Defenders Will Be Last to Elect Representatives, and the Juniors Have Nominated theirs. In case the Junior members are elected in time, President McKenny will call the council to order.

The council is composed of five ex officio members: the presidents of the Degree, Senior and Junior classes, and the Secretaries of the S. C. A. and the Y. W. C. A., and the Y. M. C. A. Nine other members are elected by the classes and the S. C. A. As it now stands, the composition of the council will be as follows:

Senior members: Russell Mumford, Oscar Wood, Perry Frasier, J. Howard Pearl, East Tawas; Arthur Flanigan, East Tawas; Harvey, Ill.; S. B. Crouse, Ypsilanti; John Luidens, Music Co., published this at the suggestion of Professor Alexander last summer especially for this concert.

The faculty adopted a proposition submitted by the Woman's Council at their meeting Wednesday, Nov. 27, which will make a marked change in the student social activities. The proposition, or rule, as it now is, sets aside three weeks-end in each month for dancing parties, and three only. If such month consists of nine weeks, this means that two weeks out of the month cannot be used for dancing parties. The faculty has not yet decided which particular weekends will be reserved for affairs other than hoops, and it may be a week or two before the week is determined upon. The idea is to go slow on account of the many engagements which are already planned out. Probably the first announcement will come through the gymnastics in connection with the gymnastics of its floor for boys.

The purpose of the new rule is to encourage a greater interest in entertainments and entertainments of a more intellectual character than dances. The interdicted weeks are to be occupied with concerts, lectures, amateur theatricals, and so on. In this connection it is announced that the college will purchase a moving picture equipment for the entertainment of student social affairs of this sort, with the result that a greater interest in amusements is encouraged. A greater interest in amusements means that two weeks out of the month cannot be used for dancing parties. This policy will be put into effect immediately after the holidays.

Choir of 200 Voices Will Present Noel and Carols in Normal Hall Thursday Evening

The Normal Choir will be heard for the first time this season on Thursday night of next week, Dec. 12, in a program of Christmas music under the direction of Professor Frederick Alexander. The choir, which numbers 200 voices, is of especially beautiful quality and brilliancy this year, the body of men singers being much larger than ever before and the women's voices being of lovely quality and brilliancy.

Two French Noels by a small choir, with refrain by full choir, are among the most charming. The eighteenth century Noel arranged by Gevaert will have the first production in America outside of New York. The Boston Music Co. published this at the suggestion of Professor Alexander last summer especially for this concert.

Two English Carol s—one from the country method and one from a modern cantata by Mr. J. E. West of London—will be given by a small choir.

Two Bohemian carols will be repeated from the 1909 program, the folk song "Sille No流行" will be sung by German and Arcadian famous Ayre's "Maria" from the middle 15th century in Latin. The infield will be a super build to Tennyson's "Ring Out, Wild Bells" by Leopold Damchere, one of the finest specimens of part-song writing in the modern school. Solos on the subject of Christmas will be presented by Mrs. Gray, Miss Gilpin and Mr. Lewis James.

A new feature will be welcomed in the decoration of massed Christmas trees and a white floor covering. The unique and gracious character of this old music and to very strongly sing the choristers, make the Christmas concert probably the most attractive feature of the season.

The Athletic Council met Wednesday evening and arranged a Sweater for the 1912 football squad. The members who were elected are Rice, Barmiller, Ryerson, Crouse, Skinner, Moore, Wood, Goodwin, Pearl, Cline, Tennyson, Potter and Doyle.

Note.—If we have made any mistake in marking you up, call in and see us about it. Bring your receipt, if you have it, if not, all your persuasive eloquence.

HERE'S REAL CONSO LATION !

Cheer up, Normals! Things might be worse here, you know. Just read this clipping from the Almanian.

"Self-government has proven so sat. unactory to the faculty this year, that they have granted an amendment of privileges to the students. The young men may now wear their white caps, the young ladies and accompanying them to church Sunday evenings, provided they are back to the Hall by 9 o'clock."

