

Alvin Ailey opens Guest Artist Series

The EMU Guest Artist Series will open its season with the Alvin Ailey Repertory Ensemble Monday, Nov. 11, at 8 p.m. in Pease Auditorium.

The Repertory Ensemble is a touring group of the Alvin Ailey American Dance Center. It is composed of graduates of the American Dance Center who are training while gaining performance experience. The company also provides an opportunity for young choreographers to work in a professional environment. The Ensemble performs works by new choreographers and from the Ailey repertoire. The works that will be performed at Eastern are "Summer Dance I and II," "Congo Tango Palace," "Migration" and "Blues Suite."

Tickets for the Alvin Ailey Repertory Ensemble are \$8 and \$10.50 for the general public and \$5 and \$7.50 for students and senior citizens. For ticket reservations or more information, call the Quirk Theatre Box Office at 7-1221.

The Guest Artist Series also will present the Chicago City Ballet Saturday, January 25 and the Michigan Opera Theatre Saturday, March 15.

New 85-86 budget up by \$4.5 million

A 1985-86 General Fund Operating Budget totaling \$74,493, was approved by the Board of Regents at its October meeting. The new budget is some \$4.5 million higher than the base budget approved in June.

The budget is funded entirely from current revenues and transfers with the exception of \$90,467 from the General Fund balance from 1984-85. A residual fund balance of slightly more than \$600,000 will remain unallocated.

The projected revenue includes \$47,506,721 in state appropriation, an increase of \$4.4 million over 1984-85, and tuition revenue totaling \$24,247,273. The actual funding appropriated by the state for 1985-86 is \$48.7 million, but \$1.2 million will be reserved for refunding the forward-funding deficit. The projected tuition revenue is based on an estimated enrollment of 15,132 full-year equated students producing 450,780 student credit hours.

Included in the budget is \$42,686,151 for personal services, \$2,273,320 for student employment, \$10,941,391 for faculty and staff benefits, \$10,650,427 for services, supplies and materials, \$1,235,322 for travel and transportation, \$1,712,510 for equipment, \$2,585,739 for financial aid, \$1,555,000 for mandatory transfers and \$853,988 for non-mandatory transfers.

Additions to the operating base for 1985-86 include \$289,522 for the Cooperative Education Program, \$252,441 for Intercollegiate

Athletics, \$69,000 for an interim budget for the Office of Promotion and Publicity and \$2,421,966 for approved and unresolved salary and benefit increases for University employees. Funding for Cooperative Education, Intercollegiate Athletics and Publicity and Promotion was approved in June. The Publicity and Promotion Office has been reallocated from the former Office of the Assistant to the President for Government and Community Relations.

The state appropriation specified five items for funding, including \$250,000 (\$187,500 during the current fiscal year) for acquisition of additional parking facilities, \$400,000 (\$300,000 during the current fiscal year) for research excellence and economic development, \$130,000 for the Language and International Trade Program, \$50,000 for the Youth Leadership Training Program and \$268,300 for instructional equipment.

Cost increases will include \$94,130 for utilities, an increase of 16.9 percent over 1985-86, and \$225,000 for departmental/divisional cost increases, to be distributed to individual departments and operating units on an individual basis as the base support is evaluated.

Four budget issues remain unresolved, including insurance expenses, additional faculty allocations, above-base proposals and the sinking fund to retire the forward funding deficit.

Regents Summary

The following agenda items were acted on by the EMU Board of Regents at its October meeting.

—A plan to reorganize the Center of Educational Resources (CER) into a Center of Educational Resources and Technologies was discussed. If the reorganization is approved at the December Board meeting, the CER would have new responsibilities in the areas of telecommunications and instructional computing. In addition, the position of director of the CER would be reclassified as dean of educational resources and technologies.

Other administrative position changes would include renaming the associate director's position associate dean, reclassifying the coordinator of the Instructional Support Center to assistant dean of media and instructional support services, reclassifying the position of supervisor of the Instructional Support Center to a higher grade level, and adding the new position of assistant to the dean.

