A GREAT SERVICE

WELL PERFORMED

Students' Christian Association Takes
Care of New Students in Fine Order

The Students' Christian Association never illustrated its real helpfulness to the student-body better than during the first week of college. Letters had been sent some weeks before college opened and its members were on the ground ready, easily to take a share in whatever service the Association should assign them. The service rendered the new students by the Association was more varied than ever, and Starkweather Hall, the home of the Association, was an extremely busy place all the first week. The students commented coming Thursday and Friday, until Saturday and Monday it raised students. Every train was met by guides wearing the Association badges who helped newcomers to locate themselves and make themselves of assistance in every way possible.

By utilizing the first issue of the Normal College News, the effect of the Association's work was greatly increased. The News got out a twelve page edition of some three thousand copies in time for use on Saturday. On the first page of the issue appeared a notice of the services offered new students by the Association, and this notice was marked in blue pen and to further attract immediate attention. The Association sent men to Wayne Weather Hall, and to Ann Arbor with bundles of this issue to distribute on the interurban cars and in the trains, in this way giving newcomers an excellent opportunity to be prepared to make use of the aids awaiting them at the local depot.

At Starkweather Hall an employment bureau did good work in bringing into the student-body those looking for work together. The Association advertised in the local daily for each work and had a nice list of positions to offer. The Association presented the work even more efficient next year.

The Classification Bureau maintained in Normal Hall was a great benefactor to students who had never gone through the office for the first time. The office was an annual affair, corresponding to the 'stand-by' of many other colleges.

S. G. A. RECEPTION

Get in on the S. C. A. reception to Normal and Gless students at the Gymnasium at 8 p.m. New students will find this the best way in which to meet their classmates. This reception has an annual affair, corresponding to the 'stand-by' of many other colleges.
Why WALK-OVER?

Because they are known as good shoes all over the world, first in style, comfort and wear. You are invited to call and see our new Fall Models. Come in, be fitted to Walk-Over and give your feet a treat.

Alumni to Meet and Banquet at Grand Rapids

The Alumni Association will open headquarters at the Michigan State Teachers’ Association meetings at Grand Rapids, Ocl. 31 and Nov. 1, at the Hotel Norton. The Alumni banquet will take place Friday night, Ocl. 31, at the Hotel Palm-land. No plates will be reserved unless paid for in advance. The price is one dollar the plate, and tickets may be secured from C. E. Stelma, Yeaple, the secretary of the Association. The names of the speakers at the banquet can be announced in our next issue. Alumni can feel certain that everything will be done to make them feel at home at the Association headquarters. Write in and reserve your plates for the banquet while it is still fresh in mind.

Household Arts

A new departure in the Household Arts department is a publicity committee appointed by the Senior class, whose duty it is to keep Household Arts graduates who are now in the field in touch with the work being accomplished by their department. The cooperation of these former students is, of course, necessary for the success of this innovation. All items of interest should be sent to Miss Nola Johnson, who has been appointed manager of the publicity committee. Any reports from former students concerning their work will be very acceptable.

That the change from a two to a three years course in the Household Arts department has been well received throughout the state is now an established fact, proven by the large enrollment of Saturday and Monday. The registration for the freshman class, which will replace the Junior class, is as large as in former years. The members are exceptionally well prepared, many bringing advanced credits beyond the four years high school requirement.

Several former Household Arts students have returned to take up work leading to the B. Ed. degree, a fact which speaks of the appreciation in which the work of the department is held.

You can't do better than to get acquainted with the good things at O'Conner's Boot Shop.

Big Increase at Michigan

What would appear like a record-breaking year in the matter of attendance has opened at the University of Michigan. In the law department and in the school of homœopathy there has been a falling off of freshmen students, the requirements for admissions having been raised and more literary work demanded. The literary department will probably increase proportionately. The engineering department has shown great activity all along. There are now four young women taking the regular course, two of whom are entering this year for their first work. The other departments seem to be holding their own, and everything points to a big year.

