as a result of being hit by a batted ball. Bartells gave up two more runs in the ninth inning to give the Bluecoats a 3-1 lead. In the bottom of the ninth inning, Yeakey and Crittenden scored on a single hit by Asa to cut the lead to one. The Fighting Bluecoats won the game 3-2.

The Normal College baseball nine was later first game of the season Saturday when they defeated the Detroit College of Law team at Normal field, 6 to 9. The Detroit aggrega
tion presented a crippled lineup, and as it was without the services of three of its men, Yeakey, Cridden and Matho were loaned it for the afternoon.

The Normal was on the mound for the Normals when the game opened. During the first four innings in which he pitched, he gave a good account of himself, striking out six men and holding the batteries hitless. Only two Detroiters reached first base, one as a result of a field hit by a batted ball, the other because of a wide throw. Four times he was taken for a ball, and Bartells could not handle.

In the second inning, Yeakey reached first base by an error, and by the time he had worked his way around the bases, three runs had

A result that eight Ypsi men reached the goal, and that seventeen young women students at the Michigan State Normal College had been dismissed for smoking.

The high school authorities of the Normal College have announced the removal of all girls who smoke from the normal. The girls, in their school work and social con

The minutes of the previous meeting were read. The classes were then called to order by the president, Mrs. colin. The roll was called, and the following students were present:

The first concert of the season was held in the auditorium of the Normal College High School. The program consisted of a special feature in the form of a Kalamazoo performance of the music of the period, with a variety of numbers by the Normal College Choir, under the direction of Mr. L. A. Alexander.

The Normal College Choir, under the direction of Mr. L. A. Alexander, was presented with a splendid program of music for its first concert of the season. The choir, which consists of eight acts, entirely different from those presented last year, will be produced during the intermissions between the acts. The second performance, which will take place this evening, will be in the hands of the same orchestra, entirely different from that presented in the first act. Those who saw last year's performance will find no further evidence to witness the usual mixture to which we were treated in the evening of last year. The evening will be a repetition of the same mixture, which was given before the audience in the evening of last year. The evening will be a repetition of the same mixture, which was given before the audience in the evening of last year. TRAIL BLAZERS CLUB

The Trailblazer Club met at the home of Mr. and Mrs. Fritts Monday evening, April 17. Plans were made to entertain students of the County Normal on May 23 and 26. The purpose of these plans is to create a center for rural work in Ypsilanti.

President McKenny gave a most interesting description of his trip through the south, which he took last week. He made all who heard him feel as if they were sightseeing for themselves.

Preparations are under way for the celebration of the seventieth anniversary of the Michigan State Normal College at the annual commencement this year. A number of interesting features are planned for the program. The committee in charge of the plans is: Prof. Wilber, Prof. Poe and Prof. Lott, representing the faculty, and Regis. C. P. Brinch and Prof. Alpersmann, representing the alumni.

LIBRARY

A catalogue just received from the Normal and Training School, Honolulu, names Edith Farnsworth, B. P., Normal College, one of the faculty, as a teacher of English literature. Donna Sullivan, a former assistant in the college library last year, attended the Carnegie Library School, Pittsburgh, for the training of children's librarians, and has a position in one of the Detroit Branches of the Public Library.

OUR OWN BOOK SHELF

"I keep six honest serving-men (They taught me all I know): Their names are What and Where and When And How and Where and Who."

Professor Harvey has written a book called "Psychology of the Common School Subjects" which answers many of the one million whys which arise in the mind of anyone who is trying to help children master the intricacies of elementary subjects.

The first chapter is devoted to the teaching of writing. The shibboleths of arm movement, the drill of funning circles, spirals, and lines so common in conventional systems, and the blind attempts to make us all write at the same speed are relegated to the attic with all the rest of the outgrown educational theories. He makes clear to even the most untrained that legibility is the thing to be attained and he shows clearly the processes necessary to attain this end. One of his most significant contributions is the discussion of how to use different writing styles in which their values and limitations are carefully explained.

In the section given over to spelling, Professor Harvey differs radically from many psychologists when he contends that the spelling vocabulary should keep pace with the reading vocabulary. "The principal effort in drill in spelling is upon the words that are found in the child's reading vocabulary and not in his writing and spelling vocabulary." This is a debatable, but interesting point of view.

The chapters on arithmetic and reading should be quoted in full, for they are so sound in theory and practical in their suggestions for achieving results. The chapter on the teaching of grammar is handled from a psychological viewpoint rather than from a psychological one, it seems.

The book is helpful and stimulating. Professor Harvey is never dogmatic and his open-minded attitude is shown here, as in his other books, by his desire for more data and further experimentation before there can be a fuller statement of the problems involved in teaching the different school subjects.

**FRESHMEN SWAMP SOPHOMORE TEAM**

The Freshmen-Sophomore track meet, which was held Saturday afternoon at Territorial School, was won by the Freshmen who defeated the seniors, 80 to 70. The track meet was the first of the season but the 440 yard dash, in which Wesley, Sophomore, won first place. The college two-mile record of twelve minutes which was held by K. W. Stowers, 11th, was broken by Taylor, a Freshman, who ran the distance in 11 minutes, 14 and 1/4 seconds. C. R. Smith, with four first places was the top winner with twenty-two to his credit. Wales Gemmell showed up very well in the mile, half mile, and two mile events, getting twenty-three points. Following are the winners of the meet:

**Sprints**

- Silas Hurst, distance, 200 yards: time 26.2 seconds.
- Wesley, distance, 440 yards: time 60.6 seconds.
- Wesley, distance, 300 yards: time 45.2 seconds.

**Relays**

- The Century Club, distance, 880 yards: time 2 minutes 16.6 seconds.
- The Century Club, distance, mile: time 4 minutes 22.6 seconds.

- The Century Club, distance, 440 yards: time 60.6 seconds.

**Three Miles**

- Wesley, distance, 3 miles: time 20 minutes 9 seconds.
