

FOCUS EMU

Volume 29, Number 12

Produced by Office of Information Services for faculty and staff at Eastern Michigan University

October 18, 1983

MEDIEVAL HUMOR—Tim McGraw, Dale Foret and Susan Felder share a toast in Quirk Theatre's upcoming production of "Henry IV, Part I." The play opens Tuesday, Oct. 25.

Quirk presents 'Henry IV'

An air of excitement is beginning to permeate Eastern's theater department as preparatory arrangements for Shakespeare's "Henry IV, Part I" are nearing completion.

"It's spectacular," says Director Dr. James Gousseff, professor of Communication and Theater Arts. The play depicts the struggle and subsequent war between King Henry IV and his rival faction, the Percy's, over the Crown of England.

"I chose this play because it's big and exciting and we like to do a big play at the beginning of the year. . . . Also, it's got lots of people in it and it's a technical challenge. We haven't done historical Shakespeare since "Richard III" quite a few years ago."

This play features Sir John Falstaff, who is, according to Gousseff, "one of the greatest comic characters ever created." "Although Falstaff is thoroughly dreadful," adds

Gousseff, "you can't help but like him."

"Henry IV, Part I" contains one large battle scene and several smaller skirmishes. These scenes are potentially dangerous and therefore required special preparation. Gousseff used two student fight-scene directors and included basic physical conditioning and careful blocking for the actors in his plans.

Gousseff is hoping to have the swords and shields specially forged for this production by a swordmaster. The actors will therefore be battling with actual swords that may weigh up to 20 pounds each.

Since the broadswords have to be lifted and used with two hands, rigorous rehearsals have exhausted many actors. The actors will be wearing lighter weight costume armor, however, said Gousseff. "If you had to wear real armor," he chuckled, "you'd lose interest in being medieval pretty quickly."

Quirk Theatre's Technical Director P. George Bird, a professor in the Department of Communication and Theater Arts, has designed and is constructing a massive, formalistic set for this production. Formalistic sets are characterized by multilevel acting platforms delineated by light, allowing for a freer use of the acting area.

Many of the play's colorful and complex costumes were designed by Katherine Holkeboer, associate professor of communication and theater arts.

"Henry IV, Part I" will run Tuesday, Oct. 25 through Sunday, Oct. 30. Curtain time is 8 p.m. Tuesday through Saturday and 7:00 p.m. on Sunday. Tickets are \$4.50; \$3 for EMU students and Mainstage members and are available by calling the Quirk Theatre Box Office at 7-1221.

Phone system problems being resolved

Time delays and other problems with Eastern's telephone network conversion are currently being resolved, according to Jim Vick, acting purchasing agent.

Call volume has been higher than anticipated and additional trunk lines have been ordered. These lines are expected to be in operation by the week of Oct. 17. This will eliminate any system busy signals now experienced during the peak hours of 10 to 11 a.m. and 3 to 4 p.m.

A final problem requiring some engineering is low transmission volume and on-line screeching, according to Vick. Occasional poor transmission is inevitable in any system, however, Eastern is presently experiencing more than is acceptable.

In order to trouble-shoot the low transmission problem, Vick asks those individuals experiencing inordinate problems to report them to Pat Hancock at 7-1299 with the following information: time of call, area code and exchange.

Telephone User Seminar

Telephone user seminars are scheduled for Oct. 27 and 28 from 1:30 to 3:30 p.m. in the Tower Room of McKenny

Union. Representatives from Michigan Bell and Infonet will be present. Discussion will include the current system and how it fits into Eastern's long range plans. Vick suggests that a representative from each department attend one of the sessions. Any other interested individuals are welcome to attend and may call 7-1299 for reservations. **Calls to Alaska, Canada and Hawaii**

Calls to Alaska, Canada or Hawaii must go through a Michigan Bell operator; 142 + 0 + code. EMU is presently making efforts to include all three areas on the system and will keep faculty and staff advised.

Operator Assisted Calls

Operator assisted calls include: collect calls, third party billed calls, overseas calls, calls to Alaska, Canada and Hawaii and calling card calls. The Bell operator is accessed by dialing 142 + 0 + code. EMU is currently investigating the possibility of leasing a limited number of special trunk lines to accommodate these kinds of calls. This would allow access to a Bell operator without use of an authorization code and would be more convenient for visitors to campus wishing to make calling card or collect calls.

