On this day...

Fact: Chat Moss is a large area of peat bog that makes up 30 percent of the City of Salford, in Greater Manchester, England. Chat Moss is thought to be about 7,000 years old, but peat development seems to have begun there with the ending of the last ice age, about 10,000 years ago. The depth of peat ranges from 24 to 30 feet (7 to 9 m).