—Heard a report detailing significant increases in the cost of the University's property and liability insurance coverage for 1985-86. The University's primary property and liability insurance programs were renewed effective Oct. 1 at total premium cost of \$731,356, a 216 percent increase over 1984-85 costs. The report also noted that severe decreases in policy limitations, higher deductibles, further restrictions in coverage and additional administrative costs were incurred. The report to the

Regents noted that similar insurance problems have been experienced by other colleges and universities in Michigan and throughout the U.S.

—Heard a report on corporate contract learning. In the report, the Regents learned that the proposed Corporate Training Center is envisioned as a broker for total training services to corporations and the community while the college service centers are expected to serve as the internal source of expertise in specific program areas. According to the report, the development of six college service centers will allow the Corporate Training center to offer a "standing menu" of specific training programs and an internal source of training and consulting expertise. Two of the centers, the Technology Services Center and the Center for Entrepreneurship, are already established while centers for Art and Humanities, Science and Mathematics, Education and Health and Human Services are under development.

As a result of the clarified focus of the center, the design of the facility is taking a new direction. Originally, the design was characterized by dedicated spaces appropriate to a Technology Services Center. Industry representatives on the Design Board feel the Corporate Training Center should position itself to respond to a wider market because most larger companies do their own technical training while the general management development area often is contracted out.

—Approved a contract with the Michigan Department of Transportation to fund the construction of the Quirk Theater entrance drive. The contract will provide \$47,550 for removal of existing pavement, curb and gutters and construction of a reinforced concrete driveway and 635 lineal feet of concrete curb and gutter, as well as sidewalk ramps and appropriate drainage structures. The driveway will provide access from Ford Street to the new north side entrance to Quirk Theater, which is nearing completion.

—Selected the Ann Arbor firm of Johnson, Johnson and Roy, Inc., as campus planning consultant. The company will assist the University in updating the campus master plan and will make recommendations concerning pedestrian and vehicular circulation, parking landscape and open space use and developable sites. The fee for professional services required to update EMU's campus plan will be \$19,500.

—Accepted 14 educational grants totaling \$2,555,892. Five of the grants, totaling \$185,420, went to EMU's Technology Services Center. The largest of the new grants was a \$68,150 grant from the Michigan Department of Education for the promotion of Distributive Education Clubs of America (DECA) program in Michigan. The purpose of the grant, which will be directed by Charles L. Crissy, head of EMU's DECA project, is to provide technical and administrative services to the Michigan Department of Education. Funding will be used to maintain current

Capsules

Lana Pollock To Speak On 'Women's Issues and Politics'

State Senator Lana Pollock will speak on "Women's Issues and Politics" at the class session for IDT 420, Women in Science and Technology, today at 5:15 p.m. in 215 A. Alexander. Guests are invited to sit in on the lecture. Call 7-1161 for more information.

Madonna College to Offer Hispanic Youth Program

Madonna College is currently recruiting collegebound Hispanics to participate in its Educational Access Program, which will begin in January, 1986.

Classes, materials and transportation are available at no cost to the student. Participants need only a strong determination to learn and a willingness to put in the necessary time. For more information, contact Sister Mary Martinez, CSSF/Director Educational Access Program, Madonna College, 36600 Schoolcraft, Livonia, MI 48150, phone (313) 591-5170 or 591-5000.

The application deadline is Friday, Dec. 6, 1985.

University Choir Presents Fall Concert

The University Choir will present its Fall Concert Sunday, Nov. 17 at 8 p.m. in Pease Auditorium.

The featured work will be the "Gloria" by the contemporary English composer John Rutter. The "Gloria" is scored for a mixed chorus, organ, brass and percussion. Dr. Mary Ida Yost, professor of music, will play the organ and members of the University Orchestra will perform the brass and percussion ensemble.

The University Choir is directed by Dr. Leonard L. Riccinto, associate professor of music.

Admission to the concert is free. For more information call the Department of Music at 7-4380.

