Miss Wilson of the fifth grade gave a demonstration lesson in Geography on Thursday for Prof. Leslie Biltz's class in Principles of Teaching in the School of Education at the University of Michigan.

Miss Slivens, on receiving her degree of Master of Arts at Teachers' College, Columbia, in June, passed a geography tour conducted by a Chinese professor and is seeing Glaciers, the Yellow Stone, Garden of the Gods, etc.

Miss C. Gertrude Phelps, on leave of absence, has been teaching physics at Lincoln school, the experimental school of Teachers' College, Philadelphia. This added work necessitated her receiving a bachelor's degree in Arts in the summer.

Letters have been received from Southampton, steamship Aquitania, dated June 20, from Miss McDe rmott, to the effect that she will be on hand for the opening week of recreation and makings special arrangements for the opening week of recreation and making special arrangements for the little Black Sheep. They will write a beautiful voyage and good luck to them.

Miss Wombough, returning from a three-months' travel in North Africa, Sicily, and Italy, is spending the summer in our White Mountains.

The Training Department library is now a home of rest for those working on elementary and secondary educators and reading lists for school libraries. The large collection of hand-bound illustrated books receives special attention, and the Little Black Sheep group in the room for many little folks affords much amusement to the grown-ups.

"I'll tell you," went on the elderly woman at the hotel, getting good and huffy, "I won't have this room. I ain't going to pay my money for a place that isn't big enough to swing a cat, and for sleeping in, and for folding beds. I simply won't do it!"

The boy could stand it no longer.
"Get on in, man," said he, with a weary motion of his hand. "This ain't your room, it's the lift."—Edgerton Sentinel.
