Board approves new programs

Two new programs in the College of Technology and a new master's degree in drama and theater for the young were approved by the University Board of Regents at its September meeting.

A bachelor's degree program in coating process technology is the first of its kind in the United States. It is based on a well-defined need for graduates for the coating and finishing discipline who possess specialized knowledge in the chemistry and application of coating materials.

Graduates from this new program will find employment as process engineers in the application of organic coatings or in technical service positions with companies that manufacture coatings or process equipment.

The coating process technology program will provide students with course opportunities in chemistry, polymers and coatings formulation, coating processes, industrial technology and business and management. Also, a paid cooperative education experience will be required as part of the third or fourth year of the program. The program will begin in the 1984 winter semester.

A bachelor's degree program in communications technology is designed to provide students with the necessary skills and knowledge needed to enter the broad communications industry.

Graduates will be versed in economics, marketing, computer science, accounting and management, media production and

Interim appointments approved

The following interim appointments were approved by the University Board of Regents at its September meeting:

Leroy Watts, associate professor in the Department of Social Work, was appointed acting assistant vice president for academic affairs. He fills a vacancy created by Ronald Collins, who has been appointed provost and vice president for academic affairs.

Watts received his bachelor's degree from the University of Dubuque, Iowa and his master's degree from the State University of Iowa.

Watts had been employed at the Michigan Department of Mental Health's Plymouth Center for Human Development and at Wayne State University, prior to his EMU appointment in 1969. In 1974 he received an outstanding recognition award for his work with the Child and Family Services of Washtenaw County, a local branch of Child and Family Services of Michigan.

Dr. Pedro Sanchez, associate professor in the Department of Operations Research and Information Systems, was appointed interim executive director of University Computing.

Sanchez will serve as interim director while a search is conducted for a replacement for Arthur Woodruff, who resigned Sept. 9. He is working in conjunction with Dr. Morell Boone, director of the Center of Educational Resources, and George Bennington of Arthur Young and Co. who were asked by University President John W.

Porter to assist in hiring new staff and carrying on the work of the center while new management is sought.

Sanchez earned bachelor's and master's degrees from the University of Florida at Gainesville. His doctorate is from the University of Michigan. A native of Cuba, Sanchez, 44, has been a member of the faculty at Eastern since 1972.

Hartmut Hoft, professor in the Mathematics and Computer Science Department, was appointed acting head of that department. He replaces Department Head James Northey, who

has returned to full-time teaching.

Hoft received his bachelor's degree from the University of Munster, in Germany, and his master's degree from the University of Bonn in Germany. He earned his doctorate from the University of Houston.

Prior to his EMU appointment in 1970 as assistant professor, Hoft was employed at the University of Bonn, the University of Georgia in Athens, Ga. and the University of Houston. He has published several papers in various mathematics journals and is a member of the American Mathematical Society.

NCATE submits favorable report

The University Board of Regents learned Wednesday, Sept. 28, that all teacher education programs at the University have received reaccreditation by the National Council for Accreditation of Teacher Education (NCATE). The reaccreditation was granted until Sept. 1, 1990, the maximum time period allowed.

The 12-person accreditation team, which visited the University for three days last March, found the University to be providing "outstanding service to the public schools and local community through such programs as the National Center on Teaching and Learning and the National Center for Community

