At the end of the fall term of last year Dr. Ford of the Modern Language department went on a trip across the continent from one end to the other — Alpa on one hand, their open plains and vast stretches of prairie, and on the other — Alps on one hand, their snow-capped peaks and serrated ridges for travel. His son, Richard Ford, accompanied them on this trip and recorded their experiences in a series of articles published in the Minnesota Daily. The result is a book, "The American Schoolteacher in Making," which is a valuable addition to the literature of education.

The book contains a wealth of information about the conditions under which American schoolteachers work. It is written in a clear and concise style, and is highly recommended for all who are interested in education.

JOURNAL PUBLISHED BY NORMAL FACULTY

THE AMERICAN SCHOLARMAKER TO CONTINUE DEPARTMENTAL STUDY OF ARTS AND SCIENCES

The editorial board of The American Scholarmaker, in making its plans for the coming school year, is considering the advisability of continuing the departmental study of the arts and sciences. The policy initiated during the past school year has been very successful, and the studies have been conducted in a most interesting and stimulating manner.

The departmental study of the arts and sciences offers a unique opportunity for students to study the various branches of knowledge in depth. It is hoped that the policy initiated during the past school year will be continued and expanded in the coming school year.

A Language Number worked out by the direction of Dr. D'Oyo and Dr. Ford will appear early in the fall. In an early number there will appear an article by Dr. Kilpatrick of Columbia University. Teachers, therefore, are also invited to report on Professional Ethics, Mont-Saint-Michel St. M.A.T.

To students who are not acquainted with the Mont-Saint-Michel St. M.A.T., it is interesting to know that the faculty of the Mont-Saint-Michel St. M.A.T. is an institution of this kind which has just published a monthly educational journal. For the coming year the journal is to be published until it has become an established periodical among educational publications. The subscription price is lower than that of other periodicals. Only one dollar and twenty-five cents is required for a year's subscription.

The students who are interested in educational publications are encouraged to subscribe to the journal. At an early date the journal will be placed on exchange in the library so that students may be acquainted with its contents.

Memphis High School lays claim to the honor of having the largest number of faculty and students in attendance here this year. Between June graduates and four faculty members, 176 members of the school assembly, are enrolled. If any other school can beat this, we shall be glad to find it out.

Miss Greta Fortt, instructor in music at the Conservatory during the past year, was one of the teachers present. Miss Fortt, who is also the conductor of the university band, will be glad to discuss with any students who are interested in learning more about the Conservatory.

The total enrollment of the 1922 summer session of the Normal College was 208. Students enrolled in the Detroit branch of the college.

TRAILBLAZERS HAVE SUCCESSFUL PICNIC

EIGHT HUNDRED STUDENTS OUT FOR BIGGEST EVENT OF SUMMER

Wednesday, July 12, 1922, will be a day long remembered by all Trailblazers of the present senior class. As a result of the effort of a committee appointed for that purpose, this picnic proved to be the first of its kind ever held for the benefit of the students, present or prospective, as it was designed to increase interest in the school.

The trailblazing is the rule:

1. A teacher should actively affiliate with professional organizations of teachers.
2. A teacher should continue his understanding of the law of contracts is incumbent upon a teacher. Since a teacher should acquire knowledge and keep his agreements made, he should refuse to sign a contract that is being offered to him.
3. It is unprofessional for a teacher to pay off his debts by signing a mortgage application. This is an entirely new field for teachers.
4. It is unprofessional for a teacher to remain in his present occupation and take up the administration of his school.
5. It is unprofessional for a teacher to continue to complain about his work.
6. A teacher should not be permitted to make any contributions or suggestions to make the best interests of his school.
7. A teacher should not be permitted to sign anything that is submitted to him without his knowledge and approval.
8. It is unprofessional for a teacher to remain in his present occupation and take up the administration of his school.
9. It is unprofessional for a teacher to continue to complain about his work.
10. A teacher should not be permitted to make any contributions or suggestions to make the best interests of his school.
11. It is unprofessional for a teacher to measure his own performance by standards of a substitute except for serious reasons.
12. Teachers should be urged to measure their own performance by standards of the Public School Board.

SANILAC COUNTY PICNIC A SUCCESS

Sanilac County picnic at River- brink on Saturday, July 8, was a big success. Plans are made to repeat it next year. The Benton Harbor Junior High School band from the Detroit to the trailblazing picnic, it was an added pleasure to all.

Many new friendships were formed, and many more old friendships were renewed. There were three miles of all other such events did not become again.

Meet us as follows: Sanilac County Boat Picnic, August 5; Ypsilanti High School Band at the Rice Auditorium, August 10.

NEW PROFESSIONAL CODE FOR TEACHERS
(Continued from page one)
A teacher should be ready at all times to assist another by giving information, counsel and advice, and by such services and acts of teachers can perform, without legal restraint to themselves or their work, which reasonable services should be regarded as a professional duty for which remuneration beyond normal expenses should not be accepted.
A teacher should become informed in any dispute or factual differences indigenous to the community in which he is working.
A teacher should not withdraw for any criticism or issue or to seek to granm winning fellow teachers a spirit of understanding toward another branch, a principal, or the supervisor.
A teacher should be responsible for any teaching in similar to any school board another teacher for a definite period unless the position has been sufficiently clearly and relatively discribed.