On-campus, new student recruitment planned

Several on-campus, new student recruitment programs have been scheduled for throughout the fall and winter semesters. The Division of Student Affairs and the various colleges will offer these programs for prospective students and their parents on the following dates:

- Oct. 26 *Annual College of Business Day*, sponsored by the College of Business for prospective students, McKenny Union, 8:30 a.m. to 2 p.m.
- Nov. 9 *College Day for High School Seniors*, sponsored by the Colleges of Arts and Sciences, Education, Health and Human Services, Technology, and the Division of Student Affairs, for prospective students, McKenny Union, Pray-Harrold, Mark Jefferson, King, and Sill Halls, 8:30 a.m. to 2 p.m.
- Nov. 12-13 *Ohio Student Weekend*, the first of two scheduled, sponsored by the Division of Student Affairs for Ohio seniors and their parents, McKenny Union, Residence Halls, 11 a.m., Saturday, through 1 p.m., Sunday

Campus Capsules

Recital Features "Die Schone Mullerin"

Tenor Jeffrey Willets will perform "Die Schone Mullerin" in the New Alexander Recital Hall on Thursday, Oct. 20 at 8 p.m.

The presentation, whose English title is "The Maid in the Mill," will feature the music of Franz Schubert and the poetry of Wilhelm Muller. Sung in German, the composition tells the story of a young man's unrequited love for a miller's daughter.

Pianist Lois J. Kaarre, an EMU alumnus, will accompany Willets in his performance of this difficult piece.

Willets, a native of Ypsilanti, is a senior student at Eastern. Admission to the concert is free and open to the public. For more information, call the Music Department at 7-4380.

Ypsilanti Adult Ed Provides Study Skills Assistance

Ypsilanti Adult Education, in cooperation with Eastern's history and philosophy departments and the Instructional Support Center, provides study skills assistance in both the above subject areas. The Introduction to History/Philosophy program offers individualized instruction in understanding course content, preparing for exams, and writing papers. Workshops on note-taking, making an outline and moving from outline to essay are also included periodically throughout the semester. The Ypsilanti Adult Ed instructors also schedule review sessions prior to exams for the history and philosophy courses involved.

The program is staffed by three secondary certified instructors and is housed in room 715 Pray-Harrold. Hours are Monday through Friday from 8 a.m. to 5 p.m. For more information call 482-6614, Ext. 360.

Honorary Degree Nominations due Nov. 1

Nominations for the Spring Commencement speaker and honorary degree recipients are being accepted by the Provost's office, 146 Pierce until Nov. 1. Nomination forms are available from Mary Wiermanski (7-2237). The theme of the April 28, 1984 Commencement is the Arts and Humanities.

EMU Cosponsors Conference on Equal Pay for Women

EMU, in cooperation with the Michigan Department of Labor, Michigan State University and the University of Michigan will cosponsor a conference titled "Pay Equity: Beyond 59 Cents" on Saturday, Oct. 29 at 9 a.m. at EMU's Hoyt Conference Center.

The conference is designed to explore the timely issue of equal pay for men and women in jobs of comparable worth. Participants will be given information on the concepts of comparable worth relating to occupational segregation, job evaluation, legal options and how to take the first steps in advancing comparable worth in the work environment.

The conference fee is \$15 and advance registration is requested. Also, there will be a cash bar, wine and cheese after the conference.

For additional information or registration, contact Marilyn Daniels at 7-0008.

Updates to Telephone Listing Sheet

Bilingual Vocational Teacher Education Program now has offices in 122 Sill Hall, 487-1167
Guidance and Counseling Program — see Leadership and Counseling

Campus Information number should be 487-4636.

Focus on Faculty

Irwin combines reading and computers

Martha Irwin

If you were to ask Dr. Martha Irwin which reading skills computer program she would most recommend, you might be surprised at her answer. That's because she would probably tell you very candidly that most computerized reading programs per se are little more than "computerized workbooks" and are ineffective.

Irwin, a specialist of teacher education, specializes in the use of microcomputers to teach reading. She strongly believes in the use of computers at home and at school, but she doesn't believe that reading should be taught as a separate set of skills or as a separate subject. "It's a known fact that children who are taught reading skills separately are unable to transfer them to content areas," she said.

So what Irwin recommends is the use of adventure games, simulations and activities that require creative input to teach reading.