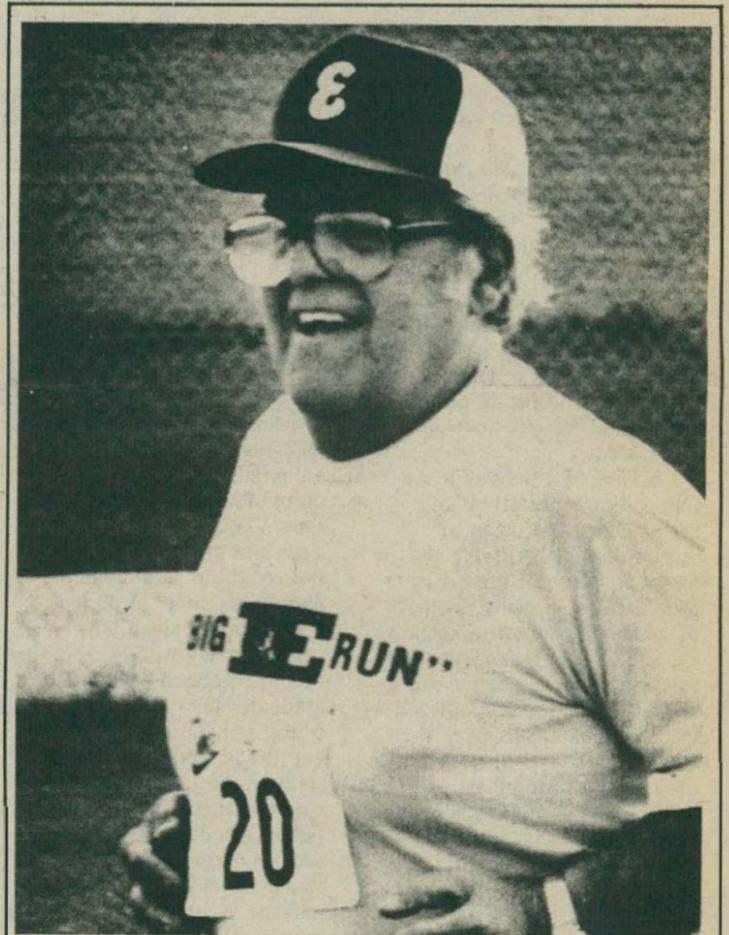

Education." The team reported that "these projects have provided excellent models for professional program development."

The team also was impressed with the University's long-range plan for teacher education, which it found to be "a cogent, well conceived plan for meeting future challenges."

Other strengths identified by the accreditation team included: -University-wide representation of faculty and students on the University Council on Teacher Education.

-Students in the Early Childhood Education Program were found to be involved in program development and

BEST EFFORT — Ted Tangalakis, owner of Ted's Pills and Things, raised more than \$2,000 at last year's Big-E Run. Tangalakis is ready to run again on Oct. 9. See story on page 4.

Campus Capsules

Expressionistic art featured in EMU Student Gallery

An exhibition of drawings and sculpture by James Markley, an EMU graduate student, and Andrew Henry, an EMU alumnus, will be presented through Oct. 7 in the student Intermedial Gallery.

Regular gallery hours are 9 a.m. to 7 p.m. Monday through Friday and noon to 4 p.m. Sunday. The exhibit is free and open to the public.

Intermedia Gallery is located on the first floor of McKenny Union.

Art Department plans Chicago Trip

The Art Department is planning a trip to Chicago to view "The Vatican Collections: The Papacy and Art," at the Art Institute of Chicago, Oct. 6 through 9. Other selected museum exhibits and a walking tour of Chicago's architecture and public art also will be featured.

Total cost for twin occupancy is \$106 which includes round trip chartered bus transportation, hotel accommodations and gallery fees. For more information, call Dr. Sharon Harrison, art department field trip coordinator, at 7-1213.

EMU offers consumer economics forum for teachers

Eastern is presenting a Consumer Economics Forum for teachers at the Jackson Intermediate School Building on Brown's Lake Road. Experts in consumer credit, financial planning, micro-computers and auto insurance will be featured speakers in a series of ten sessions held Mondays from 4:30 to 7 p.m. The series began Oct. 3.

The forum, conducted by the Michigan Consumer Education Center at EMU, offers a 50 percent tuition discount for area teachers. For further information, contact Rosella Bannister, director of the Michigan Consumer Education Center at 7-2292.

