LGBT PRESENTATION WILL DISCUSS MAPPING QUEER IDENTITIES: Too often LGBT and queer students' identities become a lived corporeal experience of hate and homophobia rather than an empowered sense of self. The presentation entitled "Elastic Literacies: Mapping Queer Identities and the Social Fault Lines of (In) Equality in Educational Spaces" will be held on **Friday, Feb. 7**, 12 p.m., in room 247, McKenny Hall, will explore the connective literacy experiences of three LGBT youth writers in the U.S.

The lecture will discuss how they use writing in digital environments as a means to combat gender inequality and homophobia and how these elastic literacy practices that they employ in virtual worlds redefine the social contexts of sexual space and place. By investigating how aims of combating gendered and sexual inequality are taken up discursively, this study explores how moral geographies and queer subjectivities "sit" in spaces, thus creating social fault lines and highlighting the nomadic subjectivities provided in queer narrative rhetorical practices of LGBT youth. Aiming to destabilize what we consider a "safe space," this presentation sheds light on the creating, curating, and composing youth use a means to not only write the self/ves, but, also, how they use writing as a process of reparation. This event is free and is LBC approved. For more visit www.emich.edu/equality or call 487-3032.