At the most basic level Irwin advises using the computer in a "language experience activity." Using a word processor, she suggests an adult work with a child whose reading skills are just forming. The child relays a short story or experience to the adult who types it onto the computer.

Once complete, the adult reads the story back to the child and the two make changes as desired, adding a few colorful adjectives, more descriptive verbs or other changes. The script is corrected on the screen, a printout is made and the child has in his hand a copy of a story he or she knows quite well.

For older children, the story can be entered without an adult's help and revised with or without consultation. "It's a natural application to the word processor," said Irwin.

"Children don't mind typing and proofreading on a screen. They aren't hampered by an eraser, so even revising is pleasurable. This use of the computer not only helps with word identification and reading skills, but with writing skills as well," she added.

Another good use of a word processing computer is in determining readability formulas. Traditionally, a readability level was determined by a manual counting of words and syllables. Now a computer does it automatically. For junior and senior high school students, knowing a story's readability encourages better writing and reading skills.

According to Irwin, students can determine the readability of a story that was just written and use that as a basis for improving their style. "They can add synonyms, adjectives and phrases to give their writing a more sophisticated flair," said Irwin. "And, many computers have spelling checks, too."

When it comes to the use of adventure games to teach reading, Irwin lights up with enthusiasm. Although they're not labeled for teaching reading, she says they offer a lot of drill and practice for the user. "Adventure games are excellent. They're terrific reading exercises and they're great for teaching decision-making skills and improving comprehension," she said.

Specifically, Irwin cites the "Birth of the Phoenix" for students fifth grade and above, and "Dragon's Keep" or "Troll's Tale" for primary grade children. The "Birth of the Phoenix" requires that players make decisions, draw maps, make inferences and use many skills in subtle ways. The games for primary aged children involve the use of maps and basically use the same skills re-

quired for advanced games but on a much more simplistic level.

Irwin also cites an adventure game that appears regularly in "Microzine," a quarterly magazine on a computer disc. It's called "Twist-a-Plot" and offers players seven or eight game endings to choose from.

Using simulation games is another way to teach reading, according to Irwin. "They're based on science, consumer education ('Lemonade Stand,' for example) and social sciences," she said. "Take the 'Oregon Trail,' . . . it's similar to the Lewis and Clark Expedition because it's based on actual diaries of the Westward Movement. The transfer of reading skills here is obvious."

When asked if this use of computers in teaching reading would cause children to shun traditional learning methods, Irwin suggested an integrated approach using visuals, books, and traditional teaching tools as well as computers.

She also expressed concern regarding the use of computers in affluent school districts and homes only. "Unfortunately, it's the affluent schools and homes that will be able to afford the latest in computer hardware and software. This will make the wedge between 'the haves' and 'the have nots' even greater."

Irwin, whose doctorate is in elementary administration and supervision, has always had a great interest in reading. Her computer interest began about three years ago when she purchased a word processor for home use. Currently she teaches one class in microcomputer applications in reading instruction at EMU among other classes.

Like most "computer converts" Irwin finds her home computer invaluable. "I even do my lesson plans and dittos on computer," she said. "I don't know what I'd do without it."

BY SUSAN BAIRLEY

'Healthline' program offers fitness clinics

Healthline, a fitness program sponsored by the Recreation/Intramural Department and Snow Health Center, will offer a series of self-directed clinics throughout the academic year. The clinics are open at no cost to all currently enrolled EMU students, Rec/IM members and guests who pay a guest fee. Clinic topics and dates for the fall term are as follows:

- Oct. 18 *Designing A Personalized Exercise Program*, Setting individual goals and objectives, determining your present fitness level, choosing your personal program, and building incentives and evaluating your program, 7:30-9:00 p.m., Olds Conference Room.
- Nov. 1 *How Fit Are You?* Setting realistic goals, health considerations, components of physical fitness, and nutritional assessment and physical testing, 7:30-9:00 p.m., Olds Conference Room.
- Nov. 15 *Warm-Up and Cool Down Programs*, Purpose and importance of a warm-up, demonstration of various warm-ups, benefits of a cool down program, demonstration of various cool downs, and what works for you, 7:30-9:00 p.m., Olds Conference Room.
- Nov. 29 *Weight Management through Nutrition and Exercise*, Determining ideal range of body weight, lifestyle changes through nutrition, use of set point theory in weight loss, and maintenance of ideal weight through exercise, and nutrition, 7:30-9:00 p.m., Snow Library.
- Dec. 6 *Introduction to Weight Training*, Different weight training methods, demonstration and explanation of equipment, selecting your training program, and evaluating your progress, 7:30-9:00 p.m., Olds Conference Room and Olds Slimnastics Room.