New Rules in Football

1. The offensive team is given four downs to make ten yards instead of three as heretofore.
2. The value of the touchdown is increased from five to six points.
3. The playing field is reduced in length from one hundred ten yards in one hundred yards.
   a. The outside kick is abolished.
   b. The forward pass is retained and in addition a touchdown is permitted even when the ball is caught over the goal line.
   c. The time between the first and second and third and fourth quarters is reduced from two to one minute.

You will enjoy dealing with O’Connor. All the latest models in fine college boots and satisfaction guaranteed.

Points on the Library

Students can save themselves much time and annoyance by examining the little leaflet on “How to Use the Library,” to be found on the railing at the library call desk. Even a cursory reading of this leaflet will save the students from asking many unnecessary questions and will facilitate the process of learning how to get the most out of the hours spent in the library reading room.

The library is on the north wing of the main building. It contains 35,000 volumes and receives 200 periodicals and annuals. It is first of all a working library, its books being selected by the various departments of the faculty and being therefore of especial value to a student in a teachers’ college.

The entire library staff does individual work at all times in assisting students to find what they want. Their help may be secured at any time by asking at the reference desk.

The library is open from 7 a.m. to 9 p.m. on all school days, and from 7 to 12 Saturday mornings,—longer hours than is usual in libraries of this class.

O’Connor’s Specialty Boot Shop caters especially to the Normal student.

Don’t forget to call at the News office and redeem your contracts.
President McKenny will welcome every girl who comes to Starkweather Hall, Sunday afternoon at 2:45. This is a personal invitation for each girl to attend this meeting. Every girl is invited to visit the reading rooms at Starkweather Hall, to attend the Y. W. C. A. and Sunday evening services, and to join the Association. Don't wait to be asked. All are welcome anyway.

Many new students have been asking as to the meaning of the letters S. C. A. as prominently displayed around the campus the last few days. Let us put it this way, making what may be best called a well-balanced equation. Y. M. C. A. plus Y. W. C. A. equals S. C. A., or The Young Men's Christian Association plus the Young Women's Christian Association equals the Students' Christian Association. Do you get it?

Meet at the following places and Y. W. C. A. girls will go with you to the church you are accustomed to attend Be prompt at 9:45 a.m., Sunday, Oct. 6.

Methodist—(a) Cor. Cross and Hal­lard. Gertrude Puck. (b) Stark­weather Hall, Vera A. Moore.

Presbyterian—(a) Cor. Normal and Earps, Lila Fawson. (b) Cor. Perrin and Cross, Minnie Lowry.

Congregational—(a) Cor. Emmet and Brower, Ethel Huntington.

Episcopal—(a) Cor. Emmet and Perrin, Perrie Phinney.

Catholic—(a) Zwergel’s Corner, Miss Quinn.

Come and get acquainted with girls from your own church.

The new men of the College are most cordially invited to attend the meetings of the College Y. M. C. A. at Starkweather Hall, and to join the association. Application cards for membership can be secured from any members at any time.

The first public meeting of the men will be held Sunday afternoon at 2:45. Every man in college is urged to be present and hear Prof. Webster Pearce, whose topic will be "Inside and Outside."

FRIDAY, OCT. 4

College Calendar

Friday, Oct. 4—Reception in Junior at 8:30 p.m.
Saturday, Oct. 5—C. A. reception at all students at Gymnasium, 8:30 p.m.
Sunday, Oct. 6—S. C. A. meetings at MacKinnon Hall. Dr. Prouse will address the men over and President McKenny the women.
Monday, Oct. 7—Junior assembly at Normal Hall at 8 a.m.
Tuesday, Oct. 8—Senior Assembly at Normal Hall at 8 a.m.
Tuesday, Oct. 8—Senior Class meeting in Normal Hall at 4 p.m.
Wednesday, Oct. 9—S. C. A. mid-week meetings.

The Political Situation

Normal students are interested in politics. We know it because a friend kindly presented us with a bull Moose coin, and we have been wearing it since, and taking the consequences. The consequences are that we have friends unknown to us formerly, and that some of our old friends remain despite it. The political situation is a topic of conversation no less alive in college circles than elsewhere.

