Updated: Links 06/2012
FIN 379 - Special Topics

These courses deal with subject matter not provided in other department offerings. Students may elect such a course several times, provided different topics are studied.

Credit Hours: 3 hrs
Prerequisite: department permission
Terms Offered: Course Rotation Schedules
Last Updated: Links 06/2012

FIN 387 - Cooperative Education in Finance

Four months of full-time employment at a business or public organization in a finance position chosen for imparting practical experience in finance.

Credit Hours: 3 hrs
Prerequisite: FIN 287 and department permission
Notes: Use on a finance major or minor not permitted. Admittance by application only.
Terms Offered: Course Rotation Schedules
Previously Listed As: FIN 487
Last Updated: Links 04/2011

FIN 450W - Problems in Financial Management (GEWI)

Deals with application of financial management theory. Emphasis is placed on problem solving in differing economic and situational environments using various quantitative tools. Case analysis and class discussions are emphasized.

Credit Hours: 3 hrs
Prerequisite: FIN 359
Terms Offered: Course Rotation Schedules
Previously Listed As: FIN 450
Writing Intensive:

Last Updated: Links 04/2011

FIN 451 - Introduction to Speculative Markets

This course is designed to provide a solid foundation in the principles of derivatives. It attempts to strike a balance between institutional details, theoretical foundations and practical applications. Options and futures will be the primary focus.

Credit Hours: 3 hrs
Prerequisite: FIN 350
Terms Offered: Course Rotation Schedules
Last Updated: Links 04/2011

FIN 453 - Commercial Banking

Practices, policies, and problems of commercial bank management and operation, capital adequacy, loan and investment policy, liquidity and profit maximization.

Credit Hours: 3 hrs
Prerequisite: FIN 350
Terms Offered: Course Rotation Schedules
Last Updated: Links 04/2011

FIN 454 - Mortgage Banking

The purpose of this course is to communicate and explain the fundamentals of mortgage lending in as simple and concise a manner as possible. A good portion of the course deals with real estate appraisal.

Credit Hours: 3 hrs
Prerequisite: FIN 350 or equivalent
Terms Offered: Course Rotation Schedules
Last Updated: Links 04/2011

FIN 477 - Special Topics

These courses deal with subject matter not provided in other department offerings. Students may elect such a course several times, provided different topics are studied.

Credit Hours: 1 hr
Prerequisite: department permission
Terms Offered: Course Rotation Schedules
Last Updated: Links 06/2012

FIN 478 - Special Topics

These courses deal with subject matter not provided in other department offerings. Students may elect such a course several times, provided different topics are studied.

Credit Hours: 2 hrs
Prerequisite: department permission
Terms Offered: Course Rotation Schedules
Last Updated: Links 06/2012

FIN 479 - Special Topics

These courses deal with subject matter not provided in other department offerings. Students may elect such a course several times, provided different topics are studied.

Credit Hours: 3 hrs
Prerequisite: department permission
Terms Offered: Course Rotation Schedules
Last Updated: Links 06/2012

FIN 487 - Cooperative Education in Finance

Four months of full-time employment at a business or public organization in a finance position chosen for imparting practical experience in finance.

Credit Hours: 3 hrs
Prerequisite: FIN 387 and department permission
FIN 489 - Internship

Directed full-time work experience in the finance phase of a business or public organization. Use on a finance major or minor not permitted. May be repeated once for additional credit.

Credit Hours: 3 hrs
Prerequisite: department permission
Notes: Admittance by application only.
Terms Offered: Course Rotation Schedules
Last Updated: Links 06/2012

FIN 497 - Independent Study

Directed study of a problem or group of problems in finance.

Credit Hours: 1 hr
Prerequisite: department permission
Terms Offered: Course Rotation Schedules
Last Updated: Links 06/2012

FIN 498 - Independent Study

Directed study of a problem or group of problems in finance.

Credit Hours: 2 hrs
Prerequisite: department permission
Terms Offered: Course Rotation Schedules
Last Updated: Links 06/2012

FIN 499 - Independent Study

Directed study of a problem or group of problems in finance.

Credit Hours: 3 hrs
Prerequisite: department permission
Terms Offered: Course Rotation Schedules
Last Updated: Links 06/2012

FIN 502 - Financial Principles

Provides beginning graduate students a solid foundation in the general principles of finance. Provides an appreciation of how businesses and households allocate scarce resources over time and when outcomes are uncertain. The primary focus is corporate finance; the course will also introduce financial markets and institutions, and investments.

Credit Hours: 3 hrs
Prerequisite: ACC 501; ECON 500 is recommended
Terms Offered: Course Rotation Schedules

Computer Information Systems Programs and Courses

Computer Information Systems

Major

Computer Information Systems Major

Revised Program, effective Fall 2014

The CIS program provides a learning environment where the students design, develop and deploy a wide range of integrated, end-to-end business applications and services in order to enable small, medium and large organizations to become more connected with customers, employees, partners and suppliers. Students learn about interoperability and explore road maps with products and technologies such as instant messaging, live communications, workflows and portals. Students also learn how to integrate the organizations' applications and processes, how to perform business-to-business communications and how to develop comprehensive and reliable e-business solutions.

General Education Requirements:
For specific requirements refer to the General Education Program.

**Admission Criteria: 56 Hours**

Students seeking admission to any program in the College of Business must complete 56 credit hours of course work to include the courses listed below.

The foundation courses for admission to the College of Business must be completed with a minimum earned grade of C- (C required for transfer courses) in each. Students must also have an EMU GPA of at least 2.50.

**College of Business Foundation Courses: 21 Hours**

The following seven COB courses are to be completed prior to COB admission, and count toward the total credit hours required for this major.

- ACC 240 - Principles of Financial Accounting 3 hrs
- ACC 241 - Principles of Managerial Accounting 3 hrs
- COB 200L - Introduction to Business (GELB) 3 hrs
- DS 265 - Business Statistics I 3 hrs
- IS 215 - Information Systems for Business 3 hrs
- LAW 293 - Legal Environment of Business 3 hrs
- MGMT 202 - Business Communication 3 hrs

**Non-College of Business Foundation Courses: 15 Hours**

- CTAC 124 - Foundations of Speech Communication (GEEC) 3 hrs
- ECON 201 - Principles of Macroeconomics (GEKS) 3 hrs
- ECON 202 - Principles of Microeconomics (GEKS) 3 hrs
- ENGL 121 - Composition II: Researching the Public Experience (GEEC) 3 hrs or WRTG 121 - Composition II: Researching the Public Experience (GEEC) 3 hrs
- Quantitative Reasoning (GEQR) requirement 3 hrs

**Additional Coursework: 20 Hours**

In addition to the courses listed above, students must complete an additional 20 credit hours of course work prior to admission to the College of Business.

**Computer Information Systems Major: 66 hours**

**Business Core: 36 Hours**

**College of Business Foundation Courses: 21 Hours**

The following COB courses are to be completed prior to admission, and count towards the total credit hours required for this major.

- ACC 240 - Principles of Financial Accounting 3 hrs
• ACC 241 - Principles of Managerial Accounting 3 hrs
• COB 200L - Introduction to Business (GELB) 3 hrs
• DS 265 - Business Statistics I 3 hrs
• IS 215 - Information Systems for Business 3 hrs
• LAW 293 - Legal Environment of Business 3 hrs
• MGMT 202 - Business Communication 3 hrs

Post Admission Core Requirement: 15 Hours

• FIN 350 - Principles of Finance 3 hrs
• MGMT 386 - Organizational Behavior and Theory 3 hrs
• MGMT 490 - Business Policy 3 hrs
• MKTG 360 - Principles of Marketing 3 hrs
• OM 374 - Introduction to Operations Management 3 hrs
  Note: All 300-level Core Courses listed above must be completed before enrollment in MGMT 490 - Business Policy.
  OM 374 can be taken concurrently with MGMT 490.

CIS Core: 21 hours

• IS 247 - Introduction to Web Application Development 3 hrs
• IS 320 - Business Data Communications and Information Security 3 hrs
• IS 350 - Enterprise Resource Planning and Architecture 3 hrs
• IS 380 - Introduction to Databases 3 hrs
• IS 417 - Systems Analysis and Design 3 hrs
• IS 425 - IS Project and Risk Management 3 hrs
• IS 449W - IS Strategy, Management & Acquisition (GEWI) 3 hrs

Restricted Electives: 9 hours

Choose three courses from the following:

• IS 310 - Social Media for Business 3 hrs
• IS 315 - Object-Oriented Application Development 3 hrs
• IS 410 - Business Intelligence 3 hrs
• IS 415 - Business Mobile Application Development 3 hrs
• IS 427 - Business Process and Identity Management 3 hrs
• IS 437 - Introduction to Business Information Technology Audit 3 hrs

Minor Requirements:

This program does not require a minor.

Program Total:

Students must earn a minimum total of 124 credits at the 100-level or above.
Critical Graduation Information:

Each undergraduate student will be responsible for the fulfillment of the requirements or their equivalents of the Eastern Michigan University catalog in force at the time of their initial registration at a college or university or a subsequent catalog including the one in effect at the time of their graduation.

In the event an undergraduate student does not complete the degree requirements within seven years of the date of their original registration at a college or university, the student may be required to have their credits re-evaluated by the academic department(s) of their major/minor in keeping with catalog requirements in force during the year of their graduation.

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the 100-level and above. Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Complete a Writing Intensive (WI) Course in your major.
- Earn a minimum of 60 credits from a four-year college or university; courses taken at community colleges cannot be used to meet this requirement. (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 unique credit hours in their major and 20 unique credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
- Earn no more than 60 credit hours in one subject area (prefix). Credits in excess of the 60 maximum will not be counted toward the minimum of 124 credits required for a bachelor's degree.
- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more that one major or minor.
  - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
  - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
  - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor.
- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is conducted by individual departments/schools within EMU, and additional documentation may be required. Please note: EMU awards only credit for transferred courses; grades are not used in the calculation of an EMU GPA.
- Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be reached in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

General Education Requirements:
EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available in the General Education section of the catalog: General Education

Students who transferred to EMU may have modified general education requirements based on Michigan Transfer Agreement (MTA) or articulation agreements; consult your academic advisor for additional information.

University Information: Consult the online catalog at catalog.emich.edu.

Required Courses: 15 hours

- IS 320 - Business Data Communications and Information Security 3 hrs
- IS 350 - Enterprise Resource Planning and Architecture 3 hrs
- IS 413 - IT Infrastructure and Network Security 3 hrs
- IS 425 - IS Project and Risk Management 3 hrs
- IS 427 - Business Process and Identity Management 3 hrs

Two courses from the following: 6 hours
• IS 247 - Introduction to Web Application Development 3 hrs
• IS 380 - Introduction to Databases 3 hrs
• IS 416 - System Software Administration 3 hrs
• IS 437 - Introduction to Business Information Technology Audit 3 hrs

Minor Total: 21 hours

Note:

All minors must have at least six hours of course work at the 300-level or above.

Students pursuing a COB minor must have a minimum cumulative GPA of 2.0 to enroll in 300/400 Business classes.

Students must be of Junior status (completion of 56 credit hours) to enroll in 300/400.

Computer Information Systems Minor

(For nonbusiness majors)

The Department of Computer Information Systems has established articulation agreements with Macomb, Monroe and Washtenaw Community College. For more information, please contact the department head or the Office of Community College Relations at 229 Rackham Hall, 487.6577.

To see a complete list of current colleges with program articulation agreements with EMU, please click here.

Required Courses: 21 hours

- IS 247 - Introduction to Web Application Development 3 hrs
- IS 320 - Business Data Communications and Information Security 3 hrs
- IS 380 - Introduction to Databases 3 hrs
- IS 417 - Systems Analysis and Design 3 hrs
- IS 425 - IS Project and Risk Management 3 hrs

Two courses from the following:

- IS 339 - Google Analytics and Landing Page Optimization 3 hrs
- IS 315 - Object-Oriented Application Development 3 hrs
- IS 350 - Enterprise Resource Planning and Architecture 3 hrs
- IS 410 - Business Intelligence 3 hrs
- IS 413 - IT Infrastructure and Network Security 3 hrs
- IS 416 - System Software Administration 3 hrs
- IS 427 - Business Process and Identity Management 3 hrs
- IS 437 - Introduction to Business Information Technology Audit 3 hrs

Minor Total: 21 hours

Note:

All minors must have at least six hours of course work at the 300-level or above.

Students pursuing a COB minor must have a minimum cumulative GPA of 2.0 to enroll in 300/400 Business classes.

Students must be of Junior status (completion of 56 credit hours) to enroll in 300/400 Business classes.

Critical Graduation Information:

Each undergraduate student will be responsible for the fulfillment of the requirements or their equivalents of the Eastern Michigan University catalog in force at the time of their initial registration at a college or university or a subsequent catalog including the one in effect at the time of their graduation.

In the event an undergraduate student does not complete the degree requirements within seven years of the date of their original registration at a college or university, the student may be required to have their credits re-evaluated by the academic department(s) of their major/minor in keeping with catalog requirements in force during the year of their graduation.

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the 100-level and above. Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.
• Meet the requirements of the General Education program (see information below).
• Complete a Writing Intensive (WI) Course in your major.
• Earn a minimum of 60 credits from a four-year college or university; courses taken at community colleges cannot be used to meet this requirement. (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
• Earn a minimum of 30 credits from courses taken at EMU.
• Complete 10 of the last 30 hours for the degree from courses taken at EMU.
• Have a minimum of 30 unique credit hours in their major and 20 unique credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
• Earn no more than 60 credit hours in one subject area (prefix). Credits in excess of the 60 maximum will not be counted toward the minimum of 124 credits required for a bachelor's degree.
• Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more that one major or minor.
  o Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
  o Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
  o Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor
• Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is conducted by individual departments/schools within EMU, and additional documentation may be required. Please note: EMU awards only credit for transferred courses; grades are not used in the calculation of an EMU GPA.
• Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be reached in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

General Education Requirements:

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available in the General Education section of the catalog: General Education

Students who transferred to EMU may have modified general education requirements based on Michigan Transfer Agreement (MTA) or articulation agreements; consult your academic advisor for additional information.

University Information: Consult the online catalog at catalog.emich.edu.

Information Systems

IS 177 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr
Prerequisite: department permission
IS 178 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs
Prerequisite: department permission
Terms Offered: Course Rotation Schedules
Last Updated: Links 06/2012

IS 179 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs
Prerequisite: department permission
Terms Offered: Course Rotation Schedules
Last Updated: Links 06/2012

IS 215 - Information Systems for Business

This course covers concepts, tools, and problem-solving techniques in business information systems. The main topics of this course are: IT infrastructure, data communications and network, data management, electronic business, strategic information systems such as ERP, CRM, and SCM, the role of information systems in business processes, security, impact of IS on society, and business applications using Microsoft Office.

Credit Hours: 3 hrs
Major Restrictions: Computer Information Systems Major
Terms Offered: Course Rotation Schedules
Previously Listed As: IS 215 - End-User Computing; ORI 215
Last Updated: Change to Course Title, Description, and Major Restriction 12/2013, effective Summer 2014; Links 07/2011

IS 219 - File Processing and COBOL Programming

COBOL programming is an important skill for business application developers. In this class, students will learn to program in COBOL while also learning the basic algorithms for producing reports with multiple control breaks and for processing sequential and random files. All students will design, write, debug and test COBOL programs using good design techniques and software engineering principles. Intended for computer information systems majors and others.

Credit Hours: 3 hrs
Terms Offered: Course Rotation Schedules
Previously Listed As: ORI 219
Last Updated: Links 07/2011

IS 239 - Google AdWords and Web Page Design
In this course students learn how to manage a significant search engine advertising budget. In particular, the course teaches students the fundamentals of business search visibility and web page design to capitalize on search driven traffic to web sites.

**Credit Hours:** 3 hrs  
**Terms Offered:** Course Rotation Schedules  
**Last Updated:** Links 06/2012

**IS 247 - Introduction to Web Application Development**

This course instructs students in applying Internet technologies to significantly impact business processes in supply chain management, marketing, finance, accounting, and human resources management. To this end, students build front-end web solutions using standards like HTML, CSS, JavaScript, and XHML to effectively connect business to customers, vendors and other stakeholders.

**Credit Hours:** 3 hrs  
**Prerequisite:** IS 215  
**Class Restrictions:** Sophomore and above  
**Terms Offered:** Course Rotation Schedules  
**Previously Listed As:** ORI 247  
**Last Updated:** Change to Course Description, Prerequisites, and Major Restriction 12/2013, effective Summer 2014; Links 07/2011

**IS 277 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 1 hr  
**Prerequisite:** department permission  
**Terms Offered:** Course Rotation Schedules  
**Last Updated:** Links 06/2012

**IS 278 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 2 hrs  
**Prerequisite:** department permission  
**Terms Offered:** Course Rotation Schedules  
**Last Updated:** Links 06/2012

**IS 279 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 3 hrs  
**Prerequisite:** department permission  
**Terms Offered:** Course Rotation Schedules  
**Last Updated:** Links 06/2012
IS 280 - Introduction to Expert Systems in Business

This course covers concepts of decision support systems and expert systems as they are applied to practical business problems. Students will learn methods of artificial intelligence and decision analysis, and gain practical experience using DSS and AI software tools for designing business solutions.

Credit Hours: 3 hrs
Prerequisite: IS 215
Terms Offered: Course Rotation Schedules
Previously Listed As: ORI 280
Last Updated: Links 04/2011

IS 310 - Social Media for Business

The proliferation of user generated content (UGC) has resulted in the phenomenon known as social media. The success of social media deployment requires a blend of technical and organizational knowledge and skills. This course introduces students how to successfully develop and engage in social media, to measure key performances indicators of social media success and to manage social media effort, condensed into social media engagement, analytics and management.

Credit Hours: 3 hrs
Repeatable for Credit: No Prerequisite: IS 215
Class Restrictions: Sophomore and above
Last Updated: New Course 12/2013, effective Summer 2014

IS 315 - Object-Oriented Application Development

This course provides an introduction to object-oriented programming. The course uses an application driven and step-by-step tutorial approach to teach students the basics of programming. It enables students to create applications and components ranging from services, business objects to system-level applications. The course gives students the foundation in programming principles.

Credit Hours: 3 hrs
Prerequisite: IS 215
Terms Offered: Course Rotation Schedules
Previously Listed As: ORI 315, CSC 239, ORI 415
Last Updated: Prerequisite Change 01/2012, effective Winter 2012; Links 04/2011

IS 320 - Business Data Communications and Information Security

This course covers topics related to both computer and systems architecture and communication networks, with an overall focus on the services and capabilities that IT infrastructure solutions enable in an organizational context. The course focuses strongly on Internet-based solutions, computer and network security, business continuity, and the role of infrastructure in regulatory compliance.

Credit Hours: 3 hrs
Prerequisite: IS 215
Class Restrictions: Junior and Senior standing
Terms Offered: Course Rotation Schedules
Previously Listed As: IS 420, ORI 420
Last Updated: Change to Course Description, Prerequisites and Class Restriction 12/2013, effective Summer 2014; Links 07/2011

IS 339 - Google Analytics and Landing Page Optimization
This course is the second of two courses in a sequence with the following goal: To help you achieve mastery of the algorithmic business models that dominate the web today, the most important of which are search and search marketing. To that end, this particular course focuses on optimizing landing pages for targeted search engine marketing campaigns using Google AdWords.

Credit Hours: 3 hrs  
Prerequisite: (IS 239 or IS 279 or IS 247) or permission of the instructor  
Terms Offered: Course Rotation Schedules  
Last Updated: Links 04/2011

**IS 350 - Enterprise Resource Planning and Architecture**

The main focus of this course is to explore the relationship between enterprise architecture, processes and enterprise systems for the organization to meet its business objectives. Students learn strategies for infrastructure management, system administration, distributed computing, middleware, system integration, vendor selection, total cost of ownership, enterprise system implementation, and technology trends.

Credit Hours: 3 hrs  
Prerequisite: IS 215  
Terms Offered: Course Rotation Schedules  
Previously Listed As: Enterprise Resource Planning  
Last Updated: Spelling error 07/2014; Updated Course Description and Title 01/2014, effective Summer 2014; Links 04/2011

**IS 375 - Advanced Software Design and Programming**

Software development methods and tools are constantly changing, and it is imperative that developers keep up with recent trends. This course concentrates on creating real-world programs using the latest tools and techniques. Students will gain practical experience in various aspects of programming, including graphic interfaces, database manipulation, object-oriented techniques and internetworking. In this project-oriented course students will be exposed to modern development environments, and will build on the skills learned in the earlier programming classes.

Credit Hours: 3 hrs  
Prerequisite: IS 315  
Terms Offered: Course Rotation Schedules  
Previously Listed As: ORI 375  
Last Updated: Links 04/2011

**IS 377 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr  
Prerequisite: department permission  
Terms Offered: Course Rotation Schedules  
Last Updated: Links 06/2012

**IS 378 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hr
Prerequisite: department permission
Terms Offered: Course Rotation Schedules
Last Updated: Links 06/2012

IS 379 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs
Prerequisite: department permission
Terms Offered: Course Rotation Schedules
Last Updated: Links 06/2012

IS 380 - Introduction to Databases

This course covers basic concepts of database design and implementation, primarily focusing on desktop database applications. This is a hands-on, practical course concentrating on use of desktop DBMS software. Topics covered include: overview of data models, introduction to SQL and QBE, practical applications of database technology.

Credit Hours: 3 hrs
Prerequisite: IS 215
Terms Offered: Course Rotation Schedules
Previously Listed As: ORI 380, ORI 419
Last Updated: Links 04/2011

IS 387 - Cooperative Education in Information Systems

Four months of full-time employment at a business or public organization to impart practical experience in computer information systems disciplines.

Credit Hours: 3 hrs
Prerequisite: Completion of three hours in computer information systems area and department permission
Notes: Admittance by application only. Offered on a credit/no-credit basis. For general elective credit only
Terms Offered: Course Rotation Schedules
Last Updated: Links 06/2012

IS 410 - Business Intelligence

Business intelligence is the user-centered iterative process of accessing data (ideally stored in the data warehouse) and analyzing it to derive insights, draw conclusions and communicate finding that support an enterprise's decision-making processes. This course includes topics that discuss technologies and applications for front-end analytical tools, on-report analysis, ad hoc query and reporting, data warehouse, online analytical processing, enterprise portals, data visualization and data mining.

Credit Hours: 3 hrs
Prerequisite: IS 380
Major Restrictions: Computer Information Systems Major
Terms Offered: Course Rotation Schedules
Previously Listed As: ORI 410
Last Updated: Change to Prerequisites and Major Restriction 1/2014, effective Summer 2014; Links 04/2011
IS 413 - IT Infrastructure and Network Security

This course examines the network infrastructure security to ensure confidentiality, integrity, availability and authorized use of network. It explores conceptual, and technological aspects of network infrastructure and security. The services and technologies presented in the course include activity directory, web application servers, messaging, and wireless services and technologies. Security issues such as security protocols, cryptographic systems, router, intrusion detection/prevention systems, and firewalls are also discussed.

Credit Hours: 3 hrs
Class Restrictions: Sophomore standing
Terms Offered: Course Rotation Schedules
Previously Listed As: ORI 413
Last Updated: Links 07/2011

IS 415 - Business Mobile Application Development

The course is designed to introduce students to the continuously growing market for handheld devices, mainly smart-phones. It focuses on the principles and challenges in designing and developing business mobile applications. Some of the main topics covered include: working with and responding to user interactions, storing and fetching data from multiple sources, connecting to the Internet and processing XML data, retrieving remote data and working with web-services.

Credit Hours: 3 hrs
Prerequisite: IS 247
Class Restrictions: Junior, Senior, and Second Bacc.
Last Updated: New Course 1/2014, effective Summer 2014

IS 416 - System Software Administration

This course introduces students to the features and capabilities of a multi-user operating system through "hands-on" exercises. Topics include: functions of an operating system, operating system commands, filters, pipes, redirection, file system structure, text editors, file processing, file security, shells, Internet communication and file transfers, shell programming and system administration.

Credit Hours: 3 hrs
Prerequisite: IS 247 and IS 320
Terms Offered: Course Rotation Schedules
Last Updated: Links 04/2011

IS 417 - Systems Analysis and Design

This course covers a systematic methodology for analyzing a business problem or opportunity, determining what role, if any, computer-based technologies can play in addressing the business need, articulating business requirements for the technology solution, specifying alternative approaches to acquiring the technology capabilities needed to address the business requirements, and specifying the requirements for the particular information systems solution.

Credit Hours: 3 hrs
Prerequisite: IS 247
Major Restrictions: Computer Information Systems Major
Terms Offered: Course Rotation Schedules
Previously Listed As: ORI 417
Last Updated: Change to Course Description, Prerequisites, and Major Restriction 1/2014, effective Summer 2014; Links 04/2011
IS 421 - Enterprise Database Application

This course covers advanced SQL, normalization, detailed discussion of relational data models, hierarchical models and network models, client server databases (front-end and back-end), distributed DBMS and data warehousing. It involves intensive use of advanced DBMS tools.

Credit Hours: 3 hrs
Prerequisite: IS 247 and IS 380
Terms Offered: Course Rotation Schedules
Previously Listed As: ORI 421
Last Updated: Links 04/2011

IS 425 - IS Project and Risk Management

This course discusses the processes, methods, techniques and tools that organizations use to manage their information systems projects. The course covers a systematic methodology for initiating, planning, executing, controlling, and closing projects. This course assumes that project management in the modern organization is a complex team-based activity, where various types of technologies are an inherent part of the project management process.

Credit Hours: 3 hrs
Prerequisite: IS 380
Class Restrictions: Sophomore standing
Major Restrictions: Computer Information Systems Major
Terms Offered: Course Rotation Schedules
Previously Listed As: ORI 425
Last Updated: Change to Course Description, Prerequisites, and Major Restriction 1/2014, effective Summer 2014; Links 07/2011

IS 426 - Advanced Structured COBOL Programming

Students work in teams developing integrated information systems in structured COBOL. Searches, reporting, subprograms, random files, indexed sequential files, various sorting routines, debugging techniques, programming style, optimization techniques, structured and modular programming concepts, transferability and portability strategies, and documentation, including writing program specifications and users’ manuals.

Credit Hours: 3 hrs
Prerequisite: IS 417
Terms Offered: Course Rotation Schedules
Last Updated: Links 04/2011

IS 427 - Business Process and Identity Management

The purpose of this course is to discuss enterprise applications control and identity management. In particular, it discusses, programming language related to ERP, Role Management, Business-Driven Identity Management, Compliance and Auditing, Password Management, Connectivity and Services for a major ERP system (i.e. SAP or Microsoft Dynamics)

Credit Hours: 3 hrs
Prerequisite: IS 350 or Department Permission
Class Restrictions: Sophomore standing
Major Restrictions: Computer Information Systems Major
Terms Offered: Course Rotation Schedules
**IS 437 - Introduction to Business Information Technology Audit**

This course introduces the basics of the information technology audit and control function. The main focus of this course is on identifying information controls, the types of controls and their impact on the organization and how to manage and audit them. The concepts and techniques used in information technology audits will be reviewed.

**Credit Hours:** 3 hrs  
**Prerequisite:** IS 320 or department permission  
**Class Restrictions:** Senior Standing  
**Major Restrictions:** Computer Information Systems Major  
**Terms Offered:** Course Rotation Schedules  
**Last Updated:** Changes to Course Description, Prerequisites, and Major Restriction 1/2014, effective Summer 2014; Links 06/2012

**IS 439 - Search Marketing Practicum**

Students will manage a Non-Profit's Adwords campaign and analyze account performance using Google Analytics. They will develop an online professional Networking presence using a personal blog, Twitter, LinkedIn and Google+ to gain direct experience using online social networking to gain search visibility. Successful students may qualify for professional certification.

**Credit Hours:** 3 hrs  
**Repeatable for Credit:** No  
**Prerequisite:** IS 239 and department permission  
**Class Restrictions:** All Undergraduates, Second Bacc  
**Terms Offered:** Course Rotation Schedules  
**Last Updated:** Course Type Change 7/2014, New Course 05/2012, effective Winter 2013

**IS 442 - Information Resource Management**

Most organizations use computers for operations, control and planning, and for office automation. While computers facilitate and enhance the functioning of organizations, they also add to the responsibilities of managers. In this course, students learn how to acquire, organize, monitor and control information resources. The course also discusses problems unique to the management of information resources.

**Credit Hours:** 3 hrs  
**Prerequisite:** Nine credit hours of IS courses from 219 and above  
**Terms Offered:** Course Rotation Schedules  
**Previously Listed As:** ORI 442  
**Last Updated:** Links 07/2011

**IS 449W - IS Strategy, Management & Acquisition (GEWI)**

This course explores the issues and approaches in managing the information systems function in organizations and how the IS function integrates/supports/enables various types of organizational capabilities. It takes a senior management perspective in exploring the acquisition, development and implementation of plans and policies to achieve efficient and effective information systems.

**Credit Hours:** 3 hrs  
**Prerequisite:** IS 417 and IS 425  
**Major Restrictions:** Computer Information Systems Major
Notes: Departmental Permission
Terms Offered: Course Rotation Schedules
Previously Listed As: IS 449, ORI 449; Information Systems Integration
Writing Intensive:

Last Updated: Spelling Error 7/2014, Updated title, description, prerequisite, & Major Restriction 01/2014, effective Summer 2014; Links 03/2011

IS 477 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr
Prerequisite: department permission
Terms Offered: Course Rotation Schedules
Last Updated: Links 06/2012

IS 478 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs
Prerequisite: department permission
Terms Offered: Course Rotation Schedules
Last Updated: Links 06/2012

IS 479 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs
Prerequisite: department permission
Terms Offered: Course Rotation Schedules
Last Updated: Links 06/2012

IS 487 - Cooperative Education in Information Systems

Four months of full-time employment at a business or public organization to impart a practical experience in computer information systems disciplines.

Credit Hours: 3 hrs
Prerequisite: IS 387 and department permission
Notes: Admittance by application only
Terms Offered: Course Rotation Schedules
Last Updated: Links 04/2011

IS 489 - Internship
Directed full-time work experience in the business computer systems units of a business organization.

**Credit Hours:** 3 hrs  
**Prerequisite:** major and department permission  
**Notes:** This course may be repeated for a maximum of six hours.  
**Terms Offered:** Course Rotation Schedules  
**Last Updated:** Links 06/2012

**IS 497 - Independent Study**

Directed study of a problem or group of problems in production systems or management science.

**Credit Hours:** 1 hr  
**Prerequisite:** department permission  
**Terms Offered:** Course Rotation Schedules  
**Last Updated:** Links 06/2012

**IS 498 - Independent Study**

Directed study of a problem or group of problems in production systems or management science.

**Credit Hours:** 2 hrs  
**Prerequisite:** department permission  
**Terms Offered:** Course Rotation Schedules  
**Last Updated:** Links 06/2012

**IS 499 - Independent Study**

Directed study of a problem or group of problems in production systems or management science.

**Credit Hours:** 3 hrs  
**Prerequisite:** department permission  
**Terms Offered:** Course Rotation Schedules  
**Last Updated:** Links 06/2012

**Operations Management**

**OM 177 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 1 hr  
**Terms Offered:** Course Rotation Schedules  
**Previously Listed As:** POM 177  
**Last Updated:** Links 04/2011

**OM 178 - Special Topics**
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 2 hrs  
**Terms Offered:** Course Rotation Schedules  
**Previously Listed As:** POM 178  
**Last Updated:** Links 04/2011

### OM 179 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 3 hrs  
**Terms Offered:** Course Rotation Schedules  
**Previously Listed As:** POM 179  
**Last Updated:** Links 04/2011

### OM 277 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 1 hr  
**Terms Offered:** Course Rotation Schedules  
**Previously Listed As:** POM 277  
**Last Updated:** Links 04/2011

### OM 278 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 2 hrs  
**Terms Offered:** Course Rotation Schedules  
**Previously Listed As:** POM 278  
**Last Updated:** Links 04/2011

### OM 279 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 3 hrs  
**Terms Offered:** Course Rotation Schedules  
**Previously Listed As:** POM 279  
**Last Updated:** Links 04/2011

### OM 374 - Introduction to Operations Management
The major design, processes and control problems of operations management in manufacturing and service organizations. Topics include product or service design; facilities location and layout; productivity, including job design, standards and incentive plans; project management; materials management, including forecasting, purchasing and inventory control; operations control; quality assurance and control.

Credit Hours: 3 hrs  
Prerequisite: DS 265  
Terms Offered: Course Rotation Schedules  
Previously Listed As: POM 374  
Last Updated: Links 04/2011

**OM 377 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr  
Terms Offered: Course Rotation Schedules  
Previously Listed As: POM 377  
Last Updated: Links 04/2011

**OM 378 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs  
Terms Offered: Course Rotation Schedules  
Previously Listed As: POM 378  
Last Updated: Links 04/2011

**OM 379 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs  
Terms Offered: Course Rotation Schedules  
Previously Listed As: POM 379  
Last Updated: Links 04/2011

**OM 477 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr  
Terms Offered: Course Rotation Schedules  
Previously Listed As: POM 477  
Last Updated: Links 04/2011
OM 478 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs
Terms Offered: Course Rotation Schedules
Previously Listed As: POM 478
Last Updated: Links 04/2011

OM 479 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs
Terms Offered: Course Rotation Schedules
Previously Listed As: POM 479
Last Updated: Links 04/2011

OM 497 - Independent Study

Directed study in areas not provided in other course offerings, or advanced study in areas of special interest to the student.

Credit Hours: 1 hr
Prerequisite: Department permission
Terms Offered: Course Rotation Schedules
Previously Listed As: POM 497

General Education Requirements:

For specific requirements refer to the General Education Program.

Admission Criteria: 56 Hours

Students seeking admission to any program in the College of Business must complete 56 credit hours of course work to include the courses listed below.
The foundation courses for admission to the College of Business must be completed with a minimum earned grade of C- (C required for transfer courses) in each. Students must also have an EMU GPA of at least 2.50.

College of Business Foundation Courses: 21 Hours

The following seven COB courses are to be completed prior to COB admission, and count toward the total credit hours required for this major.

- ACC 240 - Principles of Financial Accounting 3 hrs
- ACC 241 - Principles of Managerial Accounting 3 hrs
- COB 200L - Introduction to Business (GELB) 3 hrs
- DS 265 - Business Statistics I 3 hrs
- IS 215 - Information Systems for Business 3 hrs
- LAW 293 - Legal Environment of Business 3 hrs
- MGMT 202 - Business Communication 3 hrs

Non-College of Business Foundation Courses: 15 Hours

- CTAC 124 - Foundations of Speech Communication (GEEC) 3 hrs
- ECON 201 - Principles of Macroeconomics (GEKS) 3 hrs
- ECON 202 - Principles of Microeconomics (GEKS) 3 hrs
- ENGL 121 - Composition II: Researching the Public Experience (GEEC) 3 hrs
  or WRTG 121 - Composition II: Researching the Public Experience (GEEC) 3 hrs
- Quantitative Reasoning (GEQR) requirement 3 hrs

Additional Coursework: 20 Hours

In addition to the courses listed above, students must complete an additional 20 credit hours of course work prior to admission to the College of Business.

Major Requirements: 60 hours

Business Core: 36 Hours

College of Business Foundation Courses: 21 Hours

The following COB courses are to be completed prior to admission, and count towards the total credit hours required for this major.

- ACC 240 - Principles of Financial Accounting 3 hrs
- ACC 241 - Principles of Managerial Accounting 3 hrs
- COB 200L - Introduction to Business (GELB) 3 hrs
- DS 265 - Business Statistics I 3 hrs
- IS 215 - Information Systems for Business 3 hrs
- LAW 293 - Legal Environment of Business 3 hrs
- MGMT 202 - Business Communication 3 hrs
Post Admission Core Requirement: 15 Hours

- FIN 350 - Principles of Finance 3 hrs
- MGMT 386 - Organizational Behavior and Theory 3 hrs
- MGMT 490 - Business Policy 3 hrs
- MKTG 360 - Principles of Marketing 3 hrs
- OM 374 - Introduction to Operations Management 3 hrs

Note: All 300-level Core Courses listed above must be completed before enrollment in MGMT 490 - Business Policy. OM 374 can be taken concurrently with MGMT 490.

Discipline: 24 hours

- MGMT 384 - Human Resource Management 3 hrs
- MGMT 388 - Introduction to Entrepreneurship 3 hrs
- MGMT 480W - Management Responsibility and Ethics (GEWI) 3 hrs
- MGMT 481 - Managing the Entrepreneurial Venture 3 hrs
- MGMT 488L - Field Studies in Entrepreneurship (GELB) 3 hrs

One course from the following:

- MKTG 363 - Retailing 3 hrs
- MKTG 374 - Business to Business Marketing 3 hrs
- MKTG 430 - Marketing of Services 3 hrs
- MKTG 473 - Marketing and Product Innovation 3 hrs
- MKTG 479 - Special Topics 3 hrs

Two courses from the following:

- ACC 342 - Managerial Cost Accounting 3 hrs
- ACC 344 - Principles of Taxation 3 hrs
- FIN 352 - Financial Management for Entrepreneurs 3 hrs
- MGMT 460 - Management Skills 3 hrs
- * MKTG 363 - Retailing 3 hrs
- * MKTG 473 - Marketing and Product Innovation 3 hrs
- * MKTG 374 - Business to Business Marketing 3 hrs
- * MKTG 430 - Marketing of Services 3 hrs

Minor Requirements:

This program does not require a minor.

Program Total:

Students must earn a minimum total of 124 credits at the 100-level or above.
Notes:

* Students may select one of these courses if not previously taken to meet marketing requirement

Critical Graduation Information:

Each undergraduate student will be responsible for the fulfillment of the requirements or their equivalents of the Eastern Michigan University catalog in force at the time of their initial registration at a college or university or a subsequent catalog including the one in effect at the time of their graduation.

In the event an undergraduate student does not complete the degree requirements within seven years of the date of their original registration at a college or university, the student may be required to have their credits re-evaluated by the academic department(s) of their major/minor in keeping with catalog requirements in force during the year of their graduation.

The following are minimum requirements for all bachelor’s degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the 100-level and above. Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Complete a Writing Intensive (WI) Course in your major.
- Earn a minimum of 60 credits from a four-year college or university; courses taken at community colleges cannot be used to meet this requirement. (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 unique credit hours in their major and 20 unique credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
- Earn no more than 60 credit hours in one subject area (prefix). Credits in excess of the 60 maximum will not be counted toward the minimum of 124 credits required for a bachelor's degree.
- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more than one major or minor.
  - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
  - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
  - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor
- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is conducted by individual departments/schools within EMU, and additional documentation may be required. Please note: EMU awards only credit for transferred courses; grades are not used in the calculation of an EMU GPA.
• Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be reached in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

General Education Requirements:

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available in the General Education section of the catalog: General Education

Students who transferred to EMU may have modified general education requirements based on Michigan Transfer Agreement (MTA) or articulation agreements; consult your academic advisor for additional information.

University Information: Consult the online catalog at catalog.emich.edu.

General Business Major

The major in general business has been designed for students seeking a broad business background rather than specialization in any one functional area of business. The program for the general business major includes a minimum of 124 hours for graduation as stipulated in the catalog.

Note:

All minors must have at least six hours of course work at the 300-level or above.

Students pursuing a COB minor must have a minimum cumulative GPA of 2.0 to enroll in 300/400 Business classes.

Students must be of Junior status (completion of 56 credit hours) to enroll in 300/400 Business classes.

Critical Graduation Information:

Each undergraduate student will be responsible for the fulfillment of the requirements or their equivalents of the Eastern Michigan University catalog in force at the time of their initial registration at a college or university or a subsequent catalog including the one in effect at the time of their graduation.

In the event an undergraduate student does not complete the degree requirements within seven years of the date of their original registration at a college or university, the student may be required to have their credits re-evaluated by the academic department(s) of their major/minor in keeping with catalog requirements in force during the year of their graduation.

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the 100-level and above. Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Complete a Writing Intensive (WI) Course in your major.
- Earn a minimum of 60 credits from a four-year college or university; courses taken at community colleges cannot be used to meet this requirement. (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 unique credit hours in their major and 20 unique credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
- Earn no more than 60 credit hours in one subject area (prefix). Credits in excess of the 60 maximum will not be counted toward the minimum of 124 credits required for a bachelor's degree.
- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more than one major or minor.
  - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
  - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
  - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor.
Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is conducted by individual departments/schools within EMU, and additional documentation may be required. Please note: EMU awards only credit for transferred courses; grades are not used in the calculation of an EMU GPA.

Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be reached in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

General Education Requirements:

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available in the General Education section of the catalog: General Education

Students who transferred to EMU may have modified general education requirements based on Michigan Transfer Agreement (MTA) or articulation agreements; consult your academic advisor for additional information.

University Information: Consult the online catalog at catalog.emich.edu.

General Business Minor - (For nonbusiness majors)

Department Information:

Management Department - College of Business

Fraya Wagner-Marsh, Ph.D., Department Head

466 Owen Bldg
(734) 487-3240
fwagnerm@emich.edu

Department Website

Required Course: 12 hours

- ACC 240 - Principles of Financial Accounting 3 hrs
- LAW 293 - Legal Environment of Business 3 hrs
- MKTG 360 - Principles of Marketing 3 hrs

One course from the following:

- MGMT 384 - Human Resource Management 3 hrs
- MGMT 386 - Organizational Behavior and Theory 3 hrs

Elective Courses: 9 hours
Any three courses offered by the COB that were not taken as a required course (not including Internships/Cooperative Education courses).

Minor Total: 21 hours

Note:

All minors must have at least six hours of course work at the 300-level or above. Students who plan to pursue the MBA degree at EMU are recommended to enroll in ACC 241 - Principles of Managerial Accounting, FIN 350 - Principles of Finance or OM 374 - Introduction to Operations Management (if prerequisite DS 265 or ECON 310 is met) to fulfill foundation courses for the MBA program.

Students pursuing a COB minor must have a minimum cumulative GPA of 2.0 to enroll in 300/400 Business classes.

Students must be of Junior status (completion of 56 credit hours) to enroll in 300/400 Business classes.

Critical Graduation Information:

Each undergraduate student will be responsible for the fulfillment of the requirements or their equivalents of the Eastern Michigan University catalog in force at the time of their initial registration at a college or university or a subsequent catalog including the one in effect at the time of their graduation.

In the event an undergraduate student does not complete the degree requirements within seven years of the date of their original registration at a college or university, the student may be required to have their credits re-evaluated by the academic department(s) of their major/minor in keeping with catalog requirements in force during the year of their graduation.

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.
MGMT 377 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr
Terms Offered: Course Rotation Schedules
Last Updated: Links 06/2012

MGMT 381 - Cooperative Education in Management

Use on a management major or minor not permitted.

Credit Hours: 1 hr
Prerequisite: MGMT 202, department permission
Notes: Admittance by application only.
Terms Offered: Course Rotation Schedules
Last Updated: Links 04/2011

MGMT 382 - Cooperative Education in Management

Use on a management major or minor not permitted.

Credit Hours: 2 hrs
Prerequisite: MGMT 202, department permission
Notes: Admittance by application only.
Terms Offered: Course Rotation Schedules
Last Updated: Links 04/2011
MGMT 384 - Human Resource Management

Industrial relations functions in business organization. Recruitment, selection, placement, training, motivation and appraisal of personnel; the scientific approach to the solution of practical problems of industrial manpower utilization.

Credit Hours: 3 hrs
Terms Offered: Course Rotation Schedules
Previously Listed As: MGT 384
Last Updated: Links 07/2011

MGMT 386 - Organizational Behavior and Theory

A survey of the theory and practice of Organizational Behavior to better understand and manage people at work through an interdisciplinary examination of individual, group and organizational issues. Critical topics are ethics, groups and teams, motivation, leadership, feedback, culture, diversity, organizational design and change.

Credit Hours: 3 hrs
Terms Offered: Course Rotation Schedules
Previously Listed As: MGT 386
Last Updated: Links 07/2011

MGMT 387 - Cooperative Education in Management

Four months of full-time employment at a business or public organization in a management position chosen for imparting practical experience in management.

Credit Hours: 3 hrs
Prerequisite: MGMT 202 and department permission
Major Restrictions: Use on a Management Major or Minor is not permitted
Notes: Offered on a credit/no-credit basis. Admittance by application only.
Terms Offered: Course Rotation Schedules
Last Updated: Links 04/2011

MGMT 388 - Introduction to Entrepreneurship

This course emphasizes the role of the entrepreneur in making integrated managerial and growth decisions for a start-up enterprise. The focus will be on developing a business plan for a new venture.

Credit Hours: 3 hrs
Terms Offered: Course Rotation Schedules
Previously Listed As: MGT 388
Last Updated: Links 07/2011

MGMT 402 - Business Report Writing

Study of principles and practices of business report writing in business, industry, education and government. Concepts, their illustrations, and applications. The creative and functional aspects in understanding the problem, gathering and organizing data, and presenting reports for management, employees and the public.

Credit Hours: 3 hrs
Prerequisite: MGMT 202
MGMT 403 - Managerial Communication: Theory and Application

A theoretical framework of key managerial communication concepts; skills used to diagnose communication problems and to communicate corporate policies.

Credit Hours: 3 hrs  
Prerequisite: MGMT 202 or department permission  
Terms Offered: Course Rotation Schedules  
Last Updated: Links 04/2011

MGMT 450 - Leadership Theories and Practice

Leadership theories and practice will provide students with knowledge of the theories of leadership as well as practice in leadership and management. Several diagnostic techniques will be used to help students understand their own leadership strengths and areas to be developed.

Credit Hours: 3 hrs  
Terms Offered: Course Rotation Schedules  
Last Updated: Links 06/2012

MGMT 457 - The Merlanti Corporate Ethics Seminar

The Merlanti seminar seeks to provide future business leaders (in part through case studies and mentoring from practitioners) with the advanced knowledge and business skills needed to identify, analyze and resolve pressing contemporary issues in corporate social responsibility and ethics.

Credit Hours: 3 hrs  
Prerequisite: department permission is required  
Terms Offered: Course Rotation Schedules  
Last Updated: Links 06/2012

MGMT 460 - Management Skills

This course will provide students with extensive practice in critical management skills such as group facilitation, project management, supervising employees and individual career management. Multiple participative techniques will be used such as case study, exercises, group projects and student presentations.

Credit Hours: 3 hrs  
Prerequisite: MGMT 384 and MGMT 386  
Terms Offered: Course Rotation Schedules  
Previously Listed As: MGT 360, MGT 281  
Last Updated: Links 04/2011

MGMT 477 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.
MGMT 478 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs
Terms Offered: Course Rotation Schedules
Last Updated: Links 06/2012

MGMT 479 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs
Terms Offered: Course Rotation Schedules
Last Updated: Links 06/2012

MGMT 480W - Management Responsibility and Ethics (GEWI)

Social, legal and moral pressures of external and community groups on business operations; management's role of responsibility and leadership in interacting with these forces, and reducing and resolving conflicts with them.

Credit Hours: 3 hrs
Class Restrictions: Senior standing or department permission
Notes: MGMT457 can be used as a substitute for this course.
Terms Offered: Course Rotation Schedules
Previously Listed As: MGMT 480, Management Responsibility in Society, MGT 480
Writing Intensive:
The Writing Intensive communication activities woven into this course's activities will give you practical experiences that apply and reinforce the written and oral communication tools you'll need as a business professional for active, ethical participation in the global community. You'll communicate through individual written and oral presentations on business ethics and corporate social responsibility case studies. Additionally, you'll work on a case study report, a team project, and will keep a journal which lets you review and reflect on the readings, cases, and daily experiences that mirror (and occasionally) contradict what the course covers. Through staged written assignments in the project, you'll demonstrate your understanding and ability to apply and communicate what you have learned in this class as well as in other management courses in terms of human resource management and leadership.
Last Updated: Links 06/2012

MGMT 481 - Managing the Entrepreneurial Venture

This course focuses on managing an entrepreneurial venture in an increasingly professional manner. Topics include: management control systems, integrating short and long-range plans, financial planning, developing and implementing human resource systems, and developing a management team.

Credit Hours: 3 hrs
Prerequisite: MGMT 388 or department permission
Terms Offered: Course Rotation Schedules
MGMT 482 - Compensation Administration

Basic concepts of design and methodology for wage and salary administration in an organization. Fundamental considerations in evaluating jobs and positions. Compensation methods and wage incentive systems.

Credit Hours: 3 hrs
Prerequisite: MGMT 384
Terms Offered: Course Rotation Schedules
Previously Listed As: MGT 482
Last Updated: Links 04/2011

MGMT 483 - Staffing Organizations

The staffing of organizations; skills needed in human resource planning, recruitment, job analysis, selection techniques and evaluation.

Credit Hours: 3 hrs
Prerequisite: MGMT 384
Terms Offered: Course Rotation Schedules
Last Updated: Links 04/2011

MGMT 484 - Management-Union Relations

Management strategy and techniques for conducting effective management-union relationships and negotiations; contract administration for both industrial and nonindustrial organizations.

Credit Hours: 3 hrs
Prerequisite: MGMT 384
Terms Offered: Course Rotation Schedules
Last Updated: Links 04/2011

MGMT 485 - Human Resource Development

Determination of training needs; development of training objectives; selection and development of resources for appropriate training experiences; implementation of training program evaluation.

Credit Hours: 3 hrs
Prerequisite: MGMT 384 or department permission
Terms Offered: Course Rotation Schedules
Previously Listed As: MGT 485
Last Updated: Links 04/2011

MGMT 486 - Organizational Change and Team Building

A practical approach to creating the organizational changes necessary for effective team-based, continual-improvement work systems. Students learn how to manage change effectively, providing a foundation for learning how to build teams and work effectively within teams. The course provides knowledge and critical skills needed for initiating and managing change and for building effective teams.
MGMT 487 - Cooperative Education in Management

Four months of full-time employment at a business or public organization in a management position chosen for imparting practical experience in management.

MGMT 488L - Field Studies in Entrepreneurship (GELB)

This course puts student teams into entrepreneurial firms to study and analyze the problems of an actual business. A comprehensive final report to the firm is required.

MGMT 489 - Management Internship

Approved on-the-job experience of students in the management internship program supplemented by seminars as appropriate.

MGMT 490 - Business Policy

Integration and analytical application of fundamental areas of business-to-case problems. Policy issues in the identification and resolution of problem situations.
Class Restrictions: Senior standing (Senior standing implies completion of the College of Business core: FIN 350, MKTG 360 and MGMT 386)
Major Restrictions: Business Administration Majors only or department permission
Terms Offered: Course Rotation Schedules
Last Updated: Links 04/2011

MGMT 492 - Managing World Business Communication

This course focuses on such issues as global management in a cultural context, breaking down international business barriers, motivation in a global context, management of culture shock, international conflict management, management and cultural synergy, and business communication practice and traditions in specific national settings.

Credit Hours: 3 hrs
Prerequisite: MGMT 202 or department permission
Terms Offered: Course Rotation Schedules
Previously Listed As: MGT 492
Last Updated: Links 04/2011

MGMT 495 - International Management

Comparisons of management concepts, processes, and practices in various countries with their differing educational, sociological, legal-political and cultural constraints. The evolution of management, and the transfer of managerial philosophy and practices to other countries.

Credit Hours: 3 hrs
Prerequisite: MGMT 386 or department permission
Terms Offered: Course Rotation Schedules
Last Updated: Links 04/2011

MGMT 496 - Current Issues in Human Resource Management

A practical application of HR management techniques to current business issues; specially designed workshop-type sessions for prospective managers, supervisors and personnel specialists.

Credit Hours: 3 hrs
Prerequisite: MGMT 384
Terms Offered: Course Rotation Schedules
Previously Listed As: MGT 496
Last Updated: Links 04/2011

MGMT 497 - Independent Study

Directed study of a problem in management not otherwise treated in department courses.

Credit Hours: 1 hr
Prerequisite: department permission
Terms Offered: Course Rotation Schedules
Last Updated: Links 06/2012

MGMT 498 - Independent Study
Directed study of a problem in management not otherwise treated in department courses.

**Credit Hours:** 2 hrs  
**Prerequisite:** department permission  
**Terms Offered:** Course Rotation Schedules  
**Last Updated:** Links 06/2012

**MGMT 499 - Independent Study**

Directed study of a problem in management not otherwise treated in department courses.

**Credit Hours:** 3 hrs  
**Prerequisite:** department permission  
**Terms Offered:** Course Rotation Schedules  
**Last Updated:** Links 06/2012
Marketing Programs and Courses

Marketing Major

International Business Major

The international business major offers a multidisciplinary focus within the College of Business that prepares students for careers in international business and related fields. The IB major is multidisciplinary, involving material from all areas of the College of Business as well as economics and foreign language required components. While the IB program is administratively housed in the Marketing Department, the IB prefix is an interdisciplinary prefix taught by professors from all business disciplines. Student advising for the IB program is handled by the Director of International Business Programs.

The IB degree is undertaken with an existing College of Business B.B.A. degree major (accounting, accounting information systems, computer information systems, economics, entrepreneurship, finance, general business, management, marketing, or supply chain management). Additionally, all IB students must fulfill a study abroad experience and prove proficiency in a second language or complete a foreign language sequence. The major varies from 124-139 hours depending on the major chosen to combine with IB.

All students must take the required courses carrying an IB prefix. Additionally, students must take the international course offering within their functional business area (e.g., an IB major in finance would require FIN 370 - International Business Finance).

The IB program of study prepares students for careers in an increasingly integrated world economy. The IB major is designed to appeal to students who favor an interdisciplinary approach to professional business studies. The major should also be appealing to international students or students who are already bilingual. The program of study emphasizes both broad-based business knowledge in international business (including a required course in international business ethics) as well as specific geographical areas of expertise (through seminars on doing business in specific nations or regions).

College of Business Academic Services

Undergraduate Academic Advising
General Education Requirements:

For specific requirements refer to the General Education Program.

Admission Criteria: 56 Hours

Students seeking admission to any program in the College of Business must complete 56 credit hours of course work to include the courses listed below.

The foundation courses for admission to the College of Business must be completed with a minimum earned grade of C- (C required for transfer courses) in each. Students must also have an EMU GPA of at least 2.50.

College of Business Foundation Courses: 21 Hours

The following seven COB courses are to be completed prior to COB admission, and count toward the total credit hours required for this major.

- ACC 240 - Principles of Financial Accounting 3 hrs
- ACC 241 - Principles of Managerial Accounting 3 hrs
- COB 200L - Introduction to Business (GELB) 3 hrs
- DS 265 - Business Statistics I 3 hrs
- IS 215 - Information Systems for Business 3 hrs
- LAW 293 - Legal Environment of Business 3 hrs
- MGMT 202 - Business Communication 3 hrs

Non-College of Business Foundation Courses: 15 Hours

- CTAC 124 - Foundations of Speech Communication (GEEC) 3 hrs
- ECON 201 - Principles of Macroeconomics (GEKS) 3 hrs
- ECON 202 - Principles of Microeconomics (GEKS) 3 hrs
- ENGL 121 - Composition II: Researching the Public Experience (GEEC) 3 hrs or WRTG 121 - Composition II: Researching the Public Experience (GEEC) 3 hrs
- Quantitative Reasoning (GEQR) requirement 3 hrs

Additional Coursework: 20 Hours

In addition to the courses listed above, students must complete an additional 20 credit hours of course work prior to admission to the College of Business.

Major Requirements: 60-66 hours
Business Core: 36 Hours

College of Business Foundation Courses: 21 Hours

The following COB courses are to be completed prior to admission, and count towards the total credit hours required for this major.

- ACC 240 - Principles of Financial Accounting 3 hrs
- ACC 241 - Principles of Managerial Accounting 3 hrs
- COB 200L - Introduction to Business (GELB) 3 hrs
- DS 265 - Business Statistics I 3 hrs
- IS 215 - Information Systems for Business 3 hrs
- LAW 293 - Legal Environment of Business 3 hrs
- MGMT 202 - Business Communication 3 hrs

Post Admission Core Requirement: 15 Hours

- FIN 350 - Principles of Finance 3 hrs
- MGMT 386 - Organizational Behavior and Theory 3 hrs
- MGMT 490 - Business Policy 3 hrs
- MKTG 360 - Principles of Marketing 3 hrs
- OM 374 - Introduction to Operations Management 3 hrs

Note: All 300-level Core Courses listed above must be completed before enrollment in MGMT 490 - Business Policy. OM 374 can be taken concurrently with MGMT 490.

Area Studies Requirements: 4.5 hours

- **** IB 375 - Doing Business in Countries/Regions 1.5 hrs

Required IB Courses: 4.5 hours

- IB 210 - Fundamentals of Global Business (GEGA) 3 hrs
- IB 370 - International Business Ethics 1.5 hrs

Restricted Elective Course: 15 hours

The number of electives a student takes depends on the number of required IB restricted electives required in your major as indicated under each functional area.

- ACC 475 - International Accounting 3 hrs
- ECON 370 - Comparative Economic Systems 3 hrs
- ECON 480W - International Economics (GEWI) 3 hrs
- FIN 370 - International Business Finance 3 hrs
- FLAN 489 - Internship in Language and International Trade 3 hrs
- IB 475 - International Business: Study Abroad Perspective 3 hrs
• IB 479 - Special Topics 3 hrs
• LAW 350 - International Business Law 3 hrs
• MGMT 492 - Managing World Business Communication 3 hrs
• MGMT 495 - International Management 3 hrs
• MKTG 375 - International Business Transactions 3 hrs
• MKTG 460 - International Marketing 3 hrs

Language Requirements: 0-6 hours

All international business students must complete (FRNH, GERN, JPNE, SPNH) 261. Depending on the past foreign language learning experience of individual students, they may be able to enter 261 directly. Conversely, students may need to begin foreign language study at a lower level, to be determined by the placement test in the Department of World Languages.

**see note

• FRNH 261 - Introduction to Professional Language Study 3 hrs
• GERN 261 - Introduction to Professional Language Study 3 hrs
• JPNE 261 - Introduction to Professional Language Study 3 hrs

Functional Areas: 24-36 hours

Choose one of the following functional areas: Accounting, Accounting Information Systems, Computer Information Systems, Economics, Entrepreneurship, Finance, General Business, Management, Marketing or Supply Chain Management.

I. Accounting: 24 hours

Required Courses:

• ACC 296 - The Accounting Cycle and Profession 3 hrs
• ACC 340 - Intermediate Accounting 3 hrs
• ACC 342 - Managerial Cost Accounting 3 hrs
• ACC 344 - Principles of Taxation 3 hrs
• ACC 356 - Accounting Information Systems 3 hrs
• ACC 475 - International Accounting 3 hrs
• ACC 496W - Financial Management and Controllership (GEWI) 3 hrs

Restricted Electives:

Choose one course from the following: (ACC 475 is required to fulfill the international business restricted electives)

• ACC 442 - Advanced Cost Accounting 3 hrs
• ACC 450 - Internal Auditing 3 hrs
• ACC 479 - Special Topics 3 hrs
• ACC 491 - Accounting Honors Thesis 3 hrs
• ACC 499 - Directed Studies 3 hrs

II. Accounting Information Systems: 36 hours
Required Courses:

- ACC 296 - The Accounting Cycle and Profession 3 hrs
- ACC 340 - Intermediate Accounting 3 hrs
- ACC 342 - Managerial Cost Accounting 3 hrs
- ACC 344 - Principles of Taxation 3 hrs
- ACC 356 - Accounting Information Systems 3 hrs
- ACC 456 - Accounting Information Systems Implementation and Projects 3 hrs
- ACC 496W - Financial Management and Controllership (GEWI) 3 hrs
- IS 247 - Introduction to Web Application Development 3 hrs
- IS 315 - Object-Oriented Application Development 3 hrs
- IS 320 - Business Data Communications and Information Security 3 hrs
- IS 380 - Introduction to Databases 3 hrs

III. Computer Information Systems: 30 hours

Required Courses:

- IS 247 - Introduction to Web Application Development 3 hrs
- IS 315 - Object-Oriented Application Development 3 hrs
- IS 320 - Business Data Communications and Information Security 3 hrs
- IS 380 - Introduction to Databases 3 hrs
- IS 413 - IT Infrastructure and Network Security 3 hrs
- IS 417 - Systems Analysis and Design 3 hrs
- IS 421 - Enterprise Database Application 3 hrs
- IS 425 - IS Project and Risk Management 3 hrs
- IS 449W - IS Strategy, Management & Acquisition (GEWI) 3 hrs

Restricted Electives:

Choose one course from the following:

- IS 350 - Enterprise Resource Planning and Architecture 3 hrs
- IS 410 - Business Intelligence 3 hrs
- IS 416 - System Software Administration 3 hrs

IV. Entrepreneurship: 24 hours

Required Courses:

- MGMT 384 - Human Resource Management 3 hrs
- MGMT 388 - Introduction to Entrepreneurship 3 hrs
- MGMT 480W - Management Responsibility and Ethics (GEWI) 3 hrs
- MGMT 481 - Managing the Entrepreneurial Venture 3 hrs
- MGMT 488L - Field Studies in Entrepreneurship (GELB) 3 hrs
Choose one course from the following:

- MKTG 363 - Retailing 3 hrs
- MKTG 374 - Business to Business Marketing 3 hrs
- MKTG 430 - Marketing of Services 3 hrs
- MKTG 479 - Special Topics 3 hrs

Choose two courses from the following: (Marketing choices selected above cannot be selected here)

- ACC 342 - Managerial Cost Accounting 3 hrs
- ACC 344 - Principles of Taxation 3 hrs
- FIN 352 - Financial Management for Entrepreneurs 3 hrs
- MKTG 363 - Retailing 3 hrs
- MKTG 374 - Business to Business Marketing 3 hrs
- MKTG 430 - Marketing of Services 3 hrs
- MKTG 460 - International Marketing 3 hrs
- MKTG 473 - Marketing and Product Innovation 3 hrs
- MGMT 460 - Management Skills 3 hrs

V. Economics: 24 hours

Required Courses:

- ECON 310 - Economic Statistics 3 hrs
- ECON 370 - Comparative Economic Systems 3 hrs
- ECON 411 - Intermediate Macroeconomic Analysis 3 hrs
- ECON 412 - Intermediate Microeconomic Analysis 3 hrs
- ECON 415 - Introduction to Econometrics 3 hrs
- ECON 480W - International Economics (GEWI) 3 hrs

Restricted Electives:

*Choose two courses from any 300-400 level economics course. Choose one course if you chose ECON 370 under international business restricted electives. ECON 480W is required to fulfill the international business restricted electives. (Business related topics are suggested.)*

VI. Finance: 24 hours

Required Courses:

- FIN 354 - Investments 3 hrs
- FIN 357 - Financial Markets and Institutions 3 hrs
- FIN 359 - Intermediate Financial Theory 3 hrs
- FIN 370 - International Business Finance 3 hrs
- FIN 450W - Problems in Financial Management (GEWI) 3 hrs
Restricted Electives:

Choose three courses from the following: (FIN 370 is required to fulfill the international business restricted electives)

- ACC 358 - Analysis of Financial Statements 3 hrs
- ECON 445W - Economic Fluctuations and Forecasting (GEWI) 3 hrs
- FIN 352 - Financial Management for Entrepreneurs 3 hrs
- FIN 451 - Introduction to Speculative Markets 3 hrs
- FIN 453 - Commercial Banking 3 hrs
- FIN 454 - Mortgage Banking 3 hrs
- FIN 479 - Special Topics 3 hrs

VII. General Business: 24 hours

Required Courses:

- MGMT 384 - Human Resource Management 3 hrs
- MGMT 388 - Introduction to Entrepreneurship 3 hrs
- MGMT 460 - Management Skills 3 hrs
- MGMT 480W - Management Responsibility and Ethics (GEWI) 3 hrs

Restricted Electives:

Choose four courses from at least three different departments in the College of Business. At least two courses must be at the 300-400 level. (The restricted elective requirement may be fulfilled by completing the international business restricted elective requirements.)

VIII. Management: 24 hours

Required Courses:

- MGMT 384 - Human Resource Management 3 hrs
- MGMT 460 - Management Skills 3 hrs
- MGMT 480W - Management Responsibility and Ethics (GEWI) 3 hrs
- MGMT 486 - Organizational Change and Team Building 3 hrs
- MGMT 492 - Managing World Business Communication 3 hrs
- MGMT 495 - International Management 3 hrs

Restricted Electives:

Choose two courses from the following:

- MGMT 388 - Introduction to Entrepreneurship 3 hrs
- MGMT 403 - Managerial Communication: Theory and Application 3 hrs
- MGMT 450 - Leadership Theories and Practice 3 hrs
- MGMT 479 - Special Topics 3 hrs
- MGMT 481 - Managing the Entrepreneurial Venture 3 hrs
IX. Marketing: 24 hours

Required Courses:

- MKTG 261 - Contemporary Selling 3 hrs
- MKTG 365 - Consumer Behavior 3 hrs
- MKTG 368W - Marketing Strategy (GEWI) 3 hrs
- MKTG 375 - International Business Transactions 3 hrs
- MKTG 460 - International Marketing 3 hrs
- MKTG 470 - Marketing Research 3 hrs
- MKTG 475 - Marketing Planning and Management 3 hrs

Restricted Electives:

Choose one course from the following:

- MKTG 363 - Retailing 3 hrs
- MKTG 369 - Advertising 3 hrs
- MKTG 374 - Business to Business Marketing 3 hrs
- MKTG 425 - Sports and Event Marketing 3 hrs
- MKTG 430 - Marketing of Services 3 hrs
- MKTG 444 - Direct and Interactive Marketing 3 hrs
- MKTG 461 - Sales Management 3 hrs
- MKTG 473 - Marketing and Product Innovation 3 hrs
- MKTG 474 - Promotional Strategy 3 hrs
- MKTG 479 - Special Topics 3 hrs
- MKTG 499 - Independent Study 3 hrs
- SCM 380 - Introduction to Supply Chain Management 3 hrs
- SCM 385 - Logistics 3 hrs

X. Supply Chain Management: 27 hours

Required Courses:

- IB 210 - Fundamentals of Global Business (GEGA) 3 hrs
- SCM 380 - Introduction to Supply Chain Management 3 hrs
- SCM 385 - Logistics 3 hrs
- SCM 386 - Purchasing and Supply Management 3 hrs
- SCM 465W - Global Supply Chain Management (GEWI) 3 hrs
Restricted Electives: (Choose four from the following)

- DOTS 346 - Industrial Climate 3 hrs
- IS 350 - Enterprise Resource Planning and Architecture 3 hrs
- LAW 350 - International Business Law 3 hrs
- MKTG 363 - Retailing 3 hrs
- MKTG 368W - Marketing Strategy (GEWI) 3 hrs
- MKTG 374 - Business to Business Marketing 3 hrs
- SCM 420 - Operations Planning and Scheduling in Supply Chain 3 hrs
- SCM 464 - Advanced Logistics 3 hrs
- QUAL 320 - Industrial Quality Control 3 hrs

Minor Requirements:

This program does not require a minor.

Program Total:

Students must earn a minimum total of 124 credits at the 100-level or above.

Notes:

** Foreign language credits may be used to satisfy General Education requirements. Students who have learned English as a second language may have minimum requirements of French, German, Japanese or Spanish waived.

**** Students must take IB 375 three times to fulfill requirements as course content will change each semester to a different country or subregion within the broader area of study.

Critical Graduation Information:

Each undergraduate student will be responsible for the fulfillment of the requirements or their equivalents of the Eastern Michigan University catalog in force at the time of their initial registration at a college or university or a subsequent catalog including the one in effect at the time of their graduation.

In the event an undergraduate student does not complete the degree requirements within seven years of the date of their original registration at a college or university, the student may be required to have their credits re-evaluated by the academic department(s) of their major/minor in keeping with catalog requirements in force during the year of their graduation.

The following are minimum requirements for all bachelor’s degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the 100-level and above. Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Complete a Writing Intensive (WI) Course in your major.
- Earn a minimum of 60 credits from a four-year college or university; **courses taken at community colleges cannot be used to meet this requirement.** (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 **unique** credit hours in their major and 20 **unique** credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
- Earn no more than 60 credit hours in one subject area (prefix). Credits in excess of the 60 maximum will not be counted toward the minimum of 124 credits required for a bachelor's degree.
- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more that one major or minor.
  - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
  - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
  - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor
- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is conducted by individual departments/schools within EMU, and additional documentation may be required. **Please note:** EMU awards only credit for transferred courses; grades are not used in the calculation of an EMU GPA.
- Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be reached in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

**General Education Requirements:**

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available in the General Education section of the catalog: General Education

Students who transferred to EMU may have modified general education requirements based on Michigan Transfer Agreement (MTA) or articulation agreements; consult your academic advisor for additional information.

**University Information:** Consult the online catalog at catalog.emich.edu.

**Marketing Major**

**Revised Program, effective Fall 2014**

The marketing major offers career preparation in sports marketing, advertising and sales promotion, international business, marketing research, purchasing and materials management, retailing, marketing channels, and sales and sales management. Students may select any nine-hour combination of eligible marketing electives, but they are encouraged to focus on their anticipated career path.
The general requirements for the bachelor of business administration degree, the academic major requirements below and sufficient electives to meet the minimum of 124 hours for graduation must be completed.

General Education Requirements:

For specific requirements refer to the General Education Program.

Admission Criteria: 56 Hours

Students seeking admission to any program in the College of Business must complete 56 credit hours of course work to include the courses listed below.

The foundation courses for admission to the College of Business must be completed with a minimum earned grade of C- (C required for transfer courses) in each. Students must also have an EMU GPA of at least 2.50.

College of Business Foundation Courses: 21 Hours

The following seven COB courses are to be completed prior to COB admission, and count toward the total credit hours required for this major.

- ACC 240 - Principles of Financial Accounting 3 hrs
- ACC 241 - Principles of Managerial Accounting 3 hrs
- COB 200L - Introduction to Business (GELB) 3 hrs
- DS 265 - Business Statistics I 3 hrs
- IS 215 - Information Systems for Business 3 hrs
- LAW 293 - Legal Environment of Business 3 hrs
• MGMT 202 - Business Communication 3 hrs

Non-College of Business Foundation Courses: 15 Hours

• CTAC 124 - Foundations of Speech Communication (GEEC) 3 hrs
• ECON 201 - Principles of Macroeconomics (GEKS) 3 hrs
• ECON 202 - Principles of Microeconomics (GEKS) 3 hrs
• ENGL 121 - Composition II: Researching the Public Experience (GEEC) 3 hrs
  or WRTG 121 - Composition II: Researching the Public Experience (GEEC) 3 hrs
• Quantitative Reasoning (GEQR) requirement 3 hrs

Additional Coursework: 20 Hours

In addition to the courses listed above, students must complete an additional 20 credit hours of course work prior to admission to the College of Business.

Major Requirements: 60 hours

Business Core: 36 Hours

College of Business Foundation Courses: 21 Hours

The following COB courses are to be completed prior to admission, and count towards the total credit hours required for this major.

• ACC 240 - Principles of Financial Accounting 3 hrs
• ACC 241 - Principles of Managerial Accounting 3 hrs
• COB 200L - Introduction to Business (GELB) 3 hrs
• DS 265 - Business Statistics I 3 hrs
• IS 215 - Information Systems for Business 3 hrs
• LAW 293 - Legal Environment of Business 3 hrs
• MGMT 202 - Business Communication 3 hrs

Post Admission Core Requirement: 15 Hours

• FIN 350 - Principles of Finance 3 hrs
• MGMT 386 - Organizational Behavior and Theory 3 hrs
• MGMT 490 - Business Policy 3 hrs
• MKTG 360 - Principles of Marketing 3 hrs
• OM 374 - Introduction to Operations Management 3 hrs

  Note: All 300-level Core Courses listed above must be completed before enrollment in MGMT 490 - Business Policy.
  OM 374 can be taken concurrently with MGMT 490.

Discipline: 24 hours

Required Courses: 15 hours
• MKTG 261 - Contemporary Selling 3 hrs
• MKTG 365 - Consumer Behavior 3 hrs
• MKTG 368W - Marketing Strategy (GEWI) 3 hrs
• MKTG 470 - Marketing Research 3 hrs
• MKTG 475 - Marketing Planning and Management 3 hrs

Concentration Courses: 9 hours

(Choose 2 or 3 from Integrated Marketing Communications Concentration or 2 for the other concentrations + 1 from the list of Restricted Electives or any three from the list of Restricted Electives except Sports Marketing Concentration)

Integrated Marketing Communications:

• MKTG 369 - Advertising 3 hrs
• MKTG 474 - Promotional Strategy 3 hrs
• MKTG 444 - Direct and Interactive Marketing 3 hrs

Sports Marketing:

must do all three

• MKTG 425 - Sports and Event Marketing 3 hrs
• MKTG 426 - Sponsorship 3 hrs
• LAW 411 - Sports Law 3 hrs

Retailing:

• MKTG 363 - Retailing 3 hrs
• MKTG 430 - Marketing of Services 3 hrs

Business to Business (B2B):

• MKTG 374 - Business to Business Marketing 3 hrs
• SCM 385 - Logistics 3 hrs

Sales:

• MKTG 361 - Advanced Professional Selling 3 hrs (Prerequisite: MKTG 261 & MKTG 360)
• MKTG 461 - Sales Management 3 hrs

Eligible Restricted Electives:

All of the following have MKTG 360 as a prerequisite, except where noted

• MKTG 361 - Advanced Professional Selling 3 hrs (MKTG 261)
• MKTG 363 - Retailing 3 hrs
• MKTG 369 - Advertising 3 hrs
- MKTG 374 - Business to Business Marketing 3 hrs
- MKTG 375 - International Business Transactions 3 hrs
- MKTG 425 - Sports and Event Marketing 3 hrs
- MKTG 426 - Sponsorship 3 hrs
- MKTG 430 - Marketing of Services 3 hrs
- MKTG 444 - Direct and Interactive Marketing 3 hrs
- MKTG 460 - International Marketing 3 hrs
- MKTG 461 - Sales Management 3 hrs (MKTG 261)
- MKTG 473 - Marketing and Product Innovation 3 hrs
- MKTG 474 - Promotional Strategy 3 hrs (MKTG 369)
- MKTG 479 - Special Topics 3 hrs
- MKTG 499 - Independent Study 3 hrs
- SCM 380 - Introduction to Supply Chain Management 3 hrs (no prerequisite)
- SCM 385 - Logistics 3 hrs

**Minor Requirements:**

This program does not require a minor.

**Program Total:**

Students must earn a minimum total of 124 credits at the 100-level or above.

**Critical Graduation Information:**

Each undergraduate student will be responsible for the fulfillment of the requirements or their equivalents of the Eastern Michigan University catalog in force at the time of their initial registration at a college or university or a subsequent catalog including the one in effect at the time of their graduation.

In the event an undergraduate student does not complete the degree requirements within seven years of the date of their original registration at a college or university, the student may be required to have their credits re-evaluated by the academic department(s) of their major/minor in keeping with catalog requirements in force during the year of their graduation.

- MKTG 360 - Principles of Marketing 3 hrs
- OM 374 - Introduction to Operations Management 3 hrs

Note: All 300-level Core Courses listed above must be completed before enrollment in MGMT 490 - Business Policy. OM 374 can be taken concurrently with MGMT 490.

Supply Chain Management Required Courses: 15 Hours

- IB 210 - Fundamentals of Global Business (GEGA) 3 hrs
- SCM 380 - Introduction to Supply Chain Management 3 hrs
- SCM 385 - Logistics 3 hrs
- SCM 386 - Purchasing and Supply Management 3 hrs
- SCM 465W - Global Supply Chain Management (GEWI) 3 hrs

Restricted Electives: 12 Hours

Choose four courses from the following:

- DOTS 346 - Industrial Climate 3 hrs
- IS 350 - Enterprise Resource Planning and Architecture 3 hrs
- LAW 350 - International Business Law 3 hrs
- MKTG 363 - Retailing 3 hrs
- MKTG 368W - Marketing Strategy (GEWI) 3 hrs
- MKTG 374 - Business to Business Marketing 3 hrs
- QUAL 320 - Industrial Quality Control 3 hrs
• SCM 420 - Operations Planning and Scheduling in Supply Chain 3 hrs
• SCM 464 - Advanced Logistics 3 hrs

Program Total:

Students must earn a minimum total of 124 credits at the 100-level or above.

Critical Graduation Information:

Each undergraduate student will be responsible for the fulfillment of the requirements or their equivalents of the Eastern Michigan University catalog in force at the time of their initial registration at a college or university or a subsequent catalog including the one in effect at the time of their graduation.

In the event an undergraduate student does not complete the degree requirements within seven years of the date of their original registration at a college or university, the student may be required to have their credits re-evaluated by the academic department(s) of their major/minor in keeping with catalog requirements in force during the year of their graduation.

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

• Earn a minimum total of 124 credits at the 100-level and above. Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.
• Meet the requirements of the General Education program (see information below).
• Complete a Writing Intensive (WI) Course in your major.
• Earn a minimum of 60 credits from a four-year college or university; courses taken at community colleges cannot be used to meet this requirement. (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
• Earn a minimum of 30 credits from courses taken at EMU.
• Complete 10 of the last 30 hours for the degree from courses taken at EMU.
• Have a minimum of 30 unique credit hours in their major and 20 unique credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
• Earn no more than 60 credit hours in one subject area (prefix). Credits in excess of the 60 maximum will not be counted toward the minimum of 124 credits required for a bachelor's degree.
• Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more that one major or minor.
  ○ Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
  ○ Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
  ○ Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor
• Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is conducted by individual departments/schools within EMU, and
additional documentation may be required. Please note: EMU awards only credit for transferred courses; grades are not used in the calculation of an EMU GPA.

- Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be reached in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

General Education Requirements:

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available in the General Education section of the catalog: General Education

Students who transferred to EMU may have modified general education requirements based on Michigan Transfer Agreement (MTA) or articulation agreements; consult your academic advisor for additional information.

University Information: Consult the online catalog at catalog.emich.edu.

Minor

International Business Minor

Most EMU Students will pursue careers that have an international dimension to them. This is true even for students choosing to stay within Southeastern Michigan. An International Business Minor will allow EMU graduates to raise their consciousness about the impact of globalization on their professions and their communities. It will promote discourse and understanding both during students' time at EMU and beyond.

This minor is only open to non-business majors.

Critical Graduation Information:

Each undergraduate student will be responsible for the fulfillment of the requirements or their equivalents of the Eastern Michigan University catalog in force at the time of their initial registration at a college or university or a subsequent catalog including the one in effect at the time of their graduation.

In the event an undergraduate student does not complete the degree requirements within seven years of the date of their original registration at a college or university, the student may be required to have their credits re-evaluated by the academic department(s) of their major/minor in keeping with catalog requirements in force during the year of their graduation.

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the 100-level and above. Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Complete a Writing Intensive (WI) Course in your major.
- Earn a minimum of 60 credits from a four-year college or university; courses taken at community colleges cannot be used to meet this requirement. (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 unique credit hours in their major and 20 unique credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
- Earn no more than 60 credit hours in one subject area (prefix). Credits in excess of the 60 maximum will not be counted toward the minimum of 124 credits required for a bachelor's degree.
- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more that one major or minor.
  - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
  - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
  - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor.
- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is conducted by individual departments/schools within EMU, and additional documentation may be required. Please note: EMU awards only credit for transferred courses; grades are not used in the calculation of an EMU GPA.
- Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be reached in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

General Education Requirements:
EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available in the General Education section of the catalog: General Education

Students who transferred to EMU may have modified general education requirements based on Michigan Transfer Agreement (MTA) or articulation agreements; consult your academic advisor for additional information.

**University Information:** Consult the online catalog at catalog.emich.edu.

**International Business**

**IB 210 - Fundamentals of Global Business (GEGA)**

Focuses on the globalization phenomenon and its impact on business. Critical country factors such as economic, political, legal, social and cultural factors as well as developmental issues of technology, environment and infrastructure and their relevance in global business will be discussed. The course also looks at the integrated and interdependent nature of business relations among nations and people. It examines components of global business such as global trade and foreign direct investment.

**Credit Hours:** 3 hrs  
**Terms Offered:** Course Rotation Schedules  
**Perspectives on a Diverse World:**  
IB210 introduces students to cultural, social, economic and political perspectives that influence commerce today. The focus of IB210 is placed on awareness and understanding the perspectives and assumptions required by a pluralist global community. Global awareness requires that students understand and appreciate the ways, economic, social and cultural differences and similarities structure human experiences and knowledge. To achieve this, students will read articles, discuss cases, view videos, attend lectures and complete exercises which examine the globalization of cultures, economies and political, legal, social, technological and ecological systems and their impact on businesses, organization and people worldwide. Students also discuss the integrated and interdependent nature of business relations among nations and citizens of the world. They examine components of global business such as global trade and investment as well as human exchange. As part of their general education, EMU undergraduate students should understand that the world is no longer circumscribed by the boundaries of nations and continents.

**Last Updated:** Links 06/2012

**IB 277 - Special Topics**

An experimental course designed to investigate specific topics of concern in specialization areas.

**Credit Hours:** 1 hr  
**Prerequisite:** department permission  
**Terms Offered:** Course Rotation Schedules  
**Last Updated:** Links 06/2012

**IB 278 - Special Topics**

An experimental course designed to investigate specific topics of concern in specialization areas.

**Credit Hours:** 2 hrs

**Last Updated:** Links 06/2012

**IB 279 - Special Topics**
An experimental course designed to investigate specific topics of concern in specialization areas.

**IB 370 - International Business Ethics**

This course examines business ethics as applied internationally. The course focuses on compliance with laws mandating ethical standards in international business situations; business ethics as applied globally relative to different cultures and countries; and global corporate social responsibility.

**Credit Hours:** 1.5 hrs  
**Concurrent Prerequisite:** IB 375  
**Terms Offered:** Course Rotation Schedules  
**Last Updated:** Links 04/2011

**IB 375 - Doing Business in Countries/Regions**

This seminar addresses how to conduct business in the indicated region or country, addressing its specific business environment, culture and business operations, using U.S. corporate practice as the point of comparison. The central purpose of this course is to provide a practical basis for effective business practice for the business person involved in the designated market. The subject nation or region rotates (e.g., doing business in Germany; doing business in Japan, etc.), although the structure for the course remains consistent. In this way, students approach doing business in several nations or regions using a common frame or reference.

**Credit Hours:** 1.5 hrs  
**Concurrent Prerequisite:** IB 210  
**Terms Offered:** Course Rotation Schedules  
**Last Updated:** Links 04/2011

**IB 377 - Special Topics**

An experimental course designed to investigate specific topics of concern in specialization areas.

**Credit Hours:** 1 hr  
**Prerequisite:** department permission  
**Terms Offered:** Course Rotation Schedules  
**Last Updated:** Links 06/2012

**IB 378 - Special Topics**

An experimental course designed to investigate specific topics of concern in specialization areas.

**Credit Hours:** 2 hrs

**Last Updated:** Links 06/2012

**IB 475 - International Business: Study Abroad Perspective**

This course is a rigorous course of study taught by faculty at a non-US campus at host universities and led by an EMU faculty member. The course will address the business and cross-cultural issues in the country or countries in which the course take place.

**Credit Hours:** 3 hrs  
**Prerequisite:** IB 210  
**Terms Offered:** Course Rotation Schedules  
**Last Updated:** Links 04/2011

**IB 477 - Special Topics**

An experimental course designed to investigate specific topics of concern in specialization areas.

**Credit Hours:** 1 hr  
**Prerequisite:** department permission  
**Terms Offered:** Course Rotation Schedules  
**Last Updated:** Links 06/2012

**IB 478 - Special Topics**

An experimental course designed to investigate specific topics of concern in specialization areas.

**Credit Hours:** 2 hrs  
**Prerequisite:** department permission  
**Terms Offered:** Course Rotation Schedules  
**Last Updated:** Links 06/2012

**IB 479 - Special Topics**

An experimental course designed to investigate specific topics of concern in specialization areas.

**Credit Hours:** 3 hrs  
**Prerequisite:** department permission  
**Terms Offered:** Course Rotation Schedules  
**Last Updated:** Links 06/2012

**IB 497 - Independent Study**

Advanced study on an individual basis in areas in which the department does not offer a formal course.

**Credit Hours:** 1 hr  
**Prerequisite:** department permission
IB 498 - Independent Study

Advanced study on an individual basis in areas in which the department does not offer a formal course.

Credit Hours: 2 hrs
Prerequisite: department permission

IB 499 - Independent Study

Advanced study on an individual basis in areas in which the department does not offer a formal course.

Credit Hours: 3 hrs
Prerequisite: department permission

Law

LAW 293 - Legal Environment of Business

The judicial system and legal procedure, crimes and torts, contractual arrangements, sales of goods and other transactions under the Uniform Commercial Code.

Credit Hours: 3 hrs

LAW 350 - International Business Law

The course will focus on international business law applicable to international business transactions. Topics covered will include comparable legal systems in the world and the law relative to 1) international sales, transport, credit and commercial agreements; 2) trade law including imports, customs, tariff regulations/agreements, regional free trade areas; 3) regulation of the marketplace including licensing, patent, advertising, sales representation, foreign investment and business formation, currency risk, anti-trust, employment and environmental law.

Credit Hours: 3 hrs

LAW 393 - Law of Business Enterprises

The law of forms of business enterprise and negotiable instruments. Agency, partnerships, corporations and negotiable instruments.

Credit Hours: 3 hrs
**Prerequisite:** LAW 293 or department permission

**Terms Offered:** Course Rotation Schedules

**Last Updated:** Links 04/2011

**LAW 403 - Employment Law**

The legal framework within which business (or public) managers must make employment and labor relations decisions; includes laws relative to labor relations, discrimination, affirmative action, occupational health and safety, wage-hour, wrongful discharge, workers compensation, etc.

**Credit Hours:** 3 hrs

**Terms Offered:** Course Rotation Schedules

**Last Updated:** Links 06/2012

**LAW 411 - Sports Law**

This is a survey course that examines sports and recreation law including legal issues associated with sports, sporting events, sports related industries, sports programs, athletic education, recreation management, etc. Topics include: negligence, property and premises law, torts and criminal law, risk management, contract law, constitutional law and sports legislation.

**Credit Hours:** 3 hrs

**Terms Offered:** Course Rotation Schedules

**Last Updated:** Links 06/2012

**LAW 425 - E-Commerce Law**

A survey course on the basics of e-commerce law including the legal framework and issues and risks of doing e-commerce business. Topics studied include e-contracting, privacy and security, cyber-torts and crimes, jurisdiction, and dispute resolution, securities offerings, cyber-financing including banking and e-money, taxation, copyrights and trademarks.

**Credit Hours:** 3 hrs

**Class Restrictions:** Junior standing

**Terms Offered:** Course Rotation Schedules

**Last Updated:** Links 06/2012

**LAW 430 - Ethics and Legal Compliance**

A general course on ethics compliance relative to business and related professions. The course will focus on understanding and insuring both ethical and legal compliance with specific laws on topics such as employment, consumer protection, privacy, financial regulation (corporate governance and SOX), the environment and medicine.

**Credit Hours:** 3 hrs

**Terms Offered:** Course Rotation Schedules

**Last Updated:** Links 06/2012

**LAW 456 - Environmental Law**

This is an introductory survey course designed for students who seek employment in science, business, and/or nonprofits. The course covers Federal legislation that deals with current environmental issues. No prior knowledge of law, public administration, or business is required.
Credit Hours: 3 hrs  
Class Restrictions: Sophomore standing or above  
Terms Offered: Course Rotation Schedules  
Last Updated: Links 06/2012

**LAW 477 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr  
Prerequisite: LAW 293  
Terms Offered: Course Rotation Schedules  
Last Updated: Links 04/2011

**LAW 478 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs  
Prerequisite: LAW 293  
Terms Offered: Course Rotation Schedules  
Last Updated: Links 04/2011

**LAW 479 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs  
Prerequisite: LAW 293  
Terms Offered: Course Rotation Schedules  
Last Updated: Links 04/2011

**LAW 497 - Independent Study**

Directed study of a problem in business law not otherwise treated in department courses.

Credit Hours: 1 hr  
Prerequisite: department permission  
Terms Offered: Course Rotation Schedules  
Last Updated: Links 06/2012

**LAW 498 - Independent Study**

Directed study of a problem in business law not otherwise treated in department courses.

Credit Hours: 2 hrs  
Prerequisite: department permission
LAW 499 - Independent Study

Directed study of a problem in business law not otherwise treated in department courses.

Credit Hours: 3 hrs
Prerequisite: department permission

LAW 503 - Legal Environment of Business

This course covers topics in business law, ethics and the law of enterprises. Material includes the substantive law of contracts and torts, agency and enterprise formation, including limited liability companies, corporations and securities laws. Business ethics are taught from a legal perspective.

Credit Hours: 3 hrs

Marketing

MKTG 177 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr

MKTG 178 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs

MKTG 179 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs
MKTG 261 - Contemporary Selling

Introduction of the basic principles of personal selling, as used in profit and nonprofit organizations. Included are small case analyses, evaluation of sales presentations, and skill development using video recorded role-plays.

Credit Hours: 3 hrs
Terms Offered: Course Rotation Schedules
Last Updated: Links 06/2012

MKTG 277 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr
Terms Offered: Course Rotation Schedules
Last Updated: Links 06/2012

MKTG 278 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs
Terms Offered: Course Rotation Schedules
Last Updated: Links 06/2012

MKTG 279 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs
Terms Offered: Course Rotation Schedules
Last Updated: Links 06/2012

MKTG 285 - Cooperative Education

Employment at a business or public organization in a marketing position.

Credit Hours: 1 hr
Notes: General elective credit only. Offered on a credit/no-credit basis
Terms Offered: Course Rotation Schedules
Last Updated: Links 06/2012

MKTG 286 - Cooperative Education

Employment at a business or public organization in a marketing position.

Credit Hours: 2 hrs
Notes: General elective credit only. Offered on a credit/no-credit basis
**MKTG 287 - Cooperative Education**

Employment at a business or public organization in a marketing position.

**Credit Hours:** 3 hrs  
**Notes:** General elective credit only. Offered on a credit/no-credit basis

---

**MKTG 360 - Principles of Marketing**

Marketplace exchanges; the relationship between marketing activities of the organization and the consumer.

**Credit Hours:** 3 hrs

---

**MKTG 361 - Advanced Professional Selling**

This course is intended to help students add depth to their skill sets and increase their marketability. It covers topics such as customer relationship building, negotiation techniques, financial value analysis, account management, and team selling. Teaching methods such as case studies, role-plays, group exercises, and guest speakers will be used.

**Credit Hours:** 3 hrs  
**Repeatable for Credit:** No  
**Prerequisite:** MKTG 261 and MKTG 360  
**Class Restrictions:** Junior, Senior, Second Bacc., and Teacher Cert.  
**Notes:** Department Permission  
**Last Updated:** New Course 2/2014, effective Fall 2014

---

**MKTG 363 - Retailing**

The practices of retail store management: store location, layout, organization, buying systems, sales promotion activities, customer services and store operating expenses.

**Credit Hours:** 3 hrs  
**Prerequisite:** MKTG 360  
**Class Restrictions:**  
**Terms Offered:** Course Rotation Schedules  
**Last Updated:** Links 04/2011

---

**MKTG 365 - Consumer Behavior**

The study of the basic factors influencing consumer behavior, including the roles of affect, cognition, behavior and the environment. Models designed to explain consumer behavior will be explored, as well as implications for public policy and the development of marketing strategies.

**Credit Hours:** 3 hrs  
**Prerequisite:** MKTG 360 and PSY 101
MKTG 368W - Marketing Strategy (GEWI)

Advanced policies and practices in marketing. Case analysis of marketing problems pertinent to product, price, promotion and channels of distribution policies.

Credit Hours: 3 hrs
Prerequisite: MKTG 360 and ACC 240
Terms Offered: Course Rotation Schedules

MKTG 369 - Advertising

Advertising as a communication tool in marketing management. The role of advertising in the marketing mix and in society. Emphasis on problem-based decision making including the appropriate use of research in establishing advertising objectives, allocating advertising budgets, determining target audiences, developing creative strategies, selecting media and determining advertising effectiveness.

Credit Hours: 3 hrs
Prerequisite: MKTG 360
Terms Offered: Course Rotation Schedules

MKTG 374 - Business to Business Marketing

Concepts, procedures, and problems encountered when one business or organization markets its products or services to another. Emphasizes the marketing practices employed by industrial organizations. Topics include: customer relationship management, market analysis, organizational buying behavior, purchasing procedures, pricing and negotiation, selling and marketing planning.

Credit Hours: 3 hrs
Prerequisite: MKTG 360
Terms Offered: Course Rotation Schedules

MKTG 375 - International Business Transactions

How goods and services are moved internationally. Transportation concepts and systems, the shipping scene, various documents needed to expedite the international movement of goods.

Credit Hours: 3 hrs
Prerequisite: MKTG 360
Terms Offered: Course Rotation Schedules

MKTG 377 - Special Topics
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 1 hr  
**Terms Offered:** Course Rotation Schedules  
**Last Updated:** Links 06/2012

**MKTG 378 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 2 hrs  
**Terms Offered:** Course Rotation Schedules  
**Last Updated:** Links 06/2012

**MKTG 379 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 3 hrs  
**Terms Offered:** Course Rotation Schedules  
**Last Updated:** Links 06/2012

**MKTG 385 - Cooperative Education**

Employment at a business or public organization in a marketing position.

**Credit Hours:** 1 hrs  
**Prerequisite:** department permission  
**Notes:** General elective credit only. Offered on a credit/no-credit basis  
**Terms Offered:** Course Rotation Schedules  
**Last Updated:** Links 06/2012

**MKTG 386 - Cooperative Education**

Employment at a business or public organization in a marketing position.

**Credit Hours:** 2 hrs  
**Prerequisite:** department permission  
**Notes:** General elective credit only. Offered on a credit/no-credit basis.  
**Terms Offered:** Course Rotation Schedules  
**Last Updated:** Links 06/2012

**MKTG 387 - Cooperative Education**

Employment at a business or public organization in a marketing position.

**Credit Hours:** 3 hrs  
**Prerequisite:** department permission
Notes: General elective credit only. Offered on a credit/no-credit basis
Terms Offered: Course Rotation Schedules
Last Updated: Links 06/2012

MKTG 425 - Sports and Event Marketing

This course includes topics germane to marketing activities associated with sports and a variety of events. It looks at the marketing of spectator and participation sports as well as events such as the arts, local festivals and charity events. The course also examines the use of such events as marketing tools. This component will look at issues such as endorsements, licensing, naming rights and sponsorship linkages.

Credit Hours: 3 hrs
Prerequisite: MKTG 360
Terms Offered: Course Rotation Schedules
Last Updated: Links 04/2011

MKTG 426 - Sponsorship

This course looks at sponsorship as an element of the organization's integrated marketing communications (IMC) plan. It covers traditional sponsorship and the three special forms of sponsorship: licensing, venue naming rights, and endorsements. It addresses all six primary areas for sponsorship as defined by the International Events Group (IEG): sports; cause-related marketing; festivals, fairs and annual events; the arts; entertainment, tours and attractions; and associations and membership organizations.

Credit Hours: 3 hrs
Prerequisite: MKTG 360
Terms Offered: Course Rotation Schedules
Last Updated: New Course 06/2011, effective Fall 2011

MKTG 430 - Marketing of Services

Study of marketing practices as applied to the service industry. Special emphasis is placed on the marketing concept and customer satisfaction in the service industry.

Credit Hours: 3 hrs
Prerequisite: MKTG 360
Terms Offered: Course Rotation Schedules
Last Updated: Links 04/2011

MKTG 444 - Direct and Interactive Marketing

This course provides a comprehensive examination of direct and interactive marketing concepts, methods, techniques, tools and applications. It covers the foundations of direct and interactive marketing, integrated and multi-channel marketing communications, and response measurement and evaluative metrics.

Credit Hours: 3 hrs
Prerequisite: MKTG 360
Terms Offered: Course Rotation Schedules
Last Updated: New Course 06/2011, effective Fall 2011

MKTG 460 - International Marketing
International marketing and its role in the multinational corporation. Appraising international opportunities; product, price, promotion and distribution policies; foreign marketing environments.

**Credit Hours:** 3 hrs  
**Prerequisite:** MKTG 360  
**Terms Offered:** Course Rotation Schedules  
**Last Updated:** Links 04/2011

**MKTG 461 - Sales Management**

Planning, organizing, directing and controlling the sales force. Recruiting, selecting, training, evaluating, compensating and supervising.

**Credit Hours:** 3 hrs  
**Prerequisite:** MKTG 261 and MKTG 360  
**Terms Offered:** Course Rotation Schedules  
**Last Updated:** Links 04/2011

**MKTG 470 - Marketing Research**

Skills and attitudes required to specify and utilize market and buyer information in defining marketing problems and making marketing decisions. Applied marketing research problems.

**Credit Hours:** 3 hrs  
**Prerequisite:** MKTG 360 and DS 265  
**Notes:** Academic Service Learning Course (Winter 2015, CRN: 20715).  
**Terms Offered:** Course Rotation Schedules  
**Last Updated:** Course Note 12/2014; Links 04/2011

**MKTG 473 - Marketing and Product Innovation**

**Credit Hours:** 3 hrs  
**Prerequisite:** MKTG 360  
**Terms Offered:** Course Rotation Schedules  
**Last Updated:** Linked 04/2011

**MKTG 474 - Promotional Strategy**

Problems of advertising and other promotional tools in the context of Integrated Marketing Communications theory. Topics include interactive promotions, direct marketing promotions, sales promotions and public relations. Emphasis on problem-based decision making and development of promotional campaigns.

**Credit Hours:** 3 hrs  
**Prerequisite:** MKTG 369  
**Graduate Credit:** This is an undergraduate course available to graduate students for graduate credit.  
**Terms Offered:** Course Rotation Schedules  
**Last Updated:** Graduate Credit 07/2011; Links 04/2011
MKTG 475 - Marketing Planning and Management

Integration of concepts from previous marketing courses and planning the marketing program.

Credit Hours: 3 hrs
Prerequisite: MKTG 368W
Terms Offered: Course Rotation Schedules
Last Updated: Links 04/2011

MKTG 477 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr
Prerequisite: MKTG 360
Terms Offered: Course Rotation Schedules
Last Updated: Links 04/2011

MKTG 478 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs
Prerequisite: MKTG 360
Terms Offered: Course Rotation Schedules
Last Updated: Links 04/2011

MKTG 479 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Last Updated:** Links 04/2011

**MKTG 497 - Independent Study**

Approved marketing projects with business or nonprofit organizations.

**Credit Hours:** 1 hr  
**Major Restrictions:** Marketing Majors only and department permission  
**Terms Offered:** Course Rotation Schedules  
**Last Updated:** Links 06/2012

**MKTG 498 - Independent Study**

Directed study of a problem or group of problems in production systems or management science.

**Credit Hours:** 2 hrs  
**Prerequisite:** department permission  
**Terms Offered:** Course Rotation Schedules  
**Last Updated:** Links 06/2012

**MKTG 499 - Independent Study**

Directed study of a problem or group of problems in production systems or management science.

**Credit Hours:** 3 hrs  
**Prerequisite:** department permission  
**Terms Offered:** Course Rotation Schedules  
**Last Updated:** Links 06/2012

**MKTG 510 - Marketing Management**

This course introduces students to the basic concepts, practices and analytical techniques of marketing. As such, it is designed to be comprehensive in scope, contemporary in outlook and managerial in orientation. It may include computerized-decision simulation and teamwork.
Supply Chain Management

SCM 377 - Special Topics

One topic is covered each semester, selected as the interest and/or problems change. Students may elect this course several times, provided different topics are studied, but only twice for credit toward a major or minor in supply chain management.

Credit Hours: 1 hr
Terms Offered: Course Rotation Schedules
Last Updated: Links 06/2012

SCM 378 - Special Topics

One topic is covered each semester, selected as the interest and/or problems change. Students may elect this course several times, provided different topics are studied, but only twice for credit toward a major or minor in supply chain management.

Credit Hours: 2 hrs
Terms Offered: Course Rotation Schedules
Last Updated: Links 06/2012

SCM 379 - Special Topics

One topic is covered each semester, selected as the interest and/or problems change. Students may elect this course several times, provided different topics are studied, but only twice for credit toward a major or minor in supply chain management.

Credit Hours: 3 hrs
Terms Offered: Course Rotation Schedules
Last Updated: Links 06/2012

SCM 380 - Introduction to Supply Chain Management

This course introduces students to business processes of Supply Chain Management. It examines the managerial issues within firms and value added activities that occur when firms purchase, produce, source, and distribute goods and services to satisfy customer needs. The role of IT in SCM will be discussed.

Credit Hours: 3 hrs
Terms Offered: Course Rotation Schedules
Last Updated: Links 06/2012

SCM 385 - Logistics

Students will be introduced to the different components of logistics (transportation, warehousing, material handling, order-processing, inventory, packaging, customer service) and its applications to different industries including not-for-profit organizations. Operational issues, fundamental management techniques, and technological issues will be discussed.
SCM 386 - Purchasing and Supply Management

This course focuses on implementation of the entire purchasing process from evaluating purchasing need to effective supplier management. Topics will be presented in three major areas: tactical, strategic, and electronic. Particular emphasis is placed on supplier selection/evaluation, in/outsourcing decisions, supplier relationships, and ethical issues in purchasing and supply management.

Credit Hours: 3 hrs
Prerequisite: MKTG 360
Terms Offered: Course Rotation Schedules
Last Updated: Links 03/2011

SCM 420 - Operations Planning and Scheduling in Supply Chain

This course integrates operations planning and scheduling activities for manufacturing and service operations in a supply chain management system. Topics include: ERP, demand management, production planning, master production scheduling, resource requirements planning, capacity management, inventory management and detailed scheduling. Hands on computer exercises using MS Excel and SAP/R3 are included.

Credit Hours: 3 hrs
Prerequisite: OM 374
Class Restrictions: Junior standing
Terms Offered: Course Rotation Schedules
Last Updated: Links 06/2012

SCM 464 - Advanced Logistics

This course provides and in-depth understanding of the strategic and operational challenges involved in developing and implementing a firm’s logistic strategy. Particular emphasis will be placed on logistics as a value-added process in the areas of warehousing, transportation, and global logistics decisions.

Credit Hours: 3 hrs
Prerequisite: SCM 385
Class Restrictions: Junior standing
Terms Offered: Course Rotation Schedules
Last Updated: Links 03/2011

SCM 465W - Global Supply Chain Management (GEWI)

This course integrates the concepts and tools of SCM approach with emphasis on issues in a global supply chain. Topics include identifying/managing risks, global supplier selection/evaluation/management, distribution and logistics management, international contracts/documents, and development/maintenance of international buyer-supplier relationships/alliances and global practices.

Credit Hours: 3 hrs
Prerequisite: SCM 380 and IB 210
Class Restrictions: Junior standing
SCM 477 - Special Topics

A single topic is covered each semester, selected as interest and/or problems change. Students may elect this course several times, provided different topics are studied, but only twice for credit toward a major or minor in supply chain management.

Credit Hours: 1 hr
Terms Offered: Course Rotation Schedules
Last Updated: Links 06/2012

SCM 478 - Special Topics

A single topic is covered each semester, selected as interest and/or problems change. Students may elect this course several times, provided different topics are studied, but only twice for credit toward a major or minor in supply chain management.

Credit Hours: 2 hrs
Terms Offered: Course Rotation Schedules
Last Updated: Links 06/2012

SCM 479 - Special Topics

A single topic is covered each semester, selected as interest and/or problems change. Students may elect this course several times, provided different topics are studied, but only twice for credit toward a major or minor in supply chain management.

Credit Hours: 3 hrs
Terms Offered: Course Rotation Schedules
Last Updated: Links 06/2012

SCM 497 - Independent Study

Intensive study of a problem or theory supervised by a faculty member in social foundations of education.

Credit Hours: 1 hr
Prerequisite: Department permission and consent of instructor
Terms Offered: Course Rotation Schedules
Last Updated: Links 03/2011

Leadership and Counseling Programs and Courses

Leadership and Counseling

Minor

Interdisciplinary Leadership Minor

New Program, effective Winter 2014

The Interdisciplinary LEADership Minor promotes college student leadership development by educating undergraduate students for and about leadership in a complex world. The goal of this minor is to prepare students to serve effectively in formal and informal leadership roles on campus, and in local, national and global contexts. Faculty & students in the minor are dedicated to advancing the field of leadership studies by building upon and critically evaluating existing theoretical, research-based, and practical knowledge. Core courses in the minor are sequenced to meet an increasingly complex set of learning outcomes across cognitive, personal development, and group/organizational domains. Students in the minor are exposed to diverse theories and perspectives on leadership that will compliment their academic interests for career and personal/public enrichment.

- MGMT 450 - Leadership Theories and Practice 3 hrs
- PLSC 435 - Nonprofit Management and Leadership 3 hrs
- RECR 260 - Recreation Leadership 3 hrs

Minor Total: 24 Hours

Critical Graduation Information:
Each undergraduate student will be responsible for the fulfillment of the requirements or their equivalents of the Eastern Michigan University catalog in force at the time of their initial registration at a college or university or a subsequent catalog including the one in effect at the time of their graduation.

In the event an undergraduate student does not complete the degree requirements within seven years of the date of their original registration at a college or university, the student may be required to have their credits re-evaluated by the academic department(s) of their major/minor in keeping with catalog requirements in force during the year of their graduation.

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the 100-level and above. Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Complete a Writing Intensive (WI) Course in your major.
- Earn a minimum of 60 credits from a four-year college or university; courses taken at community colleges cannot be used to meet this requirement. (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 unique credit hours in their major and 20 unique credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
- Earn no more than 60 credit hours in one subject area (prefix). Credits in excess of the 60 maximum will not be counted toward the minimum of 124 credits required for a bachelor's degree.
- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more than one major or minor.
  - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
  - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
  - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor
- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is conducted by individual departments/schools within EMU, and additional documentation may be required. Please note: EMU awards only credit for transferred courses; grades are not used in the calculation of an EMU GPA.
- Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be reached in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

General Education Requirements:

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available in the General Education section of the catalog: General Education
Students who transferred to EMU may have modified general education requirements based on Michigan Transfer Agreement (MTA) or articulation agreements; consult your academic advisor for additional information.

**University Information:** Consult the online catalog at catalog.emich.edu.

**Counseling**

**COUN 100L - Career Exploration and Decision-Making (GELB)**

Self-exploration (values, interests, goals) as it relates to careers and the world of work. Presentation in an experimental format of career exploration and personal decision-making strategies and processes. Investigation of career planning and resources (people and materials).

**Credit Hours:** 2 hrs

**Learning Beyond the Classroom:**

This is an introduction course in career exploration and decision-making. The purpose is to gain an overview of the world of work and to use reflective and structured methods of self-discovery to achieve a tentative career choice. This course provides students the opportunity to consider their interests and goals in order to help in planning a rewarding career as one pursues their degree at Eastern Michigan University.