For information contact: Ellen Gold at 7-1338 or Mary Jean Schumann at 7-1122.

Advisor—Research

External Testing - Credit by Examination

The College Level Examination Program (CLEP) allows EMU students to earn credits for independent study or other life experiences. At the present time exams are available in 15 subject areas for EMU course equivalence. Test dates for the 1983-84 academic year are as follows:

Nov. 17, 1983
Jan. 19, 1984
Mar. 15, 1984
April 12, 1984

(No exams are given in December and February.)

CLEP tests are administered by the Academic Services Center. All applications for CLEP should be received at least three weeks prior to the test date at 229 Pierce Hall. For additional information on the CLEP, contact Michelle Sanford, at 229 Pierce Hall (ASC) 7-2170.

In addition, most academic departments also administer credit by examination or validation. Students must check with the specific academic department for testing information. In all cases, the University's regulations governing external testing, listed on pages 24 and 25 in the 1983-84 undergraduate catalog, must be observed.

Research in Undergraduate Institutions Programs

The National Science Foundation supports research in two categories under this program. The first, *Research Awards*, supports research in science and engineering in two settings (1) at the home institution, including work in the field, and (2) away from the home institution at a research university or laboratory. The second category, *Research Instrumentation Awards*, helps institutions acquire instrumentation that is essential for faculty research.

Contact R. Howard at 7-3090 for additional information.

Field Readers Sought

The U.S. Department of Education is accepting resumes from qualified individuals interested in serving as field readers for one or more of the following programs: Business and International Education, Fulbright-Hays Foreign Curriculum Consultant; Fulbright-Hays Doctoral Dissertation Abroad, Fulbright-Hays Group Projects Abroad; International Research and Studies; National Resource Centers and Fellowships; Undergraduate International Studies and Foreign

Languages; Institutional Support; FIPSE Comprehensive; FIPSE Mina Shaughnessy; and Minority Institutions Science Improvement.

Interested individuals should submit one copy of their current resume by Oct. 28, 1983, to Mr. William J. Craven, Management Information Specialist, U.S. Department of Education, 400 Maryland Avenue, S.W., Room 3036, ROB-3, Washington, DC, 20202.

Focus EMU is published weekly during the fall and winter semesters for faculty and staff at Eastern Michigan University. The deadline for copy is 5 p.m. Tuesdays for the next week's issue.

Participants

Several Eastern Michigan University faculty members have been involved in professional activities recently.

Dr. Howard Kamler, associate professor in the History and Philosophy Department, recently presented a paper titled "Value Change and Psychological Growth" to the Montreal congress. The paper will be published in the "Journal of Social Philosophy."

Also, Kamler has written another paper, "Life Philosophy and Life Style," which will appear in the journal "Social Indicators in Research." In addition, his paper "Strong Feelings" has been accepted for publication by the "Journal of Value Inquiry."

Dr. H. James Rokusek, professor and head of the Department of Business and Industrial Education, has written an article titled, "Job Burnout: A Persistent and Growing Problem for Educators." The article, which appeared earlier this year in "The Journal of Epsilon Pi Tau," focused on the characteristics, causes and remedies of job burnout and the implications for educational personnel.

Dr. Jack D. Minzey, head of the Department of Leadership and Counseling, has written an article titled "Emergent Leadership in Community Education," published recently in the "Community Education Journal." The article describes leadership styles and the manner in which these styles can be adapted to community education.

Dr. Virginia Koste, professor and director of the Drama and

Theatre for the Young program in the Communications and Theatre Arts Department, was a guest artist/professor at Emerson College's first Graduate Institute for Drama in Education held recently in Boston. Koste taught a workshop titled "Dramatic Experiencing: Catalyst in Learning" with Brian Way, internationally recognized expert from England and Robert Colby of Emerson and Harvard.

The workshop was attended by graduate and post-graduate professionals from as far as Germany and Hawaii.

Joan Laird, associate professor of social work, co-authored a book entitled "Family-Centered Social Work Practice." Published recently, the book is being used as a text by several undergraduate and graduate programs.