Jay Zimmerman To Speak On 'Existentially Closed Groups'

Jay Zimmerman of Michigan State University will speak on "Existentially Closed Groups" Thursday, Nov. 14 at 3 p.m. in Room 709 Pray-Harold. The public is invited to attend the lecture.

Focus on Faculty

Prospective science teachers learn content and methodology

If today's junior high school students find their science classes a little easier than did their predecessors, it may be due to the award-winning science education their elementary school teachers received here.

EMU's "Preservice Elementary Teacher Education in Science" is a unique program which provides prospective elementary school

teachers with a well-rounded background in both science content and teaching methodology. The program was among 17 winners in the American Association of State Colleges and Universities' (AASCU) first "Showcase for Excellence" awards program earlier this year. EMU's program was one of three winners in the category of "Developing More Innovative Curriculums in Teacher Preparation Programs."

EMU's entry was written by Dr. Suzanne I. Stevens, associate professor of biology, and Dr. Horace A. MacMahan, associate professor of geography and geology. Stevens and MacMahan are in charge of the program along with Dr. Donald B. Phillips, professor of chemistry, and Dr. Walter L. Gessert, professor of physics and astronomy.

The program started in 1968, when some faculty members here saw problems with the science education of future elementary teachers. Those students were taking the minimum amount of science classes required for their major—a four-credit course in each of two science fields and a three-credit course in methods of teaching science to elementary school students. "When they are asked to do their student teaching, often the first thing they are asked to teach is science," said Stevens. "Many times, elementary teachers are not comfortable or confident about teaching science."

The students also were avoiding the quantitative sciences, chemistry and physics, in favor of earth science and biology. According to Phillips, the earlier courses in physics and chemistry were "insensitive to the unique needs of the future elementary school teacher."

This is still a problem in most colleges, Phillips wrote in the December/January 1985 issue of the *Journal of College Science Teaching*. "The physics and chemistry courses education students are now commonly exposed to are highly mathematical

and theoretical with little applicability to the elementary classroom and little or no laboratory work. The feeling seems to be that, since 'non-science,' that is, education, students surely won't be doing any laboratory work after graduation, do they really need to learn how? Also, a science methods course taken several semesters after the science content courses, and usually completely uncoordinated with them, does little to remedy the problem."

This led to elementary school teachers who were not adequately prepared to teach science and were particularly weak in physical science.

In 1968, ten representatives from Eastern's four science departments (biology, chemistry, geography/geology and physics/astronomy) and the Department of Teacher Education formed a committee to develop a plan to improve the science education component of the elementary teacher preparation program here.

The committee met weekly for several months. After lengthy discussions, the members formed a set of objectives and drew up plans for a pilot project. The program, which required the students to take a class in each of the four science departments, was made optional for students in 1969. The featured courses blended teaching methodology with content appropriate for elementary teachers.

The program was taught with voluntary student participants. In 1975, it was made a requirement for all elementary education majors, replacing the required basic studies lab science and elementary education general science classes," said Stevens.

Students normally elect to take biology before the other sciences, Phillips said in the *Journal* article, but in this program they are advised to take it last. This is for two reasons. First of all, biology is considered the most important

science for elementary teachers, and "we wanted the course to be the capstone," said Phillips. Secondly, since elementary science methods courses traditionally had been taught by members of the Biology Department, there were already two biology teachers who had developed contacts in area elementary schools. These contacts set up culminating activities for students before they entered student teaching.

Lab sessions provide "hands-on" experience with simple, inexpensive laboratory materials. Throughout the program, trainees teach local elementary science classes, from small-group micro-lessons to full class sessions.

The program is "really unique in Michigan," said Stevens. It started at EMU because it is the only university to have science education specialists in each science department. Stevens, Phillips and MacMahan all have their doctorates in science education.

There are two keys to the program's success, according to Phillips. The first is cooperation. "This close cooperation is rare. W. Scott Westerman, Jr., (dean of EMU's College of Education) goes out of his way to tell people—and to tell us, too—that it's a good program. The College of Education people say, 'we trust you in teaching our students.'