Ypsilanti Adult Ed offers writing assistance

Ypsilanti Adult Education, in cooperation with Eastern's English Department and Instructional Support Center, provides students with individualized writing assistance. The English Reading Strategies/Introduction to Composition program offers focused instruction in all phases of the writing process, including pre-writing and writing and revision (outlines, grammar, punctuation, research techniques, essay development, etc.).

This unique, non-tuition program is staffed by seven secondary certified English teachers and is housed in Room 608 PrayHarrold. It functions as a walk-in writing clinic for all

EMU students and is open from 9 a.m. to 9 p.m. Monday-Thursday and from 9 a.m. to 5 p.m. Fridays.

For more information, come to Room 608 Pray-Harrold or call 482-6614, Ext. 360.

The United Way

Focus on Faculty

Richmond-Abbott writes about sex roles

"My aim is to present sex roles not as an antagonizing battle between men and women, but to give people the opportunity to explore and freely examine masculine and feminine roles," said Dr. Marie Richmond-Abbott, associate professor of sociology, of her new book "Masculine and Feminine Sex Roles Over the Life Cycle."

In our society, Richmond-Abbott explained, the traditional, stereotypical sex roles represent men as being unemotional, tough, cool-headed and successful; and women as being weak, expressive, emotional and supportive. These perceptions put severe limitations on both sexes.

Most people, she maintains, simply are not aware of the things in their day-to-day lives that contribute to the reinforcement of these roles. These contributing factors include parents, schoolbooks, language and the media to name a few.

"The media is a prime offender," she said. "People don't realize that more than 90 per-

cent of the advertisements on television are narrated by men. Men even narrate the majority of the advertisements for products designed to be used by women. This gives the subliminal message that women are too dumb to know how to use things correctly."

"Our language," Richmond-Abbott continued, "is another example. In higher education, for instance, men and women earn a bachelor's or master's degree, not a spinster's or mistress' degree."

She is quick to point out, however, that positive changes have been made in the last 40 years.

"Things have progressed since World War II, largely due to the fact that during the war, women had to take over many of the positions previously held by men. The women discovered they were capable of holding male-dominated careers, and many of them continued to work even after the end of the war for their own gratification," she said.

Today, Richmond-Abbott

points out, 26 percent of the engineering class at the University of Michigan is female, an encouraging statistic that points to the progress women have made in the career world.

The next step, she believes, is for women to move into the upper levels of management. This, she adds, may be difficult.

"Women in our society are at no time free from the 'non-serious worker stigma,'" Richmond-Abbott said. "Prospective employers look at a single woman and assume she'll quit as soon as she gets married, and they look at a married woman and assume she'll quit when she has children. This stigma keeps women out of the upper levels of management."

Women are not the only ones oppressed by sex roles, according to Richmond-Abbott. Men have been denied the chance to see their children grow up and play a major role in their development due to sex roles.

"Today's men want to spend more time with their children and be closer to them," she

said, "which is a right they've been denied for far too long."

Also, Richmond-Abbott explained, men have been denied the right to experience many emotions. They are under tremendous pressure to remain tough, cool and unemotional at all times. This has robbed them of the right to become close to other people, particularly other men.

"An intriguing cross-cultural fact that I discovered in writing the book," she said, "is that in the middle and later years of life, men discover feminine feelings and interests, and women become more assertive and competitive. Later in life, then, problems between men and women smooth out and take care of themselves."

In the end, Richmond-Abbott feels the first and largest step men and women can take in ending stereotypical sex roles in our society is to become aware of the things reinforcing their socialization and begin to question the validity of those things.

Marie Richmond-Abbott

Campus Commentary

This week, Oct. 1-8, we celebrate National Higher Education Week. This is a time when it is especially important to acknowledge the contributions that higher education makes to society. It is also a time when those of us involved in higher education should reflect upon the current and future needs of society and our relationship to those needs.

I believe that the public has four major expectations of higher education: 1) to be responsible for certifying the professionalism of graduates in their area of specialty; 2) to be of greater assistance in helping elementary and secondary teachers provide a better education at the public school level; 3) to be of greater service in their communities; and 4) to be a place, in the case of major universities, where fundamental and basic research is carried out in science, technology and health.