Also, Laird delivered a paper on "Myths and Rituals in Marriage" at the annual conference of the American Orthopsychiatric Association held earlier this year in Boston. In addition, she led a workshop on the same topic at the Michigan State Chapter of the National Association of Social Workers annual conference.

Dr. Giles F. Carter, professor of chemistry, gave a lecture on "Solving Numismatic Problems with Computers" at the American Numismatic Society's 125th anniversary conference in early September. His presentation covered the use of die-link statistics to calculate when coins were issued and various computer methods that can determine relative chronologies of issues of coins.

Joan Bush, lecturer in the English Language and Literature Department, has written a feature article, "Zip Code 48222," which appeared in the "Ann Arbor News" recently.

Richard Oltmanns, associate professor in the Center of Educational Resources, recently spoke at a meeting of the Lake City, Fla. Historical Preservation Board. His topic was "The Morphology of the Pyramidal-Roofed House in the Southeastern United States."

Oltmanns' presentation was a part of a 17-day research project he undertook earlier this year. This was his third trip to conduct research and photograph the pyramidal-roofed house in the southeastern United States.

Dr. Warren Williams, professor of educational psychology in the Teacher Education Department, recently conducted a series of microcomputer workshops for teachers at Ypsilanti High School. The workshops focused on increasing computer literacy of staff and using microcomputers to reduce the paperwork burden faced by high school teachers.

The workshops were part of the Ypsilanti School District's Professional Development Program coordinated by **Peggy Steig** of the Department of Health, Physical Education, Recreation and Dance.

Openings

The Personnel Office announces the following vacancies:

CLERICAL/SECRETARIAL (Minimum Bi-weekly Rate)

- CS-03 - \$392.04 - Clerk - Office of Financial Aid (accurate typing at 45 w.p.m., computer data entry experience or ability and willingness to learn is necessary)
- CS-05 - \$474.34 - Senior Secretary - Office of Affirmative Action (accurate typing at 70 w.p.m.; proficient in the use of shorthand system at 100 w.p.m.; computer (DEC-10) experience or ability and willingness to learn is necessary)

Final date for the acceptance of internal applications for the above positions is Oct. 25, 1983.

ADMINISTRATIVE/PROFESSIONAL/TECHNICAL (Minimum Bi-weekly Range)

- AP-14 - \$1,514.05 - \$2,392.20 - Associate Provost: Budget, Personnel, and Operations - Academic Affairs - Deadline Date: Dec. 1, 1983
- AP-14 - \$1,514.05 - \$2,392.20 - Associate Vice President for Academic Affairs: Program Development and Review - Academic Affairs - Deadline Date: Dec. 1, 1983

Internal applicants for the above Clerical/Secretarial and Administrative/Professional/Technical positions should submit a Promotional Openings Application form to the department in which the vacancy exists.

FACULTY

Department of Mathematics and Computer Science - Tenure track positions in Computer Science beginning Fall Semester 1984. A Doctorate in Computer Science or related discipline coupled with significant achievement in computer science is preferred. ABD is preferred. Deadline date: Feb. 29, 1984.

Temporary part-time lectureships teaching introductory computer science courses (Fortran and Pascal) during Winter Semester 1984. Requires Master's degree in mathematics or computer-related field, or a Bachelor's degree in a computer-related field with considerable experience in computer science.

WEMU 89.1

TUESDAY, OCT. 18

- 1 a.m. Jazz Scope After Hours
- 12:30 p.m. Let's Hear It - News and features of interest to the handicapped and the general public.
- 7 p.m. Spider's Web - Stories and tales for children.
- 7:30 p.m. A Canticle for Leibowitz - Science fiction drama.
- 9:10 p.m. Late Night Jazz Scope - with host Michael G. Nastos.
- 10 p.m. Jazz at the Institute - The George Benson Quartet at the Detroit Institute of Arts.

WEDNESDAY, OCT. 19

- 1 a.m. Jazz Scope After Hours
- 12:30 p.m. No Way Out: Teenage Suicide - "Surviving the Loss".
- 7 p.m. Kindred Spirits
- 7:30 p.m. American Workforce - "Structural Unemployment and the Structure of Unemployment."
- 10 p.m. Jazz in Profile

THURSDAY, OCT. 20

- 1 a.m. Jazz Scope After Hours - host Bret Julyk features the music of Mary Watkins' album "Winds of Change."
- 12:30 p.m. Plowed Under - A series about the problems of Georgia farmers and U.S. farmers.
- 7 p.m. Foreign Exchange - "East-West Trade: Views From Europe."
- 9:10 p.m. Late Night Jazz Scope - Michael G. Nastos surveys "Jazz Just Out," from the EMU library.