THE GAS-JET

"The Winged Victory" (up-to-date)
The turkey that Thanksgiving dinner didn't get.

X—

"Poor chap—is for life, I suppose," mused the absent minded old man as he gazed vacantly at the sleeping zebra in a circus cage.

Nuthin' to it—that much rumored new rule about lights out at ten. The very idea of every landlady pulling her switch at ten! Rats! 'Tis all false.

X—

One of the fellows yesterday discovered while ruminating in psychology that the original cause of death is birth. Mauv-a-Laus!

X—

The gas man on requesting a friend to write a college yell for this week's "Jet" received the following reply: "The universal college yell—"Dad send me ten, P. D. Q."

X—

Back in those days of old when newspapers and books were all written on tablets of dried clay, the editors must have found it a lot easier to crack a joke. Oh, but them sure was the happy days!

X—

"I love noodle soup."
The young man did say.

At dinner one noon, to his dear, A mischievous thought came,

And she said,

"I love noodle soup,"

"Why-er-yes-so I hear:" .

One young U. of M. medic grad, a social center for the feminine students, China, spent Tuesday and Wednesday trying the new rule about lights out at ten. The committee in charge of preparing the new calendar feel that they have secured the handsomest one yet produced. The calendar is printed on a light brown cover paper, tied with leather thongs, and with the photograph finished in a sepia effect. The cover bears the beautiful oval of the front of the main building used last year. This photograph is a triumph of the photographer's art, and the printer has used a quality of ink in the printing that reproduces the rough, stone effect faithfully. The cover has the inscription, "Normal College Calendar for the Year of 1913" in gold bronze.

There are six sheets besides the cover, one for every two months. The first one shows the main building and campus in summer array, and a good portrait of President McKenny. The second sheet bears a photograph of Starkweather and the Science building, in winter attire, while the portrait on this sheet is that of Professor Harvey, the genial and popular ex-teacher. The third portrait is of Prof. Frazier, Junior, Oscar Wood, Senior, and Russell Mumford, Degree president. The fourth portrait is of Dean Grace Fuller, Junior, Oscar Wood, Senior, and Russell Mumford, Degree president. The fifth sheet gives a glimpse into one of the college's strongest and most interesting departments, that of Household Arts. The Domestic class in Domestic Arts is shown standing in uniform around their cabinets. A good portrait is included of Dean Grace Fuller, who has been the guiding spirit in developing household arts to its present plane in the institution.

The popular pivoting device for exhibiting the "president of the greatest class in the Normal," is a feature of the final sheet. The portraits of Perry Frazier, Junior, Oscar Wood, Senior, and Russell Mumford, Degree president, are placed in a triangle, and fastened to the sheet so that it may be revolved at will, bringing on top any one of the three portraits and leaving the other two inverted. Of course you revolve it according to your sense of loyalty, without regard to beauty, as in the latter case the Juniors would undoubtedly have the right of way.

"Twas V. Van Buren, the night-watch, or as he is better known, "By Hel," closing the series with his ever-present lantern, in his hand.

Watch for the appearance of the calendar next Tuesday. Price, twenty-five cents.

Y. W. C. A

A number of interesting items were received at the News office too late for last week's issue, which came out two days early in time to catch the students before going home for Thanksgiving. We trust that this explanation will make things apparent to those contributors who did not find their items in last week's issue.

A stranger passing in the vicinity of the campus in the Wednesday morning would have noticed numerous glimmering from the second story windows of several roaming houses. To remove all suspicion from our worthy class mates, the News wishes to announce that it was just a group of studious seniors drawing those "papers on Arithmetic" to a fitting close.

quarter.

Alma has submitted her choice of
question for the triangular debates this
year between Alma, M. A. C., and
Normal College. Alma's proposition
is the rather well-worn proposition of
electing U. S. senators by popular
vote. The Oratorical Board will meet
this afternoon in room 51 at 3 o'clock
for the purpose of deciding upon some
questions to submit in rejoinder. The
questions of tariff for revenue only

seem to be favorites among the Board
members.