Career Exploration and Decision Making provides students with the knowledge, resources, and strategies for making career and professional decisions. Students will learn about professional opportunities connected to their academic interests (historic preservation, counseling, nursing marketing, information technology, etc.) through experiential assignments and class discussions. Various decision-making strategies and goal setting exercises also will be explored.

**Last Updated:** 02/2011

**COUN 450 - An Introduction: Counseling Concepts and Skills**

Introduction to basic concepts of counseling relationships; training in basic counseling skills; experiential learning activities which focus on self-development, interpersonal relationships and related issues; and initial exposure to counseling theory and process.

**Credit Hours:** 3 hrs

**Class Restrictions:** Junior or Senior standing or by department permission

**Notes:** Recommended for those planning a career in the helping professions.

**COUN 477 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 1 hr

**Prerequisite:** department permission

**COUN 478 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.
COUN 479 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs
Prerequisite: department permission

COUN 497 - Independent Study

Advanced study on an individual basis in areas in which the department does not offer a formal course.

Credit Hours: 1 hr
Prerequisite: department permission

COUN 498 - Independent Study

Advanced study on an individual basis in areas in which the department does not offer a formal course.

Credit Hours: 2 hrs
Prerequisite: department permission

COUN 499 - Independent Study

Advanced study on an individual basis in areas in which the department does not offer a formal course.

Credit Hours: 3 hrs
Prerequisite: department permission

Educational Leadership

EDLD 477 - Special Topics

Courses that can be offered on an experimental basis for one semester for purposes of meeting special needs, interests and/or innovations.

Credit Hours: 1 hr
Prerequisite: department permission

EDLD 478 - Special Topics

Courses that can be offered on an experimental basis for one semester for purposes of meeting special needs, interests and/or innovations.

Credit Hours: 2 hrs
Prerequisite: department permission
EDLD 479 - Special Topics

Courses that can be offered on an experimental basis for one semester for purposes of meeting special needs, interests and/or innovations.

Credit Hours: 3 hrs
Prerequisite: department permission

EDLD 497 - Independent Study

Advanced study on an individual basis in areas in which the department does not offer a formal course.

Credit Hours: 1 hr
Prerequisite: department permission

EDLD 498 - Independent Study

Advanced study on an individual basis in areas in which the department does not offer a formal course.

Credit Hours: 2 hrs
Prerequisite: department permission

EDLD 499 - Independent Study

Advanced study on an individual basis in areas in which the department does not offer a formal course.

Credit Hours: 3 hrs
Prerequisite: department permission

Leadership

LEAD 201 - Introduction to Leadership

This course serves as an introduction to the study of leadership, including theoretical, philosophical, and conceptual Foundations. Students will discover traits and practices necessary to expand and develop personal leadership plans. With an emphasis on reflection, writing and experiential learning, the course will engage a variety of learning styles and activities to introduce the vast discipline of leadership. Students will be exposed to opportunities and services on campus necessary for support in the pursuits of academic, personal, and social goals at Eastern Michigan University. This course will expand the range of the student's leadership skills/styles across campus units, thereby linking theory to practice. The course is designed and required for all personas interest in pursuing a leadership minor and must be taken prior to LEAD 301 - Emerging as a Culturally Competent Leader and LEAD 401 - Inventing A Leadership Life.

Credit Hours: 3 hrs
Last Updated: New Course 11/2013, effective Winter 2014

LEAD 301 - Emerging as a Culturally Competent Leader

This course serves to compliment the theoretical, philosophical, and conceptual foundations of leadership, and the application of styles approaches to leadership related to humanities, natural sciences, behavioral science, education, business, human services, and social curricula. The leaders of today and tomorrow need to understand the dynamics of cross-cultural interactions so they
may effectively guide their organizations in an ethical way. This course provides an introduction to leadership geared across cultures with an emphasis on social justice. Specifically, it focuses understanding yourself and the culture from which you come and how these affect your understanding of other cultures as you attempt to make your community a better place. The ability to see challenges from multiple perspectives is one of the hallmarks of a liberal arts curriculum that prioritizes the development of critical thinking skills. This course challenges each student to broaden and deepen one's ability to use different filters to understand human behavior and apply leadership to all facets of life.

Credit Hours: 3 hrs
Repeatable for Credit: No
Prerequisite: LEAD 201
Last Updated: New Course 11/2013, effective Winter 2014

LEAD 373 - Applied Leadership Experience

This Applied Leadership Experience (ALE) course is intended to provide a way for students to apply their formal education to a "real world" work/immersion experience. Through this course, students will have the opportunity to develop skills in many areas including: (1) Academic - integrate classroom leadership theories with practice and clarify academic goals; (2) Professional - understand workplace culture, gain workplace competencies, benefit from professional networking, and enjoy increased access to post-graduation employment opportunities; (3) Personal - determine strengths and weakness of personal leadership abilities and skills, enhance interpersonal, intrapersonal, and communication skills. This course challenges each student to broaden and deepen one's ability to analyze the needs of an organization and apply leadership to make organizational changes and improvements.

Credit Hours: 1 hr
Prerequisite: LEAD 201
Concurrent Prerequisite: LEAD 301
Major Restrictions: Interdisciplinary Leadership Minor
Last Updated: New course 08/2014, effective Fall 2014

LEAD 374 - Applied Leadership Experience

This Applied Leadership Experience (ALE) course is intended to provide a way for students to apply their formal education to a "real world" work/immersion experience. Through this course, students will have the opportunity to develop skills in many areas including: (1) Academic - integrate classroom leadership theories with practice and clarify academic goals; (2) Professional - understand workplace culture, gain workplace competencies, benefit from professional networking, and enjoy increased access to post-graduation employment opportunities; (3) Personal - determine strengths and weakness of personal leadership abilities and skills, enhance interpersonal, intrapersonal, and communication skills. This course challenges each student to broaden and deepen one's ability to analyze the needs of an organization and apply leadership to make organizational changes and improvements.

Credit Hours: 2 hrs
Prerequisite: LEAD 201
Concurrent Prerequisite: LEAD 301
Major Restrictions: Course restricted to Interdisciplinary Leadership Minor
Last Updated: New Course 11/2013, effective Winter 2014

LEAD 375 - Applied Leadership Experience

This Applied Leadership Experience (ALE) course is intended to provide a way for students to apply their formal education to a "real world" work/immersion experience. Through this course, students will have the opportunity to develop skills in many areas including: (1) Academic - integrate classroom leadership theories with practice and clarify academic goals; (2) Professional - understand workplace culture, gain workplace competencies, benefit from professional networking, and enjoy increased access to post-graduation employment opportunities; (3) Personal - determine strengths and weakness of personal leadership abilities and skills, enhance interpersonal, intrapersonal, and communication skills. This course challenges each student to broaden and deepen one's ability to analyze the needs of an organization and apply leadership to make organizational changes and improvements.
Credit Hours: 3 hrs  
Repeatable for Credit: No  
Prerequisite: LEAD 201  
Concurrent Prerequisite: LEAD 301  
Major Restrictions: Course restricted to Interdisciplinary Leadership Minor  
Last Updated: New Course 11/2013, effective Winter 2014

LEAD 376 - Applied Leadership Experience

This Applied Leadership Experience (ALE) course is intended to provide a way for students to apply their formal education to a "real world" work/immersion experience. Through this course, students will have the opportunity to develop skills in many areas including: (1) Academic - integrate classroom leadership theories with practice and clarify academic goals; (2) Professional - understand workplace culture, gain workplace competencies, benefit from professional networking, and enjoy increased access to post-graduation employment opportunities; (3) Personal- determine strengths and weakness of personal leadership abilities and skills, enhance interpersonal, intrapersonal, and communication skills. This course challenges each student to broaden and deepen one's ability to analyze the needs of an organization and apply leadership to make organizational changes and improvements.

Credit Hours: 4 hrs  
Repeatable for Credit: No  
Prerequisite: LEAD 201  
Concurrent Prerequisite: LEAD 301  
Last Updated: New Course 11/2013, effective Winter 2014

LEAD 401 - Inventing A Leadership Life

This course serves as a capstone study of leadership, designed to provide opportunities for application and extension of theories concepts and strategies introduced across the core and restricted electives of the minor. During this course, students will work with traits and practices they have identified as a part of their emerging leadership plan. Building upon foundational, philosophical, operational, and theoretical concepts of leadership, as they apply their understanding to refine and implement a personal leadership plan through an Academic Service Learning project in the broader community. In addition, they will analyze leaders within their area of disciplinary focus to further develop their operational knowledge of leadership skills and strategies.

Credit Hours: 3 hrs  
Repeatable for Credit: No  
Prerequisite: LEAD 201 and LEAD 301  
Last Updated: New Course 11/2013, effective Winter 2014
Special Education Programs and Courses

Special Education

Major

Special Education Major K-12 Cognitive Impairment Endorsement
- Elementary

Successful completion of this course of study, in the context of other program requirements, qualifies the student for recommendation to the Michigan Department of Education for K-12 endorsement as a Teacher of Students with Cognitive Impairment. This program of study meets all requirements of the Council for Exceptional Children. The Michigan Test for Teacher Certification (MTTC) covering this field is #056, “Cognitive Impairment.” Students are required to regularly meet with their program area faculty advisor to expedite their program of study.

Students selecting Elementary Certification must complete a second major in Liberal Arts for Elementary Education. In addition, those selecting Elementary Certification must pass the MTTC "Elementary Education" certification test, #103.

General Education Requirements:

For specific requirements refer to the General Education Program.

Initial Teacher Preparation Program Admission

In order to pursue the sequence of courses necessary to complete eligibility for recommendation for certification, one must apply for and be admitted to the teacher preparation program. Admission requirements are common for all teacher preparation programs, except that certain special education programs have additional requirements.

Each undergraduate student is responsible for applying to the teacher preparation program immediately after the semester in which the student has earned 56 credit hours. Transfer students with more than 56 credit hours should apply immediately after the semester in which they have earned 12 hours at EMU, including at least one course in their major. Students with 56 hours of transfer course work with a decision GPA of 3.0 may apply for admission to the teacher preparation program without 12 earned hours at EMU.

Admission to the teacher preparation program is not automatic. Only those persons who have formally applied are considered for admission. Not all persons who apply become eligible for admission.

Applications for the Initial Teacher Preparation Program at EMU are available within your my.emich account under the "Student" tab. Submit your completed application to the Office of Academic Services once you have earned 56 credit hours.

Teaching majors and minors are unofficial until program admission. Students pursuing teacher certification should follow the catalog that exists at the time of program admission. It is important that students apply to the teacher preparation program as soon as they have earned 56 credit hours.

Criteria:

1. Completion of 56 credit hours
2. Appropriate cumulative GPA. One of:
   1. An overall EMU GPA of 2.5 or higher based on a minimum of 12 credit hours taken at EMU. An EMU GPA of 2.5 or higher in your major, based on at least one course in your major. The Elementary Education Major is comprehensive, therefore, the elementary major GPA is based on the cumulative of liberal arts curriculum and content course work.
   2. Transferred 56 credits with a cumulative 3.0 GPA from all previous institutions.
3. A grade of "C" or higher (if taken) in the following courses:
   1. If Secondary: ENGL 121, CTAC 124, Quantitative Reasoning (GEQR), one lab science, all professional education courses, and, if special education, PSY 101.
   2. If Elementary: ENGL 121, CTAC 124, MATH 108, MATH 110E, PHY 100, ESSC 202, all of the professional education courses, all courses that state "for elementary teachers," and, if special education, PSY 101.
4. Official Test Scores showing competency in each of the following areas: mathematics, reading and writing. Scores are accepted from the Professional Readiness Exam (PRE), Basic Skills Test (no longer offered), ACT, or Michigan Merit Exam (MME). The following scores are acceptable:
   1. Mathematics: PRE pass, Basic Skills pass, ACT mathematics 22 or higher, or MME mathematics 1116 or higher.
   2. Writing: PRE pass, Basic Skills pass, ACT combined English/writing 24 or higher, or MME writing 1129 or higher.
   3. Reading: PRE pass, Basic Skills pass, ACT reading 22 or higher, or MME reading 1108 or higher.
5. ICHAT criminal background check and Statement of Civil/Criminal Convictions. If you answered yes to any of the civil/criminal conviction questions on the application, you will need to provide:
   1. A copy of the Judgment of Sentence, or Registrar of Actions, or Certification of Conviction.
2. A written explanation of the offense(s). Application of students with civil/criminal convictions will be carefully reviewed and may take longer to process.
6. Meet academic, social, moral, and financial obligations as a member of the EMU community.

Major Requirements: 42 hours

* PHED 257 and SPGN 491 are considered to be major requirements although they are listed as part of the professional sequence.

K-12 Special Education Core: 23 hours

- PSY 101 - General Psychology Lecture (GEKN) 3 hrs
- SPGN 251 - Introduction to Inclusion and Disabilities Studies in a Diverse Society (GEUS) 3 hrs
- SPGN 271 - Speech and Language Development in Children, Adolescents and Young Adults with Exceptional Learning Needs 2 hrs
- SPGN 323W - Writing for Professionals in Special Education (GEWI) 3 hrs
- * SPGN 390 - Measurement and Diagnosis in Special Education 3 hrs
- SPGN 395 - Children, Adolescents, and Young Adults with Disabilities: School, Family and Community Interaction 3 hrs
- * SPGN 461 - Classroom Management and Intervention Strategies for Students with Disabilities 3 hrs
- * SPGN 481 - Assistive and Instructional Technology in Special Education 3 hrs

Teachers of Students with Cognitive Impairment Endorsement: 19 hours

- SPCI 240 - Preclinical Experiences — Cognitive Impairment 3 hrs
- SPCI 350L - Introduction to Cognitive Impairment (GELB) 3 hrs
- * SPCI 429 - Education for Teachers of Individuals with Mild Cognitive Impairment in Inclusive Settings 4 hrs
- * SPCI 483 - Education of Students in Programs for Moderate or Severe Cognitive Impairment 4 hrs
- * SPLI 468 - Education of Children with Learning Disabilities 2 hrs
- * SPGN 471 - Curriculum and Transitions for Secondary Special Education 3 hrs

Policy Change

Students combining the Liberal Arts in Elementary Education with Special Education Major who take and pass the elementary certification test but are not immediately successful in taking their disability specific test are still eligible for recommendation for the elementary certification.

Liberal Arts Major Requirements - Special Education: 42 hours

◊ Twelve of the required courses can fulfill General Education requirements

Some of the courses listed below may also be listed in other areas of the program but only need to be taken once.

- ◊ ARTE 220 - Visual Arts for Elementary Teachers (GEKA) 3 hrs
- CHL 207 - Introduction to Children's Literature (GEKH) 3 hrs
- ◊ CTAC 124 - Foundations of Speech Communication (GEEC) 3 hrs
Professional Elementary Education Sequence - Special Education

Pre-Admission Phase: The Learner and the Community: 8 hours

Prerequisite: Sophomore standing or higher.

- EDPS 325 - Life Span Human Growth and Development 4 hrs
- HLED 320 - Health Education in the Elementary Grades 2 hrs
- PHED 257 - Physical Education for the Classroom Teacher 2 hrs

Phase I: Curriculum, Assessment, and the Social Context: 15 hours

Prerequisite: Completion of Pre-Admission Phase and formal admission to the Initial Teacher Preparation Program is required.

- CURR 304 - Curriculum and Methods: Elementary 3 hrs
- GEOG 348 - Teaching Social Studies in Elementary Schools 3 hrs
- RDNG 300 - Early Literacy 3 hrs
- SOFD 328W - Schools for a Diverse and Democratic Society (GEWI) 3 hrs

One of the following:

- PRCT 304 - Practicum I: Elementary 3 hrs
- SPCI 240 - Preclinical Experiences — Cognitive Impairment 3 hrs
- SPEI 240 - Pre-clinical Experiences — Emotional Impairment 3 hrs
- SPPI 240 - Preclinical Experiences — POHI 3 hrs

Phase II: Content and Methods and Teaching: 15 hours

Prerequisite: Completion of Phase I is required.

- BIOT 303 - Life Science for Elementary Teachers 3 hrs
- CTAR 300 - Integrated Arts 3 hrs
- MATH 381 - Teaching Mathematics in Elementary School 3 hrs
- PRCT 310 - Practicum II: Elementary 3 hrs
- RDNG 310 - Literacy Across the Curriculum in the Intermediate Grades 3 hrs
Phase III: Capstone Experience: 16 hours

Prerequisite: Completion of Phase II is required.

- EDUC 499 - Student Teaching (GELB) 4 hrs
- SPGN 491 - Special Education Student Teaching and Seminar 12 hrs

Continuance Criteria

Criteria for continuance in a program of study in the Department of Special Education is dependent upon

1. Maintenance of a 2.5 GPA.
2. Maintenance of a 2.5 GPA in major courses in program of study.
3. Completion of all courses in the major with a grade of C or better. Students will be required to retake any major course in which they earn a grade below C. A major course may be repeated only once.
4. Demonstration of behaviors which indicate stability, maturity, understanding and aptitude as judged necessary for predicted success in the professional field of special education. Such qualitative judgments will be made by the department faculty.

The continuance or termination decision will be made by the faculty in the program area. Students may request a meeting with the faculty of a program area to apprise faculty of any extenuating circumstances that may aid faculty in arriving at a fair and equitable decision. The faculty decision will be final and will be transmitted to the student in writing by the department head.

Nothing in this department’s procedures will negate University or College of Education action for students on academic, administrative or social probation.

Termination from the Department

Students who fail to comply with the continuation criteria stated above will be notified in writing of their termination from the program. Students so notified have the right to appeal such termination through normal University channels. In some cases, a student will be required to meet with program area faculty for discussion of academic performance and continuation in the program.

Minor Requirements:

This program does not require a minor.

Program Total:

Students must earn a minimum total of 124 credits at the 100-level or above.

Note:

* Admission to the Initial Teacher Preparation Program required.
Critical Graduation Information:

Each undergraduate student will be responsible for the fulfillment of the requirements or their equivalents of the Eastern Michigan University catalog in force at the time of their initial registration at a college or university or a subsequent catalog including the one in effect at the time of their graduation.

In the event an undergraduate student does not complete the degree requirements within seven years of the date of their original registration at a college or university, the student may be required to have their credits re-evaluated by the academic department(s) of their major/minor in keeping with catalog requirements in force during the year of their graduation.

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the 100-level and above. Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Complete a Writing Intensive (WI) Course in your major.
- Earn a minimum of 60 credits from a four-year college or university; courses taken at community colleges cannot be used to meet this requirement. (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 unique credit hours in their major and 20 unique credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
- Earn no more than 60 credit hours in one subject area (prefix). Credits in excess of the 60 maximum will not be counted toward the minimum of 124 credits required for a bachelor's degree.
- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more than one major or minor.
  - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
  - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
  - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor
- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is conducted by individual departments/schools within EMU, and additional documentation may be required. Please note: EMU awards only credit for transferred courses; grades are not used in the calculation of an EMU GPA.
- Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be reached in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)
EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available in the General Education section of the catalog: General Education.

Students who transferred to EMU may have modified general education requirements based on Michigan Transfer Agreement (MTA) or articulation agreements; consult your academic advisor for additional information.

**University Information:** Consult the online catalog at catalog.emich.edu.

**Special Education Major K-12 Cognitive Impairment Endorsement - Secondary**

Successful completion of this course of study, in the context of other program requirements, qualifies the student for recommendation to the Michigan Department of Education for a Michigan Provisional Secondary Teaching Certificate with a K-12 endorsement as a Teacher of Students with Cognitive Impairment, certification code SA and, depending on the minor selected, an additional endorsement. This program of study meets all requirements of the Council for Exceptional Children. The Michigan Test for Teacher Certification (MTTC) covering this field is #056, “Cognitive Impairment.” Students are required to regularly meet with their program area faculty advisor to expedite their program of study.

Students selecting Secondary Certification must select a teachable minor from the approved list, and students must pass the certification test related to the minor in order to be recommended for endorsement in the minor field.

3. A grade of "C" or higher (if taken) in the following courses:
   1. If Secondary: ENGL 121, CTAC 124, Quantitative Reasoning (GEQR), one lab science, all professional education courses, and, if special education, PSY 101.
   2. If Elementary: ENGL 121, CTAC 124, MATH 108, MATH 110E, PHY 100, ESSC 202, all of the professional education courses, all courses that state "for elementary teachers," and, if special education, PSY 101.
4. Official Test Scores showing competency in each of the following areas: mathematics, reading and writing. Scores are accepted from the Professional Readiness Exam (PRE), Basic Skills Test (no longer offered), ACT, or Michigan Merit Exam (MME). The following scores are acceptable:
   1. Mathematics: PRE pass, Basic Skills pass, ACT mathematics 22 or higher, or MME mathematics 1116 or higher.
   2. Writing: PRE pass, Basic Skills pass, ACT combined English/writing 24 or higher, or MME writing 1129 or higher.
   3. Reading: PRE pass, Basic Skills pass, ACT reading 22 or higher, or MME reading 1108 or higher.
5. ICHAT criminal background check and Statement of Civil/Criminal Convictions. If you answered yes to any of the civil/criminal conviction questions on the application, you will need to provide:
   1. A copy of the Judgment of Sentence, or Registrar of Actions, or Certification of Conviction.
2. A written explanation of the offense(s). Application of students with civil/criminal convictions will be carefully reviewed and may take longer to process.

6. Meet academic, social, moral, and financial obligations as a member of the EMU community.

Major Requirements: 42 hours

* SPGN 491 is considered a major requirement although it is listed as part of the professional sequence.

K-12 Special Education Core: 25 hours

- PHED 257 - Physical Education for the Classroom Teacher 2 hrs
- PSY 101 - General Psychology Lecture (GEKN) 3 hrs
- SPGN 251 - Introduction to Inclusion and Disabilities Studies in a Diverse Society (GEUS) 3 hrs
- SPGN 271 - Speech and Language Development in Children, Adolescents and Young Adults with Exceptional Learning Needs 2 hrs
- SPGN 323W - Writing for Professionals in Special Education (GEWI) 3 hrs
- * SPGN 390 - Measurement and Diagnosis in Special Education 3 hrs
- SPGN 395 - Children, Adolescents, and Young Adults with Disabilities: School, Family and Community Interaction 3 hrs
- * SPGN 461 - Classroom Management and Intervention Strategies for Students with Disabilities 3 hrs
- * SPGN 481 - Assistive and Instructional Technology in Special Education 3 hrs

Teachers of Students with Cognitive Impairment Endorsement: 21 hours

- PHED 257 - Physical Education for the Classroom Teacher 2 hrs
- SPCI 240 - Preclinical Experiences — Cognitive Impairment 3 hrs
- SPCI 350L - Introduction to Cognitive Impairment (GELB) 3 hrs
- * SPCI 429 - Education for Teachers of Individuals with Mild Cognitive Impairment in Inclusive Settings 4 hrs
- * SPCI 483 - Education of Students in Programs for Moderate or Severe Cognitive Impairment 4 hrs
- * SPGN 471 - Curriculum and Transitions for Secondary Special Education 3 hrs
- SPLI 468 - Education of Children with Learning Disabilities 2 hrs

Professional Secondary Education Sequence - Special Education

Pre-Admission Phase: The Learner and the Community: 4 hours

*Prerequisite: Sophomore standing or higher.

- EDPS 325 - Life Span Human Growth and Development 4 hrs

Phase I: Curriculum, Assessment, and the Social Context: 6 hours

*Prerequisite: Completion of Pre-Admission Phase and formal admission to the Initial Teacher Preparation Program is required.

- CURR 305 - Curriculum and Methods: Secondary 3 hrs
- SOFD 328W - Schools for a Diverse and Democratic Society (GEWI) 3 hrs
Phase II: Content and Methods and Teaching: 6 hours

*Prerequisite: Completion of Phase I is required.*

- Methods Teaching Course in Minor area of concentration (3 hrs)
- RDNG 311 - Teaching Reading in the Secondary School 3 hrs

Phase III: Capstone Experience: 16 hours

*Prerequisite: Completion of Phase II is required.*

- EDUC 499 - Student Teaching (GELB) 4 hrs
- SPGN 491 - Special Education Student Teaching and Seminar 12 hrs

Continuance Criteria

Continuance Criteria

Criteria for continuance in a program of study in the Department of Special Education is dependent upon

1. Maintenance of a 2.5 GPA.
2. Maintenance of a 2.5 GPA in major courses in program of study.
3. Completion of all courses in the major with a grade of C or better. Students will be required to retake any major course in which they earn a grade below C. A major course may be repeated only once.
4. Demonstration of behaviors which indicate stability, maturity, understanding and aptitude as judged necessary for predicted success in the professional field of special education. Such qualitative judgments will be made by the department faculty.

The continuance or termination decision will be made by the faculty in the program area. Students may request a meeting with the faculty of a program area to apprise faculty of any extenuating circumstances that may aid faculty in arriving at a fair and equitable decision. The faculty decision will be final and will be transmitted to the student in writing by the department head.

Nothing in this department’s procedures will negate University or College of Education action for students on academic, administrative or social probation.

Termination from the Department

Students who fail to comply with the continuation criteria stated above will be notified in writing of their termination from the program. Students so notified have the right to appeal such termination through normal University channels. In some cases, a student will be required to meet with program area faculty for discussion of academic performance and continuation in the program.

Minor Requirements:

This program requires a minor. Please contact your program advisor for a list of possible minors.

Program Total:
Students must earn a minimum total of 124 credits at the 100-level or above.

Note:

* Admission to the Initial Teacher Preparation Program required.

MTTC Subject Area Test

Starting January 1, 2013, Students seeking licensure in a secondary or K-12 area are not required to take the MTTC subject area test in their minor area. Students who elect not to take the test in their minor will be required to sign a statement indicating that they understand that they will not be endorsed in their minor area and will not be eligible for teaching positions in their minor unless they pass the minor subject area test within five years of completing field experience and course requirements.

Critical Graduation Information:

Each undergraduate student will be responsible for the fulfillment of the requirements or their equivalents of the Eastern Michigan University catalog in force at the time of their initial registration at a college or university or a subsequent catalog including the one in effect at the time of their graduation.

In the event an undergraduate student does not complete the degree requirements within seven years of the date of their original registration at a college or university, the student may be required to have their credits re-evaluated by the academic department(s) of their major/minor in keeping with catalog requirements in force during the year of their graduation.

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the 100-level and above. Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Complete a Writing Intensive (WI) Course in your major.
- Earn a minimum of 60 credits from a four-year college or university; courses taken at community colleges cannot be used to meet this requirement. (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 unique credit hours in their major and 20 unique credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
- Earn no more than 60 credit hours in one subject area (prefix). Credits in excess of the 60 maximum will not be counted toward the minimum of 124 credits required for a bachelor's degree.
- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more than one major or minor.
  - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor.
  - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
  - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor.
Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is conducted by individual departments/schools within EMU, and additional documentation may be required. Please note: EMU awards only credit for transferred courses; grades are not used in the calculation of an EMU GPA.

- Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be reached in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

General Education Requirements:

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available in the General Education section of the catalog: General Education

Students who transferred to EMU may have modified general education requirements based on Michigan Transfer Agreement (MTA) or articulation agreements; consult your academic advisor for additional information.

University Information: Consult the online catalog at catalog.emich.edu.

Special Education Major K-12 Emotional Impairment Endorsement - Elementary

Successful completion of this course of study, in the context of other program requirements, qualifies the student for recommendation to the Michigan Department of Education for the K-12 endorsement as a Teacher of Students with Emotional Impairment. This program of study meets all requirements of the Council for Exceptional Children. The Michigan Test for Teacher Certification (MTTC) covering this field is #059, "Emotional Impairment". Students select Secondary or Elementary Teacher Certification. Students selecting Elementary Certification must complete a second major in Liberal Arts for Elementary Education. In addition, those selecting Elementary Certification must pass the MTTC "Elementary Education" certification test, #103.

General Education Requirements:

For specific requirements refer to the General Education Program.

Initial Teacher Preparation Program Admission

In order to pursue the sequence of courses necessary to complete eligibility for recommendation for certification, one must apply for and be admitted to the teacher preparation program. Admission requirements are common for all teacher preparation programs, except that certain special education programs have additional requirements.

Each undergraduate student is responsible for applying to the teacher preparation program immediately after the semester in which the student has earned 56 credit hours. Transfer students with more than 56 credit hours should apply immediately after the semester in which they have earned 12 hours at EMU, including at least one course in their major. Students with 56 hours of transfer course work with a decision GPA of 3.0 may apply for admission to the teacher preparation program without 12 earned hours at EMU.

Admission to the teacher preparation program is not automatic. Only those persons who have formally applied are considered for admission. Not all persons who apply become eligible for admission.

Applications for the Initial Teacher Preparation Program at EMU are available within your my.emich account under the "Student" tab. Submit your completed application to the Office of Academic Services once you have earned 56 credit hours.

Teaching majors and minors are unofficial until program admission. Students pursuing teacher certification should follow the catalog that exists at the time of program admission. It is important that students apply to the teacher preparation program as soon as they have earned 56 credit hours.

Criteria:

1. Completion of 56 credit hours
2. Appropriate cumulative GPA. One of:
   1. An overall EMU GPA of 2.5 or higher based on a minimum of 12 credit hours taken at EMU. An EMU GPA of 2.5 or higher in your major, based on at least one course in your major. The Elementary Education Major is comprehensive, therefore, the elementary major GPA is based on the cumulative of liberal arts curriculum and content course work.
   2. Transferred 56 credits with a cumulative 3.0 GPA from all previous institutions.
3. A grade of "C" or higher (if taken) in the following courses:
   1. If Secondary: ENGL 121, CTAC 124, Quantitative Reasoning (GEQR), one lab science, all professional education courses, and, if special education, PSY 101.
   2. If Elementary: ENGL 121, CTAC 124, MATH 108, MATH 110E, PHY 100, ESSC 202, all of the professional education courses, all courses that state "for elementary teachers," and, if special education, PSY 101.
4. Official Test Scores showing competency in each of the following areas: mathematics, reading and writing. Scores are accepted from the Professional Readiness Exam (PRE), Basic Skills Test (no longer offered), ACT, or Michigan Merit Exam (MME). The following scores are acceptable:
   1. Mathematics: PRE pass, Basic Skills pass, ACT mathematics 22 or higher, or MME mathematics 1116 or higher.
   2. Writing: PRE pass, Basic Skills pass, ACT combined English/writing 24 or higher, or MME writing 1129 or higher.
   3. Reading: PRE pass, Basic Skills pass, ACT reading 22 or higher, or MME reading 1108 or higher.
5. ICHAT criminal background check and Statement of Civil/Criminal Convictions. If you answered yes to any of the civil/criminal conviction questions on the application, you will need to provide:
   1. A copy of the Judgment of Sentence, or Registrar of Actions, or Certification of Conviction.
   2. A written explanation of the offense(s). Application of students with civil/criminal convictions will be carefully reviewed and may take longer to process.
6. Meet academic, social, moral, and financial obligations as a member of the EMU community.

K-12 Special Education Core: 23 hours

*These courses require formal admission to the Initial Teacher Preparation Program.

- PSY 101 - General Psychology Lecture (GEKN) 3 hrs
- SPGN 251 - Introduction to Inclusion and Disabilities Studies in a Diverse Society (GEUS) 3 hrs
- SPGN 271 - Speech and Language Development in Children, Adolescents and Young Adults with Exceptional Learning Needs 2 hrs
- SPGN 323W - Writing for Professionals in Special Education (GEWI) 3 hrs
- *SPGN 390 - Measurement and Diagnosis in Special Education 3 hrs
- SPGN 395 - Children, Adolescents, and Young Adults with Disabilities: School, Family and Community Interaction 3 hrs
- *SPGN 461 - Classroom Management and Intervention Strategies for Students with Disabilities 3 hrs
- *SPGN 481 - Assistive and Instructional Technology in Special Education 3 hrs

Emotional Impairment Endorsement: 19 hours

*These courses require admission to the Initial Teacher Preparation Program.

- SPEI 240 - Pre-clinical Experiences — Emotional Impairment 3 hrs
- SPEI 301 - Children and Adolescents with Emotional Impairment 4 hrs
- *SPEI 401L - Programming, Methods and Curriculum for Elementary Students with Emotion Impairment (GELB) 4 hrs
- *SPEI 449 - Beyond Behavior 3 hrs
- *SPLI 468 - Education of Children with Learning Disabilities 2 hrs
- *SPGN 471 - Curriculum and Transitions for Secondary Special Education 3 hrs

Policy Change

Students combining the Liberal Arts in Elementary Education with Special Education Major who take and pass the elementary certification test but are not immediately successful in taking their disability specific test are still eligible for recommendation for the elementary certification.

Liberal Arts Major Requirements - Special Education: 42 hours

✧ Twelve of the required courses can fulfill General Education requirements

Some of the courses listed below may also be listed in other areas of the program but only need to be taken once.

- ✧ ARTE 220 - Visual Arts for Elementary Teachers (GEKA) 3 hrs
- ✧ CHL 207 - Introduction to Children's Literature (GEKH) 3 hrs
• CTAC 124 - Foundations of Speech Communication (GEEC) 3 hrs
• ENGL 121 - Composition II: Researching the Public Experience (GEEC) 3 hrs
• ESSC 202 - Earth Science for Elementary Teachers (GEKN) 3 hrs
• GEOG 110 - World Regions (GEAG) 3 hrs
• HIST 123 - The United States to 1877 (GEKS) 3 hrs
• MATH 108 - Problem Solving and Number Concepts for Elementary School Teachers 3 hrs
• MATH 110E - Mathematical Reasoning: Applications for Elementary School Teachers (GEQR) 3 hrs
• MUSC 220 - Music for the Elementary Teacher (GEKA) 3 hrs
• PHY 100 - Physics for Elementary Teachers (GEKN) 3 hrs
• PLSC 112 - American Government (GEKS) 3 hrs

Professional Elementary Education Sequence - Special Education

Pre-Admission Phase: The Learner and the Community: 8 hours

Prerequisite: Sophomore standing or higher.

- EDPS 325 - Life Span Human Growth and Development 4 hrs
- HLED 320 - Health Education in the Elementary Grades 2 hrs
- PHED 257 - Physical Education for the Classroom Teacher 2 hrs

Phase I: Curriculum, Assessment, and the Social Context: 15 hours

Prerequisite: Completion of Pre-Admission Phase and formal admission to the Initial Teacher Preparation Program is required.

- CURR 304 - Curriculum and Methods: Elementary 3 hrs
- GEOG 348 - Teaching Social Studies in Elementary Schools 3 hrs
- RDNG 300 - Early Literacy 3 hrs
- SOFD 328W - Schools for a Diverse and Democratic Society (GEWI) 3 hrs

One of the following:

- PRCT 304 - Practicum I: Elementary 3 hrs
- SPCI 240 - Preclinical Experiences — Cognitive Impairment 3 hrs
- SPEI 240 - Pre-clinical Experiences — Emotional Impairment 3 hrs
- SPPI 240 - Preclinical Experiences — POHI 3 hrs

Phase II: Content and Methods and Teaching: 15 hours

Prerequisite: Completion of Phase I is required.

- BIOT 303 - Life Science for Elementary Teachers 3 hrs
- CTAR 300 - Integrated Arts 3 hrs
- MATH 381 - Teaching Mathematics in Elementary School 3 hrs
- PRCT 310 - Practicum II: Elementary 3 hrs
- RDNG 310 - Literacy Across the Curriculum in the Intermediate Grades 3 hrs
Phase III: Capstone Experience: 16 hours

Prerequisite: Completion of Phase II is required.

- EDUC 499 - Student Teaching (GELB) 4 hrs
- SPGN 491 - Special Education Student Teaching and Seminar 12 hrs

Continuance Criteria

Continuance Criteria

Criteria for continuance in a program of study in the Department of Special Education is dependent upon

1. Maintenance of a 2.5 GPA.
2. Maintenance of a 2.5 GPA in major courses in program of study.
3. Completion of all courses in the major with a grade of C or better. Students will be required to retake any major course in which they earn a grade below C. A major course may be repeated only once.
4. Demonstration of behaviors which indicate stability, maturity, understanding and aptitude as judged necessary for predicted success in the professional field of special education. Such qualitative judgments will be made by the department faculty.

The continuance or termination decision will be made by the faculty in the program area. Students may request a meeting with the faculty of a program area to apprise faculty of any extenuating circumstances that may aid faculty in arriving at a fair and equitable decision. The faculty decision will be final and will be transmitted to the student in writing by the department head.

Nothing in this department’s procedures will negate University or College of Education action for students on academic, administrative or social probation.

Termination from the Department

Students who fail to comply with the continuation criteria stated above will be notified in writing of their termination from the program. Students so notified have the right to appeal such termination through normal University channels. In some cases, a student will be required to meet with program area faculty for discussion of academic performance and continuation in the program.

Minor Requirements:

This program does not require a minor.

Program Total:

Students must earn a minimum total of 124 credits at the 100-level or above.

Critical Graduation Information:

Each undergraduate student will be responsible for the fulfillment of the requirements or their equivalents of the Eastern Michigan University catalog in force at the time of their initial registration at a college or university or a subsequent catalog including the one in effect at the time of their graduation.
In the event an undergraduate student does not complete the degree requirements within seven years of the date of their original registration at a college or university, the student may be required to have their credits re-evaluated by the academic department(s) of their major/minor in keeping with catalog requirements in force during the year of their graduation.

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

Phase III: Capstone Experience: 16 hours

Prerequisite: Completion of Phase II is required.

• EDUC 499 - Student Teaching (GELB) 4 hrs
• SPGN 491 - Special Education Student Teaching and Seminar 12 hrs

Continuance Criteria

Continuance Criteria

Criteria for continuance in a program of study in the Department of Special Education is dependent upon

1. Maintenance of a 2.5 GPA.
2. Maintenance of a 2.5 GPA in major courses in program of study.
3. Completion of all courses in the major with a grade of C or better. Students will be required to retake any major course in which they earn a grade below C. A major course may be repeated only once.
4. Demonstration of behaviors which indicate stability, maturity, understanding and aptitude as judged necessary for predicted success in the professional field of special education. Such qualitative judgments will be made by the department faculty.

The continuance or termination decision will be made by the faculty in the program area. Students may request a meeting with the faculty of a program area to apprise faculty of any extenuating circumstances that may aid faculty in arriving at a fair and equitable decision. The faculty decision will be final and will be transmitted to the student in writing by the department head.

Nothing in this department’s procedures will negate University or College of Education action for students on academic, administrative or social probation.

Termination from the Department

Students who fail to comply with the continuation criteria stated above will be notified in writing of their termination from the program. Students so notified have the right to appeal such termination through normal University channels. In some cases, a student will be required to meet with program area faculty for discussion of academic performance and continuation in the program.

Minor Requirements:

This program requires a minor. Please contact your program advisor for a list of possible minors.

Program Total:

Students must earn a minimum total of 124 credits at the 100-level or above.

MTTC Subject Area Test

Starting January 1, 2013, Students seeking licensure in a secondary or K-12 area are not required to take the MTTC subject area test in their minor area. Students who elect not to take the test in their minor will be required to sign a statement indicating that they understand that they will not be endorsed in their minor area and will not be eligible for teaching positions in their minor unless they pass the minor subject area test within five years of completing field experience and course requirements.

Critical Graduation Information:

Each undergraduate student will be responsible for the fulfillment of the requirements or their equivalents of the Eastern Michigan University catalog in force at the time of their initial registration at a college or university or a subsequent catalog including the one in effect at the time of their graduation.

In the event an undergraduate student does not complete the degree requirements within seven years of the date of their original registration at a college or university, the student may be required to have their credits re-evaluated by the academic department(s) of their major/minor in keeping with catalog requirements in force during the year of their graduation.

The following are minimum requirements for all bachelor’s degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the 100-level and above. Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.
• Meet the requirements of the General Education program (see information below).
• Complete a Writing Intensive (WI) Course in your major.
• Earn a minimum of 60 credits from a four-year college or university; courses taken at community colleges cannot be used to meet this requirement. (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
• Earn a minimum of 30 credits from courses taken at EMU.
• Complete 10 of the last 30 hours for the degree from courses taken at EMU.
• Have a minimum of 30 unique credit hours in their major and 20 unique credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
• Earn no more than 60 credit hours in one subject area (prefix). Credits in excess of the 60 maximum will not be counted toward the minimum of 124 credits required for a bachelor's degree.
• Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more that one major or minor.
  o Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
  o Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
  o Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor
• Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is conducted by individual departments/schools within EMU, and additional documentation may be required. Please note: EMU awards only credit for transferred courses; grades are not used in the calculation of an EMU GPA.
• Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be reached in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

General Education Requirements:

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available in the General Education section of the catalog: General Education

Students who transferred to EMU may have modified general education requirements based on Michigan Transfer Agreement (MTA) or articulation agreements; consult your academic advisor for additional information.

University Information: Consult the online catalog at catalog.emich.edu.

Special Education Major K-12 Physical and Other Health Impairment Endorsement - Elementary

Successful completion of this course of study, in the context of other program requirements, qualifies the student for recommendation to the Michigan Department of Education for K-12 endorsement as a Teacher of Students with Physical Impairment and Students with Other Health Impairment (SC). This program of study meets all requirements of the Council for Exceptional Children. The Michigan Test for Teacher Certification (MTTC) covering this field is #058, “Physically or otherwise Health Impaired.” Students selecting Elementary Certification must complete a second major in Liberal Arts for Elementary Education. In addition, those selecting Elementary Certification must pass the MTTC "Elementary Education" certification test, #103.

jmcginnis@emich.edu

General Education Requirements:

For specific requirements refer to the General Education Program.

Initial Teacher Preparation Program Admission

In order to pursue the sequence of courses necessary to complete eligibility for recommendation for certification, one must apply for and be admitted to the teacher preparation program. Admission requirements are common for all teacher preparation programs, except that certain special education programs have additional requirements.

Each undergraduate student is responsible for applying to the teacher preparation program immediately after the semester in which the student has earned 56 credit hours. Transfer students with more than 56 credit hours should apply immediately after the semester in which they have earned 12 hours at EMU, including at least one course in their major. Students with 56 hours of transfer course work with a decision GPA of 3.0 may apply for admission to the teacher preparation program without 12 earned hours at EMU.

Admission to the teacher preparation program is not automatic. Only those persons who have formally applied are considered for admission. Not all persons who apply become eligible for admission.
Applications for the Initial Teacher Preparation Program at EMU are available within your my.emich account under the "Student" tab. Submit your completed application to the Office of Academic Services once you have earned 56 credit hours.

Teaching majors and minors are unofficial until program admission. Students pursuing teacher certification should follow the catalog that exists at the time of program admission. It is important that students apply to the teacher preparation program as soon as they have earned 56 credit hours.

Criteria:

1. Completion of 56 credit hours
2. Appropriate cumulative GPA. One of:
   1. An overall EMU GPA of 2.5 or higher based on a minimum of 12 credit hours taken at EMU. An EMU GPA of 2.5 or higher in your major, based on at least one course in your major. The Elementary Education Major is comprehensive, therefore, the elementary major GPA is based on the cumulative of liberal arts curriculum and content course work.
   2. Transferred 56 credits with a cumulative 3.0 GPA from all previous institutions.
3. A grade of "C" or higher (if taken) in the following courses:
   1. If Secondary: ENGL 121, CTAC 124, Quantitative Reasoning (GEQR), one lab science, all professional education courses, and, if special education, PSY 101.
   2. If Elementary: ENGL 121, CTAC 124, MATH 108, MATH 110E, PHY 100, ESSC 202, all of the professional education courses, all courses that state "for elementary teachers," and, if special education, PSY 101.
4. Official Test Scores showing competency in each of the following areas: mathematics, reading and writing. Scores are accepted from the Professional Readiness Exam (PRE), Basic Skills Test (no longer offered), ACT, or Michigan Merit Exam (MME). The following scores are acceptable:
   1. Mathematics: PRE pass, Basic Skills pass, ACT mathematics 22 or higher, or MME mathematics 1116 or higher.
   2. Writing: PRE pass, Basic Skills pass, ACT combined English/writing 24 or higher, or MME writing 1129 or higher.
   3. Reading: PRE pass, Basic Skills pass, ACT reading 22 or higher, or MME reading 1108 or higher.
5. ICHAT criminal background check and Statement of Civil/Criminal Convictions. If you answered yes to any of the civil/criminal conviction questions on the application, you will need to provide:
   1. A copy of the Judgment of Sentence, or Registrar of Actions, or Certification of Conviction.
   2. A written explanation of the offense(s). Application of students with civil/criminal convictions will be carefully reviewed and may take longer to process.
6. Meet academic, social, moral, and financial obligations as a member of the EMU community.

Major Requirements: 47-49 hours

* PHED 257 and SPGN 491 are considered major requirements although they are listed in the professional sequence.

K-12 Special Education Core: 26 hours

- PSY 101 - General Psychology Lecture (GEKN) 3 hrs
- SPGN 251 - Introduction to Inclusion and Disabilities Studies in a Diverse Society (GEUS) 3 hrs
- SPGN 271 - Speech and Language Development in Children, Adolescents and Young Adults with Exceptional Learning Needs 2 hrs
- SPGN 323W - Writing for Professionals in Special Education (GEWI) 3 hrs
- * SPGN 390 - Measurement and Diagnosis in Special Education 3 hrs
• SPGN 395 - Children, Adolescents, and Young Adults with Disabilities: School, Family and Community Interaction 3 hrs
• * SPGN 461 - Classroom Management and Intervention Strategies for Students with Disabilities 3 hrs
• * SPGN 471 - Curriculum and Transitions for Secondary Special Education 3 hrs
• * SPGN 481 - Assistive and Instructional Technology in Special Education 3 hrs

Teacher of Students with Physical and Other Health Impairment Endorsement: 21-23 hours

• An approved course in Human Anatomy and Physiology (4-5 hrs)
• An approved course in Human Disease Process (3-4 hrs)
• SPCI 350L - Introduction to Cognitive Impairment (GELB) 3 hrs
• * SPLI 468 - Education of Children with Learning Disabilities 2 hrs
• SPPI 240 - Preclinical Experiences — POHI 3 hrs
• * SPPI 412 - Ancillary Services and Health Procedures for Teachers of Physically Impaired 2 hrs
• * SPPI 414 - Educational Strategies for Teachers of the Physically Impaired 4 hrs

Policy Change

Students combining the Liberal Arts in Elementary Education with Special Education Major who take and pass the elementary certification test but are not immediately successful in taking their disability specific test are still eligible for recommendation for the elementary certification.

Liberal Arts Major Requirements - Special Education: 42 hours

✧ Twelve of the required courses can fulfill General Education requirements

Some of the courses listed below may also be listed in other areas of the program but only need to be taken once.

• ✧ ARTE 220 - Visual Arts for Elementary Teachers (GEKA) 3 hrs
• CHL 207 - Introduction to Children's Literature (GEKH) 3 hrs
• ✧ CTAC 124 - Foundations of Speech Communication (GEEC) 3 hrs
• ✧ ENGL 121 - Composition II: Researching the Public Experience (GEEC) 3 hrs
• ✧ ESSC 202 - Earth Science for Elementary Teachers (GEKN) 3 hrs
• ✧ GEOG 110 - World Regions (GEGA) 3 hrs
• ✧ HIST 123 - The United States to 1877 (GEKS) 3 hrs
• ✧ MATH 108 - Problem Solving and Number Concepts for Elementary School Teachers 3 hrs
• ✧ MATH 110E - Mathematical Reasoning: Applications for Elementary School Teachers (GEQR) 3 hrs
• ✧ MUSC 220 - Music for the Elementary Teacher (GEKA) 3 hrs
• ✧ PHY 100 - Physics for Elementary Teachers (GEKN) 3 hrs
• ✧ PLSC 112 - American Government (GEKS) 3 hrs

Professional Elementary Education Sequence - Special Education

Pre-Admission Phase: The Learner and the Community: 8 hours
Prerequisite: Sophomore standing or higher.

- EDPS 325 - Life Span Human Growth and Development 4 hrs
- HLED 320 - Health Education in the Elementary Grades 2 hrs
- PHED 257 - Physical Education for the Classroom Teacher 2 hrs

Phase I: Curriculum, Assessment, and the Social Context: 15 hours

Prerequisite: Completion of Pre-Admission Phase and formal admission to the Initial Teacher Preparation Program is required.

- CURR 304 - Curriculum and Methods: Elementary 3 hrs
- GEOG 348 - Teaching Social Studies in Elementary Schools 3 hrs
- RDNG 300 - Early Literacy 3 hrs
- SOFD 328W - Schools for a Diverse and Democratic Society (GEWI) 3 hrs

One of the following:

- PRCT 304 - Practicum I: Elementary 3 hrs
- SPCI 240 - Preclinical Experiences — Cognitive Impairment 3 hrs
- SPEI 240 - Pre-clinical Experiences — Emotional Impairment 3 hrs
- SPPI 240 - Preclinical Experiences — POHI 3 hrs

Phase II: Content and Methods and Teaching: 15 hours

Prerequisite: Completion of Phase I is required.

- BIOT 303 - Life Science for Elementary Teachers 3 hrs
- CTAR 300 - Integrated Arts 3 hrs
- MATH 381 - Teaching Mathematics in Elementary School 3 hrs
- PRCT 310 - Practicum II: Elementary 3 hrs
- RDNG 310 - Literacy Across the Curriculum in the Intermediate Grades 3 hrs

Phase III: Capstone Experience: 16 hours

Prerequisite: Completion of Phase II is required.

- EDUC 499 - Student Teaching (GELB) 4 hrs
- SPGN 491 - Special Education Student Teaching and Seminar 12 hrs

Continuance Criteria

Continuance Criteria

Criteria for continuance in a program of study in the Department of Special Education is dependent upon

1. Maintenance of a 2.5 GPA.
2. Maintenance of a 2.5 GPA in major courses in program of study.
3. Completion of all courses in the major with a grade of C or better. Students will be required to retake any major course in which they earn a grade below C. A major course may be repeated only once.

4. Demonstration of behaviors which indicate stability, maturity, understanding and aptitude as judged necessary for predicted success in the professional field of special education. Such qualitative judgments will be made by the department faculty.

The continuance or termination decision will be made by the faculty in the program area. Students may request a meeting with the faculty of a program area to apprise faculty of any extenuating circumstances that may aid faculty in arriving at a fair and equitable decision. The faculty decision will be final and will be transmitted to the student in writing by the department head.

Nothing in this department’s procedures will negate University or College of Education action for students on academic, administrative or social probation.

**Termination from the Department**

Students who fail to comply with the continuation criteria stated above will be notified in writing of their termination from the program. Students so notified have the right to appeal such termination through normal University channels. In some cases, a student will be required to meet with program area faculty for discussion of academic performance and continuation in the program.

**Minor Requirements:**

This program does not require a minor.

**Program Total:**

Students must earn a minimum total of 124 credits at the 100-level or above.

**Note:**

* Admission to the Initial Teacher Preparation Program required.

**Critical Graduation Information:**

Each undergraduate student will be responsible for the fulfillment of the requirements or their equivalents of the Eastern Michigan University catalog in force at the time of their initial registration at a college or university or a subsequent catalog including the one in effect at the time of their graduation.

In the event an undergraduate student does not complete the degree requirements within seven years of the date of their original registration at a college or university, the student may be required to have their credits re-evaluated by the academic department(s) of their major/minor in keeping with catalog requirements in force during the year of their graduation.

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the **100-level and above**. Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.
• Meet the requirements of the General Education program (see information below).
• Complete a Writing Intensive (WI) Course in your major.
• Earn a minimum of 60 credits from a four-year college or university; courses taken at community colleges cannot be used to meet this requirement. (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
• Earn a minimum of 30 credits from courses taken at EMU.
• Complete 10 of the last 30 hours for the degree from courses taken at EMU.
• Have a minimum of 30 unique credit hours in their major and 20 unique credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
• Earn no more than 60 credit hours in one subject area (prefix). Credits in excess of the 60 maximum will not be counted toward the minimum of 124 credits required for a bachelor's degree.
• Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more that one major or minor.
  o Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
  o Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
  o Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor
• Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is conducted by individual departments/schools within EMU, and additional documentation may be required. Please note: EMU awards only credit for transferred courses; grades are not used in the calculation of an EMU GPA.
• Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be reached in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

General Education Requirements:

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available in the General Education section of the catalog: General Education

Students who transferred to EMU may have modified general education requirements based on Michigan Transfer Agreement (MTA) or articulation agreements; consult your academic advisor for additional information.

University Information: Consult the online catalog at catalog.emich.edu.

Special Education Major K-12 Physical and Other Health Impairment Endorsement - Secondary

Successful completion of this course of study, in the context of other program requirements, qualifies the student for recommendation to the Michigan Department of Education for K-12 endorsement as a Teacher of Students with Physical Impairment and Students with Other Health Impairment (SC). This program of study meets all requirements of the Council for Exceptional Children. The Michigan Test for Teacher Certification (MTTC) covering this field is #058, “Physically or otherwise Health Impaired.” Students are required to regularly meet with their program area faculty advisor to expedite their program of
study. Students selecting Secondary Certification must select a teachable minor from the approved list, and students must pass the certification test related to the minor in order to be recommended for endorsement in the minor field.

Phase III: Capstone Experience: 16 hours

*Prerequisite: Completion of Phase II is required.
- EDUC 499 - Student Teaching (GELB) 4 hrs
- SPGN 491 - Special Education Student Teaching and Seminar 12 hrs

Continuance Criteria

Criteria for continuance in a program of study in the Department of Special Education is dependent upon

1. Maintenance of a 2.5 GPA.
2. Maintenance of a 2.5 GPA in major courses in program of study.

3. Completion of all courses in the major with a grade of C or better. Students will be required to retake any major course in which they earn a grade below C. A major course may be repeated only once.

4. Demonstration of behaviors which indicate stability, maturity, understanding and aptitude as judged necessary for predicted success in the professional field of special education. Such qualitative judgments will be made by the department faculty.

The continuance or termination decision will be made by the faculty in the program area. Students may request a meeting with the faculty of a program area to apprise faculty of any extenuating circumstances that may aid faculty in arriving at a fair and equitable decision. The faculty decision will be final and will be transmitted to the student in writing by the department head.

Nothing in this department’s procedures will negate University or College of Education action for students on academic, administrative or social probation.

**Termination from the Department**

Students who fail to comply with the continuation criteria stated above will be notified in writing of their termination from the program. Students so notified have the right to appeal such termination through normal University channels. In some cases, a student will be required to meet with program area faculty for discussion of academic performance and continuation in the program.

**Minor Requirements:**

This program requires a minor. Please contact your program advisor for a list of possible minors.

**Program Total:**

Students must earn a minimum total of 124 credits at the 100-level or above.

**Note:**

* Admission to the Initial Teacher Preparation Program required.

**MTTC Subject Area Test**

*Starting January 1, 2013, Students seeking licensure in a secondary or K-12 area are not required to take the MTTC subject area test in their minor area. Students who elect not to take the test in their minor will be required to sign a statement indicating that they understand that they will not be endorsed in their minor area and will not be eligible for teaching positions in their minor unless they pass the minor subject area test within five years of completing field experience and course requirements.*

**Critical Graduation Information:**

Each undergraduate student will be responsible for the fulfillment of the requirements or their equivalents of the Eastern Michigan University catalog in force at the time of their initial registration at a college or university or a subsequent catalog including the one in effect at the time of their graduation.

In the event an undergraduate student does not complete the degree requirements within seven years of the date of their original registration at a college or university, the student may be required to have their credits re-evaluated by the academic department(s) of their major/minor in keeping with catalog requirements in force during the year of their graduation.
The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the 100-level and above. Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.

- Meet the requirements of the General Education program (see information below).

- Complete a Writing Intensive (WI) Course in your major.

- Earn a minimum of 60 credits from a four-year college or university; courses taken at community colleges cannot be used to meet this requirement. (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)

- Earn a minimum of 30 credits from courses taken at EMU.

- Complete 10 of the last 30 hours for the degree from courses taken at EMU.

- Have a minimum of 30 unique credit hours in their major and 20 unique credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.

- Earn no more than 60 credit hours in one subject area (prefix). Credits in excess of the 60 maximum will not be counted toward the minimum of 124 credits required for a bachelor's degree.

- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more that one major or minor.
  - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
  - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
  - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor.

- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is conducted by individual departments/schools within EMU, and additional documentation may be required. Please note: EMU awards only credit for transferred courses; grades are not used in the calculation of an EMU GPA.

- Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be reached in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

General Education Requirements:

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available in the General Education section of the catalog: General Education

Students who transferred to EMU may have modified general education requirements based on Michigan Transfer Agreement (MTA) or articulation agreements; consult your academic advisor for additional information.

University Information: Consult the online catalog at catalog.emich.edu.
Special Education Major K-12 Speech/Language Pathology Endorsement - Elementary

The professional entry-level credential in speech-language pathology is the master’s degree in the field.

Successful completion of this course of study, in the context of other program requirements, with respect to K-12 teacher licensure, satisfies the undergraduate portion of the requirements for the professional entry-level credential at the master’s degree level. This program leads toward, but does not satisfy, the requirements for recommendation to the Michigan Department of Education for K-12 endorsement as a Teacher of Students with Speech and Language Impairment, certification code SB, and Michigan Provisional Elementary Teaching Certificate. This program of study meets all requirements of the Council for Exceptional Children and of the American Speech-Language-Hearing Association. The Michigan Test for Teacher Certification (MTTC) covering this field is #057, “Speech and Language Impairment. Students selecting Elementary Certification must complete a second major in Liberal Arts for Elementary Education. In addition, those selecting Elementary Certification must pass the MTTC "Elementary Education" certification test, #103. Students are required to regularly meet with their program area faculty advisor to expedite their program of study.

Certificate in Speech Pathology

The American Speech-Language-Hearing Association issues Certificates of Clinical Competence to individuals who present satisfactory evidence of their ability to provide independent clinical services to persons who have disorders of communication (speech, language and/or hearing). An individual who meets these requirements may be awarded a Certificate in Speech Pathology or in Audiology, depending upon the emphasis of his or her preparation. Note: The program at Eastern Michigan University prepares individuals to meet the requirements in speech pathology only. Specific requirements may be obtained from the advisors in speech pathology.

Note:  Students must have and maintain a 3.0 GPA in order to be admitted into and take SPSI courses.

General Education Requirements:

For specific requirements refer to the General Education Program.

Initial Teacher Preparation Program Admission
In order to pursue the sequence of courses necessary to complete eligibility for recommendation for certification, one must apply for and be admitted to the teacher preparation program. Admission requirements are common for all teacher preparation programs, except that certain special education programs have additional requirements.

Each undergraduate student is responsible for applying to the teacher preparation program immediately after the semester in which the student has earned 56 credit hours. Transfer students with more than 56 credit hours should apply immediately after the semester in which they have earned 12 hours at EMU, including at least one course in their major. Students with 56 hours of transfer course work with a decision GPA of 3.0 may apply for admission to the teacher preparation program without 12 earned hours at EMU.

Admission to the teacher preparation program is not automatic. Only those persons who have formally applied are considered for admission. Not all persons who apply become eligible for admission.

Applications for the Initial Teacher Preparation Program at EMU are available within your my.emich account under the "Student" tab. Submit your completed application to the Office of Academic Services once you have earned 56 credit hours.

Teaching majors and minors are unofficial until program admission. Students pursuing teacher certification should follow the catalog that exists at the time of program admission. It is important that students apply to the teacher preparation program as soon as they have earned 56 credit hours.

Criteria:

1. Completion of 56 credit hours
2. Appropriate cumulative GPA. One of:
   1. An overall EMU GPA of 2.5 or higher based on a minimum of 12 credit hours taken at EMU. An EMU GPA of 2.5 or higher in your major, based on at least one course in your major. The Elementary Education Major is comprehensive, therefore, the elementary major GPA is based on the cumulative of liberal arts curriculum and content course work.
   2. Transferred 56 credits with a cumulative 3.0 GPA from all previous institutions.
3. A grade of "C" or higher (if taken) in the following courses:
   1. If Secondary: ENGL 121, CTAC 124, Quantitative Reasoning (GEQR), one lab science, all professional education courses, and, if special education, PSY 101.
   2. If Elementary: ENGL 121, CTAC 124, MATH 108, MATH 110E, PHY 100, ESSC 202, all of the professional education courses, all courses that state "for elementary teachers," and, if special education, PSY 101.
4. Official Test Scores showing competency in each of the following areas: mathematics, reading and writing. Scores are accepted from the Professional Readiness Exam (PRE), Basic Skills Test (no longer offered), ACT, or Michigan Merit Exam (MME). The following scores are acceptable:
   1. Mathematics: PRE pass, Basic Skills pass, ACT mathematics 22 or higher, or MME mathematics 1116 or higher.
   2. Writing: PRE pass, Basic Skills pass, ACT combined English/writing 24 or higher, or MME writing 1129 or higher.
   3. Reading: PRE pass, Basic Skills pass, ACT reading 22 or higher, or MME reading 1108 or higher.
5. ICHAT criminal background check and Statement of Civil/Criminal Convictions. If you answered yes to any of the civil/criminal conviction questions on the application, you will need to provide:
   1. A copy of the Judgment of Sentence, or Registrar of Actions, or Certification of Conviction.
   2. A written explanation of the offense(s). Application of students with civil/criminal convictions will be carefully reviewed and may take longer to process.
6. Meet academic, social, moral, and financial obligations as a member of the EMU community.

K-12 Special Education Core: 15 hours
- PSY 101 - General Psychology Lecture (GEKN) 3 hrs
- SPGN 251 - Introduction to Inclusion and Disabilities Studies in a Diverse Society (GEUS) 3 hrs
- SPGN 323W - Writing for Professionals in Special Education (GEWI) 3 hrs
- * SPGN 390 - Measurement and Diagnosis in Special Education 3 hrs
- * SPGN 481 - Assistive and Instructional Technology in Special Education 3 hrs

**Teachers of Students with Speech and Language Impairment Endorsement: 31 hours**

- * RDNG 300 - Early Literacy 3 hrs
- * SPGN 461 - Classroom Management and Intervention Strategies for Students with Disabilities 3 hrs
- SPHI 392 - Introduction to Audiology 3 hrs
- * SPHI 394 - Aural Habilitation Rehabilitation 3 hrs
- SPSI 332 - Acoustic Phonetics: Speech Science 2 hrs
- SPSI 334 - Applied Phonetics 3 hrs
- SPSI 335 - Introduction to Communication Disorders 3 hrs
- SPSI 336 - Physiologic Phonetics: Anatomy and Physiology 3 hrs
- SPSI 337 - Language Acquisition 3 hrs
- SPSI 347 - Normal Aging and Health Issues in Speech-Language Pathology 3 hrs

**Policy Change**

Students combining the Liberal Arts in Elementary Education with Special Education Major who take and pass the elementary certification test but are not immediately successful in taking their disability specific test are still eligible for recommendation for the elementary certification.

**Liberal Arts Major Requirements - Special Education: 42 hours**

✧ Twelve of the required courses can fulfill General Education requirements

Some of the courses listed below may also be listed in other areas of the program but only need to be taken once.

- ✧ ARTE 220 - Visual Arts for Elementary Teachers (GEKA) 3 hrs
- ✧ CHL 207 - Introduction to Children's Literature (GEKH) 3 hrs
- ✧ CTAC 124 - Foundations of Speech Communication (GEEC) 3 hrs
- ✧ ENGL 121 - Composition II: Researching the Public Experience (GEEC) 3 hrs
- ✧ ESSC 202 - Earth Science for Elementary Teachers (GEKN) 3 hrs
- ✧ GEOG 110 - World Regions (GEGA) 3 hrs
- ✧ HIST 123 - The United States to 1877 (GEKS) 3 hrs
- ✧ MATH 108 - Problem Solving and Number Concepts for Elementary School Teachers 3 hrs
- ✧ MATH 110E - Mathematical Reasoning: Applications for Elementary School Teachers (GEQR) 3 hrs
- ✧ MUSC 220 - Music for the Elementary Teacher (GEKA) 3 hrs
- ✧ PHY 100 - Physics for Elementary Teachers (GEKN) 3 hrs
- ✧ PLSC 112 - American Government (GEKS) 3 hrs
Professional Elementary Education Sequence - Speech/Language Pathology

Pre-Admission Phase: The Learner and the Community: 8 hours

Prerequisite: Sophomore standing or higher.

- EDPS 325 - Life Span Human Growth and Development 4 hrs
- HLED 320 - Health Education in the Elementary Grades 2 hrs
- PHED 257 - Physical Education for the Classroom Teacher 2 hrs

Phase I: Curriculum, Assessment, and the Social Context: 15 hours

Prerequisite: Completion of Pre-Admission Phase and formal admission to the Initial Teacher Preparation Program is required.

- CURR 304 - Curriculum and Methods: Elementary 3 hrs
- GEOG 348 - Teaching Social Studies in Elementary Schools 3 hrs
- PRCT 304 - Practicum I: Elementary 3 hrs
- RDNG 300 - Early Literacy 3 hrs
- SOFD 328W - Schools for a Diverse and Democratic Society (GEWI) 3 hrs

Phase II: Content and Methods and Teaching: 15 hours

Prerequisite: Completion of Phase I is required.

- BIOT 303 - Life Science for Elementary Teachers 3 hrs
- CTAR 300 - Integrated Arts 3 hrs
- MATH 381 - Teaching Mathematics in Elementary School 3 hrs
- PRCT 310 - Practicum II: Elementary 3 hrs
- RDNG 310 - Literacy Across the Curriculum in the Intermediate Grades 3 hrs

Phase III: Capstone Experience: 4 hours

Prerequisite: Completion of Phase II is required.

- EDUC 499 - Student Teaching (GELB) 4 hrs

Continuance Criteria

Criteria for continuance in a program of study in the Department of Special Education is dependent upon

1. Maintenance of a 2.5 GPA.
2. Maintenance of a 2.5 GPA in major courses in program of study.
3. Completion of all courses in the major with a grade of C or better. Students will be required to retake any major course in which they earn a grade below C. A major course may be repeated only once.

4. Demonstration of behaviors which indicate stability, maturity, understanding and aptitude as judged necessary for predicted success in the professional field of special education. Such qualitative judgments will be made by the department faculty.

The continuance or termination decision will be made by the faculty in the program area. Students may request a meeting with the faculty of a program area to apprise faculty of any extenuating circumstances that may aid faculty in arriving at a fair and equitable decision. The faculty decision will be final and will be transmitted to the student in writing by the department head.

Nothing in this department’s procedures will negate University or College of Education action for students on academic, administrative or social probation.

Termination from the Department

Students who fail to comply with the continuation criteria stated above will be notified in writing of their termination from the program. Students so notified have the right to appeal such termination through normal University channels. In some cases, a student will be required to meet with program area faculty for discussion of academic performance and continuation in the program.

Additional Continuance Criteria (Speech and Language Impairment)

To be allowed to continue in the speech-language pathology program, the student must meet the following criteria:

1. Maintenance of a cumulative overall GPA of 2.5 or better.

2. Maintenance of a cumulative major GPA of 2.5 or better.

3. Demonstration of behaviors which indicate reasonable stability, maturity, understanding and aptitude as judged necessary for predicted success as a speech-language pathologist. Such qualitative judgments will be made by the SLP faculty.

4. Students on academic probation will not be allowed to enroll in major courses until the probation is lifted and their overall GPA is 2.5.

5. Must pass a speech and hearing screening.

Minor Requirements:

This program does not require a minor.

Program Total:

Students must earn a minimum total of 124 credits at the 100-level or above.

Note:

* Admission to the Initial Teacher Preparation Program required.

Critical Graduation Information:
Each undergraduate student will be responsible for the fulfillment of the requirements or their equivalents of the Eastern Michigan University catalog in force at the time of their initial registration at a college or university or a subsequent catalog including the one in effect at the time of their graduation.

In the event an undergraduate student does not complete the degree requirements within seven years of the date of their original registration at a college or university, the student may be required to have their credits re-evaluated by the academic department(s) of their major/minor in keeping with catalog requirements in force during the year of their graduation.

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the 100-level and above. Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Complete a Writing Intensive (WI) Course in your major.
- Earn a minimum of 60 credits from a four-year college or university; courses taken at community colleges cannot be used to meet this requirement. (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 unique credit hours in their major and 20 unique credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
- Earn no more than 60 credit hours in one subject area (prefix). Credits in excess of the 60 maximum will not be counted toward the minimum of 124 credits required for a bachelor's degree.
- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more that one major or minor.
  - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
  - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
  - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor
- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is conducted by individual departments/schools within EMU, and additional documentation may be required. Please note: EMU awards only credit for transferred courses; grades are not used in the calculation of an EMU GPA.
- Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be reached in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

General Education Requirements:

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available in the General Education section of the catalog: General Education
Students who transferred to EMU may have modified general education requirements based on Michigan Transfer Agreement (MTA) or articulation agreements; consult your academic advisor for additional information.

University Information: Consult the online catalog at catalog.emich.edu.

Special Education Major K-12 Speech/Language Pathology Endorsement - Secondary

*The professional entry-level credential in speech-language pathology is the master’s degree in the field.*

Successful completion of this course of study, in the context of other program requirements, with respect to K-12 teacher licensure, satisfies the undergraduate portion of the requirements for the professional entry-level credential at the master’s degree level. This program leads toward, but does not satisfy, the requirements for recommendation to the Michigan Department of Education for K-12 endorsement as a Teacher of Students with Speech and Language Impairment. This program of study meets all requirements of the Council for Exceptional Children and of the American Speech-Language-Hearing Association. The Michigan Test for Teacher Certification (MTTC) covering this field is #057, “Speech and Language Impairment.”

Students selecting Secondary Certification must select a teachable minor from the approved list, and students must pass the certification test related to the minor.

Students are required to regularly meet with their program area faculty advisor to expedite their program of study.

Certificate in Speech Pathology

The American Speech-Language-Hearing Association issues Certificates of Clinical Competence to individuals who present satisfactory evidence of their ability to provide independent clinical services to persons who have disorders of communication (speech, language and/or hearing). An individual who meets these requirements may be awarded a Certificate in Speech Pathology or in Audiology, depending upon the emphasis of his or her preparation. Note: The program at Eastern Michigan prepares individuals to meet the requirements in speech pathology only. Specific requirements may be obtained from the advisors in speech pathology.

• RDNG 311 - Teaching Reading in the Secondary School 3 hrs

Phase III: Capstone Experience: 4 hours

Prerequisite: Completion of Phase II is required.

• EDUC 499 - Student Teaching (GELB) 4 hrs

Continuance Criteria

Criteria for continuance in a program of study in the Department of Special Education is dependent upon

1. Maintenance of a 2.5 GPA.
2. Maintenance of a 2.5 GPA in major courses in program of study.
3. Completion of all courses in the major with a grade of C or better. Students will be required to retake any major course in which they earn a grade below C. A major course may be repeated only once.
4. Demonstration of behaviors which indicate stability, maturity, understanding and aptitude as judged necessary for predicted success in the professional field of special education. Such qualitative judgments will be made by the department faculty.

The continuance or termination decision will be made by the faculty in the program area. Students may request a meeting with the faculty of a program area to apprise faculty of any extenuating circumstances that may aid faculty in arriving at a fair and equitable decision. The faculty decision will be final and will be transmitted to the student in writing by the department head.

Nothing in this department’s procedures will negate University or College of Education action for students on academic, administrative or social probation.

Termination from the Department

Students who fail to comply with the continuation criteria stated above will be notified in writing of their termination from the program. Students so notified have the right to appeal such termination through normal University channels. In some cases, a student will be required to meet with program area faculty for discussion of academic performance and continuation in the program.

Additional Continuance Criteria (Speech and Language Impairment)

To be allowed to continue in the speech-language pathology program, the student must meet the following criteria:

1. Maintenance of a cumulative overall GPA of 2.5 or better.
2. Maintenance of a cumulative major GPA of 2.5 or better.
3. Demonstration of behaviors which indicate reasonable stability, maturity, understanding and aptitude as judged necessary for predicted success as a speech-language pathologist. Such qualitative judgments will be made by the SLP faculty.
4. Students on academic probation will not be allowed to enroll in major courses until the probation is lifted and their overall GPA is 2.5.

5. Must pass a speech and hearing screening.

Minor Requirements:

This program requires a minor. Please contact your program advisor for a list of possible minors.

Program Total:

Students must earn a minimum total of 124 credits at the 100-level or above.

Note:

* Admission to the Initial Teacher Preparation Program required.

MTTC Subject Area Test

Starting January 1, 2013, Students seeking licensure in a secondary or K-12 area are not required to take the MTTC subject area test in their minor area. Students who elect not to take the test in their minor will be required to sign a statement indicating that they understand that they will not be endorsed in their minor area and will not be eligible for teaching positions in their minor unless they pass the minor subject area test within five years of completing field experience and course requirements.

Critical Graduation Information:

Each undergraduate student will be responsible for the fulfillment of the requirements or their equivalents of the Eastern Michigan University catalog in force at the time of their initial registration at a college or university or a subsequent catalog including the one in effect at the time of their graduation.

In the event an undergraduate student does not complete the degree requirements within seven years of the date of their original registration at a college or university, the student may be required to have their credits re-evaluated by the academic department(s) of their major/minor in keeping with catalog requirements in force during the year of their graduation.

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the 100-level and above. Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Complete a Writing Intensive (WI) Course in your major.
- Earn a minimum of 60 credits from a four-year college or university; courses taken at community colleges cannot be used to meet this requirement. (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
• Have a minimum of 30 unique credit hours in their major and 20 unique credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.

• Earn no more than 60 credit hours in one subject area (prefix). Credits in excess of the 60 maximum will not be counted toward the minimum of 124 credits required for a bachelor's degree.

• Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more that one major or minor.
  o Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
  o Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
  o Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor

• Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is conducted by individual departments/schools within EMU, and additional documentation may be required. Please note: EMU awards only credit for transferred courses; grades are not used in the calculation of an EMU GPA.

• Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be reached in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

General Education Requirements:

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available in the General Education section of the catalog: General Education

Students who transferred to EMU may have modified general education requirements based on Michigan Transfer Agreement (MTA) or articulation agreements; consult your academic advisor for additional information.

University Information: Consult the online catalog at catalog.emich.edu.

Special Education Major K-12 Visual Impairment Endorsement - Elementary

Successful completion of this course of study, in the context of other program requirements, qualifies the student for recommendation to the Michigan Department of Education for K-12 as a Teacher of Students with Visual Impairment (SK). This program of study meets all requirements of the Council for Exceptional Children. The Michigan Test for Teacher Certification (MTTC) covering this field is #061, "Visual Impairment." Students may select Secondary or Elementary Teacher Certification. Students selecting Elementary Certification must complete a second major in Liberal Arts for Elementary Education. In addition, those selecting Elementary Certification must pass the MTTC "Elementary Education" certification test, #103.

Students are required to regularly meet with their program area faculty advisor to expedite their program of study.

Department Information:

Special Education Department - College of Education
Initial Teacher Preparation Program Admission

In order to pursue the sequence of courses necessary to complete eligibility for recommendation for certification, one must apply for and be admitted to the teacher preparation program. Admission requirements are common for all teacher preparation programs, except that certain special education programs have additional requirements.

Each undergraduate student is responsible for applying to the teacher preparation program immediately after the semester in which the student has earned 56 credit hours. Transfer students with more than 56 credit hours should apply immediately after the semester in which they have earned 12 hours at EMU, including at least one course in their major. Students with 56 hours of transfer course work with a decision GPA of 3.0 may apply for admission to the teacher preparation program without 12 earned hours at EMU.

Admission to the teacher preparation program is not automatic. Only those persons who have formally applied are considered for admission. Not all persons who apply become eligible for admission.

Applications for the Initial Teacher Preparation Program at EMU are available within your my.emich account under the "Student" tab. Submit your completed application to the Office of Academic Services once you have earned 56 credit hours.

Teaching majors and minors are unofficial until program admission. Students pursuing teacher certification should follow the catalog that exists at the time of program admission. It is important that students apply to the teacher preparation program as soon as they have earned 56 credit hours.

Criteria:

1. Completion of 56 credit hours
2. Appropriate cumulative GPA. One of:
   1. An overall EMU GPA of 2.5 or higher based on a minimum of 12 credit hours taken at EMU. An EMU GPA of 2.5 or higher in your major, based on at least one course in your major. The Elementary Education Major is comprehensive, therefore, the elementary major GPA is based on the cumulative of liberal arts curriculum and content course work.
   2. Transferred 56 credits with a cumulative 3.0 GPA from all previous institutions.
3. A grade of "C" or higher (if taken) in the following courses:
1. **If Secondary:** ENGL 121, CTAC 124, Quantitative Reasoning (GEQR), one lab science, all professional education courses, and, if special education, PSY 101.

2. **If Elementary:** ENGL 121, CTAC 124, MATH 108, MATH 110E, PHY 100, ESSC 202, all of the professional education courses, all courses that state “for elementary teachers,” and, if special education, PSY 101.

4. Official Test Scores showing competency in each of the following areas: mathematics, reading and writing. Scores are accepted from the Professional Readiness Exam (PRE), Basic Skills Test (no longer offered), ACT, or Michigan Merit Exam (MME). The following scores are acceptable:
   1. **Mathematics:** PRE pass, Basic Skills pass, ACT mathematics 22 or higher, or MME mathematics 1116 or higher.
   2. **Writing:** PRE pass, Basic Skills pass, ACT combined English/writing 24 or higher, or MME writing 1129 or higher.
   3. **Reading:** PRE pass, Basic Skills pass, ACT reading 22 or higher, or MME reading 1108 or higher.

5. ICHAT criminal background check and Statement of Civil/Criminal Convictions. If you answered yes to any of the civil/criminal conviction questions on the application, you will need to provide:
   1. A copy of the Judgment of Sentence, or Registrar of Actions, or Certification of Conviction.
   2. A written explanation of the offense(s). Application of students with civil/criminal convictions will be carefully reviewed and may take longer to process.

6. Meet academic, social, moral, and financial obligations as a member of the EMU community.

**Major Requirements: 46 hours**

* PHED 257 and SPGN 491 are considered major requirements although they are listed in the professional sequence.

**K-12 Special Education Core: 26 hours**

- PSY 101 - General Psychology Lecture (GEKN) 3 hrs
- SPGN 251 - Introduction to Inclusion and Disabilities Studies in a Diverse Society (GEUS) 3 hrs
- SPGN 271 - Speech and Language Development in Children, Adolescents and Young Adults with Exceptional Learning Needs 2 hrs
- SPGN 323W - Writing for Professionals in Special Education (GEWI) 3 hrs
- * SPGN 390 - Measurement and Diagnosis in Special Education 3 hrs
- SPGN 395 - Children, Adolescents, and Young Adults with Disabilities: School, Family and Community Interaction 3 hrs
- * SPGN 461 - Classroom Management and Intervention Strategies for Students with Disabilities 3 hrs
- * SPGN 471 - Curriculum and Transitions for Secondary Special Education 3 hrs
- * SPGN 481 - Assistive and Instructional Technology in Special Education 3 hrs

**Teacher of Students with Visual Impairment Endorsement: 20 hours**

- SPVI 365 - Braille 3 hrs
- SPVI 366 - The Eye and Vision — Anatomy and Physiology 2 hrs
- SPVI 368 - Mobility Training for Persons with Visual Impairment 2 hrs
- SPVI 369 - Community Considerations for Persons with Visual Impairment 3 hrs
- * SPVI 464 - Methods of Teaching Children who are Blind 3 hrs
- * SPVI 465 - Braille II: Nemeth Code 3 hrs
- * SPVI 467 - Education of Children with Visual Impairment 2 hrs
- * SPVI 469 - Technology for Persons with Visual Impairment 2 hrs
Policy Change

Students combining the Liberal Arts in Elementary Education with Special Education Major who take and pass the elementary certification test but are not immediately successful in taking their disability specific test are still eligible for recommendation for the elementary certification.

Liberal Arts Major Requirements - Special Education: 42 hours

Twelve of the required courses can fulfill General Education requirements

Some of the courses listed below may also be listed in other areas of the program but only need to be taken once.

- ARTE 220 - Visual Arts for Elementary Teachers (GEKA) 3 hrs
- CHL 207 - Introduction to Children's Literature (GEKH) 3 hrs
- CTAC 124 - Foundations of Speech Communication (GEEC) 3 hrs
- ENGL 121 - Composition II: Researching the Public Experience (GEEC) 3 hrs
- ESSC 202 - Earth Science for Elementary Teachers (GEKN) 3 hrs
- GEOG 110 - World Regions (GEGA) 3 hrs
- HIST 123 - The United States to 1877 (GEKS) 3 hrs
- MATH 108 - Problem Solving and Number Concepts for Elementary School Teachers 3 hrs
- MATH 110E - Mathematical Reasoning: Applications for Elementary School Teachers (GEQR) 3 hrs
- MUSC 220 - Music for the Elementary Teacher (GEKA) 3 hrs
- PHY 100 - Physics for Elementary Teachers (GEKN) 3 hrs
- PLSC 112 - American Government (GEKS) 3 hrs

Professional Elementary Education Sequence - Special Education

Pre-Admission Phase: The Learner and the Community: 8 hours

Prerequisite: Sophomore standing or higher.

- EDPS 325 - Life Span Human Growth and Development 4 hrs
- HLED 320 - Health Education in the Elementary Grades 2 hrs
- PHED 257 - Physical Education for the Classroom Teacher 2 hrs

Phase I: Curriculum, Assessment, and the Social Context: 15 hours

Prerequisite: Completion of Pre-Admission Phase and formal admission to the Initial Teacher Preparation Program is required.

- CURR 304 - Curriculum and Methods: Elementary 3 hrs
- GEOG 348 - Teaching Social Studies in Elementary Schools 3 hrs
- RDNG 300 - Early Literacy 3 hrs
- SOFD 328W - Schools for a Diverse and Democratic Society (GEWI) 3 hrs

One of the following:

- PRCT 304 - Practicum I: Elementary 3 hrs
• SPCI 240 - Preclinical Experiences — Cognitive Impairment 3 hrs
• SPEI 240 - Pre-clinical Experiences — Emotional Impairment 3 hrs
• SPPI 240 - Preclinical Experiences — POHI 3 hrs

Phase II: Content and Methods and Teaching: 15 hours

*Prerequisite: Completion of Phase I is required.*

• BIOT 303 - Life Science for Elementary Teachers 3 hrs
• CTAR 300 - Integrated Arts 3 hrs
• MATH 381 - Teaching Mathematics in Elementary School 3 hrs
• PRCT 310 - Practicum II: Elementary 3 hrs
• RDNG 310 - Literacy Across the Curriculum in the Intermediate Grades 3 hrs

Phase III: Capstone Experience: 16 hours

*Prerequisite: Completion of Phase II is required.*

• EDUC 499 - Student Teaching (GELB) 4 hrs
• SPGN 491 - Special Education Student Teaching and Seminar 12 hrs

Continuance Criteria

Continuance Criteria

Criteria for continuance in a program of study in the Department of Special Education is dependent upon

1. Maintenance of a 2.5 GPA.
2. Maintenance of a 2.5 GPA in major courses in program of study.
3. Completion of all courses in the major with a grade of C or better. Students will be required to retake any major course in which they earn a grade below C. A major course may be repeated only once.
4. Demonstration of behaviors which indicate stability, maturity, understanding and aptitude as judged necessary for predicted success in the professional field of special education. Such qualitative judgments will be made by the department faculty.

The continuance or termination decision will be made by the faculty in the program area. Students may request a meeting with the faculty of a program area to apprise faculty of any extenuating circumstances that may aid faculty in arriving at a fair and equitable decision. The faculty decision will be final and will be transmitted to the student in writing by the department head.

Nothing in this department’s procedures will negate University or College of Education action for students on academic, administrative or social probation.

Termination from the Department

Students who fail to comply with the continuation criteria stated above will be notified in writing of their termination from the program. Students so notified have the right to appeal such termination through normal University channels. In some cases, a student will be required to meet with program area faculty for discussion of academic performance and continuation in the program.
Minor Requirements:

This program does not require a minor.

Program Total:

Students must earn a minimum total of 124 credits at the 100-level or above.

Note:

* Admission to the Initial Teacher Preparation Program required.

Critical Graduation Information:

Each undergraduate student will be responsible for the fulfillment of the requirements or their equivalents of the Eastern Michigan University catalog in force at the time of their initial registration at a college or university or a subsequent catalog including the one in effect at the time of their graduation.

In the event an undergraduate student does not complete the degree requirements within seven years of the date of their original registration at a college or university, the student may be required to have their credits re-evaluated by the academic department(s) of their major/minor in keeping with catalog requirements in force during the year of their graduation.

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the **100-level and above**. Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Complete a Writing Intensive (WI) Course in your major.
- Earn a minimum of 60 credits from a four-year college or university; courses taken at community colleges cannot be used to meet this requirement. (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 unique credit hours in their major and 20 unique credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
- Earn no more than 60 credit hours in one subject area (prefix). Credits in excess of the 60 maximum will not be counted toward the minimum of 124 credits required for a bachelor's degree.
- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more that one major or minor.
  - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
  - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
  - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor.
• Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is conducted by individual departments/schools within EMU, and additional documentation may be required. Please note: EMU awards only credit for transferred courses; grades are not used in the calculation of an EMU GPA.

• Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be reached in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

General Education Requirements:

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available in the General Education section of the catalog: General Education

Students who transferred to EMU may have modified general education requirements based on Michigan Transfer Agreement (MTA) or articulation agreements; consult your academic advisor for additional information.

University Information: Consult the online catalog at catalog.emich.edu.

Special Education Major K-12 Visual Impairment Endorsement - Secondary

Successful completion of this course of study, in the context of other program requirements, qualifies the student for recommendation to the Michigan Department of Education for a Michigan Provisional Secondary Teaching Certificate with a K-12 endorsement as a Teacher of Students with Visual Impairment, certification code SK and, depending on the minor selected, an additional endorsement. This program of study meets all requirements of the Council for Exceptional Children. The Michigan Test for Teacher Certification (MTTC) covering this field is #061, “Visually Impaired.” Students are required to regularly meet with their program area faculty advisor to expedite their program of study.

Students selecting Secondary Certification must select a teachable minor from the approved list, and students must pass the certification test related to the minor in order to be recommended for endorsement in the minor field.

*Prerequisite: Completion of Phase II is required.*

- EDUC 499 - Student Teaching (GELB) 4 hrs
- SPGN 491 - Special Education Student Teaching and Seminar 12 hrs

Continuance Criteria

Criteria for continuance in a program of study in the Department of Special Education is dependent upon

1. Maintenance of a 2.5 GPA.
2. Maintenance of a 2.5 GPA in major courses in program of study.
3. Completion of all courses in the major with a grade of C or better. Students will be required to retake any major course in which they earn a grade below C. A major course may be repeated only once.
4. Demonstration of behaviors which indicate stability, maturity, understanding and aptitude as judged necessary for predicted success in the professional field of special education. Such qualitative judgments will be made by the department faculty.

The continuance or termination decision will be made by the faculty in the program area. Students may request a meeting with the faculty of a program area to apprise faculty of any extenuating circumstances that may aid faculty in arriving at a fair and equitable decision. The faculty decision will be final and will be transmitted to the student in writing by the department head.

Nothing in this department’s procedures will negate University or College of Education action for students on academic, administrative or social probation.

Termination from the Department

Students who fail to comply with the continuation criteria stated above will be notified in writing of their termination from the program. Students so notified have the right to appeal such termination through normal University channels. In some cases, a student will be required to meet with program area faculty for discussion of academic performance and continuation in the program.
Minor Requirements:

This program requires a minor. Please contact your program advisor for a list of possible minors.

Program Total:

Students must earn a minimum total of 124 credits at the 100-level or above.

Note:

* Admission to the Initial Teacher Preparation Program required.

MTTC Subject Area Test

Starting January 1, 2013, Students seeking licensure in a secondary or K-12 area are not required to take the MTTC subject area test in their minor area. Students who elect not to take the test in their minor will be required to sign a statement indicating that they understand that they will not be endorsed in their minor area and will not be eligible for teaching positions in their minor unless they pass the minor subject area test within five years of completing field experience and course requirements.

Critical Graduation Information:

Each undergraduate student will be responsible for the fulfillment of the requirements or their equivalents of the Eastern Michigan University catalog in force at the time of their initial registration at a college or university or a subsequent catalog including the one in effect at the time of their graduation.

In the event an undergraduate student does not complete the degree requirements within seven years of the date of their original registration at a college or university, the student may be required to have their credits re-evaluated by the academic department(s) of their major/minor in keeping with catalog requirements in force during the year of their graduation.

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the 100-level and above. Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Complete a Writing Intensive (WI) Course in your major.
- Earn a minimum of 60 credits from a four-year college or university; courses taken at community colleges cannot be used to meet this requirement. (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 unique credit hours in their major and 20 unique credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
• Earn no more than 60 credit hours in one subject area (prefix). Credits in excess of the 60 maximum will not be counted toward the minimum of 124 credits required for a bachelor's degree.

• Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more than one major or minor.
  o Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
  o Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
  o Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor

• Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is conducted by individual departments/schools within EMU, and additional documentation may be required. Please note: EMU awards only credit for transferred courses; grades are not used in the calculation of an EMU GPA.

• Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be reached in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

General Education Requirements:

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available in the General Education section of the catalog: General Education

Students who transferred to EMU may have modified general education requirements based on Michigan Transfer Agreement (MTA) or articulation agreements; consult your academic advisor for additional information.

University Information: Consult the online catalog at catalog.emich.edu.

Speech/Language Pathology Major - Health Care Track

The professional entry-level credential in speech-language pathology is the master’s degree in the field.

Certificate in Speech Pathology
The American Speech-Language-Hearing Association issues Certificates of Clinical Competence to individuals who present satisfactory evidence of their ability to provide independent clinical services to persons who have disorders of communication (speech, language and/or hearing). An individual who meets these requirements may be awarded a Certificate in Speech Pathology or in Audiology, depending upon the emphasis of his or her preparation. Note: The program at Eastern Michigan University prepares individuals to meet the requirements in speech pathology only. Specific requirements may be obtained from the advisors in speech pathology.

Note: Students must have and maintain a 3.0 GPA in order to be admitted into and take SPSI courses.

K-12 Special Education Core: 15 hours

- PSY 101 - General Psychology Lecture (GEKN) 3 hrs
- SPGN 251 - Introduction to Inclusion and Disabilities Studies in a Diverse Society (GEUS) 3 hrs
- SPGN 323W - Writing for Professionals in Special Education (GEWI) 3 hrs
- * SPGN 390 - Measurement and Diagnosis in Special Education 3 hrs
- * SPGN 481 - Assistive and Instructional Technology in Special Education 3 hrs

Speech/Language Pathology Requirements: 31 hours

- * RDNG 300 - Early Literacy 3 hrs
- * SPGN 461 - Classroom Management and Intervention Strategies for Students with Disabilities 3 hrs
- SPHI 392 - Introduction to Audiology 3 hrs
- * SPHI 394 - Aural Habilitation Rehabilitation 3 hrs
- SPSI 332 - Acoustic Phonetics: Speech Science 2 hrs
- SPSI 334 - Applied Phonetics 3 hrs
- SPSI 335 - Introduction to Communication Disorders 3 hrs
- SPSI 336 - Physiologic Phonetics: Anatomy and Physiology 3 hrs
- SPSI 337 - Language Acquisition 3 hrs
- SPSI 347 - Normal Aging and Health Issues in Speech-Language Pathology 3 hrs

Elective Courses: 17 hours

Select courses with advisor approval.

Minor Requirements:

This program requires a minor. Please contact your program advisor for a list of possible minors.

Program Total:

Students must earn a minimum total of 124 credits at the 100-level or above.

Note:

* Admission to the Initial Teacher Preparation Program required.
Critical Graduation Information:

Each undergraduate student will be responsible for the fulfillment of the requirements or their equivalents of the Eastern Michigan University catalog in force at the time of their initial registration at a college or university or a subsequent catalog including the one in effect at the time of their graduation.

In the event an undergraduate student does not complete the degree requirements within seven years of the date of their original registration at a college or university, the student may be required to have their credits re-evaluated by the academic department(s) of their major/minor in keeping with catalog requirements in force during the year of their graduation.

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the 100-level and above. Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Complete a Writing Intensive (WI) Course in your major.
- Earn a minimum of 60 credits from a four-year college or university; courses taken at community colleges cannot be used to meet this requirement. (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 unique credit hours in their major and 20 unique credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
- Earn no more than 60 credit hours in one subject area (prefix). Credits in excess of the 60 maximum will not be counted toward the minimum of 124 credits required for a bachelor's degree.
- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more than one major or minor.
  o Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
  o Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
  o Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor
- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is conducted by individual departments/schools within EMU, and additional documentation may be required. Please note: EMU awards only credit for transferred courses; grades are not used in the calculation of an EMU GPA.
- Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be reached in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

General Education Requirements:
EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available in the General Education section of the catalog: General Education

Students who transferred to EMU may have modified general education requirements based on Michigan Transfer Agreement (MTA) or articulation agreements; consult your academic advisor for additional information.

University Information: Consult the online catalog at catalog.emich.edu.

Advisor Information:

Certificate

Undergraduate Certificate in Classroom and Behavior Management Studies

New Certificate, effective Fall 2014

Goals and Objectives

1. To provide the opportunity for general education teachers to enhance their expertise in student and classroom behavior management and to increase teach candidate marketability with the documentation of a certificate.
2. To increase and improve the application of validated behavior management skills among educational professionals.

(734) 487-3300

General Education Requirements:
For specific requirements refer to the General Education Program.

**Admission Criteria:**

In order to be admitted to this Undergraduate Certificate in Classroom and Behavior Management, you have to meet the following conditions. One, you must be either pursuing an undergraduate degree at EMU as part of the Initial Teacher Preparation Program (Special Education Majors are not eligible) or you can apply as a baccalaureate degree holder. You must have a cumulative GPA of 2.5, have completed a Certificate Program Application, and have completed the following courses.

- **PSY 101 - General Psychology Lecture (GEKN) 3 hrs**
  
  Please be aware that PSY 103 must be completed in addition to PSY 101 to satisfy four credits of the Knowledge of the Disciplines-Natural Science portion of the General Education Program.
  
  or

- **EDPS 322 - Human Development and Learning 4 hrs**
  
  or

- **EDPS 325 - Life Span Human Growth and Development 4 hrs**

- **SPGN 251 - Introduction to Inclusion and Disabilities Studies in a Diverse Society (GEUS) 3 hrs**

**Required Courses: 17 hours**

- **SPEI 301 - Children and Adolescents with Emotional Impairment 4 hrs**

- **SPEI 401L - Programming, Methods and Curriculum for Elementary Students with Emotion Impairment (GELB) 4 hrs**

- **SPEI 449 - Beyond Behavior 3 hrs**

- **SPGN 395 - Children, Adolescents, and Young Adults with Disabilities: School, Family and Community Interaction 3 hrs**

- **SPGN 461 - Classroom Management and Intervention Strategies for Students with Disabilities 3 hrs**

**Critical Information regarding Certificates**

Undergraduate certificates may only be offered in conjunction with or subsequent to a baccalaureate degree. They cannot be ‘stand alone’ certificates, offered to students who are not pursuing or do not have a bachelor’s degree. For students pursuing an undergraduate certificate concurrent with a bachelor’s degree, the certificate will be awarded upon graduation.

**Critical Graduation Information:**

Each undergraduate student will be responsible for the fulfillment of the requirements or their equivalents of the Eastern Michigan University catalog in force at the time of their initial registration at a college or university or a subsequent catalog including the one in effect at the time of their graduation.

In the event an undergraduate student does not complete the degree requirements within seven years of the date of their original registration at a college or university, the student may be required to have their credits re-evaluated by the academic department(s) of their major/minor in keeping with catalog requirements in force during the year of their graduation.

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the 100-level and above. Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses
will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.

- Meet the requirements of the General Education program (see information below).
- Complete a Writing Intensive (WI) Course in your major.
- Earn a minimum of 60 credits from a four-year college or university; courses taken at community colleges cannot be used to meet this requirement. (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 unique credit hours in their major and 20 unique credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
- Earn no more than 60 credit hours in one subject area (prefix). Credits in excess of the 60 maximum will not be counted toward the minimum of 124 credits required for a bachelor's degree.
- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more that one major or minor.
  - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
  - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
  - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor
- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Cognitive Impairment

SPCI 177 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr
SPCI 178 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs
Prerequisite: Department permission
Last Updated: Links 03/2011

SPCI 179 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs
Prerequisite: Department permission
Last Updated: Links 03/2011

SPCI 240 - Preclinical Experiences — Cognitive Impairment

This introductory course provides exposure to and experience with K-12 students with cognitive impairment. EMU students will be encouraged to evaluate and examine their motivation to become a teacher of students with cognitive impairment, and will be introduced to all aspects of the teaching profession. In this course students will participate in field experiences with K-12 students with cognitive impairment.

Credit Hours: 3 hrs

SPCI 277 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr
Prerequisite: Department permission
Last Updated: Links 03/2011

SPCI 278 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs
Prerequisite: Department permission
Last Updated: Links 03/2011

SPCI 279 - Special Topics
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 3 hrs  
**Prerequisite:** Department permission  
**Last Updated:** Links 03/2011

**SPCI 350L - Introduction to Cognitive Impairment (GELB)**

Introduction to the field of cognitive impairment, its history, terminology, causes, health, medical and sensorineural components. Philosophies influencing educational practice and life management approaches are presented.

**Credit Hours:** 3 hrs  
**Prerequisite:** SPGN 251, PSY 101  
**Notes:** Academic Service Learning Course (Winter 2015, CRN: 24518).  
**Last Updated:** Course Note 12/2014; Links 03/2011

**SPCI 377 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 1 hr  
**Prerequisite:** Department permission  
**Last Updated:** Links 03/2011

**SPCI 378 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 2 hrs  
**Prerequisite:** Department permission  
**Last Updated:** Links 03/2011

**SPCI 379 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 3 hrs  
**Prerequisite:** Department permission  
**Last Updated:** Links 03/2011

**SPCI 427 - Education of the Elementary Student with Cognitive Impairment**

Development of programs, materials and instructional techniques appropriate to meet the needs of the child with cognitive impairment from birth to age 12.

**Credit Hours:** 2 hrs
Prerequisite: SPCI 240, SPCI 350L and admission to the Initial Teacher Preparation Program

Last Updated: Links 03/2011

SPCI 429 - Education for Teachers of Individuals with Mild Cognitive Impairment in Inclusive Settings

Philosophy of education, curriculum, assessment, teaching methods and classroom management techniques for students with mild cognitive impairment across the K-12 spectrum. A three-hour per week field experience is an integral component of the course.

Credit Hours: 4 hrs
Prerequisite: SPCI 240, SPCI 350L and admission to the Initial Teacher Preparation Program
Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.

Last Updated: Graduate Credit 07/2011; Links 03/2011

SPCI 477 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr
Prerequisite: Department permission

Last Updated: Links 03/2011

SPCI 478 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs
Prerequisite: Department permission

Last Updated: Links 03/2011

SPCI 479 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs
Prerequisite: Department permission

Last Updated: Links 03/2011

SPCI 483 - Education of Students in Programs for Moderate or Severe Cognitive Impairment

Philosophy, curriculum, assessment, teaching methods and classroom management techniques for students with moderate or severe cognitive impairment, or with multiple impairments. A three-hour per week field experience is an integral component of the course.

Credit Hours: 4 hrs
Prerequisite: SPGN 240, SPCI 350L and SPGN 461; admission to the Initial Teacher Preparation Program
Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.

Last Updated: Graduate Credit 07/2011; Links 03/2011

SPCI 497 - Independent Study

Advanced study on an individual basis in areas in which the department does not offer a formal course.

Credit Hours: 1 hr
Prerequisite: Department permission

Last Updated: Links 03/2011

SPCI 498 - Independent Study

Advanced study on an individual basis in areas in which the department does not offer a formal course.

Credit Hours: 2 hrs
Prerequisite: Department permission

Last Updated: Links 03/2011

SPCI 499 - Independent Study

Advanced study on an individual basis in areas in which the department does not offer a formal course.

Credit Hours: 3 hrs
Prerequisite: Department permission

Emotional Impairment

SPEI 177 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr
Prerequisite: Department permission

Last Updated: Links 03/2011

SPEI 178 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs
Prerequisite: Department permission

Last Updated: Links 03/2011

SPEI 179 - Special Topics
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 3 hrs  
**Prerequisite:** Department permission  
**Last Updated:** Links 03/2011

**SPEI 240 - Pre-clinical Experiences — Emotional Impairment**

This introductory course provides exposure to and experience with K-12 students with emotional impairment. Students are encouraged to evaluate and examine their motivation to become a teacher of students with emotional impairment, as they are introduced to all aspects of the teaching profession. In this course, students participate in field experiences with K-12 students with emotional impairment and have opportunities to visit a variety of placements serving K-12 students with emotional impairment.

**Credit Hours:** 3 hrs

**SPEI 277 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 1 hr  
**Prerequisite:** Department permission  
**Last Updated:** Links 03/2011

**SPEI 278 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 2 hrs  
**Prerequisite:** Department permission  
**Last Updated:** Links 03/2011

**SPEI 279 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 3 hrs  
**Prerequisite:** Department permission  
**Last Updated:** Links 03/2011

**SPEI 301 - Children and Adolescents with Emotional Impairment**

This course provides an exploration of models and theories that explain the etiology of youth emotional-behavioral impairments. Diagnostic categories and related evidence-based interventions for inclusive and other educational settings will be explored. The role of parents, guardians, educators, and other ancillary professionals will be defined and discussed.

**Credit Hours:** 4 hrs
SPEI 377 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr
Prerequisite: Department permission
Last Updated: Links 03/2011

SPEI 378 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs
Prerequisite: Department permission
Last Updated: Links 03/2011

SPEI 379 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs
Prerequisite: Department permission
Last Updated: Links 03/2011

SPEI 401L - Programming, Methods and Curriculum for Elementary Students with Emotion Impairment (GELB)

Teaching methods, techniques and materials for educating elementary age children with emotional impairments will be presented. In addition, types of programs serving elementary age students with emotional impairment, as well as the individualized education program and federal and state rules governing the programs will be discussed.

Credit Hours: 4 hrs
Prerequisite: SPGN 390, SPGN 461, SPEI 301, and admission to the Initial Teacher Preparation Program
Major Restrictions: Emotional Impairment Majors only
Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.
Last Updated: Graduate Credit 07/2011; Links 03/2011

SPEI 449 - Beyond Behavior

An examination of systemic topics beyond the scope of the Individuals with Disabilities Education Act (IDEA) that impact the well-being of youth and adolescents with emotional-behavioral impairments: social, cultural and environmental factors; home disruptions; internalized disorders; externalized disorders; and pervasive disorders.
Credit Hours: 3 hrs  
**Prerequisite:** SPEI 301; SPGN 390; SPGN 395; SPGN 461 and admission to the Initial Teacher Preparation Program  
**Class Restrictions:** Junior standing  
**Major Restrictions:** Emotional Impairment Majors only  
**Last Updated:** Links 03/2011

**SPEI 477 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr  
**Prerequisite:** Department permission  
**Last Updated:** Links 03/2011

**SPEI 478 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs  
**Prerequisite:** Department permission  
**Last Updated:** Links 03/2011

**SPEI 479 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs  
**Prerequisite:** Department permission  
**Last Updated:** Links 03/2011

**SPEI 488 - Curriculum, Methods and Programming for Secondary Students with Emotional Impairment**

Teaching methods, techniques and materials appropriate for adolescents with emotional impairment are presented. Transition fundamentals are addressed and students are provided opportunities to observe and interact with adolescents and young adults with emotional impairment. Students participate in the development of a transition plan through a structured field experience.

Credit Hours: 2 hrs

**SPEI 497 - Independent Study**

Advanced study on an individual basis in areas in which the department does not offer a formal course.

Credit Hours: 1 hr  
**Prerequisite:** Department permission  
**Last Updated:** Links 03/2011

**SPEI 498 - Independent Study**
Advanced study on an individual basis in areas in which the department does not offer a formal course.

**Credit Hours:** 2 hrs  
**Prerequisite:** Department permission  
**Last Updated:** Links 03/2011

**SPEI 499 - Independent Study**

Advanced study on an individual basis in areas in which the department does not offer a formal course.

**Credit Hours:** 3 hrs  
**Prerequisite:** Department permission  
**Last Updated:** Links 03/2011

**Hearing Impairment**

**SPHI 177 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 1 hr  
**Prerequisite:** Department permission  
**Last Updated:** Links 03/2011

**SPHI 178 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 2 hrs  
**Prerequisite:** Department permission  
**Last Updated:** Links 03/2011

**SPHI 228 - Education of Students with Hearing Impairment**

Designed to cover the history of the education of persons with hearing impairments, and to provide an overview of educational programming, psychological adjustment, parent counseling, communication methods and various philosophical approaches to education of persons with hearing impairments.

**Credit Hours:** 3 hrs  
**Concurrent Prerequisite:** SPGN 251  
**Last Updated:** Links 03/2011

**SPHI 277 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 1 hr
Prerequisite: Department permission
Last Updated: Links 03/2011

SPHI 278 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs
Prerequisite: Department permission
Last Updated: Links 03/2011

SPHI 279 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs
Prerequisite: Department permission
Last Updated: Links 03/2011

SPHI 375 - Fundamentals of Sign Communication

A study of the rationale for use of manual communication systems with persons with hearing impairments, including American Sign Language, manually-coded English Sign systems and fingerspelling. Beginning-level skills in manual communication will be developed. Observation of use of sign language in school programs will be required.

Credit Hours: 2 hrs

SPHI 377 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr
Prerequisite: Department permission
Last Updated: Links 03/2011

SPHI 378 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs
Prerequisite: Department permission
Last Updated: Links 03/2011

SPHI 379 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.
SPHI 387 - Introductory Practicum — Students with Hearing Impairment

Thirty clock hours of supervised observation and work with students with hearing impairments.

SPHI 391 - Language for Students with Hearing Impairment

Language development of children with prelingual hearing impairments. Survey of various methods of teaching language, including natural and structured approaches.

SPHI 392 - Introduction to Audiology

This course provides an overview of the fundamental concepts of acoustics, anatomy and physiology. The pathologies of the auditory system, the basic audiological assessment techniques and audiometric interpretation; hearing screening and various rehabilitative measures will be discussed.

SPHI 394 - Aural Habilitation Rehabilitation

A study of the avenues of receptive language available to persons with impaired hearing; the development of auditory learning, auditory training and the training of speechreading. Includes the understanding of group and individual hearing aids, other assistive technology and surgical implants.

SPHI 435 - Phonetics and Hearing Impairment

Prerequisite: SPSI 332 and SPSI 336

Last Updated: Links 03/2011

SPHI 436 - Speech Methods for Students with Hearing Impairment

Methods of assessment and intervention in the development of intelligible connected speech in persons with hearing impairments.

Credit Hours: 3 hrs

Prerequisite: SPHI 435; admission to the Initial Teacher Preparation Program

Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.