FRIDAY, OCT. 21

- 1 a.m. Jazz Scope After Hours - Bret Julyk features Sam Rivers' album "Colours" at 3 a.m.
- 12:30 p.m. Horizons - "The Quality of Mercy: The Rescued and the Rescuers."
- 7 p.m. The Leonard Feather Show - with jazz critic Leonard Feather.
- 9:10 p.m. When the Eagle Flies - hostess Carole Davenport features pre-World War II blues.
- 10 p.m. Portraits in Blue - "The Blue Side of Jazz Guitar."
- 11 p.m. Big City Blues Cruise - featuring "your platter pushin' papa," Martin Gross.

SATURDAY, OCT. 22

- 1 a.m. Jazz Scope After Hours - with Bret Julyk.
- 6 a.m. Morning Jazz Scope - with John Assenmacher.
- 7 a.m., 8 a.m., 9 a.m., 10 a.m. 11 a.m. News with Dawne Helene Albrecht
- 8 a.m. Big Band Spectacular - the best in big band music with host John Assenmacher.
- 12 p.m. Jazz Revisited - "Swingin' the Oldies"
- 1 p.m. Hurons '83 - with WEMU sports staff.
- 1:30 p.m. Huron Football - The Hurons visit the Toledo Rockets.
- 6 p.m. A Prairie Home Companion - Live with The Butch Thompson Trio, Helen Schneyer, Charlie Maguire and Maxine Sullivan.
- 9 p.m. Third World Dance Party - host Tom Simonian features Reggae Beat International.

SUNDAY, OCT. 23

- 1 a.m. Jazz Scope After Hours - host Bret Julyk features Jimmy Roger's album "Chicago Bound."
- 6 a.m. Morning Jazz Scope - with George Klein.
- 7 a.m., 8 a.m., 9 a.m., 10 a.m., 11 a.m. News with Terry Thrans
- 8 a.m. Sunday Best - with host George Klein.
- 12 p.m. Sunday Showcase - host Michael G. Nastos features Duke Ellington live at the Antiver Jazz Festival in the South of France at 2 p.m.
- 3 p.m. City Scene - John Mooney and Bob Cooper at the 1980 WEMU Fundraiser.
- 4 p.m. Big City Blues Cruise - with Martin Gross.
- 6 p.m. Jazz Alive! - The Molde International Jazz Festival, Molde, Norway.
- 9 p.m. New Directions - host Tom Simonian features Charles Amirkhanian during "Vox Box" at 11 p.m. and the LP "Skies of America" by Ornette Coleman at midnight.

MONDAY, OCT. 24

- 1 a.m. Jazz Scope After Hours
- 12:30 p.m. The Lawmakers - NPR's weekly look at the U.S. Congress.
- 7 p.m. Nuestro Mundo Hispano - News and public affairs for the area's Hispanic community.
- 9:10 p.m. Late Night Jazz Scope - "Music for a Blue Monday" - host Michael G. Nastos features the music of Mama Yancey.

Monday through Friday Regular Program Schedule

- 6 AM Morning Edition with Jeffrey Hoag
- 9:00 Morning Jazz Scope with John Assenmacher
- 10:30 Jazz Datebook
- 12 PM Noon Magazine with Steve Palma
- 12:30 Public Affairs - See Highlights
- 1:00 Afternoon Jazz Scope with Jim Dulzo
- 2:30 Jazz Datebook 5:30
- 5:00 News with Karen Pitton
- 5:15 Cafe du Jazz with Kevin Daly
- 7:00 Public Affairs or Drama - See Highlights
- 8:00 All Things Considered from National Public Radio
- 9:00 News with Karen Pitton
- 9:10 Late Night Jazz Scope with Michael G. Nastos

Lecture series studies women and technology

Dr. Jeffrey Luftig, professor and associate dean of the College of Technology, will speak on "New Technologies and the Changing Work Life" today at 5 p.m. in the Main Lounge of McKenny Union. Luftig's lecture is part of the "Women in Technology" series which runs through Dec. 6. It is sponsored by EMU's Department of Interdisciplinary Technology.