For the most part, universities have performed admirably in certifying the professionalism of their graduates. In many professional areas, there are licensing exams or certification exams which graduates must pass in order to enter their chosen occupation. Universities prepare their graduates to take those exams successfully, and I believe the trend for the future will be to require such certification in an increasing number of fields, particularly in teaching.

There has been a great deal of criticism in recent months, and properly so, that we have not performed particularly well in assisting public school teachers to become more effective in their teaching. Institutions, like Eastern Michigan, with a long historical need in the training of teachers, need to address this issue perhaps more than any other issue confronting us today. Eastern created the National Center on Teaching and Learning as an initial step in this direction.

Because of the influence institutions of higher education have, it is also important that each place an emphasis on some role that it should play which makes a difference in its immediate community. Higher

education has to be organized to do more of that, and citizens within the service areas of the various colleges and universities need to be made more aware that that type of service is taking place.

Major universities have always played a significant role in basic and fundamental research. Much of what has been accomplished in all areas of research has been accomplished on university campuses. This significant role should continue, because colleges and universities are the source of the nation's best natural resource: Mindpower.

Eastern Michigan University performs very well in certifying the professionalism of its graduates (two of our nursing education students, for example, had the highest scores in the state on the most recent licensure examination); in assisting public school teachers through such initiatives as the Professional Development Program and the Writing Assistance Program, which are both school-based activities; and in community service through such activities as law enforcement evaluations, economic development cooperation, cooperation in providing services and public radio broadcasting.

The fourth expectation of the public, that of research, is not within our purview, and we do not aspire to pursue it. However, we are fortunate in this community to have the University of Michigan, a great research university, that performs that function quite well.

We would offer the proposition that Eastern Michigan has the resources, skills and know how to perform as well or better than most in the other areas of academic excellence.

We have a vision for Eastern Michigan University which is based upon the University's historical role and its geographical location. What we have attempted to do in the past several years is to forge those two into a dynamic initiative by literally attempting to move Eastern Michigan away from the direction other universities in Michigan are taking. We are attempting to make it more unique and distinctive. We draw

heavily upon the commitment we have to preparing young people, many of whom are first generation college students, for middle management, professional and high tech positions.

It is because of this dynamic initiative that we have focused our attention in only six areas: arts and humanities, business, education, health and human services, the sciences and technology. It is our opinion that by anchoring on each of those six areas, we are able to have a greater impact in the public schools, among teachers in the public schools and on employers because we are not only certifying our students as having an outstanding liberal arts education, but a speciality in one of the six concentration areas.

That, in many respects, makes Eastern Michigan a unique place to acquire an undergraduate education.

This is the fundamental policy direction we have articulated in the last five years, and the direction we have sustained. What is important about Eastern is that what we said five years ago, we are still saying. It has been a consistent implementation of a long-range initiative that has not yet had its full impact on the schools and the employer environment. When it does, I think it is going to be even more influential than it is at present.

I think this policy direction speaks very well to the expectations the public has for higher education. We at Eastern Michigan University mean to fulfill our responsibilities to those vital areas.

It is important this week to realize that a citizenry that is enlightened and has the opportunity to pursue excellence—and that is what higher education is—is going to be of benefit to the greater population. Once a person has acquired the equipment that is an education, he or she has the resources at his or her command to shape and direct destiny.

Our future, that is what we are really talking about when we honor and appreciate the contributions of higher education.

Dr. John W. Porter
President
Eastern Michigan University

Openings

The Personnel Office announces the following vacancies:

CLERICAL/SECRETARIAL (Minimum Bi-weekly Rate)

- CS-04 - \$427.34 - Secretary II - Foreign Languages and Bilingual Studies (Computer experience or willingness to be trained is preferred; bilingual ability is desirable)
- CC--04 - \$427.34 - Secretary II - Human Resources.
- CS-05 - \$474.34 - Senior Secretary - University Food Services.
- CC-05 - \$474.34 - Senior Secretary - Staff and Union Relations (Accurate typing at 70-80 wpm is necessary; substantial overtime involved)

Final date for the acceptance of internal application for the above positions is Oct. 11, 1983.