Last Updated: Graduate Credit 07/2011; Links 03/2011

SPHI 437 - Adaptive Curriculum for Students with Hearing Impairment

Principles and methods of teaching academic subjects to students with hearing impairments. Classroom procedures and materials especially designed for students with hearing impairments, as well as the adaptation of regular curricula and materials will be presented.

Credit Hours: 3 hrs

Prerequisite: SPHI 391; admission to the Initial Teacher Preparation Program

Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.

Last Updated: Graduate Credit 07/2011; Links 03/2011

SPHI 477 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr

Prerequisite: Department permission

Last Updated: Links 03/2011

SPHI 478 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs

Prerequisite: Department permission

Last Updated: Links 03/2011

SPHI 479 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs

Prerequisite: Department permission

SPPI 240 - Preclinical Experiences — POHI

This introductory course provides exposure to and experience with the physically or otherwise health impaired. Students will be encouraged to evaluate and examine their motivation for becoming a teacher of the physically and health impaired and be introduced to all aspects of the teaching profession. Students will participate in a field experience, being exposed to all age and grade levels. They will have an opportunity to visit a variety of settings that employ teachers of the physically and health impaired and be exposed to the ancillary services found in most POHI delivery models.

Credit Hours: 3 hrs

SPPI 277 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr
Prerequisite: Department permission
Last Updated: Links 03/2011
SPPI 278 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Prerequisite: Department permission
Last Updated: Links 03/2011

SPPI 279 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs
Prerequisite: Department permission
Last Updated: Links 03/2011

SPPI 310 - Developmental Sciences for Teachers of the Physically and Health Impaired

A study of developmental human anatomy and physiology with emphasis upon the impact of the nervous system and its integration, function and control of the other body systems and their functions. The relationship of normal development to disability is explored and infused throughout the course. Laboratory periods are required where students can investigate the principles covered in lecture using anatomical models and specimens.

Credit Hours: 4 hrs
Prerequisite: BIO 105 and SPGN 251
Last Updated: Links 03/2011

SPPI 360 - Pathology of Physical and Health Impairments (To Be Deleted)

A comprehensive study of orthopedic, neurologic, health and other handicapping conditions common to children and youth comprising the population found in educational settings serviced by the POHI teacher. Medical terminology and procedures are also introduced.

Credit Hours: 3 hrs
Prerequisite: SPPI 310
Last Updated: to be deleted 5/2013, effective Winter 2014; Links 03/2011

SPPI 377 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr
Prerequisite: Department permission

SPPI 378 - Special Topics
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 2 hrs  
**Prerequisite:** Department permission  
**Last Updated:** Links 03/2011

**SPPI 379 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 3 hrs  
**Prerequisite:** Department permission  
**Last Updated:** Links 03/2011

**SPPI 412 - Ancillary Services and Health Procedures for Teachers of Physically Impaired**

Information concerning the individual disciplines that provide ancillary services to physically and health impaired students. Skills involving the use of adaptive equipment, manipulation of orthotics, and implementation of health intervention and maintenance procedures will be learned.

**Credit Hours:** 2 hrs  
**Prerequisite:** SPPI 310 or instructor permission; admission to the Initial Teacher Preparation Program  
**Graduate Credit:** This is an undergraduate course available to graduate students for graduate credit.  
**Last Updated:** Graduate Credit 07/2011; Links 03/2011

**SPPI 414 - Educational Strategies for Teachers of the Physically Impaired**

This course encompasses information and develops skills needed to develop, implement, and evaluate curriculum and methods for the preschool and elementary physically and otherwise health impaired student. All aspects of cognitive, affective, and psychomotor education are explored. Emphasis is placed upon individualized instruction and programming, adaptations and modification of instructional methods and materials, remediation, communication, problem-solving, decision-making, personal adjustment, prevocational education and leisure activities. A directed classroom laboratory is required.

**Credit Hours:** 4 hrs  
**Prerequisite:** CURR 304 or CURR 305; admission to the Initial Teacher Preparation Program  
**Graduate Credit:** This is an undergraduate course available to graduate students for graduate credit.  
**Last Updated:** prerequisite change, 5/2013 effective Winter 2014; Graduate Credit 07/2011; Links 03/2011

**SPPI 497 - Independent Study**

Advanced study on an individual basis in areas in which the department does not offer a formal course.

**Credit Hours:** 1 hr  
**Prerequisite:** Department permission  
**Last Updated:** Links 03/2011

**SPPI 498 - Independent Study**
Advanced study on an individual basis in areas in which the department does not offer a formal course.

**SPGN 251 - Introduction to Inclusion and Disabilities Studies in a Diverse Society (GEUS)**

An introductory survey course providing the historical, philosophical and organizational factors leading to the enactment of federal and state laws, rules, and regulations governing person with disabilities, including those in special education. Characteristics, educational and functional considerations, and implication of all areas of exceptionalities are addressed.

**Credit Hours:** 3 hrs
Previously Listed As: Education of Students with Exceptionalities

Perspectives on a Diverse World:
This course introduces students to issues of diversity in American society, workplace, schools, and community through an examination of the historical and contemporary lived experiences of persons with disabilities in the United States. As such, it fulfills the U.S. Diversity requirement of the General Education Curriculum. The course explores how persons with disabilities have been denied the guarantees of liberty and equal protection of the laws provided for in the U.S. Constitution and traces the disabilities rights movement as its participants challenged unjust laws and fought social intolerance, prejudice, and stereotypes in order to participate more fully in the social, political, and economic life of the nation. Given that almost one-fifth of people in the United States have disability, students will likely interact with, or may become a member of, this important subgroup of American citizens. Through this course, students will acquire an understanding of the cultural complexity of disability in American society. The accumulation of readings, discussions, and activities will prepare students to apply concepts and practices of inclusion belonging, and institutional transformation in their future workplace and social experiences.

Last Updated: Gen Edu Approval 5/2013, effective Winter 2014; title and description change 2/2013, effective Summer 2013

SPGN 271 - Speech and Language Development in Children, Adolescents and Young Adults with Exceptional Learning Needs

Speech and language development in children and adolescents from birth through young adulthood. Unique patterns of speech and language development in children and adolescents with special learning needs are emphasized. Lecture and observation.

Credit Hours: 2 hrs
Notes: Required of all special education majors except speech and language impairment and hearing impaired, who must take SPSI337 Language Acquisition.

SPGN 277 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr
Prerequisite: Department permission
Last Updated: Links 03/2011

SPGN 278 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs
Prerequisite: Department permission
Last Updated: Links 03/2011

SPGN 279 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs
Prerequisite: Department permission

**Credit Hours:** 3 hrs  
**Prerequisite:** Department permission  
*Last Updated:* Links 03/2011

SPGN 390 - Measurement and Diagnosis in Special Education

This course is required for all students majoring in special education. Students will learn about a wide variety of standardized and criterion-referenced tests and about their role in assessing intellectual capacity, academic achievement, socioemotional skills, adaptive behavior, and auditory and visual limitations of students with handicaps. The course will be taught in a lecture format. Students will look at and become familiar with a wide variety of commonly used tests. Cultural reactions, test bias, and limitations will be explored.

**Credit Hours:** 3 hrs  
**Prerequisite:** SPGN 251; admission to the Initial Teacher Preparation Program  
*Last Updated:* Links 03/2011
SPGN 395 - Children, Adolescents, and Young Adults with Disabilities: School, Family and Community Interaction

Knowledge of the reciprocal influences of children and adolescents with disabilities, their families, and community institutions: legal, medical, social, educational, and welfare components of social institutions. Students develop skills required to identify problem areas for the children and adolescents with disabilities, and their families, when interfacing with community institutions and to plan and implement effective intervention for positive growth.

Credit Hours: 3 hrs
Prerequisite: SPGN 251
Last Updated: Links 03/2011

SPGN 401 - International Teaching I

Students will have the opportunity to practice teaching non-English and/or English speaking children and develop an understanding of different learning styles, cultures, societies, family, language, history, and education through a semester-long teaching practicum in a foreign classroom. They will learn about characteristics of culturally and linguistically diverse students, evidence-based teaching methods, and teachers' roles and responsibilities.

Credit Hours: 6 hrs
Repeatable for Credit: No
Prerequisite: 48-credit hours and department permission
Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.
Notes: Students may register for both SPGN 401: International Teaching I and SPGN 402: International Teaching II for a total of 12 credits.
Last Updated: Graduate Credit Approval 09/2012, effective Winter 2013; New Course 06/2012

SPGN 402 - International Teaching II

Students will have the opportunity to practice teaching non-English and/or English speaking children and develop an understanding of different learning styles, cultures, societies, family, language, history, and education through a semester-long teaching practicum in a foreign classroom. They will learn about characteristics of culturally and linguistically diverse students, evidence-based teaching methods, and teachers' roles and responsibilities.

Credit Hours: 6 hrs
Repeatable for Credit: No
Prerequisite: 48-credit hours and department permission
Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.
Notes: Students may register for both SPGN 401: International Teaching I and SPGN 402 International Teaching II for a total of 12 credits.
Last Updated: Graduate Credit Approval 09/2012, effective Winter 2013; New Course 06/2012

SPGN 461 - Classroom Management and Intervention Strategies for Students with Disabilities

Strategies, approaches and techniques for effective classroom management for students with disabilities. Behavioral theories provide the foundation for the construction of effective strategies and techniques applicable in inclusive, resource and self-contained classroom settings. Roles and responsibilities of students, teachers, families and other school personnel are discussed.

Credit Hours: 3 hrs
Prerequisite: SPGN 251; admission to the Initial Teacher Preparation Program
Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.
Last Updated: Graduate Credit 07/2011; Links 03/2011
SPGN 471 - Curriculum and Transitions for Secondary Special Education

The role of the special educator relative to curriculum and transition planning at the secondary level is explored. Topics address all disability areas and settings. An approved field work practicum is required.

Credit Hours: 3 hrs  
Prerequisite: SPGN 251, SPGN 390, SPGN 461, SPGN 395 and admission to the Initial Teacher Preparation Program  
Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.  
Last Updated: Graduate Credit 07/2011; Links 03/2011

SPGN 477 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr  
Prerequisite: Department permission  
Last Updated: Links 03/2011

SPGN 478 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs  
Prerequisite: Department permission  
Last Updated: Links 03/2011

SPGN 479 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs  
Prerequisite: Department permission  
Last Updated: Links 03/2011

SPGN 481 - Assistive and Instructional Technology in Special Education

Identification and implementation of instructional and assistive technology in the special general education curriculum. Educational software, productivity applications, digital media, adapted microcomputers, voice input/output, switching device, alternative input methods, adaptive output methods and other adaptive and assistive devices are explored. Course provides a broad knowledge base rather than disability specific information.

Credit Hours: 3 hrs  
Prerequisite: SPGN 251; admission to the Initial Teacher Preparation Program  
Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.  
Last Updated: Graduate Credit 07/2011; Links 03/2011

SPGN 485 - Curriculum, Programs and Services for Adolescents and Young Adults with Disabilities
Secondary and post-secondary special education curricula, programs and services are explored, with focus on the cognitive, personal, social, emotional, physical, prevocational and vocational needs of adolescents and young adults with disabilities.

_Credit Hours:_ 2 hrs

**SPGN 486 - Transition and Related Field Experiences: Adolescents and Young Adults with Disabilities**

Application of transition fundamentals appropriate to the student’s area of endorsement. Observation and direct work with adolescents and young adults with disabilities is required. A transition plan will be completed.

_Credit Hours:_ 2 hrs

**SPGN 491 - Special Education Student Teaching and Seminar**

Culminating field-based experience and seminar in the Special Education professional preparation program. Student teaching placement is in a K-12 special education setting in the area in which the endorsement will be earned. Seminar requirements will focus on expanding field-based experiences. The placement and seminar are for one complete academic semester.

_Credit Hours:_ 12 hrs

**Prerequisite:** admission to the Initial Teacher Preparation Program and Department Permission

**Graduate Credit:** This is an undergraduate course available to graduate students for graduate credit.

_Last Updated:_ Prerequisite change 10/2013, effective Winter 2014; Graduate Credit 07/2011

**SPGN 497 - Independent Study**

Directed study of a problem or group of problems in special education.

_Credit Hours:_ 1 hr

**Prerequisite:** Department permission

_Last Updated:_ Links 03/2011

SPSI 279 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs
SPSI 332 - Acoustic Phonetics: Speech Science

Basic principles of acoustic science and speech perception. Consideration of speech as an acoustical phenomenon and the analysis of speech patterns through measurements of sound and spectral analysis.

Credit Hours: 2 hrs
Class Restrictions: Junior standing or higher
Major Restrictions: Must be enrolled in one of the following majors: Special Education Major K-12 Speech/Language Pathology Endorsement (Elementary or Secondary), Speech/Language Pathology Major - Health Care Track
Last Updated: Major and Class Restriction Change 10/2012, effective Winter 2013

SPSI 334 - Applied Phonetics

An introduction to the use of the International Phonetic Alphabet Classification and production of English speech sounds. Phonemic transcription, including some analysis of deviant and variant speech. Lab experiences weekly.

Credit Hours: 3 hrs
Class Restrictions: Junior standing or higher
Major Restrictions: Must be enrolled in one of the following majors: Special Education Major K-12 Speech/Language Pathology Endorsement (Elementary or Secondary), Speech/Language Pathology Major - Health Care Track
Last Updated: co-requisite removed 5/2014, effective Fall 2014; Major and Class Restriction Change 10/2012, effective Winter 2013; Credit Hour Change 02/2012

SPSI 335 - Introduction to Communication Disorders

A study of the major communication disorders as deviations from normal physical and social behavior. Etiology and symptomatology.

Credit Hours: 3 hrs
Class Restrictions: Junior standing or higher
Last Updated: Co-requisite removed 5/2014, effective Fall 2014; Title, Major and Class Restriction Change 10/2012, effective Winter 2013

SPSI 336 - Physiologic Phonetics: Anatomy and Physiology

Anatomy and physiology of normal speech production, consideration of speech as a motor behavior, physiological investigation of speech and voice.

Credit Hours: 3 hrs
Class Restrictions: Junior standing or higher
Major Restrictions: Must be enrolled in one of the following majors: Special Education Major K-12 Speech/Language Pathology Endorsement (Elementary or Secondary), Speech/Language Pathology Major - Health Care Track
Last Updated: Major and Class Restriction Change 10/2012, effective Winter 2013

SPSI 337 - Language Acquisition

The development of speech, language, hearing and communication from birth. The interrelationship between cognitive development and language acquisition and usage. Developmental processes and milestones in phonology, morphology, syntax
and semantics and pragmatics as a basis for understanding the effects of speech, language and hearing problems of the individual.

**Credit Hours:** 3 hrs  
**Class Restrictions:** Junior standing or higher  
**Major Restrictions:** Must be enrolled in one of the following majors: Special Education Major K-12 Speech/Language Pathology Endorsement (Elementary or Secondary), Speech/Language Pathology Major - Health Care Track  
**Last Updated:** Major and Class Restriction Change 10/2012, effective Winter 2013

### SPSI 344 - Clinical Practice in Speech-Language Pathology

Supervised clinical experience with language, phonological and articulation disorders.

**Credit Hours:** 2 hrs  
**Prerequisite:** SPSI343 and department permission

### SPSI 347 - Normal Aging and Health Issues in Speech-Language Pathology

This course is designed to introduce students to the impact of normal aging on communication disorders. Structures and models for service delivery associated with speech pathologists serving geriatric patients will also be taught.

**Credit Hours:** 3 hrs  
**Class Restrictions:** Junior standing or higher  
**Major Restrictions:** Must be enrolled in one of the following majors: Special Education Major K-12 Speech/Language Pathology Endorsement (Elementary or Secondary), Speech/Language Pathology Major - Health Care Track  
**Last Updated:** Major and Class Restriction Change 10/2012, effective Winter 2013

### SPSI 377 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 1 hr  
**Prerequisite:** Department permission  
**Last Updated:** Links 03/2011

### SPSI 378 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 2 hrs  
**Prerequisite:** Department permission

SPVI 279 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs
Prerequisite: Department permission
Last Updated: Links 03/2011

SPVI 365 - Braille

Developing proficiency in reading and writing error-free braille and the reading of music braille.

Credit Hours: 3 hrs
Prerequisite: Admission to the Initial Teacher Preparation Program
Concurrent Prerequisite: SPGN 251
Last Updated: Links 03/2011

SPVI 366 - The Eye and Vision — Anatomy and Physiology

Anatomy, physiology, and pathology of the organs of vision, refractive errors, and principles of correction. Educational implications of visual impairment in children, rather than strictly medical achievements. Interpretation of medical reports to parents, students and teachers.

Credit Hours: 2 hrs
Prerequisite: SPGN 251
Last Updated: Links 03/2011

SPVI 368 - Mobility Training for Persons with Visual Impairment

Sensory training, study, and development of cane techniques as they apply to mobility for persons with visual impairment. Introduction to leader dog program. Practicum included. Offered on the junior, senior and graduate level.

Credit Hours: 2 hrs
Class Restrictions: Junior standing

SPVI 369 - Community Considerations for Persons with Visual Impairment

The lifestyle and needs of persons with visual impairment; appropriate considerations the community must take for all levels of physical, emotional, and vocational development. Field trips and classroom experiences, acquaintance with a wide variety of service-oriented facilities for persons with visual impairment.

Credit Hours: 3 hrs
Prerequisite: SPGN 251; admission to the Initial Teacher Preparation Program
Last Updated: Links 03/2011

SPVI 377 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.
Credit Hours: 1 hr  
**Prerequisite:** Department permission  
**Last Updated:** Links 03/2011

**SPVI 378 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs  
**Prerequisite:** Department permission  
**Last Updated:** Links 03/2011

**SPVI 379 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs  
**Prerequisite:** Department permission  
**Last Updated:** Links 03/2011

**SPVI 464 - Methods of Teaching Children who are Blind**

A study of the various methods used in educating and assessing children who are blind, and the adaptation of these methods to the teaching of school subjects for these students. Further emphasis on Nemeth Code, Cranmer abacus and other teaching materials and devices.

Credit Hours: 3 hrs  
**Prerequisite:** SPGN 251; admission to the Initial Teacher Preparation Program  
**Graduate Credit:** This is an undergraduate course available to graduate students for graduate credit.  
**Last Updated:** Graduate Credit 07/2011; Links 03/2011

**SPVI 465 - Braille II: Nemeth Code**

Development of proficiency in reading and writing Nemeth Braille code for mathematics and science notation.

Credit Hours: 3 hrs  
**Prerequisite:** SPVI 365; admission to the Initial Teacher Preparation Program  
**Graduate Credit:** This is an undergraduate course available to graduate students for graduate credit.  
**Last Updated:** Graduate Credit 07/2011; Links 03/2011

**SPVI 467 - Education of Children with Visual Impairment**

Organization and administration of various plans for educating children with visual impairment. Adaptation of various teaching methods and materials for these children, as well as comparison of various vision testing methods and devices.

Credit Hours: 2 hrs  
**Prerequisite:** SPGN 251; admission to the Initial Teacher Preparation Program  
**Graduate Credit:** This is an undergraduate course available to graduate students for graduate credit.  
**Last Updated:** Graduate Credit 07/2011; Links 03/2011
SPVI 469 - Technology for Persons with Visual Impairment

Experience with a variety of tools available for use by persons with visual impairment. The tools and devices covered include those designed to provide assistance in reading, Braille and low-vision.

Credit Hours: 2 hrs
Prerequisite: admission to the Initial Teacher Preparation Program
Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.
Last Updated: Graduate Credit 07/2011

SPVI 477 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr
Prerequisite: Department permission
Last Updated: Links 03/2011

SPVI 478 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs
Prerequisite: Department permission
Last Updated: Links 03/2011

SPVI 479 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs
Prerequisite: Department permission
Last Updated: Links 03/2011

SPVI 497 - Independent Study

Advanced study on an individual basis in areas in which the department does not offer a formal course.

Credit Hours: 1 hr
Prerequisite: Department permission
Last Updated: Links 03/2011

SPVI 498 - Independent Study

Advanced study on an individual basis in areas in which the department does not offer a formal course.

Credit Hours: 2 hrs
**SPVI 499 - Independent Study**

Advanced study on an individual basis in areas in which the department does not offer a formal course.

**Credit Hours:** 3 hrs  
**Prerequisite:** Department permission  
**Last Updated:** Links 03/2011
Teacher Education Programs and Courses

Teacher Education

Major

Elementary Education Early Childhood Education Major (ECE)

*(Students seeking a major in ECE need to attend early childhood group advising sessions early in their program.)*

Successful completion of this course of study, in the context of other program requirements, qualifies the student for recommendation for the Michigan Department of Education Elementary Provisional Certificate, which is valid for teaching all subjects K-5, for teaching in self-contained classrooms in grades six to eight. In addition, the student who passes the Early Childhood Education MTTC is qualified for recommendation for endorsement in early childhood, certification code ZS. The Michigan Test for Teacher Certification (MTTC) for this field are #106, “Early Childhood Education,” and Elementary Certification Test, #103, and those needed for subject area endorsements.

Elementary education and early childhood education students are required to attend a group advising session and then an open advising session before being assigned an advisor.

General Education Requirements:

For specific requirements refer to the General Education Program.

Initial Teacher Preparation Program Admission

In order to pursue the sequence of courses necessary to complete eligibility for recommendation for certification, one must apply for and be admitted to the teacher preparation program. Admission requirements are common for all teacher preparation programs, except that certain special education programs have additional requirements.

Each undergraduate student is responsible for applying to the teacher preparation program immediately after the semester in which the student has earned 56 credit hours. Transfer students with more than 56 credit hours should apply immediately after the semester in which they have earned 12 hours at EMU, including at least one course in their major. Students with 56 hours of transfer course work with a decision GPA of 3.0 may apply for admission to the teacher preparation program without 12 earned hours at EMU.
Admission to the teacher preparation program is not automatic. Only those persons who have formally applied are considered for admission. Not all persons who apply become eligible for admission.

Applications for the Initial Teacher Preparation Program at EMU are available within your my.emich account under the "Student" tab. Submit your completed application to the Office of Academic Services once you have earned 56 credit hours.

Teaching majors and minors are unofficial until program admission. Students pursuing teacher certification should follow the catalog that exists at the time of program admission. It is important that students apply to the teacher preparation program as soon as they have earned 56 credit hours.

Criteria:

1. Completion of 56 credit hours
2. Appropriate cumulative GPA. One of:
   1. An overall EMU GPA of 2.5 or higher based on a minimum of 12 credit hours taken at EMU. An EMU GPA of 2.5 or higher in your major, based on at least one course in your major. The Elementary Education Major is comprehensive, therefore, the elementary major GPA is based on the cumulative of liberal arts curriculum and content course work.
   2. Transferred 56 credits with a cumulative 3.0 GPA from all previous institutions.
3. A grade of "C" or higher (if taken) in the following courses:
   1. If Secondary: ENGL 121, CTAC 124, Quantitative Reasoning (GEQR), one lab science, all professional education courses, and, if special education, PSY 101.
   2. If Elementary: ENGL 121, CTAC 124, MATH 108, MATH 110E, PHY 100, ESSC 202, all of the professional education courses, all courses that state "for elementary teachers," and, if special education, PSY 101.
4. Official Test Scores showing competency in each of the following areas: mathematics, reading and writing. Scores are accepted from the Professional Readiness Exam (PRE), Basic Skills Test (no longer offered), ACT, or Michigan Merit Exam (MME). The following scores are acceptable:
   1. Mathematics: PRE pass, Basic Skills pass, ACT mathematics 22 or higher, or MME mathematics 1116 or higher.
   2. Writing: PRE pass, Basic Skills pass, ACT combined English/writing 24 or higher, or MME writing 1129 or higher.
   3. Reading: PRE pass, Basic Skills pass, ACT reading 22 or higher, or MME reading 1108 or higher.
5. ICHAT criminal background check and Statement of Civil/Criminal Convictions. If you answered yes to any of the civil/criminal conviction questions on the application, you will need to provide:
   1. A copy of the Judgment of Sentence, or Registrar of Actions, or Certification of Conviction.
   2. A written explanation of the offense(s). Application of students with civil/criminal convictions will be carefully reviewed and may take longer to process.
6. Meet academic, social, moral, and financial obligations as a member of the EMU community.

Liberal Arts Major Requirements: 42 hours

✧ Twelve of the required courses can fulfill General Education requirements

Note: Some of the courses listed below may also be listed in other areas of the program but only need to be taken once.

- ✧ ARTE 220 - Visual Arts for Elementary Teachers (GEKA) 3 hrs
- CHL 207 - Introduction to Children's Literature (GEKH) 3 hrs
- ✧ CTAC 124 - Foundations of Speech Communication (GEEC) 3 hrs
- ENGL 121 - Composition II: Researching the Public Experience (GEEC) 3 hrs
- ✧ ESSC 202 - Earth Science for Elementary Teachers (GEKN) 3 hrs
• ∆ GEOG 110 - World Regions (GEGA) 3 hrs
• ∆ HIST 123 - The United States to 1877 (GEKS) 3 hrs
• HIST 313 - Michigan History 3 hrs
• MATH 108 - Problem Solving and Number Concepts for Elementary School Teachers 3 hrs
• ∆ MATH 110E - Mathematical Reasoning: Applications for Elementary School Teachers (GEQR) 3 hrs
• ∆ MUSC 220 - Music for the Elementary Teacher (GEKA) 3 hrs
• ∆ PHY 100 - Physics for Elementary Teachers (GEKN) 3 hrs
• ∆ PLSC 112 - American Government (GEKS) 3 hrs

One course from the following:

• ENGL 307 - Writing Process for Elementary Teachers 3 hrs
• RDNG 240 - Reading and Writing Connections in the Elementary Grades 3 hrs

Content Requirements: 34 hours

• ECE 214 - The Developing Child Birth-Age Eight 3 hrs
• ECE 215 - The Developing Early Childhood Professional 3 hrs
• ECE 302 - Child Centered Teaching and Learning 3 hrs
• ECE 303 - Implementing the Curriculum 3 hrs
• ECE 307 - Diverse Children, Families and Communities 3 hrs
• ECE 314 - Infants and Toddlers: Development, Curriculum and Programs 3 hrs
• ** ECE 341 - Assessment of the Young Child 3 hrs
• ECE 342 - Intentional Teaching in the Content Areas 3 hrs
• ECE 343 - Advocacy, Leadership and Administration 3 hrs
• ECE 451 - inclusive Classroom in Early Childhood 3 hrs
• EDUC 495 - Student Teaching (GELB) 4 hrs

Professional Elementary Education Sequence - ECE

Pre-Admission Phase: The Learner and the Community: 7 hours

• EDPS 322 - Human Development and Learning 4 hrs
• SPGN 251 - Introduction to Inclusion and Disabilities Studies in a Diverse Society (GEUS) 3 hrs

The following courses require formal admission to the Initial Teacher Preparation Program:

Phase I: Curriculum, Assessment, and the Social Context: 15 hours

Prerequisite: Completion of Pre-Admission Phase is required.

* These two courses must be taken together.

• * CURR 304 - Curriculum and Methods: Elementary 3 hrs
• EDMT 330 - Instructional Applications of Media and Technology 3 hrs
Phase II: Content and Methods and Teaching: 18 hours

Prerequisite: Completion of Phase I is required.

- BIOT 303 - Life Science for Elementary Teachers 3 hrs
- CTAR 300 - Integrated Arts 3 hrs
- MATH 381 - Teaching Mathematics in Elementary School 3 hrs
- PRCT 310 - Practicum II: Elementary 3 hrs
- RDNG 310 - Literacy Across the Curriculum in the Intermediate Grades 3 hrs

One course from the following:

- CURR 308 - Integrated Elementary Social Studies Methods 3 hrs
- HIST 308 - Integrated Elementary Social Studies Methods 3 hrs

Phase III: Capstone Experience: 9 hours

Prerequisite: Completion of Phase II is required.

- EDUC 495 - Student Teaching (GELB) 4 hrs
- EDUC 498 - Student Teaching (GELB) 5 hrs

Program Total:

Students must earn a minimum total of 124 credits at the 100-level or above.

Notes:

** This course cannot be taken until Pre-Admission Phase is completed.

Critical Graduation Information:

Each undergraduate student will be responsible for the fulfillment of the requirements or their equivalents of the Eastern Michigan University catalog in force at the time of their initial registration at a college or university or a subsequent catalog including the one in effect at the time of their graduation.

In the event an undergraduate student does not complete the degree requirements within seven years of the date of their original registration at a college or university, the student may be required to have their credits re-evaluated by the academic department(s) of their major/minor in keeping with catalog requirements in force during the year of their graduation.

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.
• Earn a minimum total of 124 credits at the 100-level and above. Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.

• Meet the requirements of the General Education program (see information below).

• Complete a Writing Intensive (WI) Course in your major.

• Earn a minimum of 60 credits from a four-year college or university; courses taken at community colleges cannot be used to meet this requirement. (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)

• Earn a minimum of 30 credits from courses taken at EMU.

• Complete 10 of the last 30 hours for the degree from courses taken at EMU.

• Have a minimum of 30 unique credit hours in their major and 20 unique credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.

• Earn no more than 60 credit hours in one subject area (prefix). Credits in excess of the 60 maximum will not be counted toward the minimum of 124 credits required for a bachelor's degree.

• Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more than one major or minor.
  o Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
  o Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
  o Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor.

• Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is conducted by individual departments/schools within EMU, and additional documentation may be required. Please note: EMU awards only credit for transferred courses; grades are not used in the calculation of an EMU GPA.

• Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be reached in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

General Education Requirements:

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available in the General Education section of the catalog: General Education

Students who transferred to EMU may have modified general education requirements based on Michigan Transfer Agreement (MTA) or articulation agreements; consult your academic advisor for additional information.

University Information: Consult the online catalog at catalog.emich.edu.

**Elementary Education Integrated Science Major**

**Elementary Teacher Certification**
Successful completion of this course of study, in the context of other program requirements, qualifies the student for recommendation for the Michigan Elementary Provisional Certificate. The Michigan Test for Teacher Certification (MTTC)
covering this certification is Elementary Certification test #103. The endorsement test for Integrated Science (Elementary) is MTTC#093.

Professional Elementary Education Sequence

Pre-Admission Phase: The Learner and the Community: 11 hours

Prerequisite: Sophomore standing or higher.

- EDPS 322 - Human Development and Learning 4 hrs
- HLED 320 - Health Education in the Elementary Grades 2 hrs
- PHED 257 - Physical Education for the Classroom Teacher 2 hrs
- SPGN 251 - Introduction to Inclusion and Disabilities Studies in a Diverse Society (GEUS) 3 hrs
The following courses require formal admission to the Initial Teacher Preparation Program:

Phase I: Curriculum, Assessment, and the Social Context: 18 hours

Prerequisite: Completion of Pre-Admission Phase is required.

* These two courses must be taken together.
** EDPS 340 needs to be taken with or after CURR 304.

- * CURR 304 - Curriculum and Methods: Elementary 3 hrs
- EDMT 330 - Instructional Applications of Media and Technology 3 hrs
- ** EDPS 340 - Introduction to Assessment and Evaluation 3 hrs
- * PRCT 304 - Practicum I: Elementary 3 hrs
- RDNG 300 - Early Literacy 3 hrs
- SOFD 328W - Schools for a Diverse and Democratic Society (GEWI) 3 hrs

Phase II: Content and Methods and Teaching: 18 hours

Prerequisite: Completion of Phase I is required.

* These two courses must be taken together.

- BIOT 303 - Life Science for Elementary Teachers 3 hrs
- CTAR 300 - Integrated Arts 3 hrs
- MATH 381 - Teaching Mathematics in Elementary School 3 hrs
- * PRCT 310 - Practicum II: Elementary 3 hrs
- * RDNG 310 - Literacy Across the Curriculum in the Intermediate Grades 3 hrs

One course from the following:

- CURR 308 - Integrated Elementary Social Studies Methods 3 hrs
- HIST 308 - Integrated Elementary Social Studies Methods 3 hrs

Phase III: Capstone Experience: 9 hours

Prerequisite: Completion of Phase II is required.

- EDUC 492 - Student Teaching (GELB) 9 hrs
  This course requires a formal application to be submitted 7-8 months prior to the Student Teaching semester.

Program Total:

Students must earn a minimum total of 124 credits at the 100-level or above.

Notes:

* These courses are listed as co-requisites.
Critical Graduation Information:

Each undergraduate student will be responsible for the fulfillment of the requirements or their equivalents of the Eastern Michigan University catalog in force at the time of their initial registration at a college or university or a subsequent catalog including the one in effect at the time of their graduation.

In the event an undergraduate student does not complete the degree requirements within seven years of the date of their original registration at a college or university, the student may be required to have their credits re-evaluated by the academic department(s) of their major/minor in keeping with catalog requirements in force during the year of their graduation.

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the 100-level and above. Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Complete a Writing Intensive (WI) Course in your major.
- Earn a minimum of 60 credits from a four-year college or university; courses taken at community colleges cannot be used to meet this requirement. (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 unique credit hours in their major and 20 unique credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
- Earn no more than 60 credit hours in one subject area (prefix). Credits in excess of the 60 maximum will not be counted toward the minimum of 124 credits required for a bachelor's degree.
- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more than one major or minor.
  - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
  - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
  - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor.
- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is conducted by individual departments/schools within EMU, and additional documentation may be required. Please note: EMU awards only credit for transferred courses; grades are not used in the calculation of an EMU GPA.
- Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be reached in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

General Education Requirements:
EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available in the General Education section of the catalog: General Education

Students who transferred to EMU may have modified general education requirements based on Michigan Transfer Agreement (MTA) or articulation agreements; consult your academic advisor for additional information.

University Information: Consult the online catalog at catalog.emich.edu.

Elementary Education Language Arts Group Major

Elementary Teacher Certification
Successful completion of this course of study, in the context of other program requirements, qualifies the student for recommendation for the Michigan Elementary Provisional Certificate. The Michigan Test for Teacher Certification (MTTC) covering this certification is Elementary Certification test #103. The endorsement test for Language Arts is MTTC #090.

General Education Requirements:

For specific requirements refer to the General Education Program.

Initial Teacher Preparation Program Admission

In order to pursue the sequence of courses necessary to complete eligibility for recommendation for certification, one must apply for and be admitted to the teacher preparation program. Admission requirements are common for all teacher preparation programs, except that certain special education programs have additional requirements.

Each undergraduate student is responsible for applying to the teacher preparation program immediately after the semester in which the student has earned 56 credit hours. Transfer students with more than 56 credit hours should apply immediately after the semester in which they have earned 12 hours at EMU, including at least one course in their major. Students with 56 hours of transfer course work with a decision GPA of 3.0 may apply for admission to the teacher preparation program without 12 earned hours at EMU.

Admission to the teacher preparation program is not automatic. Only those persons who have formally applied are considered for admission. Not all persons who apply become eligible for admission.

Applications for the Initial Teacher Preparation Program at EMU are available within your my.emich account under the "Student" tab. Submit your completed application to the Office of Academic Services once you have earned 56 credit hours.
Teaching majors and minors are unofficial until program admission. Students pursuing teacher certification should follow the catalog that exists at the time of program admission. It is important that students apply to the teacher preparation program as soon as they have earned 56 credit hours.

Criteria:

1. Completion of 56 credit hours
2. Appropriate cumulative GPA. One of:
   1. An overall EMU GPA of 2.5 or higher based on a minimum of 12 credit hours taken at EMU. An EMU GPA of 2.5 or higher in your major, based on at least one course in your major. The Elementary Education Major is comprehensive, therefore, the elementary major GPA is based on the cumulative of liberal arts curriculum and content course work.
   2. Transferred 56 credits with a cumulative 3.0 GPA from all previous institutions.
3. A grade of "C" or higher (if taken) in the following courses:
   1. If Secondary: ENGL 121, CTAC 124, Quantitative Reasoning (GEQR), one lab science, all professional education courses, and, if special education, PSY 101.
   2. If Elementary: ENGL 121, CTAC 124, MATH 108, MATH 110E, PHY 100, ESSC 202, all of the professional education courses, all courses that state "for elementary teachers,” and, if special education, PSY 101.
4. Official Test Scores showing competency in each of the following areas: mathematics, reading and writing. Scores are accepted from the Professional Readiness Exam (PRE), Basic Skills Test (no longer offered), ACT, or Michigan Merit Exam (MME). The following scores are acceptable:
   1. Mathematics: PRE pass, Basic Skills pass, ACT mathematics 22 or higher, or MME mathematics 1116 or higher.
   2. Writing: PRE pass, Basic Skills pass, ACT combined English/writing 24 or higher, or MME writing 1129 or higher.
   3. Reading: PRE pass, Basic Skills pass, ACT reading 22 or higher, or MME reading 1108 or higher.
5. ICHAT criminal background check and Statement of Civil/Criminal Convictions. If you answered yes to any of the civil/criminal conviction questions on the application, you will need to provide:
   1. A copy of the Judgment of Sentence, or Registrar of Actions, or Certification of Conviction.
   2. A written explanation of the offense(s). Application of students with civil/criminal convictions will be carefully reviewed and may take longer to process.
6. Meet academic, social, moral, and financial obligations as a member of the EMU community.

Liberal Arts Major Requirements: 42 hours

✧ Twelve of the required courses can fulfill General Education requirements

Note: Some of the courses listed below may also be listed in other areas of the program but only need to be taken once.

- ✧ ARTE 220 - Visual Arts for Elementary Teachers (GEKA) 3 hrs
- CHL 207 - Introduction to Children's Literature (GEKH) 3 hrs
- ✧ CTAC 124 - Foundations of Speech Communication (GEEC) 3 hrs
- ENGL 121 - Composition II: Researching the Public Experience (GEEC) 3 hrs
- ✧ ESSC 202 - Earth Science for Elementary Teachers (GEKN) 3 hrs
- ✧ GEOG 110 - World Regions (GEGA) 3 hrs
- ✧ HIST 123 - The United States to 1877 (GEKS) 3 hrs
- HIST 313 - Michigan History 3 hrs
- MATH 108 - Problem Solving and Number Concepts for Elementary School Teachers 3 hrs
- ✧ MATH 110E - Mathematical Reasoning: Applications for Elementary School Teachers (GEQR) 3 hrs
- MUSC 220 - Music for the Elementary Teacher (GEKA) 3 hrs
- PHY 100 - Physics for Elementary Teachers (GEKN) 3 hrs
- PLSC 112 - American Government (GEKS) 3 hrs

One course from the following:
- ENGL 307 - Writing Process for Elementary Teachers 3 hrs
- RDNG 240 - Reading and Writing Connections in the Elementary Grades 3 hrs

Content Requirements: 36 hours

Required Courses: 24 hours

- CHL 207 - Introduction to Children's Literature (GEKH) 3 hrs
- CHL 208 - Multicultural Children's Literature (GEUS) 3 hrs
- CHL 455 - Adolescent Literature 3 hrs
- ENGL 307 - Writing Process for Elementary Teachers 3 hrs
- LING 201 - An Introduction to Linguistics 3 hrs
- RDNG 220 - Instructional Uses of Trade Books 3 hrs
- RDNG 300 - Early Literacy 3 hrs
- RDNG 350 - Integrated Language Arts Instruction 3 hrs

Restricted Elective Courses: 12 hours

One course from the following:
- CTAR 322 - Theatre for Children 3 hrs
- CTAR 324 - Oral Interpretation of Children's Literature 3 hrs

One course from the following:
- CTAR 222 - Drama and Play in the Human Experience (GEKA) 3 hrs
- CTAR 323 - Improvising and Role-Play 3 hrs

Two courses from the following:
- CHL 209 - Global Children's Literature (GEGA) 3 hrs
- CHL 351 - World Mythology 3 hrs
- CHL 352 - Folk Literature: Ballads and Folk Tales 3 hrs
- CHL 353 - Genders and Sexualities in Literature for Young Readers 3 hrs
- CHL 450W - Children's Literature: Criticism and Response (GEWI) 3 hrs
- CHL 451W - Writing about Controversy in Literature for the Young (GEWI) 3 hrs
- CHL 453 - Illustrated Texts: Picture Books, Comics, and Graphic Novels 3 hrs
- CHL 456 - Jewish Children’s and Adolescent Literature 3 hrs
Professional Elementary Education Sequence

Pre-Admission Phase: The Learner and the Community: 11 hours

Prerequisite: Sophomore standing or higher.

- EDPS 322 - Human Development and Learning 4 hrs
- HLED 320 - Health Education in the Elementary Grades 2 hrs
- PHED 257 - Physical Education for the Classroom Teacher 2 hrs
- SPGN 251 - Introduction to Inclusion and Disabilities Studies in a Diverse Society (GEUS) 3 hrs

The following courses require formal admission to the Initial Teacher Preparation Program:

Phase I: Curriculum, Assessment, and the Social Context: 18 hours

Prerequisite: Completion of Pre-Admission Phase is required.

* These two courses must be taken together.
** EDPS 340 needs to be taken with or after CURR 304.

- CURR 304 - Curriculum and Methods: Elementary 3 hrs
- EDMT 330 - Instructional Applications of Media and Technology 3 hrs
- ** EDPS 340 - Introduction to Assessment and Evaluation 3 hrs
- PRCT 304 - Practicum I: Elementary 3 hrs
- RDNG 300 - Early Literacy 3 hrs
- SOFD 328W - Schools for a Diverse and Democratic Society (GEWI) 3 hrs

Phase II: Content and Methods and Teaching: 18 hours

Prerequisite: Completion of Phase I is required.

* These two courses must be taken together.

- BIOT 303 - Life Science for Elementary Teachers 3 hrs
- CTAR 300 - Integrated Arts 3 hrs
- MATH 381 - Teaching Mathematics in Elementary School 3 hrs
- ** PRCT 310 - Practicum II: Elementary 3 hrs
- * RDNG 310 - Literacy Across the Curriculum in the Intermediate Grades 3 hrs

One course from the following:

- CURR 308 - Integrated Elementary Social Studies Methods 3 hrs
- HIST 308 - Integrated Elementary Social Studies Methods 3 hrs

Phase III: Capstone Experience: 9 hours
Prerequisite: Completion of Phase II is required.

- EDUC 492 - Student Teaching (GELB) 9 hrs
  This course requires a formal application to be submitted 7-8 months prior to the Student Teaching semester.

Program Total:

Students must earn a minimum total of 124 credits at the 100-level or above.

Critical Graduation Information:

Each undergraduate student will be responsible for the fulfillment of the requirements or their equivalents of the Eastern Michigan University catalog in force at the time of their initial registration at a college or university or a subsequent catalog including the one in effect at the time of their graduation.

In the event an undergraduate student does not complete the degree requirements within seven years of the date of their original registration at a college or university, the student may be required to have their credits re-evaluated by the academic department(s) of their major/minor in keeping with catalog requirements in force during the year of their graduation.

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the 100-level and above. Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Complete a Writing Intensive (WI) Course in your major.
- Earn a minimum of 60 credits from a four-year college or university; courses taken at community colleges cannot be used to meet this requirement. (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 unique credit hours in their major and 20 unique credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
- Earn no more than 60 credit hours in one subject area (prefix). Credits in excess of the 60 maximum will not be counted toward the minimum of 124 credits required for a bachelor's degree.
- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more that one major or minor.
  - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
  - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
  - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor
- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S.
institutions; the internal review of such courses is conducted by individual departments/schools within EMU, and additional documentation may be required. Please note: EMU awards only credit for transferred courses; grades are not used in the calculation of an EMU GPA.

- Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be reached in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

General Education Requirements:

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available in the General Education section of the catalog: General Education

Students who transferred to EMU may have modified general education requirements based on Michigan Transfer Agreement (MTA) or articulation agreements; consult your academic advisor for additional information.

University Information: Consult the online catalog at catalog.emich.edu.

Elementary Education Program with Two Minors

Successful completion of this course of study, in the context of other program requirements, qualifies the student for recommendation for the Michigan Elementary Provisional Certificate. The Michigan Test for Teacher Certification (MTTC) covering this certification is Elementary Certification test #103.

Content Requirements: 30 hours

Required Courses: 30 hours
• RDNG 220 - Instructional Uses of Trade Books 3 hrs
• RDNG 230 - Word Study in the Reading Program 3 hrs
• RDNG 240 - Reading and Writing Connections in the Elementary Grades 3 hrs
• RDNG 300 - Early Literacy 3 hrs
• RDNG 330 - Reading and the Culturally and Linguistically Diverse Learner 3 hrs
• RDNG 340 - Literacy Assessment in the Elementary Schools 3 hrs
• RDNG 350 - Integrated Language Arts Instruction 3 hrs
• RDNG 400 - Program Development for Struggling Readers 3 hrs
• RDNG 410 - Literacy in and Beyond the Classroom 3 hrs
• RDNG 420 - Middle School Literacy and the Early Adolescent Reader 3 hrs

Professional Elementary Education Sequence

Pre-Admission Phase: The Learner and the Community: 11 hours

Prerequisite: Sophomore standing or higher.

• EDPS 322 - Human Development and Learning 4 hrs
• HLED 320 - Health Education in the Elementary Grades 2 hrs
• PHED 257 - Physical Education for the Classroom Teacher 2 hrs
• SPGN 251 - Introduction to Inclusion and Disabilities Studies in a Diverse Society (GEUS) 3 hrs

The following courses require formal admission to the Initial Teacher Preparation Program:

Phase I: Curriculum, Assessment, and the Social Context: 18 hours

Prerequisite: Completion of Pre-Admission Phase is required.

* These two courses must be taken together.
** EDPS 340 needs to be taken with or after CURR 304.

• CURR 304 - Curriculum and Methods: Elementary 3 hrs
• EDMT 330 - Instructional Applications of Media and Technology 3 hrs
• ** EDPS 340 - Introduction to Assessment and Evaluation 3 hrs
• PRCT 304 - Practicum I: Elementary 3 hrs
• RDNG 300 - Early Literacy 3 hrs
• SOFD 328W - Schools for a Diverse and Democratic Society (GEWI) 3 hrs

Phase II: Content and Methods and Teaching: 18 hours

Prerequisite: Completion of Phase I is required.

* These two courses must be taken together.

• BIOT 303 - Life Science for Elementary Teachers 3 hrs
• CTAR 300 - Integrated Arts 3 hrs
• MATH 381 - Teaching Mathematics in Elementary School 3 hrs
• * PRCT 310 - Practicum II: Elementary 3 hrs
• * RDNG 310 - Literacy Across the Curriculum in the Intermediate Grades 3 hrs

One course from the following:

• CURR 308 - Integrated Elementary Social Studies Methods 3 hrs
• HIST 308 - Integrated Elementary Social Studies Methods 3 hrs

Phase III: Capstone Experience: 9 hours

Prerequisite: Completion of Phase II is required.

• EDUC 492 - Student Teaching (GELB) 9 hrs
  This course requires a formal application to be submitted 7-8 months prior to the Student Teaching semester.

Program Total:

Students must earn a minimum total of 124 credits at the 100-level or above.

Critical Graduation Information:

Each undergraduate student will be responsible for the fulfillment of the requirements or their equivalents of the Eastern Michigan University catalog in force at the time of their initial registration at a college or university or a subsequent catalog including the one in effect at the time of their graduation.

In the event an undergraduate student does not complete the degree requirements within seven years of the date of their original registration at a college or university, the student may be required to have their credits re-evaluated by the academic department(s) of their major/minor in keeping with catalog requirements in force during the year of their graduation.

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

• Earn a minimum total of 124 credits at the 100-level and above. Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.
• Meet the requirements of the General Education program (see information below).
• Complete a Writing Intensive (WI) Course in your major.
• Earn a minimum of 60 credits from a four-year college or university; courses taken at community colleges cannot be used to meet this requirement. (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
• Earn a minimum of 30 credits from courses taken at EMU.
• Complete 10 of the last 30 hours for the degree from courses taken at EMU.
• Have a minimum of 30 unique credit hours in their major and 20 unique credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
• Earn no more than 60 credit hours in one subject area (prefix). Credits in excess of the 60 maximum will not be counted toward the minimum of 124 credits required for a bachelor's degree.
• Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more that one major or minor:
  o Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
  o Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
  o Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor.

• Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is conducted by individual departments/schools within EMU, and additional documentation may be required. Please note: EMU awards only credit for transferred courses; grades are not used in the calculation of an EMU GPA.

• Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be reached in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

General Education Requirements:

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available in the General Education section of the catalog: General Education

Students who transferred to EMU may have modified general education requirements based on Michigan Transfer Agreement (MTA) or articulation agreements; consult your academic advisor for additional information.

University Information: Consult the online catalog at catalog.emich.edu.

Elementary Education Social Studies Group Major

Successful completion of this course of study, in the context of other program requirements, qualifies the student for recommendation for the Michigan Elementary Provisional Certificate. The Michigan Test for Teacher Certification (MTTC) covering this certification is Elementary Certification test #103. The endorsement test for Social Studies-Elementary is MTTC #105.

General Education Requirements:

For specific requirements refer to the General Education Program.
Initial Teacher Preparation Program Admission

In order to pursue the sequence of courses necessary to complete eligibility for recommendation for certification, one must apply for and be admitted to the teacher preparation program. Admission requirements are common for all teacher preparation programs, except that certain special education programs have additional requirements.

Each undergraduate student is responsible for applying to the teacher preparation program immediately after the semester in which the student has earned 56 credit hours. Transfer students with more than 56 credit hours should apply immediately after the semester in which they have earned 12 hours at EMU, including at least one course in their major. Students with 56 hours of transfer course work with a decision GPA of 3.0 may apply for admission to the teacher preparation program without 12 earned hours at EMU.

Admission to the teacher preparation program is not automatic. Only those persons who have formally applied are considered for admission. Not all persons who apply become eligible for admission.

Applications for the Initial Teacher Preparation Program at EMU are available within your my.emich account under the "Student" tab. Submit your completed application to the Office of Academic Services once you have earned 56 credit hours.

Teaching majors and minors are unofficial until program admission. Students pursuing teacher certification should follow the catalog that exists at the time of program admission. It is important that students apply to the teacher preparation program as soon as they have earned 56 credit hours.

Criteria:

1. Completion of 56 credit hours
2. Appropriate cumulative GPA. One of:
   1. An overall EMU GPA of 2.5 or higher based on a minimum of 12 credit hours taken at EMU. An EMU GPA of 2.5 or higher in your major, based on at least one course in your major. The Elementary Education Major is comprehensive, therefore, the elementary major GPA is based on the cumulative of liberal arts curriculum and content course work.
   2. Transferred 56 credits with a cumulative 3.0 GPA from all previous institutions.
3. A grade of "C" or higher (if taken) in the following courses:
   1. If Secondary: ENGL 121, CTAC 124, Quantitative Reasoning (GEQR), one lab science, all professional education courses, and, if special education, PSY 101.
   2. If Elementary: ENGL 121, CTAC 124, MATH 108, MATH 110E, PHY 100, ESSC 202, all of the professional education courses, all courses that state "for elementary teachers," and, if special education, PSY 101.
4. Official Test Scores showing competency in each of the following areas: mathematics, reading and writing. Scores are accepted from the Professional Readiness Exam (PRE), Basic Skills Test (no longer offered), ACT, or Michigan Merit Exam (MME). The following scores are acceptable:
   1. Mathematics: PRE pass, Basic Skills pass, ACT mathematics 22 or higher, or MME mathematics 1116 or higher.
   2. Writing: PRE pass, Basic Skills pass, ACT combined English/writing 24 or higher, or MME writing 1129 or higher.
   3. Reading: PRE pass, Basic Skills pass, ACT reading 22 or higher, or MME reading 1108 or higher.
5. ICHAT criminal background check and Statement of Civil/Criminal Convictions. If you answered yes to any of the civil/criminal conviction questions on the application, you will need to provide:
   1. A copy of the Judgment of Sentence, or Registrar of Actions, or Certification of Conviction.
   2. A written explanation of the offense(s). Application of students with civil/criminal convictions will be carefully reviewed and may take longer to process.
6. Meet academic, social, moral, and financial obligations as a member of the EMU community.
Liberal Arts Major Requirements: 42 hours

✧ Twelve of the required courses can fulfill General Education requirements

Note: Some of the courses listed below may also be listed in other areas of the program but only need to be taken once.

- ✧ ARTE 220 - Visual Arts for Elementary Teachers (GEKA) 3 hrs
- ✧ CHL 207 - Introduction to Children's Literature (GEKH) 3 hrs
- ✧ CTAC 124 - Foundations of Speech Communication (GEEC) 3 hrs
- ✧ ENGL 121 - Composition II: Researching the Public Experience (GEEC) 3 hrs
- ✧ ESSC 202 - Earth Science for Elementary Teachers (GEKN) 3 hrs
- ✧ GEOG 110 - World Regions (GEGA) 3 hrs
- ✧ HIST 123 - The United States to 1877 (GEKS) 3 hrs
- ✧ HIST 313 - Michigan History 3 hrs
- ✧ MATH 108 - Problem Solving and Number Concepts for Elementary School Teachers 3 hrs
- ✧ MATH 110E - Mathematical Reasoning: Applications for Elementary School Teachers (GEQR) 3 hrs
- ✧ MUSC 220 - Music for the Elementary Teacher (GEKA) 3 hrs
- ✧ PHY 100 - Physics for Elementary Teachers (GEKN) 3 hrs
- ✧ PLSC 112 - American Government (GEKS) 3 hrs

One course from the following:

- ENGL 307 - Writing Process for Elementary Teachers 3 hrs
- RDNG 240 - Reading and Writing Connections in the Elementary Grades 3 hrs

Content Requirements: 42 hours

- GEOG 107 - Introduction to Geography (GEKS) 3 hrs
- GEOG 110 - World Regions (GEGA) 3 hrs
- GEOG 320 - Geography of the United States and Canada 3 hrs
- HIST 123 - The United States to 1877 (GEKS) 3 hrs
- HIST 109 - World History to 1500 (GEKH) 3 hrs
- HIST 110 - World History since 1500 (GEGA) 3 hrs
- HIST 124 - The United States, 1877 to the Present (GEKS) 3 hrs
- HIST 308 - Integrated Elementary Social Studies Methods 3 hrs
- PLSC 112 - American Government (GEKS) 3 hrs
- PLSC 305 - Law and Policy in a Constitutional Democracy 3 hrs

One course from the following:

- ANTH 135 - Introduction to Cultural Anthropology (GEGA & GEKS) 3 hrs
- SOCL 105 - Introductory Sociology (GEKS) 3 hrs

One course from the following:

- ECON 100 - Introduction to Economic Problems and Policies (GEKS) 3 hrs
• ECON 200 - The American Economy 3 hrs
• ECON 201 - Principles of Macroeconomics (GEKS) 3 hrs

One course from the following:

• ECON 375 - Economic History of the United States 3 hrs
• ECON 385 - Economic Development 3 hrs
• WGST 328 - Economics of Women 3 hrs

One course from the following:

• HIST 305 - Native American History 3 hrs
• HIST 315 - History of Black Americans 3 hrs
• HIST 336 - History of Women in the United States and Great Britain, 1800 to the Present 3 hrs
• HIST 341 - The Middle East, 1798 to the Present 3 hrs
• HIST 342 - North Africa, 1798 to the Present 3 hrs
• HIST 348 - 20th-Century Africa 3 hrs
• HIST 356 - Latin America: National Period 3 hrs
• HIST 375 - Modern India 3 hrs
• WGST 336 - History of Women in the United States and Great Britain, 1800 to the Present 3 hrs

Professional Elementary Education Sequence

Pre-Admission Phase: The Learner and the Community: 11 hours

Prerequisite: Sophomore standing or higher.

• EDPS 322 - Human Development and Learning 4 hrs

   2. A written explanation of the offense(s). Application of students with civil/criminal convictions will be carefully reviewed and may take longer to process.

6. Meet academic, social, moral, and financial obligations as a member of the EMU community.

**Required Courses: 15 hours**

- ASTR 105 - Exploration of the Universe (GEKN) 3 hrs
- BIOT 303 - Life Science for Elementary Teachers 3 hrs
- CHEM 101 - Chemistry for Elementary Teachers (GEKN) 3 hrs
- * ESSC 202 - Earth Science for Elementary Teachers (GEKN) 3 hrs
- PHY 100 - Physics for Elementary Teachers (GEKN) 3 hrs

**Three courses from the following: 9-10 hours**

- BIO 105 - Introductory Biology for Non-majors (GEKN) 4 hrs
- CHEM 312 - Teaching Elementary Chemistry 3 hrs
- ESSC 311 - Weather and Climate for Elementary Teachers 3 hrs
- PHY 311 - Teaching Elementary Physical Science 3 hrs

**Minor Total: 24-25 hours**

**Notes:**

*All minors must have at least six hours of course work at the 300-level or above.*

*For transfer students with ESSC 108 credit completed: ESSC 108 automatically substitutes for ESSC 202 and fulfills the requirement.*

**Critical Graduation Information:**

Each undergraduate student will be responsible for the fulfillment of the requirements or their equivalents of the Eastern Michigan University catalog in force at the time of their initial registration at a college or university or a subsequent catalog including the one in effect at the time of their graduation.
In the event an undergraduate student does not complete the degree requirements within seven years of the date of their original registration at a college or university, the student may be required to have their credits re-evaluated by the academic department(s) of their major/minor in keeping with catalog requirements in force during the year of their graduation.

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

Each undergraduate student is responsible for applying to the teacher preparation program immediately after the semester in which the student has earned 56 credit hours. Transfer students with more than 56 credit hours should apply immediately after the semester in which they have earned 12 hours at EMU, including at least one course in their major. Students with 56 hours of transfer course work with a decision GPA of 3.0 may apply for admission to the teacher preparation program without 12 earned hours at EMU.

Admission to the teacher preparation program is not automatic. Only those persons who have formally applied are considered for admission. Not all persons who apply become eligible for admission.

Applications for the Initial Teacher Preparation Program at EMU are available within your my.emich account under the "Student" tab. Submit your completed application to the Office of Academic Services once you have earned 56 credit hours.

Teaching majors and minors are unofficial until program admission. Students pursuing teacher certification should follow the catalog that exists at the time of program admission. It is important that students apply to the teacher preparation program as soon as they have earned 56 credit hours.

Criteria:

1. Completion of 56 credit hours
2. Appropriate cumulative GPA. One of:
   1. An overall EMU GPA of 2.5 or higher based on a minimum of 12 credit hours taken at EMU. An EMU GPA of 2.5 or higher in your major, based on at least one course in your major. The Elementary Education Major
is comprehensive, therefore, the elementary major GPA is based on the cumulative of liberal arts curriculum and content course work.

2. Transferred 56 credits with a cumulative 3.0 GPA from all previous institutions.

3. A grade of "C" or higher (if taken) in the following courses:
   1. If Secondary: ENGL 121, CTAC 124, Quantitative Reasoning (GEQR), one lab science, all professional education courses, and, if special education, PSY 101.
   2. If Elementary: ENGL 121, CTAC 124, MATH 108, MATH 110E, PHY 100, ESSC 202, all of the professional education courses, all courses that state "for elementary teachers," and, if special education, PSY 101.

4. Official Test Scores showing competency in each of the following areas: mathematics, reading and writing. Scores are accepted from the Professional Readiness Exam (PRE), Basic Skills Test (no longer offered), ACT, or Michigan Merit Exam (MME). The following scores are acceptable:
   1. Mathematics: PRE pass, Basic Skills pass, ACT mathematics 22 or higher, or MME mathematics 1116 or higher.
   2. Writing: PRE pass, Basic Skills pass, ACT combined English/writing 24 or higher, or MME writing 1129 or higher.
   3. Reading: PRE pass, Basic Skills pass, ACT reading 22 or higher, or MME reading 1108 or higher.

5. ICHAT criminal background check and Statement of Civil/Criminal Convictions. If you answered yes to any of the civil/criminal conviction questions on the application, you will need to provide:
   1. A copy of the Judgment of Sentence, or Registrar of Actions, or Certification of Conviction.
   2. A written explanation of the offense(s). Application of students with civil/criminal convictions will be carefully reviewed and may take longer to process.

6. Meet academic, social, moral, and financial obligations as a member of the EMU community.

Required Courses: 18 hours

- CHL 207 - Introduction to Children's Literature (GEKH) 3 hrs
- CHL 455 - Adolescent Literature 3 hrs
- ENGL 307 - Writing Process for Elementary Teachers 3 hrs
- LING 201 - An Introduction to Linguistics 3 hrs
- RDNG 300 - Early Literacy 3 hrs
- RDNG 350 - Integrated Language Arts Instruction 3 hrs

Restricted Elective Courses: 6 hours

One course from the following:

- CHL 208 - Multicultural Children's Literature (GEUS) 3 hrs
- CHL 209 - Global Children's Literature (GEGA) 3 hrs

One course from the following:

- CTAR 222 - Drama and Play in the Human Experience (GEKA) 3 hrs
- CTAR 322 - Theatre for Children 3 hrs
- CTAR 323 - Improvising and Role-Play 3 hrs
- CTAR 324 - Oral Interpretation of Children's Literature 3 hrs

Minor Requirements: 24 hours
Note:

All minors must have at least six hours of course work at the 300-level or above.

Minoring in Language Arts & Reading

Students may elect to minor in both the Elementary Education Language Arts Group Minor and the Elementary Education Reading Minor. Students who choose to minor in both programs are required to complete the following requirements:

Reading Minor: 21 Hours

- RDNG 230 - Word Study in the Reading Program 3 hrs
- RDNG 240 - Reading and Writing Connections in the Elementary Grades 3 hrs
- RDNG 330 - Reading and the Culturally and Linguistically Diverse Learner 3 hrs
- RDNG 340 - Literacy Assessment in the Elementary Schools 3 hrs
- RDNG 400 - Program Development for Struggling Readers 3 hrs (substituted for RDNG 300)
- RDNG 410 - Literacy in and Beyond the Classroom 3 hrs (substituted for RDNG 220)
- RDNG 420 - Middle School Literacy and the Early Adolescent Reader 3 hrs (substituted for RDNG 350)

Language Arts Group Minor: 24 Hours

Required Courses: 18 Hours

- CHL 207 - Introduction to Children's Literature (GEKH) 3 hrs
- CHL 455 - Adolescent Literature 3 hrs
- ENGL 307 - Writing Process for Elementary Teachers 3 hrs
- LING 201 - An Introduction to Linguistics 3 hrs
- RDNG 300 - Early Literacy 3 hrs
- RDNG 350 - Integrated Language Arts Instruction 3 hrs

Restricted Elective Courses: 6 hours

One course from the following:

- CHL 208 - Multicultural Children's Literature (GEUS) 3 hrs
- CHL 209 - Global Children's Literature (GEGA) 3 hrs

One course from the following:

- CTAR 222 - Drama and Play in the Human Experience (GEKA) 3 hrs
- CTAR 322 - Theatre for Children 3 hrs
- CTAR 323 - Improvising and Role-Play 3 hrs
- CTAR 324 - Oral Interpretation of Children's Literature 3 hrs

Critical Graduation Information:

Each undergraduate student will be responsible for the fulfillment of the requirements or their equivalents of the Eastern Michigan University catalog in force at the time of their initial registration at a college or university or a subsequent catalog including the one in effect at the time of their graduation.
In the event an undergraduate student does not complete the degree requirements within seven years of the date of their original registration at a college or university, the student may be required to have their credits re-evaluated by the academic department(s) of their major/minor in keeping with catalog requirements in force during the year of their graduation.

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the 100-level and above. Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Complete a Writing Intensive (WI) Course in your major.
- Earn a minimum of 60 credits from a four-year college or university; courses taken at community colleges cannot be used to meet this requirement. (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 unique credit hours in their major and 20 unique credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
- Earn no more than 60 credit hours in one subject area (prefix). Credits in excess of the 60 maximum will not be counted toward the minimum of 124 credits required for a bachelor's degree.
- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more than one major or minor.
  - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
  - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
  - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor
- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is conducted by individual departments/schools within EMU, and additional documentation may be required. Please note: EMU awards only credit for transferred courses; grades are not used in the calculation of an EMU GPA.
- Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be reached in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

General Education Requirements:

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available in the General Education section of the catalog: General Education

Students who transferred to EMU may have modified general education requirements based on Michigan Transfer Agreement (MTA) or articulation agreements; consult your academic advisor for additional information.

University Information: Consult the online catalog at catalog.emich.edu.
Elementary Education Reading Minor

Revised Program, effective Fall 2014

Successful completion of this course of study, in the context of other program requirements, qualifies the student for recommendation for the Michigan Elementary Provisional Certificate. The Michigan Test for Teacher Certification (MTTC) covering this certification is Elementary Certification test #103. The endorsement test for Reading (Elementary) is MTTC #005.

Department Information:

• Earn a minimum total of 124 credits at the 100-level and above. Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.
• Meet the requirements of the General Education program (see information below).
• Complete a Writing Intensive (WI) Course in your major.
• Earn a minimum of 60 credits from a four-year college or university; **courses taken at community colleges cannot be used to meet this requirement.** (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)

• Earn a minimum of 30 credits from courses taken at EMU.

• Complete 10 of the last 30 hours for the degree from courses taken at EMU.

• Have a minimum of 30 unique credit hours in their major and 20 unique credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.

• Earn no more than 60 credit hours in one subject area (prefix). Credits in excess of the 60 maximum will not be counted toward the minimum of 124 credits required for a bachelor's degree.

• Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more that one major or minor.
  - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
  - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
  - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor

• Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is conducted by individual departments/schools within EMU, and additional documentation may be required. **Please note: EMU awards only credit for transferred courses; grades are not used in the calculation of an EMU GPA.**

• Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be reached in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

**General Education Requirements:**

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available in the General Education section of the catalog: General Education

Students who transferred to EMU may have modified general education requirements based on Michigan Transfer Agreement (MTA) or articulation agreements; consult your academic advisor for additional information.

**University Information:** Consult the online catalog at catalog.emich.edu.

**Post-Baccalaureate**

**Post-Baccalaureate Program in Elementary Education**

Students pursuing this program will complete elementary teacher certification requirements. Students wishing to pursue an endorsement in any area of special education, in addition to their teaching certificate, should see the master’s teacher certification and endorsement in special education program described under the Department of Special Education. Students wishing to be certified in any of the following areas have requirements that differ from the general programs listed below and must obtain additional information from the College of Education Office of Academic Services: art, music (vocal and instrumental), physical education, business, management, marketing and technology, and technology and design. General procedures for obtaining post-baccalaureate certification can be found under the College of Education.
Initial contact for all post-baccalaureate students should be with the College of Education Office of Academic Services.

**Admission Requirements**

1. Minimum cumulative undergraduate GPA of 2.5 or a 3.0 in a master’s degree from an accredited college or university. Applicants with less than a 2.5 GPA should contact the Second Bachelor’s Office located in the Undergraduate Advising and Career Development Center, 200 McKenny, 734.487.5497.
2. Passing scores on all three sections (reading, mathematics and writing) of the Michigan Test for Teacher Certification (MTTC) Basic Skills Test; an official score report on file at Eastern Michigan University.
3. Personal statement and letter of recommendation.
4. Freedom from civil/criminal convictions, academic probation, or administrative probation. ICHAT criminal background check and Statement of Civil/Criminal Convictions. For any civil/criminal conviction provide:
   - A copy of the Judgment of Sentence, Registrar of Actions, or Certification of Conviction.
   - A written explanation of the offense(s).

Applications of students with civil/criminal convictions will be carefully reviewed and may take longer to process.

Meet academic, social, moral, and financial obligations as a member of the EMU community. Compliance with all other admissions requirements.

**Program Requirements**

The student must:

1. Have a review of previous course work performed by the College of Education Office of Academic Services, to determine those requirements already completed, both for the teaching subject major/minor and for certification.
2. Successfully complete major/minor requirements for elementary education.
3. Successfully complete required hours of fieldwork experience. Presently a minimum of 100 clock hours of field experience is required, including required practicum courses.
4. Successfully complete professional elementary education course requirements.
5. Successfully complete student teaching.

**Exit Criteria**

1. Successful completion of all course work on program (designated minimum GPA overall, and in majors/minors).
2. Successful completion of required student teaching.
3. Successful completion of required subject area tests.
4. Recent signed civil/criminal convictions statement.
5. Current adult and child CPR and first aid certification meeting Michigan Department of Education requirements.

**Curricula**

Most courses required for post-baccalaureate certification are undergraduate courses (course numbers under 500). It is important to note that 600-level or higher courses may not be used on a program of study.

**Department Information:**

Teacher Education Department - College of Education

Martha Kinney-Sedgwick, Ph.D., Department Head
Criteria for Admission to the Post-Baccalaureate Certification Program

- Minimum cumulative undergraduate grade point average (GPA) of 2.5 or a 3.0 in a master’s degree from an accredited college or university. Applicants with less than a 2.5 GPA should contact the Second Bachelor’s Office, 301 Pierce Hall, 734.487.5497

- Passing scores on all three sections (reading, mathematics and writing) of the Michigan Test for Teacher Certification (MTTC) Basic Skills Test; an official score report must be on file at Eastern Michigan University.

- Personal Statement and letter of recommendation.

- Freedom from civil/criminal convictions, academic probation, or administrative probation. If you answered yes to any of the civil/criminal conviction questions on the application, you will need to provide:
  - A copy of the Judgment of Sentence, or Registrar of Actions, or Certification of Conviction.
  - A written explanation of the offense(s). Application of students with civil/criminal convictions will be carefully reviewed and may take longer to process.

- Meet academic, social, moral, and financial obligations as a member of the EMU community.

- Compliance with all other admissions requirements.

Undergraduate students on academic probation may not earn credit for any graduate-level on-campus or off-campus courses (500-level and above).

Once admitted, students are considered teacher candidates. Manuals, policies and procedures are available to all teacher candidates at www.emich.edu/coe/oas. Teacher candidates should print the student manual, read it and keep a copy for their records.

The teacher preparation program has a process for identifying teacher candidates with professional weaknesses. The process is called “red flagging” and is explained in student and faculty manuals. Two red flags can lead to dismissal from the teacher preparation program.

Program Requirements:

All elementary certification students must complete the requirements for the Liberal Arts Major for Elementary Education as well as the Professional Education Sequence. The elementary certification student must also choose a second major or two minors. The Michigan Test for Teacher Certification (MTTC) covering this certification is Elementary Certification test #103.

Liberal Arts Major Requirements: 42 hours

✧ Twelve of the required courses can fulfill General Education requirements

Note: Some of the courses listed below may also be listed in other areas of the program but only need to be taken once.
• ARTE 220 - Visual Arts for Elementary Teachers (GEKA) 3 hrs
• CHL 207 - Introduction to Children's Literature (GEKH) 3 hrs
• CTAC 124 - Foundations of Speech Communication (GEEC) 3 hrs
• ENGL 121 - Composition II: Researching the Public Experience (GEEC) 3 hrs
• ESSC 202 - Earth Science for Elementary Teachers (GEKN) 3 hrs
• GEOG 110 - World Regions (GEQA) 3 hrs
• HIST 123 - The United States to 1877 (GEKS) 3 hrs
• HIST 313 - Michigan History 3 hrs
• MATH 108 - Problem Solving and Number Concepts for Elementary School Teachers 3 hrs
• MATH 110E - Mathematical Reasoning: Applications for Elementary School Teachers (GEQR) 3 hrs
• MUSC 220 - Music for the Elementary Teacher (GEKA) 3 hrs
• PHY 100 - Physics for Elementary Teachers (GEKN) 3 hrs
• PLSC 112 - American Government (GEKS) 3 hrs

One course from the following:

• ENGL 307 - Writing Process for Elementary Teachers 3 hrs
• RDNG 240 - Reading and Writing Connections in the Elementary Grades 3 hrs

Approved Additional Majors in Elementary Education:

• Early Childhood Education
• Integrated Elementary Science
• Language Arts Group
• Mathematics for Elementary Teaching
• Reading
• Social Studies Group

Approved Additional Minors in Elementary Education:

• Integrated Elementary Science
• Language Arts Group
• Mathematics for Elementary Teaching
• Reading

_The student may not combine Language Arts and Reading minors. One of the minors can be in:_

• French Language
• German Language
- Spanish Language
- Teaching English as a Second Language

Professional Elementary Education Sequence

Pre-Admission Phase: The Learner and the Community: 11 hours

Prerequisite: Sophomore standing or higher.

- EDPS 322 - Human Development and Learning 4 hrs
- HLED 320 - Health Education in the Elementary Grades 2 hrs
- PHED 257 - Physical Education for the Classroom Teacher 2 hrs
- SPGN 251 - Introduction to Inclusion and Disabilities Studies in a Diverse Society (GEUS) 3 hrs

The following courses require formal admission to the Initial Teacher Preparation Program:

Phase I: Curriculum, Assessment, and the Social Context: 18 hours

Prerequisite: Completion of Pre-Admission Phase is required.

* These two courses must be taken together.
** EDPS 340 needs to be taken with or after CURR 304.

- CURR 304 - Curriculum and Methods: Elementary 3 hrs
- EDMT 330 - Instructional Applications of Media and Technology 3 hrs
- ** EDPS 340 - Introduction to Assessment and Evaluation 3 hrs
- PRCT 304 - Practicum I: Elementary 3 hrs
- RDNG 300 - Early Literacy 3 hrs
- SOFD 328W - Schools for a Diverse and Democratic Society (GEWI) 3 hrs

Phase II: Content and Methods and Teaching: 18 hours

Prerequisite: Completion of Phase I is required.

* These two courses must be taken together.

- BIOT 303 - Life Science for Elementary Teachers 3 hrs
- CTAR 300 - Integrated Arts 3 hrs
- MATH 381 - Teaching Mathematics in Elementary School 3 hrs
- ** PRCT 310 - Practicum II: Elementary 3 hrs
- * RDNG 310 - Literacy Across the Curriculum in the Intermediate Grades 3 hrs

One course from the following:

- CURR 308 - Integrated Elementary Social Studies Methods 3 hrs
- HIST 308 - Integrated Elementary Social Studies Methods 3 hrs
Phase III: Capstone Experience: 9 hours

Prerequisite: Completion of Phase II is required.

- EDUC 492 - Student Teaching (GELB) 9 hrs
  This course requires a formal application to be submitted 7-8 months prior to the Student Teaching semester.

Post-Baccalaureate Program in Secondary Education

Students pursuing this program will complete secondary teacher certification requirements. Students wishing to pursue an endorsement in any area of special education, in addition to their teaching certificate, should see the master’s teacher certification and endorsement in special education program described under the Department of Special Education. Students wishing to be certified in any of the following areas have requirements that differ from the general programs listed below and must obtain additional information from the College of Education Office of Academic Services: art, music (vocal and instrumental), physical education, business, management, marketing and technology, and technology and design. General procedures for obtaining post-baccalaureate certification can be found under the College of Education.

Initial contact for all post-baccalaureate students should be with the College of Education Office of Academic Services.

Admission Requirements

1. Minimum cumulative undergraduate GPA of 2.5 or a 3.0 in a master’s degree from an accredited college or university. Applicants with less than a 2.5 GPA should contact the Second Bachelor’s Office located in the Undergraduate Advising and Career Development Center, 200 McKenny, 734.487.5497.
2. Passing scores on all three sections (reading, mathematics and writing) of the Michigan Test for Teacher Certification (MTTC) Basic Skills Test; an official score report on file at Eastern Michigan University.
3. Personal statement and letter of recommendation.
4. Freedom from civil/criminal convictions, academic probation, or administrative probation. ICHAT criminal background check and Statement of Civil/Criminal Convictions. For any civil/criminal conviction provide:
   - A copy of the Judgment of Sentence, Registrar of Actions, or Certification of Conviction.
   - A written explanation of the offense(s).
5. Meet academic, social, moral, and financial obligations as a member of the EMU community.
6. Compliance with all other admissions requirements.

Program Requirements

The student must:

1. Have a review of previous course work performed by the College of Education Office of Academic Services, to determine those requirements already completed, both for the teaching subject major/minor and for certification.
2. Successfully complete general education requirements as needed.
3. Successfully complete major/minor requirements for secondary education.
4. Successfully complete required hours of fieldwork experience. Presently a minimum of 100 clock hours of field experience is required, including required practicum courses.
5. Successfully complete professional secondary education course requirements.
6. Successfully complete student teaching.

Exit Criteria

1. Successful completion of all course work on program (designated minimum GPA overall, and in majors/minors).
2. Successful completion of required student teaching.

3. Successful completion of required subject area tests.

4. Recent signed civil/criminal convictions statement.

5. Current adult and child CPR and first aid certification meeting Michigan Department of Education requirements.

Curricula
Most courses required for post-baccalaureate certification are undergraduate courses (course numbers under 500). It is important to note that 600-level or higher courses may not be used on a program of study.

Criteria for Admission to the Post-Baccalaureate Certification Program

- Minimum cumulative undergraduate grade point average (GPA) of 2.5 or a 3.0 in a master's degree from an accredited college or university. Applicants with less than a 2.5 GPA should contact the Second Bachelor's Office, 301 Pierce Hall, 734.487.5497

- Passing scores on all three sections (reading, mathematics and writing) of the Michigan Test for Teacher Certification (MTTC) Basic Skills Test; an official score report must be on file at Eastern Michigan University.

- Personal Statement and letter of recommendation.

- Freedom from civil/criminal convictions, academic probation, or administrative probation. If you answered yes to any of the civil/criminal conviction questions on the application, you will need to provide:
  - A copy of the Judgment of Sentence, or Registrar of Actions, or Certification of Conviction.
  - A written explanation of the offense(s). Application of students with civil/criminal convictions will be carefully reviewed and may take longer to process.

- Meet academic, social, moral, and financial obligations as a member of the EMU community.

- Compliance with all other admissions requirements.

Undergraduate students on academic probation may not earn credit for any graduate-level on-campus or off-campus courses (500-level and above).

Once admitted, students are considered teacher candidates. Manuals, policies and procedures are available to all teacher candidates at www.emich.edu/coe/oas. Teacher candidates should print the student manual, read it and keep a copy for their records.
The teacher preparation program has a process for identifying teacher candidates with professional weaknesses. The process is called “red flagging” and is explained in student and faculty manuals. Two red flags can lead to dismissal from the teacher preparation program.

Liberal Art Requirements:

Students must complete a minimum of 40 credit hours in liberal arts studies, which include the areas listed below. Many students can meet most liberal arts requirements through courses previously taken as part of a bachelor’s degree.

- a course in English writing
- a course in communication
- a course in literature
- a course in humanities/social sciences (American Government recommended)
- a course in mathematics
- a course in natural or physical sciences
- a course in arts

Major/Minor Requirements:

Students must complete one approved major and one approved minor.

Approved Majors for Secondary Education:

- Biology
- Business, Management, Marketing and Technology
- Chemistry
- Communication and Theatre Arts (speech)
- Computer Science
- Earth Science
- French Language
- Geography (requires a minor in History)
- German Language and Literature
- History (requires a minor in Geography)
- Integrated Science*
- Language, Literature and Writing (English)
- Mathematics
- Physical Science Comprehensive Major*
- Physical Science Group Major (requires a minor in Biology, Chemistry, Earth Science or Physics)
• Physics
• Social Studies (requires a minor in Economics, Geography, History or Political Science)
• Spanish Language

Approved Minors for Secondary Education:
• Biology
• Chemistry
• Communication and Theatre Arts (speech)
• Computer Science
• Earth Science
• Economics (requires a major in Social Studies)
• French Language
• Geography
• German Language
• Health
• History (requires a major in Social Studies or Geography)
• Language, Literature and Writing (English)
• Mathematics
• Physical Education
• Physics
• Political Science (requires a major in Social Studies)
• Psychology
• Spanish Language
• Teaching English as a Second Language
• Vocational Technical Education

Approved K-12 (Secondary Certificate):
• French Language
• German Language and Literature
• Japanese Language and Culture
• Music Education (Instrumental)*
• Music Education (Vocal)*
• Physical Education
• Spanish Language
• Technology and Design Education
• Visual Art Education*

* This major does not require a minor.

Professional Secondary Education Sequence

Pre-Admission Phase: The Learner and the Community: 7 hours

Prerequisite: Sophomore standing or higher.

• EDPS 322 - Human Development and Learning 4 hrs
• SPGN 251 - Introduction to Inclusion and Disabilities Studies in a Diverse Society (GEUS) 3 hrs

The following courses require formal admission to the Initial Teacher Preparation Program:

Phase I: Curriculum, Assessment and the Social Context: 15 hours

Prerequisite: Completion of Pre-Admission Phase is required.

* These two courses must be taken together.
** These courses must be taken with or after CURR 305.

• * CURR 305 - Curriculum and Methods: Secondary 3 hrs
• ** EDMT 330 - Instructional Applications of Media and Technology 3 hrs
• ** EDPS 340 - Introduction to Assessment and Evaluation 3 hrs
• * PRCT 305 - Practicum I: Secondary 3 hrs
• SOFD 328W - Schools for a Diverse and Democratic Society (GEWI) 3 hrs

Phase II: Content and Methods and Teaching: 9-12 hours

Prerequisite: Completion of Phase I is required.

* These two courses must be taken together.

• Methods of Teaching in Subject Area (3-6 hrs)
• * PRCT 311 - Practicum II: Secondary 3 hrs
• * RDNG 311 - Teaching Reading in the Secondary School 3 hrs
Phase III: Capstone Experience: 9 hours

Prerequisite: Completion of Phase II and 100 pre-student teaching hours is required.

- EDUC 492 - Student Teaching (GELB) 9 hrs

This course requires a formal application to be submitted 7-8 months prior to the Student Teaching semester.

Curriculum

CURR 177 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr
Prerequisite: department permission

CURR 178 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs
Prerequisite: department permission

CURR 179 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs
Prerequisite: department permission

CURR 277 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr
Prerequisite: department permission

CURR 278 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs
Prerequisite: department permission
CURR 279 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs
Prerequisite: department permission

CURR 304 - Curriculum and Methods: Elementary

The concept of curriculum and its relationship to differing philosophies of education and styles of teaching. The instructional process and multiple teaching strategies examined and applied through lesson planning and demonstration. Classroom management principles and techniques considered in the light of a curriculum and instruction perspective. This course is linked to PRCT 304, a planned practicum experience in public schools.

Credit Hours: 3 hrs
Prerequisite: EDPS 322 or EDPS 325; admission to the Initial Teacher Preparation Program
Last Updated: Links 04/2011

CURR 305 - Curriculum and Methods: Secondary

The concept of curriculum and its relationship to differing philosophies of education and styles of teaching. The instructional process and multiple teaching strategies examined and applied through lesson planning and demonstration. Classroom management principles and techniques considered in the light of a curriculum and instruction perspective. Includes a planned practicum experience in public schools in addition to the regularly scheduled hours.

Credit Hours: 3 hrs
Prerequisite: EDPS 322 or EDPS 325; admission to the Initial Teacher Preparation Program
Last Updated: Links 04/2011

CURR 308 - Integrated Elementary Social Studies Methods

Social studies is the integrated study of the social sciences and humanities to promote civic competence inherent in group life. This course explores the teaching of social studies in the elementary school. It is organized to cover a variety of teaching methods to acquire skills through lectures, discussions, activities, and presentations.

Credit Hours: 3 hrs
Prerequisite: CURR 304 and admission to the Initial Teacher Preparation Program
Class Restrictions: Junior standing or above
Major Restrictions: Elementary Education Majors only
Cross-Listed with: HIST 308
Last Updated: 03/2011; effective Spring 2011

CURR 377 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr
Prerequisite: department permission
CURR 378 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs
Prerequisite: department permission

CURR 379 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs
Prerequisite: department permission

CURR 477 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr
Prerequisite: department permission

CURR 478 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs
Prerequisite: department permission

CURR 479 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs
Prerequisite: department permission

CURR 486 - Internship in Teacher Education

Directed experience involving a field placement in curriculum.

Credit Hours: 1 hr
Prerequisite: department permission

CURR 488 - Internship in Teacher Education
Directed experience involving a field placement in curriculum.

**Credit Hours:** 2 hrs  
**Prerequisite:** department permission

**CURR 489 - Internship in Teacher Education**

Directed experience involving a field placement in curriculum.

**Credit Hours:** 3 hrs  
**Prerequisite:** department permission

**CURR 497 - Independent Study**

Advanced study on an individual basis in areas in which the department does not offer a formal course.

**Credit Hours:** 1 hr  
**Prerequisite:** department permission

**CURR 498 - Independent Study**

Advanced study on an individual basis in areas in which the department does not offer a formal course.

**Credit Hours:** 2 hrs  
**Prerequisite:** department permission

**CURR 499 - Independent Study**

Advanced study on an individual basis in areas in which the department does not offer a formal course.

**Credit Hours:** 3 hrs  
**Prerequisite:** department permission

**Early Childhood Education**

**ECE 214 - The Developing Child Birth-Age Eight**

This course explores developmental patterns of children in various settings. Physical, mental, social and emotional components of growth through the first five stages of the family life cycle with emphasis on the child from two to eight years. Impact of the family, resources, attitudes and values on young children will be explored.

**Credit Hours:** 3 hrs  
**Concurrent Prerequisite:** ECE 215  
**Class Restrictions:** Sophomore standing  
**Last Updated:** Links 04/2011

**ECE 215 - The Developing Early Childhood Professional**

This course provides an orientation to early childhood education, addressing such topics as teacher-child interaction, observation, guidance, ECE content area, and health and safety requirements. Students participate in a practicum experience at EMU.
Children's Institute for three hours per week and attend a two hour class once a week.

Credit Hours: 3 hrs  
Lecture/Lab Hours: Includes three-hours-per-week practicum experience  
Corequisites: ECE 214 and practicum at the EMU Children's Institute  
Class Restrictions: Sophomore standing  
Last Updated: Links 04/2011

**ECE 302 - Child Centered Teaching and Learning**

This course teaches students to design and implement developmentally appropriate programs and curriculum for children from birth through age eight. A historical overview of early childhood programs and differentiated instruction to meet the needs of young children is the focus. An inquiry approach will be used to assist the student in broadening the scope of curriculum.

Credit Hours: 3 hrs  
Prerequisite: ECE 214, ECE 215, EDPS 322 or EDPS 325, ECE 307 and ECE 314; Admission to the College of Education  
Corequisites: ECE 303 and practicum in EMU Children's Institute  
Class Restrictions: Junior or Senior standing  
Major Restrictions: Early Childhood Education Major  
Last Updated: Links 04/2011

**ECE 303 - Implementing the Curriculum**

The content of the class will focus on implementing a developmentally appropriate curriculum in programs for young children. The students participate in a practicum experience at the EMU Children's Institute for three hours per week and attend a two hour class once a week. The faculty member supervises the students in the Children's Institute.

Credit Hours: 3 hrs  
Prerequisite: ECE 214 and ECE 215, EDPS 322 or EDPS 325, ECE 307, ECE 314; Admission to the Initial Teacher Preparation Program  
Corequisites: ECE 302 and a practicum at the EMU Children's Institute  
Class Restrictions: Sophomore or Junior standing  
Last Updated: Links 04/2011

**ECE 307 - Diverse Children, Families and Communities**

Course focuses on diverse families emphasizing young children in peril. Students will explore poverty and other critical conditions affecting families and apply knowledge of school and community resources to address young children's needs and build resilience. Students will learn and apply affective communication strategies to develop meaningful home-school-community partnerships.

Credit Hours: 3 hrs  
Prerequisite: ECE 214 and ECE 215  
Class Restrictions: Junior standing  
Last Updated: Links 04/2011

**ECE 314 - Infants and Toddlers: Development, Curriculum and Programs**

This course examines the development of infants and toddlers (conception to 36 months), and the characteristics of high quality curriculum and child care programs for this age group. It requires 10-12 hours of observation/participation in infant-toddler programs.
ECE 318 - Play and Creativity in ECE

An overview of approaches to play and creative expression in the education of young children. Applications will be made to the fields of early childhood, elementary education, special education and extended day programs. Students will conduct observations and interviews on play and experiment with a variety of play materials and media with children.

ECE 341 - Assessment of the Young Child

This course focuses on formal and informal procedures and practices used in the formative and summative evaluation and assessment of all aspects of a child's development from birth through the elementary years, with emphasis on children birth through age eight.

ECE 342 - Intentional Teaching in the Content Areas

This is an advanced early childhood curriculum class that focuses on using developmentally appropriate instructional methods to address early learning standards in the areas of literacy, math, science and social studies. Integrating language development and critical thinking through all areas of the curriculum will be emphasized.

ECE 343 - Advocacy, Leadership and Administration

This course focuses on advocacy, leadership and policy in early childhood education. Students will explore state, national and international policies impacting children, learn and apply advocacy and community organizational skills, and examine roles of leadership and the administration of programs in early childhood education.
ECE 379 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs

ECE 451 - inclusive Classroom in Early Childhood

This course prepares early childhood teachers to teach young children with exceptional needs in early childhood or early childhood special education classrooms. It addresses Special Education history, theory, models and laws pertaining to young children as well as inclusive curricular, assessment, and family approaches, teaming and collaboration and managing challenging behavior.

Credit Hours: 3 hrs
Prerequisite: ECE 302, ECE 303 and SPGN 251
Class Restrictions: Junior standing or above
Major Restrictions: Early Childhood Education Major only
Cross-Listed with: SPGN 451
Last Updated: Links 04/2011

Educational Media and Technology

EDMT 330 - Instructional Applications of Media and Technology

This course guides preservice teacher educators to critically and creatively apply the concepts, principles, hardware and software associated with the infusion of technology in solving educational problems and meeting challenges in their roles as facilitators of learning.

Credit Hours: 3 hrs
Prerequisite: admission to the Initial Teacher Preparation Program
Concurrent Prerequisite: CURR 304, CURR 305, BMMT 200, PHED 302, MUSC 330, MUSC 332 or TEDU 350
Last Updated: Prerequisite and Corequisite Change 10/2011, effective Winter 2012; Links 04/2011

EDMT 477 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr
Prerequisite: department permission

EDMT 478 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs
Prerequisite: department permission
EDMT 479 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs  
Prerequisite: department permission

EDMT 497 - Independent Study

Advanced study on an individual basis in areas in which the department does not offer a formal course.

Credit Hours: 1 hr  
Prerequisite: department permission

EDMT 498 - Independent Study

Advanced study on an individual basis in areas in which the department does not offer a formal course.

Credit Hours: 2 hrs  
Prerequisite: department permission

Educational Psychology

EDPS 106 - Strategic Learning for Academic Success

Introduction to EMU services, diagnostic testing of learning styles and learning strategies for academic success.

Credit Hours: 3 hrs

EDPS 177 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr  
Prerequisite: department permission

EDPS 178 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr

EDPS 179 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.
EDPS 277 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs
Prerequisite: department permission

EDPS 278 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hrs
Prerequisite: department permission

EDPS 279 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs
Prerequisite: department permission

EDPS 322 - Human Development and Learning

The study of childhood psychology from birth through adolescence with a focus on intellectual and psychosocial behavior and the role of parents and teachers in fostering learning and development.

Credit Hours: 4 hrs

EDPS 325 - Life Span Human Growth and Development

An exploration of the biological, cognitive, social and affective domains of human growth and development from the prenatal period until death; the relationship of growth and development to behavior through the life span.

Credit Hours: 4 hrs
Class Restrictions: All Undergraduates
Last Updated: Class Restriction Removed 5/2013, effective Fall 2013

EDPS 340 - Introduction to Assessment and Evaluation

Basic principles in evaluation and assessment. Students will construct and interpret tests and alternative assessments; critique standardized tests; assess social, affective and behavioral factors; use computer applications; and examine assessment issues.

Credit Hours: 3 hrs
Prerequisite: EDPS 322
Concurrent Prerequisite: CURR 304 or CURR 305
**Major Restrictions:** Admission to the Initial Teacher Preparation Program  
*Last Updated:* Links 04/2011

**EDPS 377 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

- **Credit Hours:** 1 hr
- **Prerequisite:** department permission

**EDPS 378 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

- **Credit Hours:** 2 hrs
- **Prerequisite:** department permission

**EDPS 379 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

- **Credit Hours:** 3 hrs
- **Prerequisite:** department permission

**EDPS 477 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

- **Credit Hours:** 1 hr
- **Prerequisite:** department permission

**EDPS 478 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

- **Credit Hours:** 2 hrs
- **Prerequisite:** department permission

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

- **Credit Hours:** 3 hrs
- **Prerequisite:** department permission
EDPS 497 - Independent Study

Advanced study on an individual basis in areas in which the department does not offer a formal course.

Credit Hours: 1 hr
Prerequisite: department permission

EDPS 498 - Independent Study

Advanced study on an individual basis in areas in which the department does not offer a formal course.

Credit Hours: 2 hrs
Prerequisite: department permission

EDPS 499 - Independent Study

Advanced study on an individual basis in areas in which the department does not offer a formal course.

Credit Hours: 3 hrs
Prerequisite: department permission

Practicum

PRCT 304 - Practicum I: Elementary

Field placement in an elementary school. Focus is on reflective teaching and assessment decisions.

Credit Hours: 3 hrs
Prerequisite: EDPS 322; admission to the Initial Teacher Preparation Program
Concurrent Prerequisite: CURR 304
Previously Listed As: FETE 301
Last Updated: Links 04/2011

PRCT 305 - Practicum I: Secondary

Field placement in a middle level or high school. Focus is on reflective teaching and assessment decisions.

Credit Hours: 3 hrs
Prerequisite: EDPS 322; admission to the Initial Teacher Preparation Program
Concurrent Prerequisite: CURR 305
Previously Listed As: FETE 302
Last Updated: Links 04/2011

PRCT 310 - Practicum II: Elementary

Field placement in an elementary school with a diverse student population. Emphasis is on developing literacy in diverse populations and adapting instruction to individual student needs.

Credit Hours: 3 hrs
Prerequisite: CURR 304; admission to the Initial Teacher Preparation Program
PRCT 311 - Practicum II: Secondary

Field placement in a middle level or high school with a diverse student population. Emphasis is on developing literacy in diverse populations and adapting instruction to individual student needs.

Credit Hours: 3 hrs
Prerequisite: CURR 305; admission to the Initial Teacher Preparation Program
Concurrent Prerequisite: RDNG 310
Previously Listed As: FETE 402
Last Updated: Links 04/2011

Reading

RDNG 177 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr
Prerequisite: Department permission
Last Updated: Links 04/2011

RDNG 178 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs
Prerequisite: Department permission
Last Updated: Links 04/2011

RDNG 179 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs
Prerequisite: Department permission
Last Updated: Links 04/2011

RDNG 220 - Instructional Uses of Trade Books

In this course, students will acquire a knowledge of trade books and their uses in language arts instruction and in instruction across the curriculum. Students will develop strategies and methods for using trade books so that children discover the value and satisfaction of reading.
RDNG 230 - Word Study in the Reading Program

Using language theory as a basis, students will explore the various aspects of word study: phonemic awareness, phonics, vocabulary, dictionary skills and spelling. Using literature and other texts, they will develop techniques/strategies for teaching word study in the elementary grades.

Credit Hours: 3 hrs

RDNG 240 - Reading and Writing Connections in the Elementary Grades

This course provides preservice teachers an opportunity to explore research on the relationship between the reading and writing processes, to experience writers’ workshop, to determine ways to promote growth in students’ written language across the content areas and to determine management and evaluation procedures within the reading/writing classroom.

Credit Hours: 3 hrs

RDNG 277 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr
Prerequisite: Department permission
Last Updated: Links 04/2011

RDNG 278 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs
Prerequisite: Department permission
Last Updated: Links 04/2011

RDNG 279 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs
Prerequisite: Department permission
Last Updated: Links 04/2011

RDNG 300 - Early Literacy

A concentration on the developmental aspects of literacy learning from birth to eight years old. Involves theoretical and research knowledge pertinent to child growth and development.
RDNG 310 - Literacy Across the Curriculum in the Intermediate Grades

This course focuses on the developmental aspects of literacy processes in the intermediate grades. Emphasis will be placed on theory and research and their application to literacy instruction across all content areas. Field based experiences are included in the corequisite PRCT 310. Required of students seeking elementary certification.

Credit Hours: 3 hrs
Prerequisite: EDPS 322 Human Development and admission to the College of Education
Last Updated: Links 04/2011

RDNG 311 - Teaching Reading in the Secondary School

The developmental sequence for reading skills at the junior and senior high school levels and methods for teaching the sequence, including teaching programs for all students. Providing reading instruction within the context of the various areas. Required for all students who seek certification to teach in secondary schools.

Credit Hours: 3 hrs
Prerequisite: CURR 304 and RDNG 300
Last Updated: Links 06/2011

RDNG 330 - Reading and the Culturally and Linguistically Diverse Learner

Exploring research on second language reading and language instruction, students will develop strategies for working with elementary students from diverse cultural and linguistic backgrounds. Students will engage in action research to design instructional methods and tools which will foster reading and language learning for second language learners in particular.

Credit Hours: 3 hrs
Prerequisite: RDNG 230, RDNG 300
Last Updated: Links 04/2011

RDNG 340 - Literacy Assessment in the Elementary Schools

A course in the types of informal literacy assessments appropriate for elementary school children. Students will examine a variety of literacy assessments techniques for primary and upper elementary grades including reading level assessment, motivational, spelling and writing scales. Portfolio development and parent conferences will also be examined.

Credit Hours: 3 hrs
Prerequisite: RDNG 300; EDPS 340 or ECE 341
Last Updated: Links 04/2011

RDNG 350 - Integrated Language Arts Instruction

This course focuses on the interrelationship of speaking, listening, reading, writing, viewing, and visually representing within language arts instruction. The purpose is to acquaint preservice teachers with recent research and practice relevant to language arts instruction in the elementary classroom.
RDNG 377 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr
Prerequisite: Department permission
Last Updated: Links 04/2011

RDNG 378 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs
Prerequisite: Department permission
Last Updated: Links 04/2011

RDNG 379 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs
Prerequisite: Department permission
Last Updated: Links 04/2011

RDNG 400 - Program Development for Struggling Readers

A course in the development of an intervention program to meet the needs of struggling readers. Students will develop and implement an intervention program for a child in the local community and report the results of this program to the parents and the school.

Credit Hours: 3 hrs
Prerequisite: RDNG 340
Last Updated: Links 04/2011

RDNG 410 - Literacy in and Beyond the Classroom

This course provides an in-depth look at current literacy practices in American schools. Students will explore classroom and intervention programs, after school tutorials, parent programs, community programs and working with school personnel. Professional development opportunities including membership and attendance at professional conferences will also be examined.

Credit Hours: 3 hrs
Prerequisite: RDNG 300, RDNG 310
Class Restrictions: Senior standing only. Certificate candidates.
RDNG 420 - Middle School Literacy and the Early Adolescent Reader

This course has the following purposes: (a) Understanding early adolescent literacy development; (b) Exploring literacy practices associated with middle level disciplines; (c) Applying various instructional strategies to those practices to enhance comprehension, composition, and learning of content; (d) Developing personal understanding of the relationship between literacy and learning across disciplines.

Credit Hours: 3 hrs
Prerequisite: RDNG 300
Class Restrictions: Senior standing only. Certificate candidates.
Major Restrictions: Reading majors only
Last Updated: Links 04/2011

RDNG 477 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr
Prerequisite: Department permission
Last Updated: Links 04/2011

RDNG 478 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs
Prerequisite: Department permission
Last Updated: Links 04/2011

RDNG 479 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs
Prerequisite: Department permission
Last Updated: Links 04/2011

RDNG 497 - Independent Study

Advanced study on an individual basis in areas in which the department does not offer a formal course.

Credit Hours: 1 hr
Prerequisite: Department permission
Last Updated: Links 04/2011
**RDNG 498 - Independent Study**

Advanced study on an individual basis in areas in which the department does not offer a formal course.

**Credit Hours:** 2 hrs  
**Prerequisite:** Department permission  
**Last Updated:** Links 04/2011

**RDNG 499 - Independent Study**

Advanced study on an individual basis in areas in which the department does not offer a formal course.

**Credit Hours:** 3 hrs  
**Prerequisite:** Department permission  
**Last Updated:** Links 04/2011

**Social Foundations**

**SOFD 177 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 1 hr  
**Prerequisite:** Department permission  
**Last Updated:** Links 03/2011

**SOFD 178 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 2 hrs  
**Prerequisite:** Department permission  
**Last Updated:** Links 03/2011

**SOFD 179 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 3 hrs  
**Prerequisite:** Department permission  
**Last Updated:** Links 03/2011

**SOFD 250 - EcoJustice Education : An Introduction**

An introduction to EcoJustice Education, the study of the cultural roots of ecological and social crises with particular focus on what educators (P-12, community and university educators) can do to revitalize communities and stem the tide of ecological degradation and world-wide insecurities.
Credit Hours: 3 hrs
Repeatable for Credit: No
Class Restrictions: All Undergraduates, Second Bac., and Post-Bac.
Last Updated: New Course 01/2014, effective Summer 2014

**SOFD 277 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr
Prerequisite: Department permission
Last Updated: Links 03/2011

**SOFD 278 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs

**SOFD 279 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs
Prerequisite: Department permission
Last Updated: Links 03/2011

**SOFD 328W - Schools for a Diverse and Democratic Society (GEWI)**

A study of the interactive relationship between schools and society, and the development of a culturally responsible pedagogy. Special emphasis on educational equity and the theoretical foundations of multicultural education.

Credit Hours: 3 hrs
Prerequisite: EDPS 322 or EDPS 325; admission to the Initial Teacher Preparation Program
Writing Intensive:

Last Updated: Links 03/2011

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr
Prerequisite: Department permission
Last Updated: Links 03/2011
SOFD 378 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 2 hrs  
**Prerequisite:** Department permission  
**Last Updated:** Links 03/2011

SOFD 379 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 3 hrs  
**Prerequisite:** Department permission  
**Last Updated:** Links 03/2011

SOFD 477 - Special Topics

A study of select issues in social foundations of education. Topics may vary from term to term. Students may elect this course several times, provided different topics are covered.

**Credit Hours:** 1 hr  
**Prerequisite:** Department permission  
**Last Updated:** Links 03/2011

SOFD 478 - Special Topics

A study of select issues in social foundations of education. Topics may vary from term to term. Students may elect this course several times, provided different topics are covered.

**Credit Hours:** 2 hrs  
**Prerequisite:** Department permission  
**Last Updated:** Links 03/2011

SOFD 479 - Special Topics

A study of select issues in social foundations of education. Topics may vary from term to term. Students may elect this course several times, provided different topics are covered.

**Credit Hours:** 3 hrs  
**Prerequisite:** Department permission  
**Last Updated:** Links 03/2011

SOFD 497 - Independent Study

Intensive study of a problem or theory supervised by a faculty member in social foundations of education.

**Credit Hours:** 1 hr
Prerequisite: Department permission and consent of instructor
Last Updated: Links 03/2011

SOFD 498 - Independent Study

Intensive study of a problem or theory supervised by a faculty member in social foundations of education.

Credit Hours: 2 hrs
Prerequisite: Department permission and consent of instructor
Last Updated: Links 03/2011

SOFD 499 - Independent Study

Intensive study of a problem or theory supervised by a faculty member in social foundations of education.

Credit Hours: 3 hrs
Prerequisite: Department permission and consent of instructor
Last Updated: Links 03/2011

Special Education

SPGN 451 - Inclusive Classroom in Early Childhood

This course prepares early childhood teachers to teach young children with exceptional needs in early childhood or early childhood special education classrooms. It addresses Special Education history, theory, models and laws pertaining to young children as well as inclusive curricular, assessment, and family approaches, teaming and collaboration and managing challenging behavior.

Credit Hours: 3 hrs
Prerequisite: ECE 302, ECE 303 and SPGN 251
Class Restrictions: Junior standing or above
Major Restrictions: Early Childhood Education Major only
Cross-Listed with: ECE 451
Last Updated: Course Type Change 7/2014, Links 03/2011

Military Science and Leadership
18 Roosevelt Hall
(734) 487-4659
pparris1@emich.edu

Required Courses: 20 hours

Students must take all of the following courses unless granted advanced placement. Students electing a minor in military science may not use this minor to fulfill the state secondary provisional certificate requirement of a teaching minor.

- MSL 101 - Foundations of Officership (GELB) 2 hrs
- MSL 102 - Basic Leadership (GELB) 2 hrs
- MSL 201 - Individual Leadership Studies (GELB) 2 hrs
- MSL 202 - Leadership and Teamwork (GELB) 2 hrs
- MSL 301 - Leadership and Problem Solving (GELB) 3 hrs
- MSL 302 - Leadership and Ethics (GELB) 3 hrs
- MSL 401 - Adaptive Leadership (GELB) 3 hrs
- MSL 402 - Leadership in a Complex World (GELB) 3 hrs

Minor Total: 20 hours
Critical Graduation Information:

Each undergraduate student will be responsible for the fulfillment of the requirements or their equivalents of the Eastern Michigan University catalog in force at the time of their initial registration at a college or university or a subsequent catalog including the one in effect at the time of their graduation.

In the event an undergraduate student does not complete the degree requirements within seven years of the date of their original registration at a college or university, the student may be required to have their credits re-evaluated by the academic department(s) of their major/minor in keeping with catalog requirements in force during the year of their graduation.

The following are minimum requirements for all bachelor’s degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the 100-level and above. Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Complete a Writing Intensive (WI) Course in your major.
- Earn a minimum of 60 credits from a four-year college or university; courses taken at community colleges cannot be used to meet this requirement. (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 unique credit hours in their major and 20 unique credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
- Earn no more than 60 credit hours in one subject area (prefix). Credits in excess of the 60 maximum will not be counted toward the minimum of 124 credits required for a bachelor's degree.
- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more than one major or minor.
  - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
  - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
  - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor
- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is conducted by individual departments/schools within EMU, and additional documentation may be required. Please note: EMU awards only credit for transferred courses; grades are not used in the calculation of an EMU GPA.
- Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be reached in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

General Education Requirements:
EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available in the General Education section of the catalog: General Education

Students who transferred to EMU may have modified general education requirements based on Michigan Transfer Agreement (MTA) or articulation agreements; consult your academic advisor for additional information.

University Information: Consult the online catalog at catalog.emich.edu.
School of Engineering Technology Programs and Courses

School of Engineering Technology

Major

Applied Technology Major

Program Revised, Effective Fall 2013

The applied technology major is designed to serve those individuals who wish to continue their technology-related community college education. The program offers the flexibility of accepting a block of up to 34 credits of technical courses as transfer credit. Articulation agreements have been established with several community colleges to ensure the maximum transfer of credits. Students transferring from other four-year higher education institutions with a technical major may also find this major suitable.

An active articulation agreement exists between the Applied Technology program and many community colleges, including, but not limited to the following:

Applied Technology - Oakland Community College Articulation Guide

To see a complete list of current colleges with program articulation agreements with EMU, please click here.

General Education Requirements:

For specific requirements refer to the General Education Program.

Major Requirements: 75 hours

Required Courses: 20 hours

- CHEM 117 - Fundamentals of Chemistry-Lecture (GEKN) 3 hrs
• CHEM 118 - Fundamentals of Chemistry Laboratory (GEKN) 1 hr
• ELEC 200 - Circuit Analysis I 3 hrs
• MATH 105 - College Algebra (GEQR) 3 hrs
• MATH 107 - Plane Trigonometry 2 hrs
• PHY 221 - Mechanics, Sound and Heat (GEKN) 4 hrs
• SET 350W - Engineering Communication (GEWI) 3 hrs

Restricted Elective Courses: 6 hours

Select six hours of restricted electives in consultation with an advisor.