The other key, said Phillips, is concern. "The individual science departments are concerned about the education students. I was hired by this department 12 years ago specifically to teach Chemistry 101 (for elementary education majors). The Chemistry Department went out of its way to hire somebody with the qualifications to work with these students."

"I think that's true with most of us," said Stevens. "The Biology Department looks for people who have had at least five years of classroom teaching

experience.

"We're really proud of our program," she said. "When we contact teachers at science meetings or conferences who've been through the program, we find out that, besides actually teaching science, and they're confident of their ability to do it well."

—By Nancy Osborn

Donald Phillips

Colaianne appointed 504 coordinator

President John W. Porter has appointed Melonie B. Colaianne, acting director of Affirmative Action and Personnel Services, as the University's Section 504 coordinator.

The appointment places the University in compliance with Section 504 of the Rehabilitation Act of 1973 as amended. Colaianne will be responsible for compliance activities under the federal law and will serve as chairperson of a Section 504 Task Force currently being formed to address compliance issues at the University.

Individuals interested in serving on the University's 504 Task Force are encouraged to contact Colaianne at 7-0016 before Friday, Nov. 15.

Winter Commencement Ceremonies are scheduled for Sunday, Dec. 15 instead of Saturday, Dec. 14 as reported in the last issue of *Focus EMU*.

Keep Advisers Informed — They Inform Your Students
Guest Editorial — Duane M. Laws, professor, HECR

A major advantage of having full time advisers in an Academic Services Center, such as we have at EMU, is often overlooked or ignored by departments. This advantage is the help they give in advising our prospective majors. This help only exists when these advisers know clearly the curriculum programs of the various departments. Hundreds of new and transfer students go through their offices. When they understand the department offerings, they are able to suggest to students seeking majors the benefits of considering a certain program. If, however, the advisers are not informed of changed requirements that affect students, or given new information on majors or minors; the student may be misinformed; and neither the student's or the department's best interest is served.

When faculty in departments revise, update or create new major/minor programs, if they would share these results immediately with Academic Services, a beneficially cooperative exchange can occur. These advisers can serve department needs best by advising students correctly with up-to-date information about developing program.

My experience as faculty intern in Academic Services during Fall semester has convinced me of the value and dedication of our full time advisers at EMU. They really are an extension of each

department and can promote and inform students about our curricular offerings. The university advising system is very effective, if we use it.

Withdrawal Deadline

Tuesday, Nov. 12 is the last day for students to withdraw from an individual class and receive an automatic "W".

Reminders for Effective Advising

- Keep in frequent contact with advisees, take the initiative; don't always wait for students to come to you.

- Don't make decisions for students; help them make their own decisions.

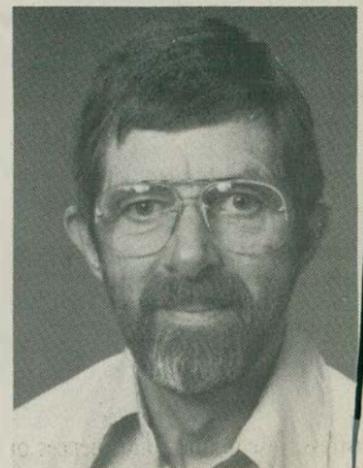

Advising Skills, Techniques and Resources, ACT

FOCUS EMU is published weekly during the fall and winter semesters for faculty and staff at Eastern Michigan University. The deadline for copy is 5 p.m. Tuesdays for the next week's issue.

Horace MacMahan

Editor's Note: Eastern's Staff Development for School Improvement (SDSI) program also was honored by the AASCU. Faculty members involved in SDSI will be featured in an upcoming issue of Focus EMU.

Applicants sought for Pollock scholarship

The Women's Commission announces that applications are being accepted for the Winter 1986 Lana Pollock Scholarship from persons who meet the following criteria:

- Two references with at least one being a faculty reference.
- An EMU grade point of 3.0 or higher.
- Financial need, or evidence of self-support despite parent claim of dependency.
- Junior or senior status.
- Enrolled at least half-time—six hours undergraduate.
- There will be a preference for those with non-traditional majors for their gender, and/or a history of interrupted study.