ADMINISTRATIVE/PROFESSIONAL/TECHNICAL (Minimum Bi-weekly Range)

- PT-05 - \$474.34 - \$664.07 - Business Assistant Coordinator - Child Care Center - Deadline date: Nov. 18, 1983.
- PT-07 - \$643.68 - \$926.90 - Ombudsman - University Housing/ Food Service - Deadline date: Nov. 18, 1983.
- PT-07 - \$643.68 - \$926.90 - Assistant to the Director, Career Services - Career Services Center - Deadline date: Nov. 18, 1983.
- PT-09 - \$836.52 - \$1,238.07 - Senior Systems Programmer - University Computing - Deadline Date: Oct. 18, 1983.
- AP-09 - \$836.52 - \$1,238.07 - Human Resources Associate - Human Resources - Deadline date: Nov. 18, 1983.

POSTING CORRECTION: The title of the PT-09, Supervisor, Administrative Systems Programmers, position which appeared in the Sept. 13, 1983 *FOCUS EMU* has been revised to (PT-09) Senior Systems Programmer.

POSTING CANCELLED: The search for an AP-07, (40 percent FTE) Assistant Women's Basketball Coach has been indefinitely cancelled. (Special posting July 12, 1983)

Internal applicants for the above Clerical/Secretarial and Administrative/Professional Technical positions should submit a Promotional Openings Application form to the department in which the vacancy exists.

FACULTY

Department of Industrial Technology - The Department of Industrial Technology is accepting applications to expand the pool of temporary lecturers qualified to teach in one or more of the following areas: Basic Electronics - Electronics, CAD/CAM, Construction Technology, Metal Processes, Industrial Computer Programming Applications and Drafting Technology. The courses taught by temporary lecturers are offered in the evening. A Master's degree and some industrial experience are required.

An Affirmative Action/Equal Opportunity
Employer and Educational Institution

Regents Summary

The University Board of Regents acted on the following agenda items at its September meeting:

—Approved two staff changes in the Office of Academic Affairs.

The position of assistant vice president for academic affairs was changed to associate vice president for academic affairs in charge of program development and review and the position of associate vice president for academic affairs was changed to associate provost in charge of

budget, personnel and operations.

—Accepted 14 education grants totaling \$489,919. Two Ford Motor Company grants, for services provided by EMU's Technology Services Center, topped the list with their combined total amount of \$195,000 going to the University.

The first of the Ford Motor Company's grants, a \$125,000 grant, was given for the project "Trainer/Consultant for Statistical Process Control." The

project will be supervised by Dr. Jeffrey T. Luftig, associate dean of the College of Technology, and director of the Technology Services Center.

The second Ford Motor Company grant of \$70,000 is for "Statistical Process Control Training for Ford Vendors." Luftig will supervise this project also.

Other new grants include:

—\$169,000 from the Michigan Department of Education for the "Michigan Youth Corps Program;"

—a \$43,010 grant from the Exxon Education Foundation, for the project "Language and International Trade," and

—a \$20,000 grant from the Ypsilanti Area Leaders Group for "A Study of Police Service Models."

—Heard a report on statistics regarding tenure and promotion.

According to the report, 83 percent of Eastern's 601 faculty members are tenured. Forty-five percent hold the rank of professor. Twenty-six percent are associate professors. Twenty-four percent are assistant professors and four percent are instructors.

Of the 270 professors on campus, 82 percent are male, while 18 percent are female. Of the 157 associate professors on campus, 71 percent are male and 29 percent are female. The assistant professor split is roughly 50-50, and the ratio of instructors is 52 percent male and 48 percent female.