Restricted Elective Courses: 15 hours

Select 15 hours at the 300- and 400-level in consultation with an advisor.

Technical Courses: 34 hours

Up to 34 hours of transferred technical courses may be applied to this major.

Minor Requirements:

This program does not require a minor.

Electives Courses: 9 hours

Program Total:

Students must earn a minimum total of 124 credits at the 100-level or above.

Critical Graduation Information:

Each undergraduate student will be responsible for the fulfillment of the requirements or their equivalents of the Eastern Michigan University catalog in force at the time of their initial registration at a college or university or a subsequent catalog including the one in effect at the time of their graduation.

In the event an undergraduate student does not complete the degree requirements within seven years of the date of their original registration at a college or university, the student may be required to have their credits re-evaluated by the academic department(s) of their major/minor in keeping with catalog requirements in force during the year of their graduation.

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the 100-level and above. Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
• Complete a Writing Intensive (WI) Course in your major.
• Earn a minimum of 60 credits from a four-year college or university; **courses taken at community colleges cannot be used to meet this requirement.** (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
• Earn a minimum of 30 credits from courses taken at EMU.
• Complete 10 of the last 30 hours for the degree from courses taken at EMU.
• Have a minimum of 30 unique credit hours in their major and 20 unique credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
• Earn no more than 60 credit hours in one subject area (prefix). Credits in excess of the 60 maximum will not be counted toward the minimum of 124 credits required for a bachelor's degree.
• Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more that one major or minor.
  o Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
  o Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
  o Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor
• Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is conducted by individual departments/schools within EMU, and additional documentation may be required. Please note: EMU awards only credit for transferred courses; grades are not used in the calculation of an EMU GPA.
• Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be reached in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

**General Education Requirements:**

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available in the General Education section of the catalog: General Education

Students who transferred to EMU may have modified general education requirements based on Michigan Transfer Agreement (MTA) or articulation agreements; consult your academic advisor for additional information.

**University Information:** Consult the online catalog at catalog.emich.edu.

**Computer Engineering Technology Major**

The computer engineering technology program applies scientific, computer, and engineering knowledge, combined with technical skills, in support of computerized activities. The computing field is one of the fastest growing segments of industry, and the program is developed to include many application aspects of computer engineering technology. The graduates generally apply the theories and principles to design, analyze, produce, operate, program and maintain computer and digital control systems. In addition, the curriculum includes the study of engineering database management and engineering information technology. Graduates are employed in industry as computer engineers, computer architecture designers, software engineers and engineering information technologists.

General Education Requirements:

For specific requirements refer to the General Education Program.

Major Requirements: 83-89 hours

Required Courses: 65 hours

- CET 151 - Introduction to Computing in Engineering Technology 3 hrs
- CET 215 - Computer Hardware and Software 3 hrs
- CET 273 - Unmanned Vehicle Systems 3 hrs
- CET 353 - Web Development for Engineering Applications 3 hrs
- CET 364 - Computer Embedded Systems 3 hrs
- CET 427 - Programmable Logic Controller 3 hrs
- CET 491 - Senior Design Capstone 3 hrs
- COSC 111 - Introduction to Programming 3 hrs
- COSC 246 - Programming in C++ 3 hrs
- ELEC 200 - Circuit Analysis I 3 hrs
- ELEC 210 - Circuit Analysis II 3 hrs
- ELEC 214 - Digital Circuit Analysis I 3 hrs
- ELEC 215 - Computer-Aided Electronics 3 hrs
- ELEC 218 - Motors and Controls 3 hrs
- ELEC 320 - Microcomputer Circuits 3 hrs
- ELEC 420 - Advanced Microprocessors 3 hrs
- ET 100 - Introduction to Engineering Technology 3 hrs
- IA 210 - Concepts of Network and Business Technology 3 hrs
- PDD 122 - Engineering Graphics 4 hrs
One of the following:

- MATH 121 - Calculus II 4 hrs
- MATH 141 - Applied Calculus II for Technology 3 hrs

One of the following:

- PHY 222 - Electricity and Light 4 hrs
- PHY 224 - Electricity and Light 5 hrs

Restricted Electives: 16-18 hours

Select six courses from the following courses upon the advisor's approval

- CET 374 - Sensors, Control, and Data Acquisition 3 hrs
- CET 375 - Robotics Engineering 3 hrs
- CET 384 - Computer Interfacing Programming 3 hrs
- CET 385 - Data and Computer Communications 3 hrs
- CET 435 - VHDL & FPGA Design 3 hrs
- CET 451 - Engineering Database Development 3 hrs
- CET 453 - Engineering Programming 3 hrs
- CET 449 - Cloud Computing 3 hrs
- IA 103 - Information Security Overview 3 hrs
- IA 212 - Open Systems Platform and Network Administration 3 hrs
- IA 344 - Administration of Computer Systems 3 hrs
- IA 430 - Network Forensics 3 hrs

Writing Intensive Course

Each student must choose a writing intensive course as part of major completion requirements. Consult your advisor for course options.

Minor Requirements:

This program does not require a minor.

Program Total:

Students must earn a minimum total of 124 credits at the 100-level or above.

Critical Graduation Information:

Each undergraduate student will be responsible for the fulfillment of the requirements or their equivalents of the Eastern Michigan University catalog in force at the time of their initial registration at a college or university or a subsequent catalog including the one in effect at the time of their graduation.
In the event an undergraduate student does not complete the degree requirements within seven years of the date of their original registration at a college or university, the student may be required to have their credits re-evaluated by the academic department(s) of their major/minor in keeping with catalog requirements in force during the year of their graduation.

Students who transferred to EMU may have modified general education requirements based on Michigan Transfer Agreement (MTA) or articulation agreements; consult your academic advisor for additional information.

University Information: Consult the online catalog at catalog.emich.edu.
Electronic Engineering Technology Major

The electronic engineering technology major is designed to prepare students for interesting and challenging positions in the diverse field of electronics. The curriculum provides for a strong foundation in electronics to support future changes in technology or the career roles of the individual. The graduate may find employment on engineering teams in product design and development, in production and automation, in instrumentation and communications or in technical sales and operations.

An active articulation agreement exists between this program and a community college. To see a complete list of current colleges with program articulation agreements with EMU, please click here.

  - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor.
- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is conducted by individual departments/schools within EMU, and additional documentation may be required. Please note: EMU awards only credit for transferred courses; grades are not used in the calculation of an EMU GPA.
- Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be reached in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

General Education Requirements:
EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available in the General Education section of the catalog: General Education

Students who transferred to EMU may have modified general education requirements based on Michigan Transfer Agreement (MTA) or articulation agreements; consult your academic advisor for additional information.

University Information: Consult the online catalog at catalog.emich.edu.

**Mechanical Engineering Technology Major**

The mechanical engineering technology major offers the opportunity to prepare for rewarding and responsible careers in support of technical and engineering activities. The program is designed to provide graduates with a strong technical foundation that integrates the methods, materials, machinery and power resources found in modern industry. Students receive both lecture and hands-on laboratory training in manufacturing processes, engineering mechanics, thermo-fluid sciences and machine design, culminating in a senior design capstone project.

(734) 487-2040  
bob.lahidji@emich.edu

School Website

Advisor Information:

**Mary L. Brake, Ph.D.**

School of Engineering Technology  
118 Sill Hall  
(734) 487-0551  
mbrake@emich.edu

Program Admission:

**Requirements for Admission** - Students must meet the following requirements to be admitted to the Mechanical Engineering Technology Program:

1. A minimum EMU cumulative GPA of 2.3. (If a student has not yet established an EMU GPA, a combined GPA of 2.3 from all transfer institutions will be accepted)
2. Completion of PHY 221 or PHY 223 with a grade of C or higher (or equivalent Transfer Credit)
3. Completion of MATH 120 or MATH 140, with a grade of C or higher (or equivalent Transfer Credit)
**Application Process** - Students who wish to be admitted to the Mechanical Engineering Technology Program must do the following:

1. Complete all requirements listed above. Students may be enrolled in one or two of the **required** courses listed above during the semester they apply.
2. Submit an Application on-line by October 1, February 1, or July 1
3. Attend a mandatory meeting a MET faculty member or COT Staff Advisor. (Student will be contacted to schedule appointment after the receipt of their application)

**Decision Notification Process** - Students will be notified by letter after a decision is made. This notification will be made no later than the start of the semester following the application.

**Program Retention Policy:**

In addition to secondary admission requirements, program majors will be required to:

1. Complete each program core course (e.g., all courses having a MET prefix);
2. *Maintain a cumulative GPA of at least 2.3 on a 4.0 scale
3. **Must see an advisor for academic advising before enrolling in each semester.

Notes: *A student whose cumulative GPA or cumulative major GPA falls below 2.3 will be placed on program probation for the next succeeding term or two semesters if the student is a part-time student (defined as taking 11 credits or less). If the student fails to raise his or her GPA to 2.3 or higher with the grades earned during the probationary term(s), the student will be dismissed from the program. Students may reapply for admission once their GPA is raised to 2.3 or higher.

**General Education Requirements:**

For specific requirements refer to the General Education Program.

**Major Requirements: 85-88 hours**

- CET 151 - Introduction to Computing in Engineering Technology 3 hrs
- CHEM 121 - General Chemistry I (GEKN) 3 hrs
- CHEM 122 - General Chemistry I Laboratory (GEKN) 1 hr
- ELEC 200 - Circuit Analysis I 3 hrs
- ELEC 218 - Motors and Controls 3 hrs
- ET 100 - Introduction to Engineering Technology 3 hrs
- MATH 105 - College Algebra (GEQR) 3 hrs
- MATH 107 - Plane Trigonometry 2 hrs
- MET 211 - Statics 3 hrs
- MET 312 - Applied Dynamics Principles 3 hrs
- MET 313 - Applied Mechanics of Materials 3 hrs
- MET 314 - Applied Thermodynamics and Heat Transfer 3 hrs
- MET 316 - Design for Manufacturing and Tooling 3 hrs
- MET 319 - Fluid Mechanics 3 hrs
- MET 387 - Cooperative Education in Mechanical Engineering Technology 3 hrs
- MET 411 - Mechanical/Machine Design 3 hrs
- MET 437 - Kinematics of Machines 3 hrs
- MET 470 - Mechanical Vibrations 3 hrs
- MET 492 - Senior Design Projects I 3 hrs
- MET 493 - Senior Design Projects II 3 hrs
- PDD 111 - Materials 3 hrs
- PDD 122 - Engineering Graphics 4 hrs
- PDD 123 - Manufacturing Processes 4 hrs
- PDD 435 - Finite Element Analysis 3 hrs
- SET 350W - Engineering Communication (GEWI) 3 hrs

One of the following:

- PHY 221 - Mechanics, Sound and Heat (GEKN) 4 hrs
- PHY 223 - Mechanics and Sound (GEKN) 5 hrs

One of the following:

- PHY 222 - Electricity and Light 4 hrs
- PHY 224 - Electricity and Light 5 hrs

One of the following:

- MATH 120 - Calculus I (GEQR) 4 hrs
- MATH 140 - Applied Trigonometry and Calculus I for Technology (GEQR) 4 hrs

One of the following:

- MATH 121 - Calculus II 4 hrs
- MATH 141 - Applied Calculus II for Technology 3 hrs

Minor Requirements

This program does not require a minor.

Program Total

Students must earn a minimum total of 124 credits at the 100-level or above.

Critical Graduation Information:

Each undergraduate student will be responsible for the fulfillment of the requirements or their equivalents of the Eastern Michigan University catalog in force at the time of their initial registration at a college or university or a subsequent catalog including the one in effect at the time of their graduation.

In the event an undergraduate student does not complete the degree requirements within seven years of the date of their original registration at a college or university, the student may be required to have their credits re-evaluated by the academic department(s) of their major/minor in keeping with catalog requirements in force during the year of their graduation.

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.
• Earn a minimum total of 124 credits at the 100-level and above. Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.
• Meet the requirements of the General Education program (see information below).
• Complete a Writing Intensive (WI) Course in your major.
• Earn a minimum of 60 credits from a four-year college or university; courses taken at community colleges cannot be used to meet this requirement. (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
• Earn a minimum of 30 credits from courses taken at EMU.
• Complete 10 of the last 30 hours for the degree from courses taken at EMU.
• Have a minimum of 30 unique credit hours in their major and 20 unique credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
• Earn no more than 60 credit hours in one subject area (prefix). Credits in excess of the 60 maximum will not be counted toward the minimum of 124 credits required for a bachelor's degree.
• Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more than one major or minor.
  o Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
  o Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
  o Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor
• Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is conducted by individual departments/schools within EMU, and additional documentation may be required. Please note: EMU awards only credit for transferred courses; grades are not used in the calculation of an EMU GPA.
• Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be reached in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

General Education Requirements:

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available in the General Education section of the catalog: General Education

Students who transferred to EMU may have modified general education requirements based on Michigan Transfer Agreement (MTA) or articulation agreements; consult your academic advisor for additional information.

University Information: Consult the online catalog at catalog.emich.edu.

Product Design and Development Major

Students majoring in Product Design and Development are prepared for a wide range of product design and development job opportunities. The program prepares students to participate in the customer driven product realization process including concept generation, evaluating design alternatives, computer modeling, prototyping, engineering analysis, selecting materials and processes, cost estimating, tool development, quality and production.
Click here to watch a short video about this program.

General Education Requirements:

For specific requirements refer to the General Education Program.

Major Requirements: 92 hours

- ARTS 122 - Three-Dimensional Design 3 hrs
- CHEM 117 - Fundamentals of Chemistry-Lecture (GEKN) 3 hrs
- CHEM 118 - Fundamentals of Chemistry Laboratory (GEKN) 1 hr
- MATH 105 - College Algebra (GEQR) 3 hrs
- MATH 107 - Plane Trigonometry 2 hrs
- PDD 111 - Materials 3 hrs
- PDD 122 - Engineering Graphics 4 hrs
- PDD 123 - Manufacturing Processes 4 hrs
- PDD 156 - Teamwork in Product Design and Development 3 hrs
- PDD 157 - Introduction to Product Design 3 hrs
- PDD 212 - Molding Materials and Processes 3 hrs
- PDD 220 - Geometric Dimensioning and Tolerancing 3 hrs
- PDD 224 - 3-D Solid Modeling 3 hrs
- PDD 309 - Molded Product Design 3 hrs
- PDD 310 - Formed Product Design 3 hrs
- PDD 316 - Concept Development Studio 3 hrs
- PDD 325 - Applied Statics and Strength of Materials 4 hrs
- PDD 331 - Product Design Data Management 3 hrs
- PDD 350 - Prototyping 3 hrs
- PDD 380 - Engineering Cost Estimating 3 hrs
• PDD 387 - Cooperative Education in Product Design 3 hrs
• PDD 432 - 3-D Modeling and Surfacing Techniques 3 hrs
• PDD 433 - Advanced Tool Development 3 hrs
• PDD 435 - Finite Element Analysis 3 hrs
• PDD 491 - Computer-Aided Design Studio 3 hrs
• PDD 492 - Product Realization Studio 3 hrs
• PHY 221 - Mechanics, Sound and Heat (GEKN) 4 hrs
• PHY 222 - Electricity and Light 4 hrs
• QUAL 320 - Industrial Quality Control 3 hrs
• SET 350W - Engineering Communication (GEWI) 3 hrs

Minor Requirements:

This program does not require a minor.

Program Total:

Students must earn a minimum total of 124 credits at the 100-level or above.

60 Hour Waiver

Students in this program are granted a waiver of the University requirement that students may not earn "more than 60 credit hours in one subject area (prefix)." **Students in this program may earn up to (but not exceed) 70 hours in "PDD" credit towards graduation.**

Critical Graduation Information:

Each undergraduate student will be responsible for the fulfillment of the requirements or their equivalents of the Eastern Michigan University catalog in force at the time of their initial registration at a college or university or a subsequent catalog including the one in effect at the time of their graduation.

In the event an undergraduate student does not complete the degree requirements within seven years of the date of their original registration at a college or university, the student may be required to have their credits re-evaluated by the academic department(s) of their major/minor in keeping with catalog requirements in force during the year of their graduation.

The following are **minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.**

- Earn a minimum total of 124 credits at the **100-level and above. Courses with numbers below 100 will not be counted toward this degree requirement.** At most 8 credit hours of physical education (PEGN) activity courses **will be counted toward this requirement.** A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Complete a Writing Intensive (WI) Course in your major.
- Earn a minimum of 60 credits from a four-year college or university; **courses taken at community colleges cannot be used to meet this requirement.** (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
• Complete 10 of the last 30 hours for the degree from courses taken at EMU.
• Have a minimum of 30 unique credit hours in their major and 20 unique credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
• Earn no more than 60 credit hours in one subject area (prefix). Credits in excess of the 60 maximum will not be counted toward the minimum of 124 credits required for a bachelor's degree.
• Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more that one major or minor.
  o Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
  o Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
  o Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor
• Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. - CET 453 - Engineering Programming 3 hrs
- CET 491 - Senior Design Capstone 3 hrs

300-Level or above

All minors must have at least six hours of course work at the 300-level or above.

Minor Total: 21 hours

Critical Graduation Information:

Each undergraduate student will be responsible for the fulfillment of the requirements or their equivalents of the Eastern Michigan University catalog in force at the time of their initial registration at a college or university or a subsequent catalog including the one in effect at the time of their graduation.

In the event an undergraduate student does not complete the degree requirements within seven years of the date of their original registration at a college or university, the student may be required to have their credits re-evaluated by the academic department(s) of their major/minor in keeping with catalog requirements in force during the year of their graduation.

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the 100-level and above. Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
Complete a Writing Intensive (WI) Course in your major.

Earn a minimum of 60 credits from a four-year college or university; courses taken at community colleges cannot be used to meet this requirement. (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)

Earn a minimum of 30 credits from courses taken at EMU.

Complete 10 of the last 30 hours for the degree from courses taken at EMU.

Have a minimum of 30 unique credit hours in their major and 20 unique credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.

Earn no more than 60 credit hours in one subject area (prefix). Credits in excess of the 60 maximum will not be counted toward the minimum of 124 credits required for a bachelor's degree.

Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more that one major or minor.
  o Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
  o Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
  o Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor

Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is conducted by individual departments/schools within EMU, and additional documentation may be required. Please note: EMU awards only credit for transferred courses; grades are not used in the calculation of an EMU GPA.

Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be reached in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

**General Education Requirements:**

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available in the General Education section of the catalog: General Education

Students who transferred to EMU may have modified general education requirements based on Michigan Transfer Agreement (MTA) or articulation agreements; consult your academic advisor for additional information.

**University Information:** Consult the online catalog at catalog.emich.edu.

**Electronic Engineering Technology Minor (EET)**

The Electronic Engineering Technology Minor will incorporate to enhance the quality of research through diversification and help disseminate the findings among students with different backgrounds.

To complete the minor, students must fulfill the following:

  • Minimum of 6 hours from 200-level courses (maximum of 12 hours)
  • Minimum of 6 hours from 300-level courses
- Minimum of 3 hours from 400-level courses
- Satisfaction of all prerequisites

See following required courses for specifics.

**Advisor Information:**

**Jamal Bari, Ph.D.**

118 Sill Hall  
(734) 487-2040  
jamal.bari@emich.edu

**Core Courses: 6 hours**

Choose a minimum of six hours from the following:

- * ELEC 200 - Circuit Analysis I 3 hrs
- ELEC 210 - Circuit Analysis II 3 hrs
- ELEC 214 - Digital Circuit Analysis I 3 hrs
- * ELEC 218 - Motors and Controls 3 hrs

Choose one option from the following:

**Option I (Microprocessors): 9 hours**

- ELEC 314 - Digital Circuit Analysis II 3 hrs
- ELEC 320 - Microcomputer Circuits 3 hrs
- ELEC 420 - Advanced Microprocessors 3 hrs

**Option II (Analog & Communication): 9 hours**

- ELEC 300 - Analog Circuit Analysis I 3 hrs
- ELEC 310 - Analog Circuit Analysis II 3 hrs
- ELEC 415 - Communication Circuits 3 hrs

**Option III (Controls): 9 hours**

- Additional 300-level ELEC course chosen in collaboration with Minor adviser (3 hrs)
- ELEC 326 - Transform Circuit Analysis with Calculus 3 hrs
- ELEC 450 - Senior Design Project 3 hrs

**Minor Total: 18-21 hours**
Notes:

* If student's major requires them to take ELEC 200 and/or ELEC 218, then student will only be required to take the minor as eighteen hours. All others will be required to take the minor as twenty-one hours.

Writing Intensive Course

* Each student must choose a writing intensive course as part of major completion requirements. Consult your advisor for course options.

Critical Graduation Information:

Each undergraduate student will be responsible for the fulfillment of the requirements or their equivalents of the Eastern Michigan University catalog in force at the time of their initial registration at a college or university or a subsequent catalog including the one in effect at the time of their graduation.

In the event an undergraduate student does not complete the degree requirements within seven years of the date of their original registration at a college or university, the student may be required to have their credits re-evaluated by the academic department(s) of their major/minor in keeping with catalog requirements in force during the year of their graduation.

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the 100-level and above. Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Complete a Writing Intensive (WI) Course in your major.
- Earn a minimum of 60 credits from a four-year college or university; courses taken at community colleges cannot be used to meet this requirement. (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 unique credit hours in their major and 20 unique credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
- Earn no more than 60 credit hours in one subject area (prefix). Credits in excess of the 60 maximum will not be counted toward the minimum of 124 credits required for a bachelor's degree.
- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more than one major or minor.
  - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
  - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
  - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor
- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for
college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S.
institutions; the internal review of such courses is conducted by individual departments/schools within EMU, and
additional documentation may be required. Please note: EMU awards only credit for transferred courses; grades are not
used in the calculation of an EMU GPA.

- Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0
must be reached in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check
with your program advisor.)

General Education Requirements:

EMU’s General Education Program requires students to choose from a menu of approved courses in several different areas do not
assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of
General Education requirements is available in the General Education section of the catalog: General Education

Students who transferred to EMU may have modified general education requirements based on Michigan Transfer Agreement
(MTA) or articulation agreements; consult your academic advisor for additional information.

University Information: Consult the online catalog at catalog.emich.edu.

Manufacturing Minor

The manufacturing minor is designed to provide majors in business and science with an introduction to manufacturing
engineering. Employment opportunities typically increase for persons with this minor.

University elective courses in the minor are selected to relate to the student’s major. Academic advising to determine elective
course choices is provided by a manufacturing advisor in the School of Engineering Technology.

- MFG 124 - Manufacturing Processes and Methods II 3 hrs
- PDD 203 - Industrial Operations 3 hrs
• PDD 111 - Materials 3 hrs
• PDD 123 - Manufacturing Processes 4 hrs

Restricted Electives: 9 hours

Choose nine hours from the following:

• MET 223 - Descriptive Geometry 2 hrs
• MFG 306 - Plastic Processing 3 hrs
• MFG 361 - Computer Numerical Control 3 hrs
• MFG 421 - Manufacturing Engineering Analysis 3 hrs
• MFG 425 - Advanced Manufacturing Methods 3 hrs
• PDD 470 - Integrated Product and Process Design 3 hrs
• PDD 122 - Engineering Graphics 4 hrs
• PDD 212 - Molding Materials and Processes 3 hrs
• PDD 220 - Geometric Dimensioning and Tolerancing 3 hrs
• PDD 316 - Concept Development Studio 3 hrs
• PDD 492 - Product Realization Studio 3 hrs
• QUAL 320 - Industrial Quality Control 3 hrs

Minor Total: 22 hours

Note:

All minors must have at least six hours of course work at the 300 level or above.

Critical Graduation Information:

Each undergraduate student will be responsible for the fulfillment of the requirements or their equivalents of the Eastern Michigan University catalog in force at the time of their initial registration at a college or university or a subsequent catalog including the one in effect at the time of their graduation.

In the event an undergraduate student does not complete the degree requirements within seven years of the date of their original registration at a college or university, the student may be required to have their credits re-evaluated by the academic department(s) of their major/minor in keeping with catalog requirements in force during the year of their graduation.

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

• Earn a minimum total of 124 credits at the 100-level and above. Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.
• Meet the requirements of the General Education program (see information below).
• Complete a Writing Intensive (WI) Course in your major.
• Earn a minimum of 60 credits from a four-year college or university; courses taken at community colleges cannot be used to meet this requirement. (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
• Earn a minimum of 30 credits from courses taken at EMU.
• Complete 10 of the last 30 hours for the degree from courses taken at EMU.
• Have a minimum of 30 unique credit hours in their major and 20 unique credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
• Earn no more than 60 credit hours in one subject area (prefix). Credits in excess of the 60 maximum will not be counted toward the minimum of 124 credits required for a bachelor's degree.
• Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more that one major or minor.
  o Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
  o Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
  o Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor
• Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is conducted by individual departments/schools within EMU, and additional documentation may be required. Please note: EMU awards only credit for transferred courses; grades are not used in the calculation of an EMU GPA.
• Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be reached in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

**General Education Requirements:**

EMU’s General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available in the General Education section of the catalog: General Education

Students who transferred to EMU may have modified general education requirements based on Michigan Transfer Agreement (MTA) or articulation agreements; consult your academic advisor for additional information.

**University Information:** Consult the online catalog at catalog.emich.edu.

**Polymers and Coatings Minor**

The overall goal of this program is to provide opportunity for undergraduate students interested in science and engineering to graduate with a Minor in Polymers and Coatings technology, helping them to broaden their field of study and career opportunities.

**Admission**

Open to all undergraduate students

**School Information:**

School of Engineering Technology - College of Technology

Bob Lahidji, Ph.D., School Director
Required Courses: 18 Hours

- PC 260 - Introduction to Coatings Science and Technology 3 hrs
- PC 310 - Polymers for Engineers and Technologists 3 hrs
- PC 400 - Polymers and Coatings Technology I 3 hrs
- PC 401 - Polymers and Coatings Technology I Laboratory 3 hrs
- PC 402 - Polymers and Coatings Technology II 3 hrs
- PC 403 - Polymers and Coatings Technology II Laboratory 3 hrs

Restrictive Elective Courses: 6 hours

Select 6 credit hours from the following:

- CHEM 341 - Fundamentals of Material Science 3 hrs
- PC 387 - Cooperative Education in Interdisciplinary Technology 3 hrs
- PC 404 - Coatings Raw Materials 3 hrs
- PC 460 - Advanced Coatings Topics 3 hrs
- PC 497 - Independent Study 1 hr
- PC 498 - Independent Study 2 hrs
- PC 499 - Independent Study 3 hrs

Minor Total: 24 Hours

Critical Graduation Information:

CAD

CADM 105 - Computer Applications for Industry
Provides the theory, general applications, and specific applications of microcomputers. Students are exposed to software packages commonly used for general and specific applications in industry.

**Credit Hours:** 3 hrs  
**Lecture/Lab Hours:** Lecture and laboratory course.

**CADM 106 - Industrial Computer Applications for Manufacturing**

This course presents advanced DOS commands and concepts appropriate for microcomputers configured for CAD/CAM and other similar industrial applications.

**Credit Hours:** 3 hrs  
**Lecture/Lab Hours:** Lecture and laboratory course.  
**Prerequisite:** a course in computer literacy

**CADM 120 - Computer-Aided Print Reading**

A manufacturing print reading course which includes an introduction to computer-aided drawing. This course is intended for manufacturing cost analysis majors with no previous engineering drawing experience.

**Credit Hours:** 3 hrs  
**Prerequisite:** CADM 105 or IS 215  
**Last Updated:** Links 03/2011

**CADM 177 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 1 hrs  
**Prerequisite:** department permission

**CADM 178 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 2 hrs  
**Prerequisite:** department permission

**CADM 179 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 3 hrs  
**Prerequisite:** department permission

**CADM 231 - Computer Graphic Programming for Industry**
A series of computer graphics programs illustrate graphics algorithms and terminology. Students write similar computer programs using graphics functions. Topics include computer graphics, multi-view drawings, multiaxis rotations, CAD databases, animation and interactive programming.

**Credit Hours:** 3 hrs  
**Lecture/Lab Hours:** Lecture and laboratory course  
**Prerequisite:** MATH 107 and a course in C programming  
**Last Updated:** Links 03/2011

**CADM 277 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 1 hr  
**Prerequisite:** department permission

**CADM 278 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 2 hrs  
**Prerequisite:** department permission

**CADM 279 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 3 hrs  
**Prerequisite:** department permission

**CADM 334 - 3-D Computer-Aided Design Modeling**

This course provides the advanced CAD user with an in-depth understanding and skill of constructing and integrating 3-D solid modeling and surfacing techniques into part modeling, assembly and animation using commercial CAD software.

**Credit Hours:** 3 hrs  
**Prerequisite:** PDD 122  
**Last Updated:** Links 03/2011

**CADM 360 - CIM Operations**

Concepts, components, and application of computer-based industrial automation. The integration and implications of CAD, CAM and business functions into CIM are included.

**Credit Hours:** 3 hrs  
**Prerequisite:** PDD 203  
**Last Updated:** Links 03/2011
CADM 377 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr
Prerequisite: department permission

CADM 378 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs
Prerequisite: department permission

CADM 379 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs
Prerequisite: department permission

CADM 387 - Cooperative Education in CAD/CAM Technology

Industrial technology majors will be placed on a job that relates to their primary area of study, for one semester. During this period regular employee benefits may be received.

Credit Hours: 3 hrs
Prerequisite: department permission
Major Restrictions: Industrial Technology and Industrial Teacher Education Majors only
Notes: Offered on a credit/no-credit basis.

CADM 417 - Industrial Robotics

The nature and use of industrial robotics: capabilities, equipment and associated hardware, justification, preparation and installation, launching and monitoring.

Credit Hours: 3 hrs
Lecture/Lab Hours: Lecture and laboratory course
Prerequisite: CADM 106, PDD 203, ELEC 218 and MFG 318
Last Updated: Links 03/2011

CADM 461 - CAD/CAM NC Programming

Study of conversion of part descriptions to numerical control programs for mill, lathe, and three-axis machining center. Advanced APT and CAD/CAM NC programming for producing the instruction codes necessary to manufacture parts with NC machine tools are emphasized. Verification of the computer assisted NC programs are accomplished by laboratory work.

Credit Hours: 3 hrs
Prerequisite: MFG 361  
Last Updated: Links 03/2011

**CADM 477 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 1 hr  
**Prerequisite:** department permission

**CADM 478 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 2 hrs  
**Prerequisite:** department permission

**CADM 479 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 3 hrs  
**Prerequisite:** department permission

**CADM 485 - Flexible Manufacturing Systems**

Design and implementation of a flexible manufacturing cell. Machining materials, material handling and storage, inspection and inventory are emphasized. Part programming using numerical control, robotics/programmable automation programming, development of a manufacturing database and hierarchical computer control.

**Credit Hours:** 3 hrs  
**Lecture/Lab Hours:** Lecture and laboratory course  
**Prerequisite:** PDD 316, PDD 224, MFG 361, QUAL 320 and MFG 425  
**Last Updated:** Links 03/2011

**CADM 487 - Cooperative Education in CAD/CAM Technology**

The second in a two-course sequence for industrial technology majors. The students will be placed on a job that relates to their primary area of study, for one semester. Regular employee benefits may be received.

**Credit Hours:** 3 hrs  
**Prerequisite:** CADM 387 and department permission  
**Notes:** Graded on a credit/no-credit basis.  
**Last Updated:** Links 03/2011

**CADM 494 - Industry-Based Special Topics**
Course descriptions are formulated at the time of an industry’s request and reflect the particular requirements of the client company.

**CADM 495 - Industry-Based Special Topics**

Course descriptions are formulated at the time of an industry’s request and reflect the particular requirements of the client company.

**Credit Hours:** 1 hr  
**Notes:** Offered on a credit/no-credit basis

**CADM 496 - Industry-Based Special Topics**

Course descriptions are formulated at the time of an industry’s request and reflect the particular requirements of the client company.

**Credit Hours:** 2 hrs  
**Notes:** Offered on a credit/no-credit basis.

**CADM 497 - Independent Study**

Available to selected students who have demonstrated ability to profit from a directed-study project. Intensive study of a problem appropriate to the student’s area of concentration. Enrollment and selection of a project proposal must be approved by the department adviser and chair.

**Credit Hours:** 1 hrs  
**Prerequisite:** department permission

**CADM 498 - Independent Study**

Available to selected students who have demonstrated ability to profit from a directed-study project. Intensive study of a problem appropriate to the student’s area of concentration. Enrollment and selection of a project proposal must be approved by the department adviser and chair.

**Credit Hours:** 2 hrs  
**Prerequisite:** department permission

**CADM 499 - Independent Study**

Available to selected students who have demonstrated ability to profit from a directed-study project. Intensive study of a problem appropriate to the student’s area of concentration. Enrollment and selection of a project proposal must be approved by the department adviser and chair.

**Credit Hours:** 3 hrs  
**Prerequisite:** department permission

**Computer Engineering Technology**
CET 151 - Introduction to Computing in Engineering Technology

This course introduces a variety of software tools and techniques used by engineers. It is intended for anyone interested in engineering design, analysis and software development. Engineering software developments related to real life applications are included.

Credit Hours: 3 hrs  
Previously Listed As: CET 251 Engineering Software and Applications  
Last Updated: Links 03/2011

CET 177 - Special Topics

An exploration and study of topics not covered in other departmental offerings.

Credit Hours: 1 hr  
Notes: Students may elect more than once, provided different topics are studied.

CET 178 - Special Topics

An exploration and study of topics not covered in other departmental offerings.

Credit Hours: 2 hrs  
Notes: Students may elect more than once, provided different topics are studied.

CET 179 - Special Topics

An exploration and study of topics not covered in other departmental offerings.

Credit Hours: 3 hrs  
Notes: Students may elect more than once, provided different topics are studied.

CET 215 - Computer Hardware and Software

The course provides students with the knowledge and skills required to assemble components based on customer requirements, install, configure and maintain devices, PCs and software for end users, understand the basics of networking and security/forensics, properly and safely diagnose, resolve and document common hardware and software issues while applying troubleshooting skills. Provide appropriate customer support; understand the basics of vitalization, desktop imagine, and deployment.

Credit Hours: 3 hrs  
Last Updated: New Course 5/2013, effective Winter 2014

CET 273 - Unmanned Vehicle Systems

An unmanned vehicle system (UVS) is a vehicle without a human pilot, navigator, or driver on-board. The unmanned vehicle systems are mainly categorized a unmanned aerial vehicle (UAV) or commonly known as drone, unmanned ground vehicle (UGV), and unmanned underwater vehicle (UUV) . These systems are either controlled autonomously by on-board computers or by a driver/navigator/ pilot on the ground using remote control. This course provides hands-on opportunity for the students to assemble/design their own UVS systems. Students will work as teams to practically learn how to collaborate and work with each other to create and build their own UVS with both autonomous and remote control navigation, telemetry, imaging, weather logging, and autopilot mission.
CET 277 - Special Topics

An exploration and study of topics not covered in other departmental offerings.

Credit Hours: 1 hr
Notes: Students may elect more than once, provided different topics are studied.

CET 278 - Special Topics

An exploration and study of topics not covered in other departmental offerings.

Credit Hours: 1 hr
Notes: Students may elect more than once, provided different topics are studied.

CET 279 - Special Topics

An exploration and study of topics not covered in other departmental offerings.

Credit Hours: 1 hr
Notes: Students may elect more than once, provided different topics are studied.

CET 353 - Web Development for Engineering Applications

The application of Web technology to engineering disciplines. Emphasis is given to designing, analyzing and developing Web applications for various engineering disciplines and enterprises. Projects integrate various Web-based engineering software to be simultaneously used and managed for concurrent engineering and business activities in virtual environment.

Credit Hours: 3 hrs
Prerequisite: CET 151, IS 380
Last Updated: New Course 5/2013, effective Winter 2014

CET 364 - Computer Embedded Systems

The course covers the knowledge and understanding of the main embedded system principles and concepts. Students will understand what embedded system means form a business and technical perspective, as well as what is involved in embedded hardware, embedded system design process, and software development. Practical experiments and lab projects are emphasized.

Credit Hours: 3 hrs
Prerequisite: COSC 246
Last Updated: New Course 5/2013, effective Winter 2014

CET 374 - Sensors, Control, and Data Acquisition

Introduction to sensors and actuators, components of sensors; actuators, and data acquisitions systems; Analog/digital signal conditioning and conversion; structures of various sensors including pressure, level, flow, temperature, heat, humidity, density, position, motion, sound, light, force and torque; Structure of various actuators and controllers including regulator, power, and
motors; RFID systems, Signal transmission and control.

**Credit Hours:** 3 hrs  
**Prerequisite:** ET 100  
**Last Updated:** New Course 5/2013, effective Winter 2014

### CET 375 - Robotics Engineering

This course provides hands-on opportunity for the students to assemble/design their own mobile robot. Students will work as teams to practically lean how to collaborate and work with each other to create and build an autonomous mobile robot. Topics include fundamentals of electronics and mechanics of robots; robot motion and speed control systems; robot dynamics and kinematics; robot programming; construction, mechanics, and electrical control of robots; sensing and vision systems for robots, obstacle avoidance systems for robots; robot communications and interfacing; different structures of mobile robots including four wheel and differential drives.

**Credit Hours:** 3 hrs  
**Prerequisite:** ET 100  
**Last Updated:** New Course 5/2013, effective Winter 2014

### CET 377 - Special Topics

An exploration and study of topics not covered in other departmental offerings.

**Credit Hours:** 1 hr  
**Notes:** Students may elect more than once, provided different topics are studied.

### CET 378 - Special Topics

An exploration and study of topics not covered in other departmental offerings.

**Credit Hours:** 2 hrs  
**Notes:** Students may elect more than once, provided different topics are studied.

### CET 379 - Special Topics

An exploration and study of topics not covered in other departmental offerings.

**Credit Hours:** 3 hrs  
**Notes:** Students may elect more than once, provided different topics are studied.

### CET 384 - Computer Interfacing Programming

This course introduces the principles and programming skills for students to develop interfacing programs for controlling a wide variety of control devices. Students design and build the interfacing circuits using various electronic components. The Design and development of computer programs for controlling and monitoring control systems are emphasized.

**Credit Hours:** 3 hrs  
**Prerequisite:** COSC 246  
**Last Updated:** New Course 5/2013, effective Winter 2014

### CET 385 - Data and Computer Communications
This course introduces students to the areas of data communications and networking, protocols and TCP/IP protocol suite. Emphasis is placed in data communications, wide area networks, local area networks, network and transport protocols, security, and Internet applications. Practical lab exercises and animations are also emphasized.

Credit Hours: 3 hrs  
Prerequisite: CET 215

Last Updated: New Course 5/2013, effective Winter 2014

CET 387 - Cooperative Education in Computer Engineering Technology

An industrial experience in business and industrial where primary work emphasis is related to computer engineering technology. During this period employee benefits may be received.

Credit Hours: 3 hrs  
Prerequisite: department permission

CET 426 - Engineering Product Information

An overview of the information related to product design and manufacturing production. Emphasis will be given to utilize product information in various aspects of engineering design, analysis, manufacturing and concurrent engineering.

Credit Hours: 3 hrs  
Prerequisite: ELEC 218

Last Updated: Links 03/2011

CET 427 - Programmable Logic Controller

The application of electricity, electronics, programmable logic controller, data acquisition, and analysis techniques to the open-loop and closed-loop control of machines and processes. Emphasis will be given to utilization of computers and programmable logic controllers for industrial control purposes.

Credit Hours: 3 hrs  
Lecture/Lab Hours: Lecture and laboratory course.  
Prerequisite: ELEC 218

Last Updated: Links 03/2011

CET 435 - VHDL & FPGA Design

Introduction to sensors and actuators, components of sensors; actuators, and data acquisitions systems; analog/digital signal conditioning and conversion; structures of various sensors including pressure, level, flow, temperature, heat, humidity, density, position, motion, sound, light, force and torque; structure of various actuators and controllers including regulator, power, and motors; RFID systems, signal transmission and control.

Credit Hours: 3 hrs  
Prerequisite: ET 100

Last Updated: New Course 5/2013, effective Winter 2014

CET 449 - Cloud Computing

The course covers the knowledge and understanding of the main cloud computing principles and concepts. Students will understand what cloud computing means form a business and technical perspective, as well as what is involved in moving to and
governing the cloud. The course will address the domains of CompTIA cloud Essentials as well as vitalization, security, disaster recovery, cloud architecture, managing, migrating, mobile cloud, designing cloud-based solutions, coding cloud-based applications, scalability, and cloud programming software programs. Practical projects are emphasized.

**Credit Hours:** 3 hrs  
**Prerequisite:** CET 353 or IA 344  
**Last Updated:** New Course 5/2013, effective Winter 2014

**CET 451 - Engineering Database Development**

This course covers the essentials of developing and implementing database system for engineering applications. The emphasis is given to the development of database applications for integrating product design, production analysis, manufacturing, process control, assembly, inventory control and other engineering functions. Practical examples of C3P that integrate CAD systems, CAM systems, FEA systems, SQC, etc. are presented. Several popular products data management systems such as Parametric Technology’s Windchill, EDS’s PLM (Product Lifecycle Management) and IBM’s PLM will be introduced.

**Credit Hours:** 3 hrs  
**Prerequisite:** IS 380  
**Last Updated:** Links 03/2011

**CET 453 - Engineering Programming**

Cover Java programming essentials with emphasis in the object-oriented programs for engineering applications. Emphasis will be given to the development of interface programs that allow popular engineering application software to be used in specific applications and the development of Web-based programs for engineering applications.

**Credit Hours:** 3 hrs  
**Prerequisite:** CET 353 and CET 451  
**Last Updated:** Links 03/2011

**CET 477 - Special Topics**

An exploration and study of topics not covered in other departmental offerings.

**Credit Hours:** 1 hr  
**Notes:** Students may elect more than once, provided different topics are studied.

**CET 478 - Special Topics**

An exploration and study of topics not covered in other departmental offerings.

**Credit Hours:** 2 hrs  
**Notes:** Students may elect more than once, provided different topics are studied.

**CET 479 - Special Topics**

An exploration and study of topics not covered in other departmental offerings.

**Credit Hours:** 3 hrs  
**Notes:** Students may elect more than once, provided different topics are studied.
CET 491 - Senior Design Capstone

A synthesis of all previous academic course work for the capstone activity for the computer engineering technology student; includes a proposal phase, development phase and final project. This course focuses on the effective teamwork strategies and the applications of computer software and hardware in engineering activities. Technical reports and presentations are required.

Credit Hours: 3 hrs
Prerequisite: ELEC 218, WRTG 324W and CET 353
Class Restrictions: Senior standing
Last Updated: Links 03/2011

CET 497 - Independent Study

Available to selected students who have demonstrated ability to profit from directed-study project. Intensive study of a problem appropriate to the student's area of concentration. Election and selection of a project proposal must be approved by the department adviser and chair.

Credit Hours: 1 hr
Prerequisite: department permission
Class Restrictions: Sophomore or Junior standing

CET 498 - Independent Study

Available to selected students who have demonstrated ability to profit from directed-study project. Intensive study of a problem appropriate to the student's area of concentration. Election and selection of a project proposal must be approved by the department adviser and chair.

Credit Hours: 2 hrs
Prerequisite: department permission
Class Restrictions: Junior or Senior standing

CET 499 - Independent Study

Available to selected students who have demonstrated ability to profit from directed-study project. Intensive study of a problem appropriate to the student's area of concentration. Election and selection of a project proposal must be approved by the department adviser and chair.

Credit Hours: 3 hrs
Prerequisite: department permission
Class Restrictions: Junior or Senior standing

Electronic Engineering Technology

ELEC 120 - Principles of Electrical Theory

This course presents an introduction to principles of electrical circuits and components using an applied approach which includes hands-on activity.

Credit Hours: 3 hrs
ELEC 177 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr
Prerequisite: department permission

ELEC 178 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs
Prerequisite: department permission

ELEC 179 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs
Prerequisite: department permission

ELEC 200 - Circuit Analysis I

A first course in the fundamentals of circuit analysis and design. Kirchoff’s and Ohm’s Laws. Thevenin and Norton network theorems, with primary emphasis on DC circuits. Electronic instruments, laboratory data collection and report writing are also emphasized. Simulation software is used for computer assisted learning.

Credit Hours: 3 hrs
Prerequisite: MATH 105/MATH 107
Last Updated: Links 04/2011

ELEC 210 - Circuit Analysis II

Second course in fundamental circuit analysis and design. Emphasis will be on steady state analysis and power in AC circuits. Laboratory data collection and report writing. Simulation software is used.

Credit Hours: 3 hrs
Prerequisite: ELEC 200
Last Updated: Links 04/2011

ELEC 214 - Digital Circuit Analysis I

The study of combinational and sequential circuits, logic families and design procedures. Simulation software is used for computer-assisted learning. Lab exercises with typical circuits data collection and report writing.

Credit Hours: 3 hrs
Prerequisite: ELEC 200
Last Updated: Links 04/2011
ELEC 215 - Computer-Aided Electronics

This course will introduce the student to the computers and software used for electronic circuit design and layout. CAD tools are used to develop block diagrams, electronic symbols, component representation, layout and assemblies.

Credit Hours: 3 hrs

ELEC 218 - Motors and Controls

The study of DC and AC motor theory, operation and control. Power, energy, efficiency and applications of motors and motor control circuitry are featured.

Credit Hours: 3 hrs
Prerequisite: ELEC 200
Last Updated: Links 04/2011

ELEC 219 - Techniques of Energy Control

An introduction to the use of tools, materials, machines, equipment, supplies, and mechanisms utilized in power mechanics for energy control. Lecture and laboratory course.

Credit Hours: 3 hrs

ELEC 277 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr
Prerequisite: department permission

ELEC 278 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs
Prerequisite: department permission

ELEC 279 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs
Prerequisite: department permission

ELEC 300 - Analog Circuit Analysis I
The study of the fundamentals of discrete solid state devices and linear integrated circuits. The concepts of instrumentation and control applications are included. Data collection and report writing are required.

**Credit Hours:** 3 hrs  
**Prerequisite:** ELEC 210  
**Corequisites:** MATH 120  
**Course Revisions:** effective Winter 2015, the following revisions will be made to this course, 1) Remove Coreq of MATH 120, Add prereq of ELEC 200

**Last Updated:** Course Revision 6/2014, effective Winter 2015; Links 04/2011,

**ELEC 310 - Analog Circuit Analysis II**

The continuation of analog circuit design and analysis, including operational amplifiers, filters and phase-locked-loops. Laboratory exercises, data collection and report writing are included; and simulation software is used for enhanced learning.

**Credit Hours:** 3 hrs  
**Prerequisite:** ELEC 300  
**Corequisites:** MATH 121  
**Course Revisions:** Remove Coreq of MATH 121, effective Winter 2015

**Last Updated:** Links 04/2011, Course Revision 6/2014, effective Winter 2015

**ELEC 314 - Digital Circuit Analysis II**

The continuation of digital circuit design and analysis. Laboratory exercises with circuitry interfaced to a personal computer and report writing. Simulation software is also used.

**Credit Hours:** 3 hrs  
**Prerequisite:** ELEC 214

**Last Updated:** Links 04/2011

**ELEC 320 - Microcomputer Circuits**

Circuit design and principles are considered, including address-control-data lines in microprocessors, memory and interfacing. Machines and other programming languages are used in laboratory exercises.

**Credit Hours:** 3 hrs  
**Prerequisite:** ELEC 214/ELEC 300  
**Corequisites:** COSC 111

**Last Updated:** Links 04/2011

**ELEC 326 - Transform Circuit Analysis with Calculus**

This course presents the fundamentals of transient circuit and system analysis with an emphasis on the Laplace transform and pole-zero approach for analyzing and interpreting problems.

**Credit Hours:** 3 hrs  
**Prerequisite:** ELEC 120 and MATH 120  
**Course Revisions:** effective Winter 2015, the following revisions will be made to this course, 1) Remove Prereq of ELEC 120, 2) add prereq ELEC 210
ELEC 377 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr
Prerequisite: department permission

ELEC 378 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs
Prerequisite: department permission

ELEC 379 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs
Prerequisite: department permission

ELEC 387 - Cooperative Education in Electronic Technology

An industrial experience in some facet of business or industry where the primary work emphasis is related to electronic engineering technology. During this period employee benefits may be received.

Credit Hours: 3 hrs
Prerequisite: department permission
Notes: Offered on a credit/no-credit basis.

ELEC 415 - Communication Circuits

The principles of communication circuits and systems are studied, including oscillators, amplifiers, modulation, antennas and transmission lines. Information theory, voice and data communications are considered also.

Credit Hours: 3 hrs
Prerequisite: ELEC 310
Corequisites: ELEC 314
Course Revisions: effective Winter 2015, the following revisions will be made to this course, 1) Remove coreq of ELEC 314

ELEC 420 - Advanced Microprocessors
Further study of microprocessors and interfacing applications. Use of personal computers as the platform for data collection, instrumentation and control applications.

**Credit Hours:** 3 hrs  
**Prerequisite:** ELEC 310, ELEC 314 and COSC 211  
**Course Revisions:** effective Winter 2015, the following revisions will be made to this course, 1) COSC 211 will be removed as a prerequisite, and 2) COSC 246 will be added as a prerequisite

*Last Updated*: Course Revision 6/2014, effective Winter 2015; Links 04/2011,

**ELEC 426 - Control Systems Engineering**

This course presents control system concepts including the skills needed to identify control systems models and their transfer functions. Simulation software will be used to illustrate mathematical procedures and provide computer solutions to practical problems.

**Credit Hours:** 3 hrs  
**Prerequisite:** ELEC 326  
**Class Restrictions:** Junior standing and above only  
**Course Revisions:** effective Winter 2015, the following revisions will be made to this course, 1) Add prereq of MATH 121

**ELEC 450 - Senior Design Project**

This course is intended to be the capstone activity for the student; includes a proposal phase, development phase and final project, using the skills learned throughout the program.

**Credit Hours:** 3 hrs  
**Prerequisite:** ELEC 420 and ELEC 415  
*Last Updated*: Links 04/2011

**ELEC 477 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 1 hr  
**Prerequisite:** department permission

**ELEC 478 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 2 hrs  
**Prerequisite:** department permission

**ELEC 479 - Special Topics**
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 3 hrs  
**Prerequisite:** department permission

### ELEC 487 - Cooperative Education in Electronic Technology

The second industrial experience for electronic technology majors. The students will be placed on a job that relates to their primary area of study, for one semester. Regular employee benefits may be received.

**Credit Hours:** 3 hrs  
**Prerequisite:** ELEC 387 and department permission  
**Notes:** Offered on a credit/no-credit basis.  
**Last Updated:** Links 04/2011

### ELEC 494 - Industry-Based Special Topics

Course descriptions are formulated at the time of an industry’s request and reflect the particular requirements of the client company.

**Credit Hours:** 1 hr  
**Notes:** Offered on a credit/no-credit basis

### ELEC 495 - Industry-Based Special Topics

Course descriptions are formulated at the time of an industry’s request and reflect the particular requirements of the client company.

**Credit Hours:** 2 hrs  
**Notes:** Offered on a credit/no-credit basis.

### ELEC 496 - Industry-Based Special Topics

Course descriptions are formulated at the time of an industry’s request and reflect the particular requirements of the client company.

**Credit Hours:** 3 hrs  
**Notes:** Offered on a credit/no-credit basis.

### ELEC 497 - Independent Study

Available to selected students who have demonstrated ability to profit from a directed-study project. Intensive study of a problem appropriate to the student’s area of concentration. Enrollment and selection of a project proposal must be approved by the department adviser and chair.

**Credit Hours:** 1 hrs  
**Prerequisite:** department permission

### ELEC 498 - Independent Study
Available to selected students who have demonstrated ability to profit from a directed-study project. Intensive study of a problem appropriate to the student’s area of concentration. Enrollment and selection of a project proposal must be approved by the department adviser and chair.

**Credit Hours:** 2 hrs  
**Prerequisite:** department permission

**ELEC 499 - Independent Study**

Available to selected students who have demonstrated ability to profit from a directed-study project. Intensive study of a problem appropriate to the student’s area of concentration. Enrollment and selection of a project proposal must be approved by the department adviser and chair.

**Credit Hours:** 3 hrs  
**Prerequisite:** department permission

**Engineering Technology**

**ET 100 - Introduction to Engineering Technology**

Introduction to the Engineering Technology profession by demonstrating and applying problem solving concepts from science and technology courses. Development of open-ended technological design projects which emphasize the communication skills. Supporting these activities is a structured syllabus that employs mathematical and physical reasoning towards the solution of fundamental engineering problems.

**Credit Hours:** 3 hrs  
**Concurrent Prerequisite:** MATH 104 or higher  
**Last Updated:** Credit Hour Change 02/2012, effective Fall 2012; Links 04/2011

**ET 101 - Introduction to Engineering Technology Computing**

Introduction to Engineering Technology Computing will cover the basics of Matlab and Excel. Data input, basic commands, predefined functions, plotting and simple programming as applied to engineering technology problems will be covered. Laboratory course.

**Credit Hours:** 1 hr  
**Concurrent Prerequisite:** MATH 104 or higher  
**Last Updated:** Links 04/2011

**ET 477 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 1 hr  
**Prerequisite:** department permission

**ET 478 - Special Topics**
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs  
Prerequisite: department permission

**ET 479 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs  
Prerequisite: department permission

**ET 497 - Independent Study**

Available to selected students who have demonstrated ability to profit from a directed-study project. Intensive study of a problem appropriate to the student’s area of concentration. Enrollment and selection of a project proposal must be approved by the department adviser and chair.

Credit Hours: 1 hr  
Prerequisite: department permission

**ET 498 - Independent Study**

Available to selected students who have demonstrated ability to profit from a directed-study project. Intensive study of a problem appropriate to the student’s area of concentration. Enrollment and selection of a project proposal must be approved by the department adviser and chair.

Credit Hours: 2 hrs  
Prerequisite: department permission

**ET 499 - Independent Study**

Available to selected students who have demonstrated ability to profit from a directed-study project. Intensive study of a problem appropriate to the student’s area of concentration. Enrollment and selection of a project proposal must be approved by the department adviser and chair.

Credit Hours: 3 hrs  
Prerequisite: department permission

**Manufacturing**

**MFG 103 - Introduction to Automation**

An introduction to the technology of discrete parts manufacturing. Topics include the contemporary manufacturing environment, new and emerging technologies, human-machine interfaces and human resource issues. Course includes field trips.

Credit Hours: 3 hrs  
Last Updated: 2/8/2011
MFG 124 - Manufacturing Processes and Methods II

An introduction and survey of machines, tools, processes and materials of industry. Includes conventional and nonconventional machining, theory of metal removal, cutting tool geometry and materials, fixturing and measuring devices. Lecture and laboratory course.

Credit Hours: 3 hrs
Prerequisite: MATH 107 or Level 4 math placement
Last Updated: Links 04/2011

MFG 140 - Science, Technology and People

This course will help people better understand the complementary relationship between science and technology in (a) creating technical devices, services and systems; and (b) solving problems.

Credit Hours: 3 hrs
Last Updated: 2/8/2011

MFG 177 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr
Prerequisite: department permission
Last Updated: 2/8/2011

MFG 178 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs
Prerequisite: department permission
Last Updated: 2/8/2011

MFG 179 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs
Prerequisite: department permission
Last Updated: 2/8/2011

MFG 215 - Machine Tool Metalworking

Machine tools and metalworking processes including turning, drilling, shaping, milling and grinding. Principles of tooling, precision measurement and identification of metals. Lecture and laboratory course.
MFG 251 - Material Analysis and Testing

Study of the structure, characteristics, and working qualities of common industrial materials. Lecture and laboratory course.

Credit Hours: 3 hrs  
Last Updated: 2/8/2011

MFG 277 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr  
Prerequisite: department permission  
Last Updated: 2/9/2011

MFG 278 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs  
Prerequisite: department permission  
Last Updated: 2/9/2011

MFG 279 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs  
Prerequisite: department permission  
Last Updated: 2/9/2011

MFG 306 - Plastic Processing

A study of high polymers, basic resin types, and their application to molding and fabrication process. Analysis of chemical and physical properties, mold design, and problems of production. Experimentation and testing required. Lecture and laboratory course.

Credit Hours: 3 hrs  
Prerequisite: PDD 111  
Last Updated: Links 05/2011

MFG 318 - Fluid Power

Industrial hydraulic and pneumatic power transmission. Emphasis is on components, system control techniques, logic, system analysis and design. Lecture and laboratory course.
MFG 361 - Computer Numerical Control

NC programming for both CNC mill and lathe. The transfer of part descriptions into a detailed process plan, tool selection, and finally into NC machine codes. Computer-assisted programming, APT, and CAD/CAM for 2-D machining is emphasized. Verification is accomplished by laboratory work.

Credit Hours: 3 hrs
Prerequisite: PHY 221
Last Updated: Links 04/2011

MFG 377 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr
Prerequisite: department permission
Last Updated: 2/9/2011

MFG 378 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs
Prerequisite: department permission
Last Updated: 2/9/2011

MFG 379 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs
Prerequisite: department permission
Last Updated: 2/9/2011

MFG 411 - Plastics Fabricating and Decorating

Processes involved in forming and fastening of standard profile materials in plastics. Methods of joining, machining and decorating of plastics materials and products are required. Lecture and laboratory course.

Credit Hours: 3 hrs
Prerequisite: MFG 306
Last Updated: Links 04/2011
MFG 421 - Manufacturing Engineering Analysis

An advanced course in the analysis of manufacturing operations, utilizing current and new concepts and methods of manufacturing engineering and quality. Students from various programs will work together in integrated teams and utilize complementary tools and skills to identify and solve problems. Lecture and laboratory course.

Credit Hours: 3 hrs
Prerequisite: PDD 316
Last Updated: Links 05/2011

MFG 425 - Advanced Manufacturing Methods

The course emphasizes computerized methods of planning, material handling, machining cells and inspection. Lecture and laboratory course.

Credit Hours: 3 hrs
Prerequisite: MFG 103, MFG 124, PDD 203, ELEC 218 and PDD 123
Last Updated: Links 04/2011

MFG 477 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr
Prerequisite: department permission
Last Updated: 2/9/2011

MFG 478 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs
Prerequisite: department permission
Last Updated: 2/9/2011

MFG 479 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs
Prerequisite: department permission
Last Updated: 2/9/2011

MFG 494 - Industry-Based Special Topics

Course descriptions are formulated at the time of an industry’s request and reflect the particular requirements of the client company.
MFG 495 - Industry-Based Special Topics

Course descriptions are formulated at the time of an industry’s request and reflect the particular requirements of the client company.

Credit Hours: 2 hrs
Notes: Offered on a credit/no-credit basis.
Last Updated: 2/9/2011

MFG 496 - Industry-Based Special Topics

Course descriptions are formulated at the time of an industry’s request and reflect the particular requirements of the client company.

Credit Hours: 3 hrs
Notes: Offered on a credit/no-credit basis.
Last Updated: 2/9/2011

MFG 497 - Independent Study

Available to selected students who have demonstrated ability to profit from a directed-study project. Intensive study of a problem appropriate to the student’s area of concentration. Enrollment and selection of a project proposal must be approved by the department adviser and chair.

Credit Hours: 1 hr
Prerequisite: department permission
Last Updated: 2/9/2011

MFG 498 - Independent Study

Available to selected students who have demonstrated ability to profit from a directed-study project. Intensive study of a problem appropriate to the student’s area of concentration. Enrollment and selection of a project proposal must be approved by the department adviser and chair.

Credit Hours: 2 hrs
Prerequisite: department permission
Last Updated: 2/9/2011

MFG 499 - Independent Study

Available to selected students who have demonstrated ability to profit from a directed-study project. Intensive study of a problem appropriate to the student’s area of concentration. Enrollment and selection of a project proposal must be approved by the department adviser and chair.

Credit Hours: 3 hrs
Prerequisite: department permission
Last Updated: 2/9/2011
Mechanical Engineering Technology

MET 211 - Statics

This course is an applied and analytical study of structural components in static equilibrium with emphasis on engineering applications. Topics include force resultants, moments, trusses, frames, centroids and moments of inertia.

Credit Hours: 3 hrs
Prerequisite: (MATH 120 or MATH 140) and (a C- or better in PHY 221 or PHY 223)
Major Restrictions: Mechanical Engineering Technology Major
Last Updated: Major Restriction Added 3/2014, effective Fall 2014; Prerequisite Change 11/2011, effective Winter 2012; Links 04/2011

MET 223 - Descriptive Geometry

Students will develop the graphical procedures for working with points, lines, planes and solids in space and in relation to other points, lines, planes and solids. Intersections and developments of these geometric features will be performed.

Credit Hours: 2 hrs
Lecture/Lab Hours: Lecture and laboratory course
Prerequisite: MATH 107 and PDD 122
Last Updated: Links 04/2011

MET 312 - Applied Dynamics Principles

Fundamentals of the kinematics and kinetics of motion with emphasis on practical applications of engineering systems. Theory and application of Newton's Laws of Motion, displacement, velocity, acceleration, rectilinear and curvilinear motion, power, impulse and momentum.

Credit Hours: 3 hrs
Prerequisite: MET 211 and (a C- or better in PHY 221 or PHY 223)
Class Restrictions: Sophomore standing
Major Restrictions: Mechanical Engineering Technology Major
Last Updated: Major Restriction added 3/2014, effective Fall 2014; Prerequisite revision 7/2012; Prerequisite Change 11/2011, effective Winter 2012; Links 04/2011

MET 313 - Applied Mechanics of Materials

Analysis and design of structural members subjected to external forces, considering stress, strain and deformation of elastic solids. Study of tension, compression, shear, torsion and combined stress. Emphasis on the practical application of these concepts to the analysis of beams, columns, pressure vessels and machine members. Lecture and laboratory course.

Credit Hours: 3 hrs
Prerequisite: MET 211 and (a C- or better in PHY 221 or PHY 223)
Class Restrictions: Sophomore standing
Major Restrictions: Mechanical Engineering Technology Major
Last Updated: Major Restriction added 3/2014, effective Fall 2014; Prerequisite revision 7/2012; Prerequisite Change 11/2011, effective Winter 2012; Links 04/2011

MET 314 - Applied Thermodynamics and Heat Transfer
Applications of the first and second laws of thermodynamics. Study of thermodynamics steam and refrigeration cycles. Availability and conservation of energy. Power and efficiency. Introduction heat transfer by conduction, convection and radiation. Fundamental laws governing the transformation of heat into mechanical energy with emphasis on practical applications of engineering systems. Lecture and laboratory course.

Credit Hours: 3 hrs
Prerequisite: (MATH 120 or MATH 140) and (a C- or better in PHY 221 or PHY 223)
Class Restrictions: Sophomore standing
Major Restrictions: Mechanical Engineering Technology Major
Last Updated: Major restriction added 3/2014, effective Fall 2014; Prerequisite Revision 7/2012; Prerequisite Change 11/2011, effective Winter 2012; Links 04/2011

MET 316 - Design for Manufacturing and Tooling

A study of manufacturing tooling systems integrated with product and process design principles, utilizing concurrent engineering methods. Students from various programs will work together in integrated teams and utilize complementary tools and skills to solve design problems. Lecture and laboratory course.

Credit Hours: 3 hrs
Prerequisite: PDD 122 and PDD 123
Class Restrictions: Sophomore standing
Major Restrictions: Mechanical Engineering Technology Major
Last Updated: Major restriction added 3/2014, effective Fall 2014; Links 04/2011

MET 319 - Fluid Mechanics

An analytical study of fluids under all conditions of rest and motion. The emphasis is on physical concepts rather than mathematical manipulation. Topics include fluid statics, kinematics of fluid motion, incompressible and compressible flow, impulse momentum principle, fluid flow in pipes and open channels, and fluid measurement. Lecture and Laboratory course.

Credit Hours: 3 hrs
Prerequisite: MET 211, and (a C- or better in PHY 221 or PHY 223)
Class Restrictions: Sophomore standing
Major Restrictions: Mechanical Engineering Technology Major
Last Updated: Major restriction added 3/2014, effective Fall 2014; Prerequisite revision 7/2012; Prerequisite Change 11/2011, effective Winter 2012; Links 04/2011

MET 387 - Cooperative Education in Mechanical Engineering Technology

Mechanical Engineering Technology majors will be placed in a job that relates to their primary area of study, for one semester. During this period regular employee benefits may be received.

Credit Hours: 3 hrs
Major Restrictions: Mechanical Engineering Technology Major
Notes: Offered on a credit/no-credit basis.
Last Updated: Major Restriction added 3/2014, effective Fall 2014

MET 411 - Mechanical/Machine Design

A study of the decision-making processes which mechanical engineers use in the formulation of plans for the physical realization of machines, devices, and systems. Topics include the phases of design, codes and standards, stress analysis, failure criteria, design for fatigue strength and the design of mechanical elements.
Credit Hours: 3 hrs  
Prerequisite: PDD 123, MET 312 and MET 313  
Class Restrictions: Junior standing  
Major Restrictions: Mechanical Engineering Technology Major  
Last Updated: Major Restriction added 3/2014, effective Fall 2014; Links 04/2011

**MET 437 - Kinematics of Machines**

Static, kinematic and dynamic analysis of plane motion. A study of instantaneous centers, velocities, accelerations and forces in mechanisms and machine elements. Development and analysis by analytical and graphical methods.

Credit Hours: 3 hrs  
Prerequisite: MET 313 and MET 312  
Major Restrictions: Mechanical Engineering Technology Major  
Last Updated: Major restriction added 3/2014, effective Fall 2014; Links 04/2011

**MET 470 - Mechanical Vibrations**

Time and frequency domain mathematical techniques for linear system vibrations, equations of motion of discrete systems, undamped systems response, viscously damped systems, forced response and base excitation are some of the topics that will be covered. Matlab will be used extensively to solve equations of motion and to plot the response.

Credit Hours: 3 hrs  
Prerequisite: MET 312, MATH 121 or MATH 141, and CET 151  
Major Restrictions: Mechanical Engineering Technology Major  
Last Updated: Major restriction added 3/2014, effective Fall 2014; Change to Description, Credit Hours and Prerequisites 11/2013, effective Summer 2014; Links 04/2011

**MET 492 - Senior Design Projects I**

The first term of a two-term, comprehensive, capstone, open-ended design project. Establishment and development of the design process with special emphasis placed on teamwork towards the initial design proposal — written and oral.

Credit Hours: 3 hrs  
Prerequisite: SET 350W  
Concurrent Prerequisite: MET 437  
Class Restrictions: Senior standing  
Major Restrictions: Mechanical Engineering Technology Major  
Last Updated: Major restriction added 3/2014, effective Fall 2014; Prerequisite Change 11/2011, effective Winter 2012; Links 04/2011

**MET 493 - Senior Design Projects II**

The concluding term of a two-term, comprehensive, capstone, open-ended design project. Generation and conclusive development of the final design with consideration for design reviews, prototype requirements, scheduling, ergonomics, safety and economic constraints. A written report and oral defense of the project is required.

Credit Hours: 3 hrs  
Prerequisite: MET 492  
Major Restrictions: Mechanical Engineering Technology Major  
Last Updated: Major restriction added 3/2014, effective Fall 2014; Links 04/2011
Polymers and Coatings

**PC 185 - World of the Super Small**

This course acquaints students with nanotechnology phenomena in basic science and engineering disciplines. The material presented broadly illustrates the diversity of nanoscale phenomena and how these phenomena impact our daily lives. A prime objective is to inseminate the ability to discuss and understand basic aspects of interesting "nano" phenomena.

**Credit Hours:** 3 hrs

**PC 203 - Miniaturization in Technology**

Miniaturization as a scientific, sociological or economic driver in the evolution of technology is examined. this specialized history course focuses on technology development from the 19th through 21st centuries and illustrates how various industrial and consumer products and manufacturing processes have led to the current focus on nanotechnology.

**Credit Hours:** 3 hrs

**PC 260 - Introduction to Coatings Science and Technology**

The course is designed for the science and engineering undergraduates who want to gain basic understanding about the coatings. Coatings are used in myriad applications such as buildings, automobiles, industrial products, construction, electronics, etc. and fundamental knowledge of this interdisciplinary field is very useful to the future scientists and engineers.

**Credit Hours:** 3 hrs
**Prerequisite:** CHEM 123, CHEM 124 and PHY 222
**Class Restrictions:** Sophomore, Junior or Senior standing
**Last Updated:** Links 04/2011

**PC 310 - Polymers for Engineers and Technologists**

Introduction to polymer science, polymerization, polymer modifications, size and weight of polymer molecules, plastics, adhesives, silicones, foams, surface coatings, fibers, elastomers, transitions and relaxations in polymers, rheology, polymer fabrication techniques.

**Credit Hours:** 3 hrs
**Prerequisite:** CHEM 123 and CHEM 124 or department permission
**Last Updated:** Links 04/2011

**PC 377 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 1 hr
**Prerequisite:** Department permission
**Last Updated:** Links 04/2011

**PC 378 - Special Topics**
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**PC 379 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 3 hrs  
**Prerequisite:** Department permission  
**Last Updated:** Links 04/2011

**PC 387 - Cooperative Education in Interdisciplinary Technology**

A minimum of three to four months of full-time employment in a business or industry that provides experiences directly related to the major area of study. Work sites must be approved in advance by the Interdisciplinary Technology Department. Regular employee benefits may be received during the employment period.

**Credit Hours:** 3 hrs  
**Prerequisite:** Department permission  
**Last Updated:** Links 04/2011

**PC 400 - Polymers and Coatings Technology I**

Introduction to synthesis, film formation, structure, and properties of polymers commonly used in coatings. Polymer systems to be covered include acrylic, vinyls, polyesters, alkyds, oils, epoxies, epoxyesters, aminoplasts, urethanes, phenolics, hydrocarbons, cellulosics.

**Credit Hours:** 3 hrs  
**Prerequisite:** CHEM 371 and CHEM 372  
**Last Updated:** Links 04/2011

**PC 401 - Polymers and Coatings Technology I Laboratory**

Synthesis, characterization and identification of polymers used in coatings. The synthesis of solution acrylic, vinyl, acrylic emulsion, polyester, alkyd, epoxyester, melamine formaldehyde and urethane polymers with extensive use of physical techniques such as GIRT, GP and calorimetry.

**Credit Hours:** 3 hrs  
**Corequisites:** PC 400  
**Last Updated:** Links 04/2011

**PC 402 - Polymers and Coatings Technology II**

Formulation in oil-based and waterborne coatings covering the use of solvents, pigments and additives. Principles of adhesion and corrosion, and the use of conversion coatings. Safety, health, government regulations and paint production techniques.
PC 403 - Polymers and Coatings Technology II Laboratory

Practical formulation in oil-based and waterborne systems including the preparation and evaluation of various topcoats and primers currently used in the coatings industry (e.g., oil-based air-dry enamel, thermosetting coating, epoxyester primer, two-package urethane, acrylic latex and ED primer).

Credit Hours: 3 hrs
Prerequisite: PC 400
Last Updated: Links 04/2011

PC 404 - Coatings Raw Materials

Coating industry is raw material intensive. Understanding of properties of coatings, their optimization and trouble shooting requires thorough knowledge about the raw materials used in coatings. This course provides basic understanding of chemistry and technology of different classes of raw materials used in formulations of coatings.

Credit Hours: 3 hrs
Prerequisite: CHEM 123 and CHEM 124
Class Restrictions: Sophomore, Junior or Senior standing
Last Updated: Links 04/2011

PC 405 - Coating Processes I

Development of expertise in industrial coating processes. Substrate preparation, principles of adhesion, corrosion control, industrial coating materials, industrial coating systems and regulatory compliance in the coatings industry.

Credit Hours: 3 hrs
Prerequisite: PC 310 or PC 400 or department permission
Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.
Last Updated: Graduate Credit 07/2011; Links 04/2011

PC 406 - Colloids and Interfaces

The basics of surface and interfacial physical chemistry are presented and tied to the important elements of coating and dispersions technology. Surface tension, capillarity, thermodynamics, surface films on liquids, contact angles, wetting, detergency, friction, lubrication, electrical double layer, stabilization, comminution, dispersions, and emulsions are the main topics covered.

Credit Hours: 3 hrs
Prerequisite: CHEM 361 or department permission
Last Updated: Links 04/2011

PC 407 - Coating Processes II

Process and equipment for coatings application, economic analysis of coating operations, paint defects and line design for productivity and energy conservation.
PC 408 - Patent Drafting and Prosecution

Elementary patent law, efficient methods of reviewing patents, careers in the patenting arena and learning technology from patent publications are discussed and illustrated. Technical writing skills for drafting patent applications and for partnering with patent attorneys in prosecuting patent applications are developed in homework and in-class workshop exercises.

Credit Hours: 3 hrs
Prerequisite: PC 405 or department permission
Last Updated: Links 04/2011

PC 416 - Water-Based Coatings

A course to present the technology involved in preparing and utilizing water-based coatings (solvent-based, powder and others) are presented. The requirements for polymers and other ingredients of water-based coatings formulations are taught.

Credit Hours: 3 hrs
Prerequisite: PC 310
Corequisites: PC 400
Last Updated: Links 04/2011

PC 460 - Advanced Coatings Topics

Development of in-depth formulating skills; new technology areas in coatings and polymers.

Credit Hours: 3 hrs
Prerequisite: PC 402, PC 403 or department permission
Last Updated: Links 04/2011

PC 477 - Special Topics

An examination of topics in interdisciplinary technology not covered in other departmental offerings. Students may elect these courses more than once, provided different topics are studied.

Credit Hours: 1 hr
Prerequisite: Department permission
Last Updated: Links 04/2011

PC 478 - Special Topics

An examination of topics in interdisciplinary technology not covered in other departmental offerings. Students may elect these courses more than once, provided different topics are studied.

Credit Hours: 2 hrs
Prerequisite: Department permission
Last Updated: Links 04/2011

PC 479 - Special Topics
An examination of topics in interdisciplinary technology not covered in other departmental offerings. Students may elect these courses more than once, provided different topics are studied.

**Credit Hours:** 3 hrs  
**Prerequisite:** Department permission  
**Last Updated:** Links 04/2011

**PC 487 - Cooperative Education in Interdisciplinary Technology**

A minimum of three to four months of full-time employment in a business or industry that provides experiences directly related to the major area of study. Work sites must be approved in advance by the Interdisciplinary Technology Department. Regular employee benefits may be received during the employment period.

**Credit Hours:** 3 hrs  
**Prerequisite:** Department permission  
**Last Updated:** Links 04/2011

**PC 497 - Independent Study**

Individual work in some area of interdisciplinary technology under the direction of a faculty member. Preliminary draft of proposed study must be approved by the department prior to enrollment. May be selected more than once, after resubmission and approval.

**Credit Hours:** 1 hr  
**Prerequisite:** Department permission  
**Last Updated:** Links 04/2011

**PC 498 - Independent Study**

Individual work in some area of interdisciplinary technology under the direction of a faculty member. Preliminary draft of proposed study must be approved by the department prior to enrollment. May be selected more than once, after resubmission and approval.

**Credit Hours:** 2 hrs  
**Prerequisite:** Department permission  
**Last Updated:** Links 04/2011

**PC 499 - Independent Study**

Individual work in some area of interdisciplinary technology under the direction of a faculty member. Preliminary draft of proposed study must be approved by the department prior to enrollment. May be selected more than once, after resubmission and approval.

**Credit Hours:** 3 hrs  
**Prerequisite:** Department permission  
**Last Updated:** Links 04/2011

**Product Design and Development**

**PDD 101 - Introduction to Industrial Drawing**
An introductory mechanical drawing course emphasizing lettering, measuring, geometric construction, sketching, equipment usage, pictorials, orthographic projection and dimensioning. This course is intended for students without previous drafting experience.

Credit Hours: 3 hrs  
Lecture/Lab Hours: Lecture and laboratory course.  
Notes: This course does not count toward a CAD/CAM major.  
Previously Listed As: CADM 101  
Last Updated: Links 04/2011

**PDD 111 - Materials**

This course introduces students to the major categories of engineering materials. It focuses on selection, failure and degradation of metals, polymers, ceramics and composites.

Credit Hours: 3 hrs  
Concurrent Prerequisite: MATH 104 or higher math course  
Previously Listed As: MFG 111  
Last Updated: Change to prerequisites 3/2014, effective Fall 2014; Links 04/2011

**PDD 122 - Engineering Graphics**

An introductory product design course emphasizing the creation and documentation of drawings using software application packages. Some of the units of instruction include orthographic projection, dimensioning, threads, fasteners, tolerancing, gears, cams, sheet metal and weldments. The students in this course will be required to design simple mechanisms throughout the course.

Credit Hours: 4 hrs  
Lecture/Lab Hours: Lecture and laboratory course.  
Prerequisite: PDD 101 or one year of high school drafting  
Previously Listed As: CADM 122  
Last Updated: Links 04/2011

**PDD 123 - Manufacturing Processes**

An introduction and survey of manufacturing process and materials. Lecture, laboratory, and outside study assignments are an essential part of this course and are related to heat training, properties of materials, casting, forming, joining, survey of machines, tools, conventional and non-traditional machining, theory of metal removal, cutting tool geometry and materials, fixturing and measuring devices.

Credit Hours: 4 hrs  
Previously Listed As: MFG 123  
Last Updated: Links 04/2011

**PDD 156 - Teamwork in Product Design and Development**

An introduction to the formation and use of teams and the structures and tools utilized in the product design and development process. The course includes skills needed by individuals in order to be a part of a successful product design and development team.

Credit Hours: 3 hrs
PDD 157 - Introduction to Product Design

Presents an in-depth study of structured product design processes and methods. Methods discussed include experiences with hands-on products, applications of contemporary technologies, realistic applications of mathematics and scientific principles, studies of systematic experimentation, exploration of the design methodology and decision making for real product development.

Credit Hours: 3 hrs

PDD 203 - Industrial Operations

A survey course in the practices of manufacturing organizations. Units include careers, regulatory agencies, facilities management, group technology, problem solving and quality decision-making.

Credit Hours: 3 hrs
Previously Listed As: MFG 203
Last Updated: Subject Code Change 08/2011, effective Fall 2011

PDD 212 - Molding Materials and Processes

A study of molded products: material properties and identification, processing techniques, and application of design to product manufacture. Lecture and laboratory course.

Credit Hours: 3 hrs
Prerequisite: PDD 111 and PDD 123
Previously Listed As: MFG 112
Last Updated: Links 04/2011

PDD 220 - Geometric Dimensioning and Tolerancing

Introduction to metrology and geometric dimensioning and tolerancing concepts. Practical applications of metrology including geometric dimensioning and tolerancing will be focused on through lecture and laboratory experiences.

Credit Hours: 3 hrs
Prerequisite: PDD 122 and PDD 123
Previously Listed As: MFG 290
Last Updated: Links 04/2011

PDD 224 - 3-D Solid Modeling

Examination and production of engineering designs/drawings using 3-D solid and wireframe techniques. Software generation of drawings, models and assemblies, including exploration of file formats and transfers. Class files utilized to construct physical prototypes using rapid prototyping equipment as an output device. Models can be used for testing and visualization.

Credit Hours: 3 hrs
Prerequisite: PDD 122 and PDD 123
Previously Listed As: CADM 324
Last Updated: Links 04/2011

PDD 309 - Molded Product Design
Principles of mold design for a variety of molded products. Topics include gating, venting, risering, parting, ejection, mold materials, machining, fabricating and testing. Lecture and laboratory course.

**Credit Hours:** 3 hrs  
**Prerequisite:** PDD 156, PDD 157, PDD 212, PDD 220 and PDD 224  
**Previously Listed As:** MFG 409  
**Last Updated:** Links 04/2011

**PDD 310 - Formed Product Design**

Principles of tooling design for a variety of formed products. Topics include tooling for thermoforming, blow molding, stamping, hydroforming and other forming processes. Lecture and laboratory course.

**Credit Hours:** 3 hrs  
**Prerequisite:** PDD 156, PDD 157, PDD 212, PDD 220, PDD 224  
**Previously Listed As:** MFG 410  
**Last Updated:** Links 04/2011

**PDD 311 - Engineering Intellectual Property**

Introduction to intellectual property as related to the field of engineering. Topics include patents, copyrights, trademarks, trade secrets and intellectual property licensing.

**Credit Hours:** 3 hrs  
**Class Restrictions:** Sophomore standing or higher  
**Previously Listed As:** MFG 311  
**Last Updated:** Links 04/2011; Subject Code/Prerequisite/Restriction Change 08/2011, effective Fall 2011

**PDD 316 - Concept Development Studio**

A course in the generation, selection and testing of new and revised product concepts. Converting customer needs and specification into a set of product concepts from which the product development team will make a final selection. Includes the methods, processes and procedures for making sound decisions in a cross functional product team environment.

**Credit Hours:** 3 hrs  
**Prerequisite:** ARTS 122, PDD 156, PDD 157, PDD 220 and PDD 224  
**Previously Listed As:** MFG 316  
**Last Updated:** Links 04/2011

**PDD 325 - Applied Statics and Strength of Materials**

Students will understand the fundamentals of statics of mechanical body and system. This course is the study of elementary, analytical and practical approaches to the principles of physical concepts of static and strength materials.

**Credit Hours:** 4 hrs  
**Lecture/Lab Hours:** Lecture and laboratory course  
**Prerequisite:** PHY 221  
**Previously Listed As:** CADM 325  
**Last Updated:** Links 04/2011

**PDD 327 - Engineering Project Management**
A study of project management activities associated with design and manufacturing engineering. Topics include project management concepts, methodologies, planning, budgeting, scheduling, evaluation, communication and implementation.

**Credit Hours:** 3 hrs  
**Class Restrictions:** Sophomore standing or higher  
**Previously Listed As:** MFG 327  
**Last Updated:** Links 04/2011; Subject Code/Prerequisite/Restriction Change 08/2011, effective Fall 2011

**PDD 331 - Product Design Data Management**

Students develop an interactive CAD software package. Principles of software design, the use of graphics hardware and the generating, modifying, and transforming of CAD entities and databases are included.

**Credit Hours:** 3 hrs  
**Lecture/Lab Hours:** Lecture and laboratory course  
**Prerequisite:** PDD 224  
**Previously Listed As:** CADM 331  
**Last Updated:** Links 04/2011

**PDD 340 - Engineering Ethics**

Study of professional moral frameworks and applications in the engineering profession. Real and theoretical cases in addition to codes of ethics from numerous professional engineering organizations will be examined.

**Credit Hours:** 3 hrs  
**Class Restrictions:** Junior standing or higher only  
**Previously Listed As:** EM 340  
**Last Updated:** Course Revision 05/2012, effective Fall 2012; Links 04/2011

**PDD 350 - Prototyping**

An introduction into the purpose, planning, construction and testing of prototypes and their application to the product design and development process. Topics include: prototyping types and uses, principles, technologies, plans and reverse engineering.

**Credit Hours:** 3 hrs  
**Lecture/Lab Hours:** Lecture and Laboratory Course  
**Prerequisite:** PDD 316  
**Last Updated:** Links 04/2011

**PDD 380 - Engineering Cost Estimating**

**Credit Hours:** 3 hrs  
**Prerequisite:** PDD 203 or PDD 309, PDD 310 and QUAL 320  
**Previously Listed As:** MFG 380  
**Last Updated:** Links 04/2011

**PDD 387 - Cooperative Education in Product Design**
Industrial technology majors will be placed on a job that relates to their primary area of study, for one semester. During this period regular employee benefits may be received.

**Credit Hours:** 3 hrs  
**Prerequisite:** Department permission  
**Major Restrictions:** Industrial technology or Industrial Teacher Education Majors only  
**Notes:** Offered on a credit/no-credit basis.  
**Previously Listed As:** MFG 387  
**Last Updated:** 02/2011

**PDD 432 - 3-D Modeling and Surfacing Techniques**

Students learn and practice surface modeling techniques using a 3-D CAD surface modeling software application package and measurement data. Free form surface modeling techniques and scanned or digitized point data will be created to produce high-quality surface models.

**Credit Hours:** 3 hrs  
**Lecture/Lab Hours:** Lecture and laboratory course  
**Prerequisite:** PDD 309, PDD 310 and PDD 350  
**Previously Listed As:** CADM 432  
**Last Updated:** Links 04/2011

**PDD 433 - Advanced Tool Development**

This course will introduce students to the generation of tool paths for 2.5 and 3-axis milling and drilling application. This class, as a continuation of modeling, adds knowledge and experience related to product design, assembly modeling, master model concepts and basic NX CAM functionality.

**Credit Hours:** 3 hrs  
**Prerequisite:** PDD 309, PDD 310 and PDD 350  
**Previously Listed As:** CADM 433  
**Last Updated:** Links 04/2011

**PDD 435 - Finite Element Analysis**

Finite element analysis (FEA) is a powerful tool used by industries to solve many engineering problems. Basic concepts of this technique will be introduced and the students will have hands-on experience to analyze truss, beam, stress and strain problems by using FEA software packages.

**Credit Hours:** 3 hrs  
**Prerequisite:** PDD 325 or MET 313  
**Previously Listed As:** CADM 435  
**Last Updated:** Links 04/2011

**PDD 450 - Lean Enterprise**

Overview of lean philosophy and lean practices. Application of lean practices in manufacturing and service industries. Topics include by are not limited to standardized work, muda, kanban, 5S, jidoka, value stream mapping, JIT and Hoshin planning.

**Credit Hours:** 3 hrs  
**Class Restrictions:** Sophomore standing or higher
PDD 470 - Integrated Product and Process Design

This course investigates the integration of product and process design methodologies. It is intended for anyone involved in product design, manufacturing engineering, process engineering, or manufacturing management. The course investigates design for manufacture and assembly, quality function deployment, value analysis, failure mode and effects analysis, error/mistake proofing, team dynamics and design of experiments.

Credit Hours: 3 hrs
Class Restrictions: Sophomore standing or higher
Previously Listed As: MFG 470
Last Updated: Links 04/2011; Subject Code/Prerequisite/Restriction Change 08/2011, effective Fall 2011

PDD 487 - Cooperative Education in Manufacturing Technology

The second in a two-course sequence for industrial technology majors. The students will be placed on a job that relates to their primary area of study, for one semester. Regular employee benefits may be received.

Credit Hours: 3 hrs
Prerequisite: PDD 387 and department permission
Notes: Graded on a credit/no-credit basis
Last Updated: Links 04/2011

PDD 491 - Computer-Aided Design Studio

The design studio will focus on the design and development of products in a teamwork environment using CAD/CAE tools. This is a comprehensive, capstone design project class for senior Product and Design Development majors.

Credit Hours: 3 hrs
Prerequisite: PDD 435, PDD 432 and PDD 433
Previously Listed As: CADM 491
Last Updated: Links 04/2011

PDD 492 - Product Realization Studio

This design studio will focus on the design and development of a product and the production system and enterprise for its manufacture. Students will work together in integrated teams and utilize complementary tools and skills to solve design, planning and production problems.

Credit Hours: 3 hrs
Prerequisite: PDD 380 or MFG 421
Previously Listed As: MFG 490
Last Updated: Links 04/2011

Quality Technology

QUAL 177 - Special Topics
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 1 hr  
**Prerequisite:** Department permission  
**Last Updated:** Links 04/2011

**QUAL 178 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 2 hrs  
**Prerequisite:** Department permission  
**Last Updated:** Links 04/2011

**QUAL 179 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 3 hrs  
**Prerequisite:** Department permission  
**Last Updated:** Links 04/2011

**QUAL 277 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 1 hr  
**Prerequisite:** Department permission  
**Last Updated:** Links 04/2011

**QUAL 278 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 2 hrs  
**Prerequisite:** Department permission  
**Last Updated:** Links 04/2011

**QUAL 279 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 3 hrs  
**Prerequisite:** Department permission  
**Last Updated:** Links 04/2011
QUAL 320 - Industrial Quality Control

An introduction to quality control systems and methods utilized in industry. Topics include quality policy and organization, data collection, and reporting, control charts, process and gauge capability, sampling plans, reliability, cost of quality, product liability and problem analysis.

Credit Hours: 3 hrs  
Prerequisite: College Algebra or equivalent

QUAL 377 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr  
Prerequisite: Department permission  
Last Updated: Links 04/2011

QUAL 378 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hr  
Prerequisite: Department permission  
Last Updated: Links 04/2011

QUAL 379 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs  
Prerequisite: Department permission  
Last Updated: Links 04/2011

QUAL 387 - Cooperative Education in Quality Technology

Industrial technology majors will be placed on a job that relates to their primary area of study, for one semester. During this period regular employee benefits may be received.

Credit Hours: 3 hrs  
Prerequisite: Department permission  
Major Restrictions: Credit applicable to Industrial Technology Majors and Industrial Teacher Education Majors only  
Notes: Offered on a credit/no-credit basis.  
Last Updated: Links 04/2011

QUAL 377 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.
QUAL 478 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

QUAL 479 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

QUAL 487 - Cooperative Education in Quality Technology

The second in a two-course sequence for industrial technology majors. The students will be placed on a job that relates to their primary area of study for one semester. Regular employee benefits may be received.

QUAL 494 - Industry-Based Special Topics

Course descriptions are formulated at the time of an industry’s request and reflect the particular requirements of the client company.

QUAL 495 - Industry-Based Special Topics

Course descriptions are formulated at the time of an industry’s request and reflect the particular requirements of the client company.

QUAL 496 - Industry-Based Special Topics
Course descriptions are formulated at the time of an industry’s request and reflect the particular requirements of the client company.

**Credit Hours:** 3 hrs  
**Notes:** Offered on a credit/no-credit basis

**QUAL 497 - Independent Study**

Available to selected students who have demonstrated ability to profit from a directed-study project. Intensive study of a problem appropriate to the student’s area of concentration. Enrollment and selection of a project proposal must be approved by the department adviser and chair.

**Credit Hours:** 1 hr  
**Prerequisite:** Department permission  
**Last Updated:** Links 04/2011

**QUAL 498 - Independent Study**

Available to selected students who have demonstrated ability to profit from a directed-study project. Intensive study of a problem appropriate to the student’s area of concentration. Enrollment and selection of a project proposal must be approved by the department adviser and chair.

**Credit Hours:** 2 hrs  
**Prerequisite:** Department permission  
**Last Updated:** Links 04/2011

**QUAL 499 - Independent Study**

Available to selected students who have demonstrated ability to profit from a directed-study project. Intensive study of a problem appropriate to the student’s area of concentration. Enrollment and selection of a project proposal must be approved by the department adviser and chair.

**Credit Hours:** 3 hrs  
**Prerequisite:** Department permission  
**Last Updated:** Links 04/2011

**School of Engineering Technology**

**SET 102 - World Wide Production: Global Impacts (GEGA)**

A course on the effects of globalization of the production of consumer products. Students will explore the production of selected common products in China, India, Uzbekistan, Cambodia, Brazil, and Pakistan. Students will consider the changing role of women, debt bondage, child labor, health and safety issues, and environmental degradation. These workforce issues are also entwined with immigration, trade agreements, natural resources, standards of living, and social/cultural systems.

**Credit Hours:** 3 hrs  
**Perspectives on a Diverse World:**

In this course, students will investigate how global trade has and is changing the lives or people around the world. The course focuses on the production of several simple products (such as paperclips, candlesticks, blue jeans, bricks and charcoal) in order to learn about several countries and the conditions of life for the people who make these items. This knowledge will help students
make informed decisions about global issues and will assist them in understanding the changing modern world.

*Last Updated: Links 03/2011*

**SET 177 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 1 hr

**SET 178 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 2 hrs

**SET 179 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 3 hrs

**SET 277 - Special Topics**

A single topic is covered each semester, selected as the interest and/or problems change. Students may elect this course several times, provided different topics are studied, but only twice for credit toward a major or minor in sociology.

**Credit Hours:** 1 hr

**SET 278 - Special Topics**

A single topic is covered each semester, selected as the interest and/or problems change. Students may elect this course several times, provided different topics are studied, but only twice for credit toward a major or minor in sociology.

**Credit Hours:** 2 hrs

**SET 279 - Special Topics**

A single topic is covered each semester, selected as the interest and/or problems change. Students may elect this course several times, provided different topics are studied, but only twice for credit toward a major or minor in sociology.

**Credit Hours:** 3 hrs

**SET 350W - Engineering Communication (GEWI)**

A writing course that focuses on writing about scientific and technical topics. Students will develop their skills in presenting technical content accurately and efficiently.
SET 377 - Special Topics

One topic is covered each semester, selected as the interest and/or problems change. Students may elect this course several times, provided different topics are studied, but only twice for credit toward a major or minor in sociology.

Credit Hours: 1 hr

SET 378 - Special Topics

One topic is covered each semester, selected as the interest and/or problems change. Students may elect this course several times, provided different topics are studied, but only twice for credit toward a major or minor in sociology.

Credit Hours: 2 hrs

SET 379 - Special Topics

One topic is covered each semester, selected as the interest and/or problems change. Students may elect this course several times, provided different topics are studied, but only twice for credit toward a major or minor in sociology.

Credit Hours: 3 hrs

SET 477 - Special Topics

A single topic is covered each semester, selected as interest and/or problems change. Students may elect this course several times, provided different topics are studied, but only twice for credit toward a major or minor in sociology.

Credit Hours: 1 hr

SET 478 - Special Topics

A single topic is covered each semester, selected as interest and/or problems change. Students may elect this course several times, provided different topics are studied, but only twice for credit toward a major or minor in sociology.

Credit Hours: 2 hrs

SET 479 - Special Topics

A single topic is covered each semester, selected as interest and/or problems change. Students may elect this course several times, provided different topics are studied, but only twice for credit toward a major or minor in sociology.

Credit Hours: 3 hrs

SET 497 - Independent Study
Intensive study of a problem or theory supervised by a faculty member in social foundations of education.

**SET 498 - Independent Study**

Intensive study of a problem or theory supervised by a faculty member in social foundations of education.

- **Credit Hours:** 1 hr
- **Prerequisite:** Department permission and consent of instructor
- **Last Updated:** Links 03/2011

**SET 499 - Independent Study**

Intensive study of a problem or theory supervised by a faculty member in social foundations of education.

- **Credit Hours:** 3 hrs
- **Prerequisite:** Department permission and consent of instructor
- **Last Updated:** Links 03/2011

**Technology Education**

**TEDU 104 - Modeling, Automation, and Energy**

A middle school approach demonstrating how to excite students with hands-on Science-, Technology-, Engineering-, and Mathematics-related (STEM) activities. Future teachers will discuss, demonstrate and develop hands-on units of study surrounding design and modeling, automation and robotics, and power and energy. Safety practiced while developing teaching skills.

- **Credit Hours:** 3 hours
- **Repeatable for Credit:** No
- **Last Updated:** New Course 08/2011, effective Fall 2011; updated 'create under' 7/14

**TEDU 105 - History of Industrial Technology**

An introduction to the history of industrial technology. The development of industry and its impact on the other arts and culture in general. Basic principles of design in industrial and home arts, and the eotechnic, paleotechnic, neotechnic and atomic periods of technology.

- **Credit Hours:** 3 hrs
- **Last Updated:** Updated 'create under' 7/14

**TEDU 106 - Processing Technology**

An introduction to tools, materials, and processes and their application to discrete and integrated systems of technology. Interrelationships between humans and machines will be studied to develop the student's ability to transfer knowledge of processes from one environment to the other.
TEDU 107 - Flight, Electronics, and Science of Technology

A middle school approach demonstrating how to excite students with hands-on Science-, Technology-, Engineering-, and Mathematics-related (STEM) activities. Future teachers will discuss, demonstrate and develop hands-on units of study surrounding flight, electricity/electronics, and science of technology. Safety practices while developing teaching skills.

TEDU 110 - Teaching Impacts of Design, Engineering and Technology

An introduction to teaching the impacts of design, engineering, and technology. Topics to be included are: scope of technology, resources and technology, creating technology, technological contests, and technology and society. The students will learn to collect, analyze, and use information to make judgments regarding the use and development of technology. Students will also be introduced to instructional methods for K-12 education.

TEDU 114 - Information and Control Technology

Access, manage and control information and technology through the application of technological systems. Design and construct models, devices and mechanisms that will process information and control technology through the use of machines and humans.

TEDU 152 - Arts and Crafts

Experience in design and use of a wide variety of craft materials. A vocational and recreational use of craft media.

TEDU 177 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

TEDU 246 - Safety in Technology and Vocational Education
Safety, health and environmental factors and their implications for technology and vocational educators, students, laboratories and instructional programs.

**Credit Hours:** 2 hrs  
**Last Updated:** Updated 'create under' 7/14

**TEDU 250 - Foundations of Technology, Vocational, and Engineering Teacher Education**

An introduction to the foundations and implementations of technology, vocational and engineering teacher education. Past, present, and future developments in the profession will be studied through lectures, discussions, seminars, micro-teaching, school visitations, and pre-student teaching activities.

**Credit Hours:** 3 hrs  
**Last Updated:** Title and Course Description Change 11/2011, effective Winter 2012; updated 'create under' 7/14

**TEDU 253 - Technology Education for Children**

Content and methods which enable the elementary teacher to assist children in learning about the concepts, processes, systems and impacts of technology. Individual and group laboratory activities involve applications of technology with other subject areas through problem solving experiences.

**Credit Hours:** 3 hrs  
**Last Updated:** Updated 'create under' 7/14

**TEDU 277 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 1 hr  
**Prerequisite:** Department permission  
**Last Updated:** Links 03/2011; updated 'create under' 7/14

**TEDU 278 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 2 hrs  
**Prerequisite:** Department permission  
**Last Updated:** Links 03/2011; updated 'create under' 7/14

**TEDU 279 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 3 hrs  
**Prerequisite:** Department permission  
**Last Updated:** Links 03/2011; updated 'create under' 7/14
TEDU 340 - Teaching Introduction to Engineering Design

Introduction to engineering design tools, techniques, and communication, including Three-Dimensional solid modeling - utilizing Autodesk Inventor, engineering reporting and technical documentation, engineering research and analysis, engineering standards, and the global and human impacts of engineering. Activity, project, and problem- based learning methods and assessment will be covered.

**Credit Hours:** 3 hrs  
**Prerequisite:** TEDU 110 or advisor permission  
**Last Updated:** New Course 5/2013, effective Winter 2014; updated 'create under' 7/14

TEDU 345 - Teaching Energy and Transportation in Technology and Engineering Teacher Education

Forms, sources, and uses of past, present, and future energy and transportation systems and their relationships to technology and engineering. Description of technology and engineering systems that transform, transmit, store, control and/or utilize energy and/or transportation. Other topics include principles of engineering conservation, and K-12 education instructional methods.

**Credit Hours:** 3 hrs  
**Prerequisite:** TEDU 340, PHY 221, PHY 222  
**Previously Listed As:** TEDU 118 - Energy and Transportation Technology  
**Last Updated:** Number/Title/Description/Prerequisite Change 12/2011, effective Winter 2012; updated 'create under' 7/14

TEDU 350 - Curriculum in Technology, Vocational, and Engineering Teacher Education

Curriculum bases, the derivation of content, the formulation of objectives, the selection and organization of learning activities, and the selection and development of procedures for evaluating K-12 education technology, vocational, and engineering students and programs.

**Credit Hours:** 3 hrs  
**Prerequisite:** TEDU 250  
**Major Restrictions:** Admission to the College of Education  
**Last Updated:** Title/Course Description/Prerequisite Change 11/2011, effective Winter 2012; Links 03/2011; updated 'create under' 7/14

TEDU 354 - Experiences in Technology for Children

Laboratory experiences in the use of materials, tools, processes and products of industry as utilized in the elementary and middle school. Emphasis is on individual and group learning situations relevant to integrated curriculum activities.

**Credit Hours:** 2 hrs  
**Prerequisite:** TEDU 253  
**Last Updated:** Links 03/2011; updated 'create under' 7/14

TEDU 355 - Seminar in Technology for the Elementary School

Practical experiences in integrating concepts of technology with existing elementary and special education curricula. Students will design, conduct and evaluate manipulative activities for and with children.

**Credit Hours:** 2 hrs
TEDU 358 - Tools and Materials

Experiences in the use of selected tools, machines and materials following contemporary therapeutic practices in occupational therapy and related professions.

Credit Hours: 3 hrs
Lecture/Lab Hours: Lecture: two hours per week. Laboratory: two hours per week.

TEDU 377 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr
Prerequisite: Department permission

TEDU 378 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs
Prerequisite: Department permission

TEDU 379 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs
Prerequisite: Department permission

TEDU 387 - Cooperative Education in Technology Education

Technology education majors will be placed on a job that relates to their primary area of study for one semester. During this period regular employee benefits may be received.

Credit Hours: 3 hrs
Prerequisite: Department permission
Major Restrictions: Technology Education Majors only
Notes: Offered on a credit/no-credit basis.

TEDU 450 - Capstone in Technology and Engineering Teacher Education
A capstone experience in the components of the technology and engineering education curriculum. Student applies problem-solving and engineering techniques to arrive at solutions to technological and engineering problems.

**Credit Hours:** 3 hrs  
**Prerequisite:** TEDU 350  
**Last Updated:** Course Revision 11/2011, effective Winter 2012; Links 03/2011; updated 'create under' 7/14

**TEDU 452 - Principles of Vocational Education**

Concepts and principles of vocational education; current issues in vocational education in Michigan.

**Credit Hours:** 3 hrs  
**Prerequisite:** TEDU 350  
**Last Updated:** Links 03/2011; updated 'create under' 7/14

**TEDU 460 - Methods of Teaching Technology, Vocational, and Engineering Education**

Direct involvement in solving teaching and learning problem in K-12 technology, vocational, and engineering education. Emphasis upon developing appropriate strategies for managing the classroom and laboratory environments.

**Credit Hours:** 3 hrs  
**Prerequisite:** TEDU 350  
**Class Restrictions:** Junior or Senior standing only  
**Last Updated:** Title and Course Description Change 11/2011, effective Winter 2012; Links 03/2011; updated 'create under' 7/14

**TEDU 477 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 1 hr  
**Prerequisite:** Department permission  
**Last Updated:** Links 03/2011; updated 'create under' 7/14

**TEDU 478 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 2 hrs  
**Prerequisite:** Department permission  
**Last Updated:** Links 03/2011; updated 'create under' 7/14

**TEDU 479 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 3 hrs  
**Prerequisite:** Department permission  
**Last Updated:** Links 03/2011; updated 'create under' 7/14
TEDU 487 - Cooperative Education in Technology Education

The second in a two-course sequence for technology education majors. The students will be placed on a job that relates to their primary area of study for one semester. Regular employee benefits may be received.

**Credit Hours:** 3 hrs  
**Prerequisite:** TEDU 387 and Department permission  
**Major Restrictions:** Technology Education Majors only  
**Last Updated:** Links 03/2011; updated 'create under' 7/14

TEDU 497 - Directed Study—Technology Education

Available to select students who have demonstrated ability to profit from a directed study project. Intensive study of a problem appropriate to the student's area of concentration. Enrollment and selection of a project proposal must be approved by the department adviser-chair.

**Credit Hours:** 1 hr  
**Prerequisite:** Department permission  
**Last Updated:** Links 03/2011; updated 'create under' 7/14

TEDU 498 - Directed Study—Technology Education

Available to select students who have demonstrated ability to profit from a directed study project. Intensive study of a problem appropriate to the student's area of concentration. Enrollment and selection of a project proposal must be approved by the department adviser-chair.

**Credit Hours:** 2 hrs  
**Prerequisite:** Department permission  
**Last Updated:** Links 03/2011; updated 'create under' 7/14

TEDU 499 - Directed Study—Technology Education

Available to select students who have demonstrated ability to profit from a directed study project. Intensive study of a problem appropriate to the student's area of concentration. Enrollment and selection of a project proposal must be approved by the department adviser-chair.

**Credit Hours:** 3 hrs  
**Prerequisite:** Department permission  
**Last Updated:** Links 03/2011; updated 'create under' 7/14
School of Information Security and Applied Computing

Programs

School of Information Security and Applied Computing

Major

Information Assurance Major

Individuals selecting the information assurance degree will have the flexibility to focus on a concentration of classes that will prepare them for employment after graduation or to take that next step to an advanced degree. There are four unique concentrations to this degree: IA management, applied IA, IA cryptography and network security/administration.

The unique interdisciplinary nature of information assurance requires a diverse educational approach. The purpose of this undergraduate interdisciplinary program is to:

1. Meet society's need for educated professionals in information assurance.
2. Provide graduates with the knowledge and skills required to protect the informational technology needs of society which includes all government branches and the private sector.
3. To propagate a new generation of research scientists in information assurance. As a National Security Agency (NSA) Center of Academic Excellence in Information Assurance Education, the program offers tremendous opportunities that are excellent preparation for an advanced degree in information assurance.

What is Information Assurance?
The term "information assurance" encompasses the scientific, technical and management disciplines required to ensure computer and network security, such as:

- Systems/network administration and operation
- Systems security engineering
- Information assurance systems and product acquisition
- Cryptography
- Threat and vulnerability assessment (includes risk management)
- Web security
- Computer emergency response team operation
- Information assurance training, education and management
- Computer forensics
- Defensive information operations

NSA Center of Academic Excellence
Eastern Michigan University's Center of Academic Excellence is one the 106 federally designated Centers of Academic Excellence in Information Assurance Education in the nation. This valued designation provides students with a wealth of research, scholarship and educational opportunities. The National Centers of Academic Excellence in Information Assurance Education (CAEIAE) program is an outreach program designed and operated by the National Security Agency (NSA) and the Department of Homeland Security (DHS) in support of the President's National Strategy to Secure Cyberspace. The goal of the program is to reduce vulnerability in our national information infrastructure by promoting higher education in information assurance.

All incoming students will take a placement examination prior to enrolling in IA 300-level courses. This examination will be offered on-line and available for the student to take.
For more information, please visit the program website.

School Information:

School of Information Security and Applied Computing - College of Technology

Wade Tornquist, Ph.D., School Director (I)
Dean, College of Technology

109 Sill Hall
(734) 487-0354
wtornquis@emich.edu

General Education Requirements:

For specific requirements refer to the General Education Program.