Application forms are available at the Financial Aid office. Deadline for applications is Monday, Nov. 25.

Training and Development

The Staff Training and Development Office has announced its workshops for November. Below is a list of the workshops scheduled for this month. All workshops require preregistration and most will be held in McKenny Union. For more information, call the Office of Staff Training and Development at 7-0076.

Financial Planning for Singles, today, in the Founders Room at 1:15 p.m. Tom Davis, personal financial planner for IDS/American Express, will discuss the need for singles to plan their finances and will explore ways of creating a budget and saving money. Cost for the workshop is \$10.

Improving Listening Skills, Wednesday, Nov. 6, in the Tower Room at 1 p.m.

Positive Imaging for Success, Thursday, Nov. 7, in the Founders Room at 9 a.m. Betsy Mall, president of Image Development, Inc., of Ann Arbor, will examine facets of face-to-face communication and will discuss factors involved in how a person presents himself or herself to others. Cost of the workshop is \$15.

New Employee Orientation, Friday, Nov. 8, in the Alumni Lounge at 9 a.m. Dr. Helen M. Burnstad, acting director of the Office of Staff Training and Development, will acquaint new employees with the history of EMU, present key personnel to new employees and introduce EMU's theme of student retention.

External Funding for Research and Projects Application and Administration, Tuesday, Nov. 12, in the Reception Room at 1:30 p.m. Donald Loppnow, interim director of the Office of Research and Development, Richard Howard and Cheryl Kozell, project officers for the Office of Research and Development, will describe the services provided by the Office of Research and Development, will demonstrate how to write a grant and will provide information on sources for funding.

How You Can Use a Will To Benefit Others, Tuesday, Nov. 12, in the Founders Room at noon. Gregory Schupra, coordinator of planned giving at EMU, and Roger Henning, director of planned giving for the Salvation Army, will describe ways to benefit heirs and analyze ways of caring for heirs.

Work Styles: A Method for Understanding Self and Others, Wednesday, Nov. 13, in the Reception Room at 1 p.m. Dr. Helen M. Burnstad, acting director of the Office of Staff Training and Development, will use the Personal Profile System (PPS) from Perforax to discover each participant's preferred work style. The work styles will be analyzed and applications of them will be discussed.

Managing Conflict Effectively, Tuesday, Nov. 19, in the Founders Room at 1 p.m. Debora Dubow, coordinator of Quality of Work Life, will increase participants' awareness of conflict and how it affects their work life. She will also impart to participants methods for handling conflicts in the work place.

Managing Stress, Wednesday, Nov. 20, in the Tower Room at 1 p.m. Dr. John McManus of the Psychology Department will define stress, discuss the consequences of stress on the body and identify and demonstrate stress-reducing techniques.

Group Dynamics: Groupthink, Wednesday, Nov. 20, in the Tower Room at noon.

Financial Planning for Families, Thursday, Nov. 20, in the Founders Room at 9 a.m. Tom Davis, personal financial planner for IDS/American Express, will assist families in planning their financial future, discuss ways of creating a family budget and examine options for handling family finances.

Training Strategies for the Adult Learners, Friday, Nov. 22, in the Reception Room at 8:30 a.m. Dr. John Cooper, product coordinator for Buick, Oldsmobile and Cadillac Group will provide information about adult learning theories, levels and learning styles.

How To Become Successful at Personal Leadership, Tuesday, Nov. 26, in the Founders Room at 1 p.m. Thomas T. Blackwell, president of the Institute of Mental Preparation for Effective Living (IMPEL) of Ypsilanti will define leadership, examine individual leadership styles and determine how to make the most of leadership abilities. Cost for the workshop is \$15.

I CAN'T BELIEVE IT'S BEEN THAT LONG! Vi Smith seems to be saying. Smith, supervisor, Senior Checkout in the Records Office, was honored recently for her 40 years of service to EMU.