What is the political situation? As we see it, we have the shell of one party, led by a well-meaning man who doesn't himself know what he wants and on the other hand is afraid to trust its people's knowing what they want. A man who has been busy apologizing ever since he took the presidency and began his successful career of losing efficient public servants and attracting those with an axe to grind. As far as we can account, this man has no right to be running for office at all. The people repudiate him wherever they were allowed to express themselves. A few weeks ago Gov. Cummins of Iowa announced that he could not vote for Mr. Taft. This is an indication that the right man is not the rightful nominee of the party. Only this week Gov. McGeever of Wisconsin made a similar announcement. He said that Taft's nomination was stolen from him in the convention and saw it done.

In the Democratic party we have the spectacle of a splendid and upright man heading a party that is half-free, if the fraction is that large. There is no question that Mr. Wilson is a type of man whom we would do well to respect. But we cannot—forget that it is not merely a question of putting a man in the White House. We will do nothing there unless he receives the right sort of support. A presidential election carries the whole national and state ticket—all along the line; a Democratic president means, usually, a Democratic state ticket. We believe that this will hold true this year as formerly, and we believe, therefore, that a vote for Wilson is a vote for Tammany in New York, Sullivan in Illinois, Taggart in Indiana, the reactionary Democratic leaders in the South, and all the rest of that ugly plunderhouse which has infected the Democratic ranks no less than the Republicans. Grover Cleveland was elected by just such a half-free organization to revise the tariff downward. What happened? His work was trifled with and absolutely blocked by the standpatters who had helped elect him, until he turned upon them, his own party adherents, and called them out and out traitors. Is there anything in the present make-up of the Democratic party to lead us to think that such will not be the result this time? Remembering how narrowly Wilson scraped through at the Baltimore convention, we confess our inability to see it.

But we have a third party in the field, appealing to the people from a platform the broadest and most humanitarian that any party has yet adopted—a platform that, carried into effect, would bring us up to the level of constructive legislation attained by the more progressive nations of the Old World. This party is led by a man who is regarded by many as a scheming demagogue, who would betray friends, wreck parties and uproot almost anything to encompass his own ends. They don't like his style of carrying a soap and a spade, but then, neither do the others. They regard him as insincere. But in all this brambles of fate and ridicule, let us not forget that the new party is composed largely of men and women who have no special interests to protect, who are amateurs in practical politics, and who are weary of broken pledges and public servants that forget their obligations. Is there any reason why such a party should take it upon itself to further the ambitions of a mere demagogue? Men like Upham, John, Gifford Pinchot, Ben Hiram Johnson, Oliver Woodruff, Lincoln, Oscar Straus and Governor Bliss have been fighting tricky and false politicians all along the line; a Democratic state ticket all along the line; a Democratic president means, usually, a Democratic state ticket. We believe that such wlll not be the result this time. Remembering how narrowly Wilson scraped through at the Baltimore convention, we confess our inability to see it.

CAMPUS HAPPENINGS

James Warren has a position at Material King.

Miss Teneriffe Tompkins, '12, was a week-end visitor on the campus.

Joseph Flane, B. Pd. '12, has entered the library department at Michigan.

William Patton, who was in school last year, is a Ill at Michigan this fall.

A. A. Rodden of Dundee was a campus visitor on classification day.

Miss Lucile Randall, '12, is teaching at Dexter, visited friends here this week.

Work has started off nicely in the kindergarten department with thirty-
two children and a week-end visitor on the campus.

teaching at Dexter, visited friends here this week.

Miss McKenzie of the English department will use the new room on the second floor at the west end, which is numbered 44a.

Herbert D. Royal, '12, dropped in on Miss Adams, spent Friday with Miss Adams of the training school.

Mr. C. N. Wood, secretary to Booker T. Washington of Tuskegee Institute, Alabama, visited Michigan last week helping her sister through the procedure of classifying.

Normal friends Wednesday. Mr. Roy-

is taking work in the literary depart-

ment at Michigan.

Miss Ruth Chadwick, '12, who is teaching in Highland Park, was here last week helping sister through the procedure of classifying.

Mr. C. W. Wood, secretary to Booker T. Washington, Tuskegee Institute, Alabama, called Wednesday to see about arranging a lecture from the great negro educator.

The senior kindergarten girls gave a farewell reception to the junior girls in the kindergarten room from four until five on Wednesday. Tea, coffee, and sandwiches were served.