—Approved some 35 items on the "Institutional Priorities" list for the 1984-85 general fund

budget. The priorities now will be developed into formal program plans with detailed budgets assigned to each item.

The priorities listed in the "1984-85 Budget Request" will emphasize: instructional equipment; the combination of student services into a central facility, major maintenance concerns on campus and University Computing.

—Approved market salary adjustments for Paul D. Trochet, professor in the Department of Physics and Astronomy, for \$3,001, and Walter N. Tucker, professor in the Department of Industrial Technology for \$2,000.

Research

Fulbright-Hays Training Grants

The Department of Education is accepting applications for the 1984 Fulbright-Hays Training Grants Program. This Program includes the following grant competitions:

- 1.) *Faculty Research Abroad* - for faculty research and study abroad in modern foreign languages and area studies.
- 2.) *Foreign Curriculum Consultants* - brings specialists from other countries to assist institutions in planning and developing curricula in modern foreign languages and area studies.
- 3.) *Group Projects Abroad* - for research, training and study abroad in modern foreign languages and area studies by groups of individuals engaged in a common endeavor.
- 4.) *Doctoral Dissertation Research Abroad* - for graduate students to engage in full-time dissertation research abroad in modern foreign languages and area studies.

The application deadline for these programs is Oct. 28, 1983. Contact Cheryl Kozell at 7-3090 for more information.

Faculty and Postdoctoral Research Opportunities

Announcements of 1983-84 faculty and postdoctoral research opportunities have been compiled and distributed throughout the University. The announcements give brief program descriptions and deadline dates for numerous fellowship and individual grant opportunities. To obtain a copy of the announcements, contact your departmental office or the Office of Research Development.

Promotions

Several staff promotions were approved by the Board of Regents at its September meeting. They are:

Phyllis A. Smith, assistant director of accounting, was promoted to assistant controller in that same department. The reorganization of the Department of Accounting resulted in the reclassification of Smith's position as assistant director to assistant controller.

Smith has been employed at Eastern for the last 18 years. She began her career as bookkeeper in the cashier's office and was promoted to executive bookkeeper in the Student Accounting Office in 1966. Smith served as accounting supervisor

and payroll supervisor in the Student Accounting Office and as supervisor of general accounting.

Regina Kelley, accountant II, was appointed senior accountant. She replaces Iola Smith who retired.

Kelley earned her bachelor's degree in business administration from Ohio University in 1979. Prior to working at EMU, she was employed as an accountant at Central Michigan University.

Other staff promotions include Cleo Finlin, secretary II to senior secretary in the Department of Teacher Education; and Margaret Goodwin, supervising clerk to computer operator in University Computing.

Focus EMU is published weekly during the fall and winter semesters for faculty and staff at Eastern Michigan University. The deadline for copy is 5 p.m. Tuesdays for the next week's issue.

Emergency on Campus Call 1-2-3

WEMU 89.1

TUESDAY, OCT. 4

- 1 a.m. Jazz Scope After Hours
- 12:30 p.m. Let's Hear It - News and features for the handicapped.
- 7 p.m. Spider's Web - Children's stories.
- 7:30 p.m. Canticle for Liebowitz - After nuclear war has devastated the Earth, a group of monks work to discover and then preserve twentieth century culture in this NPR Playhouse drama.
- 10 p.m. Jazz at the Institute - Herbie Williams and the Alma Smith Quintet.

WEDNESDAY, OCT. 5

- 1 a.m. Jazz Scope After Hours
- 12:30 p.m. No Way Out: Teenage Suicide - "Teenage Suicide" examines why two teens attempted suicide.
- 7 p.m. Kindred Spirits
- 7:30 p.m. American Workforce - "Unemployment in the American Economy: Types, Causes and Outlooks for the 1980s."

- 10 p.m. Jazz in Profile - host Michael G. Nastos features the music of pianist Oscar Peterson.