Major Requirements: 93 hours

Foundation Courses: 42 hours

- COSC 146 - Applied Programming 3 hrs
- COSC 211 - Programming Data Structures 3 hrs
- IA 103 - Information Security Overview 3 hrs
- IA 202L - Risk-Vulnerability Analysis (GELB) 3 hrs
- IA 210 - Concepts of Network and Business Technology 3 hrs
- IA 212 - Open Systems Platform and Network Administration 3 hrs
- IA 213 - Privacy and Technology 3 hrs
- IA 215 - System Support and Troubleshooting 3 hrs
- IA 240 - Intelligence Analysis I 3 hrs
- IA 329 - Policy Development in Information Assurance 3 hrs
- LEGL 320 - Cyber Law and Compliance 3 hrs
- MATH 170 - Elementary Statistics (GEQR) 3 hrs
- STS 300W - Research and Writing: The Technology Career Perspective (GEWI) 3 hrs

One course from the following: 3 hours

- CTAC 224 - Public Speaking 3 hrs
- CTAC 225 - Listening Behavior (GEKS) 3 hrs
- CTAC 227 - Interpersonal Communication (GEKS) 3 hrs
- CTAC 350 - Persuasion 3 hrs

Choose one concentration from the following:

Information Assurance Management: Concentration for Second Admission
Information assurance management will enable the student to focus on management of information systems. The practice of vulnerability, risk, countermeasures and ethics enable the IA manager to meet cyber security in the 21st century. The management of information in today’s business, industry, government, education and other related fields is how persons in positions of trust manage information systems and apply secure computing to their business enterprise. This concentration of study will enable that management oriented student to apply secure computing concepts in the protection of cyberspace.

**Concentration Courses: 42 hours**

- IA 343 - Intelligence Analysis II 3 hrs
- IA 344 - Administration of Computer Systems 3 hrs
- IA 400 - Malware Analysis and Reverse Engineering 3 hrs
- IA 415 - Introduction to Research in Information Assurance 3 hrs
- IA 422 - Networks: Planning and Design 3 hrs
- IA 425 - Cyber Crime Investigation I 3 hrs
- IA 427 - Digital Forensics I 3 hrs
- IA 430 - Network Forensics 3 hrs
- IA 445 - Ethical Hacking and Offensive Security 3 hrs
- IA 480 - SQL Database Security 3 hrs
- MGMT 386 - Organizational Behavior and Theory 3 hrs
- MGMT 403 - Managerial Communication: Theory and Application 3 hrs
- MGMT 480W - Management Responsibility and Ethics (GEWI) 3 hrs

And one of the following:

- IA 387 - Cooperative Education 3 hrs
- IA 416 - Applied Research Project 3 hrs

**Applied Information Assurance: Concentration for Second Admission**

Applied information assurance management prepares the student with hands-on applications for analysis, prevention, deterrence and countermeasures of information security and integrity in the global arena. Students who select this concentration of study will find that hands-on application will enable them to embrace the concepts studied in lecture format and apply those concepts in a laboratory setting. This concentration also provides an opportunity to conduct directed research as a final project.

**Concentration Courses: 42 hours**

- COSC 374 - Applied Cryptography 3 hrs
- IA 343 - Intelligence Analysis II 3 hrs
- IA 344 - Administration of Computer Systems 3 hrs
- IA 400 - Malware Analysis and Reverse Engineering 3 hrs
- IA 412 - Linux Security Administration 3 hrs
- IA 415 - Introduction to Research in Information Assurance 3 hrs
- IA 425 - Cyber Crime Investigation I 3 hrs
- IA 427 - Digital Forensics I 3 hrs
- IA 428 - Digital Forensics II 3 hrs
- IA 430 - Network Forensics 3 hrs
- IA 445 - Ethical Hacking and Offensive Security 3 hrs
- IA 455 - Incident Response 3 hrs
Information Assurance Encryption: Concentration for Second Admission

The sustained and rapid advance of information technology in the 21st century dictates the adoption of a flexible and adaptable cryptographic strategy for protecting national security information. This strategy complements the existing policy for the use of the advanced encryption standard (AES) to protect national security systems and information as specified in The National Policy on the Use of the Advanced Encryption Standard (AES) to Protect National Security Systems and National Security Information (CNSSP-15).

Over the past 30 years, public key cryptography has become a mainstay for secure communications over the Internet and throughout many other forms of communication. It provides the foundation for both key management and digital signatures. In key management, public key cryptography is used to distribute secret keys used in other cryptographic algorithms (e.g., DES). For digital signatures, public key cryptography is used to authenticate the origin of data and protect the integrity of that data. For the past 20 years, Internet communications have been secured by the first generation of public key cryptographic algorithms developed in the mid-1970s. Notably, they form the basis for key management and authentication for IP encryption (IKE/IPSEC), Web traffic (SSL/TLS) and secure electronic mail.

Information assurance encryption will prepare the students for master's or doctoral work. The student may want to teach upon completion of the degree or enter into the area of information security research. This block also provides an opportunity to conduct directed research as a final project.

Concentration Courses: 42 hours

- COSC 314 - Computational Discrete Structures 3 hrs
- COSC 374 - Applied Cryptography 3 hrs
- IA 400 - Malware Analysis and Reverse Engineering 3 hrs
- IA 415 - Introduction to Research in Information Assurance 3 hrs
- IA 427 - Digital Forensics I 3 hrs
- IA 430 - Network Forensics 3 hrs
- IA 480 - SQL Database Security 3 hrs
- MATH 120 - Calculus I (GEQR) 4 hrs
- MATH 121 - Calculus II 4 hrs
- MATH 205 - Mathematical Structures for Computer Science 4 hrs
- MATH 319 - Mathematical Modeling 3 hrs
- * MATH 409 - Cryptology 3 hrs

And one of the following:

- IA 387 - Cooperative Education 3 hrs
- IA 416 - Applied Research Project 3 hrs

Information Assurance Network Security/Administration: Concentration for Second Admission
The Network Security and Administration concentration prepares the student with hands-on applications for administration, design, and implementation of secure computer networks. Students will learn to administer network environments to be scalable, secure and available. Student work will center on best practice administration across Microsoft, Open Source and CISCO products. Students will implement these products and build countermeasures for defending services that underpin the product solution. Students who select this concentration of study will find that hands-on application of classes will enable them to embrace the concepts studied in lecture format and apply those concepts in a laboratory setting. This concentration also provides an opportunity to conduct research as a final project.

Concentration Courses: 42 hours

- IA 344 - Administration of Computer Systems 3 hrs
- IA 350 - Network Connectivity 3 hrs
- IA 354 - Multi-Level Networking 3 hrs
- IA 364 - Advanced Windows Security 3 hrs
- IA 400 - Malware Analysis and Reverse Engineering 3 hrs
- IA 412 - Linux Security Administration 3 hrs
- IA 422 - Networks: Planning and Design 3 hrs
- IA 427 - Digital Forensics I 3 hrs
- IA 430 - Network Forensics 3 hrs
- IA 445 - Ethical Hacking and Offensive Security 3 hrs
- IA 455 - Incident Response 3 hrs
- IA 480 - SQL Database Security 3 hrs
- IA 495 - Networks: Implementation and Evaluation 3 hrs

And one of the following:

- IA 387 - Cooperative Education 3 hrs
- IA 416 - Applied Research Project 3 hrs

Electives: 9 hours

Student may select any course from other concentrations (above) as an elective. Suggested electives are:

- BMMT 396 - Information and Media Administration 3 hrs
- BMMT 496 - Records Administration Using Database 3 hrs
- CMT 305W - Communication Transmission Systems (GEWI) 3 hrs
- COSC 105 - Everyday Computing and Social Responsibility (GEGA) 3 hrs
- IA 426 - Cyber Crime Investigation II 3 hrs
- IA 429 - Enterprise Digital Analysis 3 hrs
- IA 441 - Foreign and Domestic Terrorism and Information Warfare 3 hrs
- IA 442 - Cyber Intelligence 3 hrs
- MGMT 202 - Business Communication 3 hrs

Program Total:

Students must earn a minimum total of 124 credits at the 100-level or above.

Notes:
* Student must complete math sequence prior to taking Cryptology.

Additional courses may be required as some of the "Concentrations" include courses with prerequisites that are not included in the program.

**Critical Graduation Information:**

Each undergraduate student will be responsible for the fulfillment of the requirements or their equivalents of the Eastern Michigan University catalog in force at the time of their initial registration at a college or university or a subsequent catalog including the one in effect at the time of their graduation.

In the event an undergraduate student does not complete the degree requirements within seven years of the date of their original registration at a college or university, the student may be required to have their credits re-evaluated by the academic department(s) of their major/minor in keeping with catalog requirements in force during the year of their graduation.

**The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.**

- Earn a minimum total of 124 credits at the 100-level and above. Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Complete a Writing Intensive (WI) Course in your major.
- Earn a minimum of 60 credits from a four-year college or university; courses taken at community colleges cannot be used to meet this requirement. (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 unique credit hours in their major and 20 unique credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
- Earn no more than 60 credit hours in one subject area (prefix). Credits in excess of the 60 maximum will not be counted toward the minimum of 124 credits required for a bachelor's degree.
- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more that one major or minor.
  - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
  - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
  - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor.
- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is conducted by individual departments/schools within EMU, and additional documentation may be required. Please note: EMU awards only credit for transferred courses; grades are not used in the calculation of an EMU GPA.
• Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be reached in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

General Education Requirements:

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available in the General Education section of the catalog: General Education

Students who transferred to EMU may have modified general education requirements based on Michigan Transfer Agreement (MTA) or articulation agreements; consult your academic advisor for additional information.

University Information: Consult the online catalog at catalog.emich.edu.
School of Technology & Professional Services Management Programs

School of Technology and Professional Services Management

Major

Aviation Flight Technology Major

This program is designed to prepare individuals for positions as entry-level professional pilots in the aviation industry. Based upon the needs of the aviation industry, the program encompasses a program of study that takes an individual from student pilot to certified flight instructor. It also includes a number of specialized courses that incorporate aviation business and management skills, safety, human factors, aerodynamics, aviation law and regulations, and crew resource management. The program includes a general education curriculum designed to provide a well-rounded knowledge foundation.

The aviation flight technology program has amendments to the basic aviation program designed to accommodate ROTC students planning on applying for military pilot training. The accommodations include the Eastern Michigan University U.S. Army ROTC program and the Air Force or Naval ROTC programs located at the University of Michigan, which may be attended by Eastern Michigan University students. Please contact the aviation flight technology program coordinator for further information.

Click here to watch a short video about this program.

School Information:

School of Technology and Professional Services Management - College of Technology

Pam Becker, Ph.D., School Director

122 Sill Hall
(734) 487-1161
pbecker@emich.edu

General Education Requirements:

For specific requirements refer to the General Education Program.

Major Requirements: 78 hours

- PHY 100 or higher PHY course
- AVT 100 - Introduction to Air Transportation 3 hrs
- AVT 110 - Aircraft Maintenance I 3 hrs
- AVT 120 - Flight Operations I 3 hrs
- AVT 170 - Aviation Ground Instruction 3 hrs
- AVT 208 - Aviation Human Factors 3 hrs
- AVT 215 - Aviation Weather 3 hrs
• AVT 220 - Flight Operations II 3 hrs
• AVT 222 - Introduction to Automation in Aviation 3 hrs
• * AVT 255 - Private Pilot Certification 4 hrs
• AVT 263 - Aircraft Systems 3 hrs
• AVT 303 - Aviation Law and Insurance 3 hrs
• AVT 313 - Aviation Industry Regulations 3 hrs
• AVT 320 - Aviation Safety 3 hrs
• AVT 321 - Cockpit and Crew Resource Management 3 hrs
• AVT 322 - System Safety in Aviation 3 hrs
• AVT 341 - Instrument Ground Instruction 2 hrs
• AVT 342 - Commercial Ground Instruction 2 hrs
• * AVT 355 - Instrument Pilot Certification 4 hrs
• * AVT 361 - Commercial/Complex Flight Instruction 2 hrs
• * AVT 371 - Commercial Certification 2 hrs
• AVT 382 - Flight Instructor Ground Instruction 3 hrs
• AVT 419 - High Airspeed Aerodynamics/High Altitude Flight 3 hrs
• AVT 422 - Senior Seminar in Aviation Management 3 hrs
• * AVT 426 - Multi-Engine Flight Instruction 3 hrs
• * AVT 427 - Flight Instructor: Airplane 2 hrs
• STS 300W - Research and Writing: The Technology Career Perspective (GEWI) 3 hrs

Electives: 0-4 hours

• AVT 428 - Flight Instructor: Instrument 2 hrs
• AVT 429 - Flight Instructor: Multi-Engine 2 hrs

Minor Requirements:

This program does not require a minor.

Program Total:

Students must earn a minimum total of 124 credits at the 100-level or above.

Note:

* This course is a flight course involving flight activities conducted at the Eagle Flight Center.

Critical Graduation Information:

Each undergraduate student will be responsible for the fulfillment of the requirements or their equivalents of the Eastern Michigan University catalog in force at the time of their initial registration at a college or university or a subsequent catalog including the one in effect at the time of their graduation.

In the event an undergraduate student does not complete the degree requirements within seven years of the date of their original registration at a college or university, the student may be required to have their credits re-evaluated by the academic department(s) of their major/minor in keeping with catalog requirements in force during the year of their graduation.
The following are minimum requirements for all bachelor’s degrees awarded by Eastern Michigan University. *Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.*

- Earn a minimum total of 124 credits at the **100-level and above**. Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Complete a Writing Intensive (WI) Course in your major.
- Earn a minimum of 60 credits from a four-year college or university; **courses taken at community colleges cannot be used to meet this requirement**. (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 **unique** credit hours in their major and 20 **unique** credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
- Earn no more than 60 credit hours in one subject area (prefix). Credits in excess of the 60 maximum will not be counted toward the minimum of 124 credits required for a bachelor's degree.
- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more that one major or minor.
  - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
  - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
  - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor
- **Transfer credit** will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is conducted by individual departments/schools within EMU, and additional documentation may be required. *Please note:* EMU awards only credit for transferred courses; grades are not used in the calculation of an EMU GPA.
- Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be reached in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

**General Education Requirements:**

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available in the General Education section of the catalog: General Education

Students who transferred to EMU may have modified general education requirements based on Michigan Transfer Agreement (MTA) or articulation agreements; consult your academic advisor for additional information.

**University Information:** Consult the online catalog at catalog.emich.edu.

**Aviation Management Technology Major**
The aviation management technology curriculum is designed to prepare individuals for entry-level management and supervisory positions in the field of aviation technology. The program has a foundation of aviation-related and basic business course work.

- AVT 387 - Co-operative Education in Aviation Technology 3 hrs
- AVT 422 - Senior Seminar in Aviation Management 3 hrs
- STS 300W - Research and Writing: The Technology Career Perspective (GEWI) 3 hrs

General Business Requirements: 30 hours

- ACC 240 - Principles of Financial Accounting 3 hrs
- ACC 241 - Principles of Managerial Accounting 3 hrs
- DS 265 - Business Statistics I 3 hrs
- FIN 350 - Principles of Finance 3 hrs
• IS 215 - Information Systems for Business 3 hrs
• LAW 293 - Legal Environment of Business 3 hrs
• MGMT 384 - Human Resource Management 3 hrs
• MGMT 386 - Organizational Behavior and Theory 3 hrs
• MKTG 360 - Principles of Marketing 3 hrs
• OM 374 - Introduction to Operations Management 3 hrs

**Minor Requirements:**

This program does not require a minor.

**Program Total:**

Students must earn a minimum total of 124 credits at the 100-level or above.

**Critical Graduation Information:**

Each undergraduate student will be responsible for the fulfillment of the requirements or their equivalents of the Eastern Michigan University catalog in force at the time of their initial registration at a college or university or a subsequent catalog including the one in effect at the time of their graduation.

In the event an undergraduate student does not complete the degree requirements within seven years of the date of their original registration at a college or university, the student may be required to have their credits re-evaluated by the academic department(s) of their major/minor in keeping with catalog requirements in force during the year of their graduation.

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the 100-level and above. Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Complete a Writing Intensive (WI) Course in your major.
- Earn a minimum of 60 credits from a four-year college or university; courses taken at community colleges cannot be used to meet this requirement. (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 unique credit hours in their major and 20 unique credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
- Earn no more than 60 credit hours in one subject area (prefix). Credits in excess of the 60 maximum will not be counted toward the minimum of 124 credits required for a bachelor's degree.
- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more than one major or minor.
  - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
- Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
- Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor.
- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is conducted by individual departments/schools within EMU, and additional documentation may be required. Please note: EMU awards only credit for transferred courses; grades are not used in the calculation of an EMU GPA.
- Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be reached in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

General Education Requirements:

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available in the General Education section of the catalog: General Education

Students who transferred to EMU may have modified general education requirements based on Michigan Transfer Agreement (MTA) or articulation agreements; consult your academic advisor for additional information.

Distribution Operations & Technical Sales Major

Revised Program, effective Winter 2014

The Distribution Operations & Technical Sales program emphasizes professional communication and is designed to provide graduates with the theoretical as well as practical applications today's industry is seeking. It develops graduates for career opportunities in industrial and technical sales, sales management, materials planning, quality assurance, purchasing, inventory control and branch/operations management. Students complete a set of required courses and either three concentrations, at least one of which must be technical, or a technical concentration and an academic minor in a related field which is chosen with advisor approval. The program is National Association of Industrial Technology accredited. Advising or additional information is available within the school.

An active articulation agreement exists between this program and a community college. To see a complete list of current colleges with program articulation agreements with EMU, please click here.

General Education Requirements:

For specific requirements refer to the General Education Program.

Major Requirements: 66-75 hours

Required Courses: 43 hours

- DOTS 140 - Introduction to Wholesale Distribution 3 hrs
- DOTS 240 - Profit Strategies in Distribution 3 hrs
- DOTS 340 - Relationships in Wholesaling 3 hrs
- DOTS 345 - Marketing in Wholesale Distribution 3 hrs
- DOTS 346 - Industrial Climate 3 hrs
- DOTS 387 - Co-operative Education 3 hrs
- DOTS 391 - Wholesale Account Development 3 hrs
- DOTS 440 - Inventory Strategies in Distribution 3 hrs
- DOTS 444 - Quality Planning in Distribution 3 hrs
- DOTS 448 - Best Practices in Wholesale Distribution 3 hrs
- IS 215 - Information Systems for Business 3 hrs
- IS 350 - Enterprise Resource Planning and Architecture 3 hrs
- PDD 123 - Manufacturing Processes 4 hrs
- STS 300W - Research and Writing: The Technology Career Perspective (GEWI) 3 hrs

Concentrations: 27-36 hours

Students may select concentrations from the following:

General Concentrations:

- Communication (9 hrs)
- International Business (9 hrs)
- Management (12 hrs)
- Purchasing/Materials Management (12 hrs)
- Sales (12 hrs)
- Supply Chain Management (12 hrs)

Other concentrations with advisory approval.

Technical Concentrations:

- Apparel, Textiles and Merchandising (9 hrs)
- Electronics (9 hrs)
• Information Systems (9 hrs)
• Manufacturing (9 hrs)
• Pharmaceutical and Sales - Combined Concentration (24 hrs)

Other concentrations with advisory approval.

Minor Requirements:

This program does not require a minor.

Program Total:

Students must earn a minimum total of 124 credits at the 100-level or above.

Critical Graduation Information:

Each undergraduate student will be responsible for the fulfillment of the requirements or their equivalents of the Eastern Michigan University catalog in force at the time of their initial registration at a college or university or a subsequent catalog including the one in effect at the time of their graduation.

In the event an undergraduate student does not complete the degree requirements within seven years of the date of their original registration at a college or university, the student may be required to have their credits re-evaluated by the academic department(s) of their major/minor in keeping with catalog requirements in force during the year of their graduation.

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

• Earn a minimum total of 124 credits at the 100-level and above. Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.
• Meet the requirements of the General Education program (see information below).
• Complete a Writing Intensive (WI) Course in your major.
• Earn a minimum of 60 credits from a four-year college or university: courses taken at community colleges cannot be used to meet this requirement. (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
• Earn a minimum of 30 credits from courses taken at EMU.
• Complete 10 of the last 30 hours for the degree from courses taken at EMU.
• Have a minimum of 30 unique credit hours in their major and 20 unique credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
• Earn no more than 60 credit hours in one subject area (prefix). Credits in excess of the 60 maximum will not be counted toward the minimum of 124 credits required for a bachelor's degree.
• Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more that one major or minor.
  o Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor.
- Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
- Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor.

- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Course Rotation Schedule

Click here to access the Course Rotation Schedules page for the courses required for this program.

Minor Requirements:

This program does not require a minor.

Program Total:

Students must earn a minimum total of 124 credits at the 100-level or above.

Critical Graduation Information:

Each undergraduate student will be responsible for the fulfillment of the requirements or their equivalents of the Eastern Michigan University catalog in force at the time of their initial registration at a college or university or a subsequent catalog including the one in effect at the time of their graduation.

In the event an undergraduate student does not complete the degree requirements within seven years of the date of their original registration at a college or university, the student may be required to have their credits re-evaluated by the academic department(s) of their major/minor in keeping with catalog requirements in force during the year of their graduation.

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

• Earn a minimum total of 124 credits at the 100-level and above. Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.
• Meet the requirements of the General Education program (see information below).
• Complete a Writing Intensive (WI) Course in your major.
• Earn a minimum of 60 credits from a four-year college or university; courses taken at community colleges cannot be used to meet this requirement. (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
• Earn a minimum of 30 credits from courses taken at EMU.
• Complete 10 of the last 30 hours for the degree from courses taken at EMU.
• Have a minimum of 30 unique credit hours in their major and 20 unique credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
• Earn no more than 60 credit hours in one subject area (prefix). Credits in excess of the 60 maximum will not be counted toward the minimum of 124 credits required for a bachelor's degree.
• Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more that one major or minor.
  ○ Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
  ○ Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
  ○ Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor

• Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is conducted by individual departments/schools within EMU, and additional documentation may be required. *Please note:* EMU awards only credit for transferred courses; grades are not used in the calculation of an EMU GPA.

• Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be reached in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

**General Education Requirements:**

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available in the General Education section of the catalog: General Education

Students who transferred to EMU may have modified general education requirements based on Michigan Transfer Agreement (MTA) or articulation agreements; consult your academic advisor for additional information.

**University Information:** Consult the online catalog at catalog.emich.edu.

**Paralegal Major**

The paralegal major focuses on the skills necessary for the graduate to work under the supervision and direction of an attorney with the understanding that the practice of law by lay persons is strictly prohibited. Students get inside the law and develop skills including proficiency in legal research, writing and analysis, drafting legal instruments and pleadings, interviewing clients and witnesses, doing discovery, preparing for trial and using computer-assisted research tools. Employment opportunities are excellent in law firms, corporations, banks, human resource offices, hospitals, state and federal governments and court systems. This major offers professional training and lays a foundation for a career in the legal field. It also qualifies as a pre-law major. This program is approved by the American Bar Association.

For students who have earned a prior degree, the paralegal major can be pursued through a second bachelor's degree. The completion of 50 hours of study is required for the second bachelor's degree. These 50 hours must include the required courses and the business and information processing core. The remaining hours are to be selected from either restricted University elective courses or University elective courses.

An active articulation agreement exists between this program and several community colleges. To see a complete list of current colleges with program articulation agreements with EMU, please click here.

Click here to watch a short video about this program.

**Secondary Admission and Retention Policy**
Students who wish to be Paralegal (Legal Assistant) Studies Program majors must apply for admission to the program. Students may be admitted to the program in the fall or winter terms. Applications for a winter term will be due by Dec. 1 of the preceding fall term. Applications for a fall term will be due by April 1 of the preceding winter term.

**Program Admission**

Program admission criteria are:

1. Admission to the University as an undergraduate or second bachelor's degree candidate;
2.* Completion of ENGL 121 with a grade of B or higher;
3. Completion of LEGL 211 - Introduction to the Legal System, with a grade of B- or higher;
4. Completion of LEGL 304W - Legal Writing, Research and Analysis I with a grade of C+ or higher; and
5. A cumulative GPA of at least 2.5 on a 4.0 scale.

Students satisfying these criteria are eligible to apply for admission to the program, but admission is not guaranteed.

**Program Retention Policy**

In addition to secondary admission requirements, program majors will be required to:

1. Complete each program core course (e.g., all courses having a LEGL prefix [except LEGL 211 and LEGL 304W — see above], with a minimum grade of C;
2. ** Maintain a cumulative GPA of at least 2.5 on a 4.0 scale
3. ** Maintain a GPA within the major of at least 2.5 on a 4.0 scale

*Notes:

* Students applying for admission to the program as second bachelor's degree candidates must present evidence of having completed an acceptable college-level English composition course with a grade of B or higher. A remedial English composition or writing course is not an acceptable college-level English composition course.

** A student whose cumulative GPA or cumulative major GPA falls below 2.5 will be placed on program probation for the next succeeding term. If the student fails to raise his or her cumulative GPA, cumulative major GPA or both to 2.5 or higher with the grades earned during the probationary term, the student will be dismissed from the program. For purposes of this policy, a student who is placed on program probation as the result of a deficient GPA at the close of a winter term will have until the close of the next fall term to raise his or her GPA to 2.5 or higher. If a student earns lower than a C in any program core course (except LEGL 211 and LEGL 304W — see above), the student will be allowed to repeat the course twice. If the student fails to earn a C or better in the repeated courses, the student will be dismissed from the program.

• BMMT 496 - Records Administration Using Database 3 hrs
• LEGL 213 - Advanced Spreadsheet Applications 3 hrs

Minor Requirements:

This program does not require a minor.

Program Total:

Students must earn a minimum total of 124 credits at the 100-level or above.

Select one option from the following:

Note:

* This course meets the “Quantitative Reasoning” requirement.

** These courses meet the “Learning Beyond the Classroom” requirement.

*** LEGL 304W meets the writing intensive requirement.

Critical Graduation Information:

Each undergraduate student will be responsible for the fulfillment of the requirements or their equivalents of the Eastern Michigan University catalog in force at the time of their initial registration at a college or university or a subsequent catalog including the one in effect at the time of their graduation.
In the event an undergraduate student does not complete the degree requirements within seven years of the date of their original registration at a college or university, the student may be required to have their credits re-evaluated by the academic department(s) of their major/minor in keeping with catalog requirements in force during the year of their graduation.

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the 100-level and above. Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Complete a Writing Intensive (WI) Course in your major.
- Earn a minimum of 60 credits from a four-year college or university; courses taken at community colleges cannot be used to meet this requirement. (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 unique credit hours in their major and 20 unique credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
- Earn no more than 60 credit hours in one subject area (prefix). Credits in excess of the 60 maximum will not be counted toward the minimum of 124 credits required for a bachelor's degree.
- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more than one major or minor.
  - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
  - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
  - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor
- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is conducted by individual departments/schools within EMU, and additional documentation may be required. Please note: EMU awards only credit for transferred courses; grades are not used in the calculation of an EMU GPA.
- Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be reached in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

General Education Requirements:

EMU’s General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available in the General Education section of the catalog: General Education

Students who transferred to EMU may have modified general education requirements based on Michigan Transfer Agreement (MTA) or articulation agreements; consult your academic advisor for additional information.

University Information: Consult the online catalog at catalog.emich.edu.
Secondary Education Business, Management, Marketing and Technology Major (with Minor)

Successful completion of this course of study, in the context of other program requirements, qualifies the student for recommendation for the Michigan Department of Education Secondary Provisional Certificate endorsed in Business, Management, Marketing and Technology, certification code GQ. The Michigan Test for Teacher Certification (MTTC) covering this field is #098, "Business, Management, Marketing and Technology." In addition, upon meeting the requirements according to the current Michigan State Plan, it leads to a vocational endorsement. The program prepares prospective teachers in the areas of information processing and management, administrative services, accounting and computing, and basic business such as economics, consumer economics, business law, business management, computer literacy and introduction to business.

Important BMMT Information

1. There is a 36 credit hour requirement for BMMT and this major requires a teachable minor. The Vocational Minor is recommended, however any teachable minor may be approved.

2. Students are required to take ECON 201 as part of their general education degree requirements. See the Additional Requirements core listed below.

3. A vocational endorsement in either Business (VB) or Marketing (VM) requires work experience which meets state requirements. Hours must be recent, relevant and of appropriate duration. With approved work experience, a person may receive vocational endorsements in both areas.

4. Students must earn a C or better in all of the following courses: writing, speech, math, lab science, and all professional education courses. A C- (or lower) is not acceptable and needs to be addressed immediately.

5. Post-Baccalaureate students that take ACC 501 for the business core will need to choose an alternative elective in the College of Business.

Initial Teacher Preparation Program Admission

In order to pursue the sequence of courses necessary to complete eligibility for recommendation for certification, one must apply for and be admitted to the teacher preparation program. Admission requirements are common for all teacher preparation programs, except that certain special education programs have additional requirements.
Each undergraduate student is responsible for applying to the teacher preparation program immediately after the semester in which the student has earned 56 credit hours. Transfer students with more than 56 credit hours should apply immediately after the semester in which they have earned 12 hours at EMU, including at least one course in their major. Students with 56 hours of transfer course work with a decision GPA of 3.0 may apply for admission to the teacher preparation program without 12 earned hours at EMU.

Admission to the teacher preparation program is not automatic. Only those persons who have formally applied are considered for admission. Not all persons who apply become eligible for admission.

Applications for the Initial Teacher Preparation Program at EMU are available within your my.emich account under the "Student" tab. Submit your completed application to the Office of Academic Services once you have earned 56 credit hours.

Teaching majors and minors are unofficial until program admission. Students pursuing teacher certification should follow the catalog that exists at the time of program admission. It is important that students apply to the teacher preparation program as soon as they have earned 56 credit hours.

Criteria:

1. Completion of 56 credit hours
2. Appropriate cumulative GPA. One of:
   1. An overall EMU GPA of 2.5 or higher based on a minimum of 12 credit hours taken at EMU. An EMU GPA of 2.5 or higher in your major, based on at least one course in your major. The Elementary Education Major is comprehensive, therefore, the elementary major GPA is based on the cumulative of liberal arts curriculum and content course work.
   2. Transferred 56 credits with a cumulative 3.0 GPA from all previous institutions.
3. A grade of "C" or higher (if taken) in the following courses:
   1. If Secondary: ENGL 121, CTAC 124, Quantitative Reasoning (GEQR), one lab science, all professional education courses, and, if special education, PSY 101.
   2. If Elementary: ENGL 121, CTAC 124, MATH 108, MATH 110E, PHY 100, ESSC 202, all of the professional education courses, all courses that state “for elementary teachers,” and, if special education, PSY 101.
4. Official Test Scores showing competency in each of the following areas: mathematics, reading and writing. Scores are accepted from the Professional Readiness Exam (PRE), Basic Skills Test (no longer offered), ACT, or Michigan Merit Exam (MME). The following scores are acceptable:
   1. Mathematics: PRE pass, Basic Skills pass, ACT mathematics 22 or higher, or MME mathematics 1116 or higher.
   2. Writing: PRE pass, Basic Skills pass, ACT combined English/writing 24 or higher, or MME writing 1129 or higher.
   3. Reading: PRE pass, Basic Skills pass, ACT reading 22 or higher, or MME reading 1108 or higher.
5. ICHAT criminal background check and Statement of Civil/Criminal Convictions. If you answered yes to any of the civil/criminal conviction questions on the application, you will need to provide:
   1. A copy of the Judgment of Sentence, or Registrar of Actions, or Certification of Conviction.
   2. A written explanation of the offense(s). Application of students with civil/criminal convictions will be carefully reviewed and may take longer to process.
6. Meet academic, social, moral, and financial obligations as a member of the EMU community.

General Education Requirements:

For specific requirements refer to the General Education Program.

Vocational Endorsement Requirements
A combination of work experience may be used for both Vocational Business (VB) and Vocational Marketing (VM); however, hours can only be used once. All hours must be verified by the BMMT Program Coordinator (or coordinator's selected assignee) using designated documents (i.e. personal records, tax documents, Social Security records, etc.).

Required Work Experience:

**Work** (within last 6 years)

- Option I: 4,000 hours total (2 years) (evidence required)
- Option II: 2,000 hours total + one semester EMU co-op course work
- Option III: 3,000 hours total + MOCAC Test (qualifies for 1,000)

Required Courses: 6 hours

- * BMMT 200 - Principles of Career and Technical Education 3 hrs
- * BMMT 363 - Curriculum for Career and Technical Education 3 hrs

Additional Requirements: 8 hours

- BMMT 123 - Word Processing/Keyboarding Applications 2 hrs
- BMMT 201 - Microcomputers for Business Applications 3 hrs
- ECON 201 - Principles of Macroeconomics (GEKS) 3 hrs

Major Requirements: 36 hours

Business Core: 9 hours

- ACC 240 - Principles of Financial Accounting 3 hrs
- BMMT 100 - Contemporary Business 3 hrs

Undergraduates choose one course from the following:

- ACC 241 - Principles of Managerial Accounting 3 hrs
- ACC 296 - The Accounting Cycle and Profession 3 hrs

Post-Baccalaureates choose one course from the following:

- ACC 241 - Principles of Managerial Accounting 3 hrs

Management Core: 9 hours

One course from the following:

- LAW 293 - Legal Environment of Business 3 hrs
• LAW 503 - Legal Environment of Business 3 hrs

One course from the following:

• BMMT 250 - Personal Finance 3 hrs
• FIN 350 - Principles of Finance 3 hrs
• FIN 502 - Financial Principles 3 hrs

One course from the following:

• MGMT 384 - Human Resource Management 3 hrs
• MGMT 386 - Organizational Behavior and Theory 3 hrs
• MGMT 388 - Introduction to Entrepreneurship 3 hrs
• TM 212 - The Management of Technological Change 3 hrs

Marketing Core: 9 hours

One course from the following:

• MKTG 360 - Principles of Marketing 3 hrs
• MKTG 510 - Marketing Management 3 hrs

Choose two courses from the following:

• Any other pre-approved Marketing course not listed below (3 hrs)
• MKTG 261 - Contemporary Selling 3 hrs
• MKTG 363 - Retailing 3 hrs
• MKTG 368W - Marketing Strategy (GEWI) 3 hrs
• MKTG 369 - Advertising 3 hrs
• MKTG 374 - Business to Business Marketing 3 hrs
• MKTG 461 - Sales Management 3 hrs

Information Technology Core: 9 hours

• Any other pre-approved Information or Communication Technology course not listed below (3 hrs)
• BMMT 321 - Digital Tools: Communication 3 hrs
• BMMT 496 - Records Administration Using Database 3 hrs
• CMT 421 - Web Publishing Technology 3 hrs

Professional Secondary Education Sequence

Secondary Education Pre-Admission Phase: The Learner and the Community: 10 hours
Prerequisite: Sophomore standing or higher.

- * BMMT 200 - Principles of Career and Technical Education 3 hrs
- EDPS 322 - Human Development and Learning 4 hrs
- SPGN 251 - Introduction to Inclusion and Disabilities Studies in a Diverse Society (GEUS) 3 hrs

The following phases require formal admission to the Initial Teacher Preparation Program:

Secondary Education Phase I: Curriculum, Assessment and the Social Context: 11 hours

Prerequisite: Completion of Pre-Admission Phase is required.

- * BMMT 363 - Curriculum for Career and Technical Education 3 hrs
- BMMT 366 - Methods of Teaching Marketing Education 2 hrs
- EDPS 340 - Introduction to Assessment and Evaluation 3 hrs
- SOFD 328W - Schools for a Diverse and Democratic Society (GEWI) 3 hrs

Secondary Education Phase II: Content and Methods and Teaching: 9 hours

Prerequisite: Completion of Phase I is required.

** These two courses must be taken together.

- ** PRCT 311 - Practicum II: Secondary 3 hrs
- ** RDNG 311 - Teaching Reading in the Secondary School 3 hrs

Methods Course by Major:

Business, Management, Marketing and Technology Majors take:

- BMMT 360 - Methods of Teaching General Business and Office Education 3 hrs

Secondary Education Phase III: Capstone Experience: 9 hours

Prerequisite: Completion of Phase II and 100 pre-student teaching hours is required.

- EDUC 492 - Student Teaching (GELB) 9 hrs
  This course requires a formal application to be submitted 7-8 months prior to the Student Teaching semester.

Minor Requirements:

This program requires a minor. Please contact your program advisor for a list of possible minors (the Vocational Minor is recommended).

Program Total:
Students must earn a minimum total of 124 credits at the 100-level or above.

Notes:

Each student must choose a writing intensive course as part of major completion requirements. Consult your advisor for course options.

* These courses need only be taken once to count for Vocational Endorsement and Professional Education cores.

MTTC Subject Area Test

Starting January 1, 2013, Students seeking licensure in a secondary or K-12 area are not required to take the MTTC subject area test in their minor area. Students who elect not to take the test in their minor will be required to sign a statement indicating that they understand that they will not be endorsed in their minor area and will not be eligible for teaching positions in their minor unless they pass the minor subject area test within five years of completing field experience and course requirements.

Critical Graduation Information:

Each undergraduate student will be responsible for the fulfillment of the requirements or their equivalents of the Eastern Michigan University catalog in force at the time of their initial registration at a college or university or a subsequent catalog including the one in effect at the time of their graduation.

In the event an undergraduate student does not complete the degree requirements within seven years of the date of their original registration at a college or university, the student may be required to have their credits re-evaluated by the academic department(s) of their major/minor in keeping with catalog requirements in force during the year of their graduation.

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the **100-level and above.** Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Complete a Writing Intensive (WI) Course in your major.
- Earn a minimum of 60 credits from a four-year college or university; courses taken at community colleges cannot be used to meet this requirement. (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 **unique** credit hours in their major and 20 **unique** credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
- Earn no more than 60 credit hours in one subject area (prefix). Credits in excess of the 60 maximum will not be counted toward the minimum of 124 credits required for a bachelor's degree.
- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more that one major or minor.
  - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
- Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
- Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor.

- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is conducted by individual departments/schools within EMU, and additional documentation may be required. Please note: EMU awards only credit for transferred courses; grades are not used in the calculation of an EMU GPA.

- Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be reached in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

General Education Requirements:

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available in the General Education section of the catalog: General Education

Students who transferred to EMU may have modified general education requirements based on Michigan Transfer Agreement (MTA) or articulation agreements; consult your academic advisor for additional information.

University Information: Consult the online catalog at catalog.emich.edu.

Technology Management Major

The technology management program is designed for transfer students with an associate of applied science degree. The interdisciplinary curriculum provides the necessary foundation to meet the changing needs of management in a variety of fields; ranging from business and health to criminal justice, environmental sciences, automotive technology and computer service technology.

An active articulation agreement exists between the Technology Management program and many community colleges, including, but not limited to the following:

Technology Management - San Diego Miramar College Articulation Guide

To see a complete list of current colleges with program articulation agreements with EMU, please click here.

More information about this major can be found at the program website.

School Information:

School of Technology and Professional Services Management - College of Technology

Pam Becker, Ph.D., School Director

122 Sill Hall
(734) 487-1161
pbecker@emich.edu

General Education Requirements:
For specific requirements refer to the General Education Program.

Additional Requirements: 9-12 hours

- ECON 201 - Principles of Macroeconomics (GEKS) 3 hrs
- ECON 202 - Principles of Microeconomics (GEKS) 3 hrs

One course from the following:

- MATH 118 - Linear Models and Probability (GEQR) 3 hrs
- STS 224 - Solving Quantitative Problems in Technology (GEQR) 3 hrs

Must take this course or a proficiency exam:

- STS 201 - Microcomputer Applications in Technology 3 hrs

Major Requirements: 60-79 hours

Core Courses: 18 hours

- TM 130 - Introduction to Technology Management 3 hrs
- TM 212 - The Management of Technological Change 3 hrs
- TM 311 - Information Technology Management and Organizations 3 hrs
- TM 314W - A Socio-Technical Systems Approach to Process Improvement (GEWI) 3 hrs
- TM 402 - Technology Project Management 3 hrs
- TM 415 - Senior Seminar in Technology Management 3 hrs

Technology Management Elective Courses: 12-15 hours

Choose four of the following. At least one must be a 300- or 400-level course.

- ACC 130 - Accounting for Nonbusiness Majors 3 hrs
- ACC 240 - Principles of Financial Accounting 3 hrs
- ACC 241 - Principles of Managerial Accounting 3 hrs
- ACC 358 - Analysis of Financial Statements 3 hrs
- FIN 350 - Principles of Finance 3 hrs
- LAW 293 - Legal Environment of Business 3 hrs
- LAW 403 - Employment Law 3 hrs
- MGMT 384 - Human Resource Management 3 hrs
- MGMT 386 - Organizational Behavior and Theory 3 hrs
- MGMT 388 - Introduction to Entrepreneurship 3 hrs
- MGMT 480W - Management Responsibility and Ethics (GEWI) 3 hrs
- MKTG 360 - Principles of Marketing 3 hrs
- MKTG 369 - Advertising 3 hrs
- MKTG 473 - Marketing and Product Innovation 3 hrs
- TM 306 - Quantitative Analysis of Sustainability Issues (GEQR) 3 hrs
Technical Concentration 30-46 hours

The following technical specializations from two-year institutions may be transferable into this concentration. These technical specializations will include, but are not limited to, the following areas:

Automotive service technology
Biomedical engineering technology
Computer service technology
Correctional science
Criminology
Emergency medical technician
Environmental technology
Fire technology
Fluid power technology
Graphic design technology
Health information technology
Laser-electro optics
Photographic technology
Public Safety technology
Refrigeration and air conditioning technology
Telecommunication technology

Minor Requirements:

This program does not require a minor.

Program Total:

Students must earn a minimum total of 124 credits at the 100-level or above.

Extended Programs

This program is available at an EMU off-campus location. For a list of locations, please click here.

Critical Graduation Information:

Minor

Administrative Management Minor

School Information:

School of Technology and Professional Services Management - College of Technology

Pam Becker, Ph.D., School Director
122 Sill Hall
(734) 487-1161
pbecker@emich.edu

Required Courses: 12 hours

- BMMT 310 - Word/Information Processing Administration 3 hrs
- BMMT 387 - Co-operative Education 3 hrs
- BMMT 395 - Administering Workplace Systems and Technology 3 hrs
- BMMT 396 - Information and Media Administration 3 hrs

Restricted Elective Courses: 9 hours

Nine hours from the following:

- BMMT 220 - Word/Information Processing Operations 3 hrs
- BMMT 496 - Records Administration Using Database 3 hrs
- HLAD 305 - The U.S. Health Care System 3 hrs
- HLAD 310 - Administration of Health Care Organizations 3 hrs
- HLAD 425 - Decision Making for Health Administrators 3 hrs
- LAW 293 - Legal Environment of Business 3 hrs
- LEGL 211 - Introduction to the Legal System 3 hrs
- LEGL 212 - Law Office Administration and Technology 3 hrs
- MGMT 388 - Introduction to Entrepreneurship 3 hrs
- MGMT 480W - Management Responsibility and Ethics (GEWI) 3 hrs
- IA 210 - Concepts of Network and Business Technology 3 hrs
- STS 202 - Disabled in the U.S.A. - Rights, Prejudice, Claims and Responsibilities 3 hrs

Minor Total: 21 hours

Note:

All minors must have at least six hours of course work at the 300-level or above.

Critical Graduation Information:
Each undergraduate student will be responsible for the fulfillment of the requirements or their equivalents of the Eastern Michigan University catalog in force at the time of their initial registration at a college or university or a subsequent catalog including the one in effect at the time of their graduation.

In the event an undergraduate student does not complete the degree requirements within seven years of the date of their original registration at a college or university, the student may be required to have their credits re-evaluated by the academic department(s) of their major/minor in keeping with catalog requirements in force during the year of their graduation.

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the 100-level and above. **Courses with numbers below 100 will not be counted toward this degree requirement.** At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Complete a Writing Intensive (WI) Course in your major.
- Earn a minimum of 60 credits from a four-year college or university; **courses taken at community colleges cannot be used to meet this requirement.** (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 unique credit hours in their major and 20 unique credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
- Earn no more than 60 credit hours in one subject area (prefix). Credits in excess of the 60 maximum will not be counted toward the minimum of 124 credits required for a bachelor's degree.
- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more that one major or minor.
  - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
  - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
  - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor
- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is conducted by individual departments/schools within EMU, and additional documentation may be required. Please note: EMU awards only credit for transferred courses; grades are not used in the calculation of an EMU GPA.
- Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be reached in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

**General Education Requirements:**

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available in the General Education section of the catalog: General Education
Students who transferred to EMU may have modified general education requirements based on Michigan Transfer Agreement (MTA) or articulation agreements; consult your academic advisor for additional information.

**University Information:** Consult the online catalog at catalog.emich.edu.

**Hotel and Restaurant Management Minor**

**School Information:**

School of Technology and Professional Services Management - College of Technology

Pam Becker, Ph.D., School Director

122 Sill Hall
(734) 487-1161
pbecker@emich.edu

**Required Courses:** 15 hours

- HRM 103 - Introduction to the Hospitality Industry 3 hrs
- HRM 150 - Sanitation in the Hospitality Industry 2 hrs
- HRM 180 - Food Production 3 hrs
- HRM 268 - Hotel Operations Management 3 hrs
- HRM 287 - Cooperative Education in Hotel and Restaurant Management 1 hr
- HRM 340 - Cost Controls in the Hospitality Industry 3 hrs

**Electives:** 6 hours

*Electives chosen from within the HRM specialization courses.*

**Program Total:** 21 hours

**Course Rotation Schedule**

Click here to access the Course Rotation Schedules page for the courses required for this program.

**Critical Graduation Information:**

Each undergraduate student will be responsible for the fulfillment of the requirements or their equivalents of the Eastern Michigan University catalog in force at the time of their initial registration at a college or university or a subsequent catalog including the one in effect at the time of their graduation.

In the event an undergraduate student does not complete the degree requirements within seven years of the date of their original registration at a college or university, the student may be required to have their credits re-evaluated by the academic department(s) of their major/minor in keeping with catalog requirements in force during the year of their graduation.
The following are minimum requirements for all bachelor’s degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the 100-level and above. Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Complete a Writing Intensive (WI) Course in your major.
- Earn a minimum of 60 credits from a four-year college or university; courses taken at community colleges cannot be used to meet this requirement. (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 unique credit hours in their major and 20 unique credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
- Earn no more than 60 credit hours in one subject area (prefix). Credits in excess of the 60 maximum will not be counted toward the minimum of 124 credits required for a bachelor's degree.
- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more that one major or minor.
  - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
  - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
  - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor
- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is conducted by individual departments/schools within EMU, and additional documentation may be required. Please note: EMU awards only credit for transferred courses; grades are not used in the calculation of an EMU GPA.
- Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be reached in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

General Education Requirements:

EMU’s General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available in the General Education section of the catalog: General Education

Students who transferred to EMU may have modified general education requirements based on Michigan Transfer Agreement (MTA) or articulation agreements; consult your academic advisor for additional information.

University Information: Consult the online catalog at catalog.emich.edu.

Secondary Education Vocational Technical Endorsement Minor
Successful completion of this program, in the context of other program requirements, qualifies the student for recommendation for the Michigan Department of Education Secondary Provisional Certificate, endorsed in Vocational Technical, certification code VT. The student also qualifies for the Interim Occupational Certificate.

Required Work Experience:

**Work** (within last 5 years)

- Option I: 4,000 hours total (2 years)
- Option II: 2,000 hours total + one semester EMU co-op course work, + MOCAC/NOCTI test

Required Courses: 6 hours

- BMMT 200 - Principles of Career and Technical Education 3 hrs
- BMMT 363 - Curriculum for Career and Technical Education 3 hrs

Select a concentration from the following: 18 hours

_Whenever possible, courses should be taken at EMU. Credits to satisfy this requirement may be taken at another institution. Students must meet with advisor to ensure coursework satisfies concentration area._

- 47.0604 - Automotive Technician Concentration
- 47.0603 - Collision Repair Technician Concentration
- 46.0000 - Construction Trades Concentration
- 15.1301 - Drafting & Design Concentration
- 47.0101 - Electrical/Electronics Concentration
- 15.0000 - Engineering and Technology Concentration
- 10.0301 - Graphics/Visual Communications Concentration
- 48.0501 - Machine Tool Operation Concentration
- 47.0613 - Medium/Heavy Truck Technician Concentration
- 10.0202 - Radio & TV Broadcasting Concentration
- 48.0508 - Welding, Braising, and Soldering Concentration

Minor Total: 24 hours

Critical Graduation Information:

Each undergraduate student will be responsible for the fulfillment of the requirements or their equivalents of the Eastern Michigan University catalog in force at the time of their initial registration at a college or university or a subsequent catalog including the one in effect at the time of their graduation.

In the event an undergraduate student does not complete the degree requirements within seven years of the date of their original registration at a college or university, the student may be required to have their credits re-evaluated by the academic department(s) of their major/minor in keeping with catalog requirements in force during the year of their graduation.

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

**General Education Requirements:**

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available in the General Education section of the catalog: General Education

Students who transferred to EMU may have modified general education requirements based on Michigan Transfer Agreement (MTA) or articulation agreements; consult your academic advisor for additional information.

**University Information:** Consult the online catalog at catalog.emich.edu.

**Communication Technology Major**
Communication Technology is a joint program offered by the School of Technology Studies and the Department of Communication, Media and Theatre Arts. This curriculum is designed to provide the background necessary for graduates to find employment as managers in communication-based industries. The program emphasis is on having the student acquire those business, manufacturing, media, computer and communication skills necessary for employment in today's communication technology industries and business organizations.

An active articulation agreement exists between this program and a community college. To see a complete list of current colleges with program articulation agreements with EMU, please click here.

Major Requirements: 65 hours

Media Production: 9 hours

- CTAT 130 - Introduction to Electronic Media 3 hrs
- CTAT 141 - Audio and Video Production for Nonmajors 3 hrs

One course from the following:

- CTAT 331 - Intermediate Radio Production and direction 3 hrs
- CTAT 332 - Intermediate Television Production and Direction 3 hrs

Transmission Systems: 9 hours

- CMT 305W - Communication Transmission Systems (GEWI) 3 hrs
- CMT 408 - Telephone Technology 3 hrs
- ELEC 120 - Principles of Electrical Theory 3 hrs
Computer Technology: 12 hours

Choose one option from the following:

Option I: Computer Programming

- COSC 111 - Introduction to Programming 3 hrs
- COSC 211 - Programming Data Structures 3 hrs

Pick One Course Group

Pick one course group from the following two choices

- COSC 146 - Applied Programming 3 hrs
  &
- COSC 206 - Applied Programming II 3 hrs
  or
- COSC 221 - Computer Organization I 3 hrs
  &
- COSC 231 - Internet-based Computing 3 hrs

Option II: Information Management

- IS 215 - Information Systems for Business 3 hrs
- IS 247 - Introduction to Web Application Development 3 hrs
- IS 320 - Business Data Communications and Information Security 3 hrs
- IS 380 - Introduction to Databases 3 hrs

One course from the following:

- IS 417 - Systems Analysis and Design 3 hrs
- IS 442 - Information Resource Management 3 hrs

Option III: Graphic Applications

- CMT 205 - Digital Photo-Technology 3 hrs
- CMT 301 - Multimedia Authoring Techniques 3 hrs
- CMT 421 - Web Publishing Technology 3 hrs
- CMT 427 - Digital Imaging and Reproduction 3 hrs

Communication Theory and Practice: 6 hours

- CTAC 227 - Interpersonal Communication (GEKS) 3 hrs
- CTAC 354 - Organizational Communication 3 hrs

Business and Investment Skills: 6 hours
• MKTG 360 - Principles of Marketing 3 hrs
• PSY 205 - Quantitative Methods in Psychology 3 hrs

Management Skills: 6 hours

• ACC 130 - Accounting for Nonbusiness Majors 3 hrs
• CMT 336 - Electronic Publishing Technology 3 hrs

Interdisciplinary Technology: 17 hours

• CMT 121 - Graphic Communication 3 hrs
• CMT 131 - Introduction to Computer Graphic Systems 3 hrs
• CMT 387 - Co-operative Education 3 hrs
• CMT 409 - Emerging Technologies in Storage and Retrieval 3 hrs
• CMT 425 - Communication Technology and Social Change 3 hrs
• CMT 470 - Senior Seminar in Communication Technology 2 hrs

Minor Requirements:

This program does not require a minor.

Program Total:

Students must earn a minimum total of 124 credits at the 100-level or above.

Critical Graduation Information:

Each undergraduate student will be responsible for the fulfillment of the requirements or their equivalents of the Eastern Michigan University catalog in force at the time of their initial registration at a college or university or a subsequent catalog including the one in effect at the time of their graduation.

In the event an undergraduate student does not complete the degree requirements within seven years of the date of their original registration at a college or university, the student may be required to have their credits re-evaluated by the academic department(s) of their major/minor in keeping with catalog requirements in force during the year of their graduation.

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

• Earn a minimum total of 124 credits at the 100-level and above. Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.
• Meet the requirements of the General Education program (see information below).
• Complete a Writing Intensive (WI) Course in your major.
• Earn a minimum of 60 credits from a four-year college or university; courses taken at community colleges cannot be used to meet this requirement. (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
• Earn a minimum of 30 credits from courses taken at EMU.
• Complete 10 of the last 30 hours for the degree from courses taken at EMU.
• Have a minimum of 30 unique credit hours in their major and 20 unique credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
• Earn no more than 60 credit hours in one subject area (prefix). Credits in excess of the 60 maximum will not be counted toward the minimum of 124 credits required for a bachelor's degree.
• Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more that one major or minor.
  o Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
  o Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
  o Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor.
• Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is conducted by individual departments/schools within EMU, and additional documentation may be required. Please note: EMU awards only credit for transferred courses; grades are not used in the calculation of an EMU GPA.
• Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be reached in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

General Education Requirements:

Construction Management Major

Program Revised, Effective Fall 2013

The construction management major includes course work in general education with specified science and mathematics courses, business courses, electives (a list of recommended course electives that require the prior approval of a construction or facility management advisor) and technical courses. A minor is not required. A C- or better is required for all major courses.

The construction management major is designed to prepare men and women for middle- and upper-level management in the construction industry. The major has been developed in cooperation with experts from the construction industry, guidelines established by major construction associations, and feedback from employers and graduates. The construction management major reflects the current needs and trends in the construction industry and is accredited by the American Council for Construction Education.
An active articulation agreement exists between this program and several community colleges. To see a complete list of current colleges with program articulation agreements with EMU, please click here.

- CNST 440 - LEED for New Construction and Major Renovations 3 hrs
• CNST 450 - Fundamentals of Construction Project Management 3 hrs

Construction Management Restricted Electives: 12 hours

*12 hours from the following (Minimum one course with CNST prefix):*

• CNST 426 - Mechanical and Electrical Construction Applications 3 hrs
• CNST 427 - Industrial Construction 3 hrs
• CNST 437 - Environmental Construction Contracting 3 hrs
• CNST 438 - Fundamentals of Land Development 3 hrs
• CNST 446 - Senior Seminar on Professional Issues in Engineering, Technology and Construction 1 hr
• CNST 479 - Special Topics 3 hrs
• CNST 497 - Directed Study in Construction Management Techniques 1 hrs
• GHPR 335 - Historic Preservation 3 hrs
• IDE 208 - Introduction to Basic Design 3 hrs
• IDE 317 - Lighting Systems for Interior Designers 3 hrs
• MATH 105 - College Algebra (GEQR) 3 hrs
• MATH 107 - Plane Trigonometry 2 hrs
• URP 215 - Introduction to Urban and Regional Planning 3 hrs

Business Major Requirements: 15 hours

• Any course from the College of Business not already taken (3 hrs)
• ACC 240 - Principles of Financial Accounting 3 hrs
• LAW 293 - Legal Environment of Business 3 hrs
• MGMT 202 - Business Communication 3 hrs
• MGMT 384 - Human Resource Management 3 hrs

Natural Sciences/Math Restricted Elective: 4 hours

*Four hours from the following:*

• CHEM 117 - Fundamentals of Chemistry-Lecture (GEKN) 3 hrs
  with
• CHEM 118 - Fundamentals of Chemistry Laboratory (GEKN) 1 hr
• MATH 120 - Calculus I (GEQR) 4 hrs
  Additional courses with advisor approval.

General Restricted Electives: 14 hours

• ESSC 110 - The Dynamic Earth System (GEKN) 4 hrs
• MATH 170 - Elementary Statistics (GEQR) 3 hrs
• PHY 221 - Mechanics, Sound and Heat (GEKN) 4 hrs

Choose one of the following:

• ECON 100 - Introduction to Economic Problems and Policies (GEKS) 3 hrs
• **ECON 200 - The American Economy** 3 hrs

**Minor Requirements:**

This program does not require a minor.

**Program Total:**

Students must earn a minimum total of 124 credits at the 100-level or above.

**Extended Programs**

This program is available at an EMU off-campus location. For a list of locations, please click here.

**Critical Graduation Information:**

Each undergraduate student will be responsible for the fulfillment of the requirements or their equivalents of the Eastern Michigan University catalog in force at the time of their initial registration at a college or university or a subsequent catalog including the one in effect at the time of their graduation.

In the event an undergraduate student does not complete the degree requirements within seven years of the date of their original registration at a college or university, the student may be required to have their credits re-evaluated by the academic department(s) of their major/minor in keeping with catalog requirements in force during the year of their graduation.

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the **100-level and above. Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement.** A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Complete a Writing Intensive (WI) Course in your major.
- Earn a minimum of 60 credits from a four-year college or university; **courses taken at community colleges cannot be used to meet this requirement.** (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 **unique** credit hours in their major and 20 **unique** credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
- Earn no more than 60 credit hours in one subject area (prefix). Credits in excess of the 60 maximum will not be counted toward the minimum of 124 credits required for a bachelor's degree.
- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more that one major or minor.
  - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
  - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
○ Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor

• Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is conducted by individual departments/schools within EMU, and additional documentation may be required. Please note: EMU awards only credit for transferred courses; grades are not used in the calculation of an EMU GPA.

• Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be reached in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

General Education Requirements:

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available in the General Education section of the catalog: General Education

Students who transferred to EMU may have modified general education requirements based on Michigan Transfer Agreement (MTA) or articulation agreements; consult your academic advisor for additional information.

University Information: Consult the online catalog at catalog.emich.edu.

Interior Design Major

The interior design program offers a Council for Interior Design Accreditation (CIDA) accredited, four-year studio based curriculum, culminating in a bachelor of science degree. The program's mission is to academically prepare students to enable them to creatively solve problems related to the function and quality of interior environments.

The program promotes critical thinking by requiring a balance between broad liberal arts courses, specific courses in fine arts, management, marketing, construction and an intense curriculum of interior design courses. The interior design curriculum provides experiential educational opportunities to investigate the interaction of humans and environments through the integration of theory, knowledge and technical skills, preparing students to achieve in the challenging profession of interior design. Central to a mission of preparing students to achieve as professional interior design practitioners is our goal to impart to our students a holistic view of people and their environments in multicultural, multiracial and multiethnic settings; a sensitivity to environmentally conscious design issues; a consideration of the needs of all people, regardless of age, stature or ability; and the ability to creatively analyze design problems in order to create interior environments that meet human needs and fulfill human aspirations.

Students must complete IDE courses with a grade of C or better.

General Education Requirements:

For specific requirements refer to the General Education Program.

Additional Requirements: 12 hours

- ARTS 123 - Foundations Drawing I 3 hrs
- CNST 201 - Construction Systems 3 hrs
- MGMT 388 - Introduction to Entrepreneurship 3 hrs
- MKTG 360 - Principles of Marketing 3 hrs

Major Requirements: 76 hours

Required Courses: 70 hours

- IDE 110 - Interior Design Studio I 3 hrs
- IDE 111 - Environmental Psychology and Behavior for Interior Design 3 hrs
- IDE 120 - Interior Design Studio II 3 hrs
- IDE 121 - Interior Design Materials and Components 3 hrs
- IDE 122 - Interior Design Theory II 3 hrs
- IDE 123 - Computers for Interior Design I 3 hrs
- IDE 131 - Interior Design Theory I 3 hrs
- IDE 210 - Interior Design Studio III 3 hrs
- IDE 219 - Computers for Interior Design II 3 hrs
- IDE 220 - Interior Design Studio IV 3 hrs
- IDE 221 - Environmental Systems for Interior Designers 3 hrs
- IDE 225 - History of Interiors from Antiquity to 1800 3 hrs
- IDE 226 - History of Interiors from 1800 to Present 3 hrs
- IDE 310 - Interior Design Studio V 3 hrs
- IDE 317 - Lighting Systems for Interior Designers 3 hrs
- IDE 318 - Interior Building Codes and ADA 3 hrs
- IDE 320 - Interior Design Studio VI 3 hrs
- IDE 324 - Internship in Interior Design 4 hrs
- IDE 325 - Professional Practice in Interior Design 3 hrs
- IDE 410 - Interior Design Studio VII 3 hrs
- IDE 420 - Interior Design Studio VIII 3 hrs
- IDE 425 - Mill Work Design and Detailing 3 hrs
- IDE 430W - Writing for Interior Design (GEWI) 3 hrs
Interior Design Elective Courses: 6 hours

Courses are selected in consultation with an interior design advisor and are not limited to those listed below

- ARTS 104 - Graphic Design for Non-Majors (GEKA) 3 hrs
- ARTS 105 - Photography for Non-Majors (GEKA) 3 hrs
- ARTS 121 - Two-Dimensional Design 3 hrs
- ARTS 122 - Three-Dimensional Design 3 hrs
- ARTS 245 - Introduction to Furniture Design 3 hrs
- CNST 440 - LEED for New Construction and Major Renovations 3 hrs
- HIST 329 - Power, Place and Image in Florence and Rome 3 hrs

Minor Requirements:

This program does not require a minor.

Program Total:

Students must earn a minimum total of 124 credits at the 100-level or above.

Note:

Each student must choose a writing intensive course as part of major completion requirements. Consult your advisor for course options.

Critical Graduation Information:

Each undergraduate student will be responsible for the fulfillment of the requirements or their equivalents of the Eastern Michigan University catalog in force at the time of their initial registration at a college or university or a subsequent catalog including the one in effect at the time of their graduation.

In the event an undergraduate student does not complete the degree requirements within seven years of the date of their original registration at a college or university, the student may be required to have their credits re-evaluated by the academic department(s) of their major/minor in keeping with catalog requirements in force during the year of their graduation.

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the 100-level and above. Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Complete a Writing Intensive (WI) Course in your major.
- Earn a minimum of 60 credits from a four-year college or university; courses taken at community colleges cannot be used to meet this requirement. (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
• Complete 10 of the last 30 hours for the degree from courses taken at EMU.
• Have a minimum of 30 unique credit hours in their major and 20 unique credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
• Earn no more than 60 credit hours in one subject area (prefix). Credits in excess of the 60 maximum will not be counted toward the minimum of 124 credits required for a bachelor's degree.
• Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more that one major or minor.
  o Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
  o Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
  o Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor.
• Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is conducted by individual departments/schools within EMU, and additional documentation may be required. Please note: EMU awards only credit for transferred courses; grades are not used in the calculation of an EMU GPA.
• Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be reached in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

General Education Requirements:

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available in the General Education section of the catalog: General Education

Students who transferred to EMU may have modified general education requirements based on Michigan Transfer Agreement (MTA) or articulation agreements; consult your academic advisor for additional information.

Advisor Information:
General Education Requirements:

For specific requirements refer to the General Education Program.

Required Courses: 54 hours

- ARTS 121 - Two-Dimensional Design 3 hrs
- ARTS 123 - Foundations Drawing I 3 hrs
- ARTS 122 - Three-Dimensional Design 3 hrs
- CMT 131 - Introduction to Computer Graphic Systems 3 hrs
- CMT 205 - Digital Photo-Technology 3 hrs
- COSC 111 - Introduction to Programming 3 hrs
- COSC 211 - Programming Data Structures 3 hrs
- COSC 215 - Scientific Simulation 3 hrs
- CTAT 141 - Audio and Video Production for Nonmajors 3 hrs
- MGMT 386 - Organizational Behavior and Theory 3 hrs
- MGMT 486 - Organizational Change and Team Building 3 hrs
- SAG 105L - Introduction to Simulation, Animation and Gaming (GELB) 3 hrs
- SAG 175 - Graphics for Simulation I 3 hrs
- SAG 225 - Graphics for Simulation II 3 hrs
- SAG 235 - Flash 13 hrs
- SAG 245 - Story Development 3 hrs
- SAG 285 - Studio I Simulation 3 hrs
- STS 300W - Research and Writing: The Technology Career Perspective (GEWI) 3 hrs

Select from either Cognate A or Cognate B:

Cognate A: 18 hours

This cognate allows students to continue in the graphic and design aspect of simulation, animation and gaming.

Required Courses: 15 hours

- SAG 275 - Texturing and Mapping 3 hrs
- SAG 305 - Environment Design 3 hrs
- SAG 355 - Lighting and Camera Techniques 3 hrs
- SAG 375 - Studio II 3 hrs
- SAG 470 - Simulation and Animation Dynamics 3 hrs

Capstone Experience: 3 hours
• COSC 485 - Senior Projects in SAG 3 hrs
or
• SAG 485 - Senior Projects in SAG 3 hrs

Cognate B: 23 hours

This cognate allows the students to pursue their final two years in the Computer Science Department, learning the programming languages needed to succeed in the SAG profession. The courses in this cognate utilize existing courses within the department.

• COSC 221 - Computer Organization I 3 hrs
• COSC 311 - Algorithms and Data Structures 3 hrs
• COSC 456 - Computer Graphics 3 hrs
• COSC 457 - Computer Game Programming 3 hrs
• COSC 461 - Heuristic Programming 3 hrs
• COSC 481W - Software Engineering and Senior Project (GEWI) 3 hrs
• COSC 486 - Cooperative Education in Computer Science 3 hrs
• MATH 205 - Mathematical Structures for Computer Science 4 hrs

Required Courses: 9 hours

- ATM 118 - Apparel Studio 3 hrs
- ATM 145 - Introduction to Apparel and Textile Merchandising 3 hrs
- ATM 255 - Apparel Analysis 3 hrs

Restricted Elective Courses: 12 hours

One course from each of the following areas:

I. Construction skills:

- ATM 302 - Fashion Manufacturing Techniques 3 hrs
- ATM 392 - Pattern Design 3 hrs
- ATM 460 - Tailoring 3 hrs

II. Methodology:

- ATM 390 - Visual Merchandising 3 hrs

III. Social-psychological-historical:

- ATM 135 - Cultural Study of Dress 3 hrs
- ATM 380 - Fashion of the Haute Couture 3 hrs

IV. Textiles application:

- ATM 119 - Early American Textiles 3 hrs
- ATM 265 - Merchandising of Interior Furnishings 3 hrs
- ATM 404 - Textiles for Merchandising 3 hrs

Minor Total: 21 hours

Note:

All minors must have at least six hours of course work at the 300-level or above.
Critical Graduation Information:

Each undergraduate student will be responsible for the fulfillment of the requirements or their equivalents of the Eastern Michigan University catalog in force at the time of their initial registration at a college or university or a subsequent catalog including the one in effect at the time of their graduation.

In the event an undergraduate student does not complete the degree requirements within seven years of the date of their original registration at a college or university, the student may be required to have their credits re-evaluated by the academic department(s) of their major/minor in keeping with catalog requirements in force during the year of their graduation.

## Construction Management Minor

This minor is designed to provide a background in fundamental technical applications for students with majors outside the department who expect to work in industry. Employment opportunities are enhanced for persons with technical course work.

University elective courses in the minor are selected to relate to the student's major subject area. Academic advising to determine elective course choices is provided by the School of Engineering Technology. A maximum of six hours may be transferred from outside the department

### Required Courses: 23 hours

- CNST 125 - Introduction to Construction 3 hrs
- CNST 201 - Construction Systems 3 hrs
- CNST 202 - Construction Materials 3 hrs
- CNST 228 - Construction Graphics 3 hrs
- CNST 229 - Analysis of Commercial Prints 3 hrs
- CNST 302 - Contract Documents, Regulations, and Specifications 3 hrs
- CNST 304 - Construction Estimating and Bidding 3 hrs
- CNST 361 - Planning and Scheduling 3 hrs

**Minor Total: 23 hours**
Note:

All minors must have at least six hours of course work at the 300 level or above.

Critical Graduation Information:

Each undergraduate student will be responsible for the fulfillment of the requirements or their equivalents of the Eastern Michigan University catalog in force at the time of their initial registration at a college or university or a subsequent catalog including the one in effect at the time of their graduation.

In the event an undergraduate student does not complete the degree requirements within seven years of the date of their original registration at a college or university, the student may be required to have their credits re-evaluated by the academic department(s) of their major/minor in keeping with catalog requirements in force during the year of their graduation.

The following are minimum requirements for all bachelor’s degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the 100-level and above. Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Complete a Writing Intensive (WI) Course in your major.
- Earn a minimum of 60 credits from a four-year college or university; courses taken at community colleges cannot be used to meet this requirement. (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 unique credit hours in their major and 20 unique credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
- Earn no more than 60 credit hours in one subject area (prefix). Credits in excess of the 60 maximum will not be counted toward the minimum of 124 credits required for a bachelor's degree.
- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more than one major or minor.
  - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
  - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
  - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor
- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a “C” (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a “C” (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is conducted by individual departments/schools within EMU, and additional documentation may be required. Please note: EMU awards only credit for transferred courses; grades are not used in the calculation of an EMU GPA.
Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be reached in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

General Education Requirements:

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available in the General Education section of the catalog: General Education

Students who transferred to EMU may have modified general education requirements based on Michigan Transfer Agreement (MTA) or articulation agreements; consult your academic advisor for additional information.

University Information: Consult the online catalog at catalog.emich.edu.

Graphic Communication Minor

This minor is designed to provide technical communication skills to majors in fields such as graphic design and journalism. The electives in the minor are diverse and extensive enough to allow for individual flexibility.

School Information:

School of Visual and Built Environments - College of Technology

Deb de Laski-Smith, Ph.D., School Director

206 Roosevelt
(734) 487-2490
ddelaski@emich.edu

Advisor Information:

David Gore

208 Sill Hall
(734) 487-0726
dgore@emich.edu

Required Courses: 12 hours

- CMT 104 - Introduction to Communication Technology 3 hrs
- CMT 121 - Graphic Communication 3 hrs
- CMT 204 - Photographic Communication 3 hrs
- CMT 427 - Digital Imaging and Reproduction 3 hrs

Elective Courses: 11-12 hours

Electives selected with an advisor to equal 11-12 credit hours from the areas of:
Communication Technology
Art
Telecommunication and Film
Written Communication
Journalism/Public Relations
Interior Design
BMMT
CAD/CAM
ELEC
Advertising
Marketing/Management

Minor Requirements: 23-24 hours

Note:

All minors must have at least six hours of course work at the 300-level or above.

Critical Graduation Information:

Each undergraduate student will be responsible for the fulfillment of the requirements or their equivalents of the Eastern Michigan University catalog in force at the time of their initial registration at a college or university or a subsequent catalog including the one in effect at the time of their graduation.

In the event an undergraduate student does not complete the degree requirements within seven years of the date of their original registration at a college or university, the student may be required to have their credits re-evaluated by the academic department(s) of their major/minor in keeping with catalog requirements in force during the year of their graduation.

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the 100-level and above. Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Complete a Writing Intensive (WI) Course in your major.
- Earn a minimum of 60 credits from a four-year college or university; courses taken at community colleges cannot be used to meet this requirement. (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 unique credit hours in their major and 20 unique credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
- Earn no more than 60 credit hours in one subject area (prefix). Credits in excess of the 60 maximum will not be counted toward the minimum of 124 credits required for a bachelor's degree.
• Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more than one major or minor.
  o Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
  o Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
  o Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor
• Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is conducted by individual departments/schools within EMU, and additional documentation may be required. Please note: EMU awards only credit for transferred courses; grades are not used in the calculation of an EMU GPA.
• Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be reached in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

General Education Requirements:

EMU’s General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available in the General Education section of the catalog: General Education

Students who transferred to EMU may have modified general education requirements based on Michigan Transfer Agreement (MTA) or articulation agreements; consult your academic advisor for additional information.

Interior Design Minor

Revised Program, effective Fall 2014

School Information:

School of Visual and Built Environments - College of Technology

Deb de Laski-Smith, Ph.D., School Director

206 Roosevelt
(734) 487-2490
ddelaksi@emich.edu

Advisor Information:

Dr. Deb de Laski-Smith

202A Roosevelt
(734) 487-8254
ddelaksi@emich.edu
Required Courses: 6 hours

- IDE 111 - Environmental Psychology and Behavior for Interior Design 3 hrs
- IDE 131 - Interior Design Theory I 3 hrs

Restricted Elective Courses: 15 hours

Choose 5 of the following courses:

- IDE 110 - Interior Design Studio I 3 hrs
- IDE 121 - Interior Design Materials and Components 3 hrs
- IDE 122 - Interior Design Theory II 3 hrs
- IDE 221 - Environmental Systems for Interior Designers 3 hrs
- IDE 225 - History of Interiors from Antiquity to 1800 3 hrs
- IDE 226 - History of Interiors from 1800 to Present 3 hrs
- IDE 317 - Lighting Systems for Interior Designers 3 hrs
- IDE 318 - Interior Building Codes and ADA 3 hrs

Minor Total: 21 hours

Note

All minors must have at least six hours of course work at the 300-level or above.

Critical Graduation Information:

Each undergraduate student will be responsible for the fulfillment of the requirements or their equivalents of the Eastern Michigan University catalog in force at the time of their initial registration at a college or university or a subsequent catalog including the one in effect at the time of their graduation.

In the event an undergraduate student does not complete the degree requirements within seven years of the date of their original registration at a college or university, the student may be required to have their credits re-evaluated by the academic department(s) of their major/minor in keeping with catalog requirements in force during the year of their graduation.

School of Health Promotion and Human Performance

Programs and Courses

School of Health Promotion and Human Performance

Major

Athletic Training Major

Corrected Major

This major was modified on October 10, 2016, to correct an error. ATTR 491 and ATTR 495 are not required for this major and were removed. The "Sports Medicine – Athletic Training" core was reduced by six credit hours, from 86 to 80.

The Bachelor of Science in Athletic Training program at Eastern Michigan University is a rigorous and intense program that places specific requirements and demands on the students enrolled in the program. An objective of this program is to prepare graduates to enter a variety of employment settings and to render care to a wide spectrum of individuals engaged in physical activity. The technical standards set forth by the athletic training education program establish the qualities considered necessary for students to achieve the knowledge, skills and competencies of an entry-level athletic trainer, as well as meet the expectations of the program's accrediting agency (Commission on Accreditation of Athletic Training Education (CAATE)). The following abilities and expectations must be met by all students admitted to the athletic training educational program. In the event a student is unable to fulfill these technical standards, with or without reasonable accommodation, the student will not be admitted into the program.

Compliance with the program's technical standards does not guarantee a student's eligibility for the Board of Certification (BOC) certification exam. Students also must complete all requirements of the ATEP.

Candidates for the athletic training education program must demonstrate:

- The capacity to assimilate, analyze, synthesize, integrate concepts and solve problems to formulate assessment and therapeutic judgments and to be able to distinguish deviations from the norm.
- Sufficient postural and neuromuscular control, sensory function and coordination to perform appropriate physical examinations using accepted techniques; and to accurately, safely and efficiently use equipment and materials during the assessment and treatment of patients.
- The ability to communicate effectively with patients and colleagues, including individuals from different cultural and social backgrounds; this includes, but is not limited to, the ability to establish rapport with patients and communicate judgments and treatment information effectively. Students must be able to understand and speak the English language at a level consistent with competent professional practice.
- The ability to record the physical examination results and a treatment plan clearly and accurately.
- The capacity to maintain composure and continue to function well during periods of high stress.
- The perseverance, diligence, and commitment to complete the athletic training education program as outlined and sequenced.
- Flexibility and the ability to adjust to changing situations and uncertainty in clinical situations.

Affective skills and appropriate demeanor and rapport that relate to professional education and quality patient care.

Candidates for selection to the athletic training education program will be required to verify they understand and meet these technical standards or that they believe that, with certain accommodations, they can meet the standards.

The Disability Resource Center will evaluate a student who says he/she could meet the program's technical standards with accommodation and confirm that the stated condition qualifies as a disability under applicable laws.
If a student says he/she can meet the technical standards with accommodation, the University will determine whether it agrees that the student can meet the technical standards with reasonable accommodation. This includes a review of whether the accommodations requested are reasonable, taking into account whether accommodation would jeopardize clinician/patient safety or the educational process of the student or the institution, including all course work, clinical experiences and internships deemed essential to graduation.

Students in the Athletic Training Education Program that are applying to begin their clinical Education must obtain and submit a medical physical to be reviewed by a physician. They must obtain, complete and submit an application for ATTR 225 and complete the Hepatitis B vaccination form prior to enrolling in the clinical education coursework. These forms may be printed from the Athletic Training website or picked up from the Athletic training Education Program Coordinator.

When an "intent" has successfully achieved the above, he/she must apply for "First Year Review". The application form can be obtained from the program coordinator or the clinical coordinator or online at the program's website. The "intent" will be notified of the date and time for a personal interview with the Athletic Training Education Committee.

All forms and the most up to date information about the Athletic Training Education Program can be obtained from the program website: www.emich.edu/hphp/ATRindex.html

School Information:

General Education Requirements:

For specific requirements refer to the General Education Program.

Additional Requirements: 8 hours

- CHEM 120 - Fundamentals of Organic and Biochemistry (GEKN) 4 hrs
- PSY 101 - General Psychology Lecture (GEKN) 3 hrs
- PSY 103 - General Psychology Laboratory (GEKN) 1 hr

Sports Medicine - Athletic Training: 80 hours

- ATTR 201 - Human Anatomy for Sports Medicine 3 hrs
- ATTR 202 - Human Physiology for Sports Medicine 3 hrs
• ATTR 219 - Introduction to Athletic Training 3 hrs
• ATTR 225 - Practicum I 3 hrs
• ATTR 290 - Practicum II 3 hrs
• ATTR 295 - Assessment of Lower Body Injuries 4 hrs
• ATTR 296 - Assessment of Upper Body Injuries 4 hrs
• ATTR 304 - Structural Kinesiology 3 hrs
• ATTR 310 - Emergency Care in Athletic Training 2 hrs
• ATTR 321 - Therapeutic Modalities for AT. with Lab 3 hrs
• ATTR 322 - Therapeutic Exercise for Athletic Trainers with Lab 3 hrs
• ATTR 326 - Practicum III 3 hrs
• ATTR 327 - Practicum IV 3 hrs
• ATTR 384 - Ergogenic Aids and Athletic Performance 2 hrs
• ATTR 390 - Senior Practicum 3 hrs
• ATTR 395 - Advanced Topics in AT 3 hrs
• ATTR 419 - Medical Aspects of Athletic Training 3 hrs
• ATTR 420 - Administrative and Legal Aspects of Athletic Training 2 hrs
• ATTR 485 - Seminar in Athletic Training 3 hrs
• ATTR 490 - Internship — Athletic Training 6 hrs
• DTC 204 - Sports Nutrition 3 hrs
• PHIL 223 - Medical Ethics (GEKH) 3 hrs
• SPMD 280 - Pharmacology for Sports Medicine 2 hrs
• SPMD 300 - Physiology of Exercise 4 hrs
• SPMD 305 - Kinesiology-Tissue Mechanics 3 hrs
• SPMD 380W - Behavioral Aspects of Sports Medicine (GEWI) 3 hrs

Electives: 13 hours

Program Total:

Students must earn a minimum total of 124 credits at the 100-level or above.

Notes:

The above curriculum, numerous clinical competencies/proficiencies and clinical experience under the supervision of an NATA-certified athletic trainer are required for graduation and to sit for the NATABOC certification exam. In addition, completed athletic training education competencies are required by all students prior to graduation from the CAAHEP accredited program. Clinical education must be attained in no less than two academic years and not more than five years.

Critical Graduation Information:

Each undergraduate student will be responsible for the fulfillment of the requirements or their equivalents of the Eastern Michigan University catalog in force at the time of their initial registration at a college or university or a subsequent catalog including the one in effect at the time of their graduation.

In the event an undergraduate student does not complete the degree requirements within seven years of the date of their original registration at a college or university, the student may be required to have their credits re-evaluated by the academic department(s) of their major/minor in keeping with catalog requirements in force during the year of their graduation.
The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the 100-level and above. Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Complete a Writing Intensive (WI) Course in your major.
- Earn a minimum of 60 credits from a four-year college or university; courses taken at community colleges cannot be used to meet this requirement. (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 unique credit hours in their major and 20 unique credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
- Earn no more than 60 credit hours in one subject area (prefix). Credits in excess of the 60 maximum will not be counted toward the minimum of 124 credits required for a bachelor's degree.
- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more that one major or minor.
  - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor.
  - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
  - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor.
- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is conducted by individual departments/schools within EMU, and additional documentation may be required. Please note: EMU awards only credit for transferred courses; grades are not used in the calculation of an EMU GPA.
- Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be reached in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

General Education Requirements:

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available in the General Education section of the catalog: General Education

Students who transferred to EMU may have modified general education requirements based on Michigan Transfer Agreement (MTA) or articulation agreements; consult your academic advisor for additional information.

University Information: Consult the online catalog at catalog.emich.edu.

Exercise Science Major
Admission Criteria:

Students entering the exercise science program are listed as "intents" and will be considered for candidacy when the following criteria are met:

1. Declaration of intent to major in exercise science by going to the UACDC website
2. An overall GPA at Eastern Michigan University of 2.80 (transfer GPA evaluated separately).
3. Completion of all pre-candidacy courses in the exercise science major with a B- or better.

When an "intent" has successfully achieved the above, he or she must complete the candidacy application, including the application form, and a biographical sketch, and turn this in to their advisor. Once accepted into candidacy, the student must maintain a minimum 2.8 GPA. The student will not be allowed to complete the internship experience (SPMD 480) if the GPA falls below 2.8. In addition, a grade of B- or better must be attained in all required and elective courses in the exercise science major. If the above are not met, the course(s) in question must be retaken. CPR certification by the American Red Cross or American Heart Association is also required as part of this program.

acornet2@emich.edu

General Education Requirements:

For specific requirements refer to the General Education Program.

Major Requirements: 66-68 hours

Pre-candidacy Courses: 24-25 hours

- PHY 221 - Mechanics, Sound and Heat (GEKN) 4 hrs
- SPMD 144 - Introduction to Exercise Science 2 hrs
- SPMD 201 - Human Anatomy for Sports Medicine 3 hrs
- SPMD 202 - Human Physiology for Sports Medicine 3 hrs
- SPMD 300 - Physiology of Exercise 4 hrs
Choose one from each group:

* For students also preparing for medical school, physical therapy school or physician assistant school, BIO 110 and CHEM 121/122 should be taken instead of BIO 105 and CHEM 120. These substitutions will meet program and general education requirements. Grade requirements will still be enforced.

Group I:

- * BIO 105 - Introductory Biology for Non-majors (GEKN) 4 hrs
- * BIO 110 - Introductory Biology I (GEKN) 5 hrs

Group II:

- * CHEM 120 - Fundamentals of Organic and Biochemistry (GEKN) 4 hrs
  OR
- * CHEM 121 - General Chemistry I (GEKN) 3 hrs
  AND
- * CHEM 122 - General Chemistry I Laboratory (GEKN) 1 hr

Required Courses: 13 hours

- DTC 204 - Sports Nutrition 3 hrs
- SPMD 280 - Pharmacology for Sports Medicine 2 hrs
- SPMD 305 - Kinesiology-Tissue Mechanics 3 hrs
- SPMD 325 - Practicum in Exercise Science 2 hrs
- SPMD 380W - Behavioral Aspects of Sports Medicine (GEWI) 3 hrs

Required Courses (Postcandidacy): 24 hours

- SPMD 410 - Laboratory Techniques in Human Performance Analysis 4 hrs
- SPMD 430 - Principles of Electrocardiography 3 hrs
- SPMD 431 - Pathophysiology for Sports Medicine 3 hrs
- SPMD 432 - Introduction to Exercise Programming 3 hrs
- SPMD 433 - Principles of Sport Performance Training 3 hrs
- SPMD 480 - Internship — Exercise Science 8 hrs

Elective Courses: 5-6 hours

- Any undergraduate or graduate 500-level SPMD course
- ATTR 295 - Assessment of Lower Body Injuries 4 hrs
- ATTR 296 - Assessment of Upper Body Injuries 4 hrs
- SPMD 407 - Fitness Center Management 3 hrs
- SPMD 434 - Introduction to Echocardiography 2 hrs
- SPMD 508 - Exercise Epidemiology 3 hrs
- SPMD 515 - Diabetes and Obesity 3 hrs
- SPMD 518 - Sports Supplements 3 hrs
• PHED 260 - Motor Development 2 hrs
• PHED 431 - Motor Learning 3 hrs

Minor Requirements:

This major does not require a minor. For students interested in fitness and wellness center management, a minor in management (21 hours) is encouraged.

Program Total:

Students must earn a minimum total of 124 credits at the 100-level or above.

Critical Graduation Information:

Each undergraduate student will be responsible for the fulfillment of the requirements or their equivalents of the Eastern Michigan University catalog in force at the time of their initial registration at a college or university or a subsequent catalog including the one in effect at the time of their graduation.

In the event an undergraduate student does not complete the degree requirements within seven years of the date of their original registration at a college or university, the student may be required to have their credits re-evaluated by the academic department(s) of their major/minor in keeping with catalog requirements in force during the year of their graduation.

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

• Earn a minimum total of 124 credits at the 100-level and above. Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.

• Meet the requirements of the General Education program (see information below).

• Complete a Writing Intensive (WI) Course in your major.

• Earn a minimum of 60 credits from a four-year college or university; courses taken at community colleges cannot be used to meet this requirement. (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)

• Earn a minimum of 30 credits from courses taken at EMU.

• Complete 10 of the last 30 hours for the degree from courses taken at EMU.

• Have a minimum of 30 unique credit hours in their major and 20 unique credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.

• Earn no more than 60 credit hours in one subject area (prefix). Credits in excess of the 60 maximum will not be counted toward the minimum of 124 credits required for a bachelor's degree.

• Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more that one major or minor.
  • Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
  • Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
  • Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor
Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is conducted by individual departments/schools within EMU, and additional documentation may be required. Please note: EMU awards only credit for transferred courses; grades are not used in the calculation of an EMU GPA.

Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be reached in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

General Education Requirements:

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available in the General Education section of the catalog: General Education

Students who transferred to EMU may have modified general education requirements based on Michigan Transfer Agreement (MTA) or articulation agreements; consult your academic advisor for additional information.

University Information: Consult the online catalog at catalog.emich.edu.

K -12 Physical Education Teacher Education Major

Revised Program, effective Fall 2014

K-12 Physical Education Teacher Education (PETE) Admission

Starting in Fall 2014, the Physical Education Program will be initiating an accreditation-related internal application process for all K-12 Physical Education Teacher Education (PETE) intent major students. The K-12 PETE admission process will be as follows:

Eligibility to apply:

1. Students must declare a K-12 PETE intent major and follow advising guidance from the School of Health Promotion & Human Performance intent advisor
2. In the student's second fall semester and after the student has completed PHED 100 and PHED 200 with a grade of a C or better, the student will be eligible to apply for admission to the major
3. The student must also have completed or intend to complete PHED 102, PHED 204, PHED 205, and PHED 260 with a minimum of a C grade by end of the application decision semester (Winter).

Specific application information and format is available from the School of Health Promotion & Human Performance intent advisor and on the Physical Education Program website.

Application Process:
By Nov. 1 of the year of application, the student must complete and submit an application for admission to the K-12 PETE major. The initial application includes the following components:

1. Student demographic information
2. Personal statement of professional goals related to Physical Education teaching
3. Verification of current 2.5 overall EMU GPA
4. Advisor verification of all necessary pre-admission coursework

By Dec. 15 of the same year, the student must:

1. Complete a candidacy interview
2. Have complete FITNESSGRAM health-related fitness assessment data on file with the Physical Education Program
3. Have complete fundamental motor competency performance data on file with the Physical Education Program

Applicants will be informed of available dates and times for interviews, FITNESSGRAM fitness assessments, and fundamental motor competency assessments. It is the student's responsibility to make sure he or she is available to complete the required admission assessments after dates are released each school year.

By Feb. 15 of each year, the Physical Education Program will make K-12 PETE major admission decisions. If an admitted student is deficient in one or more of the following categories: (1) motor skill performance, (2) FITNESSGRAM health-related fitness, and/or (3) professional dispositions as they relate to the teaching profession, the student will be required to meet with his or her assigned faculty adviser to create an individual professional development plan (IPDP) to remediate areas of professional weakness. This plan will include personal progress goals, possible student strategies for remediation, a timeline for progress, and how progress will be assessed.

Successful Progress in the K-12 PETE Major:

If the student fails to do any of the following by Nov. 1 of the final school year of coursework, the student will be dismissed from the major.

1. Meet progress expectations of an individual remediation of professional weakness plan,
2. Maintain a minimum of a cumulative 2.5 GPA
3. Achieve admission into the College of Education Initial Teacher Preparation program
4. Achieve a minimum grade of B- in every Methods of Teaching course and a minimum grade of C in all other major courses

K-12 PETE Student Teaching Eligibility:

Each K-12 PETE major is responsible for maintaining progress to his or her major and minor plan of study in conjunction with a faculty advisor. Student teaching is the final professional experience in this teacher certification program. Applications to student teaching are due to the EMU College of Education by January 15 (fall student teaching) or June 15 (winter student teaching). http://www.emich.edu/coe/students/undergraduate/student_teaching/applications.html

In addition to following all EMU College of Education student teaching application requirements, the student must also submit a complete Physical Education Pre-Student Teaching portfolio to the Physical Education Program by November 15 (for Winter semester student teaching) and April 15 (for Fall semester student teaching). This portfolio must follow all official guidelines as established by the Physical Education Program. These guidelines include

1. Documentation of 100 hours of specific pre-student teaching K-12 Physical Education observation/clinical experiences,
2. 30 hours of K-12 Physical Education professional development experiences, and
3. Artifacts and reflection of how the student meets or exceeds target professional expectations and standards of an "Initial Physical Education Teacher" as established by the National Association for Sport and Physical Education (NASPE, 2008).

Guidelines and procedures for completing this portfolio are overviewed in PHED 102, are available on the Physical Education Program website, and are a part of advising once accepted to the major.
Student Appeals:

If a student wishes to appeal an admission or dismissal decision, the student must submit a request for appeal with the Physical Education Program coordinator. The Physical Education Program coordinator will follow up with each student appeal on a case-by-case basis according to the EMU College of Education Red Flag policy (linked below) and a decision will be made if/how the student is allowed to continue in the K-12 PETE major.

http://www.emich.edu/coe/oas/docs/manuals/general_policies_procedures.pdf

Initial Teacher Preparation Program Admission

In order to pursue the sequence of courses necessary to complete eligibility for recommendation for certification, one must apply for and be admitted to the teacher preparation program. Admission requirements are common for all teacher preparation programs, except that certain special education programs have additional requirements.

Each undergraduate student is responsible for applying to the teacher preparation program immediately after the semester in which the student has earned 56 credit hours. Transfer students with more than 56 credit hours should apply immediately after the semester in which they have earned 12 hours at EMU, including at least one course in their major. Students with 56 hours of transfer course work with a decision GPA of 3.0 may apply for admission to the teacher preparation program without 12 earned hours at EMU.

Admission to the teacher preparation program is not automatic. Only those persons who have formally applied are considered for admission. Not all persons who apply become eligible for admission.

Applications for the Initial Teacher Preparation Program at EMU are available within your my.emich account under the "Student" tab. Submit your completed application to the Office of Academic Services once you have earned 56 credit hours.

Teaching majors and minors are unofficial until program admission. Students pursuing teacher certification should follow the catalog that exists at the time of program admission. It is important that students apply to the teacher preparation program as soon as they have earned 56 credit hours.

Criteria:

1. Completion of 56 credit hours
2. Appropriate cumulative GPA. One of:
   1. An overall EMU GPA of 2.5 or higher based on a minimum of 12 credit hours taken at EMU. An EMU GPA of 2.5 or higher in your major, based on at least one course in your major. The Elementary Education Major is comprehensive, therefore, the elementary major GPA is based on the cumulative of liberal arts curriculum and content course work.
   2. Transferred 56 credits with a cumulative 3.0 GPA from all previous institutions.
3. A grade of "C" or higher (if taken) in the following courses:
   1. If Secondary: ENGL 121, CTAC 124, Quantitative Reasoning (GEQR), one lab science, all professional education courses, and, if special education, PSY 101.
   2. If Elementary: ENGL 121, CTAC 124, MATH 108, MATH 110E, PHY 100, ESSC 202, all of the professional education courses, all courses that state "for elementary teachers," and, if special education, PSY 101.
4. Official Test Scores showing competency in each of the following areas: mathematics, reading and writing. Scores are accepted from the Professional Readiness Exam (PRE), Basic Skills Test (no longer offered), ACT, or Michigan Merit Exam (MME). The following scores are acceptable:
   1. Mathematics: PRE pass, Basic Skills pass, ACT mathematics 22 or higher, or MME mathematics 1116 or higher.
2. **Writing:** PRE pass, Basic Skills pass, ACT combined English/writing 24 or higher, or MME writing 1129 or higher.
3. **Reading:** PRE pass, Basic Skills pass, ACT reading 22 or higher, or MME reading 1108 or higher.
5. ICHAT criminal background check and Statement of Civil/Criminal Convictions. If you answered yes to any of the civil/criminal conviction questions on the application, you will need to provide:
   1. A copy of the Judgment of Sentence, or Registrar of Actions, or Certification of Conviction.
   2. A written explanation of the offense(s). Application of students with civil/criminal convictions will be carefully reviewed and may take longer to process.
6. Meet academic, social, moral, and financial obligations as a member of the EMU community.

**General Education Requirements:**

For specific requirements refer to the General Education Program.

**Pre-Admission Requirements: 20 Hours**

*Students will need to complete these courses prior to being admitted into the K-12 Physical Education Teacher Education Major*

- PEGN 210L - Lifetime Wellness and Fitness (GELB) 2 hrs
- PHED 100 - Foundations of Physical Education and Physical Activity 2 hrs
- PHED 102 - Introduction to Teaching Physical Education 2 hrs
- PHED 200 - Anatomy and Physiology 5 hrs
- PHED 204 - Kinesiology (Biomechanics of Physical Activity) 3 hrs
- PHED 205 - Physiology of Exercise 4 hrs
- PHED 260 - Motor Development 2 hrs

**Major Requirements: 33 hours**
Students must be admitted to the K-12 Physical Education Major prior to taking the following courses.

Students must complete all methods of teaching courses with no single course grade lower than a B-. All other major courses must be completed with no single course grade lower than a C.

- HLED 210 - First Aid and CPR Certification 2 hrs
- PEGN 204 - Lifeguard Training (GELB) 2 hrs
- PHED 302 - Methods of Teaching Elementary Physical Education 3 hrs
- PHED 306 - Methods of Teaching Games and Activities in Physical Education 1 2 hrs
- PHED 307 - Methods of Teaching Games and Activities in Physical Education II 2 hrs
- PHED 308 - Methods of Teaching Rhythmic Activities, Dance and Creative Movement 2 hrs
- PHED 309 - Methods of Teaching Outdoor Pursuits and Adventure Education 2 hrs
- PHED 315 - Methods of Teaching Outdoor Pursuits and Adventure Education 2 hrs
- PHED 330 - Adapted Physical Education 3 hrs
- PHED 354 - American Red Cross Water Safety Instructor 2 hrs
- PHED 431 - Motor Learning 3 hrs
- PHED 460 - Assessment and Evaluation in Physical Education 4 hrs
- PHED 485 - Curriculum and Program Design in Physical Education 3 hrs
- PHED 495 - Physical Education Student Teaching Seminar 1 hr

Initial Teacher Preparation Program: 22 hours

Pre-admission: 4 hours

- EDPS 322 - Human Development and Learning 4 hrs

Phase I: 3 hours

- SOFD 328W - Schools for a Diverse and Democratic Society (GEWI) 3 hrs

Phase II: 3 hours

- RDNG 311 - Teaching Reading in the Secondary School 3 hrs

Phase III: 12 hours

- EDUC 496 - Student Teaching (GELB) 6 hrs
- EDUC 497 - Student Teaching (GELB) 6 hrs

Minor Requirements:

This program requires a minor. Please contact your program advisor for a list of possible minors. Students in this major are strongly encouraged to select the School Health Education Minor.

Program Total:
Students must earn a minimum total of 124 credits at the 100-level or above.

**MTTC Subject Area Test**

Starting January 1, 2013, Students seeking licensure in a secondary or K-12 area are not required to take the MTTC subject area test in their minor area. Students who elect not to take the test in their minor will be required to sign a statement indicating that they understand that they will not be endorsed in their minor area and will not be eligible for teaching positions in their minor unless they pass the minor subject area test within five years of completing field experience and course requirements.

**Critical Graduation Information:**

Each undergraduate student will be responsible for the fulfillment of the requirements or their equivalents of the Eastern Michigan University catalog in force at the time of their initial registration at a college or university or a subsequent catalog including the one in effect at the time of their graduation.

In the event an undergraduate student does not complete the degree requirements within seven years of the date of their original registration at a college or university, the student may be required to have their credits re-evaluated by the academic department(s) of their major/minor in keeping with catalog requirements in force during the year of their graduation.

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the **100-level and above**. Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Complete a Writing Intensive (WI) Course in your major.
- Earn a minimum of 60 credits from a four-year college or university; courses taken at community colleges cannot be used to meet this requirement. (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 **unique** credit hours in their major and 20 **unique** credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
- Earn no more than 60 credit hours in one subject area (prefix). Credits in excess of the 60 maximum will not be counted toward the minimum of 124 credits required for a bachelor's degree.
- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more that one major or minor.
  - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
  - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
  - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor
- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S.
institutions; the internal review of such courses is conducted by individual departments/schools within EMU, and additional documentation may be required. Please note: EMU awards only credit for transferred courses; grades are not used in the calculation of an EMU GPA.

- Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be reached in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

**General Education Requirements:**

EMU’s General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available in the General Education section of the catalog: General Education

Students who transferred to EMU may have modified general education requirements based on Michigan Transfer Agreement (MTA) or articulation agreements; consult your academic advisor for additional information.

**University Information:** Consult the online catalog at catalog.emich.edu.

**Sport Management Major**

**Revised Program, effective Winter 2014**

**School Information:**

School of Health Promotion & Human Performance - College of Health and Human Services

**Advisor Information:**

Michael Bretting, Ph.D.

318 Porter
734-487-0275
mbretting@emich.edu

**Program Admission:**

Students who are interested in the sport management major will be listed as "pre-sport management” and will be considered for candidacy to "sport management” when the following criteria are met:

1. Declare intent to major in sport management by going to UACDC's Website.
2. Achieve an overall GPA at Eastern Michigan University of 2.5 (transfer GPA evaluated separately) after the sophomore year.

3. Student must have attained a minimum of a B- in SMGT 201, SMGT 255, and SMGT 265 before being approved to register for 300 and 400 level courses in the program.

Once accepted, the student must maintain a minimum of a 2.75 GPA in the major courses. The student will not be allowed to complete the Fieldwork experience any semester that overall average falls below a 2.75. In addition, a grade of a B- or better must be attained in the following courses: SMGT 201, SMGT 255, and SMGT 265 before being approved to register for 300 and 400 level courses in the program.

General Education Requirements:

For specific requirements refer to the General Education Program.

Required Core Courses: 42 hours

- LAW 411 - Sports Law 3 hrs
- SMGT 201 - Foundations of Sport Management 3 hrs
- SMGT 255 - Sports in Society 3 hrs
- SMGT 265 - Foundations of Sport Leadership 3 hrs
- SMGT 305 - Applied Sport Psychology for Sport Management Professionals 3 hrs
- SMGT 325 - Sport Facilities 3 hrs
- SMGT 375 - Sport and Event Planning 3 hrs
- SMGT 385W - Introduction to Research in Sport Management (GEWI) 3 hrs
- SMGT 425 - Diversity in Sport Organizations 3 hrs
- SMGT 445 - Sport Economics and Finance 3 hrs
- SMGT 460 - Sports Ethics 3 hrs
- SMGT 493 - Fieldwork in Sport Management I 3 hrs
- SMGT 495 - Fieldwork in Sport Management 3 hrs
- SMGT 494 - Fieldwork in Sport Management 3 hrs

Possible Electives:

- SMGT 477 - Special Topics 1 hr
- SMGT 478 - Special Topics 2 hrs
- SMGT 479 - Special Topics 3 hrs
- SMGT 511 - NCAA Compliance 3 hrs

Minor Requirements:

This major requires a minor. Choose a minor from the following:

Communication Minor
Entrepreneurship Minor (For nonbusiness majors)
Nonprofit Administration Minor
General Business Minor - (For nonbusiness majors)
Hotel and Restaurant Management Minor
Management Minor - (For nonbusiness majors)
Marketing Minor - (For nonbusiness majors)

Program Total:

Students must earn a minimum total of 124 credits at the 100-level or above.

Critical Graduation Information:

Each undergraduate student will be responsible for the fulfillment of the requirements or their equivalents of the Eastern Michigan University catalog in force at the time of their initial registration at a college or university or a subsequent catalog including the one in effect at the time of their graduation.

General Education Requirements:

For specific requirements refer to the General Education Program.
Sport Performance and Fitness Entrepreneurship Major:

Sports Performance and Fitness: 56 hours

Theoretical Core Courses: 24 hours

- HLED 210 - First Aid and CPR Certification 2 hrs
- HLED 242 - Theoretical Foundations of Heath Behavior 3 hrs
- PHED 100 - Foundations of Physical Education and Physical Activity 2 hrs
- PHED 200 - Anatomy and Physiology 5 hrs
  Note: Department may allow students to substitute SPMD 201 - Human Anatomy for Sports Medicine & SPMD 202 - Human Physiology for Sports Medicine for PHED 200.
- PHED 204 - Kinesiology (Biomechanics of Physical Activity) 3 hrs
- PHED 205 - Physiology of Exercise 4 hrs
- PHED 260 - Motor Development 2 hrs
- PHED 431 - Motor Learning 3 hrs

Applied Core Courses: 19 hours

- DTC 101 - Fundamentals of Personal Nutrition 3 hrs
- PEGN 206 - Fitness Instructor and Personal Trainer Certification Preparation (GELB) 3 hrs
- SPMD 380W - Behavioral Aspects of Sports Medicine (GEWI) 3 hrs
- SPMD 407 - Fitness Center Management 3 hrs
- SPMD 410 - Laboratory Techniques in Human Performance Analysis 4 hrs
- SPMD 433 - Principles of Sport Performance Training 3 hrs

Performance and Fitness Courses: 13 hours

- CTAC 224 - Public Speaking 3 hrs
- PHED 257 - Physical Education for the Classroom Teacher 2 hrs
  Note: Sport Performance and Fitness Entrepreneurship Majors need to take a specific section of PHED 257. Please see program coordinator for more information.
- PHED 309 - Methods of Teaching Outdoor Pursuits and Adventure Education 2 hrs
- PHED 341 - Methods of Physical Training and Performance Enhancement 2 hrs
- PHED 342 - Methods of Holistic Fitness 2 hrs
- PHED 343 - Methods of Group Exercise Instruction 2

Entrepreneurship Minor:

This program requires students to complete the Entrepreneurship Minor (For nonbusiness majors) in the Management Department in the College of Business.

Internship: 8 hours
Prior to Internship enrollment, students are required to complete all coursework in the Sport Performance and Fitness Entrepreneurship Major and the Entrepreneurship Minor (For nonbusiness majors). Students should contact their faculty advisor for internship application deadlines and further details.

- PHED 482 - Internship for Sport Performance and Fitness Entrepreneurship

**Major Total:** 64 hours

**Entrepreneurship Minor:** 21 hours

**Program Total:**

Students must earn a minimum total of 124 credits at the 100-level or above.

**Critical Graduation Information:**

Each undergraduate student will be responsible for the fulfillment of the requirements or their equivalents of the Eastern Michigan University catalog in force at the time of their initial registration at a college or university or a subsequent catalog including the one in effect at the time of their graduation.

**Minor Requirements: 20 hours**
Required Courses: 17 hours

- HLED 130 - Healthy Sexuality 3 hrs
- HLED 210 - First Aid and CPR Certification 2 hrs
- HLED 270 - Principles of Health Education 3 hrs
- HLED 305 - Current Health Issues I 3 hrs
- HLED 315 - Current Health Issues II 3 hrs
- HLED 490 - Drug Use and Abuse 3 hrs

Restricted Elective Courses: 3 hours

Students will choose three credit hours of health-related coursework in consultation with their health minor advisor.

Minor Total: 20 hours

Writing Intensive Course

Each student must choose a writing intensive course as part of major completion requirements. Consult your advisor for course options.

Note:

All minors must have at least six hours of coursework at the 300-level or above.

Critical Graduation Information:

Each undergraduate student will be responsible for the fulfillment of the requirements or their equivalents of the Eastern Michigan University catalog in force at the time of their initial registration at a college or university or a subsequent catalog including the one in effect at the time of their graduation.

In the event an undergraduate student does not complete the degree requirements within seven years of the date of their original registration at a college or university, the student may be required to have their credits re-evaluated by the academic department(s) of their major/minor in keeping with catalog requirements in force during the year of their graduation.

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the 100-level and above. Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Complete a Writing Intensive (WI) Course in your major.
- Earn a minimum of 60 credits from a four-year college or university; courses taken at community colleges cannot be used to meet this requirement. (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
• Complete 10 of the last 30 hours for the degree from courses taken at EMU.
• Have a minimum of 30 unique credit hours in their major and 20 unique credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
• Earn no more than 60 credit hours in one subject area (prefix). Credits in excess of the 60 maximum will not be counted toward the minimum of 124 credits required for a bachelor's degree.
• Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more that one major or minor.
  ○ Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
  ○ Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
  ○ Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor.
• Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is conducted by individual departments/schools within EMU, and additional documentation may be required. Please note: EMU awards only credit for transferred courses; grades are not used in the calculation of an EMU GPA.
• Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be reached in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

**General Education Requirements:**

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available in the General Education section of the catalog: General Education

Students who transferred to EMU may have modified general education requirements based on Michigan Transfer Agreement (MTA) or articulation agreements; consult your academic advisor for additional information.

**University Information:** Consult the online catalog at catalog.emich.edu.

**Recreation and Park Management Minor**

The mission of the recreation and park management minor is to provide a core of training that is sufficient in depth and breadth for individuals from a variety of specializations to become employed in public and private agencies to supervise recreation facilities and provide recreation services. The need to integrate into the community, to reposition the recreation profession as a catalyst for decision making, and to assist in solving community problems are emphasized. Training in the minor is directed to heighten concern for providing recreation opportunities in an increasingly pluralistic society and to promote environmental stewardship and sustainability.

The recreation and parks management minor is aimed at:

1. Majors who desire training in the recreation industry and who are concurrently acquiring knowledge and skills in, for example, business, the humanities and social sciences.
2. Individuals seeking training in the recreation industry after earning a degree, but who choose not to seek a second degree.
3. Individuals who already have a degree and who have or who are working in a variety of fields but seek a change in employment to the recreation industry.

4. Majors in other fields who want to develop additional employment opportunities in the recreation industry in addition to their own specialization.