Miss Hins, instructor in reading, visited Mr. and Mrs. Parkins at Chic-

tree, and sandwiches were serverl.

Mr. Dickerson is principal of Farine City high school and Monday. Mr. Dickerson is principal of Farine City high school and

hands with old friends here Saturday and Monday. Mr. Dickerson is principal of Farine City high school and looking things were prosper-

ing with him.

Porter Graves, vice-principal of Central High School, Kansas City, was the guest of Dr. Harvey over Satur-

day. Mr. Graves is on his way east for the purpose of inspecting schools which give vocational training.

There were rumors around the cam-

pus this summer that President Mc-

Kenny would be formally inaugurated this fall some time, but so far as is known now, the ceremony will not take place until next Commencement.

Professor Bowen announces that those who failed to take the eye and ear tests Saturday or Monday may do so Saturday morning, at the gymnasium, 9 to 12. This is positively the last opportunity of registering these tests.

Professors Roberts, Everett and Elliott attended the Progressive rate convention at Lansing Tuesday as delegates from Washtenaw county. All three gentlemen report enjoying the meeting, all comment and most enthusiasm convention ever.

The well known firm of D. Apple-

ton Co has published Professor Gorton's new "Manual of Laboratory Exercises in Physics." This manual is quite different from the older manu-

al written by Professor Gorton and published sixty years ago, and is intended to accompany his new high school text in physics.

A big social fellow came to the News office Monday morning with all his good wishes replaced by woe. He explained that her landlady was charging seventy-five cents for parlor rent, or she told him he'd have to find a girl who thought he was worth it. Please, girls, be prompt about leaving your names at the News office, and do put Wood back on his feet again.

A large publishing house at Madrid, Spain, recently wrote Dr. Harvey for permission to translate into Spanish and publish in Spain his four volumes on psychology. The publishers' idea was to combine them into two volumes or perhaps a single one. The books are "Physiological Psychology," "Functional Psychology," "The Thinking Process," and "Mental Gnomology.

Dr. Harvey granted the request, which is by no means the first one of the kind.

The men's debating clubs have been busy lining up new material and busi-

dness meetings of the two clubs are called for Saturday morning. The Lincoln meets in room 57 at 8 o'clock, and the Websters in the high school session room at 8 o'clock. New men who are interested in debating will undoubtedly be welcomed at either meeting and be introduced to the members.

A number of Normalites went over to Ann Arbor, to hear Professor Wes-

ley of the philosophy department ad-

ress the new students in a monthly service at St. Andrew's Episcopal church. Dr. Wesley gave a great deal of good advice to the freshmen, but the most characteristic thing that he said was that he never could understand how such a great university as Michigan came to be located in a miserable village like Ann Arbor.

A set of constructive Bible studies published by the University of Chi-

cago Press, has been placed in the library for the inspection of those who may be interested. These studies represent an intelligent and scholarly effort to prepare a series of texts for use in graded Sunday schools. The kindergarten, the elementary school and the high school grade are all rep-

resented by studies and manuals designed to meet their particular prob-

lems. All who are interested in modern religious education will take pleasure in examining these volumes.

CONCERNING OUR PRESIDENT

To those who were readers of the News last year, or who were in sum-

mer school, President McKenny will need no introduction, but for the ben-

efit of those who enter Normal College for the first time, the News reprints President McKenny's biography.

Our new president was born near Lansing and lived on a farm until he was seventeen years of age. In 1877 he entered the Michigan Agricultural College and graduated from there in 1881. From 1882-1885 he taught in the eighth grade at Charlotte and dur-

ing the two following years was prin-

cipal at Vermillion, Mich. He then spent two years in Olivet College, where he received the A. B. degree. The following seven years were spent as a teacher in the preparatory and history departments of Olivet College. From 1896-1906 he was principal of the Mt. Pleasant Normal school, re-

signing to accept the presidency of the Wisconsin Normal at Milwaukee, where he served until this summer. He has been twice president of the National Association for the Study of Education.

EDMUND M. CONKLIN, ’12, and Miss Mae Baron of Oak Grove, Mich., were married this summer in Nashville, Tenn. Mr. Conklin took his certificate in March, and filled out a vacancy in the supervisory work at Vassar during the spring quarter. He will act as superintendent at Ridgeland during the present year.

