The Normal School averaged the defeat handed them by Hillsdale last year by a score of 27 to 0. The game was not as close as the score would indicate, as Ypsilanti outscored their opponents, the Baptist team, 27 to 6.

On November 17, the Normal School defeated Albion College by a score of 13 to 7. The Normal School scored four touchdowns, for a total of 28 points, in addition to Mr. A. W. Wilder's three-yard punt, which was returned for a touchdown. Albion, on the other hand, scored only once.

The Normal School's key player in their victory was Rockwell, who carried the ball for 30 yards and scored a touchdown. In the second half, Hillsdale tried to cut into the Normal School's lead, but they were unable to do so. "Tod" having the better of the argument, Hillsdale's only score was a touchdown by a 25-yard pass fromterritory, Williams made thirty yards consequently they resorted to end territory, but with little or no success. Near the end of the first half, Hillsdale, in their Normal territory, Williams made thirty yards territory, they scored a touchdown. In the second half, Hillsdale Hillsdale made several first downs the Normal School, but with no success. Near the end of the third quarter, Hillsdale made an attempt to score a touchdown, but their effort was unsuccessful. They were, however, successful in blocking the Normal School's attempt to score a touchdown in the second half.

The Normal School's defense was strong, and they prevented Hillsdale from scoring. Their offense was also strong, with Rockwell and Williams leading the way. The Normal School's victory was well-deserved and will be remembered as one of the highlights of the fall term.

The Normal School's strength in both defense and offense is evident in their victory over Albion College. Their defense prevented Hillsdale from scoring, while their offense scored four touchdowns. The Normal School's victory is a testament to their hard work and dedication.

The Normal School's victory over Albion College is a significant milestone in their season. Their strong performance against Hillsdale and Albion College will contribute to their success in the upcoming weeks. The Normal School's fans and supporters can look forward to more exciting games to come.
The curfew tolls the knell of parting day
The lowing herd winds slowly o’er the lea;
The gauzy clouds, that症bly spread their vesture
Across the empyrean expanse, are fast disaster.
The fourteenth point of the training school is a gymnasium for athletic and physical training. The students are engaged in various sports and exercises, such as football, basketball, and track and field. The gymnasium is equipped with modern facilities and is used for both indoor and outdoor activities. The students are required to participate in physical education classes to maintain their physical fitness and health.

The fourth grade of the training school is a music class, which provides instruction in music theory, composition, and performance. The students are taught to play various instruments, such as the piano, guitar, and violin. They also learn to read music and perform in a variety of musical styles.

The fifth grade of the training school is a science class, which provides instruction in various scientific disciplines, such as biology, chemistry, and physics. The students are taught to conduct experiments and learn about the natural world. They also have the opportunity to study the history of science and the contributions of famous scientists.

The sixth grade of the training school is a social studies class, which provides instruction in history, geography, and economics. The students learn about the development of human societies and the impact of historical events on the world. They also study the geography of the world and the natural resources that are important to the global economy.

The seventh grade of the training school is a language class, which provides instruction in various languages, such as English, Spanish, and French. The students learn to read, write, and speak in a foreign language. They also have the opportunity to study the culture and history of the countries where the languages are spoken.

The eighth grade of the training school is a literature class, which provides instruction in various literary works, such as novels, poems, and short stories. The students learn to read and analyze literature, and they also have the opportunity to write their own literary works. They also study the history of literature and the contributions of famous authors.

The ninth grade of the training school is a math class, which provides instruction in various mathematical concepts, such as algebra, geometry, and calculus. The students learn to solve complex problems and to apply mathematical concepts to real-world situations.

The tenth grade of the training school is a science class, which provides instruction in various scientific disciplines, such as biology, chemistry, and physics. The students are taught to conduct experiments and learn about the natural world. They also have the opportunity to study the history of science and the contributions of famous scientists.

The eleventh grade of the training school is a social studies class, which provides instruction in history, geography, and economics. The students learn about the development of human societies and the impact of historical events on the world. They also study the geography of the world and the natural resources that are important to the global economy.

The twelfth grade of the training school is a language class, which provides instruction in various languages, such as English, Spanish, and French. The students learn to read, write, and speak in a foreign language. They also have the opportunity to study the culture and history of the countries where the languages are spoken.

The curriculum of the training school is designed to provide a well-rounded education for its students. The students are taught a variety of subjects, which help them to develop critical thinking skills and to become well-informed citizens. They also have the opportunity to participate in extracurricular activities, such as sports and music, to develop their talents and interests.

GARDEN PROJECT CLUB
(The following item was credited out of two issues by pressure of news.)
The campus may not know of the existence of a quiet but energetic little organization called the Garden Project Club, since the flower sales held in the halls the two Fridays past have been its only public appearance. The dual purpose of the club is to salvage the normal waste of vegetables and flowers from the college gardens, and with the money from their sale buy needed equipment for the part of the campus. Their proceeds so far have averaged $500 a year. Last year they planted the attractive geraniums in the science garden, and also added to the campus pets that coming, mild, little tractor, which nevertheless earns its bread and keeps the club in dreaming big things for this year's venture, but is not yet quite ready to do anything useful.

TRAIL BLAZERS CLUB
An enthusiastic meeting of the Michigan Trailblazers was held on Monday evening, November 14, with Prof. and Mrs. Home at their home. Did they have a good time? Ask a Trailblazer! Were they thrilled with Miss Bickford's report of "The Brown Mouse"? Ask a Trailblazer! Were they inspired by Miss Alton's interpretation of "The Corn Lady"? Ask a Trailblazer! Were they all over the place for coming events? Ask a Trailblazer! There's no shame in enjoying the games they played. They were the funniest group games any one ever laughed at. Would you like to have them to add to your private collection? If so, just Ask a Trailblazer!
The next meeting will take place on Monday, November 28, at the home of Dr. Pittman, 641 Pearl.