5. Individuals who desire knowledge and skills of the recreation industry.

Objectives of the minor:

1. To build on an existing and/or developing base of knowledge and skills in other occupational areas.

2. To provide knowledge and skills to succeed in the recreation industry.

3. To provide knowledge of leisure and recreation as phenomena in society.

4. To provide the opportunity to earn the minor in two semesters for individuals seeking to retool in an occupational specialty.

Minor Requirements: 25 hours

• PHED 200 - Anatomy and Physiology 5 hrs
• PHED 204 - Kinesiology (Biomechanics of Physical Activity) 3 hrs
• PHED 260 - Motor Development 2 hrs
• PHED 205 - Physiology of Exercise 4 hrs
• PHED 315 - Methods of Fitness Education in Physical Education 2 hrs
• PHED 330 - Adapted Physical Education 3 hrs
• PHED 485 - Curriculum and Program Design in Physical Education 3 hrs
One course from the following:

- PHED 306 - Methods of Teaching Games and Activities in Physical Education I 2 hrs
- PHED 307 - Methods of Teaching Games and Activities in Physical Education II 2 hrs

Minor Total: 25 hours

Note:

All minors must have at least six hours of course work at the 300-level or above.

MTTC Subject Area Test

Starting January 1, 2013, Students seeking licensure in a secondary or K-12 area are not required to take the MTTC subject area test in their minor area. Students who elect not to take the test in their minor will be required to sign a statement indicating that they understand that they will not be endorsed in their minor area and will not be eligible for teaching positions in their minor unless they pass the minor subject area test within five years of completing field experience and course requirements.

Critical Graduation Information:

Each undergraduate student will be responsible for the fulfillment of the requirements or their equivalents of the Eastern Michigan University catalog in force at the time of their initial registration at a college or university or a subsequent catalog including the one in effect at the time of their graduation.

In the event an undergraduate student does not complete the degree requirements within seven years of the date of their original registration at a college or university, the student may be required to have their credits re-evaluated by the academic department(s) of their major/minor in keeping with catalog requirements in force during the year of their graduation.

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the 100-level and above. Courses with numbers below 100 will not be counted toward this degree requirement. Students who transferred to EMU may have modified general education requirements based on Michigan Transfer Agreement (MTA) or articulation agreements; consult your academic advisor for additional information.

University Information: Consult the online catalog at catalog.emich.edu.

Athletic Training

ATTR 201 - Human Anatomy for Sports Medicine

Required lecture course for sports medicine majors that examines the structure of the human body. In addition to lecture format, computer graphic software will be utilized to enhance the learning process.

Credit Hours: 3 hrs
Prerequisite: departmental permission and 2.5 GPA in sports medicine
Corequisites: ATTR 202
Cross-Listed with: SPMD 201
Last Updated: 2/28/2011

ATTR 202 - Human Physiology for Sports Medicine

Required lecture course for sports medicine majors that examines the structure and function of the human body.

Credit Hours: 3 hrs
Prerequisite: departmental permission and 2.5 GPA in sports medicine
Corequisites: ATTR 201
Class Restrictions: Sophomore standing or above
Cross-Listed with: SPMD 202
Last Updated: 2/28/2011
ATTR 219 - Introduction to Athletic Training

An introduction designed to expose the student to the discipline of athletic health care. The student will study modern concepts of the prevention and care of athletic injury and common health care issues.

Credit Hours: 3 hrs
Last Updated: Prerequisite Change 12/2013, effective Summer 2014; 2/28/2011

ATTR 225 - Practicum I

A required course that will provide students with information regarding basic skills of athletic training. The content of the course will involve taping and wrapping skills, stethoscope and blood pressure measurement techniques, basic modality usage, record keeping, OSHA training and ambulatory aid fitting and usage.

Credit Hours: 3 hrs
Prerequisite: GPA 2.8, SPMD 119 and department permission
Course Revisions: Effective Winter 2015, SPMD 119 will be removed as a prerequisite for this course.

Last Updated: Course revision note 10/2014; 2/28/2011

ATTR 290 - Practicum II

This course will provide students with an athletic training experience under the direct supervision of a certified athletic trainer. The content of the course will involve topical anatomy identification and assessment, situational orthopedic assessment, development of taping, padding and bracing skills, and emergency care. The clinical component will require a minimum of 20-25 hours per week.

Credit Hours: 3 hrs
Prerequisite: ATTR 225, 2.9 GPA and department permission
Corequisites: ATTR 296 and ATTR 304
Major Restrictions: Athletic Training Major
Last Updated: Change to Course Description and Credit Hours 12/2013, effective Summer 2014; 2/28/2011

ATTR 295 - Assessment of Lower Body Injuries

A study of the principles, procedures and techniques that are commonly utilized in the recognition and assessment process of athletic injury to the lower body. Emphasis is placed on taking a history, physical examination and the special tests of athletic injury. The course is lecture and lab. However, demonstrations and practical skill analysis supplement the course.

Credit Hours: 4 hrs
Prerequisite: ATTR 290 and ATTR 296
Corequisites: ATTR 310, ATTR 321 and ATTR 326
Last Updated: Change to Credit Hours 12/2013, effective Summer 2014; 2/28/2011

ATTR 296 - Assessment of Upper Body Injuries

A study of principles, procedures and techniques that are commonly utilized in the recognition and assessment process of athletic injury to the upper body. Emphasis is placed on taking a history, physical examination and the special tests of athletic injury. The course is lecture and lab. However, demonstrations and practical skill analysis supplement the course.

Credit Hours: 4 hrs
Prerequisite: ATTR 219, ATTR 201, ATTR 202 and ATTR 225
Corequisites: ATTR 290 and ATTR 304
Last Updated: Change to Credit Hours 12/2013, effective Summer 2014; 2/28/2011

ATTR 304 - Structural Kinesiology

This course involves a study of the basic functional anatomy and kinesiology principles. Emphasis will be placed on musculoskeletal anatomy including, muscle origins and insertions. Additionally, special attention will be placed on joint motion identification and quantification. An understanding of basic bio-mechanics principles will also be covered, as well as general body movement analysis.

Credit Hours: 3 hrs
Prerequisite: ATTR 201, ATTR 202, ATTR 219 and ATTR 225
Corequisites: ATTR 290 and ATTR 296
Last Updated: 2/28/2011

ATTR 310 - Emergency Care in Athletic Training

Students will learn how to handle emergency situations in the arena of athletic training. This will include skills in spine boarding, oxygen administration and more advanced emergency skills. Students will also learn how to perform the skills of CPR, rescue breathing and how to use an automatic defibrillator.

Credit Hours: 2 hrs
Corequisites: ATTR 295, ATTR 321 and ATTR 326
Major Restrictions: Athletic Training Majors only
Last Updated: 2/28/2011

ATTR 321 - Therapeutic Modalities for AT. with Lab

A detailed study of theory, applications, physiological effects, and indications and contradictions of commonly used therapeutic modalities in the practice of athletic training. A laboratory experience is included for "hands on" experience.

Credit Hours: 3 hrs
Prerequisite: ATTR 290, ATTR 296 and ATTR 304
Corequisites: ATTR 295, ATTR 310 and ATTR 326
Major Restrictions: Athletic Training Majors only
Last Updated: 2/28/2011

ATTR 322 - Therapeutic Exercise for Athletic Trainers with Lab

A study of the principles of applications, physiological effects and indications and contraindications of commonly used therapeutic exercise methods in the practice of athletic training. Students will be exposed to theory as well as practical applications of the rehabilitation techniques.

Credit Hours: 3 hrs
Prerequisite: ATTR 295 and ATTR 296
Corequisites: ATTR 327 and ATTR 419
Major Restrictions: Athletic Training major
Last Updated: 2/28/2011

ATTR 326 - Practicum III
This course will provide students with an athletic training experience under the direct supervision of a certified athletic trainer. The content of the course will involve situational orthopedic assessments (upper & lower extremity), review of therapeutic modalities, skill development in orthotic fabrication, imaging and special testing methods, nutritional aspects of sport, substance abuse counseling, and exposure to general medical situations. The clinical component will require a minimum of 20-25 hours per week.

**ATTR 327 - Practicum IV**

The course will provide students with an athletic training experience under the direct supervision of a certified athletic trainer. The content of the course will involve situational orthopedic assessments (upper & lower extremity), therapeutic modalities skill assessment, assessment of pharmacological knowledge and application, and skills assessment associated with advanced medical emergency situations. The course will also provide opportunities for skill development in the areas of strength & conditioning, rehabilitation techniques and recognition of general medical conditions. The clinical component will require a minimum of 20-25 hours per week.

**ATTR 384 - Ergogenic Aids and Athletic Performance**

The course will be designed to increase the student's awareness of nutritional and pharmacological supplements relative to athletic participation. A strong emphasis will also be placed on educating students in areas of performance enhancement through psychological intervention, nutritional planning and various strength and conditioning methods. Guest speakers and in-class laboratory activities will be utilized to enhance the educational learning experience.

**ATTR 390 - Senior Practicum**

A course designed to provide students with an athletic training experience under the direct supervision of a certified athletic trainer. The content of the course will involve general medical assessments, therapeutic rehabilitation, strength/conditioning program development, skills assessment in eating disorders, psychosocial management of injuries and health care administration. The clinical component will require a minimum of 15 hours per week.
ATTR 395 - Advanced Topics in AT

This course will allow students to explore advanced techniques and current topics in Athletic Training. Students will learn advanced techniques along with, but not limited to, gait analysis and manual therapy techniques. Students will learn how to use evidence based practice in the profession of Athletic Training.

Credit Hours: 3 hrs  
Prerequisite: ATTR 327  
Class Restrictions: Senior, Second Bachelor  
Major Restrictions: Athletic Training Major  
Last Updated: New Course 12/2013, effective Summer 2014

ATTR 419 - Medical Aspects of Athletic Training

To expose students to various medical specialties that an athletic trainer is likely to utilize as medical support staff. Students will learn to perform pre-participation examinations, basic medical evaluations and learn decision-making skills, including proper medical referrals. This course is primarily lecture and guest speakers from allied health professions.

Credit Hours: 3 hrs  
Prerequisite: ATTR 295 and ATTR 296  
Corequisites: ATTR 322 and ATTR 327  
Major Restrictions: Athletic Training major  
Last Updated: 2/28/2011

ATTR 420 - Administrative and Legal Aspects of Athletic Training

This course examines the administrative and legal issues surrounding the field of athletic training. Students will learn the basis of management, program management, human resource management, finance resource management, facility design and planning, information management, athletic injury insurance and legal considerations and how these apply to the profession to athletic training.

Credit Hours: 2 hrs  
Prerequisite: ATTR 327 and department permission  
Corequisites: ATTR 390 and ATTR 485  
Class Restrictions: Senior standing  
Major Restrictions: Athletic Training major  
Last Updated: 2/28/2011

ATTR 485 - Seminar in Athletic Training

A course designed to prepare students for the internship experience and future employment in the athletic training profession. The three major components of the course include professional preparation, administrative principles and procedures, and certification examination preparation. The course delivery includes computer simulations, role-playing, collaborative interaction and individual activities.

Credit Hours: 3 hrs  
Prerequisite: ATTR 327 and department permission  
Corequisites: ATTR 390 and ATTR 420  
Class Restrictions: Senior standing  
Major Restrictions: Athletic Training major  
Last Updated: 2/28/2011
ATTR 490 - Internship — Athletic Training

The course is clinical experience to be conducted at an off-campus agency. The agency provides direct supervision at the site. The student will be expected to increase his/her skills and knowledge in the domains of athletic training. This course will segue the Athletic Training student into the health care arena.

Credit Hours: 6 hrs
Prerequisite: department permission
Major Restrictions: Athletic Training major

ATTR 491 - Internship II

The course is clinical experience to be conducted at an off-campus agency. The agency provides direct supervision at the site. The student will be expected to increase his/her skills and knowledge in the domains of athletic training. This course is taken in conjunction with the ATTR 490 course. It is supplement to the internship. It will allow the student to do a "full-time" internship during his/her senior semester.

Credit Hours: 5 hrs
Prerequisite: ATTR 390
Class Restrictions: Senior, Second Bachelor
Major Restrictions: Athletic Training Major
Last Updated: New Course 12/2013, effective Summer 2014

ATTR 495 - ATEP Review Course

A course designed to provide students with structured guidance and directed learning opportunities in preparation for the BOC examination and to assess their ability to obtain an entry-level position. Students will be provided with opportunities to practice their understanding of didactic and practicum-based material and will engage in mock examinations.

Credit Hours: 1 hr
Prerequisite: ATTR 390
Class Restrictions: Senior, Second Bachelor
Major Restrictions: Athletic Training Major
Last Updated: New Course 12/2013, effective Summer 2014

Athletics

ATHL 177 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr

ATHL 178 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs
ATHL 179 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs

ATHL 261 - Techniques of Officiating I

An elective course offered to men and women students interested in pursuing officiating as an avocation or as an integral part of a coaching background. The course covers football and men’s and women’s basketball. Registration with the Michigan High School Athletic Association will be available.

Credit Hours: 2 hrs

ATHL 262 - Techniques of Officiating II

An elective course offered to men and women students who are interested in pursuing officiating as an avocation. The course would also be valuable to those students who are interested in coaching, as the coach-official relationship is a valuable tool in one’s coaching background. The sports covered are: track and field, baseball and softball. There will be a practical phase as well as a lecture phase of instruction.

Credit Hours: 2 hrs

ATHL 263 - Theory of Football

Lecture course covering the basic fundamentals and styles of offensive and defensive football.

Credit Hours: 2 hrs

ATHL 264 - Theory of Soccer

The purpose of this course is to explore the theory of soccer from its history to the energy demands of the sport to its mental preparation as well as its technical structure. The course will rely on the latest research on the game and look for applied solutions to the problems that arise from the data. Technical and tactical theories will cover systems of play, passing and support to attacking and defending. Notational analysis will be used during laboratory sessions to further understand the sport.

Credit Hours: 3 hrs

ATHL 265 - Theory of Baseball

The fundamental skills and strategy of baseball for the prospective teacher and coach.

Credit Hours: 2 hrs

ATHL 267 - Theory of Basketball

Lecture course covering the basic fundamentals and styles of offensive and defensive basketball.

Credit Hours: 2 hrs
ATHL 268 - Theory of Coaching Swimming

ATHL268 is a lecture course for anyone who might coach swimming. The topics covered are stroke technique, applied physiology, strength and flexibility training, rules and how these components contribute to a daily, weekly and seasonal training plan.

Credit Hours: 2 hrs

ATHL 269 - Theory of Track and Field

The fundamental techniques for coaching and administering programs of track and field for the prospective teacher and coach.

Credit Hours: 2 hrs

ATHL 277 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr

ATHL 278 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs

ATHL 279 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs

ATHL 317 - Theory of Coaching Individual Sports for Women

Coordinates, correlates and supplements skills and information already conveyed in badminton, golf, tennis and archery activity classes. Place of individual sports in the school intramural and interschool programs, lesson plans, unit plans, techniques and strategies of advanced play, organization of a large class, evaluation of current literature pertinent to each activity.

Credit Hours: 2 hrs

ATHL 318 - Theory of Coaching and Teaching Women’s Team Sports

Coordinates, correlates and supplements skills and coaching techniques introduced in activity courses. Field sports, volleyball and basketball.

Credit Hours: 2 hrs
ATHL 377 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr

ATHL 378 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs

ATHL 379 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs

ATHL 477 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr

ATHL 478 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs

ATHL 479 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs

ATHL 497 - Directed Study

Directed study in areas not covered in other course offerings, or greater depth of study in areas in which the student has a continuing interest. Students will be assigned to select faculty members for direction, consultation and evaluation of the completed study or project. Open only to department majors and minors who have attained junior standing, with a GPA of 3.0 or above, and who have completed the appropriate background courses.
ATHL 498 - Directed Study

Directed study in areas not covered in other course offerings, or greater depth of study in areas in which the student has a continuing interest. Students will be assigned to select faculty members for direction, consultation and evaluation of the completed study or project. Open only to department majors and minors who have attained junior standing, with a GPA of 3.0 or above, and who have completed the appropriate background courses.

Credit Hours: 2 hrs
Prerequisite: department permission

ATHL 499 - Directed Study

Directed study in areas not covered in other course offerings, or greater depth of study in areas in which the student has a continuing interest. Students will be assigned to select faculty members for direction, consultation and evaluation of the completed study or project. Open only to department majors and minors who have attained junior standing, with a GPA of 3.0 or above, and who have completed the appropriate background courses.

Credit Hours: 3 hrs
Prerequisite: department permission

Exercise Science and Athletic Training

SPMD 119 - Orientation to Sports Medicine

A class for students interested in sports medicine. An introductory course to orient students to the specialized major areas of athletic training and exercise science.

Credit Hours: 1 hr

SPMD 144 - Introduction to Exercise Science

A required course for students interested in majoring in Exercise Science. Instruction will focus on program and professional issues, the basic concepts of exercise physiology and career preparation.

Credit Hours: 2 hrs
Last Updated: New Course 03/2012

SPMD 177 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr

SPMD 178 - Special Topics
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 2 hrs

**SPMD 179 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 3 hrs

**SPMD 201 - Human Anatomy for Sports Medicine**

Required lecture course for sports medicine majors that examines the structure of the human body. In addition to lecture format, computer graphic software will be utilized to enhance the learning process.

**Credit Hours:** 3 hrs

**Prerequisite:** BIO 105 or BIO 110, CHEM 120 or CHEM 121/ CHEM 122, departmental permission and 2.5 GPA in Exercise Science.

**Corequisites:** SPMD 202

**Cross-Listed with:** ATTR 201

**Last Updated:** Prerequisite Change 04/2012, effective Winter 2013; Links 03/2011

**SPMD 202 - Human Physiology for Sports Medicine**

Required lecture course for sports medicine majors that examines the structure and function of the human body.

**Credit Hours:** 3 hrs

**Prerequisite:** BIO 105 or BIO 110, CHEM 120 or CHEM 121/ CHEM 122, departmental permission and 2.5 GPA in Exercise Science.

**Corequisites:** SPMD 201

**Cross-Listed with:** ATTR 202

**Last Updated:** Remove line from Course Revision 9/2014, Prerequisite Change 04/2012, effective Winter 2013; Links 03/2011

**SPMD 221 - Therapeutic Modalities for Athletic Trainers**

A detailed study, with laboratory experiences, of theory, applications, physiological effects, indications, and contraindications of commonly used therapeutic modalities in the practice of athletic training.

**Credit Hours:** 2 hrs

**Prerequisite:** SPMD 119

**Course Revisions:** Course deleted in 15/16 catalog

**Last Updated:** Links 03/2011

**SPMD 269 - Anatomy and Physiology for Dietetics**

This course will provide an essential examination of the structure and function of the human organism. Emphasis will be placed on the interactions of the body systems, and all aspects of anatomy and physiology will be presented as they relate specifically to the dietetics curriculum.
Credit Hours: 3 hrs

**SPMD 277 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr

**SPMD 278 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs

**SPMD 279 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs

**SPMD 280 - Pharmacology for Sports Medicine**

Provides basic components of pharmacology, theories of drug actions, physiological processes mediating drug actions, variables affecting drug actions, benefits plus unusual and adverse drug therapy responses. Physiological and cultural aspects of drug therapy and self-medication are explored.

Credit Hours: 2 hrs
Prerequisite: BIO 105 or BIO 110, SPMD 202/ATTR 202, CHEM 120 or CHEM 121
Last Updated: Links 03/2011

**SPMD 300 - Physiology of Exercise**

A lecture/laboratory course concerned with human responses and adaptations to muscular activity. The enhancement of health and physical fitness for the general population, optimizing performance in the various types and levels of competitive athletics.

Credit Hours: 4 hrs
Prerequisite: SPMD 201/ATTR 201 and SPMD 202/ATTR 202 or equivalent (BIO 251 & BIO 252)
Cross-Listed with: PHED 205
Last Updated: Links 03/2011

**SPMD 305 - Kinesiology-Tissue Mechanics**

A required course for majors in the sports medicine program. Instruction will focus on the laws of physics as they are adapted to explain motion and human performance.

Credit Hours: 3 hrs
SPMD 318 - Laboratory in Human Anatomy

A laboratory of gross anatomy utilizing computer graphic software and/or plasticized modes. Material is designed to accompany the lecture material in SPMD 201.

Credit Hours: 2
Prerequisite: BIO 105 or BIO 110
Corequisites: SPMD 201
Last Updated: 2/7/2011

SPMD 325 - Practicum in Exercise Science

A 120-hour observational experience in a department-approved agency under the supervision of certified personnel. Areas of observation may include but are not limited to cardiac rehabilitation, wellness center management, worksite health promotion or strength and conditioning.

Credit Hours: 2 hrs
Prerequisite: SPMD 300 and department permission
Major Restrictions: Exercise Science major
Last Updated: Links 03/2011

SPMD 377 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr

SPMD 378 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs

SPMD 379 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs

SPMD 380W - Behavioral Aspects of Sports Medicine (GEWI)

A course to teach student psychological skills that can be applied to facilitate the rehabilitation process. The student will be able to motivate patients/injured athletes to adhere to their treatment program, manage their illness/pain more effectively and rebuild their confidence in their physical skills.
SPMD 407 - Fitness Center Management

This course examines the role of fitness in worksite health promotion and disease prevention. Coursework will emphasize the effective management and implementation of corporate fitness programs, as well as the health and economic benefits of physical activity in the workplace.

Credit Hours: 3 hrs  
Prerequisite: PSY 101

SPMD 410 - Laboratory Techniques in Human Performance Analysis

A lecture and laboratory course that emphasizes exercise testing and assessment techniques. Specific instruction will focus on assessing anaerobic capacity, indirect and direct measures of aerobic capacity, graded exercise testing, various body composition techniques and strength and flexibility assessment.

Credit Hours: 4 hrs  
Prerequisite: PHED 205/SPMD 300 and candidacy  
Major Restrictions: Sport Performance and Fitness Entrepreneurship Major and Exercise Science Major

SPMD 430 - Principles of Electrocardiography

A three-hour undergraduate course on the basics of electrocardiography. The student will learn the basic concepts of conduction, rate, rhythm, axis determination, hypertrophy, infarction and the effects of drug therapy.

Credit Hours: 3 hrs  
Prerequisite: PHED 205/SPMD 300 and candidacy  
Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.  
Course Revisions: Effective Winter 2015, this course is no longer approved for Graduate credit.

SPMD 431 - Pathophysiology for Sports Medicine

A required course for sports medicine majors that relates normal body functioning to the physiologic changes that occur as a result of injury and disease, and examines the effects of physical activity on these processes.

Credit Hours: 3 hrs  
Prerequisite: PHED 205/SPMD 300 and candidacy  
Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.  
Course Revisions: Effective Winter 2015, this course is no longer approved for Graduate credit.
SPMD 432 - Introduction to Exercise Programming

A required course for students majoring in exercise science. This course provides information needed to develop, implement, and manage exercise programs in a variety of settings. Within the context of each program setting the following issues will be discussed: 1) the health screening; 2) implementation and management of the exercise prescription; 3) identification and development of exercise leadership skills; and 4) exercise compliance issues.

Credit Hours: 3 hrs
Prerequisite: SPMD 410 and candidacy

SPMD 433 - Principles of Sport Performance Training

The purpose of this course is to have the student integrate components within the discipline of exercise science (e.g., exercise physiology, biomechanics, growth and maturation, nutrition, etc.) and demonstrate an understanding of their utility in the design and implementation of aerobic and anaerobic exercise programming. Special emphasis will be placed within the area of resistance training, and the opportunity to prepare for professional fitness certification.

Credit Hours: 3 hrs
Prerequisite: (SPMD 305 or PHED 204), PHED 205/SPMD 300
Class Restrictions: Junior or Senior standing or department permission
Major Restrictions: Sport Performance and Fitness Entrepreneurship Major and Exercise Science Major/Intent
Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.
Last Updated: Change to Title 11/2013, effective Summer 2014; Graduate Credit 07/2011; Links 03/2011

SPMD 434 - Introduction to Echocardiography

This course is designed to give students the fundamental background in echocardiography, cardiac anatomy and function, cardiac disease states and proper terminology which will allow students entering the health care professions the ability to understand and analyze a basic two-dimensional echocardiogram.

Credit Hours: 2 hrs
Prerequisite: SPMD 430

SPMD 477 - Special Topics

Offered on an experimental basis for one semester for purposes of meeting special needs and/or innovations.

Credit Hours: 1 hr

SPMD 478 - Special Topics

Offered on an experimental basis for one semester for purposes of meeting special needs and/or innovations.

Credit Hours: 2 hrs

SPMD 479 - Special Topics
Offered on an experimental basis for one semester for purposes of meeting special needs and/or innovations.

**Credit Hours:** 3 hrs

**SPMD 480 - Internship — Exercise Science**

A 600-hour full semester field experience in a department-approved agency under the supervision of certified personnel. Areas of specialization include but are not limited to cardiac rehabilitation, wellness center management, worksite health promotion or strength and conditioning.

**Credit Hours:** 8 hrs

**Prerequisite:** Candidacy and department permission

**Last Updated:** Links 03/2011

**SPMD 497 - Directed Study**

Directed study in areas not covered in other course offerings, or greater depth of study in areas in which the student has a continuing interest. Students will be assigned to select faculty members for direction, consultation and evaluation of the completed study or project. Open only to department majors and minors who have attained junior standing, with a GPA of 3.0 or above, and who have completed the appropriate background courses.

**Credit Hours:** 1 hr

**Prerequisite:** Department permission

**Last Updated:** Links 03/2011

**SPMD 498 - Directed Study**

Directed study in areas not covered in other course offerings, or greater depth of study in areas in which the student has a continuing interest. Students will be assigned to select faculty members for direction, consultation and evaluation of the completed study or project. Open only to department majors and minors who have attained junior standing, with a GPA of 3.0 or above, and who have completed the appropriate background courses.

**Credit Hours:** 2 hrs

**Prerequisite:** Department permission

**Last Updated:** Links 03/2011

**SPMD 499 - Directed Study**

Directed study in areas not covered in other course offerings, or greater depth of study in areas in which the student has a continuing interest. Students will be assigned to select faculty members for direction, consultation and evaluation of the completed study or project. Open only to department majors and minors who have attained junior standing, with a GPA of 3.0 or above, and who have completed the appropriate background courses.

**Credit Hours:** 3 hrs

**Prerequisite:** Department permission

**Last Updated:** Links 03/2011

**SPMD 508 - Exercise Epidemiology**
SPMD 508 examines the relationship between physical activity and the burden of disease in the population. Specifically, activity's role in health promotion and disease prevention will be emphasized. Students will gain a basic understanding of the principles of epidemiology and specific measurements of physical activity in the population setting.

Credit Hours: 3 hrs
Prerequisite: PHED 205/SPMD 300
Last Updated: Added to Catalog 04/2012

SPMD 515 - Diabetes and Obesity

This course will provide students in clinical fields of study the knowledge and practical skills to understand the concepts of diabetes and obesity and the implications towards health status. In addition, the role of lifestyle modification will be examined in relation to managing both conditions and improving potential morbidity. Course available only to students in the Physical Education, Sports Medicine, Exercise Physiology, Health, Orthotics and Prosthetics, Dietetics, Nursing, Social Work, Occupational Therapy, Psychology and Biology programs.

Credit Hours: 3 hrs
Last Updated: Added to Catalog 04/2012

SPMD 518 - Sports Supplements

Graduate students interested in nutritional products that are purported to enhance athletic performance, further their understanding of exercise physiology through this course. Examination of research articles, student presentations, writing assignments and traditional lectures will enable the students to critically evaluate such compounds.

Credit Hours: 3 hrs
Prerequisite: PHED 205/SPMD 300 or equivalent
Last Updated: Added to Catalog 04/2012

General Activity

PEGN 101 - Weight Control and Fitness (GELB)

The purpose of the course is to relate pertinent information about the effects of exercise and nutrition upon the human organism, to understand its structure, function, capabilities and limitations, and experience some of the effects of exercise and improved nutrition.

Credit Hours: 2 hrs
Learning Beyond the Classroom:

Last Updated: Gen Edu logo added

PEGN 102 - Aerobic Dance (GELB)

A course in which the student can experience physical conditioning and fitness, utilizing dance and music as the medium for aerobic exercise.

Credit Hours: 1 hr
Learning Beyond the Classroom:

Last Updated: Gen Edu logo added 3/2014
PEGN 103 - Ballroom Dance (GELB)

Students will learn theory, technique and beginning patterns in merengue, swing, fox trot, waltz, tango and ballrooming.

Credit Hours: 1 hr
Learning Beyond the Classroom:

Last Updated: Gen Edu logo added 3/2014

PEGN 104 - Cardio Kickboxing (GELB)

A noncontact aerobic workout with the dynamic punching and kicking of the martial arts and boxing. Cardio Kick movements are very easy to follow and are choreographed to music.

Credit Hours: 1 hr
Learning Beyond the Classroom:

Last Updated: Gen Edu logo added 3/2014

PEGN 106 - Kendo (GELB)

This course introduces Kendo and the philosophy behind the Japanese culture of Bushido. Kendo is a martial art form that is focused on the development of the spirit as well as the physicality of the body.

Credit Hours: 1 hr
Repeatable for Credit: This course may be repeated for credit.
Learning Beyond the Classroom:

Last Updated: New Course 04/2012, effective Fall 2012

PEGN 107 - Water Aerobics (GELB)

This course will incorporate exercises designed to increase cardiovascular fitness, balance, flexibility, strength and muscular endurance. The class will utilize the shallow and deep areas of the pool. This is a class designed with low impact/no impact exercise for non-swimmers.

Credit Hours: 1 hr
Repeatable for Credit: This course may be repeated for credit.
Learning Beyond the Classroom:

Last Updated: New Course 04/2012, effective Fall 2012

PEGN 108 - Basketball (GELB)

The course is designed for the novice skilled player. The purpose is to learn the basics of individual and team play with emphasis on fundamentals.

Credit Hours: 1 hr
Learning Beyond the Classroom:

Last Updated: Gen Edu logo added 3/2014
PEGN 110 - Beginning Tae Kwon Do (GELB)

An introductory course showing the various techniques used in the art of self-defense. Students learn discipline, self-confidence and a vigorous physical activity.

Credit Hours: 1 hr
Learning Beyond the Classroom:

Last Updated: Gen Edu Logo Added

PEGN 111 - Volleyball (GELB)

This course will provide opportunities to develop/improve basic volleyball skills, strategies and concepts via lecture, demonstration and laboratory experiences. The course is designed to enhance the student's performance and increase the enjoyment of participation.

Credit Hours: 1 hr
Learning Beyond the Classroom:

Last Updated: Gen Edu logo added

PEGN 112 - Spinning (GELB)

A course designed to introduce indoor cycling as a workout along with core training exercises.

Credit Hours: 1 hr
Repeatable for Credit: This class may be repeated for credit.
Learning Beyond the Classroom:

Last Updated: New Course 04/2012, effective Fall 2012

PEGN 113 - Core Training (GELB)

This course is designed to introduce and teach students physical exercises and behaviors related to performance, care, and enhancement of the abdominal and lower back region of the human body. Coursework will include a review of basic functional anatomy, concepts of resistance and aerobic exercise, and basic nutritional information.

Credit Hours: 1 hr
Repeatable for Credit: This class may be repeated for credit.
Learning Beyond the Classroom:

Last Updated: New Course 04/2012, effective Fall 2012

PEGN 114 - Exercise Equipment Selection and Usage (GELB)

This course introduces benefits of basic types of anaerobic and aerobic training. Includes, discussion and selection of proper equipment for the desired type of training and identification of possible problems that can arise during training.

Credit Hours: 1 hr
Repeatable for Credit: yes, up to 2 hrs
Learning Beyond the Classroom:
PEGN 115 - Karate (GELB)

This is a beginner's course in the art of self-defensive movements. The aim of self-defense is to protect oneself from attack to the point where escape is possible. The student will be introduced to a variety of defensive movement.

Credit Hours: 1 hr

Learning Beyond the Classroom:

PEGN 116 - Bully Proofing (GELB)

This course uses lecture, play-based activities and role playing to teach self-defense techniques to aid in developing lifelong communication, advocacy and physical skills that help "bully proof." This course focuses on enhancing emotional health, social skills, building relationships, self-defense skills, and the "judoka" develops confidence. The physical portion of the course includes training in judo which helps improve aerobic capacity, coordination and balance falling skills, efficiency of movement, flexibility and strength.

Credit Hours: 1 hr
Repeatable for Credit: This class may be repeated for credit.

Learning Beyond the Classroom:

PEGN 118 - Mixed Martial Arts (GELB)

This course introduces basics of both fighting on the ground and fighting from the standing position. Techniques covered include strikes, joint locks, throws, submission holds, pins, and pressure points with a focus on grappling and ground fighting. The standing portion features boxing that also includes strikes using the legs, the knees, the hands and the elbows.

Credit Hours: 1 hr
Repeatable for Credit: This course may be repeated for credit.

Learning Beyond the Classroom:

PEGN 119 - Women's Gymnastics (GELB)

An introductory course in the understanding of and participation in the various tumbling routines and apparatus used by women. Emphasis is on the ability to develop new skills and to provide an increase in the physical fitness of the participants.

Credit Hours: 1 hr

Learning Beyond the Classroom:

PEGN 122 - Men's Gymnastics I (GELB)
This is a basic men's gymnastic skills class, and an introduction to the sport of gymnastics.

**Credit Hours:** 1 hr

**Learning Beyond the Classroom:**

**Last Updated:** *

**PEGN 123 - Line Dance (GELB)**

Introduction to various types of line dances including country western, multicultural, contemporary club dances, as well as "classic" dances.

**Credit Hours:** 1 hr

**Repeatable for Credit:** This class may be repeated for credit.

**Learning Beyond the Classroom:**

**Last Updated:** New Course 04/2012, effective Fall 2012

**PEGN 124 - Fitness Walking (GELB)**

This course is designed to provide students with basic knowledge of physical fitness and healthy lifestyle principles. Power walking is a program that trains muscular strength and endurance, flexibility, cardiovascular endurance and promotes total body health.

**Credit Hours:** 1 hr

**Repeatable for Credit:** Yes, 2 hrs

**Learning Beyond the Classroom:**

**Last Updated:** *

**PEGN 125 - Family Fitness (GELB)**

This course offers a lecture and practical perspective to family fitness. Health and fitness considerations, safety concerns, training concepts, and other relevant issues will be covered. The above objectives will be met through lectures, discussions, handouts, and practical activities.

**Credit Hours:** 1 hr

**Repeatable for Credit:** Yes, 2 hrs

**Learning Beyond the Classroom:**

**Last Updated:** Course type change 7/2014, New Course 11/2012, effective Winter 2013

**PEGN 126 - Conditioning Activities (GELB)**

A beginning course designed for students with limited or no experience in physical fitness conditioning activities. A variety of activities will be used to promote the skills and knowledge for individual use.

**Credit Hours:** 1 hr

**Learning Beyond the Classroom:**

**Last Updated:** *
PEGN 127 - Healthy Hearts (GELB)

This course covers the essential elements of cardiovascular fitness and wellness, combining instructor lecture, small and large group discussion, activities, games, and personal assessments to achieve course objectives. Emphasis is placed on the prevention and control of cardiovascular problems through behavior modification and positive health practices.

Credit Hours: 1 hr
Repeatable for Credit: This class may be repeated for credit.
Learning Beyond the Classroom:

Last Updated: New Course 04/2012, effective Fall 2012

PEGN 128 - Judo I (GELB)

A beginning course in the martial arts of judo. Students will learn its history, as well as being able to demonstrate the various techniques.

Credit Hours: 1 hr
Learning Beyond the Classroom:

Last Updated: 04/2012

PEGN 129 - Kung Fu, Strength and Conditioning (GELB)

This course teaches how to create a connection of well being within the individual such as: physical fitness for improving the body's ability to perform, as well as rehabilitation and injury prevention; mental awareness for a deeper level of concentration and understanding of one's potential; and connecting the mind and the body to achieve motion with greater ease, inner harmony, optimal health (mental and physical), and self-development.

Credit Hours: 1 hr
Repeatable for Credit: This class may be repeated for credit.
Learning Beyond the Classroom:

Last Updated: New Course 04/2012, effective Fall 2012

PEGN 130 - Assault and Rape Prevention (GELB)

A course designed to develop skills that will help a person to: (1) recognize possible dangers to property and self, (2) identify alternatives to physical aggression and (3) use appropriate self defense techniques when physical aggression cannot be avoided.

Credit Hours: 1 hr
Learning Beyond the Classroom:

This course is designed to familiarize teachers and preservice teachers with the skills needed for healthy and peaceful resolution of conflict. Methods include; lecture, discussion, self-assessment, cooperative group activities, role-play and the World Wide Web.

Credit Hours: 1 hr

HLED 490 - Drug Use and Abuse

This course offers a broad overview of drug use. Historical perspectives of current problems, pharmacology of drugs commonly used and abused, physiological and psychological factors related to abuse, substance abuse prevention programs, treatment and drugs and the law are all addressed. Methods include: lecture, small group discussion, and student presentations.

Credit Hours: 3 hrs
Class Restrictions: sophomore standing or above
Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.
Course Revisions: Effective Winter 2015, this course is no longer approved for Graduate credit.

Last Updated: No longer available for Graduate credit 10/14, effective Winter 2015, Graduate Credit 07/2011

HLED 495 - Health Education for Diverse Populations

This course is designed to help students identify, and develop, effective health education programming that will lend to the reduction of health disparities which exist in diverse populations. Methods will include lecture, discussion and classroom activities designed to enhance application of course content.

Credit Hours: 3 hrs
Class Restrictions: Sophomore standing or above

HLED 497 - Directed Study

Directed study in areas not covered in other course offerings, or greater depth of study in areas in which the student has a continuing interest. Students will be assigned to select faculty members for direction, consultation and evaluation of the completed study or project. Open only to department majors and minors who have attained junior standing, with a GPA of 3.0 or
above, and who have completed the appropriate background courses.

**Credit Hours:** 1 hr  
**Prerequisite:** department permission

**HLED 498 - Directed Study**

Directed study in areas not covered in other course offerings, or greater depth of study in areas in which the student has a continuing interest. Students will be assigned to select faculty members for direction, consultation and evaluation of the completed study or project. Open only to department majors and minors who have attained junior standing, with a GPA of 3.0 or above, and who have completed the appropriate background courses.

**Credit Hours:** 2 hrs  
**Prerequisite:** department permission

**HLED 499 - Directed Study**

Directed study in areas not covered in other course offerings, or greater depth of study in areas in which the student has a continuing interest. Students will be assigned to select faculty members for direction, consultation and evaluation of the completed study or project. Open only to department majors and minors who have attained junior standing, with a GPA of 3.0 or above, and who have completed the appropriate background courses.

**Credit Hours:** 3 hrs  
**Prerequisite:** department permission

**Physical Education**

**PHED 100 - Foundations of Physical Education and Physical Activity**

This course introduces students to the history and impact of Physical Education and physical activity in society, as well as to the profession of Physical Education and its related fields. The course will cover Physical Education philosophy, ancient up to current historical impact of Physical Education; physical activity trends; and potential career options in the professional fields of Physical Education and physical activity.

**Credit Hours:** 2 hrs  
**Class Restrictions:** All Undergraduates, Second Bacc, Post Bacc.  
**Previously Listed As:** History and Foundations of Physical Education  
**Last Updated:** Change to Title & Description 3/2014, effective Fall 2014

**PHED 102 - Introduction to Teaching Physical Education**

This course introduces K -12 Physical Education Teacher Education Major intent students and Physical Education Minor students to fundamental pedagogical principals, basic planning and instruction strategies, professional standards, and classroom management strategies.

**Credit Hours:** 2 hrs  
**Repeatable for Credit:** No  
**Class Restrictions:** All Undergraduates, Second Bacc., Post Bacc. Teaching  
**Last Updated:** New Course 3/2014, effective Fall 2014

**PHED 177 - Special Topics**
An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 1 hr

**PHED 178 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 2 hrs

**PHED 179 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 3 hrs

**PHED 200 - Anatomy and Physiology**

The purpose of this course is to provide students with an introduction to the principles of human anatomy and physiology, which focuses on important functions and the makeup of the human body. This course will provide a better understanding of the anatomical and physiological processes necessary for physical education-related careers. This lecture course is supplemented by demonstrations and on-line labs focusing on the structure and functions of the body systems, such as the muscular, skeletal, digestive, urinary, respiratory, cardiovascular systems.

**Credit Hours:** 5 hrs

**Class Restrictions:** All Undergraduates, Post Bac. Teacher Cert.

**Last Updated:** Change to Course Description 3/2014, effective Fall 2014

**PHED 204 - Kinesiology (Biomechanics of Physical Activity)**

The purpose of this course is for students to merge concepts of human anatomical kinesiology with essential mechanical principles fundamental to human locomotion and physical activity. The emphases of this course will be placed on those biomechanical conditions that exist within the sport, dance, and recreational context.

**Credit Hours:** 3 hrs

**Prerequisite:** PHED 200 or SPMD 201/ATTR 201 and SPMD 202/ATTR 202

**Class Restrictions:** All Undergraduates, Second Bacc, Teacher Cert.

**Last Updated:** Change to Course Description 3/2014, effective Fall 2014; Links 04/2011

**PHED 205 - Physiology of Exercise**

This course will examine the fundamental principles of Exercise Physiology. All major physiological systems will be explored with regard to both acute responses and chronic adaptations to exercise. Upon completion of this course students will have various methods and apparati used to measure responses in the field of exercise physiology. This class will also serve as a forum for contemplation and discussion of the concepts presented.

**Credit Hours:** 4 hrs

**Prerequisite:** PHED 200 or (SPMD 201 or ATTR 201) and SPMD 202 or ATTR 202
Cross-Listed with: SPMD 300
Previously Listed As: PHED 300 - Physiology of Exercise
Last Updated: Change to Course Title & Description 3/2014, effective Fall 2014; Links 04/2011

**PHED 209 - Bio-Fitness**

Individual biological needs and how those needs are related to daily habits. Students will complete an individual fitness profile that will be the basis for understanding how desirable changes in fitness are achieved.

Credit Hours: 2 hrs

**PHED 231 - Service Teaching**

This is an individual program under the direction of a qualified faculty member, to enhance the student’s ability to gain additional professional experience.

Credit Hours: 1 hr
Prerequisite: Department permission
Last Updated: Links 04/2011

**PHED 233 - Service Teaching**

For qualified students an additional opportunity to undertake an individualized program under the direction of a qualified faculty member.

Credit Hours: 1 hr
Prerequisite: Department permission
Last Updated: Links 04/2011

**PHED 257 - Physical Education for the Classroom Teacher**

A methods and materials course in which the prospective classroom teacher gains knowledge in organizing and implementing a physical education program. Not intended for students majoring in physical education.

Credit Hours: 2 hrs

**PHED 260 - Motor Development**

This course will focus on principles of motor development with implications for learning fine and gross motor skills. Factors will be examined that are associated with growth and maturation, environmental variables, and individual differences in attaining motor proficiency throughout a lifespan.

Credit Hours: 2 hrs
Prerequisite: PHED 200 or (SPMD 201 or ATTR 201) & (SPMD 202 or ATTR 202)
Class Restrictions: All Undergraduates, Second Bacc, Teacher Cert.
Last Updated: Change to Course Description 2/2014, effective Fall 2014

**PHED 277 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.
Credit Hours: 1 hr

**PHED 278 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs

**PHED 279 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs

**PHED 282 - Perceptual-Motor Training**

Planning and effecting gross motor activity programs for students with neurological dysfunction. Assessment procedures and activity sequences. Supervised field experiences required.

Credit Hours: 1 hr

**PHED 287 - Cooperative Education**

One semester of supervised work in concentration area. An evaluation is required at the end of the employment period.

Credit Hours: 3 hrs

**Prerequisite:** Nine credit hours in concentration, approval by Cooperative Education Office, and department permission

**Last Updated:** Links 04/2011

**PHED 302 - Methods of Teaching Elementary Physical Education**

This course will utilize the Skill Theme Approach and other validated instructional frameworks to prepare students in applied developmental theory, curriculum, instruction, and assessment in the elementary Physical Education classroom setting.

Credit Hours: 3 hrs

**Major Restrictions:** K -12 Physical Education Teacher Education Major

**Previously Listed As:** PHED 317 - Methods of Teaching Elementary Physical Education

**Last Updated:** Change to Course Number, Credit Hours, Description, Prerequisite and Major Restriction 3/2014, effective Fall 2014; Links 04/2011

**PHED 305 - Practical Concepts of Conditioning**

A practical experience in applying the concepts and theories of conditioning to in-class situations as well as coaching. Programs such as interval training will be designed and experienced by the student for use in a particular situation.

Credit Hours: 2 hrs

**Prerequisite:** PHED 204 or department permission

**Last Updated:** Links 04/2011
PHED 306 - Methods of Teaching Games and Activities in Physical Education I

This course will utilize several instructional models in Physical Education to prepare students in applied developmental theory, curriculum, instruction and assessment in the upper elementary and secondary Physical Education classroom settings. Students will become familiar with the theory and practice of teaching net/wall and target games through the Tactical Games Approach, Teaching Personal & Social Responsibility and other key Physical Education instructional models in a secondary setting through field experiences in controlled and dynamic school-based settings.

Credit Hours: 2 hrs

Major Restrictions: K -12 Physical Education Teacher Education Major

Notes: Department Permission

Previously Listed As: PHED 215 - Methods of Teaching Individual Sports

Last Updated: Change to Course Number, Title, Description, Major Restriction 3/2014, effective Fall 2014

PHED 307 - Methods of Teaching Games and Activities in Physical Education II

This course will utilize several instructional models in Physical Education to prepare students in applied developmental theory, curriculum, instruction and assessment in the upper elementary and secondary Physical Education classroom settings. Students will become familiar with the theory and practice of teaching invasion and striking/field games through the Direct and Sport Education instructional models in a secondary setting through field experiences in controlled and dynamic school-based settings.

Credit Hours: 2 hrs

Prerequisite: PHED 302 and PHED 306

Major Restrictions: K -12 Physical Education Teacher Education Major

Previously Listed As: PHED 217 - Methods in Teaching Team Sports

Last Updated: Change to Course Title, Number, Description and Major Restriction 3/2014, effective Fall 2014

PHED 308 - Methods of Teaching Rhythmic Activities, Dance and Creative Movement

This course will focus on the teaching, performance, analysis, and evaluation of fundamental rhythmic, social dance, locomotor, nonlocomotor, and manipulative skills and creative movement activities in the K-12 Physical Education setting.

Credit Hours: 2 hrs

Prerequisite: PHED 302

Major Restrictions: K -12 Physical Education Teacher Education Major

Previously Listed As: PHED 219 - Methods of Teaching Rhythmic Activities, Fundamental Movement and Movement Education

Last Updated: Change to Course Number, Title, Description, Prerequisite and Major Restriction 3/2014, effective Fall 2014

PHED 309 - Methods of Teaching Outdoor Pursuits and Adventure Education

This course is dedicated to the promotion of physical activity, wellness, and an appreciation of nature through experience-based outdoor pursuits and adventure education. This course will prepare students to facilitate team-building, adventure education, and basic outdoor activities to a variety of participants with a focus on the implementation of leadership, theory, and methodology of adventure education.

Credit Hours: 2 hrs

Major Restrictions: K -12 Physical Education Teacher Education Major and Sport Performance and Fitness Entrepreneurship Major

Last Updated: New Course 3/2014, effective Fall 2014

PHED 312 - Athletic Training and Physiotherapy
For prospective coaches and physical educators. Principles and skills of athletic training and physiotherapy. Lectures, demonstration and practice of massaging, bandaging, taping and therapeutic measures as applied in athletic activities and injuries.

**PHED 313 - Methods of Teaching Gymnastics**

A required class for Physical Education majors/minors who are preparing to teach in elementary and secondary schools. Instruction in the teaching, performance, analysis, and evaluation of fundamental gymnastics skills will be presented.

**Credit Hours:** 2 hrs  
**Prerequisite:** PHED 204  
**Last Updated:** Links 04/2011

**PHED 315 - Methods of Fitness Education in Physical Education**

In this course, pre-service Physical Education teachers will learn to implement best practices in the planning, teaching, and assessing of health-related physical fitness activities in the K-12 movement setting.

**Credit Hours:** 2 hrs  
**Major Restrictions:** K-12 Physical Education Teacher Education Major  
**Previously Listed As:** PHED 315 - Methods of Teaching Conditioning Activities  
**Last Updated:** Change to Title, Description and Prerequisites 3/2014, effective Fall 2014; Links 04/2011

**PHED 316 - Foundations of Coaching**

Practical and scientific information necessary for the implementation of a successful coaching program.

**Credit Hours:** 2 hrs

**PHED 319 - Methods of Teaching Aquatics**

An elective course for physical education majors/minors. Aquatics covers the teaching of the four competitive swimming strokes; front crawl, back crawl, breast stroke and butterfly. In addition, life saving strokes, side-stroke and elementary backstroke are studied to prepare students to teach swimming in physical education classes.

**Credit Hours:** 2 hrs

**PHED 330 - Adapted Physical Education**

This course is an introductory experience in the field of Adapted Physical Education and incorporates understanding of the nature, behavior characteristic, and motor limitations of various disabilities. Students will acquire the basic skills necessary to prepare, meaningful individualized movement experiences for individuals with disabilities in inclusive, self-contained, community, and/or home settings.

**Credit Hours:** 3 hrs  
**Prerequisite:** PHED 260  
**Major Restrictions:** K-12 Physical Education Teacher Education Major  
**Last Updated:** Change to Course Description, Major restriction, and prerequisites 3/2013, effective Fall 2014; Links 04/2011
PHED 331 - Service Teaching

Provides additional individual opportunities at an advanced level.

Credit Hours: 1 hr
Prerequisite: Department permission
Last Updated: Links 04/2011

PHED 333 - Service Teaching

For the advanced student who has shown some interest in undertaking a research project for professional development.

Credit Hours: 1 hr
Prerequisite: Department permission
Last Updated: Links 04/2011

PHED 341 - Methods of Physical Training and Performance Enhancement

The purpose of this course is for students to review, analyze, practice and demonstrate the various forms of physical and resistance training technique applicable to the sport performance enhancement specialist and personal fitness trainer employed among various commercial, corporate, community, and school settings.

Credit Hours: 2 hrs
Prerequisite: (PHED 205 or SPMD 300) and (PHED 204 or SPMD 305)
Last Updated: New Course 3/2014, effective Fall 2014

PHED 342 - Methods of Holistic Fitness

The purpose of this course is to introduce students to a variety of physical training methods that integrate a mind-body approach to achieve positive changes in physiological measures of physical fitness. These disciplines include but are not limited to yoga, neuromuscular integrative action (NIA), pilates, and some forms of martial arts.

Credit Hours: 2 hrs
Prerequisite: PHED 204 and PHED 205
Last Updated: New Course 3/2013, effective Fall 2014

PHED 343 - Methods of Group Exercise Instruction

This course is designed to introduce science-based concepts and techniques used in the development and implementation of safe and effective group exercise instruction for a variety of clinical, scholastic and commercial settings. Both theoretical learning and practical applications will be emphasized throughout the course with special emphasis on aerobic and anaerobic modes of training.

Credit Hours: 2
Prerequisite: PHED 204 and PHED 205
Class Restrictions: Junior & Senior
Last Updated: New Course 3/2014, effective Fall 2014

PHED 353 - American Red Cross Lifeguarding
American Red Cross (ARC). This course covers CPR for the professional rescuer (CPR-PR), first aid and in-water rescue skills. ARC lifeguarding certificates are awarded upon successful course completion.

**Credit Hours:** 3 hrs

**PHED 354 - American Red Cross Water Safety Instructor**

The purpose of this course is to train instructor candidates to teach courses in the American Red Cross Swimming and Water Safety program by developing their understanding of how to use course materials, how to conduct training sessions and how to evaluate participant’s progress. Demonstration, explanation, utilization of course manuals and materials, videos and digital video discs (DVDs), analysis and practice of teaching skills are used to carry out course objectives. American Red Cross certification in Fundamentals of Instructor Training (FIT) and Water Safety Instructor are offered upon successful completion.

**Credit Hours:** 2 hrs  
**Prerequisite:** PEGN 153 or instructor permission  
**Last Updated:** Links 04/2011

**PHED 370 - Physical Education Applied Technologies**

This required course provides an overview of how technology can be integrated into the physical education and coaching professions. Through the use of the World WideWeb, lecture/demonstrations and hands-on experiences, students use and evaluate a variety of software applicable to school and nonschool settings.

**Credit Hours:** 2 hrs  
**Prerequisite:** Admission to the Initial Teacher Preparation Program  
**Class Restrictions:** Junior or Senior standing  
**Last Updated:** Links 04/2011

**PHED 377 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 1 hr

**PHED 378 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 2 hrs

**PHED 379 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 3 hrs

**PHED 381 - Motor Development of the Young Child**
A course designed specifically for early childhood minors and others interested in young children. A study of the sequential development of motor skills during early childhood with focus on children ages birth to eight years. Investigation and application of the major learning theories in relationship to motor behavior, with specific implications for motor development programs for students of different abilities. Methods of assessment and developmentally appropriate practices for planning and conducting movement curricula will be addressed.

**Credit Hours:** 3 hrs  
**Notes:** No credit in PHED 260  
**Last Updated:** Links 04/2011

### PHED 387 - Cooperative Education in Physical Education

One semester of supervised work in concentration area. An evaluation is required at the end of the employment period.

**Credit Hours:** 3 hrs  
**Prerequisite:** Nine credit hours in concentration, approval by Cooperative Education Office and department permission  
**Last Updated:** Links 04/2011

### PHED 388 - Assessment in Adapted Physical Education

A study of the process of assessing gross motor functioning of students who exhibit a variety of disabilities. Investigation of the legislative mandates requiring assessment and application of the latest assessment instruments for students with disabilities. Fieldwork required.

**Credit Hours:** 1 hr  
**Prerequisite:** PHED 330  
**Class Restrictions:** Sophomore, Junior or Senior standing  
**Last Updated:** Links 04/2011

### PHED 389 - Sport and Activity for the Disabled

A course designed to investigate sports organizations that serve people with disabilities. Topics to be explored include the role of the United States Olympic Committee (USOC), Group E members of the USOC and Committee on Sports for the Disabled, classification of athletes for competition, role of the National Governing Bodies in promoting sports and ways people with disabilities can access sports and noncompetitive opportunities.

**Credit Hours:** 1 hr  
**Prerequisite:** PHED 330  
**Class Restrictions:** Sophomore, Junior or Senior standing  
**Last Updated:** Links 04/2011

### PHED 400W - Philosophical Aspects of Physical Education and Sport (GEWI)

This course challenges students to discover the essence of physical education and sports throughout philosophy. Students will examine why we play, what we value, who we are, how we know, through physical education. This lecture/discussion course is required for physical education majors.

**Credit Hours:** 2 hrs  
**Prerequisite:** PHIL 100  
**Class Restrictions:** Junior or Senior standing  
**Course Revisions:** Effective Winter 2015, credit hours will be changed from "2 hrs" to "3 hrs".
PHED 405 - Women in Sports

Patterns, problems, and conditions associated with women’s sports involvement in selected world cultures; the sportswoman in American society.

Credit Hours: 3 hrs
Cross-Listed with: WGST 405
Last Updated: Links 04/2011

PHED 421 - Legal Aspects of Sport and Physical Education

Individual rights, due process, selected legal concepts and principles, liability, safe environments, risk management, contracts, insurance, disability (ADA) laws, video rights and jurisdictions, compliance issues, facility issues and negligence, crisis management, product liability, antitrust and labor law, the legal implications of "pay to play," and other selected topics.

Credit Hours: 3 hrs
Class Restrictions: Junior, Senior, Second Bacc.
Previously Listed As: Legal Aspects of Sport, Physical Education, and Recreation
Last Updated: Change to Course Title, Credit Hours and Description 3/2014, effective Fall 2014

PHED 431 - Motor Learning

This course will provide students with a thorough understanding of the neurological and psychological process of acquiring and developing movement skills. The course will allow students to examine factors (individual, task, environment) and interactions that influence skill acquisition and performance in educational, recreational, clinical and scientific settings.

Credit Hours: 3 hrs
Prerequisite: PHED 260
Previously Listed As: PHED 360 - Motor Learning
Last Updated: Change to course number, description, and prerequisite 3/2014, effective Fall 2014; 04/2011

PHED 434 - Adapted Preschool Physical Education

This course presents instructional strategies and curricular models of instruction for preschool-aged children (age three to five) with special needs or who are at-risk for disabilities and school failure. Planning and effecting gross motor activity programs, assessment procedures and activity sequences will be emphasized. Legislative mandates and rationale for the development of preschool motor activity programs will be discussed. Supervised field experience required.

Credit Hours: 1 hr
Prerequisite: PHED 330
Class Restrictions: Sophomore, Junior or Senior standing
Last Updated: Links 04/2011

PHED 454 - American Red Cross Lifeguard Instructor

The purpose of this course is to train instructor candidates to teach courses in the American Red Cross Lifeguarding program by developing their understanding of how to use course materials, how to conduct training sessions and how to evaluate participant’s
progress. Demonstration, explanation, utilization of course manuals and materials, videos and digital video discs (DVDs), analysis and practice of teaching skills are used to carry out course objectives. American Red Cross certification in Fundamentals of Instructor Training (FIT) and Lifeguard Instructor (LGI) are offered upon successful completion.

**Credit Hours:** 2 hrs  
**Prerequisite:** PHED 353 or instructor permission  
**Last Updated:** Links 04/2011

**PHED 460 - Assessment and Evaluation in Physical Education**

This course will address the planning and implementation of tests and measurements in the evaluation process in Physical Education. Included will be the evaluations of cognitive learning, affective learning, health-related fitness, motor ability, physical performance, and sports skills. Emphasis will be placed on both traditional and alternative methods of assessing.

**Credit Hours:** 4 hrs  
**Prerequisite:** PHED 308, PHED 307, and PHED 330  
**Major Restrictions:** K-12 Physical Education Teacher Education Major  
**Graduate Credit:** This is an undergraduate course available to graduate students for graduate credit.  
**Previously Listed As:** PHED 470 - Assessment and Evaluation in Physical Education  
**Last Updated:** Change to course number, credit hours, description, prereq, and major restriction 3/2014, effective Fall 2014; Graduate Credit 07/2011

**PHED 477 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 1 hr

**PHED 478 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 2 hrs

**PHED 479 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 3 hrs

**PHED 482 - Internship for Sport Performance and Fitness Entrepreneurship**

The purpose of the Sport Performance and Fitness Entrepreneurship internship is to enable the student an opportunity to develop applied, practical, skills based upon theory, knowledge and principles acquired in the classroom and laboratory. In addition, the internship provides students the opportunity to become proficient with behaviors deemed appropriate among their peers in the professional setting and clients in the employment environment of their discipline.

**Credit Hours:** 8
Class Restrictions: Senior
Notes: Prior to Internship enrollment, students are required to complete all coursework in the Sport Performance and Fitness Entrepreneurship major and the Business Entrepreneurship minor.
Last Updated: New Course 3/2014, effective Fall 2014

PHED 483 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 4 hrs
Repeatable for Credit: Yes
Last Updated: New Course 3/2014, effective Summer 2014

PHED 485 - Curriculum and Program Design in Physical Education

This course introduces late-term pre-service teacher candidates to curriculum theory, Physical Education instructional models, and development of a school culture of Physical Education and physical activity. Students will be challenged to understand the role of Physical Education in a 21st Century society, while also applying that understanding to how and what should be taught in K-12 Physical Education content.

Credit Hours: 3 hrs
Prerequisite: PHED 460
Major Restrictions: K -12 Physical Education Teacher Education Major
Previously Listed As: PHED 415 - Curriculum and Instruction in Physical Education
Last Updated: Change to Number, Description, Prereq, and major restriction 3/2014, effective Fall 2014; Links 04/2011

PHED 487 - Cooperative Education in Physical Education

One semester of supervised work in concentration area. An evaluation is required at the end of the employment period.

Credit Hours: 3 hrs
Prerequisite: Nine credit hours in concentration, approval by Cooperative Education Office and department permission
Last Updated: Links 04/2011

PHED 490 - Field Experience in Adapted Physical Education

Required course for "teachers of physical education for handicapped individuals; approval." A directed 15-week field experience in teaching physical education to handicapped persons in a school setting.

Credit Hours: 4 hrs
Prerequisite: Department permission
Last Updated: Links 04/2011

PHED 491 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 8 hrs
Last Updated: New Course 3/2014, effective Summer 2014
PHED 495 - Physical Education Student Teaching Seminar

This seminar supplements the Physical Education student teaching semester experience. Major topics and themes discussed will include the transition from student to educator through the student teaching process, professional preparation for the education field, and discussion of the application of Physical Education pedagogical skills.

Credit Hours: 1 hr
Major Restrictions: K -12 Physical Education Teacher Education Major
Previously Listed As: PHED 495 - Senior Seminar
Last Updated: Change to title, description and Major Restriction 3/2013, effective Fall 2014; Links 04/2011

PHED 497 - Directed Study

Directed study in areas not covered in other course offerings, or greater depth of study in areas in which the student has a continuing interest. Students will be assigned to select faculty members for direction, consultation and evaluation of the completed study or project. Open only to department majors and minors who have attained junior standing, with a GPA of 3.0 or above, and who have completed the appropriate background courses.

Credit Hours: 1 hr
Prerequisite: Department permission
Last Updated: Links 04/2011

PHED 498 - Directed Study

Directed study in areas not covered in other course offerings, or greater depth of study in areas in which the student has a continuing interest. Students will be assigned to select faculty members for direction, consultation and evaluation of the completed study or project. Open only to department majors and minors who have attained junior standing, with a GPA of 3.0 or above, and who have completed the appropriate background courses.

Credit Hours: 2 hrs
Prerequisite: Department permission
Last Updated: Links 04/2011

PHED 499 - Directed Study

Directed study in areas not covered in other course offerings, or greater depth of study in areas in which the student has a continuing interest. Students will be assigned to select faculty members for direction, consultation and evaluation of the completed study or project. Open only to department majors and minors who have attained junior standing, with a GPA of 3.0 or above, and who have completed the appropriate background courses.

Credit Hours: 3 hrs
Prerequisite: Department permission
Last Updated: Links 04/2011

Recreation

RECR 100L - Introduction to Recreation and Leisure (GELB)

A basic overview of the fields of recreation and leisure service delivery for the major student. Emphasizes the broad aspects of recreation and leisure as they relate to the delivery of human services. Includes history, philosophy, treads and job opportunities.
Lecture, discussion, film and speakers from the field.

**Credit Hours:** 3 hrs  
**Notes:** Academic Service Learning Course (Winter 2015, CRN: 22292, 22609).  
**Last Updated:** Course Note 12/2014; Links 03/2011

**RECR 110 - Rediscovering Your Creativity**

This course is designed to develop creative problem solving and idea generating abilities through a review of applied research. In addition, a series of in-class exercises will be facilitated and designed to enhanced latent creative abilities.

**Credit Hours:** 1 hr  
**Cross-Listed with:** IHHS 110  
**Last Updated:** Links 04/2011

**RECR 120 - Business Golf**

This course does not teach the game itself, it focuses on how to build relationships with clients, proper etiquette on and off the course, the selection of equipment, protocol of behavior at country clubs and an overview of the process of planning and implementing a personal business golf strategy to further your career.

**Credit Hours:** 1 hr

**RECR 165 - Leisure Lifestyles**

An introduction to leisure lifestyles as related to oneself and how leisure behavior relates to an individual’s work, education, economy, ethnic beliefs and values. The course involves individual leisure awareness, choices, goals and strategies to assist in creating a quality and fulfilling life. Lecture, discussion, evaluation techniques and self-exploration. Helpful for majors in any discipline.

**Credit Hours:** 3 hrs

**RECR 177 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 1 hr

**RECR 178 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 2 hrs

**RECR 179 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.
Credit Hours: 3 hrs

**RECR 260 - Recreation Leadership**

Methods and techniques of group and individual leadership skills at three levels: direct face-to-face leadership, supervision and management. An overview of conceptual and theoretical components of the leadership process; practical application of various leadership methods and procedures in a cross section of leisure service settings. Lectures, discussion and experiential learning.

Credit Hours: 3 hrs

**RECR 271 - Park Maintenance**

This course will present material on the role of park maintenance in parks and open space areas; knowledge of the properties of soil for development of parks and open spaces; the fundamentals of turf management and management of woody plants, as well as the maintenance of structures and trails for parks and open spaces scheduling, and safety and practice equipment.

Credit Hours: 3 hrs

**RECR 277 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr

**RECR 278 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs

**RECR 279 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs

**RECR 280L - Camping (GELB)**

History of organized camping; camping on federal and state recreation areas; information sources for camping; planning and preparation (equipment, clothing, meals, camp schedules and camp programs). Skills areas for camping: map and compass; ropes and knot-tying; campfire construction; camp tool use and maintenance; and tents. Safety reviewed for meal preparation, use of tools, and toxic plants and animals. Lecture, demonstrations and student participation in a weekend camping trip.

Credit Hours: 2 hrs

Notes: Academic Service Learning Course (Winter 2015, CRN: 22293).

Last Updated: Course Note 12/2014; Links 03/2011
RECR 282L - Backpacking (GELB)

The history, knowledge, and skills required to participate in backpacking are introduced. Trip planning and preparation are presented. Trip topics include trip planning, meal planning and preparation, equipment, clothing, footwear, safety, and first aid. Site topics include: low impact, trail construction, backcountry travel, leadership, safety, backcountry etiquette, wildlife encounters, evacuation methods/procedures, and agency provider identification.

Credit Hours: 3 hrs
Notes: Academic Service Learning Course (Winter 2015, CRN: 23417).
Last Updated: Course Note 12/2014; Links 03/2011

RECR 284 - Backcountry First Aid

This course is designed to prepare outdoor recreation managers, commercial providers, and users of remote/backcountry outdoor recreation areas with the knowledge, skills, and abilities to provide first responder care to injured or ill participants in a backcountry setting.

Credit Hours: 3
Repeatable for Credit: Yes, up to 6 hrs
Last Updated: Change to Concurrent Prerequisite 4/2014, effective Fall 2014; New Course 12/2012, effective Summer 2013

RECR 290 - Practical Research in Recreation

Students learn and apply research methodology, design, sampling and measurement to solve problems related to the provision of social services. Students design data collection instruments, collect and code data. Data is analyzed using appropriate statistical techniques. Results are interpreted and a research report is submitted.

Credit Hours: 3 hrs
Prerequisite: MATH 105
Last Updated: Links 04/2011

RECR 360 - Recreation Program Planning

This is an introductory course in planning and implementing recreation programs for diverse social and ethnic groups. In cooperation with a community service agency students plan, advertise, market, promote, implement, assess and evaluate the actual delivery of recreation program.

Credit Hours: 3 hrs

RECR 361 - Special Events in Recreation

This upper-level course is designed to inform the student of current trends in special events and management. The course will combine lecture materials with small group techniques to develop and present a special-event idea to a panel of professional recreators.

Credit Hours: 3 hrs
Prerequisite: RECR 100L and RECR 260
Last Updated: Links 04/2011

RECR 370 - Leisure Facility Design and Management
This course is of interest to all students involved in managing a public facility. The course will cover information needed to plan, develop and coordinate a public facility.

Credit Hours: 3 hrs

**RECR 377 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr

**RECR 378 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs

**RECR 379 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs

**RECR 390 - Outdoor Recreation**

History of outdoor recreation and outdoor recreation management. A systems view of outdoor recreation resources; federal, state, and local agencies that provide outdoor recreation opportunities; their history and management philosophies and problems. Tools utilized by managers of outdoor recreation resources to provide opportunities for recreation. Lecture, speakers, projects.

Credit Hours: 3 hrs

**RECR 450 - Park Planning and Design**

This course focuses on history and purpose of park planning. Discussions will include the planning process, systems and site-level planning, use of recreation standards, and use of consultants. Reviewed are principles of site design and site plans. The lab will deal with maps and aerial photos, computer drawing.

Credit Hours: 3 hrs

**RECR 460 - Park and Recreation Administration**

This course introduces students to organizational management approach and structures. Students learn how to design management objectives. Fundraising and fund development methods are presented. Volunteer program design is discussed. The course emphasizes marketing of leisure and social services and pricing of products and services. Administrative responsibility and ethics are covered.

Credit Hours: 3 hrs
RECR 465 - Park and Recreation Management

This course will present the philosophical stance of managers in directing nonprofit leisure service agencies; the problem solving process; policy development; and strategic planning for nonprofit leisure service agencies. Students will learn how to involve the public in management decision making.

Credit Hours: 3 hrs

RECR 471 - Contemporary Issues in Recreation

This course is to familiarize the recreation and park management student with vital issues that practicing professionals are facing on a daily basis. The class will utilize a seminar format with each session focusing on a single issue. A wide range of leading authorities in the field will present from their perspective followed by an in-depth discussion session on how this topic affects the future professional.

Credit Hours: 3 hrs
Prerequisite: RECR 100L
Class Restrictions: Junior or Senior standing
Last Updated: Links 04/2011

RECR 477 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr

RECR 478 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs

RECR 479 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs

RECR 489 - Recreation Practicum

A full-time, 15-week, 600-hour experience in a leisure services setting under a qualified recreation/leisure specialist and University supervisor.

Credit Hours: 8 hrs
Prerequisite: Completion of 90 percent of all academic courses including RECR 100L, THRC 200, THRC 250, RECR 260, RECR 360, RECR 460 and RECR 465; completion of 250 hours of fieldwork; overall grade point average of 2.5 and GPA of 2.75 in recreation and park management required and elective courses
Last Updated: Links 04/2011
**RECR 497 - Directed Study**

An opportunity for directed study in areas not covered in other course offerings, or greater depth of study in areas of continued interest for the student. Students will be assigned to select faculty members for direction, consultation and evaluation of the completed study or project. Open only to department majors and minors who have attained junior standing, with a GPA of 3.0 or above and who have completed the appropriate background courses.

**Credit Hours:** 1 hr  
**Prerequisite:** Department permission  
**Last Updated:** Links 04/2011

**RECR 498 - Directed Study**

An opportunity for directed study in areas not covered in other course offerings, or greater depth of study in areas of continued interest for the student. Students will be assigned to select faculty members for direction, consultation and evaluation of the completed study or project. Open only to department majors and minors who have attained junior standing, with a GPA of 3.0 or above and who have completed the appropriate background courses.

**Credit Hours:** 2 hrs  
**Prerequisite:** Department permission  
**Last Updated:** Links 04/2011

**RECR 499 - Directed Study**

An opportunity for directed study in areas not covered in other course offerings, or greater depth of study in areas of continued interest for the student. Students will be assigned to select faculty members for direction, consultation and evaluation of the completed study or project. Open only to department majors and minors who have attained junior standing, with a GPA of 3.0 or above and who have completed the appropriate background courses.

**Credit Hours:** 3 hrs  
**Prerequisite:** Department permission  
**Last Updated:** Links 04/2011

**Sport Management**

**SMGT 201 - Foundations of Sport Management**

This course discusses the meaning of sport management in terms of its scope, principles, issues and future trends. In addition, this course examines the job responsibilities and competencies required of sport managers in a variety of sports or sports-related organizations in a hope to have the student become acquainted with the role of sport administrators and managers. Finally, this course provides the student with an overview of the different facets and career opportunities that are available in the field of sport management.

**Credit Hours:** 3 hrs

**SMGT 255 - Sports in Society**

This is a required introductory level course for SMGT Majors which examines the sociological factors that influence sport in our society. The purpose of the course is to provide the student with a sound theoretical basis and the ability to critically examine the sociological issues found within sport.
SMGT 265 - Foundations of Sport Leadership

This course examines the management and leadership components of those who supervise sport organizations. Areas such as developing goals, decision making, strategic planning, leadership styles and resource management will be examined with the objective of developing a management and leadership philosophy.

Credit Hours: 3 hrs
Repeatable for Credit: No
Last Updated: New Course 11/2013, effective Summer 2014

SMGT 305 - Applied Sport Psychology for Sport Management Professionals

Course covers theory analysis and understanding of applied-sport psychology for individuals in sport management. Students explore ways to use mental-skills training and educate coaches regarding applied-sport psychology. Strategies for working with consultants to enhance athlete performance are addressed.

Credit Hours: 3 hrs
Prerequisite: PSY 101 or SMGT 255 or instructor permission
Class Restrictions: Junior standing
Previously Listed As: SMGT 405
Last Updated: Number Change 1/2013, effective Summer 2013; Links 03/2011

SMGT 325 - Sport Facilities

A required course for sport management majors which examines the planning and management of sport facilities. The course will focus on elements of planning, design and management, while examining functions related to maintenance, security, operations and evaluation.

Credit Hours: 3 hrs
Prerequisite: SMGT 201; SMGT 255
Class Restrictions: Junior and Senior standing only
Last Updated: Links 03/2011

SMGT 375 - Sport and Event Planning

This course offers and introduction to the planning, marketing, management and evaluation of sporting events. The course content will explore the theories and practices relevant to successful event planning for high school athletics, collegiate athletics, and other sporting events.

Credit Hours: 3 hrs
Prerequisite: SMGT 201; SMGT 255
Last Updated: Links 03/2011

SMGT 385W - Introduction to Research in Sport Management (GEWI)
A course to teach students the research skills that can be applied to their professional careers. The student will be able to effectively locate research articles related to sport management, and understand how to apply the research to their professional careers.

Credit Hours: 3 hrs  
Prerequisite: SMGT 201; SMGT 255  
Class Restrictions: Junior or Senior standing  
Writing Intensive:  

Last Updated: Links 04/2011

SMGT 425 - Diversity in Sport Organizations

A required course for sport management majors which examines diversity management strategies used by sport organizations. Students will learn how to design an effective diversity training program.

Credit Hours: 3 hrs  
Prerequisite: SMGT 201; SMGT 255  
Class Restrictions: Junior or Senior standing  
Last Updated: Links 03/2011

SMGT 445 - Sport Economics and Finance

Basic theory in economics and finance applied to managerial control of sport organizations.

Credit Hours: 3 hrs  
Prerequisite: SMGT 201; SMGT 255  
Class Restrictions: Junior or Senior standing  
Last Updated: Links 03/2011

SMGT 460 - Sports Ethics

The purpose of this course is to provide students an opportunity to reflect on and discuss ethical concerns in physical education and athletics. Topics will include ergogenic aids, competition vs. cooperation, commercialization, and youth sport.

Credit Hours: 3 hrs  
Prerequisite: SMGT 201  
Cross-Listed with: SMGT 560  
Last Updated: Links 03/2011

SMGT 477 - Special Topics

Offered on an experimental basis for one semester for purposes of meeting special needs and/or innovations.

Credit Hours: 1 hr  
Prerequisite: SMGT 201  
Class Restrictions: Junior or Senior standing only  
Last Updated: Links 03/2011

SMGT 478 - Special Topics
Offered on an experimental basis for one semester for purposes of meeting special needs and or innovations.

**Credit Hours:** 2 hrs  
**Prerequisite:** SMGT 201  
**Class Restrictions:** Junior or Senior standing  
**Last Updated:** Links 03/2011

**SMGT 479 - Special Topics**

Offered on an experimental basis for one semester for purposes of meeting special needs and/or innovations.

**Credit Hours:** 3 hrs  
**Prerequisite:** SMGT 201  
**Class Restrictions:** Junior or Senior standing  
**Last Updated:** Links 03/2011

**SMGT 493 - Fieldwork in Sport Management I**

This course provides students with real world experience in the area of sport management. Students will take this course before SMGT 494 and SMGT 495 for a total of 9 credits in three different sport management locations.

**Credit Hours:** 3 hrs  
**Prerequisite:** SMGT 201 and department permission  
**Class Restrictions:** Sophomore standing or above  
**Last Updated:** Links 03/2011

**SMGT 494 - Fieldwork in Sport Management**

This course provides students with real world experience in the area of sport management. Students will take this course three times for a total of 9 credits in three different sport management locations.

**Credit Hours:** 3 hrs  
**Prerequisite:** SMGT 201 and department permission  
**Class Restrictions:** Sophomore standing or above  
**Last Updated:** Links 03/2011

**SMGT 495 - Fieldwork in Sport Management**

This course provides students with real world experience in the area of sport management. Students will take this course three times for a total of 9 credits in three different sport management locations.

**Credit Hours:** 3 hrs  
**Prerequisite:** SMGT 201 and department permission  
**Class Restrictions:** Sophomore standing or above  
**Last Updated:** Links 03/2011

**SMGT 511 - NCAA Compliance**

This course introduces students to basic compliance principles and the NCAA rules that affect the management of a college athletic department. This course offers an understanding of the structure and function of a Division I compliance operation. The governing principles of institutional control and ethical conduct will be explored from a compliance perspective.
Credit Hours: 3 hrs
Notes: This is a graduate course in an undergraduate program.
School of Health Sciences Programs and Courses

School of Health Sciences

Major

Clinical Laboratory Sciences Major - Cytogenetics Concentration

The clinical laboratory sciences program offers a clinical certification track that includes a submajor in cytogenetics. The track is designed to prepare graduates for employment in hospitals, physician's offices, private laboratories, public health agencies, pharmaceutical companies and academic or industrial research.

Advising is available by faculty through the clinical laboratory sciences program. To assess progress, students should meet with their advisor each semester in which they are enrolled in classes. The MLS program is accredited by:

National Accrediting Agency for Clinical Laboratory Sciences
5600 North River Road
Suite 720
Rosemont, IL 60018

Certification as a Medical Laboratory Scientist

Once the student has completed the requirements for a B.S. through our NAACLS accredited Medical Laboratory Science Program he or she is eligible to sit for the Board of Certification exam sponsored by the American Society of Clinical Pathologist.

Clinical Certification Track

This curriculum is a four-year program at Eastern Michigan University:

The medical laboratory science option consists of seven semesters of course work in general education, basic sciences and clinical sciences and includes 22 weeks of rotation through an accredited clinical laboratory. These rotations for the clinical track include:

University of Michigan, Ann Arbor
Mercy Memorial Hospital, Monroe
Garden City Hospital, Garden City
VA Hospital, Ann Arbor
St. John Providence, Southfield
Promedica Health System, Toledo OH
Alverno Clinical Labs, Hammond IN
Henry Ford Hospital, Detroit for Cytogenetics
William Beaumont Hospital, Royal Oak Histotechnology

Because enrollment in the fourth year is limited by the size of classes in the affiliated hospitals, admission to the program does not ensure admission to the clinical rotations of the curriculum. Admission into the clinical rotations is competitive. The cytogenetics and histotechnology options consist of six semesters of course work and 12 months of clinical rotations through an accredited clinical laboratory.
The major in clinical laboratory sciences follows an interdisciplinary format composed of courses in clinical laboratory sciences, biology, chemistry and mathematics.

All students must complete the courses in each of the four areas of general education. At least 30 hours of the academic program must be completed at Eastern Michigan University. Students should be aware of the 60- and 75-hour rule regarding transfer of community college credit.

Admission and continuation in the clinical laboratory sciences program is based upon the following:

1. A minimum EMU cumulative GPA of 2.0. A cumulative GPA of less than 2.8 mandates warning students of their ineligibility for acceptance into the clinical track.
2. No grade below C in any mathematics or science course.
3. A grade of D (including D- and E) in one courses in the clinical laboratory sciences major may, upon recommendation by the Program Review Committee, result in dismissal from the CLS program.
4. Freedom from any kind of probation (administrative, academic, academic dishonesty or other university sanctioned probations) must be maintained. While on academic probation, no student may register for, remain in, or receive credit for science courses or practicum courses within the clinical laboratory sciences program.
5. TOEFL scores of 570 or above (230 on the computer-based exam or 88 on the internet-based exam).
6. Students may retake any science, math or CLSC course only one time in order to improve a grade.
7. Transfer credits from any institution must be at least a B or above.

Successful completion of the clinical track and the bachelor of science degree qualifies students to take the national board examination in medical laboratory science.

Clinical Track Requirements

Students must be accepted to Eastern Michigan University before they can be considered by the Clinical Laboratory Science Program Screening Committee. However, admission to EMU does not guarantee admission into the clinical track program.

Students entering the program will be classified initially as clinical laboratory sciences "intents." Application for full admission to the clinical track program should be made during the winter semester of the junior year.

Application packets can be obtained from the program director. Completed applications must be in the office by March 15 in order to be considered for acceptance for the winter semester.

Selection criteria include overall EMU GPA, letters of recommendation, overall science GPA, interview evaluations, freedom from any academic dishonesty and completed application form.

Admission to the clinical laboratory sciences curriculum/clinical track is competitive and is based on the following:

1. A minimum GPA of 2.8 with no grade below C in any science, mathematics or pre-professional course. The prerequisite courses may be taken at EMU, or other four-year college/university or at a community college.
2. A minimum science GPA of 2.8.
3. Completion of at least 60 hours of University credit, including 45 credit hours of prerequisite mathematics and science courses, as indicated on the application form.
4. Three letters of recommendation. It is suggested that references should include a science instructor and an employer.
5. Documentation that an applicant will have completed all prerequisite clinical laboratory sciences courses prior to beginning clinical rotations in the spring of the senior year.

The first three years of clinical laboratory sciences are similar for both the professional and clinical tracks. It is likely that acceptance into the clinical track will be highly competitive. Clinical laboratory sciences majors who are not accepted into the clinical track program, yet desire to sit for the registry examination in medical laboratory science, have the following options:

1. Completion of the bachelor of science degree in clinical laboratory sciences (professional track) at Eastern Michigan University and filing a reapplication to the clinical track program.

2. Completion of all required course work for the bachelor of science degree in clinical laboratory sciences and application to an approved hospital-based school of medical technology. The faculty advisors will assist students in the application process. Students are selected for internship placement through a statewide computer matching process. The selection process is completed in September each year, with internships usually beginning during the month of July. A bachelor of science in clinical laboratory sciences will qualify the student to apply to hospitals within Michigan and throughout the United States.

Hospital-based schools of medical technology (internship programs) associated with the computer match process are:

- Detroit Medical Center, Detroit
- St. John Hospital, Detroit
- Hurley Hospital, Flint
- William Beaumont Hospital, Royal Oak

**Cytogenetics Track:**

Program Director: Jim Zabawski (Henry Ford Hospital)

Cytogenetic technologists work independently under general supervision and can interpret and implement established procedures to prepare biological specimens for cytogenetics analysis, perform the analysis and construct and interpret karyotypes.

Students may be accepted into the cytogenetics specialization after completing the required science, mathematics and clinical laboratory science courses. University general education requirements must also be met. The senior year consists of a 12-month internship at Henry Ford Hospital in the Cytogenetics department. The program consists of an integrated presentation of didactic material and intensive laboratory study in the area of cytogenetics that includes specimen preparation, cell culture, chromosome analysis, microscopy and photography.

**School Information:**

School of Health Sciences - College of Health and Human Services

**Advisor Information:**
General Education Requirements:

For specific requirements refer to the General Education Program.

Clinical Laboratory Sciences Major Requirements: 52 hours

- AHPR 200 - Medical Terminology 1 hr
- BIO 110 - Introductory Biology I (GEKN) 5 hrs
- BIO 301 - Genetics 3 hrs
- BIO 305 - Cell and Molecular Biology 3 hrs
- CHEM 121 - General Chemistry I (GEKN) 3 hrs
- CHEM 122 - General Chemistry I Laboratory (GEKN) 1 hr
- CHEM 123 - General Chemistry II 3 hrs
- CHEM 124 - General Chemistry II Laboratory 1 hr
- CHEM 270 - Survey of Organic Chemistry 4 hrs
- CHEM 271 - Organic Chemistry Laboratory 1 hr
- CHEM 351 - Foundations of Biochemistry 4 hrs
- CLSC 200 - Clinical Laboratory Techniques 3 hrs
- CLSC 300 - Molecular Diagnostics 3 hrs
- CLSC 332 - Clinical Microbiology I 3 hrs
- CLSC 335 - Clinical Immunology 3 hrs
- CLSC 336 - Clinical Immunology Laboratory 1 hr
- CLSC 401W - Laboratory Management/Education (GEWI) 3 hrs
- CLSC 407 - Hematology 3 hrs
- CLSC 408 - Clinical Hematology Laboratory 1 hr

One from the following:

- MATH 170 - Elementary Statistics (GEQR) 3 hrs
- SOCL 250 - Quantitative Applications in Sociology (GEQR) 3 hrs

Cytogenetics Concentration Requirements: 29 hours

- BIO 120 - Introductory Biology II 5 hrs
- BIO 476 - Mammalian Histology 3 hrs

* CLSC 410A - Cytogenetics Clinical Internship 7 hrs

OR

* CLSC 410B - Cytogenetics Clinical Internship 7 hrs

* CLSC 411 - Cytogenetics, Clinical Internship II 14 hrs
Minor Requirements:

This program does not require a minor.

Program Total:

Students must earn a minimum total of 124 credits at the 100-level or above.

Notes:

* These three courses are an off-campus, full-time clinical internship.

Critical Graduation Information:

Each undergraduate student will be responsible for the fulfillment of the requirements or their equivalents of the Eastern Michigan University catalog in force at the time of their initial registration at a college or university or a subsequent catalog including the one in effect at the time of their graduation.

In the event an undergraduate student does not complete the degree requirements within seven years of the date of their original registration at a college or university, the student may be required to have their credits re-evaluated by the academic department(s) of their major/minor in keeping with catalog requirements in force during the year of their graduation.

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the 100-level and above. Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Complete a Writing Intensive (WI) Course in your major.
- Earn a minimum of 60 credits from a four-year college or university; courses taken at community colleges cannot be used to meet this requirement. (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 unique credit hours in their major and 20 unique credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
- Earn no more than 60 credit hours in one subject area (prefix). Credits in excess of the 60 maximum will not be counted toward the minimum of 124 credits required for a bachelor's degree.
- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more than one major or minor.
  - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
  - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
  - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor.
• Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is conducted by individual departments/schools within EMU, and additional documentation may be required. Please note: EMU awards only credit for transferred courses; grades are not used in the calculation of an EMU GPA.

• Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be reached in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

**General Education Requirements:**

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available in the General Education section of the catalog: General Education

Students who transferred to EMU may have modified general education requirements based on Michigan Transfer Agreement (MTA) or articulation agreements; consult your academic advisor for additional information.

**University Information:** Consult the online catalog at catalog.emich.edu.

**Clinical Laboratory Sciences Major - Histotechnology Concentration**

The clinical laboratory sciences program offers a clinical certification track that includes a submajor in histotechnology. The tracks are designed to prepare graduates for employment in hospitals, physician’s offices, private laboratories, public health agencies, pharmaceutical companies and academic or industrial research.

Advising is available by faculty through the clinical laboratory sciences program. To assess progress, students should meet with their advisor each semester in which they are enrolled in classes. The MLS program is accredited by:

**National Accrediting Agency for Clinical Laboratory Sciences**

5600 North River Road
Suite 720
Rosemont, IL 60018

**Certification as a Medical Laboratory Scientist**

Once the student has completed the requirements for a B.S. through our NAACLS accredited Medical Laboratory Science Program he or she is eligible to sit for the Board of Certification exam sponsored by the American Society of Clinical Pathologist.

**Clinical Certification Track**

This curriculum is a four-year program at Eastern Michigan University:

The medical laboratory science option consists of seven semesters of course work in general education, basic sciences and clinical sciences and includes 22 weeks of rotation through an accredited clinical laboratory. These rotations for the clinical track include:
Because enrollment in the fourth year is limited by the size of classes in the affiliated hospitals, admission to the program does not ensure admission to the clinical rotations of the curriculum. Admission into the clinical rotations is competitive. The histotechnology option consists of six semesters of course work and 12 months of clinical rotations through an accredited clinical laboratory.

The major in clinical laboratory sciences follows an interdisciplinary format composed of courses in clinical laboratory sciences, biology, chemistry and mathematics.

All students must complete the courses in each of the four areas of general education. At least 30 hours of the academic program must be completed at Eastern Michigan University. Students should be aware of the 60- and 75-hour rule regarding transfer of community college credit.

Admission and continuation in the clinical laboratory sciences program is based upon the following:

a. A minimum EMU cumulative GPA of 2.0. A cumulative GPA of less than 2.8 mandates warning students of their ineligibility for acceptance into the clinical track.

b. No grade below C in any mathematics or science course.

c. A grade of D (including D- and E) in one courses in the clinical laboratory sciences major may, upon recommendation by the Program Review Committee, result in dismissal from the CLS program.

d. Freedom from any kind of probation (administrative, academic, academic dishonesty or other university sanctioned probations) must be maintained. While on academic probation, no student may register for, remain in, or receive credit for science courses or practicum courses within the clinical laboratory sciences program.

e. TOEFL scores of 570 or above (230 on the computer-based exam or 88 on the internet-based exam).

f. Students may retake any science, math or CLSC course only one time in order to improve a grade.

g. Transfer credits from any institution must be at least a B or above.

Successful completion of the clinical track and the Bachelor of Science degree qualifies students to take the national board examination in medical laboratory science.

Clinical Track Requirements

Students must be accepted to Eastern Michigan University before they can be considered by the Clinical Laboratory Science Program Screening Committee. However, admission to EMU does not guarantee admission into the clinical track program.

Students entering the program will be classified initially as clinical laboratory sciences “intents.” Application for full admission to the clinical track program should be made during the winter semester of the junior year.

Application packets can be obtained from the program director. Completed applications must be in the office by March 15 in order to be considered for acceptance for the winter semester.
Selection criteria include overall EMU GPA, letters of recommendation, overall science GPA, interview evaluations, freedom from any academic dishonesty and completed application form.

Admission to the clinical laboratory sciences curriculum/clinical track is competitive and is based on the following:

1. A minimum GPA of 2.8 with no grade below C in any science, mathematics or pre-professional course. The prerequisite courses may be taken at EMU, or other four-year college/university or at a community college.

2. A minimum science GPA of 2.8.

3. Completion of at least 60 hours of University credit, including 45 credit hours of prerequisite mathematics and science courses, as indicated on the application form.

4. Three letters of recommendation. It is suggested that references should include a science instructor and an employer.

5. Documentation that an applicant will have completed all prerequisite clinical laboratory sciences courses prior to beginning clinical rotations in the spring of the senior year.

The first three years of clinical laboratory sciences are similar for both the professional and clinical tracks. It is likely that acceptance into the clinical track will be highly competitive. Clinical laboratory sciences majors who are not accepted into the clinical track program, yet desire to sit for the registry examination in medical laboratory science, have the following options:

1. Completion of the Bachelor of Science degree in clinical laboratory sciences (professional track) at Eastern Michigan University and filing a reapplication to the clinical track program.

2. Completion of all required course work for the bachelor of science degree in clinical laboratory sciences and application to an approved hospital-based school of medical technology. The faculty advisors will assist students in the application process. Students are selected for internship placement through a statewide computer matching process. The selection process is completed in September each year, with internships usually beginning during the month of July. A bachelor of science in clinical laboratory sciences will qualify the student to apply to hospitals within Michigan and throughout the United States.

Hospital-based schools of medical technology (internship programs) associated with the computer match process are:

- Detroit Medical Center, Detroit
- St. John Hospital, Detroit
- Hurley Hospital, Flint
- William Beaumont Hospital, Royal Oak

**Histotechnology Track:**

Program Director: Peggy Wenk (William Beaumont Hospital)

Histotechnologists perform a variety of diagnostic and research procedures in the anatomic sciences. Basic histologic techniques involve the processing and staining of tissue specimens that have been removed from humans or animals by biopsy or autopsy. Advanced techniques involve the use of the electron microscope, immunofluorescence microscopy, autoradiography, cytogenetics and medical photography.

Students may be accepted into the histotechnology specialization after completing the required science, mathematics and clinical laboratory science courses. University general education requirements must also be met. The senior year consists of a 12-month internship at William Beaumont Hospital School of Histotechnology.

General Education Requirements:

For specific requirements refer to the General Education Program.

Clinical Laboratory Sciences Major Requirements: 57 hours

- AHPR 200 - Medical Terminology 1 hr
- BIO 110 - Introductory Biology I (GEKN) 5 hrs
- BIO 120 - Introductory Biology II 5 hrs
- BIO 301 - Genetics 3 hrs
- BIO 305 - Cell and Molecular Biology 3 hrs
- CHEM 121 - General Chemistry I (GEKN) 3 hrs
- CHEM 122 - General Chemistry I Laboratory (GEKN) 1 hr
- CHEM 123 - General Chemistry II 3 hrs
- CHEM 124 - General Chemistry II Laboratory 1 hr
- CHEM 270 - Survey of Organic Chemistry 4 hrs
- CHEM 271 - Organic Chemistry Laboratory 1 hr
- CHEM 351 - Foundations of Biochemistry 4 hrs
- CLSC 200 - Clinical Laboratory Techniques 3 hrs
- CLSC 300 - Molecular Diagnostics 3 hrs
- CLSC 332 - Clinical Microbiology I 3 hrs
- CLSC 335 - Clinical Immunology 3 hrs
- CLSC 336 - Clinical Immunology Laboratory 1 hr
- CLSC 401W - Laboratory Management/Education (GEWI) 3 hrs
- CLSC 407 - Hematology 3 hrs
- CLSC 408 - Clinical Hematology Laboratory 1 hr

One from the following:

- MATH 170 - Elementary Statistics (GEQR) 3 hrs
- SOCL 250 - Quantitative Applications in Sociology (GEQR) 3 hrs
Histotechnology Concentration Requirements: 41 hours

- BIO 251 - Human Anatomy and Physiology I 4 hrs
- BIO 252 - Human Anatomy and Physiology II 4 hrs
- BIO 476 - Mammalian Histology 3 hrs
- CLSC 307 - Urinalysis, Body Fluids and Hemostasis 3 hrs
- * CLSC 416 - Basic Histotechnology and Histochemical Staining Methods 12 hrs
- * CLSC 417 - Basic Electron Microscopy 8 hrs
- * CLSC 418 - Immunohisto-Cytochemistry 4 hrs
- PHIL 223 - Medical Ethics (GEKH) 3 hrs

Minor Requirements:

This program does not require a minor.

Program Total:

Students must earn a minimum total of 124 credits at the 100-level or above.

Notes:

* These three courses are an off-campus, full-time clinical internship.

Critical Graduation Information:

Each undergraduate student will be responsible for the fulfillment of the requirements or their equivalents of the Eastern Michigan University catalog in force at the time of their initial registration at a college or university or a subsequent catalog including the one in effect at the time of their graduation.

In the event an undergraduate student does not complete the degree requirements within seven years of the date of their original registration at a college or university, the student may be required to have their credits re-evaluated by the academic department(s) of their major/minor in keeping with catalog requirements in force during the year of their graduation.

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the 100-level and above. Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Complete a Writing Intensive (WI) Course in your major.
- Earn a minimum of 60 credits from a four-year college or university; courses taken at community colleges cannot be used to meet this requirement. (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
• Have a minimum of 30 unique credit hours in their major and 20 unique credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.

• Earn no more than 60 credit hours in one subject area (prefix). Credits in excess of the 60 maximum will not be counted toward the minimum of 124 credits required for a bachelor's degree.

• Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more that one major or minor.
  o Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
  o Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
  o Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor

• Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is conducted by individual departments/schools within EMU, and additional documentation may be required. Please note: EMU awards only credit for transferred courses; grades are not used in the calculation of an EMU GPA.

• Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be reached in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

**General Education Requirements:**

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available in the General Education section of the catalog: General Education

Students who transferred to EMU may have modified general education requirements based on Michigan Transfer Agreement (MTA) or articulation agreements; consult your academic advisor for additional information.

**University Information:** Consult the online catalog at catalog.emich.edu.

**Clinical Laboratory Sciences Major - Medical Laboratory Science Concentration**

The clinical laboratory sciences program offers a clinical certification track that includes a submajor in medical laboratory science. The track is designed to prepare graduates for employment in hospitals, physician’s offices, private laboratories, public health agencies, pharmaceutical companies and academic or industrial research. The professional track is the preferred course of study for students considering graduate school or advanced studies in the clinical sciences. The professional track also can be used as preparation for careers in medicine, dentistry, and veterinary science.

Advising is available by faculty through the clinical laboratory sciences program. To assess progress, students should meet with their advisor each semester in which they are enrolled in classes. The MLS program is accredited by:

**National Accrediting Agency for Clinical Laboratory Sciences**  
5600 North River Road  
Suite 720  
Rosemont, IL 60018
Certification as a Medical Laboratory Scientist

Once the student has completed the requirements for a B.S. through our NAACLS accredited Medical Laboratory Science Program he or she is eligible to sit for the Board of Certification exam sponsored by the American Society of Clinical Pathologist.

Clinical Certification Track

This curriculum is a four-year program at Eastern Michigan University:

The medical laboratory science option consists of seven semesters of course work in general education, basic sciences and clinical sciences and includes 22 weeks of rotation through an accredited clinical laboratory. These rotations for the clinical track include:

University of Michigan, Ann Arbor
Mercy Memorial Hospital, Monroe
Garden City Hospital, Garden City
VA Hospital, Ann Arbor
St. John Providence, Southfield
Promedica Health System, Toledo OH
Alverno Clinical Labs, Hammond IN
Henry Ford Hospital, Detroit for Cytogenetics
William Beaumont Hospital, Royal Oak Histotechnology

Because enrollment in the fourth year is limited by the size of classes in the affiliated hospitals, admission to the program does not ensure admission to the clinical rotations of the curriculum. Admission into the clinical rotations is competitive. The Medical Laboratory Science program is accredited by the National Accrediting Agency for Clinical Laboratory Sciences.

The major in clinical laboratory sciences follows an interdisciplinary format composed of courses in clinical laboratory sciences, biology, chemistry and mathematics.

All students must complete the courses in each of the four areas of general education. At least 30 hours of the academic program must be completed at Eastern Michigan University. Students should be aware of the 60- and 75-hour rule regarding transfer of community college credit.

Admission and continuation in the clinical laboratory sciences program is based upon the following:

a. A minimum EMU cumulative GPA of 2.0. A cumulative GPA of less than 2.8 mandates warning students of their ineligibility for acceptance into the clinical track.

b. No grade below C in any mathematics or science course.

c. A grade of D (including D- and E) in one courses in the clinical laboratory sciences major may, upon recommendation by the Program Review Committee, result in dismissal from the CLS program.

d. Freedom from any kind of probation (administrative, academic, academic dishonesty or other university sanctioned probations) must be maintained. While on academic probation, no student may register for, remain in, or receive credit for science courses or practicum courses within the clinical laboratory sciences program.

e. TOEFL scores of 570 or above (230 on the computer-based exam or 88 on the internet-based exam).

f. Students may retake any science, math or CLSC course only one time in order to improve a grade.

g. Transfer credits from any institution must be at least a B or above.
Successful completion of the clinical track and the Bachelor of Science degree qualifies students to take the national board examination in medical laboratory science.

**Clinical Track Requirements**

Students must be accepted to Eastern Michigan University before they can be considered by the Clinical Laboratory Science Program Screening Committee. However, admission to EMU does not guarantee admission into the clinical track program.

Students entering the program will be classified initially as clinical laboratory sciences “intents.” Application for full admission to the clinical track program should be made during the winter semester of the junior year.

Application packets can be obtained from the program director. Completed applications must be in the office by March 15 in order to be considered for acceptance for the winter semester.

Selection criteria include overall EMU GPA, letters of recommendation, overall science GPA, interview evaluations, freedom from any academic dishonesty and completed application form.

Admission to the clinical laboratory sciences curriculum/clinical track is competitive and is based on the following:

1. A minimum GPA of 2.8 with no grade below C in any science, mathematics or pre-professional course. The prerequisite courses may be taken at EMU, or other four-year college/university or at a community college.
2. A minimum science GPA of 2.8.
3. Completion of at least 60 hours of University credit, including 45 credit hours of prerequisite mathematics and science courses, as indicated on the application form.
4. Three letters of recommendation. It is suggested that references should include a science instructor and an employer.
5. Documentation that an applicant will have completed all prerequisite clinical laboratory sciences courses prior to beginning clinical rotations in the spring of the senior year.

The first three years of clinical laboratory sciences are similar for both the professional and clinical tracks. It is likely that acceptance into the clinical track will be highly competitive. Clinical laboratory sciences majors who are not accepted into the clinical track program, yet desire to sit for the registry examination in medical laboratory science, have the following options:

1. Completion of the Bachelor of Science degree in clinical laboratory sciences (professional track) at Eastern Michigan University and filing a reapplication to the clinical track program.
2. Completion of all required course work for the Bachelor of Science degree in clinical laboratory sciences and application to an approved hospital-based school of medical technology. The faculty advisors will assist students in the application process. Students are selected for internship placement through a statewide computer matching process. The selection process is completed in September each year, with internships usually beginning during the month of July. A bachelor of science in clinical laboratory sciences will qualify the student to apply to hospitals within Michigan and throughout the United States.

Hospital-based schools of medical technology (internship programs) associated with the computer match process are:

- Detroit Medical Center, Detroit
- St. John Hospital, Detroit
- Hurley Hospital, Flint
- William Beaumont Hospital, Royal Oak

Minor Requirements:

This program does not require a minor.

Program Total:

Students must earn a minimum total of 124 credits at the 100-level or above.

Notes:

* These four courses are an off-campus, full-time clinical internship.

Critical Graduation Information:

Each undergraduate student will be responsible for the fulfillment of the requirements or their equivalents of the Eastern Michigan University catalog in force at the time of their initial registration at a college or university or a subsequent catalog including the one in effect at the time of their graduation.

In the event an undergraduate student does not complete the degree requirements within seven years of the date of their original registration at a college or university, the student may be required to have their credits re-evaluated by the academic department(s) of their major/minor in keeping with catalog requirements in force during the year of their graduation.
The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the 100-level and above. Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Complete a Writing Intensive (WI) Course in your major.
- Earn a minimum of 60 credits from a four-year college or university; courses taken at community colleges cannot be used to meet this requirement. (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 unique credit hours in their major and 20 unique credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
- Earn no more than 60 credit hours in one subject area (prefix). Credits in excess of the 60 maximum will not be counted toward the minimum of 124 credits required for a bachelor's degree.
- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more that one major or minor.
  - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
  - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
  - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor.
- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is conducted by individual departments/schools within EMU, and additional documentation may be required. Please note: EMU awards only credit for transferred courses; grades are not used in the calculation of an EMU GPA.
- Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be reached in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

General Education Requirements:

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available in the General Education section of the catalog: General Education

Students who transferred to EMU may have modified general education requirements based on Michigan Transfer Agreement (MTA) or articulation agreements; consult your academic advisor for additional information.

University Information: Consult the online catalog at catalog.emich.edu.
Clinical Laboratory Sciences Major - Medical Laboratory Science
Pre-Professional Concentration

The clinical laboratory sciences program offers a professional track. The professional track is the preferred course of study for students considering graduate school or advanced studies in the clinical sciences. The professional track also can be used as preparation for careers in medicine, dentistry, and veterinary science.

Advising is available by faculty through the clinical laboratory sciences program. To assess progress, students should meet with their advisor each semester in which they are enrolled in classes. The MLS program is accredited by:

National Accrediting Agency for Clinical Laboratory Sciences
5600 North River Road
Suite 720
Rosemont, IL 60018

Certification as a Medical Laboratory Scientist

Once the student has completed the requirements for a B.S. through our NAACLS accredited Medical Laboratory Science Program he or she is eligible to sit for the Board of Certification exam sponsored by the American Society of Clinical Pathologist.

Professional Track:

This curriculum is a four-year program at Eastern Michigan University:

Pre-professional Track:

This option consists of eight semesters of course work in general education and in basic, advanced and clinical sciences. Graduates will be prepared for careers in medicine, dentistry, veterinary medicine and as a physician assistant. Additionally, graduates will be eligible for entry into a master's or doctoral level program in the basic or clinical sciences. Students also would be eligible for one-year hospital rotations and subsequent certification as registered medical technologists.

The major in clinical laboratory sciences follows an interdisciplinary format composed of courses in clinical laboratory sciences, biology, chemistry and mathematics.

All students must complete the courses in each of the four areas of general education. At least 30 hours of the academic program must be completed at Eastern Michigan University. Students should be aware of the 60- and 75-hour rule regarding transfer of community college credit.

Admission and continuation in the clinical laboratory sciences program is based upon the following:

a. A minimum EMU cumulative GPA of 2.0. A cumulative GPA of less than 2.8 mandates warning students of their ineligibility for acceptance into the clinical track.

b. No grade below C in any mathematics or science course.

c. A grade of D (including D- and F) in one courses in the clinical laboratory sciences major may, upon recommendation by the Program Review Committee, result in dismissal from the CLS program.
d. Freedom from any kind of probation (administrative, academic, academic dishonesty or other university sanctioned probation) must be maintained. While on academic probation, no student may register for, remain in, or receive credit for science courses or practicum courses within the clinical laboratory sciences program.

e. TOEFL scores of 570 or above (230 on the computer-based exam or 88 on the Internet-based exam).

f. Students may retake any science, math or CLSC course only one time in order to improve a grade.

g. Transfer credits from any institution must be at least a B or above.

Successful completion of the clinical track and the bachelor of science degree qualifies students to take the national board examination in medical laboratory science.

Professional Track Requirements

The professional track is designed for students with an interest in the clinical sciences, whose career goals may not include working as a registered medical technologist in a hospital laboratory setting.

Students electing the professional track of the clinical laboratory sciences program complete eight semesters of academic course work.

Work opportunities are diverse and include employment in pharmaceutical companies, analytical laboratories and research laboratories. The clinical practicum is not required for the professional track.

Formal application into the professional track is not required. Students must maintain an overall GPA of 2.0 in the major and satisfy University requirements for graduation. Registration for cooperative courses requires a 2.5 overall GPA and 2.5 in the sciences.

These curricula lead to a bachelor of science in the clinical laboratory sciences program.

- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more than one major or minor.
  - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
  - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
  - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor.
• Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is conducted by individual departments/schools within EMU, and additional documentation may be required. Please note: EMU awards only credit for transferred courses; grades are not used in the calculation of an EMU GPA.

• Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be reached in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

General Education Requirements:

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available in the General Education section of the catalog: General Education

Students who transferred to EMU may have modified general education requirements based on Michigan Transfer Agreement (MTA) or articulation agreements; consult your academic advisor for additional information.

University Information: Consult the online catalog at catalog.emich.edu.

Combined Occupational Therapy BS/MOT (COT)

Program Revised, effective Fall 2014

Established in 1941, Eastern Michigan University's Occupational Therapy Program has a long-standing tradition of excellence. The EMU OT Program provides competent and caring professionals to the local community as well as throughout the State of Michigan and across the nation.

The Bureau of Labor Statistics Occupational Outlook Handbook predicts that employment of occupational therapists is projected to grow 29 percent from 2012 to 2022, much faster than the average for all occupations. This is based on the general population growth and the increasing demand for services for those aged 75 years and older who are requiring occupational therapy services to improve their quality of life. In addition, emerging practice areas for occupational therapists, for example, in such areas as driver rehabilitation and fall prevention, continue to develop. Occupational therapists are employed in diverse settings including but not limited to: hospitals, schools, rehabilitation facilities, long-term care facilities, home health care, and in areas of prevention and wellness. Occupational Therapy was rated the 9th best job in health care and 14th best job overall by US News and World Report (2014). In 2012, Forbes identified a master of occupational therapy as a top degree to pursue for employment.