Fred J. Fricke, A. B., ’12, is specializing in mathematics and chemistry at Columbia University this year.

James P. Shirley, B. S., ’12, writes that he is studying in Cornell University.

Miss Alba Mae Buck, ’11, of Monroe, Mich., and Mr. Ben Nor Dean, were married July 15th. Mr. Dean is city editor on the Grand Rapids Herald.

Carlton Ruedman, ’11, has taken a position as Secretary of the Y. M. C. A., Saginaw, W. S.

Amos A. Moggy, ’11, who acted as principal of Marlette high school last year, is writing insurance for the Northern Insurance Co. of Detroit.

George W. Frasher, ’12, writes that he has a pleasant supervisory capacity at Coleman, Mich. with a downtown kindergarten to care for excess attendance, a promising football team, and a new fire drill that empties the building in record time. We infer from his letter that he is still a genial bachelor.

Albert A. Riddering, ’16, superintend­ent from 1910 to 1912 at Dearfield, is acting in a similar capacity at Dundee.

Miss May Magary, ’11, and Mr. Floyd Hoe were married July 8th at Port Huron, Michigan.

At the home of her parents in Grand Rapids, Miss Avis Mary Lilly was married Tuesday, August 20th, to Mr. Joseph Thompson, son of Benjamin Thompson of Ypsilanti.

Both are well known in this city and have been prominent in local social circles. Mrs. Thompson is a graduate of the Michigan State Normal College, having completed her course in 1910. She was a member of the Zeta Phi sorority and was prominent in social circles.

Mr. Thompson graduated from the Ypsilanti high school and studied one year in the Normal College. Since that time he has been affiliated with his father in business. He was a member of the Arm of Honor fraternity and has a wide circle of friends both in city and college circles.

Mr. and Mrs. Thompson will be at home in Ypsilanti at 101 East Cross street after October 1.

Ralph M. Sprague, ’08, is superintendent at Frankfort this year.

Harold K. Williams, W, who assisted in American History at U. of M. last year, is teaching history in Toledo Ohio high.

Edward M. Steinle, W, and Miss Laura Aldrich of Hilldale were married June 22nd. Mr. Steinle has declined a handsome increase in salary as assistant physical instructor at Detroit Central high, and will assist in his father-in-law’s real business in Hilldale.

Miss Margaret Beune, Ypsilanti, and Mr. William McCarty, ’06, were married this summer in St. Joseph Catholic church by Father Kennedy. Mr. McCarty is principal of the high school at Chester, West Virginia.
After graduation days are over and life's battles are being fought out in the big, wide world, there comes a satisfaction to him or her who has graduated from an old and well attended institution that is never enjoyed by the graduate of a small school. For go where they will the graduates of the larger institutions are sure to meet other sons and daughters of the old Alma Mater. When "grad mets grad" ties of friendship are sure to develop, for they stand on common ground. The same gray walls have sheltered both, the same teachers have taught both. They can sing, they can yell, they can recall old jokes; for songs, yells, and professor's jokes after all have the same ring in them from year to year.

CHICAGO ALUMNI HAVE THE BIG, WIDE WORLD, there comes a call for songs, yells, and professor's jokes. All have the same ring in them from year to year.

CHICAGO ALUMNI HAVE 'FEED' ties of friendship. To further the ties of friendship a "feed" was arranged in Jackson Park and on the sandy beach of Lake Michigan. Since in Chicago the parks are made for the people and there are so "keep-off-the-grass" signs, a fire was built over which we boiled coffee, roasted the "purps," and rejuvenated the doughnuts. The following students and alumni were present:

Prof. O. O. Norris, Miss Loulu Newton, Mr. and Mrs. H. J. Rivette, Benj. Pittenger, C. D. Carpenter, Mr. and Mrs. Joseph Kempster, Miss Alta Loomis, Mrs. and Mrs. Joseph Kempster, Miss Jessie Pittenger, C. D. Carpenter, Mr. and Mrs. A. E. Parkins. Mr. Gainard, Miss Hazel Meyer, Mr. C. A. Caufield, Miss Baker graduated from the Normal in 1895 and received a master's degree from Texas University last June. He will take work in Chicago next year.

