EMU UNIVERSITY HEALTH SERVICES OFFERS SCREENING FOR TRAVELERS WHO MAY HAVE BEEN TO A COUNTRY AFFECTED BY EBOLA OUTBREAKS: While Ebola poses little risk to the U.S. general population, the Center for Disease Control (CDC) has recommended that college health services contact all students, staff and faculty coming to campus from any of the countries where Ebola has had a significant impact. EMU University Health Services (UHS) will be conducting phone screenings for those who, within the past 21 days, may have been in a location where outbreaks have occurred. If UHS determines that someone is at risk, it will work with the Washtenaw County Health Department for guidance on how that person should be monitored.

UHS has reached out to those who it believes to have traveled to/from an area of concern, however it can be difficult to identify all who might be affected. For those who may have traveled to or from Guinea, Liberia, Sierra Leone, or Nigeria within the past 21 days, please call University Health Services at 487-1122, so that staff can determine your level of risk exposure and provide you with information for monitoring your health. When calling, please let UHS know that you were recently in one of the countries where outbreaks are occurring and that you would like to speak with a nurse. For those seeking further information, you may access the [CDC website and read the "Advice for Colleges, Universities and Students on Ebola."](#)

The third Star Lecture will be held on **Tuesday, Nov. 18**, 7 – 8:30 p.m. in the Student Center Ballroom. Brian Bruya, assistant professor of philosophy at EMU will talk on "What is Effortlessness?"

Everyone knows what it feels like to accomplish something with a feeling of effortless, but creating a theory of human behavior that includes a concept of effortless has proven to be difficult. In this talk, Bruya will discuss three approaches toward effortless that can contribute to a workable theory of effortless. From early Chinese philosophy, he will discuss elements of Daoist spontaneity; from behavioral psychology, he will discuss work in post-voluntary attention and autotelic experience; and from cognitive science, he will discuss studies on the focus and control of attention. Together, these disparate approaches help us understand effortless as an objective phenomenon, as a subjective experience and as an avenue for improving one's life. To see the complete series, please visit [2014-15 Star Lecture Series](#). For questions, please contact Rebecca Sipes at rsipe@emich.edu.

"THE RICHLI TEXTURED LIFE" - TOPIC FOR 2015 STAR LECTURE SERIES: The Honors College proudly announces the 2014-15 Star Lecture Series: "Soar Higher: Pursuing a life well-lived." The forth Star Lecture will be held on **Tuesday, Jan. 13, 2015**, 7 – 8:30 p.m. in the Halle Library Auditorium. Ron Delph, professor of history at EMU will speak on "The Richly Textured Life."

How does one achieve a richly textured, well-lived and fulfilled life? This is not merely the result of success in one's chosen profession, although that is important. It is not dependent upon material wealth, although that too plays a role. A large circle of friends and family are part of the equation, of course, but they alone will not define a well-lived, fulfilled life. Fulfillment in life, and creating a life that is well lived and richly textured, comes when an individual's thoughts, actions, time, and engagement allow him or her to nourish the mental, physical, emotional, and spiritual needs inherent within the human condition. Creativity, kindness, wonder, sweat, an appreciation of beauty and a sense of one's place in the world—past, present and future—all are present in a life well lived. In his talk, professor Delph will explore the many facets that go into a life well lived and show how they work together to create a rich and rewarding, fulfilled life. To see the complete series, please visit [2014-15 Star Lecture Series](#). For questions, please contact Rebecca Sipes at rsipe@emich.edu.