THURSDAY, OCT. 6

- 1 a.m. Jazz Scope After Hours - host Bret Julyk features the music of Roland Kirk's "Now Please Don't You Cry, Beautiful Edith."
- 12:30 p.m. Plowed Under - A special series documenting the problems of America's farmers.
- 7 p.m. Foreign Exchange - "Hong Kong's Uncertain Future"
- 9:10 p.m. Jazz Just Out - During tonight's Late Night Jazz Scope, host Michael G. Nastos surveys what's new in the WEMU record library.

FRIDAY, OCT. 7

- 1 a.m. Jazz Scope After Hours - Bret Julyk features the "New" music of the Jemeel Mondoc Sextet's album "Konstanze's Delight."
- 12:30 p.m. Horizons - "Black Colleges: An Educational Oasis."
- 7 p.m. The Leonard Feather Show - with noted jazz critic Leonard Feather.
- 9:10 p.m. When the Eagle Flies - Pre-World War II blues with WEMU's newest air personality, Carol Davenport.

SATURDAY, OCT. 8

- 1 a.m. Jazz Scope After Hours - with Bret Julyk.
- 7, 8, 9, 10, 11 a.m. News with Terry Thrans - Five minutes of local, regional and state news and local sports, each hour on the hour.
- 12 p.m. Jazz Revisited - "Big Band Boogie"
- 1 p.m. Hurons '83 - Pregame show with Steve Palma, Percy Stamps, and the WEMU sports staff.
- 1:30 p.m. Huron Football - The Hurons take on Central Michigan in Mount Pleasant.
- 5 p.m. A Prairie Home Companion - Special edition for the WEMU fund drive.
- 9 p.m. Third World Dance Party - host Tom Simonian features Prince Nico Mbarga and the Saturday Night Showcase.

SUNDAY, OCT. 9

- 1 a.m. Jazz Scope After Hours
- 8 a.m. Sunday Best - with host George Klein.
- 7, 8, 9, 10, 11 a.m. News with Dawne Helene Albrecht - Five minutes of local, regional and state news and local sports, each hour on the hour.
- 12 p.m. Sunday Showcase - host Michael G. Nastos features A Night at Birdland/Art Blakey and Clifford Brown, 1954.
- 3 p.m. City Scene - host Michael G. Nastos features The Lincoln St. Music Co. at the 1983 WEMU Jazz Competition.
- 4 p.m. Big City Blues Cruise - with Martin Gross.
- 6 p.m. Jazz Alive! - Performances from New York and Boston.
- 9 p.m. New Directions - host Tom Simonian features Jay Clayton during "Vox Box" at 11 p.m. and features the album "Wildflowers Vo. IV" at midnight.

MONDAY, OCT. 10

- 1 a.m. Jazz Scope After Hours
- 12:30 p.m. The Lawmakers - National Public Radio's weekly look at the United States Congress.
- 7 p.m. Nuestro Mundo Hispano - News and public affairs for the Washtenaw County's Hispanic community.
- 9:10 p.m. Late Night Jazz Scope - host Michael G. Nastos features "Music for a Blue Monday" with J.B. Lenoir.

Monday through Friday Regular Program Schedule

- 6 AM** Morning Edition with Jeffrey Hoag
- 9:00** Morning Jazz Scope with John Assenmacher
- 10:30** Jazz Datebook
- 12 PM** Noon Magazine with Steve Palma
- 12:30** Public Affairs - See Highlights
- 1:00** Afternoon Jazz Scope with Jim Dulzo
- 2:30** Jazz Datebook **5:30**
- 5:00** News with Karen Pitton
- 5:15** Cafe du Jazz with Kevin Daly
- 7:00** Public Affairs or Drama - See Highlights
- 8:00** All Things Considered from National Public Radio
- 9:00** News with Karen Pitton
- 9:10** Late Night Jazz Scope with Michael G. Nastos

Sports

Big-E Run scheduled

After a highly successful beginning, the second annual "Big-E Run" is scheduled for Sunday, Oct. 9, at Eastern's Rynearson Stadium.