Speakers for the series include representatives from business, government, the media and academia.

The remaining schedule for the series is as follows:

- Oct. 25, Valerie S. Johnson, consultant to the Office of Business and Community Development of the Michigan Department of Commerce, will present "Women in High Tech Industry: Social and Economic Factors."
- Nov. 1, Dr. Patricia Rife, writer and consultant, will discuss "Profile of a Great Physicist: Lise Meitner."
- Nov. 8, Anne Monterio, of the University of Michigan's College of Engineering, will present "Women in Technical and Engineering Professions."
- Nov. 15, Edna Jackson, professor of biology and medical technology at EMU, will discuss "Women in Medical Technologies" at 6 p.m.
- Nov. 22, Dr. Winifred Warnat, director of the National Center on Teaching and Learning at EMU, will present "Women in the Automated Workplace."

Nov. 29, Katherine Erdman, vice president of corporate communications for Hoover Universal, will present "Women Managing Industry."

and Dec. 6, "Women in Telecommunications" will be discussed.

All lectures will take place at 5 p.m. in the Main Lounge of McKenny Union unless otherwise noted.

Health, Human Services alumni honored

The College of Health and Human Services honored distinguished alumni at a reception held Friday, Oct. 14.

Certificate awards were presented by Dr. Elizabeth Camp King, dean of the College of Health and Human Services and by department chairpersons.

Those alumni honored included Ken Arney, the director of social services at Chelsea Community Hospital; Dr. Jeannette King Dittman, associate professor of home economics at North Dakota State University; Jean Bazela, senior district manager at Roche Biomedical Laboratories, Inc.; Dr. Margaret M. Kirchman, associate professor of occupational therapy at the University of Illinois at Chicago and David L. Dawson, administrative associate of surgical nursing at the University of Michigan Hospitals.

ACE Fellows applicants sought

EMU will nominate two candidates to participate in the 1984-85 ACE Fellows Program in Academic Administration.

Since 1965 the program has provided higher education with a unique opportunity to identify and train future leaders. The program prepares promising individuals for progressively responsible positions in higher education. It also enables Fellows to test their abilities and interest in administration.

Fellows are selected through a national competition for a year-long internship, working closely with presidents and senior administrators who serve as mentors. Fellows observe and participate in all aspects of institutional administration. Of the 750 persons completing the program in the last eight years, 81 have become presidents, and about 350 others have served as deans and vice presidents.

Applications forms are available from the Provost's Office and must be completed and returned by October 31, 1983. EMU's two campus nominees will be selected and notified by Nov. 15. For more information about the program and to obtain nomination forms, contact Mary Wiermanski at 7-2237.

Kellogg-LNESC internships announced

The LULAC National Educational Service Centers, with support from the Kellogg Foundation of Battle Creek, announces the third year cycle of administrative internships in Washington, D.C. for 1984. The Kellogg-LNESC internships provide adult professional learning experience for Hispanics who have demonstrated an interest in improving their leadership quality.

The four internships will be 12-month appointments at the LNESC National Office, emphasizing development of management and administrative skills.

Individuals are encouraged to apply for the 1984 program, which begins in January 1984. The deadline for applications is Nov. 11, 1983. All applicants

must be U.S. citizens, hold a bachelor's degree, and be willing to relocate to Washington, D.C. for the year's internship. A transcript and three letters of recommendation will be required, as well as an application form, which must be requested from:

Kellogg-LNESC Intern Program
LULAC National Educational Service Centers
400 First Street, N.W. - Suite 716
Washington, D.C. 20001
202/347-1652

The stipend is \$16,000 plus fringe benefits. Persons holding full-time positions who can negotiate 12-month sabbaticals are particularly encouraged to apply.

Recruitment programs planned

Continued from page 1

- Dec. 1-3 *University Ambassador Weekend*, sponsored by the University Ambassador Society and the Division of Student Affairs for outstanding high school seniors, Starkweather Hall, Hoyt Conference Center, 7 p.m., Thursday, through 1 p.m., Saturday
- Dec. 10-11 *Ohio Student Weekend*, sponsored by the Division of Student Affairs for Ohio seniors and their parents, McKenny Union, Residence Halls, 11 a.m., Saturday, through 1 p.m., Sunday
- Feb. 8 *Community College Day*, sponsored by the Division of Student Affairs for Michigan community college students, McKenny Union, 8:30 a.m. to 3 p.m.