Accreditation

The EMU Occupational Therapy program is accredited by the Accreditation Council for Occupational Therapy Education (ACOTE) of the American Occupational Therapy Association (AOTA), located at 4720 Montgomery Lane, Suite 200, Bethesda, MD 20814-3449. ACOTE's telephone number, c/o AOTA, is (301) 652-AOTA and its web address is www.acoteonline.org.

School Information:

School of Health Sciences - College of Health and Human Services

Colleen Croxall, Ph.D. School Director
Admissions Requirements:

The Occupational Therapy Program Admission Requirements were developed to be straightforward and attainable for prospective applicants. They are intended to serve as a guide for those interested in applying to the program. These are the minimum requirements for an application to be reviewed and evaluated. All admission requirements must be met for an applicant portfolio to be considered and reviewed. Simply meeting these minimum requirements does not guarantee admission to the program.

There are two routes of entry to the occupational therapy degree. Student applicants are integrated into one cohort once admitted into the program. Please carefully review the tracks below to identify which option fits you.

- If you are applying to the occupational therapy program as an undergraduate student and will not have completed a degree prior to the start of the program you should apply to the program as a Combined Occupational Therapy (COT) student.
- If you are applying to the occupational therapy program and have already received a bachelor’s degree or will have received a degree prior to the start of the program you should apply as a graduate student to the MOT program.

**Option 1 Master of Occupational Therapy (MOT)**

The Masters of Occupational Therapy (MOT) track is designed for individuals who have already completed an undergraduate degree in a field other than occupational therapy. Applicants to this track must have a baccalaureate degree from a regionally accredited college/university or appropriate international institution. Candidates may apply while their degree is in progress, but degree completion, demonstrated by transcript evaluation, is necessary prior to the start of the Occupational Therapy Program. This track requires students to complete twenty-four months of full-time, year-round graduate course work in occupational therapy followed by 24 weeks of Level II Fieldwork. This track culminates with a Master of Occupational Therapy (MOT degree).

Please visit the Master of Occupational Therapy (MOT) page in the graduate catalog for additional information.

**Option 2 Combined Occupational Therapy (COT)**

The Combined Occupational Therapy (COT) track is often referred to as the 3+2 program. The COT track is designed for undergraduate students who do not yet have a bachelor's degree. This track requires students to complete twenty-four months of full-time, year-round graduate course work in occupational therapy followed by 24 weeks of Level II Fieldwork. This track culminates with a Bachelor of Science degree and a Master of Occupational Therapy (MOT) degree. To be eligible to apply as a COT student:

- 75 Undergraduate credits must be completed by the August 1st application deadline.
• 90 Undergraduate credits must be completed by the start of the OT program in the January after the application deadline.
• If submitting a portfolio on August 1st with less than 90 credits a plan for how the full 90 credits will be complete by the January immediately following the application deadline must be included.
• All general education courses have been or will be fully complete by the January immediately following the application deadline. General education courses can be completed in the fall semester as portfolios are being reviewed.
• Transfer students have been accepted to EMU and have met with a general academic advisor to identify how previous coursework will transfer to EMU.

Portfolio Deadline

The competitive admission process consists of a review of portfolios. Portfolios must be received no later than August 1st for students interested in beginning the program in the winter semester of that academic year. No late submissions are accepted. The portfolio must include the following items: official college transcripts from all schools attended, results of the GRE General Test, three academic references, documentation of 100 hours of completed volunteer service with a minimum of two volunteer reference forms from these experiences, and a sample of reflective writing. Detailed information about the portfolio process can be found on the program's website. We strongly encourage all students interested in applying to the program to attend a group advising session with the OT Intent Advisor and meet with the OT Intent Advisor in order to successfully complete their application. Applicants may only apply to the Occupational Therapy Program two times.

Graduate Record Examination (GRE)

The GRE revised General Test or GRE General Test is required as part of the application process to EMU Occupational Therapy program for both the MOT and COT tracks. There is no test that is acceptable as a substitute for the GRE. Results of the GRE General Test must be included in the portfolio. GRE test results are accepted if taken within 3 years of an applicant's date of application. If taking the GRE in the months leading up to application it should be taken no later than June 30th in order to ensure scores are available by the August 1st application deadline. Results should be sent to Eastern Michigan University and a copy of the results placed in the portfolio. To register for this examination please visit the website www.ETS.org. There is no minimum GRE score necessary to be considered for admission however average scores admitted to the program include a combined score of over 300 on the quantitative/verbal and 4.0 on the writing.

• If testing accommodations are needed please visit www.ets.org/disabilities. Accommodation requests should be submitted to ETS as early as possible.
GRE score reports must be received following the guidelines as delineated above. In the event that appropriate score reports are not provided to EMU and found within the portfolio, the candidate will be removed from consideration for admission.

GPA

Applicants applying for the August 1st, 2014 deadline, must have a 2.75 or higher cumulative GPA in order to be considered for admission.

Beginning August 1st, 2015, applicants must have a minimum GPA of 3.0 at the time of application. This GPA will be calculated from the last 60 semester/90 quarter units of course work. It is the expectation that the average successful applicant has a GPA much higher than 3.0.

Pre-Admission Coursework

In order to be considered for admission to the occupational therapy program, applicant's must complete the following pre-admission courses with a grade of B- or better. All courses must be completed within 10 years of the application deadline with the exception of Statistics, Anatomy and Physiology, and Neuroanatomy, which must be 5 years of age or younger on the application deadline. Visit pre-admission courses for more information. If you have previously taken these courses at another
university please note that all pre-admission substitutions must be pre-approved before the submission of your portfolio. All pre-admission coursework must be completed by the August 1st application deadline. Submission of your portfolio without course completion or pre-approval will result in your application being denied.

**Anatomy and Physiology**

- BIO 251 - Human Anatomy and Physiology I 4 hrs
- BIO 252 - Human Anatomy and Physiology II 4 hrs

**Neuroanatomy**

- BIO 330 - Neuroanatomy 4 hrs

**Statistics – (choose 1)**

- EDPS 621 - Statistical Applications in Educational Research 2 hrs
- EDPS 651 - Inferential Statistics 2 hrs
- MATH 170 - Elementary Statistics 3 hrs
- MATH 360 - Statistical Methods 3 hrs
- MATH 370 Probability and Statistics I 3 hrs
- MATH 571 - Mathematical Statistics I: Probability Theory 3 hrs
- MATH 573 - Statistical Data Analysis 2 hrs
- MATH 574 - Applied Statistics 3 hrs
- PSY 205 - Quantitative Methods in Psychology 3 hrs
- SOCL 250 - Quantitative Applications in Sociology 3 hrs

**Medical Terminology**

- AHPR 200 - Medical Terminology 1 hr

**Human Growth and Development – (choose 1)**

- EDPS 325 - Life Span Human Growth and Development 4 hrs
- IHHS 260 - Aging to Infancy: A Life Course Retrospective 3 hrs

**Introductory Psychology**

- PSY 101 - General Psychology Lecture 3 hrs

*Please be aware that PSY 103 must be completed in addition to PSY 101 to satisfy four credits of the Knowledge of the Disciplines-Natural Science portion of the General Education program. PSY 103 is not a requirement for application to the occupational therapy program.*

**Abnormal Psychology**

- PSY 360 - Abnormal Psychology 3 hrs

**Introductory Sociology OR Introduction to Cultural Anthropology - (choose 1)**

- SOCL 105 - Introductory Sociology 3 hrs
- ANTH 135 - Introduction to Cultural Anthropology 3 hrs
All pre-admission courses must be taken at a regionally accredited college or university in the United States. Pre-admission courses may be taken at traditional four year universities or community colleges. Both traditional classroom settings and online courses from these institutions are acceptable. Advanced placement credit consideration will be provided for Introductory Psychology and Statistics only. There are no exceptions to this requirement.

All pre-admission courses (including associated labs) must be completed with a minimum grade of "B-". For pre-admission courses with separate final grades assigned for Lecture and Lab sections on a transcript, a minimum grade of "B-" is required in both sections. There is no averaging of these grades together. Applicants enrolled at institutions that use a combined letter grading scale (such as "AB" or "BC"), all pre-admission courses must be "A", "AB", or "B". Receiving a grade of "BC" or lower does not meet the minimum grade requirement.

For applicants enrolled at institutions that use a numerical system for grading, all pre-admission courses must have a grade of at least "2.7". Receiving a grade of "2.5" or lower does not meet the minimum grade requirement. No pre-admission course may be taken as "credit/no credit", "pass/fail" or "advanced credit", as a grade must be assigned.

Coursework Outside the US - International Applicants

An international applicant is defined as a student who is either not a United States citizen or a student who has educational credentials (taken any college/university courses) from outside the United States. All applicants to the EMU Occupational Therapy Program with non-U.S. post secondary educational credentials (taken any college/university courses) must submit an evaluation of all non-U.S. post-secondary education using Educational Perspectives (EP). EP is the only educational credential evaluation service that is accepted by EMU. A "Detailed" Report (course by course evaluation) and US –equivalent Grade Point Average (GPA) is required. Please visit the EP web-page: www.edperspective.org/emich for details on how to submit the evaluation request and obtain an EP application form.

Applicants who do not possess a Bachelor's degree from a post-secondary institution where English is the principal language of instruction must take and pass the TOEFL with a score of 84 or better. No tests other than TOEFL will be accepted. Applicants must report their TOEFL scores in their portfolio application by August 1 and an official TOEFL score report must be sent to the EMU Occupational Therapy Program. Students who are applying to the EMU Occupational Therapy Program are encouraged to take ESLN 592 prior to the start of classes.

All international applicants are expected to understand and meet all other eligibility requirements for admission to the EMU Occupational Therapy Program and the Graduate School. For more information about the Graduate School requirements, please visit the International Student web-page. For questions about residency/visa or financial requirements, please contact the Office of International Admissions at international.admissions@emich.edu.

Academic Reference

Effective August 1st, 2015 students must submit three academic references. If applying August 1st, 2014 the previous requirement of one academic reference continues to apply. Criteria for the academic reference can be found here. Each reference must include the credentials and contact information of the individual completing the reference. All letters of academic reference must be written within the three years prior to application.

Volunteer Experience

A minimum of 100 hours volunteer, work or service learning experience with individuals with special needs must be completed prior to the application deadline. All volunteer hours must be completed within the three years prior to the applicant's date of application.

Volunteer work must consist of:

- A minimum of 20 hours with an Occupational Therapist in any setting
- A minimum of 20 hours in an agency that is committed to social justice, community welfare, community building, health and wellness, for example.
Examples of agencies committed to social justice: soup kitchens, homeless shelters, habitat for humanity, food banks, boys and girls clubs.

- The remaining 60 hours can include:
  - Additional hours with an Occupational Therapist in any setting
  - Additional hours in an agency that is committed to social justice, community welfare, community building, health and wellness, for example.
    - Examples of agencies committed to social justice: soup kitchens, homeless shelters, habitat for humanity, food banks, boys and girls clubs.
  - Hours where the focus is on individuals with occupational performance issues (physical, mental, developmental, etc) or on issues that are created due to environmental factors including social, cultural, economic, political, etc.

NOTE:

- Students who have taken the undergraduate elective of OCTH 201 will have fulfilled 80 hours of the volunteer requirements. The applicant will still need to complete an additional 20 hours with an Occupational Therapist in any setting.
- Applicants should document their volunteer experiences on the form provided here.

**Reflective Writing**

Applicants must complete a four page reflective writing component. This paper is a reflection on work with individuals observed in OT while completing the required volunteer hours. We would like applicants to examine the meaning of occupation in people's lives. Reflective writing criteria can be found here.

**Portfolio**

The portfolio should be in a 1-inch binder, well organized, professional and include:

- An identification page
- Official transcripts from all colleges attended
- A table or list of prerequisite courses (include name of course, number of course, grade received, institution where completed). Course pre-approval documentation must accompany the table of courses.
- Results of the GRE.
- Academic and volunteer experience references on required forms
- Reflective writing component

Submit the completed application portfolio by August 1st to:

The Occupational Therapy Program  
Eastern Michigan University  
313 Marshall Building  
Ypsilanti, MI 48197

- Applications can be submitted as early as May of the application year and will not be accepted after August 1st. If mailing a portfolio, allow sufficient time for the receipt of this packet by August 1st. Write "OT Application Portfolio" to the left of the address on the front of the envelope. Incomplete portfolios will not be reviewed.

**Scoring Criteria**

Acceptance into the Occupational Therapy program is based on a comprehensive assessment. For detailed scoring information click here.
Admission Criteria

Admission criteria updates will be posted by September of each year for the following application cycle.

Still have questions about applying to the Occupational Therapy Program?

Group sessions are strongly encouraged prior to contacting the OT Intent Advisor. Upcoming sessions can be located at http://www.emich.edu/chhs/hs/ot/admissions/. Still have questions? Contact us via email at ot_intent_advising@emich.edu or schedule an appointment with our OT Intent Advisor, Sharon Holt, via chhsadvising@emich.edu.

Rules and Regulations

In addition to the above requirements, all EMU Occupational Therapy Program students must agree to abide by the Rules and Regulations of the program. These can be found in the EMU OT Program Student Handbook.

Program of Study

Occupational therapy advising for occupational therapy-intent students is performed by the OT intent advisor or the College of Health and Human Services Advising Center. All applicants should attend a group advising session with the OT intent advisor to discuss admission and portfolio requirements. Upon acceptance into the occupational therapy program, students are assigned a faculty advising team. All students admitted to the program must meet with their advising team before registering each semester.

Scholarships

The Occupational Therapy program offers a number of scholarships to students who are admitted to the program. Information is annually distributed from the OT program to students who are currently enrolled in the occupational therapy program. There are also a number of University scholarships available to students. Contact the office of Financial Aid for information.

Fieldwork

All occupational therapy students must complete two Level II Fieldwork experiences within 24 months following completion of the didactic portion of the program. Students have the right to request part-time or full-time fieldwork. Students who desire part-time fieldwork must make this request in writing to the fieldwork coordinator prior to placement arrangement.

National Board for Certification in Occupational Therapy (NBCOT)

The National Board for Certification in Occupational Therapy, Inc. (NBCOT) administers the national certification examination for occupational therapists in the United States. Upon successful completion of the academic and fieldwork requirements, graduates of the program will be eligible to sit for the National Certification Examination for the Occupational Therapist, administered by the NBCOT. After successful completion of this exam, the graduate will be an Occupational Therapist, Registered (OTR). All students must pass the NBCOT certification examination to practice in the profession of occupational therapy. In addition to passing the NBCOT certification examination, most states require licensure to practice; however state licenses are usually based on the results of the NBCOT certification examination. A felony conviction may affect a graduate's ability to sit for the NBCOT certification examination or attain state licensure. Character background information is reviewed by NBCOT to determine a person's ability to sit for the examination. If you have any potential impediments, such as a felony charge or conviction, charges of malpractice or willful intentional misconduct, we strongly recommend that you contact NBCOT at www.nbcot.org to determine your eligibility to sit for the national examination.

General Education Requirements:

For specific requirements refer to the General Education Program.

Major Requirements: 71 hours

Professional Year I

Winter Semester

- OCTH 412 - Models of Practice 3 hrs
- OCTH 495 - Neurological Foundations of Human Occupation 3 hrs
- OCTH 500W - Philosophy of Occupational Therapy (GEWI) 3 hrs
- OCTH 522 - Foundations of Movement and Human Occupation 3 hrs

Summer Semester

- OCTH 501 - Therapeutic Relationship Skills in the Occupational Therapy Profession 2 hrs
- OCTH 502 - Theory and Analysis of Occupation 3 hrs
- OCTH 503 - Clinical and Professional Reasoning in Occupational Therapy 2 hrs

Fall Semester

- OCTH 419 - Programming I 6 hrs
- OCTH 420 - Level I Fieldwork I 3 hrs
- OCTH 540 - Research Methods I 3 hrs

Professional Year II

Winter Semester

- OCTH 516 - Level I Community Fieldwork II 3 hrs
- OCTH 519 - Programming II 6 hrs
- OCTH 686 - Culminating Project I 3 hrs

Summer Semester

- OCTH 601 - Current Issues in Occupational Therapy 1 hr
- OCTH 687 - Culminating Project II 3 hrs
Fall Semester

- OCTH 517 - Level I Community Fieldwork III 3 hrs
- OCTH 600 - Supervision and Professional Roles 3 hrs
- OCTH 619 - Programming III 6 hrs

Winter Semester

- OCTH 588 - Fieldwork Level II: Clinical Skills 6 hrs

Summer Semester

- OCTH 589 - Fieldwork Level II: Clinical Skills 6 hrs

Minor Requirements:

This major does not require a minor.

Program Total:

Students must earn a minimum total of 124 credits and the 100-level or above.

Critical Graduation Information:

Each undergraduate student will be responsible for the fulfillment of the requirements or their equivalents of the Eastern Michigan University catalog in force at the time of their initial registration at a college or university or a subsequent catalog including the one in effect at the time of their graduation.

In the event an undergraduate student does not complete the degree requirements within seven years of the date of their original registration at a college or university, the student may be required to have their credits re-evaluated by the academic department(s) of their major/minor in keeping with catalog requirements in force during the year of their graduation.

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the 100-level and above. Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Complete a Writing Intensive (WI) Course in your major.
- Earn a minimum of 60 credits from a four-year college or university; courses taken at community colleges cannot be used to meet this requirement. (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
• Have a minimum of 30 unique credit hours in their major and 20 unique credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.

• Earn no more than 60 credit hours in one subject area (prefix). Credits in excess of the 60 maximum will not be counted toward the minimum of 124 credits required for a bachelor's degree.

• Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more that one major or minor.
  ○ Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
  ○ Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
  ○ Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor.

• Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is conducted by individual departments/schools within EMU, and additional documentation may be required. Please note: EMU awards only credit for transferred courses; grades are not used in the calculation of an EMU GPA.

• Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be reached in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

General Education Requirements:

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available in the General Education section of the catalog: General Education

Students who transferred to EMU may have modified general education requirements based on Michigan Transfer Agreement (MTA) or articulation agreements; consult your academic advisor for additional information.

University Information: Consult the online catalog at catalog.emich.edu.

Dietetics Major (IDTC)

The Coordinated Program in Dietetics is fully accredited by the Accreditation Council for Education in Nutrition and Dietetics (ACEND) of the Academy of Nutrition and Dietetics (AND or the Academy).

Accreditation Council for Education in Nutrition and Dietetics
The Academy of Nutrition and Dietetics
120 South Riverside Plaza, Suite 2000
Chicago, IL 60606-6995
312/889-0400, ext. 5400
www.eatright.org
www.cdrnet.org

This is a second admissions program with both on-line and on-campus delivery methods. Through the on-line delivery method, this program is available to students who secure supervised practice experiences more than 100 miles from Eastern Michigan University's campus. The program begins in the fall of the junior year. Please be aware that admission to the University is not a guarantee of entry into the dietetics program. Important information and the application for both the on-line and on-campus
programs can be found at the School of Health Sciences website. The application deadline for both the on-line and on-campus programs is January 15 for consideration for entrance into the professional phase of the program the following fall semester.

Admission Requirements

Admission Requirements
The applicants for either delivery method must meet the following requirements to be considered for the professional phase of the program:

1. Admission to EMU;
2. Junior standing achieved by completing 56 or more credit hours or equivalent (including transfer courses);
3. Minimum GPA of 2.75; and
4. Satisfactory completion (C or above) of the following prerequisites prior to entrance into the professional phase of the program.

Recency of Education rules apply to any program courses that are transferred into Eastern Michigan University. For more information about the Recency of Education guidelines please click here.

The availability of clinical facilities limits the number of students admitted to each class. Therefore, a screening procedure is used to select the most qualified students for the available positions in the program. Academic status (Grade Point Average), letters of recommendation, a personal statement, notebook presentation, on-line assessment and committee input are criteria used for screening.

Continuance

Once students have been accepted into the Coordinated Program in Dietetics (CP), it is assumed that they will maintain their academic status.

In preparing for a professional career in dietetics, students are expected to assume responsibility for their learning, to support the ethics and standards of practice of their profession and to value honesty in the fulfillment of scholarly and professional endeavors. The department reserves the right to retain only those students who, in the judgment of the faculty, satisfy the requirements of scholarship and practice competence and personal integrity suitable to dietetics.

Registration in Dietetics

Upon successful completion of the CP curriculum and degree, students will be eligible to write for the Registration Examination for Dietitians. Passage of the exam will provide the recognized credential of Registered Dietitian through the Commission on Dietetics Registration of the Academy of Nutrition and Dietetics.

Articulation Agreement

An active articulation agreement exists between this program and a community college. To see a complete list of current colleges with program articulation agreements with EMU, please click here.

chhsadvising@emich.edu

General Education Requirements:

For specific requirements refer to the General Education Program.

Prerequisites of Professional Phase

Effective with the January 2015 Application notebook cycle to the Coordinated Program in Dietetics (CP) the following prerequisite courses to the Professional Phase will be required:

Pre-Application Phase: 19 hours

The following prerequisites are to be completed prior to the January 15th CP application deadline.

- BIO 326 - Human Physiology 3 hrs or SPMD 269 - Anatomy and Physiology for Dietetics 3 hrs
- BIO 328 - Microbiology for Health Professions 4 hrs
- CHEM 270 - Survey of Organic Chemistry 4 hrs
- CHEM 351 - Foundations of Biochemistry 4 hrs
- DTC 108 - Careers in Nutrition and Dietetics 2 hrs
- DTC 202 - Principles of Human Nutrition 3 hrs

Pre-Admission Phase: 14-15 hours

The following prerequisite courses are to be completed prior to the start of the Professional Phase.

- PSY 101 - General Psychology Lecture (GEKN) 3 hrs
- SOCL 250 - Quantitative Applications in Sociology (GEQR) 3 hrs or MATH 170 - Elementary Statistics (GEQR) 3 hrs
- AHPR 200 - Medical Terminology 1 hr
- DTC 251 - Experimental Foods 4 hrs
- IHHS 260 - Aging to Infancy: A Life Course Retrospective 3 hrs or EDPS 325 - Life Span Human Growth and Development 4 hrs

Major Requirements: 58 hours
• DTC 302 - Nutrient Metabolism: Macronutrients 3 hrs
• DTC 330 - Nutrition Therapy I 3 hrs
• DTC 331 - Nutrition Therapy I Experience 2 hrs
• DTC 350 - Foodservice Systems Management I 3 hrs
• DTC 351 - Foodservice Systems Management I Experience 4 hrs
• DTC 358 - Food and Culture (GEGA) 3 hrs
• DTC 370 - Nutrition Therapy II 3 hrs
• DTC 371L - Nutrition Therapy II Experience (GELB) 4 hrs
• DTC 372 - Nutrition of the Life Cycle 3 hrs
• DTC 375 - Integrative Medicine 3 hrs
• DTC 422 - Nutrient Metabolism: Micronutrients 3 hrs
• DTC 430 - Community Nutrition 3 hrs
• DTC 431W - Community Nutrition Experience (GEWI & GELB) 4 hrs
• DTC 435 - Seminar in Dietetics 2 hrs
• DTC 450 - Foodservice Systems Management II 2 hrs
• DTC 451 - Foodservice Systems Management II Experience 4 hrs
• DTC 459 - Development of the Entrepreneurial Dietitian 3 hrs
• DTC 470 - Nutrition Therapy III 2 hr
• DTC 471 - Nutrition Therapy III Experience 4 hrs

Minor Requirements:

This program does not require a minor.

Program Total:

Students must earn a minimum total of 124 credits at the 100-level or above.

Extended Programs

This program is available at an EMU off-campus location. For a list of locations, please click here.

Critical Graduation Information:

Each undergraduate student will be responsible for the fulfillment of the requirements or their equivalents of the Eastern Michigan University catalog in force at the time of their initial registration at a college or university or a subsequent catalog including the one in effect at the time of their graduation.

In the event an undergraduate student does not complete the degree requirements within seven years of the date of their original registration at a college or university, the student may be required to have their credits re-evaluated by the academic department(s) of their major/minor in keeping with catalog requirements in force during the year of their graduation.

The following are minimum requirements for all bachelor’s degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

• Earn a minimum total of 124 credits at the 100-level and above. Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses
will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.

- Meet the requirements of the General Education program (see information below).
- Complete a Writing Intensive (WI) Course in your major.
- Earn a minimum of 60 credits from a four-year college or university; courses taken at community colleges cannot be used to meet this requirement. (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 unique credit hours in their major and 20 unique credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
- Earn no more than 60 credit hours in one subject area (prefix). Credits in excess of the 60 maximum will not be counted toward the minimum of 124 credits required for a bachelor's degree.
- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more that one major or minor.
  - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
  - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
  - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor.
- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is conducted by individual departments/schools within EMU, and additional documentation may be required. Please note: EMU awards only credit for transferred courses; grades are not used in the calculation of an EMU GPA.
- Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be reached in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

General Education Requirements:

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available in the General Education section of the catalog: General Education

Students who transferred to EMU may have modified general education requirements based on Michigan Transfer Agreement (MTA) or articulation agreements; consult your academic advisor for additional information.

University Information: Consult the online catalog at catalog.emich.edu.

Health Administration Major

Revised Program, effective Fall 2014
The program in Health Administration emphasizes the rapidly changing forms of health care delivery, health care reform, health care for the indigent and services to special populations, such as uninsured workers, the homeless and prisoners. Student writing, publication and opportunities for research are central to the program's mission.

An active articulation agreement exists between the Health Administration program and many community colleges, including, but not limited to the following:

Health Administration - Oakland Community College Articulation Guide (Health Care Administration)

Health Administration - Oakland Community College Articulation Guide (Other Programs)

To see a current list of community colleges with program articulation agreements with EMU, please click here.

Admission Requirements:

To qualify for admission to the program in Health Administration, students must have successfully completed 45 hours of undergraduate coursework at an accredited institution of higher learning with a minimum cumulative grade point average of 2.5. In addition, the following courses must be completed with a minimum earned grade of C- (C required for transfer courses) in each:

ENGL 121 - Composition II: Researching the Public Experience (GEEC) (3 hrs)
CTAC 124 - Foundations of Speech Communication (GEEC) (3 hrs)

Prospective majors in Health Administration who do not have the minimum 2.5 cumulative grade point average may petition the program in writing, through the Program Director, to request probationary admission to the major. Such applications will be considered by the program's faculty on a case-by-case basis and would be expected to include information explaining either disruption in the applicant's higher education, personal experience and achievements that counterbalance the grade point average, or other issues of relevance to the request.

Graduation Requirements

To graduate from this program students will need to have an overall GPA of 2.5 in the HLAD courses. If students earn below a c- in any HLAD course they will need to repeat the course.

Clinical Affiliations

The Health Administration program is closely affiliated with the American Academy of Medical Administrators (AAMA) and the American College of Health Executives (ACHE). The Health Administration Student Organization is a student chapter of the American College of Health Care Executives. Internship opportunities are an essential component in the curriculum of the program. The following organizations are representative of those in which health administration majors acquire field experience:

A
Affiliated Medical of Dearborn
American Red Cross-Ann Arbor

B
Blue Care Network MI
Botsford Hospital, F. Hills
Brecon Village, Saline
Brighton Hospital

C
Chelsea Retirement Community
Children's Center-Detroit

I
IHA ,AnnArbor

K
Karmanos Cancer Institute-Detroit
Kennedy Care-Home Care- Ann Arbor

M
Masri Clinics Advanced Surgery Center
Metro Home Health Care
Michigan Heart P.C.

T
The Corner Health Center-Ypsilanti
Thomson Healthcare-Medstat
Tri-rehab, Inc.

U
University of Michigan
US Physical Therapy, Inc

V
VA Healthcare System-Ann Arbor
VA-John Dingell, Detroit

General Education Requirements:

For specific requirements refer to the General Education Program.

Health Administration Curriculum

The curriculum concentrates on the principles and processes utilized in the field of health administration and management. The program is designed to prepare those seeking a career in the administrative sector of the health care delivery system in any of its forms. It also is appropriate for those already working in the health care field in some other capacity but wishing to redirect their career toward the area of health administration. Practicing health administrators without previous formal education in the field also may find this program beneficial for career advancement.

All students must take a one-semester internship during their junior or senior year unless waived by the program director due to significant administrative experience. No outside minor is required. However, many students elect the Aging Studies Minor. Other minors that fit well with the Health Administration Major include the American Humanics Certificate in Nonprofit Management.

A degree completion track, Health Services Management, has been established for persons with clinical associate degrees from accredited community colleges who have had five or more years of experience subsequent to that of degree completion. Associate degree trained nurses, respiratory therapists and others interested in the degree completion option in health services management should contact the program director. Successful completion of the degree completion track leads to the same degree as the regular program major.

An active articulation agreement exists between this program and several community colleges. To see a complete list of current colleges with program articulation agreements with EMU, please click here.

A B.S. in Health Administration articulation agreement has been established with the programs of radiography, nursing and dental assisting at Washtenaw Community College and a B.S. in Health Administration articulation agreement with health information technology at Schoolcraft College, which permit graduates of these two-year degree programs to complete their bachelor’s degree in two years, or the equivalent of four full-time semesters at Eastern Michigan University, culminating with a degree in Health Administration. Unlike the health services management track, which is a generic degree for completion for clinicians with a two-year clinical degree, these articulations provide selected transfer students with an efficient degree completion curriculum that fits into a traditional four-year undergraduate schedule. Graduates of the programs in radiography, nursing and dental assisting at Washtenaw Community College and health information technology at Schoolcraft College should contact the program director (program in health administration) or their community college academic advisor for complete details about these degree completion opportunities.

A Health Administration Minor is available to undergraduate students at Eastern Michigan University. The curriculum for the minor in Health Administration includes 20 to 22 hours. Students interested in the minor should contact the program in writing and meet with the program’s minor curriculum advisor.

Additional Requirements: 13-16 hours
• BIO 105 - Introductory Biology for Non-majors (GEKN) 4 hrs
• ECON 201 - Principles of Macroeconomics (GEKS) 3 hrs
• ECON 202 - Principles of Microeconomics (GEKS) 3 hrs

One course from the following:

• MATH 118 - Linear Models and Probability (GEQR) 3 hrs
• SOCL 250 - Quantitative Applications in Sociology (GEQR) 3 hrs

If student has taken MATH 118, choose one course from the following:

• DS 265 - Business Statistics I 3 hrs
• ECON 310 - Economic Statistics 3 hrs
• PSY 205 - Quantitative Methods in Psychology 3 hrs
• SOCL 250 - Quantitative Applications in Sociology (GEQR) 3 hrs
• MATH 170 - Elementary Statistics (GEQR) 3 hrs

Major Requirements: 54 hours

Required Courses in Health Administration: 41 hours

• HLAD 305 - The U.S. Health Care System 3 hrs
• HLAD 307W - Communication Effectiveness in Health Administration (GEWI) 3 hrs
• HLAD 308 - Ethical Dimensions in Health Care Delivery 3 hrs
• HLAD 310 - Administration of Health Care Organizations 3 hrs
• HLAD 311 - Management of Health Services 3 hrs
• HLAD 312 - Health Personnel Management and Development 3 hrs
• HLAD 315 - Research Methods and Data Analysis in Health Sciences 3 hrs
• HLAD 416 - Health Planning 3 hrs
• HLAD 418 - Principles of Healthcare Finance Management 3 hrs
• HLAD 419 - Legal and Regulatory Issues in Health Care 4 hrs
• HLAD 420 - Health Insurance and Reimbursement 3 hrs
• HLAD 425 - Decision Making for Health Administrators 3 hrs
• HLAD 488 - Internship 6 hrs

Footnote:
PHIL 221 or PHIL 223 may be substituted for HLAD 308
MGMT 384 may be substituted for HLAD 312

Required Courses in Associated Health Profession: 1 hour

• AHPR 200 - Medical Terminology 1 hr

Required Courses in Business Administration and Liberal Arts: 6 hours

• ACC 240 - Principles of Financial Accounting 3 hrs
• ECON 436 - Health Economics 3 hrs
Restricted Elective Courses: 6 hours

Please pick two courses from the following:

- HLAD 200 - Introduction to Epidemiology 3 hrs
- HLAD 250 - Introduction to Public Health 3 hrs
- HLAD 313 - Health Care Quality 3 hrs
- HLAD 401 - Legal Issues in Health Care 3 hrs
- HLAD 402 - Health Policy 3 hrs
- HLAD 476 - Introduction to Healthcare Informatics 3 hrs

Minor Requirements:

This major does not require a minor.

Program Total:

Students must earn a minimum total of 124 credits at the 100-level or above.

Health Services Management Track Curriculum

This is a degree completion track leading to the bachelor of science degree in health administration for persons holding an accredited associate’s degree in a recognized health services or clinical discipline and who have had five or more years of experience subsequent to that degree completion. Such disciplines include nursing, respiratory therapy or other specialized two-year programs of study.

For degree completion students in this curriculum, up to 22 credit hours may be awarded and credited toward the bachelor of science obligation of 124 credit hours on the basis of supervised clinical course work taken in the associate degree curriculum. These credits may be based on supervised clinical courses that have no exact equivalence at Eastern Michigan University. This is determined in consultation with the program director of the health administration program.

Major Requirements: 30 hours

- Two hours of applicable transfer work from an associates degree.
- AHPR 200 - Medical Terminology 1 hr
- HLAD 305 - The U.S. Health Care System 3 hrs
- HLAD 308 - Ethical Dimensions in Health Care Delivery 3 hrs
- HLAD 310 - Administration of Health Care Organizations 3 hrs
- HLAD 311 - Management of Health Services 3 hrs
- HLAD 315 - Research Methods and Data Analysis in Health Sciences 3 hrs
- HLAD 401 - Legal Issues in Health Care 3 hrs
- HLAD 420 - Health Insurance and Reimbursement 3 hrs
- HLAD 425 - Decision Making for Health Administrators 3 hrs

One course from the following:

- HLAD 416 - Health Planning 3 hrs
- HLAD 419 - Legal and Regulatory Issues in Health Care 4 hrs

**Minor Requirements:**

This program requires a minor. Please contact your program advisor for a list of possible minors. A minor in management is required for non-business majors.

**Program Total:**

Students must earn a minimum total of 124 credits at the 100-level or above.

**Critical Graduation Information:**

Each undergraduate student will be responsible for the fulfillment of the requirements or their equivalents of the Eastern Michigan University catalog in force at the time of their initial registration at a college or university or a subsequent catalog including the one in effect at the time of their graduation.

In the event an undergraduate student does not complete the degree requirements within seven years of the date of their original registration at a college or university, the student may be required to have their credits re-evaluated by the academic department(s) of their major/minor in keeping with catalog requirements in force during the year of their graduation.

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the **100-level and above**. Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Complete a Writing Intensive (WI) Course in your major.
- Earn a minimum of 60 credits from a four-year college or university; **courses taken at community colleges cannot be used to meet this requirement**. (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 unique credit hours in their major and 20 unique credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
- Earn no more than 60 credit hours in one subject area (prefix). Credits in excess of the 60 maximum will not be counted toward the minimum of 124 credits required for a bachelor's degree.
- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more that one major or minor.
  - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor.
  - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
  - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor.
- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and
the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is conducted by individual departments/schools within EMU, and additional documentation may be required. **Please note:** EMU awards only credit for transferred courses; grades are not used in the calculation of an EMU GPA.

- Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be reached in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

**General Education Requirements:**

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available in the General Education section of the catalog: General Education

Students who transferred to EMU may have modified general education requirements based on Michigan Transfer Agreement (MTA) or articulation agreements; consult your academic advisor for additional information.

**University Information:** Consult the online catalog at catalog.emich.edu.

**Public Health Major**

**New Program, effective Winter 2014**

The program in Public Health focuses on protecting and improving the health of populations – from neighborhoods to nations - through education, promotion of healthy lifestyles, and research for disease and injury prevention. Coursework covers a broad range of public health topics and a student selected "track" of interest: community health education or health administration. Students are prepared for entry level positions in public health settings or for continuing education.

General Education Requirements:

For specific requirements refer to the General Education Program.

Admission Criteria: 56 hours

Students must complete EMU's General Education requirements and meet requirements for admission. To qualify, students must have successfully completed 56 hours with a minimum cumulative grade point average of 2.5. Transfer students need to meet equivalent requirements.

Effective Communication: 6 hours

The following courses must be completed with a "C" or better. Transfer students need to meet equivalent requirements.

- CTAC 124 - Foundations of Speech Communication (GEEC) 3 hrs
- ENGL 121 - Composition II: Researching the Public Experience (GEEC) 3 hrs
  or WRTG 121 - Composition II: Researching the Public Experience 3 hrs

Natural Science: 7-8 hours

- BIO 105 - Introductory Biology for Non-majors (GEKN) 4 hrs
  or
- CHEM 115 - Chemistry and Society (GEKN) 3 hrs
  Only counts toward General Education credit, if taken with CHEM 116 - Chemistry and Society Laboratory 3 hrs

- PSY 101 - General Psychology Lecture (GEKN) 3 hrs
- PSY 103 - General Psychology Laboratory (GEKN) 1 hr

Social Science: 6 hours

- SOCL 105 - Introductory Sociology (GEKS) 3 hrs
- PLSC 112 - American Government (GEKS) 3 hrs

Mathematics: 3 hours

- MATH 170 - Elementary Statistics (GEQR) 3 hrs
  Only counts toward general education credit, if student tests to this math level

Research Methods: 3 hours
• SOCL 345 - Ethnographic Methods 3 hrs

Writing Course: 3 hours

Choose one course from the following:

• WRTG 310 - Writing and Civic Literacy 3 hrs
• WRTG 225 - Writing in a Changing World 3 hrs
• WRTG 323W - Writing in the Professional World (GEWI) 3 hrs

Additional Coursework: 27-28 hours

In addition to the courses listed above, students must complete an additional 27-28 credit hours of coursework prior to admission to the Public Health Major.

Public Health Major: 55-57 hours

Core Public Health Major Requirements: 27 hours

Students may enroll in the core public health courses prior to admission

• ESSC 107 - Introduction to Environmental Science (GEGA) 3 hrs
• HLAD 200 - Introduction to Epidemiology 3 hrs
• HLAD 250 - Introduction to Public Health 3 hrs
• HLAD 305 - The U.S. Health Care System 3 hrs
• HLAD 307W - Communication Effectiveness in Health Administration (GEWI) 3 hrs
• HLED 250 - Communicable and Noncommunicable Diseases 3 hrs
• HLED 270 - Principles of Health Education 3 hrs
• HLED 495 - Health Education for Diverse Populations 3 hrs
• NURS 384 - Global Health Issues 3 hrs

Required Track: 28-30 hours

Students must be admitted to the Public Health Major prior to the beginning one of the two required tracks, Health Administration or Community Health Education

Health Administration Track: 28 hours

• HLAD 310 - Administration of Health Care Organizations 3 hrs
• HLAD 312 - Health Personnel Management and Development 3 hrs
  or
• MGMT 384 - Human Resource Management 3 hrs
• HLAD 315 - Research Methods and Data Analysis in Health Sciences 3 hrs
• HLAD 402 - Health Policy 3 hrs
• HLAD 416 - Health Planning 3 hrs
• HLAD 419 - Legal and Regulatory Issues in Health Care 4 hrs
• HLAD 488 - Internship 6 hrs
• One additional HLAD course 3 hrs (Students need to see program advisor for course options)

Community Health Education Track: 30 hours

• HLED 130 - Healthy Sexuality 3 hrs
• HLED 242 - Theoretical Foundations of Heath Behavior 3 hrs
• HLED 260 - Introduction to Community Health 3 hrs
• HLED 345 - Community Health Education Methods and Materials 3 hrs
• HLED 355 - Health Education Program Planning 3 hrs
• HLED 371 - Injury and Violence Prevention 3 hrs
• HLED 380 - Psychosocial Health and Service Learning 3 hrs
• HLED 440 - Health Education Program Evaluation 3 hrs
• HLED 490 - Drug Use and Abuse 3 hrs
• HLED 499 - Directed Study 3 hrs

Program Total:

Students must earn a minimum total of 124 credits at the 100-level or above.

Critical Graduation Information:

Each undergraduate student will be responsible for the fulfillment of the requirements or their equivalents of the Eastern Michigan University catalog in force at the time of their initial registration at a college or university or a subsequent catalog including the one in effect at the time of their graduation.

In the event an undergraduate student does not complete the degree requirements within seven years of the date of their original registration at a college or university, the student may be required to have their credits re-evaluated by the academic department(s) of their major/minor in keeping with catalog requirements in force during the year of their graduation.

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

• Earn a minimum total of 124 credits at the 100-level and above. Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.
• Meet the requirements of the General Education program (see information below).
• Complete a Writing Intensive (WI) Course in your major.
• Earn a minimum of 60 credits from a four-year college or university; courses taken at community colleges cannot be used to meet this requirement. (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
• Earn a minimum of 30 credits from courses taken at EMU.
• Complete 10 of the last 30 hours for the degree from courses taken at EMU.
• Have a minimum of 30 unique credit hours in their major and 20 unique credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a
minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.

- Earn no more than 60 credit hours in one subject area (prefix). Credits in excess of the 60 maximum will not be counted toward the minimum of 124 credits required for a bachelor's degree.

- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more than one major or minor.
  - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
  - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
  - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor.

- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is conducted by individual departments/schools within EMU, and additional documentation may be required. Please note: EMU awards only credit for transferred courses; grades are not used in the calculation of an EMU GPA.

- Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be reached in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

**General Education Requirements:**

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available in the General Education section of the catalog: General Education

Students who transferred to EMU may have modified general education requirements based on Michigan Transfer Agreement (MTA) or articulation agreements; consult your academic advisor for additional information.

**University Information:** Consult the online catalog at catalog.emich.edu.

### Therapeutic Recreation Major

The therapeutic recreation curriculum leads to a bachelor of science degree in therapeutic recreation. Graduates from this program may apply for national certification as certified therapeutic recreation specialists.

This curriculum consists of a minimum of 48 hours of general education and a minimum of 63 credit hours of therapeutic recreation required courses. The therapeutic recreation student must complete 250 hours of clinical and/or paid therapeutic recreation experience before taking a full time 15-week, 600-hour practicum. The student must also file for candidate status one semester prior to enrolling in the practicum. No outside minor is required.

**Program Admission:**

Students planning admission to the therapeutic recreation major must officially enroll in the program at the University Advising and Career Development Center and complete an application for program admission at 363 Marshall.

Criteria for admission into the therapeutic recreation major are:

1. Application for program admission;
2. Interview with the therapeutic recreation faculty.
Criteria for entry into THRC 449 - Therapeutic Recreation Practicum are:

1. Minimum of 2.5 GPA overall and 2.75 GPA in all major core and required courses;
2. Completion of 180 hours of verified fieldwork experience in four or more therapeutic recreation service agencies serving people with disabilities;
3. Completion of all academic courses.

General Education Requirements:

For specific requirements refer to the General Education Program.

Major Requirements: 63-64 hours

- AHPR 200 - Medical Terminology 1 hr
- COUN 450 - An Introduction: Counseling Concepts and Skills 3 hrs
- HLAD 305 - The U.S. Health Care System 3 hrs
- PHED 200 - Anatomy and Physiology 5 hrs
- PSY 360 - Abnormal Psychology 3 hrs
- SPMD 280 - Pharmacology for Sports Medicine 2 hrs
- THRC 100 - Foundation and Advancement of the Therapeutic Recreation Profession 3 hrs
- THRC 200 - Recreation for Persons with Disabilities 3 hrs
- THRC 250 - Fieldwork in Recreation Therapeutic Recreation 1 hr
- THRC 251 - Fieldwork in Recreation Therapeutic Recreation 1 hr
- THRC 252 - Fieldwork in Recreation Therapeutic Recreation 1 hr
- THRC 290 - Quality Improvement: Research Methods in Health Care 3 hrs
- THRC 300 - Principles of Therapeutic Recreation 3 hrs
- THRC 320 - Leisure Education 3 hrs
- THRC 340 - Therapeutic Recreation Processes I 3 hrs
- THRC 360 - Therapeutic Recreation Program Planning 3 hrs
• THRC 400 - Therapeutic Recreation Process II 3 hrs
• THRC 430W - Issues in Therapeutic Recreation (GEWI) 3 hrs
• THRC 449 - Therapeutic Recreation Practicum 8 hrs

Choose one from the following:

• THRC 180 - Activity Analysis and Adaption 2 hrs
• THRC 481 - Adapted Aquatics 2 hrs

Choose one from the following:

• THRC 310 - Leisure and Aging 3 hrs
• THRC 330 - Therapeutic Recreation: Substance Abuse 3 hrs

Choose one from the following:

• EDPS 325 - Life Span Human Growth and Development 4 hrs
• IHHS 260 - Aging to Infancy: A Life Course Retrospective 3 hrs

Elective Courses: 10-12 hours

*Students may choose ten to twelve credit hours of electives in consultation with an adviser.*

Minor Requirements:

This major does not require a minor.

Program Total:

Students must earn a minimum total of 124 credits at the 100-level or above.

Critical Graduation Information:

Each undergraduate student will be responsible for the fulfillment of the requirements or their equivalents of the Eastern Michigan University catalog in force at the time of their initial registration at a college or university or a subsequent catalog including the one in effect at the time of their graduation.

In the event an undergraduate student does not complete the degree requirements within seven years of the date of their original registration at a college or university, the student may be required to have their credits re-evaluated by the academic department(s) of their major/minor in keeping with catalog requirements in force during the year of their graduation.

*The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.*

• Earn a minimum total of 124 credits at the 100-level and above. Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses
will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.

- Meet the requirements of the General Education program (see information below).
- Complete a Writing Intensive (WI) Course in your major.
- Earn a minimum of 60 credits from a four-year college or university; courses taken at community colleges cannot be used to meet this requirement. (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 unique credit hours in their major and 20 unique credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
- Earn no more than 60 credit hours in one subject area (prefix). Credits in excess of the 60 maximum will not be counted toward the minimum of 124 credits required for a bachelor's degree.
- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more that one major or minor.
  - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
  - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
  - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor
- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is conducted by individual departments/schools within EMU, and additional documentation may be required. Please note: EMU awards only credit for transferred courses; grades are not used in the calculation of an EMU GPA.
- Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be reached in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

General Education Requirements:

EMU’s General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available in the General Education section of the catalog: General Education

Students who transferred to EMU may have modified general education requirements based on Michigan Transfer Agreement (MTA) or articulation agreements; consult your academic advisor for additional information.

University Information: Consult the online catalog at catalog.emich.edu.

Minors

Aging Studies Minor

The Aging Studies Minor is administered by the Department of Health Sciences in the College of Health and Human Services through an interdisciplinary coordinating committee composed of faculty who are actively involved in the gerontology field. The 21-semester-hour interdisciplinary minor is available to students who are majors in any department or college of the University.
It may serve as a core of study for undergraduate students who wish to supplement their studies with a detailed knowledge of Aging Studies or who contemplate entering master's or doctoral programs in gerontology/Aging Studies. The minor should be of particular interest to students preparing for work in the physical and mental health service careers, to those working in continuing care centers, for community organization and social service workers, and for educators.

Advisor Information:

**Andrea Gossett Zakrajsek, OTD, MS, OTRL**  
Director, Aging Studies Program  
359 Marshall Building  
734-487-3220  
azakrajs@emich.edu

**Required Courses: 13-14 hours**

- BIO 259 - Biology of Aging 2 hrs
- AGIN 212 - Introduction to Gerontology 3 hrs
- PSY 323 - Psychology of Human Aging 3 hrs
- SOCL 311W - Aging and the Life Course (GEWI) 3 hrs

**One course from the following:**

- * AGIN 488 - Gerontology Practicum 2 hrs
- * AGIN 489 - Gerontology Practicum 3 hrs

**Elective Courses: 7-8 hours**

Students must select 7-8 hours from the following courses:

- DTC 202 - Principles of Human Nutrition 3 hrs  
- or  
- DTC 203 - Nutrition for Health Professionals 3 hrs  
- or  
- DTC 204 - Sports Nutrition 3 hrs
- DTC 372 - Nutrition of the Life Cycle 3 hrs
- EDPS 325 - Life Span Human Growth and Development 4 hrs
- AGIN 219 - Around the World in 80 Years: Adult Development Across Culture (GEGA) 3 hrs
- AGIN 497 - Independent Study 1 hr
- AGIN 498 - Independent Study 2 hrs
- AGIN 499 - Independent Study 3 hrs
- AGIN 509 - Older Adults and Chemical Dependency 1 hr
- AGIN 511 - Elders and Their Families 2 hrs
- AGIN 513 - Intergenerational Programs and Services 2 hrs
- AGIN 515 - Sexuality and Aging 1 hr
- AGIN 516 - The Elderly and the Law 1 hr
- AGIN 517 - Developing Funding Proposals for Aging Programs 2 hrs
- AGIN 518 - Introduction to Alzheimer's and Related Dementia 2 hrs
- AGIN 523 - Designing Programs for People with Dementia 2 hrs
• AGIN 524 - Families and Dementia 2 hrs
• AGIN 526 - Behaviors in Dementia 2 hrs
• AGIN 528 - Advanced Issues in Dementia Care 2 hrs
• AGIN 532 - Aging Through the Eyes of the Old 2 hrs
• AGIN 590 - Special Topics 1 hr
• HLAD 310 - Administration of Health Care Organizations 3 hrs
• HLED 420 - Health and Aging 3 hrs
• IDE 111 - Environmental Psychology and Behavior for Interior Design 3 hrs
• IDE 503 - Physical Environments for Aging 2 hrs
• IHHS 260 - Aging to Infancy: A Life Course Retrospective 3 hrs

• SWRK 413 - Women and Aging 3 hrs
  or
• WGST 413 - Women and Aging 3 hrs
• SWRK 420 - Working with Aging People 3 hrs
• THRC 310 - Leisure and Aging 3 hrs

Minor Total: 20-22 hours

Note:

* Students who are required to complete a practicum in a setting serving older people as a part of their major may request that this experience fulfill the practicum component AGIN 488/489.

Students can only take DTC 202 or DTC 203 or DTC 204.

Students cannot take both SWRK 413 and WGST 413.

Critical Graduation Information:

Each undergraduate student will be responsible for the fulfillment of the requirements or their equivalents of the Eastern Michigan University catalog in force at the time of their initial registration at a college or university or a subsequent catalog including the one in effect at the time of their graduation.

In the event an undergraduate student does not complete the degree requirements within seven years of the date of their original registration at a college or university, the student may be required to have their credits re-evaluated by the academic department(s) of their major/minor in keeping with catalog requirements in force during the year of their graduation.

Students who transferred to EMU may have modified general education requirements based on Michigan Transfer Agreement (MTA) or articulation agreements; consult your academic advisor for additional information.

University Information: Consult the online catalog at catalog.emich.edu.

Certificate

Health Informatics Certificate

Revised Certificate Program, effective Fall 2014

This certificate introduces the student to information systems terminology, structures, applications, and their relationship to management functions in health services organizations. Health providers and enterprise-wide health systems are continuing to make multimillion dollar investments in information systems in order to meet new market and regulatory requirements. Health services managers are required to play a critical role in the analysis, design, acquisition, installation, operation and ultimate success of information systems necessary to meet organizational goals and objectives in such environments. This course exposes students to the fundamental IS/IT applications used to support health care management functions. In addition, applications and management issues unique to industry segments (e.g., long-term care, home care, hospital administration, physician practice management) will also be explored. The certificate is designed to ensure that students are schooled in the terminology, conceptual models, applications, opportunities, and limitations of core technologies and their relation to information systems used in health services, to the point where they can ask appropriate questions, recognize and state significant issues, and participate in the discussion and analysis of information systems development and application. Ultimately, it seeks to provide students with an understanding of the basic structures of information systems in health administration; the relationship of these systems to managerial functions such as communications, coordination, control, strategic and process planning and decision making; and the important policy and ethical issues associated with privacy, confidentiality, and security in information systems. A key component of the certificate will be a commitment to provide continuous updates to course materials, as U.S. health care technology and policy evolves. Also, since the certificate represents the integration and application of a prerequisite CIS or Computer Science sequence, students will be grounded in fundamental technologies commonly used in health care in addition to gaining an understanding of major information management issues specific to health care systems.

Critical Information regarding Certificates
Undergraduate certificates may only be offered in conjunction with or subsequent to a baccalaureate degree. They cannot be ‘stand alone’ certificates, offered to students who are not pursuing or do not have a bachelor’s degree. For students pursuing an undergraduate certificate concurrent with a bachelor’s degree, the certificate will be awarded upon graduation.

Certificate Total: 18 hours

Critical Graduation Information:

Each undergraduate student will be responsible for the fulfillment of the requirements or their equivalents of the Eastern Michigan University catalog in force at the time of their initial registration at a college or university or a subsequent catalog including the one in effect at the time of their graduation.

In the event an undergraduate student does not complete the degree requirements within seven years of the date of their original registration at a college or university, the student may be required to have their credits re-evaluated by the academic department(s) of their major/minor in keeping with catalog requirements in force during the year of their graduation.

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the 100-level and above. Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Complete a Writing Intensive (WI) Course in your major.
- Earn a minimum of 60 credits from a four-year college or university; courses taken at community colleges cannot be used to meet this requirement. (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 unique credit hours in their major and 20 unique credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
- Earn no more than 60 credit hours in one subject area (prefix). Credits in excess of the 60 maximum will not be counted toward the minimum of 124 credits required for a bachelor's degree.
- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more than one major or minor.
  - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
  - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
  - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor
- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is conducted by individual departments/schools within EMU, and additional documentation may be required. Please note: EMU awards only credit for transferred courses; grades are not used in the calculation of an EMU GPA.
- Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be reached in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

General Education Requirements:

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available in the General Education section of the catalog: General Education

Students who transferred to EMU may have modified general education requirements based on Michigan Transfer Agreement (MTA) or articulation agreements; consult your academic advisor for additional information.

University Information: Consult the online catalog at catalog.emich.edu.

Clinical Laboratory Sciences

CLSC 177 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hrs
Prerequisite: department permission

CLSC 178 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs
Prerequisite: department permission

CLSC 179 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.
Credit Hours: 3 hrs
Prerequisite: department permission

**CLSC 200 - Clinical Laboratory Techniques**

Basic skills necessary to function in a clinical laboratory; e.g., phlebotomy, use of the microscope, specimen collection and preparation, pipetting and lab safety.

Credit Hours: 3 hrs
Prerequisite: BIO 110, CHEM 121 and CHEM 122
Last Updated: Links 04/2011

**CLSC 201 - Phlebotomy Techniques**

Phlebotomy Techniques is presented in a lecture-laboratory format. The course is designed to present the theory of blood collection and the practical techniques for venipuncture and skin puncture. Topics included in the course will cover the phlebotomist’s role, professionalism and ethics, laboratory and hospital organization, specimen collection techniques, various blood drawing equipment, patient interaction and some medical and laboratory terminology.

Credit Hours: 3 hrs
Concurrent Prerequisite: AHPR 200 or department permission
Last Updated: Links 04/2011

**CLSC 277 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hrs
Prerequisite: department permission

**CLSC 278 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs
Prerequisite: department permission

**CLSC 279 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs
Prerequisite: department permission

**CLSC 300 - Molecular Diagnostics**
This course covers molecular diagnostic techniques in the clinical laboratory. Topics will include laboratory diagnosis of infectious and genetic diseases through cytogenetic, molecular cytogenetic and DNA molecular technology.

Credit Hours: 3 hrs  
Concurrent Prerequisite: BIO 301 and CLSC 200  
Last Updated: Links 04/2011

**CLSC 301 - Molecular Diagnostics Laboratory**

This laboratory course will examine the techniques of molecular techniques use in the clinical laboratory, including nucleic acid extraction, nucleic acid hybridization, electrophoresis and polymerase chain reactions.

Credit Hours: 1 hr

**CLSC 307 - Urinalysis, Body Fluids and Hemostasis**

Lecture and laboratory covering urines, body fluids and hemostasis. Specimen collection and handling, physical examination, chemical testing, and microscopic evaluation of urines and body fluids; evaluation of hemostasis testing and hemostasis theory.

Credit Hours: 3 hrs  
Prerequisite: CLSC 200 or permission  
Last Updated: Links 04/2011

**CLSC 322 - Clinical Microbiology I**

A lecture and laboratory course on the basic disease processes and pathogenesis of clinically-relevant microorganisms. This course will discuss the major pathogenic bacteria, viruses and fungi. The laboratory portion of this course will emphasize the standard microbiological techniques, including isolation, cultivation, identification and antibiotic susceptibility testing. This course will serve as an entry-level microbiology course and is intended as a one-semester survey of microbiology for health science students and as a first semester of a two-semester sequence for clinical laboratory sciences students.

Credit Hours: 4 hrs  
Prerequisite: BIO 105 or BIO 110 or with department permission  
Last Updated: Links 04/2011

**CLSC 332 - Clinical Microbiology I**

A lecture and laboratory course on the basic disease processes and pathogenesis of clinically-relevant microorganisms. The laboratory portion of this course will emphasize the standard microbiological techniques, including isolation, cultivation and identification. This course will serve as a first semester of a two-semester sequence for clinical laboratory science students.

Credit Hours: 3 hrs  
Prerequisite: BIO 105 or BIO 110 or department permission  
Concurrent Prerequisite: CLSC 200  
Class Restrictions: Sophomore standing  
Major Restrictions: Clinical Laboratory Science Program Majors only  
Last Updated: Links 04/2011

**CLSC 335 - Clinical Immunology**
Lecture and laboratory presenting theory, basic principles, and practical experience in clinical immunology. The correlation of basic principles to human disease state.

**Credit Hours:** 3 hrs  
**Prerequisite:** CLSC 200 or permission of instructor  
**Last Updated:** Links 04/2011

**CLSC 336 - Clinical Immunology Laboratory**

This laboratory course will examine the immunological diagnostic techniques use in the clinical immunology laboratory, including fluorescence immunoassay's, enzyme immunoassay's, immunoelectrophoresis and latex agglutination testing.

**Credit Hours:** 1 hr  
**Concurrent Prerequisite:** CLSC 335  
**Last Updated:** Links 04/2011

**CLSC 377 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 1 hrs  
**Prerequisite:** department permission

**CLSC 378 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 2 hrs  
**Prerequisite:** department permission

**CLSC 379 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 3 hrs  
**Prerequisite:** department permission

**CLSC 387 - Cooperative Education in Clinical Laboratory Science**

Three or four months of full-time employment at a clinical, research or industrial laboratory or related area chosen for providing a practical educational experience in clinical laboratory sciences. The program consists of two work experiences alternating with full-time attendance at the University.

**Credit Hours:** 3 hrs  
**Prerequisite:** CHEM 270 and CHEM 271; permission of program director  
**Notes:** Offered on a graded or credit/no-credit basis  
**Last Updated:** Links 04/2011
CLSC 401W - Laboratory Management/Education (GEWI)

Basic management skills for laboratory personnel and laboratory. Personnel practices, equipment and reagent purchase, and laboratory information systems including computer applications, laboratory statistics and evaluation of methods are covered in this lecture course.

Credit Hours: 3 hrs  
Prerequisite: CLSC 200 and MATH 170 or equivalent  
Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.  
Writing Intensive:

Last Updated: Graduate Credit 07/2011; Links 03/2011

CLSC 402 - Clinical Chemistry

This lecture course covers the relationship of clinical chemistry to diagnosis, prognosis, and treatment of disease. Focus will be on testing procedures, instrumentation and controlling the functions in order to provide correct information to the medical staff.

Credit Hours: 3 hrs  
Prerequisite: CHEM 351 or permission of instructor  
Last Updated: 04/2011

CLSC 403 - Clinical Chemistry Laboratory

This laboratory course will examine the diagnostic testing used in the clinical chemistry laboratory. These procedures will include enzymatic diagnostic procedures, spectrophotometric analysis and protein electrophoresis using clinical samples.

Credit Hours: 1 hrs  
Corequisites: CLSC 402  
Last Updated: Links 04/2011

CLSC 405 - Cytotechnology Clinical Internship

Microscopic study of cellular alterations indicative of cancer and precancerous conditions, bacterial, viral and parasitic infections, and hormonal abnormalities; cytogenetics; and a research project.

Credit Hours: 14 hrs  
Prerequisite: program approval

CLSC 406 - Cytotechnology Clinical Internship

Continuation of CLSC 405.

Credit Hours: 14 hrs  
Prerequisite: program approval  
Last Updated: Links 05/2011

CLSC 407 - Hematology

This lecture and laboratory course covers the theory and application of hematological test procedures, interpretation of results, problem solving, and correlation of laboratory findings with disease states.
CLSC 408 - Clinical Hematology Laboratory

This laboratory course will examine the hematological techniques used in the clinical hematology laboratory. These include the identification of abnormal blood cells, cell counting procedures and staining procedures used to identify abnormal blood cells.

Credit Hours: 3 hrs
Prerequisite: CLSC 200 or permission
Notes: Not open to those with credit in BIO 407.
Last Updated: Links 04/2011

CLSC 411 - Cytogenetics, Clinical Internship II

Continuation of CLSC 410A or CLSC 410B.

Credit Hours: 1 hr
Concurrent Prerequisite: CLSC 407
Last Updated: Links 04/2011

CLSC 412 - Clinical Laboratory

Individual Clinical Laboratory practicum experience. Experiences will be in the specialty areas of the clinical laboratory including, but not limited to molecular diagnosis.

Credit Hours: 14 hrs
Prerequisite: department permission

CLSC 416 - Basic Histotechnique and Histochemical Staining Methods

Didactic and practicum experience in preparing histologic sections for light microscopy, including the study of more than 50 different histologic staining methods and their specific applications.

Credit Hours: 12 hrs
Prerequisite: program approval

CLSC 417 - Basic Electron Microscopy

Didactic and practicum experience in basic biological electron microscopy. Electron microscopic histochemistry and special techniques are also covered. Emphasis is on the electron microscope as a medical diagnostic tool.

Credit Hours: 8 hrs
Prerequisite: program approval

CLSC 418 - Immunohisto-Cytochemistry

A course designed to teach basic and advanced procedures of fluorescent and enzyme-labeled antibody techniques. The course includes the preparation of tissues, staining with labeled antibodies and the use of fluorescence microscopes in clinical medicine.
and research.

**CLSC 419 - Internship Special Histotechnology Techniques**

A course designed to present didactic and practicum experience in molecular pathology, including in-situ-hybridization and DNA analysis. Cytogenetics will be presented with emphasis on preparing karyotypes and chromosome identification. A research project will be required on a related topic, then formalized and presented as a lecture. Management and education methodologies will be presented.

**Credit Hours:** 4 hrs  
**Prerequisite:** program approval

**CLSC 432 - Clinical Microbiology**

Course covers mechanisms of pathogenesis associated with specific bacterial, viral, fungal and parasitic etiological agents of human disease.

**Credit Hours:** 3 hrs  
**Prerequisite:** CLSC 332 or permission  
**Last Updated:** Links 04/2011

**CLSC 433 - Clinical Microbiology Laboratory**

Laboratory will cover methods of detection, isolation, enumeration and identification of human pathogenic microorganisms encountered in the clinical microbiology laboratory.

**Credit Hours:** 2 hrs  
**Concurrent Prerequisite:** CLSC 432  
**Last Updated:** Links 04/2011

**CLSC 434 - Advanced Immunohematology**

Principles and procedures used in the blood bank. The laboratory is designed to simulate problem situations in the clinical laboratory.

**Credit Hours:** 3 hrs  
**Prerequisite:** CLSC 335 or permission  
**Last Updated:** Links 04/2011

**CLSC 450 - Clinical Hematology**

An intensive, hands-on clinical experience in routine hematology, coagulation and special techniques at an advanced level.

**Credit Hours:** 4 hrs  
**Prerequisite:** acceptance into clinical track  
**Last Updated:** 2/4/2011

**CLSC 452 - Clinical Immunology/ Immunohematology Practicum**

An intensive, hands-on clinical experience at an advanced-level of instruction in blood banking, immunology and serology.

**Credit Hours:** 4 hrs  
**Prerequisite:** acceptance into clinical track

**CLSC 454 - Clinical Chemistry Practicum**

An intensive, hands-on clinical experience at an advanced level of instruction in automated chemistry, radioimmunoassay, electrophoresis and toxicology.

**Credit Hours:** 4 hrs  
**Prerequisite:** acceptance into clinical track

**CLSC 456 - Clinical Microbiology Practicum**

An intensive, hands-on clinical experience at an advanced-level of instruction in clinical microbiology.

**Credit Hours:** 4 hrs  
**Prerequisite:** acceptance into clinical track

**CLSC 459 - Clinical Microbiology Practicum II**

This is an intensive introductory lecture and laboratory course highlighting medically important fungi, disease states and laboratory methods of isolation and identification.

**Credit Hours:** 3 hrs  
**Prerequisite:** acceptance into clinical track or permission of instructor

**CLSC 477 - Special Topics**

Advanced level courses covering specific topics in clinical laboratory sciences not discussed in other clinical laboratory sciences courses.

**Credit Hours:** 1 hr  
**Prerequisite:** permission of instructor

**CLSC 478 - Special Topics**

Advanced level courses covering specific topics in clinical laboratory sciences not discussed in other clinical laboratory sciences courses.

**Credit Hours:** 2 hrs  
**Prerequisite:** permission of instructor

**CLSC 479 - Special Topics**

Advanced level courses covering specific topics in clinical laboratory sciences not discussed in other clinical laboratory sciences courses.

**Credit Hours:** 3 hrs  
**Prerequisite:** permission of instructor
CLSC 487 - Cooperative Education in Clinical Laboratory Science

Three to four months of full-time employment at a clinical, research or industrial laboratory or related area chosen for providing a practical educational experience in clinical laboratory sciences. The program consists of two work experiences alternating with full-time attendance at the University.

Credit Hours: 3 hrs
Prerequisite: CLSC 387, permission of program director
Notes: Offered on a or credit/no-credit basis.
Last Updated: Links 04/2011

CLSC 497 - Independent Study

Independent, original endeavors involving library and/or laboratory work under the guidance of a clinical laboratory program faculty member or clinical associate faculty member.

Credit Hours: 1 hr
Prerequisite: permission of the instructor

CLSC 498 - Independent Study

Independent, original endeavors involving library and/or laboratory work under the guidance of a clinical laboratory program faculty member or clinical associate faculty member.

Credit Hours: 2 hrs
Prerequisite: permission of the instructor

CLSC 499 - Independent Study

Independent, original endeavors involving library and/or laboratory work under the guidance of a clinical laboratory program faculty member or clinical associate faculty member.

Credit Hours: 3 hrs
Prerequisite: permission of the instructor

Dietetics

DTC 101 - Fundamentals of Personal Nutrition

How much do you know about nutrition and its impact on health, disease and lifestyle? This course will help you develop skills to critically evaluate the role of nutrition in a healthy lifestyle by providing an overview of nutrients, their functions, relationship to health and disease and explain how culture and society influences one’s nutritional status.

Credit Hours: 3 hrs

DTC 108 - Careers in Nutrition and Dietetics

Orientation to dietetics profession by exploring its roles in the health care system, examining the different facets and specializations of the profession and investigating the past, present, future trends. Ethics and evidenced-based practice are also emphasized.
DTC 120 - TRANSFORM-U

This course provides a multi-modality approach to managing weight by implementing lifestyle changes. Students will acquire knowledge regarding the science of weight management, in addition to discovering how to monitor and assess intake and activity. Students will additionally become aware of the impact of lifestyle, relationships, attitudes, and the environment on weight management.

Credit Hours: 3 hrs
Repeatable for Credit: No
Last Updated: new course 5/2013. effective Winter 2014

DTC 155 - Fundamentals of Healthy Lifestyles

A study of current nutrition, fitness, and other lifestyle strategies to promote health living. Students will examine their own health and wellness status, learn to choose healthful behaviors, becomes familiar with resources, and develop skills and habits that will support a health lifestyle now and in the future.

Credit Hours: 2 hrs
Class Restrictions: All Undergraduates
Last Updated: Course Description change 5/2013, effective Winter 2014

DTC 177 - Special Topics

An experimental course designed to investigate specific topics of concern in specialization areas.

Credit Hours: 1 hr
Prerequisite: department permission

DTC 178 - Special Topics

An experimental course designed to investigate specific topics of concern in specialization areas.

Credit Hours: 2 hrs
Prerequisite: department permission

DTC 179 - Special Topics

An experimental course designed to investigate specific topics of concern in specialization areas.

Credit Hours: 3 hrs
Prerequisite: department permission

DTC 201 - Nutrition Perspectives
Application of nutrition concepts and recommendations for health maintenance.

**Credit Hours:** 3 hrs  
**Notes:** Not open to students who take DTC202, DTC203 or DTC204.

**DTC 202 - Principles of Human Nutrition**

A study of the functions and sources of nutrients as well as their role in health; topics include digestion, absorption and metabolism of energy nutrients; vitamin and mineral structure and function; energy balance and weight maintenance; eating disorders; nutrition and disease; food safety; and the world food situation.

**Credit Hours:** 3 hrs  
**Prerequisite:** CHEM 121 and CHEM 122  
**Notes:** Not open to students who take DTC 201, DTC 203 or DTC 204.  
**Last Updated:** Links 04/2011

**DTC 203 - Nutrition for Health Professionals**

Study of the digestion, absorption, metabolism and functions of nutrients in health and disease. Application of principles of medical nutrition therapy in the provision of care to clients in acute/long-term/ and ambulatory care settings.

**Credit Hours:** 3 hrs  
**Prerequisite:** (CHEM 120 or CHEM 121) and CHEM 122, grade of C or better  
**Concurrent Prerequisite:** BIO 252 or BIO 326 or SPMD 202 or SPMD 269  
**Class Restrictions:** All Undergraduates  
**Last Updated:** Changes to Course Description, prerequisites and co-requisites 5/2013, effective Winter 2014 ; Links 04/2011

**DTC 204 - Sports Nutrition**

Study of the digestion, absorption, metabolism and functions of nutrients directly related to physical performance. Emphasis is placed on nutritional knowledge and practice specific to athletic training and exercise science.

**Credit Hours:** 3 hrs  
**Prerequisite:** (CHEM 120 or CHEM 121) and CHEM 122, grade of C or better; and (BIO 252 or BIO 326 or SPMD 202 or SPMD 269)  
**Class Restrictions:** All Undergraduates  
**Major Restrictions:** This course is restricted to students in the Exercise Science Major and Athletic Training Major programs  
**Last Updated:** Changes to Courses Description and Prerequisites 5/2013, effective Winter 2014; Links 04/2011

**DTC 251 - Experimental Foods**

Students will acquire knowledge in the principles of food science, techniques of food preparation, evaluation, and modification of recipes. This will be accomplished through experiments involving recipes and their ingredients.

**Credit Hours:** 4 hrs  
**Prerequisite:** CHEM 121 and CHEM 122 and BIO 328  
**Class Restrictions:** All Undergraduates  
**Last Updated:** Course Description Change 5/2013, effective Winter 2014; Links 04/2011

**DTC 258 - American Regional Foods (GEKS)**
This course meets the requirements for a social sciences course in the General Education Program because it covers regional American foods and the history, culture, food products and cuisines of fifteen culinary regions. The culinary regions are defined through geography, homogeneous food culture of indigenous people, the food culture of first settlers, foods and cooking techniques brought by immigrants and economic viability.

**Credit Hours:** 3 hrs  
**Knowledge of the Disciplines:**  
DTC 258 meets the requirements for a social sciences course in the General Education Program because students will use historical methods, ethnographic methods, material culture, and quantitative methods to understand the relationships between food and the human experience. The course covers regional American foods and the history, culture, food products, and cuisines of fifteen culinary regions. Students will complete an interview, make observations including a household food inventory project and food waste/recycling project, and study physical objects to gain a fundamental understanding of how social science research methods can be used to study regional American foods and culture. Therefore, DTC 258 fulfills the Social Science requirement of the General Education Program.  
**Last Updated:** General Education Approval, 7/2012 effective Fall 2012; New Course 03/2012

**DTC 277 - Special Topics**  
An experimental course designed to investigate specific topics of concern in specialization areas.

**Credit Hours:** 1 hr  
**Prerequisite:** department permission

**DTC 278 - Special Topics**  
An experimental course designed to investigate specific topics of concern in specialization areas.

**Credit Hours:** 2 hrs  
**Prerequisite:** department permission

**DTC 279 - Special Topics**  
An experimental course designed to investigate specific topics of concern in specialization areas.

**Credit Hours:** 3 hrs  
**Prerequisite:** department permission

**DTC 302 - Nutrient Metabolism: Macronutrients**  
The biochemical and metabolic processing of dietary carbohydrates, fats and proteins, as well as their functions within the human body. Emphasis is on the biochemical reactions involved in nutrient digestion, absorption and metabolism, including their relationships to nutrition status, human heath and disease.

**Credit Hours:** 3 hrs  
**Prerequisite:** DTC 202, grade C or Better; CHEM 351, grade C or Better; and department permission  
**Class Restrictions:** All Undergraduates  
**Last Updated:** Change to Course Description and Prerequisites 5/2013, effective Winter 2014; Links 04/2011

**DTC 330 - Nutrition Therapy I**
Students receive the first in a series of didactic instructions related to various disease states and means of medical nutrition therapy. Learning activities are coordinated to prepare students for professional practice with patients/clients and implementation of nutrition interventions as defined in the Nutrition Care Process.

**Credit Hours:** 3 hrs  
**Prerequisite:** DTC 202 and CHEM 351 and department permission  
**Class Restrictions:** Junior, Senior, and Second Bacc.  
**Major Restrictions:** Only students in the Dietetics Major (IDTC) and M.S. in Dietetics Programs may enroll in this course.  
**Last Updated:** Change to Course Description and Major Restrictions 5/2013, effective Winter 2014; Links 04/2011

**DTC 331 - Nutrition Therapy I Experience**

Supervised practice experience in the medical nutrition therapy professional environment. Emphasis is on nutrition assessment utilizing the Nutrition Care Process & Model and ADIME charting system.

**Credit Hours:** 2 hrs  
**Prerequisite:** DTC 202, CHEM 351, (BIO 326 or BIO 252 or SPMD 202 or SPMD 269), and department permission  
**Corequisites:** DTC 330  
**Class Restrictions:** Junior, Senior, and Second Bacc.  
**Major Restrictions:** Only students in the Dietetics Major (IDTC) program may enroll in this course.  
**Last Updated:** Change to Description, Prerequisites and corequisites 5/2013, effective Winter 2014; Links 04/2011

**DTC 350 - Foodservice Systems Management I**

Introduction to foodservice systems management with emphasis on systems theory, menu planning, sanitation and safety, procurement, production, distribution, communications, and personnel and financial management. Customer satisfaction and marketing are also emphasized. Students will use problem-based learning to apply systems theory.

**Credit Hours:** 3 hrs  
**Prerequisite:** DTC 251 and department permission  
**Class Restrictions:** Junior, Senior, and Second Bacc.  
**Major Restrictions:** Only students in Dietetics Major (IDTC) and M.S. in Dietetics Programs can enroll in this course  
**Previously Listed As:** Food Systems Management I  
**Last Updated:** Change to Course Title and Description 5/2013, effective Winter 2014; Links 04/2011

**DTC 351 - Foodservice Systems Management I Experience**

Supervised practice experiences related to foodservice systems management including procurement, food production and distribution, management techniques, utilization of resources, and customer satisfaction. Students also become certified in food safety.

**Credit Hours:** 4 hrs  
**Prerequisite:** DTC 251 and department permission  
**Corequisites:** DTC 350  
**Class Restrictions:** Junior, Senior, and Second Bacc.  
**Major Restrictions:** Only Dietetics Major (IDTC) Students may enroll in this course.  
**Previously Listed As:** Food Systems Management I Experience  
**Last Updated:** Change to Course Title and Description 5/2013, effective Winter 2014; Links 04/2011

**DTC 358 - Food and Culture (GEGA)**
Global food supply issues can be understood within the context of culture. This course explores factors influencing global food supply including: religion, culture, society, agricultural and livestock capabilities, environmental changes affecting food sources, malnutrition, overfeeding, fair trade agreements for growers/ producers, food availability, industrialization, traditional health beliefs and intercultural communication.

**Credit Hours:** 3 hrs

**Perspectives on a Diverse World:**
This course addresses many global issues such as fair trade, agriculture, religion, cultural intolerances and social dynamics that influence food preferences and food habits. Fairtrade issues are explored through study of small farms that grow coffee, tea, fruit, rice and sugar and sell to processors and distributors under fair trade certification. This is compared to large commercial operations and/or purchasing through the middleman system in developing countries. Religious preference also has a great influence on food habits around the world.

This course meets the General Education Global Awareness category because students are exploring global issues through food and food habits, exploring their own culture and food habits, exploring social dynamics and cultural intolerances that influence food habits and analyzing information from diverse sources to make informed decisions regarding global issues.

**Last Updated:** *

**DTC 370 - Nutrition Therapy II**

Students receive the second in a series of didactic instructions related to various diseases states and means of medical nutrition therapy. Learning activities are coordinated to prepare students for professional practice with patients/clients and implementation of nutrition interventions as defined in the Nutrition Care Process.

**Credit Hours:** 3 hrs
**Prerequisite:** DTC 330 and department permission
**Class Restrictions:** Junior, Senior, and Second Bacc.
**Major Restrictions:** Only students in Dietetics Major (IDTC) and M.S. in Dietetics Programs may enroll in this course.

**Last Updated:** Change to Course Description 5/2013, effective Winter 2014; Links 04/2011

**DTC 371L - Nutrition Therapy II Experience (GELB)**

Supervised Clinical and ambulatory site based practice experiences.

**Credit Hours:** 4 hrs
**Prerequisite:** DTC 330, DTC 331, and department permission
**Corequisites:** DTC 370
**Class Restrictions:** Junior, Senior, and Second Bacc.
**Major Restrictions:** Only Dietetics Major (IDTC) Students may enroll in this course.

**Last Updated:** Change to Course Description 5/2013, effective Winter 2014; Gen Ed Approval 11/2011, effective Fall 2011; Links 04/2011

**DTC 372 - Nutrition of the Life Cycle**

Emphasis on evidence-based nutrient needs, cultural diversity, and health needs for each of the physiological stages of the life cycle in populations, groups, and individuals.

**Credit Hours:** 3 hrs
**Prerequisite:** DTC 202 or DTC 203 or DTC 204; and department permission
**Class Restrictions:** Sophomore and above, and Second Bacc.

**Last Updated:** Change to Course Description, effective Winter 2014; Links 04/2011
**DTC 375 - Integrative Medicine**

This course provides students with an overview of current complementary medicine techniques applied to an integrative medicine framework.

**Credit Hours:** 3 hrs  
**Prerequisite:** DTC 202, DTC 203 or DTC 204; Grade of C or Better in each course.  
**Class Restrictions:** Junior, Senior, & Second Bacc.  
**Major Restrictions:** None  
**Previously Listed As:** Complementary and Alternative Medicine  
**Last Updated:** Change to Title and Course Description 1/2014, effective Summer 2014; Links 04/2011

**DTC 377 - Special Topics**

An experimental course designed to investigate specific topics of concern in specialization areas.

**Credit Hours:** 1 hr  
**Prerequisite:** department permission

**DTC 378 - Special Topics**

An experimental course designed to investigate specific topics of concern in specialization areas.

**Credit Hours:** 2 hrs  
**Prerequisite:** department permission

**DTC 379 - Special Topics**

An experimental course designed to investigate specific topics of concern in specialization areas.

**Credit Hours:** 3 hrs  
**Prerequisite:** department permission

**DTC 422 - Nutrient Metabolism: Micronutrients**

The role of vitamins and minerals in biochemical pathways. Students will examine their role(s) in energy producing pathways, deficiencies, and disease states. Students will examine the toxic effects of consuming excess vitamins and minerals. They will analyze current scientific information and critically evaluate nutrition information.

**Credit Hours:** 3 hrs  
**Prerequisite:** DTC 302; department permission  
**Class Restrictions:** Junior, Senior, and Second Bacc.  
**Major Restrictions:** Only students in the Dietetics Major (IDTC) and M.S. in Dietetics programs can enroll in this course.  
**Last Updated:** Change to Course Description 5/2013, effective Winter 2014; Links 04/2011

**DTC 430 - Community Nutrition**

The focus of this course is on community-based nutrition policies and programs and nutrition education. Students will examine federal, state, and local nutrition programs, as well as plan a nutrition education program.

**Credit Hours:** 3 hrs
Prerequisite: DTC 202, Grade C or better and Department Permission
Class Restrictions: Junior, Senior, Second Bacc.
Previously Listed As: Nutrition Therapy III
Last Updated: Course title and description change 5/2013, effective Winter 2014; Links 04/2011

DTC 431W - Community Nutrition Experience (GEWI & GELB)

Supervised practice experience in a variety of community settings with emphasis on nutrition education techniques and the operation of federal, state, and local nutrition programs. This course meets the university requirement for a writing intensive course.

Credit Hours: 4 hrs
Corequisites: DTC 430
Class Restrictions: Junior, Senior, and Second Bacc.
Major Restrictions: Only Students in the Dietetics Major (IDTC) program may enroll in this course.
Notes: department permission
Previously Listed As: DTC 431L
Writing Intensive:
This course is offered as a part of the General Education Program and satisfies the Writing Intensive requirement and Learning Beyond the Classroom, Group 2, Option VI.

A critical skill of the Registered Dietitian (RD) is the ability to communicate in a variety of ways including through the written word. RDs use this skill daily in their jobs, as well as during their educational years. Writing skills are essential in the dietetics field because they are used continuously and consistently throughout the career.

This course provides the opportunity for students to develop competence with a variety of genres used in the profession. One of these genres is health care documentation using the discipline-specific Nutrition Care Process. Students also learn to write for a variety of audiences by writing a legislative letter, a nutrition tip of the week article targeted at a general audience, and both health fair and education materials that are developed for more specific audiences. Students complete several additional assignments that have writing components including a strategic planning paper and flow of services project. The major assignment for this course is a 3-tier program planning project consisting of a community needs assessment, a program planning assignment, and two nutrition articles, one for professionals and one for a lay audience. Each of these assignments uses a different type of writing and is representative of writing across the discipline. Of the final grade in DTC 431W, almost 60% is based on writing assignments.

Due to the extensive writing in this course related to the role of the RD in the nutrition discipline, and instruction and support connected to that writing, DTC 431W fulfills the Writing Intensive requirement for the dietetics major.

Learning Beyond the Classroom:

This course is offered as a part of the General Education Program and satisfies the Writing Intensive requirement and Learning Beyond the Classroom, Group 2, Option VI.
Last Updated: Course Title and Description Change 5/2013, effective Winter 2014; Gen Ed Approval (WI) 03/2012, effective Fall 2012; Gen Ed Approval (LBC) 11/2011; Links 04/2011

DTC 435 - Seminar in Dietetics

Analysis and application of research topics and techniques as they apply to the field of dietetics.

Credit Hours: 2 hrs
Prerequisite: department permission
Class Restrictions: Senior standing
Major Restrictions: Dietetics Majors only
DTC 450 - Foodservice Systems Management II

Advanced topics in foodservice systems management including leadership, development of employees, accountability, budgeting, financial management, information management and managing change. Students will prepare a professional portfolio.

Credit Hours: 2 hrs
Prerequisite: DTC 350, DTC 351 and department permission
Class Restrictions: Senior, Second Bacc
Major Restrictions: Only students in Dietetics Major (IDTC) and MS in Dietetics programs may enroll in this course.
Graduate Credit: Not Approved for Graduate Credit
Previously Listed As: Food Systems Management II
Last Updated: Change to Course Title and Description 5/2013, effective Winter 2014; Links 04/2011

DTC 451 - Foodservice Systems Management II Experience

Supervised practice experience that include documentation of competencies related to advanced topics in food service systems management. Students plan, implement, and evaluate projects including a theme meal, employee training and a quality improvement project. Presentations are completed.

Credit Hours: 4 hrs
Prerequisite: DTC 350, DTC 351 and department permission
Corequisites: DTC 450
Class Restrictions: Senior and Second Bacc.
Major Restrictions: Only Dietetics Major (IDTC) students may enroll in this course.
Previously Listed As: Food Systems Management II Experience
Last Updated: Spelling Error 7/2014, Change to Title and Course Description 5/2013, effective Winter 2014; Links 04/2011

DTC 459 - Development of the Entrepreneurial Dietitian

This course emphasizes the role of the nutrition entrepreneur in the conceptualization, planning and marketing for a start-up enterprise or private practice. The focus will be on developing a business plan for a new venture and will consider legal and ethical issues.

Credit Hours: 3 hrs
Prerequisite: DTC 108, DTC 202 and department permission
Class Restrictions: Junior, Senior and Second Bacc
Major Restrictions: Dietetics Major (IDTC) Students Only
Previously Listed As: Development of Entrepreneurial Dietitian
Last Updated: Change in Title, Major and Class Restrictions 5/2013, effective Winter 2014; Links 04/2011

DTC 470 - Nutrition Therapy III

Students receive the final installment in a series of didactic instructions related to various disease states and means of medical nutrition therapy. Learning activities are coordinated to prepare students for professional practice with patients/clients and implementation of nutrition interventions as defined in the Nutrition Care Process.

Credit Hours: 2 hr
Prerequisite: DTC 370 and department permission
Class Restrictions: Junior, Senior, and Second Bacc.
Major Restrictions: Dietetics Major (IDTC) and MS in Dietetics students only
Previously Listed As: Nutrition Therapy IV
Last Updated: Change to title, description and prerequisites 5/2013, effective Winter 2014; Links 04/2011
DTC 471 - Nutrition Therapy III Experience

Students complete a culminating supervised practice learning experience in a clinical setting to nutritionally assess, diagnose, monitor, and evaluate patients with complex medical/surgical conditions.

Credit Hours: 4 hrs  
Prerequisite: DTC 371L  
Corequisites: DTC 470  
Class Restrictions: Senior and Second Bachelor  
Major Restrictions: Dietetics Major (IDTC) only  
Previously Listed As: Nutrition Therapy IV Experience  
Last Updated: Title and Prerequisite change 5/2013, effective Winter 2014; Links 04/2011

DTC 477 - Special Topics

An experimental course designed to investigate specific topics of concern in specialization areas.

Credit Hours: 1 hrs  
Prerequisite: department permission

DTC 478 - Special Topics

An experimental course designed to investigate specific topics of concern in specialization areas.

Credit Hours: 2 hrs  
Prerequisite: department permission

DTC 479 - Special Topics

An experimental course designed to investigate specific topics of concern in specialization areas.

Credit Hours: 3 hrs  
Prerequisite: department permission

DTC 497 - Independent Study

Advanced study on an individual basis in areas in which the department does not offer a formal course.

Credit Hours: 1 hr  
Prerequisite: department permission

DTC 498 - Independent Study

Advanced study on an individual basis in areas in which the department does not offer a formal course.

Credit Hours: 2 hrs  
Prerequisite: department permission

DTC 499 - Independent Study
Advanced study on an individual basis in areas in which the department does not offer a formal course.

**Credit Hours:** 3 hrs  
**Prerequisite:** department permission

### Aging Studies

#### AGIN 177 - Special Topics

Specialized topics integral to the field of gerontology. Gerontology faculty members will select contemporary topics that are different from existing courses. Since topics change, a student may elect to take the course more than once.

**Credit Hours:** 1 hr  
**Prerequisite:** department permission  
**Previously Listed As:** GERT 177  
**Last Updated:** Create under 07/2014; Prefix change 01/2013; 06/2011

#### AGIN 178 - Special Topics

Specialized topics integral to the field of gerontology. Gerontology faculty members will select contemporary topics that are different from existing courses. Since topics change, a student may elect to take the course more than once.

**Credit Hours:** 2 hrs  
**Prerequisite:** department permission  
**Previously Listed As:** GERT 178  
**Last Updated:** Create under 07/2014; Prefix change 01/2013; 06/2011

#### AGIN 179 - Special Topics

Specialized topics integral to the field of gerontology. Gerontology faculty members will select contemporary topics that are different from existing courses. Since topics change, a student may elect to take the course more than once.

**Credit Hours:** 3 hrs  
**Prerequisite:** department permission  
**Previously Listed As:** GERT 179  
**Last Updated:** Create under 07/2014; Prefix change 01/2013; 06/2011

### AGIN 212 - Introduction to Gerontology

This course is designed to provide an exploration of the diverse dimensions of gerontology by studying contemporary issues relevant to the field. Students will gain an understanding of the domains of theory, research, education, practice, policy and service, all of which help to define the diverse nature of gerontology.

**Credit Hours:** 3 hrs  
**Previously Listed As:** GERT 212  
**Last Updated:** Create under 07/2014; Prefix change 01/2013; Course Description Change 10/2011, effective Winter 2012; Links 06/2011

### AGIN 219 - Around the World in 80 Years: Adult Development Across Culture (GEGA)
Through the study of adult development, students will consider how the aging of the world's population is affecting diverse cultures, societies - and families - across the globe. Issues of social justice and empowerment related to population aging will addressed, particularly the social, economic, political and policy consequences.

Credit Hours: 3 hrs  
Cross-Listed with: SOCL 219  
Previously Listed As: GERT 219

Perspectives on a Diverse World:
This Global Awareness Course offers students the opportunity to examine diverse cultures and countries through a social and demographic reality shared across the world: population aging. While variances exist in lifespan, every society and every country - whether industrialized Western or least industrialized African or Asian- is faced with the circumstance of adults living longer than ever before in their history. How each culture has historically dealt with and currently deals with its again population, as well as aging individuals, offers a lens for considering the diversities and commonalities of societies around the world. Through the study of again issues of global relations, social justice and empowerment will be addressed, particularly the social, economic, political and policy consequences.

AGIN 379 - Special Topics

Specialized topics integral to the field of gerontology. Gerontology faculty members will select contemporary topics that are different from existing courses. Since topics change, a student may elect to take the course more than once.

Credit Hours: 3 hrs
Prerequisite: department permission
Previously Listed As: GERT 379
Last Updated: Create under 07/2014; Prefix change 01/2013; 06/2011

AGIN 417 - Work and Retirement

Issues on the historical aspect of retirement, the realities of retirement, the necessity of preparing individuals for this significant part of their life-span, and work past the age of 65.

Credit Hours: 2 hrs
Class Restrictions: Junior, Senior or Graduate standing
Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.
Previously Listed As: GERT 417
Last Updated: Create under 07/2014; Prefix change 01/2013; Graduate Credit 07/2011; 06/2011

AGIN 466 - Edna Gates Conference: Seminar on Dementia Care

This two-day seminar provides opportunity to participate in a premier regional conference on dementia care and network with hundreds of health care professionals. Experts will present on cutting edge developments in research and practice. Students will learn ways to develop partnerships with staff, people with dementia and their families.

Credit Hours: 1 hr
Class Restrictions: Junior or Senior standing
Previously Listed As: GERT 466
Last Updated: Create under 07/2014; Prefix change 01/2013; 06/2011

AGIN 477 - Special Topics

Content will change from semester to semester. An experimental course for subject matter not yet provided in other program offerings. Students may elect this course more than once, provided different topics are covered.
AGIN 478 - Special Topics

Content will change from semester to semester. An experimental course for subject matter not yet provided in other program offerings. Students may elect this course more than once, provided different topics are covered.

Credit Hours: 2 hrs
Prerequisite: department permission
Previously Listed As: GERT 478
Last Updated: Create under 07/2014; Prefix change 01/2013; 06/2011

AGIN 479 - Special Topics

Content will change from semester to semester. An experimental course for subject matter not yet provided in other program offerings. Students may elect this course more than once, provided different topics are covered.

Credit Hours: 3 hrs
Prerequisite: department permission

Last Updated: Create under 07/2014; Prefix change 01/2013; 06/2011

AGIN 488 - Gerontology Practicum

An aging focused internship provides integration of previous gerontology course work, life experience, knowledge, and skills in a practice based setting. This seminar course provides the opportunity to explore and to discuss the gerontological internship experience and to build new skills and understandings using supplemental practice information.

Credit Hours: 2 hrs
Prerequisite: Completion of two courses in the gerontology minor or advising coordinator's permission
Class Restrictions: Senior standing
Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.
Previously Listed As: GERT 488
Last Updated: Create under 07/2014; Prefix change 01/2013; Title and Description Change 12/2011, effective Winter 2012; Graduate Credit 07/2011; 06/2011

AGIN 489 - Gerontology Practicum

An aging focused internship provides integration of previous gerontology course work, life experience, knowledge, and skills in a practice based setting. This seminar course provides the opportunity to explore and to discuss the gerontological internship experience and to build new skills and understandings using supplemental practice information.

Credit Hours: 3 hrs
Prerequisite: Completion of two courses in the gerontology minor or advising coordinator's permission
Class Restrictions: Senior standing
Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.
Previously Listed As: GERT 489
AGIN 497 - Independent Study

Directed study in areas not provided in other course offerings or advanced study in areas of special interest to the student.

Credit Hours: 1 hr
Prerequisite: department permission
Previously Listed As: GERT 497
Last Updated: Create under 07/2014; Prefix change 01/2013; 06/2011

AGIN 498 - Independent Study

Directed study in areas not provided in other course offerings or advanced study in areas of special interest to the student.

Credit Hours: 2 hrs
Prerequisite: department permission
Previously Listed As: GERT 498
Last Updated: Create under 07/2014; Prefix change 01/2013; 06/2011

AGIN 499 - Independent Study

Directed study in areas not provided in other course offerings or advanced study in areas of special interest to the student.

Credit Hours: 3 hrs
Prerequisite: department permission
Previously Listed As: GERT 499
Last Updated: Create under 07/2014; Prefix change 01/2013; 06/2011

AGIN 509 - Older Adults and Chemical Dependency

This course is a survey of the epidemiology, clinical presentation, public policy issues and current treatment models for geriatric chemical dependency. Emphasis will be placed on both clinical and policy issues related to access to treatment and the types of treatment available.

Credit Hours: 1 hr
Notes: This is a graduate course in an undergraduate program.
Previously Listed As: GERT 509
Last Updated: Create under 07/2014; Prefix change 01/2013; 06/2011

AGIN 511 - Elders and Their Families

Examines the nature and significance of family and family-like relationships in later life, including long-term marriage, widowhood, divorce, remarriage, adult-to-adult/parent-child relationships, grandparenthood, siblingship and friendship.

Credit Hours: 2 hrs
Notes: This is a graduate course in an undergraduate program.
Previously Listed As: GERT 511
Last Updated: Create under 07/2014; Prefix change 01/2013; 06/2011
AGIN 513 - Intergenerational Programs and Services

Learners will explore common connections between elders and youth, examine factors that support or hinder intergenerational relationships and develop an intergenerational program or service plan.

Credit Hours: 2 hrs
Notes: This is a graduate course in an undergraduate program.
Previously Listed As: GERT 513
Last Updated: Create under 07/2014; Prefix change 01/2013; 06/2011

AGIN 515 - Sexuality and Aging

Examines factors affecting sexual expression, capacity and relationships in later life; considers special population needs/issues (e.g., disabled elders, homosexuality, sexuality and dementia, HIV/AIDS, women).

Credit Hours: 1 hr
Notes: This is a graduate course in an undergraduate program.
Previously Listed As: GERT 515
Last Updated: Create under 07/2014; Prefix change 01/2013; 06/2011

AGIN 516 - The Elderly and the Law

This course discusses the legal issues and implications surrounding health care, long-term care, public entitlement programs, termination of life support, guardianship and alternatives, and intergenerational family issues.

Credit Hours: 1 hr
Notes: This is a graduate course in an undergraduate program.
Previously Listed As: GERT 516
Last Updated: Create under 07/2014; Prefix change 01/2013; 06/2011

AGIN 517 - Developing Funding Proposals for Aging Programs

This course is designed to provide the students with grantsmanship theory and an introduction to the basic skills needed to research and select appropriate aging funders, and develop grant proposals for funding aging programs.

Credit Hours: 2 hrs
Notes: This is a graduate course in an undergraduate program.
Previously Listed As: GERT 517
Last Updated: Create under 07/2014; Prefix change 01/2013; 06/2011

AGIN 518 - Introduction to Alzheimer's and Related Dementia

This introductory course provides an overview of Alzheimer's disease and related dementias, the clinical features of progressive dementias, and impact on quality-of-life issues for families and individuals with dementia. Emphasis is placed on developing meaningful relations with persons with dementia and exploring innovative programs and services designed to accommodate dementia-related changes throughout the continuum of illness.

Credit Hours: 2 hrs
Class Restrictions: Senior standing with permission. Certificate, Masters and Doctoral candidates.
Notes: This is a graduate course in an undergraduate program.
AGIN 523 - Designing Programs for People with Dementia

This seminar examines issues involved in designing meaningful programs that address the cognitive, physical and psychosocial needs of persons with dementia. A fieldwork assignment provides students the opportunity to design, implement and evaluate a small group program. Students may choose a site for this assignment.

Credit Hours: 2 hrs
Notes: This is a graduate course in an undergraduate program.
Previously Listed As: GERT 523
Last Updated: Create under 07/2014; Prefix change 01/2013; 06/2011

AGIN 524 - Families and Dementia

This class looks at family care giving of people with dementia by addressing primary concerns, needs, assessment issues and interventions appropriate to the early, middle and late stages of dementia, and the period after the family member's death.

Credit Hours: 2 hrs
Notes: This is a graduate course in an undergraduate program.
Previously Listed As: GERT 524
Last Updated: Create under 07/2014; Prefix change 01/2013; 06/2011

AGIN 526 - Behaviors in Dementia

Behaviors in Dementia identifies factors that influence behaviors common in individuals with dementia— including unmet needs, biological, psychological and environmental causes. Strategies are discussed to develop interventions for target behaviors and implementation of person-centered treatment plans.

Credit Hours: 2 hrs
Previously Listed As: GERT 526
Last Updated: Create under 07/2014; Prefix change 01/2013; 07/2011

AGIN 528 - Advanced Issues in Dementia Care

Seminar focuses in depth on assessment and treatment of Alzheimer's disease, dementia with Lewy bodies, picks, Creutzfeldt Jakob disease and related disorders. An interdisciplinary team will facilitate discussions on specialized care issues. Students will participate in an innovative service-learning project involving in-home respite.

Credit Hours: 2 hrs
Notes: This is a graduate course in an undergraduate program.
Previously Listed As: GERT 528
Last Updated: Create under 07/2014; Prefix change 01/2013; 06/2011

AGIN 532 - Aging Through the Eyes of the Old

Course is designed to provide students with an opportunity to learn what it is to experience being old by reading journals and books written by or about older people who use their writings to come to terms with old age. Also, the class will delve into a number of theories that are helpful for understanding that aging process and the readings. Film, music and storytelling will be part of the learning experience.
AGIN 590 - Special Topics

Content will change from semester to semester. An experimental course for subject matter not yet provided in other program offerings. Students may elect this course more than once, provided different topics are covered. Not more than six hours of special topics may be used on a degree program.

Credit Hours: 1 hr
Notes: This is a graduate course in an undergraduate program.
Previously Listed As: GERT 590
Last Updated: Create under 07/2014; Prefix change 01/2013; 06/2011

Health Administration

HLAD 177 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr
Prerequisite: department permission

HLAD 178 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs
Prerequisite: department permission

HLAD 179 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs
Prerequisite: department permission

HLAD 200 - Introduction to Epidemiology

Epidemiology is the study of the distribution of determinants and antecedents of health and disease in human populations. The introductory course will examine the key concepts, contextual factors, and application of epidemiology in public health and across the health professions. Drawing from current public health issues and examples, the course is designed to provide students with a foundation for understanding the basic methods and tools used by epidemiologists to study the health populations.
HLAD 250 - Introduction to Public Health

This course will survey public health organizations, services, and the philosophical, legal and ethical implications of public health problems. Health status of populations, anticipation, prevention and responses to epidemics and other threats to community health will be discussed. Illustrations will be used from an international perspective.

HLAD 277 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

HLAD 278 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

HLAD 279 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

HLAD 287 - Cooperative Education in Health Education

Employment for pay in a work setting chosen to provide practical experience related to health administration. The cooperative education sequence consists of two work experiences (HLAD287/387) alternating with full-time attendance at the University.
A survey of important issues facing the health field: the U.S. health care system and the relationship between components; the changing nature of the health field and implications for the future.

Credit Hours: 3 hrs
Notes: (encouraged in sophomore year or early junior year).

HLAD 307W - Communication Effectiveness in Health Administration (GEWI)

This course offers a structured approach to the principal categories of formal communication within health care systems and organizations. The course highlights the need for precision and the uniqueness of the health care system as specialized venue for communications. The course includes formal writing, oral communications, writing for internal or external technical reports, proposals and evaluations. The course concludes with an assessment of evolving electronic media for communications within health systems.

Credit Hours: 3 hrs
Major Restrictions: Health Administration Major and Intent
Writing Intensive:

Last Updated: Coreq removed 7/2013, effective Winter 2014; Links 04/2011

HLAD 308 - Ethical Dimensions in Health Care Delivery

This course presents information that students interested in the health professions may use to identify ethical situations and to resolve dilemmas they may face in their professional lives.

Credit Hours: 3 hrs

HLAD 310 - Administration of Health Care Organizations

Analysis of modern health care organizations with emphasis on management structure, boards of trustees, administration, physicians and others. Delivery of institutional patient care, role of professionals and other personnel, and departmental interrelatedness.

Credit Hours: 3 hrs
Prerequisite: HLAD 305
Last Updated: Prerequisites 03/2012; 2002

HLAD 311 - Management of Health Services

A continuation of HLAD 310, emphasizing quantitative methods in program implementation, control and evaluation. The administrative role in financial control, the legal aspects of control and the control of human resources is examined.

Credit Hours: 3 hrs
Prerequisite: HLAD 310
Last Updated: Links 04/2011

HLAD 312 - Health Personnel Management and Development

This course examines the concepts, models and methods used in managing and developing human resources in health care provider organizations as well as in the health care system as a whole.
HLAD 313 - Health Care Quality

This course addresses the basic issues associated with the implementation and application of quality management and improvements specific to health care. Basic statistical principles and illustrative case studies are presented.

**Credit Hours:** 3 hrs  
**Prerequisite:** HLAD 305  
**Last Updated:** Links 04/2011

HLAD 315 - Research Methods and Data Analysis in Health Sciences

Introduction to the application of statistical methods and research design to a range of practice and research problems in the health sciences.

**Credit Hours:** 3 hrs  
**Prerequisite:** college algebra

HLAD 377 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 1 hr  
**Prerequisite:** department permission

HLAD 378 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 2 hrs  
**Prerequisite:** department permission

HLAD 379 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 3 hrs  
**Prerequisite:** department permission

HLAD 387 - Cooperative Education in Health Education

Employment for pay in a work setting chosen to provide practical experience related to health administration. The cooperative education sequence consists of two work experiences (HLAD 287/HLAD 387) alternating with full-time attendance at the
HLAD 390 - Poverty, Human Rights and Health (GEGA)

This interdisciplinary course examines connections between poverty, human rights and health, focusing on how social/political structures and public policies affect human well being. Prerequisite for HLAD 391/PLSC 391, experiential learning through a class trip to a developing country to meet community organizers and policy specialists working on poverty and health issues.

Credit Hours: 3 hrs
Prerequisite: department permission
Last Updated: Links 04/2011

Perspectives on a Diverse World:

Poverty is a central, if not the central, global problem of our time: it is connected to, or underlies, multiple problems and issues such as pandemics, regime instability, civil strife, terrorism and war. This course addresses the extent and causes of global economic inequality as well as the effects of profound poverty on health, human rights, human development and the quality of individual life. It explores the patterns of social, political and economic domination that sustain poverty and limit the opportunities of the very poor. Particular attention is devoted to the role of international economic institutions, multinational corporations and the advanced industrial nations, including the United States, in shaping the politics and economic development of countries and peoples in the global South. The course will also introduce students to international standards of human rights and the institutions and organizations that seek to protect those rights.

Last Updated: Links 04/2011

HLAD 391 - Field Study: Global Experience - Poverty, Human Rights and Health

Interdisciplinary course offering experiential learning through travel abroad to develop country to meet community organizers and policy specialists working on poverty and health issues. Examines connections between poverty, human rights and health, focusing on how social/political structures and public policies affect human well being.

Credit Hours: 3 hrs
Prerequisite: HLAD 390/PLSC 390
Class Restrictions: Sophomore, Junior or Senior standing
Cross-Listed with: PLSC 391

HLAD 401 - Legal Issues in Health Care

This is a survey of the laws that govern the health care system. Litigation, malpractice, contract, regulation, licensure of health care personnel and the use of human subjects in medical research are among the topics discussed.

Credit Hours: 3 hrs

HLAD 402 - Health Policy

This course provides an overview of the American political system, the policy process and the impact on health policy in the United States. Topics include structure of the U.S. political system, public policy process, evolution of the American health insurance system, governmental programs, financing of health care, and other health policy issues.

Credit Hours: 3 hrs
Repeatable for Credit: No  
Class Restrictions: Junior standing or higher   
Last Updated: New Course 10/2011, effective Winter 2012

HLAD 416 - Health Planning

This course examines in detail the essence of health planning as practiced in the health care industry. Topics include the history of health planning, planning theory and conceptual foundations, public sector planning and policy-making, private-sector planning and health planning methods. Special emphasis is placed on health planning as an ongoing process that should be developed by health care organizations in order to be successful.

Credit Hours: 3 hrs  
Prerequisite: HLAD 307W and HLAD 310   
Last Updated: Prereq change 7/2013 effective Winter 2014; Links 04/2011

HLAD 418 - Principles of Healthcare Finance Management

Principles of Healthcare Finance provides students with procedures and techniques that assist healthcare managers in accomplishing the health care organizations purpose.

Credit Hours: 3 hrs  
Prerequisite: HLAD 307W, HLAD 310, and ACC 240   
Last Updated: prereq change 7/2013, effective Winter 2014; Links 04/2011

HLAD 419 - Legal and Regulatory Issues in Health Care

This course examines the major legal and regulatory aspects of health care administration and the impact of the U.S. political system on health care systems. American political systems, litigation, malpractice, contracts, statutes, regulations, and legal issues for health care personnel are among the topics discussed.

Credit Hours: 4 hrs  
Repeatable for Credit: No Prerequisite: HLAD 307W and HLAD 310   
Class Restrictions: Junior standing or higher   
Last Updated: prereq change 7/2013, effective Winter 2014; New Course 10/2011, effective Winter 2012

HLAD 420 - Health Insurance and Reimbursement

This course focuses on health insurance and other reimbursement methods. Key topics include private and public sectors insurance, underwriting principles, insurance contracts, inpatient and outpatient payment, mechanisms, regulations and reserves as they apply to the health care system.

