EMU UNIVERSITY HEALTH SERVICES OFFERS SCREENING FOR TRAVELERS WHO MAY HAVE BEEN TO A COUNTRY AFFECTED BY EBOLA OUTBREAKS:

While Ebola poses little risk to the U.S. general population, the Center for Disease Control (CDC) has recommended that college health services contact all students, staff and faculty coming to campus from any of the countries where Ebola has had a significant impact. EMU University Health Services (UHS) will be conducting phone screenings for those who, within the past 21 days, may have been in a location where outbreaks have occurred. If UHS determines that someone is at risk, it will work with the Washtenaw County Health Department for guidance on how that person should be monitored.

UHS has reached out to those who it believes to have traveled to/from an area of concern; however it can be difficult to identify all who might be affected. For those who may have traveled to or from Guinea, Liberia, Sierra Leone, or Nigeria within the past 21 days, please call University Health Services at 487-1122, so that staff can determine your level of risk exposure and provide you with information for monitoring your health. When calling, please let UHS know that you were recently in one of the countries where outbreaks are occurring and that you would like to speak with a

nurse. For those seeking further information, you may access the [CDC website and read the "Advice for Colleges, Universities and Students on Ebola."](#)