Faculty Council Notes

Dr. Marshall B. Tymn is Faculty Council's honorary degrees chairperson for 1985-86. He assumes the position held last year by Professor Nelly Ullman of the Mathematics Department.

Tymn is the director of the national Workshop on Teaching Science Fiction and the author of numerous reference works and articles on science fiction and fantasy literature. An internationally recognized researcher, his books include *A Research Guide to Science Fiction Studies*, *American Fantasy and Science Fiction*, and *The Science Fiction Reference Book*. His articles, essays, and bibliographies have appeared in numerous journals and anthologies. Two of his books, *Fantasy Literature: A Core Collection and Reference Guide* and *Horror Literature: A Core Collection and Reference Guide*, received American Library Association awards as outstanding reference books for 1979 and 1981. Tymn is editor of the largest critical series in the field, *Contributions to the Study of Science Fiction and Fantasy*, and editor of the annual bibliography, *The Year's Scholarship in Science Fiction and Horror Literature*, a standard reference work in the field.

He is president of the International Association for the Fantastic in the Arts, and a member of many professional organizations in literature and the arts. His continuing interest in early American art and culture is reflected in his work with the papers of a pivotal figure in American landscape painting, Thomas Cole, which has resulted in two books. *Thomas Cole's Poetry and Thomas Cole: The Collected Essays and Prose Sketches*.

On the personal side, Tymn, a resident of Ypsilanti is married and has two children, a boy Matthew, 12, who attends West Middle School, and a daughter Rebecca, 7, who goes to Fletcher School. His wife Darlene is presently the personnel manager of Raycon Corporation in Ann Arbor.

Marshall Tymn

Research

Innovative Programs for Severely Handicapped

The U.S. Department of Education has set a Friday, March 21, 1986 deadline for receipt of applications to this program. Research, development or demonstration, training and dissemination activities will be supported that meet the unique educational needs of handicapped children and youth, including those who are severely handicapped. Funding will be available for the following:

- (1) non-directed demonstration projects for deaf-blind and severely handicapped children and youth;
- (2) supported employment for deaf-blind youth;
- (3) statewide systems change;
- (4) transitional skill development for severely handicapped youth;
- (5) education of severely handicapped children and youth in the least restrictive environment; and
- (6) inservice training for severely handicapped children and youth.

Contact Cheryl Kozell at 7-3090 for application forms and program guidelines.

University Affiliation Program

This program, sponsored by the U.S. Information Agency, seeks to facilitate bilateral institutional relationships between U.S. and non-U.S. institutions that promote mutual understanding through faculty and staff exchanges.

Participating institutions: assign faculty or staff to the partner institution for teaching or research, maintain those persons on full salary and benefits and receive visiting faculty from the partner institution.

Approximately 25 awards are available through the regular program competition in 1986. In addition, another five grants are available for Central American countries; up to five grants are available for projects related to the Bicentennial of the U.S. Constitution; and up to five grants are available for community and junior colleges.

The deadline for submitting proposals is Tuesday, Feb. 18, 1986. However, proposals received by Friday, Jan. 17 will be reviewed for technical eligibility so that corrections may be made in time to meet the February deadline.

For further information on this program, contact Rick Howard at 7-3090.

Summary

Continued from page 1

DECA chapters and start new ones, to prepare and disseminate materials to chapters, to conduct inservice activities for advisers and other club-related activities.

—Accepted gifts totaling \$365,130 for the months of July, August and September. This compares to \$92,257 contributed to the University during the same period last year. For the year, the University has received \$1,211,027, compared to \$865,426 at the same point a year ago. Cash gifts to date total \$430,450 compared to \$381,937 through the third quarter of 1984. The largest gifts were three bequests, \$79,744 from the estate of Glenn and Mary Chappell, 1930 EMU graduates, for the Quirk Improvement Project and the EMU Development Fund; \$78,155 from the estate of Leone Perry, a 1912 graduate, for the Quirk Improvement Project; and \$32,559 from the estate of alumnus George York for the George York Scholarship in history education.