Credit Hours: 3 hrs  
Prerequisite: HLAD 307W and HLAD 310   
Last Updated: prereq change 7/2013, effective Winter 2014; Links 04/2011

HLAD 421 - Managed Care

This course will provide an overview of the managed-care industry. It will discuss the origins of managed care, the mechanics of managed care, and the effects of managed care across the various constituencies involved (purchaser, provider and patient). The role of managed care in the area of health reform will also be treated in some detail.
HLAD 425 - Decision Making for Health Administrators

The integration of many knowledge areas into health administration. A capstone course utilizing case studies, role playing, simulation and games.

Credit Hours: 3 hrs
Prerequisite: HLAD 420
Last Updated: Links 04/2011

HLAD 460 - Long-Term Care Administration

This course is for students seeking a career in long-term care services, or the regulation of long-term care. Long-term care includes care for the aged and other vulnerable people due to disease or trauma. Students will study the continuum of care and specific expectations of nursing home administrator licensing examinations.

Credit Hours: 3 hrs
Prerequisite: HLAD 310 or HLAD 510
Class Restrictions: Senior standing
Last Updated: Links 04/2011

HLAD 476 - Introduction to Healthcare Informatics

This course introduces students to key management issues related to healthcare informatics, focusing on management strategies, evaluation methods, and strategic planning for systems and security management. The course provides advanced conceptual models, applications, methods, and management strategies related to information systems in health services organizations.

Credit Hours: 3 hrs
Prerequisite: (CIS Track: IS 215, IS 320, IS 380) OR (COSC Track: COSC 111, COSC 211, and either COSC 231 or COSC 215)
Class Restrictions: Junior standing
Last Updated: Links 04/2011

HLAD 477 - Special Topics

For seniors. Topics included will depend upon the interests of the students and the faculty member’s field of specialization. Topics generally include planning, regulation, and issues of special populations such as the homeless and prisoners.

Credit Hours: 1 hr
Prerequisite: department permission

HLAD 478 - Special Topics

For seniors. Topics included will depend upon the interests of the students and the faculty member’s field of specialization. Topics generally include planning, regulation, and issues of special populations such as the homeless and prisoners.

Credit Hours: 2 hrs
Prerequisite: department permission
HLAD 479 - Special Topics

For seniors. Topics included will depend upon the interests of the students and the faculty member’s field of specialization. Topics generally include planning, regulation, and issues of special populations such as the homeless and prisoners.

Credit Hours: 3 hrs
Prerequisite: department permission

HLAD 488 - Internship

Internship to provide formally structured and directed work experience to assist in integrating classroom learning with professional perspectives and working requirements.

Credit Hours: 6 hrs
Prerequisite: Program permission
Last Updated: Links 04/2011

HLAD 497 - Independent Study

Under the supervision of a health administration faculty member, study in subjects not covered in other course offerings, or advanced study in areas of special interest to the student.

Credit Hours: 1 hr
Prerequisite: program permission

HLAD 498 - Independent Study

Under the supervision of a health administration faculty member, study in subjects not covered in other course offerings, or advanced study in areas of special interest to the student.

Credit Hours: 2 hrs
Prerequisite: program permission

HLAD 499 - Independent Study

Under the supervision of a health administration faculty member, study in subjects not covered in other course offerings, or advanced study in areas of special interest to the student.

Credit Hours: 3 hrs
Prerequisite: program permission

HLAD 510 - Medical Care Organization

A theoretical approach to the medical care system that allows the consideration of the key problems and issues such as DRG-based prospective payment, alternative delivery systems, and cost-quality tradeoffs.

Credit Hours: 3 hrs
Prerequisite: Minimum 2.8 GPA
Class Restrictions: Senior standing
Notes: This is a graduate course in an undergraduate program.
Health Sciences

AHPR 177 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr
Prerequisite: department permission

AHPR 178 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs
Prerequisite: department permission

AHPR 179 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs
Prerequisite: department permission

AHPR 196 - Introduction to Health Careers

An introductory course designed to familiarize the student with careers in the health sciences. Various careers such as medical technology, nursing, dietetics, health administration, occupational therapy, medicine, clinical psychology, physical therapy and others will be presented by individuals in the respective disciplines. Education requirements, career opportunities, and clinical experience requirements will be highlighted.

Credit Hours: 2 hrs

AHPR 200 - Medical Terminology

A detailed study of medical terminology, through which students will achieve a working medical vocabulary. Anatomical terms and terminology relating to diseases and disease processes will be presented. This course is designed for students entering a health-related education program, and is a prerequisite for admission to the occupational therapy program.

Credit Hours: 1 hr
Last Updated: Grading Type 03/2012

AHPR 277 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.
AHPR 278 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr
Prerequisite: department permission

AHPR 279 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs
Prerequisite: department permission

AHPR 377 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr
Prerequisite: department permission

AHPR 378 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs
Prerequisite: department permission

AHPR 379 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs
Prerequisite: department permission

AHPR 477 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr
Prerequisite: department permission
AHPR 478 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs
Prerequisite: department permission

AHPR 479 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs
Prerequisite: department permission

AHPR 497 - Independent Study

Advanced study on an individual basis in areas in which the department does not offer a formal course.

Credit Hours: 1 hrs
Prerequisite: department permission

AHPR 498 - Independent Study

Advanced study on an individual basis in areas in which the department does not offer a formal course.

Credit Hours: 2 hrs
Prerequisite: department permission

AHPR 499 - Independent Study

Advanced study on an individual basis in areas in which the department does not offer a formal course.

Credit Hours: 3 hrs
Prerequisite: department permission

Occupational Therapy

OCTH 100 - Orientation to Occupational Therapy

An overview of roles and functions of occupational therapists in a variety of settings. Career information is explored including helping skills, comparison to other fields, salaries, outlook and application process.

Credit Hours: 3 hrs

OCTH 201 - Exploring Occupational Performance in the Community
Through service learning experiences at community agencies, the student will be given opportunities to work with individuals with occupational dysfunction. A seminar will accompany the fieldwork to allow students to reflect upon their experiences, the barriers to participation that exist in the community and the impact of disability on occupation.

**Credit Hours:** 3 hrs  
**Notes:** Academic Service Learning Course (Winter 2015, CRN: 24851).  
**Last Updated:** Course Note 12/2014

**OCTH 350 - Exploring Occupational Performance in the Context of a Disability**

This course will provide opportunities for the student to reflect on the experiences of individuals with disabilities through the use of movies, documentaries, literary works, visual arts and a fieldwork experience. Students will explore the effect of the disability on the individual’s quality of life and discuss occupational dysfunction.

**Credit Hours:** 3 hrs

**OCTH 412 - Models of Practice**

This course will introduce the student to the theories and models of practice that are the foundations of practice in occupational therapy. Models from other fields that inform the occupational therapist’s understanding of occupational performance will also be discussed. Students will analyze models and apply knowledge to selected cases.

**Credit Hours:** 3 hrs  
**Prerequisite:** EDPS 325 or IHHS 260  
**Graduate Credit:** This is an undergraduate course available to graduate students for graduate credit.  
**Last Updated:** Graduate Credit 07/2011; Links 04/2011

**OCTH 419 - Programming I**

Students will have opportunities to learn methods of evaluating occupational performance issues present in selected conditions that affect the child from birth to adolescence. The effect of environmental, cultural, and social factors on occupational performance is emphasized. Students use critical thinking skills to develop intervention plans using theoretically sound techniques.

**Credit Hours:** 6 hrs  
**Prerequisite:** OCTH 412, OCTH 495, OCTH 500W, OCTH 502  
**Graduate Credit:** This is an undergraduate course available to graduate students for graduate credit.  
**Last Updated:** Graduate Credit 07/2011; Links 04/2011

**OCTH 420 - Level I Fieldwork I**

Exploring the role of an occupational therapist in a clinical setting.

**Credit Hours:** 3 hrs

**OCTH 495 - Neurological Foundations of Human Occupation**

Students will pursue knowledge in the neurosciences related to function and dysfunction of the central nervous system. Emphasis is placed on integrated brain function impacting daily living and occupational performance. Related clinical conditions will be correlated with research investigations that support appropriate and current interventions in occupational therapy.
Credit Hours: 3 hrs
Prerequisite: BIO 330; EDPS 325 or IHHS 260
Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.
Last Updated: Graduate Credit 07/2011; Links 04/2011

Therapeutic Recreation

THRC 100 - Foundation and Advancement of the Therapeutic Recreation Profession

This course is designed as an introductory course to the therapeutic recreation profession. Historical development, accreditation regulations, professional development, credentialing, service models, advocacy, ethics and professional associations will be covered. Students will also develop an initial portfolio for their own professional preparation.

Credit Hours: 3 hrs
Last Updated: Title and description change 5/2012; effective WINTER 2013

THRC 177 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr
Prerequisite: Department permission
Last Updated: Links 03/2011

THRC 178 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs
Prerequisite: Department permission
Last Updated: Links 03/2011

THRC 179 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs
Prerequisite: Department permission
Last Updated: Links 03/2011

THRC 180 - Activity Analysis and Adaption

Develops the skills necessary to analyze activities to find inherent characteristics that contribute to program objectives for special populations. Components of activity analysis (physical, cognitive, affective and social/interactional skills) are studied in detail. Lecture, discussion and experiential learning.

Credit Hours: 2 hrs
THRC 200 - Recreation for Persons with Disabilities

This course is designed to familiarize students with the nature and scope of recreation for people with disabilities. The course will explore social, environmental and psychosocial issues that influence the leisure lifestyle of people with disabilities. Other topics include: barriers to leisure participation, activity adaptation and characteristics of diagnostic groups.

Credit Hours: 3 hrs

THRC 250 - Fieldwork in Recreation Therapeutic Recreation

An introductory course in fieldwork. Students select a site for recreation leadership within a community or clinical setting. Students spend 60 hours on-site and participate in five classroom meetings.

Credit Hours: 1 hr
Prerequisite: THRC 100
Last Updated: Links 03/2011

THRC 251 - Fieldwork in Recreation Therapeutic Recreation

An introductory course in fieldwork. Students select a site for recreation leadership within a community or clinical setting. Students spend 60 hours on-site and participate in five classroom meetings.

Credit Hours: 1 hr
Prerequisite: THRC 100
Last Updated: Links 03/2011

THRC 252 - Fieldwork in Recreation Therapeutic Recreation

An introductory course in fieldwork. Students select a site for recreation leadership within a community or clinical setting. Students spend 60 hours on-site and participate in five classroom meetings.

Credit Hours: 1 hr
Prerequisite: THRC 100
Last Updated: Links 03/2011

THRC 277 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr
Prerequisite: Department permission
Last Updated: Links 03/2011

THRC 278 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs
**THRC 279 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

**Credit Hours:** 3 hrs

**Prerequisite:** Department permission

**Last Updated:** Links 03/2011

**THRC 290 - Quality Improvement: Research Methods in Health Care**

This course is designed to prepare the entry-level health care practitioner with a knowledge of continuous quality improvement techniques which focus on process and outcome measures relevant to individual disciplines. The student will develop an understanding of applied research methodology and its application to CQI development and evaluation.

**Credit Hours:** 3 hrs

**THRC 300 - Principles of Therapeutic Recreation**

Principles of Therapeutic Recreation is an introductory course designed to familiarize students with the diverse nature and scope of the therapeutic recreation profession. The course content includes an analysis of: historical and philosophical influences, service models, service settings, practice standards, ethics, quality improvement, credentialing, consulting and terminology.

**Credit Hours:** 3 hrs

**Prerequisite:** THRC 100

**Last Updated:** Links 03/2011

**THRC 310 - Leisure and Aging**

This course will examine the physical, psychological and affective characteristics of aging, implications of leisure and retirement, and recreational services provided in community and institutional settings.

**Credit Hours:** 3 hrs

**THRC 320 - Leisure Education**

Concepts and techniques of leisure education for use with all populations. Leisure awareness, social interaction skills, leisure activity skills and leisure resources. Educates the student as a provider of leisure services. Lecture, speakers, readings and participation.

**Credit Hours:** 3 hrs

**THRC 330 - Therapeutic Recreation: Substance Abuse**

The use of leisure and recreation in the prevention and/or rehabilitation of chemical dependency. Skill development in areas of leisure education, group dynamics, facilitation techniques, communication, values clarification, decision-making, games and sports, new games, socialization and outdoor/nature techniques, and family leisure education. Lectures, discussions and experiential learning.
THRC 340 - Therapeutic Recreation Processes I

Introduction to specific techniques used in therapeutic recreation, including counseling theory, psychotherapies, medical terminology and transfers and lifts. Lecture, speakers, assessments and 30 hours of fieldwork.

THRC 360 - Therapeutic Recreation Program Planning

This course is designed to provide the therapeutic recreation student with knowledge in the planning and development of programs to achieve goals, objectives and strategies through the use of structured and systematic interventions that improve client functioning and independence in life activities and leisure functioning.

THRC 377 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

THRC 378 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

THRC 379 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.
THRC 400 - Therapeutic Recreation Process II

This course is designed to familiarize students with best-practice interventions used in the treatment/program planning process, medical record documentation and evaluation techniques. Emphasis will be placed on exploring established activity-based protocols and potentially new protocols applicable to rehabilitation and health promotion settings.

Credit Hours: 3 hrs
Prerequisite: THRC 100
Last Updated: Links 03/2011

THRC 430W - Issues in Therapeutic Recreation (GEWI)

This required course is designed for the senior therapeutic recreation major. Students will gain an awareness of the current issues affecting the practice of therapeutic recreation.

Credit Hours: 3 hrs
Prerequisite: THRC 200/THRC 300
Writing Intensive:

Last Updated: Gen Ed Approval 09/2011, effective Fall 2011; Links 03/2011

THRC 449 - Therapeutic Recreation Practicum

A full-time, 15-week, 600-hour experience in an approved hospital, outpatient or community setting under direction of a certified therapeutic recreation specialist and University supervisor. Leadership, supervisory and administrative experience of a practical nature.

Credit Hours: 8 hrs
Prerequisite: Candidate status for a minimum of one semester prior to application for practicum; completion of 90 percent of all academic courses including THRC 100, THRC 200, THRC 250, THRC 260, THRC 300, THRC 340, THRC 360, THRC 400, THRC 460; completion of 250 hours of fieldwork; grade point average of 2.5 overall and 2.75 in all major classes
Last Updated: Links 03/2011

THRC 477 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr
Prerequisite: Department permission
Last Updated: Links 03/2011

THRC 478 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs
Prerequisite: Department permission.
Last Updated: Links 03/2011
THRC 479 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs
Prerequisite: Department permission.
Last Updated: Links 03/2011

THRC 481 - Adapted Aquatics

Aquatic instructional techniques in working with special populations including physically disabled, developmentally disabled, emotionally impaired and the aged. Lectures, films, swimming skills, adaptations of swimming skills and 20 hours of fieldwork.

Credit Hours: 2 hrs
Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.
Last Updated: Graduate Credit 07/2011

THRC 497 - Directed Study

An opportunity for directed study in areas not covered in other course offerings, or greater depth of study in areas of continued interest for the student. Students will be assigned to select faculty members for direction, consultation, and evaluation of the completed study or project.

Credit Hours: 1 hr
Class Restrictions: Junior standing or above only
Major Restrictions: Department Majors and Minors only
Notes: Open only to students who have attained a GPA of 3.0 or above and who have completed the appropriate background courses.

THRC 498 - Directed Study

An opportunity for directed study in areas not covered in other course offerings, or greater depth of study in areas of continued interest for the student. Students will be assigned to select faculty members for direction, consultation, and evaluation of the completed study or project.

Credit Hours: 2 hrs
Class Restrictions: Junior standing or above only
Major Restrictions: Department Majors and Minors only
Notes: Open only to students who have attained a GPA of 3.0 or above and who have completed the appropriate background courses.

THRC 499 - Directed Study

An opportunity for directed study in areas not covered in other course offerings, or greater depth of study in areas of continued interest for the student. Students will be assigned to select faculty members for direction, consultation, and evaluation of the completed study or project.

Credit Hours: 3 hrs
Class Restrictions: Junior standing or above only
Major Restrictions: Department Majors and Minors only
Notes: Open only to students who have attained a GPA of 3.0 or above and who have completed the appropriate background courses.
School of Nursing Programs and Courses

School of Nursing

Major

Nursing Major

The Nursing Program is approved by the State of Michigan Board of Nursing and is accredited by the Commission on Collegiate Nursing Education. The undergraduate curriculum leads to the Bachelor of Science in Nursing (B.S.N.) degree and requires the following courses to complete the 124 hours needed for graduation. Curriculum revisions may result in changes in the nursing courses listed below, as well as the pre-admission courses. Potential nursing students should consult with the College of Health and Human Services Advising Office for the most accurate information at (734) 487-0918.

There are three options within the undergraduate BSN Nursing Program at Eastern Michigan University:

B.S.N. for students who are NOT already Registered Nurses and wish to obtain a Baccalaureate Degree in Nursing. Major Code: NUR.

B.S.N. Completion - for students who are already Registered Nurses (generally with a diploma or Associates Degree) who wish to obtain a Baccalaureate Degree in Nursing. This is the Nursing Major - B.S.N. Completion. Major Code: NURC

B.S.N. Second Degree - for students who possess a Baccalaureate Degree in another discipline and wish to obtain a Baccalaureate Degree in Nursing. This is the Nursing Major - B.S.N. Second Degree. Major Code: NURB

B.S.N. Program
The BSN program at EMU requires a separate application and admission process apart from being admitted to the university. While students may be admitted to the University as a Nursing Intent student (Major Code: INUR), admission to the BSN program is not guaranteed. Admission to the BSN program is highly competitive.

Admission Requirements:

Applicants are considered for selection into the BSN Program upon completion of the following pre-admission courses and submission of official transcripts from all other colleges and universities. TOEFL scores are required if English is a second language (to meet university requirements). It is the responsibility of the applicant to assure that all materials have been submitted to the School of Nursing by the application deadline date.

The following pre-requisite courses (or transfer equivalencies) are required for application to the BSN program:

- Course in Quantitative Reasoning (to meet university requirements) click here for course options.
- CHEM 120 - Fundamentals of Organic and Biochemistry (GEKN) 4 hrs
- ENGL 121 - Composition II: Researching the Public Experience (GEEC) 3 hrs
- PSY 101 - General Psychology Lecture (GEKN) 3 hrs
- SOCL 105 - Introductory Sociology (GEKS) 3 hrs
  or
- ANTH 135 - Introduction to Cultural Anthropology (GEGA & GEKS) 3 hrs
- IHHS 260 - Aging to Infancy: A Life Course Retrospective 3 hrs
  or
- EDPS 325 - Life Span Human Growth and Development 4 hrs
- SPMD 201 - Human Anatomy for Sports Medicine 3 hrs
  and
- SPMD 202 - Human Physiology for Sports Medicine 3 hrs
  or
- BIO 251 - Human Anatomy and Physiology I 4 hrs
  and
- BIO 252 - Human Anatomy and Physiology II 4 hrs

Important Notes:

- A minimum cumulative GPA of 3.0 or better in the pre-requisite courses is required.
- Any transferred chemistry, anatomy, or physiology course must be a "B" grade or better and equivalent to EMU courses.
- Chemistry, anatomy, or physiology courses older than 10 years are not accepted.
- If chemistry, anatomy or physiology courses are re-taken, the grades from the first two attempts only are used to calculate the GPA.
- ATI-TEAS may be re-taken only twice per calendar year.

*Note: effective Fall 2015, students will not be required to earn a "B" grade or better in transferred chemistry anatomy, or physiology courses*

Recommended:
NURS 110 - Introduction to Professional Nursing is recommended and does count toward points for admission to the program. This course introduces the concepts of professional nursing practice and assists in preparing students for the rigor of the undergraduate BSN curriculum.
The University may give credit for nursing courses taken at another college of university; however, the School reserves the right to make the final decision on course substitution based on examination of course materials. Requirements may vary based on prior education. Students must speak with a pre-admission counselor in the CHHS Intent Advising Office (734.487.0918) for details on transfer equivalencies.

**Application Process:**

Admission to the BSN program is highly competitive. Prospective students should first attend a School of Nursing "Information Session for Nursing Intents to learn about the BSN program application process. The schedule of information sessions is available online at www.emich.edu/nursing under the events calendar.

After attending an information session, please contact the College of Health and Human Services Advising Office at 734.487.0918 prior to schedule an appointment for advising about the BSN program.

Applications for the BSN Program are due annually on May 15th by 5:00 pm in the School of Nursing office (311 Marshall). Applications are reviewed and students are notified in June about their acceptance into the BSN program. Students start classes in the following Fall semester. EMU School of Nursing does not maintain a waiting list. Students who are not admitted one year may apply subsequently, but will be ranked based on the applicant pool at that time.

Each application is carefully reviewed and assigned points based on the following criteria:

<table>
<thead>
<tr>
<th>Criteria</th>
<th>Maximum Possible Points</th>
</tr>
</thead>
<tbody>
<tr>
<td>Calculated Pre-Requisite GPA multiplied by 75</td>
<td>300</td>
</tr>
<tr>
<td>Calculated Science GPA multiplied by 25</td>
<td>100</td>
</tr>
<tr>
<td>EMU Points (2 points for each credit hour of the 8-pre-requisite courses taken at EMU)</td>
<td>58</td>
</tr>
<tr>
<td>ATI TEAS Scores (5 points possible per category)</td>
<td>20</td>
</tr>
<tr>
<td>6 Months or More of Health Care Work Experience</td>
<td>15</td>
</tr>
<tr>
<td>Math or English Waiver (ACT/SAT/CLEP) (3 points for each waiver awarded if granted)</td>
<td>(6)</td>
</tr>
<tr>
<td>Successful completion of NURS 110</td>
<td>7</td>
</tr>
<tr>
<td><strong>Total Possible Points:</strong></td>
<td><strong>500</strong></td>
</tr>
</tbody>
</table>

Following the point calculations, applicants are ranked from highest to lowest points. The top ranked students are then offered admission into the BSN program based on available space. In order to complete the admission to the BSN program, students must submit and successfully pass a criminal background check, physical examination, and drug screen. Failure to pass the criminal background check, physical examination, drug screen or completion of required paperwork may result in revocation of the admission offer.

**General Education Requirements:**

For specific requirements refer to the General Education Program.

**Program Requirements:**
Students should plan carefully for the demanding nature of the Nursing Program and the extensive clinical hours required. Students must earn a minimum of 124 credits at the 100-level or above. The program requires five to six semesters of study and the School reserves the right to make changes in the curriculum as needed. To be eligible for graduation, the program (124 hours) must be completed within six calendar years from the date of enrollment in NURS 208. Eligibility to take the NCLEX exam (required to earn Registered Nurse licensure) is dependent upon graduation from the University with a B.S.N. degree. Specific program requirements (including failures within courses and dismissal from the program) are included in the BSN Student Handbook located on the EMU School of Nursing website.

Other Program Requirements:
Prior to taking the 300-level nursing courses, students must successfully complete:
DTC 203 - Nutrition for Health Professionals 3 hrs
and
either BIO 328 - Microbiology for Health Professions 3 hrs or CLSC 432 - Clinical Microbiology 3 hrs
Nursing courses must be taken in the sequence specified by the School of Nursing.

Clinical Learning Experience
Practical experience in nursing is provided through clinical learning experiences under the supervision of faculty in a variety of health care organizations, such as ambulatory care settings, acute care settings, medical centers, community hospitals, public schools, nursing homes, county public health agencies, and home health care agencies. Students are required to follow University and agency policies for professional appearance, compliance with agency policies, and purchase of necessary equipment to perform his/her role. Students are also expected to provide their own transportation to clinical agencies.

Academic and Professional Integrity
Students are expected to assume responsibility for their learning, to support the ethics and goals of the profession and to value honesty in the fulfillment of scholarly and professional endeavors. Students must abide by the University code of conduct. Students who violate the University code of conduct will be subject to appropriate disciplinary action.

The School of Nursing recognizes its responsibilities to the public and to the nursing profession. Students and faculty must promote academic and professional integrity and take action when a violation of such integrity occurs. The School reserves the right to retain only those students who, in the judgment of the faculty, satisfy the requirements of scholarship, clinical competence, and professional and personal integrity suitable for nursing. See BSN Student Handbook on the EMU School of Nursing website.

Major Requirements: 60 hours

- NURS 208 - The Art and Science of Nursing I 2 hrs
- NURS 209 - The Art and Science of Nursing I Clinical 3 hrs
- NURS 220 - Health Assessment 2 hrs
- NURS 250 - The Art and Science of Nursing II 2 hrs
- NURS 251 - The Art and Science of Nursing II Laboratory 3 hrs
- NURS 260 - Pathophysiology 4 hrs
- NURS 270 - Pharmacology 3 hrs
- NURS 275 - Essentials of Professional Nursing Practice I 3 hrs
- NURS 304 - Nursing Care of Childbearing Families 2 hrs
- NURS 305 - Nursing Care of Childbearing Families Clinical 3 hrs
- NURS 306 - Child/Family Health Nursing 2 hrs
- NURS 307 - Child Family Health Nursing Laboratory 3 hrs
- NURS 330 - Adult Health Nursing I 2 hrs
- NURS 331 - Adult Health Nursing I Clinical 3 hrs
- NURS 350 - Psychiatric/Mental Health Nursing 2 hrs
- NURS 351 - Psychiatric/Mental Health Nursing Clinical 3 hrs
• NURS 372 - Nursing Research 2 hrs
• NURS 375W - Essentials of Professional Nursing Practice II (GEWI) 3 hrs
• NURS 404 - Adult Health Nursing II 2 hrs
• NURS 405 - Adult Health Nursing II Clinical 3 hrs
• NURS 450 - Community Health Nursing 2 hrs
• NURS 451 - Community Health Nursing Clinical 3 hrs
• NURS 475 - Essentials of Professional Nursing Practice III 3 hrs

Program Fee

Please see the Student Business Services website (www.emich.edu/sbs/programfeesoutline.php) for possible course & program fees associated with this program.

Critical Graduation Information:

Each undergraduate student will be responsible for the fulfillment of the requirements or their equivalents of the Eastern Michigan University catalog in force at the time of their initial registration at a college or university or a subsequent catalog including the one in effect at the time of their graduation.

In the event an undergraduate student does not complete the degree requirements within seven years of the date of their original registration at a college or university, the student may be required to have their credits re-evaluated by the academic department(s) of their major/minor in keeping with catalog requirements in force during the year of their graduation.

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

• Earn a minimum total of 124 credits at the 100-level and above. Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.
• Meet the requirements of the General Education program (see information below).
• Complete a Writing Intensive (WI) Course in your major.
• Earn a minimum of 60 credits from a four-year college or university; courses taken at community colleges cannot be used to meet this requirement. (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
• Earn a minimum of 30 credits from courses taken at EMU.
• Complete 10 of the last 30 hours for the degree from courses taken at EMU.
• Have a minimum of 30 unique credit hours in their major and 20 unique credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
• Earn no more than 60 credit hours in one subject area (prefix). Credits in excess of the 60 maximum will not be counted toward the minimum of 124 credits required for a bachelor's degree.
• Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more than one major or minor.
  • Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
  • Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
  • Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor
• Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is conducted by individual departments/schools within EMU, and additional documentation may be required. Please note: EMU awards only credit for transferred courses; grades are not used in the calculation of an EMU GPA.

• Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be reached in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

General Education Requirements:

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available in the General Education section of the catalog: General Education

Students who transferred to EMU may have modified general education requirements based on Michigan Transfer Agreement (MTA) or articulation agreements; consult your academic advisor for additional information.

University Information: Consult the online catalog at catalog.emich.edu.

Program Total:

Students must earn a minimum total of 124 credits at the 100-level or above.

Nursing Major - B.S.N. Completion

Revised Program, effective Fall 2014

The Nursing Program is accredited by the Commission on Collegiate Nursing Education. An active articulation agreement exists between the BSN Completion program and many community colleges, including, but not limited to the following:

Nursing (BSN Completion) - Grand Rapids Community College

Nursing (BSN Completion) - North Central Michigan College Articulation Guide

To see a current list of community colleges with program articulation agreements with EMU, please click here.

There are three options within the undergraduate BSN Nursing Program at Eastern Michigan University:

B.S.N. for students who are NOT already Registered Nurses and wish to obtain a Baccalaureate Degree in Nursing. Major Code: NUR

B.S.N. Completion. - for students who are already Registered Nurses (generally with a diploma or Associates Degree) who wish to obtain a Baccalaureate Degree in Nursing. This is the Nursing Major - B.S.N. Completion. Major Code: NURC

B.S.N. Second Degree - for students who possess a Baccalaureate Degree in another discipline and wish to obtain a Baccalaureate Degree in Nursing. This is the Nursing Major - B.S.N. Second Degree. Major Code: NURB
School Information:

School of Nursing - College of Health and Human Services

B.S.N. Completion Program

The BSN Completion program at EMU requires a separate application and admission process. While students may be admitted to the University as a Nursing Intent student (Major Code: INRC), admission to the BSN Completion program is not guaranteed.

General Education Requirements:

For specific requirements refer to the General Education Program.

Admission Requirements:

Applicants are considered for selection into the BSN Completion Program based on the following criteria:

- Hold a current unrestricted license to practice as a Registered Nurse.
- A 2.5 or better cumulative college G.P.A (4.0 scale)
- Successful completion of a college level course in English composition with a minimum course grade of 3.0 (4.0 scale) or higher prior to entry into the program.
- Successful completion of the TOEFL or MELAB scores to meet EMU requirements if English is a second language.

The University may give credit for nursing courses taken at another college of university; however, the School reserves the right to make the final decision on course substitution based on examination of course materials. Requirements may vary based on prior education. Students must speak with a pre-admission counselor in the CHHS Intent Advising Office (734.487.0918) for details on transfer equivalencies. A minimum grade of C must be earned in the following courses (or the courses accepted as equivalent or replacement for the following courses):

- All courses with NURS prefix
- BIO 328
- College level chemistry course (100 level or higher)
- DTC 203
- EDPS 325 or IHHS 260
- ANTH 135 or SOCL 105
- SPMD 201/202 or BIO 251/252
Application Process:

Applicants must:

- Apply to Eastern Michigan University. Consult with the EMU Office of Admissions regarding application forms, procedures, requirements and deadlines. Admission to the university takes an average of 2-3 weeks.
- Submit official transcripts from each educational institution you have attended so your EMU admission application can be processed.
- After admission to the university and receipt of your EID (student number), submit a separate application to the EMU School of Nursing for the RN/BSN Completion Program. The application can be found on the EMU School of Nursing website. Please include a $30.00 non-refundable check with your application. The check should be made out to EMU School of Nursing RN/BSN Program.
- Designation on application of first and second choices for site preference for coursework.

Note: Priority for admission to the RN/BSN Completion program will be given to those applicants who have completed general education requirements at EMU or are MACRAO satisfied from their community college. *Applicants who hold a RN license and a bachelor's degree in another discipline who are seeking admission to the RN/BSN Completion Program must also meet with the EMU Second-Degree Advisor in addition to the above requirements (734-487-7121).

Effective winter 2015, students applying for the BSN Completion Program must have satisfied the Michigan Transfer Agreement, the MACRAO agreement, or have completed all EMU general education requirements before beginning the nursing courses.

Application deadline dates and starting dates of courses vary according to the site (see EMU School of Nursing website for options in site locations).

Additional Requirements: 27-31 hours

- BIO 328 - Microbiology for Health Professions 4 hrs
- Any 100 level or higher Chemistry course 3-4 hrs
- IHHS 200 - Reading and Writing in Nursing Studies 3 hrs
- DTC 203 - Nutrition for Health Professionals 3 hrs
- PSY 101 - General Psychology Lecture (GEKN) 3 hrs
  Please be aware that PSY 103 must be completed in addition to PSY 101 to satisfy four credits of the Knowledge of the Disciplines-Natural Science portion of the General Education program.

One course from the following:

- EDPS 325 - Life Span Human Growth and Development 4 hrs
  or
- IHHS 260 - Aging to Infancy: A Life Course Retrospective 3 hrs

One course from the following:

- ANTH 135 - Introduction to Cultural Anthropology (GEGA & GEKS) 3 hrs
  or
- SOCL 105 - Introductory Sociology (GEKS) 3 hrs

One of the following two course sequences:
Sports Medicine Sequence

- SPMD 201 - Human Anatomy for Sports Medicine 3 hrs
- SPMD 202 - Human Physiology for Sports Medicine 3 hrs

Biology Sequence

- BIO 251 - Human Anatomy and Physiology I 4 hrs
- BIO 252 - Human Anatomy and Physiology II 4 hrs

Major Requirements: 60 hours

Required Courses: 55 hours

- NLN Exams or State of Michigan R.N. license (30 hrs)
- NURS 220 - Health Assessment 2 hrs
- NURS 260 - Pathophysiology 4 hrs
- NURS 265 - R.N. Essentials of Professional Nursing Practice I 3 hrs
- NURS 270 - Pharmacology 3 hrs
- NURS 365 - R.N. Essentials of Professional Nursing Practice II 3 hrs
- NURS 372 - Nursing Research 2 hrs
- NURS 450 - Community Health Nursing 2 hrs
- NURS 451 - Community Health Nursing Clinical 3 hrs
- NURS 465 - R.N. Essentials of Professional Nursing Practice III 3 hrs

Restrictive Elective Courses: 5 hours

- Five hours in nursing

Writing Intensive Course

Each student must choose a writing intensive course as part of major completion requirements. Consult your advisor for course options.

Program Total:

Students must earn a minimum total of 124 credits at the 100-level or above.

Program Fee

Please see the Student Business Services website (www.emich.edu/sbs/programfeesoultine.php) for possible course & program fees associated with this program.
Extended Programs

This program is available at an EMU off-campus location. For a list of locations, please click here.

Critical Graduation Information:

Each undergraduate student will be responsible for the fulfillment of the requirements or their equivalents of the Eastern Michigan University catalog in force at the time of their initial registration at a college or university or a subsequent catalog including the one in effect at the time of their graduation.

In the event an undergraduate student does not complete the degree requirements within seven years of the date of their original registration at a college or university, the student may be required to have their credits re-evaluated by the academic department(s) of their major/minor in keeping with catalog requirements in force during the year of their graduation.

The following are minimum requirements for all bachelor’s degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the 100-level and above. Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Complete a Writing Intensive (WI) Course in your major.
- Earn a minimum of 60 credits from a four-year college or university; courses taken at community colleges cannot be used to meet this requirement. (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 unique credit hours in their major and 20 unique credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
- Earn no more than 60 credit hours in one subject area (prefix). Credits in excess of the 60 maximum will not be counted toward the minimum of 124 credits required for a bachelor's degree.
- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more that one major or minor.
  - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
  - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
  - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor
- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is conducted by individual departments/schools within EMU, and additional documentation may be required. Please note: EMU awards only credit for transferred courses; grades are not used in the calculation of an EMU GPA.
• Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be reached in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

General Education Requirements:

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available in the General Education section of the catalog: General Education

Students who transferred to EMU may have modified general education requirements based on Michigan Transfer Agreement (MTA) or articulation agreements; consult your academic advisor for additional information.

University Information: Consult the online catalog at catalog.emich.edu.

Nursing Major - B.S.N. Second Degree

The Nursing Program is approved by the State of Michigan Board of Nursing and is accredited by the Commission on Collegiate Nursing Education. The undergraduate curriculum leads to the Bachelor of Science in Nursing (B.S.N.) degree and requires the following courses to complete the 124 hours needed for graduation. Curriculum revisions may result in changes in the nursing courses listed below, as well as the pre-admission courses. Potential nursing students should consult with the College of Health and Human Services Advising Office for the most accurate information at (734) 487-0918.

There are three options within the undergraduate BSN Nursing Program at Eastern Michigan University:

- **B.S.N.** for students who are NOT already Registered Nurses and wish to obtain a Baccalaureate Degree in Nursing. Major Code: NUR
- **B.S.N. Completion** for students who are already Registered Nurses (generally with a diploma or Associates Degree) who wish to obtain a Baccalaureate Degree in Nursing. This is the Nursing Major - B.S.N. Completion. Major Code: NURC
- **B.S.N. Second Degree** for students who possess a Baccalaureate Degree in another discipline and wish to obtain a Baccalaureate Degree in Nursing. This is the Nursing Major - B.S.N. Second Degree. Major Code: NURB

B.S.N. Second Degree Program

The BSN Second Degree program at EMU requires a separate application and admission process apart from being admitted to the university. While students may be admitted to the University as a Nursing Intent student (Major Code: INUR), admission to the BSN Second Degree program is not guaranteed. Admission to the BSN Second Degree program is highly competitive.

Admission Requirements:

Applicants are considered for selection into the BSN Program upon completion of the following pre-admission courses and submission of official transcripts from all other colleges and universities. TOEFL scores are required if English is a second language (to meet university requirement). It is the responsibility of the applicant to assure that all materials have been submitted to the School of Nursing by the application deadline date.

The following pre-requisite courses (or transfer equivalencies) are required for application to the BSN program:

- Course in Quantitative Reasoning (to meet university requirements) Click here for course options.
- CHEM 120 - Fundamentals of Organic and Biochemistry (GEKN) 4 hrs
- ENGL 121 - Composition II: Researching the Public Experience (GEEC) 3 hrs
- PSY 101 - General Psychology Lecture (GEKN) 3 hrs
- SOCL 105 - Introductory Sociology (GEKS) 3 hrs
  or
- ANTH 135 - Introduction to Cultural Anthropology (GEGA & GEKS) 3 hrs
- IHHS 260 - Aging to Infancy: A Life Course Retrospective 3 hrs
  or
- EDPS 325 - Life Span Human Growth and Development 4 hrs
- SPMD 201 - Human Anatomy for Sports Medicine 3 hrs
  and
- SPMD 202 - Human Physiology for Sports Medicine 3 hrs
  or
- BIO 251 - Human Anatomy and Physiology I 4 hrs
  and
- BIO 252 - Human Anatomy and Physiology II 4 hrs

Important Notes:

- A minimum cumulative GPA of 3.0 or better in the pre-requisite courses is required.
- Any transferred chemistry, anatomy, or physiology course must be a "B" grade or better and equivalent to EMU courses.
- Chemistry, anatomy or physiology courses older than 10 years are not accepted.
- If chemistry, anatomy or physiology courses are re-taken, the grades from the first two attempts only are used to calculate the GPA.
- ATI-TEAS may be re-taken only twice per calendar year.

Note: effective Fall 2015, students will not be required to earn a "B" grade or better in transferred chemistry anatomy, or physiology courses

Recommended:

NURS 110 - Introduction to Professional Nursing is recommended and does count toward points for admission to the program.
This course introduces the concepts of professional nursing practice and assists in preparing students for the rigor of the undergraduate BSN curriculum.

The University may give credit for nursing courses taken at another college of university; however, the School reserves the right to make the final decision on course substitution based on examination of course materials. Requirements may vary based on prior education. Students must speak with a pre-admission counselor in the CHHS Intent Advising Office (734.487.0918) for details on transfer equivalencies.

Application Process:

Admission to the BSN program is highly competitive. Prospective students should first attend a School of Nursing "Information Session for Nursing Intents to learn about the BSN program application process. The schedule of information sessions is available online at www.emich.edu/nursing under the events calendar.

After attending an information session, please contact the College of Health and Human Services Advising Office at 734.487.0918 prior to schedule an appointment for advising about the BSN program.

Applications for the BSN Program are due annually on May 15th by 5:00 pm in the School of Nursing office (311 Marshall). Applications are reviewed and students are notified in June about their acceptance into the BSN program. Students start classes in the following Fall semester. EMU School of Nursing does not maintain a waiting list. Students who are not admitted one year may apply subsequently, but will be ranked based on the applicant pool at that time.

Each application is carefully reviewed and assigned points based on the following criteria:

<table>
<thead>
<tr>
<th>Criteria</th>
<th>Maximum Possible Points</th>
</tr>
</thead>
<tbody>
<tr>
<td>Calculated Pre-Requisite GPA multiplied by 75</td>
<td>300</td>
</tr>
<tr>
<td>Calculated Science GPA multiplied by 25</td>
<td>100</td>
</tr>
<tr>
<td>EMU Points (2 points for each credit hour of the 8-pre-requisite courses taken at EMU)</td>
<td>58</td>
</tr>
<tr>
<td>ATI TEAS Scores (5 points possible per category)</td>
<td>20</td>
</tr>
<tr>
<td>6 Months or More of Health Care Work Experience</td>
<td>15</td>
</tr>
<tr>
<td>Math or English Waiver (ACT/SAT/CLEP) (3 points for each waiver awarded if granted)</td>
<td>(6)</td>
</tr>
<tr>
<td>Successful completion of NURS 110</td>
<td>7</td>
</tr>
<tr>
<td>Total Possible Points:</td>
<td>500</td>
</tr>
</tbody>
</table>

Following the point calculations, applicants are ranked from highest to lowest points. The top ranked students are then offered admission into the BSN program based on available space. In order to complete the admission to the BSN program, students must submit and successfully pass a criminal background check, physical examination, and drug screen. Failure to pass the criminal background check, physical examination, drug screen or completion of required paperwork may result in revocation of the admission offer.

Program Requirements:

Students should plan carefully for the demanding nature of the Nursing Program and the extensive clinical hours required. Students must earn a minimum of 124 credits at the 100-level or above. The program requires five to six semesters of study and
the School reserves the right to make changes in the curriculum as needed. To be eligible for graduation, the program (124 hours) must be completed within six calendar years from the date of enrollment in NURS 208. Eligibility to take the NCLEX exam (required to earn Registered Nurse licensure) is dependent upon graduation from the University with a B.S.N. degree. Specific program requirements (including failures within courses and dismissal from the program) are included in the BSN Student Handbook located on the EMU School of Nursing website.

Other Program Requirements:

Prior to taking the 300-level nursing courses, students must successfully complete:
DTC 203 - Nutrition for Health Professionals 3 hrs and either BIO 328 - Microbiology for Health Professions 3 hrs or CLSC 432 - Clinical Microbiology 3 hrs

Nursing courses must be taken in the sequence specified by the School of Nursing.

Clinical Learning Experience
Practical experience in nursing is provided through clinical learning experiences under the supervision of faculty in a variety of health care organizations, such as ambulatory care settings, acute care settings, medical centers, community hospitals, public schools, nursing homes, county public health agencies, and home health care agencies. Students are required to follow University and agency policies for professional appearance, compliance with agency policies, and purchase of necessary equipment to perform his/her role. Students are also expected to provide their own transportation to clinical agencies.

Academic and Professional Integrity
Students are expected to assume responsibility for their learning, to support the ethics and goals of the profession and to value honesty in the fulfillment of scholarly and professional endeavors. Students must abide by the University code of conduct. Students who violate the University code of conduct will be subject to appropriate disciplinary action.

The School of Nursing recognizes its responsibilities to the public and to the nursing profession. Students and faculty must promote academic and professional integrity and take action when a violation of such integrity occurs. The School reserves the right to retain only those students who, in the judgment of the faculty, satisfy the requirements of scholarship, clinical competence, and professional and personal integrity suitable for nursing.

General Education Requirements:

For specific requirements refer to the General Education Program.

Major Requirements: 60 hours

- NURS 208 - The Art and Science of Nursing I 2 hrs
- NURS 209 - The Art and Science of Nursing I Clinical 3 hrs
- NURS 220 - Health Assessment 2 hrs
- NURS 250 - The Art and Science of Nursing II 2 hrs
- NURS 251 - The Art and Science of Nursing II Laboratory 3 hrs
- NURS 260 - Pathophysiology 4 hrs
- NURS 304 - Nursing Care of Childbearing Families 2 hrs
- NURS 305 - Nursing Care of Childbearing Families Clinical 3 hrs
- NURS 306 - Child/Family Health Nursing 2 hrs
- NURS 307 - Child Family Health Nursing Laboratory 3 hrs
- NURS 330 - Adult Health Nursing I 2 hrs
- NURS 331 - Adult Health Nursing I Clinical 3 hrs
- NURS 350 - Psychiatric/Mental Health Nursing 2 hrs
- NURS 351 - Psychiatric/Mental Health Nursing Clinical 3 hrs
• NURS 372 - Nursing Research 2 hrs
• NURS 375W - Essentials of Professional Nursing Practice II (GEWI) 3 hrs
• NURS 404 - Adult Health Nursing II 2 hrs
• NURS 405 - Adult Health Nursing II Clinical 3 hrs
• NURS 450 - Community Health Nursing 2 hrs
• NURS 451 - Community Health Nursing Clinical 3 hrs
• NURS 475 - Essentials of Professional Nursing Practice III 3 hrs

Program Total:

Students must earn a minimum total of 124 credits at the 100-level or above.

Program Fee

Please see the Student Business Services website (www.emich.edu/sbs/programfeesoutline.php) for possible course & program fees associated with this program.

Nursing

NURS 110 - Introduction to Professional Nursing

This elective course identifies the nursing profession as an integral component in the health care arena. Students are introduced to this profession through seminar discussion and personal exploration.

Credit Hours: 2 hrs
Last Updated: 2/14/2011

NURS 177 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr

NURS 178 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs

NURS 179 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs
NURS 208 - The Art and Science of Nursing I

This introductory course examines professional nursing roles in health, health promotion, and illness prevention with a focus on the adult.

Credit Hours: 2 hrs  
Corequisites: NURS 209  
Major Restrictions: Nursing Majors only  
Last Updated: 2/14/2011

NURS 209 - The Art and Science of Nursing I Clinical

This course provides the laboratory and clinical practice for the beginning nursing student. In the clinical experience the student will apply concepts learned in NURS 208, NURS 220 and NURS 275 and apply the skills necessary to provide basic nursing care to adults.

Credit Hours: 3 hrs  
Corequisites: NURS 208  
Major Restrictions: Nursing Majors only  
Last Updated: 2/14/2011

NURS 220 - Health Assessment

This course will introduce how to obtain a patient history, and perform a health and physical examination across the lifespan. Emphasis will focus on interviewing patients, hands on physical assessment, documentation and developing appropriate nursing diagnoses.

Credit Hours: 2 hrs  
Corequisites: NURS 265 or NURS 275  
Last Updated: Change to Corequisite 12/2013, effective Summer 2014; 2/14/2011

NURS 250 - The Art and Science of Nursing II

The course continues exploration of professional nursing and the development of knowledge and skills foundational to nursing care of adults in health and illness. Emphasis is placed on the nursing care of adults in the context of family and culture.

Credit Hours: 2 hrs  
Prerequisite: NURS 208, NURS 209, NURS 220 and NURS 275  
Corequisites: NURS 251, NURS 260, NURS 270  
Major Restrictions: Nursing Majors only  
Last Updated: 2/14/2011

NURS 251 - The Art and Science of Nursing II Laboratory

The course focuses on providing nursing care to adults in various health and illness states in inpatient health care settings.

Credit Hours: 3 hrs  
Prerequisite: NURS 208, NURS 209, NURS 220 and NURS 275  
Corequisites: NURS 250, NURS 260 and NURS 270  
Major Restrictions: Nursing Majors only  
Last Updated: 2/14/2011
NURS 260 - Pathophysiology

The course will concentrate on how physiologic functions are modified by disease processes and stress. All major physiologic functions will be presented. Knowledge gained from this course will provide the student with rationale for clinical decision making and action in related nursing courses.

Credit Hours: 4 hrs
Prerequisite: NURS 208, NURS 209, NURS 220 and NURS 275
Corequisites: NURS 250, NURS 251 and NURS 270
Major Restrictions: Nursing Majors only
Last Updated: 2/14/2011

NURS 265 - R.N. Essentials of Professional Nursing Practice I

This is the first in a sequence of three courses. The course introduces the foundational elements of professional nursing as identified by the American Association of Colleges of Nursing.

Credit Hours: 3 hrs
Repeatable for Credit: No
Prerequisite: IHHS 200 with a B- or better
Corequisites: NURS 220
Class Restrictions: All undergraduates
Major Restrictions: Nursing Major - B.S.N. Completion
Equivalent Courses: NURS 275 - Essentials of Professional Nursing Practice I
Last Updated: New Course 12/2013, effective Summer 2014

NURS 270 - Pharmacology

The course focuses on the basic concepts of pharmacology. The role and responsibility of the nurse for safe, legal, ethical and therapeutic drug therapy are developed.

Credit Hours: 3 hrs
Prerequisite: NURS 208, NURS 209, NURS 220 and NURS 275
Corequisites: NURS 250, NURS 251 and NURS 260
Major Restrictions: Nursing Majors only
Last Updated: 2/14/2011

NURS 275 - Essentials of Professional Nursing Practice I

This is the first in a sequence of three courses. The course introduces the foundational elements of professional nursing as identified by the American Association of Colleges of Nursing.

Credit Hours: 3 hrs
Corequisites: NURS 220
Major Restrictions: Nursing Major - B.S.N. Second Degree and Nursing Major
Equivalent Courses: NURS 265 - R.N. Essentials of Professional Nursing Practice I
Last Updated: Change to Major Restriction 12/2013, effective Summer 2014; 2/14/2011

NURS 277 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.
Credit Hours: 1 hr  
Major Restrictions: Nursing Majors only

**NURS 278 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs  
Major Restrictions: Nursing Majors only

**NURS 279 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs  
Major Restrictions: Nursing Majors only

**NURS 304 - Nursing Care of Childbearing Families**

This course focuses on maternal-newborn nursing with a family centered approach. The course encompasses the entire childbearing process, from preconception planning through pregnancy, birth and the postpartum period.

Credit Hours: 2 hrs  
Prerequisite: NURS 208, NURS 209, NURS 220, NURS 250, NURS 251, NURS 260, NURS 270 and NURS 275  
Corequisites: NURS 305, NURS 306 and NURS 307  
Major Restrictions: Nursing Majors only  
Last Updated: 2/14/2011

**NURS 305 - Nursing Care of Childbearing Families Clinical**

This course focuses on family theory in the care of childbearing families. Clinical experiences will occur in prenatal clinics and intra-partum and postpartum settings.

Credit Hours: 3 hrs  
Prerequisite: NURS 208, NURS 209, NURS 220, NURS 250, NURS 251, NURS 260, NURS 270 and NURS 275  
Corequisites: NURS 304, NURS 306 and NURS 307  
Major Restrictions: Nursing Majors only  
Last Updated: 2/14/2011

**NURS 306 - Child/Family Health Nursing**

This course is designed to provide theoretical and practical knowledge in the nursing care of children and families in wellness and illness states. Health promotion, maintenance and restoration are stressed to promote physical, psychosocial, mental and spiritual wellness.

Credit Hours: 2 hrs  
Prerequisite: NURS 208, NURS 209, NURS 220, NURS 250, NURS 251, NURS 260, NURS 270 and NURS 275  
Corequisites: NURS 304, NURS 305 and NURS 307
NURS 307 - Child Family Health Nursing Laboratory

This course is designed to provide a variety of clinical experiences with healthy and ill children in acute care and community settings. These experiences are designed to facilitate sound clinical judgment and the development of leadership, collaboration, organization and management skills in pediatric clinical practice.

Credit Hours: 3 hrs
Prerequisite: NURS 208, NURS 209, NURS 220, NURS 250, NURS 251, NURS 260, NURS 270 and NURS 275
Corequisites: NURS 304, NURS 305 and NURS 306
Major Restrictions: Nursing Majors only
Last Updated: 2/14/2011

NURS 330 - Adult Health Nursing I

This course focuses on nursing care of adults and families with chronic illnesses and populations vulnerable to chronic illnesses. With a focus on critical thinking, the course emphasizes the application of nursing knowledge through teaching/learning, interdisciplinary collaboration, patient advocacy, and the coordination of care.

Credit Hours: 2 hrs
Prerequisite: NURS 208, NURS 209, NURS 220, NURS 250, NURS 251, NURS 260, NURS 270 and NURS 275
Corequisites: NURS 331, NURS 350 and NURS 351
Major Restrictions: Nursing Majors only
Last Updated: 2/14/2011

NURS 331 - Adult Health Nursing I Clinical

This clinical course focuses on caring for adults with chronic illnesses. The needs of adults and family members are addressed as students practice primarily in inpatient settings. Special focus is placed on patient teaching and evidence-based interventions.

Credit Hours: 3 hrs
Prerequisite: NURS 208, NURS 209, NURS 220, NURS 250, NURS 251, NURS 260, NURS 270 and NURS 275
Corequisites: NURS 330, NURS 350 and NURS 351
Major Restrictions: Nursing Majors only
Last Updated: 2/14/2011

NURS 350 - Psychiatric/Mental Health Nursing

This course is designed to provide a foundation in professional psychiatric mental health nursing. Emphasis is placed on gaining knowledge of preventive interventions appropriate for provision of evidence-based, holistic nursing care to emotionally and mentally ill patients across the lifespan.

Credit Hours: 2 hrs
Prerequisite: NURS 208, NURS 209, NURS 220, NURS 250, NURS 251, NURS 260, NURS 270 and NURS 275
Corequisites: NURS 330, NURS 331 and NURS 351
Major Restrictions: Nursing Majors only
Last Updated: 2/14/2011

NURS 351 - Psychiatric/Mental Health Nursing Clinical
This course focuses on student collaboration with patients, faculty, and health care professionals in public and private inpatient psychiatric hospitals. Students learn traditional and nontraditional treatment approaches; use the nursing process and evidence-based research to provide holistic, culturally competent direct care.

Credit Hours: 3 hrs  
Prerequisite: NURS 208, NURS 209, NURS 220, NURS 250, NURS 251, NURS 260, NURS 270 and NURS 275  
Corequisites: NURS 330, NURS 331 and NURS 350  
Major Restrictions: Nursing Majors only  
Last Updated: 2/14/2011

**NURS 365 - R.N. Essentials of Professional Nursing Practice II**

This second of a three-course sequence builds knowledge of essential elements of professional nursing. This course builds on the foundational elements of professional nursing as identified by the American Association of Colleges of Nursing.

Credit Hours: 3 hrs  
Repeatable for Credit: No  
Prerequisite: NURS 208, NURS 209, NURS 220, NURS 250, NURS 251, NURS 260,NURS 265, and NURS 270  
Major Restrictions: Nursing Major - B.S.N. Completion  
Equivalent Courses: NURS 375W  
Course Revisions: Effective Winter 2015, the following revision will be made to this course, 1) number change from "365" to "365W"  
Writing Intensive: Effective Winter 2015, this course is approved for Writing Intensive, students enrolled in the course during the Fall 2014 semester will receive Writing Intensive credit after successfully completing the course.  
Last Updated: Approved for GEWI 6/2014, effective Winter 2015; New Course 12/2013, effective Summer 2014

**NURS 369 - Essentials of Poster, Podium & APA Paper Presentations**

This course is designed to assist students in preparing a podium or poster presentation for professional presentation. This class will take the student from the point of writing an abstract, preparing an outline to formulating a podium or poster presentation for a variety of forums.

Credit Hours: 3 hrs  
Repeatable for Credit: No  
Last Updated: New Course 1/2013, effective Summer 2013

**NURS 371 - Issues in Men's Health**

Issue's in Men's Health focuses on health issues of men across the lifespan. Biological, sociocultural, and environmental influences on men's health will be explored. Emphasis will be placed on analyzing and developing health promotion and disease prevention strategies for men.

Credit Hours: 3 hrs  
Last Updated: New Course 2/2013, effective Summer 2013

**NURS 372 - Nursing Research**

This course will examine nursing research as it relates to nursing practice. Nursing research literature and the importance of evidence-based nursing practice will be examined. Ethical issues involved in nursing research, adequacy of existing research and application of nursing research will be explored.
**NURS 373 - Introduction to Healthcare Quality Improvement**

This course is designed to introduce the concepts of quality improvement in nursing care to students. General principles of quality improvement with exposure to several quality improvement models will be explored. Students will also be allowed to explore quality improvement initiatives within a healthcare facility.

*Credit Hours:* 2 hrs  
*Prerequisite:* NURS 208, NURS 209, NURS 220, NURS 250, NURS 251, NURS 260, NURS 270 and NURS 275  
*Major Restrictions:* Nursing Majors only  
*Last Updated:* 2/14/2011

**NURS 375W - Essentials of Professional Nursing Practice II (GEWI)**

This second of a three-course sequence builds knowledge of essential elements of professional nursing. This course builds on the foundational elements of professional nursing as identified by the American Association of Colleges of Nursing.

*Credit Hours:* 3 hrs  
*Prerequisite:* NURS 208, NURS 209, NURS 220, NURS 250, NURS 251, NURS 260, NURS 270 and NURS 275  
*Major Restrictions:* Nursing Major - B.S.N. Second Degree and Nursing Major  
*Writing Intensive:*  
*Last Updated:* Change in Major Restriction 12/2013, effective Summer 2014; Links 04/2011

**NURS 377 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

*Credit Hours:* 1 hr  
*Major Restrictions:* Nursing Majors only

**NURS 378 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

*Credit Hours:* 2 hrs  
*Major Restrictions:* Nursing Majors only

**NURS 379 - Special Topics**

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

*Credit Hours:* 3 hrs  
*Major Restrictions:* Nursing Majors only
**NURS 384 - Global Health Issues**

This course explores contemporary issues in global health. Topics include health care systems, measurement and indicators of health status, emerging health problems in different countries, comparisons between developed and developing countries, and bioethics in international health care. Students will broaden and deepen their understanding of issues of health care across the globe.

**Credit Hours:** 3 hrs  
**Last Updated:** 2/15/11; effective Spring 2011

**NURS 404 - Adult Health Nursing II**

This course focuses on the nursing care of adults and families experiencing acute, chronic, and multiple complex health problems. Critical thinking, pathophysiology, and nursing research will be emphasized in order to prepare the student for caring for this patient population.

**Credit Hours:** 2 hrs  
**Prerequisite:** NURS 304, NURS 305, NURS 306, NURS 307, NURS 330, NURS 331, NURS 350, NURS 351, NURS 372 and NURS 375W  
**Corequisites:** NURS 405  
**Major Restrictions:** Nursing Majors only  
**Last Updated:** 2/14/2011

**NURS 405 - Adult Health Nursing II Clinical**

This course will assist the student in applying and synthesizing the principles necessary for caring for adults with complex medical-surgical problems. The primary emphasis will be attainment of advanced clinical performance in adult health nursing applying clinical reasoning, critical thinking, and leadership skills.

**Credit Hours:** 3 hrs  
**Prerequisite:** NURS 304, NURS 305, NURS 306, NURS 307, NURS 330, NURS 331, NURS 350, NURS 351, NURS 372 and NURS 375W  
**Corequisites:** NURS 404  
**Major Restrictions:** Nursing Majors only  
**Last Updated:** 2/14/2011

**NURS 450 - Community Health Nursing**

This course applies the concepts and principles from nursing and public health sciences. Approaches to health concerns include levels of prevention, health promotion, injury prevention, interdisciplinary practice, case finding, case coordination, ethical decision-making, community referrals, and cultural practices.

**Credit Hours:** 2 hrs  
**Prerequisite:** NURS 304, NURS 305, NURS 306, NURS 307, NURS 330, NURS 331, NURS 350, NURS 351, NURS 372 and NURS 375W  
**Corequisites:** NURS 451  
**Major Restrictions:** Nursing Majors only  
**Last Updated:** 2/14/2011

**NURS 451 - Community Health Nursing Clinical**
This course applies community health nursing concepts to the care of individuals, families, groups and communities in selected clinical settings. Nursing care will include health promotion, disease and injury prevention to diverse groups of people across the lifespan.

**Credit Hours:** 3 hrs  
**Prerequisites:** NURS 304, NURS 305, NURS 306, NURS 307, NURS 330, NURS 331, NURS 350, NURS 351, NURS 372 and NURS 375W  
**Corequisites:** NURS 450  
**Major Restrictions:** Nursing Majors only  
**Last Updated:** 2/14/2011

**NURS 452 - Healthy Environments for Patient Care**

In this course students will acquire knowledge and skills to apply in the care of individuals, families, groups, and communities. Students will explore multiple determinants of health including internal, social, physical, and global. Students will examine interventions based on evidence related to selected environments of care.

**Credit Hours:** 3 hrs  
**Last Updated:** New Course 2/2013, effective Summer 2013

**NURS 465 - R.N. Essentials of Professional Nursing Practice III**

This third of a three-course sequence builds knowledge of essential elements of professional nursing as identified by the American Association of Colleges of Nursing.

**Credit Hours:** 3 hrs  
**Repeatable for Credit:** No  
**Prerequisites:** NURS 208, NURS 209, NURS 220, NURS 250, NURS 251, NURS 260, NURS 265, NURS 270, NURS 304, NURS 305, NURS 306, NURS 307, NURS 330, NURS 331, NURS 350, NURS 351, NURS 365, and NURS 372  
**Class Restrictions:** All Undergraduates  
**Major Restrictions:** Nursing Major - B.S.N. Completion  
**Equivalent Courses:** NURS 475 - Essentials of Professional Nursing Practice III  
**Last Updated:** New Course 12/2013, effective Summer 2014

**NURS 475 - Essentials of Professional Nursing Practice III**

This third of a three-course sequence builds knowledge of essential elements of professional nursing as identified by the American Association of Colleges of Nursing (AACN).

**Credit Hours:** 3 hrs  
**Prerequisites:** NURS 304, NURS 305, NURS 306, NURS 307, NURS 330, NURS 331, NURS 350, NURS 351, NURS 372 and NURS 375W  
**Major Restrictions:** Nursing Major - B.S.N. Second Degree and Nursing Major  
**Last Updated:** Change to Major Restriction 12/2013, effective Summer 2014; 2/14/2011

**NURS 477 - Special Topics**

Experimental courses or special topics in nursing may be offered.

**Credit Hours:** 1 hr  
**Prerequisites:** NURS 304, NURS 305, NURS 306, NURS 307, NURS 330, NURS 331, NURS 350, NURS 351, NURS 372 and NURS 375W
NURS 478 - Special Topics

Experimental courses or special topics in nursing may be offered.

Credit Hours: 2 hrs
Prerequisite: NURS 304, NURS 305, NURS 306, NURS 307, NURS 330, NURS 331, NURS 350, NURS 351, NURS 372 and NURS 375W
Major Restrictions: Nursing Majors only
Last Updated: Links 04/2011

NURS 479 - Special Topics

Experimental courses or special topics in nursing may be offered.

Credit Hours: 3 hrs
Prerequisite: NURS 304, NURS 305, NURS 306, NURS 307, NURS 330, NURS 331, NURS 350, NURS 351, NURS 372 and NURS 375W
Major Restrictions: Nursing Majors only
Last Updated: Links 04/2011

NURS 480 - Evidence Based Practice in Health Care

This course explores the critical thinking and actions of evidence-based practice in nursing. Various means to access, evaluate and use evidence in nursing and health care are practiced. In addition to class discussions, students participate in web-based learning activities, independently exploring evidence-based guidelines in their areas of choice.

Credit Hours: 3 hrs

NURS 482 - Management of Health Care Delivery: Disasters & Bioterrorism

This foundational course is an examination of issues in natural and man-made disasters and bio terror events that impact the delivery of health care at local, state and national levels and the strategies necessary for preparedness, mitigation, response and evaluation in community environments. The course is designed to meet the knowledge needs and care preformed by pre-professional and professional health care providers; the lay public is also invited to join the course.

Credit Hours: 3 hrs
Cross-Listed with: IHHS 482
Last Updated: Links 04/2011

NURS 497 - Independent Study

A student may work with a faculty member independently to pursue a topic of interest to the student. Independent study is a student-initiated project.

Credit Hours: 1 hr
Major Restrictions: Nursing Majors only

NURS 498 - Independent Study
A student may work with a faculty member independently to pursue a topic of interest to the student. Independent study is a student-initiated project.

Credit Hours: 2 hrs
Major Restrictions: Nursing Majors only

NURS 499 - Independent Study

A student may work with a faculty member independently to pursue a topic of interest to the student. Independent study is a student-initiated project.

Credit Hours: 3 hrs
Major Restrictions: Nursing Majors only
School of Social Work Programs and Courses

School of Social Work

Major

Social Work Major

The Social Work Major leads to a bachelor of social work (BSW) and requires the following courses to complete the 124 hours needed for graduation. No outside minor is required.

An active articulation agreement exists between this program and several community colleges. To see a complete list of current colleges with program articulation agreements with EMU, please click here.

Admission Requirements

In addition to completing the University's General Education requirements, social work students complete a series of seven specific liberal arts courses in a variety of related disciplines (listed below as Liberal Arts Requirements) in order to build a foundation for their social work studies. Social work intent students also complete four pre-major social work courses (listed below as Required Courses: Pre-Major) prior to being admitted to the Major.

Admission requirements are as follows:

1. Students must complete a Social Work Admissions application. These are distributed in SWRK 251.
2. Students must earn a grade of C or higher in the following pre-major social work classes (again, listed below as Required Courses: Pre-Major):
   1. SWRK 120 - Introduction to Social Work Services and Professional Roles (Ideally, this course should be taken either concurrently with or prior to the other pre-major courses)
   2. SWRK 200 - Human Diversity and Social Justice
   3. SWRK 222 - Social Welfare Policies and Services
   4. SWRK 251 - Self-Assessment For the Profession of Social Work (Ideally, this course should be taken concurrently with or after the other pre-major courses)
3. Students must complete a reflective essay in SWRK 251. The essay is designed to assist students in assessing their own "goodness of fit" with the values and ethics of the School of Social Work and the social work profession.
4. Students must earn a cumulative GPA of 2.3 or higher at the time of admission into the BSW program.
5. Students must complete forty (40) hours of volunteer service, internship experience, or employment within a human service setting.

General Education Requirements:

For specific requirements refer to the General Education Program.

Liberal Arts Requirements: 27-30 hours

- ANTH 135 - Introduction to Cultural Anthropology (GEGA & GEKS) 3 hrs
- BIO 105 - Introductory Biology for Non-majors (GEKN) 4 hrs
  or a 3 credit hour course in Human Biology
- PLSC 112 - American Government (GEKS) 3 hrs
- PSY 101 - General Psychology Lecture (GEKN) 3 hrs
  or PSY 101 and PSY 103 (lecture and lab) for 4 credit hours.
- PSY 360 - Abnormal Psychology 3 hrs
- SOCL 105 - Introductory Sociology (GEKS) 3 hrs

One course from the following:

- EDPS 325 - Life Span Human Growth and Development 4 hrs
- IHHS 260 - Aging to Infancy: A Life Course Retrospective 3 hrs

Restricted Elective Courses: 6 hours

Students are required to take six credits in cross-cultural related courses. Completion of both sections of General Education Area III (with the exception of ANTH 135) will meet this requirement. Other courses outside of Area III may also count towards this requirement with departmental permission.

Major Requirements: 57 hours
Required Courses: Pre-Major: 10 hours

- SWRK 120 - Introduction to Social Work Services and Professional Roles 3 hrs
- SWRK 200 - Human Diversity and Social Justice 3 hrs
- SWRK 222 - Social Welfare Policies and Services 3 hrs
- SWRK 251 - Self-Assessment For the Profession of Social Work 1 hr

Required Course: Major: 44 hours

- SWRK 315 - Theoretical Bases for Social Work Practice 3 hrs
- SWRK 317 - Foundations of Social Work Practice 3 hrs
- SWRK 318 - Practice I - Skill Integration Seminar 1 hr
- SWRK 319W - Writing for Agency Practice (GEWI) 3 hrs
- SWRK 350L - Generalist Social Work Practice: Organizations and Communities (GELB) 3 hrs
- SWRK 405 - Analysis and Change of Social Welfare Policies 3 hrs
- SWRK 408 - Generalist Social Work Practice with Individuals and Families 3 hrs
- SWRK 409 - Generalist Social Work Practice with Groups 3 hrs
- SWRK 430 - Social Work Evaluation and Research: Qualitative and Statistical Methods 4 hrs
- SWRK 450 - Social Work Practice with Women and Girls 3 hrs
- SWRK 451 - Social Work Practice with People of Color 3 hrs
- SWRK 488 - Field Experience I 6 hrs
- SWRK 489 - Field Experience II 6 hrs

Social Work Elective: 3 hours

Minor Requirements:

This program does not require a minor.

Program Total:

Students must earn a minimum total of 124 credits at the 100-level or above.

Critical Graduation Information:

Each undergraduate student will be responsible for the fulfillment of the requirements or their equivalents of the Eastern Michigan University catalog in force at the time of their initial registration at a college or university or a subsequent catalog including the one in effect at the time of their graduation.

In the event an undergraduate student does not complete the degree requirements within seven years of the date of their original registration at a college or university, the student may be required to have their credits re-evaluated by the academic department(s) of their major/minor in keeping with catalog requirements in force during the year of their graduation.

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.
• Earn a minimum total of 124 credits at the 100-level and above. Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.
• Meet the requirements of the General Education program (see information below).
• Complete a Writing Intensive (WI) Course in your major.
• Earn a minimum of 60 credits from a four-year college or university; courses taken at community colleges cannot be used to meet this requirement. (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
• Earn a minimum of 30 credits from courses taken at EMU.
• Complete 10 of the last 30 hours for the degree from courses taken at EMU.
• Have a minimum of 30 unique credit hours in their major and 20 unique credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
• Earn no more than 60 credit hours in one subject area (prefix). Credits in excess of the 60 maximum will not be counted toward the minimum of 124 credits required for a bachelor's degree.
• Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more that one major or minor.
  o Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
  o Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
  o Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor
• Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is conducted by individual departments/schools within EMU, and additional documentation may be required. Please note: EMU awards only credit for transferred courses; grades are not used in the calculation of an EMU GPA.
• Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be reached in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

General Education Requirements:

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available in the General Education section of the catalog: General Education

Students who transferred to EMU may have modified general education requirements based on Michigan Transfer Agreement (MTA) or articulation agreements; consult your academic advisor for additional information.

University Information: Consult the online catalog at catalog.emich.edu.

Minor

Social Work Minor

This minor is compatible with disciplines where the college graduate will be in a helping role with people.

- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more that one major or minor.
  - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
  - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
  - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor
- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is conducted by individual departments/schools within EMU, and additional documentation may be required. Please note: EMU awards only credit for transferred courses; grades are not used in the calculation of an EMU GPA.
- Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be reached in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

General Education Requirements:

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available in the General Education section of the catalog: General Education

Students who transferred to EMU may have modified general education requirements based on Michigan Transfer Agreement (MTA) or articulation agreements; consult your academic advisor for additional information.

University Information: Consult the online catalog at catalog.emich.edu.
Social Work

SWRK 120 - Introduction to Social Work Services and Professional Roles

This course provides students with an overview and an analysis of the social work profession including social work concepts, practice, and the various roles a social worker plays in the field. A comparison of practice in a variety of social work settings with particular target populations is provided.

Credit Hours: 3 hrs
Notes: Concurrent registration in SWRK 222/251 is permitted, but not required.
Last Updated: Description Change 10/2013, effective Winter 2014

SWRK 177 - Special Topics

Specialized topics integral to contemporary social work practice. Social work faculty members will select contemporary topics that are different from existing social work courses. Since topics change, a student may take the course more than once.

Credit Hours: 1 hr

SWRK 178 - Special Topics

Specialized topics integral to contemporary social work practice. Social work faculty members will select contemporary topics that are different from existing social work courses. Since topics change, a student may take the course more than once.

Credit Hours: 2 hrs

SWRK 179 - Special Topics

Specialized topics integral to contemporary social work practice. Social work faculty members will select contemporary topics that are different from existing social work courses. Since topics change, a student may take the course more than once.

Credit Hours: 3 hrs

SWRK 200 - Human Diversity and Social Justice

This introductory course in human diversity provides students with a framework for understanding race, class, and gender, along with ethnicity, sexual orientation, and privilege. Students are taught to develop critical thinking skills, engage in culturally sensitive practice, and advocate for social justice.

Credit Hours: 3 hrs
Last Updated: Course Description Change 10/2013, effective Winter 2014

SWRK 222 - Social Welfare Policies and Services

The purpose of this course is to help students understand what values and beliefs underlie social welfare policy, and how it impacts our lives. The course is designed to be theoretical and practical.

Credit Hours: 3 hrs
Notes: Concurrent registration in SWRK 120 and SWRK 251 is permitted, but not required.
SWRK 251 - Self-Assessment For the Profession of Social Work

This course is designed to help students to engage in self-assessment regarding their personal preparation for the social work profession. Exercises will help students define their own values with respect to the NASW Code of Ethics. Opportunities will be provided for developing skills to successfully engage in a professional social work educational program.

Credit Hours: 1 hr
Prerequisite: SWRK 222
Concurrent Prerequisite: SWRK 120, SWRK 200 and SWRK 222
Major Restrictions: Social Work Intent students only
Previously Listed As: Self Assessment and Development for Social Work
Last Updated: Course Description and Title Change 10/2013, effective Winter 2014; Prerequisite, Concurrent Prerequisite and Major Restriction Change 09/2012, effective Winter 2013; Links 03/2011

SWRK 254 - The Social Work Profession and Social Service Policies

This course is an overview of the development of the social work profession distinguishing features, including social work values and ethics, and the historical development of social welfare policies and programs. In addition, students will learn about social work roles and settings. This course is designed for students who intend to be social work majors. It is not open to students who have already completed SWRK 120 and/or SWRK 222.

Credit Hours: 4 hrs
Concurrent Prerequisite: SWRK 251
Last Updated: Fall 1994

SWRK 277 - Special Topics

Specialized topics integral to contemporary social work practice. Social work faculty members will select contemporary topics that are different from existing social work courses. Since topics change, a student may take the course more than once.

Credit Hours: 1 hr
Prerequisite: Department permission
Last Updated: Links 03/2011

SWRK 278 - Special Topics

Specialized topics integral to contemporary social work practice. Social work faculty members will select contemporary topics that are different from existing social work courses. Since topics change, a student may take the course more than once.

Credit Hours: 2 hrs
Prerequisite: Department permission
Last Updated: Links 03/2011

SWRK 279 - Special Topics

Specialized topics integral to contemporary social work practice. Social work faculty members will select contemporary topics that are different from existing social work courses. Since topics change, a student may take the course more than once.
SWRK 287 - Cooperative Education in Social Work

Employment for pay in a work setting chosen to provide practical experience related to social work. The cooperative education sequence is alternating with full-time attendance at the University. Students who wish to substitute a cooperative education course for the practicum component of SWRK 388 must enroll in SWRK 388 concurrently with one of the cooperative courses. Cooperative education does not substitute for the field placement courses required of all social work majors.

Credit Hours: 3 hrs
Prerequisite: Department permission
Last Updated: Links 03/2011

SWRK 315 - Theoretical Bases for Social Work Practice

This course critically examines and integrates theoretical concepts, examines the fit between people and their environments and includes assessment of differential opportunities and resources available for different groups of people. The course helps students selectively critique social work and psychological theories to assess functioning of various size systems and select form contrasting theories of human behavior in terms of their relevance to oppressed and vulnerable populations.

Credit Hours: 3 hrs
Concurrent Prerequisite: EDPS 325 or IHHS 260; BIO 105; ANTH 135; PSY 101; SOCL 105; PSY 360
Major Restrictions: Social Work Majors only
Last Updated: Course Description Change 10/2013, effective Winter 2014; Links 03/2011; Prerequisite/Co-requisite Change 06/2011, effective Fall 2011

SWRK 317 - Foundations of Social Work Practice

This course prepares students for field experience developing the core interpersonal competencies underlying generalist practice. Students are oriented to practice roles learning how to competently develop and use a helping relationship as part of planned change. This course must successfully completed with a related section of SWRK 318

Credit Hours: 3 hrs
Concurrent Prerequisite: SWRK 315
Corequisites: SWRK 318
Major Restrictions: Social Work Majors only
Last Updated: Course Description Change 10/2013, effective Winter 2014; 01/2007, effective Spring 2007; Credit Hour/Corequisite/Concurrent Prerequisite Change 06/2011, effective Fall 2011

SWRK 318 - Practice I - Skill Integration Seminar

This seminar is a co-requisite of SWRK 317 in which students practice and receive feedback on their interpersonal competencies needed to engage in generalist practice. This course must be successfully completed with a related section of SWRK 317.

Credit Hours: 1 hr
Concurrent Prerequisite: SWRK 315
Corequisites: SWRK 317
Class Restrictions: Sophomore
Major Restrictions: Social Work Majors only
**SWRK 319W - Writing for Agency Practice (GEWI)**

This is a writing intensive course, preparing students for the professional writing components of professional, agency-based practice while developing professional writing skills focused on a simulated client situation.

**Credit Hours:** 3 hrs  
**Concurrent Prerequisite:** SWRK 315  
**Class Restrictions:** Sophomore, Junior, Senior  
**Major Restrictions:** Social Work Major only  

**Writing Intensive:**
Social work practice requires that record-keeping be accountable, efficient, and that it protect the client's privacy. Good records are concise, specific, relevant, clear, logical, timely, meaningful, and useful. Records are grounded in fact, professional ethics, and accepted theory. Above all, high quality records are well organized and well written. This Writing Intensive course is based on the philosophy that the most effective way to improve student social work record-keeping skills is to practice writing actual social work records. To this end, the course will be modeled after a writing lab, where each week students will be working on a particular social work record-keeping document, such as an Intake Form, Social History, Plan of Care, Case Notes, Advocacy Letter, and using a simulated case this is the focus of the Social Work practice course SWRK 317 in which students are concurrently enrolled.

**Last Updated:** Course Description Change 10/2013, effective Winter 2014; 12/2007, effective Winter 2008; Co-requisite and Concurrent Prerequisite Change 06/2011, effective Fall 2011

---

**SWRK 350L - Generalist Social Work Practice: Organizations and Communities (GELB)**

Supported by a service-learning experiential component, students develop a range of macro practice assessment and intervention skills that promote improvements in social service organization, social welfare systems and communities.

**Credit Hours:** 3 hrs  
**Concurrent Prerequisite:** SWRK 315, SWRK 317 and SWRK 318  
**Class Restrictions:** Junior or Senior standing only  
**Major Restrictions:** Social Work Majors only  

**Notes:** Academic Service Learning Course (Winter 2015, CRN: 23006, 23007, 26135, 24546).  
**Previously Listed As:** SWRK 388 and SWRK 410

**Learning Beyond the Classroom:**
Students in this course learn skills that enable them to promote improvements in social service organizations, social welfare systems, and communities for the purpose of empowerment, social and economic justice, and social change. They do this by working in groups to participate in activities that serve and enhance the community. Each student contributes at least 40 hours of such service. Through these experiences, students develop leadership, acquire skills in working collaboratively with others, prepare themselves for their careers, and broaden their understanding and empathy for others in the community.

**Last Updated:** Course Note 12/2014; Course Description change 10/2013, effective Winter 2014; 02/2008, effective Winter 2008; Prerequisite and Concurrent Prerequisite Change 06/2011, effective Fall 2011

---

**SWRK 375 - Working with Youth in Care**

Students explore the effects of child abuse and placement on adolescent development and necessary worker skill adaptations. The course sensitizes students to the unique needs of older youth in foster care/group living and explores strength-based/youth development approaches to service. Skills needed for social work and residential practice are developed.

**Credit Hours:** 3 hrs
**SWRK 377 - Special Topics**

Specialized topics integral to contemporary social work practice. Social work faculty members will select contemporary topics that are different from existing social work courses. Since topics change, a student may take the course more than once.

**Credit Hours:** 1 hr  
**Prerequisite:** Department permission  
**Last Updated:** Links 03/2011

**SWRK 387 - Cooperative Education in Social Work**

Employment for pay in a work setting chosen to provide practical experience related to social work. The cooperative education sequence is alternating with full-time attendance at the University. Students who wish to substitute a cooperative education course for the practicum component of SWRK 388 must enroll in SWRK 388 concurrently with one of the cooperative courses. Cooperative education does not substitute for the field placement courses required of all social work majors.

**Credit Hours:** 3 hrs  
**Prerequisite:** SWRK 120, approval of the Cooperative Education Office and department permission  
**Class Restrictions:** Sophomore standing  
**Last Updated:** Links 03/2011

**SWRK 405 - Analysis and Change of Social Welfare Policies**

This course focuses on current social policy practice and it's intended and unintended effects on client populations. Students will attain beginning-level competency in the analysis and methods for policy change.

**Credit Hours:** 3 hrs  
**Prerequisite:** PLSC 112, SWRK 315, SWRK 317, SWRK 318 and SWRK 319W  
**Major Restrictions:** Social Work Majors only  
**Last Updated:** Change to Course Description 10/2013, effective Winter 2014; 04/2009; effective Fall 2010

**SWRK 408 - Generalist Social Work Practice with Individuals and Families**

This course expands the student's application of generalist social work practice with individuals and families building on critical theories. This course engages students in the application of models of assessment and phases of planned sequential change process.

**Credit Hours:** 3 hrs  
**Prerequisite:** SWRK 315, SWRK 317, SWRK 318 and SWRK 319W  
**Concurrent Prerequisite:** SWRK 350L  
**Major Restrictions:** Social Work Majors only  
**Last Updated:** Course Description change 10/2013, effective Winter 2014; 12/2009, effective Spring 2009; Prerequisite and Concurrent Prerequisite Change 06/2011, effective Fall 2011

**SWRK 409 - Generalist Social Work Practice with Groups**

This course explores generalist practice with groups. Students will learn about different types of groups that exist and the populations involved with these groups. Students will identify group dynamics and stages of group development. Students will learn and practice group facilitation and intervention skills necessary to work effectively with groups.

**Credit Hours:** 3 hrs
Prerequisite: SWRK 315, SWRK 317, SWRK 318 and SWRK 319W
Concurrent Prerequisite: SWRK 350L
Major Restrictions: Social Work Majors only

Last Updated: Change to Course Description 10/2013, effective Winter 2014; 01/2009, effective Spring 2009; Prerequisite and Concurrent Prerequisite Change 06/2011, effective Fall 2011

SWRK 413 - Women and Aging

Designed to provide social work, women’s studies, and gerontology students with the skills and sensitivity to understand the issues, needs and positive attributes of women as they grow older. Students will examine the lives of women in special groups, such as older minority women, caregivers, widows and institutionalized elderly women. Students will learn skills to provide effective services to older women in a variety of human service settings.

Credit Hours: 3 hrs
Major Restrictions: Social Work Majors and Minors only or department permission
Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.
Cross-Listed with: WGST 413
Last Updated: Graduate Credit 07/2011; Links 03/2011

SWRK 420 - Working with Aging People

The role of social worker with aged people. The delivery of social services to the aged with a focus on practice approaches and techniques unique to various social service settings.

Credit Hours: 3 hrs
Major Restrictions: Social Work Majors and Minors only or department permission
Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.
Last Updated: Graduate Credit 07/2011

SWRK 430 - Social Work Evaluation and Research: Qualitative and Statistical Methods

Introduces knowledge and develops skills in research and practice evaluation from a social work empowerment perspective that is sensitive to diversity and social justice. Students will develop competencies in evaluation and practice application of professional literature, research skills and methodologies, assessment and in utilizing technologies through a laboratory experience.

Credit Hours: 4 hrs
Class Restrictions: Junior or Senior standing only
Major Restrictions: Social Work Majors only
Last Updated: Change to Course Description and Method of Delivery 10/2013, effective Winter 2014; Course Number 06/2011, effective Fall 2011

SWRK 431 - Substance Abuse

Current approaches to the prevention and treatment of drug and alcohol abuse. Consideration of the physiological, psychological and social impact of substance abuse on the individual, the family, and the community. The role of the social worker in prevention and treatment.

Credit Hours: 3 hrs
Major Restrictions: Social Work Majors and Minors only or department permission
Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.
Last Updated: Graduate Credit 07/2011
SWRK 435 - Group Work with Children and Families

Social group work theory and practice as a relevant way to work with children and families. Group process as it occurs in natural groups and the effect of this process on individual behavior. Techniques that can be built into the group to effect client change.

Credit Hours: 3 hrs
Major Restrictions: Social Work Majors and Minors only or department permission
Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.
Last Updated: Graduate Credit 07/2011

SWRK 440 - Issues in Mental Health Practice

Issues in mental health practice with emphasis on deinstitutionalization, community mental health and the role of the entry-level social worker.

Credit Hours: 3 hrs
Major Restrictions: Social Work Majors and Minors only or department permission

SWRK 443 - Assessment Issues in Domestic Violence

This course will explore violence in the home, focusing primarily on spouse or partner abuse and touching on elder abuse, sexual abuse and child abuse and neglect. Students will learn how to make domestic violence social work assessments.

Credit Hours: 3 hrs
Major Restrictions: Social Work Majors and Minors only or department permission

SWRK 450 - Social Work Practice with Women and Girls

This course provides critical examination of practice issues with women and girls. It examines social policies that affect this diverse population. It explores and develops intervention strategies that give voice to their strengths and address their unique needs.

Credit Hours: 3 hrs
Prerequisite: SWRK 315, SWRK 317, SWRK 318, SWRK 319W and SWRK 350L
Concurrent Prerequisite: SWRK 408 and SWRK 409
Major Restrictions: Social Work Majors only
Previously Listed As: Practice Issues with Women
Last Updated: Change to Title and Course Description 10/2013, effective Winter 2014; 01/2007, effective Spring 2007; Prerequisite and Concurrent Prerequisite Changes 06/2011, effective Fall 2011

SWRK 451 - Social Work Practice with People of Color

This course prepares students for culturally competent generalist practice with people of color. The course helps students apply culturally appropriate knowledge, skills, and values in their work with clients. Special attention is given to pressing regional concerns impacting clients of color and describes ways students can become active change agents as they strive to respond to the needs of agency clients.

Credit Hours: 3 hrs
Prerequisite: SWRK 315, SWRK 317, SWRK 318, SWRK 319W and SWRK 350L
Concurrent Prerequisite: SWRK 408 and SWRK 409
Major Restrictions: Social Work Major only
SWRK 457 - Separation, Loss and Grief

Separation, loss and grief as integral aspects of the human experience. Practice issues and applications addressing the impact of loss, separation and grief on client and societal systems.

Credit Hours: 1 hr
Major Restrictions: Social Work Majors and Minors only or department permission

SWRK 460 - The Law and Social Work with the Family

Social workers and lawyers frequently find themselves working together dealing with issues and problems involving individuals and families, such as in cases of divorce, child abuse and neglect, child custody, delinquency and mental health. Legal and social work perspectives in terms of client rights, needs and professional goals. Social work practice in the family court arena.

Credit Hours: 3 hrs
Major Restrictions: Social Work Majors and Minors only or department permission
Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.
Last Updated: Graduate Credit 07/2011

SWRK 462 - Practice with Lesbian, Gay, Bisexual and Transgender Persons

This course exposes students to a wide array of life experiences of lesbian, gay, bi-attractive and transgender persons by listening to their own words — spoken, written, on film and through personal interviews. It develops a deeper contextual knowledge and understanding of life courses taken by sexual minorities.

Credit Hours: 3 hrs
Cross-Listed with: WGST 462
Last Updated: Links 03/2011

SWRK 463 - Social Work Practice with Legal Offenders

Professional roles and appropriate practice skills utilized by social workers and allied professionals in working with legal offenders.

Credit Hours: 3 hrs
Major Restrictions: Social Work Majors and Minors only or department permission
Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.
Last Updated: Graduate Credit 07/2011

SWRK 467 - Crisis Intervention

Systems in crisis including different types of crises, indications of a system in crisis and crisis intervention strategies.

Credit Hours: 2 hrs
Major Restrictions: Social Work Majors and Minors only or department permission

SWRK 477 - Special Topics
Specialized topics integral to contemporary social work practice. Social work faculty members will select contemporary topics that are different from existing social work courses. Since topics change, a student may take the course more than once.

**Credit Hours:** 1 hr  
**Prerequisite:** (SWRK 120 and SWRK 222) or SWRK 251 and SWRK 254 or Department permission  
**Last Updated:** Links 03/2011

**SWRK 478 - Special Topics**

Specialized topics integral to contemporary social work practice. Social work faculty members will select contemporary topics that are different from existing social work courses. Since topics change, a student may take the course more than once.

**Credit Hours:** 2 hrs  
**Prerequisite:** (SWRK 120 and SWRK 222) or SWRK 251 and SWRK 254 or Department permission  
**Last Updated:** Links 03/2011

**SWRK 479 - Special Topics**

Specialized topics integral to contemporary social work practice. Social work faculty members will select contemporary topics that are different from existing social work courses. Since topics change, a student may take the course more than once.

**Credit Hours:** 3 hrs  
**Prerequisite:** (SWRK 120 and SWRK 222) or SWRK 251 and SWRK 254 or Department permission  
**Last Updated:** Links 03/2011

**SWRK 488 - Field Experience I**

Field experience is designed to culminate the undergraduate social work student's experience. Through field placement and seminar, students will integrate academic theoretical knowledge into everyday social work practice. Students will use personal evaluation and professional supervision to analyze and enhance their motivation, knowledge, skills and aptitude for social work practice.

**Credit Hours:** 6 hrs  
**Prerequisite:** SWRK 350L and department permission  
**Major Restrictions:** Social Work Majors only  
**Last Updated:** Change to Course Description 10/2013, effective Winter 2014; Links 03/2011

**SWRK 489 - Field Experience II**

Field experience is designed to culminate the undergraduate social work student's experience. Through field placement and seminar, students will integrate academic theoretical knowledge into everyday social work practice. Students will use personal evaluation and professional supervision to analyze and enhance their motivation, knowledge, skills and aptitude for social work practice.

**Credit Hours:** 6 hrs  
**Prerequisite:** A student must receive a C or better in SWRK 488, have an overall GPA of 2.3 or better in social work courses, not be on academic probation and have Department permission.  
**Corequisites:** SWRK 488  
**Major Restrictions:** Social Work Majors only  
**Notes:** Concurrent registration in SWRK 405, SWRK 408, SWRK 409, SWRK 410, SWRK 430, SWRK 452, and SWRK 460 is permitted, but not required.  
**Last Updated:** Change to Course Description 10/2013, effective Winter 2014; Links 03/2011
SWRK 490 - Senior Thesis Seminar

This is the capstone course for students completing the honors program in social work. A senior thesis or project is completed in consultation with the faculty member.

Credit Hours: 3 hrs
Prerequisite: Member of Honors College
Major Restrictions: Social Work Majors only
Pre-Professional Studies

Pre-Architecture Program

This program is designed for students who wish to transfer to an architecture program at another university. Students are strongly advised to consult with an advisor as soon as possible to select courses and to review admission requirements to architectural school. Typically, a student will transfer to an architectural school after a maximum of two years. Department advisors at EMU maintain contact with universities that offer related four-year programs in order to maximize the value of the transfer program of study at the University to other universities. Students planning to transfer to four-year programs should not complete EMU’s general education requirements.

Required Courses: 58 hours

- ARTS 123 - Foundations Drawing I 3 hrs
- ARTS 122 - Three-Dimensional Design 3 hrs
- CHEM 117 - Fundamentals of Chemistry-Lecture (GEKN) 3 hrs
- CHEM 118 - Fundamentals of Chemistry Laboratory (GEKN) 1 hr
- COSC 111 - Introduction to Programming 3 hrs
- CTAC 124 - Foundations of Speech Communication (GEEC) 3 hrs
- ECON 201 - Principles of Macroeconomics (GEKS) 3 hrs
- ECON 202 - Principles of Microeconomics (GEKS) 3 hrs
- ENGL 121 - Composition II: Researching the Public Experience (GEEC) 3 hrs
- HIST 123 - The United States to 1877 (GEKS) 3 hrs
- MATH 120 - Calculus I (GEQR) 4 hrs
- MATH 121 - Calculus II 4 hrs
- PHIL 130 - Introduction to Logic 3 hrs
- PHY 223 - Mechanics and Sound (GEKN) 5 hrs
- PHY 224 - Electricity and Light 5 hrs

One course from the following:
- PLSC 112 - American Government (GEKS) 3 hrs
- PLSC 113 - American Government Honors (GEKS) 3 hrs

- Two Literature courses: 6 hours

Recommended Courses (course may not transfer): 2 hours

- CNST 125 - Introduction to Construction 3 hrs
Pre-Dentistry

Most students select either a chemistry major and biology minor or a biology major and chemistry minor as preparation for admission to dental school. The exact requirements for a particular dental school can be found in the publication Admission Requirements of U.S. and Canadian Dental Schools, available in the office of the predentistry advisor.

The majority of pre-dental students complete four years of undergraduate work, earning a B.S. degree. Since admission to dental school is very competitive, it is recommended that alternative career plans be a part of every pre-dental student’s program.

Students seeking admission to dental school take the Dental Aptitude Test, usually late in the junior year or early in the senior year. Application is generally made between August and December for the class beginning the following fall. Virtually all dental schools require the use of a central agency, the American Association of Dental Schools Application Service, when applying for admission.

Science courses required for admission into most dental schools are listed below. Careful scheduling will allow the student to complete these courses in three years.

Advisor Information:

Program Advisor: Gregg Wilmes
Phone: 734.487.0106
Email: gwilmes@emich.edu

Required Courses: 34 hours

*see note

- BIO 110 - Introductory Biology I (GEKN) 5 hrs
- BIO 120 - Introductory Biology II 5 hrs
- CHEM 121 - General Chemistry I (GEKN) 3 hrs
- CHEM 122 - General Chemistry I Laboratory (GEKN) 1 hr
- CHEM 123 - General Chemistry II 3 hrs
- CHEM 124 - General Chemistry II Laboratory 1 hr
- CHEM 371 - Organic Chemistry I 3 hrs
- CHEM 372 - Organic Chemistry II 3 hrs
- CHEM 373 - Organic Chemistry Laboratory 2 hrs
- PHY 221 - Mechanics, Sound and Heat (GEKN) 4 hrs
- PHY 222 - Electricity and Light 4 hrs

Notes:

Introductory courses in histology or human physiology, biochemistry and microbiology are recommended. One year of English composition/literature. On course in sociology, psychology or anthropology.

Dental Hygiene and Dental Assisting
Eastern Michigan University offers no degrees or certificates in these areas. Two-year certificates and four-year degree programs are available at the University of Michigan, Ferris State University and the University of Detroit-Mercy. Two-year programs also are available at numerous community colleges.

Students interested in these programs should plan on transferring after completing their freshman year at EMU. Liberal arts preparation in English composition, speech, chemistry (CHEM 117/118 Fundamentals of Chemistry with lab), psychology, sociology and political science, plus electives in social science, natural science and humanities, generally will be transferable.

More specific descriptions of requirements should be obtained by writing to the schools in question since requirements vary from school to school.

**Pre-Engineering Program**

This program is a two-year program designed for the student who wishes to transfer to an engineering program at another University. Students are strongly advised to consult with the engineering school to which they plan to transfer for specific requirements. Courses taken may apply to other majors at the University if the student chooses to remain on campus to complete a bachelor’s degree.

Pre-engineering advisers in the department maintain contact with universities that offer related four-year programs in order to maximize the value of the transfer program of study at the University to other universities. Currently we offer a formal program with the University of Detroit-Mercy and transfer agreements with the University of Michigan in Ann Arbor and the University of Michigan in Dearborn.

An active articulation agreement exists between this program and a community college. To see a complete list of current colleges with program articulation agreements with EMU, please click here.

**Required Mathematics Courses: 18 hours**

- MATH 120 - Calculus I (GEQR) 4 hrs
- MATH 121 - Calculus II 4 hrs
- MATH 122 - Elementary Linear Algebra 3 hrs
- MATH 223 - Multivariable Calculus 4 hrs
- MATH 325 - Differential Equations 3 hrs

**Required Physics Courses: 18 hours**

- PHY 223 - Mechanics and Sound (GEKN) 5 hrs
- PHY 224 - Electricity and Light 5 hrs
- PHY 229 - Strength and Elasticity of Materials 4 hrs
- PHY 230 - Engineering Dynamics 4 hrs

**Other Required Courses: 16 hours**

- One literature course (3 hrs)
- CHEM 121 - General Chemistry I (GEKN) 3 hrs
- CHEM 122 - General Chemistry I Laboratory (GEKN) 1 hr
- COSC 246 - Programming in C++ 3 hrs
- ECON 201 - Principles of Macroeconomics (GEKS) 3 hrs
- ENGL 121 - Composition II: Researching the Public Experience (GEEC) 3 hrs

**Electives: 15 hours**

*see note
• More than three credit hours of computer science courses
• More than three credit hours of literature courses
• More than three credit hours of humanities courses
• More than three credit hours of social science courses
• Other courses with consultation
• BIO 110 - Introductory Biology I (GEKN) 5 hrs
• CHEM 123 - General Chemistry II 3 hrs
• CHEM 124 - General Chemistry II Laboratory 1 hr
• CHEM 341 - Fundamentals of Material Science 3 hrs
• CHEM 371 - Organic Chemistry I 3 hrs
• CHEM 372 - Organic Chemistry II 3 hrs
• CHEM 373 - Organic Chemistry Laboratory 2 hrs
• ECON 202 - Principles of Microeconomics (GEKS) 3 hrs
• ENGL 225 - Writing in a Changing World 3 hrs
• PHY 360 - Heat and Thermodynamics 4 hrs
• PHY 370 - Introduction to Modern Physics 3 hrs
• PHY 456 - Electronics for Scientists 4 hrs
• PHY 471 - Atomic and Nuclear Physics 3 hrs
• PHY 485 - Fluid Dynamics 3 hrs

Writing Intensive Course

Each student must choose a writing intensive course as part of major completion requirements. Consult your advisor for course options.

Note:

All electives should be chosen in consultation with a pre-engineering adviser. Every engineering program has different requirements. Different fields in engineering (mechanical, electrical, nuclear, chemical, civil, aerospace, environmental, etc) requires different courses. Meeting with a pre-engineering adviser to develop a plan of study will maximize the value of your transfer program.

Pre-Law

Most law schools require a bachelor’s degree and evidence of potential for law school as measured by grade point average and the results of the Law School Admission Test (LSAT). In addition, most law school admission officers emphasize the importance of a broad academic background and the development of analytical and communication skills. The Department of Political Science provides counseling for prelaw students, LSAT registration, and application materials and catalogs from many law schools throughout the country.

Because law schools typically do not require specific courses for admission or identify any particular major or curriculum as preferable, it is necessary for prelaw students to plan their own academic programs. Given the increasing competitiveness of admission to law school, it is important that great care be exercised in selecting a program of study appropriate to a legal career and in maintaining a high level of academic performance. It is also prudent to choose a program that will provide a suitable alternative career.

The majors most commonly selected by prelaw students are political science, economics, history and sociology. Other frequent choices include English language and literature, communications, psychology, philosophy and business administration. Although less numerous, students with majors in mathematics, the natural sciences, foreign languages, music, and art also enter law school to enhance their career potential.

Whatever major and minor combination is chosen, attention also should be given to the selection of appropriate elective courses. Generally, any challenging course that will facilitate mastery of the use of language, develop critical understanding of human values and institutions, or contribute to the capacity for independent and creative thinking is likely to be useful. Among specific
courses that are often recommended by prelaw advisers are advanced English composition, persuasive speech, logic and accounting. Mathematics and science courses are frequently cited as helpful in developing needed analytical skills.

Prelaw students who desire to gain greater insight into the law and legal procedures, and law school approaches to legal studies, may choose from a broad range of courses offered by the Departments of Political Science, Sociology, Economics, History and Philosophy, and Marketing. The major and minor in public law and government, offered by the Department of Political Science, provides a firm foundation on which to build a career in law.

Pre-Medicine (Allopathic and Osteopathic), Pre-Veterinary, and Pre-Chiropractic, Pre-Optometry and Pre-Podiatry

Students planning on pursuing a career in the medical field can complete course requirements at EMU for admission to medicine, optometry, podiatry, veterinary and chiropractic programs. For information on these programs, see the advising coordinator.

While medical schools do not prescribe a premedical curriculum, they expect a thorough understanding of modern concepts in biology, chemistry and physics, and all value mathematical competence, with some specifying a course sequence in mathematics. Most pre-medical students, therefore, select a major in one of these areas, although this is not mandatory. Students should earn the bachelor’s degree prior to admission to medical school.

An important admission requirement for most medical schools, the Medical College Admission Test (MCAT), is given in April and August in various centers throughout the nation. This test should be taken after prerequisites in biology, chemistry and physics are completed, typically during the junior year.

Each allopathic and osteopathic medical school establishes its own admission requirements. The course requirements are similar but differ enough so that students should consult the catalogs of the schools in which they are interested. The latest edition of Medical School Admission Requirements, available at the reference desk of Halle library and in the pre-medicine advisor’s office, should be consulted. The introductory chapters of this book should be read by every prospective medical student.

If students electing the pre-medicine sequence are not achieving at least a 2.75 GPA (overall and in their major), their chances of acceptance by a medical school are minimal, and they should plan their programs so that other professional or vocational goals are possible.

The following programs have articulation agreements with the colleges listed below. For more information, please contact the department head or the Office of Community College Relations at 229 Rackham Hall, 487.6577. To see a complete list of current colleges with program articulation agreements with EMU, please click here.

B.S. Pre-Chiropractic — Logan University

Email: mangell@emich.edu
General Requirements: 60 hours

Students planning to apply for admission to a medical school should plan their schedule to include the following general requirements:

- Elective in English language or literature (3 hrs)
- Sociology and psychology courses (8 hrs)
- BIO 110 - Introductory Biology I (GEKN) 5 hrs
- BIO 120 - Introductory Biology II 5 hrs
- BIO 301 - Genetics 3 hrs
- BIO 305 - Cell and Molecular Biology 3 hrs
- BIO 306W - Cell and Molecular Biology and Genetics Laboratory (GEWI) 3 hrs
- CHEM 121 - General Chemistry I (GEKN) 3 hrs
- CHEM 122 - General Chemistry I Laboratory (GEKN) 1 hr
- CHEM 123 - General Chemistry II 3 hrs
- CHEM 124 - General Chemistry II Laboratory 1 hr
- CHEM 371 - Organic Chemistry I 3 hrs
- CHEM 372 - Organic Chemistry II 3 hrs
- CHEM 373 - Organic Chemistry Laboratory 2 hrs
- CHEM 451 - Biochemistry I 3 hrs
- ENGL 121 - Composition II: Researching the Public Experience (GEEC) 3 hrs
- PHY 221 - Mechanics, Sound and Heat (GEKN) 4 hrs
- PHY 222 - Electricity and Light 4 hrs

First Year-Pre-Medicine: 27-39 hours

Because of the nature of the premedical program, if the student is a biology or chemistry major it is almost mandatory to follow the first year as patterned below.

First Semester: 13-19 hours

- Mathematics (2-4 hrs)
  **see note
- General education (2-6 hrs)
- BIO 110 - Introductory Biology I (GEKN) 5 hrs
- CHEM 121 - General Chemistry I (GEKN) 3 hrs
- CHEM 122 - General Chemistry I Laboratory (GEKN) 1 hr

Second Semester: 14-20 hours

*see note

- Mathematics (2-4 hrs)
  **see note
- General education (3-7 hrs)
- BIO 120 - Introductory Biology II 5 hrs
- CHEM 123 - General Chemistry II 3 hrs
- CHEM 124 - General Chemistry II Laboratory 1 hr

Notes:

* Prior to registering for the second semester, the student should see the premedical coordinator.
** Students with one to two years of less than high-level algebra take MATH 105 - College Algebra (Gen Ed Area II). Students with only one year of algebra take MATH 104 - Intermediate Algebra, followed by MATH 105. Students without trigonometry take MATH 107 - Plane Trigonometry. Although students may need to take MATH 104, MATH 105 or MATH 107 these courses do not satisfy general education requirements. Students must still complete a mathematics course from the list of
approved mathematics courses; biology majors will satisfy both general education and biology major requirements by taking MATH 120.

Pre-Mortuary Science

The pre-mortuary science program requires two academic years. Before entering the professional mortuary school, the student must complete at least 60 hours of college work that includes the following science and mathematics courses:

Advisor Information:
Program Advisor: Heather Holmes  
Phone: 734.487.0106  
Email: hholmes1@emich.edu

Recommended Courses

- BIO 105 - Introductory Biology for Non-majors (GEKN) 4 hrs
- CHEM 121 - General Chemistry I (GEKN) 3 hrs
- CHEM 122 - General Chemistry I Laboratory (GEKN) 1 hr
- CHEM 123 - General Chemistry II 3 hrs
- CHEM 124 - General Chemistry II Laboratory 1 hr
- MATH 104 - Intermediate Algebra 3 hrs
  Another mathematics elective may be substituted.
- PHY 101 - Physical Science in the Arts (GEKN) 4 hrs

Recommended Elective Courses

The Board of Examiners in Mortuary Science recommends the following courses for elective hours. They include behavioral sciences, business, counseling, first aid and public speaking.

- ACC 240 - Principles of Financial Accounting 3 hrs
- COUN 450 - An Introduction: Counseling Concepts and Skills 3 hrs
- CTAC 124 - Foundations of Speech Communication (GEEC) 3 hrs
- CTAC 225 - Listening Behavior (GEKS) 3 hrs
- CTAC 226 - Nonverbal Communication (GEKS) 3 hrs
- CTAC 227 - Interpersonal Communication (GEKS) 3 hrs
- ECON 200 - The American Economy 3 hrs
- ECON 201 - Principles of Macroeconomics (GEKS) 3 hrs
- HLED 210 - First Aid and CPR Certification 2 hrs
- LAW 293 - Legal Environment of Business 3 hrs
- MKTG 360 - Principles of Marketing 3 hrs
- MKTG 363 - Retailing 3 hrs
- PSY 225 - Psychology of Religion 3 hrs
- PSY 323 - Psychology of Human Aging 3 hrs
- SOCL 105 - Introductory Sociology (GEKS) 3 hrs
- SOCL 311W - Aging and the Life Course (GEWI) 3 hrs
Pre-Pharmacy

Two years of college work (60 transferable hours, including the courses listed below) are required for admission to a professional school of pharmacy. Some schools have additional required or recommended courses.

Programs in pharmacy require two to four additional years of study after acceptance into the program. Clinical experience is required for some, especially doctoral programs. Theses are minimal requirements. To be competitive for some pharmacy programs, students may need to complete a bachelors program. It is strongly advised that students contact pharmacy schools directly to determine whether additional coursework and PCAT exam scores are required.

Advisor Information:
Program Advisor: Tim Friebe
Phone: 734.487.0106
Email: tfriebe@emich.edu

Recommended Courses

- One biology course with a lab (Some schools require additional courses.)
- Two social science courses
- Two humanities courses (two foreign language courses may be substituted.)
- BIO 328 - Introductory Microbiology 3 hrs
- CHEM 121 - General Chemistry I (GEKN) 3 hrs
- CHEM 122 - General Chemistry I Laboratory (GEKN) 1 hr
- CHEM 123 - General Chemistry II 3 hrs
- CHEM 124 - General Chemistry II Laboratory 1 hr
- CHEM 371 - Organic Chemistry I 3 hrs
- CHEM 372 - Organic Chemistry II 3 hrs
- CHEM 373 - Organic Chemistry Laboratory 2 hrs
- ENGL 121 - Composition II: Researching the Public Experience (GEEC) 3 hrs
- MATH 120 - Calculus I (GEQR) 4 hrs