Dr. D'Orge has been invited by Dana, West of Princeton University, to attend a faculty meeting in Chicago, November 26. The meeting is in connection with a national survey of classical scholars and things which represent the schools of Michigan.

LIBRARY

A LIBRARIAN'S
CHRISTMAS LETTER
"My dear Santa Claus:
I remember so well when you brought me my first Christmas book that I want you to send books to some little girls and boys.
"This is Children's Book Week, the third week in November (which happily began on the 15th), Robert Louis Stevenson's birthday. I'll bet the librarians everywhere are telling people to begin selecting books for the children and then hurry up the book shops, so you can have the books in your shop on "The night before Christmas."
Copied from Bookshelves for November, 1921.

There is a splendid collection of children's books in the Training Department library, which is an ideal place to select Christmas gifts. The following list may also serve to suggest other books:
- For the Younger Children:
  - Kilbourne—Baby Polar bear and the walrus.
  - Kilburne—Baby reindeer and the snow fox.
  - Potter, Beatrix—Squirrel Nutkin.
  - Smith, Boyd—Circus book.
  - Smith, Boyd—Noah's Ark.
- For Older Children:
  - Drexel—Polly of Lady Gay Cottage Hall, L.—Peterkin papers.
  - Heyliger—High Boston.
  - Perkins—Puritan twins.
  - Roosvelt—Letters to his children.
  - Roosvelt—Stories of the great west.

THE STANLEY STORE
707 W. Cross St.

A COMMON CASE
"My employee have closed togeth- er and taken a half-interest in the concern."
"That's nothing. My employees never did have but a half-interest in my concern."

Mattress—"I don't want you to have so much company. You have more callers in a day than I have in a week!"
Domestic—"Well, mum, perhaps if you'd try to be a little more agreeable, you'd have as many friends as I have."

BEFORE OR AFTER Mrs. Ayres—"How did it happen, Ellen, that you never saw finger bowls before? Didn't they use them in the last place you worked?"
Ellen—"No, mam; they mostly washed themselves before they came to the table."

AN INDISCREET ADMISSION
Doctor—"You have not been at death's door, and only your strong condition has saved you."
Patient—"I hope you will remember that when you send in your bill."

STUDENT PHILOSOPHY
"Sedentary work," said the college lecturer, "tends to lessen the re- ducations.
"In other words," boasted in the smart student, "the more one sits the less one can stand."
"Exactly," retorted the lecturer, "and if one tins a great deal one's standing is lost completely."

GOING TO BILLSLAND
Nervous Student—"What if the bridge should break and the train fall into the river?"
Conductor—"Don't worry, sir. This road won't miss it. It has a lot of tracks."

YANKED ATTRITION
The Band—a "You need to say there was something about me you liked." Beauty—"Yes, but you've sport it in white."
Johnny—"Did Moses have dyspnea like what you've gut?"
Lady—"How on earth do I know? Why do you ask such a question?"
Johnny—"Well, our Sunday School teacher says the Lord gave Moses two tablets. —London Mall.

An advertisement from a Siamese newspaper: "The news of English, we tell the latest. Write in correct style and you will be excused. Do a murder and count us and tell it of. Do a mighty chief die, we pub- lish it and in borders of somber. Staff has each one been college, and work like the Kipling and the Dick- ens. We guarantee to lean and extraordinary not for advertisements. Buy it!"

WILLARD CLUB
The Willard Club held its most in- teresting meeting to date last Thurs- day evening. Miss Hunter gave an interesting seven-minute talk upon the great purpose of the Washington convention and Miss Hutton made a vigorous plea for Irish independence. A debate followed upon the proposition, "Resolved, that women should receive equal pay with men for equal work," in which Misses Dore, Pfeiffer, Tompkins and Professor Mc- Kay participated. Eighteen members are on the roll, and programs are forthcoming weeks, as one may advance.

WODESO
The Wodeo debate club enjoyed a very interesting program at its regular meeting Thursday, November 10. The program opened with a seven-minute talk on "The Irish Question" and one on "The Disarma- ment Conference." The question for debate was, "Resolved, that women should receive equal pay with men for equal work." The decision was two to one in favor of the negatives. Several new members have entered the club and prospects for a good live debating team for this year seem very promising.

FRATERNITIES
ALPHA TAU DELTA
The Alpha Tau Delta fraternity held its annual Tau Dinner Wednes- day evening. The banquet was served at Dickerson's Restaurant and was attended by a large number of alumni brothers. The chapter's pat- ron, Dr. Harvey, acted as toastmaster.

OUR TRIBUTE TO FRANCE
The following note is contributed by the pupils of the seventh grade of the Training School:
"Marshal Foch is now in America. He was heartily welcomed by thou- sands of people. Probably the great- est celebration in his honor was that at Detroit where the man of the hour was greeted by the Marshal's salute, the firing of guns, and the cheering of a multitude of people.
"The children of France gave us the statue of Liberty in 1886. In the children of America are going to give France a great public school. The schools are to be well equipped. A lot of the schools were destroyed in the war. The schools are to be called The Wash- ington Academies and the Foch- Pershing. The high schools were named after four of the greatest men in history.
"The fund for these schools is now being raised. Each child is to con- tribute one cent. The Normal Training School at the present has a fund of $4.50 which we hope to have in- creased."
