Quote: "There is nothing more difficult to take in hand, more perilous to conduct, or more uncertain in its success, than to take the lead in the introduction of a new order of things." - **Niccolo Machiavelli**

Fact: [February](#) is the shortest month and the only month with fewer than 30 days. The Roman month *Februarius* was named after the Latin term *februum*, which means *purification*, via the purification ritual *Februa* held on February 15 (full moon) in the old lunar Roman calendar.

\* ATTENTION LINUX SERVER ADMINS: A significant vulnerability was recently discovered that affects almost all Linux based servers. The vulnerability is designated CVE-2015-0235 by researchers and commonly referred to as "Ghost" in the media. The Division of Information Technology (DoIT) has patched and restarted all Linux systems operated by DoIT but due to the serious nature of this vulnerability, DoIT advises that all other Linux server(s) hosted on the EMU network must be patched and rebooted. Action must be taken as soon as practically possible to resolve this vulnerability. Servers that remain vulnerable (unpatched) may be disconnected from the campus network until they are updated and restarted.