The "Big-E Run," a fundraiser for the EMU athletic department, was a huge success in 1982 with a total of \$44,575 pledged for the initial outing.

Last year's goal of \$35,000 was surpassed as a total of 612 participants walked, crawled, or ran their laps. An average of \$9.09 was raised for each lap completed with a total of 7,404 laps run on the 440-yard Olds-Marshall Track at Rynearson Stadium.

This year's goal is an ambitious \$55,000 and EMU Associate Athletic Director Ron Oestrike, the director of the run, feels that the combination of varsity athletes, administrators, and local celebrities will make that goal a reality.

"The Big-E Run was a tremendous effort by everyone last year and we are hoping that this year's run will be bigger and better," Oestrike said. "We have raised our goal to \$55,000 and we feel with enough support and involvement in this program that we can meet that goal."

Every athlete, coach or dignitary competing in the run

will be sponsored for each lap of the 44-yard track that he or she completes in one hour. The running will begin at 2 p.m. and will be completed at 4 p.m.

NCATE Report favorable

Continued from page 1

evaluation to an unusual extent.

-Instructional support program efforts of the main University library were especially commended.

-The general physical plant was found modern and well-maintained, providing excellent resources for teacher education programs.

Of the 416 criteria evaluated by the accreditation team, only one was not met by the University. The team felt there was no research requirement for the master's degree program in counselor education. While the University felt this requirement was satisfied through a three-course assessment sequence which includes courses in standardized group testing, individual appraisal and statistics, a new course will be designed for implementation in fall 1984 to meet this concern.

Course Load

Appropriate course load is often a concern of students and advisors alike. How many classes should a student carry? Of course, there are general guidelines, such as, full time status (12 credit hours), but much depends on the individual student's circumstances. Some of the important variables that should be considered in determining an appropriate class schedule are: outside commitments, for example work and family; a good balance of reading, laboratory, and math courses; individual learning style and skills; and campus activities, just to name a few. The goal in academic advising is to plan a schedule that should allow the student to succeed academically considering the above factors.

As a guideline, EMU recommends no more than 15-16 credit hours for any first-time freshman. No student on academic probation may register for more than 16 credit hours unless permission is received from the Academic Services Center (ASC). Feel free to contact ASC with additional questions at 7-2170.

Catalogs for New Students

All students newly admitted to Eastern are given the current University catalog at the time of their meeting with an academic

advisor in Academic Services. Since the catalog is a major source of information concerning basic studies, major/minor requirements, course descriptions and university policies and regulations, the advisor uses it in the initial advising process. If faculty or staff should learn of any student who did not receive the catalog, please send that stu-

dent to Academic Services to request a copy.

Evening Advising

Just a reminder that ASC is open until 7 p.m. Monday through Thursday, for evening advising. Appointments can be made by calling 7-2170. The faculty hotline (7-3344) is also answered during the evening hours.

New programs approved

Continued from page 1

technical communication. Students will be required to work at a radio or television production facility, in the telecommunications industry or in a similarly related industry as a post third-year cooperative work-study experience.

A national survey indicated only three other schools offer four-year communications technology programs that are similar to the EMU program. However, EMU's program is unique because of its focus on the laboratory applications of communications concepts and because it deals with some of the new technologies in communication transmission storage and retrieval. This program also will begin in the 1984 winter semester.

A Master of Fine Arts degree program in drama and theater

for the young is only the fifth of its kind in the United States. It builds upon the already-established Master of Arts degree program in drama and theater for the young at EMU and provides the recognized terminal degree in this rapidly developing discipline.

Graduates of this program will find employment in schools and colleges, parks and community centers, social service organizations and community and professional theaters. The program would prepare qualified students for a variety of positions involving drama and theater for developmental purposes, as well as theater arts for the young.

The program is offered through the Department of Communication and Theater Arts and will begin in the 1984 winter semester.

Events of the Week Oct. 4-10