Mr. C. D. Carpenter, B.P. 06, A.B. 08, has been associated in chemistry in the University High school, School of Education, for the last three years. He goes to Teachers' College, Columbia University, as instructor in chemistry.

Mr. Kempster was a student in the Normal at one time and received an A.B. from the U. of M in 1911 and is doing graduate work in botany in Chicago. She will be in residence again this year.

Mr. C. A. Caufield, B.P. 06, is teaching physics in the Central High School, Detroit. He has spent several summers at Chicago.

Mr. Caufield was a student at the Normal in 1894-95. He went to Teachers' College, Columbia University, as instructor in chemistry.

Mr. Warner Jennings was a student at the Normal in 1900-01. Before coming to Chicago he was superintendent at Livingstone, Montana. He will be in residence again this year.

Mr. Gainard was a student at the Normal in 1900-01. Miss Lulu Paxton. She graduated from M. S. N. C. in 1896. Miss Hazel Meyer, '09, since leaving the Normal has taught at Tucson, Los Angeles, and is now in the Detroit schools.

Mr. Caufield was a student at the Normal, principal of Yeomans, 0., and will take work again this year in Chicago University.

Mr. A. E. Parkins, B.P. 06, A. B. '11, B.S. (Chicago), '12, will do graduate work again this year at Chicago.

Miss Loomis has been summer instructor at the Davis Center, one of Chicago's public playgrounds.

Mr. Warner Jennings was a student at the Normal in 1894-95. Before coming to Chicago he was superintendent at Livingstone, Montana. He will be in residence again this year.

Mr. Caufield was a student at the Normal, principal of Yeomans, 0., and will take work again this year in Chicago University.

Mr. A. E. Parkins, B.P. 06, A. B. '11, B.S. (Chicago), '12, will do graduate work again this year at Chicago.

It was not strange, therefore, that the Normal College should be well represented at the 1912 Summer School of Chicago University. A partial list of those in attendance showed over thirty. It was delightful to meet on almost any day a half dozen old friends. To further the ties of friendship a "feed" was arranged in Jackson Park and on the sandy beach of Lake Michigan. Since in Chicago the parks are made for the people and there are so "keep-off-the-grass" signs, a fire was built over which we boiled coffee, roasted the "purps," and rejuvenated the doughnuts. The following students and alumni were present:

FACULTY VACATIONS
Miss Ella Wilson, fifth grade training teacher, spent her vacation in travel abroad. The greater amount of her time was spent in England, Germany and Switzerland. She went in company with three young women friends whom she met while a student at Cornell University.

Miss Adela B. Jackson, second grade training teacher, in company with Miss Bowl of the history department, sailed for Europe June 15, returning for her work at the opening of the regular college year. The major part of the time was spent in England, Scotland, Germany and France.

Miss Elizabeth McCrickett, third grade training teacher, spent her summer in travel through the western part of the United States. She went by the northern route spent considerable time in Washington, Oregon and California, returning by the southern route where she stopped off in New Mexico to visit friends with whom she had made acquaintance while she was a teacher in that state.

Miss Alma Bissell, of the English department and Miss Mary Putnam, assistant professor of History, spent the summer traveling in northern Italy, Austria and Germany.

Miss Pearl Clark, seventh grade training teacher, visited friends on Long Island during the summer, and spent the remainder of her vacation camping along the Hudson and in the Adirondacks.

Miss Evelyn Gardner of the English department spent the summer in the Adirondacks and Catskill mountains.

Miss Estelle Dowling spent seven weeks of her vacation in the interests of Equal Suffrage. She visited a number of Michigan towns and delivered thirty-nine addresses.

The enrollment at the girls "gym" has nearly reached the nine hundred mark. Twenty-five Juniors have registered for special training in this department. This number is more than Mrs. Horton can accommodate, a selection will necessarily have to be made.

Physical Training: in cross country walking and tennis classes begin active work at once. During the two weeks of physical examinations cross country walking will take the place of the regular Physical Training classes. A new feature of these walks is to let each girl determine whether her walk be long, short, or medium.
