Along the way, he meets other stars, learns what makes each star special, and discovers that stars combine to form star clusters and galaxies. Eventually, Little Star finds his planets. Each planet is introduced to your audiences with basic information about our Solar System. Run time is 35 minutes and is appropriate for all ages, recommended for families. K-6 Education Guides are available. Each “Little Star” show includes “Seasonal Stargazing” with a run time of 7 minutes. Please visit the "[Little Star That Could](#)" to see a preview of the movie.

- **Tuesday, Dec. 10** - Showtime 8 p.m.
- **Saturday, Dec. 14** - Showtimes 2 p.m. & 3:15 p.m.

The EMU Planetarium presents an all-new show just in time for the holidays. "Season of Light" presentation traces the history and development of many of the world's most endearing holiday customs, all of which involve lighting up the winter season — from the burning Yule log, sparkling Christmas tree lights and candles in windows, to the lighting of luminaries in the American Southwest and the traditional ritual of the Hanukkah Menorah.

The show also recounts the historical religious and cultural rituals practiced during the time of winter solstice — not only Christian and Jewish, but also Celtic, Nordic, Roman, Irish, Mexican and Hopi. It also takes a look at some of our more light-hearted seasonal traditions: from gift-giving and kissing under the mistletoe, to songs about lords a-leaping and ladies dancing, and the custom of decking the halls with greenery and candles. St. Nicholas, Sinterklaas, Kris Kringle, Father Christmas, and Santa Claus all drop by as well.

Naturally, there is some astronomy in "Season of Light". Audiences learn a selection of Northern hemisphere winter constellations, and find out why we even have seasons, as we demonstrate the Sun's path across the sky throughout the year, and the Earth's tilt and orbit around the Sun. And of course, the program explores the possible astronomical explanations for a "Star over Bethlehem" in the last quarter of the show: comets, meteors, novae and supernovae, and planetary conjunctions. Appropriate for all ages. Run time is 36 minutes. Each "Season of Light" show includes "Seasonal Stargazing" with a run time 15 minutes. Please visit "[Season of Light](#)" to see a preview of the movie.