—Established a 25-member **Commission on Creative Strategies To Solve the Educator**

Crisis. The Commission will be charged with examining teacher education programs at EMU and developing recommendations for strengthening those programs.

—Approved a **1986-87 budget request** to the Michigan Department of Management and Budget totaling \$55,839,963 for the institutional fiscal year. The request reflects an increase of \$8,333,242 or 18.9 percent over the 1985-86 state appropriation of \$48,916,294. This includes \$3.6 million or 6.1 percent to support the base program and nearly \$4.7 million for program revisions.

—Approved a **1986-87 Capital Outlay Request** for 24 projects totaling \$15,485,000. The projects include \$4 million for the renovation of Pierce Hall, \$1.45 million for architectural barriers related capital improvements and \$1.57 million for the renovation of Sherzer Hall.

—And heard a report detailing activities of the EMU State/Federal/Community Relations Coordinating Council, New Ventures Committee and Office of State, Federal and Community Relations.

High school choral workshop scheduled

The vocal area of the Music Department here will present a Choral Workshop for high school students Friday, Nov. 15, in Pease Auditorium.

More than four hundred singers from nine high schools will participate in the workshop. Participants include choirs from Monroe, Novi, Walled Lake-Western, Brighton, Kettering, Lahser, Marshall, Henry Ford and Western-Jackson. The singers will rehearse four choral works under the direction of Professor Leonard Riccinto, the director of the University Choir.

Members of the voice faculty and selected graduate students will perform a mini-recital of art songs and operatic works at 10:30 a.m. The afternoon session will begin at 1 p.m. with an open rehearsal of the Madrigal Singers directed by Professor Emily Lowe and will conclude with a performance by the University Choir at 3 p.m.

There is no charge for the workshop, which runs from 9 a.m. to 3:30 p.m.

Events of the Week Nov. 5-11

Tuesday 5

- BREAKFAST** — The Ypsilanti Chamber of Commerce will meet and will feature Rep. Gary Owens, Guild Hall, McKenny Union, 7:15 a.m.
BREAKFAST — Health and Human Services will hold a faculty breakfast, Oxford Room, McKenny Union, 7:30 a.m.
WORKSHOP — The Office of Staff Training and Development will hold a workshop on the EMU financial records system, Reception Room, McKenny Union, 9 a.m.
WORKSHOP — The Career Services Center will host a presentation by First Investors, Room 405, Goodison, 10 a.m. and 2 p.m.
WORKSHOP — Career Services Center will host a workshop on effectively dealing with career or educational changes, 4th Floor Goodison, 11 a.m.
LUNCHEON — The Holy Trinity Chapel, United Ministries in Higher Education and the University Lutheran Chapel of the Resurrection will host a faculty luncheon series titled "Not Just Yes and Amen: Christians with Cause in Profession." This week's speakers will be Richard Luecke and Hubert Locke of the Christian Ethics Institute. Admission is \$2.50, University Lutheran Chapel, noon.
WORKSHOP — The Office of Staff Training and Development will sponsor a workshop titled "What You Are Is Now," Reception Room, McKenny Union, noon.
LUNCHEON — The Office of Sports Information will host the Quarterback Luncheon. Cost is \$5, Spaghetti Bender, noon.
MEETING - UAW Local 1975 Bargaining and Grievance Committee will meet today and every Tuesday through November, Gallery I, McKenny Union, 12:30 p.m.
WORKSHOP — The Office of Staff Training and Development will host a workshop on financial planning for single people, Founders Room, McKenny Union, 1:15 p.m.
MEETING — The Christian Ethics Institute will meet, Guild Hall, McKenny Union, 4 p.m.
WORKSHOP — The Career Services Center will host a workshop on communication strategies to create a professional image, Room 405, Goodison, 7 p.m.
MEETING — AFSCME Local 1666 will meet, Reception Room, McKenny Union, 7 p.m.

Wednesday 6

- MEETING** — The Development Office will have a staff meeting, Faculty Lounge, McKenny Union, 8 a.m.
